MINUTES

**REGULAR MEETING
TUESDAY MORNING, JANUARY 8, 2019
10:00 A.M.**

Present: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.

SPECIAL ORDER CALENDARS

212-97-BZ

APPLICANT – Snyder & Snyder LLP, for Gunther Development Corp., owner; Pinnacle Towers, LLC, lessee. SUBJECT – Application August 22, 2018 – Amendment of a previously approved Special Permit (§73-30) permitting the operation of a non-accessory radio tower which will expire on September 15, 2018. The amendment seeks to remove the discretionary condition of term and remove a term for the subject use. R1-1 zoning district.

PREMISES AFFECTED – 10 Highpoint Drive aka 140 Merrick Avenue, Block 878, Lot 380, Borough of Staten Island.

COMMUNITY BOARD #1SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application under ZR § 73-11 for an amendment to permit, in an R1-1 zoning district, the removal of the term of a special permit, previously granted by the Board, which allows an existing non-accessory radio tower designed to resemble a lighthouse; and

WHEREAS,, a public hearing was held on this application on January 8, 2019, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, Community Board 12, Staten Island, recommends disapproval of this application for an amendment to remove the term of the subject special permit, stating that this radio tower has operated to the mutual benefit of the owner and the community and that it is also beneficial in regards to emergency communications on Staten Island and the growing wireless communication field, while blending into the neighborhood with its lighthouse aesthetic; and

WHEREAS, New York City Council Member Steven Matteo submitted testimony in opposition to this application for an amendment to remove the term of the subject special permit, stating that this radio tower has operated to the mutual benefit of the owner and the community for nearly 20

years and that its success can be attributed in large part to the accountability that the owner has to the community through the Board’s jurisdiction and review; and

WHEREAS, the subject site is located on the south side of Merrick Avenue, in an R1-1 zoning district, on Staten Island; and

WHEREAS, the subject site has approximately 100 feet of frontage along Merrick Avenue, between 123 and 136 feet of depth, 12,947 square feet of lot area and is occupied by a radio tower structure designed to resemble a lighthouse; and

WHEREAS, the Board has exercised jurisdiction over the subject site since September 15, 1998, when, under the subject calendar number, the Board granted a special permit to permit the construction of a non-accessory radio tower and accessory equipment for a term of twenty (20) years, expiring September 15, 2018, on condition that repairs and service of the tower be limited to Monday through Friday, 9:00 a.m. to 5:00 p.m., that fencing and landscaping be maintained in accordance with the Board-approved drawings, that the antennae and accessory equipment be encased within the stealth structure as depicted for “Alt. Plan A,” that all generators and mechanical equipment be baffled, that there not be any trespassing on neighboring properties to access the subject site and that the above conditions appear on the certificate of occupancy; and

WHEREAS, on November 8, 2001, the Board approved minor changes to the non-accessory radio tower, including modifications to the base of the facility and subdividing the subject site into a separate tax lot and separate zoning lot as it currently exists; and

WHEREAS, the term of the special permit having expired, the applicant now seeks an amendment to eliminate the term; and

WHEREAS, the applicant states that the subject site is in compliance and will continue to be in compliance with applicable conditions for the following reasons: service and repair will continue to be limited to Monday to Friday, 9:00 a.m. to 5:00 p.m., and since this is an unmanned facility, service visits are infrequent and often accomplished by one or two technicians with most work being performed within the structure; that fencing and landscaping will continue to be maintained in accordance with the Board-approved drawings; that all antennas and accessory equipment are contained within the existing lighthouse-like structure and that an accessory building has been demolished pursuant to applicable permits; that the generators and mechanical equipment at the subject site have been baffled and in 2001 the applicant received approval for the replacement of the originally approved generator; that this application was filed prior to the expiration of term; that the subject site has its own access, and the applicant will continue to respect and comply with the condition that there be no trespassing; and that the applicable conditions of the Board’s grant have been included on the certificate of occupancy for the subject site; and

WHEREAS, the applicant submits that the non-

MINUTES

accessory radio tower complies with all applicable rules and regulations regarding radio frequency emissions and that there are no pending violations, summonses or court actions regarding the non-accessory radio tower or the subject site; and

WHEREAS, at hearing, in response to community concerns, the Board discussed whether removal of the term of the subject special permit would be appropriate for this application and finds that, because seeking renewal of the subject special permit would not be onerous, an extension of term of twenty (20) years would be more appropriate to ensure continued compliance with the Board's conditions; and

WHEREAS, the applicant has satisfactorily demonstrated compliance with the conditions of the previous term and the Board finds that the circumstances warranting the original grant still obtain; and

WHEREAS, based upon its review of the record, the Board has determined that an extension of term of twenty (20) years is appropriate with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated September 15, 1998, so that as amended this portion of the resolution shall read: "to *permit* an extension of term of twenty (20) years, expiring September 15, 2038; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received August 22, 2028"-Five (5) sheets; and *on further condition*:

THAT this grant shall be limited to a term of twenty (20) years, expiring September 15, 2038;

THAT repairs and service of the tower shall be limited to Monday through Friday, 9:00 a.m. to 5:00 p.m.;

THAT fencing and landscaping shall be maintained in accordance with the Board-approved drawings;

THAT the antennae and accessory equipment be encased within the stealth structure as depicted for "Alt. Plan A";

THAT all generators and mechanical equipment be baffled;

THAT there not be any trespassing on neighboring properties to access the subject site;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number ("BSA Cal. No. 212-97-BZ"), shall be obtained within four (4) years, by January 8, 2023;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure

compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted."

Adopted by the Board of Standards and Appeals, January 8, 2019.

219-97-BZ

APPLICANT – Eric Palatnik, P.C., for Remica Property Group Corp., owner.

SUBJECT – Application May 11, 2018 – Extension of Term of a previously approved Variance (§72-21) which permitted the operation of an Automotive Service Station (UG 16B) with accessory uses which expires on February 23, 2019. R3-2 zoning district.

PREMISES AFFECTED – 130-11 North Conduit Avenue, Block 11864, Lot(s) 13, 16, Borough of Queens.

COMMUNITY BOARD #10Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for an extension of the term of a variance previously granted by the Board, which will expire on February 23, 2019; and

WHEREAS, a public hearing was held on this application on October 30, 2018, after due notice by publication in *The City Record*, with a continued hearing on January 8, 2019, and then to decision on that same date; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the subject site and surrounding neighborhood; and

WHEREAS, the subject site is comprised of two tax lots located on the north side of North Conduit Avenue, bound by 130th Street and 130th Place, in an R3-2 zoning district, in Queens; and

WHEREAS, the site has approximately 172 feet of frontage on North Conduit Avenue, 208 feet of frontage on 130th Street, 178 feet of frontage on 130th Place, 31,150 square feet of lot area and is occupied by a one- (1) story automotive service station (Use Group ("UG") 16), with six (6) multiple product dispenser ("MPD") gasoline pumps, and 15 off-street accessory parking spaces; and

WHEREAS, the Board has exercised jurisdiction over the subject site since February 23, 1999, when, under the subject calendar number, the Board granted a variance, pursuant to ZR § 72-21, to permit the construction and use of an automotive service station with an accessory convenience store (UG 16) in an R3-2 zoning district, on condition that all work shall substantially conform to BSA-approved plans as they apply to the objections cited in the

MINUTES

application; the following conditions set forth in the Conditional Negative Declaration adopted by reference therein be complied with: the applicant notify the New York City Department of Transportation's ("DOT") Office of Project Analysis six (6) months prior to completion and occupancy of the proposed project so that the DOT can investigate the feasibility of implementing the traffic mitigation measures delineated in the Conditional Negative Declaration dated September 2, 1998, and the applicant implement any of the delineated measures which the DOT deems to be necessary; the site be kept graffiti and debris free; the term of the variance be for 20 years, expiring on February 23, 2019; the above conditions appear on the certificate of occupancy; the development, as approved, be subject to verification by the Department of Buildings for compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under the jurisdiction of the Department; substantial construction be completed within four (4) years, by February 23, 2003; and

WHEREAS, on December 10, 2002, under the subject calendar number, the Board granted an amendment to the variance to permit the alteration to various signage, resulting in a decrease of 43 square feet of total signage, and to permit the addition of a 35 feet by seven (7) feet addition to the existing building, on condition that the premises be maintained in substantial compliance with the proposed drawings submitted with the application; other than as amended the resolution be complied with in all respects; the above condition appear on the certificate of occupancy; a certificate of occupancy be obtained within 18 months, by June 10, 2004; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; the approved plans be considered approved only for the portions related to the specific relief granted; and the Department of Buildings ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted; and

WHEREAS, the term of the variance to expire on February 23, 2019, the applicant seeks a 20-year extension of the term; and

WHEREAS, at hearing, the Board requested plans showing the existing landscaping on the site—including quantity, size and spacing—and such plans were submitted into the record; and

WHEREAS, with regards to signage at the site, the applicant submits that there is three (3) square feet of non-illuminated and 46.95 square feet of illuminated non-flashing signage on the North Conduit Avenue frontage of the site; there is six (6) square feet of non-illuminated and 49.7 square feet of illuminated non-flashing signage on the 130th Street frontage of the site; and there is 15 square feet of non-illuminated and 21 square feet of illuminated non-flashing signage on the 130th Place frontage of the site in compliance with C1 signage regulations; and

WHEREAS, by letter dated December 17, 2018, the Fire Department stated that it had no objection to the application and confirmed that a review of Fire Department records indicates that the subject automotive service station is current with all Fire Department permits with respect to storage of combustible liquids, leak detection equipment, underground storage tank and the fire suppression (dry-chemical) system; and

WHEREAS, the Board finds that 20-year extension of the term of the variance, originally granted in 1999, is appropriate with conditions previously imposed by the Board and with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *amends* the resolution, dated February 23, 1999, as amended on December 10, 2002, so that as amended this portion of the resolution reads: "to grant an extension of the term of the variance for a term of 20 years, to expire on February 23, 2039, *on condition* that all work and site conditions shall comply with drawings filed with this application marked "Received December 20, 2018"-Six (6) sheets; and *on further condition*:

THAT the term of the variance shall expire February 23, 2039;

THAT shrubs shall be trimmed and all landscaping be maintained in first rate condition;

THAT the site be kept free of graffiti and debris;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a revised certificate of occupancy, also indicating this approval and calendar number ("BSA Cal. No. 219-97-BZ"), shall be obtained within one (1) year, by January 8, 2020;

THAT all conditions from prior resolution not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, January 8, 2019.

APPLICANT – Sheldon Lobel, P.C., for Courtwood Capital LLC, owner; Grandave Fitness Inc. (d/b/a L Train CrossFit), lessee.

SUBJECT – Application March 24, 2016 – Special Permit (§73-36) to permit a physical culture establishment (*CrossFit*) on the cellar, first floor and mezzanine of an existing building commercial building. C6-4A zoning district.

PREMISES AFFECTED – 667 Grand Street, Block 2781,

MINUTES

Lot 29, Borough of Brooklyn.

COMMUNITY BOARD #1BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Borough Commissioner, dated February 23, 2016, acting on Department of Buildings (“DOB”) Application No. 321244159, reads in pertinent part:

Proposed physical culture establishment in C4-4A zoning district not permitted pursuant to ZR 32-10, and referred to BSA for special permit under ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site located within a C4-4A zoning district, a physical culture establishment (“PCE”) in portions of the cellar level, first floor and mezzanine of an existing four- (4) story plus cellar and mezzanine mixed-use residential and commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on May 8, 2018, after due notice by publication in *The City Record*, with a continued hearing on January 8, 2019 and then to decision on the same date; and

WHEREAS, the Board was in receipt of four (4) form letters in support of this application; and

WHEREAS, Community Board 1, Brooklyn, recommends approval of this application; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the subject site and surrounding neighborhood;

WHEREAS, the subject site is located on the north side of Grand Street, between Manhattan Avenue and Leonard Street, in a C4-4A zoning district, in Brooklyn; and

WHEREAS, the site has approximately 25 feet of frontage, 80 feet of depth, 2,000 square feet of lot area and is occupied by a four- (4) story plus cellar and mezzanine mixed-use residential and commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use*¹ is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:

- (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
- (ii) a swimming pool of a minimum 1,500 square feet; or
- (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
- (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy

¹ Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant represents that the subject PCE occupies 1,612 square feet of floor space at the cellar level with rowing machines, exercise stations, squat and lifting stations, an office and storage for trainers, bathrooms, lockers, and an area for mechanical and electrical equipment; 1,562 square feet of floor area on the first floor with exercise areas for gymnastic rings, climbing ropes, rowing machines, pull and squat stations, box jump stations, a reception area, and a bathroom; and, 431 square feet of floor area on the mezzanine with a stretching and mobility area, seating area, and bathroom; and

WHEREAS, the PCE has been in operation since January 2016, as “LTrain Crossfit,” with the following hours of operation: Monday through Friday, 6:30 a.m. to 9:00 p.m.; Saturday, 9:30 a.m. to 3:00 p.m.; and, Sunday, 10:00 a.m. to 1:00 p.m.; and

WHEREAS, the applicant submits that sound attenuation measures have been taken to alleviate potential noise disturbances from the PCE including rubber floor padding, foam padded boxes of varying sizes in weight stations, and insulated ceiling materials; specifically, the applicant has installed spring hangers in the ceiling with full height sound attenuation blanket and acoustical foam, isolated clips in the PCE partitions, and vibration dampening floor material under layers of sound-proof insulation flooring and rubber matting; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because the PCE is located entirely within an existing building and on a heavily travelled commercial street characterized by mixed-use commercial and residential buildings; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant submits that the PCE contains facilities classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant states that an approved fire alarm system is installed throughout the PCE space which is also protected with a wet sprinkler; and

WHEREAS, by letter dated October 29, 2018, the Fire Department stated no objection to the application and confirmed that the premises currently has a residential

sprinkler system and Fire Department permits are current; an application has been filed for the fire alarm system (Alt. II 321620876) and is listed as disapproved; and, once the Board renders a decision on this application, the Fire Department will assist the applicant with obtaining an approval of the fire alarm application; and; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood and anticipates the PCE will represent an advantage to the community; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 16-BSA-098K, dated March 24, 2016; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated at the premises without the special permit; and

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, legalizing the proposed PCE space on the cellar level, first floor and mezzanine, is appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to legalize, on a site located within a C4-4A zoning district, the operation of a physical culture establishment in portions of the cellar level, first floor and mezzanine of an existing four- (4) story plus cellar and mezzanine mixed-use residential and commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received February 27, 2017-Six (6) sheets”; and *on further condition*:

THAT the term of the PCE grant will expire on January 1, 2026;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 will be as reviewed and approved by DOB;

THAT the existing sprinkler system shall be maintained, and the fire alarm system shall be installed and maintained in accordance with DOB Alt. II 321620876;

THAT minimum 3 foot wide exit pathways shall be provided leading to the required exits and such pathways

MINUTES

shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number (“BSA Cal. No. 2016-4150-BZ”), shall be obtained within one (1) year, by January 8, 2020;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 8, 2019.

867-55-BZ

APPLICANT – Nasir J. Khanzada, for Manny Kumar, owner; Channi Singh, lessee.

SUBJECT – Application February 1, 2018 – Extension of Term (§11-411) of a previously approved variance which permitted the operation of an Automotive Service Station (UG 16B) which expired on June 19, 2011: Amendment (§11-411) to permit the conversion of service bays to an accessory convenience store and the enlargement of the building; Extension of Time to Obtain a Certificate of Occupancy which expired on February 10, 2005: Waiver of the Board’s Rules. R4-1 zoning district.

PREMISES AFFECTED – 66-15 Borden Avenue, Block 2394, Lot 8, Borough of Queens.

COMMUNITY BOARD #4Q

ACTION OF THE BOARD – Laid over to February 26, 2019, at 10 A.M., for continued hearing.

771-76-BZ

APPLICANT – Stroock & Stroock & Lavan LLP, for Intergate Manhattan LLC, owner.

SUBJECT – Application September 10, 2018 – Amendment of a previously approved Variance (§72-21) that permitted the installation of an illuminated sign that exceeded the surface area along a district boundary and the height above curb level. The Amendment seeks to modify the previously approved sign to permit a digital sign and the new sign will be able to display messages for any principal use on the zoning lot, as opposed to a single principal use on the zoning lot. C6-4 zoning district.

PREMISES AFFECTED – 375 Pearl Street, Block 114 Lot(s) 1001-1005, Borough of Manhattan.

THE RESOLUTION –

MINUTES

WHEREAS, the decisions of the Deputy Borough Commissioner, dated October 19, 2016, acting on Department of Buildings (“DOB”) Application Nos. 520296055 and 520296046 read in pertinent part:

GCL 36, BC 502.1: The street giving access to proposed building is not duly placed on the official map of the City of New York therefore:

- A) No Certificate of Occupancy can be issued pursuant to Article 3, Section 36 of the General City Law;
- B) Proposed construction does not have at least 8% of the total perimeter of building(s) fronting directly upon a legally mapped street or frontage space contrary to section 502.1 of the 2014 NYC Building Code; and

WHEREAS, these are applications to permit the construction of a two-family detached residence on tax lot 96 and a one-family detached residence on lot 300 with frontage on a portion of Tuttle Street that is not duly placed on the official New York City map, contrary to General City Law (“GCL”) § 36; and

WHEREAS, a public hearing was held on these applications on August 15, 2017, after due notice in *The City Record*, with continued hearings on October 31, 2017, March 20, 2018, September 13, 2018, and November 20, 2018, and then to decision on January 8, 2019; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and the surrounding area; and

WHEREAS, Community Board 1, Staten Island, recommends approval of this application; and

WHEREAS, tax lot 96 is located approximately 120 feet south of the southwest corner of Tuttle Street and Devens Street, tax lot 300 is located approximately 112 feet south of the southeast corner of Tuttle Street and Devens Street, on Block 1481, in an R3X zoning district and the Lower Density Growth Management Area, on Staten Island; and

WHEREAS, tax lot 96 resulted from the apportionment of former tax lots 40 and 91 located on Block 1481 into tax lots 40, 45, 91, 92, 93, 94, 95 and 96, evidenced by an Application for Mergers or Apportionments filed with the New York City Department of Finance on May 10, 2016, and approved on May 12, 2016, which was submitted by the applicant into the record; and

WHEREAS, tax lots 96 and 300 are located on opposite sides of a portion of Tuttle Street not duly placed on the official New York City map, as maintained by the Office of the Borough President of Staten Island; and

WHEREAS, the applicant submits that the residences proposed on each of the subject tax lots will comply with all applicable provisions of the Zoning Resolution, including, but not limited to, provisions relating to floor area, floor area ratio, total height, wall height, front, side and rear yards, planting and landscaping; and

WHEREAS, by letter dated January 7, 2019, and accompanied by plans stamped approved on the same date, the Fire Department states that it has no objection to this

application on condition that the proposed residences are fully sprinklered, there be no parking in the locations indicated on the approved plan, a new hydrant be installed as indicated on the approved plan and the portion of Tuttle Street that is a private road have an easement, made part of the applicant’s permanent file with DOB, prohibiting any and all obstructions in the road that would hinder firefighting access and operation; and

WHEREAS, with regards to “practical difficulty or unnecessary hardship,” the applicant states that the location of the subject tax lots without any frontage on a mapped street prevents the as-of-right development of those lots in compliance with GCL § 36 and that the subject applications should be granted because the applicant will provide adequate access in cases of emergency, specifically, the applicant has agreed to create an easement in the unmapped portion of Tuttle Street on which the proposed residences on the subject lots are proposed to front prohibiting any and all obstructions in the road that would hinder firefighting access and operation and to fully sprinkler the proposed residences; and

WHEREAS, the applicant submits that an Amended Declaration of Protective Covenants, Conditions, Restrictions, Easements, Charges and Liens for the Tuttle Homeowners Association, Inc., indicating that the Fire Department “shall have an easement across association property for the purpose of performing any duty necessary to carry out their function, was approved by the New York State Attorney General on May 31, 2017; and

WHEREAS, the Board required, as a condition of approval, the recording of a restrictive declaration against the subject sites regarding maintenance of the unmapped portion of Tuttle Street and incorporating the Fire Department’s conditions of approval and such declaration was recorded on January 10, 2019; and

WHEREAS, pursuant to the declaration, the Declarant, identified as the fee owner of the subject sites, and his successors/and/or assigns agree to maintain the street in a good state of repair and cleanliness, including but not limited to the following: maintaining the paved surfaces of the street in good repair; maintaining street lights, if any, in good working order; assuring that street lights, if any, operate during hours of darkness; replacing street lights, if any, when needed; snow plowing at such times as the accumulated snow falls in any 12-hour period exceed two inches; maintaining, repairing and replacing of dry wells, sewer pipes, wires, conduits, utility lines servicing more than one unit (whether or not such lines and facilities are on Homeowner Association Property) shall be the responsibility of, and an expense of, the Homeowner’s Association); and

WHEREAS, in addition, in response to the Board’s request, the applicant provided a Builder’s Pavement Plan for the unmapped portion of Tuttle Street, showing continuity of the sidewalks in front of the proposed residences; and

WHEREAS, the Board has determined that the applicant has submitted adequate evidence to warrant approval of the application subject to certain conditions set forth herein.

Therefore it is Resolved, that the decisions of the

MINUTES

Department of Buildings dated October 19, 2016, acting on DOB Application Nos. 520296055 and 520296046, are modified by the power vested in the Board by Section 36 of the General City Law, and that these appeals are granted, limited to the decisions noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked “Received August 24, 2018”-Five (5) sheets; that the proposal will comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT the residences shall be full sprinklered;

THAT no parking shall be permitted in the shade area indicated on the plans approved for Fire Department Access and Hydrant Requirements subject to letter of January 7, 2019;

THAT a new hydrant shall be installed as indicated on the on the plans approved for Fire Department Access and Hydrant Requirements subject to letter of January 7, 2019;

THAT the portion of Tuttle Street that is a private road shall have an easement in place prohibiting any and all obstructions in the road that would hinder firefighting access and operations and such easement shall be made part of the applicant’s permanent file with the Department of Buildings;

THAT the Builder’s Pavement Plan shall be approved prior to the issuance of any building permits;

THAT a certificate of occupancy, noting the subject calendar numbers (“BSA Cal. Nos. 2016-4330-A and 2016-4331-A”), shall be obtained within four (4) years, by January 8, 2023;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by DOB;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

THE RESOLUTION –

WHEREAS, the decision of the Deputy Borough Commissioner, dated June 30, 2017, acting on Department of Buildings (“DOB”) Application No. 520306188 read in pertinent part:

GCL 36, BC 501.3.1: The street giving access to proposed building is not duly placed on the official map of the City of New York therefore:

- A) No Certificate of Occupancy can be issued pursuant to Article 3, Section 36 of the General City Law;
- B) Proposed construction does not have at least 8% of the total perimeter of buildings fronting directly upon a legally mapped street or frontage space contrary to Sec 501.3.1 of the 2014 NYC Building Code; and

WHEREAS, this is an application to permit the construction of a single-family residence with frontage on a portion of Tuttle Street that is not duly placed on the official New York City map, contrary to General City Law (“GCL”) § 36; and

WHEREAS, a public hearing was held on these applications on August 15, 2017, after due notice in *The City Record*, with continued hearings on October 31, 2017, March 20, 2018, September 13, 2018, and November 20, 2018, and then to decision on January 8, 2019; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and the surrounding area; and

WHEREAS, Community Board 1, Staten Island, recommends denial of this application and that the proposed residence be reoriented to face Home Place; and

WHEREAS, the subject site is located on the north side of Home Place, between Willowbrook Road and Lyon Place,

MINUTES

in an R3X zoning district and the Lower Density Growth Management Area, on Staten Island; and

WHEREAS, the site resulted from the apportionment of former tax lots 40 and 91, located on Block 1481, into tax lots 40, 45, 91, 92, 93, 94, 95 and 96, evidenced by an Application for Mergers or Apportionments filed with the New York City Department of Finance on May 10, 2016, and approved on May 12, 2016, which was submitted by the applicant into the record; and

WHEREAS, this application was heard and decided along with applications to permit development of tax lot 96 (16 Tuttle Street, BSA Cal. No. 2016-4330-A) and tax lot 300 (19 Tuttle Street, BSA Cal. No. 2016-4331-A), contrary to GCL § 36, both of which were approved on condition under a separate resolution; and

WHEREAS, the applicant submits that the proposed residence will comply with all applicable provisions of the Zoning Resolution, including, but not limited to, provisions relating to floor area, floor area ratio, total height, wall height, front, side and rear yards, planting and landscaping; and

WHEREAS, the applicant originally proposed to orient the proposed single-family residence towards Tuttle Place; and

WHEREAS, by letter dated July 25, 2017, the Fire Department states that the location of the proposed building and geometry of dead-end Tuttle Street do not properly meet the functional requirements outlined in the New York City Fire Code with regards to frontage space and recommends that the application be approved provided that the building fronts on Home Place; and

WHEREAS, in response to comments from the Community Board, the Fire Department and the Board, the applicant reoriented the proposed residence towards Home Place; and

WHEREAS, by letter dated January 7, 2019, and accompanied by plans stamped approved on the same date, the Fire Department states that it has no objection to this application, as revised, on condition that there be no parking in the locations indicated on the approved plan, a new hydrant be installed as indicated on the approved plan and the portion of Tuttle Street that is a private road have an easement, made part of the applicant's permanent file with DOB, prohibiting any and all obstructions in the road that would hinder firefighting access and operation; and

WHEREAS, the applicant states that the subject application should be granted because the applicant will provide adequate access in cases of emergency, specifically, the applicant has agreed to create an easement in the unmapped portion of Tuttle Street to be improved as a private road in connection with this application prohibiting any and all obstructions in the road that would hinder firefighting access and operation and to fully sprinkler the proposed residences; and

WHEREAS, the applicant submits that an Amended Declaration of Protective Covenants, Conditions, Restrictions, Easements, Charges and Liens for the Tuttle Homeowners Association, Inc., indicating that the Fire Department "shall

have an easement across association property for the purpose of performing any duty necessary to carry out their function, was approved by the New York State Attorney General on May 31, 2017; and

WHEREAS, the Board required, as a condition of approval, the recording of a restrictive declaration against the subject sites regarding maintenance of the unmapped portion of Tuttle Street and incorporating the Fire Department's conditions of approval and such declaration was recorded on January 10, 2019; and

WHEREAS, pursuant to the declaration, the Declarant, identified as the fee owner of the subject sites, and his successors/and/or assigns agree to maintain the street in a good state of repair and cleanliness, including but not limited to the following: maintaining the paved surfaces of the street in good repair; maintaining street lights, if any, in good working order; assuring that street lights, if any, operate during hours of darkness; replacing street lights, if any, when needed; snow plowing at such times as the accumulated snow falls in any 12-hour period exceed two inches; maintaining, repairing and replacing of dry wells, sewer pipes, wires, conduits, utility lines servicing more than one unit (whether or not such lines and facilities are on Homeowner Association Property) shall be the responsibility of, and an expense of, the Homeowner's Association); and

WHEREAS, in addition, in response to the Board's request, the applicant provided a Builder's Pavement Plan for the unmapped portion of Tuttle Street, showing continuity of the sidewalks; and

WHEREAS, the Board has determined that the applicant has submitted adequate evidence to warrant approval of the application subject to certain conditions set forth herein.

Therefore it is Resolved, that the decisions of the Department of Buildings dated June 30, 2017, acting on DOB Application No. 520306188, are modified by the power vested in the Board by Section 36 of the General City Law, and that these appeals are granted, limited to the decisions noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked "Received August 24, 2018"-Five (5) sheets; that the proposal will comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT no parking shall be permitted in the shade area indicated on the plans approved for Fire Department Access and Hydrant Requirements subject to letter of January 7, 2019;

THAT a new hydrant shall be installed as indicated on the on the plans approved for Fire Department Access and Hydrant Requirements subject to letter of January 7, 2019;

THAT the portion of Tuttle Street that is a private road shall have an easement in place prohibiting any and all obstructions in the road that would hinder firefighting access and operations and such easement shall be made part of the applicant's permanent file with the Department of Buildings;

THAT the Builder's Pavement Plan shall be approved prior to the issuance of any building permits;

MINUTES

THAT a certificate of occupancy, noting the subject calendar number (“BSA Cal. No. 2017-226-A”), shall be obtained within four (4) years, by January 8, 2023;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by DOB;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 8, 2019.

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated November 28, 2017, acting on Alteration Application No. 421413848, reads in pertinent part:

“The proposal to occupy the premises as a Physical Culture Establishment . . . is contrary to Section 32-10 ZR”; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, in an R5D (C2-3) zoning district, the legalization of a physical culture establishment on a portion of the first floor of the subject building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on December 11, 2018, after due notice by publication in *The City Record*, and then to decision on January 8, 2019; and

WHEREAS, Community Board 14, Queens, recommends approval of this application; and

WHEREAS, the subject site is located on the northeast corner of Rockaway Beach Boulevard and Beach 105th Street, in an R5D (C2-3) zoning district, in Queens; and

WHEREAS, the subject site has approximately 415 feet of frontage along Rockaway Beach Boulevard, 155 feet of frontage along Beach 105th Street, 64,352 square feet of lot area and is occupied by a one-story mixed-use commercial and community-facility building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since April 24, 2001, when, under BSA Calendar Number 252-00-BZ, the Board granted a special permit to allow the operation of a PCE within a portion of the first floor of the subject building for a term of ten (10) years, expiring April 24, 2011, on condition that there be no change in ownership or operating control of the PCE without prior application to and approval from the Board, that the hours of operation of the PCE be limited to Monday to Friday, 5:30 a.m. to 11:00 p.m., and Saturday and Sunday, 6:30 a.m. to 8:00 p.m., that fire-protection measures, including a smoke detection system connected to a Fire Department-approved central station, be provided and maintained in accordance with the Board-approved plans and that the above conditions appear on the certificate of occupancy; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

(1) that such *use* is so located as not to impair

MINUTES

- the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or

restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE occupies 5,807 square feet of floor space on the first floor, including a reception area, group fitness and aerobics areas, a cardiovascular fitness area, a free-weights training area, locker rooms and restrooms and accessory offices; and

WHEREAS, the PCE has been in operation as Burn Fitness since, with the following hours of operation: Monday through Friday, 5:30 a.m. to 11:00 p.m., and Saturday and Sunday, 6:30 a.m. to 8:00 p.m.; and

WHEREAS, the applicant represents that the PCE use is consistent with the vibrant mix of uses in the area in which the PCE is located, that the PCE use is fully contained within the envelope of an existing building and that the subject site has pedestrian access to rapid transit facilities within the vicinity; and

WHEREAS, the Board finds that the PCE use is so located as not to impair the essential character or the future use or development of the surrounding area; and

WHEREAS, the applicant states that the PCE provides an exercise room for classes, instruction and programs for physical improvement and training, body building and weight reduction as well as yoga and aerobics classes; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2), for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has deemed to be satisfactory; and

WHEREAS, by letter dated December 8, 2018, the Fire Department states that it has no objection to this application; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-36 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-

MINUTES

02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to *permit*, in an R5D (C2-3) zoning district, the legalization of a physical culture establishment on a portion of the first floor of the subject building, contrary to ZR § 32-10; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked “Received April 5, 2017”-Three (3) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten (10) years, expiring January 8, 2029;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT minimum 3'-0" wide exit pathways shall be maintained leading to the required exits and that pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be maintained in the entire PCE space, as indicated on the Board-approved drawings;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number (“BSA Cal. No. 2017-101-BZ”), shall be obtained within one (1) year, by January 8, 2020;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 8, 2019.

THE RESOLUTION –

WHEREAS, the decision of the Borough Commissioner, dated August 1, 2017, acting on Department of Buildings (“DOB”) Application No. 321612331, reads in pertinent part:

Proposed physical and culture establishment is not permitted pursuant to ZR 32-10 and is referred to the Board of Standards and Appeals for a special permit under ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site located within a M1-2/R6B zoning district and in the Special Mixed Use District, a physical culture establishment (“PCE”) in portions of the cellar level and first floor of an existing five- (5) story plus cellar mixed-use residential and commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on January 8, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Community Board 1, Brooklyn, recommends approval of this application; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the subject site and surrounding neighborhood; and

WHEREAS, the subject site is located on the north

side of North 4th Street, between Bedford Avenue and Driggs Avenue, in an M1-2/R6B zoning district and in the Special Mixed Use District, in Brooklyn; and

WHEREAS, the site has approximately 76 feet of frontage, 100 feet of depth, 7,550 square feet of lot area and is occupied by a five- (5) story plus cellar mixed-use residential and commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use1* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a

MINUTES

report from the Department of Investigation which the Board shall determine to be satisfactory; and

- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant represents that the subject PCE occupies 5,870 square feet of floor space on the cellar level with two (2) yoga studios, men's and women's restrooms and showers, a lobby and reception area, changing area, ADA lift, and storage; and 3,979 square feet of floor area on the first floor with the entrance to the PCE and ADA lift access; and

WHEREAS, the PCE has been in operation since September 2017, as "CorePower Yoga," with the following hours of operation: Monday through Friday, 5:00 a.m. to 10:30 p.m., and Saturday and Sunday, 7:30 a.m. - 8:00 p.m.; and

WHEREAS, though the main portion of the PCE space is separated from residential uses in the subject building by the parking area at the ground floor, the applicant represents that yoga is a quiet activity that does not produce loud noises, loud music is not used, and the space was soundproofed for any additional adverse noise impacts; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because it is located in a neighborhood characterized predominantly by commercial and mixed-use buildings; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant submits that the PCE contains facilities for classes, instruction and programs for physical improvement utilizing yoga; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood because the PCE fits with the mixed-use character of the neighborhood, approximately two-thirds of the PCE is located within the cellar, and the applicant does not anticipate the yoga studio will create any nuisances; and

WHEREAS, the applicant states that an approved fire alarm system—including smoke detectors, manual pull stations, local audible and visual alarms and a connection to an FDNY-approved central station—was installed throughout the PCE space, which is also protected by a wet sprinkler system; and

WHEREAS, by letter dated December 17, 2018, the Fire Department stated no objection to this application and confirmed that the premises is protected with a sprinkler system and has a sprinkler monitoring central office connection; permits for the systems are current according to Fire Department records; and, the requirement for a fire alarm system is not applicable for this establishment and requested that the applicant withdraw the application for the new fire alarm system; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 18-BSA-25K, dated September 1, 2017; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated at the premises without the special permit; and

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, legalizing the proposed PCE space on the cellar level and first floor, is appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to legalize, on a site partially located within a M1-2/R6B zoning district and in the Special Mixed Use District, the operation of a physical culture establishment in portions of the cellar level and first floor of an existing five- (5) story plus cellar mixed-use residential and commercial building, contrary to ZR § 32-10; *on*

MINUTES

condition that all work shall substantially conform to drawings filed with this application marked “Received January 7, 2019”-Six (6) sheets; and *on further condition:*

THAT the term of the PCE grant will expire on September 1, 2027;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 will be as reviewed and approved by DOB;

THAT the existing sprinkler system shall be maintained as indicated on the Board-approved plans;

THAT minimum 3 foot wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number (“BSA Cal. No. 2017-257-BZ”), shall be obtained within one (1) year, by January 8, 2020;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 8, 2019.

2018-123-BZ

CEQR #19-BSA-017M

APPLICANT – Law Office of Jay Goldstein, PLLC, for 251 W87th Street Associates, owner; Broadway Bar Method LLC, lessee.

SUBJECT – Application July 26, 2018 – Special Permit (§73-36) to permit the operation of a Physical Cultural Establishment (Bar Method) to be in a portion of the cellar and first floor of an existing building Contrary to ZR §32-10. C4-6A Special Enhanced Commercial District.

PREMISES AFFECTED – 2381 Broadway aka 2381-2387 Broadway, 251-257 W 87th Street, Block 1235, Lot 10, Borough of Manhattan.

COMMUNITY BOARD #7M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Deputy Borough Commissioner, dated October 2, 2018, acting on Department of Buildings (“DOB”) Application No. 123424990, reads in pertinent part:

Proposed Physical Culture Establishment is not [] permitted as-of-right per ZR 32-10. Secure BSA’s approval per ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site located within a C4-6A zoning district and in the Special Enhanced Commercial District, a physical culture establishment (“PCE”) in portions of the cellar level and first floor of an existing seven- (7) story plus cellar mixed-use residential and commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on January 8, 2018, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, the Board was in receipt of one (1) form letter in support of this application; and

WHEREAS, Community Board 7, Manhattan, recommends approval of this application; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the subject site and surrounding neighborhood;

WHEREAS, the subject site is located on the northwest corner of Broadway and West 87th Street, in a C4-6A zoning district and in the Special Enhanced Commercial District, in Manhattan; and

WHEREAS, the site has approximately 101 feet of frontage on Broadway, 90 feet of frontage on West 87th Street, 9,064 square feet of lot area and is occupied by a seven- (7) story plus cellar mixed-use residential and commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

1. that such *use*1 is so located as not to impair the essential character or the future use or development of the surrounding area; and
2. that such *use* contains:
 - i. one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - ii. a swimming pool of a minimum 1,500 square feet; or
 - iii. facilities for classes, instruction and

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

programs for physical improvement, body building, weight reduction, aerobics or martial arts; or

- iv. facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

1. the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
2. the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant represents that the subject PCE occupies 1,418 square feet of floor space on the cellar level with storage, utility and laundry areas, and accessory PCE space; and 3,069 square feet of floor area on the first

floor with two (2) exercise studios, an office, bathrooms, lockers, showers, retail areas, a juice bar, an office, and reception area; and

WHEREAS, the PCE has been in operation since September 2018, as “The Bar Method,” operating daily from 5:30 a.m. to 9:30 p.m.; and

WHEREAS, the applicant submits that, though the PCE offers low impact, ballet-style classes that do not utilize gym machinery, sound attenuation measures have been provided to ensure that the PCE use will have no adverse impacts on the adjacent uses; specifically, all flooring in the studios contain noise control underlayment; all partitions of the studios are isolated from the adjacent structures using sheetrock with sound-attenuated batt insulation; studio ceilings are protected with isolated hangers; and, all studio penetrations through the partitions and ceilings are insulated and STC acoustical separations are installed to provide the following STC levels: partitions at STC 60, flooring at STC 64, and the ceiling at STC 69; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because the PCE is located entirely within an existing building and in a neighborhood comprised of commercial office buildings, community facilities, retail stores, and residential uses; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant submits that the PCE contains facilities for classes, instruction and programs for physical improvement with instructed group exercise; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood because most patrons walk or use mass transit to access the PCE, and the area is already heavily trafficked by retail customers and building tenants; and

WHEREAS, the applicant states that an approved fire alarm system—including smoke detectors, manual pull stations, local audible and visual alarms and a connection to an FDNY-approved central station—is installed throughout the PCE space; and

WHEREAS, by letter dated December 17, 2018, the Fire Department objected to permitting any occupants in the cellar of the subject PCE because no means of egress is provided, and stated that exiting through the building’s common area and through a storage room to exit the cellar is not permitted as per the New York City Construction Code and a special permit should be denied if the cellar space is

MINUTES

used for occupancy; and

WHEREAS, in response, the applicant filed amended plans demonstrating that the PCE cellar space is not open to the public and its access is limited only to accessory employee uses; and

WHEREAS, by letter dated December 28, 2018, the Fire Department stated no objection to the application and confirmed that they reviewed the amended plans filed with the BSA; a voluntary fire alarm system has been reviewed, approved and installed in the PCE space, and such system shall be maintained according to 2014 Fire Code Section 907.20; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 19BSA017M, dated October 19, 2018; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated at the premises without the special permit; and

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, legalizing the proposed PCE space on the cellar level and first floor, is appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to legalize, on a site located within a C4-6A zoning district and in the Special Enhanced Commercial District, the operation of a physical culture establishment in portions of the cellar level and first floor of an existing seven- (7) story plus cellar mixed-use residential and commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received December 28, 2018- Seven (7) sheets”; and *on further condition*:

THAT the term of the PCE grant will expire on September 1, 2028;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 will be as reviewed and approved by DOB;

THAT the existing fire alarm system shall be installed and maintained as indicated on the Board-approved plans;

THAT minimum 3 foot wide exit pathways shall be

provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number (“BSA Cal. No. 2018-123-BZ”), shall be obtained within one (1) year, by January 8, 2020;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated March 2, 2018, acting on Department of Buildings (“DOB”) Application No. 321636057 reads in pertinent part:

The proposed enlargement of the existing one family residence in an R2X zoning district:

1. Creates non-compliance with respect to floor area by exceeding the allowable floor area ratio and is contrary to Section 23-142 of the Zoning Resolution;
2. [...]
3. [...]
4. Creates non-compliance with respect to perimeter wall height of building and is contrary to Section 23-631(b) of the Zoning Resolution; and

WHEREAS, this is an application under ZR § 73-622 to permit, in an R2X zoning district and the Special Ocean Parkway District, the enlargement of a detached one-family dwelling that does not comply with the zoning requirements for floor area ratio and perimeter wall height contrary to ZR §§ 23-142 and 23-631(b); and

WHEREAS, a public hearing was held on this application on September 27, 2018 after due notice by publication in *The City Record*, with a continued hearing on October 11, 2018, and then to decision on that same date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and

surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the Board was in receipt of one form letter in support of this application; and

WHEREAS, the subject site is located on the west side of East 5th Street, between Avenue R and Avenue S, in an R2X zoning district and the Special Ocean Parkway District, in Brooklyn; and

WHEREAS, the site has approximately 40 feet of frontage along East 5th Street, a depth of 100 feet, 4,000 square feet of lot area and is occupied by a detached one and one-half story plus cellar one-family dwelling containing 2,369 square feet of floor area, a floor area ratio (“FAR”) of 0.59, a front yard of 23’-7.5”, a rear yard of 19’-3”, side yards of 3’-10.25” and 8’-0.5”, a perimeter wall height of 13’-8”, building height of 28 feet, and a detached garage located in the rear yard; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement* of an existing *single-* or *two-family detached* or *semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for

MINUTES

lot coverage, open space, floor area, side yard, rear yard or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached* or *semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins. Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that this application located within an area in which the special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge the detached one-family residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant proposes to enlarge the existing detached dwelling by extending the dwelling into the rear yard and front yard, constructing a greenhouse on the first floor in the rear yard, and demolishing the existing garage and replacing it with a parking pad, resulting in a two-story plus attic and cellar dwelling with 5,108 square feet of floor area (1.28 FAR), a 20-foot rear yard, a 15-foot front yard, side yards with widths of 6'-2.75" and 3'-10.25", a perimeter wall height of 24 feet, and a total building height of

34'-11"; and

WHEREAS, at the subject site, a maximum of 0.85 FAR (3,400 square feet of floor area) or 1.02 FAR (4,080 square feet of floor area), including an increase in the permissible floor area ratio by 20 percent if such increase in floor area is located directly under a sloping roof that rises at least three and one half inches in vertical distance for each foot of horizontal distance and the structural headroom of such floor area is between five and eight feet, is permitted pursuant to ZR § 23-142 and a maximum perimeter wall height of 21 feet is permitted pursuant to ZR § 23-631(b); and

WHEREAS, the applicant provided an analysis of single- or two-family dwellings located within 400 feet of the subject premises within an R2X zoning district (the "Study Area") concluding that, of the 52 qualifying residences, 10 residences (19 percent) have an FAR greater than 1.02, ranging from 1.02 to 1.32, including the residence located immediately to the south of the subject site, which has an FAR of 1.27; and

WHEREAS, with regards to the perimeter wall height, the applicant provided measurements of the properties located immediately adjacent to the subject premises demonstrating that the property located to the immediate south on tax lot 490, 1925 East 5th Street, is a single- or two-family detached residence with an existing non-complying perimeter wall facing the street with a height of 24 feet; and

WHEREAS, the Board notes that the subject application did not receive an objection with regards to the rear yard and, therefore, the Board has made no findings or granted any waivers with regards to the rear yard regulations applicable at the subject site; and

WHEREAS, in addition, the Board notes that the DOB shall determine whether the greenhouse proposed within the proposed 20 foot rear yard is permitted at the subject site as-of-right; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622; and

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622 to permit, in an R2X zoning district and the Special Ocean Parkway District, the enlargement of a one-family detached dwelling that does not comply with the zoning requirements with regards to floor area ratio and perimeter wall height contrary to ZR §§ 23-142 and 23-631(b); *on condition* that all work shall substantially conform to drawings as they apply to the objection above-noted, filed with this application and marked "October 11, 2018"—Fifteen (15) sheets; and *on further condition*:

MINUTES

THAT the following shall be the bulk parameters of the building: a maximum floor area ratio of 1.28 (5,108 square feet of floor area), a perimeter wall height of 24 feet, as illustrated on BSA-approved plans;**2018-49-BZ**

THAT the removal of exterior walls and/or joists in excess of those indicated on the BSA-approved plans is prohibited and shall void the special permit;

THAT DOB shall determine whether the greenhouse indicated on the BSA-approved plans is a permitted obstruction in the rear yard;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 11, 2018.

***The resolution has been amended to correct part of the conditions which read a maximum floor area ratio of 1.28 (4,080 square feet of floor area)... Now reads: a maximum floor area ratio of 1.28 (5,108 square feet of floor area)... Corrected in Bulletin Nos. 1-3, Vol. 104, dated January 18, 2019.**

COMMUNITY BOARD #11BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Sheta and Commissioner Scibetta.....4

Negative:0

Absent: Commissioner Ottley-Brown.....1

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, reopening, an amendment of a previously granted special permit for a physical culture establishment (“PCE”), and an extension of time to obtain a certificate of occupancy, which expired on October 28, 2015; and

WHEREAS, a public hearing was held on this application on January 15, 2019, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Commissioner Scibetta performed an inspection of the subject site and surrounding neighborhood; and

WHEREAS, the subject site is located on the south side of 86th Street, bound by 24th Avenue and Bay 37th Street, in a C8-2 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 193 feet of frontage along 86th Street, 100 feet of frontage along each of 24th Avenue and Bay 37th Street, 19,333 square feet of lot area and is occupied by a two- (2) story plus cellar commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since November 27, 2007, when, under the

subject calendar number, the Board granted a special permit to legalize the operation of a PCE on the second floor of an existing two- (2) story commercial building on condition that all work substantially conform to plans filed with the application; the term of the grant expire on January 1, 2012; there be no change in ownership or operating control of the PCE without prior application to and approval from the Board; all massages be performed by New York State licensed massage therapists; the above conditions appear on the certificate of occupancy; a new certificate of occupancy be obtained within six (6) months of the grant, by May 27, 2008; Local Law 58/87 compliance be as reviewed and approved by the Department of Buildings (“DOB”); fire safety measures be installed and/or maintained as shown on the Board-approved plans; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); the approved plans be considered approved only for the portions related to the specific relief granted; and, the DOB ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, on December 9, 2008, under the subject calendar number, the Board reopened and amended the November 27, 2007, resolution to grant a one- (1) year extension of time to complete construction and obtain a certificate of occupancy, to expire December 9, 2009, on condition that all conditions from the prior resolution not specifically waived by the Board remain in effect; and, the DOB ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, on October 28, 2014, under the subject calendar number, the Board waived its Rules of Practice and Procedure, reopened and amended the November 27, 2007 resolution¹, as amended through December 9, 2008, to permit modifications to the layout of the PCE, to grant an extension of term of the special permit for a term of ten (10) years, to expire on January 1, 2022, and to grant an extension of time to obtain a certificate of occupancy for one (1) year from the date of the resolution, by October 28, 2015, on condition that any and all work substantially conform to plans as they apply to the objection filed with the application the grant be limited to a term of ten (10) years, to expire on January 1, 2022; any massages be performed only by New York State licensed massage professionals; there be no change in ownership or operating control of the PCE without prior approval from the Board; the hours of operation be limited to Monday through Thursday, from 5:30 a.m. to 12:00 a.m., Friday from 5:00 a.m. to 10:00 p.m., and Saturday and Sunday, from 8:00 a.m. to 8:00 p.m.; the above conditions appear on the certificate of occupancy; a certificate of occupancy be obtained by October

¹ The October 28, 2014 resolution erroneously refers to a prior Board grant on February 5, 2008.

MINUTES

28, 2015; all DOB and Fire Department violations related to the PCE be removed by October 28, 2015; all conditions from the prior resolution not specifically waived by the Board remain in effect; and DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted; and

WHEREAS, the time to obtain a certificate of occupancy having expired, the applicant seeks the subject relief; and

WHEREAS, the applicant additionally requests waivers, pursuant to § 1-14.2 of the Board's Rules of Practice and Procedure, of Rule § 1-07.3(d)(2) to permit the filing of this application more than 30 days after the expiration of the time to obtain a certificate of occupancy; and

WHEREAS, the applicant represents that a delay in obtaining a certificate of occupancy was due to the installation of a fire alarm system, which is now signed-off; and

WHEREAS, the applicant further represents that a certificate of occupancy can be obtained within two (2) years; and

WHEREAS, by letter dated December 29, 2018, the Fire Department stated no objection to the application and confirmed that the Fire Department has issued two (2) violation orders (E457492 and E529594) for operating without a certificate of operation and to restore the fire alarm system in the PCE space; and the Bureau of Fire Prevention's Licensed Public Place of Assembly unit will perform continued inspections for compliance with these violation orders; and

WHEREAS, at hearing, the Board's Fire Department representative confirmed that the fire alarm system at the site was signed off by the Fire Department and that the violation orders were issued for failure to properly maintain that system, but that such orders need not postpone the Board's decision on this application; and

WHEREAS, at the hearing, the applicant additionally requested an amendment to reflect the exclusion of massage services from the PCE;

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to obtain a certificate of occupancy and amendment are appropriate with certain conditions, as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* Rule § 1-07.3(d)(2) of its Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated November 27, 2007, as amended through October 28, 2014, so that as amended this portion of the resolution reads: "to grant an extension of time to obtain a certificate of occupancy to January 15, 2021; *on condition*:

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the hours of operation shall be limited to Monday through Thursday, from 5:30 a.m. to 12:00 a.m., Friday from 5:00 a.m. to 10:00 p.m., and Saturday and Sunday, from 8:00

a.m. to 8:00 p.m.;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number ("BSA Cal. No. 159-07-BZ"), shall be obtained by January 15, 2021;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s); and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, January 15, 2019.

245-15-BZ

APPLICANT – Eric Palatnik, P.C., for New York Communications Center Assoc., LP c/o SL Green Realty Corp., owner.

SUBJECT – Application September 27, 2018 – Extension of Time to Obtain a final Certificate of Occupancy a previously approved Special Permit (§73-36) which allowed a physical cultural establishment (TMPL Gym) which expired on November 1, 2017; Waiver of the Board's Rules. C6-4 Special Clinton District.

PREMISES AFFECTED – 350 West 50th Street, Block 1040, Lot(s) 1002, 1003, Borough of Manhattan.

COMMUNITY BOARD #4M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Sheta and Commissioner Scibetta.....4

Negative:0

Absent: Commissioner Ottley-Brown.....1

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board's Rules of Practice and Procedure, reopening and an extension of time to obtain a certificate of occupancy for a physical culture establishment, which expired on November 1, 2017; and

WHEREAS, a public hearing was held on this application on January 15, 2019, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Commissioner Scibetta performed an inspection of the subject site and surrounding neighborhood; and

WHEREAS, the subject site is located on the east side of Ninth Avenue, bound by West 50th Street and West 49th Street, in a C6-4 zoning district and in the Special Clinton District, in Manhattan; and

MINUTES

WHEREAS, the site has approximately 327 feet of frontage on West 50th Street, 201 feet of frontage on Ninth Avenue, 327 feet of frontage on West 49th Street, 67,696 square feet of lot area and is occupied by several buildings, including a 39 story plus sub-cellars mixed-use residential and commercial building in which the subject physical culture establishment is located; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 10, 1989, when, under BSA Cal. No. 421-88-BZ, the Board granted a special permit, pursuant to ZR § 73-36, to permit a physical culture establishment (“PCE”) on the sub-cellar levels two (2) and three (3) of a new mixed-use building on condition that all work substantially conform to plans, as they relate to objections, filed with the application; the special permit be limited to a term of ten (10) years, to expire on January 10, 1999; the hours of operation be limited to 6:00 a.m. to 10:00 p.m. Monday through Friday, and 8:00 a.m. to 9:00 p.m. Saturday and Sunday; there be no change in the ownership or operating control of the PCE without prior application to and approval from the Board; the conditions appear on the certificate of occupancy; the development, as approved, be subject to verification by the Department of Buildings (“DOB”) for compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under the jurisdiction of the Department; and, substantial construction be completed within four (4) years, by January 10, 1993; and

WHEREAS, on April 16, 2013, under BSA Cal. No. 314-12-BZ, the Board granted a new special permit, pursuant to ZR §§ 73-36 and 73-03, to permit the continued operation of a PCE, operated as Bally’s Total Fitness, on the ground floor and sub-cellars two (2) and three (3) of the existing building on condition that all work substantially conform to plans filed with the application; the term of the grant expire April 16, 2023; there be no change in ownership or operating control of the PCE without prior application to and approval from the Board; all massages be performed by New York State licensed massage therapists; the above conditions appear on the certificate of occupancy; Local Law 58/87 compliance be as reviewed and approved by DOB; fire safety measures will be installed and/or maintained as shown on the Board-approved plans; substantial construction be completed within four (4) years, by April 16, 2017; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); the approved plans be considered approved only for the portions related to the specific relief granted; and, the DOB ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, on November 1, 2016, under the subject calendar number, the Board granted a new special permit, pursuant to ZR §§ 73-36 and 73-03, to legalize the operation of a PCE, operated as TMPL Gym, on the ground floor and sub-cellars two (2) and three (3) of the existing building on condition that all work substantially conform to plans filed

with the application; the term of the grant be for ten (10) years, expiring March 23, 2026; there be no change in ownership or operating control of the PCE without prior application to and approval from the Board; an approved interior fire alarm—including area smoke detectors, manual pull stations at each required exits, local audible and visual alarms, and connection to an FDNY-central station—be installed in the entire PCE space; the PCE be fully sprinklered; minimum 3’-0” wide exit pathways be provided leading to the required exits and such pathways always be maintained unobstructed, including from any gymnasium equipment; accessibility compliance under Local Law 58/87 be as reviewed and approved by DOB; the above conditions appear on the certificate of occupancy; a certificate of occupancy be obtained within one (1) year, by November 1, 2017; the approval be limited to the relief granted by the Board in response to specifically cited objection(s); the approved plans be considered approved only for the portions related to the specific relief granted; and, DOB ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, by letter dated July 26, 2018, the Board permitted a change in ownership and operating control of the PCE from “99th Avenue Holdings LLC d/b/a TMPL Gym” to “TSI Hell’s Kitchen, LLC d/b/a TMPL Fitness,” as substantially complying with the prior grant; and

WHEREAS, the time to obtain a certificate of occupancy having expired, the applicant seeks the subject relief; and

WHEREAS, the applicant additionally requests a waiver, pursuant to § 1-14.2 of the Board’s Rules of Practice and Procedure, of Rule § 1-07.3(d)(2) to permit the filing of this application more than 30 days after the expiration of the time to obtain a certificate of occupancy; and

WHEREAS, the applicant represents that a change in ownership of the PCE, as well as some minor repairs that are being completed, caused unexpected delays in obtaining the certificate of occupancy; and

WHEREAS, the applicant further represents that a certificate of occupancy can be obtained within two (2) years of the Board’s grant; and

WHEREAS, by letter dated December 29, 2018, the Fire Department stated no objection to the application and confirmed that the Fire Department has issued three (3) violation orders (E562057, E511029 and E511030) for operating without a certificate of operation, to restore the fire alarm system and provide a letter of approval for the fire alarm system in the PCE space; and the Bureau of Fire Prevention’s Licensed Public Place of Assembly unit will perform continued inspections for compliance with these violation orders; and

WHEREAS, at hearing, the Board’s Fire Department representative confirmed that the Fire Department will continue to perform inspections in an effort to ensure that all outstanding violations regarding the fire alarm system are

MINUTES

cured, thus, the Board need not delay a decision on this application; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to obtain a certificate of occupancy is appropriate with certain conditions, as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* Rule § 1-07.3(d)(2) of its Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated November 1, 2016, so that, as amended, this portion of the resolution reads: “to grant an extension of time to obtain a certificate of occupancy to January 15, 2021; *on condition*:

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT fire safety measures—including a sprinkler system and an interior fire alarm system—shall be maintained as indicated on the BSA-approved plans;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number (“BSA Cal. No. 245-15-BZ”), shall be obtained by January 15, 2021;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s); and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, January 15, 2019.

THE RESOLUTION –

WHEREAS, the decisions of the Deputy Borough Commissioner, dated February 19, 2016, acting on Department of Buildings (“DOB”) Application Nos. 520264945, 520264954, 520264963, 520264981 and 520264972 read in pertinent part:

GCL 36, BC 502.1: The street giving access to proposed building is not duly placed on the official map of the City of New York therefore:

- A) No Certificate of Occupancy can be issued pursuant to Article 3, Section 36 of the General City Law;
- B) Proposed construction does not have at least 8% of the total perimeter of building(s)

fronting directly upon a legally mapped street or frontage space contrary to section 502.1 of the 2014 NYC Building Code; and

WHEREAS, these are applications to permit the construction of a two-story plus cellar one-family dwellings on each of five proposed tax and zoning lots with frontage on a portion of Cunard Avenue that is not duly placed on the official New York City map, contrary to General City Law (“GCL”) § 36; and

WHEREAS, a public hearing was held on these applications on September 27, 2018, after due notice in *The City Record*, with a continued hearing on December 11, 2018, and then to decision on January 15, 2019; and

WHEREAS, Chair Perlmutter, Vice-Chair Chanda and Commissioner Scibetta performed inspections of the site and the surrounding area; and

WHEREAS, the subject site is an irregularly shaped lot with non-continuous frontage on Wandel Avenue to the north and Cunard Avenue to the west and south, partially within an R3A zoning district and partially within an R3-1 zoning district, in the Special Hillside Preservation District, on Staten Island; and

WHEREAS, the site has approximately 75 feet of frontage along Wandel Avenue, 80 feet of frontage along Cunard Avenue to the east, 332 feet of frontage along Cunard Avenue to the south, 52,144 square feet of lot area and is currently vacant; and

WHEREAS, the applicant provided an Application for Mergers or Apportionments submitted to the New York City Department of Finance, and approved as of May 6, 2015, for the apportionment of existing tax lot 8 into five (5) separate tax lots: tax lot 93 (78 Cunard Avenue, 3,501 square feet of lot area), tax lot 95 (76 Cunard Avenue, 4,576 square feet of lot area), tax lot 8 (74 Cunard Avenue, 14,415 square feet of lot area), tax lot 9 (72 Cunard Avenue, 16,706 square feet of lot area), and tax lot 10 (70 Cunard Avenue, 12,946 square feet of lot area); and

WHEREAS, the applicant proposes to develop each of the five new tax and zoning lots with a two-story plus cellar one-family dwelling and asserts that each of the buildings would comply and conform to all applicable zoning requirements; and

WHEREAS, Cunard is an unmapped street, but is improved and open to the public from the intersection of Wandel Avenue to a point approximately 270 feet south—such portion having been issued a Corporation Counsel Opinion on September 12, 2003, for an as-of-use width of 25-30 feet; however, beyond such point, Cunard Avenue is unimproved; and

WHEREAS, the applicant initially proposed to pave and improve 120 feet of the currently unimproved portion of Cunard Avenue (in front of proposed tax lots 93, 95, 8 and 9) that does not connect to the already improved and in-use portion of Cunard Avenue that leads, ultimately, to Wandel Avenue, but, instead, utilizes existing tax lot 237 on block 623 as a 30 foot wide road (an “access lane”) providing access to Cedar Terrace, another unmapped street issued a Corporation

MINUTES

Counsel Opinion as-in-use for a width of 20-30 feet, but having an actual width at the proposed access lane of 20 feet; and

WHEREAS, the applicant subsequently revised the plans to indicate a 50-foot-wide access lane comprising the entirety of tax lot 237; and

WHEREAS, the applicant submits that the access from Cedar Terrace was proposed at the request of the Fire Department as an alternative to access from Wandel Avenue, which is very steeply sloped at the subject location; and

WHEREAS, Community Board 1, Staten Island, recommends disapproval of these applications, citing concerns that the proposal should be subject to review by the City Planning Commission (“CPC”) for compliance with Special Hillside Preservation District regulations and that the access lane proposed to connect Cedar Terrace and Cunard Avenue associated with these applications would create practical difficulties for delivery of services; and

WHEREAS, by letter dated May 13, 2016, New York City Councilmember Debi Rose states opposition to these applications, echoing the concerns identified by Community Board 1, Staten Island; and

WHEREAS, by letter dated June 16, 2016, Staten Island Borough President James S. Oddo also recommends disapproval of these applications unless a complying accessible path—compliant, that is, with street drainage, street, and sidewalk and curb improvements, Americans with Disabilities Act (ADA) design standards and all code-related rules pertaining to fire operations features, including fire apparatus access, dead-end proposals, building access, hydrant and water supplies and utility access—from the nearest mapped street be open to public use without hindrance and remain unobstructed at all times; and

WHEREAS, Borough President Oddo expressed concerns regarding the location of the site in the Special Hillside Preservation District, the lack of access to the portion of Cunard Avenue proposed to be opened in association with these applications and the proposal to construct a new private road connecting Cedar Terrace and an unopened portion of Cunard Avenue on a separate zoning lot; and

WHEREAS, accordingly, Borough President Oddo requested that the Board require access to Cunard Avenue from the existing opened portion of that street and that the applicant pursue a mapping action at CPC for the proposed connector road to protect the integrity of the City Map and better protect adjoining property owners’ quality of life; and

WHEREAS, the Board was also in receipt of two (2) letters, including one from the Van Duzer Street Civic Association, in opposition to this application, as well as 29 petitions, signed by residents of the immediate area, stating that the subject applications will negatively impact the neighborhood and urging the Board to deny the applications based on the absence of a proposal to connect the new proposed section of Cunard Avenue to the existing improved portion of Cunard Avenue; the steepness and narrowness of Cunard Avenue at the subject location; failure of the proposed

egress to Cedar Terrace—having a width of between 25 and 28 feet—to meet Fire Code; that the proposal will overburden the neighborhood’s antiquated combined sewer systems; and that CPC has not yet acted on applications required under applicable Special Hillside Preservation District regulations; and

WHEREAS, by letter dated December 7, 2018, the Staten Island Office of the New York City Department of City Planning (“DCP”) states that on April 16, 2015, the subject applicant team met with DCP in an interdivisional meeting to discuss a proposal seeking Special Hillside Preservation District (“SHPD”) authorizations to develop five single-family homes accessed via a private road on a zoning lot (Block 623, Lot 237) located between Cedar Terrace and Cunard Avenue and that DCP has significant concerns regarding access to the proposed homes because the subject site is irregularly shaped and contains a substantial amount of steep slope; DCP noted that the applicant team should explore potential development options that minimized disturbance to the steep slope, as per the goals of the SHPD; DCP also identified concerns regarding the ability to provide adequate circulation and turnaround for emergency vehicles and the effect of the proposal to provide access by chaining together a series of unmapped roads that would result in a volume of traffic on Cedar Terrace, an existing private road, that was never contemplated; and

WHEREAS, DCP further states in their letter that alternative access that would involve extending Cunard Avenue raises additional issues: Cunard Avenue is not a final mapped street, does not have a Corporation Counsel Opinion and does not meet the zoning definition of a “street”; the lower portion of Cunard Avenue is only partially improved to approximately 23 feet wide and is in an ecologically sensitive steep slope area; the western and northern portions of Cunard Avenue are not open or improved at all, including a portion that fronts proposed residences; and the grading of Cunard does not allow for the safe passage of emergency vehicles; therefore, DCP suggests that the applicant team explore alternative development scenarios focused on where the site has existing frontage along improved streets, including Wandel Avenue, which is a final mapped street; and

WHEREAS, DCP concludes that the requested waivers would not be appropriate at this time, but that, to the extent that the applicant amends the proposal to locate development along existing streets, the agency would reexamine its position; and

WHEREAS, by letter dated December 26, 2018, subsequent to the closing of the public hearing on this application on December 11, 2018, the applicant requested withdrawal of these applications without prejudice; and

WHEREAS, pursuant to § 1-12.2 of the Board’s Rules of Practice and Procedure:

The Board may consider a request to withdraw an application made by an applicant at any time before the Board’s final determination.

If the request to withdraw is made before the hearing has been closed, the Board may permit

MINUTES

withdrawal without prejudice upon request.

If the request to withdraw is made after the hearing is closed, the Board may permit withdrawal without prejudice for good cause only. If it determines that proper enforcement or public policy would thereby be served, the Board may refuse the withdrawal or it may condition the withdrawal with prejudice on the refiling of a future application for the same relief.

If the request to withdraw the application is made, and a motion to vote is pending, such motion will have precedence; and

WHEREAS, in light of the letter from DCP in strong opposition to the particular access route herein proposed as part of these applications, as well as the recommendations of Community Board 1, Staten Island, and the Staten Island Borough President, the Chair moved to permit the withdrawal of these applications with prejudice as to the future filing of a series of applications proposing the same development and means of access to 20 foot wide Cedar Terrace and requesting the same relief; and

WHEREAS, such motion received three votes in favor and one vote, by the Vice-Chair who believed that the subject applications should be withdrawn without prejudice, against the motion.

Therefore, it is Resolved, that the Board of Standards and Appeals accepts the withdrawal of this application *with prejudice* to filing another series of applications identical to the subject series of applications, proposing the same residential development with access provided to 20-foot-wide Cedar Terrace and requesting the same relief.

Adopted by the Board of Standards and Appeals, January 15, 2019.

THE RESOLUTION –

WHEREAS, the decision on behalf of the Borough Commissioner, dated September 16, 2016, acting on Department of Buildings ("DOB") Application No. 122652959, reads in pertinent part:

MINUTES

Proposed ‘Physical Culture Establishment’ is not permitted As-Of-Right as per section ZR 32-10 and is referred to the Board of Standards and Appeals for a special permit under ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site located within a C6-2A zoning district, a physical culture establishment (“PCE”) in a portion of the first floor of an existing six- (6) story plus cellar commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on December 4, 2018, after due notice by publication in *The City Record*, and then to decision on January 15, 2019; and

WHEREAS, Community Board 2, Manhattan, recommends approval of this application; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the subject site and surrounding neighborhood;

WHEREAS, the Board was in receipt of one (1) form letter in support of this application; and

WHEREAS, the subject site is located on the northwest corner of Canal Street and Renwick Street, in a C6-2A zoning district, in Manhattan; and

WHEREAS, the site has approximately 109 feet of frontage on Canal Street, 102 feet of frontage on Renwick Street, 6,074 square feet of lot area and is occupied by an existing six- (6) story plus cellar commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use1* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be

provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant represents that the subject PCE occupies 3,256 square feet of floor area on the first floor with areas for strength training, open workout areas, a boxing ring, an area for lockers, bathrooms, showers, an office, and reception area; and

WHEREAS, the PCE has operated since March 3, 2016 as “Dogpound Fitness,” with the following hours of operation: Monday through Friday, 6:00 a.m. to 9:00 p.m.; and, Saturday and Sunday, 8:00 a.m. to 6:00 p.m.; and

WHEREAS, although the building has no residential uses within, the applicant states that sound and vibration

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

attenuation measures have been provided in the PCE space to mitigate any potential disturbance to the building's commercial tenants; specifically, the PCE is utilizing shock absorbing and sound dampening acoustically rated rubber tile flooring in the workout areas of the PCE and acoustically insulated drop ceilings in the reception area and bathrooms to reinforce acoustic performance; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because it is located in an existing commercial building and the PCE complements the mixed-use neighborhood where it is located; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant submits that the PCE contains facilities for classes, instruction and programs for the provision of physical improvement, body building and weight reduction; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood because the PCE is located in a busy, mixed-use area with residential and commercial uses, and the applicant anticipates low noise levels within the PCE and no exterior noise emanating from the PCE; and

WHEREAS, the applicant states that wet sprinkler system and an approved fire alarm system—including smoke detectors, manual pull stations, local audible and visual alarms and a connection to an FDNY-approved central station—will be installed throughout the PCE space; and

WHEREAS, by letter dated November 28, 2018, the Fire Department objected to the application, stating that the building does not require a sprinkler and standpipe system under the 1968 Building Code; the premises had a fire alarm system that was damaged due to [Superstorm] Sandy and subsequently was removed without filing for the removal or replacement; the Fire Alarm Inspection Unit ("FAIU") at the Bureau of Fire Prevention has been notified and inspectors will be visiting the site; in addition, the fire alarm system installed by the proposed PCE, as described in the "statement of facts," has not been reviewed nor inspected by FAIU; inspectors will visit the PCE space to determine the type of system and issue applicable violations; copies of these violations will be given to the Board once issued; as per the plans filed and the Alteration (Alt. I 122652959) the occupant load is 65 persons, therefore a Place of Assembly (PA) application is not required; and, the Fire Department requested an adjournment of the application so that the

FAIU inspectors can visit the site and determine the type of fire alarm installed at the PCE space and to verify that the building's fire alarm system was removed; and

WHEREAS, by letter dated December 20, 2018, the Fire Department stated no objection to the application and confirmed that, on December 13, 2018, the FAIU conducted an inspection of the PCE space and the entire premises to verify the type of fire alarm system at the premises and confirmed that the system was removed; in accordance with the rules and regulations of the Fire Department, two (2) violation orders were subsequently issued; a review of the DOB Building Information System shows that two (2) applications have been filed for installation of a fire alarm system in the premises (Alt. II 123594538 for the PCE space; Alt. II 123594547 for the building); and, the Fire Department will conduct periodic inspections and confirm the progress of the fire alarm installation within the Bureau of Fire Prevention; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 16-BSA-084M, dated February 29, 2016; and

WHEREAS, the term of the grant has been reduced to reflect the period the PCE operated without approval from the Board; and

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, legalizing the PCE space on the first floor, is appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to legalize, on a site located within a C6-2A zoning district, the operation of a physical culture establishment on a portion of the first floor of an existing six- (6) story plus cellar commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received October 17, 2018-Nine (9) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on March 3, 2026;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law

MINUTES

58/87 will be as reviewed and approved by DOB;

THAT an approved fire alarm system shall be installed and maintained as indicated on the Board-approved plans;

THAT minimum 3 foot wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also referencing this approval and calendar number (“BSA Cal. No. 2016-4128-BZ”), shall be obtained within one (1) year, by January 15, 2020;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 15, 2019.

THE RESOLUTION –

WHEREAS, the decision of the Borough Commissioner, dated July 28, 2016, acting on Department of Buildings (“DOB”) Application No. 122479932, reads in pertinent part:

Proposed ‘Physical Culture Establishment’ is not permitted As-Of-Right as per section ZR 32-10 and is referred to the Board of Standards and Appeals for a special permit under ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site located in a C6-2A zoning district and in the Tribeca East Historic District, a physical culture establishment (“PCE”) on portions of the sub-cellar,

cellar and first floor of an existing five- (5) story plus cellar and sub-cellar commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on December 4, 2018, after due notice by publication in *The City Record*, and then to decision on January 15, 2019; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 1, Manhattan, recommends approval of this application; and

WHEREAS, the Board was in receipt of one (1) form letter in support of this application; and

WHEREAS, the subject site is located on the east side of Broadway, between Walker Street and White Street, in a C6-2A zoning district and in the Tribeca East Historic District, in Manhattan; and

WHEREAS, the site has approximately 28 feet of frontage, 175 feet of depth, 4,900 square feet of lot area and is occupied by an existing five- (5) story plus cellar and sub-cellar commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since December 14, 2004, when, under BSA Cal. No. 214-03-BZ, the Board granted a special permit, pursuant to ZR §§ 73-36 and 73-03 to permit the legalization of a PCE on the first floor of an existing five-story commercial building, then located in an M1-5 zoning district, on condition that all work substantially conform to plans as they apply to the objections filed with the application; the special permit be limited to a term of ten (10) years from July 8, 2003, expiring July 8, 2013; there be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board; all massages be performed only by New York State licensed massage therapists; the above conditions appear on the Certificate of Occupancy; an interior fire alarm system be installed and maintained, including area smoke detectors throughout the premises, manual pull stations at each required exit, local audible and visual alarms, and connection of the such system and existing sprinkler system to a NYC Fire Department-approved central station, as shown on the BSA-approved plans; the DOB ensure compliance with all exiting requirements and Local Law 58/87; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; the approved plans be considered approved only for the portions related to the specific relief granted; and the Department of Buildings ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted; and

WHEREAS, the Landmarks Preservation Commission, on October 15, 2018, under LPC-19-31659, issued a Certificate of No Effect (CNE-19-31659) to permit interior alterations at the sub-cellar, cellar and first floor, including

MINUTES

demolition and construction of nonbearing partitions and finishes, as well as plumbing and electrical work, and determined that the work will have no effect on the significant protected features of the building; and

WHEREAS, pursuant to § 1-07.3(b)(3)(iv) of the Board's Rules of Practice and Procedure, because the term of the special permit has lapsed more than two (2) years but less than ten (10) years after the expiration of the term, applications for post-1961 special permits where the grant is limited to term as specified in the Zoning Resolution must be filed as a new special permit; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, the Board notes that, because no portion of the subject PCE is represented as being located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a

background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and

- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant represents that the subject PCE occupies 4,310 square feet of floor space in the sub-cellar with storage areas, laundry, and mechanical space; 5,567 square feet of floor space in the cellar with treatment rooms, massage rooms, a rest area, a manicure and pedicure area, a water station, a bathroom, and utilities room; and, 4,900 on the first floor with treatment rooms, a consultation room, massage rooms, a sauna, bathrooms, showers, a reception area and a pantry with microwave and stove; and

WHEREAS, the applicant submits that the PCE operates as "Eden Day Spa," operating daily from 10:00 a.m. to 9:00 p.m.; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because a majority of patrons will be local area residences and area employees; and

WHEREAS, the Board notes that the subject PCE continued to operate after the expiration of the prior special permit on July 8, 2013, and that no complaints regarding its operation during that time have been submitted into the record on this application; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant represents that the PCE will contain facilities for the practice of massage; and

WHEREAS, accordingly, the Board finds that the

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant submits that an approved fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, and a connection of the interior fire alarm system to an FDNY-approved central station—will be installed within the PCE space which is already protected by a wet sprinkler system; and

WHEREAS, by letter dated December 1, 2018, the Fire Department confirms that applications have been filed with the DOB for the fire alarm system and sprinkler system and will be inspected by units in the Bureau of Fire Protection; and, the Fire Department stated that it has no objection to the application; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood and anticipates the PCE will serve the local community and provide a benefit; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, at the hearing, the Board expressed concern regarding access to the PCE by individuals requiring assistance; and

WHEREAS, in response, the applicant submitted photographs to demonstrate the installation of a sign and wireless doorbell, and availability of a portable ramp, to aid individuals requiring assistance; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 17-BSA-009M, dated August 10, 2016; and

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, legalizing the PCE space in the sub-cellar, cellar level, and first floor, is appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to legalize, on a site located in a C6-2A zoning district and in the Tribeca East Historic District, a physical culture establishment in portions of the sub-cellar, cellar level, and first floor of an existing five- (5) story plus

sub-cellar and cellar commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received January 10, 2019”—Six (6) sheets; and *on further condition*:

THAT the term of the PCE grant shall expire on January 15, 2029;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT all services provided by the PCE to which New York State licensure is required shall be performed by individuals licensed to perform such service;

THAT accessibility compliance under Local Law 58/87 shall be as reviewed and approved by DOB;

THAT the sprinkler system shall be installed and maintained as indicated on the Board-approved plans;

THAT an approved fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and a connection to an FDNY-approved central station—shall be installed and maintained within the PCE space;

THAT minimum 3-foot-wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy indicating this approval and calendar number (“BSA Cal. No. 2017-293-BZ”) shall be obtained within one (1) year, by January 15, 2020;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 15, 2019.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Sheta and Commissioner Scibetta.....4

Negative:0

Absent: Commissioner Ottley-Brown.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated January 18, 2017, acting on DOB Application No. 520286850 reads in pertinent part:

1. ZR 23-461(C): The proposed side yard and open area requirements are not provided and contrary to ZR 23-461(C) in that the proposed side yard is less than eight (8) feet required between buildings containing residences; and

WHEREAS, this is an application under ZR § 72-21 to permit, within an R3A zoning district and in the Special Hillside Preservation District and Lower Density Growth Management Area, the construction of a single-family residence that does not comply with side yard and open area regulations, contrary to ZR § 23-461(c); and

WHEREAS, a public hearing was held on this application on October 30, 2018, after due notice by publication in *The City Record*, with a continued hearing on January 15, 2019, and then to decision on that same date; and

WHEREAS, Commissioner Scibetta performed an inspection of the subject site and surrounding neighborhood; and

WHEREAS, Community Board 1, Staten Island, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of Hendricks Avenue, between Jersey Street and Bismark Avenue, in an R3A zoning district and in the Special Hillside Preservation District and Lower Density Growth Management Area, on Staten Island; and

WHEREAS, the site has approximately 25 feet of frontage, 100 feet of depth, 2,500 square feet of lot area and is vacant; and

WHEREAS, the applicant submits that the site was previously occupied by a residential building that was demolished pursuant to permits in 1987; and

WHEREAS, the applicant proposes to construct a two-(2) story with cellar and one-(1) car garage single-family detached residence resulting in a residence with 15 feet of width and two (2) side yards, each measuring five (5) feet in width; and

WHEREAS, at the subject site, an open area with a minimum total width of eight (8) feet between buildings containing residences on adjacent zoning lots is required pursuant to ZR § 23-461(c)(1) and, pursuant to ZR § 23-461(c)(2), when the open area requirement of ZR § 23-461(c)(1) results in side yards totaling more than 13 feet, the width of such side yards may be reduced to not less than five

(5) feet so long as the total width of both side yards is at least 13 feet; and

WHEREAS, accordingly, the applicant seeks the requested relief; and

WHEREAS, the applicant states, pursuant to ZR § 72-21(a), that the history of the development of the site with a residential building, its vacancy, its interior location and its adjacency to buildings containing residences located in close proximity to their common side lot lines are unique physical conditions that create practical difficulty and unnecessary hardship in developing the site in compliance with the underlying district regulations; specifically, the applicant states that absent the requested relief, a residence only 12 feet in width can be constructed at the site as-of-right, and such a narrow house is inconsistent with the surrounding area; and

WHEREAS, in support of this assertion, the applicant submitted a uniqueness study of vacant interior lots located within the subject R3A zoning district bound by Layton Avenue to the north, Corson Avenue to the south, Westervelt Street to the east and Jersey Street to the west (the “Uniqueness Study Area”) demonstrating that, of the 26 other vacant interior lots in the Uniqueness Study Area (not including the subject site), 4 vacant lots (or 15 percent) are similarly situated as the subject site, that is, they are interior lots, have a width of 25 feet or less, are not held in common ownership with an adjacent lot and, accordingly, can only be developed with a residential building having maximum width of 12 feet; and

WHEREAS, the applicant also provided a 1917 Sanborn map, showing the prior development of the site with a two-(2) story residential building and buildings containing residences to its immediate east and west in approximately the same location and orientation as those adjacent buildings are located today, suggesting that the side yards of the adjacent residential buildings are lawful non-compliances in that they pre-date the 1961 Zoning Resolution; and

WHEREAS, according to a site survey and plans provided by the applicant, the residence located immediately to the east of the subject site is situated approximately six (6) inches from the side lot line it shares with the subject site and the residence located immediately to the west of the subject site is situated approximately 0.2 feet from the side lot line it shares with the subject site; and

WHEREAS, in light of the foregoing, the Board finds that the history of the residential development of the site, its vacancy, interiority and adjacency to buildings containing residences located in close proximity to their common side lot lines create unnecessary hardship and practical difficulty in developing the site in strict compliance with the underlying bulk provisions of the Zoning Resolution; and

WHEREAS, the Board has determined that because of the subject lot’s unique physical conditions, there is no reasonable possibility that compliance with applicable zoning regulations will result in a habitable home, in satisfaction of ZR § 72-21(b); and

MINUTES

WHEREAS, the applicant states that the subject proposal will not alter the essential character of the neighborhood and, in support of that contention, submitted a study of the widths of single- or two-family residences located on 25 foot wide lots in the subject R3A zoning district bound by Scribner Avenue to the north, Layton Avenue to the south, Westervelt Avenue to the east and Jersey Street to the west (the "Neighborhood Study Area") demonstrating the presence of 94 such dwellings that range in width from 12 feet to 25 feet as follows: 28 percent (26 lots) have dwellings with a width of 21 feet; 22 percent (21 lots) have dwellings with a width of 22 feet; 15 percent (14 lots) have dwellings with a width of 16 feet; 9 percent (8 lots) have a width of 20 feet; 7 percent (7 lots) have a width of 23 feet; 4 percent (4 lots) have a width of 14 feet; 4 percent (4 lots) have a width of 18 feet; 3 percent (3 dwellings) have a width of 17 feet; 2 percent (2 lots) have a width of 12 feet; and 1 percent (1 lot each) have a width of 13.5 feet, 15 feet, 19 feet, 24 feet or 25 feet; and

WHEREAS, the applicant additionally submits that the redevelopment of the site with a residential occupancy as it was occupied from at least, 1917 to 1987, would be of benefit, rather than detriment, to the public welfare because the site is currently overgrown and unsightly and that it would not impair the development of adjacent properties because such properties are already developed with residential buildings and do not have any windows facing the subject site; and

WHEREAS, accordingly, the Board finds that the subject proposal will not alter the essential character of the neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare in satisfaction with ZR § 72-21(c); and

WHEREAS, the applicant submits, and the Board finds, that, per ZR § 72-21(d), the hardship was not created by the owner or a predecessor in title; and

WHEREAS, the applicant submits, and the Board finds, that the subject proposal is the minimum necessary to afford the owner relief pursuant to ZR § 72-21(e); and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17-BSA-088R, dated February 10, 2017; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR § 72-21 to permit, within an R3A zoning district, the construction of a detached single family home that does not comply with side yards and open area, contrary to ZR § 23-461(c); *on condition* that all work shall substantially conform to drawings filed with this application marked

"Received March 30, 2018– Sixteen (16) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the site: two (2) side yards, each five (5) feet in width, as reflected on the BSA-approved plans;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a certificate of occupancy, also indicating this approval and calendar number ("BSA Cal. No. 2017-43-BZ"), shall be obtained within four (4) years, by January 15, 2023;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 15, 2019.

APPLICANT – Law Office of Lyra J. Altman, for Freddi Baranoff & Edward Baranoff, owners.

SUBJECT – Application October 12, 2017 – Special Permit (§73-622) to permit the enlargement of an existing single-family residence contrary to ZR §23-141 (Floor Area Ratio and Open Space); and ZR §23-47 (Rear Yard). R2 zoning district.

PREMISES AFFECTED – 1022 East 23rd Street, Block 7604, Lot 52, Borough of Brooklyn.

COMMUNITY BOARD #14BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Sheta and Commissioner Scibetta.....4

Negative:0

Absent: Commissioner Ottley-Brown.....1

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated September 11, 2017, acting on Department of Buildings ("DOB") Application No. 321422769, reads in pertinent part:

List of objections:

1. Proposed plans are contrary to Zoning Resolution Section 23-141 in that the proposed floor area ratio exceeds the maximum permitted;
2. Proposed plans are contrary to Zoning Resolution Section 23-141 in that the

MINUTES

proposed open space ratio is less than the minimum required;

3. Proposed plans are contrary to Zoning Resolution Section 23-47 in that the proposed rear yard is less than the minimum required; and

WHEREAS, this is an application under ZR § 73-622 to permit, in an R2 zoning district, the enlargement of a detached single-family dwelling that does not comply with the zoning requirements for floor area ratio (“FAR”), open space ratio and rear yards contrary to ZR §§ 23-141 and 23-47; and

WHEREAS, a public hearing was held on this application on August 7, 2018, after due notice by publication in *The City Record*, with a continued hearing on January 15, 2019, and then to decision on that same date; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the Board was in receipt of one (1) form letter in support of this application; and

WHEREAS, the subject site is located on the west side of East 23rd Street, between Avenue J and Avenue K, in an R2 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 50 feet of frontage, 100 feet of depth, 5,000 square feet of lot area, and is occupied by a two (2) story plus attic and cellar single-family dwelling containing 3,511 square feet of floor area (0.70 FAR), an open space ratio of 1.00 (3,516 square feet of open space), a front yard with a depth of 19’-5.75”, a rear yard with a depth of 18’-10.5”, two (2) side yards with widths of 4’-11.5” and 14’-3.25”, and detached concrete block garage in the rear; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement*¹ of an existing *single-* or *two-family detached* or *semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General

Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single-* or *two-family detached* or *semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building’s non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that this application located within an area in which the special permit is available; and

WHEREAS, the Board notes further that the subject

¹ Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

application seeks to enlarge a detached one-family residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant proposes to enlarge the building by vertically enlarging the dwelling and horizontally extending the two (2) stories and attic into the front yard and southern side yard, resulting in a two- (2) story plus attic and cellar dwelling with 5,019 square feet of floor area (1.00 FAR), an open space ratio of 0.6 (2,993 square feet of open space), a front yard with a depth of 15 feet, a rear yard with a depth of 18'-10.5", two (2) side yards with widths of 8'-10" and 5'-0", and a detached garage in the rear; and

WHEREAS, specifically, the applicant states that the proposed enlargement would increase the floor area on the first floor from 1,484 square feet to 2,008 square feet, the second floor from 1,247 square feet to 2,101 square feet, and the attic from 780 square feet to 910 square feet; and

WHEREAS, at the subject site, a maximum FAR of 0.50 is permitted, a minimum open space ratio of 1.5 is required, and a rear yard with a depth of 30 feet is required pursuant to ZR §§ 23-141 and 23-47; and

WHEREAS, the proposed enlargement includes a vertical extension of the existing non-complying rear yard, and the Board notes that, pursuant to a 1930 Sanborn Map including the subject site provided by the applicant, the subject site was developed with a detached dwelling in approximately the same location and orientation as the site is occupied today and, thus, the non-complying rear yard predated the 1961 Zoning Resolution and is a legal non-compliance; and

WHEREAS, the applicant provided an analysis of single- or two-family dwellings located within 400 feet of the subject premises within an R2 zoning district (the "Study Area") concluding that, of the 93 qualifying residences, 87 residences (94 percent) have an FAR of greater than 0.5, ranging from 0.51 to 1.56, and 13 residences (14 percent) have an FAR of 1.00 or greater; and

WHEREAS, with regards to open space, the applicant demonstrated that, within the Study Area, 92 residences (99 percent) have an open space ratio less than 1.50, ranging from 1.46 to 0.36, and 15 residences (16 percent) have an open space ratio of 0.6 or less; and

WHEREAS, the applicant provided an analysis of rear yard conditions on the subject block, demonstrating that, of the 34 other single- or two- (2) family dwellings for which dimensions were provided, 30 lots (88 percent) have rear yards with a depth of less than 30 feet, with rear yards ranging in depth from 0 feet to 27 feet, including the dwelling located immediately adjacent and to the south of the subject site, which has a rear yard depth of 0 feet; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the

community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17-BSA-040K, dated October 13, 2017; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622 to permit, in an R2 zoning district, the enlargement of a one-family detached dwelling that does not comply with the zoning requirements with regards to floor area ratio, open space ratio and rear yards, contrary to ZR §§ 23-141 and 23-47; *on condition* that all work shall substantially conform to drawings as they apply to the objection above-noted, filed with this application and marked Received "January 15, 2019"—Seventeen (17) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area ratio of 1.00 (5,019 square feet of floor area), a minimum open space ratio of 0.6 (2,993 square feet of open space), and a rear yard with a minimum depth of 18'-10.5", as illustrated on BSA-approved plans;

THAT the removal of exterior walls and/or joists in excess of those indicated on the BSA-approved plans is prohibited and shall void the special permit;

THAT substantial construction shall be completed pursuant to ZR § 73-70;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number ("BSA Cal. No. 2017-277-BZ") shall be obtained within four (4) years, by January 15, 2023;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 15, 2019.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated December 19, 2017, acting on Department of Buildings (“DOB”) Application No. 321464633, reads in pertinent part:

The proposed enlargement of the existing one family residence in an R4 zoning district:

1. creates non-compliance with respect to floor area by exceeding the allowable floor area ratio and is contrary to Section 23-142 of the Zoning Resolution;
2. creates non-compliance with respect to the lot coverage and is contrary to Section 23-142 of the Zoning Resolution;
3. creates non-compliance with respect to the open space and is contrary to Section 23-142

of the Zoning Resolution;

4. creates non-compliance with respect to the rear yard and is contrary to Section 23-47 of the Zoning Resolution;
5. creates non-compliance with respect to the side yards and is contrary to Section 23-461 of the Zoning Resolution; and

WHEREAS, this is an application under ZR § 73-622 to permit, in an R4 zoning district and in the Special Ocean Parkway District, the enlargement of a detached single-family dwelling that does not comply with the zoning requirements for floor area ratio (“FAR”), lot coverage, open space, rear yards and side yards contrary to ZR §§ 23-142, 23-47 and 23-461; and

WHEREAS, a public hearing was held on this application on August 14, 2018, after due notice by publication in *The City Record*, with continued hearings on November 8, 2018, and January 15, 2019, and then to decision on same date; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the Board was in receipt of one (1) form letter in opposition to this application; and

WHEREAS, the subject site is located on the north side of Avenue W, between Stryker Street and West 1st Street, in an R4 zoning district and in the Special Ocean Parkway District, in Brooklyn; and

WHEREAS, the site is an L-shaped lot, has approximately 38.5 feet of frontage along Avenue W, 21 feet of frontage along Stryker Street, 100 feet of depth, 4,263 square feet of lot area, and is occupied by a two (2) story plus cellar single-family dwelling containing 2,446 square feet of floor area (0.57 FAR), lot coverage of 32 percent, open space of 68 percent, a front yard with a depth of 5’-5.75”, a rear yard with a depth of 44’-7.5”, two (2) side yards with widths of 2’-8” and 3’-5”, a perimeter wall height of 22’-1” and a total building height of 28’-8”; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement*¹ of an existing *single-* or *two-family detached* or *semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards

¹ Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the

foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that this application located within an area in which the special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge a detached one-family residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant proposes enlarge the building by vertically enlarging the dwelling in the front yard, vertically and horizontally extending the dwelling in the rear, and constructing a detached shed in the rear yard, resulting in a two- (2) story plus attic and cellar dwelling with 5,649 square feet of floor area (1.32 FAR), lot coverage of 54 percent, open space of 46 percent, a front yard with a depth of 5'-5.75", a rear yard with a depth of 20', two (2) side yards with widths of 2'-8" and 3'-5", a perimeter wall height of 23'-10" and a total building height of 34'-11"; and

WHEREAS, specifically, the applicant states that the proposed enlargement would increase the floor area on the first floor from 1,379 square feet to 2,305 square feet, the second floor from 1,067 square feet to 2,078 square feet, create a new attic with 1,146 square feet of floor area, and construct a new 120 square foot detached shed in the rear; and

WHEREAS, at the subject site, a maximum FAR of 0.901 is permitted, a maximum lot coverage of 45 percent is permitted, a minimum open space of 55 percent is required, a front yard depth of ten (10) feet is required, a rear yard with a depth of 30 feet is required, and two (2) side yards, each with a minimum width of five (5) feet, and 13 feet of total side yards² are required pursuant to ZR §§ 23-142, 23-45, 23-47 and 23-48; and

WHEREAS, the applicant provided an analysis of single- or two-family dwellings located within 400 feet of the subject premises within an R4 zoning district (the "Study Area") concluding that, of the 94 qualifying residences, 65 residences (69 percent) have an FAR of greater than 0.75, including 36 residences (38 percent) with an FAR of greater

1 Pursuant to ZR § 23-142, a maximum FAR of 0.75 is permitted; however, pursuant to ZR § 23-142(a), FAR may be increased by up to 20 percent provided that any such increase in floor area is located directly under a sloping roof which rises at least three and one half inches in vertical distance for each foot of horizontal distance and the structural headroom of such floor area is between five (5) and eight (8) feet.

2 Pursuant to ZR § 23-48, the required total width of side yards for a single-family detached residence may be reduced by four (4) inches for each foot by which the width of a zoning lot is less than that required under the provisions of § 23-32; however, the applicant provided no evidence to demonstrate that the subject zoning lot was owned separately and individually from all other adjoining tracts of land, both on December 15, 1961, and on the date of application for a building permit, as required for the applicability of that section.

MINUTES

than 0.9, and 23 residences (25 percent) with an FAR of 1.32 or greater, ranging from 1.32 to 1.81; and

WHEREAS, with regards to lot coverage and open space, the applicant demonstrated that, within the Study Area, 32 residences (34 percent) have lot coverage greater than 45 percent, ranging from 48 percent to 66 percent, and 18 residences (19 percent) have lot coverage of 54 percent or greater; and

WHEREAS, the applicant provided an analysis of rear yard conditions on the subject block, demonstrating that, of the 27 other single- or two- (2) family dwellings for which dimensions were provided, 13 lots (48 percent) have rear yards with a depth of less than 30 feet, with rear yards ranging in depth from 3 feet to 29 feet; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, over the course of the hearings, the Board raised concerns regarding the proposed depth of the rear yard setback at the second floor in light of the adjacent property conditions; and

WHEREAS, in response to the Board's concerns, the applicant amended the plans to provide a 25-foot rear yard setback at the second floor; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18-BSA-086K, dated January 19, 2018; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622 to permit, in an R4 zoning district and in the Special Ocean Parkway District, the enlargement of a one-family detached dwelling that does not comply with the zoning requirements with regards to floor area ratio, lot coverage, open space, rear yards, and side yards contrary to ZR §§ 23-142, 23-47 and 23-461; *on condition* that all work shall substantially conform to drawings as they apply to the objection above-noted, filed with this application and marked Received "January 15,

2019"—Nineteen (19) sheets; and *on further condition:*

THAT the following shall be the bulk parameters of the building: a maximum floor area ratio of 1.32 (5,649 square feet of floor area), a maximum lot coverage of 54 percent, a minimum open space of 46 percent, and a rear yard with a minimum depth of 20 feet at the first floor and 25 feet at the second floor, two (2) side yards with minimum depths of 2'-8" and 3'-5", and a front yard with a minimum depth of 5'-5.75", as illustrated on BSA-approved plans;

THAT the removal of exterior walls and/or joists in excess of those indicated on the BSA-approved plans is prohibited and shall void the special permit;

THAT substantial construction shall be completed pursuant to ZR § 73-70;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number ("BSA Cal. No. 2018-7-BZ") shall be obtained within four (4) years, by January 15, 2023;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 15, 2019.

THE RESOLUTION –

WHEREAS, the decision of the Borough Commissioner, dated July 10, 2018, acting on Department

MINUTES

of Buildings (“DOB”) Application No. 321171307, reads in pertinent part:

Proposed physical culture establishment is not permitted as-of-right in a C4-2A zoning district per ZR Section 32-10 and therefore requires a ZR Section 73-36 special permit from the Board of Standards and Appeals; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, on a site located within a C4-2A zoning district and in the Special Bay Ridge District, a physical culture establishment (“PCE”) in portions of the first and second floors of an existing two- (2) story plus cellar commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on January 8, 2018, after due notice by publication in *The City Record*, with a continued hearing on January 15, 2019, and then to decision on that same date; and

WHEREAS, Community Board 10, Brooklyn, recommends approval of this application; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the subject site and surrounding neighborhood; and

WHEREAS, the subject site is located on the southeast corner of 4th Avenue and 87th Street, in a C4-2A zoning district and in the Special Bay Ridge District, in Brooklyn; and

WHEREAS, the site has approximately 121 feet of frontage on 4th Avenue, 122 feet of frontage on 87th Street, 10,920 square feet of lot area, and is occupied by a two- (2) story plus cellar commercial building; and

WHEREAS, the Board has exercised jurisdiction over tax lot 8 since February 5, 2008, when, under BSA Cal. No. 152-07-BZ, the Board issued a special permit to legalize the operation of a PCE on condition that all work substantially conform to plans filed with the application; the term of the grant expire on January 1, 2013; there be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board; all massages be performed by New York State licensed massage therapists; fire safety measures, including full sprinklering as per the Fire Department, be installed and/or maintained as shown on the BSA-approved plans; the above conditions appear on the certificate of occupancy; the PCE be brought into compliance with all conditions of this grant and the BSA-approved plans within six (6) months of the grant, by August 5, 2008; a new certificate of occupancy be obtained within one (1) year of the date of the grant, by February 5, 2009; Local Law 58/87 compliance be as reviewed and approved by DOB; the occupancy of the PCE be as reviewed and approved by DOB; DOB inspect and approve compliance with all conditions of this grant prior to the issuance of a certificate of occupancy; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); the approved plans be considered approved only for the portions related to the specific relief granted;

and, the DOB ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, on October 21, 2014, under BSA Cal. No. 152-07-BZ, the Board waived its Rules of Practice and Procedure, reopened and amended the resolution to grant an extension of term for ten (10) years, to expire January 1, 2023, and granted an extension of time to obtain a certificate of occupancy for one (1) year, to expire October 21, 2015, on condition that that any and all work substantially conform to plans filed with the application; any massages be performed only by New York State licensed massage professionals; there be no change in ownership or operating control of the PCE without prior approval from the Board; the hours of operation be limited to Monday through Thursday, from 5:00 a.m. to 12:00 a.m., Friday, from 5:00 a.m. to 10:00 p.m., and Saturday and Sunday, from 8:00 a.m. to 8:00 p.m.; the above conditions appear on the certificate of occupancy; all conditions from the prior resolution not

specifically waived by the Board remain in effect; and DOB ensure compliance with all

other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted; and

WHEREAS, the prior term having expired, and the applicant having represented that the operator of the subject PCE is unaffiliated with the operator(s) to whom prior special permits were granted, the applicant seeks a new special permit under the subject calendar number; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use*1 is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction,

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

- aerobics or martial arts; or
- (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant represents that the subject PCE will occupy 315 square feet of floor area on the first floor with a dedicated entrance to the PCE with stair and elevator access to the second floor of the PCE; and 10,392 square feet of floor area on the second floor with exercise spaces for free weights, circuit training on exercise

equipment, cardio areas and functional training, a boxing ring, men's and women's locker rooms with restrooms and showers, a reception area, office space, and storage; and

WHEREAS, the PCE is proposed to operate as "Harbor Fitness," with the following hours of operation: Monday through Saturday, 5:00 a.m. to 12:00 a.m., and Sunday, 7:00 a.m. to 10:00 p.m.; and

WHEREAS, though the PCE is located entirely within a commercial building, the applicant represents that it does not anticipate adverse noise impacts from the PCE, and noise attenuation measures will be installed in the PCE to ensure that sound levels in other portions of the building do not exceed a maximum level of 45 dBa; specifically, the applicant proposes to install an acoustical suspended ceiling and soundproof insulation in the walls of the PCE, and rubber mats in exercise areas; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because it is located in an existing commercial building and in a neighborhood characterized predominantly by commercial and mixed-use buildings with commercial uses on the ground floor; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant submits that the PCE contains facilities for the provision of physical improvement, body building, weight reduction and aerobics; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood and anticipates the PCE will be an asset to the surrounding community; and

WHEREAS, the applicant states that a wet sprinkler system and an approved fire alarm system—including smoke detectors, manual pull stations, local audible and visual alarms and a connection to an FDNY-approved central station—will be installed throughout the PCE space; and

WHEREAS, by letter dated December 18, 2018, the Fire Department stated no objection to this application and confirmed that the premises is undergoing major construction for new fire alarm, standpipe, and sprinkler systems on all floors; as per plans filed with the Board, a new fire alarm system and sprinkler system are required for the PCE space; and units in the Bureau of Fire Prevention will be notified of this application before the Board and will inspect the premises if a special permit is granted; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the

MINUTES

PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 19-BSA-13K, dated July 18, 2018; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located within C4-2A zoning district and in the Special Bay Ridge District, the operation of a physical culture establishment in portions of the first and second floor of an existing two- (2) story plus cellar commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received January 14, 2019-Four (4) sheets”; and *on further condition*:

THAT the term of the PCE grant will expire on January 15, 2029;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 will be as reviewed and approved by DOB;

THAT the fire alarm and sprinkler systems shall be installed and maintained as indicated on the Board-approved plans;

THAT minimum 3 foot wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also referencing this approval and calendar number (“BSA Cal. No. 2018-119-BZ”), shall be obtained within four (4) years, by January 15, 2023;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

APPLICANT – Deirdre A. Carson, Greenberg Traurig LLP, for 100 Church Fee LLC, owner; 100 Church Street Tenant, LLC, lessee.

SUBJECT – Application August 7, 2018 – Special Permit (§73-36) to permit the operation of a physical culture establishment (*Club*) within an existing building contrary to ZR §32-10. C5-3 Special Lower Manhattan District.

PREMISES AFFECTED – 100 Church Street, Block 125, Lot 20, Borough of Manhattan.

COMMUNITY BOARD #1M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Sheta and Commissioner Scibetta.....4

Negative:0

Absent: Commissioner Ottley-Brown.....1

THE RESOLUTION –

WHEREAS, the decision of the Deputy Borough Commissioner, dated September 18, 2018, acting on Department of Buildings (“DOB”) Application No. 123268775, reads in pertinent part:

A physical culture establishment is not an “As of Right” use. BSA approval is required. A BSA Special Permit pursuant to ZR Sec. 73-36 is required; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, on a site located within a C5-3 zoning district and in the Special Lower Manhattan District, a physical culture establishment (“PCE”) in a portion of the seventh floor of an existing 19-story plus cellar, sub-cellar and basement commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on December 4, 2018, after due notice by publication in *The City Record*, with a continued hearing on January 15, 2019, and then to decision on the same date; and

WHEREAS, Community Board 1, Manhattan, recommends approval of this application; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the subject site and surrounding neighborhood;

WHEREAS, the subject site is bound by Church Street to the east, West Broadway to the west, Park Place to the north, and Barclay Street to the south, in a C5-3 zoning district and in the Special Lower Manhattan District, in Manhattan; and

WHEREAS, the site has approximately 160 feet of frontage on Church Street, 159 feet of frontage on West Broadway, 335 feet of frontage along each of Park Place and Barclay Street, 53,557 square feet of lot area and is occupied by an existing 19-story plus cellar, sub-cellar and basement commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X,

MINUTES

C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use1* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the

foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant represents that the subject PCE will occupy 12,610 square feet of floor area on the seventh floor with areas for cardio and strength equipment, fitness classrooms, spa treatment rooms, men's and women's locker rooms with bathrooms, showers, saunas and steam rooms, and a reception area; and

WHEREAS, the PCE is proposed to operate as "Nexus Club," operating daily from 6:00 a.m. to 12:00 a.m.; and

WHEREAS, the applicant states that sound and vibration attenuation measures will be installed in the PCE space to prevent potential disturbance from the PCE to adjacent occupants in the building including sound and vibration attenuated flooring, acoustical column enclosures and sound-absorbing ceiling treatments; specifically, the applicant proposes to install raised impact-reducing flooring in the fitness classrooms and cardio and strength area of the PCE, acoustic insulation and gypsum board on the columns of the PCE space, and sound-absorbing acoustical spray to the ceilings above areas where loud noises are anticipated; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because it is located in an existing commercial building in a commercial district and is in an area that is already heavily trafficked by local residents and employees, retail customers and tourists; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant submits that the PCE contains facilities for the provision of physical improvement including yoga and spin cycling, as well as facilities for the practice of massage by New York State licensed masseurs and masseuses; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant states that an approved fire alarm system—including smoke detectors, manual pull stations, local audible and visual alarms and a connection to an FDNY-approved central station—will be installed throughout the PCE space, which is already protected with a wet sprinkler; and

WHEREAS, by letter dated November 28, 2018, the Fire Department stated no objection to this application and confirmed that the premises have fire suppression systems (standpipe, sprinkler and fire alarm) that have been tested satisfactory and the permits are current; applications have been filed to modify the fire alarm system (Alt. II 123457348) and a Place of Assembly application (PA 123370529) for the PCE space on the seventh floor; and, the Fire Department's Fire Alarm Inspection Unit and Licensed Public Place of Assembly Unit have been notified of this application and will inspect the premises upon receipt of the Board's decision; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood because the PCE will be part of a members-only club and is not expected to draw a significant number of patrons to the area at any given time; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 19-BSA-021M, dated October 3, 2018; and

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, permitting the proposed PCE space on the seventh floor, is appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located within a C5-3 zoning district and in the Special Lower Manhattan District, the operation of a physical culture establishment on a portion of the seventh floor of an existing 19-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received December 26, 2018-Eleven (11) sheets"; and *on further condition*:

THAT the term of the PCE grant will expire on January 15, 2029;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT any massages shall be performed only by New York State licensed massage professionals;

THAT accessibility shall be provided pursuant to the standards set forth in applicable accessibility laws, including but not limited to Chapter 11 of the NYC Building Code, the 2009 American National Standards Institute (ANSI) A117.1 and Title III of the Americans with Disabilities Act;

THAT approved fire alarm and sprinkler systems shall be installed and maintained as indicated on the Board-approved plans;

THAT minimum 3 foot wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also referencing this approval and calendar number ("BSA Cal. No. 2018-132-BZ"), shall be obtained within four (4) years, by January 15, 2023;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 15, 2019.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated June 20, 2017, acting on DOB Application No. 121324717, reads in pertinent part:

Proposed Physical Culture or Health Establishment in Zoning District C4-7 is not permitted as of right. A special permit is required from the Board of Standards and Appeals as per ZR 32-10, ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site located within a C4-7 zoning district, a physical culture establishment (“PCE”) on a portion of the first floor of an existing 45-story plus cellar and mezzanine mixed-use residential and commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on January 15, 2019, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, Community Board 7, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the southwest corner of West End Avenue and West 61st Street, within a C4-7 zoning district, in Manhattan; and

WHEREAS, the site has approximately 260 feet of frontage, 333 feet of depth, 83,139 square feet of lot area,

MINUTES

and is occupied by a 45-story plus cellar and mezzanine mixed-use residential and commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use1* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, the applicant represents that, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each

of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant submitted evidence that the subject PCE occupies 3,801 square feet of floor area on the first floor with a spin cycling studio, reception, retail area, lockers, men's and women's restrooms with showers, laundry area, storage areas, and an office; and

WHEREAS, the applicant represents that the PCE has been in operation since December 2016, as "SoulCycle" with the following hours of operation: Monday through Saturday, 5:30 a.m. to 11:00 p.m.; and, Sunday, 7:00 a.m. to 9:00 p.m.; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because the PCE is located within an existing building and in an area characterized by mixed-use buildings and comparable ground level commercial uses; and

WHEREAS, the applicant represents that sound attenuation measure have been installed in the PCE to ensure that sound levels in other portions of the building do not exceed 45 dBA, including sound emanating from any sound system; specifically, the applicant demonstrated that the spin cycling studio was constructed as a "box within a box," utilizing insulated acoustic partitions in the walls and ceiling surrounding the studio, batt insulation and sound attenuated blankets in voids and airspace in the ceiling, walls and floor of the studio, floor isolators between the slab and floor, and acoustical sealants; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant represents that the PCE contains facilities for classes, instruction and programs for physical improvement; and

WHEREAS, accordingly, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood and anticipates that the PCE will be an asset to the surrounding area; and

WHEREAS, the applicant demonstrated that wet sprinkler system and a fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and a connection of the building’s interior fire alarm to an FDNY-approved central station—are installed throughout the PCE space; and

WHEREAS, by letter dated December 24, 2018, the Fire Department confirmed that the building has a fire suppression system for both the school and residential portions of the building and have been inspected and found satisfactory; there are currently two (2) fire alarm systems at the premises, one for each the school and the residential portion that have been inspected by the Fire Department and a sign-off is pending; the PCE space will be required to have a fire alarm system for their space, which has to be tied back into the residential building fire alarm system; the Bureau of Fire Prevention recommends that the Board in granting a special permit add as a condition that the applicant obtains an approval and sign-off for the fire alarm system; and the agency has no further objection to the application;

WHEREAS, at the hearing, the applicant represented, and the Fire Department confirmed, that a letter of approval for the fire alarm system for the PCE was obtained; accordingly, the Fire Department withdrew its request for a conditional approval; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 17-BSA-110M, dated March 29, 2017; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE has operated at the premises without the special permit; and

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, legalizing the PCE on the first floor, is appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and

makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to legalize, on a site located within a C4-7 zoning district, the operation of a physical culture establishment in a portions of the first floor of an existing 45-story plus cellar and mezzanine mixed-use residential and commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received March 29, 2017-Five (5) sheets”; and *on further condition*:

THAT the term of the PCE grant shall expire on December 1, 2026;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 shall be as reviewed and approved by DOB;

THAT the existing fire alarm and sprinkler systems shall be maintained as indicated on the Board-approved plans;

THAT minimum 3 foot wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number (“BSA Cal. No. 2017-98-BZ”), shall be obtained within one (1) year, by January 15, 2020;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

APPLICANT – Rothkrug Rothkrug & Spector LLP, for Irene B. Mancus & Joseph H. Mancuso Testamentary Trust, owner.

SUBJECT – Application October 16, 2015 – Extension of Term & Waiver (11-413) seek an extension of term of a previously variance granted pursuant to (72-21) permitting in an R3-2 zoning district an existing coal and oil establishment structural alterations to existing silos to provide storage rooms amend to legalize masonry extension for use as truck garage and removal silos. R3-2 zoning district.

PREMISES AFFECTED – 5 Elm Tree Lane, Block 5651, Lot 250, Borough of Bronx.

COMMUNITY BOARD #12BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta.....4
Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, an amendment and an extension of term of a variance, previously granted by the Board; and

WHEREAS, a public hearing was held on this application on August 15, 2017, after due notice by publication in *The City Record*, with continued hearings on November 14, 2017 and January 23, 2018, and then to decision on March 6, 2018; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 12, Bronx, recommends approval of this application; and

WHEREAS, the Board has exercised jurisdiction over the subject site since November 26, 1968, when, under the subject calendar number, the Board granted a variance to permit, at an existing coal and oil establishment, structural alterations to the silos to provide storage rooms at grade for a term of five (5) years, expiring November 26, 1976; and

WHEREAS, on February 26, 1974, under the subject calendar number, the Board granted an extension of term of five (5) years, expiring February 26, 1979, on condition that a new certificate of occupancy be obtained; and

WHEREAS, on June 26, 1979, under the subject calendar number, the Board granted an extension of term of five (5) years, expiring June 26, 1984, and amended the variance to permit a one-story masonry extension to be used

for truck garages and the removal of silos on condition that a new certificate of occupancy be obtained within one (1) year, by June 26, 1980; and

WHEREAS, on February 13, 1985, under the subject calendar number, the Board granted an extension of term of five (5) years, expiring June 26, 1989, on condition that all conditions enumerated in the affidavit from the owner marked “Received February 5, 1985,” be complied with, that the hours of operation be from 8:00 a.m. to 6:00 p.m. Monday through Friday only, with no business operations on weekends or holidays, except for the ingress and egress of the owner’s trucks and that a new certificate of occupancy be obtained within one (1) year, by February 13, 1986; and

WHEREAS, on October 24, 1989, under the subject calendar number, the Board granted an extension of term of four (4) years, expiring June 26, 1992, on condition that there be no parking and storage of trucks in the open area at any time, that there be no storage of any materials in the open area at any time and that the hours of operation be from 8:00 a.m. to 6:00 p.m. Monday through Friday only, with no business operations on weekends or holidays, except for the ingress and egress of the owner’s trucks and that a new certificate of occupancy be obtained within one (1) year, by October 24, 1990; and

WHEREAS, on October 18, 1994, under the subject calendar number, the Board granted an extension of term of five (5) years, expiring June 26, 1997, on condition that a new certificate of occupancy be obtained within one (1) year, by October 18, 1995; and

WHEREAS, on March 3, 1998, under the subject calendar number, the Board granted an extension of term of 68 months, expiring June 26, 2003, on condition that a new certificate of occupancy be obtained within one (1) year, by March 3, 1999; and

WHEREAS, the term of the variance having expired, the applicant now seeks an extension of term, an amendment and a waiver of the Board’s Rules of Practice and Procedure to allow the late filing of this application; and

WHEREAS, the applicant proposes to amend the variance to allow the storage of agricultural materials in an open area adjacent to the railroad; and

WHEREAS, at hearing, the Board requested additional information regarding the boundaries of the subject site with regard to potential residences nearby, clarification as to the proposed site plan, the potential effect of agricultural materials and the appropriateness of additional landscaping and screening; and

WHEREAS, in response, the applicant updated the site plan and provided evidence of new perimeter landscaping to buffer the subject site from nearby residences; and

WHEREAS, the applicant represents that the open area proposed to be used for the storage of agricultural materials is as far as feasible from adjacent residences and that the landscaping and distance will prevent potential adverse effects on residences; and

WHEREAS, based upon its review of the record, the Board has determined that the requested extension of term,

MINUTES

amendment and waiver are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals does hereby *waive* the Rules of Practice and Procedure and *reopen* and *amend* the resolution, dated November 26, 1968, as amended through March 3, 1998, so that as amended this portion of the resolution shall read: “to *permit* an amendment to the variance to permit open storage of agricultural materials on a portion of the subject site adjacent to the railroad tracks and an extension of term of ten (10) years, expiring March 6, 2028; *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received February 14, 2018”- Three (3) sheets; and *on further condition*:

THAT the term of this grant shall be for ten (10) years, expiring March 6, 2028;

THAT there shall be no parking or storage of trucks in the open area at any time;

THAT there shall be no storage of any materials in the open area at any time, except that there may be storage of agricultural materials, which shall be limited to the area within 50 feet of the western lot line, adjacent to the railroad tracks;

THAT the hours of operation shall be limited to 8:00 a.m. to 6:00 p.m., Monday through Friday only, with no business operations on weekends or holidays, except for the ingress and egress of the owner’s trucks;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within one (1) year, by March 6, 2019;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, March 6, 2018.

***The resolution has been Amended to correct the Premises which read: ...7-9 Elm Tree Lane... now reads: ...5 Elm Tree Lane.... Corrected in Bulletin Nos. 4-5, Vol. 104, dated January 25, 2019.**

COMMUNITY BOARD #11Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, reopening, an extension of term to a previously granted variance, which expired on October 7, 2015, an extension of time to obtain a certificate of occupancy, which expired on November 14, 2007, and an amendment to the variance; and

WHEREAS, a public hearing was held on this application on January 9, 2018, after due notice by publication in *The City Record*, with continued hearings on October 23, 2018, January 15, 2019, January 29, 2019, and then to decision on that same date; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 11, Queens, recommends approval of this application; and

WHEREAS, the Board was in receipt of one (1) letter in support of this application; and

WHEREAS, the subject site is located on the northeast corner of 47th Avenue and Francis Lewis Boulevard, in an R3X zoning district, in Queens; and

WHEREAS, the site has approximately 111 feet of frontage on 47th Avenue, 116 feet of frontage on Francis Lewis Boulevard, 13,500 square feet of area and is occupied by a one- (1) story gasoline service station and accessory

building (Use Group (“UG”) 16); and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 21, 1950, when, under the subject calendar number, the Board granted a variance to permit, on a site then-located partially in a residence use district and partially in a local retail use district, the erection and maintenance of a one- (1) story gasoline service station with auto washing, lubrication, office and sales of auto accessories, for a term of 15 years, to expire March 21, 1965, on condition that the premises be leveled substantially to the grade of the adjoining streets and be constructed and arranged substantially as shown on BSA-approved plans; the accessory building be located and constructed and arranged substantially as proposed and of the design as shown, complying with the requirements of the Building Code; there be no cellar under the accessory building; pumps be constructed not nearer than ten (10) feet to the street building line; curb cuts be restricted to three (3) located as shown not over 30 feet in width each; sidewalks and curbing be constructed and maintained to the satisfaction of the Borough President; the number of gasoline storage tanks not exceed six (6); along the side lot lines to the north and east there be constructed a substantial steel picket fence on the masonry base not less than two (2) feet in height to a total height of not less than five (5) feet six (6) inches; such fence may be reduced within ten (10) feet of either building line to a height of not less than four (4) feet; signs be restricted to a permanent sign attached to the front façade of the accessory building excluding all roof signs and all temporary signs but permitting the erection within the building like of a post standard, located as shown, for supporting a sign which may be illuminated, advertising only the brand of gasoline on sale, and permitting such sign to extend beyond the building line not more than four (4) feet; planting against the fence and at the rear of the accessory building be maintained as proposed and as shown with suitable planting material and protected with a concrete curb not less than six (6) inches above grade and six (6) inches in width; the gasoline pumps be of the parkway type, as proposed, with masonry to match the accessory building; where not occupied by the accessory building, planting and pumps, the premises be paved with concrete or other bituminous paving; such portable fire-fighting appliances be maintained as the Fire Commissioner directs; all permits be obtained and all work completed within one (1) year, by March 21, 1951; and

WHEREAS, on March 10, 1953, under the subject calendar number, the Board amended the variance to permit the proposed extension of the gasoline service station, primarily to provide parking in connection with the gasoline service station for cars awaiting service, on condition that the arrangement be as indicated on revised approved plans submitted with the application; the existing curb cut may be rearranged as thereon shown; suitable planting where indicated, properly protected with concrete curbing, be maintained, and the brand sign may be relocated as thereon indicated but not nearer than 25 feet to the side lot line to the north; the premises where parking is proposed be paved with

MINUTES

concrete or bituminous paving similar to that on the gasoline service station; the additional gasoline pumps to be installed where indicated may be installed, provided they are of an approved type and located not nearer than ten (10) feet to the street building line; the uses be complied with where not inconsistent with this amendment; and, all permits required be obtained and all work completed within one (1) year, by March 10, 1954; and

WHEREAS, on September 24, 1957, under the subject calendar number, the Board amended the variance, adopted on March 21, 1950, as amended through March 10, 1953, by adding that in the event the owner desires to extend the accessory building by the construction of a one- (1) story brick extension for car washing and thereby reduce the seeded area as hereinbefore required, such extension may be permitted as proposed and shown on plans filed with the application, on condition that in all other respects the resolutions above cited be complied with; the outside greasing pit not previously permitted by the Board be removed; the number of gasoline storage tanks may be increased by four (4), making a total of 12 such tanks as indicated on above-cited plans; and, all permits required be obtained and all work completed within one (1) year, by September 24, 1958; and

WHEREAS, on November 6, 1957, under the subject calendar number, the Board amended the resolution, as amended through September 24, 1957, by adding that the construction and extension to the accessory building may include an addition to the proposed extension at the rear, as shown on revised approved plans filed with the application; and that in all other respects the resolution be complied with; and

WHEREAS, on May 29, 1962, under the subject calendar number, the Board amended the resolution, as amended through November 6, 1957, to permit minor auto repairs solely within the accessory building, as shown on revised approved plans filed with the application, on condition that other than as amended the resolution be complied with in all respects;

WHEREAS, on April 6, 1965, under the subject calendar number, the Board extended the term of the variance for ten (10) years, to expire April 6, 1975, on condition that other than as amended the resolution be complied with in all respects; and, a certificate of occupancy be obtained; and

WHEREAS, on October 7, 1975, under the subject calendar number, the Board waived its Rules of Procedure, reopened and amended the variance as to the term and granted a ten (10) year extension, to expire October 7, 1985, on condition that other than as amended the resolution be complied with in all respects; and, a new certificate of occupancy be obtained; and

WHEREAS, on January 19, 1988, under the subject calendar number, the Board waived its Rules of Procedure, reopened and amended the resolution, pursuant to ZR § 11-411, as amended through October 7, 1975, to grant a ten (10) year extension of term, to expire October 7, 1995, on

condition that the sanitation containers be moved from the north end to the south end of the station; the installation of a speed bump with the word "slow" painted on it be installed on the lot line leading to the curb cut on Francis Lewis Boulevard and 47th Avenue and there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic; other than as amended the resolution be complied with in all respects; and, a new certificate of occupancy be obtained within one (1) year, by January 19, 1989; and

WHEREAS, on October 29, 1991, under the subject calendar number, the Board reopened and granted a one (1) year extension of time to obtain a certificate of occupancy, by October 29, 1992;

WHEREAS, on April 23, 1996, under the subject calendar number, the Board, pursuant to ZR §§ 11-411 and 11-412, reopened and amended the resolution, as amended through October 29, 1991, to permit the replacement of four (4) gas pumps with two (2) and the erection of a metal canopy over the fuel dispensing area and extend the term, on condition that the term of the variance be extended for ten (10) years, to expire October 7, 2005; lighting levels and fixtures be as provided on BSA approved plans; the premises be maintained in substantial compliance with the proposed plans submitted with the application; other than as amended the resolution be complied with in all respects; and, substantial construction be completed and a new certificate of occupancy be obtained within one (1) year, by April 23, 1997; and

WHEREAS, on November 14, 2006, under the subject calendar number, the Board waived its Rules of Practice and Procedure, reopened and amended the resolution to extend the term for ten (10) years, to expire on October 7, 2015, and to legalize the conversion of a portion of the building to an accessory convenience store, a change in the fencing material, and a change in the signage; and to permit certain proposed site modifications, on condition that the use substantially conform to approved plans filed with the application; the term of the grant expire on October 7, 2015; all fencing be maintained in good condition; the above conditions be listed on the certificate of occupancy; a certificate of occupancy be obtained within one (1) year, by November 14, 2007; all conditions from prior resolutions not specifically waived by the Board remain in effect; the approval be limited to the relief granted by the Board in response to specifically cited and filed Department of Buildings ("DOB")/other jurisdiction objection(s) only; and, the DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, the term of the variance and the time to obtain a certificate of occupancy having expired, the applicant seeks an extension of the term of the variance and an extension of time to obtain a certificate of occupancy; and

MINUTES

WHEREAS, the applicant additionally requests waivers, pursuant to § 1-14.2 of the Board's Rules of Practice and Procedure, of Rules §§ 1-07.3(b)(2) and 1-07.3(d)(2) to permit the filing of this application less than two (2) years after the expiration of the term, and more than 30 days after the expiration of the time to obtain a certificate of occupancy; and

WHEREAS, pursuant to ZR §11-411, the Board may, in appropriate cases, permit an extension of a term of the variance previously authorized pursuant to the 1916 Zoning Resolution; and

WHEREAS, over the course of the hearings, the Board expressed concerns regarding the construction of a trash enclosure on the site; and

WHEREAS, in response, the applicant provided photographs to demonstrate installation of a fence wall and trash enclosure as requested; and

WHEREAS, by letter dated October 9, 2018, the Fire Department stated that it had no objection to this application and stated that the automotive service station is current with their Fire Department permits with respect to storage of combustible liquids, leak detection equipment, underground storage tank and the fire suppression (dry-chemical) system; and

WHEREAS, the applicant also seeks an amendment to reflect minor changes to the layout of the site and signage, a 147 square foot storage container, and the removal of the condition requiring a speed bump; and

WHEREAS, the Board finds that the requested extension of term and extension of time to obtain a certificate of occupancy, and amendment to reflect the above changes to the subject site are appropriate, subject to conditions below.

Therefore, it is Resolved, that the Board of Standards and Appeals, *waives* its Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated March 21, 1950, as amended through November 14, 2006, so that as amended this portion of the resolution reads: "to grant an extension of the term of the variance for a term of ten (10) years, and an extension of time to obtain a certificate of occupancy; and *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received January 28, 2019"-Four (4) sheets; and *on further condition*:

THAT the term of this grant shall expire on October 7, 2025;

THAT the premises shall be maintained free of debris and graffiti;

THAT all fencing shall be maintained in good condition;

THAT all signage shall comply with C1 zoning regulations;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy indicating this approval and calendar number ("BSA Cal. No. 866-49-BZ")

shall be obtained within one (1) year, by January 29, 2020; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, January 29, 2019.

APPLICANT – Rampulla Associates Architects, for 2131 Hylan Holding, llc, owner.

SUBJECT – Application June 16, 2017 – Amendment of a previously approved Variance (§72-21) which permitted the enlargement of a then existing banquet hall into the residential portion of the lot and permitted accessory parking within the residential portion of the lot. The amendment seeks to demolish the existing building to permit the development of an As-of-Right commercial building retaining the accessory parking on the residential portion of the lot; Extension of Time to Obtain a Certificate of Occupancy; Waiver of the Rules. C8-1 & R3X (Lower Density Growth Management Area)

PREMISES AFFECTED – 2131 Hylan Boulevard, Block 3589, Lot 63, Borough of Staten Island.

COMMUNITY BOARD #2SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated May 22, 2017, acting on New Building Application No. 520279252, reads in pertinent part:

"ZR 22-00 The proposed construction of a 3 story commercial building in the C8-1 portion of the lot with 51 accessory parking spaces located in the R3X portion of the zoning lot is contrary to BSA Cal 498-83-BZ and is referred back to the NYC Board of Standards and Appeals"; and

WHEREAS, this is an application under ZR §§ 72-01 and 72-22 for an amendment to permit, partially in an R3X zoning district and partially in a C8-1 zoning district, 51 accessory off-street parking spaces that do not comply with use regulations, contrary to ZR § 22-00; and

WHEREAS, a public hearing was held on this application on October 11, 2018, after due notice by publication in *The City Record*, with a continued hearing on January 29, 2019, and then to decision on the same date; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed

MINUTES

inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 2, Staten Island, recommends approval of this application; and

WHEREAS, the subject site is located on the southwest corner of Hylan Boulevard and 54th Street, partially in an R3X zoning district and partially in a C8-1 zoning district, in Staten Island; and

WHEREAS, the subject site has approximately 122 feet of frontage along Hylan Boulevard, 100 feet of frontage along 54th Street, 11,168 square feet of lot area and is occupied by a three-story, with cellar, commercial building with 56 accessory off-street parking spaces; and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 23, 1978, when, under BSA Calendar Number 612-77-BZ, the Board granted a variance to permit, in an existing three-story mixed-use building, the conversion of the second and third floors from two apartments into four apartments that increased the degree of non-conformity on condition that a smoke detecting device be installed in each apartment and that heat sensor devices be installed in the cellar and first floor and these heat detecting services be interconnected; and

WHEREAS, on May 23, 1978, under BSA Calendar Number 61-78-A, the Board granted an application under the Multiple Dwelling Law to permit to be altered or converted to a four-family class A multiple dwelling and increasing the number of apartments and rooms in a frame building; and

WHEREAS, on January 31, 1984, under the subject calendar number, the Board granted a variance to permit, on a site with an existing mixed-use building previously before the Board, the maintenance of a one-story enlargement to the first floor banquet hall and cabaret establishment extending into the residential zoning district with accessory parking as well in the residential zoning district and to legalize an increase in the number of apartments that creates non-conformity on condition that the owner comply with the conditions set forth in the conditional negative declaration, that landscaping around the parking area be maintained and replaced when necessary, that the entrance to the parking lot be from Hylan Boulevard, that an attendant be on duty in the parking booth at all times while the banquet hall is in use, that the parking lot comply with all applicable rules of the Department of Buildings, that the gates to the parking lot be closed and locked when the subject site is closed and that the cabaret use be limited to the areas shown on the Board-approved drawings; and

WHEREAS, on January 31, 1984, under the subject calendar number, the Board granted an application to permit the conversion of a class A multiple dwelling from two to four families and the use of drywells for the disposal of storm water on condition that, among other things, the volume of the dry wells be of sufficient capacity to contain 2" of water over the entire lot, as verified by the Department of Buildings, that the volume of voids of selected gravel carefully placed under and to the sides of the dry wells may be used to satisfy the required retained volume as long as it

represents not more than 25 percent of the volume required, a minimum of 75 percent of volume to be within the dry wells, that if the dry wells are located in an impermeable layer of soil, a sand column be used to give the accumulated water access to a permeable layer of soil, with the location, volume and cross-sectional area of the column being satisfactory to the Department of Buildings and that when a storm sewer is constructed in the street fronting this site, the structure then will connect to such sewer; and

WHEREAS, on June 25, 1985, under the subject calendar number, the Board amended the variance to change of use on the second floor from two residential apartments to two bridal suites, manager's office and lobby; on the third floor from two residential apartments to light storage (50 pounds per square foot live load limit); to add two small additions to the first floor; to change the design of the front façade of the first story; to substitute a new enclosed stair tower on all floors on the northerly side of the building for the existing fire escape and to change the interior layout; and to add the live load limitation to the amended certificate of occupancy; and

WHEREAS, by letter dated January 3, 2000, the Board approved allowed a change in the Board-approved plans to create a new façade, front entrance and a covered walkway with an accessibility ramp; and

WHEREAS, on April 8, 2014, under the subject calendar number and BSA Calendar Number 34-14-BZ, the Board amended the variance and granted a special permit for the operation of a physical culture establishment on condition that the term of the PCE grant will expire on April 8, 2024, that the parking lot will be limited to 51 spaces and will be used only by patrons and employees of the PCE, that signage and landscaping/buffering of the parking lot will be in accordance with the Board-approved plans, that signage will be in accordance with the Board-approved plans, that there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board, that any massages will be performed only by New York State licensed massage professionals, that Local Law 58/87 compliance will be as reviewed and approved by DOB, that fire safety measures will be installed or maintained as shown on the Board-approved plans, that the above conditions will appear on the certificate of occupancy; and that an amended certificate of occupancy will be obtained by April 8, 2015; and

WHEREAS, the applicant proposes to develop a three-story commercial building with 28,077 square feet of floor area and to reduce the number of accessory off-street parking spaces from 56 to 51 parking spaces; and

WHEREAS, the applicant states that, in the portion of the subject site in an R3X zoning district, no off-street parking spaces accessory to a commercial use are permitted as of right; and

WHEREAS, by Zoning Resolution Determination Control No. 56143, dated January 4, 2019, DOB states: "there is no additional parking required for proposed new building in compliance with ZR 64-721 and its additional

MINUTES

floor area The existing second and third floors are accessory to the main Banquet Hall Use on the first floor for which the 56 Voluntary parking spaces were justified as a ‘NEED’ to provide on-site parking but not as required parking under Section 32-21 ZR. Therefore, for the purposes of calculated required parking pursuant to ZR 32-21 for the New Building the existing 12,796 sf Banquet Hall space of the existing building shall be subtracted from the proposed 28,077 building, which equals 15,281. Within the C8-1 zoning district 15,281 sf additional area shall provide one (1) parking space per 300 S.F. of floor area or fifty-one (51) off-street parking spaces.”; and

WHEREAS, the applicant submits that the circumstances warranting the original grant still obtain and that providing 51 parking spaces reduces the degree of non-compliance; and

WHEREAS, the applicant notes that the parking lot is proposed to be upgraded with planting beds of varying widths and lengths to provide perimeter landscaping; that the parking lot would provide more than 7 feet of perimeter landscaping along Bedford Avenue and 7’-5” of landscaped buffering adjacent to residences; that a fence and planting separate the parking lot and provides buffering from adjacent residences along Bedford Avenue; and

WHEREAS, the applicant states that additional planting is proposed between the lot line and the street widening line along the subject site’s Bedford Avenue street frontage; that planting would not be considered a building or other permanent improvement that would trigger compliance with Section 35 of the General City Law; that two existing curb cuts are proposed to be relocated for better accessibility along Bedford Avenue; and that the existing curb cut along Hylan Boulevard is proposed to be discontinued and closed; and

WHEREAS, the applicant submits that the proposed building complies with applicable zoning regulations, and the Board notes that nothing herein shall be regarded as waiving such provisions and that DOB must ensure that the proposed building complies with the Zoning Resolution; and

WHEREAS, based upon its review of the record, the Board has determined that the proposed amendment is appropriate with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated January 31, 1984, as amended through April 8, 2014, so that as amended this portion of the resolution shall read: “to *permit* 51 accessory off-street parking spaces to be located in an R3X zoning district; *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received January 17, 2019”-Eight (8) sheets; and *on further condition*:

THAT there shall be 51 accessory off-street parking spaces, as illustrated on the Board-approved plans;

THAT the above condition shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number (“BSA Cal No 498-83-BZ”),

shall be obtained within four (4) years, by January 29, 2023;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

That this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, January 29, 2019.

93-08-BZ

APPLICANT – Rothkrug Rothkrug & Spector LLP, for LGA Hospitality LLC, owner.

SUBJECT – Application September 14, 2018 – Extension of Time to Complete Construction of a Variance (§72-21) permitting the construction of a six-story transient hotel (UG 5) which expired on June 4, 2017; Waiver of the Board’s Rules.

PREMISES AFFECTED – 113-16 Astoria Boulevard, Block 1706, Lot 11, Borough of Queens.

COMMUNITY BOARD #3Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening, waiver of the Board’s Rules of Practice and Procedure, and an extension of time to complete construction of a six- (6) story transient hotel (Use Group (“UG”) 5) pursuant to a variance, previously granted pursuant to ZR § 72-21, which expired on June 4, 2017; and

WHEREAS, a public hearing was held on this application on January 15, 2019, after due notice by publication in *The City Record*, with a continued hearing on January 29, 2019, and then to decision on that date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the southwest corner of Astoria Boulevard and 112th Place, in an R6A zoning district, in Queens; and

WHEREAS, the site is an irregularly shaped lot with approximately 152 feet of frontage on Astoria Boulevard, 96 feet of frontage on 112th Place, 16,141 square feet of lot area, and is under construction; and

MINUTES

WHEREAS, the Board has exercised jurisdiction over the subject site since January 13, 2009, when, under the subject calendar number, the Board granted a variance, pursuant to ZR § 72-21, to permit the construction of a six- (6) story hotel building (UG 5), proposed to have a total floor area of approximately 48,423 sq. ft. (3.00 FAR), with 126 rooms and 31 accessory parking spaces (17 spaces in the cellar and 14 spaces at grade in a parking lot at the building's rear) on condition that any and all work substantially conform to plans, as they apply to the objections, filed with this application; street trees be planted in accordance with ZR § 28-12; all signage comply with C1 zoning district parameters; the above conditions be stated on the certificate of occupancy; construction be completed in accordance with ZR § 72-23, by January 13, 2013; the approval be limited to the relief granted by the Board in response to specifically cited and filed Department of Buildings ("DOB")/other jurisdiction objection(s) only; the approved plans be considered approved only for the portions related to the specific relief granted; the grant be contingent upon final approval from the Department of Environmental Protection ("DEP") before an issuance of construction permits other than permits needed for soil remediation; and, the DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, on June 4, 2013, under the subject calendar number, the Board waived its Rules of Practice and Procedure and amended the resolution to extend the time to complete construction for a period of four (4) years, to expire on June 4, 2017, and to permit the construction of a sub-cellar to accommodate 28 parking spaces, reducing the number of spaces provided at grade to three (3), on condition that all work substantially conform to plans, as they apply to the objections, filed with this application; construction be completed and a certificate of occupancy be obtained by June 4, 2017; all conditions from prior resolutions not specifically waived by the Board remain in effect; the number of guest rooms, floor area, FAR, and accessory off-street parking spaces for the proposed building will be in accordance with the terms of the grant; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and, the DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, the time for substantial construction to have been completed having expired, the applicant seeks the subject relief; and

WHEREAS, the applicant additionally requests a waiver, pursuant to § 1-14.2 of the Board's Rules of Practice and Procedure, of Rule § 1-07.3(c)(2) to permit the filing of this application less than two (2) years after the expiration of the time to complete construction; and

WHEREAS, the applicant submits that the

commencement of construction at the site has been delayed for the following reasons: a change in ownership in April 2014 that required revising applications with various agencies; negotiations over an access agreement with a neighboring site, which began in 2014, was not finalized until April 2016; a fire at the subject site delayed DOB approval of demolition applications throughout 2016; the project required a new support of excavation plan; and, due to soil conditions of the subject site and neighboring properties, a previously proposed deep well system was abandoned for a localized well point design to minimize impact on neighboring structures that was approved in June 2018; and

WHEREAS, over the course of the hearings, the Board raised concerns regarding timeline for construction and the remediation of the contamination at the site and requested evidence that excavation has proceeded according to the New York City Office of Environmental Remediation ("OER") and New York State Department of Environmental Conservation ("DEC") requirements; and

WHEREAS, in connection with the North Corona Rezoning approved by the City Council on September 17, 2003, an "E" designation for hazardous materials was mapped on the subject site (E-121) shown on the City Zoning Map panel 10b; and

WHEREAS, in response to the Board's inquiry, the applicant provided a timeline for construction completion, provided updated construction progress photographs, and submitted a notice to proceed from OER (OER Project No. 10EHAZ318Q), dated March 23, 2015, and a DEC certificate of completion of the Brownfield Cleanup Program (Agreement Index No. C241141-02-13), dated December 26, 2018; and

WHEREAS, based upon its review of the record, the Board finds that a three (3) year extension of time to complete construction is appropriate with certain conditions, as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals waives Rule § 1-07.3(c)(2) of its Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated January 13, 2009, as amended on June 4, 2013, so that as amended this portion of the resolution reads: "to grant a three (3) year extension of time to complete construction to January 29, 2022, on condition:

THAT substantial construction shall be completed by January 29, 2022, as evidenced by an inspection and determination by the Department of Buildings;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions shall be recorded on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number ("BSA Cal. No. 93-08-BZ") shall be obtained within four (4) years, by January 29, 2023;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed

MINUTES

DOB/other jurisdiction objection(s); and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, January 29, 2019.

247-09-BZ

APPLICANT – Kramer Levin Naftalis & Frankel, LLP, for Central Synagogue, owner.

SUBJECT – Application July 11, 2018 – Extension of Time to complete construction of a previously approved variance (§72-21) for the expansion of a UG4 community use facility (Central Synagogue), which expired on June 10, 2018. C5-2 & C5-2.5 (MiD) zoning district.

PREMISES AFFECTED – 123 East 55th Street, Block 1310, Lot 10, Borough of Manhattan.

COMMUNITY BOARD #5M

ACTION OF THE BOARD – Application Withdrawn.

THE VOTE TO WITHDRAW –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for an extension of time to complete construction pursuant to a variance, granted pursuant to ZR § 72-21, which expired on June 10, 2018; and

WHEREAS, a public hearing was held on this application on September 27, 2018, after due notice by publication in *The City Record*, with a continued hearing on January 29, 2019, and then to decision on that date; and

WHEREAS, Vice-Chair Chanda and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, the site is located on the north side of East 55th Street, between Lexington Avenue and Park Avenue, in a C5-2 zoning district, in Manhattan; and

WHEREAS, the site has approximately 56 feet of frontage, 100 feet of depth, 5,649 square feet of lot area and is occupied by a nine-story Use Group (“UG”) 4 community facility building; and

WHEREAS, the site is part of a combined zoning lot created pursuant to a Declaration of Restrictions and Zoning Lot Merger, dated September 3, 1981, which also includes adjacent tax lots 9, 12 and 63, the easternmost part of which (specifically, tax lot 12) is partially located within a C5-2.5 zoning district and the Special Midtown District; and

WHEREAS, the Board has exercised jurisdiction over the subject tax lot since February 23, 2010, when, under the subject calendar number, the Board granted a variance, pursuant to ZR § 72-21, to permit a two-story enlargement of the existing building that does not comply with applicable zoning requirements for floor area and initial setback, contrary

to ZR §§ 33-12, 33-432 and 81-211, on condition that all work substantially conform to drawings as they apply to the objections noted, filed with the application; that the parameters of the proposed building not exceed those reflected on the Board-approved plans, including a maximum floor area of 41,550 square feet and a maximum height of 130 feet; DOB review and approve the parameters of the roof top enclosure for compliance with zoning and all other relevant regulations; any change in use, occupancy, or operator of the building require review and approval by the Board; and that construction proceed in accordance with ZR § 72-23, that is, by February 23, 2014; and

WHEREAS, on June 10, 2014, under the subject calendar number, the Board waived its Rules of Practice and Procedure, reopened and amended the resolution to grant a four-year extension of time to complete construction, expiring June 10, 2018, on condition that all conditions from prior resolutions not specifically waived by the Board remain in effect; and

WHEREAS, the time to have completed construction pursuant to the 2010 variance grant having expired, the applicant seeks the subject relief, specifically a four-year extension of time to complete construction; and

WHEREAS, the applicant submits that a further extension of time is required for the operator of the building, a non-profit synagogue, to secure the financing necessary to perform the work permitted by the variance and reports that no construction pursuant to the variance has yet commenced; and

WHEREAS, by letter dated January 22, 2019, the applicant requested withdrawal of the application; and

WHEREAS, the Board notes that absent the substantial completion of construction at the site pursuant to the variance by June 10, 2018, or the grant of a further extension of time, the variance, originally granted on February 23, 2010, has lapsed.

Therefore, it is Resolved, that the Board of Standards and Appeals accepts the withdrawal of this application.

Adopted by the Board of Standards and Appeals, January 29, 2019.

THE RESOLUTION –

WHEREAS, the decision of the Deputy Borough Commissioner, dated May 16, 2018, acting on Department of Buildings Application No. 520329635 reads in pertinent part:

GCL 36, BC 502.1: The street giving access to proposed building is not duly placed on the official map of the City of New York therefore:

- A) No Certificate of Occupancy can be issued pursuant to Article 3, Section 36 of General City Law;
- B) Proposed construction does not have at least 8% of the total perimeter of building(s) fronting directly upon a legally mapped street or frontage space contrary to section 502.1 of the 2014 NYC Building Code; and

WHEREAS, this is an application to permit the construction of a one-story Use Group (“UG”) 17 contractor’s establishment with frontage on Storer Avenue and Muriel Street, paved streets not duly placed on the official New York City map, contrary to General City Law (“GCL”) § 36; and

WHEREAS, a public hearing was held on this application on January 29, 2019, after due notice by publication in *The City Record*, and then to decision on that date; and

WHEREAS, Community Board 3, Staten Island, recommends approval of this application; and

WHEREAS, the subject site is located on the northwest corner of Storer Avenue and Muriel Street, in an M1-1 zoning district and the Special South Richmond Development District, on Staten Island; and

WHEREAS, the site is located approximately 414 feet east of the intersection of Storer Avenue and the eastern record line of Arthur Kill Road, a mapped street; and

WHEREAS, the applicant states that Storer Avenue is paved to a width of approximately 50 feet and that the subject site will be accessed by an existing 16-foot wide curb cut; and

WHEREAS, by letter dated July 26, 2018, the Office of the Staten Island Borough President states that Storer Avenue, at the subject location—specifically, from the eastern record line of Arthur Kill Road easterly to a point 192 feet west of Carlin Street—is not a final mapped street, has a record width of 50 feet and is the subject of an Opinion of Dedication, dated January 31, 1991, as in use for a width of between 35 and 53 feet; and that Muriel Street at the subject location—specifically, from the northern record line of Sharrotts Road to the northern record line of Storer Avenue—is not a final mapped street, has a record width of 50 feet, is not owned by the City and is not the subject of an Opinion of Dedication; and

WHEREAS, the site has approximately 81 feet of frontage along Storer Avenue, 94 feet of frontage along Muriel Street, 7,951 square feet of lot area and is occupied by a UG 17 contractor’s yard, which will be demolished to facilitate the proposed development; and

WHEREAS, the Board has exercised jurisdiction over the subject site since February 4, 1986, when, under BSA Cal. No. 797-85-A, the Board granted an appeal of a DOB decision by the power vested in the Board by Section 36 of the General City Law, to permit the issuance of a certificate of occupancy for a building that does not front on a mapped street, on condition that the sidewalk, curb, curb cut and pavement to the middle of the street be in accordance with the standards of the Department of Highways; the building substantially comply with the drawings filed with the application; and, all laws, rules and regulations be complied with; and

WHEREAS, by letter dated October 12, 2018, the New York City Department of Environmental Protection (“DEP”) states that there is an eight- (8) inch diameter City water main in Storer Avenue at the subject location; the Storm and Sanitary Sewer Network, Clay Pit Ponds Park Watershed, NO: TD-7, Sheet 5 of 7, dated January 29, 2002, shows a ten- (10) inch diameter sanitary and 24-inch diameter storm sewer in Storer Avenue, east of the intersection with Arthur Kill Road; that the applicant has submitted a copy of the Self-Certified Site Connection Proposal SCP # 5/33-17(SC), which shows a septic tank for sanitary discharge and dry wells for storm discharge; that it is anticipated that the owner will maintain the sewer and water connections and it will not be maintained by the City of New York and that, based on the foregoing, DEP has no objection to the proposed application; and

WHEREAS, the applicant submits that the site will comply with all applicable provisions of the Zoning Resolution, including, but not limited to, off-street accessory parking and screening, and other New York City regulations, and the proposed building will be fully sprinklered and utilize a code-compliant septic system; and

MINUTES

WHEREAS, the applicant additionally states that the nearest fire hydrant is located directly across the street from the subject location, that many streets located directly to the south are improved and in good condition, that the proposed building will generate few additional trips to the site, which already operates as a contractor's yard, and, thus, will have minimal impact on traffic on Arthur Kill Road; and

WHEREAS, by letter dated January 26, 2019, the Fire Department stated no objection to the application; and

WHEREAS, the Board has determined that the applicant has submitted adequate evidence to warrant approval of the application subject to certain conditions set forth herein.

Therefore, it is Resolved, that the decision of the Department of Buildings dated May 16, 2018, acting on Department of Buildings Application No. 520329635, is modified by the power vested in the Board by Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawings filed with the application marked "Received October 18, 2018"-Four (4) sheets plus "Drawing No. BPP-001.00," (dated December 11, 2017); that the proposal will comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition:*

THAT the subject building shall be fully sprinklered, as indicated on the Board-approved plans;

THAT the above condition shall be noted on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number ("BSA Cal. No. 2018-97-A"), shall be obtained within four (4) years, by January 29, 2023;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by DOB;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 29, 2019.

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Borough Commissioner, dated August 3, 2018, acting on Department of Buildings (“DOB”) Application No. 123459514, reads in pertinent part:

Proposed Physical Culture Establishment is not permitted as-of-right as per ZR 32-31. Secure BSA’s approval per ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site located within a C5-3 zoning district and in the Special Midtown District, a physical culture establishment (“PCE”) in a portion of the third floor of an existing 17-story plus cellar and sub-cellar commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on January 29, 2019, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, Community Board 5, Manhattan, waived its recommendation of this application; and

WHEREAS, the subject site is located on the northeast corner of Madison Avenue and East 55th Street, in a C5-3 zoning district and in the Special Midtown District, in Manhattan; and

WHEREAS, the site has approximately 75 feet of

frontage on Madison Avenue, 100 feet of frontage on East 55th Street, 7,541 square feet of lot area and is occupied by an existing 17-story plus cellar and sub-cellar commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use*1 is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant represents that the subject PCE occupies 1,920 square feet of floor area on the third floor with a training studio, changing areas with lockers and showers, a reception area, office and staff break room; and

WHEREAS, the PCE has operated since October 9, 2018, as “NOVA Fitness,” and operates Monday through Friday from 6:00 a.m. to 8:00 p.m.; and

WHEREAS, although the building has no residential uses within, the applicant states that sound and vibration attenuation measures have been provided in the PCE space to mitigate any potential disturbance to the building’s commercial tenants; specifically, the PCE is utilizing rubber floor tiles, sound-attenuated stud walls and a suspended acoustic ceiling; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because it is located in an existing commercial building in a predominantly commercial area and is consistent with the mix of nearby uses including other gyms, offices, eating and drinking establishments, and retail stores; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant submits that the PCE contains facilities for classes, instruction and programs for the provision of physical improvement; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood because the operation of the PCE and sound attenuation measures taken will ensure no adverse effects from the PCE; and

WHEREAS, the applicant states that the PCE is protected with a wet sprinkler system and an approved fire alarm system—including smoke detectors, manual pull stations, local audible and visual alarms and a connection to an FDNY-approved central station; and

WHEREAS, by letter dated December 24, 2018, the Fire Department stated no objection to the application and confirmed that the premises is protected by a combination fire suppression (standpipe and sprinkler) system, which has been inspected and tested satisfactory by the Fire Department; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 19-BSA-031M, dated September 7, 2018; and

WHEREAS, the term of the grant has been reduced to reflect the period the PCE operated without approval from the Board;

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, legalizing the PCE space on the third floor, is appropriate, with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to legalize, on a site located within a C5-3 zoning district and in the Special Midtown District, the operation of a physical culture establishment on a portion of the third floor of an existing 17-story plus cellar and sub-cellar commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received January 29, 2019”-Five (5) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on October 9, 2028;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 will be as reviewed and approved by DOB;

THAT an approved fire alarm system and sprinkler

MINUTES

shall be maintained as indicated on the Board-approved plans;

THAT minimum 3 foot wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also referencing this approval and calendar number (“BSA Cal. No. 2018-144-BZ”), shall be obtained within one (1) year, by January 29, 2020;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 29, 2019.

COMMUNITY BOARD #12BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT–

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and an amendment of a variance, previously granted pursuant to ZR § 72-21, to permit an increase in the number of parking spaces provided at the site, the change in use of the building on the site from a Use Group 6C bank to a Use Group 6A convenience retail or service establishment or 6C retail or service establishment store and modify the term of the variance, which expired on March 13, 2008; and

WHEREAS, a public hearing was held on this application on December 4, 2018, after due notice by publication in *The City Record*, with a continued hearing on February 5, 2019, and then to decision on the same date; and

WHEREAS, Community Board 12, Bronx, recommends approval of this application; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspection of the site and surrounding neighborhood;

WHEREAS, the subject site is located on the northeastern corner of Baychester Avenue and Bussing Avenue, partially within an R4 zoning district and partially within an R4 (C1-2) zoning district, in the Bronx; and

WHEREAS, the site has approximately 105 feet of frontage along Baychester Avenue, 66 feet of frontage along Bussing Avenue, 7,426 sq. ft. of lot area and is occupied by a one-story building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 13, 1973, under the subject calendar number, the Board granted a variance, pursuant to ZR § 72-21, to permit the construction of a one-story building for use as a bank, contrary to applicable use regulations, for a term of 15 years, expiring March 13, 1988, on condition that all work substantially conform to the approved drawings; accessory parking be provided along the exterior perimeter of the driveway; all laws, rules and regulations be complied with; and substantial construction be completed within one year, by March 13, 1974; and

WHEREAS, on April 22, 1975, under the subject calendar number, the Board granted an application to amend the resolution on condition that the premises substantially conform to drawings of conditions as built submitted with the application on condition that other than as amended the resolution issued on March 13, 1973, be complied with in all respects; and

WHEREAS, on April 4, 1989, under the subject calendar number, the Board granted a ten (10) year extension of the term of the variance, expiring March 13, 1998, on condition that the ground cover along Bussing Avenue be restored and maintained and replaced when necessary; the landscaping be maintained and replaced when necessary; one (1) street tree be installed in accordance with approved plans and maintained and replaced when necessary; that the fence be repaired and maintained in good condition at all times; all signs conform with the C1 district regulations; that other than as amended the resolution be complied with in all respects; and that a new certificate of occupancy be obtained within one (1) year, by April 4, 1990; and

WHEREAS, on May 25, 1999, under the subject calendar number, the Board waived its Rules of Practice and Procedure and extended the term of the variance for an additional ten (10) years, expiring March 13, 2008, on condition that all signs be maintained in accordance with BSA approved plan; the premises be maintained in substantial compliance with proposed drawings submitted with the application; that other than as amended the resolution be complied with in all respects; and a new certificate of occupancy be obtained within one (1) year, by May 25, 2000; and

MINUTES

WHEREAS, the previous term having expired, the applicant seeks the subject amendment to extend the term of the variance for ten (10) years, permit an increase in the number of parking spaces provided at the site from five to seven and permit a change in use in the building from a Use Group 6C bank to a Use Group 6A convenience retail or service establishment or 6C retail or service establishment; and

WHEREAS, the applicant submits that the proposed change in use in the building is due to the inability to identify a Use Group 6C or community facility tenant; and

WHEREAS, the applicant additionally requests a waiver, pursuant to § 1-14.2 of the Board's Rules of Practice of Procedure (the "Board's Rules"), of § 1-07.3(b)(3)(ii) of the Board's Rules to permit the filing of this application more than two (2) years but less than ten (10) years after the expiration of the term; and

WHEREAS, the applicant submitted proof that the premises have been continuously occupied by Use Group 6 uses since 1973; and

WHEREAS, at hearing, the Board requested that the accessory off-street parking spaces at the site be locked and made accessible only to employees of the Use Group 6 establishment occupying the site, that the trash enclosure be moved to a room within the building and that lighting at the site be modified in order to reach a reading of zero lumens at the property lines of the subject site; and

WHEREAS, the applicant subsequently provided photos of a gate with a combination lock located at the Baychester Avenue frontage of the site and a chain linked fence with privacy slating, submitted revised plans indicating a refuse room at the interior of the building and submitted a modified light spread diagram and represented that the owner of the site is in the process of installing new LED light fixtures at the site; and

WHEREAS, based on the foregoing, the Board finds that the requested modifications to the variances are appropriate with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals waives § 1-07.3(b)(3)(ii) of its Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated March 13, 1973, as amended through May 25, 1999, so that, as amended, this portion of the resolution reads: "to grant an extension of the term of the variance for ten (10) years, expiring February 5, 2029; on condition that all work and site conditions shall conform to drawings filed with this application marked "Received January 16, 2019"-Two (2) sheets and "Received February 5, 2019"-Two (2) sheets; and *on further condition*:

THAT use of the building shall be limited to Use Group 6A convenience retail or service establishment or Use Group 6C retail or service establishment;

THAT a maximum of seven accessory off-street parking spaces shall be maintained at the site in a locked condition and exclusively for employee parking;

THAT the gates that access the read and side yards of the site shall be controlled by employees at all times;

THAT occupancy of the site by a drive-through convenience store shall not be permitted;

THAT signage shall be located on the exterior of the gate indicating that parking is restricted employee use only;

THAT lighting on the site shall not spread over the property line and reach zero lumens at each property line; and

THAT all conditions not specifically waived by the Board shall remain in effect;

THAT the above conditions shall appear on a revised certificate of occupancy;

THAT a revised certificate of occupancy, indicating this approval and calendar number ("BSA Cal. No. 490-72-BZ") be obtained within one (1) year;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, February 5, 2019.

WHEREAS, this is an application for a reopening and an extension of the term of a previously granted special permit, which expired on November 4, 2018; and

WHEREAS, a public hearing was held on this application on February 5, 2019, after due notice by publication in *The City Record*, and then to decision on that date; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 7, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of West 83rd Street, between Amsterdam Avenue and Columbus Avenue, in an R8B (C2-5) zoning district, in Manhattan; and

WHEREAS, the site has approximately 58 feet of frontage, 116 feet of depth, approximately 6,586 square feet of lot area, and is occupied by a six- (6) story plus cellar mixed-use residential and commercial building; and

WHEREAS, the subject physical culture establishment ("PCE") is located within portions of the cellar (6,093 square feet), first floor (6,093 square feet) and second floor (6,093 square feet) of the subject building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 3, 1960, when, under BSA Cal. No. 536-37-BZ, the Board granted a variance to permit, in a business and residence use, B area district, the construction of a second floor extension into the residence use portion of the plot that exceeded the permitted area coverage and without the required rear yard, and extension of present commercial use, on condition that the work be done in accordance with plans filed with the application; all laws, rules and regulations applicable be complied with; all permits required and a certificate of occupancy be obtained and all work completed within one (1) year, by May 3, 1960; and

WHEREAS, on November 4, 1998, under the subject calendar number and BSA Cal. No. 243-97-BZ1, the Board granted a special permit, pursuant to ZR § 73-36, to legalize the operation of a PCE in the cellar and first floor of a two- (2) story plus cellar commercial building located at 158 West 83rd Street, and in the cellar and first floor of a four- (4) story plus cellar commercial building located at 150 West 83rd Street, on condition that all work substantially

conform to plans, as they apply to the objections, filed with the application; there be no change in ownership or operating control of the PCE without prior application to and approval from the Board; fire prevention measures be maintained in accordance with the BSA-approved plans; the special permit be limited to a term of ten (10) years, to expire on November 4, 2008; the above conditions appear on the certificate of occupancy; the development, as approved, be subject to verification by the Department of Buildings ("DOB") for compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under the jurisdiction of the Department; and, a certificate of occupancy be obtained within one (1) year of this grant, by November 4, 1999; and

WHEREAS, on December 21, 1999, under the subject calendar number, the Board amended the resolution to permit the legalization of the expansion of the existing PCE onto the second floor of the subject premises, on condition that the premises remain graffiti free at all times; that all signs and canopies be maintained in accordance with the requirements of the Zoning Resolution and the Administrative Code of the City of New York; that the premises be maintained in substantial compliance with the proposed plans submitted with the application; other than as amended the resolution be complied with in all respects; and, a new certificate of occupancy be obtained within one (1) year, by December 21, 2000; and

WHEREAS, on September 25, 2007, under the subject calendar number, the Board waived its Rules of Practice and Procedure, reopened and granted an extension of the term of the special permit for a term of ten years from the expiration of the prior grant to expire on November 4, 2018, on condition that any and all work substantially conform to plans, as they apply to the objections, filed with the application there be no change in ownership or operating control of the PCE without prior approval from the Board; a certificate of occupancy be obtained within one (1) year, by September 25, 2008; the above conditions appear on the certificate of occupancy; all conditions from prior resolutions not specifically waived by the Board remain in effect; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and the DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted; and

WHEREAS, on October 23, 2012, under BSA Cal. No. 86-12-BZ, the Board granted a special permit, pursuant to ZR §§ 73-63 and 73-03, to permit the enlargement of an existing two- (2) story non-residential building containing PCE use, which created non-compliance with regards to floor area, contrary to ZR § 23-142, on condition that any and all work

1 At the time of the initial special permit grant, the PCE was located at two (2) distinct properties and, thus, was issued two (2) related approvals: BSA Cal. No. 243-97-BZ at 150 West 83rd St (Lot 54) and the subject calendar number at the subject site. The special permit granted under BSA Cal. No. 243-97-BZ expired on November 4, 2008, and was not subsequently renewed.

MINUTES

substantially conform to plans, as they apply to the objections, filed with the application; the bulk parameters of the proposed enlarged building be a total floor area of 27,291 square feet and a floor area ratio of 4.2, as illustrated on BSA-approved plans; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; substantial construction be completed within four (4) years, by October 23, 2016; and the DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, the previous term of the special having expired, the applicant requests the subject relief; and

WHEREAS, the applicant represents that there has been no change in ownership or operation and that the subject PCE continues to operate as “Crunch”; and the hours of operation continue to be 5:30 a.m. to 11:00 p.m. Monday through Thursday, 5:30 a.m. to 10:00 p.m. Friday, and 8:00 a.m. to 9:00 p.m. Sunday; and

WHEREAS, the applicant represents that an approved sprinkler system and interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, connection of the interior fire alarm and sprinklers to a FDNY-approved central station—are maintained throughout the PCE space; and

WHEREAS, by letter dated February 4, 2019, the Fire Department issued a conditional letter of approval and stated that the Bureau’s Licensed Public Place of Assembly (“LPPA”) Unit performed an inspection on November 11, 2018, and issued violations for failure to maintain the fire alarm system; at the time of inspection, the fire alarm panel showed the system silenced; in addition, FDNY summonses (repeat) were issued for failure to provide records and certificates of fitness for the fire alarm and sprinkler system; the “letter of approval” submitted by the applicant for the fire alarm system covers only the residential portion of the building, but a review of Fire Department records shows that the fire alarm system for the PCE space was inspected and approved; in addition, the fire suppression systems (standpipe and sprinkler) were inspected and tested satisfactory to the Department standards; and that the Department has no objection to the Board rendering a decision on this application, as the Bureau of Fire Prevention will continue to inspect the premises and enforce any outstanding violation orders; and

WHEREAS, pursuant to ZR § 73-03(f), the applicant has satisfactorily demonstrated compliance with the conditions of the previous term and the Board finds that the circumstances warranting the original grant still obtain; and

WHEREAS, accordingly, the Board finds that a ten (10) year extension of the term of the special permit is appropriate, with the conditions set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated November 4, 1998, as amended through September 25, 2007, so that, as amended, this portion of the resolution reads: “to grant an extension of the term of the variance for a term of ten (10) years, to expire on November 4, 2028, *on condition* that the use and operation of the site shall conform to drawings filed with this application marked ‘Received September 12, 2018’-Six (6) sheets; and *on further condition*:

THAT the term of this grant shall expire on November 4, 2028;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the premises shall remain graffiti-free at all times;

THAT the operator shall cure any outstanding Fire Department violation orders;

THAT minimum three (3) foot wide exit pathways to required exits shall always be maintained unobstructed, including that from any gymnasium equipment;

THAT sprinklers and interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, connection of the interior fire alarm and sprinklers to a FDNY-approved central station—shall be maintained throughout the PCE space as indicated on the Board-approved plans;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a revised certificate of occupancy, also indicating this approval and calendar number (“BSA Cal. No. 244-97-BZ”) shall be obtained within one (1) year, by February 5, 2020;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, February 5, 2019.

APPLICANT – Rothkrug Rothkrug & Spector LLP, for Marathon Parkway Associates, LLC, owner.

SUBJECT – Application April 3, 2018 – Extension of Term of a previously approved Variance (§72-21) permitting the erection of a cellar and two-story professional retail building which expires on May 2, 2020; Waiver of the Board’s Rules. C1-2/R3-1 and R2A zoning district.

PREMISES AFFECTED – 45-17 Marathon Parkway, Block 8226, Lot 10, Borough of Queens.

COMMUNITY BOARD #11Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and an extension of the terms of a variance, previously granted by the Board, which will expire on May 2, 2020; and

WHEREAS, a public hearing was held on this application on December 11, 2018, after due notice by publication in *The City Record*, and then to decision on February 5, 2019; and

WHEREAS, Community Board 11, Queens, recommends approval of this application for a term of ten (10) years; and

WHEREAS, the Queens Borough President also recommends approval of this application; and

WHEREAS, the subject site is located on the east side of Marathon Parkway, between Gaskell Road and Northern Boulevard, partially located within an R2A zoning district and partially located within an R3-1 (C1-2) zoning district, in Queens; and

WHEREAS, the site has approximately 71 feet of frontage along Marathon Parkway, 10,902 square feet of lot area and is occupied by a three-story Use Group 6 office building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 2, 2000, when, under the subject calendar number, the Board granted a variance, pursuant to ZR § 72-21, to permit, on a site then located partially within an R3-2 (C1-2) zoning district, partially located within an R1-2 zoning district and partially within an R2 zoning district, the construction of a two-story plus cellar Use Group 6 building contrary to zoning regulations pertaining to use, accessory off-street parking spaces, minimum required side yards, minimum required rear yards and limitations on business entrances, show windows or signs, contrary to ZR §§ 22-10, 36-21, 33-25, 33-26 and 32-511,

on condition that all work substantially conform to drawings filed with the application; the hours of operation be from 8:00 a.m. to 9:00 p.m., Monday through Saturday, and 10:00 a.m. to 6:00 p.m., Sundays; no vehicles be parked on the sidewalk; the premises be kept clean and free of debris, in accordance with ZR § 32-15, the Use Group 6 uses occupying the site be limited to (1) those uses listed in Use Group 6A except eating and drinking establishments of any kind and food stores of any kind, (2) those uses listed in Use Group 6B except drive-in banks, docks of any kind, eating and drinking establishments of any kind and frozen food lockers, (3) no uses listed in Use Group 6D, E and F will occupy the site; any changes in the proposed use only be made after approval of the Board; all lighting be pointed away from residential uses; all gates be secured after closing; the premises remain graffiti free at all times; all fencing and landscaping be maintained in accordance with BSA-approved plans; the term of the variance be limited to 20 years, to expire May 2, 2020; trash only be collected during business hours; these conditions appear on the certificate of occupancy; the development, as approved, be subject to verification by the Department of Buildings for compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under the jurisdiction of the Department; and substantial construction be completed in accordance with ZR § 72-23, that is, by May 2, 2004; and

WHEREAS, on March 18, 2003, under the subject calendar number, the Board granted an application to amend the variance eliminating the first floor to provide nine additional accessory off-street parking spaces for a total of 21 accessory off-street parking spaces at the site, adding floor area on the second and third floors, increasing the height of the building and changing its location on the subject lot on condition that the premises be maintained in substantial compliance with the proposed drawings submitted with the application; the premises be maintained free of debris and graffiti; any graffiti located on the premises be removed within 48 hours; these conditions and all prior Board conditions appear on the Certificate of Occupancy; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; the approved plans be considered approved only for the portions related to the specific relief granted; and the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted; and

WHEREAS, on August 10, 2004, under the subject calendar number, the Board waived its Rules of Practice and Procedure and granted an 18-month extension of time

MINUTES

to complete construction of the subject building, expiring February 10, 2005, on condition that all conditions from prior resolutions appear on the certificate of occupancy; the approve be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and the Department of Building ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted; and

WHEREAS, in anticipation of the expiration of the term of the variance on May 2, 2020, the applicant seeks the subject relief, specifically a 20-year extension of the term of the variance; and

WHEREAS, in addition, the applicant requests a waiver, pursuant to § 1-14.2 of the Board's Rules of Practice and Procedure, of Rule § 1-07.3(b)(2), to permit the filing of this application more than one (1) year before the expiration of the term; and

WHEREAS, the applicant states that no amendments are sought in this application, that the second and third floors of the building are occupied by Use Group 6 office space and that 21 accessory off-street parking spaces are maintained on the premises as approved in the 2003 amendment; and

WHEREAS, the applicant submits that the application has been filed early to facilitate mortgage financing; and

WHEREAS, at hearing, the Board observed that the site is well-maintained, but inquired about the storage of trash, the compliance of signage at the site and requested additional details on the landscaping; and

WHEREAS, the applicant submitted revised plans showing the location of the trash enclosure and providing additional details regarding the trees planted at the site as well as a signage analysis demonstrating the presence of 46 square feet of non-illuminated accessory signage at the premises; and

WHEREAS, the applicant also provided photographs of the site to the Board at the hearing showing the condition of various trees on the site, which the applicant agreed to submit into the public record; and

WHEREAS, based on the foregoing, particularly the property owner's exceptional maintenance of the site, the Board finds that the requested 20-year extension of the term of the variance is appropriate with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals waives § 1-07.3(b)(2) of its Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated May 2, 2000, as amended through August 10, 2004, so that as amended, this portion of the resolution reads: "to grant an extension of the term of the variance for a term of 20

years, expiring May 2, 2040, *on condition* that all site conditions shall comply with drawings filed under this application marked "Received January 15, 2019"--Seven (7) sheets; and *on further condition*:

THAT the existing lush landscaping installed to create a dense screen along the property lines along existing residential properties be maintained in good condition in accordance with BSA-approved plans;

THAT the hours of operation will be from 8:00 A.M. to 9:00 P.M. Monday through Saturday and 10:00 A.M. to 6:00 P.M. Sundays;

THAT no vehicles shall be parked on the sidewalk;

THAT the premises be kept clean and free of debris;

THAT in accordance with ZR § 32-15, the Use Group 6 uses which may occupy the site are limited to the following:

1. Those use listed in Use Group 6A except eating and drinking establishments of any kind and food stores of any kind;
2. Those uses listed in Use Group 6B except drive-in banks, docks of any kind, eating and drinking establishments of any kind and frozen food lockers;
3. No uses listed in Use Group 6D, E and F will occupy the site;

THAT any change in the proposed use only be made after approval of this Board;

THAT all lighting be pointed away from residential uses;

THAT all gates be secured after closing;

THAT any graffiti located on the premises shall be removed with 48 hours;

THAT all fencing be maintained in accordance with BSA-approved plans;

THAT the term of the variance shall be limited to 20 years, to expire May 2, 2040;

THAT trash only be collected during business hours;

THAT all conditions not specifically waived by the Board shall remain in effect;

THAT the above conditions shall appear on a revised certificate of occupancy;

THAT a revised certificate of occupancy, indicating this approval and calendar number ("BSA Cal. No. 176-99-BZ") be obtained within one (1) year;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

THE RESOLUTION –

WHEREAS, this is an application for an extension of time to complete construction pursuant to a previously granted variance (BSA Cal. No. 156-03-BZ) and special permit (BSA Cal. No. 127-15-BZ), which will expire on October 27, 2019; and

WHEREAS, a public hearing was held on this application on February 5, 2019, after due notice by publication in *The City Record*, and then to decision on that date; and

WHEREAS, Vice-Chair Chanda performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the north side of Northern Boulevard, between Prince Street and Farrington Street, within an R6 (C2-2) zoning district, in Queens; and

WHEREAS, the site has approximately 159 feet of frontage along Northern Boulevard, a depth of 278 feet, 16 feet of frontage along Farrington Street (located approximately 151 feet north of the corner of Northern Boulevard and Farrington Street, former tax lot 38) and is occupied by a former movie theater, known as the RKO Keith's, with a ticket lobby and grand foyer designated as an interior landmark by the New York City Landmarks Preservation Commission ("LPC") in 1984; and

WHEREAS, the Board has exercised jurisdiction over this site since December 13, 2005, when, under BSA Cal. No. 156-03-BZ, the Board granted a variance to permit the development of a 200-unit, 17-story mixed-use commercial, community facility and residential building and 229 off-street accessory parking spaces contrary to zoning regulations relating to the maximum permitted residential floor area ratio, maximum permitted mixed-use floor area ratio minimum open space and minimum off-street accessory parking spaces on condition that all work substantially conform to the approved plans; a total of 229 attended parking spaces be provided in the accessory parking garage; prior to the issuance of any New York City Department of Buildings ("DOB") permit for any work on the site that would result in soil disturbance (such as demolition, site preparation, grading or excavation), the applicant or any successor would perform all of the hazardous materials remedial measures and the construction health and safety measures as delineated in the Restrictive Declaration to the satisfaction of the New York City Department of Environmental ("DEP") and submit a written report that must be approved by Protection DEP; no temporary or permanent certificate of occupancy be issued by DOB or accepted by the applicant or successor until DEP issues a Final Notice of Satisfaction or a Notice of No Objection indicating that the measures and conditions in the Restrictive Declaration have been completed to DEP's satisfaction; construction materials and windows providing at least 35 dBA of attenuation with alternate means of ventilation be used in order to maintain an interior noise level of 45 dBA; the applicant notify the New York City Department of Transportation ("DOT") six months prior to the opening of the building in order to investigate the feasibility of implementing traffic improvement measures; the applicant submit the following documents to the LPC for review and approval prior to any demolition, construction or development at the subject site: Construction Protection Plan for the interior landmark, an amended "Data Recovery" section of the Revised Mitigation Plan that shall read, "The scope of work for HABS documentation shall be submitted to

MINUTES

the LPC for review and approval prior to the demolition and the start of the documentation process,” a revised EAS stating that any written approvals by the LPC Preservation Department shall be included in the Final EAS; a copy of Certificate of Appropriateness 06-1202 for the subject property issued September 6, 2005, be included in the Final EAS, as well as a Scope-of-Work for HABS documentation; the Applicant submit the Scope-of-Work for HABS documentation to LPC for its review and approval prior to demolition and the start of the documentation process; and the bulk parameters of the proposed building be as follows: (1) a residential FAR of 5.64 (245,798 square feet of zoning floor area); (2) a total FAR of 7.5 (314,127 square feet of zoning floor area); (3) an open space ratio of 4.86 percent; (4) 17 stories; (5) a total building height of 164’-11” without bulkheads and 174’-11” with bulkheads; (6) street wall height of 41 feet; and (7) an actual height for flight path purposes of 194.9 feet, AMSL; and

WHEREAS, by letter dated May 29, 2009, under BSA Cal. No. 156-03-BZ, the Board permitted the following alterations to the plans as substantially compliant with the variance grant: (1) reduction of the building to 16 stories with average floor to floor heights of 10’-2”, rather than 9’-4”; (2) increase in the floorplate of the seventh through sixteenth floor to redistribute floor area from the eliminated seventeenth floor; (3) modifications to the size of certain units; and (4) inner court redesign; and

WHEREAS, on January 12, 2010, under BSA Cal. No. 156-03-BZ, the Board granted an extension of time to complete construction, which expired on December 13, 2009, pursuant to ZR § 72-23, extending such time by two years, expiring on January 12, 2012 on condition that all conditions from prior resolutions not specifically waived by the Board remain in effect; and

WHEREAS, on July 12, 2011, under BSA Cal. No. 156-03-BZ, the Board granted an amendment of the variance to permit modifications to the previously approved plans, specifically: (1) an increase in the number of dwelling units from 200 to 357; (2) a reduction in the average unit size from 1,437 square feet to 787 square feet; (3) an increase in the number of accessory parking spaces from 229 to 385; (4) a reduction in the residential floor area by 6,503 square feet (from 287,313 square feet to 280,810 square feet) and a corresponding increase in the commercial floor area by 6,503 square feet (from 10,957 square feet to 17,460 square feet) through the addition of a retail first floor mezzanine; (5) the relocation of the community facility space from the second floor to the third floor; (6) a reduction in the depth of the rear yard from 31’-5” to 30 feet; and (7) a reduction in the initial setback distance from 20 feet to 15 feet on condition that all work substantially conform to the approved plans and all conditions from prior resolutions not specifically waived by the Board remain in effect; and

WHEREAS, on January 31, 2012, under BSA Cal. No. 156-03-BZ, the Board granted a four year extension of time to complete construction due to funding delays on condition that substantial construction be completed by January 31, 2016, approval of the building by the FAA be in effect at the time of DOB permit issuance and that all conditions from prior resolutions not specifically waived by the Board remain in effect; and

WHEREAS, on October 27, 2015, under BSA Cal. No. 156-03-BZ, the Board granted another four year extension of time to complete construction, expiring October 27, 2019, and an amendment to the variance, permitting the following changes to the previously approved plans: (1) an increase in the height of the proposed building by 11’-7” measured to the roof and 14’-3” measured to the top of the bulkhead, from 194.75 feet to 209 feet (AMSL, NAVD); (2) a reduction in the number of dwelling units in the proposed building from 357 to 269; (3) a change in the dwelling units from rentals to condominiums; and (4) redesign of the entry façade on Northern Boulevard on condition that all work substantially conform to the approved plans and all conditions from prior resolutions not specifically waived by the Board remain in effect; and

WHEREAS, on October 27, 2015, under BSA Cal. No. 127-15-BZ, the Board additionally granted a special permit, pursuant to ZR §§ 73-66 and 73-03, to permit the height of the development at the site to exceed the maximum height limits around airports, contrary to ZR §§ 61-21 and 61-22 on condition that all work substantially conform to the approved plans; the maximum height of the building, including all appurtenances, be 209 feet AMSL (equivalent to NAVD-88) at FAA Building Points 2, 3, 6 and 7; and 200’-1” AMSL (equivalent to NAVD-88) at FAA Building Points 1, 4, 5 and 8; the building be marked/lighted in accordance with FAA Advisory circular 70/7460-1 K Change 2, Obstruction Marking and Lighting, red lights – Chapters 4, 5 (Red), and 12; all construction at the site be as approved by DOB and comply with all relevant Building Code and zoning district regulations; the applicant comply with all FAA notification requirements associated with the construction at the site, including, without limitation, the filing of FAA Form 7460-2, Notice of Actual Construction or Alteration in the event that the project is abandoned as well as at least ten (10) days prior to the start of construction and within five (5) days after construction reaches its greatest height; and substantial construction be completed within four years, by October 29, 2019, pursuant to ZR § 73-70; and

WHEREAS, in anticipation of the expiration of the time to complete construction at the site pursuant to the previously granted variance and special permit, the applicant requests herein additional four-year extensions of time for both applications; and

WHEREAS, the applicant submits that construction at

MINUTES

the site has been stymied by two changes in ownership of the site subsequent to the grant of the variance in 2005 and to those owners' inability to secure financing for the project; that the applicant acquired the property in 2016, is a subsidiary of a large and publically traded real estate company, has the resources to complete construction within the next four years and that demolition work at the site is scheduled to commence in March 2019; and

WHEREAS, the applicant additionally states that they have continued to work closely with LPC and obtained a new Certificate of Appropriateness in order to accommodate required modifications to the preservation and restoration methods of the interior landmark, specifically, due to water damage, plasterwork can no longer be kept in place with a building constructed around it and now, such ornamental plasterwork and woodwork at the premises must be disassembled, restored off-site and re-installed onsite; and

WHEREAS, the Board notes that this is an extremely complex project with significant challenges, including the preservation of an interior landmark; and

WHEREAS, by letter dated February 1, 2019, the Fire Department states that an inspection was performed at the premises by the Bureau of Fire Prevention's Construction, Demolition & Abatement Unit ("CDA") and Fire Suppression Unit ("FSU"), which found that the standpipe system is out-of-services; accordingly, a violation order was issued to restore the standpipe system to either a wet system (as described in 2014 FC Section 905.12) or a dry system (as described in 2014 FC Section 1413 and Chapter 33 of the Building Code); and

WHEREAS, Fire Department, therefore, requests, that, should the Board grant this applications, the Board also institute a condition that the standpipe system be restored to operations order as either a wet or dry standpipe system forthwith and states that, in the event of noncompliance with either the violation order or the Board's variance or special permit, the Bureau of Fire Prevention will request a compliance hearing and rescission of the previous approvals; and

WHEREAS, based on its review of the record, the Board finds that a four (4) year extension of time to complete construction pursuant to the variance previously granted under BSA Cal. No. 156-03-BZ and the special permit granted under BSA Cal. No. 127-15-BZ is appropriate with certain conditions, as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution dated December 13, 2005, as amended through October 27, 2015, under BSA Cal. No. 156-03-BZ; and *reopens* and *amends* the resolution dated October 27, 2015, under BSA Cal. No. 127-15-BZ, so that, as herein amended, this portion of the resolution reads: "to grant a four (4) year extension of time to complete construction to October 27, 2023; and *on further*

condition:

THAT substantial construction shall be completed by October 27, 2023, as evidenced by an inspection and determination by the Department of Buildings;

THAT prior to the start of demolition work at the premises, the applicant shall provide necessary access to and obtain all necessary sign-offs from the Fire Department, including sign-off for the installation/restoration of an appropriate wet or dry standpipe system;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, February 5, 2019.

141-06-BZ

APPLICANT – Eric Palatnik, P.C., for Congregation Tefiloh Ledovid, owner.

SUBJECT – Application April 20, 2018 – Extension of Time to Complete Construction of a previously approved Variance (§72-21) permitting the construction of a House of Worship (*Congregation Tefiloh Ledovid*) UG 3) contrary to underlying bulk requirements which expired on March 12, 2017; Waiver of the Board's Rules. R5 zoning district.

PREMISES AFFECTED – 2084 60th Street, Block 5521, Lot 42, Borough of Brooklyn.

COMMUNITY BOARD #12BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta

Negative:5
THE RESOLUTION –

WHEREAS, the determination of the Borough Commissioner, acting on Department of Buildings ("DOB") Job No. 302159571, issued on July 16, 2018, states in relevant part:

Proposed modifications to the Premises is contrary to the BSA approval and amendments under BSA Cal. No. 141-06-BZ; and

WHEREAS, this is an application for a waiver of the Board's Rules of Practice and Procedure, an amendment to a variance, previously granted by the Board, and an

MINUTES

extension to time to complete construction pursuant to the same, which expired on May 12, 2017; and

WHEREAS, a public hearing was held on this application on August 7, 2018, after due notice by publication in *The City Record*, with continued hearings on October 23, 2018, December 12, 2018, and February 5, 2019, and then to decision on February 5, 2019; and

WHEREAS, Community Board 12, Brooklyn, recommends approval of this application on condition that there be no catering hall on the premises, no usage of the roof except for the holiday of Sukkot and construction be completed within eight to twelve months; and

WHEREAS, the Board was also in receipt of seven letters and live testimony from several neighbors, many appearing on behalf of Neighbors for the Preservation and Development of Brooklyn Southwest, in opposition to this application, citing concerns regarding the failure to adequately and safely maintain the site, the demolition of a building on the site without first obtaining required permits, discrepancies between construction at the site and Board's previously approved plans, that the subject building will be utilized for commercial catering purposes contrary to applicable use regulations and the status of the applicant as a non-profit religious institution with the membership numbers advanced by the applicant in their justification for the size of the proposed development; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the southeastern corner of 60th Street and 21st Avenue, in an R5 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 27 feet of frontage along 60th Street, 100 feet of frontage along 21st Avenue and 2,700 square feet of lot area; and

WHEREAS, this application is filed on behalf of "Congregation Tefiloh Ledovid," described in the application as "a religious based not-for-profit institution"; and

WHEREAS, the Board has exercised jurisdiction over the subject site since June 19, 2007, when, under the subject calendar number, the Board granted a variance, pursuant to ZR § 72-21, permitting the construction of a three-story plus cellar Use Group 4 synagogue that does not comply with zoning regulations pertaining to floor area, floor area ratio ("FAR"), lot coverage, front yards, side yards and parking requirements for community facilities, contrary to ZR §§ 24-11, 24-34, 24-35 and 24-31, on condition that all work substantially conform to drawings as they apply to the objections noted filed with the application; any change in control or ownership of the building shall require prior approval of the Board; the building parameters be a floor area of 7,008 square feet (2.59 FAR), three stories, a street

wall height of 33'-6", lot coverage of 86.5 percent, one front yard of 5'-6" on 60th Street and one side yard of 8 feet on the rear/southwest lot line; the use be limited to a house of worship (Use Group 4) and any classes be accessory to this use; the use of the cellar kitchen be limited to warming; no commercial catering take place onsite; the site, during construction and under regular operation, be maintained safe and free of debris; garbage be stored inside the building except when in the designated area for pick-up; use of the rooftop be limited to the Jewish holiday of Succoth and then only between the hours of 7:00 a.m. and 8:00 p.m.; any and all lighting be directed downward and away from adjacent residences; an acoustic baffle enclosure be constructed around the rooftop mechanicals; these conditions be listed on the certificate of occupancy; no building permit be issued until all Environmental Control Board ("ECB") and DOB violations have been cured; rooftop mechanicals comply with all applicable Building Code and other legal requirements, including noise guidelines, as reviewed and approved by DOB; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; the approved plans be considered approved only for the portions related to the specific relief granted; and that DOB ensures compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, by letter dated October 3, 2008, the Board approved minor changes—including relocation of the interior stairways, interior partitions and changes to the façade—as substantially compliant with the plans approved in the 2007 variance grant on condition that DOB ensure compliance with all applicable provisions of the Zoning Resolution, Building Code or other relevant law; and

WHEREAS, on March 12, 2013, under the subject calendar number, the Board approved an application for a four (4) year extension of time to complete construction pursuant to the 2007 variance grant, expiring March 12, 2017, on condition that the property owner provides a contact number and contact person to the neighbors; all DOB violations be resolved prior to the reissuance of the permit and resumption of construction; the site be maintained free of debris; the security of the site be maintained; all conditions from prior resolutions not specifically waived by the Board remain in effect; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and that DOB ensures compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant law under its jurisdiction irrespective of plan(s)

MINUTES

and/or configuration(s) not related to the relief granted; and

WHEREAS, by letter dated February 10, 2014, the Board approved additional changes—including the relocation of the warming kitchen, the relocation of restrooms, relocation and addition of sinks and the inclusion of a note (“deep storage tanks under cellar floor level”) on the cellar plan—as substantially compliant with the previously approved plans on condition that DOB ensure compliance with all applicable provisions of the Zoning Resolution, Building Code or any other relevant law; and

WHEREAS, the time to complete construction pursuant to the last extension of time granted in 2013 having expired and construction at the site still in progress, the applicant seeks the subject relief; and

WHEREAS, in addition, the applicant seeks a waiver, pursuant to § 1-14.2 of the Board’s Rules of Practice and Procedure (the “Board’s Rules”), of § 1-07.3(c)(2) of the Board’s Rules to permit the filing of this application less than two (2) years after the expiration of the time to complete construction; and

WHEREAS, the applicant also requests an amendment to the reflect deviations from the previously approved plans and legalize some of the as-built conditions of the building, including the elimination of a dining area and warming kitchen and expansion of two mikvehs in the cellar; addition of a laundry room and bath/preparation rooms, also in the cellar; alterations to interior partitions on the first floor; addition of a rabbi’s study and alterations to interior partitions on the second floor; the replacement of a rabbi’s office, study and library on the third floor with a rabbi’s apartment; the elimination of occupancy on the roof; and an increase in the street wall height to from 33’-6” to 35’-6”;

and

WHEREAS, at hearing, the applicant’s representative stated that dining services are no longer proposed at the premises, hence, the warming kitchen previously proposed in the cellar has been removed and converted, along with the dining area space, into a women’s mikveh, related bathrooms and preparation spaces; and

WHEREAS, in response to the Board’s inquiries regarding the expansion of the mikvehs proposed in the cellar, the consultant engaged to provide a programmatic needs analysis stated at hearing that feeding congregants after services is not as high a priority for the subject congregation as the provision of an appropriately sized mikveh area, which male congregants would use daily and female congregants would use on a less frequent but nevertheless regular basis; and

WHEREAS, the applicant’s representative averred that the mikvehs located in the cellar would not be put to commercial use, are a programmatic requirement for the subject synagogue and are intended to be used accessory to the primary synagogue use, consistent with a synagogue’s

classification as a community facility; and

WHEREAS, at hearing, neighbors provided testimony that the applicant filed a Post Approval Amendment at DOB omitting the restriction regarding the use of the rooftop contained as a condition of the 2007 variance grant and changed the rated occupancy of the roof to “general assembly,” permitting the occupancy of the roof 365 days a year; and

WHEREAS, in support of that contention, the Board was provided with a copy of the Schedule A filed at DOB under Job No. 302159571 for the subject block and lot on May 12, 2006, (Doc. No. 01) indicating the conditions of the 2007 variance grant in an area labeled “C of O comments” and a copy of the Schedule A filed at DOB as Doc. No. 08 under the same Job No. on March 24, 2017, indicating changes at the third floor—to wit, the deletion of the following note: “NOTE CONTINUED: THE USE OF THE ROOFTOP SHALL BE LIMITED TO THE JEWISH HOLIDAY OF SUCCOTH & THEN ONLY BETWEEN THE HOURS OF 7:00 A.M. & 8:00 P.M.; AND ALL LIGHTING SHALL BE DIRECTED DOWNWARD & AWAY FROM ADJACENT RESIDENCES, ANACOUSTIC [*sic*] BAFFLE ENCLOSURE SHALL BE CONSTRUCTION AROUND THE ROOFTOP MH.”—and at the roof—specifically, a change in its permitted occupancy, previously left blank, to “OUTDOOR ASSEMBLY SPACE, HVAC UNITS”; and

WHEREAS, the applicant submitted materials demonstrating that construction at the site was approximately 80 percent complete and such work included an elevator bulkhead on the roof sufficient to accommodate an elevator stop on the roof; and

WHEREAS, the Board requested that the elevator stop on the roof be eliminated and, in response to the applicant’s argument that such demolition constituted a financial hardship, the Board noted that the as-built conditions of the site do not reflect plans previously approved by the Board and that such construction was completed at the owner’s risk that such construction would not be subsequently approved by the Board; and

WHEREAS, the applicant provided photos showing the demolition of the elevator bulkhead at the site and a copy of the Alteration Type 2 permit issued by DOB (No. 321076857-01-EW-OT) on November 14, 2018, for its removal; and

WHEREAS, the Board inquired as to the large size of the rabbi’s apartment proposed on the third floor and, at hearing, the applicant’s programmatic needs consultant stated that the apartment is to be occupied by the rabbi of the synagogue and his wife and that they routinely host between 15 and 30 relatives, including children and grandchildren, for meals and other events; and

WHEREAS, in response to the Board’s questions

MINUTES

regarding the necessity of a rabbi's office and study, together 347 square feet of floor area, on the second floor when a generously sized rabbi's apartment was proposed on the third floor and the addition of such space reduced the size of the women's prayer area so that it would accommodate only 77 women, a size insufficient for the congregation, which, the applicant represents, has grown from 100 individuals at the time of the original variance grant to 100 families today, the applicant's representative stated at hearing that the rabbi is very popular and requires a space separate from his personal residence to provide advice to those who seek his counsel; and

WHEREAS, the applicant also subsequently amended the second floor plan to eliminate the rabbi's office and enlarge the women's prayer area to a capacity for 120 women; and

WHEREAS, in response to concerns raised by neighbors at public hearing regarding privacy and the presence of a balcony at the rear of the building at a height higher than surrounding residences, the applicant explained that the purpose of the balcony was to enable the rabbi's family to eat in an area open to the sky and revised the plans to reflect a 6 foot railing with evergreen hedge slats for privacy at the rear balcony of the subject building; and

WHEREAS, in a letter submitted into the public record for this application and reviewed by the Board, Neighbors for the Preservation and Development of Brooklyn Southwest, Inc., suggested that a congregation for the subject building does not exist based on community member's observations of locations purported to be the congregation's temporary meeting space and that the congregation is not listed as an active corporation with the New York State Department of State; accordingly, the Board requested additional information regarding the applicant-organization's status; and

WHEREAS, this status is relevant because the variance was granted pursuant to the applicant's status as a non-profit religious institution entitled to significant deference under the law of the State of New York as to zoning, which enabled the synagogue to rely on its programmatic needs, rather than the unique physical conditions of the lot, in support of the variance application (see, e.g., Westchester Reform Temple v. Brown, 22 NY2d 488 (1968)); and

WHEREAS, in response, the applicant provided a letter from a Certified Public Accountant stating that "Congregation Tefilo Ledovid [. . .] is a church-based tax exempt 501(c)(3) non-profit organization"; New York State Department of Taxation and Finance Form ST-119 (Exempt Organization Certificate) Certificate Number EX 241915 issued to "Congregation Tefilo Lodovid" on December 21, 2006; and a letter from the Internal Revenue Service, dated January 14, 1998, stating that "Congregation Tefilo

Ledovid" is exempt from federal income tax under section 501(a) of the Internal Revenue Code as an organization described in section 501(c)(3); and

WHEREAS, the applicant's representative additionally provided a copy of a lease wherein "Congregation Tefillah L'Dovid" was the tenant of a premises located at 1917 61st Street, Brooklyn, for use solely as a synagogue or Rabbinical House commencing October 15, 2012, to demonstrate that the congregation did have a temporary worship space; copies of rent checks to show that the congregation was paying for the rental space, and photographs purported to have been taken of services held at 1971 61st Street, Brooklyn; and

WHEREAS, by letter dated December 7, 2018, the Fire Department stated that it took exception to the proposed application because access to the roof had not been provided and requested access for the performance of inspections and maintenance of condenser units; and

WHEREAS, in response, the applicant submitted revised plans showing a scuttle and ladder to the roof and including notes that the building will be sprinklered throughout and be equipped with a Fire Department connection, accordingly, Fire Department stated at hearing that it no longer had any objections; and

WHEREAS, with regards to the delays in construction at the site, the applicant states that construction delays were caused by the organization's financial hardship, which prevented any construction on the site for much of 2011 through July 2012, and anticipates that construction will be completed within six to 12 months of the Board's approval and a certificate of occupancy could be obtained within either to 12 months thereafter; and

WHEREAS, based on the foregoing, the Board finds that the requested amendment does not disturb the Board's findings made for the original variance and determines that the request to amend the variance and extend the time to complete construction is appropriate with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals waives § 1-07.3(c)(2) of its Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated June 19, 2007, as amended through March 12, 2013, so that, as amended, this portion of the resolution reads: "to grant a two (2) year extension of time to complete construction, expiring February 5, 2021, *on condition* that all work and site conditions shall comply with drawings filed with this application marked 'Received January 15, 2019' – Eight (8) sheets; and *on further condition*:

THAT the maximum bulk parameters of the building shall be as follows: a maximum of 6,727 square feet of floor area (2.49 FAR); a maximum of three stories; a maximum street wall height of 35'-6"; a maximum lot coverage of 86.5 percent; one front yard with a minimum depth of 5'-6"

MINUTES

on 60th Street and one side yard with a minimum depth of 8 feet on the rear/southwest lot line, as indicated on the Board-approved plans;

THAT any change in control or ownership of the building shall require the prior approval of the Board;

THAT the use shall be limited to a house of worship (Use Group 4) and any classes shall be accessory to this use;

THAT the building shall be fully sprinklered and equipped with a Fire Department connection;

THAT the exterior finish of the building shall be brick veneer, as indicated on the Board-approved plans, and no use of exterior insulation finishing system ("EIFS") as an exterior finish shall be permitted;

THAT all synagogue windows shall have a minimum STC-50 rating and all windows facing adjacent properties shall be translucent;

THAT no commercial catering or commercial banquet use shall be permitted at the site or within the subject building;

THAT no commercial spa use may be permitted on the site and the mikvehs shall be utilized by congregants and their guests only;

THAT, during construction and under regular operation, the site shall be maintained safe and free of debris;

THAT garbage shall be stored inside the building except when in the designated area for pick-up;

THAT no occupancy of the roof shall be permitted and the only means of access shall be through a scuttle and ladder, as indicated on the Board-approved plans, utilized for maintenance purposes only;

THAT any and all lighting shall be directed downward and away from adjacent residences;

THAT an acoustic baffle enclosure shall be constructed around the rooftop mechanicals;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT a certificate of occupancy, indicating this approval and calendar number ("BSA Cal. No. 141-06-BZ") shall be obtained within four (4) years, by February 5, 2023;

THAT no building permit shall be issued until all ECB and DOB violations have been cured;

THAT rooftop mechanicals shall comply with all applicable Building Code and other legal requirements, including noise guidelines, as reviewed and approved by the Department of Buildings;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, February 5, 2019.

127-15-BZ

APPLICANT – Goldman Harris LLC, for Xin Development Group International, Inc., owner.

SUBJECT – Application November 8, 2018 – Extension of Time to commence construction of a previously approved Special Permit (§73-66) permitting construction of building more than the height limits established pursuant Z.R. §§61-211 & 61-22 which expires on October 27, 2019. The proposed building was approved by the Board pursuant to BSA Calendar Number 156-03-BZ. C2-2/R6 zoning district.

PREMISES AFFECTED – 135-35 Northern Boulevard, Block 4958, Lot 38, Borough of Queens.

COMMUNITY BOARD #7Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for an extension of time to complete construction pursuant to a previously granted variance (BSA Cal. No. 156-03-BZ) and special permit (BSA Cal. No. 127-15-BZ), which will expire on October 27, 2019; and

WHEREAS, a public hearing was held on this application on February 5, 2019, after due notice by publication in *The City Record*, and then to decision on that date; and

WHEREAS, Vice-Chair Chanda performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the north side of Northern Boulevard, between Prince Street and Farrington Street, within an R6 (C2-2) zoning district, in Queens; and

WHEREAS, the site has approximately 159 feet of frontage along Northern Boulevard, a depth of 278 feet, 16 feet of frontage along Farrington Street (located approximately 151 feet north of the corner of Northern Boulevard and Farrington Street, former tax lot 38) and is

MINUTES

occupied by a former movie theater, known as the RKO Keith's, with a ticket lobby and grand foyer designated as an interior landmark by the New York City Landmarks Preservation Commission ("LPC") in 1984; and

WHEREAS, the Board has exercised jurisdiction over this site since December 13, 2005, when, under BSA Cal. No. 156-03-BZ, the Board granted a variance to permit the development of a 200-unit, 17-story mixed-use commercial, community facility and residential building and 229 off-street accessory parking spaces contrary to zoning regulations relating to the maximum permitted residential floor area ratio, maximum permitted mixed-use floor area ratio minimum open space and minimum off-street accessory parking spaces on condition that all work substantially conform to the approved plans; a total of 229 attended parking spaces be provided in the accessory parking garage; prior to the issuance of any New York City Department of Buildings ("DOB") permit for any work on the site that would result in soil disturbance (such as demolition, site preparation, grading or excavation), the applicant or any successor would perform all of the hazardous materials remedial measures and the construction health and safety measures as delineated in the Restrictive Declaration to the satisfaction of the New York City Department of Environmental ("DEP") and submit a written report that must be approved by Protection DEP; no temporary or permanent certificate of occupancy be issued by DOB or accepted by the applicant or successor until DEP issues a Final Notice of Satisfaction or a Notice of No Objection indicating that the measures and conditions in the Restrictive Declaration have been completed to DEP's satisfaction; construction materials and windows providing at least 35 dBA of attenuation with alternate means of ventilation be used in order to maintain an interior noise level of 45 dBA; the applicant notify the New York City Department of Transportation ("DOT") six months prior to the opening of the building in order to investigate the feasibility of implementing traffic improvement measures; the applicant submit the following documents to the LPC for review and approval prior to any demolition, construction or development at the subject site: Construction Protection Plan for the interior landmark, an amended "Data Recovery" section of the Revised Mitigation Plan that shall read, "The scope of work for HABS documentation shall be submitted to the LPC for review and approval prior to the demolition and the start of the documentation process," a revised EAS stating that any written approvals by the LPC Preservation Department shall be included in the Final EAS; a copy of Certificate of Appropriateness 06-1202 for the subject property issued September 6, 2005, be included in the Final EAS, as well as a Scope-of-Work for HABS documentation; the Applicant submit the Scope-of-Work for HABS documentation to LPC for its review and approval prior to demolition and the start of the documentation process; and the

bulk parameters of the proposed building be as follows: (1) a residential FAR of 5.64 (245,798 square feet of zoning floor area); (2) a total FAR of 7.5 (314,127 square feet of zoning floor area); (3) an open space ratio of 4.86 percent; (4) 17 stories; (5) a total building height of 164'-11" without bulkheads and 174'-11" with bulkheads; (6) street wall height of 41 feet; and (7) an actual height for flight path purposes of 194.9 feet, AMSL; and

WHEREAS, by letter dated May 29, 2009, under BSA Cal. No. 156-03-BZ, the Board permitted the following alterations to the plans as substantially compliant with the variance grant: (1) reduction of the building to 16 stories with average floor to floor heights of 10'-2", rather than 9'-4"; (2) increase in the floorplate of the seventh through sixteenth floor to redistribute floor area from the eliminated seventeenth floor; (3) modifications to the size of certain units; and (4) inner court redesign; and

WHEREAS, on January 12, 2010, under BSA Cal. No. 156-03-BZ, the Board granted an extension of time to complete construction, which expired on December 13, 2009, pursuant to ZR § 72-23, extending such time by two years, expiring on January 12, 2012 on condition that all conditions from prior resolutions not specifically waived by the Board remain in effect; and

WHEREAS, on July 12, 2011, under BSA Cal. No. 156-03-BZ, the Board granted an amendment of the variance to permit modifications to the previously approved plans, specifically: (1) an increase in the number of dwelling units from 200 to 357; (2) a reduction in the average unit size from 1,437 square feet to 787 square feet; (3) an increase in the number of accessory parking spaces from 229 to 385; (4) a reduction in the residential floor area by 6,503 square feet (from 287,313 square feet to 280,810 square feet) and a corresponding increase in the commercial floor area by 6,503 square feet (from 10,957 square feet to 17,460 square feet) through the addition of a retail first floor mezzanine; (5) the relocation of the community facility space from the second floor to the third floor; (6) a reduction in the depth of the rear yard from 31'-5" to 30 feet; and (7) a reduction in the initial setback distance from 20 feet to 15 feet on condition that all work substantially conform to the approved plans and all conditions from prior resolutions not specifically waived by the Board remain in effect; and

WHEREAS, on January 31, 2012, under BSA Cal. No. 156-03-BZ, the Board granted a four year extension of time to complete construction due to funding delays on condition that substantial construction be completed by January 31, 2016, approval of the building by the FAA be in effect at the time of DOB permit issuance and that all conditions from prior resolutions not specifically waived by the Board remain in effect; and

WHEREAS, on October 27, 2015, under BSA Cal. No. 156-03-BZ, the Board granted another four year extension of

MINUTES

time to complete construction, expiring October 27, 2019, and an amendment to the variance, permitting the following changes to the previously approved plans: (1) an increase in the height of the proposed building by 11'-7" measured to the roof and 14'-3" measured to the top of the bulkhead, from 194.75 feet to 209 feet (AMSL, NAVD); (2) a reduction in the number of dwelling units in the proposed building from 357 to 269; (3) a change in the dwelling units from rentals to condominiums; and (4) redesign of the entry façade on Northern Boulevard on condition that all work substantially conform to the approved plans and all conditions from prior resolutions not specifically waived by the Board remain in effect; and

WHEREAS, on October 27, 2015, under BSA Cal. No. 127-15-BZ, the Board additionally granted a special permit, pursuant to ZR §§ 73-66 and 73-03, to permit the height of the development at the site to exceed the maximum height limits around airports, contrary to ZR §§ 61-21 and 61-22 on condition that all work substantially conform to the approved plans; the maximum height of the building, including all appurtenances, be 209 feet AMSL (equivalent to NAVD-88) at FAA Building Points 2, 3, 6 and 7; and 200'-1" AMSL (equivalent to NAVD-88) at FAA Building Points 1, 4, 5 and 8; the building be marked/lighted in accordance with FAA Advisory circular 70/7460-1 K Change 2, Obstruction Marking and Lighting, red lights – Chapters 4, 5 (Red), and 12; all construction at the site be as approved by DOB and comply with all relevant Building Code and zoning district regulations; the applicant comply with all FAA notification requirements associated with the construction at the site, including, without limitation, the filing of FAA Form 7460-2, Notice of Actual Construction or Alteration in the event that the project is abandoned as well as at least ten (10) days prior to the start of construction and within five (5) days after construction reaches its greatest height; and substantial construction be completed within four years, by October 29, 2019, pursuant to ZR § 73-70; and

WHEREAS, in anticipation of the expiration of the time to complete construction at the site pursuant to the previously granted variance and special permit, the applicant requests herein additional four-year extensions of time for both applications; and

WHEREAS, the applicant submits that construction at the site has been stymied by two changes in ownership of the site subsequent to the grant of the variance in 2005 and to those owners' inability to secure financing for the project; that the applicant acquired the property in 2016, is a subsidiary of a large and publically traded real estate company, has the resources to complete construction within the next four years and that demolition work at the site is scheduled to commence in March 2019; and

WHEREAS, the applicant additionally states that they have continued to work closely with LPC and obtained a new

Certificate of Appropriateness in order to accommodate required modifications to the preservation and restoration methods of the interior landmark, specifically, due to water damage, plasterwork can no longer be kept in place with a building constructed around it and now, such ornamental plasterwork and woodwork at the premises must be disassembled, restored off-site and re-installed onsite; and

WHEREAS, the Board notes that this is an extremely complex project with significant challenges, including the preservation of an interior landmark; and

WHEREAS, by letter dated February 1, 2019, the Fire Department states that an inspection was performed at the premises by the Bureau of Fire Prevention's Construction, Demolition & Abatement Unit ("CDA") and Fire Suppression Unit ("FSU"), which found that the standpipe system is out-of-services; accordingly, a violation order was issued to restore the standpipe system to either a wet system (as described in 2014 FC Section 905.12) or a dry system (as described in 2014 FC Section 1413 and Chapter 33 of the Building Code); and

WHEREAS, Fire Department, therefore, requests, that, should the Board grant this applications, the Board also institute a condition that the standpipe system be restored to operations order as either a wet or dry standpipe system forthwith and states that, in the event of noncompliance with either the violation order or the Board's variance or special permit, the Bureau of Fire Prevention will request a compliance hearing and rescission of the previous approvals; and

WHEREAS, based on its review of the record, the Board finds that a four (4) year extension of time to complete construction pursuant to the variance previously granted under BSA Cal. No. 156-03-BZ and the special permit granted under BSA Cal. No. 127-15-BZ is appropriate with certain conditions, as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution dated December 13, 2005, as amended through October 27, 2015, under BSA Cal. No. 156-03-BZ; and *reopens* and *amends* the resolution dated October 27, 2015, under BSA Cal. No. 127-15-BZ, so that, as herein amended, this portion of the resolution reads: "to grant a four (4) year extension of time to complete construction to October 27, 2023; and *on further condition:*

THAT substantial construction shall be completed by October 27, 2023, as evidenced by an inspection and determination by the Department of Buildings;

THAT prior to the start of demolition work at the premises, the applicant shall provide necessary access to and obtain all necessary sign-offs from the Fire Department, including sign-off for the installation/restoration of an appropriate wet or dry standpipe system;

THAT all conditions from prior resolutions not

MINUTES

specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, February 5, 2019.

539-66-BZ

APPLICANT – Eric Palatnik, P.C., for Arthur Stein of 173-12 Operating Co. Inc., owner.

SUBJECT – Application March 13, 2018 – Amendment of a Variance (§72-21) to permit the reconstruction of a previously approved automotive service station (UG 16B). C2-2/R4 zoning district.

PREMISES AFFECTED – 61-19 Fresh Meadow Lane aka 173-12 Horace Harding Expressway, Block 6902, Lot 18, Borough of Queens.

COMMUNITY BOARD #8Q

ACTION OF THE BOARD – Laid over to April 9, 2019, at 10 A.M., for continued hearing.

81-74-BZ

APPLICANT – Gerald J. Caliendo, RA, AIA, for 57 Avenue Market Inc., owner.

SUBJECT – Application December 30, 2016 – Extension of Term /amendment of a previously approved variance which permitted the operation of a supermarket (UG 6) which expires on February 27, 2017. C1-2/R6A & R6B zoning district.

PREMISES AFFECTED – 97-27 57th Avenue, Block 1906, Lot 1, Borough of Queens.

COMMUNITY BOARD #4Q

ACTION OF THE BOARD – Laid over to May 21, 2019, at 10 A.M., for adjourned hearing

103-79-BZ

APPLICANT – Akerman, LLP, for The 1989 Anthony Denicker Trust, owner.

SUBJECT – Application March 27, 2018 – Amendment of a previously approved Variance (§72-21) which permitted the development of a two-family residence contrary to side yard requirements. The amendment seeks to modify the Board’s prior approval to allow a conversion of the building from a two-family residence to a three-family residence contrary to ZR §23-49 and to request a termination of a

Board condition that required a recorded declaration describing the use of the site as a two-family residence. R5 zoning district.

PREMISES AFFECTED – 25-30 44th Street, Block 702, Lot 56, Borough of Queens.

COMMUNITY BOARD #1Q

ACTION OF THE BOARD – Laid over to March 26, 2019, at 10 A.M., for continued hearing.

132-04-BZ

APPLICANT – Eric Palatnik, P.C., for Paco East Houston, LLC, owner.

SUBJECT – Application January 27, 2017 – Amendment of a previously variance to facilitate the transfer of unused development rights from the variance site for incorporation into a new as-of-right development. R7-2 zoning district.

PREMISES AFFECTED – 310 East Houston Street, Block 384, Lot(s) 4, 40, Borough of Manhattan.

COMMUNITY BOARD #3M

ACTION OF THE BOARD – Laid over to April 23, 2019, at 10 A.M., for continued hearing.

61-08-BZ

APPLICANT – Law Office of Fredrick A. Becker, for 429-441 86th Street, LLC, owner; TSI Bay Ridge 86th Street, LLC dba New York Sports Club, lessee.

SUBJECT – Application September 21, 2018 – Extension of Term of a previously approved Special Permit (§73-36) permitting the operation of a Physical Cultural Establishment (New York Sports Club) located on the second and third floors of a three-story commercial building, which expired on June 1, 2018; Waiver of the Board’s Rules. C4-2A zoning district and Special Bay Ridge District.

PREMISES AFFECTED – 439 86th Street, Block 6035, Lot 64, Borough of Brooklyn.

COMMUNITY BOARD #10BK

ACTION OF THE BOARD – Laid over to March 5, 2019, at 10 A.M., for continued hearing.

89-10-BZ

APPLICANT – Kramer Levin Naftalis & Frankel LLP, for Mercer Sunshine LLC, owner.

SUBJECT – Application February 5, 2019 – Extension of Time to Complete Construction of a previously approved Variance (§72-21) permitting commercial use below the floor level of the second story, contrary to §§42-14(D)(2)(b) which expired on November 23, 2018. M1-5B zoning district.

PREMISES AFFECTED – 53 Mercer Street, Block 474,

MINUTES

Lot 14, Borough of Manhattan.

COMMUNITY BOARD #2M

ACTION OF THE BOARD – Laid over to March 5, 2019, at 10 A.M., for continued hearing.

APPEALS CALENDAR

238-15-A thru 243-15-A

APPLICANT – Jeffrey Geary, for Ed Sze, owner.
SUBJECT – Application October 8, 2015 – Proposed construction of buildings that do not front on a legally mapped street pursuant to Section 36 Article 3 of the General City Law. R3-1 zoning district.
PREMISES AFFECTED – 102-04, 08, 12, 16, 20, 24 Dunton Court, Block 14240, Lot(s) 1306, 1307, 1308, 1309, 1310, 1311, Borough of Queens.

COMMUNITY BOARD #14Q

ACTION OF THE BOARD – Laid over to April 23, 2019, at 10 A.M., for continued hearing

2017-144-A

APPLICANT – NYC Department of Buildings, for Marlene Mitchell Kaselis, owner.
SUBJECT – Application May 10, 2017 – Appeal filed by the Department of Buildings seeking to revoke Certificate of Occupancy.
PREMISES AFFECTED – 25-30 44th Street, Block 702, Lot 56, Borough of Queens.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated October 24, 2018, acting on New Building Application No. 320911607, reads in pertinent part:

1. ZR 32-10 Proposed school use in UG3 is not permitted in a C8-2 district.
2. ZR 33-432 Proposed conditions violate applicable height and setback regulations.
3. ZR 33-283 Required rear yard equivalent not provided.; and

WHEREAS, this is an application under ZR §§ 73-19, 73-03 and 72-21 to permit, in a C8-2 zoning district, the development and operation of a school in a community-facility building that does not comply with zoning regulations for use, height and setback and rear yard equivalent, contrary to ZR §§ 32-10, 33-432 and 33-283; and

WHEREAS, a public hearing was held on this application on December 4, 2018, after due notice by publication in *The City Record*, with continued hearings on February 5, 2019, and then to decision on the same date; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 12, Brooklyn, recommends approval of this application; and

WHEREAS, residents of the surrounding area submitted testimony in support of and in opposition to this application, citing concerns with noise, refuse, school bus traffic, parking and blocked streets; and

WHEREAS, the subject site (Tax Lot 20) is located on the south side of 36th Street, between Old New Utrecht Road, Church Avenue and 37th Street, in a C8-2 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 133 feet of frontage along 36th Street, 69 feet of frontage along Old New Utrecht Road, 127 feet of frontage along Church Avenue, 136 feet of frontage along 37th Street, 59,707 square feet of lot area and is unimproved and currently used for school bus storage; and

WHEREAS, the subject site is part of a larger zoning

lot that consists of Tax Lot 20 and Tax Lot 1 and has approximately 59,707 square feet of lot area; and

WHEREAS, the applicant proposes to develop a nine-story, with cellar and sub-cellar, community-facility building with 167,041 square feet of floor area (2.80 FAR), front wall heights ranging from 128’-6” along 36th Street (corner lot portion) to 102’-11” along 37th Street (through lot portion) without setbacks and with no rear yard equivalent in the through lot portion of Tax Lot 20; and

WHEREAS, the applicant states that, at the subject site, school use is not permitted under ZR § 32-10; front wall heights may not exceed 60 feet under ZR § 33-432; setbacks of 15 feet along 36th Street and New Utrecht Avenue and of 20 feet along 37th Street and Church Avenue are required under ZR § 33-432; and a rear yard equivalent with a depth of 20 feet is required in the through lot portion of Tax Lot 20 under ZR § 33-283; and

WHEREAS, ZR § 73-19 provides:

In C8 or M1 Districts, the Board of Standards and Appeals may permit *schools* which have no *residential* accommodations except *accessory* accommodations for a caretaker, provided that the following findings are made:

- (a) that within the neighborhood to be served by the proposed *school* there is no practical possibility of obtaining a site of adequate size located in a district wherein it is permitted as of right, because appropriate sites in such districts are occupied by substantial improvements;
- (b) that such *school* is located not more than 400 feet from the boundary of a district wherein such *school* is permitted as-of-right;
- (c) that an adequate separation from noise, traffic and other adverse effects of the surrounding non-*Residential Districts* is achieved through the use of sound-attenuating exterior wall and window construction or by the provision of adequate open areas along *lot lines* of the *zoning lot*; and
- (d) that the movement of traffic through the *street* on which the *school* is located can be controlled so as to protect children going to and from the *school*. The Board shall refer the application to the Department of Traffic for its report with respect to vehicular hazards to the safety of children within the block and in the immediate vicinity of the proposed site.

The Board may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

MINUTES

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a preliminary matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, as to the threshold issue of whether the School qualifies as a school for purposes of ZR § 73-19, the applicant states that the School meets the ZR § 12-10 definition of “school” because it provides full-time day instruction and a course of study that meets the requirements of Sections 3204, 3205 and 3210 of the New York State Education Law; and

WHEREAS, the applicant notes that instruction at the School is provided by competent teachers; that the School employs a protocol for interviewing and verifying the credentials of teacher candidates using criteria regarding the type and length of experience and other qualifications; that interviews generally require candidates to teach a model lesson to allow the School to assess their teaching skills and general classroom demeanor; that the School’s operations include frequent observations by the administration to ensure instructional quality; and that teachers undergo biyearly reviews as well as ongoing feedback and training opportunities in conjunction with these reviews; and

WHEREAS, the applicant notes that the School has operated for over 70 years within the City and administers State standardized tests to its students, thereby assuring that students in attendance receive an education that is substantially equivalent to instruction at the City’s public schools; and

WHEREAS, the applicant notes that the School teaches subjects in English and that textbooks are also written in English; and

WHEREAS, the applicant submits that the School’s curriculum for the first eight years includes science, arithmetic, reading, spelling, writing, English, geography, history, civics, hygiene, physical education and the State’s history and that the School’s curriculum beyond the first eight years includes English, civics, hygiene, physical training, history and the destructive effects of communism;

and

WHEREAS, the applicant notes that the School uses a full-time day program that is in session for approximately 220 days per year, from September through June, and that the School employs strict attendance policies with an emphasis on decorum and appropriate behavior; and

WHEREAS, further, the applicant submitted a copy of the School’s New York State Nonpublic School Comprehensive Information Report; and

WHEREAS, with respect to ZR § 73-19(a), an applicant must demonstrate its inability to obtain a site for the development of a school within the neighborhood to be served, and with a size sufficient to meet the programmatic needs of the school, within a district where the school is permitted as-of-right; and

WHEREAS, the applicant submitted a study of the School’s programmatic needs, demonstrating that, after years of maintaining multiple scattered locations throughout the area, the School must consolidate its operations into one building because of current inefficiencies, unnecessary costs and wasted instructional time; and

WHEREAS, the applicant represents that the School currently enrolls approximately 1,126 students with an average annual enrollment increases of approximately 3.75 percent, or 40 percent within 10 years, indicating that the School’s projected enrollment for the 2021–2022 school year will be approximately 1,307 students and will reach 1,697 students by 2028; and

WHEREAS, the applicant submits that the School will also employ approximately 277 faculty and staff; and

Whereas, based on the School’s programmatic needs, a total of 72 new classrooms are necessary to provide for the School’s increased enrollment and that a building of at least 215,000 square feet of floor area is necessary to accommodate these educational spaces; and

WHEREAS, the applicant submits that each division of the School must be located entirely on one floor because each academic division—consisting of two grades that are educationally and socially integrated with linked academic goals—operates as a sub-school within the umbrella of the larger school; and

WHEREAS, the applicant further notes that, as part of its core curriculum, the School’s programming requires the following gathering spaces: a student sanctuary, an auditorium, study halls and lunchrooms—each designed to accommodate its curricular purpose; and

WHEREAS, the applicant submits that the School also requires specialized spaces for academic support, science experiments, music instruction, art classes, computer science and physical fitness as well as a library; and

WHEREAS, accordingly, the applicant has demonstrated that its stated requirements related to size and

MINUTES

configuration are justified by its programmatic needs; and

WHEREAS, the applicant represents that the School has conducted an exhaustive search for potential expansion sites using the following criteria: location within walking distance of the community to be served by the School; sites that could accommodate at least 215,000 square feet of floor area as of right; adequate lot size to accommodate floor plates of approximately 23,000 square feet; adequate street frontage to provide windows for natural light to classrooms and to accommodate bus drop-offs and pickups; compatibility with adjacent uses; and avoidance of construction complications; and

WHEREAS, the applicant submitted evidence that the School has considered numerous sites in the surrounding area, including 4202 Fort Hamilton Parkway, which had insufficient floor area, inadequate floor plates and had potential for neighborhood conflict with its location along a residential street; and

WHEREAS, thus, the applicant maintains that the site search establishes that there is no practical possibility of obtaining a site of adequate size in a nearby zoning district where a school would be permitted as-of-right; and

WHEREAS, accordingly, the Board finds that the requirements of ZR § 73-19(a) are met; and

WHEREAS, ZR § 73-19(b) requires an applicant to demonstrate that the proposed school is located no more than 400 feet from the boundary of a district in which such a school is permitted as of right; and

WHEREAS, the applicant notes that the subject site is adjacent to an R5 zoning district boundary line and that the entire site is within 400 feet of said R5 zoning district, and notes that school uses are permitted as-of-right in R5 zoning districts; and

WHEREAS, the applicant submitted a radius diagram which reflects that the subject site is adjacent to an R5 zoning district; and

WHEREAS, accordingly, the Board finds that the requirements of ZR § 73-19(b) are met; and

WHEREAS, ZR § 73-19(c) requires an applicant to demonstrate how it will achieve adequate separation from noise, traffic and other adverse effects of the surrounding non-residential district; and

WHEREAS, the applicant notes that the proposed building has been designed for the School's use with double-pane windows, central air conditioning and construction materials that would provide sufficient window-wall attenuation so that the School will achieve sufficient separation from noise, traffic and any other adverse effects of the surrounding area; and

WHEREAS, the Board finds that the conditions surrounding the site and the proposed building's use will adequately separate the proposed school use from noise, traffic and other adverse effects of any of the uses within the

surrounding C8-2 zoning district; accordingly, the Board finds that the requirements of ZR § 73-19(c) are met; and

WHEREAS, ZR § 73-19(d) requires an applicant to demonstrate how the movement of traffic through the street on which the school will be located can be controlled so as to protect children traveling to and from the school; and

WHEREAS, the applicant submits that additional pedestrian trips generated by the School would not affect pedestrian levels of service at adjacent intersections and provided a study indicating that there would be no potential for conflict between the School and a nearby mini bus parking lot on the north side of 36th Street; and

WHEREAS, the applicant states that, because of its four street frontages, the subject site has approximately 465 linear feet of frontage, which allows the School adequate space for bus drop-offs and pickups; and

WHEREAS, the applicant notes that the School employs a well-tested operational plan for student dismissals—involving grouping students by bus inside of classrooms before exiting the school for bus loading in conjunction with a transportation bus coordinator tasked with facilitating drop-offs and pickups by communication with bus drivers and teachers with a wireless-communication device to ensure coordination in real time; and

WHEREAS, the applicant also performed a pedestrian safety assessment, including a review of both pedestrian crash data and existing pedestrian elements, which identifies no high-crash locations in the surrounding area but proposes potential improvements to existing pedestrian elements leading to and from the subject site; and

WHEREAS, the Board referred the application to the School Safety Engineering Office of the Department of Transportation ("DOT"); and

WHEREAS, by letter dated December 7, 2018, DOT states that the applicant shall provide a full curb extension on the northwest corner of Church Avenue and 37th Street, an enhanced crosswalk in the west leg and parking lane stripes on 37th Street between 13th Avenue and Old New Utrecht Road; that the applicant shall install the concrete curb extension on the northwest corner of Old New Utrecht Road and 37th Street in conjunction with the construction of the sidewalk on the west side of Church Avenue; that design of the curb extension shall pass AutoTURN analysis for Fire Department vehicles and follow DOT standards; that, prior to construction, design of the curb extension shall be approved by DOT School Safety and DOT Geometric Design; that the applicant shall upgrade all crosswalk markings at the intersection of 37th Street and Church Avenue, the intersection of Old New Utrecht Road and Church Avenue and the intersection of Old New Utrecht Road and 37th Street; that the applicant shall ensure parking lane stripes on 37th Street between 13th Avenue and Old

MINUTES

New Utrecht Road and shall be extended one block to the east to 14th Avenue; that the applicant shall enhance crossing in the west leg of 37th Street and Church Avenue subject to DOT Intersection Control Unit's studying the location for a stop control with the applicant following up by May 2019; that if the intersection does not meet federal warrants for a signal or all way stop control, the applicant shall file a request for an enhanced crosswalk; that if the enhanced crossing is approved, it shall be installed after the applicant completes construction of the sidewalk on the west side of Church Avenue between Old New Utrecht Road and 37th Street and the curb extension on the northwest corner of 37th Street and Church Avenue, which shall be eligible for DOT Intersection Control Unit evaluation after the School's opening; that unused curb cuts shall be closed in order to improve safety for student pedestrians along the School's proposed frontage (all existing curb cuts along the School's proposed frontage on the south side of 36th Street, west of Old New Utrecht Road, and an existing curb cut along the School's proposed frontage on the north side of 37th Street, approximately 130 feet west of Church Avenue); and that upon approval of this application and near the end of construction, the applicant shall notify DOT School Safety so that DOT can determine if additional traffic safety improvements or changes to parking regulations are necessary, including the placement of appropriate school warning signage and school loading zones to be sited according to DOT standards; and

WHEREAS, the Board finds that the abovementioned measures will control traffic so as to protect children going to and from the proposed school; and

WHEREAS, accordingly, the Board finds that the requirements of ZR § 73-19(d) are met; and

WHEREAS, the Board acknowledges that the School, as an educational institution, is entitled to deference under the law of the State of New York as to zoning and its ability to rely upon programmatic needs in support of this application; and

WHEREAS, specifically, as held in *Cornell University v. Bagnardi*, 68 N.Y.2d 583 (1986), a zoning board must grant an educational or religious institution's application unless it can be shown to have an adverse effect on the health, safety or welfare of the community and general concerns about traffic and disruption of the residential character of the neighborhood are insufficient grounds for the denial of such applications; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not

interfere with any pending public improvement project; and

WHEREAS, consistent with ZR § 72-21, the applicant submits that the School's proposed building is necessary to accommodate the School's programmatic needs and, as discussed above, submitted a study of the School's programmatic needs demonstrating the following: the School must have all of its divisions located in one building; each of the School's divisions must be located entirely on one floor; and there must be sufficient gathering spaces for secular and religious programs; and

WHEREAS, for each floor and each space in an as-of-right development, the applicant analyzed and detailed the deleterious effects that the complying building form would have on the School's programmatic needs based on the school's educational mission and projected occupancy; and

WHEREAS, the applicant notes that an as-of-right development would not meet the School's programmatic needs because a complying building would contain inadequate floor plates as a result of required setbacks and the rear yard equivalent, which would intersperse the School's grades and divisions across floors while resulting in a taller building with inferior classroom and specialty spaces and wasted floor area; and

WHEREAS, the applicant also submits that, among other things, an as-of-right development would require a central bank of elevators and stairs that would result in inefficient floor layouts, irregular floorplates, the reduction of light and air and encroachment of stairways into the sanctuary space; and

WHEREAS, consistent with *Cornell University v. Bagnardi*, 68 N.Y.2d 583 (1986), the Board finds that the School's programmatic needs create practical difficulties or unnecessary hardship in complying strictly with applicable zoning regulations that are not created by general circumstances in the neighborhood or district; and

WHEREAS, the applicant notes that, because the School is a non-profit organization, this application need not demonstrate financial hardship; and

WHEREAS, instead, the applicant notes and the Board finds that the variances requested are necessary to accommodate the School's programmatic needs with adequate space, facilities and organization; and

WHEREAS, the applicant states that the proposed building would not alter the essential character of the neighborhood or impair the use or development of adjacent properties; and

WHEREAS, the applicant studied the surrounding area, noting that it is characterized by a vibrant mix of land uses (including commercial establishments, educational facilities, automotive uses, parking facilities and residences), building typologies, setbacks and heights; and

WHEREAS, the applicant submits that, as discussed above regarding the School's use, schools are permitted as

MINUTES

of right in zoning districts immediately surrounding the subject site and that there are also schools located on the blocks to the north and south of the subject site; and

WHEREAS, the applicant notes that the subject site is adjacent to and across from two multiple dwellings and that there is a six-story building without setbacks under construction in the vicinity, similar to the form of the proposed building; and

WHEREAS, the applicant submits that the proposed building reflects a building form that is consistent with the built environment of the surrounding area because the proposed height is as of right, an as-of-right development would be taller than the proposed building, and the location of the subject site along two wide streets and irregular intersection angles results in an ample open areas along the boundaries of the subject site; and

WHEREAS, the applicant notes that the proposed building has also been designed so that its shorter portion has been oriented along 37th Street, which is a narrow street, and the bulk of the portion of the building located in the rear yard equivalent has been concentrated along 36th Street, which is a wide street; and

WHEREAS, with respect to the built form of the proposed building, the applicant notes that the façade is primarily composed of brick with the base of the proposed building articulated with stone and precast trim and panels; and

WHEREAS, in response to community concerns, the applicant further notes that development of the School would result in improved pedestrian conditions around the site, including the installation of sidewalks and high-visibility crosswalks, and that the consolidation of the School's operations into a single building would streamline bus operations, thereby reducing bus traffic in the surrounding area from three locations to one location; and

WHEREAS, with respect to concerns about refuse, the applicant submits that the School's proposed building will provide areas for refrigerated trash storage space located within the interior of the building; and

Whereas, in response to questions from the Board at hearing regarding security and access to spaces within the proposed building, the applicant provided further explanation regarding the non-simultaneous use of spaces within the proposed building, demonstrating separation of the School's operations from any proposed non-simultaneous use as a house of worship; and

WHEREAS, the applicant notes that the School will operate with controlled key access for school staff at all doors beyond the reception and security area with every floor equipped with controlled access; that there will be a security guard and staff posted in the lobby during students' arrivals and departures; that every space solely dedicated to the School's use will be locked down and secured during

any non-simultaneous use for house of worship events, which would only ever take place outside of the School's daily operations; and

WHEREAS, the Board finds that the proposed variance will not alter the essential character of the neighborhood or district in which the subject site is located; will not substantially impair the appropriate use or development of adjacent property; and will not be detrimental to the public welfare; and

WHEREAS, the applicant submits that the above practical difficulties or unnecessary hardship do not constitute a self-created hardship; and

WHEREAS, the Board finds that the above practical difficulties or unnecessary hardship have not been created by the owner or by a predecessor in title; and

WHEREAS, the applicant states that the proposed variance is the minimum necessary to permit a productive use of the site, as reflected by evidence of School's programmatic needs; and

WHEREAS, in response to questions from the Board with respect to the size of spaces within the School's proposed building, the applicant submitted detailed schedules for each space demonstrating full utilization based on the School's programmatic needs; and

WHEREAS, the applicant further provided evidence that, based on comparisons to square footages for schools constructed within the City, the square footage per student proposed for the School is consistent with other schools recently constructed by the School Construction Authority; and

WHEREAS, accordingly, the Board finds that the proposed variance is the minimum necessary to afford relief within the intent and purposes of the Zoning Resolution; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 18BSA113K, dated January 7, 2019; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design; Natural Resources; Hazardous Materials; Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction Impacts; and

WHEREAS, by correspondence dated May 16, 2018, the New York City Landmarks Preservation Commission represents that the proposed project would not result in any

MINUTES

adverse impacts on architectural or archeological resources; and

WHEREAS, by letter dated September 24, 2018, the Department of Environmental Protection (“DEP”) states that it finds the August 2018 Remedial Action Plan and Construction Health and Safety Plan is acceptable with the following conditions: that proper handling, transportation and disposal of excavated materials from the site shall be conducted in accordance with applicable New York State Department of Environmental Conservation (“DEC”) regulations; that all known or found underground storage tanks shall be properly closed and removed in accordance with all applicable DEC regulations; that if dewatering into the City’s storm/sewer drains occurs during the proposed construction, a DEP Sewer Discharge Permit must be obtained prior to the start of any de-watering; that for all areas to be landscaped or covered with grass (not capped) a minimum of two feet of DEP-approved clean fill/top soil shall be imported from an approved facility/source and graded across all landscaped/grass covered areas of the site not capped with concrete/asphalt; that upon completion of the clean fill/top soil investigation activities, the applicant shall submit a detailed clean soil report to DEP for review and approval prior to importation and placement on-site; that the report shall include an executive summary, narrative of field activities, laboratory data and comparison of soil analytical results (i.e., NYSDEC 6 NYCRR Part 375 Environmental Remediation Programs); and, at the completion of the project, a professional engineer-certified Remedial Closure Report shall be submitted to DEP for review and approval for the proposed project, which shall indicate that all remedial requirements have been properly implemented (i.e., transportation and disposal manifests and certificates from impacted soils removed and properly disposed of in accordance with DEC regulations and two feet of DEP-approved certified clean fill and top soil capping requirement in any landscaped or grass-covered areas not capped with concrete or asphalt, etc.); and

WHEREAS, a revised Remedial Action Plan and Construction Health and Safety Plan were received on February 4, 2019, that addresses DEP’s conditions; and

WHEREAS, by letter dated November 1, 2018, the New York City Department of Environmental Protection states that, with respect to air quality, the proposed project would not result in any potential for significant adverse impacts and that, with respect to noise, in order to attain an indoor noise level of 45 dBA within the proposed development, a composite window–wall noise attenuation of 28 dBA is required for the southern, western and eastern frontages of the proposed building and that an alternate means of ventilation is required and shall be incorporated into building design and construction; and

WHEREAS, by letter dated February 5, 2019, DOT

states that a detailed traffic analysis is not warranted following the CEQR Technical Manual Level 1 (trip generation) and Level 2 (trip assignment) Screening Assessment; that the screening assessment requires a pedestrian analysis at two sidewalks and four corners; that, based on DOT’s review of the EAS, supplemental information and pedestrian levels of service analysis, DOT has determined that the proposed development of the School would not result in any significant adverse pedestrian impacts but that, prior to the opening of the School, the following safety improvements shall be coordinated with DOT’s School Safety Unit: placement of appropriate school warning and loading signage to ensure that school buses and parent vehicles have direct access to the curb during the School’s arrival and dismissal hours; high-visibility crosswalks to be located at the south and west legs of Church Avenue and 36th Street, the west leg of Old New Utrecht Road and Church Avenue, the south leg of 36th Street and 13th Avenue and the north leg of 36th Street and Louisa Street; curb extension at the northwest corner of 37th Street and Church Avenue; enhanced crossing treatments at the west leg of 37th Street and Church Avenue; and lane striping 37th Street; proposed sidewalks along the west side of Church Avenue between 37th Street and Old New Utrecht Road; and proposed “No Standing 7:00 a.m. to 7:00 p.m. except Saturday” regulation along the south side of 36th Street along the boundary of the subject site, the west side of Old New Utrecht Road between 36th Street and Church Avenue, the west side of Church Avenue between 37th Street and Old New Utrecht Road and north side of 37th Street along the boundary of the subject site; and

WHEREAS, DOT further notes that the applicant has identified space in a commercial bus lot located at 110 5th Street, Brooklyn, to park buses when not in use and that the applicant shall ensure that buses are parked in an off-street facility when the lease of the identified site has expired; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-19, 73-03 and 72-21 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended,

MINUTES

and makes each and every one of the required findings under ZR §§ 73-19, 73-03 and 72-21 to *permit*, in a C8-2 zoning district, the development and operation of a school in a community-facility building that does not comply with zoning regulations for use, height and setback and rear yard equivalent, contrary to ZR §§ 32-10, 33-432 and 33-283; *on condition* that all work, operations and site conditions shall conform to drawings filed with this application marked “Received November 13, 2018”-Twenty-Five (25) sheets; and *on further condition*:

That the bulk parameters of the building shall be as follows: maximum front wall heights ranging from 128’-6” along 36th Street (corner lot portion) to 102’-11” along 37th Street (through lot portion) without setbacks and with no rear yard equivalent in the through lot portion, as illustrated on the Board-approved drawings;

THAT the portions of the building indicated as non-simultaneous use spaces may also be used as a house of worship (Use Group 4) during the following hours and only when the School is closed: Sunday through Thursday, 7:00 p.m. to 11:00 p.m., and 4:00 p.m. on Friday through 7:00 a.m. on Sunday, as indicated on the Board-approved drawings;

THAT if any other as-of-right use in a use group other than Use Group 4 or in addition to Use Group 4, such use shall comply with all applicable parking and loading regulations;

THAT a restrictive declaration shall be recorded against the property substantially conforming to the form and substance of the following:

THIS DECLARATION, made this day of , 2019, by Congregation Beis Shloime, a not-for-profit corporation, having an address at (“Declarant”) and Bobover Yeshiva B’nei Zion, a New York not-for-profit corporation having an office at 4206-10 15th Avenue, Brooklyn, NY 11219 (the “Applicant”).

WHEREAS, the Declarant is the fee owner of certain land located in the City and State of New York, County of Kings, being known and designated as Block 5301, Lot 20 on the Tax Map of the City of the New York and more particularly described in Exhibit A annexed hereto and made a part hereof (the “Premises”); and

WHEREAS, the Applicant is the lessee of the Premises pursuant to lease, dated June 27, 2016;

WHEREAS, the Premises is currently unimproved; and

WHEREAS, the Applicant currently utilizes the Premises for the off-street storage of nineteen (19) school buses; and

WHEREAS, the Applicant proposes to construct and operate a school on the Premises; and

WHEREAS, commencing on or about September 1, 2019, the Applicant will utilize the parking lot located at

Tax Block 990, Lot 16, County of Kings, for the off-street storage of its buses (the “Future Bus Lot”); and

WHEREAS, the Applicant has requested various approvals from the New York City Board of Standards and Appeals to construct a school building on the Premises, under BSA Cal. No. 2018-42-BZ; and

WHEREAS, the New York City Board of Standards and Appeals (the “Board”) requires the execution and recording of this Declaration in connection with the off-street storage of the Applicant’s buses.

NOW, THEREFORE, in consideration of the Board’s approvals, the Applicant and Declarant do hereby declare that the Applicant and Declarant and their successors and/or assigns shall be legally responsible for compliance with the following restriction:

1. In the event that the Premises and/or the Future Bus Lot are no longer available to Applicant for the off-street storage of its buses, Applicant shall utilize an alternate lot at which the parking and storage of its nineteen (19) buses, or the total number of buses utilized by the Applicant at such time, is permitted in accordance with the applicable provisions of the Zoning Resolution of the City of New York;
2. The Applicant shall at no time utilize on-street parking spaces for the storage of any of the buses serving the Premises;
3. This Declaration may not be modified, amended or terminated without the prior written consent of the New York City Board of Standards and Appeals;
4. The covenants set forth herein shall run with the Premises and be binding upon and inure to the benefit of the parties hereto and their respective heirs, legal representatives, successors and assigns;
5. Failure to comply with the terms of this Declaration may result in the revocation of approvals by the New York City Board of Standards and Appeals, which may result in the revocation of a certificate of occupancy;
6. This Declaration shall be recorded in the Office of City Register against the Premises and the reference number and title of this Declaration shall be recorded on each temporary and permanent certificate of occupancy hereafter issued for any buildings located on the Premises and in any deed for the conveyance thereof.

IN WITNESS WHEREOF, Declarant and Applicant have made and executed this Declaration as of the date hereinabove written.;

MINUTES

THAT the following safety improvements shall be coordinated with the Department of Transportation's School Safety Unit prior to the opening of the School: placement of appropriate school warning and loading signage to ensure that school buses and parent vehicles have direct access to the curb during the School's arrival and dismissal hours; high-visibility crosswalks to be located at the south and west legs of Church Avenue and 36th Street, the west leg of Old New Utrecht Road and Church Avenue, the south leg of 36th Street and 13th Avenue and the north leg of 36th Street and Louisa Street; curb extension at the northwest corner of 37th Street and Church Avenue; enhanced crossing treatments at the west leg of 37th Street and Church Avenue; and lane striping 37th Street; proposed sidewalks along the west side of Church Avenue between 37th Street and Old New Utrecht Road; and proposed "No Standing 7:00 a.m. to 7:00 p.m. except Saturday" regulation along the south side of 36th Street along the boundary of the subject site, the west side of Old New Utrecht Road between 36th Street and Church Avenue, the west side of Church Avenue between 37th Street and Old New Utrecht Road and the north side of 37th Street along the boundary of the subject site;

THAT with respect to noise, in order to attain an indoor noise level of 45 dBA within the building, a composite window-wall noise attenuation of 28 dBA is required for the southern, western and eastern frontages of the building, and an alternate means of ventilation is required and shall be incorporated into building design and construction;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number ("BSA Cal No 2018-42-BZ"), shall be obtained within four (4) years, by February 5, 2023;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 5, 2019.

1-96-BZ

APPLICANT – New York City Board of Standards and Appeals.

SUBJECT – Application August 2, 2016 – Amendment for an extension of an existing school building to add 3rd and 4th floors. R5 zoning district.

PREMISES AFFECTED – 600 McDonald Avenue, southwest corner of Avenue "C", Block 5369, Lot 6, Borough of Brooklyn.

DOCKETS

New Case Filed Up to February 12, 2019

2019-29-BZ

30 Clinton Avenue, Block 1872, Lot(s) 44,48,49, Borough of **Brooklyn, Community Board: 2**. Special Permit (§73-19) to permit the operation of a school (UG 3) (International Charter School) contrary to ZR §42-10. M1-2 zoning district. M1-2 district.

2019-30-BZ

2705 East 28th Street, Block 8791, Lot(s) 120, Borough of **Brooklyn, Community Board: 15**. Special Permit (§73-622) to permit the enlargement of an existing single-family home, contrary to rear yard requirements (ZR §23-47) and side yard (ZR §23-461). R4 zoning district. R4 district.

2019-31-BZ

525 West 26th Street, Block 00698, Lot(s) 0018, Borough of **Manhattan, Community Board: 4**. Special Permit (§73-36) to permit the operation of a physical cultural establishment (The Wright Fit Performance Lab) to be located on the fourth and fifth floors of a five-story building contrary to ZR §42-10. M1-5 Special West Chelsea zoning district. and West Chelsea Historic District. M1-5 district.

2019-32-BZ

801 Co-Op City Boulevard, Block 5141, Lot(s) 0280, Borough of **Bronx, Community Board: 10**. Special Permit (§73-44) to permit the reduction of required accessory off-street parking spaces for an ambulatory diagnostic or treatment facility (UG 4) (PRC-B1 parking category) contrary to ZR §36-21. C4-1 zoning district. C4-1 district.

DESIGNATIONS: D-Department of Buildings; B.BK.-Department of Buildings, Brooklyn; B.M.-Department of Buildings, Manhattan; B.Q.-Department of Buildings, Queens; B.S.I.-Department of Buildings, Staten Island; B.BX.-Department of Building, The Bronx; H.D.-Health Department; F.D.-Fire Department.

CALENDAR

**REGULAR MEETING
MARCH 5, 2019, 10:00 A.M.**

NOTICE IS HEREBY GIVEN of a public hearing, Tuesday morning, March 5, 2019, 10:00 A.M., at 22 Reade Street, Spector Hall, New York, N.Y. 10007, on the following matters:

SPECIAL ORDER CALENDAR

218-58-BZ

APPLICANT – Nasir J. Khanzada, for Norman Dawson, owner.

SUBJECT – Application September 20, 2018 – Extension of Term (11-411) of a previously approved variance which permitted the operation of an automotive service station (UG 16B) which expired on July 29, 2018; Amendment to permit the legalization of the addition of an accessory convenience store; Waiver of the Board’s Rules.

PREMISES AFFECTED – 77-40 Hewlett Street, Block 08555, Lot 60, Borough of Queens.

COMMUNITY BOARD #13Q

1016-86-BZ

APPLICANT – Law Office of Fredrick A. Becker, for Opera Owner Inc., c/o Halstead Management Co., LLC, lessee.

SUBJECT – Application November 16, 2018 – Extension of Term of a previously approved Special Permit (§73-36) which permitted the operation of a Physical Cultural Establishment (New York Sports Club) which expired on May 5, 2017; Amendment to permit a change in hours of operation and to reflect a new operator (Studio IX); Waiver of the Board’s Rules. C4-6A zoning district.

PREMISES AFFECTED – 2162-2166 Broadway, Block 1168, Lot 22, Borough of Manhattan.

COMMUNITY BOARD #7M

130-88-BZ

APPLICANT – Eric Palatnik, P.C., for Blue Hills Fuels, LLC, owner; PMG Northeast, LLC, lessee.

SUBJECT – Application September 25, 2018 – Extension of Term of a previously approved Special Permit (§73-211) which permitted the operation of an Automotive Service Station (UG 16B) which expires on January 29, 2019. C2-2/R4 zoning district.

PREMISES AFFECTED – 3602 Snyder Avenue, Block 4907, Lot 1, Borough of Brooklyn.

COMMUNITY BOARD #17BK

132-92-BZ

APPLICANT – Willy C. Yuin, R.A., for Daniel Cassella, owner.

SUBJECT – Application October 2, 2017 – Extension of Time to Obtain a Certificate of Occupancy of a previously approved variance (§72-21) which permitted day care use in the cellar of the subject premises in conjunction with a banquet hall use, which expired on February 9, 2017; Waiver of the Rules. R3X, CI-1 SRD zoning district.

PREMISES AFFECTED – 3948 Amboy Road, Block 5142, Lot 22, Borough of Staten Island.

COMMUNITY BOARD #3SI

149-97-BZ

APPLICANT – Francis R. Angelino, Esq., for Martin A. Gleason Funeral Home, LLC, owner.

SUBJECT – Application August 2, 2018 – Amendment of a previously approved Variance (§72-21) which permitted an accessory open parking lot (UG 7E) for use with a funeral establishment (UG 7B). The amendment seeks to reflect a reduction in the size of the zoning lot and number of parking spaces from 34 spaces to 29; Extension of Term which expired on August 11, 2018. R2A zoning district.

PREMISES AFFECTED – 150-19 11th Avenue, Block 4515, Lot 52, Borough of Queens.

COMMUNITY BOARD #7Q

271-09-BZ

APPLICANT – Akerman LLP, for Syracuse Fund II LLC, owner; Jamaica Fitness Group, LLC, lessee.

SUBJECT – Application November 30, 2018 – Extension of Term of a previously approved Special Permit (§73-36) which permitted the operation of a physical culture establishment (Planet Fitness) on the first, second, and third floors of an existing three-story building which is set to expire on January 17, 2019. C2-3 zoning district.

PREMISES AFFECTED – 132-40 Metropolitan Avenue, Block 9284, Lot 19, Borough of Queens.

COMMUNITY BOARD #9Q

CALENDAR

**REGULAR MEETING
MARCH 5, 2019, 1:00 P.M.**

NOTICE IS HEREBY GIVEN of a public hearing, Tuesday afternoon, March 5, 2019, 1:00 P.M., at 22 Reade Street, Spector Hall, New York, N.Y. 10007, on the following matters:

ZONING CALENDAR

2017-233-BZ

APPLICANT – Sheldon Lobel, P.C., for 446-448 Park Realty Corp., owner.

SUBJECT – Application August 8, 2017 – Variance (§72-21) to allow for the development of six-story plus cellar (UG 2) residential building contrary to ZR §42-10. M1-1 zoning district.

PREMISES AFFECTED – 446-448 Park Avenue, Block 1898, Lot(s) 37 & 38, Borough of Brooklyn.

COMMUNITY BOARD #3BK

2019-33-BZ

APPLICANT – NYC Mayor’s Office of Housing Recovery Operations, for Project Rebuild Inc., owner.

SUBJECT – Application February 15, 2019 – Special Permit (§64-92) to waive bulk requirements for the reconstruction of homes damaged/destroyed by Hurricane Sandy for a property registered in the NYC Build it Back Program. Waiver of minimum required front yard (ZR 23-45) side yard (ZR 23-461, ZR 23-48). R4 zoning district.

PREMISES AFFECTED – 423 Beach 43 Street, Block 15965, Lot 108, Borough of Queens.

COMMUNITY BOARD #14Q

Carlo Costanza, Executive Director

**SPECIAL HEARING
MARCH 7, 2019, 10:00 A.M.**

NOTICE IS HEREBY GIVEN of a public hearing, Thursday morning, March 7, 2019, 10:00 A.M., at 22 Reade Street, Spector Hall, New York, N.Y. 10007, on the following matters:

APPEALS CALENDAR

2018-166-A

APPLICANT – Queens Neighborhoods United/c/o Tania Mattos, for AA 304 GC LLC, owner.

SUBJECT – Application October 18, 2018 – Interpretative Appeal challenging the Department of Buildings permit issued for the development of a mixed-use building. Appeal of DOB permit that classifies the retail space occupied by Target as a UG 6 use.

PREMISES AFFECTED – 40-31 82nd Street aka 40-19 82nd Street, Block 1493, Lot 15, Borough of Queens.

COMMUNITY BOARD #4Q

Carlo Costanza, Executive Director

MINUTES

**REGULAR MEETING
TUESDAY MORNING, FEBRUARY 12, 2019
10:00 A.M.**

Present: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.

SPECIAL ORDER CALENDARS

103-70-BZ

APPLICANT – Herrick Feinstein LLP, for 203 East 74 LLC, owner.

SUBJECT – Application July 24, 2017 – Amendment of a previously variance to facilitate the transfer of unused development rights from the variance site for incorporation into a new as-of-right development. C1-9/R8B zoning district.

PREMISES AFFECTED – 203 East 74th Street, Block 1429, Lot 103, Borough of Manhattan.

COMMUNITY BOARD #8M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application to reopen and amend a variance, previously granted by the Board, which permitted the erection of a ten- (10) story multiple dwelling that does not comply with the zoning requirements for rear yards and lot line windows; and

WHEREAS, the purpose of this application is to facilitate the transfer of 6,503 square feet of unused commercial development rights appurtenant to the subject site by the owner of the site to the owner of a development site (tentatively comprised of Block 1429, Lots 3, 4 and 44, the “Development Site”) to be incorporated into a mixed-used commercial and residential building; and

WHEREAS, a public hearing was held on this application on January 29, 2019, after due notice by publication in *The City Record*, and then to decision on February 12, 2019; and

WHEREAS, Chair Perlmutter, Vice-Chair Chanda and Commissioner Scibetta performed inspections of the subject site and surrounding neighborhood; and

WHEREAS, Community Board 2, Manhattan, opposes this application on account of the height of the proposed development on the Development Site; and

WHEREAS, the Board was in receipt of 11 letters in support of, and 14 letters in opposition to, this application and

WHEREAS, this application is brought on behalf of 203 East 74 LLC, which owns the subject site and seeks the

Board’s authorization to merge the subject site with the Development Site; and

WHEREAS, the subject site is located on the north side of East 74th Street, between Third Avenue and Second Avenue, partially within a C1-9 zoning district and partially within an R8B zoning district, in Manhattan; and

WHEREAS, the site has approximately 39 feet of frontage, 62 feet of depth, 4,965 square feet of lot area and is occupied by a seven- (7) story plus cellar and two (2) mezzanine mixed-use residential and commercial building containing 18,474 square feet of floor area; and

WHEREAS, the Board has exercised jurisdiction over the subject site since September 22, 1970, when, under the subject calendar number, the Board granted a variance to permit, in a then C1-9 zoning district, the erection of a ten- (10) story multiple dwelling that encroached on the required rear yard and with windows that encroached on the minimum distance to a lot line, on condition that the work conform to plans filed with the application; all laws, rules and regulations applicable be complied with; and, substantial construction be completed within one (1) year, by September 22, 1971 (the “Variance”); and

WHEREAS, on the same date, under BSA Cal. No. 104-70-A, the Board granted an appeal, pursuant to Section 310 of the Multiple Dwelling Law, of the decision of the Department of Buildings on condition that the building substantially conform to plans filed with BSA Cal. No. 103-70-BZ; the resolution adopted by the Board under BSA Cal. No. 103-70-BZ be complied with; and, all laws, rules and regulations applicable be complied with; and

WHEREAS, on November 16, 1971, under the subject calendar number, the Board reopened and amended the resolution to extend the time to complete construction for one (1) year, by November 16, 1972; and

WHEREAS, on March 28, 1972, under the subject calendar number, the Board amended the variance, granted on September 22, 1970, as amended through November 16, 1971, to permit the building to be redesigned, rearranged and constructed substantially as shown on plans filed with the application, on condition that other than as amended the resolution be complied with in all respects; and

WHEREAS, the applicant additionally requests an amendment to reflect the existing building condition of seven (7) stories plus two (2) mezzanine levels, for a total of nine (9) stories, and 20 dwelling units; and

WHEREAS, the applicant states that the proposed transfer of development rights is consistent with the New York Court of Appeals’ decision in *Bella Vista v. Bennett*, 89 N.Y.2d 565 (1997), setting forth the parameters of Board review of requests for the transfer of development rights from sites for which a variance has been previously granted; and

WHEREAS, the applicant represents that the transfer of the unused development rights from the subject site is not in conflict with the Variance; and

WHEREAS, the applicant notes that the Board made all of the findings required pursuant to ZR § 72-21 in the Resolution for the Variance (the “Resolution”), but that the

MINUTES

Resolution is silent as to whether the Board assigned any value to the unused development rights at the subject site; and

WHEREAS, accordingly, the applicant states that it can be assumed that the Board ascribed no value to the unused development rights and, in support of that assumption, submits a letter from a financial consultant analyzing the value of the unused development rights appurtenant to the subject site in 1970 and 1971 and concluding that the rights, indeed, had no value at that time because (1) due to the existence of a residential building on Lot 5 that is non-compliant with regards to floor area and residential buildings located on Lots 1, 2 and 3 subject to rent stabilization, the parcels surrounding the Property were unlikely to have purchased the unused development rights from the Property at the time of the variance or amendment and (2) all adjacent lots that might have provided opportunities for the transfer of unused development rights were held in separate ownership from the subject site; and

WHEREAS, finally, the applicant notes that the mechanism for enabling the transfer of development rights through zoning lot mergers was only added to the Zoning Resolution in 1977, when economic conditions in New York City were severely distressed, and it was not until the early- to mid-1980s that the economic climate stabilized to the point of becoming conducive to new real estate development, including developments incorporating the transfer of unused development rights; and

WHEREAS, the applicant also provided a copy of the financial evaluation submitted into the Board's records with regards to the Variance (stamped "Received," December 18, 1970) and the Board notes that this evaluation did not, in fact, ascribe any value to unutilized floor area; and

WHEREAS, therefore, the applicant states that an amendment to the variance to facilitate the transfer of the unused development rights from the subject site to the Development Site does not undermine the integrity of the Board's earlier findings with regards to ZR §§ 72-21(b) or 72-21(e) because the facts of the instant application are readily distinguishable from those underlying the Court's holding in *Bella Vista*; and

WHEREAS, specifically, as stated above, the applicant submits that, at the time of the variance, the subject premises were held in separate and unrelated ownership from all other adjacent parcels on the subject block and that more than 45 years have elapsed since the grant of the Variance; and

WHEREAS, the Board notes that *Bella Vista* concerned a permit request for a new as-of-right residential building proposed to be built through the transfer of development rights—from a site in which the Board granted a use variance to permit the operation of a movie theater in a residential zoning district, to a separate adjacent site under common ownership—for the development of a complying residential building; and

WHEREAS, the Court held that review and approval of such transfers by the Board was required, *inter alia*, because the basis for the original grant, particularly with respect to the findings of financial hardship under ZR § 72-21(b) and

minimum variance needed to provide relief under ZR § 72-21(e), may be implicated by the proposed transfer; and

WHEREAS, the Board credits the applicant's assertions that, unlike in *Bella Vista*, the subject site and Development Site have been under separate, unrelated ownership since the Variance and that, therefore, the applicant lacked control over the timing and nature of the development of the Development Site; and

WHEREAS, the Board also notes that a brief period elapsed between the issuance of the variance underlying the *Bella Vista* decision and the date of the permit application in which the owner proposed to use the floor area transferred from the variance site, further distinguishing that case from the instant application; and

WHEREAS, the Board acknowledges that in *Bella Vista*, the permit application proposing to use floor area transferred from the variance site was filed only three years after the Board grant, whereas the subject Variance was issued more than 45 years ago; and

WHEREAS, the Board agrees that the differences in timing and the health of the respective real estate markets distinguish the *Bella Vista* case from the instance case and supports the conclusion that the use of the subject site's unused development rights was not foreseeable by the owner of the Development Site or the Board; and

WHEREAS, therefore, the Board finds that the proposed transfer of development rights does not implicate or affect the basis for its findings pursuant to ZR § 72-21, specifically the (b) and (e) findings, at the time that they were made; and

WHEREAS, with regards to a further amendment reflecting the as-built conditions of the building, the Board notes that the Variance permitted a ten- (10) story plus cellar building with a front wall height of 85 feet and that the existing condition plans provided by the applicant show a nine- (9) story plus cellar building with a front wall height of 81 feet and, thus, the building, as-built, is within the scope of the Variance and does not require additional relief with regards to rear yard depth or distance between windows and lot lines; and

WHEREAS, based upon its review of the record, the Board amends the variance to reflect the as-built condition of the site and does not object to the transfer of unused development rights from the subject site to the Development Site or to the proposed zoning lot merger with the conditions set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, adopted on September 22, 1970, as amended through March 28, 1972, so that as amended this portion of the resolution shall read: "to permit the merger of the subject site with contiguous parcels on Block 1429, in Manhattan, and the associated modifications to the BSA-approved site plan; and; *on condition* that all work, operations and site conditions shall conform to drawings filed with this application marked 'Received October 17, 2018'-One (1) sheet; and *on further condition*:

MINUTES

THAT the zoning calculations, including any transfer of development rights, shall be subject to DOB's review and approval and shall be in full compliance with underlying bulk regulations;

THAT the site shall remain subject to the Board's jurisdictions, including modifications to the buildings on the site;

THAT all conditions from the prior resolution not specifically waived by the Board shall remain in effect; and

THAT further changes to any site plan including the subject site may be subject to Board review and approval;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number ("BSA Cal. No. 103-70-BZ"), shall be obtained within one (1) year, by February 12, 2020;

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, February 12, 2019.

40-80-BZ

APPLICANT – Kramer Levin Naftalis & Frankel LLP, for 39 West 23rd Street, LLC, owner.

SUBJECT – Application October 25, 2018 – Amendment of a previously variance (§72-21) to facilitate the transfer of unused development rights from the variance site for incorporation into a new as-of-right development and approval of previously constructed rooftop additions totaling 754 square feet. M1-6 Ladies' Mile Historic District.

PREMISES AFFECTED – 35-41 West 23rd Street, 39-41 West 23rd Street, 20-22 West 24th Street, Block 825, Lot(s) 20, 60, 1001-1005, Borough of Manhattan.

COMMUNITY BOARD #5M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application to reopen and amend a variance, previously granted by the Board, which permitted, in a M1-6 zoning district, the conversion of all floors above the first floor from lofts into a multiple dwelling; and

WHEREAS, the purpose of this application is to reflect the as-built conditions of the site and facilitate the transfer of 19,765 square feet of development rights appurtenant to the subject site by the owner of the site to the owner of a development site (tentatively comprised of Block 825, Lots 20 and 60, the "Development Site") to be incorporated into a mixed-used commercial and residential building; and

WHEREAS, a public hearing was held on this application on January 29, 2019, after due notice by publication in *The City Record*, and then to decision on February 12, 2019; and

WHEREAS, Vice-Chair Chanda and Commissioner Scibetta performed inspections of the subject site and surrounding neighborhood; and

WHEREAS, Community Board 5, Manhattan, recommends approval of this application; and

WHEREAS, this application is brought on behalf of the 35 West 23rd Street Condominium Association, which owns the subject site and seeks the Board's authorization to merge the subject site with the Development Site; and

WHEREAS, the subject site is located on the north side of West 23rd Street, between Fifth Avenue and Avenue of the Americas, within an M1-6 zoning district and the Ladies' Mile Historic District, in Manhattan; and

WHEREAS, the site has approximately 45 feet of frontage, 99 feet of depth, 4,387 square feet of lot area and is occupied by a five- (5) story plus cellar and penthouse building containing 19,765 square feet of floor area; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 8, 1980, when, under the subject calendar number, the Board granted a variance to permit, in an existing five- (5) story building, the conversion of all floors above the first floor from lofts into a multiple dwelling, contrary to use regulations, on condition that all work substantially conform to drawings as they apply to the objection filed with the application; a smoke detector with a self-contained alarm be installed in each apartment; the existing sprinkler system be permanently retained and properly maintained; a manual fire alarm station, connected to an alarm that can be heard throughout the building, be installed on each floor; 25 percent of the roof area be allocated as tenant recreational space; all laws, rules and regulations applicable be complied with; and, substantial construction be completed within four (4) years, by July 8, 1984 (the "Variance"); and

WHEREAS, the applicant also seeks an amendment to the original variance to legalize the addition of a penthouse containing 754 square feet of floor area in excess of the Variance and prior enlargement of the zoning lot, which the applicant acknowledges should have been reviewed by the Board; and

WHEREAS, the applicant represents that the addition of 754 square feet does not alter the findings for the original 1980 variance; and

WHEREAS, the applicant additionally submits that a Declaration of Zoning Lot Restrictions, dated September 19, 2005, and recorded at CRFN 2006000018147, and a Zoning Lot Development and Easement Agreement, dated September 19, 2005, and recorded at CRFN 2006000018146 filed against the subject tax lot and adjacent tax lot 20, merging them into a single zoning lot to facilitate the transfer of approximately 24,000 square feet of excess development rights from the subject site to adjacent tax lot 20; and

WHEREAS, the applicant states that the proposed

MINUTES

transfer of development rights is and transfer of development rights in 2005 was consistent with the New York Court of Appeals' decision in *Bella Vista v. Bennett*, 89 N.Y.2d 565 (1997), setting forth the parameters of Board review of requests for the transfer of development rights from sites for which a variance has been previously granted; and

WHEREAS, the applicant represents that the transfer of the unused development rights from the subject site is not in conflict with the Variance; and

WHEREAS, the applicant notes that the Board made all of the findings required pursuant to ZR § 72-21 in the Resolution for the Variance (the "Resolution"), but that the Resolution is silent as to whether the Board assigned any value to the unused development rights at the subject site; and

WHEREAS, accordingly, the applicant assumes that the Board ascribed no value to the unused development rights and, in support of that assumption, submits a letter from a financial consultant analyzing the value of the unused development rights near the subject site in 1979 and concluding that the rights, indeed, had no value at that time because the building was not suited for a conforming use due to the lack of a permissible live floor load, lack of an elevator, and its narrowness; and

WHEREAS, finally, the applicant notes that the mechanism for enabling the transfer of development rights through zoning lot mergers was only added to the Zoning Resolution in 1977 and, at the time, economic conditions in New York City were severely distressed, thus, development rights transfers in 1980 were highly unlikely in the zoning district; and

WHEREAS, therefore, the applicant states that an amendment to the variance to facilitate the transfer of the unused development rights from the subject site to the Development Site does not undermine the integrity of the Board's earlier findings with regards to ZR §§ 72-21(b) or 72-21(e) because the facts of the instant application are readily distinguishable from those underlying the Court's holding in *Bella Vista*; and

WHEREAS, specifically, as stated above, the applicant submits that, at the time of the variance, the subject premises were held in separate and unrelated ownership from all other parcels on the subject block and that more than 35 years—25 years before the first merger and transfer of excess development rights in 2005—have elapsed since the grant of the Variance; and

WHEREAS, at hearing, the Board observed that the financials provided in association with the Variance revealed a surplus of vacant spaces in adjacent buildings and that such information served as additional proof that excess floor area at the subject site had little commercial value at the time of the Variance; and

WHEREAS, the Board notes that *Bella Vista* concerned a permit request for a new as-of-right residential building proposed to be built through the transfer of development rights—from a site in which the Board granted a use variance to permit the operation of a movie theater in a residential zoning district, to a separate adjacent site under common

ownership—for the development of a complying residential building; and

WHEREAS, the Court held that review and approval of such transfers by the Board was required, *inter alia*, because the basis for the original grant, particularly with respect to the findings of financial hardship under ZR § 72-21(b) and minimum variance needed to provide relief under ZR § 72-21(e), may be implicated by the proposed transfer; and

WHEREAS, the Board credits the applicant's assertions that, unlike in *Bella Vista*, the subject site and Development Site have been under separate, unrelated ownership since the Variance that that, therefore, the applicant lacked control over the timing and nature of the development of the Development Site; and

WHEREAS, the Board also notes that a brief period of time elapsed between the issuance of the variance underlying the *Bella Vista* decision and the date of the permit application in which the owner proposed to use the floor area transferred from the variance site, further distinguishing that case from the instant application; and

WHEREAS, the Board acknowledges that in *Bella Vista*, the permit application proposing to use floor area transferred from the variance site was filed only three years after the Board grant, whereas the subject Variance was issued more than 35 years ago; and

WHEREAS, the Board agrees that the differences in timing and the health of the respective real estate markets distinguish the *Bella Vista* case from the instance case and supports the conclusion that the use of the subject site's unused development rights was not foreseeable by the owner of the Development Site or the Board; and

WHEREAS, therefore, the Board finds that the proposed transfer of development rights does not implicate or affect the basis for its findings pursuant to ZR § 72-21, specifically the (b) and (e) findings, at the time that they were made; and

WHEREAS, at hearing, the Board requested that the applicant demonstrate compliance with the conditions of the prior Resolution, including the condition fire protection measures in the building and available tenant recreational space on the roof; and

WHEREAS, in response, the applicant submitted a sealed architect's letter attesting to compliance with all of the conditions; and

WHEREAS, on July 8, 1992, the Landmark's Preservation Commission ("LPC") issued a Certificate of No Effect (CNE 93-0053) to permit interior alterations at the fifth floor of the subject building and construction of a non-visible rooftop addition; and

WHEREAS, on April 28, 2000, LPC permitted amendments to the scope of work including the construction of a wood roof deck to surround the rooftop addition, and to update the plumbing specifications; and

WHEREAS, on October 23, 2013, LPC issued a Certificate of Appropriateness (COFA 15-0399) to permit, at 39-41 West 23rd Street (lot 20), the construction of a 23-story terra cotta, limestone and glass building with decorative metal balcony railings, with an 18-story street wall and a cantilever

MINUTES

over the lot to the east at the 14th floor, on West 23rd Street; construction of a 10-story limestone and glass building with glass balcony railings on West 24th Street; and ground floor storefronts and entrance canopies on both buildings; and

WHEREAS, on February 10, 2014, LPC issued a Certificate of No Effect (CNE 15-4052) to permit, at the subject site, the removal of a portion of the north and east walks of the existing non-visible rooftop penthouse, and enlargement of the penthouse by constructing a one- (1) story stucco-clad rooftop extension to the north and east penthouse walls with a pitched roof to match the height and profile of the existing penthouse roof; installation of four (4) new skylights, a new roof deck, and partially visible metal pipe railings with a black finish at the rooftop; and the demolition and construction of nonbearing partitions and finishes, as well as mechanical, plumbing, electrical, and HVAC work; and

WHEREAS, LPC notes that a permit for required restorative work at the subject building, CNE 15-5956, expired on April 2, 2018, and no Notice of Compliance was issued for restorative work and no extension was granted; and

WHEREAS, accordingly, in consideration of LPC's jurisdiction over the subject site, the Board conditions this approval on the completion of restorative work permitted pursuant to CNE 15-5956 and any restrictive declaration entered into with LPC related thereto prior to the issuance of any certificate of occupancy, including temporary certificate of occupancy, to the subject building; and

WHEREAS, based upon its review of the record, the Board does not object to the amendment to legalize the construction of the penthouse addition and the transfer of unused development rights from the subject site to the Development Site or to the proposed zoning lot merger, but notes that any further changes to the subject site that are inconsistent with this or prior approvals are subject to the Board's review and approval.

Therefore, it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, adopted on June 8, 1980, so that as amended this portion of the resolution shall read: to legalize the construction of a 754 square foot penthouse and to permit the merger of the subject site with contiguous parcels on Block 825, in Manhattan, and the associated modifications to the BSA approved site plan; *on condition* that all work shall substantially conform to drawings as they apply to the objection above-noted, filed with this application and marked Received "January 29, 2019"-Seven (7) sheets; and *on further condition*:

THAT all building restoration work permitted by the New York City Landmarks Preservation Commission ("LPC") pursuant to Certificate of No Effect 15-5956 and any restrictive declaration entered into with LPC related thereto shall be completed prior to the issuance of any certificate of occupancy, including temporary certificate of occupancy, to the subject building;

THAT the zoning calculations, including any transfer of development rights, shall be subject to DOB's review and approval and shall be in full compliance with underlying bulk regulations;

THAT the site shall remain subject to the Board's jurisdictions, including modifications to the buildings on the site;

THAT a smoke detector with a self-contained alarm be installed in each apartment;

THAT the existing sprinkler system be permanently retained and properly maintained;

THAT a manual fire alarm station, connected to an alarm that can be heard throughout the building, be installed on each floor;

THAT 25 percent of the roof area be allocated as tenant recreational space;

THAT all conditions from the prior resolution not specifically waived by the Board shall remain in effect;

THAT the above conditions appear on the certificate of occupancy;

THAT a new certificate of occupancy, also indicating this approval and calendar number ("BSA Cal. No. 40-80-BZ") be obtained within one (1) year, by February 12, 2020; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, February 12, 2019.

THE RESOLUTION –

WHEREAS, the decision of the Bronx Borough Commissioner, dated March 12, 2018, acting on Department of Buildings (“DOB”) Application No. 220593098, reads in pertinent part:

Proposed gas station in C2-2/R6 zoning district is not permitted as-of-right pursuant to ZR 32-10 & 32-31 and requires a special permit [] to 73[-]211; and

WHEREAS, this is an application for a special permit pursuant to ZR §§ 73-211 and 73-03 to permit the reconstruction of an automotive service station, previously constructed pursuant to a variance granted by the Board, with an accessory convenience store (Use Group 16B) on a site located in an R6 (C2-2) zoning district; and

WHEREAS, a public hearing was held on this application on November 20, 2018, after due notice by publication in *The City Record*, with a continued hearing on February 12, 2019, and then to decision on that same date; and

WHEREAS, Community Board 8, the Bronx, recommends approval of this application; and

WHEREAS, the Board was in receipt of one (1) form letter in support of this application; and

WHEREAS, Chair Perlmutter, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the southwest corner of Broadway and West 251st Street, in an R6 (C2-2) zoning district, in the Bronx; and

WHEREAS, the site has approximately 175 feet of frontage along Broadway, 75 feet of frontage along West

251st Street, 13,975 square feet of lot area and is occupied by a one- (1) story building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since November 9, 1954, when, under BSA Cal. No. 790-53-BZ, the Board granted a variance to permit the reconstruction and extension of the lawfully existing gasoline service station, substantially as proposed and as indicated on plans filed with the application, on condition that all building and uses be removed from the premises and the premises be reconstructed and rearranged as indicated on such plans, except that all pumps be located no nearer than 15 feet to the street building line, and be parallel to the building line, and not at an angle; the accessory building be located substantially as shown on plans, and comply in all other respects with the requirements of the building code, and be constructed of face brick on all exterior sides; there be no cellar under such building; on the lot line to the west there be erected a masonry wall of a height of not less than 5’-6”; a similar wall be erected where walls of adjoining buildings do not occur on the south and north lot lines, except that on the north lot line it may extend for a distance of approximately 40 feet from the rear line; the premises be levelled substantially to the grade of Broadway and be paved with concrete or asphaltic pavement and properly rolled; the number of gasoline storage tanks not exceed ten (10) 550-gallon tanks; the existing 1000-gallon gasoline storage tank be removed or sealed against any use; curb cuts be restricted to three (3) curb cuts, each 35 feet in width to Broadway, located where shown, and one (1) curb cut to West 251st Street within 25 feet of the Broadway building line as shown; signs be restricted to a permanent sign attached to the façade of the accessory building and to the illuminated globes of the pumps, excluding all roof signs and all temporary signs but permitting the erection within the building line of one (1) post standard near the intersection of 251st Street for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale, permitting such sign to extend beyond the building line for a distance of not more than four (4) feet; such portable firefighting appliances be maintained as the Fire Commissioner directs; under Section 7c there may also be parking and storage of motor vehicles awaiting service and other motor vehicles of the pleasure type only; under Section 7i there may be minor repairing with hand tools only maintained solely within the accessory building; all permits be obtained and all work completed within one (1) year, by November 9, 1955; and, that a new certificate of occupancy be obtained; and

WHEREAS, on October 18, 1955, under BSA Cal. No. 790-53-BZ, the Board amended the variance to extend the time to obtain permits and complete the work for one (1) year, expiring on October 18, 1956; and

WHEREAS, on September 25, 1956, under BSA Cal. No. 790-53-BZ, the Board amended the variance and extended the time to obtain permits and complete the work for one (1) year, expiring on September 25, 1957; and

WHEREAS, on April 23, 1991, under BSA Cal. No.

MINUTES

790-53-BZ, the Board reopened and amended the resolution, adopted November 9, 1954, as amended through September 25, 1956, to permit changes to the design and arrangement of the existing automotive service station, and to change the existing multiple product dispenser (“MPD”) pumps to self-serve pumps; to install a fire suppression system, mounted on each light standard; to alter the existing sales and office area of the accessory building to accommodate an attendant’s booth and to legalize the removal of a portion of the westerly lot line fence in order to legalize the increase of the gasoline station area within the same lot for parking of cars, substantially as shown on revised drawings of proposed conditions, on condition that there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic; and substantial construction be completed within one (1) year, by April 21, 1992, and that other than as amended the resolution be complied with in all respects; and

WHEREAS, on December 2, 1992, under BSA Cal. No. 790-53-BZ, the Board reopened and amended the resolution, as amended through April 23, 1991, to permit the relocation of the two (2) existing concrete pump islands and the installation of an additional concrete pump island with self-service pumps to permit also the erection of a new metal canopy over pump islands on condition that there be no outdoor repair work on the site; the fences be adequately maintained and repaired when necessary; the premises be kept graffiti free; the entire site be in substantial compliance with proposed conditions; other than as amended the resolution be complied with in all respects; and, substantial construction be completed within one (1) year, by December 2, 1993; and

WHEREAS, on February 22, 1995, under BSA Cal. No. 790-53-BZ, the Board waived its Rules of Procedure, reopened and amended the resolution to extend the time to complete substantial construction for 27 months from December 2, 1993, by March 2, 1996; and

WHEREAS, the applicant proposes to reconstruct an automotive service station with six (6) gasoline pumps and lubritorium with minor auto repairs, nine (9) accessory off-street parking spaces, and maintain the existing building, utilizing 213 square feet of sales area for automotive accessories with additional spaces for two bathrooms, utility storage, attendant area and lubritorium with minor auto repairs-hand tools only; and

WHEREAS, ZR § 73-211 reads as follows:

In any C2, C4, C6 or C7 District whose longer dimension is 375 feet or more (exclusive of land in *streets*¹), the Board of Standards and Appeals may permit *automotive service stations*, provided that the following findings are made:

- (a) that the site for such *use* has a minimum area of 7,500 square feet; and
- (b) that the site for any such *use* which is not

located on an arterial highway or a major *street* has a maximum area of 15,000 square feet.

The Board shall prescribe the following conditions:

- (1) that any facilities for lubrication, minor repairs or washing are located within a *completely enclosed building*;
- (2) that the site is so designed as to provide reservoir space for five waiting automobiles within the *zoning lot* in addition to spaces available within an enclosed lubritorium or at the pumps;
- (3) that entrances and exits are so planned that, at maximum expected operation, vehicular movement into or from the *automotive service station* will cause a minimum of obstruction on *streets* or sidewalks;
- (4) that, along any *rear lot line* or *side lot line* adjoining a *Residence District*, the *zoning lot* is screened, as the Board may prescribe, by either of the following methods:
 - (a) a strip at least four feet wide, densely planted with shrubs or trees at least four feet high at the time of planting and which are of a type which may be expected to form a year-round dense screen at least six feet high within three years; or
 - (b) a wall or barrier or uniformly painted fence of fire-resistant material at least six feet high, but not more than eight feet above finished grade. Such wall, barrier, or fence may be opaque or perforated, provided that not more than 50 percent of its face is open; and
- (5) that *signs*, other than *advertising signs*, shall be subject to the applicable district *sign* regulations, provided that:
 - (a) in C2 Districts, the provisions of Sections 32-642 (Non-illuminated signs) and 32-643 (Illuminated non-flashing signs) shall be modified to permit *non-illuminated* or *illuminated non-flashing signs* with a total *surface area* not exceeding 150 square feet on any *zoning lot*; and
 - (b) the provisions set forth in Section 32-652 (Permitted projection in all other Commercial Districts) may be modified in accordance with the provisions of Section 73-212 (Projection of accessory signs).

The Board may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area, and to protect *residential zoning lots* which are

¹ Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

adjoining or across the *street*.

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, the Board confirms that the subject site is located in an R6 (C2-2) zoning district that has a longer dimension of at least 375 feet; that the subject site has a minimum of 7,500 square feet of lot area; that the site is located on a major street and, with 13,975 square feet of lot area, has an area of less than 15,000 square feet; and

WHEREAS, with regards to the conditions the Board is required to prescribe pursuant to ZR § 73-211, the applicant represents that the proposed automotive service station will have facilities for lubrication, minor repairs or washing of automobiles located within a completely enclosed building and that the site is proposed to provide public parking spaces for a total of nine (9) motor vehicles, including vehicles awaiting service, in addition to those spaces available at the pumps; and

WHEREAS, the Board notes that, pursuant to ZR 32-17, public parking lots with a capacity of 150 spaces or less (Use Group 8C) are permitted at the subject site as-of-right; and

WHEREAS, in reference to vehicular movement on the site, the applicant submits that the entrances and exits have been planned so that at maximum operation, vehicular movement into or from the site will cause minimum obstruction on the surrounding streets or sidewalks, and vehicles will enter and exit the lubrication for repairs through the two existing overhead doors facing Broadway; and

WHEREAS, the applicant proposes the installation of green vinyl slats on the existing six- (6) foot high chain link fence on a 12" concrete wall located along the western property line to be 50% opaque, as well as landscaping along the southern, western and eastern property lines with 42 two- (2) foot tall Chinese junipers, 27 six- (6) to eight- (8) foot tall emerald arborvitae, and 33 18"-24"-tall everlow hollies; and

WHEREAS, the applicant also proposes to provide five (5) illuminated signs, ranging in size from 13.1 square feet to 24 square feet, totaling 75.3 square feet, and one (1) non-illuminated sign, 71 square feet in size, none of which will face the adjoining Residence District and none of which will project over the property line; and

WHEREAS, the Board finds that the applicant has submitted substantial evidence that the findings set forth in ZR § 73-211 have been met; and

WHEREAS, the applicant states that there are no proposed or existing capital projects along the subject site; and

WHEREAS, the Board finds that the subject proposal will not interfere with a pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguard imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is

outweighed by the advantages to be derived by the community; and

WHEREAS, by letter dated November 17, 2018, the Fire Department stated that it has no objection to this application; that, if the Board grants a special permit for this application, units in the Bureau of Fire Prevention will be notified and copies of the Board's resolution and plans will be provided to the Bulk Fuel Safety Unit ("BFSU"), the unit responsible for the inspection of the automotive service station; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-211 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Environmental Assessment Statement ("EAS") Short Form, CEQR No. 18BSA026X, dated July 6, 2018; and

WHEREAS, the EAS documents that the proposed alteration of a former automotive service station with new storage tanks, pump islands, canopy and site improvements will not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; and Construction; and

WHEREAS, the Board has determined that the operation of the automotive service station at the premises will not have a significant adverse impact on the environment.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-211 and 73-03 to permit, in an R6 (C2-2) zoning district, the reconstruction of an automotive service station with an accessory convenience store (Use Group 16); *on condition* that all work shall substantially conform to drawings filed with this application marked "Received February 12, 2019" Nine (9) sheets; and *on further condition*:

THAT there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic;

THAT the fences shall be adequately maintained and repaired when necessary;

THAT the premises shall be kept graffiti free at all times;

THAT facilities for lubrication, minor repairs or

MINUTES

washing shall be located within a completely enclosed building;

THAT the site is designed as to provide reservoir space for five waiting automobiles within the subject zoning lot in addition to spaces available within an enclosed lubricatorium at the pumps, as illustrated in the BSA-approved plans;

THAT entrances and exits are so planned that, at maximum expected operation, vehicular movement into or from the automotive service station will cause a minimum obstruction on streets or sidewalks, as illustrated on the BSA-approved plans;

THAT the subject zoning lot is screened along any rear lot line or side lot line adjoining a residence district, as illustrated on the BSA-approved plans;

THAT landscaping, as shown on the BSA-approved plans, shall be maintained in first-rate condition and replaced as needed;

THAT all signage shall comply with C2-2 zoning district regulations and be limited to that indicated on the BSA-approved plans;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number ("BSA Cal. No. 2017-258-BZ"), be obtained within four (4) years, by February 12, 2023;

THAT substantial construction shall be completed in accordance with ZR § 73-70, by February 12, 2023;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 12, 2019.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated October 3, 2017, acting on Department of Buildings ("DOB") Application No. 321186337, reads in pertinent part:

1. ZR 23-141 The proposed plans are contrary to the Zoning Resolution 23-141 in that the proposed floor area ratio (FAR) exceeds the permitted 50%;
2. ZR 23-141 The proposed plans are contrary to the Zoning Resolution 23-141 in that the open space ratio (OSR) is less than 150%;

[. . .]

4. ZR 23-47 Plans are contrary to the Zoning Resolution 23-47 in that the proposed rear yard is less than 30'-0"; and

WHEREAS, this is an application under ZR § 73-622 to permit, in an R2 zoning district, the conversion, merger and enlargement of two (2) semi-detached single-family dwellings into one (1) single-family dwelling¹ that does not comply with the zoning requirements for floor area ratio ("FAR"), open space ratio and rear yards contrary to ZR §§ 23-141 and 23-47; and

WHEREAS, a public hearing was held on this application on May 1, 2018, after due notice by publication in *The City Record*, with continued hearings on August 14, 2018, November 8, 2018, and February 12, 2019, and then to decision on that same date; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the Board was in receipt of six (6) form letters in support of this application; and

WHEREAS, the subject site is located on the east side of East 26th Street, between Avenue M and Avenue N, in an R2 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 60 feet of frontage, 100 feet of depth, 6,000 square feet of lot area, and is occupied by two (2) two- (2) story plus cellar single-family semi-detached dwellings together containing 3,055 square feet of floor area (0.51 FAR), an open space ratio of 1.37 (4,193

¹ This application was originally filed for the enlargement of the single-family dwelling located on lot 17 with a separate application filed for the enlargement of the single-family dwelling located on lot 19 under BSA Cal. No. 2017-292-BZ. That application was subsequently withdrawn, the two (2) tax lots merged on the New York City Department of Finance Digital Tax Map and the subject application amended to include both dwellings.

MINUTES

square feet of open space), a front yard with a depth of 17'-9", a rear yard with a depth of 31'-7", two (2) side yards with widths of 7'-11" and 8'-0", and two (2) detached sheds in the rear; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement*¹ of an existing *single- or two-family detached or semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage, open space, floor area, side yard, rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged*

building is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that this application located within an area in which the special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge semi-detached single-family residences, as contemplated by ZR § 73-622; and

WHEREAS, the applicant proposes to combine the semi-detached dwellings, convert them to one (1) single-family dwelling and enlarge the dwelling both vertically and horizontally, resulting in one (1) three- (3) story plus cellar detached single-family dwelling containing 6,000 square feet of floor area (1.0 FAR), an open space ratio of 0.6 (3,660 square feet of open space), a front yard with a depth of 17'-9", a rear yard with a depth of 27'-3", two (2) side yards with widths of 7'-11" and 8'-0", and maintaining one (1) detached shed in the rear; and; and

WHEREAS, specifically, the applicant states that the proposed enlargement would increase the floor area on the first floor from 1,807 square feet to 2,340 square feet, the second floor from 1,248 square feet to 2,418 square feet, and create a third floor with 1,242 square feet of floor area; and

WHEREAS, at the subject site, a maximum FAR of 0.50 is permitted, a minimum open space ratio of 1.50 is required, and a rear yard with a minimum depth of 30 feet is required pursuant to ZR §§ 23-141 and 23-47; and

WHEREAS, the applicant provided an analysis of single- or two-family dwellings located within 400 feet of the subject premises and within an R2 zoning district (the "Study Area") concluding that, of the 111 qualifying residences, 90 residences (81 percent) have an FAR of greater than 0.5, ranging from 0.51 to 1.29, and 15 residences (14 percent) have an FAR of 1.00 or greater; and

WHEREAS, the applicant provided an analysis of rear yard conditions on the subject block, demonstrating that, of

¹ Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

the 38 other single- or two- (2) family dwellings for which dimensions were provided, 18 lots (47 percent) have rear yards with a depth of less than 30 feet, with rear yards ranging in depth from 11 feet to 29'-9", including the lot located at the rear and adjacent to the subject site, which has a rear yard depth of 20 feet; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as converted and enlarged will not alter the essential character of the neighborhood or district in which it is located, nor impair the future use or development of the surrounding area; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18-BSA-051K, dated May 11, 2017; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622 to permit, in an R2 zoning district, the conversion, merger and enlargement of two (2) one- (1) family semi-detached dwellings into one (1) single-family detached dwelling, that does not comply with the zoning requirements with regards to floor area ratio, open space ratio and rear yards, contrary to ZR §§ 23-141 and 23-47; *on condition* that all work shall substantially conform to drawings as they apply to the objection above-noted, filed with this application and marked Received "February 12, 2019"—Thirteen (13) sheets; and *on further condition:*

THAT the following shall be the bulk parameters of the building: a maximum floor area ratio of 1.0 (6,000 square feet of floor area), a minimum open space ratio of 0.6 (3,660 square feet of open space), and a rear yard with a minimum depth of 27'-3" at all stories;

THAT the removal of exterior walls and/or joists in excess of those indicated on the BSA-approved plans is prohibited and shall void the special permit;

THAT substantial construction shall be completed pursuant to ZR § 73-70;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this

approval and calendar number ("BSA Cal. No. 2017-291-BZ") shall be obtained within four (4) years, by February 12, 2023;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 12, 2019.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated March 23, 2018, acting on New Building Application No. 421411860, reads in pertinent part:

1. Proposed minimum lot area and lot width is contrary to ZR 23-32.
2. Proposed front yard is contrary to ZR 23-45.
3. Proposed side yard is contrary to ZR 23-461(a).
4. Proposed setback distance and sky exposure plane is contrary to ZR 23-631(d); and

WHEREAS, this is an application under ZR § 72-21 to permit, in an R5 zoning district, the development of a three-story, with cellar, single-family residence that does not comply with applicable zoning regulations for lot area, lot width, front yards, side yards, setback distance and sky exposure plane, contrary to ZR §§ 23-32, 23-45, 23-461 and 23-631; and

WHEREAS, a public hearing was held on this application on November 8, 2018, after due notice by publication in *The City Record*, with a continued hearing on January 8, 2019, and then to decision on February 12, 2019; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 14, Queens, recommends approval of this application; and

WHEREAS, residents of the surrounding area submitted testimony in support of and in opposition to this application, citing concerns with the neighborhood character, the potential loss of light and air to adjacent residences and the lack of dollars and cents proof regarding the possibility of realizing a reasonable return; and

WHEREAS, the subject site is located on the southwest corner of Plainview Avenue and Beach 11 Street, in an R5 zoning district, in Queens; and

WHEREAS, the subject site has approximately 28 feet of frontage along Plainview Avenue, 48 feet of frontage along Beach 11 Street, 1,346 square feet of lot area and is vacant; and

WHEREAS, the applicant proposes to develop a three-story, with cellar, single-family residence with front yard depths of 10’-0” along Plainview Avenue and 4’-4” along Beach 11 Street, side yard depths of 4’-0” to the west and 8’-0” to the south, no setback and a sky exposure plane of 40 degrees to the horizontal; and

WHEREAS, the applicant states that, at the subject site, front yards must have minimum depths of 10 feet under ZR § 23-45, one side yard must have a minimum depth of 20 feet under ZR § 23-461 and, above a 30-foot street wall, there must be a setback with a depth of 15 feet with no obstruction permitted through the sky exposure plane of 20 degrees to the horizontal under ZR § 23-631; and

WHEREAS, the applicant states that the subject site is a small lot, situated at the corner of two streets, that is vacant and owned singly and separately from adjacent properties, which constitute unique physical conditions that create practical difficulties or unnecessary hardship in complying with applicable zoning regulations; and

WHEREAS, the applicant submits that strictly complying with applicable bulk regulations would result in a single-family residence with a footprint of 17’-6” by 13’-4”, which would only allow for an uninhabitable bedroom of 6’-4” by 9’-10”; and

WHEREAS, with respect to uniqueness, the applicant surveyed the surrounding area, finding that there are approximately eight lots smaller than the subject site, none of which are situated at a street corner or similarly burdened by applicable zoning regulations; and

WHEREAS, the Board finds that the above unique physical conditions create practical difficulties or unnecessary hardship in complying strictly with applicable zoning regulations that are not created by general circumstances in the neighborhood or district; and

WHEREAS, the applicant notes that, because the applicant proposes a to develop a habitable single-family residence, the Board need not find that, because of the above unique physical conditions, there is no reasonable possibility that strict conformity with applicable zoning regulations would bring a reasonable return; and

WHEREAS, the applicant submits that the proposed development is consistent with the character of the surrounding area and will not substantially impair the appropriate use or development of adjacent properties; and

WHEREAS, in support of this contention, the applicant studied the character of the surrounding area, determining that the other similarly small lots in the vicinity are occupied by one- and two-family residences and that most properties have at least one side yard with a depth of 0 feet; and

WHEREAS, additionally, in response to community concerns, the applicant submitted a height study, a Floor Area Ratio Study and a photographic streetscape montage indicating that the proposed development is consistent with the built form of the surrounding area and would not adversely affect the use or development of surrounding properties; and

WHEREAS, with respect to the height of the building, the applicant also submits that the proposed residence will comply with flood regulations, including Article 6, Chapter 4, of the Zoning Resolution and Appendix G of the New York City Building Code, as applicable, as reviewed and approved by DOB, which results in a taller building form; and

WHEREAS, at hearing, with respect to community concerns, the Board further noted that the distance of approximately 20 feet of the proposed development from adjacent residences is greater than the minimum distance required by the Zoning Resolution, further indicating that this application is a modest proposal; and

MINUTES

WHEREAS, the Board finds that the proposed variance will not alter the essential character of the neighborhood or district in which the subject site is located; will not substantially impair the appropriate use or development of adjacent property; and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the above practical difficulties or unnecessary hardship do not constitute a self-created hardship; and

WHEREAS, in particular, the applicant submits that the subject site constitutes a single and separate zoning lot from adjacent properties; that, after foreclosure in 1977, the City transferred title to a separate owner from adjacent Tax Lot 7; that the subject site has never been in common ownership with Tax Lot 9; that the subject site has maintained its configuration with respect to the lot depth and width since at least 1959; and

WHEREAS, the Board finds that the above practical difficulties or unnecessary hardship have not been created by the owner or by a predecessor in title; and

WHEREAS, the applicant states that the proposed variance is the minimum necessary to allow a productive use of the site, as reflected in the proposed drawings; and

WHEREAS, the applicant also provided drawings indicating that, for a development without the variance of setback and sky exposure plane, the attic would be uninhabitable because of a 5'-10" room dimension; and

WHEREAS, at hearing, in response to community concerns, the Board further noted that the proposed development does not request additional floor area and is not proposing two dwelling units, which could result in a larger minimally habitable residence, thereby demonstrating that the proposed development is a modest proposal; and

WHEREAS, the Board finds that the proposed variance is the minimum necessary to afford relief within the intent and purposes of the Zoning Resolution; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18-BSA-121Q, dated July 16, 2018; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR § 72-21 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR § 72-21 to *permit*, in an R5 zoning district, the development of a three-story single-family residence that does not comply with applicable zoning regulations for lot area, lot width, front yards, side yards, setback distance and sky exposure plane, contrary to ZR §§ 23-32, 23-45, 23-461 and 23-631; *on condition* that all work, operations and site conditions shall conform to

drawings filed with this application marked "Received January 24, 2019"- Fourteen (14) sheets; and *on further condition:*

THAT bulk parameters of the building shall be as follows: front yard depths of 10'-0" along Plainview Avenue and 4'-4" along Beach 11 Street, side yard depths of 4'-0" to the west and 8'-0" to the south, no setback and a sky exposure plane of 40 degrees to the horizontal, as illustrated on the Board-approved drawings;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number ("BSA Cal No 2018-51-BZ"), shall be obtained within four (4) years, by February 12, 2023;

THAT flood regulations, including Article 6, Chapter 4, of the Zoning Resolution and Appendix G of the New York City Building Code, as applicable, shall be complied with as reviewed and approved by the Department of Buildings;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 12, 2019.

THE RESOLUTION –

WHEREAS, the decision of the Deputy Borough Commissioner, dated September 21, 2018, acting on Department of Buildings (“DOB”) Application No.

123198066, reads in pertinent part:

Proposed ‘Physical Culture Establishment’ is not permitted As-Of-Right as per section ZR 32-10 and is referred to the Board of Standards and Appeals for a special permit under ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site located within a C6-2A zoning district and in the Special Tribeca Mixed Use District and Tribeca West Historic District, a physical culture establishment (“PCE”) on the first floor of an existing 12-story plus cellar mixed-use residential and commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on February 12, 2019, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the subject site and surrounding neighborhood; and

WHEREAS, Community Board 1, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the southwest corner of Hudson Street and Duane Street, in a C6-2A zoning district and in the Special Tribeca Mixed Use District and Tribeca West Historic District, in Manhattan; and

WHEREAS, the site has approximately 122 feet of frontage along Hudson Street, 45 feet of frontage along Duane Street, 126 feet of depth, 8,983 square feet of lot area and is occupied by a 12-story plus cellar mixed-use residential and commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use1* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant represents that the subject PCE occupies 3,750 square feet of floor area on the first floor with two (2) yoga studios, men's and women's changing areas with bathrooms and showers, a reception and lobby area, and electrical, mechanical and utility spaces; and

WHEREAS, the PCE has operated since October 2018, as "CorePower Yoga," operating daily from 5:30 a.m. to 10:00 p.m.; and

WHEREAS, the applicant states that sound attenuation measures have been installed in the partitions, ceilings and flooring of the PCE space to mitigate any potential disturbance to nearby occupancies; specifically, the applicant represents that the partitions of the yoga studios are constructed with two (2) layers of 5/8" sheetrock and 4" sound attenuated batt insulation to provide a rating of STC 60; 4" isolated flooring in the studios to provide a rating of STC 64; all penetrations through the studio ceilings and partitions are sealed with acoustical sealant; and, the studio ceilings utilize isolated hangers to provide a rating of STC 69; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because it is located entirely in an existing mixed-use building, and it is not anticipated to draw significant additional traffic to the neighborhood; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant submits that the PCE contains facilities for classes, instruction and programs for the provision of physical improvement; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood because the PCE is located in an area characterized by residential and commercial uses, already heavily trafficked by local residents and retail customers, and most patrons to the PCE walk or use mass transit; and

WHEREAS, the applicant states that the PCE is protected with a wet sprinkler system and an approved fire alarm system—including smoke detectors, manual pull stations, local audible and visual alarms and a connection to an FDNY-approved central station; and

WHEREAS, by letter dated January 31, 2019, the Fire Department stated that it has no objection to the application and confirmed that the fire alarm and fire suppression (combination standpipe and sprinkler) systems were inspected and tested satisfactory to the Department standards; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant submits that the New York City Landmarks Preservation Commission, pursuant to Certificate of No Effect (CNE-19-21025) dated February 6,

MINUTES

2018, permitted the replacement of three (3) single-light transoms with green painted (Benjamin Moore “Dollar Bill Green”) louvers at the ground floor storefront at the north (Duane Street) façade; the installation of a through-wall louver at the ground floor of the west (rear) courtyard façade; and, interior alterations at the ground floor, including the demolition and construction of nonbearing partitions and finishes, as well as mechanical, plumbing, electrical and sprinkler work; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 19-BSA-049M, dated October 22, 2018; and

WHEREAS, the term of the grant has been reduced to reflect the period the PCE operated without approval from the Board;

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, legalizing the PCE space on the first floor, is appropriate, with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to legalize, on a site located within a C6-2A zoning district and in the Special Tribeca Mixed Use District and the Tribeca West Historic District, the operation of a physical culture establishment on the first floor of an existing 12-story plus cellar mixed-use residential and commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received October 22, 2018”- Five (5) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on October 1, 2028;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 will be as reviewed and approved by DOB;

THAT an approved fire alarm system and sprinkler shall be maintained as indicated on the Board-approved plans;

THAT minimum 3 foot wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also referencing this approval and calendar number (“BSA Cal. No. 2018-165-BZ”), shall be obtained within one (1) year, by February 12,

2020;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 12, 2019.

43-11-BZ

APPLICANT – Law Office of Lyra J. Altman, for Lorraine Waknin and David Waknin, owners.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Hinkson, Commissioner Ottley-Brown, Commissioner Montanez and Commissioner Chanda.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated June 10, 2013, acting on DOB Application No. 220244135, reads:

Proposed reduction in accessory parking in use group 6, category B1, is contrary to ZR Section 36-21 and therefore requires a special permit from the NYC BSA Pursuant to ZR Section 73-44; and

WHEREAS, this is an application under ZR §§ 73-44 and 73-03, to permit, on a site located partially within an R6A (C2-2) zoning district and partially within an R5 zoning district, the reduction in the required number of accessory parking spaces for a Use Group (“UG”) 6 office space from 190 spaces to 95 spaces, contrary to ZR § 36-21; and

WHEREAS, a public hearing was held on this application on January 28, 2014, after due notice by publication in the City Record, with continued hearings on March 11, 2014, May 20, 2014, August 19, 2014, October 7, 2014, November 18, 2014, July 21, 2015, and December 8, 2015, and then to decision on January 22, 2016; and

WHEREAS, Vice Chair Hinkson, Commissioner Ottley-Brown, Commissioner Montanez and Commissioner Chanda performed inspections of the site and the surrounding neighborhood; and

WHEREAS, Community Board 12, the Bronx, recommends approval of the instant application; and

WHEREAS, the subject site is a corner lot located on

the east side of White Plains Road between East 242nd Street and Penfield Street, with approximately 245 feet of frontage along East 242nd Street, 199 feet of frontage along White Plains Road and 215 feet of frontage along Penfield Street, partially within an R6A (C2-2) zoning district and partially within an R5 zoning district, in the Bronx; and

WHEREAS, the site has approximately 46,029 sq. ft. of lot area and is improved with a three-story plus cellar building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 15, 1923 when, under BSA Calendar Number 317-23-BZ (the “1923 Resolution”), the Board granted a special permit to allow the erection and maintenance of a garage for the storage of more than five motor vehicles; and

WHEREAS, the 1923 Resolution identifies the premises as one “partly in a business district and partly in a residence district” and acknowledges that the office use on the second floor of the proposed building would “extend approximately 30 ft. into the residence district”; and

WHEREAS, on October 27, 1970, under BSA Calendar Number 376-70-BZ (the “1970 Resolution”), the Board granted a special permit to allow the enlargement of the second floor and a new third floor for the existing building that exceeded the permitted floor area ratio and penetrated the sky exposure plane; and

WHEREAS, the applicant represents that the plans approved in association with the 1970 Resolution show parking spaces on the portion of the zoning lot within a residential district and, further, that the description of the lot in the 1923 Resolution in the 1970 Resolution matches the description of the current zoning lot, thus demonstrating that the current lot is the same lot over which the Board exercised jurisdiction in both the 1923 Resolution and the 1970 Resolution and that the Board has previously exercised its jurisdiction over the portion of the lot located in a residential district; and

WHEREAS, the applicant proposes to alter the interior of the existing building to provide approximately 57,043 sq. ft. of floor area for UG 6 office space on the first, second and third floors, and 11,627 sq. ft. of floor area for UG 6 retail space on the ground floor, for a total of approximately 68,670 sq. ft. of floor area; and

WHEREAS, the 11,627 sq. ft. of UG 6 retail space is not the subject of this application and the applicant proposes to provide the 39 accessory parking spaces required for that use pursuant to ZR § 36-21; and

WHEREAS, the applicant seeks a reduction in the required number of parking spaces for the UG 6 office use, as set forth below; and

WHEREAS, the applicant states that, pursuant to ZR §36-21, 190 accessory parking spaces are required for the UG 6 office space use; and

MINUTES

WHEREAS, the applicant calculates the office space parking requirement as follows: pursuant to ZR § 36-21, within the C2-2 zoning district, the subject UG 6 office space requires one accessory parking space for every 300 sq. ft. of floor area; thus the proposed UG 6 office floor area at the site requires 190 accessory parking space; however, the applicant seeks to provide 134 parking spaces, resulting in a deficit of 56 parking spaces; and

WHEREAS, pursuant to ZR § 73-44, the Board may grant a special permit allowing a reduction in the required number of accessory off-street parking spaces for the UG 6 office space and, specifically, the Board may reduce the required parking for such use from one space per 300 sq. ft. of floor area to one space per 600 sq. ft. of floor area; and

WHEREAS, pursuant to ZR § 73-44, the Board must, prior to granting the special permit, determine that the UG 6 use in parking category B1 is contemplated in good faith; and

WHEREAS, to satisfy the good faith argument, the applicant has submitted an affidavit sworn to on June 25, 2013; and

WHEREAS, the Board finds that the applicant has submitted sufficient evidence of good faith in maintaining the noted uses at the site; and

WHEREAS, in addition, the special permit under ZR § 73-44 requires and the applicant represents that any certificate of occupancy for the building will state that no subsequent certificate of occupancy may be issued if the use is changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-site radius; and

WHEREAS, the Board directed the applicant to demonstrate that the application satisfies ZR § 73-03(a), specifically, to provide information as to how the proposed reduction in parking will impact the surrounding community in terms of parking and traffic; and

WHEREAS, in response, the applicant submitted a parking study, which demonstrates that the proposed reduction in accessory off-street parking spaces associated with the UG 6 office space use will meet the demand created by the use and not have significant negative impacts on the surrounding community; and

WHEREAS, the applicant represents that the subject premises is located in an area well-served by public transportation, including four bus routes on White Plains Road, a 2 train station located approximately 660 feet south of the subject premises, and a Metro-North Railroad station located approximately 2,000 feet southwest of the subject premises; and

WHEREAS, the applicant also notes that the proposed accessory off-street parking area includes a steel fence with decorative concrete coating and brick pattern stamping at its

base and new 12'-0" tall arborvitae trees to shield the parked cars from neighbors; that 44 double stackers are located at the lower level of the parking area, further from residential development and hidden from sight; and that the lights in the parking area will be pointed down and away from surrounding properties; and

WHEREAS, accordingly, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, based upon its review of the record, the Board concludes that the findings required under ZR §§ 73-03 and 73-44 have been met; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 14BSA001X, dated June 27, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-03 and 73-44 to permit, on a site located partially within a C8-1 zoning district, and partially within an to permit, on a site located in partially within an R6A (C2-2) zoning district and partially within an R5 zoning district, the reduction in the required number of accessory parking spaces for a Use Group ("UG") 6 office space from 190 spaces to 95 spaces, contrary to ZR § 36-21; on condition that all work shall substantially conform to drawings as they apply to the objections above noted filed with this application marked "Received December 23, 2015"–

MINUTES

Fourteen (14) sheets, and on further condition:

THAT a minimum of 134 parking spaces shall be provided at the site;

THAT there shall be no change in the uses at the site without prior review and approval by the Board;

THAT a certificate of occupancy shall not be issued if either of the uses for which parking has been reduced has been changed to a use listed in parking category B, unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-street radius;

THAT the above conditions shall appear on the certificate of occupancy;

THAT the applicant shall provide landscaping as shown on the BSA-approved plans;

THAT the landscaping shall be maintained at all times to conceal parking area, including the upper level of the double stackers;

THAT the walls shall be maintained free of graffiti;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk shall be signed off by DOB and all other relevant agencies by January 22, 2020;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 22, 2016.

***The resolution has been Amended to correct the part of the conditions which read: ...229 parking spaces... now reads: ...134 parking spaces.... Corrected in Bulletin No. 8, Vol. 104, dated February 22, 2019.**

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening, waiver of the Board’s Rules of Practice and Procedure, an extension of time to obtain a certificate of occupancy, which expired on September 11, 2013, and the amendment of a special permit, previously granted pursuant to ZR § 73-36; and

WHEREAS, a public hearing was held on this application on February 26, 2019, after due notice by publication in *The City Record*, and then to decision on that date; and

WHEREAS, Vice-Chair Chanda and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application, commenting that the facility has existed at this location with no complaints from neighbors and that the proposed changes are minor; and

WHEREAS, the subject site is an irregularly shaped lot located on the northwest corner of Kings Highway and Coney Island Avenue, partially in a C4-2 zoning district, partially in a C8-2 zoning district and in the Special Ocean Parkway district, in Brooklyn; and

WHEREAS, the site has approximately 141 feet of

frontage along Kings Highway, 60 feet of frontage along Coney Island Avenue, 38 feet of frontage on Quentin Road, approximately 13,430 square feet of lot area, and is occupied by a two- (2) story plus cellar commercial building; and

WHEREAS, the subject physical culture establishment (“PCE”) is located within portions of the cellar (10,235 square feet of floor space), first floor (5,511 square feet of floor area) and second floor (13,060 square feet of floor area) of the subject building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since June 22, 1965, when, under BSA Cal. No. 499-65-A, the Board granted an appeal to permit the operation of bingo at the subject site on condition that the building conforms to drawings filed with the application and that a wet automatic sprinkler system be installed throughout the cellar and throughout the second floor; and

WHEREAS, on May 7, 1985, under the subject calendar number, the Board issued a special permit to allow the extension of a physical culture establishment (“PCE”), previously only on the cellar level, to the second floor on condition that all work substantially conform to drawings, as they apply to the objection, filed with the application; the special permit be limited to a term of ten (10) years, to expire May 7, 1995; the hours of operation be limited to the following: Monday through Friday, 6:30 a.m. to 10:00 p.m.; Saturday, 9:00 a.m. to 6:00 p.m.; and, Sunday, 9:00 a.m. to 5:00 p.m.; the conditions appear on the certificate of occupancy; the Department of Buildings (“DOB”) issue no permits for a period of 31 days from the date of the resolution; all laws, rules and regulations applicable be complied with; and, substantial construction be completed in accordance with Section 73-70, by May 7, 1989; and

WHEREAS, on October 16, 1996, under the subject calendar number, the Board waived its Rules of Procedure, reopened and amended the resolution, adopted on May 7, 1985, to extend the term, on condition that the term of the special permit be limited to a term of ten years from May 7, 1995, to expire on May 7, 2005; the premises be maintained graffiti-free and in substantial compliance with the existing and proposed drawings submitted with the application; other than as amended the resolution be complied with in all respects; and, a new certificate of occupancy be obtained within one (1) year, by October 16, 1997; and

WHEREAS, on October 7, 2003, under the subject calendar number, the Board reopened and amended the resolution, adopted on May 7, 1985, as amended on October 16, 1996, to allow an extension of the permitted use to the first floor, with installation of an elevator and internal stair, and a change in the hours of operation, on condition that all work substantially conform to drawings, as they apply to the objections, filed with the application; the premises be maintained free of debris and graffiti; any graffiti located on the premises be removed within 48 hours; the hours of operation be limited to the following: Monday through Friday, 6:00 a.m. to midnight; Saturday, 9:00 a.m. to 6:00 p.m.; and, Sunday, 9:00 a.m. to 5:00 p.m.; the above conditions and all

MINUTES

conditions from prior resolutions appear on the certificate of occupancy; a new certificate of occupancy be obtained within one (1) year, by October 7, 2004; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and, the DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted; and

WHEREAS, on May 15, 2007, under the subject calendar number, the Board waived its Rules of Practice and Procedure, reopened and amended the resolution, dated May 7, 1985, to grant an extension of term of the special permit for a PCE operated by Bally's Total Fitness for ten (10) years, to expire on May 7, 2015, on condition that any and all work substantially conform to drawings, as they apply to the objections, filed with the application; there be no change in ownership or operating control of the PCE without prior approval from the Board; the above conditions appear on the certificate of occupancy; all conditions from prior resolutions not specifically waived by the Board remain in effect; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and, the DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted; and

WHEREAS, on December 15, 2015, under the subject calendar number, the Board reopened and amended the resolution, dated May 7, 1985, to permit an extension of term for a term of ten (10) years, a change in operator to 24 Hour Fitness, Inc., and a change in hours of operation to 8:00 a.m. to 9:00 p.m. on Saturday and Sunday, on condition that the site substantially conform to drawings as filed with the application; the grant be limited to a term of ten (10) years, expiring May 7, 2025; all signage on the site comply with all applicable provisions of the Zoning Resolution; the calculations for the signage take into account the square footage of the rooftop sign, if appropriate; the stated hours of the subject PCE be posted conspicuously on the premises; a public assembly permit be obtained by December 15, 2016; all conditions from prior resolutions not specifically waived by the Board remain in effect; the above conditions appear on the certificate of occupancy; a new certificate of occupancy for the premises be obtained by December 15, 2016; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and, the DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted; and

WHEREAS, the time to obtain a certificate of occupancy having expired, the applicant requests the subject relief; and

WHEREAS, the applicant additionally requests a waiver, pursuant to § 1-14.2 of the Board's Rules of Practice and Procedure, of Rule § 1-07.3(d)(2) to permit the filing of this application more than 30 days after the expiration of the time to obtain a certificate of occupancy; and

WHEREAS, the applicant represents that no changes to the operator (24 Hour Fitness, Inc.) or operation of the PCE are proposed, other than the subject amendment: the applicant seeks reflect changes in the interior partitions of the PCE and a change in designation of spaces within the PCE; and

WHEREAS, the applicant represents that delays in obtaining a certificate of occupancy were the result of issues with code non-compliances with respect to the subject building, and anticipates it will obtain a certificate of occupancy within 18 months of the Board's grant;

WHEREAS, the applicant also requests an amendment to reflect a change in the designation of spaces within the PCE and a modification to the interior partitions of the PCE; and

WHEREAS, by letter dated January 28, 2019, the Fire Department issued a letter of no objection and stated that the Fire Department was in receipt of the applicant's representative's letter dated January 23, 2019, in response to Fire Department violations, and all units in the Bureau of Fire Prevention will be notified of the applicant's comments to the violation orders that are pending, and will reinspect the violations in the near future; and

WHEREAS, at hearing, the Board expressed concerns regarding the relocation of the spin cycling studio within the PCE and whether it was properly protected for sound and vibration, and whether massage services were being provided by the subject PCE; and

WHEREAS, in response, the applicant stated that the spin studio has been in its current location since 2016, the space is protected with double-thick decking, one- (1) inch thick rubber flooring and cushioned tiles, and the PCE has received no noise complaints; and the applicant amended the plans to remove the massage therapy room at the cellar level and confirmed that massage services are not being provided at the PCE; and

WHEREAS, pursuant to ZR § 73-03(f), the applicant has satisfactorily demonstrated compliance with the conditions of the previous term and the Board finds that the circumstances warranting the original grant still obtain; and

WHEREAS, accordingly, the Board finds that an 18-month extension of time to obtain a certificate of occupancy, and the subject amendment to permit a modification to the interior partitions of the PCE, are appropriate, with the conditions set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* Rule § 1-07.3(d)(2) of its Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated May 7, 1985, as amended through December 15, 2015, so that, as further amended, this portion of the resolution reads: "to permit an extension of time to obtain a certificate of occupancy for 18 months, to expire on August

MINUTES

26, 2020, *on condition* that the use and operation of the site shall conform to drawings filed with this application marked ‘Received November 13, 2018 -Two (2) sheets and ‘February 20, 2019’-Two (2) sheets; and *on further condition*:

THAT the term of this grant shall expire on May 7, 2025;

THAT the hours of operation shall be limited to the following: Monday through Friday, 6:00 a.m. to midnight, Saturday and Sunday, 8:00 a.m. to 9:00 p.m.;

THAT all signage on the site comply with all applicable provisions of the Zoning Resolution;

THAT the calculations for the signage take into account the square footage of the rooftop sign, if appropriate;

THAT the stated hours of the subject PCE be posted conspicuously on the premises;

THAT there shall be no change in ownership or operating control of the PCE without prior approval from the Board;

THAT the premises shall be maintained free of debris and graffiti;

THAT any graffiti located on the premises shall be removed within 48 hours;

THAT minimum three (3) foot wide exit pathways to required exits shall always be maintained unobstructed, including that from any gymnasium equipment;

THAT sprinklers and interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, connection of the interior fire alarm and sprinklers to a FDNY-approved central station—shall be maintained throughout the PCE space as indicated on the Board-approved plans;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number (“BSA Cal. No. 1059-84-BZ”) shall be obtained within 18 months, by August 26, 2020;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, February 26, 2019.

336-98-BZ & 337-98-BZ

APPLICANT – Rothkrug Rothkrug & Spector LLP, for 312 Flatbush LLC, owner; Crunch LLC, lessee.

SUBJECT – Application September 5, 2017 – Extension of Time to obtain a certification of occupancy for a special permit (§73-36) for a physical culture establishment (*Crunch Fitness*), which expired on September 11, 2013; Extension of Term which expires on November 23, 2019; Waiver of the Rules. C2-4/R7A zoning district.

PREMISES AFFECTED – 312-318, 324-334 Flatbush Avenue, Block 1057, Lots 14 & 19, Borough of Brooklyn.

COMMUNITY BOARD #6BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for reopening, waivers of the Board’s Rules of Practice and Procedure, extensions of the terms of two (2) special permits granted pursuant to ZR § 73-36, which expire on November 23, 2019, extensions of time to obtain certificates of occupancy, which expired on September 11, 2013, and amendments to the special permits legalizing the expansion of the PCE space; and

WHEREAS, a public hearing was held on these applications on February 26, 2019, after due notice by publication in *The City Record*, and then to decision on that date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the subject site is comprised of two contiguous tax lots—tax lot 14, bound by Flatbush Avenue to the northeast and Sterling Place to the southwest, partially located within an R7A (C2-4) zoning district and partially located within an R7B zoning district (BSA Cal. No. 336-98-BZ) and tax lot 19, located on the northwest corner of Flatbush Avenue and Sterling Place, in an R7A (C2-4) zoning district (BSA Cal. No. 337-98-BZ), in Brooklyn; and

WHEREAS, the site has approximately 302 feet of frontage along Flatbush Avenue, 251 feet of frontage along Sterling Place, approximately 21,150 square feet of lot area (12,325 square feet on tax lot 14 and 8,825 square feet on tax lot 19), and each tax lot is occupied by a two- (2) story plus cellar commercial building; and

WHEREAS, the subject physical culture establishment (“PCE”) is located within a portion of the second floor (4,794 square feet) of the building on lot 14 and on portions of the cellar (2,697 square feet), first floor (3,144 square feet) and second floor (8,197 square feet) of the building on tax lot 19; and

WHEREAS, the Board has exercised jurisdiction over the subject tax lots since November 23, 1999, when, under the subject calendar numbers, the Board granted special permits to permit, in a then R6B (C2-4) zoning district, the

MINUTES

operation of a proposed physical culture establishment (“PCE”) on the second floor of adjacent buildings located on tax lots 14 and 19 to be used as a single project on condition that all work substantially conform to the plans, as they apply to the objections, filed with the application; there be no change in ownership or operating control of the PCE without prior application to and approval from the Board; the hours of operation of the PCE be as follows: Monday through Friday, 6:00 a.m. to 11:00 p.m., and, Saturday and Sunday, 7:00 a.m. to 10:00 p.m.; fire prevention measures be maintained in accordance with BSA-approved plans; the term of the special permit be for ten (10) years, expiring November 23, 2009; the premises remain graffiti free at all times; all signage comply with the Zoning Resolution; the above conditions appear on the certificate of occupancy; the development, as approved, be subject to verification by the Department of Buildings (“DOB”) for compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under the jurisdiction of the Department; and, that a new certificate of occupancy be obtained within two (2) years, by November 23, 2001; and

WHEREAS, on August 11, 2009, under the subject calendar numbers, the Board waived its Rules of Practice and Procedure, reopened and amended the resolutions to legalize the use of the cellar space and the extension of the PCE use on the first floor from 629 square feet of floor area to 2,515 square feet of floor area in the building located on tax lot 19, extend the terms for a period of ten (10) years, to expire on November 23, 2019, extend the time to obtain certificates of occupancy to February 11, 2010, and reflect a change in operator to Crunch Fitness, on condition that the use and operation of the site substantially conform to approved plans; there be no change in ownership or operating control of the PCE without prior application to and approval from the Board; DOB review egress for compliance with all relevant regulations; all conditions from prior resolutions not specifically waived by the Board remain in effect; the approvals be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and, that the DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plans(s)/configuration(s) not related to the relief granted; and

WHEREAS, on June 8, 2010, under the subject calendar numbers, the Board waived its Rules of Practice and Procedure, reopened and amended the resolutions to extend the time to obtain a certificate of occupancy to June 8, 2011, on condition that all use and operations substantially conform to BSA-approved plans associated with the prior grant; there be no change in ownership or operating control of the PCE without prior application to and approval from the Board; DOB review egress for compliance with all relevant regulations; all conditions from prior resolutions not specifically waived by the Board

remain in effect; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and, that the DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plans(s)/configuration(s) not related to the relief granted; and

WHEREAS, by letter dated February 2, 2011, under BSA Cal. No. 337-98-BZ, the Board permitted a change of use in the designation of the cellar of the building located on tax lot 19 from PCE use to storage space and accessory uses, and modifications to the interior layout of the cellar and first floor, including the elimination of the lift between floors, on condition that the DOB ensure compliance with all applicable provisions of the Zoning Resolution, Building Code or any other relevant law; specifically, the Board requested that the DOB review the proposed plans for compliance with Local Law 58/87;

WHEREAS, on September 11, 2012, under the subject calendar numbers, the Board waived its Rules of Practice and Procedure, reopened and amended the resolution to extend the time to obtain a certificate of occupancy to September 11, 2013, on condition that all use and operations substantially conform to BSA-approved plans associated with the prior grant; there be no change in ownership or operating control of the PCE without prior application to and approval from the Board; DOB review egress for compliance with all relevant regulations; all conditions from prior resolutions not specifically waived by the Board remain in effect; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, the previous term of the special permit and time to obtain a certificate of occupancy having expired, the applicant requests the subject relief; and

WHEREAS, the applicant additionally requests waivers, pursuant to § 1-14.2 of the Board’s Rules of Practice and Procedure, of Rules §§ 1-07.3(d)(2) and 1-07.3(b)(2) to permit the filing of these applications more than 30 days after the expiration of the time to obtain a certificate of occupancy, and more than one (1) year before the expiration of the term; and

WHEREAS, the applicant represents that no change in ownership or operation are proposed and that Crunch continues to operate the subject PCE, which continues to meet the special permit findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the applicant represents that delays in obtaining a certificate of occupancy were the result of a new project architect, corporate restructuring of Crunch, and issues associated with the PCE being located over two tax lots; the applicant anticipates it will obtain a certificate of

MINUTES

occupancy within one (1) year of the Board's grant;

WHEREAS, the applicant also requests an amendment to reflect an extension of the PCE into areas of the cellar (from 2,697 square feet to 5,129 square feet) and first floor (from 3,144 square feet to 5,434 square feet) of the building located on tax lot 19 and first floor (4,794 square feet) of the building located on tax lot 14; and

WHEREAS, by letter dated February 25, 2019, the Fire Department states that, on September 20, 2018, an inspection was performed by the Bureau's Licensed Public Place of Assembly ("LPPA") unit and violations were issued for failure to maintain the fire alarm system and failure to obtain a certificate of operation; at the time of inspection, the fire alarm panel showed a trouble signal in the system; a review of DOB Building Information System shows no public assembly applications have been filed to date at either building; the fire alarm and sprinkler systems were inspected and tested satisfactory to the Department standards, with the exception of maintenance records not being provided; and the Department has no objection to the Board rendering a decision on this application because the Bureau of Fire Prevention will continue to inspect these premises and enforce any outstanding violation orders; and

WHEREAS, at hearing, the Board expressed concern with regards to the ADA-accessibility of the PCE space over two (2) tax lots; and

WHEREAS, the applicant represented that there are three (3) lifts within the site and the that cellar space is classified as non-occupied space, therefore, ADA access to that level is not required; and

WHEREAS, pursuant to ZR § 73-03(f), the applicant has satisfactorily demonstrated compliance with the conditions of the previous term and the Board finds that the circumstances warranting the original grant still obtain; and

WHEREAS, accordingly, the Board finds that the requested amendment, a ten (10) year extension of the term of the special permit, and an 18-month extension of time to obtain a certificate of occupancy are appropriate, with the conditions set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* Rules §§ 1-07.3(d)(2) and 1-07.3(b)(2) of its Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated November 23, 1999, as amended through September 11, 2012, so that, as amended, this portion of the resolution reads: "to permit an extension of the PCE on the cellar level and first floor of the subject site, to grant an extension of the term of the variance for a term of ten (10) years, to expire on November 4, 2028, and an extension of time to obtain a certificate of occupancy for 18 months, to expire on August 26, 2020, *on condition* that the use and operation of the site shall conform to drawings filed with this application marked 'Received November 8, 2019'-Six (6) sheets; and *on further condition*:

THAT the term of this grant shall expire on November 23, 2029;

THAT there shall be no change in ownership or operating control of the PCE without prior application to

and approval from the Board;

THAT the hours of operation of the PCE shall be as follows: Monday through Friday, 6:00 a.m. to 11:00 p.m., and, Saturday and Sunday, 7:00 a.m. to 10:00 p.m.;

THAT minimum three (3) foot wide exit pathways to required exits shall always be maintained unobstructed, including that from any gymnasium equipment;

THAT sprinklers and interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, connection of the interior fire alarm and sprinklers to a FDNY-approved central station—shall be maintained throughout the PCE space as indicated on the Board-approved plans;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar numbers ("BSA Cal. No. 336-98-BZ and 337-98-BZ") shall be obtained within 18 months, by August 26, 2020;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, February 26, 2019.

2016-4141-BZ

APPLICANT – Kramer Levin Naftalis & Frankel, LLP, for 30 Park Place Hotel LLC, owner; Four Seasons Hotel New York Downtown, lessee.

SUBJECT – Application July 27, 2018 – Amendment of a previously approved Special Permit (§73-36) which permitted the operation of a physical culture establishment (Four Seasons Hotel New York Downtown) on a portion of the first and third floors of a mixed-use hotel and residential building. The amendment seeks to permit the expansion of the use include an existing accessory fitness center, dance studio and pool on the third-floor level for a total of 18,980 square feet. C5-3 (LM) zoning district.

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Deputy Borough Commissioner, dated August 21, 2018, acting on Department of Buildings (“DOB”) Application No. 110089779, reads in pertinent part:

ZR 73-36, ZR 32-10: Expanding the area of an existing Physical Culture Establishment is not permitted, as of right, it is contrary to ZR 32-10 and requires BSA special permit, pursuant to ZR 73-36; and

WHEREAS, this is an application for reopening and an amendment of a special permit, previously granted pursuant to ZR § 73-36, to permit an expansion of the physical culture establishment (“PCE”) space on the third floor of an existing building; and

WHEREAS, a public hearing was held on this application on February 26, 2019, after due notice by publication in *The City Record*, and then to decision on that date; and

WHEREAS, Community Board 1, Manhattan, recommends approval of this application; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, the site is located on the northeast corner of Barclay Street and Church Street, in a C5-3 zoning district, in the Special Lower Manhattan District, in Manhattan; and

WHEREAS, the site has approximately 148 feet of frontage on Church Street, 201 feet of frontage on Barclay Street, 197 feet of frontage on Park Place, 29,125 square feet of lot area, and is occupied by a 70-story with cellar mixed-use residential and commercial hotel building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since February 14, 2017, when, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-36, to permit the operation of a PCE on portions of the first and third floor of the subject building on condition that all work substantially conform to plans filed with the application; the term of the grant be for ten (10) years, expiring February 14, 2027; there be no change in ownership or operating control of the PCE without prior application to and approval from the Board; minimum 3’-0” wide exit pathways be provided leading to the required exits and that pathways be maintained unobstructed, including from any gymnasium equipment; an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—be installed in the entire PCE space; Local Law 58/87 shall be complied with as approved by DOB; the above conditions appear on the certificate of occupancy; a certificate of occupancy be obtained within

four (4) years, by February 14, 2021; the approval be limited to the relief granted by the Board in response to specifically cited objection(s); the approved plans be considered approved only for the portions related to the specific relief granted; and DOB ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, the applicant now seeks an amendment to permit an expansion of the PCE on the third floor, resulting in an increase of 12,681 square feet of floor area; and

WHEREAS, the applicant represents that the proposed amendment would allow the PCE to expand to include an existing fitness center, dance studio, and pool; and

WHEREAS, specifically, the applicant proposes to expand into adjacent space on the third floor, maintaining the 2,971 square feet of floor area on the first floor, and increasing the floor area on the third floor from 3,571 square feet to 16,252 square feet of floor area; and

WHEREAS, by letter dated December 29, 2018, the Fire Department confirms that the premises are protected by a combination fire suppression system and fire alarm system, that has been inspected and tested by units of the Bureau of Fire Prevention and are operational, and that the Fire Department has no objection to the application; and

WHEREAS, at hearing, the Board requested evidence of licenses for massage therapists providing massage services within the PCE; and

WHEREAS, in response, the applicant provided copies of current massage therapy license registration information for the massage therapists of the subject PCE; and

WHEREAS, based upon its review of the record, the Board finds that the requested amendment, permitting an extension of the PCE space on the third floor, is appropriate, with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated July 13, 2010, so that as amended the resolution reads: “to reflect a change in the interior layout of the PCE on third floor such that the PCE will now occupy 2,971 square feet of floor area on the first floor and a total of 16,252 square feet of floor area on the third floor, *on condition* that any and all work shall substantially conform to drawings as they apply to the objection above noted, filed with this application marked ‘Received September 27, 2018’-One (1) sheet; and *on further condition*:

THAT the term of this grant shall expire February 14, 2027;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT minimum three-foot-wide exit pathways shall be provided leading to the required exits and pathways shall be maintained unobstructed, including from any gymnasium equipment;

THAT an approved interior fire alarm system—

MINUTES

including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—shall be installed in the entire PCE space;

THAT Local Law 58/87 shall be complied with as approved by DOB;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a revised certificate of occupancy indicating this approval and calendar number (“BSA Cal. No. 2016-4141-BZ”) shall be obtained within one (1) year, by February 26, 2020;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, February 26, 2019.

THE RESOLUTION –

WHEREAS, the decision of the Bronx Borough Commissioner, dated October 7, 2016, acting on Department of Buildings (“DOB”) Application No. 220552177 (3236 Schley Avenue) reads in pertinent part:

The proposed extension is located within the bed of a mapped street contrary to section 35 of the general city law therefore, approval from the board of standards and appeals is required; and

WHEREAS, the decision of the Bronx Borough Commissioner, dated October 7, 2016, acting on DOB Application Nos. 220547549 (3238 Schley Avenue) and 220547843 (580 Clarence Avenue) read in pertinent part:

The proposed N.B. construction is located within the bed of a mapped street contrary to section 35 of the general city law therefore, approval from the board of standards and appeals is required; and

WHEREAS, this is an application to permit construction of buildings within the bed of a mapped street, contrary to General City Law (“GCL”) § 35; and

WHEREAS, a public hearing was held on this application on September 26, 2017, after due notice by publication in *The City Record*, with continued hearings on December 12, 2017, June 26, 2018, and February 26, 2019, and then to decision on that date;

WHEREAS, Chair Perlmutter, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is located at the intersection of Schley Avenue and Clarence Avenue, in a C3A zoning district, in the Bronx; and

WHEREAS, the site has approximately 97 feet of frontage along Schley Avenue, 15,572 square feet of lot area and is currently occupied by a single-family home; and

WHEREAS, the westernmost portion of the site is located within the bed of Shore Drive, a street mapped to a width of 100 feet, but unimproved and not in use; and

WHEREAS, the applicant proposes to subdivide the existing lot into three zoning lots—Tentative Lots 7, 110 and 111—and to enlarge the existing one-family dwelling, located on Tentative Lot 7 and within the bed of a mapped, but unimproved portion of Shore Drive, with a second floor and to develop a two-story two-family dwelling on each of Tentative Lots 110 and 111; and

WHEREAS, the applicant submits that the proposed enlargement and new two-family dwellings will comply and conform with all applicable provisions of the Zoning Resolution, including but not limited to those relating to flood, resilience, and required off-street accessory parking; and

WHEREAS, by letter dated November 23, 2016, the New York City Department of Environmental Preservation (“DEP”) states that, based on DEP maps, there are no existing sewers or water mains in the bed of Shore Drive at the subject location; there is an existing 84-inch by 54-inch combined sewer and 8-inch diameter water main in the bed of Schley Avenue between Clarence Avenue and Wilcox Avenue; that Amended Drainage Plan No: 45D (13) & 45C (20), Sheet 8 of 8, dated March 16, 1983, shows a 12-inch diameter sanitary

MINUTES

sewer and 15-inch diameter storm sewer in the bed of Shore Drive between Clarence Avenue and Wilcox Avenue; and requested that the applicant submit a plan/survey, signed and sealed, showing the 35-foot wide sewer corridor in the bed of Shore Drive for the installation, maintenance and/or reconstruction of the future sewers and show distances from the westerly lot lines of Tentative Lots 110 and 111 to the existing 84-inch by 54-inch combined sewer and 8-inch diameter water main in Schley Avenue; and

WHEREAS, the applicant subsequently revised the site plan to indicate the 35-foot wide sewer corridor and show distances from the westerly lot lines of Tentative Lots 110 and 111 to the combined sewer and water main located in Schley Avenue; and

WHEREAS, by letter dated December 27, 2018, DEP states that the amending of the drainage plan for the subject development is feasible and that the subject application may proceed; and

WHEREAS, by letter dated December 16, 2016, the New York City Department of Transportation (“DOT”) states that the improvement of Shore Drive at the subject location, which would involve the taking of a portion of Block 5490, Lots 7 and 107, is presently not included in DOT’s Capital Improvement Program, though this does not preclude a change in the program in the future; and that, according to the Bronx Borough President’s Topographical Bureau, Shore Drive at this location is mapped at 100 feet and the City does not have title to it and both Schley and Clarence Avenues are mapped to widths of 60 feet and their titles are, indeed, vested with the City; and

WHEREAS, the Board notes that pursuant to GCL § 35, it may authorize construction within the bed of a mapped street subject to reasonable requirements; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore, it is Resolved, that the Board modifies the decisions of the Queens Borough Commissioner, dated October 7, 2016, acting on Department of Buildings Application Nos. 220552177, 220547549 and 220547843 by the power vested in it by Section 35 of the General City Law to grant these appeals, limited to the decisions noted above *on condition* that construction shall substantially conform to the drawings filed with the application marked “Received February 26, 2019”-Two (2) sheets; and *on further condition*:

THAT DOB shall review compliance of the location of the proposed dwellings and enlargement with applicable front yard requirements as no bulk waivers have been requested, reviewed or granted by the Board;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by February 26, 2023;

THAT DOB shall review the plans approved herewith for compliance with all relevant provisions of the Zoning Resolution;

THAT certificates of occupancy, indicating these

approvals and calendar numbers (BSA Cal No. 2016-4296-4298-A), shall be obtained within four (4) years, by February 26, 2023;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 26, 2019.

2016-4473-A

APPLICANT – Law Offices of Marvin B. Mitzner LLC, for 72-74 E. 3rd Street Condo Corp., owner.

SUBJECT – Application December 30, 2016 – Application filed pursuant to §310 of the Multiple Dwelling Law (“MDL”) requesting to vary §211 of the MDL to allow for the partial one story vertical enlargement of an existing tenement building. R8B zoning district.

PREMISES AFFECTED – 72-74 East 3rd Street, Block 444, Lot 7501, Borough of Manhattan.

COMMUNITY BOARD #3M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated November 30, 2016, acting on DOB Application No. 122232137 reads in pertinent part:

Proposed vertical enlargement to Old Law Tenement dwelling is not permitted as stated in MDL 211.1: ‘no non-fireproof tenement shall be increased in height so that it shall exceed five stories, except that any tenement may be increased to any height permitted for multiple dwellings erected after April eighteenth, nineteen hundred twenty-nine, if such tenement conforms to the provisions of this chapter governing like multiple dwellings erected after such date;’ and

WHEREAS, this is an application pursuant to Multiple Dwelling Law (“MDL”) § 310 to permit, on a site located within an R8B zoning district, a one-story vertical enlargement of a five-story plus basement and cellar multiple dwelling contrary to MDL § 211(1); and

WHEREAS, a public hearing was held on this application on June 26, 2018, after due notice by publication in *The City Record*, with continued hearings on August 21,

MINUTES

2018, November 8, 2018, and January 15, 2019, and then to decision on February 26, 2019; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta conducted inspections of the site and surrounding area; and

WHEREAS, the subject site is located on the south side of East Third Street, between First Avenue and Second Avenue, in an R8B zoning district, in Manhattan; and

WHEREAS, the site has approximately 75 feet of frontage along East Third Street, 101 feet of depth, 7,544 square feet of lot area and is occupied by a five-story plus basement and cellar multiple dwelling; and

WHEREAS, the applicant states that the building, a non-fireproof structure constructed in as late as the 1920s, contains approximately 20 residential units—two residential units in the basement, two residential units on the first floor and four residential units on the second through fifth floors—and approximately 14,572 square feet of floor area; and

WHEREAS, the applicant initially proposed to construct a partial sixth-story containing approximately 808 square feet of additional floor area, converting two simplex apartments located on the fifth floor (Units 6A and 6B) into duplexes, and that will be set back 15 feet from the existing street wall and increase the total height of the building from 59'-1" to 74'-6" and increase the floor area ratio ("FAR") from 1.93 to 2.04; and

WHEREAS, the owners of Unit 6B subsequently requested the removal of the proposed enlargement previously allocated to their unit and the application was revised to propose the addition of 493 square feet of floor area as a penthouse to Unit 6A, increasing the FAR of the existing building to 2.00; and

WHEREAS, at the subject site, the maximum residential floor area ratio ("FAR") permitted is 4.0 (30,176 square feet of floor area) pursuant to ZR § 23-153 and a maximum front wall height of 60 feet and maximum height of 75 feet are permitted pursuant to ZR § 23-632; and

WHEREAS, pursuant to MDL § 211(1):

No tenement shall be increased in height so that its height shall exceed by more than one-half the width of the widest street upon which it stands. Except as otherwise provided in subdivision four of this section, no non-fireproof tenement shall be increased in height so that it shall exceed five stories, except that any tenement may be increased to any height permitted for multiple dwellings erected after April eighteenth, nineteen hundred twenty-nine, if such tenement conforms to the provisions of this chapter governing like multiple dwellings erected after such date; and

WHEREAS, East 3rd Street has a width of 60 feet, thus, pursuant to MDL § 211(1), the maximum building height permitted at the subject site is 90 feet, however, the enlargement of the subject building with an additional story does not comply with that section, accordingly, the applicant seeks the subject relief; and

WHEREAS, MDL § 310(2)(a)(1) states:

Where the compliance with the strict letter of this chapter causes any practical difficulties or any unnecessary hardships the [Board of Standards and Appeals] shall have the power, on satisfactory proof at a public hearing, provided the spirit and intent of this chapter are maintained and public health, safety and welfare preserved and substantial justice done, to vary or modify any provision or requirement of this chapter, or of any rule, regulation, supplementary regulation, ruling or order of the department with respect to the provisions of this chapter, as follows:
a. For multiple dwellings and buildings existing on July first, nineteen hundred forty-eight, in cities with a population of one million or more . . . provisions relating to: (1) Height and bulk [. . .]; and

WHEREAS, the subject building having been constructed prior to July 1, 1948, and MDL § 211(1) relating, as it does, to height, the Board has the authority to vary or modify that provision pursuant to MDL § 310(2)(a)(1); and

WHEREAS, the applicant submits that practical difficulty and unnecessary hardship would result from strict compliance with MDL § 211(1), specifically, that provision prevents the site from utilizing the development potential afforded by the subject zoning district; and

WHEREAS, the applicant represents that MDL § 211(1) prohibits any vertical enlargement and horizontal enlargement of the building is impracticable because a rear yard with a minimum depth of 30 feet is required at a site, pursuant to ZR § 23-47, and the existing rear yard is 32'-4.25"; the applicant notes, further, that the enlarged building will still utilize approximately 50 percent of the floor area permitted in the subject zoning district; and

WHEREAS, with regards to the finding that the proposed enlargement maintains the spirit and intent of the Multiple Dwelling Law, preserves public health, safety and welfare and does substantial justice, the applicant notes that MDL § 2 ("Legislative Finding") provides that the intent of the law is to protect against dangers such as "overcrowding of multiple dwelling rooms, inadequate provision for light and air, and insufficient protection against the defective provision for escape from fire . . ." and avers that the proposal includes setting the partial sixth story back 15 feet from the existing street wall, diminishing the perception of the story from the street and ensuring adequate light and air to that living spaces, as well as various fire safety measures that will significantly improve the fire safety of the existing building, including (1) the outfitting of all common areas of the building and the cellar with sprinklers, (2) providing a second layer of Type-X Fire Code gypsum board to the underside of all stairs and replacing existing materials at stair treads and landings with non-combustible materials, (3) providing two-hour fire-rated wall construction to existing basement level public hall, (4) providing two layers of 5/8-inch gypsum board at the cellar ceiling, (5) ensuring 1-1/2 hour rated assembly self-closing doors at all apartment entrances and the door to the roof, (6)

MINUTES

maintaining hard-wired smoke and carbon dioxide detectors with battery backup in all apartments, (7) constructing the penthouse addition with fire-proof construction pursuant to the New York City Building Code, (8) replacing any doors determined by the Fire Department to have inadequate fire rating with a 1-1/2 hour rated door and (9) replacing any smoke detector determined to not be hard-wired to be replaced with a hard-wired smoke detector; and

WHEREAS, in response to the Board's concerns regarding the fire-rating and self-closing nature of the existing apartment doors, the applicant obtained access to 12 of the other 19 units in the building, determined that they were 1-1/2 hour rated metal doors and that many of them were self-closing, but their mechanisms had weakened over time, therefore the applicant proposes to replace all of the self-closing mechanisms on all unit entry doors in the subject building; and

WHEREAS, with regards to the status of smoke detectors located in individual units, the applicant submits that three of the inspected units do not contain smoke detectors attached to in-unit electrical boxes and that the subject proposal includes the installation of new smoke detectors in Units 2A, 4C and 4D, as indicated on the plans; and

WHEREAS, the applicant represents that the proposed fire safety measures will result in a substantial increase to the public health, safety, and welfare, which far outweighs any impact from the proposed enlargement; and

WHEREAS, by letter dated April 24, 2018, the Fire Department states that an application must be filed with the Manhattan office of the Department of Building for a new sprinkler system; once the application is approved and permitted, work is to be performed by a licensed master plumber or a licensed master fire suppression piping contractor and inspected or self-certified and a Letter of Completion obtained, and, based on the information provided, has no additional comments or recommendations relative to this application; and

WHEREAS, by subsequent letter, dated January 22, 2019, the Fire Department states that a joint inspection of the premises was performed with the Board's Compliance Officer on June 18 to verify the exit passageway from the rear of the building in response to a comment at hearing that the Department would be unable to access the rear of the premises and tenants would be unable to exit in the event of emergency if the proposed penthouse is constructed and confirms that access from the rear yard to the side yard and to East 3rd Street has been provided and that tenants and the Fire Department can use the rear and side yards in the event of an emergency, therefore, the Department has no objection to this application; and

WHEREAS, the Board was in receipt of fourteen letters in objection to the subject application from owners of other condominium units in the building citing concerns that the proposed enlargement would block access between the front and back of the roof and access to the bulkhead door on the roof the leads to the central staircase; that the proposed fire safety improvements will be costly, time-consuming and

disruptive to other unit owners; that the proposed roof plan violates certain private agreements; that the application was not filed on behalf of all of the condominium owners of the building and that it is unjust for other unit owners to be responsible for the cost of the herein proposed fire safety improvements; and

WHEREAS, several condominium owners also appeared at public hearing and provided testimony in opposition to the subject application reiterating their concerns about the cost of the proposed improvements to the building being the responsibility of all unit owners, the fire-rating of apartment entry doors; the existence of a roof owner's agreement that allegedly prohibits the construction of the penthouse in the size and location herein proposed and suggesting that a consensus among all owners should have been required prior to the filing of this application; and

WHEREAS, the applicant clarified that the subject application was revised to be filed on behalf of the owner of Unit 6A alone, but with the authorization of the building's condominium board; that the revised proposed penthouse addition does not impede access to or egress from the roof; and that the owner of Unit 6A will bear the full costs of construction and building improvements without requiring other owners of other condominium units in the building to contribute; and

WHEREAS, the applicant further explained that the condominium board cannot approve alterations to the subject building or to an individual unit until a formal request, including a full set of construction plans which are costly to produce and futile to create prior to obtaining approval from his Board for construction contrary to the Multiple Dwelling Law, is submitted for consideration by the condominium board, which will not occur until the applicant can provide the condominium board with approval of the subject application; and

WHEREAS, by letter dated January 5, 2018, the President of the Board of Managers of 72-74 East 3rd Street Condominium states that the building's Board of Managers authorized the filing of the subject application on behalf of the owners of Unit 6A and clarifies that such authorization to file the revised application, proposing only the enlargement of that unit, "does and shall not be deemed to constitute any Condominium or Board consent, approval, permission or authorization, nor any waiver with respect to the subject matter of the application or any terms therein [and t]he Condominium reserves its rights at law and pursuant to its governing documents to conduct a full review subject to the consent of the Board of Managers, or any proposed alterations"; and

WHEREAS, by separate letter dated August 2, 2018, the 72-74 East 3rd Street Condominium Board of Managers states that it "will not review, decide nor take any position with respect to the pending BSA Application without first knowing that the BSA will approve some or all of the applicant's proposed development" and that the condominium board "will not be prejudiced or influenced by any BSA approval . . . any BSA approval cannot and will not be leveraged against the

MINUTES

Condominium Board’s alteration review and consent rights under its governing documents”; and

WHEREAS, this Board notes that its decision on this application is solely an exercise of its discretion under the Multiple Dwelling Law, is not made in consideration of its compliance with any private contracts or agreements that may or may not be in force and/or bind the subject applicant with regards to alterations of the subject building and is not intended as an order or requirement to complete any of the construction permitted pursuant to its decision, but rather, if the proposed enlargement is, in fact, pursued, such enlargement must comply as approved herein; and

WHEREAS, based on the above, the Board finds that the proposed variance to the height requirements of MDL § 211(1) will maintain the spirit and intent of the MDL, preserve public health, safety and welfare, and ensure that substantial justice is done; and

WHEREAS, accordingly, the Board finds that the applicant has submitted adequate evidence in support of the findings required to be made under MDL § 310(2)(a)(1) and that the requested variance of the height requirements of MDL § 211(1) is appropriate, with certain conditions set forth below.

Therefore, it is Resolved, that the decision of the Department of Buildings, dated November 30, 2016, is *modified* and that this application is *granted*, limited to the decision noted above, on condition that construction will substantially conform to the plans filed with the application marked, "Received February 7, 2019"-Twelve (12) sheets; and on further condition:

THAT all common areas of the building and the cellar shall be fully sprinklered;

THAT a second layer of Type-X Fire Code gypsum board shall be provided to the underside of all stairs and existing materials at stair treads and landings shall be replaced with non-combustible materials;

THAT two-hour fire-rated wall construction shall be provided to existing basement level public hall;

THAT two layers of 5/8-inch gypsum board shall be provided at the cellar ceiling;

THAT all apartment entrances and the door to the room shall be 1-1/2 hour rated assembly self-closing doors;

THAT all apartments shall contain hard-wired smoke and carbon dioxide detectors with battery backup;

THAT the penthouse addition shall be of fire-proof construction pursuant to the New York City Building Code

THAT any doors determined by the Fire Department to have inadequate fire rating shall be replaced with a 1-1/2 hour rated door;

THAT any smoke detector determined to not be hard-wired shall be replaced with a hard-wired smoke detector;

THAT new hard-wired smoke detectors shall be installed in Units 2A, 4C and 4D;

THAT the self-closing mechanism shall be replaced on all apartment entry doors;

THAT this approval is limited to the relief granted by the Board in response to specifically filed DOB objections

related to the MDL;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; specifically, no relief has been granted with respect to any provision of the Building Code; and

THAT DOB shall verify compliance with the applicable provisions of the Building Code, Zoning Resolution, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 26, 2019.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated July 26, 2017, acting on a registration application for an arterial advertising sign, reads in pertinent part:

The Department of Buildings is in receipt of additional documentation submitted in response to the Deficiency Letter from the Sign Enforcement Unit and in connection with the application for the registration of the above-referenced arterial advertising sign. This sign was remanded to the Department for reconsideration of Arterial Registration in by the Honorable Michael D. Stallman in Index No. 100394/2013. You assert that “the signage was legally established as of 1979 pursuant to the then applicable Zoning Resolution Section 42-53 (now Section 42-55).”

Unfortunately, the documentation submitted in support of your assertion, including a prospective lease from 1976 indicating that the sign is ‘to be’ built and various documents from the 1980s are inadequate to support the claim that the sign was being used for advertising as of November 1, 1979. Furthermore, based on the evidence provided, you have no established that the abo e

MINUTES

sign is: 1) exempt from the City's regulations; 2) allowed as-of-right; or, 3) legally established as a nonconforming use. As such, the sign is rejected from registration and will be subject to enforcement action 30 days from the issuance of this letter; and

WHEREAS, this is an appeal for interpretation under Section 72-11 of the Zoning Resolution of the City of New York ("ZR" or the "Zoning Resolution") and Section 666(6)(a) of the New York City Charter, brought on behalf of Outfront Media LLC ("Appellant"), alleging errors in the above determination pertaining to whether an advertising sign at the subject site is exempt from the City's regulations, permitted as of right or lawfully established as a non-conforming use under the Zoning Resolution; and

WHEREAS, a public hearing was held on this application on September 13, 2018, after due notice by publication in *The City Record*, and then to decision on February 26, 2019; and

WHEREAS, Vice-Chair Chanda performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the subject site is located at the intersection of Long Island Expressway and 74th Street, located partially in an R4-1 zoning district, an R4 zoning district, an M1-1 zoning district and an M3-1 zoning district, in Queens; and

WHEREAS, the subject site is owned by CSX Transportation, Inc. and is occupied by a set of railroad tracks; and

WHEREAS, the subject appeal concerns a double-faced advertising sign, approximately 14 feet in height and 48 feet in width on each sign face, located at the subject site on a pole structure with a height of 70 feet within 200 feet and within view of the Queens Midtown Expressway, a designated arterial highway; and

WHEREAS, the Board previously considered advertising signs at the subject site in a prior appeal, under BSA Calendar Numbers and 134-12-A and 135-12-A, which upheld DOB's sign-registration rejection for the subject sign; and

WHEREAS, in *CBS Outdoor, Inc. v. City of New York*, 50 Misc. 3d 283, 305–308 (Sept. 8, 2015), the Supreme Court of the State of New York held that "the local laws and regulations with respect to outdoor advertising on CSXT property or rights of way are not preempted by" the federal Interstate Commerce Commission Termination Act of 1995; that zoning regulations are "applicable to the outdoor signs on CSXT property because these outdoor signs are located on zoning lots, i.e., lots of record on December 15, 1961"; that the City is not "precluded from enforcing its Zoning Resolution with respect to those signs"; and that the Board's resolution, "which upheld the DOB's rejection of the registration of these outdoor signs, and DOB's rejection of the applications for sign registration of these signs on CSXT property, must be vacated to permit the matter to be remanded to DOB to consider whether these signs have the status of legal non-conforming use"; and

WHEREAS, Appellant commenced this appeal on August 28, 2017; and

WHEREAS, Appellant states that the subject sign constitutes a lawful non-conforming use and should be registered as a lawful arterial-advertising sign; and

WHEREAS, Appellant states that the subject sign was established as a lawful non-conforming use as of November 1, 1979, under ZR § 42-55, as evidenced by the following: "a 1976 license agreement and filing document from 1975, together with the 1980 certificate of electrical inspection, the 1980 tax photograph, 1981 DOB inspection report, 1986 DOB inspection photographs and 1995 photograph"; and

WHEREAS, Appellant alleges that, as of November 1, 1979, the subject sign conformed to applicable zoning regulations for surface area, height and length; and

WHEREAS, Appellant states that, since establishment of the use, the subject sign has continued to be used as an advertising sign from 1979 to the present, as "confirmed by a series of photographs and documents referenced above"; and

WHEREAS, in support of this contention, Appellant also provided a timeline summarizing evidence alleged to be from the years 1975, 1976, 1979, 1980, 1981, 1986, 1995, 2007, 2011, 2013, 2017 and 2018 that purports to demonstrate the continuous presence of the subject sign used for advertising; and

WHEREAS, in response, DOB refutes that the evidence furnished by Appellant demonstrates that the subject sign was constructed prior to November 1, 1979, noting that a 1976 license agreement indicates that signs were "to be" erected; and

WHEREAS, DOB also furnished photographs from the New York State Department of Transportation from 1978, historic aerial photographs from 1980 and 1986 DOB records pertaining to electric signs at the subject site—which demonstrate that the subject sign is a different structure from the sign structure that existed on November 1, 1979; and

WHEREAS, DOB submits that, instead, the subject sign is a different structure (notably with respect to its height and width) that was constructed between 1996 and 1999 pursuant to Application Nos. 400558936, 400559212 and 400559203, which pertained to the construction of accessory business signs, and DOB submitted copies of the attendant applications, including drawings with a front elevation and site plan; and

WHEREAS, in response, Appellant requests withdrawal of this appeal.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *permit* this appeal to be *withdrawn*.

Adopted by the Board of Standards and Appeals, February 26, 2019.

2017-263-A

APPLICANT – Tarter Krinsky & Drogin LLP, for Westbroad Company, LLC, owner; Outfront Media, LLC, lessee.

SUBJECT – Application September 7, 2017 – Appeal from Department of Buildings determination that advertising sign is not entitled to continuing non-conforming use status at current size due to a purported gap in evidence of continued use, ignoring the Department's own prior concession of continued use.

PREMISES AFFECTED – 62-66 West Broadway, Block 132, Lot 1, Borough of Manhattan.

COMMUNITY BOARD #1M

ACTION OF THE BOARD – Application withdrawn.

THE VOTE TO WITHDRAW –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated August 10, 2017, acting on Sign Application No. 122796420, reads in pertinent part:

The request, to accept the submitted documentation as evidence that the 792 square feet non-illuminated advertising wall sign is a lawful non-conforming use that may continue on the northern façade of the premises, currently located in a C6-2A zoning district, is hereby denied. . . .

In this ZRD1, the applicant requested confirmation that the existing non-conforming flex sign is 792 square feet in area and not the smaller 525 square foot area stated in the 1990 painted wall Sign application No. 100084837, and that the 792 square foot sign may continue pursuant to ZR 52-61.

To demonstrate that the flex advertising sign was a lawful use on June 28, 1995, the date of the rezoning, the applicant submits the following:

1. an undated photograph of the wall sign on the northern façade of the premises showing an advertisement for “Guys and Dolls” and “The Who’s Tommy”; and
2. computer screenshots from Wikipedia.org’s website showing the “Guys and Dolls” performance dates from April 14, 1992 to January 8, 1995, and “The Who’s Tommy” April 22, 1993 performance date.

To demonstrate that the flex advertising sign at the premises has not discontinued for two or more years, the applicant submits the following evidence, as follows:

1. A 1981 tax photograph, which is too dark to ascertain details in the photograph, including the presence of a wall sign on the premises;

2. The aforementioned photograph of the “Guys and Dolls” and “The Who’s Tommy” sign, which was on the premises’ northern facade between April 14, 1992 and January 8, 1995;
3. An October 31, 2005 photograph from propertyshark.com’s website showing copy on the sign;
4. A September 5, 2007 photograph showing copy on the sign;
5. A May 4, 2006 photograph showing copy on the sign;
6. A June 6, 2008 photograph showing copy on the sign;
7. A January 27, 2009 photograph showing copy on the sign;
8. A circa 2010 photograph showing copy on the sign;
9. A February 3, 2011 photograph showing copy on the sign;
10. A July 2012 photograph from Google Maps’ website showing copy on the sign;
11. A January 2013 photograph from Google Maps’ website showing copy on the sign;
12. An October 2014 photograph from Google Maps’ website showing copy on the sign;
13. Several photographs dated January 6, 2016 showing copy on the sign; and
14. A sworn affidavit from Jeffrey Feldman, dated June 15, 2011, in which he attests that “[f]rom personal observation, [...] Seaboard, Vista and Van Wagner have continuously – with a gap of no longer than 2-3 months – placed advertising signage on the north wall of the Subject Premises; and that this advertising signage has always been the same dimensions as exist today.”

As the submitted photographic evidence does not demonstrate that the sign has not discontinued for two or more years because of the absence of photographic evidence between 1995 and 2005, the non-conforming sign’s use has discontinued and shall thereafter be used only for a conforming use pursuant to ZR 52-61.

Therefore, the applicant’s above stated request is hereby denied; and

WHEREAS, this is an appeal for interpretation under Section 72-11 of the Zoning Resolution of the City of New York (“ZR” or the “Zoning Resolution”) and Section 666(6)(a) of the New York City Charter, brought on behalf of Westbroad Company, LLC (“Appellant”), alleging errors in the above determination pertaining to whether an advertising sign at the subject site is a lawful non-conforming use under the Zoning Resolution; and

WHEREAS, a public hearing was held on this application on February 26, 2019, after due notice by publication in *The City Record*, and then to decision on the same date; and

MINUTES

WHEREAS, Vice-Chair Chanda performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the subject site is located at the northwest corner of West Broadway and Murray Street, located in a C6-2A zoning district, in the Special Tribeca Mixed Use District, in Manhattan; and

WHEREAS, this appeal concerns an advertising sign with a surface area of 792 square feet (22 feet by 36 feet) located on the wall of a six-story, with cellar, commercial building; and

WHEREAS, Appellant commenced this appeal on September 12, 2017; and

WHEREAS, Appellant states that the subject sign constitutes a lawful non-conforming use because the subject site has been used continuously for advertising from 1990 to the present and that the subject sign became nonconforming in 1995 when the subject site was rezoned from an M1-5 zoning district to a C6-2A zoning district; and

WHEREAS, Appellant states that DOB has changed its determination with respect to the subject site, and DOB now concurs that Appellant's "evidence demonstrates that the sign displayed copy at the subject premises continuously" and "may hereafter continue at the present location"; and

WHEREAS, accordingly, Appellant requests withdrawal of this appeal.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *permit* this appeal to be *withdrawn*.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated March 29, 2017, acting on Alteration Application No. 321356215, reads in pertinent part:

1. Enlargement to the proposed Use Group 3 school is contrary to ZR 42-10.
2. The proposed enlargement does not comply with the rear yard requirements of ZR 43-26; and

WHEREAS, this is an application under ZR §§ 73-19 and 73-03 to permit, in an M1-2 zoning district, the operation of a school, contrary to ZR § 42-10, and under ZR § 72-21 to permit an enlargement of the school building that does not comply with rear yard requirements, contrary to ZR § 43-46; and

WHEREAS, this application has been brought on behalf of Bnos Zion of Bobov (the “School”), a private school, in conjunction with a variance application under BSA Calendar Number 2016-4339-BZ to permit the development of a seven-story, with cellar and sub-cellar, school building at 5018 14th Avenue, Brooklyn, comprised of Tax Lot 44, Tax Lot 46 and Tax Lot 49 on Block 5649; and

WHEREAS, a public hearing was held on this application on October 17, 2017, after due notice by publication in *The City Record*, with continued hearings on June 19, 2018, and December 11, 2018, and then to decision on February 26, 2019; and

WHEREAS, Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding

neighborhood; and

WHEREAS, Community Board 12, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of 39th Street, between 14th Avenue and 15th Avenue, in an M1-2 zoning district, in Brooklyn; and

WHEREAS, the subject site has approximately 80 feet of frontage along 39th Street, between 93 and 160 feet of depth, 10,268 square feet of lot area and is occupied by a two-story commercial building; and

WHEREAS, the applicant proposes to enlarge the existing building for the School’s use with 31,470 square feet of floor area (3.06 FAR) and a rear yard depth of 10 feet for the two-story enlargement; and

WHEREAS, the applicant submits that, at the subject site, school use is not permitted under ZR § 42-10, and the two-story enlargement must have a rear yard with a minimum depth of 20 feet under ZR § 43-26; and

WHEREAS, ZR § 73-19 provides:

In C8 or M1 Districts, the Board of Standards and Appeals may permit *schools* which have no *residential* accommodations except *accessory* accommodations for a caretaker, provided that the following findings are made:

- (a) that within the neighborhood to be served by the proposed *school* there is no practical possibility of obtaining a site of adequate size located in a district wherein it is permitted as of right, because appropriate sites in such districts are occupied by substantial improvements;
- (b) that such *school* is located not more than 400 feet from the boundary of a district wherein such *school* is permitted as-of-right;
- (c) that an adequate separation from noise, traffic and other adverse effects of the surrounding *non-Residential Districts* is achieved through the use of sound-attenuating exterior wall and window construction or by the provision of adequate open areas along *lot lines* of the *zoning lot*; and
- (d) that the movement of traffic through the *street* on which the *school* is located can be controlled so as to protect children going to and from the *school*. The Board shall refer the application to the Department of Traffic for its report with respect to vehicular hazards to the safety of children within the block and in the immediate vicinity of the proposed site.

The Board may prescribe additional appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area.

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

MINUTES

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, as to the threshold issue of whether the School qualifies as a school for purposes of ZR § 73-19, the applicant states that the School meets the ZR § 12-10 definition of "school" because it provides full-time day instruction and a course of study that meets the requirements of Sections 3204, 3205 and 3210 of the New York State Education Law; and

WHEREAS, with respect to ZR § 73-19(a), an applicant must demonstrate its inability to obtain a site for the development of a school within the neighborhood to be served, and with a size sufficient to meet the programmatic needs of the school, within a district where the school is permitted as-of-right; and

WHEREAS, the applicant states that, at the subject site, the School requires a development site that can accommodate a building with at minimum of 30,000 square feet of floor area and no more than seven stories; and

WHEREAS, in support of this contention, the applicant submitted a comprehensive study of the School's programmatic needs, demonstrating that the School requires two separate expansion sites (namely, the site located at 5018 14th Avenue and the subject site) in order to accommodate its projected increase in enrollment from 2,031 students to 3,362 students, necessitating an increase of approximately 120,000 gross square footage; and

WHEREAS, the applicant notes that the School currently faces programmatic deficiencies to be resolved by the School's proposed expansion with respect to the crowding of classrooms; the lack of any science laboratory or facilities devoted to home economics, sewing or cooking; insufficient faculty spaces with no conference rooms; and small library spaces and lacking support spaces for tutoring and occupational and physical therapy; and

WHEREAS, thus, the applicant has demonstrated that the School's stated requirements related to size and configuration are justified by the School's programmatic needs; and

WHEREAS, the applicant represents that the School has conducted an exhaustive search for potential expansion sites using the following criteria: suitability for a building with at least 30,000 square feet of floor area and no more than seven stories in height, as required by the School's

programmatic needs; and

WHEREAS, the applicant represents that the School considered sites located within an R6 zoning district, where the maximum permitted Floor Area Ratio is 4.8, and sites located within an R5 zoning district, where the maximum permitted Floor Area Ratio is 2.0; however, none of the sites have sufficient lot area to accommodate the School's search criteria; and

WHEREAS, thus, the applicant maintains that the site search establishes that there is no practical possibility of obtaining a site of adequate size in a nearby zoning district where a school would be permitted as-of-right; and

WHEREAS, accordingly, the Board finds that the requirements of ZR § 73-19(a) are met; and

WHEREAS, ZR § 73-19(b) requires an applicant to demonstrate that the proposed school is located no more than 400 feet from the boundary of a district in which such a school is permitted as of right; and

WHEREAS, the applicant states that the subject site is in the immediate vicinity of an R6 zoning district boundary line and that the entire site is within 400 feet of said R6 zoning district, and notes that school uses are permitted as-of-right in R6 zoning districts; and

WHEREAS, in support of this contention, the applicant submitted a radius diagram and zoning map which reflect that the subject site is adjacent to an R6 zoning district; and

WHEREAS, accordingly, the Board finds that the requirements of ZR § 73-19(b) are met; and

WHEREAS, ZR § 73-19(c) requires an applicant to demonstrate how it will achieve adequate separation from noise, traffic and other adverse effects of the surrounding non-residential district; and

WHEREAS, the applicant states that there are a number of automotive and manufacturing uses in the vicinity of the subject site but that, by proposing three-hour rated fireproof construction with composite window-wall noise attenuation of 28 dbA, the School will be adequately separated from these uses; and

WHEREAS, the applicant further notes that, with respect to soil vapor and potential vapor encroachment, coating the building slab with a liquid epoxy vapor barrier will prevent future soil vapor migration and that any other hazardous materials that may be present in the existing building materials will be subject to standard abatement procedures and remediated in accordance with applicable regulations; and

WHEREAS, the applicant states that, based on an assessment of the surrounding area, no significant adverse air quality impacts are expected; and

WHEREAS, the applicant studied sound levels between 70 dbA and 80 dbA, the proposed building has been designed to provide noise attenuation to reduce the interior sound levels by 28 dbA; and

WHEREAS, the Board finds that the conditions surrounding the site and the proposed building's use will adequately separate the proposed school use from noise,

MINUTES

traffic and other adverse effects of any of the uses within the surrounding M1-2 zoning district; accordingly, the Board finds that the requirements of ZR § 73-19(c) are met; and

WHEREAS, ZR § 73-19(d) requires an applicant to demonstrate how the movement of traffic through the street on which the school will be located can be controlled so as to protect children traveling to and from the school; and

WHEREAS, the applicant states that, with respect to transportation, there would be no potential for significant adverse transportation impacts and, after evaluating safety conditions around the subject site, no pedestrian concerns were identified; and

WHEREAS, the applicant further notes that the School has requested a “no standing” zone between the hours of 7:00 a.m. and 7:00 p.m. to be provided in front of the subject site; that the School’s staff will employ two-way radio telecommunication devices to guide students to and from school buses; and

WHEREAS, the applicant also submitted an operational plan designed to ensure the safety of the School’s arrivals and departures including the following measures: placement of a crossing guard at the subject site; providing at least four teachers at the entrances and exits of the proposed building to escort students to and from school buses; coordinating with local businesses to ensure loading and unloading activities will be scheduled outside the hours of 9:00 a.m. and 4:00 p.m. when the School is in session; installation of protective bollards on the sidewalk to the east of the subject site to provide a physical barrier between pedestrians and vehicles; the implementation of a “no standing” zone for buses along the front of the subject site; and the off-site parking of school buses; and

WHEREAS, with respect to bus parking, the applicant submitted a parking lease to allow bus parking at 1453 62nd Street (Block 5727, Tax Lot 46), Brooklyn as well as an off-street bus parking restrictive declaration to be recorded against the property to ensure that at all times the School will provide off-street bus parking for all of its school buses, when not in use; and

WHEREAS, the Board referred the application to the School Safety Engineering Office of the Department of Transportation (“DOT”); and

WHEREAS, by letter dated November 28, 2018, DOT states that, with respect to the subject site, the School shall close unutilized existing curb cuts along the School’s proposed frontage, including an existing curb cut along frontage on the north side of 39th Street, approximately 5–10 feet west of the School’s entrance, and an existing curb cut along frontage on the north side of 39th Street, approximately 5–10 feet east of the School’s entrance, and that, upon approval of this application and near the end of construction, the School shall notify DOT so that DOT can determine if any additional traffic safety improvements or parking regulation changes are necessary, including the placement of appropriate school warning signage and school loading zones to be sited in accordance with DOT standards; and

WHEREAS, the Board finds that the abovementioned measures will control traffic so as to protect children going to and from the proposed school; and

WHEREAS, accordingly, the Board finds that the requirements of ZR § 73-19(d) are met; and

WHEREAS, the Board acknowledges that the School, as an educational institution, is entitled to deference under the law of the State of New York as to zoning and its ability to rely upon pro-grammatic needs in support of this application; and

WHEREAS, specifically, as held in *Cornell University v. Bagnardi*, 68 N.Y.2d 583 (1986), a zoning board must grant an educational or religious institution’s application unless it can be shown to have an adverse effect on the health, safety or welfare of the community and general concerns about traffic and disruption of the residential character of the neighborhood are insufficient grounds for the denial of such applications; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, consistent with ZR § 72-21, the applicant submits that the School’s proposed building is necessary to accommodate the School’s programmatic needs and, as discussed above, submitted a study of the School’s programmatic needs, which require the following: both secular and religious educational spaces, including classrooms, specialized instructional spaces (including computer training, art, music, sewing and cooking), library resources, food service and space for public assemblies and administrative functions; the pairing of every two grades into a single academic unit under interrelated supervision; and conformance to planning standards and design guidelines for comparable educational facilities (including the provision of light and air to every classroom); and

WHEREAS, the applicant analyzed and detailed the deleterious effects that the complying building form would have on the School’s programmatic needs based on the school’s educational mission and projected occupancy; and

WHEREAS, the applicant notes that an as-of-right development would not meet the School’s programmatic needs because only 109 classrooms would be allowed, where 129 are required; only 15 of 16 classrooms would have light and air; and the classrooms would be of insufficient size; and

WHEREAS, consistent with *Cornell University v. Bagnardi*, 68 N.Y.2d 583 (1986), the Board finds that the School’s programmatic needs create practical difficulties or unnecessary hardship in complying strictly with applicable zoning regulations that are not created by general circumstances in the neighborhood or district; and

WHEREAS, the applicant notes that, because the

MINUTES

School is a non-profit organization, this application need not demonstrate financial hardship; and

WHEREAS, instead, the applicant notes and the Board finds that the variance requested is necessary to accommodate the School's programmatic needs with adequate space, facilities and organization; and

WHEREAS, the applicant states that the proposed building would not alter the essential character of the neighborhood or impair the use or development of adjacent properties; and

WHEREAS, the applicant studied the surrounding area, noting that, as discussed above regarding the School's use, schools are permitted as of right in areas immediately surrounding the subject site; and

WHEREAS, the applicant notes that the subject site is characterized by a mix of residential, commercial and manufacturing uses and that there are other educational facilities in the vicinity; and

WHEREAS, the applicant represents that, with respect to the rear of the subject site, adjacent lots are occupied by commercial, manufacturing and automotive uses with a vacant lot to the north of the subject site; and

WHEREAS, the applicant further represents that none of the uses immediately adjacent to the surroundings site will be adversely affected by a reduction in the depth of the rear yard for the School's proposed enlargement; and

WHEREAS, with respect to the built form of the proposed building, the applicant notes that the façade is primarily composed of brick with the base faced with precast concrete; and

WHEREAS, with respect to refuse, the applicant submits that the School's proposed building will provide areas for refrigerated trash storage space located within the interior of the building; and

WHEREAS, the Board finds that the proposed variance will not alter the essential character of the neighborhood or district in which the subject site is located; will not substantially impair the appropriate use or development of adjacent property; and will not be detrimental to the public welfare; and

WHEREAS, the applicant submits that the above practical difficulties or unnecessary hardship do not constitute a self-created hardship; and

WHEREAS, the Board finds that the above practical difficulties or unnecessary hardship have not been created by the owner or by a predecessor in title; and

WHEREAS, the applicant states that the proposed variance is the minimum necessary to permit a productive use of the site, as reflected by evidence of School's programmatic needs; and

WHEREAS, in response to questions from the Board with respect to the size of spaces within the School's proposed building, the applicant submitted detailed schedules for each space demonstrating full utilization based on the School's programmatic needs; and

WHEREAS, the applicant further provided evidence that, based on comparisons to square footages for schools

constructed within the City, the square footage per student proposed for the School is consistent with other schools recently constructed by the School Construction Authority; and

WHEREAS, accordingly, the Board finds that the proposed variance is the minimum necessary to afford relief within the intent and purposes of the Zoning Resolution; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 17BSA032K, dated July 12, 2018; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design; Natural Resources; Hazardous Materials; Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction Impacts; and

WHEREAS, by correspondence dated February 23, 2017, the New York City Landmarks Preservation Commission represents that the proposed project would not result in any adverse impacts on architectural or archeological resources; and

WHEREAS, by letter dated May 16, 2017, the New York City Department of Environmental Protection ("DEP") states that the March 2017 Revised Remedial Action Plan ("RAP") for 5018 14th Avenue is acceptable on condition that, at the completion of the project, a professional engineer certified Remedial Closure Report be submitted to DEP for review and approval for the proposed project indicating that all remedial requirements have been properly implemented (including proper transportation and disposal manifest and certificates from impacted soils removed and properly disposed of in accordance with all New York State Department of Environmental Conservation regulations and proof of installation of an engineering control system); and

WHEREAS, by letter dated August 9, 2017, DEP states that the February 2017 Remedial Closure Report for the subject site (1411 39th Street), which summarizes the remedial activities completed, which include the installation of a new concrete layer over the existing slab of the building's ground floor, ensuring that any compromise or cracks in the existing slab were either filled or covered with new concrete, the installation of an epoxy vapor barrier over the new concrete layer and the indoor air sampling using a photoionization detector, is acceptable and that DEP has no objection to the issuance of any permits or a certificate of occupancy for the subject site; and

WHEREAS, by letter dated November 14, 2018, DEP states that the proposed project would not result in any potential for significant adverse impacts in regards to air quality; that, for 5018 14th Avenue, in order to attain an

MINUTES

indoor noise level of 45 dBA within the proposed development, a composite window-wall noise attenuation of 31 dBA on the façade facing 14th Avenue and 28 dBA on the façade facing 51st Street and an alternative means of ventilation are required; and that, for the subject site (1411 39th Street), in order to attain an indoor noise level of 45 dBA within the enlarged building, a composite window-wall noise attenuation of 28 dBA on the southwestern façade facing 39th Street and an alternative means of ventilation are required; and

WHEREAS, by letter dated January 11, 2019, DOT states that, based on a levels of service analysis conducted at ten pedestrian elements (three crosswalks, four sidewalks and three corners), improvements at the intersection of 14th Avenue and 50th Street shall include widening the west crosswalk from 12 feet to 13.5 feet and widening the south crosswalk from 12.5 feet to 13 feet; that the applicant shall design and implement a 6-foot half-curb extension at the northwest corner of 14th Avenue and 51st Street to reduce the crossing distance across 14th Avenue, which shall be included as part of the Builder's Pavement Plan; that, with regard to unutilized existing curb cuts along the frontage of 5018 14th Avenue (at the north side of 51st Street, approximately 90 feet west of 14th Avenue, and the west side of 14th Avenue, approximately 50 feet north of 51st Street) and along the frontage of the subject site (1411 39th Street) (the north side of 39th Street, approximately 5–10 feet east and west of the School's entrances), the applicant shall close these unutilized existing curb cuts on the Builders Pavement Plan to be filed with DOB; that, because the subject site (1411 39th Street) is located in a manufacturing area, the applicant shall install a protective physical barrier (such as planters, posts or bollards) near the eastern lot line to be reviewed and approved by DOT Revocable Consent and the New York City Public Design Commission and shall implement a teacher monitoring system on the north side of 39th Street to provide active surveillance of students near the School's main entrance; that the School shall continue to implement its teacher-monitor safety system—including, at 5018 14th Avenue, teacher monitors to be stationed along the 50th Street, 51st Street and 14th Avenue frontages during arrival and departure times with two New York Police Department crossing guards (one at 14th Avenue and 50th Street, the other at 14th Avenue and 51st Street) with an additional crossing guard proposed at 14th Avenue and 39th Street; that, prior to the completion of construction, the applicant shall coordinate with DOT School Safety and the Brooklyn Borough Engineer for the placement of appropriate school warning and loading signage to ensure that school buses and parent vehicles have direct access to the curb during the School's arrival and departure hours; that the School shall not park school buses on the street and shall instead use an off-street parking lot located on 15th Avenue and 62nd Street to store buses when not in use, and the School shall ensure that buses be parked in an off-street facility in the event that the lease of the proposed off-street parking lot expires; that the proposed pedestrian and school

safety measures are reasonable and feasible; and that the applicant shall inform DOT six (6) months prior to the project's completion to coordinate the implementation of the proposed improvement measures and that DOT will participate in the review process relating to all future modifications to geometric alignment, curb cuts, striping and signage during the preliminary and final design phases; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-19, 73-03 and 72-21 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR §§ 73-19 and 73-03 to *permit*, in an M1-2 zoning district, the operation of a school, contrary to ZR § 42-10, and under ZR § 72-21 to *permit* an enlargement of the school building that does not comply with rear yard requirements, contrary to ZR § 43-46; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked "Received February 26, 2019"-Fifteen (15) sheets; and *on further condition*:

THAT the school building at 1411 39th Street shall have a rear yard with a minimum depth of 10 feet, as illustrated on the Board-approved drawings;

THAT the School shall not permit, at 5018 14th Avenue, any commercial use of any multipurpose gymnasium or dining hall for commercial catering or operation as a banquet hall, which commercial uses are not permitted in R6 zoning districts;

THAT a restrictive declaration shall be recorded against the property substantially conforming to the form and substance of the following:

DECLARATION, made this _____ day of _____, 2019, by Bnos Zion of Bobov, hereafter referred to as the "Declarant" having an office at 5000 14th Avenue, Brooklyn, NY 11219.

WHEREAS, the Declarant operates a school at Block 5649, Lots 32, 38, 44, 46 and 49, and Block 5347, Lots 13 and 71 on the Tax Map of the City of New York, County of Kings, hereinafter referred to as the "School Sites."

WHEREAS, the Declarant currently utilizes the parking lot located at Tax Block 5301, Lot 20, County of Kings, for the off-street storage of thirteen (13) school buses (the "Existing Bus

MINUTES

Lot”).

WHEREAS, the Declarant, commencing on or about September 1, 2019, will utilize the parking lot located at Tax Block 5727, Lot 46, County of Kings, for the off-street storage of its buses (the “Subsequent Bus Lot”).

WHEREAS, the Declarant has requested various approvals from the New York City Board of Standards and Appeals to construct and/or alter buildings located on the School Sites, under BSA Cal. Nos. 2016-4274-BZ and 2016-4339-BZ.

WHEREAS, the New York City Board of Standards and Appeals requires the execution and recording of this Declaration in connection with the off-street storage of the Declarant’s buses.

NOW, THEREFORE, in consideration of approvals by the New York City Board of Standards and Appeals, the Declarant hereby declares as follows:

1. The Declarant hereby covenants and agrees for itself, its successors and assigns that in the event that the Existing Bus Lot or the Subsequent Bus Lot are no longer available to Declarant, Declarant shall utilize an alternate lot at which the parking and storage of its thirteen (13) buses, or the total number of buses utilized by the Declarant at such time, is permitted in accordance with the applicable provisions of the Zoning Resolution of the City of New York;
2. The Declarant shall at no time utilize on-street parking spaces for the storage of any of its buses;
3. This Declaration may not be modified, amended or terminated without the prior written consent of the New York City Board of Standards and Appeals;
4. The covenants set forth herein shall run with the land of Block 5649, Lots 32, 38, 44, 46 and 49, and Block 5347, Lots 13 and 71 on the Tax Map of the City of New York, County of Kings, and be binding upon and inure to the benefit of the Declarant their respective heirs, legal representatives, successors and assigns;
5. Failure to comply with the terms of this declaration may result in the revocation of approvals by the New York City Board of Standards and Appeals, which may result in the revocation of a certificate of occupancy; and
6. This declaration shall be recorded at the city register's (county clerk's) office against all affected parcels of land and the cross-reference number and title of the declaration shall be recorded on each

temporary and permanent certificate of occupancy hereafter issued to buildings located on the affected parcels and in any deed for the conveyance thereof.

THAT in order to attain an indoor noise level of 45 dBA within the building, a composite window–wall noise attenuation of 28 dBA on the southwestern façade facing 39th Street and an alternative means of ventilation shall be provided, as indicated on the Board-approved drawings;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number (“BSA Cal No 2016-4274-BZ”), shall be obtained within four (4) years, by February 26, 2023;

THAT the School shall close unutilized existing curb cuts along the School’s frontage, including an existing curb cut along frontage on the north side of 39th Street, approximately 5–10 feet west of the School’s entrance, and an existing curb cut along frontage on the north side of 39th Street, approximately 5–10 feet east of the School’s entrance; near the conclusion of construction, the School shall notify the Department of Transportation so that the Department of Transportation can determine if any additional traffic safety improvements or parking regulation changes are necessary, including the placement of appropriate school warning signage and school loading zones to be sited in accordance with DOT standards;

THAT based on a levels of service analysis conducted at ten pedestrian elements (three crosswalks, four sidewalks and three corners), improvements at the intersection of 14th Avenue and 50th Street shall include widening the west crosswalk from 12 feet to 13.5 feet and widening the south crosswalk from 12.5 feet to 13 feet; that the applicant shall design and implement a 6-foot half-curb extension at the northwest corner of 14th Avenue and 51st Street to reduce the crossing distance across 14th Avenue, which shall be included as part of the Builder’s Pavement Plan; that, with regard to unutilized existing curb cuts along the frontage of 5018 14th Avenue (at the north side of 51st Street, approximately 90 feet west of 14th Avenue, and the west side of 14th Avenue, approximately 50 feet north of 51st Street) and along the frontage of the subject site (1411 39th Street) (the north side of 39th Street, approximately 5–10 feet east and west of the School’s entrances), the applicant shall close these unutilized existing curb cuts on the Builders Pavement Plan to be filed with DOB; that, because the subject site (1411 39th Street) is located in a manufacturing area, the applicant shall install a protective physical barrier (such as planters, posts or bollards) near the eastern lot line to be reviewed and approved by DOT Revocable Consent and the New York City Public Design Commission and shall implement a teacher monitoring system on the north side of 39th Street to provide active surveillance of students near the School’s main entrance; that the School shall continue to implement its teacher-monitor safety system—including, at 5018 14th Avenue, teacher monitors to be stationed along

MINUTES

the 50th Street, 51st Street and 14th Avenue frontages during arrival and departure times with two New York Police Department crossing guards (one at 14th Avenue and 50th Street, the other at 14th Avenue and 51st Street) with an additional crossing guard proposed at 14th Avenue and 39th Street; that, prior to the completion of construction, the applicant shall coordinate with DOT School Safety and the Brooklyn Borough Engineer for the placement of appropriate school warning and loading signage to ensure that school buses and parent vehicles have direct access to the curb during the School's arrival and departure hours; that the School shall not park school buses on the street and shall instead use an off-street parking lot located on 15th Avenue and 62nd Street to store buses when not in use, and the School shall ensure that buses be parked in an off-street facility in the event that the lease of the proposed off-street parking lot expires; that the proposed pedestrian and school safety measures are reasonable and feasible; and that the applicant shall inform DOT six (6) months prior to the project's completion to coordinate the implementation of the proposed improvement measures and that DOT will participate in the review process relating to all future modifications to geometric alignment, curb cuts, striping and signage during the preliminary and final design phases;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 26, 2019.

2016-4335-BZ

CEQR#17-BSA-043Q

APPLICANT – Gerald J. Caliendo, RA, AIA, for 193 Street LLC, Joseph Atarien, President, owner.

SUBJECT – Application November 21, 2016 – Variance (§72-21) proposed construction of a two story, two family dwelling contrary to Floor Area Ratio and Maximum Lot Coverage (ZR 23-141), Number of Dwelling Units (ZR 23-22) and Front Yard (ZR 23-45). R3X zoning district.

PREMISES AFFECTED – 220-21 137th Avenue, Block 13112, Lot 1, Borough of Queens.

COMMUNITY BOARD #13Q

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision on behalf of the Queens Borough Commissioner, dated November 9, 2016, acting on Department of Buildings (“DOB”) Application No. 421306919 reads in pertinent part:

The proposed construction of a 2 story, 2 family dwelling in an R3X zoning district is contrary to the following Z.R. Sections:

1. [. . .];
2. [. . .];
3. [. . .];
4. Proposed (1) front yard is contrary to ZR 23-45; and

WHEREAS, this is an application under ZR § 72-21 to permit, with an R3X zoning district, the construction of a detached two-family dwelling that does not comply with zoning regulations pertaining to front yards, contrary to ZR § 23-45; and

WHEREAS, a public hearing was held on this application on September 13, 2018, after due notice by publication in *The City Record*, with a continued hearing on February 26, 2019, and then to decision on that date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the subject site and surrounding neighborhood; and

WHEREAS, the subject site is located on the northwest corner of 137th Avenue and 220th Place, in an R3X zoning district, in Queens; and

WHEREAS, the site has approximately 25 feet of frontage along 137th Avenue, 100 feet of frontage along 220th Place, 2,500 square feet of lot area and is currently vacant; and

WHEREAS, Community Board 13, Queens recommends disapproval of this application on the basis that the site is not clearly unique, and a two-family residence is not the minimum variance; and

WHEREAS, New York State Assemblywoman Alicia Hyndman submitted a letter in opposition to this application, citing the Community Board 13 public hearing on the application, at which residents expressed concerns about the

MINUTES

impact of the variance on current services and local parking; and

WHEREAS, New York State Senator Leroy Comrie and New York City Councilmember Donovan Richards submitted letters in opposition to this application, citing the Community Board's opposition to the application, particularly the request to waive front yard requirements; and

WHEREAS, Queens Borough President Melinda Katz recommends disapproval of this application on the basis that, without the required front yard, the proposed development would be out of character with neighboring homes and a single-family dwelling at the site would reduce the degree of non-compliance and better fit with the existing neighborhood character; and

WHEREAS, the applicant originally proposed to develop the site with a detached two-story two-family dwelling containing 1,980 square feet of floor area, a floor area ratio ("FAR") of 0.79, a building width of 22 feet fronting 137th Avenue, one front yard along 137th Avenue with a depth of 12'-9" and a detached one-car garage; and

WHEREAS, at the subject site, the maximum permitted FAR is 0.72 (1,800 square feet of floor area) (0.50 plus an increase of up to 20 percent provided that such increase in floor area is located directly under a flopping roof that rises at least three and one half inches in vertical distance for each foot of horizontal distance and the structural headroom of such floor area is between five and eight feet and including up to 300 square feet if at least one enclosed accessory off-street parking space is provided in a garage located wholly or partly in the side lot ribbon) pursuant to ZR § 23-142; the maximum number of dwelling units is one pursuant to ZR § 23-22, and two front yards of at least ten (10) feet and 12'-9" are required pursuant to ZR § 23-45; and

WHEREAS, over the course of hearings, the proposal was revised to develop the site with a detached two-story two-family dwelling containing 1,674 square feet of floor area (0.67 FAR), a building width of 18 feet fronting 137th Avenue, a front yard of 12'-9" fronting 137th Avenue, a front yard of 4 feet fronting 220th Place and a detached one-car garage; thus, eliminating a waiver of ZR § 23-142 for floor area; and

WHEREAS, pursuant to ZR § 23-32, the minimum lot area and width for a two-family detached building at the subject site are 3,325 square feet and 35 feet, respectively, however, pursuant to ZR § 23-33, a two-family residence may be developed on a zoning lot with less than the prescribed minimum lot area or lot width if such zoning lot was owned separately and individually from all other adjoining tracts of land, both on the effective date of establishing the R3X zoning district on the zoning maps and on the date of application for a building permit; and, if developed as a two-family residence, meets the applicable density requirement of the zoning district in which such zoning lot is located; and

WHEREAS, the applicant submits that the subject site

was owned separately and individually from all other adjoining tracts of land on September 4, 2008, the effective date of the rezoning (C 080462 ZMQ) that changed the subject zoning district from R3-2 to R3X, and will be on the date of application for a building permit, and, further, that the proposed two-family residence meets the applicable density requirements, to wit, pursuant to ZR § 23-22, the maximum number of dwelling units at the site (equal to the maximum residential floor area permitted on the zoning lot divided by a factor of 1,000, with all fractions equal to or greater than three-quarters being considered one dwelling unit) is 2; and

WHEREAS, the applicant notes also that two-family detached residences (Use Group 2) are permitted in the subject zoning district as-of-right pursuant to ZR §§ 22-00 and 22-12; and

WHEREAS, accordingly, no waiver of ZR § 23-32 (Minimum Lot Area or Lot Width for Residences) or ZR § 23-22 (Maximum Number of Dwelling Units) has been sought in this application; and

WHEREAS, the applicant states, pursuant to ZR § 72-21(a), that the narrowness of the lot, its vacancy and status as a corner lot, for which two front yards are required, are unique physical conditions that create practical difficulty and unnecessary hardship in developing the site in compliance with the underlying district regulations; and

WHEREAS, in support of this assertion, the applicant provided a study of the 91 lots developed with single- or two-family dwellings located within 400 feet of the subject site and located in an R3X zoning district (the "Study Area") demonstrating that two other lots (2 percent) had a width of 25 feet, a depth of 100 feet and are currently vacant; one of the two lots is an interior lot and the other is a corner lot like the subject site, but is distinguishable from the subject parcel because it is under common ownership with an adjacent tax lot; and

WHEREAS, the applicant additionally analyzed the 235 lots located within 800 feet of the subject site and within an R3X zoning district and identified 34 lots (14 percent) with a width of 25 feet or less that are developed with single- or two-family dwellings with building frontages that range from 12 to 23 feet and six lots (3 percent), all interior lots with lot widths of less than 25 feet, that are vacant, but all six of these lots are under common ownership with at least one adjacent tax lot; and

WHEREAS, the applicant additionally notes that, according to Department of Buildings and Department of Finance records and Sanborn fire insurance maps of the immediate area dating from 1901 through 2006, the site has never been developed or otherwise previously occupied by a building or other structure; and

WHEREAS, in light of the foregoing, the Board finds that the narrowness of the lot, its vacancy, status as a corner lot and history of ownership separate and apart from adjacent tax lots create unnecessary hardship and practical difficulty in developing the site in strict compliance with the underlying bulk provisions of the Zoning Resolution; and

MINUTES

WHEREAS, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that compliance with applicable zoning regulations will result in a habitable home, in satisfaction of ZR § 72-21(b); and

WHEREAS, the applicant submits that the subject proposal will not alter the essential character of the neighborhood, which consists of one- to two-story detached or semi-attached single-and two-family detached dwellings, many of which were constructed prior to 1961 that are noncompliant with bulk regulations applicable in an R3X zoning district and notes that the subject proposal was revised to provide a front yard fronting 220th Place; and

WHEREAS, accordingly, the Board finds that the subject proposal will not alter the essential character of the neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare in satisfaction with ZR § 72-21(c); and

WHEREAS, the applicant submits, and the Board finds, that, per ZR § 72-21(d), the hardship was not created by the owner or a predecessor in title; and

WHEREAS, the applicant state that the revised proposal is the minimum relief required in satisfaction of ZR § 72-21(e); and

WHEREAS, the Board finds that the proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17BSA043Q, dated November 21, 2016; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR § 72-21 to permit, in an R3X zoning district, development of a detached two-family dwelling that does not comply with zoning regulations pertaining to front yards, contrary to ZR § 23-45; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received January 7, 2019"-Thirteen (13) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the site: maximum building width of 18 feet fronting 137th Avenue; front yards with minimum depths of 12'-9" fronting 137th Avenue and four feet fronting 220th Place, as illustrated on the BSA-approved plans;

THAT the Board has not granted any waiver of ZR § 23-142 to permit excess floor area, accordingly, DOB shall verify compliance of bonus floor area in the attic and one-car garage with ZR § 23-142(a) and (c);

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a certificate of occupancy, indicating this approval and calendar number (i.e. "BSA Cal. No. 2016-4335-BZ") shall be obtained within four (4) years;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 26, 2019.

APPLICANT – Pryor Cashman LLP, for Bnos Zion of Bobov, owner.

SUBJECT – Application November 22, 2016 – Variance (§72-21) to permit construction of a school (Use Group 3) (*Bnos Zion of Bobov*) contrary to underlying bulk requirements. R6 zoning district.

PREMISES AFFECTED – 5018 14th Avenue, Block 5649, Lot(s) 44, 46, Borough of Brooklyn.

COMMUNITY BOARD #12BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated October 28, 2016, acting on New Building Application No. 321380233, reads in pertinent part:

The proposed building is contrary to:

1. Maximum allowable Floor Area (ZR 24-11)
2. Maximum allowable Floor Area Ratio (ZR 24-11)
3. Maximum allowable Lot Coverage (ZR 24-11)
4. Maximum Street Wall Height (ZR 24-522)
5. Setback Requirements (ZR 24-522)
6. Sky Exposure Plane (ZR 24-522)
7. Rear Yard Requirements (ZR 24-36); and

WHEREAS, this is an application under ZR § 72-21 to permit, in an R6 zoning district, the development of a school building that does not comply with zoning regulations for floor area, lot coverage, street wall height, setbacks, sky exposure plane and rear yards, contrary to ZR §§ 24-11, 24-522 and 24-36; and

MINUTES

WHEREAS, this application has been brought on behalf of Bnos Zion of Bobov (the "School"), a private school, in conjunction with a special permit and variance application under BSA Calendar Number 2016-4274-BZ to permit the enlargement of a two-story school building at 1411 39th Street, Brooklyn, comprised of Tax Lot 3 and Tax Lot 71 on Block 5347; and

WHEREAS, a public hearing was held on this application on October 17, 2017, after due notice by publication in *The City Record*, with continued hearings on June 19, 2018, and December 11, 2018, and then to decision on February 26, 2019; and

WHEREAS, Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 12, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the northwest corner of 14th Avenue and 51st Street, in an R6 zoning district, in Brooklyn; and

WHEREAS, the subject site has approximately 80 feet of frontage along 14th Avenue, 120 feet of frontage along 51st Street, 10,021 square feet of lot area and is occupied by an existing four-story building on Tax Lot 49 to be demolished; and

WHEREAS, the applicant proposes to develop a new building at the subject site for the School's use with 70,444 square feet of floor area (7.03 FAR), lot coverage of 95.3 percent (corner lot portion) and 100 percent (through lot portion), street wall height rising 94'-1" for seven stories, no setbacks along 14th Avenue or 51st Street, sky exposure plane of 0 and no rear yard; and

WHEREAS, the applicant submits that, at the subject site, floor area may not exceed 48,101 square feet (4.80 FAR) under ZR § 24-11; lot coverage may not exceed 70 percent (corner lot portion) or 65 percent (interior lot portion) under ZR § 24-11; street wall height may not exceed 60'-0" for six stories under ZR § 24-522; setbacks of 15 feet along 14th Avenue and 20 feet along 51st Street are required under ZR § 24-522; sky exposure plane may not exceed a ratio of 5.6 to 1 from the horizontal along 14th Avenue and 2.7 to 1 from the horizontal along 51st Street under ZR § 24-522; and a rear yard with a depth of 30 feet is required for the interior lot portion of the subject site under ZR § 24-36; and

WHEREAS, the Board acknowledges that the School, as an educational institution, is entitled to deference under the law of the State of New York as to zoning and its ability to rely upon pro-grammatic needs in support of this application; and

WHEREAS, specifically, as held in *Cornell University v. Bagnardi*, 68 N.Y.2d 583 (1986), a zoning board must grant an educational or religious institution's application unless it can be shown to have an adverse effect on the health, safety or welfare of the community and general concerns about traffic and disruption of the residential

character of the neighborhood are insufficient grounds for the denial of such applications; and

WHEREAS, consistent with ZR § 72-21, the applicant represents that the School's proposed building is necessary to accommodate the School's programmatic needs and that the School's programmatic needs create practical difficulties or unnecessary hardship in complying strictly with applicable zoning regulations that are not created by general circumstances in the neighborhood or district; and

WHEREAS, in support of this contention, the applicant submitted a comprehensive study of the School's programmatic needs, demonstrating that the School requires two separate expansion sites (namely, the site located at 1411 39th Street and the subject site) in order to accommodate its projected increase in enrollment from 2,031 students to 3,362 students, necessitating an increase of approximately 120,000 gross square footage, and that the School's programmatic needs require the following: both secular and religious educational spaces, including classrooms, specialized instructional spaces (including computer training, art, music, sewing and cooking), library resources, food service and space for public assemblies and administrative functions; the pairing of every two grades into a single academic unit under interrelated supervision; and conformance to planning standards and design guidelines for comparable educational facilities (including the provision of light and air to every classroom); and

WHEREAS, the applicant notes that the School currently faces programmatic deficiencies to be resolved by the School's proposed development at the subject site with respect to the crowding of classrooms; the lack of any science laboratory or facilities devoted to home economics, sewing or cooking; insufficient faculty spaces with no conference rooms; and small library spaces and lacking support spaces for tutoring and occupational and physical therapy; and

WHEREAS, the applicant analyzed and detailed the deleterious effects that the complying building form would have on the School's programmatic needs based on the school's educational mission and projected occupancy; and

WHEREAS, the applicant notes that an as-of-right development at the subject site would not meet the School's programmatic needs because only 34 classrooms would be allowed, where 53 are required, and the classrooms would be of insufficient size; and

WHEREAS, consistent with *Cornell University v. Bagnardi*, 68 N.Y.2d 583 (1986), the Board finds that the School's programmatic needs create practical difficulties or unnecessary hardship in complying strictly with applicable zoning regulations that are not created by general circumstances in the neighborhood or district; and

WHEREAS, the applicant notes that, because the School is a non-profit organization, this application need not demonstrate financial hardship; and

WHEREAS, instead, the applicant notes and the Board finds that the variance requested is necessary to accommodate the School's programmatic needs with

MINUTES

adequate space, facilities and organization; and

WHEREAS, the applicant states that the proposed building would not alter the essential character of the neighborhood or impair the use or development of adjacent properties; and

WHEREAS, the applicant studied the surrounding area, noting that schools are permitted as of right at the subject site; and

WHEREAS, the applicant notes that the subject block is mainly characterized by educational facilities with non-compliances with respect to street wall heights and sky exposure plane regulations; and

WHEREAS, in support of this contention, the applicant provided a streetscape study and photographic montage demonstrating that the height of the proposed development is consistent with the built form of the surrounding area; and

WHEREAS, the applicant further submits that there are a number of six- and seven-story buildings in the vicinity that are of similar height to the proposed building; and

WHEREAS, with respect to refuse, the applicant submits that the School's proposed building will provide areas for refrigerated trash storage space located within the interior of the building; and

WHEREAS, with respect to transportation, the applicant states that there would be no potential for significant adverse transportation impacts and, after evaluating safety conditions around the subject site, no pedestrian concerns were identified; and

WHEREAS, the applicant further notes that there are existing "no standing" zones between the hours of 7:00 a.m. and 7:00 p.m. already provided in front of the subject site on 14th Avenue and 50th Street and that the School's staff will employ two-way radio telecommunication devices to guide students to and from school buses; and

WHEREAS, the applicant also submitted an operational plan designed to ensure the safety of the School's arrivals and departures including the following measures: placement of three or four crossing guards at the subject site; providing at least four teachers at the entrances and exits of the proposed building to escort students to and from school buses; the existing "no standing" zones for buses along the front of the subject site; and the off-site parking of school buses; and

WHEREAS, with respect to bus parking, the applicant submitted a parking lease to allow bus parking at 1453 62nd Street (Block 5727, Tax Lot 46), Brooklyn as well as an off-street bus parking restrictive declaration to be recorded against the property to ensure that at all times the School will provide off-street bus parking for all of its school buses, when not in use; and

WHEREAS, in response to concerns expressed by the Board at hearing, the applicant represents that the School shall not permit any commercial use of any multipurpose gymnasium or dining hall for commercial catering or operation as a banquet hall, which commercial uses are not permitted in R6 zoning districts; and

WHEREAS, the Board finds that the proposed variance will not alter the essential character of the neighborhood or district in which the subject site is located; will not substantially impair the appropriate use or development of adjacent property; and will not be detrimental to the public welfare; and

WHEREAS, the applicant submits that the above practical difficulties or unnecessary hardship do not constitute a self-created hardship; and

WHEREAS, the Board finds that the above practical difficulties or unnecessary hardship have not been created by the owner or by a predecessor in title; and

WHEREAS, the applicant states that the proposed variance is the minimum necessary to permit a productive use of the site, as reflected by evidence of School's programmatic needs; and

WHEREAS, in response to questions from the Board with respect to the size of spaces within the School's proposed building, the applicant submitted detailed schedules for each space demonstrating full utilization based on the School's programmatic needs; and

WHEREAS, the applicant further provided evidence that, based on comparisons to square footages for schools constructed within the City, the square footage per student proposed for the School is consistent with other schools recently constructed by the School Construction Authority; and

WHEREAS, accordingly, the Board finds that the proposed variance is the minimum necessary to afford relief within the intent and purposes of the Zoning Resolution; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 17BSA032K, dated July 12, 2018; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design; Natural Resources; Hazardous Materials; Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction Impacts; and

WHEREAS, by correspondence dated February 23, 2017, the New York City Landmarks Preservation Commission represents that the proposed project would not result in any adverse impacts on architectural or archeological resources; and

WHEREAS, by letter dated May 16, 2017, the New York City Department of Environmental Protection ("DEP") states that the March 2017 Revised Remedial Action Plan ("RAP") for the subject site (5018 14th Avenue) is acceptable on condition that, at the completion of the project, a professional engineer certified Remedial Closure

MINUTES

Report be submitted to DEP for review and approval for the proposed project indicating that all remedial requirements have been properly implemented (including proper transportation and disposal manifest and certificates from impacted soils removed and properly disposed of in accordance with all New York State Department of Environmental Conservation regulations and proof of installation of an engineering control system); and

WHEREAS, by letter dated August 9, 2017, DEP states that the February 2017 Remedial Closure Report for 1411 39th Street, which summarizes the remedial activities completed, which include the installation of a new concrete layer over the existing slab of the building's ground floor, ensuring that any compromise or cracks in the existing slab were either filled or covered with new concrete, the installation of an epoxy vapor barrier over the new concrete layer and the indoor air sampling using a photoionization detector, is acceptable and that DEP has no objection to the issuance of any permits or a certificate of occupancy for 1411 39th Street; and

WHEREAS, by letter dated November 14, 2018, DEP states that the proposed project would not result in any potential for significant adverse impacts in regards to air quality; that, for the subject site (5018 14th Avenue), in order to attain an indoor noise level of 45 dBA within the proposed development, a composite window-wall noise attenuation of 31 dBA on the façade facing 14th Avenue and 28 dBA on the façade facing 51st Street and an alternative means of ventilation are required; and that, for 1411 39th Street, in order to attain an indoor noise level of 45 dBA within the enlarged building, a composite window-wall noise attenuation of 28 dBA on the southwestern façade facing 39th Street and an alternative means of ventilation are required; and

WHEREAS, by letter dated January 11, 2019, DOT states that, based on a levels of service analysis conducted at ten pedestrian elements (three crosswalks, four sidewalks and three corners), improvements at the intersection of 14th Avenue and 50th Street shall include widening the west crosswalk from 12 feet to 13.5 feet and widening the south crosswalk from 12.5 feet to 13 feet; that the applicant shall design and implement a 6-foot half-curb extension at the northwest corner of 14th Avenue and 51st Street to reduce the crossing distance across 14th Avenue, which shall be included as part of the Builder's Pavement Plan; that, with regard to unutilized existing curb cuts along the frontage of the subject site (5018 14th Avenue) (at the north side of 51st Street, approximately 90 feet west of 14th Avenue, and the west side of 14th Avenue, approximately 50 feet north of 51st Street) and along the frontage of 1411 39th Street (the north side of 39th Street, approximately 5–10 feet east and west of the School's entrances), the applicant shall close these unutilized existing curb cuts on the Builders Pavement Plan to be filed with DOB; that, because 1411 39th Street is located in a manufacturing area, the applicant shall install a protective physical barrier (such as planters, posts or bollards) near the eastern lot line to be reviewed and

approved by DOT Revocable Consent and the New York City Public Design Commission and shall implement a teacher monitoring system on the north side of 39th Street to provide active surveillance of students near the School's main entrance; that the School shall continue to implement its teacher-monitor safety system—including, at the subject site (5018 14th Avenue), teacher monitors to be stationed along the 50th Street, 51st Street and 14th Avenue frontages during arrival and departure times with two New York Police Department crossing guards (one at 14th Avenue and 50th Street, the other at 14th Avenue and 51st Street) with an additional crossing guard proposed at 14th Avenue and 39th Street; that, prior to the completion of construction, the applicant shall coordinate with DOT School Safety and the Brooklyn Borough Engineer for the placement of appropriate school warning and loading signage to ensure that school buses and parent vehicles have direct access to the curb during the School's arrival and departure hours; that the School shall not park school buses on the street and shall instead use an off-street parking lot located on 15th Avenue and 62nd Street to store buses when not in use, and the School shall ensure that buses be parked in an off-street facility in the event that the lease of the proposed off-street parking lot expires; that the proposed pedestrian and school safety measures are reasonable and feasible; and that the applicant shall inform DOT six (6) months prior to the project's completion to coordinate the implementation of the proposed improvement measures and that DOT will participate in the review process relating to all future modifications to geometric alignment, curb cuts, striping and signage during the preliminary and final design phases; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-19, 73-03 and 72-21 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR § 72-21 to *permit*, in an R6 zoning district, the development of a school building that does not comply with zoning regulations for floor area, lot coverage, street wall height, setbacks, sky exposure plane and rear yards, contrary to ZR §§ 24-11, 24-522 and 24-36; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked "Received February 26, 2019"-Twenty four (24) sheets; and *on further condition*:

MINUTES

THAT the bulk parameters of the school building at 5018 14th Avenue shall be as follows: a maximum of 70,444 square feet of floor area (7.03 FAR), maximum lot coverage of 95.3 percent (corner lot portion) and 100 percent (through lot portion), street wall height rising a maximum of 94'-1" for seven stories, no setbacks along 14th Avenue or 51st Street, sky exposure plane of 0 and no rear yard, as illustrated on the Board-approved drawings;

THAT the School shall not permit, at 5018 14th Avenue, any commercial use of any multipurpose gymnasium or dining hall for commercial catering or operation as a banquet hall, which commercial uses are not permitted in R6 zoning districts;

THAT a restrictive declaration shall be recorded against the property substantially conforming to the form and substance of the following:

DECLARATION, made this _____ day of _____, 2019, by Bnos Zion of Bobov, hereafter referred to as the "Declarant" having an office at 5000 14th Avenue, Brooklyn, NY 11219.

WHEREAS, the Declarant operates a school at Block 5649, Lots 32, 38, 44, 46 and 49, and Block 5347, Lots 13 and 71 on the Tax Map of the City of New York, County of Kings, hereinafter referred to as the "School Sites."

WHEREAS, the Declarant currently utilizes the parking lot located at Tax Block 5301, Lot 20, County of Kings, for the off-street storage of thirteen (13) school buses (the "Existing Bus Lot").

WHEREAS, the Declarant, commencing on or about September 1, 2019, will utilize the parking lot located at Tax Block 5727, Lot 46, County of Kings, for the off-street storage of its buses (the "Subsequent Bus Lot").

WHEREAS, the Declarant has requested various approvals from the New York City Board of Standards and Appeals to construct and/or alter buildings located on the School Sites, under BSA Cal. Nos. 2016-4274-BZ and 2016-4339-BZ.

WHEREAS, the New York City Board of Standards and Appeals requires the execution and recording of this Declaration in connection with the off-street storage of the Declarant's buses.

NOW, THEREFORE, in consideration of approvals by the New York City Board of Standards and Appeals, the Declarant hereby declares as follows:

1. The Declarant hereby covenants and agrees for itself, its successors and assigns that in the event that the Existing Bus Lot or the Subsequent Bus Lot are no longer available to Declarant, Declarant shall utilize an alternate lot at which the parking and storage of its thirteen (13) buses, or the total number of buses utilized by the Declarant at such time, is permitted in

accordance with the applicable provisions of the Zoning Resolution of the City of New York;

2. The Declarant shall at no time utilize on-street parking spaces for the storage of any of its buses;
3. This Declaration may not be modified, amended or terminated without the prior written consent of the New York City Board of Standards and Appeals;
4. The covenants set forth herein shall run with the land of Block 5649, Lots 32, 38, 44, 46 and 49, and Block 5347, Lots 13 and 71 on the Tax Map of the City of New York, County of Kings, and be binding upon and inure to the benefit of the Declarant their respective heirs, legal representatives, successors and assigns;
5. Failure to comply with the terms of this declaration may result in the revocation of approvals by the New York City Board of Standards and Appeals, which may result in the revocation of a certificate of occupancy; and
6. This declaration shall be recorded at the city register's (county clerk's) office against all affected parcels of land and the cross-reference number and title of the declaration shall be recorded on each temporary and permanent certificate of occupancy hereafter issued to buildings located on the affected parcels and in any deed for the conveyance thereof.

THAT in order to attain an indoor noise level of 45 dBA within the proposed development, a composite window-wall noise attenuation of 31 dBA on the façade facing 14th Avenue and 28 dBA on the façade facing 51st Street and an alternative means of ventilation shall be provided, as indicated on the Board-approved drawings;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number ("BSA Cal No 2016-4339-BZ"), shall be obtained within four (4) years, by February 26, 2023;

THAT based on a levels of service analysis conducted at ten pedestrian elements (three crosswalks, four sidewalks and three corners), improvements at the intersection of 14th Avenue and 50th Street shall include widening the west crosswalk from 12 feet to 13.5 feet and widening the south crosswalk from 12.5 feet to 13 feet; that the applicant shall design and implement a 6-foot half-curb extension at the northwest corner of 14th Avenue and 51st Street to reduce the crossing distance across 14th Avenue, which shall be included as part of the Builder's Pavement Plan; that, with regard to unutilized existing curb cuts along the frontage of the subject site (5018 14th Avenue) (at the north side of 51st

MINUTES

Street, approximately 90 feet west of 14th Avenue, and the west side of 14th Avenue, approximately 50 feet north of 51st Street) and along the frontage of 1411 39th Street (the north side of 39th Street, approximately 5–10 feet east and west of the School’s entrances), the applicant shall close these unutilized existing curb cuts on the Builders Pavement Plan to be filed with DOB; that, because 1411 39th Street is located in a manufacturing area, the applicant shall install a protective physical barrier (such as planters, posts or bollards) near the eastern lot line to be reviewed and approved by DOT Revocable Consent and the New York City Public Design Commission and shall implement a teacher monitoring system on the north side of 39th Street to provide active surveillance of students near the School’s main entrance; that the School shall continue to implement its teacher-monitor safety system—including, at the subject site (5018 14th Avenue), teacher monitors to be stationed along the 50th Street, 51st Street and 14th Avenue frontages during arrival and departure times with two New York Police Department crossing guards (one at 14th Avenue and 50th Street, the other at 14th Avenue and 51st Street) with an additional crossing guard proposed at 14th Avenue and 39th Street; that, prior to the completion of construction, the applicant shall coordinate with DOT School Safety and the Brooklyn Borough Engineer for the placement of appropriate school warning and loading signage to ensure that school buses and parent vehicles have direct access to the curb during the School’s arrival and departure hours; that the School shall not park school buses on the street and shall instead use an off-street parking lot located on 15th Avenue and 62nd Street to store buses when not in use, and the School shall ensure that buses be parked in an off-street facility in the event that the lease of the proposed off-street parking lot expires; that the proposed pedestrian and school safety measures are reasonable and feasible; and that the applicant shall inform DOT six (6) months prior to the project’s completion to coordinate the implementation of the proposed improvement measures and that DOT will participate in the review process relating to all future modifications to geometric alignment, curb cuts, striping and signage during the preliminary and final design phases;

THAT at the completion of the project, a professional engineer certified Remedial Closure Report be submitted to DEP for review and approval for the proposed project indicating that all remedial requirements have been properly implemented (including proper transportation and disposal manifest and certificates from impacted soils removed and properly disposed of in accordance with all New York State Department of Environmental Conservation regulations and proof of installation of an engineering control system);

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure

compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 26, 2019.

2017-8-BZ

CEQR #17-BSA-062X

APPLICANT – Sheldon Lobel, P.C., for Academic Leadership Charter School, owner.

SUBJECT – Application January 9, 2017 – Variance (§72-21) to permit the construction of a new school (UG 3) (*Academic Leadership Charter School*) contrary to ZR §24-11 (Maximum Allowable Lot Coverage), ZR §24-522 (Heights and Setbacks) and ZR §2436 (Rear Yard). R6 zoning district.

PREMISES AFFECTED – 356-362 East 139th Street, Block 2301, Lot(s) 12, 13, 14, 15, Borough of Bronx.

COMMUNITY BOARD #1BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated November 16, 2017, acting on DOB Application No. 210177672 reads in pertinent part:

1. ZR 24-36: The proposed building is contrary to rear yard requirements in a R-6 zoning [district] pursuant to ZR 24-36 . . . ;
2. ZR 24-11: The proposed building is contrary to lot coverage requirement in a R-6 zoning [district] pursuant to ZR 24-11 . . . ;
3. ZR 24-522: The proposed building is contrary to front wall and sky exposure plane requirements in a R-6 zoning [district] pursuant to ZR 24-522 . . . ; and

WHEREAS, this is an application under ZR § 72-21 to permit, on a site located within an R6 zoning district in the Bronx, the construction of seven-story plus cellar Use Group (“UG”) 3 school that does not comply with the zoning regulations relating to lot coverage, rear yards, front wall height and sky exposure plane, contrary to ZR § 24-11, 24-36 and 24-522; and

WHEREAS, this application is filed on behalf of Academic Leadership Charter School, a non-profit entity (the “Applicant”) and New York City Department of Education authorized Charter School; and

WHEREAS, a public hearing was held on this application on March 27, 2018, after due notice by publication in *The City Record*, with continued hearings on October 11, 2018, January 8, 2019, and February 26, 2019,

MINUTES

and then to decision on February 26, 2019; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the subject site and surrounding neighborhood; and

WHEREAS, Community Board 1, the Bronx, recommends approval of this application; and

WHEREAS, the subject site is comprised of four adjacent tax lots located on the south side of East 139th Street, between Alexander Avenue and Willis Avenue, in an R6 zoning district, in the Bronx; and

WHEREAS, the site has approximately 125 feet of frontage along East 139th Street, a depth of 100 feet, 12,500 square feet of lot area and is currently vacant; and

WHEREAS, the Applicant proposes to occupy the site with a seven-story plus cellar building with 59,901 square feet of floor area, a floor area ratio ("FAR") of 4.79, 100 percent lot coverage, no rear yard set back, a front wall rising to a height of 88 feet without setback and within the sky exposure plane; and

WHEREAS, for the subject intended occupancy at the subject site, a maximum of 65 percent lot coverage is permitted pursuant to ZR § 24-11; a rear yard with a depth of at least 30 feet is required pursuant to ZR § 24-36; and a maximum front wall height of 60 feet or six stories, whichever is less, above which a 20 foot front set back and compliance with a 2.7 to 1 (vertical distance to horizontal distance) slope are required, is permitted pursuant to ZR § 24-522; and

WHEREAS, accordingly, the Applicant seeks the subject relief to facilitate the development of a UG 3 school that will relocate their 250 middle school students (grades five through eight) students, currently co-located with another school located at 470 Jackson Avenue, and include elementary classroom space in addition to that located at the Applicant's existing elementary school, which is co-located within a public school building located at 677 East 141st Street in the Bronx; and

WHEREAS, the Applicant asserts that the existing middle school is inadequate for the programmatic needs of the school because the co-location provides the students with limited access to the cafeteria and gymnasium, does not include an outside play area, has a insufficiently sized library and lacks a science lab; and

WHEREAS, the Applicant proposes to relocate the existing middle school to the premises; open for the 2019-2020 school year with a total enrollment of 500 students (the 250 existing middle school students, 75 additional middle school students and 175 new elementary school students); and reach a target enrollment of 600 students (275 elementary school students and 325 middle school students) within three years (the 2022-2023 school year); and

WHEREAS, the proposed building includes 28 accessory off-street parking spaces and a refrigerated trash room in the cellar; a lobby, regulation-sized gymnasium with the capacity to double-function as an auditorium, administrative offices, storage and bathrooms on the first floor; a nurse's office, boys' and girls' locker rooms and

faculty spaces on the second floor; a cafeteria and 1,600 square foot library on the third floor with a roof terrace at the rear of the building on the roof of the second floor; two kindergarten classrooms, four general use classrooms, an art classroom and an administrative office on the fourth floor; six general use classrooms, a special education classroom and a music classroom on the fifth floor; six general use classrooms, a special education classroom and a science classroom on each of the sixth and seventh floors; and an outdoor play area on the roof (the "Proposed School"); and

WHEREAS, the Applicant asserts that a building in full compliance with the Zoning Resolution would provide fewer and smaller classrooms, one fewer science classroom, a smaller gymnasium and no locker rooms, a cafeteria with the capacity to be converted to a 365-seat auditorium (compared to the gymnasium in the Proposed School, which as a capacity of 648 persons when configured as an auditorium), a library containing less than half the floor area of the library in the Proposed School; and less administrative space; and

WHEREAS, in addition, at the Board's request, the applicant explored alternative lesser variances—(1) a building with no accessory off-street parking spaces in the cellar, a street wall rising to a height of 76 feet without setback that penetrates the sky exposure plane; 100 percent lot coverage to a height of 16 feet and 70 percent above 23 feet and a compliant rear yard; and (2) an eight-story building with accessory off-street parking spaces in the cellar that complies with street wall height, setback and sky exposure plane provisions, but would require a waiver of lot coverage and rear yard provisions to permit 100 percent lot coverage to a height of 26 feet and 70 percent lot coverage above 26 feet—but that the minimal reduction in the requested waivers are outweighed by the reduced program space provided in each of the alternative scenarios; and

WHEREAS, the Applicant represents that in addition to better accommodating its existing middle school, the Proposed School will enable the Applicant to gradually expand both its elementary and middle school divisions in response to the incredible demand for additional school seats in the area; and

WHEREAS, with regards to the need to provide accessory off-street parking spaces at the site, the Applicant asserts that such parking spaces are necessary because of the lack of sufficient on-street parking in the area and the school's employment of teachers that tend to drive to the premises and are required to arrive by 7 a.m.; and

WHEREAS, in support of this contention, the Applicant submitted letters from several of its teachers confirming the need for parking on the premises and difficulty in finding on-street parking in the area; a letter from Community Board 1, the Bronx, stating that, without the accessory off-street parking spaces proposed, the Applicant will be unable to attract and keep talented teachers; and a letter from the 40th Precinct of the New York Police Department in support of the off-street parking spaces included in the Proposed School; and

MINUTES

WHEREAS, the Board acknowledges that the Applicant, as an educational institution, is entitled to deference under the law of the State of New York as to zoning and its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in *Cornell University v. Bagnardi*, 68 NY2d 583 (1986), an educational or religious institution's application is to be granted unless it can be shown to have an adverse effect on the health, safety or welfare of the community and general concerns about traffic and disruption of the residential character of the neighborhood are insufficient grounds for the denial of such application; and

WHEREAS, based on the above, the Board finds that the Applicant's programmatic needs create unnecessary hardship and practical difficulty in developing the premises in compliance with the applicable zoning regulations; and

WHEREAS, because the Applicant is a non-profit institution and the variance is needed to further its not-for-profit mission, the finding set forth in ZR § 72-21(b) need not be made in order to grant the variance requested in this application; and

WHEREAS, the applicant represents that, pursuant to ZR § 72-21(c), the variance, if granted, will not alter the character of the neighborhood, impair the appropriate use or development of adjacent property, or be detrimental to the public welfare, to wit, the surrounding area is characterized by multi-family residential, community facility and mixed-use buildings ranging from three-stories to seven-stories, that there are eight-story buildings and apartment towers within two blocks of the premises; that the Proposed School complies with applicable regulations pertaining to floor area and FAR; and that a Use Group 3 school is permitted as-of-right in the subject zoning district; and

WHEREAS, in response to the Board's request, the Applicant modified the proposed exterior building finishing materials from EIFS (exterior insulation and finishing system) to masonry; and

WHEREAS, accordingly, the Board finds that the Proposed School will not alter the character of the neighborhood in satisfaction of ZR § 72-21(c); and

WHEREAS, the Applicant states that the practical difficulties complained of are inherent to its unique programming needs and were not caused by the owner of the site or a predecessor in title; and

WHEREAS, the Board finds that the hardship herein was not created by the Applicant; and

WHEREAS, the Applicant submits that, consistent with ZR § 72-21(e), the subject proposal represents the minimum variance needed to accommodate its programmatic needs; and

WHEREAS, the Board finds that this proposal is the minimum necessary to allow the Applicant to fulfill its programmatic needs; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, by letter dated January 25, 2019, the Fire Department states that it grants the Applicant's application for a modification (variance) from the rooftop access and obstruction provisions of Section 504.4 of the New York City Fire Code and determined that the rooftop plan (Sheets P-02, P-06, and P-11 of the plans approved by the Board with this application) provides adequate Fire Department access to and upon the rooftop subject to the following conditions: (1) the determination only modifies compliance with respect to rooftop access and/or clear path requirements and does not modify the Applicant's obligation to comply with other applicable provisions of FC 504.4, including the marking and signage requirements of FC 504.4.7 and 504.4.8; (2) nothing contained in the determination be construed to authorize construction contrary to the New York City Building Code, Zoning Resolution or other applicable laws, rules or regulations; (3) approved modified rooftop access and/or clear path requirements as indicated on architectural drawing P-02, P-06, P-11, dated January 02, 2019, shall be constructed and maintained in accordance with the approved rooftop plan and maintained clear of obstruction and kept available for emergency responders; if any change is necessary, a new application shall be submitted to modify them; (4) the modification is site specific applicable only to the subject address and not transferable to any other address; and (5) the following stipulations listed below must be completed as detailed on P-02, P-06, P-11, dated January 02, 2019: (a) installation of the inward swinging gates to allow clear path through the proposed fences on both the upper and lower rooftops and (b) installation of signage indicating the location of the gates on both the upper and lower rooftops; and

WHEREAS, by letter dated January 28, 2019, the Fire Department states that the plans and application have been approved by the Office of Technical Management in the Bureau of Fire Prevention and has no objection to this application; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR, Part 617.4(b)(9); and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement ("EAS") CEQR No. 17BSA062X, received February 16, 2018; and

WHEREAS, the EAS documents that the project, as proposed, would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character or Construction; and

WHEREAS, by letter dated November 15, 2017, the New York City Department of Environmental Protection ("DEP") states that they have reviewed the December 2016

MINUTES

Environmental Assessment Statement, January 2016 Phase I Environmental Site Assessment (Phase I) and the February 2016 Phase II Environmental Site Assessment-Vapor Intrusion Evaluation (Phase II) provided by the Applicant's consultants and recommended that the Board inform the Applicant that based on the historical on-site and/or surrounding area land uses, as well as the results of the February 2016 Phase II-Vapor Intrusion Evaluation, a Supplemental Phase II Environmental Site Assessment is necessary to adequately identify/characterize the surface and subsurface soils of the subject parcels; a Phase II Investigative Protocol/Work Plan—including blueprints and/or site plans displaying the current surface grade and sub-grade elevations and a site map depicting the proposed soil boring locations—summarizing the proposed drilling, soil and groundwater sampling activities be submitted to DEP for review and approval; that soil and groundwater sample be collected and analyzed by a New York State Department of Health Environmental Laboratory Approval Program certified laboratory for the presence of VOCs by EPA Method 8260, semi-volatile organic compounds by EPA Method 8270, pesticides by EPA Method 80081, polychlorinated biphenyls by EPA Method 8082, Target Analyte List metals (filtered and unfiltered for groundwater samples); an Investigative Health and Safety Plan (HASP) be submitted to DEP for review and approval; and that the Phase II Work Plan and HASP be submitted to DEP for review and approval prior to the start of any fieldwork; and

WHEREAS, by letter dated February 16, 2018, DEP states that they have reviewed the January 2018 Supplemental Phase II Environmental Site Assessment Work Plan (Phase II Work Plan) and the January 2018 Health and Safety Plan (HASP) prepared by the Applicant's consultants and recommended, in reference to the Phase II Work Plan, that the Board instruct the Applicant to individually label the proposed soil and groundwater sampling locations on the Proposed Sample Locations Plan (e.g. SB-1, GW-1, etc.) and revise the soil sampling depths—at a minimum, one surface soil sample and one subsurface soil sample should be collected from each soil boring, the surface soil sample should be collected from 0-2 feet bgs and the subsurface soil sample should be collected between 2 feet bgs and the maximum proposed excavation depth (based on visual/olfactory evidence of impacts and/or elevated soil screening readings obtained using accepted field instruments; if no evidence or elevated readings are noted during borehole advancement, the subsurface soil sample should be collected from the two foot interval between the proposed maximum excavation depth(s) and/or the groundwater interface (whichever is encountered first); and, with regards to the HASP, DEP recommended that the Applicant include information fact sheets and/or Safety Data Sheets for potential contaminants of concern; and

WHEREAS, DEP found the January 2018 Phase II Work Plan and HASP for the proposed investigation acceptable so long as the requested information is incorporated into those documents and on condition that,

upon completion of the investigation activities at the site, the applicant submit a detailed Phase II Report—including, at a minimum, an executive summary, narrative of the field activities, laboratory data and conclusions, comparison of soil and groundwater analytical results (i.e., New York State Department of Environmental Conservation (NYSDEC) 6 NYCRR Part 375 and NYSDEC Water Quality Regulations), updated site plans depicting sample locations, boring logs and remedial recommendations, if warranted—to DEP for review and approval; and

WHEREAS, the Applicant subsequently revised and resubmitted the Phase II Work Plan and HASP in accordance with DEP's February 16, 2018, letter on March 1, 2019; and

WHEREAS, by letter dated September 18, 2018, DEP states that they have reviewed the August 2018 Remedial Action Plan (RAP) and the August 2018 Construction Health and Safety Plan (CHASP) provided by the Applicant's consultants and, based on their review, recommended that proper handling, transportation and disposal of excavated materials from the site should be done in accordance with applicable NYSDEC regulations (not NYCDEP); if de-watering into New York City storm/sewer drains will occur during the proposed construction, a New York City Department of Environmental Protection Sewer Discharge Permit must be obtained prior to the start of any de-watering; the RAP be finalized and the certification page completed, the CHASP reflect the measures to be implemented during the construction phase of the proposed project and not those implemented during a proposed site investigation; all text referring to site investigation activities be revised accordingly; the date on the header of the CHASP be consistent with the date on the cover page; information fact sheets and/or Safety Data Sheets for potential contaminants of concern be included in the CHASP; the CHASP be finalized; and that a revised RAP And CHASP be submitted to DEP for review and approval prior to the start of any construction activities; and

WHEREAS, by letter dated October 19, 2018, DEP states that it has reviewed the Revised August 2018 RAP and Revised August 2018 CHASP and finds those documents acceptable on condition that, at the completion of the project, a Professional Engineer (P.E.) certified Remedial Closure Report indicating that all remedial requirements have been properly implemented (i.e., proper transportation/disposal manifests and certificates from impacted soils removed and properly disposed of in accordance with all NYSDEC Regulations; and proof of installation of engineering control systems, etc.) be submitted to DEP for review and approval for the proposed project; and

WHEREAS, in a letter dated January 31, 2019, DEP states that, based on the results of Air Quality analysis performed as per the City Environmental Quality Review Technical Manual, it was determined that the proposed project would not result in any potential for significant adverse impacts in regards to air quality and, based on the

MINUTES

results of the Noise analysis performed as per the City Environmental Quality Review Technical Manual, it was determined that the proposed project would not result in any potential for significant adverse impacts in regards to noise with the following commitments from the proposed project: (1) a composite window/wall noise attenuation of 33 dBA is proposed for the proposed project's southern façade facing the third floor outdoor play area (elevations of 28 feet and above); (2) the proposed third floor outdoor play area be installed with an acoustic fence providing a minimum noise attenuation of 10 dBA; and (3) an alternate means of ventilation be required and incorporated into the building design and construction; and

WHEREAS, by letter dated May 24, 2017, the School Safety Division of the New York City Department of Transportation ("DOT") states that it has no concerns regarding the proposed school and requests that the Applicant notify DOT upon construction in order for the division to determine if traffic safety improvements or parking regulations changes are necessary; and

WHEREAS, the New York City Landmarks Preservation Commissioner reviewed the proposal and concludes that the subject site is of neither architectural nor archaeological significance; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby issue a Type I Negative Declaration determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21, to permit, in an R6 zoning district in the Bronx, the construction of seven-story plus cellar UG 3 school that does not comply with the zoning regulations relating to lot coverage, rear yards, front wall height and sky exposure plane, contrary to ZR § 24-11, 24-36 and 24-522; *on condition* that all work shall substantially conform to drawings as they apply to the objections noted above and filed with this application marked "Received February 26, 2019"—Twenty-three (23) sheets and "Approved for FDNY rooftop access Fire Code Section 504.4 only" – Three (3) sheets (sheets P-02, P-06, P-11); and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum of 100 percent lot coverage to a height of 28 feet; a rear yard with a minimum depth of 0 feet to a height of 28 feet; a rear yard with a minimum depth of 30 feet above 28 feet; and a maximum front wall height of 88 feet without setback that penetrates the sky exposure plane, as indicated on the BSA-approved plans; and

THAT the exterior finishing materials shall consist of

masonry on side walls, masonry rain screen, metal panels and glazing on front and rear walls, as indicated on the BSA-approved plans, and the use of exterior insulation finishing system ("EIFS") shall not be permitted;

THAT composite window/wall noise attenuation of 33 dBA shall be provided on the southern façade of the building facing the third-floor outdoor play area (elevations of 28 feet and above);

THAT an acoustic fence, at least ten (10) feet in height be installed on the perimeter of the third-floor outdoor play area providing a minimum of 10 dBA noise attenuation;

THAT an alternate means of ventilation shall be incorporated into the building design and construction;

THAT approved modified rooftop access and/or clear path requirements as indicated on architectural drawing P-02, P-06, P-11, dated January 02, 2019, shall be constructed and maintained in accordance with the approved rooftop plan and maintained clear of obstruction and kept available for emergency responders;

THAT the following stipulations must be completed as detailed on P-02, P-06, P-11, dated January 02, 2019: (a) installation of the inward swinging gates to allow clear path through the proposed fences on both the upper and lower rooftops and (b) installation of signage indicating the location of the gates on both the upper and lower rooftops;

THAT no amplified lighting or sound shall be permitted on the roof of the building;

THAT upon completion of the investigation activities at the site, the applicant shall submit a detailed Phase II Report—including, at a minimum, an executive summary, narrative of the field activities, laboratory data and conclusions, comparison of soil and groundwater analytical results (i.e., New York State Department of Environmental Conservation (NYSDEC) 6 NYCRR Part 375 and NYSDEC Water Quality Regulations), updated site plans depicting sample locations, boring logs and remedial recommendations, if warranted—to the New York City Department of Environmental Planning ("DEP") for review and approval;

THAT at the completion of the project, a Professional Engineer (P.E.) certified Remedial Closure Report indicating that all remedial requirements have been properly implemented (i.e., proper transportation/disposal manifests and certificates from impacted soils removed and properly disposed of in accordance with all NYSDEC Regulations; and proof of installation of engineering control systems, etc.) shall be submitted to DEP for review and approval for the proposed project;

THAT the above conditions shall be listed on the Certificate of Occupancy;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a Certificate of Occupancy, indicating this approval and calendar number ("BSA Cal. No. 2017-8-BZ") shall be obtained within four (4) years, by February 26, 2023;

THAT this approval is limited to the relief granted by

MINUTES

the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portion related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 26, 2019.

APPLICANT – Sheldon Lobel, P.C., for Gershon Klein, owner.

SUBJECT – Application January 26, 2018 – Special Permit (§73-622) to permit the enlargement of a detached single-family home contrary to ZR §23-141 (FAR and open space ratio); ZR §23-631 (front yard sky exposure plane) and ZR §23-632 (rear yard and side yards). R2 zoning district.

PREMISES AFFECTED – 1238 East 26th Street, Block 7643, Lot 60, Borough of Brooklyn.

COMMUNITY BOARD #14BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated April 26, 2018, acting on Department of Buildings (“DOB”) Application No. 321422199, reads in pertinent part:

Proposed plans are contrary to Zoning Resolution 23-141 in that the proposed Floor Area Ratio exceeds the maximum permitted;

Proposed plans are contrary to Zoning Resolution 23-141 in that the proposed Floor Area exceeds the maximum permitted;

Proposed plans are contrary to Zoning Resolution 23-141 in that the proposed Open Space Ratio is less than the minimum required;

[. . .]1

Proposed plans are contrary to Zoning Resolution 23-461 and 23-47 in that the proposed side and rear

yards are less than minimums required; and

WHEREAS, this is an application under ZR § 73-622 to permit, in an R2 zoning district, the enlargement of a detached single-family dwelling that does not comply with the zoning requirements for floor area ratio (“FAR”), open space ratio, side yards and rear yards contrary to ZR §§ 23-141, 23-461(a) and 23-47; and

WHEREAS, a public hearing was held on this application on October 11, 2018, after due notice by publication in *The City Record*, with continued hearings on December 11, 2018, January 15, 2019, and February 26, 2019, and then to decision on that same date; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application on condition that the floor area ratio (“FAR”) be no greater than 1.05; and

WHEREAS, the Board was in receipt of two (2) form letters in support of this application; and

WHEREAS, the subject site is located on the west side of East 26th Street, between Avenue L and Avenue M, in an R2 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 30 feet of frontage, 100 feet of depth, 3,000 square feet of lot area, and is occupied by a two (2) story plus cellar and attic single-family dwelling containing 2,480 square feet of floor area (0.83 FAR), an open space ratio of 0.8 (1,980 square feet of open space), a front yard with a depth of 15’-11”, a rear yard with a depth of 22’-11”, and two (2) side yards with widths of 9’-11” and 3’-11”; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement*² of an existing *single-* or *two-family detached* or *semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit

1 The applicant received an objection under Section 23-631 of the Zoning Resolution due to the penetration of the sky exposure plane by a front dormer. Over the course of hearings, the applicant revised the proposed building to comply with ZR § 23-631 and, thus, such waiver is no longer sought nor required.

2 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that this application located within an area in which the special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge a detached one-family residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant proposes to enlarge the

building by both vertically and horizontally extending the dwelling into the rear yard and southern side yard, resulting in a two- (2) story plus attic and cellar dwelling with 2,982 square feet of floor area (0.99 FAR), an open space ratio of 0.58 (1,744 square feet of open space), a front yard with a depth of 15'-1", a rear yard with a depth of 20 feet at the first story with an additional five (5) foot setback at the second story, and two (2) side yards with widths of 6'-1" and 3'-11"; and

WHEREAS, specifically, the applicant states that the proposed enlargement would increase the floor area on the first floor to 1,245 square feet, the second floor to 1,027 square feet, and the attic to 710 square feet; and

WHEREAS, at the subject site, a maximum FAR of 0.50 is permitted, a minimum open space ratio of 1.5 is required, two (2) side yards each a minimum of five (5) feet in width and a minimum combined width of 13 feet and a rear yard with a minimum depth of 30 feet are required pursuant to ZR §§ 23-141, 23-461(a) and 23-47; and

WHEREAS, the proposed enlargement includes a vertical and horizontal extension of the existing non-complying northern side yard and rear yard, and the Board notes that, pursuant to a 1950 Sanborn Map including the subject site provided by the applicant, the subject site was developed with a detached dwelling in approximately the same location and orientation as the site is occupied today and, thus, the non-complying northern side yard and rear yard predated the 1961 Zoning Resolution and are legal non-compliances; and

WHEREAS, the applicant provided an analysis of single- or two-family dwellings located within 200 feet of the subject premises within an R2 zoning district (the "Study Area") concluding that, of the 40 qualifying residences, 26 residences (65 percent) have an FAR of greater than 0.5, ranging from 0.52 to 1.49; and

WHEREAS, with regards to open space, the applicant demonstrated that, within the Study Area, 38 residences (95 percent) have an open space ratio less than 1.50, ranging from 1.39 to 0.49, and 6 residences (15 percent) have an open space ratio of 0.58 or less; and

WHEREAS, the applicant provided an analysis of rear yard conditions on the subject block, demonstrating that, of the 42 other single- or two- (2) family dwellings, 10 lots (24 percent) have rear yards with depths of less than 30 feet with rear yards ranging in depth from 22 feet to 28 feet, including the dwellings located immediately adjacent to the north of the subject site and the dwelling rear adjacent and to the southwest of the subject site, which have rear yard depths of 24 feet and 26 feet respectively; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the

MINUTES

community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18-BSA-089K, dated January 30, 2018; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622 to permit, in an R2 zoning district, the enlargement of a one-family detached dwelling that does not comply with the zoning requirements with regards to floor area ratio, open space ratio side yards and rear yards, contrary to ZR §§ 23-141, 23-461(a) and 23-47; *on condition* that all work shall substantially conform to drawings as they apply to the objection above-noted, filed with this application and marked Received “Received February 15, 2019”-Twenty-One (21) sheets; and *on further condition:*

THAT the following shall be the bulk parameters of the building: a maximum floor area ratio of 0.99 (2,982 square feet of floor area), a minimum open space ratio of 0.58 (1,744 square feet of open space), two (2) side yards with minimum widths of 6’-1” and 3’-11” at the northern side yard, and a rear yard with a minimum depth of 20 feet at the first floor and 25 feet above as illustrated on BSA-approved plans;

THAT the removal of exterior walls and/or joists in excess of those indicated on the BSA-approved plans is prohibited and shall void the special permit;

THAT substantial construction shall be completed pursuant to ZR § 73-70;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number (“BSA Cal. No. 2018-10-BZ”) shall be obtained within four (4) years, by February 26, 2023;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals,
February 26, 2019.

APPLICANT – Sahn Ward Coschignano, PLLC, for MOCAL Enterprises, Inc., owner; AKT Broadway LLC, lessee.

SUBJECT – Application April 24, 2018 – Special Permit (§73-36) to permit the legalization of a Physical Cultural Establishment (AKT In-Motion) on the second floor of an existing mixed-use building contrary to ZR §42-10. M1-6 (Madison Square North Historic District).

PREMISES AFFECTED – 1182 Broadway, Block 830, Lot 26, Borough of Manhattan.

COMMUNITY BOARD #5M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated April 12, 2018, acting on DOB Application No. 123435005, reads in pertinent part:

Proposed Physical Culture Establishment in M1-6 zoning district is not permitted pursuant to ZR 42-10, and is referred to the Board of Standards and Appeals for a Special Permit under ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site located within an M1-6 zoning district and in the Madison Square North Historic District, a physical culture establishment (“PCE”) on the second floor of an existing 17-story plus cellar mixed-use residential and commercial building, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on February 12, 2019, after due notice by publication in *The City Record*, with a continued hearing on February 26, 2019, and then to decision on that same date; and

WHEREAS, Community Board 5, Manhattan, waived its recommendation of this application; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the east side of Broadway, between West 28th Street and West 29th Street, in an M1-6 zoning district and in the Madison Square North Historic District, in Manhattan; and

WHEREAS, the site has approximately 53 feet of frontage, 113 feet of depth along its northern lot line, 95 feet of depth along its southern lot line, 5,124 square feet of lot area and is occupied by an existing 17-story plus cellar

MINUTES

mixed-use residential and commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use1* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are

made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant represents that the subject PCE occupies 3,320 square feet of floor area on the second floor with two (2) training studios for group exercise classes, one (1) studio for personal training, a retail area, changing rooms with showers, a reception area, an office and meeting space, and a staff room; and

WHEREAS, the PCE has operated since November 2015, as “AKT In-Motion,” with the following hours of operation: 6:00 a.m. to 8:45 p.m., Monday through Friday; and, 9:00 a.m. to 2:30 p.m., Saturday and Sunday; and

WHEREAS, the applicant states that the PCE utilizes a variety of sound and vibration attenuation techniques to maintain sound and vibration solely within the exercise studios; specifically, the PCE has speakers of varying sizes that are placed between eight (8) to ten (10) feet from the floor; a limiter is installed on the sound system to control the bass and volume of the music; the PCE provided soundproofing in the ceiling with the installation of wave hangers to support the ceiling framing channel; two (2) layers of 5/8” drywall with staggered seams were added and any metal piping through the ceiling was separated from the drywall ceiling by a 1/4” space and filled with flexible sealant; interior studio partitions are comprised of two (2) layers of 5/8” drywall with staggered seams on each side with insulation in between; exterior studio walls consist of two (2) layers of 5/8” drywall with staggered seams separated from the concrete wall by a one- (1) inch gap; and, the floor consists of a multi-layer spring panel system with vinyl over two- (2) inch thick rubber square pads; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because it is located entirely in an existing building, and it is consistent with the mix of nearby uses including other PCEs, offices, retail establishments, hotels and residences; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

WHEREAS, the applicant submits that the PCE contains facilities for classes, instruction and programs for the provision of physical improvement through dance-based strength, cardiovascular, circuit and flexibility training; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood because the PCE is served by an entrance, corridor and elevator designated only for the commercial uses within the subject building and PCE is surrounded above and below by commercial uses; and

WHEREAS, the applicant states that the PCE is protected with a wet sprinkler system and an approved fire alarm system—including smoke detectors, manual pull stations, local audible and visual alarms and a connection to an FDNY-approved central station; and

WHEREAS, by letter dated January 31, 2019, the Fire Department stated no objection to the application and confirmed that the fire alarm and fire suppression (combination standpipe and sprinkler) systems were inspected and tested satisfactory to the Department standards; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant submits that the New York City Landmarks Preservation Commission, pursuant to Certificate of No Effect (CNE 18-4020) dated March 31, 2016, permitted exterior alterations on the east façade, including the modification of two (2) upper sashes of one-over-one metal double-hung windows; the installation of two (2) through-window louvers with a copper finish; and related interior alterations including changes to non-bearing partition walls, finishes, mechanical, electrical and plumbing systems; and

WHEREAS, at hearing, the Board requested that the acoustical details be keyed-in to the floor plan to show specific measures used in distinct areas of the PCE; and

WHEREAS, in response, the applicant submitted an amended set of drawings demonstrating the acoustical measures as keyed into the floor plans; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist

No. 18-BSA-128M, dated April 26, 2018; and

WHEREAS, the term of the grant has been reduced to reflect the period the PCE operated without approval from the Board; and

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, legalizing the PCE space on the second floor, is appropriate, with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to legalize, on a site located within a M1-6 zoning district and in the Madison Square North Historic District, the operation of a physical culture establishment on the second floor of an existing 17-story plus cellar mixed-use residential and commercial building, contrary to ZR § 42-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received February 13, 2019”-Five (5) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on November 1, 2025;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 will be as reviewed and approved by DOB;

THAT an approved fire alarm system and sprinkler shall be maintained as indicated on the Board-approved plans;

THAT minimum 3 foot wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also referencing this approval and calendar number (“BSA Cal. No. 2018-58-BZ”), shall be obtained within one (1) year, by February 26, 2020;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 26, 2019.

CEQR #18-BSA-143M

APPLICANT – Sheldon Lobel, P.C., for Shawn Hope, owner.

SUBJECT – Application May 25, 2018 – Variance (§72-21) to permit the construction of a five-story and basement, two-family building contrary to ZR §23-32 (Minimum Lot Area or Lot Width for Residences). R7A zoning district.

PREMISES AFFECTED – 275 Pleasant Avenue, Block 1708, Lot 25, Borough of Manhattan.

COMMUNITY BOARD #11M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision on behalf of the Manhattan Borough Commissioner, dated April 27, 2018, acting on Department of Buildings (“DOB”) Application No. 122132101 reads in pertinent part:

ZR 23-32; ZR 23-33: New Building Application filed for undersized lot is contrary to ZR 23-32 and does not comply with ownership requirement of ZR 23-33, therefore this application is referred to the BSA; and

WHEREAS, this is an application under ZR § 72-21 to permit, within an R7A zoning district, the construction of a five-story plus basement two-family residence that does not comply with the minimum requirement for lot area and lot width, contrary to ZR §§ 23-32 and 23-33; and

WHEREAS, a public hearing was held on this application on December 4, 2018, after due notice by publication in *The City Record*, with a continued hearing on February 26, 2019, and then to decision on the same date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the subject site and surrounding neighborhood; and

WHEREAS, the subject site is located on the west side of Pleasant Avenue, between East 115th Street and East 114th Street, in an R7A zoning district, in Manhattan; and

WHEREAS, the site has approximately 13 feet of frontage along Pleasant Avenue, a depth of 74 feet, 941 square feet of lot area and is currently vacant; and

WHEREAS, the applicant proposes to develop the site with a five-story plus basement Use Group 2 two-family residential building containing 3,512 square feet of floor area and a floor area ratio (“FAR”) of 3.73; and

WHEREAS, in the subject zoning district, no residence is permitted on a zoning lot with a total lot area of less than 1,700 square feet and total lot width of less than 18 feet pursuant to ZR § 23-32; and

WHEREAS, pursuant to ZR § 23-33, a single-family detached reside or one single- or two-family residence may

be developed on a lot with less than the prescribed minimum lot area or lot width that does not comply with the provisions of ZR § 23-32 if it was owned separately and individually from all other adjoining tracts of land, both on December 15, 1961, and on the date of application for a building permit and, if developed as a two-family residence, it meets the applicable density requirement of the zoning district in which such zoning lot is located; and

WHEREAS, two-family residences are permitted as-of-right in an R7A zoning district pursuant to ZR § 22-12 and a two-family dwelling complies with the applicable density requirement, set forth in ZR § 23-22, which defines the maximum number of dwelling units at the site as the maximum residential floor area permitted on the zoning lot divided by 680; and

WHEREAS, at the subject site, the maximum residential floor area permitted at the site is 3,764 square feet pursuant to ZR §§ 23-15 and 23-153, which permit a maximum FAR of 4.0 for buildings containing residences located in an R7A zoning district; and

WHEREAS, accordingly, the maximum number of dwelling units permitted at the site is five, thus, the applicant’s proposal of two dwelling units at the subject site meets the density requirement applicable in an R7A zoning district; and

WHEREAS, development of the site with a two-family residence is not permitted as-of-right despite its non-compliance with the minimum lot width and lot area requirements and compliance with applicable density requirements because it was not owned separately and individually from all other adjoining tracts of land on December 15, 1961; and

WHEREAS, the applicant submits that according to recorded deeds, the subject site was owned by the same party as adjacent tax lot 125, located immediately to the north of the subject site, on December 15, 1961; and

WHEREAS, in fact, the subject lot has been owned in common with tax lot 125 from at least November 17, 1955, until December 2, 1974, when the sites were acquired by the City of New York in a tax lien foreclosure action; and

WHEREAS, the sites were both subsequently deeded to the same corporation on July 15, 1976, but on September 24, 1980, they ceased to be owned in common when the City of New York re-acquired tax lot 125 alone in another tax lien foreclosure action; and

WHEREAS, the applicant represents that since that September 23, 1980, the subject lot has been owned separately and individually from all surrounding tax lots and, due to the inability to develop the subject site as-of-right pursuant to ZR § 23-33 as a result of the history of common ownership, seeks the subject relief; and

WHEREAS, the applicant states that the site was previously developed with a residential building and provided historic Sanborn fire insurance maps of the immediate area evidencing that the subject site was occupied by a residential building from at least 1896 to 1939 and has been vacant since at least 1951; and

MINUTES

WHEREAS, the applicant submits that, aside from the minimum lot width and lot area requirements, the proposed development is otherwise compliant with applicable zoning regulations; and

WHEREAS, the applicant states, pursuant to ZR § 72-21(a), the narrowness, small size and vacancy of the subject site are unique physical conditions that create practical difficulty and unnecessary hardship in developing the site in compliance with the underlying district regulations; and

WHEREAS, in support of this assertion, the applicant submitted a uniqueness study of all lots located within 1,000 feet of the premises (the “Study Area”) illustrating that of the 251 other lots in the Study Area, ten lots (approximately 4 percent) have lot widths of less than 15 feet and one lot (0.4 percent) is narrower than the subject site, with a width of 12’-6.5””; 11 lots (4 percent) have less than 1,200 square feet of lot area and three lots (1 percent) have less lot area than the subject site; three lots (1 percent) have both lot widths of less than 15 feet and lot area of less than 1,200 square feet, and only one lot in the Study Area (0.4 percent) has a lot width of less than 15 feet, lot area of less than 1,200 square feet and is also vacant; and

WHEREAS, the applicant identifies that site as tax lot 125, located immediately to the north of the subject site, which the applicant represents as having been conveyed, along with tax lot 26, for development as part of a Urban Development Action Area Project (“UDAAP”) as evidenced by the Agreement entered into by the City of New York and 277-279 Pleasant Avenue Corporation and recorded with the Office of City Register, New York County, against tax lots 125 and 26 located on the subject tax block 1708 at Reel 811, Page 1416, a copy of which was provided to the Board; and

WHEREAS, in addition, the Board notes that the subject tax lot has existed at its current dimensions since at least 1896, when the Sanborn fire insurance map of the immediate area indicates that it was occupied by an attached building that, since at least 1911, contained dwelling units; and

WHEREAS, in light of the foregoing, the Board finds that the narrowness, small size and vacancy of the subject lot create unnecessary hardship and practical difficulty in developing the site in strict compliance with the underlying bulk provisions of the Zoning Resolution; and

WHEREAS, the Board has determined that, because of the subject lot’s unique physical conditions, there is no reasonable possibility that compliance with applicable zoning regulations will result in a habitable two-family dwelling, in satisfaction of ZR § 72-21(b); and

WHEREAS, the applicant states that the subject proposal will not alter the essential character of the neighborhood because the proposed use is permitted as-of-right in the subject zoning district; that, with the exception of minimum lot width and lot area, the proposed building otherwise complies with the bulk regulations applicable in an R7A zoning district and consist of 3,512 sq. ft. square feet of floor area, 3.73 FAR, a street wall height of 62’-6”

and building height of 72’-7””; and that other buildings on the same block rise to similar heights and contain more floor area than the proposed development, including the building located at the corner of East 114th Street and Pleasant Avenue, approximately 25 feet south of the subject lot, which has an FAR of approximately 4.09 and rises to an estimated height of 80 feet; and

WHEREAS, the Board finds that the subject proposal will not alter the essential character of the neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare in satisfaction with ZR § 72-21(c); and

WHEREAS, the applicant submits that pursuant to ZR § 72-21(d) the hardship was not created by the owner or a predecessor in title; and

WHEREAS, the president of the corporate owner of tax lot 125 provided testimony to the Board in opposition to this application, stating that the proposed development does not meet the finding of ZR § 72-21(d); and

WHEREAS, at the Board’s request, the applicant provided a memorandum of law addressing whether the cessation of the common ownership of tax lots 25 and 125 is a self-created hardship that forecloses the granting of a variance and concluding that, because common ownership ceased as a result of the actions of a third party—in this case, the intervening acquisition of tax lot 125 by the City of New York in foreclosure—the hardship complained of was not created by the owner or a predecessor in title and, further, that pursuant to the language of ZR § 72-21(d) itself, “where all other required findings are made, the purchase of a zoning lot subject to the restrictions sought to be varied shall not itself constitute a self-created hardship”; and

WHEREAS, the Board is persuaded that the hardship complained of herein were not self-created in satisfaction of ZR § 72-21(d); and

WHEREAS, the applicant states, and the Board finds, that the subject proposal is the minimum relief required in satisfaction of ZR § 72-21(e); and

WHEREAS, the development is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA143M, dated June 1, 2018; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR § 72-21 to permit, in an R7A zoning district, development of a five-story plus basement two-family dwelling that does not comply with the minimum requirement for lot width and lot area, contrary to ZR §§ 23-32 and 23-33, *on condition* that all work shall substantially conform to drawings filed with this application marked “Received February 26, 2019--Twelve

MINUTES

(12) sheets”; and *on further condition*:

THAT the Board has not granted any waivers with regards to rear yard requirements at the site;

THAT Department of Buildings shall review compliance of proposed greenhouse with applicable zoning regulations relating to permitted obstructions in yards;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT a certificate of occupancy, indicating this approval and calendar number (“BSA Cal. No. 2018-99-BZ”) shall be obtained within four (4) years, by February 26, 2023;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 26, 2019.

2018-107-BZ

APPLICANT – Eric Palatnik, P.C., for Corporate Commons Three, LLC, owner.

SUBJECT – Application July 5, 2018 – Variance (§72-21) to permit a school campus (UG 3) (Integration Charter Schools) contrary to ZR §42-00. M1-1 zoning district.

PREMISES AFFECTED – 1441 South Avenue, Block 2165, Lot 120, Borough of Staten Island.

COMMUNITY BOARD #2SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated July 3, 2018, acting on New Building Application No. 520311154, reads in pertinent part:

“ZR 42-10 Proposed school (use group 3) . . . is contrary to Section 42-10 of the NYC Zoning Resolution”; and

WHEREAS, this is an application under ZR § 72-21 to permit, in an M1-1 zoning district, the development of a mixed-use community-facility and commercial building for use as a school (Use Group 3) on the first, third, fourth and fifth floors that does not comply with zoning regulations for use, contrary to ZR § 42-10; and

WHEREAS, this application has been brought on behalf of Integration Charter Schools (the “School”), a public school; and

WHEREAS, a public hearing was held on this application on October 23, 2018, after due notice by publication in *The City Record*, with a continued hearing on January 29, 2019, and then to decision on February 26, 2019; and

WHEREAS, Commissioner Scibetta performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 2, Staten Island, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of South Avenue, in an M1-1 zoning district, on Staten Island; and

WHEREAS, the subject site has approximately 557 feet of frontage along South Avenue, 746 feet of depth, 373,838 square feet of lot area and is vacant; and

WHEREAS, the applicant proposes to develop an eight-story mixed-use community-facility and commercial building with a total of 328,319 square feet of floor area (0.87 FAR), of which 127,908 square feet (0.34 FAR) is proposed for school use on the first, third, fourth and fifth floors; and

WHEREAS, the applicant states that, at the subject site, school use is not permitted under ZR § 42-10; and

WHEREAS, consistent with ZR § 72-21, the applicant submits that the proposed use of the development is necessary to accommodate the School’s programmatic needs; and

WHEREAS, the Board acknowledges that the School, as an educational institution, is entitled to deference under the law of the State of New York as to zoning and its ability to rely upon programmatic needs in support of this application; and

WHEREAS, specifically, as held in *Cornell University v. Bagnardi*, 68 N.Y.2d 583 (1986), a zoning board must grant an educational or religious institution’s application unless it can be shown to have an adverse effect on the health, safety or welfare of the community and general concerns about traffic and disruption of the residential character of the neighborhood are insufficient grounds for the denial of such applications; and

WHEREAS, in order to substantiate the practical difficulties or unnecessary hardship facing the School, the applicant submitted a study of the School’s programmatic needs, demonstrating that the School’s two existing buildings adjacent to the subject site are no longer able to serve the School’s existing enrollment and that the School’s proposed use of the development would include adequate classroom space and properly sized auditoriums to further the School’s educational mission; and

WHEREAS, in response to questions from the Board, the applicant revised the School’s programmatic needs study to elaborate on the hours, age ranges and programmatic mission of each of the programs to be located within the proposed development; to provide additional information on

MINUTES

the School's operations; to clarify the utilization of spaces in the proposed development; to address the proposed classroom sizes and how they address the School's programmatic needs; and to clarify the hourly utilization of the proposed spaces; and

WHEREAS, with respect to deficiencies that would be resolved by the proposed development, the applicant notes, among other things, that the School currently operates from temporary trailers; that consolidation of the School's programs into designated spaces on a single campus is necessary to achieve the School's educational mission; and that the School's elementary program currently has no dedicated facilities; and

WHEREAS, the applicant states that the School's proposed development would allow an elementary program with a projected enrollment of 408 students to locate on the third floor with access to the fourth floor, a non-traditional educational program with a projected enrollment of 216 students to locate on the fourth floor and an early college program with a projected enrollment of 403 students to locate on the fifth floor; and

WHEREAS, applicant states that the School's elementary program requires 24 classrooms with administrative and faculty rooms, calming rooms, meeting rooms and work rooms; that the School's non-traditional educational program requires one classroom and utilization of the cafeteria, movement studios, weight rooms and dance studios along with an instructional kitchen; and that the School's early college program requires 21 classrooms with an incubator space for business ventures, a science laboratory and a college advisement office to be located adjacent to classroom space; and

WHEREAS, with respect to classroom sizes, the applicant furnished evidence that the proposed classrooms are similarly spaced to those constructed by the City's School Construction Authority; and

WHEREAS, consistent with *Cornell University v. Bagnardi*, 68 N.Y.2d 583 (1986), the Board finds that the School's programmatic needs create practical difficulties or unnecessary hardship in complying strictly with applicable zoning regulations that are not created by general circumstances in the neighborhood or district; and

WHEREAS, the applicant submits that, because the School is a non-profit organization, this application need not demonstrate financial hardship; and

WHEREAS, instead, the applicant notes and the Board finds that the variances requested are necessary to accommodate the School's programmatic needs with adequate space, facilities and organization; and

WHEREAS, the applicant states that the proposed building would not alter the essential character of the neighborhood or impair the use or development of adjacent properties; and

WHEREAS, in support of this contention, the applicant surveyed the surrounding area, finding a vibrant mix of community-facility and commercial uses located in the vicinity of the subject site along with open areas; and

WHEREAS, the applicant notes that the proposed development would provide varied open spaces, including a landscaped plaza, a pedestrian promenade, moveable seating and a fountain, enhanced by appropriate lighting, and that there are residences located approximately 0.6 miles from the subject site; and

WHEREAS, with respect to arrivals and departures, the applicant states that the School's elementary program would have students arrive between 7:20 a.m. and 7:55 a.m. with departures between 2:30 p.m. and 3:00 p.m. with arrivals by car, by one of seven yellow buses or by public buses; that the School's non-traditional educational program would have students arrive between 3:25 p.m. and 3:55 p.m. and depart between 7:35 p.m. and 8:00 p.m. by car, by one of seven yellow buses or by public buses; that students of the School's early college program will arrive and depart for classes between the hours of 8:00 a.m. and 2:30 p.m.; and

WHEREAS, the applicant notes that the School proposes a dedicated entryway and entry plaza to allow for safe arrivals and departures; that the School's staff is tasked with monitoring duties; and that a dedicated bus lane is proposed for the edge of the School's entry plaza; and

WHEREAS, the applicant provided a maneuverability diagram illustrating the arrival and departure of students for the School's different programs; and

WHEREAS, the applicant further submitted an operational plan—including checkpoints for monitoring traffic and studios, radio communication devices, staggering of bus arrivals and departures and an explanation of public bus arrivals and departures—and study of the orderly arrival and departure of students from two other buildings within the School's existing campus that demonstrates the presence of the School's monitoring and security staff and the use of radio communication devices to coordinate pedestrian and vehicular movements in a safe and orderly fashion; and

WHEREAS, in response to questions from the Board at hearing, the applicant clarified that the School proposes to dedicate a single elevator solely for student access; to install a gate at the entrance to the loading berth to provide enhanced security for students arriving and departing the School; to revise the sound attenuation measures in conformance with the Board's environmental review; and to install a security controlled double door at the fourth floor to ensure total separation between the School's elementary program and the School's non-traditional program; and

WHEREAS, by letter dated January 5, 2019, the Fire Department states that it has no objection to this application; and

WHEREAS, the Board finds that the proposed variance will not alter the essential character of the neighborhood or district in which the subject site is located; will not substantially impair the appropriate use or development of adjacent property; and will not be detrimental to the public welfare; and

WHEREAS, the applicant submits that the above practical difficulties or unnecessary hardship do not constitute a self-created hardship; and

MINUTES

WHEREAS, the Board finds that the above practical difficulties or unnecessary hardship have not been created by the owner or by a predecessor in title; and

WHEREAS, the applicant states that the proposed variance is the minimum necessary to permit a productive use of the site, as reflected by evidence of School's programmatic needs; and

WHEREAS, in response to questions from the Board with respect to the size of spaces within the School's proposed building, the applicant submitted detailed schedules for each space demonstrating full utilization based on the School's programmatic needs; and

WHEREAS, the applicant further provided evidence that, based on comparisons to square footages for schools constructed within the City, the square footage per student proposed for the School is consistent with other schools recently constructed by the School Construction Authority; and

WHEREAS, accordingly, the Board finds that the proposed variance is the minimum necessary to afford relief within the intent and purposes of the Zoning Resolution; and

WHEREAS, the project is part of the Teleport Site A project that is classified as an Unlisted action pursuant to 6 NYCRR Part 617.4; and

WHEREAS, the Mayor's Office of Environmental Coordination, as lead agency, has conducted an environmental review of the proposed action and documented relevant information about the project in Technical Memorandum 002 ("Tech Memo 002") dated September 24, 2018, to determine whether proposed changes to the previously approved Teleport Site A project would result in any significant adverse environmental impacts that were not previously addressed in the December 2016 Teleport Site A Environmental Assessment Statement ("Teleport Site A EAS"; CEQR No. 16DME013R, ULURP No. 170156PPR and ULURP No. 170157ZCR) or in Technical Memorandum 001 ("Tech Memo 001"), dated June 29, 2017; and

WHEREAS, analyses prepared for stationary noise in Tech Memo 002 show that in order to satisfy CEQR interior noise level requirements and ensure acceptable interior noise levels, residential/community facility uses along South Avenue must provide 31 dBA of composite attenuation for that street frontage; attenuation values for commercial and office uses on all facades would be 5 dBA less in order to maintain a maximum interior noise levels of 45 dBA or lower for residential/community facility uses and 50 dBA or lower for commercial/office uses; and as required by the New York City Building Code, an alternate means of ventilation must also be provided in order to maintain a closed-window condition; and

WHEREAS, analyses prepared for transportation in Tech Memo 002 identify minor modifications to previously proposed off-site traffic improvement measures associated with the Teleport Site A EAS and these required improvements are described in Table 17 of Tech Memo 002; and

WHEREAS, Tech Memo 002 concludes that the proposed project is not expected to result in any significant adverse environmental impacts that had not been previously identified in the Teleport Site A EAS or subsequent Tech Memo 001, and the conclusions in the December 9, 2016 Negative Declaration remain valid; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR § 72-21 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *adopt* the findings of Tech Memo 002 dated September 24, 2018 prepared by the Mayor's Office of Environmental Coordination in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 to *permit*, in an M1-1 zoning district, the development of a mixed-use community-facility and commercial building for use as a school (Use Group 3) on the first, third, fourth and fifth floors that does not comply with zoning regulations for use, contrary to ZR § 42-10; *on condition* that all work, operations and site conditions shall conform to drawings filed with this application marked "Received February 26, 2019"-Twenty-seven (27) sheets; and *on further condition*:

THAT the applicant shall work with the Department of Transportation to ensure school safety and make whatever changes are recommended by the Department of Transportation to improve and ensure the safety of school children;

THAT at the fourth floor, the corridor that gives onto the School's elementary classrooms designated 415; 416; 417; and 421—illustrated on sheet BSA-204 of the Board-approved drawings—shall be separated with double doors that swing in the direction of egress that are locked and equipped with panic hardware to meet applicable fire-egress requirements so as to ensure and provide security and isolate that corridor of the School building;

THAT the gate on the loading berth shall kept closed during all arrivals and departures of children;

THAT elevator S2 shall be dedicated to school use without access by other tenants in the building;

THAT security controls as indicated on the Board-approved drawings shall be implemented;

THAT sound attenuation shall be installed in the school building, as indicated on the Board-approved plans;

THAT traffic improvement measures shall be implemented, as described in Tech Memo 002;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number ("BSA Cal No 2018-107-BZ"), shall be obtained within four (4) years, by February 26, 2023;

THAT this approval is limited to the relief granted by

MINUTES

the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 26, 2019.

COMMUNITY BOARD #11Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, a reopening, an extension of the term of a variance previously granted by the Board, which expired on February 7, 2017, and an extension of the time to obtain a certificate of occupancy, which expired on February 7, 2013; and

WHEREAS, a public hearing was held on this application on May 8, 2018, after due notice by publication in *The City Record*, with continued hearings on January 29, 2019, and March 5, 2019, and then to decision on that date; and

WHEREAS, the Board was in receipt of two (2) letters, from the Auburndale Improvement Association, within whose boundary lines the subject site is located, in support of this application, recommending a five (5) year extension of term and agreeing with the Board’s requiring the property create a landscaped buffer between the subject site and neighboring residential properties, but also citing concerns regarding the applicant’s compliance with prior conditions relating to obstructions of the sidewalk by cars and display materials; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed

inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is comprised of three (3) tax lots located on the north side of Northern Boulevard, bound by Utopia Parkway to the west and 189th Street to the east, partially within an R3-2 zoning district and partially within an R3X zoning district, in Queens; and

WHEREAS, the site has approximately 176 feet of total frontage on Northern Boulevard, 102 feet of frontage on Utopia Parkway, 116 feet of frontage on 189th Street and 18,621 square feet of lot area; and

WHEREAS, tax lot 7 is occupied by a, currently un-tenanted, two- (2) story retail and office (Use Group (“UG” 6) building and tax lot 1 is occupied primarily by a one- (1) story building occupied by a retail flower store (UG 6), insurance office (UG 6) and wholesale plumbing supply company (UG 16), which also uses open space on tax lots 5 and 7 for plumbing supplies storage; and

WHEREAS, the Board has exercised jurisdiction over the subject tax lots since November 13, 1968, when, under the subject calendar number, the Board granted a variance, pursuant to ZR § 72-21, to permit, in a then R3-2 zoning district, the erection of a two- (2) story enlargement to an existing building occupied as a wholesale plumbing supply house, stores and office, on condition that all work substantially conform to drawings filed with the application; the wall and gate to the parking area be located five (5) feet back of the existing parking line; the curb cut be not more than ten (10) feet long; accessory parking be limited to passenger type vehicles; the variance be for a term of ten (10) years, to expire November 13, 1978; all laws, rules and regulations applicable be complied with; and, substantial construction be completed within one (1) year, by November 13, 1969; and

WHEREAS, on November 5, 1969, under the subject calendar number, the Board reopened and amended the resolution to extend the time to complete construction for one (1) year, to expire on November 13, 1970; and

WHEREAS, on February 17, 1981, under the subject calendar number, the Board waived its Rules of Practice and Procedure, reopened and amended the resolution, as amended on November 5, 1969, to extend the term for ten (10) years, to expire on November 13, 1988, on condition that plumbing supplies and garbage dumpsters be removed from sidewalk areas; the property be kept clean and free of debris; delivery and pick-up trucks are not to park on sidewalks for loading and unloading; graffiti on the façade of the building be removed; other than as amended the resolution be complied with in all respects; and, a new certificate of occupancy be obtained within one (1) year, by February 17, 1982; and

WHEREAS, on September 25, 1984, under the subject calendar number, the Board waived its Rules of Procedure, reopened and amended the resolution, as amended through February 17, 1981, to extend the time to obtain a certificate of occupancy for three (3) years, to expire February 17, 1985; and

WHEREAS, on March 14, 1989, under the subject

MINUTES

calendar number, the Board waived its Rules of Procedure, reopened and amended the resolution, as amended through September 25, 1984, to extend the term of the variance for three (3) years, to expire November 13, 1991, to permit an enlargement to the existing off-street loading dock, substantially as shown on drawings filed with the application, on condition that there be no parking of motor vehicles on the sidewalk; there be no double parking in the street; the dumpster be kept covered at all times and located within an enclosure as shown on approved plans filed with the application; all signs conform to the C1 district regulations; any storage or use of liquid petroleum gas on the premises be allowed only on issuance of the appropriate permit; there be no storage of any kind within the loading area on the Utopia Parkway side of the building; the landscaping be densely planted with evergreen shrubs or trees at least four (4) feet high at the time of planting and which are of a type which may be expected to form a year-round dense screen at least six (6) feet high within three (3) years, and be maintained and replaced when necessary; the open area located on the northerly side of the building remain vacant except for the dumpster enclosure and the planting as shown on plan, and that said area be maintained clean and free of debris at all times; there be no storage of the hi-low on the sidewalk; the second floor be used for offices (UG 6) only; other than as amended the resolution be complied with in all respects; and, a new certificate of occupancy be obtained within one (1) year, by March 14, 1990; and

WHEREAS, on July 28, 1992, under the subject calendar number, the Board reopened and amended the resolution, as amended through March 14, 1989, to extend the term for ten (10) years, to expire November 13, 2001, on condition that there be no parking of vehicles on the sidewalk; there be no dumpster on Northern Boulevard; the planning be maintained and replaced when necessary; the premises be maintained graffiti free and be in substantial compliance with BSA-approved plans filed with the application; other than as amended the resolution be complied with in all respects; and, a new certificate of occupancy be obtained within one (1) year, by July 28, 1993; and

WHEREAS, on November 26, 2002, under the subject calendar number, the Board waived its Rules of Practice and Procedure, reopened and amended the resolution, as amended through July 28, 1992, to extend the term of the variance for a period of ten (10) years, to expire January 13, 2011, on condition that the premises be maintained in substantial compliance with approved plans filed with the application; other than as amended the resolution be complied with in all respects; the conditions appear on the certificate of occupancy; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and, the Department of Buildings (“DOB”) ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its

jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted; and

WHEREAS, on February 7, 2012, under the subject calendar number, the Board waived its Rules of Practice and Procedure, reopened and amended the resolution to extend the term for five (5) years, to expire on February 7, 2017, and to allow a one- (1) year extension of time to obtain a certificate of occupancy, by February 7, 2013, on condition that all use and operations substantially conform to plans filed with the application; the site be maintained clean of debris and graffiti; all lighting be directed downward and away from adjacent residences; all landscaping be maintained as reflected on the Board-approved plans; there be no parking on the sidewalks; all signage be maintained in accordance with the BSA-approved plans; trucks pull into the yard fully, not block the sidewalk, and not double park on Northern Boulevard; a sign be maintained directing customers of North Shore Plumbing Supply not to block the sidewalk; the businesses provide a parking monitor to guide trucks making deliveries and entering and exiting the site in a manner to secure the safety of the sidewalk; the conditions be listed on a certificate of occupancy; all conditions from prior resolutions not specifically waived by the Board remain in effect; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and, DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted; and

WHEREAS, the term of the variance having expired on February 7, 2017, the applicant seeks a five- (5) year extension of the term; and

WHEREAS, in addition, because this application was filed less than two (2) years after the expiration of the term of the variance and more than one (1) year after the expiration of the time to obtain a certificate of occupancy, the applicant requests waivers, pursuant to § 1-14.2 of the Board’s Rules of Practice and Procedure (the “Board’s Rules”), of §§ 1-07.3(b)(2) and 1-07.3(d)(2), respectively, of the Board’s Rules to permit the filing of this application; and

WHEREAS, over the course of hearings, the Board raised concerns with regards to the location of dumpsters and a trash enclosure located at the rear of the site and adjacent to residential lots, the maintenance of the otherwise vacant and paved area at the rear of the site and compliance with the conditions of prior approvals that all landscaping be maintained as reflected on the Board-approved plans; and

WHEREAS, at hearing, the applicant provided plans to remove the trash enclosure and, instead, store all refuse inside the building prior to carting, cease any activity at the rear of the lot, extend existing wooden and chain link fencing and better evidencing of the compliant status of the landscaping with prior Board conditions; and

WHEREAS, in light of the foregoing, the Board finds that a five- (5) year extension of the term of the variance, originally granted in 1968, and a one (1) year extension of

MINUTES

the time to obtain a certificate of occupancy are appropriate with certain conditions as set forth below, as recommended by the Auburndale Improvement Association to ensure on-going compliance with the conditions at this grant, particularly the maintenance of the site free of debris and storage.

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* Rules 1-07.3(b)(2) and 1-07.3(d)(2) of its Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated November 13, 1968, as amended through February 7, 2012, so that as amended this portion of the resolution reads: “to grant an extension of the term of the variance for a term of five (5) years, to expire on March 5, 2024, *on condition* that all work and site conditions shall comply with drawings filed with this application marked ‘February 14, 2019’-Five (5) sheets; and *on further condition*:

THAT the term of the variance shall expire March 5, 2024;

THAT all landscaping, including that in planter boxes, shall be maintained as reflected on the Board-approved plans and replaced as necessary to maintain a first-class appearance;

THAT all landscaping shall be maintained by a landscaper pursuant to a landscaping contract;

THAT the sidewalks and streets abutting the subject site shall remain unobstructed at all times;

THAT there shall be no display or storage of materials on the sidewalks abutting the subject site;

THAT the rear area shall be maintained free and clear of debris and storage, or otherwise, landscaped;

THAT all lighting be directed downward and away from adjacent residences;

THAT there shall be no parking on the sidewalks;

THAT all signage shall be maintained in accordance with the Board-approved plans;

THAT trucks must pull into the yard fully, must not block the sidewalk, and must not double park on Northern Boulevard;

THAT the business shall provide a parking monitor to guide trucks making deliveries and entering and exiting the site in a manner to secure the safety of the sidewalk;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number (“BSA Cal. No. 624-68-BZ”), shall be obtained within one (1) year, by March 5, 2020;

THAT all conditions from prior resolution not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s)

not related to the relief granted.”

Adopted by the Board of Standards and Appeals, March 5, 2019.

1016-86-BZ

APPLICANT – Law Office of Fredrick A. Becker, for Opera Owner Inc., c/o Halstead Management Co., LLC, lessee.

SUBJECT – Application November 16, 2018 – Extension of Term of a previously approved Special Permit (§73-36) which permitted the operation of a Physical Cultural Establishment (New York Sports Club) which expired on May 5, 2017; Amendment to permit a change in hours of operation and to reflect a new operator (Studio IX); Waiver of the Board’s Rules. C4-6A zoning district.

PREMISES AFFECTED – 2162-2166 Broadway, Block 1168, Lot 22, Borough of Manhattan.

COMMUNITY BOARD #7M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a reopening, waiver of the Board’s Rules of Practice and Procedure, an extension of the term of a special permit previously granted pursuant to ZR § 73-36, which expired on May 5, 2017, and amendments to the same to permit a change in operator and hours of operation; and

WHEREAS, a public hearing was held on these applications on March 5, 2019, after due notice by publication in *The City Record*, and then to decision on that date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 7, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is an irregularly shaped lot located on the east side of Broadway between West 76th Street and West 77th Street, in a C4-6A zoning district and the Special Enhanced Commercial District, in Manhattan; and

WHEREAS, the site has approximately 79 feet of frontage along Broadway, 25 feet of frontage along West 76th Street, 134 feet of depth, approximately 9,461 square feet of lot area, and is occupied by a 23-story plus cellar and sub-cellar mixed-use residential and commercial building; and

WHEREAS, the subject physical culture establishment (“PCE”) is located within portions of the cellar (5,681 square feet of floor space) of the existing building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 5, 1987, when, under the subject

MINUTES

calendar number, the Board granted a special permit to legalize the operation of a PCE in the cellar of the subject site on condition that all work substantially conform to drawings, as they apply to the objection, filed with the application; the special permit be limited to a term of ten (10) years, to expire May 5, 1997; the hours of operation be limited to Monday through Friday, 7:00 a.m. to 12:00 midnight, and Saturday and Sunday, 10:00 a.m. to 8:00 p.m.; there be no change in ownership or operating control of the PCE without prior application to and approval from the Board; the conditions appear on the certificate of occupancy; the development, as approved, be subject to verification by the Department of Buildings (“DOB”) for compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under the jurisdiction of the department; and, substantial construction be completed in accordance with Section 73-70 of the Zoning Resolution; and

WHEREAS, on October 26, 1999, under the subject calendar number, the Board waived its Rules of Practice and Procedure, reopened and amended the resolution to extend the term for ten (10) years, to expire on May 5, 2007, and to permit enlargement of the PCE by 731 square feet on condition that all signs be maintained in accordance with BSA-approved plans and that the premises be maintained in substantial compliance with the proposed drawings submitted with the application; other than as amended the resolution be complied with in all respects; and, a new certificate of occupancy be obtained within one (1) year, by October 26, 2000; and

WHEREAS, on December 8, 2009, under the subject calendar number, the Board waived its Rules of Practice and Procedure, reopened and amended the resolution to extend the term for a period of ten (10) years, to expire on May 5, 2017, and to permit an extension of time to obtain a certificate of occupancy to December 8, 2011, on condition that any and all work substantially conform to drawings, as they apply to the objections, filed with the application; the above conditions appear on the certificate of occupancy; all conditions from prior resolutions not specifically waived by the Board remain in effect; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; the DOB endure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, the term of the special permit having expired, the applicant requests the subject relief; and

WHEREAS, the applicant additionally requests a waiver, pursuant to § 1-14.2 of the Board’s Rules of Practice and Procedure, of Rule § 1-07.3(b)(2) to permit the filing of this application less than two (2) years after the expiration of the term of the special permit; and

WHEREAS, the applicant also seeks an amendment to reflect a change to the owner and operator of the PCE, to “Studio IX”, reconfiguration of the space for the new

operation, and to reflect new hours of operation: 5:30 a.m. to 10:00 p.m. daily; and

WHEREAS, the Department of Investigation has performed a background check on the new corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed satisfactory; and

WHEREAS, the applicant represents that the former operator of the PCE, New York Sports Club, vacated the subject space at the end of 2018 and that Studio IX has not yet opened, though it anticipates initiating operations in mid-2019; and

WHEREAS, the applicant additionally states that Studio IX intends to offer massage services by licensed massage therapists, but notes that as the facility is not yet operational, no massage therapists have been hired at this time; and

WHEREAS, by letter dated February 21, 2019, the Fire Department confirmed that the premises are protected by a fire alarm, standpipe and sprinkler systems that have been inspected and tested satisfactorily to Department standards, and that the Fire Department has no objection to the Board rendering a decision on this application; and

WHEREAS, at hearing, the Board expressed concerns regarding the ADA-accessibility of the PCE space in the cellar; and

WHEREAS, in response, the applicant represented that the existing elevator is proposed to extend into the cellar for direct access to the PCE from grade; and

WHEREAS, pursuant to ZR § 73-03(f), the applicant has satisfactorily demonstrated compliance with the conditions of the previous term and the Board finds that the circumstances warranting the original grant still obtain; and

WHEREAS, accordingly, the Board finds that a ten (10) year extension of term, and the subject amendment to permit a change in owner and operator, modification to the hours of operation, and modifications to the existing PCE space, are appropriate, with the conditions set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* Rule § 1-07.3(b)(2) of its Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated May 5, 1987, as amended through December 8, 2009, so that, as amended, this portion of the resolution reads: “to permit an extension of term for ten (10) years, to expire on May 5, 2027, *on condition* that the use and operation of the site shall conform to drawings filed with this application marked ‘Received November 16, 2018’-Three (3) sheets; and *on further condition*:

THAT the term of this grant shall expire on May 5, 2027;

THAT the hours of operation shall be limited to the following: 5:30 a.m. to 10:00 p.m. daily;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from this Board;

THAT minimum three (3) foot wide exit pathways to required exits shall always be maintained unobstructed,

MINUTES

including that from any gymnasium equipment;

THAT all massages shall be provided by New York State licensed massage therapists;

THAT sprinklers and interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, connection of the interior fire alarm and sprinklers to a FDNY-approved central station—shall be maintained throughout the PCE space as indicated on the Board-approved plans;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a new certificate of occupancy, also indicating this approval and calendar number (“BSA Cal. No. 1016-86-BZ”) shall be obtained within one (1) year, by March 5, 2020;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, March 5, 2019.

COMMUNITY BOARD #10BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a reopening, waiver of the Board’s Rules of Practice and Procedure, an extension of term of a special permit for a physical culture establishment (“PCE”) previously granted pursuant to ZR § 73-36 which expired on June 1, 2018, an extension of time to obtain a certificate of occupancy, which expired on February 3, 2010, and an amendment of the special permit to reflect a change in the hours of operation; and

WHEREAS, a public hearing was held on this application on February 5, 2019, after due notice by publication in *The City Record*, with a continued hearing on March 5, 2019 and then to decision on that date; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 10, Brooklyn, recommends approval of this application on condition that the operator mitigate noise from their air conditioning unit if it is determined by the New York City Department of Environmental Protection (“DEP”) that their unit exceeds the allowable decibel level; and

WHEREAS, the subject site is located on the north side of 86th Street between 4th Avenue and 5th Avenue, in a C4-2A zoning district, in the Special Bay Ridge District, in Brooklyn; and

WHEREAS, the site has approximately 106 feet of frontage along 86th Street, 100 feet of depth, approximately 10,600 square feet of lot area, and is occupied by a three-(3) story commercial building; and

WHEREAS, the subject PCE is located within portions of the second floor (9,340 square feet of floor area) and third floor (7,832 square feet of floor area) with an entrance on the ground floor (285 square feet of floor area) of the subject building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since February 3, 2009, when, under the subject calendar number, the Board granted a special permit to legalize the operation of a PCE on the second and third floor of the subject building on condition that all work substantially conform to drawings filed with the application; the term of the grant expire on June 1, 2018; there be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board; all massages be performed by New York State licensed massage therapists; the above conditions appear on the certificate of occupancy; a certificate of occupancy be obtained by February 3, 2010; the rooftop mechanical units comply with the requirements of the New York City Noise Code; Local Law 58/87 compliance be as reviewed and approved by DOB; fire safety measures be installed and/or maintained as shown on the Board-approved plans and in accordance with the FDNY recommendations; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); the approved plans be considered approved only for the portions related to the specific relief granted; substantial construction be completed in accordance

MINUTES

with ZR § 73-70; and the Department of Buildings (“DOB”) ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, the term of the special permit and time to obtain a certificate of occupancy having expired, the applicant requests the subject relief; and

WHEREAS, the applicant additionally requests waivers, pursuant to § 1-14.2 of the Board’s Rules of Practice and Procedure, of Rules §§ 1-07.3(b)(2) and 1-07.3(d)(2) to permit the filing of this application less than two (2) years after the expiration of the term of the special permit and more than 30 days after the expiration of time to obtain a certificate of occupancy; and

WHEREAS, the applicant also seeks an amendment to reflect new hours of operation: Monday through Thursday, 6:00 a.m. to 11:00 p.m.; Friday, 6:00 a.m. to 10:00 p.m.; and, Saturday and Sunday, 8:00 a.m. to 8:00 p.m.; and

WHEREAS, by letter dated February 21, 2019, the Fire Department stated that the Bureau’s Licensed Public Place of Assembly (“LPPA”) unit inspected the PCE space and issued a violation order (E562464) for occupancy without an operating permit; the premises is protected by fire alarm and sprinkler systems that have been inspected and tested to the Department’s satisfaction; and the Department has no objection to the Board rendering a decision on this application as the Bureau of Fire Prevention will continue to inspect the premises and enforce any outstanding violation orders; and

WHEREAS, at hearing, the Board expressed concerns regarding the operation of a rooftop air conditioning unit and the applicant’s compliance with a condition of the prior resolution that mechanical units comply with the requirements of the New York City Noise Code; and

WHEREAS, in response, the applicant represented that the unit is not in the possession or control of the PCE; and

WHEREAS, the Board also expressed concern regarding the delay in obtaining a certificate of occupancy; and

WHEREAS, in response, the applicant represented that the delay is due to the owner of the subject site, not the tenant PCE space, and that open plumbing work on behalf of the owner must be signed-off by the Department of Buildings prior to the issuance of a certificate of occupancy; and

WHEREAS, pursuant to ZR § 73-03(f), the applicant has satisfactorily demonstrated compliance with the conditions of the previous term and the Board finds that the circumstances warranting the original grant still obtain; and

WHEREAS, accordingly, the Board finds that a ten (10) year extension of term, extension of time to obtain a certificate of occupancy and the subject amendment to permit a modification to the hours of operation are appropriate with the conditions set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* Rules § 1-07.3(b)(2) and 1-07.3(d)(2) of

its Rules of Practice and Procedure, *reopens and amends* the resolution, dated February 3, 2009, so that, as amended, this portion of the resolution reads: “to permit an extension of term for ten (10) years, to expire on June 1, 2028, *on condition* that the use and operation of the site shall conform to drawings filed with this application, dated August 1, 2018 (marked ‘Received September 21, 2018’)-Six (6) sheets; and *on further condition*:

THAT the term of this grant shall expire on June 1, 2028;

THAT the hours of operation shall be limited to the following: Monday through Thursday, 6:00 a.m. to 11:00 p.m.; Friday, 6:00 a.m. to 10:00 p.m.; and, Saturday and Sunday, 8:00 a.m. to 8:00 p.m.;

THAT minimum three (3) foot wide exit pathways to required exits shall always be maintained unobstructed, including that from any gymnasium equipment;

THAT sprinklers and an interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, connection of the interior fire alarm and sprinklers to a FDNY-approved central station—shall be maintained throughout the PCE space as indicated on the Board-approved plans;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number (“BSA Cal. No. 61-08-BZ”) shall be obtained within one (1) year, by March 5, 2020;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, March 5, 2019.

COMMUNITY BOARD #2M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of time to complete construction pursuant to a variance, granted pursuant to ZR § 72-21, which permitted the conversion of the first floor and cellar levels of an existing three-story building to a commercial retail use and expired on November 23, 2018; and

WHEREAS, a public hearing was held on this application on February 5, 2019, after due notice by publication in *The City Record*, with a continued hearing on March 5, 2019, and then to decision on that date; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the west side of Mercer Street, between Broome Street and Grand Street, in an M1-5B zoning district, in the SoHo Cast Iron Historic District, in Manhattan; and

WHEREAS, the site has approximately 25 feet of frontage along Mercer Street, 100 feet of depth, 25,000 square feet of lot area, and is occupied by a three- (3) story building currently under alteration; and

WHEREAS, the Board has exercised jurisdiction over the subject site November 23, 2010, when, under the subject calendar number, the Board granted a variance, pursuant to ZR § 72-21, to permit the conversion of the first floor and cellar of the existing three- (3) story building to a commercial retail use (Use Group 6), contrary to ZR §§ 42-10 and 42-14(d)(2)(b) on condition that any and all work substantially conform to drawings, as they apply to the objections, filed with the application; the approval be limited to the relief granted by the Board, in response to specifically cited and filed DOB/other jurisdiction objection(s) only; substantial construction be completed pursuant to ZR § 72-23, by November 23, 2014; the approved plans be considered approved only for the portions related to the specific relief granted; and, the Department of Buildings (“DOB”) ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, on October 27, 2015, under the subject calendar number, the Board waived its Rules of Practice and Procedure, reopened and amended the resolution to grant an extension of time to complete construction, expiring November 23, 2018, on condition that the use and operation of the site comply with BSA-approved plans associated with the prior grant; substantial construction be completed by November 23, 2018; all conditions from the prior resolution not specifically

waived by the Board remain in effect; DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted; and

WHEREAS, the time for substantial construction to have been completed having expired, the applicant seeks the subject relief; and

WHEREAS, the applicant submits that the commencement of construction at the site has been delayed for the following reasons: a change in ownership and litigation caused by the failure of an anticipated tenancy to materialize; and

WHEREAS, by Certificate of No Effect (“CNE”) No. 17-1987, dated May 26, 2015, the New York City Landmarks Preservation Commission (“LPC”) permitted exterior alterations to the façade of the subject building, including the removal of historic wood and masonry storefront infill and the installation of a new storefront infill, featuring two (2) paired, wood and glass recessed entrance doors at the northern and southern bays, paired display windows at the central bay with paneled wooden bulkheads and transoms, featuring a wrought iron grille in front of the central transom with louvers behind; the removal and the installation of various windows; the removal of masonry infill at the third floor, and installation of one (1) two-over-two double hung wood window within the restored historic window opening; interior alterations at the cellar and through third floors; and, structural underpinning at the cellar, the demolition and construction of non-bearing partition walls and finishes, and mechanical, plumbing and electrical work; and

WHEREAS, by CNE number 19-7807, dated January 20, 2017, and by CNE No. 19-29064, issued August 6, 2018, and expiring August 6, 2022, LPC permitted work consisting of constructing a temporary rooftop mock-up of wood and orange netting for the purpose of documenting the visibility of the proposed rooftop addition and parapet railings to be filed under a separate application; and

WHEREAS, by letter dated October 25, 2018, LPC states that, at the Public Meeting of October 23, 2018, the Commission voted to approve a proposal to construct rooftop additions at the subject premises, on condition that the visibility of the glass railings and first floor of the addition be eliminated, in consultation with staff, no work begin until a Certificate of Appropriateness has been issued and a Certificate of Appropriateness be issued upon receipt, review and approval of two signed and sealed sets of the final DOB filing drawings for the approved work, incorporating the required changes; and

WHEREAS, over the course of the hearings, the Board raised concerns regarding the applicant’s initial request for a four (4) year extension of time to complete construction where the construction consists, not of an entirely new building, but of interior demolition and alteration to an existing structure; and

WHEREAS, in response, the applicant amended their request to seek a two (2) year extension of time to complete

MINUTES

construction; and

WHEREAS, based upon its review of the record, the Board finds that a two (2) year extension of time to complete construction is appropriate with certain conditions, as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated November 23, 2010, as amended on October 27, 2015, so that as further amended this portion of the resolution reads: “to grant a two (2) year extension of time to complete construction to November 23, 2020, on condition:

THAT substantial construction shall be completed, pursuant to ZR § 72-23, by November 23, 2020, as evidenced by an inspection and determination by the Department of Buildings;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions shall be recorded on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number (“BSA Cal. No. 89-10-BZ”) shall be obtained within two (2) years, by November 23, 2020;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated June 15, 2017 acting on Department of Buildings (“DOB”) Application No. 421432122, reads in pertinent part:

[...]1

(Objection #10) Proposed one front yard (corner lot) is contrary to ZR 23-45; and

WHEREAS, this is an application under ZR § 72-21 to permit, within an R3A zoning district, the construction of a two- (2) story plus cellar two- (2) family detached residence that does not comply with the zoning requirements for front yards, contrary to ZR § 23-45; and

WHEREAS, a public hearing was held on this application on January 29, 2019, after due notice by publication in *The City Record*, with a continued hearing on March 5, 2019, and then to decision on that date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the subject site and surrounding neighborhood; and

WHEREAS, Community Board 12, Queens, recommends approval of this application; and

WHEREAS, the Board was in receipt of three (3) form letters in opposition to this application citing concerns over the potential lack of front yard planting, and whether the proposed two- (2) family home is consistent with the neighborhood character; and

WHEREAS, the subject site on the northeast corner of 116th Avenue and 200th Street, within an R3A zoning district, in Queens; and

WHEREAS, the site has approximately 25 feet of frontage along 116th Avenue, 100 feet of frontage along 200th Street, 2,500 square feet of lot area and is currently vacant; and

WHEREAS, the applicant states that the site was previously occupied by a detached single-family residence, constructed prior to 1961 that was demolished pursuant to a 1978 DOB demolition permit and Unsafe Building declaration; and

WHEREAS, the applicant proposes to develop the site with a two- (2) story plus cellar two- (2) family detached residence with two (2) front yards measuring 12’-10” in depth along 116th Avenue and 3’-7” in depth along 200th Street; and

WHEREAS, at the subject site, one (1) front yard with a depth of ten (10) feet and one (1) front yard at least as deep as an adjacent front yard (12’-10”) are required on corner lots pursuant to ZR § 23-45; and

WHEREAS, the applicant asserts that the proposed building is otherwise compliant with the bulk regulations

applicable in the subject zoning district; and

WHEREAS, the applicant states, pursuant to ZR § 72-21(a), the subject site’s status as a corner lot, vacancy and narrowness are unique physical conditions that create practical difficulty and unnecessary hardship in developing the site in compliance with the underlying district regulations; and

WHEREAS, in support of this assertion, the applicant submitted a uniqueness study demonstrating that, of all 21 corner lots located within the subject R3A zoning district, the subject site is the only corner lot that is vacant and has a lot width of 25 feet; that the balance of those lots located within the R3A are improved with one- (1) or two- (2) family dwellings that do not comply with underlying zoning district regulations, including but not limited to regulations relating to side yard and floor area requirements; and

WHEREAS, the applicant also submitted a permit issued from the Department of Housing and Buildings (Permit No. 1840 on Application No. NB 219), dated March 8, 1950, for masonry work at the premises, reporting such land to be located at the northeast corner formed by the intersection of 116 Avenue and 200 Street with a width of 25 feet and a depth of 100 feet, confirming that the subject site has existed with the same narrow dimension since prior to the December 15, 1961, enactment of the New York City Zoning Resolution; and

WHEREAS, the applicant additionally submits that interior lots are not relevant to a finding that the subject lot is unique because the Zoning Resolution requires such lots to provide only one (1) front yard, pursuant to ZR § 23-45, accordingly, such lots are not similarly encumbered by zoning regulations and, further, that all 21 of the dwellings located within 1,200 feet of the subject site in an R3A zoning district were developed between 1920 and 1950, prior to the adoption of the 1961 Zoning Resolution; and

WHEREAS, the applicant further states that strict conformance with ZR § 23-45 would result in a two- (2) family residence with an exterior width of 13.6 feet, 778 square feet of floor area on the first floor and 683 square feet on the second floor, and would result in at least one (1) dwelling being below the minimum size of 925 square feet, contrary to ZR § 23-23(b); and

WHEREAS, accordingly, the applicant submits that a dwelling with an exterior width of 13.6 feet is too narrow to be livable and, in support of this contention, submitted a study of 78 lots with widths of 25 feet or less located within a 1,200-foot radius of the subject site and in an R3A zoning district, demonstrating that zero are occupied by a dwelling that has a width of 13.6 feet, and that dwellings on these narrow lots range in width from 16 feet to 20 feet; and

WHEREAS, in light of the foregoing, the Board finds that the status of the subject site as a corner lot, its vacancy and narrow width since prior to 1961 create unnecessary hardship and practical difficulty in developing the site in strict compliance with the current underlying bulk provisions of the Zoning Resolution; and

WHEREAS, the Board has determined that because of

1 The applicant received objections under Sections 23-142 and 23-142(a) of the Zoning Resolution due to the floor area ratio exceeding the maximum allowed in the subject zoning district. Over the course of hearings, the applicant revised the proposed building to comply with ZR § 23-142 and, thus, such waiver is no longer sought nor required.

MINUTES

the subject lot's unique physical conditions, there is no reasonable possibility that compliance with applicable zoning regulations will result in a habitable two-family dwelling, in satisfaction of ZR § 72-21(b); and

WHEREAS, the applicant states that the subject proposal will not alter the essential character of the neighborhood because all four (4) of the corner lots located within 200 feet of the subject site contain non-complying front yards, the proposed residence provides a front yard with a depth of 12'-10" on 116th Avenue that is consistent with and matches the adjoining front yards, and the proposed residence is otherwise compliant with applicable zoning regulations; and

WHEREAS, over the course of hearings, the Board raised concern regarding the access to the subject site, installation of a curb cut, and the impact on the existing street tree; and

WHEREAS, in response, the applicant represented that they are coordinating with the NYC Parks Department to locate the driveway access in such a way as to preserve the tree in its existing location; and

WHEREAS, accordingly, the Board finds that the subject proposal will not alter the essential character of the neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare in satisfaction with ZR § 72-21(c); and

WHEREAS, the applicant submits, and the Board finds, based on the materials submitted into the record confirming that the site has had the same narrow width complained of since prior to the enactment of the Zoning Resolution in 1961, that, per ZR § 72-21(d), the hardship was not created by the owner or a predecessor in title; and

WHEREAS, the applicant state that the subject proposal, which requests only a waiver of the minimum front yard requirement and is otherwise compliant with applicable zoning regulations, is the minimum relief required in satisfaction of ZR § 72-21(e); and

WHEREAS, the Board finds that the subject proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18-BSA-001Q, dated July 3, 2017; and

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR § 72-21 to permit, in an R3A zoning district, development of a two- (2) story plus cellar two- (2) family detached residence that does not comply with the minimum requirements for front yards, contrary to ZR § 23-45; *on condition* that all work shall substantially conform to

drawings filed with this application marked "February 12, 2019"– Ten (10) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the site: two (2) front yards with minimum depths of 3'-7" and 12'-10", as reflected on the BSA-approved plans;

THAT substantial construction shall be completed pursuant to ZR § 72-23, by March 5, 2023;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number ("BSA Cal. No. 2017-222-BZ") shall be obtained within four (4) years, by March 5, 2023;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 5, 2019.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated January 10, 2019, acting on New Building Application No. 421300489, reads in pertinent part:

1. ZR 24-111 Proposed floor area exceeds the limit.
2. ZR 24-35 5'-0" side yard is less than minimum 8'-0" required side yard.
3. ZR 24-36 Rear yard for community facility

MINUTES

proposed at 4'-0" and for accessory use residential 3rd floor proposed at 25'-0".

4. . . . ZR 25-31 Insufficient parking provided; and

WHEREAS, this is an application under ZR § 72-21 to permit, in an R2 zoning district, the development of a three-story, with cellar, community-facility building for use as a house of worship that does not comply with zoning regulations for floor area, side yards, rear yards and parking, contrary to ZR §§ 24-111, 24-35, 24-36 and 25-31; and

WHEREAS, a public hearing was held on this application on October 30, 2018, after due notice by publication in *The City Record*, with a continued hearing on January 15, 2019, and then to decision on March 5, 2019; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 7, Queens, waives its recommendation for this application; and

WHEREAS, residents of the surrounding area submitted testimony in opposition to this application, citing concerns with traffic, parking and the quiet, residential character of the neighborhood; and

WHEREAS, the subject site is located on the east side of 154th Street, between 35th Avenue and 33rd Avenue, in an R2 zoning district, in Queens; and

WHEREAS, the subject site has approximately 50 feet of frontage along 154th Street, 102 feet of depth, 5,082 square feet of lot area and is vacant; and

WHEREAS, the applicant proposes to develop a three-story, with cellar, community-facility building for use as a house of worship and caretaker's apartment (Use Group 4) with 4,680 square feet of floor area (0.92 FAR), side yards with depths of 5 feet to the north and 11 feet to the south, a rear yard with a depth of 4 feet at the first and second floors and 30 feet at the third floor and one accessory off-street parking space; and

WHEREAS, the applicant represents that, at the subject site, floor area may not exceed 2,541 square feet (0.5 FAR) under ZR § 24-111; side yards must have minimum depths of 8 feet under ZR § 24-35; rear yards must have a minimum depth of 30 feet under ZR § 24-36; and a minimum of 12 accessory off-street parking spaces are required under ZR § 25-31; and

WHEREAS, the Board acknowledges that the subject house of worship, as a religious institution, is entitled to deference under the law of the State of New York as to zoning and its ability to rely upon programmatic needs in support of this application; and

WHEREAS, specifically, as held in *Cornell University v. Bagnardi*, 68 N.Y.2d 583 (1986), a zoning board must grant an educational or religious institution's application unless it can be shown to have an adverse effect on the health, safety or welfare of the community and general concerns about traffic and disruption of the residential character of the neighborhood are insufficient grounds for

the denial of such applications; and

WHEREAS, the consistent with ZR § 72-21, the applicant submits that the proposed building is necessary to accommodate the programmatic needs of the subject house of worship and submitted a programmatic needs demonstrating that the subject house of worship requires space to support the subject house of worship's projected growth to from a total membership of 116 members with 40-50 members in attendance per week to approximately 70 members in attendance per week as well as a permanent location for the membership to gather, which the subject house of worship has been lacking since 2015; and

WHEREAS, the applicant submits that the proposed building provides appropriately sized spaces for use as a meditation hall and a main hall with sufficient height for the placement of religious statuary; that there is sufficient space for circumambulation; that the main hall and the meditation space will accommodate a total of 74 members; that there will be space for book storage on the second floor; that the caretaker's apartment on the third floor will be used as living space, an accessory office and a space for study and reflection; and that the proposed development will be constructed with sound attenuation measures to ensure that the interior provides a quiet space for meditation; and

WHEREAS, the applicant notes that, because of the size of the subject site, an as-of-right development would not meet the programmatic needs of the subject house of worship because the main hall at the first floor would be in adequately sized; the main hall and meditation space would not be permitted simultaneous occupancy because of parking requirements; the caretaker's apartment would not provide sufficient space; and an as-of-right development would not accommodate the current membership or projected growth of the subject house of worship; and

WHEREAS, consistent with *Cornell University v. Bagnardi*, 68 N.Y.2d 583 (1986), the Board finds that the programmatic needs of the subject house of worship create practical difficulties or unnecessary hardship in complying strictly with applicable zoning regulations that are not created by general circumstances in the neighborhood or district; and

WHEREAS, the applicant notes that, because the subject house of worship is a non-profit organization, this application need not demonstrate financial hardship; and

WHEREAS, instead, the applicant notes and the Board finds that the variances requested are necessary to accommodate the programmatic needs of the subject house of worship with adequate space and facilities; and

WHEREAS, the applicant states that the proposed building would not alter the essential character of the neighborhood or impair the use or development of adjacent properties; and

WHEREAS, in support of this contention, the applicant studied the surrounding area, finding that the neighborhood is characterized by residential and community-facility uses, with a number of houses of worship in the vicinity; and

MINUTES

WHEREAS, the applicant notes that adjacent to the subject site are two-family residences but that the proposed floor area and proposed rear yard would not adversely affect the surrounding area because the rear yards on the subject block contain existing encroachments (such as garages) that provide a buffer between the proposed building and adjacent residences; and

WHEREAS, the applicant further submitted a floor area study, finding that approximately 50 percent of buildings within the immediate area have 0.5 FAR or greater; and

WHEREAS, with respect to parking, the applicant submits that members will travel to the subject site by walking or by taking public transportation and that there are a number of public transportation options within one block and within walking distance of the subject site; and

WHEREAS, in response to community concerns and questions from the Board at hearing, the drawings were revised to add the proposed parking space (where no parking was originally proposed) and submitted evidence that a second parking space would not be permitted; and

WHEREAS, additionally, the applicant submitted two parking studies—the second conducted at the Board’s direction at hearing in response to community concerns—indicating that no adverse impacts with respect to transportation or parking will result from this application, and the applicant found that, during peak demand, there would be approximately 494 parking spaces available on-street during the morning, 472 during the midday and 488 during the evening; and

WHEREAS, in response to community concerns and the Board’s direction, the applicant reduced the amount of floor area proposed, removed the encroachment of the third floor into the rear yard, reduced the size of the caretaker’s apartment, provided storage for refuse in the cellar, and clarified that accessibility will be provided; and

WHEREAS, at hearing, in response to community concerns regarding sound, the Board inquired as to whether any activities within the proposed building would generate noise, to which the applicant responded that the use of the proposed building will not generate noise and that, to the contrary, the proposed building has been designed with sound attenuation measures to ensure a quiet interior environment, buffered from sounds originating outside the building (which attenuation measures would also prevent interior noise, if any, from being transmitted outside the proposed building); and

WHEREAS, by letter dated December 31, 2018, the Fire Department states that it has no objection to this application; and

WHEREAS, the Board finds that the proposed variance will not alter the essential character of the neighborhood or district in which the subject site is located; will not substantially impair the appropriate use or development of adjacent property; and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the above

practical difficulties or unnecessary hardship do not constitute a self-created hardship; and

WHEREAS, the Board finds that the above practical difficulties or unnecessary hardship have not been created by the owner or by a predecessor in title; and

WHEREAS, the applicant states that the proposed variance is the minimum necessary to permit a productive use of the site, as reflected by evidence of programmatic needs of the subject house of worship; and

WHEREAS, in response to questions from the Board with respect to the size of spaces within the proposed building, the applicant submitted detailed schedules for each space demonstrating full utilization based on the programmatic needs of the subject house of worship; and

WHEREAS, the applicant further submits that, in order to minimize the size of the caretaker’s apartment, the main kitchen of the subject house of worship will be used to avoid duplicative spaces within the proposed building; and

WHEREAS, accordingly, the Board finds that the proposed variance is the minimum necessary to afford relief within the intent and purposes of the Zoning Resolution; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 18BSA034Q, dated September 14, 2017; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design; Natural Resources; Hazardous Materials; Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction Impacts; and

WHEREAS, by correspondence dated March 9, 2017, the New York City Landmarks Preservation Commission represents that the proposed project will not result in any adverse impacts on architectural or archaeological resources; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR § 72-21 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality

MINUTES

Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR § 72-21 to *permit*, in an R2 zoning district, the development of a three-story, with cellar, community-facility building for use as a house of worship that does not comply with zoning regulations for floor area, side yards, rear yards and parking, contrary to ZR §§ 24-111, 24-35, 24-36 and 25-31; *on condition* that all work, operations and site conditions shall conform to drawings filed with this application marked “Received February 14, 2019”-Eight (8) sheets; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a maximum of 4,680 square feet of floor area (0.92 FAR), a side yard with a minimum depth of 5 feet to the north, a rear yard with a depth of 4 feet at the first and second floors and one accessory off-street parking space, as illustrated on the Board-approved drawings;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number (“BSA Cal No 2017-268-BZ”), shall be obtained within four (4) years, by March 5, 2023;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 5, 2019.

2018-120-BZ CEQR #19-BSA-014M

APPLICANT – Bryan Cave Leighton Paisner LLP, for Silverstein MB LLC, owner; Silverstein MB LLC, lessee.
SUBJECT – Application July 19, 2018 – Special Permit (§73-36) to permit the operation of a Physical Cultural Establishment (550 West 41st Gym) to be located within a proposed building contrary to ZR §32-10. C6-4 Special Hudson Yards District.

PREMISES AFFECTED – 550 West 41st Street, Block 1069, Lot 1, Borough of Manhattan.

COMMUNITY BOARD #4M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated June 6, 2018, acting on DOB Application No. 121203973, reads in pertinent part:

Proposed physical culture establishment is not permitted as-of-right in a C6-4 zoning district per ZR Section 32-10, and therefore requires a special permit from the Board of Standards and Appeals pursuant to ZR Section 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, on a site located in an C6-4 zoning district and in the Special Hudson Yards District, a physical culture establishment (“PCE”) on the fourth floor, mezzanine and fourth floor terrace, of a proposed 57-story plus cellar mixed-use residential and commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on February 5, 2019, after due notice by publication in *The City Record*, with a continued hearing on March 5, 2019, and then to decision on that same date; and

WHEREAS, Community Board 4, Manhattan, recommends approval of this application on condition that, in the event of a new PCE operator, the applicant introduce the new PCE operator to the Community Board 4 Land Use Committee and arrange for a tour of the operating PCE; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the southeast corner of West 41st Street and 11th Avenue, in a C6-4 zoning district and in the Special Hudson Yards District, in Manhattan; and

WHEREAS, the site has approximately 197 feet of frontage on West 41st Street, 198 feet of frontage on 11th Avenue, 223 feet of frontage on West 40th Street, 41,849 square feet of lot area, and will be occupied by a 57-story plus cellar mixed-use residential and commercial building in which the PCE will be located; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use1* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

- (ii) a swimming pool of a minimum 1,500 square feet; or
- (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
- (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) permits a PCE located on the roof of a commercial building or commercial portion of a mixed-use building, provided the following findings are made:

- (1) that such *use* shall be an incidental part of a permitted *physical culture or health establishment* located within the same *commercial or mixed building*;
- (2) that such *use* shall be open and unobstructed to the sky;
- (3) that such *use* shall be located on a roof not less than 23 feet above *curb level*;
- (4) that the application for such *use* shall be made jointly by the owner of the *building* and the operator of such *physical culture or health establishment*; and
- (5) that the Board shall prescribe appropriate controls to minimize adverse impacts on the surrounding area, including but not limited to, requirements for the location, size and types of signs, limitations on the manner and/or hours of operation, shielding of floodlights, adequate screening, and the control of undue noise including the amplification of sound, music or voices;

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-

04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant submits that the proposed PCE will occupy 21,700 square feet of floor area within the subject site with a yoga studio, basketball court, a fitness room and fitness mezzanine, spin studio, swimming pool, terrace spaces (7,795 square feet of outdoor space), reception area, juice bar, sauna, lockers, and storage space; and

WHEREAS, the applicant represents that the proposed PCE will operate as “550 West 41st Gym” with the following hours of operation: Monday through Friday, 5:00 a.m. to 10:00 p.m.; and, Saturday and Sunday, 6:30 a.m. to 8:00 p.m.; and

WHEREAS, the applicant states that, while residential uses at the subject site are not proposed to begin until the sixth floor, the PCE space will provide sound attenuation measures including sound attenuating flooring and ceilings in the spin studio, special flooring in the basketball court, weight and exercise machine areas, and the pool area will be insulated; specifically, the applicant proposes to install spring isolated flooring in the spin studio, acoustical mat flooring of various thicknesses in the yoga studio, weight and machine areas, neoprene floor mounts in the basketball court, and sound absorbing ceiling material in the pool area, fitness areas, basketball court and spin studio; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because the applicant anticipates the PCE use will be consistent with the intent of the Special Hudson Yards District which is designed to promote and protect public health, safety and general welfare; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant represents that the PCE will contain facilities for classes, instruction and programs for physical improvement body building, weight reduction and aerobics; and

WHEREAS, accordingly, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the applicant states that the PCE use to be located on the roof portion of the subject site, outdoor

MINUTES

terrace areas, is an incidental part of the PCE; is proposed to be open and unobstructed to the sky; will not be less than 23 feet above curb level; and, the application was submitted by the applicant who will be the operator of the PCE and owner of the proposed building; and

WHEREAS, accordingly, the Board finds that the subject PCE use located on the fourth-floor terraces is consistent with those eligible pursuant to ZR § 73-36(b) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant submits that the PCE space will be protected with a wet sprinkler system and an approved interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, and a connection of the interior fire alarm system to an FDNY-approved central station—will also be installed within the PCE space; and

WHEREAS, by letter dated January 26, 2019, the Fire Department states that applications for a new fire alarm and fire suppression systems have been filed with the DOB which will cover the proposed PCE space on the fourth floor; units in the Bureau of Fire Prevention have been notified of the application and will inspect the premises during and after construction operations; the Fire Department will require that the pool equipment room, located on the third floor, comply with the following sections of the 2014 NYC Fire Code: Section 3101.4 (supervision of corrosive material), Section 4001.4 (prohibitions to manufacture, store, handle and/or use pyrophoric materials) and Section 2703.5 (hazard identification signs); in addition, ammonium-based fire extinguishers are prohibited; the Department has no objection to the Board rendering a decision on the application, as the Bureau of Fire Prevention will inspect the premises and will enforce the rules and regulations of the Fire Department; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood because the PCE proposes to institute measures to reduce any potential noise disturbance and represents that there will be no disadvantages to the community at large; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community and that the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has

documented relevant information about the project in the Environmental Assessment Statement (“EAS”) Short Form CEQR No. 19BSA014M, received July 24, 2018; and

WHEREAS, the EAS documents that the project, as proposed, would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Activities; Open Space; Shadows; Historic and Cultural Resources; Urban Design; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction Impacts; and

WHEREAS, an (E) designation (E-137) has been placed on the subject site for hazardous materials, air quality and noise; and

WHEREAS, with respect to hazardous materials, at the subject site, E-137 requires that the fee owner (1) prepare and implement a DEP-approved site investigation to determine the extent of the contamination, if any, at the site; (2) submit the findings of its investigation and, if necessary, a management plan, to the DEP for its review and approval; and (3) implement the DEP-approved management plan; and

WHEREAS, by notice dated October 6, 2016, from the New York City Office of Environmental Remediation, no investigative/remedial work is required relating to hazardous materials for any current or future development of the site; and

WHEREAS, with respect to air quality, at the subject site, E-137 requires the exclusive use of natural gas or a minimum offset distance for the stack locations as specified in an accompanying table; and

WHEREAS, with respect to noise, at the subject site, E-137 requires that future residential/commercial uses provide a closed window condition with minimum attenuation of 35 dBA window/wall attenuation on all facades in order to maintain an interior noise level of 45 dBA and the provision of an alternate means of ventilation, which may include, but is not limited to, central air conditioning or air conditioning sleeves containing air conditioners or HUD-approved fans; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit, pursuant to ZR §§ 73-36 and 73-03, and that permitting the subject PCE space, proposed on the fourth floor, mezzanine, and fourth floor outdoor terraces of the subject building, is appropriate with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of

MINUTES

the New York State Environmental Conservation Law and 6 NYCRR Part 617, Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located within a C6-4 zoning district and the Special Hudson Yards district, a physical culture establishment on portions of the fourth floor, mezzanine and fourth floor outdoor terrace, of a proposed 57-story plus cellar mixed-use residential and commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application dated September 5, 2018 (marked “Received October 4, 2018”)-Ten (10) sheets and February 11, 2019 (“marked Received February 13, 2019”)-Three (3) sheets; and *on further condition*:

THAT the term of the PCE grant shall expire on March 5, 2029;

THAT there shall be no sound amplification permitted on the outdoor spaces of the PCE;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 shall be as reviewed and approved by DOB;

THAT the sprinkler system shall be installed and maintained as indicated on the Board-approved plans;

THAT an approved fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and a connection to an FDNY-approved central station—shall be installed and maintained within the PCE space;

THAT minimum 3-foot-wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT a place of assembly permit shall be obtained;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy indicating the subject calendar number (“BSA Cal. No. 2018-120-BZ”) shall be obtained within four (4) years, by March 5, 2023;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 5, 2019.

2016-4171-BZ

APPLICANT – Sheldon Lobel, P.C., for Jisel Cruz, owner.
SUBJECT – Application April 15, 2016 – Variance (§72-21) to permit the development of a three-story plus penthouse residential building (UG 2) contrary to ZR §42-00. M1-1 zoning district.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to legalize, on a site within an R4 zoning district, the relocation and construction of a two- (2) family detached home in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards and side yards contrary to ZR §§ 23-45, 23-48 and 23-461(a); and

WHEREAS, a public hearing was held on this application on March 5, 2019, and then to decision on the same date; and

WHEREAS, this application is brought on behalf of the property owner by the Build it Back Project Relocation-Rebuild Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City’s effort to rebuilt homes impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings); (2) 2 RCNY § 1-05.3 (Filing Period); (3) 2 RCNY § 1-05.4 (Application Referral); (4) 2 RCNY § 1-05.6 (Hearing Notice); (5) 2 RCNY § 1-05.7 (List of Affected Property Owners); (6) 2 RCNY § 1-09.4 (Owner’s

MINUTES

Authorization); and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the west side of Beach 43rd, between Edgemere Drive and Beach Channel Drive, in an R4 zoning district, in Queens; and

WHEREAS, the site has approximately 25 feet of frontage, 125 feet of depth, 3,112 square feet of lot area and is occupied by a two- (2) story two- (2) family detached residence; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments* and *enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Section 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modifications of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant now seeks a special permit,

pursuant to ZR § 64-92 to legalize the construction of the two- (2) family residence that is compliant flood-resistant construction but does not comply with the zoning requirements for front yards and side yards; and

WHEREAS, specifically, the subject site has a front yard with a depth of 15 feet and two (2) side yards with widths of three (3) feet each (six (6) feet of total side yards), but, at the subject site, a minimum front yard depth of ten (10) feet or (18) feet is required pursuant to ZR § 23-45, and two (2) side yards, each with a width of at least 5 feet and with a combined minimum width of 13 feet, are required pursuant to ZR § 23-461(a); and

WHEREAS, pursuant to ZR § 23-48, the required total width of side yards for a two- (2) family detached residence may be reduced by four (4) inches per foot by which the width of a zoning lot is less than that required pursuant to ZR § 23-32 (Minimum Lot Area or Lot Width for Residences) if such zoning lot is both (a) less than the prescribed minimum lot width and (b) was owned separately and individually from all other adjoining tracts of land, both on December 15, 1961, and on the date of application for a building permit; in no event shall the required width of a side yard be less than five (5) feet; and

WHEREAS, pursuant to ZR § 23-32, the minimum lot width for a two- (2) family detached residence in an R4 zoning district is 40 feet and the subject site has a width of 25 feet; and

WHEREAS, pursuant to ZR § 23-33 (Special Provisions for Development of Existing Small Lots), a two- (2) family residence may be developed on a zoning lot that has less than the prescribed minimum lot width if the zoning lot was owned separately and individually from all other adjoining tracts of land, both on December 15, 1961, and on the date of application for a building permit and the zoning lot meets the applicable density requirement of the zoning district in which it is located; and

WHEREAS, pursuant to ZR § 23-22, the maximum number of dwelling units permitted on the subject site is equal to the maximum residential floor area permitted on the zoning lot divided by 870, the factor for determining the maximum number of dwelling units in an R4 zoning district; and

WHEREAS, the maximum residential floor area permitted at the subject site is 2,334 square feet pursuant to ZR § 23-142 and, therefore, the maximum number of dwelling units permitted at the site is two (2); and

WHEREAS, in satisfaction of ZR §§ 23-33(b) and 23-48(b), the applicant provided deeds for lots immediately adjacent to the subject lot (Lots 107, 109, 15 and 13 on Block 15965) demonstrating that the subject site was owned separately and individually from those adjacent lots both on December 15, 1961, and today; and

WHEREAS, therefore, pursuant to ZR §§ 23-48 and 23-32, the required total width of the side yards at the subject site may be reduced to ten (10) feet; and

WHEREAS, because only six (6) feet of total side yards are provided on the subject site, the applicant requests

MINUTES

a waiver of ZR § 23-48, but no waiver of ZR § 23-32 is required, due to the sub-standard width of the site, because it is developable pursuant to ZR § 23-33; and

WHEREAS, in accordance with ZR § 64-92(a), the applicant submits that the composition of the existing residence on the lot creates practical difficulties in complying with flood-resistant construction standards without the modification of requirements for front yards, side yards and total side yards and that waivers of the same are the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the dwelling is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the neighborhood is characterized by single- and two- (2) family, mostly detached, residences; the home design follows the urban context of 43rd Street and contributes to the improvement of the essential character of the neighborhood; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the subject application satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 19BSA091Q, dated February 15, 2019; and

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* §§ 1-05.1, 1-05.3, 1-05.4, 1-05.6, 1-05.7, 1-09.4 and 1-10.7 of its Rules of Practice and Procedure and issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92 to legalize, on a site within an R4 zoning district, the construction of a two- (2) story two- (2) family detached home in compliance with flood-resistant construction standards that does not comply with the zoning requirements for front yards and side yards contrary to ZR §§ 23-45, 23-48 and 23-461(a); *on condition* that all work shall substantially conform to the drawings filed with this application and marked "Received February 15, 2019"-Thirteen (13) sheets, "Received February 21, 2019"-one (1) sheet; and *on further condition*:

THAT the maximum bulk parameters of the building shall be as follows: a front yard with a minimum depth of 15 feet, two (2) side yards with minimum widths of three (3) feet each (a minimum of six (6) feet of total side yards);

THAT the building shall have a fire sprinkler system

in accordance with Chapter 9 and Appendix Q of the New York City Building Code;

THAT the building shall be provided with interconnected smoke and carbon monoxide alarms, designed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of the building where the foundation is not closed shall have a floor assembly that provides a 2-hour fire resistance rating;

THAT the height from grade plane to the highest window-sill leading to a habitable space may not exceed 32 feet;

THAT this approval shall be limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk shall be signed off by DOB and all other relevant agencies within four (4) years;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 5, 2019.

PREMISES AFFECTED – 10824 Flatlands Avenue, Block 8235, Lot 2, Borough of Brooklyn.

COMMUNITY BOARD #18BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, a reopening, and an extension of the term of a previously granted variance that permitted the operation of a gasoline service station and accessory convenience store, which expired on October 7, 2015; and

WHEREAS, a public hearing was held on this application on January 15, 2019, after due notice by publication in *The City Record*, with continued hearings on January 29, 2019, and March 19, 2019, and then to decision on that same date; and

WHEREAS, Vice-Chair Chanda performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 18, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the east corner of Flatlands Avenue and East 108th Street, in an R5D (C2-3) zoning district, in Brooklyn; and

WHEREAS, the site has approximately 202 feet of frontage on Flatlands Avenue, 90 feet of frontage on East 108th Street, 19,450 square feet of lot area and is occupied by a one- (1) story gasoline service station and accessory building (Use Group (“UG”) 16B); and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 12, 1960, when, under the subject calendar number, the Board granted a variance of the

use district regulations, pursuant to Section 7f, to permit for a period of 15 years, to expire on January 12, 1975, the increase the area of the present gasoline service station, then in a business use district, the installation of three (3) new pumps, two (2) new curb cuts and a post standard and sign, on condition that the work be done in accordance with the drawings filed with the application; the walls of the existing accessory building be repaired and made presentable; the entire lot be paved with steam cinders with an asphalt binder and property rolled; a woven wire fence be constructed on the rear and side lot lines; all vending machines be removed; the parking of tow trucks on the street carrying advertising signs be discontinued; the signs be fixed signs advertising only the brand of gasoline on sale and project not more than four (4) feet beyond the building line; all laws, rules and regulations applicable be complied with; and, all permits, including a certificate of occupancy be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution, by January 12, 1960; and

WHEREAS, on March 13, 1962, under the subject calendar number, the Board amended the resolution to extend the time to obtain permits and complete the work for one (1) year, to March 13, 1963, and required that a certificate of occupancy be obtained; and

WHEREAS, on July 17, 1962, under the subject calendar number, the Board further amended the resolution, to reflect the merger of adjoining tax lots 1 and 8 into tax lot 2, by adding “that the area of the plot shall be substantially reduced and the work shall be done substantially as shown on revised drawing of proposed condition marked ‘Received June 26, 1962’ 2 sheets; that the portion of the plot formerly known as Lot No. 1, which was granted under Section 7f, shall be for a term of 15 years from January 12, 1960; that the balance of the plot, formerly known as Lot Nos. 2 and 8, shall remain as a permanent gasoline service station as established prior to the enactment of the Zoning Resolution on June 28, 1940, when the use district was undetermined; *on condition* that other than as herein *amended* the resolution above cited shall be complied with in all respects;” and

WHEREAS, on October 7, 1975, under the subject calendar number, the Board waived its Rules of Procedure, reopened and further amended the resolution to extend the term for ten (10) years, to expire on October 7, 1985, on condition that other than as amended the resolution be complied with in all respects; and, a new certificate of occupancy be obtained; and

WHEREAS, on November 19, 1985, under the subject calendar number, the Board reopened and further amended the resolution, pursuant to ZR §§ 11-411 and 11-412, extended the term for ten (10) years, to expire on October 7, 1995; eliminated the future gasoline pump island located on the East 108th Street side of the station, substantially as shown on revised drawings of proposed conditions submitted with the application; on condition that there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic; other than as

MINUTES

amended the resolution be complied with in all respects; and, a new certificate of occupancy be obtained within one (1) year, by November 19, 1986; and

WHEREAS, on May 19, 1987, under the subject calendar number, the Board waived its Rules of Procedure, reopened and further amended the resolution to extend the time to obtain a certificate of occupancy for one (1) year, by November 19, 1987; and

WHEREAS, on July 13, 1993, under the subject calendar number, the Board reopened and further amended the resolution, pursuant to ZR § 11-412, to permit the demolition of the existing accessory building, the erection of a new smaller accessory building with a retail convenience store and the installation of a metal canopy over six (6) new concrete pump islands on condition that the landscaping be installed and adequately maintained; the premises be free and clean of graffiti and debris and in substantial compliance with the proposed conditions drawings submitted with the application; other than as amended the resolution be complied with in all respects; and, substantial construction be completed within one (1) year, by July 13, 1994; and

WHEREAS, on April 23, 1996, under the subject calendar number, the Board reopened and further amended the resolution to extend the term, to expire on October 7, 2005, on condition that the premises be maintained in substantial compliance with the existing and proposed drawings submitted with the application; other than as amended the resolution be complied with in all respects; and, a new certificate of occupancy be obtained within one (1) year, by April 23, 1997; and

WHEREAS, on December 19, 2000, under the subject calendar number, the Board waived its Rules of Practice and Procedure, reopened and further amended the resolution to extend the time to obtain a certificate of occupancy for two (2) years, by December 19, 2002; and

WHEREAS, on March 28, 2006, under the subject calendar number, the Board reopened and further amended the resolution to extend the term for ten (10) years, to expire on October 7, 2015, on condition that the use substantially conform to drawings filed with the application; there be no parking on the sidewalk; the conditions be listed on the certificate of occupancy; all conditions from prior resolutions not specifically waived by the Board remain in effect; the approval be limited to the relief granted by the Board in response to specifically cited and filed Department of Buildings (“DOB”)/other jurisdiction objection(s) only; the DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, the term of the variance having expired, the applicant seeks an extension of the term of the variance; and

WHEREAS, the applicant additionally requests a waiver, pursuant to § 1-14.2 of the Board’s Rules of Practice and Procedure, of Rule § 1-07.3(b)(3)(i) to permit the filing of

this application more than two (2) years but less than ten (10) years after the expiration of the term; and

WHEREAS, the Board notes that aerial and satellite imagery of the site demonstrates the continuous operation of a gas service station and, accordingly, that substantial prejudice would result absence the grant of a waiver; and

WHEREAS, pursuant to ZR §11-411, the Board may, in appropriate cases, permit an extension of the term of the variance previously authorized pursuant to the 1916 Zoning Resolution; and

WHEREAS, over the course of the hearings, the Board expressed concerns regarding the poor condition of a trash enclosure on the site, which required both repair and repainting, the shielding of lights located on the site to prevent light spread to adjoining properties, and excessive signage displayed on the site; and

WHEREAS, in response, the applicant provided photographs evidencing the repair and painting of the trash enclosure, removal of a banner sign from the rear fence and the installation of a light shield as requested; and

WHEREAS, by letter dated December 18, 2018, the Fire Department stated that a review of Fire Department records indicates that the subject automotive service station is current with its Fire Department permits with respect to the storage of combustible liquids, leak detection equipment, underground storage tank and fire suppression (dry-chemical) system; and that the Department has no objection to the granting of this application; and

WHEREAS, in light of the foregoing, the Board finds that the requested ten (10) year extension of term is appropriate, subject to conditions below.

Therefore, it is Resolved, that the Board of Standards and Appeals, *waives* § 1-07.3(b)(3)(i) of its Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated January 12, 1960, as amended through March 28, 2006, so that as amended this portion of the resolution reads: “to grant an extension of the term of the variance for a term of ten (10) years; and *on condition* that all work and site conditions shall conform to drawings filed with this application marked ‘Received sheets; and *on further condition*:

THAT the term of this grant shall expire on October 7, 2025;

THAT there shall be no parking on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic;

THAT the premises shall be maintained free of debris and graffiti;

THAT all fencing shall be maintained in good condition;

THAT all signage shall comply with C1 zoning regulations;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy indicating this approval and calendar number (“BSA Cal. No. 645-59-BZ”)

MINUTES

shall be obtained within one (1) year, by March 19, 2020; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, March 19, 2019.

278-86-BZ

APPLICANT – Eric Palatnik, P.C., for White Castle System, Inc., owner.

SUBJECT – Application October 29, 2013 – Extension of Term of a previously approved Special Permit (§73-243) to permit the operation of an accessory drive-thru facility to an eating and drinking establishment (White Castle), which expired on November 26, 2011, amendment to the plans, and Waiver of the Rules. C1-2/R5 zoning district.

PREMISES AFFECTED – 1677 Bruckner Boulevard, Block 3721, Lot 1, Borough of Bronx.

COMMUNITY BOARD #9BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for an extension of the term of a special permit, previously granted to permit the operation of an eating and drinking establishment with accessory drive-through facilities pursuant to ZR § 73-243, which will expire on June 17, 2019; and

WHEREAS, a public hearing was held on this application on March 19, 2019, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, Community Board 9, the Bronx, recommends approval of the application on condition that the operator of the subject site provide the Community Board with contact information; and

WHEREAS, the subject site is bound by Bruckner Boulevard to the south, Metcalf Avenue to the west and Fteley Avenue to the east, partially within an R5 (C1-2) zoning district and partially within an R5 zoning district, in the Bronx; and

WHEREAS, the site has approximately 200 feet of frontage on Bruckner Boulevard, 275 feet of frontage on Metcalf Avenue, 250 feet of frontage on Fteley Avenue, 52,400 square feet of lot area and is occupied by a one- (1) story eating and drinking establishment with drive-through and accessory on-site parking for 56 vehicles, operated as White Castle; and

WHEREAS, the Board has exercised jurisdiction over

the subject site since November 25, 1986, when, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-243, permitting the addition of a drive-through facility to an existing Use Group (“UG”) 6 eating and drinking establishment for a term of five (5) years, expiring November 25, 1991, on condition that all work substantially conform to drawings, as they apply to the objection, filed with the application; the loudspeaker on the menu board be operated at a decibel level which cannot be heard beyond the lot line of the subject property; outdoor lighting face downward and away from adjoining residences; all fences and landscaping be adequately maintained at all times and replaced when necessary; the conditions appear on the certificate of occupancy; the Department of Buildings (“DOB”) issue no permits for a period of 31 days from the date of the resolution; the development, as approved, be subject to verification by the DOB for compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under the jurisdiction of the Department; and substantial construction be completed in accordance with ZR § 73-70, by November 25, 1987; and

WHEREAS, on April 7, 1992, under the subject calendar number, the Board reopened and amended the resolution to extend the term for ten (10) years, to expire November 25, 2001, on condition that the premises substantially conform to revised drawings of existing conditions filed with the application; other than as amended the resolution be complied with in all respects; and, a new certificate of occupancy be obtained within one (1) year, by April 7, 1993; and

WHEREAS, on December 4, 2001, under the subject calendar number, the Board reopened and further amended the resolution to permit the continuation of the drive-thru facility use, on condition that the term of the special permit shall be limited to ten (10) years from November 25, 2001, expiring November 25, 2011; the conditions appear on the certificate of occupancy; the premises be maintained in substantial compliance with the proposed conditions plans submitted with the application; other than amended, the resolution be complied with in all respects; and a certificate of occupancy be obtained within 18 months, by June 4, 2003; and

WHEREAS, on April 24, 2012, under BSA Cal. No. 167-11-BZ, the Board permitted the reconstruction of 3,190-square-foot restaurant with drive-thru, three (3) curb cuts, 37 parking spaces and installation of associated signage (Menu Board) in an R5 (C1-2) zoning district, on condition that all work substantially conform to drawings, as they apply to the objections, filed with this application; the term of the grant expire on April 24, 2017; the premises be maintained free of debris and graffiti; parking and queuing space for the drive-through be provided as indicated on the BSA-approved plans; all landscaping and/or buffering be maintained as indicated on the BSA-approved plans; exterior lighting be directed away from the nearby residential uses; all signage conform with the underlying C1 zoning district regulations;

MINUTES

the above conditions appear on the certificate of occupancy; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; substantial construction be completed in accordance with ZR § 73-70, by April 24, 2016; and, the DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted; and

WHEREAS, on June 17, 2014, under the subject calendar number, the applicant represented that the construction contemplated under BSA Cal. No. 167-11-BZ was never undertaken, that the owner sought to surrender that grant, waive the Board's Rules of Practice and Procedure and reinstate the special permit approved under the subject calendar number, amend that special permit to allow a minor enlargement (an increase of 34 sq. ft.) of the existing building, an increase in the surface area of the service window, minor modifications to the site plan, and extend the term of the special permit for an additional five (5) years, and the Board waived its Rules of Practice and Procedure, reopened and further amended the resolution under the subject calendar number to permit the noted modification and extend the term of the special permit for an additional five (5) years, to expire on June 17, 2019, on condition that all work substantially conform to drawings, as they apply to the objections, filed with the application; signage comply with C1 regulations; the conditions and all relevant conditions from prior grants appear on the certificate of occupancy; a certificate of occupancy be obtained by June 17, 2015; all conditions from prior resolutions not specifically waived by the Board remain in effect; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted; and

WHEREAS, the previous term expiring on June 17, 2019, the applicant seeks the subject relief; and

WHEREAS, the applicant states that the drive-through facility provides reservoir spaces sufficient for ten (10) cars in satisfaction of ZR § 73-243(a); that the drive-through facility will cause minimal interference with traffic flow in the immediate area in satisfaction of ZR § 73-243(b); that the 57 on-site accessory parking spaces comply with parking regulations in satisfaction of ZR § 73-243(c); that the character of the commercially-zoned street frontage within 500 feet of the site remains oriented towards motor vehicle traffic in compliance with ZR § 73-243(d); that a drive-through facility has operated at this premises without complaints since 1987, when the Board granted the original special permit, lighting is directed as not to shine on neighboring residential properties, and the location of the menu board speaker, 100.5' from the nearest residence, are

all evidence the site operates without adverse impact on nearby residences in satisfaction of ZR § 73-243(e); and that the existing six- (6) foot-high chain link fence with privacy slats between the subject site and the adjacent residential area is adequate buffering adequate in satisfaction of ZR § 73-243(f); and

WHEREAS, by letter dated March 9, 2019, the Fire Department states that a review of Department records indicates that the subject eating and drinking establishment ("White Castle") is current with its Fire Department permits with respect to fire alarm and rangehood suppression systems and storage of liquid gases, and that the Fire Department has no objection to the granting of this application; and

WHEREAS, in accordance with ZR § 73-03(f), the Board finds the circumstances warranting the original grant still maintain and that the applicant has complied with the conditions and safeguards theretofore described by the Board during the prior term; and

WHEREAS, therefore, the Board finds that the requested five (5) year extension of term for the subject special permit is appropriate with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated November 25, 1986, as amended through June 17, 2014, so that as amended this portion of the resolution reads: "to permit the extension of the term of the special permit for an additional five (5) years, to expire June 14, 2024; *on condition* that all work and site conditions shall comply with drawings filed with this application marked 'Received December 14, 2018'-Ten (10) sheets; and *on further condition*:

THAT the term of this grant shall expire on June 17, 2024;

THAT the premises shall be maintained free of debris and graffiti;

THAT parking and queuing space for the drive-through shall be provided as indicated on the BSA-approved plans;

THAT all landscaping and/or buffering shall be maintained as indicated on the BSA-approved plans;

THAT exterior lighting shall be directed away from the nearby residential uses;

THAT signage shall comply with underlying C1 zoning district regulations;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a new certificate of occupancy, also indicating this approval and calendar number ("BSA Cal. No. 278-86-BZ"), shall be obtained within one (1) year, by March 19, 2020;

THAT all signage shall comply with the underlying C1 zoning district regulations;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed

MINUTES

DOB/other jurisdiction objection(s) only; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, March 19, 2019.

58-99-BZ

APPLICANT – Eric Palatnik, P.C., for Blue Hills Fuels, LLC, owner; PMG Northeast, LLC, lessee.

SUBJECT – Application September 25, 2018 – Extension of Term (§11-411) of a previously approved variance which permitted the operation of an automotive service station (UG 16B) with accessory automotive repair which expires on October 26, 2019. C1-2/R3-2 zoning district.

PREMISES AFFECTED – 18-10 Utopia Parkway, Block 5743, Lot 75, Borough of Queens.

COMMUNITY BOARD #7Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for reopening and an extension of term to a previously granted variance that permitted the operation of a gasoline service station and accessory automotive repair, which expires on October 26, 2019; and

WHEREAS, a public hearing was held on this application on January 15, 2019, after due notice by publication in *The City Record*, with a continued hearing on March 19, 2019, and then to decision on that same date; and

WHEREAS, Vice-Chair Chanda performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 7, Queens, recommends approval of this application; and

WHEREAS, a representative of the Auburndale Improvement Association, within whose boundary lines the subject site is located, provided testimony at public hearing, stating that the organization has not received any complaints about the operation of the subject site; requesting that the cracked sidewalks surrounding the site be replaced, the dumpster on the site be enclosed and a portion of the retaining wall in poor condition be repaired; and that, if these issues be resolved, the organization has no objection to a ten (10) year extension of term; and

WHEREAS, the subject site is bound by Utopia Parkway to the east, 18th Avenue to the north, 19th Avenue to the south, and 169th Street to the west, in an R3-2 (C1-2) zoning district, in Queens; and

WHEREAS, the site has approximately 201 feet of

frontage along Utopia Parkway, 31 feet of frontage along 18th Avenue, 81 feet of frontage along 19th Avenue, 195 feet of frontage along 169th Street, 10,860 square feet of lot area and is occupied by a one- (1) story gasoline service station, accessory automotive repair building and eight (8) accessory off-street parking spaces; and

WHEREAS, the Board has exercised jurisdiction over the subject site since December 1, 1959, when, under BSA Cal. No. 182-52-BZ, the Board granted a variance, for a term of 15 years, to expire December 1, 1974, to permit, then in a local retail use district, the erection and maintenance of a gasoline service station, lubritorium, minor auto repairs, car washing ,office and sales, storage and parking of motor vehicles, on condition that the work be done in accordance with drawings filed with the application, except that the exterior of the accessory building be redesigned to conform with the architecture of the dwelling buildings in the neighborhood; the working drawings be submitted to the Board for approval before they are submitted to the Building Department; the vents from the gasoline storage tanks be taken underground to the accessory building and carried up in a masonry enclosure similar to a chimney as part of the accessory building; the height of the masonry enclosure and the vents be not more than three (3) feet above the roof of the building; the 5’-6” high walls shown along 169th Street and 19th Avenue be of the same face brick as used on the building; the pumps be placed not less than 15 feet back from the street line; the flood lights be eliminated; the owner arrange with the City to plant trees along the sidewalk of 169th Street and 19th Avenue; the operation of the gasoline station not extend beyond 11:00 p.m.; all laws, rules and regulations applicable be complied with; all permits, including a certificate of occupancy, be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution, by December 1, 1975; and

WHEREAS, on July 6, 1960, under BSA Cal. No. 182-52-BZ, the Board approved working drawings, as to the arrangement and design, as being in substantial compliance with the terms and conditions of the resolution adopted by the Board on December 1, 1959, except that the toilet rooms be rearranged so that the doors to the rooms are not contiguous; and

WHEREAS, on March 11, 1975, under BSA Cal. No. 182-52-BZ, the Board reopened and further amended the resolution to extend the term for ten (10) years, to expire March 11, 1985, on condition that other than as amended the resolution be complied with in all respects, and a new certificate of occupancy be obtained; and

WHEREAS, on April 16, 1985, under BSA Cal. No. 182-52-BZ, the Board reopened and further amended the resolution to extend the term for ten (10) years, to expire March 11, 1995, to eliminate the five (5) foot wide planted area along 19th Avenue as previously required, and to permit the existence of the dual floodlight, substantially as shown on revised drawings filed with the application, on condition that the dual floodlight be directed away from the

MINUTES

residential homes and be used for night security only; the street trees on 19th Avenue and 169th Street be planted in accordance with the requirements of the Department of Parks and be planted within six (6) months, by October 16, 1985; there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic; other than herein amended the resolution be complied with in all respects; and, a new certificate of occupancy be obtained within one (1) year, by April 16, 1986; and

WHEREAS, on December 10, 1985, under BSA Cal. No. 182-52-BZ, the Board reopened and further amended the resolution to permit the erection of a six (6) foot high 100% slatted chain link fence along the 169th Street side of the station in lieu of the 5'-6" high brick wall as previously approved, substantially as shown on revised drawings filed with the application, on condition that there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic; and, other than as amended the resolution be complied with in all respects; and

WHEREAS, on October 26, 1999, under the subject calendar number, the Board granted an application re-establishing the subject gasoline service station and automobile repair facility use pursuant to ZR § 11-411, then in an R6 zoning district, on condition that all work substantially conform to drawings, as they apply to the objection, filed with the application; the term of the variance be limited to ten (10) years, expiring October 26, 2009; signage be provided in accordance with BSA-approved plans; the business operation not extend beyond 11:00 p.m.; fencing and screening be provided in accordance with BSA-approved plans; lighting be provided in accordance with BSA-approved plans and be positioned down and away from the adjacent residential uses; the conditions appear on the certificate of occupancy; the development, as approved, be subject to verification by the Department of Buildings ("DOB") for compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under the jurisdiction of the Department; and, a new certificate of occupancy be obtained within one (1) year, by October 26, 2000;

WHEREAS, on February 25, 2003, under the subject calendar number, the Board waived its Rules of Practice and Procedure, reopened and amended the resolution¹, adopted on October 27, 1999, to permit the extension of time to obtain a certificate of occupancy for an additional two (2) years, by February 25, 2005, and to permit the erection of a new metal canopy over new concrete pump islands, on condition that all work substantially conform to drawings, as they apply to the objections, filed with the application; the premises be maintained free of debris and graffiti; any graffiti located on the premises be removed within 48 hours; there be no coin-operated car washes on the premises; the

conditions, and all conditions from prior resolutions, appear on the certificate of occupancy; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; the DOB ensure compliance withal other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted; and

WHEREAS, on September 20, 2011, under the subject calendar number, the Board waived its Rules of Practice and Procedure, reopened and further amended the resolution, initially adopted on October 27, 1999, to extend the term for a period of ten (10) years, to expire October 26, 2019, on condition that any and all work substantially conform to drawings, as they apply to the objections, filed with the application; all conditions from prior resolutions not specifically waived by the Board remain in effect; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and; the DOB ensure compliance withal other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted; and

WHEREAS, the term of the variance having expired, the applicant seeks an extension of the term of the variance; and

WHEREAS, pursuant to ZR §11-411, the Board may, in appropriate cases, permit an extension of a term of the variance previously authorized subject to a term of years pursuant to the 1916 Zoning Resolution for terms of not more than ten (10) years each; and

WHEREAS, over the course of the hearings, the Board expressed concerns regarding the absence of a trash enclosure on the site, the parking of vehicles on the sidewalk, and the poor condition of the sidewalk; and

WHEREAS, in response, the applicant agreed to replace the sidewalks surrounding the site and construct a trash enclosure at the corner of 19th Avenue and Utopia Parkway, enclosing both the dumpster and a fuel oil above ground storage tank, increased the number of off-street accessory parking spaces on the site from seven (7) to eight (8) and provided an operational plan for the subject site to address the Board's concerns, which the applicant agreed to being incorporated as conditions of this grant; and

WHEREAS, the applicant additionally requested a change to automobile service station facility's hours of operation to 6 a.m. to 10 p.m., seven days a week; and

WHEREAS, the Board requested that the applicant revise these proposed hours in light of the subject site's location, surrounded on all sides by an R3-2 zoning district, and the applicant revised the proposed hours of operation to Monday through Saturday, 6 a.m. to 7 p.m., and closed on Sunday; and

WHEREAS, by letter dated December 20, 2018, the Fire Department stated that a review of Fire Department

¹ To the extent this resolution references the extension of time of a variance that expired on April 10, 2001, a review of Board records demonstrates this information is incorrect. The variance did not expire until October 26, 2009.

MINUTES

records indicates that the subject automotive service station is current with its Fire Department permits with respect to storage of combustible liquids, leak detection equipment, underground storage tank and fire suppression (dry-chemical) system, and that the Fire Department has no objection to this application; and

WHEREAS, the Board finds that the requested extension of term is appropriate, subject to conditions below.

Therefore, it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated October 26, 1999, as amended through September 20, 2011, so that as amended this portion of the resolution reads: “to grant an extension of the term of the variance for a term of ten (10) years; and *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received March 19, 2019”-Seven (7) sheets; and *on further condition*:

THAT the term of this grant shall expire on October 26, 2029;

THAT the hours of operation for the automotive service station shall be limited to Monday through Saturday, 6:00 a.m. to 7:00 p.m., and closed on Sunday;

THAT the station shall be equipped and maintained with security cameras on the building that monitor the entirety of the site and function 24 hours per day, seven (7) days per week and shall also be utilized to monitor customer vehicles so that any prohibited parking on the Utopia Parkway sidewalk can be documented to assist in preventing future occurrences;

THAT an attendant shall monitor both the property and the Utopia Parkway sidewalk during normal business hours to ensure vehicles visiting the station only park on site in designated parking stalls and not on the sidewalk; if vehicles are observed parking on the sidewalk, the attendant shall immediately notify the vehicle owner to move their car to an on-site parking stall or find another location off of the property (i.e. side street) until such time an on-site parking stall becomes available;

THAT signs shall be posted and maintained on the north and east sides of the building adjacent to Utopia Parkway notifying customers of allowed parking locations and will read as follows (or equivalent): “NOTICE: CUSTOMER PARKING RESTRICTED TO DESIGNATED ON-SITE PARKING STALLS ONLY. PARKING ON UTOPIA PARKWAY SIDEWALK IS PROHIBITED;”

THAT the sidewalks, from the property line to the curb, surrounding the site on all frontages shall be replaced and maintained in a first-rate condition with tree-pits provided;

THAT the knee-high wall and any buckling portions of fencing located on 169th Street shall be repaired and maintained in a first-rate condition;

THAT there shall be no storage of vehicles on the site other than those vehicles awaiting service;

THAT the premises shall be maintained free of debris and graffiti;

THAT all fencing shall be maintained in good condition;

THAT all signage shall comply with C1 zoning regulations;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy indicating this approval and calendar number (“BSA Cal. No. 58-99-BZ”) shall be obtained within one (1) year, by March 19, 2020; and THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, March 19, 2019.

16-12-BZ

CEQR #12-BSA-070K

APPLICANT – Eric Palatnik, P.C., for Congregation Adas Yereim, owner.

SUBJECT – Application April 2, 2015 – Amendment of a previously approved Special Permit (§73-19) permitting a school (*Congregation Adas Yereim*) contrary to use regulations (§42-00). The amendment seeks changes to the interior, an increase in the height of the building. M1-2 zoning district.

PREMISES AFFECTED – 184 Nostrand Avenue, northwest corner of Nostrand Avenue and Willoughby Avenue, Block 01753, Lot 0042, Borough of Brooklyn.

COMMUNITY BOARD #3BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated August 11, 2015, acting on New Building Application No. 320416867, reads in pertinent part:

“The proposed amendment is contrary to BSA Calendar Number 16-12-BZ and must be referred to the Board of Standards and Appeals. The proposed amendment to increase the height, make minor changes to the building footprint, and to make interior configuration changes is contrary to BSA Calendar Number 16-12-BZ”; and

WHEREAS, this is an application under ZR § 73-11 for an amendment to a special permit for a school, in an M1-2 zoning district, previously granted by the Board, to allow minor interior changes to and a change to the height of

MINUTES

the proposed building; and

WHEREAS, this application has been brought on behalf of Congregation Adas Yereim (the "School"), a not-for-profit educational institution; and

WHEREAS, a public hearing was held on this application on October 27, 2015, after due notice by publication in *The City Record*, with continued hearings on December 15, 2015, April 5, 2016, and closed on May 17, 2016. On October 14, 2016 it was taken off-calendar. On September 27, 2018 it was reopened and closed for decision on October 30, 2018, subsequent reopening on January 29, 2019, and then to decision on March 19, 2019; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Scibetta and former Commissioner Montanez performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 3, Brooklyn, recommends disapproval of this application, citing concerns with outstanding violations at the subject site and community opposition; and

WHEREAS, the subject site is located on the northwest corner of Nostrand Avenue and Willoughby Avenue, in an M1-2 zoning district, in Brooklyn; and

WHEREAS, the subject site has approximately 200 feet of frontage along Nostrand Avenue, 120 feet of frontage along Willoughby Avenue, 21,480 square feet of lot area and is vacant; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 14, 2014, when, under the subject calendar number, the Board granted a special permit to allow the School on condition that the School's building be limited to 55,509 square feet of floor area (2.58 FAR) and a building height of 38'-7³/₄", as illustrated on the Board-approved plans,¹ that DOB not issue a certificate of occupancy until the applicant has provided it with approval by the Department of Environmental Protection ("DEP") of the Remedial Closure Report, that interior noise levels be maintained at 45 dBA or below within the School in accordance with the noise attenuation notes on the Board-approved drawings, that bus drivers not idle in front of the building, the School or the site and that any change in the use, occupancy, or operator of the School requires review and approval by the Board; and

WHEREAS, the applicant seeks an amendment to allow minor interior changes and a change to the height of the proposed building; and

WHEREAS, more specifically, the applicant proposes to construct a four-story, with cellar, community-facility building with building height of 47 feet and a total of 71,075 square feet of floor area (3.31 FAR) as follows: 694 square feet of floor space in the cellar, used only for utilities;

21,316 square feet of floor area in the basement, including two lobbies, an auditorium, a meat kitchen, stair storage, restrooms, administrative offices, a conference room, mechanical space, a loading area, refrigerated trash storage; 10,599 square feet of floor area on the mezzanine at the first floor, including a lunch room, a dairy kitchen, closets, restrooms and offices; 18,755 square feet of floor area on the second floor, including classrooms, a multipurpose room, teachers' lounges, book closets and restrooms; 18,755 square feet of floor area on the third floor, including classrooms, a library with book storage, a lunch room, a computer laboratory, offices, therapy space and a teachers' lounge; 1,650 square feet of floor area on the roof, which is not to be used by the School or by its students; and 685 feet of floor space on the first level of the bulkhead, 320 square feet of floor space on the second level of the bulkhead and 120 square feet of floor space in the elevator machine room; and

WHEREAS, the applicant states that the proposed interior changes include relocating the auditorium from the cellar to the basement, adding a kitchen, removing the entrance to the School, adding mechanical space and administrative office space, reducing the floorplate of the first floor, removal of a therapy room, the addition of a computer laboratory and elimination of the rooftop play area; and

WHEREAS, the applicant states that the bulk of the proposed building does not create a new non-compliance or increase the degree of non-compliance with applicable zoning regulations, in accordance with ZR § 73-03(g); and

WHEREAS, the Board notes that no applicable bulk regulations have been waived herein, so DOB must ensure compliance with bulk regulations and other applicable zoning regulations; and

WHEREAS, in response to questions from the Board regarding concerns from the community, the applicant revised the drawings to remove any elevator access to the roof of the proposed building; and

WHEREAS, regarding questions from the Board about the effect of the building height on the built character of the surrounding area, the applicant studied the surrounding area, finding that the proposed height of 47 feet comports with existing conditions in the neighborhood; and

WHEREAS, in response to community concerns and direction from the Board, the applicant represents that all penalties for outstanding violations have been paid; and

WHEREAS, the applicant states that a lease provided to the Board reflects that there is bus parking available to the School at 101 Varick Avenue, Brooklyn, for six (6) school buses and that such use complies with the Zoning Resolution; and

WHEREAS, the Board and the applicant referred the application to the New York City Department of Transportation's ("DOT") Division of Transportation Planning and Management, School Safety Unit; and

WHEREAS, by letter dated March 15, 2016, DOT states that it has no objection to this application; and

¹ The applicant states that the Board's resolution, dated January 14, 2014, under the subject calendar number, indicates a maximum building height of 48 feet but that the approved building height was 38'-7³/₄", as illustrated on the Board-approved plans.

MINUTES

WHEREAS, the applicant submits that the following changes are proposed with respect to buses: the second lane from the western curb will become a bus lane and a right turn lane; the west curb will no longer have a 4:00 p.m. to 7:00 p.m. “no standing” regulation; the east curb will have a 7:00 a.m. to 10:00 p.m. and 4:00 p.m. to 7:00 p.m. “no standing” regulation; and the bus stop on Nostrand Avenue, just north of Dekalb Avenue, will be relocated to the south of Dekalb Avenue (approximately 900 feet south of the subject site); and

WHEREAS, by letter dated June 7, 2016, DOT states that, reviewing the School’s bus loading plan for the curb lane on the west side of Nostrand Avenue, directly in front of the subject site, between Willoughby Avenue and Vernon Avenue, it has no objection to this application; and

WHEREAS, at hearing after reopening, the Board expressed concerns with modifications to the drawings that were not brought to the Board’s attention; and

WHEREAS, in response, the applicant revised the drawings to those previously considered along with minor changes to reflect a consistent building height of 47 feet; and

WHEREAS, the applicant further states that changes to the plans include the following: adding Board-discussed notes and environmental notes to all floor plans; correcting the mean curb elevation throughout; and correcting discrepancies in the dimensions of the proposed building with no change to room layouts or overall building envelope or height; and

WHEREAS, the applicant states that the bulkhead has been reduced in height by 4’-4” by moving the elevator machine room to the side of the elevator overrun room; and

WHEREAS, the Board notes that it conducted an environmental review of the original application under the subject calendar number and documented relevant information about the project in the Final Environmental Assessment States (EAS) CEQR No. 12BSA070K, dated April 13, 2012; and

WHEREAS, by letter dated May 6, 2016, DEP states that, with respect to noise, the proposed project would not result in any significant adverse noise impact; and

WHEREAS, by letter dated August 24, 2018, DEP states that, with respect to air quality, the proposed project would not result in any significant adverse air quality impact, noting that the air quality assessment included the analysis of potential air quality impact from the proposed project on its surrounding area and potential effects from nearby industrial sources on the proposed project; and

WHEREAS, the applicant provided the Board with a Final Technical Memorandum dated February 27, 2019, updating the 2012 EAS; and

WHEREAS, the Technical Memorandum states no significant adverse impacts are projected on or by the proposed action provided that the following mitigation measures are incorporated into the plans: Ensure that windows on the western façade are inoperable, Provide alternate means of ventilation, For windows and walls facing east, towards Nostrand Avenue, south towards Willoughby

Avenue, and north towards the building at 182 Nostrand Avenue, the minimum attenuation required due to a maximum L10 of 75.0 dBA would be an OITC rating providing 31 dBA of attenuation, For windows and walls on the second and third floors facing Sandford Street along the western wall of the proposed Yeshiva, as well as facing north towards the first-floor rooftop, the minimum attenuation required due to an L10 of 77.1 dBA would be an OITC rating providing 33 dBA of attenuation, and Implement EBC’s recommendations to address vapor intrusion with a subslab depressurization system; and

WHEREAS, the applicant has satisfactorily demonstrated compliance with the Board’s conditions and that the circumstances warranting the original grant still obtain; and

WHEREAS, based upon its review of the record, the Board has determined that the requested amendment is appropriate with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated January 14, 2014, so that as amended this portion of the resolution shall read: “to *permit* an amendment to allow minor interior changes to and a change to the height of the proposed building; *on condition* that all work and site conditions shall conform to drawings filed with this application marked ‘Received March 19, 2019’-thirteen (13) sheets and ‘April 27, 2016’-one (1) sheet; and *on further condition*:

THAT the bulk parameters of the building shall be as follows: a total of 71,075 square feet of floor area (3.31 FAR) and a building height of 47 feet, as illustrated on the Board-approved drawings;

THAT due to air quality concerns, there shall be no play area permitted on the roof of the first floor;

THAT there shall be no access or play area on the roof of the first floor or the building roof;

THAT there shall be no use of the building as a commercial catering establishment or banquet hall, and the building shall exclusively be for the use of school programs;

THAT there shall be no rental of the auditorium to non-school events;

THAT there shall be no elevator access to the roof of the building;

THAT there shall be a closed window condition with mechanical ventilation on the façade against the rear, as illustrated on the Board-approved plans;

THAT in order to ensure an interior noise level of 45 dBA or less, windows and walls, facing east towards Nostrand Avenue, south towards Willoughby Avenue and North towards the building at 182 Nostrand Avenue, shall have an OITC rating providing 31 dBA of attenuation;

THAT in order to ensure an interior noise level of 45 dBA or less, windows and walls, on the second and third floors facing Sandford Street along the western wall of the proposed building, as well as facing north towards the play area on the first-floor rooftop, shall have an OITC rating providing 33 dBA of attenuation; furthermore, these

MINUTES

windows shall be inoperable and alternate means of ventilation shall be provided;

THAT a Vapor Barrier / Subslab Depressurization System should be installed beneath the slab for potential vapor intrusion as specified in the Remedial Action Plan;

THAT the entire building shall be fire protected with sprinklers and equipped with a fire alarm system connected to a central station in accordance with the New York City Building Code and approved by the Fire Department;

THAT except for pickups and drop-offs, school buses shall be parked in the off-site location provided at 101 Varick Avenue, Brooklyn, pursuant to valid lease agreements;

THAT bus drivers shall not idle or park in front of the building, the School or the site;

THAT the owner shall obtain a “no parking” sign for buses except during pickups and drop-offs;

THAT DOB shall not issue a certificate of occupancy until the applicant has provided it with approval by DEP of the Remedial Closure Report;

THAT any change in the use, occupancy, or operator of the School requires review and approval by the Board;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by March 19, 2023;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, March 19, 2019.

67-13-A

APPLICANT – NYC Department of Buildings, for ESS PRISA II LLC, owner; OTR Media, lessee.

SUBJECT – Application June 8, 2018 – Request for a rehearing of the subject application to consider substantial new evidence not available at the time of the initial hearing pursuant to § 1-12.5 of the Board’s Rules of Practice and Procedure.

PREMISES AFFECTED – 945 Zerega Avenue, Block 3700, Lot 31, Borough of Bronx.

COMMUNITY BOARD #9X

ACTION OF THE BOARD – Request for Rehearing Granted.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application filed by the Department of Buildings (“DOB”) requesting a rehearing of the subject application to consider substantial new evidence not available at the time of the initial hearing pursuant to § 1-12.5 of the Board’s Rules of Practice and Procedure; and

WHEREAS, a public hearing was held on this application on September 13, 2018, after due notice by publication in *The City Record*, with a continued hearing on March 19, 2019, and then to decision on that date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, the site is located on the southwest corner of Zerega Avenue and Bruckner Boulevard, in an M1-1 zoning district, in the Bronx; and

WHEREAS, the site is occupied by a five-story commercial building with a rooftop sign structure containing a sign with a surface area of 672 square feet (the “Sign”); and

WHEREAS, on July 12, 2016, under the subject calendar number, the Board denied this appeal, which had returned to the Board pursuant to an Order of the Supreme Court of New York, New York County (the “Court”), filed in OTR Media Group, Inc. v. Board of Standards and Appeals of the City of New York (Index No. 101422/2013) on May 6, 2015, annulling the Board’s decision, dated September 16, 2014, and remanding the matter for a determination by the Board that a sign at the subject premises has (1) continuously existed at the premises since its establishment prior to November 1, 1979, and (2) has continuously been used for advertising purposes (the “2016 Resolution”); and

WHEREAS, this is the third time this application has been remanded to the Board; and

WHEREAS, the application was originally filed on February 12, 2013, challenging DOB’s revocation of two permits (Permit Nos. 210039224 and 201143253) based on DOB’s determination that the Sign had not been established as a legal non-conforming advertising sign; and

WHEREAS, by decision dated September 24, 2013, the Board denied the appeal, concluding that the Appellant had failed to meet its burden of demonstrating that the Sign was established prior to November 1, 1979, the relevant date for legal non-conforming status, pursuant to ZR § 42-55; and

WHEREAS, the application was remanded to the Board pursuant to stipulation for the limited purpose of considering whether to distinguish the subject appeal from a prior appeal for signs located at 2284 12th Avenue (BSA Cal. Nos. 96-12-A and 97-12-A); and

WHEREAS, the Board subsequently held a public hearing and voted to add three additional recitals to the resolution dated September 24, 2013, distinguishing the

MINUTES

subject case from the facts of 2284 12th Avenue, but otherwise, maintained its decision to deny of the appeal; and

WHEREAS, on April 15, 2015, the Supreme Court annulled that revised determination and remanded the matter to the Board for determinations on whether the Sign was used continuously at the subject site since being legally established prior to November 1, 1979, and whether the Sign had continuously been used for advertising purposes; and

WHEREAS, in accordance with the Court's order, the Board held five public hearings on the second remand and, in the 2016 Resolution, concluded that, though the Sign had continuously existed at the premises since its establishment prior to November 1, 1979, it had not continuously been used for advertising purposes; and

WHEREAS, the 2016 Resolution was challenged pursuant to Article 78 of the New York Civil Practice Law and Rules, annulled and the matter was again remanded, pursuant to an Order of the Court, filed in OTR Media Group, Inc. v. Board of Standards and Appeals of the City of New York (Index No. 158646/2016) on March 16, 2018, to the Board for further consideration in light of the Board's decision in 2368 12th Avenue, Manhattan (Block 2005, Lot 32) (BSA Cal. No. 24-12-A) (the "2018 Remand"); and

WHEREAS, an application to reconsider the application pursuant to the 2018 Remand was filed with the Board on or around June 7, 2018; and

WHEREAS, the subject application was filed on or around June 8, 2018; and

WHEREAS, the 2018 Remand was restored to the Board's public hearing calendar and heard on the same dates as the subject application; and

WHEREAS, this application was decided at the Board's March 19 hearing, but public hearings continue with regards to the 2018 Remand, with the next public hearing scheduled for June 25, 2019; and

WHEREAS, pursuant to § 1-12.5 of the Board's Rules of Practice and Procedure:

The Board will not grant a request to rehear a case which was denied, dismissed, or withdrawn with prejudice unless: (1) substantial new evidence is submitted that was not available at the time of the initial hearing, (2) there is a material change in plans or circumstances, or (3) an application is filed under a different jurisdictional provision of the law; and

WHEREAS, in this application, DOB states that the agency recently obtained photographs of the site, certified by the New York State Department of Transportation ("NYSDOT"), that contradict the Board's determination, in the 2016 Resolution, that the Sign was established prior to November 1, 1979, and/or, in the alternative, provide further support for the Board's determination that the Sign was not continuously used for advertising purposes; and

WHEREAS, specifically, DOB submitted five (5) photographs from NYSDOT's photolog of Interstate 95 North (a/k/a Cross Bronx Expressway), the originals of which are made and maintained by NYSDOT in the normal

course of business, that include a view of the roof of the building located at the subject site: (1) Photograph 1, taken on June 28, 1978, showing neither a sign nor a sign structure on the subject roof; (2) Photograph 2, taken on June 18, 1981, showing neither a sign nor a sign structure on the subject roof; (3) Photograph 3, taken on May 7, 1985, showing neither a sign nor a sign structure on the subject roof; (4) Photograph 4, taken on October 22, 1990, in which a "Marlboro" sign on the subject roof is visible; and (5) Photograph 5, taken on May 16, 1995, in which a "Marlboro" sign on the subject roof is visible; and

WHEREAS, DOB states that, according to these photographs, the Sign did not exist at the subject site on June 28, 1978, or June 18, 1981, and, absent clear evidence of the Sign at the site between June 28, 1978, and November 1, 1979, it can be presumed to not have been established prior to November 1, 1979;

WHEREAS, DOB additionally asserts that the photographs additionally indicate that the Sign was not present at the site on at least two specific dates post-November 1, 1979 (June 18, 1981, and May 7, 1985) and, thus, present further uncertainty as to whether the Sign, even if satisfactorily established prior to November 1, 1979, was not discontinued for a period of two or more years; and

WHEREAS, accordingly, DOB submits that the application should be reheard by the Board to allow the introduction of this evidence and provide the Appellant an opportunity to rebut them; and

WHEREAS, the Appellant, represented by counsel, appeared in opposition to this application, alleging that (1) the materials submitted by DOB do not constitute "substantial new evidence . . . that was not available at the time of the initial hearing," as stated in § 1-12.5 of the Board's Rules of Practice and Procedure and supported by the New York State Court of Appeals' decision in Douglaston Civic Association v. Galvin, 36 N.Y.2d 1 (1974), which upheld the Board's denial of a request to rehear a variance application that had been granted and states, "[t]estimony which was as available before the hearing as it was at the time of the application is not newly discovered evidence," 36 N.Y.2d at 9; and (2) even if the materials qualify as such, they do not rebut evidence submitted by the Appellant regarding the Sign's legal establishment or continuous use; and

WHEREAS, the Appellant asserts that the NYSDOT photographs have been public records for decades and, with reasonable diligence, would have been available at the time of initial hearing; that the photograph dated June 28, 1978, two weeks after the execution of the outdoor advertising lease for the Sign on June 12, 1978, previously submitted into the public record for this appeal, is too early in time to be relevant to the question of whether the Sign was legally established prior to November 1, 1979; that the Supreme Court has already determined that the applicant met its burden in demonstrating legal establishment of the Sign; that the NYSDOT photographs are not records of a City agency or public utility, the highest form of acceptable

MINUTES

documentation in support of an existing use for legalization or proof of continual nonconforming use pursuant to DOB Technical Policy and Procedure Note (“TPPN”) 14/88, but should be considered, instead, “any other documentation or bills indicating the use of the building, such as telephone ads, commercial trash hauler invoices, liquor licenses, etc.,” listed third, on par with other evidence submitted into the record by the Appellant in this case to demonstrate continuous use, including a 1983 New York City Department of Finance (“DOF”) tax photos of 931 Zerega Avenue and 944 Havemeyer Avenue, which, the Appellant asserts, show the Sign on the roof of the subject building; and that the NYSDOT photographs dated June 18, 1981, and May 7, 1985, fail to show the discontinuance of the Sign for advertising for more than two years and, at most, indicated that the Sign was not present at the site on the dates on which the photos were taken; and

WHEREAS, the Appellant also argues that DOB is barred by the 2018 Remand to file this case as the 2018 Remand remanded the application to the Board for the sole purpose of distinguishing the subject application from the Board’s decision in 2368 12th Avenue; and

WHEREAS, in response, DOB submits that, in accordance with TPPN 14/88, DOB’s records, as the records of a City agency, are the best evidence of the existing use for legalization or for proving continual nonconforming use and those records, as previously submitted into the Board’s record on this appeal, demonstrate that DOB approved and issued permits for two accessory business roof signs (E.S. 120-86 and E.S. 121-86) and a rooftop structure (BN 805/86) in 1987 and did not issue an advertising sign permit to the site until 2008 (the revocation of such permit in 2013 served as the basis for Appellant’s original appeal application) and that, even if the Sign was established prior to November 1, 1979, it was discontinued when DOB issued permits for accessory business signs in 1987; and

WHEREAS, at hearing, the Appellant acknowledged that they were not previously in possession of the NYSDOT photographs and members of the Board stated that they had been previously unaware of NYSDOT as a source for evidence relating to signage adjacent to arterial highways; and

WHEREAS, the Board notes that DOB filed this application separately pursuant to § 1-12.5 of the Board’s Rules, which permits the filing of requests to rehear cases previously before the Board, and that the Board continues to hold public hearings on the 2018 Remand, as mandated by the Supreme Court; and

WHEREAS, in written submissions to the Board, DOB clarified that the agency was not previously in possession of the NYDOT photographs and provided the affirmation of DOB’s Executive Director of Special Enforcement, in which such DOB employee states that he first obtained the NYSDOT photographs in April 2017, subsequent to the 2016 Resolution, after first learning that NYSDOT maintains a photographic archive of New York State highways in a meeting in early spring 2007; DOB also

submitted a letter from NYSDOT explaining the procedure followed by NYSDOT’s Pavement Data Section, which, from 1975-2010, took photographs of interstate highways, state routes, federal routes and parkways at intervals of 1/100th of a mile (52.8 feet); and

WHEREAS, the NYSDOT letter also translates the numbers that appear at the bottom of each of the photographs clarifying the following details about each: (1) Photograph 1, taken on June 28, 1978: “004.63” is the distance in miles (4.63 miles) from either the county border or the beginning of I-95, the symbol before “004.63” represents an arrow for the northbound direction, “01” is the county code for Bronx County, and “78-646” identifies the image’s negative reel; (2) Photograph 2, taken on June 18, 1981: “1013” identifies the image’s negative reel, “061881” indicates the date of the photograph (June 18, 1981), the symbol before “004_61” indicates a northbound direction and “004_61” indicates the distance in miles (4.61 miles) from the county border or the beginning of I-95; (3) Photograph 3, taken on May 7, 1985: “5006” indicates the negative reel; “050785” indicates the date of the photograph (May 7, 1985), the symbol before “005_98” indicates a northbound direction and “005_98” indicates the distance in miles (5.98) from the county border or the beginning of I-95; (4) Photograph 4, taken on October 22, 1990: “0014” identifies the negative reel, “102290” indicates the date of the photograph (October 22, 1990), the symbol before “005_99” indicates a northbound direction and “005_99” indicates the distance in miles (5.99 miles) from the county border or beginning of I-95; and (5) Photograph 5, taken on May 16, 1995: “5008” identifies the negative reel, “051695” indicates the date of the photograph (May 16, 1995), the symbol before “004-55” indicates a northbound direction and “004-55” indicates the distance in miles (4.55 miles) from the county border or beginning of I-95; and

WHEREAS, the Board finds that the five NYSDOT photographs submitted by DOB constitute substantial new evidence that was not in DOB’s possession prior to the 2016 Resolution and finds that Appellant’s arguments in opposition to this application to be without merit; and

WHEREAS, specifically the Board finds that the facts underlying the Board’s denial of a request to rehear an application that preceded the Court of Appeals’ decision in Douglaston are distinguishable from the subject request in that the “substantial new evidence” submitted to the Board in that case—an eight-year old valuation filed in a New York State estate tax proceeding, and available in the public record for the prior three years, that valued the parcel that had been granted a variance by the Board at \$35,000—did not controvert the variance applicant’s submission to the Board, based on three comparable sites located within one-half mile of the premises, that its “Cost of Land” was \$121,878 (“This is not a case where the board’s decision was based on facts fraudulently misrepresented to it; the [variance application] presentation made it clear that the ‘Cost of Land’ figure represented its current value and not its actual cost.” Douglaston, 36 N.Y.2d at 9); and

MINUTES

WHEREAS, since first filing this appeal in February 2013 challenging DOB’s determination that the Sign is not entitled to legal non-conforming use status, the Appellant has submitted leases, affidavits, work completion notices, contracts, checks and DOF tax photos of other buildings in the area to prove that the Sign was established prior to November 1, 1979, and that it has not been discontinued since this time; and

WHEREAS, the NYSDOT photographs submitted herewith by DOB constitute the only clear photographs of the subject site prior to 2005 and refute evidence previously proffered into the record on this appeal, including, but not limited, to the affidavits from Richard J. Theyoung, President of Allied Outdoor Advertising, which stated that the Sign was constructed in early 1979 and continuously maintained thereafter, and Bruce Silverman, an advertising and media consultant, who stated that rooftop signage adjacent to or highly visible from major arteries in New York are so valuable that they are unlikely to be without advertising for an extended period of time—statements that are contradicted by Photograph 2, taken on June 18, 1981, and Photograph 3, taken on May 7, 1985, which indicate, on at least two dates post-November 1, 1979, neither the Sign nor a vacant sign structure on the roof of the premises.

Therefore, it is Resolved, that the Board of Standards and Appeals *grants* the subject request for a rehearing to consider substantial new evidence not available at the time of the initial hearing pursuant to § 1-12.5 of the Board’s Rules of Practice and Procedure.

Adopted by the Board of Standards and Appeals, March 19, 2019.

271-09-BZ

APPLICANT – Akerman LLP, for Syracuse Fund II LLC, owner; Jamaica Fitness Group, LLC, lessee.

SUBJECT – Application November 30, 2018 – Extension of Term of a previously approved Special Permit (§73-36) which permitted the operation of a physical culture establishment (Planet Fitness) on the first, second, and third floors of an existing three-story building which is set to expire on January 17, 2019. C2-3 zoning district.

PREMISES AFFECTED – 132-40 Metropolitan Avenue, Block 9284, Lot 19, Borough of Queens.

COMMUNITY BOARD #9Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of the term of a special permit, previously granted pursuant to ZR § 73-36, which expired on January 17, 2019; and

WHEREAS, a public hearing was held on this application on March 19, 2019, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, Community Board 9, Queens, recommends approval of this application; and

WHEREAS, the subject site is located on a triangular-shaped lot bound by Metropolitan Avenue to the north and Jamaica Avenue to the south, within an R6 (C2-3) zoning district, in Queens; and

WHEREAS, the site has approximately 565 feet of frontage on Metropolitan Avenue, 524 feet of frontage on Jamaica Avenue, 47,600 square feet of lot area, and is occupied by a three- (3) story commercial building; and

WHEREAS, the subject physical culture establishment (“PCE”) occupies 16,980 square feet of floor area within portions of the first floor (807 square feet of floor area), second floor (3,481 square feet of floor area) and third floor (12,692 square feet of floor area) of the subject building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 13, 2010, when, under the subject calendar number, the Board granted a special permit to legalize the operation of a PCE operated as Planet Fitness on the first, second and third floors of an existing three- (3) story commercial building on condition that all work substantially conform to drawings filed with the application; the term of the grant expire on January 17, 2019; there be no change in ownership or operating control of the PCE without prior application to and approval from the Board; all signage comply with C2 district regulations; all massages be performed by New York State licensed massage therapists; the above conditions appear on the certificate of occupancy; fire safety measures be installed and/or maintained as shown on the Board-approved plans; this approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); the approved plans be considered approved only for the portions related to the specific relief granted; and DOB ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, the term of the special permit having expired, the applicant requests the subject relief; and

WHEREAS, at hearing, the Board questioned whether the subject PCE, “Planet Fitness,” continued to provide massages by New York State-licensed massage therapists and requested the requisite proof; and

WHEREAS, in response, the applicant represented that PCE no longer offers massage services; and

WHEREAS, by letter dated March 1, 2019, the Fire Department stated that the fire alarm and sprinkler systems have been inspected and tested satisfactory to Department standards; the subject PCE space has also been inspected by the Department’s Licensed Public Place of Assembly unit and the public assembly permit is current; and that the Fire

MINUTES

Department has no objection to the Board rendering a decision on this application; and

WHEREAS, pursuant to ZR § 73-03(f), the applicant has satisfactorily demonstrated compliance with the conditions of the previous term and the Board finds that the circumstances warranting the original grant still obtain; and

WHEREAS, accordingly, the Board finds that a ten (10) year extension of term is appropriate with the conditions set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *amends* the resolution, dated July 13, 2010, so that, as amended, this portion of the resolution reads: “to permit an extension of term for ten (10) years, to expire on January 17, 2029, *on condition* that the use and operation of the site shall conform to drawings filed with this application marked ‘Received March 18, 2019’-Seven (7) sheets; and *on further condition*:

THAT the term of this grant shall expire on January 17, 2029;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT all signage shall comply with C2 district regulations;

THAT all massages shall be performed by New York State licensed massage therapists;

THAT minimum three (3) foot wide exit pathways to required exits shall always be maintained unobstructed, including that from any gymnasium equipment;

THAT sprinklers and an interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, connection of the interior fire alarm and sprinklers to a FDNY-approved central station—shall be maintained throughout the PCE space as indicated on the Board-approved plans;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a revised certificate of occupancy, also indicating this approval and calendar number (“BSA Cal. No. 271-09-BZ”) shall be obtained within one (1) year, by March 19, 2020;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, March 19, 2019.

THE RESOLUTION –

WHEREAS, the decision on behalf of the Manhattan Borough Commissioner, dated September 26, 2016, acting on Department of Buildings (“DOB”) Application No. 122787779 reads in pertinent part:

Job Description:

INSTALL ADVERTISING SIGN. STRUCTURE PREVIOUSLY CONSTRUCTED UNDER APPLICATION 110179912 AND SIGN PREVIOUSLY INSTALLED UNDER APPLICATION 110301343.

The proposed construction of an A[D]VERT[I]SING SIGN IN A C1-9 DISTRICT IS CONTRARY TO SECTION 32-62 ZR; and

WHEREAS, this is an application, pursuant to ZR § 72-21, to permit, on a site located within a C1-9 zoning district, the maintenance of an advertising sign contrary to use regulations set forth in ZR § 32-62, on the basis of the applicant’s purported good-faith reliance on permits validly

issued by the Department of Buildings (“DOB”) and subsequently revoked; and

WHEREAS, a public hearing was held on this application on May 22, 2018, after due notice by publication in *The City Record*, with continued hearings on August 7, 2018, February 5, 2019, and March 19, 2019, and then to decision on that date; and

WHEREAS, Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 6, Manhattan, recommends denial of this application, stating that the applicant has failed to meet the findings for a variance; that the advertising sign, located at a major traffic intersection of the two principal access routes to the Queens Midtown Tunnel, is a distraction to drivers and pedestrians, creates unsafe traffic conditions and is detrimental to the public welfare; and that the sign is out of character with the surrounding residential community; and

WHEREAS, the subject tax lot is located on the west side of Second Avenue, between East 36th Street and the Queens Midtown Tunnel, in a C1-9 zoning district, in Manhattan; and

WHEREAS, the site has approximately 19 feet of frontage along Second Avenue, a depth of 85 feet and 1,573 square feet of lot area; and

WHEREAS, the subject lot is held in common ownership with lots 26, 27, 29, 30 and 32, all of which front on Second Avenue; lots 25, 24 and 21, all of which front on East 36th Street, and a portion of lot 34, which has frontage on both East 36th Street and East 37th Street; and

WHEREAS, the Board has previously exercised jurisdiction over the subject tax lot and several surrounding lots (lots 21, 24-30, 32 and 34)—described in the resolution as an irregularly shaped through and corner lot containing 58,637 square feet of lot area with approximately 368 feet of frontage on East 37th Street, 200 feet of frontage on East 36th Street and 200 feet of frontage on Second Avenue—on the subject block (Block 917) since May 6, 2002, when, under BSA Cal. No. 280-01-BZ, the Board granted a variance, pursuant to ZR § 72-21, to permit the development of a mixed-use commercial and residential building contrary to zoning regulations regarding the location of commercial floor area, commercial rear yard equivalent, tower-on-a-base, street wall transparency, accessory parking and curb cuts set forth in ZR §§ 32-421, 33-283, 35-63(a), 23-652, 37-017, 13-134, 26-05 and 36-682, on condition that the occupancy of the second, third and fourth floors be limited to a post office; all trucks utilizing the ground floor loading docks exit the building through East 37th Street; 96 dwelling units be reserved for affordable housing in accordance with the 80/20 Program; street trees be maintained around the perimeter of the property; there be no parking in the layby lane on East 36th Street and such lane only be used for persons loading or unloading; the parking garage in the cellar and sub-cellar be limited to 214 accessory parking

MINUTES

spaces; the conditions appear on the certificate of occupancy; no permits, other than foundation permits, be issued for the construction of the post office space until the applicant has submitted an agreement for a post office tenant to the Board; the applicant obtain Board approval for any alternative use of the second, third and fourth floors should a post office not commit to the space; all lighting be directed away from adjacent residential units; the applicant work in conjunction with the New York City Department of Transportation to implement the traffic mitigation measures in the Environmental Assessment Statement unless the Department finds such measures to be unnecessary; that substantial construction be completed within four (4) years; and the Department of Buildings ensure compliance with all other applicable provisions of the Zoning Resolution, Administrative Code and any other relevant laws under its jurisdiction (the “Variance Building”); and

WHEREAS, the resolution indicates that, at the time of the application, lots 26, 27 and 28 were improved with three vacant five-story multiple dwellings, which were proposed to be demolished to accommodate construction of the Variance Building; and

WHEREAS, on September 24, 2002, under BSA Cal. No. 280-01-BZ, the Board reopened the application and amended the resolution to permit the reconfiguration of the residential portion of the Variance Building on condition that the premises be maintained in compliance with the Board-approved plans; and

WHEREAS, on April 11, 2006, March 16, 2010, and July 15, 2014, under BSA Cal. No. 280-01-BZ, the Board granted four (4) year extensions of time to complete construction of the Variance Building and obtain a certificate of occupancy, which, the applicant reported, had been delayed due to the complex engineering demands of the site because of its adjacency to the Queens-Midtown Tunnel; and

WHEREAS, the latest extension of term grant expired on May 7, 2018, and another application for an extension of time to complete construction of the Variance Building was filed under BSA Cal. No. 280-01-BZ on June 6, 2018 (the “Extension Application”); and

WHEREAS, the Extension Application was heard on the same public hearing calendar as the subject application, but was withdrawn at the request of the applicant on February 5, 2019; and

WHEREAS, accordingly, the 2002 variance grant permitting the construction of the Variance Building has lapsed; and

WHEREAS, the subject advertising sign was also previously before the Board in an interpretative appeal, filed under BSA Cal. No. 86-11-A for lots 21 and 24-31 on the subject block (Block 917), of a Department of Buildings final determination to revoke the permits filed in connection with applications for a ground sign structure filed on lot 28 (DOB Application No. 110179912, the “Ground Structure Permit”) and a two-sided illuminated advertising sign (DOB Application No. 110301343, the “Double-Sided Sign

Permit”); and

WHEREAS, by resolution dated June 19, 2012, the Board denied the appeal, having found that the two-sided illuminated advertising sign installed at the site did not comply with ZR §§ 52-83 and 52-61 and that DOB had, thus, properly revoked the Ground Structure Permit and the Double-Sided Sign Permit (the “Permit Revocation Appeal”); and

WHEREAS, that determination was appealed, pursuant to Article 78 of the New York Civil Practice Law and Rules, and upheld by the New York State Supreme Court, New York County by order dated March 7, 2013; and

WHEREAS, the Supreme Court decision was reversed by the Appellate Division, First Department by order dated October 29, 2013, which ordered the Permits reinstated², but upon a granting a motion for re-argument, the Appellate Division recalled and vacated the October 2013 decision and substituted an order concluding that the Board erred in failing to consider the applicant’s alleged good-faith reliance on DOB’s issuance of the Ground Structure Permit and the Double-Sided Sign Permit in the Permit Revocation Appeal, remanded the application to the Board and directed the Board to determine whether, applying the factors of New York City Charter § 666(7), a variance was warranted³; and

WHEREAS, the Court of Appeals granted leave to appeal to both parties and, by order dated March 24, 2016, affirmed and modified the Appellate Division’s February 2014 decision and order, dismissed the petition and held that the proper procedure with which to resolve the issue of good-faith reliance was an application to the Board for a zoning variance⁴; and

WHEREAS, this application for a variance pursuant to ZR § 72-21 was filed on September 30, 2016; and

WHEREAS, an advertising sign measuring 14 feet high by 48 feet wide and located 35 feet above grade was erected on the north-facing wall (the “Original Sign”) of the multiple dwelling previously located on the subject lot (the “Multiple Dwelling”); and

WHEREAS, the Original Sign was “legalize[d]”—that is, conferred lawful status—by DOB on or around August 4, 1980, when DOB issued permits for the Original Sign under DOB Application No. ES 42/80 and the subject site was located within a C6-4 zoning district; and

WHEREAS, on December 1, 1983, the zoning map was amended to change the subject site to a C1-9 zoning district, where advertising signs are not permitted as-of-right, and the Original Sign was rendered non-conforming; and

WHEREAS, on April 2, 2008, six years after the Board-approved construction of the Variance Building, DOB issued a violation for failure to maintain the Multiple

Dwelling; on April 3, 2008, DOB issued an emergency declaration; on April 4, 2008, DOB Application No. 110135620 was filed for demolition of the Multiple Dwelling and a demolition permit was issued the same day; and

WHEREAS, the applicant asserts that the Original Sign, originally affixed to the northern wall of the Multiple Dwelling, was removed upon demolition of the Multiple Dwelling and the applicant's representative filed and professionally certified DOB Application No. 110179912 to "INSTALL STRUCTURE FOR [A] GROUND SIGN" on lot 28 on June 3, 2008; and

WHEREAS, DOB issued the Ground Structure Permit on June 20, 2008; and

WHEREAS, on July 8, 2008, the demolition permit issued under DOB Application No. 110135620 for the Multiple Dwelling on lot 28 was signed off by DOB; and

WHEREAS, DOB Application No. 110301343 was filed for lot 28 on July 24, 2008, with the following Job Description:

INSTALL ILLUMINATED 14' X 48'
CHANGEABLE COPY ADVERTISING SIGN
ON STRUCTURE FILED UNDER SEPARATE
APPLICATION. THIS SIGN IS A DIRECT
REPLACEMENT FOR SIGN FILED UNDER
#ES 42/80; and

WHEREAS, the plans filed in association with the application illustrated a two-faced illuminated advertising sign on a sign structure affixed to the ground on lot 28, approximately 50 feet north of the northwestern corner of Second Avenue and East 36th Street; and

WHEREAS, on August 13, 2008, DOB issued objections to the application relating to differences between the sign proposed in the application and the Original Sign, installed under DOB Application No. ES 42/80, and the following supplemental objections were issued on October 15, 2008:

13. The new proposed sign must have the same area of signage as the original approved sign which is 672 sq. ft. and not to have 2 signs back to back as proposed under this application.
14. Also the new sign must be located in the same position as the original sign that was approved back in [the] 1980's, in order for this sign to be grandfathered.
15. The structural sign application should not have been filed as a Prof Cert until Sign application was filed and approved.
16. Also note that the height of original sign is 35'-0" from grade to under side of the sign. The proposed show 14'-0" only.
17. The above items must be met in order to be grandfathered otherwise the new sign must comply with C1-9 Zoning District, since this was down zone[d] from C6-4 Zoning District; and

WHEREAS, an application requesting review and reconsideration of objections 13, 14 and 16 was filed with DOB on behalf of the applicant, noting that "the [proposed] sign is substantially in the same location as originally but much lower in height and therefor[e] making a lesser impact on the community"; and

WHEREAS, the application included reference to and a copy of a plan sheet approved by the Board, limited solely to the relief granted under the 2002 variance—that is, waivers of zoning regulations regarding the location of commercial floor area, commercial rear yard equivalent, tower-on-a-base, street wall transparency, accessory parking and curb cuts—on December 17, 2003, indicating the relocation of a 54'-6" high by 14-foot-wide advertising sign to the side of the Variance Building at the southwest corner of Second Avenue and East 37th Street (the "Variance Building Sign"); and

WHEREAS, on October 28, 2008, then-DOB Manhattan Borough Commissioner Christopher Santulli ("BC Santulli") granted the reconsideration, stating "Ok to accept prior sign as grandfathering of existing non-conforming sign. Ok to accept lower sign as no increase in degree of non-compliance", and the Double-Sided Sign Permit was issued on December 11, 2008; and

WHEREAS, despite including references to DOB Application No. 110301343, the application for a new illuminated sign filed against lot 28, DOB's August and October 2008 objections, the application for reconsideration and the reconsideration approval (provided at the bottom of the reconsideration application form), also confusingly indicate the lot to which they apply as "lot 25," a parcel that fronts on East 36th Street, not Second Avenue, and located approximately 82 feet west of the northwestern corner of East 36th Street and Second Avenue; and

WHEREAS, the applicant states that practical difficulties and unnecessary hardship, in satisfaction of ZR § 72-21(a) have resulted from their reliance, in good faith, on DOB's issuance of the Ground Structure Permit and the Double-Sided Sign Permit; and

WHEREAS, the applicant avers that, as a result of their good-faith reliance on the approved reconsideration of the Manhattan Borough Commissioner, the highest level DOB official in the Manhattan borough office, and DOB's issuance of the Ground Structure Permit and the Double-Sided Sign Permit, a sign structure and illuminated two-sided advertising sign were constructed at the site "in the approved location" prior to the end of 2008 at a cost of more than \$176,000 (the "Existing Sign"); the applicant also states that they have since spent more than \$288,000 to maintain the sign, which "has remained at that approved location with the same size, configuration and elevation"; and

WHEREAS, the Existing Sign is, in fact, located, at the corner of Second Avenue and East 36th Street, across lots 26 and 27—not on lot 28, where the Original Sign was located and as was indicated on the DOB applications for the Ground Structure Permit and the Double-Sided Sign

MINUTES

Permit as well as the permits themselves, which refer to 669 Second Avenue as the address to which they apply, and not on lot 25, to which DOB's August and October 2008 objections and the reconsideration confusingly refer; and

WHEREAS, by letter dated April 30, 2010, DOB informed the owner and DOB applicant of record associated with the Ground Structure Permit of DOB's intention to revoke the approval and permit unless sufficient information was presented to address an attached Notice of Audit Objections⁵ noting objections to the size of the double-sided sign, its status as an advertising sign and its height above curb, none of which complied with C1-9 zoning district regulations, that the location of the sign was contrary to the reconsideration, which referred to lot 25, and that, pursuant to ZR § 52-83, "Non-conforming signs cannot be reconstructed or replaced in different locations than originally permitted by DOB in ES 42-1980 and subsequently modified by BSA" on December 17, 2003; and

WHEREAS, on August 25, 2010, DOB issued an Intent to Revoke Approvals and Permits for the Double-Sided Sign Permit, citing existing C1-9 zoning district regulations with which the Existing Sign did not comply; and

WHEREAS, the Ground Structure Permit was revoked on July 26, 2010, the Double-Sided Sign Permit was revoked on May 5, 2011, and on June 9, 2011, DOB issued its final determination that, because the sign had not been constructed within two years of the date of demolition in the same location and position as required by ZR § 52-836, the non-conforming advertising use was determined to have been discontinued; and

WHEREAS, that final determination, challenged before the Board in the Permit Revocation Appeal, read in pertinent part:

The zoning lot in question is subject to Board of Standards and Appeals (BSA) calendar number 280-01-BZ granted on 5/7/2002. By letter dated 12/17/2003, the then Chairman of the BSA determined that the installation of a sign 54'-6" high by 14' wide relocated to the corner of 2nd Avenue and East 37th Street, was found to be substantially in compliance with the above referenced BSA grant.

However, the location and size as approved per job number 110179912 does not conform to the

BSA letter and the BSA-approved plans attached thereto. The BC-1 Reconsideration Form signed by former Borough Commissioner Santulli, PE, on 10/28/2008 is unclear in that the applicant did not specify on the form that the sign would be relocated from the corner of 2nd Avenue and East 37th Street to the corner of 2nd Avenue and East 36th Street. Nonetheless, to the extent that such BC-1 form purports to authorize the relocation of the sign contrary to the size and location approved by BSA, such determination was issued in error and is hereby rescinded because the Department of Buildings does not have the legal authority to modify the terms of the BSA grant; and

WHEREAS, the applicant states that that determination failed to consider that the Original Sign was removed from the north wall of the Multiple Dwelling upon DOB's issuance of an emergency declaration that required the building's demolition; that BC Santulli approved the reconsideration application after having been apprised of all of the relevant facts and specifically found that the change in location and elevation of the sign, as proposed, would not increase the degree of non-compliance; and that the applicant has spent a considerable amount of money to construct and maintain the Existing Sign since 2008; and

WHEREAS, the applicant adds that due to DOB's history of approving, and later revoking, the Ground Structure Permit and Double-Sided Sign Permit, the applicant is no longer able to replace the Original Sign in compliance with ZR §§ 52-83 and 52-617 by reconstructing it in the same location and position within two years of the date of its demolition and that such a result imposes a significant financial hardship; and

WHEREAS, New York State courts have recognized that property owners may invoke the principle of good-faith reliance in the context of a variance application where they have made expenditures towards construction performed pursuant to, for instance, a building permit that is later revoked due to an invalidity that existed at the time the permit was issued, and such reliance resulted in a unique hardship, thereby serving as a substitute for the uniqueness finding set forth in ZR § 72-21(a); and

WHEREAS, in Jayne Estates, Inc. v. Raynor, 22 N.Y.2d 417 (1968), the Court of Appeals determined that the expenditures made by a property owner in reliance on permits deemed to be invalid were suitably considered in an application for a variance, particularly with regards to the (a) finding, in which an applicant must allege "unnecessary hardship," because (1) the property owner acted in good faith and (2) there was no reasonable basis upon which the property owner could have been charged with constructive

⁵ This Notice of Audit Objections consistently refers to both DOB Application No. 110179912 for the ground structure and lot 28, the lot against which that application was filed.

⁶ Section 52-83 (Non-Conforming Advertising Signs) of the Zoning Resolution permits non-conforming advertising sign, except flashing signs, to be structurally altered, reconstructed or replaced "in the same location and position," provided that such structural alteration, reconstruction or replacement does not result in, *inter alia*, an increase in the degree of non-conformity of the sign or an increase in the sign's degree of illumination.

⁷ Pursuant to ZR § 52-61, discontinuity of a non-conforming use for a continuous period of two years terminates the right to continue the non-conforming use and such land or building must thereafter be used only for a conforming use.

MINUTES

notice of the permit's invalidity; and

WHEREAS, in Pantelidis v. Board of Standards & Appeals, 10 N.Y.3d 846 (2008), the Court of Appeals, in a limited opinion, held that it was appropriate for the New York State Supreme Court to have conducted a good-faith reliance hearing, rather than remand the case to the Board, to determine whether the property owner could claim reliance in the context of an Article 78 proceeding to overturn the Board's denial of a variance application; the Court established that the Board should conduct such a hearing and that good-faith reliance is relevant to the variance analysis; and

WHEREAS, in Woods v. Srinivasan, 108 A.D.3d 412 (1st Dept 2013), lv to appeal denied, 22 N.Y.3d 859 (2014), the Appellate Division held that, where the issue was whether construction documents and plans complied with applicable side lot line requirements, DOB, rather than the property owner, was in the best position to avoid the erroneous issuance of the permit, accordingly, the court found that the owner had relied in good faith on DOB's permits, which were issued after DOB plan examination, and remanded the matter to the Board to consider whether petitioner met the remaining elements required for the granting of a variance; and

WHEREAS, the Board notes that the body of case law addressing good-faith reliance and a property owner's ability to utilize detrimental reliance in support of the finding required pursuant to ZR § 72-21(a) is limited to those instances where there is a unique history of approvals from (1) high-level municipal officials (i.e., the Village Board of Trustees, as in Jayne Estates, and a DOB Borough Commissioner, as in Pantelidis) (2) on the precise matter at issue; and

WHEREAS, accordingly, the Board identifies key questions in the good-faith reliance inquiry under the common law to include: (1) were the approvals obtained and later revoked based on a circumstance that existed when the approval were first granted; (2) did the approval process include an inquiry into the matter that would subsequently be the basis for the reversal of the approval; (3) could the owner have anticipated the reversal in light of municipal assurances to the contrary; and (4) was construction performed and expenditures made subsequent to the issuance of the approvals; and

WHEREAS, in its submission to the Board on this application, dated May 7, 2018, DOB states that the applicant fails to support the argument that their reliance on DOB's issuance of the Ground Structure Permit and Double-Sided Sign Permit was reasonable and in good faith; specifically, DOB notes that the Board granted a variance to a site that included the subject lot, thereby bringing the lot into the Board's jurisdiction, in 2002, six years prior to the demolition of the Multiple Dwelling and removal of the Original Sign; that the applicant never returned to the Board to obtain approval for the locating of the Existing Sign in its present location across lots 26 and 27, despite having previously obtained Board approval, on December 17, 2003,

to relocate an 54'-6" wide by 14 foot high advertising sign to the side of the Variance Building; that the applicant, instead, sought approval to construct a ground structure and an illuminated two-faced sign on lot 28 from DOB; that the "Job Description" in the Double-Sided Sign Permit application stated that the proposed sign was a "direct replacement for [the] sign filed under #ES 42/80"—a single-faced illuminated sign located 35 feet above grade on the wall of a building—and yet that application was accompanied by plans that, contradictorily, show an illuminated double-faced sign on a ground structure; and that the reconsideration application failed to disclose facts relevant to BC Santulli's consideration, to wit, the "Nature of Request" section of the form states, "the sign is substantially in the same location as originally but much lower," but does not include the material fact that the sign was proposed to be relocated from the corner of Second Avenue and East 37th Street, as approved by the Board on December 17, 2003, to Second Avenue and East 36th Street; and

WHEREAS, in contrast to Jayne Estates, where the Court considered the inability of the property owner to have constructive notice that the approvals they received were contrary to zoning, DOB states that the record in the subject case demonstrates that the applicant was aware of the discrepancies between applicable zoning regulations, the materials submitted to DOB and BC Santulli's approval, thus, any monies spent in reliance on the approved reconsideration and DOB's subsequent issuance of the permits was unreasonable and cannot serve as the basis of a variance on the basis of good-faith reliance; and

WHEREAS, in the course of public hearings, the Board requested additional information from the applicant to explain the locating of the Existing Sign across lots 26 and 27, despite express references in the permit applications and on the permits themselves to lot 28 and 669 Second Avenue⁸; the Board also requested clarification and identification of the materials submitted with the reconsideration application to clarify the basis of BC Santulli's approval as well as materials to support the applicant's representation that the Existing Sign is located as approved, that is, that BC Santulli's approval permitted construction of the "grandfathered" Existing Sign on lots 26 and 27, despite the Original Sign having been located on lot 28; and

WHEREAS, in response, the applicant states that at the time of filing the application for a new advertising sign, the DOB computer system would not permit the addition of lots 26 and 27 to the permits for a sign, hence the applications for the Ground Structure Permit and Double-Sided Sign Permit indicate lot 28 rather than lots 26 and 27 and, further, that the Ground Structure Permit application was

⁸ According to DOB's Buildings Information System ("BIS"), lot 28 alone is assigned an address of 669 Second Avenue; lot 26 is assigned both 663 Second Avenue and 247 East 36th Street and lot 27 is assigned 665 Second Avenue.

MINUTES

accompanied by a plan sheet, titled “Site Plan and Sign Location,” showing the sign installed across lots 26 and 27 and indicating that the “former location” of the Original Sign was lot 27, thus, the Existing Sign’s location is, in fact, as approved by DOB; and

WHEREAS, in addition, the applicant submitted an affidavit from the engineer of record for the Double-Sided Sign Permit, swearing that he attended a meeting with BC Santulli to discuss the reconsideration application on October 29, 2008, at which meeting BC Santulli was presented with plan sheets showing a double-sided advertising sign on a structure filed under “[DOB Application No.] 110179912”; the lights on the lower walkway of the structure; a section through the sign and the sign structure, again referencing the Ground Structure Permit application number; a plot plan showing a sign proposed to be located 50 feet north of the northwest corner of East 36th Street and Second Avenue; a site plan showing the existing conditions of the block and indicating an existing advertising sign located on the north exterior wall of a structure fronting Second Avenue; a plan sheet showing the elevation of the Variance Building approved by the Board; and a plan sheet indicating Board approval of the relocation of a sign to the exterior wall of the Variance Building at the southwest corner of Second Avenue and East 37th Street; and

WHEREAS, these materials appear to be the same as those filed with the Double-Sided Sign Permit application, already in the record for this application; and

WHEREAS, the affiant also provided oral testimony before the Board at its hearing, on March 19, 2018, explaining that the DOB filings for the Ground Structure Permit and Double-Sided Sign Permit made reference to several different lots on the subject block because the site was a single zoning lot and the exact location of the proposed sign on the zoning lot was irrelevant as long as there was, as stated in his approval, “no increase in [the] degree of non-compliance”; and that BC Santulli knew that the Original Sign was formally on the exterior of the Multiple Dwelling on lot 28, that the Board approved the relocation of the sign to the side of the Variance Building in 2003, that the Multiple Dwelling was being demolished and a sign was being installed at a lower height, but the affiant did not recall whether BC Santulli inquired about the proposed sign being double-sided or illuminated on two sides and whether or not such elements increased the proposed sign’s degree of non-compliance, as compared to the Original Sign, which had a single illuminated face, with applicable use regulations, contrary to ZR § 52-83; and

WHEREAS, the materials submitted to DOB in connection with the Ground Structure Permit and the Double-Sided Sign Permit are inconsistent with regards to the proposed location of the Existing Sign, including the application for the Ground Structure Permit, which was professionally certified, not subject to DOB plan exam review and filed against lot 28; the structural drawings submitted with the Ground Structure Permit application,

which were also professionally certified and, despite the application’s reference to lot 28, show a double-sided sign located across lots 26 and 27; materials submitted with the application for the Double-Sided Sign Permit and approved by DOB, which reference the sign structure filed under separate application and includes a plot plan indicating that the sign was to be located at an angle on a lot approximately 50 feet north of the intersection of East 36th Street and Second Avenue, a location that most closely identifies lot 28, located on Second Avenue approximately 49.4 feet north of its intersection with East 36th Street, not lot 26, which is located at the intersection, nor lot 27, which is located between lots 26 and 28; or the reconsideration application and supportive materials, submitted by the applicant’s representative, which curiously references lot 25, a lot with no frontage on Second Avenue, and was accompanied by the same materials submitted with the Double-Sided Sign Permit, including a Board-approved plan sheet showing an advertising sign relocated to the corner of Second Avenue and East 37th Street, a lot currently identified on the New York City Tax Map as lot 34; and

WHEREAS, additionally, while the applicant has made reference to a “Site Plan & Sign Location” plan sheet as proof that DOB considered and approved the locating of the Existing Sign on lots 26 and 27, the plan sheet is devoid of any indications that it was approved by DOB or submitted with any DOB application; this is in contrast to other plans submitted into the record by the applicant, including plans described as having accompanied the Double-Sided Sign Permit as well as the reconsideration application, which are stamped “Approved,” carry a bar code referencing the application number and have a perforated DOB approval, and structural drawings submitted with the Ground Structure Permit, which carry a bar code referencing the application number, have a perforated DOB approval and carry a DOB “Professional Certification” stamp; and

WHEREAS, such inconsistencies, the result of the way the applicant elected to submit materials to DOB, undermine both the notion that that the applicant could not have anticipated revocation of the permits and that DOB was in the best position to avoid their erroneous issuance, and, therefore, distinguish the subject case from Jayne Estates, where the owner incurred construction costs in reliance on a stipulation entered into with village trustees that was later invalidated due to the trustees’ lack of authority to enter into the stipulation, a condition that not even the village attorneys seemed to have been aware of at the time of the settlement; and Woods, where the property owner specifically requested that the plans be reviewed by a DOB plan examiner, rather than be professionally certified, DOB approved the plans, issued permits and subsequently revoked them based on a change in the agency’s interpretation of a zoning provision; and

WHEREAS, accordingly, the Board finds that the Ground Structure Permit and the Double-Sided Sign permit were both granted and later revoked based on circumstances—namely, the locating of the then-proposed

MINUTES

sign in a different location and position than the Original Sign and the failure to comply with the plans approved by the Board in connection with the Variance Building—that existed at the time of their original approval, as evidenced by the materials submitted with the Double-Sided Sign permit and later provided in support of the reconsideration application, which show an existing sign on the side of the Multiple Dwelling that formerly occupied lot 28, a proposal to relocate the sign on a ground structure on lot 28 and Board approval of a sign relocated to the wall of the Variance Building facing the southwest corner of East 37th Street and Second Avenue, as well as the structural drawings filed with the Ground Structure Permit, which, in contrast, show a double-sided sign traversing lots 26 and 27, the Existing Sign’s present location; and

WHEREAS, the Board finds that while an inquiry was made with BC Santulli in October 2008 regarding the surface area of the proposed signage and the proposal to install back-to-back advertising signs on a ground structure, the materials in the record fail to indicate that BC Santulli was informed of the circumstance that would ultimately serve as the basis for DOB’s revocation of the Ground Structure Permit and Double-Sided Sign Permit, to wit, that the proposed sign would be relocated, not only from lot 28, the location of the Original Sign, but also from the corner of Second Avenue and East 37th Street, as indicated on the Board-approved plan sheet, and appear, instead, across lots 26 and 27 at the corner of Second Avenue and East 37th Street; and

WHEREAS, the Board finds that the applicant has also failed to demonstrate that they should not have anticipated revocation of the Ground Structure Permit and the Double-Sided Sign Permit—the applicant was, in fact, in the best position to know about the inconsistencies contained in their DOB filing regarding the actual location of the Existing Sign and could have anticipated DOB’s letter dated April 30, 2010, informing the owner of DOB’s intent to revoke the Ground Structure Permit on account of its location; and

WHEREAS, in addition, as the Board stated in its determination in the Permit Revocation Appeal, “it is clear that a sign which was relocated to a different tax lot at least 27 feet away from its original setting cannot be considered to be in the ‘same location and position’ as the previously non-conforming sign, as required by ZR § 52-83”; and

WHEREAS, though the applicant undoubtedly constructed the Existing Sign and expended money to maintain the same subsequent to the issuance of the Ground Structure Permit and Double-Sided Sign Permit and prior to their revocation, as noted above, the Board is not persuaded that the applicant has established the requisite elements of good-faith reliance; and

WHEREAS, accordingly, the Board has determined that the applicant could not have relied in good faith on the reconsideration approval of BC Santulli; and

WHEREAS, because the applicant failed to establish good-faith reliance in satisfaction of ZR § 72-21, a threshold finding in the subject variance application, the Board did not

analyze the remainder of the variance findings; and

Therefore, it is Resolved, that decision on behalf of the Manhattan Borough Commissioner, dated September 26, 2016, acting on Department of Buildings (“DOB”) Application No. 122787779, is sustained and the subject application is hereby *denied*.

Adopted by the Board of Standards and Appeals, March 19, 2019.

APPLICANT – Law Office of Lyra J. Altman, for Eli Leshkowitz and Rachel Leshkowitz, owners.

SUBJECT – Application August 22, 2017 – Special Permit (§73-622) for the enlargement of an existing single family home contrary to floor area ratio and open space ratio (ZR 23-141); and less than the required rear yard (ZR 23-47). R2 zoning district.

PREMISES AFFECTED – 1367 East 24th Street, Block 7660, Lot 17, Borough of Brooklyn.

COMMUNITY BOARD #14BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated July 26, 2017, acting on DOB Application No. 321497126, reads in pertinent part:

1. Proposed plans are contrary to Zoning Resolution Section 23-141 in that the proposed floor area ratio exceeds the maximum permitted;
2. Proposed plans are contrary to Zoning Resolution Section 23-141 in that the proposed open space ratio is less than the minimum required;
3. Proposed plans are contrary to Zoning Resolution Section 23-47 in that the proposed rear yard is less than the minimum required; and

WHEREAS, this is an application under ZR § 73-622 to permit, in an R2 zoning district, the enlargement of a detached single-family dwelling that does not comply with the zoning requirements for floor area ratio (“FAR”), open space ratio and rear yards, contrary to ZR §§ 23-141 and 23-47; and

WHEREAS, a public hearing was held on this application on June 5, 2018, after due notice by publication in *The City Record*, with continued hearings on August 21, 2018, December 4, 2018, February 5, 2019, and March 19, 2019, and then to decision on that date; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of

MINUTES

the site and surrounding neighborhood; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of East 24th Street, between Avenue M and Avenue N, in an R2 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 40 feet of frontage on East 24th Street, 100 feet of depth, 4,000 square feet of lot area, and is occupied by a two- (2) story plus cellar and attic single-family dwelling containing 2,792 square feet of floor area (0.70 FAR), an open space ratio of 0.97 (2,703 square feet of open space), a front yard with a depth of 15'-11", a rear yard with a depth of 27'-1.5", two (2) side yards with widths of four (4) feet and 8'-10", and a detached one- (1) story stucco frame garage in the rear; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement*¹ of an existing *single- or two-family detached or semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage, open space, floor area, side yard, rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such

enlargement shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;

- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that this application located within an area in which the special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge a detached one-family residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant proposes to enlarge the building by vertically extending the dwelling in the front yard and rear yard and horizontally extending the dwelling into the front yard, resulting in a two- (2) story plus attic and cellar dwelling with 4,000 square feet of floor area (1.0 FAR), an open space ratio of 0.58 (2,309 square feet of open space), a front yard with a depth of 15'-11", a rear yard with a depth of 20 feet at the first story with an additional five (5) foot setback at the second story and attic level, and two (2) side yards with widths of five (5) feet and eight (8) feet; and

WHEREAS, specifically, the applicant states that the proposed enlargement would increase the floor area on the first floor from 1,297 square feet to 1,675 square feet, the second floor from 926 square feet to 1,511 square feet, and the attic from 569 square feet to 815 square feet; and

WHEREAS, at the subject site, a maximum FAR of 0.50 (2,000 square feet of floor area) is permitted, a minimum open

¹ Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

space ratio of 1.5 is required (based on district regulations permitting an as-of-right proposal containing 2,000 square feet of floor, a minimum of 3,000 square feet of open space would be required) and a rear yard with a minimum depth of 30 feet is required pursuant to ZR §§ 23-141 and 23-47; and

WHEREAS, the applicant provided an analysis of single- or two-family dwellings located within 400 feet of the subject premises within an R2 zoning district (the “Study Area”) concluding that, of the 92 qualifying residences for which calculations were provided, 65 residences (95 percent) have an FAR of greater than 0.5, ranging from 0.51 to 1.25, and ten (10) residences (11 percent) have an FAR of 1.0 or greater; and

WHEREAS, the applicant also provided an analysis of rear yard conditions on the subject block, demonstrating that, of the 30 other single- or two- (2) family dwellings located thereon, 26 lots (87 percent) have rear yards with depths of less than 30 feet with rear yards ranging in depth from 0 feet to 29’-10”, including the dwelling located to the rear of the subject site, which has a rear yard with a depth of 21 feet; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 17-BSA-023K dated August 22, 2017; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622 to permit, in an R2 zoning district, the enlargement of a one-family detached dwelling that does not comply with the zoning requirements with regards to floor area ratio, open space ratio and rear yards, contrary to ZR §§ 23-141 and 23-47; *on condition* that all work shall substantially conform to drawings as they apply to the objection above-noted, filed with this application and marked Received “February 28, 2019”-Eleven (11) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the

building: a maximum floor area ratio of 1.0 (4,000 square feet of floor area), a minimum open space ratio of 0.58 (2,309 square feet of open space) and a rear yard with a minimum depth of 20 feet at the first floor and 25 feet above the first floor as illustrated on BSA-approved plans;

THAT the removal of exterior walls and/or joists in excess of those indicated on the BSA-approved plans is prohibited and shall void the special permit;

THAT substantial construction shall be completed pursuant to ZR § 73-70;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number (“BSA Cal. No. 2017-247-BZ”) shall be obtained within four (4) years, by March 19, 2023;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 19, 2019.

2018-20-BZ

CEQR #18-BSA-097K

APPLICANT – Jay Goldstein, Esq., for Jeffrey Ackerman, owner.

SUBJECT – Application February 9, 2018 – Special Permit (§73-622) to permit the enlargement of an existing single-family home contrary to ZR §23-141 (floor area and open space) and ZR §23-461(1) (required side yard). R2 zoning district.

PREMISES AFFECTED – 2801 Avenue M, Block 7646, Lot 7, Borough of Brooklyn.

COMMUNITY BOARD #14BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta3

Negative: Chair Perlmutter and Commissioner Scibetta2

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated January 25, 2018, acting on Department of Buildings (“DOB”) Application No. 321191189, reads in pertinent part:

1. ZR 23-141 The proposed plans are contrary to the Zoning Resolution 23-141 in that the proposed floor area ratio (“FAR”) exceeds the

MINUTES

- permitted 50%;
2. ZR 23-141 The proposed plans are contrary to the Zoning Resolution 23-141 in that the open space ratio (“OSR”) is less than the required 150%;
 3. ZR 23-461(a) Plans are contrary to the Zoning Resolution 23-461(a) in that the proposed side yard is less than the required side yard 5’-0”;
- and

WHEREAS, this is an application under ZR § 73-622 to permit, in an R2 zoning district, the enlargement of a detached single-family dwelling that does not comply with the zoning requirements for floor area ratio (“FAR”), open space ratio and side yards contrary to ZR §§ 23-141 and 23-461(a); and

WHEREAS, a public hearing was held on this application on July 24, 2018, after due notice by publication in *The City Record*, with continued hearings on October 11, 2018, January 15, 2019, and March 19, 2019, and then to decision on that date; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the Board was in receipt of two (2) form letters in support of this application; and

WHEREAS, the subject site is located on the northeast corner of Avenue M and East 28th Street, in an R2 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 32.5 feet of frontage along Avenue M, 100 feet of frontage along East 28th Street, 3,250 square feet of lot area, and is occupied by a two (2) story plus cellar single-family dwelling containing 2,120 square feet of floor area (0.65 FAR), an open space ratio of 1.0 (2,111 square feet of open space), a front yard on Avenue M with a depth of ten (10) feet, a front yard on East 28th Street with a depth of 10’-1”, two (2) side yards with widths of 2’-10” and 31’ and a one- (1) story detached garage; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement*¹ of an existing *single- or two-family detached* or *semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-

BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached* or *semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building’s non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and

¹ Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that this application located within an area in which the special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge a detached one-family residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant proposes to both vertically and horizontally enlarge the building into the side yard along East 28th Street, resulting in a two- (2) story plus attic and cellar dwelling with 3,043 square feet of floor area (0.94 FAR), an open space ratio of 0.64 (1,948 square feet of open space), a front yard on Avenue M with a depth of ten (10) feet, a front yard on East 28th Street with a depth of 15 feet, two (2) side yards with widths of 2'-10" and 20' and a one- (1) story detached garage; and

WHEREAS, specifically, the applicant states that the proposed enlargement would increase the floor area on the first floor from 1,139 square feet to 1,302 square feet, the second floor from 981 square feet to 1,145 square feet, and create an attic with 596 square feet; and

WHEREAS, at the subject site, a maximum FAR of 0.50 is permitted (1,625 square feet of floor area), a minimum open space ratio of 1.5 is required (2,438 square feet of open space based on a complying floor area) and two (2) side yards, one (1) with a minimum of five (5) feet in width and one (1) with a minimum of 20 feet in width are required pursuant to ZR §§ 23-141 and 23-461(a); and

WHEREAS, the proposed enlargement includes a vertical and horizontal extension of the existing non-complying 2'-10" eastern side yard and maintains the non-complying ten (10) foot front yard on Avenue M, and the Board notes that, pursuant to a 1930 Sanborn Map including the subject site provided by the applicant, the subject site was developed with a detached dwelling in approximately the same location and orientation as the site is occupied today and, thus, the non-complying eastern side yard and front yard predated the 1961 Zoning Resolution and are legal non-compliances; and

WHEREAS, the applicant provided an analysis of single- or two-family dwellings located within 400 feet of the subject premises within an R2 zoning district (the "Study Area") concluding that, of the 98 qualifying residences, 84 residences (86 percent) have an FAR of greater than 0.5, ranging from 0.53 to 1.14, and 11 dwellings (11 percent) have an FAR greater than 0.94; and

WHEREAS, with regards to open space, the applicant proposes to decrease the non-complying existing OSR, from 1.0 to 0.64, and increase the lot coverage, from 35 percent to 40 percent; the applicant provided a lot coverage study concluding that, 27 lots (28 percent) have a lot coverage of 40 percent or greater, ranging from 40 percent to 62 percent; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, a majority of the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is

located, nor impair the future use or development of the surrounding area; and

WHEREAS, two Board Commissioners expressed concerns about the massing of the proposed attic and immediate visibility of the enlarged building from the immediately surrounding area and, accordingly, voted to deny this application on the basis that the proposal would, in fact, alter the essential character of the neighborhood; and

WHEREAS, nevertheless, a majority of the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA097K, dated February 8, 2018; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622 to permit, in an R2 zoning district, the enlargement of a one- (1) family detached dwelling that does not comply with the zoning requirements with regards to floor area ratio, open space ratio and side yards, contrary to ZR §§ 23-141 and 23-461(a); *on condition* that all work shall substantially conform to drawings as they apply to the objection above-noted, filed with this application and marked Received "March 1, 2019"-Seventeen (17) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area ratio of 0.94 (3,043 square feet of floor area), a minimum open space ratio of 0.64 (1,948 square feet of open space), a front yard along Avenue M with a minimum depth of ten (10) feet, and two (2) side yards with minimum widths of 20 feet and 2'-10" as illustrated on BSA-approved plans;

THAT the removal of exterior walls and/or joists in excess of those indicated on the BSA-approved plans is prohibited and shall void the special permit;

THAT substantial construction shall be completed pursuant to ZR § 73-70;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number ("BSA Cal. No. 2018-20-BZ") shall be obtained within four (4) years, by March 19, 2023;

THAT this approval is limited to the relief granted by

MINUTES

the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

COMMUNITY BOARD #7BX

Carlo Costanza, Executive Director

MINUTES

**REGULAR MEETING
TUESDAY MORNING, MARCH 26, 2019
10:00 A.M.**

Present: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.

SPECIAL ORDER CALENDARS

103-79-BZ

APPLICANT – Akerman, LLP, for The 1989 Anthony Denicker Trust, owner.

SUBJECT – Application March 27, 2018 – Amendment of a previously approved Variance (§72-21) which permitted the development of a two-family residence contrary to side yard requirements. The amendment seeks to modify the Board’s prior approval to allow a conversion of the building from a two-family residence to a three-family residence contrary to ZR §23-49 and to request a termination of a Board condition that required a recorded declaration describing the use of the site as a two-family residence. R5 zoning district.

PREMISES AFFECTED – 25-30 44th Street, Block 702, Lot 56, Borough of Queens.

COMMUNITY BOARD #1Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for an amendment of a variance, previously granted pursuant to ZR § 72-21, to eliminate conditions of that approval and permit occupancy of a building, previously limited to two families, by three families; and

WHEREAS, a public hearing was held on this application on August 7, 2018, after due notice by publication in *The City Record*, with continued hearings on October 23, 2018, February 5, 2019, March 26, 2019, and then to decision on March 26, 2019; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the west side of 44th Street, between 25th Avenue and 28th Avenue, in an R5 zoning district, in Queens; and

WHEREAS, the site has approximately 25 feet of frontage along 44th Street, a depth of 100 feet, 2,500 square feet of lot area and is occupied by a semi-detached two-story plus basement three-family residence; and

WHEREAS, the Board has exercised jurisdiction over the subject site since June 19, 1979, when, under the subject

calendar number, the Board granted a variance to permit the construction of a two-story plus basement, two-family dwelling that encroached on the required side yard, contrary to ZR § 23-462, on condition that all work substantially conform to drawings as they apply to the objection filed with the application; a deed restriction limiting the occupancy to a two-family dwelling be filed and submitted to the Building Department prior to the issuance of a building permit; the Certificate of Occupancy indicate the libre, page and date of recording of said covenant; and that all laws, rules and regulations applicable be complied with, and that substantial construction be completed within one year from the date of the resolution (the “1979 Variance”); and

WHEREAS, a Declaration dated July 5, 1979, was recorded against the subject tax lot with the Office of City Register, Queens County, at Reel 1180, Page 748, describing the dwelling to be constructed as two-stories and two-family, with the ground floor basement “used in conjunction with the first-floor apartment” (the “Deed Restriction”); and

WHEREAS, Certificate of Occupancy No. 195655 indicating a two-family dwelling at the premises and, in the area titled “Limitations or Restrictions,” that the property was restricted by the subject calendar number as well as the Deed Restriction, recorded at Reel 1180, Page 748, was issued on July 28, 1980 (the “1980 CO”); and

WHEREAS, on August 25, 2003, Certificate of Occupancy No. 401501264 was issued to the premises, indicating one-family residence at each of the basement, first and second floor levels, for a total of three-families, and, in the area titled “Limitations or Restrictions,” reported, “NONE” (the “2003 CO”); and

WHEREAS, by application filed on May 5, 2017, under BSA Cal. No. 2017-144-A, the New York City Department of Buildings (“DOB”) seeks revocation of the 2003 CO because it does not comply with the 1979 Variance (the “DOB Appeal”); and

WHEREAS, this application for an amendment of the 1979 variance was filed on March 28, 2018; and

WHEREAS, the two cases were, thereafter, heard together, but while the subject case was decided on March 26, 2019, the DOB Appeal remains at the Board pending the applicant’s satisfactory compliance with the conditions of this resolution, further explained below; and

WHEREAS, this application seeks an amendment to the conditions of the 1979 Variance—specifically, the removal of the limitation on the permitted occupancy of the subject premises to two-family dwelling and the termination of the deed restriction—to legalize the occupancy of the subject building as a three-family residence; and

WHEREAS, the applicant notes that a semi-detached three-family residence is permitted at the subject site as-of-right pursuant to ZR § 22-12 and that one side yard with a minimum width of eight (8) feet would be required for either a two-family semi-detached dwelling or other buildings containing residences in an R5 zoning district pursuant to ZR §§ 23-461(b), ZR § 23-462 and 23-49, thus the

MINUTES

requested amendment would not increase the degree to which the four (4) foot wide side yard does not comply with the Zoning Resolution; and

WHEREAS, the applicant states that, apart from the non-compliant side yard, the building otherwise complies in all respects with the applicable use and bulk regulations for the subject zoning district; and

WHEREAS, the Board inquired regarding the compliance of the third residential unit located in the lowest level of the existing building with the Multiple Dwelling Law; and

WHEREAS, by letter dated January 25, 2019, the Fire Department stated that it objected to the application as filed and that, due to the construction classification of the subject building as combustible construction with a designation of IIB, the Fire Department recommends that the applicant be required to provide the following fire and life safety systems: (1) the stairway, soffit of stairs and public hallways providing required means of egress be enclosed and separated from the rest of the building by non-combustible construction having at least two-hour fire-resisting rating meeting the requirements of Section BC 1022 of the 2014 New York City Building Code and Section 170-a.3 of the Multiple Dwelling Law; (2) no door opening be permitted from a garage within the building to the stair hall or public hall, as described in Section 170-a.5 of the Multiple Dwelling Law; (3) the boiler room and furnaces be enclosed and separated from the rest of the building by non-combustible construction having at least a one-hour fire-resistance rating meeting the requirements of Section BC703 of the 2014 New York City Building Code; (4) an automatic sprinkler system that meets the construction requirements of Section BC903 of the 2014 New York City Building Code be installed throughout the building; (5) the proposed dwelling unit contains smoke and carbon monoxide alarms meeting the requirements of Chapter 9 of the 2014 New York City Building Code; (6) all sleeping rooms in the proposed dwelling unit have at least one exterior emergency escape and rescue opening meeting the construction requirements of Section BC1029 of the 2014 New York City Building Code and Section FC1025 of the New York City Fire Code; (7) the Fire Safety and Emergency Preparedness Guide and Bulletins required by Fire Department rule 3 RCNY Section 401-06 be distributed to apartment building residents and staff and the Fire Safety Notice required by that section be installed on the back (inside) of each apartment door in compliance with Fire Code Section 401.6; (8) all fire protection systems and equipment be subject to all required inspection, testing and maintenance in accordance with the New York City Fire Code and Fire Department rules; and (9) storage of combustible materials be prohibited in the boiler room and meter room; and

WHEREAS, the Fire Department further stated that, if the applicant agreed to these recommendation, they are incorporated into revised plans and all issues have been addressed, the department would review the revised plans and issue a Letter of No Objection; and

WHEREAS, while the Board observed that alterations to the building as recommended in the Fire Department's letter would be costly, the Board requested, at the February 5, 2019, hearing, that all work be completed prior to a vote on this application based on the property owner's history of non-compliance with the conditions limiting the occupancy of the building to a two-family and the conversion and occupancy of the building as three-family, contrary to the 1979 variance grant, since at least 2003; and

WHEREAS, in response, the applicant averred that the 2014 New York City Building Code and Multiple Dwelling Law are not applicable because the existing building was constructed in compliance with the 1968 New York City Building Code; and

WHEREAS, the Board notes that, in its review of the subject application, the agency has not been asked to interpret or determine applicability of the Building Code or Multiple Dwelling Law to the subject building; accordingly, the Board has relied on the Fire Department's determination regarding the conditions necessary to ensure safe occupancy of the dwelling unit located in the basement of the existing building; and

WHEREAS, at hearing, the Board inquired as to whether DOB would issue permits allowing the property owner to complete the work recommended by the Fire Department permit prior to an approval of this application by the Board; and

WHEREAS, the Board requested, and the applicant provided a revised set of proposed plans indicating all fire protection measures currently existing in the building as well as identifying alterations necessary to comply with the recommendations set forth in the Fire Department's January letter (the "February 13 Revised Plans"); and

WHEREAS, by letter dated February 14, 2019, the Fire Department reported that it was in receipt of the February 13 Revised Plans; attached a set of marked up plans of notes to be added and deleted, along with a request for a section through the window at the rear basement apartment to verify that the dimensions are in compliance with Section BC1029 of the 2014 New York City Building Code; and requested changes to the plans consistent with the marked up plans; and

WHEREAS, by letter dated March 5, 2019, DOB stated that the agency had completed a preliminary review of the February 13 Revised Plans and advised that the applicant proceed with filing the proposed work under the currently disapproved Alteration Type 1 Job No. 421605971 or file as a separate Alteration Type 2 application; if the February 13 Revised Plans comply with all applicable laws, they will be approved and the applicant may proceed to permit without needing to wait for the variance to be granted; however, DOB will not withdraw the DOB Appeal until the Board grants the amendment to the variance and an amended certificate of occupancy has been issued to reflect three-family occupancy; and

WHEREAS, the applicant subsequently revised the February 13 Revised Plans to reflect all comments received

MINUTES

from the Fire Department, including those in the department's February letter, except for a notation referencing 2014 BC Section 1029 because DOB confirmed that compliance with this section was not required (the "March 22 Revised Plans"); and

WHEREAS, by letter dated March 26, 2019, the Fire Department stated that is in receipt of the March 22 Revised Plans, found the same to be in compliance with the department's letter of January 25, 2019, and Local Law 49 of 2019 and, accordingly, issued a Letter of No Objection, reserving the right to perform periodic inspections to verify compliance with the March 22 Revised Plans and, in the event of non-compliance, request a compliance hearing before the Board; and

WHEREAS, in consideration of DOB's request to keep the DOB Appeal pending and the Fire Department's periodic inspection of the premises, the applicant requested that the Board vote on the pending application, prior to the commencement of construction; and

WHEREAS, the Board agreed to grant the application and amend the variance as requested on condition that the property owner aggressively and lawfully undertake all the construction deemed necessary by the Fire Department to ensure safe occupancy of the third dwelling unit located in the basement; specifically, the Board conditions its approval of the amendment on significant progress having been made on completing construction at the premises in conformance with the March 22 Revised Plans within six (6) months; and

WHEREAS, in the case that substantial progress, as determined by inspections by DOB and the Fire Department, has not been made, the Board will revoke the subject variance amendment grant and grant the DOB Appeal; and

WHEREAS, the Board received several written submissions and oral testimony at hearing from a neighbor and resident of adjacent tax lot 55, located immediately northeast of the subject site, complaining that Board and the owner of the subject property have failed to recognize an easement along the lot line shared by the two adjacent tax lots that would allow the neighbor to access a garage located at the rear of tax lot 55; that the subject site was unlawfully converted to and occupied as a three-family dwelling; and requesting that the Board deny the application to amend the variance and grant the DOB Appeal; and

WHEREAS, the Board notes that the plans approved in connection with the 1979 variance indicate, along the property's northeastern property line shared with tax lot 55, a 3'-5" wide easement, running from the front lot line to a depth of 80 feet, on the subject tax lot within the four (4) foot wide side yard permitted by the variance; and

WHEREAS, with regards to the neighbor's contention that the conversion of the building from a two-family dwelling to a three-family dwelling was unlawful, the applicant notes that the building was converted pursuant to a DOB Alteration Type 1 Permit issued on November 19, 2002, upon submission of a professionally certified application; and

WHEREAS, based on the foregoing, the Board finds

that the requested modifications to the variances are appropriate with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated June 19, 1979, so that, as amended, this portion of the resolution reads: "to permit three-family occupancy in the existing building; to eliminate the condition that a deed restricting limiting the occupancy to a two-family dwelling be filed and submitted to the Department of Buildings prior to the issuance of a building permit; to eliminate the condition that the Certificate of Occupancy indicate the libre, page and date of recording of said covenant; and *on further condition*:

THAT all work and site conditions shall conform to drawings filed with this application, dated March 22, 2019 (marked "Received March 27, 2019")—Six (6) sheets;

THAT the applicant shall submit the drawings for full plan review by the Department of Buildings and shall not file, or obtain permits to perform construction in conformance with them, pursuant to Directive 14 of 1975;

THAT the applicant shall make substantial progress, as determined by inspections of the premises by the Department of Buildings and the Fire Department, within six (6) months of this conditional approval, by September 26, 2019, or the Board shall revoke this amendment;

THAT a revised certificate of occupancy, indicating this approval and calendar number ("BSA Cal. No. 103-79-BZ") be obtained within one (1) year;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, March 26, 2019.

813-87-BZ

APPLICANT – Law Office of Fredrick A. Becker, for 110 BP Property LLC, c/o Hidrock Properties, owners; TSI Cobble Hill LLC dba New York Sports Club, lessee

SUBJECT – Application August 28, 2013 – Extension of Term of a previously approved special permit (§73-36) permitting the operation of a Physical Culture Establishment (New York Sports Club) which expired on April 12, 2018; Amendment to request a change in hours of operation; Waiver of the Rules. C2-3 (R6) zoning district.

MINUTES

Commissioner Scibetta.....5
Negative:0
THE RESOLUTION –

WHEREAS, this is an application for a reopening, a waiver of the Board’s Rules of Practice and Procedure, an extension of term of a special permit for a physical culture establishment (“PCE”), previously granted pursuant to ZR § 73-36, which expired on April 12, 2018, and the amendment of the same; and

WHEREAS, a public hearing was held on this application on January 29, 2019, after due notice by publication in *The City Record*, with a continued hearing on February 26, 2019, and then to decision on March 26, 2019; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 2, Brooklyn, waived its recommendation of this application; and

WHEREAS, the subject site is located on the northwest corner of Boerum Place and Dean Street, partially in an R6B (C2-4) zoning district and partially in a R6A (C2-4) zoning district, in Brooklyn; and

WHEREAS, the site has approximately 136 feet of frontage along Boerum Place, 100 feet of frontage along Dean Street, 14,250 square feet of lot area and is occupied by a two- (2) story mixed-use residential and commercial building; and

WHEREAS, the subject PCE is located within portions of the first floor (14,250 square feet of floor area) mezzanine (1,100 square feet of floor area) and rooftop of the subject building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since April 12, 1988, when, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-36, to legalize, in a then R6 (C2-3) zoning district, a PCE, operated as Cobble Hill Racquet and Fitness Club on the first floor and mezzanine of an existing two- (2) story building, on condition that all work substantially conform to drawings, as they apply to the objection filed with the application; the special permit be limited to a term of ten (10) years, expiring April 12, 1998; the owner comply with the condition set forth in the conditional negative declaration; the hours of operation be limited to 7:00 a.m. to 11:00 p.m.; there be no change in the ownership or operating control of the PCE without prior application to and approval from the Board; the conditions appear on the certificate of occupancy; the development, as approved, be subject to verification by the Department of Buildings (“DOB”) for compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under the jurisdiction of the Department; and, substantial construction be completed in accordance with ZR § 73-70, by April 12, 1992; and

WHEREAS, on September 15, 1998, under the subject calendar number, the Board reopened and amended the resolution to extend the term of the special permit for ten

(10) years, expiring April 12, 2008, on condition that the premises be maintained in substantial compliance with the proposed drawings submitted with the application; the hours of operation be limited to 7:00 a.m. to 11:00 p.m.; there be no change in ownership or operating control of the PCE without prior approval of the Board; roof top ventilation and air conditioning systems be pointed away from adjacent residential uses; other than as amended the resolution be complied with in all respects; and, a new certificate of occupancy be obtained within one (1) year, by September 15, 1999; and

WHEREAS, on March 23, 2010, under the subject calendar number, the Board waived its Rules of Practice and Procedure, reopened and further amended the resolution to extend the term of the special permit for ten (10) years, to expire April 12, 2018, for a PCE now operated as New York Sports Club on the first floor, mezzanine level and roof, and operated in conjunction with a PCE located within the adjacent two- (2) story building located at 96 Boerum Place and subject to a Board approval under BSA Cal. No. 266-04-BZ, on condition that any and all use substantially conform to drawings, as they apply to the objection, filed with the application; there be no change in ownership or operating control of the PCE without prior approval from the Board; the conditions appear on the certificate of occupancy; the applicant obtain a new certificate of occupancy, which reflects the rooftop tennis bubble use, by March 23, 2011; DOB review the use of the rooftop and the tennis bubble for compliance with relevant regulations, prior to the issuance of a certificate of occupancy; a certificate of occupancy be obtained within one (1) year by March 23, 2011; all conditions from prior resolutions not specifically waived by the Board remain in effect; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and the DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted; and

WHEREAS, the term of the special permit having expired, the applicant requests the subject relief; and

WHEREAS, the applicant additionally requests a waiver, pursuant to § 1-14.2 of the Board’s Rules of Practice and Procedure, of Rule § 1-07.3(b)(2) to permit the filing of this application less than two (2) years after the expiration of the term of the special permit; and

WHEREAS, the applicant also requests an amendment to reflect a change in the hours of operation of the PCE to the following: Monday through Thursday, 5:30 a.m. to 11:00 p.m.; Friday, 5:30 a.m. to 10:00 p.m.; and Saturday and Sunday, 8:00 a.m. to 8:00 p.m.; and

WHEREAS, the applicant represents that no changes to the operator (New York Sports Club) or operation of the PCE are proposed, other than the subject amendment; and

WHEREAS, by letter dated January 17, 2019, the Fire Department states that the Fire Department Bureau’s

MINUTES

Licensed Public Place of Assembly (“LPPA”) unit performed an inspection on December 26, 2018, and violations were issued for failure to maintain the fire alarm system; at the time of inspection, the fire alarm panel showed a trouble signal in the system; in addition, FDNY repeat summonses were issued for failure to provide records and certificates of fitness for the fire alarm and sprinkler systems; the fire alarm and sprinkler systems were tested satisfactorily to Department standards, with the exception of maintenance records not being provided; and, the Fire Department has no objection to the Board rendering a decision on the subject application, as the Bureau of Fire Prevention will continue to inspect these premises and enforce any outstanding violation orders; and

WHEREAS, at hearing, the Board expressed concerns regarding the adequacy of notice of the public hearing on this application to residential tenants of the building due to the lack of evidence as to the posted location of the notice and the inclusion of an incorrect hearing date on the notice; and

WHEREAS, in response, the Board adjourned the hearing to conform to the date to which the notice referred—March 26, 2019—on which date no members of the public appeared to speak on the application and the applicant provided clearer photographic proof that the notice was posted in the proper location in the lobby of the subject building; and

WHEREAS, pursuant to ZR § 73-03(f), the applicant has satisfactorily demonstrated compliance with the conditions of the previous term and the Board finds that the circumstances warranting the original grant still obtain; and

WHEREAS, accordingly, the Board finds that an extension of term of the special permit and the subject amendment to reflect new hours of operation of the PCE are appropriate with the conditions set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* Rule § 1-07.3(b)(2) of its Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated April 12, 1988, as amended through March 23, 2010, so that, as further amended, this portion of the resolution reads: “to permit an extension of term of the special permit, to expire on April 12, 2028, *on condition* that the use and operation of the site shall conform to drawings filed with this application marked “Received August 28, 2018-Four (4) sheets; and *on further condition*:

THAT the term of this grant shall expire on April 12, 2028;

THAT the hours of operation shall be limited to the following: Monday through Thursday, 5:30 a.m. to 11:00 p.m.; Friday, 5:30 a.m. to 10:00 p.m.; and Saturday and Sunday, 8:00 a.m. to 8:00 p.m.;

THAT there shall be no change in ownership or operating control of the PCE without prior approval from the Board;

THAT minimum three (3) foot wide exit pathways to required exits shall always be maintained unobstructed, including that from any gymnasium equipment;

THAT sprinklers and interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, connection of the interior fire alarm and sprinklers to a FDNY-approved central station—shall be maintained throughout the PCE space as indicated on the Board-approved plans;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a revised certificate of occupancy, also indicating this approval and calendar number (“BSA Cal. No. 813-87-BZ”) shall be obtained within one (1) year, by March 26, 2020;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, March 26, 2019.

189-08-BZ

APPLICANT – Law Office of Fredrick A. Becker, for Broadway Mercer Associates, owner; TSI Mercer Street, LLC dba New York Sports Club, lessee.

SUBJECT – Application December 13, 2018 – Extension of Term of a previously approved Special Permit (§73-36) which permitted the legalization of a Physical Culture Establishment (New York Sports Club) in the cellar, first and second floors in the six-story mixed-use building which expired on November 18, 2018. C6-2 NOHO Historic District.

PREMISES AFFECTED – 232 Mercer Street, Block 532, Lot 15, Borough of Manhattan.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5
Negative:0

THE RESOLUTION –

WHEREAS, this is an application for an extension of the term of a special permit for a physical culture establishment (“PCE”), previously granted by the Board pursuant to ZR § 73-36, which expired on November 18, 2018; and

MINUTES

WHEREAS, a public hearing was held on this application on February 12, 2019, after due notice by publication in *The City Record*, with a continued hearing on March 26, 2019, and then to decision on that date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 2, Manhattan, waived its recommendation of this application; and

WHEREAS, the subject site is a through lot bound by Mercer Street to the west and Broadway to the east, between Bleecker Street and West 3rd Street, in C6-2 zoning district and in the NoHo Historic District, in Manhattan; and

WHEREAS, the site has approximately 75 feet of frontage on each Mercer Street and Broadway, 200 feet of depth, approximately 15,000 square feet of lot area, and is occupied by two (2) buildings: an eight- (8) story mixed-use commercial and residential building and a twelve-story commercial building; and

WHEREAS, the subject PCE is located within portions of the cellar (5,676 square feet of floor space), first floor (4,610 square feet of floor area) and second floor (15,000 square feet of floor area) of the subject buildings; and

WHEREAS, the Board has exercised jurisdiction over the subject site since February 2, 1999 when, under BSA Cal. No. 7-97-BZ, the Board granted a special permit, pursuant to ZR § 73-36, to legalize an existing PCE in the cellar level, first and second floors of the subject premises, on condition that all work substantially conform to drawings, as they apply to the objection, filed with the application; there be no change in ownership or operating control of the PCE without prior application to and approval from the Board; fire prevention measures be maintained in accordance with BSA-approved plans; the premises remain graffiti free at all times; all signage comply with the Zoning Resolution; the above conditions appear on the certificate of occupancy; the development, as approved, be subject to verification by the Department of Buildings (“DOB”) for compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under the jurisdiction of the Department; the term of the special permit be for ten (10) years commencing February 29, 1996, expiring February 28, 2006; and, a new certificate of occupancy be obtained within one (1) year, by February 2, 2000; and

WHEREAS, by letter in 2005, the Board modified the original grant to allow a small enlargement of the previously improved space; and

WHEREAS, on November 18, 2008, under the subject calendar number, the Board granted a new special permit, pursuant to ZR § 73-36, to legalize the existing PCE, operating as “New York Sports Club,” in portions of the cellar level (5,676 square feet of floor space), first floor (4,610 square feet of floor area) and second floor (15,000 square feet of floor area) of the subject site on condition that all work substantially conform to drawings filed with the application; the term of the grant expire on November 18, 2018; there be no change in ownership or operating control

of the PCE without prior application to and approval from the Board; all massages be performed by New York State licensed massage therapists; the above conditions appear on the certificate of occupancy; Local Law 58/87 compliance be as reviewed and approved by DOB; fire safety measures be installed and/or maintained as shown on the Board-approved plans; prior to the issuance of any permits, the Department of Buildings review the floor area and location of the PCE for compliance with all relevant commercial use regulations; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); the approved plans be considered approved only for the portions related to the specific relief granted; and the DOB ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, the previous term of the special permit having expired, the applicant requests the subject relief; and

WHEREAS, the applicant represents that there has been no change in ownership or operation and that the subject PCE continues to operate as New York Sports Club; massages continue to be performed only by New York State licensed massage therapists, and the hours of operation have been limited by one (1) hour on Friday and Saturday and are now as follows: 5:00 a.m. to 11:00 p.m. Monday through Thursday, 5:00 a.m. to 9:00 p.m. Friday, 6:00 a.m. to 9:00 p.m. Saturday, and 7:00 a.m. to 8:00 p.m. Sunday; and

WHEREAS, the applicant represents that an approved sprinkler system and interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, connection of the interior fire alarm and sprinklers to a FDNY-approved central station—are maintained throughout the PCE space; and

WHEREAS, by letter dated March 14, 2019, the Fire Department states that an inspection was performed on February 12, 2019, by the Bureau’s Licensed Public Place of Assembly (“LPPA”) unit and a violation order (E552535) was issued for failure to obtain a certificate of operation for the public assembly space; that the fire alarm, standpipe and sprinkler systems were inspected and tested satisfactory to the Department, and they have no objection to the Board rendering a decision on the application as the Bureau of Fire Prevention will continue to inspect these premises and enforce all outstanding violation orders; and

WHEREAS, over the course of hearings, the Board raised concerns regarding approval of two (2) sets of banners and poles located on the Mercer Street façade of the premises, by the New York City Landmarks Preservation Commission (“LPC”); and

WHEREAS, in response, the applicant provided an LPC Certificate of Appropriateness, dated December 13, 2012 (“COFA 13-8935”), as well as the LPC-approved plans, dated November 27, 2012, confirming LPC’s approval of those banners; and

WHEREAS, pursuant to ZR § 73-03(f), the applicant

MINUTES

has satisfactorily demonstrated compliance with the conditions of the previous term and the Board finds that the circumstances warranting the original grant still obtain; and

WHEREAS, accordingly, the Board finds that a ten (10) year extension of the term of the special permit is appropriate, with the conditions set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *amends* the resolution, dated November 18, 2008, so that, as amended, this portion of the resolution reads: “to grant an extension term for ten (10) years, to expire on November 18, 2028, *on condition* that the use and operation of the site shall conform to drawings filed with this application marked ‘Received February 11, 2019’-Six (6) sheets; and *on further condition*:

THAT the term of this grant shall expire on November 18, 2028;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT all massages shall be performed by New York State licensed massage therapists;

THAT minimum three (3) foot wide exit pathways to required exits shall always be maintained unobstructed, including that from any gymnasium equipment;

THAT sprinklers and interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, connection of the interior fire alarm and sprinklers to a FDNY-approved central station—shall be maintained throughout the PCE space as indicated on the Board-approved plans;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number (“BSA Cal. No. 189-08-BZ”) shall be obtained within one (1) year, by March 26, 2020;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, March 26, 2019.

161-11-A

APPLICANT – Amelia Arcamone-Makinano, for Britton Property, Inc., owner; Yung Cheng Chou, President, lessee. SUBJECT – Application August 13, 2018 – Request for a Reargument and Rehearing pursuant to §§ 1-12.4 and 1-12.5 of the Board’s Rules of Practice and Procedure.

PREMISES AFFECTED – 82-20 Britton Avenue, Block 1517, Lot 3, Borough of Queens.

COMMUNITY BOARD #4Q

ACTION OF THE BOARD – Request for re-argument denied.

THE VOTE TO GRANT –

Affirmative:0

Negative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and requests for reargument and rehearing of an appeal previously granted by the Board; and

WHEREAS, this application has been filed by an adjacent property owner at 82-22 Britton Avenue, Queens (Block 1517, Lot 5); and

WHEREAS, a public hearing was held on this application on March 26, 2019, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, Vice-Chair Chanda performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the east side of Britton Avenue, between Broadway and Layton Street, in an R7B zoning district, in Queens; and

WHEREAS, the subject site has approximately 25 feet of frontage along Britton Avenue, 100 feet of depth, 2,500 square feet of lot area and is occupied by a six-story, with cellar, mixed-use community-facility and residential building; and

WHEREAS, the adjacent site located at 82-22 Britton Avenue, Queens (Block 1517, Lot 5), is immediately north of the subject site; and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 4, 2012, when, under the subject calendar number, the Board granted an appeal to the extent of reversing the permit revocation and stop work order issued by the Department of Buildings (“DOB”) that were based on an outstanding question of owner’s authorization; however, the Board did not direct DOB to eliminate its objections or to issue a certificate of occupancy; and

WHEREAS, in *Arcamone-Makinano v. New York City Dep’t of Bldgs.*, No. 14007/12 (April 8, 2013), the Supreme Court of the State of New York held that the adjacent property owner failed to “file a complaint with the DOB with respect to any of the temporary Certificates of Occupancy, and thus failed to exhaust their administrative remedies,” and that the adjacent property owner was “untimely” in challenging the Board’s determination of the

MINUTES

subject appeal; and

WHEREAS, DOB issued a certificate of occupancy for the subject building on March 18, 2016; and

WHEREAS, the adjacent property owner, the property owner and DOB have submitted testimony on this application; and

ADJACENT PROPERTY OWNER'S POSITION

WHEREAS, the adjacent property owner now seeks a waiver of the Board's Rules of Practice and Procedure and requests reargument and rehearing of the subject appeal; and

WHEREAS, the adjacent property owner states that, in accordance with Section 1-12.5 of the Board's Rules, there is "substantial new evidence . . . that was not available at the time of the initial hearing" that speaks to the following: authorization to perform construction on the adjacent property owner's property; the resulting damage to the adjacent site; the amount of encroachment; and unlawful trespass; and

WHEREAS, the adjacent property owner notes that she did not appeal the Board's resolution issued under the subject calendar number because of pending litigation with the property owner; and

WHEREAS, the adjacent property owner states that subsequent court decisions against the property owner demonstrate that I-beams, a roof cap and brick façade all encroach from the subject site onto the adjacent site; that the adjacent property owner's walkway suffered construction damage, including holes and depressions; and that this construction-related damage worsened water damage to the adjacent site; and

WHEREAS, the adjacent property owner states that the above facts were neither "available nor submitted" during the Board's consideration of the subject appeal; and

WHEREAS, it appears that the adjacent property owner makes no representations with respect to the standards applicable to requests for reargument under Section 1-12.4 or provides any explanation as to why a waiver of the Board's Rules would be necessary or appropriate; and

WHEREAS, accordingly, the adjacent property owner submits that this application should be granted; and

PROPERTY OWNER'S POSITION

WHEREAS, in response to the filing of this application, the property owner of the subject site states that construction of the subject building was substantially complete by September 2009; and

WHEREAS, the property owner submits that issues raised by the adjacent property owner in this application are moot because there is no new evidence that would warrant reopening this appeal and because the subject building was completed in 2016 and has been occupied since that time; and

WHEREAS, the property owner notes that, because the subject building is complete, no further work under the building permits is required, so the Board's rehearing its decision to "rescind revocation of building permits" would have no practical effect because work on the subject

building was already completed pursuant to building permits, and the subject building's certificate of occupancy indicates that work was completed in accordance with all applicable laws; and

WHEREAS, the property owner states that all issues presented by the adjacent property owner in this application have been fully considered and resolved in private litigation; and

WHEREAS, the property owner states that the Board should not grant reargument under Section 1-12.4 of the Board's Rules because the Board did not misapprehend any facts or misapply any legal principles; and

WHEREAS, the property owner states that the Board should not grant rehearing under Section 1-12.5 of the Board's Rules because, rather than being "denied, dismissed, or withdrawn with prejudice," the subject appeal was granted; and

WHEREAS, the property owner further states that waiver of the Board's Rules of Practice and Procedure would not be appropriate because the adjacent property owner fails to allege any basis for such a waiver; and

WHEREAS, the property owner notes that the adjacent property owner presents no new evidence in this application because every fact relevant to the subject appeal was readily available for presentation at hearing during the pendency of the subject appeal; and

WHEREAS, accordingly, the property owner submits that this application should be denied; and

DOB'S POSITION

WHEREAS, DOB states that it takes no position on this application; and

WHEREAS, DOB states that, if the Board reopens the subject appeal and finds the building permits issued in error and subject to revocation, the certificate of occupancy for the subject building was also issued pursuant to said permits; and

WHEREAS, DOB has not filed an application with the Board for revocation of the certificate of occupancy for the subject building; and

DISCUSSION

WHEREAS, at the outset, the Board notes that, since a certificate of occupancy has been issued for the subject building, there is no outstanding work that would be required to be performed pursuant to the building permits the Board considered in the subject appeal; and

WHEREAS, additionally, no application has been filed by DOB for revocation of the certificate of occupancy for the subject building; and

WHEREAS, the Board finds no basis in the record to conclude that it "misapprehended the relevant facts or misapplied any controlling principles of law" in rendering its decision in the subject appeal under Section 1-12.4 of the Board's Rules; and

WHEREAS, rather, the Board's resolution makes clear that four commissioners performed inspections of the site and surrounding area and that Board fully considered evidence submitted and arguments made by all parties—

MINUTES

including the issues of encroachments and owner’s authorizations under the New York City Building Code; and

WHEREAS, notably, the Board found that DOB’s issuance of a stop work order and permit revocation for a substantially complete building—where no further work was being performed—was unnecessary and unreasonable under the circumstances; and

WHEREAS, the Board also took no position as to the meaning of a Side Yard Agreement—which was the subject of private litigation presented by the adjacent property owner in this application and which did not form the basis of the Board’s decision in the subject appeal; and

WHEREAS, the Board finds Section 1-12.5 of the Board’s Rules inapplicable to this application because the subject appeal was granted and was not “denied, dismissed, or withdrawn with prejudice”; and

WHEREAS, furthermore, the Board finds no basis to conclude that the adjacent property owner’s submission of court decisions constitutes “substantial new evidence . . . that was not available at the time of the initial hearing” or “a material change in plans or circumstances”; and

WHEREAS, instead, the Board notes that it considered the issues of encroachments and owner’s authorizations in the subject appeal, that work on the subject building was already substantially complete and that the Board specifically did not direct DOB to eliminate its objections or to issue any certificate of occupancy for the subject building; and

WHEREAS, the Board also notes that all work on the subject building is complete, a certificate of occupancy has been issued, the building has been occupied for years and DOB has not filed an application for revocation of the subject building’s certificate of occupancy, which is not before the Board in this application; and

WHEREAS, the Board finds no basis to conclude that any waiver of the Board’s Rules of Practice and Procedure is appropriate for this application; and

CONCLUSION

WHEREAS, based upon its review of the record and inspection of the site and surrounding area, the Board has determined that the requested waiver of the Board’s Rules of Practice and Procedure and requests for rehearing and reargument are not appropriate and that the adjacent property owner has not substantiated a basis to warrant exercise of discretion.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *deny* this application.

Adopted by the Board of Standards and Appeals, March 26, 2019.

150-14-BZ

APPLICANT – Law Office of Fredrick A. Becker, for 30 Broad Street Venture LLC, owner; TSI 30 Broad Street LLC dba New York Sports Club, lessee.

SUBJECT – Application July 13, 2016 – Amendment of a previously approved Special Permit (§73-36) permitting the operation of a physical culture establishment (New York Sports Club) in portions of the second floor and second floor mezzanine with an entrance at the ground level. The amendment seeks to enlarge the establishment into a portion of the sub-cellar and reflect a change in the operator. C5-5 zoning district.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for the amendment of a special permit for a physical culture establishment (“PCE”), previously granted pursuant to ZR § 73-36, to legalize an enlargement in floor area and permit a change in operator; and

WHEREAS, a public hearing was held on this application on February 12, 2019, after due notice by publication in *The City Record*, with a continued hearing on March 26, 2019, and then to decision on that date; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 1, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the southeast corner of Broad Street and Exchange Place, in a C5-5 zoning district and in the Special Lower Manhattan District, in Manhattan; and

WHEREAS, the site has approximately 88 feet of frontage along Broad Street (an individual landmark street located within the Street Plan of New Amsterdam and Colonial New York), 150 feet of frontage along Exchange Place, 88 feet of frontage along New Street, 12,778 square feet of lot area and is occupied by a 48-story commercial building; and

WHEREAS, the subject PCE is located within portions of the sub-cellar (9,340 square feet of floor space) first floor (615 square feet of floor area), second floor (10,494 square feet of floor area) and second floor mezzanine (4,697 square feet of floor area) of the subject building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since November 18, 2014, when, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-36, to permit the operation of a PCE, operated as BFX Studio, in portions of the first floor (615

MINUTES

square feet of floor area), second floor (10,494 square feet of floor area) and second floor mezzanine (4,697 square feet of floor area) of an existing 48-story commercial building, contrary to ZR § 32-10, on condition that all work substantially conform to drawings filed with the application; the term of the PCE grant expire on November 18, 2024; there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board; accessibility compliance be as reviewed and approved by the Department of Buildings (“DOB”); fire safety measures be installed and/or maintained as shown on the Board-approved plans; the conditions appear on the certificate of occupancy; all DOB and related agency application(s) filed in connection with the authorized use and/or bulk be signed off by DOB and all other relevant agencies by November 18, 2018; the approval be limited to the relief granted by the Board in response to specifically cited objection(s); the approved plans be considered approved only for the portions related to the specific relief granted; and DOB ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, the applicant seeks an amendment to the previous approval reflecting a change to the owner and operator of the PCE, to “New York Sports Club,” and legalizing the expansion of the PCE space, from 15,806 square feet of gross floor area to 27,538 square feet of gross floor area; and

WHEREAS, the PCE now occupies 9,340 square feet of floor space on sub-cellar B with men’s and women’s locker rooms with bathrooms, an open fitness area, spaces for exercise equipment, and mechanical and storage spaces; 1,170 square feet of floor area on the first floor with entrance to the PCE and a reception area; 11,400 square feet of floor area on the second floor with men’s and women’s locker rooms with bathrooms and showers, a spin studio, exercise studio, cardio area, office and storage areas; and, 5,628 square feet of floor area on the second floor mezzanine with a cardio area, mechanical spaces, bathrooms and offices;

WHEREAS, the Department of Investigation has performed a background check on the new corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed satisfactory; and

WHEREAS, by letter dated March 14, 2019, the Fire Department states that the Department’s Licensed Public Place of Assembly (“LPPA”) unit inspected the PCE on February 13, 2019, and that a violation order (E552548) was issued for failure to obtain a certificate of operation for the public assembly space; the fire alarm, standpipe and sprinkler systems were inspected and tested satisfactorily to Department standards; and

WHEREAS, by letter dated March 26, 2019, the Fire Department withdrew its request, made at the hearing held

on February 12, 2019, that post approval amendments be filed for the Alteration Application Type 1 and Public Assembly applications prior to the Board’s decision; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Environmental Assessment Statement (“EAS”) Short Form, CEQR No. 15-BSA-015M, received October 17, 2018; and

WHEREAS, the EAS documents that the project, as proposed, would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction Impacts; and

WHEREAS, pursuant to ZR § 73-03(f), the applicant has satisfactorily demonstrated compliance with the conditions of the previous term and the Board finds that the circumstances warranting the original grant still obtain; and

WHEREAS, accordingly, the Board finds that the subject amendment to reflect a change to the owner and operator of the PCE and to legalize an expansion of the PCE space on the sub-cellar, first floor, second floor and second floor mezzanine, are appropriate, with the conditions set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and *amends* the resolution, dated November 18, 2014, so that, as amended, this portion of the resolution reads: “to permit a change to the owner and operator of the PCE, to “New York Sports Club,” and permit an enlargement of the PCE space (9,340 square feet of floor space in the sub-cellar, 1,170 square feet of floor area on the first floor, 11,400 square feet of floor area on the second floor and 5,628 square feet of floor area on the second floor mezzanine), *on condition* that the use and operation of the site shall conform to drawings filed with this application marked ‘Received October 17, 2018’-Fifteen (15)sheets; and *on further condition*:

THAT the term of this grant shall expire on November 18, 2024;

THAT all signage on the site comply with all applicable provisions of the Zoning Resolution;

THAT there shall be no change in ownership or operating control of the PCE without prior approval from the Board;

THAT all massages shall be provided by New York State licensed massage therapists;

MINUTES

THAT minimum three (3) foot wide exit pathways to required exits shall always be maintained unobstructed, including that from any gymnasium equipment;

THAT sprinklers and interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, connection of the interior fire alarm and sprinklers to a FDNY-approved central station—shall be maintained throughout the PCE space as indicated on the Board-approved plans;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number (“BSA Cal. No. 150-14-BZ”) shall be obtained within one (1) year, by March 26, 2020;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, March 26, 2019.

429-29-BZ

APPLICANT – Davidoff Hutcher & Citron LLP, for 4801 Kings Highway Realty LLC, owner.

SUBJECT – Application March 26, 2018 – Amendment (§11-412) of a previously approved variance which permitted the operation of an Automotive Service Station (UG 16B) with accessory uses. The amendment seeks to change the configuration of the existing gasoline dispensing pumps; the addition of a canopy; conversion and enlargement of the accessory building from an accessory lubricatorium to an accessory convenience store with a drive-thru. THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated November 21, 2017, acting on New Building Application No. 520313438, reads in pertinent part:

“The street giving access to the proposed building is not duly placed on the official map of the City of New York therefore . . . no certificate of occupancy can be issued pursuant to Article 3, Section 36 of General City Law”; and

WHEREAS, this is an application under General City Law (“GCL”) § 36 to permit construction of a two-story building that does not front on a mapped street; and

WHEREAS, a public hearing was held on this application on December 11, 2018, after due notice by publication in *The City Record*, with a continued hearing on March 5, 2019, and then to decision on March 26, 2019; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 3, Staten Island, recommends approval of this application; and

WHEREAS, Staten Island Borough President James Oddo submitted testimony on this application with comments including: sidewalk, street drainage and curb improvements should be installed pursuant to an approved Builders Pavement Plan (“BPP”); daylighting should be required at the intersection of Androvette Street and Kreisler Street to assist with obscured sight triangles created by proposed building mass along record street lines; street trees should be installed; curb cut permits should be obtained from DOB for Androvette Street; on-site retention of storm water should be examined to address potential adverse flooding conditions on Corporation Counsel Opinion streets; Fire Department review and approval for Fire Code compliance should be considered in this application; the alley to the north of the subject site is a

MINUTES

separate tax lot; cross-access issues with respect to zoning requirements for the adjoining alley, as reviewed and approved by the Department of City Planning, should be considered as part of this application; the proposed utility poles, transformers and other street appurtenances crossing unmapped streets or identified for relocation should be identified; the creation of any adverse conditions on adjoining manufacturing properties should be considered; curb- to- curb repaving along both street frontages of Androvetta Street and Kreisler Street should be proposed as part of this application, and no isolated utility cut finishes should be permitted; and the applicant should resubmit a PD1 application to the Borough President's Topographical Bureau for issuance of a final house number; and

WHEREAS, the subject site is located on the northeast corner of Androvetta Street and Kreisler Street, in an M1-1 zoning district, in the Special South Richmond Development District, in Staten Island; and

WHEREAS, the site has approximately 104 feet of frontage along Androvetta Street, 104 feet of frontage along Kreisler Street, 7,783 square feet of lot area and is vacant; and

WHEREAS, the applicant proposes to develop a two-story mixed-use commercial and manufacturing building fronting on Androvetta Street and Kreisler Street, which are not duly placed on the official map of the City of New York; and

WHEREAS, the applicant submits that the proposed building complies with all zoning regulations applicable in the underlying zoning district and proposed to provide seven off-street accessory parking spaces; and

WHEREAS, the applicant submits that, according to a Corporation Counsel Opinion letter, dated April 11, 2006, Androvetta Street has a width between 30 feet and 50 feet adjacent to the subject site; that, according to a Corporation Counsel Opinion letter, dated March 15, 2008, Kreisler Street has a width between 42 feet and 50 feet adjacent to the subject site; and that both Androvetta Street and Kreisler Street are open and in use; and

WHEREAS, the applicant states that the subject site only has frontage along Androvetta Street and Kreisler Street, both of which are existing, paved two-way unmapped streets; and

WHEREAS, the applicant states that Androvetta Street and Kreisler Street both provide access to several existing improved lots in the area, the majority of which contain commercial or manufacturing uses or are vacant; and

WHEREAS, the applicant further submitted a flood map, indicating the subject site is not located within a flood zone; a septic approval for the proposed development; an approved Builders Pavement Plan; an approved site connection proposal, including drywells for storm water; a statement that the subject site is not located in wetlands or wetlands adjacent areas with no New York State Department of Environmental Conservation review or approval required; a statement that the applicant has no objection to any utility poles, transformers, street signs and traffic lights authorized

by the Department of Transportation for placement outside the subject site; a clarification that access to the alley north of the subject site is not proposed through the subject site in this application; and a site plan revised to reflect sidewalk dimensions, parking stall dimensions, curb-to-curb street widths, fire hydrant locations and street trees; and

WHEREAS, in response to questions from the Board at hearing with respect to maintenance related to Androvetta Street and Kreisler Street, the applicant submitted a draft restrictive declaration putting the property owner on notice of its potential maintenance obligations in order to provide assurance to the Board that, in the event that the City is not responsible for future maintenance, the property owner will ensure that both Androvetta Street and Kreisler Street will be maintained in good condition; and

WHEREAS, by correspondence dated September 20, 2018, the Department of City Planning states that it has no comments on this application but confirms that cross-access regulations do not apply; and

WHEREAS, by letter dated February 21, 2019, the New York City Department of Environmental Protection states that, based on DEP maps, there is an 8" diameter water main in Androvetta Street between Kreisler Street and Arthur Kill Road and an 8" diameter water main in Kreisler Street between Androvetta Street and Arthur Kill Road; that the proposed drainage plan shows a 10" diameter sanitary and 24" diameter storm sewers in Androvetta Street between Kreisler Street and Arthur Kill Road with an 18" diameter sanitary and 18" diameter storm sewers in Kreisler Street, between Androvetta Street and Arthur Kill Road; that the proposed sanitary and storm sewers for the subject site shall be discharged as part of a certified Site Connection Proposal (No. 7969); that all sanitary, storm and water connections shall be maintained by the owners and shall not be maintained by the City of New York; and that, accordingly, DEP has no objection to this application; and

WHEREAS, by letter dated March 26, 2019, the Fire Department states that it has no objection to this application; and

WHEREAS, based upon its review of the record, the Board has determined that this approval is appropriate with certain conditions as set forth below and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *modify* the decision of the Department of Buildings dated November 21, 2017, acting on New Building Application No. 520313438, under the powers vested in the Board by Section 36 of the General City Law, to *permit* construction of a two-story building that does not front on a mapped street; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received March 25, 2019"-One (1) sheet; and *on further condition*:

THAT the proposed sanitary and storm sewers for the subject site shall be discharged as part of a certified Site Connection Proposal (No. 7969), and all sanitary, storm and water connections shall be maintained by the owners and

MINUTES

shall not be maintained by the City of New York;

THAT prior to the issuance of the Board's resolution, a restrictive declaration shall be recorded against the property substantially conforming to the form and substance of the following:

DECLARATION made this ____ day of _____ 2019, by AMC Realty Holdings LLC, hereinafter referred to as the "Declarant," located at 262 Ramapo Avenue, Staten Island, New York.

WHEREAS, the Declarant is the owner of certain land located in the City and State of New York, Borough of Staten Island, designated as Block 7407 Lot 72 and 75 as depicted on the Tax Map of the City of New York.

WHEREAS, the Declarant proposed to merge Lots 72 and 75 to create a new tax lot to be known as Lot 72 within Block 7407, also known as 95 Androvette Street, and hereinafter referred to as the "Subject Lot".

WHEREAS Androvette Street and Kreisler Street, the streets upon which the Subject Lot fronts, have Corporate Counsel Opinions issued April 11, 2006 and March 15, 2008, respectively, declaring that the two streets are record streets in public use.

WHEREAS Androvette Street and Kreisler Street, as of the date of this declaration, are currently being maintained by the City of New York, including street repairs and sanitation service.

WHEREAS the City of New York has not placed the portion of Androvette Street and Kreisler Street upon which the Subject Lot fronts ("Street Frontage") on the official map of the City of New York, and as such may not be required to maintain this portion of Androvette Street and Kreisler Street in the future.

WHEREAS, the Declarant has requested the New York City Board of Standards and Appeals (the "BSA") act upon BSA Cal. No. 2017-316-A for approval to construct a building on the Subject Lot that does not front on a final mapped street, contrary to Article III, Section 36 of the General City Law;

WHEREAS, the BSA requires Declarant to execute and file this restrictive declaration prior to obtaining a Certificate of Occupancy for the subject building.

NOW, THEREFORE, in consideration of BSA approval to allow the proposed construction of a building not fronting on a legally mapped street, contrary to Article III, General City Law 36, Declarant does hereby declare that Declarant and its successors and/or assigns, upon the City of New York's abandonment of maintenance of the Street Frontage, shall be responsible for future

maintenance of the Street Frontage to the center line of Androvette Street and Kreisler Street, respectively, including street repairs and sanitation services thereon, as depicted on the site plan annexed hereto as Schedule A and by this reference made a part hereof.

1. This declaration shall become void upon the addition of the Street Frontage to the official map of the City of New York.
2. This declaration may not otherwise be modified, amended or terminated without the prior written consent of the BSA;
3. The covenants set forth herein shall run with the land and be binding upon and inure to the benefit of the parties hereto and their respective heirs, legal representatives, successors and assigns;
4. Failure to comply with the terms of this declaration may result in the revocation of a building permit or certificate of occupancy; and
5. This declaration shall be recorded at the office of the Richmond County Clerk against the Subject Lot and the cross-reference number and title of the declaration shall be recorded on each temporary and permanent certificate of occupancy hereafter issued to any building located on the Subject Lot and in any deed for the conveyance thereof.

THIS DECLARATION IS ONLY EFFECTIVE UPON APPROVAL BY THE BOARD OF STANDARDS AND APPEALS OF THE APPLICATION FILED UNDER CAL. NO. 2017-316-A AND UPON SUBSEQUENT COMPLETION OF CONSTRUCTION AND ISSUE OF A CERTIFICATE OF OCCUPANCY PURSUANT TO SUCH APPROVALS, OTHERWISE THIS DECLARATION IS OF NO EFFECT.

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number ("BSA Cal No 2017-316-A"), shall be obtained within four (4) years, by March 26, 2023;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the Board was in receipt of one (1) form letter in support, and one (1) form letter in objection to, this application; and

MINUTES

WHEREAS, the subject site is located on the east side of East 26th Street, between Avenue P and Kings Highway, in an R3-2 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 60 feet of frontage along East 26th Street, 100 feet of depth, 6,000 square feet of lot area, and is occupied by a two- (2) story plus cellar and attic single-family detached dwelling containing 1,998 square feet of floor area (0.33 FAR), 4,983 square feet of open space, a lot coverage of 17 percent, a front yard with a depth of 28 feet, a rear yard with a depth of 38'-10-3/4", a perimeter wall height of 23'-7-1/2" and a total height of 30'-7-5/8", two (2) side yards with widths of five (5) feet and 17'-10", and a detached one- (1) story garage in the rear; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement*¹ of an existing *single- or two-family detached or semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage, open space, floor area, side yard, rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area

between the *building* that is being *enlarged* and the *side lot line*;

- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that this application located within an area in which the special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge a detached single-family residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant proposes to demolish the existing garage and both vertically and horizontally extend the dwelling into the rear yard, front yard and side yards, resulting in a two- (2) story plus attic and cellar single-family dwelling with 4,786 square feet of floor area (0.8 FAR), 57 percent of open space (3,432 square feet), a lot coverage of 43 percent (2,568 square feet), a front yard with a depth of 16 feet, a rear yard with a depth of 23 feet at the first floor and 25 feet at the second floor, a perimeter wall height of 23'-7-1/2" and a total height of 32'-1-3/4", and two (2) side yards with widths of five (5) feet and eight (8) feet; and

WHEREAS, specifically, the applicant states that the proposed enlargement would increase the floor area on the first floor from 1,017 square feet of floor area to 2,568 square feet of floor area, the second floor from 982 square feet of floor area to 1,963 square feet of floor area, and the attic from 0 square feet of floor area to 254 square feet of floor area; and

WHEREAS, at the subject site, a maximum FAR of 0.50 is permitted (3,000 square feet of floor area), a maximum of

¹ Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

35 percent lot coverage is permitted (2,100 square feet), a rear yard with a minimum depth of 30 feet is required, and a maximum perimeter wall height of 21 feet is permitted pursuant to ZR §§ 23-142, 23-47, and 23-631(b); and

WHEREAS, the applicant provided an analysis of single- or two-family dwellings located within 400 feet of the subject premises within an R3-2 zoning district (the “Study Area”) concluding that, of the 72 qualifying residences, 33 residences (46 percent) have an FAR of greater than 0.6, ranging from 0.61 to 1.14; and

WHEREAS, with regards to lot coverage, the applicant demonstrated that, within the Study Area, 21 residences (29 percent) have a lot coverage of 40 percent or greater, ranging from 40 percent to 60 percent, and 10 residences (14 percent) have a lot coverage of 49 percent or greater; and

WHEREAS, with regards to rear yard conditions, the applicant demonstrated that, within the Study Area, 16 residences (22 percent) have rear yards with depths of 25 feet or less; and

WHEREAS, the applicant initially proposed a rear yard with a depth of 20 feet at the first and second floor and, in light of this study, the Board requested the applicant revise the proposal to provide more rear yard depth; and

WHEREAS, in response, the applicant proposes to provide a rear yard with a depth of 23 feet at the first floor and 25 feet at the second floor; and

WHEREAS, with regards to perimeter wall height, the applicant demonstrated that the one- (1) family detached residence located immediately adjacent to the south has a non-complying perimeter wall height of 23’-9” and the proposed perimeter wall height of the subject property, 23’-7-1/2”, is equal to or less than the height of the adjacent building’s non-complying perimeter wall facing the street; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 16BSA083K, dated February 26, 2016; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore, it is Resolved, that the Board of Standards

and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622 to permit, in an R3-2 zoning district, the enlargement of a one-family detached dwelling that does not comply with the zoning requirements with regards to floor area ratio, lot coverage, rear yards and perimeter wall height, contrary to ZR §§ 23-142, 23-47 and 23-631(b); *on condition* that all work shall substantially conform to drawings as they apply to the objection above-noted, filed with this application and marked Received “February 25, 2019 ”-Thirteen (13) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area ratio of 0.8 (4,786 square feet of floor area), a maximum lot coverage of 43 percent (2,568 square feet), a rear yard with a minimum depth of 23 feet at the first floor and a minimum depth of 25 feet at the second floor and a maximum perimeter wall height of 23’-7-1/2”, as illustrated on BSA-approved plans;

THAT the removal of exterior walls and/or joists in excess of those indicated on the BSA-approved plans is prohibited and shall void the special permit;

THAT substantial construction shall be completed pursuant to ZR § 73-70, by March 26, 2023;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number (“BSA Cal. No. 2016-4127-BZ”) shall be obtained within four (4) years, by March 26, 2023;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals,
March 26, 2019.

CEQR #19-BSA-001K

APPLICANT – Eric Palatnik, P.C., for Tatiana Markel, owner.

SUBJECT – Application July 3, 2018 – Special Permit (§73-622) to permit the enlargement of an existing two-family residence to be converted to a single-family home, contrary to floor area, lot coverage and open space (§23-142); side yard requirements (§§23-461) and less than the required rear yard (§23-47). R3-1 zoning district.

PREMISES AFFECTED – 124 Hastings Street, Block 8750, Lot 336, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated June 11, 2018, acting on Department of Buildings (“DOB”) Application No. 321684432, reads in pertinent part:

Proposed horizontal and vertical enlargement to an existing two[-] family house in an R3-1 district is non-compliant in regard to:

1. Proposed floor area ratio is contrary to ZR 23-142;
2. Proposed lot coverage is contrary to ZR 23-142;
3. Proposed open space is contrary to ZR 23-142;
4. Proposed rear yard is contrary to ZR 23-47;
5. Proposed side yard is contrary to ZR 23-461(a);

And must be [referred] to the Board of Standards and Appeals for a special permit pursuant to ZR 73-622; and

WHEREAS, this is an application under ZR § 73-622 to permit, in an R3-1 zoning district, the conversion and enlargement of a two- (2) family detached dwelling to a single-family detached dwelling that does not comply with the zoning requirements for floor area ratio (“FAR”), lot coverage, open space, rear yards and side yards, contrary to ZR §§ 23-142, 23-47 and 23-461(a); and

WHEREAS, a public hearing was held on this application on February 5, 2019, after due notice by publication in *The City Record*, with a continued hearing on March 26, 2019, and then to decision on that date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the Board was in receipt of one (1) form letter in support this application; and

WHEREAS, the subject site is located on the west side of Hastings Street, between Ocean View Avenue and Oriental Boulevard, in an R3-1 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 40 feet of frontage along Hastings Street, 104 feet of depth, 4,160 square feet of lot area, and is occupied by a two (2) story plus cellar two- (2) family detached dwelling containing 2,780 square feet of floor area (0.67 FAR), 2,682 square feet of open space (65 percent open space), a lot coverage of 35 percent (1,478 square feet), a front yard with a depth of 18 feet, a rear yard with a depth of 25’-4”, and two (2) side yards with widths of 10’-1” and 4’-8”; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement*¹ of an existing *single-* or *two-family detached* or *semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged*

¹ Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

- and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
 - (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that this application located within an area in which the special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge a detached two- (2) family residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant proposes to convert and both vertically and horizontally enlarge the building, resulting in a two- (2) story plus cellar one- (1) family dwelling with 3,042 square feet of floor area (0.73 FAR), 63 percent of open space (2,639 square feet of open space), 37 percent of lot coverage (1,521 square feet), a front yard with a depth of 18 feet, a rear yard with a depth of 25'-4", and two (2) side yards with widths of 10'-1" and 4'-8"; and

WHEREAS, specifically, the applicant states that the proposed enlargement would increase the floor area on the first floor from 1,478 square feet to 1,521 square feet and the second floor from 1,302 square feet to 1,521 square feet; and

WHEREAS, at the subject site, a maximum FAR of 0.50 is permitted (2,080 square feet), a minimum of 65 percent open space is required (2,704 square feet), a maximum of 35 percent lot coverage is permitted (1,456 square feet), a rear yard with a minimum depth of 30 feet is required, and two (2) side yards, each with minimum widths of five (5) feet and a minimum total combined width of 13 feet are required pursuant to ZR §§ 23-142, 23-47, and 23-461(a); and

WHEREAS, the proposed enlargement includes a vertical and horizontal extension of the existing non-complying rear yard, and the Board notes that, pursuant to a 1930 Sanborn Map including the subject site provided by the applicant, the subject site was developed with a detached dwelling in approximately the same location and orientation as the site is occupied today and, thus, the non-complying rear yard predated the 1961 Zoning Resolution and is a legal non-compliance; and

WHEREAS, the applicant provided an analysis of single- or two-family dwellings located within 400 feet of the subject premises within an R3-1 zoning district (the "Study Area") concluding that, of the 73 qualifying residences, 45 residences (62 percent) have an FAR of greater than 0.5, ranging from 0.52 to 0.99, and 14 residences (19 percent) have an FAR of 0.73 or greater; and

WHEREAS, with regards to lot coverage and open space, the applicant demonstrated that, within the Study Area, 28 residences (38 percent) have a lot coverage greater than 35 percent, ranging from 36 percent to 51 percent, and 24 residences (33 percent) have a lot coverage of 37 percent or greater; and

WHEREAS, with regards to rear yard conditions, the applicant demonstrated that, of the 23 other one- (1) or two- (2) family dwellings located on the subject block, 15 residences (65 percent) have rear yards with depths less than 30 feet, and 11 residences (48 percent) have rear yards with depths less than 25'-4", including both dwellings immediately adjacent to the subject site, which have rear yard depths of 12 feet and 23 feet; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 19BSA001K dated July 12, 2018; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality

MINUTES

Review and makes the required findings under ZR § 73-622 to permit, in an R3-2 zoning district, the conversion and enlargement of a two- (2) family detached dwelling to a single-family detached dwelling that does not comply with the zoning requirements with regards to floor area ratio, lot coverage, open space, rear yards and side yards, contrary to ZR §§ 23-142, 23-47 and 23-461(a); *on condition* that all work shall substantially conform to drawings as they apply to the objection above-noted, filed with this application and marked Received "March 26, 2019"-Fifteen (15) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area ratio of 0.73 (3,042 square feet of floor area), a minimum of 63 percent of open space (2,639 square feet), a maximum lot coverage of 37 percent (1,521 square feet), a rear yard with a minimum depth of 25'-4", and two (2) side yards with minimum widths of 10'-1" and 4'-8", as illustrated on BSA-approved plans;

THAT the removal of exterior walls and/or joists in excess of those indicated on the BSA-approved plans is prohibited and shall void the special permit;

THAT substantial construction shall be completed pursuant to ZR § 73-70, by March 26, 2023;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number ("BSA Cal. No. 2018-106-BZ") shall be obtained within four (4) years, by March 26, 2023;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 26, 2019.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated June 7, 2018, acting on DOB Application No. 121188437, reads in pertinent part:

ZR 32-31/ZR 73-36 The proposed Physical Culture Establishment in zoning district C5-5 is not permitted as of right. A Special Permit is required from the Board of Standards and Appeals as per Sections 32-31 and 73-36 of the Zoning Resolution; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, on a site located within an C5-5 zoning district, in the Special Lower Manhattan District, a physical culture establishment (“PCE”) on the basement, mezzanine, and cellar, sub-cellar 1 and sub-cellar 2 of an existing 51-story plus basement, mezzanine, and sub-cellars mixed-use residential and commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on March 26, 2019, after due notice by publication in *The City Record*, and then to decision on that same date; and

MINUTES

WHEREAS, Community Board 1, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is bound by Wall Street to the north, Broadway to the west, Exchange Place to the south, and New Street to the east, in an C5-5 zoning district, in the Special Lower Manhattan District, in Manhattan; and

WHEREAS, the site has approximately 102 feet of frontage along Wall Street, 362 feet of frontage along Broadway, 133 feet of frontage along Exchange Place, 358 feet of frontage along New Street, 42,316 square feet of lot area and is occupied by an existing 51-story plus basement, mezzanine, and sub-cellar mixed-use residential and commercial building that is designated as an individual landmark by the New York City Landmarks Preservation Commission (“LPC”); and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 29, 1929, when, under BSA Cal. No. 944-28-BZ, the Board granted a variance of the applicable height district regulations to permit the area of the tower to exceed 25 percent of the lot area below the 36th floor and distance from the center line of New Street on condition that the structure be erected as to its height and setback layout as indicated on the plans filed with the appeal, all permits be obtained within nine (9) months and the building prosecuted to completion without interruption or unnecessary delay; and

WHEREAS, on April 23, 1929, under BSA Cal. No. 944-28-BZ, the Board reopened and voted to accept corrections to the previously approved drawings; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use1* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant represents that the proposed PCE will occupy 3,377 square feet of floor area on the basement level with the entrance to the PCE, a reception area and accessory café; 382 square feet of floor space on the mezzanine with a mechanical area; 22,224 square feet of floor space in the cellar with men’s and women’s locker rooms with showers, saunas, steam rooms and whirlpools, a salon, a spa, a café with a kitchen area, storage areas and office space; 17,427 square feet of floor space in sub-cellar 1 with spaces for group fitness, yoga, pilates, cycling and

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

boxing, a lounge area, a foyer and mechanical spaces; and, 28,220 square feet of floor space in sub-cellar 2 with spaces for training, weights, exercise machines, movement, cardio and stretching, a “PT Desk,” a kids’ gym with reception, play area, activity studio and maze, offices and mechanical spaces; and

WHEREAS, the PCE is proposed to operate as “LifeTime,” with the following hours of operation: 4:00 a.m. to 12:00 a.m., Monday through Friday, and, 7:00 a.m. to 12:00 a.m., Saturday and Sunday; and

WHEREAS, the applicant states that, while residential units at the subject site do not begin until the fourth floor, the PCE will utilize a variety of rules, controls and sound and vibration attenuation measures to maintain sound and vibration solely within the exercise studios; specifically, the PCE will strictly prohibit the dropping of dumbbell free weights; music volume will be maintained at moderate levels; heavier free weights will be located in a specific area protected with 2.75-inch flooring mats to dissipate impact vibrations from any dropping of free weights; all weight half-racks will be equipped with platforms specifically designed to mitigate noise and vibration associated with their use; resilient hung/sound isolation ceilings will be installed at selected locations of the fitness floor, and sound attenuation-batt insulation will be installed within selected partitions throughout the PCE; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because it is located entirely in an existing building in an area characterized by commercial uses in high-rise office buildings and is compatible with comparable PCEs in the neighborhood; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant submits that the PCE contains facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics, and martial arts, and facilities for the practice of massage by New York State licensed massage therapists; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood because the PCE is separated from the residential uses within the subject building by three floors, is mostly below grade, and the applicant anticipates the PCE will be an asset for the community, offering opportunities for health, well-being and fitness improvement for community members; and

WHEREAS, the applicant states that a wet sprinkler system and an approved fire alarm system connected to an FDNY central station—including tamper/water flow on all sprinkler zones, HVAC shut down, smoke detectors, manual pull stations, heat sensors, and proper ventilation and smoke purge—will be installed within the proposed PCE space; and

WHEREAS, by letter dated March 13, 2019, the Fire Department states that the premises is currently under major renovation to convert from business use to residential use, applications have been filed for new sprinkler, standpipe and fire alarm systems throughout; the Bureau’s Construction, Demolition and Abatement (CDA) unit is inspecting the premises; once work has been completed, the Bureau of Fire Prevention will inspect these new systems throughout the premises as well as the PCE space; as noted in the applicant’s “Statement of Facts,” a Place of Assembly certificate of operation would be obtained for the accessory café on the cellar level, to accommodate 78 persons, and in the contiguous assembly spaces on sub-cellar 2, to accommodate 383 persons; the Bureau’s Licensed Public Place of Assembly (“LPPA”) unit have been notified of this application and will inspect the premises when work is completed; and, the Fire Department has no objection to the Board rendering a decision on this application as the Bureau of Fire Prevention will continue to inspect these premises; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, the applicant submits that the New York City Landmarks Preservation Commission, pursuant to Certificate of No Effect (CNE-19-31437) dated October 11, 2018, permitted interior alterations at the mezzanine, basement, cellar, sub-cellar 1, and sub-cellar 2 levels, including the demolition and construction of nonbearing partitions and finishes, as well as mechanical, plumbing, electrical, and HVAC work; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR 617.4 and New York City Executive Order 91 of 1977; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Environmental Assessment Statement (“EAS”) Full Form CEQR No. 19BSA002M, received January 7, 2019; and

WHEREAS, the EAS documents that the project, as proposed, would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction Impacts; and

MINUTES

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, permitting the proposed PCE on the basement, mezzanine, and cellar, sub-cellar 1 and sub-cellar 2, is appropriate, with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, § 6-07(b) Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located within a C5-5 zoning district, in the Special Lower Manhattan District, the operation of a physical culture establishment on the basement, mezzanine, cellar, sub-cellar 1 and sub-cellar 2 of an existing 51-story plus basement, mezzanine cellar and sub-cellars mixed-use residential and commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “March 21, 2019”-Ten (10) sheets and “Received March 27, 2019”-One (1) sheet; and *on further condition*:

THAT the term of the PCE grant will expire on March 26, 2029;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT all massages shall be provided by New York State licensed massage therapists;

THAT a public assembly permit shall be obtained;

THAT accessibility compliance under Local Law 58/87 will be as reviewed and approved by DOB;

THAT an approved fire alarm system and sprinkler shall be maintained as indicated on the Board-approved plans;

THAT minimum 3 foot wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also referencing this approval and calendar number (“BSA Cal. No. 2018-108-BZ”), shall be obtained within four (4) years, by March 26, 2023;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its

jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 26, 2019.

2018-141-BZ

APPLICANT – Eric Palatnik, P.C., for Sergey Davidov, owner.

COMMUNITY BOARD #3Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for an extension of term to a previously granted variance that permitted the operation of an automotive service station and accessory automotive repair, which expired on November 26, 2018; and

WHEREAS, a public hearing was held on this application on January 29, 2019, after due notice by publication in *The City Record*, with a continued hearing on April 9, 2019, and then to decision on that same date; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 3, Queens, recommends approval of this application on the following conditions: the station be kept free of debris and graffiti; the station provide full service from 8:00 a.m. to 6:00 p.m. and assistance for seniors and the disabled daily; automobiles be prohibited from parking on the sidewalk and streets; all equipment and debris obstructing access to the parking area for cars awaiting service be removed; and, the repair and restoration of the 85th Street and 24th Avenue curb cut to conform to approved plans; and

WHEREAS, the subject site is bound by Astoria Boulevard to the south, 85th Street to the west, and 24th Avenue to the north, in an R3-2 (C1-3) zoning district, in Queens; and

WHEREAS, the site has approximately 107 feet of frontage along Astoria Boulevard, 148 feet of frontage along 85th Street, 100 feet of frontage along 24th Avenue, 16,711 square feet of lot area and is occupied by a one- (1) story automotive service station with accessory convenience store, three (3) multiple product dispenser (“MPD”) pumps and 15 parking spaces for vehicles awaiting service; and

WHEREAS, the Board has exercised jurisdiction over the subject site since February 24, 1953, when, under BSA Cal. No. 676-53-BZ, the Board granted a variance to permit the erection and maintenance of a gasoline service station with auto wash, lubritorium, motor vehicle repairs, storage, sale of accessories, and office, for a term of 15 years, to expire February 24, 1968, on condition that the plot be leveled substantially to the grade of the surrounding streets and be arranged as designed and as indicated on plans filed with the application; along the rear lot line in place of the steel fence proposed, there be erected a masonry wall not less than five (5) feet six (6) inches in height; complete working drawings be submitted to the Board for further consideration; such plans be filed within two (2) months, by April 24, 1953, and after approval, all permits be obtained and all work completed within one (1) year, by February 24, 1954; and

WHEREAS, on May 11, 1954, under BSA Cal. No. 676-53-BZ, the Board amended the resolution to approve new plans as being in substantial compliance with the requirements of the resolution adopted on February 24, 1953, on condition that all the work as indicated on such working drawings be complied with; the pumps be of an approved low type and be erected as shown not nearer than 15 feet to either street building line; the planting be maintained with suitable material in the areas where shown, properly protected with concrete curbing; signs be restricted to a permanent sign attached to the façade of the accessory building and to the illuminated globes of the pumps, excluding all roof signs and all temporary signs, but permitting the erection of one (1) post standard only near the intersection for supporting a sign which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend beyond the building line for a distance of not over four (4) feet; and, in all other respects the resolution be complied with; and

WHEREAS, on May 7, 1957, under BSA Cal. No. 676-53-BZ, the Board further amended the resolution to permit the number of gasoline storage tanks to be a total of 12 such approved tanks, as passed on by the Borough Superintendent under Misc. App. 265/57, denied April 1, 1957, as shown on plans filed with the application; and

WHEREAS, on November 26, 1968, under the subject calendar number, the Board, pursuant to ZR § 11-412, permitted a one- (1) story enlargement to the accessory building of the existing automotive service station and extended the term of the variance for ten (10) years, to expire on November 26, 1978, on condition that all work substantially conform to drawings filed with the application; the plan be amended to delete the tire rack shown along the

MINUTES

easterly lot line north of Astoria Boulevard; no trucks be parked; signs be restricted to those shown on the drawings; all laws, rules and regulations applicable be complied with; and, substantial construction be completed within one (1) year, by November 26, 1969; and

WHEREAS, on July 24, 1974, under the subject calendar number, the Board reopened to reflect an amendment to the location of the gasoline pumps; and

WHEREAS, on October 24, 1978, under the subject calendar number, the Board reopened and further amended the resolution to extend the term for ten (10) years, to expire on November 26, 1988, on condition that other than as amended the resolution be complied with; and, a new certificate of occupancy be obtained within one (1) year, by October 24, 1979; and

WHEREAS, on April 3, 1990, under the subject calendar number, the Board waived its Rules of Procedure, reopened and further amended the resolution to extend the term for ten (10) years, to expire on November 26, 1998; to permit the existing kiosk to remain on the gasoline pump island fronting on Astoria Boulevard and to legalize the elimination of the gasoline pump island and two (2) pumps fronting on 85th Street, substantially as shown on revised drawings filed with the application, on condition that the landscaping be maintained and replaced when necessary; all signs comply with the C1 district regulations; there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic; other than as amended the resolution be complied with in all respects; and, a new certificate of occupancy be obtained within one (1) year, by April 3, 1991; and

WHEREAS, on February 29, 2000, under the subject calendar number, the Board waived its Rules of Practice and Procedure, reopened and further amended the resolution to permit the erection of a new 24-foot x 34-foot metal canopy over the existing concrete pump island with two (2) MPDs, on condition that the term of the variance be limited to ten (10) years from November 26, 1998, to expire on November 26, 2008; no vehicles be parked on the sidewalks; there be no dead storage on the premises; no outdoor work be performed on the premises; the canopy lighting not exceed the limits of the approved BSA drawings and all lighting be directed down and away from the residential uses; the landscaping be maintained in accordance with the BSA-approved drawings; the signs be in compliance with the BSA-approved drawings; the premises be maintained clean of graffiti and debris and in substantial compliance with the proposed drawings submitted with the application; other than as amended the resolution be complied with in all respects; and, a new certificate of occupancy be obtained within one (1) year, by March 1, 2001; and

WHEREAS, on January 11, 2005, under the subject calendar number, the Board reopened and further amended the resolution to permit the conversion of a portion of the existing automotive service station to a convenience store, an addition to the existing building to contain two (2) automotive service repair bays, a service attendant area and

a customer waiting area, an extension of the existing canopy, the relocation of the pump islands, and the addition of one (1) new fuel dispenser, on condition that all work substantially conform to drawings filed with the application; the premises be maintained free of debris and graffiti; any graffiti located on the premises be removed within 48 hours; all lighting be directed downward and away from adjacent residential uses; the hours of operation of the automotive repairs be limited to Monday through Saturday, 8:00 a.m. to 6:00 p.m.; the above conditions appear on the certificate of occupancy; all curb cuts and landscaping be installed and/or maintained as shown on the BSA-approved plans; the curb cut on 24th Avenue be eliminated; all conditions from prior resolutions not specifically waived by the Board remain in effect; a new certificate of occupancy be obtained within one (1) year, by January 11, 2006; the approval be limited to the relief granted by the Board in response to specifically cited and filed Department of Buildings ("DOB")/other jurisdiction objection(s) only; and, the DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configurations(s) not related to the relief granted; and

WHEREAS, on April 11, 2006, under the subject calendar number the Board reopened and further amended the resolution to permit an extension of time to complete construction and obtain a certificate of occupancy, for an additional period of two (2) years, to expire on January 11, 2008, on condition that all conditions from prior resolutions not specifically waived by the Board remain in effect; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and, the DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configurations(s) not related to the relief granted; and

WHEREAS, on June 11, 2013, under the subject calendar number, the Board waived its Rules of Practice and Procedure, reopened and further amended the resolution to extend the term for ten (10) years, to expire on November 26, 2018, on condition that all use and operations substantially conform to drawings filed with the application; the site be maintained free of debris and graffiti; motor vehicle sales not take place at the site; signage comply with C1 district regulations; the above conditions be listed on the certificate of occupancy; a new certificate of occupancy be obtained by June 11, 2014; all conditions from the prior resolution not specifically waived by the Board remain in effect; and, the DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configurations(s) not related to the relief granted; and

WHEREAS, the term of the variance having expired, the applicant seeks an extension of the term of the variance; and

MINUTES

WHEREAS, pursuant to ZR §11-411, the Board may, in appropriate cases, permit an extension of a term of the variance previously authorized subject to a term of years pursuant to the 1916 Zoning Resolution for terms of not more than ten (10) years each; and

WHEREAS, over the course of the hearings, the Board expressed concerns regarding the amount of signage present on the site, the presence of vehicles parking illegally on the sidewalk and the installation and maintenance of landscaping on the site; and

WHEREAS, in response, the applicant demonstrated the removal of such sign and represented that no vehicles visiting the subject site park on the sidewalk; and

WHEREAS, at hearing, the Board, in recognition of the general good condition and maintenance of the site, permitted the applicant to install landscaping on the site immediately after the Board grant on this application; and

WHEREAS, by letter dated January 23, 2019, the Fire Department states that a review of their records indicates that the subject automotive service station is current with its Fire Department permits with respect to the storage of combustible liquids, leak detection equipment, underground storage tank and the fire suppression (dry-chemical) system, and that the Fire Department has no objection to the application; and

WHEREAS, in light of the foregoing, the Board finds that the requested extension of term is appropriate, subject to conditions below.

Therefore, it is Resolved, that the Board of Standards and Appeals *amends* the resolution, dated November 26, 1968, as amended through June 11, 2013, so that as amended this portion of the resolution reads: “to grant an extension of the term of the variance for a term of ten (10) years; and *on condition* that all work and site conditions shall conform to drawings filed with this application marked “March 27, 2019”-Two (2) sheets; and *on further condition*:

THAT the term of this grant shall expire on November 26, 2028;

THAT landscaping shall be installed, as shown on the BSA-approved plans, and shall be maintained and replaced as necessary to maintain in first-class condition;

THAT all lighting shall be directed downward and away from adjacent residential uses;

THAT the hours of operation of the automotive repairs shall be limited to Monday through Saturday, 8:00 a.m. to 6:00 p.m.;

THAT all curb cuts shall be maintained as shown on the BSA-approved plans;

THAT the site shall be maintained free of debris and graffiti;

THAT any graffiti located on the premises be removed within 48 hours;

THAT motor vehicle sales shall not take place at the site;

THAT signage shall comply with C1 district regulations;

THAT all conditions from prior resolutions not

specifically waived by the Board remain in effect;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a revised certificate of occupancy indicating this approval and calendar number (“BSA Cal. No. 410-68-BZ”) shall be obtained within one (1) year, by April 9, 2020; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, April 9, 2019.

279-12-BZ

APPLICANT – Sheldon Lobel, P.C., for Bacele Realty Corp., owner.

SUBJECT – Application January 4, 2019 – Extension of Time to Complete Construction of a previously approved Variance (§72-21) permitting the operation of a bank (UG 6) in a residential zoning district, contrary to §22-00 which expired on January 28, 2018; Waiver of the Board’s Rules. R4/R5B zoning districts.

PREMISES AFFECTED – 27-24 College Point Boulevard, Block 4292, Lot 12, Borough of Queens.

COMMUNITY BOARD #7Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and an extension of time to complete construction pursuant to a variance, granted pursuant to ZR § 72-21, which permitted the construction of a two- (2) story commercial building to be occupied as a bank and expired on January 28, 2018; and

WHEREAS, a public hearing was held on this application on April 9, 2019, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, the subject site is located on the southwest corner of College Point Boulevard and 28th Avenue, partially within an R5B zoning district and partially within an R4 zoning district, in Queens; and

WHEREAS, the site has approximately 66 feet of frontage along College Point Boulevard, 131 feet of frontage along 28th Avenue, 5,765 square feet of lot area (3,919 square feet within the R5B district and 1,845 square feet within the R4 district), and is vacant; and

WHEREAS, the Board has exercised jurisdiction over

MINUTES

the subject site January 28, 2014, when, under the subject calendar number, the Board granted a variance, pursuant to ZR § 72-21, to permit the construction of a two- (2) story commercial building to be occupied as a bank (Use Group 6) with five (5) accessory off-street parking spaces and a drive-through, contrary to ZR § 22-10, on condition that any and all work substantially conform to drawings, as they apply to the objections, filed with the application; the bulk parameters of the building be as follows: two (2) stories; a maximum floor area of 5,082 square feet (0.88 floor area ratio ("FAR")); a maximum height of 26'-10"; a maximum lot coverage of 2,541 square feet; and five (5) accessory parking spaces; the building be used as a bank; any change in use of the building be subject to the Board's approval; landscaping and fencing be in accordance with the BSA-approved plans; signage comply with C1 district regulations; the approval be limited to the relief granted by the Board in response to specifically cited and filed Department of Buildings ("DOB")/other jurisdiction objection(s); substantial construction proceed in accordance with ZR § 72-23, by January 28, 2018; the approved plans be considered approved only for the portions related to the specific relief granted; and, DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plans(s)/configuration(s) not related to the relief granted; and

WHEREAS, the time for substantial construction to have been completed having expired, the applicant seeks the subject relief; and

WHEREAS, in addition, because this application was filed less than two (2) years after the expiration of the time to complete construction, the applicant requests a waiver, pursuant to § 1-14.2 of the Board's Rules of Practice and Procedure (the "Board's Rules"), of § 1-07.3(c)(2) of the Board's Rules to permit the filing of this application; and

WHEREAS, the applicant submits that the commencement of construction at the site, which is a build-out for a bank tenant, has been delayed due to the loss of a prospective tenant for the subject site; and

WHEREAS, at hearing, the Board raised concerns regarding the status of the environmental cleanup and remediation of the site and the closure of underground storage tanks at the site; and

WHEREAS, in response, the applicant submitted a site history detailing the remediation efforts from 1998 to January 2013, as well as a spill closure letter from the New York State Department of Environmental Conservation ("NYSDEC") (NYSDEC Spill Case 9913926), dated July 8, 2013, further stating that any existing monitoring wells associated with the spill case be properly closed in accordance with the Department's document, *CP-43: Groundwater Monitoring Well Decommissioning Policy*, and in the event the property is redeveloped, any contaminated subsurface materials encountered during construction activities be properly handled in accordance with all applicable laws and regulations, and appropriate remedial and vapor mitigation measures be taken to prevent potential vapor intrusion from affecting any site

development, to ensure human health and safety; and

WHEREAS, based upon its review of the record, the Board finds that a four (4) year extension of time to complete construction is appropriate with certain conditions, as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* § 1-07.3(c)(2) of its Rules of Practice and Procedure and *amends* the resolution, dated January 28, 2014, so that as further amended this portion of the resolution reads: "to grant a four (4) year extension of time to complete construction to January 28, 2022, *on condition*:

THAT substantial construction shall be completed, pursuant to ZR § 72-23, by January 28, 2022, as evidenced by an inspection and determination by the Department of Buildings;

THAT the bulk parameters of the building shall be as follows: two (2) stories; a maximum floor area of 5,082 square feet (0.88 floor area ratio ("FAR")); a maximum height of 26'-10"; a maximum lot coverage of 2,541 square feet; and five (5) accessory parking spaces;

THAT the building be shall used as a bank;

THAT any change in use of the building shall be subject to the Board's approval;

THAT landscaping and fencing shall be in accordance with the BSA-approved plans;

THAT signage shall comply with C1 district regulations;

THAT any existing monitoring wells associated with the spill case be properly closed in accordance with the New York State Department of Environmental Conservation's document, *CP-43: Groundwater Monitoring Well Decommissioning Policy*;

THAT any contaminated subsurface materials encountered during construction activities be properly handled in accordance with all applicable laws and regulations, and appropriate remedial and vapor mitigation measures be taken to prevent potential vapor intrusion from affecting any site development, to ensure human health and safety;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions shall be recorded on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number ("BSA Cal. No. 279-12-BZ") shall be obtained within four (4) years, by January 28, 2022;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated March 18, 2016, acting on New Building Application No. 321131422, reads in pertinent part:

“Proposed new 3-family residential building . . . is not allowed pursuant to ZR 42-10”; and

WHEREAS, this is an application under ZR § 72-21 to permit, in an M1-1 zoning district, the development of a four-story residential building that does not comply with zoning regulations for use, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on November 21, 2017, after due notice by publication in *The City Record*, with continued hearings on August 21, 2018, September 27, 2018, December 11, 2018, March 5, 2019, and then to decision on April 9, 2019; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 3, Brooklyn, recommends approval of this application of this application; and

WHEREAS, the subject site is located on the east side of Kent Avenue, between Myrtle Avenue and Park Avenue, in an M1-1 zoning district, in Brooklyn; and

WHEREAS, the subject site has approximately 25 feet of frontage along Kent Avenue, 206 feet of depth, 5,154 square feet of lot area and is occupied by a two-story residential building at the rear of the site with 1,276 square feet of floor area (0.25 FAR); and

WHEREAS, the applicant proposes to develop a four-story, including penthouse, residential building with a total of 3,636 square feet of floor area (0.71 FAR), including 1,105 square feet of floor area at the first three floors and 321 square feet of floor area for the fourth-floor penthouse—totaling 4,912 square feet of residential floor area (0.95 FAR) at the subject site; and

WHEREAS, the applicant submits that, at the subject

site, residential use is not allowed under ZR § 42-10; and

WHEREAS, the applicant states that the following are unique physical conditions about the subject site that create practical difficulties in developing the site in strict conformance with applicable zoning regulations: the subject site’s narrowness and its history of development that has resulted in its current configuration with a small, non-conforming residential building to the rear; and

WHEREAS, in support of this contention, the applicant studied the surrounding area, finding that no other sites have a comparable depth to width ratio with as-of-right uses; and

WHEREAS, the applicant notes that, historically, the front of the subject site was occupied by a residential building that was demolished while under the City’s ownership, resulting in the subject site’s current configuration; and

WHEREAS, the applicant states that the current configuration of the subject site presents a disruption of the uniform street wall on the subject block, a condition present at only one other lot in the vicinity; and

WHEREAS, the applicant notes that the subject site presents physical constraints for an as-of-right development occupied by conforming commercial or manufacturing uses with a total of 3,878 square feet of floor area (0.75 FAR); and

WHEREAS, more particularly, the applicant notes that an as-of-right development would be confined to the front of the subject site and could only cover a portion of the subject site’s street frontage because of the presence of the existing residential building at the rear of the subject site and further exacerbated by the subject site’s narrowness; and

WHEREAS, the applicant also notes that the 25-foot width of the subject site is too narrow to accommodate a building with a loading dock or adequately sized floorplates to support a commercial or manufacturing use; and

WHEREAS, the applicant accordingly submits that an as-of-right development would consist of a three-story, with cellar, warehouse with a 20-foot-tall first floor (to provide access to the rear of the subject site) and a cantilevered second floor (to maximize its floorplate) and that, although there are a number of properties in the area with both residential and commercial or manufacturing uses, none of them are located at the middle of a block with the as-of-right use directly in front of the residential use; and

WHEREAS, the Board finds that the above unique physical conditions create practical difficulties or unnecessary hardship in complying strictly with applicable zoning regulations that are not created by general circumstances in the neighborhood or district; and

WHEREAS, the applicant submits that the above unique physical conditions eliminate any reasonable possibility that strictly complying with applicable regulations would enable a reasonable return; and

WHEREAS, in support of this contention, the applicant supplied a financial feasibility study demonstrating that an as-of-right development—consisting of a three-story

MINUTES

warehouse and office building with the existing residential building to remain at the rear of the subject site—would result in a substantial loss on investment but that the proposed development of a four-story, including penthouse, residential building with the existing residential building to remain at the rear of the subject site would yield a modest return; and

WHEREAS, the Board finds that, because of the above unique physical conditions, there is no reasonable possibility that development in strict conformity with applicable zoning regulations would bring a reasonable return; and

WHEREAS, the applicant states that the proposed residential development will not alter the character of the surrounding neighborhood or district; and

WHEREAS, in support of this contention, the applicant submitted evidence that the surrounding area contains a vibrant mix of uses—including non-conforming residences and manufacturing uses—and that only a few lots on the subject block are developed with conforming commercial, manufacturing or community-facility uses; and

WHEREAS, the applicant also submits that, with a building height of 38'-6", the proposed residential development is consistent with the surrounding area, and the applicant provided a photographic streetscape montage indicating that buildings in the vicinity range in height from 16 feet to 86 feet, that the proposed height is consistent with adjacent residential buildings, that the proposed building will improve street wall continuity on the subject block and that the proposed floor area, which is below the maximum allowed for community facilities as of right, is consistent with the surrounding area; and

WHEREAS, by letter dated October 15, 2018, the Fire Department states that it has no objection to this application provided that the existing two-story frame building shall be fully sprinklered; that any future structures constructed on the remaining portion of the subject site shall be fully sprinklered; that the 8-foot side yard shall be maintained clear at all times; that there shall be no parking at any time within the length of the side yard; that a separate address sign shall be installed on or near the front lot line indicating the address of the rear residential building; and that the rear residential building shall install a security system connected to a company that provides continuous supervision to monitor heat, smoke, carbon monoxide and sprinkler flow; and

WHEREAS, in response to questions from the Board at hearing, the applicant addressed that the height of the proposed development is consistent with adjacent residences and the surrounding area, clarified that the roof terrace will only be accessible to the third-floor with penthouse duplex apartment and submitted a draft restrictive declaration to address the Fire Department's concerns regarding access to the rear of the subject site; and

WHEREAS, the Board finds that the proposed variance will not alter the essential character of the neighborhood or district in which the subject site is located; will not substantially impair the appropriate use or

development of adjacent property; and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the above practical difficulties or unnecessary hardship do not constitute a self-created hardship; and

WHEREAS, in response to questions from the Board, the applicant submitted evidence that, although the subject site and adjacent Tax Lot 22 were held in common ownership by the City as well a housing development fund corporation at one time, the safety-mandated demolition of the former residential building at the front of the subject site occurred during the period when the City owned the subject site, and the above unique physical conditions that cause practical difficulties or unnecessary hardship were not caused by the current owner or any predecessor in title; and

WHEREAS, the Board finds that the above practical difficulties or unnecessary hardship have not been created by the owner or by a predecessor in title; and

WHEREAS, the applicant states that the proposed variance is the minimum necessary to permit a productive use of the site, as reflected in the financial feasibility study; and

WHEREAS, the Board finds that the proposed variance is the minimum necessary to afford relief within the intent and purposes of the Zoning Resolution; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 16BSA109K, dated March 22, 2019; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design; Natural Resources; Hazardous Materials; Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by correspondence dated November 13, 2017, the New York City Landmarks Preservation Commission represents that the proposed project would not result in any adverse impacts with respect to archaeological or architectural resources; and

WHEREAS, by letter dated February 12, 2019, the New York City Department of Environmental Protection ("DEP") states that the January 2019 Remedial Action Plan ("RAP") and the January 2019 Construction Health and Safety Plan are acceptable on condition that proper handling, transportation and disposal of excavated materials from the site shall be conducted in accordance with applicable New York State Department of Environmental Conservation ("NYSDEC") regulations; that the proposed vapor barrier system shall be used unless an amendment to the January 2019 RAP is approved by DEP; and that at the

MINUTES

completion of the project, a professional engineer (P.E.) certified Remedial Closure Report shall be submitted to DEP for review and approval for the proposed project, which shall indicate that all remedial requirements have been properly implemented (that is, proper transportation and disposal manifests and certificates from impacted soils removed and properly disposed of in accordance with all NYSDEC regulations; proof of installation of engineering control system; and two feet of DEP approved certified clean fill and top soil requirement in any landscaped or grass-covered areas not capped with concrete or asphalt, etc.); and

WHEREAS, by letter dated March 12, 2019, DEP states that the proposed project would not result in any potential for significant adverse impacts with regard to air quality and that the proposed project would not result in any potential for significant adverse impacts with regard to noise on condition that a composite window-wall noise attenuation of 28 dBA shall be required for all proposed building facades and that an alternate means of ventilation shall be required and shall be incorporated into the building design and construction; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR § 72-21 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR § 72-21 to *permit*, in an M1-1 zoning district, the development of a four-story residential building that does not comply with zoning regulations for use, contrary to ZR § 42-10; *on condition* that all work, operations and site conditions shall conform to drawings filed with this application marked “Received April 9, 2019”-Seventeen (17) sheets; and *on further condition*:

THAT a restrictive declaration shall be recorded against the property prior to the issuance of any building permit substantially conforming to the form and substance of the following:

THIS DECLARATION OF RESTRICTIVE COVENANTS (the “Declaration”), dated this day of , 2019, is entered into by JISEL CRUZ (the “Declarant”), who resides at 823 Kent Avenue, Brooklyn, New York 11205;

WHEREAS, the Declarant is the fee owner of

certain land located in the City and State of New York, Borough of Brooklyn, being known and designated as Block 1898, Lot 23 on the Tax Map of the City of New York, and more particularly described in Exhibit A annexed hereto and made a part hereof (the “Premises”); and

WHEREAS, the Premises is currently improved with a 2-story single-family frame dwelling at the rear of the tax lot (the “Existing Building”);

WHEREAS, the Declarant has requested by application assigned BSA Calendar Number 2016-4171-BZ, that the New York City Board of Standards and Appeals (the “Board”) grant a variance application pursuant to Section 72-21 of the New York City Zoning Resolution (“ZR”) to permit the development of a new three-story residential building (the “Proposed Building”) at the Premises contrary to use regulations (the “Variance Application”); and

WHEREAS, the Fire Department of the City of New York (the “FDNY”) issued a Letter of No Further Objection dated October 15, 2018 annexed hereto as Exhibit B, noting that the FDNY has no further objections to the Variance Application contingent on the following requirements and conditions: (1) the existing 2-story frame building must be fully sprinklered; (2) any future structures on the remaining portion of the lot must be fully sprinklered, (3) the 8-foot side yard located to the west of the Proposed Building (the “Driveway”) shall be maintained clear at all times and that there shall be no parking anytime within the length of the side yard; (4) a separate address sign shall be installed on or near the front lot line indicating the address of the rear building; and (5) the rear building will install a security system that connects to a company that provides continuous supervision that will monitor heat, smoke, carbon monoxide, and sprinkler flow; and

WHEREAS, the FDNY further requests that a “No Parking Anytime” sign be installed in the side yard permanently, before, during, and after construction; and

WHEREAS, the Board held a public hearing on December 11, 2018 and at that hearing, the Board requested that the FDNY conditions listed in the above-referenced October 15, 2018 letter be recorded in a Restrictive Declaration against the Premises; and

WHEREAS, the Board further requires that the Declarant install a domestic waterline sourced sprinkler system in the Existing Building prior to construction of the Proposed Building;

WHEREAS, the Board and FDNY instructed the Declarant to record the proposed construction

MINUTES

safety measures, as illustrated in the diagram as annexed hereto as Exhibit C; and

WHEREAS, the Board and FDNY noted that the Driveway must be gated and used exclusively as a means of egress of the Existing Building; and

WHEREAS, the Board requires Declarant to execute and record in the Office of the City Register of the City of New York this restrictive declaration prior to obtaining building permits for the Premises.

NOW THEREFORE, in consideration of the Board's approval of the Variance Application, the Declarant hereby declares that the Declarant and its successors and/or assigns shall be legally responsible for compliance with the following restrictions:

1. That during construction of the Proposed Building, the Declarant will erect a temporary construction fence on the Premises with emergency egress gates as further described and illustrated in Exhibit C;
2. That prior to issuance of permits for new construction of the Proposed Building, the Declarant will install a sprinkler system in in the Existing Building that uses the existing domestic waterline as a water source;
3. The Proposed Building will be fully sprinklered in accordance with DOB and FDNY requirements;
4. After a sprinkler system is installed in the Proposed Building, the Existing Building will connect to and source water from the Proposed Building's sprinkler system;
5. That any additional building built on the Premises must fully be sprinklered in accordance with DOB and FDNY requirements;
6. The Declarant will provide a permanent FDNY accessible gate at the front lot abutting the Driveway, as further illustrated in Exhibit C;
7. The Driveway shall remain clear and unobstructed at all times;
8. That a "No Parking Anytime" sign be installed in the side yard permanently, before, during, and after construction;
9. A separate address sign shall be installed on or near the front lot line indicating the address of the Existing Building;
10. That a security system connected to a company that provides continuous supervision monitoring heat, smoke, carbon monoxide and sprinkler flow will be installed in the Existing Building.
11. Except as otherwise set forth herein, this Declaration may not be modified, amended, or terminated without the prior written consent of the Board;
12. The covenants set forth herein shall run with the land and be binding upon and inure to the benefit of the parties hereto and their respective heirs, legal representatives, successors and assigns;
13. In the event that the existing tax lot is subdivided, this Declaration must be recorded against the newly subdivided lot and the covenants set forth herein shall run with that land and be binding upon and inure to the benefit of the parties hereto and their respective heirs, legal representatives, successors, and assigns;
14. Failure to comply with the terms of this declaration may result in the revocation of a building permit or Certificate of Occupancy as well as any other authorization or waiver granted by the Board, including but not limited to, the Variance; and
15. In the event that the Declarant: (1) elects to relinquish the Variance Application, (2) the variance lapses and the Declarant's ability to renew the Variance Application expires, or (3) provisions in the ZR change so that both the Existing Building and the Proposed Building may exist as-of-right or (4) the Existing Building is demolished, this Declaration may be cancelled by the recordation of a Notice of Cancellation at the City Register's Office against the Premises, and upon the filing of such Notice of Cancellation, this Declaration shall automatically cease, extinguish, and be void and of no further force or effect.

THAT the fence located outside of the property line shall be removed prior to the issuance of any building permit;

THAT the existing two-story frame building shall be fully sprinklered; that any future structures constructed on the remaining portion of the subject site shall be fully sprinklered; that the 8-foot side yard shall be maintained clear at all times; that there shall be no parking at any time within the length of the side yard; that a separate address sign shall be installed on or near the front lot line indicating the address of the rear residential building; and that the rear residential building shall install a security system connected to a company that provides continuous supervision to monitor heat, smoke, carbon monoxide and sprinkler flow;

THAT a composite window-wall noise attenuation of 28 dBA shall be required for all proposed building facades,

MINUTES

and an alternate means of ventilation shall be required and shall be incorporated into the building design and construction;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number (“BSA Cal No 2016-4171-BZ”), shall be obtained within four (4) years, by April 9, 2023;

THAT proper handling, transportation and disposal of excavated materials from the site shall be conducted in accordance with applicable New York State Department of Environmental Conservation regulations; that the proposed vapor barrier system shall be used unless an amendment to the January 2019 RAP is approved by DEP; and that at the completion of the project, a professional engineer (P.E.) certified Remedial Closure Report shall be submitted to DEP for review and approval for the proposed project, which shall indicate that all remedial requirements have been properly implemented (that is, proper transportation and disposal manifests and certificates from impacted soils removed and properly disposed of in accordance with all NYSDEC regulations; proof of installation of engineering control system; and two feet of DEP approved certified clean fill and top soil requirement in any landscaped or grass-covered areas not capped with concrete or asphalt, etc.);

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 9, 2019.

2017-131-BZ

CEQR #17-BSA-115K

APPLICANT – Sheldon Lobel, P.C., for Congregation Divrei Yoel, owner.

SUBJECT – Application April 18, 2018 – Variance (§72-21) to permit the construction of a mixed residential and community facility (*Congregation Divrei Yoel*) contrary to ZR §23-153 (Maximum Lot Coverage) and ZR §§24-36 & 23-47 (Required Rear Yards), and ZR 23-33(b) permitted obstructions in rear yard. R7A zoning district.

PREMISES AFFECTED – 77-85 Gerry Street, Block 2266, Lot(s) 46,47,48,49, Borough of Brooklyn.

COMMUNITY BOARD #1BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated May 18, 2018, acting on New Building Application No. 321504813, reads in pertinent part:

The proposed building is contrary to maximum lot coverage pursuant to ZR Section 23153, required rear yard pursuant to ZR Section 2436 and 2347, and Rear Yard Obstruction pursuant to 2433(b)(3); and

WHEREAS, this is an application under ZR § 72-21 to permit, in an R7A zoning district, the development of a seven-story, with cellar, mixed-use residential and community-facility building for use as a house of worship in the cellar through third floors that does not comply with zoning regulations for lot coverage, rear yards, and rear yard obstructions, contrary to ZR §§ 23-153, 24-36, 23-47 and 24-33; and

WHEREAS, a public hearing was held on this application on June 26, 2018, after due notice by publication in *The City Record*, with continued hearings on September 13, 2018, December 4, 2018, February 12, 2019, and then to decision on April 9, 2019; and

WHEREAS, Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 1, Brooklyn, recommends approval of this application; and

WHEREAS, residents of the surrounding area submitted testimony in support of this application; and

WHEREAS, the subject site is located on the north side of Gerry Street, between Harrison Avenue and Throop Avenue, in an R7A zoning district, in Brooklyn; and

WHEREAS, the subject site has approximately 115 feet of frontage along Gerry Street, 100 feet of depth, 11,500 square feet of lot area and is partially vacant (Tax Lot 49) and occupied by three four-story two-family residential buildings (Tax Lots 46, 47 and 48); and

WHEREAS, the applicant proposes to develop, on Tax Lot 49, a seven-story, with cellar, mixed-use residential and community-facility building for use as a house of worship in the cellar through third floors with 10,844 square feet of community-facility floor area (0.94 FAR), lot coverage of 80 percent, a rear yard with depths of 0 feet for three floors and between 30 feet and 35 feet above the third floor, and an obstruction of the rear yard with a height of two stories and 30 feet; and

WHEREAS, the applicant represents that, at the subject site, lot coverage may not exceed 65 percent under ZR § 23-153, rear yards must have a minimum depth of 30 feet under ZR §§ 24-36 and 23-47 and obstruction of the

MINUTES

rear yard by a portion of a building used for community-facility use may not have a height exceeding one story or 23 feet above curb level under ZR § 24-33; and

WHEREAS, the Board acknowledges that the subject house of worship, as a religious institution, is entitled to deference under the law of the State of New York as to zoning and its ability to rely upon programmatic needs in support of this application; and

WHEREAS, specifically, as held in *Cornell University v. Bagnardi*, 68 N.Y.2d 583 (1986), a zoning board must grant an educational or religious institution's application unless it can be shown to have an adverse effect on the health, safety or welfare of the community and general concerns about traffic and disruption of the residential character of the neighborhood are insufficient grounds for the denial of such applications; and

WHEREAS, consistent with ZR § 72-21, the applicant submits that the proposed building is necessary to accommodate the programmatic needs of the subject house of worship and submitted a programmatic needs study demonstrating the following: the subject house of worship requires space to support the subject house of worship's current membership of approximately 212 families with a projected growth rate of 5 percent per year, resulting in a membership of approximately 400 people to be served by the subject house of worship; adequate spaces are necessary for multiple, concurrent daily prayer services that are easily accessible; the provision of two sets of worship and study spaces; space necessary for prayer and lecture; an accessory bath; and location within walking distance of members' residences; and

WHEREAS, the applicant notes that the proposed house of worship contains prayer rooms on the first floor because many members use the accessory bath in the cellar on a daily basis prior to attending prayer sessions, and locating the prayer rooms above the first floor would create difficulties in circulation because members would enter the house of worship at the first floor, descend the stairs into the cellar to use the accessory bath only to then climb multiple flights of stairs to use prayer rooms before ultimately exiting back on the first floor; and

WHEREAS, the applicant notes that an as-of-right development would not meet the programmatic needs of the subject house of worship because the main hall at the first floor would displace prayer rooms, thereby creating the above circulation difficulties and eliminating adjacencies crucial to the programmatic needs of the subject house of worship; and

WHEREAS, consistent with *Cornell University v. Bagnardi*, 68 N.Y.2d 583 (1986), the Board finds that the programmatic needs of the subject house of worship create practical difficulties or unnecessary hardship in complying strictly with applicable zoning regulations that are not created by general circumstances in the neighborhood or district; and

WHEREAS, the applicant notes that, because the subject house of worship is a non-profit organization, this

application need not demonstrate financial hardship; and

WHEREAS, instead, the applicant notes and the Board finds that the variances requested are necessary to accommodate the programmatic needs of the subject house of worship with adequate space and facilities; and

WHEREAS, the applicant states that the proposed building would not alter the essential character of the neighborhood or impair the use or development of adjacent properties; and

WHEREAS, in support of this contention, the applicant studied the surrounding area, finding that the building to the rear of the subject site rises to a height of 65 feet with a rear yard depth of 30 feet; that the 7 feet in height, above the 23 feet of height permitted as of right, to the rear of the proposed building would have minimal impact on light and air to adjacent properties; and that, above the third floor, the proposed building has rear yard depths between 30 feet and 35 feet; and

WHEREAS, the applicant further submitted a lot coverage study, demonstrating that there are a number other buildings in the vicinity with full lot coverage; and

WHEREAS, in response to questions from the Board at hearing, the applicant clarified that the elevator will use a locking system to ensure appropriate separation between the subject house of worship and residences in the proposed building along with a locked door at the cellar level to be used only in the event of an emergency; and

WHEREAS, with respect to building materials, the applicant amended the drawings to reflect that the proposed building will use actual brick masonry, not the thin-brick system originally proposed; and

WHEREAS, the Board notes that no determination herein is made with respect to compliance of the proposed building at the fourth floor and above with respect to street wall setback and dormer regulations under ZR §§ 23-621 and 23-622, and DOB must ensure that the proposed building at the fourth floor and above complies with all applicable regulations; and

WHEREAS, the Board finds that the proposed variance will not alter the essential character of the neighborhood or district in which the subject site is located; will not substantially impair the appropriate use or development of adjacent property; and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the above practical difficulties or unnecessary hardship do not constitute a self-created hardship; and

WHEREAS, the Board finds that the above practical difficulties or unnecessary hardship have not been created by the owner or by a predecessor in title; and

WHEREAS, the applicant states that the proposed variance is the minimum necessary to permit a productive use of the site, as reflected by evidence of programmatic needs of the subject house of worship; and

WHEREAS, in response to questions from the Board with respect to the size and location of spaces within the proposed building, the applicant submitted detailed

MINUTES

schedules for each space demonstrating full utilization based on the programmatic needs of the subject house of worship; and

WHEREAS, accordingly, the Board finds that the proposed variance is the minimum necessary to afford relief within the intent and purposes of the Zoning Resolution; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 17BSA115K, received March 20, 2019; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design; Natural Resources; Hazardous Materials; Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction Impacts; and

WHEREAS, by letter dated March 7, 2017, the New York City Office of Environmental Remediation (“OER”) issues a Notice of Satisfaction, stating that the subject site has satisfied the Hazardous Materials and Air Quality (E) designation (No. E-238) requirements, that OER has no objection to the issuance of a certificate of occupancy and that the January 2017 Site Management Plan has been developed for the subject site to ensure long-term management of Engineering and Institutional Controls at the subject site with the (E) designation (No. E-238) for Hazardous Materials and Air Quality continuing to be administered by OER; and

WHEREAS, by correspondence dated March 22, 2019, the New York City Department of City Planning’s Waterfront and Open Space Division represents that the proposed project will not substantially hinder the achievement of any Waterfront Revitalization Program (“WRP”) policy and that this action is consistent with WRP policies; and

WHEREAS, by correspondence dated July 2, 2018, the New York City Landmarks Preservation Commission represents that the proposed project would not result in any adverse impacts on architectural or archeological resources; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR § 72-21 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore, it is Resolved, that the Board of Standards

and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR § 72-21 to *permit*, in an R7A zoning district, the development of a seven-story, with cellar, mixed-use residential and community-facility building for use as a house of worship in the cellar through third floors that does not comply with zoning regulations for lot coverage, rear yards, and rear yard obstructions, contrary to ZR §§ 23-153, 24-36, 23-47 and 24-33; on condition that all work, operations and site conditions shall conform to drawings filed with this application marked “Received April 9, 2019”-Sixteen (16) sheets; and on further condition:

THAT the bulk parameters of the building shall be as follows: maximum lot coverage of 80 percent, a rear yard with a minimum depth of 0 feet for two stories and obstruction of the rear yard with a height of two stories and a maximum of 30 feet, as illustrated on the Board-approved drawings;

THAT neither Exterior Insulation and Finish System nor face brick shall be used for the façade of the building and only actual brick masonry shall be used, as indicated on the Board-approved drawings;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number (“BSA Cal No 2017-131-BZ”), shall be obtained within four (4) years, by April 9, 2023;

THAT the Department of Buildings must ensure compliance of the proposed building at the fourth floor and above with respect to street wall setback and dormer regulations under ZR §§ 23-621 and 23-622 as well as all other applicable zoning provisions;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 9, 2019.

APPLICANT – Eric Palatnik, P.C., for Joseph LaForgia, owner.

SUBJECT – Application March 15, 2018 – Special Permit (§73-243) to allow for an eating and drinking establishment (UG 6) (Starbucks) with an accessory drive-through facility contrary to ZR §32-15. C1-2/R1-2 zoning district.

PREMISES AFFECTED – 1717 Richmond Road, Block 887, Lot 7, Borough of Staten Island.

COMMUNITY BOARD #2SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Deputy Borough Commissioner, dated February 13, 2018, acting on Department of Buildings (“DOB”) New Building Application No. 520325648, reads in pertinent part:

Eating and drinking establishments with a drive-up window in C1 zoning districts are contrary to the provisions of ZR 32-15 and must be referred to the Board of Standards and Appeals for review; and

WHEREAS, this is an application under ZR §§ 73-243 and 73-03 to permit, in an R1-2 (C1-2) zoning district, the operation of an eating or drinking establishment with accessory drive-through facilities, contrary to ZR § 32-15; and

WHEREAS, a public hearing was held on this application on January 29, 2019, after due notice by publication in *The City Record*, with a continued hearing on April 9, 2019, and then to decision on that same date; and

WHEREAS, Commissioner Scibetta performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 2, Staten Island, recommends approval of this application; and

WHEREAS, the subject site is located on the north side of Richmond Road, between Seaver Avenue and Dongan Hills Avenue, in an R1-2 (C1-2) zoning district, on Staten Island; and

WHEREAS, the subject site has approximately 299 feet of frontage along Richmond Road, a depth that varies between 96 feet at the southern side lot line and 97 feet at the northern side lot line, 29,650 square feet of lot area and is currently vacant; and

WHEREAS, the Board has exercised jurisdiction over tax lots 7 and 3 since November 26, 1968, when, under BSA Cal. No. 541-68-BZ, the Board granted a variance to permit the reconstruction of an automotive service station with accessory uses on condition that all work substantially conform to drawings filed with the application; the signs conform to the provisions for a C1 district; the post sign be

non-rotating and street trees be planted along Richmond Road, in accordance with the rules and regulations of the Department of Parks; the variance be for a term of ten (10) years, to expire November 26, 1978; all other laws, rules and regulations be complied with; and, substantial construction be completed within one (1) year, by November 26, 1969; and

WHEREAS, on May 13, 1969, under BSA Cal. No. 541-68-BZ, the Board reopened and amended the resolution on condition that the automotive service station substantially conform to revised drawings of proposed conditions filed with the application; and, other than as amended the resolution be complied with in all respects; and

WHEREAS, on November 25, 1969, under BSA Cal. No. 541-68-BZ, the Board reopened and further amended the resolution to extend the time to complete construction for one (1) year, by November 26, 1970; and

WHEREAS, on July 11, 1978, under BSA Cal. No. 541-68-BZ, the Board reopened and further amended the resolution to extend the term of the variance for ten (10) years, to expire on November 26, 1988, on condition that the sidewalk and curbs be repaired where required; other than as amended the resolution be complied with in all respects; and, a new certificate of occupancy be obtained within one (1) year, by July 11, 1979; and

WHEREAS, on November 27, 1979, under BSA Cal. No. 541-68-BZ, the Board reopened and further amended the resolution to extend the time to obtain a certificate of occupancy for one (1) year, by November 27, 1980; and

WHEREAS, on January 17, 1989, under BSA Cal. No. 541-68-BZ, the Board reopened and further amended the resolution to extend the term for ten (10) years, to expire on November 26, 1998, on condition that the premises conform to revised drawing of present conditions and proposed conditions filed with the application; there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic; other than as amended the resolution be complied with in all respects; and, a new certificate of occupancy be obtained within one (1) year, by January 17, 1990; and

WHEREAS, on April 9, 1991, under BSA Cal. No. 541-68-BZ, the Board reopened and further amended the resolution to permit a change in the design and arrangement of the existing automotive service station; a change of the existing multiple product dispenser pumps to self-serve pumps; the installation of a fire suppression system, mounted on each existing light standard and the alteration of the existing sales and office area of the accessory building to accommodate an attendant’s booth, substantially as shown on revised drawings of proposed conditions filed with the application, on condition that there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic; substantial construction be completed within one (1) year, by April 9, 1992; and, other than as amended the resolution be complied with in all respects; and

WHEREAS, on October 17, 2000, under BSA Cal. No. 541-68-BZ, the Board waived its Rules of Practice and

MINUTES

Procedure, reopened and further amended the resolution to extend the term for ten (10) years, to expire on November 26, 2008, on condition that the premises be maintained in substantial compliance with the proposed drawings submitted with the application; other than as amended the resolution be complied with in all respects; and, a new certificate of occupancy be obtained within one (1) year, by October 17, 2001; and

WHEREAS, ZR § 73-243 provides:

In C1-1, C1-2 and C1-3 Districts, (except in Special Purpose Districts) the Board of Standards and Appeals may permit eating or drinking places (including those which provide musical entertainment but not dancing, with a capacity of 200 persons or less, and those which provide outdoor table service) with *accessory* drive-through facilities for a term not to exceed five years, provided that the following findings are made:

- (a) the drive-through facility contains reservoir space for not less than 10 automobiles;
- (b) the drive-through facility will cause minimal interference with traffic flow in the immediate vicinity;
- (c) the eating or drinking place with *accessory* drive-through facility fully complies with the *accessory* off-street parking regulations for the indicated zoning district, including provision of the required number of *accessory* off-street parking spaces for the indicated zoning district (for the purpose of this finding, the waiver provisions of Sections 36-231 and 36-232 shall be inapplicable);
- (d) the character of the commercially zoned *street* frontage within 500 feet of the subject premises reflects substantial orientation toward the motor vehicle, based upon the level of motor vehicle generation attributable to the existing *commercial uses* contained within such area and to the subject eating or drinking place (excluding the *accessory* drive-through facility portion);
- (e) the drive-through facility shall not have an undue adverse impact on *residences* within the immediate vicinity of the subject premises; and
- (f) there will be adequate buffering between the drive-through facility and adjacent *residential uses*.

In connection therewith, the Board may modify the requirement of Section 32-411 insofar as it relates to the *accessory* drive-through facility. The Board may prescribe additional appropriate

conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that, pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant states that the proposed eating or drinking establishment will utilize a parking lot, utilized in tandem with the retail establishment located on adjacent tax lots 43 and 41 on tax block 883, containing 37 off-street parking spaces designed for safe maneuvering and that the drive-through lane provides space for the queueing of a minimum of 10 vehicles without interfering with parking; and

WHEREAS, accordingly, the Board finds that the subject drive-through facility contains reservoir space for not less than 10 automobiles; and

WHEREAS, the applicant represents that the subject site layout, including one (1) exit-only curb cut and one (1) entrance/exit curb cut, ensures the least potential to create traffic on Richmond Road or the adjacent roadway network, a concern of the Community Board, the drive-through facility will cause minimal interference with the flow of traffic; and

WHEREAS, accordingly, the Board finds that the subject drive-through facility will cause minimal interference with traffic flow in the immediate vicinity; and

WHEREAS, the applicant states that the proposed commercial building contains approximately 1,988 square feet of floor area, which, pursuant to ZR § 32-20, requires seven (7) off-street parking spaces, and that 372 off-street parking spaces are proposed (seven (7) accessory off-street parking spaces designated for the proposed eating and drinking establishment and 30 accessory off-street parking spaces designated for the adjacent retail building); and

WHEREAS, accordingly, the Board finds that the proposed eating or drinking place with accessory drive-through facility fully complies with the required number of

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

2 Block 883, Lot 41 contains an existing retail building containing 9,137 square feet of floor area and an off-street parking requirement of 30 spaces.

MINUTES

accessory off-street parking spaces for the indicated zoning district; and

WHEREAS, the applicant states that the subject site fronts on Richmond Road, an 80-foot wide street with commercial uses located to the north and south of the subject site with C1-2 and C1-1 overlays and the proposed eating and drinking establishment is specifically located on and adjacent to busy streets to attract motorists already on the roadway, will attract a large portion of its trips from the traffic passing the site and will not add new traffic to the adjacent roadway system; and

WHEREAS, accordingly, the Board finds that the character of the commercially zoned street frontage within 500 feet of the subject site reflects substantial orientation toward the motor vehicle, based upon the level of motor vehicle generation attributable to the existing commercial uses contained within such area and to the subject eating or drinking place (excluding the accessory drive-through facility portion); and

WHEREAS, the applicant represents that the subject site will be lighted to ensure zero (0) light levels on the residential properties located to the rear of the subject site; and

WHEREAS, accordingly, the Board finds that the subject drive-through facility shall not have an undue adverse impact on residences within the immediate vicinity of the subject site; and

WHEREAS, the applicant states that the nearest residential use is approximately 41'-3" from the proposed menu board at the subject site and that safeguards are proposed to minimize any adverse effects on the character of the surrounding area; and

WHEREAS, specifically, the applicant proposes to provide a 17'-1.25" high, one- (1) foot thick, concrete retaining wall along the rear lot line shared with residential properties, planted with cascading vine for its entire length, and proposes to install landscaping around the eating and drinking establishment and planting strips along Richmond Road and in the parking lot with evergreen shrubs and ground cover; and

WHEREAS, accordingly, the Board finds that there will be adequate buffering between the drive-through facility and adjacent residential uses; and

WHEREAS, the applicant states that the proposed hours of operation for the eating and drinking establishment and drive-thru facility are daily from 5:30 a.m. to 9:00 p.m., and that deliveries will be made before the facilities open or after they close; and

WHEREAS, over the course of hearings, the Board raised concerns with respect to the circulation and maneuverability of the parking lot in connection with the queuing of vehicles for the drive-thru, as well as the storage of trash from the eating and drinking establishment; and

WHEREAS, in response, the applicant reoriented the parking spaces and modified the maneuverability, including the use of bollards and signage to aid in the proper circulation of the site, and also represented that the subject

site will store its trash within the proposed building, in a refrigerated room, until it is collected; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed special permit use will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18-BSA-110R, dated March 22, 2019; and

WHEREAS, in light of the foregoing, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 73-243 and 73-03 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-243 and 73-03 to *permit*, in an R1-2 (C1-2) zoning district, the operation of an eating or drinking establishment with an accessory drive-through facility, contrary to ZR § 32-15; *on condition* that all work, site conditions and operations shall conform to drawings filed with this application marked "April 9, 2019"-Ten (10) sheets; and *on further condition*:

THAT this grant shall be limited to a term of five (5) years, expiring April 9, 2024;

THAT trash shall be stored in an interior air-conditioned space inside the eating and drinking establishment building;

THAT landscaping shall be installed, maintained and replaced as necessary, as per plans, to maintain a first-class condition;

THAT the above condition shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number ("BSA Cal. No. 2018-38-BZ") shall be obtained within four (4) years, by April 9, 2023;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

CEQR #18-BSA-0112K

APPLICANT – Law Office of Lyra J. Altman, for Abdo Chakkalo and Norma Chakkalo, owners.

SUBJECT – Application July 13, 2018– Special Permit (§73-622) to permit the enlargement of an existing one family home contrary to ZR §23-142 (floor area ratio, lot coverage and open space) and ZR § 23-47 (rear yard). R4 Special Ocean Parkway district.

PREMISES AFFECTED – 710 Avenue W, Block 7184, Lot 3, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated August 24, 2018, acting on Department of Buildings (“DOB”) Application No. 321628057, reads in pertinent part:

The proposed enlargement of the existing one family residence in an R4 zoning district:

1. Creates non-compliance with respect to floor area by exceeding the allowable floor area ratio and is contrary to Section 23-142 of the Zoning Resolution;
2. Creates non-compliance with respect to the lot coverage and is contrary to Section 23-142 of the Zoning Resolution;
3. Creates non-compliance with respect to the rear yard by not meeting the minimum requirements of Section 23-47 of the Zoning Resolution;
4. Creates non-compliance with respect to the open space by not meeting the minimum requirements of Section 23-142 of the Zoning Resolution; and

WHEREAS, this is an application under ZR § 73-622 to permit, in an R4 zoning district and in the Special Ocean Parkway District, the enlargement of a semi-detached single-family dwelling that does not comply with the zoning requirements for floor area ratio (“FAR”), lot coverage, open space and rear yards contrary to ZR §§ 23-142 and 23-47; and

WHEREAS, a public hearing was held on this application on January 29, 2019, after due notice by publication in *The City Record*, with a continued hearing on April 9, 2019, and then to decision on that date; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of

the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the Board was in receipt of one (1) form letter in support of this application; and

WHEREAS, the subject site is located on the south side of Avenue W, between East 7th Street and Coney Island Avenue, in an R4 zoning district and in the Special Ocean Parkway District, in Brooklyn; and

WHEREAS, the site has approximately 33 feet of frontage on Avenue W, 100 feet of depth, 3,300 square feet of lot area, and is occupied by a two- (2) story plus cellar single-family semi-detached dwelling containing 2,472 square feet of floor area (0.75 FAR), 38 percent lot coverage (1,250 square feet), 62 percent of open space (2,050 square feet), a front yard with a depth of 10’-0.25”, a rear yard with a depth of 33’-11.75”, and one (1) side yard with a width of 10’; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement*¹ of an existing *single- or two-family detached or semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage, open space, floor area, side yard, rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be

¹ Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;

- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that this application located within an area in which the special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge a semi-detached single-family residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant proposes to enlarge the building by both vertically and horizontally extending the dwelling into the rear yard and constructing a masonry shed in the rear yard, resulting in a two- (2) story plus attic and cellar dwelling and rear shed with 4,048 square feet of floor area (1.23 FAR), 51 percent of lot coverage (1,687 square feet), 49 percent of open space (1,613 square feet), a front yard with a depth of 10'-0.25", a rear yard with a depth of 20 feet, and one (1) side yard with a width of 10 feet; and

WHEREAS, specifically, the applicant states that the proposed enlargement would increase the floor area on the first floor from 1,250 square feet of floor area to 1,567 square feet of floor area, the second floor from 1,222 square feet of floor area to 1,585 square feet of floor area, create an attic with 776 square feet of floor area, and create a masonry shed

with 120 square feet of floor area; and

WHEREAS, at the subject site, a maximum FAR of 0.75 is permitted, a maximum of 45 percent lot coverage is permitted, a minimum of 55 percent open space is required, and a rear yard with a minimum depth of 30 feet are required pursuant to ZR §§ 23-142 and 23-47; and

WHEREAS, the applicant provided an analysis of single- or two- (2) family dwellings located within 400 feet of the subject premises within an R4 zoning district (the "Study Area") concluding that, of the 126 qualifying residences, 96 residences (76 percent) have an FAR of greater than 0.75, ranging from 0.77 to 1.58, and 22 residences (18 percent) have an FAR of 1.23 or greater; and

WHEREAS, with regards to lot coverage and open space, the applicant demonstrated that, within the Study Area, 53 residences (42 percent) have greater than 45 percent of lot coverage, ranging from 46 percent to 67 percent, and 21 residences (17 percent) have 51 percent of lot coverage or greater; and

WHEREAS, the applicant provided an analysis of rear yard conditions on the subject block, demonstrating that, of the 32 other single- or two- (2) family dwellings located on interior lots, 11 lots (34 percent) have rear yards with depths of less than 30 feet with rear yards ranging in depth from 20 feet to 27, including the dwelling located adjacent to the subject site, which has a rear yard with a depth of 20 feet; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18-BSA-0112K, dated July 18, 2018; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622 to permit, in an R4 zoning district, the enlargement of a one- (1) family semi-detached dwelling that does not comply with the zoning requirements with regards to floor area ratio, lot

MINUTES

coverage, open space and rear yards, contrary to ZR §§ 23-142 and 23-47; *on condition* that all work shall substantially conform to drawings as they apply to the objection above-noted, filed with this application and marked Received “March 25, 2019”-Eighteen (18) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area ratio of 1.23 (4,048 square feet of total floor area consisting of 3,928 square feet of floor area in the dwelling and 120 square feet of floor area in the masonry shed located in the rear yard), a maximum of 51 percent lot coverage (1,687 square feet), a minimum of 49 percent open space (1,613 square feet) and a rear yard with a minimum depth of 20 feet at all floors as illustrated on BSA-approved plans;

THAT the removal of exterior walls and/or joists in excess of those indicated on the BSA-approved plans is prohibited and shall void the special permit;

THAT substantial construction shall be completed pursuant to ZR § 73-70;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number (“BSA Cal. No. 2018-118-BZ”) shall be obtained within four (4) years, by April 9, 2023;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 9, 2019.

APPLICANT – Jay Goldstein, Esq., for Moishe Loketch, owner.

SUBJECT – Application October 9, 2018 – Special Permit (§73-622) to permit the enlargement of a single-family residence contrary to ZR §23-141 (FAR and Open Space Ratio); ZR §23-461(A) (Side Yard) and ZR §23-47 (Rear Yard). R2 zoning district.

PREMISES AFFECTED – 1123 East 27th Street, Block 7627, Lot 35, Borough of Brooklyn.

COMMUNITY BOARD #14BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and

Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated September 7, 2018, acting on DOB Application No. 321383864, reads in pertinent part:

1. ZR 23-141: Proposed plans are contrary to ZR 23-141 in that the proposed Floor Area Ratio (FAR) exceeds the permitted 50%;
2. ZR 23-141: Proposed plans are contrary to ZR 23-141 in that the proposed Open Space Ratio (OSR) is less than the required 150%;
3. ZR 23-461(a): Proposed plans are contrary to ZR 23-461(A) in that the proposed Side Yards are less than the required 5’-0” and 8’-0”;
4. ZR 23-47: Proposed plans are contrary to ZR 23-47 in that the proposed rear yard is less than 30’-0”; and

WHEREAS, this is an application under ZR § 73-622 to permit, in an R2 zoning district, the enlargement of a detached single-family dwelling that does not comply with the zoning requirements for floor area ratio (“FAR”), open space ratio, side yards and rear yards contrary to ZR §§ 23-141, 23-461(a) and 23-47; and

WHEREAS, a public hearing was held on this application on February 12, 2019, after due notice by publication in *The City Record*, with a continued hearing on April 9, 2019, and then to decision on that date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of East 27th Street, between Avenue K and Avenue L, in an R2 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 40 feet of frontage on East 27th Street, 100 feet of depth, 4,000 square feet of lot area, and is occupied by a two- (2) story plus cellar single-family detached dwelling containing 2,566 square feet of floor area (0.64 FAR), an open space ratio of 1.02 (2,626 square feet of open space), a front yard with a depth of ten (10) feet, two (2) side yards with widths of 3’-4” and ten (10) feet, and a rear yard with a depth of 30’-5”; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement*¹ of an existing *single- or two-family detached or semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and

¹ Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards

to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that this application located within an area in which the special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge a detached single-family residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant proposes to enlarge the building by both vertically and horizontally extending the dwelling along the side yards and into the rear yard, resulting in a three- (3) story plus cellar dwelling with 3,810 square feet of floor area (0.95 FAR), an open space ratio of 0.62 (2,363 square feet of open space), a front yard with a depth of ten (10) feet, two (2) side yards with widths of 3'-4" and ten (10) feet, and a rear yard with a depth of 24 feet; and

WHEREAS, specifically, the applicant states that the proposed enlargement would increase the floor area on the first floor from 1,374 square feet to 1,637 square feet, the second floor from 1,192 square feet to 1,430 square feet, and create a third floor with 744 square feet of floor area; and

WHEREAS, at the subject site, a maximum FAR of 0.50 is permitted, a minimum open space ratio of 1.5 is required, two (2) side yards, each five (5) feet in width and 13 feet of total side yard are required, and a rear yard with a minimum depth of 30 feet is required pursuant to ZR §§ 23-141, 23-461(a) and 23-47; and

WHEREAS, the proposed enlargement includes a vertical and horizontal extension of the existing non-complying 3'-4" side yard and the Board notes that, pursuant to a 1930 Sanborn Map including the subject site provided by the applicant, the subject site was developed with a detached dwelling in approximately the same location and orientation as the site is occupied today and, thus, the non-complying northern side yard predated the 1961 Zoning Resolution and is a legal non-compliance; and

WHEREAS, the applicant provided an analysis of single- or two-family dwellings located within 400 feet of the subject premises within an R2 zoning district (the "Study Area") concluding that, of the 112 qualifying residences, 94 residences (84 percent) have an FAR of greater than 0.5, ranging from 0.51 to 1.13, and 16 residences (14 percent) have an FAR of 0.95 or greater; and

WHEREAS, the applicant provided an analysis of rear yard conditions on the subject block, demonstrating that, of the 42 other single- or two- (2) family dwellings located on interior lots, 17 lots (41 percent) have rear yards with depths of less than 30 feet with rear yards ranging in depth from 14 feet to 29, including the dwellings located immediately adjacent to and to the rear of the subject site, which all have a rear yards with a depth of 20 feet and two of which (the lot immediately north of the subject site and the lot to the rear of the subject site) also have detached garages located in the rear yard; and

MINUTES

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 19-BSA-039K, dated October 11, 2018; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622 to permit, in an R2 zoning district, the enlargement of a one- (1) family detached dwelling that does not comply with the zoning requirements with regards to floor area ratio, open space ratio, side yards and rear yards, contrary to ZR §§ 23-141, 23-461(a) and 23-47; *on condition* that all work shall substantially conform to drawings as they apply to the objection above-noted, filed with this application and marked Received “April 9, 2019”-Fifteen (15) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area ratio of 0.95 (3,810 square feet of floor area), a minimum open space ratio of 0.62 (2,363 square feet of open space) two (2) side yards with minimum widths of 3’-4” and ten (10) feet, and a rear yard with a minimum depth of 24 feet at all stories, as illustrated on BSA-approved plans;

THAT the removal of exterior walls and/or joists in excess of those indicated on the BSA-approved plans is prohibited and shall void the special permit;

THAT substantial construction shall be completed pursuant to ZR § 73-70;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number (“BSA Cal. No. 2018-155-BZ”) shall be obtained within four (4) years, by April 9, 2023;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 9, 2019.

1-96-BZ

APPLICANT – New York City Board of Standards and Appeals.

SUBJECT – Application August 2, 2016 – Amendment for an extension of an existing school building to add 3rd and 4th floors. R5 zoning district.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated June 22, 2018, acting on Department of Buildings (“DOB”) Application No. 321438654, reads in pertinent part:

1. Proposed enlargement results in a rear yard of less than 30 feet, which is contrary to ZR Section 23-47; and

WHEREAS, this is an application under ZR § 73-622 to permit, in an R5 zoning district, within the Special Ocean Parkway District and partially within the Special Ocean Parkway Subdistrict, the enlargement of a detached single-family dwelling that does not comply with the zoning requirements for rear yards contrary to ZR § 23-47; and

WHEREAS, a public hearing was held on this application on April 9, 2019, after due notice by publication in *The City Record*, and then to decision on that date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the Board was in receipt of two (2) form letter in support of, and one (1) form letter in opposition to, this application; and

WHEREAS, the subject site is located on the south side

MINUTES

of Avenue R, between East 9th Street and Coney Island Avenue, in an R5 zoning district, within the Special Ocean Parkway District and partially within the Special Ocean Parkway Subdistrict, in Brooklyn; and

WHEREAS, the site has approximately 36 feet of frontage on Avenue R, 95 feet of depth, 3,420 square feet of lot area, and is occupied by a two (2) story plus cellar single-family detached dwelling containing 1,862 square feet of floor area (0.54 FAR), a front yard with a depth of 16'-5", two (2) side yards with widths of 7'-10.25" and 8'-0.25", and a rear yard with a depth of 24'-0.5"; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement*¹ of an existing *single- or two-family detached or semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage, open space, floor area, side yard, rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;

- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and

- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that this application located within an area in which the special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge a detached single-family residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant proposes to enlarge the building by horizontally extending the dwelling into the eastern side yard, front yard and rear yard, resulting in a two-(2) story plus cellar dwelling with 2,357 square feet of floor area (0.69 FAR), a front yard with a depth of ten (10) feet two (2) side yards with widths of five (5) feet and 8'-0.25", and a rear yard with a depth of 20 feet at the first floor; and

WHEREAS, specifically, the applicant states that the proposed enlargement would increase the floor area on the first floor from 949 square feet to 1,444 square feet, but no enlargement of the second floor will occur; and

WHEREAS, the applicant proposes no enlargement at the second floor, but provided a 1929 Sanborn fire insurance map of the subject site and immediate area demonstrating the occupation of the subject site with a residence in substantially the same location and orientation as the site is occupied today and, thus, that the existing rear yard predates the enactment of the Zoning Resolution and is a lawful non-compliance; and

WHEREAS, at the subject site, a rear yard with a minimum depth of 30 feet is required pursuant to ZR § 23-47; and

¹ Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

WHEREAS, the applicant provided an analysis of rear yard conditions on the subject block, demonstrating that, of the 20 other single- or two- (2) family dwellings located on interior lots, 7 lots (35 percent) have rear yards with depths of less than 30 feet with rear yards ranging in depth from 0 feet to 21 feet, including the dwellings located immediately to the west and east of the subject site which have rear yards with depths of 11 feet and seven (7) feet, respectively; and

WHEREAS, at hearing, the Board expressed concern regarding the retention of existing floor joists, citing that the proposal retains only 43.3 percent of the floor joists on the first floor; and

WHEREAS, however, in this instance, the Board explained that, because 100 percent of the floor joists are being retained in their existing locations on the second floor, where no enlargement is proposed, the retention of an average of 72 percent of the existing building's floor joists across the two (2) existing floors was deemed appropriate in this application; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA146K, dated June 28, 2018; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622 to permit, in an R5 zoning district, within the Special Ocean Parkway District and partially within the Special Ocean Parkway Subdistrict, the enlargement of a single-family detached dwelling that does not comply with the zoning requirements with regards to rear yards, contrary to ZR § 23-47; *on condition* that all work shall substantially conform to drawings as they apply to the objection above-noted, filed with this application and marked Received "February 5, 2019"-Fourteen (14) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the

building: a rear yard with a minimum depth of 20 feet at the first floor, as illustrated on BSA-approved plans;

THAT all floor joists on the second floor shall be retained in location, as indicated on the BSA-approved plans;

THAT there shall be no enlargement of the second floor;

THAT the removal of exterior walls and/or joists in excess of those indicated on the BSA-approved plans is prohibited and shall void the special permit;

THAT substantial construction shall be completed pursuant to ZR § 73-70;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number ("BSA Cal. No. 2018-103-BZ") shall be obtained within four (4) years, by April 9, 2023;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 9, 2019.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated September 5, 2018, acting on Department of Buildings ("DOB") Application No. 123476014, reads in pertinent part:

The proposed Physical Culture Establishment in

MINUTES

zoning district C6-4M and C6-2A is not a permitted use, as of right. A Special Permit is required from the Board of Standards and Appeals; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, on a site located partially within a C6-4M zoning district and partially within a C6-2A zoning district, in the Ladies' Mile Historic District, a physical culture establishment ("PCE") on portions of the cellar level and first floor of an existing 11-story plus cellar commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on April 9, 2019, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the subject site and surrounding neighborhood; and

WHEREAS, Community Board 5, Manhattan, waived its recommendation of this application; and

WHEREAS, the subject site is located on the southeast corner of East 15th Street and Fifth Avenue, partially within a C6-4M zoning district and partially within a C6-2A zoning district, in the Ladies' Mile Historic District, in Manhattan; and

WHEREAS, the site has approximately 150 feet of frontage along East 15th Street, 77 feet of frontage along Fifth Avenue, 12,261 square feet of lot area and is occupied by an existing 11-story plus cellar commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use*1 is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racquetball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant represents that the proposed PCE will occupy 7,582 square feet of floor space in portions of the cellar with men's and women's locker rooms with toilets and showers, a co-ed steam room and sauna, spaces for meditation and fitness, exam and consultation rooms, treatment rooms, and spaces for storage, laundry and mechanical equipment; and 4,752 square feet of floor area on portions of the first floor with spaces for yoga and massage, a library, lounge, café, restrooms and employee pantry; and

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

WHEREAS, the PCE is proposed to operate as “The Well,” operating daily from 5:30 a.m. to 12:00 a.m.; and

WHEREAS, the applicant states that the PCE will be located entirely below commercial uses in the subject building, and there will be very limited, if any, use of weights, mostly handheld barbells of lower weight in connection with personal training; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because the PCE will be consistent with the character of the neighborhood, anticipates to draw a majority of its clientele from the immediate vicinity, who will walk or use mass transit to access the site; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant submits that the PCE will contain facilities for classes, instruction and programs for physical improvement, body building, weight reduction and aerobics, and facilities for the practice of massage by New York State licensed massage therapists; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood and anticipates that the PCE will pose no potential hazards because the facility will be located within an existing structure, mostly within the cellar; and

WHEREAS, the applicant states that an approved fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—will be installed within the proposed PCE space; and

WHEREAS, by letter dated March 29 2019, the Fire Department states that a public assembly application is not required for the proposed PCE and confirms that the premises are protected by a sprinkler, standpipe and fire alarm systems that have been inspected and tested satisfactory to Fire Department standards; that an alteration type II (123556473) application has been filed for modification of the fire alarm system in the PCE space; that the Department will assist the applicant for plan approval after the Board has rendered a decision on this application and the Department has no objection to the subject application; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by

the community; and

WHEREAS, the applicant submits that, by New York City Landmarks Preservation Commission (“LPC”) Certificate of No Effect (CNE-19-35702), issued March 19, 2019, LPC permitted alterations to the subject building in connection with the proposed PCE, including the installation of one (1) white finished metal bracket sign with black lettering (“W”, “The Well”) on a black finished metal armature at a masonry pier at the first floor of the north (East 15th Street) façade; and white vinyl lettering and logos at four (4) display windows, one (1) entryway transom, and entryway door at the first floor of the north façade; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 19BSA037M, dated September 27, 2018; and

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, permitting the proposed PCE on portions of the cellar level and first floor, is appropriate, with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located partially within a C6-4M zoning district and partially within a C6-2A zoning district, in the Ladies’ Mile Historic District, the operation of a proposed physical culture establishment on the cellar level and first floor of an existing 11-story plus cellar commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received November 15, 2018”-Five (5) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on April 9, 2029;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT all massages shall be provided by New York State licensed massage therapists;

THAT accessibility compliance under Local Law 58/87 will be as reviewed and approved by DOB;

THAT an approved fire alarm system and sprinkler shall be maintained as indicated on the Board-approved plans;

THAT minimum 3 foot wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the certificate of occupancy;

MINUTES

THAT a certificate of occupancy, also referencing this approval and calendar number (“BSA Cal. No. 2018-152-BZ”), shall be obtained within four (4) years, by April 9, 2023;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 9, 2019.

MINUTES

**REGULAR MEETING
TUESDAY MORNING, APRIL 23, 2019
10:00 A.M.**

Present: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.

SPECIAL ORDER CALENDARS

122-07-BZ

APPLICANT – Law Office of Fredrick A. Becker, for NG Kingswood Center, LLC, owner; TSI Midwood LLC dba New York Sports Club, lessee.

SUBJECT – Application February 26, 2019 – Extension of Term of a previously approved Special Permit (§73-36) permitting the operation of a Physical Culture Establishment (New York Sports Club) on portions of the first and second floors of a three-story commercial building which expired on August 1, 2017; Waiver of the Board’s Rules. C4-4A zoning district.

PREMISES AFFECTED – 1630 East 15th Street, Block 6777, Lot 17, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, an extension to the term of the special permit for a physical culture establishment (“PCE”), previously granted pursuant to ZR § 73-36, which expired on August 1, 2017, and the amendment of the same; and

WHEREAS, a public hearing was held on this application on February 26, 2019, after due notice by publication in *The City Record*, with a continued hearing on April 23, 2019, and then to decision on that same date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is bound by East 15th Street to the east, East 14th Street to the west, between Avenue P and Kings Highway, in a C4-4A zoning district, in Brooklyn; and

WHEREAS, the site has approximately 240 feet of frontage along East 15th Street, 240 feet of non-continuous frontage on East 14th Street, 200 feet of depth, 47,200 square feet of lot area and is occupied by a three- (3) story commercial building; and

WHEREAS, the subject PCE is located within portions of the first floor (15,500 square feet of floor area) and second floor (2,500 square feet of floor area) of the subject building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since February 5, 2008, when, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-36, to legalize a PCE on the first floor and second floor of an existing three- (3) story commercial building, on condition that all work substantially conform to drawings filed with the application; the term of the grant expire on August 1, 2017; there be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board; all massages be performed by New York State licensed massage therapists; the conditions appear on the certificate of occupancy; Local Law 58/87 compliance be as reviewed and approved by the Department of Buildings (“DOB”); fire safety measures be installed and/or maintained as shown on the Board-approved plans; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); the approved plans be considered approved only for the portions related to the specific relief granted; and the DOB ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, the term of the special permit having expired, the applicant requests the subject relief; and

WHEREAS, the applicant additionally requests a waiver, pursuant to § 1-14.2 of the Board’s Rules of Practice and Procedure, of Rule § 1-07.3(b)(2) to permit the filing of this application less than two (2) years after the expiration of the term of the special permit; and

WHEREAS, the applicant represents that no changes to the operator (New York Sports Club) of the PCE have occurred or are proposed, and that massage services are no longer provided at the PCE; and

WHEREAS, the applicant also requests an amendment to reflect a change in the hours of operation of the PCE to the following: Monday through Thursday, 5:30 a.m. to 11:00 p.m.; Friday, 5:30 a.m. to 10:00 p.m.; Saturday, 8:00 a.m. to 11:00 p.m.; and Sunday, 7:30 a.m. to 8:00 p.m.; and

WHEREAS, by letter dated February 25, 2019, the Fire Department states that the Fire Department Bureau’s Licensed Public Place of Assembly (“LPPA”) unit

1 At the time of the initial Board grant, the subject site was located on Block 6777, Lots 17 and 24, partially within a C4-4A zoning district and partially within an R5B zoning district. The applicant represents that the tax lots have since been merged into tax lot 17 and, pursuant to New York City Department of City Planning zoning map amendment application C100232ZMK, effective April 6, 2011, the subject site is completely located within a C4-4A zoning district.

MINUTES

performed an inspection on November 8, 2018 and one (1) violation order was issued requiring the removal of locking devices from the front main exits; that the fire alarm and sprinkler systems were inspected and tested satisfactory to Fire Department standards; and the Fire Department has no objection to the Board rendering a decision on this application as the Bureau of Fire Prevention will continue to inspect these premises and enforce any outstanding violation orders; and

WHEREAS, pursuant to ZR § 73-03(f), the applicant has satisfactorily demonstrated compliance with the conditions of the previous term and the Board finds that the circumstances warranting the original grant still obtain; and

WHEREAS, accordingly, the Board finds that an extension of term of the special permit and the subject amendment to reflect new hours of operation of the PCE are appropriate with the conditions set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* Rule § 1-07.3(b)(2) of its Rules of Practice and Procedure and *amends* the resolution, dated February 5, 2008, so that, as amended, this portion of the resolution reads: “to permit an extension of term of the special permit, to expire on August 1, 2027, *on condition* that the use and operation of the site shall conform to drawings filed with this application marked ‘March 28, 2019’-Five (5) sheets; and *on further condition*:

THAT the term of this grant shall expire on August 1, 2027;

THAT the hours of operation shall be limited to the following: Monday through Thursday, 5:30 a.m. to 11:00 p.m.; Friday, 5:30 a.m. to 10:00 p.m.; Saturday, 8:00 a.m. to 11:00 p.m.; and Sunday, 7:30 a.m. to 8:00 p.m.;

THAT all signage on the site shall comply with all applicable provisions of the Zoning Resolution;

THAT there shall be no change in ownership or operating control of the PCE without prior approval from the Board;

THAT minimum three (3) foot wide exit pathways to required exits shall always be maintained unobstructed, including that from any gymnasium equipment;

THAT sprinklers and interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, connection of the interior fire alarm and sprinklers to a FDNY-approved central station—shall be maintained throughout the PCE space as indicated on the Board-approved plans;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a new certificate of occupancy, also indicating this approval and calendar number (“BSA Cal. No. 122-07-BZ”) shall be obtained within one (1) year, by April 23, 2020;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed

DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, April 23, 2019.

231-14-BZ

APPLICANT – Bryan Cave Leighton Paisner, for Orangetheory Fitness, owner; OTF Man One LLC c/o dba Orange Theory Fitness, lessee.

SUBJECT – Application May 11, 2018 – Extension of Term of a previously approved Special Permit (§73-36) which permitted the operation of a physical culture establishment (Orangetheory Fitness) within a portion of an existing commercial building which expired on April 12, 2018. C6-3X zoning district.

PREMISES AFFECTED – 124 West 23rd Street, Block 798, Lot 7507, Borough of Manhattan.

COMMUNITY BOARD #4M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for an extension to the term of a special permit for a physical culture establishment (“PCE”), previously granted by the Board pursuant to ZR § 73-36, which expired on April 12, 2018; and

WHEREAS, a public hearing was held on this application on September 27, 2018, after due notice by publication in *The City Record*, with continued hearings on December 4, 2018, February 26, 2019, and April 23, 2019, and then to decision on that date; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 4, Manhattan, recommends disapproval of this application unless the residents of the condominiums residing above the facility state in writing that treadmill and music noise from the gym no longer disturbs them; and

WHEREAS, the Board was in receipt of three (3) letters from residents of the subject building and received testimony at the public hearings from the president of the subject building’s condominium board in opposition to the application raising concerns regarding noise disturbances associated with the operation of the PCE; and

WHEREAS, the subject site is located on the south

MINUTES

side of West 23rd Street, between Seventh Avenue and Avenue of the Americas, in C6-3X zoning district, in Manhattan; and

WHEREAS, the site has approximately 50 feet of frontage along West 23rd Street, 99 feet of depth, 4,937 square feet of lot area, and is occupied by an existing 16-story plus cellar mixed-use residential and commercial building; and

WHEREAS, the subject PCE occupies 3,646 square feet of floor area on the first floor of the subject building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since April 12, 2016, when, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-36, to legalize an existing PCE on the first floor of the subject premises, on condition that all work substantially conform to drawings filed with the application; the term of the PCE grant expire on April 12, 2018; there be no complaints about the PCE from neighbors at the time of the hearing for renewal of the grant; when the application for renewal of the subject special permit be substantially complete, the applicant provide affected property owners with the hearing notice and related forms pursuant to Board Rule of Practice and Procedure §§ 1-05.6 and 1-05.7; there be no change in ownership or operating control of the PCE without prior application to and approval from the Board; exit pathways with a minimum width of 3'-0" be provided leading to the required exits and such pathways be maintained unobstructed, including from any gymnasium equipment; an approved fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and a connection to an FDNY approved central station—be installed in the entire PCE space; Local Law 58/87 be complied with as approved by the Department of Buildings ("DOB"); an automatic wet sprinkler system be installed in the entire space as per DOB approval; all partitions and exits be as approved by DOB; full "box in box" acoustically isolated construction with double-rocked spring isolated ceiling, resiliently isolated double-rocked walls, and a two- (2) inch thick isolated concrete floor with 3/4-inch rubber gym finish floor on one- (1) inch thick rollout isolation mat (in the gym, except not in the weight section), and five- (5) inch thick acoustical rubber foam matting (in the weight section of the gym) be installed; all wall and ceiling cavities be filled with mineral fiber insulation; sound-absorptive treatment (three- (3) inch spray cellulose) be applied to the ceilings to control sound inside the gym area; electronic limiters be installed on sound equipment to ensure that music does not exceed preset levels; the conditions appear on the certificate of occupancy; all DOB and related agency application(s) filed in connection with the authorized use and/or bulk be signed off by DOB and all relevant agencies by April 12, 2020; the approval be limited to the relief granted by the Board in response to specifically cited objection(s); the approved plans be considered approved only for the portions related to the specific relief granted; and, DOB ensure compliance with all of the applicable

provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, the previous term of the special permit having expired, the applicant requests the subject relief; and

WHEREAS, the applicant represents that there has been no change in ownership or operation and that the subject PCE continues to operate as Orangetheory Fitness, operating daily from 5:00 a.m. to 10:00 p.m.; and

WHEREAS, the applicant represents that an approved sprinkler system and interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and a connection of the interior fire alarm to an FDNY-approved central station—are maintained throughout the PCE space; and

WHEREAS, by letter dated September 26, 2018, the Fire Department submitted a letter of no objection stating that applications have been filed with the DOB for the fire alarm system, fire suppression systems and place of assembly; and that a review of Fire Department records indicated that all FDNY permits for the fire alarm system and fire suppression systems are current; and

WHEREAS, the applicant represented that the PCE has received several noise complaints from neighbors since the April 2016 grant, and PCE ownership has and continues to work with the neighbors to address any noise complaints; and

WHEREAS, over the course of hearings, the Board raised concerns regarding the disturbances to the building tenants resulting from the operation of the PCE and requested that the tenants log their noise complaints and notify the PCE and coordinate with them to view PCE security camera footage if and when they experience any such disturbances; and

WHEREAS, the applicant engaged a sound consultant and provided the Board with evidence of acoustic testing, occurring on January 24, 2019, and March 21, 2019, of the PCE's impact on the neighbor's apartments; and

WHEREAS, at the April 23, 2019 hearing, the president of the subject building's condominium board represented that the PCE made improvements thus reducing the disturbances caused by the PCE; and

WHEREAS, pursuant to ZR § 73-03(f), the applicant has satisfactorily demonstrated compliance with the conditions of the previous term and the Board finds that the circumstances warranting the original grant still obtain; and

WHEREAS, in light of the concerns raised by the Community Board and building tenants, the Board, accordingly, finds that a five (5) year, rather than ten (10) year, extension of the term of the special permit is appropriate, with the conditions set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *amends* the resolution, dated April 12, 2016, so that, as amended, this portion of the resolution reads: "to grant an extension term for five (5) years, to expire on April 12, 2023, *on condition*:"

MINUTES

THAT the term of this grant shall expire on April 12, 2023;

THAT the PCE operator shall set up and maintain a protocol with the subject building's condominium board to keep track of noise complaints received and mitigation measures taken in response;

THAT measures shall be taken to mitigate any disturbances created by the operation of the PCE;

THAT there shall be no complaints about the PCE from neighbors at the time of the hearing for renewal of the grant;

THAT when the application for renewal of the subject special permit is substantially complete, the applicant shall provide affected property owners with the hearing notice and related forms pursuant to Board Rule of Practice and Procedure §§ 1-05.6 and 1-05.7;

THAT exit pathways with a minimum width of 3'-0" shall be provided leading to the required exits and such pathways be maintained unobstructed, including from any gymnasium equipment;

THAT an approved fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and a connection to an FDNY approved central station—shall be maintained in the entire PCE space;

THAT Local Law 58/87 shall be complied with as approved by the Department of Buildings ("DOB");

THAT an automatic wet sprinkler system shall be maintained in the entire space as per DOB approval; all partitions and exits be as approved by DOB;

THAT full "box in box" acoustically isolated construction with double-rocked spring isolated ceiling, resiliently isolated double-rocked walls, and a two- (2) inch thick isolated concrete floor with 3/4-inch rubber gym finish floor on one- (1) inch thick rollout isolation mat (in the gym, except not in the weight section), and five- (5) inch thick acoustical rubber foam matting (in the weight section of the gym) shall be maintained;

THAT all wall and ceiling cavities shall be filled with mineral fiber insulation;

THAT sound-absorptive treatment (three- (3) inch spray cellulose) shall be maintained on the ceilings to control sound inside the gym area;

THAT electronic limiters be maintained on sound equipment to ensure that music does not exceed preset levels;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number ("BSA Cal. No. 231-14-BZ") shall be obtained within one (1) year, by April 23, 2020;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, April 23, 2019.

159-00-BZ

APPLICANT – Eric Palatnik, P.C., for Al-Iman Center, Inc., owner.

SUBJECT – Application September 21, 2015 – Extension of Term & Amendment (72-01): extension of term of a previously granted variance of a Use Group 3 school and an Amendment for elimination of the term of the variance and a change and minor plumbing and portion alterations. C8-2 zoning district.

PREMISES AFFECTED – 383 3rd Avenue, Block 980, Lot 1, Borough of Brooklyn.

COMMUNITY BOARD #6BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated August 21, 2015, reads in pertinent part:

“Proposed extension of term and minor amendments are contrary to BSA Calendar Number 159-00-BZ and therefore must be referred to the NYC Board of Standards and Appeals”; and

WHEREAS, this is an application for a waiver of the Board's Rules of Practice and Procedure, an extension of term of a variance, previously granted by the Board, and an amendment to legalize existing conditions at the subject site; and

WHEREAS, a public hearing was held on this application on July 18, 2017, after due notice by publication in *The City Record*, with continued hearings on September 26, 2017, October 11, 2018, December 4, 2018, and January 29, 2019, and then to decision on April 23, 2019; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 6, Brooklyn, recommends approval of this application on condition that the applicant remove an existing DOB violation for failure to obtain a certificate of occupancy; and

WHEREAS, the subject site is located on the east side of Third Avenue, between 3rd Street and 5th Street, in a C8-2 zoning district, in Brooklyn; and

MINUTES

WHEREAS, the site has approximately 132 feet of frontage along Third Avenue, 114 feet of depth, 12,743 square feet of lot area and is occupied by a five-story, with cellar, community-facility used as a school; and

WHEREAS, the Board has exercised jurisdiction over the subject site since December 12, 2000, when, under the subject calendar number, the Board granted a variance to permit a building formerly used for heavy timber to be used as a school for a term of ten (10) years, expiring December 12, 2010, on condition that the hours of operation of the school shall be limited to 8:00 a.m. to 3:00 p.m., Monday through Friday, for students and until 5:00 p.m. for teachers and staff; and that, to facilitate the movement of school buses, emergency vehicles and other vehicles on 3rd Avenue from 6th Street to 3rd Street, a “no parking 7:00 a.m.–4:00 p.m. school days” sign shall be posted in front of the proposed main entrance to the school; and

WHEREAS, the term of the variance having expired, the applicant now seeks an extension and an amendment to legalize existing conditions, including the addition of a staircase, minor partition alterations, the addition of a cellar under the one-story portion of the building and an extension of the hours of operation from 8:00 a.m. to 3:00 p.m. to 7:30 a.m. to 5:00 p.m.; and

WHEREAS, additionally, the applicant requests a waiver of Section 1-07.3(3)(ii) of the Board’s Rules of Practice and Procedure to allow the late filing of this application and submits that the school use has been continuous since the expiration of the term and substantial prejudice would occur without such waiver because it would result in the termination of a school that has operated at the subject site for more than a decade; and

WHEREAS, the applicant submits that the subject school has expanded its enrollment from 600 students to 800 students, which is a permitted occupancy that was accounted for as projected growth in constructing the subject school; that accordingly expanded hours of operation are necessary; and that there are 31 classrooms in the subject building; and

WHEREAS, in response to questions from the Board, the applicant clarified that this application no longer proposes to enlarge the subject site to include an adjacent property and that the adjacent property will instead be used as a Use Group 4 playground, which is permitted as of right and which the subject school will be allowed to use pursuant to a revocable consent; and

WHEREAS, the applicant also clarified the operation of the subject school, noting the following: five school buses arrive in 5–15 minute intervals between 7:00 a.m. and 7:45 a.m. and between 3:00 p.m. and 3:30 p.m.; school administrators oversee drop offs and pickups in an orderly manner through the use of wireless telecommunication devices; the subject site accommodates 800 students, 110 staff members, 31 classrooms, recreational space in the rear yard, an auditorium and a lunch room, three after-school programs with additional after-school functions; and

WHEREAS, the applicant submitted evidence that a refrigerated trash enclosure has been installed in the cellar of

the building and that a cage around the subject building’s exit door has been removed and replaced with a hand railing; and

WHEREAS, the applicant submits that this application is necessary in order to obtain a certificate of occupancy and that there are two places of assembly, located in the cellar and on the fifth floor; and

WHEREAS, the applicant submits that the outstanding violation referenced by the community board will be addressed by obtaining a certificate of occupancy upon approval of this application; and

WHEREAS, by letter dated April 18, 2019, the Fire Department states that it has no objection to this application on condition that the applicant shall cure outstanding violation orders regarding maintenance of a required fire alarm system and exist doors free of locks, regarding obtaining a Place of Assembly Certificate of Operation and regarding legalizing the existing altered fire extinguishing system for the commercial cooking equipment and exhaust system; and

WHEREAS, by letter dated April 19, 2019, the Fire Department states that plans for an altered fire extinguishing system protecting the commercial cooking equipment and exhaust system have been approved and that an authorized contractor may submit a request to the Fire Department for an acceptance test to be witnessed by a Range Hood Unit representative; and

WHEREAS, lastly, the applicant proposes to eliminate the term of the variance; and

WHEREAS, however, at hearing, the Board expressed concerns with the applicant’s representations about compliance with the conditions of the Board’s grant and accordingly finds that a five (5) year term is more appropriate, given the history of the subject site; and

WHEREAS, the Board notes that, if the applicant proceeds to comply with conditions of the Board’s grant, including obtaining a certificate of occupancy as noted by the community board, a longer term may be appropriate at a future time; and

WHEREAS, based upon its review of the record, the Board has determined that the requested waiver of the Board’s Rules of Practice and Procedure, extension of term and amendment are appropriate with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *waive* the Board’s Rules of Practice and Procedure *reopen* and *amend* the resolution, dated December 12, 2000, so that as amended this portion of the resolution shall read: “to *permit* an extension of term of five (5) years, expiring April 23, 2024, and to *legalize* the existing conditions at the subject site; *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received April 3, 2019”-Ten (10) sheets; and *on further condition*:

THAT the term of the variance shall be limited to five (5) years, expiring April 23, 2024;

THAT the Department and Building and the Fire

MINUTES

Department shall inspect and review the compliance of the building and drawings to ensure compliance with the Building Code and Fire Code;

THAT the hours of operation of the school shall be limited to 7:30 a.m. to 5:00 p.m., Monday through Friday;

THAT to facilitate the movement of school buses, emergency vehicles and other vehicles on 3rd Avenue from 6th Street to 3rd Street, a “no parking 7:00 a.m.–4:00 p.m. school days” sign shall be posted and maintained in front of the proposed main entrance to the school;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number (“BSA Cal No 159-00-BZ”), shall be obtained within one (1) year, by April 23, 2020;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, April 23, 2019.

246-01-BZ

APPLICANT – Eric Palatnik, P.C., for Bodhi Fitness Center Inc., owner.

SUBJECT – Application June 15, 2018 – Extension of Term of a previously approved Special Permit (73-36) which permitted the operation of a Physical Cultural Establishment (Bodhi Fitness Center) which expired on June 1, 2018; Amendment to permit the enlargement of the establishment by 4,037.41 square feet. C2-2/R6 zoning district.

PREMISES AFFECTED – 35-11 Prince Street, Block 4958, Lot 1, Borough of Queens.

COMMUNITY BOARD #7Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for an extension to the term of the special permit for a physical culture establishment (“PCE”), previously granted pursuant to ZR § 73-36, which expired on June 1, 2018, and the amendment of the same; and

WHEREAS, a public hearing was held on this application on April 23, 2019, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, Community Board 7, Queens, recommends approval of this application; and

WHEREAS, the subject site is an irregular site with frontage on Prince Street and 35th Avenue, partially within an M1-1 zoning district and partially within an R6 (C2-2) zoning district, in Queens; and

WHEREAS, the site has approximately 130 feet of non-continuous frontage along Prince Street, 74 feet of frontage along 35th Avenue, 27,624 square feet of lot area and is occupied by a one- (1) story plus cellar commercial building; and

WHEREAS, the subject PCE is located within a portion of the first floor (17,318 square feet of floor area) of the subject building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since June 11, 2002, when, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-36, to legalize the operation of a PCE, containing 8,962 square feet of floor area, on the first floor of the subject building on condition that all work substantially conform to drawings, as they apply to the objections, filed with the application; a sign be posted within the PCE stating that no children under the age of eighteen (18) be permitted; there be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board; accessory parking in the cellar be provided and maintained for 16 cars with an entrance from 35th Avenue with clearly visible signs to be posted, identifying spaces designated for PCE members only; fire protection measures, including a wet sprinkler and smoke detection system connected to a Fire Department-approved central station, be maintained in accordance with the BSA-approved plans; the special permit be limited to a term of ten (10) years from June 1, 1998, to expire June 1, 2008; the above conditions appear on the certificate of occupancy; the approval be limited to the relief granted by the Board in response to specifically cited and filed Department of Buildings (“DOB”)/other jurisdiction objection(s) only; the approved plans be considered approved only for the portions related to the specific relief granted; and, the DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted; and

WHEREAS, on August 25, 2009, under the subject calendar number, the Board waived its Rules of Practice and Procedure and amended the resolution to extend the term for a period of ten (10) years, to expire on June 1, 2018, on condition that any and all work substantially conform to drawings as they apply to the objections, filed with the application; there be no change in ownership or operating control of the physical culture establishment without prior

MINUTES

application to and approval from the Board; all conditions from prior resolutions not specifically waived by the Board remain in effect; this approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and, the DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, on April 8, 2014, under the subject calendar number, the Board further amended the resolution to permit the 3,999 square foot enlargement of the PCE into adjoining space in the subject site on condition that all work substantially conform to drawings as they apply to the objections, filed with the application; signage for the PCE comply with the C2 regulations; all conditions from prior resolutions not specifically waived by the Board remain in effect; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and, the DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, the term of the special permit having expired, the applicant requests the subject relief; and

WHEREAS, the applicant represents that no changes to the operator (Bodhi Fitness) or operations of the PCE have occurred or are proposed and maintains the same hours of operation: Monday through Friday, 24 hours per day, and Saturday and Sunday, from 7:00 a.m. to 12:00 a.m.; and

WHEREAS, the applicant also requests an amendment to permit enlargement of the existing PCE space by 4,037 square feet, for a total PCE floor area of 17,318, and interior modifications to the PCE layout to utilize the new floor area; and

WHEREAS, by letter dated April 5, 2019, the Fire Department states that they have no objection to the application as these premises have a fire alarm and sprinkler system that have been inspected and tested satisfactorily, and the Licensed Public Place of Assembly Unit has been performing annual inspections of the public assembly space and have found it to be in compliance with all rules and regulations of the Fire Department; and

WHEREAS, pursuant to ZR § 73-03(f), the applicant has satisfactorily demonstrated compliance with the conditions of the previous term and the Board finds that the circumstances warranting the original grant still obtain; and

WHEREAS, at hearing, the Board expressed concern regarding compliance with the condition that off-street garage parking be maintained with clearly visible signs to be posted, identifying spaces designated for PCE members only; and

WHEREAS, in response, the applicant represented, and the Board agreed, that the condition required exterior signage, as opposed to signage on the individual spaces, and provided evidence of compliance with said condition; and

WHEREAS, accordingly, the Board finds that an extension of term of the special permit and the subject amendment to permit an expansion of the PCE space and modifications to the interior layout of the PCE are appropriate with the conditions set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals further *amends* the resolution, dated June 11, 2002, as amended through April 8, 2014, so that, as amended, this portion of the resolution reads: “to permit an extension of term of the special permit, to expire on June 1, 2028, *on condition* that the use and operation of the site shall conform to drawings filed with this application marked ‘June 20, 2018’-Four (4) sheets; and *on further condition*:

THAT the term of this grant shall expire on June 1, 2028;

THAT the permitted hours of operation shall be: Monday through Friday, 24 hours per day, and Saturday and Sunday, from 7:00 a.m. to 12:00 a.m.;

THAT the premises shall be maintained free of debris and graffiti;

THAT a sign shall be maintained within the PCE stating that no children under the age of eighteen (18) are permitted;

THAT accessory parking in the cellar be shall be provided and maintained with an entrance from 35th Avenue and a sign clearly visible from the public street identifying parking designated for PCE members;

THAT all signage on the site shall comply with all applicable provisions of the Zoning Resolution;

THAT there shall be no change in ownership or operating control of the PCE without prior approval from the Board;

THAT minimum three (3) foot wide exit pathways to required exits shall always be maintained unobstructed, including that from any gymnasium equipment;

THAT sprinklers and interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, connection of the interior fire alarm and sprinklers to a FDNY-approved central station—shall be maintained throughout the PCE space as indicated on the Board-approved plans;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a new certificate of occupancy, also indicating this approval and calendar number (“BSA Cal. No. 246-01-BZ”) shall be obtained within one (1) year, by April 23, 2020;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning

MINUTES

Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, April 23, 2019.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated September 29, 2015, acting on New Building Application Nos. 420653885, 420653894, 420653901, 420653910, 420653929, and 420653938, reads in pertinent part:

“GCL 36, BC 502.1: The street giving access to proposed building is not duly placed on the official map of the City of New York therefore:

- A) No Certificate of Occupancy can be issued pursuant to Article 3, Section 36 of General City Law;
- B) Proposed construction does not have at least 8% of the total perimeter of building(s) fronting directly upon a legally mapped street or frontage space contrary to section 502.1 of the 2008 NYC Building Code”; and

WHEREAS, this is an application under General City Law (“GCL”) § 36 to permit construction of six buildings that do not front on a mapped street; and

WHEREAS, a public hearing was held on this application on June 28, 2016, after due notice by publication in *The City Record*, with continued hearings on August 23, 2016, November 1, 2016, September 26, 2017, December 12, 2017, June 5, 2018, August 14, 2018, November 8, 2018, February 5, 2019, and April 23, 2019, and then to decision on that date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 10, Queens, recommends approval of this application on condition that signage indicating no parking on Dunton Court in front of the subject site be installed, and the street be repaved with a proper gutter slope; and

WHEREAS, the Board was also in receipt of one form letter in support of the application; and

WHEREAS, the subject site is located on the south

side of Dunton Court, between 102nd Street and 104th Street, in an R3A1 zoning district and in the Special Coastal Risk District, in Queens; and

WHEREAS, the site has approximately 260 feet of frontage along Dunton Court, 80 feet of depth, 23,189 square feet of lot area and is vacant; and

WHEREAS, Dunton Court has a width of approximately 30 feet at the subject site, which provides access 102nd Street and 104th Street, mapped streets; and

WHEREAS, the applicant proposes to subdivide the site into six separate tax lots each with a semi-detached residential dwelling fronting on Dunton Court, which is not duly placed on the official map of the City of New York; and

WHEREAS, the applicant submits that the proposed structure on the site comply with all zoning regulations applicable in the underlying zoning district and will comply with Flood Zone requirements of the New York City Building Code and relevant FEMA regulations regarding residences in flood zones; and

WHEREAS, the applicant represents that a Builders Pavement Plan (“BPP”) proposing to maintain the paved width of Dunton Court at a width of 30 feet at the subject site was filed for the respective approvals; and

WHEREAS, the applicant additionally states that the proposed development will not produce a negative impact to the surrounding area; and

WHEREAS, by letter dated May 17, 2016, the Fire Department stated no objection to the application subject to the following requirements: the curb to curb width for the length of Dunton Court adjacent to the proposed development’s zoning lot, measuring 289.91 feet, be a minimum width of 30 feet; no parking signs be posted along the southern portion of Dunton Court every 75 feet along the entire length of the proposed development in accordance with the NYC Fire Code Section 503.2.7.2.1; and all approved plans indicate that all buildings will be fully sprinklered; and

WHEREAS, by letter dated October 13, 2016, the Fire Department states that they reviewed the latest submission, dated September 13, 2016, concentrating on the Fire Department requirements relating to emergency vehicle road access, site access and fire protection systems and the submission complies with all related Fire Department Code issues and includes all necessary notes on the drawings; and

WHEREAS, over the course of hearings, the Board raised concern regarding the applicant’s ability to prevent parking in front of the subject site and directed a homeowners association agreement and restrictive declaration be recorded against the property to commit to, among other conditions, prevent parking at the subject site; and

1 The subject site was located within an R3-1 zoning district when filed and, pursuant to the Hamilton Beach Resiliency Rezoning (C 170255 ZMQ), adopted June 21, 2017, was rezoned to an R3A zoning district.

MINUTES

WHEREAS, the Board requires Declarant to execute and record this declaration as a condition precedent to its grant of the waiver of General City Law § 36; and

NOW, THEREFORE, in consideration of BSA approval to allow the proposed construction of buildings not fronting on a legally mapped street, contrary to Article III, General City Law 36, Declarant does hereby declare that Declarant and its successors and/or assigns, shall be legally responsible for compliance with the following restrictions:

1. Upon the City of New York's abandonment of maintenance of the Dunton Frontage, Declarant shall be responsible for future maintenance of the Dunton Frontage to the center line of Dunton Court, including street repairs and sanitation services thereon, as depicted on the site plan annexed as Schedule A and by this reference made a part hereof;
2. Parking shall be prohibited along the Dunton Frontage and the Fire Department shall have the ability to enforce parking restrictions;
3. This declaration shall become void upon the addition of the Dunton Frontage to the official map of the City of New York;
4. This declaration may not otherwise be modified, amended or terminated without the prior written consent of the BSA;
5. The covenants set forth herein shall run with the land and be binding upon and inure to the benefit of the parties hereto and their respective heirs, legal representatives, successors and assigns;
6. Failure to comply with the terms of this declaration may result in the revocation of a building permit or certificate of occupancy; and
7. This declaration shall be recorded at the office of the Queens County Clerk against the Subject Lots and the cross-reference number and title of the declaration shall be recorded on each temporary and permanent certificate of occupancy hereafter issued to any building located on the Subject Lots and in any deed for the conveyance thereof.

THIS DECLARATION IS IN ADDITION TO AND SEPARATE FROM ANY RECORDED DECLARATION PERTAINING TO MAINTENANCE AND REPAIR OF STREETS, SIDEWALKS AND COMMON ELEMENTS LOCATED WITHIN THE PROPERTY LINES OF THE SUBJECT LOTS EXECUTED BY THE DECLARANT OR HOMEOWNERS ASSOCIATION.

THIS DECLARATION IS ONLY EFFECTIVE UPON APPROVAL BY THE BOARD OF STANDARDS AND APPEALS OF THE APPLICATION FILED UNDER CAL. NOS.

238-15-A TO 243-15-A AND UPON SUBSEQUENT COMPLETION OF CONSTRUCTION AND ISSUE OF A CERTIFICATE OF OCCUPANCY PURSUANT TO SUCH APPROVALS, OTHERWISE THIS DECLARATION IS OF NO EFFECT; and

WHEREAS, the applicant provided a homeowners association agreement, stating the following:

"Street parking shall be in accordance with the conditions of Section 8 the Restrictive Declaration which will be recorded against tax lot 1306 and the regulations of the City of New York whereby no street parking will be allowed on Dunton Court. This applies to the applicable parties, without limitation: Tenants, visitors, and Owners. No parking signs shall be posted along the southern portion of Dunton Court every seventy five feet along the entire property line length of Dunton Court. Association members shall acknowledge in writing that the Association's failure to enforce these regulations may result in a compliance hearing before the NYC Board of Standards and Appeals (BSA), and or revocation of a BSA grant, and or revocation of Certificate of Occupancy, and or other enforcement actions by the BSA. The Association will tow cars that are parked in violation of the "No Parking" signs;" and

WHEREAS, based upon its review of the record, the Board has determined that this approval is appropriate with certain conditions as set forth below and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *modify* the decision of the Department of Buildings dated September 29, 2015, acting on New Building Application Nos. 420653885, 420653894, 420653901, 420653910, 420653929, and 420653938, under the powers vested in the Board by Section 36 of the General City Law, to *permit* construction of six buildings that do not front on a mapped street; *on condition* that all work and site conditions shall conform to drawings filed with this application marked "Received January 23, 2019"-One (1) sheet; and *on further condition*:

THAT no parking shall be permitted on Dunton Ct;

THAT the roadway shall be maintained in good condition including utilities, as per Restrictive Declaration filed under City Register File Number 2019000382038;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificates of occupancy, also indicating this approval and calendar number ("BSA Cal. No. 238-15-A through 243-15-A"), shall be obtained within four (4) years, by April 23, 2023;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered

MINUTES

approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 23, 2019.

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated September 27, 2016, acting on New Building Application No. 122567999, reads in pertinent part:

1. Proposed Use Group 6 commercial use on the ground floor is contrary to Zoning Resolution Section 42-14(D)(2)(B);
2. Proposed Use Group 2 residential use on the upper floors is contrary to Zoning Resolution Section 42-10; and

WHEREAS, this is an application under ZR § 72-21 to permit, in an M1-5B zoning district, the development of a seven-story, with cellar, mixed-use commercial and residential building that does not comply with zoning regulations for use, contrary to ZR §§ 42-14D(2)(b) and 42--10; and

WHEREAS, a public hearing was held on this application on May 15, 2018, after due notice by publication in *The City Record*, with continued hearings on October 30, 2018, January 8, 2019, and March 5, 2019, and then to decision on April 23, 2019; and

WHEREAS, Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 2, Manhattan, recommends approval of this application on condition that the financial feasibility study be accurate with respect to its calculations and conclusions, that there be no eating or drinking establishment on the first floor or cellar, that there be limitations on the depth of the rear yard, that the rear yard only be used for a commercial use, that the cellar extend to

MINUTES

the full length of the lot, that there be hardware on the easterly wall of the building to accommodate vines, that there be limitations on the use of the penthouse terrace, that the rear balconies be eliminated and that a construction protocol agreement be established between the subject site and adjacent sites; and

WHEREAS, the subject site is located on the north side of Bleecker Street, between Lafayette Street and the Bowery, in an M1-5B zoning district, in the NoHo East Historic District, in Manhattan; and

WHEREAS, the subject site has approximately 20'-0" of frontage along Bleecker Street, between 67'-2" and 68'-0" feet of depth, 1,352 square feet of lot area and is occupied by a three-story, with cellar, residential building to be demolished; and

WHEREAS, the applicant proposes to develop a seven-story, with cellar, mixed-use commercial and residential building with 6,488 square feet of floor area (4.80 FAR) with 1,092 square feet of commercial floor area at the cellar and first floors (0.81 FAR) and 5,396 square feet of floor area at the first through seventh floors (3.99 FAR) and a rear yard with a depth of 19'-0"; and

WHEREAS, the applicant submits that, at the subject site, commercial uses in Use Group 6 are not permitted in the cellar or on the first floor under ZR § 42-14D(2)(b), and Use Group 6 residential uses are not permitted under ZR § 42-10; and

WHEREAS, the applicant submits that the small lot size, narrowness, shallow depth, and vacant condition of the subject site are unique physical conditions that create practical difficulties or unnecessary hardship in developing the subject site in strict compliance with the Zoning Resolution; and

WHEREAS, in support of this contention, the applicant surveyed the surrounding area, finding that only six other sites (less than 3 percent) have lot areas of 1,360 square feet or less and that the subject site is the only undersized vacant lot; and

WHEREAS, the applicant notes that an as-of-right development would consist of a seven-story, with cellar, commercial development used for showrooms (Use Group 9) in the cellar and on the first floor and offices (Use Group 6) on the first floor through seventh floor that would be severely constrained by inadequate floor plates in light of the site's small lot size and shallow depth; and

WHEREAS, in response to questions from the Board at hearing, the applicant further submits that renovation and conversion of the existing three-story, with cellar, building for use as showrooms (Use Group 9) in the cellar and on the first floor and offices (Use Group 6) on the first floor through the third floor would also be severely constrained by inadequate floor plates and provided evidence that enlargement of the existing structure would not be feasible; and

WHEREAS, the Board finds that the above unique physical conditions create practical difficulties or unnecessary hardship in complying strictly with applicable

zoning regulations that are not created by general circumstances in the neighborhood or district; and

WHEREAS, in support of this contention, the applicant supplied a financial feasibility study demonstrating that as-of-right development options—consisting of a seven-story, with cellar, commercial development and consisting of the renovation and conversion of the existing three-story, with cellar, building, each option to be used as showrooms (Use Group 9) in the cellar and on the first floors with offices (Use Group 6) on the upper floors—would result in substantial losses on investment but that the proposed development would yield a modest return; and

WHEREAS, the Board finds that, because of the above unique physical conditions, there is no reasonable possibility that development in strict conformity with applicable zoning regulations would bring a reasonable return; and

WHEREAS, the applicant states that the proposed development will not alter the character of the surrounding area; and

WHEREAS, in support of this contention, the applicant studied the area in the vicinity, finding a number of buildings with heights ranging from 70 feet to 85 feet on the subject block and that the proposed development is comparable in height to the seven-story, with cellar, residential building immediately adjacent to the subject site; and

WHEREAS, the applicant further submits that, on the subject block, there are approximately 17 buildings with commercial uses on the first floor and approximately 18 buildings with residential or joint living-work quarters for artists; and

WHEREAS, the applicant states that, while there are a number of non-complying rear yards on the subject block, the lot immediately to the rear of the subject site provides a complying rear yard with a depth of 35 feet; and

WHEREAS, in response to community concerns and questions from the Board at hearing, the applicant modified the design of the proposed development to provide a complying rear yard with a depth of 19 feet, thereby ensuring that the proposed development would not adversely affect adjacent properties; and

WHEREAS, the applicant also provided a shadow study, a façade-massing comparison and a photographic streetscape study indicating that the proposed development would comport with the built conditions of the surrounding area; and

WHEREAS, the Board finds that the proposed variance will not alter the essential character of the neighborhood or district in which the subject site is located; will not substantially impair the appropriate use or development of adjacent property; and will not be detrimental to the public welfare; and

WHEREAS, the applicant submits that the practical difficulties or unnecessary hardship at the subject site do not constitute a self-created hardship; and

WHEREAS, in response to questions from the Board at hearing, the applicant notes that demolition of the existing

MINUTES

building is necessary because the structure's age, surrounding construction and the structure's original construction make it infeasible to renovate or enlarge and that the condition of the existing building does not stem from neglect or deferred maintenance; and

WHEREAS, the Board finds that the above practical difficulties or unnecessary hardship have not been created by the owner or by a predecessor in title; and

WHEREAS, the applicant states that the proposed variance is the minimum necessary to permit a productive use of the site, as reflected in the financial feasibility study; and

WHEREAS, in response to community concerns and questions from the Board at hearing, the applicant modified the proposed development to provide a complying rear yard, which the financial feasibility study indicates would provide a modest return on investment; and

WHEREAS, the Board finds that the proposed variance is the minimum necessary to afford relief within the intent and purposes of the Zoning Resolution; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment ("EAS") CEQR No. 17BSA025M, received February 20, 2019; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on land use, zoning, and public policy; socioeconomic conditions; community facilities; open space; shadows; historic and cultural resources; urban design and visual resources; natural resources; hazardous materials; water and sewer infrastructure; solid waste and sanitation services; energy; transportation; air quality; greenhouse gas emissions; noise; public health; neighborhood character; or construction; and

WHEREAS, by letter dated May 24, 2018, the New York City Department of Environmental Protection ("DEP") states that the Revised April 2018 Phase II Work Plan and Site-Specific Health and Safety Plan are acceptable so long as, upon completion of investigation activities, the applicant submits a detailed Phase II report to DEP for review and approval, which report shall include, at a minimum, an executive summary, narrative of the field activities, laboratory data and conclusions, comparison of soil, groundwater and soil vapor analytical results (i.e., the New York State Department of Environmental Conservation 6 NYCRR Part 375 Water Quality Regulations and the New York State Department of Health's October 2006 Guidance for Evaluating Soil Vapor Intrusion in the State of New York), updated site plans depicting soil locations, boring logs and remedial recommendations, if warranted; and

WHEREAS, by letter dated May 29, 2018, DEP states that the proposed project would not result in any significant noise or air quality impacts; and

WHEREAS, by correspondence dated December 19,

2018, the New York City Landmarks Preservation Commission ("LPC") states that the proposed project affects a designated landmark or is located within a designated historic district; that it may be archaeologically significant; and that accordingly a restrictive declaration shall be recorded against the property; and

WHEREAS, by letter dated December 21, 2018, DEP states that it has determined that an (E) designation for hazardous materials should be placed on the site (No. E-517) to ensure that testing and mitigation will be provided as necessary before any soil disturbance or future development and that the applicant shall coordinate further hazardous materials assessments through the Office of Environmental Remediation; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board finds that the evidence in the record supports the findings required to be made under ZR § 72-21 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 to *permit*, in an M1-5B zoning district, the development of a seven-story, with cellar, mixed-use commercial and residential building that does not comply with zoning regulations for use, contrary to ZR §§ 42-14D(2)(b) and 42--10; *on condition* that all work, operations and site conditions shall conform to drawings filed with this application marked "Received April 22, 2019"—13 sheets; and *on further condition*:

THAT the restrictive declaration required by the New York City Landmarks Preservation Commission shall be recorded against the property prior to the issuance of the Board's resolution (City Register File No. 2020000007554, recorded January 8, 2020);

THAT an (E) designation for hazardous materials shall be placed on the site (No. E-517) to ensure that testing and mitigation will be provided as necessary before any soil disturbance or future development, and the applicant shall coordinate further hazardous materials assessments through the Office of Environmental Remediation;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number ("BSA Cal No 2016-4265-BZ"), shall be obtained within four years, by April 23, 2023;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the

MINUTES

Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 23, 2019.

CEQR #19-BSA-011K

APPLICANT – Eric Palatnik, P.C., for Aron Ungar, owner.
SUBJECT – Application July 13, 2018 – Special Permit (§73-622) to permit the enlargement of an existing two family, two-story home contrary to ZR §23-142 (floor area ratio) and ZR §23-461 (side yard requirements). R5 zoning district.

PREMISES AFFECTED – 2060 63rd Street, Block 5542, Lot 30, Borough of Brooklyn.

COMMUNITY BOARD #11BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated June 27, 2018, acting on Department of Buildings (“DOB”) Application No. 321782433, reads in pertinent part:

Proposed vertical and horizontal enlargement of an existing two-family two-story building located in R5 district is non-compliant in regard to:

1. [...]1
2. Proposed side yard is contrary to ZR 23-461(B);

And must be referred to the Board of Standards and Appeals for a special permit pursuant to ZR 73-622; and

WHEREAS, this is an application under ZR § 73-622 to permit, in an R5 zoning district, the enlargement of a two- (2) family semi-detached dwelling that does not comply with the zoning requirements for side yards, contrary to ZR § 23-461(b); and

WHEREAS, a public hearing was held on this

application on February 26, 2019, after due notice by publication in *The City Record*, with a continued hearing on April 23, 2019, and then to decision on that date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 11, Brooklyn, recommends approval of this application on condition that the front of the property remain in the same sightline and character of the surrounding homes; and

WHEREAS, the Board was in receipt of one (1) form letter in support of this application and one (1) form letter in opposition to this application raising concerns regarding the size of the proposed building; and

WHEREAS, the subject site is located on the south side of 63rd Street, between 20th Avenue and 21st Avenue, in an R5 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 23 feet of frontage along 63rd Street, a depth ranging from 148’-2.25” at the western side lot line to 154’-6” at the eastern side lot line, 3,480 square feet of lot area, and is occupied by a two (2) story plus cellar two- (2) family semi-detached dwelling containing 1,595 square feet of floor area (0.46 FAR), 75 percent of open space (2,605 square feet), 25 percent of lot coverage (875 square feet), a front yard with a depth of 15’-3” feet, a rear yard with a depth of 78’-2.25”, one (1) side yard with a width of three (3) feet and a concrete block garage in the rear; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement*² of an existing *single-* or *two-family detached* or *semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not

1 The applicant initially received an objection for exceeding the floor area requirements of ZR § 23-142. Over the course of hearings, the applicant revised the proposal to provide a complying floor area ratio and no longer requires relief under that section.

2 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins. Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that this application located within an area in which the special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge a semi-detached two- (2) family residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant proposes to demolish the garage and both horizontally and vertically enlarge the building, resulting in a three- (3) story plus cellar two- (2) family semi-detached dwelling with 4,342 square feet of floor area (1.25 FAR), 50 percent of open space (1,740 square feet

of open space), 50 percent of lot coverage (1,740 square feet), a rear yard with a depth of 44'-4.125", one (1) side yard with a width of three (3) feet and two (2) off-street parking spaces; and

WHEREAS, specifically, the applicant states that the proposed enlargement would increase the floor area on the first floor from 875 square feet to 1,740 square feet, the second floor from 720 square feet to 1,585 square feet and create a third floor with 1,018 square feet of floor area; and

WHEREAS, at the subject site, one (1) side yard with a width of eight (8) feet is required pursuant to ZR § 23-461(b); and

WHEREAS, the applicant provided an analysis of single- or two-family semi-detached dwellings located on interior lots within 400 feet of the subject premises and within an R5 zoning district (the "Study Area") concluding that, of the 104 qualifying residences, 100 residences (96 percent) have a side yard with less than eight (8) feet in width with side yards ranging from 0 feet to 7 feet in width, and 44 residences (42 percent) have a side yard with three (3) feet or less in width; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 19BSA011K dated July 18, 2018; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622 to permit, in an R5 zoning district, the enlargement of a two- (2) family semi-detached dwelling that does not comply with the zoning requirements with regards to side yards, contrary to ZR § 23-461(b); *on condition* that all work shall substantially conform to drawings as they apply to the objection above-noted, filed with this application and marked Received "April 23, 2019"-Eighteen (18) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the

MINUTES

building: one (1) side yard with a minimum width of three (3) feet, as illustrated on BSA-approved plans;

THAT the removal of exterior walls and/or joists in excess of those indicated on the BSA-approved plans is prohibited and shall void the special permit;

THAT substantial construction shall be completed pursuant to ZR § 73-70, by April 23, 2023;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number (“BSA Cal. No. 2018-117-BZ”) shall be obtained within four (4) years, by April 23, 2023;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 23, 2019.

THE RESOLUTION –

WHEREAS, the decision of the Deputy Borough Commissioner, dated October 10, 2018, acting on Department of Buildings (“DOB”) Application No. 123376444, reads in pertinent part:

Proposed Physical Culture Establishment is not [...] permitted as-of-right per ZR 32-31. Secure BSA’s approval per ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site located partially within a C1-9 zoning district and partially within an R8B zoning district, a physical culture establishment (“PCE”) on portions of the cellar level, first floor and second floor of an existing two-(2) story plus cellar commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on April 23, 2019, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, Community Board 8, Manhattan, recommends approval of this application; and

WHEREAS, the Board was in receipt of one (1) form letter in support of this application; and

WHEREAS, the subject site is located on the west side of Third Avenue, between East 81st Street and East 82nd

Street, partially within a C1-9 zoning district and partially within an R8B zoning district, in Manhattan; and

WHEREAS, the site has approximately 26 feet of frontage along Third Avenue, 102 feet of depth, 2,609 square feet of lot area and is occupied by a two- (2) story plus cellar commercial building; and

WHEREAS, the applicant represents that the subject lot extends approximately two (2) feet into the R8B zoning district and the PCE is located entirely within the C1-9 portion of the subject site; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use1* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and

- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant represents that the PCE occupies 810 square feet of floor space in the cellar with storage space; 2,350 square feet of floor area on the first floor with the PCE entrance, reception area, DJ booth, exercise studio and restroom; and, 905 square feet of floor area on the second floor with men's and women's restrooms, lockers, a waiting space and an office; and

WHEREAS, the PCE opened in November 2018 as "305 Fitness," with the following hours of operation: Monday through Friday, 6:00 a.m. to 9:00 p.m.; Saturday, 9:30 a.m. to 3:00 p.m.; and, Sunday, 9:30 a.m. to 5:30 p.m.; and

WHEREAS, the applicant states that, while the PCE is the only use in the subject commercial building, noise abatement measures have been installed in the PCE space to ensure that sound levels emanating from the PCE, including that from any sound system, do not exceed 45 dBA; specifically, the exercise studio is isolated with sound attenuating materials in the flooring, ceiling, party wall and interior partitions of the PCE, utilizing flexible acoustic sealants and sound absorbing batt insulation; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because the PCE is located in a commercial zoning district, within a commercial building and is the only use within the subject building; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant submits that the PCE will contain facilities for classes, instruction and programs for physical improvement, body building, weight reduction and aerobics; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood and anticipates that the PCE will pose no potential hazards and will be an asset to the surrounding area, providing a desirable use to the local community; and

WHEREAS, the applicant states that a sprinkler system and an approved fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—will be installed and maintained within the PCE space; and

WHEREAS, by letter dated April 5, 2019, the Fire Department states that a public assembly application is not required and due to the number of persons, a fire alarm system is also not required for these premises; a sprinkler application has been filed and the system was tested by the installer and passed; the Bureau's Fire Suppression Unit ("FSU") will conduct an inspection of the new sprinkler system; the applicant may choose to install a fire alarm system voluntarily in the entire premises and if so the Department has no objection to the installation; and, that the Fire Department has no objection to the Board's rendering a decision on this application, as the Bureau of Fire Prevention will inspect these premises and enforce any outstanding violations; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 19-BSA-056M, dated November 13, 2018; and

WHEREAS, the term of the grant has been reduced to reflect the period the PCE operated without approval from the Board;

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, legalizing the PCE on portions of the cellar level, first floor and second floor, is appropriate, with certain conditions as set forth

MINUTES

below.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to legalize, on a site located partially within a C1-9 zoning district and partially within an R8B zoning district, the operation of a physical culture establishment on the cellar level, first floor and second floor of an existing two- (2) story plus cellar commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received February 5, 2019”-Five (5) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on November 1, 2028;

THAT the hours of operation shall be: Monday through Friday, 6:00 a.m. to 9:00 p.m.; Saturday, 9:30 a.m. to 3:00 p.m.; and, Sunday, 9:30 a.m. to 5:30 p.m.

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 will be as reviewed and approved by DOB;

THAT approved fire alarm—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—and sprinkler system shall be installed and maintained as indicated on the Board-approved plans;

THAT minimum 3 foot wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also referencing this approval and calendar number (“BSA Cal. No. 2018-174-BZ”), shall be obtained within one (1) year, by April 23, 2020;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 23, 2019.

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated November 2, 2018, acting on DOB Application No. 400019243, reads in pertinent part:

Proposed PCE in a C4-1 Zoning District is contrary to Section 32-10 ZR and must be referred to the Board of Standards and Appeals; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, on a site located partially within a C4-1 zoning district and partially within an R3-2 zoning district, a physical culture establishment (“PCE”) on portions of the first floor of an existing one- (1) story plus cellar commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on April 23, 2019, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, Community Board 13, Queens, recommends approval of this application; and

WHEREAS, the Board was in receipt of two (2) form letters in support of this application; and

WHEREAS, the subject site is located on the northwest corner of Hillside Avenue and Braddock Avenue, partially within a C4-1 zoning district and partially within an R3-2 zoning district, in Queens; and

WHEREAS, the site has approximately 137 feet of frontage along Hillside Avenue, 242 feet of frontage along Braddock Avenue, between 228 and 309 feet of depth, 97,535 square feet of lot area and is occupied by a one- (1) story plus cellar commercial building with accessory off-street parking; and

WHEREAS, the applicant represents that, while the subject tax lot is located partially within a C4-1 zoning district and partially within an R3-2 zoning district, the subject building, and thus the PCE, is located entirely within the C4-1 portion of the subject site; and

WHEREAS, the Board has exercised jurisdiction over

MINUTES

the subject site since June 4, 1991, when, under BSA Cal. No. 848-89-BZ, the Board granted a special permit, pursuant to ZR § 73-52, to permit the construction of commercial stores (Use Group 6) in a residential portion of the lot1 which creates non-conformance on condition that all work substantially conform to drawings, as they apply to the objections, filed with the application; landscaping be planted in accordance with BSA-approved plans and maintained and replaced as necessary; the conditions appear on the certificate of occupancy; the development, as approved, be subject to verification by the Department of Buildings for compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under the jurisdiction of the Department; and, substantial construction be completed in accordance with ZR § 73-70; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use2* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant represents that the proposed PCE will occupy 18,000 square feet of floor area on the first floor with areas for exercise machines and equipment, areas for stretching, physical therapy, small group training and cardio, a front porch, office, storage area, men's and women's locker rooms with bathrooms and showers, and mechanical spaces; and

WHEREAS, the PCE is proposed to operate as "Blink Fitness," with the following hours of operation: Monday through Saturday, 5:30 a.m. to 11:00 p.m., and Sunday, 7:00 a.m. to 9:00 p.m.; and

WHEREAS, the applicant states that, while the PCE will be located in a commercial building containing only commercial tenants, noise abatement measures will be provided in the PCE to ensure that sound levels in other portions of the building, including that from any sound system, do not exceed 45 dBa, utilizing sound attenuating flooring and insulated walls; specifically, the applicant proposes to install rubber flooring in the PCE space, batt

1Pursuant to a zoning change, effective March 4, 2014 (C 140037 ZMQ), the subject building is located wholly within the C4-1 zoning district, eliminating need for relief under ZR § 73-52.

MINUTES

insulation in select partitions of the PCE and deflection track attachments for the partitions; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because the PCE will be located on a busy commercial thoroughfare in a commercial zoning district, within a commercial building and will be compatible with the surrounding uses; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant submits that the PCE will contain facilities for classes, instruction and programs for physical improvement, body building, weight reduction and aerobics; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood and anticipates that the PCE will pose no potential hazards and will be an asset to the surrounding area, providing a desirable use to the local community; and

WHEREAS, the applicant states that a sprinkler system and an approved fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—will be installed within the proposed PCE space; and

WHEREAS, by letter dated April 6, 2019, the Fire Department states that an application has been filed for the installation of a fire alarm system, which has been disapproved, pending Board decision on this application; that these premises are protected by a sprinkler system, which has been inspected and tested satisfactorily to the Department's rules and regulations; prior to occupancy of the space, an application for a public assembly permit shall be filed, approved and permitted; and, that the Department has no objection to the Board's rendering a decision on the application, as the Bureau of Fire Prevention will inspect these premises and enforce all applicable rules and regulations of the Department; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 19BSA062Q, dated November 20, 2018; and

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, permitting the proposed PCE on a portion of the first floor, is appropriate, with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located partially within a C4-1 zoning district and partially within an R3-2 zoning district, the operation of a proposed physical culture establishment on the first floor of an existing one- (1) story plus cellar commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "November 20, 2018"-Four (4) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on April 23, 2029;

THAT a public assembly permit for the PCE shall be obtained prior to occupancy of the space;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 will be as reviewed and approved by DOB;

THAT an approved fire alarm system and sprinkler shall be installed and maintained as indicated on the Board-approved plans;

THAT minimum 3 foot wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also referencing this approval and calendar number ("BSA Cal. No. 2018-182-BZ"), shall be obtained within four (4) years, by April 23, 2023;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 23, 2019.

2019-8-BZ

CEQR #19-BSA-071X

APPLICANT – Rothkrug Rothkrug & Spector LLP, for Fordec Realty Corp., owner; Blink Jerome Avenue Inc., lessee.

SUBJECT – Application January 11, 2019 – Special Permit (§73-36) to permit the operation of a physical culture establishment (*Blink Fitness*) on a portion of the first and the entire second floor of an existing building contrary to ZR §32-10. C8-2 zoning district.

PREMISES AFFECTED – 3000 Jerome Avenue, Block 3321, Lot 9, Borough of Bronx.

COMMUNITY BOARD #7BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Borough Commissioner, dated December 20, 2018, acting on Department of Buildings (“DOB”) Application No. 220664181, reads in pertinent part:

Proposed Physical Culture establishment in C8-2 Zoning district is contrary to section 32-10 ZR and requires a special permit from BSA (73-36); and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to permit, on a site located within a C8-2 zoning district, a physical culture establishment (“PCE”) on portions of the first floor and second floor of a proposed two- (2) story plus cellar commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on April 23, 2019, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, Community Board 7, the Bronx, waived its recommendation of this application; and

WHEREAS, the Board was in receipt of one (1) form letter in support of this application; and

WHEREAS, the subject site is located on the east side of Jerome Avenue, between Bedford Park Boulevard and East 204th Street, within a C8-2 zoning district, in the Bronx; and

WHEREAS, the site has approximately 100 feet of frontage along Jerome Avenue, 100 feet of depth, 10,000 square feet of lot area and is under construction of a proposed two- (2) story plus cellar commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings

are made:

- (1) that such *use1* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant represents that the proposed PCE will occupy 5,000 square feet of floor area on the first floor with the PCE entrance, men's and women's locker rooms with bathrooms and showers, an exercise area, offices and storage; and 10,000 square feet of floor area on the second floor with exercise areas and exercise machines and office space; and

WHEREAS, the PCE is proposed to operate as "Blink Fitness," with the following hours of operation: Monday through Saturday, 5:30 a.m. to 11:00 p.m., and Sunday, 7:00 a.m. to 9:00 p.m.; and

WHEREAS, the applicant states that, while the PCE will be located in a commercial building containing only commercial tenants, with noise abatement measures will be provided in the PCE space to ensure that sound levels in other portions of the building, including that from any sound system, do not exceed 45 dBA, using sound attenuating flooring and insulated walls; specifically, the applicant proposes to install rubber flooring in the PCE space, batt insulation in select partitions of the PCE and deflection track attachments for the partitions; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because the PCE is located on a busy commercial thoroughfare with two- (2) way traffic serving comparable commercial buildings and will be compatible with the surrounding uses; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant submits that the PCE will contain facilities for classes, instruction and programs for physical improvement, body building, weight reduction and aerobics; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood and anticipates that the PCE will pose no

potential hazards and will be an asset to the surrounding area, providing a desirable use to the local community; and

WHEREAS, the applicant states that a sprinkler system and an approved fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms and connection of the interior fire alarm to an FDNY-approved central station—will be installed within the proposed PCE space; and

WHEREAS, by letter dated April 6, 2019, the Fire Department states that an application has been filed and approved for the installation of a fire alarm system, which has been approved and permitted; these premises are also protected by a sprinkler system and, in the event of activations, the fire alarm system will be activated and transmit a signal to a central office connection; prior to occupancy of the space, an application for a public assembly permit shall be filed, approved and permitted; and, that the Fire Department has no objection to the Board's rendering a decision on this application as the Bureau of Fire Prevention will inspect these premises and enforce all applicable rules and regulations; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 19-BSA-071X, dated January 14, 2019; and

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, permitting the proposed PCE on portions of the first floor and second floor, is appropriate, with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located within a C8-2 zoning district, the operation of a proposed physical culture establishment on the first floor and second floor of a proposed two- (2) story plus cellar commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received January 14, 2019"-Five (5) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on April 23, 2029;

THAT a public assembly permit for the PCE shall be obtained prior to occupancy of the space;

THAT there will be no change in ownership or operating control of the PCE without prior application to

MINUTES

and approval from the Board;

THAT accessibility compliance under Local Law 58/87 will be as reviewed and approved by DOB;

THAT an approved fire alarm system and sprinkler shall be installed and maintained as indicated on the Board-approved plans;

THAT minimum 3 foot wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also referencing this approval and calendar number (“BSA Cal. No. 2019-8-BZ”), shall be obtained within four (4) years, by April 23, 2023;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 23, 2019.

THE RESOLUTION –

WHEREAS, a decision of the Department of Buildings (“DOB”) dated February 28, 2018, acting on DOB application number 421458274, reads in pertinent part:

Proposal to alter building to accommodate retail convenience store and extension of term beyond December 4, 2017, is contrary to BSA Resolution # 30-58-BZ; and

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, extension of the term, pursuant to ZR § 11-411, of a previously granted variance that permitted the operation of an automotive service station with accessory lubricatorium, minor repair and car wash, which expired on December 4, 2017, and an amendment of the variance, pursuant to ZR § 11-412, to permit the conversion of the existing one- (1) story accessory building to an accessory convenience store; and

WHEREAS, a public hearing was held on this application on August 14, 2018, after due notice by publication in *The City Record*, with continued hearings on October 23, 2018, March 5, 2019, March 19, 2019, and April 30, 2019, and then to decision on that date; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 11, Queens, recommends approval of this application on the following conditions: there be no storage of vehicles on the site; the retaining wall be repaired; the applicant comply with the request of the Board recommendations regarding the installation of bollards at the rear of the property and the relocation of a gas service tank not to be near the sidewalk; and prior conditions that apply remain; and

WHEREAS, Queens Borough President Katz also recommends approval of this application on condition that the applicant comply with all of the Community Board’s conditions and continue to adhere to the Board’s previously

MINUTES

imposed conditions; and

WHEREAS, the Board was in receipt of two (2) letters as well as oral testimony from the Auburndale Improvement Association, a civic association within whose boundary lines the subject site is located, in support of this application and recommending a ten (10) year extension of term but also raising concerns regarding the location and enclosure of a dumpster on the site, the stability of a retaining wall on the site, the storage of commercial and un-plated vehicles on the site and the failure to secure a gate at the rear of the property; and

WHEREAS, the subject site is bound by Horace Harding Expressway to the south, 185th Street to the east, and Booth Memorial Avenue to the north, in an R3-1 (C2-2) zoning district, in Queens; and

WHEREAS, the site has approximately 98 feet of frontage along Horace Harding Expressway, 35 feet of frontage along 185th Street, 117 feet of frontage along Booth Memorial Avenue, 6,575 square feet of lot area and is occupied by an automotive service station with a one- (1) story accessory building with lubricatorium, minor repairs and non-automatic car wash; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 20, 1959, when, under the subject calendar number, the Board granted a variance, under Section 7f, to permit, for a term of 15 years, to expire on January 20, 1974, the premises to be occupied as a gasoline service station and uses lawfully accessory thereto, substantially as proposed and as indicated on plans filed with the application, on condition that all buildings and uses then on the premises be removed and the premises be constructed and arranged as indicated on the plans above cited; there be no cellar under the accessory building; the accessory building be faced with face brick on all sides and be of the design and arrangement and location as shown on plans above cited; there be erected on the lot line of North Hempstead Turnpike (currently Booth Memorial Avenue) continuously from the westerly edge to the intersection with 185th Street and along 185th Street to the building line of Horace Harding Expressway, a masonry wall for a height of three (3) feet with a steel picket fence above to a total height of 5'-6", with suitable terminating posts; such wall along 185th Street may be reduced as to the height of pickets to a total of not less than 4'-6"; curb cuts be restricted to two (2) curb cuts to Horace Harding Expressway, where shown, each 30 feet in width, with no portion of any curb cut nearer than five (5) feet to a lot line as prolonged; at the intersection there be maintained a block of concrete extending for a distance of five (5) feet along the building line from the intersection not less than 12 inches in height; pumps be of a low approved type erected not nearer than 15 feet to the street building line of Horace Harding Expressway; gasoline storage tanks not exceed twelve 550-gallon approved tanks; along the lot line to the west where masonry walls of adjoining buildings and the accessory buildings do not occur on the lot line there be a woven wire fence of the chain link type to a total height of not less than

5'-6", including a masonry base, with suitable terminating post at the building line of Horace Harding Expressway be erected; the portion of the premises, where shown, be maintained with planting; there may be an entrance three (3) feet wide in the fence for access thereto for maintenance purposes only; the balance of the premises where not occupied by the accessory building and pumps be paved with concrete or asphaltic pavement; signs be restricted to permanent signs attached to the facade of the accessory building and to the illuminated globes of the pumps excluding all roof signs and temporary signs and advertising devices (but permitting the erection within the intersection of Horace Harding Expressway and 185th Street of one (1) post standard for supporting a sign, which may be illuminated, advertising only the brand of gasoline on sale and permitting such sign to extend, at right angles to Horace Harding Expressway, beyond the building line for a distance of not more than four (4) feet); such portable fire-fighting appliances be maintained as the Fire Commissioner directs; under Section 7i there may be minor repairs with hand tools only for adjustments maintained solely within the accessory building; under Section 7e, for a similar term, there may be parking of cars waiting to be serviced provided such cars be parked in such locations as will not interfere with the servicing of the station; and, all permits be obtained and all work completed within one (1) year, by January 20, 1960; and

WHEREAS, on June 23, 1959, under the subject calendar number, the Board amended the resolution by adding that there be one (1) pump island instead of two (2), as previously permitted; and there may be a curb cut to 185th Street, 25 feet in width, as shown on the revised plan filed with the application; and, other than as amended the resolution be complied with; and

WHEREAS, on March 12, 1974, under the subject calendar number, the Board reopened and further amended the resolution to extend the term for ten (10) years, to expire on March 12, 1984, on condition that other than as amended the resolution be complied with in all respects and a new certificate of occupancy be obtained; and

WHEREAS, on July 10, 1984, under the subject calendar number, the Board reopened and further amended the resolution to extend the term for ten (10) years, to expire on March 12, 1994, on condition that there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic; other than as amended the resolution be complied with in all respects; and a new certificate of occupancy be obtained within one (1) year, by July 10, 1985; and

WHEREAS, on December 13, 1994, under the subject calendar number, the Board reopened and further amended the resolution to extend the term for ten (10) years, to expire on March 12, 2004, on condition that the premises remain clear and free of debris; street trees, landscaping and fencing be maintained in accordance with BSA-approved plans; all lighting be directed downward and away from adjacent residential uses; the premises be maintained in substantial

MINUTES

compliance with the existing and proposed drawing submitted with the application; other than as amended the resolution be complied with in all respects; and a new certificate of occupancy be obtained within one (1) year, by December 13, 1995; and

WHEREAS, on October 16, 2001, under the subject calendar number, the Board reopened and further amended the resolution to permit the erection of a metal canopy over the new gasoline pump islands and to allow the alteration of the sales area to provide an attendant's booth, on condition that there be no sale of diesel fuel; there be no sale of used cars; all street trees and landscaping be installed and maintained in accordance with the BSA-approved plans; the premises be maintained in substantial compliance with the proposed plans submitted with the application; other than as amended the resolution and all other relevant laws and regulations of the City of New York be complied with in all respects; and the work be completed and a new certificate of occupancy obtained within two (2) years, by October 16, 2003; and

WHEREAS, on December 4, 2012, under the subject calendar number, the Board waived its Rules of Practice and Procedure, reopened and further amended the resolution to extend the term for five (5) years, to expire on December 4, 2017, on condition that all use and operations substantially conform drawings filed with the application; the site be maintained free of debris and graffiti; signage comply with C2 district regulations; parking on the site be limited to vehicles awaiting service; the conditions be listed on the certificate of occupancy; a new certificate of occupancy be obtained by December 4, 2013; all conditions from the prior resolution not specifically waived by the Board remain in effect; and the Department of Buildings ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted; and

WHEREAS, the term of the variance having expired, the applicant seeks a ten (10) year extension of the term of the variance; and

WHEREAS, in addition, because this application was filed less than two (2) years after the expiration of the term of the variance, the applicant requests a waiver, pursuant to § 1-14.2 of the Board's Rules of Practice and Procedure (the "Board's Rules"), of § 1-07.3(b)(2), of the Board's Rules to permit the filing of this application; and

WHEREAS, pursuant to ZR §11-411, the Board may, in appropriate cases, permit an extension of a term of the variance previously authorized subject to a term of years pursuant to the 1916 Zoning Resolution for terms of not more than ten (10) years each; and

WHEREAS, the applicant also seeks an amendment, pursuant to ZR § 11-412, to permit the conversion of the accessory building used for lubritorium, minor repair, and car washing into a convenience store with 650 square feet of sales area and the installation of one (1) additional gasoline dispenser; and

WHEREAS, the applicant does not propose to enlarge, extend or relocate the existing one- (1) story accessory building, which has existed in its current dimensions and location on the site since the Board's original grant of the variance in 1959, and, instead, proposes alterations to the interior only to convert the repair bays and storage area of the existing building to an accessory convenience store, thus, in accordance with ZR § 11-412, the proposed alteration of the existing one- (1) story accessory building is not in excess of 50 percent of the floor area of the building occupied by such use on December 15, 1961; and

WHEREAS, in response to inquiries from the Board, the applicant represents that, in accordance with DOB Technical Policy and Procedure Notice ("TPPN") #10/99, the proposed accessory convenience store, with 650 square feet of sales area, has a maximum retail selling floor area that is less than the lesser of 2,500 square feet or 25 percent of the subject lot area (6,575 square feet of lot area); and

WHEREAS, over the course of the hearings, the Board expressed concerns regarding the location and enclosure of a dumpster on the site, restricting access to a gated area in the rear, the lack of sufficiently detailed dimensions on the plans, the narrowness of surrounding sidewalks and the location of the proposed additional gasoline dispenser; and

WHEREAS, in response, the applicant provided photographic evidence that the rear gate was secured with a lock, properly dimensioned the plans to show a three- (3) foot wide sidewalk around the building, relocated the gasoline dispenser to avoid conflict between pedestrians and gasoline patrons, and provided plans reflecting a proposed dumpster enclosure; and

WHEREAS, by letter dated October 9, 2018, the Fire Department states that a review of Department records indicates that the subject automotive service station is current with its Fire Department permits with respect to storage of combustible liquids, leak detection equipment, underground storage tank and the fire suppression (dry-chemical) system; and the Department has no additional comments or recommendations relative to the application; and

WHEREAS, in light of the foregoing, the Board finds that the requested extension of term is appropriate, subject to conditions below.

Therefore, it is Resolved, that the Board of Standards and Appeals *amends* the resolution, dated January 20, 1959, as amended through December 4, 2012, so that, as amended, this portion of the resolution reads: "to permit the conversion of the existing accessory lubritorium and automotive repair building to an accessory convenience store, permit the installation of one (1) additional gasoline dispenser, and extend the term of the variance for a term of ten (10) years, expiring December 4, 2027; and *on condition* that all work and site conditions shall conform to drawings filed with this application marked "April 30, 2019"-Two (2) sheets; and *on further condition*:

THAT the term of this grant shall expire on December 4, 2027;

MINUTES

THAT landscaping shall be installed as shown on the BSA-approved plans, maintained and repaired as necessary;

THAT the site shall be maintained free of debris and graffiti;

THAT any graffiti located on the premises be removed within 48 hours;

THAT all building walls shall be painted and all asphalt shall be repaired as necessary so as to be maintained in a first-class condition;

THAT there shall be no parking on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic;

THAT there shall be no overnight storage of vehicles on the site;

THAT the fencing and retaining wall shall be maintained in a code-compliant condition;

THAT the convenience store may be operated 24 hours per day;

THAT the dumpster enclosure shall be installed as shown on the BSA-approved plans and repaired as necessary to be maintained in first-class condition;

THAT the rear gated area shall be secured and maintained with a lock;

THAT parking on the site shall be limited to vehicles awaiting service;

THAT there shall be no sale of diesel fuel;

THAT there shall be no sale of used cars;

THAT all street trees and landscaping shall be installed and maintained in accordance with the BSA-approved plans;

THAT all lighting shall be directed downward and away from adjacent residential uses;

THAT signage shall comply with C2 district regulations;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a revised certificate of occupancy indicating this approval and calendar number ("BSA Cal. No. 30-58-BZ") shall be obtained within one (1) year, by April 30, 2020; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, April 30, 2019.

223-00-BZ

APPLICANT – Sheldon Lobel, P.C., for Village Community School, owner.

SUBJECT – Application July 2, 2018 – Amendment of a previously approved variance (§72-21) which permitted the development of a five-story plus cellar Use Group ("UG") 3 School (Village Community School) (VCS). The amendment seeks to permit a three-story plus cellar and play-yard enlargement contrary ZR §24-11 (maximum permitted lot coverage). R6 zoning district.

PREMISES AFFECTED – 272 West 10th Street, Block 630, Lot(s) 9& 10, Borough of Manhattan.

COMMUNITY BOARD #2M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Deputy Borough Commissioner dated June 7, 2018, acting on Department of Buildings ("DOB") Application No. 123448563 reads in pertinent part:

ZR 24-11: The proposed plans are contrary to those approved by the BSA Cal. No. 22-300-BZ and Section 24-11. Refer to BSA for approval; and

WHEREAS, this is an application to amend a variance, previously granted pursuant to ZR § 72-21, and permit the enlargement of a Use Group ("UG") 3 school that does not comply with the maximum permitted lot coverage, contrary to ZR § 24-11; and

WHEREAS, a public hearing was held on this application on December 4, 2018, after due notice by publication in *The City Record*, with continued hearings on February 26, 2019, March 26, 2019, and April 30, 2019, and then to decision on that date; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, the subject site is comprised of two consecutive tax lots bound by West 10th Street to the north, Greenwich Street to the east and Washington Street to the west, in an R6 zoning district and the Greenwich Village Historic District – Extension 1, in Manhattan; and

WHEREAS, the site has approximately 270 feet of frontage along West 10th Street, 88 feet of frontage along Greenwich Street, 41 feet of frontage along Washington Street, 18,100 square feet of lot area and is occupied by two five-story plus cellar buildings utilized as a UG 3 school; and

WHEREAS, this application is filed on behalf of the Village Community School, a non-profit educational corporation chartered by the New York State Board of

MINUTES

Regents and accredited by the New York State Association of Independent Schools to provide educational instruction for children in kindergarten through 8th grade (the "School"); and

WHEREAS, the Board has exercised jurisdiction over the subject site since February 6, 2001, when, under the subject calendar number, the Board issued a Negative Declaration under 6 NYCRR Part 617.13 and granted a variance, pursuant to ZR § 72-21, permitting the modernization of a private, non-profit school kindergarten through eighth grade (Use Group 3) by replacing a one-story gymnasium space with a five-story enlargement, contrary to ZR §§ 24-11 and 24-522, on condition that all work substantially conform to drawings filed with the application; the premises remain graffiti-free at all times; no sound amplification devices be used on the rooftop recreation area after 6:00 p.m.; use of the rooftop recreation area be limited to the hours of 8:00 a.m. to 9:00 p.m.; as part of the Negative Declaration issued under 6 NYCRR 617.13, the owner provide an archaeological documentary study for the site to the Landmarks Preservation Commission; the results of the archaeological study be submitted to the Board's Executive Director and the LPC; the existing buildings' hallways be equipped with a smoke detection system connected to a Fire Department approved central station; a fire alarm system connected to a Fire Department approved central station be installed throughout the existing building; an automatic wet sprinkler system connected to a Fire Department approved central sate be installed throughout the cellar and all mechanical and electrical rooms of the existing building; a pair of three-hour fire rated doors on self-closing approved electro-magnetic devices to be activated by a fire alarm, smoke detection, or automatic wet sprinkler systems be provided and maintained for the new building; an automatic wet sprinkler system, a fire alarm system and a smoke detection system shall be installed throughout the new building with all three systems connected to a Fire Department approved Central Station; the above conditions appear on the certificate of occupancy; the development, as approved, be subject to verification by the Department of Buildings for compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under the jurisdiction of the Department; and that substantial construction be completed within four (4) years, in accordance with ZR § 72-23; and

WHEREAS, the applicant now seeks an amendment of that approval to permit the construction of a three-story plus cellar and rooftop play yard enlargement with 17,364 square feet of floor area on the eastern corner lot portion of the site wholly located on tax lot 12 and presently occupied with a play yard that will increase the lot coverage on the corner lot portion of tax lot 12 from 9 percent to 92 percent and the lot coverage on the interior lot portion of tax lot 12, presently occupied by a five-story plus cellar school building constructed in or around 1886, from 86 percent to 88 percent; and

WHEREAS, the applicant states that the enlargement is necessary to provide space for (1) on-site physical education facilities to offset the loss of access to facilities off-site at Pier 40; (2) science, technology, engineering, arts and mathematics project-based work; (3) an expanded library and media center; (4) world language classrooms and dedicated mathematics classrooms; and (5) expanded science labs; and

WHEREAS, accordingly, the applicant submits that the proposed enlargement will include a regulation-sized double-height gymnasium in the cellar; a woodshop on the first floor; a library and media center, science and technology labs on the second floor; science labs and world language and mathematics classrooms on the third floor; and a play yard on the roof; and

WHEREAS, counsel engaged by a non-profit organization of residents living in close proximity to the subject site and owners of units at 692 Greenwich Street appeared before the Board in opposition to this application (the "Opposition") citing concerns that the proposed enlargement violates the conditions of the Board's 2001 variance approval, destroys a historic playground at the site and would permanently conceal the stucco façade and original 19th Century lot-line windows of the adjacent building located at 692 Greenwich Street; and

WHEREAS, Community Board 2, Manhattan, recommends denial of this application unless the proposed lot coverage is reduced such that (1) the Greenwich Street playground is substantially retained to keep the overall site coverage consistent with R6 zoning; (2) alternative project plans for the enlargement are submitted by the applicant with greatly reduced lot coverage; (3) the lot line windows at 692 Greenwich Street are retained; (4) there be a deeded commitment that no additional stories or additional floor area will be added to the School at any time in the future and (5) the Board impose a condition capping the number of students and faculty/staff at the current number (345-355 students and 95-105 faculty and staff); and

WHEREAS, New York State Assembly Member Deborah Glick and State Senator Brad Hoylman recommended denial of this application and asked that the School alter the proposal to reduce the proposed lot coverage and work with Community Board 2 to address their concerns about increased enrollment; and

WHEREAS, at public hearing, the Board heard oral testimony from members of the public in favor of this application, noting the School's need for additional classroom and physical education space, as well as in opposition to the application, in particular, to the the proposal to increase lot coverage at the eastern corner of the site from 9 percent to 92 percent and reduce neighborhood access to light and air; and

WHEREAS, the Board was also in receipt of four letters in support of and one letter and one petition in opposition to the proposal, citing concerns that the proposed enlargement will eliminate the charm and character of the immediate area; and

MINUTES

WHEREAS, in response to discussion at the December 4, 2018, hearing regarding the subject proposal's obstruction of lot line windows at 692 Greenwich Street, the applicant explained that an 8-foot setback from the side wall of that building was explored, but deemed to be an infeasible design option that would render the enlargement less efficient and more expensive to construct; and

WHEREAS, by letter dated February 22, 2019, and prior to the second public hearing on this application, the Opposition withdrew their objections to this application and advised the Board that they no longer disputed that the proposed construction is necessary and appropriate to meet the School's programmatic needs or that the proposed enlargement would not alter the characteristics of the neighborhood; and

WHEREAS, the School asserts that the proposed physical enlargement of its physical plant has been made necessary by the growth of the School's curriculum—particularly an increased emphasis in STEAM education, laboratories and changing technology—not its enrollment and, in support of that contention, submitted a programmatic needs analysis illustrating how the School's pedagogical goals, current room utilization rates, the irregular shape of the subject site and configuration of the existing buildings on the site necessitate development of the subject proposal; and

WHEREAS, the applicant submits that though a two-and-a-half-story plus cellar enlargement containing 14,476 square feet of floor area would be permitted at the subject site as-of-right, such an enlargement would result in an inefficient building that failed to provide sufficient additional program space, contained a second floor with floor-to-floor heights of 11 feet in some places and 15'-6.5" in other places, eliminate the adjacency of the media center in the library and the technology laboratory, divide the rooftop play area into two smaller areas, limiting their utility for large game plan, and would break the street wall continuity of the West 10th Street frontage; and

WHEREAS, the Board acknowledges that as an educational institution, the School is entitled to deference under the law of the State of New York as to zoning and its ability to rely upon programmatic needs in support of the subject variance amendment application; and

WHEREAS, specifically, as held in *Cornell University v. Bagnardi*, 68 NY2d 583 (1986), an educational or religious institution's application is to be granted unless it can be shown to have an adverse effect on the health, safety or welfare of the community and general concerns about traffic and disruption of the residential character of the neighborhood are insufficient grounds for the denial of such application; and

WHEREAS, based on the above, the Board finds that the Applicant's programmatic needs create unnecessary hardship and practical difficulty in developing the premises in compliance with the applicable zoning regulations; and

WHEREAS, because the Applicant is a non-profit institution and the requested variance is needed to further its

not-for-profit mission, the finding set forth in ZR § 72-21(b) need not be made; and

WHEREAS, the applicant submits that, consistent with ZR § 72-21(c), that the subject variance amendment, if granted, will not alter the character of the neighborhood, impair the appropriate use or development of adjacent property, or be detrimental to the public welfare, to wit, the proposed enlargement complies with applicable floor area and floor area ratio provisions and allows for continuity of the street wall along West 10th Street, which will be more aesthetically pleasing than the as-of-right alternative, and the relocation of the play yard from street level to the roof of the proposed enlargement will reduce ambient noise levels; and

WHEREAS, the applicant disputes the characterization of the existing play yard as one of historic or architectural significance and notes that historic records indicate its occupation by various buildings over the last two centuries, thus, the enlargement proposed herein is not inconsistent with its history of development; and

WHEREAS, the Board finds that proposed enlargement will not alter the character of the neighborhood in satisfaction of ZR § 72-21(c), that the hardship herein was not created by the applicant in satisfaction of ZR § 72-21(d) and that the amendment requested is the minimum required to accommodate the School's programmatic needs in accordance with ZR § 72-21(e); and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, by letter dated December 3, 2018, the Fire Department states that, at the Board's request, the Tech Management Group reviewed the plans submitted with this application and requested that they be revised to comply with 2014 Fire Code ("FC") Section 504.4.1 (Rooftop Access) and provide unobstructed rooftop access on the West 10th Street and Greenwich Street elevations of the proposed enlargement; and

WHEREAS, the applicant's representative subsequently filed an application for a modification (variance) from the rooftop access and obstruction provision of FC Section 504.4 and, by letter dated April 8, 2019, the Fire Department granted the application and determined that the applicant's proposal to provide 154 feet of rooftop perimeter access on the West 10th Street and Greenwich Street provides adequate Fire Department access to and upon the rooftop on condition that: (1) the determination only modifies compliance with respect to the rooftop access and/or clear path requirements and does not modify the applicant's obligation to comply with other applicable provisions of FC504.4, including the marking and signage requirements of FC504.4.7 and 504.4.8; (2) nothing in the determination be construed to authorize construction contrary to the New York City Building Code, Zoning Resolution or other applicable laws, rules or regulations; (3) the approved modified rooftop access and/or clear path requirements as indicated on architectural drawing FSK-2.00, FSK-7.00 and FSK-8.00 dated April 4, 2019, be

MINUTES

constructed and maintained in accordance with the approved rooftop plan and maintained clear of obstructions and kept available for emergency responders and if any change is necessary, a new application shall be submitted to modify them; (4) the modification is site specific applicable only to the subject address and not transferable to any other address; (5) the following stipulations be completed as detailed on FSK-2.00, FSK-7.00 and FSK-8.00 dated April 4, 2019, prior to the commencement of the proposed telecommunications work: (a) installation of the 6-foot deep steel walkway, which will provide a continuous perimeter access landing area and a clear path along the West 10th Street and Greenwich Street exposures; (b) installation of the access ladder and the access stairs to provide two separate paths between the playground roof level and the steel walkway; and (c) installation of gates in the protective fences separating the play area from the access ladder and access stairs that must be secured by a chain and lock, which can be cut by standard bolt cutters; and

WHEREAS, in conjunction with the original application in 2001, the Board conducted an environmental review of the proposed action and documented relevant information about the project in the Final Environmental Assessment Statement (“EAS”) CEQR No. 01BSA031M dated September 27, 2000, and revised on November 16, 2000, finding that the proposed action would not have a significant adverse impact on the environment; and

WHEREAS, the applicant provided a Technical Memorandum, dated April 18, 2019, updating the 2001 EAS regarding hazardous materials, noise, and landmarks; and

WHEREAS, by letter dated November 15, 2018, the New York City Department of Environmental Protection (“DEP”) states that the agency has reviewed the October 2018 Phase II Environmental Site Assessment Work Plan (“Work Plan”) and Health and Safety Plan (“HASP”), finds both acceptable as long as the HASP is revised to include information fact sheets and/or Safety Data Sheets for potential contaminants of concerns and requests that, upon completion of the investigation activities, the applicant submit a detailed Phase II report to DEP for review and approval including, at a minimum, an executive summary, narrative of the field activities, laboratory data and conclusions, comparison of soil, groundwater, and soil vapor analytical results (i.e., New York State Department of Environmental Conservation (NYSDEC) 6 NYCRR Part 375, NYSDEC Water Quality Regulations, and the New York State Department of Health’s October 2006 Guidance for Evaluating Soil Vapor Intrusion in the State of New York), updated site plans depicting sample locations, boring logs, and remedial recommendations, if warranted; and

WHEREAS, by letter dated November 30, 2018, DEP states that the agency has reviewed the Noise chapters and analysis prepared by the applicant’s consultant for the subject proposal and determined that the proposal would not result in potential significant adverse noise impacts; and

WHEREAS, by letter dated December 10, 2018, the New York City Department of Transportation (“DOT”)

states, regarding school safety review of the proposal, that the agency is supportive of the application the condition that the school: (1) construct a half curb extension on the southwest corner of Greenwich Street and West 10th Street, facing Greenwich Street and designed following NYC DOT standards, providing additional pedestrian space for students crossing Greenwich Street and improving pedestrian safety by shortening crossing distances; (2) upgrade the pedestrian ramps on the southwest corner of Greenwich Street and West 10th Street to meet ADA and NYC DOT standards; and (3) upgrade the pedestrian ramps on the southeast corner of Washington Street and West 10th Street to meet ADA and NYC DOT standards; and

WHEREAS, DOT additionally requests that upon approval of the application and near the end of construction, the school notify DOT so that the agency may determine if additional traffic safety improvements or parking regulation changes—including the placement of appropriate school warning signage and school loading zones sited according to DOT standards—are necessary; and

WHEREAS, by letter dated March 1, 2019, DEP states that the agency has reviewed the January 2019 Phase II Environmental Site Investigation (“Phase II”), finds the February 2019 Remedial Action Plan (“RAP”) and Construction Health and Safety Plan (“CHASP”) acceptable and, at the completion of the project, the applicant must submit a Professional Engineer certified Remedial Closure Report—indicating that all remedial requirements have been properly implemented (i.e., installation of vapor barrier; transportation/disposal manifests for removal and disposal of soil in accordance with NYSDEC regulations; and two feet of DEP approved certified clean fill/top soil capping requirement in any landscaped/grass covered areas not capped with concrete/asphalt, etc.)—to DEP for review and approval; and

WHEREAS, the New York City Landmarks Preservation Commission (“LPC”) reviewed this application and notes that the project site is located within the LPC-designated and State and National Register eligible Greenwich Village Extension Historic District; that 268 West 10th Street (Block 630, Lot 12) and 665 Washington Street (Block 630, Lot 9) are of architectural significance, are located within LPC and National Register Historic Districts and have no archaeological significance; and that LPC received a letter detailing the results of the limited field testing completed for this project and concurs that there are no further archaeological concerns for the project area; and

WHEREAS, LPC issued Certificate of Appropriateness (COFA-19-31392), dated December 3, 2018, and expiring November 27, 2024, to the subject site permitting the demolition of a one-story brick garage and brick and stucco-clad wall at the perimeter of the playground bounded by West 10th Street to the north and Greenwich Street to the east and constructing a four-story building; and

WHEREAS, by communication dated April 10, 2019, LPC indicated that the revised roof plans approved by the Fire Department would be acceptable to the Commission if

MINUTES

there is no visibility of the railing over the parapet and that the Commission had no objection to the Board voting on this application; and

WHEREAS, based on the foregoing, the Board has determined that the proposed action will not result in any significant environmental effects and that the requested amendment to the variance is appropriate with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated February 6, 2001, so that, as amended, this portion of the resolution reads: “to permit a three-story plus cellar enlargement that does not comply with the maximum permitted lot coverage, contrary to ZR § 24-11; *on condition* that all work shall substantially conform to drawings as they apply to the objections noted above and filed with this application marked ‘Received April 19, 2019’—Nineteen (19) sheets and “Approved April 8, 2019”—Three (3) sheets (rooftop plan FSK-2.00, FSK-7.00 and FSK-8.00); and *on further condition*:

THAT the bulk parameters of the site shall be as follows: a maximum of 92 percent lot coverage at the east corner portion of the lot and a maximum of 88 percent lot coverage in the interior portion of the lot;

THAT the School shall construct a half curb extension on the southwest corner of Greenwich Street and West 10th Street, facing Greenwich Street, designed following NYC Department of Transportation (“DOT”) standards to provide additional pedestrian space for students crossing Greenwich Street and improve pedestrian safety by shortening crossing distances;

THAT the School shall upgrade the pedestrian ramps on the southwest corner of Greenwich Street and West 10th Street to meet ADA and NYC DOT standards;

THAT the School shall upgrade the pedestrian ramps on the southeast corner of Washington Street and West 10th Street to meet ADA and NYC DOT standards;

THAT near the end of construction, the School shall notify DOT so that the agency may determine if additional traffic safety improvements or parking regulation changes—including the placement of appropriate school warning signage and school loading zones sited according to DOT standards—are necessary;

THAT at the completion of the project, the School shall submit a Professional Engineer certified Remedial Closure Report—indicating that all remedial requirements have been properly implemented (i.e., installation of vapor barrier; transportation/disposal manifests for removal and disposal of soil in accordance with NYSDEC regulations; and two feet of DEP approved certified clean fill/top soil capping requirement in any landscaped/grass covered areas not capped with concrete/asphalt, etc.)—to the NYC Department of Environmental Protection (“DEP”) for review and approval;

THAT, in accordance with FDNY approval under FPIMS No. 39067871B, the approved modified rooftop access and/or clear path requirements as indicated on

architectural drawing FSK-2.00, FSK-7.00 and FSK-8.00 dated April 4, 2019, shall be constructed and maintained in accordance with the approved rooftop plan and maintained clear of obstructions and kept available for emergency responders and if any change is necessary, a new application shall be submitted to the Fire Department to modify them;

THAT, in accordance with FDNY approval under FPIMS No. 39067871B, the following stipulations shall be completed as detailed on FSK-2.00, FSK-7.00 and FSK-8.00 dated April 4, 2019, prior to the commencement of the proposed telecommunications work: (a) installation of the 6-foot deep steel walkway, which will provide a continuous perimeter access landing area and a clear path along the West 10th Street and Greenwich Street exposures; (b) installation of the access ladder and the access stairs to provide two separate paths between the playground roof level and the steel walkway; and (c) installation of gates in the protective fences separating the play area from the access ladder and access stairs that must be secured by a chain and lock, which can be cut by standard bolt cutters;

THAT the premises shall remain graffiti-free at all times;

THAT substantial construction shall be completed in accordance with ZR § 72-23;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, indicating this approval and calendar number (“BSA Cal. No. 223-00-BZ”), shall be obtained within four (4) years;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, April 30, 2019.

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, an extension of the term of a variance previously granted by the Board, which will expire on October 19, 2019, and an extension of time to obtain a certificate of occupancy, which expired on April 13, 2011; and

WHEREAS, a public hearing was held on this application on April 23, 2019, after due notice by publication in *The City Record*, with a continued hearing on April 30, 2019, and then to decision on that same date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the subject site and surrounding neighborhood; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of Shell Road, between Avenue X and Bouck Court, partially within an M1-1 zoning district and partially within an R4 (C1-2) zoning district, in the Special Ocean Parkway Special District, in Brooklyn; and

WHEREAS, the site has approximately 104 feet of frontage along Shell Road, between 153 and 172 feet of depth, 5,507 square feet of lot area and is occupied by a two- (2) story Use Group (“UG”) 9 catering hall; and

WHEREAS, the Board has exercised jurisdiction over the subject site since October 19, 2004, when, under the subject calendar number, the Board granted a variance, pursuant to ZR § 72-21, to legalize the enlargement of a one- (1) story commercial building to a two- (2) story commercial building, occupied as a catering hall (Use Group 9) which does not comply with underlying district regulations applicable to floor area ratio (“FAR”), rear yard, and parking, contrary to ZR §§ 33-121, 33-292, 36-21, 43-12, 43-26, and 44-21, on condition that any and all work substantially conform to drawings as they apply to the objections, filed with the application; the term of the variance be for five (5) years, to expire on October 19, 2009; valet parking be provided for patrons of the catering establishment for the duration of the variance, and any renewal of the grant contain this condition; all fire safety measures as shown on the BSA-approved plans be installed and maintained; all sound attenuation measures as shown on the BSA-approved plans be installed and maintained; the premises be maintained free of debris and graffiti; any graffiti located on the premises be removed within 48 hours; the above conditions be noted in the certificate of occupancy; a certificate of occupancy be obtained within six (6) months from the date of this grant, by April 19, 2005; no temporary or permanent certificate of occupancy be issued until removal of all Department of Buildings (“DOB”) objections as set forth on the DOB Objection Sheet, dated August 4, 2004; there be no occupancy of the second floor

of the building until a certificate of occupancy is issued; all exiting requirements be as reviewed and approved by the DOB; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; the approved plans be considered approved only for the portions related to the specific relief granted; and the DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted; and

WHEREAS, on April 13, 2010, under the subject calendar number, the Board amended the October 19, 2004, resolution and extended the term for ten (10) years, on condition that the use and operation of the site comply with BSA-approved plans associated with the prior grant; the term of the grant expire on October 19, 2019; a minimum of 80 off-site parking spaces be provided for patrons of the catering establishment for the duration of the variance, and such parking be located no further than 600 feet from the site, as required by ZR § 36-43; all fire safety measures as shown on the BSA-approved plans be installed and maintained; all sound attenuation measures as shown on the BSA-approved plans be installed and maintained; the premises be maintained free of debris and graffiti; any graffiti located on the premises be removed within 48 hours; the conditions be listed on the certificate of occupancy; a new certificate of occupancy be obtained by April 13, 2011; all conditions from prior resolutions not specifically waived by the Board remain in effect; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and the DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, the term of the variance to expire on October 19, 2019, the applicant seeks a ten- (10) year extension of the term and an extension of time to obtain a certificate of occupancy, which expired on April 13, 2011; and

WHEREAS, the applicant additionally requests a waiver, pursuant to § 1-14.2 of the Board’s Rules of Practice and Procedure, of Rule § 1-07.3(d)(2) to permit the filing of this application more than 30 days after the expiration of time to obtain a certificate of occupancy; and

WHEREAS, the applicant also seeks an amendment to permit interior alterations to the building; and

WHEREAS, the applicant represents that the interior alterations do not create any new non-compliances nor increase the degree of any non-compliances, the catering hall continues to operate daily from 11:00 a.m. to 10:00 p.m. and remains open until 1:00 a.m. on nights when there is an event at the site; and

WHEREAS, at hearing, the Board raised concerns regarding the owner’s ability to continue to comply with the condition that a minimum of 80 off-site parking spaces be

MINUTES

provided for patrons of the catering establishment for the duration of the variance and such parking be located no further than 600 feet from the site; and

WHEREAS, in response, the applicant provided a parking space rental agreement, entered into on April 25, 2019, for the use of 80 parking spaces located at 2569 Shell Road, Brooklyn, to continue until the catering hall use at the subject site ceases; and

WHEREAS, by letter dated April 22, 2019, the Fire Department stated that the premises have three (3) outstanding violation orders issued by the Fire Alarm Inspection Unit (“FAIU”) and Licensed Public Place of Assembly Unit (“LPPA”) for failure to maintain the fire alarm system; the first violation order was issued on October 21, 2015, and remains outstanding; subsequently, two (2) additional violation orders were issued on May 18, 2018, and February 7, 2019, by FAIU for failure to restore the fire alarm and to comply with the Letter of Defect issued March 23, 2018; and that the Fire Department requests that the Board does not render a decision on the application until a response is heard from the applicant as to when the violation orders will be complied with; and

WHEREAS, by letter dated April 25, 2019, the Fire Department stated that FAIU informed the Department that the subject site had an inspection of their fire alarm system and the violation orders will be dismissed, and the Department has no objection to the Board rendering a decision on the application, as the Bureau of Fire Prevention will continue to inspect these premises and enforce any outstanding violation orders; and

WHEREAS, the Board finds that ten- (10) year extension of the term of the variance, originally granted in 2004, extension of time to obtain a certificate of occupancy and amendment to permit interior alterations are appropriate with conditions previously imposed by the Board and with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* § 1-07.3(d)(2) of its Rules of Practice and Procedure and *amends* the resolution, dated October 19, 2004, as amended through April 13, 2010, so that as amended this portion of the resolution reads: “to grant an extension of the term of the variance for a term of ten (10) years, to expire on October 19, 2029, to grant an extension of time to obtain a certificate of occupancy for one (1) year, by April 30, 2020, and permit interior alterations of the building, *on condition* that all work and site conditions shall comply with drawings filed with this application marked “Received April 17, 2019”-Six (6) sheets; and *on further condition*:

THAT the term of the variance shall expire October 19, 2029;

THAT valet parking shall be provided for patrons of the catering establishment for the duration of the variance, and any renewal of the grant contain this condition;

THAT a minimum of 80 off-site parking spaces shall be provided and maintained, at 2569 Shell Road, Brooklyn, for patrons of the subject catering establishment for the

duration of the variance;

THAT all fire safety measures as shown on the BSA-approved plans shall be maintained;

THAT all sound attenuation measures as shown on the BSA-approved plans shall be maintained;

THAT the premises shall be maintained free of debris and graffiti;

THAT any graffiti located on the premises shall be removed within 48 hours;

THAT all exiting requirements shall be as reviewed and approved by the DOB;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a revised certificate of occupancy, also indicating this approval and calendar number (“BSA Cal. No. 208-03-BZ”), shall be obtained within one (1) year, by April 30, 2020;

THAT all conditions from prior resolution not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, April 30, 2019.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated October 19, 2018, acting on New Building Application No. 123118884, reads in pertinent part:

“Proposed change of use to a residential use, as defined by ZR 12-10, is not permitted as of right in a M1-6 zoning district pursuant to ZR 42-00”; and

WHEREAS, this is an application under ZR § 72-21 to permit, in an M1-6 zoning district, the development of a mixed-use commercial and residential building that does not comply with zoning regulations for use, contrary to ZR § 42-00; and

WHEREAS, a public hearing was held on this application on October 23, 2018, after due notice by publication in *The City Record*, with continued hearings on February 5, 2019 and then to decision on April 30, 2019; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 4, Manhattan, recommends disapproval of this application, questioning whether this application meets the required findings under ZR § 72-21, requesting that the applicant analyze the financial feasibility of an as-of-right commercial development, noting that residential use would not disrupt the character of the surrounding area, citing concerns with the height of the proposed building with respect to neighborhood character and the minimum variance, noting that the proposed absence of a front setback is consistent with nearby buildings, questioning whether purchase of the subject site with knowledge of the deterioration of the existing building constitutes a self-created hardship; and

WHEREAS, Community Board 4, Manhattan, also

MINUTES

recommends that, should this application be granted, that the new building have a maximum height of 125 feet (approximately 12 stories), rear balconies not be permitted to minimize noise, any roof deck only be for the benefit of the occupants of the proposed building without any eating or drinking establishment on the roof, that no eating or drinking establishment be located at the first story, that no permits for after hour or weekend work be permitted except in emergency, that demolition of the existing building be coordinated with construction at adjacent sites, that monitoring of the adjacent property take place during construction and that insurance protect the adjacent property to cover any construction damage; and

WHEREAS, the subject site is located on the south side of West 26th Street, between Seventh Avenue and Avenue of the Americas, in an M1-6 zoning district, in Manhattan; and

WHEREAS, the subject site has approximately 25 feet of frontage along West 26th Street, 99 feet of depth, 2,469 square feet of lot area, was occupied by a five-story commercial building subject to a vacate and demolition order resulting from excavation work at an adjacent site and is currently vacant; and

WHEREAS, the applicant proposes to develop a 14-story, with cellar, mixed-use commercial and residential building with 24,685 square feet of floor area (10.0 FAR) and a front wall height of 148 feet without setback and a building height of 148 feet; and

WHEREAS, the applicant notes that, at the subject site, residential use is not permitted under ZR § 42-00; and

WHEREAS, the applicant states that the subject site is beleaguered by unique physical conditions that create practical difficulties or unnecessary hardship in complying with applicable zoning regulations—namely, the subject site’s narrowness and small size; and

WHEREAS, in support of this contention, the applicant surveyed the surrounding area, determining that, of 285 lots in the surrounding area, there are 70 lots with widths of 25 feet or less but finding that the subject site is the only small and narrow vacant lot held in single ownership not used in conjunction with adjacent lots; and

WHEREAS, the applicant notes that the above unique physical conditions create practical difficulties or unnecessary hardship because they prevent the development of a building that would accommodate adequate floorplates necessary for commercial or manufacturing use and the required setbacks further constrain the floorplates because of the required elevator core and two means of egress—rendering an as-of-right development functionally obsolete before completion of construction; and

WHEREAS, the Board finds that the above unique physical conditions create practical difficulties or unnecessary hardship in complying strictly with applicable zoning regulations that are not created by general circumstances in the neighborhood or district; and

WHEREAS, the applicant submits that as-of-right development would not result in a reasonable return; and

WHEREAS, in support of this contention, the applicant supplied a financial feasibility study demonstrating that an as-of-right development—consisting of a 14-story, with cellar, commercial building used for retail and offices—would result in a substantial loss on investment but that the proposed mixed-use development with residential use would yield a modest return; and

WHEREAS, in response to questions from the Board at hearing, the applicant provided support of excavation drawings and notes that sloped excavation would increase construction costs above the submitted construction cost estimates, especially in light of additional permit requirements from the New York City Department of Transportation and the presence of an electrical conduit immediately adjacent to the subject site; and

WHEREAS, the Board finds that, because of the above unique physical conditions, there is no reasonable possibility that development in strict conformity with applicable zoning regulations would bring a reasonable return; and

WHEREAS, the applicant submits that the proposed development is in keeping with the character of the surrounding area; and

WHEREAS, in support of this contention, the applicant supplied an illustrative streetscape rendering indicating that numerous other buildings on the block, including two immediately adjacent to the subject site, have heights of 152 feet and 156 feet with buildings directly across the street that have building heights in excess of 150 feet and that the proposed height of 148 feet without setback is consistent with the built character of the area; and

WHEREAS, furthermore, in response to community concerns and at the Board’s questions at hearing, the applicant reduced the height of the proposed building from 152 feet to 148 feet, removed ledges from the front façade of the proposed building and notes that all construction will proceed in accordance with the New York City Construction Codes as well as best practices for construction site safety; and

WHEREAS, the Board also notes that DOB will ensure that all construction at the site proceeds in a safe and lawful manner, and the applicant has not proposed any eating or drinking establishment for the roof of the subject building, which is instead labeled as accessory to the floors below; and

WHEREAS, additionally, the applicant notes that the rear balconies are financially necessary to offset the proposed dwelling units’ disadvantages compared to other available units in the market and that, given their size and location accessed through the bedroom, the rear balconies are not suited to entertaining; and

WHEREAS, in response to questions from the Board, the applicant notes that the proposed building will feature exposed concrete with concrete stucco over concrete on the side walls and rear balconies; and

WHEREAS, the Board finds that the proposed variance will not alter the essential character of the neighborhood or district in which the subject site is located;

MINUTES

will not substantially impair the appropriate use or development of adjacent property; and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the above practical difficulties or unnecessary hardship do not constitute a self-created hardship; and

WHEREAS, in response to questions from the Board with respect to vacancy of the subject site, the applicant notes that demolition of the existing building was the direct result of excavation work performed by a third party at an adjacent property that resulted in a vacate and demolition order from DOB; and

WHEREAS, in response to community concerns regarding the site's purchase, purchase of a site does not constitute self-created hardship in and of itself—as specifically provided in the Zoning Resolution; and

WHEREAS, the Board finds that the above practical difficulties or unnecessary hardship have not been created by the owner or by a predecessor in title; and

WHEREAS, the applicant states that the proposed variance is the minimum necessary to permit a productive use of the site, as reflected in the financial feasibility study; and

WHEREAS, in particular, the applicant analyzed a lesser variance scenario—consisting of a 12-story, with cellar, commercial building with a height of 120'-10" used for retail and offices without the required front setback—finding that it also would result in a loss on investment; and

WHEREAS, in response to community concerns, the applicant accordingly notes that a building with a maximum height of 125 feet, unlike the proposed building, would not realize a reasonable return on investment; and

WHEREAS, the Board finds that the proposed variance is the minimum necessary to afford relief within the intent and purposes of the Zoning Resolution; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 18BSA055M, dated April 30, 2019; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning and Public Policy; Socioeconomic Conditions; Community Facilities; Open Space; Shadows; Historic and Cultural Resources; Urban Design; Natural Resources; Hazardous Materials; Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction; and

WHEREAS, by correspondence dated February 21, 2018, Landmarks Preservation Commission represents that the proposed project would not result in adverse impacts on architectural or archaeological resources; and

WHEREAS, by letter dated March 29, 2019, the New York City Department of Environmental Protection ("DEP")

states that the February 2019 Remedial Action Plan and Construction Health and Safety Plan are acceptable on condition that the proposed vapor barrier systems shall be used unless an amendment is approved by DEP, that at the completion of the project a professional engineer (P.E.) certified Remedial Closure Report shall be submitted to DEP for review and approval for the proposed project; that the P.E. certified Remedial Closure Report shall indicate that all remedial requirements have been properly implemented (that is, installation of the vapor barrier, transportation and disposal manifests for removal and disposal of soil in accordance with New York State Department of Environmental Conservation regulations and 2 feet of DEP-approved certified clean fill or top soil capping requirement in any landscaped or grass-covered areas not capped with concrete or asphalt); and

WHEREAS, by letter dated April 4, 2019, DEP states that the proposed project would not result in significant air quality impacts and that the proposed project would not result in any significant noise impacts and the surrounding ambient noise would not have an adverse effect on the proposed project on condition that a window-wall noise attenuation of no less than 31 dBA shall be required along with an alternate means of ventilation while the windows are closed; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, based upon its review of the record and inspections of the site and surrounding area, the Board finds that the evidence in the record supports the findings required to be made under ZR § 72-21 and that the applicant has substantiated a basis to warrant exercise of discretion.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *issue* a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1997, as amended, and makes each and every one of the required findings under ZR § 72-21 to *permit*, in an M1-6 zoning district, the development of a mixed-use commercial and residential building that does not comply with zoning regulations for use, contrary to ZR § 42-00; *on condition* that all work, operations and site conditions shall conform to drawings filed with this application marked "Received April 11, 2019"-Twelve (12) sheets; and *on further condition*:

THAT a window-wall noise attenuation of no less than 31 dBA shall be required along with an alternate means of ventilation while the windows are closed;

THAT the above condition shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number ("BSA Cal No 2017-295-

MINUTES

BZ”), shall be obtained within four (4) years, by April 30, 2023;

THAT the proposed vapor barrier systems shall be used unless an amendment is approved by DEP;

THAT at the completion of the project a professional engineer (P.E.) certified Remedial Closure Report shall be submitted to DEP for review and approval for the proposed project, and the P.E. certified Remedial Closure Report shall indicate that all remedial requirements have been properly implemented (that is, installation of the vapor barrier, transportation and disposal manifests for removal and disposal of soil in accordance with New York State Department of Environmental Conservation regulations and 2 feet of DEP-approved certified clean fill or top soil capping requirement in any landscaped or grass-covered areas not capped with concrete or asphalt);

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 30, 2019.

CEQR #18-BSA-073X

APPLICANT – Eric Palatnik, P.C., for Thomas J. Cannistraci, owner; Strong Pelham Fitness, lessee.

SUBJECT – Application December 12, 2017 – Special Permit (§73-36) to permit the operation of a Physical Cultural Establishment (*Dolphin Fitness Club*) located on the first floor and mezzanine area of the subject building contrary to ZR §42-10. M1-1 zoning district.

PREMISES AFFECTED – 2030 Eastchester Road, Block 4218, Lot 9, Borough of Bronx.

COMMUNITY BOARD #11BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated October 3, 2018, acting on DOB Application No. 220465244, reads in pertinent part:

A physical [culture] establishment is contrary to ZR 73-36, the project must be presented to the court at B. S. & A. to file an application with the

B. S. & A. An official [denial] is required from the filing at the DOB. Each [denial] has a 30 day deadline and must be renewed within that time limit; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site located within a M1-1 zoning district, a physical culture establishment (“PCE”) in a portion of the first floor and mezzanine of an existing one-(1) story plus mezzanine commercial building, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on December 4, 2018, after due notice by publication in *The City Record*, with a continued hearing and decision on January 15, 2019, reopened on April 30, 2019, for the Board to consider plans that accurately reflected the layout of the PCE, and then decided on that same date; and

WHEREAS, Community Board 11, the Bronx, recommends approval of this application; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the subject site and surrounding neighborhood;

WHEREAS, the Board was in receipt of one (1) form letter in support of this application; and

WHEREAS, the subject site is located on the east side of Eastchester Road, between Seminole Street and Stillwell Avenue, in an M1-1 zoning district, in the Bronx; and

WHEREAS, the site has approximately 75 feet of frontage along Eastchester Road, 99 feet of depth, 5,908 square feet of lot area and is occupied by an existing one-(1) story plus mezzanine commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use*1 is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant represents that the subject PCE occupies 5,908 square feet of floor area on the first floor with open workout areas, men's and women's locker rooms with bathrooms and showers, and a reception area; and 2,458 square feet of floor area on the mezzanine with exercise areas and a bathroom; and

WHEREAS, the PCE has operated since 1999 as "Dolphin Fitness," with the following hours of operation:

Monday through Friday from 5:00 a.m. to 11:00 p.m.; and, Saturday and Sunday from 7:00 a.m. to 7:00 p.m.; and

WHEREAS, although the building has no residential uses within, the applicant states that all PCE windows will be sound attenuated double-glazed glass; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because it is an established business; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant submits that the PCE contains facilities for classes, instruction and programs for physical improvement and weight reduction; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood because the PCE is located in a commercial building on a street characterized by other commercial and manufacturing uses; and

WHEREAS, the applicant states that fire extinguishers will be provided in the PCE as well as exit signs at each exit and at all changes of direction in corridors; and

WHEREAS, by letter dated November 29, 2018, the Fire Department objected to the application and requested an adjournment in order for Fire Department personnel to inspect the sprinkler system at the premises; according to Fire Department records and DOB, there has never been a filing for a sprinkler system; in the photograph provided by the applicant to the Board, one picture showing a sprinkler line appears to have an illegal cap instead of a sprinkler head; the Department's Licensed Public Place of Assembly ("LPPA") unit has visited the site and issued a violation order (E463956) for operating without approvals from the DOB; the LPPA unit has been notified of this filing with the Board and will continue to visit the site for compliance; with an occupant load of over 300 persons, as per 2014 BC Section 907.2.1, a fire alarm system is required to be installed; a fire alarm application has been filed and is currently disapproved; and, once a decision is rendered in favor of the applicant, the Department will inform the plan examination to approve the fire alarm application; and

WHEREAS, by letter dated December 31, 2018, the Fire Department stated no objection to the application and confirmed that, with respect to this application for a PCE to occupy the first floor and mezzanine space with an occupant load of 295, an application has been filed with the DOB for the change of use (Alt. I 220465244), no Public Assembly (PA) application has been filed to date; the LPPA unit has

MINUTES

issued a violation order E463956 to obtain a Certificate of Operation permit and will continue to monitor this site; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 18BSA073X, dated December 13, 2017; and

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, legalizing the PCE space on the first floor, is appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to legalize, on a site located within a M1-1 zoning district, the operation of a physical culture establishment on a portion of the first floor and mezzanine of an existing one- (1) story plus mezzanine commercial building, contrary to ZR § 42-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received March 27, 2019”-Five (5) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on January 15, 2029;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 will be as reviewed and approved by DOB;

THAT a place of assembly permit shall be obtained;

THAT minimum 3 foot wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT a certificate of occupancy, also referencing this approval and calendar number (“BSA Cal. No. 2017-315-BZ”), shall be obtained within one (1) year, by January 15, 2020;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the

Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 30, 2019.

APPLICANT – Law Office of Lyra J. Altman, for Saeed Azarfar, owner.

SUBJECT – Application February 13, 2018 – Special Permit (§73-622) to permit the enlargement of an existing single-family home contrary to ZR §23-141 (floor area, open space and lot coverage) and ZR §23-461(a) (required side yard). R3-2 zoning district.

PREMISES AFFECTED – 1773 East 22nd Street, Block 6805, Lot 78, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated June 22, 2018, acting on Department of Buildings (“DOB”) Application No. 321504886, reads in pertinent part:

1. Proposed enlargement [. . .] non-complian[t] [. . .] with respect to floor area ratio, which is contrary to ZR Section 23-142;
2. Proposed enlargement [. . .] non-complian[t] [. . .] with respect to open space and lot coverage, which is contrary to ZR Section 23-142;
3. Proposed enlargement results in one side yard less than 5'-0", which is contrary to ZR Section 23-461(a); and

WHEREAS, this is an application under ZR § 73-622 to permit, in an R3-2 zoning district, the enlargement of a single-family detached dwelling that does not comply with the zoning requirements for floor area ratio (“FAR”), lot coverage, open space and side yards, contrary to ZR §§ 23-142 and 23-461(a); and

WHEREAS, a public hearing was held on this application on January 15, 2019, after due notice by publication in *The City Record*, with continued hearings on March 19, 2019, and April 30, 2019, and then to decision on that date; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of East 22nd Street, between Quentin Road and Avenue R, in an R3-2 zoning district, in Brooklyn; and

MINUTES

WHEREAS, the site has approximately 40 feet of frontage along East 22nd Street, 100 feet of depth, 4,000 square feet of lot area and is occupied by an existing two- (2) story plus cellar single-family detached dwelling containing 1,653 square feet of floor area (0.41 FAR), 76 percent of open space (3,028 square feet), 24 percent of lot coverage (972 square feet), a rear yard with a depth of 49'-7-1/4", two (2) side yards with widths of 3'-11-1/2" and 13'-9-1/4", and a detached concrete block garage in the rear; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement*¹ of an existing *single- or two-family detached or semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear*

lot line; and

- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that this application located within an area in which the special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge a detached single-family residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant proposes to both vertically and horizontally enlarge the building, resulting in a three- (3) story plus cellar one- (1) family detached dwelling with 3,993 square feet of floor area (1.0 FAR), 59 percent of open space (2,349 square feet of open space), 41 percent of lot coverage (1,652 square feet), a rear yard with a depth of 32 feet, two (2) side yards with widths of 3'-11-1/2" and 9'-1/2", and detached concrete block garage in the rear; and

WHEREAS, specifically, the applicant states that the proposed enlargement would increase the floor area on the first floor from 972 square feet to 1,652 square feet, the second floor from 681 square feet to 1,431 square feet and create a third floor with 907 square feet of floor area; and

WHEREAS, at the subject site, a maximum FAR of 0.6 is permitted (2,400 square feet) (a maximum FAR of 0.5 plus a maximum 20% increase in floor area located directly under a sloping roof), a minimum of 65 percent open space is required (2,600 square feet), a maximum of 35 percent lot coverage is permitted (1,400 square feet) and two (2) side yards, each with minimum widths of five (5) feet and a minimum total combined width of 13 feet are required pursuant to ZR §§ 23-142 and 23-461(a); and

WHEREAS, the proposed enlargement includes a

¹ Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

vertical and horizontal extension of the existing non-complying side yard, and the applicant represents that, pursuant to a 1929 Belcher Hyde Map of the immediate area including the subject site and provided by the applicant, the subject site was developed with a detached dwelling in approximately the same location and orientation as the site is occupied today and, thus, the non-complying side yard predated the 1961 Zoning Resolution and is a legal non-compliance; and

WHEREAS, the applicant provided an analysis of single- or two- (2) family dwellings located within 400 feet of the subject premises within an R3-2 zoning district (the “Study Area”) concluding that, of the 126 qualifying residences, 70 residences (56 percent) have an FAR between 0.51 and 0.7, ranging from 0.52 to 0.7, and 19 residences (15 percent) have an FAR of more than 0.7, ranging from 0.71 to 1.58; and

WHEREAS, with regards to lot coverage and open space, the applicant demonstrated that, within the Study Area, 96 residences (76 percent) have a lot coverage greater than 35 percent, ranging from 36 percent to 57 percent, and 74 residences (59 percent) have a lot coverage of 41 percent or greater; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 19BSA098K dated February 14, 2018; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622 to permit, in an R3-2 zoning district, the enlargement of a single-family detached dwelling that does not comply with the zoning requirements with regards to floor area ratio, lot coverage, open space and side yards, contrary to ZR §§ 23-142 and 23-461(a); *on condition* that all work shall substantially conform to drawings as they apply to the objection above-noted, filed with this application and marked Received “April 11, 2019”-

Eighteen (18) sheets; and *on further condition:*

THAT the following shall be the bulk parameters of the building: a maximum floor area ratio of 1.0 (3993 square feet of floor area), a minimum of 59 percent of open space (2,349 square feet of open space), a maximum of 41 percent of lot coverage (1,652 square feet), and two (2) side yards with minimum widths of 3’-11-1/2” and 9’-1/2”, as illustrated on BSA-approved plans;

THAT plans submitted to the Department of Buildings shall be subject to full plan examination and review and shall not be self-certified;

THAT the removal of exterior walls and/or joists in excess of those indicated on the BSA-approved plans is prohibited and shall void the special permit;

THAT substantial construction shall be completed pursuant to ZR § 73-70, by April 30, 2023;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number (“BSA Cal. No. 2018-21-BZ”) shall be obtained within four (4) years, by April 30, 2023;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 30, 2019.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough

MINUTES

Commissioner, dated November 15, 2018, acting on Department of Buildings (“DOB”) Application No. 321754669, reads in pertinent part:

1. Proposed plans are contrary to Zoning Resolution Section 23-141 in that the proposed Floor Area Ratio exceeds the maximum permitted;
2. Proposed plans are contrary to Zoning Resolution Section 23-141 in that the proposed Open Space Ratio is less than the minimum required; and

WHEREAS, this is an application under ZR § 73-622 to permit, in an R2 zoning district, the conversion and enlargement of a two- (2) family detached dwelling to a single-family detached dwelling that does not comply with the zoning requirements for floor area ratio (“FAR”), and open space ratio (“OSR”), contrary to ZR § 23-141; and

WHEREAS, a public hearing was held on this application on March 19, 2019, after due notice by publication in *The City Record*, with a continued hearing on April 30, 2019, and then to decision on that date; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the northwest corner of Avenue K and East 24th Street, in an R2 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 60 feet of frontage along Avenue K, 100 feet of frontage along East 24th Street, 6,000 square feet of lot area, and is occupied by a two (2) story plus cellar two- (2) family detached dwelling containing 3,504 square feet of floor area (0.58 FAR), an OSR of 1.21 (4,238 square feet of open space), a front yard on Avenue K with a depth of 13’-1-1/4” and a front yard on East 24th Street with a depth of 15’-9-3/4”, two (2) side yards with widths of 25’-2-3/4” and 11’-1-1/4”, and a detached garage in the northern side yard; and

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement*¹ of an existing *single-* or *two-family detached* or *semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of

Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear yard* is not located within 20 feet of the *rear lot line*; and
- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single-* or *two-family detached* or *semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building’s non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that this application located within an area in which the special

¹ Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge a detached two- (2) family residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant proposes to convert and both vertically and horizontally enlarge the building, resulting in a two- (2) story plus attic and cellar one- (1) family dwelling with 6,020 square feet of total floor area (1.0 FAR), an OSR of 0.58 (3,479 square feet of open space), a front yard on Avenue K with a depth of 13'-1-1/4" and a front yard on East 24th Street with a depth of 15 feet, two (2) side yards with widths of 21 feet and five (5) feet, and a detached garage in the northern side yard; and

WHEREAS, specifically, the applicant states that the proposed enlargement would increase the floor area on the first floor from 1,762 square feet to 2,453 square feet, the second floor from 1,742 square feet to 2,420 square feet, and the attic from 0 square feet to 1,147 square feet; and

WHEREAS, at the subject site, a maximum FAR of 0.50 is permitted (3,000 square feet) and a minimum OSR of 1.5 (4,500 square feet of open space based on a complying 0.5 FAR) are required pursuant to ZR § 23-141; and

WHEREAS, the proposed enlargement includes a vertical and horizontal extension of the existing non-complying front yard along Avenue K and the Board notes that, pursuant to a 1930 Sanborn Map including the subject site provided by the applicant, the subject site was developed with a detached dwelling in approximately the same location and orientation as the site is occupied today and, thus, the non-complying front yard predated the 1961 Zoning Resolution and is a legal non-compliance; and

WHEREAS, the applicant provided an analysis of single- or two- (2) family dwellings located within 400 feet of the subject premises within an R2 zoning district (the "Study Area") concluding that, of the 96 qualifying residences, 84 residences (88 percent) have an FAR of greater than 0.5, ranging from 0.51 to 1.25, and 14 residences (15 percent) have an FAR of 1.0 or greater; and

WHEREAS, with regards to open space ratio, the applicant demonstrated that, within the Study Area, 91 residences (95 percent) have an OSR less than 1.5, ranging from 1.45 to 0.38, and 16 residences (17 percent) have an OSR of 0.59 or less; and

WHEREAS, at hearing, the Board raised concern regarding the proposal of floor area in excess of 1.0 FAR (6,000 square feet) and while the Board notes herein that the plans submitted by the applicant do not include all floor area deductions available pursuant to applicable provisions of the Zoning Resolution, the Board confirms that the maximum FAR permitted pursuant to this approval is 1.0 (6,000 square feet of floor area); and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 19BSA066K, dated December 6, 2018; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622 to permit, in an R2 zoning district, the conversion and enlargement of a two- (2) family detached dwelling to a single-family detached dwelling that does not comply with the zoning requirements with regards to floor area ratio and open space ratio, contrary to ZR § 23-141; *on condition* that all work shall substantially conform to drawings as they apply to the objection above-noted, filed with this application and marked Received "April 11, 2019"-Eighteen-(18) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area ratio of 1.0 (6,000 square feet of total floor area, excluding all floor area deductions permitted under the applicable provisions of the Zoning Resolution) and a minimum open space ratio of 0.59 (3,547 square feet of open space), as illustrated on BSA-approved plans;

THAT the height and front setback of the subject building shall be subject to verification of their compliance with the Zoning Resolution by the Department of Buildings;

THAT this approval is limited to waiving zoning requirements for the subject site relating to floor area ratio and open space ratio only;

THAT the removal of exterior walls and/or joists in excess of those indicated on the BSA-approved plans is prohibited and shall void the special permit;

THAT substantial construction shall be completed pursuant to ZR § 73-70, by April 30, 2023;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number ("BSA Cal. No. 2018-194-BZ"), shall be obtained within four (4) years, by April 30, 2023;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other

MINUTES

jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 30, 2019.

2017-217-BZ

APPLICANT – Akerman, LLP, for Hylan Properties, LLC, owner.

SUBJECT – Application June 20, 2017 – Special Permit (§73-126) to permit a two-story with cellar ambulatory diagnostic or treatment health care facility (UG 4) contrary to ZR §22-14(A). R3X (Special South Richmond Development District) (Lower Density Growth Management Area).

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Deputy Borough Commissioner, dated January 23, 2019, acting on Department of Buildings (“DOB”) Application No. 122445746, reads in pertinent part:

Proposed physical culture establishment located at sub-cellar level is not permitted as of right in a C4-6A Zoning District. This is contrary to section 32-10 ZR; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site located within a C4-6A zoning district, a physical culture establishment (“PCE”) on portions of the sub-cellar of an existing seven- (7) story plus cellar and sub-cellar mixed-use residential and commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on April 30, 2019, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 7, Manhattan, recommends approval of this application; and

WHEREAS, the Board was in receipt of one (1) form letter in support of this application; and

WHEREAS, the subject site is located on the southwest corner of West 72nd Street and Columbus Avenue, within a C4-6A zoning district and in the Upper West Side/Central Park West Historic District, in Manhattan; and

WHEREAS, the site has approximately 50 feet of frontage along West 72nd Street, 102 feet of frontage along Columbus Avenue, 5,108 square feet of lot area and is occupied by an existing seven- (7) story plus cellar and sub-cellar mixed-use residential and commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 3, 2016, when, under BSA Cal. No. 188-15-BZ, the Board granted a special permit, pursuant to ZR § 73-36, to permit the operation of a PCE, by Miccass Physical Therapy, PC and Momentum Fitness, LLC, with Miccass Physical Therapy, PC, sub-leasing a portion of the space to Momentum Fitness, LLC, on the cellar level of the subject building on condition that all work substantially conform to drawings filed with the application; the term of the PCE grant be for ten (10) years, expiring on May 3, 2026; the hours of the PCE be limited to Monday through Friday 8:00 a.m. to 8:00 p.m., Saturday 8:00 a.m. to 3:00 p.m. and Sunday 8:00 a.m. to 2:00 p.m.; there be no change in ownership or operating control of the PCE without prior application to and approval from the Board; minimum 3’-0” wide exit pathways be provided leading to the required exits and such pathways always be maintained unobstructed, including from any gymnasium equipment; an approved interior fire alarm—including manual pull stations at each required exit, local audible and visual alarms, area smoke detector and a connection to an FDNY-approved central station—be installed in the entire PCE space; all interior partitions and exists shall be as approved by DOB; Local Law 58/87 be complied with as approved by DOB; 7.5mm-thick rubber flooring be installed within the areas designated for circuit and cardiovascular training; 22.5 millimeter-thick rubber flooring be installed within the area designated for free weight uses; the conditions appear on the certificate of occupancy; all DOB and related agency application(s) filed in connection with the authorized use and/or bulk be signed off by DOB and all other relevant agencies by May 3, 2021; the approval be limited to the relief granted by the Board in response to specifically cited objection(s); the approved plans be considered approved only for the portions related to the specific relief granted; and DOB ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

MINUTES

- (1) that such *use1* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and

community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant represents that the PCE occupies 4,600 square feet of floor space in the sub-cellar with a training mat area, men's and women's locker rooms with bathrooms and showers, and an office; and

WHEREAS, the PCE began operation in April 2019, as "Renzo Gracie Upper West Side, LLC," with the following hours of operation: Monday through Saturday, 7:00 a.m. to 10:00 p.m., and closed on Sunday; and

WHEREAS, the applicant states that the PCE is separated from residential uses within the subject building by two (2) floors, is located immediately below another PCE, does not include any exercise equipment, does not use any amplified music, and the operator does not anticipate the PCE use to cause any disturbance to neighboring residential uses; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because the PCE is located in an existing mixed-use building, directly below another PCE tenant, keeping with the existing uses already within the subject site, and no storefront or any portion of the subject PCE is visible from street level; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant submits that the PCE will contain facilities for classes, instruction and programs for martial arts; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood because it is consistent with surrounding uses and maintains an entrance for the PCE separate from the entrance to the residential portion of the subject mixed-use building; and

WHEREAS, the applicant states that a sprinkler system and an approved fire alarm system are installed and maintained within the PCE space; and

WHEREAS, by letter dated April 26, 2019, the Fire

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

Department states that these premises are protected by a sprinkler, standpipe and fire alarm systems that have been inspected and tested satisfactorily to Fire Department rules and regulations, and that the Fire Department has no objection to the Board rendering a decision on this application; and

WHEREAS, by Certificate of No Effect (XCNE-19-28046), issued July 6, 2018, the Landmarks Preservation Commission approved work associated with the PCE use as having no effect on the significant protected features of the subject building; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 19-BSA-068M, dated December 27, 2018; and

WHEREAS, the term of the grant has been reduced to reflect the period the PCE operated without approval from the Board; and

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, legalizing the PCE on a portion of the sub-cellar, is appropriate, with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to legalize, on a site located within a C4-6A zoning district and in the Upper West Side/Central Park West Historic District, the operation of a physical culture establishment on a portion of the sub-cellar of an existing seven- (7) story plus cellar and sub-cellar mixed-use residential and commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received March 28, 2019”- Seven (7) sheets and “Received April 26, 2019”- One (1) sheet; and *on further condition*:

THAT the term of the PCE grant will expire on April 1, 2029;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 will be as reviewed and approved by DOB;

THAT an approved fire alarm system and sprinkler shall be maintained as indicated on the Board-approved plans;

THAT minimum 3 foot wide exit pathways shall be

provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also referencing this approval and calendar number (“BSA Cal. No. 2018-200-BZ”), shall be obtained within one (1) year, by April 30, 2020;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 30, 2019.

CALENDAR

REGULAR MEETING JUNE 4, 2019, 10:00 A.M.

NOTICE IS HEREBY GIVEN of a public hearing, Tuesday morning, June 4, 2019, 10:00 A.M., at 22 Reade Street, Spector Hall, New York, N.Y. 10007, on the following matters:

SPECIAL ORDER CALENDAR

698-59-BZ

APPLICANT – Eric Palatnik, P.C., for Bolla EM Realty, LLC, owner.

SUBJECT – Application February 6, 2019 – Extension of Time to Complete Construction of a previously approved variance permitting the operation of an Automotive Service Station (UG 16B) which expired on December 9, 2017. C2-2/R4 zoning district.

PREMISES AFFECTED – 2773 Nostrand Avenue, Block 7684, Lot 22, Borough of Brooklyn.

COMMUNITY BOARD #18BK

156-73-BZ

APPLICANT – The Design Alliance/Gary Maranga, for Albert Einstein College of Medicine, owner.

SUBJECT – Application June 28, 2018 – Extension of Term of a previously approved variance made pursuant to Section 60(3) of the Multiple Dwelling Law, permitting the use of Transient parking for the unused and surplus tenants' space in the required accessory garage of a multiple dwelling which expires on June 26, 2013. R6 and R4 zoning districts.

PREMISES AFFECTED – 1975 Eastchester Road, Block 4205, Lot 2, Borough of Bronx.

COMMUNITY BOARD #2BX

21-08-BZ

APPLICANT – Law Office of Fredrick A. Becker, for Pilot Realty Co., owner; TSI Morris Park LLC dba New York Sports Club, lessee.

SUBJECT – Application November 1, 2018 – Extension of Term of a previously approved Special Permit (§73-36) permitting the operation of a Physical Culture Establishment (*New York Sports Club*) which expired on November 1, 2017; Waiver of the Board's Rules. M1-1 zoning district.

PREMISES AFFECTED – 1601 Bronxdale Avenue, Block 4042, Lot 200, Borough of Bronx.

COMMUNITY BOARD #11BX

271-13-BZ

APPLICANT – Viktoriya Midyany, owner.

SUBJECT – Application January 8, 2019 – Extension of Time to Complete Construction of a previously approved Special Permit (§73-622) for the enlargement of an existing single-family home which expires on January 30, 2019. R3-1 zoning district.

PREMISES AFFECTED – 129 Norfolk Street, Block 8757, Lot 43, Borough of Brooklyn.

COMMUNITY BOARD #15BK

REGULAR MEETING JUNE 4, 2019, 1:00 P.M.

NOTICE IS HEREBY GIVEN of a public hearing, Tuesday afternoon, June 4, 2019, 1:00 P.M., at 22 Reade Street, Spector Hall, New York, N.Y. 10007, on the following matters:

ZONING CALENDAR

2018-191-BZ

APPLICANT – Slater & Beckerman, P.C., for 215N 10 Partners LLC, owner.

SUBJECT – Application November 29, 2018 – Special Permit (§73-44) to permit a reduction in the required parking spaces for offices (UG 6B) with an PRC-B1 parking category within a proposed development of a new mixed use residential, office and retail building contrary to ZR §36-21. M1-2/R6A (MX-8) zoning district.

PREMISES AFFECTED – 215 North 10th Street, Block 2299, Lot 21, Borough of Brooklyn.

COMMUNITY BOARD #1BK

Carlo Costanza, Executive Director

MINUTES

**REGULAR MEETING
TUESDAY MORNING, MAY 7, 2019
10:00 A.M.**

Present: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.

SPECIAL ORDER CALENDARS

771-76-BZ

APPLICANT – Stroock & Stroock & Lavan LLP, for Intergate Manhattan LLC, owner.

SUBJECT – Application September 10, 2018– Amendment of a previously approved Variance (§72-21) that permitted the installation of an illuminated sign that exceeded the surface area along a district boundary and the height above curb level. The Amendment seeks to modify the previously approved sign to permit a digital sign and the new sign will be able to display messages for any principal use on the zoning lot, as opposed to a single principal use on the zoning lot. C6-4 zoning district.

PREMISES AFFECTED – 375 Pearl Street, Block 114 Lot(s) 1001-1005, Borough of Manhattan.

COMMUNITY BOARD #1M

ACTION OF THE BOARD – Application Denied.

THE VOTE TO GRANT –

Affirmative:0

Negative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

THE RESOLUTION –

WHEREAS, this is an application under ZR §§ 72-01 and 72-22 for an amendment to a variance, previously granted by the Board in 1977, to permit, over 500 feet above curb level on a 32-story commercial building, the substitution of an existing backlit accessory pin-mounted sign that reads “Verizon” with a new illuminated digital sign with changeable copy identifying at 120-second intervals the various tenants of the subject building; and

WHEREAS, a public hearing was held on this application on January 8, 2019, after due notice by publication in *The City Record*, with a continued hearing on March 5, 2019, and then to decision on May 7, 2019; and

WHEREAS, Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 1, Manhattan, recommends approval of this application on condition that the proposed sign’s display interval be increased to at least 60–120 seconds with a fade in and fade out interval longer than 6 seconds, that the proposed sign should perhaps be located higher on the building and that the applicant return to Community Board 1 within two (2) years to discuss and

consider adjustments to the proposed sign’s light emission, image intervals and other mechanical controls should there be any complaints; and

WHEREAS, by letter dated December 17, 2018, the Department of City Planning (“DCP”) submitted testimony about this application, citing “serious concerns with the proposal”; specifically, DCP notes that the proposed sign would have the ability to display dynamic, unpredictably changing content and to display a high level of illumination in the form of a significantly brighter 1,000-square-foot video screen utilizing technology that did not exist decades ago—unlike the existing sign, which features static, backlit symbols with light muted by translucent plastic panels; and

WHEREAS, additionally, DCP states that there is no similarly styled digital screen with changeable copy situated atop a prominent tower anywhere else in the City; that tower-top signs customarily take the form of a static series of symbols related to the primary tenant of a building instead of relating changeable copy to a series of tenants located within a building; that the proposed sign would be clearly visible from the surrounding area, including public spaces and residential neighborhoods in Manhattan and Brooklyn, the East River and nearby arterial highways, roadways and bridges; and that circumstances have changed with respect to the character of the surrounding area since the Board’s original grant of the variance in 1977, particularly the Brooklyn waterfront, which was formerly an underutilized industrial area but has since been revitalized with a vibrant mix of residential, commercial and open public uses; and

WHEREAS, a resident of the surrounding area with direct visibility of the existing sign at the subject site appeared in opposition to this application, citing concerns with the ability of this application to meet the findings under ZR § 72-21 and noting the dramatic change in the proposed sign from the existing sign; and

WHEREAS, the subject site is located on the block bounded by Pearl Street, Avenue of the Finest and Madison Street, in a C6-4 zoning district, in Manhattan; and

WHEREAS, the site has approximately 500 feet of frontage along Pearl Street, 520 feet of frontage along Avenue of the Finest, 350 feet of frontage along Madison Street, 111,868 square feet of lot area and is occupied by a six-story community-facility building used as a high school and a 32-story commercial building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 3, 1977, when, under the subject calendar number, the Board granted a variance to permit the installation of an illuminated accessory sign—specifically, a backlit logo for applicant and vendee in possession New York Telephone Company with approximately 1,018 square feet of surface area—over 500 feet above curb level on the existing “32-story telephone structure” and in excess of the maximum permitted surface area for a sign located within 100 feet of a street line of a street adjoining a residence district, contrary to ZR §§ 32-655 and 32-67, on condition that all work shall substantially conform to the Board-approved drawings; and

MINUTES

WHEREAS, by letter dated September 5, 2002, the Board approved minor modifications to the Board-approved drawings to permit the replacement of the illuminated accessory sign with a different emblem—the logo for Verizon—that reduced the surface area of the approved sign from 1,018 square feet to 1,015 square feet but maintained its character as a non-flashing static sign; and

WHEREAS, by letter dated October 4, 2016, the Board stated that it had no objection to the installation of additional accessory signs at the subject site on condition that the Department of Buildings (“DOB”) ensure their compliance with all applicable zoning regulations; and

WHEREAS, by letter dated May 24, 2018, the Board denied a request to approve a new illuminated sign with a digital display and changeable copy as substantially compliant with the 1977 variance grant, citing concerns that the proposal may disturb the original variance findings; and

WHEREAS, the applicant now seeks to amend the variance to allow the substitution of the existing pin-mounted backlit Verizon sign with an illuminated sign with a digital display and continuously changing copy; and

WHEREAS, the applicant states that the proposed sign is an illuminated accessory sign to be located at a height of 541’-5” above curb level with a surface area of 1,018 square feet; and

WHEREAS, the applicant states that the only difference between the proposed sign and the existing sign is an upgrade in technology; and

WHEREAS, the applicant states that the proposed sign would operate with 120 seconds of static copy followed by a 10-second change to the subsequent copy and submitted a DOB determination that the proposed sign is accordingly not a “flashing” sign, *see* ZR § 12-10; and

WHEREAS, accordingly, the proposed sign would change copy approximately 665 times per day—or 4,652 times per week and 242,585 times per year; and

WHEREAS, the applicant states that the proposed sign would allow no more than 10 tenants in the subject building to display copy on the proposed sign on a rotating basis and that the property owner would require leases to have terms of two (2) years; and

WHEREAS, although the applicant seeks to use the proposed sign to display changing copy identifying occupants of the subject building, which is no longer solely occupied by a city utility as described in the 1977 variance resolution, none of whom have control over the entirety of the subject building, the applicant asserts that both the existing sign and the proposed sign are defined as “signs” and that this proposal does not change the status of the proposed sign as an “accessory use,” *see* ZR § 12-10; and

WHEREAS, however, the Zoning Resolution vests the Board with wide discretion under ZR § 72-21 and authorizes the Board to prescribe conditions and safeguards to address a variance’s potential adverse effects under ZR § 72-22, so the Board’s review of this application need not be confined to the standards applicable to as-of-right construction; and

WHEREAS, the applicant states that the proposed sign

does not disturb any of the findings under ZR § 72-21 for the following reasons: regarding the (a) finding, neither the subject site nor the subject building have changed since 1977 when the original variance was granted; it is impossible to determine to what extent the proposed sign would be inconsistent with a finding of financial hardship set forth in the (b) finding; regarding the (c) finding adjacent zoning districts have neither been rezoned nor developed with new buildings since 1977, particularly any residential buildings above 175 feet in height, and the proposed sign would not negatively impact the surrounding neighborhoods, including neighborhoods along the Brooklyn waterfront, rather, it reflects an aesthetic improvement and a technological upgrade; regarding the (d) finding, any hardship is inherent in the subject site, not created by the owner or its predecessor in title; and, because the proposed sign would not require additional zoning waivers, the proposed sign still reflects the minimum variance necessary as set forth in the (e) finding; and

WHEREAS, with respect to ZR § 72-21(b), the Board questions whether the changed relationship between the proposed sign and the subject building would implicate the Board’s finding (the preclusion of any “reasonable possibility” of a “reasonable return”) and expresses concern that the additional income generated by the proposed sign would create a windfall by promoting an extraordinary corporate opportunity for the property owner to increase the value of leases—a concern that can only be addressed by presenting dollars-and-cents proof, which the applicant has not supplied; and

WHEREAS, with respect to ZR § 72-21(c), the Board questions whether the changed character of the proposed sign from an illuminated sign—in the form of an emblem with non-flashing backlighting and without changeable copy—to a new illuminated sign with a digital display and continuously changing copy would disturb the Board’s finding (“not alter[ing] the essential character of the neighborhood” or “substantially impair[ing] the appropriate use or development of adjacent property” or “be[ing] detrimental to the public welfare”); and

WHEREAS, the Board notes that the proposed sign would be visible from arterial highways, including the Brooklyn Bridge and the Manhattan Bridge, and potentially from residential towers in the immediate vicinity; and

WHEREAS, the Board further notes that decades ago DOB issued policy notices characterizing static, backlit emblems as non-sign “architectural features”—reflecting the view that static, backlit tower-top emblems were architecturally integral to the design of a building; and

WHEREAS, specifically, on September 5, 1991, DOB issued a memorandum regarding symbols, noting that “[m]any buildings in New York have distinctive features including logos which enhance and symbolize the architectural whole of the building and add to the diversity of the skyline. Therefore, where a symbol on a building owned and occupied by a corporation is considered to be an integral part of and is closely identified with the architecture

MINUTES

of the building, such symbol, upon review of the Borough Commissioner, may be deemed not to be a sign and shall not be subject to the sign regulation of the Zoning Resolution”; and

WHEREAS, on July 18, 1995, DOB issued a follow-up memorandum on illuminated logos, determining that “[l]ogos which are symbols . . . may not be internally illuminated. To do so, would place them in the same category as signs. However, if indirect lighting were to reflect off the logos as part of the architectural features of the building, the sign regulations of the Zoning Resolution would not be applicable”; and

WHEREAS, on December 9, 1996, DOB issued a Technical Policy and Procedure Notice on distinctive architectural features, which allowed symbols to remain exempt from sign regulations under certain circumstances but changed the manner in which said applications would be reviewed; and

WHEREAS, although the Board later overturned DOB’s interpretation in *388 Greenwich Street, Manhattan*, BSA Cal. No. 152-97-A (June 16, 1998), and clarified that tower-top emblems—like the Verizon and New York Telephone Company logos at the subject site—are subject to the Zoning Resolution’s sign regulations, the Board’s original grant of the variance in 1977 and subsequent approval of the replacement emblem in 2002 are both consistent with the view that tower-top emblems constitute architectural design features; and

WHEREAS, however, the Board would not consider the proposed sign a similar architectural feature in the proposed context; and

WHEREAS, evidence provided by the applicant indicates that the proposed sign would be capable of emitting approximately 6,000 nits (or 20,000 lumens), and the Board notes that the proposed sign, by virtue of its digital display, would increase the brightness nearly tenfold over the existing pin-mounted and backlit Verizon sign to enable visibility of the changing copy during daylight hours and that these increased light emissions would then be reflected against fog and clouds to produce a glow around the subject building; and

WHEREAS, the Board states that the proposed increase in lumens is a significant change in the design of the proposed sign compared to what had been approved in 1977 and by letter of substantial compliance in 2002; hence, such a request is not appropriately before the Board as an “amendment” to an existing variance under Section 1-07.1(a) of the Board’s Rules but should be submitted as a new variance application; and

WHEREAS, in response to questions from the Board about the practicability of monitoring use of the proposed sign as an accessory sign, the applicant notes that the proposed sign’s content management system includes the ability to produce on-demand “proof of play” reports detailing the specific play counts of displayed content and that the proposed sign’s display manufacturer can provide on-demand reports about brightness levels at requested

times; and

WHEREAS, the Board expresses skepticism about the practicability of these suggestions, especially given that the applicant is proposing an entirely new monitoring and enforcement scheme that would require DOB to constantly request and review reports, which are generated on demand, and comparing the reports to the numerous tenants in the building (to ensure the proposed sign would not be used as an advertising sign)—notwithstanding that the roster of tenants in the building would be continuously changing, rendering any tracking efforts a fruitless endeavor; and

WHEREAS, the Board also notes that the proposed sign’s technology presents significantly different challenges with respect to technical malfunctions: according to testimony provided by the applicant’s consultant, if a lightbulb on the existing Verizon sign malfunctions, part of the existing Verizon sign ceases to be backlit; on the other hand, with a software or other technical malfunction, part or all of the proposed sign could display constantly flashing video noise similar to a snow-flickering television screen; and

WHEREAS, the Board also notes the applicant’s lack of clarity as to which 10 tenants in the subject building would be allowed access to the proposed sign and how much space each tenant would occupy; and

WHEREAS, the applicant explained at hearing that sign-maintenance personnel could be on call 24 hours per day, every day of the week, to service the proposed sign; however, the Board questions whether this would constitute a sufficient safeguard to prevent a sporadically recurring visual blight on the City’s skyline and notes the changed character of a technical malfunction from the approved existing Verizon sign (less light) to the proposed sign (erratic, flashing light); and

WHEREAS, with respect to ZR § 72-21(e), the Board questions whether the proposed sign, presenting a potential economic windfall for the property owner, would constitute the “minimum variance necessary” without dollars-and-cents proof that the existing sign is no longer sufficient and why the applicant proposes to increase the surface area of the proposed sign from the existing surface area of 1,015 square feet; and

WHEREAS, notwithstanding the foregoing and notwithstanding the Board’s concerns at hearing, the applicant has maintained throughout the course of hearing that the Board may not request additional information with respect to the ZR § 72-21 findings where no additional waivers are sought; however, the Board notes, for instance, that it frequently requests dollars-and-cents proof for applications seeking to modify the number of dwelling units in a residential building previously approved by variance, and that none of the amendment applications referred to by the applicant appear to involve the wholesale replacement of a structure as herein proposed; and

WHEREAS, the Board further notes that its review and approval of proposed modifications to variances prevent windfalls and ensure continued adherence to the City’s well-

MINUTES

considered zoning plan “so that the spirit of the law shall be observed, public safety secured and substantial justice done,” ZR § 72-21; and

WHEREAS, ultimately, the applicant’s proposal is not appropriately filed as an “amendment” under Section 1-07.1(a) of the Board’s Rules when it would implicate many, if not all, of the findings under ZR § 72-21 and would necessitate the consideration and imposition of significant additional safeguards and conditions under ZR § 72-22; and

WHEREAS, instead, this application is major in scope and must be filed in accordance with Section 1-05.1 of the Board’s Rules as a new variance or, perhaps, a “major amendment” along with substantial evidence that the proposed sign meets each and every finding under ZR § 72-21, *see* Rule § 1-07.1(a)(1); and

WHEREAS, nothing herein prevents the applicant from maintaining the existing illuminated accessory sign, from seeking an amendment to allow its replacement with a different emblem that maintains its non-flashing backlighting without changeable copy in a form similar to the existing sign or from reverting the subject site to as-of-right conformity with the Zoning Resolution’s sign regulations; and

WHEREAS, based upon its review of the record and inspections of the site and surrounding area, the Board has determined that the requested amendment is not appropriate and that the applicant has not substantiated a basis to warrant exercise of discretion.

Therefore, it is Resolved, that this application shall be and it hereby is *denied*.

Adopted by the Board of Standards and Appeals, May 7, 2019.

118-14-BZ

APPLICANT – Rampulla Associates Architects, LLP, for Mangone Developers Corp., owner.

SUBJECT – Application March 28, 2019 – Extension of Time to Complete Construction of a previously approved Variance (§72-21) to permit the construction of a three (3) story, sixteen (16) unit condominium building contrary to use regulations which expired on March 3, 2019. R1-2, R3X-NA-1 zoning district.

PREMISES AFFECTED – 1891 Richmond Road, Block 895, Lot(s) 61, 63, 65, 67, Borough of Staten Island.

COMMUNITY BOARD #5SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta and Commissioner Scibetta.....5
Negative:0

THE RESOLUTION –

WHEREAS, this is an application for an extension of time to complete construction pursuant to a variance, granted pursuant to ZR § 72-21, which permitted the construction of a

three- (3) story multiple dwelling—for persons 55 years of age or older (Use Group 2) with 16 dwelling units and 36 accessory parking spaces—and expired on March 3, 2019; and

WHEREAS, a public hearing was held on this application on May 7, 2019, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the subject site and surrounding neighborhood; and

WHEREAS, the subject site is located on the west side of Richmond Road, between Hunter Avenue and Hull Avenue, partially within an R1-2 zoning district and partially within an R3X zoning district and in the Special Natural Area District (NA-1), on Staten Island; and

WHEREAS, the site is comprised of five (5) contiguous tax lots having a total of approximately 538 feet of frontage along Richmond Road, 57,862 square feet of lot area (13,500 square feet within the R1-2 zoning district and 44,362 square feet within the R3X district), and is vacant; and

WHEREAS, the Board has exercised jurisdiction over the subject site March 3, 2015, when, under the subject calendar number, the Board granted a variance, pursuant to ZR § 72-21, to permit the construction of a three- (3) story multiple dwelling for persons 55 years of age or older (Use Group 2) with 16 dwelling units and 36 accessory parking spaces on condition that any and all work substantially conform to drawings as they apply to the objections filed with the application; the parameters of the building and site be as follows: 28,392 square feet of floor area (0.49 floor area ratio (“FAR”)), 16 dwelling units, a minimum front yard depth of ten (10) feet, one (1) side yard with a width of 25 feet, one (1) side yard with a width of 260 feet, a minimum rear yard depth of 30 feet, a maximum building height of 40 feet and 36 parking spaces, as illustrated on the BSA-approved plans; all required NYC City Planning Commission (“CPC”) approvals be obtained prior to the issuance of the Department of Buildings (“DOB”) permit; the applicant forward a copy of the CPC-approved plans to BSA prior to applying for the DOB permit; the occupancy of the building be limited to persons 55 years of age or older; the conditions be listed on the certificate of occupancy; all DOB and related agency application(s) filed in connection with the authorized use and/or bulk be signed off by DOB and all other relevant agencies by March 3, 2019; the approval be limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s); the approved plans be considered approved only for the portions related to the specific relief granted; and, DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plans(s)/configuration(s) not related to the relief granted; and

WHEREAS, the time for substantial construction to have been completed having expired, the applicant seeks the subject relief; and

WHEREAS, the applicant submits that the

MINUTES

commencement of construction at the site has been delayed due issues connected to obtaining a permit for a proposed retaining wall at the site, which DOB required to be filed as part of the subject DOB job application; and

WHEREAS, the applicant represents that CPC approval was obtained on November 30, 2016; a builders pavement plan was approved by the New York City Department of Transportation on February 22, 2017; New York City Department of Storm and Sanitary Sewers approval was obtained on June 1, 2017, and the applicant anticipates it will take five (5) months to complete the permitting process with DOB and 36 months to complete construction; and

WHEREAS, based upon its review of the record, the Board finds that a four (4) year extension of time to complete construction is appropriate with certain conditions, as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *amends* the resolution, dated March 3, 2015, so that as further amended this portion of the resolution reads: “to grant a four (4) year extension of time to complete construction to March 3, 2023, *on condition*:

THAT substantial construction shall be completed, pursuant to ZR § 72-23, by March 3, 2023, as evidenced by an inspection and determination by the Department of Buildings;

THAT the parameters of the building and site shall be as follows: 28,392 square feet of floor area (0.49 FAR), 16 dwelling units, a minimum front yard depth of ten (10) feet, one (1) side yard with a width of 25 feet, one (1) side yard with a width of 260 feet, a minimum rear yard depth of 30 feet, a maximum building height of 40 feet and 36 parking spaces, as illustrated on the BSA-approved plans;

THAT all required CPC approvals shall be obtained prior to the issuance of the DOB permit(s);

THAT the applicant shall forward a copy of the CPC-approved plans to BSA prior to applying for the DOB permit(s);

THAT the occupancy of the building is limited to persons 55 years of age or older;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk shall be signed off by DOB and all other relevant agencies by March 3, 2023;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions shall be recorded on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number (“BSA Cal. No. 118-14-BZ”) shall be obtained, by March 3, 2023;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its

jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, May 7, 2019.

316-73-BZ

APPLICANT – Vassalotti Associates Architects, LLP, for 31-02 68th Realty Corporation, owner.

SUBJECT – Application November 27, 2018 – Extension of Term of a previously approved variance which permitted the operation of an automotive service station (UG 16B) which is set to expire on January 8, 2019. R4 zoning district.

PREMISES AFFECTED – 31-02 68th Street, Block 1138, Lot 27, Borough of Queens.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for an extension of time to obtain certificates of occupancy pursuant to previously granted common law vested rights applications, which reinstated Department of Buildings (“DOB”) Permit Nos. 402531042-01-NB, 402531051-01-NB, and 402531033-01-NB and all related permits necessary to complete construction for a period that expired on May 17, 2018; and

WHEREAS, a public hearing was held on these applications on May 7, 2019, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, the subject site is located on the southeast corner of 88th Road and 144th Street, within an R5 zoning district, in Queens; and

WHEREAS, the site has approximately 42 feet of frontage along 88th Road, 87 feet of frontage along 144th Street, and 3,612 square feet of lot area; and

WHEREAS, the applicant proposes to develop the site with two (2) three- (3) family residential buildings and one (1) two- (2) family residential building (collectively, the “Buildings”), each three (3) stories high, with 5,652.75 square feet of combined floor area and providing a total of eight (8) residential units; and

WHEREAS, the site was formerly located within an R6 zoning district; and

WHEREAS, the applicant states that Permit Nos. 402531042-01-NB, 402531051-01-NB and 402531033-01-NB, the new building permits authorizing construction of the Buildings in accordance with R6 zoning district regulations (collectively, the “Permits”), were issued by the Department of Buildings (“DOB”) on May 11, 2007, May 14, 2007 and May 15, 2007, respectively, and all excavation and foundation construction was completed prior to July 28, 2007; and

WHEREAS, on September 10, 2007 (the “Enactment Date”), the City Council voted to adopt the Jamaica Plan zoning map amendment, which changed the zoning for the subject premises from an R6 zoning district to an R5 zoning district; and

WHEREAS, while the completion of 100 percent of the Buildings’ foundations vested the project as-of-right under ZR § 11-331, due to financial hardship, the applicant did not complete construction within two (2) years and obtain certificates of occupancy for the Buildings, as required by ZR § 11-332, and the Permits lapsed by operation of law; and

WHEREAS, the Board has exercised jurisdiction over the subject site since February 9, 2010, when, under BSA Cal. Nos. 259-09-BZY, 260-09-BZY and 261-09-BZY, the Board granted extensions of time to complete construction and obtain certificates of occupancy, pursuant to ZR § 11-332, and renewed the Permits for a term of two (2) years, to expire on February 9, 2012; and

WHEREAS, on May 17, 2016, under the subject calendar numbers, the Board granted applications recognizing a common law vested right to continue construction of the Buildings, reinstated all of the permits necessary to complete construction of the Buildings and granted an extension of time to complete construction and obtain certificates of occupancy for a term of two (2) years, which expired May 17, 2018; and

WHEREAS, however, as of May 17, 2018, construction was completed but certificates of occupancy had not been issued; therefore, on that date, the previously reinstated Permits lapsed again by operation of law; and

WHEREAS, accordingly, the applicant seeks extensions of time to obtain certificates of occupancy; and

WHEREAS, the applicant states that since the Board’s 2009 approval, substantial expenditures and progress have been made to complete the Buildings and that 85 percent of the development of the subject site was completed by 2013; and

WHEREAS, the applicant represents, however, that

MINUTES

further development of the Buildings has since been delayed by issues related to obtaining the requisite approvals from the New York City Department of Environmental Protection (“DEP”) for sewer conditions on the premises and subsequent builders pavement plan (“BPP”) approvals; and

WHEREAS, the applicant additionally represents that the sewer connection and BPP approvals are the only work outstanding and certificates of occupancy will be obtained shortly after the Board’s grant of the subject extension of term; and

WHEREAS, based upon its review of the record, the Board finds that the requested two- (2) year extensions of time to complete construction and obtain certificates of occupancy are appropriate with certain conditions, as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals *amends* the resolution, dated May 17, 2016, so that as amended this portion of the resolution reads: “to grant extensions of time to complete construction and obtain certificates of occupancy to May 7, 2021; *on condition*:

THAT construction shall be completed by May 7, 2021;

THAT certificates of occupancy for the Buildings, also indicating this approval and calendar numbers (“BSA Cal. Nos. 162-15-A thru 164-15-A”) shall be obtained by May 7, 2021;

THAT all conditions from the prior resolutions not specifically waived by the Board remain in effect; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Application Nos. 402531042-01-NB, 402531051-01-NB and 402531033-01-NB)

Adopted by the Board of Standards and Appeals, May 7, 2019.

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated July 20, 2016, acting on Department of Buildings (“DOB”) Application No. 122813223, reads in pertinent part:

Proposed ‘Physical Culture Establishment’ is not permitted As-Of-Right as per Section ZR 32-10 and is referred to the Board of Standards and Appeals for a special permit under ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site located within a C1-9 zoning district, a physical culture establishment (“PCE”) on portions of the cellar level and first floor of an existing four-(4) story plus cellar mixed-use residential and commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on December 11, 2018, after due notice by publication in *The City Record*, with continued hearings on February 12, 2019, and May 7, 2019, and then to decision on that date; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the subject site and surrounding neighborhood; and

WHEREAS, Community Board 8, Manhattan, recommends approval of this application; and

WHEREAS, the Board was in receipt of one (1) form letter in support of this application; and

WHEREAS, the subject site is located on the southeast corner of Third Avenue and East 71st Street, within a C1-9 zoning district, in Manhattan; and

WHEREAS, the site has approximately 102 feet of frontage along Third Avenue, 91 of frontage along East 71st Street, 9,254 square feet of lot area and is occupied by an existing four- (4) story plus cellar mixed-use residential and commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use1* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant represents that the PCE occupies 1,668 square feet of floor area on the first floor with the PCE entrance and lobby, fitness area and office; and 7,775 square feet of floor space in the cellar with a fitness studio, cycling studio, lounge and reception area, a changing area with showers, men's and women's restrooms, and areas for staff, storage and mechanical equipment; and

WHEREAS, the PCE began operation in January 2017, as "New York Sports Club," with the following hours of operation: Monday through Friday, 6:30 a.m. to 9:00 p.m., and, Saturday and Sunday, 9:00 a.m. to 3:00 p.m.; and

WHEREAS, the applicant states that, while the majority of the PCE is located in the cellar and separated from residential uses within the subject building, sound and vibration attenuation measures have been installed in the PCE space to prevent potential noise or vibration issues to residential and commercial tenants; these measures include a multiple-layer acoustical wall assembly with batt insulation and acoustically treated columns in areas of the cellar, and acoustically treated hung ceilings with batt insulation in portions of the first floor; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because the PCE is located in an existing mixed-use building, mostly within the cellar; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant submits that the PCE will contain facilities for classes, instruction and programs for physical improvement; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be

satisfactory; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood because it is consistent with surrounding uses and is located in an existing building; and

WHEREAS, the applicant states that an approved fire alarm system—including manual pull stations at each required exit, local audible and visual alarms, area smoke detectors and a connection of the interior fire alarm to an FDNY-approved central station—is installed and maintained within the PCE space; and

WHEREAS, by letter dated December 8, 2018, the Fire Department submitted a conditional letter of no objection to the application and states that on December 1, 2018, an inspection was performed by the Bureau's Licensed Public Place of Assembly ("LPPA") unit and a violation order (E562227) was issued for failure to obtain an operating permit from the DOB; to date, no place of assembly ("PA") application has been filed with DOB for the cellar and first floors; the Bureau's LPPA unit has been informed and will enforce the violation order; the premises are protected by a sprinkler system, which was inspected and found to be operational; a hydrostatic pressure test of the system is scheduled for June 2019; the premises and the PCE space currently has a fire alarm system that was inspected by the Bureau's Fire Alarm Inspection Unit and tested satisfactory; and that the Department has no objection to the Board's rendering a decision on the application, as the Bureau of Fire Prevention will continue to inspect these premises and enforce any outstanding violation orders; and

WHEREAS, over the course of hearings, the Board raised concerns regarding the adequacy of notice of this application to tenants of the subject building and whether the PCE was acoustically treated to sufficiently protect the adjacent residential and commercial building tenants from noise and/or vibration associated with its occupancy; and

WHEREAS, the applicant provided photographic evidence of a notice of hearing for the March 26, 2019, continued hearing in the residential portion of the building; a report from an acoustical consultant, dated March 7, 2017, including architectural details and recommendations for sound attenuation measures; and a letter from the same acoustical consultant, dated April 4, 2019, confirming that the measures identified in the March 2017 report were "addressed"; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist

MINUTES

No. 17BSA011M, dated August 11, 2016; and

WHEREAS, the term of the grant has been reduced to reflect the period the PCE operated without approval from the Board;

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, legalizing the PCE on a portion of the cellar and first floor, is appropriate, with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to legalize, on a site located within a C1-9 zoning district, the operation of a physical culture establishment on a portion of the cellar level and first floor of an existing four- (4) story plus cellar mixed-use residential and commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “April 6, 2018”-Ten (10) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on January 1, 2027;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT a place of assembly permit shall be obtained for the PCE space;

THAT accessibility compliance under Local Law 58/87 will be as reviewed and approved by DOB;

THAT an approved fire alarm system—including manual pull stations at each required exit, local audible and visual alarms, area smoke detectors and a connection of the interior fire alarm to an FDNY-approved central station—shall be maintained as indicated on the Board-approved plans;

THAT minimum 3-foot-wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also referencing this approval and calendar number (“BSA Cal. No. 2016-4240-BZ”), shall be obtained within one (1) year, by May 7, 2020;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 7, 2019.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated October 18, 2017, acting on Department of Buildings (“DOB”) Application No. 321645957, reads in pertinent part:

Proposed physical culture establishment in M1-3 zoning district is not permitted pursuant to ZR 73-10 and is referred to the Board of Standards and Appeals for a special permit under ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site located within an M1-3 zoning district, a physical culture establishment (“PCE”) in an existing one- (1) story tent structure, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on February 26, 2019, after due notice by publication in *The City Record*, with a continued hearing on May 7, 2019, and then to decision on that same date; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the subject site and surrounding neighborhood; and

WHEREAS, Community Board 3, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site bound by Marcy Avenue to the west, Flushing Avenue to the north, and Tompkins Avenue to the east, in an M1-3 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 200 feet of frontage along each Marcy Avenue and Tompkins Avenue, 725 feet of frontage along Flushing Avenue, 145,000 square feet of lot area and is occupied by several existing buildings, including a one- (1) story structure in which the subject PCE is located; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such

MINUTES

special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use1* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant represents that the PCE occupies 4,021 square feet of floor area within the tent structure with a trapeze, trapeze warm-up and staging areas, and gym areas; and

WHEREAS, the PCE began operation in May 2017, as “Trapeze School New York (“TSNY”),” operating daily from 8:00 a.m. to 10:30 p.m.; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because the PCE is located in an existing structure in an area characterized predominantly by commercial and mixed-use buildings and properly fits within the use and character of the district; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant submits that the PCE will contain facilities for trapeze, aerial arts, and trampoline classes and instruction; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood because it is consistent with mixed-use character of the neighborhood and has operated in this location for over one (1) year without any complaints; and

WHEREAS, by letter dated February 15, 2019, the Fire Department states that the structure is constructed of rigid frame with an interior and exterior membrane covering with fiberglass batt insulation; the Fire Department requests the applicant clarify if the structure is permanent as stated in the statement of facts submitted to the Board on this application or as described in the Alteration Type I (Alt. I 321645957) application, as the structure is listed as temporary; the Fire Department objects to the application and respectfully requests that the Board deny the

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

application, based on the fact that the structure is constructed of combustible material, no fire suppression systems are installed and the use would be in conjunction with a trade school at these premises; and

WHEREAS, by letter dated May 6, 2019, the Fire Department states that a site inspection was performed by the Fire Department's Bureaus of Operations and Fire Prevention and has no objection to the application; the site inspection revealed that the tanks that formerly held acetone had been discontinued and decommissioned and the same was verified by the Fire Department's Hazardous Control Unit; based on the field observation and inspection of the interior and exterior membrane covering, such membrane has been treated with flame-resistant treatment as described in Section 2402.2 of the Fire Code; in addition, certification and labeling will be provided to the Fire Department as noted in Sections 2402.1 (certification) and 2402.2.2 (label), as required; the Fire Department's Licensed Public Place of Assembly ("LPPA") unit will be conducting annual inspections of these premises for compliance with Sections 2402.3 (Location and Access), 2404.4 (means of egress), 2406 (smoking) and 2404.7 (open or exposed flame) and all pertinent NYC construction codes; and that based on the information above, the Fire Department has no objection to the continued use as a permanent structure; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 18-BSA-061K, dated November 16, 2017; and

WHEREAS, the term of the grant has been reduced to reflect the period the PCE operated without approval from the Board;

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, legalizing the PCE on a portion of the cellar and first floor, is appropriate, with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to legalize, on a site located within an M1-3 zoning district, the operation of a physical culture establishment on the first floor of an existing one- (1) story tent structure, contrary to ZR § 42-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "April 17, 2019:-Three (3) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on May 1, 2027;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance under Local Law 58/87 will be as reviewed and approved by DOB;

THAT minimum 3 foot wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also referencing this approval and calendar number ("BSA Cal. No. 2017-301-BZ"), shall be obtained within one (1) year, by May 7, 2020;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 7, 2019.

2017-313-BZ

CEQR #18-BSA-071K

APPLICANT – Moshe M. Friedman, P.E., for 853 Kent Avenue LLC, owner.

SUBJECT – Application December 11, 2017 – Variance (§72-21) to permit the development of a 2-family dwelling contrary to ZR §42-10. M1-1 zoning district.

PREMISES AFFECTED – 853 Kent Avenue, Block 1898, Lot 7, Borough of Brooklyn.

COMMUNITY BOARD #3BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated November 20, 2017, acting on DOB Application No. 321659282, reads in pertinent part:

ZR 42-00 - Proposed residential use in M1-1 district is not permitted; and

WHEREAS, this is an application under ZR § 72-21 to permit, within an M1-1 zoning district, the construction of a four- (4) story plus cellar two- (2) family attached residence is not permitted as-of-right in the subject zoning district,

MINUTES

contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on November 8, 2018, after due notice by publication in *The City Record*, with continued hearings on February 12, 2019, and May 7, 2019, and then to decision on that date; and

WHEREAS, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the subject site and surrounding neighborhood; and

WHEREAS, Community Board 3, Brooklyn, recommends approval of this application; and

WHEREAS, the Board was in receipt of two (2) form letters in opposition to this application citing concerns over potential construction noise and debris; and

WHEREAS, the subject site on the east side of Kent Avenue, between Park Avenue and Myrtle Avenue, in an M1-1 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 25 feet of frontage along Kent Avenue, 120 feet of depth, 3,000 square feet of lot area and is currently vacant; and

WHEREAS, at the subject site, a residential dwelling is not permitted as-of-right pursuant to ZR § 42-10; and

WHEREAS, the applicant states, pursuant to ZR § 72-21(a), the subject site's narrow lot width, small lot area, vacancy and history of residential use are unique physical conditions that create practical difficulty and unnecessary hardship in developing the site in compliance with the underlying district regulations; and

WHEREAS, in support of this assertion, the applicant submitted a uniqueness study demonstrating that, of the 530 other lots located within 1,000 feet of the subject site, the subject site is one (1) of only six (6) sites that has a narrow lot width of 25 feet or less, is vacant and is not owned or used in conjunction with an adjoining property; and

WHEREAS, accordingly, the applicant states that, due to the small lot area, the subject site is not well-suited for modern commercial and manufacturing operations; in support of this, the applicant demonstrated that, within the study area, nearly all conforming manufacturing uses are on properties that have lot areas many times greater than that of the subject site; and

WHEREAS, the applicant submits that a vacant, 25-foot wide zoning lot cannot accommodate a modern manufacturing or commercial building and that a 60-foot wide street—with permitted parking and 15-foot wide sidewalks on both sides—precludes sufficient access to a loading dock for a manufacturing or commercial building; and

WHEREAS, the applicant further demonstrates that, using Sanborn maps dated 1887 to 2007 and Department of Housing Preservation and Development Inspection-Cards from 1902, the subject site was developed with a residential building as early as 1887, subsequently transferred by deed to the Department of Housing and Urban Development and demolished in 1986; and

WHEREAS, in light of the foregoing, the Board finds that the status of the subject site's narrow lot width, small lot

size, vacancy and history of residential use create unnecessary hardship and practical difficulty in developing the site in strict compliance with the current underlying bulk provisions of the Zoning Resolution; and

WHEREAS, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that compliance with applicable zoning regulations will result in a habitable two- (2) family dwelling, in satisfaction of ZR § 72-21(b); and

WHEREAS, the applicant states that the subject proposal will not alter the essential character of the neighborhood and submits that, of the 37 lots that front on Kent Avenue between Park Avenue and Myrtle Avenue, 22 other lots (60 percent) contain residential use, a much larger building would be permitted as-of-right 125 feet south of the subject site in an R7A (C2-4) zoning district, and the proposed building, containing a floor area ratio of 2.0, reduced from the applicant's original proposal for a floor area ratio of 2.4, four (4) stories in height, a rear yard with over 30 feet of depth, and 60 percent lot coverage, is generally consistent with the bulk regulations of the closest residential zoning district, an R6B zoning district; and

WHEREAS, over the course of hearings, the Board raised concern regarding the height of the proposed building and requested it be reduced to more appropriately reflect the 40-foot maximum perimeter wall height allowed in a nearby R6B zoning district; and

WHEREAS, in response, the applicant reduced the height of the building from 44 feet to 41'-6"; and

WHEREAS, accordingly, the Board finds that the subject proposal will not alter the essential character of the neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare in satisfaction with ZR § 72-21(c); and

WHEREAS, the applicant submits, and the Board finds, based on the materials submitted into the record confirming that the site has had the same narrow width complained of since prior to the enactment of the Zoning Resolution in 1961, that, per ZR § 72-21(d), the hardship was not created by the owner or a predecessor in title; and

WHEREAS, the applicant states that the subject proposal, which requests only a waiver of the uses permitted as-of-right in a manufacturing district, is the minimum relief required in satisfaction of ZR § 72-21(e); and

WHEREAS, the Board finds that the subject proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement ("EAS") Short Form CEQR No. 18BSA071K, received May 7, 2019; and

WHEREAS, the EAS documents that the project, as

MINUTES

proposed, would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Activities; Open Space; Shadows; Historic and Cultural Resources; Urban Design and Visual Resources; Natural Resources; Hazardous Materials; Water and Sewer Infrastructure; Solid Waste and Sanitation Services; Energy; Transportation; Air Quality; Greenhouse Gas Emissions; Noise; Public Health; Neighborhood Character; or Construction Impacts; and

WHEREAS, by letter dated December 14, 2018, the New York City Department of Environmental Protection (“DEP”) states that it has reviewed the November 2018 Remedial Action Plan (“RAP”) and Construction Health and Safety Plan (“CHASP”) submitted by the applicant’s consultant and finds the RAP and CHASP acceptable on condition that if dewatering into the City’s storm/sewer drains occurs during the proposed construction, a DEP Sewer Discharge Permit must be obtained prior to the start of any de-watering activities; so long as the applicant submits, upon completion of the project, a Professional Engineer certified Remedial Closure Report—indicating that all remedial requirements have been properly implemented (i.e., installation of vapor barrier, transportation/disposal manifests for removal and disposal of soil in accordance with New York State Department of Environmental Conservation (“NYSDEC”) regulations, and two (2) feet of DEP approved certified clean fill/top soil capping requirement in any landscaped/grass covered areas not capped with concrete/asphalt, etc.)—is submitted to DEP for review and approval; and

WHEREAS, the applicant subsequently provided a revised RAP to include requirements referenced in the December 2018 DEP letter; and

WHEREAS, DEP additionally reviewed the subject proposal with regards to air quality and noise and, by letter dated February 21, 2019, concluded that the proposed project would not result in any significant adverse impacts with regards to air quality or noise, subject to the following commitments from the proposed project: a composite window/wall noise attenuation of 28 dBa be required for all proposed building facades, and an alternate means of ventilation be required and be incorporated into the building design and construction; and

WHEREAS, by correspondence dated July 27, 2017 the New York City Landmarks Preservation Commissioner (“LPC”) reviewed the proposal and indicated that the subject site is of neither architectural nor archaeological significance; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of

the New York State Environmental Conservation Law and 6 NYCRR Part 617, § 6-07(b) Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 to permit, in an M1-1 zoning district, the development of a four- (4) story plus cellar two- (2) family attached residence that is not permitted as-of-right, contrary to ZR § 42-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received May 7, 2019”—Fourteen (14) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the site: a maximum floor area ratio of 2.0 (5999 square feet of floor area), a minimum of 40 percent open space (1,200 square feet), a maximum of 60 percent lot coverage (1,800 square feet), a maximum of two (2) dwelling units, a maximum of four (4) stories, a maximum perimeter wall height of 41’-6” and a total building height of 44 feet, and a rear yard with a depth of 47.58’, as illustrated on BSA-approved plans;

THAT upon completion of the project, a Professional Engineer certified Remedial Closure Report—indicating that all remedial requirements have been properly implemented (i.e., installation of vapor barrier, transportation/disposal manifests for removal and disposal of soil in accordance with New York State Department of Environmental Conservation (“NYSDEC”) regulations, and two (2) feet of DEP approved certified clean fill/top soil capping requirement in any landscaped/grass covered areas not capped with concrete/asphalt, etc.)—is submitted to DEP for review and approval;

THAT a composite window/wall noise attenuation of 28 dBa shall be required for all proposed building facades;

THAT an alternate means of ventilation shall be required and shall be incorporated into the building design and construction;

THAT the front balcony shall not extend more than 12 inches from the façade of the building, as illustrated on BSA-approved plans;

THAT no use of exterior insulation and finish system (“EIFS”) is permitted;

THAT substantial construction shall be completed pursuant to ZR § 72-23, by May 7, 2023;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number (“BSA Cal. No. 2017-313-BZ”) shall be obtained within four (4) years, by May 7, 2023;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the

MINUTES

Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 7, 2019.

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to permit, in an R4 zoning district, the development of two two-family detached residences in compliance with flood-resistant construction standards that does not comply with the zoning requirements for minimum required distance between buildings, contrary to ZR § 23-711; and

WHEREAS, a public hearing was held on this application on December 5, 2017, and then to decision on the same date; and

WHEREAS, this application is brought on behalf of the property owner by the Build It Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in furtherance of the City’s effort to rebuild residences impacted by Superstorm Sandy expeditiously and effectively, the Board, pursuant to 2 RCNY § 1-14.2, waives the following of its Rules of Practice and Procedure: (1) 2 RCNY § 1-05.1 (Objection Issued by the Department of Buildings); (2) 2 RCNY § 1-05.3 (Filing Period); (3) 2 RCNY § 1-05.4 (Application Referral); (4) 2 RCNY § 1-05.6 (Hearing Notice); (5) 2 RCNY § 1-05.7 (List of Affected Property Owners); (6) 2 RCNY § 1-09.4 (Owner’s Authorization); and (7) 2 RCNY § 1-10.7 (Proof of Service for Application Referral and Hearing Notice); and

WHEREAS, the Board notes that the subject

application is exempt from fees pursuant to 2 RCNY § 1-09.2 and NYC Admin. Code § 25-202(6); and

WHEREAS, the subject site is located on the east side of Beach 111 Street, between Rockaway Beach Boulevard and Ocean Promenade, in an R4 zoning district, in Queens; and

WHEREAS, the site has approximately 60 feet of frontage along Beach 111th Street, 100 feet of depth, 6,000 square feet of lot area and was formerly occupied by six single-family detached residences prior to Superstorm Sandy; and

WHEREAS, the applicant now seeks a special permit, pursuant to ZR § 64-92, to allow the development of two two-family detached residences with a distance of 11’-10” between the buildings, contrary to minimum required distance between buildings; and

WHEREAS, at the subject site, the requirement for minimum distance between buildings is set forth in ZR § 23-711; and

WHEREAS, ZR § 64-92 provides:

In order to allow for the alteration of existing *buildings* in compliance with *flood-resistant construction standards* and for *developments* and *enlargements* in compliance with *flood-resistant construction standards*, the Board of Standards and Appeals may permit modification of Section 64-60 (DESIGN REQUIREMENTS), the *bulk* regulations of Sections 64-30, 64-40 (SPECIAL BULK REGULATIONS FOR BUILDINGS EXISTING ON OCTOBER 28, 2012) and 64-70 (SPECIAL REGULATIONS FOR NON-CONFORMING USES AND NON-COMPLYING BUILDINGS), as well as all other applicable *bulk* regulations of the Zoning Resolution, except *floor area ratio* regulations, provided the following findings are made:

- (a) that there would be a practical difficulty in complying with *flood-resistant construction standards* without such modifications, and that such modifications are the minimum necessary to allow for an appropriate *building* in compliance with *flood-resistant construction standards*;
- (b) that any modification of *bulk* regulations related to height is limited to no more than 10 feet in height or 10 percent of permitted height as measured from *flood-resistant construction elevation*, whichever is less; and
- (c) the proposed modifications will not alter the essential character of the neighborhood in which the *building* is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood’s potential development in accordance with *flood-resistant construction standards*.

The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the

MINUTES

character of the surrounding area; and

WHEREAS, in accordance with ZR § 64-92(a), the need to develop the two-family residences creates practical difficulties in complying with flood-resistant construction standards without the modification of the requirement for minimum distance between buildings and that waiving the same is the minimum necessary to allow for a building compliant with flood-resistant construction standards; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the finding pursuant to ZR § 64-92(b) is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposal will not alter the essential character of the neighborhood in which the residence is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed reconstruction satisfies all of the relevant requirements of ZR § 64-92; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 18BSA062Q, dated November 20, 2017.

Therefore, it is Resolved, that the Board of Standards and Appeals *waives* its Rules of Practice and Procedure *and* issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92 *to permit*, in an R4 zoning district, the development of two two-family detached residences in compliance with flood-resistant construction standards that does not comply with the zoning requirements for minimum required distance between buildings, contrary to ZR § 23-711; *on condition* that all work shall substantially conform to the drawings filed with this application and marked "Received November 20, 2017"-Eight (8) sheets; and *on further condition*:

THAT the bulk parameters of the subject buildings shall be as follows: a minimum distance of 11'-10" shall be provided between the subject buildings, as illustrated on the Board-approved plans;

THAT each building shall have a fire sprinkler system in accordance with Chapter 9 and Appendix Q of the New York City Building Code;

THAT each building shall be provided with interconnected smoke and carbon monoxide alarms, designed and installed in accordance with Section 907.2.11 of the New York City Building Code;

THAT the underside of the exterior of each building where the foundation is not closed shall have a floor assembly that provides a two-hour fire resistance rating;

THAT the height from grade plane to the highest

windowsill leading to a habitable space may not exceed 32 feet;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained within four (4) years, by December 5, 2021;

THAT this approval shall be limited to the Build It Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk shall be signed off by DOB and all other relevant agencies by December 5, 2021;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 5, 2017.

***The resolution has been amended to correct part of the 7th WHEREAS which read located on the east side of Stanton Road, ... Now reads: located on the east side of Beach 111 Street, ... Corrected in Bulletin No. 20, Vol. 104, dated May 17, 2019.**

COMMUNITY BOARD #13Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

Negative:0

THE RESOLUTION –

WHEREAS, this is an application for an extension of term of a previously granted variance that permitted the operation of an automotive service station, which expired on July 11, 2018; and

WHEREAS, a public hearing was held on this application on February 12, 2019, after due notice by publication in *The City Record*, with a continued hearing on May 21, 2019, and then to decision on that same date; and

WHEREAS, Vice-Chair Chanda performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 13, Queens, recommends approval of this application; and

WHEREAS, Queens Borough President Katz also recommends approval of this application; and

WHEREAS, the subject site is bound by Union Turnpike to the north, Little Neck Parkway to the east, 80th Avenue to the south and 252nd Street to the west, in an R3-2 (C2-2) zoning district, in Queens; and

WHEREAS, the site has approximately 208 feet of frontage along Union Turnpike, 88 feet of frontage along Little Neck Parkway, 200 feet of frontage along 80th Avenue, 20 feet of frontage along 252nd Street, 10,800 square feet of lot area, and is occupied by a one- (1) story automotive service station (1,930 square feet of floor area), four (4) multiple product dispensers (“MPD”) and seven (7) off-street parking spaces; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 7, 1953, when, under the subject calendar number, the Board granted a variance, for a term of 15 years, to permit the premises to be occupied as a gasoline service station, substantially as proposed and as indicated on plans filed with the application, on condition that the premises be leveled substantially to the grade of the surrounding streets and be arranged and designed as indicated on plans filed with the application; the accessory building be face brick on all sides and the roof be surfaced with imitation slate asphalt shingles; such building be of the design and arrangement as indicated on plans filed with the application and in all other respects comply with all laws, rules and regulations applicable thereto; there be no cellar under the accessory building; pumps be of a low approved type and erected not nearer than 15 feet to the street building line; the sidewalks around the premises be constructed to the satisfaction of the Borough President; along 80th Avenue, where the wall of the accessory building does not occur, there be erected a masonry fence not less than two (2) feet in height with a steel picket fence erected thereon to a total height of not less than 5’-6”;

such fence continue to the street building line of Union Turnpike to the west and for a distance of approximately 35 feet along Little Neck Parkway, as shown; the curb cuts be restricted to three (3) curb cuts to Union Turnpike, each not over 30 feet in width, located substantially where shown, and one (1) to Little Neck Parkway of similar width; no portion of any curb cut be nearer than five (5) feet to any building line as prolonged; the number of gasoline storage tanks be limited to ten (10) 500-gallon tanks; under Section 7, Subdivision i, there may be minor repairing with hand tools only for adjustments, maintained solely within the accessory building; under Section 7, Subdivision e, there may be parking of cars awaiting service; planting be maintained with suitable plant material in the spaces indicated and be properly protected with concrete curbing not less than six (6) inches in height and six (6) inches in width above grade; the balance of the premises where not occupied by accessory building, pumps and planting be paved with concrete or asphaltic pavement; such portable firefighting appliances be maintained within the accessory building as the Fire Commissioner requires; all equipment for greasing be of the hydraulic lift type; windows in the accessory building facing on 80th Avenue be fireproof self-closing and arranged so as not to extend when open beyond the building line; all permits be obtained and all work completed within the requirements of Section 22A of the Zoning Resolution; and

WHEREAS, on November 24, 1953, under the subject calendar number, the Board amended the resolution, adopted on July 7, 1953, as to the location of the pumps by adding that the westerly island of pumps may be 14 feet from the building line in place of 15 feet as required, and the pumps facing Union Turnpike may be as shown on plans referred to in the resolution, on condition that in all other respects the resolution as adopted by the Board on July 7, 1953, be complied with; and

MINUTES

WHEREAS, on November 9, 1954, under the subject calendar number, the Board further amended the resolution to permit the installation of 16 550-gallon tanks, on condition that in all other respects the resolution adopted on July 7, 1953, be complied with and such tanks be installed as indicated on plans filed with the application; and

WHEREAS, on October 1, 1968, under the subject calendar number, the Board granted a ten (10) year extension of the term of the variance, to expire on July 7, 1978, on condition that, other than as amended, the resolution be complied with in all respects, and a new certificate of occupancy be obtained; and

WHEREAS, on September 15, 1970, under the subject calendar number, the Board further amended the resolution to permit the installation of a 4,000-gallon approved type gasoline tank and one (1) new pump to existing island, to conform to plans filed with the application, on condition that in all other respects the resolution previously adopted be maintained and all laws, rules and regulations be complied with; and

WHEREAS, on June 15, 1971, under the subject calendar number, the Board further amended the resolution to permit the rearrangement of the pump islands, substantially as shown on plans filed with the application, on condition that other than as amended the resolution be complied with in all respects; and

WHEREAS, on July 11, 1978, under the subject calendar number, the Board granted a ten (10) year extension to the term of the variance, to expire on July 11, 1988, on condition that other than as amended the resolution be complied with in all respects and a new certificate of occupancy be obtained within one (1) year, by July 11, 1979; and

WHEREAS, on February 7, 1989, under the subject calendar number, the Board granted a ten (10) year extension to the term of the variance, to expire on July 11, 1998, on condition that there be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic; other than as amended the resolution be complied with in all respects, and a new certificate of occupancy be obtained within one (1) year, by February 7, 1990; and

WHEREAS, on April 20, 1999, under the subject calendar number, the Board further amended the resolution to grant an extension to the term of the variance and to permit the replacement of two (2) existing pump islands and dispensers with four (4) new pump islands and the installation of two (2) new canopies over the dispensers; the addition of a 30-foot curb cut on Union Turnpike, a 30-foot curb cut on 80th Avenue and two (2) 30-foot curb cuts on Little Neck Parkway; the removal of two (2) existing curb cuts, one (1) located on Union Turnpike and the other on Little Neck Parkway, on condition that the term of the variance be limited to ten (10) years from July 11, 1998, to expire on July 11, 2008; the premises remain graffiti free at all times; no vehicles be parked on sidewalks; all signs be maintained in accordance with BSA-approved plans and the

premises be maintained in substantial compliance with the drawings submitted with the application; other than as amended the resolution be complied with in all respects; and, a new certificate of occupancy be obtained within one (1) year, by April 20, 2000; and

WHEREAS, on December 8, 2009, under the subject calendar number, the Board waived its Rules of Practice and Procedure and further amended the resolution to grant an extension to the term of the variance for ten (10) years from July 11, 2008, to expire on July 11, 2018, on condition that all use and operations substantially conform to plans filed with the application; the conditions appear on the certificate of occupancy; a new certificate of occupancy be obtained by June 8, 2010; signage comply with C2-2 zoning district regulations; all conditions from the prior resolution not specifically waived by the Board remain in effect; the Department of Buildings (“DOB”) ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted; and

WHEREAS, the term of the variance having expired, the applicant seeks a ten (10) year extension of the term of the variance; and

WHEREAS, pursuant to ZR §11-411, the Board may, in appropriate cases, permit an extension of a term of the variance previously authorized subject to a term of years pursuant to the 1916 Zoning Resolution for terms of not more than ten (10) years each; and

WHEREAS, over the course of the hearings, the Board expressed concerns regarding compliance with the conditions requiring the landscaping and also requested evidence of the installation of a trash enclosure on the site; and

WHEREAS, in response, the applicant submitted photographs of the site demonstrating site improvements in satisfaction of the Board including compliant landscaping at the site as well as an installed trash enclosure; and

WHEREAS, by letter dated January 31, 2019, the Fire Department states that a review of Fire Department records indicates that the subject automotive service station is current with its Fire Department permits for storage of combustible liquids, leak detection equipment, underground storage tank and the fire suppression (dry-chemical) system, and that the Fire Department has no objection to the application; and

WHEREAS, in light of the foregoing, the Board finds that the requested extension of term is appropriate, subject to conditions below.

Therefore, it is Resolved, that the Board of Standards and Appeals *amends* the resolution, dated July 7, 1953, as amended through December 8, 2009, so that as amended this portion of the resolution reads: “to grant an extension of the term of the variance for a term of ten (10) years; and *on condition* that all work and site conditions shall conform to drawings filed with this application marked “May 2, 2019”- Eight (8) sheets; and *on further condition*:

MINUTES

THAT the term of this grant shall expire on July 11, 2028;

THAT landscaping, fencing and the trash enclosure shall be maintained, as shown on the BSA-approved plans and repaired or replaced as necessary to remain in a first-class condition;

THAT there shall be no parking of vehicles on the sidewalk or in such a manner as to obstruct pedestrian or vehicular traffic;

THAT the site shall be maintained free of debris and graffiti;

THAT all signage shall comply with C2-2 zoning district regulations;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a revised certificate of occupancy indicating this approval and calendar number (“BSA Cal. No. 115-53-BZ”) shall be obtained within one (1) year, by May 21, 2020; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, May 21, 2019.

149-97-BZ

APPLICANT – Francis R. Angelino, Esq., for Martin A. Gleason Funeral Home, LLC, owner.

SUBJECT – Application August 2, 2018 – Amendment of a previously approved Variance (§72-21) which permitted an accessory open parking lot (UG 7E) for use with a funeral establishment (UG 7B). The amendment seeks to reflect a reduction in the size of the zoning lot and number of parking spaces from 34 spaces to 29; Extension of Term which expired on August 11, 2018. R2A zoning district.

PREMISES AFFECTED – 150-19 11th Avenue, Block 4515, Lot 52, Borough of Queens.

COMMUNITY BOARD #7Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5
Negative:0

THE RESOLUTION –

WHEREAS, this is an application for an extension of term of a variance, previously granted by the Board, and an amendment to permit the subdivision of the subject zoning lot and a reduction in parking spaces; and

WHEREAS, a public hearing was held on this application on March 5, 2019, after due notice by

publication in *The City Record*, with a continued hearing on April 30, 2019, and then to decision on May 21, 2019; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 7, Queens, recommends approval of this application; and

WHEREAS, Queens Borough President Melinda R. Katz recommends approval of this application; and

WHEREAS, the subject site is located on the north side of 11th Avenue, between 150th Street and Clintonville Street, in an R2A zoning district, in Queens; and

WHEREAS, the site has approximately 60 feet of frontage along 11th Avenue, 170 feet of depth, 10,300 square feet of lot area and is occupied by an accessory open parking lot; and

WHEREAS, the site is adjacent to a non-conforming funeral establishment (Lot 1) that has been subject to the Board’s jurisdiction since June 11, 1968, when, under BSA Calendar Number 138-68-BZ, the Board granted a variance to permit, in an existing two-story building, the construction of a one-story enlargement to the first-floor funeral establishment with accessory parking in the open area on condition that the two then existing at the subject site be installed; and

WHEREAS, the Board has exercised jurisdiction over the subject site (Lot 52) since August 11, 1998, when, under the subject calendar number, the Board granted a variance to permit an accessory open parking lot for an existing funeral establishment for a term of twenty (20) years, expiring August 11, 2018, on condition that access to the parking lot be limited to customers of the funeral establishment and be limited to no later than 9:30 p.m., that the parking lot be locked and secured after hours, that fencing and screening be maintained in accordance with the Board-approved drawings, that lighting be positioned down and away from the adjacent residential uses and be limited in accordance with the Board-approved drawings and that the above conditions appear on the certificate of occupancy; and

WHEREAS, the term of the variance having expired, the applicant now seeks an extension and an amendment to permit the subdivision of the subject zoning lot and a reduction in parking spaces; and

WHEREAS, pursuant to ZR §§ 72-01 and 72-22, the Board may, in appropriate cases, permit an extension of term of a variance; and

WHEREAS, the applicant proposes to subdivide the subject zoning lot to reflect that the eastern portion of the subject site is no longer under the control of the property owner; and

WHEREAS, the applicant proposes to reduce the number of parking spaces from 34 spaces to 29 spaces and submitted evidence that the provided parking far exceeds that required based on zoning requirements and parking demand generated by the funeral establishment; and

WHEREAS, at hearing, the applicant clarified that the second floor continues to be used as a residence; and

MINUTES

WHEREAS, based upon its review of the record, the Board has determined that the requested extension of term is appropriate with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *reopen* and *amend* the resolution, dated August 11, 1998, so that as amended this portion of the resolution shall read: “to *permit* an extension of term of twenty (20) years, expiring August 11, 2038, and subdivision of the subject zoning lot with a reduction of parking spaces from 34 spaces to 29 spaces; *on condition* that all work and site conditions shall conform to drawings filed with this application marked “Received May 8, 2019”- One (1) sheet; and *on further condition*:

THAT the term of this grant shall be limited to twenty (20) years, expiring August 11, 2038;

THAT access to the parking lot shall be limited to customers of the funeral establishment and be limited to no later than 9:30 p.m.;

THAT the parking lot shall be locked and secured after hours;

THAT fencing and screening shall be maintained in accordance with the Board-approved drawings;

THAT lighting shall be positioned down and away from the adjacent residential uses and be limited in accordance with the Board-approved drawings;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number (“BSA Cal No 149-97-BZ”), shall be obtained within four (4) years, by May 21, 2023;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to objections cited and filed by the Department of Buildings;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plans or configurations not related to the relief granted.”

Adopted by the Board of Standards and Appeals, May 21, 2019.

18-09-BZ

APPLICANT – Klein Slowik PLLC, for West 54th Street LLC c/o ZAR Property, owner; Crunch LLC, lessee.

SUBJECT – Application August 28, 2017 – Extension of Term of a special permit (§73-36) for the continued operation of a physical culture establishment (*Crunch Fitness*) which expires on November 21, 2021; Amendment to permit the change in operator; Waiver of the Rules. C6-5 and C6-7 zoning district.

PREMISES AFFECTED – 250 West 54th Street, Block 1025, Lot 54, Borough of Manhattan.

COMMUNITY BOARD #5M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta...4

Negative:0

Recused: Chair Perlmutter.....1

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Deputy Borough Commissioner, dated October 25, 2017, acting on Department of Buildings (“DOB”) Application No. 122508410, reads in pertinent part:

Proposed ‘Physical Culture Establishment’ is not permitted as-of-right as per Section ZR 32-10 and is referred to the Board of Standards and Appeals for a special permit under ZR 73-36; and

WHEREAS, this is an application for a waiver of the Board’s Rules of Practice and Procedure, an extension of the term of a special permit previously granted pursuant to ZR § 73-36, which expires on November 1, 2021, and an amendment to the same to permit a change in operator; and

WHEREAS, a public hearing was held on this application on May 8, 2018, after due notice by publication in *The City Record*, with continued hearings on June 19, 2018, December 11, 2018, and May 21, 2019, and then to decision on that date; and

WHEREAS, Vice-Chair Chanda, Commissioner Ottley-Brown and Commissioner Scibetta performed inspections of the site and surrounding neighborhood; and

WHEREAS, Community Board 5, Manhattan, waived its recommendation of this application; and

WHEREAS, the subject site is located on the south side of West 54th Street, between Eighth Avenue and Broadway, in a C6-5 zoning district and in the Special Midtown District, in Manhattan; and

WHEREAS, the site has approximately 125 feet of frontage along West 54th Street, 101 feet of depth along the western side lot lone and 85 feet of depth along the eastern side lot line, 11,690 square feet of lot area, and is occupied by an existing 12-story plus cellar commercial building; and

WHEREAS, the subject physical culture establishment (“PCE”) is located within portions of the first floor (4,048 square feet of floor area), second floor (7,921 square feet of floor area) and third floor (5,389 square feet of floor area) of the existing building; and

MINUTES

WHEREAS, the Board has exercised jurisdiction over the subject site July 28, 2009, when, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-36, to legalize the operation of a PCE, operated as “Gold’s Gym,” on the first, second and third floors of the existing 12-story building on condition that all work substantially conform to approved drawings filed with the application; the term of the grant expire on November 1, 2011; there be no change in ownership or operating control of the PCE without prior application to and approval from the Board; all massages be performed by New York State licensed massage therapists; the conditions appear on the certificate of occupancy; Local Law 58/87 compliance be as reviewed and approved by DOB; fire safety measures be installed and/or maintained as shown on the Board-approved plans; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); the approved plans be considered approved only for the portions related to the specific relief granted; and, the DOB ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, on January 24, 2012, under the subject calendar number, the Board reopened and amended the resolution adopted on July 28, 2009, to extend the term for a period of ten (10) years, to expire on November 1, 2021, on condition that all work substantially conform to drawings filed with the application; the term of the grant expire on November 1, 2021; the conditions be listed on the certificate of occupancy; all conditions from prior resolutions not specifically waived by the Board remain in effect; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and, the Department of Buildings ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

WHEREAS, the term of the special permit to expire in 2021, the applicant requests the subject relief; and

WHEREAS, the applicant additionally requests a waiver, pursuant to § 1-14.2 of the Board’s Rules of Practice and Procedure, of Rule § 1-07.3(b)(2) to permit the filing of this application more than one (1) year before the expiration of the term of the special permit; and

WHEREAS, the applicant also seeks an amendment to reflect a change to the owner and operator of the PCE, to “Crunch”; and

WHEREAS, the Department of Investigation has performed a background check on the new corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed satisfactory; and

WHEREAS, the applicant represents that the current

operator of the PCE, Crunch, has operated at the subject site since their acquisition of the premises in June 2012 with the following hours of operation: Monday through Friday, 5:00 a.m. to 11:00 p.m.; Saturday, 7:00 a.m. to 9:00 p.m.; and Sunday, 7:00 a.m. to 8:00 p.m.; and

WHEREAS, by letter dated June 27, 2018, the Fire Department states that applications have been filed with the DOB and the status of the applications is as follows: 1) Fire alarm system (Alt. II 122677148): plans disapproved 03/12/2018; 2) Alteration Type I (Alt. I 122508410): plans disapproved 10/10/2017, please note the modification to the sprinkler system is filed under this application and, according to DOB Building Information System (“BIS”), the document is listed as “application processed;” 3) Place of Assembly: no application has been filed to obtain approval and an operating permit for the PCE space – the Fire Department requests that the Board direct the applicant to file a place of assembly application prior to granting an extension of the term; the building is currently protected with a Modified Class-E fire alarm system, which was inspected and approved on September 1, 2010; Fire Department records indicate that the system has no outstanding violations and is operable; a test was conducted and witnessed by the Bureau of Fire Prevention for the standpipe system and the permit expires on May 16, 2023; the testing of the building sprinkler system is overdue and a test date has been scheduled for March 16, 2019; the testing of the building sprinkler system does not affect the applicant for the PCE space; as mentioned, no place of assembly application has been filed for the PCE; the Bureau’s Licensed Public Place of Assembly (“LPPA”) unit has issued a violation order and enforced the order by issuing a criminal summons; the Fire Department respectfully requests that the Board direct the applicant to file such application with the DOB prior to granting any extension of the term; once the application has been filed, LPPA can track the approval process and issue any orders if the application is not reviewed and approved in a timely manner; Fire Prevention will assist the applicant of record for the fire alarm application for review and approval; once the plans have been approved, the fire alarm installer will be responsible for scheduling a test date with the Fire Alarm Inspection Unit (“FAIU”) in the Bureau of Fire Prevention; both LPPA and High-Rise Unit (“HRU”) have been informed of the fire alarm application for the PCE and will issue any violation orders if testing is not performed on the fire alarm system covering the PCE; and

WHEREAS, over the course of hearings, the Board expressed concerns regarding the filing and approval status of the place of assembly permit for the PCE space; and

WHEREAS, in response, the applicant represented that the place of assembly permit was filed at DOB and the applicant has been working to resolve all of the objections related to said filing; and

WHEREAS, by letter dated May 18, 2019, the Fire Department states that, as per the Fire Department’s July 27, 2018, letter, the applicant filed a place of assembly

MINUTES

application (PA# M00150864) which has been reviewed and disapproved by the DOB; the Bureau's LPPA unit will be notified of the application and monitor the site for compliance with the previously issued violation order; and, that the Fire Department has no objection to the Board rendering a decision on the application, as the Bureau of Fire Prevention will continue to inspect these premises and enforce any outstanding violation orders; and

WHEREAS, pursuant to ZR § 73-03(f), the applicant has satisfactorily demonstrated compliance with the conditions of the previous term and the Board finds that the circumstances warranting the original grant still obtain; and

WHEREAS, the applicant specifically requests a five (5) year extension of term to coincide with the term of the PCE operator's lease at the subject site; and

WHEREAS, accordingly, the Board finds that a five (5) year extension of term, and the subject amendment to permit a change in owner and operator, are appropriate, with the conditions set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *waive* Rule § 1-07.3(b)(2) of its Rules of Practice and Procedure and *amends* the resolution, dated July 28, 2009, as amended through January 24, 2012, so that, as amended, this portion of the resolution reads: "to permit an extension of term for five (5) years, to expire on November 1, 2026, and permit a change in operator of the PCE, to "Crunch," *on condition* that the use and operation of the site shall conform to drawings filed with this application marked 'December 11, 2018-Six (6) sheets; and *on further condition*:

THAT the term of this grant shall expire on November 1, 2026;

THAT there shall be no change in ownership or operating control of the physical culture establishment without prior application to and approval from this Board;

THAT minimum three (3) foot wide exit pathways to required exits shall always be maintained unobstructed, including that from any gymnasium equipment;

THAT all massages shall be provided by New York State licensed massage therapists;

THAT an approved sprinkler system and interior fire alarm system—including area smoke detectors, manual pull stations at each required exit, local audible and visual alarms, connection of the interior fire alarm to a FDNY-approved central station—shall be maintained throughout the PCE space as indicated on the Board-approved plans;

THAT a place of assembly permit shall be obtained for the PCE space and the operator shall resolve all outstanding objections;

THAT Local Law 58/87 compliance shall be as reviewed and approved by DOB;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a revised certificate of occupancy, also indicating this approval and calendar number ("BSA Cal. No. 18-09-

BZ") shall be obtained within one (1) year, by May 21, 2020;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, May 21, 2019.

2017-48-A

APPLICANT – Akeeb Shekoni, for Nigerian Muslim Community of Staten Island, owner; Hamzat Kabiawu, lessee.

SUBJECT – Reopen – to modifies the decision of the Staten Island Deputy Borough Commissioner, dated May 23, 2017, acting on Department of Buildings Application No. 520256767, and permit the enlargement and conversion of existing buildings into a Use Group 4 house of worship within the bed of a mapped street, contrary to General City Law ("GCL") § 35. R3A Zoning District.

PREMISES AFFECTED – 36 Hardy Street, Block 638, Lot(s) 44, 46, 47, 49, Borough of Staten Island.

COMMUNITY BOARD #1SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5
Negative:0

THE RESOLUTION –

WHEREAS, this application to modifies the decision of the Staten Island Deputy Borough Commissioner, dated May 23, 2017, acting on Department of Buildings Application No. 520256767, and permit the enlargement and conversion of existing buildings into a Use Group 4 house of worship within the bed of a mapped street, contrary to General City Law ("GCL") § 35 was granted on June 19, 2018 on condition; and

WHEREAS, the decision of the Staten Island Deputy Borough Commissioner, dated March 13, 2019, acting on the same application number and with regards to current tax lot 49, reads in pertinent part:

[...]

2. ZR 24-34, ZR 72-01g: Proposed enlargement in the required front yard is contrary to required minimum front yard; and

WHEREAS, this is an application to amend the Board's prior grant of a waiver of GCL § 35 to include a waiver, pursuant to ZR § 72-01(g), of the minimum front yard requirements set forth in ZR § 24-34; and

WHEREAS, the hearing was reopened on May 21,

MINUTES

2019, after due notice to the applicant, and then decided on the same date; and

WHEREAS, the subject site is comprised of four contiguous tax lots located at the southwest corner of Hardy Street and Waverly Place, in an R3A zoning district, on Staten Island; and

WHEREAS, an Application for Mergers or Apportionments for the merger of Tax Lots 44, 46, 47 and 49 on Block 638 on Staten Island into Tentative Tax Lot 44 was approved by the New York City Department of Finance on January 25, 2016, though the New York City Tax Map has not yet been updated to reflect this merger; and

WHEREAS, the site has approximately 100 feet of frontage along Hardy Street, 100 feet of frontage along Waverly Place and 10,000 square feet of lot area; and

WHEREAS, current tax lots 44 and 46 are occupied by a two-story one-family residence partially located within a mapped but unbuilt portion of Waverly Place and tax lots 47 and 49 are occupied by a two-story Use Group 4 house of worship; and

WHEREAS, the Board last exercised jurisdiction over the subject lots on September 28, 1971, when, under BSA Cal. Nos. 441-71-A (current tax lot 49), 438-71-A (current tax lot 47), 439-71-A (current tax lot 46) and 436-71-A (current lot 44), the Board granted waivers of GCL § 36 to permit the issuance of certificates of occupancy for buildings not fronting legal mapped streets (Hardy Street); and

WHEREAS, the portion of Hardy Street fronting the subject site obtained a Corporation Counsel Opinion, dated January 8, 1982, indicating the street as in use to a width of 50 feet; and

WHEREAS, the applicant proposes to connect the two existing buildings and convert the resulting enlargement into a Use Group 4 house of worship; and

WHEREAS, at the subject site, a front yard with a minimum depth of 15 feet is required pursuant to ZR § 24-34 on the portion of the site fronting Hardy Street as well as Waverly Place, a mapped but unimproved street that traverses the northeastern corner of the site (current tax lot 44); and

WHEREAS, pursuant to DOB Buildings Bulletin 2014-001, issued January 9, 2014, with the purpose “To clarify when privately owned mapped streets can be used for zoning purposes,” the required front yard must be measured from the street widening line that separates a mapped street from other land and not include the mapped street; and

WHEREAS, the applicant proposes a 15-foot front yard fronting Hardy Street and a front yard fronting Waverly Place with a width of 5 feet, as measured to the northern side lot line of the subject site, not including the unmapped street, and a width of 15 feet including the width of Waverly Place that, at the subject location, is mapped, but unimproved; and

WHEREAS, accordingly, the applicant seeks the subject relief; and

WHEREAS, pursuant to ZR § 72-01(g), the Board has the power, after public notice and hearing:

to waive *bulk1* regulations affected by unimproved *streets* where a *development, enlargement* or alteration consists in part of construction within such *streets* and where such *development, enlargement* or alteration would be *non-complying* absent such waiver, provided the Board has granted a permit pursuant to Section 35 of the General City Law and has prescribed conditions which require the portion of the *development* or *enlargement* to be located within the unimproved *streets* to be compliant and conforming to the provision of this Resolution. Such bulk waivers shall only be as necessary to address *non-compliance* resulting from the location of the *development* or *enlargement* within and outside the unimproved *streets*, and the *zoning lot* shall comply to the maximum extent feasible with all applicable zoning regulations as if such unimproved *streets* were not mapped . . .; and

WHEREAS, the Board notes that the subject application seeks to enlarge an existing two-story one-family residential building, wholly located on existing tax lot 44 and partially located within the mapped, but unimproved, portion of Waverly Place, which was issued Certificate of Occupancy No. 47920, dated October 23, 1974; and

WHEREAS, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore, it is Resolved, that the Board modifies the decision of the Staten Island Deputy Borough Commissioner, dated March 13, 2019, acting on Department of Buildings Application No. 520256767, and amends the resolution, dated June 19, 2018, so that, as amended, this portion of the resolution reads: “to waive a bulk regulation associated with the presence of the mapped but unbuilt street, ZR § 24-34 (Minimum Required Front Yard), pursuant to ZR § 72-01(g) *on condition* that construction shall substantially conform to the drawings filed with the application marked “Received March 29, 2019”-One (1) sheet; and *on further condition*:

THAT a front yard with a minimum depth of 5 feet fronting Waverly Place shall be provided, as indicated on the Board-approved plans;

THAT a 35-foot DEP utility easement with the minimum available width of 27 feet at the narrowest point shall be provided inside of Tentative Tax Lot 44 for the installation, maintenance and/or reconstruction of the future and existing sewers and water main, as indicated on the BSA-approved plans;

THAT the subject development shall be fully sprinklered;

THAT the new curb cut proposed on Waverly Place shall be as approve by DOT and/or DOB;

THAT a fire hydrant shall located within 200 feet of the Siamese connection and 250 feet of the main entrance;

1 Words in italics are as defined in section 12-10 of the Zoning Resolution.

MINUTES

THAT all roadways shall be paved to the requirements of DOT;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by May 21, 2023;

THAT DOB shall review the plans approved herewith for compliance with all relevant provisions of the Zoning Resolution;

THAT to the extent required by DOB and/or DOT, a Builder's Pavement Plan shall be filed and approved prior to the issuance of the Certificate of Occupancy;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, indicating this approval and calendar number ("BSA Cal. No. 2017-48-A") shall be obtained within four (4) years, by May 21, 2023;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, May 21, 2019.

ACTION OF THE BOARD – Request for re-argument denied.

THE VOTE TO GRANT –

Affirmative:0

Negative: Chair Perlmutter, Vice-Chair Chanda, Commissioner Ottley-Brown, Commissioner Sheta and Commissioner Scibetta.....5

THE RESOLUTION –

WHEREAS, this is an application to reargue an application previously heard and approved by the Board on November 20, 2018; and

WHEREAS, by submission dated February 19, 2019, a representative of the owner of the premises (“Appellant”) filed an application, pursuant to § 1-12.4 of the Board’s Rules of Practice and Procedure, to reargue this application, filed by the New York City Department of Buildings (“DOB”), to revoke Certificate of Occupancy No. 301016898F issued to the subject premises on September 18, 2013 (the “CO”); and

WHEREAS, Appellant argues that the Board’s determination was not supported by precedent, relevant facts, the New York State Multiple Dwelling Law (the “MDL”), the Zoning Resolution (the “ZR”) or the New York Supreme Court, Appellate Division’s decision in Byrne v. Board of Standards & Appeals, 774 N.Y.S.2d 493 (1st Dept. 2004) (“Byrne”); and

WHEREAS, specifically, Appellant states that, consistent with the Board’s determination in BSA Cal. No.

166-12-A (638 East 11 Street, Manhattan) (July 17, 2018) (the “East 11th Street Appeal”), the Board should only have revoked the CO with regards to the portions of the building that the Board found to be non-complying and upheld issuance of the CO for the cellar, first floor and dwelling units located at the front of the subject building on the second through fourth floors; the Board erred in concluding that the plans submitted with Document 2 of the Alteration Type 1 Application/Job No. 3010168698—the DOB application upon which the CO’s issuance was based—rather than plans submitted with Documents 3 or 4 filed under the same application, were the plans upon which the building’s compliance with the CO should have been based; the Board erroneously applied MDL § 277 to the subject building; the Board irrationally concluded that “significant construction” would be required to bring the building into compliance with the legal light and air requirements set forth in MDL § 277; and the Board erred in its interpretation and application of the “substantial completion” standard justifying the issuance of a certificate of occupancy, as explained by the First Department in Byrne; and

WHEREAS, a public hearing was held on this application on May 7, 2019, after due notice by publication in *The City Record*, and then to decision on May 21, 2019; and

WHEREAS, the subject site is located on the north side of 18th Street, between 5th Avenue and 6th Avenue, in an R6B zoning district, in Brooklyn; and

WHEREAS, the site has approximately 100 feet of frontage along 18th Street, a depth of 100 feet, 10,017 square feet of lot area and is occupied by a four-story plus cellar building; and

WHEREAS, § 1-12.4 of the Board’s Rules of Practice and Procedure states, in relevant part:

The Board will not grant a request to reargue a case which was denied, dismissed, or approved unless the applicant shows that the Board misapprehended the relevant facts or misapplied any controlling principals of law, including the Zoning Resolution; and

WHEREAS, the Board disagrees with Appellant that it misapprehended the relevant facts, specifically that it erred in concluding that the plans submitted with Document 2—a Post Approval Amendment (“PAA”) filed on October 5, 2000, “to rem[ove] portion of rear wall, then construct new exterior walls as per plans”—were the plans upon which

1 The original decision for BSA Cal. No. 166-12-A (which was heard and decided with BSA Cal. No. 107-13-A, an application for common law vested rights at the same premises) was rendered on October 17, 2017. Both DOB and appellant in that case filed motions to reargue the application, which the Board denied by resolution dated June 19, 2018. The Board made its own motion, however, to review the October 17, 2017, decision and rendered such reviewed and revised decision on July 17, 2018.

MINUTES

compliance of the building with the CO should have been adjudged; and

WHEREAS, in its submission in opposition to this application, dated April 26, 2019, DOB states that Appellant's assertion that plans were submitted in association with Documents 3 or 4 filed under Job No. 301016898 is "pure conjecture" and contrary to the evidence in the record, which suggests that neither Documents 3 nor 4 were accompanied by plan sheets; and

WHEREAS, DOB states that Section 7 of the Department's Plan / Work Application (PW1) form, titled "Plans/Construction Documents Submitted," contains the question, "Are plans being submitted with this PW1?" and provides checkboxes for a "Yes" or "No" response; and

WHEREAS, DOB explains that the "Yes" checkbox was selected in answer to this question on the PW1 applications for both Documents 1 and 2 and those applications further indicated that the submitted plans were "AR- Architectural," but no checkbox was selected on the PW1 applications for either Document 3 or 4 in response to this question; further, under the subheading "Plan Page Count," also contained in Section 7 of the PW1 form, both Documents 3 and 4 state "0," indicating that zero plan sheets were filed in association with these documents; and

WHEREAS, DOB also states that the description of Documents 3 and 4 contained in Section 24 of their respective PW1 applications state, "PAA FILED TO ADD CONTROLLED INSPECTIONS AND ANSWER AUDIT OBJECTIONS" and "PAA FILED TO AMEND PW1 SCHEDULE A," and that neither job, as described, requires the submission of new plans; and

WHEREAS, DOB contrasts these descriptions with the job description of Document 2, which states, "REMOVE PORTION OF REAR WALL, THEN CONSTRUCT NEW EXTERIOR WALLS AS PER PLANS," and explicitly references associated plans; and

WHEREAS, Appellant asserts that Document 3 was filed on March 12, 2013, in response to a DOB Notice of Objections, dated October 16, 2012, which, among other objections, stated "No Plans found for Audit"; thus, the reference to "ANSWER[ING] AUDIT OBJECTIONS" in the description on the Document 3 PW1 application was to the applicant's submission of the missing plan set; and

WHEREAS, Appellant also points to DOB records of plan examinations of Job No. 301016898, accessible online through DOB's Building Information Search ("BIS"), which indicate DOB plan examination approval related to Document 3 on April 5, 2013; and

WHEREAS, DOB states that the Document 3 PW1 application directly undermines Appellant's argument in its failure to check the "Yes" box in answer to the query in Section 7 regarding the submission of plans and, further, that Appellant's argument ignores the possibility that the plans submitted in response to the Notice of Objections and approved by DOB on April 5, 2013, were the same plans filed with Document 2 on October 5, 2000, indicating setbacks at the rear wall of the building; and

WHEREAS, Appellant states that DOB is obligated, by uncited provisions of the New York City Administrative Code and City Charter, to maintain filed plans and that DOB erred in failing to maintain and submit into the Board's record the plans allegedly filed in association with Documents 3 and/or 4; and

WHEREAS, the Board notes that Appellant, as a representative of the owner of the subject premises, alleges the existence of plans that they have also failed to submit into the Board's record on this appeal and that it would not be unreasonable for the owner of the premises to possess copies of the architectural drawings upon which the CO was based or to have sought such copies from the files of its consultants, such as an architect who is professionally advised to maintain drawings for several years; and

WHEREAS, therefore, in the absence of a set of plans in the Board's record alternative to those filed with Document 2 on October 5, 2000, under Job No. 301016898 and indicating Use Group 2 dwelling units at the subject premises, the Board did not misapprehend the facts in making the determination that the plans filed with Document 2, which also indicate setbacks in the rear wall of the building in compliance with MDL § 277, were the plans upon which the CO's issuance was premised; and

WHEREAS, the Board also disagrees with Appellant that its previous determination on this application was affected by "misapplication" of the East 11th Street Appeal: the facts of the subject case are wholly distinguishable from those in the East 11th Street Appeal and the Board did not "apply" any aspects of that case in its evaluation of the subject application to revoke; and

WHEREAS, the East 11th Street Appeal involved a certificate of occupancy for two structures on a single zoning lot (a mixed-use building containing occupied dwelling units (the "Front Building") and a structure located in the Front Building's rear yard (the "Rear Structure")), the revocation of which would have rendered occupancy in both structures unlawful; the Board ultimately determined that the Rear Structure neither complied with nor conformed to applicable zoning regulations and that the failure of the certificate of occupancy to even reference the presence of the Rear Structure on the zoning lot necessitated its modification; hence, in that case, the Board denied DOB's application to revoke the certificate of occupancy with regards to the Front Building, granted the application with regards to the Rear Structure and directed DOB to issue a new or modified certificate of occupancy reflecting the presence of both the Front Building and the Rear Structure on the zoning lot upon the satisfactory completion of all work necessary to bring the site into full compliance with all applicable law; and

WHEREAS, in contrast, the subject CO is for one building on a zoning lot and the Board determined that the CO was unlawfully issued with regards to the dwelling units on the second through fourth floors located at the rear of the building because those units do not, and did not at the time of CO issuance, comply with the legal light and air

MINUTES

requirements of MDL § 277; that the CO was unlawfully issued with regards to the portion of the first floor indicated on the CO as containing two dwelling units because inspection of the premises failed to evidence that any portion of this floor was ever converted to residential occupancy (or converted to residential occupancy at the time the CO was issued and subsequently converted back); that the CO was unlawfully issued insofar as the entire building was outfitted with a sprinkler system that failed to comply with both the 1968 Building Code and the MDL; and that the CO was unlawfully issued as to dwelling units located throughout the building containing interior work, including the construction of mezzanines, that do not conform to the plans filed with Document 2, unlawfully increase the building's floor area and may have been present at the time of the CO issuance; and

WHEREAS, because conditions that render the CO unlawfully issued are located throughout the sole building that the CO is intended to reflect and include a non-compliant fire protection system that is located throughout the building, a partial revocation of the CO, as in the East 11th Street Appeal, would have been impracticable; and

WHEREAS, Appellant argued during the initial hearings on this application, and argues again in the subject request for reargument, that the Board misapplied MDL § 277 to the subject building pursuant to ZR § 15-112(b) because the building was converted to residential use pursuant to ZR § 52-31, not ZR § 15-01, et seq.; and

WHEREAS, ZR § 52-31 reads, in pertinent part: Except as provided in this Section, a *non-conforming use*² may be changed to any conforming use, and the applicable district *bulk* regulations and *accessory* off-street parking requirements shall not apply to such change of use or to alterations made in order to accommodate such conforming use, but shall apply to any enlargement;

WHEREAS, ZR § 15-01, located in Chapter 5 of Article 1, titled "Residential Conversion within Existing Buildings," reads, in relevant part:

In Manhattan Community Districts 1, 2, 3, 4, 5 and 6, Brooklyn Community Districts 1, 2, 6 and 8, and Queens Community Districts 1 and 2, *conversions* in *buildings* or portions thereof, erected prior to December 15, 1961, shall be subject to the provisions of this Chapter.

In addition, in Manhattan Community District 1, in the area south of Murray Street and its easterly prolongation and the Brooklyn Bridge, *conversions* in *buildings* or portions thereof, erected prior to January 1, 1977, shall be subject to the provisions of this Chapter.

For purposes of this Chapter, *conversion* shall mean the change of non-residential floor area to

residences or *joint living-work quarters for artists*. *Conversions* shall also include the *conversion* of existing floor space used for mechanical equipment and not counted as *floor area* to *residences* or *joint living-work quarters for artists*.

[...]; and

WHEREAS, Appellant asserts that ZR § 15-01, et seq., and therefore, ZR § 15-112(b), is not applicable at the subject site because the premises are in Brooklyn Community District 7, which is not one of the named districts in which that Chapter of the Zoning Resolution is applicable; and

WHEREAS, Appellant mischaracterizes the Board's determination that MDL § 277 applies at the subject property as being pursuant to ZR § 15-112(b), which requires every dwelling unit converted pursuant to ZR § 15-01, et seq. to meet the light and air requirements of MDL § 277; and

WHEREAS, MDL § 277 begins as follows:

277. Occupancy permitted. Any building in any city of more than one million persons which at any time prior to January first, nineteen hundred seventy-seven was occupied for loft, commercial, institutional, public, community facility or manufacturing purposes, may, notwithstanding any other article of this chapter [Chapter 61-a of the Consolidated Laws of New York, the Multiple Dwelling Law], or any provision of law covering the same subject matter (except as otherwise required by the local zoning law or resolution), be occupied in whole or in part for joint living-work quarters for artists or general residential purposes if such occupancy is in compliance with this article. Such occupancy shall be permitted only if the following conditions are met and complied with; and

WHEREAS, the subject building is in New York City, a city of more than one million persons, was constructed in or around 1905, as indicated on the building façade, and was occupied, prior to January 1, 1977, as a manufacturing building pursuant to Certificate of Occupancy No. 120146 of 1948; and

WHEREAS, accordingly, MDL § 277 applies at the subject site, "notwithstanding any other article of this chapter, or any provision of law covering the same subject matter (except as otherwise required by the local zoning law or resolution)"; and

WHEREAS, MDL § 277(7)(b)(i)(E) reads as follows:

7. Minimum light and air standards for joint living-work quarters for artists or general residential portions of lofts or manufacturing and commercial buildings altered to residential use shall comply with the following:

[...]

(b) Portions of such building which are occupied exclusively as residential units as permitted

² Words in italics in the Zoning Resolution are interpreted in accordance with the definitions set forth in ZR § 12-10.

MINUTES

- by local law shall comply with the following:
- (i) Every dwelling unit shall have one or more windows:
[...]
 - (E) in no event shall the distance between such windows and the rear lot line be less than five feet; and

WHEREAS, Appellant has not identified any requirement of the “local zoning law or resolution,” that is, the Zoning Resolution, that would supplant the requirements of MDL § 277(7)(b)(i)(E), which must be complied with notwithstanding any other MDL provision covering the same subject matter; and

WHEREAS, instead, Appellant states, in support of this application, that as a fireproof building, the subject building may be converted to residential occupancy pursuant to Article 4 of the MDL, entitled “Fireproof Multiple Dwellings,” and must comply with light and air provisions of Article 3 (“Multiple Dwellings—General Provisions”), which include, in MDL § 26(5) and (7), respectively, requirements for rear yards and courts, “[e]xcept as otherwise provided in the zoning resolution of the city of New York”; and

WHEREAS, in summary, Appellant suggests that the only bulk regulations with which the subject building must comply are, pursuant to Article 3 of the MDL, the bulk regulations applicable at the subject site through the Zoning Resolution and those bulk regulations are rendered inapplicable pursuant to ZR § 52-31; and

WHEREAS, Appellant’s argument ignores the plain language of MDL § 277, which states that it is the operative provision of the MDL regarding the residential occupancy of certain former manufacturing buildings in New York City “notwithstanding any other articles of this chapter, or any provision of law covering the same subject matter,” meaning that in cases of conflict with the provisions of Articles 3 and/or 4—which, Appellant argues, direct the building to only comply with the Zoning Resolution—MDL § 277 controls; and

WHEREAS, this argument also ignores the plain language of MDL § 278, titled “Application of other provisions,” which enumerates other articles and sections of the MDL that, like MDL § 277, apply to certain former manufacturing buildings in New York City and does not include Article 3, Article 4 or MDL § 26 on that list, indicating that those articles and section do not apply to the subject building as Appellant suggests; and

WHEREAS, while ZR § 52-31 excuses a building being converted from a non-conforming use to a conforming use from having to comply with the bulk requirements of the underlying zoning district as set forth in the Zoning Resolution, ZR § 52-31 does not excuse such building from having to complying with any other applicable laws, such as MDL § 277, which may separately impact the building’s bulk; accordingly, such a building may both be converted pursuant to ZR § 52-31 and required to comply with MDL § 277(7)(b)(i)(E); and

WHEREAS, in fact, Drawing No. 1 of the plans filed with Document 2 under Job No. 301016898 includes, under the heading “Zoning Analysis” and above the handwritten notes regarding MDL § 277 compliance, a note that reads, “Proposed Conversion to Residential Use (Art. 7B of MDL & ZR 52-31)...Bulk Regulations, Accessory Off-Street Parking Not Applicable To This Conversion As Per ZR 52-31,” indicating that the building is subject to both provisions; and

WHEREAS, Appellant suggests that the Board also misapprehended the facts with regards to its Board’s observation that “significant construction” would be required for the building to comply with MDL § 277(7)(b)(i)(E) and the plans submitted with Document 2 of Job No. 301016898, upon which the CO was premised; and

WHEREAS, this finding was based on the Board Commissioners’ professional expertise with regards to building construction as well as materials in the record, including Drawing Nos. 3 and 4 of the plans submitted with Document 2 of Job No. 301016898, approved by DOB on October 6, 2000, which show, in both plan and section, 5’-6” recesses in the rear wall of the subject building and indicate the demolition of portions of the 100 foot-long rear masonry wall and portions of existing flooring and construction of a continuous two-hour fire rated exterior frame wall with firestopping on both sides at the second, third and fourth floors; and

WHEREAS, that observation notwithstanding, the Board’s determination that the CO was unlawful at the time of issuance was premised, not by the “significance” of any work to make the building compliant with all applicable law, but by the failure to provide legal light and air to the dwelling units located at the rear of the subject building in accordance with MDL § 277, the lack of any evidence that the first floor was ever occupied with two dwelling units as stated on the CO and the presence of mezzanines and other construction in dwelling units located throughout the building not reflected in the plans filed with Document 2 under Job No. 301016898; and

WHEREAS, finally, Appellant argues that in erroneously relying on the plans filed with Document 2, rather than alternative plans absent from the record but alleged by Appellant to exist, the Board misapplied the “substantial completion” standard explained by the First Department in Byrne; that because there is no evidence, as there was in Byrne, that the owner of the subject building is not willing to complete required work or falsely certified to DOB that the building was compliant with all applicable law, the Board erred in revoking the CO instead of allowing the owner to correct existing non-compliances; that compliance with MDL § 277 was not a basis of DOB’s request to revoke the CO; and that Appellant was never afforded a fair opportunity to argue the applicability of that section to the premises; and

WHEREAS, the Board disagrees that its determination to revoke the CO in this case was inconsistent with the First Department’s decision in Byrne or otherwise an abuse of

MINUTES

discretion; and

WHEREAS, as stated, *supra*, the Board disagrees that it erred in its determination that the CO issuance was based on plans filed with Document 2 under Job No. 301016898; and

WHEREAS, the prior resolution having neither cited to *Byrne* nor utilized a “substantial completion” standard, Appellant’s arguments that the Board has “misapplied” either is illogical; and

WHEREAS, the discussion of “substantial completion” in the First Department decision in *Byrne* was with regards to the Board’s determination, under BSA Cal. No. 297-00-A (5 West 21st Street, Manhattan) (July 17, 2001), that a certificate of occupancy was lawfully issued because the owner had “substantially completed” work that had been identified by DOB as required to render the building compliant with its residential certificate of occupancy and that “substantial completion” could be adjudged as of sometime later than the date of the issuance of the certificate of occupancy, such as during the pendency of an application filed at the Board to revoke; and

WHEREAS, the Board justified its determination with Section 27-215 of the New York City Administrative Code (the 1968 Building Code), which applies to certificates of occupancy issued to buildings altered pursuant to the 1968 code and states, in relevant part, that certificates of occupancy “certify[] that the alteration work for which the permit was issued *has been completed substantially* in accordance with the approved plans” (emphasis added), and imposes a less stringent standard than New York City Charter § 645(b)(3)(d), which requires that certificates of occupancy issued by DOB “certify that such building or structure *conforms* to the requirements of all laws, rules, regulations and orders applicable to it” (emphasis added); and

WHEREAS, the First Department rebuffed the Board’s argument that its interpretation of Section 27-215 be afforded great weight and judicial deference, disagreed that the language of Section 27-215 indicated that “substantial completion” could be adjudged as of any date later than the date of the certificate of occupancy’s issuance and concluded that even under a deferential standard, the Board’s finding of “substantial completion” was an “erroneous factual conclusion” unsupported by the record, which demonstrated that none of the construction in a fifth-floor dwelling unit required to render the building compliant with its residential certificate of occupancy was completed prior to the issuance of the certificate of occupancy in March 2000 or even by the time the Board rendered its decision on the revocation application in 2001; and

WHEREAS, the Board’s record in that case also included findings by an administrative law judge in proceedings before the New York City Loft Board relating to the same building that the owner refused to do any of the work required for compliance; and

WHEREAS, contrary to Appellant’s assertions, the Board’s determination to revoke the CO in this case is, in

fact, consistent with the First Department’s decision in *Byrne* in that the determination is supported by the Board’s factual record and was properly considered as of September 13, 2013, the date of the CO’s issuance, not the time of the Board’s review of the application to revoke; and

WHEREAS, regarding Appellant’s assertion that non-compliance with MDL § 277 was not a basis for revocation of the CO provided by DOB, the Board notes that its review of appeals applications is *de novo* pursuant to New York City Charter § 666(6) and the agency’s review is not limited to arguments advanced by the applicant; and

WHEREAS, finally, Appellant’s assertion that they were not afforded an opportunity to discuss MDL § 277 as it applies to the subject premises is factually inaccurate, to wit, by submission dated November 9, 2018, under the heading, “New Issues Raised at the [October 11, 2018] Hearing,” Appellant argued, as Appellant argues again now, that MDL § 277 does not apply at the subject premises because the building was converted to residential use pursuant to ZR § 52-31, not ZR § 15-01, et seq., an argument that, as explained in greater detail, *supra*, the Board finds unavailing; and

Therefore, it is Resolved, that the Board of Standards and Appeals does hereby *deny* the application to reargue BSA Cal. No. 2018-22-A.

Adopted by the Board of Standards and Appeals, May 21, 2019.

THE RESOLUTION –

WHEREAS, the decision of the Department of

Buildings (“DOB”), dated January 8, 2016, acting on DOB Application No. 122619639 reads in pertinent part:

ZR 32-31, ZR 73-36: Proposed use [*sic*] as a Physical culture establishment is not permitted and is contrary to ZR 32-31. This job must be referred to the Board of standards and appeals for approval pursuant to ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site partially located within a C2-8 zoning district and partially located within an R8B (C2-5) zoning district, a physical culture establishment (“PCE”) on portions of the ground floor and second floor of a 27-story mixed-use residential and commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on December 11, 2018, after due notice by publication in *The City Record*, with continued hearings on February 12, 2019, March 26, 2019, May 7, 2019, May 21, 2019, and then to decision on May 21, 2019; and

WHEREAS, Community Board 8, Manhattan, recommends approval of this application; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the subject site and surrounding neighborhood; and

WHEREAS, the subject site is located on the northeast corner of East 64th Street and Second Avenue, partially located within a C2-8 zoning district and partially located within an R8B (C2-5) zoning district, in Manhattan; and

WHEREAS, the site has approximately 125 feet of frontage along East 64th Street, 50 feet of frontage along Second Avenue, 6,302 square feet of lot area and is occupied by a 27-story mixed-use residential and commercial building; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use* is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction,

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

- aerobics or martial arts; or
- (iv) facilities for practice of massage by New York State licensed masseurs or masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section.; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made.; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the subject PCE occupies approximately 333 square feet of floor area on the ground floor and 5,100 square feet of floor area on the second floor of the existing building; and

WHEREAS, the second floor consists of a lobby, fitness studios, changing rooms, bathrooms and storage; and

WHEREAS, the PCE has operated as Barry's Bootcamp since January 2016 from 5 a.m. to 11 p.m., seven days a week; and

WHEREAS, the applicant represents that the subject PCE will neither impair the essential character nor the future use or development of the surrounding areas because it is located in a commercial district and surrounded by properties that are similarly occupied by mixed-use commercial and residential buildings with commercial uses on the ground floor and/or second floor and residential uses above; the applicant further asserts that the subject PCE is compatible with surrounding uses; and

WHEREAS, the Board received letters, email and testimony at hearing from residents of the subject building complaining about loud music, the audibility of class instructors' voices and vibrations associated with the dropping of weights in the PCE space and insisted that the applicant engage an acoustical consultant to complete noise testing, incorporate measures in the PCE space that would adequately attenuate the issues identified by the residential tenants and immediately alter the PCE's operations by lowering the volume on speakers and mics and enforcing a "no dropping" policy with regards to weights; and

WHEREAS, despite adjusting sound levels in the PCE space, further isolating the speakers from the wall and installing mat tiles on the floors on the recommendation of an acoustic consultant, residential tenants continued to complain that music from the PCE and instructors' voices continued to be audible in their dwelling units, located on the fifth floor of the subject building, most notably during classes scheduled around 5:30 a.m. and 8 or 9 pm; and

WHEREAS, the fourth continued public hearing on this application was originally scheduled for June 11, 2019, but, upon the continued receipt of emphatic complaints from residential neighbors about noise emanating from the PCE after the March 26, 2019, public hearing, including weekly noise logs in which tenants listed the date and time of disturbances, the Board notified the applicant that the hearing would be moved to the May 7, 2019, public hearing calendar; and

WHEREAS, at the May 7 hearing, the applicant's representative stated that additional noise testing would be conducted, that prior testing had not revealed audible levels in the residential units tested, that the overall audio in the PCE space had been lowered remotely by 2 decibels and that the applicant was hopeful that such change would mitigate the remaining noise complaints; and

WHEREAS, at that hearing, the Board requested that all issues regarding noise in the facility be cured by the next hearing, scheduled for May 21, specifically, the Board requested that there be no amplified sound—either music or instructors' voices—in the PCE space until that hearing and the applicant take that time to investigate the nature of the problem, which may ultimately be structural, including coordinating with residential tenants to confirm whether certain improvements remediated the source of their complaints; and

WHEREAS, the applicant nevertheless continued its operations as usual, the Board received noise logs from the two residential tenants who had previously complained about disturbances from the PCE indicating that both residents continued to hear the sound of weight drops, bass from amplified music and instructors' voices in their dwelling units after the May 7 hearing as well as testimony from a third residential tenant of the building, complaining of hearing weight drops from the PCE space in her fifth-floor dwelling unit; and

WHEREAS, pursuant to ZR § 73-03 (General Findings Required for All Special Permit Uses and

MINUTES

Modifications), to grant a special permit use, the Board must make, not only the findings required in the applicable Zoning Resolution section, but also find:

[t]hat, under the conditions and safeguard imposed, the hazards or disadvantages to the community at large of such special permit use or modification of use, parking or bulk regulations at the particular site are outweighed by the advantages to be derived by the community by the grant of such special permit. In each case the Board shall determine that the adverse effect, if any, on the privacy, quiet, light and air in the neighborhood of such special permit use or modification of use, parking or bulk regulations will be minimized by appropriate conditions governing location of the site, design and method of operation; and

WHEREAS, the Board cannot determine that the adverse effects of the subject PCE use, which has operated at the subject site since January 2016 without a PCE special permit, on the privacy, quiet, light and air in the neighborhood, and more specifically, in the subject building, can be minimized by appropriate conditions as evidenced by the operator's failure to adequately address the concerns of the tenants raised in public hearing; and

Therefore, it is Resolved, decision of the Department of Buildings ("DOB"), dated January 8, 2016, acting on DOB Application No. 122619639, is sustained and this application is hereby denied.

Adopted by the Board of Standards and Appeals, May 21, 2019.

Negative:0

THE RESOLUTION –

WHEREAS, the decision of the Queens Deputy Borough Commissioner, dated April 24, 2019, acting on Department of Buildings ("DOB") Application No.

421455749 (Doc #3), reads in pertinent part:

The proposed physical culture establishment is not permitted as of right in an R3-1/C2-2 zoning district as per ZR Section 32-10 and therefore requires a ZR Section 73-36 special permit from the Board of Standards and Appeals; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03 to legalize, on a site located partially within an R3-1 (C2-2) zoning district and partially within an R2 zoning district, a physical culture establishment ("PCE") on the first and second floor of an existing two- (2) story plus basement commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on January 15, 2019, after due notice by publication in *The City Record*, with continued hearings on March 5, 2019, and May 21, 2019, and then to decision on that date; and

WHEREAS, Vice-Chair Chanda and Commissioner Ottley-Brown performed inspections of the subject site and surrounding neighborhood; and

WHEREAS, Community Board 10, Queens, recommends approval of this application subject to the following conditions: (1) the tenant, Planet Fitness, along with the property owner provide attendant services within the parking lot behind the building to increase the number of spaces; (2) attendant parking use be noted along with the current parking provided and that total number of spaces (148 plus additional spaces made possible by attendant parking) appear on the temporary and final certificates of occupancy; and, (3) Planet Fitness provide security in the parking lot and in the interior of their first and second floor space due to their request to operate 24 hours, 7 day a week; and

WHEREAS, the Board was in receipt of two (2) form letters in support of this application and one (1) form letter in opposition to this application raising concerns including but not limited to the adequacy of the existing parking lot to serve the PCE's patrons and a potential increase in traffic due to the presence of the PCE at the subject site; and

WHEREAS, the subject site is located on the southwest corner of Cross Bay Boulevard and 160th Avenue, partially within an R3-1 (C2-2) zoning district and partially within an R2 zoning district, in Queens; and

WHEREAS, the site has approximately 265 feet of frontage along Cross Bay Boulevard, 175 feet of frontage along 160th Avenue, 46,375 square feet of lot area and is occupied by an existing two- (2) story plus basement commercial building and off-street parking lot containing 70 parking spaces; and

WHEREAS, the Board has exercised jurisdiction over the subject site, then identified as tax lot 1, since May 5, 1959, when, under BSA Cal. No. 247-56-BZ, the Board granted a variance to permit the erection of a class one building to be used as bowling alleys, with less than the required setback for a G-1 area and with parking for patrons and employees, all as shown on plans filed with the application, on condition that the building be fireproof in all

MINUTES

respects and built according to such plans and with brick walls faced with an approved face brick; the parking lot be as shown on such plans, surrounded on all sides and at the building line by a 5'-6" woven wire fence and with one (1) 25-foot gate and 20-foot curb cut opening on 160th Avenue and one (1) 25-foot curb cut on Cross Bay Boulevard; there may be a 15-foot curb cut to the smaller parking lot to the south, opening on 161st Avenue, equipped with a 25-foot gate, all as shown on such plans; the vehicular entrance to Cross Bay Boulevard be controlled by chains when the building is unoccupied; the building not be increased in height or area; in all other respects the building and occupancy comply with all laws, rules and regulations applicable thereto; the emergency exits required by the Building Code or DOB be provided; there be no signs on the 92nd Street front of the building or along the north and south walls of the building more than 25 feet from the Cross Bay Boulevard building line; an aluminum canopy over the driving end of the parking lot at the Cross Bay Boulevard building line may be permitted with a sign on the supporting pylon not to exceed 18 feet in height, as shown on plans; and, all permits required, including a certificate of occupancy, be obtained and all work completed within one (1) year; and

WHEREAS, on March 15, 1960, under BSA Cal. No. 247-56-BZ, the Board granted a further variance to then-tax lot 1 to permit the erection of a class one building to be used for a bowling alley, restaurant, bar, kitchen, snack bar, shop, office, nursery, meeting rooms and store room, extending from the business into the residence use portion of the plot and occupying more than the permitted area coverage and with parking of patrons' cars, no fee, on the unbuilt upon portion of the plot, on condition that the work be done in accordance with drawings filed with the application; the location of the air conditioning equipment be moved into the business district portion of the plot; all laws, rules and regulations applicable be complied with; and, all permits and a certificate of occupancy be obtained and all work completed within one (1) year; and

WHEREAS, on June 12, 1973, under BSA Cal. No. 1045-67-BZ, the Board granted a variance to then-tax lot 1 to permit, in what was then an R2 zoning district, the construction and maintenance of an accessory parking lot for an adjoining commercial establishment for a term of five (5) years on condition that all work substantially conform to drawings filed with the application; all laws, rules and regulations applicable be complied with; and, substantial construction be completed within one (1) year, by June 12, 1974; and

WHEREAS, on July 24, 1973, under BSA Cal. No. 1045-67-BZ, the Board reopened the agency record for the express purpose of accepting the petition of Community Board #10, Queens, dated July 9, 1973, as evidence supplementing and correcting objectors' position in opposition at the hearings of the Board on the above application and, upon such reconsideration, denied the application; and

WHEREAS, on June 27, 1978, under BSA Cal. No. 1045-67-BZ, the Board reopened and amended the June 1973 resolution to extend the term for ten (10) years, to expire on June 27, 1988, on condition that bumpers be installed in compliance with the rules and regulations of the DOB; the parking lot area be cleaned and maintained; other than as amended the resolution be complied with in all respects; and, a new certificate of occupancy be obtained within one (1) year, by June 27, 1979; and

WHEREAS, on May 10, 1988, under BSA Cal. No. 1045-67-BZ, the Board reopened and further amended the resolution to extend the term for ten (10) years, to expire on June 27, 1998, and to permit the closing of the alcoves with a 6'-0" high stockade fence located on 92nd Street as shown on the site plan of existing and proposed conditions filed with the application, on condition that other than as amended the resolution be complied with in all respects and a new certificate of occupancy be obtained within one (1) year, by May 10, 1989; and

WHEREAS, on January 12, 1993, under BSA Cal. No. 1045-67-BZ, the Board reopened and further amended the resolution to permit the accessory use of then-tax lot 1, recently consolidated with adjacent tax lots 6 and 20, as required parking for the proposed retail establishment and existing post office on tax lot 20, as well as accessory parking for the existing automobile showroom on new tax lot 6, on condition that the landscaping, fences and sidewalks be adequately maintained; there be no parking on the sidewalks; all lights be positioned down and away from adjacent residential property; the lots be secured after business hours; the premises be maintained in substantial compliance with proposed conditions drawings filed with the application; other than as amended, the resolution be complied with in all respects; and a new certificate of occupancy be obtained within one (1) year, by January 12, 1994; and

WHEREAS, on July 19, 1994, under BSA Cal. No. 1045-67-BZ, the Board reopened and further amended the resolution to permit a change in the configuration of the accessory parking layout, substantially as shown on the proposed conditions site plan filed with the application, on condition that the gates to the parking lot be closed after business hours; the premises be maintained graffiti free; other than as amended the resolution be complied with in all respects; and, a new certificate of occupancy be obtained within one (1) year, by July 19, 1995; and

WHEREAS, on May 18, 2010, under BSA Cal. No. 1045-67-BZ, the Board waived its Rules of Practice and Procedure, reopened and further amended the resolution to eliminate the term and to remove the specified condition related to the permitted hours of operation of the parking lot from prior approvals, on condition that all use and operations substantially conform to plans filed with the application; the site be maintained free of debris and graffiti; landscaping, fencing and sidewalks be adequately maintained in conformance with the approved plans; there be no parking on the sidewalks; all lighting be directed

MINUTES

down and away from adjacent residential uses; the conditions appear on the certificate of occupancy; all conditions from prior resolutions not specifically waived by the Board remain in effect; and, the DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted; and

WHEREAS, on August 16, 2011, under BSA Cal. No. 1045-67-BZ, the Board reopened and further amended the resolution to permit an extension of time to obtain a certificate of occupancy, to expire on August 16, 2013, on condition that the use and operation of the site substantially conform to the previously approved plans; a new certificate of occupancy be obtained by August 16, 2013; all conditions from prior resolutions not specifically waived by the Board remain in effect; the approval be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and, the DOB ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted; and

WHEREAS, by letter dated October 4, 2016, the Board permitted a proposed enlargement to one of the buildings located at the subject site and found that the proposed enlargement, to add a second floor to the existing one- (1) story commercial building, substantially complied with the Board's grants with respect to the capacity, number of parking spaces and layout of the existing parking lot; and

WHEREAS, ZR § 73-36(a) provides that in C1-8X, C1-9, C2, C4, C5, C6, C8, M1, M2 or M3 Districts, and in certain special districts as specified in the provisions of such special district, the Board may permit physical culture or health establishments as defined in Section 12-10 for a term not to exceed ten years, provided that the following findings are made:

- (1) that such *use*1 is so located as not to impair the essential character or the future use or development of the surrounding area; and
- (2) that such *use* contains:
 - (i) one or more of the following regulation size sports facilities: handball courts, basketball courts, squash courts, paddleball courts, racketball [*sic*] courts, tennis courts; or
 - (ii) a swimming pool of a minimum 1,500 square feet; or
 - (iii) facilities for classes, instruction and programs for physical improvement, body building, weight reduction, aerobics or martial arts; or
 - (iv) facilities for practice of massage by New York State licensed masseurs or

1 Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

masseuses.

Therapeutic or relaxation services may be provided only as accessory to programmed facilities as described in paragraphs (a)(2)(i) through (a)(2)(iv) of this Section; and

WHEREAS, ZR § 73-36(b) sets forth additional findings that must be made where a physical culture or health establishment is located on the roof of a commercial building or the commercial portion of a mixed building in certain commercial districts; and

WHEREAS, because no portion of the subject PCE is located on the roof of a commercial building or the commercial portion of a mixed building, the additional findings set forth in ZR § 73-36(b) need not be made or addressed; and

WHEREAS, ZR § 73-36(c) provides that no special permit shall be issued unless:

- (1) the Board shall have referred the application to the Department of Investigation for a background check of the owner, operator and all principals having an interest in any application filed under a partnership or corporate name and shall have received a report from the Department of Investigation which the Board shall determine to be satisfactory; and
- (2) the Board, in any resolution granting a special permit, shall have specified how each of the findings required by this Section are made; and

WHEREAS, the Board notes that in addition to the foregoing, its determination is also subject to and guided by ZR § 73-03; and

WHEREAS, the Board notes that pursuant to ZR § 73-04, it has prescribed certain conditions and safeguards to the subject special permit in order to minimize the adverse effects of the special permit upon other property and community at large; the Board notes further that such conditions and safeguards shall be incorporated in the building permit and certificate of occupancy of the subject building, and that failure to comply with such conditions or restrictions shall constitute a violation of the Zoning Resolution and may constitute the basis for denial or revocation of a building permit or certificate of occupancy and for all other applicable remedies; and

WHEREAS, as a threshold matter, the Board notes that the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant represents that the PCE occupies 5,360 square feet of floor area on the first floor with a reception area, exercise area, a "black card spa" area with tanning rooms, automatic massage chairs, automatic hydro-massage bed, and storage space; and 13,186 square feet of floor area on the second floor with exercise areas and men's and women's locker rooms with bathrooms and showers; and

WHEREAS, the PCE began operation on January 14,

MINUTES

2019, as “Planet Fitness,” operating 24 hours per day, daily; and

WHEREAS, the applicant states that, while the PCE is located in a commercial building, attenuation measures have been installed in the PCE space to prevent potential noise or vibration issues to commercial tenants in the subject building; these measures include rubber flooring in the PCE exercise areas, batt insulation in partitions, a suspended ceiling, and the PCE maintains low music volume levels and represents that excessive noise is not allowed; and

WHEREAS, the applicant represents that the PCE use will neither impair the essential character nor the future use or development of the surrounding area because the PCE is located in an existing commercial structure on Cross Bay Boulevard, a commercial corridor, and is surrounded by similar commercial uses; and

WHEREAS, accordingly, the Board finds that the PCE is so located as to not impair the essential character or future use or development of the surrounding area; and

WHEREAS, the applicant submits that the PCE will contain facilities for classes, instruction and programs for physical improvement; and

WHEREAS, the Board finds that the subject PCE use is consistent with those eligible pursuant to ZR § 73-36(a)(2) for the issuance of the special permit; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof and issued a report, which the Board has deemed to be satisfactory; and

WHEREAS, the applicant represents that the PCE will not impact the privacy, quiet, light and air of the neighborhood and anticipates that the benefits provided by the PCE will greatly outweigh any potential disadvantages to the community; and

WHEREAS, the applicant states that an approved fire alarm system—including manual pull stations at each required exit, local audible and visual alarms, area smoke detectors and a connection of the interior fire alarm and sprinkler system to an FDNY-approved central station—will be installed and maintained within the PCE space; and

WHEREAS, by letter dated January 2, 2019, the Fire Department states that applications were filed with the DOB for the fire alarm system (Alt. II 421554927) and the change of use (Alt. I 421455749); to date, no application has been filed for the public assembly space at the second floor for 209 persons; these premises have an existing fire alarm system and the Bureau will require the PCE to install such system and be maintained as per the NYC Fire Code; and, the Bureau of Fire prevention recommends that the Board, in granting a special permit, add as a condition that the applicant obtains an approval and sign-off for the fire alarm system and an operating permit from the DOB; and

WHEREAS, over the course of hearings, the Board questioned whether the PCE is permitted to be located within the portions of the subject building located within an R2 zoning district, where a special permit pursuant to ZR §

73-36 is not available; and

WHEREAS, ZR § 77-11 reads in pertinent part: Whenever a #zoning lot# existing on December 15, 1961, or on any applicable subsequent amendment thereto, is divided by a boundary between districts in which different #uses# are permitted, the #use# regulations applicable to the district in which more than 50 percent of the #lot area# of the #zoning lot# is located may apply to the entire #zoning lot#, provided that the greatest distance from the mapped district boundary to any #lot line# of such #zoning lot# in the district in which less than 50 percent of its area is located does not exceed 25 feet. Such distance shall be measured perpendicular to the mapped district boundary; and

WHEREAS, in response, the applicant submitted materials from the record of BSA Cal. No. 1045-67-BZ indicating that all of the subject tax lots were a single zoning lot prior to December 15, 1961, the commercial building on tax lot 6 was developed pursuant to ZR § 77-11, the district boundary line was relocated to the building’s rear wall and the use regulations applicable to a C2-2 zoning district were applicable across the entire zoning lot as it existed at that time; subsequent enlargements of the zoning lot have not impacted the location of the district boundary line with regards to the building already constructed on the site; and, thus, commercial uses on the first floor of the building, including the subject PCE, are conforming; and

WHEREAS, pursuant to ZR § 73-03, the Board finds that, under the conditions and safeguards imposed, the hazards or disadvantages to the community at large of the PCE use are outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings for the special permit pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 18BSA142Q, dated June 1, 2018; and

WHEREAS, the term of the grant has been reduced to reflect the period the PCE operated without approval from the Board; and

WHEREAS, based upon its review of the record, the Board finds that the requested special permit, legalizing the PCE on a portion of the first and second floors, is appropriate, with certain conditions as set forth below.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3, §§ 5-02(a) and 5-02(b)(2) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to legalize, on a site located partially within an R3-1 (C2-2) zoning district and partially within an R2 zoning district, the operation of a physical culture

MINUTES

establishment on the first and second floors of an existing two- (2) story plus basement commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “February 14, 2019”-Seven (7) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on January 14, 2029;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT a place of assembly permit shall be obtained for the PCE space;

THAT an approved fire alarm system—including manual pull stations at each required exit, local audible and visual alarms, area smoke detectors and a connection of the interior fire alarm and sprinkler system to an FDNY-approved central station—shall be installed and maintained within the PCE space;

THAT accessibility compliance under Local Law 58/87 will be as reviewed and approved by DOB;

THAT minimum 3 foot wide exit pathways shall be provided leading to the required exits and such pathways shall always be maintained unobstructed, including from any equipment;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also referencing this approval and calendar number (“BSA Cal. No. 2018-98-BZ”), shall be obtained within one (1) year, by May 21, 2020;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 21, 2019.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated September 7, 2018, acting on DOB Application No. 321383864, reads in pertinent part:

1. ZR 23-141: Proposed plans are contrary to ZR 23-141 in that the proposed Floor Area Ratio (FAR) exceeds the permitted 50%;
2. ZR 23-141: Proposed plans are contrary to ZR 23-141 in that the proposed Open Space Ratio (OSR) is less than the required 150%;
3. ZR 23-461(a): Proposed plans are contrary to ZR 23-461(A) in that the proposed Side Yards are less than the required 5’-0” and 8’-0”;
4. ZR 23-47: Proposed plans are contrary to ZR 23-47 in that the proposed rear yard is less than 30’-0”;

WHEREAS, this is an application under ZR § 73-622 to permit, in an R2 zoning district, the enlargement of a detached single-family dwelling that does not comply with the zoning requirements for floor area ratio (“FAR”), open space ratio, side yards and rear yards contrary to ZR §§ 23-141, 23-461(a) and 23-47; and

WHEREAS, a public hearing was held on this application on February 12, 2019, after due notice by publication in *The City Record*, with a continued hearing on April 9, 2019, and then to decision on that date; and

WHEREAS, Commissioner Ottley-Brown performed an inspection of the site and surrounding neighborhood; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the east side

of East 27th Street, between Avenue K and Avenue L, in an R2 zoning district, in Brooklyn; and

WHEREAS, the site has approximately 40 feet of frontage on East 27th Street, 100 feet of depth, 4,000 square feet of lot area, and is occupied by a two- (2) story plus cellar single-family detached dwelling containing 2,566 square feet of floor area (0.64 FAR), an open space ratio of 1.02 (2,626 square feet of open space), a front yard with a depth of ten (10) feet, two (2) side yards with widths of 3’-4” and 10’-8”, and a rear yard with a depth of 30’-5”;

WHEREAS, ZR § 73-622 provides that:

The Board of Standards and Appeals may permit an *enlargement*¹ of an existing *single- or two-family detached* or *semi-detached residence* within the following areas:

- (a) Community Districts 11 and 15, in the Borough of Brooklyn; and
- (b) R2 Districts within the area bounded by Avenue I, Nostrand Avenue, Kings Highway, Avenue O and Ocean Avenue, Community District 14, in the Borough of Brooklyn; and
- (c) within Community District 10 in the Borough of Brooklyn, after October 27, 2016, only the following applications, Board of Standards and Appeals Calendar numbers 2016-4218-BZ, 234-15-BZ and 2016-4163-BZ, may be granted a special permit pursuant to this Section. In addition, the provisions of Section 73-70 (LAPSE of PERMIT) and paragraph (f) of Section 73-03 (General Findings Required for All Special Permit Uses and Modifications), shall not apply to such applications and such special permit shall automatically lapse and shall not be renewed if substantial construction, in compliance with the approved plans for which the special permit was granted, has not been completed within two years from the effective date of issuance of such special permit.

Such *enlargement* may create a new *non-compliance*, or increase the amount or degree of any existing *non-compliance*, with the applicable *bulk* regulations for *lot coverage*, *open space*, *floor area*, *side yard*, *rear yard* or perimeter wall height regulations, provided that:

- (1) any *enlargement* within a *side yard* shall be limited to an *enlargement* within an existing *non-complying side yard* and such *enlargement* shall not result in a decrease in the existing minimum width of open area between the *building* that is being *enlarged* and the *side lot line*;
- (2) any *enlargement* that is located in a *rear*

¹ Words in *italics* are defined in Section 12-10 of the Zoning Resolution.

MINUTES

yard is not located within 20 feet of the *rear lot line*; and

- (3) any *enlargement* resulting in a *non-complying* perimeter wall height shall only be permitted in R2X, R3, R4, R4A and R4-1 Districts, and only where the *enlarged building* is adjacent to a *single- or two-family detached or semi-detached residence* with an existing *non-complying* perimeter wall facing the *street*. The increased height of the perimeter wall of the *enlarged building* shall be equal to or less than the height of the adjacent *building's non-complying* perimeter wall facing the *street*, measured at the lowest point before a setback or pitched roof begins.

Above such height, the setback regulations of Section 23-631, paragraph (b), shall continue to apply.

The Board shall find that the *enlarged building* will not alter the essential character of the neighborhood or district in which the *building* is located, nor impair the future use or development of the surrounding area. The Board may prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the Board notes that in addition to the foregoing, its determination herein is also subject to and guided by, *inter alia*, ZR §§ 73-01 through 73-04; and

WHEREAS, as a threshold matter, the Board notes that this application located within an area in which the special permit is available; and

WHEREAS, the Board notes further that the subject application seeks to enlarge a detached single-family residence, as contemplated by ZR § 73-622; and

WHEREAS, the applicant proposes to enlarge the building by both vertically and horizontally extending the dwelling along the side yards and into the rear yard, resulting in a three- (3) story plus cellar dwelling with 3,810 square feet of floor area (0.95 FAR), an open space ratio of 0.62 (2,363 square feet of open space), a front yard with a depth of ten (10) feet, two (2) side yards with widths of 3'-4" and 10'-8", and a rear yard with a depth of 24 feet; and

WHEREAS, specifically, the applicant states that the proposed enlargement would increase the floor area on the first floor from 1,374 square feet to 1,637 square feet, the second floor from 1,192 square feet to 1,430 square feet, and create a third floor with 744 square feet of floor area; and

WHEREAS, at the subject site, a maximum FAR of 0.50 is permitted, a minimum open space ratio of 1.5 is required, two (2) side yards, each five (5) feet in width and 13 feet of total side yard are required, and a rear yard with a minimum depth of 30 feet is required pursuant to ZR §§ 23-141, 23-461(a) and 23-47; and

WHEREAS, the proposed enlargement includes a vertical and horizontal extension of the existing non-complying 3'-4" side yard and the Board notes that, pursuant

to a 1930 Sanborn Map including the subject site provided by the applicant, the subject site was developed with a detached dwelling in approximately the same location and orientation as the site is occupied today and, thus, the non-complying northern side yard predated the 1961 Zoning Resolution and is a legal non-compliance; and

WHEREAS, the applicant provided an analysis of single- or two-family dwellings located within 400 feet of the subject premises within an R2 zoning district (the "Study Area") concluding that, of the 112 qualifying residences, 94 residences (84 percent) have an FAR of greater than 0.5, ranging from 0.51 to 1.13, and 16 residences (14 percent) have an FAR of 0.95 or greater; and

WHEREAS, the applicant provided an analysis of rear yard conditions on the subject block, demonstrating that, of the 42 other single- or two- (2) family dwellings located on interior lots, 17 lots (41 percent) have rear yards with depths of less than 30 feet with rear yards ranging in depth from 14 feet to 29, including the dwellings located immediately adjacent to and to the rear of the subject site, which all have a rear yards with a depth of 20 feet and two of which (the lot immediately north of the subject site and the lot to the rear of the subject site) also have detached garages located in the rear yard; and

WHEREAS, based upon its review of the record and inspections of the subject site and surrounding neighborhood, the Board finds that the proposed building as enlarged will not alter the essential character of the neighborhood or district in which the subject building is located, nor impair the future use or development of the surrounding area; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed modification of bulk regulations is outweighed by the advantages to be derived by the community and finds no adverse effect on the privacy, quiet, light and air in the neighborhood; and

WHEREAS, the proposed modification of bulk regulations will not interfere with any pending public improvement project; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action noted in the CEQR Checklist No. 19-BSA-039K, dated October 11, 2018; and

WHEREAS, in light of the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore, it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622 to permit, in an R2 zoning district, the enlargement of a one- (1) family detached dwelling that does not comply with the zoning requirements with regards to floor area ratio, open space ratio, side yards and rear yards, contrary to ZR §§ 23-141, 23-461(a) and 23-47; *on condition* that all work shall

MINUTES

substantially conform to drawings as they apply to the objection above-noted, filed with this application and marked Received "April 9, 2019"-Fifteen (15) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area ratio of 0.95 (3,810 square feet of floor area), a minimum open space ratio of 0.62 (2,363 square feet of open space) two (2) side yards with minimum widths of 3'-4" and 10'-8", and a rear yard with a minimum depth of 24 feet at all stories, as illustrated on BSA-approved plans;

THAT the removal of exterior walls and/or joists in excess of those indicated on the BSA-approved plans is prohibited and shall void the special permit;

THAT substantial construction shall be completed pursuant to ZR § 73-70;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy, also indicating this approval and calendar number ("BSA Cal. No. 2018-155-BZ") shall be obtained within four (4) years, by April 9, 2023;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the special relief granted; and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 9, 2019.

***The resolution has been amended to change the side yard which should have been reflected as 10'-8" and not ten (10) feet. Corrected in Bulletin Nos. 21-22, Vol. 104, dated May 31, 2019.**
