DOCKETS

New Case Filed Up to January 14, 2014

321-13-BZ

37-19 104th Street, Between 37 Avenue and 37 Road, Block 1771, Lot(s) 42, Borough of **Queens, Community Board: 3**. Variance (§72-21) application seeks to vary the side yard requirements of §23-462(a) and the parking space requirements of §25-32. R5 zoning district. R5 district.

322-13-BZ

42-01 Main Street, Located on the southeast corner of the intersection of Main Street and Maple Avenue., Block 5135, Lot(s) 1, Borough of **Queens, Community Board: 7**. Reinstatement (§11-411) of a previously approved variance which permitted accessory parking on the zoning lot for the use Group 6 commercial building; Waiver of the Rules. R6/C1-2 and R6 zoning district. R6/C1-2 and R6 district.

323-13-BZ

127 East 71st Street, East 71st Street between Park and Lexington Avenues, Block 1406, Lot(s) 12, Borough of **Manhattan, Community Board: 8**. Special Permit (§73-621) to permit the proposed alteration, which will enlarge the footprint and include a vertical enlargement at the rear portion of the existing four story, plus cellar and basement contrary to lot coverage §23-145. R8B (LH-1A) zoning R8b, LH-1-A district.

324-13-BZ

78-32 138th Street, Located on the southwest corner of the intersection of 138th Street and 78th Road., Block 6588, Lot(s) 25, Borough of **Queens, Community Board: 8**. Special Permit (§73-621) to request an amended special permit to allow the enlargement of a single-family residence located within an R2 zoning district, contrary to floor area and open space regulations. R2 zoning district. R2 district.

325-13-BZ

3170 Webster Avenue, East side of Webster Avenue at intersection with East 205th Street, Block 3357, Lot(s) 37, Borough of **Bronx, Community Board: 7**. Special Permit (§73-36) to permit the operation of Physical Cultural Establishment (PCE) within a portions of commercial building, contrary to §32-10. C2-4/R7D zoning district. C2-4(R7D) district.

326-13-BZ

16-16 Whitestone Expressway, West Side of Whitestone Expressway(service road), 920.47 ft. north of 20th Avenue, Block 4148, Lot(s) 50,65, Borough of **Queens, Community Board: 7**. Special Permit (§73-44) to reduce required off-street parking accessory to office building. M1-1(CP) district.

327-13-BZ

1504 Coney Island Avenue, Property occupies the northwest corner of Coney Island Avenue and Avenue L, Block 6536, Lot(s) 28,30,34,40,41,42,43, Borough of **Brooklyn, Community Board: 12**. Special Permit (§73-44) to reduce the required number of accessory parking spaces stipulated by Section 36-21(ZR) for ambulatory diagnostic or treatment facility use and Use Group 6 uses with Parking Requirement Category B1 fro one space per 400sf. Of flo C8-2 R5/C2-3 district.

328-13-BZ

8 Berry Street, Northeast corner of Berry Street and North 13th Street, Block 2279, Lot(s) 26, Borough of **Brooklyn, Community Board: 1**. Special Permit (§73-36) to permit the operation of Physical Cultural Establishment (PCE) in a manufacturing zoning district. M1-1 zoning district. M1-1 district.

329-13-BZ

145 Girard Street, Located on the East side of Girard Street, approx 600 ft South of intersection with Hampton Avenue., Block 8750, Lot(s) 386, Borough of **Brooklyn, Community Board: 15**. Special Permit (§73-622) to legalize a three-story single family residence, with total 6,234 sq. ft. floor area. R3-1 zoning district. R3-1 district.

330-13-BZ

2801 Brown Street Located on the East side of Brown Street, approx,230 ft South of intersection with Shore Parkway., Block 8800, Lot(s) 0095, Borough of **Brooklyn, Community Board: 15**. Special Permit (§73-622) to permit a two- story (one story plus mezzanine) single family residence, with total 1142 sq. ft. floor area. R4-1 zoning district. R4-1 district.

DOCKETS

331-13-BZ

2005 86th Street, Premises is located on the north side of 86th street just west of its intersection with 20th Avenue., Block 6346, Lot(s) 5, Borough of **Brooklyn, Community Board: 11**. Special Permit (§73-36) to allow the operation of a physical culture establishment (fitness center) within the existing building at the Premises. C4-2 zoning district. C4-2 district.

1-14-BZ

525 West 42nd Street, Northerly side of West 42nd Street 325 feet easterly of Tenth Avenue, Block 1071, Lot(s) 42, Borough of **Manhattan, Community Board: 4**. Special Permit (§73-36) to allow the operation of a physical culture establishment (PCE) spa at the building contrary to (ZR)32-31. C6-4 zoning district. C6-4 district.

2-14-BZ

555 6th Avenue, Westerly side of 6th Avenue between West 15th Street and West 16th Street, Block 79, Lot(s) 36, Borough of **Manhattan, Community Board: 4**. Special Permit (§73-36) to allow the operation of a physical culture establishment/health club in portions of the cellar and first floor of the building. C6-2A/R8B zoning district. C6-2A/R8B district.

3-14-BZ 12-18 East 89th St., situated on the South side of East 89th St, 0 feet west of the corner formed by the intersection of Madison Avenue and East 89th Street., Block 1500, Lot(s) 62, Borough of **Manhattan, Community Board: 8**. Variance (§72-21) to permit the enlargement of St David's School. R8B/R10/C1-5MP zoning district. R8B/R10/C1-5MP district.

4-14-BZ

1065 Avenue of The Americas, NWC of Avenue of the Americas and West 40th St, Block 993, Lot(s) 29, Borough of **Manhattan, Community Board: 5**. Special Permit (§73-36) to allow physical culture establishment within portions of an existing commercial building contrary to (ZR)32-10 zoning resolution. C5-3(mid)(T) zoning district. C5-3(Mid)(T) district.

5-14-BZ

1807 East 22nd Street, East side of East 22nd Street between Quentin Road and Avenue R, Block 6805, Lot(s) 64, Borough of **Brooklyn, Community Board: 15**. Special Permit (§73-622) to allow the enlargement of an existing single family residence located in a residential (R3-2) zoning district. R3-2 district.

6-14-BZ

2525 Victory Boulevard, Northwest corner of Victory Boulevard and Willowbrook Road, Block 1521, Lot(s) 1, Borough of **Staten Island, Community Board: 1**. Special Permit (§73-211) to permit for an existing Use Group 16, automotive service station on an R3-2C-21 zoning district seeks to convert the existing automotive service bays into an accessory convenience store and enlarge the existing accessory buildin 73-211& 73-03 district.

DESIGNATIONS: D-Department of Buildings; B.BK.-Department of Buildings, Brooklyn; B.M.-Department of Buildings, Manhattan; B.Q.-Department of Buildings, Queens; B.S.I.-Department of Buildings, Staten Island; B.BX.-Department of Building, The Bronx; H.D.-Health Department; F.D.-Fire Department.

CALENDAR

FEBRUARY 4, 2014, 10:00 A.M.

NOTICE IS HEREBY GIVEN of a public hearing, Tuesday morning, February 4, 2014, 10:00 A.M., at 22 Reade Street, Spector Hall, New York, N.Y. 10007, on the following matters:

SPECIAL ORDER CALENDAR

823-19-BZ

APPLICANT – Eric Palatnik, P.C., for Israel Minzer, owner.

SUBJECT – Application April 20, 2012 – Amendment of a previously approved variance which permitted a one story warehouse (UG 16) within a residential zoning district. The application seeks to amend the previously approved plans to reflect the proposed construction of an as-of-right 2 story community facility (UG 4) and an alteration pursuant to (§11-412) to reduce the ground floor warehouse space to accommodate 13 required accessory parking spaces for the proposed community facility use. R5 zoning district.

PREMISES AFFECTED – 1901 10th Avenue, southeast corner of East 19th Street and 10th Avenue, Block 890, Lot 1, Borough of Brooklyn.

COMMUNITY BOARD #7BK

5-28-BZ

APPLICANT – Eric Palatnik, P.C., for Steven Feldman, owner; Anwar Ismael, lessee.

SUBJECT – Application August 20, 2013 – Amendment (§11-413) of a previously approved variance which permitted the operation of an Automotive Service Station (UG 16B). The amendment seeks to change the use to a Car Rental Establishment (UG 8). R6 zoning district.

PREMISES AFFECTED – 664 New York Avenue, west side of New York Avenue, spanning the entire length of the block between Hawthorne Street and Winthrop Street, Block 4819, Lot 39, Borough of Brooklyn.

COMMUNITY BOARD #9BK

923-77-BZ

APPLICANT – Rothkrug Rothkrug & Spector LLP, for 1899-1905 McDonald Avenue Associates, LLC, owner.

SUBJECT – Application November 14, 2013 – Extension of Term of a previously approved Variance (§72-21) which permitted a one story manufacturing building which expired on May 31, 2013. R5 (OP) zoning district.

PREMISES AFFECTED – 1905 McDonald Avenue, east side of McDonald Avenue, 105 ft. south of Quentin Road, Block 6658, Lot 86, Borough of Brooklyn.

COMMUNITY BOARD #15BK

16-93-BZ

APPLICANT – Carl A. Sulfaro, for 110 Christopher Street, LLC, owner.

SUBJECT – Application November 15, 2013 – Extension of Term (§11-411) of a previously approved Variance (§72-21) which permitted retail (UG 6) in the cellar of an existing five (5) story and cellar multiple dwelling, which expires on February 23, 2014. R6 zoning district.

PREMISES AFFECTED – 110 Christopher Street, south side of Christopher street 192'-6.26 West of Bleeker Street, Block 588, Lot 51, Borough of Manhattan.

COMMUNITY BOARD #2M

APPEALS CALENDAR

164-13-A

APPLICANT – Slater & Beckerman, for Grand Imperial, LLC, owner.

SUBJECT – Application May 31, 2013 – Appeal seeking to reverse DOB determination not to issue a Letter of No Objection that would have stated that the use of the premises as Class A single room occupancy for periods of no less than one week is permitted by the existing Certificate of Occupancy. R10A zoning district.

PREMISES AFFECTED – 307 West 79th Street, northside of West 79th Street, between West End Avenue and Riverside Drive, Block 1244, Lot 8, Borough of Manhattan.

COMMUNITY BOARD #7M

ZONING CALENDAR

211-12-BZ

APPLICANT – Rothkrug Rohkrug & Spector LLP, for Jessica and Matthew Sheehan, owners.

SUBJECT – Application July 27, 2012 – Variance (§72-21) to permit the proposed re-establishment of residential building contrary to §42-00. M1-1 zoning district.

PREMISES AFFECTED – 164 Coffey Street, east side of Coffey Street, 100' northeast of intersection of Coffey Street and Conover Street, Block 585, Lot 39, Borough of Brooklyn.

COMMUNITY BOARD #6BK

64-13-BZ

APPLICANT – Law Office of Fredrick A. Becker, for Norma Chakkalo and Abdo Chakkalo, owners.

SUBJECT – Application February 11, 2013 – Special Permit (§73-622) for the enlargement of an existing single family home contrary to floor area, lot coverage and open space (ZR 23-141); side yards (ZR 23-461) and less than the required rear yard (ZR 23-47). R4 (OP) zoning district.

CALENDAR

PREMISES AFFECTED – 712 Avenue W, south side of Avenue W between East 7th Street and Coney Island Avenue, Block 7184, Lot 5, Borough of Brooklyn.

COMMUNITY BOARD #15BK

179-13-BZ

APPLICANT – Law Office of Fredrick A. Becker, for East 24 Realty LLC by Sarah Weiss, owner.

SUBJECT – Application June 19, 2013 – Special Permit (§73-622) for the enlargement of a single family home contrary to floor area, open space (§23-141); side yard (§23-461) and less than the required rear yard (§23-47). R2 zoning district.

PREMISES AFFECTED – 933-939 East 24th Street, East side of East 24th Street between Avenue I and Avenue J, Block 7588, Lot 29 & 31 (31 tentative), Borough of Brooklyn.

COMMUNITY BOARD #14BK

234-13-BZ

APPLICANT – Sheldon Lobel, P.C., for Dov Lipschutz, owner.

SUBJECT – Application August 16, 2013 – Variance (§72-21) for the enlargement of an existing two-family detached residence to be converted to a single-family home contrary to minimum front yard (§23-45(a)); and less than the required rear yard (ZR §23-47) minimum rear yard. Special Permit (§73-621) for an enlargement which is contrary to floor area (ZR 23-141). R3-2 zoning district.

PREMISES AFFECTED – 1653 Ryder Street, aka 1651 Ryder Street, Located on the northeast side of Ryder Street between Quentin road and Avenue P, Block 7863, lot 18, Borough of Brooklyn.

COMMUNITY BOARD #18BK

272-13-BZ

APPLICANT – Rothkrug Rothkrug & Spector, LLP, for 78-14 Roosevelt LLC, owner; Blink 78-14 Roosevelt, Inc., lessee.

SUBJECT – Application September 18, 2013 – Special Permit (§73-36) to permit a physical culture establishment (*Blink Fitness*) within a portions of an existing commercial building contrary to §32-10 zoning resolution. C2-3/R6 & R5 zoning district.

PREMISES AFFECTED – 78-02/14 Roosevelt Avenue aka 40-41 78th Street and 40-02 79th Street, south side of Roosevelt Avenue between 78th Street and 79th Street, Block 1489, Lot 7501, Borough of Queens.

COMMUNITY BOARD #4Q

Jeff Mulligan, Executive Director

MINUTES

**REGULAR MEETING
TUESDAY MORNING, JANUARY 14, 2014
10:00 A.M.**

Present: Chair Srinivasan, Vice-Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez.

SPECIAL ORDER CALENDAR

360-65-BZ

APPLICANT – Greenberg Traurig, LLP by Jay A. Segal, Esq., for Dalton Schools, Inc., owner.

SUBJECT – Application July 19, 2013 – Amendment of previously approved Variance (§72-21) and Special Permit (§73-64) which allowed the enlargement of a school (*Dalton School*). Amendment seeks to allow a two-story addition to the school building, contrary to an increase in floor area (§24-11) and height, base height and front setback (§24-522, §24-522)(b)) regulations. R8B zoning district.

PREMISES AFFECTED – 108-114 East 89th Street, midblock between Park and Lexington Avenues, Block 1517, Lot 62, Borough of Manhattan.

COMMUNITY BOARD #8M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Hinkson and Commissioner Montanez4
Absent: Commissioner Ottley-Brown.....1
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to a previously-granted variance pursuant to ZR § 72-21 and special permit pursuant to ZR § 73-641 which authorized the enlargement of the Dalton School (“Dalton”) contrary to bulk regulations; and

WHEREAS, a public hearing was held on this application September 24, 2013, after due notice by publication in the *City Record*, with a continued hearing on October 29, 2013, and then to decision on January 14, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 8, Manhattan, recommends disapproval of this application; and

WHEREAS, certain members of the community provided testimony in support of the application; and

WHEREAS, a representative of the Board of Directors of 1095 Park Avenue provided testimony that included neither support nor opposition to the application; the representative did note Dalton’s cooperation and ongoing efforts to mitigate the expansion’s impact on 1095 Park Avenue; and

WHEREAS, representatives from Carnegie Hill Neighbors, the Board of Managers of 111 East 88th Street, the Board of Directors of 1105 Park Avenue, and certain members of the surrounding community provided testimony in opposition to the application (the “Opposition”) citing the following concerns: (1) the effect of the expansion on neighboring properties with respect to natural light, ventilation, solar glare, shadows, noise, aesthetics, traffic during construction, and long-term property values; (2) the scale of the expansion in comparison to other mid-block, R8B buildings; (3) the fact that the site is already non-complying and has previously obtained bulk variances; (4) the absence of community outreach and Community Board support for the application; (5) the lack of an initial environmental assessment study (“EAS”) and the lack of time to review and respond to the EAS that was prepared; (6) the failure to address the (a), (c), and (e) findings of ZR § 72-21; (7) the misapplication of the Cornell doctrine for educational and religious institutions; (8) the precedent being set for other educational institutions within the mid-block contextual districts and citywide; and (9) the failure of Dalton to examine alternative sites and proposals; and

WHEREAS, the subject site is located mid-block on the south side of East 89th Street between Park Avenue and Lexington Avenue, in an R8B zoning district; and

WHEREAS, the site has 101.67 feet of frontage along East 89th Street and 10,235 sq. ft. of lot area; and

WHEREAS, the site is occupied by a 12-story building (“the Building”) used entirely for Dalton’s school purposes; and

WHEREAS, the Building, which was constructed in 1929 for Dalton, originally had ten stories with a small four-story portion at the rear; and

WHEREAS, in 1965, due to increased enrollment primarily from the inclusion of boys in the formerly all girls’ school, Dalton sought a variance and special permit, pursuant to the subject calendar number, to permit a single-story vertical extension of fenced-in areas on the roofs of the fourth story and tenth story; the enlargements constituted 10,720 sq. ft. of floor area, and increased the existing non-compliance related to FAR, front/rear setback, and sky exposure plane regulations under the then-R8 zoning; and

WHEREAS, the applicant states that the extension on the fourth-story roof was for an art studio, and the extension on the tenth-story roof created a double-height 11th story for a regulation-size gymnasium; and

WHEREAS, in the early 1990s, due to increased enrollment, Dalton sought additional classroom space; accordingly, on March 3, 1992, pursuant to the subject calendar number, Dalton obtained an amendment to the grant (the “Prior Amendment”) to allow the expansion within the Building’s envelope of the tenth-story library mezzanine and the insertion of a floor slab into the double-height gymnasium to convert the gymnasium into two new classroom floors (the 11th and 12th stories); the Prior Amendment allowed for 7,092 sq. ft. of additional floor area and required relief from FAR regulations under the current

MINUTES

R8B zoning (also height and setback relief attributed to minor work on the cornice and roof); the construction permitted by the Prior Amendment was completed in 1995; and

WHEREAS, accordingly, the applicant states that in the nearly 85 years since the Building was constructed, its envelope has been expanded only once, in 1965, pursuant to the variance; and

WHEREAS, the Building exists now within its 1965 building envelope, with the floor area increase granted by the Prior Amendment for 86,796 sq. ft. (8.48 FAR), 12 floors, and a total height of 143'-10"; and

WHEREAS, the applicant proposes to construct a two-story 12,164 sq. ft. enlargement above the 12th floor which will result in 98,960.4 sq. ft. of floor area (9.67 FAR), 14 floors, and a total height of 170'-5"; a rooftop greenhouse will add 6'-5" of height at its peak (the "Enlargement"); and

WHEREAS, the underlying R8B zoning district regulations allow for a maximum of 52,219 sq. ft. (5.1 FAR), a base height of 60 feet, and total height of 75 feet; and

WHEREAS, the applicant notes that Dalton occupies four buildings: 108-114 East 89th Street (the Building) occupied by the Upper School, comprising the Middle School (grades four through eight) and the High School (grades nine through twelve), totaling 929 students; 51-63 East 91st Street - The Lower School, comprising the First Program (kindergarten through third grade), totaling 376 students; 200 East 87th Street - The Physical Education Center; and 120 East 89th Street – offices; and

WHEREAS, the applicant represents that Dalton's enrollment has increased by only 25 students since the Board approved the Prior Amendment, but the curriculum has evolved such that it is necessary for Dalton to provide additional classroom space in the Building; and

WHEREAS, the applicant represents that the programmatic need for the enlargement is to develop Dalton's "STEM" program for science, technology, engineering and mathematics education, which is at the center of nationwide initiatives to transform education, from the primary grades through graduate school, by reemphasizing the science-based fields; and

WHEREAS, the applicant represents that Dalton is currently unable to offer the programming, particularly in technology and engineering to satisfy the goals of a competitive STEM curriculum; and

WHEREAS, specifically, for example, Dalton states that only 30 high school students are enrolled in the robotics course, which combines elements of engineering and computer science; and

WHEREAS, the applicant asserts that the modest enrollment is attributed to the lack of a specialized engineering space which would allow students to construct and test projects during the school day; instead, such work now must take place after school or on Saturdays, which deters students who are on a team sport or play an

instrument and have practices and games or other activities scheduled after school; and

WHEREAS, the applicant states that the need to construct and test robots after school causes additional difficulties; the robots are tested on a 12-ft. by 12-ft. robotics movement "field" where they perform their designed tasks; the applicant notes that because this activity occurs after normal school hours in the computer science classroom, the first and last half hours of each after-school session is spent setting up and dismantling the movement field; and

WHEREAS, the applicant states that the Enlargement would allow for a permanent movement field and eliminate the wasted set-up and dismantling time; also, without a specialized engineering space, robots have to be stored on the floor in the computer science classroom which limits the size of the robots that can be constructed and curtails Dalton's participation in FIRST, a not-for-profit organization devoted to helping young people discover and develop a passion for STEM; and

WHEREAS, as to computer science, the applicant states that a basic computer science class requires a room with computer stations and a space for group work on problems; Dalton currently has one such combined room for its entire computer science program thus it is occupied by classes during every available period and is used for Lab meetings during the other periods, such as lunch periods – Lab periods are especially critical in computer science classes due to the need for incremental adjustments to projects that require meetings between student and teacher with access to the equipment; and

WHEREAS, Dalton represents that in 2005, 43 of its high school students took computer science; in 2012, 203 of the 455 high school students signed up to take the course, but only 184 were able to be enrolled in 2013 due to space limitations; for 2014, 254 students have signed up and they expect even more students to sign up in the future; and

WHEREAS, the applicant states that with the complete utilization of Dalton's one computer science classroom, no additional students can take computer science, nor can Dalton offer any computer science classes to middle school students, or provide new computer science classes in a greater variety of subareas; and

WHEREAS, the applicant represents that to meet the demand for additional computer science classroom space, the Enlargement would have computer science classrooms adjacent to both the High School and Middle School Facilities; and

WHEREAS, additionally, Dalton cites to deficiencies in its science program with insufficient space for students to participate in long-term in-house research projects that can be performed in the Building; in 2013 only 12 of the 48 students who signed up to perform long-term in-house research projects could be so placed; the other 36 students could not perform experiments and had to limit their work to theory; and

WHEREAS, the applicant states that the proposed

MINUTES

Enlargement would contain two specialized robotics and engineering facilities, each of which takes up the space of approximately three regular classrooms, a long-term science research lab (approximately the size of two-to-three regular classrooms), and a greenhouse (approximately the size of three regular classrooms) (collectively, the “New Facilities”), which Dalton needs in order to correct the deficiencies in its STEM program; and

WHEREAS, the applicant submitted a matrix that shows the occupancy of each regular classroom, for each period, in each day of a typical school week during the most recent school year to support its point that the Building’s existing classrooms are fully utilized and there is no classroom space in the Building for new courses or additional sections of existing courses; thus, the Building’s classroom space cannot be converted into the New Facilities; and

WHEREAS, the matrix reflects that regular classrooms are occupied during 74.88 percent of the periods in a school week, but notes that in the periods in which these classrooms are not being used for a class, students who would otherwise use these rooms are at lunch, gym or assembly, so that when accounting for these periods, the adjusted weekly-utilization rate for regular classrooms is 89.83 percent; and

WHEREAS, the applicant represents that during the approximately 10 percent of periods when the rooms could be used by classes, they are usually occupied by teachers and students engaged in Lab meetings, either because access to materials in the classroom is needed, or because there is insufficient faculty office space for these meetings to occur elsewhere; and

WHEREAS, the applicant represents that the nearly 90 percent adjusted-utilization rate of Dalton’s regular classrooms is very high and it would be difficult to increase the rate because it would be very hard to match the scattered room availability with both student and teacher availability; and

WHEREAS, the applicant also states that there is not any other non-classroom space that can be converted for the STEM use and there is not any space in Dalton’s other buildings available for the STEM use; and

WHEREAS, the applicant notes the following specific use of the Enlargement: two stories with approximately 12,200 sq. ft. of floor area; the 13th floor, containing approximately 6,100 sq. ft. of floor area, would have an approximately 480 sq. ft. machine room (the “Machine Room”), an approximately 1,200 sq. ft. high school robotics/engineering laboratory (the “High School Engineering Lab,” and together with the Machine Room, collectively, the “High School Facility”), an approximately 420 sq. ft. high school computer science classroom, an approximately 950 sq. ft. middle school robotics/engineering lab (the “Middle School Facility”) and an approximately 500 sq. ft. middle school computer science classroom; the 14th floor, also approximately 6,100 sq. ft., would contain an approximately 1,300 sq. ft. greenhouse, an approximately

1,200 sq. ft. science research lab, and three classrooms, each approximately 460 sq. ft.; and

WHEREAS, the applicant states that the High School Facility would include fabrication laboratory equipment (the “Fab Lab”), prototyping (assembly) space, a robotics area, engineering equipment, and a machine room; and

WHEREAS, the applicant states that the High School Facility will allow Dalton to meet the following primary goals: allow 85 to 110 high school students to take robotics if both the lecture and construction components of the course were provided during the school day, rather than after school and on weekends; allow students to enter competitions with the space to construct larger projects such as solar cars and gravity vehicles; to offer a variety of engineering electives, such as biological and electrical engineering, which require such a facility to construct and test projects; to offer, as an accredited course, participation in the Science Olympiad, a citywide competition combining engineering and science; and to integrate art into its STEM program by offering new courses such as Computer Science and Art (Graphics) which need to utilize the specialized Fab Lab equipment; and

WHEREAS, additionally, the new facility will allow middle school students access to robotics and engineering classes, including the Fab Lab; sufficient space to undertake long-term research projects; new science electives such as Quantum Mechanics, Advanced Environmental Science, Evolutionary Ecology, Astronomy II, Electronics, and Marine Biology that require lab projects; and

WHEREAS, finally, the Enlargement will include a greenhouse to be used for (1) Dalton’s Environmental Science class for food and agricultural studies and experiments with nutrient recycling and energy conservation, (2) biology classes, for studies on plant function and growth, (3) other classes that have units on plants or sunlight, and (4) Middle School and High School environmental clubs; and

WHEREAS, the applicant represents that the proposal will further Dalton’s programmatic needs without affecting any of the findings of the original variance grant; and

WHEREAS, the applicant further represents that the proposed facility is unable to be accommodated within Dalton’s other buildings: specifically (1) in 200 East 87th street where Dalton leases the lowest five floors, an enlargement is infeasible as the floors above are occupied by co-op apartments; (2) in 120 East 89th street where Dalton leases office space, the lease expires in 2020, and any additional space would be in doubt at the time the lease expires; and (3) expansion space off-site would not meet the programmatic needs because travelling to off-site location diminishes class time; and

WHEREAS, , the applicant states that the New York State Court of Appeals has held that in a residential district educational institutions cannot be required to show an affirmative need to expand as a condition precedent to the issuance of a discretionary approval by a zoning board. *See, e.g., Cornell University v. Bagnardi*, 68 N.Y.2d 583 (1986);

MINUTES

Lawrence School Corp. v. Lewis, 578 N.Y.S.2d 627 (N.Y.A.D. 2 Dept., 1992); and

WHEREAS, the applicant adds that the Cornell court also held that because “schools, public, parochial, and private, by their very nature, singularly serve the public’s welfare and morals,” zoning boards in New York should allow schools to expand into residential areas unless a particular proposed expansion “would unarguably be contrary to the public’s health, safety or welfare.” Id. at 593, 595; and

WHEREAS, the applicant asserts that Cornell crystallized the Court of Appeals’ long-standing presumption in favor of educational and religious uses in residential areas. See Diocese of Rochester v. Planning Bd. of Town of Brighton, 1 N.Y.2d 508, 526 (1956) (“schools and accessory uses are, in themselves, clearly in furtherance of the public morals and general welfare”); and

WHEREAS, further, the applicant asserts that under the State’s standard, the court has held that, for example, the potential adverse impacts on “use, enjoyment and value of properties in the surrounding areas” and on “the prevailing character of the neighborhood” are “insufficient bas[e]s on which to preclude” the substantial expansion of a religious facility in a residential neighborhood. Westchester Reform Temple v. Brown, 22 N.Y.2d 488, 494 (1968); and

WHEREAS, the applicant asserts that the proposed variance would allow Dalton to add 12,200 sq. ft. of instructional and research space in two additional floors at the top of the Building; the Enlargement will not lead to an increase in enrollment, nor will it result in additional traffic in the area; the principal affect will be on the eastern views of apartments on the top floors of 1095 Park Avenue, the building to the immediate west; and

WHEREAS, the applicant states that the Building’s configuration constitutes a unique physical condition on the zoning lot, which causes Dalton practical difficulties and unnecessary hardship that prevent Dalton from being able to carry out its proposed program in the Building, particularly in the STEM areas; and

WHEREAS, the applicant notes that construction of the Enlargement would increase the Building’s non-compliance with, and requires relief from, the applicable maximum base height, maximum building height, front setback, rear setback, and FAR requirements of the Zoning Resolution, but that strict application of the Zoning Resolution would serve no public purpose and would operate as a severe constraint on Dalton’s functioning as an academic institution; and

WHEREAS, the applicant asserts that its hardship is not one that is generally applicable to uses located in the neighborhood in which the zoning lot is located, which is predominately residential in nature; and

WHEREAS, specifically, the applicant notes that there is only one other school within 400 feet of the site, PS M169 (Robert F. Kennedy School), directly south of the site, at 110 East 88th Street, which occupies the lower floors of a 38-story residential tower; and

WHEREAS, the applicant asserts that the proposed Enlargement would not be contrary to the public’s health, safety or welfare and that it would not alter the essential visual character of the neighborhood; and

WHEREAS, the applicant asserts that because the Enlargement is designed to serve the existing school enrollment, there will be no resulting increase in the use of the Building, and thus no increase in pedestrian or vehicular traffic in the area; and

WHEREAS, as to bulk, the applicant notes that increasing the stories in the Building from 12 to 14 would raise its height by 26’-7” to 170’-5”;

WHEREAS, the applicant submitted an area map and a table which identify other buildings with comparable heights within a 400-ft. radius of the site; and

WHEREAS, the analysis reflects that of the 152 buildings shown, from 85th Street to 91st Street between Lexington and Madison avenues, there are 45 buildings with more than 13 stories, including two on the Building’s block—the property immediately to the west of the Building, 1095 Park Avenue, which has 18 stories and extends approximately 50 feet into the R8B district, and the building on the southeast corner of the Building’s block, 1085 Park Avenue, which is 15 stories; there are also five buildings with more than ten stories, and nine with more than seven stories; and

WHEREAS, the applicant asserts that the development of adjacent property will not be substantially impaired should the amendment be granted because the principal impact of the Enlargement will be on the eastern views from and light and air to the windows on the upper stories of 1095 Park Avenue, the building immediately to the west; and

WHEREAS, the applicant notes that 1095 Park Avenue is an 18-story building, with its zoning lot having 159 feet of frontage on East 89th Street, the western 100 feet are in an R10 district, and the remaining 59 feet, including the portion in which the affected windows are located, are in the same R8B district as the Building; and

WHEREAS, the applicant notes that the Enlargement and the elevator bulkhead would be between 9’-0” and 14’-10” from the affected windows in 1095 Park Avenue and the acoustic screen on the roof of the Enlargement would be approximately 25 feet away from the affected windows; and

WHEREAS, the applicant notes that the Enlargement, the elevator bulkhead, and the presence of the screen would adversely affect the views from and light and air to windows on the 15th through 18th floors, and would obstruct the light and air to some windows on the 14th floor of 1095 Park Avenue; and

WHEREAS, however, the applicant asserts that under the relevant legal standards the obstruction of the views from and light and air to the affected windows should not be considered contrary to the public’s health, safety or welfare; and

WHEREAS, the applicant notes that the Enlargement will also be visible from 13 other comparably-sized buildings; and

MINUTES

WHEREAS, the applicant notes that the Enlargement will be fully enclosed and no student access will be permitted on the roof; therefore, there will be no affect with respect to noise from the Enlargement on adjacent properties; and

WHEREAS, the applicant asserts that the Enlargement will contain aspects that will contribute positively to the neighborhood, aesthetically and environmentally including an attractive brick façade to replace the current stucco-facing of the 11th and 12th floors, to match the façade of the Enlargement and the rest of the Building; and

WHEREAS, at the Board's request, the applicant identified all of its mitigation measures for sound and other potential impacts to surrounding buildings; such measures include: (1) replacement of stucco with brick on the existing top two stories, (2) enclosure of existing exposed ductwork, (3) installation of more efficient mechanical equipment and acoustic screens for noise reduction, (4) elimination of west-facing windows on the enlargement in response to 1095 Park Avenue's concerns, (5) lighting controls within the building to turn off lights when unoccupied and use of the greenhouse grow lights only during daylight hours, (6) elimination of the western stair bulkhead and water tower and reduction in height of the elevator bulkhead from 15 feet to 13 feet, (7) prohibition of the use of the roof by children, and (8) the provision of green roof and plantings on vertical surfaces visible from 1095 Park Avenue; and

WHEREAS, the applicant states that in granting the Prior Amendment, the Board made the required findings under ZR §§ 72-21, 73-03, 73-64 and 73-641 of the Zoning Resolution and that the proposed amendment does not disturb any of the prior findings; and

WHEREAS, the Opposition asserts that the application should have been filed as a new variance application instead of as an amendment on the Special Order Calendar, and it cites Westwater v. New York City Bd. of Stds. and Appeals, 2013 N.Y.Misc Lexis 4707 (1st Dept 2013) and Fisher v. New York City Bd. of Stds. and Appeals, 71 AD2d 126, 127 (1st Dept 2002) for the principle that only site changes that would be permitted as-of-right but for the prior variance—"minor" or "ministerial" changes—are properly reviewed as amendments to a variance; all other changes, the Opposition states, must be reviewed as new variance applications; as such, the Opposition states that the proposal, which would not be permitted as-of-right, was improperly filed as an amendment; and

WHEREAS, additionally, the Opposition asserts that the EAS is deficient in the following respects: (1) it fails to acknowledge that the expansion results in a building that is more similar to the adjacent R10 district than to Dalton's mid-block R8B district; (2) the shadow study addressed the incremental impact of the expansion rather than the impact of the Building as a whole; (3) the urban design analysis erroneously compared Dalton to Park Avenue building rather than buildings within the mid-block R8B; (4) the air quality study did not include the effects of the expansion on buildings other than 1089 Park Avenue; (5) the construction

impacts discussion ignores the fact that work will have to be performed outside of school hours; (6) the EAS does not address that this is the third variance application filed at the site; and (7) the Opposition also takes exception with the timing of the submission of the EAS, and states that it is contrary to SEQRA's goal of incorporating environmental considerations into the decision making process at the earliest opportunity; and

WHEREAS, finally, the Opposition asserts that the application ignores the requirements of ZR § 72-21(a), (c), and (e) in that: (1) the application does not articulate a unique physical condition inherent on the zoning lot that creates a practical difficulty in developing in accordance with the zoning regulations; (2) the application does not demonstrate how the expansion outweighs the detrimental impact on the general welfare of the surrounding community; and (3) the application includes no alternative development proposals and provides no details of the use of the building that would enable to Board to make a finding that the proposal is the minimum variance necessary; and

WHEREAS, the applicant responded to the following primary concerns raised by the Opposition (1) the assertions about the requirement for, substance of, and procedure of the EAS; (2) the incompatibility of the Enlargement with the character of the neighborhood; (3) the scope of the Enlargement and its nature as a third approval for the Building; and (4) the limitations of the case law deference afforded to educational institutions; and

WHEREAS, as to the Opposition's concerns about the form of the application and the requirement for an EAS, the applicant notes that such claims are rendered moot by its submission of an EAS; and

WHEREAS, specifically, the applicant notes that it submitted an EAS in a manner which afforded the Opposition and the Community Board in excess of 70 days to review and respond; and

WHEREAS, the applicant asserts that the Community Board has been afforded more time to review the EAS than if it had been submitted with the initial application because if the EAS had been submitted along with the initial application, it is unlikely that the Community Board would have had the opportunity to review critiques of the EAS as provided by the Opposition's consultants and likely that it would not have had more than 60 days to review; and

WHEREAS, the applicant notes that the Opposition reviewed and submitted a lengthy response to the EAS for the Board's consideration; and

WHEREAS, as to the Opposition's concerns related to alleged deficiencies in the EAS, the applicant asserts that they are without merit and that the EAS was conducted in full accordance with the methodologies set forth in the City's CEQR Technical Manual; and

WHEREAS, the applicant notes that it submitted the EAS to the Community Board more than 60 days prior to the Board's scheduled decision date, which is consistent with the 60-day period that the Community Board has to review new applications prior to the Board's first hearing; and

MINUTES

WHEREAS, as to the Opposition's concerns about the EAS being submitted after the application had already been initially reviewed, the applicant notes that those concerns were raised prior to the revision of the submission schedule which allowed the Community Board and the Opposition more than 60 days to review and comment on the EAS; and

WHEREAS, as to the Opposition's concerns about the Land Use, Public Policy and Zoning Section of the EAS, the applicant notes that the Opposition's consultant concedes that the EAS "examines direct impacts" of the variance, but contends that it "ignores the possibility of indirect impacts" such as the potential that a variance granted for this project may lead to similar variances for other facilities in the R8B district; and

WHEREAS, the applicant notes that the CEQR Technical Manual requires a study of indirect impacts of an action only when a site-specific change "is important enough to lead to changes in land use patterns over a wider area" but does not require a study of indirect impacts that are speculative; and

WHEREAS, the applicant notes that as to the Opposition's concerns about the character of the R8B zoning in the mid-block, 11 other buildings in the midblocks between Park and Lexington avenues and East 87th Street and the north side of East 90th Street exceed the 75-ft. height limit of the R8B zoning district, with seven of them having heights of 150 feet or greater; and

WHEREAS, accordingly, the applicant asserts that the proposed Enlargement, which would increase the height of the Building from 143'-10" to 170'-5", would not be out of context with the midblocks in its vicinity; and

WHEREAS, in response to the Opposition's concerns regarding outreach, and questions raised by the Board, the applicant described its prior outreach to the community, including the neighbors at 1095 Park Avenue and performed additional outreach including displaying a model of the Building to 1105 Park Avenue; and

WHEREAS, as to the specific impact alleged by 1105 Park Avenue that the Enlargement would have a significant adverse effect on views from 1105 Park Avenue's south and east facing windows and would cast shadows on its façade, the applicant asserts that the Enlargement would only be visible from these windows at oblique angles at distances ranging from 80 to 160 feet (based on distances shown on the Sanborn Map); and

WHEREAS, as to the Opposition's claims that the applicant failed to provide an analysis of alternative sites, the applicant states that, following Cornell, such a discussion would be inappropriate; the court stated that "[a] requirement of a showing of need to expand, or even more stringently, a need to expand to the particular location chosen, however, has no bearing whatsoever upon the public's health, safety, welfare or morals. The imposition of such a requirement, or any other requirement unrelated to the public's health, safety or welfare, is, therefore, beyond the scope of the municipality's police power, and thus, impermissible" Cornell at 597 (citations omitted); and

WHEREAS, first, as to procedure, the Board notes that (1) New York State courts have recognized the Board's authority to establish which hearing calendar and application type is appropriate for proposals under its consideration; (2) the content of the application and the Board's analysis, rather than the calendar designation, guide the Board's review; (3) although the application was filed on the Special Order Calendar, the applicant satisfied the requirements of a variance application including specifically notification of neighbors and the submission of an EAS; and (4) the Board reviewed the application with the same degree of rigor it would had it been a new variance application; and

WHEREAS, the Board agrees with the applicant that the Opposition's case law cited in support of the timing concern is not persuasive as one case holds that environmental review must occur prior to the action by the governmental body, which is consistent with the Board's review here prior to acting on the subject application See City Council of City of Watervilet v. Town Board of Colonie, 3 N.Y. 3d 508 (2004); and

WHEREAS, as to the Opposition's assertion that the EAS should have examined the cumulative impacts of the subject application along with Dalton's two prior grants, which were granted 22 and 49 years ago, respectively, the Board agrees with the applicant that there is not any support for this contention in the CEQR Technical Manual or in Save the Pine Bush v. Albany, 70 N.Y. 2d 193, 206 (1987), which pertains to the cumulative impact of three actions to a single property over 49 years; and

WHEREAS, the Board notes that its Rules of Practice and Procedure do not require that an EAS be submitted for applications on the Special Order Calendar, but that the applicant volunteered to prepare an EAS to respond to concerns the Opposition raised and that it followed the requirements of the CEQR Technical Manual; and

WHEREAS, the Board notes that the applicant submitted the EAS to the Opposition and the Community Board more than 70 days in advance of the Board's decision, which is more time than the Community Board has in a standard application process; and

WHEREAS, the Board has considered the relevant findings and concludes that the proposal does not disturb any of the findings of the original variance or special permit; and

WHEREAS, the Board accepts the programmatic needs as legitimate and finds that the applicant has sufficiently described the specific needs for the proposed new floors and articulated a clear need for all of the proposed floor area; and

WHEREAS, the Board accepts the applicant's representations that the proposed space is necessary to accommodate the STEM programming, allow more students to participate in the programming, and to relieve the nearly 90 percent utility of the existing classrooms which constrains school-wide scheduling; and

WHEREAS, the Board notes that the streetwall, height and setback waivers are necessary so that the Building may

MINUTES

follow the institutional model of uniform floor plates to promote efficiencies and have floor to floor heights that are appropriate for classroom and laboratory use and can accommodate building services; and

WHEREAS, the Board also agrees with the applicant that Cornell does not allow for a zoning board to require an educational institution to analyze alternate sites and finds that the applicant has sufficiently satisfied its minimum requirements to accommodate its programmatic needs; and

WHEREAS, as to the compatibility of the proposed use and bulk, the Board notes that the applicant does not propose to increase enrollment and, thus, the current use will be maintained; and

WHEREAS, the Board finds that the amendments including the additional 12,xxx square feet and the additional two stories and 27 feet in height will still allow the subject building to meet the © finding; and

WHEREAS, , the Board notes that the original ten-story building did not comply with the floor area or sky exposure plane at the sixth floor when the R8 zoning district regulations were imposed in 1961; and

WHEREAS, accordingly, as of 1961, before any Board action, there was not any as-of-right enlargement available to the pre-existing non-complying Building, which was originally constructed to a height in excess of 119'-3" and 6.5 FAR; and

WHEREAS, since its construction in 1929, the building also has never had a height of FAR that would comply with the 75-ft. of 5.1 community facility FAR R8B regulations which has been in effect since the 1985 rezoning of the mid-block; and

WHEREAS, the Board does not find that it is appropriate to measure any enlargement to the Building against the R8B building envelope since the current non-complying building envelope has existed since 1965; thus, the true incremental increase is from the existing 1965 building envelope with height of 143'-10" (the envelope was built to accommodate 7.7 FAR, which was increased to the existing 8.48 FAR); and

WHEREAS, the Board notes that if the Building's existing non-complying conditions established in 1965 are used as a base line, rather than the R8B envelope, the height increment is 27 feet versus 95 feet and thus a much more reasonable change than the Opposition suggests; and

WHEREAS, the Board notes that 1095 Park Avenue, which is adjacent to the school building, extends approximately 50 feet into the subject R8B midblock has an even greater degree of non-compliance with a height of 192 feet; and

WHEREAS, as a result, on the south side of the midblock where the subject site is located, the adjacent 1095 Park Avenue and the Building create a built condition with an existing non-compliance to FAR and height that extends 150 feet into the 200-ft. length of the East 89th Street midblock; and

WHEREAS, the Board further notes that the surrounding midblocks, particularly to the south (between East

85th and 88th streets between Lexington and Park avenues) and to the east (between East 88th and East 89th streets between Park and Madison avenues) are zoned for 10.0 FAR (R10 equivalent) and allow building heights of 185 feet under the contextual envelope; and

WHEREAS, the Board finds that because of the existing and surrounding context, which is more similar to an R10 equivalent context than R8B, the proposed total 9.67 FAR and 170-ft. height are appropriate; and

WHEREAS, as to the Opposition's concerns that the Enlargement will have a negative impact on surrounding buildings, the Board notes that the direct impact is on 1095 Park Avenue and that Dalton has worked with its neighbor to resolve concerns and to provide mitigation measures to lessen impact, to the extent that its Board of Directors did not oppose the project; and

WHEREAS, the Board notes that the affected windows at 1095 Park Avenue are themselves above the maximum building height of 75 feet in the R8B district as 1095 Park Avenue has 18 stories and, further that, 1105 Park Avenue has 15 stories with an oblique view of the Enlargement; and

WHEREAS, the Board agrees with the applicant that under the relevant legal standards, the obstruction of the views from the 1095 Park Avenue windows is not a sufficient justification for denying the subject application; and

WHEREAS, as to the question of whether the proposal represents the minimum variance, the Board reiterates that the applicant has established that the request for the Enlargement is required by Dalton's legitimate programmatic needs; and

WHEREAS, the Board while recognizing the legitimate concerns raised by the Opposition regarding the degree of waivers requested for the proposed action, does not believe that the approval of such action will set a precedent for future variance applications in the midblock; and

WHEREAS, specifically, the Board reviews each case based on its unique factors and context in determining the appropriateness of floor area and height and setback waivers as well as the neighborhood character finding; and

WHEREAS, the Board finds that proposed the Enlargement, given certain unique factors and context cited above, would not change the essential character of neighborhood; and

WHEREAS, the Board notes that the applicant represents that Dalton does not have plans to enlarge the Building again in the future, and the Board is concerned that any future enlargement may exceed an appropriate building height and floor area for the neighborhood and may disturb the variance findings; and

WHEREAS, the Board notes that the applicant states that Dalton does not plan to increase its enrollment; thus, the Board finds that the Building with the proposed Enlargement will relieve the high demand for classroom space and allow flexibility in the future to accommodate new programmatic needs as they arise such that additional enlargements would not be warranted; and

WHEREAS, based upon the above, the Board has

MINUTES

determined that the evidence in the record supports a grant of the requested amendment with the conditions listed below.

Therefore it is Resolved, that the Board of Standards and Appeals reopens and amends the resolution, dated June 8, 1965, to grant the noted modifications to the previous approval; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked 'Received October 9, 2013'- (10) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the enlarged Building: a maximum of 14 stories, a height of 170'-5", and 98,960 sq. ft. of floor area (9.67 FAR), as reflected on the BSA-approved plans;

THAT all proposed mitigation measures, including (1) replacement of stucco with brick on the existing top two stories, (2) enclosure of existing exposed ductwork, (3) installation of more efficient mechanical equipment and acoustic screens for noise reduction, (4) elimination of west-facing windows on the enlargement, (5) installation of lighting controls within the building to turn off lights when unoccupied and use of the greenhouse grow lights only during daylight hours, (6) elimination of the western stair bulkhead and water tower and reduction in height of the elevator bulkhead from 15 feet to 13 feet, (7) prohibition of the use of the roof by children, and (8) the provision of green roof and plantings on vertical surfaces visible from 1095 Park Avenue will be installed and maintained in accordance with the BSA-approved plans;

THAT any change in the use or operator of the Building is subject to Board approval;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, January 14, 2014.

68-94-BZ

APPLICANT – Troutman Sanders LLP, for Bay Plaza Community Center, LLC, owner; Bally's Total Fitness of Greater New York

SUBJECT – Application September 10, 2013 – Extension of Term of a Special Permit (§73-36) for the continued operation of a physical culture establishment (*Bally's Total Fitness*) which expires on November 1, 2014; Extension of Time to obtain a Certificate of Occupancy which expired on September 11, 2013; waiver of the Rules. C4-3/M1-1 zoning district.

PREMISES AFFECTED – 2100 Bartow Avenue, bounded

by Bay Plaza Blvd. Co-Op City Blvd, Bartow Avenue and the Hutchinson River Parkway, Block 5141, Lot 810, Borough of Bronx.

COMMUNITY BOARD #10BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Hinkson and Commissioner Montanez4

Absent: Commissioner Ottley-Brown.....1

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, an amendment, an extension of term for a physical culture establishment ("PCE"), which expires on November 1, 2014, and an extension of time to obtain a certificate of occupancy, which expired on September 11, 2013; and

WHEREAS, a public hearing was held on this application on December 10, 2013, after due notice by publication in *The City Record*, and then to decision on January 14, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, Community Board 10, Bronx, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of Bartow Avenue, between Baychester Avenue and the Hutchinson River Parkway, within a C4-3 zoning district; and

WHEREAS, the PCE is located on a portion of the first and second floors of the Co-Op City Bay Plaza shopping center and occupies 20,350 sq. ft. of floor area; and

WHEREAS, the PCE is operated as Bally Total Fitness; and

WHEREAS, on November 1, 1994, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-36, to permit, in a C4-3 district, the operation of a PCE for a term of ten years; and

WHEREAS, on April 12, 2005, the grant was extended for a term of ten years, to expire on November 1, 2014; and

WHEREAS, subsequently, the grant has been amended on various occasions; and

WHEREAS, most recently, on September 11, 2012, the Board granted a one-year extension of time to obtain a certificate of occupancy, which expired on September 11, 2013; and

WHEREAS, the applicant now seeks to extend the term of the PCE special permit for ten years and to extend the time to obtain a certificate of occupancy for one year; and

WHEREAS, in addition, the applicant seeks an amendment to reflect a minor increase in the size of the PCE from the previously-approved 20,290 sq. ft. of floor area to 20,350 sq. ft. of floor area; and

WHEREAS, as to the extension of time, the applicant represents that its application to the Department of Buildings

MINUTES

for a certificate of occupancy for the PCE is pending and that it has been delayed by the existence of open violations within the shopping center unrelated to the PCE; and

WHEREAS, as to the amendment, the applicant states that the discrepancy was recently discovered and is reflected in the proposed plans; and

WHEREAS, based upon its review of the record, the Board finds that an extension of term for ten years, an extension of time to obtain a certificate of occupancy, and the noted amendment to the plans are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated November 1, 1994, so that as amended the resolution reads: “to grant an extension of the special permit for a term of ten years, to expire on January 14, 2024 and to grant an extension of time to obtain a certificate of occupancy to January 14, 2015”; *on condition* that all work and site conditions shall comply with drawings marked ‘Received December 13, 2013’- (3) sheets; and *on further condition*:

THAT this grant will be limited to a term of ten years, to expire on November 1, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior approval from the Board;

THAT all massages must be performed only by New York State licensed massage professionals;

THAT the above conditions will appear on the certificate of occupancy;

THAT a certificate of occupancy will be obtained by January 14, 2015;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, January 14, 2014.

358-02-BZ

APPLICANT – Law Office of Fredrick A. Becker, 200 Park, LLP, for TSI Grand Central Incorporated d/b/a New York Sports Club, lessee.

SUBJECT – Application September 23, 2013 – Extension of Term of a Special Permit (§73-36) for the continued operation of a physical culture establishment in a multi-story commercial, retail and office building, which expired on June 3, 2013; Waiver of the Rules. C5-3 (MID) zoning district.

PREMISES AFFECTED – 200 Park Avenue, south side of East 45th Street, between Vanderbilt Avenue and Dewey Place, Block 1280, Lot 10, Borough of Manhattan.

COMMUNITY BOARD #5M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Hinkson and Commissioner Montanez4

Absent: Commissioner Ottley-Brown.....1

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, and an extension of term for a physical culture establishment (“PCE”), which expired on June 3, 2013; and

WHEREAS, a public hearing was held on this application on December 10, 2013, after due notice by publication in *The City Record*, and then to decision on January 14, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 5, Manhattan, declined to issue any recommendation regarding this application; and

WHEREAS, the subject site is located on the south side of East 46th Street, between Park Avenue and Depew Place, within a C5-3 zoning district within the Special Midtown District (MiD); and

WHEREAS, the site is occupied by a 59-story commercial building, which is commonly known as the MetLife Building; and

WHEREAS, the PCE is located on a portion of the first and second floors of the building and occupies 20,835 sq. ft. of floor area; and

WHEREAS, the PCE is operated as New York Sports Club; and

WHEREAS, on June 3, 2003, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-36, to permit, in a C2-5 zoning district, the operation of a PCE for a term of ten years; and

WHEREAS, the applicant now seeks to extend the term of the PCE special permit for ten years; and

WHEREAS, at hearing, the Board requested clarification regarding whether massages were being performed at the PCE; and

WHEREAS, in response, the applicant submitted amended plans noting that no massages would be performed at the PCE; and

WHEREAS, based upon its review of the record, the Board finds that an extension of term for ten years is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated June 3, 2003, so that as amended the resolution reads: “to grant an extension of the special permit for a term of ten years, to expire on June 3, 2023; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked ‘Received December

MINUTES

23, 2013’ - (4) sheets; and *on further condition:*

THAT this grant will be limited to a term of ten years, to expire on June 3, 2023;

THAT there will be no change in ownership or operating control of the PCE without prior approval from the Board;

THAT the above conditions will appear on the certificate of occupancy;

THAT a certificate of occupancy will be obtained by January 14, 2015;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, January 14, 2014.

APPLICANT – Law Office of Fredrick A. Becker, Esq., for 980 Madison Owner LLC, owner; Exhale Enterprises, Inc., lessee.

SUBJECT – Application September 12, 2013 – Extension of Term of a Special Permit (§73-36) for the continued operation of a physical culture establishment (*Exhale Spa*) which expired on November 5, 2013. C5-1 (MP) zoning district.

PREMISES AFFECTED – 980 Madison Avenue, west side of Madison Avenue between East 76th Street and East 77th Street, Block 1391, Lot 14, Borough of Manhattan.

COMMUNITY BOARD #5M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Hinkson and Commissioner Montanez4

Absent: Commissioner Ottley-Brown.....1

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for an extension of term for a physical culture establishment (“PCE”), which expired on November 5, 2013; and

WHEREAS, a public hearing was held on this application on December 10, 2013, after due notice by publication in *The City Record*, and then to decision on January 14, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 8, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of Madison Avenue, between East 76th Street and East 77th

Street, within a C5-1 zoning district within the Special Madison Avenue Preservation District within the Upper East Side Historic District; and

WHEREAS, the site is occupied by a five-story commercial building; and

WHEREAS, the PCE is located on a portion of the second floor of the building and occupies 7,700 sq. ft. of floor area; and

WHEREAS, the PCE is operated as Exhale Spa; and

WHEREAS, on November 5, 2003, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-36, to permit, in a C5-1 district, the operation of a PCE for a term of ten years; and

WHEREAS, the applicant now seeks to extend the term of the PCE special permit for ten years; and

WHEREAS, at hearing, the Board requested clarification regarding an open elevator violation from the Department of Buildings (“DOB”); and

WHEREAS, in response, the applicant submitted a DOB record indicating that the elevator violation was dismissed on December 10, 2013; and

WHEREAS, based upon its review of the record, the Board finds that an extension of term for ten years is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated November 5, 2003, so that as amended the resolution reads: “to grant an extension of the special permit for a term of ten years, to expire on November 5, 2023; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked ‘Received December 23, 2013’ - (5) sheets; and *on further condition:*

THAT this grant will be limited to a term of ten years, to expire on November 5, 2023;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT there will be no change in ownership or operating control of the PCE without prior approval from the Board;

THAT the above conditions will appear on the certificate of occupancy;

THAT a certificate of occupancy will be obtained by January 14, 2015;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, January 14, 2014.

APPLICANT – Herrick, Feinstein LLP by Arthur Huh, for 70 Wyclkoff LLC, owner.

SUBJECT – Application October 23, 2013 – Extension of Time to Obtain a Certificate of Occupancy for a previously granted Variance (§72-21) for the legalization of residential units in a manufacturing building, which expired on September 27, 2013. M1-1 zoning district.

PREMISES AFFECTED – 70 Wyckoff Avenue, southeast corner of Wyckoff Avenue and Suydam Street, Block 3221, Lot 31, Borough of Brooklyn.

COMMUNITY BOARD #4BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Hinkson and Commissioner Montanez4
Absent: Commissioner Ottley-Brown.....1
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of time to obtain a certificate of occupancy for a four-story residential building; and

WHEREAS, a public hearing was held on this application on November 26, 2013, after due notice by publication in *The City Record*, and then to decision on January 14, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examination by Chair Srinivasan, Vice-Chair Collins, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the site is located on the southeast corner of Wyckoff Avenue and Suydam Street, within an M1-1 zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since June 23, 2009 when, under the subject calendar number, the Board granted a variance to legalize the residential conversion of an existing four-story manufacturing building; a condition of the grant was that a new certificate of occupancy be obtained by December 23, 2009; and

WHEREAS, most recently, on September 27, 2011, the Board granted an extension of time to obtain a certificate of occupancy, which expired on September 27, 2013; and

WHEREAS, the applicant now seeks an additional extension of time to obtain a certificate of occupancy; and

WHEREAS, the applicant represents that delays resulting from the need to resolve Department of Buildings (“DOB”) objections, obtain permits to implement DOB requirements, complete the required physical changes, and schedule the required DOB inspections prevented the owner from obtaining a new certificate of occupancy within the prescribed time frame; and

WHEREAS, the applicant states that the latest delay is due to DOB’s requirement of a full overhaul of the central boiler system, including the installation of separate systems

for hot water and for baseboard heating and all related piping; and

WHEREAS, accordingly, the applicant now requests an additional three years to obtain a certificate of occupancy; and

WHEREAS, at hearing, the Board requested clarification regarding whether permits had already been obtained for the required work and whether tenants would be displaced during such work; and

WHEREAS, in response, the applicant stated that permits have been obtained for the required work and that tenants will not be displaced while the work proceeds; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to obtain a certificate of occupancy is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated June 23, 2009, so that as amended this portion of the resolution shall read: “to grant an extension of time to obtain a certificate of occupancy to September 27, 2016; *on condition* that the use and operation of the site shall comply with BSA-approved plans associated with the prior grant; and *on further condition*:

THAT a certificate of occupancy will be obtained by September 27, 2016;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB Application No. 310199969)

Adopted by the Board of Standards and Appeals January 14, 2014.

condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins,
Commissioner Hinkson and Commissioner Montanez4
Absent: Commissioner Ottley-Brown.....1
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to a special permit for the operation of a physical culture establishment (“PCE”); and

WHEREAS, a public hearing was held on this application on November 26, 2013, after due notice by publication in *The City Record*, and then to decision on January 14, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Commissioner Hinkson; and

WHEREAS, the subject site is located on the northeast corner of the intersection of Berry Street and North Third Street, within an M1-2/R6B (MX-8) zoning district; and

WHEREAS, the site is occupied by a five-story mixed commercial and residential building; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 10, 2012 when, under the subject calendar number, the Board granted a special permit to legalize the operation of the PCE on the first floor and sub-cellar of the building; a condition of the grant was that a Public Assembly Permit (“PA”) be obtained by January 10, 2013; and

WHEREAS, the applicant states that it has not yet obtained the PA due to a series of administrative delays at the Department of Buildings (“DOB”); in addition, the applicant represents that DOB policy requires that the special permit grant reference DOB Application No. 302334597 (a New Building application filed at the site) instead of Application No. 320411256 (an Alteration Type-1 application), which was noted in the prior grant; and

WHEREAS, as such, the applicant now seeks an amendment permitting: (1) additional time to obtain the PA; and (2) a change to the DOB application noted on the grant to Application No. 302334597; and

WHEREAS, based upon its review of the record, the Board finds that the amendment is appropriate with certain conditions as set forth below.

Therefore it is Resolved, reopens and amends the resolution, dated July 10, 2012, so that as amended the resolution reads: “the applicant will obtain a Public Assembly permit from the Department of Buildings by January 10, 2015”; on condition that all work and site conditions will comply with the previously-approved drawings; and on further condition:

THAT the applicant will obtain a Public Assembly permit from DOB by January 10, 2015;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the

Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

ACTION OF THE BOARD – Application granted on
condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins,
Commissioner Hinkson and Commissioner Montanez4
Absent: Commissioner Ottley-Brown.....1
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Staten Island
Commissioner Borough Commissioner, dated July 15, 2013,
acting on Department of Buildings Application No.
520118596, reads in pertinent part:

Proposed construction on a 12-10 (a) Zoning Lot
located within the bed of a mapped street is
contrary to Section 35 of the General City Law.
Therefore, Board of Standards and Appeals
approval is required; and

WHEREAS, this is an application to allow the
construction of a three-story, 12-unit residential building with
eight accessory off-street parking spaces; the westerly portion
of the building will be located partially in the bed of the
mapped Wiman Place; and

WHEREAS, a public hearing was held on this
application on August 13, 2013, after due notice by
publication in *The City Record*, with continued hearings on
October 22, 2013, November 26, 2013, and December 17,
2013, and then to decision on January 14, 2014; and

WHEREAS, the premises and surrounding area had site
and neighborhood examinations by Chair Srinivasan,
Commissioner Hinkson, and Commissioner Montanez; and

WHEREAS, the subject site is located on the west side
of Wiman Place, south of Sylvaton Terrace and north of
Church Lane, partially within an R4 zoning district and

partially within an M3-1 zoning district within Community
Board 1, Staten Island; and

WHEREAS, pursuant to ZR § 77-11, the use regulations
applicable to the R4 zoning district may be applied to the
entire subject zoning lot as the subject lot existed on
December 15, 1961, more than 50 percent of the lot area is
within the R4 zoning district, and the greatest distance from
the mapped district boundary (17 feet) is less than 25 feet; and

WHEREAS, by letter dated May 2, 2013, the Fire
Department states that it has reviewed the proposal and has
offered no further objections provided that: (1) the entire
building be fully sprinklered in conformity with the sprinkler
provisions of the NYC Fire Code Section 503.8.2, Local Law
10 of 1999 and Reference Standard 17-2B of the New York
City Building Code and (2) the entire building be provided
with interconnected smoke alarms designed and installed in
accordance with NYC Building Code Section 907.2.10; and

WHEREAS, by letter dated February 25, 2013, the
Department of Environmental Protection (“DEP”) states that
(1) there are no existing City sewers or existing City water
mains in the bed of Wiman Place between Sylvaton Terrace
and Church Lane at the site and (2) City Drainage Plan No.
PRD-A, Sheet 3 of 6, dated July 1968, for the above
referenced location calls for a future 10-inch diameter sanitary
sewer and a 12-inch/15-inch storm sewer in the bed of Wiman
Place between Sylvaton Terrace and Church Lane; and

WHEREAS, DEP further states that it requires the
applicant to submit a survey/plan showing (1) the width of
mapped Wiman Place and the width of the widening portion
of the street at the above referenced location and (2) a 32-ft.
wide sewer corridor in the bed of Wiman Place along Lot 205
for the installation, maintenance, and/or reconstruction of the
future 10-inch diameter sanitary sewer and the 12-inch/15-
inch diameter storm sewer; and

WHEREAS, in response to DEP’s request, the applicant
submitted a drawing showing a 32-ft. wide sewer corridor in
the bed of Wiman Place along Lot 205 for the installation,
maintenance and or reconstruction of the future 10-inch
diameter sanitary sewer and the 12-inch/15-inch diameter
sewer; and

WHEREAS, by letter dated November 26, 2013, DEP
states that, based on the drawing submitted by the applicant, it
has no objection to the proposed application; and

WHEREAS, by correspondence dated June 10, 2013,
the Department of Transportation (“DOT”) requested that the
applicant provide the following information on its site plan:
(1) sidewalks fronting Sylvaton Terrace and Wiman Place,
with suggested widths of 5 feet for Sylvaton Terrace and a
minimum width of 5 feet for the easterly concrete portion of
the proposed 10-ft. sidewalk on Wiman Place; (2) the
proposed vehicular ramp in compliance with zoning
requirements and relocated to accommodate the sidewalk on
Sylvaton Terrace; (3) the proposed street trees located at least
35 feet from street intersections; and (4) the jurisdiction of the
built roadway within the mapped street, right-of-way; and

MINUTES

WHEREAS, in response to DOT's request, the applicant submitted a revised site plan with a 5-ft. wide sidewalk along Sylvaton Terrace, a 5-ft. wide sidewalk along Wiman Place, the proposed vehicular ramp in compliance with zoning requirements and relocated to accommodate the sidewalk on Sylvaton Terrace, a notation about the jurisdiction of the built roadway within the mapped street right of way, and noted that because of the sidewalk configuration, street trees will be provided off -site; and

WHEREAS, by letter dated December 18, 2013, DOT states that according to the Staten Island Borough President's Topographical Bureau, Wiman Place between Sylvaton Terrace and Church Lane is a mapped street to a 60-ft. width on the Final City Map; and

WHEREAS, DOT notes that the City does not have title to the mapped street, but there is a Corporation Counsel Opinion of Dedication, dated March 8, 1985, for 14 to 15 feet as in use, on the easterly portion of Wiman Place (known as Church Lane); and

WHEREAS, DOT also notes that the improvement of Wiman Place at this location (Block 2827, Lot 207) is not presently included in DOT's Capital Improvement Program; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved, that the decision of the Staten Island Borough Commissioner, dated July 15, 2013, acting on Department of Buildings Application No. 520118596, is modified by the power vested in the Board by Section 35 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction will substantially conform to the drawing filed with the application marked "Received January 13, 2014" (1) sheet; that the proposal will comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations will be complied with; and *on further condition*:

THAT the building will be fully sprinklered and provided with interconnected smoke alarms in accordance with BSA approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT DOB will review the proposed plans to ensure compliance with all relevant provisions of the Zoning Resolution, including planting strip requirements;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals on January 14, 2014.

41-11-A

APPLICANT – Eric Palatnik, P.C., for Sheryl Fayena, owner.

SUBJECT – Application April 12, 2011 – Appeal seeking a determination that the owner has acquired a common law vested right to continue development under the prior R-6 zoning district. R4 Zoning District.

PREMISES AFFECTED – 1314 Avenue S, between East 13th and East 14th Streets, Block 7292, Lot 6, Borough of Brooklyn.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated January 3, 2012, acting on Department of Buildings Application No. 320416867, reads in pertinent part:

Proposed school building cannot be built in M1-2 zoning district, as per Section 42-00; and

WHEREAS, this is an application under ZR §§ 73-19 and 73-03 to permit, on a site in an M1-2 zoning district, the construction of a three-story Use Group 3 school, contrary to ZR § 42-00; and

WHEREAS, a public hearing was held on this application on July 10, 2012, after due notice by publication in the *City Record*, with continued hearings on August 21, 2012, October 16, 2012, January 15, 2013, and April 23, 2013, and then to decision on January 14, 2014; and

WHEREAS, the site and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 3, Brooklyn, recommends disapproval of this application, primarily based on concerns regarding traffic; and

WHEREAS, certain members of the surrounding community testified in opposition to the application, expressing particular concerns about its impact on traffic and parking, and about its estimates regarding the number of buses anticipated based on the projected size of the student body; and

WHEREAS, certain members of the surrounding community submitted statements in support of the application; and

WHEREAS, the application is brought on behalf of the

MINUTES

Congregation Adas Yereim (the "School"), a not-for-profit girls' school; and

WHEREAS, the subject site is located at the northwest intersection of Nostrand Avenue and Willoughby Avenue; it comprises Tax Lots 42 and 53; the site has 119.75 feet of frontage along Willoughby Avenue and 200 feet of frontage along Nostrand Avenue with a lot area of 21,481 sq. ft.; and

WHEREAS, Lot 42 is currently occupied by a one-story commercial building with 20,000 sq. ft. of floor area (1.00 FAR); Lot 53 is vacant; and

WHEREAS, the applicant proposes to demolish the existing building and construct a Use Group 3 school with three stories, 55,509 sq. ft. of floor area (2.58 FAR) and a building height of 48 feet; and

WHEREAS, the applicant notes that on January 13, 2009, under BSA Cal. No. 46-08-BZ, the School obtained a bulk variance to construct a six-story new building with 39,361 sq. ft. of floor area at 491 Bedford Avenue, Brooklyn; however, the building was never constructed and the School has endeavored to find a suitable site for its needs since 2009; and

WHEREAS, the applicant represents that the proposal meets the requirements of the special permit under ZR § 73-19 to permit a school in an M1-2 zoning district; and

WHEREAS, ZR § 73-19 (a) requires an applicant to demonstrate the inability to obtain a site for the development of a school within the neighborhood to be served and with a size sufficient to meet the programmatic needs of the school within a district where the school is permitted as-of-right; and

WHEREAS, the applicant represents that the proposal will meet the School's programmatic needs; and

WHEREAS, the applicant represents that, currently, the School has 180 pre-kindergarten and kindergarten students, 273 first through eighth grade students, and 91 high school students, for a total of 544 students distributed throughout the School's existing facilities at 563 Bedford Avenue, 505 Bedford Avenue and 185 Wilson Street; and

WHEREAS, the applicant states that the School's program includes classroom instruction, a head start program for children from low-income families, social service programs, child care, developmental services and health and nutritional guidance; in addition, the School holds monthly assemblies for drama and song and dance groups, and has daily programs focusing on social skills, competitive Yiddish spelling, sewing, art, home economics, gymnastics and sports; and

WHEREAS, the applicant states that the new building will include an auditorium in the cellar, a lunch room, a kitchen, offices and an auditorium on the first story, classrooms, teachers' offices and a 2,145 sq. ft. outdoor play area for younger children on the second story, classrooms and teachers' offices on the third story, and a rooftop activity space for older children; and

WHEREAS, the applicant states that the new building will serve an estimated 750 students and 130 staff members; and

WHEREAS, the applicant notes that approximately 75 percent of its students live within one mile of the site; and

WHEREAS, the applicant represents that it conducted an approximately six-month search within the neighborhood and surrounding areas with the following site criteria: (1) a site with a lot area of between 7,000 and 20,000 sq. ft.; and (2) a minimum of 50,000 sq. ft. of floor area as-of-right; and

WHEREAS, the applicant states that during its search, it evaluated the feasibility of six nearby sites in Brooklyn: 55 Hope Street, 829 Kent Avenue, 520 Park Avenue, 240-246 Lynch Street, 1005 Bedford Avenue and 135 Middleton Street; the applicant notes that Use Group 3 is permitted as-of-right on each of the sites except 829 Kent Avenue and 520 Park Avenue, which are located in M1-1 zoning districts; and

WHEREAS, the applicant represents that each site was unsuitable for the School, in that: 55 Hope Street was too expensive for the School to purchase; 829 Kent Avenue and 520 Park Avenue had existing buildings that were too small to accommodate the School's programmatic needs; 240-246 Lynch Street had insufficient lot area to accommodate the School's programmatic needs in that it would not have allowed the construction of a building containing all grade levels; 1005 Bedford Street and 135 Middleton Street had similarly insufficient lot area; and 1005 Bedford Street was not for sale but for rent; and

WHEREAS, the applicant maintains that the site search establishes that there is no practical possibility of obtaining a site of adequate size in a nearby zoning district where a school would be permitted as-of-right; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19 (a) are met; and

WHEREAS, ZR § 73-19 (b) requires an applicant to demonstrate that the proposed school is located no more than 400 feet from the boundary of a district in which such a school is permitted as-of-right; and

WHEREAS, the applicant submitted a radius diagram which reflects that the subject site is located directly across the street from an R6 zoning district, less than 100 feet to the east and to the south, where the proposed use would be permitted as-of-right; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19 (b) are met; and

WHEREAS, ZR § 73-19 (c) requires an applicant to demonstrate how it will achieve adequate separation from noise, traffic and other adverse effects of the surrounding non-residential district; and

WHEREAS, the applicant states the uses immediately adjacent to the site are: a Use Group 6 office building, two low-rise residential buildings and the neighborhood's only true manufacturing building, a metal stamping operation, at 151 Sandford Street; and

WHEREAS, the applicant notes that although the site is zoned M1-2, the surrounding area is predominantly characterized by brownstone-style townhouses, mixed-use residential and commercial buildings, schools and other community facilities; and

MINUTES

WHEREAS, during the hearing process, the Board raised concerns about traffic, noise attenuation and air quality due to the proximity of manufacturing uses; and

WHEREAS, in response, the applicant submitted the results of a traffic study, which concluded that because the site and approximately 67 percent of the School's students live on the south side of the Brooklyn-Queens Expressway ("BQE"), buses will continue to operate along the same streets and avenues as they currently do (while transporting the students from south of the BQE to the School's three existing sites, which are north of the BQE); and

WHEREAS, further, the applicant represents that bus drivers will not idle in front of the site except during loading and unloading and will park in the facility located at 60 Nostrand Avenue; and

WHEREAS, as to noise, the applicant also represents that an eight-foot wall will be constructed between the playground and the chiller at 151 Sandford Street in order maintain acceptable outdoor noise levels; and

WHEREAS, the applicant also represents that the exterior of the building will be constructed of masonry walls and double-paned glass, which will adequately insulate the students from any noise created by the surrounding area, including the existing noises emanating from 151 Sandford Street, and any anticipated traffic noises due to the School's busing; such materials will provide at least 31 dBA of attenuation and interior noise levels will be at 45 dBA or less; and

WHEREAS, as to air quality, the applicant's consultant concluded that there are no known air quality, air toxic or HVAC impacts and no major sources of such impacts within 1,000 feet of the site; and

WHEREAS, the Board finds that the conditions surrounding the site and the building's construction will adequately separate the proposed school from noise, traffic and other adverse effects of any of the uses within the surrounding M1-2 zoning district; thus, the Board finds that the requirements of ZR § 73-19(c) are met; and

WHEREAS, ZR § 73-19(d) requires an applicant to demonstrate how the movement of traffic through the street on which the school will be located can be controlled so as to protect children traveling to and from the school; and

WHEREAS, the applicant represents that the site can be controlled so as to protect children traveling to and from the School, in that: (1) there will be safety personnel on site to assist students when they arrive and depart; (2) two teachers will coordinate unloading and loading of each elementary school bus and three teachers will coordinate each pre-school bus; (3) there will be sufficient space in front of the School for four buses to queue and unload along Nostrand Avenue; and (4) the removal of parking from Nostrand Avenue to accommodate an express bus service will enhance safety by creating a no-traffic zone; and

WHEREAS, the Board referred the application to the School Safety Engineering Office of the Department of Transportation ("DOT"); and

WHEREAS, by letter dated March 1, 2012, DOT

states that it has no objection to the proposal and will, upon approval of the application, prepare a safe route to school map with signs and marking; and

WHEREAS, the Board finds that the above-mentioned measures will control traffic so as to protect children going to and from the proposed school; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19 (d) are met; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-19; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; as noted above, the School's impact on traffic will be minimal and will be mitigated by: (1) the creation of an express bus service along Nostrand Avenue, which will eliminate street parking and facilitate improved bus service, loading and unloading; and (2) the School's representation that buses will park offsite, rather than idling, when not they are not engaged in loading and unloading students; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board conducted an environmental review of the proposed action and documented relevant information about the project in the Final Environmental Assessment Statement ("EAS") CEQR No. 12BSA070K, dated January 9, 2014; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the New York City Department of Environmental Protection's ("DEP") Bureau of Environmental Planning and Analysis reviewed the project for potential hazardous materials, air quality and noise impacts; and

WHEREAS, DEP reviewed and accepted the October 2012 Remedial Action Plan and the October 2012 site-specific Construction Health and Safety Plan; and

WHEREAS, DEP requested that a P.E.-certified Remedial Closure Report be submitted to DEP for review and approval upon completion of the proposed project; and

WHEREAS, DEP reviewed the applicant's stationary source air quality screening analysis and determined that no

MINUTES

significant stationary source air quality impacts to the proposed project are anticipated with respect to existing HVAC sources, future cogeneration units on 156 Sandford Street, or air toxics emissions at nearby buildings; and

WHEREAS, DEP reviewed the results of noise monitoring and the design measures proposed by the consultant in the October 2013 noise study, including an alternate means of ventilation to be provided to maintain a closed window condition, and concurred they would provide sufficient window-wall attenuation levels to achieve an interior noise level of 45 dBA or less; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-19 and 73-03 and grants a special permit, to allow, on a site in an M1-2 zoning district, the construction of a three-story Use Group 3 school, contrary to ZR § 42-00; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received January 10, 2014" – (11) sheets and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the school will be limited to 55,509 sq. ft. of floor area (2.58 FAR) and a building height of 48 feet;

THAT DOB will not issue a Certificate of Occupancy until the applicant has provided it with DEP's approval of the Remedial Closure Report;

THAT interior noise levels will be maintained at 45 dBA or below within the School in accordance with the noise attenuation notes on the BSA-approved plans;

THAT bus drivers will not idle in front of the building, the School or the site;

THAT any change in the use, occupancy, or operator of the school requires review and approval by the Board;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 14, 2014.

254-12-BZ

APPLICANT – Patrick W. Jones, P.C., for Salmar Properties, LLC, owner.

SUBJECT – Application August 20, 2013 – Variance (§72-21) to permit Use Group 10A uses on the first and second floors of an existing eight-story building, contrary to use regulations (§42-00). M3-1 zoning district.

PREMISES AFFECTED – 850 Third Avenue aka 509/519 Second Avenue, bounded by Third Avenue, unmapped 30th Street, Second Avenue, and unmapped 31st Street, Block 671, Lot 1, Borough of Brooklyn.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Hinkson and Commissioner Montanez4
Absent: Commissioner Ottley-Brown.....1
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated July 19, 2012 acting on Department of Buildings Application No. 3200499607, reads in pertinent part:

Proposed Use Group 10A in M3-1 for first and second floor is contrary to ZR 42-12; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site within an M3-1 zoning district, the conversion of portions of the first and second floors of an existing eight-story manufacturing building to retail use with more than 10,000 sq. ft. of floor area per establishment (Use Group 10A), contrary to ZR § 42-12; and

WHEREAS, a public hearing was held on this application on October 22, 2013, after due notice by publication in the *City Record*, with a continued hearing on November 19, 2013, and then to decision on January 14, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 7, Brooklyn, recommends approval of the application; and

WHEREAS, United States Congresswoman Nydia M. Velazquez, United States Congressman Michael Grimm, and Councilperson Sara Gonzalez provided testimony in support of the application; and

WHEREAS, the subject site is the entire block bounded by Second Avenue, 30th Street, Third Avenue, and 31st Street; the site is located within an M3-1 zoning district; and

WHEREAS, the site has 200.33 feet of frontage along both Second Avenue and Third Avenue, 700 feet of frontage along both 30th Street and 31st Street, and 140,231 sq. ft. of lot area; and

WHEREAS, the site is occupied by an eight-story manufacturing building with approximately 1,117,166.8 sq.

MINUTES

ft. of floor area (8.0 FAR); and

WHEREAS, the applicant states that the building was constructed by the United States Government in approximately 1918 and was used as a storage facility for the United States Navy from 1918 until around 2000, when it became vacant; ownership of the building was then transferred to the New York City Economic Development Corporation, which issued a request for proposals to redevelop the building; the applicant's response to the RFP was selected and it took ownership of the building in 2011; and

WHEREAS, the applicant notes that it purchased the building subject to deed restrictions regarding the redevelopment of the building, including: development shall be "primarily for light industrial uses," "excluding passive warehouse and/or storage," and shall include "complete roof replacement or restoration," "façade restoration," installation of "utilities, mechanical and life safety systems distributed throughout the entire building" and "at least one bank of elevators," and may include "up to 15 percent of rentable floor area . . . for retail uses"; in addition, according to the deed, the building must be made to comply with the 2008 Construction Codes prior to re-occupancy; and

WHEREAS, the applicant proposes to convert the building from storage throughout to retail (Use Group 10A) on portions of the first and second floors, and manufacturing (Use Group 17) on portions of the first and second floors and all of the third through eighth floors; the retail use will occupy 62,614.8 sq. ft. of floor area on the first floor and 104,972 sq. ft. of floor area on the second floor, for a total retail floor area of 167,586.8 sq. ft., which represents 15 percent of the total floor area of the building (1,117,166.8 sq. ft.); the manufacturing use will occupy the remaining 949,580 sq. ft. throughout the building; finally, the applicant proposes to reserve no fewer than 368 parking spaces and up to 16 loading berths for the proposed uses on the block directly south of the subject site (Block 675, Lot 10), which is separated from the site by unmapped 31st Street; and

WHEREAS, because, per ZR § 42-12, Use Group 10A retail uses are limited to 10,000 sq. ft. of floor area per establishment within the subject M3-1 district, the applicant seeks a use variance; and

WHEREAS, the applicant states that the following are the site's unique physical conditions, which create an unnecessary hardship in developing the site in conformance with applicable zoning district regulations: the existing building's obsolete characteristics, including its column spacing, archaic layout, and absence of modern building systems; the historic significance of the building; and the site's limited street access; and

WHEREAS, the applicant states that the building is obsolete for its original purpose; as noted above, the building was constructed in 1918 by the federal government and used by the United States Navy as a storage facility until 2000; as such, it was built to carry substantial loads on every floor (it contains 331 structural columns per floor, with columns

located approximately every 20 feet) and to be able to efficiently catalog, distribute, and retrieve stored materials; and

WHEREAS, the applicant asserts that the ubiquitous columns hamper the use of the building for as-of-right uses; specifically, for manufacturers, the columns form narrow maneuvering lanes that inhibit the use of trucks, forklifts, pallet jacks, and hand jacks, making the space inefficient and difficult to market; for retailers, the column condition interferes with the presentation of merchandise and reduces the amount of usable floorspace, making the 10,000 sq. ft. limitation particularly burdensome; and

WHEREAS, the applicant represents that the building's systems are outmoded and in disrepair, and that, aside from its structural elements, the majority of the building is not salvageable and must be replaced and rebuilt in accordance with modern, local standards; and

WHEREAS, the applicant asserts that the building's vacancy for the past 13 years supports the conclusion that it is no longer useful as a storage facility (and, indeed, not permitted to be used for storage under the deed restrictions); and

WHEREAS, similarly, although the majority of the building (85 percent of the floor area) is proposed to be light manufacturing, the tenant spaces for such use are not ideal for typical modern manufacturers, which desire ground-level, unimpeded floorplates for their materials and equipment; as such, the light manufacturing must be offered at discounted rents and offset with the higher rents associated with retail use; and

WHEREAS, the applicant states that renovating the 96-year-old building poses unique challenges due to the building's size and the deed requirement to comply with the 2008 Construction Codes; and

WHEREAS, the applicant notes that the building is uniquely large in comparison to neighboring buildings; in particular, the applicant represents that of the 35 sites on the 13 nearest blocks, there are only eight buildings that have more than 100,000 sq. ft. of floor area and only one of the eight, the federal detention center located at 830 Third Avenue, is comparable in size (902,000 sq. ft.) to the subject building, which has over one million square feet of floor area; and

WHEREAS, the applicant states that, unlike other large existing buildings in the study area, only the subject building must be made to comply with the 2008 Construction Codes in order to be reoccupied; typically, buildings of this size from this era would be able to utilize earlier versions of the New York City Building Code to make changes to the building; accordingly, this building's renovations will be more extensive and more expensive than similar buildings in the neighborhood; and

WHEREAS, as to the historic character of the building, the applicant states that it is considered eligible to be listed in the National Register of Historic Places due to its historic use and appearance, and that its restoration and preservation are restrictions of the deed; as such, the

MINUTES

applicant must undertake extensive work including: reconstruction of portions of the façade to match historic conditions; door and window replacement to historic-replacement standards; installation of non-permanent ramps (so as to preserve historic appearances), and installation of historically appropriate lighting; and

WHEREAS, to support its claim of hardship, the applicant submitted a detailed analysis of the costs of achieving code compliance and historic preservation of the building; and

WHEREAS, similarly, the applicant states that the limited street access of the building is a unique condition that creates a practical difficulty operating an as-of-right use; and

WHEREAS, specifically, the applicant represents that the building fronts on two unmapped streets (30th Street and 31st Street), one of which (30th Street) is built out but under the control of the federal detention facility center and not open to the public and the other of which (31st Street) is located entirely within Block 675, Lot 10; therefore, the applicant asserts that neither 30th Street, nor 31st Street may be used to access the site as-of-right; and

WHEREAS, the applicant also states that the site does not have any existing access points (curb cut or building entrances) along Second Avenue and its existing façade cannot be altered (due to deed restrictions) to reorient the building to have its main frontage on Second Avenue; thus, the building and the site are generally accessible only via Third Avenue in an as-of-right scenario; and

WHEREAS, as a result, a small retail use (one with less than 10,000 sq. ft. of floor area, per ZR § 42-12) with frontage solely on Second Avenue, 30th Street or 31st Street would be largely invisible to its potential customers and difficult to access, making such a space less attractive to tenants and therefore less valuable; and

WHEREAS, the applicant asserts that such limited access to the public street is unique in the surrounding area, and it supported this assertion with an analysis of the ten large buildings (100,000 sq. ft. or more of floor area) within 1,500 feet of the site and their access points; based on the analysis, only the site has one access point; of the other nine sites, one site has two access points, three sites have three access points, three sites have four access points, one site has five access points, and one site has six access points; and

WHEREAS, based upon the above, the Board finds that the aforementioned unique physical conditions, when considered in the aggregate, create unnecessary hardship and practical difficulty in developing the site in conformance with the use regulations; and

WHEREAS, the applicant assessed the financial feasibility of four scenarios: (1) an as-of-right manufacturing and retail building with retail use limited to 10,000 sq. ft. per establishment; (2) an as-of-right manufacturing building with no retail use; (3) a lesser variance in which only the first floor is permitted to exceed the 10,000 sq.-ft.-per-retail establishment limitation; and (4) the proposal; and

WHEREAS, the applicant concluded that only the

proposal would result in a sufficient return; and

WHEREAS, at hearing, the Board directed the applicant to clarify the following: (1) its justification for the mortgage rate assumed in the financial analysis; and (2) the infeasibility of constructing a series of small retail spaces; and

WHEREAS, in response, the applicant's consultant indicated that the assumed mortgage rate is based on a 2013 survey of interest rates and is within the range for industrial rents, though on the higher end to reflect the risks of the project, which include the size of the site and its location, and the condition of the existing building and its required renovations; and

WHEREAS, as for demonstrating the impracticality of a series of small retail spaces, the applicant provided plans showing that breaking up the retail space will adversely affect retail signage, visibility, accessibility, which the applicant states are critical business elements for retailers; and

WHEREAS, based upon its review of the record, the Board has determined that because of the subject site's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed use will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant represents that the immediate area, which is west of Third Avenue and the Gowanus Expressway, is characterized by a predominance of medium-density manufacturing buildings; the applicant notes that the subject area is distinct from the area east of the Gowanus Expressway, where uses are more diverse and include low- to medium-density residential, commercial, and manufacturing uses; and

WHEREAS, as for the immediately adjacent sites, the applicant states that, as noted above, there is a federal detention facility directly north of the site on Block 667, Lot 1, and a large parking lot directly south of the site on Block 675, Lot 10, which will provide loading berths and parking for the retail and manufacturing uses at the site; and

WHEREAS, the applicant states that west of the site across Second Avenue is a waterfront superblock (Block 662, Lot 1) of low-rise commercial buildings, parking and storage areas owned and operated by the Department of Small Business Services; east of the site across the Gowanus Expressway and Third Avenue, is Block 672, which includes an array of low-rise manufacturing, commercial, and residential buildings; and

WHEREAS, as to bulk, the applicant states that although the 8.0 FAR of the building is well in excess of the maximum permitted FAR in the subject M3-1 district (2.0 FAR), the building was constructed by the federal government (which is not subject to the Zoning Resolution) and, more importantly, has existed at the sight for nearly 100

MINUTES

years; further, the applicant states that neither the envelope, nor the floor area of the building will change under the proposal; and

WHEREAS, the applicant notes that the site lies within an Industrial Business Zone and that its proposed use of 85 percent of the building's floor area for manufacturing uses is consistent with that designation; likewise, the applicant asserts that the proposed retail uses will complement (rather than duplicate) local commercial uses and add up to 1,300 jobs to the local economy; and

WHEREAS, at hearing, the Board directed the applicant to clarify how the parking and loading facilities will be preserved given that the facilities are located on a separate zoning lot; and

WHEREAS, in response, the applicant provided a copy of a recorded restrictive declaration, which requires the owner of Block 675, Lot 10 (and its successors and assigns) to provide for the site no fewer than 368 parking spaces and up to 16 loading berths; and

WHEREAS, accordingly, the Board finds that this action will neither alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that the practical difficulties and unnecessary hardships associated with the site result from the peculiarities of the existing building on the lot and the site's limited street access; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the unique physical characteristics of the site; and

WHEREAS, finally, the applicant asserts and the Board agrees that the current proposal is the minimum necessary to offset the hardship associated with the uniqueness of the site and to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Type I action pursuant to Sections 617.2 and 617.6 of 6NYCRR; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 13BSA021K, dated January 10, 2014; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the New York City Department of

Environmental Protection's ("DEP") Bureau of Environmental Planning and Analysis reviewed the project for potential air quality impacts; and

WHEREAS, DEP reviewed the applicant's January 2014 mobile sources air quality analyses and determined that no significant adverse air quality impacts from the proposed project are anticipated; and

WHEREAS, the New York City Department of Transportation's ("DOT") Division of Traffic and Planning reviewed the project for potential traffic impacts; and

WHEREAS, the applicant identified in the 2013 EAS and Traffic Study proposed traffic improvement measures which would be implemented as part of the proposed action at the following intersections:

39th Street (E-W) and Second Avenue (N-S):

During the weekday midday peak hour, shift three seconds of green time from the northbound/southbound phase to the eastbound/westbound phase; during the weekday PM peak hour shift four seconds of green time from the westbound phase (Gowanus Expressway Exit Ramp) and allocate two seconds to the northbound/southbound phase (Second Avenue) and two seconds to the eastbound/westbound phase; and during the Saturday midday peak hour shift four seconds of green time from the westbound phase (Gowanus Expressway Exit Ramp) to the eastbound/westbound phase;

33rd Street (E-W) and Fourth Avenue (N-S): During the Saturday midday peak hour shift one second of green time from the northbound/southbound phase to the eastbound/westbound phase;

20th Street (E-W) and Fourth Avenue (N-S): During the Saturday midday peak hour shift two seconds of green time from the eastbound/westbound phase to the northbound/westbound phase;

33rd Street (E-W) and Third Avenue: Restripe eastbound 33rd Street between northbound and southbound Third Avenue as two 15-foot travel lanes – one through lane and one left-turn lane; and

WHEREAS, DOT reviewed these measures and determined they were reasonable and feasible; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to

MINUTES

permit, on a site within an M3-1 zoning district, the conversion of portions of the first and second floors of an existing eight-story manufacturing building to retail use with more than 10,000 sq. ft. of floor area per establishment (Use Group 10A), contrary to ZR § 42-12, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received December 6, 2013" – (8) sheets; and *on further condition*:

THAT the retail use will be limited to 62,614.8 sq. ft. of floor area on the first floor and 104,972 sq. ft. of floor area on the second floor, for a total retail floor area of 167,586.8 sq. ft.;

THAT loading berths and a minimum of 368 parking spaces will be provided on Block 675, Lot 10;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT this approval is subject to DOT investigating the need for implementing the proposed improvements as described above or similar measures when the building is completed;

THAT the applicant will notify DOT six months prior to the opening of the proposed building;

THAT substantial construction will be completed in accordance with ZR § 72-23;

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 14, 2014.

CEQR #13-BSA-028Q

APPLICANT – Patrick W. Jones, P.C., for Canyon & Cie LLC c/o Mileson Corporation, owner; Risingsam Management LLC, lessee.

SUBJECT – Application September 4, 2012 – Variance (§72-21) to permit a hotel (UG 5), contrary to use regulations (§42-00). M2-1 zoning district.

PREMISES AFFECTED – 132-10 149th Avenue aka 132-35 132nd Street, bounded by 132nd Street, 149th Avenue and Nassau Expressway Service Road, Block 11886, Lot 12 and 21, Borough of Queens.

COMMUNITY BOARD #10Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Hinkson and Commissioner Montanez4
Absent: Commissioner Ottley-Brown.....1
Negative:.....0

WHEREAS, the decision of the Queens Borough Commissioner, dated August 6, 2012 acting on Department of Buildings Application No. 420571189, reads in pertinent part:

Use Group 5 (hotel) is not permitted in M2-1 zoning district, per ZR 42-00; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site within an M2-1 zoning district, the construction of a four-story building to be occupied as a transient hotel (Use Group 5) with 101 rooms, and an accessory parking lot with six spaces, which does not conform with the use regulations pursuant to ZR § 42-00; and

WHEREAS, a public hearing was held on this application on October 29, 2013, after due notice by publication in the *City Record*, with a continued hearing on November 26, 2013, and then to decision on January 14, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 10, Queens, recommends disapproval of the application, asserting that the essential character of the neighborhood is residential and industrial and that the applicant failed to demonstrate that an as-of-right use does not provide a reasonable return; and

WHEREAS, the subject site is a triangular block bounded by 132nd Street, 149th Avenue, and 150th Avenue (a/k/a the Nassau Expressway Service Road) and comprising Tax Lots 12 and 21, within an M2-1 zoning district; and

WHEREAS, the site has 132.16 feet of frontage along 132nd Street, 216.1 feet of frontage along 149th Avenue, 254.9 feet of frontage along the Nassau Expressway Service Road, and 14,280.05 sq. ft. of lot area; and

WHEREAS, the applicant states that, at present, the site is used as a parking lot for shuttle vans operated by the nearby Hilton Garden Inn; and

WHEREAS, the applicant notes that, historically, the site was part of a larger tract of land that contained a sewage treatment facility; the applicant also notes that the Board previously denied bulk variances (maximum building height within two miles of an airport) pursuant to the 1916 Zoning Resolution under BSA Cal. Nos. 1907-61-BZ and 1928-61-BZ; and

WHEREAS, the applicant proposes to construct a four-story hotel (Use Group 5) with a wall height of 45'-6", 28,533 sq. ft. of floor area (2.0 FAR) and 101 rooms; the applicant notes that the maximum FAR for uses permitted as-of-right in the subject M2-1 district (and in the adjacent M1-2 district) is 2.0; and

WHEREAS, because Use Group 5 is not permitted as-of-right in the subject M2-1 district, the applicant seeks a use variance; and

WHEREAS, the applicant states that the following are unique physical conditions which create an unnecessary hardship in developing the site in conformance with applicable zoning district regulations: (1) the site's triangular shape; and (2) contamination of the soil with hazardous materials; and

MINUTES

WHEREAS, the applicant states that the triangular shape of the site is a unique physical condition that impairs its ability to develop the site for a conforming use; and

WHEREAS, the applicant states that, based on historical Sanborn maps, the triangular shape of the site results from the construction of the Nassau Expressway in the 1960s, which formed the triangular site's hypotenuse and separated the site from its historic block; and

WHEREAS, as to the uniqueness of the triangular shape, the applicant states that there is only one other triangular lot (Block 11900, Lot 75) in the study area (the area bounded by 130th Street, 130th Place, the Belt Parkway, the Nassau Expressway, and 134th Street); however, the applicant states Block 11900, Lot 75 is distinguishable because it is more than three times the size of the subject site (53,125 sq. ft. of lot area versus 14,280.05 sq. ft. of lot area); and

WHEREAS, as to the hardship created by the triangular shape, the applicant states that the lot shape results in two equally undesirable as-of-right scenarios: (1) a triangular manufacturing building; and (2) a rectangular manufacturing building; and

WHEREAS, the applicant states that a triangular building is inherently inefficient due to its acute angles, which form sharp corners that are unsuitable for manufacturing uses; the applicant notes that manufacturing and commercial buildings are nearly universally rectangular in shape in order to accommodate shelving, boxes, office space, and other standard-sized machinery and equipment that cannot be easily modified; and

WHEREAS, the applicant states that constructing a rectangular building with sufficient floor space would require constructing multiple floors with vertical transportation; the applicant asserts that constructing vertical transportation is both expensive and generally undesirable for modern manufacturers, which prefer to have operations at ground level; and

WHEREAS, as to the contamination, the applicant states that a Phase II site investigation revealed the presence of certain volatile organic compounds, semi-volatile organic compounds, metals, and pesticides, owing to the historical use of the site as a sewage treatment facility; and

WHEREAS, the applicant states that remediation of these contaminants will require soil disposal, clean fill replacement, and the creation of a vapor barrier, at significant cost; and

WHEREAS, based upon the above, the Board finds that the aforementioned unique physical conditions, when considered in the aggregate, create unnecessary hardship and practical difficulty in developing the site in conformance with the use regulations; and

WHEREAS, the applicant assessed the financial feasibility of four scenarios: (1) an as-of-right triangular manufacturing building with two stories, 28,501 sq. ft. of floor area (2.0 FAR), and a floorplate of 14,560 sq. ft.; (2) an as-of-right rectangular manufacturing building with four stories, 28,485 sq. ft. of floor area (1.99 FAR), and a

floorplate of 7,700 sq. ft.; (3) an as-of-right rectangular manufacturing building on a conceptual rectangular lot with two stories, 28,479 (1.99 FAR), and a floorplate of 14,540 sq. ft.; and (4) the proposal; and

WHEREAS, the applicant concluded that, other than the scenario involving the conceptual rectangular lot, only the proposal would result in a sufficient return; and

WHEREAS, at hearing, the Board directed the applicant to clarify the calculation of costs associated with the excavation of the contaminated soil and to explain why the nearby hotels were not included as comparators for the applicant's financial analysis; and

WHEREAS, in response, the applicant submitted a revised financial analysis delineating excavation costs; as to the hotels used as comparators, the applicant explained that the nearby hotels (the Sheraton and the Hilton Garden Inn) offer more amenities than the proposed hotel, and, as such, command higher rates and are not comparable to the proposal; and

WHEREAS, based upon its review of the record, the Board has determined that because of the subject site's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed use will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant represents that although the site is designated as an Industrial Business Zone, the immediate area is characterized by a mix of commercial, community facility, and industrial uses, and major thoroughfares including the Belt Parkway, South Conduit Avenue, and the Nassau and Van Wyck Expressways; and

WHEREAS, the applicant represents that there are two other hotels within 400 feet of the site and that there are 18 hotels within the greater area surrounding John F. Kennedy International Airport, which lies to the south and east of the site; and

WHEREAS, as for the immediately adjacent sites, the applicant states that a homeless shelter ("Skyway Family Center"), a Sheraton hotel, and a Hilton Garden Inn occupy the block immediately north of the site, a highway salt storage area (covered by a tarpaulin) occupies the block immediately to the south of the site; to the west of the site are a catering facility and a rental car facility; and

WHEREAS, the applicant notes that the site is within the only portion of the subject M3-1 district that is north and west of the Nassau Expressway, and that immediately north and west of the site is an M1-2 district, where less intense manufacturing uses predominate and where the proposed hotel would be permitted as-of-right; and

WHEREAS, according to the original design, the main entrance for the hotel was to be located on the 149th Avenue frontage; and

MINUTES

WHEREAS, in response to the Community Board's concerns about the compatibility of the entrance with the Skyway Family Center, the applicant revised the design so that the main entrance of the hotel is located on the 150th Avenue frontage; and

WHEREAS, as to bulk, the applicant states, as noted above, that the proposal complies with the maximum 2.0 FAR permitted in the subject M2-1 district, as well as all other bulk regulations; and

WHEREAS, accordingly, the Board finds that this action will neither alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that the practical difficulties and unnecessary hardships associated with the site result from its triangular shape (as created by the building of the Nassau Expressway) and its contamination, whose source is indeterminable; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the unique physical characteristics of the site; and

WHEREAS, finally, the applicant asserts and the Board agrees that the current proposal is the minimum necessary to offset the hardship associated with the uniqueness of the site and to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Type I action pursuant to Sections 617.2 and 617.6 of 6NYCRR; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 13BSA028Q, dated January 6, 2014; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the New York City Department of Environmental Protection's ("DEP") Bureau of Environmental Planning and Analysis reviewed the project for potential hazardous materials impacts; and

WHEREAS, DEP reviewed and accepted the September 2013 Remedial Action Plan and the site-specific Construction Health and Safety Plan; and

WHEREAS, DEP requested that a P.E.-certified Remedial Closure Report be submitted to DEP for review and approval upon completion of the proposed project; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, on a site within an M2-1 zoning district, the construction of a four-story building to be occupied as a transient hotel (Use Group 5) with 101 rooms, and an accessory parking lot with six spaces, which does not conform with the use regulations pursuant to ZR § 42-00, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received November 13, 2013" – (12 sheets; and *on further condition*:

THAT the following will be the bulk parameters of the Proposed Building: four stories, a wall height of 45'-6", 28,533.46 sq. ft. of floor area (2.0 FAR), a maximum of 101 hotel rooms, and six parking spaces;

THAT DOB will not issue a Certificate of Occupancy until the applicant has provided it with DEP's approval of the Remedial Closure Report;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT this grant is contingent upon final approval from the Department of Environmental Protection before issuance of construction permits other than permits needed for soil remediation; and

THAT substantial construction will be completed in accordance with ZR § 72-23;

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 14, 2014.

APPLICANT – Eric Palatnik, P.C., for Okun Jacobson & Doris Kurlender, owner; McDonald’s Corporation, lessee.

SUBJECT – Application April 25, 2013 – Special Permit (§73-243) to allow for an eating and drinking establishment (UG 6) (*McDonald’s*) with an accessory drive-through facility. C1-2/R3-2 zoning district.

PREMISES AFFECTED – 1815 Forest Avenue, north side of Forest Avenue, 100’ west of intersection of Forest Avenue and Morningstar Road, Block 1180, Lots 6 and 49, Borough of Staten Island.

COMMUNITY BOARD #ISI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Hinkson and Commissioner Montanez4

Absent: Commissioner Ottley-Brown.....1

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Executive Zoning Specialist, dated March 27, 2013, acting on Department of Buildings Application No. 520133105, reads:

Eating or drinking establishment with accessory drive-through facility is not permitted in C1 district; contrary to ZR 32-15; and

WHEREAS, this is an application under ZR §§ 73-243 and 73-03, to permit, on a site within a C1-1 (R3-2) zoning district, the operation of an accessory drive-through facility on the site in conjunction with an as-of-right eating and drinking establishment (Use Group 6), contrary to ZR § 32-15; and

WHEREAS, a public hearing was held on this application on September 10, 2013, with continued hearings on October 22, 2013 and November 26, 2013, and then to decision on January 14, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan and Commissioner Montanez; and

WHEREAS, Community Board 1, Staten Island, recommends approval of this application; and

WHEREAS, certain members of the surrounding community testified in opposition to the application, citing concerns about noise due to the 24-hour operation of the establishment and late-night garbage collection, and about traffic; and

WHEREAS, the subject site is an irregularly-shaped zoning lot comprising Tax Lots 6 and 49, with frontages on the north side of Forest Avenue and the west side of Morningstar Road, within a (C1-1) R3-2 zoning district; and

WHEREAS, the site has 125 feet of frontage along Forest Avenue, 169.5 feet of frontage along Morningstar Road, and a lot area of 42,788 sq. ft.; and

WHEREAS, the site is occupied by a one-story eating and drinking establishment (Use Group 6, operated by McDonald’s) with 4,410 sq. ft. of floor area (0.1 FAR), an accessory drive-through, and 62 accessory parking spaces; and

WHEREAS, the Board previously exercised jurisdiction over the site when, under BSA Cal. No. 808-94-BZ, it granted a special permit to legalize an existing accessory drive-through for a term of five years, to expire on June 3, 2002; and

WHEREAS, the applicant now seeks to obtain a new special permit for an accessory drive-through in connection with its redevelopment of the site, which will include a new, one-story McDonald’s building with 4,219 sq. ft. of floor area (0.09 FAR), a reconfiguration of the site circulation, and a reduction in the number of accessory parking spaces from 62 spaces to 42 spaces (a minimum of 26 parking spaces are required, per ZR § 36-21); and

WHEREAS, a special permit is required for the proposed accessory drive-through facility in the C1-1 (R3-2) zoning district, pursuant to ZR § 73-243; and

WHEREAS, under ZR § 73-243, the applicant must demonstrate that: (1) the drive-through facility provides reservoir space for not less than ten automobiles; (2) the drive-through facility will cause minimal interference with traffic flow in the immediate vicinity; (3) the eating and drinking establishment with accessory drive-through facility complies with accessory off-street parking regulations; (4) the character of the commercially-zoned street frontage within 500 feet of the subject premises reflects substantial orientation toward the motor vehicle; (5) the drive-through facility will not have an undue adverse impact on residences within the immediate vicinity; and (6) there will be adequate buffering between the drive-through facility and adjacent residential uses; and

WHEREAS, the applicant submitted a site plan indicating that the drive-through facility provides reservoir space for at least 13 vehicles; and

WHEREAS, the applicant represents that the facility will cause minimal interference with traffic flow in the immediate vicinity of the subject site; and

WHEREAS, in support of this representation, the applicant states that the site has three curb cuts, two on Forest Avenue, a heavily-trafficked thoroughfare, and one along Morningstar Road, and that each curb cut is located a sufficient distance from any intersection and will not adversely affect traffic flow on the streets; and

WHEREAS, in addition, the applicant represents that the proposed reconfiguration of the site increases the reservoir spaces for vehicles using the drive-through, which will further improve the overall traffic flow of the site; and

WHEREAS, the applicant notes that an eating and drinking establishment has existed at the site since at least the mid-1970s and that a drive-through has operated since the mid-1990s; therefore, the drive-through is well-established in the neighborhood and will not create new traffic patterns in the vicinity; and

WHEREAS, the applicant submitted a site plan that demonstrates that the facility complies with the accessory off-street parking regulations for the C1-1 (R3-2) zoning district; as noted above, the proposed 42 parking spaces is well in excess of the 26 parking spaces required under ZR § 36-21; and

WHEREAS, the applicant represents that the facility

MINUTES

conforms to the character of the commercially zoned street frontage within 500 feet of the subject premises, which reflects substantial orientation toward motor vehicles and is predominantly commercial in nature; and

WHEREAS, the applicant states that Forest Avenue is a heavily-travelled commercial thoroughfare occupied by a variety of uses, including restaurants, drug stores, supermarkets, banks, offices and retail stores; in addition, the portion of Morningstar Road on which the site fronts is a two-way street that includes retail uses, and

WHEREAS, the applicant states that such uses and the surrounding residential neighborhoods they support are substantially oriented toward motor vehicle use; and

WHEREAS, the Board notes that the applicant has submitted photographs of the site and the surrounding streets, which supports this representation; and

WHEREAS, the applicant represents that the drive-through facility will not have an undue adverse impact on residences within the immediate vicinity of the subject premises; and

WHEREAS, the applicant states that the impact of the drive-through upon residences is minimal, in that most of the surrounding properties are occupied by commercial uses; and

WHEREAS, the applicant notes that while there are nearby residential uses, they are located to the north and west of the site, whereas the restaurant and the majority of its parking, are located on the southern and eastern portions of the site; likewise, the applicant states that the menu board for the drive-through will be located approximately 47 feet from the nearest residence's lot line; and

WHEREAS, the applicant represents that there will be adequate buffering between the drive-through and the nearby residences in the form of a fence, trees, shrubs, and planting beds; and

WHEREAS, accordingly, the applicant represents that the drive-through facility satisfies each of the requirements for a special permit under ZR § 73-243; and

WHEREAS, the applicant represents that the community is not adversely impacted by the legalization and modification of the existing drive-through; and

WHEREAS, the applicant states that the restaurant is well-established in the neighborhood and has existed with a drive-through for approximately 20 years; and

WHEREAS, the applicant notes that the drive-through window does not increase the number of vehicular visits to the site but rather decreases the amount of time that restaurant patrons spend at the site; and

WHEREAS, at hearing, the Board raised concerns about the enclosure of the dumpsters, the late-night garbage collection, the 24-hour operation of the drive-through, and the lack of directional signage and striping in the parking lot; and

WHEREAS, in response, the applicant submitted amended plans showing a masonry enclosure of the dumpsters and new directional signage and striping; in addition, the applicant submitted a letter from the proprietor of the McDonald's certifying that the hours of garbage collection would be limited to daily, between 8:00 a.m. and 10:00 p.m.;

and

WHEREAS, as to the 24-hour operation of the drive-through, the applicant asserts that it is essential to the operation of the restaurant; and

WHEREAS, the Board noted at hearing that the five-year term of the special permit will allow for monitoring of the site for compliance with the conditions of the grant; and

WHEREAS, accordingly, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-243 and 73-03; and

WHEREAS, the project is classified as an unlisted action pursuant to 6 NYCRR Part 617.2 and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 13-BSA129R dated April 24, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a negative declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-243 and 73-03 to permit, on a site within a C1-1 (R3-2) zoning district, the operation of an accessory drive-through facility on the site in conjunction with an as-of-right eating and drinking establishment (Use Group 6), contrary to ZR § 32-15; *on condition* that all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received December 10, 2013"- (9) sheets; and *on further condition*:

THAT the term of this grant will expire on January 14, 2019;

MINUTES

THAT the premises will be maintained free of debris and graffiti;

THAT parking and queuing space for the drive-through will be provided as indicated on the BSA-approved plans;

THAT all landscaping and/or buffering will be maintained as indicated on the BSA-approved plans;

THAT exterior lighting will be directed away from the nearby residential uses;

THAT all signage will conform to C1-1 zoning district regulations;

THAT the hours of garbage collection will be limited to daily, between 8:00 a.m. and 10:00 p.m.;

THAT the above conditions will appear on the certificate of occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, January 14, 2014.

171-13-BZ

APPLICANT – Law Office of Fredrick A. Becker, for 1034 East 26th Street, LLC, owner.

SUBJECT – Application June 6, 2013 – Special Permit (§73-622) for the enlargement of an existing single family home, contrary to floor area and open space (§23-141); side yards (§23-461) and less than the required rear yard (§23-47). R2 zoning district.

PREMISES AFFECTED – 1034 East 26th Street, west side of East 26th Street between Avenue J and Avenue K, Block 7607, Lot 63, Borough of Brooklyn.

COMMUNITY BOARD #14BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Hinkson and Commissioner Montanez4

Absent: Commissioner Ottley-Brown.....1

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated May 23, 2013, acting on Department of Buildings Application No. 320729075, reads in pertinent part:

1. Proposed plans are contrary to ZR 23-141 in that the proposed floor area ratio exceeds the maximum permitted;
2. Proposed plans are contrary to ZR 23-141 in that the proposed open space ratio is less than the minimum required;

3. Proposed plans are contrary to ZR 23-461 in that the proposed side yard is less than the minimum required; and

4. Proposed plans are contrary to ZR 23-47 in that the proposed rear yard is less than the minimum required; and

WHEREAS, this is an application under ZR § 73-622, to permit, within an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio (“FAR”), open space, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, and 23-47; and

WHEREAS, a public hearing was held on this application on November 26, 2013, after due notice by publication in *The City Record*, and then to decision on January 14, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of East 26th Street, between Avenue J and Avenue K, within an R2 zoning district; and

WHEREAS, the site has a total lot area of 4,000 sq. ft. and is occupied by a single-family home with a floor area of 1,438 sq. ft. (0.36 FAR); and

WHEREAS, the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant now seeks an increase in the floor area from of 1,438 sq. ft. (0.36 FAR) to 4,016 sq. ft. (1.0 FAR); the maximum permitted floor area is 2,000 sq. ft. (0.5 FAR); and

WHEREAS, the applicant seeks to reduce the open space from 178 percent to 50.7 percent; the minimum required open space is 150 percent; and

WHEREAS, the applicant seeks to maintain the width of one existing side yard (2'-0”) and decrease the width of the other existing side yard from 10'-0” to 8'-0” (the requirement is two side yards with a minimum total width of 13'-0” and a minimum width of 5'-0” each); and

WHEREAS, the applicant also seeks to decrease its rear yard depth from 32'-9½” to 20'-0” (a minimum rear yard depth of 30'-0” is required); and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood and will not impair the future use or development of the surrounding area; and

WHEREAS, in particular, the applicant represents that the proposed 1.0 FAR is consistent with the bulk in the surrounding area and submitted an analysis showing that there are ten homes in the immediate vicinity (the subject block and Block 7607, which is immediately west of the subject block) with an FAR of 1.0 or greater; and

MINUTES

WHEREAS, accordingly, the Board agrees with the applicant that the proposed bulk is compatible with the character of the neighborhood; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622, to permit, within an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio ("FAR"), open space, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, and 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received October 16, 2013"- (12) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 4,016 sq. ft. (1.0 FAR), a minimum open space of 50.7 percent, a minimum rear yard depth of 20'-0", and side yards with minimum widths of 2'-0" and 8'-0", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 14, 2014.

**187-13-BZ
CEQR #13-BSA-161X**

APPLICANT – Sheldon Lobel, P.C., for 1030 Southern Boulevard LLC, owner; 1030 Southern Boulevard Fitness Group, LLC, lessee.

SUBJECT – Application June 21, 2013 – Special Permit (§73-36) to allow the operation of a physical culture establishment (*Planet Fitness*), and Special Permit (§73-52) to extend commercial use into the portion of the lot located within a residential zoning district. C4-4/R7-1 zoning district.

PREMISES AFFECTED – 1024-1030 Southern Boulevard, east side of Southern Boulevard approximately 134' north of the intersection formed by Aldus Street and Southern Boulevard, Block 2743, Lot 6, Borough of Bronx.

COMMUNITY BOARD #2BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Hinkson and Commissioner Montanez4

Absent: Commissioner Ottley-Brown.....1

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Bronx Borough Commissioner, dated June 6, 2013, acting on Department of Buildings ("DOB") Application No. 220259119, reads in pertinent part:

Proposed physical culture establishment, is not permitted as-of-right in a C4-4 zoning district, per ZR 32-10;

Proposed extension of physical culture establishment use into R7-1 portion of zoning lot is not permitted per ZR 22-10 and 77-11; and

WHEREAS, this is an application under ZR §§ 73-36, 73-03, and 73-52 to permit, on a site located partially within a C4-4 zoning district and partially within an R7-1 zoning district, the legalization of a physical culture establishment ("PCE") in portions of the first and second floors and mezzanine level of an existing two-story commercial building, contrary to ZR § 32-10, and to permit the legalization of an extension of the proposed PCE use within the existing building into the R7-1 portion of the zoning lot, contrary to ZR § 77-11; and

WHEREAS, a public hearing was held on this application on December 17, 2013, after due notice by publication in *The City Record*, and then to decision on January 14, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Bronx, recommends approval of this application; and

WHEREAS, the subject site is an irregularly-shaped zoning lot with interior lot and through lot portions and located in the mid-block of the block bounded by Aldus Street, Southern Boulevard, Westchester Avenue, East 165 Street, and Hoe Avenue; and

WHEREAS, the site is partially within a C4-4 zoning district and partially within an R7-1 zoning district; and

WHEREAS, the site has approximately 120 feet of frontage along Southern Boulevard, 20 feet of frontage along Hoe Avenue, and a lot area of 26,300 sq. ft.; and

WHEREAS, the site is occupied by a two-story commercial building that was constructed around 1913 and used as a theater (known as "Lowe's Boulevard Theater") until the 1980s, when it was converted to retail use; and

MINUTES

WHEREAS, the PCE occupies portions of the first (10,906 sq. ft. of floor area) and second floors (5,085 sq. ft. of floor area), and second floor mezzanine (1,339 sq. ft. of floor area), for a total PCE floor area of 17,330 sq. ft.; and

WHEREAS, the applicant notes that although the Board has not previously exercised jurisdiction over the site, an application similar to the instant application (a request for special permits under ZR §§ 73-36 and 73-52) was filed by another fitness center operator and withdrawn in October 2012; and

WHEREAS, the applicant notes that the PCE has been in operation since July 15, 2013; and

WHEREAS, the PCE is currently operated as a Planet Fitness; and

WHEREAS, the applicant proposes to: (1) pursuant to ZR § 73-52, extend the use regulations applicable in the C4-4 portion of the site 25 feet to the east and 25 feet to the south, thereby legalizing the PCE use in the portion of the first floor of the existing building within the R7-1 portion of the site; and (2) pursuant to ZR § 73-36, legalize the PCE use in portions of the first and second floors, and second floor mezzanine of an existing two-story commercial building at the site; and

WHEREAS, ZR § 73-52 provides that when a zoning lot, in single ownership as of December 15, 1961, is divided by district boundaries in which two or more uses are permitted, the Board may permit a use which is permitted in the district in which more than 50 percent of the lot area of the zoning lot is located to extend not more than 25 feet into the remaining portion of the zoning lot where such use is not permitted, provided that: (1) without any such extension, it would not be economically feasible to use or develop the remaining portion of the zoning lot for a permitted use; and (2) such extension will not cause impairment of the essential character or the future use or development of the surrounding area; and

WHEREAS, as to the threshold issue of single ownership, the applicant submitted documents reflecting the history of ownership of the subject site and adjoining sites showing that the zoning lot was in single ownership prior to December 15, 1961 and continuously from that time onward; and

WHEREAS, as to the 50-percent lot area requirement, the applicant submitted a site plan indicating that approximately 22,005 sq. ft. of the site's 26,300 sq. ft. of lot area (84 percent) is located within a C4-4 zoning district; and

WHEREAS, accordingly, the Board finds that the site meets the threshold requirements for ZR § 73-52; and

WHEREAS, as to economic feasibility, the applicant represents that it would not be economically feasible to use or develop the R7-1 portion of the site for a permitted use; specifically, the applicant states that the residential portion of the site is already occupied with a portion of the existing building that is too small to accommodate an independent, viable residential or community facility tenant; and

WHEREAS, in addition, the applicant states that the portion of the site and the building within the R7-1 district

does not have access to a public street; as such, absent the requested extension of the PCE into the residential space, a substantial portion of the first floor of the building would be unusable and remain vacant; and

WHEREAS, the Board agrees that it would not be economically feasible to use or develop the remaining portion of the zoning lot, zoned R7-1, for a permitted use; and

WHEREAS, as to the extension's effect on the surrounding area, the applicant states that the proposed extension is consistent with existing land use conditions and anticipated projects in the immediate area, in that the area surrounding the site is predominated by commercial and medium-density residential uses; further, the proposed PCE will be entirely within the existing building; and

WHEREAS, the applicant also notes that the PCE does not have any windows on entrances facing the residential district, and that commercial uses have existed at the site for approximately 100 years; and

WHEREAS, accordingly, the Board finds that the proposed extension of the C4-4 zoning district portion of the lot into the R7-1 portion will not cause impairment of the essential character or the future use or development of the surrounding area, nor will it be detrimental to the public welfare; and

WHEREAS, the Board, therefore, has determined that the evidence in the record supports the requisite findings pursuant to ZR § 73-52; and

WHEREAS, turning to the findings for ZR § 73-36, the applicant represents that the services at the PCE include facilities for group training, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE will be 24 hours per day and seven days per week; and

WHEREAS, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the future use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, finally, the PCE will not interfere with any pending public improvement project; and

WHEREAS, at hearing, the Board questioned whether the mezzanine was required to be made accessible for persons with certain physical disabilities; and

WHEREAS, in response, the applicant represented that the mezzanine level was not required to be made accessible

MINUTES

because the amenities offered on that level are available on one or more accessible levels of the PCE; and

WHEREAS, the Board, therefore, has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No. 13BSA161X, dated June 21, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36, 73-03, and 73-52 to permit, on a site located partially within a C4-4 zoning district and partially within an R7-1 zoning district, the legalization of a physical culture establishment (“PCE”) in portions of the first and second floors and mezzanine level of an existing two-story commercial building, contrary to ZR § 32-10, and to permit the legalization of an extension of the proposed PCE use within the existing building into the R7-1 portion of the zoning lot; *on condition* that all work will substantially conform to drawings filed with this application marked “September 5, 2013” – Five (5) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on July 15, 2023;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT the bulk parameters of the building will be as follows: 2,443.75 sq. ft. within the R7-1 portion of the lot and 14,886.25 sq. ft. within the C4-4 portion of the lot;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the certificate of occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 14, 2014.

223-13-BZ

APPLICANT – Stroock & Stroock & Lavan LLP by Ross F. Moskowitz, for NYC Department of Citywide Administrative Services, owner.

SUBJECT – Application July 24, 2013 – Special Permit (§73-36) to allow a physical culture establishment (*Kingsbridge National Ice Wellness Center*) in an existing building. C4-4/R6 zoning district.

Absent: Commissioner Otley-Brown.....1

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Bronx Borough Commissioner, dated July 19, 2013, acting on Department of Buildings (“DOB”) Application No. 220326001, reads in pertinent part:

Proposed physical culture establishment is not permitted as of right; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in a C4-4 zoning district, the operation of a physical culture establishment (“PCE”) on portions of the sub-cellar levels of an existing commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on November 26, 2013, after due notice by publication in *The City Record*, and then to decision on

MINUTES

January 14, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 7, Bronx, recommends approval of this application; and

WHEREAS, the subject site is the entire block bounded by West Kingsbridge Road, West 195th Street, Jerome Avenue, and Reservoir Avenue; and

WHEREAS, the site has approximately 297,200 sq. ft. of lot area and is occupied by two, two-story commercial buildings occupied by the United States National Guard (“USNG buildings”), and by the Kingsbridge Armory, an individual New York City Landmark, which is also listed on the New York State and National Registers of Historic Places; and

WHEREAS, the applicant represents that it has sought the necessary City Planning Commission approvals to convert the Armory building to indoor ice skating rinks and other retail and commercial spaces; and

WHEREAS, the applicant states that the converted building will be known as the Kingsbridge National Ice Center; and

WHEREAS, the PCE is proposed to occupy approximately 10,000 sq. ft. of floor space on portions of sub-cellar 1 and sub-cellar 2 of the building; and

WHEREAS, the PCE will be operated in connection with the Kingsbridge National Ice Center; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE will be Monday through Friday, from 6:00 a.m. to 9:00 p.m., and Saturday and Sunday, from 8:00 a.m. to 6:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Board notes that, on October 17, 2013, the Landmarks Preservation Commission issued a Binding Report indicating its approval of the proposal; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that

the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No. 13DME013X, dated April 16, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals adopts the Type I Negative Declaration issued by the Deputy Mayor’s Office prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located in a C4-4 zoning district, the operation of a physical culture establishment (“PCE”) on portions of the sub-cellar levels of an existing commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received October 18, 2013” – Ten (10) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on January 14, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT all required City Planning Commission approvals will be obtained;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved

MINUTES

only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 14, 2014.

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Executive Director of the NYC Development Hub, dated February 7, 2013, acting on Department of Buildings Application No. 121329268 reads, in pertinent part:

Proposed conversion of an office building to a Use Group 5 transient hotel does not comply with MDL Section 26(7), in that legally required windows open onto an existing inner court; and

WHEREAS, this is an application pursuant to Multiple Dwelling Law (“MDL”) § 310, to vary court requirements in order to allow for the proposed conversion of the subject building from office and adult vocational school uses (Use Groups 6 and 9) to a transient hotel (Use Group 5), contrary to MDL § 26(7); and

WHEREAS, a public hearing was held on this application on July 9, 2013, after due notice by publication in *The City Record*, with a continued hearing on August 13, 2013, and then to decision on October 8, 2013; and

WHEREAS, the site and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is a rectangular lot located on the south side of Beekman Street and extending from Theater Alley to Nassau Street, within a C5-5 district within the Special Lower Manhattan District; and

WHEREAS, the site has approximately 100 feet of frontage along Beekman Street, approximately 146 feet of frontage along Nassau Street, approximately 150 feet of frontage along Theater Alley, and a lot area of 14,937 sq. ft.; and

WHEREAS, the site is occupied by a ten-story commercial building that was constructed between 1881 and 1890 and is known as the Temple Court Building and Annex (the “Building”); and

WHEREAS, on February 10, 1998, the Building was designated as an individual landmark by the New York City Landmarks Preservation Commission (“LPC”); and

WHEREAS, the Board has exercised jurisdiction over the subject site since October 19, 2004, when, under BSA Cal. No. 383-03-A, the Board authorized the retention of an open, unenclosed access stair contrary to the 1938 Building Code and the MDL in connection with a proposed conversion from office and adult vocational school uses (Use Groups 6 and 9) to residences (Use Group 2); and

WHEREAS, in 2009, another application was filed with the Board, under BSA Cal. No. 12-09-A, seeking MDL and 1938 Building Code waivers in connection with a proposed conversion from office and adult vocational school uses (Use Groups 6 and 9) to transient hotel (Use Group 5); this application was withdrawn on July 19, 2011; and

WHEREAS, the applicant notes that, despite the Board’s action under BSA Cal. No. 383-08-A, the Building was never converted to residential use and has been vacant for many years; and

WHEREAS, the applicant now proposes to convert the Building to a transient hotel use (Use Group 5) with 287 rooms (the “Proposal”); and

WHEREAS, the applicant states that while the proposed use is permitted as-of-right in the underlying zoning district, the Building’s existing inner court, as defined by MDL § 4(32), does not comply with the applicable provisions of the MDL; and

WHEREAS, the Board notes that pursuant to MDL § 4(9), transient hotels are considered “class B” multiple dwellings; therefore the proposed hotel use must comply with the relevant provisions of the MDL; and

WHEREAS, pursuant to MDL § 30(2), every room in a multiple dwelling must have one window opening directly upon a street or upon a lawful yard, court or space above a setback located on the same lot as that occupied by the multiple dwelling; and

WHEREAS, the applicant states that of the 287 rooms proposed, 32 rooms (11 percent) would have required windows opening onto the existing inner court; and

WHEREAS, MDL § 26(7) states that, except as otherwise provided in the Zoning Resolution, (1) an inner court shall have a minimum width of four inches for each one foot of height of such court and (2) the area of such inner court shall be twice the square of the required width of the court, but need not exceed 1,200 sq. ft. so long as there is a horizontal distance of at least 30 feet between any required living room window opening onto such court and any wall opposite such window; and

WHEREAS, the applicant states that the Building’s existing inner court with a height of 121 feet does not comply with the requirements of MDL § 26(7), in that it has a width of approximately 30’-8¼” and a depth of approximately 16’-

MINUTES

2¾", and an area of 514 sq. ft., but is required, per MDL § 26(7) to have a minimum width of 40'-3" and a minimum depth of 30'-0" and an area of 1,200 sq. ft.; as such, the applicant requests that the Board waive compliance with that provision pursuant to MDL § 310; and

WHEREAS, pursuant to MDL § 310(2)(a), the Board has the authority to vary or modify certain provisions of the MDL for multiple dwellings that existed on July 1, 1948, provided that the Board determines that strict compliance with such provisions would cause practical difficulties or unnecessary hardships, and that the spirit and intent of the MDL are maintained, public health, safety and welfare are preserved, and substantial justice is done; and

WHEREAS, as noted above, the Building was constructed in the 1880s and completed around 1890; therefore it is subject to MDL § 310(2)(a); and

WHEREAS, specifically, MDL § 310(2)(a) empowers the Board to vary or modify provisions or requirements related to: (1) height and bulk; (2) required open spaces; (3) minimum dimensions of yards or courts; (4) means of egress; and (5) basements and cellars in tenements converted to dwellings; and

WHEREAS, the Board notes that MDL § 26(7) specifically relates to the minimum dimensions of courts; therefore the Board has the power to vary or modify the subject provision pursuant to MDL § 310(2)(a)(3); and

WHEREAS, the applicant represents that practical difficulty and unnecessary hardship would result from strict compliance with the MDL; and

WHEREAS, the applicant states that, in order for all of the hotel units in the proposed hotel to have windows that open onto a street or a lawful yard or court, as required by MDL § 30(2), extensive structural work would be required to enlarge the inner court to a complying dimension, including construction of new foundations below the annex cellar, shoring of the two existing floor beams down to the foundation, the installation of three new beams on the edge of the new opening, the installation of a new metal deck and concrete topping between the edge beam and the remaining interior floor beam, the demolition of each floor and wall for one story below, and the installation of a new light well façade; and

WHEREAS, as an alternative to the creation of a complying court, the applicant explored the feasibility of a design in which the inner court was not altered and the rooms were configured so that no room used the inner court to satisfy MDL § 30(2); and

WHEREAS, the applicant represents that both complying configurations significantly increase costs and reduce revenue; and

WHEREAS, specifically, the applicant represents that providing a complying inner court would result in a reduction in the number of hotel rooms from 287 to 263 (24 rooms) and a loss of 6,669 sq. ft. of floor area; further, the construction cost of providing a complying court would exceed the proposed design cost by approximately \$23,000 per room; and

WHEREAS, as to the design in which the inner court is

not altered and the rooms are reconfigured, the applicant represents that such a design would result in a reduction in the number of rooms from 287 to 255 (32 rooms) and construction costs in excess of the proposed design of approximately \$27,000 per room; and

WHEREAS, further, the applicant asserts that both complying designs would generate significantly less annually than the proposal; specifically, the complying inner court design would generate approximately \$2,500,000 less than the proposal and the reconfigured rooms design would generate approximately \$3,400,000 less than the proposal; and

WHEREAS, based on the above, the Board agrees that the applicant has established a sufficient level of practical difficulty and unnecessary hardship in complying with the requirements of MDL § 26(7); and

WHEREAS, the applicant states that the requested variance of MDL §26(7) is consistent with the spirit and intent of the MDL, and will preserve public health, safety and welfare, and substantial justice; and

WHEREAS, the applicant represents that the Building was constructed to meet the demands of a late-19th Century office and, as such, is unsuitable to satisfy the demands of a modern office, but can be altered to provide transient accommodations to business travelers and tourists in Lower Manhattan; and

WHEREAS, the applicant notes that only 11 percent of the rooms will use the existing inner court for light and ventilation and that, because the rooms will be occupied for less than 30 days, and, presumably, by visitors who will spend a significant portion of their time touring the city or conducting business outside their room, the impact of the deficient court upon the health, safety and welfare of the occupants of the hotel will be, at most, negligible; and

WHEREAS, the applicant represents that the proposal will not affect the historical integrity of the building, which, as noted above, was designated by LPC as an individual landmark in 1998; and

WHEREAS, the applicant submitted a Certificate of No Effect from LPC approving the proposed interior alterations, dated April 30, 2013, and a Permit for Minor Work from LPC approving the exterior alterations, dated March 27, 2013; and

WHEREAS, based on the above, the Board finds that the proposed variance to MDL § 26(7) will maintain the spirit and intent of the MDL, preserve public health, safety and welfare, and ensure that substantial justice is done; and

WHEREAS, accordingly, the Board finds that the Appellant has submitted adequate evidence in support of the findings required to be made under MDL § 310(2)(a) and that the requested variance of MDL § 26(7) is appropriate, with certain conditions set forth below.

Therefore it is Resolved, that the decision of the Executive Director of the NYC Development Hub, dated February 7, 2013, acting on Department of Buildings Application No. 121329268, is modified and that this application is granted, limited to the decision noted above, on condition that construction shall substantially conform to the

MINUTES

plans filed with the application marked, "Received June 3, 2013" - twelve (12) sheets; and on further condition:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed Department of Buildings objections related to the MDL;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 8, 2013.

***The resolution has been amended to the 18th WHEREAS, and 28th WHEREAS. Corrected in Bulletin Nos. 1-3, Vol. 99, dated January 23, 2014.**

119-03-BZ

APPLICANT – Rothkrug Rothkrug & Spector LLP, for A/R Retail LLC, owner; Equinox Columbus Centre, LLC, lessee. SUBJECT – Application October 1, 2013 – Extension of term of a special permit (§73-36) to allow the continued operation of a physical culture establishment (*Equinox*), which expired on September 16, 2013. C6-6 (MID) zoning district.

PREMISES AFFECTED – 10 Columbus Circle, aka 301 West 58th Street and 303 West 60th Street, northwest corner of West 58th Street and Columbus Circle, Block 1049, Lot 1002, Borough of Manhattan.

COMMUNITY BOARD #4M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for an extension of term for a physical culture establishment (“PCE”), which expired on September 16, 2013; and

WHEREAS, a public hearing was held on this application on December 17, 2013, after due notice by publication in *The City Record*, and then to decision on January 28, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 4, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is an irregular lot located on the west side of Columbus Circle, between West 59th Street and West 60th Street, within a C6-6 zoning district within the Special Midtown District; and

WHEREAS, the site is occupied by a 54-story commercial building, known as the Time Warner Center, with approximately 2,103,828 sq. ft. of floor area; and

WHEREAS, the PCE is located on a portion of the sub-cellar (40,887 sq. ft. of floor space) and first floor (720 sq. ft. of floor area) of the building, for a total PCE floor space of

41,607 sq. ft.; and

WHEREAS, the PCE is operated as Equinox; and

WHEREAS, on September 16, 2013, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-36, to permit, in a C6-6 zoning district within the Special Midtown District, the operation of a PCE for a term of ten years; and

WHEREAS, the applicant now seeks to extend the term of the PCE special permit for ten years; and

WHEREAS, based upon its review of the record, the Board finds that an extension of term for ten years is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated September 16, 2003, so that as amended the resolution reads: “to grant an extension of the special permit for a term of ten years, to expire on September 16, 2023; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked ‘Received January 14, 2014’-(6) sheets; and *on further condition*:

THAT this grant will be limited to a term of ten years, to expire on September 16, 2023;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT there will be no change in ownership or operating control of the PCE without prior approval from the Board;

THAT the above conditions will appear on the certificate of occupancy;

THAT a certificate of occupancy will be obtained by January 28, 2015;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, January 28, 2014.

209-03-BZ

APPLICANT – Law Office of Fredrick A. Becker, for 150 Central Park South Incorporated, owner; Exhale Enterprises, Inc., lessee.

SUBJECT – Application September 23, 2013 – Extension of term of a variance (§72-21) for the continued operation of physical culture establishment (*Exhale Spa*) located in a portion of a 37-story residential building which expired on October 21, 2013. R10-H zoning district.

PREMISES AFFECTED – 150 Central Park South, south side of Central Park South between Avenue of the Americas and Seventh Avenue, Block 1011, Lot 52, Borough of Manhattan.

COMMUNITY BOARD #5M

MINUTES

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for an extension of term for a variance authorizing a physical culture establishment (“PCE”) in an R10H (C5-1) zoning district, which expired on October 21, 2013; and

WHEREAS, a public hearing was held on this application on December 17, 2013, after due notice by publication in *The City Record*, and then to decision on January 28, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 5, Manhattan, declines to issue a recommendation regarding this application; and

WHEREAS, the subject site is an interior lot located on the south side of Central Park South, between Seventh Avenue and Avenue of the Americas, within an R10H (C5-1) zoning district; and

WHEREAS, the site is occupied by a 37-story mixed residential and commercial building with approximately 307,549 sq. ft. of floor area; and

WHEREAS, the PCE is located on portions of the cellar, first and second floors, for a total PCE floor space of 10,500 sq. ft.; and

WHEREAS, the PCE is operated as Equinox; and

WHEREAS, on October 21, 2003, under the subject calendar number, the Board granted a variance, pursuant to ZR § 72-21, to permit, in an R10H district, the operation of a PCE for a term of ten years contrary to ZR § 22-00; and

WHEREAS, the applicant now seeks to extend the term of the variance authorizing the PCE for ten years; and

WHEREAS, based upon its review of the record, the Board finds that an extension of term for ten years is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated October 21, 2003, so that as amended the resolution reads: “to grant an extension of the variance for a term of ten years, to expire on October 21, 2023; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked ‘Received December 11, 2013’- (4) sheets; and *on further condition*:

THAT this grant will be limited to a term of ten years, to expire on October 21, 2023;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT there will be no change in ownership or

operating control of the PCE without prior approval from the Board;

THAT the hours of operation of the PCE will be limited to Monday through Friday, from 6:30 a.m. to 9:00 p.m., and Saturday and Sunday, from 8:00 a.m. to 8:00 p.m.;

THAT the above conditions will appear on the certificate of occupancy;

THAT a certificate of occupancy will be obtained by January 28, 2015;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, January 28, 2014.

176-09-BZ

APPLICANT – Bryan Cave LLP/Margery Perlmutter, for NYC Fashion Institute of Technology, owner.

SUBJECT – Application October 4, 2013 – Extension of time to complete construction of a Special Permit (§73-64) to waive height and setback regulations (§33-432) for a community use facility (*Fashion Institute of Technology*) which expired on October 6, 2013. C6-2 zoning district.

PREMISES AFFECTED – 220-236 West 28th Street, south side of West 28th Street between Seventh Avenue and Eighth Avenue, Block 777, Lot 1, 18, 37, Borough of Manhattan.

COMMUNITY BOARD #5M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of time to complete construction under a previously-granted special permit, which authorized, within a C6-2 zoning district, the construction of a ten-story addition to an existing community facility building (Use Group 3); the time to complete construction expired on October 6, 2013; and

WHEREAS, a public hearing was held on this application on December 17, 2013, after due notice by publication in *The City Record*, and then to decision on January 28, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, and Commissioner Ottley-Brown; and

MINUTES

WHEREAS, this application is brought on behalf of the Fashion Institute of Technology (“FIT”), a college of the State University of New York, a non-profit entity; and

WHEREAS, the subject site is located on the south side of West 28th Street, between Seventh Avenue and Eighth Avenue, within a C6-2 zoning district; and

WHEREAS, the site is currently occupied by four FIT buildings located on Lots 1, 18 and 37, with a total floor area of 746,889 sq. ft.; and

WHEREAS, the Board has exercised jurisdiction over the subject site since October 6, 2009, when, under the subject calendar number, the Board granted a special permit pursuant to ZR §§ 73-641 and 73-03, to permit, on a site located within a C6-2 zoning district, the construction of a ten-story addition to an existing community facility building (Use Group 3), which does not comply with the zoning requirements for height, setback and sky exposure plane, contrary to ZR § 33-432; and

WHEREAS, substantial construction was to be completed by October 6, 2013, in accordance with ZR § 73-70; however, as of that date, substantial construction was not complete; and

WHEREAS, accordingly, the applicant now requests an extension of time to complete construction; and

WHEREAS, the applicant notes that work has not commenced at the site due to insufficient funding; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated October 6, 2009, so that as amended the resolution reads: “to grant an extension of the time to complete construction for a term of four years, to expire on October 6, 2017; *on condition*:

THAT substantial construction will be completed by October 6, 2017;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Application No. 120029940)

Adopted by the Board of Standards and Appeals, January 28, 2014.

68-13-A

APPLICANT – Bryan Cave LLP, for ESS PRISA LLC, owner; OTR 330 Bruckner LLC, lessee.

SUBJECT – Application February 13, 2013 – Appeal challenging Department of Buildings’ determination that the existing sign is not entitled to non-conforming use status. M3-1 zoning district.

PREMISES AFFECTED – 330 Bruckner Boulevard, Bruckner Boulevard between E. 141 and E. 149 Streets, Block 2599, Lot 165, Borough of Bronx.

COMMUNITY BOARD #1BX

ACTION OF THE BOARD – Appeal Denied.

THE VOTE TO GRANT –

Affirmative:0

Negative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

THE RESOLUTION –

WHEREAS, the subject appeal comes before the Board in response to a Notice of Sign Registration Rejection letter from the Manhattan Borough Commissioner of the Department of Buildings (“DOB”), dated January 14, 2013, denying registration for a sign at the subject premises (the “Final Determination”), which reads, in pertinent part:

The Department of Buildings is in receipt of additional documentation submitted in response to the Deficiency Letter from the Sign Enforcement Unit and in connection with the application for registration of the above-referenced sign. [S]uch documentation does not support the establishment of the existing sign prior to the relevant non-conforming use date. As such, the sign is rejected from registration. This sign will be subject to enforcement action 30 days from the issuance of this letter; and

WHEREAS a public hearing was held on this application on July 16, 2013, after due notice by publication in *The City Record*, with a continued hearing on September 24, 2013, and then to decision on January 28, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, the subject premises (“the Premises”) is located on the east side of Bruckner Boulevard between East

MINUTES

141st Street and East 149th Street, within an M3-1 zoning district; and

WHEREAS, the Premises is occupied by an eight-story warehouse; on the northeast wall of the building is an advertising sign measuring 79 feet by 143 feet (11,297 sq. ft.) (the “Sign”); and

WHEREAS, this appeal is brought on behalf of the lessee of the Sign structure, OTR Media Group, Inc. (the “Appellant” or “OTR”); and

WHEREAS, the Appellant states that the Sign is located 35 linear feet from and within view of the Bruckner Expressway, which is an arterial highway pursuant to Appendix H of the Zoning Resolution; and

WHEREAS, the Appellant states that the Premises has been located within an M3-1 zoning district since the adoption of the Zoning Resolution on December 15, 1961; and

WHEREAS, the Appellant states that DOB has issued permits for the Sign in connection with the following application numbers: (1) 201143217 in 2008 (the “2008 Permit”); (2) 200080170 in 1990 (the “1990 Permit”); and (3) BN 27/81 in 1981 (the “1981 Permit”); in addition, in 2012, the Appellant applied for and was denied a permit for the sign under Application No. 220233110 (“the 2012 Permit”); and

WHEREAS, the 1981 Permit application was filed on January 21, 1981 to legalize an existing business sign; the application includes an amendment (the “Amendment”), dated March 18, 1981, which states

Request reconsideration to the objection of 3/4/81 on grounds that the sign under construction is a business sign. Since a storage and office facility is maintained in this building by the company whose sign is located on the easterly wall of said building, said sign complies with section 42-51 of the Zoning Resolution for a business sign; and

WHEREAS, below the reconsideration request is a handwritten note, which states that “Request denied as per report herewith attached” and is signed by the Bronx Borough Commissioner and dated March 18, 1981; and

WHEREAS, the 1981 Permit application also includes: (1) an April 14, 1981 letter from the Chairman of Community Board 1 to New York Bus Service (“Community Board letter”), in which the Chairman states that he knows of “no objection to the sign as a business sign”; and (2) an April 15, 1981 declaration (the “Declaration”) executed by the owner of the Premises at the time, Peter’s Bag Corp., which states that “when New York Bus Service ceases to use a portion of [the Premises] to conduct their business, the sign indicating their business will be removed from the face of [the Premises]”; and

WHEREAS, finally, the 1981 Permit application includes a Departmental Memorandum, dated May 7, 1981, from the DOB Commissioner to the Bronx Borough Commissioner regarding the Premises (the “Reconsideration”); the Reconsideration makes reference to the Zoning Resolution definition of “business sign,” the

Chairman’s letter, and the Declaration, and provides, in pertinent part, that “[i]n view of the above . . . reconsideration is given in this matter provided that the Declaration is acceptable to the Department Counsel, reference is made on Building Notice Application and the Declaration is filed with the City Register prior to issuance of the permit”; and

WHEREAS, the 1990 Permit was revoked on March 15, 2013, the 2008 Permit was revoked on April 23, 2013, and the 2012 Permit application was disapproved on July 15, 2013; the permit revocations and denial, and DOB’s January 14, 2013 Final Determination denying registration of the Sign reflect the DOB’s interpretation that the Sign is not a lawful, non-conforming advertising sign because it was changed under the 1981 Permit to an accessory business sign, which discontinued the advertising sign use; and

WHEREAS, the Appellant now seeks a reversal of DOB’s rejection of the registration of the Sign1; and

WHEREAS, DOB appeared and made submissions in opposition to this appeal; and

REGISTRATION REQUIREMENT

WHEREAS, the relevant statutory requirements related to sign registration have been in effect since 2005; and

WHEREAS, under Local Law 31 of 2005, the New York City Council enacted certain amendments to existing regulations governing outdoor advertising signs; and

WHEREAS, the amendments are codified under Articles 501, 502, and 503 of the 2008 Building Code and were enacted to provide DOB with a means of enforcing the sign laws where signs had been erected and were being maintained without a valid permit; and

WHEREAS, pursuant to Article 502 (specifically, Building Code § 28-502.4), an outdoor advertising company is required to submit to DOB an inventory of:

all signs, sign structures and sign locations located (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet [60.96 m] from and within view of a public park with an area of ½ acre (5000 m) or more; and

WHEREAS, further, Local Law 31 authorized the Commissioner of DOB to promulgate rules establishing permitting requirements for certain signs; the DOB rules, enacted under Rule 49, provide specific procedures for registration of advertising signs; Rule 49-15(5) reads in pertinent part:

Each sign shall be identified as either “advertising” or “non-advertising.” To the extent a sign is a non-conforming sign, it must further be identified as “non-conforming advertising” or

1 DOB’s basis for denying the 2012 Permit application on July 15, 2013 and denying the request to register the Sign on January 14, 2013 are identical. As such, this appeal challenges both DOB actions.

MINUTES

“non-conforming non-advertising.” A sign identified as “non-conforming advertising” or “non-conforming non-advertising” shall be submitted to the Department for confirmation of its non-conforming status, pursuant to section 49-16 of this chapter; and

WHEREAS, subchapter B of Rule 49 (Registration of Outdoor Advertising Companies), (specifically, Rule 49-15(d)(15)(b)), sets forth the acceptable forms of evidence to establish the size and the existence of a non-conforming sign on the relevant date set forth in the Zoning Resolution; and

WHEREAS, the acceptable forms of evidence set forth at Rule 49 are, in pertinent part as follows:

Acceptable evidence may include permits, sign-offs of applications after completion, photographs and leases demonstrating that the non-conforming use existed prior to the relevant date; and

WHEREAS, affidavits are also listed as an acceptable form of evidence; and

WHEREAS, a DOB guidance document sets forth the instructions for filing under Rule 49 and states that any one of the following documents would be acceptable evidence for sign registration pursuant to Rule 49: (1) DOB issued permit for sign erection; (2) DOB-approved application for sign erection; (3) DOB dockets/permit book indicating sign permit approval; and (4) publicly catalogued photograph from a source such as NYC Department of Finance, New York Public Library, Office of Metropolitan History, or New York State Archives; and

REGISTRATION PROCESS

WHEREAS, on September 5, 2012, pursuant to the requirements of Article 502 and Rule 49, the Appellant submitted a Sign Registration Application for the Sign and completed an OAC3 Outdoor Advertising Company Sign Profile, attaching copies of the following in support of the establishment of the Sign: the 1981 Permit; the 1990 Permit; the 2008 Permit; a 1958 photo; a 1959 and 1980 Bronx Yellow Pages excerpt; a 1967 photo; a 1978 mortgage; a 1980 photo; a 1980 letter from the president of the New York Bus Service; Bronx address book excerpts from 1956, 1959, 1967, and 1980; a 1973 New York Bus Service Bus Schedule; photos from 1988, 1993, 1994, 1998, 2001, 2005, 2008, 2009, 2010, 2011, and 2012; and two affidavits from sign painters; and

WHEREAS, on October 3, 2012, DOB issued a Notice of Sign Registration Deficiency, stating that “[DOB is] unable to accept the sign for registration at this time (due to your) failure to provide proof of legal establishment”; and

WHEREAS, the Appellant states that, believing its evidence to be sufficient, it did not submit further evidence in response to the October 3, 2012 notice; and

WHEREAS, accordingly, on January 14, 2013, DOB issued the Final Determination denying registration; and

RELEVANT STATUTORY PROVISIONS

ZR § 12-10 Definitions

Accessory use, or accessory

An "accessory use":

- (a) is a #use# conducted on the same #zoning lot# as the principal #use# to which it is related (whether located within the same or an #accessory building or other structure#, or as an #accessory use# of land), except that, where specifically provided in the applicable district regulations or elsewhere in this Resolution, #accessory# docks, off-street parking or off-street loading need not be located on the same #zoning lot#; and
- (b) is a #use# which is clearly incidental to, and customarily found in connection with, such principal #use#; and
- (c) is either in the same ownership as such principal #use#, or is operated and maintained on the same #zoning lot# substantially for the benefit or convenience of the owners, occupants, employees, customers, or visitors of the principal #use#.

When "accessory" is used in the text, it shall have the same meaning as #accessory use#.

* * *

Sign, advertising

An "advertising sign" is a #sign# that directs attention to a business, profession, commodity, service or entertainment conducted, sold, or offered elsewhere than upon the same #zoning lot# and is not #accessory# to a #use# located on the #zoning lot#.

* * *

Non-conforming, or non-conformity

A "non-conforming" #use# is any lawful #use#, whether of a #building or other structure# or of a #zoning lot#, which does not conform to any one or more of the applicable #use# regulations of the district in which it is located, either on December 15, 1961 or as a result of any subsequent amendment thereto; and

* * *

ZR § 42-55

Additional Regulations for Signs Near Certain Parks and

Designated Arterial Highways

M1 M2 M3

In all districts, as indicated, the provisions of paragraphs (a),(b) and (c), or paragraph (d), of this Section, shall apply for #signs# near designated arterial highways or certain #public parks#.

- (a) Within 200 feet of an arterial highway or a #public park# with an area of one-half acre or more, #signs# that are within view of such arterial highway or #public park# shall be subject to the following provisions:
 - (1) no permitted #sign# shall exceed 500 square feet of #surface area#; and
 - (2) no #advertising sign# shall be allowed; nor shall an existing #advertising sign# be

MINUTES

structurally altered, relocated or reconstructed.

(b) Beyond 200 feet from such arterial highway or #public park#, the #surface area# of such #signs# may be increased one square foot for each linear foot such sign is located from the arterial highway or #public park#.

(c) The more restrictive of the following shall apply:

(1) any #advertising sign# erected, structurally altered, relocated or reconstructed prior to June 1, 1968, within 660 feet of the nearest edge of the right-of-way of an arterial highway, whose message is visible from such arterial highway, shall have legal #non-conforming use# status pursuant to Section 52-83 (Non-Conforming Advertising Signs), to the extent of its size existing on May 31, 1968; or

(2) any #advertising sign# erected, structurally altered, relocated or reconstructed between June 1, 1968, and November 1, 1979, within 660 feet of the nearest edge of the right-of-way of an arterial highway, whose message is visible from such arterial highway, and whose size does not exceed 1,200 square feet in #surface area# on its face, 30 feet in height and 60 feet in length, shall have legal #non-conforming use# status pursuant to Section 52-83, to the extent of its size existing on November 1, 1979. All #advertising signs# not in conformance with the standards set forth herein shall terminate.

* * *

ZR § 52-11 *Continuation of Non-Conforming Uses*

General Provisions

A #non-conforming use# may be continued, except as otherwise provided in this Chapter.

* * *

ZR § 52-61 *Discontinuance*

General Provisions

If, for a continuous period of two years, either the #nonconforming use# of #land with minor improvements# is discontinued, or the active operation of substantially all the #non-conforming uses# in any #building or other structure# is discontinued, such land or #building or other structure# shall thereafter be used only for a conforming #use#. Intent to resume active operations shall not affect the foregoing . . . ; and

* * *

Administrative Code § 28-502.4 – Reporting Requirement

An outdoor advertising company shall provide the department with a list with the location of signs,

sign structures and sign locations under the control of such outdoor advertising company in accordance with the following provisions:

(1)The list shall include all signs, sign structures and sign locations located (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet (60 960 mm) from and within view of a public park with an area of ½ acre (5000 m) or more...

* * *

1 RCNY § 49-15 – Sign Inventory to be Submitted with Registration Application

...(d)(5) Each sign shall be identified as either “advertising” or “non-advertising.” To the extent a sign is a non-conforming sign, it must further be identified as “non-conforming advertising” or “non-conforming non-advertising.” A sign identified as “non-conforming advertising” or “non-conforming non-advertising” shall be submitted to the Department for confirmation of its non-conforming status, pursuant to section 49-16 of this chapter.

* * *

1 RCNY § 49-16 – Non-conforming Signs

(a) With respect to each sign identified in the sign inventory as non-conforming, the registered architect or professional engineer shall request confirmation of its non-conforming status from the Department based on evidence submitted in the registration application. The Department shall review the evidence submitted and accept or deny the request within a reasonable period of time. A sign that has been identified as non-conforming on the initial registration application may remain erected unless and until the Department has issued a determination that it is not non-conforming; and

* * *

1 RCNY § 49-43 – Advertising Signs

Absent evidence that revenue from the sign is clearly incidental to the revenue generated from the use on the zoning lot to which it directs attention, the following signs are deemed to be advertising signs for purposes of compliance with the Zoning Resolution:

(a) Signs that direct attention to a business on the zoning lot that is primarily operating a storage or warehouse use for business activities conducted off the zoning lot, and that storage or warehouse use occupies less than the full building on the zoning lot; or

(b) All signs, other than non-commercial, larger than 200 square feet, unless it is apparent from the copy and/or depictions on the sign that it is used to direct the attention of vehicular and pedestrian traffic to the business on the zoning lot.

RELEVANT DOB POLICY AND PROCEDURE NOTICES

Technical Policy and Procedure Notice No. 14/1988

Documentation in Support of Existing Use

[T]he following shall be a guideline, in order of preference, for the acceptable documentation in support of [an] existing use for legalization or proof of continual non-conforming use:

- a) Records of documentation from any City Agency. Such records may include, but not be limited to, tax records, multiple dwelling registration cards, I cards from HPD and cabaret licenses.
- b) Records, bills, documentation from public utilities indicating name and address of business and time period bills cover.
- c) Any other documentation or bills indicating the use of the building, such as telephone ads, commercial trash hauler invoices, liquor licenses, etc.
- d) Only after satisfactory explanation or proof that the documentation pursuant to (a), (b) or (c) does not exist, affidavits regarding the use of a building will be accepted to support either an application for legalization or as proof concerning whether or not a prior non-conforming use was continual per ZR 52-61. However, where such affidavits are submitted, they may be accepted only after the Borough Superintendent has reviewed them with close scrutiny; and

* * *

Operations Policy and Procedure Notice No. 10/1999

Signs Presumed to be Not Accessory / Advertising

In the following instances, there will be a rebuttable presumption that the proposed sign is not accessory, i.e., there will be a rebuttable presumption that the sign is an advertising sign.

- a. A sign proposed in connection with a principal use whose activity on the zoning lot consists primarily of storage or a warehouse for its business activities conducted off the zoning lot and where the principal use occupies less than the full building on the zoning lot.

ISSUE ON APPEAL

WHEREAS, the Board notes that the Appellant and DOB agree that advertising sign use was established at the Premises as of May 31, 1968; and

WHEREAS, in addition, the Board notes that the Appellant and DOB agree that messages for New York Bus

Service were displayed on the side of the building at the Premises from 1981 to 1988; and

WHEREAS, accordingly, at issue is whether the display of such messages constituted a discontinuance of the advertising sign use, per ZR § 52-61; and

THE APPELLANT'S POSITION

WHEREAS, the Appellant contends that the Final Determination should be reversed because the Sign has been used for advertising since before May 31, 1968 until the present, without any two-year period of discontinuance, making it a protected non-conforming advertising sign pursuant to ZR §§ 42-55(c)(2) and 52-11; and

WHEREAS, the Appellant concedes that the 1981 Permit was for an accessory business sign, but asserts that the Sign never actually displayed messages regarding the principal use of the Premises; and

WHEREAS, specifically, the Appellant states that although from 1981 to 1988, the Sign hosted messages relating to New York Bus Service in ostensible accordance with the 1981 Permit, during that time period the Sign continued to satisfy the definition of "advertising sign" because New York Bus Service did not conduct any operations at the Premises; and

WHEREAS, in support of this assertion, the Appellant submitted several affidavits from individuals claiming personal knowledge of the use of the Premises during the time period in question; the affiants include: (1) the vice president of the corporate entity ("Peter's Bag Corp.") that owned the Premises from 1965 through 1987; (2) the chief financial officer of Peter's Bag Corp. from 1987 through 1989; (3) a purchasing and inventory manager for New York Bus Service from 1980 through 1996; (4) a sign painter who worked at the Premises and painted the Sign from 1977 until 1994; and (5) the principal of OTR; each of the affiants assert that New York Bus Service did not occupy the Premises; and

WHEREAS, the Appellant asserts that, taken together, the sworn statements demonstrate that New York Bus Service had no presence at the Premises other than the Sign; and

WHEREAS, the Appellant also attacks the validity of the 1981 Permit, arguing that it does not contain a sufficient basis for the conclusion that New York Bus Service was the principal use of the Premises such that a New York Bus Service sign could be permitted as a business sign; and

WHEREAS, the Appellant asserts that the 1981 Permit does not include any direct evidence of New York Bus Service's use of the building located at the Premises as a warehouse; as such, the Appellant asserts that the 1981 Permit was issued based on a clear misstatement of fact; and

WHEREAS, the Appellant states that the Community Board Chairman's letter does not attest to New York Bus Service's actual presence at the Premises and that the Declaration merely implies but does not state that New York Bus Service conducts business at the Premises; and

WHEREAS, the Appellant also submitted the following evidence, which it contends contradicts the notion

2 The parties disagree over the number of signs and the calculation of the total surface area occupied by the advertising sign use; however, the Board declines to take a position on this issue for reasons set forth below.

MINUTES

that New York Bus Service had business operations at the Premises when the 1981 Permit was issued: (1) New York Bus Service letterhead from the 1980s, showing its address off the New England Thruway at Exit 13; (2) the 1980 Bronx Yellow Pages listing New York Bus Service at Hutchinson Avenue; and (3) the 1980 Bronx Address Book listing only Peter's Bag Corp. at the Premises; and

WHEREAS, as to the Reconsideration in the 1981 Permit application, the Appellant states that it lacked factual support, and, as such, was clearly granted in error and must be disregarded by DOB and by the Board, citing BSA Cal. No. 251-12-A (330 East 59th Street, Manhattan), in which the Board upheld a DOB determination that a reconsideration was issued in error and could not be relied upon because the Board agreed with DOB that the reviewing official at DOB failed to consider the relevant dates under the Zoning Resolution and BSA Cal. Nos. 95-12-A and 96-12-A (2284 12th Avenue, Manhattan), in which the Board reversed a DOB determination that a reconsideration was issued in error, finding insufficient evidence that DOB clearly issued the reconsideration in error; and

WHEREAS, the Appellant contends that the 1981 Permit was merely a sham and that it should be disregarded from the Board's analysis of whether advertising sign use was continuous at the Premises; and

WHEREAS, the Appellant asserts that DOB's recognition of the sham accessory permit is embodied in Operations Policy and Procedure Notice No. 10/1999 ("OPPN 10/99"), which was issued to govern DOB's handling of permit applications for signs in proximity to arterial highways, and in 1 RCNY 49-43(a), which deems certain signs on zoning lots with warehouses advertising signs; and

WHEREAS, the Appellant notes that in BSA Cal. Nos. 24-12-A and 147-12-A (2368 12th Avenue, Manhattan), the Board sustained DOB's application of Rule 49-43(a) and the OPPN 10/99 to reject registration of two signs as accessory where accessory sign permits had been obtained and the principal use of the zoning lot was purported to be a warehouse, but the evidence of the *bona fides* of the warehouse operation was found by DOB to be insufficient; and

WHEREAS, the Appellant asserts that the facts and circumstances of BSA Cal. Nos. 24-12-A and 147-12-A (2368 12th Avenue, Manhattan) and those surrounding the Sign are similar; however, in that case, DOB repudiated the permits based on the OPPN 10/99 and Rule 49-43(a), but in this case, DOB ignores evidence suggesting that the 1981 Permit was a sham and asserts that it was properly issued; and

WHEREAS, the Appellant states that, accordingly, even if the Board agrees with DOB that the 1981 Permit was properly issued, the Board should find that the arrangement constituted a sham and that the Sign was always used for advertising; and

WHEREAS, in conclusion, the Appellant asserts that the record contains an overwhelming factual basis for the

Board to conclude that the Sign has been used continuously for advertising since before May 31, 1968, and, that, absent the erroneous issuance of the 1981 Permit by DOB, there would be no question as to the Sign's continuity and right to protection under ZR §§ 42-55 and 52-11; and

WHEREAS, as such, the Appellant asserts that the Final Determination should be reversed, the Sign registration application accepted, and the 2012 Permit application approved; and

DOB'S POSITION

WHEREAS, DOB asserts that to the extent that an advertising sign use was established as non-conforming at the Premises, such use cannot be recognized as non-conforming today because the New York Bus Company sign displayed in 1981 was legalized pursuant to a permit for an as-of-right accessory sign; as such, per ZR § 52-61, the Sign lost its non-conforming status; and

WHEREAS, DOB states that in 1981, ZR § 42-52 generally allowed accessory business signs with no restriction on size, illumination or proximity to an arterial highway or park; in contrast, ZR § 42-53 prohibited advertising signs within 200 feet and within view of an arterial highway (which continued the prohibition on arterial advertising signs that has existed since June 28, 1940); and

WHEREAS, DOB asserts that in 1981, where a sign was in proximity to an arterial highway and purported to be accessory to a warehouse, the sign was presumed to be an advertising sign (DOB notes that this presumption was later formalized as OPPN 10/99 and Rule 49-43(a)); and

WHEREAS, accordingly, DOB states that when it initially reviewed the 1981 Permit application, it determined that the application lacked sufficient evidence to overcome the presumption that the New York Bus Service sign was an advertising sign; and

WHEREAS, however, DOB states that it ultimately determined that the applicant had provided sufficient documentation to overcome the presumption of advertising; and

WHEREAS, in particular, DOB asserts that it relied on multiple representations in the 1981 Permit application documents that the sign was an accessory use to an on-site business, including: (1) the application job description, which was certified by a registered architect and states that the application is "filed for business sign painted on easterly wall of building in accordance with plans filed herewith"; (2) the Amendment, which was also certified by a registered architect and states that "a storage and office facility is maintained in this building by the company whose sign is located on the easterly wall of said building"; and (3) the Declaration, made by the vice president of Peter's Bag Corp., which implies that New York Bus Service conducts business on the Premises when it declares that the Sign will be removed when it ceases to conduct business; and

WHEREAS, further, DOB notes that the 1981 Permit application includes the Community Board letter, which implies but does not directly state that the proposed sign is a business sign rather than an advertising sign; and

MINUTES

WHEREAS, therefore, DOB states that, in 1981, it had a sufficient basis to issue the 1981 Permit legalizing the accessory sign; and

WHEREAS, likewise, DOB asserts that the Appellant has not in the course of this proceeding advanced a sufficient reason to question the validity of or repudiate the issuance of 1981 Permit; and

WHEREAS, to support this assertion, DOB cites to the Board's decision in BSA Cal. Nos. 95-12-A and 96-12-A (2284 12th Avenue, Manhattan); in that case, DOB states that the Board found that where the record reflects DOB's prior acknowledgement that a sign use was legally established and there is no sufficient evidence to invalidate that determination, it should not be disturbed or disregarded; and

WHEREAS, DOB states that the evidence provided by the Appellant allegedly demonstrating that the 1981 Permit was a sham is unpersuasive; and

WHEREAS, specifically, DOB states that the Appellant erroneously relies on four affidavits—two from former officers of Peter's Bag Corp., and one each from a former manager of New York Bus Service, a sign painter, and the president of OTR Media Group, Inc.—to support its sham argument; and

WHEREAS, DOB contends that these affidavits are not sufficient to demonstrate that the accessory sign permit was issued in error and do not undermine the position that an accessory sign was displayed from 1981 through 1988 in accordance with the 1981 Permit; and

WHEREAS, DOB notes that under Technical Policy and Procedure Notice No. 14/1988 ("TPPN 14/88"), affidavits cannot be the sole basis for demonstrating a use; and

WHEREAS, DOB asserts that the affidavit of the vice president of Peter's Bag Corp. is particularly questionable since the 1981 Permit application appears to bear his signature; of the two contradictory statements from this affiant, the statement made contemporaneously with the filing of the permit application stating that the sign was accessory to the New York Bus Service's use of the premises to conduct its business is more credible than a conflicting statement made 32 years later as to the actual use of the sign; and

WHEREAS, DOB also states that the sign painter's statement that he did not see any offices or storage for New York Bus Service inside the building in 1977 does not prove exclusive use of the building located at the Premises by other tenants; and

WHEREAS, in addition, DOB states that the Appellant's evidence that Peter's Bag Corp. occupied the Premises in 1980 and that New York Bus Service had facilities at locations during the 1980s other than at the Premises does not prove that New York Bus Service did not also operate a storage facility at the Premises when the 1981 Permit was issued; nor does the Appellant's evidence of New York Bus Service facilities in other locations prove that the statements made in connection with the 1981 Permit

application were untrue and made with the intent to circumvent the law; and

WHEREAS, DOB also observes that evidence of a contemporaneous use provided on behalf of the current occupant of the building, such as that reviewed by DOB in 1981, is likely to be more credible than evidence of a historical use; and

WHEREAS, finally, DOB observes that whereas BSA Cal. Nos. 95-12-A and 96-12-A (2284 12th Avenue, Manhattan) involved a determination that a sign was entitled to non-conforming use status, here, DOB determined in 1981 that the Sign was *conforming*; in such a case, DOB asserts that there is even less cause to overturn a DOB determination since non-conforming uses are disfavored under the Zoning Resolution; and

WHEREAS, accordingly, DOB states that it properly issued the Final Determination denying registration of the Sign as a non-conforming advertising sign; and

CONCLUSION

WHEREAS, the Board finds that DOB properly denied the Sign registration because the use of the Sign for advertising was discontinued for a period of more than two years; and

WHEREAS, in particular, the Board finds that, based on the record, the Sign was used to display messages that were accessory to the principal use of the warehouse at the Premises for more than two years, beginning in 1981, when the 1981 Permit was obtained to legalize an existing business sign for New York Bus Service, until 19883; and

WHEREAS, the Board agrees with DOB that the Appellant has not submitted sufficient evidence to demonstrate that DOB clearly erred in issuing the 1981 Permit; and

WHEREAS, the Board also agrees with DOB that the Reconsideration issued in connection with the 1981 Permit was properly issued and supported by substantial evidence, including numerous contemporaneous assertions by different people—an officer of the corporate entity that owned the Premises at the time, the job applicant, and the Chairman of the Community Board—each with an obligation under the Administrative Code not to provide false or misleading statements to DOB; as noted above, the officer of the corporate entity that owned the Premises stated that "when New York Bus Service ceases to use a portion of [the Premises] to conduct their business, the sign indicating their business will be removed from the face of [the Premises]," the job applicant stated that "[the Sign] complies with section 42-51 of the Zoning Resolution for a business sign," and the Chairman of the Community Board stated that he had "no objection to the sign as a business sign"; and

WHEREAS, the Board notes that the job applicant, as a registered architect, also had an ethical obligation not to provide false statements or misleading statements in a permit

3 Based on the record, the parties agree that messages for the New York Bus Service were displayed on the Sign from 1981 until 1988.

MINUTES

application; and

WHEREAS, the Board disagrees with the Appellant that a parsing of the 1981 Permit application documents indicates that no one actually stated that New York Bus Service occupied the Premises; rather, the Board finds that the clear intent of the documents and the statements made therein was to convince DOB that New York Bus Service occupied the Premises so that DOB would grant a permit legalizing the New York Bus Service sign, which, as noted above, measured 11,297 sq. ft. in surface area and was located 35 feet from the Bruckner Expressway and was permitted as an accessory business sign but prohibited as an advertising sign; and

WHEREAS, as to the Appellant's affidavits asserting that New York Bus Service did not use the Premises while the New York Bus Service sign was displayed, the Board agrees with DOB that they are not a sufficient basis to conclude that the 1981 Permit was issued in error; and

WHEREAS, the Board observes that although the Appellant's affidavits suggest the existence of a sham accessory permit, affidavits are the least valuable form of evidence of a use according to TPPN 14/88, and, as such, they must be scrutinized closely and are insufficient to establish a fact, absent supporting documentation; and

WHEREAS, under close scrutiny, the Board finds the affidavits unpersuasive, as follows: (1) the affidavit of the vice president of Peter's Bag Corp. is directly contradicted by statements made by the vice president himself in connection with the 1981 Permit application; (2) the affidavit from chief financial officer of Peter's Bag Corp. could only be based on personal knowledge acquired during 1987 or 1988, because the CFO states that he was employed by Peter's Bag Corp. from 1987 through 1989; (3) the affidavit of the purchasing and inventory manager for New York Bus Service from 1980 through 1996 is vague and contradicted by evidence in the record; (4) the affidavit of the sign painter who worked at the Premises is insufficient to prove the actual use of the building since it is unclear when and how often he visited the building and how much of the building he actually observed; and (5) the affidavit of the principal of OTR is not based on personal knowledge and may be tainted by OTR's interest in the outcome of the appeal; and

WHEREAS, the Board also noted, importantly, that none of the affiants claims to have occupied the building during the time period in question; as such, the affidavits are of limited value when weighed against contemporaneous statements to the contrary that were made proactively in support of a permit application; and

WHEREAS, as for the non-affidavit evidence submitted by the Appellant, the Board agrees with DOB that it is of limited evidentiary value; and

WHEREAS, specifically, the Board agrees with DOB that documentary evidence that Peter's Bag Corp. occupied the Premises in 1980 and that New York Bus Service had facilities at locations during the 1980s other than at the Premises does not prove that New York Bus Service did not also operate a storage facility at the Premises when the 1981 Permit was issued; similarly, the Appellant's evidence of

New York Bus Service facilities in other locations do not prove that it did not also maintain a storage facility at the Premises; and

WHEREAS, accordingly, the Board agrees with DOB that neither the Reconsideration nor the 1981 Permit was issued in error; as such, and consistent with the Board's rationale in BSA Cal. Nos. 95-12-A and 96-12-A (2284 12th Avenue, Manhattan), the Board declines to overrule DOB's 1981 determination; and

WHEREAS, the Board also rejects the Appellant's assertion that the facts in the instant matter are similar to those in BSA Cal. Nos. 24-12-A and 147-12-A (2368 12th Avenue, Manhattan); and

WHEREAS, the Board notes that the 1981 Permit was subjected to a full plan examination, including a rigorous fact-finding inquiry on the issue of the principal use of the Premises, and supported by a Commissioner-level reconsideration and a restrictive declaration by the owner of the Premises; in contrast, the accessory permits obtained in BSA Cal. Nos. 24-12-A and 147-12-A (2368 12th Avenue, Manhattan) were filed under professional certification and signed off nearly four years after the adoption of OPPN 10/99; and

WHEREAS, additionally, the Board notes that when the 1981 Permit was obtained, the Sign was subject to ZR § 42-53 (the pre-cursor to ZR § 42-55), which was amended on February 21, 1980 to, among other things, confer non-conforming use status upon advertising signs subject to the arterial highway restrictions to the extent of their size as of May 1, 1968; and

WHEREAS, accordingly, at hearing, the Board questioned why there was no attempt in 1981 to legalize the Sign as an advertising sign under ZR § 42-53; in response, the Appellant speculated that the evidence of the Sign's establishment and/or continuous use (under ZR § 52-61), was unavailable at the time; and

WHEREAS, thus, the Board observes that it is reasonable to conclude that the 1981 Permit was obtained for an accessory sign because there was insufficient evidence to support a permit application to "grandfather" an advertising sign pursuant to the 1980 amendment to ZR § 42-53 and ZR § 52-61; and

WHEREAS, as to the Appellant's assertion that even if the 1981 Permit was not issued in error, the Board should find that, based on the record, the New York Bus Service sign was, by definition, an advertising sign because the message displayed was related to a business operated off the zoning lot, the Board disagrees; and

WHEREAS, the Board observes that, according to TPPN 14/88, the highest value documentation for demonstrating a use is a record from a city agency; the 1981 Permit is a record from a city agency, namely, DOB, the agency responsible for regulating the use and occupancy of buildings; by issuing the 1981 Permit, DOB made an official statement about not only the accessory use authorized by the permit (the New York Bus Service sign), but also the principal use of the Premises (a storage facility for New

MINUTES

York Bus Service); the Appellant’s evidence to the contrary consists of affidavits, which are the lowest value evidence under TPPN 14/88; further, as noted above, the affidavits contain statements that are vague, virtually unsupported, contradictory, and/or self-serving; and

WHEREAS, therefore, the Board finds that DOB properly determined that to the extent that a non-conforming advertising sign use was established at the Premises, such use was discontinued, per ZR § 52-61, from 1981 until 1988 when an accessory sign was maintained; as such, DOB properly rejected the Appellant’s registration of the Sign as a non-conforming advertising sign and properly denied the 2012 Permit application; and

WHEREAS, the Board notes that a secondary issue arose in the context of the appeal regarding the number of signs and total surface area of advertising sign use displayed as of May 31, 1968; the Appellant contends that, based on a 1967 photo, an 11,297 sq.-ft. sign existed at the Premises as of May 31, 1968; DOB contends that the 1967 photo shows that six separate signs existed with less than 11,297 sq. ft. of surface area; in essence, the parties disagree over how the surface area of a sign is measured under the applicable provisions of the Zoning Resolution; however, the Board finds that the precise size of the Sign (or signs) as of May 31, 1968 is inconsequential, since, for the reasons set forth above, the Board finds that no advertising sign is permitted at the Premises, per ZR §§ 42-55 and 52-61; therefore, the Board does not take a position on this issue; and

Therefore it is Resolved that this appeal, challenging a Final Determination issued on January 14, 2013, is denied.

Adopted by the Board of Standards and Appeals, January 28, 2014.

131-13-A & 132-13-A

APPLICANT – Sheldon Lobel, P.C., for Rick Russo, owner.
SUBJECT – Application May 10, 2013 – Proposed construction of a residence not fronting on a legally mapped street, contrary to General City Law Section 36. R2 & R1 (SHPD) zoning districts.

PREMISES AFFECTED – 43 & 47 Cecilia Court, Cecilia Court off of Howard Lane, Block 615, Lot 210, Borough of Staten Island.

COMMUNITY BOARD #1SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown and Commissioner Hinkson...4

Negative: Commissioner Montanez.....1

THE RESOLUTION –

WHEREAS, the decisions of the Staten Island Borough Commissioner, dated April 24, 2013, acting on Department of Buildings Application Nos. 520117506 and 520117490 read, in pertinent part:

The street giving access to proposed building is not duly placed on the official map of the City of New

York therefore:

A) No Certificate of Occupancy can be issued pursuant to Article 3, Section 36 of the General City Law

B) Proposed construction does not have at least 8% of the total perimeter of building fronting directly upon a legally mapped street or frontage space contrary to Section 502.1 of the 2008 NYC Building Code; and

WHEREAS, a public hearing was held on this application on September 24, 2013, after due notice by publication in *The City Record*, with continued hearings on October 22, 2013, November 26, 2013, and December 17, 2013, and then to decision on January 28, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan and Commissioner Montanez; and

WHEREAS, City Councilmember Debbie Rose submitted testimony in opposition to the application, citing fire safety concerns; and

WHEREAS, certain members of the surrounding community, including a community group known as the Serpentine Art & Nature Commons, Inc. (the “Opposition”), provided written and oral testimony in opposition to the application citing the following concerns: (1) the slope of the roadway and its distance will interfere with firefighting operations; (2) the proposal is contrary to a private agreement (a November 1950 restrictive covenant) concerning the site and other nearby parcels; and (3) the Board previously denied a GCL § 36 waiver application concerning the site in part because the Fire Department disapproved the application; and

WHEREAS, the subject site is located on Cecilia Court off of Howard Lane, partially within an R1-1 zoning district and partially within an R2 zoning district, within the Special Hillside Preservation District; and

WHEREAS, the applicant states that the site does not front a mapped street, but has access to Howard Avenue, a mapped street, via a private utility and access easement known as Howard Lane, which was recorded on December 12, 1950 but does not appear on the City Map; the applicant notes that Howard Lane has a width of 16 feet, a slope of approximately 12.2 percent and that the distance between the proposed building and Howard Avenue along Howard Lane is 550 feet; and

WHEREAS, the applicant states that the site is vacant; however, it has been the subject of a series of Board and City Planning actions over the years; specifically, on February 28, 1989, under BSA Cal Nos. 26-86-A, 27-86-A and 28-86-A, the Board denied applications filed pursuant to GCL § 36 to permit construction of three single-family residences not fronting on a mapped street; on January 6, 1998, under BSA Cal. No. 209-07-A, the Board granted an application filed pursuant to GCL § 36 to permit the construction of one single-family residence not fronting on a mapped street; in 2001, the Department of City Planning approved an authorization application filed under ULURP No. N000523 ZAR to allow the construction of a single-family residence on former Lot

MINUTES

210; and

WHEREAS, the applicant now seeks to construct two, three-story, single-family residences contrary to GCL § 36 and to change the slope of Howard Lane to 7.3 percent; and

WHEREAS, by letter dated August 26, 2013, the Fire Department stated that the residences are proposed on a private roadway having a substandard width, contrary to the Fire Code, but that it would not object to their construction provided that the residences are fully-sprinklered in accordance with New York City Building Code § 903 and the Fire Interim guidelines, which state that the Fire Department will grant a modification for construction of new occupancy group R-3 (one-family and two-family) dwellings with modified fire apparatus access if the building is designed, constructed, and maintained in accordance with New York City Building Code § 903; and

WHEREAS, on September 3, 2013, the applicant submitted a revised site plan to address the request of the Fire Department; and

WHEREAS, at hearing, the Board raised concerns regarding the slope of the roadway and the firefighting apparatus access; and

WHEREAS, in response, the applicant submitted a letter, a survey, and a site plan, which contends that: (1) the existing roadway was constructed prior to the current Fire Code requirements and Special Hillside Preservation District regulations and has served as access for emergency services to the existing homes fronting the roadway for many years; and (2) the Fire Department firefighting manual indicates that the maximum roadway slope for a tower ladder is 15 percent, which is more than the existing mean slope of 12.2 percent and significantly more than the proposed mean slope of 7.3 percent; therefore, the applicant asserts that either slope is within the acceptable slope for firefighting purposes; and

WHEREAS, by letter dated October 22, 2013, the Opposition raises concerns regarding the information provided by the applicant as to the length and slope of the grade; and

WHEREAS, by letter dated October 28, 2013, the Fire Department informed the Board that, based on additional information regarding the site, it now objected to the proposed roadway because it included grades substantially in excess of ten percent, contrary to Fire Code § 503.2.7; and

WHEREAS, following a series of discussions and letters among the parties, the Fire Department approved the revised proposal, subject to the following conditions: (1) the residences will be fully-sprinklered; (2) a Fire Code-compliant apparatus turnaround will be installed; (3) two new fire hydrants will be installed; (4) a new eight-inch water main from Howard Avenue to the northerly end of the private road will be installed; and (5) the applicant will provide satisfactory evidence to the Department of Buildings that there is unrestricted permanent access along the length of the private road to the applicant's property line; and

WHEREAS, in response to the issues identified by the Opposition regarding Howard Lane, which is a private easement, the applicant acknowledged that it would be required to seek authorization from the other parties to the

1950 restrictive covenant in order to implement certain Fire Department conditions; and

WHEREAS, on January 15, 2014, the applicant submitted a revised site plan that was reviewed and approved by the Fire Department; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved, that the decisions of the Staten Island Borough Commissioner, dated July 15, 2013, acting on Department of Buildings Application Nos. 520117506 and 520117490 is modified by the power vested in the Board by Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction will substantially conform to the drawings filed with the application marked "Received January 15, 2014" (2) sheets; and *on further condition*

THAT the proposal will comply with all applicable zoning district requirements and all other applicable laws, rules, and regulations;

THAT all required approvals from the Department of City Planning will be obtained prior to the issuance of building permits;

THAT the building will be fully sprinklered in accordance with BSA-approved plans;

THAT a Fire Code-compliant apparatus turnaround will be installed;

THAT two new fire hydrants will be installed;

THAT a new eight-inch water main from Howard Avenue to the northerly end of the private road will be installed;

THAT the applicant will provide satisfactory evidence to the Department of Buildings that there is unrestricted permanent access along the length of the private road to the applicant's property line;

THAT there will be "No Parking" along the entire length of the easement;

THAT the conditions requested by the Fire Department be implemented before the Temporary Certificate of Occupancy and Certificate of Occupancy are issued;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT DOB will review the proposed plans to ensure compliance with all relevant provisions of the Zoning Resolution;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals on January 28, 2014.

APPLICANT – Nikolaos Sellas, for L & A Group Holdings LLC, owners.

SUBJECT – Application August 8, 2013 – Proposed construction of a four-story residential building located within the bed of a mapped street (29th Street), contrary to General City Law Section 35. R6A/R6B zoning district.

PREMISES AFFECTED – 29-19 Newtown Avenue, northeasterly side of Newtown Avenue 151.18' northwesterly from the corner formed by the intersection Newtown Avenue and 30th Street, Block 597, Lot 7, Borough of Queens.

COMMUNITY BOARD #4Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez

Negative:.....

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated August 7, 2013, acting on Department of Buildings Application No. 420839150, reads in pertinent part:

Proposed construction partially located in bed of mapped street as per GCL 35; and

WHEREAS, a public hearing was held on this application on December 17, 2013, after due notice by publication in *The City Record*, and then to decision on January 28, 2014; and

WHEREAS, an application for the adjacent site, Lot 9, was decided on the same date, pursuant to BSA Cal. No. 231-13-A (29-15 Newtown Avenue, Queens); and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Montanez; and

WHEREAS, this is an application to allow the construction of a four-story multiple dwelling partially within the bed of 29th Street, a mapped but unbuilt street; and

WHEREAS, the subject site is located on the east side of Newton Avenue between 28th Street and 30th Street, partially within an R6A zoning district and partially within an R6B zoning district; and

WHEREAS, Community Board 4, Queens, recommends approval of this application; and

WHEREAS, by letter dated September 3, 2013, the Fire Department states that it has reviewed the proposal and has no objection to its approval; and

WHEREAS, by letter dated September 11, 2013, the Department of Environmental Protection (“DEP”) states that: (1) there is a 12-inch diameter private combined sewer and an eight-inch diameter city water main in 29th Street between Newton Avenue and Astoria Boulevard; and (2) Amended Drainage Plan, dated February 15, 1935, sheet 1 of 3, for the above referenced location, calls for a future 12-inch diameter combined sewer in the bed of 29th Street between Newton

Avenue and Astoria Boulevard; and

WHEREAS, DEP’s letter further states that it requires the applicant to submit a survey/plan showing: (1) the width of mapped 29th Street and the width of the widening portion of the street at the above referenced location; and (2) the distance from the lot line of Lot 7 to the terminal manhole of the 12-inch diameter private combined sewer, the end cap of the eight-inch diameter city water main, and the hydrant in the bed of 29th Street, between Newton Avenue and Astoria Boulevard; and

WHEREAS, in response to DEP’s request, the applicant submitted an updated survey; and

WHEREAS, by letter dated November 25, 2013, DEP states that, based on the survey submitted by the applicant, the future 12-inch diameter combined sewer crossing Lot 7 and Lot 9 will not be required, and, therefore, DEP has no objection to the proposed applications; and

WHEREAS, by correspondence dated January 17, 2014 the Department of Transportation (“DOT”) states that it has reviewed the proposal and has no objections; and

WHEREAS, the DOT notes that according to the Queens Borough President’s Topographical Bureau: (1) Newton Avenue from 28th Street to 30th Street is a mapped street with width of 70 feet on the City Map and was acquired to full width on July 11, 1914; (2) 29th Street between Astoria Avenue and Newton Avenue has a Corporation Counsel Opinion of dedication for 37 feet, as in use on May 2, 1922; and (3) the portion of 29th Street within the proposed development site is mapped at a width of 45 feet width on the City Map and the City does not have title; and

WHEREAS, DOT also notes that the improvement of 29th Street at this location (Block 597, Lot 7) is not presently included in DOT’s Capital Improvement Program; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved, that the decision of the Queens Borough Commissioner, dated August 7, 2013, acting on Department of Buildings Application No. 420839150, is modified by the power vested in the Board by Section 35 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction will substantially conform to the drawing filed with the application marked “Received January 22, 2014” one (1) sheet; that the proposal will comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations will be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT DOB will review the proposed plans to ensure compliance with all relevant provisions of the Zoning Resolution;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure

WHEREAS, the decision of the Queens Borough Commissioner, dated August 22, 2012, acting on Department of Buildings Application No. 420511495, reads in pertinent part:

Office use (UG 6) in R4/R5B is contrary to ZR 22-10; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site partially within an R4 zoning district and partially within an R5B zoning district, the construction of a two-story commercial building to be occupied as a bank (Use Group 6) with five accessory off-street parking spaces and a drive-through, contrary to ZR § 22-10; and

WHEREAS, a public hearing was held on this application on August 20, 2012, after due notice by publication in the *City Record*, with continued hearings on November 19, 2013 and December 17, 2013, and then to decision on January 28, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 7, Queens, recommends approval of this application; and

WHEREAS, the subject site is located at the northwest corner of the intersection of College Point Boulevard and 28th Avenue, partially within an R4 zoning district and partially within an R5B zoning district; and

WHEREAS, the site has approximately 66 feet of frontage along College Point Boulevard, approximately 131 feet of frontage along 28th Street, and a lot area of 5,765 sq. ft. (1,845 sq. ft. within the R4 district and 3,919 sq. ft. within the R5B district); and

WHEREAS, the site is occupied by a vacant, two-story

MINUTES

building with approximately 3,760 sq. ft. of floor area; and

WHEREAS, the applicant represents that from approximately 1947 until 2011, the building and site were occupied by a gasoline and automotive service station (Use Group 16) on the first story and a single-family dwelling on the second story; the applicant notes that the site has been subject to the Board's jurisdiction since 1947, when the Board granted a variance under BSA Cal. No. 359-47-BZ to permit the station; such grant expired in 1985 and was reinstated under BSA Cal. No. 5-00-BZ, for a term of ten years; the 2000 grant expired on October 3, 2010; and

WHEREAS, the applicant proposes to construct the following at the site: a two-story commercial building with 5,082 sq. ft. of floor area (0.88 FAR) to be occupied as a bank (Use Group 6); an accessory parking lot with five spaces; and a drive-through for bank services; and

WHEREAS, because Use Group 6 is not permitted within the subject residence districts (R4 and R5B, as noted above), the subject use variance is requested; and

WHEREAS, the applicant states that, per ZR § 72-21(a), the following are unique physical conditions, which create practical difficulties and unnecessary hardship in occupying the subject site in conformance with underlying district regulations: (1) the site's contamination; and (2) the site's proximity to manufacturing uses; and

WHEREAS, the applicant states that underground gasoline storage tanks were maintained in connection with the gasoline and automotive service station, and that the presence of such tanks resulted in subsurface contamination; such contamination, in turn, led to the development and implementation of a remediation plan under the supervision of the New York State Department of Environmental Conservation; and

WHEREAS, in support of this statement, the applicant provided estimates of costs associated with remediation of the site; and

WHEREAS, as to the adjacency of manufacturing uses, the applicant states that the site is located directly across the street from M1-1 and M1-2 zoning districts, which are occupied with industrial uses that render the site unsuitable for conforming uses; and

WHEREAS, in particular, the applicant states that there are five corner lots (including the subject site) at the intersection of 28th Avenue and College Point Boulevard and that all five contain manufacturing, industrial or automotive uses; accordingly, a residential or community facility building would have to be offered at discounted rates that would be insufficient to offset the costs of remediation and the inefficiencies inherent in developing a trapezoidal site; and

WHEREAS, based upon the above, the Board finds that the site's contamination and proximity to manufacturing uses create unnecessary hardship and practical difficulty in developing the site in conformance with use regulations; and

WHEREAS, the applicant assessed the financial feasibility of three scenarios: (1) an as-of-right mixed residential and community facility building; (2) an as-of-right community facility building; and (3) the proposal; and

WHEREAS, the applicant concluded that only the proposal would result in a sufficient return; and

WHEREAS, at hearing, the Board directed the applicant to clarify the costs associated with remediation of the contaminated site; and

WHEREAS, in response, the applicant submitted detailed calculations and an itemized cost breakdown; and

WHEREAS, based upon its review of the record, the Board has determined that because of the subject site's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that, in accordance with ZR § 72-21(c), the proposed use will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant represents that the immediate area is characterized by low- to medium-density commercial and manufacturing uses; and

WHEREAS, the applicant states that there are non-conforming commercial and manufacturing uses on the two blocks directly north and directly south of the site along College Point Boulevard, and that the areas south and east of the site are almost exclusively commercial and manufacturing; and

WHEREAS, the applicant acknowledges that its two immediately adjacent lots are occupied by a mixed residential and commercial building on Block 4292, Lot 11 (which is directly north of the site) and a single-family residence on Block 4292, Lot 75, which is directly west of the site; however, the applicant states that the proposed bank office use is harmonious with a residential neighborhood, in that it has regular, daytime business hours and does not create any noise, traffic, or air quality impacts; further, the applicant has located the bank building on the southeastern-most corner of the lot and provided appropriate buffering measures, including a six-foot opaque fence with plantings; and

WHEREAS, the applicant also notes that the proposal has the support of a nearby homeowner's association; and

WHEREAS, the applicant represents and the Board agrees that the proposed bank (including its drive-through) will have significantly less traffic impacts on the neighborhood than the gasoline and automotive service station that previously occupied the site; and

WHEREAS, finally, the applicant states that a manufacturing use has occupied the site for nearly 70 years and that the change to office use brings the site more into conformance with the site's R4/R5B designation and its nearby residential uses; and

WHEREAS, at hearing, the Board directed the applicant to clarify the need for the second story and the drive-through, and their impacts on the parking requirements of the bank; and

WHEREAS, in response, the applicant submitted a

MINUTES

letter from the prospective tenant of the space, which stated that both the second floor and the drive-through are essential to its banking operations; according to the bank, the second floor would provide space for loan officers and customer service representatives to meet with patrons but would not increase the number of employees working at the branch; as such, the second floor has no impact on the parking requirements of the bank; in addition, the applicant provided a parking survey that demonstrated the proposed five spaces would, in light of nearby on-street parking, be adequate to accommodate the expected parking demand of the bank; and

WHEREAS, as for the drive-through, the applicant states that it is an amenity that would be particularly desirable for its local patrons, who tend to be automobile-oriented; and

WHEREAS, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that the practical difficulties and unnecessary hardships associated with the site result from the shape of the site, its contamination, and its proximity to manufacturing uses; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title, in accordance with ZR § 72-21(d); and

WHEREAS, the applicant represents and the Board agrees that, per ZR § 72-21(e), the proposal represents the minimum variance needed to allow for a reasonable and productive use of the site; and

WHEREAS, thus, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an as unlisted action pursuant to 6 NYCRR, Sections 617.6(h) and 617.2(h) of 6 NYCRR; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 13-BSA-034Q, dated September 19, 2012; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and

Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 to permit, on a site partially within an R4 zoning district and partially within an R5B zoning district, the construction of a two-story commercial building to be occupied as a bank (Use Group 6) with five accessory off-street parking spaces and a drive-through, contrary to ZR § 22-10; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received July 12, 2013"– (8) sheets; and *on further condition*:

THAT the bulk parameters of the building will be as follows: two stories; a maximum floor area of 5,082 sq. ft. (0.88 FAR); a maximum height of 26'-10"; a maximum lot coverage of 2,541 sq. ft.; and five accessory parking spaces;

THAT the building will be used as a bank;

THAT any change in use of the building will be subject to the Board's approval;

THAT landscaping and fencing will be in accordance with the BSA-approved plans;

THAT signage will comply with C1 district regulations;

THAT this approval is limited to the relief granted by the Board, in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT substantial construction will proceed in accordance with ZR § 72-23;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 28, 2014.

APPLICANT – Nasir J. Khanzada, for Aqeel Klan, owner.
SUBJECT – Application February 28, 2013 – Re-Instatement (§11-411) of a variance which permitted an auto service station (UG16B), with accessory uses, which expired on November 6, 1992; Amendment (§11-413) to permit the change of use from auto service station to auto repair (UG 16B) with accessory auto sales; Waiver of the Rules. R2 zoning district.

PREMISES AFFECTED – 264-12 Hillside Avenue, Block 8794, Lot 22, Borough of Queens.

COMMUNITY BOARD # 13Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

MINUTES

Affirmative: Chair Srinivasan, Vice Chair Collins,
Commissioner Ottley-Brown, Commissioner Hinkson and
Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, a reinstatement, a change in use, and an extension of term for the continued use of an automotive repair facility, which expired on November 6, 1992; and

WHEREAS, a public hearing was held on this application on July 9, 2013, after due notice by publication in *The City Record*, with continued hearings on October 29, 2013 and December 10, 2013, and then to decision on January 28, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the site is located at the northeast corner of Hillside Avenue and 265th Street within an R2 zoning district; and

WHEREAS, the site has 100 feet of frontage along Hillside Avenue, 100 feet of frontage along 265th Street, 10,000 sq. ft. of lot area, and is occupied by a one-story commercial building used for automotive repairs; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 11, 1958, when, under BSA Cal. No. 59-57-BZ, the Board granted a use variance to permit in a retail use district, the construction of a gasoline service station with office, sales, a lubricatorium, car washing, minor auto repairs, parking and storage of motor vehicles within 75 feet of a residence use district; and

WHEREAS, the grant was subsequently amended at various times; most recently, on October 12, 1983, the Board granted an extension of term for ten years to expire on November 6, 1992; and

WHEREAS, the applicant now seeks to reinstate the variance granted under BSA Cal. No. 59-57-BZ; and

WHEREAS, the applicant does not propose to enlarge the existing building and proposes to make certain improvements to the site conditions and to provide the following uses: automotive repair (Use Group 16B) with accessory office, limited automotive sales, lubricatorium, and hand washing; and

WHEREAS, the Board notes that, under its Rules, an applicant requesting reinstatement of a pre-1961 use variance must demonstrate that: (1) the use has been continuous since the expiration of the term; (2) substantial prejudice would result if reinstatement is not granted; and (3) the use permitted by the grant does not substantially impair the appropriate use and development of adjacent properties; and

WHEREAS, as to continuity, the applicant represents that, although the term expired in 1992, the automotive use has been continuous from 1957 to the present; in support of this representation, the applicant submitted documentation

including a letter related to the gasoline service use from 1995 and the removal of the gasoline storage tanks in 2003, evidence of signage at the site, utility, and an affidavit from a neighbor noting observations of the existence of the use since 1996; and

WHEREAS, further, the applicant represents that substantial prejudice would result if reinstatement is not granted, because the site is occupied by an established business that would be required to cease operations; and

WHEREAS, as to the whether the existing use substantially impairs the appropriate use and development of adjacent properties, the applicant asserts that the garage has operated continuously at the site and has not increased in intensity since its establishment; further, the applicant notes that the historic building form has a peaked roof and brick façade, which is harmonious with the nearby residential character; and

WHEREAS, the applicant also asserts that the use of the site complies with all other findings related to its continued use: (1) the site has an area greater than 7,500 sq. ft.; (2) the facilities for lubrication and minor repairs are located within a completely enclosed building; (3) the site includes reservoir space for four autos awaiting repair as well as three employee parking spaces, one space for hand washing of autos, and two accessory car sales spaces; (4) the community is benefited by having a New York State inspection and auto repair facility; (5) by eliminating the gasoline service at the site, traffic in and out of the site has decreased; and (6) there is screening along lot lines shared with residential use; and

WHEREAS, at hearing, the Board raised concern about (1) the condition of the perimeter brick wall including the presence of graffiti; (2) the presence of temporary signs and excessive signage; (3) the insufficiency of plantings; and (4) the nature of the automotive sales; and

WHEREAS, in response, the applicant provided (1) photographs reflecting the removal of graffiti; (2) the removal of temporary signage and other signage that was inconsistent with the original Board approval; (3) plans for the inclusion and maintenance of plantings; and (4) an explanation that the automotive sales use is limited and related to autos that have been repaired onsite and available for purchase; and

WHEREAS, the applicant states that there will be a total of three active employees on site and the hours of operation will be: Monday through Friday, 6:00 a.m. to 6:00 p.m.; Saturday, 10:00 a.m. to 5:00 p.m.; and Sunday, 10:00 a.m. to 1:00 p.m.; and

WHEREAS, pursuant to ZR § 11-411, the Board may permit an extension of term of an expired variance; and

WHEREAS, based on the applicant's representations, the Board finds that reinstatement of the subject variance is appropriate for a term of ten years is appropriate; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review

MINUTES

and makes each and every one of the required findings under ZR § 11-411 to permit, within an R2 zoning district, the reinstatement of a prior Board approval for an automotive service station at the subject site, *on condition* that any and all work will substantially conform to drawings as they apply to the objection above noted, filed with this application marked 'Received January 14, 2014'- (3) sheets; and *on further condition*:

THAT the term of this grant will be for ten years, to expire on January 28, 2024;

THAT the layout of the site and the landscaping will be as reflected on the BSA-approved plans;

THAT the hours of operation will be limited to Monday through Friday, 6:00 a.m. to 6:00 p.m.; Saturday, 10:00 a.m. to 5:00 p.m.; and Sunday, 10:00 a.m. to 1:00 p.m.;

THAT signage will not exceed that reflected on the BS-approved plans;

THAT the site will be maintained free of debris and graffiti;

THAT the number of automobiles parked on the site will be limited to those reflected on the BSA-approved plans;

THAT the above conditions will be listed on the certificate of occupancy;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Application No. 420551922)

Adopted by the Board of Standards and Appeals, January 28, 2014.

CEQR #13-BSA-147K

APPLICANT – Rothkrug Rothkrug & Spector LLP, for Michael Calabrese, owner.

SUBJECT – Application June 4, 2013 – Variance (§72-21) to permit the enlargement of an existing one-story automobile sales establishment, contrary to use regulations (§22-10). R5 zoning district.

PREMISES AFFECTED – 1614/26 86th Street and Bay 13 Street, southwest corner of 86th Street and Bay 13 Street, Block 6363, Lot 42, Borough of Brooklyn.

COMMUNITY BOARD #11BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated May 5, 2013, acting on Department of

Buildings Application No. 320748045, reads in pertinent part:

Enlargement to an existing one story automobile sales establishment (UG 16) in an R5 zoning district is contrary to Sections 22-10 ZR and 52-40. Prior variance under Cal. No. 103-94-BZ has expired; and

WHEREAS, this is an application under ZR § 72-21, to permit, within an R5 zoning district, the enlargement of an existing one-story building occupied by an automotive sales establishment (Use Group 16), which does not conform to district use regulations, contrary to ZR §§ 22-10 and 52-40; and

WHEREAS, a public hearing was held on this application on September 24, 2013, after due notice by publication in *The City Record*, with continued hearings on October 29, 2013, November 26, 2013, and December 17, 2013, and then to decision on January 28, 2014; and

WHEREAS, the site and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 11, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the southwest corner of 86th Street and Bay 13th Street within an R5 zoning district; and

WHEREAS, the site has approximately 120 feet of frontage on 86th Street and 86 feet of frontage on Bay 13th Street, with a total lot area of 10,320 sq. ft.; and

WHEREAS, the site is currently occupied by a one-story commercial building with 2,434 sq. ft. of floor area (0.24 FAR) used for an automotive dealership (Use Group 16) and open display of vehicles on the remainder of the lot; and

WHEREAS, the building was completed in 1958 pursuant to a variance adopted by the Board on May 7, 1957 under BSA Cal. No. 113-56-BZ, which allowed in business and residence use districts the construction of a gasoline service station, auto washing, lubrication, office, accessory sales, minor repairs with hand tools, parking and storage of more than five motor vehicles, and signs within 75 feet of the residence use district; and

WHEREAS, the term of the variance was extended in 1972 and again in 1983; in 1985, the variance was amended to eliminate the gasoline service station uses and limit the occupancy to automobile sales and accessory parking, including construction of an enlargement to the existing building; and

WHEREAS, on March 30, 1993, the variance was extended to expire on May 7, 2002; however, in 1995, pursuant to BSA Cal. No. 103-94-BZ, the Board granted a new variance application to allow for a one-story enlargement to an existing one-story building used for automobile sales; and

WHEREAS, the proposed enlargement allowed for expansion of the building to the western lot line and was designed to enclose the automobile sales and reduce the visual impact of the existing use; the variance included a 20-year

MINUTES

term to expire on June 20, 2015; and

WHEREAS, the enlargement was never constructed and, ultimately, after the issuance of a new Certificate of Occupancy, which referenced BSA Cal. No. 103-94-BZ, it was discovered that the building and approval pursuant to BSA Cal. No. 113-56-BZ had not been superseded; and

WHEREAS, the applicant now proposes to enlarge the existing one-story building used for automobile sales as was previously approved by the Board under BSA Cal. No. 103-94-BZ; and

WHEREAS, the proposed enlargement would increase the size of the existing building to 5,184 sq. ft. (0.5 FAR) (1.0 FAR is the maximum permitted for a conforming use); and

WHEREAS, because the automotive sales use is not permitted in the subject zoning district, the applicant seeks a use variance to permit the enlargement of the Use Group 16 use; and

WHEREAS, the applicant states that the following are unique physical conditions which create unnecessary hardship and practical difficulties in developing the site with a conforming development: (1) the history of the site for automotive use; (2) the obsolescence of the subject building, built in 1957, for the existing use; and (3) the location on a commercial thoroughfare; and

WHEREAS, as to the history of use and the existing building, the applicant states that the building was designed for automotive uses and operated for such uses from at least 1957 to the present; and

WHEREAS, the applicant represents that the use has been established at the site for more than 50 years and that due to its history of automotive use and associated soil contamination it is precluding from performing significant excavation or creating a cellar; and

WHEREAS, the applicant states that as of right development would require complete demolition of the existing building and would likely involve significant environmental remediation for any below grade excavation due to the historic automotive use, which pre-dates modern environmental regulations; and

WHEREAS, the applicant notes that the proposed construction requires minimal soil disturbance, while allowing the use established by the variance and in continuous existence at the site, in some form, for more than 50 years to continue; and

WHEREAS, as to the existing building, the applicant notes that the current size and L-shape of the building, which has not been altered for almost 30 years, is too constrained to accommodate a modern automotive dealership; and

WHEREAS, the applicant notes that the size is insufficient compared to the standards of automotive dealerships in the immediate vicinity; and

WHEREAS, at the Board's request, the applicant performed an analysis of nearby automotive dealerships and concluded that when compared to the automotive dealerships within 1.7 miles of the site, the existing building is significantly smaller than all others; specifically, the other showrooms have floor area ranging from 4,950 sq. ft. to

20,150 sq. ft. – which is twice to ten times as large as the existing building; and

WHEREAS, further, the applicant concluded that the FAR for the other showrooms is well in excess of the existing 0.23 FAR and the proposed 0.5 FAR, which would be comparable to the smallest of the nearby showrooms; and

WHEREAS, as to the building's shape, the applicant notes that it is an irregular L-shape and that half of the building is set back from the street frontage in a way that diminishes marketability and street presence; and

WHEREAS, the applicant proposes to square-off the building, as proposed in 1994, so as to have a rectangular-shaped building which allows for increased visibility at the 86th Street frontage and also allows for improved circulation within the building; and

WHEREAS, primarily, the applicant states that the small size of the existing building precludes it from attracting major automotive companies, due to the inability to meet their design and marketing standards; and

WHEREAS, the applicant represents that an automotive company's model requires a regularly-shaped building with high visibility for its showroom from passersby; and

WHEREAS, the applicant represents that the lack of space creates a hardship in maintaining the existing building for a feasible automotive sales use; and

WHEREAS, the applicant notes that the proposed enlargement is consistent with the Board's approval for an enlargement and that the need for the enlargement remains the same as at the time of the 1994 approval; and

WHEREAS, the applicant asserts that the building is unusually-shaped and, as evidenced by the conclusion nearly 20 years ago, that it was obsolete for modern use; no change has occurred since the 1994 grant and, the applicant asserts that the conditions underlying the 1994 grant remain or have become worse; and

WHEREAS, as to the location, the applicant states that the site has 120 feet of frontage along 86th Street and that this portion of 86th Street is a busy, predominantly commercial street, which constrains the feasibility of conforming residential development; and

WHEREAS, the applicant notes that the north side of 86th Street is within a C8-1 zoning district and is occupied by commercial and even some manufacturing use; the block to the north across Bay 13th Street has a C1-2 zoning district overlay and is also occupied by commercial use; and

WHEREAS, based upon the above, the Board finds that the history of the site, and the characteristics of the historic building and its use are unique conditions which create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the Board notes that the current proposal to enlarge the building is the same as the 1994 proposal to enlarge the building, which the Board approved, but was never constructed; and

WHEREAS, accordingly, the Board concludes that the hardship of trying to accommodate a modern automotive

MINUTES

dealership in the historic automotive services building has only become more pronounced; and

WHEREAS, the applicant submitted a feasibility study which analyzed: (1) a 2,445 sq. ft. automotive sales and showroom building with outdoor storage, like the existing conditions; and (2) the proposed 5,195 sq. ft. automotive sales and showroom building; and

WHEREAS, the study concluded that the existing model would not result in a reasonable return, but that the proposed enlargement would realize a reasonable return; and

WHEREAS, based upon the above, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict compliance with zoning will provide a reasonable return; and

WHEREAS, the applicant asserts that the proposal will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant notes that the site is immediately adjacent to two commercial zoning districts: (1) to the north across 86th Street is a C8-1 zoning district where the automotive sales use would be permitted as of right and (2) to the east across Bay 13th Street is a C1-2 zoning district; and

WHEREAS, the applicant states that the surrounding portion of 86th Street is predominantly commercial in nature and the adjacent corner on 86th street and Bay 13th Street is occupied by a bank; and

WHEREAS, the applicant also notes that automotive use – either gasoline sales, service, or sales – has been present at the site, pursuant to the Board's grants for more than 50 years and that the proposed use will not increase the intensity of activity on the site, but rather enclose portions of a use that has been historically open and, thus, render it more compatible with other uses within the subject R5 zoning district; and

WHEREAS, the applicant asserts that the proposed enlargement would reduce the impact of the non-conforming use on the surrounding neighborhood, enclosing an open portion of the lot that contains vehicles, and while the variance includes an enlargement of the building, it does not include an enlargement or extension of the use, which will continue to occupy the entire zoning lot; and

WHEREAS, the applicant asserts that enlarging the showroom reduces the unenclosed sales area and will reduce the number of cars stored on the lot and will improve the appearance and operation of the site, more consistent with enclosed uses typically permitted in C1 and C2 zoning districts; and

WHEREAS, specifically, the applicant notes that the enlargement of the building will be along the western portion of the site adjacent to commercial use and will replace the open display of vehicles with an enclosed showroom that is more compatible with residential use; and

WHEREAS, as to bulk, the applicant notes that the C8-1 zoning district across the street would allow 1.0 FAR for the

automotive dealership use and that 1.0 FAR is the maximum permitted FAR for a conforming use in the subject R5 zoning district, thus, the proposed 0.5 FAR is compatible from a bulk perspective; and

WHEREAS, at hearing, the Board raised the following concerns: (1) whether the landscaping and buffering with the adjacent residential use was sufficient; (2) whether the signage complies with C1 zoning district regulations; (3) that there are excess banners; and (4) that there are excess vehicles on the site; and

WHEREAS, as noted, the Board also asked the applicant for an analysis of the parameters of other automotive dealerships in the area to establish the context for such use; and

WHEREAS, in response to the Board's concerns, the applicant submitted (1) a revised site plan reflecting increased landscaping and buffering with the adjacent residential use and a planted area at the front of the building; (2) a note that all future signage will comply with C1 zoning district signage regulations, rather than the C8-1 zoning district regulations as initially proposed; (3) photographs of the site reflecting the elimination of excess banners and the removal of graffiti; and (4) a response that excess vehicles had been removed and would be stored at a facility across the street, by agreement with the owner; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title, but is the result of the site's historic use and conditions; and

WHEREAS, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, based upon the above, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as unlisted Action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 13-BSA-147K dated May 31, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact

MINUTES

Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration under 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR § 72-21 and grants a to permit, within an R5 zoning district, the enlargement of an existing one-story building occupied by an automotive sales establishment (Use Group 16), which does not conform to district use regulations, contrary to ZR §§ 22-10 and 52-40; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked “Received January 22, 2014” – (4) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the enlarged building: a total floor area of 5,184 sq. ft. (0.5 FAR); a total height of 17'-0”, a side yard with a minimum depth of 5'-0” along the southern lot line, as illustrated on the Board-approved plans;

THAT the hours of operation will be limited to Monday to Thursday, 9:00 a.m. to 9:00 p.m.; Friday and Saturday, 9:00 a.m. to 6:00 p.m.; and Sunday, 11:00 a.m. to 6:00 p.m.;

THAT signage on the site will comply with C1 district regulations;

THAT all fencing and landscaping be installed and maintained as reflected on the BSA-approved plans;

THAT the parking layout be as reflected on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 28, 2014.

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated July 16, 2013, acting on Department of Buildings (“DOB”) Application No. 103703789, reads in pertinent part:

Proposed change of use to a physical culture establishment, as defined by ZR 12-10, is not permitted as-of-right in a C6-3A zoning district pursuant to ZR 32-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in a C6-3A zoning district, the operation of a physical culture establishment (“PCE”) on portions of the cellar and ground floor levels of an 11-story mixed residential and commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on December 10, 2013 after due notice by publication in *The City Record*, and then to decision on January 28, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located at the southwest corner of the intersection of Church Street and Warren Street, within a C6-3A zoning district within the Special Tribeca Mixed Use District; and

WHEREAS, the site has approximately 100 feet of frontage along Church Street, approximately 50 feet of frontage along Warren Street, and 5,029 sq. ft. of lot area; and

WHEREAS, the site is occupied by an 11-story mixed residential and commercial building; and

WHEREAS, the PCE is proposed to occupy approximately 2,686 sq. ft. of floor area on the ground floor of the building and 1,188 sq. ft. of floor space in the cellar, for a total PCE floor space of 3,784 sq. ft.; and

WHEREAS, the PCE will be operated as Ultrafit, LLC; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE will be seven days per week, from 5:00 a.m. to 11:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and

MINUTES

issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, at hearing, the Board directed the applicant to clarify the sound attenuation measures that will be provided, given that the building will contain residences; and

WHEREAS, in response, the applicant submitted a report from its acoustical consultant, which detailed the noise attenuation measures that will be provided; in addition, the plans have been amended to reflect that such noise attenuation measures that will be provided; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as Unlisted pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No. 14BSA011M dated July 18, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore it is Resolved, that the Board of Standards and Appeals issued a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located in a C6-3A

zoning district, the operation of a PCE on portions of the cellar and ground floor levels of an 11-story mixed residential and commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received January 24, 2014” – Four (4) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on January 28, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT that the hours of operation of the PCE will be limited to daily, from 5:00 a.m. to 11:00 p.m.;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 28, 2014.

THE RESOLUTION –

WHEREAS, the decision of the Bronx Borough
Commissioner, dated August 22, 2013, acting on
Department of Buildings (“DOB”) Application No.
103703789, reads in pertinent part:

Proposed physical culture establishment in a C2-4
(R7A) district is contrary to ZR 32-10; and

WHEREAS, this is an application under ZR §§ 73-36
and 73-03, to permit, on a site located in a C2-4 (R7A)
zoning district, the operation of a physical culture
establishment (“PCE”) in portions of the first and second
story of a two-story commercial building, contrary to ZR §
32-10; and

WHEREAS, a public hearing was held on this
application on December 17, 2013, after due notice by
publication in *The City Record*, and then to decision on
January 28, 2014; and

WHEREAS, the premises and surrounding area had
site and neighborhood examinations by Commissioner
Hinkson and Commissioner Ottley-Brown; and

WHEREAS, Community Board 12, Bronx,
recommends approval of this application; and

WHEREAS, the subject site comprises adjacent tax
lots (Lots 94 and 96) and spans the east side of White Plains
Road between East 212th Street and East 213th Street,
within a C2-4 (R7A) zoning district; and

WHEREAS, the site has 71.34 feet of frontage along
East 212th Street, 200.67 sq. ft. along White Plains Road,
55.19 feet of frontage along East 213th Street, and 12,350
sq. ft. of lot area; and

WHEREAS, the site is occupied by two two-story
buildings, which are proposed to be combined into a single
building; and

WHEREAS, the applicant states that the PCE is
proposed to occupy a portion of the first story (3,962 sq. ft. of
floor area) combined building and the entirety of the second
story (11,942 sq. ft.), for a total PCE floor area of 15,904 sq.
ft.; and

WHEREAS, the PCE will be operated as Blink Fitness;
and

WHEREAS, the applicant represents that the services
at the PCE include facilities for classes, instruction and
programs for physical improvement, body building, weight
reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE will be
Monday through Thursday, from 5:00 a.m. to 11:00 p.m.,
Friday, from 5:00 a.m. to 10:00 p.m., and Saturday and
Sunday, from 7:00 a.m. to 7:00 p.m.; and

WHEREAS, the Department of Investigation has
performed a background check on the corporate owner and
operator of the establishment and the principals thereof, and
issued a report which the Board has determined to be
satisfactory; and

WHEREAS, the PCE will not interfere with any
pending public improvement project; and

WHEREAS, accordingly, the Board finds that this
action will neither 1) alter the essential character of the
surrounding neighborhood; 2) impair the use or
development of adjacent properties; nor 3) be detrimental to
the public welfare; and

WHEREAS, at hearing, the Board requested
clarification regarding whether windows at the rear of the
building would be maintained and whether the existing
parking at the site was required; and

WHEREAS, in response, the applicant indicated
that the windows would be sealed prior to the occupancy of
the PCE and that the parking was provided prior to 1961 and
that, as such, it was not required; and

WHEREAS, the Board finds that, under the conditions
and safeguards imposed, any hazard or disadvantage to the
community at large due to the proposed special permit use is
outweighed by the advantages to be derived by the
community; and

WHEREAS, therefore, the Board has determined that
the evidence in the record supports the requisite findings
pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Unlisted action
pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental
review of the proposed action discussed in the Environmental
Assessment Statement, CEQR No. 14BSA033X, dated
September 3, 2013; and

WHEREAS, the EAS documents that the operation of
the PCE would not have significant adverse impacts on Land
Use, Zoning, and Public Policy; Socioeconomic Conditions;
Community Facilities and Services; Open Space; Shadows;
Historic Resources; Urban Design and Visual Resources;
Neighborhood Character; Natural Resources; Hazardous
Materials; Waterfront Revitalization Program; Infrastructure;
Solid Waste and Sanitation Services; Energy; Traffic and
Parking; Transit and Pedestrians; Air Quality; Noise;
Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the
environment that would require an Environmental Impact
Statement are foreseeable; and

WHEREAS, the Board has determined that the
proposed action will not have a significant adverse impact on
the environment; and.

Therefore it is Resolved, that the Board of Standards and
Appeals issued a Negative Declaration prepared in accordance
with Article 8 of the New York State Environmental
Conservation Law and 6 NYCRR Part 617 and § 6-07(b)
of the Rules of Procedure for City Environmental Quality
Review and Executive Order No. 91 of 1977, as amended, and
makes each and every one of the required findings under ZR
§§ 73-36 and 73-03 to permit, on a site located in a C2-4
(R7A) zoning district, the operation of a PCE in portions of
the first and second story of a two-story commercial
building, contrary to ZR § 32-10; *on condition* that all work

MINUTES

shall substantially conform to drawings filed with this application marked "Received October 24, 2013" – Five (5) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on January 28, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 28, 2014.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough

Commissioner, dated October 21, 2013, acting on Department of Buildings Application No. 320345710 reads, in pertinent part:

1. Proposed Floor Area exceeds the maximum allowed pursuant to ZR Sections 113-11, 23-141b, 23-17, 23-11, 24-17, 77-22
2. Proposed Open Space is less than minimum required pursuant to ZR Sections 113-11, 23-141b, 23-17, 24-11, 24-17, 77-23
3. Proposed Lot Coverage exceeds the maximum permitted pursuant to ZR Sections 113-11, 23-141b, 23-17, 24-11, 24-17, 77-24
4. Proposed Front Yard is less than minimum required pursuant to ZR Sections 113-12, 23-45 and does not comply with planting requirements in ZR Section 23-451
5. Proposed Level of Front Yard is higher than level permitted pursuant to ZR Section 23-42
6. Proposed Front Yard does not comply with landscaping regulations per ZR 113-30
7. Proposed Rear Yard is less than rear yard required pursuant to ZR Sections 113-11b and 24-36
8. Proposed Side Yards are less than required pursuant to ZR Sections 113-11, 23-464
9. Proposed new building exceeds maximum Height and Setback requirements pursuant to ZR Sections 113-11, 23-631d, 24-17, 24-593, 23-633a2, 77-28
10. Proposed Side and Rear Yard Setbacks are less than required pursuant to ZR Sections 113-11 and 23-662
11. Proposed development provides less than required parking spaces pursuant to ZR Sections 113-561, 25-31, 25-35
12. Proposed clerestory exceeds max height for permitted obstructions pursuant to ZR Sections 113-11 and 23-62(l); and

WHEREAS, this is an application for a variance pursuant to ZR § 72-21 to permit, on a site within R5 (Special Ocean Parkway District), R6A (Special Ocean Parkway District), and R5 (Special Ocean Parkway Subdistrict) zoning districts, the construction of a two- and three-story building to be occupied by a synagogue, which does not comply with the underlying zoning district regulations for floor area, open space, lot coverage, front yard, level of front yard, side yard, rear yard, height and setback, side and rear setback, special landscaping, and parking, contrary to ZR §§ 23-11, 23-141, 23-17, 23-45, 23-451, 23-461, 23-464, 23-471, 23-53, 23-543, 23-631, 23-62, 23-633, 23-662, 24-11, 24-17, 24-351, 24-36, 24-593, 25-31, 25-35, 77-22, 77-23, 77-24, 77-28, 113-11, 113-12, 113-30, 113-503, 113-543, 113-544, and 113-561; and

WHEREAS, a public hearing was held on this application on November 19, 2013, after due notice by publication in *The City Record*, with a continued hearing on December 11, 2013, and then to decision on January 28,

MINUTES

2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of the application; and

WHEREAS, certain members of the community provided testimony in support of the proposal; and

WHEREAS, certain members of the community provided testimony in opposition to the proposal, citing concerns about the bulk and potential impact on light and air and potential noise impact associated with the building's mechanicals; and

WHEREAS, this application is being brought on behalf of Congregation Bet Yaakob (the "Synagogue"), a non-profit religious entity which will occupy the proposed Edmond J. Safra Synagogue building; and

WHEREAS, the subject site is located on the northeast corner of Ocean Parkway and Avenue U within R5 (Special Ocean Parkway District), R6A (Special Ocean Parkway District), and R5 (Special Ocean Parkway Subdistrict) zoning districts; and

WHEREAS, on October 16, 2012, the Board granted a variance application pursuant to ZR § 72-21, under BSA Cal. No. 168-11-BZ, to permit the construction of a four-story synagogue on Block 7109, Lot 50 (formerly Lots 48 and 50) (the "Prior Variance"); the Prior Variance reflected a building with a maximum floor area of 20,461 sq. ft. (2.3 FAR), a maximum wall height of 60'-0" and a total height of 62'-4", a minimum open space of 1,866 sq. ft., and a maximum lot coverage of 6,968 sq. ft. (79 percent); and

WHEREAS, the applicant represents that construction pursuant to the Prior Variance has not commenced; and

WHEREAS, the applicant represents that subsequent to the Prior Variance, the Congregation purchased the adjacent Lot 56, which resulted in a redesign of the building and requires a new approval for the synagogue on combined Lots 50 and 56 that more fully meets the needs of the growing Congregation; and

WHEREAS, the merged lot has a total lot area of 14,840 sq. ft.; it was formerly occupied by a two-story home on former Lot 50 and a two-story home on former Lot 48, both of which were unoccupied and sealed at the time of purchase, and the newly-acquired Lot 56 is currently occupied by a two-story residence; and

WHEREAS, the inclusion of Lot 56 increases the lot area of the zoning lot from 8,840 sq. ft. to 14,840 sq. ft., which allows for construction of a larger synagogue building with a more accommodating layout; and

WHEREAS, the applicant proposes the following parameters: two/three stories; a floor area of 22,314 sq. ft. (1.5 FAR) (a maximum community facility floor area of 21,815 sq. ft. and an aggregate between the R5 and R6A zoning districts of 1.47 FAR is permitted); a lot coverage of 63 to 72 percent (maximum permitted lot coverage ranges from 45/55 to 60 percent); an open space of 28 to 36

percent (the minimum required open space ranges from 38 to 45 percent); a maximum wall height of 47'-10" and a maximum total height of 62'-0" (the maximum permitted height ranges from 35'-0" (R5) to 50'-0" (R6A)); the clerestory (skylight over the third floor) to a height of 57'-3", which is 9'-5" above the roof of the three-story front portion of the building (exceeds the maximum height of a permitted obstruction); the proposed level of the front and rear yards 3'-4" above the permitted curb level; and no parking spaces (a minimum of 23 parking spaces are required); and

WHEREAS, under the current application, the applicant initially proposed a new building height of 70'-0"; and

WHEREAS, however, in response to concerns raised by the Board at public hearing, the applicant reduced the building height to 59'-5" at the roof ridge in the R5 corner portion of the lot and to 62'-0" in the R6A interior lot portion of the site; and

WHEREAS, as to yards, the applicant notes that the site is partially a corner lot and partially an interior lot, thus the yard requirements vary across the site; however, it will provide a front yard with the required depth of 30'-0" along Ocean Parkway but no front yard along Avenue U (a front yard with a depth of 10'-0" is required); a side yard with a width of 8'-0" on the corner portion adjacent to the neighbor on Ocean Parkway; and a rear yard with a depth of 30'-0" on the L-shaped portion of the lot within the subdistrict, but no front yard in the interior portion of the lot; and

WHEREAS, the proposal provides for the following uses: (1) a social hall, men's mikvah, and a kitchen at the cellar level; (2) the main men's sanctuary and Bet Midrash (accessory prayer room) and a Brit Milah at the first floor; (3) the women's sanctuary balcony, a kitchenette (warming pantry), boys' and girls' minyans (accessory prayer room) on the second floor; and (4) a young adult minyan, a board room, and two offices at the third floor; and

WHEREAS, the applicant states that the following are the primary programmatic needs of the Synagogue which necessitate the requested variances: (1) to accommodate the growing congregation currently of approximately 600 worshippers; (2) to provide a separate worship space for male and female congregants; (3) to provide sufficient separation of space so that multiple activities may occur simultaneously; and (4) to provide accessory space including offices and a social hall; and

WHEREAS, the applicant states that the as-of-right building would have the following restrictions: a total height of 49'-0", a front yard of 30'-0" along Ocean Parkway, a front yard of 10'-0" along Avenue U, and a side yard of 13'-10"; it would allow for a social hall of only 3,090 sq. ft.; a main men's sanctuary of 1,250 sq. ft. (to accommodate 208 people); and a main women's sanctuary of 645 sq. ft. (to accommodate 120 people) – all of which are far too small to accommodate the Congregation; and

WHEREAS, further, the applicant asserts that only one Bet Midrash could be provided, instead of three, and a men's

MINUTES

mikvah space could not be provided; and

WHEREAS, the applicant states that the height and setback waivers permit the double-height ceiling of the second floor main synagogue which is necessary to create a space for worship and respect and an adequate ceiling height for the second floor women's balcony; and

WHEREAS, the applicant states that the parking waiver is only related to the portion of the site within the R5 zoning district and that there is not a parking requirement for a house of worship under R6A zoning district regulations; and

WHEREAS, the applicant notes that approximately 95 percent of congregants live within walking distance of the site and must walk on certain days for reasons of religious observance; and

WHEREAS, the applicant states that 76 percent of the congregation lives within a three-quarter-mile radius of the site, which exceeds the 75 percent required under ZR § 25-35 to satisfy the City Planning Commission certification for a locally-oriented house of worship; and

WHEREAS, the applicant states that it requests a waiver of the Special Ocean Parkway District's special landscaping requirements for the front yard along Ocean Parkway as the front yard is necessary for a ramp and the main entrance; and

WHEREAS, the applicant notes that the site will be landscaped with trees and shrubbery along Avenue U, where the proposed building has 143'-0" of frontage, as well as along Ocean Parkway; and

WHEREAS, the applicant states that the congregation has occupied a nearby rental space for the past three years, which accommodates only 275 seats and is far too small to accommodate the current membership of 600 adults; and

WHEREAS, the applicant states that the requested waivers enable the Synagogue to construct a building that can accommodate its growing congregation as well as provide a separate worship space for men and women, as required by religious doctrine, space for religious counseling, and a multipurpose room for educational and social programming; and

WHEREAS, as far as the changes from the proposal associated with the Prior Variance and the current proposal, the applicant states that the current proposal decreases the relief sought for FAR from 2.3 to 1.5 (1.47 FAR is the maximum permitted), open space, and lot coverage; and

WHEREAS, the applicant asserts that the proposed more uniform floor plate allows for a more functional floor layout and better circulation between the social hall, kitchen, and accessory storage; and

WHEREAS, further, the applicant notes that the modified proposal will allow for a total occupancy of 329 people in the social hall, rather than 221 people as approved by the Prior Variance; the current proposal also allows for a larger men's mikvah to be located at the cellar level rather than the first floor, as approved by the Prior Variance; and

WHEREAS, the applicant states that Jewish Law prescribes that congregants face east while praying, thus, the circular shape and downward sloping angle of the main sanctuary is designed in such a way to observe this religious

requirement while also increasing the floor area from the main sanctuary previously approved, which was located on the second floor; and

WHEREAS, the applicant notes that the new first floor design allows for a Bet Midrash (accessory prayer room) and a Brit Milah room, which are critical spaces for an Orthodox synagogue but could not be accommodated in the smaller building approved through the Prior Variance; and

WHEREAS, the applicant states that now the women's sanctuary balcony is on the second, rather than third floor and has an increase in occupancy of 31 people from 192 to 223 people and that the new design allows for three prayer rooms for young people; and

WHEREAS, the applicant states that the requested waivers are necessary to provide enough space to meet the programmatic needs of the congregation; and

WHEREAS, the Board acknowledges that the Synagogue, as a religious institution, is entitled to significant deference under the law of the State of New York as to zoning and as to its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in Westchester Reform Temple v. Brown, 22 NY2d 488 (1968), a religious institution's application is to be permitted unless it can be shown to have an adverse effect upon the health, safety, or welfare of the community, and general concerns about traffic and disruption of the residential character of a neighborhood are insufficient grounds for the denial of an application; and

WHEREAS, in addition to its programmatic needs, the applicant states that there are unique physical conditions of the site – including its L-shape; the narrow yet deep easternmost portion (formerly Lot 48); the location of multiple zoning district and special district boundary lines within the site; and the high groundwater condition; and the requirements for mechanical space, which contribute to the hardship at the site; and

WHEREAS, the applicant acknowledges that the Congregation created the irregular L-shape by merging two adjacent lots (former Lots 50 and 48), but that this lot area is critical to providing adequate space for a synagogue building with sufficient size to meet the programmatic needs; and

WHEREAS, further, the applicant notes that absent the lot merger, the 130'-0" depth and 18'-0" width of the easternmost portion of the site fronting on Avenue U presents unique physical conditions which support the request for waivers; and

WHEREAS, based upon the above, the Board finds that the programmatic needs of the Synagogue create unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, the Board notes that certain of the site conditions contribute to the hardship associated with the site such as the irregularity of the long narrow easternmost portion; and

WHEREAS, the applicant need not address ZR § 72-21(b) since the Synagogue is a not-for-profit organization and the proposed development will be in furtherance of its not-for-

MINUTES

profit mission; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the proposed use is permitted in the subject zoning districts; and

WHEREAS, as to bulk, the applicant performed a study of buildings within approximately a ½-mile radius of the site, which reflects that there are 18 buildings that are taller, contain more floor area and/or have a higher FAR than the proposed building; and

WHEREAS, specifically, the applicant states that there are eight buildings with a height of 62'-0" or greater within its study area; and

WHEREAS, further, the applicant notes that DOB has approved plans for a six-story 20-unit apartment building with a height of 70'-0" for the site adjacent to the east at 623 Avenue U; and

WHEREAS, as to yards, the applicant notes that the side yard and front yard conditions were existing longstanding non-compliances with the historic residential use of the site; and

WHEREAS, specifically, the applicant notes that the former homes had non-complying yard conditions, including that the home on Lot 50 was built to the front lot line along Avenue U and the home on Lot 48 only provided a front yard with a depth of 1'-11" on Avenue U and was built to the side lot line; and

WHEREAS, further, the applicant notes that although the yards do not meet the minimum yard requirements for a community facility, the proposal does reflect a front yard with a depth of 30'-0" along Ocean Parkway, a side yard with a width of 8'-0" adjacent to the neighboring site on Ocean Parkway, and a rear yard with a depth of 30'-0" is provided on former Lot 48; and

WHEREAS, the applicant also notes that unlike in the Prior Variance, no portion of the current proposal is located in the R5 (Special Ocean Parkway Subdistrict) portion of the site located to the rear of the adjacent homes; and

WHEREAS, as to the Special Ocean Parkway District's landscaping and front yard planting requirements, the applicant asserts that it will maintain landscaping and provide trees and shrubbery along Avenue U, where the Synagogue has 143'-0" of frontage, as well as plantings along Ocean Parkway; and

WHEREAS, in response to concerns the Board raised about the planting requirement along Ocean Parkway, the applicant increased the percentage of yard plantings from 41 percent to 50.1 percent; and

WHEREAS, as to parking, the applicant notes that the majority of congregants will walk to the site and that there is not any demand for parking; and

WHEREAS, further, as noted above, the applicant represents that 76 percent of congregants live within a three-quarter-mile radius of the site and thus are within the spirit of City Planning's parking waiver for houses of worship; and

WHEREAS, the Board notes that, based on the applicant's representation, this proposal would meet the requirements for a parking waiver at the City Planning Commission, pursuant to ZR § 25-35 – Waiver for Locally Oriented Houses of Worship - but for the fact that a maximum of ten spaces can be waived in the subject R5 zoning district under ZR § 25-35; and

WHEREAS, in support of this assertion, the applicant submitted evidence reflecting that at least 75 percent of the congregants live within three-quarters of a mile of the subject site; and

WHEREAS, in response to questions raised about the proposed emergency generator, the applicant responded that it will only be used in the event of an emergency (and subject to a test for functioning once per month) and the sound level will be similar to existing sound levels in the surrounding neighborhood; and

WHEREAS, the applicant also notes that it proposed baffling with a height of 12'-0", which is the minimum height to adequately buffer the HVAC equipment on the roof, thus, lowering the height is not feasible; and

WHEREAS, accordingly, the Board finds that this action will neither alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that the hardship was not self-created and that no development that would meet the programmatic needs of the Synagogue could occur on the existing lot; and

WHEREAS, accordingly, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, the Board finds the requested waivers to be the minimum necessary to afford the Synagogue the relief needed to meet its programmatic needs; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 14BSA060K, dated October 23, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the

MINUTES

environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, on a site within R5 (Special Ocean Parkway District), R6A (Special Ocean Parkway District), and R5 (Special Ocean Parkway Subdistrict) zoning districts, the construction of a two- and three-story building to be occupied by a synagogue, which does not comply with the underlying zoning district regulations for floor area, open space, lot coverage, front yard, level of front yard, side yard, rear yard, height and setback, side and rear setback, special landscaping, and parking, contrary to ZR §§ 23-11, 23-141, 23-17, 23-45, 23-451, 23-461, 23-464, 23-471, 23-53, 23-543, 23-631, 23-62, 23-633, 23-662, 24-11, 24-17, 24-351, 24-36, 24-593, 25-31, 25-35, 77-22, 77-23, 77-24, 77-28, 113-11, 113-12, 113-30, 113-503, 113-543, 113-544, and 113-561; *on condition* that any and all work will substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received December 3, 2013" – Seventeen (17) sheets; and *on further condition*:

THAT the building parameters will be: two/three stories; a maximum floor area of 22,314 sq. ft. (1.5 FAR); a maximum wall height of 47'-10" and total height of 62'-0"; a minimum open space ratio of 36 percent on the corner portion of the lot and 28 percent on the interior portion of the lot; and a maximum lot coverage of 64 percent on the corner portion of the lot and 72 percent on the interior portion of the lot, as illustrated on the BSA-approved plans;

THAT sound attenuation measures be installed and maintained as reflected on the BSA- approved plans;

THAT landscaping be maintained as reflected on the BSA-approved plans;

THAT any change in control or ownership of the building will require the prior approval of the Board;

THAT the use will be limited to a house of worship (Use Group 4);

THAT no commercial catering will take place onsite;

THAT the above conditions will be listed on the certificate of occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT construction will proceed in accordance with ZR § 72-23;

THAT the Department of Buildings must ensure

compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 28, 2014.

54-12-BZ

APPLICANT – Gerald J. Caliendo, R.A., AIA, for Llana Bangiyev, owner.

SUBJECT – Application March 9, 2012 – Variance (§72-21) to permit for the construction of a community facility and residential building, contrary to lot coverage (§23-141), lot area (§§23-32, 23-33), front yard (§§23-45, 24-34), side yard (§§23-46, 24-35) and side yard setback (§24-55) regulations. R5 zoning district.

PREMISES AFFECTED – 65-39 102nd Street, north side of 102nd Street, northeast corner of 66th Avenue, Block 2130, Lot 14, Borough of Queens.

COMMUNITY BOARD #6Q

ACTION OF THE BOARD – Laid over to March 11, 2014, at 10 A.M., for adjourned hearing.

This resolution adopted on January 14, 2014, under Calendar No. 360-65-BZ and printed in Volume 99, Bulletin Nos. 1-3, is hereby corrected to read as follows:

360-65-BZ

APPLICANT – Greenberg Traurig, LLP by Jay A. Segal, Esq., for Dalton Schools, Inc., owner.

SUBJECT – Application July 19, 2013 – Amendment of previously approved Variance (§72-21) and Special Permit (§73-64) which allowed the enlargement of a school (*Dalton School*). Amendment seeks to allow a two-story addition to the school building, contrary to floor area (§24-11) and height, base height and front setback (§24-522, §24-522)(b) regulations. R8B zoning district.

PREMISES AFFECTED – 108-114 East 89th Street, midblock between Park and Lexington Avenues, Block 1517, Lot 62, Borough of Manhattan.

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to a previously-granted variance pursuant to ZR § 72-21 and special permit pursuant to ZR § 73-641 which authorized the enlargement of the Dalton School (“Dalton”) contrary to bulk regulations; and

WHEREAS, a public hearing was held on this application September 24, 2013, after due notice by publication in the *City Record*, with a continued hearing on October 29, 2013, and then to decision on January 14, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 8, Manhattan, recommends disapproval of this application; and

WHEREAS, certain members of the community provided testimony in support of the application; and

WHEREAS, a representative of the Board of Directors of 1095 Park Avenue provided testimony that included neither support nor opposition to the application; the representative did note Dalton’s cooperation and ongoing efforts to mitigate the expansion’s impact on 1095 Park Avenue; and

WHEREAS, representatives from Carnegie Hill Neighbors, the Board of Managers of 111 East 88th Street, the Board of Directors of 1105 Park Avenue, and certain members of the surrounding community provided testimony in opposition to the application (the “Opposition”) citing the following concerns: (1) the effect of the expansion on neighboring properties with respect to natural light, ventilation, solar glare, shadows, noise, aesthetics, traffic during construction, and long-term property values; (2) the scale of the expansion in comparison to other mid-block, R8B

MINUTES

buildings; (3) the fact that the site is already non-complying and has previously obtained bulk variances; (4) the absence of community outreach and Community Board support for the application; (5) the lack of an initial environmental assessment study (“EAS”) and the lack of time to review and respond to the EAS that was prepared; (6) the failure to address the (a), (c), and (e) findings of ZR § 72-21; (7) the misapplication of the Cornell doctrine for educational and religious institutions; (8) the precedent being set for other educational institutions within the mid-block contextual districts and citywide; and (9) the failure of Dalton to examine alternative sites and proposals; and

WHEREAS, the subject site is located mid-block on the south side of East 89th Street between Park Avenue and Lexington Avenue, in an R8B zoning district; and

WHEREAS, the site has 101.67 feet of frontage along East 89th Street and 10,235 sq. ft. of lot area; and

WHEREAS, the site is occupied by a 12-story building (“the Building”) used entirely for Dalton’s school purposes; and

WHEREAS, the Building, which was constructed in 1929 for Dalton, originally had ten stories with a small four-story portion at the rear; and

WHEREAS, in 1965, due to increased enrollment primarily from the inclusion of boys in the formerly all girls’ school, Dalton sought a variance and special permit, pursuant to the subject calendar number, to permit a single-story vertical extension of fenced-in areas on the roofs of the fourth story and tenth story; the enlargements constituted 10,720 sq. ft. of floor area, and increased the existing non-compliance related to FAR, front/rear setback, and sky exposure plane regulations under the then-R8 zoning; and

WHEREAS, the applicant states that the extension on the fourth-story roof was for an art studio, and the extension on the tenth-story roof created a double-height 11th story for a regulation-size gymnasium; and

WHEREAS, in the early 1990s, due to increased enrollment, Dalton sought additional classroom space; accordingly, on March 3, 1992, pursuant to the subject calendar number, Dalton obtained an amendment to the grant (the “Prior Amendment”) to allow the expansion within the Building’s envelope of the tenth-story library mezzanine and the insertion of a floor slab into the double-height gymnasium to convert the gymnasium into two new classroom floors (the 11th and 12th stories); the Prior Amendment allowed for 7,092 sq. ft. of additional floor area and required relief from FAR regulations under the current R8B zoning (also height and setback relief attributed to minor work on the cornice and roof); the construction permitted by the Prior Amendment was completed in 1995; and

WHEREAS, accordingly, the applicant states that in the nearly 85 years since the Building was constructed, its envelope has been expanded only once, in 1965, pursuant to the variance; and

WHEREAS, the Building exists now within its 1965 building envelope, with the floor area increase granted by the Prior Amendment for 86,796 sq. ft. (8.48 FAR), 12 floors, and a total height of 143’-10”;

WHEREAS, the applicant proposes to construct a two-story 12,164 sq. ft. enlargement above the 12th floor which

will result in 98,960.4 sq. ft. of floor area (9.67 FAR), 14 floors, and a total height of 170’-5”;

WHEREAS, the underlying R8B zoning district regulations allow for a maximum of 52,219 sq. ft. (5.1 FAR), a base height of 60 feet, and total height of 75 feet; and

WHEREAS, the applicant notes that Dalton occupies four buildings: 108-114 East 89th Street (the Building) occupied by the Upper School, comprising the Middle School (grades four through eight) and the High School (grades nine through twelve), totaling 929 students; 51-63 East 91st Street - The Lower School, comprising the First Program (kindergarten through third grade), totaling 376 students; 200 East 87th Street - The Physical Education Center; and 120 East 89th Street – offices; and

WHEREAS, the applicant represents that Dalton’s enrollment has increased by only 25 students since the Board approved the Prior Amendment, but the curriculum has evolved such that it is necessary for Dalton to provide additional classroom space in the Building; and

WHEREAS, the applicant represents that the programmatic need for the enlargement is to develop Dalton’s “STEM” program for science, technology, engineering and mathematics education, which is at the center of nationwide initiatives to transform education, from the primary grades through graduate school, by reemphasizing the science-based fields; and

WHEREAS, the applicant represents that Dalton is currently unable to offer the programming, particularly in technology and engineering to satisfy the goals of a competitive STEM curriculum; and

WHEREAS, specifically, for example, Dalton states that only 30 high school students are enrolled in the robotics course, which combines elements of engineering and computer science; and

WHEREAS, the applicant asserts that the modest enrollment is attributed to the lack of a specialized engineering space which would allow students to construct and test projects during the school day; instead, such work now must take place after school or on Saturdays, which deters students who are on a team sport or play an instrument and have practices and games or other activities scheduled after school; and

WHEREAS, the applicant states that the need to construct and test robots after school causes additional difficulties; the robots are tested on a 12-ft. by 12-ft. robotics movement “field” where they perform their designed tasks; the applicant notes that because this activity occurs after normal school hours in the computer science classroom, the first and last half hours of each after-school session is spent setting up and dismantling the movement field; and

WHEREAS, the applicant states that the Enlargement would allow for a permanent movement field and eliminate the wasted set-up and dismantling time; also, without a specialized engineering space, robots have to be stored on the floor in the computer science classroom which limits the size of the robots that can be constructed and curtails Dalton’s participation in FIRST, a not-for-profit

MINUTES

organization devoted to helping young people discover and develop a passion for STEM; and

WHEREAS, as to computer science, the applicant states that a basic computer science class requires a room with computer stations and a space for group work on problems; Dalton currently has one such combined room for its entire computer science program, thus it is occupied by classes during every available period and is used for Lab meetings during the other periods, such as lunch periods – Lab periods are especially critical in computer science classes due to the need for incremental adjustments to projects that require meetings between student and teacher with access to the equipment; and

WHEREAS, Dalton represents that in 2005, 43 of its high school students took computer science; in 2012, 203 of the 455 high school students signed up to take the course, but only 184 were able to be enrolled in 2013 due to space limitations; for 2014, 254 students have signed up and they expect even more students to sign up in the future; and

WHEREAS, the applicant states that with the complete utilization of Dalton's one computer science classroom, no additional students can take computer science, nor can Dalton offer any computer science classes to middle school students, or provide new computer science classes in a greater variety of subareas; and

WHEREAS, the applicant represents that to meet the demand for additional computer science classroom space, the Enlargement would have computer science classrooms adjacent to both the High School and Middle School Facilities; and

WHEREAS, additionally, Dalton cites to deficiencies in its science program with insufficient space for students to participate in long-term in-house research projects that can be performed in the Building; in 2013 only 12 of the 48 students who signed up to perform long-term in-house research projects could be so placed; the other 36 students could not perform experiments and had to limit their work to theory; and

WHEREAS, the applicant states that the proposed Enlargement would contain two specialized robotics and engineering facilities, each of which takes up the space of approximately three regular classrooms, a long-term science research lab (approximately the size of two-to-three regular classrooms), and a greenhouse (approximately the size of three regular classrooms) (collectively, the "New Facilities"), which Dalton needs in order to correct the deficiencies in its STEM program; and

WHEREAS, the applicant submitted a matrix that shows the occupancy of each regular classroom, for each period, in each day of a typical school week during the most recent school year to support its point that the Building's existing classrooms are fully utilized and there is no classroom space in the Building for new courses or additional sections of existing courses; thus, the Building's classroom space cannot be converted into the New Facilities; and

WHEREAS, the matrix reflects that regular classrooms are occupied during 74.88 percent of the periods in a school week, but notes that in the periods in which these classrooms are not being used for a class, students who would otherwise use these rooms are at lunch, gym or assembly, so that when

accounting for these periods, the adjusted weekly-utilization rate for regular classrooms is 89.83 percent; and

WHEREAS, the applicant represents that during the approximately 10 percent of periods when the rooms could be used by classes, they are usually occupied by teachers and students engaged in Lab meetings, either because access to materials in the classroom is needed, or because there is insufficient faculty office space for these meetings to occur elsewhere; and

WHEREAS, the applicant represents that the nearly 90 percent adjusted-utilization rate of Dalton's regular classrooms is very high and it would be difficult to increase the rate because it would be very hard to match the scattered room availability with both student and teacher availability; and

WHEREAS, the applicant also states that there is not any other non-classroom space that can be converted for the STEM use and there is not any space in Dalton's other buildings available for the STEM use; and

WHEREAS, the applicant notes the following specific use of the Enlargement: two stories with approximately 12,164 sq. ft. of floor area; the 13th floor, containing approximately 6,100 sq. ft. of floor area, would have an approximately 480 sq. ft. machine room (the "Machine Room"), an approximately 1,200 sq. ft. high school robotics/engineering laboratory (the "High School Engineering Lab," and together with the Machine Room, collectively, the "High School Facility"), an approximately 420 sq. ft. high school computer science classroom, an approximately 950 sq. ft. middle school robotics/engineering lab (the "Middle School Facility") and an approximately 500 sq. ft. middle school computer science classroom; the 14th floor, also approximately 6,100 sq. ft., would contain an approximately 1,300 sq. ft. greenhouse, an approximately 1,200 sq. ft. science research lab, and three classrooms, each approximately 460 sq. ft.; and

WHEREAS, the applicant states that the High School Facility would include fabrication laboratory equipment (the "Fab Lab"), prototyping (assembly) space, a robotics area, engineering equipment, and a machine room; and

WHEREAS, the applicant states that the High School Facility will allow Dalton to meet the following primary goals: allow 85 to 110 high school students to take robotics if both the lecture and construction components of the course were provided during the school day, rather than after school and on weekends; allow students to enter competitions with the space to construct larger projects such as solar cars and gravity vehicles; to offer a variety of engineering electives, such as biological and electrical engineering, which require such a facility to construct and test projects; to offer, as an accredited course, participation in the Science Olympiad, a citywide competition combining engineering and science; and to integrate art into its STEM program by offering new courses such as Computer Science and Art (Graphics) which need to utilize the specialized Fab Lab equipment; and

WHEREAS, additionally, the new facility will allow middle school students access to robotics and engineering classes, including the Fab Lab; sufficient space to undertake long-term research projects; new science electives such as Quantum Mechanics, Advanced Environmental Science,

MINUTES

Evolutionary Ecology, Astronomy II, Electronics, and Marine Biology that require lab projects; and

WHEREAS, finally, the Enlargement will include a greenhouse to be used for (1) Dalton's Environmental Science class for food and agricultural studies and experiments with nutrient recycling and energy conservation, (2) biology classes, for studies on plant function and growth, (3) other classes that have units on plants or sunlight, and (4) Middle School and High School environmental clubs; and

WHEREAS, the applicant represents that the proposal will further Dalton's programmatic needs without affecting any of the findings of the original variance grant; and

WHEREAS, the applicant further represents that the proposed facility is unable to be accommodated within Dalton's other buildings: specifically (1) in 200 East 87th street where Dalton leases the lowest five floors, an enlargement is infeasible as the floors above are occupied by co-op apartments; (2) in 120 East 89th street where Dalton leases office space, the lease expires in 2020, and any additional space would be in doubt at the time the lease expires; and (3) expansion space off-site would not meet the programmatic needs because travelling to off-site location diminishes class time; and

WHEREAS, , the applicant states that the New York State Court of Appeals has held that in a residential district educational institutions cannot be required to show an affirmative need to expand as a condition precedent to the issuance of a discretionary approval by a zoning board. *See, e.g., Cornell University v. Bagnardi*, 68 N.Y.2d 583 (1986); *Lawrence School Corp. v. Lewis*, 578 N.Y.S.2d 627 (N.Y.A.D. 2 Dept., 1992); and

WHEREAS, the applicant adds that the Cornell court also held that because "schools, public, parochial, and private, by their very nature, singularly serve the public's welfare and morals," zoning boards in New York should allow schools to expand into residential areas unless a particular proposed expansion "would unarguably be contrary to the public's health, safety or welfare." *Id.* at 593, 595; and

WHEREAS, the applicant asserts that Cornell crystallized the Court of Appeals' long-standing presumption in favor of educational and religious uses in residential areas. *See Diocese of Rochester v. Planning Bd. of Town of Brighton*, 1 N.Y.2d 508, 526 (1956) ("schools and accessory uses are, in themselves, clearly in furtherance of the public morals and general welfare"); and

WHEREAS, further, the applicant asserts that under the State's standard, the court has held that, for example, the potential adverse impacts on "use, enjoyment and value of properties in the surrounding areas" and on "the prevailing character of the neighborhood" are "insufficient bas[e]s on which to preclude" the substantial expansion of a religious facility in a residential neighborhood. *Westchester Reform Temple v. Brown*, 22 N.Y.2d 488, 494 (1968); and

WHEREAS, the applicant asserts that the proposed variance would allow Dalton to add 12,164 sq. ft. of instructional and research space in two additional floors at the top of the Building; the Enlargement will not lead to an increase in enrollment, nor will it result in additional traffic in the area; the principal affect will be on the eastern views

of apartments on the top floors of 1095 Park Avenue, the building to the immediate west; and

WHEREAS, the applicant states that the Building's configuration constitutes a unique physical condition on the zoning lot, which causes Dalton practical difficulties and unnecessary hardship that prevent Dalton from being able to carry out its proposed program in the Building, particularly in the STEM areas; and

WHEREAS, the applicant notes that construction of the Enlargement would increase the Building's non-compliance with, and requires relief from, the applicable maximum base height, maximum building height, front setback, rear setback, and FAR requirements of the Zoning Resolution, but that strict application of the Zoning Resolution would serve no public purpose and would operate as a severe constraint on Dalton's functioning as an academic institution; and

WHEREAS, the applicant asserts that its hardship is not one that is generally applicable to uses located in the neighborhood in which the zoning lot is located, which is predominately residential in nature; and

WHEREAS, specifically, the applicant notes that there is only one other school within 400 feet of the site, PS M169 (Robert F. Kennedy School), directly south of the site, at 110 East 88th Street, which occupies the lower floors of a 38-story residential tower; and

WHEREAS, the applicant asserts that the proposed Enlargement would not be contrary to the public's health, safety or welfare and that it would not alter the essential visual character of the neighborhood; and

WHEREAS, the applicant asserts that because the Enlargement is designed to serve the existing school enrollment, there will be no resulting increase in the use of the Building, and thus no increase in pedestrian or vehicular traffic in the area; and

WHEREAS, as to bulk, the applicant notes that increasing the stories in the Building from 12 to 14 would raise its height by 26'-7" to 170'-5"; and

WHEREAS, the applicant submitted an area map and a table which identify other buildings with comparable heights within a 400-ft. radius of the site; and

WHEREAS, the analysis reflects that of the 152 buildings shown, from 85th Street to 91st Street between Lexington and Madison avenues, there are 45 buildings with more than 13 stories, including two on the Building's block-the property immediately to the west of the Building, 1095 Park Avenue, which has 18 stories and extends approximately 50 feet into the R8B district, and the building on the southeast corner of the Building's block, 1085 Park Avenue, which is 15 stories; there are also five buildings with more than ten stories, and nine with more than seven stories; and

WHEREAS, the applicant asserts that the development of adjacent property will not be substantially impaired should the amendment be granted because the principal impact of the Enlargement will be on the eastern views from and light and air to the windows on the upper stories of 1095 Park Avenue, the building immediately to the west; and

WHEREAS, the applicant notes that 1095 Park Avenue is an 18-story building, with its zoning lot having 159 feet of frontage on East 89th Street, the western 100 feet

MINUTES

are in an R10 district, and the remaining 59 feet, including the portion in which the affected windows are located, are in the same R8B district as the Building; and

WHEREAS, the applicant notes that the Enlargement and the elevator bulkhead would be between 9'-0" and 14'-10" from the affected windows in 1095 Park Avenue and the acoustic screen on the roof of the Enlargement would be approximately 25 feet away from the affected windows; and

WHEREAS, the applicant notes that the Enlargement, the elevator bulkhead, and the presence of the screen would adversely affect the views from and light and air to windows on the 15th through 18th floors, and would obstruct the light and air to some windows on the 14th floor of 1095 Park Avenue; and

WHEREAS, however, the applicant asserts that under the relevant legal standards the obstruction of the views from and light and air to the affected windows should not be considered contrary to the public's health, safety or welfare; and

WHEREAS, the applicant notes that the Enlargement will also be visible from 13 other comparably-sized buildings; and

WHEREAS, the applicant notes that the Enlargement will be fully enclosed and no student access will be permitted on the roof; therefore, there will be no affect with respect to noise from the Enlargement on adjacent properties; and

WHEREAS, the applicant asserts that the Enlargement will contain aspects that will contribute positively to the neighborhood, aesthetically and environmentally including an attractive brick façade to replace the current stucco-facing of the 11th and 12th floors, to match the façade of the Enlargement and the rest of the Building; and

WHEREAS, at the Board's request, the applicant identified all of its mitigation measures for sound and other potential impacts to surrounding buildings; such measures include: (1) replacement of stucco with brick on the existing top two stories, (2) the ductwork on the south-facing existing wall of the Building will remain, but the extension of the ductwork for the two new stories will be brought into the Building, (3) installation of more efficient mechanical equipment and acoustic screens for noise reduction, (4) elimination of west-facing windows on the enlargement in response to 1095 Park Avenue's concerns, (5) lighting controls within the building to turn off lights when unoccupied and use of the greenhouse grow lights only during daylight hours, (6) elimination of the western stair bulkhead and water tower and reduction in height of the elevator bulkhead from 15 feet to 13 feet, (7) prohibition of the use of the roof by children, and (8) the provision of green roof and plantings on vertical surfaces visible from 1095 Park Avenue; and

WHEREAS, the applicant states that in granting the Prior Amendment, the Board made the required findings under ZR §§ 72-21, 73-03, 73-64 and 73-641 of the Zoning Resolution and that the proposed amendment does not disturb any of the prior findings; and

WHEREAS, the Opposition asserts that the application should have been filed as a new variance application instead of as an amendment on the Special Order Calendar, and it cites Westwater v. New York City Bd. of Stds. and Appeals,

2013 N.Y.Misc Lexis 4707 (1st Dept 2013) and Fisher v. New York City Bd. of Stds. and Appeals, 71 AD2d 126, 127 (1st Dept 2002) for the principle that only site changes that would be permitted as-of-right but for the prior variance—"minor" or "ministerial" changes—are properly reviewed as amendments to a variance; all other changes, the Opposition states, must be reviewed as new variance applications; as such, the Opposition states that the proposal, which would not be permitted as-of-right, was improperly filed as an amendment; and

WHEREAS, additionally, the Opposition asserts that the EAS is deficient in the following respects: (1) it fails to acknowledge that the expansion results in a building that is more similar to the adjacent R10 district than to Dalton's mid-block R8B district; (2) the shadow study addressed the incremental impact of the expansion rather than the impact of the Building as a whole; (3) the urban design analysis erroneously compared Dalton to Park Avenue buildings rather than buildings within the mid-block R8B; (4) the air quality study did not include the effects of the expansion on buildings other than 1095 Park Avenue; (5) the construction impacts discussion ignores the fact that work will have to be performed outside of school hours; (6) the EAS does not address that this is the third variance application filed at the site; and (7) the Opposition also takes exception with the timing of the submission of the EAS, and states that it is contrary to SEQRA's goal of incorporating environmental considerations into the decision making process at the earliest opportunity; and

WHEREAS, finally, the Opposition asserts that the application ignores the requirements of ZR § 72-21(a), (c), and (e) in that: (1) the application does not articulate a unique physical condition inherent on the zoning lot that creates a practical difficulty in developing in accordance with the zoning regulations; (2) the application does not demonstrate how the expansion outweighs the detrimental impact on the general welfare of the surrounding community; and (3) the application includes no alternative development proposals and provides no details of the use of the building that would enable to Board to make a finding that the proposal is the minimum variance necessary; and

WHEREAS, the applicant responded to the following primary concerns raised by the Opposition (1) the assertions about the requirement for, substance of, and procedure of the EAS; (2) the incompatibility of the Enlargement with the character of the neighborhood; (3) the scope of the Enlargement and its nature as a third approval for the Building; and (4) the limitations of the case law deference afforded to educational institutions; and

WHEREAS, as to the Opposition's concerns about the form of the application and the requirement for an EAS, the applicant notes that such claims are rendered moot by its submission of an EAS; and

WHEREAS, specifically, the applicant notes that it submitted an EAS in a manner which afforded the Opposition and the Community Board in excess of 70 days to review and respond; and

WHEREAS, the applicant asserts that the Community Board has been afforded more time to review the EAS than if it had been submitted with the initial application because if the EAS had been submitted along with the initial

MINUTES

application, it is unlikely that the Community Board would have had the opportunity to review critiques of the EAS as provided by the Opposition's consultants and likely that it would not have had more than 60 days to review; and

WHEREAS, the applicant notes that the Opposition reviewed and submitted a lengthy response to the EAS for the Board's consideration; and

WHEREAS, as to the Opposition's concerns related to alleged deficiencies in the EAS, the applicant asserts that they are without merit and that the EAS was conducted in full accordance with the methodologies set forth in the City's CEQR Technical Manual; and

WHEREAS, the applicant notes that it submitted the EAS to the Community Board more than 60 days prior to the Board's scheduled decision date, which is consistent with the 60-day period that the Community Board has to review new applications prior to the Board's first hearing; and

WHEREAS, as to the Opposition's concerns about the EAS being submitted after the application had already been initially reviewed, the applicant notes that those concerns were raised prior to the revision of the submission schedule which allowed the Community Board and the Opposition more than 60 days to review and comment on the EAS; and

WHEREAS, as to the Opposition's concerns about the Land Use, Public Policy and Zoning Section of the EAS, the applicant notes that the Opposition's consultant concedes that the EAS "examines direct impacts" of the variance, but contends that it "ignores the possibility of indirect impacts" such as the potential that a variance granted for this project may lead to similar variances for other facilities in the R8B district; and

WHEREAS, the applicant notes that the CEQR Technical Manual requires a study of indirect impacts of an action only when a site-specific change "is important enough to lead to changes in land use patterns over a wider area" but does not require a study of indirect impacts that are speculative; and

WHEREAS, the applicant notes that as to the Opposition's concerns about the character of the R8B zoning in the mid-block, 11 other buildings in the midblocks between Park and Lexington avenues and East 87th Street and the north side of East 90th Street exceed the 75-ft. height limit of the R8B zoning district, with seven of them having heights of 150 feet or greater; and

WHEREAS, accordingly, the applicant asserts that the proposed Enlargement, which would increase the height of the Building from 143'-10" to 170'-5", would not be out of context with the midblocks in its vicinity; and

WHEREAS, in response to the Opposition's concerns regarding outreach, and questions raised by the Board, the applicant described its prior outreach to the community, including the neighbors at 1095 Park Avenue and performed additional outreach including displaying a model of the Building to 1105 Park Avenue; and

WHEREAS, as to the specific impact alleged by 1105 Park Avenue that the Enlargement would have a significant adverse effect on views from 1105 Park Avenue's south and east facing windows and would cast shadows on its façade, the applicant asserts that the Enlargement would only be visible from these windows at oblique angles at distances

ranging from 80 to 160 feet (based on distances shown on the Sanborn Map); and

WHEREAS, as to the Opposition's claims that the applicant failed to provide an analysis of alternative sites, the applicant states that, following Cornell, such a discussion would be inappropriate; the court stated that "[a] requirement of a showing of need to expand, or even more stringently, a need to expand to the particular location chosen, however, has no bearing whatsoever upon the public's health, safety, welfare or morals. The imposition of such a requirement, or any other requirement unrelated to the public's health, safety or welfare, is, therefore, beyond the scope of the municipality's police power, and thus, impermissible" Cornell at 597 (citations omitted); and

WHEREAS, first, as to procedure, the Board notes that (1) New York State courts have recognized the Board's authority to establish which hearing calendar and application type is appropriate for proposals under its consideration; (2) the content of the application and the Board's analysis, rather than the calendar designation, guide the Board's review; (3) although the application was filed on the Special Order Calendar, the applicant satisfied the requirements of a variance application including specifically notification of neighbors and the submission of an EAS; and (4) the Board reviewed the application with the same degree of rigor it would had it been a new variance application; and

WHEREAS, the Board agrees with the applicant that the Opposition's case law cited in support of the timing concern is not persuasive as one case holds that environmental review must occur prior to the action by the governmental body, which is consistent with the Board's review here prior to acting on the subject application See City Council of City of Watervilet v. Town Board of Colonie, 3 N.Y. 3d 508 (2004); and

WHEREAS, as to the Opposition's assertion that the EAS should have examined the cumulative impacts of the subject application along with Dalton's two prior grants, which were granted 22 and 49 years ago, respectively, the Board agrees with the applicant that there is not any support for this contention in the CEQR Technical Manual or in Save the Pine Bush v. Albany, 70 N.Y. 2d 193, 206 (1987), which pertains to ten proposed projects in a recently rezoned area, and not to the cumulative impact of three actions to a single property over 49 years; and

WHEREAS, the Board notes that its Rules of Practice and Procedure do not require that an EAS be submitted for applications on the Special Order Calendar, but that the applicant volunteered to prepare an EAS to respond to concerns the Opposition raised and that it followed the requirements of the CEQR Technical Manual; and

WHEREAS, the Board notes that the applicant submitted the EAS to the Opposition and the Community Board more than 70 days in advance of the Board's decision, which is more time than the Community Board has in a standard application process; and

WHEREAS, the Board has considered the relevant findings and concludes that the proposal does not disturb any of the findings of the original variance or special permit; and

WHEREAS, the Board accepts the programmatic needs as legitimate and finds that the applicant has

MINUTES

sufficiently described the specific needs for the proposed new floors and articulated a clear need for all of the proposed floor area; and

WHEREAS, the Board accepts the applicant's representations that the proposed space is necessary to accommodate the STEM programming, allow more students to participate in the programming, and to relieve the nearly 90 percent utility of the existing classrooms which constrains school-wide scheduling; and

WHEREAS, the Board notes that the streetwall, height and setback waivers are necessary so that the Building may follow the institutional model of uniform floor plates to promote efficiencies and have floor to floor heights that are appropriate for classroom and laboratory use and can accommodate building services; and

WHEREAS, the Board also agrees with the applicant that Cornell does not allow for a zoning board to require an educational institution to analyze alternate sites and finds that the applicant has sufficiently satisfied its minimum requirements to accommodate its programmatic needs; and

WHEREAS, as to the compatibility of the proposed use and bulk, the Board notes that the applicant does not propose to increase enrollment and, thus, the current use will be maintained; and

WHEREAS, the Board finds that the amendments including the additional 12,164 sq. ft. and the additional two stories and 27 feet in height will still allow the subject building to meet the (c) finding; and

WHEREAS, the Board notes that the original ten-story building did not comply with the floor area or sky exposure plane at the sixth floor when the R8 zoning district regulations were imposed in 1961; and

WHEREAS, accordingly, as of 1961, before any Board action, there was not any as-of-right enlargement available to the pre-existing non-complying Building, which was originally constructed to a height in excess of 119'-3" and 6.5 FAR; and

WHEREAS, since its construction in 1929, the building also has never had a height of FAR that would comply with the 75-ft. of 5.1 community facility FAR R8B regulations which has been in effect since the 1985 rezoning of the mid-block; and

WHEREAS, the Board does not find that it is appropriate to measure any enlargement to the Building against the R8B building envelope since the current non-complying building envelope has existed since 1965; thus, the true incremental increase is from the existing 1965 building envelope with height of 143'-10" (the envelope was built to accommodate 7.7 FAR, which was increased to the existing 8.48 FAR); and

WHEREAS, the Board notes that if the Building's existing non-complying conditions established in 1965 are used as a base line, rather than the R8B envelope, the height increment is 27 feet versus 95 feet and thus a much more reasonable change than the Opposition suggests; and

WHEREAS, the Board notes that 1095 Park Avenue, which is adjacent to the school building, extends approximately 50 feet into the subject R8B midblock and has an even greater degree of non-compliance with a height of 192 feet; and

WHEREAS, as a result, on the south side of the

midblock where the subject site is located, the adjacent 1095 Park Avenue and the Building create a built condition with an existing non-compliance to FAR and height that extends 150 feet into the 200-ft. length of the East 89th Street midblock; and

WHEREAS, the Board further notes that the surrounding midblocks, particularly to the south (between East 85th and 88th streets between Lexington and Park avenues) and to the west (between East 88th and East 89th streets between Park and Madison avenues) are zoned for 10.0 FAR (R10 equivalent) and allow building heights of 185 feet under the contextual envelope; and

WHEREAS, the Board finds that because of the existing and surrounding context, which is more similar to an R10 equivalent context than R8B, the proposed total 9.67 FAR and 170-ft. height are appropriate; and

WHEREAS, as to the Opposition's concerns that the Enlargement will have a negative impact on surrounding buildings, the Board notes that the direct impact is on 1095 Park Avenue and that Dalton has worked with its neighbor to resolve concerns and to provide mitigation measures to lessen impact, to the extent that its Board of Directors did not oppose the project; and

WHEREAS, the Board notes that the affected windows at 1095 Park Avenue are themselves above the maximum building height of 75 feet in the R8B district as 1095 Park Avenue has 18 stories and, further that, 1105 Park Avenue has 15 stories with an oblique view of the Enlargement; and

WHEREAS, the Board agrees with the applicant that under the relevant legal standards, the obstruction of the views from the 1095 Park Avenue windows is not a sufficient justification for denying the subject application; and

WHEREAS, as to the question of whether the proposal represents the minimum variance, the Board reiterates that the applicant has established that the request for the Enlargement is required by Dalton's legitimate programmatic needs; and

WHEREAS, the Board while recognizing the legitimate concerns raised by the Opposition regarding the degree of waivers requested for the proposed action, does not believe that the approval of such action will set a precedent for future variance applications in the midblock; and

WHEREAS, specifically, the Board reviews each case based on its unique factors and context in determining the appropriateness of floor area and height and setback waivers as well as the neighborhood character finding; and

WHEREAS, the Board finds that the proposed Enlargement, given certain unique factors and context cited above, would not change the essential character of the neighborhood; and

WHEREAS, the Board notes that the applicant represents that Dalton does not have plans to enlarge the Building again in the future, and the Board is concerned that any future enlargement may exceed an appropriate building height and floor area for the neighborhood and may disturb the variance findings; and

WHEREAS, the Board notes that the applicant states that Dalton does not plan to increase its enrollment; thus, the Board finds that the Building with the proposed Enlargement will relieve the high demand for classroom space and allow flexibility in the future to accommodate new programmatic

MINUTES

needs as they arise such that additional enlargements would not be warranted; and

WHEREAS, based upon the above, the Board has determined that the evidence in the record supports a grant of the requested amendment with the conditions listed below.

Therefore it is Resolved, that the Board of Standards and Appeals reopens and amends the resolution, dated June 8, 1965, to grant the noted modifications to the previous approval; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked 'Received October 9, 2013' - (10) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the enlarged Building: a maximum of 14 stories, a height of 170'-5", and 98,960 sq. ft. of floor area (9.67 FAR), as reflected on the BSA-approved plans;

THAT all proposed mitigation measures, including (1) replacement of stucco with brick on the existing top two stories, (2) installation of the ductwork extension for the Enlargement within the Building, (3) installation of more efficient mechanical equipment and acoustic screens for noise reduction, (4) elimination of west-facing windows on the enlargement, (5) installation of lighting controls within the building to turn off lights when unoccupied and use of the greenhouse grow lights only during daylight hours, (6) elimination of the western stair bulkhead and water tower and reduction in height of the elevator bulkhead from 15 feet to 13 feet, (7) prohibition of the use of the roof by children, and (8) the provision of green roof and plantings on vertical surfaces visible from 1095 Park Avenue will be installed and maintained in accordance with the BSA-approved plans;

THAT any change in the use or operator of the Building is subject to Board approval;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, January 14, 2014.

The resolution has been amended. Corrected in Bulletin Nos. 4-5, Vo. 99, dated February 5, 2014.

BULLETIN

OF THE NEW YORK CITY BOARD OF STANDARDS AND APPEALS

COMMUNITY BOARD #10BK

Jeff Mulligan, Executive Director

MINUTES

**REGULAR MEETING
TUESDAY MORNING, FEBRUARY 4, 2014
10:00 A.M.**

Present: Chair Srinivasan, Vice-Chair Collins,
Commissioner Ottley-Brown, Commissioner Hinkson and
Commissioner Montanez.

SPECIAL ORDER CALENDAR

42-03-BZ

APPLICANT – Law Office of Fredrick A. Becker, for 1221 Avenue holdings LLC, owner; TSI West 48, LLC dba New York Sports Club, lessee.

SUBJECT – Application October 2, 2013 – Extension of Term of a previously granted Special Permit (§73-36) for the continued operation of a physical culture establishment (*New York Sports Club*) which expired on July 22, 2013; Amendment to the hours of operation; Waiver of the Rules. C6-5, C6-6 (MID) zoning district.

PREMISES AFFECTED – 1221 Avenue of the Americas, western block front of the Avenue of Americas between West 48th Street and West 49th Street, Block 1001, Lot 29, Borough of Manhattan.

COMMUNITY BOARD #5M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening, a waiver of the Rules of Practice and Procedure, an amendment, and an extension of term for a physical culture establishment (“PCE”), which expired on July 22, 2003; and

WHEREAS, a public hearing was held on this application on January 14, 2014, after due notice by publication in *The City Record*, and then to decision on February 4, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 5, Manhattan, declines to issue a recommendation on the application; and

WHEREAS, the subject site is a corner lot with frontages along West 48th Street and West 49th Street, and Avenue of the Americas, partially within a C6-6 zoning district and partially within a C6-5.5 zoning district, within the Special Midtown District; and

WHEREAS, the site is occupied by a 51-story commercial building, known as the McGraw Hill Building, with approximately 2,508,386 sq. ft. of floor area; and

WHEREAS, the PCE is located on portions of the cellar, sub-cellar, and third sub-cellar levels (20,344 sq. ft. of floor space), with an entrance through the plaza on the Avenue of the Americas frontage of the site; and

WHEREAS, the PCE is operated as New York Sports Club; and

WHEREAS, on July 22, 2003, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-36, to permit, on a site partially within a C6-6 zoning district and partially within a C6-5.5 zoning district, within the Special Midtown District, the operation of a PCE for a term of ten years, to expire on July 22, 2013; and

WHEREAS, the applicant now seeks an amendment regarding the hours of operation and an extension of the term of the PCE special permit for ten years; and

WHEREAS, as to the hours of operation, the applicant noted that the operator has changed the hours of operation from Monday through Thursday, from 6:00 a.m. to 11:00, Friday, from 6:00 a.m. to 10:00 p.m. and Saturday and Sunday, from 9:00 a.m. to 7:00 p.m. to Monday through Thursday, from 5:30 a.m. to 9:00 p.m., Friday, from 5:30 a.m. to 8:00 p.m. and closed Saturday and Sunday; and

WHEREAS, in addition, the applicant requests that the hours of operation be removed as a condition of the grant, so that the operator has flexibility to respond to the changing needs of its members; the applicant notes that the PCE is within an entirely commercial building and that the building is within a commercial district with no nearby residential uses; and

WHEREAS, the Board agrees that because the building contains only commercial uses and because the site is not adjacent to any residential uses, the hours of operation need not be included as a condition of the grant; and

WHEREAS, based upon its review of the record, the Board finds that an extension of term for ten years is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated July 22, 2003, so that as amended the resolution reads: “to grant an amendment to remove the condition regarding the PCE’s hours of operation and to grant an extension of the special permit for a term of ten years from the prior expiration; *on condition* that the use will substantially comply with the drawings associated with the prior approval; and *on further condition*:

THAT this grant will be limited to a term of ten years, to expire on July 22, 2023;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT there will be no change in ownership or operating control of the PCE without prior approval from the Board;

THAT the above conditions will appear on the certificate of occupancy;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect; and

MINUTES

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, February 4, 2014.

381-04-BZ

APPLICANT – Sheldon Lobel, P.C., for 83 Bushwick Place, LLC, owner.

SUBJECT – Application December 6, 2013 – Extension of Time to Complete Construction of a previously granted Variance (72-21) for the construction of a four-story residential building with parking which expired on September 12, 2010; Waiver of the Rules. M1-1 zoning district.

Community Board #1BK

PREMISES AFFECTED – 83 Bushwick Place aka 225-227 Boerum Street, northeast corner of the intersection of Bushwick Place and Boerum Street, Block 3073, Lot 97, Borough of Brooklyn.

COMMUNITY BOARD #1BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, and an extension of time to complete construction for a four-story residential building; and

WHEREAS, a public hearing was held on this application on January 14, 2014, after due notice by publication in *The City Record*, and then to decision on February 4, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the northeast corner of Bushwick Place and Boerum Street, within an M1-1 zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since September 12, 2006, when, under the subject calendar number, the Board granted a variance to permit the construction of a four-story residential building contrary to use regulations; and

WHEREAS, pursuant to ZR § 72-23, construction was to be substantially completed by September 12, 2010; and

WHEREAS, the applicant represents that, due to severe economic hardship, construction pursuant to the variance has not commenced; and

WHEREAS, accordingly, the applicant now seeks an extension of time (four years) to substantially complete construction; and

WHEREAS, at hearing, the Board directed the applicant to remove the graffiti from the site; and

WHEREAS, in response, the applicant agreed to have the graffiti removed; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated September 12, 2006, so that as amended this portion of the resolution shall read: “to grant an extension of time to complete construction to February 4, 2018; *on condition* that the use and operation of the site shall comply with BSA-approved plans associated with the prior grant; and *on further condition*:

THAT substantial construction be completed by February 4, 2018;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB Application No. 301866032)

Adopted by the Board of Standards and Appeals, February 4, 2014.

297-06-BZ

APPLICANT – Eric Palatnik, for Montgomery Avenue Properties, LLC, owner.

SUBJECT – Application November 15, 2013 – Extension of Time to complete construction of a previously granted Variance (§72-21) for the construction of a four-story residential building with ground and cellar level retail, which expired on October 16, 2011; Waiver of the Rules. C4-2 (HS) zoning district.

PREMISES AFFECTED – 130 Montgomery Avenue, between Victory Boulevard and Fort Place, Block 17, Lot 116, Borough of Staten Island.

COMMUNITY BOARD #1SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

MINUTES

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, and an extension of time to obtain a certificate of occupancy for a four-story mixed commercial and residential building; and

WHEREAS, a public hearing was held on this application on January 14, 2014, after due notice by publication in *The City Record*, and then to decision on February 4, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Montanez; and

WHEREAS, the subject site is located on the west side of Montgomery Avenue, between Fort Place and Victory Boulevard, within a C4-2 zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since October 16, 2007, when, under the subject calendar number, the Board granted a variance to permit the construction of a four-story mixed commercial and residential building contrary to ZR §§ 23-47 (rear yard) and 23-145 (lot coverage); and

WHEREAS, the applicant notes that a waiver of General City Law §35 was granted in a companion application under BSA Cal. No. 298-06-A; and

WHEREAS, pursuant to ZR §72-23, construction was to be substantially completed by October 16, 2011; and

WHEREAS, the applicant represents that, due to protracted litigation, financing of the project was delayed and construction has not yet commenced; and

WHEREAS, accordingly, the applicant now seeks an extension of time (four years) to substantially complete construction; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to obtain a certificate of occupancy is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated October 16, 2007, so that as amended this portion of the resolution shall read: “to grant an extension of time to obtain a certificate of occupancy to February 4, 2018; *on condition* that the use and operation of the site shall comply with BSA-approved plans associated with the prior grant; and *on further condition*:

THAT a certificate of occupancy will be obtained by February 4, 2018;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its

jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Application No. 500855452)

Adopted by the Board of Standards and Appeals, February 4, 2014.

25-08-BZ

APPLICANT – Eric Palatnik, P.C., for Torah Academy for Girls, owner.

SUBJECT – Application February 14, 2013 – Amendment to a Variance (§72-21) which permitted bulk waivers for the construction of a school (*Torah Academy for Girls*). The proposed amendment seeks to enlarge the school to provide additional classrooms. R4-1 zoning district.

PREMISES AFFECTED – 444 Beach 6th Street, Beach Street and Meehan Avenue, Block 15591, Lot 1, Borough of Queens.

COMMUNITY BOARD #14Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to a previously-granted variance, which, pursuant to ZR § 72-21, authorized in an R4-1 zoning district the enlargement of a three-story school building contrary to bulk regulations; and

WHEREAS, the application is brought on behalf of Torah Academy for Girls (the “Yeshiva”), a nonprofit religious educational institution; and

WHEREAS, a public hearing was held on this application on December 10, 2013, after due notice by publication in the *City Record*, with a continued hearing on January 14, 2014, and then to decision on February 4, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Montanez; and

WHEREAS, the subject site comprises the western half of Block 15591, which is bounded by Meehan Avenue, Beach 6th Street, and Jarvis Avenue, within an R4-1 zoning district; and

WHEREAS, the site has approximately 239 feet of frontage on Meehan Avenue, 190 feet of frontage on Beach 6th Street, and approximately 289 feet of frontage on Jarvis Avenue, and approximately 50,003 sq. ft. of lot area; and; and

WHEREAS, the site is occupied by a one- to four-story school building (Use Group 3) with 84,389 sq. ft. of floor area (1.69 FAR); and

WHEREAS, on May 20, 2008, under the subject calendar number, the Board granted a variance to allow the enlargement of the building contrary to the requirements for

MINUTES

lot coverage (ZR §§ 24-11 and 24-12), front yard (ZR § 24-34), rear yard (ZR § 24-382), perimeter wall height, setback, and sky-exposure plane (ZR § 24-521); and

WHEREAS, the applicant notes that prior to the 2008 grant, the Board, under BSA Cal. No. 158-02-BZ, permitted the enlargement of the building contrary to the requirements for floor area, side yards, front yard, rear yard, and height and setback; a floor area waiver was necessary because, at the time, the site was zoned R3-1, which has a maximum permitted community facility FAR of 1.0; and

WHEREAS, the applicant now requests an amendment to vertically and horizontally enlarge the building, resulting in an increase of the degree of waiver granted with respect to lot coverage and setbacks; and

WHEREAS, as to lot coverage, the applicant states that it will increase from 63.25 percent to 66.07 percent (the maximum permitted lot coverage is 58.06 percent); and

WHEREAS, as to setbacks, the applicant states that one of the three setbacks provided will be decreased from a depth of 23'-9" to a depth of 20'-11 9/16" and the other two setbacks provided will remain at depths of 15'-0" and 1'-8" (three setbacks with depths of 15'-0" are required); and

WHEREAS, in addition, the applicant states that the enlargement will result in an increase in floor area from 84,389 sq. ft. (1.69 FAR) to 98,388 sq. ft. (1.97 FAR); however, the applicant notes that the proposed FAR is within the 2.0 FAR permitted as-of-right in the R4-1 district; and

WHEREAS, the applicant states that the proposed enlargement will result in the following: (1) an additional classroom on the first story; (2) one fewer classroom on the second story; (3) five fewer regular classrooms but three additional remedial classrooms and a new library on the third story; (4) eight additional classrooms, a computer lab and a multipurpose room on the fourth story; and (5) a rooftop recreation area; and

WHEREAS, the applicant states that the Yeshiva requires the enlargement in order to satisfy its programmatic needs, which include providing sufficient space for its growing student body, which requires 35 sq. ft. of classroom space per student; and

WHEREAS, specifically, the applicant represents that while enrollment at the Yeshiva is nearly 1,100 students, its existing facilities are capable of accommodating no more than 922 students; and

WHEREAS, the applicant represents that the enlargement will bring the Yeshiva to a classroom space-per-student of 33.3 sq. ft., which is acceptable given its stated objective of 35 sq. ft. per student; and

WHEREAS, in addition, the applicant states that the proposed enlargement will allow greater flexibility in structuring curriculum and provide significantly more recreation space than is currently available; and

WHEREAS, at hearing, the Board directed the applicant to provide additional information regarding the streetscape, adjoining properties, the movement of bus traffic along the site, and the proposed screening from the nearby residences; and

WHEREAS, in response, the applicant submitted: (1) a streetscape and radius diagram; (2) photographs of the adjoining properties; and (3) revised plans depicting the bus loading area and the opaque fence separating the site from the nearby residences; and

WHEREAS, based upon the above, the Board has determined that the evidence in the record supports a grant of the requested amendment with the conditions listed below.

Therefore it is Resolved, that the Board of Standards and Appeals reopens and amends the resolution, dated May 20, 2008, to grant the noted modifications to the previous approval; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked 'Received January 13, 2014'- Nine (9) sheets; and *on further condition*:

THAT the bulk parameters of the building will be as follows: 98,388 sq. ft. of floor area (1.97 FAR); a maximum lot coverage of 66.07 percent; setbacks of 15'-0", 20'-11 9/16", and 1'-8";

THAT the landscaping, bus loading, and fencing will be in accordance with the BSA-approved plans;

THAT construction will proceed in accordance with ZR § 72-23;

THAT all conditions from the prior grant will remain in effect, except as otherwise stated herein;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, February 4, 2014.

823-19-BZ

APPLICANT – Eric Palatnik, P.C., for Israel Minzer, owner.

SUBJECT – Application April 20, 2012 – Amendment of a previously approved variance which permitted a one story warehouse (UG 16). The application seeks to construct an as-of-right two-story community facility (UG 4) atop the warehouse and pursuant to ZR §§ 11-412 and 11-413 reduce the warehouse space to accommodate 13 required accessory parking spaces for the proposed community facility use. R5 zoning district.

PREMISES AFFECTED – 1901 10th Avenue, southeast corner of East 19th Street and 10th Avenue, Block 890, Lot 1, Borough of Brooklyn.

THE RESOLUTION –

WHEREAS, this is an application requesting a Board determination that the owner of the premises has obtained the right to complete construction of a two-story, single-family residential building under the common law doctrine of vested rights; and

WHEREAS, a public hearing was held on this application on September 17, 2013, after due notice by publication in *The City Record*, with continued hearings on November 26, 2013, and January 14, 2014, and then to decision on February 4, 2014; and

WHEREAS, the subject site is located on the south side of Avenue S, between East 13th Street and East 14th Street, within an R4-1 zoning district; and

WHEREAS, the site has 20 feet of frontage along Avenue S, and a total lot area of 2,000 sq. ft.; and

WHEREAS, the site is occupied by a two-story, single-family residential building which, in 2006, was enlarged at the rear, resulting in an increase in floor area from 1,971 sq. ft. of floor area (0.99 FAR) to 2,709 sq. ft. of floor area (1.4 FAR) (the “Building”); and

WHEREAS, the applicant represents that the Building complies with the parameters of the former R6 zoning district; and

WHEREAS, on January 11, 2006, Alteration Permit No. 302066136-01-AL (hereinafter, the “Alteration Permit”) was issued by the Department of Buildings (“DOB”) permitting construction of the Building; and

WHEREAS, however, on February 15, 2006, (hereinafter, the “Enactment Date”), the City Council voted to adopt the Homecrest Rezoning, which rezoned the site from R6 to R4-1; and

WHEREAS, the Building, which is a single-family residence with 2,709 sq. ft. of floor area (1.4 FAR), no side yards, and a rear yard with a depth of 17 feet, does not comply with the current zoning, which allows only single-family residences with a maximum FAR of 0.75, one side yard with a

MINUTES

minimum width of eight feet, and a rear yard with a minimum depth of 30 feet; and

WHEREAS, as of the Enactment Date, the applicant had obtained permits but had not completed construction; and

WHEREAS, accordingly, the applicant now seeks recognition of vested right to complete construction pursuant to the common law doctrine of vested rights; and

WHEREAS, a threshold matter for the vested rights analysis is that a permit be issued lawfully prior to the Enactment Date and that the work was performed pursuant to such lawful permit; and

WHEREAS, by letter dated September 11, 2013, DOB stated that the Alteration Permit was lawfully issued, authorizing construction of the proposed Building prior to the Enactment Date; and

WHEREAS, the Board notes that when work proceeds under a lawfully-issued permit, a common law vested right to continue construction after a change in zoning generally exists if: (1) the owner has undertaken substantial construction; (2) the owner has made substantial expenditures; and (3) serious loss will result if the owner is denied the right to proceed under the prior zoning; and

WHEREAS, specifically, as held in Putnam Armonk, Inc. v. Town of Southeast, 52 A.D.2d 10 (2d Dept. 1976), where a restrictive amendment to a zoning ordinance is enacted, the owner's rights under the prior ordinance are deemed vested "and will not be disturbed where enforcement [of new zoning requirements] would cause 'serious loss' to the owner," and "where substantial construction had been undertaken and substantial expenditures made prior to the effective date of the ordinance"; and

WHEREAS, however, notwithstanding this general framework, as discussed by the court in Kadin v. Bennett, 163 A.D.2d 308 (2d Dept. 1990) "there is no fixed formula which measures the content of all the circumstances whereby a party is said to possess 'a vested right'. Rather, it is a term which sums up a determination that the facts of the case render it inequitable that the State impede the individual from taking certain action"; and

WHEREAS, as noted above, the applicant obtained a permit to enlarge the Building at the rear and performed certain work prior to the Enactment Date; and

WHEREAS, specifically, the applicant states that the work it performed constitutes substantial construction, in that, prior to the Enactment Date, it performed: 100 percent of the excavation, footings, concrete walls, exterior, roof finish, skylights, windows, and 50 percent of the electrical and exterior stucco finish; and

WHEREAS, in support of this statement, the applicant has submitted the following: a breakdown of the construction costs by line item; copies of cancelled checks; construction permits; and photographs of the site; and

WHEREAS, at hearing, the Board requested further documentation regarding the timing of the work performed; and

WHEREAS, in response, the applicant provided affidavits from the owner of the site and from a neighbor;

both affidavits attest to the timing and nature of the work performed prior to the Enactment Date; and

WHEREAS, the Board has reviewed the representations as to the amount and type of work completed before and after the Enactment Date and the documentation submitted in support of these representations, and agrees that it establishes that substantial work was performed; and

WHEREAS, as to expenditure, the Board notes that unlike an application for relief under ZR § 11-30 et seq., soft costs and irrevocable financial commitments can be considered in an application under the common law and accordingly, these costs are appropriately included in the applicant's analysis; and

WHEREAS, the applicant represents that the total expenditure paid for the enlargement is \$77,600 (including \$51,000 in hard costs), or approximately 61 percent, out of the \$127,610 cost to complete; and

WHEREAS, as noted, the applicant has submitted copies of cancelled checks and affidavits in support of this representation; and

WHEREAS, the Board considers the amount of expenditures significant, both for a project of this size, and when compared with the development costs; and

WHEREAS, again, the Board's consideration is guided by the percentages of expenditure cited by New York courts considering how much expenditure is needed to vest rights under a prior zoning regime; and

WHEREAS, as to serious loss, the Board examines not only whether certain improvements and expenditures could not be recouped under the new zoning, but also considerations such as the diminution in income that would occur if the new zoning were imposed and the reduction in value between the proposed building and the building permitted under the new zoning; and

WHEREAS, the applicant notes that the R4-1 floor area and yard regulations are significantly more restrictive than the R6 regulations; specifically, whereas a residence with a 3.0 FAR and no side yards or rear yard is permitted in an R6 zoning district (because the site is within a 100 feet of a corner), in an R4-1 district, the maximum permitted FAR is 0.75, and one side yard with a minimum width of eight feet and a rear yard with a minimum depth of 30 feet are required; and

WHEREAS, accordingly, the applicant states that, in order to comply with the R4-1 regulations, it would have to restore the building to its prior condition, which even under the R4-1 regulations would be non-complying; and

WHEREAS, the applicant represents that restoring the building to its prior condition would result in a serious economic loss to the applicant, because all monies spent to date will be lost and additional expenditures will be required, without any increase in the value of the Building; and

WHEREAS, the Board agrees that complying with the R4-1 district regulations would result in a serious economic loss for the applicant; and

WHEREAS, in sum, the Board has reviewed the representations as to the work performed and the

MINUTES

expenditures made both before and after the Enactment Date, the representations regarding serious loss, and the supporting documentation for such representations, and agrees that the applicant has satisfactorily established that a vested right to complete construction of the Building has accrued to the owner of the premises.

Therefore it is Resolved, that this application made pursuant to the common law doctrine of vested rights requesting a reinstatement of Permit No. 302066136-01-AL, as well as all related permits for various work types, either already issued or necessary to complete construction and obtain a certificate of occupancy, is granted for four years from the date of this grant.

Adopted by the Board of Standards and Appeals, February 4, 2014.

164-13-A

APPLICANT – Slater & Beckerman, for Grand Imperial, LLC, owner.

SUBJECT – Application May 31, 2013 – Appeal seeking to reverse Department of Buildings’ determination not to issue a Letter of No Objection that would have stated that the use of the premises as Class A single room occupancy for periods of no less than one week is permitted by the existing Certificate of Occupancy. R10A zoning district.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner of the Department of Buildings (“DOB”), dated May 10, 2013, acting on DOB Application No. 320688029, reads, in pertinent part:

Proposed commercial building cannot be built in R5 zone, per Section 22-00; and

WHEREAS, this is an application under ZR § 72-21, to permit, within an R5 zoning district, the construction of a one-story commercial building (Use Group 6), contrary to ZR § 22-00; and

WHEREAS, a public hearing was held on this application on October 29, 2013, after due notice by publication in the *City Record*, with continued hearings on December 10, 2013 and January 14, 2014, and then to decision on February 4, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 18, Brooklyn, recommends approval of the application; and

WHEREAS, the subject site includes all of Block 8341, which comprises Lots 100, 113, 118, 120, 121, and 125 and is bounded by Ralph Avenue, East 73rd Street, Bergen Avenue, and Avenue K; and

WHEREAS, the site, which is wholly within an R5 zoning district, has 237.76 feet of frontage along Ralph Avenue, 567.51 feet of frontage along East 73rd Street, 696.15 feet of frontage along Bergen Avenue, 200 feet of frontage along Avenue K, and a lot area of 127,535 sq. ft.; in addition, a sewer easement encumbers a portion of the site for the full length of Ralph Avenue; and

WHEREAS, the site is occupied by six, three-story residential buildings with a total of 159,418 sq. ft. of floor area (1.25 FAR) and 144 dwelling units (affordable housing), and 167 parking spaces (the “Development”); 51 of the parking spaces are driveway spaces appurtenant to the buildings, 51 are within the buildings, and 65 are provided for-pay in an at-grade v-shaped parking lot in portions of Lots 118 and 121 along Ralph Avenue and Bergen Avenue (the “Parking Lot”); and

WHEREAS, the applicant represents that, in connection with this application, a new tax lot, Lot 135, will be formed within the site from the northwest portions of Lots 118 and 112; Lot 135 will have 162.16 feet of frontage along Bergen Avenue, 170.43 feet along Ralph Avenue, and approximately 16,500 sq. ft. of tax lot area; and

WHEREAS, the applicant states that the Development was completed around 2006 and included a partial build-out of three mapped but unbuilt public roadways (Bergen Avenue, Avenue K, and East 73rd Street); and

WHEREAS, the applicant notes that the Development was financed through the New York City Housing Development Corporation’s (“HDC”) New Housing Opportunities Program (“NewHOP”), with a required debt-service-coverage-ratio (“DSCR”) of 1.20, and in order to

MINUTES

satisfy the DSCR for the site, the Development's revenue stream included revenue from the Parking Lot; however, in 2011, the City widened Bergen Avenue and installed 70 angled, unmetered parking spaces; and

WHEREAS, accordingly, the applicant represents that revenue from the Parking Lot has sharply declined, the applicant's ability to cover the 1.20 DSCR is in jeopardy, and, absent the requested relief, an affordable housing project is in danger of mortgage default; and

WHEREAS, therefore, in order to offset the lost revenue from the Parking Lot and to appropriately account for the unique hardships inherent in the original development of the site, the applicant proposes to construct on Lot 135 a one-story commercial building (Use Group 6) with 5,162 sq. ft. of floor area (0.04 FAR) and an accessory parking lot with 18 spaces; and

WHEREAS, because Use Group 6 is not permitted within the subject R5 zoning district, the applicant seeks a use variance; and

WHEREAS, the applicant states that, per ZR § 72-21(a), the following are unique physical conditions which create an unnecessary hardship in developing the site in conformance with applicable regulations: (1) the lack of adjacent sewer lines; (2) the existence of a sewer easement, which prohibits construction on the westernmost portion of the site; (3) the requirement to construct abutting public roadways; and (4) the historic use of a portion of the site for a dumping ground; and

WHEREAS, the applicant states that when the Development was constructed, the site lacked adjacent sewer lines along Bergen Avenue and East 73rd Street, and the nearest connectible sanitary sewer ran down Ralph Avenue, along the western portion of the site; as such, the developer had to construct an on-site private sewer line running the full length of Block 8341, as well as a pumping station with sewage grinders and an emergency generator, and 69 drywells for storm water management, at significant cost; and

WHEREAS, the applicant states that the costs associated with the construction of the sanitary and storm sewer systems were further increased by the existence of a 120-inch sewer main running parallel to Ralph Avenue and a related sewer easement, which extends for a depth of 60 feet into the site; such easement also constrained where the residential buildings could be located, making two of the six buildings further from the main than would have been required if there were no easement; and

WHEREAS, the applicant asserts that the site was also uniquely burdened by having to build out portions of mapped but unbuilt Bergen Avenue, Avenue K, and East 73rd Street; and

WHEREAS, finally, the applicant contends that illegal dumping at the site prior to the construction of the Development was a unique physical condition that created an unnecessary hardship in developing the site; in particular, when the site was originally acquired, it was an abandoned construction site with in-place foundations filled with dirt, debris, and garbage; accordingly, the site required considerable soil excavation and removal as well as special

removal and disposal of the landfill-type garbage that had accumulated at the site; such operations increased construction costs beyond that which would have been typical for a similarly-sized project; and

WHEREAS, the Board finds that the site's lack of adjacent sewers, encumbrance by a sewer easement, lack of built-out abutting public roadways, and historic use as a dumping ground created an unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant asserts that, per ZR § 72-21(b), there is no reasonable possibility that the development of the site in conformance with the Zoning Resolution will bring a reasonable return; and

WHEREAS, in particular, the applicant states that because the site was developed through HDC financing and the NewHOP program, it must adhere to the 1.20 DSCR while providing affordable housing at the site; as originally conceived, the Development's revenue—including the Parking Lot revenue—was sufficient to cover the DSCR; however, with the decline of the Parking Lot revenue due to the availability of free parking spaces along Bergen Avenue, the applicant states that it can no longer offset the premium costs for developing the site; and

WHEREAS, the applicant explored the feasibility of constructing an additional residential building on a portion of Lot 121, east of the sewer easement; in addition to requiring a variance for floor area (the site is already at the maximum permitted FAR of 1.25), a new residential building on the site would have too few units to satisfy NewHOP requirements; and

WHEREAS, therefore, the applicant states that only the proposal will generate the amount of revenue necessary to maintain the 1.20 DSCR and avoid a mortgage default; and

WHEREAS, in support of this statement, the applicant submitted a financial analysis, which studied the Development's DSCR in light of the declining revenues of the Parking Lot and the projected revenues of the proposed commercial building; and

WHEREAS, the applicant concluded that the proposal will allow the Development to maintain the required DSCR, which in light of the unique financing of the Development, is tantamount to providing a positive rate of return; and

WHEREAS, at hearing, the Board directed the applicant to provide detailed information regarding: (1) the structure of its financing; and (2) its construction costs associated with the site's unique conditions; and

WHEREAS, in response, the applicant provided an itemized and annotated timeline of the Development's costs and financing, and a copy of its builder's pavement plan (depicting the extent of the roadway construction) and its site drainage plan (depicting the sanitary and storm sewer systems); and

WHEREAS, based upon its review of the applicant's financial analysis, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict conformance

MINUTES

with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, the applicant states that the immediate area is characterized by a mix of low- to medium-density residential and commercial uses with some manufacturing/industrial uses, including a large water treatment facility across Bergen Avenue; and

WHEREAS, in support of this statement, the applicant submitted a land use map and photographs depicting the mixed-use nature of the neighborhood; based on the map, the proposed commercial building will be immediately adjacent to either parking areas or commercial (across Ralph Avenue) or industrial uses (across Bergen Avenue); and

WHEREAS, as to bulk, the applicant states that the proposed commercial building is smaller or comparable to other buildings (both residential and commercial) located along Ralph Avenue; and

WHEREAS, in addition, the applicant asserts that the bulk of the building is modest in comparison to what is permitted in the C2-2 district mapped directly across Ralph Avenue from the site; specifically, if the proposed building on Lot 135 were considered to be on its own zoning lot, as noted above, its lot area would be 16,031 sq. ft. and its FAR would be 0.32, which represents less than one-third of the 1.0 FAR permitted in a C2-2 district; and

WHEREAS, likewise, the applicant states that the proposed wall height of 18 feet is 12 feet less than the maximum permitted wall height (30 feet) in the C2-2 district; also, while there are no yard regulations for a commercial building in an R5 district, the building has a yard facing Bergen Avenue with a width of approximately five feet and a yard facing Ralph Avenue with a width of approximately 57 feet; further, there is a 40-foot separation between the proposed building and the nearest dwelling; and

WHEREAS, as to parking, the proposal would allocate 18 parking spaces for the commercial portion of the site and maintain 123 parking spaces for the residences, which is in accordance with ZR § 25-23 and would be in accordance with ZR § 36-21, if the commercial use were permitted; further, as noted above, Bergen Avenue has 70 angled parking spaces directly abutting the site; and

WHEREAS, therefore, the applicant asserts that the proposal is compatible with the surrounding neighborhood in terms of use and bulk, and will have no impact on parking; and

WHEREAS, the Board agrees that the character of the area is mixed-use, and finds that the introduction of a one-story commercial building and parking lot will not impact nearby conforming uses; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the

surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that, consistent with ZR § 72-21(d), the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the site's unique physical conditions; and

WHEREAS, finally, the Board finds that the proposal is the minimum variance necessary to afford relief, as set forth in ZR § 72-21(e); and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an unlisted Action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No.13-BSA-138K, dated May 13, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, within an R5 zoning district, the construction of a one-story commercial building (Use Group 6), contrary to ZR § 22-00, *on condition* that any and all work will substantially conform to drawings filed with this application marked "Received September 18, 2013"– (6) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the proposed building: one story; a maximum of 5,162 sq. ft. of floor area (0.04 FAR); side yards with minimum depths of five feet and 57 feet; a maximum wall height of 18 feet; and accessory parking for 18 automobiles;

THAT no fewer than 141 parking spaces (123 accessory to residences and 18 accessory to the commercial building) will be provided at the site;

THAT signage will comply with C1 regulations;

THAT the above conditions will appear on the

MINUTES

certificate of occupancy;

THAT substantial construction will be completed in accordance with ZR § 72-23;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 4, 2014.

209-13-BZ

CEQR #14-BSA-005M

APPLICANT – Sheldon Lobel, P.C., for 12 West 21 Land, O.P., owner.

SUBJECT – Application July 8, 2014 – Special Permit (§73-36) to allow a physical culture establishment (*NY Physical Training Fitness Studio*) within the existing building, contrary to C6-4-A zoning district.

PREMISES AFFECTED – 12 West 21st Street, between 5th Avenue and 6th Avenue, Block 822, Lot 49, Borough of Manhattan.

COMMUNITY BOARD #5M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated June 6, 2013, acting on Department of Buildings (“DOB”) Application No. 121094813, reads in pertinent part:

Physical culture establishment is not permitted as-of-right in a C6-4A zoning district and is contrary to ZR 32-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in a C6-4A zoning district within the Ladies’ Mile Historic District, the legalization of a physical culture establishment (“PCE”) on the second floor of a 12-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on January 14, 2014 after due notice by publication in *The City Record*, and then to decision on February 4, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Montanez and Commissioner Ottley-Brown;

and

WHEREAS, Community Board 5 Manhattan, expresses no objection to this application; and

WHEREAS, the subject site is located on the south side of West 21st Street, between Fifth Avenue and Avenue of the Americas, within a C6-4A zoning district within the Ladies’ Mile Historic District; and

WHEREAS, the site has approximately 50.5 feet of frontage along West 21st Street, and 4,646 sq. ft. of lot area; and

WHEREAS, the site is occupied by a 12-story commercial building with 54,220 sq. ft. of floor area (11.67 FAR); and

WHEREAS, the PCE occupies approximately 4,242 sq. ft. of floor area on the second floor of the building; and

WHEREAS, the PCE began operation as New York Personal Training Fitness Studio on January 1, 2008; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE are seven days per week, 24 hours per day; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Landmarks Preservation Commission has issued a Certificate of No Effect for the interior alterations and the exterior signage, dated October 2, 2013; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; however, the Board has reduced the term of the grant to reflect the period of time that the PCE operated without the special permit; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No. 14BSA005M dated July 8, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions;

MINUTES

Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issued a Type I Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located in a C6-4A zoning district within the Ladies' Mile Historic District, the legalization of a PCE on the second floor of an 12-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received November 6, 2013" – Four (4) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on January 1, 2018;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 4, 2014.

243-13-BZ

APPLICANT – Kramer Levin Naftalis & Frankel LLP, for Henry II Thames LP c/o of Fisher Brothers, owners.

SUBJECT – Application August 21, 2013 – Variance (§72-21) to permit construction of a mixed use building, contrary to setback requirements (§91-32). C5-5 (LM) zoning district.

PREMISES AFFECTED – 22 Thames Street, 125-129 Greenwich Street, southeast corner of Greenwich Street and Thames Street, Block 51, Lot 13, 14, Borough of Manhattan.

COMMUNITY BOARD #1M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Executive Zoning Specialist, dated July 22, 2013, acting on Department of Buildings Application No. 121183799, reads, in pertinent part:

Proposed mixed building portion above the maximum base height does not comply with setback regulations; contrary to ZR 91-32; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site within a C5-5 zoning district within the Special Lower Manhattan District (LM), a 70-story mixed-use commercial/residential building, with 439 dwelling units, and commercial use on the first and second floors, which is contrary to the setback regulations set forth at ZR § 91-32; and

WHEREAS, a public hearing was held on this application on November 26, 2013, after due notice by publication in the *City Record*, with continued hearings on January 14, 2014, and then to decision on February 4, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Manhattan, recommends approval of the application; and

WHEREAS, the subject site is located on the southeast corner of Greenwich Street and Thames Street and comprises Lot 13 and Lot 14; and

WHEREAS, Lots 13 and 14 form a single zoning lot (the "Zoning Lot") with a combined lot area of 35,813.70 sq. ft.; Lot 13 has a lot area of 26,727.37 sq. ft., which represents approximately 75 percent of the Zoning Lot's total lot area and Lot 14 has a lot area of 9,086.33 sq. ft., which represents approximately 25 percent of the Zoning Lot; and

WHEREAS, Lot 13 is improved with a now vacant building constructed in two phases – a 6-story structure completed in 1921 and a 14-story addition completed in 1931; it is an individual New York City Landmark (the "Landmark

MINUTES

Building”), the former American Stock Exchange building, which will remain; Lot 14 is occupied by a vacant ten-story commercial building (the “Lot 14 Building”) which was constructed as a factory in the late 1800’s and which will be demolished; and

WHEREAS, in 1957, pursuant to BSA Cal. No. 847-56-A, the Board granted a variance of Section 271 of the Labor Law which allowed a fire escape located on the north side of the Lot 14 Building to serve as the building’s required second means of egress; and

WHEREAS, the applicant states that the proposed building will include approximately 359,000 sq. ft. of floor area, including unused floor area attributable to Lot 13, and up to 440 residential units; and

WHEREAS, the applicant states that subject to Landmarks Preservation Committee (LPC) approval, the owner of Lot 13 is planning to convert the Landmark Building to a hotel with retail uses on the lower floors at a future date; since the Lot 14 Building is not a designated landmark, the applicant asserts that LPC approval is not required for the proposal; and

WHEREAS, the applicant states that sites within the Special Lower Manhattan District are subject to special street wall and setback regulations, which are set forth at ZR §§ 91-31 and 91-32 and provide that all portions of a building located above a specified maximum base height must set back a specified distance from the street line; and

WHEREAS, ZR § 91-31 states that, except as otherwise provided in that section, the maximum base height will be 85 feet or 1.5 times the width of the street upon which the building fronts and it designates six classes or “types” of streets on which new development is subject to different minimum and/or maximum base heights; and

WHEREAS, ZR § 91-31 further provides that, when a building fronts on two intersecting streets that are subject to different maximum base heights, the higher maximum base height may wrap around to the street with the lower maximum base height for a distance of 100 feet; and

WHEREAS, the applicant states that ZR § 91-32 specifies the required building setback above the applicable maximum base height, which is based on the lot area of the relevant zoning lot; for zoning lots of less than 15,000 sq. ft., a minimum setback of ten feet is required; for zoning lots of between 15,001 and 30,000 sq. ft., a minimum setback of 15 feet is required; and for zoning lots greater than 30,000 sq. ft., a minimum setback of 20 feet is required; and

WHEREAS, the applicant notes that the Lot 14 portion of the Zoning Lot has 82’-8” of frontage on Greenwich Street and 119’-3½” of frontage along Thames Street; and

WHEREAS, the applicant notes that Appendix A, Map 2 of the Special District regulations designates Lot 14’s Greenwich Street frontage as a Type 3 street and its Thames Street frontage as an unclassified street; under ZR § 91-31, along a Type 3 street, the base height of a building will be at least 60 feet or five stories, whichever is less, and may not exceed 85 feet or 1.5 times the width of the street, whichever is greater; and

WHEREAS, the applicant notes that Greenwich Street has a width of 65 feet and, thus, along Greenwich Street, the base height of a new building constructed on Lot 14 may not exceed 97.5 feet; due to ZR § 91-31’s “wrap” provision, all but a small segment of the new building’s Thames Street frontage may likewise have a base height of up to 97.5 feet; and

WHEREAS, the applicant notes that although Lot 14 has a lot area of only 9,086.33 sq. ft., the Zoning Lot, including the site of the Landmark Building, has a total lot area of 35,813.7 sq. ft., thus ZR § 91-32 requires that, above the applicable maximum base height of 97.5 feet, a new building constructed on Lot 14 must set back at least 20 feet along Greenwich Street and along Thames Street; and

WHEREAS, because the proposal reflects a building with a setback of 10 feet on Greenwich Street and a setback of 13 feet on Thames Street, above a height of 76 feet, rather than setbacks of 20 feet on each frontage, waiver of the Special Lower Manhattan District’s setback provision is required; and

WHEREAS, the applicant states that, per ZR § 72-21(a), the following are unique physical conditions which create an unnecessary hardship in developing the in conformance with applicable regulations: (1) existence of the Landmark Building on the Zoning Lot and (2) the configuration of the Zoning Lot with the historic interconnectedness of the buildings; and

WHEREAS, the applicant states the Zoning Lot is unique because most of it is occupied by a designated New York City landmark which was physically and functionally connected to the existing Lot 14 Building for many years and severely constrains any new development on the Zoning Lot; and

WHEREAS, the applicant states that for many years, the building housed the American Stock Exchange and in 2013, the LPC designated the building an individual New York City landmark; and

WHEREAS, the applicant asserts that as a consequence of its landmark status, it is extremely unlikely that the Landmark Building could ever be demolished and replaced with a new building or significantly enlarged so as to permit all or most of the allowable floor area attributable to Lot 13 to be utilized on that parcel, which has a lot area of approximately 9,000 sq. ft.; and

WHEREAS, additionally, the applicant asserts that there are not any sites in proximity to the Zoning Lot that are both eligible under the Zoning Resolution to receive Lot 13’s unused floor area and practically capable of utilizing that floor area; and

WHEREAS, thus, the applicant asserts that the only option for the utilization of most of Lot 13’s unused floor area is to transfer that floor area to Lot 14 and use it in a new development on that parcel, which is what the applicant proposes; and

WHEREAS, as to the uniqueness of the circumstances that affect the site, the applicant provided a map which reflects the nine other designated New York City landmarks located within a 400-ft. radius of the site; and

MINUTES

WHEREAS, the analysis identifies these landmarks and shows the maximum amount of floor area permitted on the landmark site, the amount of floor area in the landmark building, and the available development rights on the landmark site; and

WHEREAS, the applicant's analysis concludes that six of the nine landmarks are currently overbuilt and therefore do not have any excess floor area that can be transferred to a potential development site; although two of the landmark sites - St. George's Syrian Catholic Church and 94 Greenwich Street - have excess development rights, they have already undergone a zoning lot merger with the larger parcel located at 99 Washington Street and their excess development rights are being used in a new hotel that is presently under construction on that parcel; and

WHEREAS, the applicant distinguishes the other merger scenario from its own where a development on the smaller non-landmark portion of the site is severely constrained by the landmark status of approximately 75 percent of the lot area; and

WHEREAS, the applicant states that the last of the nine landmarks shown on is Trinity Church and Graveyard, which contains a large amount of excess development rights and the only other parcel located on the same block is also occupied by a landmark, - the adjacent Trinity Building; therefore, none of the Church's excess development rights can be utilized on that block pursuant to a conventional zoning lot merger; and

WHEREAS, the applicant asserts that the mechanism available for a transfer of the Church's development rights is a City Planning Commission special permit pursuant to ZR § 74-79 and thus it is highly unlikely that a Board variance would be requested in connection with a utilization of Trinity Church's excess development rights; and

WHEREAS, the applicant concludes that there are no other landmark sites in proximity to the site that are affected by the same sort of unique circumstances that create practical difficulties and unnecessary hardship and support the granting of a variance in this case; and

WHEREAS, the applicant notes, that due to the configuration of the zoning lot, there are practical difficulties in utilizing most of the Zoning Lot's available floor area in a new development on Lot 14 in compliance with the Zoning Resolution's applicable setback requirements; and

WHEREAS, as to the interconnectedness of the buildings, the applicant asserts that in 1930, the American Stock Exchange's predecessor (the New York Curb Exchange) purchased the Lot 14 Building and incorporated it into its stock exchange operations; until the exchange closed, the Landmark Building and the Lot 14 Building operated as a unified complex, with the Lot 14 Building containing exchange offices, trading floors and support facilities; and

WHEREAS, the applicant states that the two buildings were connected on floors 2, 8 and 10 of the Lot 14 Building, which correspond to the basement and floors 6 and 8 of the Landmark Building; additionally, the two buildings shared a

number of services and systems; primary and secondary access to both buildings was provided by entrances in the Landmark Building located on Trinity Place and Greenwich Street; and the Lot 14 Building did not have its own accessible at-grade entrance; and

WHEREAS, the applicant asserts that the two tax lots - Lots 13 and 14 - were under the control of the American Stock Exchange and functioned as a unified commercial complex for many years; and

WHEREAS, in support of this contention, the applicant submitted a copy of a New York Times article dated January 5, 1930, which announces that the Hamilton Building, as the Lot 14 Building was then known, had been purchased by the New York Curb Exchange (later the American Stock Exchange) as part of the of its expanded exchange complex; and

WHEREAS, the applicant states that in 2009, the American Stock Exchange ceased trading and in 2011 it sold the entire site to entities related to the current owner of Lot 13; these two entities thereafter merged Lots 13 and 14 into the Zoning Lot and executed a Zoning Lot Development Agreement which allows a specified amount of the unused development rights attributable to Lot 13 to be incorporated into a new development on Lot 14; and

WHEREAS, the applicant states that it is not possible to construct an efficient residential building on Lot 14 that complies with the applicable setback requirements of ZR § 91-32, which are based on the lot area of the much larger combined Zoning Lot; and

WHEREAS, the applicant reiterates that Lot 14 has a lot area of only slightly more than 9,000 square feet, which represents only about 25 percent of the total area of the Zoning Lot and, under ZR § 91-32, the applicable setback requirements are based on the lot area of the affected zoning lot such that if Lot 14 were a discrete zoning lot, above the applicable maximum base height any new development on that parcel would be required to set back only 10 feet from the street line along both Greenwich and Thames streets; and

WHEREAS, the applicant notes that it proposes setbacks of 10 and 13 feet, which would actually exceed the requirements of two setbacks of 10 feet each, if Lot 14 were its own zoning lot; and

WHEREAS, however, because the Zoning Lot comprises Lots 13 and 14 and has a total lot area in excess of 35,000 square feet, above the maximum base height any new development on Lot 14 must set back 20 feet along both Greenwich and Thames streets; and

WHEREAS, the applicant represents that a complying building with the required setbacks of 20 feet along both Greenwich and Thames streets would result in a tall, slender building with small tower floor plates of only 5,382 sq. ft. and that taking into account a double loaded corridor design and space reserved for the building's circulation core, and the additional structural elements required for such a tall and slender building, floor plates of this size permit only five or six apartments per floor which would not have the optimal depths or room widths of New York City apartments; and

MINUTES

WHEREAS, accordingly, the applicant asserts that the complying building has a net square foot to gross square foot efficiency rate of approximately 70 percent, which is significantly below the real estate industry standard; and

WHEREAS, the applicant asserts that due to the small floor plates, in order for the complying building to utilize all of the available floor area, it would have 85 floors and an elevation of 1,048 feet and would require five high-speed elevators to serve the 85 floors, leading to compounded inefficiencies and premium costs; and

WHEREAS, in contrast, the applicant asserts that the proposed building would have a reduced height with larger tower floor plates of 6,489 sq. ft.; and

WHEREAS, the applicant asserts that taking into account the reduced amount of structural elements needed for a shorter building, these larger floor plates would accommodate seven or eight apartments per floor which would have the optimal depth and room width for residential apartments; and

WHEREAS, the applicant states that the proposed building has a net to gross square foot efficiency rate of approximately 78.5 percent, which is closer to the industry standard than the complying building's efficiency rate; and

WHEREAS, the applicant states that as a consequence of its larger floor plates, the proposed building has 70 stories and an elevation of 882 feet, which makes it significantly shorter than the complying building and it requires only four conventional passenger elevators in contrast to the five high-speed elevators required for the complying building; and

WHEREAS, the applicant identified additional elements of the complex and costly structural system required for the complying building, including: (1) a very high height to width, or "slenderness," ratio of 17:1 in contrast to the proposed building's 13:1 slenderness ratio, which would require additional structure to stiffen the building to resist wind, seismic and gravity loads; (2) the requirement for more concrete walls and reinforcing bar tonnage than the proposed building; (3) in order to resist wind and seismic loads, the complying building would require thicker shear walls than the proposed building; (4) the complying building would require high-strength grade 100 rebar, while the proposed building will use conventional grade 60 rebar; (5) the complying building would require significantly more concrete reinforcing tonnage than the proposed building; (6) the complying building would require thicker foundations than the proposed building; (7) at its upper levels, the complying building would require thicker floor slabs and more or larger reinforcing bars than the proposed building; and (9) in order to accommodate the movement of the façade between floors during periods of high wind, the complying building would require more expensive façade connection detailing than the proposed building; and

WHEREAS, the applicant asserts that there are approximately \$31 million in premium costs associated with a complying building; and

WHEREAS, the applicant states that although Lots 13

and 14 constitute a single zoning lot, Lot 13 is under separate ownership and all of the economic benefits of a redevelopment of the Landmark Building will flow to the owner of that property; and

WHEREAS, the Board finds that the historic configuration of the lot and the presence of the Landmark Building in the aggregate create an unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant asserts that, per ZR § 72-21(b), there is no reasonable possibility that the development of the site in compliance with the Zoning Resolution will bring a reasonable return; and

WHEREAS, the applicant assessed the financial feasibility of (1) the complying mixed-use commercial/residential building with the required setbacks and (2) the proposal; and

WHEREAS, the applicant concluded that only the proposal would result in a sufficient return; and

WHEREAS, at hearing, the Board asked the applicant to explain the effect of the Inclusionary Housing and tax abatements on the project's feasibility; and

WHEREAS, in response, the applicant states that 20 percent of the apartments will be affordable units that will be rented to households earning no more than 60 percent of the area median income, which will allow for Section 421-a real estate tax exemption for a 20-year period; the applicant estimates that the tax exemption will have a value of approximately \$38.7 million; and

WHEREAS, the applicant notes that under the Zoning Resolution, the affordable dwelling units will also generate Inclusionary Housing development rights, which, however, may not be used on the site but may be used on sites within the Special District that are zoned C6-4 or on other eligible sites within Community Board 1 or within a half-mile radius of the site (per ZR § 91-22); and

WHEREAS, the applicant estimates the value of the transferable Inclusionary Housing development rights is \$38.9 million; and

WHEREAS, in response to questions about whether the upper floor apartments in the taller complying building would have greater value than the upper floors in the proposed building, the applicant stated that they would be of greater value but the inefficiencies associated with the smaller floor plates in the complying building would produce significantly less rentable square footage than the more efficient floor plate in the proposed building and would lead to the complying building achieving less rent than the proposed building; and

WHEREAS, accordingly, the applicant states that the higher upper floor rents in a complying building would not offset its significantly higher construction costs; and

WHEREAS, in response to the Board's questions about the value of the Landmark Building, the applicant states that the site will be redeveloped in the future with 177,705 sq. ft. of hotel and retail floor area, which includes 143,335 sq. ft. of existing floor area and 34,370 sq. ft. of unbuilt floor area that will be constructed within the building envelope; and

MINUTES

WHEREAS, the applicant's analysis concluded that the tax exemptions and development rights transfer are standard for residential development and are not alone able to offset the premium costs associated with the hardship at the site; and

WHEREAS, based upon its review of the record, the Board has determined that because of the subject site's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, the applicant notes that the proposed commercial and residential uses are both conforming and are compatible with the surrounding area; and

WHEREAS, the applicant notes that a building envelope with setbacks of 10 feet on Greenwich Street and 13 feet on Thames Street would be permitted as of right if Lot 14 did not share a zoning lot with the Landmark Building, thus, the building envelope is contemplated by the zoning; and

WHEREAS, the applicant notes that the complying building would have 85 stories and a height of 1,048 ft., compared to the 70 stories and 882 feet of the proposed, which is a difference of 15 stories and 166 feet of height and that the proposed is more compatible with the surrounding neighborhood context; and

WHEREAS, additionally, the applicant asserts that the proposed building will be more compatible with its surrounding context and is being designed with a lower base height to relate to the height of the significant architectural features of the adjacent Landmark Building; and

WHEREAS, the applicant notes that although the applicable height and setback regulations allow the base of a building on this site to reach a height of 97.5 feet before a setback is required, the base of the proposed building will reach a height of only 76 feet, which allows the top of the base to line up with the cornice of the Landmark Building and promote a harmonious relationship between the two buildings; and

WHEREAS, although the application for setback waiver does not require a CEQR analysis, the applicant performed a shadow analysis to respond to the Board's inquiry about shadows, which reflects that the proposed building would cause only small incremental shadows on the September 11th Memorial and Zucotti Park compared to the existing conditions; and

WHEREAS, further, the applicant notes that the proposed shadows would be incremental compared to those associated with the complying building because although the proposal reflects larger floor plates, the complying building would have a significantly greater height than the proposed building and the existing tall buildings in the surrounding area already create shadow impacts; and

WHEREAS, specifically, the applicant states that when

compared to a complying design, the proposed building would not have any incremental shadows on Zucotti Park at any time of the year and would have a very small shadow on the September 11th Memorial only in the winter, during a brief period of the day; and

WHEREAS, the applicant states that the analysis concludes that when compared with a complying building, the incremental shadows caused by the proposed building will be negligible and even less in comparison to existing conditions in the area; and

WHEREAS, the applicant asserts that the site is immediately south of the World Trade Center site, which is being redeveloped with several tall commercial towers, and directly north of an area where older street-wall buildings of various heights predominate; and

WHEREAS, the applicant submitted a comparison study of the proposed building and the complying building within the surrounding context, in support of the assertion that the proposed building will follow the height gradient formed by the buildings in these two distinct areas but that the taller complying building would disrupt this contextual gradient; and

WHEREAS, the applicant also notes that the Thames Street sidewalk abutting the site is currently only 3'-5" wide and that in order to satisfy the pedestrian circulation requirements of ZR § 91-42, the applicant will incorporate within the proposed building a covered walkway with a depth of 10'-0" that extends along its entire Thames Street frontage, which will provide circulation space with a total width of 13'-5", an improvement over the current narrow sidewalk; and

WHEREAS, the applicant also notes that the proposed building will provide a significant measure of flood protection including: the building's circulation core, including its elevators and service equipment, will be located at the eastern end of the site, which has an elevation that is approximately five feet higher than the western end of the site; and the building's essential electrical equipment will be located on the third floor rather than the cellar, where such equipment is typically located; and

WHEREAS, accordingly, the Board finds that this action will neither alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant asserts that the practical difficulties and economic hardship associated with the complying building arise from the unique development history of the Zoning Lot, which is improved with the Landmark Building, a designated City landmark, and the adjacent Lot 14 Building, which for many years were owned and operated by the American Stock Exchange as a unified and interconnected complex; and

WHEREAS, the applicant notes that in 2012, the former owner of Lot 14 recorded a Declaration of Zoning Lot Restrictions which declared Lots 13 and 14 to be a single zoning lot; however, the applicant asserts that, as a

MINUTES

result of their common control and ownership, these two parcels have satisfied the definition of a ZR § 12-10 “zoning lot” since that provision took effect in 1961 and, accordingly, they could have been treated and developed as a single zoning lot at any time since then; and

WHEREAS, the applicant asserts that the recent recording of a zoning lot declaration for these two parcels merely confirmed and formalized their longstanding presumed zoning status; and

WHEREAS, the Board finds that, consistent with ZR § 72-21(d), the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the site’s unique physical conditions; and

WHEREAS, the applicant notes that the setback of 10 feet from street line along Greenwich Street and 13 feet from the street line along Thames Street, rather than 20 feet on both frontages would satisfy the setback requirement of 10 feet along both streets if Lot 14 constituted a discrete zoning lot; and

WHEREAS, the applicant asserts that the proposed setbacks are the minimum to efficiently accommodate the necessary circulation core and two rows of apartments with the appropriate depths and room widths for rental apartments; and

WHEREAS, finally, the Board finds that the proposal is the minimum variance necessary to afford relief, as set forth in ZR § 72-21(e); and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, on a within a C5-5 zoning district within the Special Lower Manhattan District (LM), a 70-story mixed-use commercial/residential building, with 439 dwelling units, and commercial use on the first and second floors, which is contrary to the setback regulations set forth at ZR § 91-32; and *on condition* that any and all work will substantially conform to drawings as they apply to the objections above noted, filed with this application marked “Received October 15, 2013” –(17) sheets; and *on further condition*:

THAT the bulk parameters of the proposed building will be as follows: a maximum floor area of 536,835.5 sq. ft. (14.99 FAR), 70 stories, 956.78 feet building height, and minimum setback of 10 feet on Greenwich Street and 13 feet on Thames Street, all as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by

the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT construction will proceed in accordance with ZR § 72-23; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 4, 2014.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated July 25, 2013, acting on Department of Buildings (“DOB”) Application No. 301509923, reads in pertinent part:

Proposed physical culture establishment is contrary to that allowed as-of-right under ZR 32-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in a C4-3 zoning district, the operation of a physical culture establishment (“PCE”) on the second story of a five-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on November 26, 2013 after due notice by publication in *The City Record*, with a continued hearing on January 14, 2014 and then to decision on February 4, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Brooklyn,

MINUTES

recommends disapproval of this application; and

WHEREAS, the subject site is an irregular lot located at the northeast corner of the intersection of Graham Avenue, Flushing Avenue, and Broadway, with a portion of the lot extending to Debevoise Street, within a C4-3 zoning district; and

WHEREAS, the site has 87.67 feet of frontage along Graham Avenue, 203.56 feet of frontage along Flushing Avenue, 38.75 feet of frontage along Broadway, 110 feet of frontage along Debevoise Street, and 38,700 sq. ft. of lot area; and

WHEREAS, the site is occupied by a five-story commercial building with 131,580 sq. ft. of floor area (3.4 FAR); and

WHEREAS, the PCE is proposed to occupy approximately 15,953 sq. ft. of floor area on the second story of the building; and

WHEREAS, the PCE will be operated as Crunch Fitness; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE will be Monday through Saturday, from 5:00 a.m. to 11:00 p.m., and Sunday from 7:00 a.m. to 9:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, at hearing, the Board directed the applicant to clarify: (1) whether any portion of the PCE was proposed on the first story; and (2) whether there were any residential uses in the subject building or in any adjacent buildings; and

WHEREAS, in response, the applicant clarified that although the PCE is accessed through a common commercial lobby on the first story, there is no PCE program space on the first story; in addition, the applicant represented that there are no residential uses in the subject building or in any adjacent building; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No. 14BSA027K dated August 12, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issued a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located in a C4-3 zoning district, the operation of a PCE on the second story of a five-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received November 6, 2013” – Four (4) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on February 4, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

MINUTES

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 4, 2014.

267-13-BZ

CEQR #14-BSA-038M

APPLICANT – Law Office of Jay Goldstein, PLLC, for 689 Fifth Avenue LLC, owner; Fit Life 5th Avenue LLC, lessee. SUBJECT – Application September 6, 2013 – Special Permit (§73-36) to permit the operation of a physical culture establishment (*The Bar Method*). C5-3 (MID) zoning district.

PREMISES AFFECTED – 689 5th Avenue aka 1 East 54th Street, northeast corner of 5th Avenue and East 54th Street, Block 1290, Lot 1, Borough of Manhattan.

COMMUNITY BOARD #5M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated September 4, 2013, acting on Department of Buildings (“DOB”) Application No. 121741838, reads in pertinent part:

Proposed use as a physical culture establishment is contrary to ZR 32-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in a C5-3 zoning district within the Special Midtown District, the operation of a physical culture establishment (“PCE”) on the ninth story of a 14-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on January 14, 2014 after due notice by publication in *The City Record*, and then to decision on February 4, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, Community Board 5, Manhattan, expresses no objection to this application; and

WHEREAS, the subject site is located at the northeast corner of the intersection of Fifth Avenue and East 54th Street, within a C5-3 zoning district within the Special Midtown District; and

WHEREAS, the site has 50 feet of frontage along Fifth Avenue, 125 feet of frontage along East 54th Street, and approximately 6,925 sq. ft. of lot area; and

WHEREAS, the site is occupied by a 14-story commercial building with 85,761 sq. ft. of floor area (12.38 FAR); the building is known as the Aeolian Building and it is designated as an individual New York City landmark by the Landmarks Preservation Commission; and

WHEREAS, the PCE is proposed to occupy approximately 6,849 sq. ft. of floor area on the ninth story of the building; and

WHEREAS, the PCE will be operated as The Bar Method; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE will be seven days per week, from 5:30 a.m. to 9:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Landmarks Preservation Commission has issued a Certificate of No Effect for the interior alterations, dated September 5, 2013; and

WHEREAS, at hearing, the Board questioned whether any exterior signage was proposed for the PCE; and

WHEREAS, in response, the applicant stated that the PCE would not be displaying any signage on the exterior of the building; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, at hearing, the Board directed the applicant to clarify: (1) whether any portion of the PCE was proposed on the first story; and (2) whether there were any residential uses in the subject building or in any adjacent buildings; and

WHEREAS, in response, the applicant clarified that although the PCE is accessed through a common commercial lobby on the first story, there is no PCE program space on the first story; in addition, the applicant represented that there are no residential uses in the subject building or in any adjacent building; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR Part 617.4; and

MINUTES

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No.14BSA038M dated September 10, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issued a Type I Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located in a C5-3 zoning district within the Special Midtown District, the operation of a physical culture establishment (“PCE”) on the ninth story of a 14-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received November 13, 2013 – Three (3) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on February 4, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the

applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 4, 2014.

SUBJECT – Application October 25, 2013 – Variance (§72-21) to permit the development of a residential building contrary to §42-10. M1-1 zoning district.

PREMISES AFFECTED – 308 Cooper Street, east side of Cooper Street at the corner of Cooper Street and Irving Avenue, Block 3442, Lot 37, Borough of Brooklyn.

COMMUNITY BOARD #4BK

Jeff Mulligan, Executive Director

MINUTES

**REGULAR MEETING
TUESDAY MORNING, JANUARY 28, 2014
10:00 A.M.**

Present: Chair Srinivasan, Vice-Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez.

SPECIAL ORDER CALENDAR

74-49-BZ

APPLICANT – Sheldon Lobel, P.C., for 515 Seventh Avenue, LLC, owner.

SUBJECT – Application August 26, 2013 – Extension of Time to obtain a Certificate of Occupancy for an existing parking garage, which expired on January 11, 2012; Waiver of the Rules. M1-6 (*Garment Center*) zoning district.

PREMISES AFFECTED – 515 Seventh Avenue, southeast corner of 7th Avenue and West 38th Street, Block 813, Lot 64, Borough of Manhattan.

COMMUNITY BOARD #5M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, and an extension of time to obtain a certificate of occupancy for an existing parking garage; and

WHEREAS, a public hearing was held on this application on October 29, 2013, after due notice by publication in *The City Record*, with a continued hearing on January 14, 2014, and then to decision on February 11, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the site is located on the southeast corner of the intersection at Seventh Avenue and West 38th Street, within an M1-6 zoning district within the Special Garment District; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 29, 1949 when, under the subject calendar number, the Board granted a variance to permit the construction of a garage building for a term of 20 years; and

WHEREAS, subsequently, the grant has been amended and the term extended by the Board at various times; and

WHEREAS, most recently, on March 17, 2009, the Board granted an extension of the term until June 28, 2019; and

WHEREAS, in addition, on January 11, 2011, the Board granted an extension of time to obtain a certificate of occupancy, which expired on January 11, 2012; and

WHEREAS, the applicant now requests an extension of time to obtain a certificate of occupancy; and

WHEREAS, at hearing, the Board directed the applicant to: (1) explain why a DOB permit has not yet been obtained for the parking stackers, given that obtaining a permit was a condition of the prior grants; (2) provide a timetable for the necessary repairs, including waterproofing; and (3) clarify whether the location of the stackers is in accordance with the BSA-approved plans; and

WHEREAS, in response, the applicant states that in order to obtain a permit to legalize the stackers, it must submit a report of special inspection completed by an engineer on DOB form TR1; the applicant represents that it has retained a consultant to complete the form and expects to submit the form and obtain the permit soon; and

WHEREAS, the applicant notes that, on December 16, 2013, it obtained an engineer’s report confirming that the existing building is structurally capable of carrying the loads imposed by the stackers (in addition to anticipated snow loads); and

WHEREAS, as to the timetable of necessary repairs, the applicant states that the work requires warmer weather and that it is in the process of obtaining a contractor so that work may commence in the spring; and

WHEREAS, as to the location of the stackers, the applicant provided a photograph showing that the stackers have been moved further back from the parapet wall in order to be less visible from the street; and

WHEREAS, based upon the above, the Board finds that the requested extension of time to obtain a certificate of occupancy is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens*, and *amends* the resolution, dated March 29, 1949, so that as amended this portion of the resolution shall read: “to grant a one year extension of time to obtain a certificate of occupancy, to expire on January 11, 2015; *on condition* that the use and operation of the site shall substantially conform to the previously approved plans; and *on further condition*:

THAT a certificate of occupancy will be obtained by January 11, 2015;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Application Nos. 102460089 and 121851683)

Adopted by the Board of Standards and Appeals

MINUTES

February 11, 2014.

406-82-BZ

APPLICANT – Eric Palatnik, P.C., for Adolf Clause & Theodore Thomas, owner; Hendel Products, lessee.

SUBJECT – Application August 13, 2013 – Extension of term of a special permit (§73-243) allowing an eating and drinking establishment (*McDonald's*) with accessory drive-thru which expired on January 18, 2013; Extension of time to obtain a Certificate of Occupancy which expired on September 11, 2013; Waiver of the Rules. C1-3/R5 zoning district.

PREMISES AFFECTED – 2411 86th Street, northeast corner of 24th Avenue and 86th Street, Block 6859, Lot 1, Borough of Brooklyn.

COMMUNITY BOARD #11BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, an extension of term for an accessory drive-through, which expired on January 18, 2013, and an extension of time to obtain a certificate of occupancy, which expired on September 11, 2013; and

WHEREAS, a public hearing was held on this application on December 17, 2013, after due notice by publication in *The City Record*, with a continued hearing on January 28, 2014, and then to decision on February 11, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, the site is located on the northeast corner of 24th Avenue and 86th Street, within a C1-3 (R5) zoning district; and

WHEREAS, the site is operated as a McDonald's eating and drinking establishment (Use Group 6); and

WHEREAS, on January 18, 1983, under the subject calendar number, the Board adopted a resolution granting a special permit for the installation of an accessory drive-through facility for an existing eating and drinking establishment, for a term of five years; and

WHEREAS, the special permit was subsequently extended and amended at various times; and

WHEREAS, on July 22, 2008, the Board granted a five-year extension of term, which expired on January 18, 2013; a condition of the grant was that a certificate of occupancy be obtained by January 22, 2009; however, on September 11, 2012, the Board granted a one-year extension of time to obtain

a certificate of occupancy, which expired on September 11, 2013; and

WHEREAS, the applicant now seeks an extension of term and an extension of time to obtain a new certificate of occupancy; and

WHEREAS, the applicant states that a certificate of occupancy has not yet been obtained due to open applications and open violations at DOB; and

WHEREAS, at hearing, the Board questioned whether the signage at the site is in compliance with C1 district regulations and directed the applicant to clarify the restaurant's hours of operation, as well as the status of open DOB violations at the site; and

WHEREAS, as to the signage, the applicant explained that directional signage is excluded from the signage calculations, per the ZR § 12-10 definition of "sign"; and

WHEREAS, as to the hours of operation, the applicant provided a letter from McDonald's, which indicates that the hours of operations are Sunday through Thursday, from 6:00 a.m. to 12:00 a.m., and Friday and Saturday from 6:00 a.m. to 1:00 a.m.; and

WHEREAS, as to the open violations, the applicant provided a certification from its architect, which indicates that the open violations relate to the expired special permit and will be resolved immediately subsequent to the renewal of the grant; and

WHEREAS, based upon its review of the record, the Board finds that the proposed extension of term and extension of time to obtain a certificate of occupancy are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated January 18, 1983, so that as amended this portion of the resolution reads: "to permit an extension of the term of the special permit for an additional five years, to expire on February 11, 2019, and an extension of six months to obtain a certificate of occupancy, to expire on August 11, 2014; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked 'Received January 14, 2014' - six (6) sheets; and *on further condition*:

THAT the grant will expire on February 11, 2019;

THAT signage will comply with the C1 regulations;

THAT directional signage will be limited to a total of 12 sq. ft., per the ZR § 12-10 definition of "sign";

THAT the above condition and all relevant conditions from prior grants will appear on the certificate of occupancy; and

THAT a certificate of occupancy will be obtained by August 11, 2014;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT DOB must ensure compliance with all other

MINUTES

applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Application No. 310120142)

Adopted by the Board of Standards and Appeals, February 11, 2014.

327-88-BZ

APPLICANT – Eric Palatnik, P.C., for George Hui, owner.
SUBJECT – Application October 4, 2012 – Amendment to a previously granted variance (§72-21) to legalize the addition of a 2,317 square foot mezzanine in a UG 6 eating and drinking establishment (*Jade Asian Restaurant*). C4-3 zoning district.

PREMISES AFFECTED – 136-36 39th Avenue aka 136-29 & 136-35A Roosevelt Avenue, between Main Street and Union Street, Block 4980, Lot 14, Borough of Queens.

COMMUNITY BOARD #7Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to a previously-granted variance, which, pursuant to ZR § 72-21, authorized in a C4-2 zoning district the enlargement of existing retail stores and offices (Use Group 6) within a mixed residential and commercial building without the required number of accessory off-street parking spaces and loading berths, contrary to ZR §§ 36-21 and 36-62; and

WHEREAS, a public hearing was held on this application on July 23, 2013, after due notice by publication in the *City Record*, with continued hearings on September 10, 2013, October 22, 2013, November 26, 2013, and January 14, 2014, and then to decision on February 11, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 7, Queens, recommends disapproval of this application, citing concerns about open Department of Buildings (“DOB”) violations and the applicant’s overall lack of cooperation; and

WHEREAS, the subject site is a rectangular through lot located on the block bounded by Main Street, Roosevelt Avenue, Union Street and 39th Avenue, within a C4-3 zoning district; and

WHEREAS, the site has 97.33 feet of frontage on Roosevelt Avenue, 97.33 feet of frontage on 39th Avenue, and approximately 17,130 sq. ft. of lot area; and; and

WHEREAS, the site is occupied by a two- and three-

story mixed residential and commercial building with 31,439.07 sq. ft. of floor area (1.88 FAR); and

WHEREAS, on October 21, 1991, under the subject calendar number, the Board granted a variance to allow the enlargement of the building without the required number of accessory off-street parking spaces and loading berths; per ZR §§ 36-21 and 36-62, 52 parking spaces and one loading berth were required for the retail and office uses (Use Group 6) in the building; under the grant, no parking spaces or loading berths were required; and

WHEREAS, the applicant represents that subsequent to the grant and without the Board’s authorization, in 1996, a mezzanine was constructed between the second and third stories, increasing the floor area by 2,296 sq. ft. (from 29,143.07 sq. ft. (1.70 FAR) to 31,439.07 sq. ft. (1.88 FAR)) and increasing the required number of accessory parking spaces on the lot from 52 to 60; in connection with this enlargement, the use of the second story was converted from retail and offices to an eating and drinking establishment; and

WHEREAS, the applicant notes that the 1996 enlargement was completed under DOB permit Application No. 400627835, which referred to the space as a “greenhouse”; and

WHEREAS, the applicant now requests an amendment to legalize the enlargement by increasing the degree of the previously-granted parking waiver by eight spaces; and

WHEREAS, as noted above, the applicant states that the enlargement increased the number of required accessory parking spaces from 52 to 60; and

WHEREAS, the applicant states that, consistent with the basis of the prior grant, the history of development at the site, namely, the existing building’s full-lot coverage and limited cellar height, creates a practical difficulty in providing the required number of accessory parking spaces; and

WHEREAS, specifically, the applicant asserts that the only location on the site where parking could be provided as-of-right is in the cellar; however, creating parking in the cellar would require substantial demolition of existing retail space at the cellar and first story, temporary or permanent displacement of tenants, complex structural work, construction of ramps, and relocation of the sprinkler connection, water main, sewer connection, storm water connection, and electrical units, at significant cost; and

WHEREAS, the applicant notes that even with the additional 2,296 sq. ft. of floor area, the lot is significantly underdeveloped in that its 1.88 FAR is well below the maximum permitted FAR of 3.40; and

WHEREAS, the applicant states that the enlarged portion of the restaurant accommodates 72 persons, and that the second story accommodates 224 persons, for a total restaurant capacity of 296; and

WHEREAS, the applicant contends that the enlargement, while modest, is essential to the operations of the eating and drinking establishment, because it allows for semi-private dining, which makes it popular for community events and professional and/or corporate meetings; and

WHEREAS, the applicant also represents that the semi-

MINUTES

private dining area is used primarily for events, except on weekends and on holidays, when the demand for seating increases substantially; and

WHEREAS, as such, the applicant states that the enlargement does not negatively impact the surrounding community; and

WHEREAS, the applicant states that the surrounding community is overwhelmingly commercial and includes, across 39th Avenue, a large, metered parking facility; and

WHEREAS, in addition, the applicant represents that parking is unnecessary for the majority of the restaurant's (and the site's) visitors and employees due to the abundance of nearby public transportation, including the No. 7 subway line and the 20 public bus routes within a one-block radius of the site; and

WHEREAS, further, the applicant provided a parking analysis study, which concludes that existing nearby parking is adequate to accommodate the anticipated increase in demand generated by the enlargement; and

WHEREAS, finally, the applicant notes that the restaurant is popular within the community and that the enlargement complies in all respects with the C4-3 bulk regulations; and

WHEREAS, at hearing, the Board questioned the compliance of the proposed signage, egress, seating layouts, and occupant loads; in addition, the Board directed the applicant to refine and further explain its parking analysis, and to submit photographs showing the removal of egress obstructions; and

WHEREAS, in response, the applicant submitted amended plans showing compliance with the C4-3 sign regulations, an additional means of egress in the restaurant, the proposed seating arrangements, and a detailed chart showing the permitted and proposed occupant loads of all floor space within the building; and

WHEREAS, in addition, the applicant submitted a revised parking study and a series of photographs showing the restaurant's clear and unobstructed egress; and

WHEREAS, based upon the above, the Board has determined that the evidence in the record supports a grant of the requested amendment with the conditions listed below.

Therefore it is Resolved, that the Board of Standards and Appeals reopens and amends the resolution, dated October 21, 1991, to grant the noted modifications to the previous approval; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked 'Received January 28, 2014'- eight (8) sheets; and *on further condition*:

THAT the bulk parameters of the building will be as follows: a maximum of 31,439.07 sq. ft. of floor area (1.88 FAR);

THAT the occupant loads of the building will be in accordance with the BSA-approved plans;

THAT all signage will be in accordance with the C4-3 regulations;

THAT a certificate of occupancy will be obtained by

February 11, 2015;

THAT all conditions from the prior grant will remain in effect, except as otherwise stated herein;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, February 11, 2014.

239-02-BZ

APPLICANT – Greenberg Traurig, LLP by Deirdre A. Carson, Esq., for Babbo Realty LLC, owner.

SUBJECT – Application November 9, 2012 – Extension of Term of a previously-granted Variance (§72-21) for the continued operation of a Use Group 6A eating and drinking establishment (*Babbo*) located at the cellar level, ground floor, and second floor of the subject premises, which expired on December 17, 2012. R7-2 zoning district.

PREMISES AFFECTED – 110 Waverly Place, south side of Waverly Place, between Sixth Avenue and Washington Square West/MacDougal Street, Block 552, Lot 53, Borough of Manhattan.

COMMUNITY BOARD #2M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening, a waiver of the Rules of Practice and Procedure, an amendment, and an extension of term for an eating and drinking establishment (Use Group 6), which expired on December 12, 2012; and

WHEREAS, a public hearing was held on this application on February 26, 2013, after due notice by publication in the *City Record*, with continued hearings on March 23, 2013, June 11, 2013, September 24, 2013, December 10, 2013, and January 14, 2014, and then to decision on February 11, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Manhattan, recommends denial of the requested extension of term until

MINUTES

(1) the impacts on conforming uses are mitigated and (2) the noise and vibration from the HVAC and exhaust equipment are addressed and that the term be limited to two years; and

WHEREAS, certain members of the community provided testimony in support of the application; and

WHEREAS, the adjacent neighbor, represented by counsel, provided testimony in opposition to the operation of the restaurant, citing the following primary concerns: (1) the rooftop mechanicals create noise and vibration that can be heard in the adjacent building and were installed contrary to plan and without permits; (2) the kitchen exhaust is contrary to Code and emits excessive sound, vibration, and odors; (3) garbage collection is disruptive as it occurs at late and early hours; (4) the use of the cellar is contrary to the Certificate of Occupancy and egress and ventilation requirements; and (5) the use of upper floors for commercial use is contrary to the terms of the variance; and

WHEREAS, certain other members of the community provided testimony in opposition to the operation of the restaurant, noting that the variance is limited to the cellar, first floor, and rear portion of the second floor, but commercial use also occupies the remainder of the building; and

WHEREAS, the subject site is on the south side of Waverly Place between Sixth Avenue and Washington Square West/MacDougal Street, within an R7-2 zoning district within the Greenwich Village Historic District; and

WHEREAS, the site is occupied by a four-story townhouse building occupied on the first floor and cellar by a Use Group 6A restaurant, Babbo; the occupancy of the front portion of the second floor and the entire third and fourth floors is limited to conforming use; and

WHEREAS, on December 17, 2002, under the subject calendar number, the Board granted an application under ZR § 72-21, to permit the re-establishment of a Use Group 6A eating and drinking establishment, without music or entertainment, located at the cellar level, ground floor, and second floor of the subject premises, and to permit the continuation of a non-conforming accessory business sign; and

WHEREAS, on December 14, 2004, the Board granted an amendment to permit the enlargement of the cellar for use as a wine storage area for the existing restaurant; and

WHEREAS, in response to the neighbor's concerns related to the HVAC units, the applicant agreed to adjust the HVAC equipment mounted on the dunnages of the building's fourth-floor roof, extend the kitchen exhaust up the building, as per new plans filed with and approved by DOB and LPC, and enclose the fan equipment of the kitchen exhaust within an acoustical enclosure; and

WHEREAS, the applicant also states that (1) the installation of all HVAC units has been approved and it is resolving any inconsistencies between the plans and the built conditions with DOB and ECB; (2) new, more effective, and quieter mechanical units have been installed, which include a low noise fan rotor, low speed fan motor, a compressor sound attenuation blanket and new vibration pads between the unit and dunnage for each unit; and (3) its acoustic engineer has

studied the sound of the new system and concludes that the noise levels in the adjacent building are reduced and now match the ambient noise level, thus not exceeding any Noise Code limits; and

WHEREAS, as to the exhaust duct, the applicant states that it submitted DOB and LPC permits for the installation work and notes that the current applications and approvals supersede all prior ones and includes a custom-designed enclosure for the exhaust duct fan apparatus and

WHEREAS, the applicant submitted a Certificate of No Effect from LPC, dated September 9, 2013, which permits the changes to the rooftop mechanicals; and

WHEREAS, as to the garbage collection and bottle-crushing, the applicant states that it employs a service that is restricted to pickup after 8:00 a.m. and that it has installed a camera to monitor collections which reflects that collection has occurred after 8:00 a.m. and is therefore in compliance; and

WHEREAS, as to the occupancy of the cellar, the applicant states that it has removed a prep table and oven from the cellar and is in the process of obtaining a permit to remove a sink at which time it will be able to file a revised Certification of Correction and have the cellar use violation closed; and

WHEREAS, as to the use of the upper floors, the applicant represents that the fourth floor apartment is used as a pied a terre for one of the owners and that the second/third floor duplex was under lease until vacated in September 2012; and

WHEREAS, the applicant submitted photographs of the vacant duplex residential unit; and

WHEREAS, the applicant represents that office use has ceased and the duplex apartment is currently listed with a real estate broker to find a new tenant; and

WHEREAS, the Board finds that, in response to the neighbor's concerns, the applicant has undertaken significant improvements to its HVAC and exhaust fan duct systems, completed work while its application was in the hearing public process, and also addressed concerns related to the garbage collection hours and use of the cellar and the upper floors; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports a grant of the requested ten-year extension of term.

Therefore it is Resolved, that the Board of Standards and Appeals reopens and amends the resolution, so that as amended this portion of the resolution will read: "to extend the term of the variance for ten years from the prior expiration on December 12, 2012 to December 12, 2022; *on condition* that all work shall substantially conform to drawings as filed with this application, marked 'Received April 19, 2013' – one (1) sheet; and *on further condition*;

THAT the term will expire on December 12, 2022;

THAT a new Certificate of Occupancy be obtained by February 11, 2015;

THAT all rooftop mechanicals and associated sound attenuation measures be installed and maintained pursuant to the BSA-approved plans;

MINUTES

THAT the rooftop mechanicals and all other use of the building comply with Noise Code regulations;

THAT garbage collection hours are restricted to 8:00 a.m. to 8:00 p.m.;

THAT the use of the cellar must comply with all relevant regulations;

THAT the use of the front portion of the second and the entire third and fourth floors is restricted to residential occupancy;

THAT all conditions from prior resolution(s) not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Permit No. 102702522)

Adopted by the Board of Standards and Appeals, February 11, 2014.

APPLICANT – Rothkrug Rothkrug & Spector LLP, for Starr Avenue Development LLC, owner.

SUBJECT – Application December 28, 2012 – Proposed construction of two one-family dwellings located within the bed of a mapped street, contrary to General City Law, Section 35. R2 zoning district.

PREMISES AFFECTED – 15 & 19 Starr Avenue, north side of Starr Avenue, 248.73 east of intersection of Bement Avenue and Starr Avenue, Block 298, Lot 67, Borough of Staten Island.

COMMUNITY BOARD #1SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decisions of the Staten Island Borough Commissioner, dated July 11, 2013, acting on Department of Buildings Application Nos. 520112789 and 520112798, read in pertinent part:

Proposed construction located within the bed of a mapped street is contrary to Section 35 of the General City Law (Lot 67 and 68);

Proposed new building has bulk non-compliances resulting from the location of such mapped street (Lot 67); and

WHEREAS, a public hearing was held on this application on December 10, 2013, after due notice by publication in *The City Record*, and then to decision on February 11, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Montanez; and

WHEREAS, this is an application to allow the construction of two three-story, one-family residences, with two parking spaces, which will be partially located in the bed of Hartford Avenue, a mapped but unbuild street; and

WHEREAS, the subject site is located on the north side of Starr Avenue, approximately 139.96 feet west of the intersection of Starr Avenue and Oakland Avenue, within an R2 zoning district; and

WHEREAS, the applicant states that the subject zoning lots will be created through the apportionment of existing Lot 67; proposed (new) Lot 67 will be 40 feet in width and 128.12 feet in depth, with a lot area of 5,108 sq. ft.; proposed Lot 68 will be 40 feet in width and 127.7 feet in depth, with a lot area of 5,074 sq. ft.; and

WHEREAS, the applicant states that three additional zoning lots will also be created through the apportionment;

these lots are not subject to the instant application because they are not located within the bed of Hartford Avenue; and
WHEREAS, by letter dated February 22, 2013, the Fire Department states that it has reviewed the proposal and offers no objections; and

WHEREAS, by letter dated February 13, 2013, the Department of Environmental Protection (“DEP”) states that: (1) there is an existing 6-inch diameter private sanitary sewer, and an eight-inch diameter City water main in the bed of Hartford Avenue, starting north of the subject site; and (2) City Drainage Plan No. PRD-1B & 2B, Sheet 10 of 14, dated November of 1968, for the above referenced location calls for a future 10-inch diameter sanitary sewer and a 12-inch storm sewer crossing the above referenced development and flowing towards Starr Avenue and Drainage Plan No. PRD-E, sheet 2 of 3, dated May of 1973, calls for a future 10-inch diameter sanitary sewer and a 12-inch diameter storm sewer, starting northerly of the proposed development and flowing towards Whitewood Avenue; and

WHEREAS, DEP further states that it requires the applicant to submit a survey/plan showing: (1) a 32-foot wide sewer corridor in the bed of Hartford Avenue along Lot 68 for the installation, maintenance, and/or reconstruction of the future 10-inch diameter sanitary sewer and the 12-inch diameter storm sewer; and (2) if a corridor is not possible, the applicant has the option to amend the drainage plan; and

WHEREAS, in response to DEP’s request, by letter dated March 10, 2013, the applicant asserts that the requested easement would eliminate an entire house and essentially result in a taking of the property; and

WHEREAS, the applicant also contends that the owner should not have to bear the expense of having to amend the City’s drainage plan; and

WHEREAS, by letter dated January 2, 2014, DEP states that: (1) the applicant must establish a \$5,000 security deposit along with the application for the proposed amendment to ensure the completion of the necessary amendments to the Drainage Plan for the above referenced location; and (2) after Board approval, the application will be accepted for a sewer connection request for the above referenced location and the House Connection Proposal can be certified with a condition No Certificate of Inspection will be issued until the Drainage Plan is amended; and

WHEREAS, by correspondence dated March 13, 2013, the Department of Transportation (“DOT”) requires that the applicant build a cul de sac at the dead end of Hartford Avenue since it is more than 300 feet to the closet intersection; DOT notes that the cul de sac must comply with American Association of State Highway and Transportation Officials (“AASHTO”) standards; in addition, DOT requests that the drawings for the cul de sac be submitted to DOT for approval; and

WHEREAS, by letter dated March 13, 2013, DOT states that according to the Staten Island Borough President’s Topographical Bureau, Hartford Avenue between Hartford Avenue between Starr Avenue and Whitewood Avenue is a mapped street to a 50-foot width on the Final City Map; and

MINUTES

WHEREAS, DOT notes that the City does not have title to the mapped street, but there is a Corporation Counsel Opinion of Dedication, for Hartford Avenue from a point approximately 126 feet north of Starr Avenue to Whitewood Avenue to 44 to 45 feet as in use dated August 11, 1992;

WHEREAS, by letter dated October 22, 2013, in response to DOT's request, the applicant provided two alternate site plans; the first site plan depicts the cul de sac requested by DOT in its March 13, 2013 letter; the applicant states that to provide the requested cul de sac would result in unbuildable lots; the second plan depicts a hammerhead turnaround, which the applicant states is also impractical as it would result in a significant paved area that would greatly diminish the usable rear yard of the proposed buildings, as well as impact the existing home located on Lot 153; and

WHEREAS, the Board disagrees with DOT that the cul de sac is necessary for the following reasons: (1) the existing condition along Hartford Avenue will remain unchanged as a result of the proposed construction; (2) the proposed homes will have legal access from Starr Avenue; and (3) both a cul de sac and a hammerhead turnaround would significantly affect the usability of the homes' yards; and

WHEREAS, further, the Board notes that DOT has not represented that construction within the bed of Hartford Avenue would either conflict or interfere with the its Capital Improvement Program; and

WHEREAS, the Board notes that pursuant to GCL Section 35, the Board may authorize construction within the bed of the mapped street subject to reasonable requirements ; and

WHEREAS, the Board notes that pursuant to ZR § 72-01-(g), the Board may waive bulk regulations where construction is proposed in part within the bed of a mapped street; such bulk waivers will be only as necessary to address non compliances resulting from the location of construction within and outside of the mapped street, and the zoning lot will comply to the maximum extent feasible with all applicable zoning regulations as if the street were not mapped; and

WHEREAS, consistent with GCL § 35 and ZR § 72-01-(g), the Board finds that applying the bulk regulations across the portion of the subject lot within the mapped street and the portion of the subject lot outside the mapped street as if the portions were a lot unencumbered by a mapped street is both reasonable and necessary to allow the proposed construction; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved, that the Board modifies the decisions of the Staten Island Borough Commissioner, dated July 15, 2013, acting on Department of Buildings Application Nos. 520112789 and 520112798 by the power vested in it by Section 35 of the General City Law, and also waives the bulk regulations associated with the presence of the mapped but unbuild street pursuant to Section 72-01(g) of the Zoning

Resolution to grant this appeal, limited to the decision noted above *on condition* that construction will substantially conform to the drawing filed with the application marked "Received January 21, 2014" – one (1) sheet; and *on further condition*:

THAT DOB will review and approve the plans as though the site (Block 298, Tentative Lots 67 and 68) were two zoning lots;

THAT DOB will review and approve plans associated with the Board's approval for compliance with the underlying zoning regulations as if the unbuild street were not mapped;

THAT the applicant will file for the DEP amended drainage plan prior to obtaining a permit at DOB;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT DOB will review the proposed plans to ensure compliance with all relevant provisions of the Zoning Resolution;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

THAT DOB will not issue a Certificate of Occupancy until the Department of Environmental Protection has signed off on the amended drainage plan.

Adopted by the Board of Standards and Appeals on February 11, 2014.

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Staten Island Borough Commissioner, dated December 13, 2013, acting on Department of Buildings ("DOB") Application No. 520141613 reads in pertinent part:

MINUTES

Proposed construction of a three story office building and 24 parking spaces located within the bed of a mapped street is contrary to General City Law Section 35; and

WHEREAS, a public hearing was held on this application on November 26, 2013, after due notice by publication in *The City Record*, and then to decision on February 11, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Montanez; and

WHEREAS, Community Board 1, Staten Island, recommends approval of this application; and

WHEREAS, this is an application to allow the construction of a three-story office building with an accessory parking lot that will be partially located in the bed of Richmond Terrace, a mapped but unbuilt street; and

WHEREAS, the subject site is located on the north side of Richmond Terrace across from the intersection of Richmond Terrace and Grandview Avenue, within an M3-1 zoning district; and

WHEREAS, the applicant states that the proposed building will abut an existing one-story building in the southwest corner of the subject site, and that it will have approximately 17,321 sq. ft. of floor area (0.05 FAR), which will increase the total floor area on the zoning lot to approximately 33,506 sq. ft. (0.09 FAR); a total of 68 accessory parking spaces will be provided, 24 of which will be within the bed of Richmond Terrace; and

WHEREAS, the applicant notes that, at the request of the New York State Department of Environmental Conservation, it modified its site plan to shift accessory parking spaces further into the bed of Richmond Terrace; and

WHEREAS, by letter dated July 30, 2013, the Department of Environmental Protection ("DEP") states that:

(1) there is an existing 20-inch diameter water main, and an existing 3'-4" by 3'-3" combined sewer, and a 24-inch diameter interceptor sewer in the bed of Richmond Terrace, starting north of the intersection with Grandview Avenue; and
(2) City Drainage Plan No. PRD-1C, sheet 3 of 4, dated June 1973, calls for a future ten-inch diameter sanitary sewer and a 60-inch storm sewer to be installed in Richmond Terrace north of its intersection with Grandview Avenue; and

WHEREAS, DEP further states that it requires the applicant to submit a survey/plan showing: (1) the existing 20-inch diameter water main, the existing 24-inch diameter interceptor sewer, and the 3'-4" by 3'-3" combined sewer; (2) the distance from the southerly lot line of Lot 15 to the existing sewers and water main in the bed of Richmond Terrace and the width of the widening portion; and

WHEREAS, based on such survey/plan, DEP states that it will determine what portion of Richmond Terrace will be required for the installation, maintenance and/or reconstruction of the existing water main and sewer; and

WHEREAS, in response to DEP's request, the applicant submitted a revised survey which shows the total width (100

feet) of mapped Richmond Terrace north of its intersection with Grandview Avenue and the 41.21-ft. of the width of the traveled portion of Richmond Terrace at its narrowest point, which will be available for the maintenance and/or reconstruction of the existing sewers, water main, and future sewers; and

WHEREAS, by letter dated December 10, 2013, DEP states that it has reviewed the information and has no objections; and

WHEREAS, by letter dated November 13, 2013, DOT states that, according to the Staten Island Borough President's Topographical Bureau, Richmond Terrace from South Avenue to Mersereau Avenue is mapped at a 100-ft. width on the City Map and has an opinion of dedication for 41.25 feet to 80 feet, as in use on June 6, 1945; and

WHEREAS, Department of Transportation ("DOT") states that it has reviewed the subject proposal and has no objections; and

WHEREAS, in addition, DOT states that the improvement of Richmond Terrace at this location is not presently included in DOT's Capital Improvement Program; and

WHEREAS, by letter dated July 17, 2013, the Fire Department states that it has reviewed the proposal and offers no objections; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved, that the Board modifies the decision of the Staten Island Borough Commissioner, dated on December 13, 2013, acting on Department of Buildings Application No. 520141613 by the power vested in it by Section 35 of the General City Law, *on condition* that construction will substantially conform to the drawing filed with the application marked "Received January 28, 2014" two (2) sheets; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT DOB will review the proposed plans to ensure compliance with all relevant provisions of the Zoning Resolution;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals on February 11, 2014.

APPLICANT – Rothkrug Rothkrug & Spec tor LLP, for BIRB Realty Inc., owner.

MINUTES

SUBJECT – Application October 15, 2013 – Proposed construction of a building that does not front on a legally mapped street, contrary to General City Law Section 36. R3X SRD district.

PREMISES AFFECTED – 525 & 529 Durant Avenue, north side of Durant Avenue, 104-13 ft. west of intersection of Durant Avenue and Finlay Avenue, Block 5120, Lot 64, Borough of Staten Island.

COMMUNITY BOARD #3SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decisions of the Staten Island Borough Commissioner, dated September 13, 2013, acting on Department of Buildings (“DOB”) Application Nos. 520160441 and 520160432, read in pertinent part:

The proposed two family dwelling, which does not front on a legally mapped street, is contrary to Article 111, Section 36 of the General City Law; and

WHEREAS, this is an application to allow the construction of two, two-family homes not fronting a legally mapped street, contrary to General City Law (“GCL”) § 36; and

WHEREAS, a public hearing was held on this application on December 10, 2013, after due notice by publication in *The City Record*, and then to decision on February 11, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Commissioner Hinkson; and

WHEREAS, the subject site comprises two proposed zoning and tax lots (Tentative Tax Lots 64 and 66) located on the north side of Durant Avenue, approximately 104 feet west of the intersection of Durant Avenue and Fieldway Avenue, within an R3X zoning district, within the Special South Richmond Development District; and

WHEREAS, the applicant notes that a third two-family home, to be located on a proposed third lot (Tax Lot 62) is not part of this application, because it is proposed to front on Durant Avenue, which is a legally mapped street; and

WHEREAS, the applicant also notes that a separate application will be filed with the Department of City Planning seeking a text amendment to permit modification of the designated open space at the site; and

WHEREAS, the applicant represents that the proposed buildings, which will be fully-sprinklered, will front only on an access road that will be paved to a width of 34 feet and will extend from the boundary of Durant Avenue to the western boundary of Lot 66; the road will extend for approximately 100 feet, and it will be maintained by the homeowners of the affected lots; and

WHEREAS, initially, the applicant proposed a minimum paved width of 30 feet; however, based on discussions with the Fire Department, as noted below, the proposal was revised to provide a minimum paved width of 34 feet; and

WHEREAS, by letter dated December 6, 2013, the Fire Department informed the Board of its objections to the proposal; specifically, the Fire Department stated that because the development includes six dwelling units, it is contrary to Fire Code § FC503.2.1, which generally requires a minimum access road width of 38 feet, but allows for a minimum access road width of 30 feet where, among other things, not more than five dwelling units will be accessed by the road; and

WHEREAS, in response to the concerns of the Fire Department, by letter dated January 28, 2014, the applicant submitted a revised proposal, which increased the width of the extension of Durant Avenue to 34 feet, and which indicated that “No Parking” signs will be posted to establish a no parking zone for the entire extension of Durant Avenue; and

WHEREAS, by letter dated February 3, 2014, the Fire Department informed the Board that it no longer objected to the proposal, provided that: (1) the access road is constructed and maintained with a minimum paved width of 34 feet, measured curb to curb; (2) “No Parking” signs are installed on both sides of the access road for its entire length, establishing a no parking zone; (3) all buildings fronting on the access road comply with Fire Code § FC502.1; (4) the applicant submits and obtains from the Fire Department a formal variance for the proposal; and (5) the two buildings fronting on the access road are fully-sprinklered; and

WHEREAS, based on the record, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions; and

Therefore it is Resolved, that the decisions of the Staten Island Borough Commissioner, dated September 13, 2013, acting on Department of Buildings Application Nos. 520160441 and 520160432, are modified by the power vested in the Board by Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked “Received February 4, 2014” one (1) sheet; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the site and roadway will conform to the BSA-approved plans;

THAT the roadway will be maintained with a minimum paved width of 34 feet, measured curb to curb;

THAT “No Parking” signs will be installed on both sides of the roadway, establishing a no parking zone for its entire length;

THAT a formal variance will be obtained from the Fire Department prior to the issuance of DOB permits;

THAT both buildings fronting on the roadway will comply with Fire Code § FC502.1 and be fully sprinklered;

THAT all required approvals will be obtained from the

MINUTES

Department of City Planning prior to the issuance of DOB permits;

THAT a Homeowners' Association will be created to maintain the street;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

6), contrary to ZR §§ 42-10 and 42-14; and

WHEREAS, a public hearing was held on this application on July 17, 2012, after due notice by publication in the *City Record*, with continued hearings on August 21, 2012 and January 14, 2014, and then to decision on February 11, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Manhattan, recommended approval of the original iteration of the proposal and its Landmarks Committee recommends approval of the Landmarks application, which reflects the current variance proposal; and

WHEREAS, the subject site is a through lot with frontage on Great Jones Street and Bond Street, between Lafayette Street and the Bowery, within an M1-5B zoning district within the NoHo Historic District Extension; and

WHEREAS, the site has 25'-8" of frontage along Great Jones Street and along Bond Street, a depth of 200'-2", and a lot area of 5,134 sq. ft.; and

WHEREAS, the site is occupied by a vacant 13-story superstructure set back 19 feet from the Great Jones Street frontage (the "Hotel Building") and a partially demolished two-story unoccupied building fronting on Bond Street; and

WHEREAS, the applicant represents that the 13-story superstructure was constructed pursuant to lawfully-issued permits which were issued prior to the May 12, 2008 designation of the NoHo Historic District Extension, with plans to be occupied by a restaurant on the ground floor and a hotel above; and

WHEREAS, the Hotel Building was to include a 13-story portion on Great Jones Street (with a height of 173'-4" and 5.0 FAR), set back 19 feet from the Great Jones Street frontage, and a one-story base extending towards Bond Street, with a plaza between it and the Bond Street frontage, with a depth of 30 feet; and

WHEREAS, the permits for the building facades were issued after the historic designation and, thus were subject to LPC approval, which was obtained in 2009; and

WHEREAS, the applicant states that construction was halted in 2009 and it seeks to modify the existing superstructure to accommodate residential, rather than hotel use, as the hotel use is not viable; and

WHEREAS, the applicant initially sought to retain the 13-story height (of 149'-11" with a mechanical floor up to a height of 163'-4"), to increase the floor area to 5.99 FAR, and to not return to the Landmarks Preservation Commission (LPC) for approval of any changes; and

WHEREAS, the Board directed the applicant to reduce the height and the 5.99 FAR request to be consistent with the 5.0 FAR permitted in the district for a conforming use and noted that LPC approval is required; and

WHEREAS, accordingly, the applicant proposed a building built to the Great Jones Street streetline, which would fill in the open space between the Hotel Building and the

street line, with 5.0 FAR, a six-story streetwall with a setback of 19'-3", then at a height of 117 feet a setback of 23'-7" before reaching a height of 128 feet on Great Jones Street; additionally, the applicant also proposed a four-story townhouse on Bond Street; and

WHEREAS, the applicant represents that it returned to LPC with the noted proposal and LPC required certain design changes, which resulted in the current proposal that includes (1) replacing the Bond Street townhouse with a residential entry and screen wall, (2) increasing the height of the Great Jones Street streetwall from 73 feet to 83'-11", (3) increasing the roof height by approximately 2'-0" to 130'-0" and the bulkhead by approximately 3'-6", (4) eliminating the 11th floor setback on Great Jones Street, (5) shifting the townhouse bulk onto the tower, and (6) increasing the depth of the Bond Street building by approximately 10'-0"; and

WHEREAS, the applicant represents that LPC's design changes reflect its interest in matching the heights of adjacent buildings without setback and its belief that there is not a context for a Bond Street townhouse; and

WHEREAS, the current proposal is for a building with a floor area of 25,533 sq. ft. (4.97 FAR), which includes an 11-story building with six residential units on the first through 11th floors and commercial use on the cellar and ground floor levels fronting on Great Jones Street; and

WHEREAS, the applicant represents that the proposed 11-story mixed residential (Use Group 2) and commercial (Use Group 6) building, will have a total floor area of 25,533 sq. ft. (4.97 FAR), a residential floor area of 24,782 sq. ft. (4.82 FAR), a commercial floor area of 751 sq. ft. (0.15 FAR), a street wall height of 83'-11" at the seventh story, a building height of 130 feet (excluding the bulkhead), and an open space at the second story; the applicant notes that the cellar will include commercial space, mechanical rooms, and accessory storage for the residences; the Great Jones Street first story will be occupied by commercial space and the Bond Street first story will be occupied by the residential entrance; and the second through 11th stories will be occupied by a total of six dwelling units; and

WHEREAS, the building entrance will be through Bond Street, which includes a screen and rooftop open space above the one-story entrance; and

WHEREAS, because Use Group 2 is not permitted and Use Group 6 is not permitted below the floor level of the second story within the subject M1-5B zoning district, the applicant seeks use variances; and

WHEREAS, the applicant states that, per ZR § 72-21(a), the following are unique physical conditions which create an unnecessary hardship in developing the site in conformance with applicable regulations: (1) the history of development on the site; and (2) the narrow through lot condition; and

WHEREAS, the applicant represents that in 1820, a three-story rowhouse was built at 22 Bond Street with a stable in the back fronting on Great Jones Street, which was the model for other homes on the block; and

WHEREAS, the applicant represents that at the end of the 19th Century, the Great Jones Street stable was replaced

MINUTES

with a five-story building occupied by manufacturing use; the three upper stories were removed in 1939 when an auto repair business took over the site and the Bond Street building was used, unchanged, by various businesses; and

WHEREAS, finally, the applicant represents that in the 1990s, the Bond Street building was partially demolished and renovated and the two-story Great Jones Street building was demolished; and

WHEREAS, the applicant states that since the time the larger former Great Jones Street building was partially demolished in the late 1930s and the Bond Street building was retained, there were limited development options for the site; and

WHEREAS, the applicant asserts that the limited usefulness of the site during the past 200 years supports the conclusion that there is hardship inherent in the site; and

WHEREAS, the applicant states that the site's configuration, with a width of 25'-8" and a depth of approximately 200 feet is a historic condition, which is unique in the area where other such lots, first created in the early 19th Century, have been subdivided, which allowed for separate development on Great Jones Street and Bond Street; and

WHEREAS, the applicant represents that the narrow through lot configuration has existed for more than 200 years; and

WHEREAS, the applicant states that the disproportionate narrowness in relation to depth leads to significant building inefficiencies due to the fact that the options for development are either to construct two essentially separate buildings with frontage on each of the streets or to construct one building at one of the frontages or set back from the street, which would have considerable depth but access to windows only on the narrow north and south facades; and

WHEREAS, the applicant has identified \$3 million in construction premiums associated with constructing on a site of this configuration when compared to a more conventional 50'-0" by 100'-0" lot, due primarily to the significant extent of surface area of the façade and requirement for redundancies such as stairs and elevators and other infrastructure; and

WHEREAS, the applicant asserts that the unique configuration, namely its depth in relation to its street frontage, also leads to constraints related to access for a conforming use; and

WHEREAS, the applicant asserts that the irregular configuration of the site has led to the retention of the small building on Bond Street, which limited the ability to maximize opportunity to build a larger commercial building in the late 1800s on Great Jones Street; and

WHEREAS, as to uniqueness, the applicant analyzed the surrounding area and found that the site is the only such narrow through lot in the M1-5B zoning district north of Houston Street and, and only the second in the surrounding forty blocks, bounded by Houston Street, First Avenue, St. Marks Place, and LaGuardia Place with such configuration; and

WHEREAS, the Board agrees that the noted unique physical conditions, when considered in the aggregate, create

unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant asserts that, per ZR § 72-21(b), there is no reasonable possibility that the development of the site in conformance with the Zoning Resolution will realize a reasonable return; and

WHEREAS, in particular, the applicant initially examined the economic feasibility of: (1) an as-of-right hotel and restaurant scenario; (2) an as-of-right hotel and restaurant on a lot that is 50'-0" by 100'-0" and (3) the residential building with an 11-story tower and four-story townhouse; and

WHEREAS, the applicant concluded that only the residential proposal and as-of-right building on the 50'-0" by 100'-0" lot would realize a reasonable rate of return; thus, the applicant represents that the residential proposal is the only economically viable scenario on the 25'-8" by 200'-2" lot; and

WHEREAS, after the applicant had completed its process at LPC including the redesign of its building to obtain a Certificate of Appropriateness, the Board directed the applicant to re-examine the financial analysis in light of the changes associated with the LPC-approved design which eliminated the townhouse and added bulk to the tower; and

WHEREAS, the applicant submitted a supplemental financial analysis which reflects that the rate of return for the current proposal is consistent with that of the prior proposal; thus, the financial feasibility is not implicated by the design change; and

WHEREAS, based upon its review of the applicant's economic analysis, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, as to use, the applicant states that the immediate area is characterized by a mix of medium-density residential and commercial uses, with some remaining manufacturing/industrial uses and that the introduction of six residential units and 751 sq. ft. of first floor commercial space (and 3,494 sq. ft. in the cellar) will not disrupt the neighborhood character; and

WHEREAS, the applicant states that many of the buildings on both streets are occupied, at least in part by commercial uses and at least 28 out of the 38 buildings fronting on Great Jones Street or Bond Street have some residential occupants either as Joint Living Work Quarters for Artists or pursuant to use variances; and

WHEREAS, the applicant notes that the subject M1-5B zoning district is a two-block wide strip centered along Lafayette Street from Astor Place to Bleecker and Houston streets; and South of Houston Street the district widens to

MINUTES

the west where it abuts an M1-5A district at Mercer Street and a block east of the site is a C6-1 district at the Bowery, a block to the south and west are C6-2 zoning district; and

WHEREAS, the applicant asserts that all of the C6 districts permit residential, commercial, and community facility uses as-of-right; and

WHEREAS, the applicant asserts that the proposed use is more compatible with the surrounding area than the as-of-right hotel use; and

WHEREAS, as to bulk, the applicant notes that the proposed 4.97 FAR complies with the bulk regulations for a conforming use in the M1-5B zoning district; and

WHEREAS, the applicant states that the Bond Street frontage is between a six-story building to the east and a seven-story building to the west and the Great Jones Street frontage is between a six-story building to the east and a vacant lot, with an approved variance for a seven-story mixed use building to the west (BSA Cal. No. 64-06-BZ); and

WHEREAS, the applicant states that the north side of Great Jones Street is occupied by a parking lot and a fire station and the south side of Great Jones Street is characterized by three- to seven-story, mostly masonry buildings; Bond Street includes a similar mix of buildings; and

WHEREAS, the applicant states that the proposed building will reestablish a consistent street wall on Great Jones Street with the addition of a six-story extension to fill the 19-ft. setback of the existing superstructure; and

WHEREAS, the applicant represents that, per LPC's request, the streetwall addition will match the adjacent building heights; and

WHEREAS, the applicant also represents that it will install a mural on its highly-visible western wall; and

WHEREAS, the applicant asserts that the proposed matching streetwall of 83'-11" and reduction in the overall height of the building from 149'-11" (13 stories) to 130'-0" (11 stories) is significantly more compatible with the surrounding area than the Hotel Building, which sets back from the street and is not harmonious with the surrounding built context; and

WHEREAS, the applicant also submitted a height map which reflects that the majority of buildings on the subject block have heights of between five and eight stories with one other 11 or more story building with frontage on Bond Street; and

WHEREAS, additionally, the applicant notes that the proposed building height is approximately 30 feet less, including mechanicals, than that of the existing as of right Hotel Building; and

WHEREAS, the Board notes that its initial recommendation was for a building that included a second setback at 117 feet and a total height of 128 feet, which it found to be more consistent with residential contextual building envelopes as well as the building envelopes approved for other recent variances on Bond Street and Lafayette Street; and

WHEREAS, the Board initially questioned whether a height of 130 feet with such great visibility—and particularly without the second setback—would be appropriate in the surrounding context; and

WHEREAS, however, the Board recognizes that LPC supports the proposed 130-ft. height in the context of a significant improvement on the existing Hotel Building and, thus, concludes that only under those circumstances does it accept the 130-ft. height; and

WHEREAS, LPC approved of the proposed building by Certificate of Appropriateness dated December 9, 2013; and

WHEREAS, the Board agrees that the character of the area is mixed-use, and finds that the introduction of six dwelling units and ground floor commercial use will not impact nearby conforming uses; and

WHEREAS, the Board notes that some ground floor Use Group 6 is contemplated in the M1-5B district, as evidenced by the existence of ZR § 74-781, a City Planning Commission special permit, which allows modification of the use regulations set forth in ZR § 42-14; and

WHEREAS, the applicant proposes that the entrance to the commercial space is on the Great Jones Street frontage, which has a context for such first floor use; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that, consistent with ZR § 72-21(d), the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the site's historic configuration, and the limited economic potential of conforming uses on the lot; and

WHEREAS, finally, the Board finds that the proposal is the minimum variance necessary to afford relief, as set forth in ZR § 72-21(e); and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR, Part 617 and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 12-BSA-080M, dated February 10, 2014; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

MINUTES

WHEREAS, the New York City Department of Environmental Protection's ("DEP") Bureau of Environmental Planning and Analysis reviewed the project for potential hazardous materials impacts; and

WHEREAS, DEP reviewed and accepted the March 2013 Site Investigation Work Plan, proposed Phase II air testing protocol, and the April 2013 site-specific Health and Safety Plan; and

WHEREAS, DEP stated that the Phase II air testing can be conducted after construction of the proposed project; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type I Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, within an M1-5B zoning district within the NoHo Historic District Extension, the construction of an 11-story mixed residential and commercial building (Use Groups 2 and 6) with ground floor retail, contrary to ZR §§ 42-10 and 42-14, *on condition* that any and all work will substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received January 6, 2014"- (13) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the proposed building: a total floor area of 25,533 sq. ft. (4.97 FAR), a residential floor area of 24,782 sq. ft. (4.82 FAR), a commercial floor area of 751 sq. ft. (0.15 FAR) on the first floor, a maximum of 11 stories on Great Jones Street, a street wall height of 83'-11" before a setback of 15'-0", a total height of 130'-0" (excluding the bulkhead) and a one-story with additional rooftop screenwall on Bond Street, as reflected on the BSA-approved plans;

THAT DOB will not issue a Certificate of Occupancy until the applicant has provided it with DEP's approval of the Phase II air testing report and other remedial actions or measures required based on the testing results;

THAT substantial construction will be completed in accordance with ZR § 72-23;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 11, 2014.

212-13-BZ

APPLICANT – Eric Palatnik, P.C., for Andrey Novikov, owner.

SUBJECT – Application July 12, 2013 – Special Permit (§73-622) for the enlargement of an existing single family home contrary to floor area, open space and lot coverage (ZR 23-141) and less than the required rear yard (ZR 23-47). R3-1 zoning district.

PREMISES AFFECTED – 151 Coleridge Street, Coleridge Street between Oriental Boulevard and Hampton Avenue, Block 4819, Lot 39, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez

Negative:.....5

THE RESOLUTION –

WHEREAS, the decision of the Executive Zoning Specialist of the New York City Department of Buildings ("DOB"), dated June 17, 2013, acting on DOB Application No. 320513495, reads in pertinent part:

1. Proposed floor area is contrary to ZR 23-141(b)
2. Proposed open space is contrary to ZR 23-141(b)
3. Proposed lot coverage is contrary to ZR 23-141(b)
4. Proposed rear yard is contrary to ZR 23-47; and

WHEREAS, this is an application under ZR § 73-622, to permit, within an R3-1 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio ("FAR"), open space, lot coverage, and rear yard, contrary to ZR §§ 23-141 and 23-47; and

WHEREAS, a public hearing was held on this application on December 10, 2013, after due notice by publication in *The City Record*, with a continued hearing on January 28, 2014, and then to decision on February 11, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of Coleridge Street, between Oriental Boulevard and Hampton Avenue, within an R3-1 zoning district; and

WHEREAS, the site has a total lot area of 6,000 sq. ft. and is occupied by a single-family home with a floor area of 3,890.9 sq. ft. (0.65 FAR); and

MINUTES

WHEREAS, the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant now seeks an increase in the floor area from of 3,890.9 sq. ft. (0.65 FAR) to 5,905 sq. ft. (0.98 FAR); the maximum permitted floor area is 3,000 sq. ft. (0.5 FAR), however, a 20 percent increase in FAR pursuant to ZR § 23-141(b)(1) is available, resulting in a maximum permitted floor area of 3,600 sq. ft. (0.6 FAR); and

WHEREAS, the applicant seeks to reduce the open space from 78.8 percent to 59.3 percent; the minimum required open space is 65 percent; and

WHEREAS, the applicant seeks to increase the lot coverage from 21.2 percent to 40.7 percent; the maximum permitted lot coverage is 35 percent; and

WHEREAS, the applicant also seeks to increase its rear yard depth from 11'-2" to 23'-0"; thus, although the proposal reflects a decrease in the degree of non-compliance, because a minimum rear yard depth of 30'-0" is required, a waiver is necessary; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood and will not impair the future use or development of the surrounding area; and

WHEREAS, in particular, the applicant represents that the proposed 0.98 FAR is consistent with the bulk in the surrounding area and submitted an analysis showing that there are 12 homes within a 400-foot radius of the site with an FAR of 0.8 or greater; and

WHEREAS, accordingly, the Board agrees with the applicant that the proposed bulk is compatible with the character of the neighborhood; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622, to permit, within an R3-1 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for FAR, open space, lot coverage, and rear yard, contrary to ZR §§ 23-141 and 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received October 25, 2013 – six (6) sheets and "January 14, 2014"- (5) sheets; and *on further condition:*

THAT the following will be the bulk parameters of the building: a maximum floor area of 5,905 sq. ft. (0.98 FAR),

a minimum open space of 59.3 percent, a maximum lot coverage of 40.7, a minimum rear yard depth of 23'-0", and side yards with minimum widths of 8'-5" and 11'-7", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 11, 2014.

245-13-BZ

APPLICANT – Eric Palatnik, P.C., for Dmitriy Gorelik, owner.

SUBJECT – Application August 21, 2013 – Special Permit (§73-622) for the enlargement of an existing single family home, contrary to floor area, open space and lot coverage (§23-141) and less than the required rear yard (§23-47). R4 zoning district.

PREMISES AFFECTED – 2660 East 27th Street, between Voorhies Avenue and Avenue Z, Block 7471, Lot 30, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner of the New York City Department of Buildings ("DOB"), dated July 22, 2013, acting on DOB Application No. 320784790, reads in pertinent part:

1. Proposed floor area is contrary to ZR 23-141(a)
2. Proposed open space is contrary to ZR 23-141(a)
3. Proposed lot coverage is contrary to ZR 23-141
4. Proposed rear yard is contrary to ZR 23-47; and

WHEREAS, this is an application under ZR § 73-622, to permit, within an R4 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio

MINUTES

("FAR"), open space, lot coverage, and rear yard, contrary to ZR §§ 23-141 and 23-47; and

WHEREAS, a public hearing was held on this application on January 14, 2014, after due notice by publication in *The City Record*, and then to decision on February 11, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of East 27th Street, between Avenue Z and Voorhies Avenue, within an R4 zoning district; and

WHEREAS, the site has a total lot area of 4,000 sq. ft. and is occupied by a single-family home with a floor area of 2,791 sq. ft. (0.7 FAR); and

WHEREAS, the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant now seeks an increase in the floor area from of 2,791 sq. ft. (0.7 FAR) to 3,401.5 sq. ft. (0.85 FAR); the maximum permitted floor area is 3,000 sq. ft. (0.75 FAR); and

WHEREAS, the applicant seeks to reduce the open space from 63 percent to 54.5 percent; the minimum required open space is 55 percent; and

WHEREAS, the applicant seeks to increase the lot coverage from 37 percent to 45.5 percent; the maximum permitted lot coverage is 45 percent; and

WHEREAS, the applicant also seeks to decrease its rear yard depth from 29'-2" to 20'-0"; a minimum rear yard depth of 30'-0" is required; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood and will not impair the future use or development of the surrounding area; and

WHEREAS, in particular, the applicant represents that the proposed 0.85 FAR is consistent with the bulk in the surrounding area and submitted an analysis indicating that there are 38 homes within a 400-foot radius of the site with an FAR of 1.0 or greater; and

WHEREAS, at hearing, the Board directed the applicant to demonstrate the proposal's compliance with the landscaping requirements of the Zoning Resolution; and

WHEREAS, in response, the applicant submitted amended plans showing the required landscaping; and

WHEREAS, accordingly, the Board agrees with the applicant that the proposed bulk is compatible with the character of the neighborhood; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622, to permit, within an R4 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for FAR, open space, lot coverage, and rear yard, contrary to ZR §§ 23-141 and 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received January 28, 2014"- eight (8) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 3,401.5 sq. ft. (0.85 FAR), a minimum open space of 54.5 percent, a maximum lot coverage of 45.5, a minimum rear yard depth of 20'-0", and side yards with minimum widths of 5'-0" and 9'-0", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 11, 2014.

Jeff Mulligan, Executive Director

MINUTES

**REGULAR MEETING
TUESDAY MORNING, FEBRUARY 25, 2014
10:00 A.M.**

Present: Chair Srinivasan, Vice-Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez.

SPECIAL ORDER CALENDAR

16-93-BZ

APPLICANT – Carl A. Sulfaro, for 110 Christopher Street, LLC, owner.

SUBJECT – Application November 15, 2013 – Extension of Term (§11-411) of a previously approved variance (§72-21) which permitted retail (UG 6) in the cellar of an existing five-story and multiple dwelling, which expires on February 23, 2014. R6 zoning district.

PREMISES AFFECTED – 110 Christopher Street, south side of Christopher street 192'-6.26 West of Bleeker Street, Block 588, Lot 51, Borough of Manhattan.

COMMUNITY BOARD #2M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, this application is for a reopening and an extension of term for a variance, which expired on February 24, 2014; and

WHEREAS, a public hearing was held on this application on February 4, 2014, after due notice by publication in *The City Record*, and then to decision on February 25, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan and Commissioner Montanez; and

WHEREAS, Community Board 2, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of Christopher Street between Bedford Street and Bleeker Street, within an R6 zoning district; and

WHEREAS, on February 24, 1994, under the subject calendar, the Board granted an application to permit, in an R6 zoning district, the reestablishment of an expired variance, originally granted under BSA Cal. No. 50-60-BZ, which permitted the use of the cellar space for three small offices; and

WHEREAS, the term of the grant was extended on May 25, 2004, to expire on February 24, 2014; on that same date, the grant was also amended to permit the conversion of the

cellar space from offices to a custom dressmaking and sales shop; and

WHEREAS, the applicant now seeks an extension of term; and

WHEREAS, based on its review of the record, the Board finds that the proposed extension of term is appropriate with certain conditions set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals, *reopens* and *amends* the resolution, dated February 24, 1994, so that as amended the resolution reads: "to permit an extension of the term of the variance for a period of ten (10) years from February 25, 2014, to expire on February 25, 2024; *on condition* that the premises will be maintained in substantial compliance with the BSA-approved drawings; and *on further condition*;

THAT the grant will expire on February 25, 2024;

THAT the above conditions and all conditions from prior resolutions required to be on the certificate of occupancy will appear on the new certificate of occupancy;

THAT egress requirements will be approved by the Department of Buildings;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

(DOB Application No. 103579487)

Adopted by the Board of Standards and Appeals, February 25, 2014.

20-02-BZ

APPLICANT – Law office of Fredrick A. Becker, for 303 Park Avenue South Leasehold Co. LLC, owner; TSI East 23, LLC dba New York Sports Club, lessee.

SUBJECT – Application September 20, 2013 – Extension of term of a special permit (§73-36) to allow the operation of a physical culture establishment (*New York Sports Club*) in a five story mixed use loft building, which expired on August 21, 2013. C6-4 zoning district.

PREMISES AFFECTED – 303 Park Avenue South, northeast corner of Park Avenue south and East 23rd Street, Block 879, Lot 1, Borough of Manhattan.

COMMUNITY BOARD #5M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

MINUTES

THE RESOLUTION –

WHEREAS, this is an application for a reopening of a previously granted special permit for a physical culture establishment (“PCE”) and an extension of term, which expired on August 21, 2013; and

WHEREAS, a public hearing was held on this application on January 28, 2014, after due notice by publication in *The City Record*, and then to decision on February 25, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the PCE is located in a mixed commercial and residential building on the northeast corner of Park Avenue South and East 23rd Street within a C6-4A zoning district; and

WHEREAS, the site is located in portions of the cellar, first floor, and second floor of the five-story building; and

WHEREAS, the PCE has a total floor space of 24,496 sq. ft.; 3,250 sq. ft. of floor space on the cellar level, 5,900 sq. ft. of floor area on the first floor, and 15,076 sq. ft. of floor area on the second floor; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 18, 1997 when, under BSA Cal. No. 160-95-BZ, the Board permitted the legalization of an existing PCE in the subject building for a term of ten years; and

WHEREAS, on June 18, 2002, under the subject calendar number, the Board approved the expansion of the PCE onto the second floor; and

WHEREAS, the Board notes that numerous building residents testified at the August 21, 2007 hearing, raising concerns with excessive noise and vibrations caused by the operation of the PCE; accordingly, on August 21, 2007, the special permit was extended for a term of one year, which expired on August 21, 2008; and

WHEREAS, the applicant represents that, subsequent to the August 21, 2007 hearing, the concerns were addressed and, on November 18, 2008, the Board granted a five-year extension of term, to expire on August 21, 2013; and

WHEREAS, the applicant notes that the PCE continues to be operated as New York Sports Club; and

WHEREAS, the applicant now seeks a ten-year extension of term; and

WHEREAS, at hearing, the Board directed the applicant to notify the residents of the building and submit proof of such notification; and

WHEREAS, in response, the applicant provided proof that the residents of the building had been notified; and

WHEREAS, based upon its review of the record, the Board finds the requested extension of term is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, as adopted on June 18, 2002, so that as amended this portion of the resolution shall read: “to extend the term for ten years from

August 21, 2013, to expire on August 21, 2023, *on condition* that the use and operation of the site will substantially conform to the previously approved plans; and *on further condition*:

THAT the term of this grant will expire on August 21, 2023;

THAT the hours of operation for the PCE will be Monday through Friday, from 5:30 a.m. to 11:00 p.m., and Saturday and Sunday, from 7:00 a.m. to 9:00 p.m.;

THAT the above conditions will be listed on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, February 25, 2014.

238-07-BZ

APPLICANT – Goldman Harris LLC, for OCA Long Island City LLC; OCAII & III, owners.

SUBJECT – Application October 28, 2013 – Amendment of a previously approved Variance (§72-21) which permitted the construction of a 12-story mixed-use building and a 6-story community facility dormitory and faculty housing building (*CUNY Graduate Center*), contrary to use and bulk regulations. The amendment seeks the elimination of the cellar and other design changes to the Dormitory Building, M1-4/R6A (LIC) zoning district.

PREMISES AFFECTED – 5-11 47th Avenue, 46th Road at north, 47th Avenue at south, 5th Avenue at west, Vernon Boulevard at east, Block 28, Lot 12, 15, 17, 18, 21, 121, Borough of Queens.

COMMUNITY BOARD #2Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to a previously granted variance which permitted, on a site partially in an M1-4 zoning district and partially in an M1-4/R6A district within the Special Long Island City Mixed-Use District, the construction of a 12-story mixed residential and commercial building (the “Mixed-Use Building”) and a six-story student dormitory building (the “Dormitory Building”) for the City University of New York (“CUNY”) Graduate Center, contrary to use and bulk

MINUTES

regulations; and

WHEREAS, a public hearing was held on this application on January 28, 2014, after due notice by publication in *The City Record*, and then to decision on February 25, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is bounded by Fifth Street to the west, 46th Road to the north, and 47th Avenue to the south, with a total lot area of 66,838 sq. ft.; and

WHEREAS, the Board has exercised jurisdiction over the site since September 23, 2008 when, under the subject calendar number, the Board granted a variance pursuant to ZR § 72-21, which permitted the construction of a 12-story mixed residential and commercial building and a six-story student dormitory building and faculty housing building connected by a cellar-level accessory parking garage, contrary to ZR §§ 42-00, 117-21, 23-145, 24-632, 23-633, and 23-711; and

WHEREAS, the Board issued a letter of substantial compliance on June 10, 2009, to permit certain modifications to the approved plans, and to acknowledge that although the project was originally filed at the Department of Buildings (“DOB”) under a single permit application (NB # 402661945), the project was subsequently filed as two separate projects, with the Mixed-Use Building retaining the original application number, and the Dormitory Building filed under new NB # 420006111; and

WHEREAS, the Board issued a second letter of substantial compliance on December 8, 2009, stating that the Board has no objection to the issuance of a temporary and permanent certificate of occupancy for the Mixed-Use Building prior to the construction of the Dormitory Building and the connection between the buildings; and

WHEREAS, the applicant states that the issuance of the December 8, 2009 letter was based on the anticipated occupancy of the Dormitory Building by the CUNY Graduate Center; however, subsequent to the issuance of the letter, the CUNY Graduate Center withdrew from the project; and

WHEREAS, on February 15, 2011, the Board approved an amendment to clarify that either the Mixed-Use Building or the Dormitory Building may be constructed prior to the construction and occupancy of the other building and the connection between the buildings; and

WHEREAS, the applicant notes that the February 15, 2011 amendment allows each building to proceed independently and provides flexibility for the commencement of construction at the earliest possible time; and

WHEREAS, the applicant also notes that CUNY has resumed participation in the project; and

WHEREAS, substantial construction was to be completed by September 23, 2012, in accordance with ZR § 72-23; however, by that date, construction had not been completed due to budgetary constraints; accordingly, on July 24, 2012, the Board granted an extension of time to complete construction, to expire on September 23, 2016; and

WHEREAS, the applicant now seeks an amendment to permit the following: (1) the elimination of the cellar level of the Dormitory Building, which includes accessory parking for 91 automobiles and approximately 6,600 sq. ft. of amenity and storage space; (2) a reduction in floor area for the Dormitory Building from 183,472 sq. ft. to 177,693 sq. ft.; (3) the elimination of the seventh floor; (4) reduction in size of the stair, elevator, and mechanical bulkheads, and reduction in building height; (5) addition of balconies on the fifth and sixth floors; and (6) minor modifications to interior layouts and roof; and

WHEREAS, specifically, the applicant states that the site is, in the wake of Superstorm Sandy, now within ZONE AE on the Federal Emergency Management Agency’s Flood Insurance Rate Map, which means the site is now considered to be within a high-risk, high-vulnerability zone, making a cellar more expensive to insure; and

WHEREAS, in addition, the applicant states that CUNY has reassessed its needs and determined that parking on the originally-proposed scale is neither necessary, nor desirable; and

WHEREAS, the applicant also notes that the zoning district does not require any parking, and that the area is well-served by mass transit; as such, a significant demand for parking onsite is not anticipated; likewise, what little demand exists can be accommodated by nearby facilities; and

WHEREAS, in support of this statement, the applicant provided a parking study, which reflects that the site will have sufficient parking without the cellar parking garage, due in part to the recent construction of new major parking facilities in the vicinity; and

WHEREAS, as for the other proposed modifications to the plans, the applicant states that they are minor in nature and are consistent with the programmatic needs articulated by the applicant and recognized by the Board in its original grant; and

WHEREAS, accordingly, the applicant states that the proposed amendment will have no negative impacts on the surrounding area; and

WHEREAS, at hearing, the Board requested clarification regarding whether excavation had been performed at the site; and

WHEREAS, in response, the applicant stated that excavation has proceeded and is required under the New York State Department of Environmental Conservation-mandated site-management plan; and

WHEREAS, based upon its review of the record, the Board finds that the requested amendment is appropriate, with certain conditions set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated September 23, 2008, to include the above-noted modifications; *on condition* that the use and operation of the site will comply with BSA-approved plans associated with the prior grant; and *on further condition*:

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

MINUTES

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB Application No. 402661945)

Adopted by the Board of Standards and Appeals, February 25, 2014.

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated April 3, 2013, acting on Department of Buildings (“DOB”) Application No. 110361554 reads, in pertinent part:

1. Proposed heretofore converted dwelling cannot be increased in height or stories as per MDL 171-2(a);
2. Proposed enlargement of the existing heretofore converted dwelling exceeds 25% of the area of the 3rd floor (fourth story) which is contrary to MDL 171-2(f); and

WHEREAS, this is an application pursuant to Multiple Dwelling Law (“MDL”) § 310, to vary height and bulk requirements in order to allow for the proposed partial one-story vertical enlargement of the subject three-story and

MINUTES

basement residential building, contrary to MDL §§ 171(2)(a) and 171(2)(f); and

WHEREAS, a public hearing was held on this application on July 23, 2013, after due notice by publication in *The City Record*, and then to decision on February 25, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the south side of West 87th Street, between West End Avenue and Riverside Drive, within an R8 zoning district within the Riverside Drive-West End Historic District; and

WHEREAS, the site has 20 feet of frontage along West 87th Street, a depth of approximately 100.6 feet, and a lot area of 2,013 sq. ft.; and

WHEREAS, the site is occupied by a three-story and basement non-fireproof residential building; and

WHEREAS, the applicant states that the existing building was constructed in approximately 1900 and is currently occupied by eight residential units, with two units per floor; and

WHEREAS, the subject building has a floor area of approximately 5,040 sq. ft. (2.50 FAR) and a height of approximately 47'-0"; and

WHEREAS, the applicant proposes to enlarge the building by constructing a partial fourth floor containing an additional 743.3 sq. ft. of floor area; and

WHEREAS, the applicant states that the front of the proposed fourth floor will include a new, additional unit and the rear will be part of a duplex unit with the third floor; therefore, the proposal will increase the total number of dwelling units in the building from eight to nine; and

WHEREAS, the applicant further states that the proposed enlargement will increase the floor area of the subject building from 5,040 sq. ft. (2.50 FAR) to 5,783.3 sq. ft. (2.87 FAR) and increase the height of the building from 47'-0" to 56'-3"; and

WHEREAS, the applicant notes that the proposed fourth-floor enlargement will be set back 13'-5" from the building's front façade and slanted, so as not to be visible from the street; and

WHEREAS, the applicant also notes that it initially proposed a height of 57'-0", which was reduced at the request of the Landmarks Preservation Commission ("LPC"); and

WHEREAS, MDL § 171(2)(a) states that it is unlawful to "increase the height or number of stories of any converted dwelling or to increase the height or number of stories of any building in converting it to a multiple dwelling"; and

WHEREAS, because any increase in height or number stories of a converted multiple dwelling is prohibited, and the proposed increase of the existing building is from three stories to four stories and from 47'-0" to 56'-3", the Department of Buildings ("DOB") determined that the proposal does not comply with the requirements of MDL § 171(2)(a); and

WHEREAS, MDL § 171(2)(f) states that it is unlawful

to "enlarge or extend any converted dwelling so as to exceed by more than twenty-five per centum the area which such dwelling had on any floor at the time of its conversion . . ."; and

WHEREAS, because the proposed 743.3 sq. ft. enlargement on the fourth floor exceeds 25 percent of the area on the third floor, DOB determined that the proposal does not comply with the requirements of MDL § 171(2)(f); and

WHEREAS, pursuant to MDL § 310(2)(a), the Board has the authority to vary or modify certain provisions of the MDL for multiple dwellings that existed on July 1, 1948, provided that the Board determines that strict compliance with such provisions would cause practical difficulties or unnecessary hardships, and that the spirit and intent of the MDL are maintained, public health, safety and welfare are preserved, and substantial justice is done; and

WHEREAS, as noted above, the subject building was constructed in approximately 1900; therefore, the building is subject to MDL § 310(2)(a); and

WHEREAS, specifically, MDL § 310(2)(a) empowers the Board to vary or modify provisions or requirements related to: (1) height and bulk; (2) required open spaces; (3) minimum dimensions of yards or courts; (4) means of egress; and (5) basements and cellars in tenements converted to dwellings; and

WHEREAS, the Board notes that MDL §§ 171(2)(a) and 171(2)(f) relate to height and bulk; therefore the Board has the power to vary or modify the subject provisions pursuant to MDL § 310(2)(a)(1); and

WHEREAS, the applicant represents that practical difficulty and unnecessary hardship would result from strict compliance with the MDL; and

WHEREAS, the applicant states that MDL §§ 171(2)(a) and 171(2)(f) prohibit a vertical enlargement of the subject building and that the third floor cannot practicably be enlarged horizontally to make up for this deficit because the existing building is located within an historic district and the LPC will not approve a third floor horizontal expansion; and

WHEREAS, the applicant represents that because a vertical enlargement is not permitted and a horizontal enlargement is impracticable, the MDL restrictions create a practical difficulty and an unnecessary hardship in that they prevent the site from utilizing the development potential afforded by the subject zoning district; and

WHEREAS, in particular, the applicant notes that the subject district permits an FAR of 6.02, and the proposed enlargement would increase the FAR of the building from 2.50 to 2.87; and

WHEREAS, based on the above, the Board agrees that there is a practical difficulty and an unnecessary hardship in complying with the requirements of the MDL; and

WHEREAS, the applicant states that the requested variance of MDL §§ 171(2)(a) and 171(2)(f) is consistent with the spirit and intent of the MDL, and will preserve public health, safety and welfare, and substantial justice; and

WHEREAS, specifically, the applicant states that the proposal includes numerous fire safety improvements to

MINUTES

mitigate the existing fire infirmities inherent in the pre-1929 building; and

WHEREAS, the applicant notes that MDL § 2 (“Legislative Finding”) provides that the intent of the law is to protect against dangers such as “overcrowding of multiple dwelling rooms, inadequate provision for light and air, and insufficient protection against the defective provision for escape from fire . . .”; and

WHEREAS, accordingly, the applicant represents that the proposed construction promotes the intent of the law because: (1) the new unit will cause minimal impact, as it will increase the unit count to nine, which is well below the 16 total permitted units in a building in an R8 zone; (2) it will be modest in size and set back from the front and rear facades, thereby providing sufficient light and air to the proposed fourth floor without diminishing access to light and air for other units in the building; and (3) it will provide a number of significant fire safety improvements; and

WHEREAS, specifically, the applicant proposes to provide the following fire safety improvements: (1) sprinklers will be added to all common areas of the building; (2) new, steel stair ways will be installed; (3) all existing wood stair rails will be replaced with metal; (4) all doors leading to the apartments and cellar will have one-and-one-half-hour fireproof self-closing doors; (5) all public halls will have a new two-hour rated enclosure by an additional new layer of fire resistant gypsum board; (6) two layers of fire resistant gypsum board will be installed in the cellar ceiling; (7) a new layer of fire resistant gypsum board will be installed to the underside of the existing staircases and landings; and (8) all bedrooms will have ceiling mounted hard-wired smoke detectors and carbon-monoxide detectors; and

WHEREAS, the applicant represents that the proposed fire safety measures will result in a substantial increase to the public health, safety, and welfare, which far outweighs any impact from the proposed enlargement; and

WHEREAS, based on the above, the Board finds that the proposed variance to the height and bulk requirements of MDL §§ 171(2)(a) and 171(2)(f) will maintain the spirit and intent of the MDL, preserve public health, safety and welfare, and ensure that substantial justice is done; and

WHEREAS, the applicant represents that the proposal will not affect the historical character of the site; and

WHEREAS, the applicant submitted a Certificate of Appropriateness from the LPC approving work associated with the proposed enlargement, dated February 5, 2014; and

WHEREAS, at hearing, the Board expressed concerns regarding the dimensions of the proposed dwelling units; and

WHEREAS, in response, the applicant submitted an amended statement clarifying the dimensions of the proposed units and confirming that such units meet the minimum requirements set forth in the Zoning Resolution; and

WHEREAS, accordingly, the Board finds that the applicant has submitted adequate evidence in support of the findings required to be made under MDL § 310(2)(a) and that

the requested variance of the height and bulk requirements of MDL §§ 171(2)(a) and 171(2)(f) is appropriate, with certain conditions set forth below.

Therefore it is Resolved, that the decision of the Manhattan Borough Commissioner, dated April 3, 2013, is modified and that the requested waivers are granted, limited to the decision noted above; *on condition* that construction will substantially conform to the plans filed with the application marked, "Received February 21, 2014" eight (8) sheets; and *on further condition*:

THAT the bulk parameters of the building will be as follows: 5,783.3 sq. ft. (2.87 FAR); nine dwelling units; and a maximum building height of 56'-3", as reflected in the BSA-approved plans;

THAT the dimensions of the proposed dwelling units will be subject to DOB review;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB objections related to the MDL;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 25, 2014.

214-13-A

APPLICANT – Slater & Beckerman, P.C., for Jeffrey Mitchell, owner.

SUBJECT – Application July 15, 2013 – Appeal seeking a determination that the owner has acquired a common law vested right to complete construction under the prior R3-2 zoning district. R3-X zoning district.

PREMISES AFFECTED – 219-08 141st Avenue, south side of 141st Avenue between 219th Street and 222nd Street, Block 13145, Lot 15, Borough of Queens.

COMMUNITY BOARD #13Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application requesting a Board determination that the owner of the premises has obtained the right to complete construction of a two-story, two-family residential building under the common law doctrine of vested rights; and

WHEREAS, a public hearing was held on this application on January 28, 2014, after due notice by publication in *The City Record*, and then to decision on

MINUTES

February 25, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Montanez; and

WHEREAS, the subject site is located on the corner of the intersection of 141st Avenue and 219th Street, within an R3X zoning district; and

WHEREAS, the site has 100 feet of frontage along 141st Avenue, 59.88 feet of frontage along 219th Street, and a lot area of 6,455 sq. ft.; and

WHEREAS, the site is a single zoning lot comprising Lots 14 and 15; and

WHEREAS, Lot 14 is occupied by a two-story single-family dwelling with 1,942 sq. ft. of floor area; Lot 15 is occupied by a two-story, two-family dwelling (the "Building") with 1,920 sq. ft. of floor area, which was constructed as a semi-detached building with the existing dwelling on Lot 14 pursuant to permits that were initially issued in 2006; therefore, the total floor area proposed for the site is 3,862 sq. ft. (0.59 FAR); and

WHEREAS, the applicant represents that the Building complies with the parameters of the former R3-2 zoning district, as well as the open space provisions of the Zoning Resolution prior to the April 30, 2008 citywide text amendment; and

WHEREAS, on July 27, 2006, Alteration Permit No. 402424747-01-NB (the "New Building Permit") was issued by the Department of Buildings ("DOB") permitting construction of the Building; and

WHEREAS, however, on April 30, 2008, (the "Text Enactment Date"), the City Council voted to adopt the Yards Text Amendment (the "Text Amendment"), which increased the amount of open space required on the site; later that year, on September 4, 2008 (the "Rezoning Date"), the City Council voted to adopt the Laurelton Rezoning, which zoned the site from an R3-2 zoning district to an R3X zoning district; and

WHEREAS, the Building, which is a two-family, semi-detached building with side yard widths of 8'-0" and 16'-9", a front yard depth of 17'-0", and a rear yard with a depth of 16'-9", does not comply with the current zoning, which allows only single- and two-family detached buildings and requires two side yards with minimum widths of 10'-0" and 20'-0", a minimum front yard depth of 18'-0", and a minimum rear yard depth of 30'-0"; and

WHEREAS, as of the Text Enactment Date, which, as noted above, preceded the Rezoning Date, the applicant had obtained permits but had not completed construction; and

WHEREAS, the applicant represents that although it completed foundations in September 2007, construction stalled in 2008 and the Building was not completed within two years of the Text Enactment Date (or the Rezoning Date); and

WHEREAS, accordingly, the applicant now seeks recognition of a vested right to complete construction pursuant to the common law doctrine of vested rights; and

WHEREAS, a threshold matter for the vested rights analysis is that a permit be issued lawfully prior to the Text

Enactment Date and the Rezoning Date and that the work was performed pursuant to such lawful permit; and

WHEREAS, by letter dated November 15, 2013, DOB stated that the New Building Permit was lawfully issued, authorizing construction of the proposed Building prior to the Text Enactment Date (and the Rezoning Date); and

WHEREAS, the Board notes that when work proceeds under a lawfully-issued permit, a common law vested right to continue construction after a change in zoning generally exists if: (1) the owner has undertaken substantial construction; (2) the owner has made substantial expenditures; and (3) serious loss will result if the owner is denied the right to proceed under the prior zoning; and

WHEREAS, specifically, as held in Putnam Armonk, Inc. v. Town of Southeast, 52 A.D.2d 10 (2d Dept. 1976), where a restrictive amendment to a zoning ordinance is enacted, the owner's rights under the prior ordinance are deemed vested "and will not be disturbed where enforcement [of new zoning requirements] would cause 'serious loss' to the owner," and "where substantial construction had been undertaken and substantial expenditures made prior to the effective date of the ordinance"; and

WHEREAS, however, notwithstanding this general framework, as discussed by the court in Kadin v. Bennett, 163 A.D.2d 308 (2d Dept. 1990) "there is no fixed formula which measures the content of all the circumstances whereby a party is said to possess 'a vested right'. Rather, it is a term which sums up a determination that the facts of the case render it inequitable that the State impede the individual from taking certain action"; and

WHEREAS, as noted above, the applicant obtained a permit to construct the Building and performed certain work prior to the Text Enactment Date and the Rezoning Date; and

WHEREAS, specifically, the applicant states that the work it performed constitutes substantial construction, in that, prior to the Text Enactment Date and the Rezoning Date, it completed the excavation, footings, foundation, exterior walls, and roof construction; and

WHEREAS, in support of this statement, the applicant has submitted the following: a breakdown of the construction costs by line item; copies of cancelled checks; construction permits and inspection reports; contractor payment requests; photographs of the site; and an affidavit from the owner of the site attesting to the timing and nature of the work performed prior to the Text Enactment Date and the Rezoning Date; and

WHEREAS, the Board has reviewed the representations as to the amount and type of work completed before the Text Enactment Date and the Rezoning Date and the documentation submitted in support of these representations, and agrees that it establishes that substantial work was performed; and

WHEREAS, as to expenditure, the Board notes that unlike an application for relief under ZR § 11-30 *et seq.*, soft costs and irrevocable financial commitments can be considered in an application under the common law and accordingly, these costs are appropriately included in the

MINUTES

applicant's analysis; and

WHEREAS, the applicant represents that the total expenditure paid for construction of the Building is \$153,044.50, or approximately 54 percent, out of the \$282,850 cost to complete; and

WHEREAS, as noted, the applicant has submitted a breakdown of costs and expenditures, copies of cancelled checks, and an affidavit in support of this representation; and

WHEREAS, the Board considers the amount of expenditures significant, both for a project of this size, and when compared with the development costs; and

WHEREAS, again, the Board's consideration is guided by the percentages of expenditure cited by New York courts considering how much expenditure is needed to vest rights under a prior zoning regime; and

WHEREAS, as to serious loss, the Board examines not only whether certain improvements and expenditures could not be recouped under the new zoning, but also considerations such as the diminution in income that would occur if the new zoning were imposed and the reduction in value between the proposed building and the building permitted under the new zoning; and

WHEREAS, the applicant states that the owner would incur a loss of \$233,044.50 if the Building must be modified to comply with the post-Text Amendment open space requirements and the R3X district regulations; specifically, as noted above, wider side yards and deeper front and rear yards would be required; and

WHEREAS, therefore, the applicant states that the Building would have to be completely demolished at a cost of \$80,000; because the owner has already spent \$153,044.50, the applicant states that that entire amount would be lost as well; further, constructing the new, complying building is estimated to cost \$259,000; and

WHEREAS, the applicant also notes that because the owner currently resides in the building on Lot 14 and has mortgaged the entire lot, having to build a complying building on the site instead of the Building would jeopardize the owner's ability to finance both buildings; and

WHEREAS, accordingly, the applicant represents that complying with the current zoning regulations would result in a serious loss to the owner; and

WHEREAS, the Board agrees that complying with the open space requirements of the Text Amendment and the R3X district regulations would result in a serious economic loss for the applicant; and

WHEREAS, in sum, the Board has reviewed the representations as to the work performed and the expenditures made before the Text Enactment Date and the Rezoning Date, the representations regarding serious loss, and the supporting documentation for such representations, and agrees that the applicant has satisfactorily established that a vested right to complete construction of the Building has accrued to the owner of the premises.

Therefore it is Resolved, that this application made pursuant to the common law doctrine of vested rights

requesting a reinstatement of Permit No. 402424747-01-NB, as well as all related permits for various work types, either already issued or necessary to complete construction and obtain a certificate of occupancy, is granted for four years from the date of this grant.

Adopted by the Board of Standards and Appeals, February 25, 2014.

300-13-A

APPLICANT – Goldman Harris LLC, for LSG Fulton Street LLC, owner.

SUBJECT – Application November 7, 2013 – Proposed construction of a mixed-use development to be located partially within the bed of a mapped but unbuilt portion of Fulton Street, contrary to General City law Section 35 and the bulk regulations pursuant to §72-01-(g). C5-5/C6-4 zoning district.

PREMISES AFFECTED – 112,114 & 120 Fulton Street, Three tax lots fronting on Fulton Street between Nassau and Dutch Streets in lower Manhattan. Block 78, Lot(s) 49, 7501 & 45. Borough of Manhattan.

COMMUNITY BOARD #1M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez

Negative:.....5

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated November 12, 2013, acting on Department of Buildings Application No. 121333440, reads in pertinent part:

1. Proposed new building does not comply with bulk regulations resulting from the location of the street as per ZR 91-32 Setback regulations for Special Lower Manhattan District; for "Type 3" as defined on Map 2n Appendix A #street walls #, the required setbacks shall be measured from a line drawn at or parallel to the #street line# so that at least 70 percent of the aggregate width of street walls# of the building at the minimum base height are within such line and the #street line# (street widening line);
2. Proposed development which rests partially within the bed of the mapped street is contrary to GCL 35; and

WHEREAS, a public hearing was held on this application on January 28, 2014 after due notice by publication in *The City Record*, and then to decision on February 25, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

MINUTES

WHEREAS, this is an application to allow the construction of 62-story mixed residential and commercial building, which will be partially located within the widening area for Fulton Street; and

WHEREAS, the subject site is located on the south side of Fulton Street between Nassau Street and Dutch Street, partially within a C5-5 zoning district and partially within a C6-4 zoning district, within the Special Lower Manhattan District; and

WHEREAS, the site comprises three tax lots (Tentative Lots 45, 49, and 7501) with a combined frontage of approximately 125 feet along Fulton Street; and

WHEREAS, the site has 10,378 sq. ft. of lot area, with about 45 percent of the lot area (4,625 sq. ft.) located within the widening area of Fulton Street; and

WHEREAS, the applicant states that, in connection with the proposed development, the site has been declared a single zoning lot with the following parcels: 122 Fulton Street; 80, 86 and 88 Nassau Street; 41-43 John Street; and 15 Dutch Street (Block 78, Lots 44, 7503, 40, 42, 7502, and 7504); and

WHEREAS, by letter dated December 23, 2013, the Fire Department states that it has reviewed the proposal and does not have any objections; and

WHEREAS, by letter dated November 25, 2013, the Department of Environmental Protection (“DEP”) states that: (1) there is an existing 20-inch diameter and a 24-inch diameter City water main in the bed of Fulton Street; (2) there is an existing 18-inch diameter and 14-inch diameter combined sewers in the bed of Fulton Street between Nassau Street and Dutch Street; (3) Modified City Drainage Plan for Sewage District No. 22CL, dated May 3, 1928, calls for a future four-ft. combined sewer to be installed in Fulton Street between Nassau Street and Dutch Street; and

WHEREAS, DEP further states that it requires the applicant to submit a survey/plan showing: (1) the width of mapped Fulton Street and the width of the widening portions of the street; (2) the distance between the 18-inch diameter and 14-inch diameter combined sewers in the bed of Fulton Street between Nassau Street and Dutch Street; and (3) the location and the distance from the lot line to the existing fire hydrant; and

WHEREAS, in response to DEP’s request, the applicant submitted a revised survey, dated December 9, 2013; the revised survey shows the 90 feet of the total width of the mapped portion of Fulton Street between Nassau Street and Dutch Street, as well as the 55-ft. of the width of the traveled portion of Fulton Street, which will be available for the maintenance and/or reconstruction of the existing sewers, water mains, and the installation of any future sewers; and

WHEREAS, by letter dated January 10, 2014, DEP states that, based on its review of the applicant’s response, it has no objections to the proposal; and

WHEREAS, by correspondence dated January 8, 2014, the Department of Transportation (“DOT”) states that: (1) according to the Manhattan Borough President’s Topographical Bureau, Fulton Street from Dutch Street to Nassau Street is mapped at a 90-ft. width on the Final City

Map; (2) the City does not have title to the southerly portion within Block 78; and (3) construction within the bed of Fulton Street is not presently included in DOT’s Capital Improvement Program; and

WHEREAS, in addition, DOT recommends that the proposed building’s footprint be set back from the existing building line to allow for a widened sidewalk to reduce pedestrian congestion; and

WHEREAS, by letter dated January 14, 2014, the applicant responds that Fulton Street is classified as a Type 3 street for the purposes of applying the Special Lower Manhattan District street wall regulations, and that, per ZR § 91-31(b), at least 70 percent of the aggregate width of street walls on Type 3 streets must be located within ten feet of the street line; accordingly, a setback cannot be provided as requested by DOT without the creation of a zoning non-compliance; and

WHEREAS, therefore, the applicant states that the footprint of the building will not be altered in accordance with DOT’s request, because doing so would require a variance; further, the applicant states that the proposed streetwall maintains the existing, historic character of the streetscape; and

WHEREAS, in addition, in accordance with the Special Lower Manhattan District requirements (ZR § 91-42), the proposal must provide pedestrian circulation space, which, in effect, will further the same goal—reduced pedestrian congestion—as the setback streetwall and widened sidewalk recommended by DOT; and

WHEREAS, the Board notes that pursuant to GCL Section 35, it may authorize construction within the bed of the mapped street subject to reasonable requirements; and

WHEREAS, the Board notes that pursuant to ZR § 72-01(g), the Board may waive bulk regulations where construction is proposed in part within the bed of a mapped street; such bulk waivers will be only as necessary to address non compliances resulting from the location of construction within and outside of the mapped street, and the zoning lot will comply to the maximum extent feasible with all applicable zoning regulations as if the street were not mapped; and

WHEREAS, in particular, the Board notes that, if the built width of Fulton Street (rather than its wider, mapped width) were used to measure the setbacks required under ZR § 91-32, such setbacks would comply; and

WHEREAS, therefore, consistent with GCL § 35 and ZR § 72-01(g), the Board finds that applying the bulk regulations across the portion of the subject lot within the mapped street and the portion of the subject lot outside the mapped street as if the lot were unencumbered by a mapped street is both reasonable and necessary to allow the proposed construction; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions

Therefore it is Resolved, that the Board modifies the decision of the Manhattan Borough Commissioner, dated

MINUTES

November 12, 2013, acting on Department of Buildings Application No. 121333440, by the power vested in it by Section 35 of the General City Law, and also waives the bulk regulations associated with the presence of the mapped but unbuilt street pursuant to Section 72-01(g) of the Zoning Resolution to grant this appeal, limited to the decision noted above *on condition* that construction will substantially conform to the drawing filed with the application marked "Received February 3, 2014 (1) sheet; and *on further condition*:

THAT DOB will review and approve plans associated with the Board's approval for compliance with the underlying zoning regulations as if the unbuilt portion of the street were not mapped;

THAT DOB will not issue a Certificate of Occupancy until DEP has signed off on the amended drainage plan;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT DOB will review the proposed plans to ensure compliance with all relevant provisions of the Zoning Resolution;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals on February 25, 2014.

THE RESOLUTION –

WHEREAS, the decision of the Bronx Borough
Commissioner, dated March 20, 2013, acting on Department
of Buildings Application No. 200928979, reads in pertinent
part:

ZR 24-162 – proposed floor area for the
community facility use exceeds maximum
(permitted) floor area; and

WHEREAS, this is an application under ZR § 72-21, to
permit, on a site within an R6 (C1-3) zoning district, the
enlargement of an existing ten-story mixed residential,
community facility and commercial building (Use Groups 2,
3, and 6) that does not comply with regulations regarding
maximum community facility floor area ratio, contrary to ZR
§ 24-162; and

WHEREAS, the application is brought on behalf of the
Technical International Charter School (the “School”), a non-
profit educational institution; and

WHEREAS, a public hearing was held on this
application on November 19, 2013 after due notice by
publication in the *City Record*, with a continued hearing on
January 28, 2014, and then to decision on February 25, 2014;
and

WHEREAS, the site and surrounding area had site and
neighborhood examinations by Chair Srinivasan,
Commissioner Hinkson, and Commissioner Ottley-Brown;
and

WHEREAS, Community Board 8, Bronx, recommends
approval of this application; and

WHEREAS, the subject site is a flag-shaped lot with
frontages along Corlear Avenue and West 231st Street, within

an R6 (C1-3) zoning district; and

WHEREAS, the site has 118 feet of frontage along
Corlear Avenue, 35 feet of frontage along West 231st Street,
and approximately 15,038 sq. ft. of lot area; and

WHEREAS, the site is a single zoning that comprises
Tax Lots 64 and 110; Lot 64 is occupied by a one-story
commercial building (Use Group 6) with 4,665 sq. ft. of floor
area; Lot 110 is occupied by a ten-story mixed residential,
community facility and commercial (Use Groups 2, 3, and 6)
building (the “Main Building”) with 48,233 sq. ft. of floor
area (15,019 sq. ft. of community facility floor area, 32,801
sq. ft. of residential floor area, 413 sq. ft. of commercial floor
area); the zoning lot has a total floor area of 52,898 sq. ft.
(3.52 FAR); and

WHEREAS, the Main Building includes, at the sub-
cellar, 32 accessory parking spaces; at the cellar, an office,
ambulatory health facility, and storage; at the first story, a
residential lobby, six accessory parking spaces, and the
School; at the second story, 19 accessory parking spaces, at
the third story, the School; and on stories four through ten,
residential (48 dwelling units); and

WHEREAS, the applicant seeks to convert the second
story of the Main Building from parking to program space for
the School, resulting in an increase in community facility floor
area from 15,019 sq. ft. (1.0 FAR) to 22,219 sq. ft. (1.48
FAR); and

WHEREAS, the applicant states that while the
maximum permitted FAR on the lot is 4.8 FAR, the maximum
permitted community facility FAR on the lot is 1.0 FAR and
the existing community facility floor area is 15,019 sq. ft. (1.0
FAR); therefore, the community facility in the Main Building
cannot be increased as-of-right and the applicant seeks a
variance; and

WHEREAS, the applicant notes that the proposed
increase in community facility floor area is entirely within the
existing building envelope; and

WHEREAS, the applicant states that the School is
authorized under its charter to teach sixth, seventh and eighth
graders using a technology-based curriculum, including lab
periods and project development, to complement the
traditional middle school coursework in language arts,
mathematics, science, history, music, art, English-as-a-
Second-Language (“ESL”), and special education; and

WHEREAS, the applicant represents that it has a staff of
20 full-time employees and three part-time employees,
including eight full-time teachers, and it operates Monday
through Friday, from 8:00 a.m. to 5:00 p.m.; and

WHEREAS, however, the applicant states that due to
the School’s lack of program space, it can only accommodate
sixth and seventh grades (214 total students) in its 12
classrooms at the first (six classrooms) and third (six
classrooms) stories of the Main Building; and

WHEREAS, the applicant also states that the School has
experienced substantial growth since opening in September
2013 and that it anticipates enrollment of an additional 88
students in September 2014, which would bring enrollment to
302; and

MINUTES

WHEREAS, the applicant represents that the proposed enlargement will provide for four new classrooms and a gymnasium at the second story, which, along with other proposed as-of-right renovations within the Main Building cellar, will bring the total number of classrooms to 17; further, the School notes that the proposal will allow it to accommodate up to 330 students, which is the targeted number for the School under its charter; and

WHEREAS, the applicant represents that absent the requested variance, the School would lack sufficient space to meet its programmatic needs; and

WHEREAS, the applicant states that an as-of-right renovation that does not increase the community facility floor area would result in only 15 classrooms and no gymnasium, and it would result in the School's eighth graders being sent to another school; and

WHEREAS, the applicant represents that a gymnasium is essential to its program, in that its middle school-aged children benefit from, and are required under state law to, participate in daily physical activities; and

WHEREAS, the applicant states that without an onsite gymnasium, it would be forced to take students to a recreation facility offsite, which results in additional staffing costs and safety concerns, since students would be forced to leave campus; and

WHEREAS, as to the School's eighth graders being sent to a different school because of space constraints, the applicant asserts that such an occurrence would jeopardize the School's charter and negatively impact its existing students and create a hardship for their families; and

WHEREAS, the Board acknowledges that the School, as an educational institution, is entitled to significant deference under the law of the State of New York as to zoning and as to its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in Cornell Univ. v. Bagnardi, 68 N.Y.2d 583 (1986), an educational institution's application is to be permitted unless it can be shown to have an adverse effect upon the health, safety, or welfare of the community, and general concerns about traffic, and disruption of the residential character of a neighborhood are insufficient grounds for the denial of an application; and

WHEREAS, the Board finds that the School's programmatic needs are legitimate and agrees that the proposed enlargement is necessary to address its needs, given the current unique conditions that constrain the site; and

WHEREAS, accordingly, based on the above, the Board finds that the programmatic needs of the School create an unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, since the School is a non-profit educational institution and the variance is requested to further its non-profit mission, the finding set forth at ZR § 72-21(b) does not have to be made in order to grant the variance requested in this application; and

WHEREAS, the applicant represents that, per ZR § 72-21(c), the variance, if granted, will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the surrounding area is characterized by low- to medium-density residential and community facility uses, with commercial uses along major streets; and

WHEREAS, the applicant states that schools in particular are well-represented, and submitted a Land Use Study in support of that statement, which reflects that there are seven schools within three blocks of the site; and

WHEREAS, the applicant notes that the school already exists at the site and is permitted as-of-right in the subject R6 (C1-3) zoning district; and

WHEREAS, as to bulk, the applicant notes that the community facility enlargement authorized by the variance will occur entirely within the Main Building, which complies in all other respects with the bulk regulations, including residential and commercial floor area (as does the entire zoning lot); as such, the applicant states that the proposal will have no impact on surrounding uses; and

WHEREAS, as to the impact of reducing the number of accessory parking spaces on the zoning lot, the applicant states that the elimination of 19 parking spaces to accommodate the School's program space leaves the zoning lot with 38 spaces, which is four more than the minimum number required under ZR §§ 25-23 and 36-21; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant represents and the Board agrees that the hardship was not self-created and inherent in the unique programmatic needs of the School, in accordance with ZR § 72-21(d); and

WHEREAS, the applicant represents that, consistent with ZR § 72-21(e), the requested waiver is the minimum necessary to accommodate the programmatic needs of the School; and

WHEREAS, the Board finds that the requested relief is the minimum necessary to allow the School to fulfill its programmatic needs; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR §§ 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No. 13BSA113X, dated March 26, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land

MINUTES

Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, on a site within an R6 (C1-3) zoning district, the enlargement of an existing ten-story mixed residential, community facility and commercial building (Use Groups 2, 3, and 6) that does not comply with regulations regarding maximum community facility floor area ratio, contrary to ZR § 24-162, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received February 4, 2014"- Twelve (12) sheets"; *on further condition*:

THAT the community facility floor area will not exceed 22,219 sq. ft. (1.48 FAR) and that a minimum of 38 accessory parking spaces will be provided, as shown on the BSA-approved plans;

THAT construction will proceed in accordance with ZR § 72-23; and

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

HAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 25, 2014.

CEQR #13-BSA-138K

APPLICANT – Eric Palatnik, PC, for Williamsburg Workshop, LLC, owner; Romi Ventures, LLC, lessee.

SUBJECT – Application May 10, 2013 – Special Permit (§73-36) to permit the legalization of a physical culture establishment (*Soma Health Club*) contrary to §32-10. C4-3 zoning district.

PREMISES AFFECTED – 107 South 6th Street, between Berry Street and Bedford Avenue, Block 2456, Lot 34, Borough of Brooklyn.

COMMUNITY BOARD #1BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated April 10, 2013, acting on Department of Buildings Application No. 320522911, reads in pertinent part:

Proposed change of use to physical culture establishment is contrary to ZR 32-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located within a C4-3 zoning district, the legalization of an existing physical culture establishment ("PCE") in portions of the cellar, first, and second floors of an existing four-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on December 10, 2013, after due notice by publication in *The City Record*, with a continued hearing on January 28, 2014, and then to decision on February 25, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the north side of South 6th Street, between Berry Street and Bedford Avenue, within a C4-3 zoning district; and

WHEREAS, the site has 84.17 feet of frontage along South 6th Street and approximately 5,516 sq. ft. of lot area; and

WHEREAS, the site is occupied by a four-story commercial building; and

WHEREAS, the PCE occupies 5,516.35 sq. ft. of floor area on the first floor, 4,878 sq. ft. of floor area on the second floor, and an additional 5,516.35 sq. ft. of floor space in the cellar, for a total PCE floor space of 15,910.7 sq. ft.; and

WHEREAS, the applicant notes that the PCE has been

MINUTES

in operation since February 1, 2010; and

WHEREAS, the PCE is currently operated as Soma Health Club; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; the applicant states that massages will not be performed at the PCE; and

WHEREAS, the hours of operation for the PCE will be Monday through Thursday, from 5:30 a.m. to 11:00 p.m., Friday from 5:00 a.m. to 10:00 p.m., Saturday, from 7:00 a.m. to 8:00 p.m., and Sunday, from 8:00 a.m. to 8:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither alter the essential character of the surrounding neighborhood, nor impair the use or development of adjacent properties, nor be detrimental to the public welfare; and

WHEREAS, at hearing, the Board directed the applicant to clarify the status of: (1) the active vacate order on the building; and (2) the open DOB violations at the site; and

WHEREAS, in response, the applicant submitted a letter from the owner regarding the vacate order, which was issued for residential occupancy on the third and fourth floors of the building contrary to the certificate of occupancy and without a second means of egress; the owner represents that there has not been residential occupancy since 2011 and that, in November 2013, permits were obtained and work commenced on the restoration of the fire escape to the third and fourth floors and the demolition of the partitions and plumbing related to the residential occupancy; the owner also states that after the work has been completed, the vacate order will be rescinded; and

WHEREAS, as to the open violations, the applicant states that only three of the 18 violations are PCE-related, and that such violations will be resolved following the issuance of the special permit; the applicant notes that the other violations are related to the illegal residential occupancy; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the operation of the PCE without the special permit; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings

pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No. 13BSA138K, dated May 10, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located within a C4-3 zoning district, the legalization of an existing PCE in portions of the cellar, first, and second floors of an existing four-story commercial building, contrary to ZR § 32-10; *on condition* that all work will substantially conform to drawings filed with this application marked "Received October 16, 2013" – Five (5) sheets; and *on further condition*:

THAT the term of this grant will expire on February 1, 2020;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

MINUTES

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

220-13-BZ

APPLICANT – Law Office of Jay Goldstein, PLLC, for Yitzchok Perlstein, owner.

SUBJECT – Application July 22, 2013 – Special Permit (§73-622) for the enlargement of an existing single family home contrary to floor area and open space (§23-141(a)); side yard (§23-461) and less than the required rear yard (§23-47). R-2 zoning district.

PREMISES AFFECTED – 2115 Avenue J, north side of Avenue J between East 21st and East 22nd Street, Block 7585, Lot 3, Borough of Brooklyn.

COMMUNITY BOARD #14BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Otley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

WHEREAS, the decision of the Brooklyn Borough Commissioner of the New York City Department of Buildings (“DOB”), dated January 21, 2014, acting on DOB Application No. 320771660, reads in pertinent part:

1. Proposed floor area is contrary to ZR 23-141(a) in that the proposed FAR exceeds the permitted 0.50
2. Proposed open space is contrary to ZR 23-141(a) in that the proposed OSR is less than the required 150 percent
3. Plans are contrary to ZR 23-47 in that the proposed rear yard is less than 30’-0”;

WHEREAS, this is an application under ZR § 73-622, to permit, within an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio (“FAR”), open space ratio, and rear yard, contrary to ZR §§ 23-141 and 23-47; and

WHEREAS, a public hearing was held on this application on ***, after due notice by publication in *The City Record*, and then to decision on February 25, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Montanez, and Commissioner Otley-Brown; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the north side of Avenue J, between East 21st Street and East 22nd Street, within an R2 zoning district; and

WHEREAS, the site has a lot area of 5,000 sq. ft. and is occupied by a single-family home with a floor area of 3,885.72 sq. ft. (0.78 FAR); and

WHEREAS, the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant now seeks an increase in the floor area from of 3,885.72 sq. ft. (0.78 FAR) to 4,999.87 sq. ft. (1.0 FAR); the maximum permitted floor area is 2,500 sq. ft. (0.5 FAR); and

WHEREAS, the applicant seeks to reduce the open space ratio from 92 percent to 55 percent; the minimum required open space ratio is 150 percent; and

WHEREAS, the applicant also seeks to decrease its rear yard depth from 30’-8½” to 20’-0”;

WHEREAS, a minimum rear yard depth of 30’-0” is required; and
WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood and will not impair the future use or development of the surrounding area; and

WHEREAS, in particular, the applicant represents that the proposed 1.0 FAR is consistent with the bulk in the surrounding area and submitted an analysis indicating that there are eight homes within one block of the site with an FAR of 1.0 or greater; and

WHEREAS, at hearing, the Board directed the applicant to add notes to the plans indicating that porches and decks would be subject to the approval of DOB; and

WHEREAS, in response, the applicant submitted amended plans showing the required notes; and

WHEREAS, accordingly, the Board agrees with the applicant that the proposed bulk is compatible with the character of the neighborhood; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622, to permit, within an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for FAR, open space ratio, and rear yard, contrary to ZR §§ 23-141 and 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked “Received January 21,

MINUTES

2014”- twelve (12) sheets and “February 18, 2014” – one (1) sheet; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 4,999.87 sq. ft. (1.0 FAR), a minimum open space ratio of 55 percent, and a minimum rear yard depth of 20’-0”, as illustrated on the BSA-approved plans;

THAT porches, decks, and calculation of floor area will subject to the approval of DOB;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 25, 2014.

CEQR #14-BSA-043Q

APPLICANT – Rothkrug Rothkrug & Spector, LLP, for 78-14 Roosevelt LLC, owner; Blink 78-14 Roosevelt, Inc., lessee.

SUBJECT – Application September 18, 2013 – Special Permit (§73-36) to permit a physical culture establishment (*Blink Fitness*) within a portions of an existing commercial building. C2-3/R6 & R5 zoning district.

PREMISES AFFECTED – 78-02/14 Roosevelt Avenue aka 40-41 78th Street and 40-02 79th Street, south side of Roosevelt Avenue between 78th Street and 79th Street, Block 1489, Lot 7501, Borough of Queens.

COMMUNITY BOARD #4Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated September 11, 2013, acting on Department of Buildings (“DOB”) Application No. 420894223, reads in pertinent part:

Proposed physical culture establishment in C2-3 zoning district is contrary to ZR 32-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located partially within a C2-3 (R6) zoning district and partially within an R5 zoning district, the operation of a physical culture establishment

(“PCE”) on portions of the first and second floors of a two-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on February 4, 2014, after due notice by publication in *The City Record*, and then to decision on February 25, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Montanez; and

WHEREAS, the subject site is an irregularly-shaped lot occupying the entire block frontage on the south side of Roosevelt Avenue between 78th Street and 79th Street, partially within a C2-3 (R6) zoning district and partially within an R5 zoning district; and

WHEREAS, the site has 150 feet of frontage along 78th Street, 238.45 feet of frontage along Roosevelt Avenue, 100 feet of frontage along 79th Street, and 29,767 sq. ft. of lot area; and

WHEREAS, the site is occupied by a two-story commercial building, a portion of which was enlarged pursuant to a grant from the Board under BSA Cal. No. 496-23-BZ, which also authorized the use of the building for public parking; and

WHEREAS, the applicant notes that, per Certificate of Occupancy No. 212624, issued July 18, 1990, the lawful use of the building is for retail stores and offices (Use Group 6) and three accessory parking spaces; and

WHEREAS, the proposed PCE will occupy 524 sq. ft. of floor area on the first floor and 15,779 sq. ft. of floor area on the second floor; and

WHEREAS, the applicant represents that no portion of the PCE will operate within the R5 portion of the site; and

WHEREAS, the PCE will be operated as Blink Fitness; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE are Monday through Saturday, from 5:30 a.m. to 11:00 p.m., and Sunday from 7:00 a.m. to 9:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, at hearing, the Board directed the applicant to amend the plans to clearly show that the proposed use and signage are entirely outside the R5 portion of the site, and that the signage is in compliance with the C2-

MINUTES

3 regulations for accessory signs; and

WHEREAS, in response, the applicant submitted amended plans showing compliant signage; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; however, the Board has reduced the term of the grant to reflect the period of time that the PCE operated without the special permit; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No. 14BSA043Q dated September 16, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issued a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located partially within a C2-3 (R6) zoning district and partially within an R5 zoning district, the operation of a PCE on portions of the first and second floors of a two-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received December 12, 2013" – Four (4) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on February 25, 2024;

THAT the entrance to the PCE and all signage for the PCE will be restricted to the C2-3 (R6) portion of the site;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 25, 2014.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated February 26, 2013 acting on Department of Buildings Application No. 320704877, reads in pertinent part:

The proposed enlargement of the existing one family residence:

4. Creates non-compliance with respect to floor area by exceeding the allowable floor area ratio and is contrary to Section 23-141;
5. Creates non-compliance with respect to the open space ratio and is contrary to Section 23-141;
6. Creates non-compliance with respect to rear yard by not meeting the minimum requirements of Section 23-47; and

WHEREAS, this is an application under ZR §§ 73-622 and 73-03, to permit, within an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio (“FAR”), open space, and rear yard, contrary to ZR §§ 23-141 and 23-47; and

WHEREAS, a public hearing was held on this application on July 16, 2013, after due notice by publication in *The City Record*, with a continued hearing on August 13, 2013, and then to decision on September 10, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Montanez; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of Bedford Avenue, between Avenue I and Avenue J, within an R2 zoning district; and

WHEREAS, the site has a lot area of 6,000 sq. ft. and is occupied by a single-family home with a floor area of 2,393 sq. ft. (0.4 FAR); and

WHEREAS, the premises is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks an increase in the floor area from 2,393 sq. ft. (0.40 FAR) to 5,994 sq. ft. (1.0 FAR); the maximum permitted floor area is 3,000 sq. ft. (0.50 FAR); and

WHEREAS, the applicant also proposes to increase its non-complying rear yard depth from 19’-8¾” to 20’-0” (a minimum rear yard depth of 30’-0” is required) and reduce its open space from 177 percent to 54 percent (a minimum open space of 150 percent is required); and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood and will not impair the future use or development of the surrounding area; and

WHEREAS, the Board agrees with the applicant that the proposed bulk is in keeping with the character of the neighborhood; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-622 and 73-03.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-622 and 73-03, to permit, within an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio (“FAR”), open space, and rear yard, contrary to ZR §§23-141 and 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked “Received June 19, 2013”- (2) sheets and “July 29, 2013”-(10) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 5,994 sq. ft. (1.0 FAR), a

MINUTES

minimum open space of 54 percent, and a minimum rear yard depth of 20'-0", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, September 10, 2013.

***The resolution has been corrected to indicate that the approved floor area is 5,994 sq. ft . Corrected in Bulletin Nos. 8-9, Vol. 99, dated March 6, 2014.**

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated June 6, 2013, acting on Department of Buildings (“DOB”) Application No. 121094813, reads in pertinent part:

Physical culture establishment is not permitted as-of-right in a C6-4A zoning district and is contrary to ZR 32-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in a C6-4A zoning district within the Ladies’ Mile Historic District, the legalization of a physical culture establishment (“PCE”) on the second floor of a 12-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on January 14, 2014 after due notice by publication in *The City Record*, and then to decision on February 4, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, Community Board 5 Manhattan, expresses no objection to this application; and

WHEREAS, the subject site is located on the south side of West 21st Street, between Fifth Avenue and Avenue of the Americas, within a C6-4A zoning district within the Ladies’ Mile Historic District; and

WHEREAS, the site has approximately 50.5 feet of frontage along West 21st Street, and 4,646 sq. ft. of lot area; and

MINUTES

WHEREAS, the site is occupied by a 12-story commercial building with 54,220 sq. ft. of floor area (11.67 FAR); and

WHEREAS, the PCE occupies approximately 4,242 sq. ft. of floor area on the second floor of the building; and

WHEREAS, the PCE began operation as New York Personal Training Fitness Studio on January 1, 2008; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE are seven days per week, 24 hours per day; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Landmarks Preservation Commission has issued a Certificate of No Effect for the interior alterations and the exterior signage, dated October 2, 2013; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; however, the Board has reduced the term of the grant to reflect the period of time that the PCE operated without the special permit; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No. 14BSA005M dated July 8, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issued a Type I Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located in a C6-4A zoning district within the Ladies' Mile Historic District, the legalization of a PCE on the second floor of an 12-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received November 6, 2013" – Four (4) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on January 1, 2018;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 4, 2014.

***The resolution has been revised to correct the Owner's name and to remove the extra hyphen in the zoning district. Corrected in Bulletin Nos. 8-9, Vol. 99, dated March 6, 2014.**

MINUTES

**REGULAR MEETING
TUESDAY MORNING, MARCH 4, 2014
10:00 A.M.**

Present: Chair Srinivasan, Vice-Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez.

SPECIAL ORDER CALENDAR

13-78-BZ

APPLICANT – Sheldon Lobel, P.C., for 2K Properties Inc., owner.

SUBJECT – Application July 23, 2013 – Extension of Term of a previously granted Variance (§72-21) for the continued operation of a plumbing supply establishment (*Jamaica Plumbing and Heating Supply, Inc.*) which expired on June 27, 2013. R4-1 & R6A/C2-4 zoning districts.

PREMISES AFFECTED – 144-20 Liberty Avenue, east side of Liberty Avenue between Inwood Street and Pinegrove Street, Block 10043, Lot 6, Borough of Queens.

COMMUNITY BOARD #12Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of term for the continued operation of a plumbing supply establishment (Use Group 17) with accessory parking partially within an R6A (C2-4) zoning district and partially within an R4-1 zoning district, which expired on June 27, 2013; and

WHEREAS, a public hearing was held on this application on January 14, 2014, after due notice by publication in *The City Record*, with a continued hearing on February 11, 2014, and then to decision on March 4, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 12, Queens, recommends approval of this application; and

WHEREAS, Queens Borough President Helen Marshall recommends approval of this application; and

WHEREAS, the subject site is an irregular lot located on the east side of Liberty Avenue, between Pinegrove Street and Inwood Street, partially within an R6A (C2-4) zoning district and partially within an R4-1 zoning district; and

WHEREAS, the site has 10,654 sq. ft. of lot area and is occupied by a one-story, plumbing supply establishment with

7,897 sq. ft. of floor area (0.74 FAR) and accessory parking; and

WHEREAS, the Board has exercised jurisdiction over the site since June 27, 1978, when, under the subject calendar number, the Board granted a variance permitting the construction of a one-story enlargement to an existing plumbing supply establishment with accessory storage of supplies within an R4 zoning district, contrary to use regulations and for a term of ten years, to expire on June 27, 1988; and

WHEREAS, subsequently, the grant was amended and the term was extended, most recently on February 11, 2003, when the Board extended the term of the variance for ten years, to expire on June 27, 2013; and

WHEREAS, the applicant now requests an extension of the term for 20 years; and

WHEREAS, the applicant notes that the site has been rezoned to permit certain commercial uses as-of-right; as such, while the plumbing supply equipment establishment remains non-conforming, it is now more compatible with the surrounding neighborhood than it was when it was originally authorized by the Board; and

WHEREAS, pursuant to ZR §§ 72-01 and 72-22, the Board may extend the term of a variance; and

WHEREAS, at hearing, the Board directed the applicant to: (1) notify neighbors within 200 feet of the site that a 20-year term was sought; and (2) remove illegal signage at the site; and

WHEREAS, in response, the applicant submitted: (1) proof of notification of neighbors; and (2) photographs and a signage analysis demonstrating compliance with prior BSA-approved plans; and

WHEREAS, the Board has reviewed the application and has determined that this application is appropriate to grant, with certain conditions.

Therefore it is Resolved, that the Board of Standards and Appeals reopens and amends the resolution, as adopted on June 27, 1978, so that as amended this portion of the resolution will read: “to grant an extension of the variance for a term of 20 years from the prior expiration, to expire on June 27, 2033, *on condition* that that any and all work shall substantially conform to drawings filed with this application marked “Received January 28, 2014”- (3) sheets; and *on further condition*;

THAT the term of the variance will expire on June 27, 2033;

THAT the above condition will be listed on the certificate of occupancy;

THAT an amended certificate of occupancy will be obtained by March 4, 2015;

THAT all conditions from prior resolutions not waived herein by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the

MINUTES

Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB App. No. 420837081)

Adopted by the Board of Standards and Appeals, March 4, 2014.

5-28-BZ

APPLICANT – Eric Palatnik, P.C., for Steven Feldman, owner; Anwar Ismael, lessee.

SUBJECT – Application August 20, 2013 – Amendment (§11-413) of a previously approved variance which permitted the operation of an automotive service station (UG 16B). The amendment seeks to change the use to a car rental establishment (UG 8). R6 zoning district.

PREMISES AFFECTED – 664 New York Avenue, west side of New York Avenue, spanning the entire length of the block between Hawthorne Street and Winthrop Street, Block 4819, Lot 39, Borough of Brooklyn.

Proposed rear yard contrary to ZR 24-36;

Proposed sky exposure plane contrary to ZR 24-521;

Proposed building does not provide parking contrary to ZR 25-31; and

WHEREAS, this is an application for a variance pursuant to ZR § 72-21 to permit, on a site within an R3-2 zoning district, the construction of a four-story building to be occupied by a synagogue (Use Group 3) and a school (Use Group 4), which does not comply with the underlying zoning district regulations for floor area, lot coverage, side yard, rear yard, sky-exposure plane, and parking, contrary to ZR §§ 24-11, 24-35, 24-36, 24-521, and 25-31; and

WHEREAS, a public hearing was held on this application on September 17, 2013, after due notice by publication in *The City Record*, with continued hearings on October 29, 2013, December 10, 2013 and January 14, 2014, and then to decision on March 4, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 18, Brooklyn, recommends approval of the application; and

WHEREAS, certain members of the surrounding community, including a representative of the Marine Park

MINUTES

Civic Association, submitted testimony in opposition to the application, citing concerns about: the height, bulk, and rear windows of the building; the effect of construction on neighboring soil; and increases in traffic and garbage; and

WHEREAS, this application is being brought on behalf of Yeshiva Ohr Yisrael of Marine Park (the "Congregation"), a non-profit religious entity which will occupy the proposed building; and

WHEREAS, the subject site is located on the northeast corner of the intersection of Madison Place and Nostrand Avenue, within an R3-2 zoning district; and

WHEREAS, the site has approximately 91 feet of frontage along Nostrand Avenue and 5,440 sq. ft. of lot area; and

WHEREAS, the site is occupied by a one-story community facility building with approximately 4,228 sq. ft. of floor area; and

WHEREAS, the applicant states that the Congregation uses the existing building at the site as a synagogue and school in conjunction with a nearby facility located at 2940 Avenue P; and

WHEREAS, the applicant represents that the existing facilities are unable to accommodate the growing religious and educational needs of the Congregation; as such, the Congregation seeks to develop the site with a new integrated synagogue and educational facility; and

WHEREAS, the applicant states that the proposal will result in a building with the following parameters: four stories; a floor area of 20,420 sq. ft. (3.75 FAR) (a maximum community facility floor area of 5,440 sq. ft. (1.0 FAR) is permitted); a lot coverage of 100 percent (the maximum permitted lot coverage is 60 percent); no side yards (two side yards with minimum widths of 9.18 feet are required); a rear setback of 15 feet at the third and fourth stories (a minimum rear yard depth of 30 feet is required; however, such yard may be provided above a one-story community facility with a maximum height of 23 feet); a front wall height of 52 feet with no setback (a front setback above 25 feet and a 1-to-1 sky exposure plane are required) and no parking spaces (a minimum of 21 parking spaces are required); and

WHEREAS, under the current application, the applicant initially proposed a five-story building with 27,200 sq. ft. of floor area (5.0 FAR), no rear setback, a front wall height of 70 feet, and a gymnasium with a floor-to-ceiling height of 18 feet; and

WHEREAS, however, in response to concerns raised by the Board at public hearing, the applicant reduced the FAR and building height, provided a rear setback of 15 feet at the third and fourth stories, and replaced the gymnasium with an outdoor rooftop recreation space; and

WHEREAS, the proposal provides for the following uses: (1) main sanctuary (which also serves as a postgraduate study hall), restrooms, lobby, coat rooms, pantry, rabbi's study, and offices at the first story; (2) women's balcony, three college-level Shiur classrooms, teachers' lounge, offices, kitchenette (warming pantry), and restrooms at the second

story; (3) a study room, open lounge area, restroom, and one Shiur room at the third story; (4) six classrooms (including a science and computer lab), an office and restrooms at the fourth story; and (5) atop the fourth story roof, a fenced recreation area; and

WHEREAS, the applicant states that the following are the primary programmatic needs of the Congregation which necessitate the requested variances: (1) to accommodate the growing congregation currently of approximately 200 members; (2) to provide a separate worship space for male and female congregants; (3) to locate the synagogue within the Marine Park neighborhood, which allows congregants to walk to services, as required for reasons of religious observance; (4) to provide space for hosting special events for congregants, such as Bar/Bat Mitzvahs; (5) to provide an integrated educational facility for high school, college and post-graduate studies; and (6) to consolidate the recreation space for the school, which is currently dispersed among three rented sites; and

WHEREAS, the applicant states that it currently operates a four-year college offering a degree in Talmudic Studies at the existing building at the site, and that it has operated the college for approximately ten years; and

WHEREAS, the applicant states that the enrollment of the college is approximately 80 students (approximately 20 per class), and that although it expects only modest growth in the coming years, the existing building at the site is wholly unsuitable due to its limited space and dual use as a synagogue; and

WHEREAS, in addition, the applicant states that in 2012, the Congregation started a high school program at its Avenue P facility; the high school began with 20 ninth graders and is anticipated to increase in enrollment each year until a full, four-year high school is operating with approximately 80 students; and

WHEREAS, the applicant represents that the proposal will also provide: (1) a secure place where students can enjoy an educational experience that is carefully designed to develop their intellectual and social skills; (2) a safe place where students can engage in activities and special projects, and develop positive character traits, including teamwork, respect for others, self-discipline, and individual responsibility; (3) an institution for advanced religious learning; and (4) a community center where families can spend time together in an environment that is respectful of their religious identity; and

WHEREAS, the applicant states that the as-of-right building would have only two stories and 5,440 sq. ft. of floor area (1.0 FAR), and be only marginally better than the current one-story facility, which only has 4,228 sq. ft. of floor area (0.8 FAR) and is far too small to satisfy the Congregation's programmatic needs; and

WHEREAS, likewise, the applicant explored the feasibility of a lesser variance scenario in which the floor-to-floor heights were reduced in order to bring the building height to 49 feet; however, this scenario resulted in floor-to-ceiling heights of eight feet, which, the applicant notes would

MINUTES

be well below the standard heights for classrooms according to the School Construction Authority; and

WHEREAS, the applicant states that the floor area, lot coverage, yards, and sky-exposure plane waivers allow for the double-height ceiling of the main sanctuary (which is necessary to create a space for worship and respect), an adequate ceiling height for the second story women's balcony, and sufficient program space (classrooms, offices, and study areas) for the Congregation to carry out its educational programs, as described above; and

WHEREAS, as to parking, the applicant states that 88 percent of the congregation lives within a three-quarter-mile radius of the site, which exceeds the 75 percent required under ZR § 25-35 to satisfy the City Planning Commission certification waiving parking for a locally-oriented house of worship; and

WHEREAS, therefore, the applicant states that the requested waivers are necessary to provide enough space to meet the programmatic needs of the congregation; and

WHEREAS, the Board acknowledges that the Congregation, as a religious institution, is entitled to significant deference under the law of the State of New York as to zoning and as to its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in Westchester Reform Temple v. Brown, 22 NY2d 488 (1968), a religious institution's application is to be permitted unless it can be shown to have an adverse effect upon the health, safety, or welfare of the community, and general concerns about traffic and disruption of the residential character of a neighborhood are insufficient grounds for the denial of an application; and

WHEREAS, based upon the above, the Board finds that the programmatic needs of the Congregation create unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations, in accordance with ZR § 72-21(a); and

WHEREAS, the applicant need not address ZR § 72-21(b) since the Congregation is a not-for-profit organization and the proposed development will be in furtherance of its not-for-profit mission; and

WHEREAS, the applicant represents that, per ZR § 72-21(c), the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the surrounding area is characterized by its diversity, both in terms of use and bulk; and

WHEREAS, the applicant states, that Nostrand Avenue, the main local thoroughfare in the vicinity, is zoned R3-2, R4 and R5 and there are a variety of commercial overlays, resulting in a mixture of residential, community facility and commercial uses, including several multiple dwellings and mixed use buildings; and

WHEREAS, the applicant notes that that the proposed use is permitted as-of-right in the subject zoning district and that, as such, only bulk waivers are necessary; and

WHEREAS, as to bulk, the applicant identified several buildings in the immediate vicinity that are similar in bulk to the proposed building, including: (1) the four- and seven-story multiple dwellings that are directly across Nostrand Avenue from the site, which do not provide side yards (the four-story building was authorized by variance from the Board under BSA Cal. No. 25-06-BZ); (2) the Kingsway Jewish Center at the intersection of Nostrand Avenue and Kings Highway (a sprawling campus of two-, three- and four-story buildings); (3) five- and six-story multiple dwellings and mixed use buildings along Kings Highway; and (4) the Madison Jewish Center, which has a (non-complying) floor area of 24,107 sq. ft. (0.74 FAR); and

WHEREAS, as to the immediately adjacent uses, the applicant states that a car wash facility is directly north of the site, a light manufacturing building (wood flooring) is directly south, and east of the site, are accessory garages and rear yards of the two-story residences that front on Marine Parkway; and

WHEREAS, as to yards, the applicant notes that the side yard and front yard conditions were existing longstanding non-compliances with the historic commercial use of the site; and

WHEREAS, as to parking, the applicant notes that the majority of congregants will walk to the site and that there is not any demand for parking; and

WHEREAS, further, as noted above, the applicant represents that 88 percent of congregants live within a three-quarter-mile radius of the site and thus are within the spirit of City Planning's parking waiver for houses of worship; and

WHEREAS, the Board notes that, based on the applicant's representation, this proposal would meet the requirements for a parking waiver at the City Planning Commission, pursuant to ZR § 25-35 (Waiver for Locally Oriented Houses of Worship); and

WHEREAS, in support of this assertion, the applicant submitted evidence reflecting that at least 88 percent of the congregants live within three-quarters of a mile of the subject site; and

WHEREAS, in response to concerns raised by community residents and neighbors, at hearing, the Board directed the applicant to clarify the following aspects of the application: (1) the condition of the residential yards to the rear of the site; (2) whether there would be roof access above the second story roof; (3) how garbage will be stored and collected; (4) the occupant loads of the various spaces; and (5) the extent of soil disturbance proposed; and

WHEREAS, in response, the applicant provided: (1) clear photographs showing the condition of the abutting residential yards; (2) amended plans showing the elimination of the door to the second story roof, a garbage storage room at the first story, and occupant loads for all rooms; and (3) a report from an environmental consultant, which indicates that contamination from the adjacent site could not have affected the soil at the site; and

WHEREAS, in addition, the applicant represents that garbage collection will occur no fewer than three times per week (two City collections and one from a private hauler);

MINUTES

and

WHEREAS, accordingly, the Board finds that this action will neither alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that, per ZR § 72-21(d), the hardship was not self-created and that no development that would meet the programmatic needs of the Congregation could occur on the existing lot; and

WHEREAS, accordingly, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, as noted above, through the hearing process, the proposal was reduced in height and floor area and was modified in order to minimize its impacts on adjacent uses; accordingly, the Board finds that, consistent with ZR § 72-21(e), the requested waivers are the minimum necessary to afford the Congregation the relief needed to meet its programmatic needs; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 13BSA079K, dated January 11, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, on a site within an R3-2 zoning district, the construction of a four-story building to be occupied by a synagogue (Use Group 3) and a school (Use Group 4), which does not comply with the underlying zoning

district regulations for floor area, lot coverage, side yard, rear yard, sky-exposure plane, and parking, contrary to ZR §§ 24-11, 24-35, 24-36, 24-521, and 25-31; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received January 28, 2014" – Ten (10) sheets; and *on further condition*:

THAT the building parameters will be: four stories; a maximum floor area of 20,420 sq. ft. (3.75 FAR); a maximum wall height of 52 feet; and a rear setback with a minimum depth of 15 feet at the third and fourth stories, as illustrated on the BSA-approved plans;

THAT any change in use or ownership of the building will require the prior approval of the Board;

THAT the use will be limited to a school (Use Group 3) and a house of worship (Use Group 4);

THAT no commercial catering will take place onsite;

THAT garbage will be stored within the building until pickup;

THAT the above conditions will be listed on the certificate of occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT construction will proceed in accordance with ZR § 72-23; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 4, 2014.

Negative:.....0

THE RESOLUTION –

MINUTES

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated January 24, 2013, acting on Department of Buildings Application No. 310072818, reads, in pertinent part:

ZR 42-00 – Residential use is not permitted in manufacturing district; and

WHEREAS, this is an application under ZR § 72-21, to permit, partially within an M1-1 zoning district and partially within an R7A (C2-4) zoning district, the construction of a four-story residential building (Use Group 2), contrary to ZR § 42-00; and

WHEREAS, a public hearing was held on this application on August 20, 2013, after due notice by publication in the *City Record*, with a continued hearing on September 24, 2013, and then to decision on March 4, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 3, Brooklyn, recommends disapproval of this application; and

WHEREAS, Councilperson Letitia James submitted a letter in support of this application; and

WHEREAS, the subject site is a rectangular lot located on the west side of Kent Avenue between Myrtle Avenue and Park Avenue, partially within an M1-1 zoning district and partially within an R7A (C2-4) zoning district; and

WHEREAS, the site has 25 feet of frontage along Kent Avenue, a lot depth of 90 feet, and a lot area of 2,250 sq. ft.; and

WHEREAS, the applicant states that the site is now vacant, but was previously occupied by a three-story mixed residential and commercial building that was built in or around 1905 and demolished in 2003; and

WHEREAS, the applicant notes that a variance application was filed for the site in 2008, under BSA Cal. No. 238-08-BZ; such application was dismissed for lack of prosecution on February 23, 2010; however, on July 24, 2012, the Board granted a rehearing of the application based on the applicant's revision of the proposal to comply with the R6 regulations with regard to floor area ratio, rear setback, and street wall location; and

WHEREAS, the applicant represents that the proposed residential building (Use Group 2), will have a floor area of 4,930.2 sq. ft. (2.2 FAR), a building height of 48'-11", a rear yard depth of 33'-0", and four dwelling units; and

WHEREAS, initially, the applicant proposed a building with a floor area of 5,680 sq. ft. (2.52 FAR) and a height of 53'-11"; and

WHEREAS, the applicant notes that Use Group 2 is not permitted in an M1-1 zoning district and that 65 percent of the site is within the M1-1 district and 35 percent of the site is within the R7A (C2-4) district; as such, ZR § 77-11, cannot be employed to extend the R7A (C2-4) use regulations to the M1-1 portion of the site; and

WHEREAS, accordingly, the applicant seeks a use

variance; and

WHEREAS, the applicant states that, per ZR § 72-21(a), the following are unique physical conditions which create an unnecessary hardship in developing the site in conformance with applicable regulations: (1) the lot's small size, shallow depth, and narrow width; (2) the adjacency of residential uses; (3) the district boundary, which divides the lot; and (4) the inability to merge the site with adjacent lots; and

WHEREAS, the applicant asserts that the site is small (2,250 sq. ft. of lot area), shallow (90 feet), and narrow (25 feet); and

WHEREAS, as such, the applicant asserts that it would be impractical to develop the site with a modern manufacturing use, which requires significantly larger floorplates than the site would yield; and

WHEREAS, the applicant notes that the site is the smallest and shallowest lot within a 400-foot radius in the subject M1-1 zoning district with frontage along Kent Avenue; and

WHEREAS, the applicant states that the infeasibility of establishing a manufacturing use on an undersized lot is compounded by the difficulties in locating such use on a site surrounded by residential neighbors; and

WHEREAS, in particular, the applicant states that the four adjacent buildings to the site and the building directly across the street contain residences; and

WHEREAS, the applicant states that the site is also uniquely burdened by being divided by the district boundary between an M1-1 zoning district (where the proposed use is not permitted as-of-right) and an R7A (C2-4) zoning district (where the proposed use is permitted as-of-right); and

WHEREAS, the applicant notes that while ZR § 77-11 typically affords relief for a split lot by allowing the use regulations of one district to extend to the other, such section would not allow for the proposed residential use, because less than 50 percent of the lot is within the R7A (C2-4) zoning district; and

WHEREAS, finally, the applicant asserts that the site is burdened by its inability to merge with another lot, which, when combined with its narrowness, shallowness, absence of an existing building, and split-lot condition, is unique in the subject M1-1 zoning district; and

WHEREAS, specifically, the applicant states that, of the 244 lots within the subject M1-1 zoning district, there are only 43 lots (including the site) that contain vacant or open parking uses; of these 43 lots, there are only 35 lots (including the site) with a lot width of 25 feet or less, 22 lots (including the site) with a lot depth of 90 feet or less, 19 lots (including the site) that have no potential to merge with the adjacent lots, and only two lots (including the site) that are split lots; and

WHEREAS, consequently, the applicant states that the site's unique physical conditions—its small lot size and shallow lot depth, the adjacency of residential uses, the split-lot condition, and the inability to merge—create an unnecessary hardship in developing the site in conformance with applicable regulations; and

WHEREAS, based upon the above, the Board finds that

MINUTES

the aforementioned unique physical conditions, when considered in the aggregate, create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant asserts that, per ZR § 72-21(b), there is no reasonable possibility that the development of the site in conformance with the Zoning Resolution will bring a reasonable return; and

WHEREAS, in particular, in addition to the proposed residential building with 2.2 FAR and the original proposal with 2.52 FAR, the applicant examined the economic feasibility of a two-story as-of-right manufacturing building with 2,250 sq. ft. of floor area; and

WHEREAS, the applicant concluded that the as-of-right scenario does not result in an acceptable rate of return; and

WHEREAS, based upon its review of the applicant's economic analysis, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, the applicant states that the immediate area is characterized by a mix of medium density residential, commercial, and community facility uses, including a six-story mixed residential and commercial building and three-story mixed residential and commercial building to the south, a four-story residential building to the west, a three-story mixed residential and commercial building to the north, and a three-story residential building directly across the street; in addition, the applicant notes that there is a five-story school (PS 157) on the block, and a large park (Taaffe Playground) that occupies the majority of the block immediately to the west of the site; and

WHEREAS, the applicant states, as noted above, that the site has historically been occupied by residential uses and that, as such, the proposal would restore a viable use; and

WHEREAS, likewise, the applicant asserts that the area within a 400-foot radius of the site has limited industrial uses, and, therefore, a conforming use would be less appropriate than the proposal; and

WHEREAS, the Board agrees that the character of the area is predominantly residential, and it finds that the introduction of four dwelling units does not impact nearby conforming uses; and

WHEREAS, as to bulk, at hearing, the Board expressed concerns about the compatibility of the originally proposed building height, street wall location, and attic with the surrounding area; and

WHEREAS, in response, the applicant amended its proposal, lowering the building height from 53'-11" to 48'-

11", moving the street wall forward 5'-0" to align with the adjacent building's street wall, and removing the attic entirely, thereby reducing the proposed floor area from 5,680 sq. ft. (2.52 FAR) to 4,930 sq. ft. (2.2 FAR); and

WHEREAS, the applicant notes that the proposed building, as modified, complies with the floor area, height and setback regulations for an R6 zoning district; as such, it provides an appropriate transition from the higher bulk of the R7A (C2-4) zoning district along Myrtle Avenue to the three-story building to the north of the site, which has a height of approximately 30'-0"; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that, consistent with ZR § 72-21(d), the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the site's small lot size, shallow lot depth, adjacency of residential uses, split-lot condition, and inability to merge; and

WHEREAS, finally, the Board finds that, as amended, the proposal is the minimum variance necessary to afford relief, as set forth in ZR § 72-21(e); and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617 and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 13BSA103K, dated February 28, 2014; and

WHEREAS, the EAS documents show that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the New York City Department of Environmental Protection's ("DEP") Bureau of Environmental Planning and Analysis reviewed the project for potential hazardous materials and air quality impacts; and

WHEREAS, DEP reviewed and accepted the December 2013 Remedial Action Plan and the October 2012 site-specific Construction Health and Safety Plan; and

WHEREAS, DEP requested that a P.E.-certified Remedial Closure Report be submitted to DEP for review and approval upon completion of the proposed project; and

WHEREAS, DEP reviewed the applicant's air quality assessment and determined that no significant stationary, mobile, and industrial source air quality impacts to the

MINUTES

proposed project are anticipated; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, partially within an M1-1 zoning district and partially within an R7A (C2-4) zoning district, the construction of four-story residential building (Use Group 2), contrary to ZR § 42-00, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received "October 16, 2013"- Twelve (12) sheets; and *on further condition*:

THAT the following are the bulk parameters of the proposed building: a floor area of 4,930.2 sq. ft. (2.2 FAR), a building height of 48'-11", a rear yard depth of 33 feet, and four dwelling units, as illustrated on the BSA-approved plans;

THAT substantial construction will be completed in accordance with ZR § 72-23;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT DOB will not issue a Certificate of Occupancy until the applicant has provided it with DEP's approval of the Remedial Closure Report;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 4, 2014.

APPLICANT – Lawrence M. Gerson, Esq., for Allied Austin LLC, owner; American United Company, LLC, lessee.

SUBJECT – Application March 14, 2013 – Special Permit (§73-36) to allow the legalization of a physical culture establishment (*Title Boxing Club*) within an existing building. C2-3/R5D zoning district.

PREMISES AFFECTED – 69-40 Austin Street, south side of Austin Street, 299' east of intersection with 69th Avenue, Block 3234, Lot 150, Borough of Queens.

COMMUNITY BOARD #6Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated August 20, 2013, acting on Department of Buildings ("DOB") Application No. 420803884, reads in pertinent part:

Proposed conversion of retail store into boxing center is not permitted as-of-right in a C2-3 (R5D) zoning district; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located within a C2-3 (R5D) zoning district, the legalization of an existing physical culture establishment ("PCE") in a portions of the first floor of an existing two-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on February 11, 2014, after due notice by publication in *The City Record*, and then to decision on March 4, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Ottley-Brown; and

WHEREAS, Community Board 6, Queens, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of Austin Street, between 69th Avenue and 70th Avenue, within a C2-3 (R5D) zoning district; and

WHEREAS, the site has approximately 411 feet of frontage along Austin Street and approximately 42,773 sq. ft. of lot area; and

WHEREAS, the site is occupied by a two-story commercial building with approximately 81,269 sq. ft. of floor area (1.9 FAR); and

WHEREAS, the PCE occupies 5,834 sq. ft. of floor area on the first floor of the building; and

WHEREAS, the applicant notes that the PCE has been in operation since June 1, 2013; and

WHEREAS, the PCE is currently operated as Title Boxing Club; and

WHEREAS, the applicant represents that the services at the PCE include facilities for instruction and programs for physical improvement; the applicant states that massages will not be performed at the PCE; and

WHEREAS, the hours of operation for the PCE will be Monday through Friday, from 5:30 a.m. to 10:00 p.m., and Saturday and Sunday, from 7:30 a.m. to 6:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be

MINUTES

satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the operation of the PCE without the special permit; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No. 13BSA111Q, dated March 14, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located within a C2-3 (R5D) zoning district, the legalization of an existing physical culture establishment (“PCE”) in a portion of the first floor of an existing two-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received December 3, 2013 ” – Four (4) sheets; and *on further condition*:

THAT the term of this grant will expire on June 1, 2023;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 4, 2014.

128-13-BZ

APPLICANT – Sheldon Lobel, PC, for Zev and Renee Marmustein, owner.

SUBJECT – Application May 3, 2013 – Special Permit (§73-622) for the enlargement of an existing single family home, contrary to floor area, open space and lot coverage (§23-141(b)); side yards (§23-461(a)); less than the required rear yard (§23-47) and perimeter wall height (§23-631(b)) regulations. R3-2 zoning district.

PREMISES AFFECTED – 1668 East 28th Street, west side of East 28th Street 200' north of the intersection formed by East 28th Street and Quentin Road, Block 6790, Lot 23, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner of the New York City Department of Buildings (“DOB”), dated April 16, 2013, acting on DOB Application No. 301408046, reads in pertinent part:

1. Proposed plans are contrary to ZR § 23-141(b), in that the proposed floor area ratio exceeds the maximum permitted;

MINUTES

2. Proposed plans are contrary to ZR § 23-141(b), in that the open space provided is less than the minimum required;
3. Proposed plans are contrary to ZR § 23-141(b), in that the lot coverage proposed exceeds the maximum permitted;
4. Proposed plans are contrary to ZR § 23-461(a) in that the proposed enlargement increases the degree of non-compliance with respect to the minimum required side yards;
5. Proposed plans are contrary to ZR § 23-47, in that the proposed enlargement increases the degree of non-compliance with respect to the minimum required rear yard;
6. Proposed plans are contrary to ZR § 23-631(b), in that the proposed enlargement increases the degree of non-compliance with respect to the maximum permitted wall height; and

WHEREAS, this is an application under ZR § 73-622, to permit, within an R3-2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio ("FAR"), open space ratio, lot coverage, side yards, rear yard, and perimeter wall height, contrary to ZR §§ 23-141, 23-461, 23-47 and 23-631; and

WHEREAS, a public hearing was held on this application on December 17, 2013, after due notice by publication in *The City Record*, with a continued hearing on January 28, 2014, and then to decision on March 4, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn, recommends disapproval of the original the application; and

WHEREAS, certain members of the surrounding community testified in opposition to this application (the "Opposition"), alleging that the proposed floor area (4,988 sq. ft. (1.0 FAR)) and absence of a side yard along the north side of the site (which was an extension of an existing zero lot line condition) were inconsistent with the character of the neighborhood; and

WHEREAS, in response, the applicant reduced the floor area from 4,988 sq. ft. (1.0 FAR) to 4,885 sq. ft. (0.98 FAR), eliminated the zero lot line condition, and provided a side yard with a minimum width of 3'-8¾", which the Opposition found acceptable; as a result, the Opposition withdrew its objection to the application; and

WHEREAS, the subject site is located on the west side of East 28th Street, between Avenue P and Quentin Road, within an R3-2 zoning district; and

WHEREAS, the site has a total lot area of 5,000 sq. ft. and is occupied by a single-family home with a floor area of 2,795 sq. ft. (0.56 FAR); and

WHEREAS, the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant now seeks an increase in the floor area from of 2,795 sq. ft. (0.56 FAR) to 4,885 sq. ft. (0.98 FAR); the maximum permitted floor area is 2,500 sq. ft. (0.5 FAR); and

WHEREAS, the applicant seeks to reduce the open space from 72 percent to 62 percent; the minimum required open space is 65 percent; and

WHEREAS, the applicant seeks to increase the lot coverage from 28 percent to 38 percent; the maximum permitted lot coverage is 35 percent; and

WHEREAS, the applicant seeks to maintain one existing, complying side yard with a width of 8'-3" and increase the width of the existing non-complying side yard from 0'-0" (at its narrowest point) to 3'-8¾" (the requirement is two side yards with a minimum total width of 13'-0" and a minimum width of 5'-0" each); and

WHEREAS, the applicant also seeks to decrease its non-complying rear yard depth from 28'-5¼" to 20'-0"; a rear yard with a minimum depth of 30'-0" is required; and

WHEREAS, finally, the applicant seeks to maintain and extend its existing, non-complying perimeter wall height of 22'-6⅛"; the maximum permitted perimeter wall height is 21'-0"; and

WHEREAS, the Board notes that ZR § 73-622(3) allows the Board to waive the perimeter wall height only in instances where the proposed perimeter wall height is equal to or less than the height of the adjacent building's non-complying perimeter wall facing the street; and

WHEREAS, the applicant represents that the proposed perimeter wall height (22'-6⅛") is less than the height of the adjacent building's non-complying perimeter walls facing the street (22'-8¼"), and the applicant submitted a survey in support of this representation; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood and will not impair the future use or development of the surrounding area; and

WHEREAS, in particular, the applicant represents that the proposed 0.98 FAR is consistent with the bulk in the surrounding area and notes that, in recent years, the Board has granted special permits for home enlargements on nearby streets (East 21st, East 22nd, and Avenue S) with FARs in excess of 1.0; and

WHEREAS, additionally, the applicant notes that a portion of the existing home is built to the north side lot line and the proposal includes the removal of that portion and the inclusion of a side yard with a width of 3'-8¾"; and

WHEREAS, accordingly, the Board agrees with the applicant that the proposed bulk is compatible with the character of the neighborhood; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor

MINUTES

impair the future use and development of the surrounding area; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622, to permit, within an R3-2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio ("FAR"), open space ratio, lot coverage, side yards, rear yard, and perimeter wall height, contrary to ZR §§ 23-141, 23-461, 23-47 and 23-631; on condition that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received February 18, 2014" – Twelve (12) sheets; and on further condition:

THAT the following will be the bulk parameters of the building: a maximum floor area of 4,885 sq. ft. (0.98 FAR), a minimum open space ratio of 62 percent, a maximum lot coverage of 38 percent, a minimum rear yard depth of 20'-0", side yards with minimum widths of 8'-3" and 3'-8¾", and a maximum perimeter wall height of 22'-6⅛", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 4, 2014.

234-13-BZ

APPLICANT – Sheldon Lobel, P.C., for Dov Lipschutz, owner.

SUBJECT – Application August 16, 2013 – Variance (§72-21) for the enlargement of an existing two-family detached residence to be converted to a single-family home, contrary to minimum front yard (§23-45(a)); and less than the required rear yard (ZR §23-47). Special Permit (§73-621) for an enlargement which is contrary to floor area (ZR 23-141). R3-2 zoning district.

PREMISES AFFECTED – 1653 Ryder Street, aka 1651 Ryder Street, Located on the northeast side of Ryder Street between Quentin road and Avenue P, Block 7863, lot 18, Borough of Brooklyn.

COMMUNITY BOARD #18BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Executive Zoning Specialist of the Department of Buildings ("DOB"), dated August 9, 2013, acting on DOB Application No. 320516811, reads in pertinent part:

1. FAR exceeds maximum permitted, contrary to ZR 23-141(b);
2. Proposed conditions increase the degree of non-compliance with respect to the required minimum front yard, contrary to ZR 23-45(a);
3. Proposed conditions violate required rear yard, contrary to ZR 23-47; and

WHEREAS, this is an application under ZR §§ 72-21 and 73-621, to permit, within an R3-2 zoning district, the conversion (from a two-family residence to a single-family residence) and enlargement of an existing residential building, which does not comply with the zoning requirements for floor area ratio ("FAR"), front yard, and rear yard, contrary to ZR §§ 23-141, 23-45, and 23-47; and

WHEREAS, a public hearing was held on this application February 4, 2014, after due notice by publication in *The City Record*, and then to decision on March 4, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan and Commissioner Montanez; and

WHEREAS, Community Board 18, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is an irregularly-shaped interior lot located on the east side of Ryder Street, between Avenue P and Quentin Road, within an R3-2 zoning district; and

WHEREAS, the site has 40 feet of frontage along Ryder Street and 3,855 sq. ft. of lot area; and

WHEREAS, the site is currently occupied by a two-story, two-family home with 1,985.41 sq. ft. of floor area (0.52 FAR), and an attic; and

WHEREAS, the applicant notes that the building has existing complying side yard widths of 5'-0" and 10'-10½", a complying rear yard with a depth of 30'-0", and a non-complying front yard ranging in depth from 9'-11" to 14'-1" (a minimum front yard depth of 15'-0" is required); and

WHEREAS, the applicant proposes to enlarge the existing cellar, first and second stories, and the attic of the building contrary to the FAR, front yard, and rear yard requirements, and increase the floor area from 1,985.41 sq. ft. (0.52 FAR) to 2,544.02 sq. ft. (0.66 FAR); the maximum permitted floor area is 1,927 sq. ft. (0.5 FAR), however, a 20 percent increase in FAR pursuant to ZR § 23-141(b)(1) is

MINUTES

available, resulting in a maximum permitted floor area of 2,313 sq. ft. (0.6 FAR); and

WHEREAS, the applicant also proposes to maintain a portion of its existing, non-complying front yard depth at 9'-11" and reduce a portion of its existing, non-complying front yard depth from 14'-1" to 12'-1" (a minimum depth of 15'-0" is required), and reduce its complying rear yard depth from 30'-0" to 24'-11" (a minimum depth of 30'-0" is required); and

WHEREAS, the special permit authorized by ZR § 73-621 is available to enlarge buildings containing residential uses that existed on December 15, 1961, or, in certain districts, on June 20, 1989; therefore, as a threshold matter, the applicant must establish that the subject building existed as of that date; and

WHEREAS, the applicant submitted the building's 1954 Certificate of Occupancy authorizing a two-family residence to demonstrate that the building existed as a residence well before June 20, 1989, which is the operative date within the subject R3-2 district; and

WHEREAS, accordingly, the Board acknowledges that the special permit under ZR § 73-621 is available to enlarge the building; and

WHEREAS, ZR § 73-621 permits the enlargement of a residential building, provided that the proposed floor area ratio does not exceed 110 percent of the maximum permitted (0.66 FAR);

WHEREAS, the applicant represents that the proposed floor area ratio is 110 percent of the maximum permitted (0.6 FAR); and

WHEREAS, therefore, the Board finds that the proposed increase in floor area is permitted under ZR § 73-621; however, ZR § 73-621 is not available to enlarge the building contrary to the front and rear yard requirements; and

WHEREAS, accordingly, the applicant seeks a variance pursuant to ZR § 72-21 for those portions of the proposal; and

WHEREAS, the applicant states that the irregular lot shape is a unique physical condition, which creates practical difficulties and unnecessary hardship in developing the site in compliance with underlying zoning regulations; and

WHEREAS, the applicant states that the lot's shape is irregular, in that its rear lot line is diagonal, which creates a lot depth that varies from approximately 91 feet on the southeastern lot line to approximately 101 feet on the northwestern lot line; and

WHEREAS, the applicant asserts that such shape decreases the lot area available in the rear of the building, which contributed to the existing building being constructed closer to the front lot line and further into the required front yard, which, in turn, creates a practical difficulty enlarging the building in accordance with the front and rear yard requirements; and

WHEREAS, the applicant states that the lot shape is unique, and in support of this statement, submitted a study of the surrounding 24 blocks (approximately 900 sites); and

WHEREAS, the applicant represents that, according to the study, only two blocks out of 24 contain lots that share the site's diagonal rear lot line condition, and only 29 lots within those blocks have, as a result of their diagonal rear lot line, lot depths of 100 feet or less; and

WHEREAS, the applicant further distinguishes 23 of the 29 seemingly similar lots as follows: (1) 15 lots are overbuilt and cannot seek the same relief (a 10 percent FAR waiver under ZR § 73-621); (2) four lots are within .03 of the maximum permitted FAR and therefore cannot feasibly be enlarged; (3) two lots are corner lots without required rear yards; and (4) two have particularly wide frontages (61 feet and 80 feet), which mitigates the loss of space owing to their diagonal rear lot line; and

WHEREAS, consequently, the applicant states that only six lots out of 900 (less than one percent) nearby can be considered similar to the subject site; as such, the applicant asserts that the site's shape creates a unique practical difficulty in complying with the zoning regulations; and

WHEREAS, the applicant explored the feasibility of an as-of-right enlargement of the home; however, as noted above, such an enlargement would have to be accomplished entirely at the rear of the building and would result in a modest increase in floor area from 1,985.41 sq. ft. (0.52 FAR) to 2,313 sq. ft. (0.6 FAR); in contrast, the proposal allows for modest enlargements at the front and rear of the building; and

WHEREAS, accordingly, the applicant asserts that the lot shape creates practical difficulties in developing the site as-of-right; and

WHEREAS, based upon the above, the Board finds that the cited unique physical condition creates practical difficulties in developing the site in strict compliance with the applicable zoning regulations; and

WHEREAS, the Board agrees that because of the site's unique physical condition, there is no reasonable possibility that compliance with applicable zoning regulations will result in a habitable home; and

WHEREAS, the applicant represents that neither the proposed variance, nor the special permit will negatively affect the character of the neighborhood or impact adjacent uses; and

WHEREAS, the applicant states that the surrounding area is characterized by low-density, detached or semi-detached, two- or three-story homes, with varying rear and side yard depths, and, typically, shallower front yard depths and setbacks; as such, the proposal is consistent with the use, bulk, and appearance of the neighborhood; and

WHEREAS, the applicant states that the proposal will maintain the existing minimum front yard depth of 9'-11" (albeit with a slight decrease in the non-complying front yard depth at the northern side of the lot from 14'-1" to 12'-1"), decrease its complying rear yard by approximately 5'-0", exceed the permitted FAR by less than ten percent and comply in all other respects (side yards, height, and lot coverage) with the R3-2 bulk regulations; and

WHEREAS, as to adjacent uses, the applicant states that the proposal maintains the existing complying side yards, and

MINUTES

therefore has no impact on the parcels directly north and south of the site; and while the majority of the enlargement is proposed at the rear of the building (its east side), the applicant notes that the nearest structures to the east are a swimming pool (on Lot 68) and a garage (on Lot 66); thus, the overall impact of the proposal on adjacent uses is minimal; and

WEHREAS, as to the proposed 0.65 FAR, the applicant notes that directly across the street, the homes on Lots 63 and 64 have 0.66 FAR and 0.75 FAR, respectively; and

WHEREAS, additionally, the applicant represents that there are 18 homes on an adjacent block along Ryder Street (Block 7862) with an FAR of 0.66 or greater, with 12 homes ranging from 0.72 FAR to 1.12 FAR; and

WHEREAS, at hearing, the Board directed the applicant to clarify the amount of floor area proposed in the attic; and

WHEREAS, in response, the applicant submitted a revised statement, which confirmed the location and amount of floor area proposed in the attic; and

WHEREAS, therefore, the Board finds that this action will neither alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title, but is a result of the unique conditions at the site; and

WHEREAS, the applicant asserts that the proposal is the minimum variance necessary to afford relief; and

WHEREAS, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, thus, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 72-21 and 73-621; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.13, §§ 5-02(a), 5-02(b)(2), and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings ZR §§ 72-21 and 73-621, to permit, within an R3-2 zoning district, the conversion (from a two-family residence to a single-family residence) and enlargement of an existing residential building, which does not comply with the zoning requirements for FAR, front yard, and rear yard, contrary to ZR §§ 23-141, 23-45, and 23-47; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received February 19, 2014"-Twelve (12) sheets; and *on further condition*:

THAT the parameters of the proposed building will be limited to: two stories and an attic, a maximum floor area of 2,544.02 sq. ft. (0.66 FAR), a front yard with a minimum depth of 9'-11", a rear yard with a minimum depth of 24'-11", and side yards with minimum widths of 5'-0" and 10'-10½", as per the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board, in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved

only for the portions related to the specific relief granted;

THAT significant construction will proceed in accordance with ZR §§ 72-23 and 73-70; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 4, 2014.

*CORRECTION

This resolution adopted on June 6, 2006, under Calendar No. 32-38-BZ and printed in Volume 91, Bulletin Nos. 23-24, is hereby corrected to read as follows:

32-38-BZ

APPLICANT – Steven M. Sinacori, Esq., for 88 Third Avenue Associates, owner.

SUBJECT – Application March 21, 2006 – Reopening for an amendment to the resolution to eliminate the twenty year (20) term for the change in occupancy from Manufacturing (UG17) to Office (UG6) in a four story and cellar building located in an R-6 zoning district, as adopted by the Board of Standards and Appeals on March 16, 1993.

PREMISES AFFECTED – 88 Third Avenue, west side of Third Avenue, between Bergen and Dean Streets, Block 197, Lot 28, Borough of Brooklyn.

COMMUNITY BOARD #2BK

APPEARANCES –

For Applicant: Eric Palatnik.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice-Chair Babbar, Commissioner Chin and Commissioner Collins.....4
Negative.....0

THE RESOLUTION –

WHEREAS, this is an application for an amendment to eliminate the term of a previously granted variance; and

WHEREAS, a public hearing was held on this application on May 9, 2006, after due notice by publication in *The City Record*, and then to decision on June 6, 2006; and

WHEREAS, Community Board 2, Brooklyn, recommends approval of this application; and

WHEREAS, the subject premises is located on the west side of Third Avenue between Bergen and Dean Streets; and

WHEREAS, the lot is located within an R6 zoning district, and is surrounded primarily by residential uses, there are also some manufacturing uses in the vicinity; and

WHEREAS, the lot area is approximately 43,500 sq. ft. and is improved upon with an approximately 98,000 sq. ft., four-story building; and

WHEREAS, in 1938, the Board granted an application under the referenced calendar number to permit use of the site as a milk plant; and

WHEREAS, subsequently, in 1961, the Board approved a change of use in a portion of the building from milk plant to UG 17 manufacturing use; and

WHEREAS, most recently, on March 19, 1993, the Board, pursuant to ZR § 11-413, authorized a change of the UG 17 manufacturing use to UG 6 office use; and

WHEREAS, the term of the authorization was limited to 20 years, to expire on March 19, 2013; and

WHEREAS, the application is brought on behalf of

the New York City Human Resources Administration (HRA); and

WHEREAS, HRA occupies the first and second floors of the building and the third and fourth floors are currently vacant; and

WHEREAS, HRA intends to expand its operations to the third and fourth floors, which requires extensive renovations including the installation of an HVAC system, computer wiring, and new bathrooms; and

WHEREAS, HRA asserts that it has already invested more than \$6.5 million for renovations and plans to contribute another \$1 million; and

WHEREAS, HRA represents that its lender requires that there be no term limit on the authorization, in order to secure funding for the renovations; and

WHEREAS, the Board notes HRA's long-term commitment to the building; and

WHEREAS, upon review, the Board finds the requested elimination of the twenty-year term appropriate, provided that there is compliance with the conditions set forth below and in the prior resolutions.

Therefore it is Resolved that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated March 19, 1993, so that as amended this portion of the resolution shall read: "to eliminate the term of the previously granted change of use; *on condition*:

THAT any change in occupancy of the subject building shall require the prior approval of the Board;

THAT the above condition shall appear on the Certificate of Occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted." (Alt. No. 300349825)

Adopted by the Board of Standards and Appeals, June 6, 2006.

***The resolution has been corrected in the portion which read: "THAT any change in ownership or occupancy of the subject building shall require the prior approval of the Board;" now reads: "THAT any change in occupancy of the subject building shall require the prior approval of the Board;" Corrected in Bulletin No. 10, Vol. 99, dated March 12, 2014.**

MINUTES

**REGULAR MEETING
TUESDAY MORNING, MARCH 11, 2014
10:00 A.M.**

Present: Chair Srinivasan, Vice-Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez.

SPECIAL ORDER CALENDAR

331-04-BZ

APPLICANT – Sheldon Lobel, P.C., for Blue Millennium Realty LLC, owner; Century 21 Department Stores LLC, lessee.

SUBJECT – Application October 24, 2013 – Amendment of a previously approved Variance (§72-21) which permitted the expansion of floor area in an existing commercial structure (*Century 21*). The amendment seeks to permit a rooftop addition above the existing building which exceeds the maximum permitted floor area. C5-5 (LM) zoning district.

PREMISES AFFECTED – 26 Cortlandt Street, located on Cortlandt Street between Church Street and Broadway. Block 6911, Lot 6 & 3. Borough of Manhattan.

COMMUNITY BOARD #1M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to a previously-granted variance, which, pursuant to ZR § 72-21, authorized in a C5-5 zoning district within the Special Lower Manhattan District the enlargement of an existing commercial building contrary to floor area regulations and waived the requirement to relocate two adjacent subway entrances in connection with the enlargement; and

WHEREAS, a public hearing was held on this application on January 28, 2014, after due notice by publication in *The City Record*, with a continued hearing on February 25, 2014, and then to decision on March 11, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Manhattan, recommends approval of this application; and

WHEREAS, the subject site spans the full length of the east side of Church Street, between Cortlandt Street and Dey Street, within a C5-5 zoning district, within the Special Lower

Manhattan District; and

WHEREAS, the site comprises Lots 3 and 6, has approximately 170 feet of frontage along Cortlandt Street, approximately 215 feet of frontage along Church Street, approximately 128 feet of frontage along Dey Street, 38,178 sq. ft. of lot area, and is located across the street from the World Trade Center site; and

WHEREAS, Lot 3 is occupied by a 34-story commercial building (the “Tower Building”) and Lot 6 is occupied by a five-story commercial building (the “Bank Building”); together, the buildings have 595,882 sq. ft. of floor area (15.6 FAR); and

WHEREAS, the applicant represents that Century 21 Department Store (“Century 21”) occupies the entirety of the Bank Building and floors one through six of the Tower Building, as well as the two buildings adjacent to the Tower Building on Block 63, Lot 1 (“10-12 Cortlandt Street”); and

WHEREAS, on February 15, 2005, under the subject calendar number, the Board granted a variance to permit: (1) a 4,583 sq.-ft. enlargement of the existing second-floor mezzanine of the Century 21 store in the Bank Building, while an equal amount of floor area was simultaneously retired via deed restriction from 10-12 Cortlandt Street; and (2) a waiver of the requirement to relocate two adjacent subway entrances in connection with the enlargement, contrary to ZR §§ 31-122 and 91-43; and

WHEREAS, the applicant now requests an amendment to permit the construction of a partial sixth floor atop the Bank Building, which will increase the floor area on the site by 4,622 sq. ft. from 595,882 sq. ft. (15.6 FAR) to 600,504 sq. ft. (15.73 FAR), and increase the height of the Bank Building from 71'-0" to 83'-0"; as in the previous grant, this enlargement will: (1) be offset by a deed restriction retiring 4,622 sq. ft. of floor area recorded against 10-12 Cortlandt Street; and (2) require a waiver of the requirement (ZR § 91-43) to relocate the two subway entrances adjacent to the site; and

WHEREAS, the applicant states that Century 21 will use the new sixth floor as an event space, which will allow for: (1) private exhibitions of new vendor merchandise or Century 21-curated merchandise; (2) presentations and functions hosted by Century 21 for their buyers and vendors, including catered dinners or luncheons; and (3) a designated area for executive meetings and sales force conferences; and

WHEREAS, the applicant asserts that the event space is critical to Century 21’s remaining competitive in the shrinking department store market, and in support of this statement, the applicant provided an analysis that reflects that all other large New York City department stores have private event space; and

WHEREAS, the applicant notes that the neighborhood is characterized by high-density mixed commercial and residential uses and that a department store is entirely consistent with such uses; and

WHEREAS, as for the enlargement’s impact upon adjacent properties, the applicant states that it is minimal; specifically, the applicant notes that the only adjacent building

MINUTES

on the block—the 34-story Tower Building—is partially occupied by Century 21 and otherwise occupied by commercial uses; as such, the modest increase in height will have no impact; and

WHEREAS, as to the required waiver for the relocation of two subway entrances, the applicant states that, as in the original grant, the costs of such relocation far exceed the benefits derived from the enlargement that triggers the relocation requirement; indeed, Century 21’s most valuable selling space—at the cellar and first floor—would be reduced in order to accommodate the subway work; and

WHEREAS, in addition, the applicant asserts that the subway relocation requirement set forth in ZR § 91-43 was intended for major renovations of Lower Manhattan buildings and that minor increases in floor area to accommodate existing uses—the proposed enlargement increases the FAR by 0.13—were not contemplated despite the use of the defined term “enlargement”; and

WHEREAS, at hearing, the Board noted that the deed restriction retiring the floor area at 10-12 Cortlandt Street required under the prior grant had not yet been recorded; accordingly, the Board directed the applicant to record the deed restriction retiring 9,205 sq. ft. of floor area (which represents 4,583 sq. ft. of floor area from the original grant and 4,622 sq. ft. requested under this application); additionally, the Board directed the applicant to clarify the amount of available floor area at 10-12 Cortlandt Street and to clarify the impact of the proposed sixth floor on the Tower Building’s windows; and

WHEREAS, in response, the applicant represented that the deed restriction would be recorded upon approval of this application; and

WHEREAS, as to the amount of available floor area at 10-12 Cortlandt Street, the applicant states that 10-12 Cortlandt Street has a maximum permitted floor area of 92,955 sq. ft., 20,412 sq. ft. of which are built and 9,205 sq. ft. of which are to be retired by the deed restriction discussed above, leaving 63,337 sq. ft. available for development; and

WHEREAS, as to whether the proposed sixth floor would obstruct any windows at the Tower Building, the applicant submitted a letter from the project architect stating that it would not; and

WHEREAS, based upon the above, the Board has determined that the evidence in the record supports a grant of the requested amendment with the conditions listed below.

Therefore it is Resolved, that the Board of Standards and Appeals reopens and amends the resolution, dated February 15, 2005, to grant the noted modifications to the previous approval; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked ‘Received February 11, 2014’- Five (5) sheets; and *on further condition*:

THAT the Tower Building and the Bank Building will have a maximum of 600,504 sq. ft. of floor area (15.73 FAR);

THAT the Bank Building will have a maximum height of 83’-0”;

THAT prior to DOB’s issuance of a permit, a deed restriction providing for the permanent and irrevocable retirement of 9,205 sq. ft. of floor area as to 10-12 Cortlandt Street will be executed and recorded, and then submitted to DOB, with a copy of same to the Board’s Executive Director for placement in the case file;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, March 11, 2014.

240-55-BZ

APPLICANT – Rothkrug Rothkrug & Spector LLP, for DLC Properties, LLC, owner.

SUBJECT – Application December 31, 2013 – Extension of Time to obtain a Certificate of Occupancy of a previously granted variance for the continued operation of a UG16 auto repair shop with sales, which expired on June 8, 2010; Waiver of the Rules. C2-2(R6B), R4 zoning district.

COMMUNITY BOARD #3M

ACTION OF THE BOARD – Laid over to April 29, 2014, at 10 A.M., for adjourned hearing.

107-13-A

APPLICANT – Law Office of Marvin B. Mitzner LLC, for Sky East LLC, owner.
SUBJECT – Application April 18, 2013 – An appeal seeking a determination that the owner has acquired a common law vested right to continue development commenced under the prior R7-2 zoning district. R7B zoning district.
PREMISES AFFECTED – 638 East 11th Street, south side of East 11th Street, between Avenue B and Avenue C, Block 393, Lot 25, 26 & 27, Borough of Manhattan.

COMMUNITY BOARD #3M

ACTION OF THE BOARD – Laid over to April 29, 2014, at 10 A.M., for adjourned hearing.

123-13-A

APPLICANT – Bryan Cave, for Speakeasy 86 LLC c/o Newcastle Realty Services, owner; TSI West 41 LLC dba New York Sports Club, lessee.
SUBJECT – Application April 29, 2013 – Appeal challenging the determination of the Department of Buildings’ to revoke a permit on the basis that (1) a lawful commercial use was not established and (2) even assuming lawful establishment, the commercial use discontinued in 2007. R6 zoning district.
PREMISES AFFECTED – 86 Bedford Street, northeastern side of Bedford Street between Barrow and Grove Streets, Block 588, Lot 3, Borough of Manhattan.

COMMUNITY BOARD #2M

ACTION OF THE BOARD – Laid over to April 8, 2014, at 10 A.M., for deferred decision.

215-13-A

APPLICANT – Anthony A. Lenza , owner
SUBJECT – Application July 16, 2013 – Appeal challenging denial of the Department of Building’s determination regarding floor area (§12-10 (12) (ii)). R1-1 zoning district.
PREMISES AFFECTED – 300 Four Corners Road, Block 894, Lot 235, Borough of Staten Island.

COMMUNITY BOARD #2SI

THE VOTE TO CLOSE HEARING –
Affirmative: Chair Srinivasan, Vice Chair Collin, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez.....5
Negative:.....0

ACTION OF THE BOARD – Laid over to April 1, 2014, at 10 A.M., for decision, hearing closed.

ZONING CALENDAR

192-13-BZ

CEQR #13-BSA-163M

APPLICANT – Jesse Masyr, Esq., Fox Rothschild, LLP, for AP-ISC Leroy, LLC, Authorized Representative, owner.
SUBJECT – Application July 2, 2013 – Variance (§72-21) to permit the construction of a residential building with accessory parking, contrary to use regulations (§42-10). M1-5 zoning district.

PREMISES AFFECTED – 354/361 West Street aka 156/162 Leroy Street and 75 Clarkson Street, West street between Clarkson and Leroy Streets, Block 601, Lot 1, 4, 5, 8, 10, Borough of Manhattan.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, decision of the Manhattan Borough Commissioner, dated June 10, 2013, acting on Department of Buildings Application No. 121330611, reads:

Proposed Residential UG 2 is not permitted in M1-5 District; contrary to ZR 42-10; and

WHEREAS, to permit, within an M1-5 zoning district, the construction of a 12-story mixed residential/commercial building with ground floor retail use and 12 accessory parking spaces, which is contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on November 26, 2013, after due notice by publication in the *City Record*, with continued hearings on January 14, 2014 and February 4, 2014, and then to decision on March 11, 2014; and

WHEREAS, the site and surrounding area had site and

MINUTES

neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Manhattan, recommends approval of this application; and

WHEREAS, the Greenwich Village Society for Historic Preservation and the Greenwich Village Community Task Force provided testimony in opposition to the application, primarily citing concerns about the establishment of a unique hardship; and

WHEREAS, the site is located on the east side of West Street between Clarkson Street and Leroy Street, within an M1-5 zoning district; and

WHEREAS, the site has 200 feet of frontage on West Street, 176 feet of frontage on Leroy Street, 106 feet of frontage on Clarkson Street, and a lot area of approximately 28,362 sq. ft.; and

WHEREAS, the site is occupied with five buildings ranging in height from one to three stories, with commercial and industrial use including a 24-hour cabaret lounge, an automobile repair service, a vacant diner, a construction materials sales and hardware center, a vacant automobile laundry and oil change facility with outdoor parking spaces, and a shipping and receiving office; and

WHEREAS, the applicant states that all buildings on the zoning lot will be demolished in anticipation of construction; and

WHEREAS, the applicant proposes to construct a 12-story building with 141,815 sq. ft. of floor area (5.0 FAR), 77 residential units (UG 2) (4.97 FAR), ground floor retail (UG 6) (0.03 FAR), and 12 accessory parking spaces in the cellar; and

WHEREAS, the applicant states that, per ZR § 72-21(a), the following are unique physical conditions which create an unnecessary hardship in complying with applicable zoning district regulations: (1) the history of use and development of the site; (2) poor subsurface conditions including deep bedrock, soft soils, and shallow ground water; and (3) the location within a flood zone; and

WHEREAS, as to the history of development of the site and the existing conditions, the applicant states that the site is at the end of a series of mixed and residential uses and is the last low density underdeveloped site located along West Street within the M1-5 zoning district not developed with residential or mixed use buildings; and

WHEREAS, the applicant notes that the existing buildings, which are occupied by a mix of uses, do not conform to the current Building Code and can be classified as obsolete; and

WHEREAS, the applicant states that an 1879 map reflects that a coal yard and iron works were formerly located on the zoning lot and, later, a motor freight station, smelting and iron works, an automotive repair shop, machine shops, and building materials establishments; and

WHEREAS, as to the soil conditions, the applicant notes that the historic industrial use of the site has resulted in the contamination of the soils that will require extensive clean-up

and increased construction costs; and

WHEREAS, the applicant states that during Super Storm Sandy, the site experienced significant flooding and waste oil and petroleum contaminated oil were required to be removed pursuant to the jurisdiction of the New York State Department of Environmental Conservation; and

WHEREAS, the applicant states that the site also contains multiple recognized environmental conditions ("RECs") as described in the Phase I Environmental Assessment; and

WHEREAS, accordingly, the applicant represents that there are significant premium costs associated with the long history of contamination at the site; and

WHEREAS, as to the subsurface conditions, the applicant notes that the site is at the western edge of the original Manhattan shoreline, which (1) comprises urban fill that is considered unsuitable for load-bearing materials; and (2) has bedrock and subsoil conditions that require a deeper and more extensive pile foundation system; and

WHEREAS, the applicant states that the western portion of the block is located outboard of the historic shoreline (not part of the original outline of Manhattan) on reclaimed land, with the original Manhattan shoreline located at the northeast corner of the site; and

WHEREAS, the applicant asserts that if the site were two blocks north, it would be entirely inboard of the historic shoreline and not subject to the same hardship; and

WHEREAS, the applicant represents that the poor subsurface conditions at the site, including loose soil, shallow groundwater level, and the location within the 100-year flood plain lead to premium construction costs; and

WHEREAS, the applicant states that the urban fill is found about ten to 18 feet below the existing grade and comprises brown and gray coarse to fine sand with varying amounts of silt and gravel; and

WHEREAS, the applicant states that below the fill is an approximately 6'-0" layer of high plasticity clay at depths between 10.5 and 16.5 feet; and

WHEREAS, the applicant states that bedrock was encountered between 90 and 94 feet below grade and groundwater was measured at a depth of 11.5 to 18 feet below grade and about three to five feet below mean sea level; and

WHEREAS, in support of these assertions, the applicant submitted an engineering report that details the subsurface conditions and distinguishes it from nearby sites; and

WHEREAS, the applicant states that the soil and subsurface conditions require a deep pile foundation system and, due to the proximity of nearby buildings, deep piles must be drilled into caissons; and

WHEREAS, the applicant states that the high water table requires the utilization of dewatering and waterproofing measures for a development to resist the effects of hydrostatic pressure; and

WHEREAS, the applicant states that the location primarily within Flood Zone A requires higher base planes, limited uses below grade, and extra waterproofing; and

WHEREAS, the applicant also notes that regulatory

MINUTES

changes in response to the flooding caused by Super Storm Sandy create new development obligations and requirements that impact development within the newly-adopted FEMA flood zones; and

WHEREAS, the applicant notes that the new flood zone regulations require that a building be raised to the base flood elevation of the new FEMA flood zone maps; and

WHEREAS, for the subject site, the elevation requires the ground floor to be raised five to six feet above the existing grade; and

WHEREAS, as to the uniqueness of the noted conditions, the applicant submitted a technical memorandum prepared by the project engineer, which analyzed seven sites along West Street from Leroy Street (the northern street bordering the subject site) to West 12th Street; and

WHEREAS, the applicant notes that the sites are primarily not in the same zoning district as the subject site, but they are located on West Street and have been recently developed with residential uses; and

WHEREAS, the applicant states that of the seven sites, bedrock was encountered at depths of 80 to 100 feet, comparable to the site, with the exception of 400 West 12th Street (“Superior Ink”) where the bedrock extended on part of the site to approximately 140 feet below grade; and

WHEREAS, however, the applicant notes that three sites are located inboard of the historic shoreline (150 and 165 Charles Street and 176 Perry Street); two sites are located outboard of the historic shoreline (423 West Street and 400 West 12th Street); one is located at the edge (173 Perry Street) and one is split (Morton Square); and

WHEREAS, the applicant states that the three sites that are inboard of the historic shoreline have soil conditions composed of urban fill, underlain by glacial deposits underlain by bedrock; and

WHEREAS, the applicant states that the sites inboard of the historic shoreline lack the presence of organic river deposits and have been (or are currently being) developed with shallow mat foundations; and

WHEREAS, the applicant states that the four sites located outboard, on the edge, or split by the historic shoreline have soil composition similar to the other sites but with the presence of organic river deposits; and

WHEREAS, the applicant represents that the outboard sites have all been developed with deep pile foundations due to the unsuitability of the soil composition primarily due to the presence of organic river deposits; and

WHEREAS, the applicant notes that Morton Square, divided by the historic shoreline and the only site analyzed located within the M1-5 zoning district is also encumbered by the PATH tunnel within Morton Street, which puts additional constraints on the kind of foundation system required with the addition of required drilled piles to protect the integrity of the cast iron encased tunnel; and

WHEREAS, based upon the above, the Board finds that the aforementioned unique physical conditions, when considered in the aggregate, create unnecessary hardship and practical difficulty in developing the site in conformance with

the applicable zoning regulations; and

WHEREAS, the applicant asserts that, per ZR § 72-21(b), there is no reasonable possibility that the development of the site in conformance with the Zoning Resolution will realize a reasonable return; and

WHEREAS, the applicant provided an initial feasibility study analyzing two scenarios: (1) an as-of-right hotel building; and (2) the proposed mixed use residential/commercial building with 5.0 FAR; and

WHEREAS, the applicant’s financial analysis reflected that only the initial proposal would realize a reasonable rate of return; and

WHEREAS, the Board directed the applicant to also analyze (1) a lesser variance alternative with 4.0 FAR and (2) an as-of-right office alternative; and

WHEREAS, the applicant’s analysis concluded that neither supplemental alternative would realize an acceptable rate of return; and

WHEREAS, the revised financial analysis reflects that only the current proposal provides the applicant with a reasonable rate of return; and

WHEREAS, based upon its review of the applicant’s financial analysis, the Board has determined that because of the subject site’s unique physical conditions, there is no reasonable possibility that use in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare, in accordance with ZR § 72-21(b); and

WHEREAS, the applicant notes that the site is bordered by three streets: West Street, a major arterial highway; Leroy Street, a west-moving narrow local street; and Clarkson Street, an east-moving narrow local street providing one of the few signalized left turn exits off of the southbound West Street; and

WHEREAS, the applicant notes that opposite the site across West Street is the Hudson River Park and Pier 40, which includes a mix of offices, recreational fields, and parking; and

WHEREAS, the applicant notes that north of the site is Morton Square, a mixed-use primarily residential building occupying the entire block; and

WHEREAS, the applicant asserts that Morton Square defines the beginning of a residential and mixed-use corridor extending along West Street north to the Meatpacking District at Little West 12th Street; and

WHEREAS, the applicant notes that within the M1-5 zoning district is a Special Mixed Use District – MX6, which pairs a residential R7X zoning district with the underlying M1-5 zoning district for a portion of the two blocks northeast of the site; this area includes apartment buildings and commercial art galleries; and

WHEREAS, the applicant states that adjacent to the site

MINUTES

to the east is an at-grade parking facility on Leroy Street and wrapping around Clarkson Street to Washington Street is a Federal Express parking facility; and

WHEREAS, the applicant states that in the immediate vicinity are a mix of uses including (1) south of the site across Clarkson Street, the St. John's Terminal building, a four-block long terminal and warehouse building; and (2) a UPS trucking and shipping terminal; and

WHEREAS, the applicant notes that the M1-5 district extends along West Street one block south, but that block is fully occupied by the St. John's Terminal Building; and

WHEREAS, the applicant states that south and east of the site is the newly-adopted mixed-use Special Hudson Square District, where infill residential use is permitted within the manufacturing area; and

WHEREAS, accordingly, the applicant asserts that the proposed residential use, with 77 units, an accessory parking garage at the cellar level, and retail use on a portion of the first floor is compatible with the nearby uses within the far West Village on West Street; and

WHEREAS, the applicant asserts that the current condition of the zoning lot lacks cohesiveness and is not reflective of the context of the surrounding area; and

WHEREAS, as to the building form, the applicant notes that the proposed 12-story building will have a height of approximately 155 feet with a curvilinear façade, occupying the full West Street block front and extending down Leroy Street and Clarkson Street; and

WHEREAS, the applicant states that the design with its undulating wall without a setback is intended to help activate the street level of the building and engage with the sidewalk; and

WHEREAS, the applicant notes that the proposed 5.0 FAR is consistent with the bulk regulations in the M1-5 zoning district and the nearby MX6 district; and

WHEREAS, the applicant states that the buildings in the area range in height from one-, two-, and three-story buildings between Christopher Street and Charles street to the Westbeth with a height of 185 feet; and

WHEREAS, the applicant notes that Morton Square on the other side of Leroy Street has 14 stories and a height of 155 feet; and

WHEREAS, the applicant notes that the as-of-right hotel building could have a height of 233 feet; and

WHEREAS, the Board agrees that the character of the area is mixed-use, and finds that the introduction of 77 dwelling units is compatible with the neighborhood character; and

WHEREAS, the Board notes that there are no bulk regulations for a residential building in an M1-5 zoning district, but that the proposed FAR of 5.0 and all other bulk parameters are consistent with zoning district regulations; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that, consistent with ZR §

72-21(d), the hardship herein was not created by the owner or a predecessor in title but is rather due to the inherent conditions of the site; and

WHEREAS, the applicant represents that the proposed use and bulk, which is consistent with the bulk for a conforming use, reflect the minimum waivers necessary to compensate for the additional construction costs associated with the uniqueness of the site; and

WHEREAS, accordingly, the Board finds that this proposal is the minimum necessary to afford the owner relief, as set forth in ZR 72-21(e); and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 13BSA163M, dated June 27, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the New York City Department of Environmental Protection's (DEP) Bureau of Environmental Planning and Assessment has reviewed the project for potential hazardous materials and noise impacts; and

WHEREAS, DEP recommends that an (E) Designation for hazardous materials be placed on the subject property, with the understanding that the New York City Office of Environmental Remediation may request additional data collection; and

WHEREAS, DEP recommends that the (E) Designation also encompass noise to ensure tracking and enforcement of the noise attenuation requirements; and

WHEREAS, the Board has obtained (E) Designation number E-332 from the Department of City Planning; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of

MINUTES

1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, within an M1-5 zoning district, the construction of a 12-story mixed residential/commercial building with ground floor retail use and 12 accessory parking spaces, which is contrary to ZR § 42-10; *on condition* that any and all work will substantially conform to drawings as they apply to the objections above noted, filed with this application marked “Received March 10, 2014”– Thirteen (13) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the proposed building: a maximum of 12 stories; 77 residential units; a total floor area of 141,815 sq. ft. (5.0 FAR); a maximum height of 155 feet; and a maximum of 12 accessory parking spaces;

THAT the development of the site is subject to the conditions of (E) Designation E-332;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT substantial construction will be completed pursuant to ZR § 72-23;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 11, 2014.

236-13-BZ

CEQR #14-BSA-021M

APPLICANT – Warshaw Burstein, LLP by Joshua J. Rinesmith, for 423 West 55th Street, LLC, owner; 423 West 55th Street Fitness Group, LLP, lessee.

SUBJECT – Application August 13, 2013 – Special Permit (§73-36) to permit the operation of a physical culture establishment (*Planet Fitness*) on the first and mezzanine floors of the existing building, and Special Permit (§73-52) to allow the fitness center use to extend 25’-0” into the R8 portion of the zoning lot. C6-2 & R8 zoning district.

PREMISES AFFECTED – 423 West 55th Street, north side of West 55th Street, 275’ east of the intersection formed by 10th Avenue and West 55th Street, Block 1065, Lot 12, Borough of Manhattan.

COMMUNITY BOARD #4M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated January 21, 2014, acting on Department of Buildings (“DOB”) Application No. 104325776, reads in pertinent part:

Proposed use as a physical culture establishment . . . is contrary to ZR 32-10;

Proposed extension of physical culture establishment use into R8 portion of zoning lot is contrary to ZR 22-10 and 77-11; and

WHEREAS, this is an application under ZR §§ 73-36, 73-03, and 73-52 to permit, on a site located partially within a C6-2 zoning district and partially within an R8 zoning district, within the Special Clinton District, the operation of a physical culture establishment (“PCE”) in portions of the first floor and mezzanine level of an existing 12-story commercial building, contrary to ZR § 32-10, and to permit the extension of the proposed PCE use within the existing building into the R8 portion of the zoning lot, contrary to ZR § 77-11; and

WHEREAS, a public hearing was held on this application on January 28, 2014, after due notice by publication in *The City Record*, with a continued hearing on February 25, 2014, and then to decision on March 11, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 4, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is an irregularly-shaped zoning lot located on the north side of West 55th Street between Ninth Avenue and Tenth Avenue, partially within a C6-2 zoning district and partially within an R8 zoning district, within the Special Clinton District; and

WHEREAS, the site has approximately 225 feet of frontage along West 55th Street and 24,603 sq. ft. of lot area; and

WHEREAS, the site is occupied by a 12-story commercial building; and

WHEREAS, the proposed PCE will occupy portions of the first floor (20,412 sq. ft. of floor area), and mezzanine level (1,777 sq. ft. of floor area), for a total PCE floor area of 22,189 sq. ft.; and

WHEREAS, the applicant notes that the Board has exercised jurisdiction over the site since July 25, 2006, when, under BSA Cal. No. 46-06-BZ, it granted a special permit pursuant to ZR § 73-36 to permit the operation of a PCE unaffiliated with the applicant for a term of ten years, to expire on July 25, 2016; and

WHEREAS, the applicant represents that although the prior grant did not authorize extension of the PCE into the R8 portion of the lot, it is believed that such extension occurred; in any event, the prior PCE has since vacated the space; and

WHEREAS, the applicant states that the proposed PCE will operate as a Planet Fitness; and

MINUTES

WHEREAS, the applicant proposes to: (1) pursuant to ZR § 73-52, extend the use regulations applicable in the C6-2 portion of the site 24 feet into the R8 portion of the site; and (2) pursuant to ZR § 73-36, obtain a special permit for the operation of the PCE in portions of the first floor and mezzanine of the existing commercial building at the site; and

WHEREAS, ZR § 73-52 provides that when a zoning lot, in single ownership as of December 15, 1961, is divided by district boundaries in which two or more uses are permitted, the Board may permit a use which is permitted in the district in which more than 50 percent of the lot area of the zoning lot is located to extend not more than 25 feet into the remaining portion of the zoning lot where such use is not permitted, provided that: (1) without any such extension, it would not be economically feasible to use or develop the remaining portion of the zoning lot for a permitted use; and (2) such extension will not cause impairment of the essential character or the future use or development of the surrounding area; and

WHEREAS, as to the threshold issue of single ownership, the applicant submitted documents reflecting the history of ownership of the subject site and adjoining sites showing that the zoning lot was in single ownership prior to December 15, 1961; and

WHEREAS, as to the 50-percent lot area requirement, the applicant submitted a site plan indicating that approximately 22,594.5 sq. ft. of the site's 24,603 sq. ft. of lot area (92 percent) is located within a C6-2 zoning district; and

WHEREAS, accordingly, the Board finds that the site meets the threshold requirements for ZR § 73-52; and

WHEREAS, as to economic feasibility, the applicant represents that it would not be economically feasible to use or develop the R8 portion of the site for a permitted use; specifically, the applicant states that the residential portion of the site is occupied with a portion of the existing building that is too small to accommodate an independent, viable residential or community facility tenant; and

WHEREAS, in addition, the applicant states that the portion of the site and the building within the R8 district is at the rear of the site and does not have access to a public street; therefore, developing the R8 portion of the site with a community facility or residential use is infeasible; and

WHEREAS, the applicant notes that, under Article V, commercial use is permitted as a non-conforming use within the R8 portion of the site; however, the construction of a non-PCE commercial use is constrained for the same reasons that as-of-right uses are constrained: the R8 portion of the site is landlocked and, accordingly, undesirable to most commercial uses; as such, providing the costly improvements to operate as an independent commercial space—partitions, mechanicals, and a wheelchair lift for accessibility—would not be economically feasible since the space would have to be offered at significantly discounted rents; and

WHEREAS, accordingly, absent the requested extension of the PCE into the residential space, a substantial portion of the first floor of the building would be unusable

and remain vacant; and

WHEREAS, the Board agrees that it would not be economically feasible to use or develop the remaining portion of the zoning lot, zoned R8, for a permitted use; and

WHEREAS, as to the extension's effect on the surrounding area, the applicant states that the proposed extension is consistent with existing land use conditions and anticipated projects in the immediate area, in that the area surrounding the site is predominated by high-density commercial and residential uses; further, the proposed PCE will be entirely within the existing building; and

WHEREAS, the applicant also notes that the PCE does not have any windows on entrances facing the residential district, and that commercial and industrial uses have existed at the site for approximately 100 years; and

WHEREAS, accordingly, the Board finds that the proposed extension of the C6-2 zoning district portion of the lot into the R8 portion will not cause impairment of the essential character or the future use or development of the surrounding area, nor will it be detrimental to the public welfare; and

WHEREAS, the Board, therefore, has determined that the evidence in the record supports the requisite findings pursuant to ZR § 73-52; and

WHEREAS, turning to the findings for ZR § 73-36, the applicant represents that the services at the PCE include facilities for group training, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE will be 24 hours per day and seven days per week; and

WHEREAS, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the future use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, finally, the PCE will not interfere with any pending public improvement project; and

WHEREAS, at hearing, the Board questioned whether the mezzanine was required to be made accessible for persons with certain physical disabilities; and

WHEREAS, in response, the applicant represented that the mezzanine level was not required to be made accessible because the amenities offered on that level are available on one or more accessible levels of the PCE; and

WHEREAS, the Board, therefore, has determined that the evidence in the record supports the requisite findings

MINUTES

pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No. 14BSA021M, dated August 6, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36, 73-03, and 73-52 to permit, on a site located partially within a C6-2 zoning district and partially within an R8 zoning district, within the Special Clinton District, the operation of a PCE in portions of the first floor and mezzanine level of an existing 12-story commercial building, contrary to ZR § 32-10, and to permit the extension of the proposed PCE use within the existing building into the R8 portion of the zoning lot, contrary to ZR § 77-11; *on condition* that all work will substantially conform to drawings filed with this application marked “December 23, 2013” – Four (4) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on March 11, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the certificate of occupancy;

THAT substantial construction will be completed in

accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 11, 2014.

274-13-BZ

CEQR #14-BSA-045M

APPLICANT – Sheldon Lobel, P.C., for SKP Realty, owner; H.I.T. Factory Approved Inc., owner.

SUBJECT – Application September 26, 2013 – Variance (§72-21) to permit the operation of a physical culture establishment (*H.I.T. Factory Improved*) on the second floor of the existing building. C1-3/R6B zoning district.

PREMISES AFFECTED – 7914 Third Avenue, west Side of Third Avenue between 79th and 80th Street, Block 5978, Lot 46, Borough of Brooklyn.

COMMUNITY BOARD #10BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner of the Department of Buildings (“DOB”), dated September 9, 2013, acting on DOB Application No. 320782630, reads, in pertinent part:

Proposed physical culture establishment use is not permitted in a C1-3 zoning district, per ZR 32-10; and

WHEREAS, this is an application under ZR § 72-21, to permit, within a C1-3 (R6B) zoning district within the Special Bay Ridge District, the operation of a physical culture establishment (“PCE”) within the second story of a two-story residential building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on January 28, 2014, after due notice by publication in the *City Record*, with a continued hearing on February 25, 2014, and then to decision on March 11, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

MINUTES

WHEREAS, Community Board 10, Brooklyn, recommends approval of the application, provided that the hours of operation are limited to daily, from 7:00 a.m. to 10:00 p.m.; and

WHEREAS, the subject site is located on the west side of Third Avenue, between 79th Street and 80th Street, within a C1-3 (R6B) zoning district within the Special Bay Ridge District; and

WHEREAS, the site has approximately 60 feet of frontage along Third Avenue and 6,000 sq. ft. of lot area; and

WHEREAS, the site is occupied by a two-story commercial building with approximately 11,500 sq. ft. of floor area (1.9 FAR); and

WHEREAS, the applicant notes that the first floor of the building is occupied by a grocery store and the second floor is vacant; and

WHEREAS, the applicant notes that the building was constructed in or around 1931 and that the site has been subject to the Board's jurisdiction since July 24, 1959, when, under BSA Cal. No. 398-58-BZ, it granted a variance permitting a factory contrary to use regulations; in addition, later that year, on September 29, 1959, under BSA Cal. No. 399-58-A, the Board granted an appeal waiving the live load requirements for the second story; and

WHEREAS, the applicant states that the manufacturing use remained on the second story until around 1972, when the manufacturer vacated the space, and remained vacant until around 2000, when a martial arts studio leased the space and occupied it until March 2012; and

WHEREAS, the applicant acknowledges that a martial arts studio is a PCE and concedes that a variance was not obtained for the operation of the studio; however, the applicant represents that both the building owner and the martial arts studio were unaware that a martial arts studio is considered a PCE and that PCEs are not permitted within a C1-3 (R6B) district; and

WHEREAS, the applicant now seeks a variance to operate the subject PCE, which will be known as H.I.T. Factory, occupy 5,400 sq. ft. of floor area on the second story, and operate daily, from 7:00 a.m. to 10:00 p.m.; and

WHEREAS, the applicant states that, per ZR § 72-21(a), the following are unique physical conditions which create an unnecessary hardship in developing the second floor in conformance with applicable regulations: (1) the second floor's configuration, depth, and size; and (2) its absence of street-level exposure; and

WHEREAS, the applicant states that the historic configuration, depth, and size of the second floor—the characteristics that made it suitable for historic manufacturing use—render it unsuitable for modern conforming uses; and

WHEREAS, specifically, the applicant states that the second floor has a large open floorplate, which would require utilities upgrades and partition construction in order to accommodate a modern business or professional office, at significant cost; and

WHEREAS, the applicant also asserts that the large size (approximately 6,000 sq. ft.) and depth (approximately 92

feet) of the second floor make residential use infeasible; and

WHEREAS, in particular, the applicant states that the second floor would be able to provide a rear yard depth of only ten feet, which is 20 feet less than the minimum required for habitable rooms; accordingly, all dwelling units must use the Third Avenue frontage of the building for required light and ventilation, which effectively prohibits the rear of the building from being converted to residences; and

WHEREAS, the applicant also states that the lack of light and ventilation owing to the building's depth would further decrease its attractiveness to modern business or professional offices, which prefer natural light; and

WHEREAS, similarly, the second floor's absence of street-level exposure makes it undesirable for local retail and service establishment uses, which rely primarily on pedestrian visibility and convenience of access in order to attract customers; as such, the rent for the second floor must be heavily discounted in order to offset the limitations of the space; and

WHEREAS, the applicant notes that the second floor's unattractiveness to tenants is evidenced by its 28-year vacancy, which, as noted above, began in 1972 and ended when a martial arts studio (a PCE) began occupying the space in 2000; and

WHEREAS, to support its claim of unique hardship, the applicant provided an area study of the 92 buildings within 600 feet of the site; and

WHEREAS, based on the study, only one other building has a second floor commercial use: 7819 Third Avenue, which has a Rite-Aid store on the first floor and "Tutor Time," an infant child care and preschool, on the second floor; and

WHEREAS, however, the applicant asserts that the Tutor Time building is distinguishable from the site, in that it has significantly more lot area (approximately 9,600 sq. ft.) and is located on a corner, where light and ventilation are available for residential or modern office uses; and

WHEREAS, the Board agrees with the applicant that the aforementioned unique physical conditions, when considered together, create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant asserts that, per ZR § 72-21(b), there is no reasonable possibility that the development of the site in conformance with the Zoning Resolution will bring a reasonable return; and

WHEREAS, in addition to the proposal, the applicant examined the economic feasibility of constructing a conforming office for a single user on the second floor; and

WHEREAS, the applicant concluded that the offices resulted in a negative rate of return after capitalization; in contrast, the applicant represents that the proposal results in a positive rate of return; and

WHEREAS, based upon its review of the applicant's economic analysis, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable zoning requirements will provide a reasonable

MINUTES

return; and

WHEREAS, the applicant represents that the proposed PCE will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, the applicant states that a PCE occupied the building (albeit without the required variance, as noted above) from approximately 2000 until 2012, and that this application has received letters of support from various community organizations as well as the community board; and

WHEREAS, the applicant represents that the surrounding community is characterized by low- to medium-density mixed residential and commercial uses, with many small business that are geared to local residents, and that the proposed PCE is consistent with such uses and will provide a valuable service; and

WHEREAS, as to the PCE's impact, the applicant represents that although light music may be played during workouts, the building's double concrete walls and extra padding will provide ample sound attenuation for both the neighboring buildings, and the grocery store use at the first floor; and

WHEREAS, in addition, consistent with the community board's request, as noted above, the hours of operation for the PCE will be limited to daily, from 7:00 a.m. to 10:00 p.m.; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that, consistent with ZR § 72-21(d), the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the history of manufacturing use on the second floor and the building's depth; and

WHEREAS, finally, the Board finds that the proposal is the minimum variance necessary to afford relief, as set forth in ZR § 72-21(e); and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the Board notes that because the use authorized herein is classified as a PCE, the variance will be granted for a term of ten years, to expire on March 11, 2024; and

WHEREAS, the Department of Investigation performed a background check on the corporate owner and operator of the PCE and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental

Assessment Statement (EAS) CEQR No. 14BSA045M, dated September 23, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, within a C1-3 (R6B) zoning district within the Special Bay Ridge District, the operation of a physical culture establishment ("PCE") within the second story of a two-story residential building, contrary to ZR § 32-10, *on condition* that any and all work will substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received December 23, 2013" – Four (4) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on March 11, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT all signage at the site will be limited to C1 zoning district regulations;

THAT all massages must be performed only by New York State licensed massage professionals;

THAT the hours of operation for the PCE will be limited to seven days per week, from 7:00 a.m. to 10:00 p.m.;

THAT the above conditions will appear on the certificate of occupancy;

THAT a new certificate of occupancy will be obtained within two years of the date of this grant, on March 11, 2016;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other

MINUTES

applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 11, 2014.

131-13-A & 132-13-A

APPLICANT – Sheldon Lobel, P.C., for Rick Russo, owner.
SUBJECT – Application May 10, 2013 – Proposed construction of a residence not fronting on a legally mapped street, contrary to General City Law Section 36. R2 & R1-1 (SHPD) zoning districts.

PREMISES AFFECTED – 43 & 47 Cecilia Court, Block 615, Lots 210 and 205, Borough of Staten Island.

COMMUNITY BOARD #1SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown and Commissioner Hinkson.....4

Negative: Commissioner Montanez.....1

THE RESOLUTION –

WHEREAS, the decisions of the Staten Island Borough Commissioner, dated May 6, 2013 and April 24, 2013, acting on Department of Buildings Application Nos. 520117506 and 520117490 read, in pertinent part:

The street giving access to proposed building is not duly placed on the official map of the City of New York therefore:

- A) No Certificate of Occupancy can be issued pursuant to Article 3, Section 36 of the General City Law
- B) Proposed construction does not have at least 8% of the total perimeter of building fronting directly upon a legally mapped street or frontage space contrary to Section 502.1 of the 2008 NYC Building Code; and

WHEREAS, a public hearing was held on this application on September 24, 2013, after due notice by publication in *The City Record*, with continued hearings on October 22, 2013, November 26, 2013, and December 17, 2013, and then to decision on January 28, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan and Commissioner Montanez; and

WHEREAS, City Councilmember Debbie Rose submitted testimony in opposition to the application, citing fire safety concerns; and

WHEREAS, certain members of the surrounding community, including a community group known as the Serpentine Art & Nature Commons, Inc. (the “Opposition”), provided written and oral testimony in opposition to the application citing the following concerns: (1) the slope of the roadway and its distance will interfere with firefighting operations; (2) the proposal is contrary to a private agreement

MINUTES

(a November 1950 restrictive covenant) concerning the site and other nearby parcels; and (3) the Board previously denied a GCL § 36 waiver application concerning the site in part because the Fire Department disapproved the application; and

WHEREAS, the subject site is located on Cecilia Court off of Howard Avenue, partially within an R1-1 zoning district and partially within an R2 zoning district, within the Special Hillside Preservation District; and

WHEREAS, the applicant states that the site does not front a mapped street, but has access to Howard Avenue, a mapped street, via a private utility and access easement formerly known as Howard Lane and now known as Cecilia Court, which was recorded on December 12, 1950 but does not appear on the City Map; the applicant notes that Cecilia Court has a width of 16 feet, a slope of approximately 12.2 percent and that the distance between the proposed building and Howard Avenue along Cecilia Court is 550 feet; and

WHEREAS, the applicant states that the site is vacant; however, it has been the subject of a series of Board and City Planning actions over the years; specifically, on February 28, 1989, under BSA Cal Nos. 26-86-A, 27-86-A and 28-86-A, the Board denied applications filed pursuant to GCL § 36 to permit construction of three single-family residences not fronting on a mapped street; on January 6, 1998, under BSA Cal. No. 209-07-A, the Board granted an application filed pursuant to GCL § 36 to permit the construction of one single-family residence not fronting on a mapped street; in 2001, the Department of City Planning approved an authorization application filed under ULURP No. N000523 ZAR to allow the construction of a single-family residence on former Lot 210; and

WHEREAS, the applicant now seeks to construct two, three-story, single-family residences contrary to GCL § 36; and

WHEREAS, by letter dated August 26, 2013, the Fire Department stated that the residences are proposed on a private roadway having a substandard width, contrary to the Fire Code, but that it would not object to their construction provided that the residences are fully-sprinklered in accordance with New York City Building Code § 903 and the Fire Interim guidelines, which state that the Fire Department will grant a modification for construction of new occupancy group R-3 (one-family and two-family) dwellings with modified fire apparatus access if the building is designed, constructed, and maintained in accordance with New York City Building Code § 903; and

WHEREAS, on September 3, 2013, the applicant submitted a revised site plan to address the request of the Fire Department; and

WHEREAS, at hearing, the Board raised concerns regarding the slope of the roadway and the firefighting apparatus access; and

WHEREAS, in response, the applicant submitted a letter, a survey, and a site plan, which contends that: (1) the existing roadway was constructed prior to the current Fire Code requirements and Special Hillside Preservation District regulations and has served as access for emergency services to

the existing homes fronting the roadway for many years; and (2) the Fire Department firefighting manual indicates that the maximum roadway slope for a tower ladder is 15 percent, which is more than the existing mean slope of 12.2 percent and significantly more than the proposed slope of 7.3 percent for the proposed cul-de-sac; therefore, the applicant asserts that either slope is within the acceptable slope for firefighting purposes; and

WHEREAS, by letter dated October 22, 2013, the Opposition raises concerns regarding the information provided by the applicant as to the length and slope of the grade; and

WHEREAS, by letter dated October 28, 2013, the Fire Department informed the Board that, based on additional information regarding the site, it now objected to the proposed roadway because it included grades substantially in excess of ten percent, contrary to Fire Code § 503.2.7; and

WHEREAS, following a series of discussions and letters among the parties, the Fire Department approved the revised proposal, subject to the following conditions: (1) the residences will be fully-sprinklered; (2) a Fire Code-compliant apparatus turnaround will be installed; (3) two new fire hydrants will be installed; (4) a new eight-inch water main from Howard Avenue to the northerly end of the private road will be installed; and (5) the applicant will provide satisfactory evidence to the Department of Buildings that there is unrestricted permanent access along the length of the private road to the applicant's property line; and

WHEREAS, in response to the issues identified by the Opposition regarding Cecilia Court, which is a private easement, the applicant acknowledged that it would be required to seek authorization from the other parties to the 1950 restrictive covenant in order to implement certain Fire Department conditions; and

WHEREAS, on January 15, 2014, the applicant submitted a revised site plan that was reviewed and approved by the Fire Department; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved, that the decisions of the Staten Island Borough Commissioner, dated July 15, 2013, acting on Department of Buildings Application Nos. 520117506 and 520117490 is modified by the power vested in the Board by Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction will substantially conform to the drawings filed with the application marked "Received January 15, 2014" (2) sheets; and *on further condition*

THAT the proposal will comply with all applicable zoning district requirements and all other applicable laws, rules, and regulations;

THAT all required approvals from the Department of City Planning will be obtained prior to the issuance of building permits;

THAT the building will be fully sprinklered in accordance with BSA-approved plans;

THAT a Fire Code-compliant apparatus turnaround will

MINUTES

be installed;

THAT two new fire hydrants will be installed;

THAT a new eight-inch water main from Howard Avenue to the northerly end of the private road will be installed;

THAT the applicant will provide satisfactory evidence to the Department of Buildings that there is unrestricted permanent access along the length of the private road to the applicant's property line;

THAT there will be "No Parking" along the entire length of the easement;

THAT the conditions requested by the Fire Department be implemented before the Temporary Certificate of Occupancy and Certificate of Occupancy are issued;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT DOB will review the proposed plans to ensure compliance with all relevant provisions of the Zoning Resolution;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals on January 28, 2014.

The resolutions have been amended. Corrected in Bulletin No. 11, Vo. 99, dated March 19, 2014.

*CORRECTION

The resolution adopted on January 28, 2014, under Calendar No. 292-13-BZ and printed in Volume 99, Bulletin Nos. 4-5, is hereby corrected to read as follows:

292-13-BZ

CEQR #14-BSA-060K

APPLICANT – Sheldon Lobel, P.C., for Congregation Bet Yaakob, Inc., owner.

SUBJECT – Application October 23, 2013 – Variance (§72-21) to allow the development of a Use Group 4A house of worship (*Congregation Bet Yaakob*), contrary to floor area, open space ratio, front, rear and side yards, lot coverage, height and setback, planting, landscaping and parking regulations. R5, R6A and R5/OP zoning districts.

PREMISES AFFECTED – 2085 Ocean Parkway, northeast corner of the intersection of Ocean Parkway and Avenue U, Block 7109, Lots 56 & 50 (Tentative Lot 56), Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez

Negative:.....5

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated October 21, 2013, acting on Department of Buildings Application No. 320345710 reads, in pertinent part:

1. Proposed Floor Area exceeds the maximum allowed pursuant to ZR Sections 113-11, 23-141b, 23-17, 24-11, 24-17, 77-22
2. Proposed Open Space is less than minimum required pursuant to ZR Sections 113-11, 23-141b, 23-17, 24-11, 24-17, 77-23
3. Proposed Lot Coverage exceeds the maximum permitted pursuant to ZR Sections 113-11, 23-141b, 23-17, 24-11, 24-17, 77-24
4. Proposed Front Yard is less than minimum required pursuant to ZR Sections 113-12, 23-45 and does not comply with planting requirements in ZR Section 23-451
5. Proposed Level of Front Yard is higher than level permitted pursuant to ZR Section 23-42
6. Proposed Front Yard does not comply with landscaping regulations per ZR 113-30
7. Proposed Rear Yard is less than rear yard required pursuant to ZR Sections 113-11b and 24-36
8. Proposed Side Yards are less than required pursuant to ZR Sections 113-11, 23-464
9. Proposed new building exceeds maximum Height and Setback requirements pursuant to

MINUTES

ZR Sections 113-11, 23-631d, 24-17, 24-593, 23-633a2, 77-28

10. Proposed Side and Rear Yard Setbacks are less than required pursuant to ZR Sections 113-11 and 23-662
11. Proposed development provides less than required parking spaces pursuant to ZR Sections 113-561, 25-31, 25-35
12. Proposed clerestory exceeds max height for permitted obstructions pursuant to ZR Sections 113-11 and 23-62(l); and

WHEREAS, this is an application for a variance pursuant to ZR § 72-21 to permit, on a site within R5 (Special Ocean Parkway District), R6A (Special Ocean Parkway District), and R5 (Special Ocean Parkway Subdistrict) zoning districts, the construction of a two- and three-story building to be occupied by a synagogue, which does not comply with the underlying zoning district regulations for floor area, open space, lot coverage, front yard, level of front yard, side yard, rear yard, height and setback, side and rear setback, special landscaping, and parking, contrary to ZR §§ 23-141(b), 23-17, 23-45, 23-451, 23-464, 23-631(a), 23-62(1), 23-633(a)2, 23-662, 24-11, 24-17, 24-36, 24-593, 25-31, 25-35, 77-22, 77-23, 77-24, 77-28, 113-11, 113-12, 113-30, 113-561 and 23-42; and

WHEREAS, a public hearing was held on this application on November 19, 2013, after due notice by publication in *The City Record*, with a continued hearing on December 11, 2013, and then to decision on January 28, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of the application; and

WHEREAS, certain members of the community provided testimony in support of the proposal; and

WHEREAS, certain members of the community provided testimony in opposition to the proposal, citing concerns about the bulk and potential impact on light and air and potential noise impact associated with the building's mechanicals; and

WHEREAS, this application is being brought on behalf of Congregation Bet Yaakob (the "Synagogue"), a non-profit religious entity which will occupy the proposed Edmond J. Safra Synagogue building; and

WHEREAS, the subject site is located on the northeast corner of Ocean Parkway and Avenue U within R5 (Special Ocean Parkway District), R6A (Special Ocean Parkway District), and R5 (Special Ocean Parkway Subdistrict) zoning districts; and

WHEREAS, on October 16, 2012, the Board granted a variance application pursuant to ZR § 72-21, under BSA Cal. No. 168-11-BZ, to permit the construction of a four-story synagogue on Block 7109, Lot 50 (formerly Lots 48 and 50) (the "Prior Variance"); the Prior Variance reflected

a building with a maximum floor area of 20,461 sq. ft. (2.3 FAR), a maximum wall height of 60'-0" and a total height of 62'-4", a minimum open space of 1,866 sq. ft., and a maximum lot coverage of 6,968 sq. ft. (79 percent); and

WHEREAS, the applicant represents that construction pursuant to the Prior Variance has not commenced; and

WHEREAS, the applicant represents that subsequent to the Prior Variance, the Congregation purchased the adjacent Lot 56, which resulted in a redesign of the building and requires a new approval for the synagogue on combined Lots 50 and 56 that more fully meets the needs of the growing Congregation; and

WHEREAS, the merged lot has a total lot area of 14,840 sq. ft.; it was formerly occupied by a two-story home on former Lot 50 and a two-story home on former Lot 48, both of which were unoccupied and sealed at the time of purchase, and the newly-acquired Lot 56 is currently occupied by a two-story residence; and

WHEREAS, the inclusion of Lot 56 increases the lot area of the zoning lot from 8,840 sq. ft. to 14,840 sq. ft., which allows for construction of a larger synagogue building with a more accommodating layout; and

WHEREAS, the applicant proposes the following parameters: two/three stories; a floor area of 22,314 sq. ft. (1.5 FAR) (a maximum community facility floor area of 21,815 sq. ft. and an aggregate between the R5 and R6A zoning districts of 1.47 FAR is permitted); a lot coverage of 63 to 72 percent (maximum permitted lot coverage ranges from 45/55 to 60 percent); an open space of 28 to 36 percent (the minimum required open space ranges from 38 to 45 percent); a maximum wall height of 47'-10" and a maximum total height of 62'-0" (the maximum permitted height ranges from 35'-0" (R5) to 50'-0" (R6A)); the clerestory (skylight over the third floor) to a height of 57'-3", which is 9'-5" above the roof of the three-story front portion of the building (exceeds the maximum height of a permitted obstruction); the proposed level of the front and rear yards 3'-4" above the permitted curb level; and no parking spaces (a minimum of 23 parking spaces are required); and

WHEREAS, under the current application, the applicant initially proposed a new building height of 70'-0"; and

WHEREAS, however, in response to concerns raised by the Board at public hearing, the applicant reduced the building height to 59'-5" at the roof ridge in the R5 corner portion of the lot and to 62'-0" in the R6A interior lot portion of the site; and

WHEREAS, as to yards, the applicant notes that the site is partially a corner lot and partially an interior lot, thus the yard requirements vary across the site; however, it will provide a front yard with the required depth of 30'-0" along Ocean Parkway but no front yard along Avenue U (a front yard with a depth of 10'-0" is required); a side yard with a width of 8'-0" on the corner portion adjacent to the neighbor on Ocean Parkway; and a rear yard with a depth of 30'-0" on the L-shaped portion of the lot within the subdistrict, but

MINUTES

no front yard in the interior portion of the lot; and

WHEREAS, the proposal provides for the following uses: (1) a social hall, men's mikvah, and a kitchen at the cellar level; (2) the main men's sanctuary and Bet Midrash (accessory prayer room) and a Brit Milah at the first floor; (3) the women's sanctuary balcony, a kitchenette (warming pantry), boys' and girls' minyans (accessory prayer room) on the second floor; and (4) a young adult minyan, a board room, and two offices at the third floor; and

WHEREAS, the applicant states that the following are the primary programmatic needs of the Synagogue which necessitate the requested variances: (1) to accommodate the growing congregation currently of approximately 600 worshippers; (2) to provide a separate worship space for male and female congregants; (3) to provide sufficient separation of space so that multiple activities may occur simultaneously; and (4) to provide accessory space including offices and a social hall; and

WHEREAS, the applicant states that the as-of-right building would have the following restrictions: a total height of 49'-0", a front yard of 30'-0" along Ocean Parkway, a front yard of 10'-0" along Avenue U, and a side yard of 13'-10"; it would allow for a social hall of only 3,090 sq. ft.; a main men's sanctuary of 1,250 sq. ft. (to accommodate 208 people); and a main women's sanctuary of 645 sq. ft. (to accommodate 120 people) – all of which are far too small to accommodate the Congregation; and

WHEREAS, further, the applicant asserts that only one Bet Midrash could be provided, instead of three, and a men's mikvah space could not be provided; and

WHEREAS, the applicant states that the height and setback waivers permit the double-height ceiling of the second floor main synagogue which is necessary to create a space for worship and respect and an adequate ceiling height for the second floor women's balcony; and

WHEREAS, the applicant states that the parking waiver is only related to the portion of the site within the R5 zoning district and that there is not a parking requirement for a house of worship under R6A zoning district regulations; and

WHEREAS, the applicant notes that approximately 95 percent of congregants live within walking distance of the site and must walk on certain days for reasons of religious observance; and

WHEREAS, the applicant states that 76 percent of the congregation lives within a three-quarter-mile radius of the site, which exceeds the 75 percent required under ZR § 25-35 to satisfy the City Planning Commission certification for a locally-oriented house of worship; and

WHEREAS, the applicant states that it requests a waiver of the Special Ocean Parkway District's special landscaping requirements for the front yard along Ocean Parkway as the front yard is necessary for a ramp and the main entrance; and

WHEREAS, the applicant notes that the site will be landscaped with trees and shrubbery along Avenue U, where the proposed building has 143'-0" of frontage, as well as along Ocean Parkway; and

WHEREAS, the applicant states that the congregation

has occupied a nearby rental space for the past three years, which accommodates only 275 seats and is far too small to accommodate the current membership of 600 adults; and

WHEREAS, the applicant states that the requested waivers enable the Synagogue to construct a building that can accommodate its growing congregation as well as provide a separate worship space for men and women, as required by religious doctrine, space for religious counseling, and a multipurpose room for educational and social programming; and

WHEREAS, as far as the changes from the proposal associated with the Prior Variance and the current proposal, the applicant states that the current proposal decreases the relief sought for FAR from 2.3 to 1.5 (1.47 FAR is the maximum permitted), open space, and lot coverage; and

WHEREAS, the applicant asserts that the proposed more uniform floor plate allows for a more functional floor layout and better circulation between the social hall, kitchen, and accessory storage; and

WHEREAS, further, the applicant notes that the modified proposal will allow for a total occupancy of 329 people in the social hall, rather than 221 people as approved by the Prior Variance; the current proposal also allows for a larger men's mikvah to be located at the cellar level rather than the first floor, as approved by the Prior Variance; and

WHEREAS, the applicant states that Jewish Law prescribes that congregants face east while praying, thus, the circular shape and downward sloping angle of the main sanctuary is designed in such a way to observe this religious requirement while also increasing the floor area from the main sanctuary previously approved, which was located on the second floor; and

WHEREAS, the applicant notes that the new first floor design allows for a Bet Midrash (accessory prayer room) and a Brit Milah room, which are critical spaces for an Orthodox synagogue but could not be accommodated in the smaller building approved through the Prior Variance; and

WHEREAS, the applicant states that now the women's sanctuary balcony is on the second, rather than third floor and has an increase in occupancy of 31 people from 192 to 223 people and that the new design allows for three prayer rooms for young people; and

WHEREAS, the applicant states that the requested waivers are necessary to provide enough space to meet the programmatic needs of the congregation; and

WHEREAS, the Board acknowledges that the Synagogue, as a religious institution, is entitled to significant deference under the law of the State of New York as to zoning and as to its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in Westchester Reform Temple v. Brown, 22 NY2d 488 (1968), a religious institution's application is to be permitted unless it can be shown to have an adverse effect upon the health, safety, or welfare of the community, and general concerns about traffic and disruption of the residential character of a neighborhood are insufficient grounds for the denial of an application; and

MINUTES

WHEREAS, in addition to its programmatic needs, the applicant states that there are unique physical conditions of the site – including its L-shape; the narrow yet deep easternmost portion (formerly Lot 48); the location of multiple zoning district and special district boundary lines within the site; and the high groundwater condition; and the requirements for mechanical space, which contribute to the hardship at the site; and

WHEREAS, the applicant acknowledges that the Congregation created the irregular L-shape by merging two adjacent lots (former Lots 50 and 48), but that this lot area is critical to providing adequate space for a synagogue building with sufficient size to meet the programmatic needs; and

WHEREAS, further, the applicant notes that absent the lot merger, the 130'-0" depth and 18'-0" width of the easternmost portion of the site fronting on Avenue U presents unique physical conditions which support the request for waivers; and

WHEREAS, based upon the above, the Board finds that the programmatic needs of the Synagogue create unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, the Board notes that certain of the site conditions contribute to the hardship associated with the site such as the irregularity of the long narrow easternmost portion; and

WHEREAS, the applicant need not address ZR § 72-21(b) since the Synagogue is a not-for-profit organization and the proposed development will be in furtherance of its not-for-profit mission; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the proposed use is permitted in the subject zoning districts; and

WHEREAS, as to bulk, the applicant performed a study of buildings within approximately a ½-mile radius of the site, which reflects that there are 18 buildings that are taller, contain more floor area and/or have a higher FAR than the proposed building; and

WHEREAS, specifically, the applicant states that there are eight buildings with a height of 62'-0" or greater within its study area; and

WHEREAS, further, the applicant notes that DOB has approved plans for a six-story 20-unit apartment building with a height of 70'-0" for the site adjacent to the east at 623 Avenue U; and

WHEREAS, as to yards, the applicant notes that the side yard and front yard conditions were existing longstanding non-compliances with the historic residential use of the site; and

WHEREAS, specifically, the applicant notes that the former homes had non-complying yard conditions, including that the home on Lot 50 was built to the front lot line along Avenue U and the home on Lot 48 only provided a front yard with a depth of 1'-11" on Avenue U and was built to the side

lot line; and

WHEREAS, further, the applicant notes that although the yards do not meet the minimum yard requirements for a community facility, the proposal does reflect a front yard with a depth of 30'-0" along Ocean Parkway, a side yard with a width of 8'-0" adjacent to the neighboring site on Ocean Parkway, and a rear yard with a depth of 30'-0" is provided on former Lot 48; and

WHEREAS, the applicant also notes that unlike in the Prior Variance, no portion of the current proposal is located in the R5 (Special Ocean Parkway Subdistrict) portion of the site located to the rear of the adjacent homes; and

WHEREAS, as to the Special Ocean Parkway District's landscaping and front yard planting requirements, the applicant asserts that it will maintain landscaping and provide trees and shrubbery along Avenue U, where the Synagogue has 143'-0" of frontage, as well as plantings along Ocean Parkway; and

WHEREAS, in response to concerns the Board raised about the planting requirement along Ocean Parkway, the applicant increased the percentage of yard plantings from 41 percent to 50.1 percent; and

WHEREAS, as to parking, the applicant notes that the majority of congregants will walk to the site and that there is not any demand for parking; and

WHEREAS, further, as noted above, the applicant represents that 76 percent of congregants live within a three-quarter-mile radius of the site and thus are within the spirit of City Planning's parking waiver for houses of worship; and

WHEREAS, the Board notes that, based on the applicant's representation, this proposal would meet the requirements for a parking waiver at the City Planning Commission, pursuant to ZR § 25-35 – Waiver for Locally Oriented Houses of Worship - but for the fact that a maximum of ten spaces can be waived in the subject R5 zoning district under ZR § 25-35; and

WHEREAS, in support of this assertion, the applicant submitted evidence reflecting that at least 75 percent of the congregants live within three-quarters of a mile of the subject site; and

WHEREAS, in response to questions raised about the proposed emergency generator, the applicant responded that it will only be used in the event of an emergency (and subject to a test for functioning once per month) and the sound level will be similar to existing sound levels in the surrounding neighborhood; and

WHEREAS, the applicant also notes that it proposed baffling with a height of 12'-0", which is the minimum height to adequately buffer the HVAC equipment on the roof, thus, lowering the height is not feasible; and

WHEREAS, accordingly, the Board finds that this action will neither alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that the hardship was not self-created and that no development that would meet

MINUTES

the programmatic needs of the Synagogue could occur on the existing lot; and

WHEREAS, accordingly, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, the Board finds the requested waivers to be the minimum necessary to afford the Synagogue the relief needed to meet its programmatic needs; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 14BSA060K, dated October 23, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, on a site within R5 (Special Ocean Parkway District), R6A (Special Ocean Parkway District), and R5 (Special Ocean Parkway Subdistrict) zoning districts, the construction of a two- and three-story building to be occupied by a synagogue, which does not comply with the underlying zoning district regulations for floor area, open space, lot coverage, front yard, level of front yard, side yard, rear yard, height and setback, side and rear setback, special landscaping, and parking, contrary to ZR ZR §§ 23-141(b), 23-17, 23-45, 23-451, 23-464, 23-631(a), 23-62(1), 23-633(a)2, 23-662, 24-11, 24-17, 24-36, 24-593, 25-31, 25-35, 77-22, 77-23, 77-24, 77-28, 113-11, 113-12, 113-30, 113-561 and 23-42; *on condition* that any and all work will substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received December 3, 2013" – Seventeen (17) sheets; and

on further condition:

THAT the building parameters will be: two/three stories; a maximum floor area of 22,314 sq. ft. (1.5 FAR); a maximum wall height of 47'-10" and total height of 62'-0"; a minimum open space ratio of 36 percent on the corner portion of the lot and 28 percent on the interior portion of the lot; and a maximum lot coverage of 63 percent on the corner portion of the lot and 72 percent on the interior portion of the lot, as illustrated on the BSA-approved plans;

THAT sound attenuation measures be installed and maintained as reflected on the BSA- approved plans;

THAT landscaping be maintained as reflected on the BSA-approved plans;

THAT any change in control or ownership of the building will require the prior approval of the Board;

THAT the use will be limited to a house of worship (Use Group 4);

THAT no commercial catering will take place onsite;

THAT the above conditions will be listed on the certificate of occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT construction will proceed in accordance with ZR § 72-23;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 28, 2014.

The resolution has been amended. Corrected in Bulletin No. 11, Vo. 99, dated March 19, 2014.

Jeff Mulligan, Executive Director

MINUTES

**REGULAR MEETING
TUESDAY MORNING, MARCH 25, 2014
10:00 A.M.**

Present: Chair Srinivasan, Vice-Chair Collins,
Commissioner Ottley-Brown, Commissioner Hinkson and
Commissioner Montanez.

SPECIAL ORDER CALENDAR

923-77-BZ

APPLICANT – Rothkrug Rothkrug & Spector LLP, for
1899-1905 McDonald Avenue Associates, LLC, owner.

SUBJECT – Application November 14, 2013 – Extension of
Term of a previously approved Variance (§72-21) which
permitted a one-story manufacturing building which expired
on May 31, 2013. R5 (OP) zoning district.

PREMISES AFFECTED – 1905 McDonald Avenue, east
side of McDonald Avenue, 105 ft. south of Quentin Road,
Block 6658, Lot 86, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application granted on
condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins,
Commissioner Ottley-Brown, Commissioner Hinkson and
Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the
Rules of Practice and Procedure, a reopening, and an
extension of term for the continued operation of a
manufacturing use (Use Group 17) on a site within an R5
zoning district, within the Special Ocean Parkway District,
which expired on May 31, 2013; and

WHEREAS, a public hearing was held on this
application on February 4, 2014, after due notice by
publication in *The City Record*, with a continued hearing on
March 4, 2014, and then to decision on March 25, 2014; and

WHEREAS, the premises and surrounding area had site
and neighborhood examinations by Chair Srinivasan,
Commissioner Hinkson, and Commissioner Ottley-Brown;
and

WHEREAS, Community Board 15, Brooklyn,
recommends approval of this application; and

WHEREAS, the subject site is an interior lot located on
the east side of McDonald Avenue, between Quentin Road
and Woodside Avenue, within an R5 zoning district, within
the Special Ocean Parkway District; and

WHEREAS, the site has 6,326 sq. ft. of lot area and is
occupied by a one-story manufacturing building with 6,043 sq.
ft. of floor area (0.96 FAR); and

WHEREAS, the Board has exercised jurisdiction over
the site since May 31, 1978, when, under the subject calendar
number, the Board granted a variance permitting the

construction of a one-story manufacturing building within an
R5 zoning district, contrary to use regulations and for a term
of 15 years, to expire on May 31, 1993; and

WHEREAS, on March 8, 1994, the Board amended the
grant to permit the construction of a mezzanine within the
building and extended the term for ten years, to expire on May
31, 2003; and

WHEREAS, most recently, on March 30, 2004, the
Board extended the term of the grant for ten years, to expire
on May 31, 2013; and

WHEREAS, the applicant now requests an extension of
the term of the grant for ten years; and

WHEREAS, pursuant to ZR §§ 72-01 and 72-22, the
Board may extend the term of a variance; and

WHEREAS, at hearing, the Board directed the applicant
to: (1) remove the materials that are being stored outside of
the building; and (2) confirm that the signage complies with
the C1 district regulations; and

WHEREAS, in response, the applicant submitted: (1)
photographs showing the removal of the improperly-stored
materials; and (2) a signage analysis demonstrating
compliance with the C1 district regulations; and

WHEREAS, the Board has reviewed the application and
has determined that this application is appropriate to grant,
with certain conditions.

Therefore it is Resolved, that the Board of Standards and
Appeals waives the Rules of Practice and Procedure, reopens
and amends the resolution, as adopted on May 31, 1978, so
that as amended this portion of the resolution will read: “to
grant an extension of the variance for a term of ten years from
the prior expiration, to expire on May 31, 2023, *on condition*
that any and all work will substantially conform to the
previously-approved BSA drawings; and *on further condition*;

THAT the term of the variance will expire on May 31,
2023;

THAT the above condition will be listed on the
certificate of occupancy;

THAT an amended certificate of occupancy will be
obtained by March 25, 2015;

THAT all conditions from prior resolutions not waived
herein by the Board remain in effect;

THAT this approval is limited to the relief granted by
the Board in response to specifically cited and filed
DOB/other jurisdiction objection(s); and

THAT DOB must ensure compliance with all other
applicable provisions of the Zoning Resolution, the
Administrative Code and any other relevant laws under its
jurisdiction irrespective of plan(s) and/or configuration(s) not
related to the relief granted.”

(DOB App. No. 320756801)

Adopted by the Board of Standards and Appeals, March
25, 2014.

1070-84-BZ

APPLICANT – Law Office of Fredrick A. Becker, for Epsom Downs, Inc., owner.

SUBJECT – Application November 7, 2013 – Extension of Term of a previously granted Variance (§72-21) for the continued operation of a UG6 Eating and Drinking establishment (*The Townhouse*) which expired on July 9, 2010; Extension of time to obtain a Certificate of Occupancy which expired on January 9, 2003; Waiver of the Rules. R8 zoning district.

PREMISES AFFECTED – 234 East 58th Street, south side of East 58th Street, Block 1331, Lot 32, Borough of Manhattan.

COMMUNITY BOARD #6M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, an extension of term for the continued operation of an eating and drinking establishment (Use Group 6) on a site within an R8B zoning district, which expired on July 9, 2010, and an extension of time to obtain a certificate of occupancy, which expired on January 9, 2003; and

WHEREAS, a public hearing was held on this application on February 11, 2014, after due notice by publication in *The City Record*, with a continued hearing on March 4, 2014, and then to decision on March 25, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Montanez; and

WHEREAS, Community Board 6, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is an interior lot located on the south side of East 58th Street, between Second Avenue and Third Avenue, within an R8B zoning district; and

WHEREAS, the site has 3,015 sq. ft. of lot area and is occupied by a six-story mixed residential and commercial building with 13,650 sq. ft. of floor area (4.5 FAR); and

WHEREAS, the applicant notes that portions of the cellar and first floor of the building are occupied by an eating and drinking establishment known as “The Townhouse Bar,” which has been in operation for more than 20 years; and

WHEREAS, the Board has exercised jurisdiction over the site since July 9, 1985, when, under the subject calendar number, the Board granted a variance to permit the conversion of portions of the cellar and first story of an existing mixed residential and commercial building from showrooms (cellar) and apartments (first floor) to an eating and drinking establishment (Use Group 6) within what was then an R8 zoning district, contrary to use regulations and for a term of 15 years, to expire on July 9, 2000; and

WHEREAS, the grant was amended and extended over the years, most recently on January 9, 2001, when the Board extended the term for ten years, until July 9, 2010; a condition of the grant was that a new certificate of occupancy would be obtained by January 9, 2003; and

WHEREAS, accordingly, the applicant now requests an extension of the term of the grant for ten years and an extension of time to obtain a certificate of occupancy; and

WHEREAS, pursuant to ZR §§ 72-01 and 72-22, the Board may extend the term of a variance; and

WHEREAS, at hearing, the Board directed the applicant to: (1) notify the tenants within the building of the application; and (2) confirm that the musical entertainment performed at the establishment is within the parameters of Use Group 6; and

WHEREAS, in response, the applicant submitted: (1) proof that the tenants were notified; and (2) an amended statement clarifying that there is not a set time or a cover charge for its musical performances; in addition, the applicant notes that the establishment’s capacity is below 200 persons; and

WHEREAS, the Board has reviewed the application and has determined that this application is appropriate to grant, with certain conditions.

Therefore it is Resolved, that the Board of Standards and Appeals waives the Rules of Practice and Procedure, reopens and amends the resolution, as adopted on July 9, 1985, so that as amended this portion of the resolution will read: “to grant an extension of the variance for a term of ten years from the prior expiration, to expire on July 9, 2020, *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked ‘Received November 7, 2013’ - Five (5) sheets; and *on further condition*:

THAT the term of the variance will expire on July 9, 2020;

THAT the occupancy of the establishment will not exceed 200 persons;

THAT the above condition will be listed on the certificate of occupancy;

THAT an amended certificate of occupancy will be obtained by March 25, 2015;

THAT all conditions from prior resolutions not waived herein by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, March 25, 2014.

799-89-BZ

APPLICANT – Law Office of Jay Goldstein, PLLC, for 1470 Bruckner Boulevard Corp., owner.

SUBJECT – Application September 24, 2013 – Extension of Term of a previously approved Variance (ZR 72-21) for the continued operation of a UG 17 Contractor's Establishment (*Colgate Scaffolding*) which expired on December 23, 2013. C8-1/R6 zoning district.

PREMISES AFFECTED – 1460-1470 Bruckner Boulevard, On the South side of Bruckner Blvd between Colgate Avenue and Evergreen Avenue. Block 3649, Lot 27 & 30. Borough of Bronx.

COMMUNITY BOARD #9BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for an extension of term for a variance authorizing a contractor's establishment (Use Group 17) on a site partially within a C8-1 zoning district and partially within an R6 zoning district, which expired on December 23, 2013; and

WHEREAS, a public hearing was held on this application on January 28, 2014, after due notice by publication in *The City Record*, with a continued hearing on March 4, 2014, and then to decision on March 25, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, Community Board 9, Bronx, recommends approval of this application; and

WHEREAS, the subject site spans the south side of Bruckner Boulevard between Colgate Avenue and Evergreen Avenue, and is located partially within a C8-1 zoning district and partially within an R6 zoning district; and

WHEREAS, the site is occupied by two one-story industrial buildings occupied as a contractor's establishment (Use Group 17) and accessory at-grade parking; and

WHEREAS, the site has been subject to the Board's jurisdiction since July 25, 1950, when, under BSA Cal. No. 380-50-BZ, the Board granted a variance to permit, in a residence district, the construction and maintenance of a building on Lot 30 for storage and sale of automobile parts and automobiles, an accessory office, and an automobile repair shop; on July 21, 1953, the Board granted a variance to permit, in a residence district, the construction and maintenance of a building on Lot 27 for an automobile repair shop with painting and welding; and

WHEREAS, subsequently, around 1989, one owner took control of the lots and began using them together as a contractor's establishment (Use Group 17), and on July 13, 1993, the Board granted a variance legalizing the consolidation and the use for a term of ten years, to expire

on July 13, 2003; and

WHEREAS, by resolution dated December 23, 2003, the Board granted an extension of the term of the variance for ten years, to expire on December 23, 2013; and

WHEREAS, the applicant now seeks to extend the term of the variance authorizing the contractor's establishment for ten years; and

WHEREAS, at hearing, the Board directed the applicant to: (1) remove barbed wire from the fence surrounding the site; (2) submit photographs showing the removal of debris from the parking areas on the site; and (3) confirm that the accessory signage was limited to Colgate Avenue and Bruckner Boulevard; and

WHEREAS, in response, the applicant submitted photographs showing the removal of the barbed wire and debris; in addition, the applicant confirmed that accessory signage was limited to Colgate Avenue and Bruckner Boulevard and would not be placed along Evergreen Avenue; and

WHEREAS, based upon its review of the record, the Board finds that an extension of term for ten years is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated July 13, 1993, so that as amended the resolution reads: "to grant an extension of the variance for a term of ten years, to expire on December 23, 2023; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked 'Received September 24, 2013- Five (5) sheets; and *on further condition*:"

THAT this grant will be limited to a term of ten years, to expire on December 23, 2023;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, March 25, 2014.

287-01-BZ

APPLICANT – Law Office of Fredrick A. Becker, for Related Broadway Development LLC, owner; TSI West 94, LLC dba New York Sports club, lessee.

SUBJECT – Application November 20, 2013 – Extension of Term of a previously approved special permit (§73-36) permitting the operation of a physical culture establishment, which expired on April 16, 2011; Waiver of the Rules. C4-6/R8 zoning district.

PREMISES AFFECTED – 2523-2525 Broadway, west side of Broadway between West 93rd Street and West 94th Street, Block 1242, Lot 10, 55, Borough of Manhattan.

COMMUNITY BOARD #7M

MINUTES

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening, a waiver of the Rules of Practice and Procedure, an amendment, and an extension of term for a physical culture establishment (“PCE”), which expired on April 16, 2011; and

WHEREAS, a public hearing was held on this application on February 25, 2014, after due notice by publication in *The City Record*, and then to decision on March 25, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 7, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is a corner lot with frontages along West 94th Street, West 95th Street, and Broadway, partially within a C4-6A zoning district and partially within an R8 zoning district, within a Special Enhanced Commercial District; and

WHEREAS, the site is occupied by a 21-story mixed residential and commercial building; and

WHEREAS, the PCE is located on portions of the cellar (8,723 sq. ft. of floor space) and first (800 sq. ft. of floor area) and second floors (6,987 sq. ft. of floor area) for a total PCE floor space of 16,060 sq. ft.; and

WHEREAS, the PCE is operated entirely within the C4-6A portion of the site; and

WHEREAS, the PCE is operated as New York Sports Club; and

WHEREAS, on April 16, 2002, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-36, to permit, on a site partially within a C4-6A zoning district and partially within an R8 zoning district, within a Special Enhanced Commercial District, the legalization of an existing PCE for a term of nine years, to expire on April 16, 2011; and

WHEREAS, the applicant now seeks an amendment regarding the hours of operation and an extension of the term of the PCE special permit for ten years; and

WHEREAS, as to the hours of operation, the applicant noted that the operator has changed the hours of operation from Monday through Thursday, from 6:00 a.m. to 11:00 p.m., Friday, from 6:00 a.m. to 9:00 p.m. and Saturday and Sunday, from 9:00 a.m. to 7:00 p.m. to Monday through Thursday, from 5:00 a.m. to 12:00 a.m., Friday, from 5:00 a.m. to 10:00 p.m., Saturday, from 7:00 a.m. to 10:00 p.m., and Sunday, from 8:00 a.m. to 10:00 p.m.; and

WHEREAS, at hearing, the Board directed the applicant

to clarify whether any residential units are located directly above the PCE and to note on the plans the sound attenuation measures that have been installed; and

WHEREAS, in response, the applicant confirmed that no residential units are located directly above the PCE and submitted amended plans showing the existing sound attenuation measures; and

WHEREAS, based upon its review of the record, the Board finds that an extension of term for ten years is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated April 16, 2002, so that as amended the resolution reads: “to grant the noted modification to the PCE’s hours of operation and to grant an extension of the special permit for a term of ten years from the prior expiration; *on condition* that the use will substantially comply with the drawings filed with this application marked ‘Received November 20, 2013’- (6) sheets; and *on further condition*:

THAT this grant will be limited to a term of ten years, to expire on April 16, 2021;

THAT the hours of operation will be limited to Monday through Thursday, from 5:00 a.m. to 12:00 a.m., Friday, from 5:00 a.m. to 10:00 p.m., Saturday, from 7:00 a.m. to 10:00 p.m., and Sunday, from 8:00 a.m. to 10:00 p.m.;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT there will be no change in ownership or operating control of the PCE without prior approval from the Board;

THAT the above conditions will appear on the certificate of occupancy;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, March 25, 2014.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins,
Commissioner Ottley-Brown, Commissioner Hinkson and
Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, and an extension of term of a variance to permit, on a site within a C1-1 (R3X) zoning district, the operation of an automotive service station (Use Group 16B) with an accessory convenience store, which expired on January 28, 2013; and

WHEREAS, a public hearing was held on this application on February 22, 2014, after due notice by publication in *The City Record*, with a continued hearing on March 4, 2014, and then to decision on March 25, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan and Commissioner Montanez; and

WHEREAS, Community Board 3, Staten Island, recommends approval of this approval; and

WHEREAS, the subject site is located on the southeast corner of Hylan Boulevard and Page Avenue, within a C1-1 (R3X) zoning district; and

WHEREAS, on January 28, 2003, under the subject calendar number, the Board granted a variance to permit the construction of an automotive service station with an accessory convenience store; and

WHEREAS, on May 22, 2007, the Board granted an extension of time to complete construction and obtain a certificate of occupancy, which expired on May 22, 2011; the Board granted an additional extension of time on September 20, 2011, to expire on September 20, 2015; and

WHEREAS, the applicant now seeks an extension of term for an additional ten years; and

WHEREAS, the applicant notes that there are no proposed changes to the BSA-approved plans; however, a new application number is required at DOB due to the delay in commencing construction under the original application number; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure *reopens* and *amends* the resolution, dated January 28, 2003, so that as amended the resolution reads: “to permit an extension of the term of the variance for an additional ten years, to expire on January 28, 2023”; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked ‘Received February 26, 2014’ - Six (6) sheets; and *on further condition*:

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Application No. 520046539)

Adopted by the Board of Standards and Appeals, March 25, 2014.

823-19-BZ

APPLICANT – Eric Palatnik, P.C., for Israel Minzer, owner.

SUBJECT – Application April 20, 2012 – Amendment (§§ 11-412 and 11-413) of a previously approved variance which permitted a one story warehouse (UG 16). The application seeks to construct an as-of-right two-story community facility (UG 4) atop the warehouse and reduce the warehouse space to accommodate 13 required accessory parking spaces for the proposed community facility use. R5 zoning district.

PREMISES AFFECTED – 1901 10th Avenue, southeast corner of East 19th Street and 10th Avenue, Block 890, Lot 1, Borough of Brooklyn.

THE RESOLUTION –

WHEREAS, the decision of the Staten Island Borough Commissioner, dated July 15, 2013, acting on Department of Buildings Application No. 520124552, reads in pertinent part:

Proposed construction on a 12-10 (a) Zoning Lot located within the bed of a mapped street is contrary to Section 35 of the General City Law; and

WHEREAS, a public hearing was held on this application on August 13, 2013, after due notice by publication in *The City Record*, with continued hearings on November 19, 2013 and March 4, 2014, and then to decision on March 25, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson and Commissioner Montanez; and

WHEREAS, this is an application to allow the construction of a two-story, two-family home within mapped but unbuilt portions of Hull Avenue; and

WHEREAS, the subject site is a corner lot located at the southwest corner of the intersection of Haven Avenue and Hull Avenue, within an R3-1 zoning district; and

WHEREAS, Hull Avenue is mapped to terminate at Haven Avenue but currently terminates in a dead-end near the western boundary of the site; and

WHEREAS, the applicant states that the site has a lot width of approximately 45 feet, a lot depth of approximately 80 feet, and approximately 3,502 sq. ft. of lot area; and

WHEREAS, the applicant notes that the proposed building will have approximately 1,961 sq. ft. of floor area (0.56 FAR) and that the site will include three accessory off-street parking spaces; and

WHEREAS, by letter dated May 9, 2013, the Fire Department states that it has reviewed the proposal and offers no objections; and

WHEREAS, by letter dated May 13, 2013, the Department of Environmental Protection (“DEP”) states that:

(1) there is an existing eight-inch diameter city water main in the bed of Hull Avenue between Haven Avenue and Boundary Avenue; (2) there is an existing ten-inch diameter sanitary sewer and an existing eight-inch diameter city water main in the bed of Haven Avenue between Hull Avenue and Adams Avenue; (3) the preliminary proposed Drainage Plan Sheet 8 of 12, dated June 5, 2012, calls for a future ten-inch diameter sanitary sewer and a 12-inch storm sewer to be installed in hull Avenue between Haven Avenue and Boundary Avenue, and for a future 10-inch sanitary sewer and a 12-inch diameter storm sewer in Haven Avenue between Hill Avenue and Adams Avenue; and

WHEREAS, DEP further states that it requires the applicant to submit a survey/plan showing: (1) the width of mapped Hull Avenue between Haven Avenue and Boundary Avenue, the width of the widening portions of the street and available portion of the street; (2) the width of mapped Haven Avenue between Hull Avenue and Adams Avenue and the width of widening portions of the street and available portions of the street; (3) the distances between the lot line of Lot 15 and end cap of the eight-inch diameter city water main in Hill Avenue; (4) the distance from the lot line of Lot 15 to the hydrant in Hull Avenue; and (5) a 32-foot wide sewer corridor in the bed of Haven Avenue between Hull Avenue and Adams Avenue for the installation, maintenance, and/or reconstruction of the future ten-inch diameter sanitary sewer, the 12-inch diameter storm sewer, the existing ten-inch diameter sanitary sewer and the 8-inch diameter water main; and

WHEREAS, in response to DEP’s request, by letter dated July 29, 2013, the applicant submitted a revised survey; and

WHEREAS, by letter dated August 12, 2013, DEP

MINUTES

states that, based on its review of the applicant's response, it has no objections to the proposal; and

WHEREAS, by email correspondence dated September 6, 2013, the Department of Transportation ("DOT") requested that the applicant perform a title search for the following streets: (1) Haven Avenue from Jefferson Avenue to Adams Avenue; and (2) Hull Avenue from Haven Avenue to Boundary Avenue ; and

WHEREAS, DOT also states that according to the Staten Island Topographical Bureau's records, the city does not have title to or a Corporation Counsel Opinion of Dedication ("CCO") for Hull Avenue at this location and that the city has a CCO for Haven Avenue at this location for 29 to 50 feet, as-in-use on April 4, 1991; and

WHEREAS, accordingly, DOT directed the applicant to perform a title search to determine the ownership of the portions of Hull Avenue and Haven Avenue in question; and

WHEREAS, following a series of correspondences between DOT and the applicant, DOT states that: (1) because the Staten Island Topographical Bureau identified Haven Avenue at this location as a CCO as-in-use, DOT cannot authorize the proposed clearing of the vegetation and the guardrail that juts into the mapped width of Haven Avenue; and (2) although the applicant has title to Haven Avenue up to the center line of Hull Avenue, the city does not own the other half and, as such, DOT cannot authorize the construction of continuous street infrastructure along Haven Avenue, which is required; and

WHEREAS, by letter dated March 18, 2014, the applicant states that based on its title company's representation, ownership of Haven Avenue to the center line of Hull Avenue remains with the city; and

WHEREAS, the Board notes that pursuant to GCL § 35, the Board may authorize construction within the bed of the mapped street subject to reasonable requirements; and

WHEREAS, the Board also notes that Haven Avenue has been a mapped street since December 5, 1929 and that DOT has not represented that construction within the unbuilt portions of Haven Avenue would either conflict or interfere with the its Capital Improvement Program; and

WHEREAS, accordingly, the Board finds that DOT's remaining concern regarding the identity of the owner of Haven Avenue beyond the guardrail is not a basis to deny the application; however, the applicant must determine the identity of the owner of that portion of Haven Avenue and obtain permission for the proposed improvements prior to the issuance of a building permit; and

WHEREAS, at hearing, the Board requested clarification regarding: (1) the proposed street setback's compliance with the Zoning Resolution; and (2) whether the proposed building could be aligned with the adjoining homes; and

WHEREAS, in response, the applicant states that setback is permitted from the record line because the site is a ZR § 12-10(a) zoning lot; as to aligning with the adjacent homes, the applicant notes that the adjacent site are larger than the subject site and, as such, can provide a setback without

losing important marketable floor area; the subject site, in contrast, would lose bedrooms if it were to be aligned with the adjacent homes; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved, that the Board modifies the decision of the Staten Island Borough Commissioner, dated July 15, 2013, acting on Department of Buildings Application No. 520124552, by the power vested in it by Section 35 of the General City Law, limited to the decision noted above *on condition* that construction will substantially conform to the drawing filed with the application marked "Received March 5, 2014" – one (1) sheet; and *on further condition*:

THAT DOB will review and approve plans associated with the Board's approval for compliance with the underlying zoning regulations as if the unbuilt street were not mapped;

THAT owner's authorization for the proposed improvements of Haven Avenue will be obtained prior to the issuance of the DOB permit(s);

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT DOB will review the proposed plans to ensure compliance with all relevant provisions of the Zoning Resolution;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals on March 25, 2014.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner of the New York City Department of Buildings (“DOB”), dated January 23, 2013, acting on DOB Application No. 320705368, reads in pertinent part:

The proposed enlargement of the existing one-family residence in an R4 (Ocean Parkway) zoning district:

1. Creates non-compliance with respect to floor area by exceeding the allowable floor area ratio, contrary to Section 23-141 of the Zoning Resolution
2. Creates non-compliance with respect to lot coverage/open space, contrary to Section 23-141 of the Zoning Resolution
3. Creates non-compliance with respect to side yard by not meeting the minimum requirements of Section 23-461 of the Zoning Resolution
4. Creates non-compliance with respect to rear yard by not meeting the minimum requirements of Section 23-47 of the Zoning Resolution; and

WHEREAS, this is an application under ZR § 73-622, to permit, within an R4 zoning district, within the Special Ocean Parkway District, the proposed enlargement of a semi-detached, single-family home, which does not comply with the zoning requirements for floor area ratio (“FAR”), open space, lot coverage, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, and 23-47; and

WHEREAS, a public hearing was held on this application on February 4, 2014, after due notice by publication in *The City Record*, with a continued hearing on March 4, 2014, and then to decision on March 25, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson and Commissioner Montanez; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the north side of Avenue W, between East 7th Street and Coney Island Avenue, within an R4 zoning district, within the Special Ocean Parkway District; and

WHEREAS, the site has a lot area of 2,675 sq. ft. and is occupied by a detached, single-family home with a floor area of 2,094 sq. ft. (0.78 FAR); and

WHEREAS, the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant now seeks an increase in the floor area from of 2,094 sq. ft. (0.78 FAR) to 3,490 sq. ft. (1.3 FAR); the maximum permitted floor area is 2,006 sq. ft. (0.75 FAR); and

WHEREAS, the applicant seeks to reduce the open space from 71 percent to 42 percent; the minimum required open space is 55 percent; and

WHEREAS, the applicant seeks to increase the lot coverage from 29 percent to 58 percent; the maximum permitted lot coverage is 45 percent; and

WHEREAS, the applicant seeks to maintain and extend its existing non-complying side yard width of 3’-9”; one side yard with a minimum width of 8’-0” is required; and

WHEREAS, the applicant also seeks to decrease its rear yard depth from 41’-2¼” to 20’-0”; a minimum rear yard depth of 30’-0” is required; and

WHEREAS, the applicant represents and the Board agrees that the proposed building will not alter the essential character of the neighborhood and will not impair the future use or development of the surrounding area; and

WHEREAS, at hearing, the Board directed the applicant to clarify that: (1) the proposed party wall was permitted to exceed the maximum building height and sky-exposure plane; and (2) the slope of the proposed driveway was less than 11 percent; and

WHEREAS, in response, the applicant confirmed that the proposed party wall was a permitted obstruction and that the proposed slope of the driveway was ten percent; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §

MINUTES

73-622, to permit, within an R4 zoning district, within the Special Ocean Parkway District, the proposed enlargement of a semi-detached, single-family home, which does not comply with the zoning requirements for FAR, open space, lot coverage, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, and 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked “Received February 11, 2013”- (2) sheets, “December 23, 2013”-(9) sheets and “March 11, 2014”-(1) sheet; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 3,490 sq. ft. (1.3 FAR), a minimum open space of 42 percent, a maximum lot coverage of 58 percent, a side yard with minimum width of 3’-9”, and a minimum rear yard depth of 20’-0”, as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 25, 2014.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner of the New York City Department of Buildings (“DOB”), dated November 15, 2013, acting on DOB Application No. 301408046, reads in pertinent part:

The proposed horizontal and vertical enlargement of the existing one-family residence in an R3-1 zoning district:

1. Creates a new non-compliance with respect to lot coverage, contrary to Section 23-141(b) of the Zoning Resolution;
2. Creates a new non-compliance with respect to floor area ratio, contrary to Section 23-141(b) of the Zoning Resolution
3. Creates a new non-compliance with respect to rear yard, contrary to 23-47 of the Zoning Resolution
4. Increases the degree of non-compliance with respect to side yards, contrary 23-461(a); and

WHEREAS, this is an application under ZR § 73-622, to permit, within an R3-1 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio (“FAR”), lot coverage, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, and 23-47; and

WHEREAS, a public hearing was held on this application on January 28, 2014, after due notice by publication in *The City Record*, with a continued hearing on February 25, 2014, and then to decision on March 25, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of the application; and

WHEREAS, the subject site is located on the west side of Oxford Street, between Shore Boulevard and Oriental Boulevard, within an R3-1 zoning district; and

WHEREAS, the site has a total lot area of 2,500 sq. ft. and is occupied by a single-family home with a floor area of 1,267 sq. ft. (0.51 FAR); and

WHEREAS, the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant now seeks an increase in the floor area from 1,267 sq. ft. (0.51 FAR) to 2,280 sq. ft. (0.91 FAR); the maximum permitted floor area is 1,500 sq. ft. (0.6 FAR); and

WHEREAS, the applicant seeks to increase the lot coverage from 41 percent to 47 percent; the maximum permitted lot coverage is 35 percent; and

WHEREAS, the applicant seeks to maintain and extend the building’s existing non-complying yard widths of 2’-9” and 0’-1”; (the requirement is two side yards with a minimum total width of 13’-0” and a minimum width of 5’-0” each); and

WHEREAS, the applicant also seeks to decrease its non-complying rear yard depth from 24’-8” to 20’-0”; a rear yard with a minimum depth of 30’-0” is required; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the

MINUTES

neighborhood and will not impair the future use or development of the surrounding area; and

WHEREAS, the applicant represents and the Board agrees that the proposed 0.91 FAR is consistent with the bulk in the surrounding area; and

WHEREAS, further, the Board acknowledges that, in recent years, it has granted special permits authorizing enlargements resulting in similar FARs for buildings in the surrounding area; and

WHEREAS, at hearing, the Board directed the applicant to submit additional evidence regarding the legality of the north side yard; and

WHEREAS, in response, the applicant submitted: (1) the DOB-approved plans from 1974; (2) a 1974 letter from the DOB Borough Superintendent stating that the work has been completed; and (3) a letter from a professional engineer stating that the yard is legal; and

WHEREAS, the Board finds that DOB's approval of the plans and sign-off of the completed work are, when considered together, sufficient evidence of the legality of the north side yard; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622, to permit, within an R3-1 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for FAR, lot coverage, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, and 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received March 11, 2014" – (11) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 2,280 sq. ft. (0.91 FAR), a maximum lot coverage of 47 percent, side yards with minimum widths of 2'-9" and 0'-1", and a minimum rear yard depth of 20'-0", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 25, 2014.

92-13-BZ & 93-13-BZ

APPLICANT – Rothkrug Rothkrug & Spector LLP, for FHR Development LLC, owner.

SUBJECT – Application March 21, 2013 – Variance (§72-21) to permit the construction of two semi-detached one-family dwellings, contrary to required rear yard regulation (§23-47). R3-1(LDGMA) zoning district.

PREMISES AFFECTED – 22 and 26 Lewiston Street, west side of Lewiston Street, 530.86 feet north of intersection with Travis Avenue, Block 2370, Lot 238, Borough of Staten Island.

COMMUNITY BOARD #2SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez

Negative:.....5

THE RESOLUTIONS –

WHEREAS, the decision of the Staten Island Borough Commissioner, dated February 14, 2014, and acting on Department of Buildings Application No. 520122162 reads, in pertinent part:

ZR 23-45 – Front yard is deficient (less than 15 feet); and

WHEREAS, the decision of the Staten Island Borough Commissioner, dated February 14, 2014, and acting on Department of Buildings Application No. 520122171 reads, in pertinent part:

ZR 23-45 & 23-47 – Front yard (less than 15 feet) and rear yard (less than 30 feet) are deficient; and

WHEREAS, this is an application under ZR § 72-21, to permit, in an R3-1 zoning district within a Lower Density Growth Management Area, the construction of two semi-detached, two-story, single-family homes that do not comply with the underlying zoning district regulations for front and rear yards, contrary to ZR §§ 23-45 and 23-47; and

WHEREAS, a public hearing was held on this application on November 19, 2013, after due notice by publication in *The City Record*, with continued hearings on December 17, 2013, January 28, 2014, and March 4, 2014, and then to decision on March 25, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Montanez; and

WHEREAS, Community Board 2, Staten Island, recommends disapproval of this application; and

MINUTES

WHEREAS, certain members of the surrounding community submitted testimony in opposition to the application, citing concerns about the proposal's impact on neighborhood property values, natural light, and ventilation; and

WHEREAS, the subject site is located on the west side of Lewiston Street, approximately 531 feet north of Travis Avenue, in an R3-1 zoning district within a Lower Density Growth Management Area; and

WHEREAS, the site, which is vacant, has approximately 104 feet of frontage along Lewiston Street and 6,654 sq. ft. of lot area; and

WHEREAS, the applicant proposes to subdivide the site into two zoning lots (corresponding to Tentative Tax Lots 238 and 239), and on each construct a two-story, single-family semi-detached home; and

WHEREAS, Tentative Lot 238 will have approximately 66 feet of frontage along Lewiston Street and 3,086 sq. ft. of lot area; the home on Tentative Lot 238 will have 1,538 sq. ft. of floor area (0.49 FAR) (a maximum of 1,710.5 sq. ft. of floor area (0.6 FAR) is permitted); a front yard with a non-complying depth of 9'-3" (a front yard with a minimum depth of 15'-0" is required); a side yard with a minimum width of 8'-0" along the southern lot line, and no side yard along the northern lot line, where the building will attach to the new building to be constructed on Tentative Lot 239 (one side yard with a minimum width of 8'-0" is required); a rear yard with a depth of 30'-0" (a rear yard with a minimum depth of 30'-0" is required); a perimeter wall height of 21'-6" (the maximum permitted perimeter wall height is 26'-0"); and a total height of 29'-6" (the maximum permitted total height is 35'-0"); and

WHEREAS, the Board notes that, initially, the proposed home for Tentative Lot 238 provided a complying front yard, but included a rear yard depth of 26'-0" and a floor area of approximately 1,616 sq. ft. (0.47 FAR); however, through the hearing process, the lot area and floor area were reduced and the rear yard waiver was replaced with a front yard waiver request; and

WHEREAS, Tentative Lot 239 will have approximately 48 feet of frontage along Lewiston Street and 3,568 sq. ft. of lot area; the home on Tentative Lot 239 will have 1,538 sq. ft. of floor area (0.43 FAR) (a maximum of 1,617 sq. ft. of floor area (0.6 FAR) is permitted); a front yard with a non-complying depth of 9'-3" (a front yard with a minimum depth of 15'-0" is required); a side yard with a width of 23'-0" along the northern lot line, and no side yard along the southern lot line, where the building will attach to the new building to be constructed at Tentative Lot 238 (one side yard with a minimum width of 8'-0" is required); a rear yard with a non-complying depth of 20'-0" (a rear yard with a minimum depth of 30'-0" is required); a perimeter wall height of 21'-6" (the maximum permitted perimeter wall height is 26'-0"); and a total height of 29'-6" (the maximum permitted total height is 35'-0"); and

WHEREAS, the Board notes that, initially, the proposed home for Tentative Lot 239 provided a complying front yard, but included a rear yard depth of 10'-7" and a floor area of

approximately 1,616 sq. ft. (0.50 FAR); however, through the hearing process, the floor area was reduced, the proposed front yard waiver was added, and the rear yard depth was increased from 10'-7" to 20'-0"; and

WHEREAS, accordingly, in order to construct both homes at the site, the applicant seeks a variance to allow the proposed front yards, contrary to ZR § 23-45, and the proposed rear yard on Tentative Lot 239, contrary to ZR § 23-47; and

WHEREAS, the applicant states that the site's large size, shallow depth, and trapezoidal shape are unique physical conditions, which create practical difficulties and unnecessary hardship in developing the subject site in compliance with underlying zoning regulations, in accordance with ZR § 72-21(a); and

WHEREAS, the applicant asserts that the site's 6,654 sq. ft. of lot area makes it significantly larger than the majority of sites in the surrounding area; specifically, the applicant states that of the surrounding 160 sites, only ten sites (approximately six percent) had a lot area greater than 6,000 sq. ft. and the average lot area was 3,562 sq. ft.; and

WHEREAS, as such, the applicant asserts that the proposed subdivision of the site into two zoning lots with lot areas of 3,086 sq. ft. and 3,568 sq. ft. is consistent with the prevailing lot size within the surrounding area; and

WHEREAS, the applicant states that the site has a lot depth that varies from approximately 92 feet along the southern boundary to approximately 41 feet along the northern boundary; and

WHEREAS, the applicant states that the varying lot depth is a direct result of the angle of Lewiston Street, which cuts diagonally and renders the site trapezoidal in shape; and

WHEREAS, the applicant represents that the depth and shape of the site are unique in the surrounding area, and submitted an area study to support this representation; and

WHEREAS, the applicant states that, according to the study, there are no other sites that have similar characteristics (shallow depth and trapezoidal shape) within 400 feet of the site; and

WHEREAS, the applicant also notes that the site's size and shape are historic and not the result of a subdivision from any lots within Block 2370; rather, the applicant submitted evidence demonstrating that the site has always been owned separately from the adjacent lots on Block 2370 and was created in its current form via subdivision of Block 2371, Lot 152 (which is separated from the site and Block 2370 by Lewiston Street); and

WHEREAS, the applicant asserts that, together, the lot size, shallow and varying lot depth, and trapezoidal lot shape create a practical difficulty in constructing marketable homes that provide both front and rear yards in accordance with the Zoning Resolution; and

WHEREAS, the applicant also notes that the site is ineligible for the shallow lot rear yard adjustments set forth in ZR § 23-52, because the site is not less than 70 feet in depth at

MINUTES

all points¹; as such, the applicant states that although the Zoning Resolution contemplates as-of-right relief for a shallow lot, the site is unable to take advantage of it; and

WHEREAS, the applicant examined the feasibility of the following as-of-right residential options for the site, both of which involve the development of the site without subdivision: (1) a single, detached two-family home with approximately 2,192 sq. ft. of floor area (0.33 FAR); and (2) a single, detached single-family home with approximately 1,818 sq. ft. of floor area (0.27 FAR); and

WHEREAS, the applicant asserts that both scenarios resulted in significant underutilization of the permitted FAR (0.5) for the site; the applicant also notes that, based on its area study, only ten of the surrounding 160 sites have an FAR of less than 0.5 and the average FAR is 0.63; in contrast, the proposal—which has a combined floor area of 3,076 sq. ft. (0.46 FAR)—is relatively modest; and

WHEREAS, further, the applicant notes that a detached two-family home would be out of character with the surrounding area, where 68 percent of the homes are single-family homes, and discordant with the character of Lewiston Street, where 70 percent of the homes are single-family homes; and

WHEREAS, based upon the above, the Board finds that the cited unique physical conditions create practical difficulties in developing the site in strict compliance with the applicable zoning regulations; and

WHEREAS, the applicant asserts that, per ZR § 72-21(b), there is no reasonable possibility that the development of the site in conformance with the Zoning Resolution will bring a reasonable return or a result in a habitable home; and

WHEREAS, as noted above, in addition to the proposal, the applicant explored the financial feasibility of developing the site with a single, detached two-family home and with a single, detached single-family home; and

WHEREAS, based on the analysis, the applicant represents that only the proposal will result in habitable homes that: (1) are consistent with the surrounding community; and (2) will yield a reasonable return; and

WHEREAS, the Board agrees with the applicant that because of the site's unique physical conditions, there is no reasonable possibility that compliance with applicable zoning regulations will result in both a habitable home and a reasonable return; and

WHEREAS, the applicant represents that, per ZR § 72-21(c), the proposed variance will not negatively affect the character of the neighborhood, or impact adjacent uses; and

WHEREAS, the applicant states that the surrounding neighborhood is characterized by low rise detached and semi-detached one- and two-family dwellings; and

WHEREAS, the applicant notes that the use is permitted as-of-right in the subject R3-1 district; and

WHEREAS, as to bulk, the applicant states that the proposal's floor area, wall and building height, and rear and

side yards are well within the district parameters; and

WHEREAS, the applicant states that the proposal's impact on adjacent uses is minimal; and

WHEREAS, the applicant notes that north of the site is a generous side yard with a width of 23'-0" where a width of only 8'-0" is required, and beyond that, a cul-de-sac, south of the site is a complying side yard (driveway) and a series of attached dwellings, east of the site (across Lewiston Street) are a series of single-family homes, and west of the site, are a series of detached, single-family homes fronting on Beard Street; and

WHEREAS, the Board acknowledges that certain immediate neighbors expressed opposition to the proposal, citing concerns about natural light and ventilation to their home due to the reduced yards; and

WHEREAS, the Board notes, however, that these homes are located on rectangular, deep lots with complying rear yards and that the proposal was modified to eliminate the rear yard waiver for Tentative Lot 238 and increase the depth of the rear yard at Tentative Lot 239 from 10'-7" to 20'-0", resulting in a distance between the proposed homes and the neighboring homes that varies from approximately 50 feet to approximately 60 feet; and

WHEREAS, as such, the Board finds that the proposal does not negatively impact on the neighboring properties to the west; and

WHEREAS, likewise, the Board finds that the impact of the front yard waiver upon adjacent uses along Lewiston Street is minimal; and

WHEREAS, the applicant states that because Lewiston Street runs diagonally, nearly all homes along it have a varying front yard depth; the effect is that the streetscape has an irregular quality; and

WHEREAS, accordingly, the proposed front yard contributes to the diversity of the Lewiston Street streetscape; and

WHEREAS, further, the applicant states that the front yard waiver is mitigated by the amount of open space being provided on the site and the proposal's overall consistency with the neighboring use, bulk, and aesthetics; and

WHEREAS, therefore, the Board finds that this action will neither alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that, per ZR § 72-21(d), the hardship herein was not created by the owner or a predecessor in title, but is a result of the site's unique physical conditions; and

WHEREAS, the Board also finds that this proposal is the minimum necessary to afford the owner relief, in accordance with ZR § 72-21(e); and

WHEREAS, thus, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions;

¹ This interpretation was affirmed by the Board in BSA Cal. No. 47-12-A (22 Lewiston Street, Staten Island).

MINUTES

Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Type II under 6 NYCRR Part 617.5 and 617.13, §§ 5-02(a), 5-02(b)(2), and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 72-21 to permit, in an R3-1 zoning district within a Lower Density Growth Management Area, the construction of two semi-detached, two-story, single-family homes that do not comply with the underlying zoning district regulations for front and rear yards, contrary to ZR §§ 23-45 and 23-47; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received February 18, 2014"– (7) sheets; and *on further condition*:

THAT the parameters of the home on Tentative Lot 238 will be as follows: two stories, a maximum floor area of 1,537 sq. ft. (0.49 FAR); a minimum front yard depth of 9'-3"; a minimum rear yard depth of 30'-0"; one side yard with a minimum width of 8'-0" along the southern lot line; a maximum perimeter wall height of 21'-6"; and a total building height of 29'-6", as illustrated on the BSA-approved plans;

THAT the parameters of the home on Tentative Lot 239 will be as follows: two stories, a maximum floor area of 1,537 sq. ft. (0.43 FAR); a minimum front yard depth of 9'-3"; a minimum rear yard depth of 20'-0"; one side yard with a minimum width of 23'-0" along the northern lot line; a maximum perimeter wall height of 21'-6"; and a total building height of 29'-6", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board, in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT substantial construction will be completed pursuant to ZR § 72-23;

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 25, 2014.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner of the New York City Department of Buildings ("DOB"), dated April 18, 2013, acting on DOB Application No. 320729208, reads in pertinent part:

1. Proposed plans are contrary to ZR 23-141 in that the proposed floor area ratio exceeds the maximum permitted;
2. Proposed plans are contrary to ZR 23-141 in that the proposed open space ratio is less than the minimum required;
3. Proposed plans are contrary to ZR 23-141 in that the proposed enlargement increases the degree of non-compliance with respect to minimum required side yards;
4. Proposed plans are contrary to ZR 23-47 in that the proposed rear yard is less than the minimum required; and

WHEREAS, this is an application under ZR § 73-622, to permit, within an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio ("FAR"), open space ratio, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, and 23-47; and

WHEREAS, a public hearing was held on this application on January 28, 2014, after due notice by publication in *The City Record*, with a continued hearing on March 4, 2014, and then to decision on March 25, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of the application; and

WHEREAS, the subject site is located on the west side of East 23rd Street, between Avenue M and Avenue N, within an R2 zoning district; and

WHEREAS, the site comprises Lots 78 and 80, which have a total lot area of 8,000 sq. ft.; Lot 78 is occupied by a

MINUTES

single-family home with 2,044 sq. ft. of floor area (0.51 FAR); Lot 80 is also occupied by a single-family home; however, that home will be demolished to allow for the enlargement of the home on Lot 78; and

WHEREAS, the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant now seeks an increase in the floor area from 2,044 sq. ft. (0.51 FAR, as calculated using only the lot area of Lot 78) to 8,179 sq. ft. (1.02 FAR, as calculated using the combined lot area of Lots 78 and 80); the maximum permitted floor area is 4,000 sq. ft. (0.5 FAR); and

WHEREAS, the applicant seeks an open space ratio for the enlarged home of 52 percent; the minimum required open space ratio is 150 percent; and

WHEREAS, the applicant seeks to maintain and extend the building's existing non-complying side yard width of 3'-8" and reduce its complying side yard width from 13'-10" to 13'-3"; (the requirement is two side yards with a minimum total width of 13'-0" and a minimum width of 5'-0" each); and

WHEREAS, the applicant also seeks to decrease its complying rear yard depth from 30'-8½" to 20'-0"; a rear yard with a minimum depth of 30'-0" is required; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood and will not impair the future use or development of the surrounding area; and

WHEREAS, in particular, the applicant represents that the proposed FAR is consistent with the bulk in the surrounding area and states that, based on its analysis of the lots within 400 feet of the site and with a minimum lot area of 8,000 sq. ft., there are 11 homes with an FAR in excess of 1.02; and

WHEREAS, at hearing, the Board directed the applicant to: (1) provide a streetscape of the site and the nearby homes; (2) provide revised plans showing the extent of the foundation removal; and (3) reduce the proposed building height to be more consistent with the surrounding context; and

WHEREAS, in response, the applicant submitted: (1) a streetscape showing that the building is consistent with the surrounding buildings; and (2) revised plans showing the extent of the foundation removal and reflecting a reduction in building height from 41'-9" to 36'-0"; and

WHEREAS, based on its review of the streetscape and the revised drawings, the Board finds that the proposed bulk is compatible with the character of the neighborhood; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622, to permit, within an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for FAR, open space ratio, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, and 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received February 19, 2014" – (13) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 8,179 sq. ft. (1.02 FAR), a building height of 36'-0"; a minimum open space ratio of 52 percent, side yards with minimum widths of 13'-3" and 3'-8", and a minimum rear yard depth of 20'-0", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 25, 2014.

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated September 19, 2013, acting on Department of Buildings Application No. 320843110, reads in pertinent part:

This application for a proposed school (Use Group 3) will require a special permit by the BSA. It is in the M1-1 district and a school is permitted by special permit only: (42-31); and

WHEREAS, this is an application under ZR §§ 73-19 and 73-03 to permit, on a site in an M1-1 zoning district, the construction of a five-story Use Group 3 school, contrary to ZR § 42-31; and

WHEREAS, a public hearing was held on this application on February 25, 2014, after due notice by publication in the *City Record*, and then to decision on March 25, 2014; and

WHEREAS, the site and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 6, Brooklyn, recommends disapproval of this application, primarily based on concerns about the compatibility of the use with the surrounding area and integration into the community; and

WHEREAS, City Council Member Carlos Menchaca and State Senator Velmanette Montgomery provided testimony in opposition to the proposal, citing concerns that the school cannot co-exist with nearby industrial use, the school does not benefit the community, and it will introduce traffic conflicts; and

WHEREAS, South Red Hook Industrial Alliance for No Basis, Red Hook East Resident Association, Red Hook West Resident Association, Red Hook Rise, Southwest Brooklyn Industrial Development Corporation and several members of the community provided testimony in opposition to the proposal, citing concerns that the school would not be harmonious with the surrounding area, that its location threatens the Industrial Business Zone (“IBZ”) and job retention and would be both disruptive to existing traffic and create unsafe traffic conditions for students; and

WHEREAS, together, the Opposition raised additional concerns about: (1) whether notification had been performed as required; (2) whether there is a higher standard for review for private schools; (3) whether the School established that there is a practical possibility of obtaining a site as of right within the neighborhood to be served; (4) whether the traffic issues of the surrounding non-residential district had been addressed; (5) whether the project will have a negative impact on the IBZ; and (6) whether the school will have a negative impact on public welfare; and

WHEREAS, certain members of the surrounding community provided testimony in support of the application and submitted a petition with 200 signatures; and

WHEREAS, the application is brought on behalf of the Basis Independent Schools (the “School”); and

WHEREAS, the subject site is on the east side of the block, bounded by Bay Street, Otsego Street, Sigourney

Street, and Columbia Street; the site has 241 feet of frontage on Bay Street, 200 feet of frontage on Columbia Street, and 241 feet of frontage on Sigourney Street, with a lot area of 48,623 sq. ft.; and

WHEREAS, the site is a paved lot which is currently vacant, but was formerly used as a private lot for school buses and construction vehicles; and

WHEREAS, the School proposes to construct a Use Group 3 school with five stories, 89,556 sq. ft. of floor area (1.8 FAR) and a building height of 76’-6”;

WHEREAS, the applicant represents that the proposal meets the requirements of the special permit under ZR § 73-19 to permit a school in an M1-1 zoning district; and

WHEREAS, ZR § 73-19 (a) requires an applicant to demonstrate the inability to obtain a site for the development of a school within the neighborhood to be served and with a size sufficient to meet the programmatic needs of the school within a district where the school is permitted as-of-right; and

WHEREAS, the applicant represents that the proposal will meet the School’s programmatic needs; and

WHEREAS, the applicant states that it will attract families from Brooklyn neighborhoods of Carroll Gardens, Cobble Hill, Boerum Hill, DUMBO, Brooklyn Heights, Park Slope, Vinegar Hill, and Williamsburg as well as some from downtown Manhattan, such as Battery Park City and Tribeca, which is less than a 20-minute drive via the Brooklyn-Battery Tunnel; and

WHEREAS, the School’s projected enrollment of 1,000 students and needs for specific spaces such as a 389-seat theater, full-size gymnasium, and science labs necessitate a site with (1) a minimum lot size of at least 40,000 sq. ft., preferably 200 feet by 200 feet; (2) a potential to accommodate at least 80,000 sq. ft. of floor area; (3) the ability to safely drop-off/pick-up students; and (4) a purchase process not to exceed \$10 million or a lease not to exceed \$10/square foot unimproved; and

WHEREAS, the applicant states that it conducted a search of more than 50 properties within its catchment area which yielded no feasible sites as alternatives to the project site; and

WHEREAS, the applicant states that neighborhoods where a school is permitted as of right were substantially improved with residential and commercial development, which made it not possible to locate a lot or facility large enough to accommodate the proposed school program; and

WHEREAS, the applicant asserts that the majority of potential sites were located in manufacturing zoning districts; and

WHEREAS, the applicant considered the feasibility of (1) 82 and 74 Sullivan Street, but the combined lot size of 160 feet by 100 feet was insufficient; (2) 840-850 Metropolitan Avenue, (3) 657-665A Fifth Avenue, and (4) 834 Sterling Place, which all had an insufficient size; and

WHEREAS, the applicant states that the school expanded its search into residential zoning districts beyond its catchment area, but rejected four more sites due to lot

MINUTES

and building size inadequacy; those were (1) 5601 Second Avenue in Sunset Park; and (2) 203 Sutter Avenue, (3) 191 Dumont Avenue, and (4) 994 Saratoga Avenue in Brownsville; and

WHEREAS, the applicant submitted a letter from a real estate brokerage stating that it was impractical to assemble the required amount of floor area within a residential zoning district because such districts are substantially developed; and

WHEREAS, the applicant states that the building program includes: (1) 42 accessory parking spaces for teachers and staff, a lobby, a security office, and associated circulation space at the ground level; (2) a main lobby, theater, gymnasium, outdoor play areas, a cafeteria, and several classroom and administrative offices at the first school level; (3) eight classrooms and administrative space at the second school level; (4) ten classrooms, a cafeteria, and a lab at the third school level; (5) ten classrooms and an art room at the fourth school level; and (6) three physics labs, three biology labs, three chemistry labs, a reading room, and teachers' offices at the fifth school level; and

WHEREAS, the applicant maintains that the site search establishes that there is no practical possibility of obtaining a site of adequate size in a nearby zoning district where a school would be permitted as-of-right; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19 (a) are met; and

WHEREAS, ZR § 73-19 (b) requires an applicant to demonstrate that the proposed school is located no more than 400 feet from the boundary of a district in which such a school is permitted as-of-right; and

WHEREAS, the applicant submitted a radius diagram which reflects that the subject site is located directly across the street from an R5 zoning district, less than 100 feet to the east across Columbia Street and to the south across Sigourney Street where the proposed use would be permitted as-of-right; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19 (b) are met; and

WHEREAS, ZR § 73-19 (c) requires an applicant to demonstrate how it will achieve adequate separation from noise, traffic and other adverse effects of the surrounding non-residential district; and

WHEREAS, the applicant submitted a land use map which reflects that the adjacent manufacturing and commercial uses include: warehousing/shipping, a landscape design and urban ecology firm, and fine art and transport company to the west; a construction company and a marine engine and equipment repair business to the north; and another construction company to the northwest; and

WHEREAS, the applicant notes that it shares a lot line with only one building to the west, which is occupied primarily by light manufacturing and commercial uses within a two- to four-story building, and the site is separated from the other uses by Bay Street to the north and Columbia Street to the east; and

WHEREAS, the applicant notes that two of its largest

neighbors are the 58.5-acre Red Hook Recreation Area directly to the east across Columbia Street and the full-block park occupied by the Red Hook Community Farm directly to the south across Sigourney Street; diagonally to the south is the Todd Memorial Square, a landscaped traffic island; and

WHEREAS, the applicant states that the block immediately north of the site includes a school bus parking lot and a construction company use; and

WHEREAS, the applicant has identified a series of building conditions that will minimize sound transmission levels from the street to the building interior; those include: reinforced exterior wall assembly well in excess of the required sound attenuation, annealed, laminated, and insulated glass for the windows which provide an Outdoor-Indoor Sound Transmission Coefficient (OITC) in excess of that required; and

WHEREAS, the applicant proposes that the separation from noise, traffic, and other adverse effects would be achieved through their proposed window and wall assemblies, which include the exterior wall design with an Sound Transmission Coefficient (STC) of 65 dB(A) and exterior glazing to perform at an OITC rating of 32 dB(A) on all east-facing windows and OITC of 28 dB(A) on all other facades; and

WHEREAS, the applicant states that on the north façade, a sound attenuation level of 25 dB(A) is required to achieve the desired community facility interior noise level of 45 dB(A) or lower; at the east façade, a sound attenuation level of 31 dB(A) is required to achieve the desired community facility interior noise level of 45dB(A); at the south façade, a sound attenuation level of 25 dB(A) is required to achieve the desired community facility noise level of 45 dB(A) or lower; and

WHEREAS, the applicant states that it will have an HVAC system to provide an alternate means of ventilation in all habitable rooms that will allow for a closed window condition and adequate window-wall attenuation to ensure acceptable interior noise levels; and

WHEREAS, the applicant concludes that it will comply with all applicable environmental regulations and that emissions from industrial uses within 400 feet of the site will not cause significant adverse impact on the school; and

WHEREAS, further, the applicant notes that the building will be set back from all street frontages by a minimum of ten feet and buffered by landscaped areas; and

WHEREAS, as far as traffic, the applicant states that based on the traffic study, none of the intersections in close proximity to the proposed site were found to be high accident points; and

WHEREAS, the applicant has identified what it predicts to be the most common routes to the school and has addressed those with the Department of Transportation ("DOT"); and

WHEREAS, the Board finds that the conditions surrounding the site and the building's construction will adequately separate the proposed school from noise, traffic and other adverse effects of any of the uses within the

MINUTES

surrounding M1-1 zoning district; thus, the Board finds that the requirements of ZR § 73-19(c) are met; and

WHEREAS, ZR § 73-19(d) requires an applicant to demonstrate how the movement of traffic through the street on which the school will be located can be controlled so as to protect children traveling to and from the school; and

WHEREAS, the applicant represents that the following measures are proposed to protect children traveling to and from the School: (1) installation of seven high visibility crosswalks at key intersections; (2) installation of school zone signage at the approaches to the site to warn motorists that they are approaching a school; and (3) positioning crossing guards at local intersections where high pedestrian activity is anticipated; and

WHEREAS, the Board notes that the applicant has submitted a Proposed Pedestrian Safety Plan, which reflects all the points for crosswalks, crossing cards, and signage that will be installed and maintained in the surrounding area; and

WHEREAS, the Board referred the application to DOT's School Safety Engineering Office; and

WHEREAS, by letter dated October 21, 2013, DOT states that it has no objection to the proposal and has identified Bay Street and Columbia Street as local truck routes and recommended that this should be taken into consideration when designing the pedestrian safety plan; and

WHEREAS, upon approval of the application, DOT will prepare a safe route to school map with signs and marking; and

WHEREAS, the Board finds that the above-mentioned measures will control traffic so as to protect children going to and from the proposed school; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19 (d) are met; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-19; and

WHEREAS, in response to certain concerns raised by the Opposition about the applicability of the special permit, the applicant asserts that a special permit, unlike a variance, authorizes the use of property in a manner expressly permitted by the zoning ordinance under stated conditions and that "inclusion of the permitted use in the ordinance is tantamount to a legislative finding that the permitted use is in harmony with the generalized zoning plan and will not adversely affect the neighborhood" North Shore Steak House Inc. v. Board of Appeals of Town of Thomastown, 30 N.Y.2d 238 (1972); and

WHEREAS, accordingly, the applicant states that the burden on one seeking a special use permit is lighter than one seeking variance since the issuance of a special permit is a duty enjoined upon zoning officials whenever there is compliance with the statutory conditions see Peter Pan Games of Bayside, Ltd. v. Board of Estimate of City of New York, 67 A.D.2d 925 (2d Dept 1967); and

WHEREAS, additionally, the applicant states that because of their inherently beneficial nature, educational

institutions enjoy special treatment and are allowed to expand into neighborhoods where nonconforming uses would otherwise not be allowed, citing to Albany Preparatory Charter School v. City of Albany, 31 A.D.3d 870 (3d Dept. 2006); and

WHEREAS, by supplemental submission, the applicant responded to the Opposition's following concerns: (1) whether notification had been performed as required; (2) whether there is a higher standard for review for private schools; (3) whether the School established that there is a practical possibility of obtaining a site as of right within the neighborhood to be served; (4) whether the traffic issues of the surrounding non-residential district had been addressed; (5) whether the project will have a negative impact on the IBZ; and (6) whether the school will have a negative impact on public welfare; and

WHEREAS, as to proper notice, the applicant described its compliance with the Board's Rule §§ 1-10.6 1-10.7 and Community Board 6's Responsible Development Policy; and

WHEREAS, as to the appropriate standard of review for private schools, the applicant states that there is not any statutory or regulatory basis for finding that an application for a special permit to construct an independent or private school be viewed with any more stringent scrutiny under ZR § 73-19 than an application submitted by a religious institution or charter school; and

WHEREAS, the applicant asserts that New York State courts recognize deferential treatment to educational institutions due to their inherently beneficial nature (citing Pine Knolls Alliance Church v. Zoning Bd. of Appeals of Town of Moreau, 5 N.Y.3d 407 (2005); Trustees of Union College of Town of Schenectady in State of N.Y. v. Members of Schenectady City Council, 91 N.Y.2d 161; and

WHEREAS, the applicant asserts that private institutions are entitled to deferential treatment so long as they carry out the educational mission of the State because they have the same beneficial effect upon the general welfare of the community as public schools (citing to Cornell Univ. v. Bagnardi, 68 N.Y.2d 583 (1986); and

WHEREAS, the applicant states that the School's mission to raise the level of American education to the highest international standards and that the curriculum meets or exceeds New York State requirements; and

WHEREAS, the applicant asserts that there is no doubt that the School carries out the educational mission of the State and is entitled to the same deferential treatment of public institutions; and

WHEREAS, as to alternate sites, the applicant asserts that it has fully satisfied the requirement to demonstrate that there is no practical possibility of obtaining a site as of right with the neighborhood to be served; and

WHEREAS, the applicant represents that it undertook a deliberate search process, during a one-year period, it visited more than 50 sites and identified Brooklyn as under capacity for private schools and thus the focus of its search; and

WHEREAS, the applicant states that there is not any

MINUTES

merit to the Opposition's contentions that ZR § 73-19 requires that an applicant prove a need for expansion or establish a pre-existing presence in the catchment area; and

WHEREAS, as to the Opposition's contentions that the site is situated in a heavily-trafficked truck route and student safety cannot be assured, the applicant's studies show that there are not any high accident locations nearby and its noted safety measures will be implemented in the area to mitigate any concerns; and

WHEREAS, as to the location within the IBZ, the applicant addresses the Opposition's characterization that the site is located in an M3 zoning district in the heart of the IBZ and that permitting construction of a school would negatively impact the economic viability of the zone by depriving the area of needed industrial use space, employment opportunities, and establish a precedent for the development of alternative uses for sites in the IBZ; and

WHEREAS, the applicant notes that that the site is located within an M1 zoning district, rather than M3, and is located 200 feet from the border of the IBZ between a public park and an urban farm, rather than at its heart; and

WHEREAS, the applicant represents that the site's lot area constitutes approximately two percent of the total available area in the IBZ and that currently, there is 2,039,422 sq. ft. of available space for rent in the IBZ and that for the past ten years, the site has not generated any employment or other income except for the payment of the lease to park buses; and

WHEREAS, the applicant asserts that, on the contrary, the School will create approximately 100 new permanent jobs and contracts; and

WHEREAS, as to any impact on public welfare, the applicant asserts that the presumption is that educational uses are always in furtherance of the public health, safety, and morals (citing Cornell, 68 N.Y.2d at 589); and

WHEREAS, the applicant asserts that the burden shifts to the Opposition to rebut the presumption with evidence of a significant impact on traffic congestion, property values, and municipal services (citing Albany Preparatory Charter School v. City of Albany, 31 A.D.3d at 870; and

WHEREAS, the applicant asserts that its traffic safety measures and building construction conditions address safety and health issues and the School is prepared to adopt whatever additional measures may be deemed necessary; and

WHEREAS, the applicant states that the School is committed to being a good neighbor and will establish a working advisory committee to assist in further integrating the school with the community; and

WHEREAS, the applicant states that the school has committed to offer two scholarships to community members per year and will make School space available to the community for meetings and also for emergency relief; and

WHEREAS, the Board finds the applicant's submissions to be responsive to the Opposition's concerns and is satisfied that the proposal meets the findings of the special permit and is not subject to additional

considerations; and

WHEREAS, the Board recognizes the purpose of the IBZ but based on the site's size, location at the edge of the zone across from two large parks, and history of use, it does not find that the use of the site, as contemplated by the special permit, undermines the IBZ's goals; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; as noted above, the School's impact on traffic will be minimal and will be mitigated by: (1) installation of high visibility crosswalks; (2) installation of school zone signage at the approaches to the site to warn motorists that they are approaching a school; and (3) positioning crossing guards at local intersections where high pedestrian activity is anticipated; and

WHEREAS, further, the Board notes that DOT has reviewed and approved of the traffic safety plan; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board conducted an environmental review of the proposed action and documented relevant information about the project in the Final Environmental Assessment Statement ("EAS") CEQR No.14BSA052K, dated March 21, 2014; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, DOT's Division of Traffic and Planning reviewed the EAS and March 2014 Traffic Study and concluded that the proposed project would not create any significant adverse traffic or pedestrian impacts; and

WHEREAS, the New York City Department of Environmental Protection's ("DEP") Bureau of Environmental Planning and Analysis reviewed the project for potential air quality and noise impacts; and

WHEREAS, DEP reviewed the consultant's December 18, 2013 air quality response submissions and determined that the proposed school would not create any significant adverse air quality impacts and that there would not be any adverse air quality impacts on the proposed school from existing industrial emission sources within 400 feet of the subject site; and

WHEREAS, based on the projected noise levels, DEP

MINUTES

concurring with the consultant that their proposed design measures would provide sufficient attenuation to satisfy CEQR requirements; and

WHEREAS, OER has approved the Remedial Action Plan and the Construction Health and Safety Plan; and

WHEREAS, OER has requested that a P.E.-certified Hazardous Materials Remedial Action Report be submitted to it for review and approval at the conclusion of remedial/construction activities; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-19 and 73-03 and grants a special permit, to allow on a site in an M1-1 zoning district, the construction of a five-story Use Group 3 school, contrary to ZR § 42-31; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked “Received December 30, 2013” – Ten (10) sheets and “Received March 24, 2014” – Three (3) sheets and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the school will be limited to 89,556 sq. ft. of floor area (1.8 FAR) and a building height of 48 feet;

THAT DOB will not issue a Certificate of Occupancy until the applicant has provided it with OER’s approval of the Remedial Action Report;

THAT interior noise levels will be maintained at 45 dBA or below within the building in accordance with the noise attenuation notes on the BSA-approved plans;

THAT bus drivers will not idle in front of the building, the School or the site;

THAT enhanced crosswalks, crossing guards, and signage will be installed and maintained as reflected on the Proposed Pedestrian Safety Plan of the BSA-approved plan sheets;

THAT any change in the use, occupancy, or operator of the school requires review and approval by the Board;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant

laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 25, 2014.

293-13-BZ
CEQR #14-BSA-061Q

APPLICANT – Slater & Beckerman, P.C., for JSB Reality No 2 LLC, owner; Fitness International, LLC aka LA Fitness, lessee.

SUBJECT – Application October 23, 2014 – Special Permit (§73-36) to permit the operation of a physical culture establishment (*LA Fitness*). C2-2/R4 zoning district.

PREMISES AFFECTED – 78-04 Conduit Avenue, west side of South Conduit Avenue between Linden Boulevard, and Sapphire Avenue, Block 11358, Lot 1, Borough of Brooklyn.

COMMUNITY BOARD #10BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated September 27, 2013, acting on Department of Buildings (“DOB”) Application No. 420516454, reads in pertinent part:

Proposed physical culture establishment in C2-2 (R4) zoning district is not permitted as-of-right and is contrary to ZR 32-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C2-2 (R4) zoning district, the operation of a physical culture establishment (“PCE”) on portions of the first and second floors of a two-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on February 25, 2014, after due notice by publication in *The City Record*, and then to decision on March 25, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, Community Board 10, Queens, recommends approval of this application; and

WHEREAS, the subject site is an irregularly-shaped lot located at the southwest corner of the intersection of South Conduit Avenue and Sapphire Street, within a C2-2 (R4) zoning district; and

WHEREAS, the site has approximately 192 feet of frontage along South Conduit Avenue, approximately 706 feet of frontage along Sapphire Street, and 141,783 sq. ft. of lot area; and

WHEREAS, under construction at the site is a two-

MINUTES

story commercial building that is proposed to have 239,886 sq. ft. of floor area (2.0 FAR) and 375 at-grade parking spaces; and

WHEREAS, the proposed PCE will occupy 10,740 sq. ft. of floor area on the first floor and 32,610 sq. ft. of floor area on the second floor for a total PCE floor area of 43,350 sq. ft. (0.3 FAR); and

WHEREAS, the PCE will be operated as LA Fitness; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE are seven days per week, 24 hours per day; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, at hearing, the Board directed the applicant to include a note on the plans indicating that no signage for the PCE would be provided on the Sapphire Street frontage; and

WHEREAS, in response, the applicant submitted amended plans including the requested signage note; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; however, the Board has reduced the term of the grant to reflect the period of time that the PCE operated without the special permit; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No. 14BSA061Q dated October 18, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and

Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issued a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site within a C2-2 (R4) zoning district, the operation of a physical culture establishment (“PCE”) on portions of the first and second floors of a two-story commercial building, contrary to ZR § 32-10;; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received January 15, 2014 ” – Four (4) sheets and “Received March 10, 2014” – Two (2) sheets;; and *on further condition*:

THAT the term of the PCE grant will expire on March 25, 2024;

THAT all signage for the PCE will be limited to the South Conduit frontage of the site and will not be provided along Sapphire Street, as reflected on the BSA-approved plans;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT Accessibility compliance under Chapter 9 of the New York City Building Code will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 25, 2014.

***CORRECTION**

The resolution adopted on March 11, 2014, under Calendar No. 331-04-BZ and printed in Volume 99, Bulletin No. 11, is hereby corrected to read as follows:

331-04-BZ

APPLICANT – Sheldon Lobel, P.C., for Blue Millennium Realty LLC, owner; Century 21 Department Stores LLC, lessee.

SUBJECT – Application October 24, 2013 – Amendment of a previously approved Variance (§72-21) which permitted the expansion of floor area in an existing commercial structure (*Century 21*). The amendment seeks to permit a rooftop addition above the existing building which exceeds the maximum permitted floor area. C5-5 (LM) zoning district.

PREMISES AFFECTED – 26 Cortlandt Street, located on Cortlandt Street between Church Street and Broadway. Block 63, Lots 6 & 3. Borough of Manhattan.

COMMUNITY BOARD #1M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to a previously-granted variance, which, pursuant to ZR § 72-21, authorized in a C5-5 zoning district within the Special Lower Manhattan District the enlargement of an existing commercial building contrary to floor area regulations and waived the requirement to relocate two adjacent subway entrances in connection with the enlargement; and

WHEREAS, a public hearing was held on this application on January 28, 2014, after due notice by publication in *The City Record*, with a continued hearing on February 25, 2014, and then to decision on March 11, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Manhattan, recommends approval of this application; and

WHEREAS, the subject site spans the full length of the east side of Church Street, between Cortlandt Street and Dey Street, within a C5-5 zoning district, within the Special Lower Manhattan District; and

WHEREAS, the site comprises Lots 3 and 6, has approximately 170 feet of frontage along Cortlandt Street, approximately 215 feet of frontage along Church Street, approximately 188 feet of frontage along Dey Street, 38,178

MINUTES

sq. ft. of lot area, and is located across the street from the World Trade Center site; and

WHEREAS, Lot 3 is occupied by a 34-story commercial building (the “Tower Building”) and Lot 6 is occupied by a five-story commercial building (the “Bank Building”); together, the buildings have 595,882 sq. ft. of floor area (15.6 FAR); and

WHEREAS, the applicant represents that Century 21 Department Store (“Century 21”) occupies the entirety of the Bank Building and floors one through six of the Tower Building, as well as the two buildings adjacent to the Tower Building on Block 63, Lot 1 (“10-12 Cortlandt Street”); and

WHEREAS, on February 15, 2005, under the subject calendar number, the Board granted a variance to permit: (1) a 4,583 sq.-ft. enlargement of the existing second-floor mezzanine of the Century 21 store in the Bank Building, while an equal amount of floor area was simultaneously retired via deed restriction from 10-12 Cortlandt Street; and (2) a waiver of the requirement to relocate two adjacent subway entrances in connection with the enlargement, contrary to ZR §§ 31-122 and 91-43; and

WHEREAS, the applicant now requests an amendment to permit the construction of a partial sixth floor atop the Bank Building, which will increase the floor area on the site by 4,622 sq. ft. from 595,882 sq. ft. (15.6 FAR) to 600,504 sq. ft. (15.73 FAR), and increase the height of the Bank Building from 71'-0" to 83'-0"; as in the previous grant, this enlargement will: (1) be offset by a deed restriction retiring 4,622 sq. ft. of floor area recorded against 10-12 Cortlandt Street; and (2) require a waiver of the requirement (ZR § 91-43) to relocate the two subway entrances adjacent to the site; and

WHEREAS, the applicant states that Century 21 will use the new sixth floor as an event space, which will allow for: (1) private exhibitions of new vendor merchandise or Century 21-curated merchandise; (2) presentations and functions hosted by Century 21 for their buyers and vendors, including catered dinners or luncheons; and (3) a designated area for executive meetings and sales force conferences; and

WHEREAS, the applicant asserts that the event space is critical to Century 21's remaining competitive in the shrinking department store market, and in support of this statement, the applicant provided an analysis that reflects that all other large New York City department stores have private event space; and

WHEREAS, the applicant notes that the neighborhood is characterized by high-density mixed commercial and residential uses and that a department store is entirely consistent with such uses; and

WHEREAS, as for the enlargement's impact upon adjacent properties, the applicant states that it is minimal; specifically, the applicant notes that the only adjacent building on the block—the 34-story Tower Building—is partially occupied by Century 21 and otherwise occupied by commercial uses; as such, the modest increase in height will have no impact; and

WHEREAS, as to the required waiver for the relocation

of two subway entrances, the applicant states that, as in the original grant, the costs of such relocation far exceed the benefits derived from the enlargement that triggers the relocation requirement; indeed, Century 21's most valuable selling space—at the cellar and first floor—would be reduced in order to accommodate the subway work; and

WHEREAS, in addition, the applicant asserts that the subway relocation requirement set forth in ZR § 91-43 was intended for major renovations of Lower Manhattan buildings and that minor increases in floor area to accommodate existing uses—the proposed enlargement increases the FAR by 0.13—were not contemplated despite the use of the defined term “enlargement”; and

WHEREAS, at hearing, the Board noted that the deed restriction retiring the floor area at 10-12 Cortlandt Street required under the prior grant had not yet been recorded; accordingly, the Board directed the applicant to record the deed restriction retiring 9,205 sq. ft. of floor area (which represents 4,583 sq. ft. of floor area from the original grant and 4,622 sq. ft. requested under this application); additionally, the Board directed the applicant to clarify the amount of available floor area at 10-12 Cortlandt Street and to clarify the impact of the proposed sixth floor on the Tower Building's windows; and

WHEREAS, in response, the applicant represented that the deed restriction would be recorded upon approval of this application; and

WHEREAS, as to the amount of available floor area at 10-12 Cortlandt Street, the applicant states that 10-12 Cortlandt Street has a maximum permitted floor area of 92,955 sq. ft., 20,412 sq. ft. of which are built and 9,205 sq. ft. of which are to be retired by the deed restriction discussed above, leaving 63,338 sq. ft. available for development; and

WHEREAS, as to whether the proposed sixth floor would obstruct any windows at the Tower Building, the applicant submitted a letter from the project architect stating that it would not; and

WHEREAS, based upon the above, the Board has determined that the evidence in the record supports a grant of the requested amendment with the conditions listed below.

Therefore it is Resolved, that the Board of Standards and Appeals reopens and amends the resolution, dated February 15, 2005, to grant the noted modifications to the previous approval; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked ‘Received March 4, 2014’ - Five (5) sheets; and *on further condition*:

THAT the Tower Building and the Bank Building will have a maximum of 600,504 sq. ft. of floor area (15.73 FAR);

THAT the Bank Building will have a maximum height of 83'-0";

THAT prior to DOB's issuance of a permit, a deed restriction providing for the permanent and irrevocable retirement of 9,205 sq. ft. of floor area as to 10-12 Cortlandt Street will be executed and recorded, and then submitted to DOB, with a copy of same to the Board's Executive Director for placement in the case file;

MINUTES

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, March 11, 2014.

The resolution has been amended. Corrected in Bulletin Nos. 12-13, Vo. 99, dated April 3, 2014.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated January 24, 2013, acting on Department of Buildings Application No. 310072818, reads, in pertinent part:

ZR 42-00 – Residential use is not permitted in manufacturing district; and

WHEREAS, this is an application under ZR § 72-21, to permit, partially within an M1-1 zoning district and partially within an R7A (C2-4) zoning district, the construction of a four-story residential building (Use Group 2), contrary to ZR § 42-00; and

WHEREAS, a public hearing was held on this application on August 20, 2013, after due notice by publication in the *City Record*, with a continued hearing on September 24, 2013, and then to decision on March 4, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 3, Brooklyn, recommends disapproval of this application; and

WHEREAS, Councilperson Letitia James submitted a letter in support of this application; and

WHEREAS, the subject site is a rectangular lot located on the west side of Kent Avenue between Myrtle Avenue and Park Avenue, partially within an M1-1 zoning district and partially within an R7A (C2-4) zoning district; and

WHEREAS, the site has 25 feet of frontage along Kent Avenue, a lot depth of 90 feet, and a lot area of 2,250 sq. ft.; and

MINUTES

WHEREAS, the applicant states that the site is now vacant, but was previously occupied by a three-story mixed residential and commercial building that was built in or around 1905 and demolished in 2003; and

WHEREAS, the applicant notes that a variance application was filed for the site in 2008, under BSA Cal. No. 238-08-BZ; such application was dismissed for lack of prosecution on February 23, 2010; however, on July 24, 2012, the Board granted a rehearing of the application based on the applicant's revision of the proposal to comply with the R6 regulations with regard to floor area ratio, rear setback, and street wall location; and

WHEREAS, the applicant represents that the proposed residential building (Use Group 2), will have a floor area of 4,930.2 sq. ft. (2.2 FAR), a building height of 48'-11", a rear yard depth of 38'-0", and four dwelling units; and

WHEREAS, initially, the applicant proposed a building with a floor area of 5,680 sq. ft. (2.52 FAR) and a height of 53'-11"; and

WHEREAS, the applicant notes that Use Group 2 is not permitted in an M1-1 zoning district and that 65 percent of the site is within the M1-1 district and 35 percent of the site is within the R7A (C2-4) district; as such, ZR § 77-11, cannot be employed to extend the R7A (C2-4) use regulations to the M1-1 portion of the site; and

WHEREAS, accordingly, the applicant seeks a use variance; and

WHEREAS, the applicant states that, per ZR § 72-21(a), the following are unique physical conditions which create an unnecessary hardship in developing the site in conformance with applicable regulations: (1) the lot's small size, shallow depth, and narrow width; (2) the adjacency of residential uses; (3) the district boundary, which divides the lot; and (4) the inability to merge the site with adjacent lots; and

WHEREAS, the applicant asserts that the site is small (2,250 sq. ft. of lot area), shallow (90 feet), and narrow (25 feet); and

WHEREAS, as such, the applicant asserts that it would be impractical to develop the site with a modern manufacturing use, which requires significantly larger floorplates than the site would yield; and

WHEREAS, the applicant notes that the site is the smallest and shallowest lot within a 400-foot radius in the subject M1-1 zoning district with frontage along Kent Avenue; and

WHEREAS, the applicant states that the infeasibility of establishing a manufacturing use on an undersized lot is compounded by the difficulties in locating such use on a site surrounded by residential neighbors; and

WHEREAS, in particular, the applicant states that the four adjacent buildings to the site and the building directly across the street contain residences; and

WHEREAS, the applicant states that the site is also uniquely burdened by being divided by the district boundary between an M1-1 zoning district (where the proposed use is not permitted as-of-right) and an R7A (C2-4) zoning district (where the proposed use is permitted as-of-right); and

WHEREAS, the applicant notes that while ZR § 77-11 typically affords relief for a split lot by allowing the use regulations of one district to extend to the other, such section would not allow for the proposed residential use, because less than 50 percent of the lot is within the R7A (C2-4) zoning district; and

WHEREAS, finally, the applicant asserts that the site is burdened by its inability to merge with another lot, which, when combined with its narrowness, shallowness, absence of an existing building, and split-lot condition, is unique in the subject M1-1 zoning district; and

WHEREAS, specifically, the applicant states that, of the 244 lots within the subject M1-1 zoning district, there are only 43 lots (including the site) that contain vacant or open parking uses; of these 43 lots, there are only 35 lots (including the site) with a lot width of 25 feet or less, 22 lots (including the site) with a lot depth of 90 feet or less, 19 lots (including the site) that have no potential to merge with the adjacent lots, and only two lots (including the site) that are split lots; and

WHEREAS, consequently, the applicant states that the site's unique physical conditions—its small lot size and shallow lot depth, the adjacency of residential uses, the split-lot condition, and the inability to merge—create an unnecessary hardship in developing the site in conformance with applicable regulations; and

WHEREAS, based upon the above, the Board finds that the aforementioned unique physical conditions, when considered in the aggregate, create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant asserts that, per ZR § 72-21(b), there is no reasonable possibility that the development of the site in conformance with the Zoning Resolution will bring a reasonable return; and

WHEREAS, in particular, in addition to the proposed residential building with 2.2 FAR and the original proposal with 2.52 FAR, the applicant examined the economic feasibility of a two-story as-of-right manufacturing building with 2,250 sq. ft. of floor area; and

WHEREAS, the applicant concluded that the as-of-right scenario does not result in an acceptable rate of return; and

WHEREAS, based upon its review of the applicant's economic analysis, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, the applicant states that the immediate area is characterized by a mix of medium density residential, commercial, and community facility uses, including a six-story mixed residential and commercial building and three-

MINUTES

story mixed residential and commercial building to the south, a four-story residential building to the west, a three-story mixed residential and commercial building to the north, and a three-story residential building directly across the street; in addition, the applicant notes that there is a five-story school (PS 157) on the block, and a large park (Taaffe Playground) that occupies the majority of the block immediately to the west of the site; and

WHEREAS, the applicant states, as noted above, that the site has historically been occupied by residential uses and that, as such, the proposal would restore a viable use; and

WHEREAS, likewise, the applicant asserts that the area within a 400-foot radius of the site has limited industrial uses, and, therefore, a conforming use would be less appropriate than the proposal; and

WHEREAS, the Board agrees that the character of the area is predominantly residential, and it finds that the introduction of four dwelling units does not impact nearby conforming uses; and

WHEREAS, as to bulk, at hearing, the Board expressed concerns about the compatibility of the originally proposed building height, street wall location, and attic with the surrounding area; and

WHEREAS, in response, the applicant amended its proposal, lowering the building height from 53'-11" to 48'-11", moving the street wall forward 5'-0" to align with the adjacent building's street wall, and removing the attic entirely, thereby reducing the proposed floor area from 5,680 sq. ft. (2.52 FAR) to 4,930 sq. ft. (2.2 FAR); and

WHEREAS, the applicant notes that the proposed building, as modified, complies with the floor area, height and setback regulations for an R6 zoning district; as such, it provides an appropriate transition from the higher bulk of the R7A (C2-4) zoning district along Myrtle Avenue to the three-story building to the north of the site, which has a height of approximately 30'-0"; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that, consistent with ZR § 72-21(d), the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the site's small lot size, shallow lot depth, adjacency of residential uses, split-lot condition, and inability to merge; and

WHEREAS, finally, the Board finds that, as amended, the proposal is the minimum variance necessary to afford relief, as set forth in ZR § 72-21(e); and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617 and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant

information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 13BSA103K, dated February 28, 2014; and

WHEREAS, the EAS documents show that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the New York City Department of Environmental Protection's ("DEP") Bureau of Environmental Planning and Analysis reviewed the project for potential hazardous materials and air quality impacts; and

WHEREAS, DEP reviewed and accepted the December 2013 Remedial Action Plan and the October 2012 site-specific Construction Health and Safety Plan; and

WHEREAS, DEP requested that a P.E.-certified Remedial Closure Report be submitted to DEP for review and approval upon completion of the proposed project; and

WHEREAS, DEP reviewed the applicant's air quality assessment and determined that no significant stationary, mobile, and industrial source air quality impacts to the proposed project are anticipated; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, partially within an M1-1 zoning district and partially within an R7A (C2-4) zoning district, the construction of four-story residential building (Use Group 2), contrary to ZR § 42-00, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received "October 16, 2013"- Twelve (12) sheets; and *on further condition*:

THAT the following are the bulk parameters of the proposed building: a floor area of 4,930.2 sq. ft. (2.2 FAR), a building height of 48'-11", a rear yard depth of 38 feet, and four dwelling units, as illustrated on the BSA-approved plans;

THAT substantial construction will be completed in accordance with ZR § 72-23;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

MINUTES

THAT DOB will not issue a Certificate of Occupancy until the applicant has provided it with DEP's approval of the Remedial Closure Report;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 4, 2014.

The resolution has been amended. Corrected in Bulletin Nos. 12-13, Vo. 99, dated April 3, 2014.

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated April 3, 2013, acting on Department of Buildings (“DOB”) Application No. 110361554 reads, in pertinent part:

1. Proposed heretofore converted dwelling cannot be increased in height or stories as per MDL 171-2(a);
2. Proposed enlargement of the existing heretofore converted dwelling exceeds 25% of the area of the 3rd floor (fourth story) which is contrary to MDL 171-2(f); and

WHEREAS, this is an application pursuant to Multiple Dwelling Law (“MDL”) § 310, to vary height and bulk requirements in order to allow for the proposed partial one-story vertical enlargement of the subject three-story and basement residential building, contrary to MDL §§ 171(2)(a) and 171(2)(f); and

WHEREAS, a public hearing was held on this application on July 23, 2013, after due notice by publication in *The City Record*, and then to decision on February 25, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the south side of West 87th Street, between West End Avenue and Riverside Drive, within an R8 zoning district within the Riverside Drive-West End Historic District; and

WHEREAS, the site has 20 feet of frontage along West 87th Street, a depth of approximately 100.6 feet, and a lot area

MINUTES

of 2,013 sq. ft.; and

WHEREAS, the site is occupied by a three-story and basement non-fireproof residential building; and

WHEREAS, the applicant states that the existing building was constructed in approximately 1900 and is currently occupied by eight residential units, with two units per floor; and

WHEREAS, the subject building has a floor area of approximately 5,177.85 sq. ft. (2.57 FAR) and a height of approximately 47'-0"; and

WHEREAS, the applicant proposes to enlarge the building by constructing a partial fourth floor containing an additional 743.3 sq. ft. of floor area; and

WHEREAS, the applicant states that the front of the proposed fourth floor will include a new, additional unit and the rear will be part of a duplex unit with the third floor; therefore, the proposal will increase the total number of dwelling units in the building from eight to nine; and

WHEREAS, the applicant further states that the proposed enlargement will increase the floor area of the subject building from 5,177.85 sq. ft. (2.57 FAR) to 5,921.15 sq. ft. (2.94 FAR) and increase the height of the building from 47'-0" to 56'-3"; and

WHEREAS, the applicant notes that the proposed fourth-floor enlargement will be set back 13'-5" from the building's front façade and slanted, so as not to be visible from the street; and

WHEREAS, the applicant also notes that it initially proposed a height of 57'-0", which was reduced at the request of the Landmarks Preservation Commission ("LPC"); and

WHEREAS, MDL § 171(2)(a) states that it is unlawful to "increase the height or number of stories of any converted dwelling or to increase the height or number of stories of any building in converting it to a multiple dwelling"; and

WHEREAS, because any increase in height or number stories of a converted multiple dwelling is prohibited, and the proposed increase of the existing building is from three stories to four stories and from 47'-0" to 56'-3", the Department of Buildings ("DOB") determined that the proposal does not comply with the requirements of MDL § 171(2)(a); and

WHEREAS, MDL § 171(2)(f) states that it is unlawful to "enlarge or extend any converted dwelling so as to exceed by more than twenty-five per centum the area which such dwelling had on any floor at the time of its conversion . . ."; and

WHEREAS, because the proposed 743.3 sq. ft. enlargement on the fourth floor exceeds 25 percent of the area on the third floor, DOB determined that the proposal does not comply with the requirements of MDL § 171(2)(f); and

WHEREAS, pursuant to MDL § 310(2)(a), the Board has the authority to vary or modify certain provisions of the MDL for multiple dwellings that existed on July 1, 1948, provided that the Board determines that strict compliance with such provisions would cause practical difficulties or unnecessary hardships, and that the spirit and intent of the MDL are maintained, public health, safety and welfare are preserved, and substantial justice is done; and

WHEREAS, as noted above, the subject building was constructed in approximately 1900; therefore, the building is subject to MDL § 310(2)(a); and

WHEREAS, specifically, MDL § 310(2)(a) empowers the Board to vary or modify provisions or requirements related to: (1) height and bulk; (2) required open spaces; (3) minimum dimensions of yards or courts; (4) means of egress; and (5) basements and cellars in tenements converted to dwellings; and

WHEREAS, the Board notes that MDL §§ 171(2)(a) and 171(2)(f) relate to height and bulk; therefore the Board has the power to vary or modify the subject provisions pursuant to MDL § 310(2)(a)(1); and

WHEREAS, the applicant represents that practical difficulty and unnecessary hardship would result from strict compliance with the MDL; and

WHEREAS, the applicant states that MDL §§ 171(2)(a) and 171(2)(f) prohibit a vertical enlargement of the subject building and that the third floor cannot practicably be enlarged horizontally to make up for this deficit because the existing building is located within an historic district and the LPC will not approve a third floor horizontal expansion; and

WHEREAS, the applicant represents that because a vertical enlargement is not permitted and a horizontal enlargement is impracticable, the MDL restrictions create a practical difficulty and an unnecessary hardship in that they prevent the site from utilizing the development potential afforded by the subject zoning district; and

WHEREAS, in particular, the applicant notes that the subject district permits an FAR of 6.02, and the proposed enlargement would increase the FAR of the building from 2.57 to 2.94; and

WHEREAS, based on the above, the Board agrees that there is a practical difficulty and an unnecessary hardship in complying with the requirements of the MDL; and

WHEREAS, the applicant states that the requested variance of MDL §§ 171(2)(a) and 171(2)(f) is consistent with the spirit and intent of the MDL, and will preserve public health, safety and welfare, and substantial justice; and

WHEREAS, specifically, the applicant states that the proposal includes numerous fire safety improvements to mitigate the existing fire infirmities inherent in the pre-1929 building; and

WHEREAS, the applicant notes that MDL § 2 ("Legislative Finding") provides that the intent of the law is to protect against dangers such as "overcrowding of multiple dwelling rooms, inadequate provision for light and air, and insufficient protection against the defective provision for escape from fire . . ."; and

WHEREAS, accordingly, the applicant represents that the proposed construction promotes the intent of the law because: (1) the new unit will cause minimal impact, as it will increase the unit count to nine, which is well below the 16 total permitted units in a building in an R8 zone; (2) it will be modest in size and set back from the front and rear facades, thereby providing sufficient light and air to the proposed fourth floor without diminishing access to light and air for

MINUTES

other units in the building; and (3) it will provide a number of significant fire safety improvements; and

WHEREAS, specifically, the applicant proposes to provide the following fire safety improvements: (1) sprinklers will be added to all common areas of the building; (2) new, steel stair ways will be installed; (3) all existing wood stair rails will be replaced with metal; (4) all doors leading to the apartments and cellar will have one-and-one-half-hour fireproof self-closing doors; (5) all public halls will have a new two-hour rated enclosure by an additional new layer of fire resistant gypsum board; (6) two layers of fire resistant gypsum board will be installed in the cellar ceiling; (7) a new layer of fire resistant gypsum board will be installed to the underside of the existing staircases and landings; and (8) all bedrooms will have ceiling mounted hard-wired smoke detectors and carbon-monoxide detectors; and

WHEREAS, the applicant represents that the proposed fire safety measures will result in a substantial increase to the public health, safety, and welfare, which far outweighs any impact from the proposed enlargement; and

WHEREAS, based on the above, the Board finds that the proposed variance to the height and bulk requirements of MDL §§ 171(2)(a) and 171(2)(f) will maintain the spirit and intent of the MDL, preserve public health, safety and welfare, and ensure that substantial justice is done; and

WHEREAS, the applicant represents that the proposal will not affect the historical character of the site; and

WHEREAS, the applicant submitted a Certificate of Appropriateness from the LPC approving work associated with the proposed enlargement, dated February 5, 2014; and

WHEREAS, at hearing, the Board expressed concerns regarding the dimensions of the proposed dwelling units; and

WHEREAS, in response, the applicant submitted an amended statement clarifying the dimensions of the proposed units and confirming that such units meet the minimum requirements set forth in the Zoning Resolution; and

WHEREAS, accordingly, the Board finds that the applicant has submitted adequate evidence in support of the findings required to be made under MDL § 310(2)(a) and that the requested variance of the height and bulk requirements of MDL §§ 171(2)(a) and 171(2)(f) is appropriate, with certain conditions set forth below.

Therefore it is Resolved, that the decision of the Manhattan Borough Commissioner, dated April 3, 2013, is modified and that the requested waivers are granted, limited to the decision noted above; *on condition* that construction will substantially conform to the plans filed with the application marked, "Received February 21, 2014" eight (8) sheets; and *on further condition*:

THAT the bulk parameters of the building will be as follows: 5,921.15 sq. ft. (2.94 FAR); nine dwelling units; and a maximum building height of 56'-3", as reflected in the BSA-approved plans;

THAT the dimensions of the proposed dwelling units will be subject to DOB review;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB objections related to the MDL;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 25, 2014.

The resolution has been amended. Corrected in Bulletin Nos. 12-13, Vo. 99, dated April 3, 2014.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner of the New York City Department of Buildings (“DOB”), dated April 16, 2013, acting on DOB Application No. 301408046, reads in pertinent part:

5. Proposed plans are contrary to ZR § 23-141(b), in that the proposed floor area ratio exceeds the maximum permitted;
6. Proposed plans are contrary to ZR § 23-141(b), in that the open space provided is less than the minimum required;
7. Proposed plans are contrary to ZR § 23-141(b), in that the lot coverage proposed exceeds the maximum permitted;
8. Proposed plans are contrary to ZR § 23-461(a) in that the proposed enlargement increases the degree of non-compliance with respect to the minimum required side yards;
9. Proposed plans are contrary to ZR § 23-47, in that the proposed enlargement increases the degree of non-compliance with respect to the minimum required rear yard;
10. Proposed plans are contrary to ZR § 23-631(b), in that the proposed enlargement increases the degree of non-compliance with respect to the maximum permitted wall height; and

WHEREAS, this is an application under ZR § 73-622, to permit, within an R3-2 zoning district, the proposed enlargement of a single-family home, which does not

comply with the zoning requirements for floor area ratio (“FAR”), open space, lot coverage, side yards, rear yard, and perimeter wall height, contrary to ZR §§ 23-141, 23-461, 23-47 and 23-631; and

WHEREAS, a public hearing was held on this application on December 17, 2013, after due notice by publication in *The City Record*, with a continued hearing on January 28, 2014, and then to decision on March 4, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn, recommends disapproval of the original the application; and

WHEREAS, certain members of the surrounding community testified in opposition to this application (the “Opposition”), alleging that the proposed floor area (5,009.21 sq. ft. (1.0 FAR)) and absence of a side yard along the north side of the site (which was an extension of an existing zero lot line condition) were inconsistent with the character of the neighborhood; and

WHEREAS, in response, the applicant reduced the floor area from 5,009.21 sq. ft. (1.0 FAR) to 4,885 sq. ft. (0.98 FAR), eliminated the zero lot line condition, and provided a side yard with a minimum width of 3’-8¾”, which the Opposition found acceptable; as a result, the Opposition withdrew its objection to the application; and

WHEREAS, the subject site is located on the west side of East 28th Street, between Avenue P and Quentin Road, within an R3-2 zoning district; and

WHEREAS, the site has a total lot area of 5,000 sq. ft. and is occupied by a single-family home with a floor area of 2,795 sq. ft. (0.56 FAR); and

WHEREAS, the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant now seeks an increase in the floor area from 2,795 sq. ft. (0.56 FAR) to 4,885 sq. ft. (0.98 FAR); the maximum permitted floor area is 2,500 sq. ft. (0.5 FAR); and

WHEREAS, the applicant seeks to reduce the open space from 72 percent to 62 percent; the minimum required open space is 65 percent; and

WHEREAS, the applicant seeks to increase the lot coverage from 28 percent to 38 percent; the maximum permitted lot coverage is 35 percent; and

WHEREAS, the applicant seeks to maintain one existing, complying side yard with a width of 8’-3” and increase the width of the existing non-complying side yard from 0’-0” (at its narrowest point) to 3’-8¾” (the requirement is two side yards with a minimum total width of 13’-0” and a minimum width of 5’-0” each); and

WHEREAS, the applicant also seeks to decrease its non-complying rear yard depth from 28’-5¼” to 20’-0”; a rear yard with a minimum depth of 30’-0” is required; and

WHEREAS, finally, the applicant seeks to maintain and extend its existing, non-complying perimeter wall height

MINUTES

of 22'-6 $\frac{1}{8}$ "; the maximum permitted perimeter wall height is 21'-0"; and

WHEREAS, the Board notes that ZR § 73-622(3) allows the Board to waive the perimeter wall height only in instances where the proposed perimeter wall height is equal to or less than the height of the adjacent building's non-complying perimeter wall facing the street; and

WHEREAS, the applicant represents that the proposed perimeter wall height (22'-6 $\frac{1}{8}$ "') is less than the height of the adjacent building's non-complying perimeter walls facing the street (22'-8 $\frac{1}{4}$ "'), and the applicant submitted a survey in support of this representation; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood and will not impair the future use or development of the surrounding area; and

WHEREAS, in particular, the applicant represents that the proposed 0.98 FAR is consistent with the bulk in the surrounding area and notes that, in recent years, the Board has granted special permits for home enlargements on nearby streets (East 21st, East 22nd, and Avenue S) with FARs in excess of 1.0; and

WHEREAS, additionally, the applicant notes that a portion of the existing home is built to the north side lot line and the proposal includes the removal of that portion and the inclusion of a side yard with a width of 3'-8 $\frac{3}{4}$ "; and

WHEREAS, accordingly, the Board agrees with the applicant that the proposed bulk is compatible with the character of the neighborhood; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622, to permit, within an R3-2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio ("FAR"), open space ratio, lot coverage, side yards, rear yard, and perimeter wall height, contrary to ZR §§ 23-141, 23-461, 23-47 and 23-631; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received February 18, 2014" – Twelve (12) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 4,885 sq. ft. (0.98 FAR), a minimum open space of 62 percent, a maximum lot coverage of 38 percent, a minimum rear yard depth of 20'-0", side yards with minimum widths of 8'-3" and 3'-8 $\frac{3}{4}$ "',

and a maximum perimeter wall height of 22'-6 $\frac{1}{8}$ "', as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 4, 2014.

***The resolution has been amended. Corrected in Bulletin Nos. 12-13, Vo. 99, dated April 3, 2014.**

The resolution adopted on March 4, 2014, under Calendar No. 234-13-BZ and printed in Volume 99, Bulletin No. 10, is hereby corrected to read as follows:

234-13-BZ

APPLICANT – Sheldon Lobel, P.C., for Dov Lipschutz, owner.

SUBJECT – Application August 16, 2013 – Variance (§72-21) for the enlargement of an existing two-family detached residence to be converted to a single-family home, contrary to minimum front yard (§23-45(a)); and less than the required rear yard (ZR §23-47). Special Permit (§73-621) for an enlargement which is contrary to floor area (ZR 23-141). R3-2 zoning district.

PREMISES AFFECTED – 1653 Ryder Street, aka 1651 Ryder Street, Located on the northeast side of Ryder Street between Quentin road and Avenue P, Block 7863, lot 18, Borough of Brooklyn.

COMMUNITY BOARD #18BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Executive Zoning Specialist of the Department of Buildings (“DOB”), dated August 9, 2013, acting on DOB Application No. 320516811, reads in pertinent part:

1. FAR exceeds maximum permitted, contrary to ZR 23-141(b);
2. Proposed conditions increase the degree of non-compliance with respect to the required minimum front yard, contrary to ZR 23-45(a);
3. Proposed conditions violate required rear yard, contrary to ZR 23-47; and

WHEREAS, this is an application under ZR §§ 72-21 and 73-621, to permit, within an R3-2 zoning district, the conversion (from a two-family residence to a single-family residence) and enlargement of an existing residential building, which does not comply with the zoning requirements for floor area ratio (“FAR”), front yard, and rear yard, contrary to ZR §§ 23-141, 23-45, and 23-47; and

WHEREAS, a public hearing was held on this application February 4, 2014, after due notice by publication in *The City Record*, and then to decision on March 4, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan and Commissioner Montanez; and

WHEREAS, Community Board 18, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is an irregularly-shaped

interior lot located on the east side of Ryder Street, between Avenue P and Quentin Road, within an R3-2 zoning district; and

WHEREAS, the site has 40 feet of frontage along Ryder Street and 3,855 sq. ft. of lot area; and

WHEREAS, the site is currently occupied by a two-story, two-family home with 1,985.41 sq. ft. of floor area (0.52 FAR), and an attic; and

WHEREAS, the applicant notes that the building has existing complying side yard widths of 5’-0” and 10’-10½”, a complying rear yard with a depth of 36’-7”, and a non-complying front yard ranging in depth from 9’-11” to 14’-1” (a minimum front yard depth of 15’-0” is required); and

WHEREAS, the applicant proposes to enlarge the existing cellar, first and second stories, and the attic of the building contrary to the FAR, front yard, and rear yard requirements, and increase the floor area from 1,985.41 sq. ft. (0.52 FAR) to 2,544.02 sq. ft. (0.66 FAR); the maximum permitted floor area is 1,927 sq. ft. (0.5 FAR), however, a 20 percent increase in FAR pursuant to ZR § 23-141(b)(1) is available, resulting in a maximum permitted floor area of 2,313 sq. ft. (0.6 FAR); and

WHEREAS, the applicant also proposes to maintain a portion of its existing, non-complying front yard depth at 9’-11” and reduce a portion of its existing, non-complying front yard depth from 14’-1” to 12’-1” (a minimum depth of 15’-0” is required), and reduce its complying rear yard depth from 36’-7” to 24’-11” (a minimum depth of 30’-0” is required); and

WHEREAS, the special permit authorized by ZR § 73-621 is available to enlarge buildings containing residential uses that existed on December 15, 1961, or, in certain districts, on June 20, 1989; therefore, as a threshold matter, the applicant must establish that the subject building existed as of that date; and

WHEREAS, the applicant submitted the building’s 1954 Certificate of Occupancy authorizing a two-family residence to demonstrate that the building existed as a residence well before June 20, 1989, which is the operative date within the subject R3-2 district; and

WHEREAS, accordingly, the Board acknowledges that the special permit under ZR § 73-621 is available to enlarge the building; and

WHEREAS, ZR § 73-621 permits the enlargement of a residential building, provided that the proposed floor area ratio does not exceed 110 percent of the maximum permitted (0.66 FAR);

WHEREAS, the applicant represents that the proposed floor area ratio is 110 percent of the maximum permitted (0.6 FAR); and

WHEREAS, therefore, the Board finds that the proposed increase in floor area is permitted under ZR § 73-621; however, ZR § 73-621 is not available to enlarge the building contrary to the front and rear yard requirements; and

WHEREAS, accordingly, the applicant seeks a variance pursuant to ZR § 72-21 for those portions of the proposal; and

MINUTES

WHEREAS, the applicant states that the irregular lot shape is a unique physical condition, which creates practical difficulties and unnecessary hardship in developing the site in compliance with underlying zoning regulations; and

WHEREAS, the applicant states that the lot's shape is irregular, in that its rear lot line is diagonal, which creates a lot depth that varies from approximately 91 feet on the southeastern lot line to approximately 101 feet on the northwestern lot line; and

WHEREAS, the applicant asserts that such shape decreases the lot area available in the rear of the building, which contributed to the existing building being constructed closer to the front lot line and further into the required front yard, which, in turn, creates a practical difficulty enlarging the building in accordance with the front and rear yard requirements; and

WHEREAS, the applicant states that the lot shape is unique, and in support of this statement, submitted a study of the surrounding 24 blocks (approximately 900 sites); and

WHEREAS, the applicant represents that, according to the study, only two blocks out of 24 contain lots that share the site's diagonal rear lot line condition, and only 29 lots within those blocks have, as a result of their diagonal rear lot line, lot depths of 100 feet or less; and

WHEREAS, the applicant further distinguishes 23 of the 29 seemingly similar lots as follows: (1) 15 lots are overbuilt and cannot seek the same relief (a 10 percent FAR waiver under ZR § 73-621); (2) four lots are within .03 of the maximum permitted FAR and therefore cannot feasibly be enlarged; (3) two lots are corner lots without required rear yards; and (4) two have particularly wide frontages (61 feet and 80 feet), which mitigates the loss of space owing to their diagonal rear lot line; and

WHEREAS, consequently, the applicant states that only six lots out of 900 (less than one percent) nearby can be considered similar to the subject site; as such, the applicant asserts that the site's shape creates a unique practical difficulty in complying with the zoning regulations; and

WHEREAS, the applicant explored the feasibility of an as-of-right enlargement of the home; however, as noted above, such an enlargement would have to be accomplished entirely at the rear of the building and would result in a modest increase in floor area from 1,985.41 sq. ft. (0.52 FAR) to 2,313 sq. ft. (0.6 FAR); in contrast, the proposal allows for modest enlargements at the front and rear of the building; and

WHEREAS, accordingly, the applicant asserts that the lot shape creates practical difficulties in developing the site as-of-right; and

WHEREAS, based upon the above, the Board finds that the cited unique physical condition creates practical difficulties in developing the site in strict compliance with the applicable zoning regulations; and

WHEREAS, the Board agrees that because of the site's unique physical condition, there is no reasonable possibility that compliance with applicable zoning regulations will result in a habitable home; and

WHEREAS, the applicant represents that neither the

proposed variance, nor the special permit will negatively affect the character of the neighborhood or impact adjacent uses; and

WHEREAS, the applicant states that the surrounding area is characterized by low-density, detached or semi-detached, two- or three-story homes, with varying rear and side yard depths, and, typically, shallower front yard depths and setbacks; as such, the proposal is consistent with the use, bulk, and appearance of the neighborhood; and

WHEREAS, the applicant states that the proposal will maintain the existing minimum front yard depth of 9'-11" (albeit with a slight decrease in the non-complying front yard depth at the northern side of the lot from 14'-1" to 12'-1"), decrease its complying rear yard by approximately 5'-0", exceed the permitted FAR by less than ten percent and comply in all other respects (side yards, height, and lot coverage) with the R3-2 bulk regulations; and

WHEREAS, as to adjacent uses, the applicant states that the proposal maintains the existing complying side yards, and therefore has no impact on the parcels directly north and south of the site; and while the majority of the enlargement is proposed at the rear of the building (its east side), the applicant notes that the nearest structures to the east are a swimming pool (on Lot 68) and a garage (on Lot 66); thus, the overall impact of the proposal on adjacent uses is minimal; and

WHEREAS, as to the proposed 0.66 FAR, the applicant notes that directly across the street, the homes on Lots 63 and 64 have 0.66 FAR and 0.75 FAR, respectively; and

WHEREAS, additionally, the applicant represents that there are 18 homes on an adjacent block along Ryder Street (Block 7862) with an FAR of 0.66 or greater, with 12 homes ranging from 0.72 FAR to 1.12 FAR; and

WHEREAS, at hearing, the Board directed the applicant to clarify the amount of floor area proposed in the attic; and

WHEREAS, in response, the applicant submitted a revised statement, which confirmed the location and amount of floor area proposed in the attic; and

WHEREAS, therefore, the Board finds that this action will neither alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title, but is a result of the unique conditions at the site; and

WHEREAS, the applicant asserts that the proposal is the minimum variance necessary to afford relief; and

WHEREAS, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, thus, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 72-21 and 73-621; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.13, §§ 5-02(a), 5-02(b)(2), and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings ZR §§ 72-21 and 73-621, to

MINUTES

permit, within an R3-2 zoning district, the conversion (from a two-family residence to a single-family residence) and enlargement of an existing residential building, which does not comply with the zoning requirements for FAR, front yard, and rear yard, contrary to ZR §§ 23-141, 23-45, and 23-47; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked “Received February 19, 2014”-Twelve (12) sheets; and *on further condition*:

THAT the parameters of the proposed building will be limited to: two stories and an attic, a maximum floor area of 2,544.02 sq. ft. (0.66 FAR), a front yard with a minimum depth of 9’-11”, a rear yard with a minimum depth of 24’-11”, and side yards with minimum widths of 5’-0” and 10’-10½”, as per the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board, in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT significant construction will proceed in accordance with ZR §§ 72-23 and 73-70; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 4, 2014.

***The resolution has been amended. Corrected in Bulletin Nos. 12-13, Vo. 99, dated April 3, 2014.**

*CORRECTION

This resolution adopted on March 11, 2014, under Calendar No. 274-13-BZ and printed in Volume 99, Bulletin No. 11, is hereby corrected to read as follows:

274-13-BZ

CEQR #14-BSA-045M

APPLICANT – Sheldon Lobel, P.C., for SKP Realty, owner; H.I.T. Factory Approved Inc., operator.

SUBJECT – Application September 26, 2013 – Variance (§72-21) to permit the operation of a physical culture establishment (*H.I.T. Factory Improved*) on the second floor of the existing building. C1-3/R6B zoning district.

PREMISES AFFECTED – 7914 Third Avenue, west Side of Third Avenue between 79th and 80th Street, Block 5978, Lot 46, Borough of Brooklyn.

COMMUNITY BOARD #10BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner of the Department of Buildings (“DOB”), dated September 9, 2013, acting on DOB Application No. 320782630, reads, in pertinent part:

Proposed physical culture establishment use is not permitted in a C1-3 zoning district, per ZR 32-10; and

WHEREAS, this is an application under ZR § 72-21, to permit, within a C1-3 (R6B) zoning district within the Special Bay Ridge District, the operation of a physical culture establishment (“PCE”) within the second story of a two-story residential building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on January 28, 2014, after due notice by publication in the *City Record*, with a continued hearing on February 25, 2014, and then to decision on March 11, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 10, Brooklyn, recommends approval of the application, provided that the hours of operation are limited to daily, from 7:00 a.m. to 10:00 p.m.; and

WHEREAS, the subject site is located on the west side of Third Avenue, between 79th Street and 80th Street, within a C1-3 (R6B) zoning district within the Special Bay Ridge District; and

WHEREAS, the site has approximately 60 feet of frontage along Third Avenue and 6,000 sq. ft. of lot area; and

MINUTES

WHEREAS, the site is occupied by a two-story commercial building with approximately 11,400 sq. ft. of floor area (1.9 FAR); and

WHEREAS, the applicant notes that the first floor of the building is occupied by a grocery store and the second floor is vacant; and

WHEREAS, the applicant notes that the building was constructed in or around 1931 and that the site has been subject to the Board's jurisdiction since July 24, 1959, when, under BSA Cal. No. 398-58-BZ, it granted a variance permitting a factory contrary to use regulations; in addition, later that year, on September 29, 1959, under BSA Cal. No. 399-58-A, the Board granted an appeal waiving the live load requirements for the second story; and

WHEREAS, the applicant states that the manufacturing use remained on the second story until around 1972, when the manufacturer vacated the space, and remained vacant until around 2000, when a martial arts studio leased the space and occupied it until March 2012; and

WHEREAS, the applicant acknowledges that a martial arts studio is a PCE and concedes that a variance was not obtained for the operation of the studio; however, the applicant represents that both the building owner and the martial arts studio were unaware that a martial arts studio is considered a PCE and that PCEs are not permitted within a C1-3 (R6B) district; and

WHEREAS, the applicant now seeks a variance to operate the subject PCE, which will be known as H.I.T. Factory, occupy 5,400 sq. ft. of floor area on the second story, and operate daily, from 7:00 a.m. to 10:00 p.m.; and

WHEREAS, the applicant states that, per ZR § 72-21(a), the following are unique physical conditions which create an unnecessary hardship in developing the second floor in conformance with applicable regulations: (1) the second floor's configuration, depth, and size; and (2) its absence of street-level exposure; and

WHEREAS, the applicant states that the historic configuration, depth, and size of the second floor—the characteristics that made it suitable for historic manufacturing use—render it unsuitable for modern conforming uses; and

WHEREAS, specifically, the applicant states that the second floor has a large open floorplate, which would require utilities upgrades and partition construction in order to accommodate a modern business or professional office, at significant cost; and

WHEREAS, the applicant also asserts that the large size (approximately 6,000 sq. ft.) and depth (approximately 90 feet) of the second floor make residential use infeasible; and

WHEREAS, in particular, the applicant states that the second floor would be able to provide a rear yard depth of only ten feet, which is 20 feet less than the minimum required for habitable rooms; accordingly, all dwelling units must use the Third Avenue frontage of the building for required light and ventilation, which effectively prohibits the rear of the building from being converted to residences; and

WHEREAS, the applicant also states that the lack of light and ventilation owing to the building's depth would

further decrease its attractiveness to modern business or professional offices, which prefer natural light; and

WHEREAS, similarly, the second floor's absence of street-level exposure makes it undesirable for local retail and service establishment uses, which rely primarily on pedestrian visibility and convenience of access in order to attract customers; as such, the rent for the second floor must be heavily discounted in order to offset the limitations of the space; and

WHEREAS, the applicant notes that the second floor's unattractiveness to tenants is evidenced by its 28-year vacancy, which, as noted above, began in 1972 and ended when a martial arts studio (a PCE) began occupying the space in 2000; and

WHEREAS, to support its claim of unique hardship, the applicant provided an area study of the 92 buildings within 600 feet of the site; and

WHEREAS, based on the study, only one other building has a second floor non-residential (community facility) use: 7817 Third Avenue, which has a Rite-Aid store on the first floor and "Tutor Time," an infant child care and preschool, on the second floor; and

WHEREAS, however, the applicant asserts that the Tutor Time building is distinguishable from the site, in that it has significantly more lot area (approximately 9,600 sq. ft.) and is located on a corner, where light and ventilation are available for residential or modern office uses; and

WHEREAS, the Board agrees with the applicant that the aforementioned unique physical conditions, when considered together, create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant asserts that, per ZR § 72-21(b), there is no reasonable possibility that the development of the site in conformance with the Zoning Resolution will bring a reasonable return; and

WHEREAS, in addition to the proposal, the applicant examined the economic feasibility of constructing a conforming office for a single user on the second floor; and

WHEREAS, the applicant concluded that the offices resulted in a negative rate of return after capitalization; in contrast, the applicant represents that the proposal results in a positive rate of return; and

WHEREAS, based upon its review of the applicant's economic analysis, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed PCE will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, the applicant states that a PCE occupied the building (albeit without the required variance, as noted above) from approximately 2000 until 2012, and that this

MINUTES

application has received letters of support from various community organizations as well as the community board; and

WHEREAS, the applicant represents that the surrounding community is characterized by low- to medium-density mixed residential and commercial uses, with many small business that are geared to local residents, and that the proposed PCE is consistent with such uses and will provide a valuable service; and

WHEREAS, as to the PCE's impact, the applicant represents that although light music may be played during workouts, the building's double concrete walls and extra padding will provide ample sound attenuation for both the neighboring buildings, and the grocery store use at the first floor; and

WHEREAS, in addition, consistent with the community board's request, as noted above, the hours of operation for the PCE will be limited to daily, from 7:00 a.m. to 10:00 p.m.; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that, consistent with ZR § 72-21(d), the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the history of manufacturing use on the second floor and the building's depth; and

WHEREAS, finally, the Board finds that the proposal is the minimum variance necessary to afford relief, as set forth in ZR § 72-21(e); and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the Board notes that because the use authorized herein is classified as a PCE, the variance will be granted for a term of ten years, to expire on March 11, 2024; and

WHEREAS, the Department of Investigation performed a background check on the corporate owner and operator of the PCE and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 14BSA045M, dated September 23, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials;

Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, within a C1-3 (R6B) zoning district within the Special Bay Ridge District, the operation of a physical culture establishment ("PCE") within the second story of a two-story residential building, contrary to ZR § 32-10, *on condition* that any and all work will substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received December 23, 2013" – Four (4) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on March 11, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT all signage at the site will be limited to C1 zoning district regulations;

THAT all massages must be performed only by New York State licensed massage professionals;

THAT the hours of operation for the PCE will be limited to seven days per week, from 7:00 a.m. to 10:00 p.m.;

THAT the above conditions will appear on the certificate of occupancy;

THAT a new certificate of occupancy will be obtained within two years of the date of this grant, on March 11, 2016;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 11, 2014.

The resolution has been amended. Corrected in Bulletin Nos. 12-13, Vo. 99, dated April 3, 2014.

MINUTES

**REGULAR MEETING
TUESDAY MORNING, APRIL 1, 2014
10:00 A.M.**

Present: Chair Srinivasan, Vice-Chair Collins,
Commissioner Ottley-Brown, Commissioner Hinkson and
Commissioner Montanez.

SPECIAL ORDER CALENDAR

240-55-BZ

APPLICANT – Rothkrug Rothkrug & Spector LLP, for
DLC Properties, LLC, owner.

SUBJECT – Application December 31, 2013 – Extension of
Time to obtain a Certificate of Occupancy of a previously
granted variance for the continued operation of a UG16 auto
repair shop with sales, which expired on June 8, 2010;
Waiver of the Rules. C2-2(R6B), R4 zoning district.

PREMISES AFFECTED – 207-22 Northern Boulevard,
south side of Northern Boulevard, 350 East of intersection
of Northern Boulevard, and 206th Street, Block 7305, Lot
19, Borough of Queens.

COMMUNITY BOARD #11Q

ACTION OF THE BOARD – Application granted on
condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins,
Commissioner Ottley-Brown, Commissioner Hinkson and
Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the
Rules of Practice and Procedure, a reopening, and an
extension of time to obtain a certificate of occupancy for the
continued use of an auto repair shop with sales (Use Group
16), which expired on June 8, 2010; and

WHEREAS, a public hearing was held on this
application on March 11, 2014, after due notice by
publication in *The City Record*, and then to decision on April
1, 2014; and

WHEREAS, the premises and surrounding area had a
site and neighborhood examination by Commissioner Ottley-
Brown; and

WHEREAS, the subject site is located on the south side
of Northern Boulevard between 208th Street and Oceania
Street, partially within a C2-2 (R6B) zoning district and
partially within an R4 zoning district; and

WHEREAS, the Board has exercised jurisdiction over
the subject site since December 13, 1955 when, under the
subject calendar number, the Board granted a variance to
permit the reconstruction of an automotive repair facility in a
residential zoning district; and

WHEREAS, subsequently, the grant was amended and
the term extended at various times; and

WHEREAS, on May 25, 1999, the Board granted an

extension of term for ten years from the expiration of the
previous grant, and amended the grant to permit the existing
opening in the fence between the parking area of the subject
site and the owner’s property to the east, to expire on
November 3, 2008; and

WHEREAS, on March 6, 2001, the Board granted a
special permit to allow the construction of a second floor to
the existing commercial building to be occupied by office and
storage space; and

WHEREAS, subsequent grants extended the amount of
time to complete construction and obtain a certificate of
occupancy; and

WHEREAS, most recently, on December 8, 2009, the
Board granted an extension of term for ten years from the
expiration of the previous grant, to expire on November 13,
2018, and amended the grant to permit a change in the hours
of operation from Monday through Friday, from 8:30 a.m. to
5:00 p.m. to Monday through Friday, from 8:00 a.m. to 6:00
p.m. (the establishment is closed on the weekends); and

WHEREAS, under the 2009 grant, a certificate of
occupancy was to be obtained by June 8, 2010; however, the
applicant states that a certificate of occupancy has not yet been
obtained; in addition, the applicant notes that the owner no
longer plans to construct the second story authorized under the
2001 special permit described above; and

WHEREAS, accordingly, the applicant now requests
an extension of time to obtain the certificate of occupancy;
and

WHEREAS, based upon the above, the Board finds
that the requested extension of time to obtain a certificate of
occupancy is appropriate with certain conditions as set forth
below.

Therefore it is Resolved, that the Board of Standards and
Appeals *waives* the Rules of Practice and Procedure, *reopens*,
and *amends* the resolution, dated December 13, 1955, so that
as amended this portion the resolution reads: “to grant a one
year extension of time to obtain a certificate of occupancy, to
expire on April 1, 2015; *on condition* that the use and
operation of the site shall substantially conform to the
previously approved plans; and *on further condition*:

THAT a certificate of occupancy will be obtained by
April 1, 2015;

THAT all conditions from the prior resolution not
specifically waived by the Board remain in effect; and

THAT DOB must ensure compliance with all other
applicable provisions of the Zoning Resolution, the
Administrative Code and any other relevant laws under its
jurisdiction irrespective of plan(s) and/or configuration(s)
not related to the relief granted.”

(DOB Application No. 420055184)

Adopted by the Board of Standards and Appeals, April
1, 2014.

MINUTES

5-28-BZ

APPLICANT – Eric Palatnik, P.C., for Steven Feldman, owner; Anwar Ismael, lessee.

SUBJECT – Application August 20, 2013 – Amendment (§11-413) of a previously approved variance which permitted the operation of an automotive service station (UG 16B). The amendment seeks to change the use to a car rental establishment (UG 8). R6 zoning district.

PREMISES AFFECTED – 664 New York Avenue, west side of New York Avenue, spanning the entire length of the block between Hawthorne Street and Winthrop Street, Block 4819, Lot 39, Borough of Brooklyn.

COMMUNITY BOARD #9BK

THE VOTE TO CLOSE HEARING –

ACTION OF THE BOARD – Appeal Denied.

THE VOTE TO GRANT –

Affirmative:0
Negative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

THE RESOLUTION –

WHEREAS, the subject appeal comes before the Board in response to a Final Determination for DOB Application No. 520079405, dated June 17, 2013, issued by the Department of Buildings (“DOB”) (the “Final Determination”); and

WHEREAS, the Final Determination states, in pertinent part:

The request to propose additional floor area deductions for insulated exterior walls complying with the conditions under the definition for “floor area” under ZR 12-10(12) that are located at the cellar, adjacent to the enclosed parking areas, and adjacent to the attic areas with less than 8 ft. of structural headroom for certain zoning districts and number of dwelling units is hereby denied.

MINUTES

“Floor area” is defined in ZR 12-10 as the “sum of the gross areas of the several floors of a building or buildings, measured from the exterior faces or exterior walls . . .” The definition also lists what floor area within the building includes and what floor area shall not include. Certain portions of the exterior walls that are energy efficient and meeting the conditions described in the definition in ZR 12-10 are not included in the floor area of the building.

However, any areas on any floor that are not counted towards the gross floor area of the building are not allowed additional floor area deductions, such as floor spaces for mechanical equipment that are located within the cellar floor; and

WHEREAS, a public hearing was held on this appeal on March 11, 2014, after due notice by publication in *The City Record*, and then to decision on April 1, 2014; and

WHEREAS, the site had visits by Chair Srinivasan and Commissioner Montanez; and

WHEREAS, the appeal is filed on behalf of the owner of the subject site, who contends that DOB’s determination was erroneous (the “Appellant”); and

WHEREAS, DOB and the Appellant have been represented by counsel throughout this appeal; and

WHEREAS, the site is located on the south side of Four Corners Road, 163 feet from Todt Hill Road, within an R1-1 zoning district; and

WHEREAS, the site is occupied by a detached, three-story, single-family residential building (the “Building”); and

WHEREAS, on May 2, 2012, the Appellant filed an Alteration Type 1 Job Application to vertically and horizontally enlarge the cellar, first, and second floors of the Building; and

WHEREAS, DOB denied the application for its use of floor area deductions associated with energy efficient walls in areas that are not counted towards the gross floor area of the Building; and

WHEREAS, the Appellant requested a determination from DOB that the ZR § 12-10(12) definition of “floor area,” which excludes certain energy efficient exterior walls, up to eight inches, from being counted as floor area should be applied to the proposed installation of energy efficient exterior walls at the cellar level, the accessory parking garage, and in the attic; and

WHEREAS, the Final Determination held that the proposed energy efficient walls to be installed at the cellar level, accessory parking garage, and attic cannot be deducted from floor area pursuant to the definition of “floor area” at ZR § 12-10; and

RELEVANT ZONING RESOLUTION PROVISIONS

ZR § 12-10 Definitions

Floor area

"Floor area" is the sum of the gross areas of the several floors of a #building# or #buildings#, measured from the exterior faces of exterior walls or from the center lines of walls separating two #buildings#. In particular, #floor area# includes:

- (a) #basement# space, except as specifically excluded in this definition;
- (b) elevator shafts or stairwells at each floor;
- (c) floor space in penthouses;
- (d) attic space (whether or not a floor has been laid) providing structural headroom of five feet or more in R2A, R2X, R3, R4 or R5 Districts, eight feet or more in R1 and R2 Districts, other than R2A and R2X Districts, and eight feet or more for #single-# or #two-family residences# in R6, R7, R8, R9 and R10 Districts. For #buildings# with three or more #dwelling units# in R6, R7, R8, R9 and R10 Districts #developed# or #enlarged# prior to February 2, 2011, such attic space providing structural headroom of eight feet or more shall be considered #floor area#. For #buildings# with three or more #dwelling units# in R6, R7, R8, R9, and R10 Districts #developed# or #enlarged# after February 2, 2011, any attic space shall be considered #floor area#;
- (e) floor space in gallerias, interior balconies, mezzanines or bridges;
- (f) floor space in open or roofed terraces, bridges, breeze ways or porches, if more than 50 percent of the perimeter of such terrace, breeze way, or porch is enclosed, and provided that a parapet not higher than 3 feet, 8 inches, or a railing not less than 50 percent open and not higher than 4 feet, 6 inches, shall not constitute an enclosure;
- (g) any other floor space used for dwelling purposes, no matter where located within a #building#, when not specifically excluded;
- (h) floor space in #accessory buildings#, except for floor space used for #accessory# off-street parking;
- (i) floor space used for #accessory# off-street parking spaces provided in any #story# after June 30, 1989:
 - (1) within #detached# or #semi-detached single-# or #two family residences# in R1-2A, R2A, R2X, R3, R4 or R5 Districts, except that:
 - (i) in R2A Districts, #floor area# within such #residences# shall include only floor space in excess of 300 square feet for one such space; and
 - (ii) in all R1-2A Districts, and in R3, R4A and R4-1 Districts in #lower density growth management areas#, #floor area# within such #residences# shall include only floor space in excess of 300 square feet for one such space and in excess of 500 square feet for two such spaces;
 - (2) within #buildings# containing #residences

MINUTES

developed# or #enlarged# pursuant to the optional regulations applicable in a #predominantly built-up area#;

- (3) in excess of 100 square feet per required space in individual garages within other #buildings# containing #residences# (#attached buildings#, rowhouses or multiple dwellings) in R3-2, R4 or R5 Districts, except that in R3-2 Districts within #lower density growth management areas#, #floor area# shall only include floor space in excess of 300 square feet for one such space and in excess of 500 square feet for two such spaces. However, all of the floor space within any #story# in individual garages shall be considered #floor area# where, subsequent to June 7, 1989, the level of any #yard# except that portion of a #yard# in front of a garage on the #zoning lot# is lowered below the lower of:
 - (i) #curb level#; or
 - (ii) grade existing on June 7, 1989 . . .

However, the #floor area# of a #building# shall not include:

- (1) #cellar# space, except where such space is used for dwelling purposes. #Cellar# space used for retailing shall be included for the purpose of calculating requirements for #accessory# off-street parking spaces, #accessory# bicycle parking spaces and #accessory# off-street loading berths;
- (2) elevator or stair bulkheads, #accessory# water tanks, or cooling towers, except that such exclusions shall not apply in R2A Districts;
- (3) uncovered steps;
- (4) attic space (whether or not a floor has been laid) providing structural headroom of less than five feet in R2A, R2X, R3, R4 or R5 Districts, less than eight feet in R1 and R2 Districts, other than R2A and R2X Districts, and less than eight feet for #single-# or #two-family residences# in R6, R7, R8, R9 and R10 Districts. For #buildings# with three or more #dwelling units# in R6, R7, R8, R9 and R10 Districts #developed# or #enlarged# prior to February 2, 2011, such attic space providing structural headroom of less than eight feet shall not be considered #floor area#;
- (5) floor space in open or roofed terraces, bridges, breeze ways or porches, provided that not more than 50 percent of the perimeter of such terrace, breeze way, or porch is enclosed, and provided that a parapet not higher than 3 feet, 8 inches, or a

railing not less than 50 percent open and not higher than 4 feet, 6 inches, shall not constitute an enclosure;

- (6) floor space used for #accessory# off-street parking spaces provided in any #story# . . .
- (12) exterior wall thickness, up to eight inches:
 - (i) where such wall thickness is added to the exterior face of a #building# wall existing on April 30, 2012, provided the added wall thickness has a thermal resistance (R-value) of at least 1.5 per inch; or
 - (ii) where such wall thickness is part of an exterior wall constructed after April 30, 2012, equal to the number of inches by which the wall's total thickness exceeds eight inches, provided the above-grade exterior walls of the #building# envelope are more energy efficient than required by the New York City Energy Conservation Code (NYCECC) as determined by the following:

- (1) the area-weighted average U-factor of all opaque above-grade wall assemblies shall be no greater than 80 percent of the area-weighted average Ufactor determined by using the prescribed requirements of the NYCECC; and
- (2) the area-weighted average U-factor of all abovegrade exterior wall assemblies, including vertical fenestrations, shall be no more than 90 percent of the area-weighted average U-factor determined by using the prescribed requirements of the NYCECC. . .

For the purposes of calculating compliance with this paragraph, (12)(ii), the term "above-grade" shall only include those portions of walls located above the grade adjoining such wall. Compliance with this paragraph shall be demonstrated to the Department of Buildings at the time of issuance of the building permit for such exterior walls. The total area of wall thickness excluded from the calculation of #floor area# shall be reflected on the next issued temporary or final certificate of occupancy for the #building#, as well as all subsequent certificates of occupancy; and

THE APPELLANT'S POSITION

WHEREAS, the Appellant asserts that the Zone Green Text Amendment, adopted by the City Council on April 30, 2012 allows that up to eight inches of thickness of exterior walls that meet the energy efficiency standards of the Zoning Resolution can be excluded from floor area calculations even when the area associated with the walls is already excluded from floor area calculations; and

WHEREAS, specifically, the Appellant cites to ZR § 12-10(12)(i) and (ii), which describe the criteria for the exclusion of energy efficient exterior walls; and

WHEREAS, the Appellant proposes to install new walls

MINUTES

exceeding eight inches in thickness in the cellar and cellar addition, first floor, accessory garage, second floor, and attic; and

WHEREAS, the Appellant asserts that the area occupied by all energy efficient exterior walls, including those it proposes - in the cellar, accessory garage, and in areas with height less than eight feet - that meet the standards of the Zoning Resolution are deducted from floor area calculations by the Zone Green Text Amendment, regardless of whether there are other zoning provisions which already exclude the walls' thickness from floor area calculations; and

WHEREAS, the Appellant states that DOB deducted the area associated with up to eight inches of the walls' thickness on the first floor and portions of the second floor, but that it denied the request to deduct the area associated with the walls in the cellar, the accessory garage, and portions of the second floor and attic with heights less than eight feet; and

WHEREAS, the Appellant relies on (1) what he finds to be the plain language of the text; and (2) the broad intent to increase energy efficiency; and

WHEREAS, as to the text, the Appellant states that the plain reading of the Zoning Resolution supports the exclusion of any exterior wall constructed to energy efficient standards; and

WHEREAS, the Appellant asserts that there is not any distinction under the Zoning Resolution between energy efficient exterior walls with thickness that may be excluded from floor area calculations and energy efficient exterior walls with thickness that may not be excluded; and

WHEREAS, the Appellant asserts that absent a distinction between the walls granted exclusion from floor area and those not granted exclusion, all walls must be treated the same regardless of whether they are in portions of the building already eligible for floor area exclusions; and

WHEREAS, accordingly, the Appellant asserts that the space occupied by the thickness of all energy efficient exterior walls that satisfy the Zoning Resolution's standards may be excluded from floor area calculations; and

WHEREAS, as to the intent of the text, the Appellant cites to a purpose statement, which includes "to remove zoning impediments to the construction and retrofitting of green buildings" and that its focus was to promote energy-efficient building walls and reduce the City's energy use and carbon emissions; and

WHEREAS, the Appellant asserts that energy efficient walls throughout a building will increase the overall energy efficiency of the building and promote the Zone Green Text Amendment's purpose; and

WHEREAS, specifically, the Appellant states that insulated basements can help reduce energy costs, citing to the U.S. Department of Energy, and further that garages can be sources of heat loss/gain in a building; and

WHEREAS, the Appellant asserts that DOB's reading of the text eliminates the incentive for property owners to construct energy efficient walls in cellars, garages, and portions of buildings with heights less than eight feet; and

WHEREAS, the Appellant asserts that the absence of an

incentive is inconsistent with the Zoning Resolution and will prohibit reductions in energy costs and carbon emissions in the City; and

WHEREAS, the Appellant submitted a letter to the Department of City Planning (DCP) seeking a response to its assertion that the purpose and effect of the Zone Green Text Amendment is to maximize energy efficiency of the entire building so there is a cumulative effect on the City's overall energy usage and efficiency and that, accordingly, the text allows for floor area deductions for all energy efficient walls; and

WHEREAS, by letter dated March 27, 2014, DCP submitted a response to the Appellant's letter, which states that the Zone Green Text did not specify that there was a bonus increase in floor area for insulation and that the intent of the text was to encourage the retrofit of existing buildings, that would as a result of the additional insulation exceed the floor area permitted, and would therefore be prevented from installing additional insulation and to encourage the use of highly efficient insulating materials in new construction without penalizing the property owner for the amount of space the thicker insulation occupies; and

WHEREAS, accordingly, DCP states that it agrees with DOB that allowing the requested deduction would be the equivalent of double-dipping, which was not the intent of the Zone Green Text; and

DOB'S POSITION

WHEREAS, DOB asserts that energy efficient exterior walls may not be deducted from floor area calculation in portions of the building that are already excluded from floor area calculations (1) pursuant to the ZR § 12-10 definition of floor area; and (2) because to do so would constitute double-dipping; and

WHEREAS, DOB states that a property owner cannot exclude an area from floor area under the exclusions from floor area in the ZR § 12-10 definition of floor area and then seek to deduct the same area again, based on a separate exclusion from floor area in the ZR § 12-10 definition; and

WHEREAS, DOB cites to the Appellant's proposed plans, which do not identify any floor area for the cellar level or accessory garage and thus completely exempts those spaces, and which deduct 442.65 sq. ft. of attic floor area from the proposed 442.65 sq. ft. of attic floor area, which results in a net 0 sq. ft. of floor area for the attic; and

WHEREAS, DOB agrees with the Appellant that cellars, accessory garages, and certain attic floor area are properly excluded from floor area calculations, per the ZR § 12-10 definition of floor area; and

WHEREAS, DOB notes that ZR § 12-10 defines floor area as "the sum of the gross areas of several floors of a

1 DOB notes that it is currently reviewing the plans to confirm whether the proposed cellar and attic include space that should be included in floor area calculations and if the proposed use is consistent with DOB regulations. However, the Final Determination was based on plans that excluded the entire cellar from floor area calculations.

MINUTES

building or buildings, measured from the exterior walls...” and then identifies particular areas that are included in the floor area calculation; and

WHEREAS, DOB notes that when calculating the floor area of spaces that are included in the floor area calculation, property owners must include the exterior walls of the areas that are included in the ZR § 12-10 floor area calculation; and

WHEREAS, DOB states that exterior walls are counted in spaces that are included as floor area, but when excluding a space from the floor area calculation, the exterior walls of that space are also excluded from the floor area calculation; and

WHEREAS, DOB states that a cellar level may be excluded from floor area because the ZR § 12-10(1) definition of floor area excludes “cellar space, except where such space is used for dwelling purposes;” and

WHEREAS, DOB notes that as indicated on the proposal’s zoning analysis, the Appellant excluded the cellar space from floor area and as such, did not include the exterior walls of the cellar space in the floor area calculations; and

WHEREAS, DOB states that an accessory parking garage may be excluded from floor area because the ZR § 12-10(6)(iv) definition of floor area excludes “floor space used for accessory off-street parking spaces provided in any story...located not more than 23 feet above curb level, in any other building...;” and

WHEREAS, DOB notes that the Appellant did not include the exterior walls of the accessory parking garage in the floor area calculations; and

WHEREAS, DOB states that the attic space may be excluded from floor area because the ZR § 12-10(4) definition of floor area excludes “attic space (whether or not a floor has been laid) providing structural headroom of...less than eight feet in R1 and R2 Districts;” and

WHEREAS, DOB notes that the Appellant did not include the exterior walls of the attic space; and

WHEREAS, DOB states that since the Appellant has already excluded the exterior walls from the floor area calculation in the cellar, accessory garage, and attic, the Appellant cannot then exclude (or deduct) the exterior walls a second time, effectively, based on the ZR § 12-10(12) definition of floor area which excludes certain energy efficient “exterior wall thickness, up to eight inches;” and

WHEREAS, DOB asserts that a property owner may not take a deduction twice for the same building condition and to do as the Appellant proposes would be to “double-dip” by subtracting floor area that was not included in the floor area calculations; and

WHEREAS, DOB states that if the noted energy efficient walls had not already been excluded from the floor area calculation, then they could be excluded from floor area; and

WHEREAS, DOB states that, in contrast, up to eight inches of thickness of energy efficient exterior walls would be excluded from floor area if the energy efficient exterior walls were added to a second floor bedroom as the bedroom would be included in the floor area calculation, but the eight-inch exterior wall would be excluded (or deducted); and

WHEREAS, DOB provided the following example of what would be considered “double dipping” in the context of floor area deductions: in certain districts, the ZR § 12-10 definition of floor area excludes 50 sq. ft. of space used for mechanical equipment from the first dwelling unit; when that mechanical space is located in a 1,000 sq.-ft. cellar which is not used for dwelling purposes, the entire 1,000 sq. ft. cellar is excluded from floor area, but not the 1,000 sq. ft. and the 50 sq. ft. mechanical deduction, which is subsumed in the cellar exclusion; and

WHEREAS, therefore, DOB contends that it properly determined that the space occupied by the thickness of the noted walls cannot be deducted from the floor area calculations; and

CONCLUSION

WHEREAS, the Board agrees with DOB and the Department of City Planning that the thickness of the proposed cellar, accessory garage, and attic walls cannot be deducted from the floor area calculations for the building; and

WHEREAS, the Board finds that, according to the plain text of the ZR § 12-10 definition of floor area, those portions of the Building are already excluded from floor area calculations; and

WHEREAS, specifically, the ZR § 12-10 definition of floor area identifies exclusions from floor area calculations for cellars (at sub-paragraph (1)); certain attic space (at sub-paragraph (4)); and certain accessory parking garages (at sub-paragraph (6)); and

WHEREAS, the Board finds that pursuant to the Zone Green Text Amendment, energy efficient walls to a thickness of eight inches were noted (at sub-paragraph (12)) as an additional, but separate, building element that can be excluded from floor area calculations; and

WHEREAS, the Board does not find any support in the text for the Appellant’s conclusion that multiple exclusions can apply to the same building condition; and

WHEREAS, the Board recognizes the intent of the Zone Green Text Amendment to promote energy efficient construction, but does not see any basis in the text that allows for a reduction in floor area from portions of buildings that are already excluded from floor area calculations; and

WHEREAS, the Board notes that the Zoning Resolution does not contemplate double-counting of exclusions and cites to DOB’s cellar mechanical space example and its conclusion that if cellar space is already excluded from floor area calculations it cannot also have a deduction for mechanical space within it; and

WHEREAS, the Board finds that such double-counting of floor area deductions or the practice of deducting floor area from portions of the building that do not actually generate floor area leads to absurd results from a zoning perspective; and

WHEREAS, the Board finds that the Appellant’s reading, although it may promote a broader incentive for energy efficient construction, is simply not supported by the text; and

WHEREAS, the Board limits its decision to the Final

MINUTES

Determination and the plans associated with it, which reflect portions of the building that DOB concludes are not included in the floor area calculations, such as the cellar, garage, and portions of the attic with heights less than eight feet; and

Therefore it is Resolved, that the Board denies the appeal and affirms DOB's determination that the sum of the space occupied by the cellar, garage, and attic walls cannot be deducted from the building's total floor area.

Adopted by the Board of Standards and Appeals, April 1, 2014.

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated February 28, 2013, acting on Department of Buildings Application No. 420812632, reads in pertinent part:

Daycare is classified under UG 3 by Department's Memo July 6, 1976 [and therefore] is not permitted in M1-3 district as per ZR 42-00; and

WHEREAS, this is an application under ZR §§ 73-19 and 73-03 to permit, on a site in an M1-3 zoning district, the conversion of the first story of an existing one-story and basement commercial building to a Use Group 3 daycare, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on July 9, 2013, after due notice by publication in the *City Record*, with continued hearings on September 10, 2013 and February 25, 2014, and then to decision on April 1, 2014; and

WHEREAS, the site and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Queens, recommends approval of this application; and

WHEREAS, the subject site is located on the northwest corner of the intersection of 40th Avenue and 12th Street, within an M1-3 zoning district; and

WHEREAS, the site is a single zoning lot comprising Tax Lots 548, 618, 619, and 621, has a lot area of approximately 16,139 sq. ft., 200 feet of frontage along 12th Street, and 74.34 feet of frontage along 40th Avenue; and

WHEREAS, the applicant represents that Lot 548 is currently occupied by a one-story and basement commercial building with 14,947 sq. ft. of floor area (0.93 FAR); Lots 618, 619, and 621 are currently a parking lot; and

WHEREAS, the applicant proposes to renovate the first story of the building to allow a Use Group 3 daycare ("the

MINUTES

School”) with approximately 7,473 sq. ft. of floor area (0.46 FAR), and utilize Lots 618, 619, and 621 for accessory off-street parking and a play area; the applicant notes that the basement will not be altered under the subject application and will remain Use Group 6 (offices); and

WHEREAS, the applicant states that the renovated building will serve an estimated 117 children ranging in age from two to five years and approximately 25 employees, and provide related sanitary facilities and administrative offices; and

WHEREAS, the applicant states that the School will be in compliance with the New York Health Code on Child Care Services and will operate from 7:00 a.m. to 7:00 p.m.; and

WHEREAS, the applicant states that the School requires a minimum of 7,500 sq. ft. in order to carry out its program (child care for 117 students) in accordance with the New York Health Code; and

WHEREAS, in addition, the applicant represents that its students are drawn from primarily within a half-mile radius of the site; and

WHEREAS, finally, the applicant notes that the owner will be directly involved in the management of the School, in order to minimize costs and to ensure ongoing compliance with the rules and regulations governing the operation of the School; and

WHEREAS, the applicant represents that the proposal meets the requirements of the special permit under ZR § 73-19 to permit a school in an M1-3 zoning district; and

WHEREAS, ZR § 73-19 (a) requires an applicant to demonstrate the inability to obtain a site for the development of a school within the neighborhood to be served and with a size sufficient to meet the programmatic needs of the school within a district where the school is permitted as-of-right; and

WHEREAS, the applicant represents that it conducted a search of nearby residence and commercial districts with the following site criteria: (1) a minimum of 7,500 sq. ft. of program space in order to accommodate the School’s 117 students in accordance with the New York Health Code; (2) parking and recreation space; (3) minimal construction costs; (4) proximity to the neighborhood surrounding the site; and (5) proximity to public transportation; and

WHEREAS, the applicant states that during its search, it evaluated the feasibility of five buildings within the area and on sites where Use Group 3 is permitted as-of-right: 34-19 Tenth Street; 34-51 Vernon Boulevard; 30-01 Northern Boulevard; 65-35 Queens Boulevard; and 45-02 Skillman Avenue; and

WHEREAS, the applicant represents that each building was unsuitable for the School, in that: 34-19 Tenth Avenue was not in close proximity to public transportation and its space was not suitable for children and would have required extensive renovations, including the installation of an elevator; 34-51 Vernon Boulevard had only 6,500 sq. ft. of usable space and no on-site parking area; 30-01 Northern Boulevard had only 5,000 sq. ft. of usable space, would

have required extensive renovations, had neither on-site recreation space, nor a nearby park; 65-35 Queens Boulevard had less than the required amount of usable space and is already occupied by a child care center on the second story; and 45-02 Skillman Avenue had only 3,000 sq. ft. of usable space; and

WHEREAS, the applicant maintains that the site search establishes that there is no practical possibility of obtaining a site of adequate size in a nearby zoning district where a school would be permitted as-of-right; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19 (a) are met; and

WHEREAS, ZR § 73-19 (b) requires an applicant to demonstrate that the proposed school is located no more than 400 feet from the boundary of a district in which such a school is permitted as-of-right; and

WHEREAS, the applicant submitted a radius diagram which reflects that the subject site is located approximately 200 feet from an R6 zoning district, where the proposed use would be permitted as-of-right; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19 (b) are met; and

WHEREAS, ZR § 73-19 (c) requires an applicant to demonstrate how it will achieve adequate separation from noise, traffic and other adverse effects of the surrounding non-residential district; and

WHEREAS, the applicant states that an ambient noise survey was conducted at the site, which indicated that the predominant noise source in the area is vehicular traffic, which according to the survey conducted during peak, weekday travel periods, averaged 27 dB(A); and

WHEREAS, the applicant notes that 27 dB(A) is well below the 45 dB(A) that is considered acceptable according to the CEQR Technical Manual, and that such low noise level within the building is owing to the fact that it was built with sound-attenuating exterior wall and window construction; and

WHEREAS, the Board finds that the conditions surrounding the site and the building’s use will adequately separate the proposed school from noise, traffic and other adverse effects of any of the uses within the surrounding M1-3 zoning district; thus, the Board finds that the requirements of ZR § 73-19 (c) are met; and

WHEREAS, ZR § 73-19 (d) requires an applicant to demonstrate how the movement of traffic through the street on which the school will be located can be controlled so as to protect children traveling to and from the school; and

WHEREAS, the applicant represents that the majority of students will be dropped off by parents commuting on the subway (F train), which is located less than two blocks from the site; and

WHEREAS, as for vehicular traffic, the applicant states that, based on its assessment of existing traffic conditions in the vicinity, the School can operate safely without significant impacts; and

WHEREAS, in particular, the applicant states that

MINUTES

students will enter and exit the building via an entrance on 12th Street, which the applicant notes is not a primary thoroughfare based on its study of traffic patterns; in addition, a four-way stop sign and pedestrian lanes have been installed at the intersection of 12th Street and 40th Avenue; and

WHEREAS, the Board referred the application to the School Safety Engineering Office of the Department of Transportation (“DOT”); and

WHEREAS, the applicant represents that, to the extent deemed appropriate by DOT, it will install additional signage, “School Crossing” pavement markings, and crossing guards in the vicinity; and

WHEREAS, by letter dated April 8, 2013, DOT states that it has no objection to the proposed construction and will, upon approval of the application, prepare a safe route to school map with signs and marking; and

WHEREAS, the Board finds that the above-mentioned measures will control traffic so as to protect children going to and from the proposed school; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19 (d) are met; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-19; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as an Type II action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board conducted an environmental review of the proposed action and documented relevant information about the project in the Final Environmental Assessment Statement (“EAS”) CEQR No. 13BSA115Q, dated May 23, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the New York City Department of Environmental Protection’s (“DEP”) Bureau of Environmental Planning and Analysis reviewed the project for potential hazardous materials, air quality and noise impacts; and

WHEREAS, DEP reviewed and accepted the October 2013 Remedial Action Plan and Construction Health and Safety Plan; and

WHEREAS, DEP requested that a P.E.-certified Remedial Closure Report be submitted to DEP for review and approval upon completion of the proposed project; and

WHEREAS, DEP reviewed the applicant’s March 2014 Air Quality Impact Assessment and determined that no significant air quality impacts to the proposed project are anticipated; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-19 and 73-03 and grants a special permit, to allow the conversion of the first story of an existing one-story and basement commercial building to a Use Group 3 daycare, on a site within an M1-3 zoning district; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked “Received September 20, 2013” – (2) sheets and “May 24, 2013”-(4) sheet; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT any change in the operator of the school requires review and approval by the Board;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70;

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 1, 2014.

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated September 24, 2013, acting on Department of Buildings (“DOB”) Application No. 121789181, reads in pertinent part:

Proposed use as a physical culture establishment is contrary to ZR 32-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in a C6-2A zoning district within the Special Tribeca Mixed Use District, the operation of a physical culture establishment (“PCE”) within portions of the cellar of a two-story commercial building and within portions of the cellar and first story of a 21-story mixed residential and commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on March 4, 2014, after due notice by publication in *The City Record*, and then to decision on April 1, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Hinkson; and

WHEREAS, Community Board 1, Manhattan, expresses no objection to this application; and

WHEREAS, the subject site is a single zoning lot comprising Tax Lots 3, 29, and 7501, which occupies the eastern portion of the block bounded by Canal Street, Church Street, Lispenard Street, and West Broadway, within a C6-4A zoning district within the Special Tribeca Mixed

Use District; and

WHEREAS, the site has approximately 217 feet of frontage along Canal Street, approximately 153 feet of frontage along Church Street, approximately 226 feet of frontage along Lispenard Street, and 41,739 sq. ft. of lot area; and

WHEREAS, the site is occupied by three buildings; Lot 29 is occupied by a 21-story hotel building, Lot 3 is occupied by a two-story commercial building, and Lot 7501 (formerly Lot 11; a/k/a 7-11 Lispenard Street) is occupied by a six-story mixed residential and commercial building; the buildings have a total floor area of 224,404 sq. ft. of (5.37 FAR); and

WHEREAS, the PCE is proposed to occupy 620 sq. ft. of floor area on the first story of the 21-story hotel building and a total of 12,786 sq. ft. of floor space in the cellars of the 21-story building and the two-story commercial building, for a total PCE size of 13,406 sq. ft. of floor space; and

WHEREAS, the PCE will be operated as Planet Fitness; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE will be seven days per week, 24 hours per day; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board also finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No.14BSA051M dated October 3, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources;

MINUTES

Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located in a C6-2A zoning district within the Special Tribeca Mixed Use District, the operation of a PCE within portions of the cellar of a two-story commercial building and within portions of the cellar and first story of a 21-story mixed residential and commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received January 10, 2014 – Five (5) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on April 1, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 1, 2014.

CEQR #14-BSA-059K

APPLICANT – Eric Palatnik, P.C., for 840-842 LLC, owner; Crunch LLC, lessee.

SUBJECT – Application October 22, 2013 – Special Permit (§73-36) to allow a physical culture establishment (*Crunch LLC*) within a portion of an existing building. C8-2 zoning district.

PREMISES AFFECTED – 842 Lefferts Avenue, south side of Lefferts Avenue, approximately 262’ west of intersection of Utica Avenue and Lefferts Avenue, Block 1430, Lot 22, Borough of Brooklyn.

COMMUNITY BOARD #9BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated October 8, 2013, acting on Department of Buildings (“DOB”) Application No. 320907202, reads in pertinent part:

Proposed PCE in a C8-2 district is contrary to ZR 32-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in a C8-2 zoning district, the operation of a physical culture establishment (“PCE”) in the cellar and on the first, second and third stories of a three-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on March 4, 2014, after due notice by publication in *The City Record*, and then to decision on April 1, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Hinkson; and

WHEREAS, Community Board 9, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of Lefferts Avenue between Schenectady Avenue and Utica Avenue, within a C8-2 zoning district; and

WHEREAS, the site has approximately 130 feet of frontage along Lefferts Avenue and 7,540 sq. ft. of lot area; and

WHEREAS, the site is occupied by a three-story commercial building with 18,213 sq. ft. of floor area (2.42 FAR); the applicant notes that the site has been under the Board’s jurisdiction since January 7, 1964, when, under BSA Cal. No. 110-63-BZX, the Board permitted an extension of time to complete construction of the building under ZR § 11-32; most recently, on August 16, 2005, the Board, under BSA Cal. No. 321-04-BZ, granted a special permit for the conversion of the building from commercial

MINUTES

use to a school; and

WHEREAS, the applicant states that the conversion authorized by the Board under BSA Cal. No. 321-04-BZ did not occur and that the building was used as offices until it recently became vacant; and

WHEREAS, the applicant now proposes to convert the entire building to PCE use; specifically, the PCE will occupy all three stories of the building (18,213 sq. ft. of floor area) and the cellar (6,071 sq. ft. of floor space), for a total PCE size of 24,284 sq. ft. of floor space; and

WHEREAS, the PCE will be operated as Crunch; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE will be Monday through Saturday, from 5:00 a.m. to 11:00 p.m. and Sunday, from 7:00 a.m. to 9:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board also finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No. 14BSA059K dated October 14, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located in a C8-2 zoning district, the operation of a PCE in the cellar and on the first, second and third stories of a three-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received January 9, 2014" – Nine (9) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on April 1, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 1, 2014.

CALENDAR

MAY 6, 2014, 10:00 A.M.

NOTICE IS HEREBY GIVEN of a public hearing, Tuesday morning, May 6, 2014, 10:00 A.M., at 22 Reade Street, Spector Hall, New York, N.Y. 10007, on the following matters:

SPECIAL ORDER CALENDAR

245-32-BZ

APPLICANT – Sion Hourizadeh, for Michael Raso, owner.
SUBJECT – Application June 20, 2012 – Extension of Term (§11-411) of a previously approved variance which permitted automotive repair (UG 16B) with a commercial office (UG 6) at the second story. C2-2/R5 zoning district.
PREMISES AFFECTED – 123-05 101 Avenue, Block 9464, Lot 30, Borough of Queens.

COMMUNITY BOARD #9Q

611-52-BZ

APPLICANT – Gerald J. Caliendo, for John Blumenfield - HL Dalis, Inc., owner.
SUBJECT – Application October 15, 2013 – Extension of Term (§11-411) of a previously approved variance permitting a one story warehouse building located in a residential zoning district, which expired on May 5, 2013. R5 zoning district.

PREMISES AFFECTED – 35-35 24th Street, east side of 24th Street, 130.63 feet south from the intersection of 35th Avenue and 24th Street, Block 338, Lot 8, Borough of Queens.

COMMUNITY BOARD #1Q

322-05-BZ

APPLICANT – Eric Palatnik P.C., for Queens Jewish Community Council, owner.

SUBJECT – Application March 7, 2014 – Extension of Time to Complete Construction for a previously granted Variance (72-21)ZR for an enlargement of an existing two single story plus cellar single family home and the change in use to a community use facility (*Queens Jewish Community Council*) which expired on March 7, 2014. R4B zoning district.

PREMISES AFFECTED – 69-69 Main Street, Main Street and 70th Avenue, Block 6642, Lot 1, Borough of Queens.

COMMUNITY BOARD #8Q

173-09-BZ

APPLICANT – Goldman Harris LLC, for 839-45 Realty LLC, owner; Ranco Capital LLC, lessee.

SUBJECT – Application March 25, 2014 – Extension of Time to Complete Construction of a previously granted

Variance (72-21) for the construction of a four story mixed use building contrary to use regulations which expires on December 14, 2014. C8-2/M1-1 zoning district.

PREMISES AFFECTED – 839-845 Broadway aka 12-14 Park Street, southeast corner of Broadway and Park Street, Block 3134, Lots 5, 6, 10, 11, Borough of Brooklyn.

COMMUNITY BOARD #4BK

APPEALS CALENDAR

304-13-A

APPLICANT – Simons & Wright, for 517 West 19th Street LLC, owner; David Zwirner, lessee.

SUBJECT – Application November 19, 2013 – Appeal challenging DOB 's determination that subject premises is considered an art gallery and therefore a Certificate of Operation for place of assembly shall be required. C6-2 WCH special district.

PREMISES AFFECTED – 517-519 West 19th Street, north side of West 19th Street between 10th and 11th Avenues, Block 691, Lot 22, Borough of Manhattan.

COMMUNITY BOARD #4M

312-13-A

APPLICANT – Simons & Wright, for Lan Chen Corp. 36-36 Prince Street, owner; David Zwirner, lessee.

SUBJECT – Application November 19, 2013 – Appeal challenging DOB 's determination that subject premises is considered an art gallery and therefore a Certificate of Operation for place of assembly shall be required. C6-2 WCH special district.

PREMISES AFFECTED – 521-525 West 19th Street, north side of West 19th Street between 10th and 11th Avenues, Block 691, Lot 19, Borough of Manhattan.

COMMUNITY BOARD #4M

313-13-A

APPLICANT – Simons & Wright, for 531 West 19th Street LLC, owner; David Zwirner, lessee.

SUBJECT – Application November 19, 2013 – Appeal challenging DOB 's determination that subject premises is considered an art gallery and therefore a Certificate of Operation for place of assembly shall be required. C6-2 WCH special district.

PREMISES AFFECTED – 531 West 19th Street, north side of West 19th Street between 10th and 11th Avenues, Block 691, Lot 15, Borough of Manhattan.

COMMUNITY BOARD #4M

CALENDAR

ZONING CALENDAR

277-13-BZ

APPLICANT – Jeffrey A. Chester, Esq./GSHLLP, for SoBro Development Corporation, owner.

SUBJECT – Application September 27, 2013 – Variance (§72-21) to permit a proposed development of new 12-story mixed-use building with underground parking, two floors of community facility (*church*) space, with 125 multi-family residential units requires multiple bulk/are variances. R7-2 zoning district.

COMMUNITY BOARD #18BK

Jeff Mulligan, Executive Director

MINUTES

**REGULAR MEETING
TUESDAY MORNING, APRIL 8, 2014
10:00 A.M.**

Present: Chair Srinivasan, Vice-Chair Collins,
Commissioner Ottley-Brown, Commissioner Hinkson and
Commissioner Montanez.

SPECIAL ORDER CALENDAR

960-67-BZ & 116-68-BZ

APPLICANT – Akerman LLP By Steven Sinacori for 40
CPS Associates, LLC, owner.

SUBJECT – Application December 26, 2013 – Amendment
of two previously approved variances (§72-21) to allow the
merger of the zoning lots and the transfer of development
rights from 36 to 40 Central Park South. R10-H zoning
district.

PREMISES AFFECTED – 36 & 40 Central Park South,
South side of Central Park South between 6th and 5th
Avenues. Block 1274, Lot(s) 6, 11, Borough of Manhattan.

COMMUNITY BOARD #5M

ACTION OF THE BOARD – Application granted on
condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Commissioner Ottley-Brown,
Commissioner Hinkson and Commissioner Montanez4

Negative:.....0

Absent: Vice Chair Collins.....1

THE RESOLUTION –

WHEREAS, this is an application for a reopening and
an amendment to two existing variances, to allow (1) the
merger of Lot 6 and Lot 11 into a single zoning lot; (2) the
potential transfer of unused development rights from Lot 6 to
Lot 11; and (3) an amendment to the site plan to reflect the
proposed merger of Lot 6 and Lot 11; and

WHEREAS, a public hearing was held on this
application on March 25, 2014, after due notice by publication
in *The City Record*, and then to decision on April 8, 2014; and

WHEREAS, the premises and surrounding area had site
and neighborhood examinations by Chair Srinivasan, Vice-
Chair Collins, Commissioner Hinkson, and Commissioner
Ottley-Brown; and

WHEREAS, Community Board 5, Manhattan,
recommends approval of this application on the condition that
the applicant’s Inclusionary Housing development partner
appear before it; any future modifications are presented to it
and the Board of Standards and Appeals; and the applicant
will discuss design with it; and

WHEREAS, the application is brought on behalf of the
owners of Lot 6 (the “Lot 6 Owner”) and Lot 11 (the “Lot 11

Owner”) (collectively, “the applicants”); and

WHEREAS, Lot 6 (which includes a 40 Central Park
South building and a 41 West 58th Street building) is a through
block site located partially within an R10H zoning district,
partially within a C5-1 zoning district, and partially within a
C5-2.5(MiD) zoning district; and

WHEREAS, on June 25, 1968, pursuant to BSA Cal.
No. 116-68-BZ, the Board granted a variance for Lot 6 (the
“Lot 6 Variance”) that allowed an existing professional office
located on a portion of the first floor of a 21-story building in
what was then an R10 zoning district to be converted to an
eating and drinking establishment; the restaurant use is located
entirely within the building at 40 Central Park South; and

WHEREAS, on December 21, 1999, the Board
approved an amendment of the variance to permit the
enlargement of the eating and drinking establishment; and

WHEREAS, Lot 6 has a lot area of 25,607.1 sq. ft., 125
feet of frontage on Central Park South, and 130 feet of
frontage on West 58th Street; it is occupied by two residential
buildings: 41 West 58th Street, located on the southern portion
of the site, and 40 Central Park South, located on the northern
portion of the site; and

WHEREAS, the Lot 6 Owner states that the combined
floor area for the two buildings on Lot 6 is 251,816 sq. ft. and
that there are 4,255 sq. ft. of unused floor area under the
applicable maximum 10.0 FAR 51,214 sq. ft. of additional
unused floor area available through the Inclusionary Housing
program; and

WHEREAS, accordingly, the Lot 6 Owner represents
that there is a potential for a total of 55,469 additional sq. ft. of
floor area available on Lot 6; and

WHEREAS, Lot 11, which currently constitutes a
separate zoning lot, is a through block site partially within an
R10H zoning district and partially within a C5-2.5(MiD)
district; and

WHEREAS, on November 13, 1968, at which time Lot
11 was located partially within an R10 zoning district and
partially within a C5-3 zoning district, pursuant to BSA Cal.
No. 960-67-BZ, the Board granted a variance of the
applicable use and bulk regulation for the Lot 11 building (the
“Lot 11 Building”) to allow transient hotel use within the R10
zoning district and to allow waivers to FAR, rear yard, and sky
exposure plane regulations along Central Park South and West
58th Street; and

WHEREAS, the Board approved three amendments in
the 1970s and 1980s, which allowed for massing
reconfiguration, the enlargement of the banquet hall, and the
enclosure of the rooftop recreation area; and

WHEREAS, Lot 11 has a lot area of 20,284.8 sq. ft.
with 75 feet of frontage on Central Park South and 127 feet of
frontage on West 58th Street; it is occupied by a 44-story
transient hotel; and

WHEREAS, the Lot 11 Owner states that the R10H

MINUTES

portion of Lot 11 is subject to a base 10.0 FAR, which may be increased to 12.0 FAR through the Inclusionary Housing program; the C5-2.5(MiD) portion of Lot 11 is subject to a maximum 12.0 FAR; and

WHEREAS, the Lot 11 Owner asserts that under current zoning, Lot 11 may be developed with up to 243,418 sq. ft. of floor area; and

WHEREAS, pursuant to the Board's approval, the Lot 11 Building contains 369,558 sq. ft. of floor area, which exceeds the amount of floor area currently permitted on Lot 11 by 126,140 sq. ft.; and

WHEREAS, the Lot 11 Owner states that there are 14,297 sq. ft. of unused floor area under on Lot 6 (if tenant recreation space is included per ZR § 81-241) and 41,172 sq. ft. of additional unused floor area available through the Inclusionary Housing program (per ZR § 23-951); and

WHEREAS, the applicants now seek the Board's consent to merge Lot 6 and Lot 11 into a single zoning lot, which would allow for the transfer of excess development rights from Lot 6 to Lot 11; and

WHEREAS, the applicants seek authorization to ultimately transfer up to 55,469 sq. ft. of unused development rights (provided the recreation space and Inclusionary Housing requirements are satisfied) from Lot 6 to adjacent Lot 11; and

WHEREAS, the applicants also propose to modify the site plan to reflect the merger of Lots 6 and 11 within the subject zoning lot; and

WHEREAS, the applicants represent that the proposed zoning lot merger and floor area transfer will not have any effect on the existing buildings located on Lot 6 or on the operation of the eating and drinking establishments therein; and

WHEREAS, the applicants assert that a transfer of the unused floor area from Lot 6 should be allowed because it is not in conflict with the Lot 6 Variance; and

WHEREAS, the applicants represent that the proposed transfer of development rights is consistent with the Court's decision in Bella Vista v. Bennett, 89 N.Y. 2d 565 (1997), setting forth the parameters of Board review of requests for the transfer of development rights from sites for which a variance has been granted; and

WHEREAS, the applicants state that its application for the original 1968 variance and 1999 amendment for Lot 6 reflect that the unused development rights were not assumed or considered in the Board's analysis; and

WHEREAS, the applicants state that the documents in support of the original variance discuss only the economics of the ground floor space that was subject to the variance, specifically its limited utility and value as a professional office and its significantly greater value for a restaurant use; and

WHEREAS, the applicants state that the submissions associated with the 1999 amendment to the Lot 6 Variance

analyze the economic viability of the existing Lot 6 buildings with and without the proposed expansion of the restaurant use but are silent on the potential use and value of Lot 6's unused development rights; and

WHEREAS, the applicants assert that at the time of the 1968 Lot 6 Variance and 1999 amendment, there would have been little demand for, and accordingly virtually no value in, Lot 6's unused development rights; and

WHEREAS, further, the applicants note that at all relevant times, the subject block (Block 1274) was fully developed with substantial buildings and the buildings on Lot 6 were full occupied with residential use; and

WHEREAS, specifically, the applicants note that Lot 6 was adjacent to the 44-story Park Lane Hotel to the east, developed in the late 1960's pursuant to a Board variance which included a floor area waiver; and adjacent to the 35-story Hotel St. Moritz and a ten-story residential condominium to the west; and

WHEREAS, accordingly, the applicants assert that at the time of the Board's prior approvals, there were no viable receiving sites for Lot 6's unused development rights and, consequently, they had little if any value; and

WHEREAS, the applicants assert that the historic records and market conditions support the conclusion that the unused developed rights were not considered by the Board in its determination that the 1968 variance was the minimum necessary to resolve the economic hardship on the site; and

WHEREAS, the applicants state that an approval of the requested development rights transfer from the subject site does not undermine the integrity of the Board's earlier findings concerning ZR §§ 72-21(b) or 72-21(e) because the facts of the instant application are readily distinguishable from those underlying the Court's holding in Bella Vista; and

WHEREAS, the applicants conclude that the use of the development rights as a result of the proposed zoning lot merger is therefore not inconsistent with the Board's prior approvals; and

WHEREAS, the Board notes that Bella Vista concerned a permit request for a new as-of-right residential building proposed to be built through the transfer of development rights-- from a site in which the Board granted a use variance to permit operation of a movie theater in a residential zoning district, to a separate adjacent site under common ownership-- for development of a complying residential building; and

WHEREAS, the Court held that review and approval of such transfers by the Board was required, inter alia, because the basis for the original grant, particularly with respect to the findings of financial hardship under ZR § 72-21(b) and minimum variance needed to provide relief under ZR § 72-21(e), may be implicated by the proposed transfer; and

WHEREAS, the Board notes that, unlike in Bella Vista, Lot 6 and the receiving development site (Lot 11) have been under separate, unrelated ownership since at least the time of

MINUTES

the Board's 1968 grant and the owner of the variance site therefore lacked control over either the timing of new development on the adjacent property or the use of the development rights for such a development; and

WHEREAS, the Board also notes that a brief period of time elapsed between the date of the Bella Vista variance grant and the date of the subsequent permit application which also distinguishes that case from the proposed development rights transfer under review in the subject application; and

WHEREAS, the Board notes that in Bella Vista, the permit application proposing to use floor area transferred from the variance site was filed only three years after the Board grant, while the variance for the subject site was granted in 1968, 45 years before the filing of the instant application; and

WHEREAS, the Board agrees that the differences in timing and in the health of the respective real estate markets distinguish the Bella Vista case from the instant case and supports the conclusion that the use of Lot 6's unused development rights was not foreseeable by the Lot 6 Owner or the Board; and

WHEREAS, the Board also notes that the 1968 variance was for the conversion of a portion of the first floor of one of two buildings on a zoning lot from one non-conforming use to another non-conforming use, which represents a relatively small portion of the zoning lot, occupied by two buildings and more than 250,000 sq. ft. of floor area, that is subject to the variance; and

WHEREAS, the Board finds that the proposed transfer of development rights does not implicate or affect the basis for its findings in general, and specifically the (b) and (e) finding, at the time that they were made; and

WHEREAS, the Board agrees that the unused development rights were not considered in its analysis for the Lot 6 Variance and 1999 amendment and, thus, does not find that the future use of those rights disturbs the Board's prior approvals; and

WHEREAS, the Lot 11 Owner states that there is not yet a decision regarding a future development of Lot 11 and is considering: (1) the continued use of the Lot 11 Building as a transient hotel pursuant to the existing variance; (2) conversion of a portion of the Lot 11 Building to residential use, which would require approval from the Board; and (3) a surrender of the variance on Lot 11 and the construction of a new building in accordance with the current zoning regulations, which might use excess development rights available on Lot 6; and

WHEREAS, the applicant states that regardless of the plan to proceed, the Lot 11 Building will continue to be used as a transient hotel pursuant to the variance for some period of time and that, due to the fact that it is currently overbuilt as to floor area, no transfer of unused development rights from Lot

6 will be possible without other changes to or demolition of the Lot 11 Building; and

WHEREAS, the Board notes that the Lot 6 Owner does not propose any alteration to the building or use at 40 Central Park South and, thus, Lot 6 will continue to operate in accordance with the Board-approved plans and the conditions of its grant; and

WHEREAS, as to Lot 11, the Lot 11 Owner acknowledges that notwithstanding the Board's consent to a zoning lot merger and floor area transfer from Lot 6, any changes to the Lot 11 Building require prior approval from the Board as either (1) acceptance of a surrender of the Lot 11 variance; (2) amendment to the Lot 11 variance; or (3) a new variance; and

WHEREAS, the Board notes that it does not take any position on the floor area calculations, which are subject to DOB review and approval, and that any changes to Lot 6 or Lot 11 are subject to the Board's review and approval; and

WHEREAS, the Board notes that even if the Lot 11 Owner ultimately demolishes the Lot 11 Building and surrenders the Lot 11 variance, as a single zoning lot, Lot 6 and Lot 11 remain under the Board's jurisdiction; and

WHEREAS, the Board notes that, by this amendment to BSA Cal Nos. 960-67-BZ and 116-68-BZ, it does not approve an amount of floor area available for transfer or allocated to each site; and

WHEREAS, at hearing, the Board asked the Lot 11 Owner to clarify its floor area calculations for Lot 6 and the Lot 11 Owner confirmed that there are 307,285 sq. ft. available to Lot 6, including an Inclusionary Housing bonus (205,860 sq. ft. on the R10H/C5-1 portion of the site without the bonus; 41,172 sq. ft. of bonus; and 60,253 sq. ft. on the C5-2.5 sq. ft. where the bonus is not available); and

WHEREAS, the Lot 11 Owner represents that after the 251,816 sq. ft. of floor area associated with the Lot 6 buildings is subtracted from 307,285 sq. ft., there are 55,469 sq. ft. of unused development rights; and

WHEREAS, the Board notes that the respective fee owners of Lot 6 and Lot 11 authorized the application; and

WHEREAS, based upon its review of the record, the Board does not object to the proposed increase in the size of the zoning lot and associated modification of the site plan; and

WHEREAS, additionally, the Board does not object to a transfer of unused development rights from Lot 6 to Lot 11, subsequent to the proposed zoning lot merger, but notes that any further changes to Lot 6 and Lot 11 that are inconsistent with prior approvals are subject to the Board's review and approval.

Therefore it is Resolved, that the Board of Standards and Appeals reopens and amends the resolutions, having been adopted on June 25, 1968 and November 13, 1968, so that as amended this portion of the resolutions shall read: "to permit the merger of Lot 6 and Lot 11, to permit the associated

MINUTES

modifications to the BSA-approved site plan, and to consent to a future transfer of development rights from Lot 6 and Lot 11, *on condition* that all site conditions will comply with drawings marked 'Received April 1, 2014'– (1) sheet; and *on further condition*:

THAT the zoning calculations, including any transfer of development rights, are subject to DOB's review and approval and must be in full compliance with underlying bulk regulations;

THAT any modifications to the individual Lot 6 or Lot 11 or to the future merged zoning lot remain subject to the Board's jurisdiction;

THAT all conditions from the prior resolution not specifically waived by the Board will remain in effect;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, April 8, 2014.

546-82-BZ

APPLICANT – Akerman Senterfitt, LLP, for Pasquale Carpentire, owner; Ganesh Budhu, lessee.

SUBJECT – Application June 20, 2013 – Extension of term of previously granted variance for the continued operation of a non-conforming open public parking lot which expired on June 14, 2013. R7-A zoning district.

PREMISES AFFECTED – 148-15 89th Avenue, bounded by 88th Avenue to its north, 150th Street to its east, 148th Street to its west, 89th Avenue to its south, Block 9693, Lot 60, Borough of Queens.

COMMUNITY BOARD #12Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4

Negative:.....0

Absent: Vice Chair Collins.....1

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of the term for a previously granted variance for a parking lot (Use Group 8), which expired on June 14, 2013; and

WHEREAS, a public hearing was held on this application on February 11, 2014, after due notice by publication in *The City Record*, with a continued hearing on March 25, 2014 and then to decision on April 8, 2014; and

WHEREAS, the site and surrounding area had site and neighborhood examinations by Chair Srinivasan,

Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 12, Queens, recommends approval of this application; and

WHEREAS, the subject site is on the north side of 89th Avenue, between 148th Street and 150th Street; and

WHEREAS, the site is located within an R7A zoning district within the Downtown Special Jamaica District, and is occupied by a parking lot; and

WHEREAS, on June 14, 1983, under the subject calendar number, the Board granted a variance to allow an enlargement of an existing legal non-conforming open parking lot for a term of ten years; and

WHEREAS, on May 9, 1985, the grant was extended another ten years from its 1993 expiration, to expire on June 14, 2003, and amended to limit the capacity to 68 parking spaces and ten reservoir spaces; and

WHEREAS, most recently, on September 9, 2008, the Board permitted an amendment to the grant to allow unattended parking of non-commercial vehicles at the site and extended the term of the grant for ten years, to expire on June 14, 2013; and

WHEREAS, the applicant now seeks an additional extension of the term; and

WHEREAS, pursuant to ZR §§ 72-01 and 72-22, the Board may extend the term of a variance; and

WHEREAS, at hearing, the Board directed the applicant to remove the barbed wire from the fence surrounding the site; and

WHEREAS, in response, the applicant submitted photographs depicting the removal of the barbed wire; and

WHEREAS, based upon its review of the record, the Board finds that an extension of term is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated June 14, 1983, so that as amended the resolution reads: "to grant an extension of the variance for a term of ten years from the expiration of the prior grant, to expire on June 14, 2023; *on condition* that all site conditions will comply with drawings marked 'Received January 9, 2014'– (1) sheet;; and *on further condition*:

THAT the term of the variance will expire on June 14, 2023;

THAT barbed wire will not be installed atop the fence at the site;

THAT the above conditions will be listed on the certificate of occupancy;

THAT an amended certificate of occupancy will be obtained by April 8, 2015;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by

MINUTES

the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(Alt. No. 1206/79)

Adopted by the Board of Standards and Appeals, April 8, 2014.

246-01-BZ

APPLICANT – Eric Palatnik, P.C., for Bodhi Fitness Center Inc., owner.

SUBJECT – Application October 16, 2013 – Amendment of a previously approved Special Permit (§73-36) for a physical culture establishment (*Bodhi Fitness Center*). The amendment seeks to enlarge the PCE space by 3,999 sq. ft. M1-1, C2-2/R6 zoning district.

PREMISES AFFECTED – 35-11 Prince Street, between 35th Avenue and Northern Boulevard, Block 4958, Lot 1, Borough of Queens.

COMMUNITY BOARD #4Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4

Negative:.....0

Absent: Vice Chair Collins.....1

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment of a previously-granted special permit for a physical culture establishment (“PCE”) to permit the enlargement of the PCE; and

WHEREAS, a public hearing was held on this application on March 4, 2014, after due notice by publication in *The City Record*, with a continued hearing on March 25, 2014 and then to decision on April 8, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan and Commissioner Hinkson; and

WHEREAS, Community Board 7, Queens, recommends approval of this application; and

WHEREAS, Queens Borough President Helen Marshall recommends approval of this application; and

WHEREAS, the subject site is located on the east side of Prince Street between 35th Avenue and Northern Boulevard, partially within an M1-1 zoning district and partially within a C2-2 zoning district; and

WHEREAS, the site is occupied by a one-story commercial building; and

WHEREAS, the PCE is located on a portion of the first story of the building and occupies 8,962 sq. ft. of floor area; and

WHEREAS, the PCE is operated as Bodhi Fitness; and

WHEREAS, the Board has exercised jurisdiction over the subject site since June 11, 2002 when, under the subject calendar number, the Board granted a special permit to legalize a physical culture establishment in the subject building for a term of ten years, to expire on June 1, 2008; and

WHEREAS, most recently, on August 25, 2009, the Board granted an extension of the term for ten years, to expire on June 1, 2018; and

WHEREAS, the applicant now seeks an amendment to permit the enlargement of the PCE into other portions of the first story of the building; specifically, the proposal would increase the floor area of the PCE from 8,962 sq. ft. to 12,961 sq. ft.; and

WHEREAS, in addition, the applicant seeks an amendment authorizing minor modifications to the layout of the changing rooms and an increase in the number of accessory parking spaces for the PCE within the cellar of the building from 16 to 17; and

WHEREAS, at hearing, the Board directed the applicant to: (1) confirm that the proposed accessory signage for the PCE complies with the zoning district regulations; and (2) submit a revised site plan that shows the entire zoning lot and the entrance to the parking facility; and

WHEREAS, in response, the applicant confirmed that the signage complies and submitted a revised site plan that shows the entire zoning lot, as well as the entrance to the parking facility; and

WHEREAS, based upon its review of the record, the Board finds the requested amendments to the plans are appropriate with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens*, and *amends* the resolution to permit the noted modifications; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked ‘Received April 2, 2014’– (5) sheets; and *on further condition*:

THAT signage for the PCE will comply with the C2 regulations;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

(DOB Application No. 420908174)

Adopted by the Board of Standards and Appeals, April 8, 2014.

369-05-BZ

APPLICANT – Eric Palatnik, P.C., for Flatland 3706 Real Estate, LLC, owner.

SUBJECT – Application February 7, 2014 – Extension of Time to Complete Construction of a previously approved variance (§72-21) to construct a four-story multiple dwelling, which expires on October 17, 2014. R3-2(HS) zoning district.

PREMISES AFFECTED – 908 Clove Road, between Bard and Tyler Avenues, Block 323, Lot 42, Borough of Staten Island.

COMMUNITY BOARD #1SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4

Negative:.....0

Absent: Vice Chair Collins.....1

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of time to complete construction of a previously granted variance to permit, within an R3-2 zoning district, within the Special Hillside Preservation District, the construction of a three-story Use Group 2 multiple dwelling for adults age 55 and over, which expires on October 17, 2014; and

WHEREAS, a public hearing was held on this application on March 25, 2014, after due notice by publication in *The City Record*, and then to decision on April 8, 2014; and

WHEREAS, the subject site is located on the south side of Clove Road, between Broadway and Bement Avenue, within an R3-2 (HS) zoning district; and

WHEREAS, the Board has exercised jurisdiction over the site since October 17, 2006 when, under the subject calendar number, the Board granted a variance to permit the proposed construction of a three-story, 25-unit Use Group 2 multiple dwelling for adults age 55 and over; and

WHEREAS, substantial construction was to be completed by October 17, 2010, in accordance with ZR § 72-23; however, as of that date, only the foundation and the sanitary and storm sewer lines on Clove Road had been completed; accordingly, on October 26, 2010, the Board extended the time to complete construction for four years, to expire on October 17, 2014; and

WHEREAS, the applicant states that, subsequent to the 2010 extension of time to complete construction, work ceased

and the site went into foreclosure and a new developer took ownership of the site on July 10, 2013; and

WHEREAS, accordingly, the applicant now seeks additional time to obtain funding and complete construction; and

WHEREAS, at hearing, the Board directed the applicant to repair the construction fence around the site; the Board also questioned whether the requested three years would be sufficient to complete construction, given that the applicant has represented that funding has not yet been secured; and

WHEREAS, in response, the applicant submitted photos showing that the fence had been repaired; and

WHEREAS, as to whether a three-year extension of time would be sufficient, the applicant responded that it while is anticipated that three years will be sufficient, a four-year extension would be preferred; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated October 17, 2006, so that as amended the resolution reads: “to grant an extension of the time to complete construction for a term of four years from April 8, 2014, to expire on April 8, 2018; *on condition*:

THAT substantial construction will be completed by April 8, 2018;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

THE RESOLUTION –

WHEREAS, this is an appeal of two final
determinations, issued by the Manhattan Borough
Commissioner of the Department of Buildings (“DOB”) on
April 17, 2013 and on May 1, 2013, acting on DOB
Application Nos. 102663949 and 102663930, respectively
(the “Final Determinations”), which state, in pertinent part
that:

As of this date, the Department has not received sufficient
information to demonstrate that the approval and permit
should not be revoked. Therefore, pursuant to Sections 28-
104.2.10 and 28-105.10 of the Administrative Code of the
City of New York, the approval and permit are hereby
revoked; and

WHEREAS, a public hearing was held on this appeal on
November 19, 2013, after due notice by publication in *The
City Record*, with continued hearings on December 17, 2013,
January 28, 2014, and February 11, 2014, and then to decision
on April 8, 2014; and

WHEREAS, the premises and surrounding area had
site and neighborhood examinations by Chair Srinivasan,
Vice-Chair Collins, Commissioner Hinkson, Commissioner
Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the
southwest corner of the intersection of Dyer Avenue and
West 31st Street, within a C6-4 zoning district within the
Special Hudson Yards District; and

WHEREAS, the site is occupied by a 12-story
commercial building; a 1,200 sq. ft. illuminated advertising
sign (the “Sign”) is located on the east wall of the 12-story
building; and

WHEREAS, this appeal is brought on behalf of OTR
Media Group, Inc., the lessee of the Sign (the “Appellant” or
“OTR”); and

WHEREAS, DOB appeared and made submissions in
opposition to this appeal; and

WHEREAS, the Board notes that by letter dated April
7, 2014, the Appellant requested withdrawal of the appeal,
and by letter dated April 8, 2014, DOB requested that the
Board deny the Appellant’s request, citing concerns about
public policy and its ability to take enforcement actions
against the Sign and other similarly-situated signs; and

WHEREAS, per § 1-12.2 of the Rules of Practice and
Procedure, the Board may consider a request to withdraw an
appeal at any time before the Board’s final determination;
however, the Board may reject the withdrawal request if it
determines that proper enforcement or public policy would
be served by rendering a decision; and

WHEREAS, the Board agrees with DOB that the
appeal has broad public policy and enforcement
implications; accordingly, the Appellant’s request to
withdraw the appeal is denied; and

PROCEDURAL HISTORY

WHEREAS, on December 22, 1999, DOB issued a
permit under Job. No. 102663930; this permit authorized the
installation of the structural components of the Sign (the “Sign
Structure Permit”); one day later, on December 23, 1999,
DOB issued a permit under Job. No. 102663930; this permit
authorized the installation of the Sign itself (“the Sign
Permit”); at the time, the site and the permit applications were
subject to the sign regulations applicable in an M1-6 zoning
district; and

WHEREAS, on January 19, 2005, the site was rezoned
from an M1-6 zoning district to a C6-4 zoning district within
the Special Hudson Yards District; and

WHEREAS, in early 2013, DOB audited the
applications documents for the Sign Permit and the Sign
Structure Permit; with regard to the Sign Permit, DOB raised
the following objection:

Provide additional information to clarify whether the sign is
not within 200’-0” of an arterial highway or public park as per
ZR 42-55; and

WHEREAS, with regard to the Sign Structure Permit,
DOB raised the following objections:

Sign audit application no. 102663949 in conjunction to this
application shall be resolved before sign structure application
(audit) is lifted;

For sign structures, verify compliance with TPPN No. 5/00;
and

WHEREAS, based on these objections, on or about

MINUTES

January 11, 2013, DOB notified the Appellant of its intent to revoke the Sign Structure Permit, and on or about February 14, 2013, DOB notified the Appellant of its intent to revoke the Sign Permit; and

WHEREAS, by letter dated April 17, 2013, the Sign Permit was revoked, and by letter dated May 1, 2013, the Sign Structure Permit was revoked; and

WHEREAS, the instant appeal followed; and

WHEREAS, initially, the contested issue on appeal was whether the Sign was “within view” of an approach to the Lincoln Tunnel; DOB initially advanced the argument that the Sign was “within view” of an approach per the Board’s interpretation of “within view” in BSA Cal. No. 134-13-A (538 Tenth Avenue, Manhattan) (adopting the “360 Degrees Standard” for determining whether a sign is “within view”); and

WHEREAS, the Appellant countered that because a motorist would have to tilt her head in order to view the Sign, the Sign should not be considered “within view”; however, even if the Sign is considered “within view” of a restricted roadway, the Appellant asserts that the roadway in question—the length of Dyer Avenue between the site (at West 31st Street) and the Lincoln Tunnel (hereafter “Lincoln Tunnel Expressway/Dyer Avenue”)—is neither a designated arterial highway itself, nor an “approach” to a designated arterial highway, per 1 RCNY § 49-01 (“Rule 49”), because northbound traffic along the roadway has an opportunity to enter the street network well north of the site at West 39th Street; and

WHEREAS, DOB agrees with the Appellant that Lincoln Tunnel Expressway/Dyer Avenue does not satisfy the definition of “approach” set forth in Rule 491; however, DOB asserts that the roadway itself is a designated arterial highway shown on the Master Plan of Arterial Highways and Major Streets (“Master Plan”) as part of the Lincoln Tunnel toll crossing and designated by the City Planning Commission (“CPC”) in its January 15, 1958 resolution (the “1958 CPC Resolution”); as such, DOB states that the Sign, which is within view of and a few linear feet from Lincoln Tunnel Expressway/Dyer Avenue, is prohibited by ZR § 42-552; and

WHEREAS, as set forth below, the Appellant disagrees that Lincoln Tunnel Expressway/Dyer Avenue is a designated arterial highway; therefore, the issue on appeal is whether that roadway is a designated arterial highway or an approach to a designated arterial highway under the Zoning Resolution; and

1 The Board agrees with the parties that Lincoln Tunnel Expressway/Dyer Avenue does not satisfy the definition of “approach” set forth in Rule 49.

2 Because the parties agree that the Sign is “within view” of certain portions of the full length of Lincoln Tunnel Expressway/Dyer Avenue, there is no further discussion of the 360 Degrees Standard in this appeal.

RELEVANT ZONING RESOLUTION PROVISIONS

ZR § 12-10 Definitions

Non-conforming, or non-conformity

A “non-conforming” #use# is any lawful #use#, whether of a #building or other structure# or of a #zoning lot#, which does not conform to any one or more of the applicable #use# regulations of the district in which it is located, either on December 15, 1961 or as a result of any subsequent amendment thereto; and

ZR § 42-55

Additional Regulations for Signs Near Certain Parks and Designated Arterial Highways

M1 M2 M3

In all districts, as indicated, the provisions of paragraphs (a), (b) and (c), or paragraph (d), of this Section, shall apply for #signs# near designated arterial highways or certain #public parks#.

(a) Within 200 feet of an arterial highway or a #public park# with an area of one-half acre or more, #signs# that are within view of such arterial highway or #public park# shall be subject to the following provisions:

- (1) no permitted #sign# shall exceed 500 square feet of #surface area#; and
- (2) no #advertising sign# shall be allowed; nor shall an existing #advertising sign# be structurally altered, relocated or reconstructed

For the purposes of this Section, arterial highways shall include all highways that are shown on the Master Plan of Arterial Highways and Major Streets as “principal routes,” “parkways” or “toll crossings,” and that have been designated by the City Planning Commission as arterial highways to which the provisions of this Section shall apply.

ZR Appendix H

Designation of Arterial Highways

Pursuant to the provisions of Section 32-66 and 42-55 (Additional Regulations for Signs Near Certain Parks and Designated Arterial Highways) of the Zoning Resolution of the City of New York, the City Planning Commission has designated as arterial highway to which the provisions of Sections 32-66 and 42-55 apply, the following arterial highways which appear on the City Map and which are also indicated as Principal Routes, Parkways and Toll Crossings on the duly adopted Master Plan of Arterial Highways and Major Streets. . . .

MINUTES

TOLL CROSSINGS . . . Lincoln Tunnel and Approaches;

* * *

1 RCNY 49-01 Definitions

Approach. The term “approach” as found within the description of arterial highways indicated within Appendix C3 of the Zoning Resolution, shall mean that portion of a roadway connecting the local street network to a bridge or tunnel and from which there is no entry or exit to such network; and

THE APPELLANT’S POSITION

WHEREAS, the Appellant asserts that the Sign and Sign Structure Permits were improperly revoked by DOB because the Sign is not subject to the arterial highway restrictions on advertising signs; and

WHEREAS, specifically, the Appellant states that although the Sign is within view of Lincoln Tunnel Expressway/Dyer Avenue, that roadway is neither a designated arterial highway, nor an approach to a designated arterial highway; and

Arterial Highway

WHEREAS, the Appellant asserts that Lincoln Tunnel Expressway/Dyer Avenue is not an arterial highway for the following reasons: (1) the roadway is not listed by name in Appendix H; (2) the Master Plan is too vague to effect a designation of a particular roadway; (3) the 1958 CPC Resolution did not expressly designate the roadway as a toll crossing; and (4) the Master Plan and the CPC Resolution are, at best, ambiguous as to whether they designated the roadway as part of the Lincoln Tunnel toll crossing; and

WHEREAS, the Appellant states that although Lincoln Tunnel Expressway/Dyer Avenue appears as a series of dots on the Master Plan as a toll crossing, the roadway is not designated by name as an arterial highway in Appendix H of the Zoning Resolution; rather, the Appellant contends that Appendix H of the Zoning Resolution (“Appendix H”) lists only “Lincoln Tunnel and Approaches” under the toll crossings section; and

WHEREAS, the Appellant states that DOB’s basis for determining that the Lincoln Tunnel Expressway/Dyer Avenue appears on the Master Plan cannot be correct because even though the dots approximate where Lincoln Tunnel Expressway/Dyer Avenue is located, the Master Plan is too vague to give fair notice of the requirement; and

WHEREAS, likewise, the Appellant asserts that the 1958 CPC Resolution—which DOB contends amended the

Master Plan to make Lincoln Tunnel Expressway/Dyer Avenue a toll crossing subject to the arterial highway provisions—failed to expressly designate Lincoln Tunnel Expressway/Dyer Avenue and only did so by implication when it depicted the roadway on the Master Plan as a toll crossing; and

WHEREAS, the Appellant contends that the dots were not placed on the Master Plan to denote an official extension of the Lincoln Tunnel toll crossing but rather as a reference showing the connection to the Mid-Manhattan Expressway, which was relocated pursuant to the 1958 CPC Resolution; and

WHEREAS, in support of this assertion, the Appellant provided copies of CPC resolutions from the 1940s, 1950s, and 1960s that expressly state the name of the roadway to be designated as an arterial highway; the Appellant states that the 1958 CPC Resolution, in contrast, explicitly detailed the modifications to the Mid-Manhattan Expressway, but contained no clear language designating Lincoln Tunnel Expressway/Dyer Avenue as an arterial highway; and

WHEREAS, further, the Appellant asserts that the 1958 CPC Resolution suffers from internal inconsistencies and ambiguities that make it impossible to determine whether it modified the Master Plan with respect to Lincoln Tunnel Expressway/Dyer Avenue; and

WHEREAS, the Appellant also asserts that modifications to the City Map—which DOB notes correspond to the descriptions of Lincoln Tunnel Expressway/Dyer Avenue—are not relevant to the question of whether the roadway was designated under the 1958 CPC Resolution, because, as a matter of law, a City Map change does not fix the terms of a CPC resolution; and

WHEREAS, the Appellant contends that because both the 1958 CPC Resolution and the Master Plan are ambiguous as to whether Lincoln Tunnel Expressway/Dyer Avenue is a toll crossing and an arterial highway, the ambiguity must be resolved in favor of the property owner in accordance with Allen v. Adami, 39 NY2d 275, 277 (1976); 440 East 102nd Street Corp. v. Murdock, 285 NY 298, 304 (1941); and Exxon Corp. v. New York City Board of Standards and Appeals, 128 AD2d 289, 295-296 (1st Dep’t 1987), app. denied 70 NY2d 614 (1988); and

WHEREAS, finally, the Appellant states that by looking to the 1958 CPC Resolution and the Master Plan—which, again, the Appellant considers too vague to rely on—to determine whether the Sign is subject to the arterial highway restrictions, DOB is ignoring its prior interpretation, as embodied in Rule 49, contrary to Allen v. Blum, 85 AD2d 228, 236 (1st Dep’t 1982); and Chambers v. Coughlin, 76 Ad2d 980, 981 (3rd Dep’t 1980); and

WHEREAS, additionally, the Appellant asserts that, pursuant to Parkview Associates v. City of New York, 71 NY2d 274, 281 (1988), the specifics of a CPC resolution

3 Previously, Appendix H was known as Appendix C; Rule 49 has not been amended to reflect the update. The change from C to H was purely administrative and had no substantive effect on the designation of any arterial highway.

MINUTES

control the images on the map; as such, the vague dots on the Master Plan are clarified by the absence of explicit language designating Lincoln Tunnel Expressway/Dyer Avenue as a toll crossing in the 1958 CPC Resolution; and

WHEREAS, accordingly, the Appellant contends that Lincoln Tunnel Expressway/Dyer Avenue is not a designated arterial highway; and

Approach

WHEREAS, the Appellant asserts that, as roadway connecting to the Lincoln Tunnel, Lincoln Tunnel Expressway/Dyer Avenue is subject to the Rule 49 definition of “approach,” and according to such definition, the roadway is not an approach; and

WHEREAS, the Appellant states that in promulgating a definition for “approach” in Rule 49, DOB has already determined whether Lincoln Tunnel Expressway/Dyer Avenue is subject to the arterial highway restrictions; and

WHEREAS, the Appellant states, in essence, that if it is not apparent from the applicable CPC resolution and Master Plan whether a roadway is designated as an arterial highway, DOB must apply Rule 49’s definition of approach; and

WHEREAS, the Appellant asserts that, by definition, Lincoln Tunnel Expressway/Dyer Avenue is not an approach (and therefore not subject to the arterial highway restrictions) because northbound traffic along the roadway has an opportunity to enter the street network well north of the site at West 39th Street; and

WHEREAS, thus, the Appellant contends that the arterial highway sign restrictions are inapplicable to the Sign; and

WHEREAS, accordingly, the Appellant states that DOB’s revocation of the Sign Permit and the Sign Structure Permit must be reversed; and

DOB’S POSITION

WHEREAS, DOB asserts that the Sign is within view of Lincoln Tunnel Expressway/Dyer Avenue, which is a designated arterial highway; thus, the Sign and Sign Structure Permits were issued in 1999 contrary to ZR § 42-534 and were properly revoked; and

Arterial Highway

WHEREAS, DOB states that Lincoln Tunnel Expressway/Dyer Avenue is a designated arterial highway because it is: (1) shown on the Master Plan; and (2) designated as a toll crossing by CPC in the 1958 CPC Resolution; and

WHEREAS, DOB states that Lincoln Tunnel Expressway/Dyer Avenue is shown on the Master Plan, in that it is depicted as a series of dots descending from the Lincoln

Tunnel, which, according to the Master Plan’s legend, indicate that the roadway is part of the Lincoln Tunnel toll crossing; and

WHEREAS, DOB disagrees with the Appellant that the dots are too vague to be understood as designating the roadways that comprise Lincoln Tunnel Expressway/Dyer Avenue as a toll crossing; DOB states that there is sufficient information on the face of the Master Plan and in the relevant CPC resolutions adopting modifications to the Master Plan to demonstrate that the roadway is an arterial highway; and

WHEREAS, DOB notes that the Master Plan was a requirement of former New York City Charter § 197, which also required modification of the Master Plan from time to time to show desirable streets, roads, highways, and other features to provide for future growth, development, and adequate facilities in the city; and

WHEREAS, DOB states that the Master Plan shows integral parts of the highway system and is intended to be a macroscopic, schematic framework for development and purposefully does not show precise lines for all routes; nevertheless, DOB asserts that one can identify the location of Lincoln Tunnel Expressway/Dyer Avenue and determine that it is in fact a toll crossing by examining the 1958 CPC Resolution; and

WHEREAS, specifically, DOB states that the 1958 CPC Resolution makes reference to “[n]ew approaches for the Lincoln Tunnel, which have been recently built, [that] extend southerly to 30th Street and this street has been widened between Ninth and Tenth Avenues” and that such reference reflects a designation of Lincoln Tunnel Expressway/Dyer Avenue as a toll crossing; and

WHEREAS, DOB asserts that the widened street at West 30th Street between Ninth and Tenth Avenues referenced by CPC can only be Lincoln Tunnel Expressway/Dyer Avenue since no other street matches this description; and

WHEREAS, accordingly, DOB states that Lincoln Tunnel Expressway/Dyer Avenue is shown on the Master Plan; and

WHEREAS, likewise, DOB asserts that the language of the 1958 CPC Resolution—in addition to facilitating an understanding of the Master Plan—reflects a designation of Lincoln Tunnel Expressway/Dyer Avenue as a toll crossing; and

WHEREAS, DOB states that, contrary to the Appellant’s assertions, there is no need for the 1958 CPC Resolution to have verbalized the designation of Lincoln Tunnel Expressway/Dyer Avenue or list the roadway by name as had been done in other CPC designations of arterial highways; and

WHEREAS, DOB contends that an express statement was not required because the Master Plan itself was modified to extend the reach of the toll crossing; the extension of the

4 ZR § 42-53 was modified and renumbered as ZR § 42-55 as a result of the February 27, 2001 text amendment. The modification was purely administrative and had no substantive effect on the issues presented in this appeal.

MINUTES

dots on the Master Plan spoke for itself; and

WHEREAS, DOB also notes that the City Map depicts a widened street at West 30th Street between Ninth and Tenth Avenues, which matches precisely the location of the lengthened toll crossing according to the 1958 CPC Resolution; and

WHEREAS, additionally, DOB asserts that a CPC report need not explicitly declare that a roadway is an arterial highway; ZR § 42-55 and Appendix H, rather than the CPC report, are the operative statutory provisions that impose control over signs proximate to toll crossings on the Master Plan; and

WHEREAS, accordingly, DOB states that Lincoln Tunnel Expressway/Dyer Avenue is both designated as part of the Lincoln Tunnel toll crossing (which is an arterial highway according to Appendix H of the Zoning Resolution) and shown on the Master Plan; and

Approach

WHEREAS, DOB disagrees with the Appellant that Appendix H's listing of Lincoln Tunnel and Approaches implicates Rule 49's definition of "approaches" with respect to Lincoln Tunnel Expressway/Dyer Avenue; and

WHEREAS, DOB contends that because Lincoln Tunnel Expressway/Dyer Avenue is shown on the Master Plan as a toll crossing, the roadway necessarily is not an approach but is, rather, part of the toll crossing; thus, Appendix H's listing of the toll crossing "Lincoln Tunnel" reflects a designation of both the Lincoln Tunnel and Lincoln Tunnel Expressway/Dyer Avenue; and

WHEREAS, thus, DOB asserts that the Rule 49 definition of "approach" has no bearing on whether Lincoln Tunnel Expressway/Dyer Avenue has been designated as an arterial highway; and

WHEREAS, DOB states that the Rule 49 definition of approach is employed only where the Master Plan's schematic framework is too large in scale to ascertain whether a roadway is an approach, as that term is used in Appendix H; thus, the definition is inapplicable to this case because Lincoln Tunnel Expressway/Dyer Avenue is actually depicted as a toll crossing on the Master Plan; and

WHEREAS, accordingly, DOB states that the Sign and Sign Structure Permits were issued in violation of the arterial highway restrictions of ZR § 42-53; as such, the Final Determinations revoking such permits should be upheld; and

CONCLUSION

WHEREAS, the Board finds that: (1) Lincoln Tunnel Expressway/Dyer Avenue is a designated arterial highway, in that it is shown as part of the Lincoln Tunnel toll crossing on the Master Plan and was designated as such by the 1958 CPC Resolution; and (2) Lincoln Tunnel Expressway/Dyer Avenue is not subject to the Rule 49 definition of "approaches"; and Arterial Highway

WHEREAS, the Board finds that Lincoln Tunnel

Expressway/Dyer Avenue is a designated arterial highway, in that it is shown as part of the Lincoln Tunnel toll crossing on the Master Plan and was designated as such by the 1958 CPC Resolution; and

WHEREAS, the Board finds that the Master Plan shows a series of dots that approximate the location of Lincoln Tunnel Expressway/Dyer Avenue; according to the legend for the map, the dots indicate that the toll crossing for the Lincoln Tunnel begins at the tunnel and descends southward between Ninth and Tenth Avenues to West 30th Street; and

WHEREAS, the Board finds that the change in the Master Plan accompanied the adoption of the 1958 CPC Resolution and that such resolution provides a basis for finding that the area shown on the Master Plan was intended to be made part of the toll crossing; and

WHEREAS, the Board agrees with DOB that the 1958 CPC Resolution makes reference to "[n]ew approaches for the Lincoln Tunnel, which have been recently built, [that] extend southerly to 30th Street and this street has been widened between Ninth and Tenth Avenues" and that such reference reflects a designation of Lincoln Tunnel Expressway/Dyer Avenue as a toll crossing; and

WHEREAS, the Board also agrees with DOB that the widened street at West 30th Street between Ninth and Tenth Avenues referenced by CPC can only be Lincoln Tunnel Expressway/Dyer Avenue since no other street matches this description; and

WHEREAS, the Board also finds that, contrary to the Appellant's assertions, there is no need for the 1958 CPC Resolution to have verbalized the designation of Lincoln Tunnel Expressway/Dyer Avenue or list the roadway by name as had been done in other CPC designations of arterial highways; and

WHEREAS, rather, the Board finds that a CPC report need not explicitly declare that a roadway is an arterial highway, and that ZR § 42-55 and Appendix H are the operative statutory provisions; and

WHEREAS, as to the Appellant's assertion that the dots were not placed on the Master Plan to denote an official extension of the Lincoln Tunnel toll crossing but rather as a reference showing the connection to the Mid-Manhattan Expressway, which was relocated pursuant to the 1958 CPC Resolution, the Board disagrees; that the Master Plan was amended at all carries significant weight particularly *because* it is macroscopic and schematic in nature; thus, any change to the Master Plan must be presumed to have been made deliberately; and

WHEREAS, turning to the Appellant's cited case law, the Board disagrees that there is an "ambiguity" that must be resolved in favor of the property owner pursuant to Allen v. Adami, 39 NY2d 275 (1976); and

WHEREAS, rather, as noted above, the Board finds that even a cursory review of the symbols and legend of the Master

MINUTES

Plan plainly indicates that the Lincoln Tunnel toll crossing extends southward from the tunnel; likewise, mere reference to Appendix H reveals that the Lincoln Tunnel is a “toll crossing” subject to the arterial highway restrictions set forth in ZR § 42-55; thus, to the extent that the precise location of the toll crossing cannot be determined by reference to the Master Plan or Appendix H, it is proper to consult the CPC resolution that created the designation in order to determine where the toll crossing—which is shown on the Master Plan and referenced in Appendix H—begins and ends; and

WHEREAS, thus, the Board observes that while the scope of the 1958 designation may not be readily apparent based solely on the Master Plan, the precise nature of the designation may be ascertained by reference to the 1958 CPC Resolution; thus, the designation—and, consequently, the applicability of the arterial highway restrictions, per ZR § 42-55—is, contrary to the Appellant’s assertions, clear and unambiguous; and

WHEREAS, likewise, the Board finds that there is no discrepancy between the Master Plan and the Zoning Resolution that implicates Parkview Associates v. City of New York, 71 NY2d 274 (1988); in that case, the Court of Appeals held that “discrepancies between the zoning map and enabling resolution are controlled by the specifics of the resolution”; insofar as the Parkview holding applies to a discrepancy between the Zoning Resolution and the Master Plan, here, there is no discrepancy – the Master Plan (and the 1958 CPC Resolution which amended it) merely clarify the requirements of ZR § 42-55 and Appendix H; and

WHEREAS, accordingly, the Board finds that Lincoln Tunnel Expressway/Dyer Avenue is designated as part of the Lincoln Tunnel toll crossing; and Approach;

WHEREAS, the Board agrees with DOB that the Rule 49 definition of “approaches” is not implicated in this appeal; and

WHEREAS, the Board finds that because Lincoln Tunnel Expressway/Dyer Avenue is shown on the Master Plan as a toll crossing, the roadway necessarily is not an approach but is, rather, part of the toll crossing; thus, Appendix H’s listing of the toll crossing “Lincoln Tunnel” reflects a designation of both the Lincoln Tunnel and Lincoln Tunnel Expressway/Dyer Avenue; and

WHEREAS, the Board also finds that, irrespective of the nomenclature employed, there was a clear intent in the 1958 CPC Resolution and in the amendment to the Master Plan to designate newly built roadways as part of the Lincoln Tunnel toll crossing arterial highway; where the CPC Resolution makes reference to the “approaches” it does so to distinguish the newly designated portions of the toll crossing from the actual tunnel; thus, the “approaches” portion of “Lincoln Tunnel and Approaches” is a historical use of the term—and one that is not subject to Rule 49’s definition of “approaches,” which came into effect decades later; and

WHEREAS, likewise, the Board observes that the Appellant’s interpretation of Rule 49 would impose *less* restrictive requirements than the statute being implemented by the rule; in effect, this would result in a legislative act being overruled by executive rule-making; accordingly, the Board declines to adopt the Appellant’s interpretation of Rule 49 in this case because doing so would permit that which the 1958 CPC Resolution intended to prohibit – advertising signs along the Lincoln Tunnel toll crossing; and

WHEREAS, thus, contrary to the Appellant’s assertions, DOB did not decide this case when it promulgated Rule 49; rather, CPC decided it when it made Lincoln Tunnel Expressway/Dyer Avenue part of the Lincoln Tunnel toll crossing; and

WHEREAS, accordingly, the Board finds that the Sign is within view of an arterial highway and that DOB properly revoked the Sign Permit and the Sign Structure Permit; and

Therefore it is Resolved, that this appeal, challenging the Final Determinations issued on April 17, 2013 and on May 1, 2013, is denied.

Adopted by the Board of Standards and Appeals, April 8, 2014.

307-13-A & 308-13-A

APPLICANT – Joseph M. Morace, R.A., for Jake Rock, LLC, owner.

SUBJECT – Application November 21, 2013 – Proposed construction of two detached, two-family residences not fronting on a mapped street, contrary to Section 36 of the General City Law. R3A zoning district.

PREMISES AFFECTED – 96 & 100 Bell Street, Block 2989, Lot 24 & 26, Borough of Staten Island.

COMMUNITY BOARD #1SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4

Negative:.....0

Absent: Vice Chair Collins.....1

THE RESOLUTION –

WHEREAS, the decision of the Staten Island Borough Commissioner, dated October 24, 2013, acting on Department of Buildings Application Nos. 520149777 and 520149786, reads in pertinent part:

The street giving access to the proposed building is not duly placed on the official map of the City of New York; therefore,

- A) No Certificate of Occupancy can be issued pursuant to Article 3, Section 36 of the General City Law;
- B) Proposed construction does not have at least 8% of the total perimeter of the building

MINUTES

fronting directly upon a legally mapped street or frontage space contrary to Section 502.1 of the 2008 NYC Building Code; and

WHEREAS, this is an application to allow the construction of one two-family home and one single-family home not fronting a legally mapped street contrary to General City Law (“GCL”) § 36; and

WHEREAS, a public hearing was held on this application on February 25, 2014, after due notice by publication in *The City Record*, with a continued hearing on March 25, 2014, and then to decision April 8, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan and Commissioner Montanez; and

WHEREAS, the subject site is located on the east side of Bell Street beginning at a point approximately 72 feet south of Reynolds Street within an R3A zoning district; and

WHEREAS, the applicant states that the site has 5,844 sq. ft. of lot area and has been subdivided into two zoning lots (Tentative Tax Lots 24 and 26); and

WHEREAS, the applicant proposes to construct a two-story, two-family home with approximately 1,995 sq. ft. of floor area (0.59 FAR) and three accessory parking spaces on Tentative Lot 24, and a two-story, single-family home with approximately 1,440 sq. ft. of floor area (0.59 FAR) and two accessory parking spaces on Tentative Lot 26; and

WHEREAS, the applicant notes that Bell Street is paved and traveled, intersecting Reynolds Street to the north of the property, and that utilities, mail delivery and Sanitation Department services are provided for residents along the street; and

WHEREAS, the applicant states that a proposed eight-inch water main and fire hydrant are to be installed in Bell Street, in accordance with the Fire Department’s approval; in addition, onsite drywells are proposed for storm water runoff, and a connection will be made to an existing eight-inch sanitary sewer for sewage disposal; the sanitary sewer is maintained pursuant to a homeowners’ association agreement; and

WHEREAS, by letter dated January 29, 2014, the Fire Department states that it has reviewed the project and offers no objections provided the applicant complies with the following requirements: (1) the applicant submits to the Fire Department a variance request for construction on a substandard street; (2) all proposed homes are to be fully sprinklered; (3) that no parking anytime be permitted in front of the proposed homes with signs posted in accordance with Fire Code regulations; and (4) that any parking violations will be considered a violation of the Fire Commissioner’s Order and enforceable against the owner(s) of the property; and

WHEREAS, the applicant states that it submitted a variance application and revised plans to the Fire Department by letter dated February 20, 2014; and

WHEREAS, the applicant represents that, consistent with the Fire Department’s requirements, the width of the paved road is to be increased to 25 feet, a water main and fire hydrant are to be installed, both homes will be fully-sprinklered, and “No Parking” signs will be posted in front of both homes; and

WHEREAS, by letter dated March 24, 2014 the Fire Department states that it has reviewed and approved the revised site plan, subject to the following conditions: (1) both homes are fully-sprinklered, (2) “No Parking” are posted along the dead-end portion of Bell Street, in accordance with NYC Fire Code 503.7; and (3) hydrants are installed, as indicated on site plan, and in compliance with Department of Environmental Protection standards; and

WHEREAS, at hearing, the Board directed the applicant to provide a new sidewalk along Bell Street and to confirm that the proposed street trees are in accordance with the R3A district regulations; and

WHEREAS, in response, the applicant submitted an amended site plan showing a sidewalk with a width of three feet along Bell Street in front of the proposed homes; and

WHEREAS, as to the street trees, the applicant submitted approval letters from the Parks and Recreation Department; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions; and

Therefore it is Resolved, that the decision of the Staten Island Borough Commissioner, dated October 24, 2014, acting on Department of Buildings Application Nos. 520149777 and 520149786, is modified by the power vested in the Board by Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked “Received March 5, 2014”-(1) sheet; that the proposal shall comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the Builder’s Pavement Plan for the site will be as reviewed and approved by DOB;

THAT the site and roadway will conform to the BSA-approved plans;

THAT both homes will be fully-sprinklered;

THAT signs stating “No Parking” will be posted along the dead end portion of Bell Street;

THAT a Homeowners’ Association will be created to maintain the street; and

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

MINUTES

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals April 8, 2014.

Absent: Vice Chair Collins.....1

THE RESOLUTION –

WHEREAS, the decision of the Bronx Borough Commissioner of the Department of Buildings (“DOB”), dated November 30, 2011, acting on DOB Application No. 220142441, reads, in pertinent part:

Proposed commercial use (retail Use Group 6) in an R7-1 zoning district is contrary to ZR 22-00; and

WHEREAS, this is an application under ZR § 72-21, to permit, within an R7-1 zoning district, the construction of a one-story mixed commercial and community facility building, contrary to ZR § 22-00; and

WHEREAS, a public hearing was held on this application on July 23, 2013, after due notice by publication in the *City Record*, with a continued hearing on March 25, 2013, and then to decision on April 8, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Bronx, recommends approval of the application, on condition that certain uses not be permitted within the building, including shelters, SROs, halfway houses, special needs or mental health facilities, domestic violence facilities, drug or alcohol rehabilitation centers, clubs, bars, cabarets, hotels or motels; and

WHEREAS, Bronx Borough President Ruben Diaz, Jr. and City Councilperson Maria del Carmen Arroyo provided testimony in support of the application; and

WHEREAS, the subject site is located on the northeast corner of the intersection of Morris Avenue and East 151st Street, within an R7-1 zoning district; and

WHEREAS, the site has 58.79 feet of frontage along Morris Avenue, 70.25 feet of frontage along East 151st Street,

MINUTES

and 4,130 sq. ft. of lot area; and

WHEREAS, the applicant states that the site is vacant; and

WHEREAS, the applicant proposes to construct a two-story mixed commercial and community facility building with 8,260 sq. ft. of floor area (2.0 FAR); the first story would have 4,130 sq. ft. of floor area and be occupied by retail stores (Use Group 6); the second story would also have 4,130 sq. ft. of floor area and it would be occupied by a use within Use Group 4; and

WHEREAS, because Use Group 6 is not permitted within the subject R7-1 zoning district, the applicant seeks a use variance; and

WHEREAS, the applicant states that, per ZR § 72-21(a), the following are unique physical conditions which create an unnecessary hardship in developing the site in conformance with applicable regulations: its small lot size, shallow lot depth, and vacancy; and

WHEREAS, the applicant states that the site's small lot size (4,130 sq. ft. of lot area) and shallow lot depth (approximately 70 feet) make it unsuitable for conforming uses; and

WHEREAS, specifically, the applicant states it is financially infeasible to develop a site this small in this neighborhood for residential use without some commercial use, because residential uses of this scale require commercial use to offset the comparatively low residential rent, and

WHEREAS, in support of this statement, the applicant states that along Morris Avenue, small sites (with lot depths similar to the site and average lot areas of 2,000 sq. ft.) are occupied by approximately 100-year-old two- and three-story mixed residential and commercial buildings with commercial use at the ground floor; indeed, the applicant notes that the entire west side of Morris Avenue between East 149th Street and East 153rd Street is occupied by mixed residential and commercial buildings with ground floor retail use; and

WHEREAS, in addition, the applicant notes that residential developments without a commercial component in the neighborhood are much larger in scale than the site and can qualify for government assistance programs; and

WHEREAS, specifically, the applicant represents that nearby sites without a commercial component are significantly larger than the site, with average lot areas of 150,000 sq. ft.; such sites are developed as high-rise subsidized/low-income/affordable housing by the New York City Housing Authority, the New York State Division of Housing and Community Renewal, and the New York City Housing Development Corporation, which is not available to a site as small as the subject site; and

WHEREAS, the applicant also notes that the large sites were developed between 1961 and 1985; thus, new housing has not been developed in the vicinity for nearly 30 years; and

WHEREAS, the applicant states that the site's vacancy

makes it unique within the surrounding community, and submitted an area study, which reflects that there are only two other vacant sites within 400 feet of the site, both of which are owned by the New York City Department of Housing Preservation and Development and used in conjunction with the nearby Governor Smith Playground; and

WHEREAS, the Board finds that the cited conditions create an unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant asserts that, per ZR § 72-21(b), there is no reasonable possibility that the development of the site in conformance with the Zoning Resolution will bring a reasonable return; and

WHEREAS, in particular, in addition to the proposal, the applicant examined the economic feasibility of a four-story multiple dwelling with 14,207 sq. ft. of floor area (3.44 FAR) and 14 dwelling units; and

WHEREAS, the applicant concluded that the as-of-right scenario resulted in a negative rate of return after capitalization; in contrast, the applicant represents that the proposal results in a positive rate of return, making it economically viable; and

WHEREAS, at hearing, the Board requested additional information regarding the types of housing that surround the site; and

WHEREAS, in response, the applicant provided charts detailing the two types of housing in the area: low-rise multiple dwellings with ground floor commercial; and higher-density (between six- and 25-stories) subsidized housing; and

WHEREAS, based on the information provided in these charts and on the applicant's economic analysis, the Board agrees that because of the site's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, the applicant states that the immediate area is characterized by a mix of low- to medium-density residential, commercial and community facility uses; the subject block is predominantly occupied by a school, an athletic field, and, as noted above, the Governor Smith Playground; the playground is directly south of the site, four- and three-story mixed residential and commercial buildings are located, respectively, directly north and south (across East 151st Street) of the site, and across Morris Avenue is a six-story multiple dwelling; and

WHEREAS, the applicant notes that the section of

MINUTES

Morris Avenue where the site is located is a two-way, heavily-trafficked thoroughfare, with street parking on both sides, and retail uses at the ground floor for the full length of the subject block and the block directly south of East 151st Street; and

WHEREAS, accordingly, the proposed commercial use at the ground floor will be compatible with the surrounding neighborhood; and

WHEREAS, turning to bulk, the applicant represents that the following are the bulk parameters of the proposal: two stories; 8,260 sq. ft. of floor area (2.0 FAR); 100 percent lot coverage; and a maximum building height of 37'-6"; and

WHEREAS, the applicant notes that the proposed FAR of 2.0 is less than half of the maximum FAR permitted for a community facility building in the subject R7-1 district (4.8 FAR) and that the proposed building height is well-below the maximum permitted (60'-0"); and

WHEREAS, as for the lot coverage, the applicant notes that although it is non-complying—the maximum lot coverage for a community facility building is 70 percent with the first story being a permitted obstruction within lot coverage up to 23 feet for certain community facilities—the site's location on a corner mitigates the impact of such lot coverage; additionally, due to the site's shallow depth, full lot coverage is necessary in order to provide a building with marketable floorplates; and

WHEREAS, the Board agrees that the character of the area is mixed-use, and finds that the proposal is consistent with the neighborhood in terms of use and bulk and will not negatively impact nearby conforming uses; and

WHEREAS, the Board also notes that Community Board 1 approved the application on condition that certain uses not be permitted at the site; and

WHEREAS, the Board observes that many of the uses opposed by Community Board 1 are community facility uses permitted as-of-right in the subject R7-1 zoning district; as such, the Board declines to impose a restriction that would prohibit uses that are permitted as-of-right; and

WHEREAS, as for the commercial uses that Community Board 1 identified as objectionable (clubs, bars, cabarets, hotels and motels), the Board agrees that they are not appropriate within this building and will not be permitted under this grant, and the Board notes that hotels and motels are neither physically possible, nor financially feasible within the proposed building; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that, consistent with ZR § 72-21(d), the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the site's

unique physical conditions; and

WHEREAS, finally, the Board finds that the proposal is the minimum variance necessary to afford relief, as set forth in ZR § 72-21(e); and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 12-BSA-094X, dated March 5, 2012; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, within an R7-1 zoning district, the construction of a one-story mixed commercial and community facility building, contrary to ZR § 22-00, *on condition* that any and all work will substantially conform to drawings filed with this application marked "Received April 2, 2014"—(7) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the proposed building: a maximum of two stories; a maximum of 8,260 sq. ft. of floor area (2.0 FAR) (4,130 sq. ft. of commercial floor area and 4,130 sq. ft. of community facility floor area); 100 percent lot coverage; and a maximum building height of 37'-6";

THAT signage will comply with C1 regulations;

THAT the following uses will not be permitted at the site: clubs, bars, cabarets, hotels or motels;

THAT the above conditions will appear on the certificate of occupancy;

THAT substantial construction will be completed in accordance with ZR § 72-23;

MINUTES

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 8, 2014.

77-12-BZ

CEQR #12-BSA-108K

APPLICANT – Moshe M. Friedman, P.E., for Goldy Jacobowitz, owner.

SUBJECT – Application April 3, 2012 – Variance (§72-21) to permit a new residential building, contrary to use regulations (§42-00). M1-1 zoning district.

PREMISES AFFECTED – 91 Franklin Ave, 82’-3” south side corner of Franklin Avenue and Park Avenue, Block 1899, Lot 24, Borough of Brooklyn.

COMMUNITY BOARD #3BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4

Negative:.....0

Absent: Vice Chair Collins.....1

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated March 13, 2012, acting on Department of Buildings Application No. 320384026, reads in pertinent part:

Proposed five-story residential building in an M1-1 zoning district is contrary to 42-00; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site within an M1-1 zoning district, the construction of a four-story multiple dwelling (Use Group 2), contrary to ZR § 42-00; and

WHEREAS, a public hearing was held on this application on October 8, 2013, after due notice by publication in the *City Record*, with continued hearings on January 14, 2014, February 25, 2014, and March 25, 2014, and then to decision on April 8, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 4, Brooklyn,

recommends approval of this application; and

WHEREAS, Councilmember Steven Levin and former Councilmember Letitia James provided testimony in support of this application; and

WHEREAS, the subject site is located on the east side of Franklin Avenue, between Park Avenue and Myrtle Avenue, within an M1-1 zoning district; and

WHEREAS, the site has approximately 50 feet of frontage along Franklin Avenue, a depth of 100 feet, and approximately 5,000 sq. ft. of lot area; and

WHEREAS, the site is occupied by two buildings: a vacant, three-story frame residential building, which, according to the Sanborn map, existed as of 1887; and an accessory garage; and

WHEREAS, the applicant notes that residential use became non-conforming at the site as of December 15, 1961, when the M1-1 designation took effect; and

WHEREAS, the applicant states that the building is structurally unsound and was vacated in 2009; consequently, residential use has been discontinued at the site for more than two consecutive years and, per ZR § 52-61, cannot be resumed; and

WHEREAS, accordingly, the applicant seeks a use variance to maintain the site’s historic residential use by constructing a new four-story multiple dwelling in accordance with the bulk regulations applicable in an R6A district; and

WHEREAS, initially, the applicant proposed a five-story multiple dwelling with 14,840 sq. ft. of floor area (2.97 FAR), 60 percent lot coverage, ten dwelling units, a rear yard depth of 34’-2”, and a total building height of 60 feet; and

WHEREAS, at the Board’s direction, through the hearing process, the proposal was reduced in height, number of stories, number of dwelling units, and FAR; and

WHEREAS, the applicant now proposes a four-story building multiple dwelling with 12,610 sq. ft. of floor area (2.52 FAR), 63 percent lot coverage, eight dwelling units, a rear yard depth of 30’-4”, and a total building height of 36’-0”; and

WHEREAS, the applicant represents that, per ZR § 72-21(a), the following are unique physical conditions which create unnecessary hardship in developing the site in conformance with applicable regulations: (1) the site’s history of residential use and adjacency to residential buildings on all sides, and across the street; (2) its contaminated soil; and (3) its small lot size of 5,000 sq. ft. and narrow lot width of 50 feet; and

WHEREAS, the applicant states that a residential building has occupied the site for approximately 125 years, and that there are residential buildings directly adjacent to the lot on all sides and across the street; and

WHEREAS, in addition, the applicant notes that the site borders an MX-4 zoning district, where residences are permitted as-of-right; and

MINUTES

WHEREAS, as to the building itself, the applicant provided an engineer's report that indicates that the building—with its awkward layouts, low ceilings, and lack of energy efficiency due to improper insulation—is obsolete for modern residential living and that, more importantly, it is structurally compromised in a manner that makes reconstruction infeasible; and

WHEREAS, moreover, the applicant states that even if the building could be restored to a habitable condition, residential use has been discontinued for more than two consecutive years and may not be resumed; and

WHEREAS, the applicant also represents that the site suffers from soil contamination; and

WHEREAS, specifically, the applicant provided a report that indicates the presence of unacceptable levels of lead and mercury within the soil; as such, soil management, transportation, and disposal in accordance with New York State Department of Environmental Conservation ("DEC") regulations is required, at significant cost; and

WHEREAS, finally, the applicant represents that the site's narrowness and small lot size would result in a conforming manufacturing or commercial building with inefficient, narrow floor plates that would be inadequate space for providing a loading dock; further, the applicant states that based on the small lot size, a conforming development would provide a maximum floor plate of 5,000 sq. ft., which the applicant represents is substandard for modern manufacturing uses; and

WHEREAS, in support of its claim that the site—with its narrow lot width and small lot size—is not feasible for modern manufacturing use, the applicant conducted a study of all vacant sites within the subject M1-1 district; the applicant notes that vacant sites are comparable because the existing buildings at the site are in disrepair and must be demolished; and

WHEREAS, based on the study, the applicant concludes that, except two other sites on Franklin Avenue, vacant sites within the M1-1 district are either: (1) occupied by existing commercial or industrial uses; (2) adjacent to existing commercial or industrial uses; (3) located on streets where conforming uses predominate; or (4) located adjacent to other vacant sites, which could allow for a possible assemblage; and

WHEREAS, thus, the applicant concludes that only the subject site is too small to be developed independent of its neighboring sites, unable to develop in conjunction with adjacent sites (because it is surrounded by residences on all sides), and located on a predominantly residential street; and

WHEREAS, the Board disagrees with the applicant that a 5,000-sq.ft. site is particularly unique or prohibitively small to develop; however, the Board agrees with the applicant that the site's historic residential use, adjacency to other residential uses (indeed, the predominance of residential use on the block), and soil contamination, are unique physical

conditions, which, in the aggregate, create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, to satisfy ZR § 72-21(b), the applicant submitted a feasibility study which analyzed the rate of return on an as-of-right industrial building at the site and the proposal; and

WHEREAS, according to the study, a one-story building with approximately 5,000 sq. ft. of floor area occupied by a manufacturing use would yield a negative rate of return; the proposed residential building, on the other hand, would realize a reasonable return; and

WHEREAS, based upon its review of the feasibility study, the Board has determined that because of the subject lot's unique physical condition, there is no reasonable possibility that development in strict conformance with applicable use requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, the applicant states that the subject block is primarily developed with residential buildings; the applicant notes that directly behind the site—the eastern half of the subject block—is an MX-4 zoning district, where the proposed use would be as-of-right; and

WHEREAS, as to adjacent uses, as noted above, there are residential uses on all adjacent lots and across the street; and

WHEREAS, the applicant also notes that the site was occupied by a residential building from at least 1887 until 2009; thus, the applicant asserts that the site—and the subject stretch of Franklin Avenue—have a long-standing residential character despite the site's M1-1 designation; and

WHEREAS, accordingly, the applicant contends that the proposal is more consistent with the neighborhood character than a conforming use would be; and

WHEREAS, as to bulk, the applicant states that the building complies in all respects with the R6A bulk regulations; and

WHEREAS, at hearing, the Board expressed concerns regarding the compatibility of the originally-proposed building height and number of stories with the surrounding residential buildings; and

WHEREAS, in response, the applicant reduced the height from 60'-0" to 36'-0" and the number of stories from five to four, and provided a streetscape, which demonstrates that the proposal is consistent with the height of the surrounding residential buildings; and

WHEREAS, accordingly, the Board finds that this

MINUTES

action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that, consistent with ZR § 72-21(d), the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the site's unique physical conditions; and

WHEREAS, finally, the Board finds that the proposal is the minimum variance necessary to afford relief, as set forth in ZR § 72-21(e); and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board conducted an environmental review of the proposed action and documented relevant information about the project in the Final Environmental Assessment Statement ("EAS") CEQR No. 12BSA108K, dated March 19, 2012; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the New York City Department of Environmental Protection's ("DEP") Bureau of Environmental Planning and Analysis reviewed the project for potential hazardous materials impacts; and

WHEREAS, DEP reviewed and accepted the November 2013 Remedial Action Plan and Construction Health and Safety Plan; and

WHEREAS, DEP requested that a P.E.-certified Remedial Closure Report be submitted to DEP for review and approval upon completion of the proposed project; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of

1977, as amended, and makes each and every one of the required findings under ZR § 72-21, and grants a variance to permit, on a site within an M1-1 zoning district, the construction of a four-story multiple dwelling (Use Group 2), contrary to ZR § 42-00; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received April 3, 2014" – (11) sheets; and *on further condition*:

THAT the following are the bulk parameters of the building: a maximum floor area of 12,610 sq. ft. (2.52 FAR), a maximum lot coverage of 63 percent, eight dwelling units, a minimum rear yard depth of 30'-4", and a maximum building height of 36'-0", as indicated on the BSA-approved plans;

THAT DOB will not issue a Certificate of Occupancy until the applicant has provided it with DEP's approval of the Remedial Closure Report;

THAT substantial construction shall be completed in accordance with ZR § 72-23;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 8, 2014.

THE RESOLUTION –

MINUTES

WHEREAS, the decision of the Brooklyn Borough Commissioner of the New York City Department of Buildings (“DOB”), dated May 7, 2013, acting on DOB Application No. 320712001, reads in pertinent part:

1. Proposed plans are contrary to ZR 23-141, in that the proposed floor area ratio exceeds the maximum permitted
2. Proposed plans are contrary to ZR 23-141, in that the proposed open space ratio is less than the minimum required
3. Proposed plans are contrary to ZR 23-461, in that the proposed side yard is less than the minimum required
4. Proposed plans are contrary to ZR 23-47, in that the proposed rear yard is less than the minimum required; and

WHEREAS, this is an application under ZR § 73-622, to permit, within an R2 zoning district, the proposed enlargement of a detached, single-family home, which does not comply with the zoning requirements for floor area ratio (“FAR”), open space ratio, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, and 23-47; and

WHEREAS, a public hearing was held on this application on February 25, 2014, after due notice by publication in *The City Record*, with a continued hearing on March 25, 2014, and then to decision on April 8, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of East 28th Street, between Avenue K and Avenue L, within an R2 zoning district; and

WHEREAS, the site, which is three tax lots (Lots 14, 15, and 16) that are to be combined into a single tax and zoning lot, has approximately 67 feet of frontage along East 28th Street and approximately 6,667 sq. ft. of lot area; and

WHEREAS, the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant notes that Lot 14 is occupied by a detached single-family home with approximately 1,320 sq. ft. of floor area (0.5 FAR), Lot 15 is occupied by a semi-detached two-family home with approximately 1,429 sq. ft. (0.72 FAR), and Lot 16 is occupied by semi-detached two-family home with approximately 1,429 sq. ft. (0.72 FAR); and

WHEREAS, the applicant proposes to demolish the buildings on Lots 14 and 15 and enlarge the building on Lot 16; and

WHEREAS, specifically, the applicant seeks an increase in the floor area from of 1,429 sq. ft. (0.72 FAR) (as measured only with respect to the lot area of Lot 16) to 6,696 sq. ft. (1.0 FAR) (as measured with respect to the combined lot area of Lots 14, 15, and 16, which, as noted above, is approximately 6,667 sq. ft.); the maximum permitted floor area is 3,333 sq. ft. (0.50 FAR); and

WHEREAS, the applicant seeks to reduce the existing, non-complying open space ratio (as measured only with respect to Lot 16) from 85 percent to 66 percent (as measured with respect to the combined lot area of Lots 14, 15, and 16); the minimum required open space ratio is 150 percent; and

WHEREAS, the applicant seeks to maintain one existing, non-complying side yard (on Lot 16) with a width of 3’-10” and increase the width of the other existing non-complying side yard (on Lot 16) from 0’-0” to 9’-8” (the requirement is two side yards with a minimum total width of 13’-0” and a minimum width of 5’-0” each); and

WHEREAS, the applicant also seeks to decrease its rear yard depth (on Lot 16) from 38’-1” to 20’-0”; a minimum rear yard depth of 30’-0” is required; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood and will not impair the future use or development of the surrounding area; and

WHEREAS, in particular, the applicant represents that there are five other nearby sites (on the subject block or on the adjacent block) with similar lot area to the site’s 6,667 sq. ft.; and

WHEREAS, in addition, the applicant represents that the proposed 1.0 FAR is consistent with the bulk in the surrounding area and notes that there are 11 homes within the subject R2 district with FARs ranging from 1.0 to 1.14, eight of which were enlarged pursuant to a special permit from the Board; and

WHEREAS, at hearing, the Board directed the applicant to: (1) remove the parking space from the front of the building; and (2) include paths to each entrance at the front of the building; and

WHEREAS, in response, the applicant submitted amended plans showing a complying parking space and paths leading to each front entrance; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6

MINUTES

N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622, to permit, within an R2 zoning district, the proposed enlargement of a detached, single-family home, which does not comply with the zoning requirements for FAR, open space ratio, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, and 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received March 12, 2014"-(11) sheets and "April 2, 2014"-(2) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 6,696 sq. ft. (1.0 FAR), a minimum open space ratio of 66 percent, side yards with minimum widths of 3'-10" and 9'-8", and a minimum rear yard depth of 20'-0", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 8, 2014.

177-13-BZ

APPLICANT – Eric Palatnik, P.C., for Dmitriy Ratsenbg, owner.

SUBJECT – Application June 18, 2013 – Special Permit (§73-622) for the enlargement of an existing single family home, to be converted to a two-family home, contrary to floor area, lot coverage and open space (§ZR 23-141) and less than the required rear yard (§ZR 23-47). R3-1 zoning district.

PREMISES AFFECTED – 134 Langham Street, west side of Langham Street between Shore Boulevard and Oriental Boulevard, Block 8754, Lot 38, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4
Negative:.....0

Absent: Vice Chair Collins.....1
THE RESOLUTION –

WHEREAS, the decision of the Executive Zoning Specialist of the New York City Department of Buildings ("DOB"), dated November 18, 2013, acting on DOB Application No. 320513592, reads in pertinent part:

1. Proposed floor area is contrary to ZR 23-141(b)
2. Proposed open space is contrary to ZR 23-141
3. Proposed lot coverage is contrary to ZR 23-461
4. Proposed rear yard is contrary to ZR 23-47; and

WHEREAS, this is an application under ZR § 73-622, to permit, within an R3-1 zoning district, the conversion (from a single-family home to a two-family home) and enlargement of an existing residential building, which does not comply with the zoning requirements for floor area ratio ("FAR"), open space, lot coverage, and rear yard, contrary to ZR §§ 23-141, 23-461, and 23-47; and

WHEREAS, a public hearing was held on this application on February 25, 2014, after due notice by publication in *The City Record*, with a continued hearing on March 25, 2014, and then to decision on April 8, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of Langham Street, between Shore Boulevard and Oriental Boulevard, within an R3-1 zoning district; and

WHEREAS, the site has 60 feet of frontage along Langham Street and 6,000 sq. ft. of lot area; and

WHEREAS, the site is occupied by a single-family home with 1,913 sq. ft. of floor area (0.32 FAR); and

WHEREAS, the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks to convert the single-family home to a two-family home and increase the size of the residence, as set forth below; and

WHEREAS, the applicant seeks an increase in the floor area from of 1,913 sq. ft. (0.32 FAR) to 5,911 sq. ft. (0.99 FAR); the maximum permitted floor area is 3,000 sq. ft. (0.5 FAR), however, a 20 percent increase in FAR pursuant to ZR § 23-141(b)(1) is available, resulting in a maximum permitted floor area of 3,600 sq. ft. (0.6 FAR); and

MINUTES

WHEREAS, the applicant seeks to reduce its open space from 83 percent to 59 percent; the minimum required open space is 65 percent; and

WHEREAS, likewise, the applicant seeks to increase its lot coverage from 17 percent to 41 percent; the maximum lot coverage permitted is 35 percent; and

WHEREAS, the applicant also seeks to decrease its non-complying rear yard depth from 22'-7" to 20'-0"; a minimum rear yard depth of 30'-0" is required; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood and will not impair the future use or development of the surrounding area; and

WHEREAS, the applicant states that the proposed 0.99 FAR is consistent with the bulk in the surrounding area; in support of this statement, the applicant submitted a land use study, which reflects that of the 109 homes within 400 feet of the site, 22 homes (20 percent) are occupied by homes with an FAR of 0.8 or greater; and

WHEREAS, the applicant also notes that three homes across Langham Street have FARs of 0.99 or greater; and

WHEREAS, at hearing, the Board directed the applicant to verify that the proposal is in compliance with the flood zone regulations; and

WHEREAS, in response, the applicant represented that the proposal was in full compliance with the flood zone regulations; and

WHEREAS, finally, the Board notes that while a conversion from an existing single-family home to a two-family home is rare under ZR § 73-622, such conversion is consistent with the text of the special permit; in addition, the subject R3-1 zoning regulations permit the resulting density; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622, to permit, within an R3-1 zoning district, the conversion (from a single-family home to a two-family home) and enlargement of an existing residential building, which does not comply with the zoning requirements for FAR, open space, lot coverage, and rear yard, contrary to ZR §§ 23-141, 23-461, and 23-47; *on condition* that all work will substantially conform to drawings as they apply to

the objections above-noted, filed with this application and marked "Received March 20, 2014"- (11) sheets; and *on further condition:*

THAT the following will be the bulk parameters of the building: a maximum floor area of 5,911 sq. ft. (0.99 FAR), a minimum open space of 59 percent, a maximum lot coverage of 41 percent, and a minimum rear yard depth of 20'-0", as illustrated on the BSA-approved plans;

THAT DOB will verify the proposal's compliance with the flood zone regulations of the Zoning Resolution;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 8, 2014.

207-13-BZ

APPLICANT – Harold Weinberg, P.E., for Harold Shamah, owner.

SUBJECT – Application July 3, 2013 – Special Permit (§73-622) for the enlargement of an existing single family home, contrary to floor area, open space and lot coverage (§23-141); and less than the required rear yard (§23-47). R3-1 zoning district.

PREMISES AFFECTED – 177 Hastings Street, east side of Hastings Street, between Oriental Boulevard and Hampton Avenue, Block 8751, Lot 456, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4

Negative:.....0

Absent: Vice Chair Collins.....1

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner of the New York City Department of Buildings ("DOB"), dated March 14, 2014, acting on DOB Application No. 320864695, reads in pertinent part:

The proposed enlargement creates new non-compliances, as follows:

MINUTES

1. Increases the existing degree of non-compliance with reference to floor area and is contrary to sections 23-141;
2. Increases the existing degree of non-compliance for floor area ratio and is contrary to sections 23-141;
3. Increases the existing non-compliance for wall height contrary to sections 23-631;
4. Increase the existing non-compliance for rear yard and is contrary to sections 24-37; and

WHEREAS, this is an application under ZR § 73-622, to permit, within an R3-1 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio ("FAR"), perimeter wall height, and rear yard, contrary to ZR §§ 23-141, 23-47, and 23-631; and

WHEREAS, a public hearing was held on this application on January 28, 2014, after due notice by publication in *The City Record*, with a continued hearing on March 25, 2014, and then to decision on April 8, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of Hastings Street, between Oriental Boulevard and Hampton Avenue, within an R3-1 zoning district; and

WHEREAS, the site has a lot area of 4,000 sq. ft. and is occupied by a single-family home with a floor area of 3,612 sq. ft. (0.9 FAR); and

WHEREAS, the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant now seeks an increase in the floor area from of 3,612 sq. ft. (0.9 FAR) to 3,910 sq. ft. (0.98 FAR); the maximum permitted floor area is 2,000 sq. ft. (0.5 FAR), however, a 20 percent increase in FAR pursuant to ZR § 23-141(b)(1) is available, resulting in a maximum permitted floor area of 2,400 sq. ft. (0.6 FAR); and

WHEREAS, the applicant also seeks to decrease its rear yard depth from 25'-9" to 20'-0"; a minimum rear yard depth of 30'-0" is required; and

WHEREAS, finally, the applicant seeks to maintain and extend its existing, non-complying perimeter wall height of 24'-0"; the maximum permitted perimeter wall height is 21'-0"; and

WHEREAS, the Board notes that ZR § 73-622(3) allows the Board to waive the perimeter wall height only in instances where the proposed perimeter wall height is equal

to or less than the height of the adjacent building's non-complying perimeter wall facing the street; and

WHEREAS, the applicant represents that the proposed perimeter wall height (24'-0") is equal to the height of both adjacent buildings' non-complying perimeter walls facing the street 24'-0"); the applicant submitted the adjacent buildings' certificates of occupancy, which indicate that they and the subject building are substantially identical and were constructed at the same time with the same perimeter wall height facing the street; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood and will not impair the future use or development of the surrounding area; and

WHEREAS, in particular, the applicant represents that the proposed 0.98 FAR is consistent with the bulk in the surrounding area and that, within a 200-ft. radius of the site, every home has been enlarged in recent years; and

WHEREAS, accordingly, the Board agrees with the applicant that the proposed bulk is compatible with the character of the neighborhood; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622, to permit, within an R3-1 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio ("FAR") and rear yard, contrary to ZR §§ 23-141 and 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received April 1, 2014"- (9) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 3,910 sq. ft. (0.98 FAR), a maximum perimeter wall height of 24'-0", and a minimum rear yard depth of 20'-0", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

MINUTES

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 8, 2014.

268-13-BZ

APPLICANT – Belkin Burden Wenig & Goldman, LLP, for Rachel H.Opland, Adrienne & Maurice Hayon, owner.

SUBJECT – Application September 13, 2013 – Special Permit (§73-621) to permit legalize an enlargement to a three-story mixed use building, contrary to lot coverage regulations (§23-141). R5 zoning district.

PREMISES AFFECTED – 2849 Cropsey Avenue, north east side of Cropsey Avenue, approximately 25.9 feet northwest from the corner formed by the intersection of Bay 50th St. and Cropsey Avenue, Block 6917, Lot 55, Borough of Brooklyn.

COMMUNITY BOARD #13BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4

Negative:.....0

Absent: Vice Chair Collins.....1

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner of the Department of Buildings (“DOB”), dated July 16, 2013, acting on DOB Application No. 302287200, reads in pertinent part:

Proposed lot coverage of 58.5 percent . . . [is] an increase in lot coverage of 3.3 percent; and

WHEREAS, this is an application under ZR § 73-621, to permit, within an R5 (C2-2) zoning district, legalization of an enlargement of an existing two-family home, which does not comply with the zoning requirements for lot coverage, contrary to ZR § 23-141; and

WHEREAS, a public hearing was held on this application February 25, 2014, after due notice by publication in *The City Record*, with a continued hearing on March 25, 2014, and then to decision on April 8, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 13, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is an irregularly-shaped lot located on the east side of Cropsey Avenue, between Bay 49th Street and Bay 50th Street, within an R5 (C2-2) zoning district; and

WHEREAS, the site has 20 feet of frontage along Cropsey Avenue, approximately 31 feet of frontage along Bay 50th Street, and 1,845 sq. ft. of lot area; and

WHEREAS, the site is currently occupied by a three-story, two-family home with 3,240 sq. ft. of floor area (1.75 FAR); and

WHEREAS, the applicant represents that, in 2009, DOB approved plans for the redevelopment of the building under Application No. 302287200; the redevelopment included the construction of a third story, the relocation of the dwelling unit on the first story to the third story, and the conversion of commercial space on the first story to a community facility; and

WHEREAS, the applicant states that permits were issued in 2009, and construction proceeded; in 2011, DOB determined that the approval was erroneous, in that it permitted the filling-in of an existing courtyard, which increased the non-complying lot coverage for the building from 55.28 percent to 58.53 percent, which is not permitted under ZR §§ 23-141 and 54-31; and

WHEREAS, accordingly, the applicant now seeks to legalize the increase in lot coverage; and

WHEREAS, the special permit authorized by ZR § 73-621 is available to enlarge buildings containing residential uses that existed on December 15, 1961, or, in certain districts, on June 20, 1989; therefore, as a threshold matter, the applicant must establish that the subject building existed as of that date; and

WHEREAS, the applicant submitted excerpts from the 1968, 1987, and 1989 Sanborn Maps to demonstrate that the building existed as a residence well before June 20, 1989, which is the operative date within the subject R5 (C2-2) district; the applicant also submitted an affidavit from one of the owners of the building and photographs from 1988 and 1989 to further support its representation that the building existed as a residence before June 20, 1989; and

WHEREAS, accordingly, the Board acknowledges that the special permit under ZR § 73-621 is available to enlarge the building; and

WHEREAS, ZR § 73-621 permits the enlargement of a residential building, provided that the proposed lot coverage does not exceed 110 percent of the maximum permitted (55 percent); and

WHEREAS, the applicant represents that the proposed lot coverage (58.53 percent) is 106 percent of the maximum permitted (55 percent); and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed enlargement satisfies all of the relevant requirements of ZR § 73-621; and

MINUTES

WHEREAS, based on its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the legalization does not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-621 and 73-03.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.13, §§ 5-02(a), 5-02(b)(2), and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings ZR §§ 72-21 and 73-621, to permit, within an R5 (C2-2) zoning district, legalization of an enlargement of an existing two-family home, which does not comply with the zoning requirements for lot coverage, contrary to ZR § 23-141; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received December 12, 2013"- (1) sheet and "January 14, 2014"-(6) sheets; and *on further condition*:

THAT the parameters of the proposed building will be limited to: three stories, two dwelling units, a maximum floor area of 3,240 sq. ft. (1.75 FAR), a maximum building height of 33'-6", 58.53 percent lot coverage, and a minimum rear yard depth of 46'-0", as per the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board, in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT significant construction will proceed in accordance with ZR §§ 72-23 and 73-70; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 8, 2014.

276-13-BZ

APPLICANT – Francis R. Angelino, Esq., for Adams Tower Limited Partnership, owner; Fastbreak, owner.

SUBJECT – Application September 27, 2013 – Special Permit (§73-36) to allow a physical culture establishment (*Fastbreak*). C1-9 zoning district.

PREMISES AFFECTED – 1629 First Avenue aka 1617 First Avenue and 341 East 84th Street, west side First Avenue between East 84th & East 85th Street, Block 1547, Lot 23, Borough of Manhattan.

COMMUNITY BOARD #8M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4

Negative:.....0

Absent: Vice Chair Collins.....1

THE RESOLUTION –

WHEREAS, the decision of the Executive Zoning Specialist of the Department of Buildings ("DOB"), dated August 28, 2013, acting on DOB Application No. 121332851, reads, in pertinent part:

Proposed physical culture establishment is not permitted as-of-right; contrary to ZR 32-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site partially within a C1-9 zoning district and partially within an R8B zoning district, the operation of a physical culture establishment ("PCE") on the ground floor, cellar, and sub-cellar of a 32-story mixed residential and commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on March 11, 2014, after due notice by publication in the *City Record*, and then to decision on April 8, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 8, Manhattan, recommends approval of the application; and

WHEREAS, the subject site is located on the west side of First Avenue, between East 84th Street and East 85th Street, partially within a C1-9 zoning district and partially within an R8B zoning district; and

WHEREAS, the site has approximately 120 feet of frontage along East 84th Street, 204 feet of frontage along First Avenue, 75 feet of frontage along East 85th Street, and 19,992 sq. ft. of lot area; and

WHEREAS, the site is occupied by a 32-story mixed residential and commercial building; and

WHEREAS, the proposed PCE will occupy 1,098 sq. ft. of floor area on the ground floor, 1,632 sq. ft. of floor space in

MINUTES

the cellar, and 4,161 sq. ft. of floor space in the sub-cellar, for a total PCE size of 6,891 sq. ft.; and

WHEREAS, the applicant represents that no portion of the PCE will operate within the R8B portion of the site; and

WHEREAS, the PCE will be operated as Fastbreak; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE will be seven days per week, from 8:00 a.m. to 9:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No. 14BSA047M dated September 24, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed

action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issued a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site partially within a C1-9 zoning district and partially within an R8B zoning district, the operation of a physical culture establishment (“PCE”) in the ground floor, cellar, and sub-cellar of a 32-story mixed residential and commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received January 14, 2014” – Six (6) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on April 8, 2024;

THAT the PCE use is limited to the C1-9 portion of the lot; and

THAT the hours of operation for the PCE will be limited to seven days per week, from 8:00 a.m. to 9:00 p.m.;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 8, 2014.

CEQR #14-BSA-058K

APPLICANT – Herrick, Feinstein LLP, by Arthur Huh, for Church Avenue Development LLC, owner; New Fitness Holdings LLC, lessee.

SUBJECT – Application October 21, 2013 – Special Permit (§73-36) to allow a physical culture establishment (*Retro Fitness*) located on the second floor of a four-story building, C4-4A zoning district.

PREMISES AFFECTED – 2244 Church Avenue, south side of Church Avenue between Flatbush Avenue and Bedford Avenue, Block 5103, Lot 42, Borough of Brooklyn.

COMMUNITY BOARD #14BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4

Negative:.....0

Absent: Vice Chair Collins.....1

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner of the Department of Buildings (“DOB”), dated October 15, 2013, acting on DOB Application No. 320302016, reads, in pertinent part:

Proposed physical culture establishment is not permitted in a C4-4A zoning district; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C4-4A zoning district, the operation of a physical culture establishment (“PCE”) on portions of the first and second stories of a four-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on March 11, 2014, after due notice by publication in the *City Record*, and then to decision on April 8, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of the application; and

WHEREAS, the subject site is located on the south side of Church Avenue, between Flatbush Avenue and Bedford Avenue, within a C4-4A zoning district; and

WHEREAS, the site has approximately 171 feet of frontage along Church Street and 22,153 sq. ft. of lot area; and

WHEREAS, under construction at the site is a four-story commercial building, with office and retail space and approximately 73,683 sq. ft. of floor area (3.3 FAR); and

WHEREAS, the proposed PCE will occupy approximately 599 sq. ft. of floor area on the first story and approximately 17,687 sq. ft. of floor area on the second story, for a total PCE floor area of approximately 18,286 sq. ft.; and

WHEREAS, the PCE will be operated as Retro Fitness; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE will be Monday through Friday, from 5:00 a.m. to 11:00 p.m., and Saturday and Sunday, from 7:00 a.m. to 7:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, at hearing, the Board directed the applicant to confirm that there is no parking required for the PCE use and that the proposed signage is in accordance with the C4 district regulations; and

WHEREAS, in response, the applicant provided a zoning analysis confirming that the proposed parking and signage are in compliance; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No. 14BSA058K dated January 29, 2014; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise;

MINUTES

Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issued a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site within a C4-4A zoning district, the operation of a physical culture establishment (“PCE”) on portions of the first and second stories of a four-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received February 7, 2014” – Four (4) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on April 8, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 8, 2014.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4

Negative:.....0

Absent: Vice Chair Collins.....1

THE RESOLUTION –

WHEREAS, the decision of the Executive Zoning Specialist of the New York City Department of Buildings (“DOB”), dated February 25, 2014, acting on DOB Application No. 320590473, reads in pertinent part:

1. ZR 23-141(b) - Proposed floor area exceeds permitted floor area;
2. ZR 23-141(b) - Proposed open space is less than permitted;
3. ZR 23-141(b) - Proposed enlargement exceeds permitted lot coverage;
4. ZR 23-47 - Proposed rear yard is less than required; and

WHEREAS, this is an application under ZR § 73-622, to permit, within an R3-2 zoning district, the conversion (from a two-family home to a single-family home) and enlargement of an existing residential building, which does not comply with the zoning requirements for floor area ratio (“FAR”), open space, lot coverage, and rear yard, contrary to ZR §§ 23-141, 23-461, and 23-47; and

WHEREAS, a public hearing was held on this application on March 11, 2013, after due notice by publication in *The City Record*, and then to decision on April 8, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the west side of Bedford Avenue, between Avenue P and Quentin Road, within an R3-2 zoning district; and

MINUTES

WHEREAS, the site has 50 feet of frontage along Bedford Avenue and 5,000 sq. ft. of lot area; and

WHEREAS, the site is occupied by a two-family home with 3,528 sq. ft. of floor area (0.71 FAR); and

WHEREAS, the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant seeks to convert the two-family home to a single-family home and increase the size of the residence, as set forth below; and

WHEREAS, the applicant seeks an increase in the floor area from of 3,528 sq. ft. (0.71 FAR) to 3,664 sq. ft. (0.73 FAR); the maximum permitted floor area is 2,500 sq. ft. (0.5 FAR); and

WHEREAS, the applicant seeks to reduce its open space from 63 percent to 62 percent; the minimum required open space is 65 percent; and

WHEREAS, likewise, the applicant seeks to increase its lot coverage from 37 percent to 38 percent; the maximum lot coverage permitted is 35 percent; and

WHEREAS, the applicant also seeks to decrease its non-complying rear yard depth from 29'-6" to 27'-4"; a minimum rear yard depth of 30'-0" is required; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood and will not impair the future use or development of the surrounding area; and

WHEREAS, the applicant states that the proposed 0.73 FAR is a modest increase from the existing, non-complying 0.71 FAR, and that the building is consistent with the setback, appearance, and height of the existing streetscape; and

WHEREAS, at hearing, the Board directed the applicant to verify that the proposed turret is within the required building envelope; and

WHEREAS, in response, the applicant submitted revised drawings showing that the turret is in compliance; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622, to permit, within an R3-2 zoning district, the conversion (from a two-family home to a single-family home) and enlargement of an existing residential building, which does not comply with the zoning requirements for

FAR, open space, lot coverage, and rear yard, contrary to ZR §§ 23-141, 23-461, and 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received March 25, 2013"- (12) sheets; and *on further condition:*

THAT the following will be the bulk parameters of the building: a maximum floor area of 3,664 sq. ft. (0.73 FAR), a minimum open space of 62 percent, a maximum lot coverage of 38 percent, and a minimum rear yard depth of 27'-4", as illustrated on the BSA-approved plans;

THAT DOB will verify the proposal's compliance with the flood zone regulations of the Zoning Resolution;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 8, 2014.

THE RESOLUTION –

MINUTES

WHEREAS, the decision of the Staten Island Borough Commissioner of the Department of Buildings (“DOB”), dated November 21, 2013, acting on DOB Application No. 520167809, reads, in pertinent part:

Proposed conversion of an existing banquet hall to a physical culture establishment located in a C8-1 and R3X zoning district requires a special permit; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site partially within a C8-1 zoning district and partially within an R3X zoning district, the operation of a physical culture establishment within an existing three-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on March 25, after due notice by publication in the *City Record*, and then to decision on April 8, 2014; and

WHEREAS, a companion application to permit an amendment to a previously-granted variance under BSA Cal. No. 498-83-BZ (which authorized the operation of a banquet hall and accessory parking lot within a residence district) was decided at the same hearing; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Staten Island, recommends approval of the application; and

WHEREAS, the subject site is on the southwest corner of the intersection of Hylan Boulevard and Bedford Avenue, partially within a C8-1 zoning district and partially within an R3X zoning district; and

WHEREAS, the site has approximately 131 feet of frontage along Hylan Boulevard, approximately 228 feet of frontage along Bedford Avenue, and 29,819 sq. ft. of lot area; and

WHEREAS, the site is divided by a district boundary, with the first 100 feet of depth west of Hylan Boulevard within a C8-1 zoning district, and the remaining 128 feet of depth within an R3X zoning district; and

WHEREAS, the site is occupied by a three-story commercial building with 22,878 sq. ft. of floor area (0.79 FAR) and 37 accessory parking spaces; and

WHEREAS, the applicant proposes to remove the portion of the building within the R3X portion of the site, which will reduce the floor area of the building from 22,878 sq. ft. of floor area (0.79 FAR) to 15,661 sq. ft. (0.52 FAR), convert the remaining portions of the building to a PCE, and increase the number of accessory parking spaces from 37 to 51; and

WHEREAS, the PCE will be operated as Club Metro USA; and

WHEREAS, the applicant represents that, aside from its accessory parking, the PCE will operate entirely within the

C8-1 portion of the site; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE will be Monday through Thursday, from 4:30 a.m. to 12:00 a.m., Friday, from 4:30 a.m. to 10:00 p.m., Saturday, from 6:00 a.m. to 10:00 p.m., and Sunday, from 6:00 a.m. to 7:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No. 14-BSA-079R dated December 11, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the

MINUTES

environment.

Therefore it is Resolved, that the Board of Standards and Appeals issued a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site partially within a C8-1 zoning district and partially within an R3X zoning district, the operation of a physical culture establishment within an existing three-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked ‘Received March 28, 2014’ – (7) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on April 8, 2024;

THAT the parking lot will be limited to 51 spaces and will be used only by patrons and employees of the PCE;

THAT signage and landscaping/buffering of the parking lot will be in accordance with the BSA-approved plans;

THAT signage will be in accordance with the BSA-approved plans;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT an amended certificate of occupancy will be obtained by April 8, 2015;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 8, 2014.

COMMUNITY BOARD #10M

Jeff Mulligan, Executive Director

MINUTES

**REGULAR MEETING
TUESDAY MORNING, APRIL 29, 2014
10:00 A.M.**

Present: Chair Srinivasan, Vice-Chair Collins,
Commissioner Ottley-Brown, Commissioner Hinkson and
Commissioner Montanez.

SPECIAL ORDER CALENDAR

5-28-BZ

APPLICANT – Eric Palatnik, P.C., for Steven Feldman,
owner; Anwar Ismael, lessee.

SUBJECT – Application August 20, 2013 – Amendment
(§11-413) of a previously approved variance which
permitted the operation of an automotive service station
(UG 16B). The amendment seeks to change the use to a car
rental establishment (UG 8). R6 zoning district.

PREMISES AFFECTED – 664 New York Avenue, west
side of New York Avenue, spanning the entire length of the
block between Hawthorne Street and Winthrop Street,
Block 4819, Lot 39, Borough of Brooklyn.

COMMUNITY BOARD #9BK

ACTION OF THE BOARD – Application granted on
condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins,
Commissioner Ottley-Brown, Commissioner Hinkson and
Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and
a change in use from an automobile repair station (Use
Group 16) to an automobile rental establishment (Use Group
8); and

WHEREAS, a public hearing was held on this
application on February 4, 2014, after due notice by
publication in the *City Record*, with continued hearings on
March 4, 2014 and April 1, 2014, and then to decision on
April 29, 2014; and

WHEREAS, the premises and surrounding area had
site and neighborhood examinations by Chair Srinivasan,
Commissioner Hinkson, and Commissioner Montanez; and

WHEREAS, Community Board 9, Brooklyn,
recommends approval of the application; and

WHEREAS, the subject site spans the west side of
New York Avenue between Hawthorne Street and Winthrop
Street, within an R6 zoning district; and

WHEREAS, the site has approximately 44 feet of
frontage along Hawthorne Street, 212 feet of frontage along
New York Avenue, approximately 35 feet of frontage along
Winthrop Street, and 8,440 sq. ft. of lot area; and

WHEREAS, the site is occupied by a one-story
building with approximately 1,733 sq. ft. of floor area (0.21

FAR); and

WHEREAS, on June 12, 1928, under the subject
calendar number, the Board denied a variance to permit the
construction of an automotive service station in a residence
district; and

WHEREAS, on June 14, 1938, the Board granted an
application to reopen the previously-denied variance
application, and on September 27, 1938, the Board denied an
amended version of the original variance application, which
sought a variance to permit the construction of a gasoline
service station in a business use district; and

WHEREAS, on October 3, 1961, the Board reopened
the application again and granted a variance to permit
construction of a gasoline service station with lubricatorium,
minor auto repairs, non-automatic car wash, storage room,
office and sales, parking and storage of motor vehicles, on a
site partially within a retail use district and partially within a
manufacturing use district; in addition, the Board authorized
the construction of ground and wall signs within 75 feet of
the nearby residence use district; and

WHEREAS, on October 30, 1962, the Board granted
an extension of time to complete construction and obtain a
certificate of occupancy; and

WHEREAS, the applicant represents that in 1986—
when the current owner of the site purchased it from the City
of New York—the site was changed from a gasoline service
station to an automobile repair station and has operated
continuously as “B & S Diagnostic” ever since; and

WHEREAS, the applicant now proposes to renovate
the existing building to accommodate the proposed Use
Group 8 automobile rental establishment; the establishment
will be operated as an Enterprise Rent-a-Car and it will have
23 accessory parking spaces (18 storage spaces on the south
side of the site and five spaces on the north side dedicated to
returns); and

WHEREAS, the applicant states that the proposed
hours of operation for the establishment will be Monday
through Friday from 7:30 a.m. to 6:00 p.m., Saturday 9:00
a.m. to 12:00 p.m., and closed Sunday; and

WHEREAS, pursuant to ZR § 11-413, the Board may
grant a request for a change in use from one non-
conforming use to another non-conforming use which
would be permitted under one of the provisions applicable
to non-conforming uses as set forth in ZR §§ 52-31 to 52-
36; and

WHEREAS, the applicant represents that its request for
a change in use from a Use Group 16 use to a Use Group 8
use is consistent with ZR § 52-332(a) (*Change of Non-
Conforming Use/Other buildings or structures in residence
districts*), which allows for the conversion of non-conforming
Use Group 16 to Use Group 8 use in residential zoning
districts; and

WHEREAS, the applicant states that the change in
use will not alter the essential character of the
neighborhood, as a Use Group 16 use operated at the site
for more than 50 years; as such, a non-conforming use at

MINUTES

the site is well-established; and

WHEREAS, the applicant contends that the proposed Use Group 8 use will be less intense than the Use Group 16 automobile repair station and offer a much-needed service to an underserved neighborhood; and

WHEREAS, the applicant also states that while residences predominate in the surrounding community, large community facility buildings are located nearby, including Kings County Hospital, the NYC Office of the Chief Medical Examiner, the Kingsborough Psychiatric Center, and SUNY Downstate Medical Center; in addition, there are other automotive-related uses nearby, including a service station and a parking garage on adjacent blocks; and

WHEREAS, at hearing, the Board expressed concerns regarding: (1) the impact of the proposed use on traffic; (2) the lack of landscaping; (3) the excessive curb cuts; and (4) the proposed circulation of vehicles within the site; and

WHEREAS, in response, the applicant provided a traffic study, which reflects that the proposal will reduce the traffic from its current 48 trips-per-day to Enterprise Rent-A-Car's anticipated 37 trips-per-day, and an amended plan sheet depicting additional landscaped areas; and

WHEREAS, as to the landscaping, the applicant added plantings along Winthrop Street; and

WHEREAS, as to the excessive curb cuts, the applicant stated that the application seeks to legalize four existing curb cuts and eliminate the other two curb cuts; and

WHEREAS, as to vehicle circulation within the site, the applicant submitted a plan sheet, which reflects the traffic flow designed to allow maneuverability; and

WHEREAS, based on the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 11-413.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated December 15, 1970, so that as amended this portion of the resolution shall read: "to permit a change in use from automobile service station (Use Group 16) to an automobile rental establishment (Use Group 8); *on condition* that any and all work shall substantially conform to drawings as they apply to the objection above noted, filed with this application marked 'Received April 4, 2014'-(6) sheets; and *on further condition*:

THAT the hours of operation will be limited to Monday through Friday from 7:30 a.m. to 6:00 p.m., Saturday 9:00 a.m. to 12:00 p.m., and closed Sunday;

THAT there will be no street parking of rental automobiles;

THAT lighting will be directed away from the adjoining residential buildings;

THAT the signage and landscaping will be in accordance with the BSA-approved plans;

THAT the above conditions will be listed on the

certificate of occupancy;

THAT all construction will be completed and a certificate of occupancy will be obtained by April 29, 2015;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 29, 2014.

197-05-BZ

APPLICANT – Law Offices of Marvin B. Mitzner LLC, for Broadway Realty LLC, owner.

SUBJECT – Application February 11, 2014 – Extension of Time to Complete Construction of a previously approved variance (§72-21) permitting an 11-story residential building with commercial on the ground floor, contrary to bulk regulations, which expired on January 12, 2014. C6-1 district.

PREMISES AFFECTED – 813-815 Broadway, west side of Broadway, 42' south of East 12th Street, Borough of Manhattan.

COMMUNITY BOARD #2M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening and an extension of time to complete construction pursuant to a variance, which permitted the construction of an 11-story mixed residential and commercial building that does not comply with residential FAR, open space ratio, height, setback, and dwelling count, contrary to ZR §§ 23-142, 33-432, and 23-22; and

WHEREAS, a public hearing was held on this application on March 25, 2014, after due notice by publication in *The City Record*, and then to decision on April 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, the site is located on the west side of Broadway, between East 11th Street and East 12th Street, within a C6-1 zoning district; and

MINUTES

WHEREAS, the Board has exercised jurisdiction over the subject site since July 1, 2008 when, under the subject calendar number, the Board granted a variance pursuant to ZR § 72-21, which permitted the construction of an 11-story mixed-use building with ground floor commercial space and 40 dwelling units, which does not comply with residential FAR, open space ratio, height, setback, and dwelling count, contrary to ZR §§ 23-142, 33-432, and 23-22; and

WHEREAS, in addition, on January 12, 2010, the Board granted an amendment to the variance to permit the addition of a second elevator in the building and a sub-cellar; and

WHEREAS, by the terms of the original grant, construction was to be substantially completed by July 1, 2012; however, as of that date, due to the transfer of ownership of the site and difficulties relating to financing, construction was not completed; and

WHEREAS, accordingly, the applicant now seeks a waiver of the Rules of Practice and Procedure and an extension of time to substantially complete construction; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction is appropriate with certain conditions, as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated July 1, 2008, so that as amended this portion of the resolution shall read: “to grant an extension of time to complete construction to April 29, 2018; *on condition* that the use and operation of the site shall comply with BSA-approved plans associated with the prior grant; and *on further condition*:

THAT substantial construction will be completed by April 29, 2018;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB Application No. 104072076)

Adopted by the Board of Standards and Appeals, April 29, 2014.

247-09-BZ

APPLICANT – Michael T. Sillerman, Esq. of Kramer Levin Naftalis & Frankel LLP, for Central Synagogue, owner.

SUBJECT – Application February 26, 2014 – Extension of Time to complete construction of a previously approved variance (§72-21) for the expansion of a UG4 community use facility (*Central Synagogue*), which expires on February 23, 2014. C5-2 & C5-2.5 (MiD) zoning district. PREMISES AFFECTED – 123 East 55th Street, North side of East 55th Street, between park and Lexington Avenue, Block 1310, Lot 10, Borough of Manhattan.

COMMUNITY BOARD #5M

THE VOTE TO CLOSE HEARING –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

ACTION OF THE BOARD – Laid over to June 10, 2014, at 10 A.M., for decision, hearing closed.

142-92-BZ

APPLICANT – Kramer Levin Naftalis & Frankel LLP, for New York Methodist Hospital, owner.

SUBJECT – Application March 20, 2014 – Amendment of a previously approved special permit (§73-48) for a community facility (*New York Methodist Hospital*). The application seeks to amend the approved plans to accommodate required accessory parking in a new ambulatory care facility (BSA Cal #142-92-BZ)

PREMISES AFFECTED – 473-541 6th Street aka 502-522 8th Avenue, 480-496 & 542-548 5th Street & 249-267 7th Avenue, Block 1084, Lot 36, 164, 1001/1002, Borough of Brooklyn.

THE RESOLUTION –

WHEREAS, this is an appeal of a final determination, issued by the Chief of Operations of the New York City Fire Department (“Fire Department”) on August 18, 2011, in response to a request for a variance (the “Final Determination”), which states, in pertinent part that:

[t]he Fire Department, Bureau of Operations has reviewed the variance request and the revised site plan dated May 21, 2009 for the above site in the Borough of Staten Island and must reject your request . . .

The grade of the fire apparatus access road shall not exceed ten percent under New York City Fire Code Section FC 503.2.7. This requirement is necessary for Fire Department ladder companies to properly ladder the building. This is seen as a potentially dangerous obstruction to response for our fire operation units; and

WHEREAS, this appeal seeks to reverse a Fire Department determination denying a request for a variance of FC § 503.2.7, which, provides that “[t]he grade of the fire apparatus access road shall not exceed ten percent unless approved by the commissioner”; and

WHEREAS, a public hearing was held on this appeal on June 11, 2013, after due notice by publication in *The City Record*, with continued hearings on August 20, 2013, September 24, 2013, October 29, 2013, and February 25, 2014, and then to decision on April 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Staten Island, declined to make a recommendation regarding this application; and

WHEREAS, the Fire Department provided testimony in opposition to the application; and

WHEREAS, certain members of the surrounding community, including a neighborhood group known as the Serpentine Art and Nature Commons, Inc., provided testimony in opposition to the application (the “Opposition”), citing concerns about the Fire Department’s ability to access the proposed homes, the widening of the access road to 30 feet (and its effect on a nearby existing building), the safety of the proposed embankments along the access road, and the overall effect of the development on the neighboring topography, vegetation, soil, property values, sightlines, and

drainage; in addition, the Opposition expressed its preference for a ten-percent access road slope and three homes at the site instead of the proposed four; and

WHEREAS, the subject site is located east of Howard Avenue, within an R2 zoning district within the Special Hillside Preservation District; and

WHEREAS, the site has 75,357 sq. ft. of lot area and an average site slope of 19.5 percent, making it a Tier II site pursuant to ZR § 119-01; and

WHEREAS, the site is vacant, does not front on any mapped streets, and is accessible via easement agreement with the owner of the lot directly west of the site (Block 615, Lot 40); the easement also provides for the installation of underground utilities; and

WHEREAS, the site has been under the Board’s jurisdiction since September 22, 1992, when, under BSA Cal. Nos. 54-92-A through 58-92-A, the Board waived General City Law § 36 to permit the construction of five homes without frontage on a mapped street; instead, the homes fronted on Harborlights Court, an access road with a width of 30’-0” and an average slope of 14 percent; and

WHEREAS, the proposed site plan for BSA Cal. Nos. 54-92-A through 58-92-A was reviewed and approved by the Fire Department by letter dated September 4, 1992; and

WHEREAS, construction pursuant to the 1992 Board grants was also subject to City Planning Commission (“CPC”) authorization under ZR §§ 119-316 and 119-317, due to the sloping nature of the site itself and of Harborlights Court; on April 20, 1994, CPC issued the authorization, however, the development was never constructed and in 1999, CPC adopted amendments to the Special Hillside Preservation District, which invalidated the 1994 approval; and

WHEREAS, by letter dated April 17, 2006, the Board authorized a reduction in the number of homes permitted under BSA Cal. Nos. 54-92-A through 58-92-A from five to four and a change in the roadway terminus from a hammerhead to a cul-de-sac; the slope remained as originally at 14 percent; and

WHEREAS, on July 26, 2006, CPC authorized the revised plan pursuant to ZR §§ 119-316 and 119-317, and by letter dated August 17, 2007, the Fire Department approved the site plan as well; and

WHEREAS, subsequently, the site was redesigned to provide a slope of 17 percent, which the Fire Department disapproved by letter dated July 7, 2009, citing FC § 503.2.7; and

WHEREAS, on January 4, 2010, the Appellant filed a variance application with the Fire Department, which, on August 18, 2011 denied the request and issued the Final Determination that forms the basis for this appeal; and

WHEREAS, through the hearing process and in response to comments by the Board and recommendations from CPC, the Appellant reduced the proposed access road slope from 17 percent to 13.59 percent; and

WHEREAS, nevertheless, the Fire Department

MINUTES

maintained its position that it would not approve an access road slope in excess of ten percent; and

WHEREAS, accordingly, the appellant requests that the Board grant the subject appeal waiving the ten percent slope required under FC § 503.2.7 and approving, in the alternative, a slope of 13.59 percent; and

WHEREAS, the Board notes that, pursuant to New York City Charter § 666(6)(b), it has the power to review an appeal of a Fire Department determination by reversing or affirming in whole or in part, or modifying the requirement set forth in the determination; and

WHEREAS, in addition, pursuant to Charter § 666(7), in reviewing an appeal of a Fire Department determination, the Board may vary the underlying requirement if it finds that: (1) there is a practical difficulty or unnecessary hardship in complying with the strict letter of the law; (2) the alternative is within the spirit of the law and secures public safety; and (3) substantial justice is done; and

WHEREAS, the Appellant asserts that there exists a practical difficulty in complying with a maximum access road slope of ten percent due to the existing slope of the site, which, from the west side of the access road abutting Howard Avenue to the easternmost portion of the site, has a grade change of 116 feet and, as noted above, an average site slope of 19.5 percent; and

WHEREAS, the Appellant also asserts that the alternative—a slope of 13.59 percent—is within the spirit of the law and secures public safety, in that: (1) the access road will provide access to only four, single-family homes; (2) the homes will be fully-sprinklered; (3) there will be no street parking along the roadway with “no parking” signs posted in accordance with FC § 503.7 and BSA Cal. Nos. 54-92-A through 58-92-A; (4) each home’s driveway will be oversized; and (5) two new fire hydrants will be installed along the roadway; and

WHEREAS, as to substantial justice, the Appellant states that it explored the feasibility of providing a complying (ten-percent slope) and determined that in order to achieve a complying slope, the length of the roadway would have to be increased to 497 linear feet, which is contrary to Fire Code § 503.2.5 (which limits the length of a private road to 400 linear feet); thus, a secondary road would be required, which is impossible given the location of the site with respect to adjacent sites and existing buildings; and

WHEREAS, the Appellant states that a ten-percent slope would also require larger retaining walls and more impervious surfaces than are desirable under the Special Hillside Preservation District regulations and require encroachment on a portion of the site that CPC previously declared to be a preservation area; further, constructing retaining walls to provide the ten-percent slope would be too costly to be offset by the construction of four homes; and

WHEREAS, therefore, the Appellant represents that complying with the Fire Department requirement would make construction on the site infeasible; and

WHEREAS, the Appellant states that prior to the

enactment of the 2008 Fire Code, a slope of 13 percent was permitted; in addition, as noted above, the Fire Department approved a slope of 14 percent for the site in 1992 and again in 2007; and

WHEREAS, finally, at the Board’s request, the Appellant identified numerous nearby access roads with slopes in excess of the proposed 13.59 percent, including: Highview Avenue between East Buchanan Street and Eadie Place (16 percent); Highview Avenue between Eadie Place and Fillmore Street (between 18.2 percent and 21.2 percent); York Terrace between East Buchanan Street and Fillmore Street (between 15.8 percent and 16.4 percent); Occident Avenue between St. Pauls Avenue and Marion Street (between 14.4 percent and 16.2 percent); Concord Place between Richmond Road and Longview Road (between 13.8 percent and 16.5 percent); and Howard Court (between 14 percent and 15.5 percent); and

WHEREAS, in response to the Appellant’s assertions, the Fire Department states that, due to the curving nature of the road, a slope in excess of ten percent would present a serious operational challenge to firefighting operations at the site due to the limitations of its equipment; and

WHEREAS, the Fire Department states that it is aware of the prior approvals at the site as well as nearby existing roads with similar or steeper grades; nevertheless, it states that because the ten-percent requirement is to ensure safe operation of and proper access for its firefighting apparatuses, waiver of such requirement is improper and poses a danger to homeowners and firefighters; and

WHEREAS, the Board acknowledges the Fire Department’s interest ensuring that its equipment may be operated in the most efficient manner and that as roads become steeper, such operation may be made more challenging; and

WHEREAS, nevertheless, the Board finds that slopes in excess of ten percent may be safe where accompanied by other safety measures; indeed, a slope exceeding ten percent was contemplated by FC § 503.2.7 by its terms (“the grade of the fire apparatus access road shall not exceed ten percent *unless* approved by the commissioner”); and

WHEREAS, further, the Board notes that when presented with evidence of nearby access roads, including many with steeper slopes and narrower widths than the proposed access road, the Fire Department provided no information regarding how its operations change with respect to such roads; and

WHEREAS, the Board also notes that the Fire Department did not articulate any conditions under which it would endorse an access road slope of greater than ten percent; and

WHEREAS, turning to the variance findings, the Board agrees with the Appellant that the existing slope of the site in combination with the Special Hillside Preservation District regulations present a practical difficulty complying with the strict letter of FC § 503.2.7; and

WHEREAS, in particular, the Board observes that FC

MINUTES

§ 503.2.7 and the Special Hillside Preservation District regulations further different policy objectives and reflect different perspectives on the appropriate development of the site – due to the existing slope of the site, compliance with the Fire Code provision would require substantial fill, which is unlikely to be permitted under the Special Hillside Preservation District regulations; accordingly, a site plan that is satisfactory to the Fire Department is unlikely to be satisfactory to CPC, and this inherent incompatibility presents a significant practical difficulty in developing the site; and

WHEREAS, the Board also agrees that the proposal’s additional safety measures—namely, the limited density, the sprinklering, the no parking zones, and the additional fire hydrants—bring the proposal within the spirit of the law and secure public safety; and

WHEREAS, in addition, the Board requires that the roadway be constructed using asphalt porous pavement or a similar system, as recommended by the Department of Transportation (“DOT”), in order to maximize traction, and that DOT approve a Builders Pavement Plan for the intersection of Harborlights Court and Howard Avenue; and

WHEREAS, as to substantial justice, the Board agrees with the Appellant that development of the site is infeasible using a ten-percent slope for the road and that the proposal represents an alternative that is both technically and financially feasible and consistent with the objectives of the Special Hillside Preservation district regulations; and

WHEREAS, as to the Opposition’s concerns regarding the widening of the access road to a width of 30 feet, the Board notes that the Appellant submitted a copy of its easement agreement for access and utilities; the agreement indicates that the width of the easement is 30 feet; to the extent that the Appellant would seek to diminish the 30-foot width, an amendment to this grant would be required; and

WHEREAS, as to the Opposition’s concern regarding changes to the topography, vegetation, and drainage, the Board observes that the site plan is subject to CPC approval under the Special Hillside Preservation District regulations and that this grant is limited to a variance of FC § 503.2.7 and should not be construed as an endorsement of the project with respect to the Zoning Resolution or Building Code; and

WHEREAS, as to the Opposition’s preference for a ten-percent slope and the construction of three homes instead of four, the Board notes that although such a scenario would reduce the length of the access road, it would be inconsistent with the objectives of the Special Hillside Preservation District due to the extent of fill and the size of embankments that would be required; and

WHEREAS, finally, while the Board acknowledges the Opposition’s other concerns regarding the proposal’s potential impact on neighboring properties, the Board finds that such considerations are both beyond the scope of its review in this case, and governed by other laws and regulations; and

Therefore it is Resolved that the instant appeal, seeking

a reversal of the Fire Department decision dated August 18, 2011, is hereby *granted; on condition* that construction will substantially conform to the drawing filed with the application marked “Received April 25, 2014 (1) sheet; and *on further condition*:

THAT all required CPC approvals will be obtained prior to the issuance of a building permit by DOB;

THAT the slope of the access road will not exceed 13.59 percent at any point;

THAT the access road will have a minimum width of 30 feet;

THAT a maximum of four homes will be permitted at the site;

THAT all homes will be fully-sprinklered;

THAT no street parking will be permitted along the access road and “No Parking” signs will be installed in accordance with the Fire Code;

THAT a minimum of two fire hydrants will be provided along the access road;

THAT the access road will be constructed using asphalt porous pavement or a similar system, as recommended by DOT, in order to maximize traction;

THAT DOT and DOB will review and approve a Builders Pavement Plan for the intersection of Harborlights Court and Howard Avenue;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed objection; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 29, 2014.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated February 23, 2013, acting on Department of Buildings (“DOB”) Application No. 320698465, reads in pertinent part:

Proposed conversion to retail stores (UG 6) and alteration of existing one-story storage garage for more than five motor vehicles and motor vehicle repair shop limited to vehicles owned by tenant in an R6 zone previously approved by BSA under Cal. No. 863-50-BZ must be referred to BSA; and

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reinstatement of a prior Board approval, and an amendment to allow a change in use from a public garage for vehicle storage and motor vehicle repair (Use Group 16) to retail stores (Use Group 6) and a warehouse (Use Group 16); and

WHEREAS, a public hearing was held on this application on December 10, 2013, after due notice by publication in the *City Record*, with continued hearings on January 28, 2013, March 4, 2014 and April 1, 2014, and then

MINUTES

to decision on April 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is an irregular through-lot located on the block bounded by Albemarle Road, Nostrand Avenue, East 29th Street, and Tilden Avenue, within an R6 zoning district; and

WHEREAS, the site has approximately 101 feet of frontage along Albemarle Road, approximately 271 feet of frontage along Nostrand Avenue, approximately 195 feet of frontage along East 29th Street, and 46,665 sq. ft. of lot area; and

WHEREAS, the site is occupied by a one-story storage and repair garage (Use Group 16) with 31,613 sq. ft. of floor area (0.68 FAR); and

WHEREAS, on February 14, 1951, under BSA Cal. No. 863-50-BZ, the Board granted a variance to permit, in a business use district, the extension of an existing public garage using more than the permitted area, to be used as a storage garage and motor vehicle repair shop for New York Telephone Company vehicles, for a term of 30 years, to expire on February 14, 1981; and

WHEREAS, on April 24, 1951, the grant was amended to permit relocation of accessory gasoline pumps; and

WHEREAS, the applicant notes that in 1971, New York Telephone Company acquired the lot on the northwest corner of Block 5131, demolished the residential buildings that occupied by the lot, and began using the lot for additional parking for the uses at the site; and

WHEREAS, the applicant now proposes to reinstate the variance granted under BSA Cal. No. 836-50-BZ to allow for the change of use to a series of Use Group 6 retail stores along Nostrand Avenue and a Use Group 16 warehouse along East 29th Street; in addition, the applicant proposes an accessory parking lot for 20 automobiles adjacent to the warehouse, an accessory parking lot for 15 automobiles at the corner of Albemarle Road and Nostrand Avenue, five accessory parking spaces within the warehouse (for employees), and new landscaping and street trees along the three frontages of the site; and

WHEREAS, as to the nearby lot incorporated into the site in 1971, it will be reapportioned as a separate tax lot and the site will be restored to the dimensions approved by the Board under the original grant; and

WHEREAS, pursuant to ZR § 11-411 and the Board's Rules of Practice and Procedure, the Board may extend the term of a pre-1961 grant that has been expired for more than ten years, provided that: (1) the use of the premises has been continuous since the expiration of the term; (2) substantial prejudice would result from the refusal to allow the extension; and (3) the use permitted by the grant does not substantially impair the appropriate use and development of adjacent properties; and

WHEREAS, the applicant submitted written

testimony and supporting documentation indicating that New York Telephone Company and its successor, Verizon, occupied the site continuously from the expiration of the term of the grant on February 14, 1981 through 2012; and

WHEREAS, as to substantial prejudice, the applicant asserts that it is not feasible to adapt the one-story storage facility and garage for a conforming use, necessitating complete demolition of the building, at significant cost; and

WHEREAS, as to whether the use authorized by the grant would impair the appropriate use and development of adjacent properties, the applicant contends that it would not and notes that Use Group 16 has existed at the site for nearly 65 years with no negative effects on the surrounding conforming uses; further, because a portion of the building will be converted to Use Group 6, the intensity of the non-conforming use at the site will be diminished; and

WHEREAS, pursuant to ZR § 11-413, the Board may grant a request for a change in use from one non-conforming use to another non-conforming use which would be permitted under one of the provisions applicable to non-conforming uses as set forth in ZR §§ 52-31 to 52-36; and

WHEREAS, the applicant represents that its request for a change in use from a Use Group 16 use to a Use Group 6 use is be permitted pursuant to ZR § 52-34 (*Commercial Uses in Residence Districts*), which allows for a change in use from Use Group 16 to Use Group 6; further, consistent with ZR § 11-413, the introduction of Use Group 6 will not alter the essential character of the neighborhood, in that it is a less intense use than the previously-approved Use Group 16 uses and it will be more compatible with the nearby conforming uses; further, there are commercial overlays on both sides of Nostrand Avenue less than one block south of the site; and

WHEREAS, at hearing, the Board directed the applicant to study the effects of the proposal on parking in the surrounding community; and

WHEREAS, in response, the applicant conducted a parking demand study, an on-street parking survey, and a trip generation and parking accumulation analysis; based on the parking demand study, the proposal requires 35 parking spaces per day during the week and 36 parking spaces per day on the weekend, which are less than the 40 parking spaces to be provided at the site; and

WHEREAS, as to the on-street parking survey and the trip generation and parking accumulation analysis, according to the applicant, these studies indicate that, in the immediate vicinity, there is a minimum of 35 and a maximum of 85 hourly available parking spaces at any given time between 8:00 a.m. and 5:00 p.m. on a typical weekday, which, in addition to the proposed accessory parking for the site, will be more than sufficient to accommodate the parking demand generated by the proposal; and

WHEREAS, accordingly, the Board finds that there is ample parking for the proposed uses at the site; and

MINUTES

WHEREAS, the Board also directed the applicant to redesign the proposal to eliminate the initially proposed overhang for parking at the front of the site; and

WHEREAS, in response, the applicant revised the plans to reflect the elimination of the covered parking area; and

WHEREAS, based on the foregoing, the Board is persuaded that the proposal will neither alter the essential character of the neighborhood, nor impair the appropriate use and development of adjacent properties; and

WHEREAS, based upon its review of the record, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 11-411 and 11-413, and a reinstatement and change in use are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedures, issues a Type II under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review, as amended, and makes each and every one of the required findings under ZR §§ 11-411 and 11-413, for a reinstatement of a prior Board approval of a public garage for vehicle storage and repair (Use Group 16) to retail stores (Use Group 6) and a warehouse (Use Group 16); *on condition* that any and all work shall substantially conform to drawings as they apply to the objection above noted, filed with this application marked "Received January 16, 2014"- (2) sheets and "February 23, 2014"- (1) sheet; and *on further condition*:

THAT the term of the variance will expire on April 29, 2024;

THAT the signage will comply with C1 zoning district regulations;

THAT no fewer than 40 parking spaces (20 spaces adjacent to the warehouse, 15 spaces at the corner of Albemarle Road and Nostrand Avenue, and five spaces within the warehouse) will be provided at the site;

THAT the above conditions will be listed on the certificate of occupancy;

THAT all construction will be completed and a certificate of occupancy will be obtained by April 29, 2016;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 29, 2014.

CEQR #13-BSA-146Q

APPLICANT – Eric Palatnik, P.C., for 39th Avenue Realty Management, LLC, owner.

SUBJECT – Application May 30, 2013 – Special Permit (§73-44) to allow the reduction of parking spaces for the enlargement of a building containing Use Group 6 professional offices. C4-2 zoning district.

PREMISES AFFECTED – 133-10 39th Avenue, 39th Avenue, east of College Pt. Boulevard, Block 4973, Lot 12, Borough of Queens.

COMMUNITY BOARD #7Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated May 24, 2013, acting on Department of Buildings Application No. 420840914, reads in pertinent part:

Accessory parking spaces provided is less than required per ZR 36-21; and

WHEREAS, this is an application under ZR §§ 73-44 and 73-03, to permit, on a site located within a C4-2 zoning district, a reduction in the required number of accessory parking spaces in connection with the enlargement of an existing office building (Use Group 6) from 28.75 spaces to 14.38 spaces, contrary to ZR § 36-21; and

WHEREAS, a public hearing was held on this application on March 4, 2014, after due notice by publication in The City Record, with a continued hearing on April 8, 2014, and then to decision on April 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner; and

WHEREAS, Community Board 7, Queens, recommends approval of this application; and

WHEREAS, Queens Borough President Helen M. Marshall recommends approval of this application; and

WHEREAS, the subject site is located on the south side of 39th Avenue between College Point Boulevard and Prince Street, within a C4-2 zoning district; and

WHEREAS, the site has 28 feet of frontage along 39th Avenue and 3,740.5 sq. ft. of lot area; and

WHEREAS, the site is occupied by two two-story office buildings (Use Group 6) with a combined floor area of 3,785 sq. ft. (1.01 FAR); and

WHEREAS, pursuant to ZR § 36-21, Use Group 6 is in parking requirement category B1, which requires that one accessory parking space be provided for every 300 sq. ft. of floor area; thus, the existing Use Group 6 floor area at

MINUTES

the site generates 12.6 required accessory parking spaces; and

WHEREAS, pursuant to ZR § 36-231, within the subject C4-2 zoning district, because less than 15 parking spaces are required, they need not be provided (and were not, when the subject buildings were constructed in 1992); and

WHEREAS, the applicant now proposes to vertically and horizontally enlarge the buildings and combine them, which will result in an increase in floor area from 3,785 sq. ft. (1.0 FAR) to 8,627 sq. ft. (2.3 FAR) and an increase in the number of required accessory parking spaces from 12.6 parking spaces to 28.75 parking spaces; and

WHEREAS, pursuant to ZR § 73-44, the Board may, in the subject C4-2 zoning district, grant a special permit that would allow a reduction in the number of accessory off-street parking spaces required under the applicable Zoning Resolution provision, for Use Group 6 office use in the parking category B1; in the subject zoning districts, the Board may reduce the required parking from one space per 300 sq. ft. of floor area to one space per 600 sq. ft. of floor area; and

WHEREAS, pursuant to ZR § 36-21 the total number of parking spaces that will be required in connection with the proposal is 28.75 spaces; thus, if the special permit is granted, only 14.38 parking spaces will be required; the applicant notes that because 14.38 is less than 15, it will seek approval from DOB to reduce the number of parking spaces provided at the site to zero, in accordance with ZR § 36-231; and

WHEREAS, the Board takes no position on whether the required parking may be waived entirely and relies on DOB to make such determination; and

WHEREAS, pursuant to ZR § 73-44, the Board must determine that the Use Group 6 use in the B1 parking category is contemplated in good faith; and

WHEREAS, as a demonstration of such good faith, the applicant submitted an affidavit from the owner of the site attesting to its intention to use the site as an office building; indeed, the contemplated renovations are being made to upgrade the facility in order to attract long-term Use Group 6 tenants; and

WHEREAS, the Board finds that the applicant has submitted sufficient evidence of good faith in maintaining the noted uses at the site; and

WHEREAS, in addition, the special permit under ZR § 73-44 requires and the applicant represents that any certificate of occupancy for the building will state that no subsequent certificate of occupancy may be issued if the use is changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-street radius; and

WHEREAS, at hearing, the Board requested: (1) an analysis of the potential impact of the proposed reduction on the community in terms of available on-street parking;

and (2) clearer photographs of the site and the surrounding area; and

WHEREAS, in response, the applicant submitted a trip generation and parking accumulation analysis and on-street and off-street parking surveys, which together demonstrate that existing parking within one-quarter mile of the site is more than adequate to accommodate the anticipated increase in the demand for parking generated by the proposed enlargement (which the survey concluded would be ten spaces); and

WHEREAS, the applicant also notes that the site is well served by mass transit, in that it is one block from the entrance to the MTA 7 Subway Line, one block from the Flushing Main Street LIRR station, and within walking distance of City buses running along Roosevelt Avenue and Main Street; and

WHEREAS, based upon the above, the Board agrees that the accessory parking space needs of the site can be accommodated even with the parking reduction; and

WHEREAS, in addition, as requested, the applicant submitted photographs of the site and surrounding area; and

WHEREAS, accordingly, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-44 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 13-BSA-146Q, dated May 30, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issued a Negative declaration prepared in accordance with Article 8 of the New York State

MINUTES

Environmental Conservation Law and 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-44 and 73-03 to permit, on a site located within a C4-2 zoning district, a reduction in the required number of accessory parking spaces in connection with the enlargement of an existing office building (Use Group 6) from 28.75 spaces to 14.38 spaces, contrary to ZR § 36-21; on condition that all work shall substantially conform to drawings as they apply to the objections above noted filed with this application marked "Received April 24, 2014" – (8) sheets, and on further condition:

THAT there will be no change in the use of the site without prior review and approval by the Board;

THAT no certificate of occupancy may be issued if the use is changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-street radius;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT DOB will confirm that the 14.38 accessory parking spaces authorized under this grant may be waived, in accordance with ZR §§ 36-31 and 36-231;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 29, 2014.

179-13-BZ

APPLICANT – Law Office of Fredrick A. Becker, for East 24 Realty LLC by Sarah Weiss, owner.

SUBJECT – Application June 19, 2013 – Special Permit (§73-622) for the enlargement of a single-family home contrary to floor area, open space (§23-141); side yard (§23-461) and less than the required rear yard (§23-47). R2 zoning district.

PREMISES AFFECTED – 933-939 East 24th Street, East side of East 24th Street between Avenue I and Avenue J, Block 7588, Lot 29 & 31 (31 tentative), Borough of Brooklyn.

COMMUNITY BOARD #14BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner of the New York City Department of Buildings ("DOB"), dated June 3, 2013, acting on DOB Application No. 320746234, reads in pertinent part:

1. Proposed plans are contrary to ZR 23-141 in that the proposed floor area ratio exceeds the maximum permitted;
2. Proposed plans are contrary to ZR 23-141 in that the proposed open space ratio is less than the minimum required;
3. Proposed plans are contrary to ZR 23-461 in that the proposed side yard is less than the minimum required;
4. Proposed plans are contrary to ZR 23-47 in that the proposed rear yard is less than the minimum required; and

WHEREAS, this is an application under ZR § 73-622, to permit, within an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio ("FAR"), open space ratio, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, and 23-47; and

WHEREAS, a public hearing was held on this application on February 4, 2014, after due notice by publication in *The City Record*, with continued hearings on March 11, 2014, and April 1, 2014, and then to decision on April 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Montanez; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of the application; and

WHEREAS, the subject site is located on the east side of East 24th Street, between Avenue I and Avenue J, within an R2 zoning district; and

WHEREAS, the site has 80 feet of frontage along East 24th Street and 8,000 sq. ft. of lot area; and

WHEREAS, the site comprises two historically-separate lots (Lots 29 and 31), each with 40 feet of frontage along East 24th Street and 4,000 sq. ft. of lot area, which will be combined and be known as Lot 31; and

WHEREAS, the site is occupied by two single-family homes; the home on historic Lot 29 has 2,042 sq. ft. of floor area (0.51 FAR) and the home on historic Lot 31 has 2,029 sq. ft. of floor area (0.51 FAR); thus, the site has 4,071 sq. ft. of existing floor area (0.51); and

WHEREAS, the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant now seeks to demolish the home on historic Lot 29 and increase the floor area of the

MINUTES

home on historic Lot 31 from 2,042 sq. ft. (0.51 FAR) (as measured with respect to historic Lot 31) to 8,031 sq. ft. (1.0 FAR) (as measured with respect to the site); the maximum permitted floor area is 4,800 sq. ft. (0.6 FAR); and

WHEREAS, the applicant seeks to decrease the open space ratio from 142 percent (historic Lot 29) and 144 percent (historic Lot 31) to 47 percent (as measured with respect to the site); the minimum required open space ratio is 150 percent; and

WHEREAS, the applicant seeks to maintain and extend historic Lot 31's existing non-complying side yard width of 3'-11½" and reduce historic Lot 29's complying side yard width from 12'-0" to 8'-11½"; (the requirement is two side yards with a minimum total width of 13'-0" and a minimum width of 5'-0" each); and

WHEREAS, the applicant also seeks to decrease its non-complying rear yard depth to 20'-0"; historic Lot 29's rear yard depth was 27'-0" and historic Lot 31's rear yard depth was 26'-5½" (a rear yard with a minimum depth of 30'-0" is required); and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood and will not impair the future use or development of the surrounding area; and

WHEREAS, the applicant asserts that the proposed lot width of 80 feet and 1.0 FAR are consistent with the bulk in the surrounding area; and

WHEREAS, as to the lot width, the applicant submitted a study, which reflects that, within the subject R2 zoning district, there are eleven lots that range in width from 60 to 100 feet; and

WHEREAS, as to the FAR, the applicant identified seven homes in the study area with FARs ranging from 1.0 to 1.63; the applicant notes that six of the seven homes were enlarged pursuant to a special permit from the Board; and

WHEREAS, at hearing, the Board expressed concerns regarding: (1) the compatibility of the height of the proposed home with the existing homes along East 24th Street; and (2) the compliance of the proposal with the landscaping requirements; and

WHEREAS, in response, the applicant amended its plans to: (1) remove decorative grillework from the top of the building; (2) reduce the proposed building height from 38'-0" to 36'-0" and the proposed perimeter wall height from 25'-0" to 24'-8"; and (3) decrease the size of the front porch in order to accommodate required landscaping; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622, to permit, within an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for FAR, open space ratio, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, and 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received March 19, 2014"-(13) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 8,031 sq. ft. (1.0 FAR), a minimum open space ratio of 47 percent, side yards with minimum widths of 3'-11½" and 8'-11½", and a minimum rear yard depth of 20'-0", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 29, 2014.

246-13-BZ

CEQR #14-BSA-025K

APPLICANT – Rothkurg Rothkrug & Spector LLP, for Lutheran Medical Center, owner.

SUBJECT – Application August 21, 2013 – Variance (§72-21) to permit the enlargement of an existing ambulatory diagnostic treatment health facility (UG4), contrary to floor area (§24-11) and rear yard (§24-36) regulations. R6B/C4-3A zoning districts.

PREMISES AFFECTED – 514 55th Street, south side of 49th Street, 90' east of intersection of 5th Avenue and 49th Street, Block 784, Lot 10, Borough of Brooklyn.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

MINUTES

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Executive Zoning Specialist of the Department of Buildings (“DOB”), dated July 22, 2013, acting on DOB Application No. 320590339, reads in pertinent part:

1. Floor area in R6B lot portion exceeds the maximum permitted; contrary to ZR 24-11;
2. Enlargement in the required rear yard is not permitted; contrary to ZR 24-36; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site located partially within an R6B zoning district and partially within a C4-3A zoning district, the horizontal enlargement of the basement and first story of a four-story ambulatory diagnostic and treatment health care facility (Use Group 4) that exceeds the maximum permitted floor area ratio (“FAR”) and does not provide the minimum required rear yard in the R6B portion of the site, contrary to ZR §§ 24-11 and 24-36; and

WHEREAS, a public hearing was held on this application on March 11, 2014, after due notice by publication in the *City Record*, with a continued hearing on April 8, 2014, and then to decision on April 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, this application is brought on behalf of Lutheran HealthCare, a not-for-profit institution; and

WHEREAS, Community Board 7, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is a rectangular interior lot located on the south side of 49th Street between Fifth Avenue and Sixth Avenue, partially within an R6B zoning district and partially within a C4-3A zoning district; and

WHEREAS, the site has 191 feet of frontage along 49th Street, a lot depth of 100.17 feet, and a lot area of 19,131 sq. ft.; and

WHEREAS, the site is divided by a zoning district boundary, with the westernmost ten feet of the site for its full depth is located within a C4-3 zoning district and the remainder of the lot located within an R6B zoning district; and

WHEREAS, the site is occupied by a four-story ambulatory diagnostic and treatment health care facility (Use Group 4) with 35,378 sq. ft. of floor area (1.8 FAR); the facility is operated by Lutheran HealthCare (“LHC”) and known as the Sunset Terrace Family Health Center (“STFHC”); and

WHEREAS, the applicant notes that the facility was completed in 1960 and underwent its only major renovation in 1977; and

WHEREAS, the applicant proposes to enlarge the basement and first story at the rear of the building, which will increase the floor area from 35,378 sq. ft. (1.8 FAR) to 40,912 sq. ft. (2.14 FAR); and

WHEREAS, the applicant states that the basement enlargement will comprise 2,637 sq. ft. of floor area and provide space for offices, staff room, storage and mechanical equipment; the first story enlargement will comprise 2,997 sq. ft. of floor area and will provide space for examination rooms, additional offices, work stations, and restrooms; and

WHEREAS, the applicant states that a variance is requested because the proposed enlargement will exceed the maximum permitted floor area for the site (39,263 sq. ft. (2.05 FAR)) and will extend the existing non-complying rear yard depth of 11 feet for the full width of the building; and

WHEREAS, the applicant notes that LHC, which operates STFHC, has served the ethnically diverse, medically underserved neighborhoods of central and southwest Brooklyn for more than 40 years, and that the official LHC service area includes approximately 700,000 residents (28 percent of the total Brooklyn population); and

WHEREAS, the applicant states that STFHC is facing a large influx of patients due to three factors: (1) the closure or threatened closure of nearby health systems and hospitals, such as Long Island Hospital, Brookdale Hospital, and Interfaith Medical Center; (2) the initiation of the New York Health Home system (under the requirements of the New York State Medicaid Redesign Team), which requires coordination of mental illness treatment with medical treatment; and (3) the implementation of family homeless services; and

WHEREAS, the applicant represents that the following are unique physical conditions inherent to the zoning lot, which, in accordance with ZR § 72-21(a), create practical difficulties and unnecessary hardship in developing the site in strict conformance with underlying zoning regulations: (1) the history of community facility use at the site and obsolescence of the building at the site for such use (including the outmoded configuration of its floorplates); and (2) the programmatic needs of LHC; and

WHEREAS, as noted above, the applicant states that LHC has been providing health services at the site for decades in a building that was constructed in 1960; as such, community facility use at the site is well-established; and

WHEREAS, the applicant notes that the building was constructed without a cellar; therefore, it must use above-grade spaces for common below-grade uses such a storage of materials and mechanical equipment; and

WHEREAS, in addition, the applicant states that the building was last renovated in 1977 and its layouts include redundancies and inefficiencies (such as a single entrance for all patients), which interfere with LHC’s ability to provide quality health care; and

WHEREAS, the applicant states that the building must expand to satisfy LHC’s programmatic needs, including providing: (1) proper separation of offices, storage space, and staff rooms from patient services; (2) expansion of the primary care areas; (3) establishment of dental care program space; (4) expansion of behavioral health patient areas; (5) separation of patients by health care need; and (6) for the

MINUTES

elimination of the joint reception area, which is undesirable given the diversity of the services offered by LHC; and

WHEREAS, the applicant also states that remaining in the building is critical to the care STFHC provides to the surrounding community because many of its patients live nearby and cannot travel long distances for services; and

WHEREAS, the applicant contends that providing some services at the site and others offsite would substantially interfere with patient care, require duplication of non-patient spaces, services, and staff, and be inconsistent with the recommendations of the New York State Medicaid Redesign Team; and

WHEREAS, similarly, the applicant represents that relocating the facility entirely is not possible because there are no comparable buildings or sites within Sunset Park and that the vast majority of lots in the area (both vacant and occupied) have lot areas of approximately 2,000 sq. ft.—well below the size that would be needed to accommodate a suitable building for STFHC; and

WHEREAS, the applicant explored the feasibility of the following as-of-right development scenarios: (1) a three-story rear enlargement for a depth of 14 feet (“Scenario 1”); (2) a four-story enlargement to the west side of the building (“Scenario 2”); and (3) a complete renovation of the entire building, including significant demolition and reconstruction (“Scenario 3”); and

WHEREAS, the applicant states that Scenario 1 would not allow for the additional examination rooms and corridors due to its limited depth and it would not alleviate the entrance bottleneck caused by the single patient entrance; in addition, it would require the placement of medical examination and dental examination rooms on separate levels and would prevent the consolidation of staff spaces and instead separate such spaces by several stories with only one elevator connecting them; and

WHEREAS, the applicant states that Scenario 2 would result in approximately 60 percent less new program space than the proposal, resulting in a reduction and/or elimination of programs and funding; further, Scenario 2 would require reconfiguration of the boiler room, relocation of an egress stair, and the installation of a new sprinkler system, at significant cost; and

WHEREAS, as for Scenario 3, the applicant represents that it is not viable due to the costs involved and the significant disruptions in patient care; and

WHEREAS, accordingly, the applicant asserts that the building’s inefficiencies and LHC’s programmatic needs are best addressed with the proposed horizontal enlargement; and

WHEREAS, based upon the above, the Board finds that the history of community facility use at the site and the obsolescence of the building, when considered in conjunction with the programmatic needs of LHC, create unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, since LHC is a non-profit institution and

the variance is needed to further its non-profit mission, the finding set forth at ZR § 72-21(b) does not have to be made in order to grant the variance requested in this application; and

WHEREAS, the applicant represents that, per ZR § 72-21(c), the variance, if granted, will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant represents that the neighborhood is characterized by a mix of low- to medium-density residential, community facility, and, where permitted, commercial uses; and

WHEREAS, the applicant states that the site has been occupied by a medical facility for more than 50 years, that Use Group 4 is permitted as-of-right in the subject zoning districts (R6B and C4-3A), and that the operator of the facility is an organization with significant ties to the community; and

WHEREAS, as to adjacent properties, the applicant states that there are mixed residential and commercial buildings along Fifth Avenue to the west of the site, and residential buildings to the north, east, and south of the site; and

WHEREAS, the applicant states that the proposed enlargement is a continuation of the building’s existing, non-complying rear yard depth of 11 feet and that its impact upon the residences to the south is mitigated by the fact that those buildings provide complying rear yards with depths of 30 feet and are separated from the site by a retaining wall and a fence; and

WHEREAS, as to the FAR waiver, the applicant asserts that while it is modest (the proposal seeks 0.09 FAR greater than is permitted at the site), a noted above, the additional floor area is essential to LHC’s ability to carry out its programmatic needs; further, the additional floor area will be located entirely within the rear of the site, will have no impact on the building’s overall height, number of stories or appearance from the street, and is within the ten-percent increase in floor area permitted by special permit under ZR § 73-63 (*Enlargement of Non-Residential Buildings*); and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that the hardship was not self-created and that no development that would meet the programmatic needs of LHC could occur on the existing lot; and

WHEREAS, accordingly, the Board finds that, per ZR § 72-21(d) the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, the Board also finds that the requested relief is the minimum necessary, in accordance with ZR § 72-21(e); and

MINUTES

WHEREAS, thus, the Board has determined that the evidence in the record supports the findings required to be made under ZR §72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 14-BSA-025K, dated August 14, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, on a site located partially within an R6B zoning district and partially within a C4-3A zoning district, the horizontal enlargement of the basement and first story of a four-story ambulatory diagnostic and treatment health care facility (Use Group 4) that exceeds the maximum permitted floor area ratio ("FAR") and does not provide the minimum required rear yard in the R6B portion of the site, contrary to ZR §§ 24-11 and 24-36; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received November 26, 2013" –(5) sheets; and *on further condition;*

THAT the following shall be the bulk parameters of the building: a maximum of 40,912 sq. ft. (2.14 FAR) and a minimum rear yard depth of 11'-0", as indicated on the BSA-approved plans;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 29, 2014.

270-13-BZ

APPLICANT – Eric Palatnik, P.C., for Margaret Angel, LLC, owner.

SUBJECT – Application September 13, 2013 – Special Permit (§73-622) for the enlargement of an existing single family home, contrary to floor area (§23-141). R3-1 zoning district.

PREMISES AFFECTED – 288 Dover Street, Dover Street, south of Oriental Boulevard, Block 8417, Lot 38, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner of the New York City Department of Buildings ("DOB"), dated November 15, 2013, acting on DOB Application No. 320846028, reads in pertinent part:

Proposed floor area ratio is contrary to Section 23-141(b) of the Zoning Resolution; and

WHEREAS, this is an application under ZR § 73-622, to permit, within an R3-1 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio ("FAR") contrary to ZR § 23-141; and

WHEREAS, a public hearing was held on this application on March 4, 2014, after due notice by publication in *The City Record*, with a continued hearing on April 1, 2014, and then to decision on April 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Montanez; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of the application; and

WHEREAS, the subject site is located on the northwest corner of Dover Street and the Manhattan Beach Esplanade, within an R3-1 zoning district; and

WHEREAS, the site has 127 feet of frontage along Dover Street, 104 feet of frontage along the Manhattan Beach Esplanade, and 13,024 sq. ft. of lot area; and

MINUTES

WHEREAS, the site is occupied by a single-family home with 3,839 sq. ft. of floor area (0.3 FAR); and

WHEREAS, the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant now seeks an increase in the floor area from 3,839 sq. ft. (0.3 FAR) to 10,570 sq. ft. (0.81 FAR); the maximum permitted floor area is 7,814.4 sq. ft. (0.6 FAR); and

WHEREAS, the applicant states that the building will comply in all other respects with the R3-1 zoning district regulations; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood and will not impair the future use or development of the surrounding area; and

WHEREAS, the applicant asserts that the proposed 0.81 FAR is consistent with the bulk in the surrounding area; in support of this assertion, the applicant submitted a study of the 59 homes within 400 feet of the site, which reflects that 12 homes have an FAR between 0.75 and 1.0; and

WHEREAS, at hearing, the Board directed the applicant to: (1) clarify the landscaping requirements along the Manhattan Beach Esplanade; and (2) remove the stairs encroaching upon the Manhattan Beach Esplanade; and

WHEREAS, in response, the applicant submitted: (1) a letter from its architect stating that the Manhattan Beach Esplanade is treated as a "street" for the purposes of calculating the required landscaping and number of street trees; and (2) an amended plan omitting the stairs from the original proposal; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622, to permit, within an R3-1 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for FAR contrary to ZR § 23-141; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received March 11, 2014" – (12) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: two stories, a maximum floor area of 10,570 sq. ft. (0.81 FAR), a maximum lot coverage of 33.4 percent, side yards with minimum widths of 26'-9" and 8'-

2", a maximum perimeter wall height of 21'-0", and a maximum building height of 34'-1", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 29, 2014.

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner of the Department of Buildings ("DOB"), dated September 12, 2013, acting on DOB Application No. 320787314, reads, in pertinent part:

ZR 32-10 - physical culture establishment is not permitted as-of-right in a C8 district; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C8-2 zoning district, the operation of a physical culture establishment ("PCE") on portions of the first and second stories of a three-story mixed commercial and community facility building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on April 1, 2014, after due notice by publication in the *City Record*, and then to decision on April 29, 2014;

MINUTES

and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Montanez; and

WHEREAS, Community Board 9, Brooklyn, recommends approval of the application; and

WHEREAS, the subject site is located on the east side of Flatbush Avenue, between Empire Boulevard and Lefferts Avenue, within a C8-2 zoning district; and

WHEREAS, the site has approximately 213 feet of frontage along Flatbush Avenue, approximately 234 feet of frontage along Washington Avenue, and 44,413 sq. ft. of lot area; and

WHEREAS, the site is occupied by a three-story mixed commercial and community facility building with approximately 78,795 sq. ft. of floor area (1.75 FAR); and

WHEREAS, the proposed PCE will occupy 2,000 sq. ft. of floor area on the first story and approximately 17,080 sq. ft. of floor area on the second story, for a total PCE floor area of approximately 19,080 sq. ft.; and

WHEREAS, the PCE will be operated as Planet Fitness; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE will be seven days per week, 24 hours per day; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, at hearing, the Board directed the applicant to confirm that the proposed signage is in accordance with the C8-2 district regulations; and

WHEREAS, in response, the applicant provided a zoning analysis confirming that the proposed signage complies; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No.14BSA055K dated October 8, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issued a Negative declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site within a C8-2 zoning district, the operation of a physical culture establishment (“PCE”) on portions of the first and second stories of a three-story mixed commercial and community facility building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received February 12, 2014” – Four (4) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on April 29, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

MINUTES

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 29, 2014.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Executive Director of the Development HUB of the Department of Buildings (“DOB”), dated November 8, 2013, acting on DOB Application No. 121236996, reads, in pertinent part:

Proposed use as a physical culture establishment is contrary to ZR 32-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C6-3X zoning district, the operation of a physical culture establishment (“PCE”) in portions of the cellar and first story of a six-story mixed residential and commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on April 8, 2014, after due notice by publication in the *City Record*, and then to decision on April 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, Community Board 4, Manhattan, recommends approval of the application; and

WHEREAS, a resident of the subject building testified in opposition to the application, citing concerns about noise emanating from air conditioning units that service the

commercial space; and

WHEREAS, the subject site is located on the east side of south side of West 23rd Street, between Avenue of the Americas and Seventh Avenue, within a C6-3X zoning district; and

WHEREAS, the site has approximately 63 feet of frontage along West 23rd Street and 6,169 sq. ft. of lot area; and

WHEREAS, the site is occupied by a six-story mixed residential and commercial building with 20 dwelling units; and

WHEREAS, the proposed PCE will occupy 3,142 sq. ft. of floor space in the cellar and approximately 4,899 sq. ft. of floor area on the first story, for a total PCE size of approximately 8,041 sq. ft.; and

WHEREAS, the PCE will be operated as Peloton Fitness; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; no massage services will be provided at the PCE; and

WHEREAS, the hours of operation for the PCE will be Monday through Friday, from 5:30 a.m. to 10:00 p.m. and Saturday and Sunday, from 7:00 a.m. to 9:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, at hearing, the Board directed the applicant to include additional details on its plans regarding its proposed sound-attenuation measures for the external HVAC units and for the PCE (the “box within a box” construction); and

WHEREAS, in response, the applicant submitted amended plans that detail the proposed sound-attenuation measures; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted

MINUTES

action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No. 14BSA008M dated November 8, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issued a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site within a C8-2 zoning district, the operation of a physical culture establishment (“PCE”) on portions of the first and second stories of a three-story mixed commercial and community facility building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received April 25, 2014” – Five (5) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on April 29, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT the hours of operation for the PCE will be limited to Monday through Friday, from 5:30 a.m. to 10:00 p.m. and Saturday and Sunday, from 7:00 a.m. to 9:00 p.m.;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 29, 2014.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated November 13, 2011, acting on Department of Buildings Application No. 320146445, reads, in pertinent part:

BSA Special Permit required for residential use in an M2-1 manufacturing district as per ZR 42-10;

and

WHEREAS, this is an application under ZR § 72-21, to permit, in an M2-1 zoning district within the Fulton Ferry Historic District, the construction of a five-story mixed-use residential/commercial building with ground floor retail use and residential use above, which is contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on August 21, 2012, after due notice by publication in the *City Record*, with a continued hearing on October 16, 2012, and then to decision on November 27, 2012; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Brooklyn, recommends approval of this application; and

WHEREAS, New York City Council Member Stephen T. Levin recommends approval of this application; and

WHEREAS, a member of the community provided testimony in opposition to the application (the “Opposition”), citing concerns with the proposed height of the building; and

WHEREAS, the site is located on the north side of Old Fulton Street, between Front Street and Water Street, in an M2-1 zoning district within the Fulton Ferry Historic District; and

WHEREAS, the site has 22’-8” of frontage along Old Fulton Street, a depth ranging between 60’-11” and 61’-10”, and a total lot area of 1,396 sq. ft.; and

WHEREAS, the site is currently vacant with the exception of an unoccupied one-story 660 sq. ft. building formerly utilized as an accessory kitchen for the adjacent building at 7 Old Fulton Street; and

WHEREAS, the applicant proposes to demolish the existing building and construct a five-story mixed-use residential/commercial building with ground floor retail and three dwelling units above; and

WHEREAS, the proposed building will have a total floor area of 4,575 sq. ft. (3.28 FAR), a residential floor area of 3,320 sq. ft. (2.38 FAR), a commercial floor area of 1,255 sq. ft. (0.90 FAR), a rear yard with a minimum depth of 16’-0”, and a total building height of 52’-0”; and

WHEREAS, the cellar level will be occupied by commercial storage and mechanicals; and

WHEREAS, the first floor will be occupied by retail use (UG 6) and a small residential entrance; and

WHEREAS, the second and third floors will be occupied by one residential unit each, and the fourth floor and fifth floor will be occupied by a single residential duplex unit with access to outdoor space on the fifth floor; and

WHEREAS, because residential use is not permitted in an M2-1 zoning district, the applicant seeks the subject use variance; and

WHEREAS, the applicant states that the following are unique physical conditions which create an unnecessary hardship in developing the site in conformance with applicable regulations: the subject lot is undersized, with both a narrow width and shallow depth; and

WHEREAS, as to the depth, the applicant states that the site has an irregular and shallow depth ranging between 60’-11” deep on the westerly side and 61’-10” deep on the easterly side, and is considered a shallow interior lot pursuant to ZR § 23-52; and

WHEREAS, the applicant represents that the shallow depth of the site would result in a building with a depth of only approximately 40 feet if an M2-1 compliant rear yard were provided, which, in conjunction with the narrow width of the site of 22’-8”, would result in an inefficient floor plate for the building; and

WHEREAS, the applicant further represents that the size and configuration of the zoning lot is not appropriate for conforming manufacturing or industrial use; and

WHEREAS, specifically, the applicant states that the narrowness and shallowness of the lot precludes the provision of off-street loading docks, freight elevators, and other requirements of a modern manufacturing or industrial use; and

WHEREAS, as to the uniqueness of the site, the

MINUTES

applicant submitted a 400-ft. radius diagram which reflects that the subject site is the smallest vacant lot in the surrounding area;

WHEREAS, the applicant represents that the two most similarly dimensioned zoning lots on the subject block are Lots 11 and 9, which are immediately adjacent to the subject site, and both of which are occupied by four-story mixed-use buildings almost identical in both appearance and bulk to the proposed building; and

WHEREAS, the applicant further represents that the only other interior zoning lots with comparable shallowness are located across Old Fulton Street on Block 200 (Lots 11, 15, and 17), all of which are occupied by one- or two-story dwellings, which are scaled appropriately to the very narrow side streets (Everit Street and Doughty Street) upon which they front; and

WHEREAS, based upon the above, the Board finds that the aforementioned unique physical conditions, when considered in the aggregate, create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant submitted a feasibility study analyzing an as-of-right two-story commercial building with a total floor area of 2,782 sq. ft. (1.99 FAR), and the proposed five-story mixed-use residential/commercial building with ground floor retail use and residential use above; and

WHEREAS, the feasibility study concluded that the as-of-right commercial building would not result in a reasonable return, but that the proposed building would result in a reasonable return; and

WHEREAS, based upon its review of the applicant's submissions, the Board has determined that because of the subject site's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant represents that the immediate area is a mix of residential and commercial uses; and

WHEREAS, the applicant states that the proposed residential use, with ground floor retail, is consistent with the character of the area, which includes many other such uses; and

WHEREAS, the Board agrees that the character of the area is mixed-use, and finds that the introduction of three dwelling units and ground floor retail will not impact any nearby conforming uses; and

WHEREAS, further, the applicant represents that the area now known as the Fulton Ferry Historic District was characterized by residential use until the Brooklyn Bridge

was built; and

WHEREAS, specifically, the applicant represents that the row of buildings on Old Fulton Street, from numbers 7 through 23 were all designed for commercial use on the ground floor and residential use on the floors above at about the same time; the applicant represents that many of them have continually been used for those purposes; and

WHEREAS, additionally, across the street from the site is a large nine-story building occupied by residential use; and

WHEREAS, at hearing, the Board raised concerns about the appropriateness of the proposed rear yard depth of 16'-0" and the partial fifth floor; and

WHEREAS, in response, the applicant states that, although there are not zoning regulations pertaining to minimum rear yards for residential buildings in manufacturing districts, the rear yard depth was calculated starting with the standard 20'-0" rear yard for an M2-1 zoning district and deducting one-inch for every two inches for which the shallow interior lot is less than 70'-0" in depth, in accordance with ZR § 43-27, which results in the proposed rear yard depth of 16'-0"; thus, the proposed rear yard depth would be in compliance with the Zoning Resolution if the underlying M2-1 district regulations were applicable; and

WHEREAS, the applicant further states that the proposed rear yard depth of 16'-0" is more than the existing rear yards at the adjacent buildings located at 7 and 11 Old Fulton Street, which have rear yard depths of 12'-4" and 14'-5", respectively; and

WHEREAS, as to the appropriateness of the partial fifth floor, the applicant submitted a copy of the Landmarks Preservation Commission ("LPC") plans and Certificate of Appropriateness for the neighboring buildings to the east, at 11, 13, and 15 Old Fulton Street, each of which were approved with similar partial fifth floors and range in total height from 51'-7" to 52'-11", and were permitted pursuant to a previous variance granted by the Board under BSA Cal. No. 136-06-BZ; and

WHEREAS, the applicant states that the proposed building, with a total height of 50'-4", therefore fits within the character of the surrounding area; and

WHEREAS, as to the Opposition's concerns that the proposed building could have a negative effect on the light and air of their building at 4 Water Street and should be limited to four stories in height, the applicant notes that the certificate of occupancy for 4 Water Street, located to the northeast of the site, shows that it is a six-story building with a total height of 76'-0"; and

WHEREAS, additionally, the applicant represents that the partial-fifth floor will be setback above the fourth floor so as to minimize its visibility from the street; and

WHEREAS, the applicant represents that the proposal will not affect the historical integrity of the subject property; and

WHEREAS, the applicant submitted a Certificate of Appropriateness from LPC approving the work associated with the proposed construction, dated October 19, 2012; and

MINUTES

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, the Board observes that the proposed building of three dwelling units is limited in scope and compatible with nearby development; and

WHEREAS, accordingly, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 11BSA052K dated November 26, 2012; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the New York City Department of Environmental Protection's (DEP) Bureau of Environmental Planning and Analysis reviewed the project for potential hazardous materials and air quality impacts; and

WHEREAS, DEP reviewed and accepted the February 2012 Remedial Action Plan and Construction Health and Safety Plan; and

WHEREAS, DEP requested that a Remedial Closure Report be submitted to DEP for review and approval upon completion of the proposed project; and

WHEREAS, DEP reviewed the applicant's stationary source air quality screening analysis and determined that the proposed project is not anticipated to result in significant stationary source air quality impacts; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Type I Negative Declaration, with conditions as stipulated below, prepared in accordance with

Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, in an M2-1 zoning district within the Fulton Ferry Historic District, the construction of a five-story mixed-use residential/commercial building with ground floor retail use and residential use above, which is contrary to ZR § 42-10, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received November 26, 2012" – seven (7) sheet; and *on further condition*:

THAT the following will be the bulk parameters of the proposed building: five stories; a total floor area of 4,575 sq. ft. (3.28 FAR); a residential floor area of 3,320 sq. ft. (2.38 FAR); a commercial floor area of 1,255 sq. ft. (0.90 FAR); a rear yard with a minimum depth of 16'-0"; and a total building height of 52'-0", as illustrated on the BSA-approved plans;

THAT the internal floor layouts on each floor of the proposed building shall be as reviewed and approved by DOB;

THAT DOB shall not issue a Certificate of Occupancy until the applicant has provided it with DEP's approval of the Remedial Closure Report;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT construction will proceed in accordance with ZR § 72-23;

THAT this grant is contingent upon final approval from the Department of Environmental Protection before an issuance of construction permits other than permits needed for soil remediation; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, November 27, 2012.

The resolution has been amended to correct the Building Height which read: "...height of 50'-4"...". Now reads: "...height of 52'-0"...". Corrected in Bulletin Nos. 16-18, Vol. 99, dated May 8, 2014.

CEQR #13-BSA-115Q

APPLICANT – Vinod Tewari, for Peachy Enterprise, LLC, owner.

SUBJECT – Application March 25, 2013 – Special Permit (§73-19) to allow a school, contrary to use regulation (§42-00). M1-3 zoning district.

PREMISES AFFECTED – 11-11 40th Avenue aka 38-78 12th Street, Block 473, Lot 473, Borough of Queens.

COMMUNITY BOARD #1Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated February 28, 2013, acting on Department of Buildings Application No. 420812632, reads in pertinent part:

Daycare is classified under UG 3 by Department’s Memo July 6, 1976 [and therefore] is not permitted in M1-3 district as per ZR 42-00; and

WHEREAS, this is an application under ZR §§ 73-19 and 73-03 to permit, on a site in an M1-3 zoning district, the conversion of the first story of an existing one-story and basement commercial building to a Use Group 3 daycare, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on July 9, 2013, after due notice by publication in the *City Record*, with continued hearings on September 10, 2013 and February 25, 2014, and then to decision on April 1, 2014; and

WHEREAS, the site and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Queens, recommends approval of this application; and

WHEREAS, the subject site is located on the northwest corner of the intersection of 40th Avenue and 12th Street, within an M1-3 zoning district; and

WHEREAS, the site is a single zoning lot comprising Tax Lots 548, 618, 619, and 621, has a lot area of approximately 16,139 sq. ft., 200 feet of frontage along 12th Street, and 74.34 feet of frontage along 40th Avenue; and

WHEREAS, the applicant represents that Lot 548 is currently occupied by a one-story and basement commercial

building with 14,947 sq. ft. of floor area (0.93 FAR); Lots 618, 619, and 621 are currently a parking lot; and

WHEREAS, the applicant proposes to renovate the first story of the building to allow a Use Group 3 daycare (“the School”) with approximately 7,473 sq. ft. of floor area (0.46 FAR), and utilize Lots 618, 619, and 621 for accessory off-street parking and a play area; the applicant notes that the basement will not be altered under the subject application and will remain Use Group 6 (offices); and

WHEREAS, the applicant states that the renovated building will serve an estimated 117 children ranging in age from two to five years and approximately 25 employees, and provide related sanitary facilities and administrative offices; and

WHEREAS, the applicant states that the School will be in compliance with the New York Health Code on Child Care Services and will operate from 7:00 a.m. to 7:00 p.m.; and

WHEREAS, the applicant states that the School requires a minimum of 7,500 sq. ft. in order to carry out its program (child care for 117 students) in accordance with the New York Health Code; and

WHEREAS, in addition, the applicant represents that its students are drawn from primarily within a half-mile radius of the site; and

WHEREAS, finally, the applicant notes that the owner will be directly involved in the management of the School, in order to minimize costs and to ensure ongoing compliance with the rules and regulations governing the operation of the School; and

WHEREAS, the applicant represents that the proposal meets the requirements of the special permit under ZR § 73-19 to permit a school in an M1-3 zoning district; and

WHEREAS, ZR § 73-19 (a) requires an applicant to demonstrate the inability to obtain a site for the development of a school within the neighborhood to be served and with a size sufficient to meet the programmatic needs of the school within a district where the school is permitted as-of-right; and

WHEREAS, the applicant represents that it conducted a search of nearby residence and commercial districts with the following site criteria: (1) a minimum of 7,500 sq. ft. of program space in order to accommodate the School’s 117 students in accordance with the New York Health Code; (2) parking and recreation space; (3) minimal construction costs; (4) proximity to the neighborhood surrounding the site; and (5) proximity to public transportation; and

WHEREAS, the applicant states that during its search, it evaluated the feasibility of five buildings within the area and on sites where Use Group 3 is permitted as-of-right: 34-19 Tenth Street; 34-51 Vernon Boulevard; 30-01 Northern Boulevard; 65-35 Queens Boulevard; and 45-02 Skillman Avenue; and

WHEREAS, the applicant represents that each building was unsuitable for the School, in that: 34-19

MINUTES

Tenth Avenue was not in close proximity to public transportation and its space was not suitable for children and would have required extensive renovations, including the installation of an elevator; 34-51 Vernon Boulevard had only 6,500 sq. ft. of usable space and no on-site parking area; 30-01 Northern Boulevard had only 5,000 sq. ft. of usable space, would have required extensive renovations, had neither on-site recreation space, nor a nearby park; 65-35 Queens Boulevard had less than the required amount of usable space and is already occupied by a child care center on the second story; and 45-02 Skillman Avenue had only 3,000 sq. ft. of usable space; and

WHEREAS, the applicant maintains that the site search establishes that there is no practical possibility of obtaining a site of adequate size in a nearby zoning district where a school would be permitted as-of-right; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19 (a) are met; and

WHEREAS, ZR § 73-19 (b) requires an applicant to demonstrate that the proposed school is located no more than 400 feet from the boundary of a district in which such a school is permitted as-of-right; and

WHEREAS, the applicant submitted a radius diagram which reflects that the subject site is located approximately 200 feet from an R6 zoning district, where the proposed use would be permitted as-of-right; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19 (b) are met; and

WHEREAS, ZR § 73-19 (c) requires an applicant to demonstrate how it will achieve adequate separation from noise, traffic and other adverse effects of the surrounding non-residential district; and

WHEREAS, the applicant states that an ambient noise survey was conducted at the site, which indicated that the predominant noise source in the area is vehicular traffic, which according to the survey conducted during peak, weekday travel periods, averaged 27 dB(A); and

WHEREAS, the applicant notes that 27 dB(A) is well below the 45 dB(A) that is considered acceptable according to the CEQR Technical Manual, and that such low noise level within the building is owing to the fact that it was built with sound-attenuating exterior wall and window construction; and

WHEREAS, the Board finds that the conditions surrounding the site and the building's use will adequately separate the proposed school from noise, traffic and other adverse effects of any of the uses within the surrounding M1-3 zoning district; thus, the Board finds that the requirements of ZR § 73-19 (c) are met; and

WHEREAS, ZR § 73-19 (d) requires an applicant to demonstrate how the movement of traffic through the street on which the school will be located can be controlled so as to protect children traveling to and from the school; and

WHEREAS, the applicant represents that the majority of students will be dropped off by parents commuting on the subway (F train), which is located less than two blocks from

the site; and

WHEREAS, as for vehicular traffic, the applicant states that, based on its assessment of existing traffic conditions in the vicinity, the School can operate safely without significant impacts; and

WHEREAS, in particular, the applicant states that students will enter and exit the building via an entrance on 12th Street, which the applicant notes is not a primary thoroughfare based on its study of traffic patterns; in addition, a four-way stop sign and pedestrian lanes have been installed at the intersection of 12th Street and 40th Avenue; and

WHEREAS, the Board referred the application to the School Safety Engineering Office of the Department of Transportation ("DOT"); and

WHEREAS, the applicant represents that, to the extent deemed appropriate by DOT, it will install additional signage, "School Crossing" pavement markings, and crossing guards in the vicinity; and

WHEREAS, by letter dated April 8, 2013, DOT states that it has no objection to the proposed construction and will, upon approval of the application, prepare a safe route to school map with signs and marking; and

WHEREAS, the Board finds that the above-mentioned measures will control traffic so as to protect children going to and from the proposed school; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19 (d) are met; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-19; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board conducted an environmental review of the proposed action and documented relevant information about the project in the Final Environmental Assessment Statement ("EAS") CEQR No. No. 13BSA115Q, dated May 23, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services;

MINUTES

Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the New York City Department of Environmental Protection's ("DEP") Bureau of Environmental Planning and Analysis reviewed the project for potential hazardous materials, air quality and noise impacts; and

WHEREAS, DEP reviewed and accepted the October 2013 Remedial Action Plan and Construction Health and Safety Plan; and

WHEREAS, DEP requested that a P.E.-certified Remedial Closure Report be submitted to DEP for review and approval upon completion of the proposed project; and

WHEREAS, DEP reviewed the applicant's March 2014 Air Quality Impact Assessment and determined that no significant air quality impacts to the proposed project are anticipated; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-19 and 73-03 and grants a special permit, to allow the conversion of the first story of an existing one-story and basement commercial building to a Use Group 3 daycare, on a site within an M1-3 zoning district; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received September 20, 2013" – (2) sheets and "May 24, 2013"-(4) sheets; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT DOB will not issue a Certificate of Occupancy until the applicant has provided it with DEP's approval of the Remedial Closure Report;

THAT any change in the operator of the school requires review and approval by the Board;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70;

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 1, 2014.

The resolution has been amended. Corrected in Bulletin Nos. 16-18, Vol. 99, dated May 8, 2014.

The resolution adopted on March 25, 2014, under Calendar No. 157-13-BZ and printed in Volume 99, Bulletin Nos. 12-13, is hereby corrected to read as follows:

157-13-BZ

APPLICANT – Sheldon Lobel, P.C., for 1368 23rd Street, LLC, owner.

SUBJECT – Application May 17, 2013 – Special Permit (§73-622) for the enlargement of an existing single family home, contrary to floor area and open space (§23-141(a)); side yard (§23-461) and less than the required rear yard (§23-47). R2 zoning district.

PREMISES AFFECTED – 1368 & 1374 East 23rd Street, west side of East 23rd Street, 180' north of Avenue N, Block 7658, Lot 78 & 80, Borough of Brooklyn.

COMMUNITY BOARD #14BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner of the New York City Department of Buildings (“DOB”), dated April 18, 2013, acting on DOB Application No. 320729208, reads in pertinent part:

1. Proposed plans are contrary to ZR 23-141 in that the proposed floor area ratio exceeds the maximum permitted;
2. Proposed plans are contrary to ZR 23-141 in that the proposed open space ratio is less than the minimum required;
3. Proposed plans are contrary to ZR 23-461 in that the proposed enlargement increases the degree of non-compliance with respect to minimum required side yards;
4. Proposed plans are contrary to ZR 23-47 in that the proposed rear yard is less than the minimum required; and

WHEREAS, this is an application under ZR § 73-622, to permit, within an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio (“FAR”), open space ratio, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, and 23-47; and

WHEREAS, a public hearing was held on this application on January 28, 2014, after due notice by publication in *The City Record*, with a continued hearing on March 4, 2014, and then to decision on March 25, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of the application; and

WHEREAS, the subject site is located on the west side of East 23rd Street, between Avenue M and Avenue N, within an R2 zoning district; and

WHEREAS, the site comprises Lots 78 and 80, which have a total lot area of 8,000 sq. ft.; Lot 78 is occupied by a single-family home with 2,044 sq. ft. of floor area (0.51 FAR); Lot 80 is also occupied by a single-family home; however, that home will be demolished to allow for the enlargement of the home on Lot 78; and

WHEREAS, the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant now seeks an increase in the floor area from 2,044 sq. ft. (0.51 FAR, as calculated using only the lot area of Lot 78) to 8,179 sq. ft. (1.02 FAR, as calculated using the combined lot area of Lots 78 and 80); the maximum permitted floor area is 4,000 sq. ft. (0.5 FAR); and

WHEREAS, the applicant seeks an open space ratio for the enlarged home of 52; the minimum required open space ratio is 150; and

WHEREAS, the applicant seeks to maintain and extend the building’s existing non-complying side yard width of 3’-8” and reduce its complying side yard width from 13’-10” to 13’-4”; (the requirement is two side yards with a minimum total width of 13’-0” and a minimum width of 5’-0” each); and

WHEREAS, the applicant also seeks to decrease its complying rear yard depth from 30’-8½” to 20’-0”; a rear yard with a minimum depth of 30’-0” is required; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood and will not impair the future use or development of the surrounding area; and

WHEREAS, in particular, the applicant represents that the proposed FAR is consistent with the bulk in the surrounding area and states that, based on its analysis of the lots within 400 feet of the site and with a minimum lot area of 8,000 sq. ft., there are 11 homes with an FAR in excess of 1.02; and

WHEREAS, at hearing, the Board directed the applicant to: (1) provide a streetscape of the site and the nearby homes; (2) provide revised plans showing the extent of the foundation removal; and (3) reduce the proposed building height to be more consistent with the surrounding context; and

WHEREAS, in response, the applicant submitted: (1) a streetscape showing that the building is consistent with the surrounding buildings; and (2) revised plans showing the extent of the foundation removal and reflecting a reduction in building height from 41’-9” to 36’-0”; and

MINUTES

WHEREAS, based on its review of the streetscape and the revised drawings, the Board finds that the proposed bulk is compatible with the character of the neighborhood; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622, to permit, within an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for FAR, open space ratio, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, and 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked “Received February 19, 2014” – (13) sheets; and *on further condition:*

THAT the following will be the bulk parameters of the building: a maximum floor area of 8,179 sq. ft. (1.02 FAR), a building height of 36'-0"; a minimum open space ratio of 52, side yards with minimum widths of 13'-4" and 3'-8", and a minimum rear yard depth of 20'-0", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 25, 2014.

The resolution has been amended. Corrected in Bulletin Nos. 16-18, Vo. 99, dated May 8, 2014.

APPLICANT – Rothkrug Rothkrug & Spector LLP, for 3560 WPR LLC & 3572 WPR LLC, owner; Blink Williamsbridge, Inc., lessee.

SUBJECT – Application September 5, 2013 – Special Permit (§73-36) to permit the operation of a physical culture (*Blink Fitness*) establishment within an existing commercial building. C2-4 (R7-A) zoning district.

PREMISES AFFECTED – 3560/84 White Plains Road, East side of White Plains Road at southeast corner of intersection of White Plains Road 213th Street. Block 4657, Lot(s) 94, 96. Borough of Queens.

COMMUNITY BOARD #12BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Bronx Borough Commissioner, dated August 22, 2013, acting on Department of Buildings (“DOB”) Application No. 220324192, reads in pertinent part:

Proposed physical culture establishment in a C2-4 (R7A) district is contrary to ZR 32-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in a C2-4 (R7A) zoning district, the operation of a physical culture establishment (“PCE”) in portions of the first and second story of a two-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on December 17, 2013, after due notice by publication in *The City Record*, and then to decision on January 28, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, Community Board 12, Bronx, recommends approval of this application; and

WHEREAS, the subject site comprises adjacent tax lots (Lots 94 and 96) and spans the east side of White Plains Road between East 212th Street and East 213th

Street, within a C2-4 (R7A) zoning district; and

WHEREAS, the site has 71.34 feet of frontage along East 212th Street, 200.67 sq. ft. along White Plains Road, 55.19 feet of frontage along East 213th Street, and 12,350 sq. ft. of lot area; and

WHEREAS, the site is occupied by two two-story buildings, which are proposed to be combined into a single building; and

WHEREAS, the applicant states that the PCE is proposed to occupy a portion of the first story (3,962 sq. ft. of floor area) combined building and the entirety of the second story (11,942 sq. ft.), for a total PCE floor area of 15,904 sq. ft.; and

WHEREAS, the PCE will be operated as Blink Fitness; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE will be Monday through Thursday, from 5:00 a.m. to 11:00 p.m., Friday, from 5:00 a.m. to 10:00 p.m., and Saturday and Sunday, from 7:00 a.m. to 7:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, at hearing, the Board requested clarification regarding whether windows at the rear of the building would be maintained and whether the existing parking at the site was required; and

WHEREAS, in response, the applicant indicated that the windows would be sealed prior to the occupancy of the PCE and that the parking was provided prior to 1961 and that, as such, it was not required; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Unlisted

MINUTES

action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No. 14BSA033X, dated September 3, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and.

Therefore it is Resolved, that the Board of Standards and Appeals issued a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located in a C2-4 (R7A) zoning district, the operation of a PCE in portions of the first and second story of a two-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received October 24, 2013” – Five (5) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on January 28, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by

the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, January 28, 2014.

The resolution has been amended to correct the DOB Application No. which read: “103703789”. Now reads: “220324192”. Corrected in Bulletin Nos. 16-18, Vol. 99, dated May 8, 2014.

SPECIAL ORDER CALENDAR

823-19-BZ

APPLICANT – Eric Palatnik, P.C., for Israel Minzer, owner.

SUBJECT – Application April 20, 2012 – Amendment (§§ 11-412 and 11-413) of a previously approved variance which permitted a one story warehouse (UG 16). The application seeks to construct an as-of-right two-story community facility (UG 4) atop the warehouse and reduce the warehouse space to accommodate 13 required accessory parking spaces for the proposed community facility use. R5 zoning district.

PREMISES AFFECTED – 1901 10th Avenue, southeast corner of East 19th Street and 10th Avenue, Block 890, Lot 1, Borough of Brooklyn.

COMMUNITY BOARD #7BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION:

WHEREAS, this is an application for a reopening, a change in use from a warehouse (Use Group 16) to accessory parking for a non-profit institution without sleeping accommodations (Use Group 4), and an amendment to permit a two-story enlargement of the building to accommodate a conforming use; and

WHEREAS, a public hearing was held on this application on February 4, 2014, after due notice by publication in the *City Record*, with continued hearings on March 25, 2014 and April 8, 2014, and then to decision on May 6, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commission Hinkson, and Commissioner Montanez; and

WHEREAS, Community Board 7, Brooklyn, recommends approval of the application; and

WHEREAS, the subject site is located at the southeast corner of the intersection of 19th Street and Tenth Avenue,

within an R5 zoning district; and

WHEREAS, the site has 100.17 feet of frontage along Tenth Avenue, 150 feet of frontage along 19th Street, and 15,025.5 sq. ft. of lot area; and

WHEREAS, the site is occupied by a one-story warehouse building (Use Group 16) with 15,025.5 sq. ft. of floor area (1.0 FAR), 100 percent lot coverage, and a wall and building height of 17'-5"; and

WHEREAS, the site has been subject to the Board's jurisdiction since April 6, 1920, when, under the subject calendar number, the Board permitted the construction of a garage for more than five motor vehicles located partially within a residence district and partially within a business district; and

WHEREAS, on October 17, 1933, the Board granted an amendment to permit the handling and sorting of parcels within the building and certain minor modifications to the layout of the building; and

WHEREAS, on November 18, 1958, the Board authorized a change in use from parking and parcel delivery station to a factory; in connection with the change of use, the Board also permitted vehicle entrance to the building within 25 feet of an intersection and within 75 feet of a residence district; the applicant notes that this change of use did not occur; and

WHEREAS, most recently, on November 27, 1962, the Board authorized a change in use from parking and parcel delivery station to a warehouse with incidental manufacturing and accessory office; and

WHEREAS, the applicant now proposes redevelopment of the warehouse building as follows: (1) a change in use of a portion of the first story of the building from warehouse (Use Group 16) to 13 accessory parking spaces for a non-profit institution without sleeping accommodations (Use Group 4); and (2) construction of a two-story enlargement to be occupied by the non-profit institution; and

WHEREAS, the applicant states that the enlargement will comply in all respects with the subject R5 zoning district regulations and will increase the floor area of the building from 15,025.5 sq. ft. (1.0 FAR) to 23,614.42 sq. ft. (1.57 FAR); the applicant notes that the floor area devoted to the non-conforming use within the building will be reduced from 15,025.5 sq. ft. to 8,261.8 sq. ft.; thus, under the proposal, the applicant seeks to add 15,352.6 sq. ft. of community facility floor area to the site, which is well below the maximum permitted community facility floor area permitted at the site (30,051 sq. ft. (2.0 FAR)); and

WHEREAS, pursuant to ZR § 11-412, the Board may permit enlargement of a building subject to a use variance issued prior to December 15, 1961, provided that such enlargement is limited to the zoning lot that was granted such variance; in addition, pursuant to ZR § 11-413, the

MINUTES

Board may permit a change in use from a non-conforming use to a conforming use; and

WHEREAS, the applicant states, as noted above, that the proposal both reduces the amount of floor area devoted to a non-conforming use and complies in all respects with the applicable bulk regulations; and

WHEREAS, at hearing, the Board questioned the proposed configuration of the parking spaces within the building and the curb cuts at the site; and

WHEREAS, in response, the applicant submitted amended plans noting that the parking layout and curb cuts would be subject to Department of Buildings approval; and

WHEREAS, based on the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 11-412 and 11-413.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated April 6, 1920, to permit the noted change in use and enlargement; *on condition* that any and all work shall substantially conform to drawings as they apply to the objection above noted, filed with this application marked 'Received April 3, 2014'-(11) sheets; and *on further condition*:

THAT parking at the site will only be used in connection with the Use Group 4 uses at the site;

THAT a minimum of 13 parking spaces will be provided at the site;

THAT DOB will review and approve the proposed parking and curb cuts;

THAT all construction will be completed and a certificate of occupancy will be obtained by May 6, 2016;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 6, 2014.

156-02-BZ

APPLICANT – Herrick Feinstein Lullaby Jennifer Dickson, for 8021 15th Avenue Corp., owner; JP Morgan Chase & Co., lessee.

SUBJECT – Application August 1, 2013 – Extension of Term (§11-411) of an approved variance which permitted a car sales lot with accessory office and parking, which expired on August 5, 2013: Amendment (§11-413) to permit change in use to an accessory parking lot to an existing bank. R5B zoning district.

PREMISES AFFECTED – 964 65th Street, between Fort Hamilton Parkway and Tenth Avenue. Block 5750, Lot 49 (Tent 51). Borough of Brooklyn.

COMMUNITY BOARD #10BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and a change in use from an automobile sales lot and accessory office (Use Group 16) to an accessory parking lot (Use Group 6); and

WHEREAS, a public hearing was held on this application on April 1, 2014, after due notice by publication in the *City Record*, with a continued hearing on March 25, 2014, and then to decision on May 6, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commission Hinkson, and Commissioner Montanez; and

WHEREAS, Community Board 10, Brooklyn, recommends approval of the application; and

WHEREAS, the subject site is an L-shaped lot located on 65th Street between Fort Hamilton Parkway and Tenth Avenue, within an R5B zoning district; and

WHEREAS, the site, which is vacant, has 80 feet of frontage along 65th Street and 8,400 sq. ft. of lot area; previously, the site was occupied by an accessory office building for an automobile sales business; and

WHEREAS, the site has been subject to the Board's jurisdiction since May 26, 1959, when under BSA Cal. No. 696-58-BZ, the Board legalized an existing automobile sales lot and accessory office, for a term of five years; the applicant notes that, historically, the site was operated in conjunction with an automobile sales business located on the adjacent site (Lot 49); and

WHEREAS, the grant was extended over the years, most recently on August 5, 2003, when, under the subject calendar number, the Board extended the term of the grant for ten years, to expire on August 5, 2013; and

WHEREAS, the applicant now proposes to extend the term of the variance for ten years and to construct a parking lot with 14 spaces on the site to be used in conjunction with the Use Group 6 office (Chase Bank) that now occupies Lot 49; and

WHEREAS, pursuant to ZR § 11-411, the Board may extend the term of a use variance and, where appropriate, include such conditions and safeguards as are necessary to minimize the adverse effects of the such use on the character of the neighborhood; and

MINUTES

WHEREAS, pursuant to ZR § 11-413, the Board may permit a change in use from one non-conforming use to another non-conforming use which would be permitted under one of the provisions applicable to non-conforming uses as set forth in ZR §§ 52-31 to 52-36; and

WHEREAS, the applicant represents that its request for a change in use from a Use Group 16 use to a Use Group 6 use is consistent with ZR § 52-332(a) (*Change of Non-Conforming Use/Other buildings or structures in residence districts*), which allows for the conversion of non-conforming Use Group 16 to Use Group 6 use in residential zoning districts; and

WHEREAS, the applicant states that the proposed change in use will not impair the essential character or future use or development of the surrounding area, as a Use Group 16 use operated at the site (in conjunction with the adjacent site) for more than 50 years and an accessory parking lot for a bank represents a significantly less intense non-conforming use; and

WHEREAS, the applicant also states that while residences generally predominate in the surrounding area, directly across from the site along 65th Street is a large retail store (Rite Aid), and Fort Hamilton Parkway, which is approximately one hundred feet from the site, is a heavily-trafficked thoroughfare with many automobile-oriented businesses and a variety of commercial and community facility uses; and

WHEREAS, likewise, the applicant contends that the proposed parking lot reduces the impact of the bank (a conforming use) on neighboring residential uses by helping to ensure that bank customers do not circle the block or park along the residential streets; and

WHEREAS, finally, the applicant notes that extensive landscaping and fencing will screen the site from adjacent residential uses; and

WHEREAS, at hearing, the Board requested clarification regarding the following: (1) the material of the proposed fence; (2) the signage of the site; and (3) the use of the parking lot when the bank is closed; and

WHEREAS, in response, the applicant submitted an amended plan noting the material of the proposed fence (which is existing and will remain) and providing specific information regarding the proposed signage for the site, including signs stating that the parking lot is restricted to bank patrons; and

WHEREAS, as to the use of the parking lot when the bank is closed, the applicant states that four parking spaces will be available 24 hours (for ATM usage) and that a post-and-chain enclosure will restrict all other spaces; and

WHEREAS, based on the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 11-411 and 11-413.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated August 5, 2003, so that as amended the resolution reads: “to a change in use from an automobile sales lot and accessory office (Use Group 16) to an accessory parking lot (Use Group 6); *on condition* that any and all work shall substantially conform to drawings as they apply to the objection above noted, filed with this application marked ‘Received April 21, 2014’- (1) sheet; and *on further condition*:

THAT the site will be restricted to accessory parking for the bank use on Lot 49;

THAT in the event that the use on Lot 49 changes, continued use of the site for accessory parking will be subject to the approval of the Board;

THAT parking at the site will be limited to patrons of the bank during bank hours, except for four parking spaces, which may remain open 24 hours per day, in accordance with the BSA-approved plans;

THAT lighting will be directed away from the adjoining residential buildings;

THAT the signage and landscaping will be in accordance with the BSA-approved plans;

THAT the above conditions will be listed on the certificate of occupancy;

THAT all construction will be completed and a certificate of occupancy will be obtained by May 6, 2015;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 6, 2014.

192-96-BZ

APPLICANT – Sheldon Lobel, PC, for 1832 Realty LLC, owner.

SUBJECT – Application January 7, 2014 – Amendment of a previously approved variance (§72-21) which permitted a large retail store (UG 10) contrary to use regulations. The application seeks to eliminate the term, which expires on September 23, 2022. C1-2/R5 zoning district.

THE RESOLUTION –

WHEREAS, this is an application for an extension of time to complete construction and obtain a certificate of occupancy for a four-story residential building at the subject site; and

WHEREAS, a public hearing was held on this application on March 4, 2014, after due notice by publication in *The City Record*, with a continued hearing on April 1, 2014, and then to decision on May 6, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Montanez; and

WHEREAS, the subject site is located on the north side of 38th Avenue between the Brooklyn-Queens Expressway and 69th Street; and

WHEREAS, the site is a triangular-shaped parcel with 50 feet of frontage on 38th Avenue and a total lot area of 3,673.8 sq. ft.; and

WHEREAS, the applicant proposes to develop the site with one four-story residential building with eight dwelling units (the “Building”); and

WHEREAS, the applicant notes that it originally proposed two four-story buildings with four dwelling units in each building on separate tax lots (tentative lots 64 and 65); however, in 2011, the plans were revised to combine the buildings into a single building on a single tax lot (Lot 64) with the same envelope and the same number of dwelling units as originally proposed; and

WHEREAS, the site was formerly located within an R6 zoning district; and

WHEREAS, the applicant states that New Building Permit Nos. 420370217-01-NB and 420370208-01-NB were issued on July 26, 2011 (the “New Building Permits”), authorizing construction of the Building in accordance with

the R6 zoning district regulations; and

WHEREAS, on July 28, 2011 (the “Enactment Date”), the City Council voted to adopt the Sunnyside-Woodside Rezoning, which rezoned the site to R5D; and

WHEREAS, the New Building Permits lapsed by operation of law on the Enactment Date because the plans did not comply with the new R5D zoning district regulations and foundations were not complete; and

WHEREAS, on December 13, 2011, under the subject calendar numbers, the Board adopted a resolution recognizing that a vested right to continue construction under the New Building Permits had accrued under the common law doctrine of vested rights, and the Board reinstated the New Building Permits for a term of two years, to expire on December 13, 2013; and

WHEREAS, the applicant notes that, due to the redesign discussed above, only New Building Permit No. 420370217-01-NB will remain active and has been amended to reflect the combined four-story building; and

WHEREAS, by letter dated May 5, 2014, the Department of Buildings (“DOB”) states that New Building Permit No. 420370217 was lawfully issued; and

WHEREAS, the applicant represents that, as of December 13, 2013, construction has not been completed and a certificate of occupancy has not been issued for the Building; and

WHEREAS, thus, the applicant now seeks an additional two-year term in which to complete construction and obtain a certificate of occupancy; and

WHEREAS, the applicant notes that, subsequent to the 2011 grant and prior to the December 13, 2013 expiration of the permits, the following work was performed: completion of the foundation; installation of concrete block walls up to the second story; and installation of some steel beams and girders to the second story, and

WHEREAS, the applicant states that, including \$93,000 in soft costs, it has expended a total of \$424,000 since the Board’s 2011 grant; and

WHEREAS, at hearing, the Board directed the applicant to clarify the status of open DOB and Environmental Control Board violations at the site; and

WHEREAS, in response, the applicant represented that the violations related to a Stop Work Order, which has since been rescinded; and

WHEREAS, the Board has reviewed the evidence in the record and determined that the requested extension of time is warranted; and

WHEREAS, accordingly, the Board hereby grants the owner of the site a two-year extension of time to complete construction and obtain a certificate of occupancy.

Therefore it is Resolved, that this application to renew New Building Permit No. 420370217-01-NB, as well as all related permits for various work types, either already issued

MINUTES

or necessary to complete construction, is granted, and the Board hereby extends the time to complete construction and obtain a certificate of occupancy for two years from the date of this resolution, to expire on May 6, 2016.

CEQR #13-BSA-037K

APPLICANT – Eric Palatnik, P.C., for Tabernacle of Praise, Inc., owner.

SUBJECT – Application October 25, 2013 – Variance (§72-21) to permit the development of a sub-cellar, cellar and three story church, with accessory educational and social facilities (*Tabernacle of Praise*), contrary to rear yard setback (§33-292), sky exposure plane and wall height (§34-432), and parking (§36-21) regulations. C8-1 zoning district.

PREMISES AFFECTED – 1106-1108 Utica Avenue, between Beverly Road and Clarendon Road, Block 4760, Lot 15, Borough of Brooklyn.

COMMUNITY BOARD #17BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated September 28, 2011, acting on Department of Buildings Application No. 220137233, reads, in pertinent part:

1. District boundary in rear lot line R Zone: 30' shall be provided within C Zone, contrary to ZR Section 33-292;
2. Height and setback and sky exposure plane (slope) is contrary to ZR Section 33-432;
3. Parking is contrary to ZR Section 36-21; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site within a C8-1 zoning district, a three-story community facility building to be occupied as a house of worship (Use Group 4), which does not comply with distance from a district boundary, height and setback, sky-exposure plane, and parking regulations, and is contrary to ZR §§ 33-292, 33-432, and 36-21; and

WHEREAS, the application is brought on behalf of Tabernacle of Praise, Inc., the owner of the site and the occupant of the proposed house of worship (the “Church”); and

WHEREAS, a public hearing was held on this application on September 10, 2013, after due notice by publication in the *City Record*, with a continued hearing on October 29, 2013, and then to decision on May 6, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Montanez, and Commissioner Ottley-

Brown; and

WHEREAS, Community Board 17, Brooklyn, recommends approval of the application; and

WHEREAS, Senator Kevin S. Parker, Assemblyman N. Nick Perry, and Councilman Jumaane Williams testified in support of the application; and

WHEREAS, the subject site is a rectangular interior lot located on the west side of Utica Avenue between Beverly Road and Clarendon Road, within a C8-1 zoning district; and

WHEREAS, the site, which is vacant, has 160 feet of frontage along Utica Avenue and 16,000 sq. ft. of lot area; and

WHEREAS, the applicant notes that, on May 2, 2006, the Board, under BSA Cal. No. 289-05-BZ, granted a special permit to develop the site with a house of worship pursuant to ZR §§ 73-50 and 73-431; and

WHEREAS, the applicant represents that construction pursuant to the special permit did not proceed due to financial constraints; however, the Church’s current facility, located at 1274 Utica Avenue cannot accommodate its growing congregation and diverse programming, which includes substantial religious education and community outreach; and

WHEREAS, the applicant now proposes to construct a three-story house of worship (Use Group 4) with building height of 59’-11” and 36,535 sq. ft. of floor area (2.28 FAR); and

WHEREAS, the applicant states that the variance is requested due to the following non-compliances: (1) no setback from the district boundary at the rear lot line (an open space with a minimum depth of 30’-0” is required beginning at curb level because the rear lot line coincides with a boundary between the subject C8-1 district and an R4 district, per ZR § 33-292); (2) the maximum front wall height proposed is 55’-8” (a maximum wall height of 35’-0” is permitted, with a 1-to-1 sky-exposure plane, per ZR § 33-432); and (3) 34 accessory off-street parking spaces (a minimum of 40 accessory parking spaces are required, per ZR § 36-21); and

WHEREAS, the proposal would allow for a main sanctuary, a chapel, a community center, and certain accessory spaces, including an underground parking facility, a banquet hall, a Christian book store and retail shop, a dance studio, offices, a safe room, and a terrace garden; and

WHEREAS, specifically, the applicant states that the house of worship would provide the following: at the sub-cellar level, 34 off-street parking spaces, a storage room, a garbage collection room, and a restroom; at the cellar level, a 1,456 sq.-ft. dance studio, a 2,052 sq.-ft. multi-purpose room, two classrooms, a security office, separate changing rooms for men and women, storage space, and a media room; at the

MINUTES

first story, a main lobby, two auxiliary lobbies, a 1,188 sq.-ft. chapel, a 4,290 sq.-ft. banquet hall with kitchen, restrooms, and coat check areas, a 792 sq.-ft. bookstore, and a 594 sq.-ft. retail shop; at the second story and mezzanine level, the 6,300 sq.-ft. main sanctuary and 2,625 sq.-ft. mezzanine seating area, which can accommodate a total of 854 worshipers, the safe room, offices, a waiting room, a nursery, and restrooms; and, at the third story, the 1,580 sq.-ft. terrace garden, and three offices; and

WHEREAS, the applicant states that the following are the primary programmatic needs of the Church, which necessitate the requested variances: (1) to accommodate its membership, which currently consists of approximately 1,500 members but is expected to increase to approximately 1,700 by the time the proposed building is completed; (2) to provide for regular adult religious education classes and community and youth group activity space; (3) to hold special events such as weddings, funerals, and baptisms; (4) to provide the necessary sanctuary and worship space for the members; and (5) to provide space for a Christian bookstore to further the Church's publishing work; and

WHEREAS, the applicant notes that the main sanctuary will be used for two Sunday services and for holidays, and that when the main sanctuary is filled to capacity, the chapel and the banquet space will be opened for simultaneous worship via telecast; and

WHEREAS, the applicant states that the accessory spaces are necessary as follows: (1) the banquet hall will allow members of the Church to celebrate life events in the same space in which they regularly worship; (2) the bookstore will enable the Church to provide education and dissemination of its messages to the wider community; (3) the dance studio will provide space for Church members to practice song and dance, which the applicant states are essential components of members' religious activity; (4) the offices are necessary to provide space for Church administrators and staff; (5) the community center will provide meeting and program space for community youth groups and the elderly; (6) the safe room will house the Church's vault and provide a private meeting space for Church administrators to conduct sensitive business; and (7) the terrace garden provides an intimate outdoor space for quiet reflection and worship; and

WHEREAS, the applicant states that there is a direct nexus between the requested waivers and the programmatic needs of the Church; and

WHEREAS, in particular, the applicant asserts that a complying building could not provide adequate worship and program space for the Church, in that if the open space at the rear is provided and height, setback, and sky exposure plane requirements are met, only 692 worshipers would be able to gather in the main sanctuary space, which is 252 fewer than the 854 that can be accommodated under the proposal; since

two prayer services are held on a typical Sunday, the loss of 252 seats amounts to a loss of worship space for as many as 504 worshipers, which represents 34 percent of the 1,500-member congregation; and

WHEREAS, accordingly, the applicant states that the Church would have to hold a third worship service on Sundays in order to accommodate its current and projected membership, which would be costly and interfere with other Church programs and activities; and

WHEREAS, the applicant also studied the feasibility of a lesser variance scenario, in which a complying perimeter wall with a height of 30'-0" is provided and a 10'-0" setback is provided at the third story in the rear; and

WHEREAS, the applicant asserts that the lesser scenario also fails to provide sufficient space to accommodate the Church's programmatic needs, in that it results in a loss of 198 seats in the main sanctuary and 22 seats in the chapel; and

WHEREAS, to further support the relationship between the requested waivers and the Church's programmatic needs, the applicant submitted an analysis of how each program space would be affected by constructing the building without the requested waivers; based on this analysis, in addition to the reductions in the main sanctuary and the chapel discussed above, the community center, classrooms, the dance studio, the banquet hall, several offices, the safe room, the terrace garden, storage space, restrooms, and the nursery would have to be reduced in size; and

WHEREAS, accordingly, the applicant asserts that only the proposal will provide the necessary space for the Church to carry out its mission; and

WHEREAS, at hearing, the Board directed the applicant to explore a third design, in which the terrace garden was shifted to the rear of the building; and

WHEREAS, in response, the applicant demonstrated that such a configuration failed to properly address the programmatic need to be satisfied by the terrace, in that facing the rear of the site resulted in the terrace being within view of the nearby residences, which served to diminish its privacy and utility as an intimate space, and, as discussed below, increased the proposal's impact on surrounding residential uses; and

WHEREAS, turning to parking, the applicant states that providing complying parking (40 spaces instead of the proposed 34) in the cellar would require the storage and garbage collection rooms to be moved to the cellar, which would require displacement, elimination or significant reduction in the size of the dance studios, multi-purpose room, classrooms, security office, changing rooms, and media room; and

WHEREAS, the applicant represents that 50 percent of the Church's members live within walking distance (1/4

MINUTES

mile) of the site, and that 85 percent live within one mile, and thus are unlikely to rely on an automobile to visit the site; and

WHEREAS in addition, the applicant states that there is adequate mass transit in the surrounding area, including four city busses, two subway lines, and three local car services; and

WHEREAS, finally, the applicant states that the Church leases a nearby parking lot at 1124 Utica Avenue (Block 4760, Lot 24) to provide an additional 40 parking spaces during Sunday and holiday services; and

WHEREAS, the Board acknowledges that the Church, as a religious institution, is entitled to significant deference under the law of the State of New York as to zoning and as to its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in Westchester Reform Temple v. Brown, 22 N.Y.2d 488 (1968), a religious institution's application is to be permitted unless it can be shown to have an adverse effect upon the health, safety, or welfare of the community, and general concerns about traffic and disruption of the residential character of a neighborhood are insufficient grounds for the denial of an application; and

WHEREAS, based upon the above, the Board finds that the programmatic needs of the Church create unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, the applicant need not address ZR § 72-21(b) since the Church is a not-for-profit organization and the proposed development will be in furtherance of its not-for-profit mission; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, impair the appropriate use or development of adjacent property, or be detrimental to the public welfare, consistent with ZR § 72-21(c); and

WHEREAS, the applicant notes that the proposed use is permitted as-of-right in the subject C8-1 zoning district, as is the proposed FAR; and

WHEREAS, the applicant represents that the surrounding neighborhood is characterized by low- to medium-density residential, commercial and community facility uses; and

WHEREAS, in addition, the applicant states that where community facilities are found within the subject C8-1 district, they are typically three stories or more in height; in support of this statement, the applicant provided a height study, which reflects that of the 22 sites within 1/3 mile and with comparable lot area to the site, seven sites contain community facility buildings that are three stories or more in height, including: (1) 407 East 53rd Street (three-story former synagogue); (2) 5566 Kings Highway (four-story

elementary school); (3) 5402 Tilden Avenue (four-story elementary school); (4) 1244 Utica Avenue (three-story house of worship); (5) 810 East 49th Street (three-story house of worship); (6) 4801 Avenue D (three-story elementary school); and (7) 4402 Avenue D (three-story house of worship); and

WHEREAS, as such, the applicant asserts that the proposal is consistent with the bulk of community facilities on similar-sized sites in the surrounding area; and

WHEREAS, as to adjacent uses, the applicant states that one-story commercial buildings are immediately north, east, and south of the site, and that immediately west of the site are a series of two-story residential buildings, a vacant lot, and a large driveway; and

WHEREAS, the applicant notes that the proposed FAR is less than the maximum permitted as-of-right for a community facility in the C8-1 district; and

WHEREAS, in addition, the applicant asserts that with its dramatic swooping roof, modern streetwall, and "Living Green Wall" at the rear, the building has been designed to both beautify and enhance the commercial streetscape of Utica Avenue and maintain the residential character of the R4 district directly west of the site; and

WHEREAS, finally, the applicant represents that the building will be used predominantly by members of the surrounding community, including students at the nearby elementary schools, and that the application has received letters of support from many surrounding neighbors, including the adjacent business owners and three owners of the residential lots immediately west of the site; and

WHEREAS, at hearing, the Board directed the applicant to: (1) explore the feasibility of providing the terrace garden at the rear instead of at the front of the building on the third story; and (2) provide a schedule of events; and

WHEREAS, in response, the applicant provided the requested plan, but stated that a rear terrace garden would increase the building's impact on its residential neighbors, while diminishing the utility of the space for its users; as to the schedule of events, it was provided along with an analysis of how parking would be affected during large events; and

WHEREAS, accordingly, the Board finds that this action will neither alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that, per ZR § 72-21(d), the hardship was not self-created and that no development that would meet the programmatic needs of the Church could occur on the existing lot; and

WHEREAS, accordingly, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

MINUTES

WHEREAS, the applicant states and the Board agrees that the requested waivers are the minimum necessary to afford relief to satisfy the Church's programmatic needs, in accordance with ZR § 72-21(e); and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as Unlisted pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement ("EAS") CEQR No. 13BSA037K, dated April 21, 2014; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the New York City Department of Environmental Protection's ("DEP") Bureau of Environmental Planning and Analysis reviewed the project for potential hazardous materials impacts; and

WHEREAS, DEP reviewed and accepted the March 2014 Remedial Action Plan and Construction Health and Safety Plan; and

WHEREAS, DEP requested that a P.E.-certified Remedial Closure Report be submitted to DEP for review and approval upon completion of the proposed project; and

WHEREAS, the applicant conducted an air quality impact assessment and proposed an alternate means of ventilation to maintain a closed window condition, ensuring that acceptable interior air quality levels will be maintained in the building and that no significant air quality impacts to the proposed project are anticipated to occur; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under

ZR § 72-21 and grants a variance, to permit, on a site within a C8-1 zoning district, a three-story community facility building to be occupied as a house of worship (Use Group 4), which does not comply with distance from a district boundary, height and setback, sky-exposure plane, and parking regulations, and is contrary to ZR §§ 33-292, 33-432, and 36-21; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received April 25, 2014" –(17) sheets; and *on further condition*:

THAT the building parameters will be: three stories; a maximum building height of 59'-11"; a maximum wall height of 55'-8"; a maximum floor area of 36,535 sq. ft. (2.28 FAR); and a minimum of 34 parking spaces, as illustrated on the BSA-approved plans;

THAT the use will be limited to a house of worship (Use Group 4A), and accessory uses;

THAT DOB will not issue a Certificate of Occupancy until the applicant has provided it with DEP's approval of the Remedial Closure Report; and

THAT acceptable interior air quality levels will be maintained in accordance with the alternates means of ventilation design measures noted on the BSA-approved plans;

THAT no commercial catering or retail will occur on the site;

THAT any change in the control or ownership of the building will require the prior approval of the Board;

THAT the above conditions will be listed on the Certificate of Occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans are considered approved only for the portions related to the specific relief granted;

THAT construction will proceed in accordance with ZR § 72-23; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 6, 2014.

APPLICANT – Law Office of Marvin B. Mitzner, LLC, for Robert Malta, owner.

SUBJECT – Application September 13, 2013 – Special Permit (§73-42) to permit the expansion of UG6 restaurant (*Arte Café*) across zoning district boundary lines. R8B zoning district.

PREMISES AFFECTED – 110 West 73rd Street, south side of 73rd Street between Columbus Avenue and Amsterdam Avenue, Block 1144, Lot 37, Borough of Manhattan.

COMMUNITY BOARD #7M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings, dated August 22, 2013, acting on Department of Buildings Application No. 121689707, reads in pertinent part:

ZR 22-10, 22-20; Proposed Commercial Use/Dining area (Use Group 6) at Basement/Cellar in Zoning District R8B is not permitted as per ZR 22-10 “Uses Permitted As-of-Right;” and

WHEREAS, this is an application under ZR §§ 73-42 and 73-03, to permit the extension of an existing Use Group 6 use within a C1-8A zoning district into the adjacent R8B zoning district within the Upper West Side-Central Park West Historic District, contrary to ZR § 22-10; and

WHEREAS, a public hearing was held on this application on February 2, 2014 after due notice by publication in *The City Record*, with continued hearings on March 11, 2014 and April 8, 2014, and then to decision on May 6, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 7, Manhattan, recommends approval of this application; and

WHEREAS, certain community members provided testimony in opposition to the proposal, citing concerns about traffic and late night refuse collection; and

WHEREAS, the subject site is located on the south side of West 73rd Street, between Columbus Avenue and Amsterdam Avenue; 110 West 73rd Street is located within

an R8B zoning district within the Upper West Side-Central Park West Historic District, with approximately 19 feet of frontage on West 73rd Street, and a total lot area of 1,941 sq. ft.; and

WHEREAS, 110 West 73rd Street is currently occupied by a four-story and basement townhouse building occupied by residential use; the building has 5,960 sq. ft. of floor area (3.12 FAR); and

WHEREAS, 110 West 73rd Street is adjacent to 106-108 West 73rd Street (Block 1144, Lot 35), which is fully within a C1-8A zoning district and occupied by a Use Group 6 restaurant, *Arte Café*; and

WHEREAS, the applicant proposes to extend the restaurant use across the zoning district boundary line between the R8B zoning district and the C1-8A zoning district, 18’-6” within the basement level with 1,298 sq. ft. of floor area; and

WHEREAS, the applicant requests a special permit pursuant to ZR § 73-42 to allow the use to extend across the zoning district boundary into the R8B zoning district; and

WHEREAS, the applicant states that the extension of the restaurant use would allow for additional space for the existing restaurant; and

WHEREAS, the applicant states that the proposed extension would accommodate 12 dining tables and 69 restaurant patrons; and

WHEREAS, the applicant notes that the restaurant within the C1-8A zoning district occupies 2,384 sq. ft. of space in the cellar and 3,667 sq. ft. of floor area in the basement for a total of 6,051 sq. ft. of restaurant space; the remaining portions of 106-108 West 73rd Street are occupied by residential use and 10,480 sq. ft. of floor area; and

WHEREAS, the applicant does not propose any changes to 106-108 West 73rd Street and that no other changes than the conversion of the basement are proposed to 110 West 73rd Street; and

WHEREAS, the applicant states that 106-108 West 73rd Street and 110 West 73rd Street are under common ownership and the two lots (Lot 35 and Lot 37) will be merged; the merger will result in 20,053 sq. ft. of commercial floor area and 15,088 sq. ft. of residential floor area across the site; and

WHEREAS, ZR § 73-42 provides that the Board may permit the expansion of a conforming use into a district where such use is not permitted, provided that (1) the enlarged use is contained within a single block; (2) the expansion of either the depth or the width of the conforming use is no greater than 50 percent of either the depth or width of that portion of the zoning lot located in the district where such use is a conforming use; and that (3) the area of the expansion cannot exceed 50 percent of the area of the zoning

MINUTES

lot located in the district where such use is a conforming use, and provided further that the required findings are made; and

WHEREAS, the findings are as follows: (a) there is no reasonable possibility of expanding the use within the existing district where it is conforming; (b) the conforming use existed prior to January 6, 1965, or the date of any applicable subsequent amendment to the zoning maps; and (c) the expanded use is not so situated or of such character or size as to impair the essential character or the future use or development of the surrounding area; and

WHEREAS, as to the threshold condition that the use is contained on a single block, the applicant notes that the existing Arte Café located at 106-108 West 73rd Street is adjacent to and on the same block, Block 1144, as 110 West 73rd Street; and

WHEREAS, the applicant notes that the lot occupied by the existing conforming restaurant is 39 feet wide by 102 feet deep, with a lot area of 3,978 sq. ft., and the expansion with a width of 18'-6" and 1,298 sq. ft. of floor area, is less than 50 percent of the width and lot area within the C1-8A zoning district; and

WHEREAS, accordingly, the Board notes that the use and proposed expansion site are located within the same block; that the expansion does not exceed size restrictions; and the applicant has provided sufficient evidence showing that the restaurant use was in existence on Lot 35 prior to January 6, 1965; and

WHEREAS, as to the finding under ZR § 73-42(a), the applicant represents that there is not any reasonable possibility of expanding the use within the existing C1-8A zoning district because such use is not allowed above the first floor of the building; and

WHEREAS, further, the applicant notes that the adjacent building to the west is occupied by another business and therefore is not available to accommodate the expansion of the restaurant; and

WHEREAS, as to the finding under ZR § 73-42(b), the applicant represents that the use at 106-108 West 73rd Street was in existence prior to January 6, 1965; and

WHEREAS, in support of this assertion, the applicant submitted a Certificate of Occupancy from 1941, which reflects that the basement floor was occupied by restaurant use; and

WHEREAS, as to the finding under ZR § 73-42(c), the applicant asserts that the proposed use is not situated or of such character or size as to impair the essential character or future use of the surrounding area; and

WHEREAS, specifically, the applicant states that the expansion of the dining area across the basement adds only 12 dining tables for a maximum occupancy of 69 people; and

WHEREAS, the applicant notes that the use is compatible with the character of the neighborhood and is

located only 100 feet from the commercial thoroughfare of Columbus Avenue; and

WHEREAS, the applicant notes that there are several commercial and mixed-use buildings adjacent and across from the subject site, including a nine-story mixed-use building at the rear on West 72nd Street, which is within a C4-6A zoning district; and

WHEREAS, the applicant notes that the building owner also owns 112 West 73rd Street and it is in his interest to maintain conditions that are compatible with residential use; and

WHEREAS, the applicant states that the use will be limited to a restaurant and no bar is proposed and that the proposed hours of operation are 12:00 p.m. to 11:00 p.m. Sunday through Thursday and 12:00 p.m. to 12:00 a.m. Friday and Saturday; and

WHEREAS, the applicant states that the expansion of the restaurant is necessary to accommodate the dinner rush from 6:00 to 9:00 p.m. and that it does not anticipate using the 110 West 73rd Street space during later hours; and

WHEREAS, the Landmarks Preservation Commission issued a Certificate of No Effect, dated March 26, 2014, to approve interior alterations to the basement; and

WHEREAS, the Board directed the applicant to provide additional information on the proposed use of the rear yard, sound attenuation, refuse storage and collection, and outstanding DOB violations; and

WHEREAS, the applicant states that the rear yard will not be used for restaurant use; the applicant submitted photographs of the rear yard of 110 West 73rd Street that show it without restaurant use; and

WHEREAS, the applicant states that it will install and maintain sound board between 110 West 73rd Street and 112 West 73rd Street to attenuate any noise from the restaurant, that there will not be any speakers in the portion of the restaurant within the R8B zoning district, and that it will not use the portion of the restaurant within the R8B zoning district after 9:00 p.m.; and

WHEREAS, the applicant revised the plans to reflect sound board to be installed at the ground floor wall between 112 West 73rd Street and the subject building; and

WHEREAS, the applicant states that it will store refuse in its cellar space until ready for pick up and provided a letter from its refuse carting company stating that pick up will be scheduled for 7:00 a.m., Monday through Saturday; and

WHEREAS, the applicant states that it will resolve all outstanding DOB violations in the course of completing the proposed construction; and

WHEREAS, the applicant also notes that the front entrance at 110 West 73rd Street will only be used for emergency egress and not ingress or egress from the

MINUTES

restaurant; and the two dwelling units currently occupying the basement will be eliminated to accommodate the restaurant, but that the remainder of the building within the R8B zoning district will remain occupied by residential use; and

WHEREAS, accordingly, the Board finds that the proposed expansion of the Use Group 6 use from the C1-8A zoning district into the R8B zoning district portion of the pending merged lots will not cause impairment of the essential character or the future use or development of the surrounding area, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the proposed action will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-42 and 73-03; and

WHEREAS, the project is classified as a Type 1 action pursuant to 6 NYCRR Part 617.4 and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No. 14BSA040M, dated August 22, 2013; and

WHEREAS, the EAS documents that the operation of the bank would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Type 1 Negative declaration prepared in accordance with Article 8 of the New York State

Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-52 and 73-03, to permit the extension of an existing Use Group 6 use within a C1-8A zoning district into the adjacent R8B zoning district within the Upper West Side-Central Park West Historic District, contrary to ZR § 22-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received April 22, 2014" – seven (7) sheets; and *on further condition*:

THAT the term of the grant is limited to five years, to expire on May 6, 2019;

THAT the restaurant use within the R8B portion of the site will be restricted to the basement level, as reflected on the BSA-approved plans;

THAT the occupancy of the basement level will be as reviewed and approved by DOB but will not exceed 69 patrons;

THAT there will not be any Use Group 6 use within the rear yard of 110 West 73rd Street;

THAT there will not be any entrance or egress of the restaurant through the 110 West 73rd Street frontage, which will be reserved for emergency use;

THAT refuse will be stored within the building until collection, which is scheduled for 7:00 a.m., Monday through Saturday;

THAT sound attenuation measures between 110 West 73rd Street and 112 West 73rd Street will be installed and maintained, as reflected on the BSA-approved plans;

THAT all lighting will be directed down and away from adjacent residential uses;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 6, 2014.

CEQR #14-BSA-070Q

APPLICANT – Akerman LLP, for Whitestone Plaza, LLC, owner; Whitestone Fitness D/B/A Dolphin Fitness, lessee.
SUBJECT – Application November 20, 2013 – Special Permit (§73-36) to allow a physical culture establishment (*Dolphin Fitness*). M1-1 zoning district.

PREMISES AFFECTED – 30-50 Whitestone Expressway, Bounded by Ulmer Street to the north, Whitestone Expressway to the East and 31st Avenue to the south. Block 4363, Lot 100. Borough of Queens.

COMMUNITY BOARD #7Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner of the Department of Buildings (“DOB”), dated October 31, 2013, acting on DOB Application No. 401034180, reads, in pertinent part:

Physical culture establishment requires BSA special permit; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site partially within an M1-1 zoning district and partially within an M1-2 zoning district, within the Special College Point District, the legalization of an existing physical culture establishment (“PCE”) on portions of the first and second stories of a four-story commercial building, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application April 8, 2014, after due notice by publication in the *City Record*, and then to decision on May 6, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Montanez; and

WHEREAS, Community Board 5, Queens, recommends approval of the application; and

WHEREAS, the subject site is located on the northwest corner of the intersection of the Whitestone Expressway service road and Ulmer Street, partially within an M1-1 zoning district and partially within an M1-2 zoning district, within the Special College Point District; and

WHEREAS, the site has approximately 209 feet of frontage along the Whitestone Expressway service road, approximately 494 feet of frontage along Ulmer Street, and 157,472 sq. ft. of lot area; and

WHEREAS, the site is occupied by a four-story commercial building with approximately 104,577 sq. ft. of floor area (0.66 FAR); and

WHEREAS, the PCE occupies 6,465 sq. ft. of floor area on the first story and 9,712 sq. ft. of floor area on the second story, for a total PCE floor area of 16,177 sq. ft.; and

WHEREAS, the PCE is currently operated as Dolphin Fitness and, according to the applicant, has been operating since 2003; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE are Monday through Thursday, from 6:00 a.m. to 12:00 a.m., Friday, from 6:00 a.m. to 11:00 p.m., Saturday, from 7:00 a.m. to 7:00 p.m., and Sunday, from 8:00 a.m. to 6:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, at hearing, the Board expressed concerns regarding: (1) the accessibility of the PCE; and (2) open DOB violations at the property; and

WHEREAS, in response, the applicant provided: (1) amended plans clarifying the accessibility of the PCE, including an illustration of the path of egress; and (2) a letter from the owner’s architect, which stated that the open violations would be resolved after the issuance of the special permit; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the operation of the PCE without the special permit; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the

MINUTES

Environmental Assessment Statement, CEQR No. 14BSA070Q dated November 4, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issued a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site partially within an M1-1 zoning district and partially within an M1-2 zoning district, within the Special College Point District, the legalization of an existing physical culture establishment (“PCE”) on portions of the first and second stories of a four-story commercial building, contrary to ZR § 42-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received March 11, 2014” – Two (2) sheets and “Received April 16, 2014” – One (1) sheet; and *on further condition*:

THAT the term of the PCE grant will expire on May 6, 2019;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed

DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 6, 2014.

318-13-BZ CEQR #14-BSA-080M

APPLICANT – Bryan Cave LLP, for TJD 21 LLC, owners.

SUBJECT – Application December 13, 2013 – Variance (§72-21) to permit a five-story building containing retail and residential use, contrary to use regulations (§44-00). M1-5B zoning district.

PREMISES AFFECTED – 74 Grand Street, North side of Grand Street, 25 feet east of Wooster Street. Block 425, Lot 60, Borough of Manhattan.

COMMUNITY BOARD # 2M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner of the Department of Buildings (“DOB”), dated December 2, 2013, acting on DOB Application No. 121784701, reads, in pertinent part:

Use Group 2 is not permitted in M1-5B zoning district pursuant to ZR 42-10;

Use Group 6 is not permitted below the floor level of the 2nd story in M1-5B districts pursuant to ZR 42-14(D)(2)(b); and

WHEREAS, this is an application under ZR § 72-21, to permit, within an M1-5B zoning district within the SoHo Cast Iron Historic District, the construction of a six-story mixed residential and commercial building (Use Groups 2 and 6) with ground floor and cellar retail, contrary to ZR §§ 42-10 and 42-14; and

WHEREAS, a public hearing was held on this application on March 25, 2014, after due notice by publication in the *City Record*, with a continued hearing on April 8, 2014, and then to decision on May 6, 2014; and

WHEREAS, the premises and surrounding area had

MINUTES

site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Manhattan, recommends approval of the application; and

WHEREAS, the subject site is located on the north side of Grand Street between Wooster Street and Greene Street, within an M1-5B zoning district within the SoHo Cast Iron Historic District; and

WHEREAS, the site has 25 feet of frontage along Grand Street, a lot depth of 100 feet, and 2,500 sq. ft. of lot area; and

WHEREAS, the site is currently vacant but was previously occupied by a five-story, Neo-Grec-style, cast-iron loft building (the “Historic Building”) that was constructed in 1886 and was described by the Landmarks Preservation Commission (“LPC”) as contributing to the special architectural and historic character of the SoHo Cast Iron Historic District; and

WHEREAS, the applicant represents that the Historic Building was demolished following an emergency declaration issued by DOB in 2009; LPC assented to the demolition on condition that the façade and other architecturally-distinct components be preserved and incorporated (in their original configuration) into any new building at the site; and

WHEREAS, the applicant represents that the proposed mixed residential (Use Group 2) and commercial (Use Group 6) building, which will incorporate the Historic Building façade, will have a total floor area of 12,493 sq. ft. (4.98 FAR), a residential floor area of 10,807.3 sq. ft. (4.3 FAR), a commercial floor area of 1,686 sq. ft. (0.68 FAR), a street wall height of 78’-7”, a building height of 90’-9”, and a rear yard depth of 20 feet beginning at the second story; the applicant notes that the cellar will include retail space, mechanical rooms, and accessory storage for the residences; the first story will be occupied by retail space and the residential lobby; and the second through sixth stories will be occupied by a total of four dwelling units; and

WHEREAS, because Use Group 2 is not permitted and Use Group 6 is not permitted below the floor level of the second story within the subject M1-5B zoning district, the applicant seeks use variances; and

WHEREAS, the applicant states that, per ZR § 72-21(a), the following are unique physical conditions which create an unnecessary hardship in developing the site in conformance with applicable regulations: (1) the history of development at the site, namely its Historic Building and the LPC requirement that the façade of the Historic Building be restored and incorporated into any redevelopment of the site; (2); the narrow lot width and small lot area of the site; and (3) the condition of the site’s soil; and

WHEREAS, the applicant contends that the Historic

Building at the site and the LPC requirement to restore the building’s façade are unique conditions that create an unnecessary hardship in development the site with a conforming use; and

WHEREAS, as noted above, the applicant states that from 1886 until 2009, the site was occupied by the Historic Building; in 2009, DOB determined that—due in part to excavation at an adjacent site (72 Grand Street)—the building was approximately 25 inches out of alignment and in danger of collapse; accordingly, DOB ordered the owner to demolish the building; and

WHEREAS, the applicant states that subsequent to DOB’s order, on November 23, 2009, the owner entered into an agreement with LPC whereby it was permitted to demolish the Historic Building provided that the cast-iron façade was “fully surveyed and catalogued, disassembled and stored in a secure and safe manner for future reconstruction”; and

WHEREAS, in particular, the applicant states that LPC mandated that the following Historic Building elements be preserved “for use in conjunction with future construction at the site”: the cast-iron on the Grand Street façade; window shutters on the third floor at the rear of the building; the barrel vault cast-iron skylight at the rear of the first floor; and sidewalk cast iron vault lites; and

WHEREAS, the applicant represents that the preservation and incorporation of these elements into a modern building significantly increased the construction costs for the proposed building; and

WHEREAS, further, the applicant states that because the floors were required to line up with the windows of the Historic Building’s façade, unusually high floor-to-floor heights are required (18’-8” at the first story and between 13’-7” and 12’-6” on the second through fifth stories), which reduces the number of stories in the building, which in turn reduces the amount of marketable space; the applicant notes that the sixth story is above the historic façade and set back; therefore, it was not constrained by the façade; and

WHEREAS, the applicant contends that the site’s lot area of 2,500 sq. ft. and lot width of 25 feet are unique among vacant lots in the surrounding area; and

WHEREAS, in support of this statement, the applicant submitted its study of the sites within the M1-5A and M1-5B zoning districts spanning from the south side of Houston Street at the northern boundary, by Broadway to the east, Avenue of the Americas to the west, and Canal Street to the south; based on the study, there are only eight vacant sites, three of which are surface parking lots, four of which have a lot width of less than 30 feet, and three of which have a lot area of 2,500 sq. ft. or less; of the latter three, two are corner lots; if only a 400-foot radius is considered, there are only four vacant sites (other than the subject site), only two of which have lot widths of less than 30 feet; thus, the applicant

MINUTES

asserts that its site has a unique width and size when compared to other vacant sites; and

WHEREAS, the applicant asserts that the site's narrow width and small size create a practical difficulty in developing the site for a conforming use; specifically, the applicant states that such characteristics result in an inherently inefficient and unmarketable floorplate because a disproportionate share (33 percent) of a conforming building at the site would be devoted to building core; and

WHEREAS, to support this assertion, the applicant examined the feasibility of a conforming hotel (Use Group 5) at the site; according to the hotel plans, the stairs, elevator, and public corridor required under the Building Code would be sufficient for a hotel with nearly twice as much floorplate as is possible at this narrow, small site; such floorplates would yield no more than three rooms per story; and

WHEREAS, likewise, the applicant states that other conforming commercial and manufacturing uses—those listed in Use Group 7, 9, 11, 16, and 17 (which include business schools, gymnasias, printing establishments, and carpentry workshops)—are likely to locate in such a small, inefficient space; and

WHEREAS, accordingly, the applicant concludes that conforming uses are infeasible at the site, due to the inefficient building that results from its narrow width and small size; and

WHEREAS, the applicant also contends that its soil conditions impose an additional unique hardship; and

WHEREAS, in support of this contention, the applicant provided a geotechnical report, which concluded that a deep foundation system would be necessary rather than a less-expensive spread footing due to the presence of soil with weak and unstable bearing capacity; likewise, the site's soil requires more expensive structural components to resist seismic loads, all at premium costs; and

WHEREAS, finally, the applicant asserts that, in the aggregate, the site's unique conditions make a conforming development at the site infeasible; and

WHEREAS, the Board agrees that the aforementioned unique physical conditions, when considered individually and in the aggregate, create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant asserts that, per ZR § 72-21(b), there is no reasonable possibility that the development of the site in conformance with the Zoning Resolution will bring a reasonable return; and

WHEREAS, in particular, in addition to the proposal, the applicant examined the economic feasibility of an as-of-right 4.68 FAR hotel scenario (11 hotel rooms); and

WHEREAS, the applicant concluded that the as-of-right scenario resulted in a negative rate of return after capitalization; in contrast, the applicant represents that the

proposal results in a positive rate of return, making it economically viable; and

WHEREAS, based upon its review of the applicant's economic analysis, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, the applicant states that the immediate area is characterized by a mix of medium-density residential and commercial uses, with some remaining manufacturing/industrial uses; and

WHEREAS, the applicant represents that more than 50 percent of the buildings within 400 feet of the site are either residential, mixed residential and commercial, or Joint Living-Work Quarters for Artists; thus, the applicant asserts that the existing context includes a significant amount of residential use; and

WHEREAS, the applicant also states that the ground floor Use Group 6 use will be consistent with nearby ground floor uses, which are overwhelmingly retail, including clothing stores, art galleries, and home furnishings stores; and

WHEREAS, the applicant also notes that the proposal will be a natural complement to developments on the corner of Wooster Street and Grand Street and on West Broadway, which were recently approved by CPC; and

WHEREAS, the Board agrees that the character of the area is mixed-use, and finds that the introduction of six dwelling units and ground floor retail will not impact nearby conforming uses; and

WHEREAS, further, the Board notes that the compatibility of residences in the subject M1-5B zoning district within the SoHo Cast Iron Historic District is acknowledged in ZR § 74-712(a) (*Developments in Historic Districts*), a City Planning Commission special permit that would allow a residence of a similar size but for the fact that the site became vacant too recently; a precondition for that special permit is that the site must have been vacant as of December 15, 2003, and, as noted above, the subject site became vacant upon the demolition of the Historic Building in 2010; and

WHEREAS, as to bulk, the applicant states that the building's street wall height of 78'-7" and building height of 90'-9" are both comparable to buildings in the immediate vicinity, and similar to the Historic Building, which occupied the site for more than 100 years; and

MINUTES

WHEREAS, at hearing, the Board expressed concern regarding the proposed rear yard depth of 20'-0"; the Board noted that although there are no bulk regulations for residential buildings in manufacturing districts, the Board has historically required a rear yard depth of 30'-0", which is consistent with the requirement in zoning districts where residential use is permitted as-of-right; and

WHEREAS, in response, the applicant contends that a rear yard depth of 20'-0" is necessary and appropriate in this case because the development is not viable with a rear yard depth of 30'-0"; the applicant asserts that the stair and elevator cores and mechanical rooms would have to be reconfigured to accommodate a rear yard depth of 30'-0", resulting in a reduction of the size of the dwelling units and the retail space; and

WHEREAS, the applicant also notes that the building cannot be redesigned to capture more floor area; due to the unusually high floor-to-floor heights, constraints owing to the requirement to incorporate the Historic Building façade, and the LPC requirement to set back at the sixth story in order to reveal the cornice, a substantial amount of floor area is lost even with a rear yard depth of 20'-0" and it cannot be recouped; likewise, the mezzanine level cannot be extended to provide more usable floor area without being reclassified as a story, triggering the Building Code requirement to provide a second fire stair; and

WHEREAS, in support of the applicant's contention that the building cannot provide a rear yard depth of greater than 20'-0", the applicant submitted a feasibility study of a building with a rear yard depth of 30'-0"; based on the study, the building with the rear yard depth of 30'-0" is not a viable alternative to the proposal; and

WHEREAS, the applicant asserts that a rear yard depth of 20'-0" is typical for buildings in the area and submitted an Open Space Study, which reflects that of the sites occupied by residential uses on the block, portions of only four building out of ten have back-to-back rear yard depths in excess of 20'-0" and those within 100'-0" of the corner (which the subject site is) have rear yard depths ranging from 15'-0" to 21'-6"; and

WHEREAS, the applicant also notes that a rear yard depth of 20'-0" is an improvement over the Historic Building, which also had dwelling units but had a rear yard depth of only 15'-0", and the proposed windows, both within the historic façade and at the rear, are well in excess of the sizes required under the Multiple Dwelling Law; therefore, the applicant contends that with regard to light and ventilation, the proposal is both a substantial improvement over a historic condition and more than adequate by modern standards; further, the initial proposal included rear balconies, which would have further reduced the depth of the rear yard—and light and ventilation—to the extent of their projection; at the Board's direction, the balconies were

eliminated; and

WHEREAS, finally, the applicant states that none of the dwelling units will rely solely on the rear yard for light and ventilation since the units are floor-through and thus also have windows opening upon on Grand Street; and

WHEREAS, the Board is persuaded that a rear yard depth of 20'-0" is appropriate given the site's unique physical conditions; and

WHEREAS, LPC has approved the proposal by Certificate of Appropriateness, dated August 13, 2013; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that, consistent with ZR § 72-21(d), the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the site's history of development, size and narrowness, and the limited economic potential of conforming uses on the lot; and

WHEREAS, finally, the Board finds that the proposal is the minimum variance necessary to afford relief, as set forth in ZR § 72-21(e); and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Type 1 action pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 14-BSA-080M, dated May 1, 2014; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the New York City Department of Environmental Protection's ("DEP") Bureau of Environmental Planning and Analysis reviewed the project for potential hazardous materials impacts; and

WHEREAS, DEP reviewed the applicant's February 2013 Phase I report and that, due to site specific circumstances, DEP recommends that the applicant implement a DEP-approved Phase II Investigative Protocol prior to the issuance of permits by DOB relating to the issuance of soil disturbance; and

MINUTES

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type 1 Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, within an M1-5B zoning district within the SoHo Cast Iron Historic District, the construction of a six-story mixed residential and commercial building (Use Groups 2 and 6) with ground floor and cellar retail, contrary to ZR §§ 42-10 and 42-14, *on condition* that any and all work will substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received April 17, 2014"- Sixteen (16) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the proposed building: a maximum total floor area of 12,493 sq. ft. (4.98 FAR), a residential floor area of 10,807.3 sq. ft. (4.3 FAR), four dwelling units, a commercial floor area of 1,686 sq. ft. (0.68 FAR), a maximum street wall height of 78'-7", a maximum building height of 90'-9", and a minimum rear yard depth of 20 feet beginning at the second story;

THAT the applicant will implement a DEP-approved Phase II Investigation Protocol and, should the test reveal the need for hazardous materials remediation, the applicant will submit a remedial action plan and health and safety plan to be approved by DEP prior to the issuance of any permit by DOB that allows soil disturbance, and that the remedial action plan and health and safety plan shall be implemented as part of construction;

THAT substantial construction will be completed in accordance with ZR § 72-23;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 6, 2014.

Jeff Mulligan, Executive Director

MINUTES

**REGULAR MEETING
TUESDAY MORNING, MAY 13, 2014
10:00 A.M.**

Present: Chair Srinivasan, Vice-Chair Collins,
Commissioner Ottley-Brown and Commissioner Hinkson.

SPECIAL ORDER CALENDAR

371-03-BZ

APPLICANT – Kramer Levin Naftalis & Frankel LLP, for 655 Fifth Avenue LLC, owner; Sator Realty, Ink, lessee.
SUBJECT – Application January 31, 2014 – Extension of Term of a previously approved Special Permit (§73-36) to allow the operation of a physical culture establishment (*The Facility*) which expires May 11, 2014. C5-3 (MID) zoning district.

PREMISES AFFECTED – 655 Fifth Avenue, northeast corner of Fifth Avenue and East 52nd Street, Block 1288, Lot 1, Borough of Manhattan.

COMMUNITY BOARD #5M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown and Commissioner Hinkson.4

Negative:.....0

Absent: Commissioner Montanez1

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of term for a physical culture establishment (“PCE”), which expired on May 11, 2014; and

WHEREAS, a public hearing was held on this application on April 29, 2014, after due notice by publication in *The City Record*, and then to decision on May 13, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 5, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located at the northeast corner of the intersection of Fifth Avenue and East 52nd Street, within a C5-3 zoning district, within the Special Midtown District; and

WHEREAS, the site is occupied by a nine-story commercial building; and

WHEREAS, the PCE is located on portions of the eighth and ninth stories of the subject building (7,817 sq. ft. of floor area) and on the eighth story and roof of the adjacent building (7,332 sq. ft. of floor area), which is known as 663 Fifth Avenue (Block 1288, Lot 3); the PCE occupies a total of 15,149 sq. ft. of floor area; and

WHEREAS, the PCE is operated as The Facility; and

WHEREAS, on May 11, 2004, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-36, to permit, on a site within a C5-3 zoning district, within the Special Midtown District the operation of a PCE for a term of ten years, to expire on May 11, 2014; on that same day, under BSA Cal. No. 372-03-BZ, the Board granted a special permit for the operation of the PCE at 663 Fifth Avenue; and

WHEREAS, the applicant now seeks an extension of the term of the PCE special permit for ten years; and

WHEREAS, based upon its review of the record, the Board finds that an extension of term for ten years is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated May 11, 2004, so that as amended the resolution reads: “to grant an extension of the special permit for a term of ten years from the prior expiration; *on condition* that any and all work shall substantially conform to drawings as they apply to the objection above noted, filed with this application marked ‘Received January 31, 2014’- (5) sheets; and *on further condition*:

THAT this grant will be limited to a term of ten years, to expire on May 11, 2024;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT there will be no change in ownership or operating control of the PCE without prior approval from the Board;

THAT the above conditions will appear on the certificate of occupancy;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, May 13, 2014.

372-03-BZ

APPLICANT – Kramer Levin Naftalis & Frankel LLP, for Sator Realty, Ink, owner.

SUBJECT – Application January 31, 2014 – Extension of Term of a previously approved Special Permit (§73-36) to allow the operation of a physical culture establishment (*The Facility*) which expires May 11, 2014. C5-3 (MID) zoning district.

PREMISES AFFECTED – 663 Fifth Avenue, East side of Fifth Avenue, between East 52nd and 53rd Streets, Block 1288, Lot 3, Borough of Manhattan.

COMMUNITY BOARD #5M

ACTION OF THE BOARD – Application granted on

MINUTES

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown and Commissioner Hinkson...4

Negative:.....0

Absent: Commissioner Montanez1

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of term for a physical culture establishment (“PCE”), which expired on May 11, 014; and

WHEREAS, a public hearing was held on this application on April 29, 2014, after due notice by publication in *The City Record*, and then to decision on May 13, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 5, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of Fifth Avenue between East 52nd Street and East 53rd Street, within a C5-3 zoning district, within the Special Midtown District; and

WHEREAS, the site is occupied by an eight-story commercial building; and

WHEREAS, the PCE is located on portions of the eighth story and roof of the subject building (7,332 sq. ft. of floor area) and on portions of the eighth and ninth stories of the subject building (7,817 sq. ft. of floor area), which is known as 655 Fifth Avenue (Block 1288, Lot 1); the PCE occupies a total of 15,149 sq. ft. of floor area; and

WHEREAS, the PCE is operated as The Facility; and

WHEREAS, on May 11, 2004, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-36, to permit, on a site within a C5-3 zoning district, within the Special Midtown District the operation of a PCE for a term of ten years, to expire on May 11, 2014; on that same day, under BSA Cal. No. 371-03-BZ, the Board granted a special permit for the operation of the PCE at 655 Fifth Avenue; and

WHEREAS, the applicant now seeks an extension of the term of the PCE special permit for ten years; and

WHEREAS, based upon its review of the record, the Board finds that an extension of term for ten years is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated May 11, 2004, so that as amended the resolution reads: “to grant an extension of the special permit for a term of ten years from the prior expiration; *on condition* that any and all work shall substantially conform to drawings as they apply to the objection above noted, filed with this application marked ‘Received January 31, 2014’ - (5) sheets; and *on further condition*:

THAT this grant will be limited to a term of ten years, to

expire on May 11, 2024;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT there will be no change in ownership or operating control of the PCE without prior approval from the Board;

THAT the above conditions will appear on the certificate of occupancy;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, May 13, 2014.

177-07-BZ

APPLICANT – Sheldon Lobel, P.C., for Dankov Corporation, owner.

SUBJECT – Application January 2, 2014 – Amendment of an approved Variance (§72-21) which permitted construction of a two-story and mezzanine, two-family residential building, contrary to front yard regulations (§23-45(a)); the amendment seeks to permit construction of a three-story, three-family residential building. R5 zoning district.

PREMISES AFFECTED – 886 Glenmore Avenue, southeast corner of the intersection of Glenmore Avenue and Milford Street. Block 4208, Lot 17. Borough of Brooklyn.

COMMUNITY BOARD #5BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown and Commissioner Hinkson...4

Negative:.....0

Absent: Commissioner Montanez1

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to an existing variance, to allow certain modifications to a residential building that does not comply with the front yard requirements; and

WHEREAS, a public hearing was held on this application on April 1, 2014, after due notice by publication in *The City Record*, with a continued hearing on April 29, 2014, and then to decision on May 13, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 5, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the southeast

MINUTES

corner of the intersection of Glenmore Avenue and Milford Street, within an R5 zoning district; and

WHEREAS, the site has approximately 20 feet of frontage along Glenmore Avenue, 90 feet of frontage along Milford Street, and 1,800 sq. ft. of lot area; and

WHEREAS, the site is vacant; and

WHEREAS, on June 23, 2009, under the subject calendar number, the Board granted a variance to permit the construction of a two-story, two-family residential building at the site that did not comply with the front yard requirements of ZR § 23-45(a) (the "Original Building"); and

WHEREAS, the Original Building was proposed to have two stories and a mezzanine, 2,241 sq. ft. of floor area (1.24 FAR), a wall height of 30'-0", a building height of 32'-9", two dwelling units, two parking spaces in the side yard, a front yard with a depth of 10'-0" along Glenmore Avenue, no front yard along Milford Street, and a side yard with a width of 30'-6"; and

WHEREAS, pursuant to the grant, substantial construction was to be completed by June 23, 2013; however, as of that date, substantial construction had not been completed; accordingly, on October 29, 2013, the Board granted an extension of time to complete construction for two years, to expire on October 29, 2015; and

WHEREAS, the applicant now seeks to amend the grant to allow three stories, 2,660.61 sq. ft. of floor area (1.48 FAR), a wall height of 28'-4", a building height of 31'-10", three dwelling units, two parking spaces in the side yard, a front yard with a depth of 10'-0" along Glenmore Avenue, no front yard along Milford Street, and a side yard with a width of 45'-0" (the "Proposed Building"); and

WHEREAS, the applicant notes that the Proposed Building deviates from the Original Building as follows: (1) an increase in floor area of 419.61 sq. ft.; (2) an FAR increase of 0.24; (3) a 1'-8" decrease in wall height; (4) a 1'-1" decrease in building height; and (5) a 14'-6" increase in the proposed side yard; and

WHEREAS, the applicant notes that, as with the Original Building, the Proposed Building complies in all respects with the R5 bulk regulations, except that, like the Original Building, it does not provide a front yard with a depth of 10'-0" along Milford Street; thus, the scope of the waiver requested has not changed; and

WHEREAS, further, the applicant states that although the Proposed Building includes a modest increase in floor area, its wall and building height are decreased, and the width of its side yard is increased by nearly 50 percent; and

WHEREAS, in addition, the applicant contends that the Proposed Building is consistent with the character of the surrounding community, which, in the original grant, the Board recognized as including mostly two- and three-story homes and multiple dwellings; and

WHEREAS, the applicant also notes that, in response to the Board's comments at hearing, it revised the Proposed Building to provide a wider side yard and to align with the street wall location and height of the adjacent building along

Glenmore Avenue; and

WHEREAS, based upon its review of the record, the Board finds that the proposed modification is appropriate, with certain conditions, as noted below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated June 23, 2009, to permit the noted modifications, *on condition* that any and all work shall substantially conform to drawings as they apply to the objection above noted, filed with this application marked 'Received April 11, 2014' - (11) sheets; and *on further condition*:

THAT bulk parameters of the building will be as follows: a maximum of three stories, a maximum of 2,660.61 sq. ft. of floor area (1.48 FAR), a maximum wall height of 28'-4", a maximum building height of 31'-10", three dwelling units, two parking spaces in the side yard, a minimum front yard depth of 10'-0" along Glenmore Avenue, and a minimum side yard width of 45'-0";

THAT substantial construction will be completed by October 29, 2015;

THAT all conditions from the prior resolution not specifically waived by the Board will remain in effect;

THAT DOB must ensure compliance with all applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

(DOB Application No. 302233189)

Adopted by the Board of Standards and Appeals, May 13, 2014.

THE RESOLUTION –

WHEREAS, this is an application for an extension of time to obtain a certificate of occupancy for use of certain dwelling units within Class A multiple dwelling for other than permanent residence purposes pursuant to Multiple Dwelling Law § 120; and

WHEREAS, a public hearing was held on this application on April 29, 2014, after due notice by publication in *The City Record*, and then to decision on May 13, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the south side of West 76th Street between West End Avenue and Broadway, within an R8B zoning district; and

MINUTES

WHEREAS, the site has 75 feet of frontage along West 76th Street and 7,824 sq. ft. of lot area; and

WHEREAS, the site is occupied by a 15-story multiple dwelling; the building is known as The Millburn Hotel; according to the last-issued certificate of occupancy (“CO”) for the building (CO No. 102797127, issued March 24, 2009), the building contains 137 Class A dwelling units; and

WHEREAS, the applicant states that the building was constructed as a hotel in 1926 and that the vast majority of its dwelling units (120 units) have always been other than permanent residence purposes; and

WHEREAS, the applicant notes that while the original CO (No. 11583, issued October 22, 1926) described the building as a “hotel,” subsequent COs, including the current CO, describe the building as a Class A multiple dwelling; and

WHEREAS, on May 1, 2011, MDL § 120 was amended to permit the owners of certain Class A multiple dwellings to maintain existing dwelling units used for other than permanent residence purposes (i.e., hotel rooms) provided that, among other things, the building is made to comply with the MDL § 67 provisions relating to transient use and an amended CO is obtained to reflect such transient use; and

WHEREAS, pursuant to MDL § 120, such amended CO was to be obtained prior to May 1, 2013 and the Department of Buildings (“DOB”) was authorized to extend the time to obtain the CO until May 1, 2014, provided certain findings were satisfied; if a CO has not been obtained by May 1, 2014, under MDL § 120(3), the Board

may grant further extensions of time to obtain a [CO] in a case where there are circumstances beyond the applicant’s control or hardship in the way of obtaining such [CO] within the time allowed by [DOB] but no more than two such extensions of one year each shall be granted for a building and no such extension shall be granted unless the Board finds that there are no outstanding building or fire code violations of record at the property; and

WHEREAS, the applicant represents that the subject building is eligible to seek an amended CO for transient use pursuant to MDL § 120 and that it has taken certain steps towards obtaining such CO, including: (1) registering the building with DOB as Class A multiple dwelling with transient units; (2) filing an application with DOB for the amended CO; and (3) obtaining permits and installing required sprinkler and fire alarm systems; and

WHEREAS, the applicant notes that by letter dated April 16, 2013, DOB extended the time period to obtain the amended CO until May 1, 2014; and

WHEREAS, the applicant now seeks an extension of time to obtain the amended CO; and

WHEREAS, as noted above, the Board may grant an extension of time to obtain a CO pursuant to MDL § 120(3), provided it finds that: (1) there are circumstances beyond the applicant’s control or hardship in the way of obtaining the amended CO; and (2) the building has no outstanding Building Code or Fire Code violations; and

WHEREAS, the applicant states that the complexity of the required sprinkler and fire alarm work resulted in significant delays in obtaining permits, installing system elements, and testing such systems; in addition, the applicant represents that there were significant delays in obtaining Fire Department approvals due to the fact that the building did not already have a CO for transient use (the approvals were necessary for the amended CO and the Fire Department was requiring the amended CO prior to issuing its approvals); and

WHEREAS, therefore, the Board agrees with the applicant that there have been circumstances beyond its control in obtaining the amended CO; and

WHEREAS, as to whether there are open Building Code or Fire Code violations, by letter dated April 28, 2014, the Fire Department confirmed that there are no open Fire Code violations at the site, and by letter dated April 30, 2014, DOB confirmed that there are no open Building Code violations at the site; and

WHEREAS, the Board has reviewed the evidence in the record and determined that the requested extension of time is warranted; and

Therefore it is Resolved, that this application to extend the time to obtain a certificate of occupancy for use of 120 dwelling units within the subject Class A multiple dwelling for other than permanent residence purposes pursuant to Multiple Dwelling Law § 120, is granted and will expire on May 1, 2015.

Absent: Commissioner Montanez1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings, dated September 26, 2012, acting on Department of Buildings Application No. 120801052, reads in pertinent part:

ZR 43-311, ZR 42-312 – 20'-0" rear yard is required for interior portion of lot beyond 100'-0" of front line.

ZR 43-43 – Proposed front wall exceeds 85'-0", applicable sky exposure plane for both wide and narrow streets violated; and

WHEREAS, this is an application under ZR § 72-21, to permit, in an M1-5 zoning district, the construction of a ten-story commercial building which does not comply with the zoning requirements for rear yard, height and setback, and sky exposure plane regulations contrary to ZR §§ 43-12, 43-311, 43-312, and 43-43; and

WHEREAS, a public hearing was held on this application on September 17, 2013, after due notice by publication in the *City Record*, with continued hearings on November 26, 2013, January 14, 2014, February 11, 2014, and April 8, 2014, and then to decision on May 13, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the applicant initially proposed to construct a 12-story commercial building with a total floor area of 157,280 sq. ft. (6.68 FAR); and

WHEREAS, at hearing, the Board directed the applicant to reduce the requested relief and bulk of the building; and

WHEREAS, in response, the applicant revised the proposal to reflect a floor area of 145,483 sq. ft. (6.18 FAR); and

WHEREAS, at hearing, the Board directed the applicant

to further reduce the request for relief so as to reflect the minimum variance; and

WHEREAS, the current proposal reflects a ten-story commercial building with a total floor area of 117,705 sq. ft. (5.0 FAR), a height of 175 feet to the roof of the tenth floor and 199 feet to the top of the mechanicals, a Use Group 6 retail and restaurant use on the cellar, first and second floors, and Use Group 6 office use in the remainder of the building; and

WHEREAS, the proposed building will have the following non-complying parameters: a wall height of 185 feet with no setbacks above 85 feet to a total height of 199 feet after a 10'-0" setback (the minimum required setbacks are 20'-0" along West 13th Street and 15'-0" along West 14th Street and Tenth Avenue); intrusions into the sky exposure plane at West 13th Street, West 14th Street, and Tenth Avenue, and no rear yard (a rear yard with a minimum depth of 20'-0" is required in the 53'-0"-wide portion of the site along the West 13th Street frontage and the second-floor terrace is 4'-6" above the 23'-0" permitted obstruction threshold in the rear yard); and

WHEREAS, Community Board 2, Manhattan, reviewed the applicant's original proposal and recommended a disapproval based specifically an objection to an FAR waiver and to the remaining waivers unless the variance limits any eating and drinking establishment on the site to a maximum size of 3,000 sq. ft.; and

WHEREAS, State Senator Brad Hoylman and former City Council Speaker Christine Quinn provided testimony in opposition to the entire application; and

WHEREAS, the Greenwich Village Society for Historic Preservation provided testimony in opposition to the initial application, citing concerns about an increase in floor area but did not object to the other waivers; and

WHEREAS, the Greenwich Village Community Task Force testified in opposition to the FAR waiver in the original proposal and in support of the other aspects of this application; and

WHEREAS, the Standard Hotel provided testimony in opposition to the application; and

WHEREAS, a representative of the adjacent owner to the east (450 West 14th Street/the High Line Building) (the "High Line Building") provided testimony in opposition to the proposal, citing concerns about whether or not the site conditions were unique; that a complying building could realize a reasonable rate of return; that the proposed building is not compatible with the area context; and that the requested variance does not reflect the minimum necessary; and

WHEREAS, the site is an L-shaped lot with frontage on Tenth Avenue, West 13th Street and West 14th Street, in an M1-5 zoning district; and

WHEREAS, the site is currently occupied by two three-story buildings formerly used for meat processing that are proposed to be demolished; and

WHEREAS, the site has 206 feet of frontage on the east side of Tenth Avenue, 153 feet of frontage on the north side of

MINUTES

West 13th Street, 75 feet of frontage on the south side of West 14th Street, and a lot area of 23,541 sq. ft.; and

WHEREAS, the High Line, an elevated former railroad trestle, with a height of 25 feet, extends diagonally across the eastern part of the site, including the entire eastern lot line, such that the site has an irregular shape, as discussed below; and

WHEREAS, the City owns the High Line and has converted it into a publicly accessible open space; and

WHEREAS, the applicant states that it is adjacent to the Gansevoort Historic District, but not within it and that it is located within the New York State and National Register of Historic Places Gansevoort Historic District; and

WHEREAS, the applicant states that the following are unique physical conditions which create an unnecessary hardship in developing the site in compliance with applicable regulations: (1) the presence of the High Line, which cuts diagonally across the site, reduces the developable lot area, and contributes to the irregular-shape of the developable portion of the site; and (2) the subsurface conditions including poor soil and contamination; and

WHEREAS, as to the presence of the High Line and the site's irregular shape, the applicant notes that the High Line crosses diagonally over the eastern edge of the site, overlapping approximately ten percent of its area; and

WHEREAS, the applicant notes that no foundation work may take place in the area occupied by the High Line; and

WHEREAS, additionally, the applicant asserts that the physical constraints imposed by the High Line require the building to be narrower and taller than would otherwise be necessary on an unencumbered lot of its size; and

WHEREAS, the applicant asserts that the irregular shape with three separate street frontages and 50 percent of its interior lot line border traversed by the High Line contribute to premium construction costs and site inefficiencies; and

WHEREAS, further, the applicant notes that the northern half of the site beyond the centerline of the block is only 75 feet deep, the shallowest site on the block; and

WHEREAS, the applicant states that the shallow depth and the setback requirements result in small floor plates above the initial setback for an as of right building; and

WHEREAS, the applicant provided a floor plate study which reflects that the functional floor plate area is reduced to widths of 21 feet and 17 feet above the initial setback; and

WHEREAS, the applicant compares this to an as-of-right building on a site without the High Line and office use floor plates could reach approximately 22,000 sq. ft. compared to 12,878 sq. ft. for the proposed; and

WHEREAS, as to the uniqueness of the condition, the applicant asserts that large portions of the Special West Chelsea District north of West 16th Street were rezoned from M1-5 to commercial districts in which residential use is permitted at base FARs ranging from 5.0 to 7.5, up to 6.0 to 10.0, with bonuses; and

WHEREAS, the applicant notes that many West Chelsea District sites are also permitted to transfer unusable floor area

to other sites; and

WHEREAS, the applicant asserts that the site is the last undeveloped parcel surrounding the Washington Grasslands section of the High Line, which stretches from West 12th Street to West 13th Street; and

WHEREAS, the applicant states that every other site is either completely covered by the High Line or not a soft site; and

WHEREAS, the applicant states that the waivers are required to offset premium costs associated with construction on the irregularly-shaped site traversed by the High Line and to allow for a more efficient building design that provides for the building mass to be pulled away from the High Line and towards Tenth Avenue; and

WHEREAS, several of the High Line's support columns extend to grade within the boundaries of the subject site, such that any use below it is limited; and

WHEREAS, the applicant states that due to the physical constraints posed by the High Line, a resultant as-of-right building would provide an inefficient building envelope, requiring an irregularly-shaped footprint; and

WHEREAS, further, the High Line limits the applicant's ability to position the building on the site, thus the applicant is unable to distribute the bulk within a complying envelope that has both reasonably-sized and uniform floor plates, due to the presence of the High Line across ten percent of the site; and

WHEREAS, the applicant states that compliance with the rear yard regulations would not only result in irregular and less marketable floor plates, but would also leave a small, isolated yard area at the northeast corner of the subject site that would be difficult to use and maintain; and

WHEREAS, the applicant further states that much of the subject rear yard is already encumbered by the High Line, and that because the proposed building will not span the High Line, light and air will be provided to occupants of the building and neighboring buildings; and

WHEREAS, the applicant represents that even with the bulk waivers, the building is taller and narrower than a building on a site not traversed by the High Line due to the reduced developable portion of the site; and

WHEREAS, the applicant represents that larger floor plates are required to achieve greater efficiency, as the small size of the as-of-right floor plates make it difficult to amortize construction costs; and

WHEREAS, as to the subsurface soil conditions, the applicant states that the site is burdened by contamination and poor soil conditions which require additional excavation, foundation, and underpinning measures; and

WHEREAS, specifically, the applicant states that its Phase I Report reflects that a gas station north of the site across West 14th Street has had a gasoline spill, with gasoline-related contaminants remaining in the soil and groundwater at significant concentration; and

WHEREAS, the applicant states that due to high water table conditions at the site and the need for dewatering during excavation and construction, contaminated water will be

MINUTES

drawn up through the subsurface and will require costly treatment; and

WHEREAS, the applicant states that the groundwater contamination associated with the gasoline spill will require a vapor barrier and a sub-slab depressurization system as part of the foundation design; and

WHEREAS, the applicant represents that there are at least two unregistered underground storage tanks (USTs) located under the Tenth Avenue sidewalk, which must be decommissioned and removed; and

WHEREAS, the applicant states that New York State Department of Environmental Conservation assigned a spill number related to the USTs and the Phase II reflects that approximately 200 tons of soil must be excavated from the site; and

WHEREAS, additionally, the applicant states that the existing buildings contain refrigerant piping lining the walls and other potential hazardous materials that require special handling and disposal; and

WHEREAS, the applicant states that the site is burdened by poor soil conditions that require additional excavation, foundation, and underpinning measures; and

WHEREAS, specifically, the applicant submitted a report from its engineering consultant stating that soil borings indicate that sand is located on the site in the area and is likely liquefiable; and

WHEREAS, accordingly, the applicant states that the piles will likely need to extend through this liquefiable zone and that pile design cannot rely on friction between the soil and pile within the liquefiable zone; such piles are longer and more costly than typical piles for comparable sites in the area; and

WHEREAS, the applicant states that the adjacent buildings to the west and north will require underpinning which, due to the poor soil conditions, will likely involve drilled piles spaced every eight feet, with the foundations of the adjacent structures supported on new grade beams cast against/under the existing foundations and spanning between the new piles; and

WHEREAS, as to the uniqueness of the soil conditions, the applicant states that although a similar zone of probable liquefaction exists nearby, other recent construction such as the Standard Hotel is within a "liquefaction unlikely zone;" and

WHEREAS, the applicant states that the Standard Hotel is supported on drilled micro-piles that obtain capacity via friction in the sand layer and the columns that support the hotel are supported by higher capacity drilled mini caissons bearing in the bedrock; but, in contrast, the piles for the subject building would have to extend through the liquefiable zone and require piles that are longer and more costly than comparable piles on the Standard Hotel site; and

WHEREAS, in support of these assertions, the applicant submitted copies of soil reports related to the variance for 437-447 West 13th Street under BSA Cal. No. 314-08-BZ in 2009 and the Standard Hotel; and

WHEREAS, the applicant asserts that the requested waivers are required to allow for a more efficient building with more rentable office area at a complying FAR; and

WHEREAS, the applicant states that the design with higher floor to ceiling heights and a greater percentage of perimeter office area, which allows the building to generate sufficient income to overcome the premium construction costs of approximately \$6.3 million and inefficiencies associated with the unique conditions of the site; and

WHEREAS, as to the uniqueness of these soil conditions, the applicant's research reflects that recent developments in the vicinity of the site were either able to utilize previously existing building foundations for the new construction, or were not located in a probable liquefiable zone, and therefore could use shorter piles than the subject site; and

WHEREAS, the High Line Building asserts that the West 13th Street variance, which relied on certain similar hardship conditions as the subject site, undermines the applicant's claims of uniqueness; and

WHEREAS, the Board disagrees, noting that a finding of uniqueness, does not require that a given parcel be the only property so burdened by the condition(s) giving rise to the hardship, only that the condition is not so generally applicable as to dictate that the grant of a variance to all similarly situated properties would effect a material change in the district's zoning (see *Douglaston Civ. Assn. v. Klein*, 51 N.Y.2d 963, 965 (1980)); and

WHEREAS, based upon the above, the Board finds that the presence of the High Line, the irregular shape of the developable portion of the lot, and the poor soil conditions, when considered in the aggregate, create unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, the applicant initially submitted a feasibility study that analyzed: (1) a complying commercial development on the subject lot; (2) the original 6.68 FAR commercial development with height and setback waivers; (3) a complying commercial development on a lot without a hardship; (4) a lesser variance scenario with only an FAR waiver; and (5) a lesser variance scenario with only height and setback waivers; and

WHEREAS, the applicant concluded that only the 6.68 FAR scenario would realize a reasonable rate of return; and

WHEREAS, in response to the Board's concerns, the applicant revised its analysis to include first a 6.18 FAR scenario and ultimately the proposed 5.0 FAR scenario; and

WHEREAS, the Board also raised concerns about assigning premium costs to the proposed design choices not associated with the hardship at the site; and

WHEREAS, in response, the applicant excluded any premium costs associated with specific design choices; and

WHEREAS, the High Line Building submitted a financial analysis which questioned the applicant's conclusions including, specifically, the capitalization rate, the cost valuations and the underlying formulas; and

MINUTES

WHEREAS, in response, the applicant notes that due to the risk in speculative commercial development, a higher, more conservative, capitalization rate is appropriate; the applicant states that its data source is derived from surveys of investors in similar development projects; and

WHEREAS, the applicant concluded that none of the as-of-right scenarios would result in a reasonable return, due to the unique physical conditions of the site and the resulting premium construction costs, but that the proposed building would realize a reasonable return and has submitted evidence in support of that assertion; and

WHEREAS, the Board has reviewed the applicant's revised analysis and assumptions and finds that they are consistent with financial analyses that the Board has accepted for similar variance applications; and

WHEREAS, based upon its review of the applicant's submissions, the Board has determined that because of the subject site's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, as to bulk, the applicant represents that the proposed height of 175 feet to the roof of the tenth floor and 199 feet to the top of the rooftop mechanicals and 5.0 FAR are compatible with the neighborhood character; and

WHEREAS, the applicant notes that 5.0 FAR is permitted pursuant to underlying zoning district regulations; and

WHEREAS, the applicant notes that the Standard Hotel, an 18-story hotel building located immediately south of the subject site is built to a height of 271 feet; and

WHEREAS, the applicant represents that the scale and bulk of the proposed building is similar to that of the Standard Hotel and the High Line Building, a 14-story retail office building northwest of the project site, with a height of 221 feet; and

WHEREAS, the applicant asserts that the proposed design is more compatible with the surrounding area than a complying building would be as it will protect easterly and southerly light and air to this segment of the High Line and protects southwesterly light, air, and views for this section of the High Line; and

WHEREAS, the applicant states that although the Environmental Assessment Statement does not predict any significant environmental impacts to the High Line from construction at the site due to the fact that the Washington Grasslands area is planted with shade-tolerant grasses and flowers, the applicant proposes to carve out a portion of the building to maintain more daylight on the High Line than would be provided by the complying design without a carve out; and

WHEREAS, the applicant notes that the proposed design sets back the portion of the building closest to the High Line to preserve the light and air access; and

WHEREAS, the applicant states that its engineering consultant performed a study with three-dimensional models of the proposal, an as-of-right building; and a building with a complying setback/non-complying FAR building to determine the annual potential for solar exposure; and

WHEREAS, the applicant states that the study depicts the total number of hours of direct sunlight that could potentially reach the Washington Grasslands section under each scenario and concluded that the as-of-right and FAR variance buildings had more significant impact on the High Line than the proposal which shifts the bulk of the building to the Tenth Avenue frontage and includes an angled carve-out on the lower levels; and

WHEREAS, the applicant notes that the height and setback waivers are primarily attributed to the design which pulls the bulk of the building off of the High Line and onto Tenth Avenue, a wide street; and

WHEREAS, as noted, the majority of the required rear yard at the interior corner of the site is actually traversed by the High Line and only a very small portion remains that would be impractical to remain undeveloped; and

WHEREAS, due to the site's location within the State/National Register Gansevoort Market Historic District, the Landmarks Preservation Commission (LPC) confirmed its review of the proposed demolition of the existing buildings on the site by letter dated December 13, 2013; and

WHEREAS, the High Line Building raised concerns that the applicant has not established a context for the FAR or building height and that a proposed outdoor commercial space would not be compatible with the High Line; and

WHEREAS, the Board is not persuaded by the applicant's assertions and finds that the applicant has established a context for the proposed FAR and building height; specifically, the Board notes that the revised proposal for 5.0 FAR complies with zoning district regulations and that, as noted above, the High Line Building is among those with heights greater than 199 feet in the immediate vicinity; the Whitney Museum also has a proposed height of 199 feet; and

WHEREAS, the Board notes that the as-of-right building could have greater impact on the High Line Building by obscuring lot line windows and reaching a height of 267 feet; and

WHEREAS, in contrast, the proposed building sets back from the High Line Building by approximately 16 feet along its western façade; and

WHEREAS, as to the proposed outdoor commercial space, the Board notes that it is a conforming use in the zoning district and that the height of the outdoor terrace was designed to be compatible with the High Line and only requires a waiver for the portion that is within the required rear yard; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent

MINUTES

properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title, but is due to the proximity of the High Line, the irregularity of the subject lot, and the subsurface soil conditions on the site; and

WHEREAS, as noted above, the applicant initially proposed to construct a building with a floor area of floor area of 157,280 sq. ft. (6.68 FAR), which required a waiver of the FAR due to the zoning district maximum of 5.0 FAR; and

WHEREAS, the High Line Building raised concerns that as the FAR was reduced, the height should also have been reduced in order to reflect the minimum variance; and

WHEREAS, the Board notes that the applicant does not seek a height waiver and that the proposed building height is 20 to 45 feet lower than that of the High Line Building; and

WHEREAS, accordingly, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 13BSA048M, dated May 5, 2014; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the site is located in the State/National Register Gansevoort Market Historic District, and the buildings on the site are to be demolished for the proposed project; and

WHEREAS, the New York City Landmarks Preservation Commission (“LPC”) has reviewed the Environmental Assessment Statement (“EAS”) and the Historical Documentation Alternatives Analysis and Mitigation Plan, dated May 2, 2014 and concurs with the findings that there are no feasible or prudent alternatives to demolition; and

WHEREAS, LPC has requested a Historic American Building Survey (“HABS”) Level II documentation for buildings to be demolished on the site and design review of the proposed new building; and

WHEREAS, according to the EAS and the September 2011 Remedial Action Plan, the site has been submitted for entry into the New York City Brownfield Cleanup Program

administered by the Office of Environmental Remediation (“OER”); and

WHEREAS, based on the level of site contamination and the applicant’s proposal to construct subject to BCP approval, the Department of Environmental Protection recommends that an E designation for hazardous materials be placed on the site as part of the approval; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type I Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, in an M1-5 zoning district, the construction of a ten-story commercial building which does not comply with the zoning requirements for rear yard, height and setback, and sky exposure plane regulations contrary to ZR §§ 43-12, 43-311, 43-312, and 43-43, *on condition* that any and all work will substantially conform to drawings as they apply to the objections above noted, filed with this application marked “Received March 19, 2014”– (21) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the proposed building: a maximum height of 175 feet to the roof of the tenth floor; a maximum total height of 199 feet, including rooftop mechanicals; and a maximum total floor area of 117,705 sq. ft. (5.0 FAR), as reflect on the BSA-approved plans;

THAT prior to the issuance by DOB of permits for demolition of the buildings on the site, LPC will have reviewed and approved a scope of work for HABS documentation and reviewed the design of the proposed building;

THAT an E designation (E-334) is placed on the subject site to ensure proper hazardous materials remediation;

THAT prior to the issuance by DOB of permits that involve any soil disturbance, the applicant will receive approvals from OER for the hazardous materials remediation plan and construction-related health and safety plan;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT substantial construction shall be completed in accordance with ZR § 72-23;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning

MINUTES

Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 13, 2014.

252-13-BZ

APPLICANT – Law Office of Fredrick A. Becker, for Eli Schron, owner.

SUBJECT – Application August 29, 2013 – Special Permit (§73-622) for the enlargement of an existing single family home, contrary to floor area and open space (§23-141) and less than the required rear yard (§23-47). R-2 zoning district. PREMISES AFFECTED – 1221 East 22nd Street, east side of East 22nd Street between Avenue K and Avenue L, Block 7622, Lot 21, Borough of Brooklyn.

COMMUNITY BOARD #14BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown and Commissioner Hinkson...4

Negative:.....0

Absent: Commissioner Montanez1

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner of the New York City Department of Buildings (“DOB”), dated August 28, 2013, acting on DOB Application No. 320835209, reads in pertinent part:

Proposed floor area ratio is contrary to ZR 23-141;

Proposed open space ratio is contrary to ZR 23-141;

Proposed rear yard is contrary to ZR 23-47; and

WHEREAS, this is an application under ZR §§ 73-03 and 73-622, to permit, within an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio (“FAR”), open space ratio, and rear yard, contrary to ZR §§ 23-141 and 23-47; and

WHEREAS, a public hearing was held on this application on March 4, 2014, after due notice by publication in *The City Record*, with continued hearings on April 1, 2014 and April 29, 2014, and then to decision on May 13, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 14, Brooklyn, recommends disapproval of the application; and

WHEREAS, the subject site is located on the east side of East 22nd Street, between Avenue K and Avenue L, within an R2 zoning district; and

WHEREAS, the site has 60 feet of frontage along East 22nd Street and 6,000 sq. ft. of lot area; and

WHEREAS, the site is occupied by a single-family home with 2,728 sq. ft. of floor area (0.45 FAR); and

WHEREAS, the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant now seeks to increase the floor area of the home from 2,728 sq. ft. of floor area (0.45 FAR) to 6,437 sq. ft. (1.07 FAR); the maximum permitted floor area is 3,000 sq. ft. (0.5 FAR); and

WHEREAS, the applicant seeks to decrease the open space ratio from 165.75 percent to 56.21 percent; the minimum required open space ratio is 150 percent; and

WHEREAS, the applicant also seeks to decrease its rear yard depth to from 33’-9½” to 22’-4” (a rear yard with a minimum depth of 30’-0” is required); and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood and will not impair the future use or development of the surrounding area; and

WHEREAS, the applicant asserts that the proposed 1.07 FAR is consistent with the bulk in the surrounding area; and

WHEREAS, in support of this statement, the applicant submitted a study of homes in the immediate vicinity (three of the four adjacent blocks and the subject block); according to the study, 17 homes have an FAR of 1.0 or greater, including six that have an FAR of 1.07 or greater and eight that were enlarged pursuant to a special permit from the Board; and

WHEREAS, at hearing, the Board expressed concerns regarding: (1) the compatibility of the height of the proposed home with the existing homes along East 22nd Street; and (2) the proposed canopy; and

WHEREAS, in response, the applicant amended its plans to: (1) reduce the proposed building height from 38’-11¾” to 36’-0”; and (2) note that the canopy is subject to DOB approval; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-03 and 73-622, to permit, within an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio (“FAR”), open space ratio, and rear yard, contrary to ZR §§ 23-141 and 23-47; *on condition* that all work will substantially conform to drawings as they apply to

MINUTES

the objections above-noted, filed with this application and marked "Received April 14, 2014"–(17) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 6,437 sq. ft. (1.07 FAR), a minimum open space ratio of 56.21 percent, side yards with minimum widths of 5'-0" and 10'-2", a minimum rear yard depth of 22'-4", and a maximum building height of 36'-0", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 13, 2014.

253-13-BZ

APPLICANT – Eric Palatnik, P.C., for Miyer Yusupov, owner.

SUBJECT – Application August 30, 2013 – Special Permit (§73-621) for the enlargement of an existing two-story, two-family home, contrary to floor area (§23-141B) regulations. R4B zoning district.

PREMISES AFFECTED – 66-31 Booth Street, north side of Booth Street between 66th and 67th Avenue, Block 3158, Lot 96, Borough of Queens.

COMMUNITY BOARD #6Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown and Commissioner Hinkson...4
Negative:.....0

Absent: Commissioner Montanez1
THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner of the Department of Buildings ("DOB"), dated August 6, 2013, acting on DOB Application No. 420867887, reads in pertinent part:

Proposed enlargement of existing three-story attached two-family dwelling in an R4B zoning district exceeds permitted floor area by 180 sq. ft., contrary to Sections 23-141 and 54-31; and

WHEREAS, this is an application under ZR §§ 73-03 and 73-621, to permit, within an R4B zoning district, the enlargement of an existing two-family home, which does not comply with the zoning requirements for floor area, contrary

to ZR §§ 23-141 and 54-31; and

WHEREAS, a public hearing was held on this application March 25, 2014, after due notice by publication in *The City Record*, with a continued hearing on April 29, 2014, and then to decision on May 13, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 6, Queens, recommends approval of this application; and

WHEREAS, the subject site is located on the north side of Booth Street, between 66th Avenue and 67th Avenue, within an R4B zoning district; and

WHEREAS, the site has 20 feet of frontage along Booth Street and 2,000 sq. ft. of lot area; and

WHEREAS, the site is currently occupied by a three-story, two-family home with 1,868.76 sq. ft. of floor area (0.93 FAR); and

WHEREAS, the applicant proposes to increase the floor area of the building from 1,868.76 sq. ft. of floor area (0.93 FAR) to 1,972.99 (0.99 FAR); the maximum permitted FAR of the site is 0.90; and

WHEREAS, the special permit authorized by ZR § 73-621 is available to enlarge buildings containing residential uses that existed on December 15, 1961, or, in certain districts, on June 20, 1989; therefore, as a threshold matter, the applicant must establish that the subject building existed as of that date; and

WHEREAS, the applicant submitted an excerpt from Volume 9 of the Queens Sanborn Map (covering 1982-1984) to demonstrate that the building existed as a residence well before June 30, 1989, which is the operative date within the subject R4B district; and

WHEREAS, accordingly, the Board acknowledges that the special permit under ZR § 73-621 is available to enlarge the building; and

WHEREAS, ZR § 73-621 permits the enlargement of a residential building, provided that the proposed FAR does not exceed 110 percent of the maximum permitted (0.90 FAR); and

WHEREAS, the applicant represents that the proposed lot coverage (0.99 percent) is 110 percent of the maximum permitted (0.90 FAR); and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed enlargement satisfies all of the relevant requirements of ZR § 73-621; and

WHEREAS, based on its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposal does not interfere with any pending public improvement project; and

WHEREAS, at hearing, the Board noted that the proposed FAR calculations, including the noted deductions,

MINUTES

are subject to DOB approval; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-621 and 73-03.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.13, §§ 5-02(a), 5-02(b)(2), and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR §§ 73-03 and 73-621 to permit, within an R4B zoning district, the enlargement of an existing two-family home, which does not comply with the zoning requirements for floor area, contrary to ZR §§ 23-141 and 54-31; on condition that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received April 16, 2014"- (3) sheets; and on further condition:

THAT the parameters of the proposed building will be limited to: three stories, two dwelling units, a maximum floor area of 1,972.99 (0.99 FAR), a maximum building height of 27'-0", 41 percent lot coverage, and a minimum rear yard depth of 39'-9", as per the BSA-approved plans;

THAT the FAR calculations will be as reviewed and approved by DOB;

THAT this approval is limited to the relief granted by the Board, in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT significant construction will proceed in accordance with ZR §§ 72-23 and 73-70; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 13, 2014.

Negative:.....0

Absent: Vice Chair Collins.....1

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner of the New York City Department of Buildings (“DOB”), dated March 14, 2014, acting on DOB Application No. 320864695, reads in pertinent part:

The proposed enlargement creates new non-compliances, as follows:

1. Increases the existing degree of non-compliance with reference to floor area and is contrary to sections 23-141;
2. Increases the existing degree of non-compliance for floor area ratio and is contrary to sections 23-141;
3. Increases the existing non-compliance for wall height contrary to sections 23-631;
4. Increase the existing non-compliance for rear yard and is contrary to sections 24-37; and

WHEREAS, this is an application under ZR § 73-622, to permit, within an R3-1 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio (“FAR”), perimeter wall height, and rear yard, contrary to ZR §§ 23-141, 23-47, and 23-631; and

WHEREAS, a public hearing was held on this application on January 28, 2014, after due notice by publication in *The City Record*, with a continued hearing on March 25, 2014, and then to decision on April 8, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan,

Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of Hastings Street, between Oriental Boulevard and Hampton Avenue, within an R3-1 zoning district; and

WHEREAS, the site has a lot area of 4,000 sq. ft. and is occupied by a single-family home with a floor area of 3,612 sq. ft. (0.9 FAR); and

WHEREAS, the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant now seeks an increase in the floor area from of 3,612 sq. ft. (0.9 FAR) to 4,044.8 sq. ft. (1.01 FAR); the maximum permitted floor area is 2,000 sq. ft. (0.5 FAR), however, a 20 percent increase in FAR pursuant to ZR § 23-141(b)(1) is available, resulting in a maximum permitted floor area of 2,400 sq. ft. (0.6 FAR); and

WHEREAS, the applicant also seeks to decrease its rear yard depth from 25’-9” to 20’-0”; a minimum rear yard depth of 30’-0” is required; and

WHEREAS, finally, the applicant seeks to maintain and extend its existing, non-complying perimeter wall height of 24’-0”; the maximum permitted perimeter wall height is 21’-0”; and

WHEREAS, the Board notes that ZR § 73-622(3) allows the Board to waive the perimeter wall height only in instances where the proposed perimeter wall height is equal to or less than the height of the adjacent building’s non-complying perimeter wall facing the street; and

WHEREAS, the applicant represents that the proposed perimeter wall height (24’-0”) is equal to the height of both adjacent buildings’ non-complying perimeter walls facing the street 24’-0”); the applicant submitted the adjacent buildings’ certificates of occupancy, which indicate that they and the subject building are substantially identical and were constructed at the same time with the same perimeter wall height facing the street; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood and will not impair the future use or development of the surrounding area; and

WHEREAS, in particular, the applicant represents that the proposed 1.01 FAR is consistent with the bulk in the surrounding area and that, within a 200-ft. radius of the site, every home has been enlarged in recent years; and

WHEREAS, accordingly, the Board agrees with the applicant that the proposed bulk is compatible with the character of the neighborhood; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

MINUTES

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622, to permit, within an R3-1 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio ("FAR") and rear yard, contrary to ZR §§ 23-141 and 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received April 1, 2014"- (9) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 4,044.8 sq. ft. (1.01 FAR), a maximum perimeter wall height of 24'-0", and a minimum rear yard depth of 20'-0", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 8, 2014.

The resolution have been amended to correct the floor area which read: ...“3,910 sq. ft. (0.98 FAR)”. Now reads: ...“4,044.8 sq. ft. (1.01 FAR)” Corrected in Bulletin No. 20, Vol. 99, dated May 21, 2014.

*CORRECTION

The resolution adopted on April 29, 2014, under Calendar No. 246-13-BZ and printed in Volume 99, Bulletin Nos. 16-18, is hereby corrected to read as follows:

246-13-BZ

CEQR #14-BSA-025K

APPLICANT – Rothkrug Rothkrug & Spector LLP, for Lutheran Medical Center, owner.

SUBJECT – Application August 21, 2013 – Variance (§72-21) to permit the enlargement of an existing ambulatory diagnostic treatment health facility (UG4), contrary to floor area (§24-11) and rear yard (§24-36) regulations. R6B/C4-3A zoning districts.

PREMISES AFFECTED – 514 55th Street, south side of 49th Street, 90' east of intersection of 5th Avenue and 49th Street, Block 784, Lot 10, Borough of Brooklyn.

COMMUNITY BOARD #7BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

THE RESOLUTION –

WHEREAS, the decision of the Executive Zoning Specialist of the Department of Buildings ("DOB"), dated July 22, 2013, acting on DOB Application No. 320590339, reads in pertinent part:

1. Floor area in R6B lot portion exceeds the maximum permitted; contrary to ZR 24-11;
2. Enlargement in the required rear yard is not permitted; contrary to ZR 24-36; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site located partially within an R6B zoning district and partially within a C4-3A zoning district, the horizontal enlargement of the basement and first story of a four-story ambulatory diagnostic and treatment health care facility (Use Group 4) that exceeds the maximum permitted floor area ratio ("FAR") and does not provide the minimum required rear yard in the R6B portion of the site, contrary to ZR §§ 24-11 and 24-36; and

WHEREAS, a public hearing was held on this application on March 11, 2014, after due notice by publication in the *City Record*, with a continued hearing on April 8, 2014, and then to decision on April 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, this application is brought on behalf of Lutheran HealthCare, a not-for-profit institution; and

MINUTES

WHEREAS, Community Board 7, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is a rectangular interior lot located on the south side of 49th Street between Fifth Avenue and Sixth Avenue, partially within an R6B zoning district and partially within a C4-3A zoning district; and

WHEREAS, the site has 191 feet of frontage along 49th Street, a lot depth of 100.17 feet, and a lot area of 19,131 sq. ft.; and

WHEREAS, the site is divided by a zoning district boundary, with the westernmost ten feet of the site for its full depth is located within a C4-3 zoning district and the remainder of the lot located within an R6B zoning district; and

WHEREAS, the site is occupied by a four-story ambulatory diagnostic and treatment health care facility (Use Group 4) with 35,378 sq. ft. of floor area (1.8 FAR); the facility is operated by Lutheran HealthCare (“LHC”) and known as the Sunset Terrace Family Health Center (“STFHC”); and

WHEREAS, the applicant notes that the facility was completed in 1960 and underwent its only major renovation in 1977; and

WHEREAS, the applicant proposes to enlarge the basement and first story at the rear of the building, which will increase the floor area from 35,378 sq. ft. (1.8 FAR) to 40,912 sq. ft. (2.14 FAR); and

WHEREAS, the applicant states that the basement enlargement will comprise 2,637 sq. ft. of floor area and provide space for offices, staff room, storage and mechanical equipment; the first story enlargement will comprise 2,997 sq. ft. of floor area and will provide space for examination rooms, additional offices, work stations, and restrooms; and

WHEREAS, the applicant states that a variance is requested because the proposed enlargement will exceed the maximum permitted floor area for the site (39,263 sq. ft. (2.05 FAR)) and will extend the existing non-complying rear yard depth of 11 feet for the full width of the building; and

WHEREAS, the applicant notes that LHC, which operates STFHC, has served the ethnically diverse, medically underserved neighborhoods of central and southwest Brooklyn for more than 40 years, and that the official LHC service area includes approximately 700,000 residents (28 percent of the total Brooklyn population); and

WHEREAS, the applicant states that STFHC is facing a large influx of patients due to three factors: (1) the closure or threatened closure of nearby health systems and hospitals, such as Long Island Hospital, Brookdale Hospital, and Interfaith Medical Center; (2) the initiation of the New York Health Home system (under the requirements of the New York State Medicaid Redesign Team), which requires coordination of mental illness treatment with medical treatment; and (3) the implementation of family homeless services; and

WHEREAS, the applicant represents that the following are unique physical conditions inherent to the zoning lot, which, in accordance with ZR § 72-21(a), create practical

difficulties and unnecessary hardship in developing the site in strict conformance with underlying zoning regulations: (1) the history of community facility use at the site and obsolescence of the building at the site for such use (including the outmoded configuration of its floorplates); and (2) the programmatic needs of LHC; and

WHEREAS, as noted above, the applicant states that LHC has been providing health services at the site for decades in a building that was constructed in 1960; as such, community facility use at the site is well-established; and

WHEREAS, the applicant notes that the building was constructed without a cellar; therefore, it must use above-grade spaces for common below-grade uses such as storage of materials and mechanical equipment; and

WHEREAS, in addition, the applicant states that the building was last renovated in 1977 and its layouts include redundancies and inefficiencies (such as a single entrance for all patients), which interfere with LHC’s ability to provide quality health care; and

WHEREAS, the applicant states that the building must expand to satisfy LHC’s programmatic needs, including providing: (1) proper separation of offices, storage space, and staff rooms from patient services; (2) expansion of the primary care areas; (3) establishment of dental care program space; (4) expansion of behavioral health patient areas; (5) separation of patients by health care need; and (6) for the elimination of the joint reception area, which is undesirable given the diversity of the services offered by LHC; and

WHEREAS, the applicant also states that remaining in the building is critical to the care STFHC provides to the surrounding community because many of its patients live nearby and cannot travel long distances for services; and

WHEREAS, the applicant contends that providing some services at the site and others offsite would substantially interfere with patient care, require duplication of non-patient spaces, services, and staff, and be inconsistent with the recommendations of the New York State Medicaid Redesign Team; and

WHEREAS, similarly, the applicant represents that relocating the facility entirely is not possible because there are no comparable buildings or sites within Sunset Park and that the vast majority of lots in the area (both vacant and occupied) have lot areas of approximately 2,000 sq. ft.—well below the size that would be needed to accommodate a suitable building for STFHC; and

WHEREAS, the applicant explored the feasibility of the following as-of-right development scenarios: (1) a three-story rear enlargement for a depth of 14 feet (“Scenario 1”); (2) a four-story enlargement to the west side of the building (“Scenario 2”); and (3) a complete renovation of the entire building, including significant demolition and reconstruction (“Scenario 3”); and

WHEREAS, the applicant states that Scenario 1 would not allow for the additional examination rooms and corridors due to its limited depth and it would not alleviate the entrance bottleneck caused by the single patient entrance; in addition, it

MINUTES

would require the placement of medical examination and dental examination rooms on separate levels and would prevent the consolidation of staff spaces and instead separate such spaces by several stories with only one elevator connecting them; and

WHEREAS, the applicant states that Scenario 2 would result in approximately 60 percent less new program space than the proposal, resulting in a reduction and/or elimination of programs and funding; further, Scenario 2 would require reconfiguration of the boiler room, relocation of an egress stair, and the installation of a new sprinkler system, at significant cost; and

WHEREAS, as for Scenario 3, the applicant represents that it is not viable due to the costs involved and the significant disruptions in patient care; and

WHEREAS, accordingly, the applicant asserts that the building's inefficiencies and LHC's programmatic needs are best addressed with the proposed horizontal enlargement; and

WHEREAS, based upon the above, the Board finds that the history of community facility use at the site and the obsolescence of the building, when considered in conjunction with the programmatic needs of LHC, create unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, since LHC is a non-profit institution and the variance is needed to further its non-profit mission, the finding set forth at ZR § 72-21(b) does not have to be made in order to grant the variance requested in this application; and

WHEREAS, the applicant represents that, per ZR § 72-21(c), the variance, if granted, will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant represents that the neighborhood is characterized by a mix of low- to medium-density residential, community facility, and, where permitted, commercial uses; and

WHEREAS, the applicant states that the site has been occupied by a medical facility for more than 50 years, that Use Group 4 is permitted as-of-right in the subject zoning districts (R6B and C4-3A), and that the operator of the facility is an organization with significant ties to the community; and

WHEREAS, as to adjacent properties, the applicant states that there are mixed residential and commercial buildings along Fifth Avenue to the west of the site, and residential buildings to the north, east, and south of the site; and

WHEREAS, the applicant states that the proposed enlargement is a continuation of the building's existing, non-complying rear yard depth of 11 feet and that its impact upon the residences to the south is mitigated by the fact that those buildings provide complying rear yards with depths of 30 feet and are separated from the site by a retaining wall and a fence; and

WHEREAS, as to the FAR waiver, the applicant asserts

that while it is modest (the proposal seeks 0.09 FAR greater than is permitted at the site), a noted above, the additional floor area is essential to LHC's ability to carry out its programmatic needs; further, the additional floor area will be located entirely within the rear of the site, will have no impact on the building's overall height, number of stories or appearance from the street, and is within the ten-percent increase in floor area permitted by special permit under ZR § 73-63 (*Enlargement of Non-Residential Buildings*); and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that the hardship was not self-created and that no development that would meet the programmatic needs of LHC could occur on the existing lot; and

WHEREAS, accordingly, the Board finds that, per ZR § 72-21(d) the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, the Board also finds that the requested relief is the minimum necessary, in accordance with ZR § 72-21(e); and

WHEREAS, thus, the Board has determined that the evidence in the record supports the findings required to be made under ZR §72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 14-BSA-025K, dated August 14, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is resolved, that the Board of Standards and Appeals issues a Negative declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings

MINUTES

under ZR § 72-21 and grants a variance, to permit, on a site located partially within an R6B zoning district and partially within a C4-3A zoning district, the horizontal enlargement of the basement and first story of a four-story ambulatory diagnostic and treatment health care facility (Use Group 4) that exceeds the maximum permitted floor area ratio (“FAR”) and does not provide the minimum required rear yard in the R6B portion of the site, contrary to ZR §§ 24-11 and 24-36; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked “Received November 26, 2013” –(5) sheets; and *on further condition*;

THAT the following shall be the bulk parameters of the building: a maximum of 40,912 sq. ft. (2.14 FAR) and a minimum rear yard depth of 11’-0”, as indicated on the BSA-approved plans;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown and Commissioner Hinkson.....4

Negative:.....0

Absent: Commissioner Montanez1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated July 11, 2013, acting on DOB Application No. 121610211, reads, in pertinent part:

Proposed use of portion of the cellar as a Physical Culture Establishment (PCE) is not permitted as of right in C4-7 zoning district and is contrary to ZR Section 32-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site partially within a C4-7 zoning

district and partially within an R8 zoning district, the legalization of an existing physical culture establishment (“PCE”) in the cellar of a 31-story mixed residential and commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application November 26, 2013, after due notice by publication in the *City Record*, with continued hearings on December 17, 2013, January 28, 2014, March 11, 2014 and April 29, 2014, and then to decision on May 20, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 7, Manhattan, initially recommended approval of the application; however, by resolution dated February 4, 2014, Community Board 7 recommends disapproval of the application, citing the following primary concerns: (1) the accuracy and completeness of the information provided by the applicant regarding the impact of this particular type of gym and the exercises performed; (2) the lack of analysis of acoustical concerns relating to hammering, percussive, and transmitted vibrations and noise; (3) the short- and long-term impact of the gym activities upon the building structure; and (4) the adequacy of the proposed sound attenuation; and

WHEREAS, City Councilperson Helen Rosenthal recommends disapproval of the application; and

WHEREAS, Manhattan Borough President Gale Brewer submitted testimony regarding the application urging the Board to consider any potential negative impacts; and

WHEREAS, certain members of the surrounding community submitted testimony in support of the application; and

WHEREAS, certain members of the surrounding community, including residents of the subject building, submitted testimony in opposition to the application (the “Opposition”); the Opposition’s primary concerns include those raised by the Community Board as well as (1) the incompatibility of the use with the residential use in the building and in the surrounding area; (2) the transmittal of noise and vibration throughout the building; (3) whether representative weights had been used for the acoustical studies and that a weight limit be set for weight-dropping activities; (4) the inclusion of PCE use in the R8 zoning district portion of the site; (5) the extension of the use onto the sidewalk and street outside the building; (6) an increase in noise associated with competitions or other events; (7) the fact that the PCE has commenced operation prior to obtaining its special permit; (8) the operation of other Cross Fit PCEs in the City; and (9) whether proper notification of the hearing was performed and whether all submissions were properly distributed; and

WHEREAS, the Opposition states that if the special permit is granted, consideration be given to (1) a term limited to two years from the July 2013 commencement of operations; and (2) limitations on the hours of operation and the hours that weights can be dropped; and

MINUTES

WHEREAS, the subject site is located on the northeast corner of the intersection of Columbus Avenue and West 67th Street, partially within a C4-7 zoning district and partially within an R8 zoning district, within the Special Lincoln Square District; and

WHEREAS, the site has 100.42 feet of frontage along Columbus Avenue, 150 feet of frontage along West 67th Street, and 21,088 sq. ft. of lot area; and

WHEREAS, the site is occupied by a 31-story mixed residential and commercial building; and

WHEREAS, the PCE occupies 6,461 sq. ft. of floor space in the cellar within the C4-7 zoning district portion of the site; and

WHEREAS, the PCE will be operated as CrossFit; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, at hearing, in response to the Opposition's concerns and based on its own observations from site visits and review of the application, the Board directed the applicant to provide additional information on the following issues: (1) whether notification and dissemination of submissions was completed in accordance with the Board's Rules; (2) whether the PCE had commenced to operate; (3) whether the PCE use was confined to the C4-7 zoning district portion of the site; (4) the conclusions of the acoustical studies and the proposal to include sound attenuation measures; (5) the proposed hours of operation and confirmation that the facility would be closed to all outside of those hours; and (6) whether events or competitions would be held on site; and

WHEREAS, as to notification, the applicant informed the Board that proper notification of the hearing had mistakenly not been performed prior to the first hearing and thus the Board continued the public hearing to a new date subsequent to the performance of proper notification; and

WHEREAS, similarly, the applicant corrected any omissions of submission transmittal to required parties in satisfaction of the Board's Rules for proof of service of submissions and supplementary materials pursuant to § 1-10.7; and

WHEREAS, as to operations, the applicant acknowledged that it had begun to phase in introductory sessions in July 2013, but only commenced PCE operations in November 2013; and

WHEREAS, as to the location of the PCE, the applicant revised its plans to reflect that no portion of the PCE will

operate within the R8 portion of the site and submitted photographs of the installation of a wall between the C4-7 portion of the site and the R8 portion of the site; and

WHEREAS, as to the concerns about sound and attenuation, the applicant's acoustic consultant performed studies from the fifth-floor commercial space just below the first floor of residential use and concluded that any noise effects are well within the City's Noise Code regulations; and

WHEREAS, the Board notes that the Opposition calls the applicant's acoustical study into question and states that it has performed its own, but has not offered any evidence to refute the applicant's findings; and

WHEREAS, further, the Board notes that the residential use in the building does not begin until the sixth floor and is thus separated from the cellar PCE use by five floors of commercial use and the Board finds the applicant's acoustical study to be credible and consistent with such studies that the Board has accepted with other PCE applications; and

WHEREAS, the Board notes that the applicant initially proposed attenuation measures, such as padded fitness flooring and sound-foam panels and that its acoustic consultant determined that those attenuation measures, without the raised flooring system, establish attenuation to a degree that allows the proposal to comply with Noise Code regulations; and

WHEREAS, however, the applicant now proposes to include the padding and a raised floor system throughout the PCE space, as reflected on the revised plans; and

WHEREAS, as to the hours of operation, the applicant states that it will agree to a limit use to the hours proposed by the Board and will not allow any PCE use in the facility outside of those hours; and

WHEREAS, the applicant stated that the PCE seeks to operate from 6:00 a.m. to 10:00 p.m. every day; and

WHEREAS, the Board considered the request and the concerns of the Opposition and concluded that 6:00 a.m. to 9:30 a.m., Monday through Friday and 9:00 a.m. to 6:00 p.m., Saturday and Sunday was more appropriate hours; and

WHEREAS, as to the Opposition's concern about high intensity use including events and competitions, the applicant responded that it will not hold such activities on site; and

WHEREAS, the Board notes that the size of the PCE at approximately 6,500 sq. ft. is on the smaller side of the PCEs it has reviewed and agrees that the space does not lend itself to such use and is thus satisfied that the applicant has agreed not to hold them onsite; and

WHEREAS, in response to the Opposition's concerns regarding the potential for the PCE's operations to damage the structure of the building, the applicant provided a report from the building's structural engineer who designed the existing structural system, which concludes that the building can accommodate the proposed use; and

WHEREAS, the Board reviewed the submissions made by the building's engineer but concludes that the questions of structural integrity are properly before the Department of Buildings and notes that for the Board's purposes, the report is

MINUTES

sufficient; and

WHEREAS, the Board notes that no reports have been introduced to the record which challenge the applicant's engineer's conclusions regarding the building's structural sufficiency; and

WHEREAS, as to the term, the Board notes that given the significant number of concerns including questions about the efficacy of the proposed sound attenuation measures and the applicant's commencement of operations and after hours use of the space, the Board deems a two-year term from the date of this grant to be appropriate; and

WHEREAS, finally, the Board notes that concerns about the use of other Cross Fit facilities in the City are not germane to the analysis for the subject site as each site has a unique set of building conditions; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No. 14BSA016M dated July 15, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issued a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and

makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site partially within a C4-7 zoning district and partially within an R8 zoning district, the legalization of an existing physical culture establishment (PCE) in the cellar of a 31-story mixed residential and commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received April 24, 2014" – Seven (7) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on May 20, 2016;

THAT the PCE use is limited to the C4-7 zoning district portion of the site; the wall separating the C4-7 portion of the site from the R8 zoning district portion of the site will be maintained, as reflected on the BSA-approved plans, and no PCE use will be permitted in the R8 portion of the site;

THAT the hours of operation for the PCE will be limited to Monday through Friday, from 6:00 a.m. to 9:30 p.m. and Saturday and Sunday from 9:00 a.m. to 6:00 p.m.;

THAT no private training or other PCE activity will be held outside of the noted hours of operation;

THAT competitions or other similarly-attended events are prohibited;

THAT sound-attenuating measures, including a raised flooring system and padded fitness flooring will be installed and maintained throughout the entire PCE space and sound-foam panels will be installed and maintained along certain walls, as reflected on the approved plans;

THAT the sound attenuation measures will be installed by November 20, 2014;

THAT the use of the facility will comply with New York City Noise Code regulations;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT DOB will review and approve occupancy loads, including as related to equipment use;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the

MINUTES

Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 20, 2014.

Absent: Commissioner Montanez1

WHEREAS, the decision of the Manhattan Borough Commissioner of the Department of Buildings (“DOB”), dated September 18, 2013, acting on DOB Application No. 120417487, reads, in pertinent part:

Physical culture establishment is being proposed [which] is not permitted as-of-right in a manufacturing district contrary to section 42-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within an M1-5 zoning district, within the Tribeca East Historic District, the legalization of an existing physical culture establishment (“PCE”) operating in a portion of the third story of a three-story commercial building, contrary to ZR § 32-31; and

WHEREAS, a public hearing was held on this application on April 1, 2014, after due notice by publication in the *City Record*, with a continued hearing on April 29, 2014, and then to decision on May 20, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Manhattan, recommends approval of the application; and

WHEREAS, the subject site is located on the east side of Broadway between Walker Street and Lispenard Street, within an M1-5 zoning district, within the Tribeca East Historic District; and

WHEREAS, the site has 52.5 feet of frontage along Broadway and 5,249 sq. ft. of lot area; and

WHEREAS, the site is occupied by two, three-story

buildings (known as 404 and 406 Broadway), which the applicant represents share a common stair and elevator and operate together under a single Certificate of Occupancy; and

WHEREAS, the PCE occupies 2,907 sq. ft. of floor area on the third story of the buildings; and

WHEREAS, the PCE is operated as Bikram Yoga Studio; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE will be Monday through Friday, from 6:30 a.m. to 8:30 p.m. and Saturday and Sunday, from 10:00 a.m. to 5:30 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, on October 14, 2010, the Landmarks Preservation Commission (“LPC”) issued a Certificate of Appropriateness for certain renovations to 406 Broadway and on March 13, 2013, LPC issued a Certificate of No Effect for interior work related to the PCE; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, at hearing, the Board directed the applicant to clarify: (1) the reason(s) for the active Stop Work Order at the site; and (2) whether the proposed signage was approved by LPC; and

WHEREAS, in response, the applicant stated that the Stop Work Order is related to audits of open permit applications; the applicant represents that all objections raised during the course of the audit have been resolved except the objection relating to the subject PCE; the applicant also notes that the issuance of the subject special permit will resolve the only outstanding objection and result DOB’s rescission of the Stop Work Order; and

WHEREAS, as to the proposed signage, the applicant represents that it is not subject to LPC approval because of its location; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the operation of the PCE without the special permit since December 15, 2013; and

MINUTES

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Type I action pursuant to 6 NYCRR Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No. 14BSA146M dated February 4, 2014; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issued a Type I Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site within an M1-5 zoning district, within the Tribeca East Historic District, the legalization of an existing PCE operating in a portion of the third story of a three-story commercial building, contrary to ZR § 32-31; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received February 6, 2014" – Three (3) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on December 15, 2023;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, May 20, 2014.

WHEREAS, the decision of the Manhattan Borough Commissioner of the Department of Buildings (“DOB”), dated December 27, 2013, acting on DOB Application No. 120635465, reads, in pertinent part:

Proposed changes of use at cellar and first floor to physical culture establishment is contrary to ZR 32-31; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site partially within a C6-2A zoning district, partially within an R8B zoning district, and partially within an R8A zoning district, the operation of a physical culture establishment (“PCE”) in portions of the cellar and first story of a six-story mixed residential and commercial building, contrary to ZR § 32-31; and

WHEREAS, a public hearing was held on this application on April 29, 2014, after due notice by publication in the *City Record*, and then to decision on May 20, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 4, Manhattan, recommends approval of the application; and

WHEREAS, the subject site spans the west side of Sixth Avenue between West 15th Street and West 16th Street, partially within a C6-2A zoning district, partially within an R8B zoning district, and partially within an R8A zoning district; and

WHEREAS, the site has 150 feet of frontage along West 15th Street, 206.5 feet of frontage along Sixth Avenue, 150 feet of frontage along West 16th Street, and 30,975 sq. ft. of lot area; and

WHEREAS, the site is occupied by a six-story mixed residential and commercial building; and

WHEREAS, the proposed PCE will occupy 9,492 sq. ft. of floor space – 4,012 sq. ft. of floor area on the first story and 5,480 sq. ft. of floor space in the cellar; and

WHEREAS, the applicant states that no portion of the PCE will operate within the R8A portion of the site; and

WHEREAS, the PCE will be operated as BFX Studio; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE will be Monday through Friday, from 5:00 a.m. to 11:00 p.m. and Saturday and Sunday, from 6:00 a.m. to 11:00 p.m.; and

MINUTES

*CORRECTION

This resolution adopted on February 25, 2014, under Calendar No. 238-07-BZ and printed in Volume 99, Bulletin Nos. 8-9, is hereby corrected to read as follows:

238-07-BZ

APPLICANT – Goldman Harris LLC, for OCA Long Island City LLC; OCAII & III, owners.

SUBJECT – Application October 28, 2013 – Amendment of a previously approved Variance (§72-21) which permitted the construction of a 12-story mixed-use building and a 6-story community facility dormitory and faculty housing building (*CUNY Graduate Center*), contrary to use and bulk regulations. The amendment seeks the elimination of the cellar and other design changes to the Dormitory Building, M1-4/R6A (LIC) zoning district.

PREMISES AFFECTED – 5-11 47th Avenue, 46th Road at north, 47th Avenue at south, 5th Avenue at west, Vernon Boulevard at east, Block 28, Lot 12, 15, 17, 18, 21, 121, Borough of Queens.

COMMUNITY BOARD #2Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to a previously granted variance which permitted, on a site partially in an M1-4 zoning district and partially in an M1-4/R6A district within the Special Long Island City Mixed-Use District, the construction of a 12-story mixed residential and commercial building (the “Mixed-Use Building”) and a six-story student dormitory building (the “Dormitory Building”) for the City University of New York (“CUNY”) Graduate Center, contrary to use and bulk regulations; and

WHEREAS, a public hearing was held on this application on January 28, 2014, after due notice by publication in *The City Record*, and then to decision on February 25, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is bounded by Fifth Street to the west, 46th Road to the north, and 47th Avenue to the south, with a total lot area of 66,838 sq. ft.; and

WHEREAS, the Board has exercised jurisdiction over the site since September 23, 2008 when, under the subject calendar number, the Board granted a variance pursuant to ZR § 72-21, which permitted the construction of a 12-story mixed residential and commercial building and a six-story student

dormitory building and faculty housing building connected by a cellar-level accessory parking garage, contrary to ZR §§ 42-00, 117-21, 23-145, 24-632, 23-633, and 23-711; and

WHEREAS, the Board issued a letter of substantial compliance on June 10, 2009, to permit certain modifications to the approved plans, and to acknowledge that although the project was originally filed at the Department of Buildings (“DOB”) under a single permit application (NB # 402661945), the project was subsequently filed as two separate projects, with the Mixed-Use Building retaining the original application number, and the Dormitory Building filed under new NB # 420006111; and

WHEREAS, the Board issued a second letter of substantial compliance on December 8, 2009, stating that the Board has no objection to the issuance of a temporary and permanent certificate of occupancy for the Mixed-Use Building prior to the construction of the Dormitory Building and the connection between the buildings; and

WHEREAS, the applicant states that the issuance of the December 8, 2009 letter was based on the anticipated occupancy of the Dormitory Building by the CUNY Graduate Center; however, subsequent to the issuance of the letter, the CUNY Graduate Center withdrew from the project; and

WHEREAS, on February 15, 2011, the Board approved an amendment to clarify that either the Mixed-Use Building or the Dormitory Building may be constructed prior to the construction and occupancy of the other building and the connection between the buildings; and

WHEREAS, the applicant notes that the February 15, 2011 amendment allows each building to proceed independently and provides flexibility for the commencement of construction at the earliest possible time; and

WHEREAS, the applicant also notes that CUNY has resumed participation in the project; and

WHEREAS, substantial construction was to be completed by September 23, 2012, in accordance with ZR § 72-23; however, by that date, construction had not been completed due to budgetary constraints; accordingly, on July 24, 2012, the Board granted an extension of time to complete construction, to expire on September 23, 2016; and

WHEREAS, the applicant now seeks an amendment to permit the following: (1) the elimination of the cellar level of the Dormitory Building, which includes accessory parking for 91 automobiles and approximately 6,600 sq. ft. of amenity and storage space; (2) a reduction in floor area for the Dormitory Building from 183,472 sq. ft. to 177,693 sq. ft.; (3) the elimination of the seventh floor; (4) reduction in size of the stair, elevator, and mechanical bulkheads, and reduction in building height; (5) addition of balconies on the fifth and sixth floors; and (6) minor modifications to interior layouts and roof; and

WHEREAS, specifically, the applicant states that the site is, in the wake of Superstorm Sandy, now within ZONE AE on the Federal Emergency Management Agency’s Flood Insurance Rate Map, which means the site is now considered to be within a high-risk, high-vulnerability zone, making a

MINUTES

cellar more expensive to insure; and

WHEREAS, in addition, the applicant states that CUNY has reassessed its needs and determined that parking on the originally-proposed scale is neither necessary, nor desirable; and

WHEREAS, the applicant also notes that the zoning district does not require any parking, and that the area is well-served by mass transit; as such, a significant demand for parking onsite is not anticipated; likewise, what little demand exists can be accommodated by nearby facilities; and

WHEREAS, in support of this statement, the applicant provided a parking study, which reflects that the site will have sufficient parking without the cellar parking garage, due in part to the recent construction of new major parking facilities in the vicinity; and

WHEREAS, as for the other proposed modifications to the plans, the applicant states that they are minor in nature and are consistent with the programmatic needs articulated by the applicant and recognized by the Board in its original grant; and

WHEREAS, accordingly, the applicant states that the proposed amendment will have no negative impacts on the surrounding area; and

WHEREAS, at hearing, the Board requested clarification regarding whether excavation had been performed at the site; and

WHEREAS, in response, the applicant stated that excavation has proceeded and is required under the New York State Department of Environmental Conservation-mandated site-management plan; and

WHEREAS, based upon its review of the record, the Board finds that the requested amendment is appropriate, with certain conditions set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated September 23, 2008, to include the above-noted modifications; *on condition* that any and all work shall substantially conform to drawings filed with this application marked “Received February 10, 2014”- (20) sheets; and *on further condition*;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Application No. 402661945)

Adopted by the Board of Standards and Appeals, February 25, 2014.

sheets, now reads: “Received February 10, 2014”- (20) sheets. Corrected in Bulletin No. 21, Vol. 99, dated May 28, 2014.

***The resolution has been revised to correct the Plans Dates which read: “Received February 10, 2014”- (18)**

APPLICANT – Moshe M. Friedman, PE, for Cong Chasdei Belz Beth Malka, owner.

SUBJECT – Application January 28, 2014 – Variance (§72-21) proposed to add a third and fourth floor to an existing school building, contrary to §24-11 floor area and lot coverage, §24-521 maximum wall height, §24-35 side yard, §24-34 requires a 10' front yard and §24-361 rear yard of the zoning resolution. R5 zoning district.

PREMISES AFFECTED – 600 McDonald Avenue aka 14 Avenue C, aka 377 Dahill Road, south west corner of Avenue C and McDonald Avenue 655', 140'W, 15'N, 100'E, 586'N, 4"E, 54'N, 39.67'East, Block 5369, Lot 6, Borough of Brooklyn.

COMMUNITY BOARD #12BK

Jeff Mulligan, Executive Director

MINUTES

**REGULAR MEETING
TUESDAY MORNING, JUNE 10, 2014
10:00 A.M.**

Present: Chair Srinivasan, Vice-Chair Collins,
Commissioner Ottley-Brown, Commissioner Hinkson and
Commissioner Montanez.

SPECIAL ORDER CALENDAR

457-56-BZ

APPLICANT – Rothkrug Rothkrug & Spector LLP, for
Medow-"The Shop" 148-152L.P., owner.

SUBJECT – Application November 19, 2013 – Extension of
Term of variance permitting accessory parking of motor
vehicles, customer parking, and loading and unloading in
conjunction with adjacent factory building. R6B zoning
district.

PREMISES AFFECTED – 152-154 India Street, Southern
side of India Street, 150 ft. east of intersection of India
Street and Manhattan Avenue. Block 2541, Lot 12, Borough
of Brooklyn.

COMMUNITY BOARD #1BK

ACTION OF THE BOARD – Application granted on
condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins,
Commissioner Ottley-Brown, Commissioner Hinkson and
Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a re-opening and
an extension of term for a variance permitting a commercial
parking lot within a residence district, which expired on
February 13, 2014; and

WHEREAS, a public hearing was held on this
application on April 8, 2014, after due notice by publication in
The City Record, with a continued hearing on May 13, 2014,
and then to decision on June 10, 2014; and

WHEREAS, the premises and surrounding area had site
and neighborhood examinations by Commissioner Hinkson,
Commissioner Montanez, and Commissioner Ottley-Brown;
and

WHEREAS, the subject site is located on the south side
of India Street, between Manhattan Avenue and McGuinness
Boulevard, within an R6B zoning district; and

WHEREAS, the Board has exercised jurisdiction over
the subject premises since December 4, 1956, when it granted
an application under the subject calendar number to permit
accessory and consumer parking, loading and unloading in
connection with a factory building located on an adjoining lot;
and

WHEREAS, the grant has been extended and amended
over the years, most recently on January 11, 2005, when,
under the subject calendar number, the Board granted an

extension of term for ten years, to expire on February 13,
2014; and

WHEREAS, the applicant now seeks an additional
extension of term; and

WHEREAS, at hearing, the Board directed the applicant
to: (1) remove the barbed wire along the fence on the India
Street frontage; and (2) submit proof that the subject parking
lot and adjacent warehouse building are in common
ownership; and

WHEREAS, in response, the applicant submitted: (1)
photos depicting the removal of the barbed wire; and (2) the
deed for each lot, which reflects that the lots are in common
ownership; and

WHEREAS, pursuant to ZR § 11-411, the Board may,
in appropriate cases, allow an extension of the term of a pre-
1961 variance; and

WHEREAS, the Board has determined that the evidence
in the record supports the finding required to be made under
Z.R. § 11-411.

Therefore it is Resolved, that the Board of Standards and
Appeals *reopens* and *amends* the resolution, dated December
4, 1956, so that as amended the resolution reads: “to permit
the extension of the term of the variance for an additional ten
(10) years from February 13, 2014 expiring on February 13,
2024; *on condition* that all work shall substantially conform to
drawings as they apply to the objections above noted, filed
with this application marked “Received November 19, 2013” -
(1) sheet; and *on further condition*;

THAT the term of the variance will expire on February
13, 2024;

THAT barbed wire will not be installed atop the fence
on the India Street frontage;

THAT the premises shall be maintained free of debris
and graffiti;

THAT any graffiti located on the premises shall be
removed within 48 hours;

THAT a 100-percent opaque fence with a height of eight
feet will be installed and maintained along the easterly lot line;

THAT the above conditions will appear on the
certificate of occupancy;

THAT all conditions from prior resolutions not
specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by
the Board in response to specifically cited and filed
DOB/other jurisdiction objection(s); and

THAT DOB must ensure compliance with all other
applicable provisions of the Zoning Resolution, the
Administrative Code and any other relevant laws under its
jurisdiction irrespective of plan(s) and/or configuration(s) not
related to the relief granted.”

(DOB Application #301801904)

Adopted by the Board of Standards and Appeals, June
10, 2014.

192-96-BZ

APPLICANT – Sheldon Lobel, PC, for 1832 Realty LLC, owner.

SUBJECT – Application January 7, 2014 – Amendment of a previously approved variance (§72-21) which permitted a large retail store (UG 10) contrary to use regulations. The application seeks to eliminate the term, which expires on September 23, 2022. C1-2/R5 zoning district.

PREMISES AFFECTED – 1832 86th Street, aka 1854 86th Street; 1-29 Bay Street, 2-6 Bay 20th Street, located on the southwest side of 86th Street spanning the entire block frontage between Bay 19th St and Bay 20th Street. Block 6370, Lot 41, Borough of Brooklyn.

COMMUNITY BOARD #11BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to a use variance to eliminate the term; and

WHEREAS, a public hearing was held on this application on April 8, 2014, after due notice by publication in The City Record, with a continued hearing on May 6, 2014, and then to decision on June 10, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 11, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the southeast corner of the intersection of 86th Street and Bay 19th Street, partially within an R5 zoning district and partially within an C1-2 (R5) zoning district; and

WHEREAS, the site has approximately 193 feet of frontage along 86th Street, approximately 254 feet of frontage along Bay 19th Street, approximately 100 feet of frontage along Bay 20th Street, and 34,269 sq. ft. of lot area; and

WHEREAS, the site is occupied by a two-story commercial building with 33,875 sq. ft. of floor area (0.99 FAR); it is operated as a Marshall’s retail store; and

WHEREAS, on September 23, 1997, under the subject calendar number, the Board granted a variance to permit the renovation of the existing building, from a non-conforming movie theater (Use Group 8) and retail stores (Use Group 6) to a retail store exceeding 10,000 sq. ft. (Use Group 10), contrary to ZR § 32-15, for a term of 25 years, to expire on September 23, 2022; and

WHEREAS, the applicant now seeks to amend the grant to eliminate the 25-year term; and

WHEREAS, the applicant represents that the term has hindered the owner’s ability to refinance the property and secure a tenant for a stable lease term; the applicant states that

the lease term does not coincide directly with the variance term, which makes for uncertainty and difficulty in securing a long-term commercial lease, which typically runs at least 20 years; and

WHEREAS, the applicant contends that commercial use of the site without a term is appropriate and will have no negative impacts on the surrounding neighborhood; and

WHEREAS, the applicant notes that the majority of the site is within an C1-2 (R5) district, where commercial uses are permitted as-of-right; as for the mid-block R5 portion of the site, the applicant notes that the subject building was constructed in the 1920s and occupied as a theater for decades; as such, commercial use is well-established in the R5 portion of the site; and

WHEREAS, the applicant states that nearly all nearby sites along 86th Street—a major commercial thoroughfare—are used for commercial purposes; and

WHEREAS, the applicant also notes that the current tenant is popular in the community and provides jobs for community residents; and

WHEREAS, at hearing, the Board directed the applicant: (1) provide proof that all property owners within 400 feet of the site were notified of the proposal; and (2) remove the barbed wire atop the fence that encloses the building’s parking lot; and

WHEREAS, in response, the applicant submitted: (1) proof of the required notifications; and (2) photographs showing the removal of the barbed wire; and

WHEREAS, based upon its review of the record, the Board finds that the proposed elimination of term is appropriate, with certain conditions, as noted below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated September 23, 1997, to permit the elimination of the 25-year term of the variance, *on condition* that any and all work shall substantially conform to drawings as they apply to the objection above noted, filed with this application marked ‘January 7, 2014’-(7) sheets; and *on further condition*:

THAT barbed wire will not be installed at the site;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT DOB must ensure compliance with all applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Application No. 300554905)

Adopted by the Board of Standards and Appeals, June 10, 2014.

178-99-BZ

APPLICANT – Eric Palatnik, P.C., for Saltru Associates Joint Venture, owner.

SUBJECT – Application November 30, 2012 – Amendment (§§72-01 & 72-22) of a previously granted variance (§72-21) which permitted an enlargement of an existing non-conforming department store (UG 10A). The amendment seeks to replace an existing 7,502 sq. ft. building on the zoning lot with a new 34,626 sq. ft. building to be occupied by a department store (UG 10A) contrary to §42-12. M3-1 zoning district.

PREMISES AFFECTED – 8973/95 Bay Parkway, 1684 Shore Parkway, south side of Shore Parkway, 47/22' west of Bay Parkway, Block 6491, Lot 11, Borough of Brooklyn.

COMMUNITY BOARD #11BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to a variance to permit a minor enlargement; and

WHEREAS, a public hearing was held on this application on February 11, 2014, after due notice by publication in The City Record, with continued hearings on March 25, 2014 and April 29, 2014, and then to decision on June 10, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 11, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the southeast corner of the intersection of Bay Parkway and Shore Parkway, within an M3-1 zoning district; and

WHEREAS, the site fronts on Bay Parkway, Shore Parkway, and Gravesend Bay, and it has 692,110 sq. ft. of upland lot area and 136,982 sq. ft. of seaward lot area, for a total lot area of 829,110 sq. ft.; and

WHEREAS, the site is occupied by six commercial buildings (Buildings A, B, C, D, E, and F) with a total of 307,644 sq. ft. of floor area (0.44 FAR); large non-conforming retail stores (Use Groups 10 and 12) occupy 93 percent of the floor area (285,437 sq. ft.) three percent of the floor area (8,119 sq. ft.) is devoted to conforming uses, and four percent of the floor area (14,089 sq. ft.) is vacant; and

WHEREAS, the applicant represents that Building A is occupied by retail stores (Use Group 6), department stores (Use Group 10), and toy stores (Use Group 12), Building B is occupied by retail stores (Use Group 6), Building C is occupied as an automotive service establishment (Use Groups 16 and 17), Building D is occupied by retail stores (Use

Group 6), Building E is occupied by a bank (Use Group 6), and Building F is an accessory structure that contains a transformer; and

WHEREAS, the site has been under the Board's jurisdiction since February 8, 1977, when, under BSA Cal. No. 730-76-A, the Board granted the application of the Fire Commissioner to modify Certificate of Occupancy No. 197540 to require an automatic wet sprinkler system within Building A at the site; and

WHEREAS, subsequently, on June 7, 1983, under BSA Cal. No. 235-83-BZ, the Board granted a special permit for the operation of an amusement arcade Use Group 15A for a term of one year; on August 7, 1984, the Board extended the term of the grant; however, on April 8, 1986, the Board denied a request for an additional extension of term; the applicant states that the arcade no longer occupies any space at the site; and

WHEREAS, most recently, on June 27, 2000, under the subject calendar number, the Board granted a variance to permit the legalization of an enlargement of a non-conforming department store (Use Group 10) at Building A, contrary to ZR §§ 52-22 and 52-41; and

WHEREAS, the applicant now seeks to amend the grant to permit the demolition of Building C, which has 7,502 sq. ft. of floor area occupied as an automotive service establishment (Use Groups 16 and 17), and construction of a new two-story building with 34,626 sq. ft. of floor area to be occupied as a department store (Use Group 10A); and

WHEREAS, the applicant states that the proposal will result in a net increase in floor area from 307,644 sq. ft. (0.44 FAR) to 334,768 sq. ft. (0.47 FAR); the applicant notes that site is significantly underdeveloped (the maximum FAR is 2.0) and that even with the proposed increase in floor area of 0.03 FAR, the site is developed to less than 25 percent of its maximum floor area; and

WHEREAS, the applicant asserts that the unique physical conditions cited by the Board in its prior grant, including the topographic abnormalities and history of development of the site, remain and that the proposed enlargement is necessary for the owner to achieve a reasonable return; and

WHEREAS, in support of this assertion, the applicant submitted a financial analysis, which concluded that Building C could not be profitably used for conforming uses such as small, Use Group 6 retail stores, and that only another Use Group 10 retailer would be appropriate for the site given the site's M3-1 designation, its isolation from pedestrian traffic, and the predominant existing Use Group 10 and 12 retail use on the site; and

WHEREAS, turning to neighborhood impacts, the applicant asserts and the Board agrees that the construction of an additional Use Group 10 retailer at this site will have no negative impacts on the surrounding neighborhood; and

WHEREAS, at hearing, the Board directed the applicant to: (1) verify that the proposal complies with the applicable parking and loading requirements; and (2) examine, in consultation with the Department of Transportation ("DOT"),

MINUTES

the potential traffic effects of the proposal upon the surrounding neighborhood; and

WHEREAS, in response, the applicant stated that the proposal complies in all respects with the applicable bulk regulations; and

WHEREAS, at to traffic, the applicant submitted a memorandum from DOT, which states that signal timing adjustments may be necessary to manage traffic surrounding site the during weekday evening and Saturday midday hours; and

WHEREAS, based upon its review of the record, the Board finds that the proposed elimination of term is appropriate, with certain conditions, as noted below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated June 27, 2000, to permit the noted modifications, *on condition* that any and all work shall substantially conform to drawings as they apply to the objection above noted, filed with this application marked 'Received November 25, 2013'-(6) sheets and 'April 11, 2014'-(1) sheet; and *on further condition*:

THAT the bulk parameters of the new Building C will be two stories and 34,626 sq. ft. of floor area;

THAT the floor area of the zoning lot will not exceed 334,768 sq. ft. (0.47 FAR);

THAT parking and loading will be as reviewed and approved by DOB;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT DOB must ensure compliance with all applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, June 10, 2014.

322-05-BZ

APPLICANT – Eric Palatnik P.C., for Queens Jewish Community Council, owner.

SUBJECT – Application March 7, 2014 – Extension of Time to Complete Construction for a previously granted variance (§72-21) for an enlargement of an existing two story home and the change in use to a community use facility (*Queens Jewish Community Council*), which expired on March 7, 2014. R4B zoning district.

PREMISES AFFECTED – 69-69 Main Street, Main Street and 70th Avenue, Block 6642, Lot 1, Borough of Queens.

COMMUNITY BOARD #8Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of time to complete construction of an enlargement of an existing single-family home and its change in use from residential to community facility use, which expired on March 7, 2014; and

WHEREAS, a public hearing was held on this application on May 6, 2014, after due notice by publication in *The City Record*, and then to decision on June 10, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the northeast corner of the intersection of Main Street and 70th Avenue, within an R4B zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 7, 2006 when, under the subject calendar number, the Board granted a variance to permit the enlargement of an existing two-story plus cellar single-family home and the change in use from residential to community facility; and

WHEREAS, substantial construction was to be completed by March 7, 2010, in accordance with ZR § 72-23; however, it was anticipated that substantial construction would not be completed by that date and the applicant sought and obtained on July 28, 2009 an extension of time to complete construction until March 7, 2014; and

WHEREAS, the applicant represents that, subsequent to the 2009 extension of time to complete construction, it encountered delays in obtaining permits from the Department of Buildings; among the delays was an audit of the application in which several objections were raised; and

WHEREAS, therefore, the applicant requests an extension of time to complete construction; and

WHEREAS, the applicant represents that it has resolved all outstanding audit objections and is prepared to obtain permits and commence construction; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated March 7, 2006, so that as amended the resolution reads: "to grant an extension of the time to complete construction for a term of three years from the expiration of the previous grant, to expire on March 7, 2017; *on condition*:

THAT substantial construction will be completed by March 7, 2017;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

(DOB Application No. 402213993)

Adopted by the Board of Standards and Appeals, June 10, 2014.

174-07-BZ

APPLICANT – Carl A. Sulfaro, Esq., for Bolla EM Realty, LLC, owner.

SUBJECT – Application November 12, 2013 – Extension of Time to complete construction of an approved Special Permit (§73-211) which permitted the reconstruction of an existing auto service station (UG 16B), which expired on June 17, 2012; Amendment to permit changes to the canopy structure, exterior yard and interior accessory convenience store layout. C2-3/R7-A zoning district.

PREMISES AFFECTED – 1935 Coney Island Avenue, northeast corner of Avenue P. Block 6758, Lot 51. Borough of Brooklyn.

COMMUNITY BOARD #12BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of time to complete renovation of an existing automotive service station, and an amendment to permit certain modifications to the convenience store accessory to the station; and

WHEREAS, a public hearing was held on this application on April 1, 2014, after due notice by publication in *The City Record*, with a continued hearing on May 6, 2014, and then to decision on June 10, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Montanez; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the northeast corner of the intersection of Coney Island Avenue and Avenue P, within an R7A (C2-3) zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since June 26, 1919, when, under BSA Cal. No. 368-19-BZ, it approved a variance for the construction of a one-story parking garage in what was then a residential zoning district; and

WHEREAS, subsequently, on September 14, 1982, under BSA Cal. No. 215-82-A, the Board granted an appeal to permit self-service gasoline pumps at the site; and

WHEREAS, most recently, on June 17, 2008, under the subject calendar number, the Board granted a special permit pursuant to ZR § 73-211 to permit site modifications to an existing automotive service station, including a new metal canopy and new fuel dispensing pumps, contrary to ZR §§ 52-

22 and 52-41, for a term of ten years, to expire on June 17, 2018; and

WHEREAS, under the 2008 grant, substantial construction was to be completed by June 17, 2012, in accordance with ZR § 73-30; however, work was not even commenced by that date and the site has since been acquired by a new owner; and

WHEREAS, accordingly, the applicant seeks an extension of time to complete construction; and

WHEREAS, in addition, the applicant seeks an amendment to permit certain modifications to the accessory convenience store on the site; the applicant notes that although the proposal will result in a minor increase the size of the accessory convenience store, the store remains in compliance with Department of Buildings Technical Policy and Procedure Notice No. 10/1999; and

WHEREAS, at hearing, the Board expressed concerns regarding: (1) the hours of garbage collection; (2) the illumination of the site and its effects on adjacent residential sites; (3) the location of the bus stop along Coney Island Avenue; and (4) a non-permitted advertising sign at the site; and
