WHEREAS, as to the hours of garbage collection, the applicant represents that garbage collection will be limited to three times per week and between the hours of 7:30 a.m. and 7:30 p.m.; and

WHEREAS, as to the illumination of the site, the applicant reduced the number of lighting fixtures on the canopy from 18 to 12, which will minimize the light spillage into the adjacent residential sites; and

WHEREAS, as to the location of the bus stop, the applicant states that the Metropolitan Transit Authority (“MTA”) has endorsed its proposed relocation of the bus stop, however, Department of Transportation (“DOT”) approval has not yet been secured; and

WHEREAS, finally, as to the advertising sign, the applicant submitted a photograph that demonstrates that the sign has been removed; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction and amendment are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated June 17, 2008, so that as amended the resolution reads: “to permit the noted modifications and to grant an extension of the time to complete construction for a term of four years from the expiration of the previous grant, to expire on June 17, 2016; *on condition* that all work shall substantially conform to drawings filed with this application marked ‘Received May 20, 2014’ - (9) sheets; *on further condition*:

THAT DOT, MTA, and any other required approvals for the relocation of the bus stop along Coney Island Avenue will be obtained prior to the issuance of a DOB permit;

THAT lighting, signage, and site circulation will in accordance with the BSA-approved plans;

THAT garbage collection will be limited to three days

MINUTES

per week between the hours of 7:30 a.m. and 7:30 p.m.;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed by June 17, 2016;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, June 10, 2014.

173-09-BZ

APPLICANT – Goldman Harris LLC, for 839-45 Realty LLC, owner; Ranco Capital LLC, lessee.

SUBJECT – Application March 25, 2014 – Extension of Time to Complete Construction of a previously granted Variance (§72-21) for the construction of a four-story mixed use building, which expires on December 14, 2014. C8-2/M1-1 zoning district.

PREMISES AFFECTED – 839-845 Broadway aka 12-14 Park Street, southeast corner of Broadway and Park Street, Block 3134, Lots 5, 6, 10, 11, Borough of Brooklyn.

COMMUNITY BOARD #4BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of time to complete construction on a conversion of an existing three-story building to a four-story mixed residential and commercial building with 33 affordable housing units, which will expire on December 14, 2014; and

WHEREAS, a public hearing was held on this application on May 6, 2014, after due notice by publication in *The City Record*, and then to decision on June 10, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the northeast corner of the intersection of Park Street and Broadway, partially within a C8-2 zoning district and partially within an M1-1 zoning district; and; and

WHEREAS, the Board has exercised jurisdiction over the subject site since December 10, 2010, when, under the subject calendar number, the Board granted a variance to permit the conversion of an existing three-story building to a

four-story mixed residential and commercial building, contrary to ZR §§ 32-00 and 42-00; and

WHEREAS, pursuant to ZR § 72-23, substantial construction was to be completed by December 14, 2014; however, the applicant states that construction has yet commence due to difficulties obtaining financing and a change in control of the site; and

WHEREAS, therefore, the applicant requests an extension of time to complete construction; and

WHEREAS, at hearing, the Board inquired as to whether, consistent with the original grant, the development will include affordable housing units; and

WHEREAS, in response, the applicant confirmed that the development will include affordable housing units; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated December 10, 2010, so that as amended the resolution reads: “to grant an extension of the time to complete construction for a term of four years from the expiration of the previous grant, to expire on December 10, 2018; *on condition*:

THAT substantial construction will be completed by December 10, 2018;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB Application No. 320003474)

Adopted by the Board of Standards and Appeals, June 10, 2014.

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

MINUTES

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Board's Rules of Practice and Procedure, a reopening, and an extension of time to complete construction for the enlargement of an existing Use Group 4 community facility building, which does not comply with floor area and initial setback regulations, which expired on February 23, 2014; and

WHEREAS, a public hearing was held on this application on April 8, 2014, after due notice by publication in the *City Record*, and then to decision on June 10, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan and Commissioner Hinkson; and

WHEREAS, the subject is located within a C5-2 zoning district and a C5-2.5 zoning district within the Special Midtown District (MiD); and

WHEREAS, this application was brought on behalf of Congregation Ahawath Chesed Shaar Hashomayim, also known as Central Synagogue (the "Synagogue") a not for profit religious institution; and

WHEREAS, the Board has exercised jurisdiction over the site since February 23, 2010 when, under the subject calendar number, the Board granted a variance to permit the proposed two-story enlargement of an existing nine-story Use Group 4 community facility building, which does not comply with applicable zoning requirements for floor area and initial setback, contrary to ZR §§ 33-12, 33-432, and 81-211; and

WHEREAS, substantial construction was to be completed by February 23, 2014, in accordance with ZR § 72-23; however, the applicant states that the Synagogue has been unable to raise sufficient funds to proceed with the proposal; and

WHEREAS, accordingly, the applicant now seeks additional time to obtain funding and complete construction; and

WHEREAS, the site occupied by the subject building (Tax Lot 10), the Synagogue's community house (the "Community House"), is part of a combined zoning lot that was created in 1981, pursuant to a Zoning Lot Declaration Agreement, and includes Tax Lots 9, 12, and 63; and

WHEREAS, Tax Lot 9 is immediately to the west of the Community House and is occupied by a townhouse (the "Townhouse"); Tax Lot 12 is immediately to the east of the Community House and is occupied by a Hotel; and Tax Lot 63 is located to the north of the Community House, with frontage on East 56th Street, and is occupied by a commercial tower (the "Commercial Tower"); and

WHEREAS, pursuant to the Board's Rules of Practice and Procedure § 1-09.4 (*Owner's Authorization*), every owner of record on a zoning lot which is the subject of an application must execute and submit the Board's Affidavit of Ownership and Authorization form; and

WHEREAS, accordingly, at the April 8, 2014 public hearing, the Board inquired whether the Synagogue had obtained Affidavits from all owners on the zoning lot; and

WHEREAS, in response, the applicant stated that it had obtained Affidavits from the Townhouse and Hotel and

anticipated one from the Commercial Tower; and

WHEREAS, the Board directed the applicant to submit all Affidavits by April 15, 2014 and to document the process of seeking the Affidavit from the Commercial Tower if it had not been obtained; and

WHEREAS, further, the Board noted that if the final Affidavit had not been received, the Board would re-open the hearing on April 29, 2014 to allow testimony from the Commercial Tower owner; and

WHEREAS, the applicant submitted executed Affidavits of Ownership and Authorization forms from the Synagogue, Townhouse, and Hotel; and

WHEREAS, by submission dated April 15, 2014, the applicant states that it did not obtain an executed form from the Commercial Tower and, thus, seeks a waiver of the Board's rule; and

WHEREAS, in support of its waiver request, the applicant submitted documents to establish its efforts to obtain the Commercial Tower's authorization; and

WHEREAS, specifically, those efforts include: (1) a letter dated February 21, 2014 to representatives of the Commercial Tower explaining the need for the subject application and requesting the execution and return of the Board's Affidavit of Ownership and Authorization form; (2) an April 7, 2014 email and phone call to the current representative of the Commercial Tower (who replaced the earlier representatives) indicating that a public hearing would be held on April 8, 2014 and stating that absent the receipt of the Affidavit of Ownership and Authorization, the Synagogue would request a waiver of the Board's rule; (3) an April 10, 2014 email to the Commercial Tower representative informing him that the Board sought the document by April 15, 2014 and the final hearing was set for April 29, 2014; and (4) April 14 and 15, 2014 follow up emails and letters to the Commercial Tower representative, notifying him of the opportunity to appear and provide testimony at the April 29, 2014 hearing; and

WHEREAS, the applicant notes that the Commercial Tower owner consented to the underlying variance application; and

WHEREAS, further, the applicant notes that only the Synagogue site is subject to the discretionary relief provided by the variance and no construction is proposed for any other tax lot; and

WHEREAS, the Board notes that the Commercial Tower's representative appeared at the April 29, 2014 public hearing and requested additional time to make a submission; and

WHEREAS, the Board granted the Commercial Tower's representative time to make a submission after the hearing and set a new decision date of June 10, 2014; and

WHEREAS, subsequently, the Commercial Tower's representative communicated to Board staff that he would not be making a submission; and

WHEREAS, the Board notes that the Townhouse and the Commercial Tower provided Affidavits of Ownership and Authorization in the context of the underlying variance, but

MINUTES

the Hotel did not; and

WHEREAS, accordingly, the applicant sought and obtained a waiver of the Board's rule (formerly § 1-03(g)) for the underlying variance application, based on the evidence it provided and the Board's conclusion about the spirit of its rule being maintained; and

WHEREAS, the Board has determined that the spirit of the Rule, to provide notification to owners on the zoning lot and to require authorization from an owner whose site is the subject of discretionary relief, is maintained, even in the absence of the Commercial Tower's authorization, because (1) the applicant sought authorization from all of the owners, in good faith; (2) all owners were notified of the application and kept apprised of the hearing schedule; (3) only the Synagogue Site was the subject of the requested discretionary relief as no construction was proposed for any of the other tax lots; and (4) pursuant to its Rule § 1-14.2 (*Waiver of the Rules of Practice and Procedure*), the Board may waive its own rules in appropriate circumstances; and

WHEREAS, the Synagogue's proposal is limited to the enlargement of its Community House, which it owns and operates; and

WHEREAS, accordingly, the request for an extension of term focuses on the Community House Site; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals waives the Rules of Practice and Procedure, reopens and amends the resolution, dated February 23, 2010, so that as amended the resolution reads: "to grant an extension of the time to complete construction for a term of four years from the date of this grant, to expire on June 10, 2018; *on condition*:

THAT substantial construction will be completed by June 10, 2018;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

COMMUNITY BOARD #7M

ACTION OF THE BOARD – Application Denied.

THE VOTE TO GRANT –

Affirmative:0
Negative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings, dated May 3, 2013, acting on Department of Buildings Application No. 320378088 reads, in pertinent part:

This Department regrets it cannot issue a Letter of No Objection for New Law Tenant Class A M.D. & Single Room Occupancy to [be] occupied or rented for less than 30 days as per Chapter 225 of the Laws of 2010, which clarified existing provisions related to occupancy of Class A Multiple Dwellings.

In order to allow such use, an Alteration Application must be filed with the Department to change use and Certificate of Occupancy obtained if permitted by zoning; and

WHEREAS, a public hearing was held on this application on February 4, 2014, after due notice by publication in *The City Record*, with a continued hearing on March 25, 2014, and then to decision on June 10, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, New York State Assemblymember Linda

MINUTES

B. Rosenthal and New York City Council Member Helen Rosenthal provided testimony in opposition to the appeal, citing concerns about illegal transient hotel use including occupancy periods of just days at a time, which are disruptive to the permanent tenants and the surrounding residential uses; and

WHEREAS, the Goddard Riverside SRO Law Project and the Hotel Trades Council provided testimony in opposition to the appeal, citing concerns about a history of harassment towards permanent tenants and otherwise protecting their rights; and

WHEREAS, certain community members and building residents provided testimony in opposition to the appeal, citing concerns about transient use in a residence zoning district and within a building occupied by permanent tenants required to share space with those renting on a short term; and

WHEREAS, certain community members spoke in support of the appeal, citing concerns that the building might otherwise be converted into a homeless shelter; and

WHEREAS, the site is located on the north side of West 79th Street between West End Avenue and Riverside Drive within an R10A zoning district and is occupied by a ten-story (with a partial 11th story) building (the “Building”); and

WHEREAS, this appeal seeks reversal of the Determination, thereby directing DOB to issue a Letter of No Objection stating that the use of the Building as Class A single room occupancy for periods of no less than one week is permitted by the existing certificate of occupancy No. 53010; and

Building History

WHEREAS, the Building was constructed in 1906 as the Lasanno Court, an approximately 40-unit apartment building; and

WHEREAS, during the Great Depression, in the 1930s, the Building was subdivided into single room occupancy (SRO) units; and

WHEREAS, in 1939, the New York State Legislature adopted MDL § 248, known as the Pack Bill, which provides regulations for SRO buildings; and

WHEREAS, in 1943, the Building was altered to comply with MDL § 248 and on March 25, 1943, DOB issued the Building’s first CO permitting 247 SRO units; the Building was renamed the Imperial Court Hotel; and

WHEREAS, DOB also issued COs in 1954 and September 1960; and

WHEREAS, on November 7, 1960, DOB issued the most recent CO permitting in the cellar, “one (1) superintendent’s apartment, boiler room, storage and tenants’ laundry”; on the first floor, “sixteen (16) rooms-single room occupancy, two (2) community kitchenettes, registration desk, manager’s office and lobby of building”; on the second through tenth floors, “twenty-three (23) rooms-single room occupancy and two (2) community kitchenettes”; and in the penthouse, “four (4) rooms – single room occupancy;” and

WHEREAS, the applicant states that in total, the CO permits 227 SRO Units and that currently and historically, 64 of the 227 SRO units have been regulated through rent control or stabilization (the “Statutory Units”); and

WHEREAS, the Appellant states that since 1979, all of the 64 Statutory Units and all of the 163 non-Statutory Units have been rented for periods of no less than seven days, in compliance with the CO and the MDL; the Appellant submitted occupancy logs for 2008, 2009, 2010, and 2011 in support of this claim; and

Procedural History

WHEREAS, on January 13, 2011, DOB issued Notices of Violation in connection with the seven-day rentals; and

WHEREAS, on January 19, 2011, the owner applied to DOB for a Certificate of No Harassment (CONH), pursuant to Administrative Code § 28-107.4 in connection with its application for a permit to build a second means of egress; and

WHEREAS, on September 13, 2011, the Department of Housing Preservation and Development (HPD) commenced a proceeding against the owner at the Office of Administrative Trials and Hearings (OATH) seeking a denial for the application for a CONH on the grounds that it had committed acts of harassment against some of the tenants; and

WHEREAS, on December 7, 2012, the OATH administrative law judge held that the owner had committed some acts of harassment against some of the tenants and recommended denial of the CONH; and

WHEREAS, in January 2013, the Environmental Control Board sustained the violations, finding that stays of less than 30 days were not permitted by the CO; and

WHEREAS, on February 11, 2013, the owner requested a Letter of No Objection (LNO) from DOB stating that the use of the Building as a Class A SRO for periods of no less than one week is permitted by the existing certificate of occupancy; DOB’s denial of that request forms the basis of the subject appeal; and

WHEREAS, the Building is the subject of an Article 78 proceeding in New York Supreme Court, (Index No. 103032-2012) appealing ECB’s decision to sustain the violations and is pending; and

WHEREAS, the Appellant states that since January 2011, it has attempted to rent the 163 non-statutory Units for periods of no less than 30 days, but the majority of the units have remained vacant, a condition which prompted the Appellant to seek the LNO to allow rental of the units for terms not less than one week; and

The Relevant Statutory Provisions

WHEREAS, relevant MDL provisions are provided below in pertinent part:

1939 Text

MDL § 248 (*Single Room Occupancy*)

(16) No room shall be rented in any such building for a period of less than a week.

1946 Text

MINUTES

(Definitions)

MDL § 4

(16) “Single room occupancy” is the occupancy by one or two persons of a single room, or of two or more rooms which are joined together, separated from all other rooms within an apartment in a multiple dwelling, so that the occupant or occupants thereof reside separately and independently of the other occupant or occupants of the same apartment. When a class A multiple dwelling is used wholly or in part for single room occupancy, it remains a class A multiple dwelling.

MDL § 4

(8) A “class A” multiple dwelling is a multiple dwelling which is occupied, as a rule, for permanent residence purposes . . .

MDL § 4

(9) A “class B” multiple dwelling is a multiple dwelling which is occupied, as a rule transiently, as the more or less temporary abode of individuals or families who are lodged with or without meals . . .

1960 Text

MDL § 248 (*Single Room Occupancy*)

(16) It shall be unlawful to rent any room in any such dwelling for a period of less than a week.

MDL § 4 (*Definitions*)

Class A Multiple Dwelling: a multiple dwelling which is occupied, as a rule, for residence purposes and not transiently.

Class B Multiple Dwelling: a multiple dwelling which is occupied, as a rule, transiently.

2011 MDL Amendment (Chapter 225 of 2010)

MDL § 4.8(a): A “class A” multiple dwelling is a multiple dwelling that is occupied for permanent residence purposes. This class shall include tenements, flat houses, maisonette apartments, apartment houses, apartment hotels, bachelor apartments, studio apartments, duplex apartments, kitchenette apartments, garden-type maisonette dwelling projects, and all other multiple dwellings except class B multiple dwellings. A class A multiple dwelling shall only be used for permanent residence purposes. For the purposes of this definition, “permanent residence purposes” shall consist of occupancy of a dwelling unit by the same natural person or family for thirty consecutive days or more and a person or family so occupying a dwelling unit shall be referred to herein as the permanent occupants of such dwelling unit.

MDL § 248

(1). . . A dwelling occupied pursuant to this section shall be deemed a class A dwelling and dwelling units occupied pursuant to this section shall be occupied for permanent residence

purposes, as defined in paragraph a of subdivision eight of section four of this chapter.

(16) (*removed*); and

The Appellant’s Position

WHEREAS, the Appellant asserts that the LNO should be issued for the following primary reasons: (1) the use of the Building for short-term occupancy of no less than one week was permitted at the time the CO was issued and MDL § 248 allowed Class A SRO units to be rented for periods of one week or more; and (2) Chapter 225 of 2010, an amendment to the MDL which requires that short-term residences may not be less than 30 days, applies prospectively and, therefore, not to the Building; and

WHEREAS, the Appellant asserts that in 1943 and 1960, when the Building was issued COs permitting single room occupancy units, the MDL provided that SRO units may be lawfully rented and occupied for periods of no less than a week; and the legislative history of the 1939 enactment of MDL § 248(16), New York State case law, and independent scholarly research clearly support the statutory provision that there is a weekly minimum applied to the period of occupancy; and

WHEREAS, the Appellant states that in 1943, when the Building was issued a CO permitting SRO units, the plain language of MDL § 248 (16) – “No room shall be rented in any such building for a period of less than a week” - permitted the SRO Units to be rented for periods of no less than one week; and

WHEREAS, the Appellant relies on the text of MDL § 248 adopted in 1939 (the “Pack Bill”) and in effect in 1943; and

WHEREAS, the Appellant states that DOB is correct that in 1960, the MDL included definitions for Class A and Class B Multiple Dwelling, however, even if the 1960 text were operative, as was the case in 1939, these definitions did not define the length of permitted occupancy for Class A and Class B Multiple Dwelling, only that Class A must have been occupied, as a rule, for permanent residence purposes and Class B, as a rule, transiently; and

WHEREAS, the Appellant also considers the MDL § 248(16) in effect when the 1960 CO was issued - “it shall be unlawful to rent any room in any such dwelling for a period of less than a week;” and

WHEREAS, the Appellant asserts that the CO permits the Building to be used for single room occupancy and that prior to the MDL Amendment, the prior use of the Building was for short-term residences, in which occupants’ stay was restricted to no less than one week; and

WHEREAS, the Appellant agrees that MDL § 248(16) allows tenants to *pay* on a weekly basis, but there is not any basis to conclude that *occupancy* was for a 30-day minimum; and

WHEREAS, the Appellant asserts that the legislative history, court statements, and scholarly research support the conclusion that MDL § 248(16) expressly and implicitly permitted the SRO units to be lawfully occupied for periods of no less than a week and that it applied to both rental and

MINUTES

occupancy; and

WHEREAS, the Appellant asserts that prior to the 2010 MDL Amendment (the “MDL Amendment”), the use of the Building was in compliance with MDL § 248(16) in that all rooms were rented for periods of no less than one week; and

WHEREAS, the Appellant asserts that based on the communication surrounding the Pack Bill’s enactment during the Great Depression, it had multiple purposes including protecting occupants in multiple dwelling rooming houses from fire and to set up minimum standards for sanitation, maintenance, and operation and to provide health and safety protections for the visitors of the 1939-1940 World’s Fair who sought accommodations in excess of what the city’s hotels could provide; and

WHEREAS, the Appellant cites to the City of New York v. 330 Continental LLC, 60 A.D.3d 226 (1st Dept 2009) decision on whether the City was entitled to a preliminary injunction for the point that the court stated that SROs were entitled to short term rental of a week; and

WHEREAS, the Appellant also cites to scholarly research on New York City during the Great Depression which states that the city lifted regulations that prevented the operation of SROs and connected it to the World’s Fair needs; and

WHEREAS, as to the use and preservation of rights, the Appellant asserts that (1) since at least 1979, and most likely since 1943, the Building has been occupied by residential stays of no less than a week; (2) the right to rent the SRO Units for residential occupancies of no less than a week has been accrued; (3) the savings clause of MDL § 366 provides that the codification of Sections 1 through 4 of Chapter 225 of the Laws of 2010 will not impair the right to continue to rent the SRO Units for occupancies of no less than one week; and (4) Section 8 of the Laws of 2010 was not codified in the MDL and did not impair the Appellant’s accrued rights; and

WHEREAS, the Appellant asserts that since the existing CO permits weekly occupancy, it is irrelevant whether or not the Building had been historically occupied for stays as short as one week; and

WHEREAS, however, the Appellant asserts that it has submitted affidavits attesting to the fact that since at least 1979 (when the owner purchased the Building) and most likely since 1943 (when the first CO was issued), the policy of the Imperial Court has been that rooms may be rented and occupied for residential stays for periods of as short as one week; and

WHEREAS, the Appellant’s submissions include: an affidavit from the owner’s family member who has worked at the Building since 1979; an affidavit from the son of the prior owner who worked at the Building from 1979 to 2005; five affidavits from Building tenants; eight affidavits from Building employees; and affidavits from the Building’s; and

WHEREAS, the Appellant represents that after January 2013, Imperial Court’s policy was changed to conform to DOB’s interpretation and therefore rooms are rented and

occupied for periods of no less than one month; and

WHEREAS, the applicant states that DOB has failed to produce documentation to support the assertion that the MDL ever restricted occupancy of rooms rented weekly to periods of 30 days or more; and

WHEREAS, the Appellant asserts that it has accrued a right to rent and occupy the SRO units on a weekly basis as of 1943, and again in 1960, when the COs were issued based on compliance with the MDL then in effect; and

WHEREAS, as to the MDL Amendment, effective in 2011, which specifies that short-term residences may not be less than 30 days, the Appellant asserts that it applies prospectively and, therefore, not to the Building; and

WHEREAS, the Appellant states that MDL § 366 (1) and (4) are savings clauses which dictate that the MDL provisions apply prospectively; specifically, MDL § 366(1) “the repeal of any provision this chapter, or the repeal of any provisions of any statute of the state or local law, ordinance, resolution or regulation shall not affect or impair any act done, offense committed or right accruing, accrued or acquired . . . prior to the time of such repeal, but the same may be enjoyed, asserted, enforced, prosecuted or inflicted as fully and to the same extent and in the same manner as if such provisions had not been repealed;” and (4) “No existing right or remedy of any kind shall be lost or impaired by reason of the adoption of this chapter as so amended unless by specific provision of a law which does not amend all articles of this chapter;” and

WHEREAS, the Appellant asserts that the MDL Amendment does not contain any “specific provision” that an existing right to rent for seven days or more has been “lost or impaired” as a result of the MDL Amendment therefore the “right” or the owner to rent units for periods of seven days or more may be continued; and

WHEREAS, the Appellant also cites to MDL § 13, which provides that “nothing . . . shall be construed to require any change in the construction, use or occupancy of any multiple dwelling lawfully occupied as such on April eighteenth, nineteen hundred twenty-nine, under the provisions of all local laws, ordinances, rules and regulations applicable thereto on such date; but should the occupancy of such dwelling be changed to any other kind or class after such date, such dwelling shall be required to comply with the provisions of section nine;” and

WHEREAS, the Appellant asserts that the Building was constructed as a “tenement” in 1906 and lawfully occupied on April 18, 1929, so nothing in the MDL requires any change in the use or occupancy of the Building; and

WHEREAS, the Appellant asserts that because the Building was operated in compliance with the MDL prior to the MDL Amendment, the use of the Building for stays of no less than one week may be continued; and

WHEREAS, accordingly, the Appellant states that if the Board determines that MDL § 248(16) applied both to rental and occupancy, then MDL § 366 would permit the Appellant to continue to rent the SRO Units for weekly occupancy; and DOB’s Position

MINUTES

WHEREAS, DOB asserts that its denial of the LNO request was proper for the following primary reasons: (1) the Building has a CO and the CO does not permit the Class A New Law tenement to be occupied for periods of less than 30 days; and (2) the MDL Amendment did not change DOB's interpretation of the occupancy authorized by the CO, but rather clarified existing provisions related to occupancy of Class A Multiple Dwellings; and

WHEREAS, DOB asserts that contrary to the Appellant's arguments, the MDL never permitted weekly occupancy of the Building and the 1943 and 1960 COs are consistent with that position; and

WHEREAS, DOB asserts that the 1960 version of the MDL is applicable and not the 1939 version since the most recent CO (issued in 1960) resulted from a 1958 Alteration Application; however, both versions of the MDL distinguish transient occupancy from permanent occupancy and would therefore be consistent with DOB's interpretation; and

WHEREAS, DOB notes that under both the 1939 MDL and the 1960 MDL, Class A use was distinguished from "transient" use; weekly occupancy is more appropriately associated with transient use; and

WHEREAS, thus DOB cites to the 1958-2011 text of MDL § 248 (16): "it shall be unlawful to *rent* [an SRO room] for less than a week." (emphasis added); and

WHEREAS, DOB's position is that the former MDL § 248 (16) restricts the payment term to a minimum of one week but does not similarly identify the minimum occupancy period; and

WHEREAS, DOB also notes that the term "occupancy" appears throughout the MDL and could have been used in lieu of "rental" if the weekly rental minimum requirement were intended to authorize weekly occupancy; and

WHEREAS, DOB asserts that the weekly rental provision of the 1939 Pack Bill explained that the bill's weekly rental provision governed only rental payments and not occupancy; and

WHEREAS, DOB states that while there is no definition of the term "rental" in the MDL, the common understanding of the word is that it governs payment, and not occupancy and in the definition of "Class A" the MDL does not provide that it should be "rented" for permanent residence purposes, but uses the term "occupied;" and

WHEREAS, DOB states that there is nothing in the statute to suggest that rental and occupancy should be treated as equivalents; and

WHEREAS, DOB notes that in 1958, the MDL contained the term "permanent residence purposes" and defined a "Class A multiple dwelling as a multiple dwelling which is occupied, as a rule, for permanent residence purposes;" it defined a "Class B multiple dwelling" as "a multiple dwelling which is occupied as a rule transiently, as the more or less temporary abode of individuals or families who are lodged with or without meals;" and

WHEREAS, DOB states that according to the 1960 CO, the building is a "New Law Tenement Class 'A' Multiple Dwelling and Single Room Occupancy" which means that it

must be occupied as a Class A multiple dwelling which mandates occupancy be for "permanent residence purposes;" and

WHEREAS, DOB asserts that it is consistent with the principle of statutory construction that a statute or ordinance be construed as a whole and that its sections be considered together and with reference to each other; and

WHEREAS, accordingly, DOB asserts that MDL § 248(16) must be read in conjunction with the MDL §§ 4(8) and (9) in effect in 1960 which define Class A and Class B occupancies; and

WHEREAS, DOB cites to MDL §§ 4(8) and (9) which define the terms "Class A" and "Class B" multiple dwellings, use the term "occupied," and provide that a Class A multiple dwelling is to be occupied for "permanent residence purposes", while a Class B multiple dwelling is to be occupied transiently;" and

WHEREAS, DOB notes that MDL § 248 states that "a dwelling occupied pursuant to [section 248] shall be deemed a Class A dwelling;" the definition of "single room occupancy in MDL § 4(16) further states that "When a class A multiple dwelling is used wholly or in part for a single room occupancy, it remains a Class A multiple dwelling;" and

WHEREAS, DOB states that according to MDL § 4 (8), a Class A multiple dwelling is to be occupied for "permanent residence purposes;" and

WHEREAS, DOB consulted Merriam Webster's dictionary which defines the word "permanent" as "continuing or enduring without fundamental or marked change," while the word "transient" is defined as "not lasting long" and "passing through or by a place with only a brief stay or sojourn;" and

WHEREAS, DOB states that the plain meaning of "permanent" resident cannot be construed to include a person who occupies a hotel room for only a week; and

WHEREAS, DOB asserts that common sense supports a conclusion that one does not become a permanent resident of a location by virtue of a one-week stay and that such stay is more consistent with a "transient" occupancy See Connors v. Boorstein, 4 N.Y. 2d 172, 175(1958) (interpreting statutory terms as matter of common sense.); 440 East 102nd Street Corp. v. Murdock, 285 N.Y. 298, 309 (1941)(citing "common use and understanding" in defining statutory terms); Kupelian v. Andrews, 233 N.Y. 278, 284 (1922) (statutory terms construed in a manner consistent with "common experience"); and

WHEREAS, DOB notes that pursuant to NYC Charter § 643, DOB is the agency responsible for interpreting the MDL in the first instance and DOB has consistently interpreted Class A permanent residence to require a minimum occupancy of 30 days, treating Class A "permanent" occupancy as the equivalent of J-2 Building Code occupancy and Class B "transient" occupancy as the equivalent of J-1 day-to-day or weekly occupancy; and

WHEREAS, DOB asserts that its interpretation is consistent with the principles of statutory interpretation that a statute be interpreted consistent with common sense - in this

MINUTES

case weekly turnover would not commonly be understood to be permanent occupancy – and that a statute must be construed as a whole such that MDL § 248(16) which prohibits rental of any room in and Class A SRO for a period of less than one week must be interpreted in conjunction with MDL §§ 4(8) and (9) which define Class A and Class B occupancies in terms of occupancy and not rental; and

WHEREAS, DOB notes that single room occupancy units are suitable only for permanent residence purposes, because while MDL § 248 required some upgrades, there was no requirement that these units comply with the more stringent fire safety requirements applicable to transient units; and

WHEREAS, DOB also notes that MDL § 248 was enacted in 1939, during the Great Depression, when weekly rates might be preferred over daily rates which would likely result in a higher weekly cost and that weekly rates would be preferred to monthly rates, because those sums would be potentially easier for people to save than a higher monthly sum; and

WHEREAS, DOB states that the Court’s decision in City of New York v. 330 Continental LLC was not a decision on the merits and the Appellant’s citations are *dicta*; and

WHEREAS, DOB states that the decision issued in Continental was issued in response to the City’s request for a preliminary injunction to enjoin the defendants in that case from using the disputed premises transiently, pending final determination of the action of the case and that the excerpts cited from that case are non-binding *dicta* used to explain the court’s determination that the City had failed to establish a right to a preliminary injunction; and

WHEREAS, DOB notes that the court stated that, “[i]n view of the as-yet unresolved vagueness and ambiguity of the language of the MDL and the ZR that the City seeks to enforce, it cannot be said that the City has demonstrated a clear right to the drastic remedy of preliminary injunction;” the decision was not a final ruling on the case which ultimately settled with the defendants agreeing to use the subject premises for “permanent residence purposes” consistent with the City’s interpretation of the term, meaning for thirty consecutive days or longer; and

WHEREAS, DOB concludes that since the Continental litigation settled and since it was only a decision on the preliminary injunction motion and not a decision on the merits of the case, the City had no basis to appeal; the City then clarified this historical interpretation in Chapter 225 of the Laws of 2010; and

WHEREAS, as to the MDL Amendment, DOB asserts that the amendments contained in Chapter 225 of the Laws of 2010 (and the 1960 change to MDL § 248) did not change what had been its interpretation (for at least 40 years) of what “permanent residence purposes” meant, which was the occupancy of a dwelling unit by the same natural person or family for thirty consecutive days or more;” and

WHEREAS, DOB states that, instead, the purpose of the amendments was as stated in the law, a “clarification” of the DOB’s historical interpretation relating to occupancy of Class

A multiple dwellings;” and

WHEREAS, DOB notes that the bill was enacted “to fulfill the original intent of the law as construed by enforcing agencies, including the New York City Department of Buildings” (See “New York State Senate Introducer’s memorandum in Support, reprinted in New York State Archives’ Legislative History/Bill Jacket for the Laws of 2010, Chapter 225); and

WHEREAS, finally, DOB notes that Section 8 of the amendments provides that it “shall apply to all buildings in existence on such effective date and to buildings constructed after such effective date;” therefore, as clarifying amendments, the amendments are not to be applied only prospectively; and

WHEREAS, DOB asserts that since the Building was required to be occupied permanently (for 30 days or more) both prior to Chapter 225 and after, no existing right to rent for seven or more days has been lost or impaired as a result of the MDL amendments and transient use which was never permitted cannot be continued pursuant to the MDL savings clauses; and

WHEREAS, DOB states that prior to the adoption of Chapter 225, MDL §§ 4(16) and 248(1), the Building was a Class A multiple dwelling subject to MDL § 4(8)’s requirement that it be occupied for permanent residence purposes with “permanent residence” meaning occupancy of 30 days or more and not weekly occupancy; and

WHEREAS, DOB notes that it issued violations for illegal transient occupancy prior to the 2011 enactment of the MDL Amendment; and

The Board’s Conclusion

WHEREAS, the Board agrees with DOB that the Multiple Dwelling Law and the Building’s COs never permitted occupancy of the premises for weekly stays, and therefore there is no “existing right or remedy that is lost,” and the MDL’s savings clauses do not apply; and

WHEREAS, the Board agrees that the provisions of the MDL must be read together and that (1) the CO classification of Class A SRO is informed by the definition of Class A occupancy as permanent occupancy; and (2) the internal MDL references, dictionary definitions, plain meaning, common sense, and the legislative intent all support DOB’s conclusion that permanent occupancy requires stays of periods of at least 30 days; and

WHEREAS, the Board agrees with DOB that the text in effect at the time of the 1960 CO issuance applies, but would reach the same conclusion even if the text in effect in 1943 applied; and

WHEREAS, the Board notes that although the relevant MDL text has been amended since 1939, the underlying principles, including common sense concepts of time and residency, have not been redefined and that a seven-day stay would have never satisfied a requirement for permanent occupancy; and

WHEREAS, the Board finds that the distinctions between Class A and Class B and permanent and transient were understood at the time the CO was issued and there is not any evidence that in 1943 or 1960, at the issuance of the

MINUTES

COs, that DOB accepted a rental term of any less than a month; and

WHEREAS, the Board does not find support for the Appellant's assertion that the MDL in effect in 1943 expressly or implicitly reflected that the SRO Units could be lawfully rented and occupied for weekly periods; and

WHEREAS, the Board does not see any indication in the legislative history that there was a greater need for transient (weekly) occupancy rather than for shorter payment terms; and

WHEREAS, further, the Board notes that DOB is the agency empowered to interpret the MDL in the first instance and that the MDL allows it to create greater restrictions; and

WHEREAS, the Board accepts DOB's interpretation of the legislative history and finds that the Appellant's focus on the fleeting goals of the World's Fair, derived from trade organizations' interests and the scholarly discussion of housing during the Great Depression is unpersuasive; and

WHEREAS, the Board notes that there are public policy reasons to require greater safety measures for transient or truly temporary accommodations and permanent accommodations and finds the fact that the Pack Bill only required that the Building comply with MDL § 248 is consistent with a finding that Class A SROs are a form of permanent occupancy rather than transient; and

WHEREAS, the Board notes that the 1939 amendments encouraged the improvement of conditions of buildings which had been built for one form of Class A permanent use but have been converted to another much denser Class A occupancy; and

WHEREAS, the Board notes that the issuance of the CO in 1960 with the occupancy classification of Class A for the first time – meaning permanent occupancy – supports DOB's conclusion that the approval was reviewed pursuant to the 1958 MDL because if the owner at the time believed that the newly defined Class A classification changed the meaning of the operative MDL provisions then he would have had an interest in revising the classification of the Building rather than obtaining a new CO with the new Class A classification; and

WHEREAS, the Board notes that the Appellant contends that the issuance of a CO certifies that the Building "conforms substantially to the approved plans and specifications, and to the requirements of the building code and all other laws and ordinances, and of the rules and regulations of the Board of Standards and Appeals, applicable to a building of its class and kind at the time the permit was issued" and that such reliance actually supports a conclusion that DOB issued the CO pursuant to the 1958 clarified text, which the owner would have been aware of; and

WHEREAS, the Board notes that the 1943 CO only identifies the building as a New Law Tenement and Single Room Occupancy but not also as Class A; and

WHEREAS, the Board finds it logical to conclude that the 1943 CO classification and the 1960 CO classification

had the same meaning, just as the 1939 MDL text and 1958 MDL text did; and

WHEREAS, the Board finds that all three discussed versions of the MDL support the point that there is a distinction between Class A and Class B occupancy in that Class A and its regulatory provisions apply to permanent occupancy and Class B applies to transient; and

WHEREAS, the Board notes that the 1946 MDL defined "single room occupancy" as the occupancy of a single room separated from all other rooms within an apartment in a multiple dwelling and that "[w]hen a class A multiple dwelling is used wholly or in part for single room occupancy, it remains a class A multiple dwelling;" and

WHEREAS, accordingly, the Board finds that SROs were established clearly within the definition of Class A multiple dwellings and Class A multiple dwellings are to be occupied "as a rule for "permanent residence purposes," which is not satisfied by stays of one week; and

WHEREAS, as to the MDL Amendment and the Appellant's invocation of the savings clauses, the Board accepts DOB's position that the amendment served to clarify language and clearly articulate the position that it had held for decades that permanent occupancy requires a minimum stay of 30 days; the Board does not see any support for a conclusion that a Class A SRO with a minimum seven-day term is a separate protected class of occupancy; and

WHEREAS, the Board agrees with DOB that no right was ever established or accrued for seven-day occupancy and thus there is no right to save; and

WHEREAS, the Board notes that the MDL Amendment does not allow property owners to maintain transient use with permanent use fire safety conditions; transient use must meet transient use requirements; and

WHEREAS, the Board finds that there has always been a necessary distinction between transient and permanent occupancy and that is furthered by the CO identification of Class A and Class B occupancies; and

WHEREAS, the Board notes that the Building was constructed and occupied for several decades as a New Law Tenement Multiple Dwelling and that it was converted to a New Law Tenement Class A Multiple Dwelling SRO building; in both iterations, the Building accommodated permanent occupancy, identified as Class A since 1960; based on the legislative history and the economic climate, DOB's assertion that the rental payment system and not the need for more transient occupancy is the change which sparked the 1939 amendments and the Building's conversion; and

WHEREAS, the Board notes that approximately one-quarter of the Building is occupied by the Statutory Units which are permanent tenancies; and

WHEREAS, the Board notes that the Appellant sought to gather additional Building occupancy records, but the Board does not find those records to be relevant because the Building was constructed as a Class A apartment building, and has since then had COs only for a Class A SRO, there is no basis to assert that it was actually a Class B use; and

WHEREAS, the Board does not find that evidence

MINUTES

related to the occupancy of the Building is relevant to the interpretation of the MDL text; and

Therefore it is Resolved, that the Board denies the appeal and affirms DOB's denial of a request for a Letter of No Objection, which would authorize occupancy of the Building for a minimum period of seven days rather than 30 days.

Adopted by the Board of Standards and Appeals, June 10, 2014.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

WHEREAS, the decision of the Department of Buildings (“DOB”), dated August 23, 2012, acting on DOB Application No. 220198275, reads:

Proposed roof parking in an M1-1 zoning district is contrary to ZR Section 44-11 and requires a special permit; and

WHEREAS, this is an application under ZR § 73-49 to permit 130 parking spaces on the rooftop of a three-story parking garage located on a site partially within an M1-1 zoning district and partially within an R5 zoning district, contrary to ZR § 44-10; and

WHEREAS, a public hearing was held on this application on April 29, 2014, after due notice by publication in the *City Record*, and then to decision on June 10, 2014; and

WHEREAS, the site and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 11, Bronx, recommends approval of this application; and WHEREAS, the subject site

MINUTES

is the Hutchinson Metro Center, an approximately 42-acre parcel bounded by the Hutchinson River Parkway, Pelham Parkway, Bassett Avenue, Eastchester Road, Loomis Street, and Waters Place, partially within an M1-1 zoning district and partially within an R5 zoning district; and

WHEREAS, the site is a single zoning lot comprising Tax Lots 16, 35, 40, 55, 70, and 73; it has 1,826,000 sq. ft. of lot area; the vast majority of the site (1,814,571 sq. ft.) is within an M1-1 zoning district and the balance (11,249 sq. ft. – all within Lot 35) is located within an R5 zoning district; and

WHEREAS, the applicant notes that a companion case has been filed to permit rooftop parking for 109 automobiles on Lot 15 (1240 Waters Place) under BSA Cal. No. 251-13-BZ; and

WHEREAS, the site is occupied by a series of buildings, both completed and under construction, which comply with the applicable bulk regulations and are used for parking, offices, retail space, and various community facility uses; and

WHEREAS, the applicant proposes to construct a three-story parking garage on Lot 16; the parking garage will include rooftop parking for 130 automobiles, which is not permitted as-of-right in an M1-1 district; accordingly, the applicant seeks a special permit pursuant to ZR § 73-49; and

WHEREAS, the applicant states that the proposed rooftop parking is not required but is permitted accessory parking for the various uses on the zoning lot; likewise, the proposed parking complies with ZR § 44-12, which limits non-required accessory parking spaces to 150; and

WHEREAS, pursuant to ZR § 73-49, the Board may permit parking spaces to be located on the roof of a building if the Board finds that the roof parking is located so as not to impair the essential character or the future use or development of the adjacent areas; and

WHEREAS, the applicant represents that the rooftop parking will not impair the essential character or future use or development of adjacent areas and will not adversely affect the character of the surrounding area; and

WHEREAS, the applicant notes that there are no buildings or open uses immediately adjacent to the proposed rooftop parking, nor are there any residential uses that would be impacted; similarly, the applicant states that the nearest uses are commercial buildings or parking facilities; and

WHEREAS, at hearing, the Board requested additional information regarding the proposed lighting of the rooftop parking area; and

WHEREAS, in response, the applicant provided a plan sheet detailing the proposed lighting, which has been designed to reflect inward and away from adjacent uses; and

WHEREAS, based upon its review of the record, the Board concludes that the findings required under ZR § 73-49 have been met; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as an unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 12-BSA-032X, dated September 13, 2012; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration under 6 NYCRR Part 617.5 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings application under ZR § 73-49 to permit 130 parking spaces on the rooftop of a three-story parking garage located on a site partially within an M1-1 zoning district and partially within an R5 zoning district, contrary to ZR § 44-10, *on condition* that any and all work will substantially conform to drawings as they apply to the objections above noted, filed with this application marked “Received June 9, 2014” - seven (7) sheets; and *on further condition*:

THAT the maximum number of parking spaces on the rooftop will be 130, as approved by DOB;

THAT all lighting on the roof will be directed down and away from adjacent uses;

THAT the rooftop parking will be screened from neighboring residences as per the BSA-approved plans;

THAT the site will be maintained safe and free of debris;

THAT the above conditions will appear on the certificate of occupancy;

THAT the parking layout will be reviewed and approved by DOB;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the

MINUTES

Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 10, 2014.

APPLICANT – Jeffery A. Chester, Esq./GSHLLP for Peter Procops, owner; McDonald's Corporation, lessee.

SUBJECT – Application June 9, 2013 – Special Permit (§73-243) to allow an eating and drinking establishment with an existing accessory drive-through facility. C1-2 zoning district.

PREMISES AFFECTED – 21-41 Mott Avenue, Southeast corner of intersection with Beach Channel Drive, Block 15709, Lot 101. Borough of Queens.

COMMUNITY BOARD #14Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated May 20, 2013, acting on DOB Application No. 400441143, reads:

Use Group 6 eating and drinking in C1 is contrary to drive thru section ZR 32-31; and

WHEREAS, this is an application under ZR §§ 73-243 and 73-03, to permit, on a site within a C1-2 (R5) zoning district, the operation of an accessory drive-through facility operating in conjunction with an as-of-right eating and drinking establishment (Use Group 6), contrary to ZR § 32-31; and

WHEREAS, a public hearing was held on this application on April 1, 2014, with a continued hearing on May 6, 2014, and then to decision on June 10, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Montanez; and

WHEREAS, Community Board 14, Queens, recommends approval of this application; and

WHEREAS, the subject site located on the southeast corner of the intersection of Mott Avenue and Beach Channel Drive, within a C1-2 (R5) zoning district; and

WHEREAS, the site has approximately 85 feet of frontage along Mott Avenue, approximately 212 feet of frontage along Beach Channel Drive, 19,733 sq. ft. of lot area; and

WHEREAS, the site is occupied by a one-story eating and drinking establishment (Use Group 6, operated by McDonald's) with 2,728 sq. ft. of floor area (0.14 FAR), an accessory drive-through, and 21 accessory parking spaces; and

WHEREAS, the Board first exercised jurisdiction over the site when, on June 16, 1998, under BSA Cal. No. 49-94-BZ, it granted a special permit to allow an existing accessory drive-through for a term of five years, to expire on June 16, 2003; and

WHEREAS, on July 18, 2006, under BSA Cal. No. 352-05-BZ, the Board granted a special permit to allow operation of the drive-through for a term of five years, to expire on July 18, 2011; in addition, the Board authorized a reconfiguration of the site; and

WHEREAS, the applicant now seeks to reinstate the prior special permit; however, a new application is required under the Board's Rules of Practice and Procedure; and

WHEREAS, the applicant notes that the drive-through has operated continuously since the expiration of the prior special permit and that the site will remain in substantial compliance with the previously-approved plans; and

WHEREAS, the Board notes that a special permit is required for the proposed accessory drive-through facility in the C1-2 (R5) zoning district, pursuant to ZR § 73-243; and

WHEREAS, under ZR § 73-243, the applicant must demonstrate that: (1) the drive-through facility provides reservoir space for not less than ten automobiles; (2) the drive-through facility will cause minimal interference with traffic flow in the immediate vicinity; (3) the eating and drinking establishment with accessory drive-through facility complies with accessory off-street parking regulations; (4) the character of the commercially-zoned street frontage within 500 feet of the subject premises reflects substantial orientation toward the motor vehicle; (5) the drive-through facility will not have an undue adverse impact on residences within the immediate vicinity; and (6) there will be adequate buffering between the drive-through facility and adjacent residential uses; and

WHEREAS, the applicant submitted a site plan indicating that the drive-through facility provides reservoir space for ten vehicles; and

WHEREAS, the applicant represents that the facility will cause minimal interference with traffic flow in the immediate vicinity of the subject site; and

WHEREAS, in support of this representation, the applicant states that the site circulation—with two curb cuts on Beach Channel Drive and one on Mott Avenue—has been consistent for the past 16 years and that it causes minimal interference with existing traffic patterns; and

WHEREAS, the applicant submitted a site plan that demonstrates that the facility complies with the accessory off-street parking regulations for the C1-2 (R5) zoning district; as noted above, the proposed 21 parking spaces is well in excess of the nine parking spaces required under ZR § 36-21; and

WHEREAS, the applicant represents that the facility conforms to the character of the commercially zoned street frontage within 500 feet of the subject premises, which reflects substantial orientation toward motor vehicles and is predominantly commercial in nature; and

WHEREAS, the applicant states that Mott Avenue is a heavily-travelled commercial thoroughfare occupied by a variety of uses, including restaurants, drug stores,

MINUTES

supermarkets, banks, offices and retail stores; and

WHEREAS, the applicant states that such uses and the surrounding residential neighborhoods they support are substantially oriented toward motor vehicle use; and

WHEREAS, the Board notes that the applicant has submitted photographs of the site and the surrounding streets, which supports this representation; and

WHEREAS, the applicant represents that the drive-through facility will not have an undue adverse impact on residences within the immediate vicinity of the subject premises; and

WHEREAS, the applicant states that the impact of the drive-through upon residences is minimal, in that most of the surrounding properties are occupied by exclusively commercial uses; and

WHEREAS, the applicant represents that there will be adequate buffering between the drive-through and adjacent uses in the form of a fence, trees, shrubs, and planting beds; and

WHEREAS, accordingly, the applicant represents that the drive-through facility satisfies each of the requirements for a special permit under ZR § 73-243; and

WHEREAS, at hearing, the Board raised concerns about the landscaping, fencing, and excessive signage at the site; additionally, the Board directed the applicant to submit photos depicting the adjacent properties and requested additional information regarding the volume of late-night traffic at the site; and

WHEREAS, in response, the applicant submitted amended plans showing additional shrubbery and fencing along the southern lot line and signage in compliance with the C1 district regulations, and the applicant submitted photos depicting the adjacent properties; and

WHEREAS, as to volume of late-night traffic at the site, the applicant states that, on average, five to ten cars visit the site per hour throughout the night; the applicant notes that weekend nights tend to be busier than weekday night; and

WHEREAS, accordingly, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-243 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2 and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 13-BSA-157Q dated June 17, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions;

Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-243 and 73-03 to permit, on a site within a C1-2 (R5) zoning district, the operation of an accessory drive-through facility operating in conjunction with an as-of-right eating and drinking establishment (Use Group 6), contrary to ZR § 32-31; *on condition* that all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received May 27, 2014"- (7) sheets; and *on further condition*:

THAT the term of this grant will expire on June 10, 2019;

THAT the premises will be maintained free of debris and graffiti;

THAT parking and queuing space for the drive-through will be provided as indicated on the BSA-approved plans;

THAT all landscaping and/or buffering will be maintained as indicated on the BSA-approved plans;

THAT exterior lighting will be directed away from the nearby residential uses;

THAT all signage will conform to C1 zoning district regulations;

THAT the above conditions will appear on the certificate of occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, June 10, 2014.

APPLICANT – Law office of Fredrick A. Becker, for Kayvan Shadrouz, owner.

SUBJECT – Application August 12, 2013 – Special Permit (§73-622) for an enlargement of an existing single family residence, contrary to floor area, lot coverage and open space (§23-141); side yards (§23-461) and less than the required rear yard (§23-47). R3-2 zoning district.

PREMISES AFFECTED – 2413 Avenue R, North side of Avenue R between East 24th Street and Bedford Avenue. Block 6807, Lot 48. Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the New York City Department of Buildings (“DOB”), dated July 11, 2013, acting on DOB Application No. 320486675, reads in pertinent part:

1. Proposed plans are contrary to ZR 23-141 in that the proposed floor area ratio exceeds the maximum permitted;
2. Proposed plans are contrary to ZR 23-141 in that the proposed open space is less than the minimum required;
3. Proposed plans are contrary to ZR 23-141 in that the proposed lot coverage exceed the maximum permitted;
4. Proposed plans are contrary to ZR 23-461 and 23-48 in that the proposed side yard is less than the minimum required;
5. Proposed plans are contrary to ZR 23-47 in that the proposed rear yard is less than the minimum required; and

WHEREAS, this is an application under ZR § 73-622, to permit, within an R3-2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio (“FAR”), open space, lot coverage, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, 23-47, and 23-48; and

WHEREAS, a public hearing was held on this application on April 8, 2014, after due notice by publication in *The City Record*, with a continued hearing on May 13, 2014, and then to decision on June 10, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of the application; and

WHEREAS, the subject site is located on the north side of Avenue R, between East 24th Street and Bedford Avenue, within an R3-2 zoning district; and

WHEREAS, the site has 26 feet of frontage along Avenue R and 2,730 sq. ft. of lot area; and

WHEREAS, the site is occupied by a single-family home with 1,470 sq. ft. of floor area (0.54 FAR); and

WHEREAS, the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant now seeks to increase the floor area of the home from 1,470 sq. ft. (0.54 FAR) to 2,754.5 sq. ft. (1.01 FAR); the maximum permitted floor area is 1,365 sq. ft. (0.5 FAR); and

WHEREAS, the applicant seeks to decrease the open space from 70 percent to 59 percent; the minimum required open space is 65 percent; and

WHEREAS, the applicant seeks to increase the lot coverage from 30 percent to 41 percent; the maximum permitted lot coverage is 35 percent; and

WHEREAS, the applicant seeks to maintain and extend the site’s existing side yard widths of 3’-0” and 6’-8 $\frac{3}{8}$ ”; the requirement is two side yards with a minimum total width of 13’-0” and a minimum width of 5’-0” each; and

WHEREAS, the applicant also seeks to decrease its rear yard depth from 43’-6” to 26’-0”; a rear yard with a minimum depth of 30’-0” is required; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood and will not impair the future use or development of the surrounding area; and

WHEREAS, the applicant asserts that the proposed lot 1.01 FAR is consistent with the bulk in the surrounding area; and

WHEREAS, in support of this assertion, the applicant identified six homes on the subject block and the blocks directly east and west with FARs ranging from 1.0 to 1.06; the applicant notes that five of the six homes were enlarged pursuant to a special permit from the Board; and

WHEREAS, at hearing, the Board expressed concerns regarding proposal’s compliance with the building envelope required in an R3-2 zoning district; and

WHEREAS, in response, the applicant amended its plans to reflect a proposed envelope in accordance with the R3-2 regulations; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental

MINUTES

Quality Review and makes the required findings under ZR § 73-622, to permit, within an R3-2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio ("FAR"), open space, lot coverage, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, 23-47, and 23-48; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received May 7, 2014"– (10) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 2,754.5 sq. ft. (1.01 FAR), a minimum open space of 59 percent, a maximum lot coverage of 41 percent, side yards with minimum widths of 3'-0" and 6'-8³/₈", and a minimum rear yard depth of 26'-0", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 10, 2014.

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated July 30, 2013, acting on DOB Application No. 220246197, reads:

Proposed roof parking in an M1-1 zoning district is contrary to ZR Section 44-11 and requires a special permit; and

WHEREAS, this is an application under ZR § 73-49 to permit 109 parking spaces on the rooftop of a four-story parking garage located on a site partially within an M1-1 zoning district and partially within an R5 zoning district, contrary to ZR § 44-10; and

WHEREAS, a public hearing was held on this application on April 29, 2014, after due notice by publication in the *City Record*, and then to decision on June 10, 2014; and

WHEREAS, the site and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 11, Bronx, recommends approval of this application; and

WHEREAS, the subject site is the Hutchinson Metro Center, an approximately 42-acre parcel bounded by the Hutchinson River Parkway, Pelham Parkway, Bassett Avenue, Eastchester Road, Loomis Street, and Waters Place, partially within an M1-1 zoning district and partially within an R5 zoning district; and

WHEREAS, the site is a single zoning lot comprising Tax Lots 16, 35, 40, 55, 70, and 73; it has 1,826,000 sq. ft. of lot area; the vast majority of the site (1,814,571 sq. ft.) is within an M1-1 zoning district and the balance (11,249 sq. ft. – all within Lot 35) is located within an R5 zoning district; and

WHEREAS, the applicant notes that a companion case has been filed to permit rooftop parking for 130 automobiles on Lot 16 (1776 Eastchester Road) under BSA Cal. No. 277-12-BZ; and

WHEREAS, the site is occupied by a series of buildings,

MINUTES

both completed and under construction, which comply with the applicable bulk regulations and are used for parking, offices, retail space, and various community facility uses; and

WHEREAS, the applicant proposes to construct a four-story parking garage on the M1-1 portion of Lot 35; the parking garage will include rooftop parking for 109 automobiles, which is not permitted as-of-right in an M1-1 district; accordingly, the applicant seeks a special permit pursuant to ZR § 73-49; and

WHEREAS, the applicant states that the proposed rooftop parking is not required but is permitted accessory parking for the various uses on the zoning lot; likewise, the proposed parking complies with ZR § 44-12, which limits non-required accessory parking spaces to 150; and

WHEREAS, pursuant to ZR § 73-49, the Board may permit parking spaces to be located on the roof of a building if the Board finds that the roof parking is located so as not to impair the essential character or the future use or development of the adjacent areas; and

WHEREAS, the applicant represents that the rooftop parking will not impair the essential character or future use or development of adjacent areas and will not adversely affect the character of the surrounding area; and

WHEREAS, the applicant notes that there are no buildings or open uses immediately adjacent to the proposed rooftop parking, nor are there any residential uses that would be impacted; similarly, the applicant states that the nearest uses are commercial buildings or parking facilities; and

WHEREAS, at hearing, the Board requested additional information regarding the proposed lighting of the rooftop parking area; and

WHEREAS, in response, the applicant provided a plan sheet detailing the proposed lighting, which has been designed to reflect inward and away from adjacent uses; and

WHEREAS, based upon its review of the record, the Board concludes that the findings required under ZR § 73-49 have been met; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as an unlisted action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 14-BSA-029X, dated August 26, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions;

Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration under 6 NYCRR Part 617.5 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings application under ZR § 73-49 to permit 109 parking spaces on the rooftop of a four-story parking garage located on a site partially within an M1-1 zoning district and partially within an R5 zoning district, contrary to ZR § 44-10, *on condition* that any and all work will substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received June 9, 2014"- ten (10) sheets; and *on further condition*:

THAT the maximum number of parking spaces on the rooftop will be 109, as approved by DOB;

THAT all lighting on the roof will be directed down and away from adjacent uses;

THAT the rooftop parking will be screened from neighboring residences as per the BSA-approved plans;

THAT the site will be maintained safe and free of debris;

THAT the above conditions will appear on the certificate of occupancy;

THAT the parking layout will be reviewed and approved by DOB;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 10, 2014.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated December 6, 2013, acting on DOB Application No. 320447370, reads, in pertinent part:

[Proposed] physical culture establishment requires special permit; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C5-2A zoning district, within the Borough Hall Skyscraper Historic District, the operation of a physical culture establishment (“PCE”) in portions of the cellar and first story of a 13-story commercial building, contrary to ZR § 32-30; and

WHEREAS, a public hearing was held on this application on May 13, 2014, after due notice by publication in the *City Record*, and then to decision on June 10, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Brooklyn, recommends approval of the application; and

WHEREAS, the subject site is located on the southeast corner of the intersection Court Street and Joralemon Street, within a C5-2A zoning district, within the Borough Hall Skyscraper Historic District; and

WHEREAS, the site has approximately 180 feet of frontage along Court Street, approximately 274 feet of frontage along Joralemon Street, approximately 36 feet of frontage along Livingston Street, and 62,390 sq. ft. of lot area; and

WHEREAS, the site is occupied by a 13-story commercial building; and

WHEREAS, the proposed PCE will occupy 6,040 sq. ft. of floor space – 1,160 sq. ft. of floor area on the first story and 4,880 sq. ft. of floor space in the cellar; and

WHEREAS, the PCE will be operated as YogaWorks; and

WHEREAS, the applicant represents that the services

at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE will be Monday through Friday, from 6:00 a.m. to 9:00 p.m. and Saturday and Sunday, from 7:00 a.m. to 10:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the Landmarks Preservation Commission approved the alterations to the building and the proposed signage by Certificates of Appropriateness dated October 9, 2012 and July 23, 2013, respectively; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No. 14BSA077M dated March 12, 2014; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

APPLICANT – Herrick, Feinstein LLP, for Harlem Park Acquisition, LLC, owner.

SUBJECT – Application December 17, 2013 – Variance (§72-21) to waive the minimum parking requirements (§25-23) to permit the construction of a new, 682 unit, 32-story mixed used building. 123 parking spaces are proposed. C4-7 zoning district.

PREMISES AFFECTED – 1800 Park Avenue, Park Avenue, East 124th street, East 125 Street, Block 1749, Lot 33 (air rights 24), Borough of Manhattan.

COMMUNITY BOARD #11M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings, dated December 12, 2013, acting on Department of Buildings Application No. 121237303, reads in pertinent part:

ZR 25-23 – Required number of parking spaces not provided for number of dwelling units (UG 2) proposed; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site within a C4-7 zoning district, within the Special 125th Street District, the construction of a 32-story mixed residential and commercial building that does not comply with the zoning requirements for parking, contrary to ZR § 25-23; and

WHEREAS, a public hearing was held on this application on April 29, 2014, after due notice by publication in the *City Record*, with a continued hearing on May 20, 2014, and then to decision on June 10, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 11, Manhattan, recommends approval of this application; and

WHEREAS, Congressman Charles B. Rangel and Assemblyman Robert J. Rodriguez provided testimony in support of the application; and

WHEREAS, the subject site occupies the eastern portion of the block bounded by East 124th Street, Madison Avenue, East 125th Street, and Park Avenue; and

WHEREAS, the site comprises Tax Lots 24 and 33, has 315 feet of frontage along East 125th Street, 215 feet of frontage along East 124th Street, approximately 202 feet of frontage along Park Avenue, and 53,486 sq. ft. of lot area; and

WHEREAS, Lot 24 is occupied by a five-story building with 46,098 sq. ft. of floor area (0.86 FAR) utilized by the New York College of Podiatric Medicine; Lot 33 is vacant; the applicant represents that the owner of Lot 24 has transferred its 162,798 sq. ft. of unused floor area to Lot 33; and

WHEREAS, the applicant proposes to construct on Lot 33 a 32-story mixed residential and commercial building with 595,734 sq. ft. of floor area (11.14 FAR), 55,722 sq. ft. of commercial floor area, 682 dwelling units, and 123 accessory parking spaces; and

WHEREAS, the applicant states that pursuant to ZR § 25-23, one parking space is required for 40 percent of the 682 new dwelling units; thus, 273 parking spaces are required; and

WHEREAS, the applicant seeks a variance to provide only 123 accessory parking spaces; and

WHEREAS, the applicant states that, in accordance with ZR § 72-21(a), the following are unique physical conditions which create an unnecessary hardship in developing the site in compliance with applicable regulations: (1) the presence of

MINUTES

the Metro North railway viaduct and station; (2) the proximity of the Second Avenue subway line; and (3) subsurface conditions, including a deep bedrock elevation, the presence of groundwater, which will require substantial dewatering prior to construction of the foundation, and significant contamination, and; and

WHEREAS, the applicant states that the nearby presence of the Metro North railway viaduct and station uniquely impacts the site and will result in premium construction costs; and

WHEREAS, in particular, the applicant states that the site is bounded by the elevated Metro North railway viaduct and station, which extends from East 124th Street to East 126th Street, and that, in the area adjacent to the site, the viaduct and station are supported by a steel platform on steel bents spaced every 65 feet, which are supported by five columns, which are in turn supported by eight-foot-long by eight-foot-wide pier foundations, five of which are located within the sidewalk along East 125th Street approximately ten feet from the site's eastern property line; and

WHEREAS, the applicant notes that, according to the engineering consultant's report (the "Langan Report"), the pier foundation for the station extends approximately 14.5 feet to 18.5 feet below sidewalk grade and is supported on uncontrolled fill material; accordingly, the applicant asserts that development of the site requires special excavation procedures and a specialized foundation system in order to protect the Metro North structures, at significant cost; and

WHEREAS, the applicant contends that its proximity to the Metro North station and its support columns is unique, in that only four blocks along Park Avenue from East 123rd Street to East 126th Street, have a similar condition; and

WHEREAS, the applicant states that the proximity of the Second Avenue subway line will include the construction of an underground station under East 125th Street extending from Third Avenue to mid-block between Park Avenue and Madison Avenue and that such proposed station creates unique hardships in the development of the site; and

WHEREAS, specifically, the applicant states that future station and subway tunnels will be directly adjacent to the site's northern property line; as such, it is expected that the New York City Transit Authority will require certain easements, including a permanent easement for the space below the cellar of any new building at the site (for the installation of rock anchors to support the subway station) and a temporary easement at the cellar and ground level during the construction period of the station; and

WHEREAS, in addition, the applicant states that, based on the Langan Report, the Transit Authority will likely require transfer of all foundation loads beyond the theoretical influence line; further, per the Langan Report, the applicant must employ a specialized foundation installation procedure involving the drilling of a permanent steel casing to the top of rock, coring a hole in the rock, advancing casing to the influence line, and then drilling a rock socket below the influence line, in order to prevent any shedding of gravity loads to the rock adjacent to the tunnels; accordingly, the

applicant states that protecting the Second Avenue subway line will significantly increase its construction costs; and

WHEREAS, in addition, the applicant notes that pile driving is not permitted within 50 feet of the structural boundary of either the Metro North station or the Second Avenue subway tunnel; as such, an alternative, more expensive foundation system must be employed; and

WHEREAS, further, the applicant asserts that even if adjacency to a subway line is not a unique site condition in the surrounding neighborhood, adjacency to both a subway line and an elevated train station is unique; and

WHEREAS, as to the subsurface conditions, the applicant states that, based on the Langan Report, the bedrock at the site ranges from 59 feet to 110 feet below grade, which is 80 percent deeper than the bedrock at surrounding sites; as such, in addition to being more technically complex due to the presence of subway tunnels and above-ground structures, the foundation must be deeper than typical foundations; and

WHEREAS, in addition, the applicant states that the Langan Report identified groundwater at depths ranging from 10 feet to 15 feet below grade; thus, dewatering prior to the construction of the foundation will be required; and

WHEREAS, as to contamination, the applicant states that the New York State Department of Environmental Conservation has classified the site as a Brownfields Cleanup Site due to the presence of elevated concentrations of metals, polynuclear aromatic hydrocarbons, polycyclic chlorinated biphenyls, and lead at concentrations that make it hazardous waste; additionally, a level of petroleum has been identified atop the water table; as such, the applicant represents that approximately 35,000 tons of soil will need to be excavated from the site and properly disposed of, and a vapor barrier must be constructed beneath the foundation to prevent the migration of contaminants; and

WHEREAS, the applicant represents that the total cost premium resulting from the site's unique physical conditions are \$16,627,727 and that such cost involves the construction of only one below-grade level; and

WHEREAS, accordingly, the applicant states that the construction of one or more sub-cellars to accommodate parking is not feasible due to the site's unique physical conditions; and

WHEREAS, likewise, the applicant asserts that it is not feasible to locate parking within above-grade portions of the building because doing so would require elimination of valuable retail space, which is necessary to offset the premium construction costs noted above; and

WHEREAS, to support this assertion, the applicant analyzed a complying building with 32 stories, 595,734 sq. ft. of floor area (11.14 FAR), one retail story (21,912 sq. ft. of commercial floor area), 682 dwelling units and 304 parking spaces ("Scenario A"); thus, the Scenario A building is similar to the proposal all respects except the number of parking spaces and the amount of retail space; and

WHEREAS, thus, the applicant contends that there is a direct nexus between the physical hardships of the site and the requested parking waiver; and

MINUTES

WHEREAS, based upon the above, the Board finds that the site's adjacency to the Metro North railway viaduct and station and the Second Avenue subway line and the site's many subsurface conditions, when considered in the aggregate, create unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, the applicant asserts that, per ZR § 72-21(b), there is no reasonable possibility that the development of the site in conformance with the Zoning Resolution will bring a reasonable return; and

WHEREAS, in support of this assertion, the applicant submitted a feasibility study that analyzed Scenario A and the proposal; and

WHEREAS, in addition, in response to the Board's comments, the applicant examined two other alternative scenarios with larger dwelling units: (1) a complying development with 32 stories, 595,734 sq. ft. of floor area (11.14 FAR), two retail stories, 307 dwelling units, and 123 parking spaces; and (2) a complying development with only 30 stories, 360,790 sq. ft. of floor area (6.75 FAR), two retail stories, 307 dwelling units, and 123 parking spaces; and

WHEREAS, the applicant concluded that only the proposal would realize a reasonable rate of return; and

WHEREAS, based upon its review of the applicant's submissions, the Board has determined that because of the site's unique physical conditions, there is no reasonable possibility that development in strict compliance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, the applicant states that the surrounding neighborhood is characterized by its diversity; the area has low-, medium-, and high-density residential and community facility buildings, with ground floor retail uses along both East 125th Street and Park Avenue; and

WHEREAS, the applicant states that the intersection of Park Avenue and East 125th Street is a vibrant commercial intersection, which is well-served by public transit and heavily trafficked by pedestrians and automobiles alike; and

WHEREAS, as to adjacent uses, the applicant states, as noted above, that the site shares occupies the same zoning lot with as the New York College of Podiatric Medicine, which will be located directly west of the proposed building; the only other building adjacent to the site is a four-story multiple dwelling with ground floor retail; directly north of the site across East 125th Street is the historic Corn Exchange building, which is slated for redevelopment; directly east of the site is, as mentioned above, the elevated structure for the Metro North train; directly south of the site is a parking lot; and

WHEREAS, turning to bulk, the applicant represents

that, with the exception of parking, the proposal complies in all respects with the bulk regulations applicable in the subject C4-7 zoning district; and

WHEREAS, as to parking, the applicant states that the site is well-served by several subway and bus lines, and the Metro North station and that number of parking spaces required for the development under ZR § 25-23 are unnecessary; and

WHEREAS, at hearing, the Board directed the applicant to provide additional information regarding car ownership rates in the proposed building, off-street parking utilization, and parking supply; and

WHEREAS, in response, the applicant provided a study, which concluded: (1) based on census data and the location of the site, the building's 682 dwelling units will contribute a parking demand of 118 vehicles (which the applicant notes is less than the 123 parking spaces proposed); (2) 40 percent of the households expected to occupy the proposed building are likely to utilize street parking rather than paying for a parking space within the building; and (3) on- and off-street parking supply within ¼ mile of the site is more than adequate to accommodate the parking demand generated by the proposed building; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that, consistent with ZR § 72-21(d), the hardship herein was not created by the owner or a predecessor in title, but is due to the proximity of the Second Avenue subway, the Metro North station, and the subsurface conditions on the site; and

WHEREAS, the Board also finds that this proposal is the minimum necessary to afford the owner relief, in accordance with ZR § 72-21(e); and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 14-BSA-081M, dated March 26, 2014; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, (E) designation No. E-201 regarding noise and air quality was placed on the subject property in

MINUTES

conjunction with the rezoning of the property in April 30, 1008, under ULURP No. 080099ZMM; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 to permit, on a site within C4-7 zoning district, within the Special 125th Street District, the construction of a 32-story mixed residential and commercial building that does not comply with the zoning requirements for parking, contrary to ZR § 25-23; *on condition* that any and all work will substantially conform to drawings as they apply to the objections above noted, filed with this application marked “Received June 6, 2014”– thirty (30) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the proposed building: a maximum floor area of 595,734 sq. ft. (11.14 FAR), a maximum of 682 dwelling units, and a minimum of 123 accessory parking spaces, as reflected on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT substantial construction shall be completed in accordance with ZR § 72-23;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 10, 2014.

CEQR #14-BSA-093K

APPLICANT – Warshaw Burstein, LLP, for Isaac Chera, owner; 2007 86th Street Fitness Group, LLP, lessee.

SUBJECT – Application December 31, 2013 – Special Permit (§73-36) to allow the operation of a physical culture establishment (*Planet Fitness*) within the existing building at the Premises. C4-2 zoning district.

PREMISES AFFECTED – 2005 86th Street aka 2007 86th Street, north side of 86th street, west of its intersection with 20th Avenue, Block 6346, Lot 5, Borough of Brooklyn.

COMMUNITY BOARD #11BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated December 18, 2013, acting on DOB Application No. 320817345, reads, in pertinent part:

Proposed physical culture establishment is not permitted as-of-right in a C4-2 zoning district pursuant to ZR 32-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C4-2 zoning district, the operation of a physical culture establishment (“PCE”) in portions of the first story and mezzanine of a one-story commercial building, contrary to ZR § 32-30; and

WHEREAS, a public hearing was held on this application on May 6, 2014, after due notice by publication in the *City Record*, and then to decision on June 10, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, Community Board 11, Brooklyn, recommends approval of the application, on condition that: (1) the 85th Street side of the property is not used for entrance or egress; (2) the gate on the 85th Street side is secured at all times; and (3) additional bike racks on 86th Street are provided, if permitted by law; and

WHEREAS, the subject site is a through lot located on the block east of 20th Avenue between 85th Street and 86th Street, within a C4-2 zoning district; and

WHEREAS, the site has approximately 11 feet of frontage along 20th Avenue, 70 feet of frontage along 85th Street, 70 feet of frontage along 86th Street, and 14,330 sq. ft. of lot area; and

WHEREAS, the site is occupied by a one-story commercial building with a mezzanine; the building has a total of 13,990 sq. ft. of floor area (0.98 FAR); and

WHEREAS, the applicant states that it proposes to enlarge the mezzanine level by 3,550 sq. ft., resulting in a total building floor area of 17,540 sq. ft. (1.22 FAR); and

WHEREAS, the proposed PCE will occupy 16,880 sq. ft. of floor area – 12,540 sq. ft. of floor area on the first story and 4,340 sq. ft. of floor space in the cellar; and

WHEREAS, the PCE will be operated as Planet Fitness; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE will be seven days per week, 24 hours per day; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and

MINUTES

operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, at hearing, the Board requested clarification regarding the proposed PCE's use of the 85th Street entrance to the site; and

WHEREAS, in response, the applicant provided photographs showing that the 85th Street entrance to the site is enclosed with a gated fence; the applicant also represented that the PCE would not have an entrance on the 85th Street side of the building; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No. 14BSA093K dated December 23, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issued a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR

§§ 73-36 and 73-03 to permit, on a site within a C4-2 zoning district, the operation of a PCE in portions of the first story and mezzanine of a one-story commercial building, contrary to ZR § 32-30; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received March 11, 2014" – Four (4) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on June 10, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 10, 2014.

7-14-BZ

APPLICANT – Greenberg Traurig, LLP, for Rockaway Realty LLC, owner; 1380 Rockaway Parkway Fitness Group, LLC, lessee.

SUBJECT – Application January 16, 2014 – Special Permit (§73-36) to permit the conversion of the existing on-story, plus cellar to a physical culture establishment (*Planet Fitness*) in connection with an application to rezone the property from an R5D/C1-3(Z) to an R5D/C2-3(ZD).

PREMISES AFFECTED – 1380 Rockaway Parkway, west side of Rockaway Parkway, midblock between Farragut Road and Glenwood Road, 204.85' south of Farragut Road, Block 8165, Lot 48, Borough of Brooklyn.

THE RESOLUTION –

MINUTES

WHEREAS, the decision of the Department of Buildings (“DOB”), dated December 17, 2013, acting on Physical culture or health establishment is not permitted in C1-3 (R5D); and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C2-3 (R5D) zoning district, the operation of a physical culture establishment (“PCE”) in a one-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on May 6, 2014, after due notice by publication in the *City Record*, and then to decision on June 10, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, Community Board 18, Brooklyn, recommends approval of the application; and

WHEREAS, the subject site is located on the west side of Rockaway Parkway between Farragut Road and Glenwood Road, within a C2-3 (R5D) zoning district; and

WHEREAS, the site has 83 feet of frontage along Rockaway Parkway and 8,353 sq. ft. of lot area; and

WHEREAS, the site is occupied by a one-story commercial building with 7,960 sq. ft. of floor area (0.95 FAR); and

WHEREAS, the proposed PCE will occupy the entire building, including the cellar, which has an additional 7,960 sq. ft. of floor space, for a total PCE size of 15,920 sq. ft. of floor space; and

WHEREAS, the PCE will be operated as Planet Fitness; and

WHEREAS, the applicant notes that parking for the historic commercial uses at the site was authorized on the adjacent parcel (Block 8165, Lot 21) by the Board under BSA Cal. No. 799-51-BZ; however, the applicant represents that the proposed PCE does not require parking and its employees and patrons will not park on Lot 21 and will instead use the public parking facility across Rockaway Parkway on Block 8166, Lot 14; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; massage services will not be offered; and

WHEREAS, the hours of operation for the PCE will be seven days per week, 24 hours per day; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the

surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, an environmental review of the proposed action was conducted by the New York City Department of City Planning (“DCP”) and is discussed in the Environmental Assessment Statement, CEQR No. 14DCP038K dated December 12, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

Therefore it is Resolved, that the Board of Standards and Appeals adopted DCP’s Negative Declaration dated December 16, 2013 prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site within a C2-3 (R5D) zoning district, the operation of a PCE in a one-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received May 8, 2014” – Four (4) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on June 10, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT egress will be as reviewed and approved by DOB;

MINUTES

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated January 9, 2014, acting on DOB Application No. 320814669, reads in pertinent part:

1. Proposed plans are contrary to ZR 23-141 in that the proposed floor area ratio is greater than the maximum permitted;
2. Proposed plans are contrary to ZR 23-141 in that the proposed open space is less than the minimum required;
3. Proposed plans are contrary to ZR 23-141 in that the proposed lot coverage exceeds the maximum permitted; and

WHEREAS, this is an application under ZR §§ 73-621 and 73-03, to permit, within an R3-2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area, open space and lot coverage, contrary to ZR § 23-141; and

WHEREAS, a public hearing was held on this application on May 13, 2014, after due notice by publication in *The City Record*, and then to decision on June 10, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 18, Brooklyn, recommends approval of the application; and

WHEREAS, the subject site is located on the west side of Madison Place, between Avenue P and Quentin Road, within an R3-2 zoning district; and

WHEREAS, the site has 31 feet of frontage along Madison place and 3,100 sq. ft. of lot area; and

WHEREAS, the site is occupied by a single-family home with 1,415 sq. ft. of floor area (0.46 FAR); and

WHEREAS, the applicant proposes to horizontally enlarge the cellar, first, and second stories at the rear of the building, resulting in an increase in floor area from 1,415 sq. ft. (0.46 FAR) to 1,968 sq. ft. (0.64 FAR); the maximum permitted floor area is 1,860 sq. ft. (0.6 FAR), which includes 310 sq. ft. of floor area (0.1 FAR) that must be provided directly under a sloping roof; and

WHEREAS, the applicant seeks a decrease in open space from 73 percent to 63 percent; the minimum required open space ratio is 65 percent; and

WHEREAS, the applicant seeks an increase in lot coverage from 27 percent to 37 percent; the maximum permitted lot coverage is 35 percent; and

WHEREAS, the special permit authorized by ZR § 73-621 is available to enlarge buildings containing residential uses that existed on December 15, 1961, or, in certain districts, on June 20, 1989; therefore, as a threshold matter, the applicant must establish that the subject building existed as of that date; and

WHEREAS, the applicant submitted an excerpt of the 1929 Belcher-Hyde map to demonstrate that the building existed as a residence well before June 30, 1989, which is the operative date within the subject R3-2 zoning district; and

WHEREAS, accordingly, the Board acknowledges that the special permit under ZR § 73-621 is available to enlarge the building; and

WHEREAS, ZR § 73-621 permits the enlargement of a residential building such as the subject single-family home if the following requirements are met: (1) the proposed open space ratio is at least 90 percent of the required open space; (2) in districts where there are lot coverage limits, the proposed lot coverage does not exceed 110 percent of the maximum permitted; and (3) the proposed floor area ratio does not exceed 110 percent of the maximum permitted; and

WHEREAS, as to the open space, the applicant represents that the proposed reduction in the open space results in an open space that is at least 90 percent of the minimum required; and

WHEREAS, as to the lot coverage, the applicant represents that the proposed increase in lot coverage results in a lot coverage that does not exceed 110 percent of the maximum permitted; and

WHEREAS, as to the floor area ratio, the applicant

MINUTES

represents that the proposed floor area does not exceed 110 percent of the maximum permitted; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed enlargement satisfies all of the relevant requirements of ZR § 73-621; and

WHEREAS, at hearing, the Board directed the applicant to clarify the extent to which the enlargement includes floor area directly under a sloping roof; and

WHEREAS, in response, the applicant clarified that it proposes an additional 277 sq. ft. of floor area directly under a sloping roof; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-621 and 73-03.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-621 and 73-03, to permit, within an R3-2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area, open space and lot coverage, contrary to ZR § 23-141; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received January 27, 2014"- (9) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area of 1,968 sq. ft. (0.64 FAR), a minimum open space ratio of 63, and a maximum lot coverage of 37 percent, as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the

Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 10, 2014.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated December 31, 2013, acting on DOB Application No. 121828335, reads, in pertinent part:

ZR 32-10 – Proposed physical culture establishment in a C1-9A (zoning district) is not permitted as-of-right; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C1-9A zoning district, within the Special Transit Land Use District, the operation of a physical culture establishment ("PCE") in portions of the first story of a 12-story mixed residential and commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on May 13, 2014, after due notice by publication in the *City Record*, and then to decision on June 10, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan and Commissioner Ottley-Brown; and

WHEREAS, Community Board 6, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of East 23rd Street between First Avenue and Second Avenue, within a C1-9A zoning district, within the Special Transit Land Use District; and

WHEREAS, the site has approximately 125 feet of frontage along East 23rd Street and 12,344 sq. ft. of lot area; and

WHEREAS, the applicant states that the site is occupied

MINUTES

by a 12-story mixed residential and commercial building with 117,871 sq. ft. of floor area (9.5 FAR); and

WHEREAS, the applicant notes that the building was historically two separate buildings, which were combined, as evidenced by Certificate of Occupancy No. 85578, issued March 27, 1984; and

WHEREAS, the proposed PCE will occupy 3,497 sq. ft. of floor area on the first story; and

WHEREAS, the PCE will be operated as Massage Envy; and

WHEREAS, the applicant represents that the services at the PCE include spa services and massage by New York State-licensed masseurs and masseuses; and

WHEREAS, the hours of operation for the PCE will be Monday through Saturday, from 8:00 a.m. to 10:00 p.m. and Sunday, from 8:00 a.m. to 9:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action discussed in the CEQR Checklist, CEQR No. 14BSA107M dated February 3, 2014; and

Therefore it is Resolved, that the Board of Standards and Appeals issued a Type II determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site within a C1-9A zoning district, within the Special Transit Land Use District, the operation of a PCE in portions of the first story of a 12-story mixed residential and commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received April 22, 2014" – Five (5)

sheets; and *on further condition*:

THAT the term of the PCE grant will expire on June 10, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT all massages must be performed by New York State licensed massage therapists;

THAT the hours of operation for the PCE will be limited to Monday through Saturday, from 8:00 a.m. to 10:00 p.m. and Sunday, from 8:00 a.m. to 9:00 p.m.;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 10, 2014.

THE RESOLUTION:

WHEREAS, the decision of the Manhattan Borough Commissioner, dated October 31, 2005, acting on Department of Buildings Application No. 104054871, reads, in pertinent part:

“Proposed . . . lot coverage is not permitted in that it is contrary to ZR 23-145 of 80% for corner lot.

Proposed partial piece of building does not comply with side yard regulations. In addition the same area is subject to court regulations and does not comply with court regulations. ZR 35-32 and ZR 23-83.

Proposed parking area exceeds size permitted as per ZR 13-143. Maximum size permitted [is] 200 times 2 cars and 300 times 1 car for commercial store. (Maximum 700 square feet).

Proposed building exceeds setback regulations as per ZR 35-24.

Proposed location of curb cut for parking access is not permitted in that it is contrary to ZR 13-142A ‘shall be located not less than 50 feet from the intersection of any two street lines’”; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site within a C6-2A zoning district, the proposed construction of an eleven story mixed-use residential, commercial, and community facility building, which does not comply with applicable zoning requirements concerning lot coverage, setback, side yard, courts, parking area size, and curb cut location, contrary to ZR §§ 23-145, 35-32, 23-83, 13-

143, 35-24, and 13-142A; and

WHEREAS, the building, which will be built in accordance with the ZR’s Quality Housing regulations, will have a total Floor Area Ratio (FAR) of 6.5 (20,255 sq. ft.), a residential FAR of 6.019 (18,877.7 sq. ft.), a commercial FAR of 0.307 (962.6 sq. ft.), a community facility FAR of 0.132 (415.0 sq. ft.); and

WHEREAS, ten dwelling units and three parking spaces will be provided; and

WHEREAS, the proposed street wall height is 60 ft., and the total height is 120 ft.; and

WHEREAS, the FAR, density, street wall height, and total height comply with applicable C6-2A district regulations; in particular, the FAR complies with the 6.5 maximum for buildings with a community facility component; and

WHEREAS, the Board also notes that all of the proposed uses are as of right; and

WHEREAS, however, the proposed building is non-compliant as follows: (1) the proposed lot coverage is 96.6% (80% is the maximum permitted); (2) the proposed trapezoidal building form, at the proposed lot coverage, will not comply with the required width for a side yard, or, alternatively, a court; (3) a small portion of the dormer will be located within the required 15 ft. setback at the 10th and 11th floors; (4) the proposed garage area is 862.9 sq. ft. (700 sq. ft. is the maximum permitted, based upon the proposed occupancies); and (5) the curb cut will be approximately 34 ft. from the intersection of Greenwich and Canal Streets (curb cuts are required to be at least 50 ft. away from the intersection); and

WHEREAS, the Board notes that the application as originally filed contemplated an eleven-story building, with the same waivers as indicated above, but also with a non-complying FAR of 7.98 (6.02 is the maximum permitted), a street wall height of 111 ft. (85 ft. is the maximum street wall height), and no setback at 85 ft. (a fifteen ft. setback is required at this height); and

WHEREAS, as discussed in greater detail below, the Board expressed serious concerns about the project as originally proposed, primarily because it did not credit certain of the alleged unique physical conditions that allegedly created the need for the FAR, street wall and setback waivers, and, to a lesser extent, because the proposed building appeared to be out of context with the surrounding built conditions; and

WHEREAS, while the applicant continues to contest the position of the Board as to its view as to the alleged hardships, the proposal was nevertheless modified to the current version near the end of the hearing process; and

WHEREAS, a public hearing was held on this application on January 24, 2006 after due notice by publication in the *City Record*, with continued hearings on April 25, 2006 and June 20, 2006 and then to decision on September 12, 2006; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by a committee of the Board, consisting of Chair Srinivasan, Vice-Chair Babbar, and Commissioner Collins; and

MINUTES

WHEREAS, Community Board 2, Manhattan, upon review of the initial version of the application, supported waivers for lot coverage, curb cut distance, and parking, but expressed opposition to the proposed FAR waiver; and

WHEREAS, the Department of City Planning opposed the initial version of this application, expressing concerns about the proposed FAR and resulting street wall height, and noting that the degree of waiver was not warranted and that the street wall height would be out of character with the built conditions in the neighborhood; and

WHEREAS, this application was opposed by the Canal West Coalition and certain individual neighbors of the site (hereinafter, collectively referred to as the "opposition"); relevant arguments of the opposition are discussed below; and

WHEREAS, the subject premises is located on the northwest corner of the intersection of Canal and Greenwich Streets, and has a lot area of 3,136 sq. ft.; and

WHEREAS, the applicant notes that the site is located near the historic shoreline and is within Zone A – High Hazard Flood Plain; and

WHEREAS, while the site is currently in a C6-2A zoning district, it was formerly located within an M1-6 zoning district; the site was rezoned as part of the Hudson Square rezoning, approved by the City Council in 2003; and

WHEREAS, the applicant notes that during the CEQR review of the rezoning, what is known as an "E" designation was attached to the site, due to its history of gas station use; and

WHEREAS, the applicant states because of the "E" designation, prior to development, testing of the soil is mandated and soil remediation may be needed; further, the "E" designation also establishes minimum noise attenuation requirements for development on the site, due to its location on Canal Street; and

WHEREAS, the site has 59 ft. of frontage on Greenwich Street, and approximately 96 ft. of frontage on Canal Street; and

WHEREAS, the applicant states the site is irregularly shaped, since the two frontages meet at an acute angle, forming a 55 degree wedge at the intersection, and since the northern lot line of the site is bowed and pinched in the center; and

WHEREAS, the site is currently fully paved and partially occupied by a one-story brick garage and former gas station at its western edge, and with a billboard on the eastern side; all of the existing improvements on the site will be removed in anticipation of the new building; and

WHEREAS, the applicant states that the commercial space, the community facility space, the three-car garage, and the residential lobby will be located on the first floor of the proposed building, and the residential units will be located on the second through 11th floors; outdoor terraces will also be provided for some of the units, and recreation space will be located on the second floor; and

WHEREAS, as noted above, however, the proposed building requires certain waivers; thus, the instant variance application was filed; and

WHEREAS, the applicant states that the following are unique physical conditions which create unnecessary hardship and practical difficulties in developing the site with a complying building: (1) the site is small and irregularly shaped; (2) the site is proximate to a major thoroughfare, Canal Street; (3) the site is burdened with an "E" designation; and (4) the site is within the flood plain; and

WHEREAS, as to size and shape, the applicant states this causes two immediate problems: (1) the irregular shape makes it impractical to comply with side yard, courtyard, and lot coverage regulations, since an as of right building would have to either leave the narrow northwestern corner of the site undeveloped, resulting in a non-complying court or yard, or, if it was developed, it would result in non-usable space that would only increase construction costs without generating revenue from such space; and (2) the sharply angled lot boundaries and pinched interior of the site require the building to have a high "face" to "plate" ratio, which increases construction costs; and

WHEREAS, the Board agrees that the size and the shape of the site are unusual, and that significant constraints are placed on an as of right development; and

WHEREAS, in particular, the Board credits the applicant's explanation of how the size and shape of the site make it impractical to develop the site in a way that complies with lot coverage, and courts and yards; and

WHEREAS, the Board observes that the imposition of these requirements on the site would lead to the creation of impractical floor plates, which would diminish the overall sell out value of the proposed units and, on each floor increase, the amount of space (cores and common areas) that do not generate revenue; and

WHEREAS, the requested lot coverage, yard and court waivers eliminate the impact that the site's size and shape have on development; and

WHEREAS, however, the Board disagrees that the costs associated with the high "face" to "plate" ratio constitute an unnecessary hardship; instead, the Board concludes that the value of the units, given the multiple exposures arising from the site's shape, and the resulting views, will result in a unit sell out value that will compensate for any increased construction costs that may arise from the shape of the building and "face" to "plate" ratio; and

WHEREAS, the applicant also states that the shape of the site necessitates the additional curb cut and parking waivers; and

WHEREAS, specifically, the applicant notes that the shape and the location of the site make it impossible to place the entire curb cut for the garage entrance anywhere but within 50 feet of the intersection of Canal and Greenwich Streets; and

WHEREAS, the applicant further notes that placement of the curb cut on Canal is infeasible since it is a heavily trafficked street, and the Greenwich Street frontage is too small to accommodate the entire width of the 20 ft. curb cut without locating it within 50 feet of the intersection; and

WHEREAS, the applicant also notes that the small size of the lot makes it impractical to comply with the maximum

MINUTES

parking area requirement of 700 sq. ft. while still providing a reasonable layout for three parking spaces (which is an allowed amount in the subject zoning district and which increases the overall viability of the project); thus, the additional 163 sq. ft. is necessary; and

WHEREAS, the opposition argues that the size and the shape of the lot are not unique, in that there are numerous irregularly shaped lots in the immediate vicinity; and

WHEREAS, the applicant responds that the subject site is one of the few in the area that is both irregular in shape and very small in size, and cited to the submitted radius diagram in support of this response; and

WHEREAS, additionally, the applicant also explained that of the 19 other irregular lots (out of the total of 71 lots on Blocks 594 and 595), nine are good candidates for an assemblage, and six are already fully developed; and

WHEREAS, the applicant concludes that irregularity is a characteristic likely to create hardship for only a few vacant or under utilized lots in the area; and

WHEREAS, the Board concurs with this response, and further observes that to meet the finding set forth at ZR § 72-21(a), a site does not have to be the only site in the vicinity that suffers from a particular hardship; and

WHEREAS, instead, the Board must find that the hardship condition cannot be so prevalent that if variances granted to every identically situated lot, the character of the neighborhood would significantly change (see *Douglaston Civic Ass'n, Inc. v. Klein*, 435 N.Y.S.2d 705 (1980)); and

WHEREAS, the Board concludes that while there are other small, irregularly shaped sites in the subject zoning district, the conditions affecting the site are not so prevalent that the uniqueness finding cannot be made; and

WHEREAS, in sum, the Board finds that the requested lot coverage, yard, court, curb cut and parking waivers are necessitated by the site's shape and size, and location on Canal Street; and

WHEREAS, when the applicant also proposed FAR, setback and street wall height waivers, evidence was submitted regarding the costs associated with the "E" designation and the location of the site within the flood plain (which leads to soil conditions that would require pile foundation construction); and

WHEREAS, because the FAR waiver request has been withdrawn, these alleged conditions and any costs associated with them are no longer relevant; and

WHEREAS, however, the Board did not find the "E" designation a sufficiently unique condition to warrant consideration as a hardship for which relief was warranted, given that almost all of the sites within the Hudson Square rezoning received such designations; specifically, the Board notes that 56 lots on adjacent and nearby blocks have "E" designations; and

WHEREAS, further, the Board does not view the costs related to the "E" designation (for sound attenuation and soil testing) as an unnecessary hardship, given that they are minimal and because the noise attenuation adds value to the units; and

WHEREAS, the Board also was not persuaded that the site's soil conditions and location within the flood plain was a unique physical hardship; and

WHEREAS, the Board observes that the uniqueness of the site's sub-surface conditions was not conclusively established by the applicant; and

WHEREAS, the Board acknowledges that the "E" designation and the soil conditions (which, as stated above, require that piles be used) add to overall development costs; and

WHEREAS, however, the Board concludes that these additional costs are overcome by the increased sell out value of the units – an increase that results from the waivers that the Board is granting; and

WHEREAS, based upon the above, the Board finds that certain of the aforementioned unique physical conditions – namely, the site's size and shape, and its location on Canal Street - creates unnecessary hardship and practical difficulty in developing the site in compliance with the current applicable zoning regulations; and

WHEREAS, the applicant initially submitted a feasibility study which analyzed a complying 18,862 sq. ft., 6.02 FAR nine-story building with retail on the ground floor and residential units on the floor above; and

WHEREAS, the study concluded that this complying scenario would not realize a reasonable return, since a complying building would have a compromised and inefficient floor plate that would depress sell out value; and

WHEREAS, based upon the above, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict compliance with zoning will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant notes that the proposed height is comparable to two residential projects directly across the Greenwich Street from the site: one is ten stories, and one is 14 stories; and

WHEREAS, the applicant also cites to other sites in the vicinity that are either developed with buildings of comparable height in the process of being developed: an eight-story building proposed for the small block bounded by Canal, Greenwich and Watts Streets, and a nine-story building across Canal Street; and

WHEREAS, finally, the applicant notes that the façade treatment is in keeping with development in the area, and was designed to reduce any appearance of bulk; and

WHEREAS, the Board notes that the current proposal respects the floor area, height and street wall requirements of the subject zoning district; and

WHEREAS, accordingly, in terms of its bulk, the current proposal is much more contextual with the surrounding neighborhood than the original proposal, which

MINUTES

required waivers of FAR and street wall; and

WHEREAS, the Board notes that the lot coverage and yard/court waivers will not negatively impact any neighboring building, nor will the resulting building negatively affect the character of the neighborhood; and

WHEREAS, the Board observes that lot coverage is complied with above 60 feet, and the waiver is only needed for the floors beneath this height; and

WHEREAS, finally, the Board notes that after eliminating the FAR and street wall requests, the applicant initially submitted a building proposal which showed a fully compliant height, setback, and dormer; and

WHEREAS, however, concerns were raised as to the dormer above 60 feet, at the street line and adjacent to the lot line along Greenwich Street; and

WHEREAS, accordingly, the current proposal includes a dormer above 60 ft., set back from the street wall; and

WHEREAS, as a result of such configuration and the need to accommodate a sufficient amount of floor area on each floor, the dormer at the 10th and 11th floors modestly encroaches into the setback (approximately 13 sq. ft. at the 10th floor, and approximately 34 sq. ft. at the 11th floor); and

WHEREAS, the Board further notes that the small setback waiver is the result of the desire to enhance light and air for the neighboring property, and that the design change that will incorporate this waiver was in response to certain concerns of the opposition; and

WHEREAS, the Board further notes that the curb cut waiver will not affect traffic patterns in the area, and will eliminate the need for a curb cut on Canal Street, as well as decreasing on street parking demand; and

WHEREAS, the Board observes that while the proposed garage does not comply with the minimum size requirement, the layout has been reviewed and is acceptable; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title, but is the result of the pre-existing size, shape and location of the lot; and

WHEREAS, in addition to the complying scenario discussed above, the applicant also analyzed its initial proposal, a 6.02 FAR proposal with lot coverage, street wall height, setback, yard and court waivers, and a 6.02 FAR alternative, with lot coverage and yard/court waivers, but no setback waiver; and

WHEREAS, the applicant concluded that both 6.02 FAR scenarios and the 7.6 FAR scenario would not realize a reasonable return, but that the proposal would; and

WHEREAS, however, the Board expressed concern about the claimed revenue to be generated by the residential units, and suggested that it was understated; and

WHEREAS, in particular, the Board questioned whether the comparables used to generate the sell out value were too

low and not an accurate reflection of unit values in the area; and

WHEREAS, further, as noted above, the Board did not view the initial proposal as the minimum variance; and WHEREAS, after modifying the proposal, the applicant submitted a new feasibility study of the proposal that reflected an updated site value, sell out value, construction costs estimate, and interest rates; and

WHEREAS, the applicant also maximized the value of the as of right FAR and height by removing the proposed cellar, thereby decreasing construction costs and increasing revenue; and

WHEREAS, the applicant notes that the unit prices were based on the pricing structure suggested by the opposition, ranging from \$1,200 per square foot for the smaller units to \$1,950 per square foot for the larger units; previously, the per square foot value was approximately \$1,000; and

WHEREAS, the Board has reviewed this revised study and finds it acceptable, as the sell out value has appropriately increased to reflect actual market conditions; and

WHEREAS, because the applicant modified the proposed building to the current version, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board notes that the opposition has made numerous arguments as to this application, many of which are no longer relevant because of the change in the proposal, particularly the arguments made in opposition to the floor area and height waivers; and

WHEREAS, particularly, concerns about inflated construction costs (i.e. piles) for site conditions that may not be unique are no longer relevant since the FAR waiver request has been withdrawn; further, concerns that the originally proposed FAR and street wall did not comport with the character of the neighborhood are likewise irrelevant; and

WHEREAS, as noted above, the Board agrees that certain of the cited physical conditions were not established as unique, and were therefore discounted; and

WHEREAS, the Board also notes that the financial data was updated, and that acceptable revenue projections were submitted; and

WHEREAS, however, the opposition continues to oppose the application even as currently proposed, and set forth a summary of its arguments in a submission dated August 15, 2006; and

WHEREAS, for the reasons cited by the applicant in its August 25, 2006 submission, the Board finds that none of the opposition arguments as to the current proposal are persuasive; and

WHEREAS, finally, the Board disagrees with the opposition's contention that the building as proposed should have been presented to the Community Board for another hearing and vote; and

WHEREAS, neither the City Charter nor the Board's Rules not mandate that further Community Board action is necessary when a proposed building is reduced in scale; and

WHEREAS, all that is required by the Board's Rules is

MINUTES

that the Community Board be copied on submissions made by the applicant to the Board; here, that occurred; and

WHEREAS, while the Rules provide that the Board may send an applicant back to the Community Board at its discretion, the Board has determined that this is unnecessary in this case; and

WHEREAS, the Board observes that the Community Board expressed approval of the lot coverage, curb cut and parking waivers, and only objected to the FAR and significant street wall waiver; as noted above, these waivers have been withdrawn; and

WHEREAS, based upon the above, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 05BSA131M dated May 20, 2005; and

WHEREAS, the EAS documents show that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration under 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, on a site within an C6-2A zoning district, the proposed construction of an eleven story mixed-use residential, commercial, and community facility building, which does not comply with applicable zoning requirements concerning lot coverage, side yard, setback, courts, parking area size, and curb cut location, contrary to ZR §§ 23-145, 35-32, 23-83, 13-143, 35-24, and 13-142(a); *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received September 12, 2006"- ten (10) sheets; and *on further condition*:

THAT the following are the bulk parameters of the proposed building: ten total dwelling units; three parking spaces; a total Floor Area Ratio of 6.5 (20,255 sq. ft.), a residential FAR of 6.019 (18,877.7 sq. ft.), a commercial FAR

of 0.307 (962.6 sq. ft.), a community facility FAR of 0.132 (415.0 sq. ft.); a street wall height of 60 ft., and a total height of 120 ft; lot coverage of 96.6%; no side yard or court; a garage area of 862.9 sq. ft.; a curb cut approximately 34 ft. from the intersection of Greenwich and Canal Streets; and setbacks as indicated on the BSA-approved plans;

THAT a construction protection plan approved by the Landmarks Preservation Commission must be submitted to the Department of Buildings before the issuance of any building permit;

THAT all mechanicals and bulkheads shall comply with applicable regulations;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, September 12, 2006.

The resolution has been amended to correct the Block and Lot Number. Corrected in Bulletin Nos. 22-24, Vol. 99, dated June 19, 2014.

DOCKETS

New Case Filed Up to June 17, 2014

130-14-BZ

605 Fifth Avenue, East Side Fifth Avenue between East 48th & 49th Streets, Block 1284, Lot(s) 1, Borough of **Manhattan, Community Board: 5**. Special Permit (§73-36) to allow for a health club(PCE) physical culture establishment will be on the entire fifth floor of a six-story commercial building, located within a C5-3 zoning district. C5-3 district.

131-14-BZ

549 West 146th Street, Northeast corner of Broadway and West 146th Street, Block 2078, Lot(s) 5, Borough of **Manhattan, Community Board: 9**. Variance (§72-21) to a use variance in a commercial retail use within a landmark designated former theater building in a R8/C1-4 zoning district. R8/C1-4, R7A district.

132-14-BZ

441 Rockaway Avenue, The premises is a through lot having frontage on Rockaway Avenue and Thatford Avenue just south of Pitkin Avenue, Block 3522, Lot(s) 9, 26, Borough of **Brooklyn, Community Board: 16**. Special Permit (§73-36) to allow the operation of a physical culture establishment(fitness center) on the cellar and first floor of the existing building, located within a C4-3 zoning district. C4-3 district.

133-14-BZ

175 Father Capodanno Blvd., Located in the Arrochar neighborhood a low density neighborhood on Staten Island East Shore, Block 3122, Lot(s) 118, Borough of **Staten Island, Community Board: 2**. Special Permit (§73-36) to waive bulk regulation for the replacement of homes damaged/destroyed by Hurricane Sandy, on properties which are registered in the NYC Build it Back Program,located within an R3-1 zoning district. R3-1 district.

134-14-BZ

53 Doty Avenue, Located in the Arrochar neighborhood, a low density neighborhood on Staten Island's East Shore., Block 3124, Lot(s) 147, Borough of **Staten Island, Community Board: 2**. Special Permit (§73-36) to waive bulk regulation for the replacement of homes damaged/destroyed by Hurricane Sandy, on properties which are registered in the NYC Build it Back Program, located within an R3-1 zoning district. R3-1 district.

135-14-A

19 Sunnymeade Village, Surrounded by Sunnymeade Village, Block 3122, Lot(s) 174, Borough of **Staten Island, Community Board: 2**. GCL 36 WAIVER: for reconstruction of a home that do not front on a unmapped street. Pursuant to Article 3 of the General City Law. R3-1 district.

136-14-BZ

16 Mapleton Avenue, In the inland area of the Midland Beach neighborhood of Staten Island, Block 3799, Lot(s) 45, Borough of **Staten Island, Community Board: 2**. Special Permit (§73-36) to waive bulk regulations for the replacement of homes damaged/destroyed by Hurricane Sandy, on property which are registered in the NYC Build it Back Program.: R3-1 district.

137-14-BZ

174 Kiswick Street, In the Inland area of the Midland Beach neighborhood of Staten Island., Block 3736, Lot(s) 21, Borough of **Staten Island, Community Board: 2**. Special Permit (§73-36) to waive bulk regulations for the replacement of homes damaged/destroyed by Hurricane Sandy, on properties which are registered in the NYC Build it Back Program. R3-1 district.

138-14-BZ

1099 Olympia Boulevard, In the Inland area of the Midland Beach neighborhood of Staten Island which were destroyed by Hurricane Sandy., Block 3804, Lot(s) 33, Borough of **Staten Island, Community Board: 2**. Special Permit (§73-36) to waive bulk regulations for the replacement of homes damaged/destroyed by Hurricane Sandy, on properties which are registered in the NYC Build it Back Program. R3-1 district.

139-14-BZ

555 Lincoln Avenue, In the Inland area of the Midland Beach neighborhood of Staten Sandy which were destroyed by Hurricane Sandy, Block 3804, Lot(s) 8, Borough of **Staten Island, Community Board: 2**. Special Permit (§64-92) to waive bulk regulations for the replacement of homes damaged/destroyed by Hurricane Sandy, on properties which are registered in the NYC Build it Back Program. R3-1 district.

DOCKETS

140-14-A

1016 East 16th 13th Street, between Avenue" and Avenue "K, Block 6714, Lot(s) 11, Borough of **Brooklyn, Community Board: 14**. Determination "Vested Rights: seeks a determination that the owner has acquires a common law vested rights to complete construction under the prior C4-3A/R6 zoning district. R5 district.

141-14-BZ

2465 Broadway, East side of Broadway, 50ft. South of intersection with West 92nd Street, Block 1239, Lot(s) 52, Borough of **Manhattan, Community Board: 7**. Special Permit (§73-36) to all a physical culture establishment with portions of an existing commercial building, located within a C4-6A zoning district. C4-6A(EC-3) district.

142-14-A

92 Fulton Street, Lot on the south side of Fulton Street, between William Street to the West and gold Street to the east, Block 77, Lot(s) 22, Borough of **Manhattan, Community Board: 1**. Proposed construction of a mixed-use development to be located partially within the bed of a mapped but unbuilt portion of Fulton Street, contrary to General City law Section 35 and the bulk regulations pursuant to §72-01-(g). C6-4 zoning district. C6-4 district.

DESIGNATIONS: D-Department of Buildings; B.BK.-Department of Buildings, Brooklyn; B.M.-Department of Buildings, Manhattan; B.Q.-Department of Buildings, Queens; B.S.I.-Department of Buildings, Staten Island; B.BX.-Department of Building, The Bronx; H.D.-Health Department; F.D.-Fire Department.

CALENDAR

JULY 15, 2014, 10:00 A.M.

NOTICE IS HEREBY GIVEN of a public hearing, Tuesday morning, July 15, 2014, 10:00 A.M., at 22 Reade Street, Spector Hall, New York, N.Y. 10007, on the following matters:

SPECIAL ORDER CALENDAR

765-50-BZ

APPLICANT – Kenneth H. Koons, for R.G. Ortiz Funeral Home, Ink., owner.

SUBJECT – Application April 14, 2014 – Extension of Term (§11-411) of an approved variance permitting an existing one-story funeral parlor, which expired on November 20, 2013. C1-2 zoning district.

PREMISES AFFECTED – 1430-36 Unionport Road, eastside 43 feet South of Olmstead Avenue, Block 3933, Lot 51, Borough of Bronx.

COMMUNITY BOARD #9BX

88-92-BZ

APPLICANT – Kenneth H. Koons, for 3007 Enterprise Ink., owner.

SUBJECT – Application March 12, 2014 – Extension of Term (§11-411) a previously granted variance for an existing diner, which will expire on June 28, 2014. R4-1 zoning district.

PREMISES AFFECTED – 3007 East Tremont Avenue, northeast corner of Ericson Place, Block 5381, Lot 38, Borough of Bronx.

COMMUNITY BOARD #10BX

152-07-BZ

APPLICANT – Eric Palatnik, P.C., for Joseph Dweck, owner.

SUBJECT – Application December 31, 2013 – Extension of Term of a previously granted Special Permit (§73-36) for the continued use of a Physical Culture Establishment (Dolphin) on the second floor of a two-story commercial building which expired on January 1, 2013; Extension of Time to obtain a Certificate of Occupancy which expired on February 5, 2009; Waiver of the Rules.

C4-2A zoning district.

PREMISES AFFECTED – 8701 4th Avenue, southwest corner of 4th Avenue and 87th Street, Block 6050, Lot 10, Borough of Brooklyn.

COMMUNITY BOARD #10BK

APPEALS CALENDAR

92-14-A

APPLICANT – Greenberg Traurig, LLP, for MTS Propco. LPC/Rockpoint Group, LLC, owner.

SUBJECT – Application May 2, 2014 – Appeals filed pursuant to MDL Section 310(2) (c) for variance of court requirements and legally required windows under MDL Sections 26 (7) & 30 for the construction of a residential addition to an existing building. C6-7/C6-6(MID) zoning district.

PREMISES AFFECTED – 790 7th Avenue, West 51st Street, Broadway, West 52nd Street and 7th Avenue, Block 1023, Lot 29, Borough of Manhattan.

COMMUNITY BOARD #10M

ZONING CALENDAR

185-13-BZ

APPLICANT – Eric Palatnik P.C., for 97 Franklin Avenue LLC, owner.

SUBJECT – Application June 20, 2013 – Variance (§72-21) to permit the development of a proposed three story, two-unit residential development, contrary to section 42-00 of the zoning resolution. M1-1 zoning district.

PREMISES AFFECTED – 97 Franklin Avenue, Franklin Avenue, Between Park and Myrtle Avenue, Block 899, Lot 22, Borough of Brooklyn.

COMMUNITY BOARD #3BK

264-13-BZ

APPLICANT – Francis R. Angelino, Esq., for David Lowenfeld, owner; BB Fitness dba Brick Crossfit NYC, lessee.

SUBJECT – Application September 6, 2013 – Special Permit (§73-36) to permit the operation of a physical culture (*Health Club*) on the ground floor and cellar of an existing ten (10) story building. C6-2A zoning district.

PREMISES AFFECTED – 257 West 17th Street, north side, West 17th Street, between 7th & 8th Avenues, Block 767, Lot 6, Borough of Manhattan.

COMMUNITY BOARD #4M

327-13-BZ

APPLICANT – Goldman Harris LLC, for JCWH Coney Island LLC, owner.

SPECIAL ORDER CALENDAR

278-86-BZ

APPLICANT – Eric Palatnik P.C., for White Castle System, Inc., owner.

SUBJECT – Application October 29, 2013 – Extension of Term of a previously approved Special Permit (§73-243) to permit the operation of an accessory drive-thru facility to an eating and drinking establishment (*White Castle*), which expired on November 26, 2011, amendment to the plans, and Waiver of the Rules. C1-2/R5 zoning district.

PREMISES AFFECTED – 1677 Bruckner Boulevard, Fteley Avenue thru to Metcalf Avenue, Block 3721, Lot 1, Borough of Bronx.

COMMUNITY BOARD #9BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, an extension of term for an accessory drive-through, which expired on January 18, 2013, and an amendment to permit a minor enlargement and certain modifications to the site plan; and

WHEREAS, a public hearing was held on this application on May 13, 2014, after due notice by publication in *The City Record*, with a continued hearing on June 17, 2014, and then to decision on June 17, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 9, Bronx, offers no objection to the application; and

WHEREAS, the subject site is located on a corner through lot bounded by Metcalf Avenue to the west, Bruckner Boulevard to the north, and Fteley Avenue to the east, within a C1-2 (R5) zoning district; and

WHEREAS, the site has 52,421 sq. ft. of lot area and is occupied by a one-story eating and drinking establishment (Use Group 6) with 2,755 sq. ft. of floor area (0.05 FAR), 56 parking spaces, and accessory drive-through; and

WHEREAS, the site is operated as a White Castle; its

hours of operation are 24 hours per day, seven per week; and

WHEREAS, the Board has exercised jurisdiction over the site since November 25, 1986, when, under BSA Cal. No. 278-86-BZ, the Board granted a special permit for the operation of a drive-through facility accessory to an eating and drinking establishment, for a term of five years; and

WHEREAS, the term was extended by the Board on April 7, 1992, for a term of ten years, to expire on November 25, 2001, and on December 4, 2001, for a term of ten years, to expire on November 25, 2011; and

WHEREAS, most recently, on April 24, 2012, under BSA Cal. No. 167-11-BZ, the Board authorized the demolition and reconstruction of the building at the site and an extension of the term of the grant for five years, to expire on April 24, 2017; and

WHEREAS, the applicant represents that the construction contemplated under BSA Cal. No. 167-11-BZ was never undertaken and that the owner seeks to surrender that grant, reinstate the grant under the subject calendar number, amend it to allow a minor enlargement (an increase of 34 sq. ft.) of the building, an increase in the surface area of the service window, and minor modifications to the site plan, and extend its term for an additional five years; and

WHEREAS, the applicant notes that neither the site circulation, nor the location of the curb cuts, nor the number of reservoir spaces for the drive-through will be materially altered under the revised site plan; likewise, the number of parking spaces (56) will remain as approved under the original grant; and

WHEREAS, based upon its review of the record, the Board finds that the proposed amendment and extension of term are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated November 25, 1986, so that as amended this portion of the resolution reads: “to permit the noted modification and an extension of the term of the special permit for an additional five years, to expire on June 17, 2019; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked ‘Received April 16, 2014’- (8) sheets; and *on further condition*:

THAT the grant will expire on June 17, 2019;

THAT signage will comply with C1 regulations;

THAT the above conditions and all relevant conditions from prior grants will appear on the certificate of occupancy; and

THAT a certificate of occupancy will be obtained by June 17, 2015;

THAT all conditions from the prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its

MINUTES

jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, June 17, 2014.

142-92-BZ

APPLICANT – Kramer Levin Naftalis & Frankel LLP, for New York Methodist Hospital, owner.

SUBJECT – Application March 20, 2014 – Amendment of a previously approved special permit (§73-48) for a community facility (*New York Methodist Hospital*). The application seeks to amend the approved plans to accommodate required accessory parking in a new ambulatory care facility (BSA Cal #142-92-BZ)

PREMISES AFFECTED – 473-541 6th Street aka 502-522 8th Avenue, 480-496 & 542-548 5th Street & 249-267 7th Avenue, Block 1084, Lot 36, 164, 1001/1002, Borough of Brooklyn.

COMMUNITY BOARD #6BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment of a previous approval, which, pursuant to ZR § 73-48, allowed the construction of 518 parking spaces contrary to ZR §§ 25-31 and 36-21; the proposed amendment seeks to: (1) enlarge the subject zoning lot; (2) reduce and reclassify certain parking spaces authorized under the special permit; and (3) permit other alterations related to the redevelopment of the site; and

WHEREAS, a public hearing was held on this application on April 8, 2014, after due notice by publication in *The City Record*, with a continued hearing on April 29, 2014, and then to decision on June 17, 2014; and

WHEREAS, at the April 29, 2014 public hearing, the Board set a May 20, 2014 decision date; and

WHEREAS, however, subsequent to the April 29, 2014 hearing, a representative of Preserve Park Slope communicated with Board staff and NYM about its request for supplemental documents from NYM; the Board declined to request the documents and NYM declined to provide the documents directly; and

WHEREAS, Preserve Park Slope then sought judicial relief to obtain the documents in New York State Supreme Court by Order to Show Cause; and

WHEREAS, the court issued a stay which prohibited the Board from closing the hearing and rendering a decision as scheduled on May 20, 2014; on June 4, 2014, the court lifted the stay but did not issue a ruling on the subpoena request, which is pending; and

WHEREAS, a companion application for a variance

pursuant to ZR § 72-21 required for development of the site was filed under BSA Cal. No. 289-13-BZ and decided at the same hearing; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, this application is brought on behalf of New York Methodist Hospital (“NYM”), a non-profit hospital, research, and educational facility; and

WHEREAS, the subject site comprises the majority of Block 1084; it includes Tax Lots 164, 1001, and 1002, and has frontages along Fifth Street, Sixth Street, Seventh Avenue, and Eighth Avenue; the applicant notes that when the subject special permit was granted, the site comprised Lots 164, 1001, and 1002, however, at the time the lots were designated as Lots 1, 17, and 64; as for Lot 39, it was formed by the merger of former Lots 25, 26, 28, 40-44, 46, 48, and 50-59; and

WHEREAS, the site is located partially within an R6 (C1-3) zoning district, partially within an R6 zoning district, and partially within an R7B zoning district; and

WHEREAS, the site has approximately 510 feet of frontage along Fifth Street, approximately 696 feet of frontage along Sixth Street, 200 feet of frontage along Seventh Avenue, 200 feet of frontage along Eighth Avenue, and 120,569 sq. ft. of lot area; and

WHEREAS, the Board has exercised jurisdiction over the site since January 11, 1994, when, under the subject calendar number, the Board granted, pursuant to ZR §§ 72-21, 73-481, and 73-482, a variance and special permit to allow the construction of a five-story mixed commercial and medical office building (“MOB”) and a parking garage for 518 automobiles, contrary to ZR § 33-431 (height and setback), ZR §§ 22-10, 77-12, and 77-332 (location of entrance to a group parking facility accessory to commercial uses, ZR § 36-63 (required number of loading berths), ZR §§ 22-10, 36-683, 77-12, and 77-332 (enclosure of and location of entrance to loading berths), and ZR §§ 25-31 and 36-21 (maximum number of parking spaces); and

WHEREAS, the site is occupied by the MOB, a 12-story hospital building containing hospital-related facilities and staff dwellings (the “Wesley House”), the subject parking garage, which consists of three-below grade parking levels and surface parking, a surface parking lot on the southeast corner of the site, and a series of townhouses; and

WHEREAS, the applicant notes that, under the special permit, the parking spaces are designated required accessory spaces for retail uses (76 spaces), required accessory to the Wesley House (49 spaces), and permitted accessory spaces to hospital-related uses (393 spaces); and

WHEREAS, the applicant states that NYM seeks a variance to construct a new seven-story ambulatory care facility (the “Center for Community Health” or the “Center”) on adjacent Lot 39; the applicant states that, in connection with that proposal, it requests an amendment to the prior approval to allow: (1) enlargement of the subject zoning lot; (2) reduction and reclassification of parking spaces authorized

MINUTES

under the special permit; and (3) other alterations to the site plan and to the existing garage related to the construction of the Center for Community Health; and

WHEREAS, as to the enlargement of the zoning lot, the applicant states that Lot 39 will be combined with the lots that are the subject of the prior variance and special permit (Lots 164, 1001, 1002) and the Center will be built on that portion of the new zoning lot; and

WHEREAS, as to the reduction and reclassification of parking spaces, the applicant states that 60 of the 393 permitted accessory parking spaces will be reclassified as required accessory parking for the Center, 49 of the 393 permitted accessory parking spaces will be reclassified as accessory to existing hospital uses within the MOB, and 38 of the 393 permitted accessory spaces will be eliminated to allow the construction of the Center's loading area; the result will be a decrease in the total number of permitted accessory parking spaces within the garage from 393 to 246 and an increase in the total number of required accessory spaces for new and existing hospital uses from 0 to 109; the designations for the required accessory parking for the retail (76 spaces) and the Wesley House (49 spaces) will not change; accordingly, the proposal reflects a net reduction in the total number of spaces authorized under the special permit from 518 to 480; and

WHEREAS, the applicant also notes that an additional parking garage will be constructed on the site to accommodate the 350 accessory spaces required in connection with the Center; and

WHEREAS, finally, as to the alterations to the site plan, the applicant states that portions of the existing garage must be demolished in order to accommodate the loading areas for the Center; and

WHEREAS, as addressed in BSA Cal. No. 289-13-BZ, the Board agrees with the applicant that the proposed changes to the existing parking garage and the proposed development of the Center for Community Health are in furtherance of NYM's programmatic needs as a non-profit teaching hospital and will not alter the essential character of the neighborhood, substantially impair the appropriate use or development of adjacent property, or be detrimental to the public welfare; and

WHEREAS, based upon its review of the record, the Board finds the requested amendments to the plans are appropriate with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens*, and *amends* the resolution to permit the noted modifications; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked 'Received June 13, 2014'— eight (8) sheets; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its

jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, June 17, 2014.

11-93-BZ

APPLICANT – Sheldon Lobel, P.C. for Joy Kiss Management, LLC, owner; Chen Qiao Huang (Good fortune Restaurant), lessee.

SUBJECT – Application December 18, 2013 – Extension of Time to obtain a Certificate of Occupancy for a previously approved variance (§72-21), which expired on March 20, 2012; Waiver of the Rules. R3-2/C2-2 zoning district.

PREMISES AFFECTED – 46-45 Kissena Boulevard aka 140-01 Laburnum Avenue, northeast corner of the intersection formed by Kissena Boulevard and Laburnum Avenue, Block 5208, Lot 32, Borough of Queens.

COMMUNITY BOARD #7Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez

Negative:.....5

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, reopening, an extension of term for the operation of an eating and drinking establishment, which expired on March 15, 2014, and an extension of time to obtain a certificate of occupancy, which expired on March 20, 2013; and

WHEREAS, a public hearing was held on this application on February 25, 2014, after due notice by publication in the City Record, with a continued hearing on May 20, 2014, and then to decision on June 17, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 7, Queens, recommends disapproval of the application, citing the following concerns regarding the eating and drinking establishment at the site: (1) that the establishment is serving alcohol with an expired liquor license; (2) that it is being operated as a catering facility without a public assembly certificate of operation (“PA”) or an amended certificate of occupancy (“CO”); and (3) that it has open violations from the Department of Buildings (“DOB”); and

WHEREAS, the subject site is located on the northeast corner of the intersection of Kissena Boulevard and Laburnum Avenue, within a C2-2 (R3-2) zoning district; and

WHEREAS, the site has 40,830 sq. ft. of lot area; and

WHEREAS, the site is occupied by a one-story building operated as a restaurant (Use Group 6); and

WHEREAS, the Board has exercised jurisdiction over

MINUTES

the subject site since May 6, 1958 when, under BSA Cal. No. 788-57-BZ, the Board granted a variance to permit the construction of a one-story storage garage and motor vehicle repair shop, with two gasoline dispensing pumps, for a term of 20 years; and

WHEREAS, subsequently, the grant has been amended by the Board at various times; and

WHEREAS, on March 15, 1994, under the subject calendar number, the Board granted a special permit under ZR § 11-413 to permit the change of use from motor vehicle storage and repair to an eating and drinking establishment with accessory parking, for a term of ten years, which expired on March 15, 2004; and

WHEREAS, on October 5, 2010, the Board granted a ten-year extension of term from the expiration of the prior grant, to expire on March 15, 2014, and an amendment pursuant to ZR § 11-412 to permit certain modifications to the building; a condition of the grant was that a CO be obtained by October 5, 2011; and

WHEREAS, most recently, on March 20, 2012, the Board granted an extension of time to obtain a CO, to expire on March 20, 2013; and

WHEREAS, the applicant now requests an extension of term and an extension of time to obtain a CO; and

WHEREAS, at hearing, the Board directed the applicant to: (1) respond to the concerns of the community board; (2) remove the food storage trucks from the site; and (3) clarify the location and screening of the proposed garbage storage area; and

WHEREAS, in response, the applicant confirmed that: (1) alcohol is not available for purchase at the establishment; (2) it will be seeking a PA and a CO for a Use Group 6 eating and drinking establishment; (3) there is no catering (Use Group 9) at the site; and (4) the nine remaining open DOB violations are related to the lack of PA and CO for Use Group 6; and

WHEREAS, as to the food storage trucks, the applicant submitted photographs demonstrating that such trucks had been removed; and

WHEREAS, as to the garbage storage area, the applicant provided an amended plot plan, which details the location and screening of the area; the applicant also represents that there is a drain in the area and that the dumpster will be cleaned twice per day; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals waives the Rules of Practice and Procedure, reopens, and amends the resolution, as adopted on March 15, 1994, to grant a one-year extension of time to obtain a certificate of occupancy, to expire on June 17, 2015 and to grant a ten-year extension of term, to expire on March 15, 2024; on condition that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked 'Received June 3, 2014' - (3) sheets; and on further condition:

THAT use of the site shall be limited to a restaurant (Use Group 6) with accessory parking for 65 automobiles;

THAT all signage shall comply with C2 zoning district regulations;

THAT the above conditions will be listed on the certificate of occupancy;

THAT a new certificate of occupancy will be obtained by June 17, 2015;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 17, 2014.

326-09-BZ

APPLICANT – Bryan Cave LLP, for Flushing Commons Property Owner LLC, owner.

SUBJECT – Application April 10, 2014 – Extension of Time to Complete Construction of a previously approved special permit (§73-66) for the development of four mixed use buildings (*Flushing Commons*), which expires on July 27th 2014. C4-4 zoning district.

PREMISES AFFECTED – 37-10 Union Street aka 38-15 138th Street, portion of the block bounded by 37th Avenue on the north, 39th Avenue on the South, Union Street on the east and 138th Street on west, Block 4978, Lot 25, Borough of Queens.

COMMUNITY BOARD #7Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for an extension of time to complete construction pursuant to a special permit, which permitted the construction of four buildings contrary to the height restrictions applicable to buildings within a certain distance of LaGuardia Airport, per ZR § 61-21; and

WHEREAS, a public hearing was held on this application on May 20, 2014, after due notice by publication in *The City Record*, and then to decision on June 17, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan and

MINUTES

Commissioner Montanez; and

WHEREAS, the subject site is located on the majority of the block bounded by 138th Street to the west, 37th Avenue to the north, 39th Avenue to the south and Union Street to the east, within a C4-3 zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 27, 2010, when, under the subject calendar number, the Board granted a special permit authorizing, within a C4-3 zoning district, the construction of four buildings in a mixed residential, commercial, and community facility development, which exceed the maximum height limits around airports, contrary to ZR § 61-21; and

WHEREAS, pursuant to ZR § 73-70, construction was to be substantially completed by July 27, 2014; however, the applicant represents that construction has not yet commenced and will not be completed by that date; and

WHEREAS, the applicant states that after receiving the special permit, ULURP approvals, and rezoning in 2010, the developer encountered difficulties obtaining financing for the project; and

WHEREAS, the applicant states that it has secured the necessary financing to complete the project; and

WHEREAS, accordingly, the applicant now seeks an extension of time to substantially complete construction; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction is appropriate with certain conditions, as set forth below

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated July 27, 2010, so that as amended this portion of the resolution reads: “to grant an extension of time to complete construction to July 27, 2018; *on condition* that the use and operation of the site shall comply with BSA-approved plans associated with the prior grant; and *on further condition*:

THAT substantial construction will be completed by July 27, 2018;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, June 17, 2014.

49-11-BZ

APPLICANT – Warshaw Burstein, LLP, for A&G Real Estate, LLC, owner; Barry's Boot camp NYC, LLC, lessee. SUBJECT – Application February 21, 2014 – Amendment of a previously approved Special Permit (§73-36) to allow the extension of physical culture establishment. C6-3A zoning district.

PREMISES AFFECTED – 135 West 20th Street, north side

of West 20th Street between Sixth Avenue and Seventh Avenue, Block 796, Lot 18, Borough of Manhattan.

COMMUNITY BOARD #4M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment of a previously-granted special permit for a physical culture establishment (“PCE”) to legalize the enlargement of the PCE; and

WHEREAS, a public hearing was held on this application on May 20, 2014, after due notice by publication in *The City Record*, and then to decision on June 17, 2014; and

WHEREAS, Community Board 4, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the north side of West 20th Street, between Sixth Avenue and Seventh Avenue, within a C6-3A zoning district; and

WHEREAS, the site is occupied by a six-story commercial building; and

WHEREAS, the PCE occupies 5,279 sq. ft. of floor area on the ground floor and 4,266 sq. ft. of floor space in the cellar, for a total PCE size of 9,545 sq. ft.; and

WHEREAS, the PCE is operated as Barry’s Bootcamp; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 12, 2011 when, under the subject calendar number, the Board granted a special permit operation of the PCE in the subject building for a term of ten years, to expire on July 12, 2021; under the original grant, the PCE was permitted to occupy 3,561 sq. ft. of floor area on the ground floor and 2,873 sq. ft. of floor space in the cellar for a total PCE size of 6,434 sq. ft.; and

WHEREAS, the applicant now seeks an amendment to permit legalize the enlargement of the PCE into other portions of the ground floor and cellar of the building; specifically, the proposal would increase the total permitted size of the PCE from 6,434 sq. ft. to 9,545 sq. ft.; and

WHEREAS, the Board referred the application to the Fire Department and by letter dated May 15, 2014, the Fire Department offered no objection to the expansion of the PCE; and

WHEREAS, based upon its review of the record, the Board finds the requested amendments to the plans are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens*, and *amends* the resolution to permit the noted modifications; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked ‘Received February 21, 2014’-(4) sheets; and *on further*

MINUTES

condition:

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated January 18, 2013 acting on DOB Application No. 420790424, reads in pertinent part:

A portion of the building site and proposed building lies in the bed of a mapped street, contrary to GCL 35; and

WHEREAS, a public hearing was held on this application on May 20, 2014, after due notice by publication in *The City Record*, and then to decision on June 17, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Montanez; and

WHEREAS, this is an application to allow the construction of one-story warehouse, which will be partially located in the bed of Metropolitan Avenue, a mapped street; and

WHEREAS, the subject site lies at the southwest corner of the intersection of Metropolitan Avenue and Woodward Avenue, within an M3-1 zoning district; and

WHEREAS, Community Board 5, Brooklyn, recommends disapproval of the application, citing traffic safety concerns; and

WHEREAS, by letter dated April 16, 2013, the Fire Department states that it has reviewed the proposal and offers no objections; and

WHEREAS, by letter dated April 22, 2013, the Department of Environmental Protection (“DEP”) states that: (1) there is an existing 36-inch diameter combined sewer, a 12-inch diameter and an eight-inch diameter City water main in the bed of Metropolitan Avenue fronting the above referenced location; and (2) Amended Drainage Plan No. 21(30), dated May 22, 1925, for the above-referenced location, shows a ten-inch diameter sanitary sewer, a 36-inch diameter storm sewer and a ten-inch diameter force main in

MINUTES

Metropolitan Avenue west of Woodward Avenue; and

WHEREAS, DEP further states that it requires the applicant to submit a survey/plan showing: (1) the distances from the lot line of Lot 49 to the 36-inch diameter combined sewer, and the 12-inch diameter and eight-inch diameter City water main in the bed of Metropolitan Avenue; and

WHEREAS, in response to DEP's request, by letter dated May 6, 2013, the applicant submitted a revised architectural survey, which shows a 100-foot mapped-width for Metropolitan Avenue and a 34-foot widening portion of Metropolitan Avenue southwest of Woodward Avenue; the remaining 66-foot traveled portion of the street will be available for the reconstruction and/or maintenance of the existing and future sewers, and the existing water mains; and

WHEREAS, based on the above DEP has no further objections; and

WHEREAS, by correspondence dated September 6, 2013, the Department of Transportation ("DOT") has reviewed the above project and has no objections; and

WHEREAS, DOT notes that according to the Queens Borough President's Topographical Bureau: (1) Metropolitan Avenue between Onderdonk Avenue and Flushing Avenue is mapped to a 100-foot width on the Final City Map; and (2) the City has title to the northerly 66 feet by a deed recorded on June 2, 1873; and

WHEREAS, DOT also notes that the improvement of Metropolitan Avenue fronting the site is not presently included in DOT's Capital Improvement Program; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved, that the Board modifies the decision of the DOB, dated January 8, 2013, acting on DOB Application No. 420790424 by the power vested in it by Section 35 of the General City Law, limited to the decision noted above, *on condition* that construction will substantially conform to the drawing filed with the application marked "Received June 4, 2014"--(1) sheet; and *on further condition*:

THAT DOB will review and approve plans associated with the Board's approval for compliance with the underlying zoning regulations as if the unbuilt street were not mapped;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT DOB will review the proposed plans to ensure compliance with all relevant provisions of the Zoning Resolution;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals on June 17, 2014.

59-13-A

APPLICANT – Carl A. Sulfaro, Esq., for Onofrio and Josephine Papia, owners.

SUBJECT – Application February 5, 2013 – Proposed construction of a new one family residence located in the bed of a mapped street, contrary to General City Law Section 35. R1-2 zoning district.

PREMISES AFFECTED – 11-30 143rd Place, west side of 143rd Place, 258.57' south of 11th Avenue, Block 4434, Lot 147, Borough of Queens.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated January 18, 2013, acting on DOB Application No. 420619539, reads in pertinent part:

Proposed construction of a new building in the bed of a mapped street is contrary to the General City Law Section 35 and is hereby denied; and

WHEREAS, a public hearing was held on this application on May 20, 2014, after due notice by publication in *The City Record*, and then to decision on June 17, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Montanez; and

WHEREAS, this is an application to allow the construction of one-story, one-family dwelling that will be partially located in the bed of 13th Avenue, a mapped street; and

WHEREAS, the subject site lies at the west side of 143rd Place approximately 259 feet south of 11th Avenue, within an R1-2 zoning district; and

WHEREAS, by letter dated April 13, 2013, the Fire Department states that it has reviewed the proposal and offers no objection, provided that the building is fully-sprinklered; and

WHEREAS, in response, the applicant submitted a revised site plan, dated May 30, 2014, which indicates that the building will be fully-sprinklered; and

WHEREAS, by letter dated April 16, 2013, the Department of Environmental Protection ("DEP") states that: (1) there is an existing 12-inch diameter private sanitary sewer, an eight-inch diameter City water main in 143rd Place fronting the above referenced property; and (2) Amended Drainage Plan No. 37A(5), 37C(1), and 37FS(2), Sheet 4 of 9, 1942, for the above-referenced location, calls for a future ten-inch diameter sanitary sewer and a 12-inch diameter storm sewer to be installed in 13th Avenue, between 143rd Place and 142nd Street; and

MINUTES

WHEREAS, DEP states that the applicant has submitted a survey for the above location which shows: (1) 60-foot width of 13th Avenue between 143rd Place and 142nd Street; and (2) shows that the property is located in the bed of mapped 13th Avenue; and

WHEREAS, DEP further states that it requires the applicant to submit a revised survey/plan showing: (1) the distances from the westerly lot line of the site to the terminal manhole of the ten-inch diameter private sanitary sewer and to the end cap of the eight-inch diameter City water main in the bed of 13th Avenue; (2) show a 32-foot wide sewer corridor in the bed of 13th Avenue along the site for the installation, maintenance and/or reconstruction of the future ten-inch diameter sanitary sewer and the 12-inch diameter; alternatively, the applicant may seek to amend the drainage plan; and

WHEREAS, in response to DEP's request, by letter dated March 19, 2014, the applicant has submitted a revised architectural survey; the revised survey shows a distance of 25 feet from the terminal manhole of the ten-inch diameter private sanitary sewer and a distance of one foot from the hydrant on the eight-inch diameter City water main to the westerly lot line of the site; and

WHEREAS, DEP states that based on the Topographical Bureau Map No. 3711, dated September 30, 1953, the Drainage Review Section determined that Lots 27 and 151 would benefit from the existing ten-inch diameter sanitary sewer and will discharge storm flow to the future storm sewer in 13th Avenue; and

WHEREAS, based on the above DEP has no further objections; and

WHEREAS, by correspondence dated September 6, 2013, the Department of Transportation ("DOT") has reviewed the above project and has no objection; and

WHEREAS, the DOT notes that according to the Queens Borough President's Topographical Bureau: (1) 13th Avenue between 142nd Street and 13th Place is mapped to a 60-foot width on the Final City Map; and (2) the City has no title to the mapped street; and

WHEREAS, DOT also notes that the improvement of 13th Avenue in the location of the site is not presently included in DOT's Capital Improvement Program; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved, that the Board modifies the decision of DOB, dated January 18, 2013, acting on DOB Application No. 420619539 by the power vested in it by Section 35 of the General City Law, limited to the decision noted above, *on condition* that construction will substantially conform to the drawing filed with the application marked "Received May 30, 2014" – (1) sheet; and *on further condition*:

THAT DOB will review and approve plans associated with the Board's approval for compliance with the underlying zoning regulations as if the unbuilt street were not mapped;

THAT this approval is limited to the relief granted by

the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT DOB will review the proposed plans to ensure compliance with all relevant provisions of the Zoning Resolution;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated February 8, 2012, acting on DOB Application No. 420316535, reads in pertinent part:

Proposed community facility with dwelling above located in an R5 zoning district does not meet the following bulk regulations:

1. Exceeds the minimum allowed lot coverage for the residential portion of the building, per ZR 23-141;
2. Is not allowed to be built on an existing small lot that does not meet the minimum lot width, per ZR 23-32 and 23-33;
3. Does not meet the required front yard, per ZR 23-45 and 24-34;
4. Does not meet the required side yards, per ZR 23-46 and 24-35;
5. Does not meet the required side setback, per ZR 24-55; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site located within an R5 zoning district, the construction of a two-story mixed residential (Use Group 2) and community facility building (Use Group 4) that does not comply with the bulk regulations for lot coverage, minimum lot width, front yard, side yards, and side setback, contrary to ZR §§ 23-141, 23-32, 23-33, 23-45, 23-46, 24-34, 24-35, and 24-55; and

WHEREAS, a public hearing was held on this application on July 23, 2013, after due notice by publication in the *City Record*, with continued hearings on September 10, 2013, October 22, 2013, March 11, 2014, and May 20, 2014,

MINUTES

and then to decision on June 17, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 6, Queens, recommended approval of the original version of this application, provided that (1) the community facility operates within standard business hours and (2) the facility does not offer open MRI, PET scan, or CT scan procedures; and

WHEREAS, the subject site spans the east side of 102nd Street between 65th Road and 66th Avenue, within an R5 zoning district, within a predominantly built-up area; and

WHEREAS, the site has approximately 130 feet of frontage along 102nd Street, approximately 22 feet of frontage along 65th Road, approximately 18 feet of frontage along 66th Avenue, and 2,573 sq. ft. of lot area; and

WHEREAS, the applicant submitted excerpts of Sanborn maps from various years between 1914 and 1994, which indicate that the site has been a lot of record in its current size and configuration for at least 100 years; and

WHEREAS, the site is occupied by two buildings: (1) a two-story, semi-detached, single-family home (Use Group 2) with 1,446 sq. ft. of floor area (0.56 FAR) on the northern portion of the site; and (2) a one-story, detached medical office (Use Group 4) with 610 sq. ft. of floor area (0.24 FAR) on the southern portion of the lot; thus, the site has a total existing floor area of 2,056 sq. ft. (0.80 FAR); and

WHEREAS, the applicant notes that both the home and the medical office were completed on or about July 10, 1958 and that the owner of the home constructed the medical office for his private practice; and

WHEREAS, the applicant states that the home is occupied but the medical office is vacant and has been since the current owner took possession of the site; and

WHEREAS, the applicant originally proposed to demolish the medical office building and construct a four-story mixed residential (Use Group 2) and ambulatory diagnostic or treatment health care facility (Use Group 4) building with 3,731 sq. ft. of floor area (1.45 FAR) (2,799 sq. ft. of residential floor area and 932 sq. ft. of community facility floor area) and wall and building heights of 35'-0"; the original proposal included community facility on the first story and one dwelling on each of the second through fourth stories; this proposal required waivers for lot coverage, minimum lot width, front, rear, and side yards, and side setback; and

WHEREAS, through the hearing process, the proposal was scaled down significantly; the applicant now proposes to demolish the medical office building and construct a two-story mixed residential (Use Group 2) and ambulatory diagnostic or treatment health care facility (Use Group 4) building with 1,866 sq. ft. of floor area (0.73 FAR) (933 sq. ft. of residential floor area and 933 sq. ft. of community facility floor area), a wall height of 22'-0" and a building height of 28'-0", and complying rear yard depth of 27'-5"; the revised proposal has a community facility on the first story and one dwelling unit on the second story and requires waivers for lot coverage,

minimum lot width, front and side yards, and side setback; the revised proposal will increase the total floor area on the site from 2,056 sq. ft. (0.80 FAR) to 3,321 sq. ft. (1.28 FAR), which is well within the maximum permitted floor area for the site (5,177 sq. ft. (2.0 FAR)); and

WHEREAS, as to the waivers, the applicant states that the proposal includes 64 percent lot coverage (a maximum lot coverage of 60 percent is permitted for a community facility building), one front yard with a depth of 15'-0" (the requirement is two front yards with minimum depths of 10'-0" and 18'-0"), no side yard (the requirement is one side yard with a minimum width of 8'-0"), and no side setback (a side setback with a minimum width of 8'-0" is required for a community facility building); and

WHEREAS, in addition, the applicant states that because the existing lot width is 17'-6" and the minimum lot width in the subject R5 district is 18'-0", any increase in the existing floor area on the lot requires a minimum lot width waiver; and

WHEREAS, the applicant represents that the following are unique physical conditions inherent to the zoning lot, which, in accordance with ZR § 72-21(a), create practical difficulties and unnecessary hardship in developing the site in strict conformance with underlying zoning regulations: (1) the history of community facility use at the site and obsolescence of the building at the site for such use; (2) the site's three frontages; and (3) the relative underdevelopment of the site and inability to enlarge; and

WHEREAS, the applicant states that, unlike nearby sites, the subject site is occupied by a small, functionally-obsolete community building that creates practical difficulties in redeveloping the site; and

WHEREAS, in particular, the applicant states that the building, which is more than 55 years old, has only 610 sq. ft. of rentable floor area and no cellar or basement; as such, the space is too small to meet even the minimum requirements of a modern medical office, which include a waiting room, a reception area, an examination room, record storage areas, a restroom, and some private office space for medical professionals; and

WHEREAS, the applicant represents that the space has no market potential in its current condition and configuration and the owner has made numerous attempts to secure a tenant over the years, without success; and

WHEREAS, the applicant also asserts that the site's three frontages along 102nd Street, 65th Road and 66th Avenue (which is a historic condition) create a unique burden that makes as-of-right development of the site infeasible; and

WHEREAS, the applicant states that because the site has three frontages, it must provide three front yards with minimum depths of 10'-0" along the portion of its perimeter fronting on a street (a linear distance of approximately 170'-0"); as such, the front yard requirements alone reduce the developable area of the site by approximately 1,700 sq. ft.; the rear and side yards and lot coverage requirements further reduce the portion of the site where development may occur as-of-right; and

MINUTES

WHEREAS, finally, the applicant states that the site has history of underdevelopment with little potential to develop as-of-right; and

WHEREAS, as noted above, the applicant states that the site's 2,056 sq. ft. of floor area (0.80 FAR) was developed in 1958 represents less than half of the maximum permitted FAR for the site (1.65 FAR); and

WHEREAS, the applicant states that despite its underdevelopment, its location on a corner and the applicable yard and lot coverage requirements make further development—or even complete redevelopment—impractical; and

WHEREAS, specifically, the applicant states that an as-of-right community facility building on the site would have only 203 sq. ft. of floor area, which, is not enough to accommodate even the smallest community facility use (the applicant notes that typical medical offices range from 1,000 sq. ft. to 1,200 sq. ft., including storage space); thus, an as-of-right office at the site would be one-fifth the size of a typical office; and

WHEREAS, the applicant also analyzed the technical feasibility of enlarging the site's single-family home, in order to realize a greater portion of the site's development potential (the home has 1,446 sq. ft. of floor area (0.56 FAR); a maximum of 4,246 sq. ft. (1.65 FAR) is permitted because the site is within a predominantly built-up area); however, the applicant submitted an analysis, which reflects that yard requirements prevent *any* enlargement of the existing home; in contrast, other homes on the subject block with similar FARs on similarly-sized sites but without three frontages are able to enlarge both vertically and horizontally by an average of 1,310 sq. ft.; and

WHEREAS, thus, the applicant states that the site is significantly disadvantaged by the site's obsolescent building, its three frontages, and its historic underdevelopment; and

WHEREAS, based upon the above, the Board finds that, in accordance with ZR § 72-21(a), the aforementioned unique physical conditions create unnecessary hardship and practical difficulty in developing the site in conformance with the use regulations; and

WHEREAS, the applicant asserts that, per ZR § 72-21(b), there is no reasonable possibility that the development of the site in compliance with the Zoning Resolution will bring a reasonable return; and

WHEREAS, the applicant assessed the financial feasibility of four scenarios: (1) the status quo; (2) the construction of a new as-of-right community facility building; (2) a lesser scenario involving the enlargement of the existing community facility building with front and side yard waivers only; and (4) the proposal; and

WHEREAS, thus, the applicant concludes that only the proposal would result in a sufficient return; and

WHEREAS, at hearing, the Board questioned the value of the site in comparison to nearby sites; and

WHEREAS, in response, the applicant amended its analysis and reduced the site value; and

WHEREAS, based upon its review of the applicant's

submissions, the Board concludes that because of the site's unique physical conditions, there is no reasonable possibility that development in strict compliance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that, per ZR § 72-21(c), the variance, if granted, will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant represents that the neighborhood is predominantly occupied by residential and community facility uses, with diverse mix of rowhouses, high-rise multiple dwellings, medical facilities, and schools; and

WHEREAS, the applicant states that the site has been occupied by a medical facility for more than 55 years, that Use Group 4 is permitted as-of-right in the subject zoning district; and

WHEREAS, as to adjacent properties, the applicant states that two-story residential building are located north, east, and west of the site; south of the site across the 66th Avenue is the ten-story Forest Hills Hospital and southwest of the site, where 66th Avenue terminates at 102nd Street, and there is a seven-story multiple dwelling; and

WHEREAS, the applicant states that the proposed enlargement will have no discernable impact on any adjacent use; and

WHEREAS, the applicant states that although there are taller buildings in the vicinity of the site, there is a strong two-story context directly north, east and west of the site and the proposal is in keeping with this context; and

WHEREAS, the applicant also states that the proposed yard waivers actually allow the building to have its minimum impact on adjacent uses, by allowing the building to be constructed at the southwesternmost portion of the site (the exclusively residential uses on the subject block are north and east of the proposed building); and

WHEREAS, as to lot minimum lot width, the applicant states that the proposed width of 17'-6" is deficient by only 0'-6" and is an existing condition, which does not impact adjacent uses; and

WHEREAS, as to lot coverage, the applicant states that the proposed 64-percent lot coverage is both modest (the maximum permitted is 60 percent) and necessary to allow construction of a building with viable residential and community facility floorplates; and

WHEREAS, finally, as with lot coverage and yards, the side setback waiver is necessary to construct a building that is both marketable and responsive to the low-rise context of the block; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant asserts and the Board agrees that, consistent with ZR § 72-21(d), the hardship herein was not created by the owner or a predecessor in title, but is due to

MINUTES

the site's unique physical conditions; and

WHEREAS, the applicant states that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board agrees that the proposal is the minimum variance necessary, per ZR § 72-21(e), and it notes that the proposal has been reduced by two stories and 1,865 sq. ft. of floor area since its original iteration; and

WHEREAS, thus, the Board has determined that the evidence in the record supports the findings required to be made under ZR §72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 12-BSA-087Q, dated March 7, 2012; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is resolved, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, on a site located within an R5 zoning district, the construction of a two-story mixed residential (Use Group 2) and community facility building (Use Group 4) that does not comply with the bulk regulations for lot coverage, minimum lot width, front yard, side yards, and side setback, contrary to ZR §§ 23-141, 23-32, 23-33, 23-45, 23-46, 24-34, 24-35, and 24-55; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received June 11, 2014" – five (5) sheets; and *on further condition*;

THAT the following shall be the bulk parameters of the building: two stories; 1,866 sq. ft. of floor area (0.73 FAR) (933 sq. ft. of residential floor area and 933 sq. ft. of community facility floor area), a maximum wall height of 22'-0"; a maximum building height of 28'-0"; and a minimum rear yard depth of 27'-5"; as indicated on the BSA-approved plans;

THAT the zoning lot will have a maximum floor area of

3,321 sq. ft. (1.28 FAR);

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 17, 2014.

263-12-BZ CEQR #13-BSA-029X

APPLICANT – Sheldon Lobel, P.C., for Luke Company LLC, owner.

SUBJECT – Application September 4, 2012 – Variance (§72-21) to permit senior housing (UG 2), contrary to use regulations (§42-00). M1-1 zoning district.

PREMISES AFFECTED – 232 & 222 City Island Avenue, site bounded by Schofield Street and City Island Avenue, Block 5641, Lots 10, 296, Borough of Bronx.

COMMUNITY BOARD #10 & 13BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated May 21, 2013, acting on DOB Application No. 220206783, reads, in pertinent part:

Residential use is not permitted in an M1-1 zoning district, per ZR Section 42-00

Residential use does not have the required front yard along the zoning district boundary, as required by ZR Section 43-304; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site within an M1-1 zoning district, within the Special City Island District, the construction of a three-story residential building with age-restricted dwelling units (Use Group 2) with a front yard depth of 10'-0", contrary to ZR §§ 42-00 and 43-304; and

WHEREAS, a public hearing was held on this application on June 11, 2013, after due notice by publication in the *City Record*, with continued hearings on October 29, 2013, and February 25, 2014. On May 20, 2014, the case was reopened and closed, and then to decision on June 17, 2014; and

WHEREAS, the premises and surrounding area had site

MINUTES

and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the Board notes that the application has been significantly altered through the hearing process; the original application included four stories, 132,271 sq. ft. of floor area (2.4 FAR), 65 percent lot coverage, 214 assisted-living dwelling units, 102 parking spaces, no front yards, a rear yard depth of 20'-0", and a variance of Building Code Section BC G304 (which, among other things, requires that residential buildings be elevated above the design flood elevation) under BSA Cal. No. 264-12-A (the "Original Application"); the amended proposal includes three stories, 33,310 sq. ft. of floor area (0.6 FAR), 22-percent lot coverage, 45 age-restricted (persons 55 years of age or older) dwelling units, 48 parking spaces, two front yards with depths of 10'-0", a rear yard depth of 30'-0", and construction in accordance with Building Code Section BC G304 (the "Amended Application"); and

WHEREAS, Community Board 10, Bronx, recommended disapproval of the Original Application and recommends disapproval of the Amended Application, citing concerns regarding: (1) the placement of housing on a site within a manufacturing district and a flood plain; (2) the amount of open space provided on the lot; and (3) the absence of "green" initiatives and flood-prevention measures at the building and site; and

WHEREAS, State Senator Jeffrey Klein and City Councilmember James Vacca recommended disapproval of the Original Application; and

WHEREAS, the City Island Chamber of Commerce recommends approval of the Amended Application; and

WHEREAS, certain members of the surrounding community submitted testimony in support of both Original and Amended Applications; and

WHEREAS, certain members of the surrounding community and the City Island Civic Associated (through counsel) submitted testimony in opposition to the Original Application (the "Opposition"); and

WHEREAS, the Opposition identified the following reasons for its objection to the Original Application: (1) the applicant lacks the legal capacity to develop or operate a residence for the elderly; (2) the proposed building is grossly incompatible with the surrounding community and puts building and neighborhood residents at risk; (3) the applicant fails to make the required findings to justify the variances it seeks under the Zoning Resolution and the Building Code; and (4) the application does not reflect the January 2012 Federal Emergency Management Agency ("FEMA") Advisory Flood Insurance Rate Map changes, which increased the minimum elevation requirement of the building's lowest floor to an adjusted height of 13'-6"; and

WHEREAS, a member of the City Island Civic Association states that the group does not oppose the Amended Application; however, it requests the following modifications: (1) the inclusion of a permeable paved surface; and (2) the inclusion of a "green" roof; and

WHEREAS, in response, the applicant states that it is unable to utilize a permeable paved surface because it must cap the soil prevent the risk of human exposure to certain contaminants that may be present in the soil; the applicant notes that the drainage for the site will be in accordance with the applicable provisions of the building code; and

WHEREAS, as to the green roof, the applicant states that 34 percent of the roof is dedicated as a "green" roof; and

WHEREAS, this application is brought on behalf of the Italian Hospital Society, a not-for-profit organization, which the applicant states was established in 1937 in conjunction with the founding of the Italian Hospital of New York on West 110th Street; and

WHEREAS, the subject site is an irregularly-shaped parcel located on the southeast corner of the intersection of City Island Avenue and Schofield Street, within an M1-1 zoning district, within the Special City Island District; and

WHEREAS, the site has approximately 191 feet of frontage along Schofield Street, approximately 237 feet of frontage along City Island Avenue, and 55,529 sq. ft. of lot area; and

WHEREAS, the site is currently used as a contractor's yard (Use Group 17); and

WHEREAS, as noted above, the applicant seeks to construct a three-story building with three stories 33,310 sq. ft. of floor area (0.6 FAR), 22 percent lot coverage, 45 age-restricted dwelling units, 48 parking spaces, two front yards with depths of 10'-0", and a rear yard depth of 30'-0"; the applicant notes that although the residence will be age-restricted, no assisted-living services will be provided; and

WHEREAS, because, per ZR § 42-00, Use Group 2 is not permitted within the subject M1-1 zoning district, the applicant requests a use variance; and

WHEREAS, in addition, because Schofield Street is a narrow street and its center line is a district boundary between the subject M1-1 zoning district and an R3A zoning district, a front yard depth of 20'-0" is required along the Schofield Street frontage, per ZR § 43-304; however, the applicant seeks to provide a front yard depth of 10'-0" along Schofield Street, and, as such, a variance of ZR § 43-304 is requested; and

WHEREAS, the applicant states that, per ZR § 72-21(a), the following are unique physical conditions which create an unnecessary hardship in developing the site in conformance with applicable regulations: (1) the site's contaminated soil; (2) its high water table; and (3) its location within a flood plain; and

WHEREAS, the applicant states that the site suffers from high levels of contamination, including the presence of a layer of coal ash, slag and petroleum, volatile organic compounds, semi-volatile organic compounds, and metals; as such, the site will require significant remediation, including soil removal, disposal, and replacement of soils; further, the foundation will require special ventilation to allow trapped vapors to be safely exhausted and the underlying soil will be sealed with a concrete cap; and

WHEREAS, the applicant also notes that the site has been admitted into the New York State Department of

MINUTES

Environmental Conservation Brownfields Cleanup Program, which will help to defray some but not all of the costs associated with redevelopment of the site; and

WHEREAS, the applicant states that ground water at the site fluctuates between five and ten feet below grade, which prevents the use of sub-grade spaces for administrative offices and common dining and recreational areas; and

WHEREAS, in addition, the applicant represents that the high water table will require dewatering and shoring of excavation walls during the construction of the foundation, at significant costs; and

WHEREAS, lastly, the applicant states that the site's location within a flood plain results in additional premium construction costs; and

WHEREAS, specifically, the applicant states that the site is within Zones AE and X of FEMA Advisory Flood Insurance Rate Map; as such, the lowest story of the building must be elevated above the design flood elevation, dry flood-proofing materials must be utilized at the cellar and first story, and utilities and equipment must be located at or above the design flood elevation or constructed so as to prevent water from entering or accumulating within the components during flooding; and

WHEREAS, as to the uniqueness of the site's physical conditions, the applicant states that while many sites on City Island are either contaminated, have a high water table, or are within a flood plain, no other site of remotely comparable size has all three conditions; accordingly, the applicant asserts that the site is unlike any other site on City Island; and

WHEREAS, thus, the applicant asserts that the site's unique combination of physical conditions—and their attendant premium construction costs—make a conforming development at the site impractical; and

WHEREAS, in particular, the applicant states that an as-of-right three-story office building with 34,800 sq. ft. of floor area (0.63 FAR) and 116 surface parking spaces does not produce sufficient returns to offset the above-noted premium construction costs; and

WHEREAS, the Board agrees that the aforementioned unique physical conditions, when considered individually and in the aggregate, create unnecessary hardship and practical difficulty in developing the site in accordance with the applicable zoning regulations; and

WHEREAS, the applicant asserts that, per ZR § 72-21(b), there is no reasonable possibility that the development of the site in conformance with the Zoning Resolution will bring a reasonable return; and

WHEREAS, in particular, in addition to the proposal, the applicant examined the economic feasibility of: (1) an as-of-right office building with (0.63 FAR); (2) an as-of-right office building with (1.0 FAR); (3) a lesser variance multiple dwelling with 0.5 FAR; (4) a lesser variance 0.5 FAR residential scenario with 21 single-family dwellings; and (5) the proposal; and

WHEREAS, the applicant concluded that only the proposal results in a positive rate of return, making it economically viable; and

WHEREAS, based upon its review of the applicant's economic analysis, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict conformance and compliance with applicable zoning requirements will provide a reasonable return, in accordance with ZR § 72-21(b); and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, the applicant states that the surrounding neighborhood is characterized by a predominance of two-story residential buildings, except along City Island, which, to the north, includes local retail and office uses, and, to the south, P.S. 175, a portion of Ambrosini Field along City Island Avenue, and a yacht club; and

WHEREAS, as to immediately adjacent uses, the applicant states that there are residences or mixed residential and commercial buildings directly north and west of the site, an unmapped street (Centre Street) and Ambrosini Field directly south of the site, and a Verizon telephone exchange building directly east of the site; and

WHEREAS, thus, the applicant contends that the proposed residential use is entirely consistent with surrounding neighborhood; and

WHEREAS, turning to bulk, the applicant states that while the proposed 0.6 FAR is higher than the 0.5 FAR permitted in the nearby R3A district, it is well within the 1.0 FAR permitted for a conforming use at the site; and

WHEREAS, as noted above, through the hearing process and in response to concerns articulated by the community and by the Board, the applicant significantly scaled down the size and changed the nature of the project, from a four-story, assisted-living facility with 132,271 sq. ft. of floor area (2.4 FAR) and 214 dwelling units to a three-story, age-restricted apartment building with 33,310 sq. ft. of floor area (0.6 FAR) and 45 dwelling units; and

WHEREAS, additionally, the applicant notes that the proposed height complies with height regulations of the Special City Island District (ZR § 112-106) and the proposed density (45 dwelling units) is less than would be permitted if the site were subject to the density regulations of an R3A zoning district (47 dwelling units); and

WHEREAS, as to the requested front yard waiver, the applicant states that providing a front yard depth of 20'-0" along Schofield Street for the proposed residential building is impractical and unnecessary, and would result in a loss of dwelling units that would make the proposal infeasible; and

WHEREAS, the applicant asserts that the neighborhood context, parking and open space requirements of an R3A zoning district, and programmatic needs of the Italian Hospital Society in creating an appropriate age-restricted living environment with easily accessible parking and outdoor recreation space must be considered in determining the

MINUTES

appropriate depth of the front yard along Schofield Street; and

WHEREAS, further, the applicant states that providing a front yard depth of 20'-0" along Schofield Street does not further the purposes of the ZR § 43-304, because the section was clearly intended to provide an added buffer between residential uses and manufacturing uses and the proposed building is residential within the manufacturing district; thus, no buffer is necessary and a front yard depth of 10'-0" (the requirement in the adjacent R3A zoning district) is appropriate; and

WHEREAS, thus, the applicant states that the proposed bulk is consistent with the built character of the surrounding neighborhood; and

WHEREAS, the Board agrees that the character of the area is residential, and finds that, pursuant to ZR § 72-21(c), this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board also finds that, consistent with ZR § 72-21(d), the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the site's soil contamination, high water table, location within a flood plain, as well as the limited economic potential of conforming uses on the lot; and

WHEREAS, finally, the Board finds that the proposal is the minimum variance necessary to afford relief, as set forth in ZR § 72-21(e); and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 13BSA029X, dated August 31, 2012; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the site has been submitted for entry into the New York State Brownfield Cleanup Program ("BCP") administered by the New York State Department of Environmental Conservation ("DEC"); and

WHEREAS, based on the level of site contamination and the applicant's proposal to construct subject to BCP approval, the Department of Environmental Protection ("DEP") recommends that an E designation for hazardous materials be placed on the site as part of the approval; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, on a site within an M1-1 zoning district, within the Special City Island District, the construction of a three-story residential building with age-restricted dwelling units (Use Group 2) with a front yard depth of 10'-0", contrary to ZR §§ 42-00 and 43-304, *on condition* that any and all work will substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received June 13, 2014"- four (4) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the proposed building: three stories, a maximum floor area of 33,310 sq. ft. (0.6 FAR), a maximum lot coverage of 22 percent, a maximum of 45 age-restricted dwelling units, 48 parking spaces, two front yards with minimum depths of 10'-0", and a minimum rear yard depth of 30'-0";

THAT the occupancy of the building will be limited to persons 55 years of age or older;

THAT landscaping will be in accordance with the BSA-approved drawings;

THAT substantial construction will be completed in accordance with ZR § 72-23;

THAT, an E designation (E-347) is placed on the subject property to ensure proper hazardous materials remediation;

THAT, prior to the issuance by DOB of permits that involve soil disturbance, the applicant shall obtain from OER a Notice to Proceed, which shall be based on DEC's letter of acceptance into the Brownfield Cleanup Program;

THAT, prior to the issuance by DOB of a certificate of occupancy, the applicant shall obtain from OER a Notice of Satisfaction, which shall be based on DEC's letter of satisfaction regarding completion of the Brownfield Cleanup Program;

THAT, should the applicant not obtain an approval from DEC for completion of the BCP, the applicant must obtain approval from OER for a hazardous materials remediation plan and construction health related safety plan prior to the issuance of a Certificate of Occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

MINUTES

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 17, 2014.

CEQR #13-BSA-072Q

APPLICANT – Law Office of Vincent L. Petraro, PLLC, Mitchell S. Ross, Esq., for X & Y Development Group, LLC., owner.

SUBJECT – Application December 26, 2012 – Variance (§72-21) to permit a transient hotel and community facility use (*North Queens Medical Center*), contrary to use regulations (§22-10), and Special Permit (§73-66) to allow projection into flight obstruction area of La Guardia airport. R7-1 (C1-2) zoning district.

PREMISES AFFECTED – 42-31 Union Street, east side of Union Street, 213' south of Sanford Avenue, Block 5181, Lot(s) 11, 14, 15, Borough of Queens.

COMMUNITY BOARD #7Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated November 26, 2012, acting on DOB Application No. 420213219, reads in pertinent part:

1. Proposed building height exceeds the maximum height limitation by the flight obstruction map of LaGuardia Airport, per ZR 61-20;
2. Proposed transient hotel is not within uses permitted as-of-right in R7-1 zoning district, per ZR 22-10; and

WHEREAS, this is an application under ZR § 72-21, 73-66, and 73-03, to permit, on a site partially within an R7-1 (C1-2) zoning district and partially within an R7-1 zoning district, the construction of a 18-story mixed community facility and commercial building to be occupied as a transient hotel (Use Group 5) with 180 rooms and an ambulatory diagnostic or treatment health care facility (Use Group 4), contrary to the use and height regulations set forth in ZR §§ 22-10 and 61-20; and

WHEREAS, a public hearing was held on this application on March 25, 2014, after due notice by publication in the *City Record*, with a continued hearing on May 13, 2014, and then to decision on June 17, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan,

Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 7, Queens, recommends approval of the application, subject to the following conditions: (1) the parking will be attended and open to the public at daily rates; (2) a shuttle will be provided to Main Street in Flushing and to LaGuardia Airport; (3) curbside drop off will be prohibited by the hotel and by the health care facility; (4) the health care facility will operate during regular business hours; (5) there will be no catering or restaurant connected to the hotel; (6) the hotel will not obtain a liquor license; (7) the hotel and the health care facility will maintain orderly pickup and delivery of materials; (8) a community room will be provide for community board and civic association organization with free parking upon request; (9) the building will be LEED-certified “Gold” and have a “green” roof; and (10) the hotel will have 161 rooms; and

WHEREAS, certain members of the surrounding community submitted testimony in opposition to application (the “Opposition”), citing the following concerns: (1) the excessive height of the building; (2) the inconsistency of transient use with the nearby residential uses; (3) the ability of the sewer system to accommodate a 180-room hotel; (4) the construction practices and after-hours work occurring at the site at present; and (5) increased traffic around the site during construction and after the hotel and medical facility begin operation; and

WHEREAS, the subject site is an irregularly-shaped through lot that comprises Tax Lots 11, 14, and 15 (Tentative Lot 15), partially within an R7-1 (C1-2) zoning district and partially within an R7-1 zoning district; and

WHEREAS, the site has approximately 126 feet of frontage along Union Street, approximately seven feet of frontage along Bowne Street, and 32,532 sq. ft. of lot area; and

WHEREAS, in addition, the site is within a flight obstruction area for LaGuardia Airport, which limits the height of any building at the site to 155’-0”;

WHEREAS, the applicant represents that, at present, the site is a construction site for an as-of-right residential development; and

WHEREAS, the applicant proposes to construct an 18-story mixed community facility (Use Group 4) and commercial (Use Group 5) building; the proposed bulk parameters are as follows: 156,154 sq. ft. of floor area (4.8 FAR)(44,895 sq. ft. of community facility floor area (1.38 FAR) and 111,259 sq. ft. of commercial floor area (3.42 FAR)); total building height of 229’-6” (243’-0”, including bulkheads); 31-percent lot coverage; a rear yard depth of 60’-0”;

WHEREAS, because Use Group 5 is not permitted as-of-right in the R7-1 portion of the site, the applicant seeks a use variance; and

WHEREAS, because, as noted above, the site is within a flight obstruction area, and the proposed height (243’-0”) exceeds 155’-0”, the applicant seeks a special permit

MINUTES

pursuant ZR § 73-66; and

WHEREAS, the applicant states that the following are unique physical conditions which create an unnecessary hardship in developing the site in conformance with applicable zoning district regulations: (1) the site's substandard soil conditions; and (2) its unusual shape; and

WHEREAS, the applicant asserts that the site's soil is substandard, resulting in premium construction costs; and

WHEREAS, specifically, the applicant states that, based the report of its geotechnical consultant, the soil at the site is particularly unstable, loose, and uneven; as such, deep excavation (to a depth of 50'-0" below grade) and piling at closer intervals are required in order to protect adjacent sites during foundation and sub-grade construction work; in addition, the site contains a significant number of intrusions (boulders), which further increase the costs owing to the unstable soil; and

WHEREAS, at hearing, the Board sought clarification regarding the necessity of the proposed deep excavation when borings showed quality soil at significantly shallower depths; and

WHEREAS, in response, the applicant clarified that although suitable soil on which to construct a foundation was found at shallower depths, such soil also contained large boulders, which must be removed in order to properly construct the building; as such, a deep excavation was not anticipated by the borings, but became necessary after excavation began; and

WHEREAS, the applicant also states that the poor quality of the soil is unique in the surrounding area; according to the geotechnical report, the soils in the area were deposited during the glacial era, which is characterized by a variable pattern in soil composition; thus, a significant number of nearby sites have soil conditions more conducive to development; and

WHEREAS, the applicant states that the site's shape makes it infeasible to develop the site with a conforming use; and

WHEREAS, the applicant states that the site's northern and southern boundaries have a jagged quality, which gives the site its unique shape; the northern boundary jogs as it proceeds east and changes direction five times at five different angles before it reaches Bowne Street; the southern boundary is similar irregular, although not as angled – it changes direction four times at right angles; the overall effect of the jogging boundary lines is a dramatic tapering of the site from Union Street, where the site has approximately 126 feet of frontage, to Bowne Street, where the site's frontage is just seven feet; and

WHEREAS, the applicant asserts that the irregularity and tapering of the site limits the buildable areas of the lot, constrains the building envelope, creates design inefficiencies, and prevents utilization of the available floor area on the site; and

WHEREAS, for example, the applicant states that—in contrast to an ordinary four-cornered building—a building at the site must have no fewer than 11 corners, each of which

requires corner structural panels; accordingly, because corner panels cost more than typical panels, increased construction costs are a direct result of the site shape; and

WHEREAS, additionally, the applicant states that the site's shape adversely affects standard dwelling unit layouts in a conforming building; because of the angles and curves of the building envelope, the interior environment of a dwelling unit must be adjusted using custom installation, curvilinear materials and non-standard equipment and appliances; accordingly, the applicant states that the site's shape prevents a sufficient number of suitably-sized, modern dwelling units to offset the premium costs of construction; and

WHEREAS, finally, the applicant contends that the site's shape—particularly the jogging of the site's boundary lines—results in a disproportionately long perimeter (in comparison to the site's lot area), which in turn increases the number of adjacent sites to be protected with underpinning and shoring during construction, at significant cost; and

WHEREAS, as to uniqueness, the applicant represents that there are no sites of even remotely similar shape within ten blocks of the site, making its shape unique in the surrounding area; and

WHEREAS, the applicant states that it analyzed the feasibility of developing the site as-of-right with a mixed residential and community facility building (rental) with the following bulk parameters: 156,154 sq. ft. of floor area (4.8 FAR)(44,485 sq. ft. of community facility floor area (1.38 FAR) and 111,259 sq. ft. of commercial floor area (3.42 FAR)); 14 stories; a total building height of 139'-11"; 161 dwelling units; and 200 accessory parking spaces; and

WHEREAS, the applicant states that although the as-of-right scenario's floor-to-ceiling heights are significantly reduced in order to achieve an as-of-right height within the FAA height limitations and such reductions reduce the value of the building significantly; and

WHEREAS, accordingly, the applicant states that a conforming development does not produce enough revenue to offset the premium construction costs that result from the site's substandard soil conditions and unusual shape; and

WHEREAS, based upon the above, the Board finds that, in accordance with ZR § 72-21(a), the aforementioned unique physical conditions create unnecessary hardship and practical difficulty in developing the site in conformance with the use regulations; and

WHEREAS, the applicant asserts that, per ZR § 72-21(b), there is no reasonable possibility that the development of the site in conformance with the Zoning Resolution will bring a reasonable return; and

WHEREAS, the applicant assessed the financial feasibility the following scenarios: (1) a 14-story as-of-right mixed residential (rental) and community facility building with a total height of 139'-11"; (2) a 12-story as-of-right mixed residential (apartment hotel) and community facility building with a total height of 155'-0"; (3) a lesser-variance (no special permit) 12-story mixed hotel and community facility with a total height of 155'-0"; (4) an 18-story mixed residential (apartment hotel) and community facility

MINUTES

building with a total height of 243'-0" pursuant to a special permit under ZR § 73-66; (5) an 18-story mixed residential (condominium) and community facility building with a total height of 243'-0" pursuant to a special permit under ZR § 73-66; (6) a 14-story mixed residential (rental) and community facility building with a total height of 177'-0" on a typical rectangular site; and (7) the proposal; and

WHEREAS, the applicant concludes that, other than the scenario involving the conceptual rectangular lot, only the proposal would result in a sufficient return; and

WHEREAS, at hearing, the Board questioned: (1) the size and the proposed number of hotel rooms, as the most efficient use of the bulk; and (2) the comparable sites used to determine the site value; and

WHEREAS, in response, the applicant provided: (1) a letter from Starwood hotels, the presumptive tenant of the building, which explains Starwood's requirements for room size and type; and (2) additional comparable sites and a revised analysis on site value; and

WHEREAS, based upon its review of the record, the Board has determined, per ZR § 72-21(b), that because of the subject site's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed use will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant represents that the immediate area is characterized by a mix of commercial, community facility, and residential uses, including multiple dwellings, one- and two-family homes, schools, playgrounds, and the bustling commercial areas along and around Main Street; Bowne Street also includes a number of commercial uses at the ground floor; the wider area includes Downtown Flushing, the Queens Botanical Garden, Flushing Hospital Medical Center, and Citi Field; and

WHEREAS, the applicant represents that there are more than a dozen hotels three blocks north and west of the site in the Downtown Flushing area; and

WHEREAS, as to the immediately adjacent sites, the applicant states that directly south of the site are a four-story multiple dwelling and a nine-story nursing home and rehabilitation center, and directly north of the site are a two-story, two-family building, a two-story church, a six-story multiple dwelling, and a one-story supermarket; and

WHEREAS, as to bulk, the applicant states, as noted above, that the proposal is within the maximum 4.8 FAR permitted in the underlying R7-1 district, as well as all the bulk regulations regarding yards, sky-exposure plane, open space, and setback; and

WHEREAS, as to traffic and parking, the applicant provided a study, which reflects that the proposal will not have significant negative impacts on parking or traffic; in fact, the applicant asserts that an as-of-right residential

building would have a greater impact on parking and traffic, because hotel guests typically use public transportation and travel during different periods of the day than residents; and

WHEREAS, the applicant also notes that, consistent with the community board's request, there will be no delivery of materials or hotel guests to the curbside; instead, the underground parking area will be used so as to minimize the number of vehicles in front of the building; and

WHEREAS, accordingly, the Board finds that this action will neither alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, the applicant states that the practical difficulties and unnecessary hardships associated with the site result from its soil conditions and shape; and

WHEREAS, the Board finds that, consistent with ZR § 72-21(d), the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the unique physical characteristics of the site; and

WHEREAS, finally, the applicant asserts that the current proposal is the minimum necessary to offset the hardship associated with the uniqueness of the site and to afford the owner relief; and

WHEREAS, the Board notes that the applicant explored six other scenarios, including a hotel scenario with fewer rooms, in order to demonstrate that the proposal is the minimum necessary to afford relief; accordingly, the Board is persuaded that the proposal satisfies ZR § 72-21(e); and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the applicant asserts that the proposal satisfies all findings required for the Board to grant a special permit pursuant to ZR § 73-66; and

WHEREAS, the Board notes that under ZR § 73-66, it may permit the construction, enlargement, or reconstruction of a building or other structure in excess of the height limits established under ZR §§ 61-21 and 61-22, provided that: (1) the applicant submits a site plan, with elevations, showing the proposed building or other structure in relation to such maximum height limits; and (2) the Board finds that such proposed building or other structure, enlargement, or reconstruction would not constitute a hazard (either under the existing layout of the airport or under any planned reorientation or lengthening of the airport runways) to the safety of the occupants of such proposed building, to other buildings in the vicinity or to the safety of air passengers, and would not disrupt established airways; and

WHEREAS, finally, ZR § 73-66 specifically requires that the Board refer the application to the Federal Aeronautics Administration ("FAA") for a report as to whether such construction will constitute a danger to the safety of air passengers or disrupt established airways; and

WHEREAS, the Board notes that the height limit established for any building at the site under ZR §§ 61-21 and 61-22 is 155'0" and the proposal reflects a maximum building

MINUTES

height of 243'-0" (including bulkheads); and

WHEREAS, the applicant submitted the required site plan showing the proposed building in relation to the maximum height limits; and

WHEREAS, the applicant also submitted a July 23, 2009 letter from the FAA, which states that the proposed height (either under the existing layout of the airport or under any planned reorientation or lengthening of the airport runways) will not constitute a danger to the safety of air passengers or disrupt established airways; and

WHEREAS, accordingly, the Board finds that the proposal will not constitute a hazard to the safety of the occupants of such proposed building, to other buildings in the vicinity or to the safety of air passengers, and would not disrupt established airways; and

WHEREAS, the Board finds, consistent with ZR § 73-03, that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, further, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-66 and 73-03; and

WHEREAS, the project is classified as a Unlisted action pursuant to Sections 617.2 and 617.6 of 6NYCRR; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 13-BSA-072Q, dated June 3, 2014; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of

1977, as amended, and makes each and every one of the required findings ZR § 72-21, 73-66, and 73-03, to permit, on a site partially within an R7-1 (C1-2) zoning district and partially within an R7-1 zoning district, the construction of a 18-story mixed community facility and commercial building to be occupied as a transient hotel (Use Group 5) with 180 rooms and an ambulatory diagnostic or treatment health care facility (Use Group 4), contrary to the use and height regulations set forth in ZR §§ 22-10 and 61-20, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received June 13, 2014" – twenty-one (21) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: 18-stories; a maximum of 156,154 sq. ft. of floor area (4.8 FAR)(44,895 sq. ft. of community facility floor area (1.38 FAR) and 111,259 sq. ft. of commercial floor area (3.42 FAR)); a maximum total building height of 229'-6" (243'-0", including bulkheads); a maximum of 31-percent lot coverage; a minimum rear yard depth of 60'-0"; two side yards with minimum widths of 8'-0" in the commercial portion of the building; 180 hotel rooms; and 300 accessory parking spaces;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT substantial construction will be completed in accordance with ZR § 72-23;

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 17, 2014.

MINUTES

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated March 28, 2013, acting on Department of Buildings Application No. 320540866, reads in pertinent part:

Proposed use is not permitted in M1-1 zoning district, as per ZR 42-00; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site within an M1-1 zoning district, the construction of a four-story multiple dwelling (Use Group 2), contrary to ZR § 42-00; and

WHEREAS, a public hearing was held on this application on December 17, 2013, after due notice by publication in the *City Record*, with continued hearings on February 4, 2014 and March 4, 2014, and then to decision on June 17, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 4, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the north side of Jefferson Street, between Stanwix Street and Evergreen Avenue, within an M1-1 zoning district; and

WHEREAS, the site has 25 feet of frontage along Jefferson Street, a depth of 100 feet, and 2,500 sq. ft. of lot area; and

WHEREAS, the site is currently vacant; however, the applicant notes that, historically (since at least 1921, according to that year's Belcher Hyde Atlas Map), the site was occupied by a two-story multiple dwelling, which was fire-damaged in the 1990s and eventually demolished in 2001; and

WHEREAS, the applicant proposes to construct a four-story multiple dwelling in accordance with the bulk regulations applicable for a quality housing building in an R6 district; specifically, the building will have approximately 5,490 sq. ft. of floor area (2.2 FAR) and, 60 percent lot coverage, eight dwelling units, a rear yard depth of 36'-0", no side yards or parking spaces, and a total building height of 43'-6"; and

WHEREAS, because residential use is not permitted in the subject M1-1 zoning district, the applicant requests the subject variance; and

WHEREAS, the applicant represents that, per ZR § 72-21(a), the following are unique physical conditions which create unnecessary hardship in developing the site in conformance with applicable regulations: (1) the site has a small lot size of 2,500 sq. ft., a narrow lot width of 25 feet and is vacant; (2) the site has a history of residential use and is adjacent to residential buildings on two sides, and across the street; and (3) the site is located just outside the nearby North Brooklyn Industrial Business Zone ("IBZ"); and

WHEREAS, the applicant represents that the site's narrowness and small lot size would result in a conforming manufacturing or commercial building with inefficient, narrow

floor plates that would be inadequate space for providing a loading dock; further, the applicant states based on the small lot size, a conforming development would provide a maximum floor plate of 2,500 sq. ft., which the applicant represents is substandard for modern manufacturing uses; and

WHEREAS, in support of its claim that the site—with its narrow lot width and small lot size—is not feasible for modern manufacturing use, the applicant surveyed the surrounding manufacturing uses and found that all seven manufacturing uses on the subject block and the block across the street are located on wider lots with more lot area than the site; and

WHEREAS, the applicant also submitted a study of the vacant sites within the subject M1-1 district to support its assertions that such vacancy constitutes a unique hardship for the site; and

WHEREAS, based on the study, the applicant concludes that the site is the only vacant site within the study area that is not already used in conjunction with an adjacent site, in common ownership with one or more adjacent sites (which would allow for an assemblage that would be more conducive to the construction of a building for conforming uses), or located on a corner (corner lots are more conducive to a commercial or manufacturing use because of the increased visibility and street frontage access points); and

WHEREAS, in addition, the applicant states, as noted above, that for approximately 70 years, the site was occupied by a multiple dwelling; as such, the size and width of the site has historically been to accommodate residential uses; and

WHEREAS, the applicant further represents that the site is adjacent to residential uses on two sides and across the street, and that the existence of residential buildings on the nearby lots further devalues the site for a conforming use and would result in lower rental incomes and higher vacancy rates; and

WHEREAS, finally, the applicant states that the site is located just outside of an IBZ, which makes it ineligible for certain financial benefits associated with locating new businesses within an IBZ; as such, the applicant asserts that the site cannot compete with similar sites within the IBZ; and

WHEREAS, the applicant concludes that the site is uniquely unsuitable for conforming uses because of its width, size, vacancy, history of residential use, adjacency to residential uses, and location just outside the IBZ; and

WHEREAS, the Board agrees that the site has a combination of unique physical conditions including its lot width and size, vacancy, historic residential use, and adjacency to other residential uses, which, in the aggregate, create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, to satisfy ZR § 72-21(b), the applicant submitted a feasibility study which analyzed the rate of return on an as-of-right industrial building at the site and the proposal; and

WHEREAS, according to the study, a one-story building with approximately 2,500 sq. ft. of floor area occupied by a

MINUTES

conforming use would yield a negative rate of return; the proposed residential building, on the other hand, would realize a reasonable return; and

WHEREAS, based upon its review of the feasibility study, the Board has determined that because of the subject lot's unique physical condition, there is no reasonable possibility that development in strict conformance with applicable use requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, the applicant states that the subject block is primarily developed with residential buildings with some manufacturing/industrial uses; the applicant notes that directly across Jefferson Street is an R6 zoning district, where the proposed use would be as-of-right; and

WHEREAS, as to adjacent uses, as noted above, residential uses about two sides of the lot (the north and west sides), a vacant one-story manufacturing building is located directly east of the site and south, across Jefferson Street, are multiple dwellings; and

WHEREAS, the applicant also notes that the site was occupied by a residential building from at least 1921 until 2001; thus, the applicant asserts that the site and the subject stretch of Jefferson Street have a long-standing residential character despite the site's M1-1 designation; and

WHEREAS, accordingly, the applicant contends that the proposal is more consistent with the neighborhood character than a conforming use would be; and

WHEREAS, as to bulk, the applicant states that the building complies in all respects with the bulk regulations for a quality housing building within an R6 zoning district; and

WHEREAS, at hearing, the Board expressed concerns regarding: (1) the compatibility of the proposed building height (43'-6") and number of stories (four) with the surrounding buildings; and (2) the compliance of the proposed interior court; and

WHEREAS, in response, the applicant provided a building height study and a streetscape, which reflects that 13 buildings along Jefferson Street between Stanwix Street and Evergreen Avenue have a height of at least 40'-0", five of which have a height of 45'-0"; and

WHEREAS, in addition, the applicant acknowledged that the originally-proposed court did not comply and revised the plans to eliminate the interior court; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that, consistent with ZR § 72-21(d), the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the site's

unique physical conditions; and

WHEREAS, finally, the Board finds that the proposal is the minimum variance necessary to afford relief, as set forth in ZR § 72-21(e); and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617; and

WHEREAS, the Board conducted an environmental review of the proposed action and documented relevant information about the project in the Final Environmental Assessment Statement ("EAS") CEQR No. 13BSA032K, dated April 12, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21, and grants a variance to permit, on a site within an M1-1 zoning district, the construction of a four-story multiple dwelling (Use Group 2), contrary to ZR § 42-00; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received June 16, 2014" – nine (9) sheets; and *on further condition*:

THAT the following are the bulk parameters of the building: a maximum floor area of 5,490 sq. ft. (2.2 FAR), maximum lot coverage of 60 percent, a minimum rear yard depth of 36'-0", no side yards or parking spaces, and a maximum building height of 43'-6", as indicated on the BSA-approved plans;

THAT substantial construction shall be completed in accordance with ZR § 72-23;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved

MINUTES

only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 17, 2014.

CEQR #14-BSA-009R

APPLICANT – Rothrug Rothkrug & Spector LLP, for Ridgeway Abstracts LLC, owner.

SUBJECT – Application July 12, 2013 – Special Permit (§73-126) to allow a medical office, contrary to bulk regulations (§22-14). R3A zoning district.

PREMISES AFFECTED – 3858-60 Victory Boulevard, east corner of intersection of Victory Boulevard and Ridgeway Avenue, Block 2610, Lot 22 & 24, Borough of Staten Island.

COMMUNITY BOARD #2SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated June 12, 2013, acting on DOB Application No. 520073802, reads in pertinent part:

Proposed ambulatory diagnostic or treatment health care facility listed in Use Group 4 within lower density growth management area exceeds 1,500 sq. ft. allowed per ZR 22-14(A); and

WHEREAS, this is an application under ZR §§ 73-126 and 73-03, to permit, on a site within an R3A zoning district, the construction of a two-story mixed residential (Use Group 2) and community facility (Use Group 4) building, with 5,967 sq. ft. of floor area, to be occupied by an ambulatory diagnostic or treatment health care facility, contrary to ZR § 22-14; and

WHEREAS, a public hearing was held on this application October 22, 2013, after due notice by publication in The City Record, with a continued hearing on November 26, 2013, December 17, 2013, February 25, 2014, March 25, 2014, April 29, 2014, May 20, 2014, and then to decision on June 17, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice Chair Collins, Commissioner Hinkson, Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Staten Island, recommends disapproval of this application; and

WHEREAS, certain members of the surrounding

community submitted testimony in opposition to the application; and

WHEREAS, the subject site is located on the northeast corner of the intersection of Victory Boulevard and Ridgeway Avenue, within an R3A zoning district; and

WHEREAS, the site has approximately 127 feet of frontage along Ridgeway Avenue, approximately 100 feet of frontage along Victory Boulevard, and 12,712 sq. ft. of lot area; and

WHEREAS, the applicant states that the site was historically two lots (Tax Lots 22 and 24); Lot 22 is occupied by a one-story mixed residential and commercial building; Lot 24 is occupied by a one-story residential building; and

WHEREAS, the applicant proposes to demolish the building on Lot 24 and alter and enlarge the building on Lot 22; the enlargement will increase the floor area of the building from 1,216.9 sq. ft. (0.1 FAR) (347.2 sq. ft. of residential floor area and 869.8 sq. ft. of community facility floor area) to 6,314.2 sq. ft. of floor area (0.5 FAR) (347.2 sq. ft. of residential floor area and 5,967.1 sq. ft. of community facility floor area); and

WHEREAS, the applicant notes that 17 accessory parking spaces will also be provided on the site; and

WHEREAS, the applicant notes that in the subject R3A zoning district, which also within a Lower Density Growth Management Area, an ambulatory diagnostic or treatment facility is limited to 1,500 sq. ft. of floor area, pursuant to ZR § 22-14; however, pursuant to ZR § 73-126, the Board may permit an ambulatory diagnostic or treatment health care facility with maximum floor area of 10,000 sq. ft., provided that: (a) the amount, type, and distribution of open area on the zoning lot are compatible with the character of the neighborhood; (b) the distribution of bulk on the zoning lot will not unduly obstruct access of light and air to adjoining properties or streets; and (c) the scale and placement of the building on the zoning lot relates harmoniously with surrounding buildings; and

WHEREAS, the Board notes that other than the increase in floor area beyond 1,500 sq. ft. authorized by the special permit, the ambulatory diagnostic or treatment health care facility must comply with all zoning parameters of the underlying district; and

WHEREAS, the applicant states that, aside from the requested increase in community facility floor area, the proposal complies in all respects with the zoning parameters of the subject R3A zoning district; and

WHEREAS, the applicant also states that the proposed building will have 5,967.1 sq. ft. (0.47 FAR) of community facility floor area, which is significantly less than the maximum permitted under the special permit (10,000 sq. ft.), and less than half of the maximum FAR permitted for community facilities in the subject R3A zoning district (1.0 FAR); and

WHEREAS, turning to the ZR § 73-126 findings, the applicant contends that the proposal’s the amount, type, and distribution of open area on the zoning lot are compatible with the character of the neighborhood; and

MINUTES

WHEREAS, specifically, the applicant states that the proposed 37.5 percent lot coverage is significantly less than the maximum permitted lot coverage (55 percent); in addition, the applicant examined the nature and amount of open space of the 54 sites surrounding the site, and found that 44 sites provide less than open space than the subject site; the applicant also notes that 25 percent of the open space on the site will be grass or landscaped and that open space on nearby sites often includes grassy areas, paved surfaces, pools, and accessory garages; and

WHEREAS, accordingly, the applicant asserts that the site's proposed open area entirely compatible with the character of the neighborhood; and

WHEREAS, as to the distribution of bulk on the zoning lot and its impacts on the light and air of adjoining properties or streets, the applicant contends that the proposal has no impact on adjoining properties, in that it is only two stories (with a wall height of approximately 21 feet), it is located more than 65 feet from the nearest building, and it provides two front yards with depths of ten and 23 feet; and

WHEREAS, as to the harmoniousness of the building with the surrounding buildings in terms of scale and placement on the site, the applicant states that, as noted above, the building complies in all respects with the bulk regulations regarding FAR, height, yards, lot coverage, and parking; the applicant also notes that the footprint of the enlarged building will be substantially similar to the footprints of the existing buildings on the lot; thus, the historic site condition is reflected in the proposal; and

WHEREAS, at hearing, the Board expressed concerns regarding: (1) the compatibility of a flat-roof design with the surrounding buildings and directed the applicant to provide a streetscape comparing its design with the existing context; and (2) the number of examination rooms proposed; and

WHEREAS, in response, the applicant provided the streetscape and revised the proposal to reflect a hipped-roof; the applicant asserts also asserts that the surrounding neighborhood is characterized by its architectural diversity and that the proposal seeks to incorporate the disparate elements; and

WHEREAS, the Board agrees that the context is varied and it finds that the hipped-roof is more in keeping with the nearby residential buildings; and

WHEREAS, as to the number of examination rooms proposed, the applicant explained that the examination rooms shown on the drawings were actually examination, waiting, and specialized equipment rooms, and that many rooms will be used non-simultaneously; and

WHEREAS, based upon the above, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR § 73-125; and

WHEREAS, the Board further finds that the subject use will not alter the essential character of the surrounding neighborhood nor will it impair the future use and development of the surrounding area; and

WHEREAS, the Board also finds that the proposal will

not interfere with the renovation of the adjacent fire station, and will otherwise not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR § 73-03; and

WHEREAS, the project is classified as Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No. 14-BSA-009R, dated July 10, 2013; and

WHEREAS, the EAS documents that the operation of the facility would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, the Board has determined that the operation of the facility will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings ZR §§ 73-125 and 73-03, to permit, on a site within an R3A zoning district, the construction of a two-story mixed residential (Use Group 2) and community facility (Use Group 4) building, with 5,967 sq. ft. of floor area, to be occupied by an ambulatory diagnostic or treatment health care facility, contrary to ZR § 22-14; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received June 12, 2014" –(9) sheets; and *on further condition*:

THAT the parameters of the building shall be as follows: two stories, a maximum wall height of 21 feet, a maximum residential floor area of 347.2 sq. ft., a maximum community facility floor area of 5,967.1 sq. ft. of community facility floor area, a maximum lot coverage of 37.5 percent, and 17 parking spaces, as reflected on the BSA-approved plans;

THAT all landscaping will be provided and maintained in accordance with the approved plans;

THAT substantial construction will be completed in

MINUTES

accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 17, 2014.

273-13-BZ

CEQR #14-BSA-044M

APPLICANT – Akerman Senterfitt, LLP, for 321-23 East 60th Street LLC, owner.

SUBJECT – Application September 26, 2013 – Variance (§72-21) to permit the development of an eight-story residential building containing 28 dwelling units, contrary to use regulations (§32-10). C8-4 zoning district.

PREMISES AFFECTED – 321 East 60th Street, Northeast corner of East 60th Street and the Ed Koch Queensboro Bridge Exit. Block 1435, Lot 15, Borough of Manhattan.

COMMUNITY BOARD #8M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated September 20, 2013, acting on DOB Application No. 121331362, reads, in pertinent part:

Proposed residential use (UG2) within C8-4 zoning district is not permitted; contrary to ZR 32-11; and

WHEREAS, this is an application under ZR § 72-21, to permit, within a C8-4 zoning district, the construction of an eight-story residential building (Use Group 2), contrary to ZR § 32-11; and

WHEREAS, a public hearing was held on this application on March 4, 2014, after due notice by publication in the *City Record*, and then to decision on June 17, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 8, Manhattan, recommends approval of the application; and

WHEREAS, the subject site is an irregularly-shaped interior located on the north side of East 62nd Street between Second Avenue and First Avenue, within a C8-4 zoning

district; and

WHEREAS, the site has 8.15 feet of frontage along East 62nd Street and 3,749 sq. ft. of lot area; and

WHEREAS, the western boundary of the site has an arcing quality; it is formed by a tax lot that coincides with an exit from the Ed Koch Queensboro Bridge, giving the site a trapezoidal quality; as such, the lot narrows considerably from the rear lot line, which has a width of 48.33 feet, to the front lot line, which has a width of 8.15 feet; in addition, at ground level, the area beneath the exit is a paved roadway, complete with curbs and sidewalks; thus, the site is bounded on only two sides by buildings and has the appearance of a corner lot; and

WHEREAS, the site is vacant; applicant states that the current and historic use of the site is for parking automobiles; and

WHEREAS, the applicant proposes to construction an eight-story residential building with 24,368.5 sq. ft. of floor area (6.5 FAR), 28 dwelling units, a total building height of 93'-0", and nine accessory parking spaces; and

WHEREAS, because Use Group 2 is not permitted within the subject C8-4 zoning district, the applicant seeks a use variance; and

WHEREAS, the applicant states that, per ZR § 72-21(a), the following are unique physical conditions which create an unnecessary hardship in developing the site in conformance with applicable regulations: (1) trapezoidal shape and a narrow lot width; and (2) proximity to the exit of the Ed Koch Queensboro Bridge and the Roosevelt Island Tram; and

WHEREAS, the applicant states that the site has a trapezoidal shape, which narrows the lot width from 48.33 feet to 8.15 feet; and

WHEREAS, the applicant asserts that this unique condition—there are no remotely similar sites within 400 feet of the site—creates significant building inefficiencies and does not result in a marketable floorplate for a conforming use, which require two sets of stairs, elevators, and corridors; and

WHEREAS, likewise, the applicant states that, due to the site’s curved shape, a building that utilizes the available will have a curved façade, which is more expensive than a flat façade; and

WHEREAS, in addition, the site’s proximity to an exit of the Ed Koch Queensboro Bridge presents a unique burden in developing site, particularly with respect to cost; and

WHEREAS, specifically, the applicant represents that any development of the site will require higher site supervisory costs and insurance premiums (due to the risks associated with damaging a major thoroughfare), increased seismic monitoring, and a greater quantity of sidewalks, curbs, and plaza paving; and

WHEREAS, the applicant also states that a crane cannot be used during construction because of the location of the bridge and the exit, the narrow width of the site along East 60th Street, and the location of wires for the Roosevelt Island Tram (which run directly over East 60th Street); and

WHEREAS, the applicant notes that because a crane cannot be used, it must employ a reinforced concrete frame

MINUTES

rather than a structural steel frame; and

WHEREAS, the applicant provided an analysis of the construction costs for the site; according to that report, the site's unique conditions result in \$709,365 in premium construction costs; and

WHEREAS, the applicant explored the feasibility of a conforming development with 24,368.5 sq. ft. of floor area (6.5 FAR) (18,745 sq. ft. of commercial floor area (5.0 FAR) and 5,623.5 sq. ft. of community facility floor area (1.5 FAR)); such development yields floorplates of 3,351 sq. ft. that vary in width from 48 feet to 17 feet, which the applicant states are not conducive to either commercial or community facility uses; and

WHEREAS, in addition, as noted above, the applicant states that the conforming development must include two sets of stairways and an elevator bank, which decreases the overall efficiency of the building and further limits its rentable portions; and

WHEREAS, accordingly, the applicant concludes that conforming uses are infeasible at the site, due to the inefficient building that results from its trapezoidal shape and narrow width, and the premium construction costs inherent in the development of a site in close proximity to one of the city's major bridges; and

WHEREAS, the Board agrees that the aforementioned unique physical conditions, when considered individually and in the aggregate, create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant asserts that, per ZR § 72-21(b), there is no reasonable possibility that the development of the site in conformance with the Zoning Resolution will bring a reasonable return; and

WHEREAS, in addition to the proposal, the applicant examined the economic feasibility of: (1) an as-of-right 6.5 FAR mixed commercial and community facility building with parking on the first story, two stories of community facility use, and six stories of office use; and (2) a lesser-variance residential development with only six stories and 5.0 FAR; and

WHEREAS, the applicant concluded that the as-of-right scenario and the lesser variance scenario resulted in negative rates of return after capitalization; in contrast, the applicant represents that the proposal results in a positive rate of return, making it economically viable; and

WHEREAS, based upon its review of the applicant's economic analysis, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable zoning requirements will provide a reasonable return, in accordance with ZR § 72-21(b); and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, the applicant states that the immediate area is characterized by a mix of medium- to high-density residential and commercial uses and, of course, the Ed Koch Queensboro Bridge and its many elevated approaches and structural elements; the applicant notes that the portion of East 60th Street east of the bridge is predominantly residential with some ground floor commercial; and

WHEREAS, as to adjacent uses, immediately north of the site are three five-story tenement buildings, immediately east of the site is a large commercial building that is 146 feet in height and spans the full width of the block from East 60th Street to East 61st Street; as noted above, streets abut the site to the west and south; and

WHEREAS, the Board agrees that the character of the area is mixed-use, and finds that the introduction of 28 dwelling units will not impact nearby conforming uses; and

WHEREAS, as to bulk, the applicant states that the building's wall and building height of 93'-0" is comparable to buildings in the immediate vicinity, 53'-0" feet shorter than the adjacent commercial building, and well within the maximum building height in the subject C8-4 district (210'-0"); and

WHEREAS, at hearing, the Board directed the applicant to provide additional details regarding: (1) why a crane cannot be used to lift materials into the site; (2) the proposed noise attenuation and air quality preservation measures; and

WHEREAS, in response, the applicant provided a supplemental statement from the project architect, which further describes the constraints of the site, including its inability to use a crane; and

WHEREAS, as to the Board's noise concerns, the applicant states that proposal includes specially-glazed windows, which will provide 25 dB(A) of attenuation, resulting in interior noise levels that are within acceptable ranges; as to air quality, the applicant states that the HVAC systems for the dwelling units will provide fresh air in addition to heating and cooling; therefore, residents will be able to receive fresh air without opening external windows; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that, consistent with ZR § 72-21(d), the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the site's trapezoidal shape and its proximity to the Ed Koch Queensboro Bridge; the Board notes that the applicant provided copies of the 1969 and 1970 tax maps, which coincide with the construction of the bridge exit and reflect the formation of the site in its current form; and

WHEREAS, finally, the Board finds that the proposal is the minimum variance necessary to afford relief, as set forth in ZR § 72-21(e); and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

MINUTES

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2 and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 14BSA044M, dated September 24, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, within a C8-4 zoning district, the construction of an eight-story residential building (Use Group 2), contrary to ZR § 32-11, *on condition* that any and all work will substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received June 16, 2014"- seven (7) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the proposed building: a maximum of 24,368.5 sq. ft. of floor area (6.5 FAR); a maximum of 28 dwelling units; a maximum total building height of 93'-0"; one front yard along East 60th Street with a minimum depth of 10'-0"; and a maximum of nine accessory parking spaces;

THAT sound attenuation will be in accordance with the BSA-approved plans;

THAT substantial construction will be completed in accordance with ZR § 72-23;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 17, 2014.

289-13-BZ

CEQR #14-BSA-057K

APPLICANT – Kramer Levin Naftalis & Frankel LLP, for New York Methodist Hospital, owner.

SUBJECT – Application October 16, 2013 – Variance (§72-21) to allow the development of a new, 304,000 s.f. ambulatory care facility on the campus of New York Methodist Hospital, contrary to floor area (§§24-11, 24-17 and 77-02), lot coverage (§24-11), rear yard (§24-382), height and setback (§24-522), rear yard setback (§24-552), and sign (§22-321) regulations. R6, C1-3/R6, and R6B zoning district.

PREMISES AFFECTED – 473-541 6th Street, aka 502-522 8th Avenue, 480-496 & 542-548 5th Street & 249-267 7th Avenue, Block bounded by 7th Avenue, 6th Street, 8th Avenue and 5th Street, Block 1084, Lot 25, 26, 28, 39-44, 46, 48, Borough of Brooklyn.

COMMUNITY BOARD #6BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings' Executive Zoning Specialist, dated February 6, 2014, acting on Department of Buildings Application No. 320576952, reads in pertinent part:

1. Proposed FAR in R6B and R7B portions both exceed maximum permitted because proposed "floor area" distribution across district boundary lines is not permitted; contrary to ZR 24-11, ZR 24-17, and ZR 77-02.
2. Proposed lot coverage of (a) corner lot in R6, (b) interior lot in R6, (c) through lot in R6/R6B districts, and (d) corner lot in R7B exceeds the maximum; contrary to ZR 24-11.
3. Proposed rear yard at through lot portion in zoning districts R6 and R6B is contrary to ZR 24-382 Required Rear Yard Equivalent.
4. Height and setback limitations for: (a) the R6 district portion, above both narrow (6th Street) and wide street (8th Avenue) and (b) the R6B . . . district portions above narrow street (5th Street) are both contrary to ZR 24-522.
5. Required rear setbacks for R6 and R6B district portions are contrary to ZR 24-552.
6. Proposed signs exceed maximum permitted number and surface area contrary to ZR 22-321.
7. Proposed building portion in required rear yard on interior lot portion, beyond 100 feet of a wide street, is not a permitted obstruction as per ZR 24-33(b)(3)(iii), and is therefore contrary to ZR 24-36; and

WHEREAS, this is an application under ZR § 72-21 to

MINUTES

permit within R6, R6B, and R7B zoning districts, the construction of a new ambulatory care facility (the “Center for Community Health” or the “Center”) on the campus of New York Methodist Hospital (“NYM” or the “Hospital”) that does not comply with zoning regulations for FAR, lot coverage, rear setback, rear yard, rear yard equivalent, and signage, contrary to ZR §§ 22-321, 24-11, 24-17, 24-33, 24-36, 24-382, 24-522, 24-552, and 77-02; and

WHEREAS, a public hearing was held on this application on February 11, 2014, after due notice by publication in the *City Record*, with a continued hearing on April 8, 2014, and then to decision on June 17, 2014; and

WHEREAS, at the April 29, 2014 public hearing, the Board set a May 20, 2014 decision date; and

WHEREAS, however, subsequent to the April 29, 2014 hearing, a representative of Preserve Park Slope communicated with Board staff and NYM about its request for supplemental documents from NYM; the Board declined to request the documents and NYM declined to provide the documents directly; and

WHEREAS, Preserve Park Slope then sought judicial relief to obtain the documents in New York State Supreme Court by Order to Show Cause; and

WHEREAS, the court issued a stay which prohibited the Board from closing the hearing and rendering a decision as scheduled on May 20, 2014; on June 4, 2014, the court lifted the stay but did not issue a ruling on the subpoena request, which is pending; and

WHEREAS, the site and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 6, Brooklyn, recommends approval of this application with the following conditions: (1) height compliance within the R6 zoning district; (2) height and setback compliance within the R7B zoning district; (3) reduction of streetwall height and building height and the inclusion of an additional setback within the R6B zoning district; (4) that NYM provide notice of its New York State Department of Health Certificate of Need (CON) application at the time it is filed; (5) that NYM develops a long-range plan; (6) that signage be limited to the revised reduced amount; (7) that the usage of the Eighth Avenue and Sixth Street entrance be limited to employees, emergency egress, and Urgent Care facility use during late afternoon and evening hours; (8) that parking be reduced by at least 189 spaces; (9) that NYM participate with the Traffic Task Force to address transportation impacts and to perform a full scale traffic study; (10) that NYM participate in continued discussions regarding building design and materials; and (11) that NYM continue to participate in discussions with a Construction Task Force; and

WHEREAS, New York State Assemblymembers Joan L. Millman and James F. Brennan and New York City Councilmember Brad Lander provided testimony in support of the application; and

WHEREAS, the M.S. 51 public school provided

testimony stating that after initially having concerns about traffic safety and pollution as well as environmental impacts during the construction period and following completion of the building, it is satisfied after later communication with NYM demonstrated efforts to address these issues; and

WHEREAS, the P.S. 39 public school Parent Association provided a submission which identified concerns with traffic safety and air pollution; and

WHEREAS, Park Slope Neighbors, a community group, submitted testimony in support of the application on the condition that the offstreet parking be reduced; and

WHEREAS, Preserve Park Slope, a community group, represented by counsel, provided opposition to the application, citing the following primary concerns: (1) NYM may not rely on the deference defined by the courts in Cornell University v. Bagnardi, 68 N.Y.2d 583 (1986), namely the prohibition against inquiry into programmatic needs because NYM is not an educational institution; (2) evidence in support of NYM’s programmatic needs is deficient; (3) the evidence in support of programmatic needs is inadequate in that it differs from that in prior hospital variance cases and standards set by the Board; (4) the proposal is incompatible with the character of the neighborhood and a lesser variance involving construction over the garage (the “Garage Alternative”) would be a viable alternative; (5) there will be traffic impacts including on safety and the environment; (6) that the proposal does not reflect the minimum variance; and (7) that NYM should be required to adhere to the Community Board’s conditions; and

WHEREAS, certain community members provided testimony in opposition to the application, citing concerns about whether the programmatic needs for the application had been established, traffic and other environmental impacts, and whether the proposal is compatible with the neighborhood character; and

WHEREAS, opponents to the project are, collectively, the “Opposition;” and

WHEREAS, this application is brought on behalf of NYM, a non-profit hospital, research, and educational facility; and

WHEREAS, a companion application to modify a prior approval for parking filed under BSA Cal. No. 142-92-BZ was decided at the same hearing and allows for the enlargement of the zoning lot (the “Zoning Lot”); and

WHEREAS, the zoning lot comprises the majority of Block 1084; it includes Tax Lots 39, 164, 1001, and 1002, and has frontages along Fifth Street, Sixth Street, Seventh Avenue, and Eighth Avenue; the applicant notes that when the noted special permit was granted (BSA Cal. No. 142-92-BZ), the site comprised Lots 164, 1001, and 1002, however, at the time the lots were designated as Lots 1, 17, and 64; as for Lot 39, it was formed by the merger of former Lots 25, 26, 28, 40-44, 46, 48, and 50-59; and

WHEREAS, the NYM main campus is located on two adjacent blocks bounded by Seventh Avenue, Fifth Street, Eighth Avenue, and Seventh Street; the development site (the “Development Site”) is located on the eastern portion of

MINUTES

the northern block, with frontages on Sixth Street, Fifth Street, and Eighth Avenue and will be part of a zoning lot that consists of the parcels designated as Block 1084, Lots 39, 164, 1001, and 1002 (the "Zoning Lot"); and

WHEREAS, the Development Site is located partially within an R6 zoning district, partially within an R6B zoning district, and partially within an R7B zoning district; and

WHEREAS, the Zoning Lot has approximately 510 feet of frontage along Fifth Street, approximately 696 feet of frontage along Sixth Street, 200 feet of frontage along Seventh Avenue, 200 feet of frontage along Eighth Avenue, and 120,569 sq. ft. of lot area; and

WHEREAS, there are a series of contiguous parcels fronting on Fifth Street which are not part of the Zoning Lot ("out-parcels") and which give the Development Site a U-shape; and

WHEREAS, the Development Site is currently occupied by NYM-owned low-rise buildings, originally constructed as walk-up residences, and a parking lot, all of which would be demolished in connection with the construction of the Center; and

WHEREAS, the Hospital notes that calculations for lot area and width, use group, floor area/FAR, lot coverage, required rear yards, parking, and loading are for the Zoning Lot; other calculations are for the Development Site, which comprises a majority of the zoning lot and is located in R6, R6B, and R7B zoning districts;

WHEREAS, the Hospital initially proposed to construct a new building for the Center which would include 311,000 sq. ft. of community facility floor area (3.82 FAR), seven stories and two mechanical floors, and a maximum height of 152 feet; and

WHEREAS, an interim proposal reflected 304,000 sq. ft. of floor area, but was ultimately revised again to include a reduction in height and increases in certain setback depths to reflect the current proposal; and

WHEREAS, specifically, the Hospital states that in response to comments from the Board and the conditions set forth in the Community Board's recommendation, reductions were made to the height and setback of the building in the R6B and R7B zoning districts including: (1) the R7B portion of the building was reduced in height so that it now complies with the applicable height and setback regulations; (2) the front setback on Fifth Street at the fourth floor in the R6B district was increased by an additional 15 feet, to a total depth of 20 feet from the street line; and (3) the front setback on Fifth Street at the fifth through seventh floors in the R6B district was increased by an additional 21 feet, to a total depth of 41 feet from the street line; and

WHEREAS, the proposed Center will occupy a single building with seven stories and two mechanical floors, and a maximum height of 150 feet with 299,000 sq. ft. of floor area; it will include: an ambulatory surgery center; a new endoscopy suite; clinical institutes for physician practice care delivery (the "Institutes"); an urgent care center; and a below-grade parking facility with connections to the Hospital's existing parking facilities to the west; the Institutes would include

cardiology, neurosciences, orthopedics, urology, otolaryngology (ENT), a women's center, and cancer care with diagnostic radiology services; and

WHEREAS, additionally, the Hospital plans to construct a below-grade pedestrian and utility tunnel between the proposed Center and the existing Hospital facilities across Sixth Street to the south, which tunnel would be subject to the approval of a revocable consent by the NYC Department of Transportation; and

WHEREAS, the Hospital asserts that the building's floor plate dimensions and configurations would accommodate needed ambulatory care facilities, while providing adjacencies and direct connections to promote efficient, collaborative health care with minimal risk of contamination and infection; and

WHEREAS, the existing buildings include the following: (1) on the southern portion of the Development Site are five two-story buildings located to the immediate west of the parking lot, which have been converted from residential use to NYM-affiliated medical facilities and offices, and three four-story walk-ups located farther west, which contain apartments for NYM staff and medical students and on-call rooms for NYM departments; (2) on the northeast corner of the Development Site are five three-story walk-ups, which are all vacant; (3) on the northwest corner, fronting on Fifth Street, are three four-story residential walk-ups, which have been vacated in connection with the development of the Center; and (4) a parking lot, located on the southeast corner of the Development Site, which serves NYM doctors and contains 79 spaces; and

WHEREAS, the remainder of the Zoning Lot to the west of the Development Site is occupied by two Hospital buildings to remain: the Medical Office Pavilion, a five-story building fronting on 7th Avenue, containing hospital-related facilities, ground-floor retail, and a 518-space below-grade accessory parking garage with surface parking; and the Wesley House, a 12-story building containing hospital-related facilities and staff dwellings; and

WHEREAS, the existing buildings to remain on the Zoning Lot are the subject of a variance and special permit granted by the Board on January 11, 1994, which waived applicable height and setback, parking, loading, and curb cut regulations to allow the construction of the Medical Pavilion and the garage (BSA Cal. No. 142-92-BZ); the special permit allowed the existing parking garage and deck to contain 518 parking spaces, consisting of 76 required parking spaces accessory to retail uses, 49 required parking spaces accessory to the Wesley House, and 393 permitted parking spaces accessory to hospital-related uses; and

WHEREAS, the Hospital states that the existing buildings to the west of the Development Site must remain in order to allow it to continue to operate effectively; this includes the existing garage, which cannot be vertically enlarged in a way that satisfies the Hospital's programmatic needs; and

WHEREAS, the R6, R6B, and R7B zoning districts allow Use Groups 1 and 2 residential uses and Use Groups 3

MINUTES

and 4 community facility uses, including ambulatory care facilities and hospitals; the C1-3 commercial overlay district, which applies along the Zoning Lot's Seventh Avenue frontage but not to the Development Site, allows additional limited commercial uses; and

WHEREAS, the maximum permitted FAR for community facilities is 4.8 in the R6 district, 2.0 in the R6B district, and 3.0 in the R7B district, pursuant to ZR § 24-11; these limits allow, respectively, 481,670 sq. ft. of floor area on the R6 portion of the Zoning Lot, 22,426 sq. ft. of floor area on the R6B portion of the Zoning Lot, and 27,024 sq. ft. of floor area on the R7B portion of the Zoning Lot; pursuant to ZR § 77-02 (Zoning Lots Not Existing Prior to Effective Date or Amendment of Resolution), for a split zoning lot that did not exist on the effective date of the Zoning Resolution or an applicable amendment, each portion of the zoning lot is subject to the regulations applicable in the zoning district in which the portion is located; and

WHEREAS, the Center would not utilize all of the available floor area on the Zoning Lot, but it would require the distribution of permitted floor area across zoning district boundaries, from the R6 portion to the R6B and R7B portions; the R6B portion of the Zoning Lot would contain 42,150 sq. ft. of floor area, exceeding the maximum permitted amount by 19,724 sq. ft.; the R7B portion would contain 39,600 sq. ft. of floor area, exceeding the maximum permitted amount by 12,576 sq. ft.; and the R6 portion of the Zoning Lot would contain 378,134 sq. ft. of floor area, including 161,534 sq. ft. in existing buildings on the Zoning Lot to remain; and

WHEREAS, further, the Center would require waivers from the following bulk regulations within the R6 zoning district due to: (1) a lot coverage of 94.7 percent on the corner lot portion and 66.8 on the interior lot portion fronting Sixth Street, and 92.2 percent lot coverage on the other through lot portion (a lot coverage limitation of 65 percent on interior and through lots and 70 percent on corner lots is permitted (ZR § 24-11)); (2) rear yard and rear setback relief because the one-story portion of the Center located in the interior lot portion of the Zoning Lot is located more than 100 feet from Eighth Avenue and therefore is not permitted in the rear yard (ZR §§ 24-33 and 24-36) (a required rear yard of 30 feet for interior lot portions of a zoning lot and a rear yard equivalent of 60 feet for through lot portions of a zoning lot, with a required rear yard setback of 20 feet above a height of 125 feet is required (ZR §§ 24-36, 24-382, and 24-552)); (3) a portion of the Center fronting on Sixth Street, a narrow street, would extend above 60 feet within the required setback distance with a maximum height of 132 feet and would pierce the sky exposure plane (a required front setback of 15 feet on wide streets or 20 feet on narrow streets above a height of 60 feet is required and a sky exposure plane of 5.6 to 1 on wide streets or 2.7 to 1 on narrow streets is required (ZR § 24-522)); and

WHEREAS, within the R6B district, there is: (1) a lot coverage of 89 percent (a maximum lot coverage of 60 percent for through lots is permitted (ZR § 24-11)); (2) the portions of the Center located on the through and interior lot

exceed 125 feet in height and are less than 20 feet from the rear yard line (a rear yard equivalent of 60 feet for through lot portions of a zoning lot, with a required rear yard setback of 10 feet above a height of 40 feet is required (ZR § 24-552)); (3) the portion of the Center fronting on Fifth Street would have a front wall with a height of approximately 59 feet at the street line and, beyond the required 15-foot setback, a maximum building height of approximately 141 feet is required and the street wall would align with the street walls of the adjacent rowhouses, allowing for the rowhouses' bay windows to visibly project, but would have a large opening to provide pedestrians with access to the Center's vehicular driveway area and visitor entrance (a street wall location with a minimum base height of 30 feet and maximum base height of 40 feet and a maximum building height of 50 feet are permitted (ZR §§ 24-522, 23-633)); and

WHEREAS, within the R7B district, there is (1) a lot coverage of 94.9 percent (a maximum lot coverage of 80 percent for corner lots is permitted (ZR § 24-11)); (2) a street wall location with a minimum base height of 40 feet and a maximum base height of 60 feet is permitted; and (3) a complying front wall height of approximately 60 feet on Fifth Street and Eighth Avenue and a complying 75-ft. maximum building height (a maximum building height of 75 feet is permitted (ZR §§ 24-522, 23-633)); and

WHEREAS, finally, the Center would have a total of four signs to provide wayfinding for pedestrians and vehicles: a 120-sq.-ft. sign demarcating the pedestrian and vehicular entrances on Sixth Street, two 19-sq.-ft. signs demarcating the corner pedestrian entrance at 8th Avenue and Sixth Street (one on each frontage), and a 16-sq.-ft. building directory located near the main vehicular driveway and pedestrian lobby entrance (for non-residential uses, exclusive of hospitals and related facilities [which are listed in the Zoning Resolution separately from ambulatory care facilities] signage is restricted to one identification sign with a surface area of up to 12 sq. ft. and a bulletin board with an area of up to 16 sq. ft. (ZR § 22-231) yet flags, banners, and pennants for community facilities are permitted without limitation (ZR § 22-332)); and

WHEREAS, the Hospital states that the variance is required so that it may construct a building that accommodates NYM's programmatic need to locate the Center on the NYM campus and the subject site was the only available site suitable; and

WHEREAS, further, due to the need to maintain the existing hospital buildings on the campus and the presence of a significant slope across the Development Site, the subject waivers are required to construct a building that will accommodate the Hospital's programmatic needs; and

WHEREAS, the Hospital asserts that because of its status as a non-profit teaching hospital, its programmatic needs may be considered in determining if a variance is warranted; and

WHEREAS, the Hospital states that it has a need for adequate and appropriately configured space for ambulatory care facilities, with efficient adjacencies and circulation

MINUTES

pathways located on its main campus; and

WHEREAS, the Hospital asserts that the Center would satisfy this need, while no other alternative including the studied complying development (the “Complying Development”) would; and

WHEREAS, the Hospital states that the Development Site is the only site on the NYM campus that is available for new construction and that allows the Center to be located proximate to the Hospital’s existing clinical facilities due to the location of the existing buildings that will remain on the Zoning Lot and the out-parcels on Fifth Street, which significantly limit the design and configuration of the Center by giving the Development Site an irregular U-shape with narrow dimensions; and

WHEREAS, the Hospital states that these conditions, when combined with the application of the Zoning Resolution’s bulk regulations, constrain the dimensions of the Center’s footprint and floor plates; and

WHEREAS, the Hospital states that the Zoning Lot has significant sloping conditions which are reflected on the survey, which show that the Development Site slopes downward from Eighth Avenue toward Seventh Avenue, with a change in grade of approximately 11 feet as measured from a point at the corner of Sixth Street and Eighth Avenue to the midblock portion of Sixth Street; and

WHEREAS, the Hospital states that this change in grade represents slightly more than three-quarters of the height of a typical building floor and, thus, a development that spans the length of the Development Site must have a split ground-floor level, impacting floor-to-floor heights and internal circulation; and

WHEREAS, the Hospital states that the slope also results in varying values of the applicable curb level and base plane, which, in combination with applicable height and setback regulations, constrain ceiling heights in the Complying Development; and

WHEREAS, the Hospital states that because of these physical constraints and their effect on a building’s bulk and floor plate configurations, a development that complies with applicable zoning regulations creates practical difficulties in satisfying the Hospital’s programmatic needs; and

WHEREAS, as to the need of the proposed orientation of the building and for the yard and setback waivers, the Hospital states they are necessary to achieve the necessary floor plates;

WHEREAS, specifically, the Hospital states that the eastern and western wings of the Center’s U-shaped floor plates would have dimensions of approximately 95 feet by 195 feet at the lower floors, which are necessary to accommodate the surgical suite’s 12 operating rooms, at approximately 550 sq. ft. each, on the third floor, with adjacent dedicated surgical preparation rooms; and

WHEREAS, the Hospital states that the floor plate also accommodates (1) the surgical recovery rooms on the floor immediately below the surgical suite and, with slightly smaller dimensions, the associated Central Sterile Services on the floor immediately above; (2) the second floor would

also contain patient preparation and recovery facilities for special procedures, consisting of ten dedicated preparation rooms and 18 dedicated recovery rooms; and (3) the surgical suite, Central Sterile Services, and patient preparation and recovery facilities would be served by dedicated elevators to provide efficient, sterile, and controlled connections; and

WHEREAS, the Hospital represents that these adjacencies would promote efficient communication and coordination among caregivers, minimize travel distances for doctors, nurses, and patients, and minimize the duplication of support functions; and

WHEREAS, further, the Hospital states that the Center would contain a number of Institutes which are staffed by faculty and affiliated physicians such as the Institute for Cancer Care, which would contain approximately 60 infusion rooms and support space, would be accommodated on the sixth and seventh floors; and

WHEREAS, the Hospital states that the ability to locate an Institute on a single floor and proximate to other medical care facilities in the building and on the block to the south would promote comprehensive, coordinated caregiving for the Hospital’s patients; and

WHEREAS, the Hospital states that the consolidation of the Center’s program in a single building would allow for the efficient, vertical stacking of facilities, with a central elevator core that minimizes travel distances for visitors and staff; and

WHEREAS, the Hospital states that the vertical alignment of facilities would facilitate circulation among floors, including efficient connections among the Hospital’s Institutes and other medical care facilities; and

WHEREAS, the Hospital states that the operating rooms would have a direct, controlled and clean pathway to the building’s Central Sterile Services on the floor immediately above, minimizing both the risk of infection incidents and the time it takes for sterile supplies to be delivered; and

WHEREAS, as to signage, the Hospital asserts that its proposed signs satisfy its need for effective wayfinding on a campus that contains a mix of hospital and healthcare facilities with multiple entrances located on streets that slope between Seventh and Eighth Avenues, which limits the visibility of signs; and

WHEREAS, the Hospital assert that the signs for the main entrance on Sixth Street, in particular, must be of a sufficient size to be visible to approaching vehicles at appropriate distances; and

WHEREAS, the Hospital analyzed a Complying Development that would contain approximately 310,000 sq. ft. of floor area – approximately 11,000 sq. ft. more than the proposal; and

WHEREAS, the analysis reflects that in order to accommodate the proposed floor area within the permitted envelope, it would include two building segments with narrower floor plates; one segment would have a similar footprint than the proposed Center’s, but without a west

MINUTES

wing, and the other segment would be constructed directly over the existing parking deck on the Zoning Lot; and

WHEREAS, the Complying Development would be eight stories tall, with two mechanical floors and a height of 150 feet; and

WHEREAS, the application of lot coverage, height and setback, rear yard and rear yard equivalent, rear yard setback, and floor area distribution regulations to the Complying Development, in combination with constraints created by the Development Site's unique physical conditions, would result in narrow floor plate configurations that limit opportunities for functional adjacencies and require the duplication of support spaces; and

WHEREAS, specifically, the dimensions of the eastern wing on Eighth Avenue would be severely constrained by lot coverage limitations applicable to corner lots in the R7B zoning district; the eastern wing would be further constrained by street wall and building height regulations which require setbacks above 60 feet and preclude development altogether above 75 feet and the building's central segment on Sixth Street would be limited in its configuration by lot coverage and rear yard regulations applicable to the interior lot portion of the Zoning Lot, with its upper floors having particularly shallow dimensions because of the application of height and setback and rear yard setback regulations; and

WHEREAS, the Hospital represents that the Complying Development's western segment would be physically separated from the rest of the building above grade in order to comply with the required rear yard equivalent and this isolated segment would have very narrow dimensions in order to comply with the required rear yard equivalent, as well as with the height and setback regulations applicable to the Zoning Lot's Fifth Street frontage; and

WHEREAS, the Hospital states that the slope of the Development Site results in significant variations in the applicable curb level and base plane, as calculated pursuant to ZR § 12-10; specifically, along Sixth Street in the R6 zoning district, the applicable curb level is 131.8 feet in the corner lot, 126.44 feet in the interior lot, and 122.62 feet in the through lot; accordingly, the elevation of the applicable maximum front wall height thus steps down from Eighth Avenue toward Seventh Avenue, which results in constrained floor-to-floor heights of 9 feet and 12 feet 11 inches for portions of the fourth floor in the Complying Development; and

WHEREAS, the Hospital asserts that low ceiling heights significantly impede the ability to program these portions of the building; and

WHEREAS, the Hospital states that the Complying Development's constrained floor plates result in an inefficient configuration for the Hospital's new ambulatory care facilities, with the building's 12 operating rooms located in separate suites on the third and fourth floors; patient preparation split between the third and fourth floors; and surgical recovery on the second floor; with preparation

and recovery functions for special procedures be located in shared space on the fourth floor; and

WHEREAS, additionally, Central Sterile Services and the materials management facilities would be located at the extreme northeast corner of the building on the third floor, far removed from the operating rooms; and materials management would be housed in the east end of this segment on the second floor, physically separate from the eastern building segment, resulting in inefficiencies in the movement of material to and from the facilities located in the eastern segment; and

WHEREAS, the Hospital identified the following operational issues associated with the Complying Development, which are incompatible with its programmatic needs: (1) doctors, nurses, and other staff would be dispersed over multiple floors, and their travel times between treatment areas would be increased, resulting in an inefficient circulation network; (2) patients would experience longer and less comfortable transfers between treatment areas; (3) additional Hospital staff would be needed to accommodate the operating rooms and support spaces on each floor; (4) certain support functions and programmatic elements required by the Department of Health would have to be duplicated on each floor, reducing the amount of space in the building available for other healthcare functions; (5) the lack of a direct connection between Central Sterile Services and the operating rooms would increase the risk of infection incidents; (6) the lengthy travel path between the materials management facilities and the operating rooms would significantly reduce efficiency and increase the risk of cross-contamination; and (7) significant program impacts to the Institute for Cancer Care and preparation and recovery suites as the Complying Development would accommodate only 20 infusion rooms with minimal support, as compared to the 60 infusion rooms in the proposed Center, and only 16 shared preparation and recovery rooms, as compared to the 10 dedicated preparation rooms and 18 dedicated recovery rooms in the proposed Center; and

WHEREAS, the Hospital states that the physical isolation of the Complying Development's western segment would create additional issues as it would be connected to the remainder of the development only by the at-grade vehicular driveway and loading area; and

WHEREAS, the Hospital states that the separation of medical care facilities in the two building segments would severely impact the efficiency of the Complying Development's circulation network and impede communication and coordination among the Hospital's caregivers; and

WHEREAS, the Hospital asserts that the western segment above the ground floor would necessarily be limited to faculty practices, as the permitted building envelope does not accommodate the floor plate dimensions that are needed for operating rooms and related facilities and could only accommodate five faculty practice suites—five, rather than

MINUTES

the seven proposed would require duplication of shared spaces, such as reception and waiting; and

WHEREAS, the Hospital asserts that the separation of medical care functions in two building segments would require an additional entrance to the Complying Development on Fifth Street, encouraging curbside drop-offs, and would require additional elevator cores, with negative impacts on the building's programmatic and energy efficiencies; and

WHEREAS, the Hospital also states that the shallow floor plates of the Complying Development would result in a high ratio of façade surface area to floor area in the building and with a net-to-gross square foot ratio that is approximately 13 percent worse than that of the proposed Center; and

WHEREAS, finally, the Hospital notes that the construction of the Complying Development over the existing parking garage would necessitate major structural alterations to the garage, including the demolition and reconstruction of structural floors, columns, and footings and, in accordance with applicable codes, the introduction of seismic-resisting elements such as shear walls; and

WHEREAS, the Hospital represents that such additional work would not only represent a significant expense to the Hospital, but would also lengthen the construction period for the Complying Development and would require that the garage be closed for a 17-month period, resulting in the loss of all of the existing 518 parking spaces during that time; and

WHEREAS, the Hospital asserts that a Complying Development of two building segments with entrances on Sixth Street, Eighth Avenue, and Fifth Street, would have only one 12-sq.-ft. sign, on Sixth Street, and one 16-sq.-ft. bulletin board, in accordance with the signage regulations applicable to ambulatory care facilities and would be wholly inadequate to orient visitors to the Center and to other Hospital buildings on campus, as two of the building's frontages would be entirely unmarked and the third, on Sixth Street, would have a sign of an insufficient size to be visible to approaching vehicle drivers; and

WHEREAS, the Hospital relies on Cornell University v. Bagnardi, 68 N.Y.2d 583 (1986), in which the Court of Appeals held that schools have a presumed beneficial effect on the community which may be rebutted only with evidence of "a significant impact on traffic congestion, property values, municipal services and the like" and that "[t]he imposition of . . . [any] requirement unrelated to the public's health, safety or welfare, is . . . beyond the scope of the municipality's police power. . ."; and

WHEREAS, the Hospital asserts that the fundamental premise of the Cornell decision is that land use authorities must afford special treatment to schools and related uses because they "singularly serve the public's welfare and morals" and because of "their presumed beneficial effect on the community." Id. at 593, 595; and

WHEREAS, the Hospital notes that the Board has viewed the programmatic needs of hospitals in the way

described in Cornell for numerous hospital applications for variances and that none of those decisions have been disturbed by the courts; and

WHEREAS, the Hospital states that the Cornell decision's principles are directly applicable in this case because NYM is a teaching hospital and an acute care member institution of the New York Presbyterian Healthcare System, and, thus, may rely upon programmatic needs in support of the subject variance application; and

WHEREAS, further, the Hospital states that the application is consistent with the Cornell decision because the requested variances would not contravene public health, safety or welfare but is compatible with the character of the surrounding neighborhood and would not result in any significant adverse environmental impacts; and

WHEREAS, the Board notes that the Opposition asserts that the Hospital may not rely on the deference afforded to educational and religious institutions by New York state courts and that, even if it could, it has not established its programmatic needs; and

WHEREAS, the Opposition cited the following specific concerns about the program: (1) the programmatic needs have not been established by verifiable data and to justify the proposed patient projections through 2018; (2) the Hospital has not submitted studies and analysis similar to those in other hospital variance applications; and (3) disagreement that the program cannot be accommodated through the Garage Alternative detailed by the Opposition; and

WHEREAS, the Board acknowledges that NYM, is an established hospital and educational institution consistent with the numerous other hospitals that have sought and obtained variances from the Board; and

WHEREAS, the Board notes that in Cornell, the Court of Appeals identified the presumed public benefit of the educational institution and it finds that NYM, whether as a teaching hospital or otherwise, shares the presumed benefit to the community and is entitled to significant deference under the law of the State of New York as to zoning and as to its ability to rely upon programmatic needs in support of its variance application, which allows it to further its mission; and

WHEREAS, further, the Board notes, as held in Cornell, an educational institution's application is to be permitted unless it can be shown to have an adverse effect upon the health, safety, or welfare of the community, and general concerns about traffic, and disruption of the residential character of a neighborhood are insufficient grounds for the denial of an application; and

WHEREAS, the Board also notes that NYM has described with great specificity, including numerical data pertaining to historic and projected patient volumes for inpatient services, ambulatory surgical cases, and clinical Institute services, its needs and how they can be accommodated on its campus in a manner consistent with what the Board has accepted from other hospital applicants; and

WHEREAS, the Board finds that NYM has established the necessary nexus between the services to be offered in the

MINUTES

Center and the spatial requirements which trigger the zoning non-compliance; and

WHEREAS, the Board notes that the Hospital has not yet submitted its application for a Certificate of Need (CON) from the New York State Department of Health and that it awaits a decision on the subject variance before it will finalize the CON application; and

WHEREAS, the Board also notes that each variance application has a unique set of circumstances and a unique program and that it does not require identical analysis or information of each institution in order to establish its programmatic needs; and

WHEREAS, the Board notes that the Opposition is not satisfied that the Garage Alternative is infeasible and raises concerns about NYM's initial response that the garage could not support such an enlargement; and

WHEREAS, the Board finds that NYM has explained how, even if construction above the garage is possible from a structural standpoint, it is severely disruptive to its program and the necessary efficiencies accommodated in the proposed building; and

WHEREAS, the Board notes that where a nonprofit organization has established the need to place its program in a particular location, it is not appropriate for a zoning board to second-guess that decision (see Guggenheim Neighbors v. Bd. of Estimate, June 10, 1988, N.Y. Sup. Ct., Index No. 29290/87), see also Jewish Recons. Syn. of No. Shore v. Roslyn Harbor, 38 N.Y.2d 283 (1975)); and

WHEREAS, accordingly, based upon the above, the Board finds that the limitations and inefficiencies of the site, when considered in conjunction with the programmatic needs of NYM, create unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, since NYM is a non-profit institution and the variance is needed to further its non-profit mission, the finding set forth at ZR § 72-21(b) does not have to be made in order to grant the variance requested in this application; and

WHEREAS, the Hospital asserts that the variance, if granted, will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the Hospital asserts that the Center would be in keeping with the institutional uses found in the surrounding neighborhood and would be compatible with the residential uses in the area; and

WHEREAS, the Hospital asserts that as an NYM facility, it would represent an extension of an existing, prominent community facility in the area, and it would be located among a number of schools and religious institutions; and

WHEREAS, the Hospital asserts that the proposed bulk is compatible with the existing character of the neighborhood, because although the proposal requires a FAR waivers within the R6B and R7B portions of the site,

the total floor area is contemplated for the site and would comply if the R6 floor area could be distributed across the site; and

WHEREAS, the applicant notes that the Development Site's immediate context is defined by existing buildings on the NYM campus, including the 12-story Wesley House on the Zoning Lot and the complex of five- to eight-story Pavilions on the block to the south; and

WHEREAS, the Hospital notes that there are also a number of existing large, five- to seven- story buildings on Eighth Avenue and Prospect Park West, to the east of the Development Site; and

WHEREAS, the Hospital notes that the buildings across Fifth Street vary in use and character, from the tall, nearly full-lot coverage John Jay Educational Campus, which comprises a majority of the block to the west, to the four-story rowhouses farther east; and

WHEREAS, the Hospital states that the Center was designed to be sensitive to the varied building forms in the surrounding area, including along Eighth Avenue and Fifth Street, and to incorporate community input regarding the configuration of the building envelope; and

WHEREAS, the Hospital states that the building's volume is concentrated on the western portion of the Development Site, away from neighboring residences on Eighth Avenue and Fifth Street, and near existing Hospital buildings, such as the 12-story Wesley House; and

WHEREAS, further, the Hospital states that the building's western wing is principally located to the west of the rowhouses across Fifth Street and is set back 26 feet above the fourth floor to minimize its presence on the street and the portion of the building that faces the rear yards of the out-parcels on Fifth Street is set back from the property line by 10 feet at the first floor and 30 feet above so as to provide the neighboring properties with additional light and air; and

WHEREAS, in response to the Opposition's assertion that 103 units of affordable housing will be lost due to the demolition of existing building's, the Hospital responded that all of the buildings on the Development Site were acquired by the Hospital approximately 40 to 45 years ago and many of the units have been converted to office space or have remained vacant; and

WHEREAS, the Hospital states that of the remaining 67 dwelling units only 12 are rented to members of the community who are not affiliated with the Hospital; the Hospital states that it has agreed to provide replacement housing for its 12 current tenants; and

WHEREAS, as noted, in response to comments from the Board and the Community Board, the Hospital revised its initial proposal including the reduction of the maximum height of the building in the R6 district by approximately 2 feet, from 152 feet to 150 feet, so as to match the height of the Complying Development; and

WHEREAS, the Hospital also reconfigured the building massing to reduce the height and volume of the building on the eastern end of the block, along Eighth

MINUTES

Avenue and adjacent to the neighboring buildings on Fifth Street, and to provide greater building setbacks in those areas so that more of the building's volume is now concentrated on the middle of the Zoning Lot, near other Hospital buildings and directly adjacent to Wesley House; and

WHEREAS, the Hospital also modified the earlier proposal which reflected an exit from the driveway on Fifth Street, so that the Center's vehicular driveway is directly accessible only from Sixth Street in response to concerns of residents that the Fifth Street exit would result in increased vehicular traffic on that street, adjacent to existing residences and the John Jay Educational Campus; and

WHEREAS, further, a number of the Center's open areas, including rooftops created by the building's setbacks, have been designed as green spaces to provide visual amenities to Hospital visitors and the surrounding neighborhood; and

WHEREAS, finally, consistent with the conditions set forth in the Community Board's recommendation, the number of parking spaces in the proposed Center was reduced from 539 to 350; as noted, this change requires a modification to the drawings approved in connection with the Board's special permit for the existing NYM garage to accommodate the required parking for the Center and is addressed by the separate amendment application for; and

WHEREAS, as to traffic, the Hospital states that the proposal is designed to minimize the effect of the building's operation on surrounding properties and vehicular traffic in the following ways: (1) the vehicular driveway in the building would contain spaces for standing vehicles so as to prevent queuing on Sixth Street; and (2) vehicles that access the driveway from Sixth Street would be able to continue along the driveway's loop and exit on Sixth Street or directly access the below-grade parking garage, which would connect to the existing parking garage on the block; and

WHEREAS, the Hospital states that its design is intended to keep vehicular circulation within the Zoning Lot so as to minimize traffic activity on adjacent streets and it also directs vehicular entries and exits to Sixth Street, adjacent to Hospital buildings and away from neighboring residences; and

WHEREAS, in response to the Opposition's concerns about existing traffic related to the Hospital, the Hospital states that the ambulance and loading facilities are existing conditions that do not have a relationship to the proposed Center, in part because they are located on a separate portion of the campus and in part because the Center will not draw any ambulance trips and will contain its own loading facility; and

WHEREAS, nonetheless, the Hospital states that it is responsive to the traffic concerns and will address them through its Traffic and Parking Management Plan developed with its traffic consultant and the New York City Department of Transportation; and

WHEREAS, the Hospital asserts that the existing operations, which are unrelated to the Center, and will not

be affected by it, should not be a factor in the analysis of the Center's appropriateness; and

WHEREAS, the Hospital states that the consolidation of outpatient facilities and clinical Institutes in the Center, relocated from other parts of the NYM campus, would allow for the inpatient facilities in the Hospital's existing buildings to be upgraded and modernized and not to increase the number of inpatient beds; and

WHEREAS, accordingly, the EAS does not forecast an increase in the travel demand generated by the Hospital's existing facilities; and

WHEREAS, finally, the Center's loading berths would be enclosed and located on an interior portion of the Zoning Lot, ensuring that both truck maneuvering and loading activities occur off street; and

WHEREAS, the Opposition raised concerns about the aesthetic impact of the Center on the surrounding area and specifically raised concerns that the proposal does not fit within the City Planning Commission's (CPC) exception given to the Hospital campus in that much of it remained within the R6 zoning district while other portions of the area were zoned R6B and R7B and are to be respected as such; and

WHEREAS, the Opposition asserts that CPC's decision to allow the Hospital to remain within the R6 zoning district is negated if the proposal extends into the R6B and R7B districts; and

WHEREAS, the Board notes that the floor area is available across the site and only raises objection due to it being shifted from the R6 zoning district and into the R6B and R7B zoning districts; and

WHEREAS, the Board notes that the R6B and R7B portions of the lot are also occupied by the NYM campus and that the Hospital has explained why it is unable to shift more of the bulk in the R6 zoning district portion of the site, but it has revised its plans to include setbacks that are compliant with or nearly compliant with R6B and R7B regulations; and

WHEREAS, the Board finds that the Center's massing and design are sensitive to the surrounding neighborhood character; and

WHEREAS, the Board accepts the Hospital's traffic studies and the logic that the proposed ambulatory care facility will not compound any ambulance traffic concerns as it will not require such vehicles; and

WHEREAS, the Board notes that the Hospital has pledged to work with the community and traffic experts to improve the existing conditions not related to the Center and to ensure those issues are not affected by the Center's activities; and

WHEREAS, the Board notes that the Hospital has made several revisions to the proposal in response to concerns and has agreed to all of the Community Board's noted conditions; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or

MINUTES

development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Hospital states that the hardship was not self-created and that no development that would meet the programmatic needs of NYM could occur on the existing site; and

WHEREAS, accordingly, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, as described, the Hospital reduced the degree of certain areas of non-compliance in the R6B and R7B zoning districts and represents that the requested waivers are the minimum relief necessary to accommodate the projected programmatic needs; and

WHEREAS, however, the Opposition asserts that it is possible to satisfy NYM's programmatic need in a building which requires fewer zoning waivers and that the Hospital did not pursue lesser variance alternatives in good faith; and

WHEREAS, as noted, the Hospital made certain revisions which reduced the degree of waiver it sought including: (1) increasing the setback from Fifth Street at the sixth floor in the R7B zoning district by 21 feet so as to achieve full compliance with applicable height and setback regulations in the R7B zoning district; (2) increasing the setback from Fifth Street at the fourth floor in the R6B zoning district by 15 feet to total a depth of 20 feet from the property line; and (3) increasing the setback from Fifth Street at the fifth through seventh floors in the R6B zoning district by ten feet for a total depth of 41 feet from the property line; and

WHEREAS, the Board has reviewed the applicant's programmatic needs and assertions as to the insufficiency of a complying scenario and has determined that the requested relief is the minimum necessary to allow NYM to fulfill its programmatic needs; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, the Board conducted an environmental review of the proposed action and documented relevant information about the project in the Final Environmental Assessment Statement ("EAS") CEQR No. 14BSA057K, dated April 21, 2014; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Type I Negative declaration, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and the Board of Standards and Appeals makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit within R6, R6B, and R7B zoning districts, the construction of a new ambulatory care facility on the campus of New York Methodist Hospital that does not comply with zoning regulations for floor area, lot coverage, rear setback, rear yard, and rear yard equivalent, and signage, contrary to ZR §§ 22-321, 24-11, 24-17, 24-33, 24-36, 24-382, 24-522, 24-552, and 77-02, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received June 13, 2014" – twenty-eight (28) sheets; and *on further condition*:

THAT the bulk parameters of the proposed Center building will be in accordance with the approved plans and be limited to 298,350 sq. ft. of floor area for the Center (459,884 sq. ft. of floor area (3.81 FAR) across the site); a maximum wall height of 73 feet (in the R6B zoning district) and 60 feet (in the R7B zoning district); total height of 150 feet (in the R6 zoning district), 141 feet (in the R6B zoning district) and 75 feet (in the R7B zoning district); 350 new parking spaces (and 60 spaces within the existing parking garage's 480 parking spaces), and signage, setbacks and lot coverage as reflected on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the use of the Eighth Avenue and Sixth Street entrance be limited to employees, emergency egress, and Urgent Care facility use during late afternoon and evening hours;

THAT the Hospital will monitor traffic as described and implement a Traffic and Parking Management Plan;

THAT substantial construction shall be completed pursuant to ZR § 72-23;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 17, 2014.

CEQR #14-BSA-088Q

APPLICANT – Rothkrug Rothkrug & Spector, LLP, for 5225, LLC, owner.

SUBJECT – Application December 23, 2013 – Special Permit (§73-44) to reduce the required number of accessory parking space from 192 to 138 spaces for an office building (UG 6). M1-1 (CP) zoning district.

PREMISES AFFECTED – 16-16 Whitestone Expressway, West Side of Whitestone Expressway (service road), 920.47 ft. north of 20th Avenue. Block 4148, Lot 50, 65. Borough of Queens.

COMMUNITY BOARD #7Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated November 21, 2013, acting on DOB Application No. 420628057, reads:

Proposed reduction in required parking is contrary to ZR Section 44-21 and requires a special permit; and

WHEREAS, this is an application under ZR §§ 73-44 and 73-03, to permit, on a site located within an M1-1 zoning district, within the Special College Point District, a reduction in the required number of accessory parking spaces in connection with the enlargement of an existing office building (Use Group 6) from 192 spaces to 137 spaces, contrary to ZR § 44-21; and

WHEREAS, a public hearing was held on this application on May 20, 2014 after due notice by publication in The City Record, and then to decision on June 17, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner; and

WHEREAS, Community Board 7, Queens, recommends approval of this application, on condition that: (1) signage will be provided near each parking entrance indicating specific tenant and visitor use; (2) that the signage will be sufficient in size and placement to help cars enter the appropriate areas without confusion; and (3) that the unattended entrance to the facility will be recessed from the property line, in order to provide onsite space for queuing vehicles; and

WHEREAS, the subject site is located on the west side of the Whitestone Expressway between 14th Avenue and 20th Avenue, within an M1-1 zoning district, within the Special College Point District; and

WHEREAS, the site has approximately 300 feet of frontage along the Whitestone Expressway and 57,949 sq. ft. of lot area; and

WHEREAS, the site is occupied by a four-story office building (Use Group 6) with 28,009 sq. ft. (0.53 FAR) and 99 accessory parking spaces; and

WHEREAS, pursuant to ZR § 32-15, the subject Use Group 6 office is in parking requirement category B1, which requires that one accessory parking space be provided for every 300 sq. ft. of floor area; thus, the existing Use Group 6 office floor area at the site generates 99 required accessory parking spaces; and

WHEREAS, the applicant now proposes to enlarge the building, which will result in an increase in floor area from 28,009 sq. ft. (0.53 FAR) to 57,581 sq. ft. (1.0 FAR) and an increase in the number of required accessory parking spaces from 99 parking spaces to 192 parking spaces; and

WHEREAS, pursuant to ZR § 73-44, the Board may, in the subject M1-1 zoning district, grant a special permit that would allow a reduction in the number of accessory off-street parking spaces required under the applicable Zoning Resolution provision, for Use Group 6 office use in the parking category B1; in the subject zoning district, the Board may reduce the required parking from one space per 300 sq. ft. of floor area to one space per 600 sq. ft. of floor area; and

WHEREAS, pursuant to ZR § 44-21 the total number of parking spaces that will be required in connection with the proposal is 192 spaces; thus, if the special permit is granted, only 96 parking spaces will be required; nevertheless, the applicant proposes 138 parking spaces; and

WHEREAS, pursuant to ZR § 73-44, the Board must determine that the Use Group 6 use in the B1 parking category is contemplated in good faith; and

WHEREAS, as a demonstration of such good faith, the applicant represents that the majority of the building will be occupied as offices for its owner – Local 30 Operating Engineers Union; and

WHEREAS, the Board finds that the applicant has submitted sufficient evidence of good faith in maintaining the noted uses at the site; and

WHEREAS, in addition, the special permit under ZR § 73-44 requires and the applicant represents that any certificate of occupancy for the building will state that no subsequent certificate of occupancy may be issued if the use is changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-street radius; and

WHEREAS, at hearing, the Board (1) observed that the nearest subway line was too far from the site to be reasonably included as a means of accessing the site despite statements to the contrary in the parking study, and (2) in response to the community board’s comments, requested clarification regarding the directional signage within the parking facility; and

WHEREAS, in response, the applicant explained that the analysis assumed that subway users would utilize the local bus service in conjunction with the No. 7 train in order reach the site; the applicant also submitted a statement

MINUTES

describing the proposed directional signage; and

WHEREAS, based upon the above, the Board agrees that the accessory parking space needs of the site can be accommodated even with the parking reduction; and

WHEREAS, accordingly, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-44 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 14-BSA-088Q, dated December 23, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-44 and 73-03 to permit, on a site located within an M1-1 zoning district, within the Special College Point District, a reduction in the required number of accessory parking spaces in connection with the enlargement of an existing office building (Use Group 6) from 192 spaces to 137 spaces, contrary to ZR § 44-21; on condition that all work shall substantially conform to drawings as they apply to the objections above noted filed with this application marked "Received December 23, 2013"-(6) sheets, and on further condition:

THAT there will be no change in the use of the site without prior review and approval by the Board;

THAT no certificate of occupancy may be issued if the use is changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within

the permitted off-street radius;

THAT signage will be provided near each parking entrance indicating specific tenant and visitor use;

THAT the signage will be sufficient in size and placement to help cars enter the appropriate areas without confusion;

THAT the unattended entrance to the facility will be recessed from the property line, in order to provide onsite space for queuing vehicles;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 17, 2014.

APPEALS CALENDAR

33-14-A

APPLICANT – Rothkrug Rothkrug & Spector LLP, for Quentin Road Development LLC, owner.

SUBJECT – Application February 13, 2014 – Appeal challenging the Department of Building's determination regarded permitted community facility FAR, per §113-11 (Special Bulk Regulations for Community Facilities) C4-2 zoning district, C8-2 (OP). C4-2 (OP) zoning district.

PREMISES AFFECTED – 902 Quentin Road, Southeast corner of intersection of Quentin Road and East 9th Street. Block 6666, Lot 1, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Appeal Denied.

THE VOTE TO GRANT –

Affirmative:0
Negative: Chair Srinivasan, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4
Absent: Vice Chair Collins.....1

THE RESOLUTION –

WHEREAS, the subject appeal comes before the Board in response to a Final Determination, dated January 14, 2014, by the Department of Buildings (“DOB”) (the “Final Determination”), with respect to DOB Application No. 302205940; and

WHEREAS, the Final Determination states, in pertinent part:

Demonstrate compliance with ZR 113-00 for the Special Ocean Parkway District, including but not limited to “. . . portions of the building containing community facility uses shall be subject to the applicable underlying district bulk regulations of Article II, Chapter 3 (Bulk Regulations for Residential Buildings is Residence District)”; and

WHEREAS, a public hearing was held on this appeal on April 8, 2014, after due notice by publication in *The City Record*, with a continued hearing on May 20, 2014, and then to decision on June 24, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the appeal is filed on behalf of the property owner who contends that DOB’s denial was erroneous (the “Appellant”); and

WHEREAS, DOB and the Appellant have been represented by counsel throughout this appeal; and

WHEREAS, the subject site is located at the southeast corner of the intersection of Quentin Road and East Ninth Street, partially within a C8-2 zoning district and partially within a C4-2 zoning district, within the Special Ocean Parkway District; and

WHEREAS, the site, which comprises Tax Lots 1 and 5, has approximately 131 feet of frontage along Quentin Road, 111 feet of frontage along East Ninth Street, and 13,836 sq. ft.

MINUTES

of lot area; and

WHEREAS, the Appellant states that 12,956 sq. ft. of lot area is within the C8-2 portion of the site and 880 sq. ft. of lot area (the southernmost 11'-0" by 80'-0" rectangle) is within the C4-2 portion of the site; and

WHEREAS, the site is occupied by an eight-story mixed community facility (Use Group 4) and commercial building (Use Group 6) with approximately 60,959 sq. ft. of floor area (4.4 FAR) (approximately 45,737 sq. ft. of community facility floor area (3.3 FAR) and approximately 15,222 sq. ft. of commercial floor area (1.1 FAR)) and 98 accessory parking spaces; and

PROCEDURAL HISTORY

WHEREAS, the Appellant states that on or about November 16, 2006, DOB issued an approval to construct the building under New Building Application No. 302205940 (the "Application"); the applicant states that it obtained permits to construct the building on or about August 18, 2009, and that DOB issued the first of several temporary certificates of occupancy for the building on or about November 28, 2012; and

WHEREAS, the Appellant states that during the course of construction, DOB audited the Application and determined that the proposed community facility floor area was in excess of that permitted under the Special Ocean Parkway District regulations; and

WHEREAS, specifically, the Appellant states that by determination dated October 26, 2012, DOB found that, per ZR § 113-11, the maximum permitted community facility floor area for the C4-2 portion of the site was approximately 686 sq. ft. (0.78 FAR) rather than 4,224 sq. ft. (4.8 FAR), because the C4-2 portion of the site (the 11'-0" by 80'-0" rectangle described above) was limited to the maximum permitted FAR of Article II, Chapter 3 (0.78 FAR) rather than the maximum permitted community facility FAR for a C4-2 zoning district outside the Special Ocean Parkway District (4.8 FAR); and

WHEREAS, subsequently, the Appellant obtained the Final Determination on January 14, 2014 and timely filed this appeal; and

WHEREAS, accordingly, the question on appeal is limited to the determination of the maximum permitted community facility FAR in a C4-2 zoning district within the Special Ocean Parkway District; and

WHEREAS, the Appellant asserts that it is 4.8 FAR; DOB asserts that it is 0.78 FAR; both parties claim support for their position in the text of ZR § 113-11 and its legislative history, as well as the structure of the Zoning Resolution overall; and

WHEREAS, by letter dated June 6, 2014, the Department of City Planning ("DCP") states that it supports DOB's position with respect to ZR § 113-11; and

PROVISIONS OF THE ZONING RESOLUTION

WHEREAS, the primary Zoning Resolution provisions the Appellant and DOB cite are as follows, in pertinent part:

ZR § 23-142
In R6, R7, R8 or R9 Districts

R6 R7 R8 R9

In the districts indicated, the minimum required #open space ratio# and the maximum #floor area ratio# for any #zoning lot# shall be as set forth in the following table for #zoning lots# with the #height factor# indicated in the table.

Commission, pursuant to Section 113-41 (Certification for Community Facility Uses on Certain Corner Lots); and

DISCUSSION

A. THE APPELLANT'S POSITION

WHEREAS, the Appellant asserts that the Final Determination is: (1) contrary to the clear, unambiguous language of ZR § 113-11; and (2) inconsistent with the intent of the Special Ocean Parkway District; and

WHEREAS, the Appellant states that the Final Determination is contrary to the clear, unambiguous language of ZR § 113-11; and

WHEREAS, the Appellant observes that where ZR § 113-11 employs the term “underlying” ([a]ll community facility buildings, and portions of buildings containing community facility uses, shall be subject to the applicable underlying district bulk regulations of Article II, Chapter 3 . . .”) it does so in direct reference to Article II, Chapter 3; therefore, the Appellant asserts that to the extent that Article II, Chapter 3 supplies an “underlying” regulation, such regulation is applicable; and

WHEREAS, however, the Appellant states that there are no “underlying” district bulk regulations in Article II, Chapter 3 for a C4-2 district and that there are only “underlying” district bulk regulations in Article II, Chapter 3 in residence districts and commercial districts mapped within residential district (C1 and C2 districts); and

WHEREAS, the Appellant also states that ZR § 113-11 uses the term “applicable” as a modifier of “underlying,” where use of the term “underlying” would have been sufficient to direct a reader of the section to Article II, Chapter 3; instead, by also using “applicable” the drafters signaled a clear intent to exclude from the Article II, Chapter 3 bulk regulations buildings or portions thereof within districts where there was no *applicable* underlying regulation, which the Appellant states is the case here; and

WHEREAS, thus, the Appellant states that because ZR § 113-11 clearly and unambiguously requires compliance with bulk regulations applicable for a community facility building under Article II, Chapter 3, and there are no such regulations in a C4-2 zoning district, the bulk regulations generally applicable to a community facility in a C4-2 zoning district govern (ZR § 33-123) and provide for a maximum community facility FAR of 4.8 FAR within the C4-2 portion of the site; and

WHEREAS, the Appellant also notes that DOB applied the same principle—that ZR § 33-123 controls where Article II, Chapter 3 has no applicable provision—to determine that the maximum permitted community facility FAR in the C8-2 portion of the site is 4.8 FAR; and

WHEREAS, the Appellant disagrees that the applicable underlying district bulk regulations for a C4-2 district are determined by reference to ZR § 34-112; and

WHEREAS, the Appellant states that nothing in the text of ZR § 113-11 supports reference to ZR § 34-112 and that DOB arbitrarily incorporated that section’s provisions despite ZR § 113-11’s clear reference to Article II, Chapter 3; and

WHEREAS, further, the Appellant asserts that ZR § 34-112 concerns residential district equivalents to commercial districts rather than “underlying” districts, which is a term that refers to an area where a commercial district is mapped within a residence district; and

WHEREAS, the Appellant also notes that the 2011 Key Terms Amendment to the Zoning Resolution which was intended to clarify ambiguous provisions and bring the text into alignment with long-standing DOB practices and interpretations, altered ZR § 113-11 in many respects but did not alter it to include reference to ZR §34-112; as such, the Appellant asserts that DOB erroneously incorporates ZR § 34-112 in determining the requirements of ZR § 113-11; and

WHEREAS, the Appellant contends that the Final Determination is contrary to the intent of the Special Ocean Parkway District; and

WHEREAS, the Appellant states that, according to the 1976 City Planning Commission Report (the “1976 CPC Report”) regarding the creation of the Special Ocean Parkway District, the special district was created in response to community concerns over the growing number and size of community facility buildings and their impacts on residential district, primarily in terms of neighborhood character and appearance, light, air, and privacy; and

WHEREAS, the Appellant states that the 1976 CPC Report included no reference to impacts on purely commercial districts i.e., commercial district not mapped within residence districts, such as C4-2 or C8-2 districts; as such, the Appellant asserts that DOB’s interpretation of ZR § 113-11 does nothing to further the intent of the Special Ocean Parkway District; and

WHEREAS, the Appellant also notes that this particular site and block have, according to historic records, a strong history of commercial use and thus no residential character to be preserved by the Special Ocean Parkway District; and

WHEREAS, the Appellant contends that the CPC’s clear intent to limit community facility FAR in residence districts—and lack of intent to limit community facility FAR in purely commercial districts—is evidenced by ZR § 113-11(d), which allows higher community facility FARs by CPC certification on corner lots within certain R6 or R7 districts pursuant to ZR § 113-41; and

WHEREAS, the Appellant states that the certification is consistent with the intent of the Special Ocean Parkway District to slow the proliferation of oversized community facilities in areas developed with low-rise residential buildings but to allow larger community facility in denser residence districts on corner lot, where larger buildings are more appropriate; and

WHEREAS, the Appellant also asserts that there is no plausible land use rationale for allowing, albeit by certification, larger community facility buildings in an R6 zoning district (where only residences and community facilities are permitted) than in a C4-2 zoning district (where residences, community facilities, and commercial buildings are permitted), particularly where the CPC noted that the concern was the impact of large community facilities on

MINUTES

residences (rather than on commercial uses or mixed-use portions of the neighborhood); and

WHEREAS, further, the Appellant states that, paradoxically, the site is in a worse position to construct a community facility because it is in C4-2 district (where ZR § 23-00 limits the maximum FAR to 0.78, which is the maximum permitted FAR for a residence in an R6-equivalent district) than it would be if it were *actually* in an R6 district, where ZR §§ 113-41 and 24-00 would permit a maximum FAR of 4.8; thus, applying the text as DOB interprets actually yields the larger community facility building in the residence district – which, the Appellant asserts, is entirely contrary to the intent of the Special Ocean Parkway District regulations; and

WHEREAS, likewise, the Appellant states that if the intent of the special district had been to limit the size of community facility buildings in commercial districts and residence districts alike, CPC's omission of C8-2 districts was both arbitrary and ineffectual, since a significantly greater portion of the Special Ocean Parkway District is zoned C8-2 (where, per DOB, the maximum community facility FAR is 4.8) than is zoned C4-2 (where, per DOB, the maximum community facility FAR is 0.78); and

WHEREAS, the Appellant also notes that general land use and zoning principles dictate that community facilities are favored uses, which should be encouraged; as such, the Appellant states that community facility FARs are almost always equal to or higher (and almost never lower) than the maximum FARs for residences and commercial uses; and

WHEREAS, accordingly, the Appellant requests that the Board grant the appeal, reverse the Final Determination, and declare that the maximum FAR for a community facility building in C4-2 district within the Special Ocean Parkway District is 4.8 FAR; and

B. DOB'S POSITION

WHEREAS, DOB contends that that the Final Determination was properly issued because it is consistent with: (1) plain text of ZR § 113-11; (2) the Zoning Resolution rules of interpretation; and (3) the intent of the Special Ocean Parkway District; and

WHEREAS, DOB states that the plain text of ZR § 113-11 supports its determination that the maximum permitted community facility FAR for the C4-2 portion of the site is 0.78 FAR; and

WHEREAS, DOB contends that ZR § 113-11 imposes the district bulk regulations of Article II, Chapter 3 on portions of the building that contain community facility uses; and

WHEREAS, DOB states that since the building is located in a commercial district, the residence district designation assigned to the commercial district—the residential district equivalent—must be used to determine the applicable residence district bulk regulations, per ZR § 34-112; thus, pursuant to ZR § 34-112, the R6 bulk regulations apply in a C4-2 district, and the maximum residential FAR in an R6 zoning district is 0.78 FAR, per ZR § 23-142; and

WHEREAS, DOB states that ZR § 113-11's use of the

phrase “applicable underlying” ([a]ll community facility buildings, and portions of buildings containing community facility uses, shall be subject to the applicable underlying district bulk regulations of Article II, Chapter 3 . . .”) signals an intent for the provision to apply wherever there is an applicable bulk regulation in Article II, Chapter 3; and

WHEREAS, DOB states that, according to the clear and unambiguous text of ZR § 34-112, R6 district bulk regulations are applicable in a C4-2 district; as such, contrary to the Appellant's assertion, there is an “applicable” residence district bulk regulation to be incorporated by ZR § 113-11 in the C4-2 district; and

WHEREAS, DOB disagrees with the Appellant that ZR § 113-11 imposes Article II, Chapter 3 bulk regulations only on buildings if they are in an “underlying” residential district (or in a commercial overlay, in which a residential district is considered the underlying district) and asserts that this interpretation is contrary to the Zoning Resolution's rules of interpretation; and

WHEREAS, DOB states that, according to the ZR § 12-02 rules for interpretation of district designations,

[w]hen no district designations are listed for a specific section, the provisions of such section shall be construed to apply to all districts under consideration in the article in which the section appears, or, if specified, only to those districts referred to directly within the section itself; and

WHEREAS, DOB notes that both C4-2 and C8-2 districts remain mapped within the Special Ocean Parkway District and thus concludes that such districts were “under consideration” as that phrase is used in ZR § 12-02; and

WHEREAS, accordingly, DOB asserts that if the drafters of the Special Ocean Parkway District regulations had intended to exclude purely commercial districts from the modification set forth in ZR § 113-11, the text would have included only residence districts within a ruled bar below the number and title of the section; and

WHEREAS, DOB observes that ZR § 113-11 contains no such district designations and, therefore, is not limited solely to residence districts but is applicable anywhere the bulk regulations of Article II, Chapter 3 are applicable, including within a C4-2 district; and

WHEREAS, DOB contrasts the applicability of the R6 bulk regulations in a C4-2 district with the absence of bulk regulations for a residence in a C8-2 district; residences are not permitted as-of-right in a C8-2 district, so ZR § 34-112 need not supply a residence district equivalent; thus, ZR § 113-11 does not modify the bulk regulations for community facilities in a C8-2 district and the general provision applicable in the C8-2 district (ZR § 33-123) governs; and

WHEREAS, DOB also notes that ZR § 113-11 includes four exceptions to the applicability of the bulk regulations of Article II, Chapter 3—the R2X district, contextual R6 and R7 districts, the Subdistrict and non-contextual R6 and R7 districts—but does not include an exception for purely commercial districts; based on this omission, DOB concludes that Article II, Chapter 3 bulk regulations apply to residence

MINUTES

district and their commercial district equivalents; and

WHEREAS, DOB states that the concept of applying residential district regulations in commercial districts appears throughout the Zoning Resolution, but the text does not refer to ZR § 34-112 in every instance; and

WHEREAS, DOB notes that throughout the Zoning Resolution, reference is made to ZR § 34-11 where the bulk regulations of particular residential district equivalents are relevant: ZR §§ 13-242, 28-01, and 36-532 govern particular residential equivalents and identify ZR § 34-112; and

WHEREAS, in contrast, DOB states that where the provisions of Article II, Chapter 3 apply generally, the Zoning Resolution makes inconsistent reference to ZR § 34-112; for example, ZR § 34-221 imposes the bulk regulations of Article II, Chapter 3 on the C1 through C6 districts without reference to ZR § 34-112's listing of residential equivalents of those commercial districts, yet ZR §§ 33-123 and 34-24 apply Article II Chapter 3 broadly to commercial districts and expressly refer to ZR §§ 34-112 and 34-11, respectively; and

WHEREAS, accordingly, DOB concludes that although the Zoning Resolution makes occasional reference to ZR § 34-11 when residential district regulations apply in commercial districts for the sake of clarity, no difference in meaning can be attributed to the provisions that omit such reference; and

WHEREAS, further, DOB contends that it is understood that where special district regulations mandate use of residential district bulk regulations in special districts that include commercial districts, as ZR § 113-11 does, a reference to ZR § 34-112 is not needed because residential equivalents must be employed in order to comply with the mandate; and

WHEREAS, DOB states that for example, in the Special Bay Ridge District, ZR § 114-11 provides that for a building with community facility and residential uses, the bulk regulations of Article II, Chapter 3 apply to all portions of the building except that where certain conditions are met, the bulk regulations of Article II, Chapter 4 may be used for the community facility portion of the building; since a C4-2A district is mapped within the Special Bay Ridge District, by necessity ZR § 34-112 must be used to identify the appropriate residential district equivalent that controls bulk within that underlying commercial district; and

WHEREAS, as to the Appellant's assertion that ZR § 113-11 should have been amended by the 2011 Key Terms Amendment to include ZR § 34-112, if reference to the latter was required, DOB disagrees and notes that while the text of ZR § 113-11 was modified by the Key Terms Amendment, the substantive changes to ZR § 113-11 occurred in 1993 and 1996; further, DOB asserts that using ZR § 34-112 to identify the applicable Article II Chapter 3 regulation in commercial districts with a residential district equivalent does not conflict with the ZR § 113-11 exceptions in either their pre- or post-Key Terms Amendment form; and

WHEREAS, DOB contends that its interpretation of ZR § 113-11 is consistent with the intent of the Special Ocean Parkway District; and

WHEREAS, DOB states that, according to the 1976 CPC Report, the stated goal of the Special Ocean Parkway

District is to prevent the greater bulk allowed for community facilities from having an adverse effect on light and air, privacy and livability for adjacent *residences*; and

WHEREAS, DOB asserts that to allow the full community facility FAR in the C4-2 would not be consistent with the special district's goal of keeping schools and houses of worship in scale with adjacent housing development; and

WHEREAS, DOB notes that ZR § 113-11 does not operate to reduce community facility bulk in the C8-2 districts because residences are not allowed in such districts; therefore, there is no need to reduce the bulk of community facilities in the C8-2 where there are no residences requiring protection; and

WHEREAS, DOB also disagrees with the Appellant that it is irrational to interpret ZR § 113-11 to impose R6 bulk regulations on community facilities in a C4-2 district because ZR § 113-11(d) authorizes a CPC certification to permit an increase in FAR on certain sites within R6 and R7 districts but not in the C4-2 district even though R6 is the C4-2 residential equivalent; and

WHEREAS, rather, DOB states that the scheme alleviates the imbalance between large community facilities and other as-of-right uses in the Special Ocean Parkway District; and

WHEREAS, as noted above, DOB states that the Special Ocean Parkway District was expressly enacted to ease impacts associated with the uncontrolled increase of larger community facility buildings on the residential character and appearance of the community; however, nothing in the 1976 CPC Report suggested that commercial development in the few commercial districts of the special district was undesirable; and

WHEREAS, accordingly, DOB contends that ZR § 113-41 allows certifications only for community facilities on a corner lot and fronting on a wide street in R6 and R7 districts, and not their commercial equivalents, so as to avoid any adverse impact on commercial uses that may result from allowing new community facilities with the greater Article II, Chapter 4 bulk in those commercial districts; and

WHEREAS, finally, DOB disagrees with the Appellant's claims that the because the subject block was already developed with large commercial uses by the time the Special Ocean Parkway District was created, the regulations could not possibly function to preserve a residential neighborhood character at the site; DOB also notes that, in enforcing the Zoning Resolution, it is without authority to take into consideration a claim that the purpose of a Zoning Resolution provision is not accomplished within a particular area or that such provision has unintended consequences; and

WHEREAS, accordingly, DOB requests that the Board deny the appeal and affirm the Final Determination; and

C. DCP'S POSITION

WHEREAS, as noted above, by letter dated June 6, 2014, the DCP states that it supports DOB's position; and

WHEREAS, in pertinent part, DCP's letter provides that [t]he legislative history surrounding the adoption of the text that created the Special Ocean Parkway

MINUTES

District reveals that Commission was concerned that the proliferation of community facility buildings throughout the special district, and their size, was having an overwhelming effect on the low scale residential development that generally characterized the area

The Commission's concerns regarding out-of-scale community facility buildings overwhelming the residential character of the communities surrounding Ocean Parkway is clearly reflected throughout the CPC's reports of approval to adopt the text amendments that established, and thereafter amended, the special district regulations.

* * *

DOB's determination, that, pursuant to Section 113-11 of the Zoning Resolution, the portion of a community facility building located in a C4-2 district within the Special Ocean Parkway District at [902 Quentin Road, Brooklyn] is subject to the applicable underlying district bulk regulations of Article II, Chapter 3, is consistent with the Commission's land use planning concerns surrounding the adoption of the Special Ocean Parkway District text. DOB's determination is also consistent with the plain language of Section 113-11, which clearly sets forth that all community facility buildings shall be subject to the applicable underlying district bulk regulations of Article II, Chapter 3.

In a C4-2 district, the underlying bulk regulations of Article II, Chapter 3 are made applicable to residential use within such district, pursuant to Section 34-10 (Applicability of Residence District Bulk Regulations). Accordingly, as directed by Section 113-11, notwithstanding and in lieu of the underlying bulk regulations of Article II, Chapter 4 or Article III, Chapter 3, that may be otherwise generally applicable to community facilities, all community facility building are subject to the bulk regulations of Article II, Chapter 3. (emphasis added); and

CONCLUSION

WHEREAS, the Board finds that DOB's interpretation is consistent with text of ZR § 113-11, the Zoning Resolution rules of interpretation, and the intent of the Special Ocean Parkway District; as such, the Final Determination is affirmed and the appeal is denied; and

WHEREAS, the Board agrees with DOB that the text supports its determination that pursuant to the requirements of ZR § 113-11, the maximum permitted community facility FAR for the C4-2 portion of the site is governed by Article II, Chapter 3; and

WHEREAS, the Board finds that where ZR § 113-11 provides that "[a]ll community facility buildings, and portions of buildings containing community facility uses, shall be subject to the applicable underlying district bulk regulations of Article II, Chapter 3," the plain meaning of the text is that to

the extent that Article II, Chapter 3 provide bulk regulations that are *applicable*, such regulations govern; and

WHEREAS, the Board agrees with DOB that it is appropriate to look to ZR § 34-112 to determine how to apply Article II, Chapter 3 within a C4-2 district, because ZR § 34-112 establishes the corresponding residence district regulations for a C4-2 district; and

WHEREAS, the Board finds that because residences are permitted in a C4-2 district, there are *applicable* bulk regulations in Article II, Chapter 3, which, pursuant to ZR § 113-11, limit the maximum community facility FAR to the maximum permitted in the C4-2 equivalent district (R6); and

WHEREAS, the Board rejects the Appellant's contention that ZR § 113-11 imposes Article II, Chapter 3 bulk regulations only on buildings if they are in an "underlying" residential district (or in a commercial overlay, in which a residential district is considered the underlying district) and agrees with DOB that such an interpretation is contrary to the Zoning Resolution's rules of interpretation; and

WHEREAS, further, the Board finds that, in accordance with the ZR § 12-02 rules of interpretation, the Special Ocean Parkway District regulations govern throughout the special district, including in C4-2 and C8-2 districts; as such, the community facility FAR modification set forth in ZR § 113-11 applies not only in residence districts but also in C4-2 and C8-2 districts; and

WHEREAS, the Board notes the distinction between ZR § 113-11 *applying* in these purely commercial district and *resulting in a modification*—a change in what the Zoning Resolution allows one to construct; ZR § 113-11 applies in a C8-2 district, but does not result in a modification of the community facility bulk regulations because residences are not permitted as-of-right in a C8-2 district; thus, there is no C8-2 residence district equivalent, there are no residential bulk regulations for ZR § 113-11 to incorporate, and, the general provision applicable to community facilities in the C8-2 district (ZR § 33-123) applies; and

WHEREAS, the Board also notes that ZR § 113-11 includes four exceptions to the applicability of the bulk regulations of Article II, Chapter 3—the R2X district, contextual R6 and R7 districts, the Subdistrict and non-contextual R6 and R7 districts—but does not include an exception for purely commercial districts; thus, the Board agrees with DOB that Article II, Chapter 3 bulk regulations apply to residence district and their commercial district equivalents; and

WHEREAS, the Board disagrees with the Appellant that ZR § 34-112 must be specifically incorporated into ZR § 113-11 in order for it to be considered; and

WHEREAS, the Board finds that because the Zoning Resolution makes inconsistent reference to ZR § 34-11 when residential district regulations apply in commercial districts, the absence of any reference to that provision in ZR § 113-11 was not meaningful; and

WHEREAS, rather, the Board finds that where special district regulations (including ZR § 113-11) mandate use of residential district bulk regulations in special districts that

MINUTES

include commercial districts, an explicit reference to ZR § 34-112 is not needed because residential equivalents must be employed in order to comply with that mandate; and

WHEREAS, likewise, the Board disagrees with the Appellant's assertion that ZR § 113-11 should have been amended by the 2011 Key Terms Amendment or by the 1993 or 1996 amendments to the special district provisions to include ZR § 34-112, if reference to the latter was required; and

WHEREAS, the Board finds that, for the reasons detailed above, clarification on the applicability of ZR § 34-112 *vis à vis* ZR § 113-11 was and is unnecessary; thus, there was no reason to amend ZR § 113-11 to include ZR § 34-112; further, as noted above, DCP submitted a letter supporting DOB's interpretation of ZR § 113-11; in the letter, DCP states unequivocally that

DOB's determination is also consistent with the plain language of Section 113-11, which clearly sets forth that all community facility buildings shall be subject to the applicable underlying district bulk regulations of Article II, Chapter 3; and

WHEREAS, the Board also notes that the 1993 amendment, which clarified the applicability of the CPC certification in certain residence districts, did not alter the portion of the text that created the general requirement to apply Article II, Chapter 3 – that text was preserved in its 1976 version; as to the Key Terms Amendment, the Board finds that it did nothing to alter the substantive requirements of ZR § 113-11; and

WHEREAS, the Board also finds that DOB's interpretation of ZR § 113-11 furthers the intent of the Special Ocean Parkway District; and

WHEREAS, the Board has reviewed the 1976 CPC Report, and agrees with DOB that the Special Ocean Parkway District was created in response to community concerns regarding large community facilities and their potential adverse effects on residences; in pertinent part, the 1976 CPC Report states that

[t]he Special Ocean Parkway District seeks to alleviate the problems associated with the uncontrolled increase of the larger community facility building to preserve the residential character and appearance of the community.

To achieve these goals the Special Ocean Parkway District regulations provide that: all new community facility developments or enlargements will be limited to the residential bulk regulations of the underlying districts; and

WHEREAS, the Board also notes that DCP confirmed this as the purpose of the Special Ocean Parkway District in its June 6, 2014 letter; and

WHEREAS, the Board finds that ZR § 113-11 rationally accomplishes this goal by limiting the size of community facilities in districts where residences are permitted as-of-right, namely, all residence districts and C4-2 districts, while preserving the ability to develop large community facilities in a C8-2 district, where residences are not permitted as-of-right;

and

WHEREAS, as to the Appellant's assertion that it is irrational to interpret ZR § 113-11 to impose R6 bulk regulations on community facilities in a C4-2 district since ZR § 113-11(d) authorizes a CPC certification to permit an increase in FAR on certain sites within R6 and R7 districts (but not in the C4-2 district even though R6 is the C4-2 residential equivalent), the Board disagrees; while the certification has the potential to allow a greater community facility FAR in an R6 district than in a C4-2 district, the possibility of such an outcome does not change the plain meaning of the portion of ZR § 113-11 that makes Article II, Chapter 3 applicable in the C4-2 district; and

WHEREAS, the Board also finds that DOB properly disregarded the Appellant's assertions regarding the actual lack of residential development on the subject block as reason for interpreting ZR § 113-11 differently; as DOB notes, it is limited by the Charter to interpreting the text of the Zoning Resolution; therefore, whether a provision of the Zoning Resolution is ineffectual as to its objectives or, on occasion, has unintended consequences are not bases for DOB to adopt an interpretation that would be contrary to the text of such provision; similarly, the extent to which a block's zoning designation is inconsistent with its history and built character is primarily a concern for the City Planning Commission, as is whether a provision of the text sometimes produces anomalous results; and

WHEREAS, likewise, the Board observes that in reviewing a provision of the Zoning Resolution, the Board is limited to reviewing the text in light of the language it employs and its legislative history; while the Board can consider the effects of the provision—both intended and unintended—the Board cannot disregard the plain language of the text unless applying the plain language produces an absurd result; and

WHEREAS, here, the Board finds that there is nothing absurd about the result of DOB's interpretation of ZR § 113-11; it is consistent with the text and the rules of interpretation for the Zoning Resolution, and it furthers the purpose of the special district (limiting the size of community facilities in districts where residences are permitted); further, it is supported by DCP, which drafted the provision; and

Therefore it is Resolved, that the subject appeal, seeking a reversal of the Final Determination, dated January 14, 2014, is hereby *denied*.

Adopted by the Board of Standards and Appeals, June 24, 2014.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated March 29, 2013, acting on Department of Buildings Application No. 320724490, reads in pertinent part:

Proposed use is not permitted in an M1-1 zoning district as per ZR 42-00; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site within an M1-1 zoning district, the construction of a four-story multiple dwelling with seven units (Use Group 2), contrary to ZR § 42-00; and

WHEREAS, a public hearing was held on this application on December 17, 2013, after due notice by publication in the *City Record*, with continued hearings on February 4, 2014, April 8, 2014 and May 20, 2014, and then to decision on June 24, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Brooklyn, recommends disapproval of this application; and

WHEREAS, the subject site is located on the north side of Grattan Street, between Porter Avenue and Knickerbocker Avenue, within an M1-1 zoning district; and

WHEREAS, the site has approximately 25 feet of frontage along Grattan Avenue, a depth of 100 feet, and approximately 2,500 sq. ft. of lot area; and

WHEREAS, the site is occupied by a two-story temporary frame structure, which appears to have been used for storage but is currently vacant; and

WHEREAS, historic records, including the 1921 Belcher Hyde atlas, reflect that a three-story residential building constructed in the early 1900s occupied the site until its demolition in 1981; and

WHEREAS, the applicant notes that residential use

MINUTES

became non-conforming at the site as of December 15, 1961, when the M1-1 designation took effect; and

WHEREAS, the applicant seeks a use variance to construct a four-story seven-unit multiple dwelling with 4,838 sq. ft. of floor area (1.94 FAR) in accordance with the bulk regulations applicable in an R6 district (the nearest residential district, located approximately two blocks south of the site) where 2.2 FAR is the maximum permitted FAR; and

WHEREAS, the applicant represents that, per ZR § 72-21(a), the following are unique physical conditions which create unnecessary hardship in developing the site in conformance with applicable regulations: (1) the site's history of residential use and adjacency to residential buildings on all sides, and across the street; (2) its small lot size of 2,500 sq. ft. and narrow lot width of 25 feet; and (3) its location on a narrow one-way street; and

WHEREAS, the applicant states that occupying the site with a conforming use would not be feasible due to the predominance of residential use, the small size, and constrained street access; and

WHEREAS, as to the history of and adjacency of residential use, the applicant notes that from the early 1900s until 1981, the site was occupied by a three-story residential building consistent with the row of such buildings adjacent to the site; and

WHEREAS, the applicant asserts that the former building was one of a series of residential apartment buildings located on the north side of Grattan Street; and

WHEREAS, the applicant asserts that since the 1981 demolition of the building, the site has either been vacant or occupied by the current vacant two-story frame structure, which was not constructed pursuant to DOB approvals as far as can be determined; and

WHEREAS, the applicant asserts that such adjacencies and absence of commercial or industrial presence in the immediate vicinity of this interior lot limits any foot or vehicular traffic to the site and renders retail use infeasible; and

WHEREAS, as to its size, the applicant asserts that almost all conforming manufacturing and commercial use on Grattan Street in the vicinity is on significantly larger lots in the range of 5,000 sq. ft. to 20,304 sq. ft.; and

WHEREAS, the applicant asserts that the floor plate is too small to accommodate loading of the amount of storage required for a conforming use; and

WHEREAS, the applicant states that development of the site with a conforming commercial or manufacturing use would be infeasible due to the small floor plates of 2,500 sq. ft.; and

WHEREAS, the applicant analyzed a complying one-story warehouse building which it concluded was not viable due to the small size and other locational constraints; and

WHEREAS, the applicant identified one similar site used for conforming use - 79 Grattan Street - with 2,500 sq. ft. of lot area, but noted that it is currently vacant, which reflects the absence of a market for smaller sites for conforming use;

and

WHEREAS, the applicant asserts that its review of DOB records reflects that there are not any similarly-sized lots in the vicinity of the site that have been developed in the past decade; and

WHEREAS, the applicant notes that a one-story warehouse was constructed on the south side of Grattan Street more recently, but that site has a width of 75 feet and a lot area of 7,500 sq. ft.; and

WHEREAS, the applicant states that the subject site is one of only four vacant lots with street frontage of less than 25 feet that is not in common ownership or used in conjunction with an adjacent lot; and

WHEREAS, the applicant also states that of the undeveloped and vacant sites on the surrounding portion of Grattan Street, the subject site is one of only two not owned in conjunction with an adjacent site; and

WHEREAS, as to the site's location, the applicant notes that it is an interior lot located on a narrow one-way street and is one of 12 vacant lots included in the study area, which is similarly situated; and

WHEREAS, the applicant notes that Grattan Street at this location is a narrow one-way street that would limit the nature of commercial vehicles that can use Grattan Street; and

WHEREAS, finally, the applicant represents that the site's narrowness and small lot size would result in a conforming manufacturing or commercial building with inefficient, narrow floor plates that would be inadequate space for providing a loading dock; further, the applicant states that based on the small lot size, a conforming development would provide a maximum floor plate of 2,500 sq. ft., which the applicant represents is substandard for modern manufacturing uses; and

WHEREAS, the Board inquired about (1) whether the subject lot could be viewed separately from the adjacent lot at 97 Grattan Street, which is the subject of a separate use variance application pursuant to BSA Cal. No. 125-13-BZ; and (2) whether the subject site could be distinguished from other vacant lots; and

WHEREAS, the applicant responded that the ownership of the two lots is separate and submitted individual deeds for the two lots and stated that the 1921 Belcher Hyde atlas reflects that the lots were separate at that time and, thus, have been separate for at least 90 years; and

WHEREAS, however, the applicant notes that even if the two adjacent lots were developed as a single lot with a width of 50 feet and depth of 100 feet, the hardship on the lot would still exist; and

WHEREAS, as to the other vacant lots in the vicinity, the applicant performed an initial and then an expanded study of vacant lots within the vicinity and concluded that almost all of the other sites are either larger, have greater width and street frontage or are in common ownership with an adjacent site (or sites); and

WHEREAS, the applicant notes that out of 220 lots in the initial study area, 19 of them are vacant, which is approximately 8.5 percent; and

MINUTES

WHEREAS, the applicant states that of the vacant lots, the subject site is one of only four affected by all of the factors contributing to the unique conditions creating the hardship; and

WHEREAS, the applicant enlarged the study area to include a two-block radius around the site, which represents the manufacturing-zoned districts bordered by the railroad to the north and east of the site, water to the north of the site (English Kills), and the residential districts to the south and west and includes 335 lots; and

WHEREAS, the applicant found that within the enlarged study area, there are 40 sites consisting of either individual lots or assemblages of adjacent lots under common ownership and are vacant or include vacant lots; and

WHEREAS, the applicant asserts that the subject site is one of five (1.5 percent of those within the study area) affected by all the factors contributing to the unique conditions creating hardship on the site including a lot width of 25 feet, an interior lot located on a one-way street, and a history of being used exclusively for residential purposes; and

WHEREAS, the applicant states that two vacant sites of similar size to 95 and 97 Grattan Street have both been vacant for many years – 110 Harrison Street since at least 1940 and 145 Thames since at least 1997; and

WHEREAS, based upon the above, the Board finds that there are unique conditions which create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, to satisfy ZR § 72-21(b), the applicant submitted a feasibility study which analyzed the rate of return on an as-of-right industrial building at the site and the proposal; and

WHEREAS, according to the study, a one-story building with approximately 5,000 sq. ft. of floor area occupied by a manufacturing use would yield a negative rate of return; the proposed residential building, on the other hand, would realize a reasonable return; and

WHEREAS, based upon its review of the feasibility study, the Board has determined that because of the subject lot's unique physical condition, there is no reasonable possibility that development in strict conformance with applicable use requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, the applicant states that the subject side of Grattan Street has historically been and is currently primarily developed with residential buildings; and

WHEREAS, specifically, the adjacent use to the west and north (rear) are three-story residential buildings similar to what is proposed and the adjacent lot to the east is vacant and the subject of a use variance application pursuant to BSA Cal. No. 125-13-BZ decided on the same date; and

WHEREAS, as to adjacent uses, as noted above, there are residential uses on all adjacent lots and across the street; and

WHEREAS, the applicant notes that the building, although four stories, lines up with the height of the adjacent three-story with basement building and complies with all R6 zoning district bulk regulations; and

WHEREAS, the applicant also notes that the site was occupied by a residential building from at least 1921 until 1981; thus, the applicant asserts that the site—and the subject stretch of Grattan Street—have a long-standing residential character despite the site's M1-1 designation; and

WHEREAS, in response to the Board's question about whether the proposal complies with light and air regulations, the applicant states that all proposed windows satisfy all light and air regulations including that they open either directly upon a street or upon a yard with a minimum dimension to the lot line of 30 feet; and

WHEREAS, specifically, the applicant notes that front apartments have windows opening directly upon Grattan Street and rear apartments open upon rear yards with distances of 46 feet to the rear lot line; and

WHEREAS, accordingly, the layout does not require light wells or courts to satisfy the light and air requirements; and

WHEREAS, accordingly, the applicant contends that the proposal is more consistent with the immediate character than a conforming use would be; and

WHEREAS, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that, consistent with ZR § 72-21(d), the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the site's unique physical conditions; and

WHEREAS, finally, the Board finds that the proposal is the minimum variance necessary to afford relief, as set forth in ZR § 72-21(e); and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board conducted an environmental review of the proposed action and documented relevant information about the project in the Final Environmental Assessment Statement ("EAS") CEQR No. 13-BSA-132K, dated April 25, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and

MINUTES

Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21, and grants a variance to permit, on a site within an M1-1 zoning district, the construction of a four-story multiple dwelling with seven units (Use Group 2), contrary to ZR § 42-00; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received June 23, 2014" – five (5) sheets; and *on further condition*:

THAT the following are the bulk parameters of the building: a maximum floor area of 4,838 sq. ft. (1.94 FAR), a maximum lot coverage of 54 percent, seven dwelling units, a minimum rear yard depth of 30'-0", and a maximum building height of 40'-0", as indicated on the BSA-approved plans;

THAT the applicant must submit to DEP a Remedial Closure Report consistent with the requirements identified in DEP's June 23, 2014 letter, and

THAT DEP must approve the Remedial Closure Report prior to obtaining a Certificate of Occupancy.

THAT substantial construction shall be completed in accordance with ZR § 72-23;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 24, 2014.

WHEREAS, finally, the applicant represents that the site's narrowness and small lot size would result in a conforming manufacturing or commercial building with inefficient, narrow floor plates that would be inadequate space for providing a loading dock; further, the applicant states that based on the small lot size, a conforming development would provide a maximum floor plate of 2,500 sq. ft., which the applicant represents is substandard for modern manufacturing uses; and

WHEREAS, the Board inquired about (1) whether the subject lot could be viewed separately from the adjacent lot at 95 Grattan Street, which is the subject of a separate use variance application pursuant to BSA Cal. No. 124-13-BZ; and (2) whether the subject site could be distinguished from other vacant lots; and

WHEREAS, the applicant responded that the ownership of the two lots is separate and submitted individual deeds for the two lots and stated that the 1921 Belcher Hyde atlas reflects that the lots were separate at that time and, thus, have been separate for at least 90 years; and

WHEREAS, however, the applicant notes that even if the two adjacent lots were developed as a single lot with a width of 50 feet and depth of 100 feet, the hardship on the lot would still exist; and

WHEREAS, as to the other vacant lots in the vicinity, the applicant performed an initial and then an expanded study of vacant lots within the vicinity and concluded that almost all of the other sites are either larger, have greater width and street frontage or are in common ownership with an adjacent site (or sites); and

WHEREAS, the applicant notes that out of 220 lots in the initial study area, 19 of them are vacant, which is approximately 8.5 percent; and

WHEREAS, the applicant states that of the vacant lots, the subject site is one of only four affected by all of the factors

MINUTES

contributing to the unique conditions creating the hardship; and

WHEREAS, the applicant enlarged the study area to include a two-block radius around the site, which represents the manufacturing-zoned districts bordered by the railroad to the north and east of the site, water to the north of the site (English Kills), and the residential districts to the south and west and includes 335 lots; and

WHEREAS, the applicant found that within the enlarged study area, there are 40 sites consisting of either individual lots or assemblages of adjacent lots under common ownership and are vacant or include vacant lots; and

WHEREAS, the applicant asserts that the subject site is one of five (1.5 percent of those within the study area) affected by all the factors contributing to the unique conditions creating hardship on the site including a lot width of 25 feet, an interior lot located on a one-way street, and a history of being used exclusively for residential purposes; and

WHEREAS, the applicant states that two vacant sites of similar size to 95 and 97 Grattan Street have both been vacant for many years – 110 Harrison Street since at least 1940 and 145 Thames since at least 1997; and

WHEREAS, based upon the above, the Board finds that there are unique conditions which create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, to satisfy ZR § 72-21(b), the applicant submitted a feasibility study which analyzed the rate of return on an as-of-right industrial building at the site and the proposal; and

WHEREAS, according to the study, a one-story building with approximately 5,000 sq. ft. of floor area occupied by a manufacturing use would yield a negative rate of return; the proposed residential building, on the other hand, would realize a reasonable return; and

WHEREAS, based upon its review of the feasibility study, the Board has determined that because of the subject lot's unique physical condition, there is no reasonable possibility that development in strict conformance with applicable use requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, the applicant states that the subject side of Grattan Street has historically been and is currently primarily developed with residential buildings; and

WHEREAS, specifically, the adjacent use to the west and north (rear) are three-story residential buildings similar to what is proposed and the adjacent lot to the west is vacant and the subject of a use variance application pursuant to BSA Cal. No. 124-13-BZ decided on the same date; and

WHEREAS, as to adjacent uses, as noted above, there are residential uses on all adjacent lots and across the street;

and

WHEREAS, the applicant notes that the building, although four stories, lines up with the height of the adjacent three-story with basement building and complies with all R6 zoning district bulk regulations; and

WHEREAS, the applicant also notes that the site was occupied by a residential building from at least 1921 until 1981; thus, the applicant asserts that the site—and the subject stretch of Grattan Street—have a long-standing residential character despite the site's M1-1 designation; and

WHEREAS, in response to the Board's question about whether the proposal complies with light and air regulations, the applicant states that all proposed windows satisfy all light and air regulations including that they open either directly upon a street or upon a yard with a minimum dimension to the lot line of 30 feet; and

WHEREAS, specifically, the applicant notes that front apartments have windows opening directly upon Grattan Street and rear apartments open upon rear yards with distances of 46 feet to the rear lot line; and

WHEREAS, accordingly, the layout does not require light wells or courts to satisfy the light and air requirements; and

WHEREAS, accordingly, the applicant contends that the proposal is more consistent with the immediate character than a conforming use would be; and

WHEREAS, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that, consistent with ZR § 72-21(d), the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the site's unique physical conditions; and

WHEREAS, finally, the Board finds that the proposal is the minimum variance necessary to afford relief, as set forth in ZR § 72-21(e); and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board conducted an environmental review of the proposed action and documented relevant information about the project in the Final Environmental Assessment Statement ("EAS") CEQR No. 13-BSA-132K, dated April 25, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

MINUTES

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21, and grants a variance to permit, on a site within an M1-1 zoning district, the construction of a four-story multiple dwelling with seven units (Use Group 2), contrary to ZR § 42-00; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received June 23, 2014" – five (5) sheets; and *on further condition*:

THAT the following are the bulk parameters of the building: a maximum floor area of 4,740 sq. ft. (1.9 FAR), seven dwelling units, a minimum rear yard depth of 30'-0", and a maximum building height of 40'-0", as indicated on the BSA-approved plans;

THAT the applicant must submit to DEP a Remedial Closure Report consistent with the requirements identified in DEP's June 23, 2014 letter, and

THAT DEP must approve the Remedial Closure Report prior to obtaining a Certificate of Occupancy.

THAT substantial construction shall be completed in accordance with ZR § 72-23;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 24, 2014.

216-13-BZ

CEQR #14-BSA-010R

APPLICANT – Rampulla Associates Architects, for 750 LAM Realty, LLC c/o Benjamin Mancuso, owners; Puglia By The Sea, Inc. c/o Benjamin Mancuso, lessees.

SUBJECT – Application July 17, 2013 – Variance (§72-21) to demolish an existing restaurant damaged by Hurricane Sandy and construct a new eating and drinking establishment with accessory parking for 25 cars, contrary to use (§23-00) regulations, and located in the bed of the

mapped street, (*Boardwalk Avenue*), contrary to General City law Section 35. R3X (SRD) zoning district.

PREMISES AFFECTED – 750 Barclay Avenue, west side of Barclay Avenue, 0' north of the corner of Boardwalk Avenue, Block 6354, Lot 40, 7, 9 & 12, Borough of Staten Island.

COMMUNITY BOARD #3SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 4

Negative:.....0

Absent: Vice Chair Collins.....1

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated July 9, 2013, acting on Department of Buildings Application No. 520146128, reads in pertinent part:

Proposed detached two-story Eating and Drinking Establishment with roof deck, in Zoning Use Group 6, is not permitted as-of-right in R3X zoning district. (ZR 22-00)

Proposed detached two-story Eating and Drinking Establishment with an open roof deck constitutes an increase in the degree of non-conformance and non-compliance. (ZR 52-34)

Proposed separate accessory open parking lot for eight parking spaces on Block 6397/Lot 12 on the southwest corner of Barclay Avenue and Boardwalk Avenue is not permitted use in an R3X zoning district; and

WHEREAS, this is an application under ZR § 72-21, to permit, within an R3X zoning district within the Special South Richmond District (SRD), construction of a one-story building occupied by a restaurant (Use Group 6), which does not conform to district use regulations, contrary to ZR §§ 22-00 and 52-34; and

WHEREAS, a public hearing was held on this application on February 25, 2014, after due notice by publication in *The City Record*, with continued hearings on May 13, 2014 and June 10, 2014, and then to decision on June 24, 2014; and

WHEREAS, the site and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 3, Staten Island, recommends approval of the application; and

WHEREAS, Borough President James Oddo recommends approval of the application on the condition that it is not larger in scale than the existing restaurant; and

WHEREAS, certain members of the community provided testimony in support of the application; and

WHEREAS, certain members of the community provided testimony in opposition to the application, citing concerns about noise and insufficient parking; and

WHEREAS, the site is at the dead end of Barclay

MINUTES

Avenue and has frontage on three streets: Barclay Avenue, Boardwalk Avenue and First Court within an R3X zoning district within the Special South Richmond District and has a total lot area of 17,029 sq. ft.; and

WHEREAS, the site is across Boardwalk Avenue from Raritan Bay; and

WHEREAS, due to the location of a mapped street within the site, the applicant has filed a companion application for a waiver of General City Law § 35, pursuant to BSA Cal. No. 217-13-A, which was decided on the same date; and

WHEREAS, the site is currently occupied by (1) a two-story commercial building formerly used for a restaurant use (Use Group 6) and (2) a one-story single-family detached home; and

WHEREAS, the applicant proposes to demolish both buildings and build the new restaurant and an accessory on-site parking lot; and

WHEREAS, the applicant also proposes to merge the four existing tax lots and zoning lots (7, 9, 12, and 18) into one zoning lot to accommodate 24 self or 43 attended parking spaces; and

WHEREAS, the applicant initially proposed to construct a building with a floor area of 10,176 sq. ft. (0.6 FAR) with restaurant use on two floors, and a height of 39'-6", which would include eight parking spaces across Barclay Avenue (Block 6354, Lot 40) and 25 parking spaces to the north of the site; and

WHEREAS, at the Board's direction, the applicant first reduced the floor area to 7,208 sq. ft. and a height of 34'-8" and eliminated the lot across Barclay Avenue from its proposal; ultimately, the applicant reduced the size of the building to one-story (with an attic) and a floor area of 4,890 sq. ft.; and

WHEREAS, the applicant states that the restaurant was established on the site in 1941 and is reflected on Certificate of Occupancy #2706; and

WHEREAS, on January 9, 1979, pursuant to BSA Cal. No. 72-78-BZ, the Board granted a variance to permit in what was then an R3-2 zoning district the enlargement of the restaurant; the 1987 Certificate of Occupancy reflects a restaurant with a one-family apartment on the first floor and another on the second floor; and

WHEREAS, the approved building allowed for two stories with 4,896 sq. ft. of floor area; and

WHEREAS, the applicant states that there is no required on-site parking for the existing restaurant however, there is an existing parking lot for approximately 20 cars; and

WHEREAS, the applicant acknowledges that it enlarged the lot area and the building subsequent to the Board's prior variance approval, without requesting an amendment; and

WHEREAS, at the Board's request, the applicant provided the following information about the site conditions: (1) the approved lot area is 10,261 sq. ft. and the existing/proposed is 17,029 sq. ft.; (2) the approved floor area is 4,896 sq. ft. (for residential and commercial), the existing is 7,457.64 sq. ft. (commercial), and the proposed is 4,890 sq. ft. (commercial); and (3) the approved site plan did not include

any parking, the existing includes 20 spaces, and the proposed is 24 unattended or 43 attended spaces; and

WHEREAS, accordingly, the applicant notes that the proposal reflects an enlarged lot area but a floor area that is consistent with the prior approval; and

WHEREAS, because the restaurant use is not permitted in the subject zoning district, the applicant seeks a use variance to permit the enlargement of the Use Group 6 use; and

WHEREAS, the applicant states that the following are unique physical conditions which create unnecessary hardship and practical difficulties in developing the site with a conforming development: (1) the history of the site for restaurant use; (2) the storm-damaged condition of the building and location within a flood zone; and (3) the location of the site within mapped unbuilt streets; and

WHEREAS, as to the history of use and the existing building, the applicant states that the site has been occupied by restaurant use from at least 1941 to the present; and

WHEREAS, the applicant states that the restaurant was established on the site in 1941 and is reflected on Certificate of Occupancy #2706; subsequent alteration applications were filed in 1949 and 1950; and

WHEREAS, as noted, on January 9, 1979, the Board granted a variance to permit in what was then an R3-2 zoning district the enlargement of a two-story building occupied by the restaurant, pursuant to BSA Cal. No. 72-78-BZ; the 1987 Certificate of Occupancy reflects a restaurant with a one-family apartment on the first floor and another on the second floor; and

WHEREAS, the applicant represents that a restaurant has operated without interruption from 1941 until October 29, 2012 when it was damaged by Superstorm Sandy; and

WHEREAS, as to the storm damage and flooding potential for the site, the applicant cites to the Mayoral Executive Order No. 230 – Emergency Order to Suspend Zoning Provisions to Facilitate Reconstruction in Accordance with Enhanced Flood Resistant Requirements – for the City's policy that if reconstruction of an existing flood-damaged building is proposed that was substantially damaged, the building must be elevated to fully comply with the flood zone regulations in the Building Code's Appendix G; and

WHEREAS, the applicant notes that "substantially damaged" had been defined as exceeding 50 percent of the market value of the building; and

WHEREAS, the applicant asserts that the restaurant suffered damage in excess of 50 percent of the market value of the building so now must be elevated to a height which exceeds the new flood hazard elevations; and

WHEREAS, accordingly, the applicant states that it cannot simply repair the existing established restaurant building, but must elevate it, which is not possible due to its wood frame construction; and

WHEREAS, the applicant states that on October 29, 2012, when Superstorm Sandy hit the Staten Island Shoreline, the site was not deemed to be in a flood hazard zone; the flood maps at that time reflect that the seawall that borders the site's

MINUTES

southeast property line as the limit of Flood Zone AE; and

WHEREAS, however, the applicant notes that on June 10, 2013, the Federal Emergency Management Agency (FEMA) revised the flood maps to include the site to be within a Zone VE with a minimum first floor elevation of 21 feet; and

WHEREAS, the applicant notes that Zone VE is subject to more stringent building requirements than other zones because it is exposed to a higher level of flood risk; and

WHEREAS, the applicant states that after calculating the Richmond Datum conversion factor, the design flood elevation is required to be 18.91 feet, which dictates a new first floor elevation of 20.41 feet; and

WHEREAS, the applicant notes that the elevation of the existing first floor is 16.41 feet, which is four feet below the required flood elevation; and

WHEREAS, the applicant notes that within Zone VE, a building subject to High Velocity Wave Action (a breaking wave with a height of three feet) is required to comply with additional construction measures, which the existing damaged building does not; and

WHEREAS, the applicant notes that specific conditions include that cellars are not permitted, the first floor elevation must be above the minimum Flood Hazard Elevation, and two additional feet of freeboard must be added to the minimum first floor elevation; and

WHEREAS, the applicant notes that premium construction costs are associated with constructing a building in a Zone VE and in compliance with the Building Code's Appendix G which mandates that new buildings be on concrete or wood piles that are elevated above natural existing grade and that the piling system and its connection to the first floor living space must be designed to withstand wave velocity; and

WHEREAS, the applicant notes that the City, State, and Federal government have instituted financial programs to aid homeowners rebuild after Superstorm Sandy, but there are no such programs available to rebuild commercial businesses; and

WHEREAS, the applicant states that the portion of the site (Block 6396, Lots 7, 9, and 18) currently used for accessory parking for the restaurant is one of the few vacant parcels in the area and any new construction there would have to follow FEMA regulations; and

WHEREAS, thus the proposed parking use is more feasible than new construction which must comply with FEMA regulations that prohibit cellars and must be elevated above the flood plain on concrete piles; and

WHEREAS, the applicant asserts that residential construction in full compliance with all flood-related regulations would be subject to significant construction premiums yet would be less marketable due to the absence of a cellar which is typical in the area; and

WHEREAS, as to the presence of the mapped unbuilt streets on the site, the applicant states that Barclay Avenue is a final mapped street with a width of 70 feet; Boardwalk Avenue is a final mapped street owned by the City, with a width of 20 feet and a widening line mapped to 60 feet within

the site; and First Court is an un-built mapped street; and

WHEREAS, the applicant notes that the widening line with a width of 40 feet on Boardwalk Avenue is owned by the applicant and that the portion of the zoning lot within the widening line is 4,014 sq. ft., or 24 percent of the site which requires waiver from the Board to allow construction; and

WHEREAS, further, the applicant notes that First Court is not open or improved and, thus, access to the site is constrained on that frontage; and

WHEREAS, the applicant notes that within the subject R3-X (SRD) zoning district, construction is limited to one- or two-family detached homes on zoning lots with at least 3,800 sq. ft. of lot area and, thus, this zoning lot would allow four buildable lots with two-family homes but, due to the presence of the widening line, only three buildable lots can be realized instead of four; and

WHEREAS, further, the applicant states that, due to the odd shape of the lot, development is limited to three two-family homes and one one-family home rather than four two-family homes; and

WHEREAS, the applicant asserts that the presence of the widening lot is a unique condition in the area; and

WHEREAS, the applicant further asserts that because Lots 7, 9, and 18 create a partial through lot with a truncated L-shape with the short dimension of 50 feet, when a front yard of 18 feet and a rear yard of 20 feet is included, only two feet of depth remains, rendering the lot unbuildable; and

WHEREAS, the applicant asserts that the truncated part of the L shape is unbuildable due to the narrow depth; and

WHEREAS, the applicant asserts that a lawfully pre-existing commercial building located in a residential zoning district with the encroachment of a 40-ft. widening line depth is a unique physical condition that is not shared by other sites in the area; and

WHEREAS, finally, the applicant asserts that the existing building does not meet City requirements for flood resiliency thereby creating a practical difficulty in bringing it up to current flood hazard standards; and

WHEREAS, based upon the above, the Board finds that the history of the site, and the inability to reconstruct the existing building due to new flood regulations are unique conditions which create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the Board is not persuaded that the presence of the mapped unbuilt streets creates hardship since the Board has waived that restriction under the companion application; and

WHEREAS, the applicant submitted a feasibility study which analyzed: (1) three detached two-family homes and one detached one-family home; (2) three detached two-family homes and one detached one-family home built outside of the widening line; and (3) the proposal; and

WHEREAS, the study concluded that based on the premium costs associated with the new flood resistant construction regulations and the subsurface conditions, the conforming alternatives are infeasible and only the proposal

MINUTES

would realize a reasonable return; and

WHEREAS, based upon the above, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict conformance with zoning will provide a reasonable return; and

WHEREAS, the applicant asserts that the proposal will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant notes that restaurant use has occupied the site since at least 1941, more than 20 years before the Zoning Resolution was adopted, and has existed continuously since that time; and

WHEREAS, accordingly, the applicant notes that the restaurant is an established use in the area; and

WHEREAS, the applicant states that Puglia by the Sea restaurant was originally known as Carmen's restaurant when it was established in 1941 in a business use district, which was rezoned to R3-2 in 1961; and

WHEREAS, additionally, the applicant notes that in 1979, the Board approved the enlargement of the historic restaurant to a size that is identical to the current proposal but which represents a lower FAR due to the enlargement of the zoning lot; and

WHEREAS, the applicant notes that, although the parking was not part of the 1979 approval, it has been a compatible and appropriate addition to the site if permitted to confirm; and

WHEREAS, the applicant asserts that the parking lot will help address concerns about traffic and insufficient parking in the area; and

WHEREAS, the applicant notes that the neighborhood is now occupied by large single-family detached homes and other forms of single-family homes included those converted from seasonal to year round bungalows; and

WHEREAS, the applicant notes that during the early 1900s through the 1960s, there were very few homes in the area and most of them were seasonal bungalows; and

WHEREAS, the applicant states that after 1961, construction of homes began to occur in the surrounding area with the restaurant as the only commercial use in the immediate vicinity; and

WHEREAS, the applicant notes that the site is separated from residential uses by the width of Barclay Avenue and First Court and only directly abuts residential use on one side and that is where the new parking lot with screening will be located after the demolition of the existing bungalow; and

WHEREAS, the applicant states that the demolition of the one-story bungalow in the middle of the existing parking lot will allow for 24 off-street self-parking spaces or 41 attended spaces, as necessary; and

WHEREAS, the applicant states that the parking lot will include planting islands, buffer planting areas around the perimeter of the parking lot and parking lot trees as well as

new curbs and sidewalks along the Barclay Avenue frontage; and

WHEREAS, the applicant asserts that the proposed inclusion of the additional lots to allow for parking will increase the compatibility of the non-conforming use on the surrounding neighborhood, without enlarging or extending the actual use; and

WHEREAS, the applicant notes that the building will actually be reduced from its current size and will accommodate approximately 187 patrons; and

WHEREAS, as noted, the new building will also comply with all current flood-related construction requirements in contrast to the existing frame construction which would be vulnerable to future damage; and

WHEREAS, as to bulk, the applicant notes that the building at a height of 31'-4" and with 4,890 sq. ft. of floor area (0.28 FAR) is well within the underlying bulk regulations for a conforming use; and

WHEREAS, the applicant proposes hours of operation that are consistent with its current hours; and

WHEREAS, specifically, the applicant proposes the following hours of operation for the indoor restaurant: Monday through Thursday, 12:00 p.m. to 11:00 p.m.; Friday and Saturday, 12:00 p.m. to 2:00 a.m.; and Sunday, 10:00 a.m. to 11:00 p.m.; and

WHEREAS, the applicant proposes the following hours of operation for the outdoor seating area, seasonally: Monday through Thursday, 12:00 p.m. to 11:00 p.m.; Friday and Saturday, 12:00 p.m. to 12:00 a.m.; and Sunday, 10:00 a.m. to 11:00 p.m.; and

WHEREAS the applicant submitted a copy of its revocable license agreement with the City to allow for the outdoor café use along Boardwalk Avenue, which is renewable annually; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title, but is the result of the site's historic use and conditions; and

WHEREAS, the Board notes that the revised proposal reduced the initial proposal by more than half and is consistent with the 1979 Board variance for restaurant use and, thus, finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, based upon the above, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as Unlisted Action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 14-BSA-010R dated November 18, 2013; and

MINUTES

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration under 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR § 72-21 and grants a to permit, within an R3X zoning district within the Special South Richmond District (SRD), construction of a one-story building occupied by a restaurant (Use Group 6), which does not conform to district use regulations, contrary to ZR §§ 22-00 and 52-34; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received June 23, 2014" – six (6) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the enlarged building: a total floor area of 4,890 sq. ft. (0.28 FAR); a total height of 31'-4", and a minimum of 24 unattended parking spaces or 41 attended spaces, as illustrated on the Board-approved plans;

THAT the hours of operation will be limited to Monday to Thursday, 9:00 a.m. to 9:00 p.m.; Friday and Saturday, 9:00 a.m. to 6:00 p.m.; and Sunday, 11:00 a.m. to 6:00 p.m.;

THAT attended parking is required on Fridays and Saturdays;

THAT signage on the site will comply with C1 district regulations, as reflected on the BSA-approved plans;

THAT all fencing and landscaping be installed and maintained as reflected on the BSA-approved plans;

THAT the parking layout be as reflected on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June

24, 2014.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez 4
Negative:.....0
Absent: Vice Chair Collins.....1

WHEREAS, the decision of the Department of Buildings ("DOB"), dated July 19, 2013, acting on DOB Application No. 520146128, reads in pertinent part:

Proposed new Building construction is located within the bed of a mapped street is contrary to Section 35 of the General City Law.; and

WHEREAS, a public hearing was held on this application on February 25, 2014, after due notice by publication in *The City Record*, with continued hearings on May 13, 2014, and June 10, 2014, and then to decision on June 24, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez and Commissioner Ottley- Brown; and

WHEREAS, this is an application to allow the reconstruction of an existing restaurant which will be located partially in the bed of Boardwalk Avenue, a mapped street; and

WHEREAS, this application is a companion application, pursuant to BSA Cal. No. 216-13-BZ for a variance allow the reconstruction of the restaurant at the site; and

WHEREAS, the subject site lies at the west side of Barclay Avenue, north of the corner of Boardwalk Avenue, within an R3X (SRD) zoning district; and

WHEREAS, Community Board 3, Staten Island, recommends approval of the application; and

WHEREAS, by letter dated January 15, 2014, the Fire Department states that it has reviewed the proposal and offers no objections provided the reconstruction conforms with the current NYC Fire and Building Department codes; and

MINUTES

WHEREAS, by letter dated August 22, 2013, the Department of Environmental Protection (“DEP”) states that: (1) there are no existing sewers or water mains in the Boardwalk Avenue between Ryan Place And First Court; and (2) Amended Drainage Plan No. D-111(S2) Sheet 1of 1, dated April 2, 2012, for the above-referenced location, calls for a future a 10-inch diameter sanitary sewer, and a 15-inch diameter storm sewer in the bed of Boardwalk Avenue between Ryan Place and First Court; and

WHEREAS, DEP further states that it requires the applicant to submit a survey/plan showing: (1) the width of the mapped street portion of Boardwalk Avenue and the width of the widening portion of the street at the above location; (2) a 32-foot wide sewer corridor in the bed of Boardwalk Avenue along the proposed development for the installation, maintenance and/or reconstruction of the future 10-inch diameter sanitary sewer and the 15-inch diameter storm sewer; (3) the location of the hydrant on tentative Lot 7 and the distance from the hydrant to the lot line; and (4) to clarify if Lots 40 and 42, which show parking are included as part of the application; and

WHEREAS, in response to DEP’s request, by letter dated May 20, 2013, the applicant submitted a survey for Block 6397, Lots 7, 9, 12, and 18, which shows a 60-foot width of the mapped Boardwalk Avenue and a 20-foot wide traveled portion of the street in front of the Tentative Lot 7; the existing footprint of the building on the lot line abutting the traveled portion; and noted that the 20-foot wide record street will be available for the installation and/or reconstruction of the future 10-inch diameter sanitary sewer and the 15-inch diameter storm sewer; and

WHEREAS, the applicant also submitted a survey dated December 4, 2013 for the Block 6354, Lots 40 and 42 which reflects a 60-foot width of the mapped Boardwalk Avenue and 20-foot wide traveled portion of the street and the survey shows the 12-foot wide sewer corridor inside of the Lots 40 and 42 along the southerly lot line for a width of 32 feet width, which will be available for the installation and/or reconstruction of the future 10-inch diameter sanitary sewer and the 15-inch diameter storm sewer at the above referenced location; and

WHEREAS, DEP has no further objections; and

WHEREAS, by correspondence dated September 6, 2013, the Department of Transportation (“DOT”) states that it has reviewed the project and has no objections; and

WHEREAS, DOT notes that according to the Staten Island Borough President’s Topographical Bureau: (1) Boardwalk Avenue from Second Court to Barclay Avenue has a record width of 20 feet and is mapped at a 60-foot width, and (2) the City does not have title to Boardwalk Avenue; and

WHEREAS, DOT also notes that the improvement of Boardwalk is not presently included in DOT’s Capital Improvement Program; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved, that the Board modifies the

decision of the DOB, dated July 19, 2013, acting on DOB Application No. 520146128 by the power vested in it by Section 35 of the General City Law, limited to the decision noted above, *on condition* that construction will substantially conform to the drawing filed with the application marked “Received June 23, 2014” – six (6) sheets; and *on further condition*:

THAT DOB will review and approve plans associated with the Board’s approval for compliance with the underlying zoning regulations as if the unbuilt street were not mapped;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT DOB will review the proposed plans to ensure compliance with all relevant provisions of the Zoning Resolution;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals on June 24, 2014.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated April 14, 2014, acting on DOB Application No. 121092744, reads, in pertinent part:

Proposed physical culture establishment located on zoning lot in C6-4 and M1-6 zoning districts is not permitted as-of-right pursuant to ZR Sections 32-10 and 42-10; and

WHEREAS, this is an application under ZR §§ 73-36

MINUTES

and 73-03, to permit, on a site partially within a C6-4M zoning district and partially within an M1-6 zoning district, within the Special Garment Center District, the operation of a physical culture establishment (“PCE”) in portions of the cellar, and first through third stories of a proposed 38-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on May 6, 2014, after due notice by publication in the *City Record*, and then to decision on June 24, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Ottley-Brown; and

WHEREAS, Community Board 5, Manhattan, recommends approval of the application; and

WHEREAS, the subject site is a through lot with frontage on West 34th Street and West 35th Street, between Seventh Avenue and Eighth Avenue, partially within a C6-4M zoning district and partially within an M1-6 zoning district within the Special Garment Center District; and

WHEREAS, the applicant confirmed that there are not any restrictions against the use within the subject M1-6 zoning district within the Special Garment Center District; and

WHEREAS, a 38-story commercial building is being constructed on the site and will have a total of 184,495 sq. ft. of floor area; and

WHEREAS, the proposed PCE will occupy portions of the cellar, and first through third floors; the remainder of the cellar and first floor will be occupied by Use Group 10 retail; and

WHEREAS, the PCE will occupy 14,542 sq. ft. of floor area and will have its main entrance on West 35th Street within the M1-6 zoning district portion of the site; and

WHEREAS, the PCE will be operated as Planet Fitness; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE will be seven days per week, 24 hours per day; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is

outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No. 14BSA049M dated October 2, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issued a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73- to permit, on a site partially within a C6-4M zoning district and partially within an M1-6 zoning district, within the Special Garment Center District, the operation of a physical culture establishment (“PCE”) in portions of the cellar, and first through third stories of a proposed 38-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received May 30, 2014” – Eight (8) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on June 24, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by

MINUTES

the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 24, 2014.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated September 4, 2013, acting on DOB Application No. 420048629, reads, in pertinent part:

Proposed physical culture establishment is not permitted as-of-right in a C2-4 zoning district per ZR Section 32-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site partially within a C2-4(R6A) zoning district and partially within an R5 zoning district, the operation of a physical culture establishment (“PCE”) in portions of the cellar and first story of a proposed one-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on May 13, 2014, after due notice by publication in the *City Record*, with a continued hearing on June 10, 2104 and then to decision on June 24, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Ottley-Brown; and

WHEREAS, Community Board 12, Queens,

recommends approval of the application; and

WHEREAS, the subject site is on the south side of Jamaica Avenue between 168th Place and 170th Street, partially within a C2-4(R6A) zoning district and partially within an R5 zoning district; and

WHEREAS, a one-story commercial building is being constructed on the site and will have a total of 47,309 sq. ft. of floor area entirely within the C2-4(R6A) zoning district; and

WHEREAS, the proposed PCE will occupy portions of the cellar, and first floor; and

WHEREAS, the PCE will occupy 24,698 sq. ft. of floor area and will have its main entrance on Jamaica Avenue within the C2-4(R6A) zoning district portion of the site; and

WHEREAS, the PCE will be operated as Planet Fitness; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE will be seven days per week, 24 hours per day; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No. 14BSA054Q dated October 9, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and

MINUTES

Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issued a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site partially within a C2-4(R6A) zoning district and partially within an R5 zoning district, the operation of a physical culture establishment (“PCE”) in portions of the cellar and first story of a proposed one-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received May 27, 2014” – Five (5) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on June 24, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 24, 2014.

286-13-BZ

APPLICANT – Eric Palatnik, P.C., for Michael Trebinski, owner.

SUBJECT – Application October 11, 2013 – Variance (§72-21) for the proposed enlargement of an existing one-story residential home, contrary to front yard (§23-45); side yard (§23-161); floor area and lot coverage (§23-141) and off street parking requirements (§25-621(B)). R4 zoning district. PREMISES AFFECTED – 2904 Voorhies Avenue, Voorhies Avenue, between Nostrand Avenue and a dead end portion of East 29th Street, Block 8791, Lot 201, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4
Negative:.....0

Absent: Vice Chair Collins.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated September 16, 2013, acting on DOB Application No. 320718309, reads in pertinent part:

ZR 23-45 – proposed front yard is less than required minimum;

ZR 23-461 – proposed side yard is less than required minimum;

ZR 23-141 – proposed floor area is greater than maximum (permitted), proposed FAR is greater than maximum (permitted), proposed lot coverage is greater than required maximum; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site within an R4 zoning district, the enlargement of an existing single-family home, which does not comply with the zoning requirements for floor area ratio (“FAR”), lot coverage, front yard, and side yards, contrary to ZR §§ 23-141, 23-45, and 23-461; and

WHEREAS, a public hearing was held on this application April 1, 2014, after due notice by publication in *The City Record*, with continued hearings on May 6, 2014, and June 10, 2014, and then to decision on June 24, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Montanez; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the southeast corner of the intersection of Voorhies Avenue and East 29th Street, within an R4 zoning district; and

WHEREAS, the site has 18 feet of frontage along Voorhies Avenue, 100 feet of frontage along East 29th Street, and 1,800 sq. ft. of lot area; the applicant notes that East 29th Street dead-ends near the southern boundary of the site, forming a cul-de-sac; and

WHEREAS, the site is occupied by a one-story, single-family home with 708 sq. ft. of floor area (0.40 FAR); and

MINUTES

WHEREAS, the applicant proposes to vertically and horizontally enlarge the home contrary to the FAR, lot coverage, front yard, and side yards, and increase the floor area from 708 sq. ft. (0.4 FAR) to 1,980 sq. ft. (1.1 FAR) (the maximum permitted floor area is 1,350 sq. ft. (0.75 FAR); and

WHEREAS, the applicant states that the proposed enlargement will: (1) increase in lot coverage from 39.5 percent to 60 percent (a maximum lot coverage of 45 percent is permitted); (2) provide one front yard with a depth of 36'-2½" along Voorhies Road (two front yards with a minimum depth of 10'-0" are required, one along Voorhies Road and one along East 29th Street); and (3) maintain the existing non-complying side yard depth of 3'-9½" along the southern boundary of the site (two side yards—one along the eastern boundary and one along the southern boundary—are required with minimum depths of 5'-0"); and

WHEREAS, the applicant notes that, initially, it also sought a waiver for a parking space contrary to ZR § 25-621; however, in response to the Board's concerns, the parking space was excluded from the proposal; and

WHEREAS, accordingly, the applicant seeks a variance to permit the proposed FAR, lot coverage, and front and side yard non-compliances pursuant to ZR § 72-21; and

WHEREAS, the applicant states that the following are unique physical conditions, which create practical difficulties and unnecessary hardship in developing the site in compliance with underlying zoning regulations: (1) the site's narrow width in combination with its location on a corner; (2) the location of the existing building on the site; and (3) the underdevelopment of the site; and

WHEREAS, the applicant states that the site's narrow width (18'-0") and location on a corner combined, make complying development of the site infeasible; and

WHEREAS, the applicant notes that because the site is on a corner, it must provide yards for the full length and width of the site; as such, the maximum width of a home on a narrow lot within an R4 district is 3'-0"; and

WHEREAS, the applicant represents that the yard requirements alone result in a home that is not even wide enough for one habitable room under the building code; thus, as-of-right, the site cannot be used to construct a dwelling, absent some relief from the Board; and

WHEREAS, as to the uniqueness of this practical difficulty, the applicant identified 13 sites located on corners within the subject R4 district and concluded the subject site is the narrowest, with the other sites ranging in width from 19'-0" to 60'-0"; and

WHEREAS, the applicant states that the location of the existing home at the site also produces unique practical difficulties in further developing the site; and

WHEREAS, the applicant states that the existing home's walls are contiguous with the southern, western, and eastern boundaries of the site, resulting in a front yard depth along Voorhies Avenue of 56'-8½"; as such, and given the R4 yard regulations described above, the home could be enlarged by a maximum of 176 sq. ft.; none of which would be habitable or

even practically useful for storage space, because its maximum width would be 2'-0"; similarly, it is not feasible to maintain the existing 708 sq. ft. home as-is, because the applicant represents that it is too small to marketable as a single-family home in this neighborhood; and

WHEREAS, finally, the applicant asserts that the site is significantly underdeveloped (the existing FAR is 0.4; the maximum FAR is 0.75) as compared to sites with similar lot areas in the surrounding neighborhood; and

WHEREAS, in support of this assertion, the applicant submitted a study of the 83 sites within 400 feet of the site; based on the study, the average FAR is 1.63; the applicant notes that four particularly large buildings on average-sized sites are skewing the average; however, when the outliers are removed (along with one parking lot and one vacant site), the average floor area is 2,184 sq. ft. (0.96 FAR); when only single-family homes are considered, there are 47 sites, with an average floor area of 1,914 sq. ft. (0.86 FAR), which the applicant notes is more than twice the existing 0.4 FAR at the subject site; and

WHEREAS, the applicant explored the feasibility of an as-of-right enlargement of the home; however, as noted above, such an enlargement results in an additional 176 sq. ft. of virtually unusable floor area; and

WHEREAS, based upon the above, the Board finds that, pursuant to ZR § 72-21(a), the cited unique physical conditions create practical difficulties in developing the site in strict compliance with the applicable zoning regulations; and

WHEREAS, the Board agrees that because of the site's unique physical condition, there is no reasonable possibility that compliance with applicable zoning regulations will result in a habitable home; and

WHEREAS, the applicant represents that the proposed variance will not negatively affect the character of the neighborhood or impact adjacent uses; and

WHEREAS, the applicant states that the surrounding area is characterized by low-density, attached, detached or semi-detached, two- or three-story homes, with varying rear and side yard depths, and, typically, shallower front yard depths than are provided at the site; as to floor area, as noted above, the proposed floor area of 1,980 sq. ft. is well within the average size of homes in the vicinity; as such, the proposal is consistent with the use, bulk, and appearance of the neighborhood; and

WHEREAS, the applicant also notes that the proposal will maintain the historic yard non-compliances, which, along with the site's location adjacent to the East 29th Street cul-de-sac, mitigates the impact of such non-compliances upon the surrounding neighborhood; and

WHEREAS, as to adjacent uses, the applicant states that there is a single-family home directly east of the site, a single-family home west of the site across the East 29th Street cul-de-sac, a six-story multiple dwelling directly south of the site, and north across Voorhies Avenue, P.S. 52 (Sheepshead Bay Elementary School); and

WHEREAS, the applicant states that since the enlargement vertically extends three of the existing four walls,

MINUTES

the impact of the home upon adjacent uses is minimal; where the building will expand horizontally and vertically, it will be nearer to the existing home directly east of the site; however, in a typical situation, both homes would occupy the portion of the lot nearest the street frontage they share; here, the home on the site will have a front yard depth of 36'-2½" and be pulled towards the rear of the site and the adjacent home will have a rear yard depth in excess of 40'-0" and a front yard depth of approximately 10'-0"; thus, the minor decrease in the distance between these buildings is mitigated by the fact that they are still significantly more separated than most adjacent homes in the surrounding neighborhood; and

WHEREAS, at hearing, the Board directed the applicant to: (1) submit clearer photographs showing the surrounding area; (2) revise its land use studies to justify its FAR waiver; (3) examine the feasibility of reducing the size of the enlargement; and (4) amend its plans to include a note that the porch will be as approved by DOB; and

WHEREAS, in response, the applicant provided clearer photographs and submitted revised land use studies and amended plans as directed; and

WHEREAS, as to the feasibility of reducing the size of the enlargement, the applicant submitted plans showing that any reduction in the size of the enlargement will result in the loss of an entire bedroom, which it represents makes the entire proposal infeasible for the owner; and

WHEREAS, therefore, the Board finds that this action will neither alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, the applicant asserts that the above-noted hardships were not created by the owner but are inherent in the site's narrowness and existing, underdeveloped building; and

WHEREAS, the Board also finds that the hardship herein was not created by the owner or a predecessor in title, but is a result of the unique conditions at the site, per ZR § 72-21(d); and

WHEREAS, the applicant asserts and the Board finds that this proposal is the minimum necessary to afford the owner relief, ZR § 72-21(e); and

WHEREAS, thus, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 NYCRR Part 617.5 and 617.13, §§ 5-02(a), 5-02(b)(2), and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings ZR § 72-21, to permit, on a site within an R4 zoning district, the enlargement of an existing single-family home, which does not comply with the zoning requirements for floor area ratio ("FAR"), lot coverage, front yard, and side yards, contrary to ZR §§ 23-141, 23-45, and 23-461; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received June 23, 2014"- (8) sheets; and *on further*

condition:

THAT the parameters of the proposed building will be limited to: two stories and an attic, a maximum floor area of 1,980 sq. ft. (1.1 FAR), a front yard along Voorhies Avenue with a minimum depth of 36'-2½", and a maximum lot coverage of 60 percent, per the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board, in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT significant construction will proceed in accordance with ZR §72-23; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 24, 2014.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated November 14, 2013, acting on DOB Application No. 220150869, reads in pertinent part:

Proposed college, UG 3A, within the M1-1 district portion of the zoning lot is not permitted; contrary to ZR 42-10; and

WHEREAS, this is an application for a variance pursuant to ZR § 72-21 to permit, on a site partially within a C4-4 zoning district and partially within an M1-1 zoning district, the construction of a two-story mixed commercial (Use Group 6) and community facility (Use Group 3) building, contrary to the use regulations set forth in ZR § 42-10; and

WHEREAS, a public hearing was held on this application on April 1, 2014, after due notice by publication in *The City Record*, with continued hearings on May 6,

MINUTES

2014, May 20, 2014, and June 10, 2014, and then to decision on June 24, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Bronx, recommends approval of the application; and

WHEREAS, this application is being brought on behalf of Metropolitan College of New York ("MCNY"), a non-profit educational institution, which will occupy the proposed building; and

WHEREAS, the subject site is triangular lot located on the northwest corner of the intersection of East 149th Street and Brook Avenue, partially within a C4-4 zoning district and partially within an M1-1 zoning district; and

WHEREAS, the site has approximately 291 feet of frontage along East 149th Street, approximately 319 feet of frontage along Brook Avenue, and 67,881 sq. ft. of lot area; and

WHEREAS, the site's triangular shaped is thus formed by the intersection of East 149th Street and Brook Avenue, and the diagonal site boundary connecting these streets (the hypotenuse of the triangle), which abuts an MTA right-of-way where railroad tracks for the 2 and 5 subway lines emerge from underground; and

WHEREAS, the applicant notes that the C4-4/M1-1 district boundary runs roughly parallel to East 149th Street and divides a small portion of the northeast corner of the site; thus, 12 percent of the lot area (8,358 sq. ft.) is within the M1-1 portion of the site and 88 percent of the lot area (59,523 sq. ft.) is within the C4-4 portion of the site; and

WHEREAS, the applicant states that the site is currently used as a parking lot for motor vehicles; and

WHEREAS, the applicant proposes to construct a two-story mixed commercial and community facility building with 85,220 sq. ft. of floor area (1.4 FAR), including 61,697 sq. ft. of commercial floor area (Use Group 6) and 23,523 sq. ft. of community facility floor area (Use Group 3); and

WHEREAS, in addition, the applicant notes that, on June 18, 2013, under BSA Cal. No. 73-13-BZ, the Board granted a special permit pursuant to ZR § 73-49 to permit accessory parking for 87 automobiles on the rooftop of the proposed building; and

WHEREAS, the applicant states that the majority of the first story of the building and a portion of the second story will be occupied by a supermarket, a restaurant, retail space, and offices; MCNY will occupy a small portion of the first story (2,528 sq. ft.) and the remainder of the second story (22,715 sq. ft. of floor area), including a 808 sq.-ft. portion within the M1-1 portion of the site; and

WHEREAS, the applicant states that MCNY will use a small portion of the first story as an entrance lobby with administrative offices, and the second story to accommodate classroom space for up to 410 students and assembly space for up to 590 students, with a total simultaneous maximum occupancy of 927 persons; the space will include folding

walls to allow flexibility in classroom size and configuration, which will enable MCNY to host guest speakers and hold conferences, internship fairs, and job fairs; the second story will also include three computer classrooms, 17 regular classrooms, one media lab, and student and faculty lounges; and

WHEREAS, because Use Group 3 is not permitted as-of-right in an M1-1 district, the applicant seeks a use variance for the 808 sq.-ft. portion of the building on the second story; and

WHEREAS, the applicant states that the triangular shape of the site and the location of the district boundary line are a unique physical conditions, which create practical difficulties and unnecessary hardships in developing the site in conformance with underlying zoning regulations in manner that satisfies MCNY's programmatic needs as an educational institution; and

WHEREAS, the applicant states, as noted above, that the site triangular in shape due to the MTA right-of-way that forms the northwest boundary of the site; and

WHEREAS, as such, the applicant asserts that, a triangular building is the most efficient design to develop the site; and

WHEREAS, in addition, as described above, the location of the district boundary between the C4-4 portion of the site and the M1-1 portion of the site serves to isolate a small portion of the site and, thus, the building, in the M1-1 district; and

WHEREAS, nevertheless, the applicant states that MCNY requires use of the portion of the building within the M1-1 district in order to satisfy its programmatic needs; and

WHEREAS, in particular, the applicant represents that in order for the second story to have complying egress under the Building Code for the number of occupants MCNY proposes (more than 499 students), it must have three means of egress with a maximum travel distance of 250'-0" or less, and locate one of the means of egress within the M1-1 portion of the building; and

WHEREAS, the applicant examined the following as-of-right scenarios, in which MCNY did not use the M1-1 portion of the building: (1) removing the third means of egress entirely, which reduces the simultaneous classroom occupancy from 410 students to 263, prevents the usage of assembly space by more than 499 students when the classrooms are not in use and usage of the assembly space at all when classrooms are in use, and eliminates seven classrooms; (2) placing all three means of egress within the C4-4 portion of the building, which reduces the simultaneous classroom occupancy to 360 students, renders the M1-1 portion of the second story unusable, due to its lack of ADA accessibility and second means of egress, and results in a loss of three classrooms and eight computer terminals within the media lab; and (3) aligning the second-story MCNY space with the East 149th Street side of the building; and

WHEREAS, the applicant states that this third scenario carries the most disadvantages, in addition to being impractical since MCNY does not hold a lease for this portion

MINUTES

of the building; first, this scenario will allow for only two means of egress, which reduces the simultaneous classroom occupancy from 410 students to 263, and prevents the usage of assembly space by more than 499 students when the classrooms are not in use and usage of the assembly space at all when classrooms are in use; second, this portion of the building is not suitable for classroom space due to the shortage of windows and the practical difficulties created by constructing classroom space along an curving building wall (rectangular floorplates are preferable for classroom layouts); third, using this portion of the building will result in the creation of two unusable areas (a total of 17,269 sq. ft. of floor area) of the second story due to a lack of ADA accessibility; and

WHEREAS, thus, the applicant states that none of the as-of-right scenarios enables MCNY to fulfill its programmatic needs to allow sufficient space for its students, faculty, and staff; and

WHEREAS, the Board acknowledges that MCNY, as an educational institution, is entitled to significant deference under the law of the State of New York as to zoning and as to its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in Cornell Univ. v. Bagnardi, 68 N.Y.2d 583 (1986), an educational institution's application is to be permitted unless it can be shown to have an adverse effect upon the health, safety, or welfare of the community, and general concerns about traffic, and disruption of the residential character of a neighborhood are insufficient grounds for the denial of an application; and

WHEREAS, accordingly, based upon the above, the Board finds that, consistent with ZR § 72-21(a), the triangular shape of the site and location of the C4-4/M1-1 district boundary, when considered in conjunction with the programmatic needs of MCNY, create unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, since MCNY is a non-profit institution and the variance is needed to further its non-profit mission, the finding set forth at ZR § 72-21(b) does not have to be made in order to grant the variance requested in this application; and

WHEREAS, the applicant represents that, per ZR § 72-21(c), the proposed use of 808 sq. ft. of floor area in the M1-1 portion of the site by MCNY will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the surrounding area is characterized by its diversity; and includes industrial and commercial uses, such as the nearby regional retail and business district known as "The Hub", multiple dwellings, and large community facilities; thus, the introduction of MCNY will complement the neighborhood varied character; and

WHEREAS, likewise, the applicant asserts that the placement of 808 sq. ft. of community facility floor area within the M1-1 district will be compatible with the nearest

conforming use, which is the large community facility across Brook Avenue; the applicant also notes that the majority of nearby land within the subject M1-1 district is either occupied by the railroad or undeveloped; and

WHEREAS, the applicant notes that the proposal has garnered the support of numerous elected officials and community groups, including the community board and the Bronx Overall Economic Development Corporation, and is an important component of the Bronxchester Urban Renewal Plan and the South Bronx Initiative Plan; and

WHEREAS, the applicant notes that, aside from the requested use variance and the rooftop parking authorized by the Board under BSA Cal. No. 73-13-BZ, the proposal complies in all respects with the applicable bulk regulations; and

WHEREAS, accordingly, the Board finds that, per ZR § 72-21(c), this action will neither alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that, per ZR § 72-21(d), the hardships of the site were not self-created and that a conforming development of the site would not satisfy the programmatic needs of MCNY; and

WHEREAS, the Board also finds that, consistent with ZR § 72-21(e), the requested use waiver is the minimum necessary to afford MCNY the relief it needs to satisfy its programmatic needs; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Mayor's Office of Environmental Coordination ("MOEC") has conducted an environmental review of the proposed action to determine if the proposal would result in any significant adverse environmental impacts that were not previously identified in the January 2012 Triangle Plaza Hub Environmental Assessment Statement (CEQR No. 11DME011X) or in the subsequent Technical Memorandum issued on May 17, 2013; and

WHEREAS, MOEC recommends in a May 6, 2014 Technical Memorandum that the developer provide a staff person (i.e. flag person) at the project's Brook Avenue driveways to ensure safety for pedestrians, cyclists and motorists; and

WHEREAS, MOEC also recommends in the Technical Memorandum that the proposed building be required to meet an increase in attenuation requirements of 45 dBA or lower, rather than the 50 dBA previously required; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

Therefore it is Resolved, that the Board of Standards and Appeals adopted the findings of the May 6, 2014 Technical Memorandum prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6

MINUTES

NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, on a site partially within a C4-4 zoning district and partially within an M1-1 zoning district, the construction of a two-story mixed commercial (Use Group 6) and community facility (Use Group 3) building, contrary to the use regulations set forth in ZR § 42-10; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received May 28, 2014" – Fifteen (15) sheets; and *on further condition*:

THAT the building parameters will be: two stories; a maximum floor area of 85,220 sq. ft. (1.4 FAR); a maximum of 61,697 sq. ft. of commercial floor area and a maximum of 23,523 sq. ft. of community facility floor area, as illustrated on the BSA-approved plans;

THAT a staff person (i.e. flag person) be provided at the building's Brook Avenue driveways to ensure safety for pedestrians, cyclists and motorists;

THAT the proposed community facility uses in the building be required to provide attenuation levels of 31 dBA along the East 149th Street and Brook Avenue façades, and attenuation measures of 33 dBA along the rear facades of the building, which face the subway tracks, to maintain interior noise levels of 45 dBA or lower;

THAT the proposed commercial uses in the building be required to provide attenuation levels to ensure an interior noise environment of 50 dBA;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT construction will proceed in accordance with ZR § 72-23; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 24, 2014.

325-13-BZ

CEQR #14-BSA-087X

APPLICANT – Eric Palatnik, P.C., for 3170 Webster Avenue LLC, owner; CT Norwood LLC, lessee.

SUBJECT – Application December 23, 2013 – Special Permit (§73-36) to permit the operation of Physical Cultural Establishment (*Crunch Fitness*) within a portions of a commercial building. C2-4/R7D zoning district.

PREMISES AFFECTED – 3170 Webster Avenue, East side of Webster Avenue at intersection with East 205th Street. Block 3357, Lot 37, Borough of Bronx.

COMMUNITY BOARD #7BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4

Negative:.....0

Absent: Vice Chair Collins.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated November 22, 2013, acting on DOB Application No. 220329357, reads, in pertinent part:

Proposed physical culture establishment in a C2-4 (R7D) zoning district is contrary to ZR Section 32-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C2-4 (R7D) zoning district, legalization of an existing physical culture establishment ("PCE") on portions of the first and second story of an existing four-story mixed commercial and community facility building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on April 29, 2014, after due notice by publication in the *City Record*, with a continued hearing on May 20, 2014, and then to decision on June 24, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 7, Bronx, recommends conditional approval of the application; and

WHEREAS, the subject site is located on the east side of Webster Avenue near the terminus of East 205th Street, within a C2-4 (R7D) zoning district; and

WHEREAS, the site has approximately 200 feet of frontage along Webster Avenue and 19,542 sq. ft. of lot area; and

WHEREAS, the site is occupied by a four-story mixed commercial and community facility building with 61,633 sq. ft. of floor area (3.15 FAR); and

WHEREAS, the PCE occupies 448 sq. ft. of floor area on the first story and 14,521 sq. ft. of floor area on the second story, for a total PCE floor area of 14,969 sq. ft.; and

WHEREAS, the PCE is operated as Crunch; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE are Monday through Saturday, from 5:00 a.m. to 11:00 p.m. and Sunday, from 7:00 a.m. to 9:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no

MINUTES

objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; however, the Board notes that the term of this grant has been reduced to reflect the operation of the PCE without the special permit; and

WHEREAS, at hearing, the Board requested clarification regarding the required number of accessory parking spaces for the building; and

WHEREAS, in response, the applicant submitted an analysis confirming that the proposed parking complies with the applicable provisions of the Zoning Resolution; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No. 14BSA087X dated December 14, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issued a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site within a C2-4 (R7D) zoning district, legalization of an existing physical culture establishment ("PCE") on portions of the first and second story of an existing four-story mixed commercial and

community facility building, contrary to ZR § 32-10; on condition that all work shall substantially conform to drawings filed with this application marked "Received March 7, 2014" – Seven (7) sheets; and on further condition:

THAT the term of the PCE grant will expire on March 17, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT Local Law 58/87 and parking compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 24, 2014.

CEQR #14-BSA-101M

APPLICANT – Warshaw Burstein, LLP, for 177th Upper Broadway Holdings LLC, owner; 4168 Broadway Fitness Group LLC, lessee.

SUBJECT – Application January 17, 2014 – Special Permits (§§73-36, 73-52) to allow the operation of a physical culture establishment (*Planet Fitness*) within the existing building and to permit the fitness center use to extend 25 feet into the R7-2 zoning district. C8-3 and R7-2 zoning district.

PREMISES AFFECTED – 4168 Broadway, southeast corner of the intersection formed by West 177th Street and Broadway, Block 2145, Lot 15, Borough of Manhattan.

COMMUNITY BOARD #12M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4
Negative:.....0
Absent: Vice Chair Collins.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated January 9, 2014, acting on DOB

MINUTES

Application No. 121852094 reads in pertinent part:

Proposed use as a physical culture establishment .

. . . is contrary to ZR 32-10;

Proposed extension of physical culture establishment use into R72 portion of zoning lot is contrary to ZR 22-10 and 77-11; and

WHEREAS, this is an application under ZR §§ 73-36, 73-03, and 73-52 to permit, on a site located partially within a C8-3 zoning district and partially within an R7-2 zoning district, the operation of a physical culture establishment (“PCE”) in portions of the first, second and third stories of an existing six-story commercial building, contrary to ZR § 32-10, and to permit the extension of the proposed PCE use within the existing building into the R7-2 portion of the zoning lot, contrary to ZR § 77-11; and

WHEREAS, a public hearing was held on this application on May 20, 2014, after due notice by publication in *The City Record*, and then to decision on June 24, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Ottley-Brown; and

WHEREAS, Community Board 12, Manhattan, recommends approval of the application; and

WHEREAS, Councilmember Ydanis Rodriguez submitted testimony in opposition to the application, citing concerns about an “oversaturation of gyms in the immediate vicinity”; and

WHEREAS, the subject site is a trapezoid-shaped zoning lot located on southeast corner of the intersection of West 177th Street and Broadway, partially within a C8-3 zoning district and partially within an R7-2 zoning district; and

WHEREAS, the site has approximately 156 feet of frontage along Broadway, approximately 102 feet of frontage along West 177th Street, and 14,196 sq. ft. of lot area; 12,295 sq. ft. of lot area (87 percent of the lot area) is within the C8-3 portion of the site and 1,901 sq. ft. of lot area (13 percent of the lot area) is within the R7-2 portion of the site; and

WHEREAS, the site is occupied by a six-story commercial building with 84,771 sq. ft. of floor area (5.97 FAR); and

WHEREAS, the proposed PCE will occupy 1,496 sq. ft. of floor area on the first story and 14,115 sq. ft. of floor area on both the second and third stories, for a total PCE floor area of 29,726 sq. ft.; and

WHEREAS, the applicant states that the proposed PCE will operate as a Planet Fitness; and

WHEREAS, the applicant proposes to: (1) pursuant to ZR § 73-52, extend the use regulations applicable in the C8-3 portion of the site 25 feet into the R7-2 portion of the site; and (2) pursuant to ZR § 73-36, obtain a special permit for the operation of the PCE; and

WHEREAS, ZR § 73-52 provides that when a zoning lot, in single ownership as of December 15, 1961, is divided by district boundaries in which two or more uses are

permitted, the Board may permit a use which is permitted in the district in which more than 50 percent of the lot area of the zoning lot is located to extend not more than 25 feet into the remaining portion of the zoning lot where such use is not permitted, provided that: (1) without any such extension, it would not be economically feasible to use or develop the remaining portion of the zoning lot for a permitted use; and (2) such extension will not cause impairment of the essential character or the future use or development of the surrounding area; and

WHEREAS, as to the threshold issue of single ownership, the applicant submitted documents reflecting the history of ownership of the subject site and adjoining sites showing that the zoning lot was in single ownership prior to December 15, 1961; and

WHEREAS, as to the 50-percent lot area requirement, the applicant submitted a site plan indicating that approximately 12,295 sq. ft. of the site’s 14,196 sq. ft. of lot area (87 percent) is located within a C8-3 zoning district; and

WHEREAS, accordingly, the Board finds that the site meets the threshold requirements for ZR § 73-52; and

WHEREAS, as to economic feasibility, the applicant represents that it would not be economically feasible to use or develop the R7-2 portion of the site for a permitted use; specifically, the applicant states that the residential portion of the site is occupied with a portion of the existing building that lacks street frontage and is too small to accommodate an independent, viable residential or community facility tenant; and

WHEREAS, in addition, the applicant states that the portion of the site and the building within the R7-2 district is partially obstructed by a fire stair, which further limits its ability to accommodate a conforming use; and

WHEREAS, accordingly, absent the requested extension of the PCE into the residential space, a substantial portion of the building would be unusable and remain vacant; and

WHEREAS, the Board agrees that it would not be economically feasible to use or develop the remaining portion of the zoning lot, zoned R7-2, for a permitted use; and

WHEREAS, as to the extension’s effect on the surrounding area, the applicant states that the proposed extension is consistent with existing land use conditions and anticipated projects in the immediate area, in that the area surrounding the site is predominated by high-density commercial and residential uses; further, the proposed PCE will be entirely within the existing building; and

WHEREAS, the applicant also notes that the building has been primarily used for parking since at least 1961 and that the proposed PCE is a less intense commercial use, which will be more compatible with the nearby conforming uses; and

WHEREAS, accordingly, the Board finds that the proposed extension of the C8-3 zoning district portion of the lot into the R7-2 portion will not cause impairment of the essential character or the future use or development of the

MINUTES

surrounding area, nor will it be detrimental to the public welfare; and

WHEREAS, the Board, therefore, has determined that the evidence in the record supports the requisite findings pursuant to ZR § 73-52; and

WHEREAS, turning to the findings for ZR § 73-36, the applicant represents that the services at the PCE include facilities for group training, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE will be 24 hours per day and seven days per week; and

WHEREAS, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the future use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, finally, the PCE will not interfere with any pending public improvement project; and

WHEREAS, at hearing, the Board questioned whether the mezzanine was required to be made accessible for persons with certain physical disabilities; and

WHEREAS, in response, the applicant represented that the mezzanine level was not required to be made accessible because the amenities offered on that level are available on one or more accessible levels of the PCE; and

WHEREAS, the Board, therefore, has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, 14BSA101M, dated January 18, 2014; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the

environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36, 73-03, and 73-52 to permit, on a site located partially within a C8-3 zoning district and partially within an R7-2 zoning district, the operation of a physical culture establishment (“PCE”) in portions of the first, second and third stories of an existing six-story commercial building, contrary to ZR § 32-10, and to permit the extension of the proposed PCE use within the existing building into the R7-2 portion of the zoning lot, contrary to ZR § 77-11; *on condition* that all work will substantially conform to drawings filed with this application marked “March 27, 2014” – Seven (7) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on June 24, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the certificate of occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 24, 2014.

CEQR #14-BSA-106K

APPLICANT – Warshaw Burstein, LLP, for Infinity Fulton Street, LLC, owner; 1245 Fulton Fitness Group, LLC, lessee.

SUBJECT – Application January 29, 2014 – Special Permit (§73-36) to allow the operation of a physical culture establishment (*Planet Fitness*) within an existing building, C4-5 zoning district.

PREMISES AFFECTED – 1245 Fulton Street, north side of Fulton Street between Bedford Avenue and Arlington Place, Block 1842, Lot 47, Borough of Brooklyn.

COMMUNITY BOARD #3BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez.....4

Negative:.....0

Absent: Vice Chair Collins.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated January 14, 2014, acting on DOB Application No. 320851306, reads, in pertinent part:

Proposed physical culture establishment is not permitted as-of-right in a C4-5D zoning district, per ZR Section 32-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C4-5D zoning district, the operation of a physical culture establishment (“PCE”) in the cellar and first story of a proposed one-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on May 20, 2014, after due notice by publication in the *City Record*, and then to decision on June 24, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Montanez; and

WHEREAS, Community Board 3, Brooklyn, recommends approval of the application; and

WHEREAS, the subject site is located on the north side of Fulton Street between Bedford Avenue and Arlington Place, within a C4-5D zoning district; and

WHEREAS, the site has approximately 54 feet of frontage along Fulton Street and 7,957 sq. ft. of lot area; and

WHEREAS, the site is currently occupied by a one-story building, which is proposed to be demolished and replaced with a one-story building with 7,836 sq. ft. of floor area and 5,500 sq. ft. of floor space in the cellar; and

WHEREAS, the proposed PCE will occupy the entire building, for a total PCE size of 13,336 sq. ft.; and

WHEREAS, the PCE will be operated as Planet Fitness; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE will be seven days per week, 24 hours per day; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the Type II proposed action discussed in the CEQR Checklist (CEQR No. 14BSA106K) dated January 29, 2014; and

Therefore it is Resolved, that the Board of Standards and Appeals issued a Type II determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site within a C4-5D zoning district, the operation of a physical culture establishment (“PCE”) in the cellar and first story of a proposed one-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received March 25, 2014” – Five (5) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on June 24, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by

MINUTES

the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 24, 2014.

Absent: Vice-Chairman Kleinert.....1

THE RESOLUTION –

WHEREAS, a public hearing was held on this application on July 13, 1965, after due notice by publication in the Bulletin; laid over to July 20, 1965; then to September 8, 1965; hearing closed; then to September 21, 1965; and

WHEREAS, the decision of the Borough Superintendent, dated April 28, 1965, acting on Alt. Applic. 696/1965, reads:

- “2. F.A.R. contrary to Sec. 33-121 of Z.R.
3. Provide rear yard as req'd. by Sec. 33-26
4. Commercial use above 2nd Fl contra to Sec. 32-42 and Sec. 33-431 of Z.R.
5. Proposed Garage contrary to Sec. 32-17 of Z.R. if 150 spaces or less or contrary to Sec. 74-52 if in excess of 150 spaces.”

and

WHEREAS, the premises and surrounding area were inspected by a committee of the Board; and

WHEREAS, the Board finds that the entire property is L-shaped; that the applicant has submitted data to show that he cannot make a reasonable return on the building unless a variance is granted; that the variance will not impair the character of the neighborhood; that the hardship has not been self-created; and that this is a minimum variance necessary to the applicant; and

WHEREAS, the Board finds that the applicant has

substantiated a basis to warrant exercise of discretion to grant under Section 72-21 of the Zoning Resolution, and is therefore entitled to relief on the grounds of practical difficulty and or unnecessary hardship.

Resolved, that the Board of Standards and Appeal does hereby make a variation in the application of the Zoning Resolution and that the application be and it hereby is granted under Section 72-21, to permit in a C2-5 and R8 district, the erection of a 17-story enlargement to an existing 17-story office and showroom building that exceeds the permitted floor area ratio, encroaches on the required rear yard and has a commercial use above the 2nd floor, on condition that the building shall conform to drawings filed with this application marked "Received May 11, 1965", 7 sheets, "June 9, 1965", one sheet and "September 16, 1965", 2 sheets; that the accessory garage in the building shall be as approved by the Department of Buildings with no public garage facility; that there shall be no advertising signs above the second floor; that all laws, rules and regulations applicable shall be complied with; and that permit shall be obtained, work completed and a Certificate of Occupancy obtained within one year from the date of this resolution.

The resolution has been amended in the part of the PREMISES AFFECTED which read: “..... Lots 1, 3, 4, 5, 7, 8, 9, 40, 41, 42, 43 and 45, Borough of Manhattan.” Now reads: “...Lots 1, 3, 4, 5, 7, 8, 9, 40, 41, 42, 43 and 44, Borough of Manhattan.”

Corrected in Bulletin No. 26, Vol. 99, dated July 2, 2014.

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment of a previous approval, which, pursuant to ZR § 73-48, allowed the construction of 518 parking spaces contrary to ZR §§ 25-31 and 36-21; the proposed amendment seeks to: (1) enlarge the subject zoning lot; (2) reduce and reclassify certain parking spaces authorized under the special permit; and (3) permit other alterations related to the redevelopment of the site; and

WHEREAS, a public hearing was held on this application on April 8, 2014, after due notice by publication in *The City Record*, with a continued hearing on April 29, 2014, and then to decision on June 17, 2014; and

WHEREAS, at the April 29, 2014 public hearing, the Board set a May 20, 2014 decision date; and

WHEREAS, however, subsequent to the April 29, 2014 hearing, a representative of Preserve Park Slope communicated with Board staff and NYM about its request for supplemental documents from NYM; the Board declined to request the documents and NYM declined to provide the documents directly; and

WHEREAS, Preserve Park Slope then sought judicial relief to obtain the documents in New York State Supreme Court by Order to Show Cause; and

WHEREAS, the court issued a stay which prohibited the Board from closing the hearing and rendering a decision as scheduled on May 20, 2014; on June 4, 2014, the court lifted the stay but did not issue a ruling on the subpoena request, which is pending; and

WHEREAS, a companion application for a variance

pursuant to ZR § 72-21 required for development of the site was filed under BSA Cal. No. 289-13-BZ and decided at the same hearing; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, this application is brought on behalf of New York Methodist Hospital (“NYM”), a non-profit hospital, research, and educational facility; and

WHEREAS, the subject site comprises the majority of Block 1084; it includes Tax Lots 164, 1001, and 1002, and has frontages along Fifth Street, Sixth Street, Seventh Avenue, and Eighth Avenue; the applicant notes that when the subject special permit was granted, the site comprised Lots 164, 1001, and 1002, however, at the time the lots were designated as Lots 1, 17, and 64; as for Lot 39, it was formed by the merger of former Lots 25, 26, 28, 40-44, 46, 48, and 50-59; and

WHEREAS, the site is located partially within an R6 (C1-3) zoning district, partially within an R6 zoning district, and partially within an R7B zoning district; and

WHEREAS, the site has approximately 510 feet of frontage along Fifth Street, approximately 696 feet of frontage along Sixth Street, 200 feet of frontage along Seventh Avenue, 200 feet of frontage along Eighth Avenue, and 120,569 sq. ft. of lot area; and

WHEREAS, the Board has exercised jurisdiction over the site since January 11, 1994, when, under the subject calendar number, the Board granted, pursuant to ZR §§ 72-21, 73-481, and 73-482, a variance and special permit to allow the construction of a five-story mixed commercial and medical office building (“MOB”) and a parking garage for 518 automobiles, contrary to ZR § 33-431 (height and setback), ZR §§ 22-10, 77-12, and 77-332 (location of entrance to a group parking facility accessory to commercial uses, ZR § 36-63 (required number of loading berths), ZR §§ 22-10, 36-683, 77-12, and 77-332 (enclosure of and location of entrance to loading berths), and ZR §§ 25-31 and 36-21 (maximum number of parking spaces); and

WHEREAS, the site is occupied by the MOB, a 12-story hospital building containing hospital-related facilities and staff dwellings (the “Wesley House”), the subject parking garage, which consists of three-below grade parking levels and surface parking, a surface parking lot on the southeast corner of the site, and a series of townhouses; and

WHEREAS, the applicant notes that, under the special permit, the parking spaces are designated required accessory spaces for retail uses (76 spaces), required accessory to the Wesley House (49 spaces), and permitted accessory spaces to hospital-related uses (393 spaces); and

WHEREAS, the applicant states that NYM seeks a variance to construct a new seven-story ambulatory care facility (the “Center for Community Health” or the “Center”) on adjacent Lot 39; the applicant states that, in connection with that proposal, it requests an amendment to the prior approval to allow: (1) enlargement of the subject zoning lot; (2) reduction and reclassification of parking spaces authorized

MINUTES

under the special permit; and (3) other alterations to the site plan and to the existing garage related to the construction of the Center for Community Health; and

WHEREAS, as to the enlargement of the zoning lot, the applicant states that Lot 39 will be combined with the lots that are the subject of the prior variance and special permit (Lots 164, 1001, 1002) and the Center will be built on that portion of the new zoning lot; and

WHEREAS, as to the reduction and reclassification of parking spaces, the applicant states that 60 of the 393 permitted accessory parking spaces will be reclassified as required accessory parking for the Center, 49 of the 393 permitted accessory parking spaces will be reclassified as accessory to existing hospital uses within the MOB, and 38 of the 393 permitted accessory spaces will be eliminated to allow the construction of the Center's loading area; the result will be a decrease in the total number of permitted accessory parking spaces within the garage from 393 to 246 and an increase in the total number of required accessory spaces for new and existing hospital and ambulatory care facility uses from 0 to 109; the designations for the required accessory parking for the retail (76 spaces) and the Wesley House (49 spaces) will not change; accordingly, the proposal reflects a net reduction in the total number of spaces authorized under the special permit from 518 to 480; and

WHEREAS, the applicant also notes that an additional parking garage will be constructed on the site to accommodate the 350 accessory spaces required in connection with the Center; and

WHEREAS, finally, as to the alterations to the site plan, the applicant states that portions of the existing garage must be demolished in order to accommodate the loading areas for the Center; and

WHEREAS, as addressed in BSA Cal. No. 289-13-BZ, the Board agrees with the applicant that the proposed changes to the existing parking garage and the proposed development of the Center for Community Health are in furtherance of NYM's programmatic needs as a non-profit teaching hospital and will not alter the essential character of the neighborhood, substantially impair the appropriate use or development of adjacent property, or be detrimental to the public welfare; and

WHEREAS, based upon its review of the record, the Board finds the requested amendments to the plans are appropriate with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens*, and *amends* the resolution to permit the noted modifications; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked 'Received June 13, 2014'— eight (8) sheets; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the

Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, June 17, 2014.

The resolution has been amended to add “and ambulatory care facility uses” to the 18th WHEREAS.

Corrected in Bulletin No. 26, Vol. 99, dated July 2, 2014.

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, reopening, an extension of term for the operation of an eating and drinking establishment, which expired on March 15, 2014, and an extension of time to obtain a certificate of occupancy, which expired on March 20, 2013; and

WHEREAS, a public hearing was held on this application on February 25, 2014, after due notice by publication in the City Record, with a continued hearing on May 20, 2014, and then to decision on June 17, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 7, Queens, recommends disapproval of the application, citing the following concerns regarding the eating and drinking establishment at the site: (1) that the establishment is serving alcohol with an expired liquor license; (2) that it is being operated as a catering facility without a public assembly certificate of operation (“PA”) or an amended certificate of occupancy (“CO”); and (3) that it has open violations from the Department of Buildings (“DOB”); and

WHEREAS, the subject site is located on the northeast corner of the intersection of Kissena Boulevard and Laburnum Avenue, within a C2-2 (R3-2) and R3-2 zoning districts; and

WHEREAS, the site has 40,830 sq. ft. of lot area; and

WHEREAS, the site is occupied by a one-story building operated as a restaurant (Use Group 6); and

WHEREAS, the Board has exercised jurisdiction over the subject site since May 6, 1958 when, under BSA Cal. No. 788-57-BZ, the Board granted a variance to permit the construction of a one-story storage garage and motor vehicle repair shop, with two gasoline dispensing pumps, for a term of 20 years; and

WHEREAS, subsequently, the grant has been amended by the Board at various times; and

WHEREAS, on March 15, 1994, under the subject calendar number, the Board granted a special permit under ZR § 11-413 to permit the change of use from motor vehicle storage and repair to an eating and drinking establishment with accessory parking, for a term of ten years, which expired on March 15, 2004; and

WHEREAS, on October 5, 2010, the Board granted a ten-year extension of term from the expiration of the prior grant, to expire on March 15, 2014, and an amendment pursuant to ZR § 11-412 to permit certain modifications to the building; a condition of the grant was that a CO be obtained by October 5, 2011; and

WHEREAS, most recently, on March 20, 2012, the Board granted an extension of time to obtain a CO, to expire on March 20, 2013; and

WHEREAS, the applicant now requests an extension of term and an extension of time to obtain a CO; and

WHEREAS, at hearing, the Board directed the applicant to: (1) respond the concerns of the community board; (2) remove the food storage trucks from the site; and (3) clarify the location and screening of the proposed garbage storage area; and

WHEREAS, in response, the applicant confirmed that: (1) alcohol is not available for purchase at the establishment; (2) it will be seeking a PA and a CO for a Use Group 6 eating and drinking establishment; (3) there is no catering (Use Group 9) at the site; and (4) the nine remaining open DOB violations are related to the lack of PA and CO for Use Group 6; and

WHEREAS, as to the food storage trucks, the applicant submitted photographs demonstrating that such trucks had been removed; and

WHEREAS, as to the garbage storage area, the applicant provided an amended plot plan, which details the location and screening of the area; the applicant also represents that there is a drain in the area and that the dumpster will be cleaned twice per day; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of application marked ‘Received June 3, 2014’– (3) sheets; Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens*, and *amends* the resolution, as adopted on March 15, 1994, to grant a one-year extension of time to obtain a certificate of occupancy, to expire on June 17, 2015 and to grant a ten-year extension of term, to expire on March 15, 2024; *on condition*

MINUTES

that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this and *on further condition:*

THAT use of the site shall be limited to a restaurant (Use Group 6) with accessory parking for 61 automobiles;

THAT all signage shall comply with C2 zoning district regulations;

THAT the above conditions will be listed on the certificate of occupancy;

THAT a new certificate of occupancy will be obtained by June 17, 2015;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 17, 2014.

The resolution has been amended. Corrected in Bulletin No. 26, Vo. 99, dated July 2, 2014.

APPLICANT – Greenberg Traurig, LLP by Deirdre A. Carson, Esq., for Babbo Realty LLC, owner.

SUBJECT – Application November 9, 2012 – Extension of Term of a previously-granted Variance (§72-21) for the continued operation of a Use Group 6A eating and drinking establishment (*Babbo*) located at the cellar level, ground floor, and second floor of the subject premises, which expired on December 17, 2012. R7-2 zoning district.

PREMISES AFFECTED – 110 Waverly Place, south side of Waverly Place, between Sixth Avenue and Washington Square West/MacDougal Street, Block 552, Lot 53, Borough of Manhattan.

COMMUNITY BOARD #2M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening, a waiver of the Rules of Practice and Procedure, an amendment, and an extension of term for an eating and drinking establishment (Use Group 6), which expired on December 12, 2012; and

WHEREAS, a public hearing was held on this application on February 26, 2013, after due notice by publication in the *City Record*, with continued hearings on March 23, 2013, June 11, 2013, September 24, 2013, December 10, 2013, and January 14, 2014, and then to decision on February 11, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Manhattan, recommends denial of the requested extension of term until (1) the impacts on conforming uses are mitigated and (2) the noise and vibration from the HVAC and exhaust equipment are addressed and that the term be limited to two years; and

WHEREAS, certain members of the community provided testimony in support of the application; and

WHEREAS, the adjacent neighbor, represented by counsel, provided testimony in opposition to the operation of the restaurant, citing the following primary concerns: (1) the rooftop mechanicals create noise and vibration that can be heard in the adjacent building and were installed contrary to plan and without permits; (2) the kitchen exhaust is contrary to Code and emits excessive sound, vibration, and

odors; (3) garbage collection is disruptive as it occurs at late and early hours; (4) the use of the cellar is contrary to the Certificate of Occupancy and egress and ventilation requirements; and (5) the use of upper floors for commercial use is contrary to the terms of the variance; and

WHEREAS, certain other members of the community provided testimony in opposition to the operation of the restaurant, noting that the variance is limited to the cellar, first floor, and rear portion of the second floor, but commercial use also occupies the remainder of the building; and

WHEREAS, the subject site is on the south side of Waverly Place between Sixth Avenue and Washington Square West/MacDougal Street, within an R7-2 zoning district within the Greenwich Village Historic District; and

WHEREAS, the site is occupied by a four-story townhouse building occupied on the first floor and cellar by a Use Group 6A restaurant, Babbo; the occupancy of the front portion of the second floor and the entire third and fourth floors is limited to conforming use; and

WHEREAS, on December 17, 2002, under the subject calendar number, the Board granted an application under ZR § 72-21, to permit the re-establishment of a Use Group 6A eating and drinking establishment, without music or entertainment, located at the cellar level, ground floor, and second floor of the subject premises, and to permit the continuation of a non-conforming accessory business sign; and

WHEREAS, on December 14, 2004, the Board granted an amendment to permit the enlargement of the cellar for use as a wine storage area for the existing restaurant; and

WHEREAS, in response to the neighbor's concerns related to the HVAC units, the applicant agreed to adjust the HVAC equipment mounted on the dunnages of the building's fourth-floor roof, extend the kitchen exhaust up the building, as per new plans filed with and approved by DOB and LPC, and enclose the fan equipment of the kitchen exhaust within an acoustical enclosure; and

WHEREAS, the applicant also states that (1) the installation of all HVAC units has been approved and it is resolving any inconsistencies between the plans and the built conditions with DOB and ECB; (2) new, more effective, and quieter mechanical units have been installed, which include a low noise fan rotor, low speed fan motor, a compressor sound attenuation blanket and new vibration pads between the unit and dunnage for each unit; and (3) its acoustic engineer has studied the sound of the new system and concludes that the noise levels in the adjacent building are reduced and now match the ambient noise level, thus not exceeding any Noise Code limits; and

WHEREAS, as to the exhaust duct, the applicant states that it submitted DOB and LPC permits for the installation work and notes that the current applications and approvals supersede all prior ones and includes a custom-designed enclosure for the exhaust duct fan apparatus and

WHEREAS, the applicant submitted a Certificate of No Effect from LPC, dated September 9, 2013, which permits the changes to the rooftop mechanicals; and

MINUTES

WHEREAS, as to the garbage collection and bottle-crushing, the applicant states that it employs a service that is restricted to pickup after 8:00 a.m. and that it has installed a camera to monitor collections which reflects that collection has occurred after 8:00 a.m. and is therefore in compliance; and

WHEREAS, as to the occupancy of the cellar, the applicant states that it has removed a prep table and oven from the cellar and is in the process of obtaining a permit to remove a sink at which time it will be able to file a revised Certification of Correction and have the cellar use violation closed; and

WHEREAS, as to the use of the upper floors, the applicant represents that the second floor apartment is used as a pied a terre for one of the owners and that the third/fourth floor duplex was under lease until vacated in September 2012; and

WHEREAS, the applicant submitted photographs of the vacant duplex residential unit; and

WHEREAS, the applicant represents that office use has ceased and the duplex apartment is currently listed with a real estate broker to find a new tenant; and

WHEREAS, the Board finds that, in response to the neighbor's concerns, the applicant has undertaken significant improvements to its HVAC and exhaust fan duct systems, completed work while its application was in the hearing public process, and also addressed concerns related to the garbage collection hours and use of the cellar and the upper floors; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports a grant of the requested ten-year extension of term.

Therefore it is Resolved, that the Board of Standards and Appeals reopens and amends the resolution, so that as amended this portion of the resolution will read: "to extend the term of the variance for ten years from the prior expiration on December 12, 2012 to December 12, 2022; *on condition* that all work shall substantially conform to drawings as filed with this application, marked 'Received April 19, 2013' – one (1) sheet; and *on further condition*;

THAT the term will expire on December 12, 2022;

THAT a new Certificate of Occupancy be obtained by February 11, 2015;

THAT all rooftop mechanicals and associated sound attenuation measures be installed and maintained pursuant to the BSA-approved plans;

THAT the rooftop mechanicals and all other use of the building comply with Noise Code regulations;

THAT garbage collection hours are restricted to 8:00 a.m. to 8:00 p.m.;

THAT the use of the cellar must comply with all relevant regulations;

THAT the use of the front portion of the second and the entire third and fourth floors is restricted to residential occupancy;

THAT all conditions from prior resolution(s) not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by

the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted." (DOB Permit No. 102702522)

Adopted by the Board of Standards and Appeals, February 11, 2014.

APPLICANT – Sheldon Lobel, P.C., for Dankov Corporation, owner.

SUBJECT – Application January 2, 2014 – Amendment of an approved Variance (§72-21) which permitted construction of a two-story and mezzanine, two-family residential building, contrary to front yard regulations (§23-45(a)); the amendment seeks to permit construction of a three-story, three-family residential building. R5 zoning district.

PREMISES AFFECTED – 886 Glenmore Avenue, southeast corner of the intersection of Glenmore Avenue and Milford Street. Block 4208, Lot 17. Borough of Brooklyn.

COMMUNITY BOARD #5BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown and Commissioner Hinkson.....4
Negative:.....0
Absent: Commissioner Montanez1

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to an existing variance, to allow certain modifications to a residential building that does not comply with the front yard requirements; and

WHEREAS, a public hearing was held on this application on April 1, 2014, after due notice by publication in The City Record, with a continued hearing on April 29, 2014, and then to decision on May 13, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 5, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the southeast corner of the intersection of Glenmore Avenue and Milford Street, within an R5 zoning district; and

WHEREAS, the site has approximately 20 feet of frontage along Glenmore Avenue, 90 feet of frontage along Milford Street, and 1,800 sq. ft. of lot area; and

WHEREAS, the site is vacant; and

WHEREAS, on June 23, 2009, under the subject calendar number, the Board granted a variance to permit the construction of a two-story, two-family residential building at the site that did not comply with the front yard requirements of ZR § 23-45(a) (the “Original Building”); and

WHEREAS, the Original Building was proposed to

have two stories and a mezzanine, 2,241 sq. ft. of floor area (1.24 FAR), a wall height of 30’-0”, a building height of 32’-9”, two dwelling units, two parking spaces in the side yard, a front yard with a depth of 10’-0” along Glenmore Avenue, no front yard along Milford Street, and a side yard with a width of 30’-6”; and

WHEREAS, pursuant to the grant, substantial construction was to be completed by June 23, 2013; however, as of that date, substantial construction had not been completed; accordingly, on October 29, 2013, the Board granted an extension of time to complete construction for two years, to expire on October 29, 2015; and

WHEREAS, the applicant now seeks to amend the grant to allow three stories, 2,660.61 sq. ft. of floor area (1.48 FAR), a wall height of 28’-4”, a building height of 31’-10”, three dwelling units, two parking spaces in the side yard, no front yards along Milford Street and Glenmore Avenue frontages, and a side yard along the southern lot line with a width of 45’-0” (the “Proposed Building”); and the proposed building will be built up to the lot line on Glenmore Avenue; and

WHEREAS, the applicant notes that the Proposed Building deviates from the Original Building as follows: (1) an increase in floor area of 419.61 sq. ft.; (2) an FAR increase of 0.24; (3) a 1’-8” decrease in wall height; (4) a 1’-1” decrease in building height; and (5) a 14’-6” increase in the proposed side yard; and

WHEREAS, the applicant notes that, as with the Original Building, the Proposed Building complies in all respects with the R5 bulk regulations, except that, like the Original Building, it does not provide a front yard with a depth of 10’-0” along Milford Street; thus, the scope of the waiver requested has not changed; and

WHEREAS, further, the applicant states that although the Proposed Building includes a modest increase in floor area, its wall and building height are decreased, and the width of its side yard is increased by nearly 50 percent; and

WHEREAS, in addition, the applicant contends that the Proposed Building is consistent with the character of the surrounding community, which, in the original grant, the Board recognized as including mostly two- and three-story homes and multiple dwellings; and

WHEREAS, the applicant also notes that, in response to the Board’s comments at hearing, it revised the Proposed Building to provide a wider side yard and to align with the street wall location and height of the adjacent building along Glenmore Avenue; and

WHEREAS, based upon its review of the record, the Board finds that the proposed modification is appropriate, with certain conditions, as noted below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated June 23, 2009, to permit the noted modifications, *on condition* that any and all work shall substantially conform to drawings as they apply to the objection above noted, filed with this application marked ‘Received April 11, 2014’ - (11) sheets; and *on further condition*:

MINUTES

THAT bulk parameters of the building will be as follows: a maximum of three stories, a maximum of 2,660.61 sq. ft. of floor area (1.48 FAR), a maximum wall height of 28'-4", a maximum building height of 31'-10", three dwelling units, two parking spaces in the side yard, and a minimum side yard width of 45'-0";

THAT substantial construction will be completed by October 29, 2015;

THAT all conditions from the prior resolution not specifically waived by the Board will remain in effect;

THAT DOB must ensure compliance with all applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

(DOB Application No. 302233189)

APPLICANT – Slater & Beckerman, for Grand Imperial, LLC, owner.

SUBJECT – Application May 31, 2013 – Appeal seeking to reverse Department of Buildings’ determination not to issue a Letter of No Objection that would have stated that the use of the premises as Class A single room occupancy for periods of no less than one week is permitted by the existing Certificate of Occupancy. R10A zoning district.

PREMISES AFFECTED – 307 West 79th Street, northside of West 79th Street, between West End Avenue and Riverside Drive, Block 1244, Lot 8, Borough of Manhattan.

COMMUNITY BOARD #7M

ACTION OF THE BOARD – Application Denied.

THE VOTE TO GRANT –

Affirmative:0

Negative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings, dated May 3, 2013, acting on Department of Buildings Application No. 320378088 reads, in pertinent part:

This Department regrets it cannot issue a Letter of No Objection for New Law Tenant Class A M.D. & Single Room Occupancy to [be] occupied or rented for less than 30 days as per Chapter 225 of the Laws of 2010, which clarified existing provisions related to occupancy of Class A Multiple Dwellings.

In order to allow such use, an Alteration Application must be filed with the Department to change use and Certificate of Occupancy obtained if permitted by zoning; and

WHEREAS, a public hearing was held on this application on February 4, 2014, after due notice by publication in *The City Record*, with a continued hearing on March 25, 2014, and then to decision on June 10, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, New York State Assemblymember Linda B. Rosenthal and New York City Council Member Helen Rosenthal provided testimony in opposition to the appeal, citing concerns about illegal transient hotel use including occupancy periods of just days at a time, which are disruptive to the permanent tenants and the surrounding residential uses; and

WHEREAS, the Goddard Riverside SRO Law Project

and the Hotel Trades Council provided testimony in opposition to the appeal, citing concerns about a history of harassment towards permanent tenants and otherwise protecting their rights; and

WHEREAS, certain community members and building residents provided testimony in opposition to the appeal, citing concerns about transient use in a residence zoning district and within a building occupied by permanent tenants required to share space with those renting on a short term; and

WHEREAS, certain community members spoke in support of the appeal, citing concerns that the building might otherwise be converted into a homeless shelter; and

WHEREAS, the site is located on the north side of West 79th Street between West End Avenue and Riverside Drive within an R10A zoning district and is occupied by a ten-story (with a partial 11th story) building (the “Building”); and

WHEREAS, this appeal seeks reversal of the Determination, thereby directing DOB to issue a Letter of No Objection stating that the use of the Building as Class A single room occupancy for periods of no less than one week is permitted by the existing certificate of occupancy No. 53010; and

Building History

WHEREAS, the Building was constructed in 1906 as the Lasanno Court, an approximately 40-unit apartment building; and

WHEREAS, during the Great Depression, in the 1930s, the Building was subdivided into single room occupancy (SRO) units; and

WHEREAS, in 1939, the New York State Legislature adopted MDL § 248, known as the Pack Bill, which provides regulations for SRO buildings; and

WHEREAS, in 1943, the Building was altered to comply with MDL § 248 and on March 25, 1943, DOB issued the Building’s first CO permitting 247 SRO units; the Building was renamed the Imperial Court Hotel; and

WHEREAS, DOB also issued COs in 1954 and September 1960; and

WHEREAS, on November 7, 1960, DOB issued the most recent CO permitting in the cellar, “one (1) superintendent’s apartment, boiler room, storage and tenants’ laundry”; on the first floor, “sixteen (16) rooms-single room occupancy, two (2) community kitchenettes, registration desk, manager’s office and lobby of building”; on the second through tenth floors, “twenty-three (23) rooms-single room occupancy and two (2) community kitchenettes”; and in the penthouse, “four (4) rooms – single room occupancy;” and

WHEREAS, the applicant states that in total, the CO permits 227 SRO Units and that currently and historically, 64 of the 227 SRO units have been regulated through rent control or stabilization (the “Statutory Units”); and

WHEREAS, the Appellant states that since 1979, all of the 64 Statutory Units and all of the 163 non-Statutory Units have been rented for periods of no less than seven days, in

MINUTES

compliance with the CO and the MDL; the Appellant submitted occupancy logs for 2008, 2009, 2010, and 2011 in support of this claim; and

Procedural History

WHEREAS, on January 13, 2011, DOB issued Notices of Violation in connection with the seven-day rentals; and

WHEREAS, on January 19, 2011, the owner applied to HPD for a Certificate of No Harassment (CONH), pursuant to Administrative Code § 28-107.4 in connection with its application for a permit to build a second means of egress; and

WHEREAS, on September 13, 2011, the Department of Housing Preservation and Development (HPD) commenced a proceeding against the owner at the Office of Administrative Trials and Hearings (OATH) seeking a denial for the application for a CONH on the grounds that it had committed acts of harassment against some of the tenants; and

WHEREAS, on December 7, 2012, the OATH administrative law judge held that the owner had committed some acts of harassment against some of the tenants and recommended denial of the CONH; and

WHEREAS, in January 2013, the Environmental Control Board sustained the violations, finding that stays of less than 30 days were not permitted by the CO; and

WHEREAS, on February 11, 2013, the owner requested a Letter of No Objection (LNO) from DOB stating that the use of the Building as a Class A SRO for periods of no less than one week is permitted by the existing certificate of occupancy; DOB's denial of that request forms the basis of the subject appeal; and

WHEREAS, the Building is the subject of an Article 78 proceeding in New York Supreme Court, (Index No. 103032-2012) appealing ECB's decision to sustain the violations and is pending; and

WHEREAS, the Appellant states that since January 2011, it has attempted to rent the 163 non-statutory Units for periods of no less than 30 days, but the majority of the units have remained vacant, a condition which prompted the Appellant to seek the LNO to allow rental of the units for terms not less than one week; and

The Relevant Statutory Provisions

WHEREAS, relevant MDL provisions are provided below in pertinent part:

1939 Text

MDL § 248 (*Single Room Occupancy*)

(16) No room shall be rented in any such building for a period of less than a week.

1946 Text

(*Definitions*)

MDL § 4

(16) "Single room occupancy" is the occupancy by one or two persons of a single room, or of two or more rooms which are joined together, separated from all other rooms within an apartment in a multiple dwelling, so that the

occupant or occupants thereof reside separately and independently of the other occupant or occupants of the same apartment. When a class A multiple dwelling is used wholly or in part for single room occupancy, it remains a class A multiple dwelling.

MDL § 4

(8) A "class A" multiple dwelling is a multiple dwelling which is occupied, as a rule, for permanent residence purposes . . .

MDL § 4

(9) A "class B" multiple dwelling is a multiple dwelling which is occupied, as a rule transiently, as the more or less temporary abode of individuals or families who are lodged with or without meals . . .

1960 Text

MDL § 248 (*Single Room Occupancy*)

(16) It shall be unlawful to rent any room in any such dwelling for a period of less than a week.

MDL § 4 (*Definitions*)

Class A Multiple Dwelling: a multiple dwelling which is occupied, as a rule, for residence purposes and not transiently.

Class B Multiple Dwelling: a multiple dwelling which is occupied, as a rule, transiently.

2011 MDL Amendment (Chapter 225 of 2010)

MDL § 4.8(a): A "class A" multiple dwelling is a multiple dwelling that is occupied for permanent residence purposes. This class shall include tenements, flat houses, maisonette apartments, apartment houses, apartment hotels, bachelor apartments, studio apartments, duplex apartments, kitchenette apartments, garden-type maisonette dwelling projects, and all other multiple dwellings except class B multiple dwellings. A class A multiple dwelling shall only be used for permanent residence purposes. For the purposes of this definition, "permanent residence purposes" shall consist of occupancy of a dwelling unit by the same natural person or family for thirty consecutive days or more and a person or family so occupying a dwelling unit shall be referred to herein as the permanent occupants of such dwelling unit.

MDL § 248

(1) . . . A dwelling occupied pursuant to this section shall be deemed a class A dwelling and dwelling units occupied pursuant to this section shall be occupied for permanent residence purposes, as defined in paragraph a of subdivision eight of section four of this chapter.

(16) (*removed*); and

The Appellant's Position

WHEREAS, the Appellant asserts that the LNO should be issued for the following primary reasons: (1) the use of the Building for short-term occupancy of no less than one

MINUTES

week was permitted at the time the CO was issued and MDL § 248 allowed Class A SRO units to be rented for periods of one week or more; and (2) Chapter 225 of 2010, an amendment to the MDL which requires that short-term residences may not be less than 30 days, applies prospectively and, therefore, not to the Building; and

WHEREAS, the Appellant asserts that in 1943 and 1960, when the Building was issued COs permitting single room occupancy units, the MDL provided that SRO units may be lawfully rented and occupied for periods of no less than a week; and the legislative history of the 1939 enactment of MDL § 248(16), New York State case law, and independent scholarly research clearly support the statutory provision that there is a weekly minimum applied to the period of occupancy; and

WHEREAS, the Appellant states that in 1943, when the Building was issued a CO permitting SRO units, the plain language of MDL § 248 (16) – “No room shall be rented in any such building for a period of less than a week” - permitted the SRO Units to be rented for periods of no less than one week; and

WHEREAS, the Appellant relies on the text of MDL § 248 adopted in 1939 (the “Pack Bill”) and in effect in 1943; and

WHEREAS, the Appellant states that DOB is correct that in 1960, the MDL included definitions for Class A and Class B Multiple Dwelling, however, even if the 1960 text were operative, as was the case in 1939, these definitions did not define the length of permitted occupancy for Class A and Class B Multiple Dwelling, only that Class A must have been occupied, as a rule, for permanent residence purposes and Class B, as a rule, transiently; and

WHEREAS, the Appellant also considers the MDL § 248(16) in effect when the 1960 CO was issued - “it shall be unlawful to rent any room in any such dwelling for a period of less than a week;” and

WHEREAS, the Appellant asserts that the CO permits the Building to be used for single room occupancy and that prior to the MDL Amendment, the prior use of the Building was for short-term residences, in which occupants’ stay was restricted to no less than one week; and

WHEREAS, the Appellant agrees that MDL § 248(16) allows tenants to *pay* on a weekly basis, but there is not any basis to conclude that *occupancy* was for a 30-day minimum; and

WHEREAS, the Appellant asserts that the legislative history, court statements, and scholarly research support the conclusion that MDL § 248(16) expressly and implicitly permitted the SRO units to be lawfully occupied for periods of no less than a week and that it applied to both rental and occupancy; and

WHEREAS, the Appellant asserts that prior to the 2010 MDL Amendment (the “MDL Amendment”), the use of the Building was in compliance with MDL § 248(16) in that all rooms were rented for periods of no less than one week; and

WHEREAS, the Appellant asserts that based on the

communication surrounding the Pack Bill’s enactment during the Great Depression, it had multiple purposes including protecting occupants in multiple dwelling rooming houses from fire and to set up minimum standards for sanitation, maintenance, and operation and to provide health and safety protections for the visitors of the 1939-1940 World’s Fair who sought accommodations in excess of what the city’s hotels could provide; and

WHEREAS, the Appellant cites to the City of New York v. 330 Continental LLC, 60 A.D.3d 226 (1st Dept 2009) decision on whether the City was entitled to a preliminary injunction for the point that the court stated that SROs were entitled to short term rental of a week; and

WHEREAS, the Appellant also cites to scholarly research on New York City during the Great Depression which states that the city lifted regulations that prevented the operation of SROs and connected it to the World’s Fair needs; and

WHEREAS, as to the use and preservation of rights, the Appellant asserts that (1) since at least 1979, and most likely since 1943, the Building has been occupied by residential stays of no less than a week; (2) the right to rent the SRO Units for residential occupancies of no less than a week has been accrued; (3) the savings clause of MDL § 366 provides that the codification of Sections 1 through 4 of Chapter 225 of the Laws of 2010 will not impair the right to continue to rent the SRO Units for occupancies of no less than one week; and (4) Section 8 of the Laws of 2010 was not codified in the MDL and did not impair the Appellant’s accrued rights; and

WHEREAS, the Appellant asserts that since the existing CO permits weekly occupancy, it is irrelevant whether or not the Building had been historically occupied for stays as short as one week; and

WHEREAS, however, the Appellant asserts that it has submitted affidavits attesting to the fact that since at least 1979 (when the owner purchased the Building) and most likely since 1943 (when the first CO was issued), the policy of the Imperial Court has been that rooms may be rented and occupied for residential stays for periods of as short as one week; and

WHEREAS, the Appellant’s submissions include: an affidavit from the owner’s family member who has worked at the Building since 1979; an affidavit from the son of the prior owner who worked at the Building from 1979 to 2005; five affidavits from Building tenants; eight affidavits from Building employees; and affidavits from the Building’s; and

WHEREAS, the Appellant represents that after January 2013, Imperial Court’s policy was changed to conform to DOB’s interpretation and therefore rooms are rented and occupied for periods of no less than one month; and

WHEREAS, the applicant states that DOB has failed to produce documentation to support the assertion that the MDL ever restricted occupancy of rooms rented weekly to periods of 30 days or more; and

WHEREAS, the Appellant asserts that it has accrued a right to rent and occupy the SRO units on a weekly basis as of

MINUTES

1943, and again in 1960, when the COs were issued based on compliance with the MDL then in effect; and

WHEREAS, as to the MDL Amendment, effective in 2011, which specifies that short-term residences may not be less than 30 days, the Appellant asserts that it applies prospectively and, therefore, not to the Building; and

WHEREAS, the Appellant states that MDL § 366 (1) and (4) are savings clauses which dictate that the MDL provisions apply prospectively; specifically, MDL § 366(1) “the repeal of any provision this chapter, or the repeal of any provisions of any statute of the state or local law, ordinance, resolution or regulation shall not affect or impair any act done, offense committed or right accruing, accrued or acquired . . . prior to the time of such repeal, but the same may be enjoyed, asserted, enforced, prosecuted or inflicted as fully and to the same extent and in the same manner as if such provisions had not been repealed;” and (4) “No existing right or remedy of any kind shall be lost or impaired by reason of the adoption of this chapter as so amended unless by specific provision of a law which does not amend all articles of this chapter;” and

WHEREAS, the Appellant asserts that the MDL Amendment does not contain any “specific provision” that an existing right to rent for seven days or more has been “lost or impaired” as a result of the MDL Amendment therefore the “right” or the owner to rent units for periods of seven days or more may be continued; and

WHEREAS, the Appellant also cites to MDL § 13, which provides that “nothing . . . shall be construed to require any change in the construction, use or occupancy of any multiple dwelling lawfully occupied as such on April eighteenth, nineteen hundred twenty-nine, under the provisions of all local laws, ordinances, rules and regulations applicable thereto on such date; but should the occupancy of such dwelling be changed to any other kind or class after such date, such dwelling shall be required to comply with the provisions of section nine;” and

WHEREAS, the Appellant asserts that the Building was constructed as a “tenement” in 1906 and lawfully occupied on April 18, 1929, so nothing in the MDL requires any change in the use or occupancy of the Building; and

WHEREAS, the Appellant asserts that because the Building was operated in compliance with the MDL prior to the MDL Amendment, the use of the Building for stays of no less than one week may be continued; and

WHEREAS, accordingly, the Appellant states that if the Board determines that MDL § 248(16) applied both to rental and occupancy, then MDL § 366 would permit the Appellant to continue to rent the SRO Units for weekly occupancy; and DOB’s Position

WHEREAS, DOB asserts that its denial of the LNO request was proper for the following primary reasons: (1) the Building has a CO and the CO does not permit the Class A New Law tenement to be occupied for periods of less than 30 days; and (2) the MDL Amendment did not change DOB’s interpretation of the occupancy authorized by the CO, but rather clarified existing provisions related to occupancy of

Class A Multiple Dwellings; and

WHEREAS, DOB asserts that contrary to the Appellant’s arguments, the MDL never permitted weekly occupancy of the Building and the 1943 and 1960 COs are consistent with that position; and

WHEREAS, DOB asserts that the 1960 version of the MDL is applicable and not the 1939 version since the most recent CO (issued in 1960) resulted from a 1958 Alteration Application; however, both versions of the MDL distinguish transient occupancy from permanent occupancy and would therefore be consistent with DOB’s interpretation; and

WHEREAS, DOB notes that under both the 1939 MDL and the 1960 MDL, Class A use was distinguished from “transient” use; weekly occupancy is more appropriately associated with transient use; and

WHEREAS, thus DOB cites to the 1958-2011 text of MDL § 248 (16): “it shall be unlawful to *rent* [an SRO room] for less than a week.” (emphasis added); and

WHEREAS, DOB’s position is that the former MDL § 248 (16) restricts the payment term to a minimum of one week but does not similarly identify the minimum occupancy period; and

WHEREAS, DOB also notes that the term “occupancy” appears throughout the MDL and could have been used in lieu of “rental” if the weekly rental minimum requirement were intended to authorize weekly occupancy; and

WHEREAS, DOB asserts that the weekly rental provision of the 1939 Pack Bill explained that the bill’s weekly rental provision governed only rental payments and not occupancy; and

WHEREAS, DOB states that while there is no definition of the term “rental” in the MDL, the common understanding of the word is that it governs payment, and not occupancy and in the definition of “Class A” the MDL does not provide that it should be “rented” for permanent residence purposes, but uses the term “occupied;” and

WHEREAS, DOB states that there is nothing in the statute to suggest that rental and occupancy should be treated as equivalents; and

WHEREAS, DOB notes that in 1958, the MDL contained the term “permanent residence purposes” and defined a “Class A multiple dwelling as a multiple dwelling which is occupied, as a rule, for permanent residence purposes;” it defined a “Class B multiple dwelling” as “a multiple dwelling which is occupied as a rule transiently, as the more or less temporary abode of individuals or families who are lodged with or without meals;” and

WHEREAS, DOB states that according to the 1960 CO, the building is a “New Law Tenement Class ‘A’ Multiple Dwelling and Single Room Occupancy” which means that it must be occupied as a Class A multiple dwelling which mandates occupancy be for “permanent residence purposes;” and

WHEREAS, DOB asserts that it is consistent with the principle of statutory construction that a statute or ordinance be construed as a whole and that its sections be considered together and with reference to each other; and

MINUTES

WHEREAS, accordingly, DOB asserts that MDL § 248(16) must be read in conjunction with the MDL §§ 4(8) and (9) in effect in 1960 which define Class A and Class B occupancies; and

WHEREAS, DOB cites to MDL §§ 4(8) and (9) which define the terms “Class A” and “Class B” multiple dwellings, use the term “occupied,” and provide that a Class A multiple dwelling is to be occupied for “permanent residence purposes”, while a Class B multiple dwelling is to be occupied transiently;” and

WHEREAS, DOB notes that MDL § 248 states that “a dwelling occupied pursuant to [section 248] shall be deemed a Class A dwelling;” the definition of “single room occupancy in MDL § 4(16) further states that “When a class A multiple dwelling is used wholly or in part for a single room occupancy, it remains a Class A multiple dwelling;” and

WHEREAS, DOB states that according to MDL § 4 (8), a Class A multiple dwelling is to be occupied for “permanent residence purposes;” and

WHEREAS, DOB consulted Merriam Webster’s dictionary which defines the word “permanent” as “continuing or enduring without fundamental or marked change,” while the word “transient” is defined as “not lasting long” and “passing through or by a place with only a brief stay or sojourn;” and

WHEREAS, DOB states that the plain meaning of “permanent” resident cannot be construed to include a person who occupies a hotel room for only a week; and

WHEREAS, DOB asserts that common sense supports a conclusion that one does not become a permanent resident of a location by virtue of a one-week stay and that such stay is more consistent with a “transient” occupancy See Connors v. Boorstein, 4 N.Y. 2d 172, 175(1958) (interpreting statutory terms as matter of common sense.”); 440 East 102nd Street Corp. v. Murdock, 285 N.Y. 298, 309 (1941)(citing “common use and understanding” in defining statutory terms); Kupelian v. Andrews, 233 N.Y. 278, 284 (1922) (statutory terms construed in a manner consistent with “common experience”); and

WHEREAS, DOB notes that pursuant to NYC Charter § 643, DOB is the agency responsible for interpreting the MDL in the first instance and DOB has consistently interpreted Class A permanent residence to require a minimum occupancy of 30 days, treating Class A “permanent” occupancy as the equivalent of J-2 Building Code occupancy and Class B “transient” occupancy as the equivalent of J-1 day-to-day or weekly occupancy; and

WHEREAS, DOB asserts that its interpretation is consistent with the principles of statutory interpretation that a statute be interpreted consistent with common sense - in this case weekly turnover would not commonly be understood to be permanent occupancy – and that a statute must be construed as a whole such that MDL§ 248(16) which prohibits rental of any room in and Class A SRO for a period of less than one week must be interpreted in conjunction with MDL §§ 4(8) and (9) which define Class A and Class B occupancies in terms of occupancy and not rental; and

WHEREAS, DOB notes that single room occupancy units are suitable only for permanent residence purposes, because while MDL § 248 required some upgrades, there was no requirement that these units comply with the more stringent fire safety requirements applicable to transient units; and

WHEREAS, DOB also notes that MDL § 248 was enacted in 1939, during the Great Depression, when weekly rates might be preferred over daily rates which would likely result in a higher weekly cost and that weekly rates would be preferred to monthly rates, because those sums would be potentially easier for people to save than a higher monthly sum; and

WHEREAS, DOB states that the Court’s decision in City of New York v. 330 Continental LLC was not a decision on the merits and the Appellant’s citations are *dicta*; and

WHEREAS, DOB states that the decision issued in Continental was issued in response to the City’s request for a preliminary injunction to enjoin the defendants in that case from using the disputed premises transiently, pending final determination of the action of the case and that the excerpts cited from that case are non-binding *dicta* used to explain the court’s determination that the City had failed to establish a right to a preliminary injunction; and

WHEREAS, DOB notes that the court stated that, “[i]n view of the as-yet unresolved vagueness and ambiguity of the language of the MDL and the ZR that the City seeks to enforce, it cannot be said that the City has demonstrated a clear right to the drastic remedy of preliminary injunction;” the decision was not a final ruling on the case which ultimately settled with the defendants agreeing to use the subject premises for “permanent residence purposes” consistent with the City’s interpretation of the term, meaning for thirty consecutive days or longer; and

WHEREAS, DOB concludes that since the Continental litigation settled and since it was only a decision on the preliminary injunction motion and not a decision on the merits of the case, the City had no basis to appeal; the City then clarified this historical interpretation in Chapter 225 of the Laws of 2010; and

WHEREAS, as to the MDL Amendment, DOB asserts that the amendments contained in Chapter 225 of the Laws of 2010 (and the 1960 change to MDL § 248) did not change what had been its interpretation (for at least 40 years) of what “permanent residence purposes” meant, which was the occupancy of a dwelling unit by the same natural person or family for thirty consecutive days or more;” and

WHEREAS, DOB states that, instead, the purpose of the amendments was as stated in the law, a “clarification” of the DOB’s historical interpretation relating to occupancy of Class A multiple dwellings;” and

WHEREAS, DOB notes that the bill was enacted “to fulfill the original intent of the law as construed by enforcing agencies, including the New York City Department of Buildings” (See “New York State Senate Introducer’s memorandum in Support, reprinted in New York State Archives’ Legislative History/Bill Jacket for the Laws of 2010,

MINUTES

Chapter 225); and

WHEREAS, finally, DOB notes that Section 8 of the amendments provides that it “shall apply to all buildings in existence on such effective date and to buildings constructed after such effective date;” therefore, as clarifying amendments, the amendments are not to be applied only prospectively; and

WHEREAS, DOB asserts that since the Building was required to be occupied permanently (for 30 days or more) both prior to Chapter 225 and after, no existing right to rent for seven or more days has been lost or impaired as a result of the MDL amendments and transient use which was never permitted cannot be continued pursuant to the MDL savings clauses; and

WHEREAS, DOB states that prior to the adoption of Chapter 225, MDL §§ 4(16) and 248(1), the Building was a Class A multiple dwelling subject to MDL § 4(8)’s requirement that it be occupied for permanent residence purposes with “permanent residence” meaning occupancy of 30 days or more and not weekly occupancy; and

WHEREAS, DOB notes that it issued violations for illegal transient occupancy prior to the 2011 enactment of the MDL Amendment; and

The Board’s Conclusion

WHEREAS, the Board agrees with DOB that the Multiple Dwelling Law and the Building’s COs never permitted occupancy of the premises for weekly stays, and therefore there is no “existing right or remedy that is lost,” and the MDL’s savings clauses do not apply; and

WHEREAS, the Board agrees that the provisions of the MDL must be read together and that (1) the CO classification of Class A SRO is informed by the definition of Class A occupancy as permanent occupancy; and (2) the internal MDL references, dictionary definitions, plain meaning, common sense, and the legislative intent all support DOB’s conclusion that permanent occupancy requires stays of periods of at least 30 days; and

WHEREAS, the Board agrees with DOB that the text in effect at the time of the 1960 CO issuance applies, but would reach the same conclusion even if the text in effect in 1943 applied; and

WHEREAS, the Board notes that although the relevant MDL text has been amended since 1939, the underlying principles, including common sense concepts of time and residency, have not been redefined and that a seven-day stay would have never satisfied a requirement for permanent occupancy; and

WHEREAS, the Board finds that the distinctions between Class A and Class B and permanent and transient were understood at the time the CO was issued and there is not any evidence that in 1943 or 1960, at the issuance of the COs, that DOB accepted a rental term of any less than a month; and

WHEREAS, the Board does not find support for the Appellant’s assertion that the MDL in effect in 1943 expressly or implicitly reflected that the SRO Units could be lawfully rented and occupied for weekly periods; and

WHEREAS, the Board does not see any indication in the legislative history that there was a greater need for transient (weekly) occupancy rather than for shorter payment terms; and

WHEREAS, further, the Board notes that DOB is the agency empowered to interpret the MDL in the first instance and that the MDL allows it to create greater restrictions; and

WHEREAS, the Board accepts DOB’s interpretation of the legislative history and finds that the Appellant’s focus on the fleeting goals of the World’s Fair, derived from trade organizations’ interests and the scholarly discussion of housing during the Great Depression is unpersuasive; and

WHEREAS, the Board notes that there are public policy reasons to require greater safety measures for transient or truly temporary accommodations and permanent accommodations and finds the fact that the Pack Bill only required that the Building comply with MDL § 248 is consistent with a finding that Class A SROs are a form of permanent occupancy rather than transient; and

WHEREAS, the Board notes that the 1939 amendments encouraged the improvement of conditions of buildings which had been built for one form of Class A permanent use but have been converted to another much denser Class A occupancy; and

WHEREAS, the Board notes that the issuance of the CO in 1960 with the occupancy classification of Class A for the first time – meaning permanent occupancy – supports DOB’s conclusion that the approval was reviewed pursuant to the 1958 MDL because if the owner at the time believed that the newly defined Class A classification changed the meaning of the operative MDL provisions then he would have had an interest in revising the classification of the Building rather than obtaining a new CO with the new Class A classification; and

WHEREAS, the Board notes that the Appellant contends that the issuance of a CO certifies that the Building “conforms substantially to the approved plans and specifications, and to the requirements of the building code and all other laws and ordinances, and of the rules and regulations of the Board of Standards and Appeals, applicable to a building of its class and kind at the time the permit was issued” and that such reliance actually supports a conclusion that DOB issued the CO pursuant to the 1958 clarified text, which the owner would have been aware of; and

WHEREAS, the Board notes that the 1943 CO only identifies the building as a New Law Tenement and Single Room Occupancy but not also as Class A; and

WHEREAS, the Board notes that tenements are within the MDL § 4 definition of Class A; and

WHEREAS, the Board finds it logical to conclude that the 1943 CO classification and the 1960 CO classification had the same meaning, just as the 1939 MDL text and 1958 MDL text did; and

WHEREAS, the Board finds that all three discussed versions of the MDL support the point that there is a distinction between Class A and Class B occupancy in that

MINUTES

Class A and its regulatory provisions apply to permanent occupancy and Class B applies to transient; and

WHEREAS, the Board notes that the 1946 MDL defined “single room occupancy” as the occupancy of a single room separated from all other rooms within an apartment in a multiple dwelling and that “[w]hen a class A multiple dwelling is used wholly or in part for single room occupancy, it remains a class A multiple dwelling;” and

WHEREAS, accordingly, accordingly, the Board finds that MDL § 248 clearly establishes SROs within the definition of Class A multiple dwellings and Class A multiple dwellings are to be occupied “as a rule for “permanent residence purposes,” which is not satisfied by stays of one week; and

WHEREAS, as to the MDL Amendment and the Appellant’s invocation of the savings clauses, the Board accepts DOB’s position that the amendment served to clarify language and clearly articulate the position that it had held for decades that permanent occupancy requires a minimum stay of 30 days; the Board does not see any support for a conclusion that a Class A SRO with a minimum seven-day term is a separate protected class of occupancy; and

WHEREAS, the Board agrees with DOB that no right was ever established or accrued for seven-day occupancy and thus there is no right to save; and

WHEREAS, the Board notes that the MDL Amendment does not allow property owners to maintain transient use with permanent use fire safety conditions; transient use must meet transient use requirements; and

WHEREAS, the Board finds that there has always been a necessary distinction between transient and permanent occupancy and that is furthered by the CO identification of Class A and Class B occupancies; and

WHEREAS, the Board notes that the Building was constructed and occupied for several decades as a New Law Tenement Multiple Dwelling and that it was converted to a New Law Tenement Class A Multiple Dwelling SRO building; in both iterations, the Building accommodated permanent occupancy, identified as Class A since 1960; based on the legislative history and the economic climate, DOB’s assertion that the rental payment system and not the need for more transient occupancy is the change which sparked the 1939 amendments and the Building’s conversion; and

WHEREAS, the Board notes that approximately one-quarter of the Building is occupied by the Statutory Units which are permanent tenancies; and

WHEREAS, the Board notes that the Appellant sought to gather additional Building occupancy records, but the Board does not find those records to be relevant because the Building was constructed as a Class A apartment building, and has since then had COs only for a Class A SRO, there is no basis to assert that it was actually a Class B use; and

WHEREAS, the Board does not find that evidence related to the occupancy of the Building is relevant to the interpretation of the MDL text; and

Therefore it is Resolved, that the Board denies the appeal and affirms DOB’s denial of a request for a Letter of

No Objection, which would authorize occupancy of the Building for a minimum period of seven days rather than 30 days.

Adopted by the Board of Standards and Appeals, June 10, 2014.

The resolution has been amended. Corrected in Bulletin No. 26, Vo. 99, dated July 2, 2014.

249-13-BZ

CEQR #14-BSA-027K

APPLICANT – Eric Palatnik, P.C., for Reva Holding Corporation, owner; Crunch LLC, lessee.

SUBJECT – Application August 26, 2013 – Special Permit (§73-36) to allow a physical cultural establishment (*Crunch Fitness*) within portions of existing commercial building, C4-3 zoning district.

PREMISES AFFECTED – 747 Broadway, northeast corner of intersection of Graham Avenue, Broadway and Flushing Avenue, Borough of Brooklyn.

COMMUNITY BOARD #1BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated July 25, 2013, acting on Department of Buildings (“DOB”) Application No. 301509231, reads in pertinent part:

Proposed physical culture establishment is contrary to that allowed as-of-right under ZR 32-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site located in a C4-3 zoning district, the operation of a physical culture establishment (“PCE”) on the second story of a five-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on November 26, 2013 after due notice by publication in *The City Record*, with a continued hearing on January 14, 2014 and then to decision on February 4, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Brooklyn, recommends disapproval of this application; and

WHEREAS, the subject site is an irregular lot located at the northeast corner of the intersection of Graham Avenue, Flushing Avenue, and Broadway, with a portion of the lot extending to Debevoise Street, within a C4-3 zoning district; and

WHEREAS, the site has 87.67 feet of frontage along Graham Avenue, 203.56 feet of frontage along Flushing Avenue, 38.75 feet of frontage along Broadway, 110 feet of

frontage along Debevoise Street, and 38,700 sq. ft. of lot area; and

WHEREAS, the site is occupied by a five-story commercial building with 131,580 sq. ft. of floor area (3.4 FAR); and

WHEREAS, the PCE is proposed to occupy approximately 15,953 sq. ft. of floor area on the second story of the building; and

WHEREAS, the PCE will be operated as Crunch Fitness; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE will be Monday through Saturday, from 5:00 a.m. to 11:00 p.m., and Sunday from 7:00 a.m. to 9:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, at hearing, the Board directed the applicant to clarify: (1) whether any portion of the PCE was proposed on the first story; and (2) whether there were any residential uses in the subject building or in any adjacent buildings; and

WHEREAS, in response, the applicant clarified that although the PCE is accessed through a common commercial lobby on the first story, there is no PCE program space on the first story; in addition, the applicant represented that there are no residential uses in the subject building or in any adjacent building; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No. 14BSA027K dated August 12, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions;

MINUTES

Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issued a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site located in a C4-3 zoning district, the operation of a PCE on the second story of a five-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received November 6, 2013” – Four (4) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on February 4, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, February 4, 2014.

The resolution has been amended to correct the Application No. which read: “301509923.” Now reads: “301509231”.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated December 18, 2013, acting on DOB Application No. 320817345, reads, in pertinent part:

Proposed physical culture establishment is not permitted as-of-right in a C4-2 zoning district pursuant to ZR 32-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C4-2 zoning district, the operation of a physical culture establishment (“PCE”) in portions of the first story and mezzanine of a one-story commercial building, contrary to ZR § 32-30; and

WHEREAS, a public hearing was held on this application on May 6, 2014, after due notice by publication in the *City Record*, and then to decision on June 10, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, Community Board 11, Brooklyn, recommends approval of the application, on condition that: (1) the 85th Street side of the property is not used for entrance or egress; (2) the gate on the 85th Street side is secured at all times; and (3) additional bike racks on 86th Street are provided, if permitted by law; and

WHEREAS, the subject site is a through lot located on the block east of 20th Avenue between 85th Street and 86th Street, within a C4-2 zoning district; and

WHEREAS, the site has approximately 11 feet of frontage along 20th Avenue, 70 feet of frontage along 85th Street, 70 feet of frontage along 86th Street, and 14,330 sq. ft. of lot area; and

WHEREAS, the site is occupied by a one-story commercial building with a mezzanine; the building has a total of 13,990 sq. ft. of floor area (0.98 FAR); and

WHEREAS, the applicant states that it proposes to enlarge the mezzanine level by 3,550 sq. ft., resulting in a total building floor area of 17,540 sq. ft. (1.22 FAR); and

WHEREAS, the proposed PCE will occupy 16,880 sq. ft. of floor area – 12,540 sq. ft. of floor area on the first story and 4,340 sq. ft. of floor space on the mezzanine level; and

WHEREAS, the PCE will be operated as Planet Fitness; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE will be seven days per week, 24 hours per day; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, at hearing, the Board requested clarification regarding the proposed PCE’s use of the 85th Street entrance to the site; and

WHEREAS, in response, the applicant provided photographs showing that the 85th Street entrance to the site is enclosed with a gated fence; the applicant also represented that the PCE would not have an entrance on the 85th Street side of the building; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No. 14BSA093K dated December 23, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows;

MINUTES

Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issued a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site within a C4-2 zoning district, the operation of a PCE in portions of the first story and mezzanine of a one-story commercial building, contrary to ZR § 32-30; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received March 11, 2014” – Four (4) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on June 10, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 10, 2014.

The resolution has been amended. Corrected in Bulletin No. 26, Vo. 99, dated July 2, 2014.

COMMUNITY BOARD #3BK

Jeff Mulligan, Executive Director

MINUTES

**REGULAR MEETING
TUESDAY MORNING, JULY 15, 2014
10:00 A.M.**

Present: Vice-Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez.

SPECIAL ORDER CALENDAR

280-01-BZ

APPLICANT – Akerman, LLP, for S&M Enterprises, owner.

SUBJECT – Application April 25, 2014 – Extension of Time to Complete Construction and obtain a Certificate of Occupancy of a previously granted Variance (§72-21) for construction of a mixed use building, which expires on May 7, 2014. C1-9 zoning district.

PREMISES AFFECTED – 663-673 2nd Avenue, west side of 2nd Avenue between East 36th and East 37th Streets, Block 917, Lot(s) 21, 24, 30, 32, 34, Borough of Manhattan.

COMMUNITY BOARD #6M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver, a reopening, and an extension of time to complete construction and obtain a certificate of occupancy; and

WHEREAS, a public hearing was held on this application on June 10, 2014, after due notice by publication in *The City Record*, and then to decision on July 15, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations Commissioner Ottley-Brown and former Chair Srinivasan; and

WHEREAS, Community Board 6, Manhattan, recommends approval of this application on condition that the site be designed so as not to negatively impact traffic flow; conditions include that curb cuts be on Second Avenue, the addition of any accessory parking spaces be within the building, and the location of the residential building service entrance be on East 37th Street, rather than Second Avenue; and

WHEREAS, the subject site is located on the west side of Second Avenue, between East 36th Street and East 37th Street, within a C1-9 zoning district; and

WHEREAS, on May 7, 2002, the Board granted a variance under the subject calendar number pursuant to ZR § 72-21, to permit the construction of a mixed-use building; and

WHEREAS, on September 24, 2002, the Board granted

an amendment to the resolution, under the subject calendar number; and

WHEREAS, on April 11, 2006, the Board granted an extension of time of four years to complete construction and obtain a certificate of occupancy; and

WHEREAS, on March 16, 2010, the Board granted an extension of time of four years to complete construction and obtain a certificate of occupancy;

WHEREAS, the applicant explains the need for additional time as being associated with financial concerns due to the economic climate from 2007 to 2011 led and new Metropolitan Transit Authority requirements for the disposition of development rights; and

WHEREAS, the applicant notes that the majority of the site is improved with a recessed roadway exit for the Queens-Midtown Tunnel; and

WHEREAS, the applicant represents that the conditions in the area have remained the same since the initial Board approval and thus the proposal, which provides a residential density that is within the as-of-right limits for C1-9 development, remains appropriate; and

WHEREAS, the applicant submitted photographs which reflect that the surrounding area today is consistent with the conditions at the time of the original grant; and

WHEREAS, the applicant has represented to the Community Board that its recommendations have all been incorporated into the proposal; and

WHEREAS, the Board inquired about whether the current parking lot use had all necessary licenses; and

WHEREAS, in response, the applicant submitted a copy of a license for a public parking lot issued by the Department of Consumer Affairs to expire on March 31, 2015; and

WHEREAS, the applicant noted that it must return to the Board for approval if it makes changes to the proposed tenancy or use of the building; and

WHEREAS, based upon the above, the Board finds it appropriate to grant the requested extension of time.

Therefore it is Resolved, that the Board of Standards and Appeals reopens and amends the resolution, said resolution having been adopted on May 7, 2002, so that as amended this portion of the resolution shall read: “to permit an extension of time to complete construction and obtain a certificate of occupancy, for an additional period of four years from the date of the prior grant’s expiration, to expire on May 7, 2018; *on condition*:

THAT construction will be completed and a new certificate of occupancy shall be obtained by May 7, 2018;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

MINUTES

(DOB Application No. 102973926)

Adopted by the Board of Standards and Appeals July 15, 2014.

341-02-BZ

APPLICANT – Sheldon Lobel, P.C., for 231 East 58th Street Associates LLC, owner.

SUBJECT – Application March 25, 2014 – Amendment of previously approved Variance (§72-21) which permitted retail stores (UG 6) on the first floor of an existing five story building. The amendment seeks to eliminate the term, which expires in April 8, 2023. R8B zoning district.

PREMISES AFFECTED – 231 East 58th Street, north side of East 58th Street between Second and Third Avenues, Block 1332, Lot 16, Borough of Manhattan.

COMMUNITY BOARD #6M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for an amendment to a variance to eliminate the term for Use Group 6 retail use at the site; and

WHEREAS, a public hearing was held on this application on June 10, 2014, after due notice by publication in *The City Record*, and then to decision on July 15, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Ottley-Brown; and

WHEREAS, Community Board 6, Manhattan, recommends disapproval of the request to eliminate the term; and

WHEREAS, the site is located on the north side of East 58th Street, between Second Avenue and Third Avenue, within an R8B zoning district; and

WHEREAS, the site is currently occupied by a five-story mixed residential and commercial building, with two retail stores on the first story, and residences on the second through fifth stories; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 4, 1967 when, under BSA Cal. No. 633-66-BZ, the Board granted a variance to permit the conversion of the first story from residential to Use Group 6 retail stores; the Board granted a 15-year term, to expire on January 4, 1982; and

WHEREAS, the grant expired on January 4, 1982, was reinstated under the subject calendar number on April 8, 2003, and the term extended on June 11, 2013 for ten years to expire on April 8, 2023; and

WHEREAS, the applicant now seeks to eliminate the term; and

WHEREAS, the applicant requests that the term be

eliminated for the following reasons: (1) there is an established commercial character in the area, (2) the commercial use is longstanding and functions well; and (3) there is a hardship in securing leases due to the limited term; and

WHEREAS, based upon its review of the record, the Board finds that the requested elimination of the term is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens*, and *amends* the resolution, dated April 8, 2003, to eliminate a term and specifically the April 8, 2023 expiration; *on condition* that any and all work will substantially conform to drawings associated with prior approvals; and *on further condition*:

THAT all conditions from the prior resolutions not specifically waived by the Board remain in effect and will be noted on the Certificate of Occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Application No. 121570460)

Adopted by the Board of Standards and Appeals, July 15, 2014.

765-50-BZ

APPLICANT – Kenneth H. Koons, for R.G. Ortiz Funeral Home, Ink., owner.

SUBJECT – Application April 14, 2014 – Extension of Term (§11-411) of an approved variance permitting an existing one-story funeral parlor, which expired on November 20, 2013. C1-2 zoning district.

PREMISES AFFECTED – 1430-36 Unionport Road, eastside 43 feet South of Olmstead Avenue, Block 3933, Lot 51, Borough of Bronx.

ACTION OF THE BOARD – Application granted.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for an extension of time to complete construction and obtain a certificate of occupancy for a two-story mixed residential and community facility building at the subject site; and

WHEREAS, a public hearing was held on this application on June 10, 2014, after due notice by publication in *The City Record*, and then to decision on July 15, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on west side of East 19th Street, between Avenue N and Avenue O, within an R4-1 zoning district; and

WHEREAS, the site has 35 feet of frontage along East

19th Street and 3,500 sq. ft. of lot area; and

WHEREAS, the applicant proposes to develop the site with a two-story mixed residential (Use Group 2) and community facility (Use Group 4) building with 5,500 sq. ft. of floor area (1.49 FAR) and building height of 39'-2"; and

WHEREAS, the site was formerly located within an R6 zoning district; and

WHEREAS, the applicant states that New Building Permit No. 302041261-01-NB was issued on March 9, 2006 (the "New Building Permit"), authorizing construction of the building in accordance with the R6 zoning district regulations; and

WHEREAS, on April 5, 2006 (the "Enactment Date"), the City Council voted to adopt the Midwood Rezoning, which rezoned the site from R6 to R4-1; and

WHEREAS, the New Building Permit lapsed by operation of law on the Enactment Date because the plans did not comply with the new R4-1 zoning district regulations and foundations were not complete; and

WHEREAS, on July 10, 2007, under the subject calendar number, the Board adopted a resolution recognizing that a vested right to continue construction under the New Building Permit had accrued under the common law doctrine of vested rights, and the Board reinstated the New Building Permit for a term of four years, to expire on July 10, 2011; and

WHEREAS, the applicant states that, as of July 10, 2011, construction had not been completed and a certificate of occupancy had not been issued; accordingly, the applicant sought an extension of time to complete construction; at that time, the applicant represented that construction was delayed due to financing problems and its contractor going out of business; and

WHEREAS, on May 1, 2012, under the subject calendar number, the Board extended the time to complete construction and obtain a certificate of occupancy for a term of two years, to expire on May 1, 2014; and

WHEREAS, the applicant represents that as of May 1, 2014, construction had not been completed and a certificate of occupancy had not been issued; and

WHEREAS, the applicant notes that, since the Board's 2012 grant, no work has been performed and a new owner has taken control of the site; and

WHEREAS, consequently, the applicant now seeks an additional four-year term in which to complete construction and obtain a certificate of occupancy; and

WHEREAS, the Board has reviewed the evidence in the record and determined that the requested extension of time is warranted; and

WHEREAS, accordingly, the Board hereby grants the owner of the site a two-year extension of time to complete construction and obtain a certificate of occupancy.

Therefore it is Resolved, that this application to renew New Building Permit No. 302041261-01-NB, as well as all related permits for various work types, either already issued or necessary to complete construction, is granted, and the Board hereby extends the time to complete construction and obtain a certificate of occupancy for two years from the expiration date

MINUTES

of the prior grant, to expire on May 1, 2016.

Adopted by the Board of Standards and Appeals, July 15, 2014.

266-07-A

APPLICANT – Law Office of Fredrick A. Becker, for 1610 Avenue S LLC, owner.

SUBJECT – Application January 9, 2013 – Extension of time to complete construction and obtain a certificate of occupancy of a previously granted common law vested rights application, which expired on December 9, 2012. R4-1 Zoning District.

PREMISES AFFECTED – 1602-1610 Avenue S, southeast corner of Avenue S and East 16th Street. Block 7295, Lot 3. Borough of Brooklyn.

COMMUNITY BOARD #3BK

ACTION OF THE BOARD – Application granted.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for an extension of time to complete construction and obtain a certificate of occupancy for a six-story mixed residential and community facility building at the subject site; and

WHEREAS, a public hearing was held on this application on March 25, 2014, after due notice by publication in *The City Record*, with continued hearings on May 13, 2014 and June 10, 2014, and then to decision on July 15, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn recommends disapproval of this application, citing concerns about the lack of maintenance of the site and its effect on nearby residents; and

WHEREAS, Assemblyman Steven Cymbrowitz provided testimony in opposition to this application; and

WHEREAS, the Madison-Marine-Homecrest Civic Association provided testimony in opposition to this application; and

WHEREAS, certain members of the surrounding community provided testimony in opposition to this application; and

WHEREAS, collectively, the parties who provided testimony in opposition to the proposal are the “Opposition”; and

WHEREAS, the Opposition raised the following concerns with respect to the instant application: (1) that a “For Sale” sign has been posted at the site recently; (2) that the owner does not have the financing to complete the project; (3) that there are open Department of Buildings (“DOB”) and Environmental Control Board (“ECB”) violations at the site; (4) that the sidewalk along the perimeter of the building is in

disrepair; (5) that the site is a dumping ground; and (6) that the site negatively affects the quality of life and property values of the surrounding neighborhood; and

WHEREAS, the subject site is located on the southeast corner of the intersection of Avenue S and East 16th Street, within an R4-1 zoning district; and

WHEREAS, the site has 85 feet of frontage along Avenue S, 95 feet of frontage along East 16th Street, and 8,075 sq. ft. of lot area; and

WHEREAS, the applicant proposes to develop the site with a six-story mixed residential (Use Group 2) and community facility (Use Group 4) building with 25 dwelling units; and

WHEREAS, the site was formerly located within an R6 zoning district; and

WHEREAS, the applicant states that New Building Permit No. 302054568-01-NB was issued on January 11, 2006 (the “New Building Permit”), authorizing construction of the building in accordance with the R6 zoning district regulations; and

WHEREAS, on February 15, 2006 (the “Enactment Date”), the City Council voted to adopt the Homecrest Rezoning, which rezoned the site from R6 to R4-1; and

WHEREAS, the New Building Permit lapsed by operation of law on the Enactment Date because the plans did not comply with the new R4-1 zoning district regulations and foundations were not complete; and

WHEREAS, the applicant notes that by letter dated November 18, 2008, DOB acknowledged that the New Building Permit was lawfully issued; and

WHEREAS, on December 9, 2008, under the subject calendar number, the Board adopted a resolution recognizing that a vested right to continue construction under the New Building Permit had accrued under the common law doctrine of vested rights, and the Board reinstated the New Building Permit for a term of four years, to expire on December 9, 2012; and

WHEREAS, the applicant represents that, subsequent to the 2008 grant, construction did not proceed due to insufficient financing; thus, as of December 9, 2012, construction had not been completed and a certificate of occupancy had not been issued for the building; and

WHEREAS, consequently, the applicant now seeks an additional two-year term in which to complete construction and obtain a certificate of occupancy; and

WHEREAS, at hearing, the Board directed the applicant to: (1) demonstrate that financing has been secured to complete the project; (2) clarify the status of open violations; and (3) respond to the concerns of the Opposition regarding the disrepair of the sidewalk and the lack of maintenance at the site; and

WHEREAS, as to the financing, the applicant provided an affidavit from an owner of the site, which indicates that Besyata Investment Group has committed up to \$6,000,000 to complete construction of the building; and

WHEREAS, as to the open violations, the applicant represents that although the violating conditions have been

MINUTES

eliminated, the fines have yet to be paid; as such, the violations remain open; and

WHEREAS, the applicant states that it will resolve all outstanding violations upon the renewal of the New Building Permit by the Board; and

WHEREAS, as to the disrepair of the sidewalk, the applicant states that because construction machinery must access the site by traversing the sidewalk, the sidewalk will not be repaired until the building is nearing completion; however, in the meantime, the broken concrete will be removed and hard gravel will be installed in order to provide a level walkway; and

WHEREAS, as to the maintenance of the site, the applicant provided an invoice and photographs of the site, which demonstrate that the site has been cleared of all debris and garbage; and

WHEREAS, as to the Opposition's concern regarding the "For Sale" at the site; in sum and substance, the Opposition is concerned that the applicant seeks renewal of the New Building Permit for the sole purpose of conveying the site to another developer, which the Opposition characterizes is inconsistent with the owner's statement that it has obtained financing to complete the building; and

WHEREAS, the Board notes, however, that under the common law doctrine of vested rights, such rights accrue not to a specific owner but rather to the real property itself; as such, a change in ownership—let alone an anticipated change in ownership or control—is not a basis for the Board to deny a request for an extension of time to complete construction; and

WHEREAS, likewise, the Board acknowledges the limitations on its authority to deny a request for an extension of time to complete construction where it has already recognized that the right to continue construction has vested, as set forth in Lefrak Forest Hills Corp. v Galvin, 40 AD2d 211, 217 [2d Dept 1972] affd, 32 NY2d 796, 298 NE2d 685 [1973]; and

WHEREAS, the Board has reviewed the evidence in the record and determined that the requested extension of time is warranted; and

WHEREAS, accordingly, the Board hereby grants the owner of the site a two-year extension of time to complete construction and obtain a certificate of occupancy.

Therefore it is Resolved, that this application to renew New Building Permit No. 302054568-01-NB, as well as all related permits for various work types, either already issued or necessary to complete construction, is granted, and the Board hereby extends the time to complete construction and obtain a certificate of occupancy for two years from the date of this resolution, to expire on July 15, 2016.

Adopted by the Board of Standards and Appeals, July 15, 2014.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated May 27, 2014, acting on DOB Application No. 420927475, reads, in pertinent part:

1. Community facility floor area ratio contrary to ZR Section 24-111;
2. Sky-exposure plane contrary to ZR Section 24-54;
3. Number of parking spaces contrary to ZR Section 25-31;
4. Side yard contrary to ZR Section 24-35(a);
5. Lot coverage contrary to ZR Section 24-11;
6. Front yard contrary to ZR Section 24-34; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site within an R2 zoning district, the enlargement of a one-story community facility building to be occupied as a religious school (Use Group 3), which does not comply with regulations regarding floor area ratio (“FAR”), sky-exposure plane, parking, side and front yards, and lot coverage, contrary to ZR §§ 24-11, 24-34, 24-35, 24-54, 25-31, and 24-111; and

WHEREAS, the application is brought on behalf of Greek Orthodox Community of Whitestone Holy Cross, Inc. (“Holy Cross”), a not-for-profit corporation, which owns and operates Valiotis Greek-American School (“Valiotis”), the existing school at the subject site; and

WHEREAS, a public hearing was held on this application on June 10, 2014, after due notice by publication in the *City Record*, and then to decision on July 15, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and

Commissioner Ottley-Brown; and

WHEREAS, Community Board 7, Queens, recommends approval of the application, subject to the following conditions: (1) “One Way” signs are installed at the 12th Avenue entrance to the church parking lot for the hours of 7:30 a.m. to 6:00 p.m. on school days; (2) “One Way” signs are installed indicating “Exit Only” on at the 150th Street exit of the church parking lot for the hours of 7:30 a.m. to 6:00 p.m. on school days; (3) staff will be required to park only in the church parking lot and not on the local streets; (4) all staff cars will be required to park in a predetermined area and stacked next to each other; (5) kindergarteners and first graders will be dismissed 15 minutes early; (6) Valiotis will pursue the installation of a Stop sign at the intersection of 150th Street and 12th Avenue; and (7) Valiotis, Community Board 7, and Councilman Vallone will continue to pursue a request for a crossing guard at the intersection of 150th Street and 12th Avenue; and

WHEREAS, Councilman Paul A. Vallone, submitted testimony in support of the application; and

WHEREAS, the subject site is located on the southeast corner of the intersection of 12th Avenue and 150th Street, within an R2 zoning district; and

WHEREAS, the site has 125 feet of frontage along 12th Avenue, 100 feet of frontage along 150th Street, and 12,500 sq. ft. of lot area; and

WHEREAS, the site is occupied by a one-story school (Use Group 3) with 5,870 sq. ft. of floor area (0.47 FAR) and a building height of 31'-11"; the building was completed in 2004, and, according to Certificate of Occupancy No. 400676559, includes: in the sub-cellar, a gymnasium, assembly space, a mechanical room, a kitchen, and accessory storage; on the cellar level, a child care center for up to 36 children; on the first story, classrooms, offices, and accessory storage; and at the attic level, accessory storage; the four required accessory off-street parking spaces for the building are provided across 12th Avenue in the Holy Cross church parking lot (Block 4516, Lot 1; formerly Block 4516, Lot 50), per restrictive declaration; and

WHEREAS, the applicant notes that an as-built survey revealed that the building was constructed with the following non-compliances: (1) a front yard depth of 14'-0" (a minimum front yard depth of 15'-0" is required, per ZR § 24-34); (2) two side yards with widths of 8'-0" (two side yards with minimum widths of 8'-0" and 10'-2" are required, per ZR § 24-35); and (3) a lot coverage of 66 percent (a maximum lot coverage of 60 percent is permitted, per ZR § 24-11); and

WHEREAS, the applicant now proposes to vertically and horizontally enlarge the building, resulting in a two-story building with 13,967 sq. ft. of floor area (1.11 FAR) and building height of 35'-0"; and

WHEREAS, the applicant states that the variance is requested to legalize the above-noted non-compliances, which are maintained in the enlarged portion of the building; in addition, the following new non-compliances are

MINUTES

proposed: (1) an FAR of 1.11 is proposed (the maximum permitted FAR is 0.5 FAR, per ZR § 24-111); (2) a sky-exposure plane of less than 1-to-1 is proposed (a 1-to-1 sky-exposure plane is required, per ZR § 24-54); and (3) four accessory off-street parking spaces (a minimum of ten accessory parking spaces are required, per ZR § 25-31); and

WHEREAS, the applicant states that Valiotis began as an afternoon Greek School Afternoon Program with three students in 1977 and currently enrolls 180 students in nursery through third grade; the applicant notes that demand for Valiotis has increased sharply since 2008, when enrollment was approximately 30 students; and

WHEREAS, the applicant represents that 35 prospective students were turned away in the 2013-2014 school year because the existing facility is too small to accommodate them; further, approximately 50 students must occupy classroom space in temporary trailers in a nearby site; and

WHEREAS, the applicant states that the proposal would allow Holy Cross to institute a comprehensive elementary school curriculum, consisting of nursery through fifth grade, with a total enrollment of 250 students; and

WHEREAS, the applicant states that the proposed 7,937 sq-ft. enlargement includes the following: on the first story, a new library, a new science lab, a new classroom, and new boys' and girls' restrooms; and on the second story, a new classroom, a new computer room, a new art room, additional storage, and new boys' and girls' restrooms; and

WHEREAS, the applicant states that the following are the primary programmatic needs of Holy Cross, which necessitate the requested variances: (1) to accommodate the needs of its growing congregation of approximately 650 members, many of whom have children enrolled at Valiotis and would like to send them to the school for fourth and fifth grade; (2) to provide interdisciplinary teaching spaces (arts, information technology, and science) in order to prepare its students for modern intermediate and high school curricula; and (3) to provide sufficient space for Holy Cross' Greek School Afternoon and Sunday School programs; and

WHEREAS, the applicant states that there is a direct nexus between the requested waivers and the programmatic needs of Holy Cross; and

WHEREAS, in particular, the applicant asserts that a complying building could not provide adequate classroom and program space for Holy Cross; as noted above, Valiotis was built and received a certificate of occupancy despite several as-built non-compliances; thus, constructing a complying building would require costly demolition of substantial portions of the existing building, resulting in further reductions of program space; and

WHEREAS, as to the new non-compliances associated with the proposed enlargement (FAR, sky-exposure-plane, and parking), the applicant asserts that each is essential to constructing a space that will accommodate Holy Cross's needs; the FAR is necessary, as noted above, because the existing school is too small to accommodate even its existing student body (50 students must learn in temporary trailers); the

sky-exposure-plane waiver is necessary to provide sufficient headroom in a new classroom on the second story; the parking waiver is necessary because the existing building was constructed without parking and providing parking would require complete renovation and a substantial loss of program space; for example, if parking were to be located in the sub-cellar and/or cellar, Valiotis would be forced to give up portions of its gymnasium and child care center; and

WHEREAS, in addition, the applicant states, as noted above, that Valiotis has four designated parking spaces in the Holy Cross church parking lot across 12th Avenue; under the proposal, the number of designated spaces will be increased to ten; and

WHEREAS, accordingly, the applicant asserts that only the proposal will provide the necessary space for Holy Cross to achieve its programmatic needs at Valiotis; and

WHEREAS, the Board acknowledges that Holy Cross, as an educational institution, is entitled to significant deference under the law of the State of New York as to zoning and as to its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in Cornell Univ. v. Bagnardi, 68 N.Y.2d 583 (1986), an educational institution's application is to be permitted unless it can be shown to have an adverse effect upon the health, safety, or welfare of the community, and general concerns about traffic, and disruption of the residential character of a neighborhood are insufficient grounds for the denial of an application; and

WHEREAS, accordingly, based upon the above, the Board finds that the limitations and inefficiencies of the existing building and the site, when considered in conjunction with the programmatic needs of Holy Cross, create unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, since Holy Cross is a non-profit institution and the variance is needed to further its non-profit mission, the finding set forth at ZR § 72-21(b) does not have to be made in order to grant the variance requested in this application; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, impair the appropriate use or development of adjacent property, or be detrimental to the public welfare, consistent with ZR § 72-21(c); and

WHEREAS, the applicant represents that the surrounding neighborhood is characterized by one- and two-story residential and community facility uses; south of the site along 150th Street between 12th Road and the Cross Island Parkway, the built character reflects the area's zoning designations (C1-2 and C2-2), in that one- and two-story mixed residential and commercial buildings predominate; and

WHEREAS, the applicant notes that the proposed use exists and is permitted as-of-right in the subject R2 zoning district; and

WHEREAS, as such, the applicant contends that the proposed enlargement is entirely consistent with the use and bulk of the area; and

WHEREAS, the applicant states that the proposal was

MINUTES

designed to be sensitive to the scale of the streetscapes along both 150th Street and 12th Avenue, in that it maintains the existing yards and provides complying wall and building heights; and

WHEREAS, as to adjacent uses, the applicant states that directly south of the site is a two-story community facility building, directly east of the site is an undeveloped lot with a width of 50 feet, directly north of the site (across 12th Avenue) is the parking lot for the Holy Cross church, and directly west of the site (across 150th Street) is a school; the applicant also notes that there is a two-story church north and west of the site, on the northwest corner of the intersection of 12th Avenue and 150th Street; and

WHEREAS, the applicant also notes that the site abuts an R3-2 zoning district, where the maximum permitted FAR for a community facility is 1.0 FAR, which is consistent with the proposed 1.11 FAR; and

WHEREAS, at hearing, the Board directed the applicant to: (1) provide a site plan of the parking lot at Block 4516, Lot 1, which shows the proposed number of parking spaces, site circulation, and signage; and (2) clarify the proposed traffic mitigation and safety measures; and

WHEREAS, in response, the applicant provided the requested plan, which reflects the proposed parking lot circulation and signage, which includes a single entrance point (the 12th Avenue curb cut) and exit point (the 150th Street curb cut) for the lot; and

WHEREAS, as traffic mitigation and safety, the applicant states that security personnel will be assigned to the site during pickup and drop-off times, dismissal times for pre-kindergarten and kindergarten students will be staggered, and bus queuing and parking will be relocated from 150th Street to 12th Avenue; and

WHEREAS, accordingly, the Board finds that, in accordance with ZR § 72-21(c), this action will neither alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that the hardship was not self-created and that no development that would meet the programmatic needs of Holy Cross could occur on the existing lot; and

WHEREAS, accordingly, the Board finds that the hardship herein was not created by the owner or a predecessor in title, per ZR § 72-21(d); and

WHEREAS, the applicant states and the Board agrees that the requested waivers are the minimum necessary to afford relief to satisfy the Holy Cross' programmatic needs, in accordance with ZR § 72-21(e); and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination prepared in accordance with Article 8 of the New York State

Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, on a site within an R2 zoning district, the enlargement of a one-story community facility building to be occupied as a religious school (Use Group 3), which does not comply with regulations regarding FAR, sky-exposure plane, parking, side and front yards, and lot coverage, contrary to ZR §§ 24-11, 24-34, 24-35, 24-54, 25-31, and 24-111; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received May 21, 2014" – Nine (9) sheets; and "Received July 14, 2014" – One (1) sheet; and *on further condition*:

THAT the building parameters will be: two stories; a maximum building height of 35'-0"; a maximum of 13,967 sq. ft. of floor area (1.11 FAR); a minimum front yard depth of 14'-0"; two side yards with minimum widths of 8'-0"; and a maximum lot coverage of 66 percent, as illustrated on the BSA-approved plans;

THAT a deed restriction will be recorded against Block 4516, Lot 1 designating minimum of ten parking spaces for the school's use;

THAT "One Way" signs will be installed and maintained at the 12th Avenue entrance to the church parking lot for the hours of 7:30 a.m. to 6:00 p.m. on school days;

THAT "One Way" signs will be installed and maintained at the 150th Street exit of the church parking lot for the hours of 7:30 a.m. to 6:00 p.m. on school days;

THAT the 12th Avenue curb cut will only be used for entering the parking lot and the 150th Street curb cut will only be used for exiting the parking lot, and signs reflecting these restrictions will be installed and maintained;

THAT Valiotis teachers and staff will be required to park only in the church parking lot and not on the local streets;

THAT the above conditions will be listed on the Certificate of Occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans are considered approved only for the portions related to the specific relief granted;

THAT construction will proceed in accordance with ZR § 72-23; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 15, 2014.

CEQR

APPLICANT – The Law Office of Jay Goldstein, PLLC, for One NY Plaza Co. LLC, owner; Gear Fitness LLC d/b/a Retro Fitness, lessee.

SUBJECT – Application April 10, 2014 – Special Permit (§73-36) to allow the operation of a physical culture establishment (*Retro Fitness*) in the sub-cellar and concourse level of a 50-story commercial building. C5-5(LM) zoning district.

PREMISES AFFECTED – 1 New York Plaza, 114-142 13 Broad Street, 13 South Street, 1-21 Water Street, 49-63 & 54-64 Whitehall Street, Block 4, Lot 7501, Borough of Manhattan.

COMMUNITY BOARD #1M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated April 9, 2014, acting on DOB Application No. 12809052, reads, in pertinent part:

Proposed use as a physical culture establishment, as defined by ZR 12-10, is not permitted as of right in C5-5 district according to ZR 32-10 and must be referred to the Board of Standards and Appeals for approval pursuant to ZR 73-36; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C5-5 zoning district, within the Special Lower Manhattan District (LM), the operation of a physical culture establishment (“PCE”) in portions of the sub-cellar and cellar levels of a 50-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on June 17, 2014, after due notice by publication in the *City Record*, and then to decision on July 15, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located within the entire block bounded by Broad Street, South Street, Whitehall Street, and Water Street and is known as One New York Plaza; it is within a C5-5 (LM) zoning district; and

WHEREAS, the lot has an area of 111,382 sq. ft., with approximately 342 feet of frontage on Water Street, approximately 291 feet of frontage on Whitehall Street, approximately 334 feet of frontage on South Street, and approximately 362 feet of frontage on Broad Street; and

WHEREAS, the applicant states that the site is occupied by a 50-story commercial building with 1,941, 436 sq. ft. of floor area (17.4 FAR); and

WHEREAS, the proposed PCE will occupy 16, 987 sq.

ft. of floor space with 6,677 sq. ft. on the sub-cellar and 10,310 sq. ft. on the cellar level; and

WHEREAS, the PCE will be operated as Retro Fitness; and

WHEREAS, the applicant represents that the services at the PCE include dance, aerobics, yoga, and Pilates in addition to cardiovascular exercise and weight training management equipment; and

WHEREAS, the hours of operation for the PCE will be Monday through Thursday 24 hours, Friday until 10:00 p.m., and Saturday and Sunday, from 6:00 a.m. to 7:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action discussed in the CEQR Checklist (CEQR No. 14BSA1138M) dated May 5, 2014; and

Therefore it is Resolved, that the Board of Standards and Appeals issued a Type II determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site within a C5-5 zoning district, within the Special Lower Manhattan District, the operation of a PCE in portions of the sub-cellar and cellar level of a 50-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received May 5, 2014” Seven (7) – sheets; and *on further condition*:

THAT the term of the PCE grant will expire on July 15, 2024;

THAT there will be no change in ownership or

MINUTES

operating control of the PCE without prior application to and approval from the Board;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 15, 2014.

COMMUNITY BOARD #14BK

Jeff Mulligan, Executive Director

MINUTES

**REGULAR MEETING
TUESDAY MORNING, JULY 22, 2014
10:00 A.M.**

Present: Vice-Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez.

SPECIAL ORDER CALENDAR

391-80-BZ

APPLICANT – Sheldon Lobel, P.C., for The NY Community Hospital of Brooklyn, INK., owner.

SUBJECT – Application April 16, 2014 – Amendment of previously approved variance (§72-21) which permitted enlargement to an existing hospital building (*NY Community Hospital of Brooklyn*), contrary to bulk regulations. The Amendment seeks to enclose a ramp which increases the degree of lot coverage non-compliance. R7A zoning district.

PREMISES AFFECTED – 2525 Kings Highway, south side of Avenue O approximately 175 feet northeast of the intersection formed by Bedford Avenue and Kings Highway, Block 6772, Lot 4, Borough of Brooklyn.

COMMUNITY BOARD #14BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to a variance to permit a minor enlargement; and

WHEREAS, a public hearing was held on this application on June 24, 2014, after due notice by publication in *The City Record*, and then to decision on July 22, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of this application, on condition that: (1) sound attenuation is provided; (2) the compactor is operated during daylight hours only; and (3) the gate enclosing the compactor area remains closed when the compactor is not operating; and

WHEREAS, this application is brought on behalf of the New York Community Hospital of Brooklyn (“NYCH”), which is a not-for-profit corporation and an affiliate of New York Presbyterian Hospital-Weill Medical College of Cornell University; and

WHEREAS, the subject site is a triangular lot bounded by Avenue O and Kings Highway, within an R7A zoning district; and

WHEREAS, the site has 13,471 sq. ft. of lot area and is occupied by a five-story hospital building with 52,632 sq. ft. of floor area (3.91 FAR); and

WHEREAS, the site has been under the Board’s jurisdiction since May 23, 1950, when, under BSA Cal. No. 70-50-A, the Board granted a variance under the 1916 Zoning Resolution to permit, in a residence use district, the brick enclosure of a ramp leading to the basement of an existing hospital and the construction of a fifth and sixth story and a penthouse; this grant extended at various times over the years to allow completion of construction; and

WHEREAS, on December 12, 1950, under BSA Cal. No. 538-50-A, the Board granted an appeal to permit an air-conditioning system with an equipment room on the roof; and

WHEREAS, on January 29, 1963, under BSA Cal. No. 725-62-BZ, the Board granted a variance to permit, in an R6 zoning district, the enlargement of the existing four-story hospital building, contrary to the regulations for lot coverage, height and setback, sky-exposure plane, minimum dimensions of a court, and loading berths; and

WHEREAS, most recently, on October 7, 1980, under the subject calendar number, the Board granted a variance to permit the enlargement of the existing four-story hospital building contrary to the regulations for lot coverage, sky-exposure plane, rear yard equivalent, and loading berths; and

WHEREAS, the applicant now seeks to amend the grant to permit a minor enlargement that increase the degree of non-compliance with respect to lot coverage; the enlargement will be accomplished by infilling an existing court at the first through fifth stories and it will result in an increase in floor area from 52,632 sq. ft. (3.91 FAR) to 53,794 sq. ft. (3.99 FAR); and

WHEREAS, the applicant states that the enlarged portion of the building will accommodate storage areas, structural elements, and a trash compactor; and

WHEREAS, the applicant contends that NYCH requires the additional spaces and equipment in order to carry out its programmatic needs as teaching hospital; namely, the applicant states that NYCH must adhere to National Fire Protection Association (“NFPA”) standards; and

WHEREAS, the applicant represents that the proposed increases in floor area and floor space and the ability to compact refuse will enable the hospital to meet or exceed NFPA guidelines, resulting in improvements in building maintenance, patient care, and staff safety; and

WHEREAS, the Board acknowledges that the proposal will further NYCH’s programmatic needs; and

WHEREAS, at hearing, the Board directed the applicant to: (1) verify that the proposal complies with the applicable parking requirements; and (2) clarify the proposed sound attenuation measures for the compactor; and

WHEREAS, in response, the applicant stated that the proposal complies with applicable parking requirements and submitted plans depicting the proposed sound attenuation measures; and

WHEREAS, in addition, the applicant agrees to limit the hours of compacting to ordinary business hours; and

MINUTES

WHEREAS, based upon its review of the record, the Board finds that the proposed elimination of term is appropriate, with certain conditions, as noted below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated October 7, 1980, to permit the noted modifications, *on condition* that any and all work shall substantially conform to drawings as they apply to the objection above noted, filed with this application marked 'Received April 16, 2014' - nine (9) sheets; and *on further condition*:

THAT the floor area of the building will not exceed 53,794 sq. ft. (3.99 FAR);

THAT parking will be as reviewed and approved by DOB;

THAT compacting of refuse will be limited to daily, from 8:00 a.m. to 8:00 p.m.;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT DOB must ensure compliance with all applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, July 22, 2014.

775-85-BZ

APPLICANT – Sheldon Lobel, P.C., for Ivy Cross Island Plaza, owner.

SUBJECT – Application December 18, 2013 – Extension of Term of a previously approved Variance (§72-21) which permitted the construction of a three-story office building, contrary to permitted height and use regulations, which expired on February 24, 2012; Amendment to modify the parking layout, eliminate buffering and eliminate the term; Waiver of the Rules. C1-3/R2 and R2 zoning district.

PREMISES AFFECTED – 133-33 Brookville Boulevard, triangular lot with frontages on Brookville Boulevard, Merrick Boulevard, 133rd Avenue and 243rd Street, Block 12980, Lot 1, Borough of Queens.

COMMUNITY BOARD #13Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, and an amendment to permit: (1) the continued operation, without a term, of an office building (Use Group 6) on a site partially within R2 zoning district and partially within an R2 (C1-3) zoning district; (2) certain site modifications, including the elimination of buffering; and (3) the elimination of the hours of operation restriction; and

WHEREAS, a public hearing was held on this application on May 20, 2014, after due notice by publication in *The City Record*, with a continued hearing on June 17, 2014, and then to decision on July 22, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 13, Queens, recommends approval of this application; and

WHEREAS, the subject site is an irregularly-shaped lot with frontages along 133rd Avenue (248 feet), 243rd Street (51 feet), Brookville Boulevard (590 feet) and Merrick Boulevard (780 feet); and

WHEREAS, the site is located partially within R2 zoning district and partially within an R2 (C1-3) zoning district; historically, the R2 (C1-3) portion of the site was zoned R2 (C2-1); and

WHEREAS, the site has approximately 181,531 sq. ft. of lot area and is occupied by a three-story commercial building with 222,285 sq. ft. of floor area (1.22 FAR) and 245 unattended parking spaces; and

WHEREAS, the Board has exercised jurisdiction over the site since February 24, 1987, when, under the subject calendar number, the Board granted a variance to permit, on a site partially within an R2 zoning district and partially within an R2 (C2-1) zoning district, the construction of a three-story office building utilizing an existing steel skeleton, which exceeded the maximum permitted height and did not comply with the use regulations, for a term of 25 years, to expire on February 24, 2012; in addition, 286 attended parking spaces were permitted under the grant as accessory to the office use; and

WHEREAS, the applicant states that, at the time of the grant, the northeast portion of the subject block (Tax Lots 45, 47, 49, 51, 53, 57, and 58, hereafter known as the "Outparcels") was occupied with homes; subsequent to the grant, the homes were demolished and the subject site's parking lot was expanded, increasing the number of spaces in the parking lot to approximately 420 (245 spaces on the site, 82 spaces in the R2 (C1-3) portion of the Outparcels, and 93 spaces in the R2 portion of the Outparcels); the applicant notes that although the owner of the subject site owns the Outparcels, they remain separate tax and zoning lots; and

WHEREAS, the applicant now requests an amendment to permit the following changes to the grant: (1) elimination of the 25-year term; (2) reduction in the number of parking spaces at the site, from 286 attended spaces, to 245 unattended spaces; (3) elimination of the buffering requirement between the site and the Outparcels; and (4) elimination of the hours of operation restriction, which limits the use of the building to Monday through Saturday, from :00 a.m. to 6:00 p.m.; and

WHEREAS, as to the term, the applicant contends that a variance term on a building of this scale presents an undue hardship on the owner's ability to conduct normal business in the commercial real estate market, in that it creates uncertainty with respect to both leasing and financing; and

MINUTES

WHEREAS, as to the reduction in the number of parking spaces, the applicant states that although the number of spaces at the subject site is reduced, the number of available spaces for the uses in the building has increased by 175 spaces, owing to the use of the Outparcels for additional parking; and

WHEREAS, as to the elimination of buffering, the applicant states that buffering is unnecessary given the demolition of the homes on the Outparcels and their current use as parking for the subject building; and

WHEREAS, finally, as to the elimination of the hours of operation, the applicant states that requiring all office workers at the building to adhere to a strict 8:00 a.m. to 6:00 p.m. schedule is impractical for a building of this size with this diversity of tenants; likewise, the limitation is unnecessary, since the Outparcels no longer contain residential uses and the entire block is devoted office uses and buffered from nearby residential uses by streets; and

WHEREAS, pursuant to ZR §§ 72-01 and 72-22, the Board may extend the term of a variance; and

WHEREAS, at hearing, the Board directed the applicant to: (1) notify the surrounding neighbors of the request to eliminate the term; (2) enhance the landscaping around the perimeter of the site; and (3) provide information on the lighting of the parking lot; and

WHEREAS, in response, the applicant submitted proof that the tenants were notified and an amended site plan, which indicates that 16 street trees will be provided along 133rd Avenue, as well as a four- to six-foot uniform hedge barrier along 133rd Avenue and 243rd Street; and

WHEREAS, in addition, the applicant states that parking lot lights are directed downward and away from residential uses and are on timers, which adjust for different seasons; and

WHEREAS, the Board has reviewed the application and has determined that this application is appropriate to grant, with certain conditions.

Therefore it is Resolved, that the Board of Standards and Appeals waives the Rules of Practice and Procedure, reopens and amends the resolution, as adopted on February 24, 1987, to permit the noted modifications, including the elimination of the term and the elimination of the restrictions on the hours of operation, *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked 'Received July 8, 2014'- six (6) sheets; and *on further condition*:

THAT a minimum of 245 unattended parking spaces will be provided at the site;

THAT lighting will be directed down and away from residential uses;

THAT the site plan will be in accordance with the BSA-approved plans;

THAT all conditions from prior resolutions not waived herein by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, July 22, 2014.

24-96-BZ

APPLICANT – Rothkrug Rothkrug & Spector LLP, for Lesaga LLC, owner.

SUBJECT – Application December 31, 2013 – Extension of Time to obtain a Certificate of Occupancy of a previously granted variance for the continued operation of a UG6 eating and drinking establishment (*McDonald's*), which expired on May 18, 2009; Waiver of the Rules. R7-2 zoning district.

PREMISES AFFECTED – 213 Madison Street, north side of Madison Street 184' east of the intersection of Madison Street and Rutgers Street, Block 271, Lot 40, Borough of Manhattan.

COMMUNITY BOARD #3M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, an extension of the time to obtain a Certificate of Occupancy for an eating and drinking establishment (Use Group 6); and

WHEREAS, a public hearing was held on this application on April 11, 2014, after due notice by publication in the *City Record*, with continued hearings on May 13, 2014, June 10, 2014, and July 15, 2014, and then to decision on July 22, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Ottley-Brown, Commissioner Montanez, and former Chair Srinivasan; and

WHEREAS, the site is located on the north side of Madison Street between Rutgers Street and Jefferson Street, within an R7-2 zoning district; and

WHEREAS, the site is currently occupied by an eating and drinking establishment (Use Group 6) operated as McDonald's; and

WHEREAS, the Board has exercised jurisdiction over the subject site since April 19, 1955 when, under BSA Cal. No. 664-54-BZ, the Board granted a variance to permit the construction and maintenance of a commercial building (retail store) for a term of 15 years; and

WHEREAS, on October 7, 1997, under the subject calendar number, the Board granted an application to re-establish the variance, which lapsed in 1970; and

MINUTES

WHEREAS, in 2004, the use of the subject premises was changed from a retail store to an eating and drinking establishment; and

WHEREAS, on November 18, 2008, the Board approved an amendment to legalize the change in use from a retail store (Use Group 6) to an eating and drinking establishment (Use Group 6) and to extend the term for a period of ten years to expire on October 7, 2017; and

WHEREAS, a condition of the grant was that an updated CO be obtained by May 18, 2009; and

WHEREAS, a CO has not been obtained; and

WHEREAS, at hearing, the Board directed the applicant to ensure that the signage complies with C1 zoning district regulations; and

WHEREAS, in response, the applicant removed all non-complying signage including flags and banners; and

WHEREAS, the applicant submitted photographs that reflect the removal of the flags, banners, and support brackets that held them; and

Therefore it is Resolved, that the Board of Standards and Appeals waives the Rules of Practice and Procedure, reopens, and grants an extension of time to obtain a Certificate of Occupancy, to expire on July 15, 2015; *on condition* that any and all use will substantially conform to drawings associated with the prior approval; and *on further condition*:

THAT the grant will expire on October 7, 2017;

THAT a rear yard no less than 11'-0" in depth will be provided in accordance with the BSA-approved plans and be maintained free and clear of debris and any other encroachments;

THAT the premises will be maintained clean and free of graffiti;

THAT all signage will comply with C1 zoning district regulations;

THAT the above conditions and all other relevant conditions from prior approvals will be listed on the certificate of occupancy;

THAT a certificate of occupancy will be obtained by July 15, 2015;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted. (DOB Application. No. 121682287)

Adopted by the Board of Standards and Appeals, July 22, 2014.

245-03-BZ

APPLICANT – Jeffrey A. Chester, Esq./GSHLLP, for Allied Enterprises NY LLC, owner; McDonald's Real Estate Company, lessee.

SUBJECT – Application December 26, 2013 – Extension of Term of a previously granted special permit (§72-243) for an accessory drive-thru to an existing eating and drinking establishment (*McDonald's*), which expired on December 12, 2013. C1-2/R3-2 zoning district.

PREMISES AFFECTED – 160-11 Willets Point Boulevard, northeast corner of Francis Lewis Boulevard, Block 4758, Lot 100, Borough of Queens.

COMMUNITY BOARD #7Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of the term of a special permit allowing a drive-through facility at an existing eating and drinking establishment, which expired on December 9, 2013; and

WHEREAS, a public hearing was held on this application on May 20, 2014, after due notice by publication in *The City Record*, with a continued hearing on June 17, 2014, and then to decision on July 22, 2014; and

WHEREAS, Community Board 7, Queens, recommends approval of this application; and

WHEREAS, Queens Borough President Melinda Katz recommends approval of this application; and

WHEREAS, the site is located on the northeast corner of the intersection of Francis Lewis Boulevard and Willets Point Boulevard, within a C1-2 (R3-2) zoning district; and

WHEREAS, the site is occupied by an existing eating and drinking establishment (*McDonald's*), with a drive-through facility with a ten-vehicle reservoir capacity, and 15 accessory parking spaces; and

WHEREAS, on December 9, 2003, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-243, authorizing the drive-through facility for the existing restaurant for a period of five years, to expire on December 9, 2008; and

WHEREAS, on February 10, 2009, the Board granted an extension of term, to expire on December 9, 2013; and

WHEREAS, the applicant now requests an additional five-year extension of term; and

WHEREAS, at hearing, the Board directed the applicant to remove all signage contrary to the approved plans and to restore the speed bump to the parking lot; and

WHEREAS, in response, the applicant provided a photograph, which demonstrates that all excessive signage has been removed; in addition, the applicant states that the speed bump will be restored; and

WHEREAS, based upon the above, the Board finds that the applicant's application for an extension of term is

MINUTES

appropriate, so long as the restaurant complies with all conditions set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens and amends* the resolution, dated December 9, 2003, so that as amended the resolution reads: “to extend the term for five years from December 9, 2013, to expire on December 9, 2018; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked ‘Received April 22, 2014’- four (4) sheets; and *on further condition*:

THAT the term of this grant will expire on December 9, 2018;

THAT all signage will comply with C1 zoning district regulations;

THAT there will be no change in the operator of the subject eating and drinking establishment without the prior approval of the Board;

THAT all conditions from prior resolution not specifically waived by the Board remain in effect; and

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB App. No. 401574060)

Adopted by the Board of Standards and Appeals, July 22, 2014.

248-03-BZ

APPLICANT – Troutman Sanders LLP, for Ross & Ross, owner; Bally Total Fitness of Greater NY., lessee.

SUBJECT – Application April 28, 2004 – Extension of Time to obtain a Certificate of Occupancy for a previously granted Variance (72-21) for the operation of a Physical Culture Establishment (*Bally's Total Fitness*) which expired on May 10, 2014. C1-5/R8A & R7A zoning district.

PREMISES AFFECTED – 1915 Third Avenue, southeast corner of East 106th Street and Third Avenue, Block 1655, Lot 45, Borough of Manhattan.

COMMUNITY BOARD #11M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of time to obtain a certificate of occupancy for a physical culture establishment (“PCE”); and

WHEREAS, a public hearing was held on this application on June 24, 2014, after due notice by publication in *The City Record*, and then to decision on July 22, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the northeast corner of the intersection of Coney Island Avenue and Avenue P, within an R7A (C2-3) zoning district; and

WHEREAS, the subject site is located on the southeast corner of the intersection of Third Avenue and East 106th Street, partially within a C1-5 (R8A) zoning district and partially within an R7A zoning district; and

WHEREAS, the site is occupied by a two-story commercial building; the PCE occupies 10,137 sq. ft. of floor space in the cellar, 5,261 sq. ft. of floor area on the first story, and 11,189 sq. ft. of floor area on the second story, for a total PCE floor space within the building of 26,587 sq. ft.; and

WHEREAS, the Board has exercised jurisdiction over the site since January 27, 2004, when, under the subject calendar number, the Board granted a variance to permit the operation of the PCE partially within a residence district, for a term of ten years, to expire on January 27, 2014; and

WHEREAS, on December 10, 2013, the Board granted an extension of term for the PCE, for a term of ten years, to expire on December 10, 2023; and

WHEREAS, the applicant notes that a condition of the 2013 grant was that a certificate of occupancy (“CO”) was to be obtained by May 10, 2014; however, as of that date, the CO had not been obtained; and

WHEREAS, accordingly, the applicant seeks an extension of time to obtain the CO; and

WHEREAS, the applicant represents that the issuance of the CO has been delayed because the building has not yet received a public assembly certificate of operation (“PA”); further, the issuance of the PA has been delayed by the requirement to provide a fire protection plan for the entire building; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction and amendment are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens and amends* the resolution, dated January 27, 2004, so that as amended the resolution reads: “to grant an extension of the time to obtain a certificate of occupancy, to expire on January 22, 2015; *on condition*:

THAT a certificate of occupancy will be obtained by January 22, 2015;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

APPLICANT – Eric Palatnik, P.C., for 217 W.23rd Street LLC., owner; Crunch LLC, lessee.

SUBJECT – Application December 23, 2013 – Amendment of a special permit (§73-36) and variance (§72-21) authorizing a physical culture establishment (*Crunch*) by allowing a change in operator, Extension of Term, Extension of Time to obtain a Certificate of Occupancy, and Waiver of the Rules. C2-7A/R8A zoning district.

PREMISES AFFECTED – 215 West 23rd Street, north side of West 23rd Street, 118.75 ft. west of intersection of West 23rd Street and 7th Avenue, Block 773, Lot 7502, Borough of Manhattan.

COMMUNITY BOARD #4M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, an extension of term for a physical culture establishment (“PCE”), which expires on September 19, 2015, an extension of time to obtain a certificate of occupancy, which expired on September 16, 2012, and an amendment to permit a change in operator; and

WHEREAS, a public hearing was held on this application on June 17, 2014, after due notice by publication in *The City Record*, and then to decision on July 22, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 4, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the north side of West 23rd Street, between Seventh Avenue and Eighth Avenue; and

WHEREAS, the subject site is occupied by a ten-story mixed residential and commercial building; and

WHEREAS, the PCE occupies a total of 31,809 sq. ft. of floor area, with 8,852 sq. ft. of floor area on the first floor, second floor, and cellar levels, respectively, and 5,253 sq. ft. of floor area on the cellar mezzanine level; and

WHEREAS, on September 16, 2008, under the subject calendar number, the Board granted a special permit pursuant to ZR § 73-36 and a variance pursuant to ZR § 72-21, to permit, on a site partially within an R8A zoning district and partially within a C2-7A zoning district, the legalization of a PCE on the first floor, second floor, cellar and cellar mezzanine level of the subject building, including

within the portions of the building solely within the R8A portion of the site, for a term of ten years, to expire on September 19, 2015; in addition, the grant provided that substantial construction was to be completed in accordance with ZR § 72-23; thus, a certificate of occupancy was to have been obtained within four years of the grant (September 16, 2012); and

WHEREAS, accordingly, the applicant seeks an extension of the term of the PCE special permit for ten years and an extension of time to obtain a certificate of occupancy; and

WHEREAS, the applicant also seeks approval to operate the PCE as Crunch instead of David Barton Gym, as set forth in the prior grant; and

WHEREAS, the applicant notes that there are no proposed changes to the configuration of the exercise equipment or the overall program of the PCE and that sound attenuation will be in accordance with the prior approved plans; and

WHEREAS, based upon its review of the record, the Board finds that an extension of term for ten years is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated September 16, 2008, so that as amended the resolution reads: “to grant an extension of the special permit for a term of ten years from the date of this resolution and to grant an extension of time obtain a certificate of occupancy; *on condition* that any and all use will substantially conform to drawings associated with the prior approval; and *on further condition*:

THAT this grant will be limited to a term of ten years, to expire on July 22, 2024;

THAT a certificate of occupancy will be obtained by July 22, 2015;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT the hours of operation will be limited to Monday through Friday from 5:30 a.m. to midnight; Saturday from 8:00 a.m. to 9:00 p.m., and Sunday from 5:00 a.m. to 11:00 p.m.; and

THAT there will be no change in ownership or operating control of the PCE without prior approval from the Board;

THAT the above conditions will appear on the certificate of occupancy;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, July 22, 2014.

COMMUNITY BOARD #1BK

ACTION OF THE BOARD – Application granted.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown,

Commissioner Hinkson and Commissioner Montanez4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for an extension of time to complete construction and obtain a certificate of occupancy for a 12-story mixed residential building at the subject site; and

WHEREAS, a public hearing was held on this application on June 8, 2004, after due notice by publication in *The City Record*, and then to decision on July 22, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the west side of Eckford Street, between Driggs Avenue and Engert Avenue, partially within an R6B/M1-2 (MX-8) zoning district and partially within an R6A/M1-2 (MX-8) zoning district, within a Special Mixed Use District; and

WHEREAS, the site has approximately 98 feet of frontage along Eckford Street and 10,440 sq. ft. of lot area; and

WHEREAS, the applicant proposes to develop the site with a 12-story residential (Use Group 2) building; and

WHEREAS, the site was formerly located within an R6/M1-1 zoning district; and

WHEREAS, on March 22, 2004, New Building Permit No. 301756319-01-NB (hereinafter, the “New Building Permit”) was issued by the Department of Buildings (“DOB”) authorizing construction of the building in accordance with the R6/M1-1 zoning district regulations; and

WHEREAS, on May 11, 2005 (hereinafter, the “Enactment Date”), the City Council voted to adopt the Greenpoint Williamsburg Rezoning, which rezoned the site from R6/M1-1 to partially R6B/M1-2 (MX-8) and partially R6A/M1-2 (MX-8); and

WHEREAS, as of the Enactment Date, all work on the proposed building’s foundations had been completed; thus, per ZR §§ 11-331 and 11-332, the applicant had until May 11, 2007 to complete construction under the R6/M1-1 regulations and obtain a certificate of occupancy; and

WHEREAS, however, as of May 11, 2007, construction had not been completed and a certificate of occupancy had not been obtained; accordingly, the applicant filed for an extension of time to complete construction pursuant to ZR § 11-332; and

WHEREAS, on October 23, 2007, under BSA Cal. No. 157-07-BZY, the Board granted an extension of time to complete construction and obtain a certificate of occupancy pursuant to ZR § 11-332, for a term of two years, to expire on October 23, 2009; in its grant, the Board recognized that the New Building Permit was lawfully issued, and that, subsequent to such issuance, the applicant had completed 100 percent of the foundation, the steel frame for six of the 12 stories of the proposed building, and concrete slab floors for stories one through six; in addition, the Board recognized that during that same time period 17 percent of the expenditures

MINUTES

for the development had been made; and

WHEREAS, however, as of October 23, 2009, construction had not been completed; and

WHEREAS, as such, on April 27, 2010, under BSA Cal. No. 157-07-BZY, the Board granted an additional extension of time to complete construction and obtain a certificate of occupancy, for a term of two years, to expire on April 27, 2012; the applicant notes that, subsequent to the 2007 grant, due to the financial crisis, no additional construction was completed and no additional expenditures were made; thus, the Board's 2010 grant was based on the same amount of construction and expenditures as the 2007 grant; and

WHEREAS, the applicant represents that as of April 27, 2012, construction had not been substantially completed and a certificate of occupancy had not been obtained; and

WHEREAS, the applicant notes that an application for an additional extension of time under ZR § 11-332 was not timely filed due to a change in ownership and financing difficulties; and

WHEREAS, accordingly, the applicant now seeks an extension of time to complete construction and obtain a certificate of occupancy under the common law doctrine of vested rights; and

WHEREAS, a threshold matter for the vested rights analysis is that a permit be issued lawfully prior to the Text Enactment Date and the Rezoning Date and that the work was performed pursuant to such lawful permit; and

WHEREAS, by letter dated March 24, 2010, DOB states the New Building Permit was lawfully issued; and

WHEREAS, the Board notes that when work proceeds under a lawfully-issued permit, a common law vested right to continue construction after a change in zoning generally exists if: (1) the owner has undertaken substantial construction; (2) the owner has made substantial expenditures; and (3) serious loss will result if the owner is denied the right to proceed under the prior zoning; and

WHEREAS, specifically, as held in Putnam Armonk, Inc. v. Town of Southeast, 52 A.D.2d 10 (2d Dept. 1976), where a restrictive amendment to a zoning ordinance is enacted, the owner's rights under the prior ordinance are deemed vested "and will not be disturbed where enforcement [of new zoning requirements] would cause 'serious loss' to the owner," and "where substantial construction had been undertaken and substantial expenditures made prior to the effective date of the ordinance"; and

WHEREAS, however, notwithstanding this general framework, as discussed by the court in Kadin v. Bennett, 163 A.D.2d 308 (2d Dept. 1990) "there is no fixed formula which measures the content of all the circumstances whereby a party is said to possess 'a vested right'. Rather, it is a term which sums up a determination that the facts of the case render it inequitable that the State impede the individual from taking certain action"; and

WHEREAS, as noted above, the Board has recognized that substantial construction was performed and substantial expenditures were made subsequent to the issuance of the

New Building Permit and prior to the Enactment Date; and

WHEREAS, as to serious loss, the Board examines not only whether certain improvements and expenditures could not be recouped under the new zoning, but also considerations such as the diminution in income that would occur if the new zoning were imposed and the reduction in value between the proposed building and the building permitted under the new zoning; and

WHEREAS, the applicant states that the owner would incur a loss of \$2,469,352 if the building must be modified to comply with the R6B/M1-2 (MX-8) and R6A/M1-2 (MX-8) regulations; this amount represents that costs of redesigning and reconstructing the building (\$2,000,000) plus the value of the floor area lost under the new zoning regulations (\$269,352); and

WHEREAS, thus, the applicant asserts and the Board agrees that complying with the current zoning regulations would result in a serious loss to the owner; and

WHEREAS, the Board has reviewed the evidence in the record and determined that the requested extension of time is warranted; and

WHEREAS, accordingly, the Board hereby grants the owner of the site a two-year extension of time to complete construction and obtain a certificate of occupancy.

Therefore it is Resolved, that this application to renew New Building Permit No. 301756319-01-NB, as well as all related permits for various work types, either already issued or necessary to complete construction, is granted, and the Board hereby extends the time to complete construction and obtain a certificate of occupancy for two years from the date of this resolution, to expire on July 22, 2016.

Adopted by the Board of Standards and Appeals, July 22, 2014.

APPLICANT – Sheldon Lobel, P.C., for MDL+S LLC, owner; Richard Bundy, lessee.

SUBJECT – Application July 8, 2013 – Variance (§72-21) to legalize the operation of a physical culture establishment (*The Physique*). C1-4/R7A zoning district.

PREMISES AFFECTED – 43-12 50th Street, Located on the west side of 50th Street between 43rd Avenue and Queens Boulevard. Block 138, Lot 25, Borough Queens.

COMMUNITY BOARD #2Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Queens Borough Commissioner, dated June 6, 2013, acting on Department of Buildings Application No. 420465455, reads in pertinent part:

“Proposed physical culture establishment is not permitted in a C1-4/R7A zoning district as-of-right or by special permit;” and

WHEREAS, this is an application under ZR § 72-21, to permit, within a C1-4(R7A) zoning district, the legalization of a physical culture establishment (PCE) in a former manufacturing building, contrary to ZR § 32-00; and

WHEREAS, a public hearing was held on this application on April 8, 2014, after due notice by publication in the *City Record*, with a continued hearing on June 17, 2014, and then to decision on July 22, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Queens, recommends approval of the application; and

WHEREAS, the Queens Borough President recommends approval of the application; and

WHEREAS, the site is located on the west side of 50th Street, between Roosevelt Avenue and 43rd Avenue and Queens Boulevard, with 102 feet of frontage on 50th Street, a depth of 100 feet and a total lot area of 10,463 sq. ft.; and

WHEREAS, the site is occupied by a one-story and basement building designed as a factory building, with 19,715 sq. ft. of floor area; and

WHEREAS, the PCE occupies 9-857 sq. ft. of floor area on the basement level and is operated as *Physique*; and

WHEREAS, the PCE has been in operation at the site since approximately 2003; and

WHEREAS, the applicant represents that the manufacturing building for dolls and doll clothing with accessory offices was built in approximately 1950, and was occupied by manufacturing use until the 1980s; and

WHEREAS, the applicant notes that in 1989, the first floor of the building was converted to a billiard hall (Use Group 8) while the basement continued to be used for manufacturing and storage (Use Group 17), as reflected on the 1989 Certificate of Occupancy; and

WHEREAS, the applicant states that some time prior to 2003, the basement level was converted to PCE use; and

WHEREAS, when the PCE use began at the site it was within a C2-2(R7-1) zoning district, where PCE’s area allowed pursuant to Board special permit under ZR § 73-36; and

WHEREAS, the applicant acknowledges that although a PCE would have been permitted under the prior zoning district regulations, the prior owner never sought a special permit from the Board; and

WHEREAS, on July 28, 2011, the site was rezoned from C2-2(R7-1) to C1-4(R7A), pursuant to the Sunnyside-Woodside rezoning; and

WHEREAS, neither PCEs nor billiard halls are permitted under the current zoning; and

WHEREAS, the applicant represents that there has not been a discontinuance of the non-conforming billiard use on the second floor and, thus it is a legal pre-existing non-conforming use; and

WHEREAS, accordingly, only the proposed legalization of the PCE use on the basement level is the subject of the application; and

WHEREAS, the applicant now seeks a variance to legalize the operation of the PCE because the special permit for a PCE is not available in the subject zoning district; and

WHEREAS, the building will not be enlarged or otherwise altered as a part of this proposal; and

WHEREAS, the applicant states that the following are unique physical conditions which create an unnecessary hardship in developing the site in conformance with applicable regulations: (1) the existing building is obsolete; and (2) the layout and lack of street exposure; and

WHEREAS, as to the obsolescence of the building, the applicant states that the building was constructed in 1950 and designed to accommodate manufacturing uses on both floors and is thus incompatible with not only conforming uses such as Use Group 6 use, but even modern manufacturing use; and

WHEREAS, the applicant asserts that the layout and lack of street exposure prohibit the basement space from being used for conforming uses such as Use Group 6 retail; and

WHEREAS, specifically, the applicant states that due to the location of portions of the basement level being below grade, it has limited street level exposure or access to light and air; and

WHEREAS, the applicant notes that the site slopes gently down toward 43rd Avenue to the north creating an area with slightly more street exposure; however, this corner of the building is occupied by its stairwell and elevator core and would be cost prohibitive to reconfigure the building to create a space for a conforming use tenant by relocating the building’s core; and

WHEREAS, the applicant notes that local retail and

MINUTES

service establishment uses are dependent on street visibility and direct access to attract customers and that need cannot be met with below grade space; and

WHEREAS, further, the applicant notes that the windows are located well below eye level of pedestrians and do not provide sufficient visibility for businesses located at the basement level; and

WHEREAS, the applicant asserts that the space is also not desirable for conforming use such as offices since there is very little access to light and air; and

WHEREAS, the applicant also notes that the size of the basement level is not conducive to confirming tenants because local retail and service establishments in the subject area of Queens generally occupy spaces that are less than 4,000 sq. ft.; and

WHEREAS, accordingly, since the basement level is more than twice that size, it would need to be subdivided into two or three smaller spaces to be marketable to a broader range of uses; and

WHEREAS, the applicant states that the building's layout with little street exposure and a circulation core that is located in the northeast corner of the building make the subdivision of the space impractical, if not impossible; and

WHEREAS, the applicant asserts that the requirements of a PCE use differ from those of conforming commercial uses in that the PCE does not require the same amount of street exposure, is better suited to a large open floor place, and does not require any significant capital expenditures to the manufacturing building to accommodate a fitness center; and

WHEREAS, accordingly, the Board finds that the aforementioned unique physical conditions, when considered in the aggregate, create unnecessary hardship and practical difficulty in using the site in compliance with the applicable zoning regulations; and

WHEREAS, the applicant asserts that because of its unique physical conditions, there is no possibility that the development of the property in conformance with the applicable use regulations will bring a reasonable return to the owner; and

WHEREAS, the applicant initially submitted a feasibility study analyzing (1) retail use on the basement level and upper floor; and (2) the proposed PCE on the basement level and retail use on the upper floor; and

WHEREAS, at the Board's direction, the applicant also analyzed a community facility option; and

WHEREAS, the applicant concluded that neither conforming scenario resulted in a reasonable rate of return due to the inability to market the space for either of these uses and the inability to compensate for the costs of converting the building to conforming use; and

WHEREAS, based upon its review of the feasibility study, the Board has determined that because of the subject building's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable use requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed

use will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, specifically, the applicant states that there will not be any change to the exterior of the building, which has existed at the site since 1950; and

WHEREAS, the applicant asserts that the surrounding area is characterized by a mix of retail and residential uses; and

WHEREAS, specifically, the site is located just north of two main commercial thoroughfares (Roosevelt Avenue and Queens Boulevard) and is among a wide range of commercial uses including drug stores, automotive repair shops and gas stations; and

WHEREAS, the applicant notes that the only other use in the building is the non-conforming billiard hall; and

WHEREAS, the applicant asserts that the PCE has occupied the site for more than ten years and is compatible with the billiard hall and with adjacent uses; and

WHEREAS, the applicant notes that at the inception of the PCE use at the site, it was within a zoning district in which the special permit was available, but due to the 2011 rezoning is no longer available; and

WHEREAS, specifically, the applicant asserts that adjacent residential uses to the north and west do not experience sound or vibrations from the PCE activities; and

WHEREAS, the applicant notes that there are open areas with widths of at least 20 feet that buffer the PCE from the buildings to the north and west; and

WHEREAS, additionally, the wall of the gym facing north does not have windows and the portion of the facility includes stairwells, reception desk, and locker rooms, which do not create noise or vibrations; and

WHEREAS, the applicant states that treadmills and cardio machines are located on the east portion of the facility facing the street and the PCE does not offer any classes such as spinning or aerobics, which are generally accompanied by loud music; and

WHEREAS, the applicant notes that the west-facing wall does have windows similar to the east ones facing the street, but smaller in size; and

WHEREAS, at the Board's request, the applicant will tint the west-facing windows to prevent interior light from shining outside; and

WHEREAS, the applicant notes that the site is within a commercial zoning district with a heavy traffic volume; and

WHEREAS, at the Board's request, the applicant removed the awning over the entrance; and

WHEREAS, the applicant provided a revised sign analysis and photographs that reflect that the signage complies; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

MINUTES

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the pre-existing unique physical conditions cited above; and

WHEREAS, the Board finds that this proposal is the minimum necessary to afford the owner relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the Department of Investigation performed a background check on the corporate owner and operator of the PCE and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the project is classified as an Unlisted action pursuant to Sections 617.6(h) and 617.2(h) of 6NYCRR; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 14BSA006Q, and dated January 20, 2014; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, within a C1-4(R7A) zoning district, the legalization of a physical culture establishment (PCE) in a former manufacturing building, contrary to ZR § 32-00, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received June 12, 2014"- Four (4) sheets; and *on further condition:*

THAT there will be no change in ownership or operating control of the physical culture establishment without prior application to and approval from the Board;

THAT the term of this grant will be limited to ten

years from the date of this grant, and will expire on July 22, 2024, subject to further renewal;

THAT, the hours of the physical culture establishment will be limited to Monday through Friday from 5:30 a.m. to 12:00 a.m.; Saturday from 7:00 a.m. to 9:00 p.m.; and Sunday from 7:00 a.m. to 6:00 p.m.;

THAT all signage at the site will comply with C1 zoning district regulations;

THAT the above conditions will appear on the certificate of occupancy;

THAT a new certificate of occupancy be obtained within six months from the date of this grant, on January 22, 1015;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

Adopted by the Board of Standards and Appeals, July 22, 2014.

39-14-BZ

CEQR #14-BSA-125M

APPLICANT – Francis R. Angelino, Esq., for 97-101 Reade LLC and II LLC, owner; Exceed Fitness LLC, lessee.

SUBJECT – Application March 17, 2014 – Special Permit (§73-36) to allow the operation of a physical culture establishment (*Exceed Fitness*). C6-3A zoning district.

PREMISES AFFECTED – 97 Reade Street, between West Broadway and Church Street, Block 145, Lot 7504, Borough of Manhattan.

COMMUNITY BOARD #1M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated March 5, 2014, acting on DOB Application No. 121911306, reads, in pertinent part:

Proposed physical culture establishment in C6-3A is not permitted as of right; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C6-3A zoning district,

MINUTES

within the Special Tribeca Mixed Use District and the SoHo Cast Iron Historic District, the operation of a physical culture establishment (“PCE”) in portions of the ground floor, cellar and sub-cellar of a seven-story mixed residential and commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on June 10, 2014, after due notice by publication in the *City Record*, and then to decision on July 22, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of Reade Street between West Broadway and Church Street, within a C6-3A zoning district, within the Special Tribeca Mixed Use District and the SoHo Cast Iron Historic District; and

WHEREAS, the site is occupied by a seven-story mixed residential and commercial building; and

WHEREAS, the proposed PCE will occupy 1,977 sq. ft. of floor area on the ground floor, 2,119 sq. ft. of floor space in the cellar, and 1,353 sq. ft. of floor space in the sub-cellar, for a total PCE size of 5,449 sq. ft.; and

WHEREAS, the PCE will be operated as Exceed Fitness; and

WHEREAS, the hours of operation for the PCE will be Monday through Friday, from 5:30 a.m. to 9:00 p.m. and Saturday and Sunday, from 7:00 a.m. to 7:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the Landmarks Preservation Commission has approved the proposed alterations of the building by Certificates of No Effect, dated February 6, 2014, February 25, 2014 and March 7, 2014; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, at hearing, the Board directed the applicant to clarify the proposed ADA-compliance and sound attenuation measures; the Board also inquired as to whether trainers will be permitted to access the PCE outside the proposed hours of operation; and

WHEREAS, in response, the applicant confirmed that the PCE will comply with the applicable provisions of the ADA and will have adequate sound attenuation; additionally, the applicant states that trainers will only use

the PCE during the proposed hours of operation; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action discussed in the CEQR Checklist, CEQR No. 14-BSA-125M, dated March 17, 2014; and

Therefore it is Resolved, that the Board of Standards and Appeals issued a Type II determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site within a C6-3A zoning district, within the Special Tribeca Mixed Use District and the SoHo Cast Iron Historic District, the operation of a physical culture establishment (“PCE”) in portions of the ground floor, cellar and sub-cellar of a seven-story mixed residential and commercial building; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received May 22, 2014” (4) sheets and “Received April 16, 2014” (1) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on July 22, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT all sound attenuation measures proposed will be installed, maintained and reflected on the Board-approved plans;

THAT the hours of operation for the PCE will be limited to Monday through Friday, from 5:30 a.m. to 9:00 p.m., and Saturday and Sunday, from 7:00 a.m. to 7:00 p.m.;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans; THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the

MINUTES

applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 22, 2014.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated April 14, 2014, acting on DOB Application No. 121092744, reads, in pertinent part:

Proposed physical culture establishment located on zoning lot in C6-4 and M1-6 zoning districts is not permitted as-of-right pursuant to ZR Sections 32-10 and 42-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site partially within a C6-4M zoning district and partially within an M1-6 zoning district, within the Special Garment Center District, the operation of a physical culture establishment (“PCE”) in portions of the first through four stories of a proposed 37-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on May 6, 2014, after due notice by publication in the *City Record*, and then to decision on June 24, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Ottley-Brown; and

WHEREAS, Community Board 5, Manhattan, recommends approval of the application; and

WHEREAS, the subject site is a through lot with frontage on West 34th Street and West 35th Street, between Seventh Avenue and Eighth Avenue, partially within a C6-4M zoning district and partially within an M1-6 zoning district

within the Special Garment Center District; and

WHEREAS, the applicant confirmed that there are not any restrictions against the use within the subject M1-6 zoning district within the Special Garment Center District; and

WHEREAS, a 37-story commercial building is being constructed on the site and will have a total of 231,577 sq. ft. of floor area; and

WHEREAS, the proposed PCE will occupy portions of the first through fourth floors; the remainder of these floors will be occupied by Use Group 10 retail; and

WHEREAS, the PCE will occupy 15,210 sq. ft. of floor area and will have its main entrance on West 35th Street within the M1-6 zoning district portion of the site; and

WHEREAS, the PCE will be operated as Planet Fitness; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE will be seven days per week, 24 hours per day; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No. 14BSA049M dated October 2, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources;

MINUTES

Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issued a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73- to permit, on a site partially within a C6-4M zoning district and partially within an M1-6 zoning district, within the Special Garment Center District, the operation of a physical culture establishment (“PCE”) in portions of the cellar, and first through third stories of a proposed 38-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received May 30, 2014” – Eight (8) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on June 24, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, June 24, 2014.

The resolution has been amended. Corrected in Bulletin No. 30, Vo. 99, dated July 30, 2014.

COMMUNITY BOARD #5M

Jeff Mulligan, Executive Director

MINUTES

**REGULAR MEETING
TUESDAY MORNING, JULY 29, 2014
10:00 A.M.**

Present: Vice-Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez.

SPECIAL ORDER CALENDAR

186-96-BZ

APPLICANT – Rothkrug Rothkrug & Spector LLP, for Edward Ivy, owner.

SUBJECT – Application November 27, 2012 – Extension of Term of a previously granted variance (§72-21) for the continued operation of a one story warehouse and office/retail store building (UG 16 & 6), which expired on May 19, 2003; Waiver of the Rules. R4 zoning district.

PREMISES AFFECTED – 145-21/25 Liberty Avenue, northeast corner of Liberty Avenue and Brisbin Street, Block 10022, Lot(s) 1, 20, 24, Borough of Queens.

COMMUNITY BOARD #12Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, and an amendment to extend the term of a prior variance; and

WHEREAS, a public hearing was held on this application on March 25, 2014, after due notice by publication in *The City Record*, with continued hearings on April 26, 2014, June 10, 2014, and July 15, 2014, and then to decision on July 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by former Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 12, Queens, recommends approval of this application; and

WHEREAS, the subject site is located on the northeast corner of Liberty Avenue and Brisbin Street within an R4 zoning district; and

WHEREAS, the site is occupied by three one-story warehouse buildings; and

WHEREAS, the Board has exercised jurisdiction over the site since May 19, 1998, when, under the subject calendar number, the Board granted a variance to permit, on a site within an R4 zoning district, the construction and maintenance of a one-story office/retail building (Use Group 6 and 16), which did not comply with the use regulations, for a term of five years, to expire on May 19, 2003; and

WHEREAS, the approval reflected a one-story building to be divided into three units; however, three attached buildings were constructed with three separate Certificates of Occupancy; and

WHEREAS, Lot 1 was approved for Use Group 6 occupancy, Lots 20 and 24 (formerly Lots 5 and 6, respectively) approved for Use Group 6 or Use Group 16 (warehouse); and

WHEREAS, the applicant now seeks a new term without any expiration; and

WHEREAS, as to the term, the applicant contends that a variance term on a building of this scale presents an undue hardship on the owner’s ability to conduct normal business in the commercial real estate market, in that it creates uncertainty with respect to both leasing and financing; and

WHEREAS, pursuant to ZR §§ 72-01 and 72-22, the Board may extend the term of a variance; and

WHEREAS, at hearing, the Board directed the applicant to: (1) eliminate all signage that exceeds C1 zoning district regulations; and (2) eliminate all graffiti; and

WHEREAS, the applicant submitted a sign analysis for each lot and photographs of the existing signage which will be replaced by C1 zoning district compliance and which will be brought into compliance with C1 zoning district regulations during any interim period before the new signs are installed; and

WHEREAS, the applicant submitted photographs which reflect the removal of all graffiti at the site; and

WHEREAS, the Board indicated at hearing that it would not support eliminating the term or a 15-year term; and

WHEREAS, accordingly, the applicant revised the request to seek a ten-year term which would provide greater flexibility than the prior five-year term with respect to negotiating leases with tenants; and

WHEREAS, the applicant notes that despite the lapse in term, there have not been any complaints filed with either the Community Board or DOB and that the subject use is in character with surrounding uses fronting on Liberty Avenue, a wide commercial street with numerous Use Group 6 and Use Group 16 uses; and

WHEREAS, the Board has reviewed the application and has determined that this application is appropriate to grant, with certain conditions.

Therefore it is Resolved, that the Board of Standards and Appeals waives the Rules of Practice and Procedure, reopens and amends the resolution, as adopted on May 19, 1998, to permit the noted extension of term for a period of ten years, *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked ‘Received February 24, 2014’ - (3) sheets; and *on further condition*:

THAT the term will expire on July 29, 2024;

THAT the site plan will be in accordance with the BSA-approved plans;

THAT all conditions from prior resolutions, including the limitation on uses, not waived herein by the Board remain in effect and will be noted on the Certificate of Occupancy;

MINUTES

THAT the above conditions will be noted on the Certificate of Occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, July 29, 2014.

47-97-BZ

APPLICANT – Sheldon Lobel, P.C., for Flatlands 78, L.L.C., owner.

SUBJECT – Application December 13, 2013 – Amendment of a previously approved Variance (§72-21) which permitted construction of a one-story and cellar retail drug store and five smaller stores with accessory parking. The amendment is seeking to remove the twenty-year term restriction imposed by the Board. C2-3/R5D & R5B zoning district.

PREMISES AFFECTED – 7802 Flatlands Avenue, corner and through lot located on the east side of Flatlands Avenue between East 78th Street and East 79th Street, Block 8015, Lot 41, Borough of Brooklyn.

COMMUNITY BOARD #18BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for an amendment to a variance to eliminate the term for Use Group 6 retail use at the site; and

WHEREAS, a public hearing was held on this application on June 10, 2014, after due notice by publication in *The City Record*, with a continued hearing on July 15, 2014, and then to decision on July 29, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 18, Brooklyn, recommends approval of the request to eliminate the term; and

WHEREAS, the site has frontage on Flatlands Avenue, East 78th Street, and East 79th Street, located partially within an R5B zoning district and partially within a C2-3(R5D) zoning district; and

WHEREAS, the site is occupied by a one-story building with a drug store and four smaller stores; and

WHEREAS, the Board has exercised jurisdiction over the site since March 24, 1998 when, under the subject

calendar number, the Board granted a variance to permit the construction of a one-story building to be occupied by a drug store and five smaller stores with accessory parking (Use Group 6) in what was then partially within an R5 zoning district and partially within a C2-2 zoning district, for a 20-year term to expire on March 24, 2018; and

WHEREAS, the applicant represents that the DOB-approved plans are consistent with the Board-approved plans associated with the variance and depict a one-story and cellar building with 16,000 sq. ft. of floor area to be occupied by a drug store, five smaller retail stores, and an accessory parking area with 44 spaces and a loading berth; and

WHEREAS, the applicant notes that the prior grant’s resolution erroneously states one large store and six smaller stores, while the DOB plans correctly illustrate the one large store and five smaller stores; and

WHEREAS, the applicant represents that it is unable to locate the Board-approved plans to confirm the error regarding the number of stores; and

WHEREAS, the applicant also notes that of the total of six stores, it has merged two into one store, Flatlands Dental Care (1,941.5 sq. ft. of floor area); the remaining three smaller stores are occupied by Subway, Da Beauty Spa, and Panko Express (750 sq. ft., 966.5 sq. ft., and 916.5 sq. ft., respectfully); and the large store is occupied by Rite Aid drug store; and

WHEREAS, the applicant has submitted plans to reflect the current configuration and asserts that such configuration is in substantial compliance with the variance grant; and

WHEREAS, the applicant notes that in 2009, through the Flatbush Rezoning, the City Planning Commission rezoned the site from partially R5 and partially C2-2 to partially R5B and partially R5D/C2-3 zoning districts; and

WHEREAS, the applicant now seeks to eliminate the term; and

WHEREAS, the applicant requests that the term be eliminated for the following reasons: (1) the lease terms do not coincide with the variance term, which leads to uncertainty and difficulty obtaining leases, which typically last for 20 years for commercial uses; (2) many lessees, such as Rite Aid, prefer a longer lease with multiple options for extension; and (3) there is a hardship in securing leases due to the limited term; and

WHEREAS, based upon its review of the record, the Board finds that the requested elimination of the term is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens*, and *amends* the resolution, dated March 24, 1998, to eliminate a term and specifically the March 24, 2018 expiration; *on condition* that all work will substantially conform to drawings filed with this application marked “Received July 28, 2014”-(5) sheets; and *on further condition*:

THAT all conditions from the prior resolutions not specifically waived by the Board remain in effect and will be noted on the Certificate of Occupancy;

THAT this approval is limited to the relief granted by

MINUTES

the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB Application No. 300607840)

Adopted by the Board of Standards and Appeals, July 29, 2014.

24-03-BZ

APPLICANT – Warshaw Burstein, LLP, for Cumberland Farms, Ink, owner.

SUBJECT – Application February 26, 2014 – Extension of Term (§11-411) of a previously approved variance which permitted a gasoline service station and an automobile repair facility (UG 16) which expired on July 15, 2013; Waiver of the Rules. C1-2/R2A zoning district.

PREMISES AFFECTED – 178-02 Union turnpike, intersection formed by Union Turnpike and Surrey Parcel, Block 7227, Lot 29, Borough of Queens.

COMMUNITY BOARD #8Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a re-opening, and an extension of term for a variance permitting an automotive service station, which expired on July 15, 2013; and

WHEREAS, a public hearing was held on this application on June 17, 2014, after due notice by publication in *The City Record*, with a continued hearing on July 15, 2014, and then to decision on July 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the south side of Union Turnpike at the intersection with Surrey Place, within a C1-2(R2A) zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject premises since on July 23, 1946, under BSA Cal. No. 624-39-BZ, it granted an application to permit a gasoline service station, lubricatorium, and car wash in a business use district; and

WHEREAS, the grant was extended and amended at various times; on July 15, 2013, the Board reinstated the grant, under the subject calendar number for a term of ten years, to expire on July 15, 2013; and

WHEREAS, the applicant now seeks an additional extension of term; and

WHEREAS, at hearing, the Board raised concerns

about: (1) the sufficiency of the screening along the rear lot line; (2) the presence of a storage shed; and (3) the condition of the landscaping; and

WHEREAS, in response, the applicant stated: (1) that it would plant four evergreen trees in the southeast corner of the site to provide a noise/screening buffer in addition to the existing wall and fence along the rear lot line; (2) the shed, which is not visible to patrons and is screened by an opaque fence above a masonry wall, is required by the service station for storage of products due to the absence of storage space in the building; photos depicting the removal of the barbed wire; and (3) it will replace several dead trees along the site’s eastern lot line as well as replant grass in the southeastern corner; and

WHEREAS, pursuant to ZR § 11-411, the Board may, in appropriate cases, allow an extension of the term of a pre-1961 variance; and

WHEREAS, the Board has determined that the evidence in the record supports the finding required to be made under ZR § 11-411.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated July 15, 2003, so that as amended the resolution reads: “to permit the extension of the term of the variance for an additional ten years from July 15, 2013 expiring on July 15, 2023; *on condition on condition* that all work will substantially conform to drawings, filed with this application marked “Received July 1, 2014” –(6) sheets; and on further condition:

THAT the term of the variance will expire on July 15, 2023;

THAT the premises will be maintained free of debris and graffiti;

THAT the above conditions will be noted in the Certificate of Occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, July 29, 2014.

245-32-BZ

APPLICANT – Sion Hourizadeh, for Michael Raso, owner.

SUBJECT – Application June 20, 2012 – Extension of Term (§11-411) of a previously approved variance which permitted automotive repair (UG 16B) with a commercial office (UG 6) at the second story. C2-2/R5 zoning district. PREMISES AFFECTED – 123-05 101 Avenue, Block 9464, Lot 30, Borough of Queens.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decisions of the Manhattan Borough Commissioner, dated November 21, 2013 and March 10, 2014, acting on Department of Buildings Application No. 120615218 read, in pertinent part:

MINUTES

- (4) Cellar must have 2-hour fire separation from other floors. Ceiling and stairs must be fire rated. [MDL 143] . . .
- (8) Interior living rooms require adequate light and air. A number of rooms, including those at the top floor with skylights, are indicated as interior windowless rooms contrary to MDL 30. [MDL 30]
- (9) BSA granted a waiver of MDL 143 in total Plans must be prepared to carefully demonstrate compliance with the stipulation proposed to mitigate this requirement. Present to the department. [MDL 143]
- (10) BSA granted that fire escapes may be used as 2nd means of egress from the dwelling units. Plans shall indicate the design and construction of same including compliance with 4a-c for construction and support, 2a for the fire escape in the interior court at house #333, size height and construction of the drop ladder per 5a-c. [MDL 145 and 53]
- (11) Plans must demonstrate compliance with section 1 through 5 including stairway, platform, riser tread, and handrail dimensions. In the event any dimensions or construction are non-complying, same shall be cited on plans. [MDL 148, 1 through 5]
- (12) Plans must demonstrate compliance with sections 1, 3, 4, 5, 6 including public hall windows opening directly to exterior, fire proof construction and dimensions. In the event any dimensions or construction are non-complying, same shall be cited on plans. [MDL 149]
- (13) Plans must demonstrate compliance with sections 1 through 7 including details indicating the design of the fire-stopping, edge relief, fire resistance rated fill and coverings. [MDL 152, 1 through 7]
- (14) The proposed fire passages from the rear yards to the front of each building are contrary to C26-273(d).7, in that, there is no access from the lower termination of the rear fire escape to the street through a fire proof passage independent of the first means of egress. Design and construction of such passage shall be carefully detailed to indicate fire resistance rating, access and structural support. The fire escape at house #333 does not have access to a passage at 333. [MDL 53; C26-273(d).7]
- (15) BSA approved plans dated July 31, 2012 show winder stairs at house number 329 contrary to submitted plans dated July 17, 2013. Please resolve. [MDL 52.4]; and Proposed increase in bulk and/or height exceeds threshold of 5 stories for non-fireproof tenement.

[MDL 211.1]; and

WHEREAS, this is an application pursuant to Multiple Dwelling Law (“MDL”) § 310, for an amendment to a prior approval to vary the MDL (the “2012 Approval”); and

WHEREAS, the applicant seeks to vary MDL § 211 to allow for the proposed one-story vertical enlargement of the subject five-story residential building; however, the analysis addresses waiver to MDL §§ 30, 52, 53, 145, 148, 149 and 152; and

WHEREAS, three companion applications to vary the MDL to permit one-story vertical enlargements of the three adjacent buildings, filed under BSA Cal. Nos. 84-11-A, 85-11-A and 103-11-A, were heard concurrently and decided on the same date; and

WHEREAS, a public hearing was held on this application on February 11, 2014, after due notice by publication in *The City Record*, with continued hearings on March 25, 2014, April 29, 2014, June 10, 2014, and July 15, 2014, and then to decision on July 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by former Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, New York City Council Member Rosie Mendez recommends disapproval of this application, citing concerns about (1) the self-creation of the hardships related to MDL non-compliance by choosing to enlarge the building; (2) a blanket waiver of all objections, rather than an individual analysis of each requested waiver; (3) whether the Board has the authority to waive non-compliance with light and air requirements; and

WHEREAS, the Greenwich Village Society for Historic Preservation provided testimony in opposition to this application, which reiterates Council Member Mendez’ concerns including that there be individual assessment of MDL non-compliance rather than a single waiver; and

WHEREAS, collectively, the parties who provided testimony in opposition to this application are known as the “Opposition;” and

WHEREAS, the subject site is located on the north side of East 9th Street, between First Avenue and Second Avenue, within an R8B zoning district; and

WHEREAS, the site has 25 feet of frontage along East 9th Street, a depth of 92.25 feet, and a total lot area of 2,306 sq. ft.; and

WHEREAS, the site is occupied by a five-story non-fireproof building, with retail space and one residential unit on the ground floor and a total of eight dwelling units on the upper four floors (two dwelling units per floor); and

WHEREAS, the applicant states that the subject building is located on a single zoning lot with three adjacent buildings located at 329 East 9th Street (the “329 Building”), 333 East 9th Street (the “333 Building”), and 335 East 9th Street (the “335 Building”), each of which is seeking identical relief to vary the MDL in order to allow for a one-story vertical enlargement; and

MINUTES

WHEREAS, the applicant notes that the proposed zoning lot has a total lot area of 8,395 sq. ft.; and

WHEREAS, the applicant states that the existing building was constructed prior to 1929; and

WHEREAS, the subject building has a floor area of approximately 7,625 sq. ft. and a height of 54'-3"; and

WHEREAS, the applicant proposes to enlarge the building by constructing a sixth floor containing an additional 931.8 sq. ft. of floor area to be occupied by one additional dwelling unit, increasing the total number of dwelling units in the building to ten; and

WHEREAS, the applicant states that the proposed enlargement will increase the floor area of the subject building from 7,625 sq. ft. to 8,556.8 sq. ft., and in combination with the proposed enlargements of the 329 Building, the 333 Building, and the 335 Building, will increase the total floor area on the proposed zoning lot from 27,826 sq. ft. (3.31 FAR) to 31,422 sq. ft. (3.75 FAR) (the maximum permitted floor area is 33,580 sq. ft. (4.0 FAR)), and will increase the height of the subject building from 54'-3" to 67'-3" (the maximum permitted height is 75'-0"); and

WHEREAS, on September 11, 2012, the Board approved a prior version of the application for waiver to MDL §§ 51(6), 148(3), 149(2), 143, and 146 (the "2012 Approval"); and

WHEREAS, however, DOB subsequently audited the application and issued the noted supplemental objections; and

WHEREAS, the applicant asserts that the objections associated with the 2012 Approval and the initial (November 21, 2013) objections associated with the subject amendment application were issued under the assumption that the buildings are Hereafter Erected Class A (HAEA) buildings; and

WHEREAS, during the hearing process, the applicant adopted the position that the building is actually a tenement and returned to DOB to obtain a single objection for non-compliance with MDL § 211 (Article 7: Height and Bulk) for tenement buildings; and

WHEREAS, the applicant states that by requesting a variance of MDL § 211, it is not seeking a waiver of every provision that would be applicable to strictly comply with MDL § 211 but, rather, that the Board vary the requirements of MDL § 211 by specifying which provisions it cannot comply with in exchange for proposed safety measures that maintain the spirit and intent of the MDL; and

WHEREAS, MDL § 211 requires that in order for a pre-1929 non-fireproof residential building to increase in height beyond five stories, the building must comply with the provisions of the MDL; the proposed addition of a sixth floor to the subject building results in the MDL non-compliances waived under the 2012 Approval and the supplemental conditions described below; and

WHEREAS, initially, a question arose about whether the Board had jurisdiction to waive non-compliance with light and air provisions (MDL § 30) since light and air is not one of the enumerated conditions at MDL § 310(2)(a); and

WHEREAS, the Board considered the jurisdictional

question and concluded that the request to increase the height triggers the specific non-compliances and thus the Board's waiver authority under MDL § 310(2)(a)(1) allows for a waiver of MDL § 211 (Height and Bulk) and the associated enumerated non-compliances DOB identified during its audit; and

WHEREAS, however, the Board directed the applicant to address all of the DOB objections so that it could appropriately evaluate whether the MDL § 310(a) findings are met; and

WHEREAS, at the Board's request, the applicant addressed each of the specific DOB objections to supplement its assertion that the Board had jurisdiction over each non-compliance individually and through MDL § 211; and

WHEREAS, MDL § 211 (Height and Bulk) (1) states that "[e]xcept as otherwise provided in subdivision four of this section, no non-fireproof tenement shall be increased in height so that it shall exceed five stories, except that any tenement may be increased to any height permitted for multiple dwellings erected after April eighteenth, nineteen hundred twenty-nine, if such tenement conforms to the provisions of this chapter governing like multiple dwellings erected after such date;" and

WHEREAS, accordingly, the applicant addressed all of the objections DOB raised; and

WHEREAS, as to MDL § 30 (Lighting and Ventilation of Rooms), the applicant notes that interior living rooms require adequate light and air and a number of rooms are indicated as interior windowless rooms contrary to MDL § 30; and

WHEREAS, the applicant states that, through the addition of skylights, the plans for the enlargement have been amended to satisfy this requirement; and

WHEREAS, however, with respect to the existing floors, windowless rooms are an existing non-complying condition that is unaffected by the addition of a story, and, should be permitted to remain; and

WHEREAS, the applicant states that compliance with MDL § 30 would require the intrusion into and reconfiguration of occupied apartments and the reconstruction and partitioning of tenant-occupied space, which the Board found by the 2012 Approval creates a practical difficulty; and

WHEREAS, specifically, in the 333 Building and the 335 Building, the building depth is 56'-2" so that there could only be one room facing the front at a maximum depth of 30 feet and a super kitchen facing the rear with a depth of 26'-2"; the reconfiguration would result in the loss of the bedrooms; and

WHEREAS, the applicant notes that the subject building has a depth of 50'-1" so that there would be a loss of the living room or one bedroom; and

WHEREAS, the 329 Building includes a rooms that exceed the maximum permitted depth of 30'-0"; and

WHEREAS, the applicant asserts that the 2012 Approval found practical difficulty in complying with MDL requirements that necessitated making changes to spaces in the existing building that are tenant-occupied or would be affected

MINUTES

by tenancies; and

WHEREAS, the applicant notes that in lieu of strict compliance with MDL § 30, mechanical ventilation, hardwired smoke detectors and a sprinkler system will be installed in each apartment; and

WHEREAS, as to MDL § 148 (Public Stairs), subsection (1) requires that all stairs be constructed as fireproof; subsection (2) requires that every stair must be at least three feet in width and all levels must have landings 3'-6" in width; subsection (3) requires that all stairs must be completely separated from all other stairs, public halls and shafts by fireproof walls, with fireproof doors and assemblies separated from all other stairs, public halls and shafts by fireproof walls, with fireproof doors and assemblies; and subsection (4) requires light and ventilation at every stair at every story by a window or windows opening onto a street, court, yard or space above a setback; and

WHEREAS, the applicant asserts that the Board-approved plans associated with the 2012 Approval show the existing stairwell and common area configuration and the 2012 Approval identifies the practical difficulty of removing and replacing core elements of the buildings, such as public stairs, stairwells and platforms; and

WHEREAS, the applicant asserts that compliance with MDL § 148 would require the removal and replacement of the stairs, landings and public hallways (and creating a separation), which the Board found to be a practical difficulty in the 2012 Approval; and

WHEREAS, the applicant assert that compliance with MDL § 148(1) would require that all stairs be constructed as fireproof stairs and to construct fire proof stairs would require removing and replacing the entire stairwell; and

WHEREAS, the applicant states that this would require extensive demolition and reconstruction of the new stairs as well as vacating the building since the stairs are used for egress; and

WHEREAS, the applicant asserts that compliance with MDL § 148(2) requires that every stair must be at least three feet in width and all levels must have landings 3'-6" in width; and

WHEREAS, the applicant asserts that to provide landings at all levels at a width of 3'-6" would require demolishing existing walls of tenant occupied units and reconfiguring public hallways; and

WHEREAS, the applicant asserts that compliance with MDL § 148(3) requires that all stairs be completely separated from all other stairs, public halls and shafts by fireproof walls, with fireproof doors and assemblies; and

WHEREAS, the applicant notes that a practical difficulty in complying with MDL § 148(3) was found by the 2012 Approval; and

WHEREAS, the applicant asserts that compliance with MDL § 148(4) requires light and ventilation at every stair at every story by a window or windows opening onto a street, court, yard or space above a setback and to provide light and ventilation at every stair at every story would require reconfiguring the current tenant occupied apartments and

extending the public hallways, which would entail replacing the core elements of the buildings; and

WHEREAS, the applicant notes that the 2012 Approval provided waiver of MDL § 148(3) and noted it is a practical difficulty to comply with MDL § 148 subsections 1-4 because they require removing and replacing the buildings' core structure since the buildings are wood frame structures. All stairs, landings and public hallways would have to be removed and replaced; and

WHEREAS, the applicant asserts that similar to MDL § 148, strict compliance with MDL § 149(1), (2) and (3) would require the removal and replacement of the stairs, landings and public hallways, which the Board found to be a practical difficulty in the 2012 Approval; and

WHEREAS, further, the applicant notes that in the 2012 Approval the Board considered the applicant's cost analysis for removing such core elements of the buildings; and

WHEREAS, the applicant notes that as part of the 2012 application, it provided a cost analysis for removing such core elements of the buildings and the Board accepted the cladding of stairs with gypsum board underneath and fire retardant materials on the existing risers and treads, the addition of two layers of 5/8-inch gypsum board to the ceilings of the common areas at each floor, the addition of two layers of 5/8-inch gypsum board to the walls in the halls and stairwells, and the installation of sprinklers; and

WHEREAS, the applicant asserts that MDL § 149 (Public Halls) (1) requires that every public hall must have a width of at least three feet; and

WHEREAS, the applicant asserts that compliance would require removing and replacing stairs, public hallways and platforms and intrusion into tenant occupied apartments to meet the requirement; and

WHEREAS, the applicant asserts that MDL § 149(2) requires that all public halls be completely enclosed with fireproof floor, ceiling and walls, and separated from all stairs by fireproof partitions or walls; and

WHEREAS, the applicant represents that compliance would require removing and replacing the occupied buildings' core structure since the buildings are wood frame structures; and

WHEREAS, the applicant asserts that MDL § 149(3) requires that every public hall have at least one window opening directly upon a street or upon a lawful yard or court; and

WHEREAS, the applicant represents that compliance would require intrusion into occupied apartments and a total reconfiguration of the building core, which is practically impossible; and

WHEREAS, the applicant asserts that the 2012 Approval notes that creating a vestibule, which would require intrusion into occupied apartments, constitutes a practical difficulty; and where compliance would necessitate narrowing the existing living rooms on each apartment on floors two through five to accommodate the extended hallway landing and reconstructing the floors and ceilings to be made fire-proof, a practical difficulty exists; and

MINUTES

WHEREAS, the applicant asserts that in lieu of such compliance, under the 2012 Approval, the Board accepted the installation of fire-proof self-closing doors for the entrance to each apartment, the installation of hard-wired smoke detectors in all residential units, and sprinklers; and

WHEREAS, the applicant asserts that MDL § 152 (Firestopping) requirements necessitate substantial reconstruction and rehabilitation of spaces in the existing building and, additionally, in spaces that are tenant occupied or would be affected by tenancies; and

WHEREAS, the applicant represents that strict compliance with MDL § 152 (1), (2), (3), (4), (6) and (7) is not possible since it would require the substantial reconstruction that would occur in existing occupied apartments; and

WHEREAS, the applicant submitted a letter from an architect consultant detailing the practical difficulty in complying with each subsection of MDL §152; and

WHEREAS, as to MDL § 152(1), every wall where wooden furring is used and every course of masonry from the underside to the top of any floor beams will project a distance of at least two inches beyond each face of the wall that is not on the outside of the dwelling; and whenever floor beams run parallel to a wall and wooden furring is used, every such beam must always be kept at least two inches away from the wall, and the space between the beams and the wall shall be built up solidly with brickwork from the underside to the top of the floor beams; and

WHEREAS, the applicant states that compliance would require removing and replacing the buildings' structural elements; demolishing and replacing the flooring system and all perimeter walls; and intrusion into occupied apartments; and

WHEREAS, as to MDL § 152(2), whenever a wall is studded off, the space between an inside face of the wall and the studding at any floor level must be fire-stopped; every space between beams directly over a studded-off space must be fire-stopped by covering the bottom of the beams with metal lath and plaster and placing a loose fill of incombustible material at least four inches thick on the plaster between the beams, or hollow-burned clay tile or gypsum plaster partition blocks, at least four inches thick in either case and supported by cleats, will be used to fill the spaces between beams; and

WHEREAS, the applicant represents that compliance would require removing and replacing the buildings' structural elements; removing and replacing ceilings because each wooden wall stud has a wooden top and bottom plate; and intrusion into occupied apartments; and

WHEREAS, as to MDL § 152(3), the applicant notes that it requires that partitions which are not parallel with the wood floor beams and which separate one apartment or suite from another or any part of an apartment or suite from a public hall or other part of the dwelling outside the apartment or suite must be filled in solidly with incombustible material between the floor beams from the plate of the partition below to the full depth of the floor beams; and

WHEREAS, the applicant represents that compliance

would require removing and replacing the apartments' and public hall elements and because these Old Law Tenements contain wooden wall studs and plates, the floors and ceilings at each landing would have to be removed and replaced; and

WHEREAS, further, the applicant states that the tenant occupied apartments would have to be vacated during the demolition and construction of the rooms and means of egress; and

WHEREAS, as to MDL § 152(4), the applicant notes that it requires that if a dwelling is within ten feet of another non-fireproof building or of a side lot line, it must have its eaves or cornices built up solidly with masonry; and

WHEREAS, the applicant asserts that compliance would require removing and replacing each front cornice, all of which are independent from each other and solidly blocked at the ends of each property line; and

WHEREAS, as to MDL § 152(6), the applicant notes that it requires that every space between stair carriages of any non-fireproof stair be fire-stopped by a header beam at top and bottom; where a stair run is not all in one room or open space, the stair carriages must have an intermediate firestop, so located as to cut off communication between portions of the stair in different rooms or open spaces; and the underside and stringers of every unenclosed stair of combustible material must be fire-retarded; and

WHEREAS, the applicant represents that compliance would require removing and replacing each primary stair because the structural members of the existing stairwells are wooden and the tenant occupied apartments would have to be vacated during the demolition and construction of the buildings' primary means of egress; and

WHEREAS, as to MDL § 152(7), the applicant notes that it requires that all partitions required to be fire-retarded be fire-stopped with incombustible material at floors, ceilings and roofs; fire-stopping over partitions must extend from the ceiling to the underside of any roofing above; and any space between the top of a partition and the underside of roof boarding must be completely fire-stopped; and

WHEREAS, the applicant represents that compliance would require removing and replacing the apartments' and public hall elements and, because these Old Law Tenements contain wooden wall studs and plates, the floors and ceilings at each landing would have to be removed and replaced; and

WHEREAS, further, the applicant states that the tenant occupied apartments would have to be vacated during the demolition and construction of the rooms and means of egress; and

WHEREAS, in conclusion, the applicant asserts that compliance with MDL § 152 is not possible since it would require substantial reconstruction of building elements and reconstruction of the common spaces and means of egress; and

WHEREAS, the applicant asserts that in lieu of strict compliance, it proposes fire-safety measures formerly accepted by the Board, including the installation of sprinklers throughout the entire building; and

WHEREAS, at hearing, a commissioner raised concern

MINUTES

about whether the proposed firestopping sealant was appropriate for wood-frame buildings and whether the building would be entirely sprinklered; and

WHEREAS, in response, the applicant revised the plans to reflect the correct sealant – Blaze Stop WF300 Intumescent Firestop Caulk – which is used for wood joists, and sprinklers throughout the building, including within each unit; and

WHEREAS, additionally, at hearing, another commissioner who was not satisfied that sufficient fire safety measures are proposed, specifically that there was not a basis to waive MDL § 152 (Fire-stopping) referred to and compared the application to the application and DOB approvals of fire safety measures for 515 East 5th Street (initially approved by DOB absent jurisdiction and not yet approved by the Board); and

WHEREAS, the commissioner indicated that the sprinkler design must satisfy all Fire and Building Code requirements; and

WHEREAS, in response, the applicant notes the following distinctions: (1) the East 5th Street proposal reflects the full demolition of the interior apartments, which allows for the introduction of additional measures compared to the subject building which does not propose a gut rehabilitation and complete demolition of apartments; (2) the construction notes on the East 5th Street plans refer to MDL § 241 which is not one of the noted objections in the subject application; and (3) the construction notes reference Building Code § 27-3459 (formerly C26-504.7) which exempts certain sprinklered areas from the fire-stopping requirement and is not being sought to waive; and

WHEREAS, pursuant to MDL § 310(2)(a), the Board has the authority to vary or modify certain provisions of the MDL for multiple dwellings that existed on July 1, 1948, provided that the Board determines that strict compliance with such provisions would cause practical difficulties or unnecessary hardships, and that the spirit and intent of the MDL are maintained, public health, safety and welfare are preserved, and substantial justice is done; and

WHEREAS, as noted above, the subject building was constructed prior to 1929; therefore the building is subject to MDL § 310(2)(a); and

WHEREAS, specifically, MDL § 310(2)(a) empowers the Board to vary or modify provisions or requirements related to: (1) height and bulk; (2) required open spaces; (3) minimum dimensions of yards or courts; (4) means of egress; and (5) basements and cellars in tenements converted to dwellings; and

WHEREAS, the Board notes that each of the noted conditions fits within one of the sections of MDL § 310(2)(a) – namely height and bulk and means of egress – which the Board has the express authority to vary; therefore the Board has the power to vary or modify the subject provisions pursuant to MDL § 310(2)(a); and

WHEREAS, the applicant represents that practical difficulty and unnecessary hardship would result from strict compliance with each of the noted provisions of the MDL; and

WHEREAS, the applicant states that while it has specified the practical difficulties that would result from strictly complying with each of the individual provisions of the MDL, the underlying issue is that the subject building was constructed more than a century ago using the then common materials and designs, and there is no feasible way to remove all the combustible wood to create segregated and fireproof areas and add elevator cores; and

WHEREAS, the applicant represents that because the proposed vertical enlargement is not permitted, the MDL restriction creates practical difficulty and unnecessary hardship in that it prevents the site from utilizing the development potential afforded by the subject zoning district; and

WHEREAS, specifically, the applicant notes that the subject district permits an FAR of 4.0, and the proposed enlargement, in combination with the proposed enlargements of the 329 Building, the 333 Building, and the 335 Building, will increase the FAR on the proposed zoning lot from 3.31 to 3.75; and

WHEREAS, based on the above, the Board agrees that the applicant has established a sufficient level of practical difficulty and unnecessary hardship in complying with the requirements of the MDL; and

WHEREAS, the Board notes that the new construction will comply with light and air requirements but that the existing windowless rooms will remain as they have existed; and

WHEREAS, the applicant states that the requested variance of MDL §§ 30, 52.4, 53, 145, 148, 149 and 152 is consistent with the spirit and intent of the MDL, and will preserve public health, safety and welfare, and substantial justice; and

WHEREAS, specifically, the applicant states that the proposal includes numerous fire safety improvements to mitigate the existing fire infirmities inherent in the pre-1929 building; and

WHEREAS, the applicant states that the objections cited by DOB are all existing conditions in legally occupied buildings, and the proposal to increase the height from 54'-3" to 67'-3" to accommodate one additional residential unit effectively triggers the retrofitting of the entire building; and

WHEREAS, the applicant represents that the proposed construction promotes the intent of the law because the additional occupancies will be of minimal impact and will not result in overcrowding of the building, the newly constructed spaces will be compliant with current fire safety norms, and the proposal will provide a number of significant fire safety improvements; and

WHEREAS, specifically, the applicant states that it proposes the following fire safety measures: (1) installation of non-combustible concrete floors in the first floor public hallway; (2) installation of new fireproof stairs in the cellar/basement spaces; (3) cladding of all remaining stairs with gypsum board; (4) addition of two layers of 5/8-inch gypsum board to the ceilings of the common areas at each floor; (5) addition of two layers of 5/8-inch gypsum board to

MINUTES

the walls in the halls and stairwells; (6) installation of fireproof self-closing doors for each dwelling unit; (7) addition of fire sprinklers throughout the whole building (including sprinkler in apartments); (8) installation of hard-wired smoke detectors in all residential units; (9) installation of new fire escapes at the rear of the 333 Building and 335 Building; and (10) installation of fire-stopping at the junctures between the walls and floors/ceilings in the public hallways as detailed in the proposed plans; and

WHEREAS, the applicant represents that the above-mentioned fire safety improvements provide a significant added level of fire protection beyond what presently exists in the subject building and improves the health, welfare, and safety of the building's occupants; and

WHEREAS, the applicant represents that the addition of one floor to the subject building does little to increase fire risk, and that the proposed building will actually be significantly safer than it is in its present condition; and

WHEREAS, the applicant submitted a report from a fire consultant endorsing the proposed improvements to the building and stating that "it cannot be understated how significantly fire safety will be improved if the plans are approved by the Board;" and

WHEREAS, the applicant represents that the proposed fire safety measures will result in a substantial increase to the public health, safety, and welfare, which far outweighs any impact from the proposed enlargement; and

WHEREAS, based on the above, the Board finds that will maintain the spirit and intent of the MDL, preserve public health, safety and welfare, and ensure that substantial justice is done; and

WHEREAS, the Board's 2012 Approval, variance to the requirements of MDL §§ 51(6), 143, 146, 148(3), and 149(2) and associated conditions remains and it is not disturbed; and

WHEREAS, the applicant notes that it has eliminated the proposed dormers from the plans and added skylights since the 2012 Approval; and

WHEREAS, as to the Opposition's arguments that the proposed enlargement will have a negative effect on the low-rise character of the surrounding neighborhood and that the alleged hardships are self-created by the applicant's desire to enlarge the building, the Board notes that in an application to vary the requirements of the MDL under MDL § 310, unlike in an application to vary the Zoning Resolution under ZR § 72-21, the Board's review is limited to whether there are practical difficulties and unnecessary hardship in complying with the strict letter of the MDL, that the spirit and intent of the MDL are maintained, and that substantial justice is done; and

WHEREAS, accordingly, the Board finds that the Appellant has submitted adequate evidence in support of the findings required to be made under MDL § 310(2)(a) and that the requested variance of the requirements of MDL §§ 30, 52.4, 53, 145, 148, 149 and 152 is appropriate, with certain conditions set forth below.

Therefore it is Resolved, that the decisions of the Manhattan Borough Commissioner, dated November 21, 2013

and March 10, 2014, are modified and that this appeal is granted, limited to the decision noted above, on condition that construction shall substantially conform to the plans filed with the application marked, "Received July 22, 2014"-(8) sheets; and on further condition:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed Department of Buildings objections related to the MDL and does not address any other non-compliance, including any which may exist pursuant to the Zoning Resolution, Building Code, or Housing Maintenance Code;

THAT fire safety measures not limited to the following will be installed and maintained: (1) non-combustible concrete floors in the first floor public hallway; (2) new fireproof stairs in the cellar/basement spaces; (3) cladding of all remaining stairs with gypsum board; (4) two additional layers of 5/8-inch gypsum board to the ceilings of the common areas at each floor; (5) two additional layers of 5/8-inch gypsum board to the walls in the halls and stairwells; (6) fireproof self-closing doors for each dwelling unit; (7) fire sprinklers throughout the whole building; (8) hard-wired smoke detectors in all residential units; (9) new fire escapes at the rear of the 333 Building and 335 Building; and (10) fire-stopping at the junctures between the walls and floors/ceilings in the public hallways as detailed in the proposed plans;

THAT DOB review and approve sprinkler location and number in accordance with the Building Code and Fire Code requirements for full sprinklering of a residential building including within each unit and all public spaces, prior to the issuance of any permits;

THAT fire safety measures associated with the 2012 Approval will be installed and maintained;

THAT the Department of Buildings will confirm the establishment of the zoning lot, consisting of tax lots 44, 45, 46, and 47, prior to the issuance of a building permit;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 29, 2014.

84-11-A

APPLICANT – Law Office of Marvin B. Mitzner LLC, for Kushner Companies, owners.

SUBJECT – Application November 29, 2013 – An amendment to the previously approved waivers to the Multiple Dwelling Law (MDL) to address MDL objections raised by the Department of Buildings. R8B zoning district. PREMISES AFFECTED – 333 East 9th Street, north side East 9th Street, 2nd and 1st Avenue, Block 451, Lot 45, Borough of Manhattan.

COMMUNITY BOARD #3M

MINUTES

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown and Commissioner Hinkson.....3

Negative: Commissioner Montanez.....1

THE RESOLUTION –

WHEREAS, the decisions of the Manhattan Borough Commissioner, dated November 21, 2013 and March 10, 2014, acting on Department of Buildings Application No. 120615192 read, in pertinent part:

- (4) Cellar must have 2-hour fire separation from other floors. Ceiling and stairs must be fire rated. [MDL 143] . . .
- (8) Interior living rooms require adequate light and air. A number of rooms, including those at the top floor with skylights, are indicated as interior windowless rooms contrary to MDL 30. [MDL 30]
- (9) BSA granted a waiver of MDL 143 in total. Plans must be prepared to carefully demonstrate compliance with the stipulation proposed to mitigate this requirement. Present to the department. [MDL 143]
- (10) BSA granted that fire escapes may be used as 2nd means of egress from the dwelling units. Plans shall indicate the design and construction of same including compliance with 4a-c for construction and support, 2a for the fire escape in the interior court at house #333, size height and construction of the drop ladder per 5a-c. [MDL 145 and 53]
- (11) Plans must demonstrate compliance with section 1 through 5 including stairway, platform, riser tread, and handrail dimensions. In the event any dimensions or construction are non-complying, same shall be cited on plans. [MDL 148, 1 through 5]
- (12) Plans must demonstrate compliance with sections 1, 3, 4, 5, 6 including public hall windows opening directly to exterior, fire proof construction and dimensions. In the event any dimensions or construction are non-complying, same shall be cited on plans. [MDL 149]
- (13) Plans must demonstrate compliance with sections 1 through 7 including details indicating the design of the fire-stopping, edge relief, fire resistance rated fill and coverings. [MDL 152, 1 through 7]
- (14) The proposed fire passages from the rear yards to the front of each building are contrary to C26-273(d).7, in that, there is no access from the lower termination of the rear fire escape to the street through a fire proof passage independent of the first means of egress. Design and construction

of such passage shall be carefully detailed to indicate fire resistance rating, access and structural support. The fire escape at house #333 does not have access to a passage at 333. [MDL 53; C26-273(d).7]

- (15) BSA approved plans dated July 31, 2012 show winder stairs at house number 329 contrary to submitted plans dated July 17, 2013. Please resolve. [MDL 52.4]; and

Proposed increase in bulk and/or height exceeds threshold of 5 stories for non-fireproof tenement. [MDL 211.1]; and

WHEREAS, this is an application pursuant to Multiple Dwelling Law (“MDL”) § 310, for an amendment to a prior approval to vary the MDL (the “2012 Approval”); and

WHEREAS, the applicant seeks to vary MDL § 211 to allow for the proposed one-story vertical enlargement of the subject five-story residential building; however, the analysis addresses waiver to MDL §§ 30, 52, 53, 145, 148, 149 and 152; and

WHEREAS, three companion applications to vary the MDL to permit one-story vertical enlargements of the three adjacent buildings, filed under BSA Cal. Nos. 80-11-A, 85-11-A and 103-11-A, were heard concurrently and decided on the same date; and

WHEREAS, a public hearing was held on this application on February 11, 2014, after due notice by publication in *The City Record*, with continued hearings on March 25, 2014, April 29, 2014, June 10, 2014, and July 15, 2014, and then to decision on July 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by former Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, New York City Council Member Rosie Mendez recommends disapproval of this application, citing concerns about (1) the self-creation of the hardships related to MDL non-compliance by choosing to enlarge the building; (2) a blanket waiver of all objections, rather than an individual analysis of each requested waiver; and (3) whether the Board has the authority to waive non-compliance with light and air requirements; and

WHEREAS, the Greenwich Village Society for Historic Preservation provided testimony in opposition to this application, which reiterates Council Member Mendez’ concerns including that there be individual assessment of MDL non-compliance rather than a single waiver; and

WHEREAS, collectively, the parties who provided testimony in opposition to this application are known as the “Opposition;” and

WHEREAS, the subject site is located on the north side of East 9th Street, between First Avenue and Second Avenue, within an R8B zoning district; and

WHEREAS, the site has 25 feet of frontage along East 9th Street, a depth of 92.25 feet, and a total lot area of 2,306 sq. ft.; and

MINUTES

WHEREAS, the site is occupied by a five-story non-fireproof building, with retail space and one residential unit on the ground floor and a total of eight dwelling units on the upper four floors (two dwelling units per floor); and

WHEREAS, the applicant states that the subject building is located on a single zoning lot with three adjacent buildings located at 329 East 9th Street (the “329 Building”), 331 East 9th Street (the “331 Building”), and 335 East 9th Street (the “335 Building”), each of which is seeking identical relief to vary the MDL in order to allow for a one-story vertical enlargement; and

WHEREAS, the applicant notes that the proposed zoning lot has a total lot area of 8,395 sq. ft.; and

WHEREAS, the applicant states that the existing building was constructed prior to 1929; and

WHEREAS, the subject building has a floor area of approximately 7,011 sq. ft. and a height of 54’-3””; there is also a one-story portion and a three-story portion of the building which result in a total floor area of 10,102.5 sq. ft. on the lot; and

WHEREAS, the applicant proposes to enlarge the building by constructing a sixth floor containing an additional 931.8 sq. ft. of floor area to be occupied by one additional dwelling unit, increasing the total number of dwelling units in the building to ten; and

WHEREAS, the applicant states that the proposed enlargement will increase the floor area of the subject building from 7,011.1 sq. ft. to 7,942.9 sq. ft., and in combination with the proposed enlargements of the 329 Building, the 333 Building, and the 335 Building, will increase the total floor area on the proposed zoning lot from 27,826 sq. ft. (3.31 FAR) to 31,422 sq. ft. (3.75 FAR) (the maximum permitted floor area is 33,580 sq. ft. (4.0 FAR)), and will increase the height of the subject building from 54’-3” to 67’-3” (the maximum permitted height is 75’-0”); and

WHEREAS, on September 11, 2012, the Board approved a prior version of the application for waiver to MDL §§ 51(6), 148(3), 149(2), 143, and 146 (the “2012 Approval”); and

WHEREAS, however, DOB subsequently audited the application and issued the noted supplemental objections; and

WHEREAS, the applicant asserts that the objections associated with the 2012 Approval and the initial (November 21, 2013) objections associated with the subject amendment application were issued under the assumption that the buildings are Hereafter Erected Class A (HAEA) buildings; and

WHEREAS, during the hearing process, the applicant adopted the position that the building is actually a tenement and returned to DOB to obtain a single objection for non-compliance with MDL § 211 (Article 7: Height and Bulk) for tenement buildings; and

WHEREAS, the applicant states that by requesting a variance of MDL § 211, it is not seeking a waiver of every provision that would be applicable to strictly comply with MDL § 211 but, rather, that the Board vary the requirements of MDL § 211 by specifying which provisions it cannot

comply with in exchange for proposed safety measures that maintain the spirit and intent of the MDL; and

WHEREAS, MDL § 211 requires that in order for a pre-1929 non-fireproof residential building to increase in height beyond five stories, the building must comply with the provisions of the MDL; the proposed addition of a sixth floor to the subject building results in the MDL non-compliances waived under the 2012 Approval and the supplemental conditions described below; and

WHEREAS, initially, a question arose about whether the Board had jurisdiction to waiver non-compliance with light and air provisions (MDL § 30) since light and air is not one of the enumerated conditions at MDL § 310(2)(a); and

WHEREAS, the Board considered the jurisdictional question and concluded that the request to increase the height triggers the specific non-compliances and thus the Board’s waiver authority under MDL § 310(2)(a)(1) allows for a waiver of MDL § 211 (Height and Bulk) and the associated enumerated non-compliances DOB identified during its audit; and

WHEREAS, however, the Board directed the applicant to address all of the DOB objections so that it could appropriately evaluate whether the MDL § 310(a) findings are met; and

WHEREAS, at the Board’s request, the applicant addressed each of the specific DOB objections to supplement its assertion that the Board had jurisdiction over each non-compliance individually and through MDL § 211; and

WHEREAS, MDL § 211 (Height and Bulk) (1) states that “[e]xcept as otherwise provided in subdivision four of this section, no non-fireproof tenement shall be increased in height so that it shall exceed five stories, except that any tenement may be increased to any height permitted for multiple dwellings erected after April eighteenth, nineteen hundred twenty-nine, if such tenement conforms to the provisions of this chapter governing like multiple dwellings erected after such date;” and

WHEREAS, accordingly, the applicant addressed all of the objections DOB raised; and

WHEREAS, as to MDL § 30 (Lighting and Ventilation of Rooms), the applicant notes that interior living rooms require adequate light and air and a number of rooms are indicated as interior windowless rooms contrary to MDL § 30; and

WHEREAS, the applicant states that, through the addition of skylights, the plans for the enlargement have been amended to satisfy this requirement; and

WHEREAS, however, with respect to the existing floors, windowless rooms are an existing non-complying condition that is unaffected by the addition of a story, and, should be permitted to remain; and

WHEREAS, the applicant states that compliance with MDL § 30 would require the intrusion into and reconfiguration of occupied apartments and the reconstruction and partitioning of tenant-occupied space, which the Board found by the 2012 Approval creates a practical difficulty; and

WHEREAS, specifically, in the 333 Building and the

MINUTES

335 Building, the building depth is 56'-2" so that there could only be one room facing the front at a maximum depth of 30 feet and a super kitchen facing the rear with a depth of 26'-2"; the reconfiguration would result in the loss of the bedrooms; and

WHEREAS, the applicant notes that the subject building has a depth of 50'-1" so that there would be a loss of the living room or one bedroom; and

WHEREAS, the 329 Building includes a rooms that exceed the maximum permitted depth of 30'-0"; and

WHEREAS, the applicant asserts that the 2012 Approval found practical difficulty in complying with MDL requirements that necessitated making changes to spaces in the existing building that are tenant-occupied or would be affected by tenancies; and

WHEREAS, the applicant notes that in lieu of strict compliance with MDL § 30, mechanical ventilation, hardwired smoke detectors and a sprinkler system will be installed in each apartment; and

WHEREAS, as to MDL § 148 (Public Stairs), subsection (1) requires that all stairs be constructed as fireproof; subsection (2) requires that every stair must be at least three feet in width and all levels must have landings 3'-6" in width; subsection (3) requires that all stairs must be completely separated from all other stairs, public halls and shafts by fireproof walls, with fireproof doors and assemblies separated from all other stairs, public halls and shafts by fireproof walls, with fireproof doors and assemblies; and subsection (4) requires light and ventilation at every stair at every story by a window or windows opening onto a street, court, yard or space above a setback; and

WHEREAS, the applicant asserts that the Board-approved plans associated with the 2012 Approval show the existing stairwell and common area configuration and the 2012 Approval identifies the practical difficulty of removing and replacing core elements of the buildings, such as public stairs, stairwells and platforms; and

WHEREAS, the applicant asserts that compliance with MDL § 148 would require the removal and replacement of the stairs, landings and public hallways (and creating a separation), which the Board found to be a practical difficulty in the 2012 Approval; and

WHEREAS, the applicant assert that compliance with MDL § 148(1) would require that all stairs be constructed as fireproof stairs and to construct fire proof stairs would require removing and replacing the entire stairwell; and

WHEREAS, the applicant states that this would require extensive demolition and reconstruction of the new stairs as well as vacating the building since the stairs are used for egress; and

WHEREAS, the applicant asserts that compliance with MDL § 148(2) requires that every stair must be at least three feet in width and all levels must have landings 3'-6" in width; and

WHEREAS, the applicant asserts that to provide landings at all levels at a width of 3'-6" would require demolishing existing walls of tenant occupied units and

reconfiguring public hallways; and

WHEREAS, the applicant asserts that compliance with MDL § 148(3) requires that all stairs be completely separated from all other stairs, public halls and shafts by fireproof walls, with fireproof doors and assemblies; and

WHEREAS, the applicant notes that a practical difficulty in complying with MDL § 148(3) was found by the 2012 Approval; and

WHEREAS, the applicant asserts that compliance with MDL § 148(4) requires light and ventilation at every stair at every story by a window or windows opening onto a street, court, yard or space above a setback and to provide light and ventilation at every stair at every story would require reconfiguring the current tenant occupied apartments and extending the public hallways, which would entail replacing the core elements of the buildings; and

WHEREAS, the applicant notes that the 2012 Approval provided waiver of MDL § 148(3) and noted it is a practical difficulty to comply with MDL §148 subsections 1-4 because they require removing and replacing the buildings' core structure since the buildings are wood frame structures. All stairs, landings and public hallways would have to be removed and replaced; and

WHEREAS, the applicant asserts that similar to MDL § 148, strict compliance with MDL § 149(1), (2) and (3) would require the removal and replacement of the stairs, landings and public hallways, which the Board found to be a practical difficulty in the 2012 Approval; and

WHEREAS, further, the applicant notes that in the 2012 Approval the Board considered the applicant's cost analysis for removing such core elements of the buildings; and

WHEREAS, the applicant notes that as part of the 2012 application, it provided a cost analysis for removing such core elements of the buildings and the Board accepted the cladding of stairs with gypsum board underneath and fire retardant materials on the existing risers and treads, the addition of two layers of 5/8-inch gypsum board to the ceilings of the common areas at each floor, the addition of two layers of 5/8-inch gypsum board to the walls in the halls and stairwells, and the installation of sprinklers; and

WHEREAS, the applicant asserts that MDL § 149 (Public Halls) (1) requires that every public hall must have a width of at least three feet; and

WHEREAS, the applicant asserts that compliance would require removing and replacing stairs, public hallways and platforms and intrusion into tenant occupied apartments to meet the requirement; and

WHEREAS, the applicant asserts that MDL § 149(2) requires that all public halls be completely enclosed with fireproof floor, ceiling and walls, and separated from all stairs by fireproof partitions or walls; and

WHEREAS, the applicant represents that compliance would require removing and replacing the occupied buildings' core structure since the buildings are wood frame structures; and

WHEREAS, the applicant asserts that MDL § 149(3) requires that every public hall have at least one window

MINUTES

opening directly upon a street or upon a lawful yard or court; and

WHEREAS, the applicant represents that compliance would require intrusion into occupied apartments and a total reconfiguration of the building core, which is practically impossible; and

WHEREAS, the applicant asserts that the 2012 Approval notes that creating a vestibule, which would require intrusion into occupied apartments, constitutes a practical difficulty; and where compliance would necessitate narrowing the existing living rooms on each apartment on floors two through five to accommodate the extended hallway landing and reconstructing the floors and ceilings to be made fire-proof, a practical difficulty exists; and

WHEREAS, the applicant asserts that in lieu of such compliance, under the 2012 Approval, the Board accepted the installation of fire-proof self-closing doors for the entrance to each apartment, the installation of hard-wired smoke detectors in all residential units, and sprinklers; and

WHEREAS, the applicant asserts that MDL § 152 (Firestopping) requirements necessitate substantial reconstruction and rehabilitation of spaces in the existing building and, additionally, in spaces that are tenant occupied or would be affected by tenancies; and

WHEREAS, the applicant represents that strict compliance with MDL § 152 (1), (2), (3), (4), (6) and (7) is not possible since it would require the substantial reconstruction that would occur in existing occupied apartments; and

WHEREAS, the applicant submitted a letter from an architect consultant detailing the practical difficulty in complying with each subsection of MDL § 152; and

WHEREAS, as to MDL § 152(1), every wall where wooden furring is used and every course of masonry from the underside to the top of any floor beams will project a distance of at least two inches beyond each face of the wall that is not on the outside of the dwelling; and whenever floor beams run parallel to a wall and wooden furring is used, every such beam must always be kept at least two inches away from the wall, and the space between the beams and the wall shall be built up solidly with brickwork from the underside to the top of the floor beams; and

WHEREAS, the applicant states that compliance would require removing and replacing the buildings' structural elements; demolishing and replacing the flooring system and all perimeter walls; and intrusion into occupied apartments; and

WHEREAS, as to MDL § 152(2), whenever a wall is studded off, the space between an inside face of the wall and the studding at any floor level must be fire-stopped; every space between beams directly over a studded-off space must be fire-stopped by covering the bottom of the beams with metal lath and plaster and placing a loose fill of incombustible material at least four inches thick on the plaster between the beams, or hollow-burned clay tile or gypsum plaster partition blocks, at least four inches thick in either case and supported by cleats, will be used to fill the spaces between beams; and

WHEREAS, the applicant represents that compliance would require removing and replacing the buildings' structural elements; removing and replacing ceilings because each wooden wall stud has a wooden top and bottom plate; and intrusion into occupied apartments; and

WHEREAS, as to MDL § 152(3), the applicant notes that it requires that partitions which are not parallel with the wood floor beams and which separate one apartment or suite from another or any part of an apartment or suite from a public hall or other part of the dwelling outside the apartment or suite must be filled in solidly with incombustible material between the floor beams from the plate of the partition below to the full depth of the floor beams; and

WHEREAS, the applicant represents that compliance would require removing and replacing the apartments' and public hall elements and because these Old Law Tenements contain wooden wall studs and plates, the floors and ceilings at each landing would have to be removed and replaced; and

WHEREAS, further, the applicant states that the tenant occupied apartments would have to be vacated during the demolition and construction of the rooms and means of egress; and

WHEREAS, as to MDL § 152(4), the applicant notes that it requires that if a dwelling is within ten feet of another non-fireproof building or of a side lot line, it must have its eaves or cornices built up solidly with masonry; and

WHEREAS, the applicant asserts that compliance would require removing and replacing each front cornice, all of which are independent from each other and solidly blocked at the ends of each property line; and

WHEREAS, as to MDL § 152(6), the applicant notes that it requires that every space between stair carriages of any non-fireproof stair be fire-stopped by a header beam at top and bottom; where a stair run is not all in one room or open space, the stair carriages must have an intermediate firestop, so located as to cut off communication between portions of the stair in different rooms or open spaces; and the underside and stringers of every unenclosed stair of combustible material must be fire-retarded; and

WHEREAS, the applicant represents that compliance would require removing and replacing each primary stair because the structural members of the existing stairwells are wooden and the tenant occupied apartments would have to be vacated during the demolition and construction of the buildings' primary means of egress; and

WHEREAS, as to MDL § 152(7), the applicant notes that it requires that all partitions required to be fire-retarded be fire-stopped with incombustible material at floors, ceilings and roofs; fire-stopping over partitions must extend from the ceiling to the underside of any roofing above; and any space between the top of a partition and the underside of roof boarding must be completely fire-stopped; and

WHEREAS, the applicant represents that compliance would require removing and replacing the apartments' and public hall elements and, because these Old Law Tenements contain wooden wall studs and plates, the floors and ceilings at each landing would have to be removed and replaced; and

MINUTES

WHEREAS, further, the applicant states that the tenant occupied apartments would have to be vacated during the demolition and construction of the rooms and means of egress; and

WHEREAS, in conclusion, the applicant asserts that compliance with MDL § 152 is not possible since it would require substantial reconstruction of building elements and reconstruction of the common spaces and means of egress; and

WHEREAS, the applicant asserts that in lieu of strict compliance, it proposes fire-safety measures formerly accepted by the Board, including the installation of sprinklers throughout the entire building; and

WHEREAS, at hearing, a commissioner raised concern about whether the proposed firestopping sealant was appropriate for wood-frame buildings and whether the building would be entirely sprinklered; and

WHEREAS, in response, the applicant revised the plans to reflect the correct sealant – Blaze Stop WF300 Intumescent Firestop Caulk – which is used for wood joists, and sprinklers throughout the building, including within each unit; and

WHEREAS, additionally, at hearing, another commissioner who was not satisfied that sufficient fire safety measures are proposed, specifically that there was not a basis to waive MDL § 152 (Fire-stopping) referred to and compared the application to the application and DOB approvals of fire safety measures for 515 East 5th Street (initially approved by DOB absent jurisdiction and not yet approved by the Board); and

WHEREAS, the commissioner indicated that the sprinkler design must satisfy all Fire and Building Code requirements; and

WHEREAS, in response, the applicant notes the following distinctions: (1) the East 5th Street proposal reflects the full demolition of the interior apartments, which allows for the introduction of additional measures compared to the subject building which does not propose a gut rehabilitation and complete demolition of apartments; (2) the construction notes on the East 5th Street plans refer to MDL § 241 which is not one of the noted objections in the subject application; and (3) the construction notes reference Building Code § 27-3459 (formerly C26-504.7) which exempts certain sprinklered areas from the fire-stopping requirement and is not being sought to waive; and

WHEREAS, pursuant to MDL § 310(2)(a), the Board has the authority to vary or modify certain provisions of the MDL for multiple dwellings that existed on July 1, 1948, provided that the Board determines that strict compliance with such provisions would cause practical difficulties or unnecessary hardships, and that the spirit and intent of the MDL are maintained, public health, safety and welfare are preserved, and substantial justice is done; and

WHEREAS, as noted above, the subject building was constructed prior to 1929; therefore the building is subject to MDL § 310(2)(a); and

WHEREAS, specifically, MDL § 310(2)(a) empowers the Board to vary or modify provisions or requirements related

to: (1) height and bulk; (2) required open spaces; (3) minimum dimensions of yards or courts; (4) means of egress; and (5) basements and cellars in tenements converted to dwellings; and

WHEREAS, the Board notes that each of the noted conditions fits within one of the sections of MDL § 310(2)(a) – namely height and bulk and means of egress – which the Board has the express authority to vary; therefore the Board has the power to vary or modify the subject provisions pursuant to MDL § 310(2)(a); and

WHEREAS, the applicant represents that practical difficulty and unnecessary hardship would result from strict compliance with each of the noted provisions of the MDL; and

WHEREAS, the applicant states that while it has specified the practical difficulties that would result from strictly complying with each of the individual provisions of the MDL, the underlying issue is that the subject building was constructed more than a century ago using the then common materials and designs, and there is no feasible way to remove all the combustible wood to create segregated and fireproof areas and add elevator cores; and

WHEREAS, the applicant represents that because the proposed vertical enlargement is not permitted, the MDL restriction creates practical difficulty and unnecessary hardship in that it prevents the site from utilizing the development potential afforded by the subject zoning district; and

WHEREAS, specifically, the applicant notes that the subject district permits an FAR of 4.0, and the proposed enlargement, in combination with the proposed enlargements of the 329 Building, the 333 Building, and the 335 Building, will increase the FAR on the proposed zoning lot from 3.31 to 3.75; and

WHEREAS, based on the above, the Board agrees that the applicant has established a sufficient level of practical difficulty and unnecessary hardship in complying with the requirements of the MDL; and

WHEREAS, the Board notes that the new construction will comply with light and air requirements but that the existing windowless rooms will remain as they have existed; and

WHEREAS, the applicant states that the requested variance of MDL §§ 30, 52.4, 53, 145, 148, 149 and 152 is consistent with the spirit and intent of the MDL, and will preserve public health, safety and welfare, and substantial justice; and

WHEREAS, specifically, the applicant states that the proposal includes numerous fire safety improvements to mitigate the existing fire infirmities inherent in the pre-1929 building; and

WHEREAS, the applicant states that the objections cited by DOB are all existing conditions in legally occupied buildings, and the proposal to increase the height from 54'-3" to 67'-3" to accommodate one additional residential unit effectively triggers the retrofitting of the entire building; and

WHEREAS, the applicant represents that the proposed

MINUTES

construction promotes the intent of the law because the additional occupancies will be of minimal impact and will not result in overcrowding of the building, the newly constructed spaces will be compliant with current fire safety norms, and the proposal will provide a number of significant fire safety improvements; and

WHEREAS, specifically, the applicant states that it proposes the following fire safety measures: (1) installation of non-combustible concrete floors in the first floor public hallway; (2) installation of new fireproof stairs in the cellar/basement spaces; (3) cladding of all remaining stairs with gypsum board; (4) addition of two layers of 5/8-inch gypsum board to the ceilings of the common areas at each floor; (5) addition of two layers of 5/8-inch gypsum board to the walls in the halls and stairwells; (6) installation of fireproof self-closing doors for each dwelling unit; (7) addition of fire sprinklers throughout the whole building (including sprinkler in apartments); (8) installation of hard-wired smoke detectors in all residential units; (9) installation of new fire escapes at the rear of the 333 Building and 335 Building; and (10) installation of fire-stopping at the junctures between the walls and floors/ceilings in the public hallways as detailed in the proposed plans; and

WHEREAS, the applicant represents that the above-mentioned fire safety improvements provide a significant added level of fire protection beyond what presently exists in the subject building and improves the health, welfare, and safety of the building's occupants; and

WHEREAS, the applicant represents that the addition of one floor to the subject building does little to increase fire risk, and that the proposed building will actually be significantly safer than it is in its present condition; and

WHEREAS, the applicant submitted a report from a fire consultant endorsing the proposed improvements to the building and stating that "it cannot be understated how significantly fire safety will be improved if the plans are approved by the Board;" and

WHEREAS, the applicant represents that the proposed fire safety measures will result in a substantial increase to the public health, safety, and welfare, which far outweighs any impact from the proposed enlargement; and

WHEREAS, based on the above, the Board finds that will maintain the spirit and intent of the MDL, preserve public health, safety and welfare, and ensure that substantial justice is done; and

WHEREAS, the Board's 2012 Approval, variance to the requirements of MDL §§ 51(6), 143, 146, 148(3), and 149(2) and associated conditions remains and it is not disturbed; and

WHEREAS, the applicant notes that it has eliminated the proposed dormers from the plans and added skylights since the 2012 Approval; and

WHEREAS, as to the Opposition's arguments that the proposed enlargement will have a negative effect on the low-rise character of the surrounding neighborhood and that the alleged hardships are self-created by the applicant's desire to enlarge the building, the Board notes that in an application to vary the requirements of the MDL under MDL § 310,

unlike in an application to vary the Zoning Resolution under ZR § 72-21, the Board's review is limited to whether there are practical difficulties and unnecessary hardship in complying with the strict letter of the MDL, that the spirit and intent of the MDL are maintained, and that substantial justice is done; and

WHEREAS, accordingly, the Board finds that the Appellant has submitted adequate evidence in support of the findings required to be made under MDL § 310(2)(a) and that the requested variance of the requirements of MDL §§ 30, 52.4, 53, 145, 148, 149 and 152 is appropriate, with certain conditions set forth below.

Therefore it is Resolved, that the decisions of the Manhattan Borough Commissioner, dated November 21, 2013 and March 10, 2014, are modified and that this appeal is granted, limited to the decision noted above, on condition that construction shall substantially conform to the plans filed with the application marked, "Received July 22, 2014" -(8) sheets; and on further condition:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed Department of Buildings objections related to the MDL and does not address any other non-compliance, including any which may exist pursuant to the Zoning Resolution, Building Code, or Housing Maintenance Code;

THAT fire safety measures not limited to the following will be installed and maintained: (1) non-combustible concrete floors in the first floor public hallway; (2) new fireproof stairs in the cellar/basement spaces; (3) cladding of all remaining stairs with gypsum board; (4) two additional layers of 5/8-inch gypsum board to the ceilings of the common areas at each floor; (5) two additional layers of 5/8-inch gypsum board to the walls in the halls and stairwells; (6) fireproof self-closing doors for each dwelling unit; (7) fire sprinklers throughout the whole building; (8) hard-wired smoke detectors in all residential units; (9) new fire escapes at the rear of the 333 Building and 335 Building; and (10) fire-stopping at the junctures between the walls and floors/ceilings in the public hallways as detailed in the proposed plans;

THAT DOB review and approve sprinkler location and number in accordance with the Building Code and Fire Code requirements for full sprinklering of a residential building including within each unit and all public spaces, prior to the issuance of any permits;

THAT fire safety measures associated with the 2012 Approval will be installed and maintained;

THAT the Department of Buildings will confirm the establishment of the zoning lot, consisting of tax lots 44, 45, 46, and 47, prior to the issuance of a building permit;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July

MINUTES

29, 2014.

85-11-A

APPLICANT – Law Office of Marvin B. Mitzner LLC, for Kushner Companies, owners.

SUBJECT – Application November 29, 2013 – An amendment to the previously approved waivers to the Multiple Dwelling Law (MDL) to address MDL objections raised by the Department of Buildings. R8B zoning district. PREMISES AFFECTED – 331 East 9th Street, north side East 9th Street, 2nd and 1st Avenue, Block 451, Lot 45, Borough of Manhattan.

COMMUNITY BOARD #3M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown and Commissioner Hinkson.....3

Negative: Commissioner Montanez.....1

THE RESOLUTION –

WHEREAS, the decisions of the Manhattan Borough Commissioner, dated November 21, 2013 and March 10, 2014, acting on Department of Buildings Application No. 120615209 read, in pertinent part:

- (4) Cellar must have 2-hour fire separation from other floors. Ceiling and stairs must be fire rated. [MDL 143] . . .
- (8) Interior living rooms require adequate light and air. A number of rooms, including those at the top floor with skylights, are indicated as interior windowless rooms contrary to MDL 30. [MDL 30]
- (9) BSA granted a waiver of MDL 143 in total. Plans must be prepared to carefully demonstrate compliance with the stipulation proposed to mitigate this requirement. Present to the department. [MDL 143]
- (10) BSA granted that fire escapes may be used as 2nd means of egress from the dwelling units. Plans shall indicate the design and construction of same including compliance with 4a-c for construction and support, 2a for the fire escape in the interior court at house #333, size height and construction of the drop ladder per 5a-c. [MDL 145 and 53]
- (11) Plans must demonstrate compliance with section 1 through 5 including stairway, platform, riser tread, and handrail dimensions. In the event any dimensions or construction are non-complying, same shall be cited on plans. [MDL 148, 1 through 5]
- (12) Plans must demonstrate compliance with sections 1, 3, 4, 5, 6 including public hall windows opening directly to exterior, fire proof construction and dimensions. In the event any dimensions or construction are

non-complying, same shall be cited on plans. [MDL 149]

- (13) Plans must demonstrate compliance with sections 1 through 7 including details indicating the design of the fire-stopping, edge relief, fire resistance rated fill and coverings. [MDL 152, 1 through 7]
- (14) The proposed fire passages from the rear yards to the front of each building are contrary to C26-273(d).7, in that, there is no access from the lower termination of the rear fire escape to the street through a fire proof passage independent of the first means of egress. Design and construction of such passage shall be carefully detailed to indicate fire resistance rating, access and structural support. The fire escape at house #333 does not have access to a passage at 333. [MDL 53; C26-273(d).7]
- (15) BSA approved plans dated July 31, 2012 show winder stairs at house number 329 contrary to submitted plans dated July 17, 2013. Please resolve. [MDL 52.4]; and

Proposed increase in bulk and/or height exceeds threshold of 5 stories for non-fireproof tenement. [MDL 211.1]; and

WHEREAS, this is an application pursuant to Multiple Dwelling Law (“MDL”) § 310, for an amendment to a prior approval to vary the MDL (the “2012 Approval”); and

WHEREAS, the applicant seeks to vary MDL § 211 to allow for the proposed one-story vertical enlargement of the subject five-story residential building; however, the analysis addresses waiver to MDL §§ 30, 52, 53, 145, 148, 149 and 152; and

WHEREAS, three companion applications to vary the MDL to permit one-story vertical enlargements of the three adjacent buildings, filed under BSA Cal. Nos. 80-11-A, 84-11-A and 103-11-A, were heard concurrently and decided on the same date; and

WHEREAS, a public hearing was held on this application on February 11, 2014, after due notice by publication in *The City Record*, with continued hearings on March 25, 2014, April 20, 2014, June 10, 2014, and July 15, 2014, and then to decision on July 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by former Chair Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, New York City Council Member Rosie Mendez recommends disapproval of this application, citing concerns about (1) the self-creation of the hardships related to MDL non-compliance by choosing to enlarge the building; (2) a blanket waiver of all objections, rather than an individual analysis of each requested waiver; (3) whether the Board has the authority to waive non-compliance with light and air requirements; and

MINUTES

WHEREAS, the Greenwich Village Society for Historic Preservation provided testimony in opposition to this application, which reiterates Council Member Mendez' concerns including that there be individual assessment of MDL non-compliance rather than a single waiver; and

WHEREAS, collectively, the parties who provided testimony in opposition to this application are known as the "Opposition;" and

WHEREAS, the subject site is located on the north side of East 9th Street, between First Avenue and Second Avenue, within an R8B zoning district; and

WHEREAS, the site has 25 feet of frontage along East 9th Street, a depth of 92.25 feet, and a total lot area of 2,306 sq. ft.; and

WHEREAS, the site is occupied by a five-story non-fireproof building, with retail space and one residential unit on the ground floor and a total of eight dwelling units on the upper four floors (two dwelling units per floor); and

WHEREAS, the applicant states that the subject building is located on a single zoning lot with three adjacent buildings located at 329 East 9th Street (the "329 Building"), 331 East 9th Street (the "331 Building"), and 333 East 9th Street (the "333 Building"), each of which is seeking identical relief to vary the MDL in order to allow for a one-story vertical enlargement; and

WHEREAS, the applicant notes that the proposed zoning lot has a total lot area of 8,395 sq. ft.; and

WHEREAS, the applicant states that the existing building was constructed prior to 1929; and

WHEREAS, the subject building has a floor area of approximately 7,023.5 sq. ft. and a height of 54'-3"; and

WHEREAS, the applicant proposes to enlarge the building by constructing a sixth floor containing an additional 931.3 sq. ft. of floor area to be occupied by one additional dwelling unit, increasing the total number of dwelling units in the building to ten; and

WHEREAS, the applicant states that the proposed enlargement will increase the floor area of the subject building from 7,023.5sq. ft. to 7,954.8 sq. ft., and in combination with the proposed enlargements of the 329 Building, the 331 Building, and the 333 Building, will increase the total floor area on the proposed zoning lot from 27,826 sq. ft. (3.31 FAR) to 31,422 sq. ft. (3.75 FAR) (the maximum permitted floor area is 33,580 sq. ft. (4.0 FAR)), and will increase the height of the subject building from 54'-3" to 67'-3" (the maximum permitted height is 75'-0"); and

WHEREAS, on September 11, 2012, the Board approved a prior version of the application for waiver to MDL §§ 51(6), 148(3), 149(2), 143, and 146 (the "2012 Approval"); and

WHEREAS, however, DOB subsequently audited the application and issued the noted supplemental objections; and

WHEREAS, the applicant asserts that the objections associated with the 2012 Approval and the initial (November 21, 2013) objections associated with the subject amendment application were issued under the assumption that the buildings are Hereafter Erected Class A (HAEA) buildings;

and

WHEREAS, during the hearing process, the applicant adopted the position that the building is actually a tenement and returned to DOB to obtain a single objection for non-compliance with MDL § 211 (Article 7: Height and Bulk) for tenement buildings; and

WHEREAS, the applicant states that by requesting a variance of MDL § 211, it is not seeking a waiver of every provision that would be applicable to strictly comply with MDL § 211 but, rather, that the Board vary the requirements of MDL § 211 by specifying which provisions it cannot comply with in exchange for proposed safety measures that maintain the spirit and intent of the MDL; and

WHEREAS, MDL § 211 requires that in order for a pre-1929 non-fireproof residential building to increase in height beyond five stories, the building must comply with the provisions of the MDL; the proposed addition of a sixth floor to the subject building results in the MDL non-compliances waived under the 2012 Approval and the supplemental conditions described below; and

WHEREAS, initially, a question arose about whether the Board had jurisdiction to waive non-compliance with light and air provisions (MDL § 30) since light and air is not one of the enumerated conditions at MDL § 310(2)(a); and

WHEREAS, the Board considered the jurisdictional question and concluded that the request to increase the height triggers the specific non-compliances and thus the Board's waiver authority under MDL § 310(2)(a)(1) allows for a waiver of MDL § 211 (Height and Bulk) and the associated enumerated non-compliances DOB identified during its audit; and

WHEREAS, however, the Board directed the applicant to address all of the DOB objections so that it could appropriately evaluate whether the MDL § 310(a) findings are met; and

WHEREAS, at the Board's request, the applicant addressed each of the specific DOB objections to supplement its assertion that the Board had jurisdiction over each non-compliance individually and through MDL § 211; and

WHEREAS, MDL § 211 (Height and Bulk) (1) states that "[e]xcept as otherwise provided in subdivision four of this section, no non-fireproof tenement shall be increased in height so that it shall exceed five stories, except that any tenement may be increased to any height permitted for multiple dwellings erected after April eighteenth, nineteen hundred twenty-nine, if such tenement conforms to the provisions of this chapter governing like multiple dwellings erected after such date;" and

WHEREAS, accordingly, the applicant addressed all of the objections DOB raised; and

WHEREAS, as to MDL § 30 (Lighting and Ventilation of Rooms), the applicant notes that interior living rooms require adequate light and air and a number of rooms are indicated as interior windowless rooms contrary to MDL § 30; and

WHEREAS, the applicant states that, through the addition of skylights, the plans for the enlargement have been

MINUTES

amended to satisfy this requirement; and

WHEREAS, however, with respect to the existing floors, windowless rooms are an existing non-complying condition that is unaffected by the addition of a story, and, should be permitted to remain; and

WHEREAS, the applicant states that compliance with MDL § 30 would require the intrusion into and reconfiguration of occupied apartments and the reconstruction and partitioning of tenant-occupied space, which the Board found by the 2012 Approval creates a practical difficulty; and

WHEREAS, specifically, in the 333 Building and the 335 Building, the building depth is 56'-2" so that there could only be one room facing the front at a maximum depth of 30 feet and a super kitchen facing the rear with a depth of 26'-2"; the reconfiguration would result in the loss of the bedrooms; and

WHEREAS, the applicant notes that the subject building has a depth of 50'-1" so that there would be a loss of the living room or one bedroom; and

WHEREAS, the 329 Building includes a rooms that exceed the maximum permitted depth of 30'-0"; and

WHEREAS, the applicant asserts that the 2012 Approval found practical difficulty in complying with MDL requirements that necessitated making changes to spaces in the existing building that are tenant-occupied or would be affected by tenancies; and

WHEREAS, the applicant notes that in lieu of strict compliance with MDL § 30, mechanical ventilation, hardwired smoke detectors and a sprinkler system will be installed in each apartment; and

WHEREAS, as to MDL § 148 (Public Stairs), subsection (1) requires that all stairs be constructed as fireproof; subsection (2) requires that every stair must be at least three feet in width and all levels must have landings 3'-6" in width; subsection (3) requires that all stairs must be completely separated from all other stairs, public halls and shafts by fireproof walls, with fireproof doors and assemblies separated from all other stairs, public halls and shafts by fireproof walls, with fireproof doors and assemblies; and subsection (4) requires light and ventilation at every stair at every story by a window or windows opening onto a street, court, yard or space above a setback; and

WHEREAS, the applicant asserts that the Board-approved plans associated with the 2012 Approval show the existing stairwell and common area configuration and the 2012 Approval identifies the practical difficulty of removing and replacing core elements of the buildings, such as public stairs, stairwells and platforms; and

WHEREAS, the applicant asserts that compliance with MDL § 148 would require the removal and replacement of the stairs, landings and public hallways (and creating a separation), which the Board found to be a practical difficulty in the 2012 Approval; and

WHEREAS, the applicant assert that compliance with MDL § 148(1) would require that all stairs be constructed as fireproof stairs and to construct fire proof stairs would require removing and replacing the entire stairwell; and

WHEREAS, the applicant states that this would require extensive demolition and reconstruction of the new stairs as well as vacating the building since the stairs are used for egress; and

WHEREAS, the applicant asserts that compliance with MDL § 148(2) requires that every stair must be at least three feet in width and all levels must have landings 3'-6" in width; and

WHEREAS, the applicant asserts that to provide landings at all levels at a width of 3'-6" would require demolishing existing walls of tenant occupied units and reconfiguring public hallways; and

WHEREAS, the applicant asserts that compliance with MDL § 148(3) requires that all stairs be completely separated from all other stairs, public halls and shafts by fireproof walls, with fireproof doors and assemblies; and

WHEREAS, the applicant notes that a practical difficulty in complying with MDL § 148(3) was found by the 2012 Approval; and

WHEREAS, the applicant asserts that compliance with MDL § 148(4) requires light and ventilation at every stair at every story by a window or windows opening onto a street, court, yard or space above a setback and to provide light and ventilation at every stair at every story would require reconfiguring the current tenant occupied apartments and extending the public hallways, which would entail replacing the core elements of the buildings; and

WHEREAS, the applicant notes that the 2012 Approval provided waiver of MDL § 148(3) and noted it is a practical difficulty to comply with MDL § 148 subsections 1-4 because they require removing and replacing the buildings' core structure since the buildings are wood frame structures. All stairs, landings and public hallways would have to be removed and replaced; and

WHEREAS, the applicant asserts that similar to MDL § 148, strict compliance with MDL § 149(1), (2) and (3) would require the removal and replacement of the stairs, landings and public hallways, which the Board found to be a practical difficulty in the 2012 Approval; and

WHEREAS, further, the applicant notes that in the 2012 Approval the Board considered the applicant's cost analysis for removing such core elements of the buildings; and

WHEREAS, the applicant notes that as part of the 2012 application, it provided a cost analysis for removing such core elements of the buildings and the Board accepted the cladding of stairs with gypsum board underneath and fire retardant materials on the existing risers and treads, the addition of two layers of 5/8-inch gypsum board to the ceilings of the common areas at each floor, the addition of two layers of 5/8-inch gypsum board to the walls in the halls and stairwells, and the installation of sprinklers; and

WHEREAS, the applicant asserts that MDL § 149 (Public Halls) (1) requires that every public hall must have a width of at least three feet; and

WHEREAS, the applicant asserts that compliance would require removing and replacing stairs, public hallways and platforms and intrusion into tenant occupied apartments to

MINUTES

meet the requirement; and

WHEREAS, the applicant asserts that MDL § 149(2) requires that all public halls be completely enclosed with fireproof floor, ceiling and walls, and separated from all stairs by fireproof partitions or walls; and

WHEREAS, the applicant represents that compliance would require removing and replacing the occupied buildings' core structure since the buildings are wood frame structures; and

WHEREAS, the applicant asserts that MDL § 149(3) requires that every public hall have at least one window opening directly upon a street or upon a lawful yard or court; and

WHEREAS, the applicant represents that compliance would require intrusion into occupied apartments and a total reconfiguration of the building core, which is practically impossible; and

WHEREAS, the applicant asserts that the 2012 Approval notes that creating a vestibule, which would require intrusion into occupied apartments, constitutes a practical difficulty; and where compliance would necessitate narrowing the existing living rooms on each apartment on floors two through five to accommodate the extended hallway landing and reconstructing the floors and ceilings to be made fire-proof, a practical difficulty exists; and

WHEREAS, the applicant asserts that in lieu of such compliance, under the 2012 Approval, the Board accepted the installation of fire-proof self-closing doors for the entrance to each apartment, the installation of hard-wired smoke detectors in all residential units, and sprinklers; and

WHEREAS, the applicant asserts that MDL § 152 (Firestopping) requirements necessitate substantial reconstruction and rehabilitation of spaces in the existing building and, additionally, in spaces that are tenant occupied or would be affected by tenancies; and

WHEREAS, the applicant represents that strict compliance with MDL § 152 (1), (2), (3), (4), (6) and (7) is not possible since it would require the substantial reconstruction that would occur in existing occupied apartments; and

WHEREAS, the applicant submitted a letter from an architect consultant detailing the practical difficulty in complying with each subsection of MDL §152; and

WHEREAS, as to MDL § 152(1), every wall where wooden furring is used and every course of masonry from the underside to the top of any floor beams will project a distance of at least two inches beyond each face of the wall that is not on the outside of the dwelling; and whenever floor beams run parallel to a wall and wooden furring is used, every such beam must always be kept at least two inches away from the wall, and the space between the beams and the wall shall be built up solidly with brickwork from the underside to the top of the floor beams; and

WHEREAS, the applicant states that compliance would require removing and replacing the buildings' structural elements; demolishing and replacing the flooring system and all perimeter walls; and intrusion into occupied apartments;

and

WHEREAS, as to MDL § 152(2), whenever a wall is studded off, the space between an inside face of the wall and the studding at any floor level must be fire-stopped; every space between beams directly over a studded-off space must be fire-stopped by covering the bottom of the beams with metal lath and plaster and placing a loose fill of incombustible material at least four inches thick on the plaster between the beams, or hollow-burned clay tile or gypsum plaster partition blocks, at least four inches thick in either case and supported by cleats, will be used to fill the spaces between beams; and

WHEREAS, the applicant represents that compliance would require removing and replacing the buildings' structural elements; removing and replacing ceilings because each wooden wall stud has a wooden top and bottom plate; and intrusion into occupied apartments; and

WHEREAS, as to MDL § 152(3), the applicant notes that it requires that partitions which are not parallel with the wood floor beams and which separate one apartment or suite from another or any part of an apartment or suite from a public hall or other part of the dwelling outside the apartment or suite must be filled in solidly with incombustible material between the floor beams from the plate of the partition below to the full depth of the floor beams; and

WHEREAS, the applicant represents that compliance would require removing and replacing the apartments' and public hall elements and because these Old Law Tenements contain wooden wall studs and plates, the floors and ceilings at each landing would have to be removed and replaced; and

WHEREAS, further, the applicant states that the tenant occupied apartments would have to be vacated during the demolition and construction of the rooms and means of egress; and

WHEREAS, as to MDL § 152(4), the applicant notes that it requires that if a dwelling is within ten feet of another non-fireproof building or of a side lot line, it must have its eaves or cornices built up solidly with masonry; and

WHEREAS, the applicant asserts that compliance would require removing and replacing each front cornice, all of which are independent from each other and solidly blocked at the ends of each property line; and

WHEREAS, as to MDL § 152(6), the applicant notes that it requires that every space between stair carriages of any non-fireproof stair be fire-stopped by a header beam at top and bottom; where a stair run is not all in one room or open space, the stair carriages must have an intermediate firestop, so located as to cut off communication between portions of the stair in different rooms or open spaces; and the underside and stringers of every unenclosed stair of combustible material must be fire-retarded; and

WHEREAS, the applicant represents that compliance would require removing and replacing each primary stair because the structural members of the existing stairwells are wooden and the tenant occupied apartments would have to be vacated during the demolition and construction of the buildings' primary means of egress; and

WHEREAS, as to MDL § 152(7), the applicant notes

MINUTES

that it requires that all partitions required to be fire-retarded be fire-stopped with incombustible material at floors, ceilings and roofs; fire-stopping over partitions must extend from the ceiling to the underside of any roofing above; and any space between the top of a partition and the underside of roof boarding must be completely fire-stopped; and

WHEREAS, the applicant represents that compliance would require removing and replacing the apartments' and public hall elements and, because these Old Law Tenements contain wooden wall studs and plates, the floors and ceilings at each landing would have to be removed and replaced; and

WHEREAS, further, the applicant states that the tenant occupied apartments would have to be vacated during the demolition and construction of the rooms and means of egress; and

WHEREAS, in conclusion, the applicant asserts that compliance with MDL § 152 is not possible since it would require substantial reconstruction of building elements and reconstruction of the common spaces and means of egress; and

WHEREAS, the applicant asserts that in lieu of strict compliance, it proposes fire-safety measures formerly accepted by the Board, including the installation of sprinklers throughout the entire building; and

WHEREAS, at hearing, a commissioner raised concern about whether the proposed firestopping sealant was appropriate for wood-frame buildings and whether the building would be entirely sprinklered; and

WHEREAS, in response, the applicant revised the plans to reflect the correct sealant – Blaze Stop WF300 Intumescent Firestop Caulk – which is used for wood joists, and sprinklers throughout the building, including within each unit; and

WHEREAS, additionally, at hearing, another commissioner who was not satisfied that sufficient fire safety measures are proposed, specifically that there was not a basis to waive MDL § 152 (Fire-stopping) referred to and compared the application to the application and DOB approvals of fire safety measures for 515 East 5th Street (initially approved by DOB absent jurisdiction and not yet approved by the Board); and

WHEREAS, the commissioner indicated that the sprinkler design must satisfy all Fire and Building Code requirements; and

WHEREAS, in response, the applicant notes the following distinctions: (1) the East 5th Street proposal reflects the full demolition of the interior apartments, which allows for the introduction of additional measures compared to the subject building which does not propose a gut rehabilitation and complete demolition of apartments; (2) the construction notes on the East 5th Street plans refer to MDL § 241 which is not one of the noted objections in the subject application; and (3) the construction notes reference Building Code § 27-3459 (formerly C26-504.7) which exempts certain sprinklered areas from the fire-stopping requirement and is not being sought to waive; and

WHEREAS, pursuant to MDL § 310(2)(a), the Board has the authority to vary or modify certain provisions of the

MDL for multiple dwellings that existed on July 1, 1948, provided that the Board determines that strict compliance with such provisions would cause practical difficulties or unnecessary hardships, and that the spirit and intent of the MDL are maintained, public health, safety and welfare are preserved, and substantial justice is done; and

WHEREAS, as noted above, the subject building was constructed prior to 1929; therefore the building is subject to MDL § 310(2)(a); and

WHEREAS, specifically, MDL § 310(2)(a) empowers the Board to vary or modify provisions or requirements related to: (1) height and bulk; (2) required open spaces; (3) minimum dimensions of yards or courts; (4) means of egress; and (5) basements and cellars in tenements converted to dwellings; and

WHEREAS, the Board notes that each of the noted conditions fits within one of the sections of MDL § 310(2)(a) – namely height and bulk and means of egress – which the Board has the express authority to vary; therefore the Board has the power to vary or modify the subject provisions pursuant to MDL § 310(2)(a); and

WHEREAS, the applicant represents that practical difficulty and unnecessary hardship would result from strict compliance with each of the noted provisions of the MDL; and

WHEREAS, the applicant states that while it has specified the practical difficulties that would result from strictly complying with each of the individual provisions of the MDL, the underlying issue is that the subject building was constructed more than a century ago using the then common materials and designs, and there is no feasible way to remove all the combustible wood to create segregated and fireproof areas and add elevator cores; and

WHEREAS, the applicant represents that because the proposed vertical enlargement is not permitted, the MDL restriction creates practical difficulty and unnecessary hardship in that it prevents the site from utilizing the development potential afforded by the subject zoning district; and

WHEREAS, specifically, the applicant notes that the subject district permits an FAR of 4.0, and the proposed enlargement, in combination with the proposed enlargements of the 329 Building, the 333 Building, and the 335 Building, will increase the FAR on the proposed zoning lot from 3.31 to 3.75; and

WHEREAS, based on the above, the Board agrees that the applicant has established a sufficient level of practical difficulty and unnecessary hardship in complying with the requirements of the MDL; and

WHEREAS, the Board notes that the new construction will comply with light and air requirements but that the existing windowless rooms will remain as they have existed; and

WHEREAS, the applicant states that the requested variance of MDL §§ 30, 52.4, 53, 145, 148, 149 and 152 is consistent with the spirit and intent of the MDL, and will preserve public health, safety and welfare, and substantial

MINUTES

justice; and

WHEREAS, specifically, the applicant states that the proposal includes numerous fire safety improvements to mitigate the existing fire infirmities inherent in the pre-1929 building; and

WHEREAS, the applicant states that the objections cited by DOB are all existing conditions in legally occupied buildings, and the proposal to increase the height from 54'-3" to 67'-3" to accommodate one additional residential unit effectively triggers the retrofitting of the entire building; and

WHEREAS, the applicant represents that the proposed construction promotes the intent of the law because the additional occupancies will be of minimal impact and will not result in overcrowding of the building, the newly constructed spaces will be compliant with current fire safety norms, and the proposal will provide a number of significant fire safety improvements; and

WHEREAS, specifically, the applicant states that it proposes the following fire safety measures: (1) installation of non-combustible concrete floors in the first floor public hallway; (2) installation of new fireproof stairs in the cellar/basement spaces; (3) cladding of all remaining stairs with gypsum board; (4) addition of two layers of 5/8-inch gypsum board to the ceilings of the common areas at each floor; (5) addition of two layers of 5/8-inch gypsum board to the walls in the halls and stairwells; (6) installation of fireproof self-closing doors for each dwelling unit; (7) addition of fire sprinklers throughout the whole building (including sprinkler in apartments); (8) installation of hard-wired smoke detectors in all residential units; (9) installation of new fire escapes at the rear of the 333 Building and 335 Building; and (10) installation of fire-stopping at the junctures between the walls and floors/ceilings in the public hallways as detailed in the proposed plans; and

WHEREAS, the applicant represents that the above-mentioned fire safety improvements provide a significant added level of fire protection beyond what presently exists in the subject building and improves the health, welfare, and safety of the building's occupants; and

WHEREAS, the applicant represents that the addition of one floor to the subject building does little to increase fire risk, and that the proposed building will actually be significantly safer than it is in its present condition; and

WHEREAS, the applicant submitted a report from a fire consultant endorsing the proposed improvements to the building and stating that "it cannot be understated how significantly fire safety will be improved if the plans are approved by the Board;" and

WHEREAS, the applicant represents that the proposed fire safety measures will result in a substantial increase to the public health, safety, and welfare, which far outweighs any impact from the proposed enlargement; and

WHEREAS, based on the above, the Board finds that will maintain the spirit and intent of the MDL, preserve public health, safety and welfare, and ensure that substantial justice is done; and

WHEREAS, the Board's 2012 Approval, variance to the

requirements of MDL §§ 51(6), 143, 146, 148(3), and 149(2) and associated conditions remains and it is not disturbed; and

WHEREAS, the applicant notes that it has eliminated the proposed dormers from the plans and added skylights since the 2012 Approval; and

WHEREAS, as to the Opposition's arguments that the proposed enlargement will have a negative effect on the low-rise character of the surrounding neighborhood and that the alleged hardships are self-created by the applicant's desire to enlarge the building, the Board notes that in an application to vary the requirements of the MDL under MDL § 310, unlike in an application to vary the Zoning Resolution under ZR § 72-21, the Board's review is limited to whether there are practical difficulties and unnecessary hardship in complying with the strict letter of the MDL, that the spirit and intent of the MDL are maintained, and that substantial justice is done; and

WHEREAS, accordingly, the Board finds that the Appellant has submitted adequate evidence in support of the findings required to be made under MDL § 310(2)(a) and that the requested variance of the requirements of MDL §§ 30, 52.4, 53, 145, 148, 149 and 152 is appropriate, with certain conditions set forth below.

Therefore it is Resolved, that the decisions of the Manhattan Borough Commissioner, dated November 21, 2013 and March 10, 2014, are modified and that this appeal is granted, limited to the decision noted above, on condition that construction shall substantially conform to the plans filed with the application marked, "Received July 22, 2014" -(8) sheets; and on further condition:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed Department of Buildings objections related to the MDL and does not address any other non-compliance, including any which may exist pursuant to the Zoning Resolution, Building Code, or Housing Maintenance Code;

THAT fire safety measures not limited to the following will be installed and maintained: (1) non-combustible concrete floors in the first floor public hallway; (2) new fireproof stairs in the cellar/basement spaces; (3) cladding of all remaining stairs with gypsum board; (4) two additional layers of 5/8-inch gypsum board to the ceilings of the common areas at each floor; (5) two additional layers of 5/8-inch gypsum board to the walls in the halls and stairwells; (6) fireproof self-closing doors for each dwelling unit; (7) fire sprinklers throughout the whole building; (8) hard-wired smoke detectors in all residential units; (9) new fire escapes at the rear of the 333 Building and 335 Building; and (10) fire-stopping at the junctures between the walls and floors/ceilings in the public hallways as detailed in the proposed plans;

THAT DOB review and approve sprinkler location and number in accordance with the Building Code and Fire Code requirements for full sprinklering of a residential building including within each unit and all public spaces, prior to the issuance of any permits;

THAT fire safety measures associated with the 2012 Approval will be installed and maintained;

MINUTES

THAT the Department of Buildings will confirm the establishment of the zoning lot, consisting of tax lots 44, 45, 46, and 47, prior to the issuance of a building permit;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 29, 2014.

103-11-A

APPLICANT – Law Office of Marvin B. Mitzner LLC, for Kushner Companies, owners.

SUBJECT – Application November 29, 2013 – An amendment to the previously approved waivers to the Multiple Dwelling Law (MDL) to address MDL objections raised by the Department of Buildings. R8B zoning district. PREMISES AFFECTED – 329 East 9th Street, north side East 9th Street, 2nd and 1st Avenue, Block 451, Lot 44, Borough of Manhattan.

COMMUNITY BOARD #3M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown and Commissioner Hinkson.....3

Negative: Commissioner Montanez.....1

THE RESOLUTION –

WHEREAS, the decisions of the Manhattan Borough Commissioner, dated November 21, 2013 and March 10, 2014, acting on Department of Buildings Application No. 120615227 read, in pertinent part:

- (4) Cellar must have 2-hour fire separation from other floors. Ceiling and stairs must be fire rated. [MDL 143] . . .
- (8) Interior living rooms require adequate light and air. A number of rooms, including those at the top floor with skylights, are indicated as interior windowless rooms contrary to MDL 30. [MDL 30]
- (9) BSA granted a waiver of MDL 143 in total. Plans must be prepared to carefully demonstrate compliance with the stipulation proposed to mitigate this requirement. Present to the department. [MDL 143]
- (10) BSA granted that fire escapes may be used as 2nd means of egress from the dwelling units. Plans shall indicate the design and construction of same including compliance with 4a-c for construction and support, 2a for the fire escape in the interior court at house #333, size height and construction of the drop ladder per 5a-c. [MDL 145 and 53]

- (11) Plans must demonstrate compliance with section 1 through 5 including stairway, platform, riser tread, and handrail dimensions. In the event any dimensions or construction are non-complying, same shall be cited on plans. [MDL 148, 1 through 5]
- (12) Plans must demonstrate compliance with sections 1, 3, 4, 5, 6 including public hall windows opening directly to exterior, fire proof construction and dimensions. In the event any dimensions or construction are non-complying, same shall be cited on plans. [MDL 149]
- (13) Plans must demonstrate compliance with sections 1 through 7 including details indicating the design of the fire-stopping, edge relief, fire resistance rated fill and coverings. [MDL 152, 1 through 7]
- (14) The proposed fire passages from the rear yards to the front of each building are contrary to C26-273(d).7, in that, there is no access from the lower termination of the rear fire escape to the street through a fire proof passage independent of the first means of egress. Design and construction of such passage shall be carefully detailed to indicate fire resistance rating, access and structural support. The fire escape at house #333 does not have access to a passage at 333. [MDL 53; C26-273(d).7]
- (15) BSA approved plans dated July 31, 2012 show winder stairs at house number 329 contrary to submitted plans dated July 17, 2013. Please resolve. [MDL 52.4]; and Proposed increase in bulk and/or height exceeds threshold of 5 stories for non-fireproof tenement. [MDL 211.1]; and

WHEREAS, this is an application pursuant to Multiple Dwelling Law (“MDL”) § 310, for an amendment to a prior approval to vary the MDL (the “2012 Approval”); and

WHEREAS, the applicant seeks to vary MDL § 211 to allow for the proposed one-story vertical enlargement of the subject four-story residential building; however, the analysis addresses waiver to MDL §§ 30, 52, 53, 145, 148, 149 and 152; and

WHEREAS, three companion applications to vary the MDL to permit one-story vertical enlargements of the three adjacent buildings, filed under BSA Cal. Nos. 80-11-A, 84-11-A and 85-11-A, were heard concurrently and decided on the same date; and

WHEREAS, a public hearing was held on this application on February 11, 2014, after due notice by publication in *The City Record*, with continued hearings on March 25, 2014, April 29, 2014, June 10, 2014, and July 15, 2014, and then to decision on July 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by former Chair

MINUTES

Srinivasan, Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, New York City Council Member Rosie Mendez recommends disapproval of this application, citing concerns about (1) the self-creation of the hardships related to MDL non-compliance by choosing to enlarge the building; (2) a blanket waiver of all objections, rather than an individual analysis of each requested waiver; (3) whether the Board has the authority to waive non-compliance with light and air requirements; and

WHEREAS, the Greenwich Village Society for Historic Preservation provided testimony in opposition to this application, which reiterates Council Member Mendez' concerns including that there be individual assessment of MDL non-compliance rather than a single waiver; and

WHEREAS, collectively, the parties who provided testimony in opposition to this application are known as the "Opposition;" and

WHEREAS, the subject site is located on the north side of East 9th Street, between First Avenue and Second Avenue, within an R8B zoning district; and

WHEREAS, the site has 16 feet of frontage along East 9th Street, a depth of 92.25 feet, and a total lot area of 1,476 sq. ft.; and

WHEREAS, the site is occupied by a four-story non-fireproof building with a total of four dwelling units; and

WHEREAS, the applicant states that the subject building is located on a single zoning lot with three adjacent buildings located at 331 East 9th Street (the "331 Building"), 333 East 9th Street (the "333 Building"), and 335 East 9th Street (the "335 Building"), each of which is seeking identical relief to vary the MDL in order to allow for a one-story vertical enlargement; and

WHEREAS, the applicant notes that the proposed zoning lot has a total lot area of 8,395 sq. ft.; and

WHEREAS, the applicant states that the existing building was constructed prior to 1929; and

WHEREAS, the subject building has a floor area of approximately 4,006.5 sq. ft. and a height of 48'-0"; and

WHEREAS, the applicant proposes to enlarge the building by constructing a fifth floor containing an additional 801.3 sq. ft. of floor area to be occupied by one additional dwelling unit, increasing the total number of dwelling units in the building to five; and

WHEREAS, the applicant states that the proposed enlargement will increase the floor area of the subject building from 4,006.5 sq. ft. to 4,807.8 sq. ft., and in combination with the proposed enlargements of the 329 Building, the 331 Building, and the 333 Building, will increase the total floor area on the proposed zoning lot from 27,826 sq. ft. (3.31 FAR) to 31,422 sq. ft. (3.75 FAR) (the maximum permitted floor area is 33,580 sq. ft. (4.0 FAR)), and will increase the height of the subject building from 48'-0" to 60'-0" (the maximum permitted height is 75'-0"); and

WHEREAS, on September 11, 2012, the Board approved a prior version of the application for waiver to MDL

§§ 51(6), 148(3), 149(2), 143, and 146 (the "2012 Approval"); and

WHEREAS, however, DOB subsequently audited the application and issued the noted supplemental objections; and

WHEREAS, the applicant asserts that the objections associated with the 2012 Approval and the initial (November 21, 2013) objections associated with the subject amendment application were issued under the assumption that the buildings are Hereafter Erected Class A (HAEA) buildings; and

WHEREAS, during the hearing process, the applicant adopted the position that the building is actually a tenement and returned to DOB to obtain a single objection for non-compliance with MDL § 211 (Article 7: Height and Bulk) for tenement buildings; and

WHEREAS, the applicant states that by requesting a variance of MDL § 211, it is not seeking a waiver of every provision that would be applicable to strictly comply with MDL § 211 but, rather, that the Board vary the requirements of MDL § 211 by specifying which provisions it cannot comply with in exchange for proposed safety measures that maintain the spirit and intent of the MDL; and

WHEREAS, MDL § 211 requires that in order for a pre-1929 non-fireproof residential building to increase in height beyond five stories, the building must comply with the provisions of the MDL; the proposed addition of a sixth floor to the subject building results in the MDL non-compliances waived under the 2012 Approval and the supplemental conditions described below; and

WHEREAS, initially, a question arose about whether the Board had jurisdiction to waive non-compliance with light and air provisions (MDL § 30) since light and air is not one of the enumerated conditions at MDL § 310(2)(a); and

WHEREAS, the Board considered the jurisdictional question and concluded that the request to increase the height triggers the specific non-compliances and thus the Board's waiver authority under MDL § 310(2)(a)(1) allows for a waiver of MDL § 211 (Height and Bulk) and the associated enumerated non-compliances DOB identified during its audit; and

WHEREAS, however, the Board directed the applicant to address all of the DOB objections so that it could appropriately evaluate whether the MDL § 310(a) findings are met; and

WHEREAS, at the Board's request, the applicant addressed each of the specific DOB objections to supplement its assertion that the Board had jurisdiction over each non-compliance individually and through MDL § 211; and

WHEREAS, MDL § 211 (Height and Bulk) (1) states that "[e]xcept as otherwise provided in subdivision four of this section, no non-fireproof tenement shall be increased in height so that it shall exceed five stories, except that any tenement may be increased to any height permitted for multiple dwellings erected after April eighteenth, nineteen hundred twenty-nine, if such tenement conforms to the provisions of this chapter governing like multiple dwellings erected after such date;" and

MINUTES

WHEREAS, accordingly, the applicant addressed all of the objections DOB raised; and

WHEREAS, as to MDL § 30 (Lighting and Ventilation of Rooms), the applicant notes that interior living rooms require adequate light and air and a number of rooms are indicated as interior windowless rooms contrary to MDL § 30; and

WHEREAS, the applicant states that, through the addition of skylights, the plans for the enlargement have been amended to satisfy this requirement; and

WHEREAS, however, with respect to the existing floors, windowless rooms are an existing non-complying condition that is unaffected by the addition of a story, and, should be permitted to remain; and

WHEREAS, the applicant states that compliance with MDL § 30 would require the intrusion into and reconfiguration of occupied apartments and the reconstruction and partitioning of tenant-occupied space, which the Board found by the 2012 Approval creates a practical difficulty; and

WHEREAS, specifically, in the 333 Building and the 335 Building, the building depth is 56'-2" so that there could only be one room facing the front at a maximum depth of 30 feet and a super kitchen facing the rear with a depth of 26'-2"; the reconfiguration would result in the loss of the bedrooms; and

WHEREAS, the applicant notes that the subject building has a depth of 50'-1" so that there would be a loss of the living room or one bedroom; and

WHEREAS, the 329 Building includes a rooms that exceed the maximum permitted depth of 30'-0"; and

WHEREAS, the applicant asserts that the 2012 Approval found practical difficulty in complying with MDL requirements that necessitated making changes to spaces in the existing building that are tenant-occupied or would be affected by tenancies; and

WHEREAS, the applicant notes that in lieu of strict compliance with MDL § 30, mechanical ventilation, hardwired smoke detectors and a sprinkler system will be installed in each apartment; and

WHEREAS, as to MDL § 148 (Public Stairs), subsection (1) requires that all stairs be constructed as fireproof; subsection (2) requires that every stair must be at least three feet in width and all levels must have landings 3'-6" in width; subsection (3) requires that all stairs must be completely separated from all other stairs, public halls and shafts by fireproof walls, with fireproof doors and assemblies separated from all other stairs, public halls and shafts by fireproof walls, with fireproof doors and assemblies; and subsection (4) requires light and ventilation at every stair at every story by a window or windows opening onto a street, court, yard or space above a setback; and

WHEREAS, the applicant asserts that the Board-approved plans associated with the 2012 Approval show the existing stairwell and common area configuration and the 2012 Approval identifies the practical difficulty of removing and replacing core elements of the buildings, such as public stairs, stairwells and platforms; and

WHEREAS, the applicant asserts that compliance with MDL § 148 would require the removal and replacement of the stairs, landings and public hallways (and creating a separation), which the Board found to be a practical difficulty in the 2012 Approval; and

WHEREAS, the applicant assert that compliance with MDL § 148(1) would require that all stairs be constructed as fireproof stairs and to construct fire proof stairs would require removing and replacing the entire stairwell; and

WHEREAS, the applicant states that this would require extensive demolition and reconstruction of the new stairs as well as vacating the building since the stairs are used for egress; and

WHEREAS, the applicant asserts that compliance with MDL § 148(2) requires that every stair must be at least three feet in width and all levels must have landings 3'-6" in width; and

WHEREAS, the applicant asserts that to provide landings at all levels at a width of 3'-6" would require demolishing existing walls of tenant occupied units and reconfiguring public hallways; and

WHEREAS, the applicant asserts that compliance with MDL § 148(3) requires that all stairs be completely separated from all other stairs, public halls and shafts by fireproof walls, with fireproof doors and assemblies; and

WHEREAS, the applicant notes that a practical difficulty in complying with MDL § 148(3) was found by the 2012 Approval; and

WHEREAS, the applicant asserts that compliance with MDL § 148(4) requires light and ventilation at every stair at every story by a window or windows opening onto a street, court, yard or space above a setback and to provide light and ventilation at every stair at every story would require reconfiguring the current tenant occupied apartments and extending the public hallways, which would entail replacing the core elements of the buildings; and

WHEREAS, the applicant notes that the 2012 Approval provided waiver of MDL § 148(3) and noted it is a practical difficulty to comply with MDL §148 subsections 1-4 because they require removing and replacing the buildings' core structure since the buildings are wood frame structures. All stairs, landings and public hallways would have to be removed and replaced; and

WHEREAS, the applicant asserts that similar to MDL § 148, strict compliance with MDL § 149(1), (2) and (3) would require the removal and replacement of the stairs, landings and public hallways, which the Board found to be a practical difficulty in the 2012 Approval; and

WHEREAS, further, the applicant notes that in the 2012 Approval the Board considered the applicant's cost analysis for removing such core elements of the buildings; and

WHEREAS, the applicant notes that as part of the 2012 application, it provided a cost analysis for removing such core elements of the buildings and the Board accepted the cladding of stairs with gypsum board underneath and fire retardant materials on the existing risers and treads, the addition of two layers of 5/8-inch gypsum board to the ceilings of the common

MINUTES

areas at each floor, the addition of two layers of 5/8-inch gypsum board to the walls in the halls and stairwells, and the installation of sprinklers; and

WHEREAS, the applicant asserts that MDL § 149 (Public Halls) (1) requires that every public hall must have a width of at least three feet; and

WHEREAS, the applicant asserts that compliance would require removing and replacing stairs, public hallways and platforms and intrusion into tenant occupied apartments to meet the requirement; and

WHEREAS, the applicant asserts that MDL § 149(2) requires that all public halls be completely enclosed with fireproof floor, ceiling and walls, and separated from all stairs by fireproof partitions or walls; and

WHEREAS, the applicant represents that compliance would require removing and replacing the occupied buildings' core structure since the buildings are wood frame structures; and

WHEREAS, the applicant asserts that MDL § 149(3) requires that every public hall have at least one window opening directly upon a street or upon a lawful yard or court; and

WHEREAS, the applicant represents that compliance would require intrusion into occupied apartments and a total reconfiguration of the building core, which is practically impossible; and

WHEREAS, the applicant asserts that the 2012 Approval notes that creating a vestibule, which would require intrusion into occupied apartments, constitutes a practical difficulty; and where compliance would necessitate narrowing the existing living rooms on each apartment on floors two through five to accommodate the extended hallway landing and reconstructing the floors and ceilings to be made fire-proof, a practical difficulty exists; and

WHEREAS, the applicant asserts that in lieu of such compliance, under the 2012 Approval, the Board accepted the installation of fire-proof self-closing doors for the entrance to each apartment, the installation of hard-wired smoke detectors in all residential units, and sprinklers; and

WHEREAS, the applicant asserts that MDL § 152 (Firestopping) requirements necessitate substantial reconstruction and rehabilitation of spaces in the existing building and, additionally, in spaces that are tenant occupied or would be affected by tenancies; and

WHEREAS, the applicant represents that strict compliance with MDL § 152 (1), (2), (3), (4), (6) and (7) is not possible since it would require the substantial reconstruction that would occur in existing occupied apartments; and

WHEREAS, the applicant submitted a letter from an architect consultant detailing the practical difficulty in complying with each subsection of MDL §152; and

WHEREAS, as to MDL § 152(1), every wall where wooden furring is used and every course of masonry from the underside to the top of any floor beams will project a distance of at least two inches beyond each face of the wall that is not on the outside of the dwelling; and whenever floor beams run

parallel to a wall and wooden furring is used, every such beam must always be kept at least two inches away from the wall, and the space between the beams and the wall shall be built up solidly with brickwork from the underside to the top of the floor beams; and

WHEREAS, the applicant states that compliance would require removing and replacing the buildings' structural elements; demolishing and replacing the flooring system and all perimeter walls; and intrusion into occupied apartments; and

WHEREAS, as to MDL § 152(2), whenever a wall is studded off, the space between an inside face of the wall and the studding at any floor level must be fire-stopped; every space between beams directly over a studded-off space must be fire-stopped by covering the bottom of the beams with metal lath and plaster and placing a loose fill of incombustible material at least four inches thick on the plaster between the beams, or hollow-burned clay tile or gypsum plaster partition blocks, at least four inches thick in either case and supported by cleats, will be used to fill the spaces between beams; and

WHEREAS, the applicant represents that compliance would require removing and replacing the buildings' structural elements; removing and replacing ceilings because each wooden wall stud has a wooden top and bottom plate; and intrusion into occupied apartments; and

WHEREAS, as to MDL § 152(3), the applicant notes that it requires that partitions which are not parallel with the wood floor beams and which separate one apartment or suite from another or any part of an apartment or suite from a public hall or other part of the dwelling outside the apartment or suite must be filled in solidly with incombustible material between the floor beams from the plate of the partition below to the full depth of the floor beams; and

WHEREAS, the applicant represents that compliance would require removing and replacing the apartments' and public hall elements and because these Old Law Tenements contain wooden wall studs and plates, the floors and ceilings at each landing would have to be removed and replaced; and

WHEREAS, further, the applicant states that the tenant occupied apartments would have to be vacated during the demolition and construction of the rooms and means of egress; and

WHEREAS, as to MDL § 152(4), the applicant notes that it requires that if a dwelling is within ten feet of another non-fireproof building or of a side lot line, it must have its eaves or cornices built up solidly with masonry; and

WHEREAS, the applicant asserts that compliance would require removing and replacing each front cornice, all of which are independent from each other and solidly blocked at the ends of each property line; and

WHEREAS, as to MDL § 152(6), the applicant notes that it requires that every space between stair carriages of any non-fireproof stair be fire-stopped by a header beam at top and bottom; where a stair run is not all in one room or open space, the stair carriages must have an intermediate firestop, so located as to cut off communication between portions of the stair in different rooms or open spaces; and the underside and

MINUTES

stringers of every unenclosed stair of combustible material must be fire-retarded; and

WHEREAS, the applicant represents that compliance would require removing and replacing each primary stair because the structural members of the existing stairwells are wooden and the tenant occupied apartments would have to be vacated during the demolition and construction of the buildings' primary means of egress; and

WHEREAS, as to MDL § 152(7), the applicant notes that it requires that all partitions required to be fire-retarded be fire-stopped with incombustible material at floors, ceilings and roofs; fire-stopping over partitions must extend from the ceiling to the underside of any roofing above; and any space between the top of a partition and the underside of roof boarding must be completely fire-stopped; and

WHEREAS, the applicant represents that compliance would require removing and replacing the apartments' and public hall elements and, because these Old Law Tenements contain wooden wall studs and plates, the floors and ceilings at each landing would have to be removed and replaced; and

WHEREAS, further, the applicant states that the tenant occupied apartments would have to be vacated during the demolition and construction of the rooms and means of egress; and

WHEREAS, in conclusion, the applicant asserts that compliance with MDL § 152 is not possible since it would require substantial reconstruction of building elements and reconstruction of the common spaces and means of egress; and

WHEREAS, the applicant asserts that in lieu of strict compliance, it proposes fire-safety measures formerly accepted by the Board, including the installation of sprinklers throughout the entire building; and

WHEREAS, at hearing, a commissioner raised concern about whether the proposed firestopping sealant was appropriate for wood-frame buildings and whether the building would be entirely sprinklered; and

WHEREAS, in response, the applicant revised the plans to reflect the correct sealant – Blaze Stop WF300 Intumescent Firestop Caulk – which is used for wood joists, and sprinklers throughout the building, including within each unit; and

WHEREAS, additionally, at hearing, another commissioner who was not satisfied that sufficient fire safety measures are proposed, specifically that there was not a basis to waive MDL § 152 (Fire-stopping) referred to and compared the application to the application and DOB approvals of fire safety measures for 515 East 5th Street (initially approved by DOB absent jurisdiction and not yet approved by the Board); and

WHEREAS, the commissioner indicated that the sprinkler design must satisfy all Fire and Building Code requirements; and

WHEREAS, in response, the applicant notes the following distinctions: (1) the East 5th Street proposal reflects the full demolition of the interior apartments, which allows for the introduction of additional measures compared to the subject building which does not propose a gut rehabilitation

and complete demolition of apartments; (2) the construction notes on the East 5th Street plans refer to MDL § 241 which is not one of the noted objections in the subject application; and (3) the construction notes reference Building Code § 27-3459 (formerly C26-504.7) which exempts certain sprinklered areas from the fire-stopping requirement and is not being sought to waive; and

WHEREAS, pursuant to MDL § 310(2)(a), the Board has the authority to vary or modify certain provisions of the MDL for multiple dwellings that existed on July 1, 1948, provided that the Board determines that strict compliance with such provisions would cause practical difficulties or unnecessary hardships, and that the spirit and intent of the MDL are maintained, public health, safety and welfare are preserved, and substantial justice is done; and

WHEREAS, as noted above, the subject building was constructed prior to 1929; therefore the building is subject to MDL § 310(2)(a); and

WHEREAS, specifically, MDL § 310(2)(a) empowers the Board to vary or modify provisions or requirements related to: (1) height and bulk; (2) required open spaces; (3) minimum dimensions of yards or courts; (4) means of egress; and (5) basements and cellars in tenements converted to dwellings; and

WHEREAS, the Board notes that each of the noted conditions fits within one of the sections of MDL § 310(2)(a) – namely height and bulk and means of egress – which the Board has the express authority to vary; therefore the Board has the power to vary or modify the subject provisions pursuant to MDL § 310(2)(a); and

WHEREAS, the applicant represents that practical difficulty and unnecessary hardship would result from strict compliance with each of the noted provisions of the MDL; and

WHEREAS, the applicant states that while it has specified the practical difficulties that would result from strictly complying with each of the individual provisions of the MDL, the underlying issue is that the subject building was constructed more than a century ago using the then common materials and designs, and there is no feasible way to remove all the combustible wood to create segregated and fireproof areas and add elevator cores; and

WHEREAS, the applicant represents that because the proposed vertical enlargement is not permitted, the MDL restriction creates practical difficulty and unnecessary hardship in that it prevents the site from utilizing the development potential afforded by the subject zoning district; and

WHEREAS, specifically, the applicant notes that the subject district permits an FAR of 4.0, and the proposed enlargement, in combination with the proposed enlargements of the 329 Building, the 333 Building, and the 335 Building, will increase the FAR on the proposed zoning lot from 3.31 to 3.75; and

WHEREAS, based on the above, the Board agrees that the applicant has established a sufficient level of practical difficulty and unnecessary hardship in complying with the

MINUTES

requirements of the MDL; and

WHEREAS, the Board notes that the new construction will comply with light and air requirements but that the existing windowless rooms will remain as they have existed; and

WHEREAS, the applicant states that the requested variance of MDL §§ 30, 52.4, 53, 145, 148, 149 and 152 is consistent with the spirit and intent of the MDL, and will preserve public health, safety and welfare, and substantial justice; and

WHEREAS, specifically, the applicant states that the proposal includes numerous fire safety improvements to mitigate the existing fire infirmities inherent in the pre-1929 building; and

WHEREAS, the applicant states that the objections cited by DOB are all existing conditions in legally occupied buildings, and the proposal to increase the height from 54'-3" to 67'-3" to accommodate one additional residential unit effectively triggers the retrofitting of the entire building; and

WHEREAS, the applicant represents that the proposed construction promotes the intent of the law because the additional occupancies will be of minimal impact and will not result in overcrowding of the building, the newly constructed spaces will be compliant with current fire safety norms, and the proposal will provide a number of significant fire safety improvements; and

WHEREAS, specifically, the applicant states that it proposes the following fire safety measures: (1) installation of non-combustible concrete floors in the first floor public hallway; (2) installation of new fireproof stairs in the cellar/basement spaces; (3) cladding of all remaining stairs with gypsum board; (4) addition of two layers of 5/8-inch gypsum board to the ceilings of the common areas at each floor; (5) addition of two layers of 5/8-inch gypsum board to the walls in the halls and stairwells; (6) installation of fireproof self-closing doors for each dwelling unit; (7) addition of fire sprinklers throughout the whole building (including sprinkler in apartments); (8) installation of hard-wired smoke detectors in all residential units; (9) installation of new fire escapes at the rear of the 333 Building and 335 Building; and (10) installation of fire-stopping at the junctures between the walls and floors/ceilings in the public hallways as detailed in the proposed plans; and

WHEREAS, the applicant represents that the above-mentioned fire safety improvements provide a significant added level of fire protection beyond what presently exists in the subject building and improves the health, welfare, and safety of the building's occupants; and

WHEREAS, the applicant represents that the addition of one floor to the subject building does little to increase fire risk, and that the proposed building will actually be significantly safer than it is in its present condition; and

WHEREAS, the applicant submitted a report from a fire consultant endorsing the proposed improvements to the building and stating that "it cannot be understated how significantly fire safety will be improved if the plans are approved by the Board;" and

WHEREAS, the applicant represents that the proposed fire safety measures will result in a substantial increase to the public health, safety, and welfare, which far outweighs any impact from the proposed enlargement; and

WHEREAS, based on the above, the Board finds that will maintain the spirit and intent of the MDL, preserve public health, safety and welfare, and ensure that substantial justice is done; and

WHEREAS, the Board's 2012 Approval, variance to the requirements of MDL §§ 51(6), 143, 146, 148(3), and 149(2) and associated conditions remains and it is not disturbed; and

WHEREAS, the applicant notes that it has eliminated the proposed dormers from the plans and added skylights since the 2012 Approval; and

WHEREAS, as to the Opposition's arguments that the proposed enlargement will have a negative effect on the low-rise character of the surrounding neighborhood and that the alleged hardships are self-created by the applicant's desire to enlarge the building, the Board notes that in an application to vary the requirements of the MDL under MDL § 310, unlike in an application to vary the Zoning Resolution under ZR § 72-21, the Board's review is limited to whether there are practical difficulties and unnecessary hardship in complying with the strict letter of the MDL, that the spirit and intent of the MDL are maintained, and that substantial justice is done; and

WHEREAS, accordingly, the Board finds that the Appellant has submitted adequate evidence in support of the findings required to be made under MDL § 310(2)(a) and that the requested variance of the requirements of MDL §§ 30, 52.4, 53, 145, 148, 149 and 152 is appropriate, with certain conditions set forth below.

Therefore it is Resolved, that the decisions of the Manhattan Borough Commissioner, dated November 21, 2013 and March 10, 2014, are modified and that this appeal is granted, limited to the decision noted above, on condition that construction shall substantially conform to the plans filed with the application marked, "Received July 22, 2014"-(8) sheets; and on further condition:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed Department of Buildings objections related to the MDL and does not address any other non-compliance, including any which may exist pursuant to the Zoning Resolution, Building Code, or Housing Maintenance Code;

THAT fire safety measures not limited to the following will be installed and maintained: (1) non-combustible concrete floors in the first floor public hallway; (2) new fireproof stairs in the cellar/basement spaces; (3) cladding of all remaining stairs with gypsum board; (4) two additional layers of 5/8-inch gypsum board to the ceilings of the common areas at each floor; (5) two additional layers of 5/8-inch gypsum board to the walls in the halls and stairwells; (6) fireproof self-closing doors for each dwelling unit; (7) fire sprinklers throughout the whole building; (8) hard-wired smoke detectors in all residential units; (9) new fire escapes at the rear of the 333 Building and 335 Building; and (10) fire-

MINUTES

stopping at the junctures between the walls and floors/ceilings in the public hallways as detailed in the proposed plans;

THAT DOB review and approve sprinkler location and number in accordance with the Building Code and Fire Code requirements for full sprinklering of a residential building including within each unit and all public spaces, prior to the issuance of any permits;

THAT fire safety measures associated with the 2012 Approval will be installed and maintained;

THAT the Department of Buildings will confirm the establishment of the zoning lot, consisting of tax lots 44, 45, 46, and 47, prior to the issuance of a building permit;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 29, 2014.

304-13-A, 312-13-A and 313-13-A

APPLICANT – Simons & Wright, for 517 West 19th Street LLC, owner; David Zwirner, lessee; Lan Chen Corp. 36-36 Prince Street, owner; David Zwirner, lessee; 531 West 19th Street LLC, owner; David Zwirner, lessee.

SUBJECT – Application November 19, 2013 – Appeals challenging Department of Building's determination that subject premises is considered an art gallery and therefore a Certificate of Operation for place of assembly shall be required. C6-2/WCH special district.

PREMISES AFFECTED – 517-519, 521-525, 531 West 19th Street, north side of West 19th Street between 10th and 11th Avenues, Block 691, Lots 15, 19 and 22, Borough of Manhattan.

COMMUNITY BOARD #4M

ACTION OF THE BOARD – Appeals Denied.

THE VOTE TO GRANT –

Affirmative:0

Negative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4

THE RESOLUTION –

WHEREAS, the subject appeal comes before the Board in response to three final determinations issued by the Department of Buildings (“DOB”); and

WHEREAS, the final determination with respect to the building located at 517 West 19th Street and Certificate of Occupancy No. 110362054 was issued on October 21, 2013, and states in pertinent part:

[t]he request to consider an art gallery as retail space in Group M occupancy (2008 Building Code classification) and not as an assembly Group A-3 occupancy is hereby denied; and

WHEREAS, the final determination with respect to the building located at 521 West 19th Street and DOB

Application No. 103825372 was issued on October 30, 2013, and states in pertinent part:

[t]he request to consider an art gallery as retail space in Group M occupancy (2008 Building Code classification) and not as an assembly Group A-3 occupancy is hereby denied; and

WHEREAS, the final determination with respect to the building located at 531 West 19th Street and Certificate of Occupancy No. 104404431 was issued on October 30, 2013, and states in pertinent part:

[t]he request to consider an art gallery as retail space in Group M occupancy (2008 Building Code classification) and not as an assembly Group A-3 occupancy is hereby denied; and

WHEREAS, hereafter these determinations are referred to as the Final Determinations; and

WHEREAS, a public hearing was held on this appeal on May 6, 2014, after due notice by publication in *The City Record*, with a continued hearing on June 24, 2014, and then to decision on July 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by former Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the appeal is filed on behalf of the tenant of the three buildings, David Zwirner Gallery (the “Appellant” or the “Gallery”), which contends that DOB’s determinations were erroneous; and

WHEREAS, DOB and the Appellant have been represented by counsel throughout this appeal; and

WHEREAS, the subject site comprises Tax Lots 22 (517 West 19th Street), 19 (521 West 19th Street, and 15 (531 West 19th Street); and

WHEREAS, the is site located within a C6-2 zoning district, within the Special West Chelsea District; it has 225 feet of frontage along West 19th Street, and approximately 20,700 sq. ft. of lot area; and

WHEREAS, the site is occupied by three abutting buildings; Lot 22 is occupied by a one-story building, and Lots 19 and 15 are each occupied by a two-story building; and

WHEREAS, the Certificate of Occupancy (“CO”) for the building on Lot 22 (CO No. 110362054, issued October 30, 2009) authorizes the first story to be occupied as “Art Sales,” which the CO classifies as Use Group 6 and Occupancy Group M, and it establishes a maximum occupancy of 35 persons; and

WHEREAS, the CO for the building on Lot 19 (CO No. 103825372) is a temporary CO, which will expire on October 22, 2014; it authorizes the first story to be occupied as “Commercial Art Gallery,” which it classifies as Use Group 6C and Occupancy Group F-3, and it establishes a maximum occupancy of 128 persons; in addition, it authorizes accessory storage and offices for nine persons on the mezzanine and an accessory library and offices for three persons on the penthouse level; and

WHEREAS, the CO for the building on Lot 15 (CO No. 10440443) was issued on July 2, 2007; it authorizes the first

MINUTES

and second stories to be occupied as “Art Sales,” “Offices,” and “Storage,” all of which it classifies as Use Group 6 and Occupancy Group “COM”; this CO establishes a maximum occupancy of 129 persons on the first story and 37 persons on the second story; and

WHEREAS, the Appellant represents that the buildings are connected by access openings and used both individually and conjunctively by the Gallery for the display and sale of art, art openings, and other events; and

PROCEDURAL HISTORY

WHEREAS, the Appellant states that in April 2012, it sought determinations from DOB confirming that none of the buildings at the site required the installation of a sprinkler system; in reviewing the requests, DOB determined that the COs for the buildings on Lots 22 and 15 should have been identified as assembly occupancies (F-3 under the 1968 Building Code) rather than as “Art Sales” occupancies (C under the 1968 Building Code); as such, DOB determined that the buildings failed to provide adequate egress, that the COs were issued in error, and that amended COs and Place of Assembly Certificates of Operation were required; and

WHEREAS, in addition, the Appellant states that DOB determined that although the Temporary CO for the building on Lot 19 correctly identifies the occupancy as assembly, the maximum number of persons permitted—the occupant load—was incorrectly calculated; as such, the building failed to provide adequate egress, the required Place of Assembly Certificate of Operation was never obtained, and the permit underlying the Temporary CO was subject to revocation; and

WHEREAS, in response, the Appellant filed a series of determination requests seeking reconsideration of the interpretation that the buildings were properly classified as assembly occupancies; these requests were denied by the Manhattan Borough Commissioner on February 5, 2013, and by the First Deputy Commissioner in October 2013, resulting in the issuance of the Final Determinations; and

WHEREAS, the Appellant then timely filed this appeal; and

WHEREAS, accordingly, the question on appeal is whether the Gallery at the site is, as DOB asserts, an assembly occupancy, or, as the Appellant asserts, a mercantile occupancy; and

DISCUSSION

A. THE APPELLANT’S POSITION

WHEREAS, the Appellant asserts that the Final Determinations are erroneous in that they: (1) classify the buildings on Lots 15 and 22 as assembly occupancies even though the buildings are primarily used for art sales; (2) fail to comply with the code requirement to calculate the occupant load for all three buildings based on actual usage; and (3) include reference to the 1938 Building Code despite the fact that none of the buildings was altered under the 1938 Building Code; and

WHEREAS, in the alternative, the Appellant contends that providing a second means of egress for the building located on Lot 19 is a sufficiently safe alternative to changing the classifications of the buildings on Lots 15 and 22 and

obtaining Place of Assembly Certificates of Operation for all three buildings at the site; and

WHEREAS, the Appellant states that, per 1968 Building Code § 27-239, “every building hereafter erected or altered . . . shall be classified in one of the occupancy groups listed in Table 3-1 according to the main use or dominant occupancy of the building”; and

WHEREAS, the Appellant contends that the final determinations do not reflect that DOB complied with this provision; rather, the Appellant states that DOB classifies the buildings as “galleries” because they are tenanted by the David Zwirner Gallery and galleries appear in 1968 Building Code Table 3-2 as an illustrative example of an assembly occupancy; and

WHEREAS, the Appellant notes that the other F-3 occupancies provided in 1968 Building Code Table 3-2 (exhibition halls, gymnasias, museums, passenger terminals, bowling alleys, and skating rinks) are categorically distinct from the day-to-day operations of the buildings that comprise the David Zwirner Gallery; and

WHEREAS, the Appellant states that the Gallery is a place to purchase art; thus, it is primarily a mercantile occupancy rather than assembly occupancy and the usage of the term “gallery” is to connote the high-end nature of the business, akin to certain retail establishments that sell expensive jewelry under trade names including the word “gallery”; and

WHEREAS, the Appellant notes that 1968 Building Code § 27-232 defines an “assembly space” as “any part of a place of assembly, exclusive of a stage, that is occupied by numbers of persons during the major period of occupancy” and a “place of assembly” as “an enclosed room or space in which seventy-five or more persons gather for religious, recreational, educational, political or social purposes, for the consumption of food or drink, or for similar group activities or which is designed for use by seventy-five or more persons gathered for any of the above reasons”; and

WHEREAS, the Appellant asserts that neither definition supports classification of a gallery where art sales occur as an inherently assembly occupancy; the Appellant states that the buildings are not designed or used as a space to gather but rather as a space to sell art; and

WHEREAS, the Appellant observes that, per 1968 Building Code § 27-257, F-3 occupancies are characterized by occupancies in which persons are “physically active and do not have a common center of attention” and contrasts this description with the actual use of the Gallery, which the Appellant represents does not include physical activity and does include a narrow center of attention (pieces of art); and

WHEREAS, the Appellant notes that 1968 Building Code § 27-232 omits the words “retail” and “sales” from its list of activities for which people gather, which it states implies that retail and assembly uses are mutually exclusive; thus, because the buildings are primarily intended to facilitate sales of art, they are properly classified as mercantile occupancies; and

WHEREAS, further, the Appellant notes that 1968

MINUTES

Building Code § 27-248 indicates that “buildings and spaces shall be classified in the mercantile occupancy group when they are used for display and sales of goods accessible to public inspection” and that 2008 Building Code § 309.1 provides that mercantile group M includes “retail” and “sales rooms”; thus, because the Gallery is engaged in a retail business, the occupancy of the buildings is by definition mercantile; and

WHEREAS, in support of this assertion, the Appellant represents that the Gallery sold approximately 2,025 works of art during the years 2010-2012 and that it sells approximately 750 art books per year; therefore, the Appellant contends that the buildings are primarily used for selling goods and thus properly categorized as mercantile occupancies; and

WHEREAS, to further support its assertion that the proper classification of the buildings is mercantile, the Appellant submitted a table reflecting that eight nearby art galleries have COs that do not classify the occupancy as F-3 or A-3; the COs range in issuance date from 2001 to 2014 and reflect a variety of use and occupancy descriptions; accordingly, the Appellant asserts that DOB has previously classified art galleries as mercantile and it is arbitrarily declining to classify the buildings on Lots 22 and 15 as mercantile in this case; and

WHEREAS, in addition, the Appellant states that the Final Determinations contain erroneous occupant load calculations, which result in occupant loads in excess of 74 persons per building and trigger the requirement to provide a second means of egress from each building and Place of Assembly Certificates of Operation for each building; and

WHEREAS, the Appellant states that, pursuant to 1968 Building Code § 27-358(b), “when the actual occupant load of any space will be significantly lower than that listed in Table 6-2, the commissioner may establish a lower basis for determination of occupant load”; thus, the typical occupancy of the buildings, which, the Appellant estimates is five to ten persons for the entire site per day, must be considered rather than the buildings’ capacity based on their floor area; and

WHEREAS, the Appellant asserts that the Final Determinations for the buildings located on Lots 22 and 15 erroneously employ the 1938 Building Code for the calculation of the required occupant load despite the fact that the permit applications were filed to comply with the applicable provisions of the 1968 Building Code; therefore, these final determinations are defective as a matter of law; and

WHEREAS, the Appellant also states that DOB cannot clarify the rationale for its Final Determinations on appeal; and

WHEREAS, accordingly, the Appellant requests that the Board grant the appeal, reverse the Final Determinations, and declare that Place of Assembly Certificates of Operation are not required for any of the buildings, including the building located on Lot 19; and

WHEREAS, finally, at hearing and in its final submission, the Appellant advanced alternative proposal in which the buildings on Lots 22 and 15 remain mercantile and the building on Lot 19 retains its classification as assembly but

is altered to include a second means of egress; and

WHEREAS, the Appellant represents that because the buildings essentially operate as a single facility, four means of egress (one each from the buildings on Lots 22 and 15 and two from the building on Lot 19) is a sufficiently safe condition regardless of whether the facility is classified as mercantile or assembly; and

WHEREAS, thus, the Appellant alternatively requests that the Board grant the appeal subject to the inclusion of a second means of egress from the building on Lot 19; and

B. DOB’S POSITION

WHEREAS, DOB contends that that the Final Determinations were properly issued, in that: (1) each of the three buildings at the site is an assembly occupancy; and (2) the occupant load calculations indicate each building has an occupant load in excess of 74 persons, triggering the requirement to obtain a Place of Assembly Certificate of Operation; and

WHEREAS, DOB contends that the proper classification of all three buildings at the site is assembly; thus, to the extent that DOB has issued COs classifying the occupancy at the buildings on Lots 22 and 15 as other than assembly, it did so erroneously; and

WHEREAS, DOB asserts that the only applicable occupancy group for the Gallery under the 1968 Building Code and 2008 Building Code is the assembly occupancy, which includes art gallery occupancies; and

WHEREAS, DOB notes that 1968 Building Code § 27-241 directs an applicant to Table 3-2 and Reference Standard RS 3-3 for the list of representative occupancies that must be used as a basis for classifying buildings and spaces by occupancy; and

WHEREAS, DOB states that 1968 Building Code Table 3-2 identifies “galleries” as representative of the assembly occupancy group with the F-3 designation and Reference Standard RS 3-3 lists “art galleries” as belonging to the assembly Occupancy Group F-3; thus, DOB asserts that an “art gallery” occupancy is expressly categorized in the assembly occupancy group; and

WHEREAS, in addition, DOB states that an art gallery is consistent with the descriptions of assembly occupancy under 1968 Building Code §§ 27-254 and 27-257; and

WHEREAS, DOB observes that 1968 Building Code § 27-254 provides that buildings and spaces shall be classified in the assembly occupancy group when they are designed for use by any number of persons for recreational or social purposes or for similar group activities; DOB contends that art galleries are designed to accommodate people convened to view and buy artwork and therefore belong in the assembly category per § 27-254; likewise, 1968 Building Code § 27-257 provides that occupancy group F-3 shall include buildings and spaces in which the persons assembled are physically active and do not have a common center of attention; DOB contends that this description is suitable for art galleries, where viewers walk through the gallery spaces and direct their attention to various exhibits; and

WHEREAS, as to the 2008 Building Code, DOB notes

MINUTES

that § BC 303 specifically lists “art galleries” among the A-3 assembly uses and § BC 303.1 provides that Assembly Group A includes the use of a building or portion thereof for the gathering together of any number of persons for purposes such as social functions, recreation or similar group activities; and

WHEREAS, thus, DOB asserts that art galleries are categorized in the assembly occupancy group by the specific and general descriptions of the 1968 and 2008 Building Codes; thus, DOB properly concluded that all three buildings at the site are F-3 assembly occupancies; and

WHEREAS, DOB notes that the appellant disavows the label used on the davidzwiner.com website (which describes the site as “a contemporary art gallery”) and disregards the plain meaning of the term “art gallery” as an establishment that displays and sells works of art; and

WHEREAS, DOB also observes that neither the 1968 Building Code nor the 2008 Building Code uses the term “art sales establishment”; thus, DOB states that there is no support for the Appellant’s classification of the buildings using that term; and

WHEREAS, DOB notes that the Appellant does not dispute that the buildings are used to display and sell art, and does not distinguish the activities at the site from those typical of art galleries; and

WHEREAS, DOB states that the concept that art gallery assembly occupancies should be classified as “art sales” mercantile occupancies must be rejected because art galleries do not have the degree of openness and organization of displays found in most mercantile occupancies that alleviate risks to life safety; and

WHEREAS, rather, DOB states that the arrangement, darkened spaces, opportunity for congestion and density of occupant loads associated with art galleries and other occupancies classified in the assembly group category creates a potential for fatality and injury from fire that is comparatively high; thus, building code limitations are generally more restrictive for assembly occupancies than for other group classifications; and

WHEREAS, similarly, DOB contends that the diversity of displays in the David Zwiner Gallery during recent exhibitions reveals their dissimilarity to the orderly displays of department store, drug store and convenience store mercantile occupancies; these displays include the following: (1) a recording studio film was shown from January 9 to February 22, 2014; (2) abstract sculptures made of cellophane, chalked paper and powder were arranged on the floor and suspended from the ceiling from February 28 to April 12, 2014; (3) a life-sized sculpture was encountered by viewers on a one-on-one basis in a mirrored room from March 6 to April 19, 2014; (4) a candy-making factory was installed from April 24 to June 14, 2014; and (5) contemporary art and sculpture was displayed on the wall, floor and ceiling from May 2 to June 14, 2014; and

WHEREAS, DOB contends that art galleries do not belong in the mercantile occupancy group merely because sales comprise a portion of gallery activities; occupancy groups are intended to capture the full scope of activities associated with a particular occupancy, not just one aspect, and occupancies that include the sale of merchandise, such as coffee houses (assembly occupancy) or barber and beauty shops (business occupancy), are not classified under the mercantile occupancy group because additional characteristics call for a more comprehensive classification to address the particular life safety concerns associated with such occupancies; and

WHEREAS, DOB states that with respect to the Gallery buildings, the design and arrangement of spaces and displays of artwork are indistinguishable from those found in museums, which are also F-3 assembly occupancies; given this similarity of design, DOB contends that the distinction that artwork can be purchased from a gallery but not from a museum is not relevant to the codes’ safety considerations; and

WHEREAS, DOB also disagrees with the Appellant that the classification of the buildings as assembly instead of mercantile violates 1968 Building Code § 27-239, which, as noted above, states that “[e]very building hereafter erected or altered . . . shall, for the purposes of this code, be classified in one of the occupancy groups listed in Table 3-1 according to the main use or dominant occupancy of the building”; as noted above, the Appellant asserts that the dominant occupancy of the building is mercantile because the majority of activities at the site are sales of art; and

WHEREAS, DOB asserts that the Appellant failed to submit evidence to demonstrate that the buildings’ main use or dominant occupancy is mercantile; further, DOB states that even if the buildings’ classification were mercantile, the 1968 Building Code § 27-238 requires that every “space or room . . . be classified in one of the occupancy groups listed in Table 3-1 according to the occupancy or use of the space or room,” and DOB classifies the spaces within the buildings as assembly; thus, DOB contends that the code requires the classification of both buildings and spaces and does not mandate that the classification of the building controls the classification of its spaces; and

WHEREAS, DOB also notes that this concept is reflected in COs, which specify the occupancy classification of a building as well as the occupancy groups that apply to specific parts of a building; and

WHEREAS, DOB also disagrees with the Appellant’s occupant load calculations and asserts that, based on its calculations, each building has a capacity of more than 74 persons and therefore must obtain a Place of Assembly Certificate of Operation; and

MINUTES

WHEREAS, DOB notes that 1968 Building Code § 27-358 and Table 6-2 establish the occupant load for an art gallery; according to Table 6-2, the occupancy “exhibition space” which is used for museums, is also used for art galleries because museums have spaces, activity and occupant volumes comparable to art galleries; per Table 6-2, the occupant load requirement for an “exhibition space” is ten sq. ft. of net floor area¹ per occupant; and

WHEREAS, DOB states that, with respect to an art gallery assembly occupancy, areas used for the display of art work must be included in the net floor area calculation because art installations are changed over time as new pieces having various dimensions are displayed and sold; further, DOB notes that such display areas do not fall under any exclusion listed in 1968 Building Code § 27-232’s definition of “net floor area”; and

WHEREAS, DOB agrees with the Appellant that per 1968 Building Code § 27-358(b), it has the authority to establish a lower basis for determination of occupant load where appropriate; however, DOB contends that such a reduction is not appropriate for the Gallery given the size of the exhibition space; and

WHEREAS, DOB states that even though normal occupancy may be less than that determined by Table 6-2, the normal occupant load is not an appropriate design standard because the greatest hazard to occupants occurs when an unusually large crowd is present; and

WHEREAS, DOB asserts that using the exhibition space occupant load calculation of ten sq. ft. of net floor area per person, the following are the occupant loads for the buildings: (1) 460 persons for the building on Lot 22, which has approximately 4,600 sq. ft. of net floor area; (2) 253 persons for the building on Lot 19, which has approximately 2,535 sq. ft. of net floor area; and (3) 284 persons for the building on Lot 15, which has approximately 2,835 sq. ft. of net floor area; and

WHEREAS, consequently, DOB concludes that each building has an occupant load well in excess of 75 persons; as such, each building is a “place of assembly,” which according to 1968 Building Code § 27-232 is “an enclosed room or space in which seventy-five or more persons gather for religious, recreational, educational, political or social purposes, or for the consumption of food or drink, or for similar group activities or which is designed for use by seventy-five or more persons gathered for any of the above reasons;” and

WHEREAS, DOB notes that per 1968 Building Code §

¹ “Floor area (net)” is defined in the 1968 Building Code to include actual occupied area and to exclude permanent building components, as follows: “when used to determine the occupant load of a space, shall mean the horizontal occupiable area within the space, excluding the thickness of walls, and partitions, columns, furred-in spaces, fixed cabinets, equipment, and accessory spaces such as closets, machine and equipment rooms, toilets, stairs, halls, corridors, elevators and similar unoccupied spaces.”

27-525.1(a), it is “unlawful to use or occupy any building or premises or part thereof as a Place of Assembly unless and until a permit therefor has been issued”; accordingly, DOB states that each of the buildings requires a Place of Assembly Certificate of Operation; and

WHEREAS, as to the Appellant’s assertion that because the Final Determinations for the buildings located on Lots 22 and 15 erroneously employ the 1938 Building Code for the calculation of the required occupant load despite the fact that the permit applications were filed to comply with the applicable provisions of the 1968 Building Code, the determinations are defective as a matter of law, DOB disagrees; and

WHEREAS, DOB states that the Appellant specifically requested (by checking the applicable checkboxes on the determination request form) an analysis of the buildings’ occupancy classifications and compliance under 2008, 1968, and 1938 Building Codes; and

WHEREAS, thus, DOB asserts that it was merely being responsive to the Appellant’s request; and

WHEREAS, accordingly, DOB requests that the Board deny the appeal and affirm the Final Determinations; and

CONCLUSION

WHEREAS, the Board agrees with DOB that: (1) the occupancy of each building on the site is assembly; (2) based on the occupant loads for the buildings, Place of Assembly Certificates of Operation are required for each building; and (3) references to the 1938, 1968, and 2008 Building Codes in the Final Determinations were provided at the request of the Appellant, and, in any event, would not be an impediment to the Board’s resolution of this appeal; in addition, the Board declines to consider the Appellant’s alternative compliance proposal, as it has not been submitted to DOB for that agency’s consideration; and

WHEREAS, the Board finds that, based on the evidence submitted and the applicable provisions of the 1968 Building Code, the buildings have been appropriately classified by DOB as assembly occupancies; and

WHEREAS, the Board agrees with DOB that the only applicable occupancy group for the Gallery under the 1968 Building Code and 2008 Building Code is the assembly occupancy; and

WHEREAS, the Board finds that the applicable provisions of the 1968 Building Code expressly categorize a gallery as an assembly occupancy, in that § 27-241 directs an applicant to Table 3-2 and Reference Standard RS 3-3 for the list of representative occupancies that must be used as a basis for classifying buildings and spaces by occupancy and both Table 3-2 and Reference Standard RS 3-3 clearly identify “galleries” as representative of the assembly occupancy group; and

WHEREAS, likewise, the Board agrees with DOB that an art gallery is consistent with the descriptions of assembly occupancy under 1968 Building Code §§ 27-254 and 27-257; and

WHEREAS, the Board notes that 1968 Building Code §

MINUTES

27-254 classifies buildings in the assembly occupancy group when they are designed for use by any number of persons for recreational or social purposes or for similar group activities and the Board finds that an art gallery falls squarely within this classification; and

WHEREAS, the Board agrees with DOB that art galleries are designed to accommodate people convened to view and buy artwork and therefore belong in the assembly category per § 27-254; and

WHEREAS, likewise, the Board finds that art gallery patrons are physically active and do not have a common center of attention but rather may not follow a direct path as they examine various exhibits and installations; thus, per 1968 Building Code § 27-257, an art gallery is properly classified as an assembly occupancy; and

WHEREAS, as to the 2008 Building Code, the Board notes that § BC 303 specifically lists “art galleries” among the A-3 assembly uses and § BC 303.1 provides that Assembly Group A includes the use of a building or portion thereof for the gathering together of any number of persons for purposes such as social functions, recreation or similar group activities; and

WHEREAS, the Board disagrees with the Appellant that DOB determined that the David Zwirner Gallery was a gallery because its trade name include the word “gallery”; rather, DOB methodically examined the nature of the occupancy in light of the applicable provisions of the code, and concluded that the buildings at the site are properly classified as assembly occupancies; and

WHEREAS, the Board observes, as DOB notes, that neither the 1968 Building Code nor the 2008 Building Code uses the term “art sales establishment”; thus, the Board finds that there is no support in either code for the Appellant’s classification of the buildings using that term; and

WHEREAS, the Board also finds that an “art sales” mercantile occupancy is not appropriate for the buildings in question because they do not have the degree of openness and organization of displays found in most mercantile occupancies; likewise, as DOB’s catalog of recent exhibitions demonstrates (which include a film, a sculpture installation, and a candy-making factory), displays found within the Gallery have little in common with displays typically found in representative mercantile occupancies; and

WHEREAS, further, the Board agrees with DOB that the design and arrangement of spaces and displays of artwork are indistinguishable from those found in museums, which are also F-3 assembly occupancies; that a visitor can purchase the items on display at a gallery but cannot, generally speaking, purchase the items on display at a museum is, in the Board’s view, an inconsequential distinction in the realm of occupancy classification; and

WHEREAS, similarly, the Board disagrees with the Appellant that having a substantial and lucrative sales component compels classification of the buildings as mercantile; whether an art gallery is highly successful is not a reasonable consideration in determining how to classify the art gallery occupancy; rather, as DOB asserts, the nature of the

display and the anticipated behavior of the occupants control; and

WHEREAS, the Board also disagrees with the Appellant that the classification of the buildings as assembly instead of mercantile violates 1968 Building Code § 27-239; the Board finds that the Appellant failed to submit anything other than conclusory statements to demonstrate that the buildings’ “main use or dominant occupancy” is mercantile; further, even if the buildings’ classification were mercantile, the Board agrees with DOB that 1968 Building Code § 27-238 requires every space or room to be classified in one of the occupancy groups and the Board finds that DOB correctly classified the spaces within the buildings as assembly; thus, the Board concludes that both the majority of spaces within the buildings and the buildings themselves are properly classified within the assembly occupancy group; and

WHEREAS, similarly, the Board is not persuaded by the Appellant’s argument that because the typical number of visitors to the Gallery on a daily basis is ten persons or less, the buildings are not appropriately classified as assembly occupancies; first, the Appellant conceded at hearing that the number of visitors for special events and openings was significantly greater than ten persons; second, both Vice-Chair Collins and Commissioner Hinkson indicated at hearing that they had personally attended events at the Gallery and recall seeing numbers of persons well in excess of the typical occupant loads of the Gallery according to the Appellant; thus, the Board agrees with DOB that public safety dictates that a building or space be required to have sufficient egress for the maximum number of persons capable of occupying such building or space, rather than the “typical” number of persons; and

WHEREAS, as to the Appellant’s assertion that because eight nearby retail art galleries have COs that do not classify the occupancy as F-3 or A-3, DOB is arbitrarily refusing to classify the buildings on Lots 22 and 15 as mercantile, the Board does not agree; indeed, the Board finds nothing persuasive about the Appellant’s table; the actual COs themselves were not included, there are no plans associated with the information provided about the COs, and there is no indication whether the buildings have Place of Assembly Certificates of Operation; therefore, based on the Appellant’s table, it is impossible to determine the extent to which DOB’s issuance of these eight COs deviated in any meaningful respect from DOB’s position in the instant appeal; and

WHEREAS, in addition, former Chair Srinivasan noted at hearing that her own research of property records in the neighborhood surrounding the site revealed art galleries that have COs for assembly occupancy, including the Jack Shainman Gallery at 513 West 20th Street (CO No. 101301002, issued December 27, 2011) and the Bortolami Gallery-Zieher Smith Gallery at 526-520 West 20th Street (CO No. 102824552, issued December 8, 2011); and

WHEREAS, therefore, the Board concludes that DOB correctly classified the buildings’ occupancy as assembly; and

WHEREAS, the Board agrees with DOB’s occupant load calculations and agrees that each building has a capacity

MINUTES

of more than 74 persons and therefore each must obtain a Place of Assembly Certificate of Operation; and

WHEREAS, the Board finds that, pursuant to 1968 Building Code § 27-358 and Table 6-2, the occupant load for the exhibition space within the subject buildings is ten sq. ft. of net floor area per occupant; accordingly, the Board agrees with DOB that each building has an occupant load well in excess of 74 persons; and

WHEREAS, the Board also agrees with DOB that the areas used for the display of art work must be included in the net floor area calculation both because art installations are changed over time as new pieces having various dimensions are displayed and sold, and because areas used for art displays are not excluded from net floor area under 1968 Building Code § 27-232's definition of "net floor area"; and

WHEREAS, the Board finds that under 1968 Building Code § 27-358(b), DOB may establish a lower basis for determination of occupant load where appropriate, but is by no means required to where it determines doing so would not further public safety; thus, the Board finds, as DOB found, that a lower basis for determination of occupant load is not appropriate for the Gallery given the size of the exhibition space and the evidence that it holds events and openings in which hundreds of persons are permitted to occupy the gallery at once; and

WHEREAS, accordingly, the Board finds that each building is a "place of assembly" pursuant to 1968 Building Code § 27-232; and

WHEREAS, the Board also notes that the failure to obtain a Place of Assembly Certificate of Operation where required is contrary to 1968 Building Code § 27-525.1(a); and

WHEREAS, turning to the Appellant's assertion that because the Final Determinations for the buildings located on Lots 22 and 15 erroneously employ the 1938 Building Code for the calculation of the required occupant load despite the fact that the permit applications were filed to comply with the applicable provisions of the 1968 Building Code, the determinations are defective as a matter of law, the Board is not persuaded; and

WHEREAS, first, as DOB notes, the Appellant specifically requested an examination of the buildings' occupancy classifications under the 2008, 1968, and 1938 Building Codes; second, and more importantly, the Board observes that DOB often clarifies the rationale for its determinations during the appeal process; thus, an appellant is given ample opportunity to respond to any arguments that DOB may not have presented at the agency level; and

WHEREAS, finally, at hearing, the Appellant advanced an alternative egress configuration for the buildings, which it represents provide a sufficient safe alternative to obtaining Public Assembly Certificates of Operation and new COs for the buildings on Lot 22 and 15; the Board declines to consider the Appellant's proposal, because it has not been submitted to DOB for consideration; and

WHEREAS, in conclusion, the Board affirms the Final Determinations classifying the buildings' occupancy as assembly and requiring a Place of Assembly Certificate of

Operation for each building; and

Therefore it is Resolved, that the subject appeal, seeking a reversal of the Final Determinations, dated January 14, 2014, is hereby *denied*.

Adopted by the Board of Standards and Appeals, July 29, 2014.

49-14-A

APPLICANT – Jesse Masyr, Esq of Fox Rothschild LLP, for Archdiocese of New York, owner.

SUBJECT – Application March 25, 2014 – Proposed enlargement to an existing community facility, contrary to General City Law Section 35. R1-1 zoning district.

PREMISES AFFECTED – 5655 Independence Street, Arlington Avenue to Palisade Avenue between West 256th Street and Sigma Place. Block 5947, Lot 120. Borough of Bronx.

COMMUNITY BOARD #8BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated May 20, 2014, acting on DOB Application No. 220211937, reads in pertinent part:

1. The proposed horizontal enlargement is not permitted in the bed of the mapped street Approval from the Board of Standards and Appeals of Standards as per GCL 35.
2. The proposed enlargement encroaches into the front yard required from Independence Avenue contrary to ZR 24-34.
3. The proposed enlargement encroaches into the sky exposure plane from Independence Avenue contrary to ZR 24-521; and

WHEREAS, a public hearing was held on this application on July 22, 2014, after due notice by publication in *The City Record*, hearing closed and then to decision on July 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 8, Bronx, recommends approval of this application; and

WHEREAS, this is an application to allow the construction of an enlargement to an existing community facility, which will be partially located within the bed of the mapped but unbuilt portion of Independence Avenue; and

WHEREAS, the subject site comprises contiguous lots (Block 5947, Lot 120 and Block 5952, Lot 120) partially within an R1-1 zoning district and partially within an R1-2 zoning district, within a Special Natural Area District; and

WHEREAS, Independence Avenue is mapped to a

MINUTES

width of 60 feet, with 30 feet of width within Block 5947 and 30 feet of width within Block 5952; and

WHEREAS, the site has a lot area of approximately 356,417 sq. ft. and is entirely owned by the Archdiocese of New York; it is occupied by a three-story community facility building with approximately 75,600 sq. ft. of floor area, which was constructed in the early 1900s for retired priests; the facility is commonly known as the O'Connor Residence; and

WHEREAS, the applicant states that approximately 25,188 sq. ft. of lot area is located within the bed of Independence Avenue, and approximately 3,136 sq. ft. of the proposed enlargement will lie within the bed of mapped Independence Avenue; and

WHEREAS, the applicant also state that due to the steeply sloping nature of the site, it is considered a Tier II site within the Special Natural Area District; because the proposal includes modifications to the botanic environment and alters trees, the proposal requires a Special Natural Area District authorization from the Department of City Planning; the applicant notes that an application was submitted under Application No. N140311ZAX on March 17, 2014 and approved on June 11, 2014; and

WHEREAS, by letter dated September 24, 2013, the Fire Department states that it has reviewed the site plan and has no objection to the proposal, subject to the following conditions: (1) the entire building must be fully-sprinklered; (2) the building must be provided with interconnected smoke alarms; (3) at least one hydrant must be located within 100 feet of any and all building Siamese connections; (4) a Fire Department access road including a 70-ft. diameter turnaround must be provided; (5) "No Parking Anytime Fire Zone" signs must be installed every 75 feet along the access road; and (6) there shall be no parking anywhere along the fire access road from the public street to the turnaround; and

WHEREAS, by letter dated April 15, 2014, the Department of Environmental Protection ("DEP") states that: (1) there are no sewers or water mains at the above referenced location; and (2) Modified City Drainage Plan No. 40-1 dated June 14, 1955, calls for a future 15-inch diameter combined sewer in Independence Avenue between West 256th Street and Arlington Avenue; and

WHEREAS, DEP further stated that it requires the applicant to submit a survey/plan showing the width of mapped portion of Independence Avenue, dimensions of the property and distance from the nearest intersection; and to provide the 32-ft. wide sewer corridor for the 15-inch diameter future combined sewer, crossing the property or the applicant has an option to amend the drainage plan; and

WHEREAS, in response to DEP's request, the applicant submitted a revised survey, dated May 15, 2014; the revised survey depicts the width of Independence Avenue, the metes and bounds of the property, the distances to West 256th Street and Arlington Avenue, and the point of vertical intersection of Independence Avenue, approximately 125 feet south of the northerly property line; and

WHEREAS, the applicant states that due to the fact that the proposed high point of Independence Avenue is on the

property, property to the north can be served by the future 15-inch diameter future combined sewer that flows to the north; therefore, a sewer corridor across the property is not necessary and requests that DEP rescind their request for a sewer corridor; and

WHEREAS, by letter dated May 29, 2014, DEP states that, based on its review of the applicant's response, it has no objections to the proposal; and

WHEREAS, by correspondence dated June 18, 2014, the Department of Transportation ("DOT") states that: (1) according to the Bronx Borough President's Topographical Bureau, Independence Avenue at this location is mapped at a 60-ft. width on the Final City Map and is not titled to the City; and (2) construction within the bed of Independence Avenue is not presently included in DOT's Capital Improvement Program; and

WHEREAS, the Board notes that pursuant to GCL § 35, it may authorize construction within the bed of the mapped street subject to reasonable requirements; and

WHEREAS, the Board notes that pursuant to ZR § 72-01(g), the Board may waive bulk regulations where construction is proposed in part within the bed of a mapped street; such bulk waivers will be only as necessary to address non compliances resulting from the location of construction within and outside of the mapped street, and the zoning lot will comply to the maximum extent feasible with all applicable zoning regulations as if the street were not mapped; and

WHEREAS, therefore, consistent with GCL § 35 and ZR § 72-01(g), the Board finds that applying the bulk regulations across the portion of the subject lot within the mapped street and the portion of the subject lot outside the mapped street as if the lot were unencumbered by a mapped street is both reasonable and necessary to allow the proposed construction; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved, that the Board modifies the decision of the DOB, dated May 20, 2014, acting on DOB Application No. 220211937, by the power vested in it by Section 35 of the General City Law, and also waives the bulk regulations associated with the presence of the mapped but unbuilt street pursuant to Section 72-01(g) of the Zoning Resolution to grant this appeal, limited to the decision noted above *on condition* that construction will substantially conform to the drawing filed with the application marked "Received July 24, 2014"-(1) sheet; and *on further condition*:

THAT DOB will review and approve plans associated with the Board's approval for compliance with the underlying zoning regulations as if the unbuilt portion of the street were not mapped;

THAT the entire building must be fully-sprinklered;

THAT the building must be provided with interconnected smoke alarms;

THAT at least one hydrant must be located within 100 feet of any and all building Siamese connections;

MINUTES

THAT a fire department access road including a 70-foot diameter turnaround must be provided;

THAT "No Parking Anytime Fire Zone" signs must be installed every 75 feet along the access road;

THAT there will not be parking anywhere along the fire access road from the public street to the turnaround;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT DOB will review and approve plans associated with the Board's approval for compliance with the underlying zoning regulations as if the unbuilt street were not mapped;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals on July 29, 2014.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated December 26, 2013, acting on DOB Application No. 420349279, reads:

Legalization of existing rooftop parking contrary to ZR Section 44-11;

Proposed reduction in required accessory off-street parking for office use (Use Group 6, parking requirement category B1) is contrary to ZR Section 44-20; and

WHEREAS, this is an application under ZR §§ 73-03, 73-44 and 73-49 to legalize, on a site within an M1-1 zoning district, a reduction in the required number of accessory parking spaces for a one-story commercial building occupied by offices (Use Group 6), contrary to ZR § 44-20, and the location of 15 parking spaces on the rooftop of the building, contrary to ZR § 44-11; and

WHEREAS, a public hearing was held on this application on June 24, 2014, after due notice by publication in the *City Record*, and then to decision on July 29, 2014; and

WHEREAS, Community Board 1, Queens, recommends approval of this application; and WHEREAS, the subject site is rectangular lot located on the north side of 37th Avenue between 13th Street and 14th Street, within an M1-1 zoning district; and

WHEREAS, the site has 75 feet of frontage along 37th Avenue and 7,512 sq. ft. of lot area; and

WHEREAS, the site is occupied by a one-story commercial building (Use Group 6) with 7,453 sq. ft. of floor area (0.99 FAR), five parking spaces in the cellar, and 15 parking spaces on the rooftop; and

WHEREAS, pursuant to ZR § 32-15, the subject Use Group 6 office is in parking requirement category B1, which requires that one accessory parking space be provided for every 300 sq. ft. of floor area; thus, the existing Use Group 6

MINUTES

office floor area at the site generates 25 required accessory parking spaces, resulting in a parking deficit of five spaces; and

WHEREAS, pursuant to ZR § 73-44, the Board may, in the subject M1-1 zoning district, grant a special permit that would allow a reduction in the number of accessory off-street parking spaces required under the applicable Zoning Resolution provision, for Use Group 6 office use in the parking category B1; in the subject zoning district, the Board may reduce the required parking from one space per 300 sq. ft. of floor area to one space per 600 sq. ft. of floor area; and

WHEREAS, pursuant to ZR § 44-21 the total number of parking spaces that will be required in connection with the proposal is 25 spaces; thus, if the special permit is granted, only 13 parking spaces will be required; nevertheless, the applicant proposes 20 parking spaces; and

WHEREAS, pursuant to ZR § 73-44, the Board must determine that the Use Group 6 use in the B1 parking category is contemplated in good faith; and

WHEREAS, the applicant states that its good faith is demonstrated by the modesty of its request (a reduction of five spaces is requested where a reduction of 12 spaces is contemplated) and by the fact that the building is currently occupied as a Use Group 6 office; and

WHEREAS, the Board finds that the applicant has submitted sufficient evidence of good faith in maintaining the noted uses at the site; and

WHEREAS, in addition, the special permit under ZR § 73-44 requires and the applicant represents that any certificate of occupancy for the building will state that no subsequent certificate of occupancy may be issued if the use is changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-street radius; and

WHEREAS, turning to the findings for ZR § 73-49, pursuant to that section, the Board may permit parking spaces to be located on the roof of a building if the Board finds that the roof parking is located so as not to impair the essential character or the future use or development of the adjacent areas; and

WHEREAS, the applicant represents that the rooftop parking will not impair the essential character or future use or development of adjacent areas and will not adversely affect the character of the surrounding area; and

WHEREAS, the applicant states that there are no residential uses immediately adjacent to the rooftop parking and that the nearby uses include an auto parts storage yard, a vacant lot, an office building with no windows facing the rooftop parking, and, across 37th Avenue, a public school (P.S. 111); and

WHEREAS, the applicant also notes that lighting for the rooftop parking is directed away from adjacent lots and that the site is operated Monday through Friday, from 7:00 a.m. to 6:00 p.m., and closed Saturday and Sunday; and

WHEREAS, at hearing, the Board directed the

applicant to install additional safety measures in the parking lot; and

WHEREAS, in response, the applicant represents that bumpers will be installed; and

WHEREAS, accordingly, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit uses is outweighed by the advantages to be derived by the community; and

WHEREAS, based upon its review of the record, the Board concludes that the findings required under ZR §§ 73-03, 73-44 and 73-49 have been met; and

WHEREAS, the project is classified as an unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 12-BSA-075Q, dated January 1, 2014; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and §6-07(b) of the Rules of Procedure for City Environmental Quality Review and makes each and every one of the required findings under ZR §§ 73-03, 73-44 and 73-49 to legalize, on a site within an M1-1 zoning district, a reduction in the required number of accessory parking spaces for a one-story commercial building occupied by offices (Use Group 6), contrary to ZR § 44-20, and the location of 15 parking spaces on the rooftop of the building, contrary to ZR § 44-11; on condition that all work shall substantially conform to drawings as they apply to the objections above noted filed with this application marked "Received July 25, 2014"—seven (7) sheets, and on further condition:

THAT a maximum of 15 parking spaces will be provided on the rooftop;

THAT a minimum of 20 parking spaces will be provided at the site;

THAT all lighting on the roof will be directed down and away from adjacent uses;

MINUTES

THAT the rooftop parking will be screened from neighboring residences as per the BSA-approved plans;

THAT the site will be maintained safe and free of debris;

THAT there will be no change in the use of the site without prior review and approval by the Board;

THAT no certificate of occupancy may be issued if the use is changed to a use listed in parking category B unless additional accessory off-street parking spaces sufficient to meet such requirements are provided on the site or within the permitted off-street radius;

THAT the above conditions will appear on the certificate of occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 29, 2014.

APPLICANT – EPDSO, Inc., for Best Equities LLC, owner; Page Fit Inc. d/b/a Intoxx Fitness, lessee.

SUBJECT – Application August 7, 2012 – Special Permit (§73-36) to permit the legalization of a physical culture establishment (*Intoxx Fitness*). M3-1 zoning district.

PREMISES AFFECTED – 236 Richmond Valley Road, southern side of Richmond Valley Road between Page Avenue and Arthur Kill Road, Block 7971, Lot 200, Borough of Staten Island.

COMMUNITY BOARD #3SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated July 18, 2012, acting on DOB Application No. 520096299, reads, in pertinent part:

Proposed physical culture establishment in an M3-1 zoning district is contrary to the Zoning Resolution; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a M3-1 zoning district, within the Special South Richmond Development District, the legalization of an existing physical culture establishment

(“PCE”) on the first story of a two-story commercial building, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on June 24, 2014, after due notice by publication in the *City Record*, and then to decision on July 29, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Montanez; and

WHEREAS, Community Board 3, Staten Island, recommends disapproval of this application; and

WHEREAS, the subject site is located on the south side of Richmond Valley Road, between Arthur Kill Road and Page Avenue, within an M3-1 zoning district; and

WHEREAS, the site has approximately 907 feet of frontage along Richmond Valley Road and approximately 225,417 sq. ft. of lot area; and

WHEREAS, the site is occupied by a two-story commercial building with 65,519 sq. ft. of floor area (0.28 FAR) and surface parking for 217 automobiles; and

WHEREAS, the applicant represents that the PCE occupies 11,725 sq. ft. of floor area on the first story; and

WHEREAS, the applicant states that the PCE is operated as Intoxx Fitness; and

WHEREAS, the applicant states that the PCE has been in operation since August 1, 2010; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight management, and aerobics; and

WHEREAS, the hours of operation for the PCE are Monday through Friday, from 5:00 a.m. to 11:00 p.m., Saturday, from 8:00 a.m. to 8:00 p.m., and Sunday, from 8:00 a.m. to 6:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, at hearing, the Board directed the applicant to amend the plans to reflect complying signage; and

WHEREAS, in response, the applicant submitted amended plans that reflect signage in complying with the applicable district regulations; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the operation of the PCE without the special permit; and

WHEREAS, the Board finds that, under the conditions

MINUTES

and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No. 13SA015R dated August 3, 2012; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issued a Negative Declaration determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site within a M3-1 zoning district, within the Special South Richmond Development District, the legalization of an existing PCE on the first story of a two-story commercial building, contrary to ZR § 42-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received April 18, 2014" Two (2) – sheets and "Received July 24, 2014" One (1) – sheet; and *on further condition*:

THAT the term of the PCE grant will expire on August 1, 2020;

THAT parking for all uses within the building including the PCE will be as reviewed and approved by DOB;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 29, 2014.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated March 19, 2014, and acting on DOB Application No. 520074035, reads, in pertinent part:

ZR 23-00 – Proposed new building has bulk non-compliances resulting from the location of mapped streets; and

WHEREAS, the decision of the Department of Buildings ("DOB"), dated March 19, 2014, and acting on DOB Application No. 520141980, reads, in pertinent part:

ZR 23-00 – Proposed new building has bulk non-compliances resulting from the location of mapped streets; and

WHEREAS, the decision of the Department of Buildings ("DOB"), dated March 19, 2014, and acting on DOB Application No. 520141999, reads, in pertinent part:

ZR 23-00 – Proposed new building has bulk non-compliances resulting from the location of mapped

MINUTES

streets; and

ZR 23-461 – Proposed new construction is required to comply with required 20 foot side yard as the subject lot is the corner lot by definition from record line; and

ZR 23-891 – Proposed new construction is required to comply with required 30 foot open area when measured perpendicular to each rear wall; and

WHEREAS, the decision of the Department of Buildings (“DOB”), dated March 19, 2014, and acting on DOB Application No. 520142006, reads, in pertinent part:

ZR 23-00 – Proposed new building has bulk non-compliances resulting from the location of mapped streets; and

ZR 23-461 – Proposed new construction is required to comply with required 20 foot side yard as the subject lot is the corner lot by definition from record line; and

ZR 23-891 – Proposed new construction is required to comply with required 30 foot open area when measured perpendicular to each rear wall; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site within an R3-2 zoning district, the construction of three semi-detached, two-story, single-family homes (Use Group 2), and one semi-detached, three-story, two-family home (Use Group 2) that do not comply with the underlying zoning district regulations for front yards, side yards, and open area perpendicular to a rear wall, contrary to ZR §§ 23-00, 23-45, 23-461 and 23-891; and

WHEREAS, a public hearing was held on this application on June 10, 2014, after due notice by publication in *The City Record*, with a continued hearing on July 15, 2014, and then to decision on July 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Staten Island, recommends disapproval of this application, citing general concerns regarding construction within the bed of a mapped but unimproved street; and

WHEREAS, companion applications to waive General City Law (“GCL”) § 35 for the portions of the proposal within the beds of a mapped but unimproved streets were filed, pursuant to ZR § 72-01(g), under BSA Cal. Nos. 260-13-A, 261-13-A, 262-13-A, and 263-13-A, and decided at the same hearing; and

WHEREAS, the subject site is a trapezoidal lot bounded Sheridan Avenue, Giles Place, Clove Road, and a right of way for the Staten Island Rapid Transit line, within an R3-2 zoning district; and

WHEREAS, the site, which is vacant, has 148 feet of frontage along Sheridan Avenue, 100 feet of frontage along Giles Place, 72 feet of frontage along Clove Road, and 11,000 sq. ft. of lot area; the site will be divided into four tax lots (Lots 22, 23, 24, and 25) in connection with the proposed development; and

WHEREAS, the applicant notes that portions of the site are within proposed street widening areas for Sheridan Avenue (which has an improved width of 30’-0” and a mapped width of 40’-0”) and Clove Road (which has an improved width of 40’-0” and a mapped width of 80’-0”); in addition, the site is encumbered by an easement for the Staten Island Rapid Transit line; and

WHEREAS, the applicant proposes to construct three semi-detached, two-story, 1,530 sq.-ft. single-family homes (Use Group 2) and one semi-detached, three-story, two-family home (use Group 2) with 2,010 sq. ft. of floor area, for a total proposed floor area of 6,600 sq. ft. (0.6 FAR); and

WHEREAS, the applicant states that all four homes will front on Sheridan Avenue and provide a front yard depth of 15’-0” as measured from the built street (a front yard depth of 15’-0”—as measured from the street widening line—is required, per ZR § 23-45); two homes will have side yard widths of 20’-0”, one home (on Lot 24) will have a side yard width of 17’-0”, and one home (on Lot 25) will have a side yard width of 10’-0” (a minimum side yard width of 20’-0” is required, per ZR § 23-461); and

WHEREAS, in addition, the applicant states that two homes will provide open areas with depths of 40’-0”, one home (on Lot 24) will have an open area with a depth of 28’-1”, and one home (on Lot 25) will have an open area of with a depth of 21’-0”, all measured perpendicular from the improved street line to the rear wall (a minimum depth of 30’-0” is required, per ZR § 23-891, and the depth is measured from the street widening line); and

WHEREAS, the applicant notes that the widening line for Clove Road extends to a depth of 40’-0” within the site; as such, absent relief pursuant to ZR § 72-01(g) and GCL § 35, the rear open areas proposed for the four buildings would be effectively 0’-0”; and

WHEREAS, the applicant states that the proposed measurement of the buildings’ front yards from the improved width of Sheridan Avenue and the buildings’ rear open areas from the improved width of Clove Road are permitted by the Board pursuant to ZR § 72-01(g) pursuant to the above-referenced GCL § 35 waiver applications; and

WHEREAS, accordingly, the applicant seeks a variance pursuant to ZR § 72-21 to allow the proposed side yards and rear open areas for the buildings on Lots 24 and 25, which are contrary to ZR §§ 23-461 and 23-891, respectively, which exist even in the absence of the mapped unimproved street, and, thus, which the Board does not waive pursuant to ZR § 72-01(g); and

WHEREAS, the applicant states that the site’s trapezoidal shape and three street frontages, and the presence of a transit easement and widening lines for two streets within are unique physical conditions, which create practical difficulties and unnecessary hardship in developing the subject site in compliance with underlying zoning regulations, in accordance with ZR § 72-21(a); and

WHEREAS, the applicant states that the site’s trapezoidal shape—formed by the intersection of the railroad tracks for the Staten Island Rapid Transit line with an

MINUTES

otherwise rectangular parcel—is both unique in the surrounding neighborhood and an impediment to complying development of the site; and

WHEREAS, as to the uniqueness, the applicant represents that the site is one of only four sites within a 400-foot radius that have a trapezoid shape; additionally, the other three sites have significantly less lot area, front on only one street (instead of three) and are not reduced in buildable as-of-right lot area by street widening lines; and

WHEREAS, as to the shape's impact on complying development, the applicant states that such shape, in combination with the R3-2 district yard and open space requirements, prevents efficient use of the site's available floor area, resulting in significant underdevelopment; and

WHEREAS, specifically, the applicant states that due to the sharp angle of the southern boundary, half of the site is too shallow to accommodate residences with complying rear and front yards; and

WHEREAS, in addition, the applicant asserts that because one of the three streets (Clove Road) is a heavily-trafficked commercial thoroughfare and another (Giles Place) is unsuitably narrow, conforming uses in the R3-2 district front most appropriately on residence-oriented Sheridan Avenue, resulting in a further constraint on the configuration of any building(s) on the site; and

WHEREAS, the applicant states that the presence of the transit easement along Clove Road and the widening lines for Sheridan Avenue and Clove Road contribute to the site's uniqueness; and

WHEREAS, the applicant represents that among vacant sites within the study area, the subject site is the only site with two street widening lines; and

WHEREAS, the applicant also states that the easement and the widening lines effectively reduce the buildable lot area of the site from 11,000 sq. ft. to 6,600 sq. ft.; and

WHEREAS, based upon the above, the Board finds that the cited unique physical conditions create practical difficulties in developing the site in strict compliance with the applicable zoning regulations; and

WHEREAS, the applicant asserts that, per ZR § 72-21(b), there is no reasonable possibility that the development of the site in conformance with the Zoning Resolution will bring a reasonable return; and

WHEREAS, to demonstrate the infeasibility of developing the site without the requested waivers, the applicant explored three alternative development scenarios: (1) a complying community facility use without any waivers of GCL § 35; (2) a complying residential development (two single-family homes) without any waivers of GCL § 35; (3) a complying community facility with GCL § 35 waivers to build irrespective of the widening lines along Clove Road and Sheridan Avenue; and (4) a complying residential development (four single-family homes) with GCL § 35 waivers to build irrespective of the widening lines along Clove Road and Sheridan Avenue; and

WHEREAS, the applicant states that all four scenarios result in significantly underdeveloped and financially

infeasible developments, and that only the proposal—five total dwelling units—provide a reasonable return; and

WHEREAS, the Board agrees with the applicant that because of the site's unique physical conditions, there is no reasonable possibility that compliance with applicable zoning regulations will result in a reasonable return; and

WHEREAS, the applicant represents that, per ZR § 72-21(c), the proposed variance will not negatively affect the character of the neighborhood, or impact adjacent uses; and

WHEREAS, the applicant states that the surrounding neighborhood is characterized by low rise detached and semi-detached one- and two-family dwellings; and

WHEREAS, the applicant notes that the use is permitted as-of-right in the subject R3-2 district; and

WHEREAS, as to bulk, the applicant states that the proposal's floor area, wall and building height comply with the subject R3-2 regulations and that open areas and yards are consistent with the built character of the area, particularly in light of the unique constraints of the site; and

WHEREAS, the applicant states that the proposal has no impact on nearby uses, which include a mixed residential and commercial building across Giles Place, a commercial building across Clove Road, and a row of single-family dwellings across Sheridan Avenue; and

WHEREAS, the Board notes that by letter dated July 23, 2014, the Department of Transportation ("DOT") indicates that it has reviewed and approved the site plan, on condition that 20 feet of unobstructed space is maintained within the driveway of 33 Sheridan Avenue and left open and available for vehicle turnaround at all times; and

WHEREAS, therefore, the Board finds that, in accordance with ZR § 72-21(c), this action will neither alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that, per ZR § 72-21(d), the hardship herein was not created by the owner or a predecessor in title, but is a result of the site's unique physical conditions; and

WHEREAS, the Board also finds that this proposal is the minimum necessary to afford the owner relief, in accordance with ZR § 72-21(e); and

WHEREAS, thus, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 14-BSA-034R, dated August 12, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources;

MINUTES

Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration under 6 NYCRR Part 617.5 and 617.13, §§ 5-02(a), 5-02(b)(2), and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 72-21 to permit, on a site within an R3-2 zoning district, the construction of three semi-detached, two-story, single-family homes (Use Group 2), and one semi-detached, three-story, two-family home (Use Group 2) that do not comply with the underlying zoning district regulations for side yards, and open area perpendicular to a rear wall, contrary to ZR §§ 23-461 and 23-891; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked “Received July 25, 2014” – twenty-five (25) sheets; and *on further condition*:

THAT the parameters of the development will be as follows: three (25, 27, and 31 Sheridan Avenue) semi-detached, two-story, 1,530 sq.-ft. single-family homes; one (33 Sheridan Avenue) semi-detached, three-story, two-family home (use Group 2) with 2,010 sq. ft. of floor area; a total maximum floor area of 6,600 sq. ft. (0.6 FAR);

THAT 25 Sheridan Avenue (Lot 22) will have a minimum front yard depth of 15’-0”, a minimum side yard width of 20’-0”, a minimum rear open area depth of 40’-0”, and two parking spaces;

THAT 27 Sheridan Avenue (Lot 23) will have a minimum front yard depth of 15’-0”, a minimum side yard width of 20’-0” and a minimum rear open area depth of 40’-0”, and two parking spaces;

THAT 31 Sheridan Avenue (Lot 24) will have a minimum front yard depth of 15’-0”, a minimum side yard width of 17’-0”, a minimum rear open area depth of 28’-1”, and two parking spaces;

THAT 33 Sheridan Avenue (Lot 25) will have a minimum front yard depth of 15’-0”, a minimum side yard width of 10’-0”, a minimum rear open area depth of 20’-0”, and three parking spaces;

THAT 20 feet of unobstructed space is maintained within the driveway of 33 Sheridan Avenue (Lot 25) and left open and available for vehicle turnaround at all times;

THAT this approval is limited to the relief granted by the Board, in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT substantial construction will be completed

pursuant to ZR § 72-23;

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 29, 2014.

260-13-A thru 263-13-A

APPLICANT – Eric Palatnik PC, for Block 3162 LLC, owner.

SUBJECT – Application August 15, 2013 – The proposed buildings are also located within the bed of a mapped street, contrary to General City Law Section 35. R3-2 zoning district.

PREMISES AFFECTED – 25, 27, 31, 33, Sheridan Avenue aka 2080 Clove Road, between Giles Place and the Staten Island Rapid Transit right of way, Block 3162, Lot 22, 23, 24, 25, Borough of Staten Island.

COMMUNITY BOARD #2SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decisions of the Department of Buildings (“DOB”), dated March 19, 2014, acting on DOB Application Nos. 520074035, 520141980, 520141999, and 520142006 read in pertinent part:

Proposed construction located within the bed of a mapped street is contrary to section 35 of the General City Law; and

ZR 23-00 – Proposed new building has bulk non-compliances resulting from the location of mapped streets; and

WHEREAS, a public hearing was held on this application on June 10, 2014, after due notice by publication in *The City Record*, with a continued hearing on July 15, 2014, and then to decision on July 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Dara Ottley- Brown and Commissioner Montanez; and

WHEREAS, this is an application to allow on a site located within an R3-2 zoning district, the construction of three semi-detached, two-story, single-family homes, and one semi-detached, three-story, two-family home within the bed of two mapped but unbuilt portions of Clove Road and Sheridan Avenue, contrary to General City Law § 35; and

WHEREAS, the site is also subject to a variance application pursuant to ZR § 72-21 to resolve zoning objections not associated with the presence of the mapped street, which was decided on the same date; and

MINUTES

WHEREAS, the subject site is a trapezoidal lot bounded by Sheridan Avenue, Giles Place, Clove Road, and a right of way for the Staten Island Rapid Transit line, within an R3-2 zoning district; and

WHEREAS, the site, which is vacant, has 148 feet of frontage along Sheridan Avenue, 100 feet of frontage along Giles Place, 72 feet of frontage along Clove Road, and 11,000 sq. ft. of lot area; the site will be divided into four tax lots (Lots 22, 23, 24, and 25) in connection with the proposed development; and

WHEREAS, the applicant notes that portions of the site are within proposed street widening areas for Sheridan Avenue (which has an improved width of 30'-0" and a mapped width of 40'-0") and Clove Road (which has an improved width of 40'-0" and a mapped width of 80'-0"); in addition, the site is encumbered by an easement for the Staten Island Rapid Transit line; and

WHEREAS, by letter dated October 23, 2013, the Fire Department states that it has reviewed the proposal and offers no objection, provided that; (1) as noted on the site plan, the exterior walls abutting the outdoor parking area of Units 2, 3, and 4 be constructed to minimum one-hour fire rating; and (2) all proposed units are to fully-sprinklered; and

WHEREAS, by letter dated October 30, 2013, the Department of Environmental Protection ("DEP") states that: (1) there are no existing City sewers in the bed of Clove Road between the Staten Island railroad and Giles Place; (2) there is an existing eight-inch city water main in the bed of Clove Road at the above referenced location; (3) there is also an existing six-inch diameter sanitary drain, an existing 24-inch diameter water main and an existing eight-inch water main in the bed of Sheridan Avenue between the Staten Island Railroad and Giles Place; (4) City Drainage Plan No. PRD-2D, sheet 2 of 9, dated November 21, 1973, calls for a future ten-inch diameter sanitary sewer, and a 12-inch diameter storm sewer to be installed in Clove Road between the Staten Island Railroad and Giles Place; and (5) there will be a future ten-inch diameter sanitary sewer and a 12-inch diameter storm sewer in Sheridan Avenue between Staten Island Railroad and Giles Place; and

WHEREAS, DEP further states that it requires the applicant to submit a survey/plan showing: (1) the width of mapped Clove Road, the width of the widening portion and the distance between the easterly lot line and the existing eight-inch diameter City Water main in Clove Road between the Staten Island Road and Giles Place; (2) the width of mapped Sheridan Avenue, the width of the widening portion and the distances between the westerly lot line and existing six-inch diameter sanitary drain, the 24-inch diameter and the eight-inch diameter City Water main in Sheridan Avenue between Staten Island Railroad Road and Giles Place; and

WHEREAS, by letter dated December 10, 2013, DEP also requires information regarding the size, type, and distance from the property line to the manholes on the existing drain in the westerly sidewalk of Clove Road; and

WHEREAS, in response to DEP's request, by letter dated December 2, 2014 and on January 14, 2014 the

applicant has submitted a revised survey and site plan addressing DEP issues; and

WHEREAS, by letter dated February 7, 2014, DEP states that it has reviewed the submission and notes that the revised site plan shows (1) the 40-foot width of the travel portion of Clove Road between the Staten Island Railroad and Giles Place, which will be available for the maintenance and or reconstruction of the existing sewer, water mains and the installation of the future sewers and (2) the 30-foot width of the travel portion of Sheridan Avenue between the Staten Island Railroad and Giles Place, which will be available for the maintenance and or reconstruction of the existing and future sewers and existing water mains; and

WHEREAS, the DEP has no objections to the proposal; and

WHEREAS, by email correspondence dated December 13, 2013 and May 7, 2014, the Department of Transportation ("DOT") states that because Sheridan Avenue is a dead end street, on-street parking requirements and minimum allowable street widths must be met on Sheridan Avenue to provide the ability for vehicles to turn around; therefore, Sheridan Avenue must be widened to a minimum of 28 feet (20 feet for two moving lanes, and eight feet for parking).

WHEREAS, the applicant asserts that: (1) there is "No parking" permitted on either side of Sheridan Avenue and (2) the Fire Department has reviewed the proposal and has not requested either a turnaround or a street widening because the existing street system is adequate to meet its needs to provide life safety services; and

WHEREAS, by letter dated June 11, 2014, DOT requires the applicant to provide 20 feet of unobstructed space in front of Tentative Lot 25 to allow for vehicles to turn around at the dead end of Sheridan Avenue; and

WHEREAS, by letter dated July 3, 2014, the applicant submitted a revised site plan depicting a 20-foot area of unobstructed space within the driveway of Tentative Lot 25; and

WHEREAS, by letter dated July 23, 2014, DOT states that it has reviewed the revised proposal and has no objections; and

WHEREAS, DOT also states that according to the Staten Island Borough President Topographical Bureau, Sheridan Avenue from the north side of Giles Place to a point approximately 150 feet south of the Staten Island Rapid Transit Operating Authority is mapped at a 40-foot width on the Final City Map; in addition, the city has an Opinion of Dedication for 30 feet, as-in-use, dated October 26, 1916; lastly, Clove Road from the north side of Giles Place to a point approximately 102 feet south of the Staten Island Rapid Operating Transit Authority is mapped at an 80-foot width on the Final City Map and the City has an Opinion of Dedication for 40 feet as-in-use, dated May 9, 1975; and

WHEREAS, the Board also notes that DOT has not represented that construction within the widening areas of Sheridan Avenue and Clove Road would conflict or interfere with its Capital Improvement Program; and

WHEREAS, the Board notes that pursuant to GCL § 35,

MINUTES

the Board may authorize construction within the bed of the mapped street subject to reasonable requirements; and

WHEREAS, the Board notes that pursuant to ZR § 72-01-(g), the Board may waive bulk regulations where construction is proposed in part within the bed of a mapped street; such bulk waivers will be only as necessary to address non-compliances resulting from the location of construction within and outside of the mapped street, and the zoning lot will comply to the maximum extent feasible with all applicable zoning regulations as if the street were not mapped; and

WHEREAS, consistent with GCL § 35 and ZR § 72-01-(g), the Board finds that applying the bulk regulations across the portion of the subject site within the mapped street and the portion of the subject lot outside the mapped streets as if the portions were a lot unencumbered by mapped streets is both reasonable and necessary to allow the proposed construction; and

WHEREAS, as noted, zoning objections not associated with the presence of the mapped unbuilt street are resolved by separate application, pursuant to ZR § 72-21; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved, that the Board modifies the decisions of the DOB, dated March 19, 2014, acting on DOB Application Nos. 520074035, 520141980, 520141999, and 520142006 by the power vested in it by Section 35 of the General City Law, and also waives the bulk regulations associated with the presence of the mapped but unbuilt streets pursuant to Section 72-01(g) of the Zoning Resolution to grant this appeal, limited to the decision noted above *on condition* that construction will substantially conform to the drawing filed with the application marked “Received July 25, 2014” – one (1) sheet; and *on further condition*:

THAT DOB will review and approve plans associated with the Board’s approval for compliance with the underlying zoning regulations as if the unbuilt portions of Sheridan Avenue and Clove Road streets were not mapped;

THAT 20 feet of unobstructed space must be maintained within the driveway of 33 Sheridan Avenue (Tentative Lot 25) and left open and available for vehicle turnaround at all times;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT DOB will review the proposed plans to ensure compliance with all relevant provisions of the Zoning Resolution;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals on July 29, 2014.

311-13-BZ
CEQR #14-BSA-074K

APPLICANT – Francis R. Angelino, Esq., for Midyan Gate Realty No 3 LLC, owner; for Global Health Clubs, LLC, lessee.

SUBJECT – Application November 25, 2013 – Special Permit (§73-36) to allow physical culture establishment (*Retro Fitness*). M1-1 zoning district.

PREMISES AFFECTED – 325 Avenue Y, northeast corner of Shell Road and Avenue Y, Block 7192, Lot 45, Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated October 30, 2013, acting on DOB Application No. 320388120, reads, in pertinent part:

Proposed physical culture establishment is not permitted in M1-1 zoning district; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a M1-1 zoning district, the legalization of an existing physical culture establishment (“PCE”) on the first story of a four-story commercial building, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on June 24, 2014, after due notice by publication in the *City Record*, and then to decision on July 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn, recommends disapproval of this application; and

WHEREAS, the subject site is located on the north side of Avenue Y, between Shell Road and West Third Street, within an M1-1 zoning district; and

WHEREAS, the site has approximately 240 feet of frontage along Avenue Y and approximately 25,799 sq. ft. of lot area; and

WHEREAS, the site is occupied by a four-story commercial building and surface parking for 40 automobiles; and

WHEREAS, the applicant represents that the PCE occupies 11,976 sq. ft. of floor area on the first story; and

WHEREAS, the applicant states that the PCE is operated as *Retro Fitness*; and

WHEREAS, the applicant states that the PCE has been in operation since October 1, 2013; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight

MINUTES

management, and aerobics; and

WHEREAS, the hours of operation for the PCE are Monday through Friday, from 5:00 a.m. to 11:00 p.m., and Saturday and Sunday, from 7:00 a.m. to 7:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, at hearing, the Board questioned whether the parking for the proposed PCE complies with the applicable provisions of the Zoning Resolution; and

WHEREAS, in response, the applicant represents that parking for the building will be as required by DOB; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the operation of the PCE without the special permit; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No. 14BSA074K dated November 8, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and

Appeals issued a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site within a M1-1 zoning district, the legalization of an existing physical culture establishment (“PCE”) on the first story of a four-story commercial building, contrary to ZR § 42-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received April 29, 2014” Three (3) – sheets; and *on further condition*:

THAT the term of the PCE grant will expire on October 1, 2023;

THAT parking for all uses within the building including the PCE will be as reviewed and approved by DOB;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 29, 2014.

317-13-BZ

APPLICANT – Law office of Lyra J. Altman, for Michelle Schonfeld & Abraham Schonfeld, owners.

SUBJECT – Application December 10, 2013 – Special Permit (§73-622) for the enlargement of an existing two family home, to be converted to a single family home, contrary to floor area and open space (§23-141); side yards (§23-461) and rear yard (§23-47) regulations. R2 zoning district.

PREMISES AFFECTED – 1146 East 27th Street, west side of 27th Street between Avenue K and Avenue L, Block 7626, Lot 63, Borough of Brooklyn.

COMMUNITY BOARD #14BK

MINUTES

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the New York City Department of Buildings (“DOB”), dated September 30, 2013, acting on DOB Application No. 320828217, reads in pertinent part:

Proposed floor area is contrary to ZR 23-141;

Proposed open space is contrary to ZR 23-141;

Proposed rear yard is contrary to ZR 23-47;

Proposed side yard is contrary to ZR 23-461; and

WHEREAS, this is an application under ZR § 73-622, to permit, on a site within an R2 zoning district, the proposed conversion (from a two-family home to a single-family home) and enlargement, which does not comply with the zoning requirements for floor area ratio (“FAR”), open space, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, and 23-47; and

WHEREAS, a public hearing was held on this application on June 24, 2014, after due notice by publication in *The City Record*, and then to decision on July 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of the application; and

WHEREAS, the subject site is located on the west side of East 27th Street, between Avenue K and Avenue L, within an R2 zoning district; and

WHEREAS, the site has 40 feet of frontage along East 27th Street and 4,000 sq. ft. of lot area; and

WHEREAS, the site is occupied by a two-family home with 2,719 sq. ft. of floor area (0.68 FAR); and

WHEREAS, the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant now seeks to convert the building to a single-family home and increase its floor area from 2,719 sq. ft. (0.68 FAR) to 4,131 sq. ft. (1.03 FAR); the maximum permitted floor area is 2,000 sq. ft. (0.5 FAR); and

WHEREAS, the applicant seeks to decrease the open space from 92 percent to 56.7 percent; the minimum required open space is 65 percent; and

WHEREAS, the applicant seeks to maintain an existing side yard width of 1’-7” and decrease the site’s existing side yard width of 9’- 8½” to 8’-0””; the requirement is two side yards with a minimum total width of 13’-0” and a minimum width of 5’-0” each; and

WHEREAS, the applicant also seeks to decrease its rear yard depth from 29’-9” to 20’-0””; a rear yard with a minimum depth of 30’-0” is required; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood and will not impair the future use or development of the surrounding area; and

WHEREAS, the applicant asserts that the proposed lot 1.03 FAR is consistent with the bulk in the surrounding area; and

WHEREAS, in support of this assertion, the applicant identified thirteen homes on the subject block and the blocks directly east and west with FARs ranging from 1.0 to 1.26; the applicant notes that three of the thirteen homes were enlarged pursuant to a special permit from the Board; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622, to permit, on a site within an R2 zoning district, the proposed conversion (from a two-family home to a single-family home) and enlargement, which does not comply with the zoning requirements for FAR, open space, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, and 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked “Received July 15, 2014”– (11) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 4,131 sq. ft. (1.03 FAR), a minimum open space of 56.7 percent, side yards with minimum widths of 1’-7” and 8’-0”, and a minimum rear yard depth of 20’-0”, as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 29, 2014.

324-13-BZ

APPLICANT – Sheldon Lobel, P.C., for Eli Rowe, owner.
SUBJECT – Application December 20, 2013 – Special Permit (§73-621) to allow the enlargement of a single-family residence, contrary to floor area and open space regulations (§23-141). R2 zoning district.

PREMISES AFFECTED – 78-32 138th Street, southwest corner of the intersection of 138th Street and 78th Road, Block 6588, Lot 25, Borough of Queens.

COMMUNITY BOARD #8Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated March 27, 2014, acting on DOB Application No. 420230422, reads in pertinent part:

Proposed FAR and open space ratio contrary to ZR 23-141; and

WHEREAS, this is an application under ZR §§ 73-621 and 73-03, to permit, within an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio (“FAR”) and open space ratio, contrary to ZR § 23-141; and

WHEREAS, a public hearing was held on this application on June 10, 2014, after due notice by publication in *The City Record*, with a continued hearing on July 15, 2014, and then to decision on July 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by former Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 8, Queens, recommends approval of this application; and

WHEREAS, Queens Borough President Melinda Katz recommends approval of this application; and

WHEREAS, the subject site is located on the southwest corner of the intersection of 78th Road and 138th Street, within an R2 zoning district; and

WHEREAS, the site has approximately 71 feet of frontage along 78th Road, approximately 102 feet of frontage along 138th Street, and 5,400 sq. ft. of lot area; and

WHEREAS, the site is occupied by a two-story, single-family home with approximately 2,527 sq. ft. of floor area (0.47 FAR); and

WHEREAS, the applicant proposes enlarge the building by filling in an existing double-height space, resulting in an increase in floor area from 2,527 sq. ft. (0.47 FAR) to 2,774 sq. ft. (0.51 FAR); the maximum permitted floor area is 2,700 sq. ft. (0.5 FAR); and

WHEREAS, in addition, the applicant seeks a decrease in open space ratio from 150 percent to 137 percent; the minimum required open space ratio is 150 percent; and

WHEREAS, the special permit authorized by ZR § 73-

621 is available to enlarge buildings containing residential uses that existed on December 15, 1961, or, in certain districts, on June 20, 1989; therefore, as a threshold matter, the applicant must establish that the subject building existed as of that date; and

WHEREAS, the applicant submitted a copy of the current certificate of occupancy for the building (No. 108877, dated April 20, 1956) to demonstrate that the building existed as a residence before December 15, 1961, which is the operative date within the subject R2 zoning district; and

WHEREAS, accordingly, the Board acknowledges that the special permit under ZR § 73-621 is available to enlarge the building; and

WHEREAS, ZR § 73-621 permits the enlargement of a residential building such as the subject single-family home if the following requirements are met: (1) the proposed open space ratio is at least 90 percent of the required open space; (2) in districts where there are lot coverage limits, the proposed lot coverage does not exceed 110 percent of the maximum permitted; and (3) the proposed FAR does not exceed 110 percent of the maximum permitted; and

WHEREAS, as to the open space, the applicant represents that the proposed reduction in the open space results in an open space that is at least 90 percent of the minimum required; and

WHEREAS, as to the FAR, the applicant represents that the proposed floor area does not exceed 110 percent of the maximum permitted; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed enlargement satisfies all of the relevant requirements of ZR § 73-621; and

WHEREAS, at hearing, the Board directed the applicant to clarify: (1) the extent to which the floor space in the attic is under a sloping roof; (2) the status of construction at the site; and (3) whether the open patio is included in floor area; and

WHEREAS, in response, the applicant submitted a plan clarifying the extent to which the floor space in the attic is under a sloping roof; and

WHEREAS, as to the status of construction, the applicant represents that as-of-right construction at the site is substantially completed; and

WHEREAS, as to the proposed open patio, the applicant provided a copy of a DOB determination, which classifies the space in question as excluded from floor area; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the

MINUTES

community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-621 and 73-03.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-621 and 73-03, to permit, within an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for FAR and open space ratio, contrary to ZR § 23-141; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked “Received April 15, 2014”– (11) sheets and “July 22, 2014”–(1) sheet; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area of to 2,774 sq. ft. (0.51 FAR) and a minimum open space ratio of 137, as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 29, 2014.

36-14-BZ CEQR #14-BSA-107M

APPLICANT – Rothkrug Rothkrug & Spector, LLP., for 201 Pearl LLLC., owner; Soulcycle Maiden Lane, LLC., lessee.

SUBJECT – Application February 27, 2014 – Special Permit (§73-36) to allow a physical culture establishment (*Soulcycle*) within a mixed use. C5-5(LM) zoning district. PREMISES AFFECTED – 101 Maiden Lane aka 201 Pearl Street, northeast corner of Maiden Lane and Pearl Street, Block 69, Lot 1, Borough of Manhattan.

COMMUNITY BOARD #1M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated February 25, 2014, acting on DOB Application No. 104430359, reads, in pertinent part:

Proposed physical culture establishment in a C5-5 (Lower Manhattan) zoning district is contrary to ZR 32-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C5-5 zoning district, within the Special Lower Manhattan District, the operation of a physical culture establishment (“PCE”) in portions of the first and second stories of a 28-story mixed residential and commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on July 15, 2014, after due notice by publication in the *City Record*, and then to decision on July 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the northwest corner of the intersection of Maiden Lane and Pearl Street, within a C5-5 zoning district, within the Special Lower Manhattan District; and

WHEREAS, the site is occupied by a 28-story mixed residential and commercial building; and

WHEREAS, the proposed PCE will occupy 380 sq. ft. of floor area on the first story and 5,803 sq. ft. of floor area on the second story, for a total PCE floor area of 6,183 sq. ft.; and

WHEREAS, the PCE will be operated as SoulCycle; and

WHEREAS, the hours of operation for the PCE will be Monday through Saturday, from 5:30 a.m. to 11:00 p.m. and Sunday, from 7:00 a.m. to 9:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the

MINUTES

community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action discussed in the CEQR Checklist, CEQR No. 14BSA107M dated February 3, 2014; and

Therefore it is Resolved, that the Board of Standards and Appeals issued a Type II determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site within a C5-5 zoning district, within the Special Lower Manhattan District, the operation of a PCE in portions of the first and second stories of a 28-story mixed residential and commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received May 8, 2014” Three (3) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on July 29, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT all sound attenuation measures proposed will be installed, maintained and reflected on the Board approved plans;

THAT the hours of operation for the PCE will be limited to Monday through Saturday, from 5:30 a.m. to 11:00 p.m. and Sunday, from 7:00 a.m. to 9:00 p.m.;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July

29, 2014.

CEQR #14-BSA-136K

APPLICANT – Kramer Levin Naftalis & Frankel LLP, for RK&G Associates LLC., owner; 388 Athletic Club, LLC, c/o Stah Real Estate Com., lessee.

SUBJECT – Application April 8, 2014 – Special Permit (§73-36) to allow a physical culture establishment (388 Athletic Club) to operate on the fifth and sixth floors of a new 53 Story commercial and residential building. C6-45 zoning district.

PREMISES AFFECTED – 388 Bridge Street, aka 141 Lawrence Street, Block 152, Lot 1001/06, Borough of Brooklyn.

COMMUNITY BOARD #2BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated March 20, 2014, acting on DOB Application No. 320903572, reads, in pertinent part:

Proposed physical culture establishment is not permitted as of right in a C6-4.5 district; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C6-4.5 zoning district within the Special Downtown Brooklyn District, the operation of a physical culture establishment (“PCE”) in portions of the cellar, first, fifth, and sixth stories of a 53-story mixed residential and commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on July 15, 2014, after due notice by publication in the *City Record*, and then to decision on July 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on a through lot within the block bounded by Fulton Street, Lawrence Street, Willoughby Street, and Bridge Street, within a C6-4.5 zoning district within the Special Downtown Brooklyn District; and

WHEREAS, the site has 67,788 sq. ft. of lot area, with frontages along Fulton Street, Lawrence Street, and Willoughby Street; and

WHEREAS, under construction at the site is a 53-story mixed residential and commercial building with 599,205 sq. ft. of floor area (8.8 FAR); and

WHEREAS, the proposed PCE will occupy 232 sq. ft. of floor space in the cellar, 927 sq. ft. of floor area on the first

MINUTES

story, 6,203 sq. ft. of floor area on the fifth story, and 7,282 sq. ft. of floor area on the sixth story; and

WHEREAS, the PCE will be operated as 388 Athletic Club; and

WHEREAS, the hours of operation for the PCE will be seven days per week, from 5:30 a.m. to 11:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, at hearing, the Board requested clarification regarding: (1) whether the terrace on the sixth story would be accessed by patrons of the PCE; (2) whether the fire alarm would be connected to a central station; and (3) whether the PCE complies with the applicable provisions of the ADA; and

WHEREAS, in response, the applicant submitted amended plans noting that: (1) the sixth-story terrace would not be accessed by patrons of the PCE; (2) the fire alarm would be connected to a central station; and (3) the PCE complies with the applicable provisions of the ADA; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action discussed in the CEQR Checklist No. 14-BSA-136K dated May 19, 2014; and

Therefore it is Resolved, that the Board of Standards and Appeals issued a Type II determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site within a C6-4.5 zoning district within the Special Downtown Brooklyn District, the operation of a physical culture establishment (“PCE”) in portions of the cellar, first, fifth, and sixth stories of a 53-story mixed residential and commercial building, contrary to ZR § 32-10; *on condition* that all work

shall substantially conform to drawings filed with this application marked “Received July 18, 2014,” six (6) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on July 29, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT all sound attenuation measures proposed will be installed, maintained and reflected on the Board approved plans;

THAT the hours of operation for the PCE will be limited to seven days per week, from 5:30 a.m. to 11:00 p.m.;

THAT accessibility compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 29, 2014.

133-14-BZ

APPLICANT – Department of Housing Preservation & Development.

SUBJECT – Application June 16, 2014 – Special Permit (§64-92) to waive yard regulations for the replacement of homes damaged/destroyed by Hurricane Sandy, on properties which are registered in the NYC Build it Back Program.

PREMISES AFFECTED – 175 Father Capodanno Boulevard, Block 3122, Lot 118, Borough of Staten Island.

COMMUNITY BOARD #2SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to permit, on a site within an R3-1

MINUTES

zoning district, the construction of a single-family home, which does not comply with the zoning requirements for front yards, contrary to ZR § 23-45; and

WHEREAS, a public hearing was held on this application on July 22, 2014, after due notice by publication in *The City Record*, and then to decision on July 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Staten Island, recommends approval of this application; and

WHEREAS, this application is brought by the Department of Housing Preservation and Development (“HPD”) on behalf of the owner and in connection with the Mayor’s Office of Housing Recovery Operations and the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in order to accept the application from HPD on behalf of the owner, the Board adopts a waiver of 2 RCNY § 1-09.4 (Owner’s Authorization); and

WHEREAS, the subject site is located on the west side of Father Capodanno Boulevard, between Doty Avenue and Alex Circle, within an R3-1 zoning district; and

WHEREAS, the site has 25 feet of frontage along Father Capodanno Boulevard and 2,025 sq. ft. of lot area; the site is also within the widening line for Doty Avenue, making it a corner lot with two required front yards; and

WHEREAS, the site is occupied by a flood-damaged one-story, single-family home with 875 sq. ft. of floor area (0.43 FAR); and

WHEREAS, the applicant proposes to demolish the existing home and construct a two-story, single-family home with 1,082 sq. ft. of floor area (0.53 FAR); and

WHEREAS, the applicant states that the proposed building complies in all respects with the bulk regulations of the subject R3-1 district except that a front yard depth of 0’-6” is proposed along Doty Avenue (a minimum front yard depth of 10’-0” is required, per ZR § 23-45); and

WHEREAS, the applicant notes that the proposed front yard depth of 0’-6” along Doty Avenue is actually a deeper front yard than is currently provided at the site; due to the location of the street widening line along Doty Avenue, the existing building provides no front yard along Doty Avenue; and

WHEREAS, pursuant to ZR § 64-92, in order to allow for alterations, developments, and enlargements in accordance with flood-resistant construction standards, the Board may permit modifications of ZR §§ 64-30 and 64-40 (Special Bulk Regulations for Buildings Existing on October 28, 2012), 64-60 (Design Requirements), 64-70 (Special Regulations for Non-conforming Uses and Non-complying Buildings), as well as all other applicable bulk regulations except floor area ratio; and

WHEREAS, in order to grant a special permit pursuant to ZR § 64-92, the Board must make the following findings:

(a) that there would be a practical difficulty in complying

with flood-resistant construction standards without such modifications, and that such modifications are the minimum necessary to allow for an appropriate building in compliance with flood-resistant construction standards; (b) that any modification of bulk regulations related to height is limited to no more than ten feet in height or ten percent of the permitted height as measure from the flood-resistant construction elevation, whichever is less; and (c) the proposed modifications will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood’s potential development in accordance with flood-resistant construction standards; and

WHEREAS, the Board may also prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant states that there would be a practical difficulty complying with the flood-resistant construction standards without the modification of the front yard requirement, in accordance with ZR § 64-92(a); and

WHEREAS, specifically, the applicant states that the proposed building is required to have exterior walls that are 12 inches thick, which diminishes the amount of interior floor space; thus, the proposed yard waiver allows the construction of a flood-resistant building with a viable building footprint to compensate for the loss of interior space and comply with all yard regulations except the front yard; and

WHEREAS, the Board agrees that there would be a practical difficulty complying with the flood-resistant construction standards without the requested front yard waiver; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the Board finds that the ZR § 64-92(b) finding is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood’s potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the surrounding neighborhood is characterized by one- and two-story, single- and two-family homes; as such, the applicant states that the proposal is entirely consistent with the existing context; and

WHEREAS, the applicant also contends that the proposal reflects a smaller footprint, wider side yards, and a deeper front yard along Father Capodanno Boulevard than the existing building; therefore, the proposal will provide significantly more open space on the site than is currently provided; and

WHEREAS, in addition, as noted above, the proposed front yard waiver along Doty Avenue is an improvement

MINUTES

upon the existing condition in which no front yard is provided and the building protrudes into the street widening line for Doty Avenue; and

WHEREAS, the Board finds that the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed enlargement satisfies all of the relevant requirements of ZR § 64-92; and

Therefore it is Resolved, that the Board of Standards and Appeals waives the Rules of Practice and Procedure, issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92, to permit, on a site within an R3-1 zoning district, the construction of a single-family home, which does not comply with the zoning requirements for front yards, contrary to ZR § 23-45; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received June 16, 2014"-(3) sheets and "July 11, 2014"-(1) sheet; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 1,082 sq. ft. (0.53 FAR) and a minimum front yard depth of 0'-6" along Doty Avenue, as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT this approval is limited to the Build it Back program;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 29, 2014.

WHEREAS, this application is brought by the Department of Housing Preservation and Development ("HPD") on behalf of the owner and in connection with the Mayor's Office of Housing Recovery Operations and the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in order to accept the application from HPD on behalf of the owner, the Board adopts a waiver of 2 RCNY § 1-09.4 (Owner's Authorization); and

WHEREAS, the subject site is located on the west side of north side of Doty Avenue, between Father Capodanno Boulevard and Alex Circle, within an R3-1 zoning district; and

WHEREAS, the site has 27 feet of frontage along Doty Avenue and 2,187 sq. ft. of lot area; and

WHEREAS, the site is occupied by a flood-damaged one-story, single-family home with 590 sq. ft. of floor area (0.27 FAR); and

WHEREAS, the applicant proposes to demolish the existing home and construct a two-story, single-family home with 1,082 sq. ft. of floor area (0.49 FAR); and

WHEREAS, the applicant states that the proposed building complies in all respects with the bulk regulations of the subject R3-1 district except that a rear yard depth of 26'-

MINUTES

5” is proposed (a minimum rear yard depth of 30’-0” is required, per ZR § 23-47); and

WHEREAS, pursuant to ZR § 64-92, in order to allow for alterations, developments, and enlargements in accordance with flood-resistant construction standards, the Board may permit modifications of ZR §§ 64-30 and 64-40 (Special Bulk Regulations for Buildings Existing on October 28, 2012), 64-60 (Design Requirements), 64-70 (Special Regulations for Non-conforming Uses and Non-complying Buildings), as well as all other applicable bulk regulations except floor area ratio; and

WHEREAS, in order to grant a special permit pursuant to ZR § 64-92, the Board must make the following findings: (a) that there would be a practical difficulty in complying with flood-resistant construction standards without such modifications, and that such modifications are the minimum necessary to allow for an appropriate building in compliance with flood-resistant construction standards; (b) that any modification of bulk regulations related to height is limited to no more than ten feet in height or ten percent of the permitted height as measure from the flood-resistant construction elevation, whichever is less; and (c) the proposed modifications will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood’s potential development in accordance with flood-resistant construction standards; and

WHEREAS, the Board may also prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant states that there would be a practical difficulty complying with the flood-resistant construction standards without the modification of the front yard requirement, in accordance with ZR § 64-92(a); and

WHEREAS, specifically, the applicant states that the proposed building is required to have exterior walls that are 12 inches thick, which diminishes the amount of interior floor space; thus, the proposed yard waiver allows the construction of a flood-resistant building with a viable building footprint to compensate for the loss of interior space and comply with all yard regulations except the rear yard; and

WHEREAS, the Board agrees that there would be a practical difficulty complying with the flood-resistant construction standards without the requested rear yard waiver; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the Board finds that the ZR § 64-92(b) finding is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the

neighborhood’s potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the surrounding neighborhood is characterized by one- and two-story, single- and two-family homes; as such, the applicant states that the proposal is consistent with the existing context; and

WHEREAS, the applicant also contends that the proposal reflects a smaller footprint, a wide side yard along the northern lot line, and a deeper front yard than the existing building; therefore, the proposal will provide significantly more open space on the site than is currently provided; and

WHEREAS, the Board finds that the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood’s potential development in accordance with flood-resistant construction standards; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed enlargement satisfies all of the relevant requirements of ZR § 64-92; and

Therefore it is Resolved, that the Board of Standards and Appeals waives the Rules of Practice and Procedure, issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92, to permit, on a site within an R3-1 zoning district, the construction of a single-family home, which does not comply with the zoning requirements for rear yards, contrary to ZR § 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked “Received June 16, 2014”-(3) sheets and “July 11, 2014”-(1) sheet; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 1,082 sq. ft. (0.49 FAR) and a minimum rear yard depth of 26’-5” along Doty Avenue, as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT this approval is limited to the Build it Back program;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 29, 2014.

APPLICANT – Department of Housing Preservation and Development.

SUBJECT – Application June 16, 2014 – Waiver of Section 36, Article 3 of the General City Law, property is not fronting a mapped street. R3-1 Zoning District.

PREMISES AFFECTED – 19 Sunnymeade Village, Block 3122, Lot 174, Borough of Staten Island.

COMMUNITY BOARD #2SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application to permit the construction of a single-family home that does not front a mapped street, contrary to General City Law § 36; and

WHEREAS, a public hearing was held on this application on July 22, 2014 after due notice by publication in *The City Record*, and then to decision on July 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Staten Island, recommends approval of this application; and

WHEREAS, this application is applicant is brought by the Department of Housing Preservation and Development (“HPD”) on behalf of the owner and in connection with the Mayor’s Office of Housing Recovery Operations and the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in order to accept the application from HPD on behalf of the owner, the Board adopts a waiver of 2 RCNY § 1-09.4 (Owner’s Authorization); and

WHEREAS, the subject site is located along an access road within Sunnymeade Village, within an R3-1 zoning district; and

WHEREAS, the site has 31 feet of frontage along an unmapped right-of-way within Sunnymeade Village and 2,542 sq. ft. of lot area; and

WHEREAS, the site is occupied by a flood-damaged one-story, single-family home with 1,120 sq. ft. of floor area (0.22 FAR); and

WHEREAS, the applicant proposes to build a single-family home with 1,309 sq. ft. of floor area (0.26 FAR); and

WHEREAS, because the site is located along an unmapped access road, the applicant request a waiver of General City Law § 36; and

WHEREAS, by letter dated July 21, 2014, Fire Department states that it has reviewed the proposal and has no objections, subject to the following conditions: (1) the entire building will be fully-sprinklered in conformity with

provisions of Chapter 9 of the 2008 Building Code; (2) interconnected smoke alarms will be installed in accordance with Section 907.2.10 of the 2008 Building Code; (3) the height of the building will not exceed 35 feet above the grade plane as defined by Section 502.1 of the 2008 Building Code; and (4) the building will be a “like-for-like replacement” that does not increase the intensity of the use; and

WHEREAS, the Board notes that, at hearing, the applicant agreed to conditions set forth by the Fire Department and later submitted amended plans reflecting the proposal’s compliance with the conditions; and

WHEREAS, based on the record, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved, the appeal is granted by the power vested in the Board by Section 36 of the General City Law and on condition that construction shall substantially conform to the drawing filed with the application marked “July 28, 2014”-(1) sheet, and on further condition:

THAT the approved plan shall be considered approved only for the portions related to the specific relief granted;

THAT the entire building will be fully-sprinklered in conformity with provisions of Chapter 9 of the 2008 Building Code;

THAT interconnected smoke alarms will be installed in accordance with Section 907.2.10 of the 2008 Building Code;

THAT the height of the building will not exceed 35 feet above the grade plane as defined by Section 502.1 of the 2008 Building Code;

THAT changes to the use or occupancy of the building will be subject to Board review and approval; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 29, 2014.

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure a and special permit, pursuant to ZR § 64-92, to permit, on a site within an R3-1 zoning district, the construction of a single-family home, which does not comply with the zoning requirements for side yards, contrary to ZR §§ 23-461, 54-313, 54-41, and 64-723; and

WHEREAS, a public hearing was held on this application on July 22, 2014, after due notice by publication in *The City Record*, and then to decision on July 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Staten Island, recommends approval of this application; and

WHEREAS, this application is brought by the Department of Housing Preservation and Development (“HPD”) on behalf of the owner and in connection with the Mayor’s Office of Housing Recovery Operations and the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in order to accept the application from HPD on behalf of the owner, the Board adopts a waiver of 2 RCNY § 1-09.4 (Owner’s Authorization); and

WHEREAS, the subject site is located on the south side of Mapleton Avenue, between Grimsby Street and Freeborn Street, within an R3-1 zoning district; and

WHEREAS, the site has 20 feet of frontage along Mapleton Avenue and 2,000 sq. ft. of lot area; and

WHEREAS, the site is occupied by a flood-damaged one-story, single-family home with 720 sq. ft. of floor area (0.36 FAR); the existing home has the following non-compliances: a front yard depth of 6’-10” (a minimum front yard depth of 15’-0” is required, per ZR § 23-45); and side yards with widths of 4’-0” and 3’-1” (the requirement is two side yards with a minimum total width of 13’-0” and a minimum width of 5’-0” each, per ZR § 23-461); and

WHEREAS, the applicant proposes to demolish the existing building and construct a two-story, single-family home with 1,082 sq. ft. of floor area (0.54 FAR); and

WHEREAS, the applicant notes that pursuant to ZR §§ 54-313 (Single- or Two-family Residences with Non-complying Front Yards or Side Yards), 54-41 (Permitted Reconstruction) and 64-723 (Non-complying Single- and Two-family Residences), the existing non-complying yards may be maintained in a reconstruction and vertically enlarged; and

WHEREAS, thus, the applicant states that a second story with the existing front and side yards is permitted at the site; however, the applicant seeks to reduce the width of the eastern side yard from 4’-1” to 3’-0”; accordingly, the applicant requests a special permit to allow this 1’-1” reduction; and

WHEREAS, pursuant to ZR § 64-92, in order to allow for alterations, developments, and enlargements in accordance with flood-resistant construction standards, the Board may permit modifications of ZR §§ 64-30 and 64-40 (Special Bulk Regulations for Buildings Existing on October 28, 2012), 64-60 (Design Requirements), 64-70 (Special Regulations for Non-conforming Uses and Non-complying Buildings), as well as all other applicable bulk regulations except floor area ratio; and

WHEREAS, in order to grant a special permit pursuant to ZR § 64-92, the Board must make the following findings:

(a) that there would be a practical difficulty in complying with flood-resistant construction standards without such modifications, and that such modifications are the minimum necessary to allow for an appropriate building in compliance with flood-resistant construction standards; (b) that any modification of bulk regulations related to height is limited to no more than ten feet in height or ten percent of the permitted height as measure from the flood-resistant construction elevation, whichever is less; and (c) the proposed modifications will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood’s potential development in accordance with flood-resistant construction standards; and

WHEREAS, the Board may also prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant states that there would be a practical difficulty complying with the flood-resistant construction standards without the modification of the front yard requirement, in accordance with ZR § 64-92(a); and

WHEREAS, specifically, the applicant states that the proposed building is required to have exterior walls that are 12 inches thick, which diminishes the amount of interior floor space; thus, the proposed yard waiver allows the construction of a flood-resistant building with a viable building footprint to compensate for the loss of interior space and comply with all yard regulations except the rear yard; and

WHEREAS, the Board agrees that there would be a practical difficulty complying with the flood-resistant construction standards without the requested side yard waiver; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the Board finds that the ZR § 64-92(b) finding is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood’s potential development in accordance with flood-resistant construction standards; and

MINUTES

WHEREAS, the applicant states that the surrounding neighborhood is characterized by one- and two-story, single- and two-family homes; as such, the applicant states that the proposal is consistent with the existing context; and

WHEREAS, the applicant also contends that the proposal reflects a smaller footprint and a deeper front yard than the existing building, and it maintains the existing western side yard width; therefore, the proposal will provide significantly more open space on the site than is currently provided; further, despite the 1'-1" reduction in the eastern side yard width, a distance of 8'-1" will be maintained between the proposed building and the building directly east; and

WHEREAS, the Board finds that the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed enlargement satisfies all of the relevant requirements of ZR § 64-92; and

Therefore it is Resolved, that the Board of Standards and Appeals waives the Rules of Practice and Procedure, issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92, to permit, on a site within an R3-1 zoning district, the construction of a single-family home, which does not comply with the zoning requirements for side yards, contrary to ZR §§ 23-461, 54-41 and 64-72; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received June 16, 2014"-(3) sheets and "July 11, 2014"-(1) sheet and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 1,082 sq. ft. (0.54 FAR) and side yard with minimum widths of 3'-0" and 3'-1", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT this approval is limited to the Build it Back program;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July

29, 2014.

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to permit, on a site within an R3-1 zoning district, the construction of a single-family home, which does not comply with the zoning requirements for vertical extension of non-complying side yards, contrary to ZR §§ 23-461, 54-313 and 54-41; and

WHEREAS, a public hearing was held on this application on July 22, 2014, after due notice by publication in *The City Record*, and then to decision on July 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Staten Island, recommends approval of this application; and

WHEREAS, this application is brought by the Department of Housing Preservation and Development ("HPD") on behalf of the owner and in connection with the Mayor's Office of Housing Recovery Operations and the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in order to accept the application from HPD on behalf of the owner, the Board adopts a waiver of 2 RCNY § 1-09.4 (Owner's Authorization); and

WHEREAS, the subject site is located on the east side of Kiswick Street, between Bedford Avenue and Midland Avenue, within an R3-1 zoning district; and

WHEREAS, the site has 20 feet of frontage along Kiswick Street and 2,000 sq. ft. of lot area; and

WHEREAS, the site is occupied by a flood-damaged one-story, single-family home with 1,030 sq. ft. of floor area (0.52 FAR); the existing home has the following non-compliances: a front yard depth of 5'-0" (a minimum front yard depth of 15'-0" is required, per ZR § 23-45); and side yards with widths of 3'-4"(northern side yard) and 1'-2"

MINUTES

(southern side yard) (the requirement is two side yards with a minimum total width of 13'-0" and a minimum width of 5'-0" each, per ZR § 23-461); and

WHEREAS, the applicant proposes to demolish the existing building and construct a two-story, single-family home with 1,082 sq. ft. of floor area (0.54 FAR); the new building will provide a front yard depth of 15'-0", a rear yard depth of 40'-0", a northern side yard width of 3'-2", and southern side yard width of 3'-3"; and

WHEREAS, the applicant represents that the building directly north of the proposed building is built to the both sites' common side lot line; as such, the building directly north of the site is located 3'-2" from the proposed building; in addition, the building on the adjoining zoning lot to the south of the site is located 6'-6" from the proposed building; and

WHEREAS, the applicant notes that pursuant to ZR §§ 54-313 (Single- or Two-family Residences with Non-complying Front Yards or Side Yards), 54-41 (Permitted Reconstruction) and 64-723 (Non-complying Single- and Two-family Residences), the existing non-complying yards may be maintained in a reconstruction and vertically enlarged, provided that, per ZR § 54-313, a minimum distance of 8'-0" is maintained between the non-complying side yards and the building on the adjoining zoning lot; and

WHEREAS, thus, the applicant the applicant seeks a special permit to allow the reduction of the width of the northern side yard from 3'-4" to 3'-2", and construction of the new building with a distance of less than 8'-0" from the buildings directly north and south of the site; and

WHEREAS, pursuant to ZR § 64-92, in order to allow for alterations, developments, and enlargements in accordance with flood-resistant construction standards, the Board may permit modifications of ZR §§ 64-30 and 64-40 (Special Bulk Regulations for Buildings Existing on October 28, 2012), 64-60 (Design Requirements), 64-70 (Special Regulations for Non-conforming Uses and Non-complying Buildings), as well as all other applicable bulk regulations except floor area ratio; and

WHEREAS, in order to grant a special permit pursuant to ZR § 64-92, the Board must make the following findings: (a) that there would be a practical difficulty in complying with flood-resistant construction standards without such modifications, and that such modifications are the minimum necessary to allow for an appropriate building in compliance with flood-resistant construction standards; (b) that any modification of bulk regulations related to height is limited to no more than ten feet in height or ten percent of the permitted height as measure from the flood-resistant construction elevation, whichever is less; and (c) the proposed modifications will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the Board may also prescribe appropriate

conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant states that there would be a practical difficulty complying with the flood-resistant construction standards without the modification of the front yard requirement, in accordance with ZR § 64-92(a); and

WHEREAS, specifically, the applicant states that the proposed building is required to have exterior walls that are 12 inches thick, which diminishes the amount of interior floor space; thus, the proposed side yard waivers allow the construction of a flood-resistant building with a viable building footprint to compensate for the loss of interior space; and

WHEREAS, the Board agrees that there would be a practical difficulty complying with the flood-resistant construction standards without the requested side yard waivers; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the Board finds that the ZR § 64-92(b) finding is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the surrounding neighborhood is characterized by one- and two-story, single- and two-family homes; as such, the applicant states that the proposal is consistent with the existing context; and

WHEREAS, the applicant also contends that the proposal reflects a smaller footprint, a rear yard depth of 40'-0" where a depth of only 30'-0" is required, and increase in front yard from a non-complying 5'-0" to a complying 15'-0"; in addition, it increases one side yard width by 2'-1" and decreases the other side yard width by only 0'-2"; and

WHEREAS, the Board finds that the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed enlargement satisfies all of the relevant requirements of ZR § 64-92; and

Therefore it is Resolved, that the Board of Standards and Appeals waives the Rules of Practice and Procedure, issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92, to permit, on a site within an R3-1 zoning district, the

MINUTES

construction of a single-family home, which does not comply with the zoning requirements for vertical extension of non-complying side yards, contrary to ZR §§ 23-461, 54-313 and 54-41; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked “Received June 16, 2014”-(1) sheet and “July 11, 2014”-(2) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area of 1,082 sq. ft. (0.54 FAR) and side yard with minimum widths of 3’-2” and 3’-3”, as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT this approval is limited to the Build it Back program;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 29, 2014.

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to permit, on a site within an R3-1 zoning district, the construction of a single-family home, which does not comply with the zoning requirements for vertical extension of non-complying side yards, contrary to ZR §§ 23-461, 54-313 and 54-41; and

WHEREAS, a public hearing was held on this

application on July 22, 2014, after due notice by publication in *The City Record*, and then to decision on July 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Staten Island, recommends approval of this application; and

WHEREAS, a member of the surrounding community testified in opposition to application, citing concerns about construction operations adversely affecting her property; and

WHEREAS, this application is brought by the Department of Housing Preservation and Development (“HPD”) on behalf of the owner and in connection with the Mayor’s Office of Housing Recovery Operations and the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in order to accept the application from HPD on behalf of the owner, the Board adopts a waiver of 2 RCNY § 1-09.4 (Owner’s Authorization); and

WHEREAS, the subject site is located on the west side of Olympia Boulevard, between Midland Avenue and Lincoln Avenue, within an R3-1 zoning district; and

WHEREAS, the site has 20 feet of frontage along Olympia Boulevard and 2,000 sq. ft. of lot area; and

WHEREAS, the site is occupied by a flood-damaged one-story, single-family home with 1,214 sq. ft. of floor area (0.61 FAR) (a maximum of 1,200 sq. ft. of floor area (0.60 FAR) is permitted, per ZR § 23-141; in addition to FAR, the existing home has the following non-compliances: a front yard depth of 1’-6” (a minimum front yard depth of 15’-0” is required, per ZR § 23-45); side yards with widths of 1’-11” (southern side yard) and 1’-0” (northern side yard) (the requirement is two side yards with a minimum total width of 13’-0” and a minimum width of 5’-0” each, per ZR § 23-461); and a rear yard depth of 2’-4” (a minimum rear yard depth of 30’-0” is required); and

WHEREAS, the applicant proposes to demolish the existing building and construct a two-story, single-family home with 1,082 sq. ft. of floor area (0.54 FAR); the new building will provide a front yard depth of 15’-0”, a rear yard depth of 45’-0”, an southern side yard width of 3’-0”, and northern side yard width of 3’-5”; and

WHEREAS, the applicant represents that the building south of the proposed building is built to the both sites’ common side lot line; as such, the building directly west of the site is located 1’-11” from the existing building and will be located 3’-0” from the proposed building; and

WHEREAS, the applicant notes that pursuant to ZR §§ 54-313 (Single- or Two-family Residences with Non-complying Front Yards or Side Yards), 54-41 (Permitted Reconstruction) and 64-723 (Non-complying Single- and Two-family Residences), the existing non-complying yards may be maintained in a reconstruction and vertically enlarged, provided that, per ZR § 54-313, a minimum distance of 8’-0” is maintained between the non-complying side yards and the building on the adjoining zoning lot; and

MINUTES

WHEREAS, thus, the applicant the applicant seeks a special permit to allow the construction of the new building with a distance of less than 8'-0" from the building directly west of the site; and

WHEREAS, pursuant to ZR § 64-92, in order to allow for alterations, developments, and enlargements in accordance with flood-resistant construction standards, the Board may permit modifications of ZR §§ 64-30 and 64-40 (Special Bulk Regulations for Buildings Existing on October 28, 2012), 64-60 (Design Requirements), 64-70 (Special Regulations for Non-conforming Uses and Non-complying Buildings), as well as all other applicable bulk regulations except floor area ratio; and

WHEREAS, in order to grant a special permit pursuant to ZR § 64-92, the Board must make the following findings: (a) that there would be a practical difficulty in complying with flood-resistant construction standards without such modifications, and that such modifications are the minimum necessary to allow for an appropriate building in compliance with flood-resistant construction standards; (b) that any modification of bulk regulations related to height is limited to no more than ten feet in height or ten percent of the permitted height as measure from the flood-resistant construction elevation, whichever is less; and (c) the proposed modifications will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the Board may also prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant states that there would be a practical difficulty complying with the flood-resistant construction standards without the modification of the front yard requirement, in accordance with ZR § 64-92(a); and

WHEREAS, specifically, the applicant states that the proposed building is required to have exterior walls that are 12 inches thick, which diminishes the amount of interior floor space; thus, the proposed side yard waiver allows the construction of a flood-resistant building with a viable building footprint to compensate for the loss of interior space; and

WHEREAS, the Board agrees that there would be a practical difficulty complying with the flood-resistant construction standards without requested side yard waivers; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the Board finds that the ZR § 64-92(b) finding is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development

of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the surrounding neighborhood is characterized by one- and two-story, single- and two-family homes; as such, the applicant states that the proposal is consistent with the existing context; and

WHEREAS, the applicant also contends that the proposal reflects a smaller footprint, a rear yard depth of 45'-0" where a depth of only 30'-0" is required, and increase in front yard from a non-complying 2'-4" to a complying 15'-0"; in addition, it increases the widths of both side yards by 1'-1" and 2'-5", for the southern and northern side yards, respectively; the applicant also notes that the proposed building will located 8'-2" from the building directly north of the site; and

WHEREAS, the Board finds that the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed enlargement satisfies all of the relevant requirements of ZR § 64-92; and

Therefore it is Resolved, that the Board of Standards and Appeals waives the Rules of Practice and Procedure, issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92, to permit, on a site within an R3-1 zoning district, the construction of a single-family home, which does not comply with the zoning requirements for vertical extension of non-complying side yards, contrary to ZR §§ 23-461, 54-313 and 54-41; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received June 16, 2014"-(3) sheets and "July 11, 2014"-(1) sheet; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 1,082 sq. ft. (0.54 FAR) and side yard with minimum widths of 3'-0" and 3'-5", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

THAT this approval is limited to the Build it Back program;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the

MINUTES

Administrative Code, and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 29, 2014.

139-14-BZ

APPLICANT – Department of Housing Preservation & Development.

SUBJECT – Application June 16, 2014 – Special Permit (§64-92) to waive yard regulations for the replacement of homes damaged/destroyed by Hurricane Sandy, on properties which are registered in the NYC Build it Back Program. R3-1 Zoning District.

PREMISES AFFECTED –555 Lincoln Avenue, Block 3804, Lot 8, Borough of Staten Island.

COMMUNITY BOARD #2SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to permit, on a site within an R3-1 zoning district, the construction of a single-family home, which does not comply with the zoning requirements for vertical extension of non-complying side yards, contrary to ZR §§ 23-461, 54-313 and 54-41; and

WHEREAS, a public hearing was held on this application on July 22, 2014, after due notice by publication in *The City Record*, and then to decision on July 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Staten Island, recommends approval of this application; and

WHEREAS, a member of the surrounding community testified in opposition to application, citing concerns about construction operations adversely affecting her property; and

WHEREAS, this application is brought by the Department of Housing Preservation and Development (“HPD”) on behalf of the owner and in connection with the Mayor’s Office of Housing Recovery Operations and the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in order to accept the application from HPD on behalf of the owner, the Board adopts a waiver of 2 RCNY § 1-09.4 (Owner’s Authorization); and

WHEREAS, the subject site is located on the west side of Olympia Boulevard, between Midland Avenue and Lincoln Avenue, within an R3-1 zoning district; and

WHEREAS, the site has 20 feet of frontage along

Olympia Boulevard and 2,000 sq. ft. of lot area; and

WHEREAS, the site is occupied by a flood-damaged one-story, single-family home with 1,214 sq. ft. of floor area (0.61 FAR) (a maximum of 1,200 sq. ft. of floor area (0.60 FAR) is permitted, per ZR § 23-141; in addition to FAR, the existing home has the following non-compliances: a front yard depth of 1’-6” (a minimum front yard depth of 15’-0” is required, per ZR § 23-45); side yards with widths of 1’-11” (southern side yard) and 1’-0” (northern side yard) (the requirement is two side yards with a minimum total width of 13’-0” and a minimum width of 5’-0” each, per ZR § 23-461); and a rear yard depth of 2’-4” (a minimum rear yard depth of 30’-0” is required); and

WHEREAS, the applicant proposes to demolish the existing building and construct a two-story, single-family home with 1,082 sq. ft. of floor area (0.54 FAR); the new building will provide a front yard depth of 15’-0”, a rear yard depth of 45’-0”, an southern side yard width of 3’-0”, and northern side yard width of 3’-5”; and

WHEREAS, the applicant represents that the building south of the proposed building is built to the both sites’ common side lot line; as such, the building directly west of the site is located 1’-11” from the existing building and will be located 3’-0” from the proposed building; and

WHEREAS, the applicant notes that pursuant to ZR §§ 54-313 (Single- or Two-family Residences with Non-complying Front Yards or Side Yards), 54-41 (Permitted Reconstruction) and 64-723 (Non-complying Single- and Two-family Residences), the existing non-complying yards may be maintained in a reconstruction and vertically enlarged, provided that, per ZR § 54-313, a minimum distance of 8’-0” is maintained between the non-complying side yards and the building on the adjoining zoning lot; and

WHEREAS, thus, the applicant the applicant seeks a special permit to allow the construction of the new building with a distance of less than 8’-0” from the building directly west of the site; and

WHEREAS, pursuant to ZR § 64-92, in order to allow for alterations, developments, and enlargements in accordance with flood-resistant construction standards, the Board may permit modifications of ZR §§ 64-30 and 64-40 (Special Bulk Regulations for Buildings Existing on October 28, 2012), 64-60 (Design Requirements), 64-70 (Special Regulations for Non-conforming Uses and Non-complying Buildings), as well as all other applicable bulk regulations except floor area ratio; and

WHEREAS, in order to grant a special permit pursuant to ZR § 64-92, the Board must make the following findings:

(a) that there would be a practical difficulty in complying with flood-resistant construction standards without such modifications, and that such modifications are the minimum necessary to allow for an appropriate building in compliance with flood-resistant construction standards; (b) that any modification of bulk regulations related to height is limited to no more than ten feet in height or ten percent of the permitted height as measure from the flood-resistant construction elevation, whichever is less; and (c) the

MINUTES

proposed modifications will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the Board may also prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant states that there would be a practical difficulty complying with the flood-resistant construction standards without the modification of the front yard requirement, in accordance with ZR § 64-92(a); and

WHEREAS, specifically, the applicant states that the proposed building is required to have exterior walls that are 12 inches thick, which diminishes the amount of interior floor space; thus, the proposed side yard waiver allows the construction of a flood-resistant building with a viable building footprint to compensate for the loss of interior space; and

WHEREAS, the Board agrees that there would be a practical difficulty complying with the flood-resistant construction standards without requested side yard waivers; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the Board finds that the ZR § 64-92(b) finding is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the surrounding neighborhood is characterized by one- and two-story, single- and two-family homes; as such, the applicant states that the proposal is consistent with the existing context; and

WHEREAS, the applicant also contends that the proposal reflects a smaller footprint, a rear yard depth of 45'-0" where a depth of only 30'-0" is required, and increase in front yard from a non-complying 2'-4" to a complying 15'-0"; in addition, it increases the widths of both side yards by 1'-1" and 2'-5", for the southern and northern side yards, respectively; the applicant also notes that the proposed building will be located 8'-2" from the building directly north of the site; and

WHEREAS, the Board finds that the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, accordingly, the Board has reviewed the

proposal and determined that the proposed enlargement satisfies all of the relevant requirements of ZR § 64-92; and

Therefore it is Resolved, that the Board of Standards and Appeals waives the Rules of Practice and Procedure, issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92, to permit, on a site within an R3-1 zoning district, the construction of a single-family home, which does not comply with the zoning requirements for vertical extension of non-complying side yards, contrary to ZR §§ 23-461, 54-313 and 54-41; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received June 16, 2014"-(3) sheets and "July 11, 2014"-(1) sheet; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 1,082 sq. ft. (0.54 FAR) and side yard with minimum widths of 3'-0" and 3'-5", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; no approval has been given by the Board as to the use and layout of the cellar;

*CORRECTION

The resolution adopted on July 22, 2014, under Calendar No. 775-85-BZ and printed in Volume 99, Bulletin No. 30, is hereby corrected to read as follows:

775-85-BZ

APPLICANT – Sheldon Lobel, P.C., for Ivy Cross Island Plaza, owner.

SUBJECT – Application December 18, 2013 – Extension of Term of a previously approved Variance (§72-21) which permitted the construction of a three-story office building, contrary to permitted height and use regulations, which expired on February 24, 2012; Amendment to modify the parking layout, eliminate buffering and eliminate the term; Waiver of the Rules. C1-3/R2 and R2 zoning district.

PREMISES AFFECTED – 133-33 Brookville Boulevard, triangular lot with frontages on Brookville Boulevard, Merrick Boulevard, 133rd Avenue and 243rd Street, Block 12980, Lot 1, Borough of Queens.

COMMUNITY BOARD #13Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, and an amendment to permit: (1) the continued operation, without a term, of an office building (Use Group 6) on a site partially within R2 zoning district and partially within an R2 (C1-3) zoning district; (2) certain site modifications, including the elimination of buffering; and (3) the elimination of the hours of operation restriction; and

WHEREAS, a public hearing was held on this application on May 20, 2014, after due notice by publication in *The City Record*, with a continued hearing on June 17, 2014, and then to decision on July 22, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 13, Queens, recommends approval of this application; and

WHEREAS, the subject site is an irregularly-shaped lot with frontages along 133rd Avenue (248 feet), 243rd Street (51 feet), Brookville Boulevard (590 feet) and Merrick Boulevard (780 feet); and

WHEREAS, the site is located partially within R2 zoning district and partially within an R2 (C1-3) zoning district; historically, the R2 (C1-3) portion of the site was zoned R2 (C2-1); and

WHEREAS, the site has approximately 181,531 sq. ft. of lot area and is occupied by a three-story commercial

building with 222,285 sq. ft. of floor area (1.22 FAR) and 245 unattended parking spaces; and

WHEREAS, the Board has exercised jurisdiction over the site since February 24, 1987, when, under the subject calendar number, the Board granted a variance to permit, on a site partially within an R2 zoning district and partially within an R2 (C2-1) zoning district, the construction of a three-story office building utilizing an existing steel skeleton, which exceeded the maximum permitted height and did not comply with the use regulations, for a term of 25 years, to expire on February 24, 2012; in addition, 286 attended parking spaces were permitted under the grant as accessory to the office use; and

WHEREAS, the applicant states that, at the time of the grant, the northeast portion of the subject block (Tax Lots 45, 47, 49, 51, 53, 57, and 58, hereafter known as the “Outparcels”) was occupied with homes; subsequent to the grant, the homes were demolished and the subject site’s parking lot was expanded, increasing the number of spaces in the parking lot to approximately 420 (245 spaces on the site, 82 spaces in the R2 (C1-3) portion of the Outparcels, and 93 spaces in the R2 portion of the Outparcels); the applicant notes that although the owner of the subject site owns the Outparcels, they remain separate tax and zoning lots; and

WHEREAS, the applicant now requests an amendment to permit the following changes to the grant: (1) elimination of the 25-year term; (2) reduction in the number of parking spaces at the site, from 286 attended spaces, to 245 unattended spaces; (3) elimination of the buffering requirement between the site and the Outparcels; and (4) elimination of the hours of operation restriction, which limits the use of the building to Monday through Saturday, from 8:00 a.m. to 6:00 p.m.; and

WHEREAS, as to the term, the applicant contends that a variance term on a building of this scale presents an undue hardship on the owner’s ability to conduct normal business in the commercial real estate market, in that it creates uncertainty with respect to both leasing and financing; and

WHEREAS, as to the reduction in the number of parking spaces, the applicant states that although the number of spaces at the subject site is reduced, the number of available spaces for the uses in the building has increased by 175 spaces, owing to the use of the Outparcels for additional parking; and

WHEREAS, as to the elimination of buffering, the applicant states that buffering is unnecessary given the demolition of the homes on the Outparcels and their current use as parking for the subject building; and

WHEREAS, finally, as to the elimination of the hours of operation, the applicant states that requiring all office workers at the building to adhere to a strict 8:00 a.m. to 6:00 p.m. schedule is impractical for a building of this size with this diversity of tenants; likewise, the limitation is unnecessary, since the Outparcels no longer contain residential uses and the entire block is devoted office uses and buffered from nearby residential uses by streets; and

WHEREAS, pursuant to ZR §§ 72-01 and 72-22, the

MINUTES

Board may extend the term of a variance; and

WHEREAS, at hearing, the Board directed the applicant to: (1) notify the surrounding neighbors of the request to eliminate the term; (2) enhance the landscaping around the perimeter of the site; and (3) provide information on the lighting of the parking lot; and

WHEREAS, in response, the applicant submitted proof that the tenants were notified and an amended site plan, which indicates that 16 street trees will be provided along 133rd Avenue, as well as a four- to six-foot uniform hedge barrier along 133rd Avenue and 243rd Street; and

WHEREAS, in addition, the applicant states that parking lot lights are directed downward and away from residential uses and are on timers, which adjust for different seasons; and

WHEREAS, the Board has reviewed the application and has determined that this application is appropriate to grant, with certain conditions.

Therefore it is Resolved, that the Board of Standards and Appeals waives the Rules of Practice and Procedure, reopens and amends the resolution, as adopted on February 24, 1987, to permit the noted modifications, including the elimination of the term and the elimination of the restrictions on the hours of operation, *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked 'Received July 8, 2014' - six (6) sheets; and *on further condition*:

THAT a minimum of 245 unattended parking spaces will be provided at the site;

THAT lighting will be directed down and away from residential uses;

THAT the site plan will be in accordance with the BSA-approved plans;

THAT all conditions from prior resolutions not waived herein by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, July 22, 2014.

*The resolution has been amended in part of the 10th WHEREAS, to add the number "8" in the section which **read**: ...*Monday through Saturday, from :00 a.m. to 6:00 p.m.; and. Now reads*: ...*Monday through Saturday, from 8:00 a.m. to 6:00 p.m.; and. Corrected in Bulletin No. 31, Vo. 99, dated August 6, 2014.*

*CORRECTION

The resolution adopted on July 15, 2014, under Calendar No. 266-07-A and printed in Volume 99, Bulletin Nos. 27-29, is hereby corrected to read as follows:

266-07-A

APPLICANT – Law Office of Fredrick A. Becker, for 1610 Avenue S LLC, owner.

SUBJECT – Application January 9, 2013 – Extension of time to complete construction and obtain a certificate of occupancy of a previously granted common law vested rights application, which expired on December 9, 2012. R4-1 Zoning District.

PREMISES AFFECTED – 1602-1610 Avenue S, southeast corner of Avenue S and East 16th Street. Block 7295, Lot 3. Borough of Brooklyn.

COMMUNITY BOARD #15BK

ACTION OF THE BOARD – Application granted.

THE VOTE TO GRANT –

Affirmative: Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for an extension of time to complete construction and obtain a certificate of occupancy for a six-story mixed residential and community facility building at the subject site; and

WHEREAS, a public hearing was held on this application on March 25, 2014, after due notice by publication in *The City Record*, with continued hearings on May 13, 2014 and June 10, 2014, and then to decision on July 15, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn recommends disapproval of this application, citing concerns about the lack of maintenance of the site and its effect on nearby residents; and

WHEREAS, Assemblyman Steven Cymbrowitz provided testimony in opposition to this application; and

WHEREAS, the Madison-Marine-Homecrest Civic Association provided testimony in opposition to this application; and

WHEREAS, certain members of the surrounding community provided testimony in opposition to this application; and

WHEREAS, collectively, the parties who provided testimony in opposition to the proposal are the “Opposition”; and

WHEREAS, the Opposition raised the following concerns with respect to the instant application: (1) that a “For Sale” sign has been posted at the site recently; (2) that the owner does not have the financing to complete the project; (3) that there are open Department of Buildings (“DOB”) and

Environmental Control Board (“ECB”) violations at the site; (4) that the sidewalk along the perimeter of the building is in disrepair; (5) that the site is a dumping ground; and (6) that the site negatively affects the quality of life and property values of the surrounding neighborhood; and

WHEREAS, the subject site is located on the southeast corner of the intersection of Avenue S and East 16th Street, within an R4-1 zoning district; and

WHEREAS, the site has 85 feet of frontage along Avenue S, 95 feet of frontage along East 16th Street, and 8,075 sq. ft. of lot area; and

WHEREAS, the applicant proposes to develop the site with a six-story mixed residential (Use Group 2) and community facility (Use Group 4) building with 25 dwelling units; and

WHEREAS, the site was formerly located within an R6 zoning district; and

WHEREAS, the applicant states that New Building Permit No. 302054568-01-NB was issued on January 11, 2006 (the “New Building Permit”), authorizing construction of the building in accordance with the R6 zoning district regulations; and

WHEREAS, on February 15, 2006 (the “Enactment Date”), the City Council voted to adopt the Homecrest Rezoning, which rezoned the site from R6 to R4-1; and

WHEREAS, the New Building Permit lapsed by operation of law on the Enactment Date because the plans did not comply with the new R4-1 zoning district regulations and foundations were not complete; and

WHEREAS, the applicant notes that by letter dated November 18, 2008, DOB acknowledged that the New Building Permit was lawfully issued; and

WHEREAS, on December 9, 2008, under the subject calendar number, the Board adopted a resolution recognizing that a vested right to continue construction under the New Building Permit had accrued under the common law doctrine of vested rights, and the Board reinstated the New Building Permit for a term of four years, to expire on December 9, 2012; and

WHEREAS, the applicant represents that, subsequent to the 2008 grant, construction did not proceed due to insufficient financing; thus, as of December 9, 2012, construction had not been completed and a certificate of occupancy had not been issued for the building; and

WHEREAS, consequently, the applicant now seeks an additional four-year term in which to complete construction and obtain a certificate of occupancy; and

WHEREAS, at hearing, the Board directed the applicant to: (1) demonstrate that financing has been secured to complete the project; (2) clarify the status of open violations; and (3) respond to the concerns of the Opposition regarding the disrepair of the sidewalk and the lack of maintenance at the site; and

WHEREAS, as to the financing, the applicant provided an affidavit from an owner of the site, which indicates that Besyata Investment Group has committed up to \$6,000,000 to complete construction of the building; and

MINUTES

WHEREAS, as to the open violations, the applicant represents that although the violating conditions have been eliminated, the fines have yet to be paid; as such, the violations remain open; and

WHEREAS, the applicant states that it will resolve all outstanding violations upon the renewal of the New Building Permit by the Board; and

WHEREAS, as to the disrepair of the sidewalk, the applicant states that because construction machinery must access the site by traversing the sidewalk, the developer did not plan to repair the sidewalk until the building is nearing completion; and

WHEREAS, the Board directs the applicant to remove the broken portions of the sidewalk and install had gravel or a similar temporary surface in order to provide a level walkway; and

WHEREAS, as to the maintenance of the site, the applicant provided an invoice and photographs of the site, which demonstrate that the site has been cleared of all debris and garbage; and

WHEREAS, as to the Opposition's concern regarding the "For Sale" at the site; in sum and substance, the Opposition is concerned that the applicant seeks renewal of the New Building Permit for the sole purpose of conveying the site to another developer, which the Opposition characterizes is inconsistent with the owner's statement that it has obtained financing to complete the building; and

WHEREAS, the Board notes, however, that under the common law doctrine of vested rights, such rights accrue not to a specific owner but rather to the real property itself; as such, a change in ownership—let alone an anticipated change in ownership or control—is not a basis for the Board to deny a request for an extension of time to complete construction; and

WHEREAS, likewise, the Board acknowledges the limitations on its authority to deny a request for an extension of time to complete construction where it has already recognized that the right to continue construction has vested, as set forth in Lefrak Forest Hills Corp. v Galvin, 40 AD2d 211, 217 [2d Dept 1972] affd, 32 NY2d 796, 298 NE2d 685 [1973]; and

WHEREAS, the Board has reviewed the evidence in the record and determined that the requested extension of time is warranted; and

WHEREAS, accordingly, the Board hereby grants the owner of the site a two-year extension of time to complete construction and obtain a certificate of occupancy.

Therefore it is Resolved, that this application to renew New Building Permit No. 302054568-01-NB, as well as all related permits for various work types, either already issued or necessary to complete construction, is granted, and the Board hereby extends the time to complete construction and obtain a certificate of occupancy for two years from the date of this resolution, to expire on July 15, 2016.

Adopted by the Board of Standards and Appeals, July 15, 2014.

The resolution has been amended. Corrected in Bulletin No. 31, Vo. 99, dated August 6, 2014.

TUESDAY MORNING, AUGUST 19, 2014
10:00 A.M.**

Present: Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez.

SPECIAL ORDER CALENDAR

611-52-BZ

APPLICANT – Gerald J. Caliendo, for John Blumenfield - HL Dalis, Inc., owner.

SUBJECT – Application October 15, 2013 – Extension of Term (§11-411) of a previously approved variance permitting a one story warehouse building, which expired on May 5, 2013. R5 zoning district.

PREMISES AFFECTED – 35-35 24th Street, east side of 24th Street, 130.63 feet south from the intersection of 35th Avenue and 24th Street, Block 338, Lot 8, Borough of Queens.

COMMUNITY BOARD #1Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Commissioner Hinkson, Commissioner Ottley-Brown and Commissioner Montanez3

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a re-opening, an extension of time to complete construction, which expired on January 9, 2003, and an extension of term for a variance permitting a warehouse within a residence district, which expired on May 5, 2013; and

WHEREAS, a public hearing was held on this application on May 6, 2014, after due notice by publication in *The City Record*, with a continued hearing on June 17, 2014, and then to decision on August 19, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by former Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Queens, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of 24th Street, between 35th Avenue and 36th Avenue, within an R5 zoning district; and

WHEREAS, the site has approximately 311 feet of frontage along 24th Street and 33,393 sq. ft. of lot area; it is occupied by a one-story warehouse with approximately 20,252 sq. ft. of floor area (0.61 FAR); and

WHEREAS, the Board has exercised jurisdiction over the site since May 5, 1953, when, under the subject calendar number, it granted an application to permit the continued use of an existing one-story warehouse building in a residence

district, contrary to the use regulations of the 1916 Zoning Resolution; and

WHEREAS, the grant was extended at various times; most recently, on January 9, 2001, the Board amended the grant to permit a 3,720 sq.-ft. enlargement, and extended the term of the grant until May 5, 2013; and

WHEREAS, pursuant to the 2001 grant, substantial constructed was to be completed by January 9, 2003; however, the applicant states that the enlargement was never constructed due to a lack of funding; and

WHEREAS, accordingly, the applicant now seeks an extension of time of complete construction and an extension of the term of the variance; the enlarged building will have 23,972 sq. ft. of floor area (0.72 FAR); and

WHEREAS, pursuant to ZR § 11-411, the Board may, in appropriate cases, allow an extension of the term of a pre-1961 variance; likewise, the Board may, in appropriate cases, grant an extension of time to complete construction; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made for an extension of term under ZR § 11-411; in addition, the Board finds that the requested extension of time to complete the construction authorized under the 2001 grant is appropriate.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated May 5, 1953, so that as amended the resolution reads: “to permit an extension of time to complete construction and to permit an extension of the term of the variance for an additional ten years from May 5, 2013, expiring on May 5, 2023; *on condition*:

THAT the term of the variance will expire on May 5, 2023;

THAT the building will have a maximum of 23,972 sq. ft. of floor area (0.72 FAR);

THAT the premises will be maintained free of debris and graffiti;

THAT the above conditions will be noted in the Certificate of Occupancy;

THAT substantial construction will be completed by August 19, 2016;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, August 19, 2014.

APPLICANT – Rothkrug Rothkrug & Spector LLP, for Baron Properties III, Inc., owner.

SUBJECT – Application October 1, 2013 – Extension of Term of a previously granted under variance (§72-21) for the continued operation of a UG16 Automotive Repair Shop (*Genesis Auto Town*) which expired on January 23, 2009; Extension of Time to obtain a Certificate of Occupancy which expired on September 12, 2001; Waiver of the Rules. C2-2/R3-2 zoning district.

PREMISES AFFECTED – 200-15 Northern Boulevard, northwest corner of intersection of Northern Boulevard and 201st Street, Block 6261, Lot 30, Borough of Queens.

COMMUNITY BOARD #11Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Commissioner Hinkson, Commissioner Ottley-Brown and Commissioner Montanez3
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a re-opening, and an extension of term for a variance permitting an automotive repair shop within a residence district, which expired on January 23, 2009; and

WHEREAS, a public hearing was held on this application on May 13, 2014, after due notice by publication in *The City Record*, with continued hearings on June 17, 2014, and July 29, 2014, and then to decision on August 19, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by former Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 11, Queens, recommends approval of the application, subject to the following conditions: (1) that the premises shall be kept clean of debris and graffiti; (2) that no repairs shall be performed in the street or on the sidewalk; (3) that the sidewalk shall not be blocked; (4) that there shall be no overnight parking of trucks or cars except those vehicles that are awaiting service; (5) that the hours of operation shall be limited to Monday through Friday, from 8:00 a.m. to 8:00 p.m., Saturday, from 8:00 a.m. to 6:00 p.m., and closed on Sunday; and (6) that the tire racks in front of the building and the tires stored in the northwest corner of the premises shall be permanently relocated to a storage container and/or placed within the bays; and

WHEREAS, Queens Borough President Melinda Katz recommends approval of the application, provided that the applicant complies with the conditions of Community Board 11; and

WHEREAS, certain members of the surrounding community, including a representative from the Auburndale Improvement Association, testified in opposition to the proposed hours of operation; in addition, certain members expressed concern with the presence of stacked tires at the

site, the colors of the building and the storage container, the poor management of the dumpster, the noise of idling vehicles, and the lack of landscaping; and

WHEREAS, the subject site is the triangular block bounded by 201st Street, 43rd Avenue, and Northern Boulevard; it is located within a C2-2 (R3-2) zoning district; and

WHEREAS, the site has approximately 71 feet of frontage along 201st Street, approximately 128 feet of frontage along 43rd Avenue, approximately 152 feet of frontage along Northern Boulevard, and 5,186 sq. ft. of lot area; it is occupied by a one-story automotive repair shop with approximately 1,659 sq. ft. of floor area (0.32 FAR); and

WHEREAS, the Board has exercised jurisdiction over the site since October 7, 1952, when, under BSA Cal. No. 22-52-BZ, it granted, pursuant to 1916 Zoning Resolution §§ 7f, 7i, and 7h, an application to permit in a business use district the change in occupancy from sale and display of more than five motor vehicles to a gasoline service station, lubratorium, car washing, motor vehicle repair shop, office, and parking and storage of motor vehicles, for term of 15 years, to expire on October 7, 1967; and

WHEREAS, on October 17, 1967, the grant was extended for a term of ten years; and

WHEREAS, on January 23, 1979, under the subject calendar number, the Board granted an application pursuant to ZR §§ 11-412 and 11-413 to permit the change in use from an automotive service station with accessory uses to an automobile repair and muffler installation establishment; and

WHEREAS, on May 2, 1989, the grant was extended and amended to permit a storage container at the site; and

WHEREAS, most recently, on September 12, 2000, the grant was extended for a term of ten years, to expire on January 23, 2009; and

WHEREAS, accordingly, the applicant now seeks an extension of the term of the variance; and

WHEREAS, pursuant to ZR § 11-411, the Board may, in appropriate cases, allow an extension of the term of a pre-1961 variance; and

WHEREAS, at hearing, the Board directed the applicant to: (1) provide evidence demonstrating that the existing hours of operation (Monday through Saturday, from 8:00 a.m. to 9:00 p.m.) are consistent with similar establishments in the surrounding community; (2) provide photographs showing the removal of tires from the open portions of the site; and (3) provide an amended site plan reflecting the location of the storage container; and

WHEREAS, as to the hours of operation, the applicant states that two nearby automobile-related establishments have similar hours as those proposed; the applicant also notes that many businesses along Northern Boulevard operate 24 hours per day; finally, the applicant represents that the proposed hours are necessary to allow for successful operation of the business; and

WHEREAS, as to the tire storage on site, the applicant provided photographs demonstrating that all tires had been removed from open portions of the site; the applicant also

MINUTES

provided the requested amended site plan reflecting the location of the storage container; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made for an extension of term under ZR § 11-411.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated January 23, 1979, so that as amended the resolution reads: “to permit an extension of the term of the variance for an additional ten years from the prior expiration, to expire on January 23, 2019; *on condition on condition* that all work will substantially conform to drawings, filed with this application marked ‘Received June 3, 2014’ – (1) sheet; and on further condition:

THAT the term of the variance will expire on January 23, 2019;

THAT tire will not be stored at the site, except within the building or storage containers;

THAT the hours of operation will be limited to Monday through Friday, from 8:00 a.m. to 9:00 p.m., Saturday from 8:00 a.m. to 6:00 p.m., and closed Sunday;

THAT landscaping will be maintained in accordance with the BSA-approved plans;

THAT the site will be maintained free of graffiti and debris;

THAT only vehicles awaiting service may be stored at the site overnight;

THAT vehicles will not obstruct the sidewalk;

THAT the above conditions will be noted in the Certificate of Occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, August 19, 2014.

169-93-BZ

APPLICANT – Law office of Fredrick A. Becker, for 2231 Associates LLC, owner; TSI West 80, LLC dba NY Sports Club, lessee.

SUBJECT – Application May 5, 2014 – Extension of Term of a previously granted Special Permit (§73-36) for the continued operation of a physical culture establishment (*New York Sports Club*) which expired on May 17, 2014. C4-6A/EC-3 zoning district.

PREMISES AFFECTED – 246-248 West 80th Street, southwest corner of West 80th Street and Broadway, Block 1227, Lot 54, Borough of Manhattan.

COMMUNITY BOARD #7M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Commissioner Hinkson, Commissioner Ottley-Brown and Commissioner Montanez3

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of term for a physical culture establishment (“PCE”), which expired on May 17, 2014; and

WHEREAS, a public hearing was held on this application on July 22, 2014, after due notice by publication in *The City Record*, and then to decision on August 19, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Ottley-Brown; and

WHEREAS, Community Board 7, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located at the southeast corner of the intersection of Broadway and West 80th Street, within a C4-6A zoning district, within the Special Enhanced Commercial District (“EC-3”); and

WHEREAS, the site is occupied by two adjoining five-story commercial buildings (246 West 80th Street and 248 West 80th Street); and

WHEREAS, the applicant represents that the PCE occupies all of 248 West 80th Street and the second story of 246 West 80th Street, for a total PCE size of 21,458 sq. ft. (a total of 19,163 sq. ft. of floor area on the first through fifth stories and 2,295 sq. ft. of floor space in the cellar); and

WHEREAS, the PCE is operated as a New York Sports Club; and

WHEREAS, on May 17, 1994, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-36, to permit, the operation of a PCE within 248 West 80th Street for a term of ten years, to expire on May 17, 2004; and

WHEREAS, on December 19, 2000, the Board amended the grant to permit expansion of the PCE into the second story of 246 West 80th Street and to modify the hours of operation; and

WHEREAS, most recently, on July 18, 2006, the Board extended the term of the grant for ten years, to expire on May 17, 2014; and

WHEREAS, accordingly, the applicant now seeks a further extension of term; and

WHEREAS, based upon its review of the record, the Board finds that an extension of term for ten years is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated May 17, 1994, so that as amended the resolution reads: “to grant an extension of the special permit for a term of ten years from the prior expiration; *on condition* that any and all work shall substantially conform to drawings as they apply to the objection above noted, filed

MINUTES

with this application marked 'Received June 23, 2014' - (13) sheets; and *on further condition:*

THAT this grant will be limited to a term of ten years, to expire on May 17, 2024;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT there will be no change in ownership or operating control of the PCE without prior approval from the Board;

THAT the hours of operation will be limited to Monday through Thursday, from 5:30 a.m. to 11:00 p.m., Friday from 5:30 a.m. to 10:00 p.m., and Saturday and Sunday, from 8:00 a.m. to 10:00 p.m.;

THAT the above conditions will appear on the certificate of occupancy;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, August 19, 2014.

72-11-BZ

APPLICANT – Walter T. Gorman, P.E., for Tanner and Rothafel Partnership, owner; Lukoil, lessee.

SUBJECT – Application June 30, 2014 – Extension of Time to obtain a Certificate of Occupancy for a previously granted Variance for the continued operation of an Automotive Service Station (Getty) which expired on October 25, 2012; Waiver of the Rules. C1-3/R6B zoning district.

PREMISES AFFECTED – 101-06 Astoria Boulevard, southeast corner of 101st Street, Block 1688, Lot 30, Borough of Queens.

COMMUNITY BOARD #3Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Commissioner Hinkson, Commissioner Ottley-Brown and Commissioner Montanez3
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, and an extension of time to obtain a certificate of occupancy for a gasoline service station with accessory uses within an R3-2 zoning district, which expired on October 25, 2012; and

WHEREAS, a public hearing was held on this application on July 29, 2014, after due notice by publication in *The City Record*, and then to decision on August 19, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown;

and

WHEREAS, the subject site located on a through lot bounded by Astoria Boulevard to the north, 101st Street to the west, and 31st Avenue to the south, within an R3-2 zoning district; and

WHEREAS, the site, which has 10,859 sq. ft. of lot area, is occupied by a one-story gasoline service station (Use Group 16) with 1,196 sq. ft. of floor area (0.06 FAR); and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 31, 1959 when, under BSA Cal. No. 711-56-BZ, the Board granted a variance to permit the site to be occupied as a gasoline service station with accessory uses, within a residence district, for a term of 15 years; and

WHEREAS, subsequently, the grant has been amended and the term extended at various times, most recently on October 25, 2011; on that date, under the subject calendar, the Board reinstated the variance and extended its term for ten years, to expire on October 25, 2021; and

WHEREAS, the 2011 grant included a condition requiring that a certificate of occupancy be obtained by October 25, 2012; however, the applicant states that, as of that date, a certificate of occupancy had not been obtained; and

WHEREAS, accordingly, the applicant seeks an extension of time to obtain the CO; and

WHEREAS, the applicant represents that the issuance of the CO has been delayed because the operator took longer than anticipated to remove all debris from the site and install landscaping; and

WHEREAS, at hearing, the Board directed the applicant to provide further information regarding the proposed accessory signage; and

WHEREAS, in response, the applicant states that the signage at the site is being changed from “Getty” to “Lukoil” and that it will comply with the C1 signage regulations; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction and amendment are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated October 25, 2011, so that as amended the resolution reads: “to grant an extension of the time to obtain a certificate of occupancy, to expire on October 25, 2015; *on condition:*

THAT a certificate of occupancy will be obtained by October 25, 2015;

THAT signage will be in accordance with C1 signage regulations;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, August 19, 2014.

APPLICANT – Abrams Fensterman, LLP, for Laurence Helmarth and Mary Ann Fazio, owners.

SUBJECT – Application April 24, 2013 – Appeal challenging Department of Buildings’ interpretation of the Building Code regarding required walkway around a below-grade pool. R6B zoning district.

PREMISES AFFECTED – 120 President Street, between Hicks Street and Columbia Street, Block 348, Lot 22, Borough of Brooklyn.

COMMUNITY BOARD #6BK

ACTION OF THE BOARD – Application withdrawn.

Adopted by the Board of Standards and Appeals, August 19, 2014.

296-13-A

APPLICANT – Jack Lester, for SRS Real Estate Holdings c/o Richard Whel, Esq., owner.

SUBJECT – Application October 24, 2013 – An appeal to Department of Buildings’ determination to permit an eating and drinking establishment. Appellant argues that the non-conforming use has been discontinued and the use is contrary to open space regulations (§52-332). R6B zoning district.

PREMISES AFFECTED – 280 Bond Street, Block 423, Lot 35, Borough of Brooklyn.

COMMUNITY BOARD #3BK

ACTION OF THE BOARD – Application Denied.

THE VOTE TO GRANT –

Affirmative:.....0

Negative: Commissioner Hinkson, Commissioner Ottley-Brown and Commissioner Montanez3

THE RESOLUTION –

WHEREAS, this is an appeal of a final determination, issued by the Brooklyn Borough Commissioner of the Department of Buildings (“DOB”) on October 1, 2013 (the “Final Determination”), brought by the property owner (the “Appellant”); and

WHEREAS, the Final Determination states, in pertinent part:

First, you claim that the non-conforming use of the Premises has discontinued for more than two years in violation of ZR 52-61 and that therefore, no non-conforming use may remain. In support of your claim, you provide multiple affidavits of neighbors who claim that they have not seen commercial activity at the Premises since September 11, 2001. As stated above, the Department conducted an audit of the Job Application and issued an Intent to

MINUTES

Revoke letter on June 19, 2013 with an objection citing to ZR 52-61 to “confirm that the non-conforming use has not been discontinued”. In response, the applicant provided sufficient information to show that the non-confirming use had not discontinued for more than two years, including DOF records, utility bills, and aerial photographs.

In addition, the Department’s review of multiple images from Bing.com maps, Google.com maps, and Pictometry.com over a period stretching from 2003 to 2013 indicates commercial activity, including several different trucks and cars in the open space at the Premises and an open gate to the Premises (see attached images). Therefore, based on this information showing continuous commercial use and without additional, verifiable evidence to demonstrate discontinuance of more than 2 years, the Department has no reason to conclude that the non-conforming use discontinued on the basis of the uncorroborated affidavits you provided.

Second, you claim that the use of the open space at the Premises as an eating and drinking establishment is prohibited by ZR 52-34. However, ZR 52-34 does not apply to this change in use because this change of use involves a change from a non-conforming Use Group 16 use to a non-conforming Use Group 8 theater and non-conforming Use Group 6 eating and drinking establishment. Such change is permitted pursuant to ZR 52-332(a) and is not governed by ZR 52-34. Rather, ZR 52-34 only applies to changes in use from Use Group 15 and some below, not to Use Group 16; and

WHEREAS, a public hearing was held on this appeal on January 14, 2014 after due notice by publication in *The City Record*, with continued hearings on April 1, 2014, and June 17, 2014, and then to decision on August 19, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by former Chair Srinivasan, former Vice-Chair Collins, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located at the corner of Bond Street and DeGraw Street, within an R6B zoning district; and

WHEREAS, the site is occupied by an 8,500-sq.-ft. building, designed for warehouse and office use; and

WHEREAS, this appeal of the Final Determination is brought on behalf of community members and We Are Gowanus (the “Appellant” or “Appellants”) represented by counsel to challenge the legality of the permits issued to the property owner and lessee; and

WHEREAS, the Appellant asserts that the non-conforming use of the premises has discontinued for more than two years in violation of ZR § 52-61, therefore only a

conforming use can occupy the subject site; and

WHEREAS, a supplemental issue on the appeal is that the Appellant asserts that the use of the open space at the building as an eating and drinking establishment is prohibited in accordance with ZR § 52-332; and

WHEREAS, the supplemental issue was not pursued during the course of the appeal; and

WHEREAS, New York State Senator Velmanette Montgomery and New York State Assemblywoman Joan L. Millman provided testimony in support of the appeal, seeking revocation of the permits; and

WHEREAS, DOB and the property owner (the “Owner”), both represented by counsel, appeared and made submissions in opposition to the appeal; and

PROCEDURAL HISTORY

WHEREAS, on October 16, 2012, the Owner filed an Alteration Type 1 application to convert from commercial (Use Group 16 non-conforming use) to theater (Use Group 8), eating and drinking establishment (Use Group 6), and non-commercial art galleries (Use Group 4) to be occupied by the Rock and Roll Playhouse (RRPH); and

WHEREAS, after repeated reviews including examination of the non-conforming uses, DOB approved the application on November 28, 2012 and work permits were issued on April 17, 2013; and

WHEREAS, on June 6, 2013, the Opposition submitted correspondence to DOB requesting that it revoke the permits; and

WHEREAS, DOB conducted an audit of the Job Application and issued an Intent to Revoke letter on June 19, 2013 with an objection citing to ZR 52-61 to “confirm that the non-conforming use has not been discontinued”; and

WHEREAS, in response, the Owner provided information to show that the non-confirming use had not discontinued for more than two years to DOB’s satisfaction; and

WHEREAS, on August 12, 2013, the Opposition filed an Article 78 action seeking an order to compel DOB to issue a response to the Opposition’s Freedom of Information Law (“FOIL”) request; by stipulation, dated September 25, 2013, the parties agreed upon a schedule for DOB’s response and production of documents; and

WHEREAS, on October 31, 2013 DOB issued the Final Determination, which forms the basis of the appeal; and

RELEVANT ZONING RESOLUTION PROVISIONS

ZR § 12-10 (*Definitions*)

Non-conforming, or non-conformity

A "non-conforming" #use# is any lawful #use#, whether of a #building or other structure# or of a #zoning lot#, which does not conform to any one or more of the applicable #use# regulations of the district in which it is located, either on December 15, 1961 or as a result of any subsequent amendment thereto. . .

* * *

ZR § 52-11 (*Continuation of Non-Conforming Uses*)

MINUTES

General Provisions

A #non-conforming use# may be continued, except as otherwise provided in this Chapter; and

* * *

ZR § 52-61 (*Discontinuance*)

General Provisions

If, for a continuous period of two years, either the #nonconforming use# of #land with minor improvements# is discontinued, or the active operation of substantially all the #non-conforming uses# in any #building or other structure# is discontinued, such land or #building or other structure# shall thereafter be used only for a conforming #use#. Intent to resume active operations shall not affect the foregoing . . . ; and

* * *

ZR § 52-332 (*Other buildings or structures in Residence Districts*)

In all #Residence Districts#, a #non-conforming use# listed in Use Group 11A, 16, 17 or 18 which is not subject to the provisions of Sections 52-32 (Land with Minor Improvements) or 52-331 (Buildings designed for residential use), may be changed either to a conforming #use# or:

- (a) to any #use# listed in Use Group 6, 7B, 7C, 7D, 8, 9, 10, 11B or 14, in which case any subsequent change of #use# shall conform to the provisions of Section 52-34 (Commercial Uses in Residence Districts); or
- (b) in accordance with the provisions of the following table:

<u>From Use Group</u>	<u>To Use Group</u>
11A	11A
16 or 17	11A 16 or 17
18	11A 16 17 or 18

provided that such changed #use# shall conform to all regulations on performance standards applicable in M1 Districts, and that any such changed #use#, or the storage of materials or products #accessory# to any changed #use#, which is not located within a #completely enclosed building#, shall be screened by a solid wall or fence (including solid entrance or exit gates) at least eight feet in height. Whenever a #use# located within a #completely enclosed building# is changed to another #use#, no activity related to such changed #use#, including the storage of materials or products, shall be located outside of such #building#.

In no event shall any change of #use# permitted in paragraph (b) of this Section extend the statutory period of useful life applicable under the provisions of Section 52-74 (Uses Objectionable in Residence Districts); and

THE APPLICABLE STANDARD FOR NON-CONFORMING USES

WHEREAS, DOB and the Appellant agree that the site is currently within an R6B zoning district and that the

proposed Use Group 8 and Use Group 6 uses are not permitted as-of-right within the zoning district; and

WHEREAS, accordingly, in order to establish the affirmative defense that the non-conforming use is permitted to remain, the Owner must meet the Zoning Resolution's criteria for a "non-conforming use" as defined at ZR § 12-10; and

WHEREAS, ZR § 12-10 defines "non-conforming" use as "any lawful use, whether of a *building or other structure* or of a tract of land, which does not conform to any one or more of the applicable use regulations of the district in which it is located, either on December 15, 1961 or as a result of any subsequent amendment thereto"; and

WHEREAS, additionally, the Appellant must comply with ZR § 52-61 (*Discontinuance, General Provisions*) which states that: "[i]f, for a continuous period of two years, either the *non-conforming use of land with minor improvements* is discontinued, or the active operation of substantially all the *non-conforming uses* in any *building or other structure* is discontinued, such land . . . shall thereafter be used only for a conforming use"; and

WHEREAS, thus, the Board notes that the standard to apply to the subject use is (1) the use existed lawfully as of December 15, 1961, and (2) that the use did not change or cease for a two-year period since then. See ZR §§ 12-10, 52-61; and

WHEREAS, the question of the use's establishment and continuity are not under dispute, except for the period prior from 2001 until 2014; and

WHEREAS, as noted, the Appellant makes the supplemental argument that the proposed outdoor use is not permitted per ZR § 52-34, however did not pursue the argument throughout the appeal process; and

WHEREAS, the Appellant's position is that the non-conforming use at the site was discontinued for a period longer than two years and, thus, that no non-conforming use is permitted pursuant to ZR § 52-61 and, secondarily that the open space at the site could not be used as an eating and drinking establishment pursuant to ZR § 52-332; and

THE OWNER'S POSITION

- Evidence

WHEREAS, the Owner states that since at least May 1937, the site has been used for commercial use, as indicated on the 1937 Certificate of Occupancy, which reflects "Motor Truck Storage. One family"; and

WHEREAS, the Owner notes that the Certificate of Occupancy issued in February 1938 similarly reflects the use as "Storage Garage for Motor Trucks With One (1) 55 Gal Gasoline Tank in Open Yard" and the last recorded CO, dated April 1967 reflects the following: "First on ground: Loading and storage of boiler equipment. Non-storage garage for motor trucks; Mezzanine: offices"; and

WHEREAS, the Owner states that the Zoning Resolution lists the ground floor uses as Use Group 16 uses and the offices would be classified as accessory Use Group 16 uses; and

WHEREAS, accordingly, the Appellant states that it has

MINUTES

established that the use was established as of December 15, 1961, prior to the site being zoned with an R6 zoning district where the use is not permitted as of right; and

WHEREAS, the Owner asserts that since December 15, 1961 when the use was no longer permitted pursuant to zoning use regulations, there has not been any discontinuance for a period of two years or greater; and

WHEREAS, however, all parties focus their attention to the period of 1982 to 1985 and 2001 to 2012; and

WHEREAS, the Owner cites to DOB Technical Policy and Procedure Notice #14/1988 (Documentation In Support of Existing Use) (the "TPPN"), which sets forth guidelines for the application of ZR § 52-61 and the submission of proof to DOB in support of non-conforming uses; and

WHEREAS, the TPPN includes the following types of evidence, which DOB accepts: (a) City agency records such as tax records or licenses; (b) records, bills, documentation from public utilities, telephone ads; (c) other documentation of occupancy including ads and invoices; and (d) affidavits; and

WHEREAS, the Owner's evidence within category (a) include: (1) Department of Finance records, (2) utility bills, and (3) aerial photographs, including multiple images from Bing.com maps, Google.com maps, and Pictometry.com during the period of 2003 to 2013, which reflect several different trucks and cars in the open space and an open gate; and

WHEREAS, the Owner submitted the following evidence for 2001: (1) a letter from Robert Grosseto of Superior Tinsmith Supply Co. reflecting its business relationship with Excellence (the "Grosseto Letter") and (2) a letter from Robert Hepplewhite, mechanic, regarding repair of Excellence's commercial vehicles (the "Hepplewhite Letter"); and

WHEREAS, the Owner submitted the following evidence for 2002: (1) eight DOB work permits issued to Excellence; (2) a 1040 tax form reflecting Excellence's income and expenses; (3) Providence Washington Insurance of New York commercial insurance policies with March 26, 2002 commencement date, covering 280 Bond Street; (4) satellite images of the site, which show various commercial parking configurations and demonstrate the presence of commercial vehicles; (5) a Sanborn Map, which indicates commercial use of the site; (6) an affidavit from accountant Lawrence Bauman stating that he commenced preparing tax returns for the Owner d/b/a Excellence; (the "Bauman Affidavit"); (6) an affidavit from Matthew Germann, tool dealer stating that he visited the site in 2002 and witnessed commercial use (the "Germann Affidavit") (7) the Grosseto Letter; and (8) the Hepplewhite Letter; and

WHEREAS, the Owner submitted the following evidence for 2003: (1) 11 DOB work permits issued to Excellence; (2) a 1040 tax form reflecting Excellence's income and expenses; (3) Providence Washington Insurance of New York commercial insurance policies, covering 280 Bond Street; (4) satellite images of the site, which show various commercial parking configurations and demonstrate the presence of commercial vehicles; (5) a Sanborn Map,

which indicates commercial use of the site; (6) the Bauman Affidavit; (7) the Germann Affidavit; (8) the Grosseto Letter; (9) the Hepplewhite Letter; and (10) an affidavit from Seth Nahoum, a former Excellence employee stating that Excellence operated at the site (the "Nahoum Affidavit"); and

WHEREAS, the Owner submitted the following evidence for 2004: (1) County Clerk's Office Judgment Docket & Lien Book search summary listing Excellence at the site; (2) nine DOB work permits issued to Excellence; (3) a 1040 tax form reflecting Excellence's income and expenses; (4) Providence Washington Insurance of New York commercial insurance policies, covering 280 Bond Street; (5) satellite images of the site, which show various commercial parking configurations and demonstrate the presence of commercial vehicles; (6) a Sanborn Map, which indicates commercial use of the site; (7) Excellence's Transaction Ledger from City Check Cashing; (8) the Bauman Affidavit; (9) the Germann Affidavit; (10) the Grosseto Letter; (11) the Hepplewhite, Letter; and (12) the Nahoum Affidavit; and

WHEREAS, the Owner submitted the following evidence for 2005: (1) County Clerk's Office Judgment Docket & Lien Book search summary listing Excellence at the site; (2) 25 DOB work permits issued to Excellence; (3) a 1040 tax form reflecting Excellence's income and expenses; (4) Providence Washington Insurance of New York commercial insurance policies, covering 280 Bond Street; (5) satellite images of the site, which show various commercial parking configurations and demonstrate the presence of commercial vehicles; (6) Excellence's Transaction Ledger from City Check Cashing; (7) three client job analyses; (8) a Cassone Leasing invoice for trailer rental at a job site; (9) a Sanborn Map, which indicates commercial use of the site; (10) Worker's Compensation Insurance Premium; (11) the Bauman Affidavit; (12) the Germann Affidavit; (13) the Grosseto Letter; (14) the Hepplewhite Letter; and (15) the Nahoum Letter; and

WHEREAS, the Owner submitted the following evidence for 2006: (1) 34 DOB work permits issued to Excellence; (2) Department of Finance assessment rolls; (3) a 1040 tax form reflecting Excellence's income and expenses; (4) Scottsdale Insurance Company commercial insurance policies, covering 280 Bond Street; (5) Excellence's Transaction Ledger from City Check Cashing; (6) Cassone Leasing invoice for trailer rental at a job site; (7) four client job analyses; (8) the Bauman Affidavit; (9) the Germann Affidavit; (10) the Grosseto Affidavit; (11) the Hepplewhite Letter; (12) the Nahoum, Affidavit' (13) a Sanborn Map, which indicates commercial use of the site; and (14) Worker's Compensation Insurance Premium; and

WHEREAS, the Owner submitted the following evidence for 2007: (1) 16 DOB work permits issued to Excellence; (2) Department of Finance assessment rolls; (3) a 1040 tax form reflecting Excellence's income and expenses; (4) satellite images of the site, which show various commercial parking configurations and demonstrate the presence of commercial vehicles; (5) Scottsdale Insurance Company commercial insurance policies, covering 280 Bond

MINUTES

Street; (6) Excellence's Transaction Ledger from City Check Cashing; (7) Cassone Leasing invoice for trailer rental at a job site; (8) five client job analyses; (9) the Bauman Affidavit; (10) a letter from accountant indicating net assets; (11) the Germann Affidavit; (12) the Grosetto Letter; (13) the Hepplewhite Letter; (14) the Nahoum Affidavit; (15) a Sanborn Map, which indicates commercial use of the site; and (16) Worker's Compensation Insurance Premium; and

WHEREAS, the Owner submitted the following evidence for 2008: (1) 1096 and 1099 tax forms; (2) 14 DOB work permits issued to Excellence; (3) Department of Finance assessment rolls; (4) a 1040 tax form reflecting Excellence's income and expenses; (5) water, Con Edison, and National Grid bills for the site; (6) partial release of lien; (7) satellite images of the site, which show various commercial parking configurations and demonstrate the presence of commercial vehicles; (8) Scottsdale Insurance Company commercial insurance policies, covering 280 Bond Street; (9) Excellence's Transaction Ledger from City Check Cashing; (10) Cassone Leasing invoice for trailer rental at a job site; (11) three client job analyses; (12) the Bauman Affidavit; (13) accountant's statement of income-profit & loss; (14) the Germann Affidavit; (15) the Grosetto Letter; (16) the Hepplewhite Letter; and (17) the Nahoum Affidavit; and

WHEREAS, the Owner submitted the following evidence for 2009: (1) ten DOB work permits issued to Excellence; (2) Department of Finance assessment rolls; (3) a 1040 tax form reflecting Excellence's income and expenses; (4) water, Con Edison, and National Grid bills for the site; (5) partial release of lien; (6) satellite images of the site, which show various commercial parking configurations and demonstrate the presence of commercial vehicles; (7) Scottsdale Insurance Company commercial insurance policies, covering 280 Bond Street; (8) Hanover Insurance Group commercial auto insurance policy; (9) Notice of Mechanic's Liens; (10) Excellence's Transaction Ledger from City Check Cashing; (11) an affidavit from Scott Levy, president of Eastern Effects; (12) one client job analysis; (13) the Bauman Affidavit; (14) accountant's statement of income-profit & loss; (15) the Germann, Affidavit; (16) the Grosetto Letter; (17) the Hepplewhite, Letter; and (18) the Nahoum Affidavit; and

WHEREAS, the Owner submitted the following evidence for 2010: (1) four DOB work permits issued to Excellence; (2) Department of Finance assessment rolls; (3) notice of mechanic's liens; (4) satellite images of the site, which show various commercial parking configurations and demonstrate the presence of commercial vehicles; (5) Scottsdale Insurance Company and Harleysville commercial insurance policies, covering 280 Bond Street; (6) Hanover Insurance Group commercial auto insurance policy; (7) one client job analysis; (8) the Bauman Affidavit; (9) the Grosetto Letter; (10) the Hepplewhite, Letter; and (12) the Nahoum Affidavit; and (13) a Sanborn Map, which indicates commercial use of the site; and

WHEREAS, the Owner submitted the following evidence for 2011: (1) Department of Finance assessment rolls; (2) Con Edison and National Grid account statement for

RRPH; (3) Cole's Directory listing for Excellence; (4) lease agreement for RRPH, which allows for Excellence to maintain its office for business functions until the Addendum is executed; (5) affidavit from Scott Levy, president of Eastern Effects, whose last day of renting the site for truck and lighting equipment storage was August 31, 2011; (6) Cassone Leasing Inc. payment history; (7) satellite images of the site, which show various commercial parking configurations and demonstrate the presence of commercial vehicles; (8) Harleysville commercial insurance policies, covering 280 Bond Street; (9) a fax coversheet from the District Attorney's office listing all properties associated with the Owner, including the site; (10) an affidavit from the Owner noting the transfer from her to SRS Real Estate Holdings; (11) the Grosetto Letter; and (12) the Hepplewhite Letter; and

WHEREAS, the Owner submitted the following evidence for 2012: (1) copy of BIS printout of an Alteration Type 1 application proposing the change of use from commercial (Use Group 16 non-conforming use) to theater (Use Group 8), eating and drinking establishment (Use Group 6) and non-commercial art galleries (Use Group 4), approved by DOB; (2) a BIS printout of post-approval amendment; (3) a DOB Stop Work Order; (4) a DOB BIS Plan Exam approved for building structural modification; (5) DOF assessment roll; (6) a BIS printout of license details which reflects that Excellence maintained general liability insurance with Harleysville Worcester through March 26, 2012; (7) commercial insurance policies with Harleysville insurance through May 22, 2012; (8) lease Addendum between RRPH and SRS Real Estate Holdings to allow rental of the second-story office; (9) email exchange with Verizon which reflects the existence of the Excellence phone line through October 2012; (10) a Sanborn map; (11) Cassone Leasing invoice reflecting the trailer rental at the site; (12) satellite images of the site, which show various commercial parking configurations and demonstrate the presence of commercial vehicles; (13) a Cole's Directory listing for Excellence; (14) affidavits from Larry Burda, general contractor who began working for RRPH at the site and who obtained permits for work there and parked commercial vehicles; (15) the Grosetto Letter; and (16) the Hepplewhite Letter; and

WHEREAS, the Owner submitted the following evidence for 2013: (1) the Final Determination; (2) work permits related to the Alteration Type 1 application; (3) a BIS printout of post approval amendments; (4) DOF assessment roll; (5) Excellence's transaction ledger from City Check Cashing; (6) Cassone Leasing invoice reflecting the trailer rental at the site; and (7) ModSpace Modular Office contract and invoice for RRPH; and

WHEREAS, the Owner submitted the following evidence for 2014: (1) a BIS printout of post approval amendments; and (2) Cassone Leasing invoice reflecting the trailer rental at the site; and

WHEREAS, the Owner asserts that any criticism of the strength of the evidence, the Owner notes that it all fits within the TPPN's (a) through (c) evidence and is reflective of the minimal actual work performed at the site primarily used for

MINUTES

the storage of materials and vehicles; and

WHEREAS, on the contrary, the Owner claims that the Appellant's evidence is primarily within category (d) – affidavits – which DOB looks to only after satisfactory explanation or proof that the documentation pursuant to category (a), (b), and (c) are unavailable; and

WHEREAS, the Owner asserts that the affidavits lack detail, contain third-party testimony, and are in direct conflict with other evidence the Appellant offered; and

WHEREAS, the Owner also asserts that the Appellant's seven photographs of the site from April 20, 2003 to April 7, 2012 actually reflect the presence of commercial vehicles, in different configurations which is consistent with the movement of vehicles over a period of time when in use; and

WHEREAS, the Owner asserts that the photographs reveal physical evidence that is contradictory to the affiants' statements; and

WHEREAS, the Owner's evidence within category (d) includes affidavits from the two owners which explain that trucks would leave the site by 6:30 a.m. and return prior to 4:00 p.m. as well as letters from individuals and businesses which are either located near the site or have done business with the plumbing business formerly at the site; and

WHEREAS, the Owner provided a lease payment history for the rental of storage trailers at the site by Excellence in Plumbing, including one trailer that was rented from September 2011 until April 2014; work permit data printouts from the Buildings Information System (BIS) showing permits issued to Excellence in Plumbing for work at two different locations in 2010; general liability insurance maintained for Excellence in Plumbing through May 2013; evidence of insurance policies for Excellence in Plumbing operating at the site from March 26, 2009 to March 26, 2013; utility bills issued in November and December of 2011 to the lessees the RRPB; Coles Directory listings for 280 Bond Street from 2010 to 2012 for Excellence in Plumbing and Heating; and

WHEREAS, the Owner states that, despite an October 2011 lease to RRPB it was able to maintain an office in the building until June 2012, after which the lease was modified to allow the tenant's use of the office; and

WHEREAS, based on the above, the Owner contends that it has established that the use has been continuously in existence during the relevant periods; and

WHEREAS, the Owner asserts that the Board should not be guided by the Owner's testimony before the District Attorney which discusses the cessation of the business as (1) there was a context for those statements that is different than the context of establishing the continuation of a non-conforming use under the Zoning Resolution and (2) the Appellant's quotes should not be read in isolation, but with the remainder of the testimony which reflects the Owner's interest in seeking more business rather than abandonment of the site; and

WHEREAS, the Owner states that the deposition testimony is consistent with its position that the business existed but is slow; and

- The Legal Standard

WHEREAS, the Owner asserts that DOB is entitled to deference in its interpretation of the Zoning Resolution, citing the Court of Appeals: "it is well settled that the construction given statutes and regulations by the agency responsible for their administration, if not irrational or unreasonable, should be upheld," Matter of Howard v. Wyman, 28 N.Y.2d 434,438 (1971); and

WHEREAS, the Owner distinguishes the case law that the Appellant cites; specifically, the Owner states that Toys 'R' Us v. Silva, 89 N.Y.2d 411 (1996) centered upon an assertion that only the discontinuance of the entire nonconforming use would constitute the discontinuance required for termination of a nonconforming use; and

WHEREAS, the Owner asserts that an underperforming business, like Excellence in recent years, still qualifies as an active use; and

WHEREAS, otherwise, the Owner distinguishes other cases cited by the Appellant in that (1) none of them involve the applicability of ZR § 52-61; each is set outside New York City; three relate to variances, which require a hardship finding, and are thus inapplicable; the cases discuss intent, which is similarly not a factor in ZR § 52-61

- ZR § 52-332

WHEREAS, the Owner asserts that the Appellant misinterprets ZR § 52-332 in that section (b) makes it clear that the conditions relating to uses located outside of a building only apply to certain use changes and not to the Use Group 16 to Use Group 6 change proposed; and

WHEREAS, accordingly, the proposed outdoor use is permitted; and

THE APPELLANT'S POSITION

- Evidence

WHEREAS, as to ZR §52-61, the Appellant asserts that there have been at least two periods of two years in which the non-conforming use ceased at the site – from 1982 to 1984 and from 2009 to 2012; and

WHEREAS, the Appellant asserts that the Owner's evidence does not include employee records, customer records, or sales receipts, which would be standard for a plumbing business; and the Appellant raises concerns about the majority of evidence the Owner has submitted; and

WHEREAS, the Appellant refutes the Owner's other evidence as follows: (1) federal tax records do not reflect purchase of plumbing supplies after 2008 and no labor expenses or business income after 2009; (2) no customer records have been submitted to demonstrate business transactions; (4) there is no substantiated documents evidencing employee records after 2009 or documentation of work performed; (5) there are not any sales receipts or other records of business transactions after 2009; (6) 2009 and 2010 building permits do not reference 280 Bond Street; (6) the Owner provided sworn testimony with the Manhattan District Attorney's office that the business ceased to exist after 2008; and (7) the parking activity is not consistent with an active business at the site; and

WHEREAS, the Appellant submitted the following

MINUTES

affidavits and letters in support of its assertion that the non-conforming use ceased for a period greater than two years: (1) an affidavit from Frank Napoli which states that he is a private investigator who interviewed several witnesses with knowledge of the site; (2) and affidavit from Robert Conklin, general contractor, in which he says that for one of the projects associated with building permit evidence (Beach Street) never observed Excellence delivering supplies to the project and that the Owner stated that the warehouse was no longer used for the plumbing business; (3) an affidavit from Leslie Bernat which discusses the Owner stating that he would be retiring and that the business had “wound down”; (4) an affidavit from Jennifer Jones in which she says she has observed a racing car on site; (5) an affidavit from Franck Poisson stating that he sent a certified letter to the address on February 15, 2012, which was returned as undeliverable; (6) an affidavit from Brenda Bello saying that she has parked in front of the steel gage since June 2010 at various times and no one has ever complained or towed her car; (7) an affidavit from Emilie Poisson in which she states that she visited the site in 2012 she did not witness any commercial use; (8) an affidavit from Fernando Serna, who stated that he accompanied Emilie Poisson to the site in March 2012 and did not see any indication of an active business; (9) an affidavit from Bruno Pasquale who stated that in approximately 2009, the Owner stated that he had retired and given up his business; and (10) an affidavit from Jeffrey Tortora who stated that he saw people climbing the walls to gain access to the site, presumably for shelter; and

WHEREAS, the Appellant asserts that there is not any TPPN Category A evidence to support the Owner’s contention that there was an active business from 2009 forward; and

WHEREAS, the Opposition asserts that there is not any TPPN Category B evidence to support the Owner’s contention that there was an active business from 2009 forward; and

WHEREAS, the Appellant asserts that the National Grid and Con Edison account statements for RRPB that the Owner has submitted contradict the contention that Excellence continued an active business at the location until October 2012; and

WHEREAS, the Opposition asserts that there is not any TPPN Category C and D evidence to support the Owner’s contention that there was an active business from 2009 forward; and

WHEREAS, the Appellant states that the Sanborn maps should be disregarded since some are illegible and many relevant years are missing; and

WHEREAS, as to the Cole’s Directory listings, the Appellant questions why there were listings for 2010 to 2012, but not all other years prior and that the telephone number has changed or is inconsistent with that noted in the communication with Verizon regarding the telephone use history; and

WHEREAS, the Appellant questions the lack of specificity in the insurance documents in part because certain policy years cover three locations without specifying any for plumbing business activity; and

WHEREAS, further, the Appellant question whether the insurance companies ever inspected the sites; and

WHEREAS, the Appellant asserts that the Cassone leasing information, City Check Cashing documents, and fax cover sheet from the New York County District Attorney’s office do not establish business activity at the site; and

WHEREAS, the Appellant states that the Nahoum Affidavit concludes that he was no longer visiting the site on a daily basis after 2008; and

WHEREAS, the Appellant states that the information about leasing the parking lot to a film equipment and studio rental business from 2009 to 2011 undermines the Owner’s position as this was an unlawful change of use, even if it were substantiated; and

WHEREAS, the Appellant also asserts that the lease to RRPB does not demonstrate active or related business activity for the period from 2010 to 2012; and

WHEREAS, finally, the Appellant cites to the Owner’s statements in a deposition for the District Attorney in which he states that he did not have wages, employees or business from 2009 to 2011; and

WHEREAS, as to the period from 1982 to 1984, the Appellant states that the Owner states that he began to renovate the property in 1982, completing them in 1983, but that a New York City tax photograph from 1983 reflects the building was abandoned at that time; and

WHEREAS, further, the Appellant asserts that Cole’s Directory lists Excellence as becoming active in 1985; and

WHEREAS, the Appellant states that any use by Eastern Effects was not permitted as the only non-conforming use permitted as to change the use a new CO authorizing it and a Department of Consumer Affairs license was required to substitute a new non-conforming use for an existing non-conforming use; and

WHEREAS, the Appellant asserts that inferences should be drawn from the failure to produce relevant material documents and witnesses; and

WHEREAS, in pursuit of additional information, the Appellant requested the Board to issue subpoenas for records and documents; and

WHEREAS, by letter dated May 5, 2014, the Board’s counsel responded by saying that New York City Charter Section 663 limits the Board’s subpoena authority to testimony and not documents and that the Board has the discretion to exercise its authority to subpoena witnesses, which it has chosen not to do; and

- The Legal Standard

WHEREAS, the Appellant states that the overriding public policy in zoning is aimed at the elimination of non-conforming uses while balancing the interest of not depriving business owners of their businesses; and

WHEREAS, in order to establish the standard for cessation of the use, the Appellant relies on the court’s decision in Toys R Us; and

WHEREAS, specifically, the Appellant is not concerned with the question of whether Excellence once existed as a business at the site, but whether it was continuously active

MINUTES

there; and

WHEREAS, the Appellant states that the Toys R Us court emphasized that ZR § 52-61 did not equate with the complete stoppage of all business activity at the site and that the Zoning Resolution does not contemplate a complete cessation but rather, the court established that a nonconforming use can be used to sustain a use that is detrimental to the zoning plan for the community *only* if it remains *active*; and

WHEREAS, the Appellant finds that the court emphasized that the evidence to demonstrate a continuation of activity that is in derogation of local zoning must be of an *active* nature to promote the protection of owners of ongoing viable businesses and does not protect businesses that are dormant and exist in name only; and

WHEREAS, the Appellant cites to Toys 'R' Us to support its position that intent, for one thing, is not a factor in the non-conforming use analysis: "intent to resume active operations *shall not affect* the determination whether a nonconforming use has been discontinued;" and

WHEREAS, the Appellant asserts that the law views non-conforming uses as detrimental to a zoning scheme and the overriding policy of zoning in New York State is for the reasonable restriction and eventual elimination of non-conforming uses See Matter of Syracuse Aggregate Corp. v. Weise, 51 N.Y.2d 278; and

WHEREAS, the Appellant asserts that evidence the Owner has produced does not demonstrate the presence of an *active* business between 1982 and 1984 at the site or show how there was an active continuation of business after 2009, and, even more specifically, since 2011; and

WHEREAS, the Appellant asserts that the Owner's lack of evidence contrasts with eyewitness accounts, photographs and other documentary evidence; and

WHEREAS, the Appellant asserts that even though certain evidence may fit within the preferred categories of DOB's TPPN 14 of 1988, it does not establish an active use because, for example, a minimal amount of electricity or evidence of parked vehicles is not sufficient to overcome the basic legal principles governing the extinguishment of non-conforming use; and

- ZR § 52-332

WHEREAS, the Appellant introduced an argument that even if there were a legal non-conforming use, the outdoor Use Group 16 use could not be maintained as a Use Group 6 use; and

WHEREAS, however, the Appellant did not proceed with its argument that in accordance with ZR § 52-332, whenever a non-conforming use that is located within a completely enclosed building is changed to another non-conforming use, no activity related to such changed non-conforming use is permissible outside of such building and, thus, the proposed outdoor use is not permitted; and

THE DEPARTMENT OF BUILDINGS' POSITION

WHEREAS, DOB states that the Owner has submitted sufficient evidence to show continuous non-conforming commercial use at the site and the Appellant has not

demonstrated that the non-conforming commercial use was discontinued for a continuous period of two years or more; and

WHEREAS, DOB notes that where a Certificate of Occupancy exists permitting a non-conforming use, as is the case here with the 1967 Certificate of Occupancy, it presumes the non-conforming use has continued unless it receives a substantiated complaint that the non-conforming use has ceased for more than two years; and

WHEREAS, accordingly, in this case, the Appellant provided DOB with affidavits from neighbors who claim that they have not seen commercial activity at the site since approximately 2001; and

WHEREAS, at the Appellant's request, DOB conducted an audit which led to the issuance of an Intent to Revoke letter with an objection citing to ZR § 52-61 to "confirm that the non-conforming use has not been discontinued;" and

WHEREAS, DOB states that in response, the Owner provided sufficient information to show that the non-conforming use had not discontinued for more than two years; and

WHEREAS, DOB concluded that the Appellant has submitted sufficient evidence, in keeping with the TPPN and DOB precedent, to establish the use and its continuity as required by ZR § 52-61; and

WHEREAS, conversely, DOB notes that the Appellant submitted affidavits and other uncorroborated evidence; and

WHEREAS, as to the Appellant's concerns about the testimony to the District Attorney, DOB is not persuaded that such isolated statements in a different forum, made for a different purpose, should trump the credible evidence the Owner has submitted to support its claim of continuance; and

WHEREAS, DOB agrees with the Appellant that Sanborn maps are not listed on the TPPN as a type of documentation accepted in support of existing use because the source of the map information is unknown; thus, the maps are considered highly probative as to use and the absence of maps that show the site as commercial is not significant; and

WHEREAS, DOB takes the position that regardless of whether the site was used by Excellence in Plumbing or RRPB, the use by either in a continuing non-conforming use of the site; and

WHEREAS, DOB asserts that the Appellant's concern that the premises as unlawfully from September 2009 to August 2011 to the extent it was leased in part by Eastern Effects for the storage of commercial trucking vehicles, is misplaced since the use is only documented by an affidavit and its nature is unclear; and

WHEREAS, accordingly, DOB concludes that the Appellant has not demonstrated that the alteration permits for a continuing non-conforming use contravene ZR 52-61; and

WHEREAS, as to the Appellant's supplemental argument that ZR § 52-332 does not allow a change in use from a Use Group 16 to a Use group 6, DOB states that the Appellant is incorrect; and

WHEREAS, specifically, DOB states that ZR § 52-332(a) allows a non-conforming use listed in Use Group 16 to

MINUTES

change to either a conforming use or any use listed in Use Group 6, as proposed; and

CONCLUSION

WHEREAS, the Board agrees with DOB that the Owner has met its burden of establishing that the non-conforming use has been in continuous use, without any two-year interruption during all relevant periods addressed in the appeal; and

WHEREAS, specifically, the Board finds the evidence submitted by the Owner sufficient to establish that the use of the site has been continuous since his ownership in 1982 and from 2001 to 2012, without any two-year interruption since that date; and

WHEREAS, as to the evidence submitted by the Owner to establish the continuous use, the Board notes that the Owner provided evidence in the form of photographs, leases, invoices, accounting statements, tax documents, copies of checks, certificates of liability insurance, and letters, and that some combination of this evidence was provided for each year beginning from 2001 until 2012 and later without any gaps; and

WHEREAS, the Board notes that the Owner submitted evidence for each year from 2001 and does not rely on the affidavits alone for any period, in contrast to the Appellant who relies on affidavits as its sole evidence; and

WHEREAS, instead, the Board notes that the Owner relies, in part, on evidence from neutral third-party sources for photographs and records; and

WHEREAS, accordingly, the Board does not need to rely on the affidavits from the Owner and is not persuaded by the Appellant's affidavits which, on their own, are not compelling enough evidence to refute the preferred forms of evidence that the Owner has submitted; and

WHEREAS, as to the question of veracity surrounding certain evidence in light of the Owner's statements to the Manhattan District Attorney, the Board agrees with DOB that those statements were made for a different purpose and in a different forum and, thus, do not have bearing on the evidence submitted to DOB within the Board's process; and

WHEREAS, further, the Board finds that the passages that the Appellant chose may have different meaning when read with the remainder of the statement and that they are not in direct contradiction with other evidence and statements; and

WHEREAS, the Board notes that its analysis is not one of criminal court, taxation, or business practices, but rather involved the review of evidence pursuant to ZR § 52-61; and

WHEREAS, the Board notes that the current Certificate of Occupancy, dated April 6, 1967, permits loading and storage of boiler equipment and non-storage for motor trucks at the first floor and offices at the mezzanine; and

WHEREAS, the Board accepts that a business such as Excellence and the use described on the Certificate of Occupancy is not a conventional commercial business with standard activity and traffic flow; and

WHEREAS, the Board notes that DOB has established guidelines to assess a range of non-conforming uses and finds that the Owner's evidence is relevant to the question of continuity and sufficient, when considered in the aggregate;

and

WHEREAS, the Board notes that it is unclear what amount of activity the Appellant suggests would be required for such work; and

WHEREAS, the Board is not persuaded by the Appellant's reading of Toys 'R' Us that Excellence's operations were inactive to an extent that the continuity was lost; and

WHEREAS, the Board accepts DOB's conclusion that neither the lease to Eastern Effects nor RRPB affects the assessment of continuity; and

WHEREAS, in sum, the Board concludes that the use has been continuous at the site in accordance with ZR § 52-61.

WHEREAS, the Board agrees with DOB's interpretation of ZR § 52-322 and accepts the conclusion that the outdoor use may be converted from Use Group 16 to Use Group 6; and

Therefore it is Resolved that this appeal, challenging a Final Determination issued on October 1, 2013 is *denied*.

Adopted by the Board of Standards and Appeals, August 19, 2014.

92-14-A

APPLICANT – Greenberg Traurig, LLP, for MTS Propco. LPC/Rockpoint Group, LLC, owner.

SUBJECT – Application May 2, 2014 – Variance pursuant to Multiple Dwelling Law Section 310(2)(c) to waive court requirements and legally required windows under MDL Sections 26 and 30 for the construction of a residential addition to an existing hotel . C6-7/C6-6(MID) zoning district.

PREMISES AFFECTED – 790 7th Avenue, West 51st Street, Broadway, West 52nd Street and 7th Avenue, Block 1023, Lot 29, Borough of Manhattan.

COMMUNITY BOARD #10M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Commissioner Hinkson, Commissioner Ottley-Brown and Commissioner Montanez3
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings Application (“DOB”), dated April 10, 2014, acting on DOB Application No. 121184547 reads, in pertinent part:

The court for the existing transient hotel that is formed by the proposed new building on the same lot is less than the area required; contrary MDL 26;

Legally required windows for the existing transient hotel do not open onto a lawful yard, court, or space above a setback; contrary to MDL 30; and

WHEREAS, this is an application pursuant to Multiple Dwelling Law (“MDL”) § 310(2)(c), to permit, on a site located partially within a C6-7 zoning district and partially

MINUTES

within a C6-6 zoning district, within the Theater Subdistrict of the Special Midtown District, a variance of the court requirements in order to allow the enlargement of the existing building used primarily as a transient hotel, to permit construction of a residential addition, contrary to MDL §§ 26 and 30; and

WHEREAS, a public hearing was held on this application on July 15, 2014, after due notice by publication in *The City Record*, and then to decision on August 19, 2014; and

WHEREAS, the site and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, the subject site is the city block bounded by Broadway, West 52nd Street, Seventh Avenue, and West 51st Street; it is located partially within a C6-6 zoning district and partially within a C6-7 zoning district, within the Theater Subdistrict of the Special Midtown District; and

WHEREAS, the site has 201.04 feet of frontage along Broadway, 170.92 feet of frontage along West 52nd Street, 200.83 feet of frontage along Seventh Avenue, 161.72 feet of frontage along West 51st Street, and 33,410 sq. ft. of lot area; and

WHEREAS, the site is occupied by a four-story base building (the "Podium"), which covers the entire site and contains retail uses (Use Group 6), a parking garage (Use Group 8), and the lobby of the hotel (Use Group 5), which for a portion of the site rises 22 stories; the existing floor area of the site is approximately 358,681 sq. ft. (10.7 FAR); the building was constructed prior to December 15, 1961; and

WHEREAS, the applicant proposes to modify the existing building to enhance the hotel and retail space, and to construct a 49-story residential tower with a building height of approximately 601 feet, 109 dwelling units, and a total residential floor area of 165,533 sq. ft.; and

WHEREAS, the applicant states that the construction of the residential tower will form an L-shaped open area between the tower and the hotel portion of the building; the open area is comprised of two overlapping, rectangular inner courts (as that term is defined in MDL § 4(32)): the court to the west of the hotel will have an area of 2,207 sq. ft. and the court to the south of the hotel will have an area of 2,078 sq. ft.; the combined, overlapping courts (the "Inner Court") have a total area of approximately 3,832 sq. ft.; and

WHEREAS, the applicant notes that per MDL § 26(7), the maximum required area for an inner court is 1,200 sq. ft.; and

WHEREAS, the applicant states that 230 legally required hotel windows will face the Inner Court, and 169 of the 230 windows will be separated from the residential tower by distance of 20 horizontal feet; and

WHEREAS, the applicant notes that, per MDL § 26(7), within an inner court, a minimum horizontal distance of 30 feet is required between a legally required window and any wall opposite such window; in addition, per MDL § 30(2),

every living room in a multiple dwelling¹ shall have at least one window directly opening onto a street or upon a lawful yard, court, or space above setback located on the same lot as that occupied by the multiple dwelling; as such, with respect to 169 windows, the Inner Court will not be a lawful court, contrary to MDL § 30(2); and

WHEREAS, accordingly, the applicant seeks a variance to provide a horizontal distance of 20 feet instead of 30 feet, as required by MDL §§ 26(7) and 30; and

WHEREAS, pursuant to MDL § 310(2)(c), the Board has the authority to vary or modify certain provisions of the MDL for multiple dwellings erected or to be erected or altered pursuant to plans filed on or after December 15, 1961, provided that the Board determines that strict compliance with such provisions would cause practical difficulties or unnecessary hardships, and that the spirit and intent of the MDL are maintained, public health, safety and welfare are preserved, and substantial justice is done; and

WHEREAS, as noted above, the existing building at the site was constructed prior to 1961; however, MDL § 310(2)(c) is applicable to the proposal, because it results in a newly-created non-compliance with respect to MDL §§ 26(7) and 30; and

WHEREAS, pursuant to MDL § 310(2)(c) the Board may vary or modify provisions or requirements related to: (1) height and bulk; (2) required open spaces; and (3) minimum dimensions of yards or courts; and

WHEREAS, in varying or modifying the MDL pursuant to MDL § 310(2)(c), the Board must also find that: (i) the open areas for light and ventilation are "at least equivalent in area to those required" under the MDL; (ii) there are unique physical or topographical features, peculiar to and inherent in the particular premises, including irregularity, narrowness or shallowness of the lot size or shape; and (iii) such variance would be permitted under the Zoning Resolution; and

WHEREAS, the Board notes that MDL § 26(7) specifically relates to the minimum dimensions of courts; therefore the Board has the power to vary or modify the subject provision pursuant to MDL § 310(2)(c)(3); and

WHEREAS, the applicant represents that an unnecessary hardship would result from strict compliance with the MDL; and

WHEREAS, to demonstrate that strict compliance with the requirements of MDL §§ 26(7) and 30 would cause unnecessary hardships, the applicant examined the following development scenarios: (1) the construction of a residential tower that provides the required 30-foot distance for all hotel windows (the "As-of-Right Tower"); and (2) the construction of a residential tower that provides the required 30-foot distance between the hotel windows and the eastern façade of the tower (80 rooms) and a 20-foot distance between the hotel windows and the northern façade of the tower (the

¹ Pursuant to MDL § 4(9), transient hotels are considered "class B" multiple dwellings; therefore the proposed hotel use must comply with the relevant provisions of the MDL.

MINUTES

“Alternative Tower”); and

WHEREAS, the applicant represents that the As-of-Right Tower would have a building height of approximately 769 feet (168 feet taller than the proposal) and contain 63 stories and 121 dwelling units; and

WHEREAS, the applicants notes that despite the As-of-Right Tower’s significant increase in height over the proposed tower, it would not utilize 15,015 sq. ft. of available floor area; further, the increased height would require thicker shear walls and additional elevator stops and mechanical systems, at significant cost; and

WHEREAS, the applicant represents that the As-of-Right Tower yields 32,939 fewer sq. ft. of marketable space than the proposal, resulting in a loss of \$96,476,026; accordingly, the applicant concludes that there is a practical difficulty in constructing the As-of-Right Tower; and

WHEREAS, the applicant represents that the Alternative Tower would have a building height of approximately 685 feet (84 feet taller than the proposal) and contain 56 stories and 116 dwelling units; as with the As-of-Right Tower, the Alternative Tower’s increased height would require thicker shear walls and additional elevator stops and mechanical systems, at significant cost; and

WHEREAS, the applicant represents that the Alternative Tower yields 9,903 fewer sq. ft. of marketable space than the proposal, resulting in a loss of \$51,351,966; accordingly, the applicant concludes that there is a practical difficulty in constructing the Alternative Tower as well; and

WHEREAS, based on the above, the Board agrees that the applicant has established a sufficient level of unnecessary hardship in complying with the requirements of MDL §§ 26(7) and 30; and

WHEREAS, the applicant states that the requested variance of MDL §§ 26(7) and 30 is consistent with the spirit and intent of the MDL, and will preserve public health, safety and welfare, and substantial justice; and

WHEREAS, the applicant contends that the primary intent of the court regulations of the MDL is ensure that adequate light and ventilation is provided to rooms in which people spend a substantial amount of time, such as sleeping rooms, living rooms within Class A permanent residential apartments or certain Class B residences, such as dormitories; and

WHEREAS, the applicant asserts that this intent is not substantially furthered by a strict application of the 30-horizontal distance requirement to the subject site; specifically, the applicant states that visitors to the subject hotel—which is in the heart of Times Square—are unlikely to spend a significant amount of time during daylight hours in their hotel rooms; accordingly, it is immaterial to such guests whether light is provided from a space with a distance of 30 feet or 20 feet; further, because the area of the Inner Court is more than twice the maximum required area for a court that complies with the MDL, guests at the subject hotel may receive even more light than guests staying rooms with windows facing minimally compliant courts; and

WHEREAS, the applicant also notes that the 20-foot

horizontal distance provided by the Inner Court is equivalent to the minimum rear yard depth that would be required for a Use Group 5 hotel under the Zoning Resolution; thus, where a transient hotel relies on a yard rather than court for required light and ventilation, such yard is typically no more than 20 feet from the adjoining rear lot line; and

WHEREAS, based on the above, the Board finds that the proposed variance to MDL §§ 26(7) and 30 will maintain the spirit and intent of the MDL, preserve public health, safety and welfare, and ensure that substantial justice is done; and

WHEREAS, the applicant states that the open areas for light and ventilation are “at least equivalent in area to those required” under the MDL; and

WHEREAS, as noted above, the applicant asserts that although the minimum distance of the proposed open area is less than required by the MDL, the size of the open area is well in excess of the maximum required area for a court; and

WHEREAS, the Board finds that the proposal provides an equivalent open area for light and ventilation; and

WHEREAS, as to whether there are unique physical or topographical features, peculiar to and inherent in the particular premises, including irregularity, narrowness or shallowness of the lot size or shape, the applicant contends the existing pre-1961 hotel building at the site constitutes a unique physical condition, as that term has been interpreted by the Board; and

WHEREAS, the Board agrees that the existing building at the site constitutes a unique physical condition at the site; and

WHEREAS, finally, the applicant represents and the Board accepts that the proposed MDL variance results in a building that is permitted under the applicable provisions of the Zoning Resolution; and

WHEREAS, accordingly, the Board finds that the Appellant has submitted adequate evidence in support of the findings required to be made under MDL § 310(2)(c) and that the requested variance of MDL §§ 26(7) and 30 is appropriate, with certain conditions set forth below.

Therefore it is Resolved, that the decision of the DOB, dated April 10, 2014, is modified and that this appeal is granted, limited to the decision noted above, on condition that construction will substantially conform to the plans filed with the application marked, "Received May 2, 2014" ten (10) sheets; and on further condition:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB objections related to the MDL;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 19, 2014.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner, dated June 27, 2012, acting on Department of Buildings (“DOB”) Application No. 320200117, reads in pertinent part:

Proposed two-family residence (UG-2) in manufacturing zone is contrary to Section 42-10; Prior residential use was discontinued for more than two years and cannot be reestablished, per Section 52-61; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site within an M1-1 zoning district, the legalization of an existing three-story, two-family residential building (Use Group 2), contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on February 4, 2014, after due notice by publication in the *City Record*, with a continued hearing on May 12, 2014, and then to decision on August 19, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan and Commissioner Montanez; and

WHEREAS, Community Board 6, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the north side of Coffey Street, between Ferris Street and Conover Street, within an M1-1 zoning district; and

WHEREAS, the site has a width of 25 feet, a depth of 100 feet, a lot area of 2,500 sq. ft.; and

WHEREAS, the site is occupied by a three-story residential building with 3,750 sq. ft. of floor area (1.5 FAR) and two dwelling units; and

WHEREAS, the applicant notes that the building was

MINUTES

constructed in approximately 1909 and was, as according to its only certificate of occupancy (No. 93555, issued September 13, 1939), previously occupied by six families; and

WHEREAS, the applicant states that the current owner purchased the property in January 2010 and, in January 2011, obtained permits to renovate the building and convert it to a two-family residence; and

WHEREAS, the applicant states that work proceeded under the permits in 2011 and was substantially completed by October 2011, when DOB determined that the permits were issued in error and that the residential use became non-conforming as of December 15, 1961, ceased in October 1977, and was not permitted to resume, per ZR § 52-61; and

WHEREAS, accordingly, the applicant now seeks a use variance to legalize the renovated two-family building; and

WHEREAS, the applicant represents that, per ZR § 72-21(a), the following are unique physical conditions which create unnecessary hardship in developing the site in conformance with applicable regulations: (1) the history of residential use on the site; and (2) the size and narrowness of the site; and

WHEREAS, the applicant states that practical difficulties arise from the historic use of the site for residential purposes; and

WHEREAS, specifically, the applicant states that a residential building has occupied the site for more than 100 years and was recently renovated to reduce the number of dwelling units from six to two; and

WHEREAS, as a result of such renovation, the building is wholly unsuitable for a conforming use, in that it does not have a loading dock, an elevator or a sprinkler system, it has limited floor-to-ceiling heights, and its floors are incapable of carrying the loads imposed by a modern as-of-right (manufacturing or office) use; its mechanical and electrical systems would have to be upgraded as well; and

WHEREAS, the applicant states that, even if the site did not have a history of residential use and even if the building had not been recently redeveloped as a residence, the site's small size and narrowness makes it undesirable for a modern manufacturing use, which requires large, uniform floor plates and wide frontages to accommodate loading; and

WHEREAS, in support of this assertion, the applicant represents that all nearby manufacturing sites have between 65 and 200 feet of lot width compared to the site's width of only 25 feet; and

WHEREAS, as for the feasibility of a commercial use, the applicant states that the site has minimal vehicular and foot traffic and is not marketable for retail or office uses; and

WHEREAS, the Board finds that the site has a combination of unique physical conditions including its history of residential use and its small size and narrowness, which, in the aggregate, create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations;

WHEREAS, to satisfy ZR § 72-21(b), in addition to the proposal, the applicant examined the economic feasibility of a building with conforming office and retail uses, and concluded

that only the proposal will result in a reasonable return; and

WHEREAS, based upon its review of the study, the Board agrees that because of the subject lot's unique physical condition, there is no reasonable possibility that development in strict conformance with applicable use requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, the applicant states that residential use is predominant along the stretch of Coffey Street where the site is located, despite its M1-1 designation and that the only building without dwellings near the site is a one-story warehouse directly across the street; and

WHEREAS, the applicant notes that neighboring blocks include multiple dwellings, single-family homes, and an array of low- to mid-rise commercial and industrial buildings; and

WHEREAS, the applicant states that an R5 zoning district is only 150 feet from the site, and that most residential buildings along Coffey Street were constructed around the time of the subject building and many have remained occupied throughout the years; accordingly, the proposal, despite being a use variance, would be more consistent with the character of the neighborhood than a conforming use; and

WHEREAS, as to bulk, as noted above, the three-story building has been at the site since the early 1900s and, as such, is similar in appearance and size to the other nearby row houses of a similar vintage; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that, consistent with ZR § 72-21(d), the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the site's historic residential use, narrowness, and small lot size; and

WHEREAS, finally, the Board finds that the proposal is the minimum variance necessary to afford relief, as set forth in ZR § 72-21(e); and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board conducted an environmental review of the proposed action and documented relevant information about the project in the Final Environmental Assessment Statement ("EAS") CEQR No. 13-BSA-008K, dated July 26, 2012; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land

MINUTES

Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21, and grants a variance to permit, on a site within an M1-1 zoning district, the legalization of an existing three-story, two-family residential building (Use Group 2), contrary to ZR § 42-10; on condition that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received July 27, 2012" – four (4) sheets; and on further condition:

THAT the following are the bulk parameters of the building: a floor area of 3,750 sq. ft. of floor area (1.5 FAR); a maximum building wall height of 31'-6"; and two dwelling units, as indicated on the BSA-approved plans;

THAT substantial construction shall be completed in accordance with ZR § 72-23;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 19, 2014.

311-12-BZ

CEQR #13-BSA-053K

APPLICANT – Eric Palatnik, P.C., for 964 Dean Acquisition Group LLC, owner.

SUBJECT – Application November 19, 2013 – Variance (§72-21) to permit the residential conversion of an existing factory building, contrary to use regulations (§42-00). M1-1 zoning district.

PREMISES AFFECTED – 964 Dean Street, south side of Dean Street between Classon and Franklin Avenues, Block 1142, Lot 12, Borough of Brooklyn.

COMMUNITY BOARD #8BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Commissioner Hinkson, Commissioner Ottley-Brown and Commissioner Montanez3
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated October 5, 2012 acting on DOB Application No. 320536997, reads in pertinent part:

Proposed Use Group 2 residential use in an M1-1 zoning district is contrary to Section 42-00 of the Zoning Resolution; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site within an M1-1 zoning district, the conversion of portions of the second, third, and fourth story of an existing four-story manufacturing building to residential use (Use Group 2), contrary to ZR § 42-00; and

WHEREAS, a public hearing was held on this application on December 10, 2013, after due notice by publication in the *City Record*, with continued hearings on April 29, 2014, and July 15, 2014, and then to decision on August 19, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by former Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 8, Brooklyn, recommends disapproval of the application; and

WHEREAS, the subject site located on the south side of Dean Street, between Classon Avenue and Franklin Avenue, within an M1-1 zoning district; and

WHEREAS, the site has approximately 78 feet of frontage along Dean Street, 120 feet of lot depth, and approximately 9,350 sq. ft. of lot area; and

WHEREAS, the site is occupied by an four-story manufacturing building with approximately 26,606 sq. ft. of floor area (2.85 FAR); and

WHEREAS, the applicant notes that the building was constructed around the early 20th Century, and has been occupied at various times by a confectionary, a lamp manufacturer, an automobile and electrical parts manufacturer, residential lofts, and a commercial printing company; most recently, portions of the building have been occupied as artists' studios; and

WHEREAS, initially, the applicant proposed to convert the entire building to residential use (26,526 sq. ft. of residential floor area (2.84 FAR) and 13 dwelling units); however, in response to the Board's concerns, the proposal was modified to reflect the conversion of the first story to office use (Use Group 6) and the conversion of the second, third, and fourth stories of the building to residential use (Use Group 2), resulting in a reduction in proposed dwelling units from 13 to nine; and

WHEREAS, thus, the applicant now proposes 7,710 sq. ft. of commercial floor area (0.83 FAR) on the first story

MINUTES

and a total of 18,522 sq. ft. of residential floor area (1.98 FAR) on the second, third, and fourth stories, for a combined floor area of 26,232 sq. ft. (2.81 FAR); and

WHEREAS, because, per ZR § 42-00, Use Group 2 is not permitted within the subject M1-1 zoning district, the applicant seeks a use variance; and

WHEREAS, the applicant states that, per ZR § 72-21(a), the following are the site's unique physical conditions, which create an unnecessary hardship in developing the site in conformance with applicable zoning district regulations: (1) the existing building's obsolete characteristics; and (2) the site's limited street access; and

WHEREAS, the applicant states that the building is obsolete for its original industrial purpose; as noted above, the building has been occupied by a variety of commercial and manufacturing uses over the years; however, the building is no longer attractive to conforming use on the upper stories in particular due to its relatively small floorplate, column spacing, archaic layout, inadequate ceiling heights, narrow stairwells and elevator, and its lack of loading berth; and

WHEREAS, as to the size of the floorplate, which is approximately 7,720 sq. ft. on the first, second, and third stories, and 3,368 sq. ft. on the fourth story, the applicant provided a land use study, which reflects that nearby manufacturing and warehouse uses have significantly larger floorplates than the subject building; and

WHEREAS, as to the column spacing and layout of the floors, the applicant asserts that the ubiquitous columns hamper the use of the building for as-of-right uses; specifically, for manufacturers, the columns form narrow maneuvering lanes that inhibit the use of trucks, forklifts, pallet jacks, and hand jacks, making the space inefficient and difficult to market; for retailers, the column condition interferes with the presentation of merchandise and reduces the amount of usable floorspace; storage tenants would also find the space unattractive, because they prefer large, open floorplates, which permit the efficient movement of goods within the facility; and

WHEREAS, as to the ceiling heights, the applicant states that ceiling heights vary from 8'-0" to 11'-0"; and

WHEREAS, the applicant asserts that such heights, when combined with the required 1'-6" clearance between sprinkler heads and any manufacturing operations, render the upper stories wholly unsuitable for conforming uses, such as a wholesale showroom, which would typically have a minimum ceiling height of 14'-0" or a warehouse, which would typically have a minimum ceiling height of 25'-0" to allow the stacking of goods on pallets; and

WHEREAS, as to the existing stairwells and elevator, the applicant asserts that they are inadequate to accommodate the material and personnel movement requirements of a conforming use; and

WHEREAS, specifically, the applicant states that the portions of the stairwells are only 3'-5" in width, which is three inches less than the minimum required under the building code for the manual transport of goods and equipment; in addition, the stairs are steeper than is permitted

for a commercial or manufacturing use (but sufficient for residential use); and

WHEREAS, the applicant also states that the existing elevator has a width of 8'-2", a depth of 8'-4", and a maximum capacity of 4,000 lbs.; in contrast, freight elevators for manufacturing buildings often have depths ranging and from 10'-0" to 22'-0" and capacities of approximately 20,000 lbs.; the applicant notes that even if a modern elevator were installed, the existing elevator shaft is too small to accommodate an elevator that would be suitable for manufacturing use; and

WHEREAS, as to the lack of loading berth, the applicant states that whereas a viable manufacturing or warehouse building would have a loading berth with a depth of approximately 45'-0", the subject building has no loading berth and insufficient space to accommodate a loading berth; and

WHEREAS, in addition to the building's lack of loading berth, the applicant also states that the site's limited street access makes the site unsuitable for the delivery of goods by truck, which is required for both manufacturing and warehouse uses; and

WHEREAS, specifically, the applicant states that the site's only frontage is located along Dean Street, which is a narrow, one-way street; as such, trucks would be forced to block vehicular and pedestrian traffic while loading and unloading, which is both inefficient and potentially hazardous; and

WHEREAS, thus, the applicant contends that there are physical conditions that create practical difficulties in using the building and the site for a conforming use; and

WHEREAS, the applicant also contends that such physical conditions are unique, and submitted a land use study in support of that contention; and

WHEREAS, the applicant states that the study examined 29 sites with existing buildings with the subject M1-1 zoning district in the area bounded by Grand Avenue, Atlantic Avenue, Bergen Street, and Franklin Avenue; according to the study, each site had one or more of the following characteristics, which made it distinguishable from the subject site: (1) frontage on a major thoroughfare (rather than a narrow, one-way street); (2) availability of off-street parking (rather than no off-street parking at the site); (3) larger floorplates than the subject building; and (4) lawful non-conforming residential use; and

WHEREAS, based upon the above, the Board finds that the aforementioned unique physical conditions, when considered in the aggregate, create unnecessary hardship and practical difficulty in developing the site in conformance with the use regulations; and

WHEREAS, to satisfy ZR § 72-21(b), the applicant assessed the financial feasibility of three scenarios: (1) an as-of-right office building; (2) a lesser variance with office on the first and second stories and residential on the third and fourth stories; and (3) the proposal; and

WHEREAS, the applicant concluded that only the proposal would result in a sufficient return; and

MINUTES

WHEREAS, at hearing, the Board directed the applicant to further support its assertion that the subject building was unsuitable for professional office space; and

WHEREAS, in response, the applicant's consultant analyzed 12 nearby office buildings and concluded that each of the 12 was occupied by not-for-profit institutions or government offices; in addition, the majority of buildings studied had a lobby with direct access to the street frontage, which the subject building lacks; as such, the applicant concluded that nearby buildings were not used as professional office space despite having layouts that would be more conducive to professional offices than the subject building; and

WHEREAS, based upon its review of the record, the Board has determined that because of the subject site's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed use will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, the applicant represents that the immediate area is characterized by a mix of industrial, commercial and residential uses, with a predominance of residential use, including 69 existing dwelling units within 400 feet of the site and an additional 59 dwelling units approved but not yet constructed; and

WHEREAS, the applicant notes that the subject block is mapped M1-1 only in the mid-block and that R6 zoning districts with commercial overlays are mapped along the eastern (Franklin Avenue) and western (Classon Avenue) sides of the block; and

WHEREAS, as for the immediately adjacent sites, the applicant states that directly east of the site is a three-story warehouse, directly west of the site is a vacant lot used for parking, directly south of the site are two four-story multiple dwellings, and directly north of the site (across Dean Street) is a fenced bus parking lot; and

WHEREAS, as to bulk, the applicant states that although the proposed 2.81 FAR exceeds the maximum permitted FARs in the subject M1-1 district (1.0 FAR for manufacturing uses; 2.4 FAR for community facility uses), the building has existed at the site for nearly 100 years; further, the applicant states that the envelope will not change under the proposal; and

WHEREAS, the applicant notes that the site lies within an Industrial Business Zone and that its proposed use of 85 percent of the building's floor area for manufacturing uses is consistent with that designation; likewise, the applicant asserts that the proposed retail uses will complement (rather than duplicate) local commercial uses and add up to 1,300 jobs to the local economy; and

WHEREAS, accordingly, the Board finds that this action will neither alter the essential character of the surrounding neighborhood nor impair the use or development

of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, likewise, the Board finds, per ZR § 72-21(d), that the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the unique physical characteristics of the site; and

WHEREAS, finally, the applicant asserts and the Board agrees that the current proposal is the minimum necessary to offset the hardship associated with the uniqueness of the site and to afford the owner relief, in accordance with ZR § 72-21(e); as noted above, the scope of the use variance was reduced in response to the Board's concerns; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Sections 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 13BSA053K, dated July 8, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, on a site within an M1-1 zoning district, the conversion of portions of the second, third, and fourth story of an existing four-story manufacturing building to residential use (Use Group 2), contrary to ZR § 42-00, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received August 13, 2014" – nine (9) sheets; and *on further condition*:

THAT the bulk parameters of the building will be as follows: four stories; a maximum of 7,710 sq. ft. of commercial floor area (0.83 FAR) on the first story and a maximum of 18,522 sq. ft. of residential floor area (1.98 FAR)

MINUTES

on the second, third, and fourth stories, for a combined maximum floor area of 26,232 sq. ft. (2.81 FAR); a maximum building height of 45'-0"; a minimum rear yard depth of 20'-11"; and a maximum of nine dwelling units;

THAT DOB will review and approve the required light and ventilation for the dwelling units;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT substantial construction will be completed in accordance with ZR § 72-23;

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 19, 2014.

277-13-BZ

CEQR #14-BSA-048M

APPLICANT – Jeffrey A. Chester, Esq./GSHLLP, for SoBro Development Corporation, owner.

SUBJECT – Application September 27, 2013 – Variance (§72-21) to permit a proposed development of a 12-story, 125 unit residential building with two floors of community facility/church space, contrary to floor area (§23-145), lot coverage (§23-145), and base and building height (§23-633). R7-2 zoning district.

PREMISES AFFECTED – 1769 Fort George Hill, bounded by Fort George Hill to the east an NYCTA No.1 train tracks to the west, Block 2170, Lots 180 & 190, Borough of Manhattan.

COMMUNITY BOARD #12M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Commissioner Hinkson, Commissioner Ottley-Brown and Commissioner Montanez3

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated September 18, 2013, acting on DOB Application No. 120024534, reads in pertinent part:

ZR 23-145 – Proposed building exceeds maximum allowable floor area ratio of 4.0 for residential portion;

ZR 23-145 – Proposed lot coverage exceeds maximum allowable lot coverage of 65 percent;

ZR 23-52 – Proposed building does not meet the minimum rear yard requirement;

ZR 23-633 – Proposed building does not comply with the maximum height and setback regulations; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site within a R7-2 zoning district, the construction of a 12-story mixed residential and community facility affordable housing building that does not comply with the zoning requirements for floor area ratio (“FAR”), lot coverage, rear yards, and height and setback, contrary to ZR §§ 23-145, 23-52, and 23-633; and

WHEREAS, a public hearing was held on this application on May 6, 2014, after due notice by publication in the *City Record*, with continued hearings on June 17, 2014, and July 15, 2014, and then to decision on August 19, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by former Chair Srinivasan, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 12, Manhattan, recommends disapproval of this application, citing concerns regarding the proposed height, the affordability of the units, and the increased parking demand that will be created by the proposed building; and

WHEREAS, certain members of the surrounding community submitted testimony in opposition to the application (the “Opposition”), citing the following concerns: (1) the proposed height, which the Opposition contends is incompatible with the neighborhood context; (2) the excessive number of studio apartments; (3) the lack of sufficient parking in the neighborhood and the increased parking demand as a result of the proposal; (4) the amount of “green space” to be eliminated in connection with the proposal; (5) the suitability of the bedrock to carry the loads of the proposed building; (6) the risk of harm to persons and property associated with construction near a subway line; (7) the shadows that will be cast by the proposed building; and (8) the lack of affordability of the proposed apartments; and

WHEREAS, the application is brought on behalf of SoBro Development Corporation, the real estate development arm of the South Bronx Overall Economic Development Corporation, a not-for-profit organization, whose stated mission is to enhance the quality of life in the South Bronx by strengthening business and creating innovative economic, housing, educational, and career development programs for youth and adults; and

WHEREAS, the subject site is a narrow, crescent-shaped lot located on the west side of Fort George Hill approximately 155 feet south of the intersection of Nagle Avenue and Fort George Hill, within an R7-2 zoning district; and

WHEREAS, the site comprises Tax Lots 180 and 190, has approximately 456 feet of frontage along Fort George Hill, and 20,444 sq. ft. of lot area; and

WHEREAS, the site is vacant; available records indicate that it has never been developed; and

WHEREAS, the applicant proposes to construct a 12-story mixed residential (Use Group 2) and community facility (Use Group 4) building with 142,195 sq. ft. of floor area (6.97 FAR) (131,848 sq. ft. of residential floor area (6.46 FAR) and

MINUTES

10,347 sq. ft. of community facility floor area (0.51 FAR)), 73 percent lot coverage, 113 dwelling units, 57 parking spaces, a rear yard depth of 10'-0", and a building height of 146'-1" with no setback; and

WHEREAS, the applicant notes that the proposal is an affordable housing project, with an income range for the dwelling units of 40 percent to 130 percent of area median income, and financing primarily through the New York City Housing Development Corporation, with additional subsidies through the participation of the Department of Housing Preservation and Development, the New York State Energy Research and Development Authority, and Enterprise Community Partners; and

WHEREAS, in order to construct the building as proposed, applicant seeks the following waivers: (1) residential FAR (a maximum residential FAR of 4.0 is permitted, per ZR § 23-145); (2) lot coverage (a maximum residential lot coverage of 65 percent is permitted, per ZR § 23-145); (3) rear yard (a minimum rear yard depth of 15'-0" is required, per ZR § 23-52); and (4) height and setback (a maximum base height of 65'-0" is required with a 10'-0" setback and a maximum building height of 80'-0" is permitted, per ZR § 23-633); and

WHEREAS, the applicant notes that, originally, the proposal included 125 dwelling units (mostly studio and one-bedroom apartments) and only 44 parking spaces, which required a waivers of ZR §§ 23-22 and 25-23; and

WHEREAS, however, in response to concerns raised by the Board, the proposal was amended to provide a complying number of dwelling units and parking spaces; in addition, studio apartments were eliminated entirely from the proposal and the number of two- and three-bedroom apartments were increased; and

WHEREAS, the applicant states that, in accordance with ZR § 72-21(a), the following are unique physical conditions which create an unnecessary hardship in developing the site in compliance with applicable regulations: (1) the site's irregular shape; (2) its topography; (3) the adjacency of the elevated subway line; (4) its substandard soil composition; and (5) the presence of a transit easement; and

WHEREAS, the applicant states that the site is narrow and has a crescent shape, measuring 620 feet in length and only 46 feet in width at its widest point; and

WHEREAS, the applicant states that, due to the irregularity of the site, a complying building would be an elliptical building with inefficient floorplates and unmarketable unit layouts; in particular, a double-loaded corridor cannot be constructed on the site; and

WHEREAS, further, the applicant states that a complying building would have unusually high façade construction costs in proportion to the amount of floorspace that may be constructed as-of-right; and

WHEREAS, thus, the site's shape makes the construction of a complying building infeasible; and

WHEREAS, the applicant states that the site also has a unique topography; specifically, the applicant represents that the site slopes downward along Fort George Hill from an

approximately elevation of 79 feet at the southern end to an elevation of approximately 37 feet at the northern end; thus, in order to achieve a uniform basement grade, cuts of five to 50 feet are required, at significant cost; and

WHEREAS, the applicant contends that the site is also uniquely burdened by the presence of the No. 1 subway line tracks and platform for the Dyckman Street station along its western boundary; and

WHEREAS, the applicant states that the site for the subway line drops steeply in elevation from the subject site; as such, extraordinary temporary and permanent safety measures are required to safeguard areas around the subway line, including the construction of additional shoring and retaining walls, and the monitoring of vibrations, all at significant cost; and

WHEREAS, in addition, the applicant represents that the site is burdened by substandard soil; and

WHEREAS, specifically, the applicant states that rock outcroppings are visible throughout the site and that a geotechnical investigation (borings and probes) revealed rock quality to be "very poor", with a percent core recovery measurement of 70.0, a rock quality designation value of 0.0, and sound rock located well below weathered rock; accordingly, the applicant contends that the site's substandard soil creates premium foundation costs; and

WHEREAS, the applicant notes that such premium foundation costs are increased further by the presence of an MTA easement along the southern boundary of the site, which must remain open and protected in perpetuity; and

WHEREAS, based upon the above, the Board finds that the site's irregular shape, sloping topography, the adjacency to the No. 1 subway line, substandard soil composition, and adjacency to a transit easement, when considered in the aggregate, create unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, the Board also notes that a height factor building, which is available in the subject R7-2, is particularly incompatible with the site, given its unusual shape and shallow depth; and

WHEREAS, the applicant asserts that, per ZR § 72-21(b), there is no reasonable possibility of development of the site with affordable housing in compliance with the Zoning Resolution; and

WHEREAS, the applicant represents that the site's unique conditions create premium construction costs as follows: (1) \$540,000 for the construction of the perimeter retaining wall; (2) \$405,000 for the construction of the footings for the perimeter retaining wall; (3) \$600,000 for the excavation of hard and soft stone; and (4) \$265,000 for shoring and vibration monitoring; thus, the site's premium construction cost total \$2,023,350; and

WHEREAS, the applicant states that an as-of-right building would have 37 dwelling units at a premium construction cost of approximately \$54,685 per unit; in contrast, the proposed building distributes the premium construction costs over 113 dwelling units, at a cost of

MINUTES

\$17,909 per unit, making affordable housing at the site feasible; and

WHEREAS, based upon its review of the applicant's submissions, the Board has determined that because of the site's unique physical conditions, there is no reasonable possibility that an affordable housing development in strict compliance with applicable zoning requirements is feasible; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, the applicant states that the surrounding neighborhood includes high-density residential buildings, an active commercial district along Dyckman Street, major thoroughfares (the Henry Hudson Parkway, Broadway, and the Harlem River Drive) and parkland (Highbridge Park, Fort Tryon Park, and, further north, Inwood Hill Park); and

WHEREAS, the applicant states that the neighborhood is well-served by public transit, including the No. 1 train and several city bus lines; and

WHEREAS, as to adjacent uses, the applicant states, as noted above, that the site is directly adjacent to the No. 1 train and platform for the Dyckman Street station to the west; south and east of the site are Highbridge Park, and north of the site is the intersection of Nagle Avenue and Fort George Hill; no buildings abut the site, and the nearest building is a four-story utility building that fronts on Hillside Avenue and is separated from the site by the tracks for the No. 1 train; and

WHEREAS, turning to bulk, the applicant states that the proposed 12-story building is contextual with the profile of buildings in the immediate vicinity; while the buildings in the valley west of the train tracks and Nagle Avenue are predominantly five and six stories in height, the four buildings immediately to the south along Fort George Hill are more than 20 stories in height; in addition, there is a cluster of six 14-story buildings northeast of the site along Nagle Avenue; and

WHEREAS, at hearing, the Board: (1) directed the applicant to submit a parking demand analysis; and (2) questioned whether the proposed triple-stacker parking equipment would fit within the cellar; and

WHEREAS, in response, the applicant provided the requested parking demand analysis; in addition, the applicant submitted additional specifications regarding the parking stacker equipment and confirmed that it could be safely operated within the cellar; and

WHEREAS, as to the Opposition and the Community Board's many concerns, the Board notes that three of the major concerns—the height of the building, the parking waiver, and the breakdown of the unit type—were modified during the hearing process; the height was decreased by two stories, the parking waiver was eliminated, and the studio apartments were eliminated; and

WHEREAS, the Board finds that the Opposition's remaining concerns do not form a sufficient basis for the

denial of the variance; as to the amount of "green space" eliminated in connection with the proposal, the Board notes that the proposal complies in all respects with the landscaping and planting requirements of the Zoning Resolution; as to the suitability of the bedrock to carry the loads of the proposed building and the risk of harm to persons and property associated with construction near a subway line, such matters are within the purview of DOB; as to the shadows that will be cast by the proposed building, according to the Phase I environmental site assessment, the proposal does not have a significant adverse impact on shadows; finally, as to the lack of affordability of the proposed apartments, the Board observes that the applicant is a well-established community-based developer of affordable housing and the proposal has garnered support from various city agencies, including the Housing Development Corporation and the Department of Housing Preservation and Development; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that, consistent with ZR § 72-21(d), the hardship herein was not created by the owner or a predecessor in title, but is due to the peculiarities of the site and the applicant's objective to provide affordable housing; and

WHEREAS, the Board also finds that this proposal is the minimum necessary to afford the owner relief, in accordance with ZR § 72-21(e); and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 14-BSA-048M, dated July 19, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type I Negative Declaration, with conditions

MINUTES

as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 to permit, on a site within a R7-2 zoning district, the construction of a 12-story mixed residential and community facility affordable housing building that does not comply with the zoning requirements for FAR, lot coverage, rear yards, and height and setback, contrary to ZR §§ 23-145, 23-52, and 23-633; *on condition* that any and all work will substantially conform to drawings as they apply to the objections above noted, filed with this application marked “Received August 8, 2014”– thirteen (13) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the proposed building: a maximum of 12-stories, a maximum floor area of 142,195 sq. ft. (6.97 FAR), a maximum residential floor area of 131,848 sq. ft. (6.46 FAR), a maximum of 73 percent lot coverage, 113 dwelling units, a minimum of 57 parking spaces, a minimum rear yard depth of 10’-0”, and a maximum building height of 146’-1” with no setback, as reflected on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT substantial construction shall be completed in accordance with ZR § 72-23;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 19, 2014.

CEQR #14-BSA-066R

APPLICANT – Eric Palatnik, P.C., for David Gerstenfeld, owner; Michael Nejat, lessee.

SUBJECT – Application November 1, 2013 – Special Permit (§73-126) to allow the partial legalization and connection of two adjacent ambulatory diagnostic treatment health care facilities (UG4). R3-A zoning district.

PREMISES AFFECTED – 4299 Hylan Boulevard, between Thornycroft Avenue and Winchester Avenue, Block 5292, Lot(s) 37, 39 & 41, Borough of Staten Island.

COMMUNITY BOARD #3SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Commissioner Hinkson, Commissioner Ottley-Brown and Commissioner Montanez3
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated October 8, 2013, acting on DOB Application No. 520160218, reads in pertinent part:

Horizontal enlargement to an existing ambulatory diagnostic or treatment health care facility (Use Group 4) located in an R3A zoning district with existing floor area that is in excess of 1,500 sq. ft. is contrary to Section 22-14(A) of the Zoning Resolution; and

WHEREAS, this is an application under ZR §§ 73-126 and 73-03, to permit, on a site within an R3A zoning district, within the Special South Richmond Development District, the combination of two existing ambulatory diagnostic treatment health care facilities (Use Group 4) resulting in 4,047 sq. ft. of floor area, contrary to ZR § 22-14; and

WHEREAS, a public hearing was held on this application on June 10, 2014, after due notice by publication in The City Record, with a continued hearing on July 15, 2014, and then to decision on August 19, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 3, Staten Island, recommends disapproval of this application; and

WHEREAS, certain members of the surrounding community submitted testimony in support of the application; and

WHEREAS, the subject site is located on the northwest corner of the intersection of Hylan Boulevard and Winchester Avenue, within an R3A zoning district, within the Special South Richmond Development District; and

WHEREAS, the site, which comprises Tax Lots 37, 39, and 41, has 120 feet of frontage along Hylan Boulevard, 104 feet of frontage along Winchester Avenue, and 12,741 sq. ft. of lot area; and

WHEREAS, the applicant states that the site is occupied by three buildings; Lot 37 is occupied by a one-story, single-family home with 948 sq. ft. of floor area; Lot 39 is occupied by a one-story community facility building (medical office) with 2,989 sq. ft. of floor area; Lot 41 is occupied by a two-story mixed residential and community facility building (medical office) with 2,287 sq. ft. of floor area (1,194 sq. ft. of residential floor area and 1,093 sq. ft. of community facility floor area); thus, the site has a total existing floor area of 6,233 sq. ft. (0.49 FAR)(2,142 sq. ft. of residential floor area (0.17 FAR) and 4,081 sq. ft. of community facility floor area (0.32 FAR)); and

WHEREAS, the applicant notes that in 2011, a breezeway was constructed without a permit between the buildings on Lots 39 and 41; and

WHEREAS, the applicant proposes to demolish the 948 sq.-ft. home on Lot 37, remove approximately 397 sq. ft. of floor area from the building on Lot 39, and enclose and extend the existing breezeway, resulting in the introduction of approximately 363 sq. ft. of floor area, for a net decrease

MINUTES

in community facility floor area of 34 sq. ft. and a decrease in the total floor area on the lot from 6,233 sq. ft. (0.49 FAR)(2,142 sq. ft. of residential floor area (0.17 FAR) and 4,081 sq. ft. of community facility floor area (0.32 FAR) to 5,242 sq. ft. (0.41 FAR) (1,194 sq. ft. of residential floor area (0.09 FAR) and 4,048 sq. ft. of community facility floor area (0.32 FAR)); and

WHEREAS, the applicant also states that 11 accessory parking spaces will also be provided on the site; and

WHEREAS, the applicant notes that in the subject R3A zoning district, which also within a Lower Density Growth Management Area, an ambulatory diagnostic or treatment facility is limited to 1,500 sq. ft. of floor area, pursuant to ZR § 22-14; however, pursuant to ZR § 73-126, the Board may permit an ambulatory diagnostic or treatment health care facility with maximum floor area of 10,000 sq. ft., provided that: (a) the amount, type, and distribution of open area on the zoning lot are compatible with the character of the neighborhood; (b) the distribution of bulk on the zoning lot will not unduly obstruct access of light and air to adjoining properties or streets; and (c) the scale and placement of the building on the zoning lot relates harmoniously with surrounding buildings; and

WHEREAS, the Board notes that other than the increase in floor area beyond 1,500 sq. ft. authorized by the special permit, the ambulatory diagnostic or treatment health care facility must comply with all zoning parameters of the underlying district; and

WHEREAS, the applicant states that, aside from the requested increase in community facility floor area, the proposal complies in all respects with the zoning parameters of the subject R3A zoning district; and

WHEREAS, the applicant also states that the proposed building will have 4,048 sq. ft. (0.41 FAR) of community facility floor area, which is significantly less than the maximum permitted under the special permit (10,000 sq. ft.); and

WHEREAS, turning to the ZR § 73-126 findings, the applicant contends that the proposal's the amount, type, and distribution of open area on the zoning lot are compatible with the character of the neighborhood; and

WHEREAS, the applicant asserts that the site's proposed open area entirely compatible with the character of the neighborhood and will be significantly increased under the proposal, as noted above; and

WHEREAS, as to the distribution of bulk on the zoning lot and its impacts on the light and air of adjoining properties or streets, the applicant contends that the proposal has no impact on adjoining properties, and provides more light and ventilation than the existing condition; and

WHEREAS, the applicant also states that the proposal includes a significant decrease in floor area and the removal of an entire building and a portion of another, which will enhance the light, ventilation, and privacy of the neighboring residences on Lots 31, 32, 33, and 43; and

WHEREAS, as to the harmoniousness of the building with the surrounding buildings in terms of scale and

placement on the site, the applicant states that, as noted above, the building complies in all respects with the bulk regulations regarding FAR, height, yards, lot coverage, and parking; the applicant also notes that the perimeter of the site adjoining residences will be landscaped, creating an appropriate buffer between the community facility parking areas and the residential uses; and

WHEREAS, at hearing, the Board directed the applicant to remove a non-complying awning sign and to include a note on the proposed plans that lighting will be directed down and away from adjoining residences; and

WHEREAS, in response, the applicant stated that the awning will be removed entirely; the applicant also submitted amended plans that include the note about lighting; and

WHEREAS, based upon the above, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR § 73-126; and

WHEREAS, the Board further finds that the subject use will not alter the essential character of the surrounding neighborhood nor will it impair the future use and development of the surrounding area; and

WHEREAS, the Board also finds that the proposal will not interfere with the renovation of the adjacent fire station, and will otherwise not interfere with any pending public improvement project; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR § 73-03; and

WHEREAS, the project is classified as Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, CEQR No. 14BSA066R, dated October 31, 2013; and

WHEREAS, the EAS documents that the operation of the facility would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, the Board has determined that the operation of the facility will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental

MINUTES

Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings ZR §§ 73-125 and 73-03, to permit, on a site within an R3A zoning district, within the Special South Richmond Development District, the combination of two existing ambulatory diagnostic treatment health care facilities (Use Group 4) resulting in 4,047 sq. ft. of floor area, contrary to ZR § 22-14; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received July 22, 2014" – Eight (8) sheets; and *on further condition*:

THAT the parameters of the building shall be as follows: a maximum total floor area of 5,242 sq. ft. (0.41 FAR), a maximum residential floor area of 1,194 sq. ft. (0.09 FAR), a maximum community facility floor area of 4,048 sq. ft. (0.32 FAR), a maximum lot coverage of 22.6 percent, and 11 parking spaces, as reflected on the BSA-approved plans;

THAT the canopy attached to the building will be removed upon commencement of the proposed construction;

THAT all landscaping will be provided and maintained in accordance with the approved plans;

THAT lighting for the parking areas and signage will be in accordance with the approved plans;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 19, 2014.

3-14-BZ

CEQR No.14-BSA-096M

APPLICANT – Friedman & Gotbaum LLP by Shelly Friedman, for Saint David School, owner.

SUBJECT – Application January 8, 2014 – Variance (§72-21) to permit the enlargement of a school (*Saint David's School*), contrary to lot coverage (§24-11, 24-12), floor area (§24-11), rear yard (§24-36), rear wall setback (§24-552b), base height (§24-522, 24-633), streetwall (§23-692c, 99-051b), maximum height (§99-054b), and enlargement to a non-complying building (§54-31) regulations. R8B/R10/C1-5MP zoning district.

PREMISES AFFECTED – 12-22 East 89th Street aka 1238 Madison Avenue, south side of East 89th St, west of the corner formed by the intersection of Madison Avenue and East 89th Street, Block 1500, Lot 62, Borough of

Manhattan.

COMMUNITY BOARD # 8M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Commissioner Hinkson, Commissioner Ottley-Brown and Commissioner Montanez3

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated December 26, 2013, acting on Department of Buildings Application No. 121532608, reads in pertinent part:

1. ZR 24-11 & ZR 24-12: Proposed enlargement of a building in R8B and R10/C1-5(MP) zoning districts increases the extent of noncomplying lot coverage as per ZR 24-11 and ZR 24-12.
2. ZR 24-11: Proposed enlargement of a building in R8B zoning district exceeds the maximum permitted floor area as per ZR 24-11.
3. ZR 24-36: Proposed enlargement of a building in a rear yard in R8B and R10/C1-5(MP) zoning districts increases the extent of rear yard non-compliance over 23 feet above curb level as per ZR 24-36.
4. ZR 24-552(b): Proposed enlargement of a noncomplying rear wall without providing a rear wall setback on a building in R8B zoning district increases the extent of rear wall setback non-compliance as per ZR Sec. 24-552(b).
5. ZR 24-522 & 23-633: Proposed addition of penthouse to a building in R8B and R10/C1-5(MP) zoning districts exceeds permitted maximum base height of a street wall, front setback regulations and building height as per ZR 24-522(a) and ZR 23-633.
6. ZR 23-692(c): Proposed addition of a penthouse to a portion of a building with a street wall of less than 45 feet located in an R10/C1-5(MP) district on a corner lot bounded by at least one wide street exceeds maximum permitted building height as per ZR Sec. 23-692(c).
7. ZR 99-051(b): Proposed addition of a penthouse to a portion of a building with frontage on a side street in a R10/C1-5(MP) district increases the extent of the noncomplying street wall and setback regulations as per ZR 99-051(b).
8. ZR 99-054(b): Proposed enlargement to a building in a R10/C1-5(MP) district increases the extent of noncomplying maximum building height as per ZR 99-054(b).
9. ZR 54-31: Proposed enlargement to a

MINUTES

noncomplying building increases the extent of non-compliances and creates new non-compliance in both R10 and R8B district, contrary to ZR 54-31; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site partially within an R10/C1-5 zoning district within the Special Madison Avenue Preservation District (MP) and partially within an R8B zoning district, within the Carnegie Hill Historic District, the proposed conversion and enlargement of two existing buildings, that does not comply with zoning parameters for rear yard, lot coverage, maximum base height and building height, front and rear setback and floor area, contrary to ZR §§ 24-11, 24-12, 24-36, 24-552, 23-633, 23-692, 99-051, 99-054, and 54-31; and

WHEREAS, the application is brought on behalf of the St. David's School (the "School"), a non-profit educational institution; and

WHEREAS, a public hearing was held on this application on May 6, 2014, after due notice by publication in the *City Record*, with a continued hearing on June 17, 2014, and then to decision on August 19, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by former Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 8, Manhattan, recommends approval of this application; and

WHEREAS, Carnegie Hill Neighbors and CIVITAS provided testimony in support of the proposal; and

WHEREAS, certain neighbors provided testimony in support of the application; and

WHEREAS, certain neighbors testified in opposition to the application, including residents of the building at 19 East 88th Street who were represented by counsel; and

WHEREAS, those in opposition to the project are collectively, the "Opposition"; and

WHEREAS, the Opposition's primary concerns are that: (1) the School has read the case law on educational deference too broadly and that there are greater limitations on such uses, including that a unique condition be established; (2) the School has failed to establish programmatic needs; (3) the request does not constitute the minimum variance as the height could be reduced if a sub-cellar level were added to accommodate uses that increase the height; (4) the School has created its own hardship by setting a construction schedule only during summer months so as not to inconvenience school operations; (5) architectural and engineering analyses establish that alternative designs, including the inclusion of a sub-cellar level, are feasible; and (6) the School's light and noise from rooftop mechanicals will affect the adjacent residents; and

WHEREAS, the site consists of the Graham House (18-22 East 89th Street a/k/a 1236 Madison Avenue), a former residential hotel purchased by the School in 1972; and three townhouses (12, 14 and 16 East 89th Street) (the "Townhouses") presently housing the School; together,

these four buildings constitute the School's East 89th Street Campus, identified as Lot 62; and

WHEREAS, the School proposes to (1) re-use and convert the Graham House to allow full integration into the East 89th Street Campus; (2) enlarge the townhouse at 16 East 89th Street (the "Townhouse"); and (3) renovate the interiors of the Townhouses; and

WHEREAS, the site is located on the southwest corner of East 89th Street and Madison Avenue, with a total lot area of 15,910 sq. ft., 213.83 feet of frontage on East 89th Street and 25.71 feet of frontage on Madison Avenue; and

WHEREAS, the site is located partially within an R10/C1-5 (MP) zoning district (4,446 sq. ft. or 28 percent) and partially within an R8B district (11,464 sq. ft. or 72 percent); and

WHEREAS, none of the four existing School buildings, built between 1890 and 1920, complies with the Zoning Resolution; specifically, with respect to floor area, FAR, lot coverage, rear yard, front and rear setback, base height and building height in the R8B portion of the zoning lot and with respect to the building height and front wall height and front setbacks in the R10 portion of the zoning lot; and

WHEREAS, further, approximately 33,912 sq. ft. (7.63 FAR) of the existing East 89th Street Campus' 94,105 sq. ft. of floor area is located in the R10/C1-5 (MP) portion of the zoning lot and 60,193 sq. ft. (5.25 FAR) is located in the R8B portion of the zoning lot; and

WHEREAS, the applicant has identified the following existing non-compliances in the R8B zoning district: (1) lot coverage in excess of the 70 percent permitted by ZR § 24-11; (2) floor area (60,193 sq. ft.) and FAR (5.25) in excess of the maximum permitted (58,466 sq. ft. and 5.1 FAR for community facilities by ZR § 24-11); (3) a noncomplying rear yard with a depth of 4.2 feet for the Graham House (a minimum rear yard depth of 30 feet is required above the first story pursuant to ZR § 24-36; (4) a base height of 81.25 feet (the maximum permitted base height is 60 feet on East 89th Street, a narrow street, pursuant to ZR § 24-522(b), 23-633(b)); (5) the absence of a rear setback of ten feet above the maximum base height of 60 feet (ZR §§ 24-552(b), 23-633); (6) the absence of a rear setback of 15 feet above the maximum base height of 60 feet on East 89th Street, a narrow street (ZR § 23-633); and (7) a height of 81.25 feet (a maximum height of 75 feet is permitted (ZR §§ 24-522, 23-633); and

WHEREAS, the applicant has identified the following existing non-compliances in the R10/C1-5 (MP) zoning district: (1) lot coverage in excess of the 75 percent permitted by ZR § 24-11 within the corner lot portion of the zoning lot; (2) a side yard with a width of 1.5 feet (if a side yard is provided, it must have a width of at least eight feet, pursuant to ZR § 24-35); (3) the base height of 81.25 feet (a maximum base height of 60 feet is permitted on East 89th Street, a narrow street, beyond 50 feet of the intersection, pursuant to ZR § 99-051(b)); (4) the Graham House does not provide the required setback of 15 feet above the

MINUTES

maximum base height of 60 feet on East 89th Street, a narrow street, and does not provide the required setback of ten feet from Madison Avenue, a wide street (ZR § 99-051(b)(3)); (5) the height of 81.25 feet exceeds the maximum height limitation of 80 feet for narrow buildings on Madison Avenue, a wide street, and within 70 feet of Madison Avenue on East 89th Street (Midblock Transition Portion), a narrow street (ZR §§ 99-053, 23-692; and (6) portions of the 81.25-ft. existing east wing of Graham House exceed the maximum building height defined by an inclined plane between 80 and 120 feet within the Midblock Transition Portion of Madison Avenue Preservation District (ZR § 99-054(b)); and

WHEREAS, the proposal triggers the following variance request: within the R8B zoning district: (1) lot coverage of 79.45 percent above the first floor for an interior zoning lot (70 percent is the maximum permitted); (2) a floor area of 63,493 sq. ft. (5.54 FAR) (58,466 sq. ft. (5.10 FAR) is the maximum permitted); (3) the absence of a rear yard (a rear yard with a minimum depth of 30 feet is required above the first story); (4) the absence of a rear setback of ten feet above the maximum rear wall height of 60 feet; (5) a setback with a depth of two feet from East 89th Street for the Penthouse (a setback with a depth of 15 feet from the front wall is required to be provided above a maximum front wall height of 60 feet, an increase in the height of Graham House's East 89th frontage by 11 feet and total height of the Graham House by 17.25 feet, an increase in the townhouse height by 11 feet (a maximum building height of 75 feet is permitted); and (6) proposed enlargement to the non-complying Graham House and Townhouse increases the extent of existing non-compliances, contrary to ZR § 54-31; and

WHEREAS, additionally, within the R10/C1-5 (MP) zoning district, the proposal triggers the following variance requests: (1) the elimination of the non-complying side yard and the existing rear yard in the design of the proposed West Replacement Wing will result in an increase of lot coverage non-compliance for the upper 12.66 feet volume of the second story (between 23 feet and 35.66 feet above grade); (2) the building height of narrow buildings is limited to 80 feet on Madison Avenue, a wide street, and within 70 feet of Madison Avenue on East 89th Street, a narrow street, within the Midblock Transition Portion of Madison Avenue Preservation District, maximum building height is defined by an inclined plane between 80 and 120 feet, the addition of the Penthouse will increase the degree of the existing building's non-compliance with the building height limitations and increase the extent of non-compliance with the height limitations for the enlargement of narrow buildings on both Madison Avenue, a wide street, and East 89th Street, a narrow street, and increase of the non-complying building height from 81.25 to 98.5 feet; (3) the Penthouse does not provide a set back with a depth of 15 feet and thus increases the extent of the front wall's existing non-compliance; (4) full lot coverage at the rear lot line rather than the 30 feet required, however the building out of

the existing sub-standard side yard eliminates that existing non-compliance; and (5) proposed enlargement to the non-complying Graham House increases the extent of existing non-compliances, contrary to ZR § 54-31; and

WHEREAS, the School proposes to demolish all floors of Graham House while retaining and restoring the historically significant Madison Avenue and East 89th Street façades and only as much of the remaining walls, foundation and structure as necessary to maintain the façades' structural integrity; and

WHEREAS, the applicant states that the new construction will replace the demolished area by splitting it into two replacement wings, an East Replacement Wing and a West Replacement Wing; and

WHEREAS, the East Replacement Wing, which is six stories with a mezzanine and penthouse, represents the narrow rectangle of the reconstructed Graham House with a width equal to the zoning lot's 25.71 feet Madison Avenue frontage, with an East 89th Street frontage with a footprint of 1,928.25 sq. ft.; the West Replacement Wing, which is six stories with a mezzanine and penthouse, represents the remainder of Graham House, a 100.71-ft. by 63.83-ft. rectangle with a footprint of 6,428.32 sq. ft. and a 4.2-ft. rear yard above the second story; and

WHEREAS, additionally, the School proposes to add a penthouse to Graham House beginning (the "Penthouse") and a small enlargement to the townhouse (the "Townhouse Addition"); and

WHEREAS, further, the Townhouses will undergo interior renovations under the same permits and as part of the same zoning lot; and

WHEREAS, because of the aforementioned noncompliance, the School seeks a variance; and

WHEREAS, the applicant represents that the waivers are sought to enable the School to construct a facility that meets its programmatic needs; and

WHEREAS, the School identifies the following primary programmatic needs: (1) to consolidate all buildings to the East 89th Street Campus by relocating the off-site physical education program; and (2) to overcome the practical administrative difficulties, including scheduling and space assignments, and programmatic hardships, including curriculum development and teaching, of the current facilities through a comprehensive conversion of Graham House and redevelopment of the Townhouses that will produce a single campus with sufficient facilities, necessary academic adjacencies and required interconnectivity between students and faculty; and

WHEREAS, the School notes the specific needs associated with the requested bulk waivers: (1) filling in the deep non-complying court which bisects the Graham House and the non-complying side yard allows for a viable footprint which eliminates unnecessary travel corridors, and provides space and adjacencies that address the School's educational requirements; (2) 3,300 sq. ft. of additional floor area in the R8B portion of the site allows the School to fill in the deep court on each floor and to relocate program space from areas

MINUTES

of the Townhouses not formerly included in floor area calculation; (3) the proposed relocation of the rear wall at the ground and second floors to the south property line is required to successfully lay out the auditorium that will be located on the second floor; (4) the increase in the extent of the existing rear yard noncompliance caused by increasing the height of the existing rear wall by 17.25 feet is necessary to support the volume required for the gymnasium proposed on the sixth and penthouse floors; (5) the continuation and increase of the current rear wall setback non-compliance within the R8B portion of the zoning lot is necessary to support the volume required for the gymnasium, the ceiling height of which would be significantly impacted by the resulting complying internal setback; and (6) the two penthouses provide essential ancillary physical education functions adjacent to the large gymnasium, providing training spaces and storage space, they are essential to the physical education program and their location adjacent to gymnasium and lockers is important to the educational time management goals of the School; and

WHEREAS, the School also identifies the following physical conditions of the lot and existing buildings which lead to a hardship: (1) the irregularly-shaped zoning lot is split over two zoning districts, is subject to both corner and interior lot regulations and is further subject to special purpose district regulations which produce conflicting bulk restrictions incompatible with the use of the zoning lot for educational purposes; and (2) the existing buildings have existing non-compliance which would not allow for any enlargement without increasing the degree of non-compliance;

WHEREAS, further, the School notes its location within the Carnegie Hill Historic District, which requires Landmarks Preservation Commission approval which included the requirement to preserve historic architectural elements and led to the increase in the extent of non-compliance in order to accomplish its programmatic objectives; and

WHEREAS, the applicant analyzed two as-of-right alternatives: (1) the rebuilding of Graham House from within without generating new bulk non-compliance or increasing the degree of existing non-compliance and (2) the reduction in the building envelope to comply with building height, lot coverage, and rear yard requirements; and

WHEREAS, as to the first alternative, the applicant states that due to the interlocking current non-compliances regarding height and setback, yards and lot coverage in both the R10/C1-5 and R8B portions of the zoning lot, and the FAR and floor area non-compliances in the R8B portion, the resulting building therefore substantially duplicates the existing footprint and massing; and

WHEREAS, the applicant states that the retention of the deep court above the first floor requires extensive corridors to circumnavigate the court on all floors and the footprints of the existing court and the corridors that must be provided to pass around it represent the floor area lost for School use; and

WHEREAS, the applicant asserts that this is not simply a matter of shrinking rooms and spaces from the plan as proposed, it is the elimination of important new program spaces altogether whose minimal footprints cannot be located

within the as-of-right alternative, which cannot accommodate both the auditorium and the large gymnasium and, thus, will require continuation of the scheduling and administrative burdens associated with converting space functions continuously throughout the day; and

WHEREAS, the first alternative also cannot provide for critical adjacencies among the classrooms, division homerooms, school-wide functions, administrative services and faculty offices and results in reduction or elimination of academic and support space on each floor; and

WHEREAS, the applicant asserts that the second alternative would require combining the auditorium and gymnasium into a single space which compounds the current scheduling conflicts that exceed the School's ability to accommodate all needs within even an extended eight to ten-hour school day; and

WHEREAS, finally, the applicant notes that the proposal is influenced by the substantial amount of rock under the current Graham House building; and

WHEREAS, the applicant submitted engineering reports with soil borings that confirm the existence of rock as shallow as 1.75 feet below the Graham House cellar slab; and

WHEREAS, the applicant states that the impractical construction means and methods that the School would need to excavate below Graham House caused the School at a very early stage in its planning to abandon any thought of excavation as a matter of programmatic necessity due to cost and increased construction time; and

WHEREAS, the applicant states that as a non-profit educational institution, the Board must grant deference to the School and allow it to rely on its programmatic needs to form the basis for its waiver requests; the applicant cites to the decisions of New York State courts in support of its claim that the school warrants deference; and

WHEREAS, specifically, the applicant cites to Pine Knolls Alliance Church v. Zoning Board of Appeals of the Town of Moreau, 6 N.Y.3rd 407 (2005); the Pine Knolls court stated as follows:

In assessing a special permit application, zoning officials are to review the effect of the proposed expansion on the public's health, safety, welfare or morals, concerns grounded in the exercise of police power, "with primary consideration given to the over-all impact on the public welfare" (Trustees of Union College, 91 N.Y.2d at 166). Applications may not be denied based on considerations irrelevant to these concerns.

We made clear in Cornell University that it is not the role of zoning officials to second-guess expansion needs of religious and educational institutions; and

WHEREAS, in analyzing the applicant's waiver requests, the Board notes at the outset that the School, as a nonprofit New York State chartered educational institution, may rely on its programmatic needs, which further its mission, as a basis for the requested waivers; and

WHEREAS, as noted by the applicant, under well-

MINUTES

established precedents of the courts and this Board, applications for variances that are needed in order to meet the programmatic needs of non-profit institutions, particularly educational and religious institutions, are entitled to significant deference (see, e.g., Cornell University v. Bagnardi, 68 N.Y.2d 583 (1986)); and

WHEREAS, the Board observes that such deference has been afforded to comparable institutions in numerous other Board decisions, certain of which were cited by the applicant in its submissions; and

WHEREAS, the applicant states that the School has adopted a strategic plan to renovate and reuse its buildings in more effective ways; and

WHEREAS, the applicant states that based on an extensive review of its facilities and operations, the School concluded that the proposal was the most efficient and effective use of its educational programmatic space; and

WHEREAS, the applicant concludes that bulk relief is required to meet the School's programmatic needs and the design imperatives of the historic buildings; and

WHEREAS, the Board finds that the proposal has been designed to be consistent and compatible with adjacent uses and with the scale and character of the surrounding neighborhood and is, therefore, consistent with the standard established by the decision in Cornell; and

WHEREAS, the Board concurs that the waivers will facilitate construction that will meet the School's articulated needs; and

WHEREAS, in sum, the Board concludes that the applicant has fully explained and documented the need for the waivers to accommodate the School's programmatic needs; and

WHEREAS, the Board also acknowledges the hardship associated with the physical constraints of the buildings, which are approximately a century old, and developing the site with historic pre-existing bulk non-compliance; and the interest in preserving and respecting the buildings' historic fabric; and

WHEREAS, the Opposition argues that the applicant has failed to make the finding set forth at ZR § 72-21(a) because: (1) the site does not suffer a unique hardship and programmatic needs cannot be substituted as a basis for the requested waivers; and (2) there are negative impacts to the public welfare which are not outweighed by the proposal's benefits; and

WHEREAS, as to the absence of uniqueness, the Opposition contends that the applicant cannot satisfy the finding set forth at ZR § 72-21(a) because the Zoning Lot is not subject to a unique physical condition which creates a hardship; and

WHEREAS, the Opposition also argues that the School is not entitled to the deference accorded educational institutions seeking variances to zoning requirements under Cornell because the negative impacts of the proposal outweigh the public benefits; and

WHEREAS, the Board finds that the applicant's submissions, which include statements, plans, and other

evidence, provide the required specificity concerning its programmatic space requirements, establish that the requested variances are necessary to satisfy its programmatic needs consistent with Cornell, and that the Opposition has failed to establish that any potential negative impacts either meet the threshold set forth by the courts or outweigh the benefits; and

WHEREAS, in Cornell, the New York Court of Appeals adopted the presumptive benefit standard that had formerly been applied to proposals for religious institutions, finding that municipalities have an affirmative duty to accommodate the expansion needs of educational institutions; and

WHEREAS, the Board finds that the Opposition misapplies the guiding case law; and

WHEREAS, as to the guiding case law on educational deference, the Board disagrees with the Opposition and finds that the courts place the burden on opponents of a project to rebut the presumption that an educational institution's proposal is beneficial unless it is established to have an adverse effect upon the health, safety, or welfare of the community; the Board notes that courts specifically state that general concerns about traffic and disruption of the residential character of a neighborhood are insufficient basis for denying a request (see Westchester Reform Temple v. Brown, 22 N.Y.2d 488 (1968), Cornell, and Pine Knolls); and

WHEREAS, the Board also does not find any basis for the Opposition's assertion that the School must adopt an alternative in light of the fact that the Board finds the School's programmatic need for the requested waivers to be credible; and

WHEREAS, the Board notes that where a nonprofit organization has established the need to place its program in a particular location, it is not appropriate for a zoning board to second-guess that decision (see Guggenheim Neighbors v. Bd. of Estimate, June 10, 1988, N.Y. Sup. Ct., Index No. 29290/87), see also Jewish Recons. Syn. of No. Shore v. Roslyn Harbor, 38 N.Y.2d 283 (1975)); and

WHEREAS, furthermore, a zoning board may not wholly reject a request by an educational institution, but must instead seek to accommodate the planned use; (see Albany Prep. Charter Sch. v. City of Albany, 31 A.D.3rd 870 (3rd Dep't 2006); Trustees of Union Col. v. Schenectady City Cnl., 91 N.Y.2d 161 (1997)); and

WHEREAS, the Board finds that the Opposition's position is contrary to the decisions of New York State courts and contrary to the Board's many variances for educational institutions which have either been upheld by New York State courts or remain unchallenged; and

WHEREAS, in sum, the Board has reviewed the Opposition's submissions, as well as the applicant's responses, and finds that the Opposition has failed to rebut the applicant's substantiated programmatic need for the proposal or to offer evidence, much less establish, that it will negatively impact the health, safety, or welfare of the surrounding community in the sense the courts envision; and

MINUTES

WHEREAS, accordingly, the Board finds that the applicant has sufficiently established that School's programmatic needs create an unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, since the School is a nonprofit institution and each of the required waivers are associated with its educational use and are sought to further its non-profit educational mission, the finding set forth at ZR § 72-21(b) does not have to be made in order to grant the variance requested in this application; and

WHEREAS, the applicant asserts that the noted bulk waivers will not alter the essential neighborhood character, impair the use or development of adjacent property, nor be detrimental to the public welfare; and

WHEREAS, the applicant represents that the proposal is compatible with nearby uses and that the Three Townhouses at the site have been used continuously for school purposes since 1963; and

WHEREAS, the applicant asserts that the variances requested are primarily to allow minor modifications of existing non-compliances inherent in the existing historic buildings and will only alter the visible built environment on the East 89th Street Campus in only the following respects: (1) the Penthouse on Graham House, is set back 34.85 feet off Madison Avenue to reduce its visibility, increases the roof height along the length of the Graham House's East 89th Street façade by only 11 feet to a height that is actually lower than the overall building height on the zoning lot; (2) an 866-sq.-ft. continuation of the Penthouse on Graham House, also with a height of 11 feet, added to the rear of the 16 East 89th Street Townhouse as the Townhouse Addition; (3) the rear portion of Graham House will be replaced with a distinctive new structure, eliminating a non-complying side yard, and a partially non-complying court and partially increasing the extent of the existing noncomplying rear yard; and (4) the original architectural features on Graham House will be restored and unattractive fire escapes on the rear and front elevations, will be removed in accordance with LPC approvals; and

WHEREAS, in response to comments from the Board, the applicant revised the original proposal to maintain the existing 4.2-ft. rear yard above the second story; and

WHEREAS, the applicant states that upon completion of construction, the envelope of the East 89th Street Campus will be nearly identical to the historic conditions; and

WHEREAS, further, the applicant notes that the remaining portion of Graham House's east elevation (as seen over the Madison Avenue commercial buildings) will be rebuilt with a new LPC-approved elevation that is supported by Community Board 8 and Carnegie Hill Neighbors, with a massing substantially unchanged but for extending the first and second floors 4.2 feet to the rear lot line and creating a setback above the second floor at a height of 35.66 feet; and

WHEREAS, the applicant notes that the visible and unattractive existing ground-to-roof external fire escapes that now almost fully occupy the 4.2-ft. rear yard will be

eliminated; and

WHEREAS, the applicant notes that the north elevation - the historic East 89th Street street walls of Graham House and the Townhouses - remains largely unchanged except for restoration work on the Graham House façade, the introduction of ground floor doors essential for School egress and the construction of the New Penthouse and Townhouse Addition; and

WHEREAS, further, the applicant states that the penthouses and the re-configured mechanical equipment are set back from the street wall and significantly not visible; and

WHEREAS, the applicant notes that the floor area on the zoning lot is being increased by only 3,763 sq. ft., or 4 percent; and

WHEREAS, the applicant asserts that the block has a mixed use character with five institutions on the north and south sides of East 89th Street between Madison and Fifth avenues; and

WHEREAS, the applicant notes that on the south side, Saint David's, including Graham House, occupies four buildings, or approximately 51 percent of the running length of the block; a residential rental building occupies the tax lot to the west, with a frontage that is approximately 22 percent of the running length; and the new annex to the Guggenheim Museum and the original Frank Lloyd Wright building complete the block; and

WHEREAS, the applicant states that institutional uses occupy 78 percent of the southern side of the street and on the northern side of the street, the National Academy of Design Museum and School, Trevor Day School and the NYC Road Runners Club occupy 40 percent of the frontage and two residential buildings occupy the rest; and

WHEREAS, additionally, at Fifth Avenue, the entire East 88th/89th block frontage is occupied by the Guggenheim Museum and half of the East 89th/90th block frontage is occupied by the Church of the Heavenly Rest; and

WHEREAS, finally, there are additional institutions two blocks further to the north such as the Smithsonian, Spence School, Convent of the Sacred Heart School, the Russian Consulate, Nightingale-Bamford School and the Jewish Museum; and

WHEREAS, because the site is within the Carnegie Hill Historic District, the applicant obtained approval from the Landmarks Preservation Commission ("LPC") by a Certificate of Appropriateness issued July 22, 2014 (when approving the revised proposal); and

WHEREAS, the applicant states that the proposed facility will result in no significant impacts to traffic or parking in the area because the current well-established number of students and faculty using the buildings will be maintained; and

WHEREAS, based upon the above, the Board finds that the subject variances will not alter the essential character of the surrounding neighborhood, impair the appropriate use and development of adjacent property, or be

MINUTES

detrimental to the public welfare; and

WHEREAS, the applicant states that the unnecessary hardship encountered by compliance with the zoning regulations is created by its programmatic needs in connection with the physical constraints of buildings built approximately a century ago, which have pre-existing non-complying bulk conditions which constrain any development; and

WHEREAS, the applicant concludes, and the Board agrees, that the practical difficulties and unnecessary hardship that necessitate this application have not been created by the School or a predecessor in title; and

WHEREAS, the applicant states that the requested bulk waivers represent the minimum variance necessary to allow the School to meet its programmatic needs; and

WHEREAS, the applicant analyzed two lesser scenario schemes, one in which the majority of the rear wall was maintained and one that seeks approval of the height increase and addition of the Penthouse and Townhouse Addition; and

WHEREAS, the applicant concluded that neither alternative can accommodate the School's programmatic needs; and

WHEREAS, however, the School did revise its proposal at the Board's direction to maintain the existing 4.2-ft. rear yard above the second story; and

WHEREAS, the Board therefore finds that the requested waivers represent the minimum variance necessary to allow the School to meet its programmatic needs; and

WHEREAS, accordingly, based upon its review of the record and its site visits, the Board finds that the applicant has provided sufficient evidence to support each of the findings required for the requested variances; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has identified and considered relevant areas of environmental concern about the project documented in the Final Environmental Assessment Statement (EAS) CEQR No.14-BSA-096M, dated January 8, 2014; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore it is Resolved that the Board of Standards

and Appeals issues a Type I Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, on a site partially within an R10/C1-5 zoning district within the Special Madison Avenue Preservation District (MP) and partially within an R8B zoning district, within the Carnegie Hill Historic District, the proposed conversion and enlargement of two existing buildings, that does not comply with zoning parameters for rear yard, lot coverage, maximum base height and building height, front and rear setback and floor area, contrary to ZR §§ 24-11, 24-12, 24-36, 24-552, 23-633, 23-692, 99-051, 99-054, and 54-31; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received August 14, 2014" – twenty-one (21) sheets; and *on further condition*:

THAT the proposed buildings will have the following parameters: (1) floor area of 63,493 sq. ft. (R8B zoning district) and 33,577 sq. ft. (with an additional 798 sq. ft. for commercial use) (R10/C1-5 (MP) zoning district); (2) an FAR of 5.54 (R8B zoning district) and 7.55 (with an additional 0.18 FAR for commercial use) (R10/C1-5 (MP) zoning district), (3) a maximum lot coverage of 79.45 percent (R8B zoning district); (4) a maximum wall height of 81.25 feet and total height of 98.5 feet; and (5) all yards and setbacks as depicted on the Board-approved plans;

THAT the site will be maintained in good condition, free of debris;

THAT this approval is limited to the relief granted by the Board, in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT construction will be substantially completed in accordance with the requirements of ZR § 72-23; and THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 19, 2014.

MINUTES

27-14-BZ

CEQR No. 14-BSA-113M

APPLICANT – Sheldon Lobel, P.C., for 496 Broadway LLC., owner.

SUBJECT – Application February 7, 2014 – Variance (§72-21) to permit a UG 6 retail use on the first floor and cellar, contrary to use regulations (§42-14D(2)(b)). M1-5B zoning district.

PREMISES AFFECTED – 496 Broadway, east side of Broadway between Broome Street and Spring Street, Block 483, Lot 4, Borough of Manhattan.

COMMUNITY BOARD #2M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Commissioner Hinkson, Commissioner Ottley-Brown and Commissioner Montanez3

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated January 8, 2014, acting on DOB Application No. 104812142, reads, in pertinent part:

ZR 42-14(D)(2)(b) – Proposed change of use below the 2nd floor from Use Group 16 (wholesale) to Use Group 6 (retail) is not permitted in M1-5B zoning district; and

WHEREAS, this is an application under ZR § 72-21, to permit, within an M1-5B zoning district within the SoHo Cast Iron Historic District, the legalization of an existing retail use (Use Group 6) on the first story and expansion of retail use (accessory storage) into the cellar, contrary to ZR § 42-14(D)(2)(b); and

WHEREAS, a public hearing was held on this application on June 10, 2014, after due notice by publication in the *City Record*, with a continued hearing on July 22, 2014, and then to decision on August 19, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of Broadway between Broome Street and Spring Street, within an M1-5B zoning district, within the SoHo Cast Iron Historic District; and

WHEREAS, the site has 22.25 feet of frontage along Broadway and 2,237 sq. ft. of lot area; and

WHEREAS, the site is occupied by a five-story building that was constructed in approximately 1866; the last-issued final certificate of occupancy (“CO”) for the building (No. 99266, issued October 7, 1991) authorizes wholesale storage (Use Group 16) in the cellar and on the first story, and joint living-work quarters for artists (“JWLQA”)(Use Group 17D) on the second through fifth stories; and

WHEREAS, the Board has exercised jurisdiction over the site since February 13, 1990; on that date, under BSA Cal. No. 831-89-ALC, the Board granted an authorization pursuant to ZR § 72-30 to exclude 7,204 sq. ft. of floor area from the computation of the conversion contribution to be paid as required under ZR § 15-50 (Relocation Incentive Contribution); the grant accompanied the conversion of the second through fifth stories of the building from manufacturing use to JLWQA; and

WHEREAS, the applicant notes that the first story of the building has been occupied by various commercial uses since at least 1980 and that, since around 2004, the uses have included clothing and jewelry stores; at present, the first story is occupied by a retail store; and

WHEREAS, accordingly, the applicant seeks legalization of the existing retail use (Use Group 6); in addition, the applicant seeks to use a portion of the cellar as accessory storage for the first story retail use; and

WHEREAS, specifically, the applicant proposes to classify 2,133 sq. ft. of floor area on the first story and 81 sq. ft. of floor space in the cellar as Use Group 6 retail; the applicant notes that the majority of the cellar will remain, per CO No. 99266, Use Group 16 retail storage; and

WHEREAS, because a Use Group 6 eating and drinking establishment is not permitted below the second story in the subject M1-5B zoning district, the applicant seeks a use variance; and

WHEREAS, the applicant states that, per ZR § 72-21(a), the following are unique physical conditions, which create practical difficulties and unnecessary hardship in developing the subject site in conformance with underlying district regulations: (1) the existing building is obsolete for manufacturing use; (2) the site is too small and too narrow to accommodate floorplates for a manufacturing use; and (3) the site is constrained by its location within a historic district; and

WHEREAS, as to the obsolescence of the building for a conforming use, the applicant states that the building lacks a loading berth and has no space to install one; additionally, the building has limited access, with only two pedestrian-sized doors, one of which is devoted to the JLWQA units on the upper stories, and no elevator; and

WHEREAS, the applicant states the site’s 2,133 sq. ft. of lot area and 22.25-ft. width is far too small to accommodate floorplates that would make the building marketable for a conforming use; and

WHEREAS, the applicant states that 80 percent of the 280 buildings within a 1,000-ft. radius of the site have more lot area than the subject site; in addition, the site is the narrowest site on the entire block and narrower than 90 percent of the 280 buildings within a 1,000-ft. radius of the site; as such, the applicant asserts that its small size and narrow width are unique burdens in the surrounding area; and

WHEREAS, the applicant also notes that only 26 buildings (nine percent) within the study area have both less lot area and a narrower width than the site, and that 24 of the 26 such buildings have Use Group 6 uses on the first story

MINUTES

1; and

WHEREAS, finally, the applicant asserts that the site's location within the SoHo Cast Iron Historic District, though not unique, contributes to the practical difficulties associated with developing the first story and cellar with a conforming use; and

WHEREAS, specifically, the applicant states that any enlargement, significant alteration or demolition and reconstruction is subject to the approval of the Landmarks Preservation Commission ("LPC"); as such, there are premium construction costs for materials, consulting, and permitting, which cannot be recouped at this site due to the undesirability of the building for a manufacturing use; and

WHEREAS, the Board agrees that the aforementioned unique physical conditions, when considered in the aggregate, create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant asserts that, per ZR § 72-21(b), there is no reasonable possibility that the development of the site in conformance with the Zoning Resolution will bring a reasonable return; and

WHEREAS, the applicant provided a financial analysis for (1) a conforming scenario with permitted uses (Use Groups 7, 9, 11, 16, 17A, 17B, 17C, and 17E); and (2) the proposal; and

WHEREAS, the study concluded that only the proposal would provide a reasonable return; and

WHEREAS, based upon its review of the applicant's submissions, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, the applicant states that the immediate area is characterized by a predominance of commercial and manufacturing uses; ground floor commercial use is particularly well-established, with every ground floor of every building fronting on Broadway between Spring Street and Broome Street (22 buildings) occupied by ground floor commercial use; and

WHEREAS, the applicant states that the proposed Use Group 6 retail is entirely consistent with the character of the neighborhood; and

WHEREAS, the applicant also notes that, historically, the area has been characterized by ground floor commercial

use, as evidenced by the LPC designation report for the SoHo Cast Iron Historic District; and

WHEREAS, LPC approved the changes legalized under this application by Certificate of Appropriateness, dated May 9, 2008; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, the applicant represents that the proposal represents the minimum variance needed to allow for a reasonable and productive use of the site, and notes that no changes to the bulk of the building are proposed; and

WHEREAS, accordingly, the Board finds that this proposal is the minimum necessary to afford relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 14-BSA-113M, dated February 7, 2014; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type I Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, within an M1-5B zoning district within the SoHo Cast Iron Historic District, the legalization of an existing retail use (Use Group 6) on the first story and expansion of retail use (accessory storage) into the cellar, contrary to ZR § 42-14(D)(2)(b), *on condition* that any and all work will

1 The applicant notes that of the 24 buildings, seven have Use Group 6 uses authorized by a CO, ten do not have a CO, and seven have Use Group 6 contrary to the CO.

MINUTES

substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received February 7, 2014"- eleven (11) sheets; and *on further condition*:

THAT substantial construction will be completed in accordance with ZR § 72-23;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, August 19, 2014.

CEQR #14-BSA-045M

APPLICANT – Sheldon Lobel, P.C., for SKP Realty, owner; H.I.T. Factory Approved Inc., operator.

SUBJECT – Application September 26, 2013 – Variance (§72-21) to permit the operation of a physical culture establishment (*H.I.T. Factory Improved*) on the second floor of the existing building. C1-3/R6B zoning district.

PREMISES AFFECTED – 7914 Third Avenue, west Side of Third Avenue between 79th and 80th Street, Block 5978, Lot 46, Borough of Brooklyn.

COMMUNITY BOARD #10BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner of the Department of Buildings (“DOB”), dated September 9, 2013, acting on DOB Application No. 320782630, reads, in pertinent part:

Proposed physical culture establishment use is not permitted in a C1-3 zoning district, per ZR 32-10; and

WHEREAS, this is an application under ZR § 72-21, to permit, within a C1-3 (R6B) zoning district within the Special Bay Ridge District, the operation of a physical culture establishment (“PCE”) within the second story of a two-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on January 28, 2014, after due notice by publication in the *City Record*, with a continued hearing on February 25, 2014, and then to decision on March 11, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 10, Brooklyn, recommends approval of the application, provided that the hours of operation are limited to daily, from 7:00 a.m. to 10:00 p.m.; and

WHEREAS, the subject site is located on the west side of Third Avenue, between 79th Street and 80th Street, within a C1-3 (R6B) zoning district within the Special Bay Ridge District; and

WHEREAS, the site has approximately 60 feet of frontage along Third Avenue and 6,000 sq. ft. of lot area; and

MINUTES

WHEREAS, the site is occupied by a two-story commercial building with approximately 11,400 sq. ft. of floor area (1.9 FAR); and

WHEREAS, the applicant notes that the first floor of the building is occupied by a grocery store and the second floor is vacant; and

WHEREAS, the applicant notes that the building was constructed in or around 1931 and that the site has been subject to the Board's jurisdiction since July 24, 1959, when, under BSA Cal. No. 398-58-BZ, it granted a variance permitting a factory contrary to use regulations; in addition, later that year, on September 29, 1959, under BSA Cal. No. 399-58-A, the Board granted an appeal waiving the live load requirements for the second story; and

WHEREAS, the applicant states that the manufacturing use remained on the second story until around 1972, when the manufacturer vacated the space, and remained vacant until around 2000, when a martial arts studio leased the space and occupied it until March 2012; and

WHEREAS, the applicant acknowledges that a martial arts studio is a PCE and concedes that a variance was not obtained for the operation of the studio; however, the applicant represents that both the building owner and the martial arts studio were unaware that a martial arts studio is considered a PCE and that PCEs are not permitted within a C1-3 (R6B) district; and

WHEREAS, the applicant now seeks a variance to operate the subject PCE, which will be known as H.I.T. Factory, occupy 5,400 sq. ft. of floor area on the second story, and operate daily, from 7:00 a.m. to 10:00 p.m.; and

WHEREAS, the applicant states that, per ZR § 72-21(a), the following are unique physical conditions which create an unnecessary hardship in developing the second floor in conformance with applicable regulations: (1) the second floor's configuration, depth, and size; and (2) its absence of street-level exposure; and

WHEREAS, the applicant states that the historic configuration, depth, and size of the second floor—the characteristics that made it suitable for historic manufacturing use—render it unsuitable for modern conforming uses; and

WHEREAS, specifically, the applicant states that the second floor has a large open floorplate, which would require utilities upgrades and partition construction in order to accommodate a modern business or professional office, at significant cost; and

WHEREAS, the applicant also asserts that the large size (approximately 6,000 sq. ft.) and depth (approximately 90 feet) of the second floor make residential use infeasible; and

WHEREAS, in particular, the applicant states that the second floor would be able to provide a rear yard depth of only ten feet, which is 20 feet less than the minimum required for habitable rooms; accordingly, all dwelling units must use the Third Avenue frontage of the building for required light and ventilation, which effectively prohibits the rear of the building from being converted to residences; and

WHEREAS, the applicant also states that the lack of light and ventilation owing to the building's depth would

further decrease its attractiveness to modern business or professional offices, which prefer natural light; and

WHEREAS, similarly, the second floor's absence of street-level exposure makes it undesirable for local retail and service establishment uses, which rely primarily on pedestrian visibility and convenience of access in order to attract customers; as such, the rent for the second floor must be heavily discounted in order to offset the limitations of the space; and

WHEREAS, the applicant notes that the second floor's unattractiveness to tenants is evidenced by its 28-year vacancy, which, as noted above, began in 1972 and ended when a martial arts studio (a PCE) began occupying the space in 2000; and

WHEREAS, to support its claim of unique hardship, the applicant provided an area study of the 92 buildings within 600 feet of the site; and

WHEREAS, based on the study, only one other building has a second floor non-residential (community facility) use: 7817 Third Avenue, which has a Rite-Aid store on the first floor and "Tutor Time," an infant child care and preschool, on the second floor; and

WHEREAS, however, the applicant asserts that the Tutor Time building is distinguishable from the site, in that it has significantly more lot area (approximately 9,600 sq. ft.) and is located on a corner, where light and ventilation are available for residential or modern office uses; and

WHEREAS, the Board agrees with the applicant that the aforementioned unique physical conditions, when considered together, create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant asserts that, per ZR § 72-21(b), there is no reasonable possibility that the development of the site in conformance with the Zoning Resolution will bring a reasonable return; and

WHEREAS, in addition to the proposal, the applicant examined the economic feasibility of constructing a conforming office for a single user on the second floor; and

WHEREAS, the applicant concluded that the offices resulted in a negative rate of return after capitalization; in contrast, the applicant represents that the proposal results in a positive rate of return; and

WHEREAS, based upon its review of the applicant's economic analysis, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict conformance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed PCE will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, the applicant states that a PCE occupied the building (albeit without the required variance, as noted above) from approximately 2000 until 2012, and that this

MINUTES

application has received letters of support from various community organizations as well as the community board; and

WHEREAS, the applicant represents that the surrounding community is characterized by low- to medium-density mixed residential and commercial uses, with many small business that are geared to local residents, and that the proposed PCE is consistent with such uses and will provide a valuable service; and

WHEREAS, as to the PCE's impact, the applicant represents that although light music may be played during workouts, the building's double concrete walls and extra padding will provide ample sound attenuation for both the neighboring buildings, and the grocery store use at the first floor; and

WHEREAS, in addition, consistent with the community board's request, as noted above, the hours of operation for the PCE will be limited to daily, from 7:00 a.m. to 10:00 p.m.; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that, consistent with ZR § 72-21(d), the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the history of manufacturing use on the second floor and the building's depth; and

WHEREAS, finally, the Board finds that the proposal is the minimum variance necessary to afford relief, as set forth in ZR § 72-21(e); and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the Board notes that because the use authorized herein is classified as a PCE, the variance will be granted for a term of ten years, to expire on March 11, 2024; and

WHEREAS, the Department of Investigation performed a background check on the corporate owner and operator of the PCE and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 14BSA045M, dated September 23, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials;

Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, within a C1-3 (R6B) zoning district within the Special Bay Ridge District, the operation of a physical culture establishment ("PCE") within the second story of a two-story commercial building, contrary to ZR § 32-10, *on condition* that any and all work will substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received December 23, 2013" – Four (4) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on March 11, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT all signage at the site will be limited to C1 zoning district regulations;

THAT all massages must be performed only by New York State licensed massage professionals;

THAT the hours of operation for the PCE will be limited to seven days per week, from 7:00 a.m. to 10:00 p.m.;

THAT the above conditions will appear on the certificate of occupancy;

THAT a new certificate of occupancy will be obtained within two years of the date of this grant, on March 11, 2016;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, March 11, 2014.

The resolution has been amended to replace the part which read ...two-story residential building... now reads:

MINUTES

“...two-story commercial building...”. Corrected in Bulletin No. 34, Vol. 99, dated August 27, 2014.

in the *City Record*, and then to decision on July 15, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 7, Queens, recommends approval of the application, subject to the following conditions: (1) "One Way" signs are installed at the 12th Avenue entrance to the church parking lot for the hours of 7:30 a.m. to 6:00 p.m. on school days; (2) "One Way" signs are installed indicating "Exit Only" on at the 150th Street exit of the church parking lot for the hours of 7:30 a.m. to 6:00 p.m. on school days; (3) staff will be required to park only in the church parking lot and not on the local streets; (4) all staff cars will be required to park in a predetermined area and stacked next to each other; (5) kindergarteners and first graders will be dismissed 15 minutes early; (6) Valiotis will pursue the installation of a Stop sign at the intersection of 150th Street and 12th Avenue; and (7) Valiotis, Community Board 7, and Councilman Vallone will continue to pursue a request for a crossing guard at the intersection of 150th Street and 12th Avenue; and

WHEREAS, Councilman Paul A. Vallone, submitted testimony in support of the application; and

WHEREAS, the subject site is located on the southeast corner of the intersection of 12th Avenue and 150th Street, within an R2 zoning district; and

WHEREAS, the site has 125 feet of frontage along 12th Avenue, 100 feet of frontage along 150th Street, and 12,500 sq. ft. of lot area; and

WHEREAS, the site is occupied by a one-story school (Use Group 3) with 6,030 sq. ft. of floor area (0.48 FAR) and a building height of 31'-11"; the building was completed in 2004, and, according to Certificate of Occupancy No. 400676559, includes: in the sub-cellar, a gymnasium, assembly space, a mechanical room, a kitchen, and accessory storage; on the cellar level, a child care center for up to 36 children; on the first story, classrooms, offices, and accessory storage; and at the attic level, accessory storage; the four required accessory off-street parking spaces for the building are provided across 12th Avenue in the Holy Cross church parking lot (Block 4516, Lot 1; formerly Block 4516, Lot 50), per restrictive declaration; and

WHEREAS, the applicant notes that an as-built survey revealed that the building was constructed with the following non-compliances: (1) a front yard depth of 14'-0" (a minimum front yard depth of 15'-0" is required, per ZR § 24-34); (2) two side yards with widths of 8'-0" (two side yards with minimum widths of 8'-0" and 10'-2" are required, per ZR § 24-35); and (3) a lot coverage of 66 percent (a maximum lot coverage of 60 percent is permitted, per ZR § 24-11); and

WHEREAS, the applicant now proposes to vertically and horizontally enlarge the building, resulting in a two-story building with 13,967 sq. ft. of floor area (1.11 FAR)

and building height of 34'-3"; and

WHEREAS, the applicant states that the variance is requested to legalize the above-noted non-compliances, which are maintained in the enlarged portion of the building; in addition, the following new non-compliances are proposed: (1) an FAR of 1.11 is proposed (the maximum permitted FAR is 0.5 FAR, per ZR § 24-111); (2) a sky-exposure plane of less than 1-to-1 is proposed (a 1-to-1 sky-exposure plane is required, per ZR § 24-54); and (3) four accessory off-street parking spaces (a minimum of ten accessory parking spaces are required, per ZR § 25-31); and

WHEREAS, the applicant states that Valiotis began as an afternoon Greek School Afternoon Program with three students in 1977 and currently enrolls 180 students in nursery through third grade; the applicant notes that demand for Valiotis has increased sharply since 2008, when enrollment was approximately 30 students; and

WHEREAS, the applicant represents that 35 prospective students were turned away in the 2013-2014 school year because the existing facility is too small to accommodate them; further, approximately 50 students must occupy classroom space in temporary trailers in a nearby site; and

WHEREAS, the applicant states that the proposal would allow Holy Cross to institute a comprehensive elementary school curriculum, consisting of nursery through fifth grade, with a total enrollment of 250 students; and

WHEREAS, the applicant states that the proposed 7,937 sq-ft. enlargement includes the following: on the first story, a new library, a new science lab, a new classroom, and new boys' and girls' restrooms; and on the second story, a new classroom, a new computer room, a new art room, additional storage, and new boys' and girls' restrooms; and

WHEREAS, the applicant states that the following are the primary programmatic needs of Holy Cross, which necessitate the requested variances: (1) to accommodate the needs of its growing congregation of approximately 650 members, many of whom have children enrolled at Valiotis and would like to send them to the school for fourth and fifth grade; (2) to provide interdisciplinary teaching spaces (arts, information technology, and science) in order to prepare its students for modern intermediate and high school curricula; and (3) to provide sufficient space for Holy Cross' Greek School Afternoon and Sunday School programs; and

WHEREAS, the applicant states that there is a direct nexus between the requested waivers and the programmatic needs of Holy Cross; and

WHEREAS, in particular, the applicant asserts that a complying building could not provide adequate classroom and program space for Holy Cross; as noted above, Valiotis was built and received a certificate of occupancy despite several as-built non-compliances; thus, constructing a complying building would require costly demolition of substantial portions of the existing building, resulting in further reductions of program space; and

WHEREAS, as to the new non-compliances associated with the proposed enlargement (FAR, sky-exposure-plane, and

MINUTES

parking), the applicant asserts that each is essential to constructing a space that will accommodate Holy Cross's needs; the FAR is necessary, as noted above, because the existing school is too small to accommodate even its existing student body (50 students must learn in temporary trailers); the sky-exposure-plane waiver is necessary to provide sufficient headroom in a new classroom on the second story; the parking waiver is necessary because the existing building was constructed without parking and providing parking would require complete renovation and a substantial loss of program space; for example, if parking were to be located in the sub-cellar and/or cellar, Valiotis would be forced to give up portions of its gymnasium and child care center; and

WHEREAS, in addition, the applicant states, as noted above, that Valiotis has four designated parking spaces in the Holy Cross church parking lot across 12th Avenue; under the proposal, the number of designated spaces will be increased to ten; and

WHEREAS, accordingly, the applicant asserts that only the proposal will provide the necessary space for Holy Cross to achieve its programmatic needs at Valiotis; and

WHEREAS, the Board acknowledges that Holy Cross, as an educational institution, is entitled to significant deference under the law of the State of New York as to zoning and as to its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in Cornell Univ. v. Bagnardi, 68 N.Y.2d 583 (1986), an educational institution's application is to be permitted unless it can be shown to have an adverse effect upon the health, safety, or welfare of the community, and general concerns about traffic, and disruption of the residential character of a neighborhood are insufficient grounds for the denial of an application; and

WHEREAS, accordingly, based upon the above, the Board finds that the limitations and inefficiencies of the existing building and the site, when considered in conjunction with the programmatic needs of Holy Cross, create unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, since Holy Cross is a non-profit institution and the variance is needed to further its non-profit mission, the finding set forth at ZR § 72-21(b) does not have to be made in order to grant the variance requested in this application; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, impair the appropriate use or development of adjacent property, or be detrimental to the public welfare, consistent with ZR § 72-21(c); and

WHEREAS, the applicant represents that the surrounding neighborhood is characterized by one- and two-story residential and community facility uses; south of the site along 150th Street between 12th Road and the Cross Island Parkway, the built character reflects the area's zoning designations (C1-2 and C2-2), in that one- and two-story mixed residential and commercial buildings predominate; and

WHEREAS, the applicant notes that the proposed use exists and is permitted as-of-right in the subject R2 zoning

district; and

WHEREAS, as such, the applicant contends that the proposed enlargement is entirely consistent with the use and bulk of the area; and

WHEREAS, the applicant states that the proposal was designed to be sensitive to the scale of the streetscapes along both 150th Street and 12th Avenue, in that it maintains the existing yards and provides complying wall and building heights; and

WHEREAS, as to adjacent uses, the applicant states that directly south of the site is a two-story community facility building, directly east of the site is an undeveloped lot with a width of 50 feet, directly north of the site (across 12th Avenue) is the parking lot for the Holy Cross church, and directly west of the site (across 150th Street) is a school; the applicant also notes that there is a two-story church north and west of the site, on the northwest corner of the intersection of 12th Avenue and 150th Street; and

WHEREAS, the applicant also notes that the site abuts an R3-2 zoning district, where the maximum permitted FAR for a community facility is 1.0 FAR, which is consistent with the proposed 1.11 FAR; and

WHEREAS, at hearing, the Board directed the applicant to: (1) provide a site plan of the parking lot at Block 4516, Lot 1, which shows the proposed number of parking spaces, site circulation, and signage; and (2) clarify the proposed traffic mitigation and safety measures; and

WHEREAS, in response, the applicant provided the requested plan, which reflects the proposed parking lot circulation and signage, which includes a single entrance point (the 12th Avenue curb cut) and exit point (the 150th Street curb cut) for the lot; and

WHEREAS, as traffic mitigation and safety, the applicant states that security personnel will be assigned to the site during pickup and drop-off times, dismissal times for pre-kindergarten and kindergarten students will be staggered, and bus queuing and parking will be relocated from 150th Street to 12th Avenue; and

WHEREAS, accordingly, the Board finds that, in accordance with ZR § 72-21(c), this action will neither alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that the hardship was not self-created and that no development that would meet the programmatic needs of Holy Cross could occur on the existing lot; and

WHEREAS, accordingly, the Board finds that the hardship herein was not created by the owner or a predecessor in title, per ZR § 72-21(d); and

WHEREAS, the applicant states and the Board agrees that the requested waivers are the minimum necessary to afford relief to satisfy the Holy Cross' programmatic needs, in accordance with ZR § 72-21(e); and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

MINUTES

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

4, 2014 . Corrected in Bulletin No. 34, Vol. 99, dated August 27, 2014.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, on a site within an R2 zoning district, the enlargement of a one-story community facility building to be occupied as a religious school (Use Group 3), which does not comply with regulations regarding FAR, sky-exposure plane, parking, side and front yards, and lot coverage, contrary to ZR §§ 24-11, 24-34, 24-35, 24-54, 25-31, and 24-111; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked “Received June 3, 2014” – Nine (9) sheets; and “Received July 14, 2014” – One (1) sheet; and *on further condition*:

THAT the building parameters will be: two stories; a maximum building height of 34’-3”; a maximum of 13,967 sq. ft. of floor area (1.11 FAR); a minimum front yard depth of 14’-0”; two side yards with minimum widths of 8’-0”; and a maximum lot coverage of 66 percent, as illustrated on the BSA-approved plans;

THAT a deed restriction will be recorded against Block 4516, Lot 1 designating minimum of ten parking spaces for the school’s use;

THAT “One Way” signs will be installed and maintained at the 12th Avenue entrance to the church parking lot for the hours of 7:30 a.m. to 6:00 p.m. on school days;

THAT “One Way” signs will be installed and maintained at the 150th Street exit of the church parking lot for the hours of 7:30 a.m. to 6:00 p.m. on school days;

THAT the 12th Avenue curb cut will only be used for entering the parking lot and the 150th Street curb cut will only be used for exiting the parking lot, and signs reflecting these restrictions will be installed and maintained;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans are considered approved only for the portions related to the specific relief granted;

THAT construction will proceed in accordance with ZR § 72-23; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, July 15, 2014.

The resolution has been amended to change the plans date which read “June 3, 2014” ...now reads:”June

MINUTES

REGULAR MEETING TUESDAY MORNING, SEPTEMBER 16, 2014 10:00 A.M.

Present: Chair Perlmutter, Vice-Chair Hinkson,
Commissioner Ottley-Brown and Commissioner Montanez.

SPECIAL ORDER CALENDAR

765-50-BZ

APPLICANT – Kenneth H. Koons, for R.G. Ortiz Funeral Home, Ink., owner.

SUBJECT – Application April 14, 2014 – Extension of Term (§11-411) of an approved variance permitting an existing one-story funeral parlor, which expired on November 20, 2013. C1-2 zoning district.

PREMISES AFFECTED – 1430-36 Unionport Road, eastside 43 feet South of Olmstead Avenue, Block 3933, Lot 51, Borough of Bronx.

COMMUNITY BOARD #9BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Commissioner Hinkson, Commissioner Ottley-Brown and Commissioner Montanez3
Negative:.....0
Abstain: Chair Perlmutter.....1

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a re-opening, and an extension of term for a variance permitting a funeral parlor in a C1-2 (R6) zoning district, which expired on November 20, 2013; and

WHEREAS, a public hearing was held on this application on July 15, 2014, after due notice by publication in *The City Record*, with a continued hearing on August 19, 2014, and then to decision on September 16, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, Community Board 9, Bronx, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of Unionport Road, between Olmstead Avenue and Odell Street, within a C1-2 (R6) zoning district; and

WHEREAS, the Board has exercised jurisdiction over the site since July 14, 1953, when, under the subject calendar number, the Board granted an application to permit, in a residence district, the construction of a one-story addition to and the continued operation of an existing funeral parlor, contrary to the use and bulk regulations of the 1916 Zoning Resolution; under the original grant, the Board limited to the use to a term of 20 years; and

WHEREAS, the grant has been amended and extended at various times over the years, most recently on June 14,

2005, when the Board extended the term for ten years, to expire on November 20, 2013; and

WHEREAS, the applicant now seeks an additional extension of term; and

WHEREAS, at hearing, the Board expressed concerns regarding the lack of landscaping at the site; and

WHEREAS, in response, the applicant submitted photographs depicting the planting of evergreens along the eastern and northern lot lines; and

WHEREAS, pursuant to ZR § 11-411, the Board may, in appropriate cases, allow an extension of the term of a pre-1961 variance; and

WHEREAS, the Board has determined that the evidence in the record supports the finding required to be made under ZR § 11-411.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated July 14, 1953, so that as amended the resolution reads: “to permit the extension of the term of the variance for an additional ten years from November 20, 2013 expiring on November 20, 2023; on condition on condition that all work will substantially conform to drawings, filed with this application marked ‘Received April 4, 2014’– (4) sheets; and on further condition:

THAT the term of the variance will expire on November 20, 2023;

THAT there will be a minimum of ten parking spaces at the site;

THAT the premises will be maintained free of debris and graffiti;

THAT any graffiti located on the premises will be removed within 48 hours;

THAT the above conditions will appear on the certificate of occupancy;

THAT conditions from prior resolution(s) not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Application No. 200926098)

Adopted by the Board of Standards and Appeals, September 16, 2014.

427-70-BZ

APPLICANT – Carl A. Sulfaro, Esq. for Beach Channel, LLC, owner; Masti, Inc. lessee.

SUBJECT – Application May 21, 2012 – Amendment of a previously approved Variance (§72-21) which permitted the operation of an Automotive Service Station (UG 16B). Amendment seeks to legalize a one-story accessory convenience store. C2-2/R4 zoning district.

MINUTES

PREMISES AFFECTED – 38-01 Beach Channel Drive, southwest corner of Beach 38th Street and Beach Channel Drive. Block 15828, Lot 30. Borough of Queens.

COMMUNITY BOARD #14Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Commissioner Hinkson, Commissioner Ottley-Brown and Commissioner Montanez3

Negative:.....0

Abstain: Chair Perlmutter.....1

THE RESOLUTION –

WHEREAS, this is an application for a re-opening and an amendment to legalize the construction of an accessory convenience store on a site subject to a variance authorizing an automotive and gasoline service station (Use Group 16) within an R4 zoning district; and

WHEREAS, a public hearing was held on this application on January 28, 2014, after due notice by publication in *The City Record*, with a continued hearing on July 29, 2014, and then to decision on September 16, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Montanez; and

WHEREAS, the subject site is located on the southwest corner of the intersection of Beach Channel Drive and Beach 38th Street, within a C2-2 (R4) zoning district; and

WHEREAS, the site has 151.75 feet of frontage along Beach Channel Drive, 120 feet of frontage along Beach 38th Street, and approximately 15,095 sq. ft. of lot area; and

WHEREAS, the site is occupied by a one-story building with 3,032 sq. ft. of floor area (0.20 FAR); the building contains a convenience store accessory to an automotive and gasoline service station (Use Group 16); and

WHEREAS, the Board first exercised jurisdiction over the site in the mid-1940s, when, under BSA Cal. No. 479-44-BZ, it granted an application to permit an automotive and gasoline service station in a residence use district contrary to the use regulations of the 1916 Zoning Resolution; and

WHEREAS, on February 23, 1971, under the subject calendar number, the Board permitted, pursuant to ZR §§ 11-412, 11-413, and 72-21, the enlargement of the lot area and reconstruction of an automotive service station with accessory uses; at the time, the site was within an R4 zoning district; the Board did not limit the operation of the use to a term; and

WHEREAS, subsequently, the grant was amended at various times; in addition, the site has been rezoned from R4 to C2-2 (R4); and

WHEREAS, the applicant represents that in 2007, the building was enlarged without the Board’s authorization and pursuant to an erroneously-issued DOB permit; and

WHEREAS, accordingly, the applicant now seeks an amendment to legalize the enlargement; the enlargement reflects an increase in floor area from 450 sq. ft. (0.03 FAR) to 3,032 sq. ft. (0.20 FAR); the maximum permitted FAR for a commercial use at the site is 7,547 sq. ft. (0.50 FAR); and

WHEREAS, the applicant states that the enlarged building complies with DOB Technical Policy and Procedure Notice No. 10/1999, which sets forth the requirements for convenience stores accessory to gasoline and automotive service stations; and

WHEREAS, at hearing, the Board directed the applicant: (1) remove excessive signage at the site; (2) enclose the garbage area; and (3) provide a proper buffer between the site and adjacent residential uses; and

WHEREAS, in response, the applicant submitted amended plans, which reflect signage in accordance with C2 regulations, newly-planted trees along the property line, and relocated trash receptacles; and

WHEREAS, based on its review of the record, the Board finds that the requested legalization is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated February 23, 1971, so that as amended the resolution reads: “to permit the noted modifications; *on condition* that all work will substantially conform to drawings, filed with this application marked ‘Received August 26, 2014’-(7) sheets; and on further condition:

THAT the building will be limited to a maximum of 3,032 sq. ft. of floor area (0.20 FAR);

THAT the site will be maintained free of debris and graffiti;

THAT signage will be in accordance with C2 regulations;

THAT landscaping and buffering will be maintained in accordance with the BSA-approved plans;

THAT lighting will be directed downward and away from adjoining residences;

THAT the above conditions will be noted in the Certificate of Occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, September 16, 2014.

68-91-BZ

APPLICANT –Warshaw Burstein, LLP, for Cumberland farms, Ink., owner.

SUBJECT – Application July 1, 2014 – Extension of Time to obtain a Certificate of Occupancy for a previously granted variance for the continued operation of an Automotive Service Station (*Gulf*) which expired on March 12, 2014; Waiver of the Rules. R5D/C1-2 and R2A zoning district.

PREMISES AFFECTED – 223-15 Union Turnpike, northwest corner of Springfield Boulevard and Union Turnpike, Block 7780, Lot 1, Borough of Queens.

COMMUNITY BOARD #11Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Commissioner Hinkson, Commissioner Ottley-Brown and Commissioner Montanez3
Negative:.....0
Abstain: Chair Perlmutter.....1

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, and an extension of time to obtain a certificate of occupancy for an automotive service station (Use Group 16B), which expired on March 12, 2014; and

WHEREAS, a public hearing was held on this application on August 19, 2016, after due notice by publication in *The City Record*, and then to decision on September 16, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Montanez; and

WHEREAS, the site is located on the northwest corner of the intersection of Springfield Boulevard and Union Turnpike, partially within a C1-2 (R5D) zoning district and partially within an R2A zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since January 13, 1942 when, under BSA Cal. No. 150-41-BZ, the Board granted a variance to permit the construction of a gasoline service station (and a single-family residence), for a term of ten years; and

WHEREAS, subsequently, the grant was amended and the term extended at various times, until its expiration on November 5, 1985; and

WHEREAS, on May 19, 1992, under the subject calendar number, the Board granted an application under ZR § 11-411 to re-establish the expired variance for a gasoline service station; this grant has been amended and extended at various times, most recently on March 12, 2013, for a term of ten years, to expire on May 19, 2022; and

WHEREAS, a condition of the most recent grant was that the certificate of occupancy was to be obtained by March 12, 2014; however, as of that date, a certificate of occupancy had not been obtained; and

WHEREAS, accordingly, the applicant now seeks an extension of time to obtain a certificate of occupancy; and

WHEREAS, the applicant states that the issuance of the

certificate of occupancy has been delayed by the existence of several open Department of Buildings (“DOB”) permit applications; and

WHEREAS, the applicant represents that the applications should be closed out within six months of the requested extension of time; and

WHEREAS, at hearing, the Board directed the applicant to provide landscaping in accordance with the previously-approved plans; and

WHEREAS, in response, the applicant provided photographs depicting the landscaping; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of term and extension of time are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens*, and *amends* the resolution, dated May 19, 1992, so that as amended the resolution reads: “to extend the time to obtain a certificate of occupancy until March 12, 2015; *on condition* that all work will substantially conform to the BSA-approved plans; and *on further condition*:

THAT a new certificate of occupancy will be obtained by March 12, 2015;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB App. Nos. 401393835 and 401393648)

Adopted by the Board of Standards and Appeals, September 16, 2014.

88-92-BZ

APPLICANT – Kenneth H. Koons, for 3007 Enterprise Ink., owner.

SUBJECT – Application March 12, 2014 – Extension of Term (§11-411) of an approved variance for an existing diner, which will expire on June 28, 2014. R4-1 zoning district.

PREMISES AFFECTED – 3007 East Tremont Avenue, northeast corner of Ericson Place, Block 5381, Lot 38, Borough of Bronx.

COMMUNITY BOARD #10BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Commissioner Hinkson, Commissioner Ottley-Brown and Commissioner Montanez3
Negative:.....0
Abstain: Chair Perlmutter.....1

MINUTES

THE RESOLUTION –

WHEREAS, this is an application for a re-opening and an extension of term for a variance permitting an eating and drinking establishment (Use Group 6) in an R4-1 zoning district, which expired on June 28, 2014; and

WHEREAS, a public hearing was held on this application on July 15, 2014, after due notice by publication in *The City Record*, and then to decision on September 16, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Montanez; and

WHEREAS, Community Board 10, Bronx, recommends approval of this application; and

WHEREAS, the subject site is located northeast corner of the intersection of Ericson Place and East Tremont Avenue, within an R4-1 zoning district; and

WHEREAS, the Board has exercised jurisdiction over the site since January 12, 1954, when, under BSA Cal. No. 247-35-BZ, the Board granted an application to permit, in a residence district, the operation of an eating and drinking establishment, contrary to the use regulations of the 1916 Zoning Resolution; under the original grant, the Board limited to the use to a term of 15 years; and

WHEREAS, the 1954 grant was amended and extended at various times over the years; and

WHEREAS, on July 26, 1994, under the subject calendar number, the Board granted an application pursuant to ZR §§ 11-411 and 11-412 to permit a one-story enlargement to the eating and drinking establishment, for a term of ten years, to expire on June 28, 2004; and

WHEREAS, most recently, on October 19, 2004, the Board extended the term of the grant for an additional ten years, to expire on June 28, 2014; and

WHEREAS, therefore, the applicant now seeks an additional extension of term; and

WHEREAS, pursuant to ZR § 11-411, the Board may, in appropriate cases, allow an extension of the term of a pre-1961 variance; and

WHEREAS, at hearing, the Board expressed directed the applicant to: (1) verify whether the partially-enclosed portion of the building is included in floor area; and (2) restripe the parking lot; and

WHEREAS, in response, the applicant: (1) indicated that the partially-enclosed area was not included in floor area; and (2) submitted a photograph depicting the restriped parking lot; and

WHEREAS, the Board has determined that the evidence in the record supports the finding required to be made under ZR § 11-411.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated July 26, 1994, so that as amended the resolution reads: “to permit the extension of the term of the variance for an additional ten years from June 28, 2014, expiring on June 28, 2024; on condition on condition that all work will substantially conform to drawings, filed with

this application marked ‘Received March 12, 2014’-(3) sheets and ‘August 4, 2014’– (1) sheet; and on further condition:

THAT the term of the variance will expire on June 28, 2024;

THAT the premises will be maintained free of debris and graffiti;

THAT any graffiti located on the premises will be removed within 48 hours;

THAT the above conditions will appear on the certificate of occupancy;

THAT all conditions from prior resolution(s) not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; and

Adopted by the Board of Standards and Appeals, September 16, 2014.

140-92-BZ

APPLICANT – Law Office of Fredrick A. Becker, for Evangel Church, owner.

SUBJECT – Application June 12, 2014 – Extension of Time to Complete Construction of a previously granted Variance (ZR 72-21) for the enlargement of an existing school (UG3) which expired on January 26, 2014. M1-2/R5D zoning district.

PREMISES AFFECTED – 39-21 Crescent Street, southerly side of Crescent Street between 39th Avenue and 40th Avenue, Block 396, Lot(s) 10 and 36, Borough of Queens.

COMMUNITY BOARD #1Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Commissioner Hinkson, Commissioner Ottley-Brown and Commissioner Montanez3

Negative:.....0

Abstain: Chair Perlmutter.....1

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, and an extension of time of complete construction pursuant to a previously-granted variance permitting a four-story vertical enlargement of an existing two-story building occupied as a school (Use Group 3), which expired on January 26, 2014; and

WHEREAS, a public hearing was held on this application on July 29, 2014, after due notice by publication in *The City Record*, and then to decision on September 16, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Queens, recommends approval of the proposed enlargement; and

WHEREAS, the subject site is a through lot bounded by Crescent Street to the north and 27th Street to the south,

MINUTES

between 39th Avenue and 40th Avenue, partially within an M1-2/R5B zoning district and partially within an M1-2/R5D zoning district, within the Special Long Island City Mixed Use District; and

WHEREAS, on May 9, 1995, the Board granted a variance pursuant to ZR § 72-21, which permitted, in an M1-3D zoning district, a five-story and cellar horizontal enlargement of an existing four-story and cellar non-conforming school with accessory uses (Use Group 3) which did not provide the required rear yard equivalent and exceeded the maximum height limit; and

WHEREAS, subsequent to the grant, the site was rezoned from M1-3D to partially M1-2/R5B and partially M1-2/R5D, within the Special Long Island City Mixed Use District; and

WHEREAS, on January 26, 2010, the Board reopened the grant and amended it to permit a four-story enlargement, rather than the five-story enlargement originally authorized; and

WHEREAS, pursuant to the conditions of the amended grant, substantial construction was to be completed by January 26, 2014; however, the applicant represents that as of that date, substantial construction had not been completed; and

WHEREAS, accordingly, the applicant now requests an extension of time to complete construction

WHEREAS, the applicant states that construction pursuant to the grant was delayed due to a lack of funding; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction is appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens*, and *amends* the resolution, dated May 9, 1995, so that as amended the resolution reads: “to grant an extension of time to complete construction for a term of four years from the last expiration, to expire on January 26, 2018; *on condition* that all work will substantially conform to the BSA-approved plans; and *on further condition*:

THAT substantial construction will be completed by January 26, 2018;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Application No. 410183821)

Adopted by the Board of Standards and Appeals, September 16, 2014.

160-00-BZ

APPLICANT – Vassalotti Associates Architects, LLP, for 243-02 So. Conduit Avenue, LLC, owner.

SUBJECT – Application April 2, 2013 – ZR 11-411 Extension of Term for the continued operation of an automotive service station (*Citgo*) which expired on November 21, 2010; Extension of Time to obtain a Certificate of Occupancy which expired on November 21, 2001; Waiver of the Rules. C1-3/R3-2 zoning district.

PREMISES AFFECTED – 244-04 Francis Lewis Boulevard, southwest corner of South Conduit and Francis Lewis Boulevard, Block 13599, Lot 25, Borough of Queens.

COMMUNITY BOARD #13Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Commissioner Hinkson, Commissioner Ottley-Brown and Commissioner Montanez3
Negative:.....0

Abstain: Chair Perlmutter.....1

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, an extension of term for the operation of a gasoline service station (Use Group 16), which expired on November 21, 2010, and an extension of time to obtain a certificate of occupancy, which expired on November 21, 2001; and

WHEREAS, a public hearing was held on this application on April 8, 2014, after due notice by publication in *The City Record*, with continued hearings on May 13, 2014, July 15, 2014, and August 19, 2014, and then to decision on September 16, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 13, Queens, recommends approval of the application; and

WHEREAS, former Queens Borough President Helen Marshall recommends approval of the application, provided that neither beer nor alcohol is sold at the site; and

WHEREAS, the subject site is an irregularly-shaped lot located at the intersection of 243rd Street, South Conduit Avenue, and Francis Lewis Boulevard, within a C1-3 (R3-2) zoning district; and

WHEREAS, the site has 98.74 feet of frontage along 243rd Street, 33.32 feet of frontage along South Conduit Avenue, 79.80 feet of frontage along Francis Lewis Boulevard, 21.54 feet of frontage along 245th Street, and approximately 9,700 sq. ft. of lot area; and

WHEREAS, the site is occupied by a one-story building with 1,232 sq. ft. of floor area (0.13 FAR), four gasoline pump island with a total of four dispensers, and four accessory parking spaces; the building includes an accessory convenience store; the site will be operated as a Sunoco station; and

WHEREAS, the Board has exercised jurisdiction over

MINUTES

the subject site since January 24, 1956 when, under BSA Cal. No. 419-55-BZ, the Board granted a variance to permit the operation of a gasoline service station, lubritorium, non-automatic auto laundry, and auto storage and repair shop, for a term of 15 years; and

WHEREAS, the grant was amended and the term extended at various times; and

WHEREAS, on November 21, 2000, under the subject calendar number, the Board granted an application under ZR § 11-411 to re-establish the expired variance for the gasoline service station and to permit conversion of the auto repair shop to a convenience store; the term of the grant was limited to ten years, to expire on November 21, 2010 and a condition of the grant was that a certificate of occupancy would be obtained by November 21, 2001; and

WHEREAS, the applicant notes that the term expired more than three years ago and that a certificate of occupancy was not obtained for the use by November 21, 2001; and

WHEREAS, accordingly, the applicant now seeks an extension of term and an extension of time to obtain a certificate of occupancy; and

WHEREAS, pursuant to ZR § 11-411, the Board may, in appropriate cases, allow an extension of the term of a pre-1961 variance; and

WHEREAS, at hearing, the Board directed the applicant to provide landscaping in accordance with the previously-approved plans and to remove vacuums, which were not authorized by the prior grant; and

WHEREAS, in response, the applicant provided photographs depicting the landscaping and the removal of the vacuums; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of term and extension of time of time to obtain a certificate of occupancy are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens*, and *amends* the resolution, dated November 21, 2000, so that as amended the resolution reads: “to permit the extension of the term of the variance for an additional ten years, from November 21, 2010, expiring on November 21, 2020, and to extend the time to obtain a certificate of occupancy until September 16, 2015; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked ‘Received April 29, 2014’- (2) sheets and ‘August 14, 2014’- (1) sheet; and *on further condition*:

THAT the term of the variance will expire on November 21, 2020;

THAT a new certificate of occupancy will be obtained by September 16, 2015;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT DOB must ensure compliance with all other

applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Application No. 401042732)

Adopted by the Board of Standards and Appeals, September 16, 2014.

254-08-BZ

APPLICANT – Eric Palatnik, P.C., for Yeshiva Ohr Yitzhock, owner.

SUBJECT – Application June 12, 2014 – Extension of Time to Complete Construction for a previously granted variance (§72-21) to legalize and enlarge a yeshiva (*Yeshiva Ohr Yitzchok*), which expired on March 23, 2014. M1-1 zoning district.

PREMISES AFFECTED – 1214 East 15th Street, between Avenue L and Locust Avenue, Block 6734, Lot 12, Borough of Brooklyn.

COMMUNITY BOARD #14BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Commissioner Hinkson, Commissioner Ottley-Brown and Commissioner Montanez3

Negative:.....0

Abstain: Chair Perlmutter.....1

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, and an extension of time of complete construction pursuant to a previously-granted variance permitting the enlargement of an existing school (Use Group 3), which expired on March 23, 2014; and

WHEREAS, a public hearing was held on this application on August 19, 2014, after due notice by publication in *The City Record*, and then to decision on September 16, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the west side of East 15th Street, between Locust Avenue and Avenue L, within an M1-1 zoning district; and

WHEREAS, on March 23, 2010, under the subject calendar number, the Board granted a variance to permit, on a site within an M1-1 zoning district, the legalization and enlargement of an existing school (yeshiva), contrary to use and bulk regulations; and

WHEREAS, pursuant to the conditions of the grant, substantial construction was to be completed by March 23, 2014; however, the applicant represents that as of that date, substantial construction had not been completed; and

WHEREAS, accordingly, the applicant now requests an extension of time to complete construction; and

WHEREAS, the applicant states that construction

MINUTES

pursuant to the grant was delayed due to a lack of funding; and WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction is appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens*, and *amends* the resolution, dated March 23, 2010, so that as amended the resolution reads: “to grant an extension of time to complete construction for a term of four years from the last expiration, to expire on March 23, 2018; *on condition* that all work will substantially conform to the BSA-approved plans; and *on further condition*:

THAT substantial construction will be completed by March 23, 2018;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

ACTION OF THE BOARD – Appeal Denied.

THE VOTE TO GRANT –

Affirmative:0

Negative: Vice-Commissioner Hinkson, Commissioner Ottley-Brown and Commissioner Montanez3

MINUTES

Recused: Chair Perlmutter.....1

THE RESOLUTION –

WHEREAS, the subject appeal comes before the Board in response to a Notice of Sign Registration Rejection letter from the Bronx Borough Commissioner of the Department of Buildings (“DOB”), dated January 14, 2013, denying registration for a sign at the subject premises (the “Final Determination”), which reads, in pertinent part:

The Department of Buildings is in receipt of additional documentation submitted in response to the Deficiency Letter from the Sign Enforcement Unit and in connection with the application for registration of the above-referenced sign. However, such documentation does not support the establishment of the existing sign prior to the relevant non-conforming use date. As such the sign is rejected. This sign will be subject to enforcement action 30 days from the issuance of this letter; and

WHEREAS, a public hearing was held on this application on July 16, 2013, after due notice by publication in *The City Record*, and then to decision on September 24, 2013; and

WHEREAS, subsequent to the Board’s decision on September 24, 2013, the Appellant pursued an appeal pursuant to Civil Practice Laws and Rules Article 78 to overturn the Board’s denial (Matter of OTR Media Group v. Board of Standards and Appeals, (Index No. 101422/2013)); and

WHEREAS, pursuant to a stipulation signed by the Appellant and the City, dated August 13, 2014, the matter was remanded to the Board for the limited purpose of considering whether to distinguish the subject appeal from a prior appeal for signs located at 2284 12th Avenue (BSA Cal. Nos. 96-12-A and 97-12-A); and

WHEREAS, accordingly, the Board held a public hearing on September 16, 2014 at which it voted to add three recitals to the conclusion of the September 24, 2013 decision which are identified below for such purpose; and

WHEREAS, the remainder of the resolution remains from the original and the Board re-adopts its denial; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Chair Srinivasan, Commissioner Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, the subject premises (the “Premises”) is located on the southwest corner of the intersection of Zerega Avenue and Bruckner Boulevard, within an M1-1- zoning district; and

WHEREAS, the Premises is occupied by a five-story commercial building; atop the building is an advertising sign with a surface area of 672 sq. ft. (the “Sign”); and

WHEREAS, this appeal is brought on behalf of the lessee of the Sign structure (the “Appellant”); and

WHEREAS, the Appellant states that the Sign is 50 feet from and within view of the Cross Bronx Expressway, an arterial highway pursuant to Appendix H of the Zoning Resolution; and

WHEREAS, the Appellant notes that on March 27, 2008, DOB issued Permit No. 210039224 for the repair of the structural elements of the Sign and on April 21, 2008, DOB issued Permit No. 201143253 for the repair of the Sign itself (collectively the “Permits”); however, on January 31, 2013, DOB revoked the Permits based on its determination that the Sign was not established as a non-conforming advertising sign; and

WHEREAS, the Appellant seeks a reversal of DOB’s rejection of the registration (and related revocation of the Permits) of the Sign based on DOB’s determination that the Appellant failed to provide evidence of the establishment of an advertising sign; and

WHEREAS, DOB appeared and made submissions in opposition to this appeal; and

REGISTRATION REQUIREMENT

WHEREAS, the relevant statutory requirements related to sign registration have been in effect since 2005; and

WHEREAS, under Local Law 31 of 2005, the New York City Council enacted certain amendments to existing regulations governing outdoor advertising signs; and

WHEREAS, the amendments are codified under Articles 501, 502, and 503 of the 2008 Building Code and were enacted to provide DOB with a means of enforcing the sign laws where signs had been erected and were being maintained without a valid permit; and

WHEREAS, pursuant to Article 502 (specifically, Building Code § 28-502.4), an outdoor advertising company is required to submit to DOB an inventory of:

all signs, sign structures and sign locations located (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet [60.96 m] from and within view of a public park with an area of ½ acre (5000 m) or more; and

WHEREAS, further, Local Law 31 authorized the Commissioner of DOB to promulgate rules establishing permitting requirements for certain signs; the DOB rules, enacted under Rule 49, provide specific procedures for registration of advertising signs; Rule 49-15(5) reads in pertinent part:

Each sign shall be identified as either “advertising” or “non-advertising.” To the extent a sign is a non-conforming sign, it must further be identified as “non-conforming advertising” or “non-conforming non-advertising.” A sign identified as “non-conforming advertising” or “non-conforming non-advertising” shall be submitted to the Department for confirmation of its non-conforming status, pursuant to section 49-16 of this chapter; and

WHEREAS, subchapter B of Rule 49 (Registration of Outdoor Advertising Companies), (specifically, Rule 49-15(d)(15)(b)), sets forth the acceptable forms of evidence to establish the size and the existence of a non-conforming sign on the relevant date set forth in the Zoning Resolution; and

MINUTES

WHEREAS, the acceptable forms of evidence set forth at Rule 49 are, in pertinent part as follows:

Acceptable evidence may include permits, sign-offs of applications after completion, photographs and leases demonstrating that the non-conforming use existed prior to the relevant date; and

WHEREAS, affidavits are also listed as an acceptable form of evidence; and

WHEREAS, a DOB guidance document sets forth the instructions for filing under Rule 49 and states that any one of the following documents would be acceptable evidence for sign registration pursuant to Rule 49: (1) DOB issued permit for sign erection; (2) DOB-approved application for sign erection; (3) DOB dockets/permit book indicating sign permit approval; and (4) publicly catalogued photograph from a source such as NYC Department of Finance, New York Public Library, Office of Metropolitan History, or New York State Archives; and

REGISTRATION PROCESS

WHEREAS, on September 5, 2012, pursuant to the requirements of Article 502 and Rule 49, the Appellant submitted a Sign Registration Application for the Sign and completed an OAC3 Outdoor Advertising Company Sign Profile, attaching copies of cancelled checks, leases, and other agreements as evidence of establishment of the Sign; and

WHEREAS, on October 3, 2012, DOB issued a Notice of Sign Registration Deficiency, stating that “[DOB is] unable to accept the sign for registration at this time (due to a) failure to provide proof of legal establishment of the sign”; and

WHEREAS, by letter dated December 3, 2012, the Appellant submitted a response to DOB, including additional leases and DOB records, which it claimed demonstrated that the Sign was legally established; and

WHEREAS, DOB determined that the December 3, 2012 submission lacked sufficient evidence of the Sign’s establishment, and on January 14, 2013, issued the Final Determination denying registration; likewise, DOB revoked the Permits for the Sign by letter dated January 31, 2013; and

RELEVANT STATUTORY PROVISIONS

ZR § 12-10 *Definitions*

Non-conforming, or non-conformity

A "non-conforming" #use# is any lawful #use#, whether of a #building or other structure# or of a #zoning lot#, which does not conform to any one or more of the applicable #use# regulations of the district in which it is located, either on December 15, 1961 or as a result of any subsequent amendment thereto; and

* * *

ZR § 42-55

Additional Regulations for Signs Near Certain Parks and Designated Arterial Highways
M1 M2 M3

In all districts, as indicated, the provisions of paragraphs (a), (b) and (c), or paragraph (d), of this Section, shall apply for #signs# near designated arterial highways or certain #public parks#.

(a) Within 200 feet of an arterial highway or a #public park# with an area of one-half acre or more, #signs# that are within view of such arterial highway or #public park# shall be subject to the following provisions:

(1) no permitted #sign# shall exceed 500 square feet of #surface area#; and

(2) no #advertising sign# shall be allowed; nor shall an existing #advertising sign# be structurally altered, relocated or reconstructed.

(b) Beyond 200 feet from such arterial highway or #public park#, the #surface area# of such #signs# may be increased one square foot for each linear foot such sign is located from the arterial highway or #public park#.

(c) The more restrictive of the following shall apply:

(1) any #advertising sign# erected, structurally altered, relocated or reconstructed prior to June 1, 1968, within 660 feet of the nearest edge of the right-of-way of an arterial highway, whose message is visible from such arterial highway, shall have legal #non-conforming use# status pursuant to Section 52-83 (Non-Conforming Advertising Signs), to the extent of its size existing on May 31, 1968; or

(2) any #advertising sign# erected, structurally altered, relocated or reconstructed between June 1, 1968, and November 1, 1979, within 660 feet of the nearest edge of the right-of-way of an arterial highway, whose message is visible from such arterial highway, and whose size does not exceed 1,200 square feet in #surface area# on its face, 30 feet in height and 60 feet in length, shall have legal #non-conforming use# status pursuant to Section 52-83, to the extent of its size existing on November 1, 1979. All #advertising signs# not in conformance with the standards set forth herein shall terminate.

ZR § 52-11 *Continuation of Non-Conforming Uses* General Provisions

A #non-conforming use# may be continued, except as otherwise provided in this Chapter; and

* * *

ZR § 52-61 *Discontinuance* General Provisions

If, for a continuous period of two years, either the #nonconforming use# of #land with minor

MINUTES

improvements# is discontinued, or the active operation of substantially all the #non-conforming uses# in any #building or other structure# is discontinued, such land or #building or other structure# shall thereafter be used only for a conforming #use#. Intent to resume active operations shall not affect the foregoing . . . ; and

* * *

Building Code § 28-502.4 – Reporting Requirement

An outdoor advertising company shall provide the department with a list with the location of signs, sign structures and sign locations under the control of such outdoor advertising company in accordance with the following provisions:

- (1) The list shall include all signs, sign structures and sign locations located (i) within a distance of 900 linear feet (274 m) from and within view of an arterial highway; or (ii) within a distance of 200 linear feet (60 960 mm) from and within view of a public park with an area of ½ acre (5000 m) or more. . .

* * *

RCNY § 49-15 – Sign Inventory to be Submitted with Registration Application

... (d)(5) Each sign shall be identified as either “advertising” or “non-advertising.” To the extent a sign is a non-conforming sign, it must further be identified as “non-conforming advertising” or “non-conforming non-advertising.” A sign identified as “non-conforming advertising” or “non-conforming non-advertising” shall be submitted to the Department for confirmation of its non-conforming status, pursuant to section 49-16 of this chapter.

* * *

RCNY § 49-16 – Non-conforming Signs

- (a) With respect to each sign identified in the sign inventory as non-conforming, the registered architect or professional engineer shall request confirmation of its non-conforming status from the Department based on evidence submitted in the registration application. The Department shall review the evidence submitted and accept or deny the request within a reasonable period of time. A sign that has been identified as non-conforming on the initial registration application may remain erected unless and until the Department has issued a determination that it is not non-conforming; and

THE APPELLANT’S POSITION

WHEREAS, the Appellant contends that the Final Determination should be reversed and the Permits should be reinstated because the evidence it submitted was sufficient to demonstrate that the Sign was: (1) established as a non-conforming use; and (2) not discontinued for a period of two or more years since establishment; and

WHEREAS, the Appellant contends that the evidence it

has submitted demonstrates that the Sign was established at the Premises prior to November 1, 1979 and therefore may be continued pursuant to ZR § 42-55(c)(2); specifically, the Appellant submitted: a June 12, 1978 lease between Joma Manufacturing Company (of the Premises) and Allied Outdoor Advertising (the “1978 Lease”), an affidavit from Allied Outdoor Advertising President Richard J. Theryoung (the “Theryoung Affidavit”), and an affidavit from advertising and media consultant Bruce Silverman (the “Silverman Affidavit”), and asserts that these items are, considered together, a sufficient basis for a finding that the Sign existed as of November 1, 1979; and

WHEREAS, the Appellant states that the 1978 Lease authorized Allied Outdoor Advertising (“Allied”) to construct and maintain a sign atop the roof of the Premises for seven years, from June 15, 1978 to June 14, 1985; as such, it is evidence that the Sign existed as of November 1, 1979; and

WHEREAS, the Appellant contends that the Theryoung Affidavit, in which the affiant states that he was President of Allied from 1979 to 1997 and that the Sign was constructed in early 1979 and continuously maintained thereafter, further supports the establishment of the Sign; and

WHEREAS, as to the Silverman Affidavit, the Appellant notes that it should be understood as providing background information on the outdoor advertising industry in New York City in the 1970s and supportive of the establishment of the Sign; according to the affiant, recordkeeping practices in the industry at the time were so uneven that the presence of the 1978 Lease makes the existence of the Sign virtually certain; and

WHEREAS, accordingly, the Appellant asserts that it has demonstrated that the Sign existed as of November 1, 1979 and was therefore established as a non-conforming advertising sign; and

WHEREAS, the Appellant contends that the evidence it has submitted demonstrates that the Sign has not been discontinued since its establishment and is not subject to termination under ZR § 52-61; and

WHEREAS, specifically, the Appellant has submitted the following to evidence the Sign’s continuity: (1) a July 15, 1980 Work Completion Notice (the “1980 Notice”) for the construction of a Best Way Food Stores sign; (2) an affidavit from Frank Ferrovechio, who attests that he commuted on the Bruckner Expressway during the 1980s and 1990s and observed the Sign daily; (3) the 1980 Lease, which the Appellant asserts shows continuity from 1978 through 1985; (4) leases with substantial rents in 1988 and 1998; (5) the Theryoung Affidavit; (6) a November 26, 1996 contract for tobacco bulletins for the period 1994 to 1998; (7) miscellaneous lease forms and correspondence between Allied and Universal Outdoor from 1996, 1997, 1998, 2000, 2008 and 2009; (8) 1997 and 1998 rent invoices; (9) a 1998 late notice; (10) a check covering the period between the beginning of July 2004 and the end of August 2004; (11) insurance certificates from 2000 to 2005; (12) a 2007 lease termination; and (13) photographs of the Premises and the Sign from approximately 2005 and from February 2008

MINUTES

through the present; and

WHEREAS, as to any gaps in the evidence, the Appellant requests that the Board apply the evidentiary principle of the “presumption of continuity” as set forth in *Prince-Richardson on Evidence* § 3-101 (1995) and *Wilkins v. Earle*, 44 NY 172 (1870), to find that the Sign was not discontinued because DOB has not presented evidence of discontinuance; in particular, the Appellant asserts that under that principle, once an object, condition, or tendency is factually established, it may be presumed to continue for as long as is usual with such conditions; further, the Appellant explains that the presumption of continuity “reflects a common sense appraisal of the probative value of circumstantial evidence,” *Foltis v. City of New York*, 287 NY 108, 115 (1941), and should be applied in the instant matter to find that the evidence supports a finding that the Sign continued even if the items of evidence of its existence do not cover the entire period in question; and

WHEREAS, furthermore, the Appellant points to the Silverman Affidavit to bolster its claim that recordkeeping was generally inconsistent in the outdoor advertising industry during most of the time period in question and that the existence of any supporting documentation is persuasive evidence that the Sign existed continuously; and

WHEREAS, as to DOB’s assertion that a tax photograph from the 1980s shows that the Sign and its structure were removed, the Appellant states that such a photograph only shows the Premises at a single point in time and not over a period of time; as such, it is not sufficient evidence to conclude that the Sign was discontinued for more than two years, and the Appellant cites the Board’s decision in BSA Cal. No. 96-12-A (2284 12th Avenue, Manhattan) in support of the principle that a single photo cannot, standing alone, demonstrate that a use was discontinued for more than two years; and

WHEREAS, the Appellant also notes that the 1980 Notice—which DOB asserts is evidence that the Sign was not constructed prior to November 1, 1979—merely supports the continued existence of the Sign and is not dispositive on the actual date that the Sign was established; and

WHEREAS, finally, as to whether the Sign was, as DOB contends, prohibited from being reconstructed after it was removed pursuant to ZR §§ 42-55 and 52-83, the Appellant asserts that DOB has previously accepted as a non-conforming use signs that appear to have been altered, relocated, or reconstructed; and

WHEREAS, specifically, the Appellant states that signs at the following addresses were structurally altered, relocated and/or reconstructed: 5 Eldridge Street, Manhattan; 330 East 126th Street, Manhattan; 2284 12th Avenue, Manhattan; 682-686 East 133rd Street, Bronx; 586 Third Avenue, Brooklyn; 51-06 Vernon Boulevard, Queens; and 54-30 43rd Street, Queens; and

WHEREAS, as such, the Appellant asserts that DOB’s position that removal and reconstruction of the Sign violated ZR §§ 42-55 and 52-83 in this case is belied by its position in prior instances and is, thus, arbitrary; and

WHEREAS, accordingly, the Appellant states that DOB’s Final Determination with respect to the Sign and revocation of the Permits should be reversed; and

DOB’S POSITION

WHEREAS, DOB asserts that: (1) the Appellant has not submitted sufficient evidence to demonstrate the Sign was established at the Premises prior to November 1, 1979; and (2) even if the Board were to find that the Sign was established, the evidence demonstrates that it was removed and reconstructed contrary to ZR §§ 42-55; and 52-83; and

WHEREAS, DOB states that the 1978 Lease and Theryoung Affidavit are, collectively, insufficient evidence of the establishment of the Sign at the Premises prior to November 1, 1979; and

WHEREAS, DOB asserts that under Rule 49(d)(15)(b), an affidavit, on its own and without supporting documentation, is insufficient evidence of establishment; and

WHEREAS, DOB contends that although the Appellant has submitted the 1978 Lease as supporting documentation for the statements of the Theryoung Affidavit, the 1978 Lease by its terms does not demonstrate the establishment of the Sign; and

WHEREAS, in particular, DOB asserts that, according to the language employed in the 1978 Lease (“Lessee will erect the said advertising sign structure and its appurtenances”), Allied was authorized to construct and maintain a sign at the Premises, rather than maintain an existing sign at the Premises; and

WHEREAS, DOB asserts that distinction is critical, because it demonstrates that no sign existed when the 1978 Lease was executed and gives no indication as to when the rights under the lease to construct the Sign were exercised; thus, DOB concludes that the evidence fails to demonstrate the Sign was established prior to November 1, 1979; and

WHEREAS, DOB also contends that a Department of Finance tax photograph from the 1980s shows the Premises without the Sign and its structure; accordingly, DOB concludes that the Sign was removed at some point and reconstructed, in violation of ZR §§ 42-55 and 52-83; and

WHEREAS, specifically, DOB states that pursuant to ZR § 42-55, which regulates advertising signs in manufacturing districts, no advertising sign may be structurally altered, relocated or reconstructed if that sign is located in a district regulated by ZR § 42-55 and is within 200 feet of an arterial highway; and

WHEREAS, DOB notes that ZR § 52-83 allows non-conforming advertising signs in specific zoning districts to be structurally altered, reconstructed, or replaced, provided that such alteration does not create any new non-conformity; however, the section also contains an exception clause, which states, “except as otherwise provided in Section 42-55”; and

WHEREAS, therefore, DOB contends that where a non-conforming advertising sign is in a district covered by both ZR § 52-83 and ZR § 42-55, the exception clause in ZR § 52-83 requires that the more restrictive provisions of ZR §

MINUTES

42-55 apply; as such, in this case, ZR § 42-55 prohibits the Sign, which is within an M1-1 district and within 50 feet of an arterial highway, from being structurally altered, relocated or reconstructed; and

WHEREAS, accordingly, DOB contends that the Sign cannot have non-conforming status because it was removed and reconstructed in the 1980s contrary to ZR §§ 42-55 and 52-83; and

WHEREAS, accordingly, DOB asserts that it properly issued its Final Determination denying the registration of the Sign and properly revoked the Permits; and

CONCLUSION

WHEREAS, the Board finds that DOB properly denied the Sign registration because the Appellant has not met its burden of demonstrating that the Sign was established prior to November 1, 1979; and

WHEREAS, the Board agrees with DOB that, by its terms, the 1978 Lease is only evidence of what Allied was authorized to do, namely construct and maintain the Sign; and

WHEREAS, thus, the Board also agrees with DOB that nothing in the 1978 Lease provides a basis for the Board to determine when the Sign was actually constructed; the 1978 Lease speaks to, at most, when the Sign *could have been* constructed; and

WHEREAS, further, the Board finds that the only other item of evidence that is somewhat contemporaneous with the 1978 Lease is the 1980 Notice, which is dated July 15, 1980, and which suggests that the Sign construction was completed more than eight months after November 1, 1979, the required date of establishment in ZR § 42-55; and

WHEREAS, as to the Theryoung Affidavit, the Board finds that it lacks specificity and contains conclusory statements, which do not credibly establish that the Sign existed at the Premises prior to November 1, 1979; and

WHEREAS, the Board notes that although Theryoung states that he was “directly involved” in the “specific project” he provides no details regarding the dimensions, orientation, or message of the Sign; and

WHEREAS, as to the Silverman Affidavit, the Board finds that insofar as it seeks to equate the 1978 Lease with the existence of the Sign prior to November 1, 1979, it is not persuasive; indeed, the Board notes that in this case, the record indicates that there was a time period during the 1980s when a lease for the Sign existed, but the Sign—and its structure—were absent from the roof of the Premises; and

WHEREAS, accordingly, the Board agrees with DOB that the Appellant has not submitted sufficient evidence of the Sign’s establishment prior to November 1, 1979; and

WHEREAS, as per the stipulation in the Matter of OTR Media Group v. Board of Standards and Appeals, the Board distinguishes the facts of 2284 12th Avenue (BSA Cal. Nos. 96-12-A and 97-12-A) in which the appellant submitted a 1999 reconsideration signed by the then-Manhattan Borough Commissioner stating that he accepted the sign and that it had been in continuous use as per a 1978 lease from the subject case; and

WHEREAS, as the Board noted in its 12th Avenue decision that the reconsideration did not establish that the then-Borough Commissioner relied solely on a 1978 lease in making his determination to accept the sign in 1999; rather, it is possible that there was additional evidence that he relied upon but did not memorialize in the hand-written, one-sentence sign-off of the 1999 reconsideration; and

WHEREAS, the Board notes that, unlike the appellant in the 12th Avenue case, the Appellant in the subject case did not submit a reconsideration or any similar document, which is viewed to be among the most valuable forms of evidence DOB accepts pursuant to TPPN 14/1988; and

WHEREAS, because the Board finds that the Sign was never established as non-conforming, it is unnecessary to determine whether the Zoning Resolution permitted its removal and reconstruction or whether the presumption of continuity impels the Board to find, based on the Appellant’s evidence, that the Sign was not discontinued; and

WHEREAS, therefore, the Board finds that DOB’s enforcement against the Sign is warranted, and as such, DOB properly rejected the Appellant’s registration of the Sign and properly revoked the Permits.

Therefore it is Resolved, that this appeal, challenging a Final Determination issued on January 14, 2013, is denied.

Adopted by the Board of Standards and Appeals, September 16, 2014.

19-12-A

APPLICANT – Law Offices of Marvin B Mitzner, LLC., for 38-30 28th Street, LLC., owner.

SUBJECT – Application May 9, 2014 – Application for an extension of time to complete construction of the building and obtain a Certificate of Occupancy on a previously approved grant granted common law vested right of complete construction and permitting in an M1-3 zoning district. M1-2/R5B (LIC) zoning district.

PREMISES AFFECTED – 38-30 28th Street, west side of 28th Street between 38th and 39th Avenues, Block 386, Lot 27, Borough of Queens.

COMMUNITY BOARD #1Q

THE VOTE TO CLOSE HEARING –

Affirmative: Chair Perlmutter, Vice Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez.4
Negative:.....0

ACTION OF THE BOARD – Laid over to October 7, 2014, at 10 A.M., for decision, hearing closed.

245-12-A

APPLICANT – Law Offices of Marvin B. Mitzner LLC, for 515 East 5th Street, LLC, owner.

SUBJECT – Application August 9, 2012 – Appeal pursuant to Section 310(2) of the Multiple Dwelling Law, requesting that the Board vary several requirements of the MDL. R7B Zoning District

MINUTES

PREMISES AFFECTED – 515 East 5th Street, north side of East 5th Street, between Avenue A and Avenue B, Block 401, Lot 56, Borough of Manhattan.

COMMUNITY BOARD #3M

ACTION OF THE BOARD – Laid over to November 25, 2014, at 10 A.M., for continued hearing.

ZONING CALENDAR

214-12-BZ

APPLICANT – Phillips Nizer, LLP, for Shea Max Harris, LLC, owner.

SUBJECT – Application July 10, 2012 – Variance (§72-21) to permit the operation of an auto laundry (UG 16B), contrary to use regulations. C2-2/R5 zoning district.

PREMISES AFFECTED – 2784 Coney Island Avenue, between Gerald Court and Kathleen Court, Block 7224, Lot 70, Borough of Brooklyn.

COMMUNITY BOARD #13BK

ACTION OF THE BOARD – Application Denied.

THE VOTE TO GRANT –

Affirmative:.....0

Negative: Vice-Commissioner Hinkson, Commissioner Ottley-Brown and Commissioner Montanez3

Abstain: Chair Perlmutter.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated July 2, 2012, acting on DOB Application No. 320219018 (the “Application”), reads in pertinent part:

ZR 52-61: Use Group 16 auto laundry establishment not permitted as of right in an R5 (C2-2) zoning district; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site within an R5B (C2-2) zoning district, the operation of an automobile laundry (Use Group 16), contrary to ZR §§ 32-10 and 52-61; and

WHEREAS, a public hearing was held on this application on March 11, 2014, after due notice by publication in *The City Record*, with continued hearings on April 29, 2014, June 24, 2014, and July 29, 2014, and then to decision on September 16, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by former Chair Srinivasan, Vice-Chair Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 13, Brooklyn, recommends approval of the application; and

WHEREAS, certain members of the surrounding community testified in support of the application; and

WHEREAS, New York State Assemblyman Steven Cymbrowitz submitted testimony in opposition to the application; and

WHEREAS, certain members of the surrounding community testified in opposition to the application, citing

concerns regarding: (1) traffic; (2) noise; (3) the spraying of chemicals; (4) the obstruction of sidewalks; (5) the lack of queuing (reservoir) spaces at the site; and (6) substantial evidence that the auto laundry ceased continuous operation for more than two years and therefore may not be resumed, per ZR § 52-61; and

BACKGROUND AND SITE INFORMATION

WHEREAS, the subject site is Block 7224, Lot 70; it is located on the southwest corner of the intersection of Coney Island Avenue and Gerald Court, within an R5B (C2-2) zoning district; and

WHEREAS, the site has approximately 81 feet of frontage along Coney Island Avenue, approximately 100 feet of frontage along Gerald Court, and 7,633 sq. ft. of lot area; and

WHEREAS, the site is occupied by a one-story auto laundry facility (Use Group 16) with 2,531 sq. ft. of floor area (0.33 FAR); the facility operates under the trade name “Z-Best Car Wash”; and

WHEREAS, this application is brought on behalf of the owners of the site, Shea-Max Harris, LLC and SB Real Estate Holdings, LLC (the “applicant”); and

WHEREAS, according to Certificate of Occupancy (“CO”) No. 122974, an auto laundry was first authorized at the site on March 15, 1949; and

WHEREAS, in subsequent years, the Board exercised jurisdiction over the site, beginning on April 27, 1954, when, under BSA Cal. No. 924-50-BZ, the Board authorized the construction of a gasoline station on the adjacent tax lot (Block 7224, Lot 72) to be operated in conjunction with the existing auto laundry at the site; and

WHEREAS, the 1954 grant was amended and extended at various times, most recently on October 31, 1978, when the Board granted an extension of term for the operation of the gasoline station for a ten-year term, to expire on April 27, 1989; and

WHEREAS, following the 1978 extension of term, which resulted in CO No. 217331 (dated January 22, 1979 and issued for the site and Lot 72), the gasoline station was converted to an as-of-right retail store (Use Group 6) with accessory parking for 12 vehicles; DOB records indicate that this conversion was completed on September 9, 1987, resulting in CO No. 228583 (dated October 1, 1987 and issued only for Lot 72); and

WHEREAS, thus, the Board notes that although the site was under its jurisdiction from April 27, 1954 until April 27, 1989, the auto laundry use was not *authorized* under the terms of BSA Cal. No. 924-50-BZ; rather, the auto laundry was acknowledged as lawfully existing as of 1944 and only the gasoline station use on Lot 72 required the Board’s authorization; as such, upon the expiration of the term of the grant on April 27, 1989, the auto laundry at the site became a non-conforming use subject to ZR § 52-61; and

PROCEDURAL HISTORY

WHEREAS, on September 23, 2010, the Application was filed to renovate the auto laundry; and

WHEREAS, the applicant states that on October 18,

MINUTES

2010, DOB issued an objection sheet; all objections related to the expiration of CO No. 217331, which as noted above, was applicable to both the site and Lot 72; and

WHEREAS, the applicant states that on November 1, 2010, its architect met with the DOB Brooklyn borough commissioner and the DOB plan examiner regarding the objections; according to the architect's affidavit, the borough commissioner directed the DOB plan examiner to determine "whether or not this was a legal auto laundry and to research whether or not the auto laundry had been in continuous use for the prior two years"; and

WHEREAS, the applicant states that on November 8, 2010, its architect met with the DOB plan examiner, who, according to the architect "removed all the objections concerning the use of the car wash on the grounds that it was a legal use"; and

WHEREAS, on November 29, 2010, DOB issued the work permit; the applicant represents that construction commenced shortly thereafter and was 99 percent complete when, on May 11, 2011, DOB issued a Stop Work Order and a Notice of Intent to Revoke the approvals and permits issued in connection with the Application, citing the Application's non-compliance with ZR § 33-291; and

WHEREAS, on May 18, 2011, DOB issued a second objection, citing the Application's non-compliance with ZR § 52-61, and directing the applicant to "[p]rovide proof of [sic] the non-conforming has not been discontinued for a continuous period of more than two years"; and

WHEREAS, on July 11, 2011, the applicant's architect submitted documentation to the borough commissioner regarding the continuous use of the auto laundry; the documentation included certain water, gas, and telephone bills, sales tax information, workman's compensation insurance information, deeds, and a sworn statement from a person claiming personal knowledge of the continuity of the operations of the auto laundry; and

WHEREAS, by determination dated July 18, 2011, DOB: (1) noted that the last-issued CO for the site reflected the auto laundry use; and (2) accepted the evidence as demonstrating that the auto laundry was not discontinued, per ZR § 52-61; and

WHEREAS, the applicant states that following additional discussions between the job applicant and DOB, on August 15, 2011, DOB removed all objections and rescinded the Notice of Intent to Revoke the approvals and permits, and, on August 16, 2011, rescinded the Stop Work Order; and

WHEREAS, the applicant states that subsequent to the August 16th rescission of the Stop Work Order, additional work was performed at the site; and

WHEREAS, on August 25, 2011, DOB issued another Stop Work Order, citing "reports from the public" that the auto laundry "has not been in operation for seven years"; the applicant represents that no work has been performed since this date; and

WHEREAS, on November 16, 2011, the DOB Padlock Unit began an investigation of the complaint that the auto laundry use had been discontinued per ZR § 52-61 but

nevertheless remained in operation; and

WHEREAS, the Padlock Unit then commenced a proceeding in the Office of Administrative Trials and Hearings to obtain an Order of Closure for the auto laundry pursuant to Article 212 of Title 28 of the Administrative Code; and

WHEREAS, by stipulation dated May 7, 2012, the owner of the site executed a stipulation with DOB (the "Padlock Stipulation"), whereby it agreed to submit a variance application to the Board to permit the continued operation of the auto laundry; and

WHEREAS, by the express terms of the Padlock Stipulation, the auto laundry was permitted to operate and the owner agreed to file a variance application on or before July 1, 2012 and obtain a final decision from the Board regarding the variance application on or before January 1, 2013; in addition, the owner expressly waived its right to "commence administrative . . . proceedings relating to the matters disposed of by [the Padlock Stipulation], including proceedings to . . . challenge the lawfulness, authority, jurisdiction or power of the Commissioner to order the closure of the [site] pursuant to the Padlock Law" including an "appeal to [the Board] pursuant to Sections 659-669 of the New York City Charter"; and

WHEREAS, on July 10, 2012, the applicant filed the instant variance application; and

WHEREAS, on December 11, 2012, DOB issued an Order of Closure, citing the owner's failure to comply with the Padlock Stipulation; and

WHEREAS, the applicant represents that the auto laundry has not operated since the issuance of the Order of Closure; and

WHEREAS, accordingly, the applicant seeks a use variance to permit operation of an auto laundry (Use Group 16) at the site; and

VARIANCE ANALYSIS

WHEREAS, the applicant states that, in accordance with ZR § 72-21(a), the following are unique physical conditions which create an unnecessary hardship in developing the site in conformance with applicable regulations: (1) the owner's good faith reliance on DOB's issuance of approval of the Application and issuance of the permits; (2) the history of development at the site; and (3) the site's potential soil contamination; and

WHEREAS, to satisfy ZR § 72-21(a), the applicant primarily relies on the common law doctrine of good faith reliance; and

WHEREAS, the Board notes that New York State courts have recognized that property owners may invoke the good faith reliance principle when they have made expenditures towards construction that was performed pursuant to a building permit, which is later revoked due to non-compliance that existed at the time of the permit issuance; the principle is raised within the variance context when applicants assert that the reliance creates a unique hardship and seek to substitute it for the customary uniqueness finding under ZR § 72-21(a); and

MINUTES

WHEREAS, in Jayne Estates, Inc. v. Raynor, 22 N.Y.2d 417 (1968), the Court of Appeals determined that the expenditures the property owner made in reliance on the invalid permit should be considered in the variance application because: (1) the property owner acted in good faith, (2) there was no reasonable basis with which to charge the property owner with constructive notice that it was building contrary to zoning, and (3) the municipal officials charged with carrying out the zoning resolution had granted repeated assurances to the property owner; and

WHEREAS, more recently, in Pantelidis v. Board of Standards and Appeals, 10 N.Y.3d 846, 889 N.E.2d 474, 859 N.Y.S.2d 597 (2008), the Court of Appeals, in a limited opinion, held that it was appropriate that the state Supreme Court had conducted a good faith reliance hearing, to determine whether the property owner could claim reliance, rather than remanding the case to the Board to do so in the context of an Article 78 proceeding to overturn the Board's denial of a variance application; the Court established that the Board should conduct such a hearing and that good faith reliance is relevant to the variance analysis; and

WHEREAS, most recently, in Woods v. Srinivasan, 108 AD3d 412 (1st Dept 2013) lv to appeal denied, 22 NY3d 859, 981 NYS2d 370 (2014), the Appellate Division found that, where the issue was whether construction documents and plans complied with the side lot line requirements of ZR § 23-49, DOB, rather than the property owner, was in the best position to avoid the erroneous issuance of the permit; accordingly, the Appellate Division found that the owner had relied in good faith on DOB's permit issuance and remanded to the matter to BSA to consider whether petitioner satisfied the remaining elements required for a variance; and

WHEREAS, accordingly, the Board identifies the findings for good faith reliance under the common law as: (1) that a permit was issued and later revoked based on a permit defect that existed when the permit was first issued; (2) that the permit approval process included an inquiry into the issue that would subsequently be the basis for the revocation of such permit; (3) that the owner could not have known that the permit was defective despite municipal assurances to the contrary; and (4) that construction was performed and expenditures were made subsequent to the issuance of the permit; and

WHEREAS, the applicant asserts that it has established the first element of good faith reliance in that DOB: (1) issued the permit for the Application on November 29, 2010; (2) later discovered the Application's non-compliance with ZR § 52-61 and, on August 25, 2011, ordered work under the permit to stop; and (3) revoked the permit on April 12, 2012 based on the Application's non-compliance with ZR § 52-61, which existed when the permit was first issued; and

WHEREAS, the Board agrees that the permit was issued and later revoked based on defects that existed in the Permit when initially issued; and

WHEREAS, as to whether the permit approval process included an inquiry into the issue that would subsequently be

the basis for the permit's revocation, the applicant contends that on November 1, 2010 (four weeks prior to the initial issuance of the permit), the DOB borough commissioner specifically directed the plan examiner to review the Application for compliance with ZR § 52-61; and

WHEREAS, the Board accepts the applicant's representation that the initial plan examination included some inquiry into whether the auto laundry had been discontinued; however, the Board notes that according to DOB in BSA Cal. No. 296-13-A (280 Bond Street, Brooklyn), where a CO exists permitting a non-conforming use, DOB presumes that the non-conforming use has continued unless it receives a substantiated complaint that the non-conforming use has ceased for more than two years; and

WHEREAS, the Board also observes that the text of ZR § 52-61 employs clear and unambiguous language in describing when a non-conforming use must cease (“[i]f, for a continuous period of two years . . . substantially all the non-conforming uses in any building or other structure is discontinued, such . . . building or other structure shall thereafter only be used for a conforming use”); thus, the statute provides constructive notice that a non-conforming use cannot be resumed if it has been discontinued for a continuous period of two or more years; and

WHEREAS, turning to whether applicant could have known that the permit was defective despite municipal assurances to the contrary, the applicant contends that it could not have known whether the auto laundry use had been discontinued per ZR § 52-61 after the DOB plan examiner determined that it had not been discontinued; and

WHEREAS, the Board disagrees with the applicant; in contrast to the facts in Woods—where the DOB plan examiner approved a permit application based on an interpretation of the Zoning Resolution—in this case, it is unclear on what basis the DOB plan examiner removed the objection relating to ZR § 52-61 prior to the issuance of the permit on November 29, 2010; in any event, the Board finds that whether the auto laundry was discontinued per ZR § 52-61 is predominantly a question of fact; thus, the owner, not DOB, was in the “best position” to know whether as a matter of *fact* the auto laundry had ceased operating for two or more consecutive years; and

WHEREAS, further, the Board finds that when, in the presence of the owner's architect, the borough commissioner instructed the plan examiner to investigate the issue of discontinuance under ZR § 52-61, the owner and its architect had actual notice of the applicability of the two-year limitation on cessation of operations; thus, at that point, it was incumbent on the owner and its licensed professionals not to seek to obtain a permit to maintain the auto laundry use if they knew or should have known that the auto laundry had ceased operating for two or more years; and

WHEREAS, the applicant asserts that the Board does not have the authority in the context of a variance application to “revisit DOB's determination” and is limited to determining whether a permit was issued and relied upon to the owner's detriment; and

MINUTES

WHEREAS, on the contrary, the Board finds that where an owner seeks to satisfy the (a) finding of ZR § 72-21 by relying almost exclusively on the common law doctrine of good faith reliance, Jayne Estates, Pantelidis, and Woods dictate that the Board must make a finding of good faith; in essence, the Board must determine that the owner could not have known that its permit was issued contrary to the Zoning Resolution; thus, an inquiry into the evidence of the auto laundry's continuous use prior to the issuance of the permit is necessary in order for the Board to determine whether the owner obtained the permit in good faith; and

WHEREAS, the Board notes that the Opposition submitted substantial evidence tending to demonstrate that the auto laundry was not in fact in operation for several years; this evidence includes: (1) water bills for the site covering the time periods between June 20, 2004 and June 23, 2006 and December 27, 2006 and June 27, 2011; (2) 20 sworn statements from nearby property owners; and (3) the hearing testimony of numerous witnesses claiming personal knowledge of the site; and

WHEREAS, at hearing the Board directed the applicant to respond to the Opposition's evidence that the auto laundry did not operate for more than two consecutive years; and

WHEREAS, in response, the applicant submitted the evidence that it submitted to DOB in connection with its July 2011 submission to DOB; as noted above, the evidence included water, gas, and telephone bills, sales tax information, workman's compensation insurance information, deeds, and a sworn statement by the owner; also included a statement from its architect, which explained that the reduction in water usage from 2006 to 2009 was due to the installation of a water recycling system; and

WHEREAS, the Board observes that the water bills in the record indicate a substantial reduction in water usage at the site beginning in late December 2006; for example, during the two-year period between June 2004 and June 2006, water usage averaged approximately 45 gallons of water per day; in contrast, water usage between January 2007 and September 2010, water usage at zero gallons of water per day; and

WHEREAS, the Board finds that whether the site was using water is strongly indicative of whether it was in fact operating the auto laundry and the water bills in the record indicate that no water was being used for a period in excess of three consecutive years; and

WHEREAS, accordingly, the Board rejects the applicant's assertion that the owner could not have known that the use was in fact discontinued and finds that the owner knew or should have known that the Application was filed contrary to ZR § 52-61, particularly given that the meaning of ZR § 52-61 is not disputed; and

WHEREAS, finally, the applicant states that construction was performed and expenditures were made subsequent to the issuance of the permit; specifically, the applicant represents that it completed 99 percent of the construction authorized under the Application and expended

\$471,046.58 before the Stop Work Order was issued in August 2011; and

WHEREAS, the Board agrees with the applicant that it performed substantial construction and made substantial expenditures subsequent to the issuance of the permit and prior to its revocation; however, as noted above, the Board is not persuaded that the applicant has established the other requisite elements of good faith reliance

WHEREAS, accordingly, the Board finds that the applicant must establish a unique physical hardship inherent in the site, per ZR § 72-21(a); and

WHEREAS, in addition to its good faith reliance assertion, the applicant states that the site is uniquely burdened by its history of development, namely its inability to use the existing building at the site for any conforming purpose; and

WHEREAS, the applicant states that the existing building's foundation is connected to the trench drain for the auto laundry in a manner that makes removal of the drain impossible; the applicant also represents that the drain cannot be filled with concrete or other materials because without destabilizing the building; accordingly, the applicant states that both the building and the drain must be demolished, at a cost of approximately \$100,000; and

WHEREAS, the Board acknowledges that it has found the inability to utilize an existing building for conforming uses can contribute to a site's uniqueness, per ZR § 72-21(a); however, the Board also notes that the applicant has not demonstrated that demolition or major alteration of this particular building will require extraordinary costs or practical difficulty; therefore, even assuming that the existing building at the site is a unique physical condition, the applicant has failed to demonstrate that such uniqueness creates a hardship that would justify the requested use variance; and

WHEREAS, the applicant also represents that, based on its preliminary investigation (a Phase I investigation), there may be soil contamination from the gasoline station that operated on the adjacent lot for approximately 30 years or from other sources, resulting in estimated environmental remediation costs of approximately \$442,500; and

WHEREAS, the Board finds that the extent of remediation required at the site cannot be determined without a Phase II investigation and that the estimated costs owing to contamination are, at best, speculative; therefore, the Board finds that the applicant has not demonstrated that its site is uniquely burdened by contaminated soil; and

WHEREAS, consequently, the Board finds that the applicant has not satisfied ZR § 72-21(a); and

WHEREAS, to satisfy ZR § 72-21(b), the applicant submitted a feasibility study which analyzed the rate of return of: (1) a conforming commercial use; and (2) the proposed auto laundry; and

WHEREAS, the applicant contends that only the proposal will result in a reasonable rate of return; and

WHEREAS, the Board acknowledges the applicant's representations regarding the economic feasibility of the site;

MINUTES

however, because the Board has determined that ZR § 72-21(a) has not been satisfied under the doctrine of good faith reliance, the costs owing to such reliance cannot be considered by the Board in determining whether a conforming use results in a reasonable return on investment, per ZR § 72-21(b); and

WHEREAS, the Board finds that if such costs are discounted, the applicant has not demonstrated that a conforming commercial use fails to result in a reasonable return on investment; and

WHEREAS, the applicant represents that the proposal will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, the applicant states that the surrounding neighborhood is characterized by a diverse array of commercial and auto-oriented uses, including an auto dealership on the block directly north of the site along Coney Island Avenue; the applicant also notes that C8-1 zoning districts—where an auto laundry use would be permitted as-of-right—are mapped within four blocks of the site; and

WHEREAS, the applicant notes that the main entrance to the site is along Coney Island Avenue, which it describes as a major, two-way commercial roadway, 100 feet in width; and

WHEREAS, the applicant asserts that the auto laundry is a well-established use at the site, despite not complying with the subject R5B (C2-2) district regulations, in that it has existed since 1944; and

WHEREAS, the applicant states that the auto laundry proprietor has worked with surrounding businesses, residents, and the community board to devise operational conditions that will minimize the impact of the auto laundry on the neighborhood, including reducing noise, odors, and hours of operation and managing traffic at the site and along Coney Island Avenue; and

WHEREAS, the applicant also submitted an affidavit in support of the application from the owner of the auto dealership, as well as several letters from nearby businesses and residents; and

WHEREAS, as to the Opposition's concerns regarding noise, the applicant states that construction pursuant to the Application improved the noise attenuation and that, if the variance is granted, it will continue to explore further sound attenuation measures; and

WHEREAS, at hearing, the Board expressed concerns regarding the lack of reservoir spaces available on the site, noting that although pursuant to ZR § 32-25, an auto laundry is required to provide "reservoir space for not less than ten automobiles per washing lane" on the zoning lot and that per DOB Memorandum dated January 15, 1975, such reservoir spaces must be provided for autos "awaiting entry into the washing equipment," the proposal reflects no such reservoir spaces on the site; in addition the Board noted that there are residences directly north and west of the site, including a home that is approximately 25 feet from the rear wall of the

auto laundry; and

WHEREAS, in response, the applicant stated that it would control the flow of traffic into the site using flagmen, with queuing of cars along Coney Island Avenue; the applicant also submitted evidence that many auto laundries do not comply with the zoning requirements regarding reservoir spaces as well as an animation of how traffic is to be managed; finally, the applicant asserts that the current configuration and proposed operation of the auto laundry is a significant improvement over the conditions prior to the 2010-2011 renovation; and

WHEREAS, the Board finds that the proposal will have a significant and detrimental impact on traffic in the surrounding neighborhood; the proposed queuing along Coney Island Avenue will result in an unacceptable level of inconvenience to the residents of Gerald Court, create traffic and parking problems for businesses in the vicinity of the site, and significantly delay the movement of vehicular traffic along Coney Island Avenue; as such, the application does not satisfy ZR § 72-21(c); and

WHEREAS, as to whether the hardship asserted by the applicant was created by the owner or a predecessor in title, per ZR § 72-21(d), the applicant states that it was not but was rather due to the owner's good faith reliance on the approval of the Application and issuance of the permit in 2010; and

WHEREAS, the Board disagrees; as set forth above, the 2010 renovation of the building was commenced after the owner of the site had constructive notice (the existence of ZR § 52-61, knowledge of which owners, lessees, tenants, and contract vendees are charged) and actual notice (the November 1, 2010 meeting between the owner's architect, the plan examiner, and the borough commissioner, which included a discussion of ZR § 52-61) of the two-year limitation on discontinuance of non-conforming uses; and

WHEREAS, accordingly, the Board finds that the asserted hardship was self-created; thus, the proposal does not satisfy ZR § 72-21(d); and

WHEREAS, finally, the Board finds that the proposal, which creates significant adverse effects on the surrounding area, is not the minimum variance necessary to afford relief, per ZR § 72-21(e); and

Therefore it is Resolved, the application to permit, pursuant to ZR § 72-21, the proposed auto laundry contrary to ZR §§ 32-10 and 52-61 is hereby *denied*.

Adopted by the Board of Standards and Appeals, September 16, 2014.

APPLICANT – Issa Khorasanchi, for Kenneth Segal, owner; Dimitriy Brailovskiy, lessee.

SUBJECT – Application July 8, 2013 – Special Permit (§73-36) to legalize the use of a physical culture establishment (*Fitness Gallery*) located on the second floor of a two story commercial building. C8-1/R4 zoning district.

PREMISES AFFECTED – 1601 Gravesend Neck Road, Gravesend Neck Road, between East 16th and East 17th Street, Block 7377, Lot 29, Borough of Brooklyn.

COMMUNITY BOARD #3BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Commissioner Hinkson, Commissioner Ottley-Brown and Commissioner Montanez3

Negative:.....0

Abstain: Chair Perlmutter.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated September 12, 2013, acting on DOB Application No. 320693291, reads, in pertinent part:

Proposed physical culture establishment in C8 district is not a use permitted as of right, per ZR 32-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site partially within a C8 zoning district and partially within an R4 zoning district, the legalization of a physical culture establishment (“PCE”) operating in portions of the second story of a two-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on June 17, 2014, after due notice by publication in the *City Record*, with a continued hearing on July 29, 2014, and then to decision on September 16, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 15, Brooklyn, recommends disapproval of this application; and

WHEREAS, the subject site spans the north side of Gravesend Neck Road between East 16th Street and East 17th Street, partially within a C8 zoning district and partially within an R4 zoning district; and

WHEREAS, the site has approximately 202 feet of frontage along East 16th Street, approximately 209 feet of frontage along Gravesend Neck Road, approximately 82 feet of frontage along East 17th Street, and 28,405 sq. ft. of lot area; and

WHEREAS, the site is occupied by a two-story commercial building with approximately 45,000 sq. ft. of floor area (1.58 FAR); and

WHEREAS, the PCE occupies 2,500 sq. ft. of floor area on the second story and is operated as Fitness Gallery; and

WHEREAS, the applicant represents that no portion of the PCE will operate within the R4 portion of the site; and

WHEREAS, the hours of operation for the PCE will be Monday through Friday, from 6:00 a.m. to 11:00 p.m. and Saturday and Sunday, from 7:00 a.m. to 8:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither: 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, at hearing, the Board questioned the egress and ADA compliance of the proposal; and

WHEREAS, in response, the applicant stated a note will be added to the plans indicating that all accessibility and egress would be as reviewed and approved by DOB; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the operation of the PCE without the special permit; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action discussed in the CEQR Checklist No. 14BSA122K dated March 4, 2014; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site partially within a C8 zoning district and partially within an R4 zoning district, the legalization of a PCE operating in portions of the second story of a two-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received June 26, 2014” Three (3) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on August 1, 2023;

MINUTES

THAT the PCE not will operate within the R4 portion of the site;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility and egress compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, September 16, 2014.

CEQR #14-BSA-062M

APPLICANT – Law Offices of Marvin B. Mitzner, Esq., for Susan Go Lick, owner.

SUBJECT – Application October 23, 2013 – Variance (§72-21) to allow for the enlargement and conversion of a commercial building for residential use (UG 2) with ground floor commercial UG6), contrary to use regulations (§43-17, 42-141). M1-5B zoning district.

PREMISES AFFECTED – 220 Lafayette Street, west side of Lafayette Street between Spring Street and Broome Street, Block 482, Lot 26, Borough of Manhattan.

COMMUNITY BOARD #2M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Commissioner Hinkson, Commissioner Ottley-Brown and Commissioner Montanez3

Negative:.....0

Abstain: Chair Perlmutter.....1

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner of the Department of Buildings (“DOB”), dated September 3, 2013, acting on DOB Application No. 121688263, reads, in pertinent part:

Proposed conversion of non-residential building is not permitted as defined in ZR 43-17 and it requires BSA approval; and

WHEREAS, this is an application under ZR § 72-21, to

permit, within an M1-5B zoning district, the conversion of the second and third floor of an existing three-story building and the addition of a fourth and partial fifth floor for residential use (Use Group 2), contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on May 6, 2014, after due notice by publication in the *City Record*, with continued hearings on June 24, 2014, July 29, 2014, and August 19, 2014, and then to decision on September 16, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by former Chair Srinivasan, Vice-Chair Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Manhattan, stated that it did not object to the application on the condition that there not be an eating or drinking establishment at the site; and

WHEREAS, the subject site is located on the west side of Lafayette Street between Spring Street and Broome Street, within an M1-5B zoning district; and

WHEREAS, the site has 25 feet of frontage along Lafayette Street, a lot depth of 75 feet, and 1,875 sq. ft. of lot area; and

WHEREAS, the site is occupied by a three-story building with 4,875 sq. ft. of floor area and 2.6 FAR; and

WHEREAS, the first floor and cellar are currently occupied by a retail store and the second and third floors are vacant; and

WHEREAS, Use Group 6 is not permitted below the floor level of the second story within the subject M1-5B zoning district; and

WHEREAS, although the applicant asserts that the retail use is a lawful pre-existing nonconforming use, the applicant initially sought approval for Use Group 6 use on the first floor as part of the variance; and

WHEREAS, however, during the Board’s review process, the applicant withdrew its request for a waiver to allow Use Group 6 use on the first floor, leaving only the request for residential use on the second, third, and new fourth and partial fifth floors with Use Group 2 residential use; and

WHEREAS, the Board does not take any position on the legality of the first floor and cellar use and, in light of the applicant’s withdrawal of the request to allow Use Group 6 use, the Board does not grant waiver for such use; and

WHEREAS, the applicant states that the proposed enlarged building will be five stories with 6,278 sq. ft. of floor area (3.35 FAR) and the second through fifth floors will be occupied as a single-family residence with a floor area of 4,403 sq. ft.; and

WHEREAS, the applicant proposes for the third and fourth floors to remain at the current depth of the third floor of approximately 46’-8” (leaving a rear yard of approximately 28’-3”); the fifth floor will be set back approximately 21’-5” from the street wall and 40’-0” from the rear lot line; and

WHEREAS, because Use Group 2 is not permitted within the subject M1-5B zoning district, the applicant seeks a

MINUTES

use variance; and

WHEREAS, the applicant states that, per ZR § 72-21(a), the following are unique physical conditions which create an unnecessary hardship in developing the site in conformance with applicable regulations: (1) the shallow lot depth and small floor plate; (2) the underbuilt nature of the existing building; and (3) the obsolescence of the existing building for manufacturing use; and

WHEREAS, as to the lot size, the applicant notes that the lot has a shallow depth of 75 feet and width of 25 feet; and

WHEREAS, the applicant asserts that such dimensions are insufficient to accommodate conforming manufacturing uses and uniquely small within the area; and

WHEREAS, the applicant states that the surrounding lots and the vast majority of lots in the area all have depths of 100 feet or greater; and

WHEREAS, specifically, the applicant analyzed 86 lots in the immediate area within the M1-5B zoning district and found that, of the 86, only 15 had depths of less than 100 feet and of those, only nine had depths of less than 75 feet; and

WHEREAS, additionally, the applicant states that there are only nine lots with lot area of 2,000 sq. ft. or less and they are either vacant (one) or not occupied by manufacturing use (eight); and

WHEREAS, further, the applicant states that the eight buildings on small lots all cover almost the entire lot; and

WHEREAS, the applicant represents that none of the nine shallower lots are used for manufacturing uses; and

WHEREAS, the applicant asserts that the remaining lots in the study area all have significantly larger lot areas and are occupied with buildings with greater FAR; only two of the nine undersized lots also have an FAR below 3.0 and shallow depths; and

WHEREAS, as to the existing bulk, the applicant notes that the building is currently constructed to 2.63 FAR but has a potential for 5.0 FAR; the applicant notes that only 13 buildings in the study area are built to 3.0 FAR or lower and of those 13, only three also have a lot depth of less than 100 feet; and

WHEREAS, the applicant concludes that only 3.4 percent of buildings in the surrounding area within the M1-5B zoning district are underbuilt to the same degree (less than 3.0 FAR) and occupy a shallow lot (less than 100 feet); and

WHEREAS, further, the applicant states that none of the 13 buildings that are underbuilt are occupied with manufacturing use but are commercial or mixed-use buildings; and

WHEREAS, the applicant asserts that the existing building is obsolete for a manufacturing use in the following ways: (1) small floor plates, (2) the absence of elevators, (3) the absence of a loading dock, and (4) constrained vehicle circulation and parking conditions which inhibit access to the building; and

WHEREAS, as to the floor plates, the applicant asserts that they are too small to support a manufacturing use in that the first and second floors have a gross floor area based on the lot line dimensions of 1,875 sq. ft. but the functional space in

the building from interior wall to interior all is 1,628 sq. ft., with an interior wall width and depth of 22 feet by 74 feet; and

WHEREAS, additionally, the applicant asserts that the absence of a freight elevator, and only a single staircase in the building, create difficulty in the vertical transfer of goods for a conforming use; and

WHEREAS, the applicant asserts that to install an elevator in the building, which is already underbuilt, would only decrease the usable floor area and at significant cost; and

WHEREAS, additionally, the applicant notes that there is not a loading dock and the only access to the building is two pedestrian doors at the street entrance making the transfer of wholesale products and oversized shipments impossible; and

WHEREAS, finally, the surrounding traffic and parking conditions constrain access to the site, specifically due to being 150 feet from a five-corner intersection and across the street from Petrosino Square, a designated New York City Park; and

WHEREAS, the Board agrees that the aforementioned unique physical conditions, when considered individually and in the aggregate, create unnecessary hardship and practical difficulty in developing the site in conformance with the applicable zoning regulations; and

WHEREAS, the applicant asserts that, per ZR § 72-21(b), there is no reasonable possibility that the development of the site in conformance with the Zoning Resolution will bring a reasonable return; and

WHEREAS, the applicant considered the following four as-of-right scenarios: (1) as-of-right manufacturing; (2) as-of-right office; (3) as-of-right office expansion; and (4) as-of-right Join Living Work Quarters for Artists; and (5) the original variance proposal with a floor area of 6,750 sq. ft. and a rear setback of 20'-0" at the third and fourth floors; and

WHEREAS, the applicant notes that among the costs associated with the first three scenarios would be the addition of elevators which would further reduce the constrained floor plates that are already insufficient for conforming use; and

WHEREAS, the applicant concludes that none of the as-of-right alternatives would realize a reasonable rate of return; and

WHEREAS, the applicant also analyzed a lesser variance scenario consisting of the existing building with the second and third floors being converted to residential use and found that a sufficient rate of return could not be realized; and

WHEREAS, the applicant concluded that only the initially proposed five-story mixed-use building with retail on the first floor and a single-family home on the second through fifth floors would realize a reasonable rate of return; and

WHEREAS, however, at the Board's direction, the applicant analyzed the current lesser variance proposal which includes a floor area of 6,278 sq. ft. and a rear setback of 28'-3 1/2" at the third and fourth floors, and concluded that it allows for a reasonable rate of return; and

WHEREAS, based upon its review of the applicant's economic analysis, the Board has determined that because of the subject lot's unique physical conditions, there is no reasonable possibility that development in strict conformance

MINUTES

with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, the applicant asserts that the surrounding area is characterized by five- to seven-story commercial buildings and lofts occupied by retail uses on the ground floor and residential uses on the upper floors; and

WHEREAS, the applicant submitted an area land use map which reflects that there are only six manufacturing buildings within a 400-ft. radius of the site; and

WHEREAS, the applicant states that adjacent to the site to the north and south are ground floor restaurant uses; the block includes an eleven-story residential building with ground floor retail, built pursuant to a BSA variance, at 204-210 Lafayette Street (see BSA Cal. No. 71-02-BZ); and

WHEREAS, the applicant represents that the building's first floor, which is not a subject of this application, has been used as a commercial use since 1943, as evidenced by a 1943 Certificate of Occupancy and, thus can be established as a non-conforming use; and

WHEREAS, the Board agrees that the character of the area is mixed-use, and finds that the introduction of one dwelling unit and the continuation of ground floor retail will not impact nearby conforming uses; and

WHEREAS, as to bulk, the applicant states that the building's proposed street wall of 46 feet, total height of 57 feet, and floor area of 6,278 sq. ft. (3.35 FAR) are compatible with the character of the surrounding area and well within the parameters for conforming use in the subject zoning district, which allows a maximum building height of 85 feet and floor area of 9,375 sq. ft. (5.0 FAR); and

WHEREAS, the Board notes that the applicant originally proposed to extend the rear wall at the third floor and construct the fourth floor directly above it to reduce the existing rear setback above the second floor from 28'-3 1/2" to 20'-0"; and

WHEREAS, at hearing, the Board expressed concern regarding the proposed rear yard depth of 20'-0"; the Board noted that although there are no bulk regulations for residential buildings in manufacturing districts, the Board has historically required a rear yard depth of 30'-0", which is consistent with the requirement in zoning districts where residential use is permitted as-of-right; and

WHEREAS, at the Board's direction, the applicant revised the plans to maintain the existing setback of 28'-3 1/2" at the existing third floor and to provide the same at the new fourth floor; and

WHEREAS, the applicant notes that the full lot coverage of the subject building's first and second floors and setback of 28'-3 1/2" at the third floor are historic conditions and that the adjacent neighbor to the rear of the site provides an open space of 12 feet to its rear lot line; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that, consistent with ZR § 72-21(d), the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the site's history of development, size and narrowness, and the limited economic potential of conforming uses on the lot; and

WHEREAS, as to the minimum variance, the Board notes that the applicant originally requested a variance for first floor Use Group 6 use and Use Group 2 use on the upper floors, but subsequently withdrew its request for a variance for the first floor; and

WHEREAS, additionally, the applicant initially proposed a rear setback at the third and fourth floors of 20'-0", a partial fifth floor with approximately 500 sq. ft. of floor area; and a total floor area of 6,750 sq. ft.; and

WHEREAS, at the Board's direction, the applicant revised the plans to include a rear setback of 28'-3 1/2" at the third and fourth floors and a reduced partial fifth floor, which now has a floor area of approximately 198 sq. ft. and the proposed total floor area was revised to 6,278 sq. ft.; and

WHEREAS, accordingly, the Board finds that the proposal is the minimum variance necessary to afford relief, as set forth in ZR § 72-21(e); and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 14-BSA-062M, dated October 1, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6

MINUTES

NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, within an M1-5B zoning district, the conversion of the second and third floor of an existing three-story building and the addition of a fourth and partial fifth floor for residential use (Use Group 2), contrary to ZR § 42-10, *on condition* that any and all work will substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received September 2, 2014"- six (6) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the proposed building: a maximum total floor area of 6,278 sq. ft. (3.35 FAR), a residential floor area of 4,403 sq. ft. (2.35 FAR), one dwelling unit, a maximum street wall height of 46'-0", a maximum building height of 57'-0", and a minimum rear setback of 28'-3 1/2" beginning above the second story;

THAT the Board has not approved Use Group 6 use or any other use which does not conform to the underlying use regulations for the first floor and cellar; thus, the use of the first floor and cellar is subject to DOB review and approval and is not within the scope of the variance;

THAT substantial construction will be completed in accordance with ZR § 72-23;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, September 16, 2014.

298-13-BZ CEQR #14-BSA-065Q

APPLICANT – Eric Palatnik, P.C., for Steve Chon, owner.
SUBJECT – Application November 1, 2013 – Special Permit (§73-49) to permit 36 rooftop parking spaces, accessory to an existing three story and cellar physical culture establishment (*Spa Castle*). M1-1 zoning district.
PREMISES AFFECTED – 11-11 131st Street, 11th Avenue between 131st and 132nd Street, Block 4011, Lot 24, Borough Queens.

COMMUNITY BOARD #1Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Commissioner Hinkson, Commissioner Ottley-Brown and Commissioner Montanez3
Negative:.....0
Abstain: Chair Perlmutter.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated October 23, 2013, acting on DOB Application No. 420848550, reads:

Proposed rooftop parking area is contrary to ZR Section 44-11; and

WHEREAS, this is an application under ZR § 73-49 to permit, on a site located within an M1-1 zoning district, 36 parking spaces on the rooftop of a three-story commercial building occupied by a physical culture establishment ("PCE"), contrary to ZR § 44-10; and

WHEREAS, a public hearing was held on this application on July 22, 2014, after due notice by publication in the *City Record*, and then to decision on September 16, 2014; and

WHEREAS, the site and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, Community Board 7, Queens, recommends approval of this application; and

WHEREAS, Queens Borough President Melinda Katz recommends approval of this application; and

WHEREAS, the subject site spans the south side of 11th Avenue, between 131st Street and 132nd Street, within an M1-1 zoning district; and

WHEREAS, the site has 170 feet of frontage along 131st Street, 200 feet of frontage along 11th Avenue, 131 feet of frontage along 132nd Street, and 30,124 sq. ft. of lot area; and

WHEREAS, the site is occupied by a three-story commercial building with 29,787 sq. ft. of floor area (0.99 FAR); the building is occupied by a PCE ("Spa Castle"), the operation of which the Board authorized on July 18, 2006, under BSA Cal. No. 202-05-BZ, for a term of ten years, to expire on July 18, 2016; and

WHEREAS, the site also includes an accessory parking facility for 108 automobiles; 54 parking spaces are within the building and 54 parking spaces are at the second, unroofed story; and

WHEREAS, the applicant notes that 89 parking spaces are required for the PCE use; and

WHEREAS, the applicant proposes to eliminate two existing parking spaces, enclose the unroofed portion of the parking facility, and construct an additional 36 parking spaces atop the enclosure (roof), resulting in a total of 140 parking spaces at the site; and

WHEREAS, because the proposed rooftop parking is not permitted as-of-right in an M1-1 district, the applicant seeks a special permit pursuant to ZR § 73-49; and

WHEREAS, the applicant notes that the proposed rooftop parking is not required but is permitted accessory parking for the PCE; likewise, the proposed parking complies with ZR § 44-12, which limits non-required accessory parking spaces to 150; and

WHEREAS, pursuant to ZR § 73-49, the Board may permit parking spaces to be located on the roof of a building if the Board finds that the roof parking is located so as not to

MINUTES

impair the essential character or the future use or development of the adjacent areas; and

WHEREAS, the applicant represents that the rooftop parking will not impair the essential character or future use or development of adjacent areas and will not adversely affect the character of the surrounding area; and

WHEREAS, the applicant states that the site is entirely within an M1-1 zoning district and that there are no buildings immediately adjacent to the proposed rooftop parking; the only adjacent use is the at-grade parking lot directly south of the site; the nearest building is a three-story commercial/industrial building; the nearest residential buildings are located across 11th Avenue and 131st Street; and

WHEREAS, based upon its review of the record, the Board concludes that the findings required under ZR § 73-49 have been met; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement CEQR No. 14BSA065Q, dated October 31, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration under 6 NYCRR Part 617.5 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings application under ZR § 73-49 to permit, on a site located within an M1-1 zoning district, 36 parking spaces

on the rooftop of a three-story commercial building occupied by a PCE, contrary to ZR § 44-10, *on condition* that any and all work will substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received April 9, 2014"- Seventeen (17) sheets; and *on further condition:*

THAT a maximum of 36 rooftop parking spaces will be permitted;

THAT a maximum of 140 parking spaces will be permitted at the site;

THAT the layout of the parking spaces will be as reviewed and approved by DOB;

THAT all lighting on the roof will be directed down and away from adjacent uses;

THAT the rooftop parking will be screened from neighboring residences as per the BSA-approved plans;

THAT the site will be maintained safe and free of debris;

THAT the above conditions will appear on the certificate of occupancy;

THAT the conditions set forth in BSA Cal. No. 202-05-BZ remain in effect and will also be noted on the certificate of occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, September 16, 2014.

WHEREAS, the decision of the Department of Buildings (“DOB”), dated November 20, 2013, acting on DOB Application No. 121789671, reads, in pertinent part:

Proposed change of use to a physical culture establishment is contrary to ZR 32-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C6-2A zoning district, within the Special Tribeca Mixed Use District, within the Tribeca North Historic District, the legalization of a physical culture establishment (“PCE”) operating in portions of the first story of a ten-story mixed residential and commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on July 29, 2014, after due notice by publication in the *City Record*, and then to decision on September 16, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Manhattan, recommends approval of this application; and

WHEREAS, certain residents of the subject building, through counsel, submitted testimony in opposition to the application, citing concerns regarding the noise generated by the PCE and the adequacy facility’s sound attenuation; and

WHEREAS, the subject site spans the east side of Greenwich Street between Hubert Street and Laight Street, within a C6-2A zoning district, within the Special Tribeca Mixed Use District, within the Tribeca North Historic District; and

WHEREAS, the site has approximately 125 feet of frontage along Hubert Street, approximately 176 feet of frontage along Greenwich Street, approximately 126 feet of frontage along Laight Street, and 22,329 sq. ft. of lot area; and

WHEREAS, the site is occupied by a ten-story mixed residential and commercial building with approximately 172,444 sq. ft. of floor area (7.8 FAR); and

WHEREAS, the PCE occupies 3,154 sq. ft. of floor area on the first story and is operated as Flywheel Sports, Inc.; and

WHEREAS, the hours of operation for the PCE will be Monday through Friday, from 5:30 a.m. to 9:00 p.m. and Saturday and Sunday, from 6:30 a.m. to 9:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Landmarks Preservation Commission has approved the proposed alterations of the building by Certificate of No Effect, dated July 8, 2013; and

WHEREAS, accordingly, the Board finds that this action will neither: 1) alter the essential character of the surrounding neighborhood; 2) impair the use or

development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, at hearing, the Board directed the applicant to respond to the opposition’s concerns regarding noise; and

WHEREAS, in response, the applicant stated that additional sound attenuation measures were installed subsequent to the opposition notifying the applicant of its concerns; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the operation of the PCE without the special permit; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No. 14SA076M dated May 5, 2014; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site within a C6-2A zoning district, within the Special Tribeca Mixed Use District, within the Tribeca North Historic District, the legalization of a PCE operating in portions of the first story of a ten-story mixed residential and commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received December 9, 2013” Two (2) sheets and “Received May 5, 2014” Two (2) sheets and *on*

MINUTES

further condition:

THAT the term of the PCE grant will expire on December 1, 2023;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT all sound attenuation measures proposed will be installed, maintained and reflected on the Board-approved plans;

THAT accessibility compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated February 24, 2014, acting on DOB Application No. 320904517, reads, in pertinent part:

Proposed physical culture establishment in a C2-4 zoning district is contrary to ZR 32-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within partially within a C2-4 (R7D) zoning district and partially within an R6B zoning district, the operation of a physical culture establishment (“PCE”) in portions of the first, second, and third stories of a three-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on July 29, 2014, after due notice by publication in the *City Record*, and then to decision on September 16, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the north side of Fulton Street, between MacDonough Street and Tompkins Avenue, partially within a C2-4 zoning district and partially within an R6B zoning district; and

WHEREAS, the site has approximately 108 feet of frontage along Fulton Street and 10,251 sq. ft. of lot area; and

WHEREAS, the site is occupied by a three-story commercial building; and

WHEREAS, the proposed PCE will occupy 846 sq. ft. of floor area on the first story and 7,137 sq. ft. of floor area on the second and third stories, for a total PCE floor area of 15,120.; and

WHEREAS, the applicant represents that no portion of the PCE will operate within the R6B portion of the site; and

WHEREAS, the PCE will be operated as Planet Fitness; and

WHEREAS, the hours of operation for the PCE will be Monday through Saturday, from 5:30 a.m. to 11:00 p.m. and Sunday, from 7:00 a.m. to 9:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

MINUTES

WHEREAS, the Board has conducted a review of the proposed Type II action discussed in the CEQR Checklist No. 14BSA122K dated March 4, 2014; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, , to permit, on a site within partially within a C2-4 (R7D) zoning district and partially within an R6B zoning district, the operation of a PCE in portions of the first, second, and third stories of a three-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received March 4, 2014” Five (5) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on September 16, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT all sound attenuation measures proposed will be installed, maintained and reflected on the Board approved plans;

THAT accessibility compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

CEQR #14-BSA-129Q

APPLICANT – John M. Marmora, Esq., for RKR Properties, Inc., owner; McDonald's USA, LLC., lessee.

SUBJECT – Application March 26, 2014 – Special Permit (§73-243) to allow for an eating and drinking establishment (UG 6) (*McDonald's*) with an accessory drive-through facility. C1-2/R5D zoning district.

PREMISES AFFECTED – 122-21 Merrick Boulevard, northwest corner of Merrick Boulevard and Sunbury Road, Block 12480, Lot(s) 32, 39, Borough of Queens.

COMMUNITY BOARD #12Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Commissioner Hinkson, Commissioner Ottley-Brown and Commissioner Montanez3

Negative:.....0

Abstain: Chair Perlmutter.....1

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated March 3, 2014, acting on DOB Application No. 420946267, reads:

Proposed eating and drinking establishment with accessory drive-through in C1 district is not permitted as-of-right and is contrary to ZR 32-15; and

WHEREAS, this is an application under ZR §§ 73-243 and 73-03, to permit, on a site within a C1-3 (R5D) zoning district, the operation of an accessory drive-through facility operating in conjunction with an as-of-right eating and drinking establishment (Use Group 6), contrary to ZR § 32-31; and

WHEREAS, a public hearing was held on this application on July 15, 2014, with a continued hearing on July 29, 2014, and then to decision on September 16, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, Community Board 12, Queens, recommends approval of this application; and

WHEREAS, the subject site located on the northwest corner of the intersection of Merrick Boulevard and Sunbury Road, within a C1-3 (R5D) zoning district; and

WHEREAS, the site has approximately 160 feet of frontage along Merrick Boulevard, approximately 61 feet of frontage along Sunbury Road, 9,688 sq. ft. of lot area; and

WHEREAS, the site is occupied by a one-story eating and drinking establishment (Use Group 6, operated by KFC) with 2,116 sq. ft. of floor area (0.21 FAR), an accessory drive-through, and seven accessory parking spaces; and

WHEREAS, the applicant now seeks to demolish the existing building, reconfigure the drive-through, reduce the number of accessory parking spaces from seven to five, and change the operator from KFC to McDonald’s; and

WHEREAS, the Board notes that a special permit is required for the proposed accessory drive-through facility in the C1-3 (R5D) zoning district, pursuant to ZR § 73-243; and

WHEREAS, under ZR § 73-243, the applicant must demonstrate that: (1) the drive-through facility provides reservoir space for not less than ten automobiles; (2) the drive-through facility will cause minimal interference with traffic flow in the immediate vicinity; (3) the eating and drinking establishment with accessory drive-through facility complies with accessory off-street parking regulations; (4) the character

MINUTES

of the commercially-zoned street frontage within 500 feet of the subject premises reflects substantial orientation toward the motor vehicle; (5) the drive-through facility will not have an undue adverse impact on residences within the immediate vicinity; and (6) there will be adequate buffering between the drive-through facility and adjacent residential uses; and

WHEREAS, the applicant submitted a site plan indicating that the drive-through facility provides reservoir space for 11 vehicles; and

WHEREAS, the applicant represents that the facility will cause minimal interference with traffic flow in the immediate vicinity of the subject site; and

WHEREAS, in the applicant notes that the proposed reconfiguration is a substantial improvement upon the existing KFC restaurant and drive-through, which has uncontrolled ingress and egress onto Merrick Boulevard; in contrast, the proposal reflects and elimination of the curb cut on Merrick Boulevard and the creation of additional reservoir spaces and simplification of the traffic flow; and

WHEREAS, in addition, the applicant submitted a site plan that demonstrates that the facility complies with the accessory off-street parking regulations for the C1-3 (R5D) zoning district; as noted above, the proposed five parking spaces with the minimum requirement of ZR § 36-21; and

WHEREAS, the applicant represents that the facility conforms to the character of the commercially zoned street frontage within 500 feet of the subject premises, which reflects substantial orientation toward motor vehicles and is predominantly commercial in nature; and

WHEREAS, the applicant states that Merrick Boulevard is a heavily-travelled commercial thoroughfare occupied by a variety of uses, including restaurants, drug stores, supermarkets, banks, offices and retail stores; and

WHEREAS, the applicant states that such uses and the surrounding residential neighborhoods they support are substantially oriented toward motor vehicle use; and

WHEREAS, the Board notes that the applicant has submitted photographs of the site and the surrounding streets, which supports this representation; and

WHEREAS, the applicant represents that the drive-through facility will not have an undue adverse impact on residences within the immediate vicinity of the subject premises; and

WHEREAS, the applicant states that the impact of the drive-through upon residences is minimal, in that most of the surrounding properties (the sites to the south, east, and west) are occupied by exclusively commercial uses; and

WHEREAS, the applicant notes that there are residences on sites directly north of the site; however, the dwellings are separated from the proposed McDonald's by a rear yard and, in most cases, an accessory parking garage; in addition, the applicant states that there will be adequate buffering between the drive-through and adjacent uses in the form of a fence, trees, shrubs, and planting beds; and

WHEREAS, accordingly, the applicant represents that the drive-through facility satisfies each of the requirements for a special permit under ZR § 73-243; and

WHEREAS, at hearing, the Board requested clarification that the proposed drive-through is a permitted accessory use for the principal use (Use Group 6 eating and drinking establishment), consistent with the ZR § 12-10 definition of "accessory"; the Board also directed the applicant to provide additional landscaping and explore a reduction in the accessory signage; and

WHEREAS, in response, the applicant submitted an amended statement, which demonstrates that the proposed drive-through is: (1) conducted on the same zoning lot as the proposed principal use (Use Group 6 eating and drinking establishment); (2) clearly incidental to and customarily found in connection with such principal use; and (3) operated and maintained on the same zoning lot substantially for the benefit or convenience of the owners, occupants, employees, customers, or visitors of such principal use; and

WHEREAS, as such, the applicant contends and the Board agrees that the proposed drive-through complies with the ZR § 12-10 definition of "accessory"; and

WHEREAS, in addition, the applicant submitted an amended site plan, which reflects additional plantings, including a fence with ivy, and a reduction in signage for the northern façade of the building; and

WHEREAS, accordingly, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-243 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2 and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 14-BSA-129Q dated March 26, 2014; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and

MINUTES

Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-243 and 73-03 to permit, on a site within a C1-3 (R5D) zoning district, the operation of an accessory drive-through facility operating in conjunction with an as-of-right eating and drinking establishment (Use Group 6), contrary to ZR §32-31; *on condition* that all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received September 3, 2014"- (7) sheets; and *on further condition*:

THAT the term of this grant will expire on September 16, 2024;

THAT the premises will be maintained free of debris and graffiti;

THAT parking and queuing space for the drive-through will be provided as indicated on the BSA-approved plans;

THAT all landscaping and/or buffering will be maintained as indicated on the BSA-approved plans;

THAT exterior lighting will be directed away from the nearby residential uses;

THAT all signage will conform to C1 zoning district regulations;

THAT the above conditions will appear on the certificate of occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, September 16, 2014.

APPLICANT – Lewis Garfinkel, for Asher Fried, owner.

SUBJECT – Application April 2, 2014 – Special Permit (§73-622) for the enlargement of an existing single family home, contrary to floor area and open space (§23-141); side yards (§23-461) and less than the required rear yard (§23-47). R2 zoning district.

PREMISES AFFECTED – 1339 East 28th Street, east side of East 28th Street, 320' south of Avenue M, Block 7664, Lot 28, Borough of Brooklyn.

COMMUNITY BOARD #14BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Commissioner Hinkson, Commissioner Ottley-Brown and Commissioner Montanez3

Negative:.....0

Abstain: Chair Perlmutter.....1

THE RESOLUTION –

WHEREAS, the decision of the New York City Department of Buildings ("DOB"), dated March 28, 2014, acting on DOB Application No. 320594763, reads in pertinent part:

1. Proposed plans are contrary to ZR 23-141 in that the proposed floor area ratio exceeds the permitted 50 percent;
2. Proposed plans are contrary to ZR 23-141 in that the proposed open space ratio is less than the required 150 percent;
3. Plans are contrary to ZR 23-461 in that the proposed minimum side yard is less than the required 5'-0";
4. Proposed plans are contrary to ZR 23-47 in that the proposed rear yard is less than 30'-0"; and

WHEREAS, this is an application under ZR § 73-622, to permit, on a site within an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio ("FAR"), open space ratio, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, and 23-47; and

WHEREAS, a public hearing was held on this application on August 19, 2014, after due notice by publication in *The City Record*, and then to decision on September 16, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Montanez; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of the application; and

WHEREAS, the subject site is located on the east side of East 28th Street, between Avenue M and Avenue N, within an R2 zoning district; and

WHEREAS, the site has 40 feet of frontage along East 28th Street and 4,000 sq. ft. of lot area; and

WHEREAS, the site is occupied by a single-family home with 1,220 sq. ft. of floor area (0.31 FAR); and

WHEREAS, the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant now seeks to convert the building to a single-family home and increase its floor area from 1,220 sq. ft. (0.31 FAR) to 3,917 sq. ft. (0.98 FAR); the maximum permitted floor area is 2,000 sq. ft. (0.5 FAR); and

WHEREAS, the applicant seeks to decrease the open space ratio from 85 percent to 57 percent; the minimum required open space ratio is 150 percent; and

WHEREAS, the applicant seeks to maintain an existing side yard width of 3'-7" and decrease the site's existing side yard width of 12'-5" to 9'-11"; the requirement is two side yards with a minimum total width of 13'-0" and a minimum width of 5'-0" each; and

MINUTES

WHEREAS, the applicant also seeks to decrease its rear yard depth from 54'-7" to 20'-0"; a rear yard with a minimum depth of 30'-0" is required; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood and will not impair the future use or development of the surrounding area; and

WHEREAS, the applicant asserts that the proposed lot 0.98 FAR is consistent with the bulk in the surrounding area; and

WHEREAS, in support of this assertion, the applicant identified thirteen homes within 400 feet of the subject site with FARs of 0.97 or greater; the applicant notes that eight of the thirteen homes were enlarged pursuant to a special permit from the Board; and

WHEREAS, at hearing, the Board directed the applicant to clarify: (1) the proposed distances between the home and the buildings directly east of the site; and (2) the proposed landscaping for the site; and

WHEREAS, in response, the applicant submitted amended plans that indicate the proposed distance to the buildings directly east of the site and the proposed landscaping; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622, to permit, on a site within an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for FAR, open space ratio, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, and 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received June 25, 2014"– (11) sheets and "September 3, 2014"–(1) sheet; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 3,917 sq. ft. (0.98 FAR), a minimum open space of 57 percent, side yards with minimum widths of 3'-7" and 9'-11, and a minimum rear yard depth of 20'-0", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT substantial construction be completed in accordance with ZR § 73-70; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, September 16, 2014.

81-12-BZ

APPLICANT – Eric Palatnik, P.C., for McDonald's Real Estate Co., owner.

SUBJECT – Application April 5, 2012 – Special Permit (§73-243) to permit the demolition and reconstruction of an eating and drinking establishment (Use Group 6) with an accessory drive-through and on-site parking. C1-3/R3-2/R3A zoning district.

MINUTES

**REGULAR MEETING
TUESDAY MORNING, SEPTEMBER 23, 2014
10:00 A.M.**

Present: Chair Perlmutter, Vice-Chair Hinkson,
Commissioner Ottley-Brown and Commissioner Montanez

SPECIAL ORDER CALENDAR

997-84-BZ

APPLICANT – Sheldon Lobel, P.C., for 222 Union Associates, owner.

SUBJECT – Application January 23, 2014 – Amendment (§11-413) to a previous variance for a public parking garage. The amendment would convert the building to mixed use, with retail (UG 6) on first floor and cellar, and residential (UG 2) on the second through sixth floors. R6A & C1-1/R6A zoning district.

PREMISES AFFECTED – 798-804 Union Street, 6th Avenue and 7th Avenue, Block 957, Lot 29, Borough of Brooklyn.

COMMUNITY BOARD #6BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Commissioner Hinkson, Commissioner Ottley-Brown and Commissioner Montanez ...4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to allow structural alterations and a change in use from a public parking garage with accessory auto rental (Use Group 8) to a mixed residential and commercial building (Use Groups 2 and 6); and

WHEREAS, a public hearing was held on this application on June 17, 2014, after due notice by publication in the *City Record*, with continued hearings on July 22, 2014 and August 19, 2014, and then to decision on September 23, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 6, Brooklyn, declined to issue a formal recommendation; and

WHEREAS, certain members of the community provided testimony in opposition to the proposal, citing primary concerns about the loss of necessary parking spaces, and the effect that the originally-proposed balconies and terrace at the rear lot line would have on the properties at the rear; and

WHEREAS, the subject site is located on the south side of Union Street, between Sixth Avenue and Seventh Avenue, partially within an R6A (C1-3) zoning district and partially within an R6A zoning district; and

WHEREAS, the site has approximately 93 feet of frontage along Union Street and 8,865 sq. ft. of lot area; and

WHEREAS, the site is occupied by a six-story public parking garage (Use Group 8) with approximately 52,897 sq. ft. of floor area (5.97 FAR) and 100 percent lot coverage; and

WHEREAS, the applicant proposes to convert the building to a mixed-use building with commercial uses (Use Group 6 retail) on the first floor and cellar, and residential use (Use Group 2) on the second through sixth floors; and

WHEREAS, as part of the conversion, the applicant proposes structural alterations for the reconstruction and relocation of the rear wall of the building above the first floor so as to provide a rear yard that complies with Multiple Dwelling Law requirements for legally-required windows for the conforming residential use on the upper floors; and

WHEREAS, the site has been subject to the Board's jurisdiction since July 9, 1929, when, under BSA Cal. No. 271-29-BZ, the Board permitted the construction of a parking garage and gasoline station contrary to the use regulations of the 1916 Zoning Resolution; and

WHEREAS, subsequent to the 1929 grant, the use of the building was changed to a factory, and in 1950 and 1959, under BSA Cal. Nos. 504-46-A and 491-59-A, the Board granted appeals waiving compliance with Labor Law § 270, associated with exits for factory use; and

WHEREAS, on September 10, 1985, when the site was zoned within R6 and C1-3 (R6) zoning districts, the Board authorized a change of use back to a garage with an auto rental office, pursuant to ZR § 11-413, under BSA Cal. No. 997-84-BZ; the Board also granted a waiver of the Administrative Code's sprinkler requirements under BSA Cal. No. 998-84-A; and

WHEREAS, the term of the grant was extended twice and has an expiration of September 10, 2015; and

WHEREAS, the applicant now seeks approval for a change of use to retail (Use Group 6) on the first floor and cellar and for a change in use of the second through sixth floors to residential use (Use Group 2), pursuant to ZR §§ 11-413, and 52-34 and for reconstruction and relocation of the rear wall above the first floor pursuant to ZR § 11-412 for the conforming residential use in order to provide light and air in accordance with the Multiple Dwelling Law, and for the discontinuance of the existing approval; and

WHEREAS, the applicant notes the following plan for the building: (1) the footprint of the cellar and first floor will not be changed and approximately 50 percent of the cellar is proposed to be occupied by commercial use and the remainder will be for building services and accessory to the residential use; (2) approximately 80 percent of the first floor will be occupied by retail use and the remainder will be for the residential lobby, elevator, storage, and egress; and (3) the building's rear wall will be demolished and the depth of the second through sixth stories will be reduced by five feet; and

WHEREAS, the applicant proposes a total of 28 dwelling units with a total residential floor area of 44,461 sq. ft.; and

WHEREAS, the applicant notes that although the

MINUTES

residential FAR and building height exceed that allowed by the underlying zoning district regulations, all of the residential use is within the envelope of the historic garage building except for the new roof construction, which it contends complies with ZR § 23-62 as a permitted obstruction; and

WHEREAS, the applicant asserts that with the addition of the five feet of open space above the first floor at the rear of the building, there will be a distance of 48 feet between the building's new rear wall and the rear wall of the adjacent buildings with frontage on President Street; and

WHEREAS, the applicant asserts that, with the inclusion of the rear setback, the proposal complies with MDL § 277; and

WHEREAS, the applicant asserts that the new construction on the roof is required by the Building Code and permitted by ZR § 23-62 and that the rooftop recreation area meets the requirements of ZR § 15-10; and

WHEREAS, pursuant to ZR § 11-412, the Board may permit enlargement of a building subject to a use variance issued prior to December 15, 1961, provided that such enlargement is limited to the zoning lot that was granted such variance; in addition, pursuant to ZR § 11-413, the Board may permit a change in use from a non-conforming use to a conforming use; and pursuant to ZR § 52-34, the Board may permit a change in use from a non-conforming use to certain other uses which do not comply with underlying use regulations, including Use Group 6, provided that the change of use does not impair the character or future use or development of the surrounding area; and

WHEREAS, the applicant states that the proposal significantly reduces the amount of floor area devoted to a non-conforming use; and

WHEREAS, the application asserts that the proposed commercial use is compatible with the essential character of the conforming and non-conforming commercial uses in the surrounding area and the mixed-use building is similarly a common building composition in the area; and

WHEREAS, as noted, the applicant initially proposed a terrace on the roof of the first floor and balconies along the rear wall; and

WHEREAS, in response to the neighbors' and the Board's concerns, the applicant eliminated all of the balconies and access to the terrace from the second floor units; and

WHEREAS, in response to the concerns about traffic and the loss of parking, the applicant submitted a traffic study which concluded that the loss of parking would not have detrimental impact to the community; the applicant also asserts that there are not any parking requirements for the conversion of the existing building to mixed Use Group 6 and Use Group 2 use; and

WHEREAS, at hearing, the Board asked the applicant whether it would be possible to retain any number of parking spaces; and

WHEREAS, in response, the applicant stated that it reviewed alternate designs including the retention of a ramp or elevator for vehicle access to the cellar and concluded that the amount of space required for such conditions would

undermine the feasibility of the project; and

WHEREAS, based on the foregoing, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 11-412 and 11-413.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated September 10, 1985, to permit the noted changes in use and building alterations; *on condition* that any and all work shall substantially conform to drawings as they apply to the objection above noted, filed with this application marked 'Received August 29, 2014'-(17) sheets; and *on further condition*:

THAT the total floor area is limited to 51,709 sq. ft. and the commercial floor area is limited to 7,248 sq. ft.; all other bulk parameters area as reflected on the Board-approved plans;

THAT all construction will be completed and a certificate of occupancy obtained within four years of the date of this grant;

THAT DOB will review and approve interior layouts; Multiple Dwelling Law compliance; and the zoning compliance of the rooftop structures;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, September 23, 2014.

193-12-BZ

APPLICANT – Rothkrug Rothkrug & Spector, LLP., for Vornado Realty Trust., owner; Soulcycle 384 Lafayette Street, LLC., lessee.

PREMISES AFFECTED – 384 Lafayette Street aka 692 Broadway and 2-20 East 4th Street, southwest corner of Lafayette Street and East 4th Street, Block 531m Kit 7501, Borough of Manhattan.

COMMUNITY BOARD #2M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Commissioner Hinkson, Commissioner Otley-Brown and Commissioner Montanez ...4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment of a previously-granted special permit for a

MINUTES

physical culture establishment (“PCE”) to permit the enlargement of the PCE; and

WHEREAS, a public hearing was held on this application on September 9, 2014, after due notice by publication in *The City Record*, and then to decision on September 23, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on a site with frontage on Broadway, East 4th Street, and Lafayette Street, in an M1-5B zoning district within the NoHo Historic District; and

WHEREAS, the site is occupied by a mixed-use 12-story commercial/manufacturing/residential building, known as the Silk Building; and

WHEREAS, the PCE currently occupies 3,294 sq. ft. of floor area on the first floor and 1,873 sq. ft. of floor space in the cellar; and

WHEREAS, the PCE will be operated as SoulCycle; and

WHEREAS, the Board has exercised jurisdiction over the subject PCE since October 23, 2012 when, under the subject calendar number, the Board granted a special permit in the subject building for a term of ten years, to expire on October 23, 2022; and

WHEREAS, the site is also the subject of a prior PCE special permit approval for a Blink Fitness, pursuant to BSA Cal. No. 33-10-BZ, which is not the subject of this application; and

WHEREAS, the applicant now seeks an amendment to permit the enlargement of the PCE into other portions of the first floor and cellar of the building; specifically, the proposal would increase the floor area of the PCE from 3,294 sq. ft. to 4,553 sq. ft. on the first floor and from 1,873 sq. ft. of floor space to 3,331 sq. ft. of floor space in the cellar; and

WHEREAS, the extension will include the utilization of a new entry on Lafayette Street; and

WHEREAS, the applicant submitted a Certificate of No Effect from the Landmarks Preservation Commission (LPC), dated March 4, 2014, approving the proposed signage and other modifications under its jurisdiction; and

WHEREAS, based upon its review of the record, the Board finds the requested amendments to the plans are appropriate with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *reopens*, and *amends* the resolution to permit the noted modifications; *on condition* that any and all work substantially conforms to drawings as they apply to the objections above noted, filed with this application marked ‘Received March 11, 2014’– four (4) sheets; and *on further condition*:

THAT all conditions from prior the resolution not specifically waived by the Board remain in effect;

THAT all modifications to signage and the façade will be in accordance with the Landmarks Preservation

Commission’s Certificate of No Effect, dated March 4, 2014;

THAT any modifications will be subject to Landmarks Preservation Commission approval;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only;

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, September 23, 2014.

698-59-BZ

APPLICANT – Eric Palatnik, P.C., for Bolla EM Realty, LLC, owner.

SUBJECT – Application May 21, 2014 – Amendment of a previously approved variance to permit the conversion of the convenience store to a relocate and re-size curb cuts and to legalize the existing remediation equipment and location of the tanks and permit additional trees on the site. C2-2 zoning district.

PREMISES AFFECTED – 2773 Nostrand Avenue, northeast corner of Kings Highway and Nostrand Avenue, Block 7684, Lot 22, Borough of Brooklyn.

COMMUNITY BOARD #18BK

ACTION OF THE BOARD – Laid over to November 18, 2014, at 10 A.M., for continued hearing.

902-79-BZ

APPLICANT – Goldman Harris LLC, for West 29th Street Owner's Corp., owners.

SUBJECT – Application April 9, 2014 – Amendment of a previously approved Variance (§72-21) the conversion of a three-story and four-story and a twelve-story existing manufacturing buildings to residential use above the ground floor and now to proposed the unused development rights for incorporation into a new as-of-right hotel. M1-6 zoning district.

APPEALS CALENDAR

145-14-A

APPLICANT – Yuk Lam, for XU M Hui, owner.
SUBJECT – Application June 23, 2014 – Proposed four-story building not fronting on a mapped street, contrary to Article 3, Section 36 of the General City Law.
PREMISES AFFECTED –136-16 Carlton Place, between Linden Place and Leavitt Street, Block 4960, Lot 62, Borough of Queens.

COMMUNITY BOARD #4Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Commissioner Hinkson, Commissioner Ottley-Brown and Commissioner Montanez 4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated June 10, 2014, acting on DOB Application No.420942396, reads in pertinent part:

The proposed building not fronting the mapped street, contrary to General City Law Section 36; and

WHEREAS, this is an application to allow the construction of a four-story, three-family building not fronting a mapped street contrary to General City Law (“GCL”) § 36; and

WHEREAS, a public hearing was held on this application on July 29, 2014, after due notice by publication in *The City Record*, with a continued hearing on September 9, 2014 and then to decision on September 23, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the south side of Carlton Place, between Linden Place and Leavitt Street, within an R6 (C2-2) zoning district; and

WHEREAS, the applicant states that the site has 25 feet of frontage along Carlton Place and 1,582 sq. ft. of lot area; and

WHEREAS, the applicant states that Carlton Place is an unmapped access road; and

WHEREAS, the applicant proposes to demolish the existing, vacant two-story frame dwelling and construct a four-story, three-family building; and

WHEREAS, the applicant also proposes to install a new curb cut along Carlton Place to provide access to one off-street parking space; and

WHEREAS, by letter dated July 7, 2014, Fire Department states that it has reviewed the project and offers no objections, provided the building is fully sprinklered;

WHEREAS, the applicant represents that the building will be fully-sprinklered; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant

approval of the application subject certain conditions.

Therefore it is Resolved, that the decision of the DOB, dated June 10, 2014, acting on DOB Application No. 420942396, is modified by the power vested in the Board by Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked “Received August 12, 2014”- one (1) sheet; that the proposal will comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT building will be fully-sprinklered;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals September 23, 2014.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated July 14, 2014, acting on DOB Application No. 420813285, reads in pertinent part:

1. Proposed mixed use multiple dwelling building is contrary to ZR 22-12;
2. Proposed residential floor area ratio exceeds the maximum permitted pursuant to ZR 23-141 and 24-161;
3. Proposed number of dwelling units exceeds maximum permitted pursuant to ZR 23-22 and 24-20;
4. Proposed building exceeds maximum permitted building height pursuant to ZR 23-631;
5. Proposed number of parking spaces is below minimum required pursuant to ZR 25-25(e); and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site within a R3A zoning district, the construction of a five-story mixed residential and community facility affordable housing building that does not comply with the zoning requirements for use, floor area ratio (“FAR”), density, height, and parking, contrary to ZR §§ 22-12, 23-141, 23-22, 23-631, 24-161, 24-20, and 25-25; and

WHEREAS, a public hearing was held on this application on June 24, 2014, after due notice by publication in the *City Record*, with a continued hearing on August 19, 2014, and then to decision on September 23, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by former Chair Srinivasan, Vice-Chair Hinkson, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 12, Queens, recommends approval of this application; and

WHEREAS, Councilperson Leroy Comrie, Councilperson I. Daneek Miller, former Queens Borough President Helen Marshall, Queens Borough President Melinda Katz, and certain members of the surrounding community submitted testimony in support of the application; and

WHEREAS, Assemblyman William Scarborough, Congressman Gregory Meeks, the St. Albans Civic Improvement Association, the Addison Park Civic Association, and certain members of the surrounding community submitted testimony in opposition to the application (the “Opposition”), citing the following concerns: (1) the incompatibility of the proposed height and number of dwelling units with the surrounding neighborhood; (2) the negative effect of the proposal on traffic, parking, and critical infrastructure, including police, schools, and sewers; (3) the

MINUTES

absence of an Environmental Impact Statement (“EIS”); (4) the inconsistency of the proposal and the recent R3A downzoning; and (5) the lack of a nexus between the programmatic needs of the church and the proposed waivers; and

WHEREAS, the application is brought on behalf of the Presbyterian Church of St. Albans (the “Church”), which is a non-profit religious organization, in partnership with Trinity Development Associated (“Trinity”), which is a for-profit developer that specializes in affordable housing projects; where referred to collectively, the Church and Trinity constitute the applicant; and

WHEREAS, the subject site an irregularly-shaped lot in the mid-block portion of the block bounded by Farmers Boulevard, 118th Avenue, 189th Street, and 119th Avenue, within an R3A zoning district; and

WHEREAS, the site comprises Tax Lots 58 and 63, has 224.03 feet of frontage along Farmers Boulevard, 129.54 feet of frontage along 189th Street, and 44,642 sq. ft. of lot area; and

WHEREAS, the site is vacant; the applicant represents that Lots 58 and 63 were historically developed separately with residential buildings; and

WHEREAS, the applicant notes that the Church has owned Lot 58 for 16 years and purchased Lot 63 jointly with Trinity in 2011; subsequently, on July 26, 2014, Trinity assigned its interest in Lot 63 to the Church; accordingly, the applicant represents the Church has title to the entire site; and

WHEREAS, the applicant proposes to construct a five-story mixed residential (Use Group 2) and community facility (Use Group 4) building with 64,718 sq. ft. of floor area (1.45 FAR) (63,897 sq. ft. of residential floor area (1.43 FAR) and 821 sq. ft. of community facility floor area (0.02 FAR)), 10,417 sq. ft. of community facility floor space in the cellar, 67 dwelling units, 17 parking spaces, a wall height of 35’-0”, and a building height of 55’-0”; and

WHEREAS, the applicant states that the proposed community facility will facilitate the Church’s youth- and senior-oriented programming, including life skills courses, educational training, arts instruction, adult care, and recreation facilities; and

WHEREAS, the applicant also states that the proposal is an affordable housing project, with anticipated financing from the Department of Housing Preservation and Development (“HPD”), New York State Division of Housing and Community Renewal (“DHCR”), and Community Preservation Corporation; and

WHEREAS, in order to construct the building as proposed, the applicant seeks the following waivers: (1) use (a multiple dwelling is not permitted within the subject R3A zoning district, per ZR § 22-12); (2) maximum FAR (a maximum FAR of 1.0 is permitted, per ZR §§ 23-141 and 24-161); (3) density (a maximum of 31 dwelling units is permitted, per ZR § 23-22); (4) height (a maximum wall height of 21’-0” is permitted with a maximum building height of 35’-0” is permitted, per ZR § 23-631); and (5) parking (a minimum of 34 spaces is required, per ZR § 25-25); and

WHEREAS, the applicant states that, in accordance with ZR § 72-21(a), the site’s irregular shape is a unique physical condition, which creates an unnecessary hardship in developing the site in conformance and compliance with applicable regulations; and

WHEREAS, the applicant states that the site is a six-sided, irregular through lot with an arcing frontage along 189th Street, a diagonal frontage along Farmers Boulevard, a lot width varying from 224 feet to 129 feet, and a lot depth varying from 131 feet to 279 feet; and

WHEREAS, the applicant also states that the easternmost portion of the site forms a triangle along the arcing street line formed by 189th Street and that the triangle narrows from approximately 80 feet in width at its widest point to zero feet; and

WHEREAS, the applicant represents that there are no sites within 400 feet of the subject site with even a remotely similar shape; and

WHEREAS, the applicant states that despite the site’s substantial lot area (44,642 sq. ft.), the shape of the site combined with the use and bulk requirements of the subject R3A zoning district results in a development with only 22 dwelling units and 30 percent lot coverage, which represents ten fewer dwelling units and 25 percent less lot coverage than is permitted as-of-right; and

WHEREAS, to further demonstrate how the site’s shape constrains its development, the applicant submitted an analysis, which reflects that if the site had a standard shape, it would accommodate 16 homes (32 dwelling units); and

WHEREAS, accordingly, the applicant states that relief is necessary to make efficient use of the site for housing; and

WHEREAS, in addition, the applicant states that in order to be competitive for certain financial programs associated with the affordable housing, it must build a minimum number of dwelling units; in support of this statement, the applicant provided letters detailing its eligibility for HPD and DHCR funding; and

WHEREAS, finally, the applicant states that the Church’s programmatic needs are furthered by the proposal; and

WHEREAS, specifically, as noted above, the Church has a long-standing presence in the community and requires additional space for educational, religious, and recreational programming; likewise, the Church represents that its congregation is drawn largely from the surrounding neighborhood and that housing affordability is a substantial and persistent concern for its congregants and other members of the surrounding community; and

WHEREAS, the applicant also states, as noted above, that the majority of the proposed cellar level (10,417 sq. ft.) will be used as a community facility; the applicant contends that, absent the requested parking waiver, parking spaces, rather than community facility program space will be placed in the cellar, resulting in a significant reduction in the Church’s community-oriented programming at the site; and

WHEREAS, as noted above, the Board acknowledges that the Church, as a religious institution, is entitled to

MINUTES

significant deference under the law of the State of New York as to zoning and as to its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in Westchester Reform Temple v. Brown, 22 NY2d 488 (1968), a religious institution's application is to be permitted unless it can be shown to have an adverse effect upon the health, safety, or welfare of the community, and general concerns about traffic and disruption of the residential character of a neighborhood are insufficient grounds for the denial of an application; and

WHEREAS, as to the Opposition's concerns regarding the nexus between the Church's programmatic needs and the requested relief, the Board notes that the applicant does not rely exclusively on programmatic needs to justify the requested waivers; rather, programmatic needs satisfaction is a mere component of the (a) finding under ZR § 72-21 and the primary component is the irregular shape of the site coupled with the economics of constructing affordable housing; and

WHEREAS, based upon the above, the Board finds that the shape of the site and the programmatic needs of the Church in developing community-oriented space and affordable housing units create an unnecessary hardship and a practical difficulty in developing the site in conformance and compliance with the applicable zoning regulations; and

WHEREAS, the applicant states that as a non-profit institution, it is exempt from establishing that there no reasonable possibility that the development of the site in strict compliance with the zoning requirements will bring a reasonable return, per ZR § 72-21(b); nonetheless, to demonstrate the need for the number of dwelling units proposed, the applicant assessed the financial feasibility of three scenarios: (1) an as-of-right development consisting of 11 two-family homes; (2) an as-of-right development on a standard lot with the same lot area; and (3) the proposal; and

WHEREAS, the applicant concluded that only the proposal provides relief for the unique conditions of the site and allows the Church to construct affordable housing units as well as space for its religious programming; and

WHEREAS, based upon its review of the applicant's submissions, the Board has determined that because of the site's unique physical conditions, there is no reasonable possibility that an affordable housing development in strict compliance with applicable zoning requirements is feasible; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, the applicant states that the surrounding neighborhood includes one- and two-family homes and large community facilities; and

WHEREAS, as to adjacent uses, the applicant states that the site is surrounded on all sides by detached, two- or three-story, one- or two-family homes; and

WHEREAS, as to the use variance, the Board notes that

although residences are permitted at the site, multiple dwellings are not permitted; thus, the use waiver is mitigated by the fact that residential use is contemplated at the site; further, as noted above, a multiple dwelling is necessary to achieve the number of dwelling units required for a government-funded affordable housing project; and

WHEREAS, the applicant notes that although the proposed building rises to a height of five stories, only the central portion of the building is five stories and the portions of the building immediately adjacent to the nearby homes are three or four stories in height; and

WHEREAS, the applicant also asserts that the proposed five-story building is contextual with the profile of community facility buildings in the vicinity, including the St. Albans Church and School located at 172-17 Linden Boulevard (building height of 30 feet and 22,440 sq. ft. of floor area), the VA Medical Center and Home located at 180-20 Linden Boulevard (building height of 60 feet and 731,427 sq. ft. of floor area), PS 3 located at 187-40 Foch Boulevard (building height of 42 feet and 36,750 sq. ft. of floor area), the St. Catherine's Church and School located at 185-15 Baisley Boulevard (building height of 39 feet and 12,200 sq. ft. of floor area), PS 15 located at 121-15 Lucas Street (building height of 50 feet and 49,410 sq. ft. of floor area), Humanities and Arts High School located at 207-01 116th Avenue (building height of 56 feet and 252,655 sq. ft. of floor area), and PS 16 located at 201-15 115th Avenue (building height of 42 feet and 97,200 sq. ft. of floor area); and

WHEREAS, further, the applicant states that in order to minimize the effects of the proposed height on the adjacent residences, the design includes a perimeter wall height of 35 feet and a front yard depth consistent with adjacent properties; in addition, at the Board's request, the proposal was modified to enhance the landscaping and plantings along the perimeter of the site; and

WHEREAS, the applicant also notes that an R5D zoning district is mapped just north of the site at 118th Avenue, and that the proposed building would be complying in that district with respect to use, FAR, and density; and

WHEREAS, the applicant contends that, based on the anticipated car ownership of the residents of the building—which is expected to be lower than the average household in the area—and the availability of off-street parking in the vicinity of the site, the proposed parking waiver is appropriate; and

WHEREAS, at hearing, and in response to the concerns of the Opposition, the Board directed the applicant to submit a more comprehensive parking demand analysis; and

WHEREAS, in response, the applicant provided the requested parking demand analysis of nine nearby residences of similar size, which reflects that the proposal will not have a significant negative impact on parking in the surrounding area; and

WHEREAS, as to the Opposition's concerns regarding the lack of an EIS, the Board observes that an EIS was not required due to the scope of the proposal, as set forth below; and

MINUTES

WHEREAS, as to the Opposition's concerns regarding the inconsistency of the proposal with the recent downzoning of the site to R3A, the Board notes that ZR § 72-21 exists to provide relief for uniquely burdened sites where the general use and/or bulk regulations make development infeasible; thus, while the Board considers the timing of a rezoning in determining whether a proposal satisfies the (c) finding ZR § 72-21, a recent rezoning *per se* does not make a site ineligible for relief that would otherwise be appropriate; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that, consistent with ZR § 72-21(d), the hardship herein was not created by the owner or a predecessor in title, but is due to the peculiarities of the site and the applicant's objective to provide affordable housing and community facility space for the Church's congregants; and

WHEREAS, the Board also finds that this proposal is the minimum necessary to afford the owner relief, in accordance with ZR § 72-21(e); and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.5; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 14-BSA-036Q, dated February 4, 2014; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 to permit, on a site within a R3A zoning district, the construction of a five-story mixed

residential and community facility affordable housing building that does not comply with the zoning requirements for use, FAR, density, height, and parking, contrary to ZR §§ 22-12, 23-141, 23-22, 23-631, 24-161, 24-20, and 25-25; *on condition* that any and all work will substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received March 5, 2014"—twenty (20) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the proposed building: a maximum of five stories, a maximum floor area of 64,718 sq. ft. of floor area (1.45 FAR), a maximum residential floor area of 63,897 sq. ft. (1.43 FAR), a maximum of 67 dwelling units, a minimum of 17 parking spaces, a maximum wall height of 35'-0", and a maximum building height of 55'-0", as reflected on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT substantial construction will be completed in accordance with ZR § 72-23;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, September 23, 2014.

21-14-BZ CEQR #14-BSA-108Q

APPLICANT – Eric Palatnik, P.C., for FSJ Realty Group LLL., owner; Crunch Richmond Hill, LLC., lessee.

SUBJECT – Application February 3, 2014 – Special Permit (§73-36) to allow the operation of a physical culture establishment (*Crunch Fitness*). C2-4/R6A zoning district. PREMISES AFFECTED – 115-02 Jamaica Avenue, southeast corner of Jamaica Avenue and 115th Street, Block 9305, Lot(s) 2 and 11, Borough of Queens.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Commissioner Hinkson, Commissioner Otley-Brown and Commissioner Montanez ...4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated January 22, 2014, acting on DOB Application No. 420803554, reads, in pertinent part:

Proposed physical culture establishment in a R6A (C2-4) zoning district is contrary to Section 32-10; and

WHEREAS, this is an application under ZR §§ 73-36

MINUTES

and 73-03, to permit, on a site within a C2-4 (R6A) zoning district, the operation of a physical culture establishment (“PCE”) on the second and third stories of a new three-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on September 9, 2014, after due notice by publication in the *City Record*, and then to decision on September 23, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, Community Board 9, Queens, recommends support of this application; and

WHEREAS, the subject site is irregularly-shaped lot located at southeast corner of the intersection of Jamaica Avenue and 115th Street, with a portion of the lot fronting on 116th Street; the site comprises Lots 1, 2, 3, 4, and 11, and is within a C2-4 (R6A) zoning district; and

WHEREAS, the site has approximately 93 feet of frontage along Jamaica Avenue, approximately 105 feet of frontage along 115th Street, approximately 86 feet of frontage along 116th Street, and approximately 18,946 sq. ft. of lot area; and

WHEREAS, the site is occupied by a three-story commercial building with approximately 8,557 sq. ft. of floor area; and

WHEREAS, the applicant states that it proposes to construct on Lot 2 a new three-story building with 29,135 sq. ft. (1.54 FAR); and

WHEREAS, the proposed PCE will occupy 8,944 sq. ft. of floor area on the second story and 8,944 sq. ft. of floor area on the third story, for a total PCE floor area of 17,888 sq. ft.; and

WHEREAS, the PCE will be operated as Crunch; and

WHEREAS, the hours of operation for the PCE will be Monday through Saturday, from 5:00 a.m. to 11:00 p.m. and Sunday, from 7:00 a.m. to 9:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, at hearing, the Board requested additional information regarding the uses immediately adjacent to the site; and

WHEREAS, in response, the applicant submitted amended statement, which provides further information regarding surrounding uses, including immediately adjacent uses, which are all commercial in nature; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to

the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action discussed in the CEQR Checklist No. 14BSA108Q, dated February 3, 2014; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site within a C2-4 (R6A) zoning district, the operation of a PCE on the second and third stories of a new three-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received May 14, 2014” Five (5) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on September 23, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT all sound attenuation measures proposed will be installed, maintained and reflected on the Board approved plans;

THAT accessibility compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, September 23, 2014.

CEQR #14-BSA-167M

APPLICANT – Fried Frank Harris Shriver & Jacobson LLP, for 855 MRU LLC., owner.

SUBJECT – Application June 3, 2014 – Special Permit (§73-36) to allow the operation of physical culture establishment in portion of the cellar and first floor of the existing building. C6-4X and M1-6 zoning district.

PREMISES AFFECTED – 855 Avenue of the Americas, between 30th Street and 31st Street, Block 806, Lot 34, Borough of Manhattan.

COMMUNITY BOARD #5M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Commissioner Hinkson, Commissioner Ottley-Brown and Commissioner Montanez. 4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated May 21, 2014, acting on DOB Application No. 121331102, reads, in pertinent part:

Proposed physical culture establishment is not permitted as of right in an M1-6 or C6-4X district, per ZR 32-10 and 42-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site partially within a C6-4X zoning district and partially within an M1-6 zoning district, the operation of a physical culture establishment (“PCE”) in portions of the cellar and first story of a 41-story mixed residential and commercial building, contrary to ZR §§ 32-10 and 42-10; and

WHEREAS, a public hearing was held on this application on September 9, 2014, after due notice by publication in the *City Record*, and then to decision on September 23, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and\

WHEREAS, Community Board 5, Manhattan, recommends approval of this application; and

WHEREAS, the subject site spans the western side of Avenue of the Americas between West 30th Street and West 31st Street, partially within a C6-4X zoning district and partially within an M1-6 zoning district; and

WHEREAS, the site has approximately 204 feet of frontage along West 31st Street, approximately 198 feet of frontage along Avenue of the Americas, approximately 189 feet of frontage along West 30th Street, and approximately 39,760 sq. ft. of lot area; and

WHEREAS, under construction at the site is a 41-story mixed residential and commercial building; and

WHEREAS, the proposed PCE will occupy 15,931 sq. ft. of floor space in the cellar and 3,711 sq. ft. of floor area on

the first story, for a total PCE size of 19,702 sq. ft.; and

WHEREAS, the hours of operation for the PCE will be Monday through Friday, 5:30 a.m. to 11:00 p.m. and Saturday and Sunday, from 7:00 a.m. to 9:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action discussed in the CEQR Checklist No. 14-BSA-167M, dated June 3, 2014 ; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site partially within a C6-4X zoning district and partially within an M1-6 zoning district, the operation of a PCE in portions of the cellar and first story of a 41-story mixed residential and commercial building, contrary to ZR §§ 32-10 and 42-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received June 3, 2014 – four (4) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on September 23, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT all sound attenuation measures proposed will be installed, maintained and reflected on the Board approved plans;

THAT accessibility compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or

MINUTES

maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

CORRECTION

This resolution adopted on September 16, 2014, under Calendar No. 88-92-BZ and printed in Volume 99, Bulletin No. 38, is hereby corrected to read as follows:

88-92-BZ

APPLICANT – Kenneth H. Koons, for 3007 Enterprise Ink., owner.

SUBJECT – Application March 12, 2014 – Extension of Term (§11-411) of an approved variance for an existing diner, which will expire on June 28, 2014. R4-1 zoning district.

PREMISES AFFECTED – 3007 East Tremont Avenue, northeast corner of Ericson Place, Block 5381, Lot 38, Borough of Bronx.

COMMUNITY BOARD #10BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Vice-Commissioner Hinkson, Commissioner Ottley-Brown and Commissioner Montanez3

Negative:.....0

Abstain: Chair Perlmutter.....1

THE RESOLUTION –

WHEREAS, this is an application for a re-opening and an extension of term for a variance permitting an eating and drinking establishment (Use Group 6) in an R4-1 zoning district, which expired on June 28, 2014; and

WHEREAS, a public hearing was held on this application on July 15, 2014, after due notice by publication in *The City Record*, and then to decision on September 16, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Montanez; and

WHEREAS, Community Board 10, Bronx, recommends approval of this application; and

WHEREAS, the subject site is located northeast corner of the intersection of Ericson Place and East Tremont Avenue, within an R4-1 zoning district; and

WHEREAS, the Board has exercised jurisdiction over the site since January 12, 1954, when, under BSA Cal. No. 247-35-BZ, the Board granted an application to permit, in a residence district, the operation of an eating and drinking establishment, contrary to the use regulations of the 1916 Zoning Resolution; under the original grant, the Board limited to the use to a term of 15 years; and

WHEREAS, the 1954 grant was amended and extended at various times over the years; and

WHEREAS, on July 26, 1994, under the subject calendar number, the Board granted an application pursuant to ZR §§ 11-411 and 11-412 to permit a one-story enlargement to the eating and drinking establishment, for a term of ten years, to expire on June 28, 2004; and

WHEREAS, most recently, on October 19, 2004, the Board extended the term of the grant for an additional ten

years, to expire on June 28, 2014; and

WHEREAS, therefore, the applicant now seeks an additional extension of term; and

WHEREAS, pursuant to ZR § 11-411, the Board may, in appropriate cases, allow an extension of the term of a pre-1961 variance; and

WHEREAS, at hearing, the Board expressed directed the applicant to: (1) verify whether the partially-enclosed portion of the building is included in floor area; and (2) restripe the parking lot; and

WHEREAS, in response, the applicant: (1) indicated that the partially-enclosed area was not included in floor area; and (2) submitted a photograph depicting the restriped parking lot; and

WHEREAS, the Board has determined that the evidence in the record supports the finding required to be made under ZR § 11-411.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated July 26, 1994, so that as amended the resolution reads: “to permit the extension of the term of the variance for an additional ten years from June 28, 2014, expiring on June 28, 2024; on condition on condition that all work will substantially conform to drawings, filed with this application marked ‘Received August 4, 2014’– (1) sheet and ‘March 12, 2014’-(4) sheets; and on further condition:

THAT the term of the variance will expire on June 28, 2024;

THAT the premises will be maintained free of debris and graffiti;

THAT any graffiti located on the premises will be removed within 48 hours;

THAT the above conditions will appear on the certificate of occupancy;

THAT all conditions from prior resolution(s) not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s) only; and

Adopted by the Board of Standards and Appeals, September 16, 2014.

The resolution has been amended to correct the plans date which read: ‘Received March 12, 2014’-(3) sheets and ‘August 4, 2014’– (1) sheet ...now reads: ‘Received August 4, 2014’– (1) sheet and ‘March 12, 2014’-(4) sheets. Corrected in Bulletin No. 39, Vol. 99, dated October 1, 2014.

CORRECTION

This resolution adopted on October 29, 2013, under Calendar No. 163-04-BZ and printed in Volume 98, Bulletin No. 44, is hereby corrected to read as follows:

163-04-BZ

APPLICANT – Rothkrug Rothkrug & Spector LLP, for Mylaw Realty Corporation, owner; Crunch Fitness, lessee. SUBJECT – Application July 26, 2013 – Extension of time to obtain a certificate of occupancy for a previously granted physical culture establishment (*Crunch Fitness*) which expired on July 17, 2013. C2-4/R7A zoning district.

PREMISES AFFECTED – 671/99 Fulton Street, northwest corner of intersection of Fulton Street and S. Felix Street, Block 2096, Lot 66, 99, Borough of Brooklyn.

COMMUNITY BOARD #2BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of time to obtain certificates of occupancy, which expired on July 17, 2013; and

WHEREAS, a public hearing was held on this application on October 8, 2013, after due notice by publication in *The City Record*, and then to decision on October 29, 2013; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Montanez; and

WHEREAS, the subject site is located on the northwest corner of Fulton Street and St. Felix Street and is located within a C2-4 (R7A) zoning district; and

WHEREAS, the site is occupied by a two-story commercial building at 677-691 Fulton Street (Lot 69) and an adjacent one-story commercial building at 693-699 Fulton Street (Lot 66); and

WHEREAS, the PCE occupies a portion of the first floor of both buildings and the cellar of the two-story building; and

WHEREAS, on July 12, 2005, under the subject calendar number, the Board granted a special permit pursuant to ZR § 73-36, to permit the operation of the PCE within a portion of the existing two-story building for a term of ten years to expire on July 12, 2015; and

WHEREAS, on April 24, 2007, the Board granted an amendment to permit the enlargement of the first floor by adding 2,775 sq. ft. of floor area on the first floor within the adjacent one-story building, and to extend the hours of operation to 24 hours, daily; and

WHEREAS, pursuant to the April 24, 2007 grant, substantial construction was to be completed by April 24,

2011, in accordance with ZR § 73-70; and

WHEREAS, the applicant states that subsequent to the April 24, 2007 grant, the permit applications related to the PCE underwent a series of audits and the applicant experienced disputes with its contractors, which delayed the completion of construction and the issuance of the certificates of occupancy; and

WHEREAS, accordingly, on July 17, 2012, the applicant sought and the Board granted an one-year extension of time to obtain certificates of occupancy, to expire on July 17, 2013; and

WHEREAS, the applicant now requests an additional extension of time to obtain certificates of occupancy; and

WHEREAS, the applicant states that, although work is substantially completed, certificates of occupancy have not been obtained (despite the resolution of the audits) because the buildings have open Department of Buildings and Environmental Control Board violations; and

WHEREAS, the applicant represents that the requested extension of time will enable to the applicant to resolve the open violations related to the PCE and obtain certificates of occupancy; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time is appropriate, with the conditions set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens*, and *amends* the resolution, dated July 12, 2005, so that as amended the resolution shall read: “to grant an extension of time to obtain certificates of occupancy for one year from the date of this resolution, to expire on October 29, 2014; *on condition* that the use and operation of the PCE shall substantially conform to BSA-approved plans associated with the prior grant; and *on further condition*:

THAT there will be no change in ownership or operating control of the PCE without prior approval from the Board;

THAT all massages must be performed only by New York State licensed massage professionals;

THAT the above conditions will appear on the Certificates of Occupancy;

THAT certificates of occupancy must be obtained by October 29, 2014;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB Application Nos. 301441296 and 302207403)

Adopted by the Board of Standards and Appeals, October 29, 2013.

822-59-BZ

APPLICANT – Eric Palatnik, P.C., for Bolla EM Realty, LLC., owner.

SUBJECT – Application January 9, 2014 – Amendment (§11-412) to convert existing automotive service bays into an accessory convenience store and enlarge the accessory building at an existing gasoline service station. C2-1/R3-2 zoning district.

PREMISES AFFECTED – 1774 Victory Boulevard, southwest corner of Victory Boulevard and Manor Road, Block 709, Lot 28, Borough of Staten Island.

COMMUNITY BOARD #1SI

ACTION OF THE BOARD – Laid over to November 18, 2014, at 10 A.M., for continued hearing.

964-87-BZ

APPLICANT – Eric Palatnik, P.C., for Leemilt Petroleum, Ink., owner; Lotus Management Group II, LLC, lessee.

SUBJECT – Application April 21, 2014 – Amendment to a previously approved Variance for the operation of an Automotive Service Station (UG 16B), with accessory uses.

The Amendment seeks to convert a portion of a service bay to an accessory convenience store; Extension of Time to obtain a Certificate of Occupancy which expired on May 10, 2012; Waiver of the Rules. C1-3/R6 zoning district.

PREMISES AFFECTED – 786 Burke Avenue, aka 780-798 Burke Avenue, Block 4571, Lot 28, Borough of Bronx.

COMMUNITY BOARD #12B

ACTION OF THE BOARD – Laid over to November 18, 2014, at 10 A.M., for continued hearing.

203-92-BZ

APPLICANT – Jeffrey Chester, Esq., for Mowry Realty Associates LLC., The Fitness Place Forest Hills NY Ink., lessee.

SUBJECT – Application March 28, 2014 – Extension of Term of a previously approved Special Permit (§73-36) for the continued operation of a Physical Culture Establishment (*Lucille Roberts Gym*), which expired on March 1, 2014. C2-3(in R5D) zoning district.

PREMISES AFFECTED – 70-20 Austin Street, south side of Austin Street between 70th Avenue and 70th Road, Block 3234, Lot 173, Borough of Queens.

COMMUNITY BOARD #6Q

ACTION OF THE BOARD – Laid over to November 18, 2014, at 10 A.M., for continued hearing.

302-01-BZ

APPLICANT – Deirdre A. Carson, Esq. for Creston Avenue Realty LLC, owner.

SUBJECT – Application May 28, 2014 – Extension of Time to obtain a Certificate of Occupancy of a previously granted variance (§72-21) for the continued operation of a parking facility accessory to commercial use which expired on December 11, 2013. R8 zoning district.

PREMISES AFFECTED – 2519-2525 Creston Avenue, West side of Creston Avenue between East 190th and East 191st Streets. Block 3175, Lot 26, Borough of Bronx.

COMMUNITY BOARD #7BX

ACTION OF THE BOARD – Laid over to October 21, 2014, at 10 A.M., for deferred decision.

152-07-BZ

APPLICANT – Eric Palatnik, P.C., for Joseph Dweck, owner.

SUBJECT – Application December 31, 2013 – Extension of Term of a previously granted Special Permit (§73-36) for the continued use of a physical culture establishment (*Dolphin*) on the second floor of a two-story commercial building which expired on January 1, 2013; Extension of Time to obtain a Certificate of Occupancy which expired on February 5, 2009; Waiver of the Rules. C4-2A zoning district.

PREMISES AFFECTED – 8701 4th Avenue, southwest corner of 4th Avenue and 87th Street, Block 6050, Lot 10, Borough of Brooklyn.

COMMUNITY BOARD #10BK

ACTION OF THE BOARD – Laid over to October 21, 2014, at 10 A.M., for deferred decision.

159-07-BZ

APPLICANT – Eric Palatnik, P.C., for Stillwell Sports Center INK., owner.

SUBJECT – Application April 21, 2014 – Extension of Term of a previously approved Special Permit (§73-36) which allowed a physical cultural establishment (*Stillwell Sports Center*); Amendment to permit minor alterations; Extension of Time to obtain a Certificate of Occupancy which expired on January 1, 2012; Waiver of the Rules. C8-2 zoning district.

PREMISES AFFECTED – 2402 86th Street, south Coroner of 86th Street and 24th Avenue, Block 6864, Lot 37, Borough of Brooklyn.

APPEALS CALENDAR

19-12-A

APPLICANT – Law Offices of Marvin B Mitzner, LLC., for 38-30 28th Street, LLC., owner.

SUBJECT – Application May 9, 2014 – Application for an extension of time to complete construction of the building and obtain a Certificate of Occupancy on a previously approved grant granted common law vested right of complete construction and permitting in an M1-3 zoning district. M1-2/R5B (LIC) zoning district.

PREMISES AFFECTED – 38-30 28th Street, west side of 28th Street between 38th and 39th Avenues, Block 386, Lot 27, Borough of Queens.

COMMUNITY BOARD #1Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez.4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for an extension of time to complete construction and obtain a certificate of occupancy for an eight-story hotel building at the subject site; and

WHEREAS, a public hearing was held on this application on September 16, 2014, after due notice by publication in *The City Record*, and then to decision on October 7, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the west side of 28th Street, between 38th Avenue and 39th Avenue; and

WHEREAS, the site has 25 feet of frontage along 28th Avenue and 2,450 sq. ft. of lot area; and

WHEREAS, the applicant proposes to develop the site with an eight-story, 16-room hotel building with 12,250 sq. ft. of floor area (the “Building”); and

WHEREAS, the site was formerly located within an M1-3D zoning district; and

WHEREAS, the applicant states, on July 16, 2007, the Department of Buildings (“DOB”) issued Alteration Permit No. 402232534-01-AL (the “Alteration Permit”) authorizing construction of the Building in accordance with the M1-3D zoning district regulations; and

WHEREAS, on October 7, 2008, (the “Enactment Date”), the City Council voted to adopt the Dutch Kills Rezoning, which rezoned the site from M1-3D to M1-2/R5B, within the Special Long Island City District; and

WHEREAS, the applicant states that as of October 7,

2008, the Alteration Permit had been obtained and 100 percent of the foundation had been completed; as such, per ZR § 11-331, the right to continue construction vested and the applicant had until October 7, 2010 to complete construction and obtain a certificate of occupancy; however, as of that date, construction had not been completed and a certificate of occupancy had not been obtained and within 30 days after that date, an application to the Board to extend the time to complete construction pursuant to ZR § 11-332 had not been filed; and

WHEREAS, accordingly, under the subject calendar number, the applicant sought a common law vested right to continue construction under the M1-3D regulations; and

WHEREAS, the applicant notes that in connection with the prior application, by letter dated February 29, 2012, DOB indicated that the Alteration Permit was lawfully issued, authorizing construction of the Building prior to the Rezoning Date; and

WHEREAS, on June 5, 2012, the Board adopted a resolution recognizing that a vested right to continue construction under the Alteration Permit had accrued under the common law doctrine of vested rights, and the Board reinstated the Alteration Permit for a term of two years, to expire on June 5, 2014; and

WHEREAS, the applicant represents that, as of June 5, 2014, construction has not been completed and a certificate of occupancy has not been issued for the Building; and

WHEREAS, thus, the applicant now seeks an additional two-year term in which to complete construction and obtain a certificate of occupancy; and

WHEREAS, the applicant notes that, subsequent to the 2012 grant and prior to the June 5, 2014 expiration of the permits, the following work was performed: installation and inspection of the elevator, installation of the marquee, completion of stucco on the north and south elevations, completion of masonry on front and rear elevations, installation and testing of the sprinkler system, installation of roof drains and storm lines, completion of waste lines, vents and plumbing roughing for bathrooms, completion of window sills, windows and doors throughout the building, completed rough carpentry on metal studs on all stories, installation of first story granite, installation of trash chutes on all stories and installation of sheetrock from second story to bulkhead; and

WHEREAS, the applicant states that it has expended a total of \$3,719,567 to date, which represents 78 percent of the total costs to complete the Building; and

WHEREAS, at hearing, the Board directed the applicant to: (1) provide an updated commitment letter for the construction loan; and (2) provide a status update on Department of Environmental Protection (“DEP”) approval for the backflow preventer ; and

WHEREAS, in response, the applicant states that it will not be able to obtain a commitment letter until after the requested extension of time is granted; and

WHEREAS, as to DEP approval for the backflow preventer, the applicant states that approval is imminent; and

WHEREAS, the Board has reviewed the evidence in the

MINUTES

record and determined that the requested extension of time is warranted; and

WHEREAS, accordingly, the Board hereby grants the owner of the site a two-year extension of time to complete construction and obtain a certificate of occupancy.

Therefore it is Resolved, that this application to renew Alteration Permit No. 402232534-01-AL, as well as all related permits for various work types, either already issued or necessary to complete construction, is granted, and the Board hereby extends the time to complete construction and obtain a certificate of occupancy for two years from the date of this resolution, to expire on October 7, 2016, subject to the following condition:

THAT DEP approval for the backflow preventer is obtained prior to DOB's issuance of the Alteration Permit;

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 7, 2014.

106-14-A

APPLICANT – Greenberg Traurig, LLP., for 84 William Street Property Owner LLC.

SUBJECT – Application May 22, 2014 – Appeals filed pursuant to MDL Section 310(2) (c) for variance of court requirements under MDL Sections 26 (7) & 30 for the construction of residential apartments to an existing building. C5-5 (LM) zoning district.

PREMISES AFFECTED – 84 William Street, northeast corner of the intersection of William Street and Maiden Lane, Block 68, Lot 16, Borough of Manhattan.

CEQR #13-BSA-049M

APPLICANT – Davidoff Hutcher & Citron LLP, for Columbia Grammar & Preparatory School, owner.

SUBJECT – Application October 19, 2012 – Variance (§72-21) to permit an enlargement of an existing school building (*Columbia Grammar and Preparatory*), contrary to lot coverage (§24-11), permitted obstruction (§24-33), rear yard equivalent (§24-332), initial setback distance (§24-522), height (§23-692), and side yard (§24-35(b)) regulations. R7-2 zoning district.

PREMISES AFFECTED – 36 West 93rd Street aka 33 West 92nd Street, between Central Park West and Columbus Avenue, Block 1206, Lot 50, Borough of Manhattan.

COMMUNITY BOARD #7M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez.4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated July 1, 2013, acting on Department of Buildings Application No. 121161857, reads in pertinent part:

1. ZR 24-11 - The lot coverage proposed exceeds that permitted.
2. ZR 24-382 - Provide the required minimum rear yard equivalent. The project site is a through lot, with a depth in excess of 180'-0".
3. ZR 24-33 - Only a (1) one story building portion, with a maximum height of 23'-0", is allowed as a permitted obstruction in a rear yard equivalent. The proposed building envelope indicates two stories and a mechanical space in the rear yard equivalent.
4. ZR 24-522 - The building envelope does [not] meet the initial setback requirement.
5. ZR 23-692 - The frontage on 92nd Street is less than 45'-0" in width. The proposed street-wall is higher than the width of the narrow street and higher than the lowest abutting building.
6. ZR 24-35B The proposed side yard, at the new vertical extension, is less than the required 8'-0"; and

MINUTES

WHEREAS, this is an application under ZR § 72-21, to permit, on a site within an R7-2 zoning district within the Upper West Side/Central Park West Historic District, the enlargement of an existing school building, which does not comply with zoning regulations for lot coverage, permitted obstruction, rear yard equivalent, encroachment into the required initial setback distance, width and height of street wall, and side yard, contrary to ZR §§ 24-11, 24-382, 24-33, 24-522, 23-692, and 24-35; and

WHEREAS, a public hearing was held on this application on June 17, 2014, after due notice by publication in the *City Record*, with a continued hearing on August 19, 2014, and then to decision on October 7, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 7, Manhattan, recommends disapproval of the application; and

WHEREAS, certain members of the community testified at the hearing and provided testimony in opposition to the application (collectively, the “Opposition”), citing primary concerns about traffic generated by the school and construction disturbance; other concerns from a shareholder at 36 West 93rd Street include that there are inconsistencies between the subject application and a 2008 variance application for the School, specifically as related to the School’s needs; and

WHEREAS, certain members of the community, the West Side Organization for Responsible Development (“WORD”), represented by counsel, cited concerns about traffic associated with the school and construction disturbance and requested the following conditions for any approval: (1) the School continue to work with the community to address traffic concerns and provide a written traffic plan; (2) the School provide a traffic, noise, and pollution baseline report prior to the Board’s decision; (3) the School commit to not increasing enrollment by more than 30 students over the next ten years; (4) the School ensure that all construction is performed during the summer, and only on weekdays between the 9:00 a.m. and 5:00 p.m.; (5) the School provide the Board with a site logistics plan and construction calendar prior to a final resolution; (6) the rooftop not be used as a play area; and (7) that the community be consulted prior to installation of the rooftop HVAC systems, which must include sufficient sound mitigation; and

WHEREAS, this application is brought on behalf of Columbia Grammar & Preparatory School (the “School”), a nonprofit educational institution founded in 1764, which serves students from grades pre-kindergarten through 12; and

WHEREAS, the subject site is an interior through lot with frontage on West 93rd Street and West 92nd Street between Central Park West and Columbus Avenue, within an R7-2 zoning district within the Upper West Side/Central Park West Historic District; and

WHEREAS, the site is currently occupied by a five-story building with a sub-cellar and cellar constructed in 1996;

the building includes 13 classrooms and ancillary facilities for students in grades 5 and 6, 12 high school classrooms, and several shared spaces, including two dining areas and four art studios/technology classrooms; and

WHEREAS, the applicant notes that the School also occupies several other buildings in the vicinity: the lower division (pre-kindergarten through grade 4) occupies five interconnected brownstones on West 94th Street and 5 West 93rd Street, directly behind the brownstones; and the upper division (grades 7 through 12) occupies 4 West 93rd Street; and

WHEREAS, the School proposes to (1) build out an existing setback area at the West 92nd Street frontage at existing floors three and four; (2) build out an existing setback area at the West 93rd Street frontage at the existing fifth floor; and (3) add two new floors so that, upon completion, the building will consist of a sub-cellar, cellar and seven floors above grade; and

WHEREAS, the enlarged building will include ten additional middle school classrooms for a total of 23 classrooms, an additional art/technology studio and a library for the middle school, in addition to new space for faculty and administration offices; and

WHEREAS, while certain portions of the enlarged building will still be used by high school students (the cellar/first floor level will be occupied by high school classrooms and dining, half of the second floor will be high school classrooms and the third floor will contain shared art studios and technology classrooms), the number of high school classrooms will be reduced from 12 to eight and upper floors four through seven will be occupied solely by the middle school; and

WHEREAS, the applicant proposes to increase the building height from 68 feet to 95 feet, excluding rooftop bulkheads and mechanical space; increase the floor area from 28,187 sq. ft. (3.37 FAR) to 40,778 sq. ft. (4.88 FAR) (54,301 sq. ft. (6.50 FAR) is the maximum permitted); and

WHEREAS, because the enlargement does not comply with the applicable bulk regulations in the subject zoning district, the applicant seeks the requested variance; and

WHEREAS, the applicant states that the variance is necessary to meet the School’s programmatic need to create a self-contained middle school and alleviate overcrowding in the high school building; and

WHEREAS, specifically, the applicant notes that the relocation of the seventh graders to the new building will free up space at the high school building; and

WHEREAS, the School also proposes to increase enrollment by 30 students which is still substantially below the demand for new admissions; and

WHEREAS, the applicant states that the proposed enlargement would result in 151 sq. ft. of space per student compared to the average new middle school in the region which provides 178.3 sq. ft. per student and 216.7 sq. ft. per high school student; and

WHEREAS, the applicant states that the proposed floor area to be added to the existing building is required to fulfill

MINUTES

the School's longstanding goal of having a self-contained middle division consisting of grades five through seven; and

WHEREAS, the applicant asserts that the existing building is too small to accommodate the organization of the school with lower, middle and upper divisions, as it was not designed to accommodate the necessary classrooms and ancillary space needed for a middle division; and

WHEREAS, the applicant asserts that the School is one of the last public or private schools in New York City with grades pre-kindergarten through 12 that does not have a separate middle school; and

WHEREAS, the applicant asserts that in the years since the School's facilities were developed, educators have come to recognize the benefits of grouping grades kindergarten through 12 into lower, middle and upper schools; and

WHEREAS, however, the applicant states that the School's space limitations have required it to maintain grades five and six in the existing building at the subject site as the final two years of its grammar school division and to house grade seven in its high school building; and

WHEREAS, the applicant notes that the proposed floor area is significantly less than the maximum allowed for the underlying zoning district; and

WHEREAS, the applicant asserts that the proposed encroachment into the existing rear yard equivalent (above the 23-ft. height for a permitted obstruction), combined with the build-out of the existing setback on West 93rd Street and the two additional floors above the West 92nd Street portion of the building, allows the school to create a rational design for the additional classrooms and ancillary facilities while minimizing the proposed height of the enlarged building to seven stories; and

WHEREAS, the applicant asserts that practical difficulties arise in complying strictly with the underlying bulk regulations; and

WHEREAS, additionally, the applicant asserts that the unique features affecting the site include (1) the lot's narrowness and odd shape with its varying frontages on West 92nd Street and West 93rd Street and (2) the existing building's unique footprint, configuration and structural support system; and

WHEREAS, as to the lot size and shape, the applicant notes that it has 45 feet of frontage along West 93rd Street and widens by approximately five feet at its eastern property line, then narrows at the midblock, and the property line runs slightly diagonal towards West 92nd Street where it has frontage of 35 feet; and

WHEREAS, further, the applicant states that the footprint of the existing under-built building reflects the inability to use space that would have been available in a more typical square-shaped lot; and

WHEREAS, the applicant states that the existing building's constraints require that the enlargement be constructed within the required setback area along West 93rd Street and within the rear yard equivalent, as well as above the 23-ft. tall portion of the building along West 92nd Street, thereby exceeding the maximum permitted lot coverage; and

WHEREAS, the applicant notes that the required sky exposure plane would be encroached into by 7'-7" along the West 93rd Street façade at the fifth and sixth floors due to the inclusion of a middle school library at the fifth floor and two new classrooms at the sixth floor; and

WHEREAS, the applicant asserts that if the street wall on West 93rd Street were to set back to comply with the 7'-7" sky exposure plane encroachment, it would effectively eliminate the proposed rooms because their depth would be too narrow (with the presence of the existing elevator and stairwell); and

WHEREAS, the applicant asserts that the proposed location of the majority of the additional proposed floor area along West 93rd Street is driven in part by the existing building's structural support system; the applicant's architect and engineer state that the load capacity for the addition along West 93rd Street is designed to be distributed across both building sections to be supported by the building's existing column and foundation support system; and

WHEREAS, the applicant represents that its development team reviewed the possibility of shifting the proposed floor area from the West 93rd Street portion of the building to the West 92nd Street frontage, and determined that the existing transfer beams in the West 92nd Street portion of the building are already very close to their allowable stress level; and

WHEREAS, further, the applicant states that the relocation of the floor area is programmatically problematic since the building narrows along West 92nd Street, which does not accommodate sufficiently-sized classrooms; and

WHEREAS, finally, the applicant states that a major piece of mechanical equipment must be located in the proposed fourth floor addition, and its required air intake and discharge would be directed toward the "open" area on that floor; and

WHEREAS, accordingly, the applicant states that the propose enlargement most effectively meets the School's programmatic needs; and

WHEREAS, the Board acknowledges that the School, as an educational institution, is entitled to significant deference under the law of the State of New York as to zoning and as to its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in Cornell Univ. v. Bagnardi, 68 N.Y.2d 583 (1986), an educational institution's application is to be permitted unless it can be shown to have an adverse effect upon the health, safety, or welfare of the community, and general concerns about traffic, and disruption of the residential character of a neighborhood are insufficient grounds for the denial of an application; and

WHEREAS, based upon the above, the Board finds that the programmatic needs of the School along with the existing constraints of the site create unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, since the School is a non-profit institution and the variance is needed to further its non-profit mission,

MINUTES

the finding set forth at ZR § 72-21(b) does not have to be made in order to grant the variance requested in this application; and

WHEREAS, the applicant represents that the variance, if granted, will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the site is located within the West Side Urban Renewal Area and the existing building was limited, in 1996, by the then-applicable West Side Urban Renewal Plan controls affecting the site, which were more restrictive than the applicable zoning bulk regulations (the West Side Urban Renewal Plan was established in 1962 and expired in 2002); and

WHEREAS, because the site is within the Upper West Side/Central Park West Historic District, the applicant has obtained a Certificate of Appropriateness from the Landmarks Preservation Commission (“LPC”), dated September 18, 2013 and amended January 14, 2014; and

WHEREAS, the applicant cites to LPC’s designation report which states that the area’s residential buildings range from three-, four-, and five-story row houses, to twelve- to seventeen-story multiple dwellings and also include eight- to twelve-story apartment hotels and studio buildings that are on both the avenues as well as streets; and

WHEREAS, additionally, the applicant cites to LPC’s recognition that the Upper West Side is characterized by a variety of institutional buildings intended to meet the social, educational, and religious needs of neighborhood residents; and

WHEREAS, the applicant also cites to the Certificate of Appropriateness which states that “...the proposed additions will not cause damage to [the] historic fabric or any significant historic features of the district; that the construction of rooftop additions on this through-lot building will result in an overall building height that relates to the taller surrounding buildings; that the geometry of the addition, which raises the street wall two floors on West 93rd Street with set-back addition and two floors on West 92nd Street, will be compatible with the massing of other institutional buildings in this historic district...”; and

WHEREAS, the applicant asserts that the height and bulk of the proposed enlarged school building will be in context with the nearby buildings on the north and south sides of both West 92nd Street and West 93rd Street; and

WHEREAS, specifically, the applicant cites to 50 West 93rd Street to the west, which is eight stories, and 70 West 93rd Street, which is 31 stories; to the east of the high school building is 2 West 93rd Street with 16 stories and 325 Central Park West with 16 stories; and on the north side of West 92nd Street there are One West 92nd Street with 15 stories, 7 West 92nd Street with seven stories, 35 West 92nd Street, with 13 stories, and 73 West 92nd Street with 31 stories; on the north side of West 93rd Street to the west there is 37 West 93rd Street with eight stories and 689 Columbus Avenue with 16 stories; and to the east on the north side of West 93rd Street, 333

Central Park West with 12 stories; and

WHEREAS, in response to concerns raised by the Community Board regarding the potential impact on the light and air to the immediately adjacent buildings along West 92nd Street, the proposed fourth floor (which contains mechanical equipment) has been reduced in depth to be located closer to West 92nd Street, and the proposed third floor roof has been sloped along the sides to allow additional light and air to the adjacent neighbors; and

WHEREAS, in response to the Opposition’s concerns, the applicant asserts first that the traffic concerns associated with the School exist now and will not be exacerbated by the proposed enlargement of the building; and

WHEREAS, the applicant represents that its traffic consultant is conducting additional field observations and will develop additional recommendations to address the traffic concerns including whether it would be helpful to install a red light camera and left turn traffic signal at West 93rd Street and Central Park West or closing West 93rd Street to traffic during peak times; and

WHEREAS, the School states that it is committed to developing a comprehensive traffic plan for review and comment from the community and agrees to continue to work with the community to try to resolve existing traffic issues; the School commits to participating in a working group with representatives from WORD to ensure safe traffic and pedestrian conditions; and

WHEREAS, the applicant states that it considered several other suggestions which it concluded were not feasible such as student drop-off on Columbus Avenue, including staggered drop-off and pick-up times, student shuttles from offsite, and drop-off on West 92nd Street; and

WHEREAS, in response to the Opposition’s proposed conditions, the School states that (1) it will establish a traffic plan in consultation with WORD, with whom it will meet on an ongoing basis to focus on traffic concerns and that it will coordinate with the Department of Transportation; (2) it has complied fully with CEQR requirements and that noise, traffic, and air quality analyses were not triggered by the proposal; (3) it proposes to add 30 students, but will not agree to cap enrollment; (4) it will strive to complete construction during the summer, only on weekdays and during business hours but notes the possibility of unforeseen delays which may require additional time; (5) it cannot produce a site logistics plan and construction calendar at this point in the process; (6) it does plan to use the sixth-floor rooftop for a play area but will fence and buffer it as well as limit the hours to school hours not to be later than 5:00 p.m.; and (7) the rooftop mechanicals will occupy the fourth-floor roof and will include an acoustical enclosure, all of which is subject to LPC approval; and

WHEREAS, finally, as to the Opposition’s concerns about inconsistencies between the subject application and the 2008 variance application, the applicant states that numerous circumstances have changed since the 2008 application, which should be viewed independently from the subject application and that all current and prior claims were

MINUTES

credible, based on the respective circumstances; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that the hardship was not self-created, and that no development that would meet the programmatic needs of the School could occur given the existing conditions of the North Building and the South Building; and

WHEREAS, accordingly, the Board finds that the hardship herein was not created by the owner; and

WHEREAS, the applicant represents that the requested waivers are the minimum necessary to accommodate the School's current and projected programmatic needs; and

WHEREAS, as noted, the applicant revised the plans to provide additional setback and slope at the fourth and third floor, respectively; and

WHEREAS, the Board finds that the requested relief is the minimum necessary to allow the School to fulfill its programmatic needs; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, 13BSA049M dated October 12, 2012; and

WHEREAS, the EAS documents that the operation of the School would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Type I Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, on a site within an R7-2 zoning district within the Upper West

Side/Central Park West Historic District, the enlargement of an existing school building, which does not comply with zoning regulations for lot coverage, permitted obstruction, rear yard equivalent, encroachment into the required initial setback distance, width and height of street wall, and side yard, contrary to ZR §§ 24-11, 24-382, 24-33, 24-522, 23-692, and 24-35, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received October 3, 2014" – fourteen (14) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a floor area of 40,778 sq. ft. (4.88 FAR) and total height of 95 feet, exclusive of bulkheads, as illustrated on the BSA-approved plans;

THAT the School will establish a traffic plan to improve traffic flow at the site, in a timely manner; measures, in consultation with the community working group, may include a red light camera and left turn traffic signal, among other measures;

THAT fencing and buffering will be installed around the sixth-floor rooftop play area, which will have hours not to exceed school hours and no use after 5:00 p.m.;

THAT the use of the fourth-floor rooftop will be limited to mechanical systems accessible for maintenance/service-related work, will comply with all Noise Code requirements, and will include an acoustical enclosure for the generator;

THAT any change in the use, occupancy, or operator of the School requires review and approval by the Board;

THAT construction will proceed in accordance with ZR § 72-23;

THAT all construction will be in conformance with the LPC Certificate of Appropriateness, dated September 18, 2013 and amended January 14, 2014;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 7, 2014.

MINUTES

Calyer Street, north side of Calyer Street, 25' west of Manhattan Avenue, Block 2573, Lot 17, Borough of Brooklyn.

COMMUNITY BOARD #1BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez.4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated March 27, 2014, acting on DOB Application No. 320903572, reads, in pertinent part:

Proposed physical culture or health establishment is not a use permitted as of right; contrary to ZR 32-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C4-3A zoning district, within the Greenpoint Historic District, the operation of a physical culture establishment (“PCE”) in the cellar and first story of a one-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on August 19, 2014, after due notice by publication in the *City Record*, and then to decision on October 7, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Montanez; and

WHEREAS, Community Board 1, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is a flag lot with 25 feet of frontage along Manhattan Avenue and 79 feet of frontage along Calyer Street; and

WHEREAS, the site has 10,400 sq. ft. of lot area and is located within a C4-3A zoning district, within the Greenpoint Historic District; and

WHEREAS, the site is occupied by a one-story commercial building with 10,400 sq. ft. of floor area (1.0 FAR); and

WHEREAS, the proposed PCE will occupy the entire building, including 10,400 sq. ft. of floor space in the cellar, for a total PCE size of 20,800 sq. ft.; and

WHEREAS, the PCE will be operated as Crunch; and

WHEREAS, the hours of operation for the PCE will be Monday through Saturday, from 5:30 a.m. to 11:00 p.m. and Sunday, from 7:00 a.m. to 9:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, the Landmarks Preservation Commission has approved the proposed alterations of the building by Certificate of No Effect, dated September 24, 2014; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action discussed in the CEQR Checklist No. 14BSA131K dated April 1, 2014; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site within a C4-3A zoning district, within the Greenpoint Historic District, the operation of a PCE in the cellar and first story of a one-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received June 16, 2014” (4) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on October 7, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT all sound attenuation measures proposed will be installed, maintained and reflected on the Board approved plans;

THAT accessibility compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by October 7, 2015;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved

MINUTES

only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 7, 2014.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez.4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated May 20, 2014, acting on DOB Application No. 121983185, reads, in pertinent part:

ZR 32-10 – Proposed physical culture establishment in C5-3 is not permitted as-of-right; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C5-3 zoning district, within the Special Midtown District, the operation of a physical culture establishment (“PCE”) on the fifth story of an existing six-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on September 23, 2014, after due notice by publication in the *City Record*, and then to decision on October 7, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Vice-Chair Hinkson; and

WHEREAS, Community Board 5, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of Fifth Avenue, between West 48th Street and West 49th Street, within a C5-3 zoning district, within the Special Midtown District; and

WHEREAS, the site has approximately 25 feet of

frontage along Fifth Avenue and 2,500 sq. ft. of lot area; and
WHEREAS, the site is occupied by a six-story commercial building with approximately 13,750 sq. ft. of floor area (3.6 FAR); and

WHEREAS, the proposed PCE will occupy 1,996 sq. ft. of floor area on the fifth story of the building; and

WHEREAS, the PCE will be operated as Chiva-Som Spa; and

WHEREAS, the hours of operation for the PCE will be Monday through Saturday, from 10:00 a.m. to 8:00 p.m. and Sunday, from 11:00 a.m. to 6:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 14-BSA-172M, dated August 4, 2014; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site within a C5-3 zoning district, within the Special Midtown District, the operation of a PCE on the fifth story of an existing six-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received August 4, 2014”- two (2) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on October 7, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

MINUTES

THAT all massages must be performed by New York State licensed massage therapists;

THAT accessibility compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by October 7, 2015;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

SUBJECT – Application June 20, 2014 – Special Permit (§73-19) to allow for a Use Group 3 special education preschool on the second floor of an existing building. M1-4 district.

PREMISES AFFECTED – 1751 Park Avenue, east side of Park Avenue between East 122nd Street and East 121 Street, Block 1770, Lot(s) 72, 4, 3, 2, 1, 101, Borough of Manhattan.

COMMUNITY BOARD #11M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez..4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated June 13, 2014, acting on DOB Application No. 104138443, reads in pertinent part:

Proposed Use Group 3 school is not permitted in an M1-4 zoning district pursuant to ZR Section 42-10; and

WHEREAS, this is an application under ZR §§ 73-19 and 73-03 to permit, on a site in an M1-4 zoning district, the conversion of the second story of an existing four-story mixed

community facility and commercial building to a Use Group 3 daycare, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on September 9, 2014, after due notice by publication in the *City Record*, and reopened on September 23, 2014, and then to decision on October 7, 2014, 2014; and

WHEREAS, the site and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson and Commissioner Ottley-Brown; and

WHEREAS, Community Board 11, Manhattan, recommends approval of this application; and

WHEREAS, this application is brought on behalf of the Children’s Learning Center (the “School”), which operates a pre-school program for children with certain disabilities, including disorders on the autism spectrum; and

WHEREAS, the subject site is located on the northeast corner of the intersection of Park Avenue and 121st Street, within an M1-4 zoning district; and

WHEREAS, the site is a single zoning lot comprising Tax Lots 1, 2, 4, 72, and 101; it has 9,512 sq. ft. of lot area, 127 feet of frontage along Park Avenue, and 75 feet of frontage along 121st Street; and

WHEREAS, the site is occupied by a four-story mixed community facility and commercial building with 38,050 sq. ft. of floor area (4.0 FAR); the applicant represents that a bakery occupies the cellar and first story of the building and a non-profit institution without sleeping accommodations occupies the third and fourth stories; the second story is vacant; and

WHEREAS, the applicant proposes to renovate the second story of the building (approximately 7,649 sq. ft. of floor area (0.8 FAR)) to accommodate the School, which is classified as Use Group 3 daycare; and

WHEREAS, the applicant states that, under the proposal, the second story will serve an estimated 90 children ranging in age from three to five years and approximately 50 employees, and provide related sanitary facilities and administrative offices; and

WHEREAS, in particular, the applicant proposes a total of ten classrooms, a sensory gymnasium, two therapy rooms (speech and occupational), three administrative offices, two small group rooms, and restrooms; and

WHEREAS, the applicant represents that the School seeks to relocate from its current location at 310 West 103rd Street, which is inadequate; and

WHEREAS, the applicant states that the majority of its students live in Manhattan and the Bronx; and

WHEREAS, the applicant notes that the site is subject to a City Planning Commission special permit pursuant to ZR § 74-291, which authorizes occupancy of the third and fourth stories of the building by the Bailey House, a non-profit institution without sleeping accommodations (Use Group 4A); the Bailey House provides certain social services to men, women, and children living with HIV/AIDS, including health care, counseling, support groups, substance abuse treatment, education, job training, and employment assistance; and

MINUTES

WHEREAS, the applicant represents that the proposal meets the requirements of the special permit under ZR § 73-19 to permit a school in an M1-4 zoning district; and

WHEREAS, ZR § 73-19 (a) requires an applicant to demonstrate the inability to obtain a site for the development of a school within the neighborhood to be served and with a size sufficient to meet the programmatic needs of the school within a district where the school is permitted as-of-right; and

WHEREAS, the applicant represents that it conducted a search of nearby residence and commercial districts with the following site criteria: (1) space within an existing building to minimize development costs; (2) a landlord with a willingness to renovate the space; (3) a space with access and lighting sufficient to meet the daycare licensing standards; and (4) proximity to recreation (parks and playgrounds) and public transportation; and

WHEREAS, the applicant states that during its search, it evaluated the feasibility of five buildings within the area and on sites where Use Group 3 is permitted as-of-right: 3560 Broadway; 51-55 East 125th Street; 461 West 126th Street; 4280-4298 Broadway, 2 Bennett Avenue; and 5030 Broadway; and

WHEREAS, the applicant represents that each building was unsuitable for the School, either because the rent was too expensive, the space could not be configured to comply with daycare licensing standards, and/or the landlord would not renovate the space; and

WHEREAS, the applicant maintains that the site search establishes that there is no practical possibility of obtaining a site of adequate size in a nearby zoning district where a school would be permitted as-of-right; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19 (a) are met; and

WHEREAS, ZR § 73-19 (b) requires an applicant to demonstrate that the proposed school is located no more than 400 feet from the boundary of a district in which such a school is permitted as-of-right; and

WHEREAS, the applicant states that the site is adjacent to an R8 zoning district, where the proposed use would be permitted as-of-right; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19 (b) are met; and

WHEREAS, ZR § 73-19 (c) requires an applicant to demonstrate how it will achieve adequate separation from noise, traffic and other adverse effects of the surrounding non-residential district; and

WHEREAS, the applicant states that an ambient noise survey was initially conducted at the site in connection with the Bailey House special permit application discussed above; the survey indicated that the predominant noise sources in the area would be vehicular and train traffic and that, at the time of monitoring, interior noise levels were well in excess of what would be considered acceptable; however, the survey was conducted before the interior finishes of the Bailey House were installed; thus, certain assumptions were made about the anticipated attenuation of

the finished space and it was determined that noise levels for the Bailey House would be acceptable; and

WHEREAS, the applicant states that the School's proposed space on the second story is in the midst of renovation – interior walls and partitions are in place and a drop ceiling has been partially installed but the floor remains a bare concrete slab; under these conditions, on September 18, 2014, a noise survey was conducted; the survey reflected interior noise levels at 45.9 dB(A); and

WHEREAS, the applicant notes that although 45.9 dB(A) is nearly one dB(A) above the 45 dB(A) that is considered acceptable according to the CEQR Technical Manual, its consultant represents that the installation of flooring, carpeting, and furniture will bring the noise levels within 45 dB(A); and

WHEREAS, in addition, the applicant states that the Department of Environmental Protection ("DEP") reviewed the noise consultant's analyses and determined that noise levels would be acceptable within the School; and

WHEREAS, at hearing, the Board expressed concerns regarding the proposed lobby of the building, which was proposed to be shared by the School and the Bailey House; and

WHEREAS, in response, the applicant revised the proposal to provide a separate building entrance and a dedicated elevator for the School; the applicant also provided detailed egress and occupant load calculations to demonstrate that both the School and the Bailey House will have compliant means of egress from their respective spaces; and

WHEREAS, the Board finds that the conditions surrounding the site and the building's use will adequately separate the proposed school from noise, traffic and other adverse effects of any of the uses within the surrounding M1-4 zoning district; thus, the Board finds that the requirements of ZR § 73-19 (c) are met; and

WHEREAS, ZR § 73-19 (d) requires an applicant to demonstrate how the movement of traffic through the street on which the school will be located can be controlled so as to protect children traveling to and from the school; and

WHEREAS, the applicant notes that section of Park Avenue fronting the site has two-way, single lane traffic separated by the elevated tracks of the Metro North Railroad line; and

WHEREAS, the applicant states that during the morning drop-off period (8:00 a.m. to 9:00 a.m.), an average of 259 vehicles per hour traverse Park Avenue and that during the afternoon pick-up, an average of 429 vehicles per hour traverse Park Avenue; thus, the applicant asserts that the vehicular traffic is moderate; and

WHEREAS, the applicant represents that the School's students will arrive by private mini-buses, with capacities of 15 students-per-bus, necessitating between five and six bus trips on a typical morning or afternoon (depending on how many students enroll in the full- or half-day programs); teachers and staff will accompany the students from the buses directly into the lobby of the building; and

MINUTES

WHEREAS, the applicant notes that the mini-buses will not be able to simultaneously queue in front of the site along Park Avenue to load and offload students; accordingly, buses will load and unload one at-a-time and queue on neighboring side streets; and

WHEREAS, the applicant states that it will apply to the Department of Transportation (“DOT”) for a change in curbside parking regulations in front of the site along Park Avenue to establish a School No Standing Zone for Monday through Friday, from 8:00 a.m. to 4:00 p.m.; and

WHEREAS, thus, the applicant states that, based on its assessment of existing traffic conditions in the vicinity, the School can operate safely without significant impacts; and

WHEREAS, the Board finds that the above-mentioned measures will control traffic so as to protect children going to and from the proposed school; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19 (d) are met; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-19; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board conducted an environmental review of the proposed action and documented relevant information about the project in the Final Environmental Assessment Statement (“EAS”) CEQR No. 15-BSA-013M, dated June 18, 2014; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of

1977, as amended, and makes each and every one of the required findings under ZR §§ 73-19 and 73-03 and grants a special permit, to allow, on a site in an M1-4 zoning district, the conversion of the second story of an existing four-story mixed community facility and commercial building to a Use Group 3 daycare, contrary to ZR § 42-10; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked “Received October 6, 2014” – twelve (12) sheets; and *on further condition*:

THAT a dedicated entrance and a dedicated elevator will be maintained for the School at all times;

THAT DOB will review and approve the egress and occupant load calculations for the School;

THAT any change in the operator of the school requires review and approval by the Board;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by October 7, 2015;

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 7, 2014.

206-14-BZ

APPLICANT – Department of Housing Preservation & Development.

SUBJECT – Application August 29, 2014 – Special Permit (ZR 64-92) to waive bulk regulations for the replacement of homes damaged/destroyed by Hurricane Sandy, on properties which are registered in the NYC Build it Back Program. R3-2 zoning district.

PREMISES AFFECTED – 910 Lanark Road, clustered in the Broad Channel neighborhoods, Edgemere/Somerville and Rockaway Park neighborhoods of Community District 14. Block 15500, Lot 602, Borough of Queens.

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to permit, on a site within an R3-2

MINUTES

zoning district, the construction of a single-family home, which does not comply with the zoning requirements for rear yards, contrary to ZR § 23-47; and

WHEREAS, a public hearing was held on this application on September 23, 2014, after due notice by publication in *The City Record*, and then to decision on October 7, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Montanez; and

WHEREAS, Community Board 14, Queens, recommends approval of this application; and

WHEREAS, this application is brought by the Department of Housing Preservation and Development (“HPD”) on behalf of the owner and in connection with the Mayor’s Office of Housing Recovery Operations and the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in order to accept the application from HPD on behalf of the owner, the Board adopts a waiver of 2 RCNY § 1-09.4 (Owner’s Authorization); and

WHEREAS, the subject site is located on the east side of Lanark Road, approximately 200 feet south of East Ninth Road, within an R3-2 zoning district; and

WHEREAS, the site has 37 feet of frontage along Lanark Road and 2,775 sq. ft. of lot area; and

WHEREAS, the site is occupied by a flood-damaged two-story, single-family home with 450 sq. ft. of floor area (0.16 FAR); and

WHEREAS, the applicant proposes to demolish the existing home and construct a two-story, single-family home with 868 sq. ft. of floor area (0.31 FAR); and

WHEREAS, the applicant states that the proposed building complies in all respects with the bulk regulations of the subject R3-2 district except that a rear yard depth of 21’-7” is proposed (a minimum rear yard depth of 30’-0” is required, per ZR § 23-47); and

WHEREAS, accordingly, the applicant seeks a special permit to allow the proposed rear yard; and

WHEREAS, pursuant to ZR § 64-92, in order to allow for alterations, developments, and enlargements in accordance with flood-resistant construction standards, the Board may permit modifications of ZR §§ 64-30 and 64-40 (Special Bulk Regulations for Buildings Existing on October 28, 2012), 64-60 (Design Requirements), 64-70 (Special Regulations for Non-conforming Uses and Non-complying Buildings), as well as all other applicable bulk regulations except floor area ratio; and

WHEREAS, in order to grant a special permit pursuant to ZR § 64-92, the Board must make the following findings:

(a) that there would be a practical difficulty in complying with flood-resistant construction standards without such modifications, and that such modifications are the minimum necessary to allow for an appropriate building in compliance with flood-resistant construction standards; (b) that any modification of bulk regulations related to height is limited to no more than ten feet in height or ten percent of the

permitted height as measure from the flood-resistant construction elevation, whichever is less; and (c) the proposed modifications will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood’s potential development in accordance with flood-resistant construction standards; and

WHEREAS, the Board may also prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant states that there would be a practical difficulty complying with the flood-resistant construction standards without the modification of the front yard requirement, in accordance with ZR § 64-92(a); and

WHEREAS, specifically, the applicant states that the proposed building is required to have exterior walls that are 12 inches thick, which diminishes the amount of interior floor space; thus, the proposed yard waiver allows the construction of a flood-resistant building with a viable building footprint to compensate for the loss of interior space and comply with all yard regulations except the rear yard; and

WHEREAS, the Board agrees that there would be a practical difficulty complying with the flood-resistant construction standards without the requested rear yard waiver; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the Board finds that the ZR § 64-92(b) finding is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood’s potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the surrounding neighborhood is characterized by one- and two-story, single- and two-family homes; as such, the applicant states that the proposal is consistent with the existing context; and

WHEREAS, the applicant also contends that the proposal reflects a smaller footprint, a wider side yards, and a deeper front yard than the existing building; therefore, the proposal will provide significantly more open space on the site than is currently provided; and

WHEREAS, the Board finds that the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood’s potential development in accordance with flood-resistant construction standards; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed enlargement

MINUTES

satisfies all of the relevant requirements of ZR § 64-92; and

Therefore it is Resolved, that the Board of Standards and Appeals waives the Rules of Practice and Procedure, issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92, to permit, on a site within an R3-2 zoning district, the construction of a single-family home, which does not comply with the zoning requirements for rear yards, contrary to ZR § 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received September 26, 2014"- four (4) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 868 sq. ft. of floor area (0.31 FAR) and a minimum rear yard depth of 21'-7", as illustration the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT this approval is limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by October 7, 2015;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 7, 2014.

APPLICANT – Department of Housing Preservation & Development.

SUBJECT – Application August 29, 2014 – Special Permit (ZR 64-92) to waive bulk regulations for the replacement of homes damaged/destroyed by Hurricane Sandy, on properties which are registered in the NYC Build it Back Program. R3-2 zoning district.

PREMISES AFFECTED – 41 West 12th Road, clustered in the Broad Channel neighborhoods, Edgemere/Somerville, and Rockaway Park Neighborhoods of Community District 14. Block 15316, Lot 64. Borough of Queens.

COMMUNITY BOARD #14Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Hinkson,

Commissioner Ottley-Brown and Commissioner Montanez.4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to permit, on a site within an R3-2 zoning district, the construction of a single-family home, which does not comply with the zoning requirements for a vertical extension of non-complying side yards, contrary to ZR §§ 23-461, 54-313 and 54-41; and

WHEREAS, a public hearing was held on this application on September 23, 2014, after due notice by publication in *The City Record*, and then to decision on October 7, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Montanez; and

WHEREAS, Community Board 14, Queens, recommends approval of this application; and

WHEREAS, this application is brought by the Department of Housing Preservation and Development ("HPD") on behalf of the owner and in connection with the Mayor's Office of Housing Recovery Operations and the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in order to accept the application from HPD on behalf of the owner, the Board adopts a waiver of 2 RCNY § 1-09.4 (Owner's Authorization); and

WHEREAS, the subject site is located on the north side of West 12th Road, between Cross Bay Boulevard and Jamaica Bay, within an R3-2 zoning district; and

WHEREAS, the site has 24.5 feet of frontage along West 12th Road and 2,450 sq. ft. of lot area; and

WHEREAS, the site is occupied by a flood-damaged one-story, single-family home with 700 sq. ft. of floor area (0.29 FAR); the existing home has the following non-compliances: a front yard depth of 8'-0" (a minimum front yard depth of 18'-0" is required, per ZR § 23-45); and side yards with widths of 3'-3" (western side yard) and 0'-6" (eastern side yard) (the requirement is two side yards with a minimum total width of 13'-0" and a minimum width of 5'-0" each, per ZR § 23-461; however, non-complying side yards may be reconstructed, per ZR § 54-41); and

WHEREAS, the applicant proposes to demolish the existing building and construct a two-story, single-family home with 868 sq. ft. of floor area (0.36 FAR); the new building will provide a front yard depth of 20'-0", a rear yard depth of 49'-0", a western side yard width of 5'-2½", and eastern side yard width of 4'-6"; and

WHEREAS, the applicant represents that the buildings directly east and west of the proposed building are built to the sites' common side lot lines; as such, the building directly east of the site will be located 4'-6" from the proposed building and the building directly west of the site will be located 5'-2½" from the proposed building; and

WHEREAS, the applicant notes that pursuant to ZR §§

MINUTES

54-313 (Single- or Two-family Residences with Non-complying Front Yards or Side Yards), 54-41 (Permitted Reconstruction) and 64-723 (Non-complying Single- and Two-family Residences), the existing non-complying yards may be maintained in a reconstruction and vertically enlarged, provided that, per ZR § 54-313, a minimum distance of 8'-0" is maintained between the non-complying side yards and the building on the adjoining zoning lot; and

WHEREAS, thus, the applicant the applicant seeks a special permit to allow construction of the new building with a distance of less than 8'-0" from the buildings directly west and east of the site; and

WHEREAS, pursuant to ZR § 64-92, in order to allow for alterations, developments, and enlargements in accordance with flood-resistant construction standards, the Board may permit modifications of ZR §§ 64-30 and 64-40 (Special Bulk Regulations for Buildings Existing on October 28, 2012), 64-60 (Design Requirements), 64-70 (Special Regulations for Non-conforming Uses and Non-complying Buildings), as well as all other applicable bulk regulations except floor area ratio; and

WHEREAS, in order to grant a special permit pursuant to ZR § 64-92, the Board must make the following findings:

(a) that there would be a practical difficulty in complying with flood-resistant construction standards without such modifications, and that such modifications are the minimum necessary to allow for an appropriate building in compliance with flood-resistant construction standards; (b) that any modification of bulk regulations related to height is limited to no more than ten feet in height or ten percent of the permitted height as measure from the flood-resistant construction elevation, whichever is less; and (c) the proposed modifications will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the Board may also prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant states that there would be a practical difficulty complying with the flood-resistant construction standards without the modification of the side yard requirements, in accordance with ZR § 64-92(a); and

WHEREAS, specifically, the applicant states that the proposed building is required to have exterior walls that are 12 inches thick, which diminishes the amount of interior floor space; thus, the proposed side yard waivers allow the construction of a flood-resistant building with a viable building footprint to compensate for the loss of interior space; and

WHEREAS, the Board agrees that there would be a practical difficulty complying with the flood-resistant construction standards without the requested side yard waivers; and

WHEREAS, the applicant notes and the Board finds

that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the Board finds that the ZR § 64-92(b) finding is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the surrounding neighborhood is characterized by one- and two-story, single- and two-family homes; as such, the applicant states that the proposal is consistent with the existing context; and

WHEREAS, the applicant also contends that the proposal reflects a smaller footprint, a rear yard depth of 49'-0" where a depth of only 30'-0" is required, and increase in front yard depth from a non-complying 8'-0" to a complying 20'-0"; in addition, it increases one side yard width by 1'-11" and increases the other side yard width by 4'-0"; and

WHEREAS, the Board finds that the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed enlargement satisfies all of the relevant requirements of ZR § 64-92; and

Therefore it is Resolved, that the Board of Standards and Appeals waives the Rules of Practice and Procedure, issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92, to permit, on a site within an R3-2 zoning district, the construction of a single-family home, which does not comply with the zoning requirements for vertical extension of non-complying side yards, contrary to ZR §§ 23-461, 54-313 and 54-41; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received September 26, 2014"- four (4) sheet; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 868 sq. ft. of floor area (0.36 FAR) and side yards with minimum widths of 5'-2½" and 4'-6", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT this approval is limited to the Build it Back program;

THAT all DOB and related agency application(s) filed

MINUTES

in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by October 7, 2015;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 7, 2014.

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to permit, on a site within an R4-1 zoning district, the construction of a single-family home, which does not comply with the zoning requirements for rear and side yards, contrary to ZR §§ 23-47 and 23-461; and

WHEREAS, a public hearing was held on this application on September 23, 2014, after due notice by publication in *The City Record*, and then to decision on October 7, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Montanez; and

WHEREAS, Community Board 14, Queens, recommends approval of this application; and

WHEREAS, this application is brought by the Department of Housing Preservation and Development (“HPD”) on behalf of the owner and in connection with the Mayor’s Office of Housing Recovery Operations and the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in order to accept the application from HPD on behalf of the owner, the Board adopts a waiver of 2 RCNY § 1-09.4 (Owner’s Authorization); and

WHEREAS, the subject site is located on the east side of Beach 43rd Street, between Delmore Court and an inlet of Jamaica Bay, within an R4-1 zoning district; and

WHEREAS, the site has 20 feet of frontage along Beach 43rd Street and 1,900 sq. ft. of lot area; and

WHEREAS, the site is occupied by a flood-damaged one-story, single-family home with 1,504 sq. ft. of floor area (0.75 FAR); the existing home has the following non-compliances: a front yard depth of 8’-6” (a minimum front yard depth of 18’-0” is required, per ZR § 23-45); one side yard with width of 3’-9” along the northern boundary of the site (the requirement is two side yards with minimum widths of 4’-0”, per ZR § 23-461; however, non-complying side yards may be reconstructed, per ZR § 54-41); and a rear yard depth of 8’-0” (a minimum rear yard depth of 30’-0” is required, per ZR § 23-47); and

WHEREAS, the applicant proposes to demolish the existing building and construct a two-story, single-family home with 1,400 sq. ft. of floor area (0.70 FAR); the new building will provide a front yard depth of 18’-9”, a northern side yard width of 3’-0”, a southern side yard width of 3’-0”, and a rear yard depth of 26’-3”; and

WHEREAS, thus, the applicant seeks a special permit to allow construction of the new building with rear yard depth of 26’-3” and a northern side yard width of 3’-0”; and

WHEREAS, pursuant to ZR § 64-92, in order to allow for alterations, developments, and enlargements in accordance with flood-resistant construction standards, the Board may permit modifications of ZR §§ 64-30 and 64-40 (Special Bulk Regulations for Buildings Existing on October 28, 2012), 64-60 (Design Requirements), 64-70 (Special Regulations for Non-conforming Uses and Non-complying Buildings), as well as all other applicable bulk regulations except floor area ratio; and

WHEREAS, in order to grant a special permit pursuant to ZR § 64-92, the Board must make the following findings:

(a) that there would be a practical difficulty in complying with flood-resistant construction standards without such modifications, and that such modifications are the minimum necessary to allow for an appropriate building in compliance with flood-resistant construction standards; (b) that any modification of bulk regulations related to height is limited to no more than ten feet in height or ten percent of the permitted height as measure from the flood-resistant construction elevation, whichever is less; and (c) the proposed modifications will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood’s potential development in accordance with flood-resistant construction standards; and

WHEREAS, the Board may also prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant states that there would be a practical difficulty complying with the flood-resistant construction standards without the modification of the rear

MINUTES

and side yard requirements, in accordance with ZR § 64-92(a); and

WHEREAS, specifically, the applicant states that the proposed building is required to have exterior walls that are 12 inches thick, which diminishes the amount of interior floor space; thus, the proposed side yard waivers allow the construction of a flood-resistant building with a viable building footprint to compensate for the loss of interior space; and

WHEREAS, the Board agrees that there would be a practical difficulty complying with the flood-resistant construction standards without the requested rear and side yard waivers; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the Board finds that the ZR § 64-92(b) finding is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the surrounding neighborhood is characterized by one- and two-story, single- and two-family homes; as such, the applicant states that the proposal is consistent with the existing context; and

WHEREAS, the applicant also contends that the proposal reflects a smaller footprint and a complying front yard depth; in addition, it increases the southern side yard by 3'-0" and increases the rear yard depth by 18'-3"; and

WHEREAS, the Board finds that the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed enlargement satisfies all of the relevant requirements of ZR § 64-92; and

Therefore it is Resolved, that the Board of Standards and Appeals waives the Rules of Practice and Procedure, issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92, to permit, on a site within an R4-1 zoning district, the construction of a single-family home, which does not comply with the zoning requirements for rear and side yards, contrary to ZR §§ 23-47 and 23-461; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received September 26, 2014"- four (4) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 1,400 sq. ft. of floor area (0.70 FAR), side yards with minimum widths of 3'-0", and a rear yard depth of 26'-3", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT this approval is limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by October 7, 2015;

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to permit, on a site within an R4A zoning district, the construction of a single-family home, which does not comply with the zoning requirements for vertical extension of non-complying side yards, contrary to ZR §§ 23-461, 54-313 and 54-41; and

WHEREAS, a public hearing was held on this application on September 23, 2014, after due notice by publication in *The City Record*, and then to decision on October 7, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner

MINUTES

Montanez; and

WHEREAS, Community Board 14, Queens, recommends approval of this application; and

WHEREAS, this application is brought by the Department of Housing Preservation and Development (“HPD”) on behalf of the owner and in connection with the Mayor’s Office of Housing Recovery Operations and the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in order to accept the application from HPD on behalf of the owner, the Board adopts a waiver of 2 RCNY § 1-09.4 (Owner’s Authorization); and

WHEREAS, the subject site is located on the northeast corner of the intersection of Beach 72nd Street and Thursby Avenue, within an R4A zoning district; and

WHEREAS, the site has 100 feet of frontage along Beach 72nd Street, 22.5 feet of frontage along Thursby Avenue, and 2,250 sq. ft. of lot area; and

WHEREAS, the site is occupied by a flood-damaged one-story, single-family home with 867 sq. ft. of floor area (0.39 FAR); the existing home has the following non-compliances: a front yard depth of 5’-10” along Thursby Avenue (a minimum front yard depth of 18’-0” is required along Thursby Avenue, per ZR § 23-45); a front yard depth of 4’-0” along Beach 72nd Street (a minimum front yard depth of 10’-0” is required along Beach 72nd Street, per ZR § 23-45) and no side yard (the requirement is one side yard with a minimum width of 2’-0”, per ZR § 23-461 and non-complying side yards may be reconstructed, per ZR § 54-41); and

WHEREAS, the applicant proposes to demolish the existing building and construct a two-story, single-family home with 868 sq. ft. of floor area (0.39 FAR); the new building will provide a front yard depth of 18’-9” along Thursby Avenue, a front yard depth of 4’-3” along Beach 72nd Street, a rear yard depth of 45’-7”, and one side yard width of 4’-3”; and

WHEREAS, the applicant represents that the building directly east of the proposed building is built to the sites’ common side lot line; as such, the building directly east of the site will be located 4’-3” from the proposed building; and

WHEREAS, the applicant notes that pursuant to ZR §§ 54-313 (Single- or Two-family Residences with Non-complying Front Yards or Side Yards), 54-41 (Permitted Reconstruction) and 64-723 (Non-complying Single- and Two-family Residences), the existing non-complying yards may be maintained in a reconstruction and vertically enlarged, provided that, per ZR § 54-313, a minimum distance of 8’-0” is maintained between the non-complying side yards and the building on the adjoining zoning lot; and

WHEREAS, thus, the applicant seeks a special permit to allow construction of the new building with a distance of less than 8’-0” from the building directly east of the site; and

WHEREAS, pursuant to ZR § 64-92, in order to allow for alterations, developments, and enlargements in accordance with flood-resistant construction standards, the

Board may permit modifications of ZR §§ 64-30 and 64-40 (Special Bulk Regulations for Buildings Existing on October 28, 2012), 64-60 (Design Requirements), 64-70 (Special Regulations for Non-conforming Uses and Non-complying Buildings), as well as all other applicable bulk regulations except floor area ratio; and

WHEREAS, in order to grant a special permit pursuant to ZR § 64-92, the Board must make the following findings:

(a) that there would be a practical difficulty in complying with flood-resistant construction standards without such modifications, and that such modifications are the minimum necessary to allow for an appropriate building in compliance with flood-resistant construction standards; (b) that any modification of bulk regulations related to height is limited to no more than ten feet in height or ten percent of the permitted height as measure from the flood-resistant construction elevation, whichever is less; and (c) the proposed modifications will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood’s potential development in accordance with flood-resistant construction standards; and

WHEREAS, the Board may also prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant states that there would be a practical difficulty complying with the flood-resistant construction standards without the modification of the side yard requirements, in accordance with ZR § 64-92(a); and

WHEREAS, specifically, the applicant states that the proposed building is required to have exterior walls that are 12 inches thick, which diminishes the amount of interior floor space; thus, the proposed side yard waivers allow the construction of a flood-resistant building with a viable building footprint to compensate for the loss of interior space; and

WHEREAS, the Board agrees that there would be a practical difficulty complying with the flood-resistant construction standards without the requested side yard waivers; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the Board finds that the ZR § 64-92(b) finding is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood’s potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the surrounding neighborhood is characterized by one- and two-story, single- and two-family homes; as such, the applicant states that the proposal is consistent with the existing context; and

MINUTES

WHEREAS, the applicant also contends that the proposal reflects a smaller footprint and a rear yard depth of 45'-7" where a depth of only 20'-0" is required; in addition, the proposal reflects increases in front yard depth from 4'-0" to 4'-3" and 5'-10" to 18'-9" and an increase in side yard depth from 0'-0" to 4'-3"; and

WHEREAS, the Board finds that the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed enlargement satisfies all of the relevant requirements of ZR § 64-92; and

Therefore it is Resolved, that the Board of Standards and Appeals waives the Rules of Practice and Procedure, issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92, to permit, on a site within an R4A zoning district, the construction of a single-family home, which does not comply with the zoning requirements for vertical extension of non-complying side yards, contrary to ZR §§ 23-461, 54-313 and 54-41; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received September 26, 2014"- four (4) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 868 sq. ft. of floor area (0.39 FAR), front yards with minimum depths of 4'-3" and 18'-9", a minimum rear depth of 45'-7", and one side yard with a minimum width of 4'-3", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT this approval is limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by October 7, 2015;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 7, 2014.

211-14-BZ

APPLICANT – Department of Housing Preservation & Development.

SUBJECT – Application August 29, 2014 – Special Permit (ZR 64-92) to waive bulk regulations for the replacement of homes damaged/destroyed by Hurricane Sandy, on properties which are registered in the NYC Build it Back Program. R4-1 zoning district.

PREMISES AFFECTED – 3-41 Beach 87th Street, Queens. Block 16119, Lot 101.

COMMUNITY BOARD #14Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez.4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to permit, on a site within an R4-1 zoning district, the construction of a single-family home, which does not comply with the zoning requirements for a vertical extension of non-complying side yards, contrary to ZR §§ 23-461, 54-313 and 54-41; and

WHEREAS, a public hearing was held on this application on September 23, 2014, after due notice by publication in *The City Record*, and then to decision on October 7, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Montanez; and

WHEREAS, Community Board 14, Queens, recommends approval of this application; and

WHEREAS, the owner of the adjacent site testified in opposition to application, citing concerns regarding the proposed height and front yard depth of the building; and

WHEREAS, this application is brought by the Department of Housing Preservation and Development ("HPD") on behalf of the owner and in connection with the Mayor's Office of Housing Recovery Operations and the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in order to accept the application from HPD on behalf of the owner, the Board adopts a waiver of 2 RCNY § 1-09.4 (Owner's Authorization); and

WHEREAS, the subject site is located on the west side of Beach 87th Street between Dormans Court and the Rockaway Freeway, within an R4-1 zoning district; and

WHEREAS, the site has 20 feet of frontage along Beach 87th Street and 2,268 sq. ft. of lot area; and

WHEREAS, the site is occupied by a two flood-damaged, one-story, single-family homes with a combined 1,800 sq. ft. of floor area (0.79 FAR); the existing site has the following yard non-compliances: a front yard depth of 6'-4" (a minimum front yard depth of 10'-0" is required, per ZR § 23-45); and side yards with widths of 3'-0" (northern

MINUTES

side yard) and 1'-2" (southern side yard) (the requirement is two side yards with minimum widths of 4'-0", per ZR § 23-461; however, non-complying side yards may be reconstructed, per ZR § 54-41); and

WHEREAS, the applicant proposes to demolish the existing building and construct a two-story, single-family home with 1,400 sq. ft. of floor area (0.62 FAR); the new building will provide a front yard depth of 10'-0", a rear yard depth of 43'-9", a northern side yard width of 3'-0", and southern side yard width of 3'-0"; and

WHEREAS, the Board notes that, initially, the applicant proposed a front yard depth of 18'-0"; however, in response to concerns raised by the owner of the adjacent site, the proposal was amended to reflect a front yard depth of 10'-0"; and

WHEREAS, the applicant represents that the building directly north of the site is located 1'-6" from the sites' common side lot line and that the building directly south of the site is located 1'-10" from the sites' common side lot line; and

WHEREAS, the applicant notes that pursuant to ZR §§ 54-313 (Single- or Two-family Residences with Non-complying Front Yards or Side Yards), 54-41 (Permitted Reconstruction) and 64-723 (Non-complying Single- and Two-family Residences), the existing non-complying yards may be maintained in a reconstruction and vertically enlarged, provided that, per ZR § 54-313, a minimum distance of 8'-0" is maintained between the non-complying side yards and the building on the adjoining zoning lot; in addition, as noted above, per ZR § 23-461, side yards must have a minimum width of 4'-0"; and

WHEREAS, thus, the applicant seeks a special permit to allow construction of the new building with a distance of less than 8'-0" from the buildings directly north and south of the site; and

WHEREAS, pursuant to ZR § 64-92, in order to allow for alterations, developments, and enlargements in accordance with flood-resistant construction standards, the Board may permit modifications of ZR §§ 64-30 and 64-40 (Special Bulk Regulations for Buildings Existing on October 28, 2012), 64-60 (Design Requirements), 64-70 (Special Regulations for Non-conforming Uses and Non-complying Buildings), as well as all other applicable bulk regulations except floor area ratio; and

WHEREAS, in order to grant a special permit pursuant to ZR § 64-92, the Board must make the following findings: (a) that there would be a practical difficulty in complying with flood-resistant construction standards without such modifications, and that such modifications are the minimum necessary to allow for an appropriate building in compliance with flood-resistant construction standards; (b) that any modification of bulk regulations related to height is limited to no more than ten feet in height or ten percent of the permitted height as measure from the flood-resistant construction elevation, whichever is less; and (c) the proposed modifications will not alter the essential character of the neighborhood in which the building is located, nor

impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the Board may also prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant states that there would be a practical difficulty complying with the flood-resistant construction standards without the modification of the side yard requirements, in accordance with ZR § 64-92(a); and

WHEREAS, specifically, the applicant states that the proposed building is required to have exterior walls that are 12 inches thick, which diminishes the amount of interior floor space; thus, the proposed side yard waivers allow the construction of a flood-resistant building with a viable building footprint to compensate for the loss of interior space; and

WHEREAS, the Board agrees that there would be a practical difficulty complying with the flood-resistant construction standards without the requested side yard waivers; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the Board finds that the ZR § 64-92(b) finding is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the surrounding neighborhood is characterized by one- and two-story, single- and two-family homes; as such, the applicant states that the proposal is consistent with the existing context; and

WHEREAS, the applicant also contends that the proposal reflects a smaller footprint, a rear yard depth of 43'-9" where a depth of 30'-0" is required, and increase in front yard depth from a non-complying 6'-4" to a complying 10'-0"; in addition, it increases the width of one side yard by 1'-10"; and

WHEREAS, the Board finds that the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed enlargement satisfies all of the relevant requirements of ZR § 64-92; and

Therefore it is Resolved, that the Board of Standards and Appeals waives the Rules of Practice and Procedure, issues a Type II determination under 6 N.Y.C.R.R. Part

MINUTES

617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92, to permit, on a site within an R4-1 zoning district, the construction of a single-family home, which does not comply with the zoning requirements for a vertical extension of non-complying side yards, contrary to ZR §§ 23-461, 54-313 and 54-41; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received September 26, 2014"- four (4) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 1,400 sq. ft. of floor area (0.62 FAR) and side yards with minimum widths of 3'-0", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT this approval is limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by October 7, 2015;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 7, 2014.

PREMISES AFFECTED – 209A Beach 100th Street, Queens. Block 16156, Lot 94.

COMMUNITY BOARD #14Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez..4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure and a special permit,

pursuant to ZR § 64-92, to permit, on a site within an R5D (C1-3) zoning district, the construction of a single-family home, which does not comply with the zoning requirements for front and rear yards, contrary to ZR §§ 23-45 and 23-47; and

WHEREAS, a public hearing was held on this application on September 23, 2014, after due notice by publication in *The City Record*, and then to decision on October 7, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Montanez; and

WHEREAS, Community Board 14, Queens, recommends approval of this application; and

WHEREAS, this application is brought by the Department of Housing Preservation and Development ("HPD") on behalf of the owner and in connection with the Mayor's Office of Housing Recovery Operations and the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in order to accept the application from HPD on behalf of the owner, the Board adopts a waiver of 2 RCNY § 1-09.4 (Owner's Authorization); and

WHEREAS, the subject site is located on the west side of Beach 100th Street between the Rockaway Freeway and Rockaway Beach Boulevard, within an R5D (C1-3) zoning district; and

WHEREAS, the site has 52 feet of frontage along Beach 100th Street and 1,048 sq. ft. of lot area; and

WHEREAS, the site is occupied by a flood-damaged one-story, single-family home with 429 sq. ft. of floor area (0.41 FAR); the existing site has the following yard non-compliances: a front yard depth of 2'-6" (a minimum front yard depth of 5'-0" is required, per ZR § 23-45); side yards with widths of 1'-0" (southern side yard) and 16'-8" (northern side yard) (the requirement is one side yard with a minimum width of 8'-0", per ZR § 23-461; however, non-complying side yards may be reconstructed, per ZR § 54-41); and a rear yard depth of 5'-8" (a minimum rear yard depth of 10'-0" is required); and

WHEREAS, the applicant proposes to demolish the existing home and construct a two-story, single-family home with 868 sq. ft. of floor area (0.83 FAR), a front yard with a depth of 3'-0", side yards with widths of 3'-0" (southern side yard) and 16'-8" (northern side yard), and a rear yard with a depth of 3'-11½"; and

WHEREAS, accordingly, the applicant seeks a special permit to allow the proposed front and rear yards; and

WHEREAS, pursuant to ZR § 64-92, in order to allow for alterations, developments, and enlargements in accordance with flood-resistant construction standards, the Board may permit modifications of ZR §§ 64-30 and 64-40 (Special Bulk Regulations for Buildings Existing on October 28, 2012), 64-60 (Design Requirements), 64-70 (Special Regulations for Non-conforming Uses and Non-complying Buildings), as well as all other applicable bulk regulations except floor area ratio; and

MINUTES

WHEREAS, in order to grant a special permit pursuant to ZR § 64-92, the Board must make the following findings:

(a) that there would be a practical difficulty in complying with flood-resistant construction standards without such modifications, and that such modifications are the minimum necessary to allow for an appropriate building in compliance with flood-resistant construction standards; (b) that any modification of bulk regulations related to height is limited to no more than ten feet in height or ten percent of the permitted height as measure from the flood-resistant construction elevation, whichever is less; and (c) the proposed modifications will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the Board may also prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant states that there would be a practical difficulty complying with the flood-resistant construction standards without the modification of the front and rear yard requirements, in accordance with ZR § 64-92(a); and

WHEREAS, specifically, the applicant states that the proposed building is required to have exterior walls that are 12 inches thick, which diminishes the amount of interior floor space; thus, the proposed yard waiver allows the construction of a flood-resistant building with a viable building footprint to compensate for the loss of interior space and comply with all yard regulations except the rear yard; and

WHEREAS, the Board agrees that there would be a practical difficulty complying with the flood-resistant construction standards without the requested rear yard waiver; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the Board finds that the ZR § 64-92(b) finding is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the surrounding neighborhood is characterized by one- and two-story, single- and two-family homes; as such, the applicant states that the proposal is consistent with the existing context; and

WHEREAS, the applicant also contends that the proposal reflects a lot coverage of 41 percent, which is identical to the existing home at the site and 20 percent less than is permitted as-of-right in the subject R5D (C1-3)

district; in addition, the front yard depth is increased by 0'-6", and the southern side yard is increase by 2'-0"; and

WHEREAS, the Board finds that the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed enlargement satisfies all of the relevant requirements of ZR § 64-92; and

Therefore it is Resolved, that the Board of Standards and Appeals waives the Rules of Practice and Procedure, issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92, to permit, on a site within an R5D (C1-3) zoning district, the construction of a single-family home, which does not comply with the zoning requirements for front and rear yards, contrary to ZR §§ 23-45 and 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received September 26, 2014"- four (4) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 868 sq. ft. of floor area (0.83 FAR), a maximum lot coverage of 41 percent, a minimum front yard depth of 3'-0", and a minimum rear yard depth of 3'-11½", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT this approval is limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by October 7, 2015;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 7, 2014.

MINUTES

**REGULAR MEETING
TUESDAY MORNING, OCTOBER 21, 2014
10:00 A.M.**

Present: Chair Perlmutter, Vice-Chair Hinkson,
Commissioner Ottley-Brown and Commissioner Montanez

SPECIAL ORDER CALENDAR

302-01-BZ

APPLICANT – Deirdre A. Carson, Esq. for Creston Avenue Realty LLC, owner.

SUBJECT – Application May 28, 2014 – Extension of Time to obtain a Certificate of Occupancy of a previously granted variance (§72-21) for the continued operation of a parking facility accessory to commercial use which expired on December 11, 2013. R8 zoning district.

PREMISES AFFECTED – 2519-2525 Creston Avenue, West side of Creston Avenue between East 190th and East 191st Streets. Block 3175, Lot 26, Borough of Bronx.

COMMUNITY BOARD #7BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez....4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening, a waiver of the Rules of Practice and Procedure, and an extension of time to obtain a certificate of occupancy for a parking facility accessory to a commercial use; and

WHEREAS, a public hearing was held on this application on September 9, 2013 after due notice by publication in *The City Record*, with a continued hearing on October 7, 2014, and then to decision on October 21, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson and Commissioner Ottley-Brown; and

WHEREAS, the site is located on the southwest corner of Creston Avenue and East 191st Street, partially within an R8 zoning district and partially within a C4-4 zoning district; and

WHEREAS, on December 7, 1948, under BSA Cal. No. 861-48-BZ, the Board granted a variance to permit the site to be used for the parking of more than five motor vehicles, for a term of two years; and

WHEREAS, subsequently, the grant was amended and the term extended at various times, until its expiration on January 10, 1988; and

WHEREAS, on April 23, 2002, under the subject calendar number, the Board reestablished the expired variance pursuant to ZR § 11-411, to permit an accessory parking facility for commercial use at the site, for a term of

ten years, which expired on April 23, 2012; a condition of the grant was that a new certificate of occupancy be obtained by April 23, 2003; and

WHEREAS, on January 10, 2012, the Board granted a six month extension of time to obtain a certificate of occupancy, which expired on July 10, 2012; and

WHEREAS, on December 11, 2012, the Board granted a ten-year extension of term, to expire on April 23, 2022, and a one-year extension of time to obtain a certificate of occupancy, to expire on December 11, 2013; and

WHEREAS, the applicant states that a certificate of occupancy has not yet been obtained; and

WHEREAS, the applicant states that a certificate of occupancy has not been obtained due to delays at the Department of Buildings; and

WHEREAS, at hearing, the Board directed the applicant to replace the existing chain link fence at the site and to repair the concrete retaining wall on which the fence rests; and

WHEREAS, in response, the applicant agreed to replace the existing fence with a black aluminum fence; the applicant notes that the installation of the fence and the repair of the concrete retaining wall will take approximately four months; and

WHEREAS, based upon the above, the Board finds that the requested extension of term and extension of time are appropriate with certain conditions as set forth below.

Therefore it is Resolved that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated April 23, 2002, so that as amended this portion of the resolution shall read: “to grant an extension of time to obtain a certificate of occupancy for one year from the date of this resolution, to expire on October 21, 2015; *on condition*:

THAT a new certificate of occupancy will be obtained by October 21, 2015;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.” (DOB Application No. 200683590)

Adopted by the Board of Standards and Appeals October 21, 2014.

MINUTES

152-07-BZ

APPLICANT – Eric Palatnik, P.C., for Joseph Dweck, owner.

SUBJECT – Application December 31, 2013 – Extension of Term of a previously granted Special Permit (§73-36) for the continued use of a physical culture establishment (*Dolphin*) on the second floor of a two-story commercial building which expired on January 1, 2013; Extension of Time to obtain a Certificate of Occupancy which expired on February 5, 2009; Waiver of the Rules. C4-2A zoning district.

PREMISES AFFECTED – 8701 4th Avenue, southwest corner of 4th Avenue and 87th Street, Block 6050, Lot 10, Borough of Brooklyn.

COMMUNITY BOARD #10BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez...4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, an extension of term for a physical culture establishment (“PCE”), which expired on January 1, 2013, and an extension of time to obtain a certificate of occupancy, which expired on February 5, 2009; and

WHEREAS, a public hearing was held on this application on July 22, 2014, after due notice by publication in *The City Record*, with a continued hearing on August 19, 2014, and then to decision on October 21, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 10, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located at the southeast corner of the intersection of Fourth Avenue and 87th Street, within a C4-2A zoning district, within the Special Bay Ridge District; and

WHEREAS, the site is occupied by a two-story commercial building; and

WHEREAS, the applicant represents that the PCE occupies 7,698 sq. ft. of floor area on the second story; and

WHEREAS, the PCE is operated as a Dolphin Fitness; and

WHEREAS, on February 5, 2008, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-36, to legalize the operation of an existing PCE at the site, for a term of five years, to expire on January 1, 2013; a condition of the grant was that a certificate of occupancy would be obtained by February 5, 2009; and

WHEREAS, the applicant states that a certificate of occupancy has not yet been obtained for the PCE; and

WHEREAS, accordingly, the applicant now seeks a further extension of term and an extension of time to obtain a certificate of occupancy; and

WHEREAS, the applicant states that its acquisition of the certificate of occupancy was delayed due to financial hardships; and

WHEREAS, based upon its review of the record, the Board finds that requested extensions of term and time to obtain a certificate of occupancy are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated February 5, 2008, so that as amended the resolution reads: “to grant an extension of the special permit for a term of ten years from the prior expiration, to expire on January 1, 2023, and to grant an extension of time to obtain a certificate of occupancy for one year from the date of this resolution, to expire on October 21, 2015; *on condition* that any and all work shall substantially conform to drawings as they apply to the objection above noted, filed with this application marked ‘Received August 7, 2014’-(3) sheets; and *on further condition*:

THAT this grant will be limited to a term of ten years, to expire on January 1, 2023;

THAT a certificate of occupancy will be obtained by October 21, 2015;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT there will be no change in ownership or operating control of the PCE without prior approval from the Board;

THAT the hours of operation will be limited to Monday through Thursday, from 5:00 a.m. to 12:00 a.m., Friday from 5:00 a.m. to 10:00 p.m., and Saturday and Sunday, from 8:00 a.m. to 8:00 p.m.;

THAT the above conditions will appear on the certificate of occupancy;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, October 21, 2014.

724-56-BZ

APPLICANT – Eric Palatnik, P.C., for Prela Enterprises Ink., owner.

SUBJECT – Application June 12, 2014 – Amendment of a previously approved variance which permitted automotive repair (UG 16B). Application is to amend the length of an extension of term that was granted the Board from five years to ten years which expired November 20, 2012. R3-2 zoning district.

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for an extension of time to complete construction and obtain certificates of occupancy for 80 homes within a large-scale residential development at the subject site; and

WHEREAS, a public hearing was held on this application on September 23, 2014, after due notice by publication in *The City Record*, and then to decision on October 21, 2014; and

WHEREAS, the subject site is 24.3 acre parcel located northwest of the intersection of Maguire Avenue and Bloomingdale Park, within an R3-1 zoning district, within the Special South Richmond Development District (“SSRDD”); and

WHEREAS, the applicant proposes to develop the site 176 semi-detached homes (350 dwelling units) and a community facility building (the “Development”); and

WHEREAS, because the Development was within the SSRDD, City Planning Commission (“CPC”) approval was required, and on December 22, 1999, CPC issued the following approvals, in relation to Development: (1) special permits pursuant to ZR §§ 107-76 and 107-77, to allow adjustments in the boundaries of designated open space and the construction of a community facility building in designated open space; (2) authorizations pursuant to ZR §§ 107-64 and 107-65 for the removal of trees and the modification of existing topography; and (3) certifications pursuant to ZR §§ 107-22, 107-221, 107-222, 107-323, and 107-50 to permit development within a site containing designated open space, active recreational facilities in designated open space, public pedestrian ways, and the substitution of plant material; and

WHEREAS, on that same date, the applicant also secured (1) a zoning text change to provide an adjustment of the designated open space boundaries on map 33a and 33b in Appendix A of the SSRD regulations; (2) an amendment to

MINUTES

the City Map to eliminate the mapped but unbuilt streets at the site to facilitate the proposed development and to map a turnaround; and (3) a special permit pursuant to ZR § 74-732 to allow a sewer pumping station that would convey sewage from the site to a new sewer in order to avoid the need to install a sewer line across the designated open space and associated freshwater wetlands on the adjacent site; and

WHEREAS, on March 6, 2000, the Department of City Planning (“DCP”) sent a letter to the DOB Staten Island Borough Commissioner, advising DOB of the approved CPC actions and providing copies of the approved site plan; and

WHEREAS, on January 9, 2002, under Job No. 500384238, DOB issued a permit for site work related to the Development; and

WHEREAS, on February 8, 2002, under Job No. 500520206, DOB approved a Builder’s Pavement Plan for the Development; and

WHEREAS, on August 22, 2002, the proposed site plan was approved by the Fire Department for access and hydrant requirements; and

WHEREAS, on December 23, 2002, the Department of Environmental Protection (“DEP”) approved the proposed water main for the Development; and

WHEREAS, on March 12, 2003, DCP sent a letter to the Staten Island Borough Commissioner, confirming the renewal of the CPC actions related to the Development; and

WHEREAS, on June 23, 2003, the Department of Transportation issued permits for the construction of new sidewalks for the Development; and

WHEREAS, on July 17, 2003, DEP approved the construction of a private sanitary drain for the Development; and

WHEREAS, on May 10, 2004, the New York State Office of the Attorney General approved a “No Action Application” in connection with the March 2004 creation of the Maguire Avenue Homeowners’ Association; and

WHEREAS, on August 12, 2004 (the “Enactment Date”), CPC enacted the Lower Density Growth Management text amendment (the “LDGMA”), which rendered the Development non-complying in terms of minimum front yard depth (the requirement is now 18’-0”), minimum rear yard depth (the requirement is now 30’-0” with landscaped buffer with a minimum depth of 8’-0”), parking (three spaces are now required for a two-family home), and planting strips (a planting strip with a minimum depth of 8’-0” is now required between private roads and adjacent properties); and

WHEREAS, the Development complied with the prior zoning requirements, which permitted a front yard with a minimum depth of 5’-0”, a rear yard with a minimum depth of 15’-0”, one parking space, and a 3’-0” planting strip between private roads and adjacent properties; and

WHEREAS, prior to the Enactment Date, the developer installed all of the sewer infrastructure, water mains, and hydrants for the entire development, and excavated the roadways, cleared the land, performed landscaping, and installed fencing for the development; and

WHEREAS, additionally, construction commenced and

72 of the homes were constructed as of the Enactment Date and were issued certificates of occupancy by DOB; and

WHEREAS, based on the construction completed as of the Enactment Date, the developer filed applications under the subject calendar numbers seeking recognition of a vested right to complete the entire Development under the common law; and

WHEREAS, because permits for 102 of the homes had not been issued prior to the Enactment Date, the applicant requested that the Board consider the Development as a single integrated project subject to a separate line of cases that establish the Single Integrated Project Theory (“SIPT”), which allows a developer to vest uncompleted, even uninitiated, components of a larger development project where there has been plat or subdivision approval (see e.g. Telimar Homes v. Miller, 14 A.D.2d 586 (2nd Dep’t, 1961); Putnam Armonk Inc. v. Town of Southeast, 52 A.D.2d 10, (2nd Dep’t, 1976); and Cypress Estates, Inc. v. Moore, 273 N.Y.S.2d 509, (Sup. 1966)); and

WHEREAS, by resolution dated April 13, 2010, the Board recognized that the Development was within the SIPT doctrine and made the necessary findings to determine that the right to complete the Development without complying with the LDGMA vested; and

WHEREAS, accordingly, the Board authorized the issuance of all DOB permits related to the Development; a condition of the grant was that construction would be completed and certificate of occupancy would be obtained for all buildings within the Development by April 13, 2014; and

WHEREAS, however, as of April 13, 2014, construction had not been completed and certificates of occupancy had not been issued for all buildings within the Development; and

WHEREAS, therefore, the applicant now seeks an extension of time to complete construction and obtain a certificates of occupancy for the buildings within the Development under SIPT and the common law doctrine of vested rights; and

WHEREAS, a threshold matter for the typical vested rights analysis is an inquiry into whether a permit was lawfully issued prior to a change in law; however, as noted above, under the SIPT, it is acknowledged that not all permits for a project will have been issued prior to such change in law; and

WHEREAS, the Board notes that when work proceeds under a lawfully-issued permit, a common law vested right to continue construction after a change in zoning generally exists if: (1) the owner has undertaken substantial construction; (2) the owner has made substantial expenditures; and (3) serious loss will result if the owner is denied the right to proceed under the prior zoning; and

WHEREAS, specifically, as held in Putnam Armonk, Inc. v. Town of Southeast, 52 A.D.2d 10 (2^d Dept. 1976), where a restrictive amendment to a zoning ordinance is enacted, the owner’s rights under the prior ordinance are deemed vested “and will not be disturbed where enforcement [of new zoning requirements] would cause ‘serious loss’ to the owner,” and “where substantial construction had been

MINUTES

undertaken and substantial expenditures made prior to the effective date of the ordinance”; and

WHEREAS, however, notwithstanding this general framework, as discussed by the court in *Kadin v. Bennett*, 163 A.D.2d 308 (2d Dept. 1990) “there is no fixed formula which measures the content of all the circumstances whereby a party is said to possess ‘a vested right’. Rather, it is a term which sums up a determination that the facts of the case render it inequitable that the State impede the individual from taking certain action”; and

WHEREAS, as noted above, the Board has recognized that substantial construction was performed and substantial expenditures were made with respect to the Development prior to the Enactment Date; and

WHEREAS, the applicant notes that subsequent to the 2010 grant, 22 homes were completed and received certificates of occupancy; in addition, 28 DOB permits were issued and the homes are in various stages of construction and an additional 52 permits must be obtained to complete the Development; and

WHEREAS, as to expenditures, the applicant represents that the developer has expended \$9,900,000 in connection with the 22 completed homes (\$450,000 per home) and will expended an additional \$12,600,000 to complete the 28 homes presently in various stages of construction; finally, the applicant states that the final 52 homes will cost \$23,400,000 to complete; and

WHEREAS, as to serious loss, the Board examines not only whether certain improvements and expenditures could not be recouped under the new zoning, but also considerations such as the diminution in income that would occur if the new zoning were imposed and the reduction in value between the proposed building and the building permitted under the new zoning; and

WHEREAS, the applicant explains that compliance with the present LDGMA provisions would result in the loss of four of the proposed two-family homes and the conversion of 100 two-family homes to single-family homes; and

WHEREAS, the applicant contends that the reduced unit count and conversion to single-family homes would lead to a diminished profit over the entire development site, resulting in a loss of more than \$22,200,000; and

WHEREAS, the applicant notes that compliance with the LDGMA requirements would also result in the need for new surveys, lot subdivisions, street redesign, and new architectural plans; and

WHEREAS, the Board agrees that the non-recoupable expenditures related to the need to redesign the development, and the lost revenue arising from the reduced unit count and conversion of the homes, when viewed in the aggregate, constitute a serious economic loss, and that the supporting data submitted by the applicant supports this conclusion; and

WHEREAS, the Board has reviewed the evidence in the record and determined that the requested extension of time is warranted; and

WHEREAS, accordingly, the Board hereby grants the

owner of the site a four-year extension of time to complete construction and obtain a certificates of occupancy.

Therefore it is Resolved, that this application to renew DOB Permit Nos. 510067348, 510067357, 510067366, 510067375, 510067384, 510067437, 510067446, 510067455, 510067464, 510067473, 510067311, 510067482, 510067507, 510067516, 510067525, 510067543, 510067703, 510067712, 510067687, 510067785, 510067776, 510067641, 510067650, 510067767, 510065322, 510065340, 510065402, 510065411, 510065368, 510065395, 510065359, 510065331, 510065386, 510065377, 510065055, 510065064, 510065073, 510065082, 510064289, 510064270, 510064261, 510064298, 510064305, 510064314, 510062753, 510062799, 510062780, 510062575, 510062806, 510062815, 510062824, 510062833, 510062842, 510062851, 510062860, 510062879, 510067758, 510067696, 510067678, 510067669, 510067721, 510067730, 510065126, 510065135, 510065144, 510065091, 510065108, 510065117, 510064369, 510063226, as well as all related permits for various work types, either already issued or necessary to complete construction of the Development, is granted, and the Board hereby extends the time to complete construction and obtain a certificate of occupancy for four years from the date of this resolution, to expire on October 21, 2018.

Adopted by the Board of Standards and Appeals, October 21, 2014.

23-14-A

APPLICANT – Eric Palatnik, P.C., for Cheong Wing Chung & Guo Ying Zhang, owners.

SUBJECT – Application February 5, 2014 – Appeal seeking a determination that the owner has acquired a common law vested right to continue development under the prior R3-2 zoning district. R2-A zoning district.

PREMISES AFFECTED – 198-35 51st Avenue, 51st Avenue between Weeks Lane and 199th Street, Block 7374, Lot 13, Borough of Queens.

COMMUNITY BOARD #11Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez.4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application seeking a determination that the owner of the premises has obtained the right to complete construction of a two-story, two-family residential building under the common law doctrine of vested rights; and

WHEREAS, a public hearing was held on this application on August 19, 2014, after due notice by publication in *The City Record*, with a continued hearing on September 23, 2014, and then to decision on October 21, 2014; and

MINUTES

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, a member of the Auburndale Improvement Association submitted testimony in opposition to the application, citing concerns regarding: (1) whether the foundation was completed prior to the rezoning in the first instance; and (2) the absence of an explanation for the delay in completing construction; and

WHEREAS, the subject site is located on the north side of 51st Avenue, between Weeks Lane and 199th Street, within an R2A zoning district; and

WHEREAS, the site has 40 feet of frontage along 51st Avenue, a lot depth of 120 feet, and a lot area of 4,800 sq. ft.; and

WHEREAS, under construction at the site is a two-story, two-family dwelling (the "Building"); and

WHEREAS, the applicant represents that the Building complies with the use and bulk regulations of the former R3-2 zoning district; and

WHEREAS, on August 10, 2010, New Building Permit No. 420204754-01-NB (the "New Building Permit") was issued by the Department of Buildings ("DOB") permitting construction of the Building; and

WHEREAS, on October 27, 2010 (the "Rezoning Date"), the City Council voted to adopt the Auburndale Rezoning, which rezoned the site from an R3-2 zoning district to an R2A zoning district; and

WHEREAS, the Building is proposed to have 3,180 sq. ft. of floor area (0.6 FAR), a lot coverage of 34.78 percent, and a front yard depth of 15 feet; as such, the Building does not comply with the current zoning, which allows only single-family dwellings, a maximum of 2,400 sq. ft. of floor area, a maximum FAR of 0.5, a maximum lot coverage of 30 percent, and a minimum front yard depth of 20'-0"; and

WHEREAS, the applicant represents that although it completed for the Building prior to the Enactment Date and therefore, pursuant to ZR § 11-331, had until October 27, 2012 to complete construction and obtain a certificate of occupancy, as of that date, construction had not been completed and a certificate of occupancy had not been obtained; and

WHEREAS, in addition, the applicant states that the owner did not seek reinstatement of the New Building Permit pursuant to ZR § 11-332; and

WHEREAS, accordingly, the applicant now seeks recognition of a vested right to complete construction pursuant to the common law doctrine of vested rights; and

WHEREAS, a threshold matter for the vested rights analysis is that a permit be issued lawfully prior to the Enactment Date and that the work was performed pursuant to such lawful permit; and

WHEREAS, by letter dated March 6, 2014, DOB stated that the New Building Permit was lawfully issued, authorizing construction of the proposed Building prior to the Enactment Date; and

WHEREAS, the Board notes that when work proceeds under a lawfully-issued permit, a common law vested right to continue construction after a change in zoning generally exists if: (1) the owner has undertaken substantial construction; (2) the owner has made substantial expenditures; and (3) serious loss will result if the owner is denied the right to proceed under the prior zoning; and

WHEREAS, specifically, as held in Putnam Armonk, Inc. v. Town of Southeast, 52 A.D.2d 10 (2d Dept. 1976), where a restrictive amendment to a zoning ordinance is enacted, the owner's rights under the prior ordinance are deemed vested "and will not be disturbed where enforcement [of new zoning requirements] would cause 'serious loss' to the owner," and "where substantial construction had been undertaken and substantial expenditures made prior to the effective date of the ordinance"; and

WHEREAS, however, notwithstanding this general framework, as discussed by the court in Kadin v. Bennett, 163 A.D.2d 308 (2d Dept. 1990) "there is no fixed formula which measures the content of all the circumstances whereby a party is said to possess 'a vested right'. Rather, it is a term which sums up a determination that the facts of the case render it inequitable that the State impede the individual from taking certain action"; and

WHEREAS, as noted above, the applicant obtained a permit to construct the Building and performed certain work prior to the Enactment Date; and

WHEREAS, specifically, the applicant states that the work it performed constitutes substantial construction, in that, prior to the Enactment Date, it completed 100 percent of the foundation; in addition, the applicant notes that, subsequent to the Enactment Date, construction proceeded and is nearly complete; and

WHEREAS, in support of this statement, the applicant has submitted the following: a breakdown of the construction costs by line item; copies of cancelled checks; construction permits and inspection reports; contractor payment requests; photographs of the site; and an affidavit from the owner of the site attesting to the timing and nature of the work performed prior to the Enactment Date; and

WHEREAS, the Board has reviewed the representations as to the amount and type of work completed before the Enactment Date and the documentation submitted in support of these representations, and agrees that it establishes that substantial work was performed; and

WHEREAS, as to expenditure, the Board notes that unlike an application for relief under ZR § 11-30 et seq., soft costs and irrevocable financial commitments can be considered in an application under the common law and accordingly, these costs are appropriately included in the applicant's analysis; and

WHEREAS, the applicant represents that the total expenditure paid for construction of the Building is \$488,567, or approximately 89.4 percent, out of the 546,429 cost to complete; and

WHEREAS, as noted, the applicant has submitted a breakdown of costs and expenditures, copies of cancelled

MINUTES

checks, and an affidavit in support of this representation; and

WHEREAS, the Board considers the amount of expenditures significant, both for a project of this size, and when compared with the development costs; and

WHEREAS, again, the Board's consideration is guided by the percentages of expenditure cited by New York courts considering how much expenditure is needed to vest rights under a prior zoning regime; and

WHEREAS, as to serious loss, the Board examines not only whether certain improvements and expenditures could not be recouped under the new zoning, but also considerations such as the diminution in income that would occur if the new zoning were imposed and the reduction in value between the proposed building and the building permitted under the new zoning; and

WHEREAS, the applicant states that the owner would incur a loss of approximately \$450,000 if the Building must be modified to comply with R2A regulations, because a complete redesign of the building would be required, including extensive demolition and structural work; additionally, an entire dwelling unit would be lost; and

WHEREAS, accordingly, the applicant represents that complying with the current zoning regulations would result in a serious loss to the owner; and

WHEREAS, the Board agrees that complying with the open space requirements of the R2A district regulations would result in a serious economic loss for the applicant; and

WHEREAS, in sum, the Board has reviewed the representations as to the work performed and the expenditures made before the Enactment Date, the representations regarding serious loss, and the supporting documentation for such representations, and agrees that the applicant has satisfactorily established that a vested right to complete construction of the Building has accrued to the owner of the premises.

Therefore it is Resolved, that this application made pursuant to the common law doctrine of vested rights requesting a reinstatement of Permit No. 420204754-01-NB, as well as all related permits for various work types, either already issued or necessary to complete construction and obtain a certificate of occupancy, is granted for one year from the date of this grant.

Adopted by the Board of Standards and Appeals, October 21, 2014.

COMMUNITY BOARD #14BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez.4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated September 30, 2013, acting on DOB Application No. 320734577, reads, in pertinent part:

ZR 42-10 – Physical culture or health establishment is not permitted as of right in M1-1 district; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a M1-1 zoning district, the operation of a physical culture establishment (“PCE”) on the first story and mezzanine of a one-story commercial building, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on June 17, 2014, after due notice by publication in the *City Record*, with continued hearings on August 19, 2014 and September 23, 2014, and then to decision on October 21, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 12, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is a triangular lot located at the northeast corner of the intersection of 20th Avenue and Dahill Road, within an M1-1 zoning district; and

WHEREAS, the site has approximately 150 feet of frontage along 20th Avenue, approximately 170 feet of frontage along Dahill Road, and 11,376 sq. ft. of lot area; and

WHEREAS, the site is occupied by a one-story commercial building with 16,643 sq. ft. of floor area (1.46 FAR); and

WHEREAS, the proposed PCE will occupy the entire building and be operated as NYC Fight Club; and

WHEREAS, the hours of operation for the PCE will be seven days per week, from 6:00 a.m. to 11:30 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, at hearing, the Board directed the applicant to remove graffiti from the exterior of the building and to clarify the parking requirements of the site and anticipated parking needs of the PCE; and

WHEREAS, as to the graffiti, the applicant submitted photos depicting the removal of the graffiti; and

WHEREAS, as to parking, the applicant obtained a determination from DOB that parking is not required for the

MINUTES

PCE; in addition, the applicant represents that: (1) only ten percent of the patrons regularly visiting the PCE will arrive by personal car and that 90 percent will walk or utilize a form of public transportation; (2) public transportation in the vicinity is adequate, in that the F train and the No. 11 bus are within 200 feet of the site and two other buses are within two avenues of 20th Avenue; and (3) on-street parking and local off-street parking facilities are more than adequate to handle the limited auto traffic anticipated; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 14-BSA-053K, dated September 30, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site within a M1-1 zoning district, the operation of a PCE on the first story and mezzanine of a one-story commercial building, contrary to ZR § 42-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received April 10, 2014"-(10) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on October 21, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT since there are no residential uses in the subject building and there are no adjacent residential uses, sound attenuation measures are not necessary;

THAT accessibility compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by October 7, 2015;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 21, 2014.

53-14-BZ CEQR #14-BSA-134M

APPLICANT – Evolution Muay Thai LLC, for 12 West 27 Land, L.P., owner.

SUBJECT – Application April 2, 2014 – Special Permit (§73-36) to legalize a physical culture establishment (*Evolution Muay Thai*). M1-6 zoning district.

PREMISES AFFECTED – 12 West 27th Street, 2nd floor, between Broadway and 6th Avenue, Block 828, Lot 56, Manhattan.

COMMUNITY BOARD #5M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez.4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated March 5, 2014, acting on DOB Application No. 121094804, reads, in pertinent part:

Physical culture establishment is not permitted as of right in M1-6 zoning district and is contrary to ZR 42-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a M1-6 zoning district,

MINUTES

within the Madison Square North Historic District, the legalization of a physical culture establishment (“PCE”) operating on the second story of an 18-story mixed residential and commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on September 23, 2014, after due notice by publication in the *City Record*, and then to decision on October 21, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 5, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of West 27th Street, between Avenue of the Americas and Broadway, within the Madison Square North Historic District; and

WHEREAS, the site has 50 feet of frontage along West 27th Street and 4,938 sq. ft. of lot area; and

WHEREAS, the site is occupied by a 18-story mixed residential and commercial building with approximately 85,076 sq. ft. of floor area (17.23 FAR); and

WHEREAS, the PCE occupies 4,714 sq. ft. of floor area on the second story and is operated as Evolution Muay Thai; and

WHEREAS, the hours of operation for the PCE are Monday through Friday, from 12:00 p.m. to 9:00 p.m., and Saturday, from 12:00 p.m. to 5:00 p.m., and Sunday, from 12:00 p.m. to 3:00 p.m.; and\

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE does not interfere with any pending public improvement project; and

WHEREAS, the Landmarks Preservation Commission has approved the proposed alterations of the building by Certificate of No Effect, dated March 19, 2014; and

WHEREAS, accordingly, the Board finds that this action will neither: 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, at hearing, the Board noted that it had received complaint regarding odors emanating from the PCE; and

WHEREAS, in response, the applicant stated that it also received the complaint and has installed a new ventilation system; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE operated without the special permit and to ensure that the continued operation of the PCE does not negatively impact the

building; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No. 14BSA134M dated July 8, 2014; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type I Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site within a M1-6 zoning district, within the Madison Square North Historic District, the legalization of a PCE operating on the second story of an 18-story mixed residential and commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received July 9, 2014”-(2) sheets; *on further condition*:

THAT the term of the PCE grant will expire on October 21, 2019;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT workout padding in the PCE space will be cleaned and sanitized on a regular basis;

THAT charcoal filters will be installed in the PCE space to ensure that odors from the PCE do not migrate into offices throughout the building;

THAT specific sound attenuation measures are not

MINUTES

necessary since there are no residential uses above or adjacent to the PCE space. The floor of the PCE is eighteen inch concrete slab with 1½ inch foam on top of the slab which will act as a sound buffer;

THAT accessibility compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by October 21, 2015;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 21, 2014.

105-14-BZ

APPLICANT – Lewis E. Garfinkel, for Caren May, owner.
SUBJECT – Application May 21, 2014 – Special Permit (§73-622) for the enlargement of an existing single family home contrary to floor area and open space (ZR 23-141); side yards (ZR 23-461) and less than the required rear yard (ZR 23-47). R2 zoning district.

PREMISES AFFECTED – 1224 East 27th Street, west side of East 27th Street, 175' south from Avenue L, Block 7644, Lot 55, Borough of Brooklyn.

COMMUNITY BOARD #14BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez ...4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the New York City Department of Buildings (“DOB”), dated May 19, 2014, acting on DOB Application No. 320915266, reads in pertinent part:

1. Proposed plans are contrary to ZR 23-141(a) in that the proposed floor area ratio exceeds the permitted 50 percent;
2. Proposed plans are contrary to ZR 23-141(a) in that the proposed open space ratio is less than the required 150 percent;

3. Plans are contrary to ZR 23-461(a) in that the side yard is less than the required 5’-0”;
 4. Proposed plans are contrary to ZR 23-47 in that the proposed rear yard is less than 30’-0”;
- and

WHEREAS, this is an application under ZR § 73-622, to permit, on a site within an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio (“FAR”), open space ratio, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, and 23-47; and

WHEREAS, a public hearing was held on this application on September 23, 2014, after due notice by publication in *The City Record*, and then to decision on October 21, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson and Commissioner Montanez; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of the application; and

WHEREAS, the subject site is located on the west side of East 27th Street, between Avenue L and Avenue M, within an R2 zoning district; and

WHEREAS, the site has 25 feet of frontage along East 28th Street and 2,500 sq. ft. of lot area; and

WHEREAS, the site is occupied by a single-family home with 1,637 sq. ft. of floor area (0.65 FAR); and

WHEREAS, the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant now seeks to convert the building to a single-family home and increase its floor area from 1,637 sq. ft. (0.65 FAR) to 2,187 sq. ft. (0.88 FAR); the maximum permitted floor area is 1,250 sq. ft. (0.5 FAR); and

WHEREAS, the applicant seeks to decrease the open space ratio from 68 percent to 55 percent; the minimum required open space ratio is 150 percent; and

WHEREAS, the applicant seeks to maintain an existing side yard widths of 3’-0” and 5’-8”;

the requirement is two side yards with a minimum total width of 13’-0” and a minimum width of 5’-0” each; and

WHEREAS, the applicant also seeks to decrease its rear yard depth from 37’-8” to 20’-0”;

a rear yard with a minimum depth of 30’-0” is required; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood and will not impair the future use or development of the surrounding area; and

WHEREAS, the applicant asserts that the proposed lot 0.88 FAR is consistent with the bulk in the surrounding area; in addition, the applicant states that the street wall location and building height are in keeping with the surrounding buildings and submitted a streetscape in support of this assertion; and

WHEREAS, at hearing, the Board directed the applicant to clarify the portion of the proposed attic that constitutes floor

MINUTES

area and to provide further details regarding the adjacent sites; and

WHEREAS, in response, the applicant submitted amended plans, which depict the requested information; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622, to permit, on a site within an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for FAR, open space ratio, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, and 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received October 7, 2014"–(12) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 2,187 sq. ft. (0.88 FAR), a minimum open space ratio of 55 percent, side yards with minimum widths of 3'-0" and 5'-8", and a minimum rear yard depth of 20'-0", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by October 21, 2016; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 21, 2014.

*CORRECTION

This resolution adopted on October 22, 2013, under Calendar No. 139-92-BZ and printed in Volume 98, Bulletin Nos. 42-43, is hereby corrected to read as

139-92-BZ

APPLICANT – Samuel H. Valencia

SUBJECT – Application May 20, 2013 – Extension of term for a previously granted special permit (§73-244) for the continued operation of a UG12 eating and drinking establishment with dancing (*Deseos*) which expired on March 7, 2013; Waiver of the Rules. C2-2/R6 zoning district.

PREMISES AFFECTED – 52-15 Roosevelt Avenue, North side 125.53' east of 52nd Street, Block 1316, Lot 76, Borough of Queens.

COMMUNITY BOARD #2Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Srinivasan, Vice Chair Collins, Commissioner Ottley-Brown, Commissioner Hinkson and Commissioner Montanez5

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a re-opening, and an extension of term of a previously granted special permit for an eating and drinking establishment without restrictions on entertainment (UG 12A), which expired on March 7, 2013; and

WHEREAS, a public hearing was held on this application on August 20, 2013, after due notice by publication in *The City Record*, with a continued hearing on September 24, 2013, and then to decision on October 22, 2013; and

WHEREAS, the premises had site and neighborhood examinations by Chair Srinivasan, Vice-Chair Collins, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Queens, recommends disapproval of this application, citing concerns about alleged criminal activity at the site; and

WHEREAS, the subject site is located on the north side of Roosevelt Avenue, between 52nd Street and 53rd Street, within a C2-2 (R6) zoning district; and

WHEREAS, the site is occupied by an eating and drinking establishment with entertainment, operated as *Deseos*; and

WHEREAS, the Board has exercised jurisdiction over the subject site since March 7, 1995, when, under the subject calendar number, the Board granted a special permit under ZR § 73-244 to permit the operation of an eating and drinking establishment with dancing (Use Group 12) on the first floor of an existing three-story building, for a term of three years; and

WHEREAS, subsequently, the grant has been amended

and the term extended at various times; and

WHEREAS, most recently, on August 17, 2010, the Board granted an additional three-year term, which expired on March 7, 2013; and

WHEREAS, the applicant now requests an additional extension of term; and

WHEREAS, at hearing, the Board raised concerns about: (1) the lack of windows along the street frontage; (2) the excessive signage displayed near the establishment's entrance; and (3) whether the air conditioning unit in the rear yard was installed in accordance with the approved plans; and

WHEREAS, in response, the applicant stated that it removed the windows from the street frontage as a noise-attenuation measure; as such, it seeks to retain the frontage as previously approved; and

WHEREAS, as to the signage and the condition of the rear yard, the applicant submitted photographs showing the removal of the excessive signage and the installation of the air conditioning unit in accordance with the approved plans; and

WHEREAS, based upon the above, the Board finds the requested extension of term is appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens*, and *amends* the resolution, as adopted on March 7, 1995, and as subsequently extended and amended, so that as amended this portion of the resolution shall read: "to extend the term for a period of three years from March 7, 2013, to expire on March 7, 2016, *on condition*:

THAT the term of this grant will expire on March 7, 2016;

THAT the above condition will be listed on the certificate of occupancy;

THAT the signage will be in accordance with the BSA-approved plans;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect and shall be listed on the certificate of occupancy;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s) only; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted." (DOB Application No. 420634326)

Adopted by the Board of Standards and Appeals, October 22, 2013.

***The Resolution has been corrected to amend the DOB Application No. which now reads: "DOB Application No. 420634326". Corrected in Bulletin Nos. 42-43, Vol. 98, dated October 30, 2014.**

REGULAR MEETING TUESDAY MORNING, OCTOBER 28, 2014 10:00 A.M.

Present: Chair Perlmutter, Vice-Chair Hinkson,
Commissioner Ottley-Brown and Commissioner Montanez.

SPECIAL ORDER CALENDAR

229-84-BZ

APPLICANT – Troutman Sanders LLP, for High Definition Realty, LLC. owner; Bally Total Fitness of Greater New York, lessee.

SUBJECT – Application June 16, 2014 – Extension of Term of a previously approved Special Permit (§73-36) permitting the operation of a physical cultural establishment (*Bally's Total Fitness*) which expires on November 27, 2014. M1-1 zoning district.

PREMISES AFFECTED –75-28 Queens Boulevard, block bounded by Queens Boulevard Jacobus Street, 51st Avenue and Kneeland Street, Block 2450, Lot 1, Borough of Queens.

COMMUNITY BOARD #4Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez ...4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening, an extension of term for a physical culture establishment (“PCE”), which expires on November 27, 2014, and an amendment to allow minor partition modifications and a change to the PCE’s hours of operation; and

WHEREAS, a public hearing was held on this application on September 16, 2014, after due notice by publication in *The City Record*, and then to decision on October 28, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson, Commissioner, Montanez and Commissioner Ottley-Brown; and

WHEREAS, Community Board 4, Queens, recommends approval of this application; and

WHEREAS, the subject site is located at the southwest corner of the intersection of Queens Boulevard and Jacobus Street, within an M1-1 zoning district; and

WHEREAS, the site is occupied by a one-story commercial building with 11,853 sq. ft. of floor area (0.31 FAR); and

WHEREAS, the applicant states that the PCE occupies the entire first story of the building and is operated as Bally Total Fitness; and

WHEREAS, the Board has exercised jurisdiction over

the site since November 27, 1984, when, under the subject calendar number, the Board permitted operation of the PCE on the first story of the building, for a term of ten years, to expire November 27, 1994; and

WHEREAS, the Board extended the term of the grant on August 8, 1995, and again on October 17, 2006, to expire on November 27, 2014; and

WHEREAS, accordingly, the applicant now seeks an extension of term; in addition, the applicant seeks an amendment to permit minor modifications to the layout of the PCE, and a change in the hours of operation to reflect the existing hours of operation (Monday through Thursday, from 6:00 a.m. to 11:00 p.m., Friday, from 6:00 a.m. to 10:00 p.m., and Saturday and Sunday, from 8:00 a.m. to 9:00 p.m.), which are inconsistent with the approved of hours of operation (Monday through Thursday, from 6:30 a.m. to 10:00 p.m., Friday, from 6:30 a.m. to 10:00 p.m., Saturday, from 9:00 a.m. to 6:00 p.m. and Sunday, from 9:00 a.m. to 5:00 p.m.); and

WHEREAS, at hearing, the Board directed the applicant to: (1) repaint the exterior of the building; (2) repair and repaint the fence; and (3) remove the barbed wire from the top of the fence; and

WHEREAS, in response, the applicant submitted photographs depicting the repainting of the building, the partial repair of the fence, and the removal of the barbed wire; and

WHEREAS, the Board then directed the applicant to remove the supports for the barbed wire and to repair the remainder of the fence; and

WHEREAS, based upon its review of the record, the Board finds that the requested amendment and extensions of term and time to obtain a certificate are appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated November 27, 1984, so that as amended the resolution reads: “to permit the noted modifications to the layout of the PCE and its hours of operation and to grant an extension of the special permit for a term of ten years from the prior expiration; *on condition* that any and all work shall substantially conform to drawings as they apply to the objection above noted, filed with this application marked ‘Received June 16, 2014’-(3) sheets; and *on further condition*:

THAT this grant will be limited to a term of ten years, to expire on November 27, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior approval from the Board;

THAT the hours of operation will be limited to Monday through Thursday, from 6:00 a.m. to 11:00 p.m., Friday, from 6:00 a.m. to 10:00 p.m., and Saturday and Sunday, from 8:00 a.m. to 9:00 p.m.;

THAT the above conditions will appear on the certificate of occupancy;

THAT the fence will be maintained;

THAT no barbed wire or barbed wire supports will be permitted atop the fence;

MINUTES

THAT a certificate of occupancy will be obtained by October 28, 2015;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, October 28, 2014.

159-07-BZ

APPLICANT – Eric Palatnik, P.C., for Stillwell Sports Center INK., owner.

SUBJECT – Application April 21, 2014 – Extension of Term of a previously approved Special Permit (§73-36) which allowed a physical cultural establishment (*Stillwell Sports Center*); Amendment to permit minor alterations; Extension of Time to obtain a Certificate of Occupancy which expired on January 1, 2012; Waiver of the Rules. C8-2 zoning district.

PREMISES AFFECTED – 2402 86th Street, south Coroner of 86th Street and 24th Avenue, Block 6864, Lot 37, Borough of Brooklyn.

COMMUNITY BOARD #11BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez ...4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, an extension of term for a physical culture establishment (“PCE”), which expired on January 1, 2012, an extension of time to obtain a certificate of occupancy, which expired on December 9, 2009, and an amendment to allow certain minor modifications to the PCE, including the construction of a mezzanine; and

WHEREAS, a public hearing was held on this application on October 7, 2014, after due notice by publication in *The City Record*, and then to decision on October 28, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, Community Board 11, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located at the southeast corner of the intersection of 24th Avenue and 86th Street, within a C8-2 zoning district; and

WHEREAS, the site is occupied by a two-story commercial building with 33,408 sq. ft. of floor area (1.73 FAR); and

WHEREAS, the applicant represents that the PCE occupies 14,402 sq. ft. of floor area on the second story of the building; and

WHEREAS, the PCE is operated as a Dolphin Fitness; and

WHEREAS, the Board has exercised jurisdiction over the site since November 27, 2007, when, under the subject calendar number, the Board permitted the legalization of a PCE on the second floor of the building, for a term of five years, to expire January 1, 2012; a condition of the grant was that a new certificate of occupancy be obtained by May 27, 2008, however, as of that date, a certificate of occupancy had not been obtained and by resolution dated December 9, 2008, the Board granted a one-year extension of time to obtain the certificate of occupancy, to expire on December 9, 2009; and

WHEREAS, the applicant states that a certificate of occupancy has not yet been obtained for the PCE; and

WHEREAS, accordingly, the applicant now seeks an extension of term and a further extension of time to obtain a certificate of occupancy; in addition, the applicant seeks an amendment to permit minor modifications to the layout of the PCE, including the construction of a mezzanine; the applicant represents that the proposed modifications do not increase the total floor area of the PCE; and

WHEREAS, the applicant states that its acquisition of the certificate of occupancy was delayed due to unrelated, open Department of Buildings applications; and

WHEREAS, at hearing, the Board directed the applicant to submit photographs demonstrating that all egress pathways are free of debris and to clear all DOB and Fire Department violations related to the PCE; and

WHEREAS, in response, the applicant submitted the requested photographs and represented that the violations would be removed upon the extension of the PCE term; and

WHEREAS, based upon its review of the record, the Board finds that the requested amendment and extensions of term and time to obtain a certificate are appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated February 5, 2008, so that as amended the resolution reads: “to permit the noted modifications to the layout of the PCE, to grant an extension of the special permit for a term of ten years from the prior expiration, to expire on January 1, 2022, and to grant an extension of time to obtain a certificate of occupancy for one year from the date of this resolution, to expire on October 28, 2015; *on condition* that any and all work shall substantially conform to drawings as they apply to the objection above noted, filed with this application marked ‘Received August 12, 2014’-(4) sheets; and *on further condition*:

THAT this grant will be limited to a term of ten years, to expire on January 1, 2022;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT there will be no change in ownership or

MINUTES

operating control of the PCE without prior approval from the Board;

THAT the hours of operation will be limited to Monday through Thursday, from 5:30 a.m. to 12:00 a.m., Friday from 5:00 a.m. to 10:00 p.m., and Saturday and Sunday, from 8:00 a.m. to 8:00 p.m.;

THAT the above conditions will appear on the certificate of occupancy;

THAT a certificate of occupancy will be obtained by October 28, 2015;

THAT all DOB and Fire Department violations related to the PCE will be removed by October 28, 2015;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, October 28, 2014.

159-08-BZ

APPLICANT – Jay A. Segal for Greenberg Traurig, LLP, for DJL Family Limited Partnership, owners.

SUBJECT – Application July 18, 2014 – Extension of time to complete construction and Waiver of Rules of Procedure, for a project approved on February 10, 2009, to construct a seven-story and penthouse residential building, with twelve (12) dwelling units and ground floor retail use, contrary to ZR42-10 and 42-10(D)(2)(b). M1-5B zoning district.

PREMISES AFFECTED – 68-70 Spring Street, between Crosby and Lafayette Streets, Block 482, Lot 19, Borough of Manhattan.

COMMUNITY BOARD #2M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez ...4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, and an extension of time of complete construction pursuant to a previously-granted variance permitting the construction of a seven-story mixed residential and commercial building, which expired on February 10, 2013; and

WHEREAS, a public hearing was held on this application on September 23, 2014, after due notice by publication in *The City Record*, and then to decision on October 28, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the south side of Spring Street, between Lafayette Street and Crosby Street, within an M1-5B zoning district; and

WHEREAS, on February 10, 2009, under the subject calendar number, the Board granted a variance to permit, on a site within an M1-5B zoning district, the construction of a seven-story mixed residential (Use Group 2) and commercial (Use Group 6) building, contrary to use regulations; and

WHEREAS, pursuant to the conditions of the grant, substantial construction was to be completed by February 10, 2013; however, the applicant represents that as of that date, substantial construction had not been completed; and

WHEREAS, accordingly, the applicant now requests an extension of time to complete construction and obtain a certificate of occupancy; and

WHEREAS, the applicant states that construction pursuant to the grant was delayed due to a lack of funding; and

WHEREAS, based upon its review of the record, the Board finds that the requested extension of time to complete construction is appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens*, and *amends* the resolution, dated February 10, 2009, so that as amended the resolution reads: “to grant an extension of time to complete construction for a term of three years from the date of this grant, to expire on October 28, 2017; *on condition* that all work will substantially conform to the BSA-approved plans; and *on further condition*:

THAT substantial construction will be completed by October 28, 2017;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Application No. 110146486)

Adopted by the Board of Standards and Appeals, October 28, 2014.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez ...4

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated May 1, 2014, acting on DOB Application No. 121184672 reads, in pertinent part:

1. Existing inner court for proposed UG 5 transient hotel does not comply with MDL 26.7;
2. Legally required windows for proposed UG 5 transient hotel open onto an inner court which does not comply with MDL 26.7, contrary to MDL 30; and

WHEREAS, this is an application pursuant to Multiple Dwelling Law (“MDL”) § 310, to vary court requirements in order to allow for the proposed conversion of the subject building from residential use (Use Group 2) to a transient hotel (Use Group 5), contrary to the court requirements of MDL §§ 26(7) and 30; and

WHEREAS, a public hearing was held on this application on October 7, 2014, after due notice by publication in *The City Record*, and then to decision on October 28, 2014; and

WHEREAS, the site and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the northeast corner of the intersection of William Street and Maiden Lane, within a C5-5 zoning district within the Special Lower Manhattan District; and

WHEREAS, the site has 70.08 feet of frontage along William Street, 77.52 feet of frontage along Maiden Lane, and 7,601 sq. ft. of lot area; and

WHEREAS, the site is occupied by an 17-story mixed residential and commercial building (the “Building”) with approximately 115,255 sq. ft. of floor area (15.2 FAR) and 121 dwelling units; and

WHEREAS, the site includes a court (the “Court”) with an area of 930 sq. ft. and a minimum distance of 19’-0” from windows opening onto the court and the nearest building wall; and

WHEREAS, the applicant states that the Building was constructed as an office building in 1907 and converted to a multiple dwelling with ground floor retail in 2001 pursuant to Article I, Chapter 5 of the Zoning Resolution; the applicant notes that 75 dwelling units in the Building have legally-required windows opening onto the Court, in accordance with MDL § 277, which permits legally-required windows to open onto a court with a minimum area of 100 sq. ft. and a minimum window-to-window/wall distance of 15’-0”; and

WHEREAS, the applicant proposes to enlarge the Building by two stories and convert it to a transient hotel (Use Group 5) with 137 hotel rooms and Use Group 6 uses on the first story; the applicant proposes extensive alterations to the interior of the building in order to accommodate the proposed uses, including the construction of new mechanical spaces, however, the applicant does not propose changes to the dimensions of the Court or to the windows opening onto the Court; and

WHEREAS, the applicant states that 75 hotel rooms will have legally-required windows opening onto the Court; and

WHEREAS, the Board notes that pursuant to MDL § 4(9), transient hotels are considered Class B multiple dwellings; therefore, the proposed hotel use must comply with the relevant provisions of the MDL; and

WHEREAS, pursuant to MDL § 4(32), the Court is considered an “inner court;” and

WHEREAS, MDL § 26(7) states that, except as otherwise provided in the Zoning Resolution, (1) an inner court shall have a minimum width of four inches for each one foot of height of such court and (2) the area of such inner court shall be twice the square of the required width of the court, but need not exceed 1,200 sq. ft. so long as there is a horizontal distance of at least 30 feet between any required living room window opening onto such court and any wall opposite such window; the applicant notes that the Zoning Resolution does not provide any standards for courts that serve transient hotels; and

WHEREAS, pursuant to MDL § 30, every room in a

MINUTES

multiple dwelling must have one window opening directly upon a street or upon a lawful yard, court or space above a setback located on the same lot as that occupied by the multiple dwelling; and

WHEREAS, the applicant states that the Court, which, as noted above, has an area of 930 sq. ft. and a minimum window-to-window/wall distance of 19'-0", does not satisfy the minimum requirements of MDL § 26(7); in addition, the applicant states that windows opening onto the Court cannot relied upon for light and ventilation, per MDL § 30; and

WHEREAS, accordingly, the applicant requests that the Board invoke its authority under MDL § 310 to permit the proposed conversion contrary to MDL §§ 26(7) and 30; and

WHEREAS, pursuant to MDL § 310(2)(a), the Board has the authority to vary or modify certain provisions of the MDL for multiple dwellings that existed on July 1, 1948, provided that the Board determines that strict compliance with such provisions would cause practical difficulties or unnecessary hardships, and that the spirit and intent of the MDL are maintained, public health, safety and welfare are preserved, and substantial justice is done; and

WHEREAS, as noted above, the subject building was constructed in 1907; therefore the building is subject to MDL § 310(2)(a); and

WHEREAS, specifically, MDL § 310(2)(a) empowers the Board to vary or modify provisions or requirements related to: (1) height and bulk; (2) required open spaces; (3) minimum dimensions of yards or courts; (4) means of egress; and (5) basements and cellars in tenements converted to dwellings; and

WHEREAS, the Board notes that MDL § 26(7) specifically relates to the minimum dimensions of courts and MDL § 30 mandates that a legally-required window open upon, among other things, a lawful court; therefore, the Board has the power to vary or modify the subject provisions pursuant to MDL § 310(2)(a)(3); and

WHEREAS, the Board also observes that to the extent it permits a court at variance with the requirements of MDL § 26(7), such court is a "lawful court" upon which legally-required windows can open in accordance with MDL § 30; and

WHEREAS, turning to the findings under MDL § 310(2)(a), the applicant asserts that practical difficulty and unnecessary hardship would result from strict compliance with the MDL; and

WHEREAS, in support of this assertion, the applicant submitted a comparison between the proposal and the conversion of the Building to a transient hotel with a court that satisfies the minimum requirements of MDL §§ 26(7) and 30; and

WHEREAS, the applicant states that a complying court would require extensive demolition and exterior construction work around the court area to create the complying court and significant modifications to the layout of the hotel rooms, and would result in ten fewer rooms; and

WHEREAS, further, the applicant states that providing a complying court would cost approximately \$5,000,000 more

than the proposal and yield \$950,000 less in annual revenue; and

WHEREAS, based on the above, the Board agrees that the applicant has established a sufficient level of practical difficulty and unnecessary hardship in complying with the requirements of the MDL; and

WHEREAS, the applicant states that the requested variance of MDL §§ 26(7) and 30 is consistent with the spirit and intent of the MDL, and will preserve public health, safety and welfare, and substantial justice; and

WHEREAS, specifically, the applicant states the primary intent of MDL §§ 26(7) and 30 is to ensure that rooms within multiple dwellings have adequate light and ventilation; and

WHEREAS, the applicant states that although the dimensions of the Court are deficient under the MDL, the Court is contiguous with the 550 sq.-ft. inner court of the building located on Block 68, Lot 11; thus, the total area of the combined courts is 1,480 sq. ft., which is 280 sq. ft. more than the maximum required (1,200 sq. ft.) under MDL § 26(7); and

WHEREAS, the applicant states, as noted above, that, currently, the Building is permitted to occupied for permanent residence purposes under MDL § 277 and the applicant asserts that it would be incongruous with the spirit and intent of the MDL to prevent transient use where permanent use is permitted; and

WHEREAS, likewise, the applicant states that visitors to the 75 proposed hotel rooms enjoy nearly the same amount of light and ventilation (19'-0" to the nearest window or wall) as visitors to hotels constructed with a rear yard depth of 20'-0" (the minimum required depth for a transient hotel under the Zoning Resolution); and

WHEREAS, the applicant also notes that because the Building will be used as a transient hotel, it will be used by visitors to New York City, who are unlikely to spend a substantial portion of daylight hours in their rooms; and

WHEREAS, at hearing, the Board inquired as to whether the hotel rooms would be provided with mechanical ventilation; and

WHEREAS, in response, the applicant confirmed that all 137 rooms would have mechanical ventilation in accordance with the applicable provisions of the relevant construction codes; and

WHEREAS, based on the above, the Board finds that the proposed modifications to the court requirements of MDL §§ 26(7) and 30 will maintain the spirit and intent of the MDL, preserve public health, safety and welfare, and ensure that substantial justice is done; and

WHEREAS, accordingly, the Board finds that the applicant has submitted adequate evidence in support of the findings required to be made under MDL § 310(2)(a) and that the requested modification of the court requirements of MDL §§ 26(7) and 30 is appropriate, with certain conditions set forth below.

Therefore it is Resolved, that the decision of the Department of Buildings, dated May 1, 2014, is modified and

MINUTES

that this application is granted, limited to the decision noted above, on condition that construction will substantially conform to the plans filed with the application marked, "Received August 25, 2014"- (12) sheets and "October 3, 2014"- (5) sheets; and on further condition:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB objections related to the MDL;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 28, 2014.

142-14-A

APPLICANT – Goldman Harris LLC., for 92 Henry Fulton LLC., owner.

SUBJECT – Application June 17, 2014 – Proposed construction of a mixed-use development to be located partially within the bed of a mapped but unbuilt portion of Fulton Street, contrary to General City law Section 35 and the bulk regulations pursuant to §72-01-(g). C6-4 zoning district.

PREMISES AFFECTED –92 Fulton Street, south side of Fulton Street, between William Street to the West and Gold Street to the east, Block 77, Lot 22, Borough of Manhattan.

COMMUNITY BOARD #1M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez ...4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated June 19, 2014, acting on DOB Application No. 121185957, reads in pertinent part:

1. Proposed new building does not comply with bulk regulations resulting from the location of the street as per ZR 91-32 Setback regulations for Special Lower Manhattan District; for "Type 3" as defined on Map 2n Appendix A #street walls #, the required setbacks shall be measured from a line drawn at or parallel to the #street line# so that at least 70 percent of the aggregate width of street walls# of the building at the minimum base height are within such line and the #street line# (street widening line);
2. Proposed development which rests partially within the bed of the mapped street is contrary to GCL 35; and therefore must be referred to NYC BSA for approval with any related bulk

waivers pursuant to ZR72-01-(g); and

WHEREAS, a public hearing was held on this application on October 7, 2014, after due notice by publication in *The City Record*, and then to decision on October 28, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, this is an application to allow the construction of 17-story mixed residential and commercial building, which will be partially located within the widening line of Fulton Street; and

WHEREAS, the subject site is located on the south side of Fulton Street between William Street to the west and Gold Street to the East within a C6-4 zoning district, within the Special Lower Manhattan District; and

WHEREAS, the site has 25.83 feet of frontage along Fulton Street and 2,189 sq. ft. of lot area, with about 42 percent of the lot area (933 sq. ft.) located within the widening area of Fulton Street; and

WHEREAS, the applicant states that, in connection with the proposed development, the site has been declared a single zoning lot with the following parcel 90 Fulton Street (Block 77, Tax Lot 23) which is improved with a remaining 5 story building ; and

WHEREAS, by letter dated July 1, 2014, the Fire Department states that it has reviewed the proposal and does not have any objections; and

WHEREAS, by letter dated July 11, 2014 , the Department of Environmental Protection ("DEP") states that: (1) there is an existing 12-inch diameter hydrant branch, 20-inch diameter water main in the bed of Fulton Street; (2) there is an existing 28-inch diameter combined sewer in the bed of Fulton Street between William Street and Gold Street; (3) Modified City Drainage Plan for Sewage District No. 22CL, dated May 3, 1928, calls for a future 3'-6" by 2'-4" combined sewer to be installed in Fulton Street between William Street and Gold Street; and

WHEREAS, initially, the applicant submitted a survey, which showed an existing 5'-6" by 2'-4" combined sewer in the bed of Fulton Street between William Street and Gold Street; and

WHEREAS, in response, DEP indicated that it requires the applicant to submit a survey/plan showing: (1) the existing 28-inch diameter combined sewer and additional 12-inch diameter hydrant branch in the bed of Fulton Street, fronting the above referenced property; and (2) the size of the 5'-6" by 2'-4" combined sewer must be verified; and

WHEREAS, in response to DEP's request, the applicant submitted a revised survey, and by letter dated July 29, 2014, DEP states that it has no objections to the proposal; and

WHEREAS, by correspondence dated July 31, 2014, the Department of Transportation ("DOT") states that: (1) according to the Manhattan Borough President's Topographical Bureau, Fulton Street from William Street to Gold Street is mapped at a width of 90 feet on the Final City

MINUTES

Map; (2) the City does not have title to the southerly portion within Block 77; and (3) construction within the bed of Fulton Street is not presently included in DOT's Capital Improvement Program; and

WHEREAS, the Board notes that pursuant to GCL Section 35, it may authorize construction within the bed of the mapped street subject to reasonable requirements; and

WHEREAS, the Board notes that pursuant to ZR § 72-01(g), the Board may waive bulk regulations where construction is proposed in part within the bed of a mapped street; such bulk waivers will be only as necessary to address non-compliances resulting from the location of construction within and outside of the mapped street, and the zoning lot will comply to the maximum extent feasible with all applicable zoning regulations as if the street were not mapped; and

WHEREAS, in particular, the Board notes that, if the built width of Fulton Street (rather than its wider, mapped width) were used to measure the setbacks required under ZR § 91-32, such setbacks would comply; and

WHEREAS, therefore, consistent with GCL § 35 and ZR § 72-01(g), the Board finds that applying the bulk regulations across the portion of the subject lot within the mapped street and the portion of the subject lot outside the mapped street as if the lot were unencumbered by a mapped street is both reasonable and necessary to allow the proposed construction; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved, that the Board modifies the decision of the DOB, dated June 19, 2014, acting on DOB Application No. 121185957, by the power vested in it by Section 35 of the General City Law, and also waives the bulk regulations associated with the presence of the mapped but unbuilt street pursuant to Section 72-01(g) of the Zoning Resolution to grant this appeal, limited to the decision noted above *on condition* that construction will substantially conform to the drawing filed with the application marked "Received October 8, 2014"- (1) sheet; and *on further condition*:

THAT DOB will review and approve plans associated with the Board's approval for compliance with the underlying zoning regulations as if the unbuilt portion of the street were not mapped;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT DOB will review the proposed plans to ensure compliance with all relevant provisions of the Zoning Resolution;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related

to the relief granted.

Adopted by the Board of Standards and Appeals on October 28, 2014.

235-14-A

APPLICANT – Joseph Jabour, for Kevin & Roxie Voorhees, owners.

SUBJECT – Application September 30, 2014 – Section 36, Article 3 of the General City Law - NYC-HPD Build It Back in a private community known as Seagate which is a private unmapped street for a proposed single family home to replace the dwelling destroyed by Hurricane Sandy. R3-1 zoning district.

PREMISES AFFECTED – 4020 Atlantic Avenue, 200' to Beach 40th Street from east property line, Block 7042, Lot 11, Borough of Brooklyn.

COMMUNITY BOARD #13BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez ...4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application to permit the construction of a single-family home that does not front a mapped street, contrary to General City Law § 36; and

WHEREAS, a public hearing was held on this application on October 21, 2014 after due notice by publication in *The City Record*, and then to decision on October 28, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Vice-Chair Hinkson; and

WHEREAS, this application is brought by an architect representing a homeowner in connection with the Build It Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, the subject property exists in a private community known as Seagate and is located on the tip of Coney Island, within an R3-zoning district; and

WHEREAS, the site has 5,000 sq. ft. of lot area and is currently vacant; it has 50 feet of frontage along Atlantic Avenue, an access road that does not appear on the City Map; and

WHEREAS, the applicant proposes to rebuild a single-family home with 2,417 sq. ft. of floor area (0.46 FAR); the applicant notes that the new home is being raised to accommodate the FEMA and DOB requirements for base flood elevation and is designed to comply with the relevant building codes and flood requirements; and

WHEREAS, because the site is located along an unmapped access road, the applicant request a waiver of General City Law § 36; and

WHEREAS, by letter dated October 16, 2014, the Fire Department states that it has reviewed the proposal and has

MINUTES

no objection, on condition that: (1) the entire building will be fully-sprinklered in conformity with provisions of Chapter 9 of the 2008 Building Code; (2) interconnected smoke alarms will be installed in accordance with Section 907.2.10 of the 2008 Building Code; (3) the height of the building will not exceed 35 feet above the grade plane as defined by Section 502.1 of the 2008 Building Code; and

WHEREAS, based on the record, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved, the appeal is granted by the power vested in the Board by Section 36 of the General City Law and on condition that construction shall substantially conform to the drawing filed with the application marked "October 21, 2014"-one (1) sheet, and on further condition:

THAT the approved plan shall be considered approved only for the portions related to the specific relief granted;

THAT the entire building will be fully-sprinklered in conformity with provisions of Chapter 9 of the 2008 Building Code;

THAT interconnected smoke alarms will be installed in accordance with Section 907.2.10 of the 2008 Building Code;

THAT the height of the building will not exceed 35 feet above the grade plane as defined by Section 502.1 of the 2008 Building Code;

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 28, 2014.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated September 30, 2013, acting on DOB Application No. 320734577, reads, in pertinent part:

ZR 42-10 – Physical culture or health establishment is not permitted as of right in M1-1 district; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a M1-1 zoning district, the operation of a physical culture establishment (“PCE”) on the first story and mezzanine of a one-story commercial building, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on June 17, 2014, after due notice by publication in the *City Record*, with continued hearings on August 19, 2014 and September 23, 2014, and then to decision on October 21, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 12, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is a triangular lot located at the northeast corner of the intersection of 20th Avenue and Dahill Road, within an M1-1 zoning district; and

WHEREAS, the site has approximately 150 feet of frontage along 20th Avenue, approximately 170 feet of frontage along Dahill Road, and 11,376 sq. ft. of lot area; and

WHEREAS, the site is occupied by a one-story commercial building with 16,643 sq. ft. of floor area (1.46 FAR); and

WHEREAS, the proposed PCE will occupy the entire

building and be operated as NYC Fight Club; and

WHEREAS, the hours of operation for the PCE will be seven days per week, from 6:00 a.m. to 11:30 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, at hearing, the Board directed the applicant to remove graffiti from the exterior of the building and to clarify the parking requirements of the site and anticipated parking needs of the PCE; and

WHEREAS, as to the graffiti, the applicant submitted photos depicting the removal of the graffiti; and

WHEREAS, as to parking, the applicant obtained a determination from DOB that parking is not required for the PCE; in addition, the applicant represents that: (1) only ten percent of the patrons regularly visiting the PCE will arrive by personal car and that 90 percent will walk or utilize a form of public transportation; (2) public transportation in the vicinity is adequate, in that the F train and the No. 11 bus are within 200 feet of the site and two other buses are within two avenues of 20th Avenue; and (3) on-street parking and local off-street parking facilities are more than adequate to handle the limited auto traffic anticipated; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 14-BSA-053K, dated September 30, 2013; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and

Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

Bulletin No. 44, Vol. 99, dated November 5, 2014.

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site within a M1-1 zoning district, the operation of a PCE on the first story and mezzanine of a one-story commercial building, contrary to ZR § 42-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received April 10, 2014”-(10) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on October 21, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT since there are no residential uses in the subject building and there are no adjacent residential uses, sound attenuation measures are not necessary;

THAT accessibility compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by October 7, 2018;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 21, 2014.

The resolution has been amended to change the signed off date in part of the conditions which read “October 21, 2015” now reads: “October 21, 2018”. Corrected in

Physical culture establishment is not permitted as of right in M1-6 zoning district and is contrary to ZR 42-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a M1-6 zoning district, within the Madison Square North Historic District, the legalization of a physical culture establishment (“PCE”) operating on the second story of an 18-story mixed residential and commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on September 23, 2014, after due notice by publication in the *City Record*, and then to decision on October 21, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 5, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of West 27th Street, between Avenue of the Americas and Broadway, within the Madison Square North Historic District; and

WHEREAS, the site has 50 feet of frontage along West 27th Street and 4,938 sq. ft. of lot area; and

WHEREAS, the site is occupied by a 18-story mixed residential and commercial building with approximately 85,076 sq. ft. of floor area (17.23 FAR); and

WHEREAS, the PCE occupies 4,714 sq. ft. of floor area

MINUTES

on the second story and is operated as Evolution Muay Thai; and

WHEREAS, the hours of operation for the PCE are Monday through Friday, from 12:00 p.m. to 9:00 p.m., and Saturday, from 12:00 p.m. to 5:00 p.m., and Sunday, from 12:00 p.m. to 3:00 p.m.; and\

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE does not interfere with any pending public improvement project; and

WHEREAS, the Landmarks Preservation Commission has approved the proposed alterations of the building by Certificate of No Effect, dated March 19, 2014; and

WHEREAS, accordingly, the Board finds that this action will neither: 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, at hearing, the Board noted that it had received complaint regarding odors emanating from the PCE; and

WHEREAS, in response, the applicant stated that it also received the complaint and has installed a new ventilation system; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE operated without the special permit and to ensure that the continued operation of the PCE does not negatively impact the building; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No. 14BSA134M dated July 8, 2014; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air

Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type I Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site within a M1-6 zoning district, within the Madison Square North Historic District, the legalization of a PCE operating on the second story of an 18-story mixed residential and commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received July 9, 2014"-(2) sheets; *on further condition*:

THAT the term of the PCE grant will expire on October 21, 2019;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT workout padding in the PCE space will be cleaned and sanitized on a regular basis;

THAT charcoal filters will be installed in the PCE space to ensure that odors from the PCE do not migrate into offices throughout the building;

THAT specific sound attenuation measures are not necessary since there are no residential uses above or adjacent to the PCE space. The floor of the PCE is eighteen inch concrete slab with 1½ inch foam on top of the slab which will act as a sound buffer;

SUBJECT – Application May 21, 2014 – Special Permit (§73-622) for the enlargement of an existing single family home contrary to floor area and open space (ZR 23-141); side yards (ZR 23-461) and less than the required rear yard (ZR 23-47). R2 zoning district.

PREMISES AFFECTED – 1224 East 27th Street, west side of East 27th Street, 175’ south from Avenue L, Block 7644, Lot 55, Borough of Brooklyn.

COMMUNITY BOARD #14BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Otley-Brown and Commissioner Montanez ...4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the New York City Department of Buildings (“DOB”), dated May 19, 2014, acting on DOB Application No. 320915266, reads in pertinent part:

1. Proposed plans are contrary to ZR 23-141(a) in that the proposed floor area ratio exceeds the permitted 50 percent;
 2. Proposed plans are contrary to ZR 23-141(a) in that the proposed open space ratio is less than the required 150 percent;
 3. Plans are contrary to ZR 23-461(a) in that the side yard is less than the required 5’-0”;
 4. Proposed plans are contrary to ZR 23-47 in that the proposed rear yard is less than 30’-0”;
- and

WHEREAS, this is an application under ZR § 73-622, to permit, on a site within an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio (“FAR”), open space ratio, side yards, and rear yard, contrary to ZR §§ 23-141, 23-461, and 23-47; and

WHEREAS, a public hearing was held on this application on September 23, 2014, after due notice by publication in *The City Record*, and then to decision on October 21, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson and Commissioner Montanez; and

WHEREAS, Community Board 14, Brooklyn, recommends approval of the application; and

MINUTES

WHEREAS, the subject site is located on the west side of East 27th Street, between Avenue L and Avenue M, within an R2 zoning district; and

WHEREAS, the site has 25 feet of frontage along East 28th Street and 2,500 sq. ft. of lot area; and

WHEREAS, the site is occupied by a single-family home with 1,637 sq. ft. of floor area (0.65 FAR); and

WHEREAS, the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant now seeks to convert the building to a single-family home and increase its floor area from 1,637 sq. ft. (0.65 FAR) to 2,187 sq. ft. (0.88 FAR); the maximum permitted floor area is 1,250 sq. ft. (0.5 FAR); and

WHEREAS, the applicant seeks to decrease the open space ratio from 68 percent to 55 percent; the minimum required open space ratio is 150 percent; and

WHEREAS, the applicant seeks to maintain an existing side yard widths of 3'-0" and 5'-8"; the requirement is two side yards with a minimum total width of 13'-0" and a minimum width of 5'-0" each; and

WHEREAS, the applicant also seeks to decrease its rear yard depth from 37'-8" to 20'-0"; a rear yard with a minimum depth of 30'-0" is required; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood and will not impair the future use or development of the surrounding area; and

WHEREAS, the applicant asserts that the proposed lot 0.88 FAR is consistent with the bulk in the surrounding area; in addition, the applicant states that the street wall location and building height are in keeping with the surrounding buildings and submitted a streetscape in support of this assertion; and

WHEREAS, at hearing, the Board directed the applicant to clarify the portion of the proposed attic that constitutes floor area and to provide further details regarding the adjacent sites; and

WHEREAS, in response, the applicant submitted amended plans, which depict the requested information; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622, to permit, on a site within an R2 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for FAR, open space ratio, side yards, and rear yard, contrary to ZR §§ 23-

141, 23-461, and 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received October 7, 2014"-(12) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 2,187 sq. ft. (0.88 FAR), a minimum open space ratio of 55 percent, side yards with minimum widths of 3'-0" and 5'-8", and a minimum rear yard depth of 20'-0", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by October 21, 2018; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 21, 2014.

The resolution has been amended to change the signed off date in part of the conditions which read "October 21, 2016" now reads: "October 21, 2018". Corrected in Bulletin No. 44, Vol. 99, dated November 5, 2014.

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated May 20, 2014, acting on DOB Application No. 121983185, reads, in pertinent part:

ZR 32-10 – Proposed physical culture establishment in C5-3 is not permitted as-of-right; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C5-3 zoning district, within the Special Midtown District, the operation of a physical culture establishment (“PCE”) on the fifth story of an existing six-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on September 23, 2014, after due notice by publication in the *City Record*, and then to decision on October 7, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Vice-Chair Hinkson; and

WHEREAS, Community Board 5, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the east side of Fifth Avenue, between West 48th Street and West 49th Street, within a C5-3 zoning district, within the Special Midtown District; and

WHEREAS, the site has approximately 25 feet of frontage along Fifth Avenue and 2,500 sq. ft. of lot area; and

WHEREAS, the site is occupied by a six-story commercial building with approximately 13,750 sq. ft. of floor area (3.6 FAR); and

WHEREAS, the proposed PCE will occupy 1,996 sq. ft. of floor area on the fifth story of the building; and

WHEREAS, the PCE will be operated as Chiva-Som Spa; and

WHEREAS, the hours of operation for the PCE will be Monday through Saturday, from 10:00 a.m. to 8:00 p.m. and Sunday, from 11:00 a.m. to 6:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 14-BSA-172M, dated August 4, 2014; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site within a C5-3 zoning district, within the Special Midtown District, the operation of a PCE on the fifth story of an existing six-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received August 4, 2014”- two (2) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on October 7, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT all massages must be performed by New York State licensed massage therapists;

THAT accessibility compliance will be as reviewed and approved by DOB;

MINUTES

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans; THAT the above conditions will appear on the Certificate of Occupancy;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by October 7, 2018;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 7, 2014.

The resolution has been amended to change the signed off date in part of the conditions which read “October 7, 2015” now reads: “October 7, 2018”. Corrected in Bulletin No. 44, Vol. 99, dated November 5, 2014.

COMMUNITY BOARD #11M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez ...4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated June 13, 2014, acting on DOB Application No. 104138443, reads in pertinent part:

Proposed Use Group 3 school is not permitted in an M1-4 zoning district pursuant to ZR Section 42-10; and

WHEREAS, this is an application under ZR §§ 73-19 and 73-03 to permit, on a site in an M1-4 zoning district, the conversion of the second story of an existing four-story mixed community facility and commercial building to a Use Group 3 daycare, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on September 9, 2014, after due notice by publication in the *City Record*, and reopened on September 23, 2014, and then to decision on October 7, 2014, 2014; and

WHEREAS, the site and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson and Commissioner Ottley-Brown; and

WHEREAS, Community Board 11, Manhattan, recommends approval of this application; and

WHEREAS, this application is brought on behalf of the Children’s Learning Center (the “School”), which operates a pre-school program for children with certain disabilities, including disorders on the autism spectrum; and

WHEREAS, the subject site is located on the northeast corner of the intersection of Park Avenue and 121st Street, within an M1-4 zoning district; and

WHEREAS, the site is a single zoning lot comprising Tax Lots 1, 2, 4, 72, and 101; it has 9,512 sq. ft. of lot area,

MINUTES

127 feet of frontage along Park Avenue, and 75 feet of frontage along 121st Street; and

WHEREAS, the site is occupied by a four-story mixed community facility and commercial building with 38,050 sq. ft. of floor area (4.0 FAR); the applicant represents that a bakery occupies the cellar and first story of the building and a non-profit institution without sleeping accommodations occupies the third and fourth stories; the second story is vacant; and

WHEREAS, the applicant proposes to renovate the second story of the building (approximately 7,649 sq. ft. of floor area (0.8 FAR)) to accommodate the School, which is classified as Use Group 3 daycare; and

WHEREAS, the applicant states that, under the proposal, the second story will serve an estimated 90 children ranging in age from three to five years and approximately 50 employees, and provide related sanitary facilities and administrative offices; and

WHEREAS, in particular, the applicant proposes a total of ten classrooms, a sensory gymnasium, two therapy rooms (speech and occupational), three administrative offices, two small group rooms, and restrooms; and

WHEREAS, the applicant represents that the School seeks to relocate from its current location at 310 West 103rd Street, which is inadequate; and

WHEREAS, the applicant states that the majority of its students live in Manhattan and the Bronx; and

WHEREAS, the applicant notes that the site is subject to a City Planning Commission special permit pursuant to ZR § 74-291, which authorizes occupancy of the third and fourth stories of the building by the Bailey House, a non-profit institution without sleeping accommodations (Use Group 4A); the Bailey House provides certain social services to men, women, and children living with HIV/AIDS, including health care, counseling, support groups, substance abuse treatment, education, job training, and employment assistance; and

WHEREAS, the applicant represents that the proposal meets the requirements of the special permit under ZR § 73-19 to permit a school in an M1-4 zoning district; and

WHEREAS, ZR § 73-19 (a) requires an applicant to demonstrate the inability to obtain a site for the development of a school within the neighborhood to be served and with a size sufficient to meet the programmatic needs of the school within a district where the school is permitted as-of-right; and

WHEREAS, the applicant represents that it conducted a search of nearby residence and commercial districts with the following site criteria: (1) space within an existing building to minimize development costs; (2) a landlord with a willingness to renovate the space; (3) a space with access and lighting sufficient to meet the daycare licensing standards; and (4) proximity to recreation (parks and playgrounds) and public transportation; and

WHEREAS, the applicant states that during its search, it evaluated the feasibility of five buildings within the area and on sites where Use Group 3 is permitted as-of-right:

3560 Broadway; 51-55 East 125th Street; 461 West 126th Street; 4280-4298 Broadway, 2 Bennett Avenue; and 5030 Broadway; and

WHEREAS, the applicant represents that each building was unsuitable for the School, either because the rent was too expensive, the space could not be configured to comply with daycare licensing standards, and/or the landlord would not renovate the space; and

WHEREAS, the applicant maintains that the site search establishes that there is no practical possibility of obtaining a site of adequate size in a nearby zoning district where a school would be permitted as-of-right; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19 (a) are met; and

WHEREAS, ZR § 73-19 (b) requires an applicant to demonstrate that the proposed school is located no more than 400 feet from the boundary of a district in which such a school is permitted as-of-right; and

WHEREAS, the applicant states that the site is adjacent to an R8 zoning district, where the proposed use would be permitted as-of-right; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19 (b) are met; and

WHEREAS, ZR § 73-19 (c) requires an applicant to demonstrate how it will achieve adequate separation from noise, traffic and other adverse effects of the surrounding non-residential district; and

WHEREAS, the applicant states that an ambient noise survey was initially conducted at the site in connection with the Bailey House special permit application discussed above; the survey indicated that the predominant noise sources in the area would be vehicular and train traffic and that, at the time of monitoring, interior noise levels were well in excess of what would be considered acceptable; however, the survey was conducted before the interior finishes of the Bailey House were installed; thus, certain assumptions were made about the anticipated attenuation of the finished space and it was determined that noise levels for the Bailey House would be acceptable; and

WHEREAS, the applicant states that the School's proposed space on the second story is in the midst of renovation – interior walls and partitions are in place and a drop ceiling has been partially installed but the floor remains a bare concrete slab; under these conditions, on September 18, 2014, a noise survey was conducted; the survey reflected interior noise levels at 45.9 dB(A); and

WHEREAS, the applicant notes that although 45.9 dB(A) is nearly one dB(A) above the 45 dB(A) that is considered acceptable according to the CEQR Technical Manual, its consultant represents that the installation of flooring, carpeting, and furniture will bring the noise levels within 45 dB(A); and

WHEREAS, in addition, the applicant states that the Department of Environmental Protection (“DEP”) reviewed the noise consultant's analyses and determined that noise levels would be acceptable within the School; and

WHEREAS, at hearing, the Board expressed concerns

MINUTES

regarding the proposed lobby of the building, which was proposed to be shared by the School and the Bailey House; and

WHEREAS, in response, the applicant revised the proposal to provide a separate building entrance and a dedicated elevator for the School; the applicant also provided detailed egress and occupant load calculations to demonstrate that both the School and the Bailey House will have compliant means of egress from their respective spaces; and

WHEREAS, the Board finds that the conditions surrounding the site and the building's use will adequately separate the proposed school from noise, traffic and other adverse effects of any of the uses within the surrounding M1-4 zoning district; thus, the Board finds that the requirements of ZR § 73-19 (c) are met; and

WHEREAS, ZR § 73-19 (d) requires an applicant to demonstrate how the movement of traffic through the street on which the school will be located can be controlled so as to protect children traveling to and from the school; and

WHEREAS, the applicant notes that section of Park Avenue fronting the site has two-way, single lane traffic separated by the elevated tracks of the Metro North Railroad line; and

WHEREAS, the applicant states that during the morning drop-off period (8:00 a.m. to 9:00 a.m.), an average of 259 vehicles per hour traverse Park Avenue and that during the afternoon pick-up, an average of 429 vehicles per hour traverse Park Avenue; thus, the applicant asserts that the vehicular traffic is moderate; and

WHEREAS, the applicant represents that the School's students will arrive by private mini-buses, with capacities of 15 students-per-bus, necessitating between five and six bus trips on a typical morning or afternoon (depending on how many students enroll in the full- or half-day programs); teachers and staff will accompany the students from the buses directly into the lobby of the building; and

WHEREAS, the applicant notes that the mini-buses will not be able to simultaneously queue in front of the site along Park Avenue to load and offload students; accordingly, buses will load and unload one at-a-time and queue on neighboring side streets; and

WHEREAS, the applicant states that it will apply to the Department of Transportation ("DOT") for a change in curbside parking regulations in front of the site along Park Avenue to establish a School No Standing Zone for Monday through Friday, from 8:00 a.m. to 4:00 p.m.; and

WHEREAS, thus, the applicant states that, based on its assessment of existing traffic conditions in the vicinity, the School can operate safely without significant impacts; and

WHEREAS, the Board finds that the above-mentioned measures will control traffic so as to protect children going to and from the proposed school; and

WHEREAS, therefore, the Board finds that the requirements of ZR § 73-19 (d) are met; and

WHEREAS, the Board has determined that the

evidence in the record supports the findings required to be made under ZR § 73-19; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board conducted an environmental review of the proposed action and documented relevant information about the project in the Final Environmental Assessment Statement ("EAS") CEQR No. 15-BSA-013M, dated June 18, 2014; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-19 and 73-03 and grants a special permit, to allow, on a site in an M1-4 zoning district, the conversion of the second story of an existing four-story mixed community facility and commercial building to a Use Group 3 daycare, contrary to ZR § 42-10; *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked "Received October 6, 2014" – twelve (12) sheets; and *on further condition*:

THAT a dedicated entrance and a dedicated elevator will be maintained for the School at all times;

THAT DOB will review and approve the egress and occupant load calculations for the School;

THAT any change in the operator of the school requires review and approval by the Board;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

MINUTES

THAT the approved plans will be considered approved only for the portions related to the specific relief granted;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by October 7, 2018;

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 7, 2014.

The resolution has been amended to change the signed off date in part of the conditions which read “October 7, 2015” now reads: “October 7, 2018”. Corrected in Bulletin No. 44, Vol. 99, dated November 5, 2014.

CORRECTION

This resolution adopted on October 7, 2014, under Calendar No. 206-14-BZ and printed in Volume 99, Bulletin Nos. 40-41, is hereby corrected to read as follows:

206-14-BZ

APPLICANT – Department of Housing Preservation & Development.

SUBJECT – Application August 29, 2014 – Special Permit (ZR 64-92) to waive bulk regulations for the replacement of homes damaged/destroyed by Hurricane Sandy, on properties which are registered in the NYC Build it Back Program. R3-2 zoning district.

PREMISES AFFECTED – 910 Lanark Road, clustered in the Broad Channel neighborhoods, Edgemere / Somerville and Rockaway Park neighborhoods of Community District 14. Block 15500, Lot 602, Borough of Queens.

COMMUNITY BOARD #14Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Otley-Brown and Commissioner Montanez ...4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to permit, on a site within an R3-2 zoning district, the construction of a single-family home, which does not comply with the zoning requirements for rear yards, contrary to ZR § 23-47; and

WHEREAS, a public hearing was held on this application on September 23, 2014, after due notice by publication in *The City Record*, and then to decision on October 7, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Montanez; and

WHEREAS, Community Board 14, Queens, recommends approval of this application; and

WHEREAS, this application is brought by the Department of Housing Preservation and Development (“HPD”) on behalf of the owner and in connection with the Mayor’s Office of Housing Recovery Operations and the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in order to accept the application from HPD on behalf of the owner, the Board adopts a waiver of 2 RCNY § 1-09.4 (Owner’s Authorization); and

WHEREAS, the subject site is located on the east side of Lanark Road, approximately 200 feet south of East Ninth Road, within an R3-2 zoning district; and

WHEREAS, the site has 37 feet of frontage along Lanark Road and 2,775 sq. ft. of lot area; and

WHEREAS, the site is occupied by a flood-damaged

MINUTES

two-story, single-family home with 450 sq. ft. of floor area (0.16 FAR); and

WHEREAS, the applicant proposes to demolish the existing home and construct a two-story, single-family home with 868 sq. ft. of floor area (0.31 FAR); and

WHEREAS, the applicant states that the proposed building complies in all respects with the bulk regulations of the subject R3-2 district except that a rear yard depth of 21'-7" is proposed (a minimum rear yard depth of 30'-0" is required, per ZR § 23-47); and

WHEREAS, accordingly, the applicant seeks a special permit to allow the proposed rear yard; and

WHEREAS, pursuant to ZR § 64-92, in order to allow for alterations, developments, and enlargements in accordance with flood-resistant construction standards, the Board may permit modifications of ZR §§ 64-30 and 64-40 (Special Bulk Regulations for Buildings Existing on October 28, 2012), 64-60 (Design Requirements), 64-70 (Special Regulations for Non-conforming Uses and Non-complying Buildings), as well as all other applicable bulk regulations except floor area ratio; and

WHEREAS, in order to grant a special permit pursuant to ZR § 64-92, the Board must make the following findings:

(a) that there would be a practical difficulty in complying with flood-resistant construction standards without such modifications, and that such modifications are the minimum necessary to allow for an appropriate building in compliance with flood-resistant construction standards; (b) that any modification of bulk regulations related to height is limited to no more than ten feet in height or ten percent of the permitted height as measure from the flood-resistant construction elevation, whichever is less; and (c) the proposed modifications will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the Board may also prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant states that there would be a practical difficulty complying with the flood-resistant construction standards without the modification of the front yard requirement, in accordance with ZR § 64-92(a); and

WHEREAS, specifically, the applicant states that the proposed building is required to have exterior walls that are 12 inches thick, which diminishes the amount of interior floor space; thus, the proposed yard waiver allows the construction of a flood-resistant building with a viable building footprint to compensate for the loss of interior space and comply with all yard regulations except the rear yard; and

WHEREAS, the Board agrees that there would be a practical difficulty complying with the flood-resistant construction standards without the requested rear yard waiver; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the Board finds that the ZR § 64-92(b) finding is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the surrounding neighborhood is characterized by one- and two-story, single- and two-family homes; as such, the applicant states that the proposal is consistent with the existing context; and

WHEREAS, the applicant also contends that the proposal reflects a smaller footprint, a wider side yards, and a deeper front yard than the existing building; therefore, the proposal will provide significantly more open space on the site than is currently provided; and

WHEREAS, the Board finds that the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed enlargement satisfies all of the relevant requirements of ZR § 64-92; and

Therefore it is Resolved, that the Board of Standards and Appeals waives the Rules of Practice and Procedure, issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92, to permit, on a site within an R3-2 zoning district, the construction of a single-family home, which does not comply with the zoning requirements for rear yards, contrary to ZR § 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received September 26, 2014"- four (4) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 868 sq. ft. of floor area (0.31 FAR) and a minimum rear yard depth of 21'-7", as illustration the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT this approval is limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by

MINUTES

October 7, 2018;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 7, 2014.

The resolution has been amended to change the signed off date in part of the conditions which read “October 7, 2015”...now reads: “October 7, 2018”. Corrected in Bulletin No. 44, Vol. 99, dated November 5, 2014.

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to permit, on a site within an R3-2 zoning district, the construction of a single-family home, which does not comply with the zoning requirements for a vertical extension of non-complying side yards, contrary to ZR §§ 23-461, 54-313 and 54-41; and

WHEREAS, a public hearing was held on this application on September 23, 2014, after due notice by publication in *The City Record*, and then to decision on October 7, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Montanez; and

WHEREAS, Community Board 14, Queens, recommends approval of this application; and

WHEREAS, this application is brought by the Department of Housing Preservation and Development (“HPD”) on behalf of the owner and in connection with the Mayor’s Office of Housing Recovery Operations and the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in order to accept the application from HPD on behalf of the owner, the Board adopts a waiver of 2 RCNY § 1-09.4 (Owner’s Authorization); and

WHEREAS, the subject site is located on the north side of West 12th Road, between Cross Bay Boulevard and Jamaica Bay, within an R3-2 zoning district; and

WHEREAS, the site has 24.5 feet of frontage along West 12th Road and 2,450 sq. ft. of lot area; and

MINUTES

WHEREAS, the site is occupied by a flood-damaged one-story, single-family home with 700 sq. ft. of floor area (0.29 FAR); the existing home has the following non-compliances: a front yard depth of 8'-0" (a minimum front yard depth of 18'-0" is required, per ZR § 23-45); and side yards with widths of 3'-3" (western side yard) and 0'-6" (eastern side yard) (the requirement is two side yards with a minimum total width of 13'-0" and a minimum width of 5'-0" each, per ZR § 23-461; however, non-complying side yards may be reconstructed, per ZR § 54-41); and

WHEREAS, the applicant proposes to demolish the existing building and construct a two-story, single-family home with 868 sq. ft. of floor area (0.36 FAR); the new building will provide a front yard depth of 20'-0", a rear yard depth of 49'-0", a western side yard width of 5'-2½", and eastern side yard width of 4'-6"; and

WHEREAS, the applicant represents that the buildings directly east and west of the proposed building are built to the sites' common side lot lines; as such, the building directly east of the site will be located 4'-6" from the proposed building and the building directly west of the site will be located 5'-2½" from the proposed building; and

WHEREAS, the applicant notes that pursuant to ZR §§ 54-313 (Single- or Two-family Residences with Non-complying Front Yards or Side Yards), 54-41 (Permitted Reconstruction) and 64-723 (Non-complying Single- and Two-family Residences), the existing non-complying yards may be maintained in a reconstruction and vertically enlarged, provided that, per ZR § 54-313, a minimum distance of 8'-0" is maintained between the non-complying side yards and the building on the adjoining zoning lot; and

WHEREAS, thus, the applicant the applicant seeks a special permit to allow construction of the new building with a distance of less than 8'-0" from the buildings directly west and east of the site; and

WHEREAS, pursuant to ZR § 64-92, in order to allow for alterations, developments, and enlargements in accordance with flood-resistant construction standards, the Board may permit modifications of ZR §§ 64-30 and 64-40 (Special Bulk Regulations for Buildings Existing on October 28, 2012), 64-60 (Design Requirements), 64-70 (Special Regulations for Non-conforming Uses and Non-complying Buildings), as well as all other applicable bulk regulations except floor area ratio; and

WHEREAS, in order to grant a special permit pursuant to ZR § 64-92, the Board must make the following findings:

(a) that there would be a practical difficulty in complying with flood-resistant construction standards without such modifications, and that such modifications are the minimum necessary to allow for an appropriate building in compliance with flood-resistant construction standards; (b) that any modification of bulk regulations related to height is limited to no more than ten feet in height or ten percent of the permitted height as measure from the flood-resistant construction elevation, whichever is less; and (c) the proposed modifications will not alter the essential character

of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the Board may also prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant states that there would be a practical difficulty complying with the flood-resistant construction standards without the modification of the side yard requirements, in accordance with ZR § 64-92(a); and

WHEREAS, specifically, the applicant states that the proposed building is required to have exterior walls that are 12 inches thick, which diminishes the amount of interior floor space; thus, the proposed side yard waivers allow the construction of a flood-resistant building with a viable building footprint to compensate for the loss of interior space; and

WHEREAS, the Board agrees that there would be a practical difficulty complying with the flood-resistant construction standards without the requested side yard waivers; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the Board finds that the ZR § 64-92(b) finding is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the surrounding neighborhood is characterized by one- and two-story, single- and two-family homes; as such, the applicant states that the proposal is consistent with the existing context; and

WHEREAS, the applicant also contends that the proposal reflects a smaller footprint, a rear yard depth of 49'-0" where a depth of only 30'-0" is required, and increase in front yard depth from a non-complying 8'-0" to a complying 20'-0"; in addition, it increases one side yard width by 1'-11" and increases the other side yard width by 4'-0"; and

WHEREAS, the Board finds that the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed enlargement satisfies all of the relevant requirements of ZR § 64-92; and

Therefore it is Resolved, that the Board of Standards

MINUTES

and Appeals waives the Rules of Practice and Procedure, issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92, to permit, on a site within an R3-2 zoning district, the construction of a single-family home, which does not comply with the zoning requirements for vertical extension of non-complying side yards, contrary to ZR §§ 23-461, 54-313 and 54-41; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received September 26, 2014"- four (4) sheet; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 868 sq. ft. of floor area (0.36 FAR) and side yards with minimum widths of 5'-2½" and 4'-6", as illustrated on the BSA- approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT this approval is limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by October 7, 2018;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 7, 2014.

The resolution has been amended to change the signed off date in part of the conditions which read "October 7, 2015" now reads: "October 7, 2018". Corrected in Bulletin No. 44, Vol. 99, dated November 5, 2014.

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to permit, on a site within an R4A zoning district, the construction of a single-family home, which does not comply with the zoning requirements for vertical extension of non-complying side yards, contrary to ZR §§ 23-461, 54-313 and 54-41; and

WHEREAS, a public hearing was held on this application on September 23, 2014, after due notice by publication in *The City Record*, and then to decision on October 7, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Montanez; and

WHEREAS, Community Board 14, Queens, recommends approval of this application; and

WHEREAS, this application is brought by the Department of Housing Preservation and Development (“HPD”) on behalf of the owner and in connection with the Mayor’s Office of Housing Recovery Operations and the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in order to accept the application from HPD on behalf of the owner, the Board adopts a waiver of 2 RCNY § 1-09.4 (Owner’s Authorization); and

WHEREAS, the subject site is located on the northeast corner of the intersection of Beach 72nd Street and Thursby Avenue, within an R4A zoning district; and

WHEREAS, the site has 100 feet of frontage along

MINUTES

Beach 72nd Street, 22.5 feet of frontage along Thursby Avenue, and 2,250 sq. ft. of lot area; and

WHEREAS, the site is occupied by a flood-damaged one-story, single-family home with 867 sq. ft. of floor area (0.39 FAR); the existing home has the following non-compliances: a front yard depth of 5'-10" along Thursby Avenue (a minimum front yard depth of 18'-0" is required along Thursby Avenue, per ZR § 23-45); a front yard depth of 4'-0" along Beach 72nd Street (a minimum front yard depth of 10'-0" is required along Beach 72nd Street, per ZR § 23-45) and no side yard (the requirement is one side yard with a minimum width of 2'-0", per ZR § 23-461 and non-complying side yards may be reconstructed, per ZR § 54-41); and

WHEREAS, the applicant proposes to demolish the existing building and construct a two-story, single-family home with 868 sq. ft. of floor area (0.39 FAR); the new building will provide a front yard depth of 18'-9" along Thursby Avenue, a front yard depth of 4'-3" along Beach 72nd Street, a rear yard depth of 45'-7", and one side yard width of 4'-3"; and

WHEREAS, the applicant represents that the building directly east of the proposed building is built to the sites' common side lot line; as such, the building directly east of the site will be located 4'-3" from the proposed building; and

WHEREAS, the applicant notes that pursuant to ZR §§ 54-313 (Single- or Two-family Residences with Non-complying Front Yards or Side Yards), 54-41 (Permitted Reconstruction) and 64-723 (Non-complying Single- and Two-family Residences), the existing non-complying yards may be maintained in a reconstruction and vertically enlarged, provided that, per ZR § 54-313, a minimum distance of 8'-0" is maintained between the non-complying side yards and the building on the adjoining zoning lot; and

WHEREAS, thus, the applicant seeks a special permit to allow construction of the new building with a distance of less than 8'-0" from the building directly east of the site; and

WHEREAS, pursuant to ZR § 64-92, in order to allow for alterations, developments, and enlargements in accordance with flood-resistant construction standards, the Board may permit modifications of ZR §§ 64-30 and 64-40 (Special Bulk Regulations for Buildings Existing on October 28, 2012), 64-60 (Design Requirements), 64-70 (Special Regulations for Non-conforming Uses and Non-complying Buildings), as well as all other applicable bulk regulations except floor area ratio; and

WHEREAS, in order to grant a special permit pursuant to ZR § 64-92, the Board must make the following findings:

(a) that there would be a practical difficulty in complying with flood-resistant construction standards without such modifications, and that such modifications are the minimum necessary to allow for an appropriate building in compliance with flood-resistant construction standards; (b) that any modification of bulk regulations related to height is limited to no more than ten feet in height or ten percent of the permitted height as measure from the flood-resistant

construction elevation, whichever is less; and (c) the proposed modifications will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of accordance with flood-resistant construction standards; and

WHEREAS, the Board may also prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant states that there would be a practical difficulty complying with the flood-resistant construction standards without the modification of the side yard requirements, in accordance with ZR § 64-92(a); and

WHEREAS, specifically, the applicant states that the proposed building is required to have exterior walls that are 12 inches thick, which diminishes the amount of interior floor space; thus, the proposed side yard waivers allow the construction of a flood-resistant building with a viable building footprint to compensate for the loss of interior space; and

WHEREAS, the Board agrees that there would be a practical difficulty complying with the flood-resistant construction standards without the requested side yard waivers; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the Board finds that the ZR § 64-92(b) finding is inapplicable in this case; and

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to permit, on a site within an R4-1 zoning district, the construction of a single-family home, which does not comply with the zoning requirements for a vertical extension of non-complying side yards, contrary to ZR §§ 23-461, 54-313 and 54-41; and

WHEREAS, a public hearing was held on this application on September 23, 2014, after due notice by publication in *The City Record*, and then to decision on October 7, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Montanez; and

WHEREAS, Community Board 14, Queens, recommends approval of this application; and

WHEREAS, the owner of the adjacent site testified in opposition to application, citing concerns regarding the proposed height and front yard depth of the building; and

WHEREAS, this application is brought by the Department of Housing Preservation and Development (“HPD”) on behalf of the owner and in connection with the Mayor’s Office of Housing Recovery Operations and the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in order to accept the application from HPD on behalf of the owner, the Board adopts a waiver of 2 RCNY § 1-09.4 (Owner’s Authorization); and

WHEREAS, the subject site is located on the west side of Beach 87th Street between Dormans Court and the

MINUTES

Rockaway Freeway, within an R4-1 zoning district; and

WHEREAS, the site has 20 feet of frontage along Beach 87th Street and 2,268 sq. ft. of lot area; and

WHEREAS, the site is occupied by a two flood-damaged, one-story, single-family homes with a combined 1,800 sq. ft. of floor area (0.79 FAR); the existing site has the following yard non-compliances: a front yard depth of 6'-4" (a minimum front yard depth of 10'-0" is required, per ZR § 23-45); and side yards with widths of 3'-0" (northern side yard) and 1'-2" (southern side yard) (the requirement is two side yards with minimum widths of 4'-0", per ZR § 23-461; however, non-complying side yards may be reconstructed, per ZR § 54-41); and

WHEREAS, the applicant proposes to demolish the existing building and construct a two-story, single-family home with 1,400 sq. ft. of floor area (0.62 FAR); the new building will provide a front yard depth of 10'-0", a rear yard depth of 43'-9", a northern side yard width of 3'-0", and southern side yard width of 3'-0"; and

WHEREAS, the Board notes that, initially, the applicant proposed a front yard depth of 18'-0"; however, in response to concerns raised by the owner of the adjacent site, the proposal was amended to reflect a front yard depth of 10'-0"; and

WHEREAS, the applicant represents that the building directly north of the site is located 1'-6" from the sites' common side lot line and that the building directly south of the site is located 1'-10" from the sites' common side lot line; and

WHEREAS, the applicant notes that pursuant to ZR §§ 54-313 (Single- or Two-family Residences with Non-complying Front Yards or Side Yards), 54-41 (Permitted Reconstruction) and 64-723 (Non-complying Single- and Two-family Residences), the existing non-complying yards may be maintained in a reconstruction and vertically enlarged, provided that, per ZR § 54-313, a minimum distance of 8'-0" is maintained between the non-complying side yards and the building on the adjoining zoning lot; in addition, as noted above, per ZR § 23-461, side yards must have a minimum width of 4'-0"; and

WHEREAS, thus, the applicant seeks a special permit to allow construction of the new building with a distance of less than 8'-0" from the buildings directly north and south of the site; and

WHEREAS, pursuant to ZR § 64-92, in order to allow for alterations, developments, and enlargements in accordance with flood-resistant construction standards, the Board may permit modifications of ZR §§ 64-30 and 64-40 (Special Bulk Regulations for Buildings Existing on October 28, 2012), 64-60 (Design Requirements), 64-70 (Special Regulations for Non-conforming Uses and Non-complying Buildings), as well as all other applicable bulk regulations except floor area ratio; and

WHEREAS, in order to grant a special permit pursuant to ZR § 64-92, the Board must make the following findings:

(a) that there would be a practical difficulty in complying with flood-resistant construction standards without such

modifications, and that such modifications are the minimum necessary to allow for an appropriate building in compliance with flood-resistant construction standards; (b) that any modification of bulk regulations related to height is limited to no more than ten feet in height or ten percent of the permitted height as measure from the flood-resistant construction elevation, whichever is less; and (c) the proposed modifications will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the Board may also prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant states that there would be a practical difficulty complying with the flood-resistant construction standards without the modification of the side yard requirements, in accordance with ZR § 64-92(a); and

WHEREAS, specifically, the applicant states that the proposed building is required to have exterior walls that are 12 inches thick, which diminishes the amount of interior floor space; thus, the proposed side yard waivers allow the construction of a flood-resistant building with a viable building footprint to compensate for the loss of interior space; and

WHEREAS, the Board agrees that there would be a practical difficulty complying with the flood-resistant construction standards without the requested side yard waivers; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the Board finds that the ZR § 64-92(b) finding is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the surrounding neighborhood is characterized by one- and two-story, single- and two-family homes; as such, the applicant states that the proposal is consistent with the existing context; and

WHEREAS, the applicant also contends that the proposal reflects a smaller footprint, a rear yard depth of 43'-9" where a depth of 30'-0" is required, and increase in front yard depth from a non-complying 6'-4" to a complying 10'-0"; in addition, it increases the width of one side yard by 1'-10"; and

WHEREAS, the Board finds that the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in

MINUTES

consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed enlargement satisfies all of the relevant requirements of ZR § 64-92; and

Therefore it is Resolved, that the Board of Standards and Appeals waives the Rules of Practice and Procedure, issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92, to permit, on a site within an R4-1 zoning district, the construction of a single-family home, which does not comply with the zoning requirements for a vertical extension of non-complying side yards, contrary to ZR §§ 23-461, 54-313 and 54-41; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received September 26, 2014"- four (4) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 1,400 sq. ft. of floor area (0.62 FAR) and side yards with minimum widths of 3'-0", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT this approval is limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by October 7, 2018;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 7, 2014.

The resolution has been amended to change the signed off date in part of the conditions which read "October 7, 2015" now reads: "October 7, 2018". Corrected in Bulletin No. 44, Vol. 99, dated November 5, 2014.

CORRECTION

This resolution adopted on October 7, 2014, under Calendar No. 212-14-BZ and printed in Volume 99, Bulletin Nos. 40-41, is hereby corrected to read as follows:

212-14-BZ

APPLICANT – Department of Housing Preservation & Development.

SUBJECT – Application August 29, 2014 – Special Permit (ZR 64-92) to waive bulk regulations for the replacement of homes damaged/destroyed by Hurricane Sandy, on properties which are registered in the NYC Build it Back Program. R5D zoning district.

PREMISES AFFECTED – 209A Beach 100th Street, clustered in Broad Channel neighborhoods, Edgemere / Somerville, and Rockaway Park neighborhoods of Community District 14 Queens. Block 16156, Lot 94. Borough of Queens.

COMMUNITY BOARD #14Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Otley-Brown and Commissioner Montanez ...4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to permit, on a site within an R5D (C1-3) zoning district, the construction of a single-family home, which does not comply with the zoning requirements for front and rear yards, contrary to ZR §§ 23-45 and 23-47; and

WHEREAS, a public hearing was held on this application on September 23, 2014, after due notice by publication in *The City Record*, and then to decision on October 7, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Montanez; and

WHEREAS, Community Board 14, Queens, recommends approval of this application; and

WHEREAS, this application is brought by the Department of Housing Preservation and Development ("HPD") on behalf of the owner and in connection with the Mayor's Office of Housing Recovery Operations and the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in order to accept the application from HPD on behalf of the owner, the Board adopts a waiver of 2 RCNY § 1-09.4 (Owner's Authorization); and

WHEREAS, the subject site is located on the west side of Beach 100th Street between the Rockaway Freeway and Rockaway Beach Boulevard, within an R5D (C1-3) zoning district; and

MINUTES

WHEREAS, the site has 52 feet of frontage along Beach 100th Street and 1,048 sq. ft. of lot area; and

WHEREAS, the site is occupied by a flood-damaged one-story, single-family home with 429 sq. ft. of floor area (0.41 FAR); the existing site has the following yard non-compliances: a front yard depth of 2'-6" (a minimum front yard depth of 5'-0" is required, per ZR § 23-45); side yards with widths of 1'-0" (southern side yard) and 16'-8" (northern side yard) (the requirement is one side yard with a minimum width of 8'-0", per ZR § 23-461; however, non-complying side yards may be reconstructed, per ZR § 54-41); and a rear yard depth of 5'-8" (a minimum rear yard depth of 10'-0" is required); and

WHEREAS, the applicant proposes to demolish the existing home and construct a two-story, single-family home with 868 sq. ft. of floor area (0.83 FAR), a front yard with a depth of 3'-0", side yards with widths of 3'-0" (southern side yard) and 16'-8" (northern side yard), and a rear yard with a depth of 3'-11½"; and

WHEREAS, accordingly, the applicant seeks a special permit to allow the proposed front and rear yards; and

WHEREAS, pursuant to ZR § 64-92, in order to allow for alterations, developments, and enlargements in accordance with flood-resistant construction standards, the Board may permit modifications of ZR §§ 64-30 and 64-40 (Special Bulk Regulations for Buildings Existing on October 28, 2012), 64-60 (Design Requirements), 64-70 (Special Regulations for Non-conforming Uses and Non-complying Buildings), as well as all other applicable bulk regulations except floor area ratio; and

WHEREAS, in order to grant a special permit pursuant to ZR § 64-92, the Board must make the following findings: (a) that there would be a practical difficulty in complying with flood-resistant construction standards without such modifications, and that such modifications are the minimum necessary to allow for an appropriate building in compliance with flood-resistant construction standards; (b) that any modification of bulk regulations related to height is limited to no more than ten feet in height or ten percent of the permitted height as measure from the flood-resistant construction elevation, whichever is less; and (c) the proposed modifications will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the Board may also prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant states that there would be a practical difficulty complying with the flood-resistant construction standards without the modification of the front and rear yard requirements, in accordance with ZR § 64-92(a); and

WHEREAS, specifically, the applicant states that the proposed building is required to have exterior walls that are

12 inches thick, which diminishes the amount of interior floor space; thus, the proposed yard waiver allows the construction of a flood-resistant building with a viable building footprint to compensate for the loss of interior space and comply with all yard regulations except the rear yard; and

WHEREAS, the Board agrees that there would be a practical difficulty complying with the flood-resistant construction standards without the requested rear yard waiver; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the Board finds that the ZR § 64-92(b) finding is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the surrounding neighborhood is characterized by one- and two-story, single- and two-family homes; as such, the applicant states that the proposal is consistent with the existing context; and

WHEREAS, the applicant also contends that the proposal reflects a lot coverage of 41 percent, which is identical to the existing home at the site and 20 percent less than is permitted as-of-right in the subject R5D (C1-3) district; in addition, the front yard depth is increased by 0'-6", and the southern side yard is increase by 2'-0"; and

WHEREAS, the Board finds that the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed enlargement satisfies all of the relevant requirements of ZR § 64-92; and

Therefore it is Resolved, that the Board of Standards and Appeals waives the Rules of Practice and Procedure, issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92, to permit, on a site within an R5D (C1-3) zoning district, the construction of a single-family home, which does not comply with the zoning requirements for front and rear yards, contrary to ZR §§ 23-45 and 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received September 26, 2014"- four (4) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the

MINUTES

building: a maximum floor area of 868 sq. ft. of floor area (0.83 FAR), a maximum lot coverage of 41 percent, a minimum front yard depth of 3'-0", and a minimum rear yard depth of 3'-11½", as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT this approval is limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by October 7, 2018;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 7, 2014.

The resolution has been amended to change the signed off date in part of the conditions which read "*October 7, 2015*" now reads: "*October 7, 2018*". Corrected in Bulletin No. 44, Vol. 99, dated November 5, 2014.

Ryan Singer, Executive Director

MINUTES

REGULAR MEETING TUESDAY MORNING, NOVEMBER 18, 2014 10:00 A.M.

Present: Chair Perlmutter, Vice-Chair Hinkson,
Commissioner Ottley-Brown and Commissioner Montanez

SPECIAL ORDER CALENDAR

724-56-BZ

APPLICANT – Eric Palatnik, P.C., for Praela Enterprises Ink., owner.

SUBJECT – Application June 12, 2014 – Amendment of a previously approved variance which permitted automotive repair (UG 16B). Application is to amend the length of an extension of term that was granted the Board from five years to ten years which expired November 20, 2012. R3-2 zoning district.

PREMISES AFFECTED – 42-42 Francis Lewis Boulevard, west side of Francis Lewis Boulevard, between 42nd Road and Northern Boulevard, Block 5373, Lot 26, Borough of Queens.

COMMUNITY BOARD #11Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez ...4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an amendment to permit a change to the length of the term for an automotive repair station; and

WHEREAS, a public hearing was held on this application on October 21, 2014, after due notice by publication in *The City Record*, and then to decision on November 18, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the Auburndale Improvement Association provided testimony in opposition to the proposed ten-year term, citing historic use of the site contrary to the conditions of the grant, including the storage of commercial vehicles onsite, excessive signage, and lack of landscaping; and

WHEREAS, the subject site is located on the west side of Francis Lewis Boulevard between 42nd Road and Northern Boulevard, within a C2-2 (R3-2) zoning district; and

WHEREAS, the site has 114.64 feet of frontage along Francis Lewis Boulevard and 10,020 sq. ft. of lot area; it is occupied by one-story automotive repair station (Use Group 16B) with 1,680 sq. ft. of floor area (0.17 FAR); and

WHEREAS, the Board has exercised jurisdiction over the subject site since November 19, 1957, when the Board

granted a variance to permit the construction and maintenance of a gasoline service station with accessory uses and parking for cars awaiting service for a term of 15 years; and

WHEREAS, subsequently, the term has been extended and the grant amended by the Board at various times; the most recent extension was on November 20, 2012, for a term of five years, to expire on November 19, 2017; and

WHEREAS, the applicant states that, as a small business owner, the five-year term imposes a financial hardship; the applicant notes that the five-year term was imposed due to certain historic non-compliances, which have since been eliminated; and

WHEREAS, the applicant states that the only non-compliance with the conditions of the 2012 grant was an illegally-parked commercial truck, which used the site for overnight parking for a limited period of time in early 2013; and

WHEREAS, therefore, the applicant states that it has operated in substantial compliance with the 2012 grant and seeks an amendment to modify the term of the 2012 grant from five years to ten years; and

WHEREAS, at hearing, the Board questioned a member of the Auburndale Improvement Association regarding the site's compliance with the conditions of the grant; and

WHEREAS, in response, the member acknowledged that the site has been operated in accordance with the conditions of the grant, with the exception of the isolated commercial truck parking incident discussed above; and

WHEREAS, based upon its review of the record, the Board finds that the requested amendment and extensions of term and time to obtain a certificate are appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated February 5, 2008, so that as amended the resolution reads: "to permit an extension of term for ten years from the prior grant, to expire on November 19, 2022; *on condition* that any and all work shall substantially conform to drawings as they apply to the objection above noted, filed with this application marked 'Received November 3, 2014'-(2) sheets; and *on further condition*:

THAT the term of this grant will be for ten years from the date of the prior grant, to expire on November 19, 2022;

THAT parking on the site will be limited to vehicles awaiting service and any other commercial or overnight parking is prohibited;

THAT signage and landscaping will conform to the BSA-approved plans;

THAT the above conditions will be listed on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s); and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the

MINUTES

Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

(DOB Application No. 401766665)

Adopted by the Board of Standards and Appeals, November 18, 2014.

162-95-BZ & 163-95-BZ

APPLICANT – Warshaw Burstein, LLP, for Mario Bonavita, owner; Pelham Bay Fitness Group, LLC, owner. SUBJECT – Application April 25, 2014 – Extension of Term of a previously approved Special Permit (§73-36) on the first and mezzanine floor of the existing building to allow for its continued operation. C2-4 zoning district.

PREMISES AFFECTED – 3060 & 3074 Westchester Avenue, southeast side of Westchester Avenue between Mahan Avenue and Hobart Avenue, Block 4196, Lot(s) 9, 11, 13, Borough of Bronx.

COMMUNITY BOARD #10BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez ...4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of the term of previously granted special permits for a physical culture establishment (“PCE”), which expired on April 24, 2014; and

WHEREAS, a public hearing was held on this application on September 23, 2014, after due notice by publication in *The City Record*, and then to decision on November 18, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson and Commissioner Ottley-Brown; and

WHEREAS, Community Board 10, Bronx, recommends approval of this application; and

WHEREAS, the PCE is located on the south side of Westchester Avenue, between Mahan Avenue and Hobart Avenue, partially within a C2-4 (R6) zoning district and partially within a C2-4 (R7-1) zoning district; and

WHEREAS, the site comprises three separate tax lots (Lots, 9, 11, and 13) occupied by two adjoining one-story and mezzanine commercial buildings; the 3060 Westchester Avenue building is located on Lot 9, and the 3074 Westchester Avenue building is located on Lot 11 and a portion of Lot 13; and

WHEREAS, the applicant states that the buildings have an opening between them and the subject PCE operates in both buildings; and

WHEREAS, the PCE currently occupies a combined total of 17,212 sq. ft. of floor area on the first floors and mezzanines of the two buildings (8,551 sq. ft. of floor area in the 3060 Westchester Avenue building and 8,661 sq. ft. of

floor area in the 3074 Westchester Avenue building); and

WHEREAS, the applicant notes that the PCE is operated as Planet Fitness; and

WHEREAS, the Board has exercised jurisdiction over the subject site since July 30, 1996 when, under the subject calendar numbers, the Board granted special permits for a PCE in the subject buildings for a term of ten years, which expired on July 30, 2006; and

WHEREAS, most recently, on April 24, 2012, the Board amended the grants to legalize an increase in the PCE’s size and extended the terms of the grants for two years, to expire on April 24, 2014; and

WHEREAS, therefore, the applicant now seeks a ten-year extension of the term of the grants; and

WHEREAS, at hearing, the Board questioned whether there would be sufficient parking for nighttime patrons of the PCE with the parking lot closed; and

WHEREAS, in response, the applicant stated that street parking was ample to accommodate the nighttime patrons of the PCE; and

WHEREAS, accordingly, based upon its review of the record, the Board finds that a ten-year extension of term and amendment are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, as adopted on July 30, 1996, so that as amended the resolution reads: “to extend the term for a period of ten years from the prior expiration of the grant, to expire on April 24, 2024, *on condition* that all work will substantially conform to the prior BSA-approved drawings; and *on further condition*:

THAT the term of this grant shall expire on April 24, 2024;

THAT accessory off-street attendant parking for 25 motor vehicles will be provided on the site, except between the hours of 12:00 a.m. and 6:00 a.m.;

THAT the above conditions will be listed on the certificate of occupancy;

THAT all conditions from prior resolutions not specifically waived by the Board remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, November 18, 2014.

178-03-BZ

APPLICANT – Eric Palatnik, P.C., for BP Products North America, Inc., owner.

SUBJECT – Application June 6, 2014 – Extension of Term of a Special Permit (§73-211) permitting the operation of an automotive service station (UG 16B) which expired on April 28, 2014. C2-2/R3-2 zoning district.

PREMISES AFFECTED – 114-02 Van Wyck Expressway, south west corner of Linden Boulevard and Van Wyck Expressway, Block 11661, Lot 7, Borough of Queens.

COMMUNITY BOARD #10Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez ...4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a reopening, and an extension of term for an automotive service station, which expired on April 28, 2014; and

WHEREAS, a public hearing was held on this application on September 16, 2014 after due notice by publication in *The City Record*, with a continued hearing on October 28, 2014, and then to decision on November 18, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson and Commissioner Montanez; and

WHEREAS, Community Board 10, Queens, recommends approval of this application; and

WHEREAS, the subject site is located at the southwest corner of the intersection of a service road for the Van Wyck Expressway and Linden Boulevard, within a C2-2 (R3-2) zoning district; and

WHEREAS, the site is occupied by a one-story automotive service station (Use Group 16); and

WHEREAS, the Board has exercised jurisdiction over the site since May 7, 1948, when under BSA Cal. No. 512-48-BZ, the Board granted a variance to allow the construction and operation of a gasoline service station contrary to use regulations; and

WHEREAS, on October 28, 2003, under the subject calendar number, the Board granted an application for a special permit pursuant to ZR §§ 73-211 and 73-03 to legalize the operation of the site as an automotive service station, to expire on April 28, 2004; on February 15, 2005, the Board reopened the grant and extended the term of the special permit until April 28, 2014; and

WHEREAS, accordingly, the applicant now seeks a further extension of the term; and

WHEREAS, at hearing, the Board directed the applicant to: (1) remove excessive signage from the site; (2) provide proof that the underground storage tanks at the site are not leaking; and (3) replace the worn and/or missing slats in the chain link fence; and

WHEREAS, as to the signage, the applicant submitted photographs depicting the removal of the excessive signage; and

WHEREAS, as to the underground storage tanks, the applicant represents that there are no underground storage tanks at the site; the applicant also notes that there was a spill on the site on January 25, 2012, which, according to New York State Department of Environmental Conservation records, was remedied and closed on February 9, 2012; and

WHEREAS, based upon its review of the record, the Board finds that the requested amendment and extensions of term and time to obtain a certificate are appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated October 28, 2003, so that as amended the resolution reads: “to grant an extension of the special permit for a term of ten years from the prior expiration, to expire on April 28, 2024; *on condition* that any and all work shall substantially conform to drawings as they apply to the objection above noted, filed with this application marked ‘Received June 6, 2014’-(5) sheets; and *on further condition*:

THAT this grant will be limited to a term of ten years, to expire on April 28, 2024;

THAT the worn and missing slats in the fence will be replaced;

THAT the fence, including its slats, will be maintained in good condition;

THAT a certificate of occupancy will be obtained by November 18, 2015;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, November 18, 2014.

833-52-BZ

THE RESOLUTION –

WHEREAS, this is an application to permit the construction of a two-family home that does not front a mapped street, contrary to General City Law § 36; and

WHEREAS, a public hearing was held on this application on November 18, 2014, after due notice by publication in *The City Record*, and then to decision on same date; and

WHEREAS, the premises and surrounding area had a

MINUTES

site and neighborhood examination by Commissioner Montanez; and

WHEREAS, this application is brought by the Department of Housing Preservation and Development (“HPD”) on behalf of the owner and in connection with the Mayor’s Office of Housing Recovery Operations and the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in order to accept the application from HPD on behalf of the owner, the Board adopts a waiver of 2 RCNY § 1-09.4 (Owner’s Authorization); and

WHEREAS, the subject property exists in a private community known as Seagate and is located on the tip of Coney Island, within an R3-1 zoning district; and

WHEREAS, the site has 8,000 sq. ft. of lot area and is currently vacant; it has 80 feet of frontage along Atlantic Avenue, an access road that does not appear on the City Map; and

WHEREAS, the applicant proposes to rebuild a two-family home with 4,000 sq. ft. of floor area (0.50 FAR); and

WHEREAS, because the site is located along an unmapped access road, the applicant requests a waiver of General City Law § 36; and

WHEREAS, by letter dated November 6, 2014, the Fire Department states that it has reviewed the proposal and has no objection; and

WHEREAS, based on the record, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved, the appeal is granted by the power vested in the Board by Section 36 of the General City Law and on condition that construction shall substantially conform to the drawing filed with the application marked “November 17, 2014”-(1) sheet, and on further condition:

THAT the approved plan shall be considered approved only for the portions related to the specific relief granted;

THAT the entire building will be fully-sprinklered in conformity with provisions of Chapter 9 of the 2008 Building Code;

THAT interconnected smoke alarms will be installed in accordance with Section 907.2.10 of the 2008 Building Code;

THAT the height of the building will not exceed 35 feet above the grade plane as defined by Section 502.1 of the 2008 Building Code;

THAT this approval is limited to the Build it Back program;

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, November 18, 2014.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated April 25, 2014, acting on DOB Application No. 121184912, reads, in pertinent part:

ZR 32-10 – Proposed physical culture establishment is not permitted as of right in R8A/C2-5 district; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site partially within a C2-5 (R8A) zoning district and partially within a C2-8 zoning district, within the Special Hudson Yards District, the legalization of an existing physical culture establishment (“PCE”) operating on the first story of a 23-story mixed residential and commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on September 16, 2014, after due notice by publication in the *City Record*, with a continued hearing on October 28, 2014, and then to decision on November 18, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Ottley-Brown; and

WHEREAS, Community Board 4, Manhattan, recommends approval of this application; and

WHEREAS, the subject site spans the west side of Tenth Avenue between West 37th Street and West 38th Street; it is located partially within a C2-5 (R8A) zoning district and partially within a C2-8 zoning district, within the Special Hudson Yards District; and

WHEREAS, the site has 197.5 feet of frontage along Tenth Avenue, 150.5 feet of frontage along West 37th Street, 195.5 feet of frontage along West 38th Street, and 34,167 sq. ft. of lot area; and

WHEREAS, the site is occupied by a 23-story mixed residential and commercial building; and

WHEREAS, the PCE occupies 6,107 sq. ft. of floor area on the first story and operates as Title Boxing Club; and

WHEREAS, the PCE’s hours of operation are Monday through Friday, from 5:45 a.m. to 9:00 p.m., and Saturday and Sunday, from 8:00 a.m. to 3:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE does not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither: 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, at hearing, the Board noted the application was a legalization and indicated that sound attenuation measures must be shown on the plans; and

WHEREAS, in response, the applicant recast the application as a legalization and submitted amended plans noting the PCE’s sound attenuation measures; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE operated without the special permit; and

WHEREAS, the Board finds that, under the conditions

MINUTES

and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 14-BSA-146M, dated May 2, 2014; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site partially within a C2-5 (R8A) zoning district and partially within a C2-8 zoning district, within the Special Hudson Yards District, the legalization of an existing PCE operating on the first story of an 23-story mixed residential and commercial building, contrary to ZR § 32-10; *on condition* that all work will substantially conform to drawings filed with this application marked "Received May 2, 2014"-(3) sheets; *on further condition*:

THAT the term of the PCE grant will expire on June 1, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by November 18, 2018;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, November 18, 2014.

PREMISES AFFECTED – 22-26 East 14th Street, between 5th Avenue and University Place, Block 571, Lot 7501, Borough of Manhattan.

COMMUNITY BOARD #2M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez ...4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated May 9, 2014, acting on DOB Application No. 121978182, reads, in pertinent part:

Proposed physical culture establishment is not permitted as of right in a C6-1 zoning district, per ZR Section 32-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C6-1 zoning district, the operation of a physical culture establishment ("PCE") in portions of the cellar and first story of a five-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on September 23, 2014, after due notice by publication in the *City Record*, and then to decision on November 18, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson and Commissioner Ottley-Brown; and

WHEREAS, Community Board 2, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is a through lot with frontages along East 13th Street (82'-10") and East 14th Street (75'-0"), between Fifth Avenue and University Place, within a C6-1 zoning district; and

WHEREAS, the site has 15,747 sq. ft. of lot area and is occupied by a five-story commercial building with 78,735 sq. ft. of floor area; and

WHEREAS, the building, known as the Baumann Brothers Furniture and Carpets Store, was designated as a landmark by the Landmarks Preservation Commission ("LPC") in 2008; and

WHEREAS, the PCE will occupy a total of 14,105 sq. ft. of floor space, with 632 sq. ft. of floor area on the first story and 13,743 sq. ft. of floor space in the cellar; and

WHEREAS, the PCE will operate as Planet Fitness; and

WHEREAS, the PCE's hours of operation will be 24

MINUTES

hours per day, seven days per week; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE does not interfere with any pending public improvement project; and

WHEREAS, LPC has approved the proposed alterations of the building by Certificate of Appropriateness, dated June 6, 2014 and the proposed signage by Permit for Minor Work, dated September 24, 2014; and

WHEREAS, accordingly, the Board finds that this action will neither: 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, at hearing, the Board requested clarification regarding whether the PCE was in operation; and

WHEREAS, in response, the applicant represented that the PCE is not operating; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted an environmental review of the proposed Checklist action discussed in the CEQR Checklist No. 14-BSA-149M dated May 8, 2014; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site within a C6-1 zoning district, the operation of a PCE in portions of the cellar and first story of a five-story commercial building, contrary to ZR § 32-10; *on condition* that all work will substantially conform to drawings filed with this application marked "Received October 8, 2014" four (4) sheets; *on further condition*:

THAT the term of the PCE grant will expire on November 18, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or

maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by November 18, 2018;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

WHEREAS, the subject site is an irregularly-shaped corner lot located at northwest corner of the intersection of Macombs Road, West 172nd Street, and Inwood Avenue, within a C8-3 zoning district; and

WHEREAS, the site has 175.14 feet of frontage along Macombs Road, 6.11 feet of frontage along West 172nd Street, 206.17 feet of frontage along Inwood Avenue, and 12,877.5 sq. ft. of lot area; and

WHEREAS, the site is occupied by a two-story commercial building with 24,984 sq. ft. of floor area (1.94 FAR); and

WHEREAS, the PCE will occupy a total 16,307 sq. ft. of floor area, with 3,490 sq. ft. of floor area on the first story and 12,817 sq. ft. of floor area on the second story; and

WHEREAS, the PCE will operate as Blink Fitness; and

WHEREAS, the PCE's hours of operation will be Monday through Saturday, from 5:30 a.m. to 11:00 p.m. and Sunday, from 7:00 a.m. to 9:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE does not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither: 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 14-BSA-152X, dated May 8, 2014; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental

Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site within a C8-3 zoning district, the operation of a PCE in portions of the first and second stories of a two-story commercial building, contrary to ZR § 32-10; *on condition* that all work will substantially conform to drawings filed with this application marked "Received May 8, 2014"- Four (4) sheets; *on further condition*:

THAT the term of the PCE grant will expire on November 18, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by November 18, 2018;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, November 18, 2014.

MINUTES

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated May 7, 2014, acting on DOB Application No. 320377454, reads, in pertinent part:

Proposed physical culture establishment use is not permitted as-of-right in a C4-3 zoning district, per ZR Section 32-10; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C4-3 zoning district, the operation of a physical culture establishment (“PCE”) in portions of the first and second stories of a 13-story mixed residential, community facility, and commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on October 7, 2014 after due notice by publication in the *City Record*, and then to decision on November 18, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is a through lot with frontages along South Fifth Street (140’-2”) and Broadway (140’-2”), between Marcy Avenue and Havemeyer Street, within a C4-3 zoning district; the site has 28,046 sq. ft. of lot area; and

WHEREAS, under construction at the site is a 13-story mixed residential, community facility, and commercial building with 105,906 sq. ft. of floor area (3.78 FAR); and

WHEREAS, the PCE will occupy a total 17,878 sq. ft. of floor area, with 2,008 sq. ft. of floor area on the first story and 15,870 sq. ft. of floor area on the second story; and

WHEREAS, the PCE will operate as Planet Fitness; and

WHEREAS, the PCE’s hours of operation will 24 hours per day, seven days per week; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE does not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither: 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, at hearing, the Board directed the applicant to clarify its proposed sound attenuation measures; and

WHEREAS, in response, the applicant submitted amended plans to reflect the proposed sound attenuation measures, which include a buffer space between the PCE

and the community facility space on the second story; the applicant also notes that no dwelling will share a demising wall with the PCE; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 14-BSA-155K, dated May 15, 2014; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site within a C4-3 zoning district, the operation of a PCE in portions of the first and second stories of a 13-story mixed residential, community facility, and commercial building, contrary to ZR § 32-10; *on condition* that all work will substantially conform to drawings filed with this application marked “Received November 5, 2014”- Two (2) sheets; *on further condition*:

THAT the term of the PCE grant will expire on November 18, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by November 18, 2018;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

APPLICANT – Law Office of Fredrick A. Becker, for Gotham Broad LLC, owner; BFX 30 Broad Street LLC dba BFX Studio, lessee.

SUBJECT – Application June 25, 2014 – Special Permit (§73-36) to allow the operation of a physical culture establishment (*BFX Studio*) in portions of the second floor and second floor mezzanine with an entrance at the ground level. C5-5 zoning district.

PREMISES AFFECTED – 30 Broad Street, between Exchange Place and Beaver Street, Block 24, Lot 29, Borough of Manhattan.

COMMUNITY BOARD #1M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez ...4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated June 12, 2014, acting on DOB Application No. 121974300, reads, in pertinent part:

Proposed physical culture establishment at the first and second and mezzanine floor(s) is not permitted as-of-right in a C5-5 zoning district; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C5-5 zoning district, within the Special Lower Manhattan District, the operation of a physical culture establishment (“PCE”) in portions of the first and second stories and second story mezzanine of a 48-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on October 28, 2014, after due notice by publication in the *City Record*, and then to decision on November 18, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Manhattan, recommends approval of this application; and

WHEREAS, the subject site spans the south side of Exchange Place between New Street and Broad Street, within a C5-5 zoning district, within the Special Lower Manhattan District; and

WHEREAS, the site has 87.83 feet of frontage along New Street, 88.08 feet of frontage along Broad Street, 149.83 feet of frontage along Exchange Place, and 12,788 sq. ft. of lot area; and

WHEREAS, the site is occupied by a 48-story commercial building; and

WHEREAS, the PCE will occupy a total 15,806 sq. ft. of floor area, with 615 sq. ft. of floor area on the first story,

10,494 sq. ft. of floor area on the second story, 4,697 sq. ft. of floor area on the second story mezzanine; and

WHEREAS, the PCE will operate as BFX Studio; and

WHEREAS, the PCE’s hours of operation will be Monday through Friday, from 5:00 a.m. to 11:00 p.m. and Saturday and Sunday, from 6:00 a.m. to 8:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE does not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither: 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 15-BSA-015M, dated June 25, 2014; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site within a C5-5 zoning district, within the Special Lower Manhattan District, the operation of a PCE in portions of the first and second stories of a 48-story commercial building, contrary to ZR § 32-10; *on condition* that all work will substantially conform to drawings filed with this application marked “Received June 25, 2014”- Sixteen (16) sheets and “Received August 14, 2014”- One (1) sheet *on further condition*:

THAT the term of the PCE grant will expire on November 18, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or

MINUTES

maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by November 18, 2018;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

THE RESOLUTION –

WHEREAS, the decision of the Brooklyn Borough Commissioner of the Department of Buildings (“DOB”), dated September 12, 2013, acting on DOB Application No. 320787314, reads, in pertinent part:

ZR 32-10 - physical culture establishment is not permitted as-of-right in a C8 district; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C8-2 zoning district, the operation of a physical culture establishment (“PCE”) on portions of the first and second stories of a three-story mixed commercial and community facility building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on April 1, 2014, after due notice by publication in the *City Record*, and then to decision on April 29, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Hinkson and Commissioner Montanez; and

WHEREAS, Community Board 9, Brooklyn, recommends approval of the application; and

WHEREAS, the subject site is located on the east side of Flatbush Avenue, between Empire Boulevard and Lefferts Avenue, within a C8-2 zoning district; and

WHEREAS, the site has approximately 213 feet of frontage along Flatbush Avenue, approximately 234 feet of frontage along Washington Avenue, and 44,413 sq. ft. of lot area; and

WHEREAS, the site is occupied by a two-story mixed commercial and community facility building with approximately 78,795 sq. ft. of floor area (1.75 FAR); and

WHEREAS, the proposed PCE will occupy 2,000 sq. ft. of floor area on the first story and approximately 17,080 sq. ft. of floor area on the second story, for a total PCE floor area of approximately 19,080 sq. ft.; and

WHEREAS, the PCE will be operated as Planet Fitness; and

WHEREAS, the applicant represents that the services at the PCE include facilities for classes, instruction and programs for physical improvement, body building, weight reduction, and aerobics; and

WHEREAS, the hours of operation for the PCE will be seven days per week, 24 hours per day; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, at hearing, the Board directed the applicant to confirm that the proposed signage is in accordance with the C8-2 district regulations; and

WHEREAS, in response, the applicant provided a zoning analysis confirming that the proposed signage complies; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action discussed in the Environmental Assessment Statement, CEQR No.14BSA055K dated October 8, 2013; and

WHEREAS, the EAS documents that the operation of the PCE would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the

MINUTES

environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issued a Negative declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03 to permit, on a site within a C8-2 zoning district, the operation of a physical culture establishment (“PCE”) on portions of the first and second stories of a three-story mixed commercial and community facility building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “Received February 12, 2014” – Four (4) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on April 29, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT any massages will be performed only by New York State licensed massage professionals;

THAT Local Law 58/87 compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT substantial construction will be completed in accordance with ZR § 73-70;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, April 29, 2014.

The resolution has been amended to correct the 8th WHEREAS in the part which read: “three-story” now reads: “two-story”. Corrected in Bulletin Nos. 45-47, Vol. 99, dated November 27, 2014.

CORRECTION

This resolution adopted on October 28, 2014, under Calendar No. 106-14-A and printed in Volume 99, Bulletin No. 44, is hereby corrected to read as follows:

106-14-A

APPLICANT – Greenberg Traurig, LLP., for 84 William Street Property Owner LLC.

SUBJECT – Application May 22, 2014 – Appeals filed pursuant to MDL Section 310(2) (c) for variance of court requirements under MDL Sections 26 (7) & 30, to allow conversion of existing residential building to transient hotel use. C5-5 (LM) zoning district.

PREMISES AFFECTED – 84 William Street, northeast corner of the intersection of William Street and Maiden Lane, Block 68, Lot 16, Borough of Manhattan.

COMMUNITY BOARD #10M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez..4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated May 1, 2014, acting on DOB Application No. 121184672 reads, in pertinent part:

1. Existing inner court for proposed UG 5 transient hotel does not comply with MDL 26.7;
2. Legally required windows for proposed UG 5 transient hotel open onto an inner court which does not comply with MDL 26.7, contrary to MDL 30; and

WHEREAS, this is an application pursuant to Multiple Dwelling Law (“MDL”) § 310, to vary court requirements in order to allow for the proposed conversion of the subject building from residential use (Use Group 2) to a transient hotel (Use Group 5), contrary to the court requirements of MDL §§ 26(7) and 30; and

WHEREAS, a public hearing was held on this application on October 7, 2014, after due notice by publication in *The City Record*, and then to decision on October 28, 2014; and

WHEREAS, the site and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the northeast corner of the intersection of William Street and Maiden Lane, within a C5-5 zoning district within the Special Lower Manhattan District; and

WHEREAS, the site has 70.08 feet of frontage along William Street, 77.52 feet of frontage along Maiden Lane, and 7,601 sq. ft. of lot area; and

WHEREAS, the site is occupied by an 17-story mixed

MINUTES

residential and commercial building (the “Building”) with approximately 115,255 sq. ft. of floor area (15.2 FAR) and 121 dwelling units; and

WHEREAS, the site includes a court (the “Court”) with an area of 930 sq. ft. and a minimum distance of 19’-0” from windows opening onto the court and the nearest building wall; and

WHEREAS, the applicant states that the Building was constructed as an office building in 1907 and converted to a multiple dwelling with ground floor retail in 2001 pursuant to Article I, Chapter 5 of the Zoning Resolution; the applicant notes that 75 dwelling units in the Building have legally-required windows opening onto the Court, in accordance with MDL § 277, which permits legally-required windows to open onto a court with a minimum area of 100 sq. ft. and a minimum window-to-window/wall distance of 15’-0”; and

WHEREAS, the applicant proposes to enlarge the Building by two stories and convert it to a transient hotel (Use Group 5) with 137 hotel rooms and Use Group 6 uses on the first story; the applicant proposes extensive alterations to the interior of the building in order to accommodate the proposed uses, including the construction of new mechanical spaces, however, the applicant does not propose changes to the dimensions of the Court or to the windows opening onto the Court; and

WHEREAS, the applicant states that 75 hotel rooms will have legally-required windows opening onto the Court; and

WHEREAS, the Board notes that pursuant to MDL § 4(9), transient hotels are considered Class B multiple dwellings; therefore, the proposed hotel use must comply with the relevant provisions of the MDL; and

WHEREAS, pursuant to MDL § 4(32), the Court is considered an “inner court;” and

WHEREAS, MDL § 26(7) states that, except as otherwise provided in the Zoning Resolution, (1) an inner court shall have a minimum width of four inches for each one foot of height of such court and (2) the area of such inner court shall be twice the square of the required width of the court, but need not exceed 1,200 sq. ft. so long as there is a horizontal distance of at least 30 feet between any required living room window opening onto such court and any wall opposite such window; the applicant notes that the Zoning Resolution does not provide any standards for courts that serve transient hotels; and

WHEREAS, pursuant to MDL § 30, every room in a multiple dwelling must have one window opening directly upon a street or upon a lawful yard, court or space above a setback located on the same lot as that occupied by the multiple dwelling; and

WHEREAS, the applicant states that the Court, which, as noted above, has an area of 930 sq. ft. and a minimum window-to-window/wall distance of 19’-0”, does not satisfy the minimum requirements of MDL § 26(7); in addition, the applicant states that windows opening onto the Court cannot relied upon for light and ventilation, per MDL § 30; and

WHEREAS, accordingly, the applicant requests that the Board invoke its authority under MDL § 310 to permit the

proposed conversion contrary to MDL §§ 26(7) and 30; and

WHEREAS, pursuant to MDL § 310(2)(a), the Board has the authority to vary or modify certain provisions of the MDL for multiple dwellings that existed on July 1, 1948, provided that the Board determines that strict compliance with such provisions would cause practical difficulties or unnecessary hardships, and that the spirit and intent of the MDL are maintained, public health, safety and welfare are preserved, and substantial justice is done; and

WHEREAS, as noted above, the subject building was constructed in 1907; therefore the building is subject to MDL § 310(2)(a); and

WHEREAS, specifically, MDL § 310(2)(a) empowers the Board to vary or modify provisions or requirements related to: (1) height and bulk; (2) required open spaces; (3) minimum dimensions of yards or courts; (4) means of egress; and (5) basements and cellars in tenements converted to dwellings; and

WHEREAS, the Board notes that MDL § 26(7) specifically relates to the minimum dimensions of courts and MDL § 30 mandates that a legally-required window open upon, among other things, a lawful court; therefore, the Board has the power to vary or modify the subject provisions pursuant to MDL § 310(2)(a)(3); and

WHEREAS, the Board also observes that to the extent it permits a court at variance with the requirements of MDL § 26(7), such court is a “lawful court” upon which legally-required windows can open in accordance with MDL § 30; and

WHEREAS, turning to the findings under MDL § 310(2)(a), the applicant asserts that practical difficulty and unnecessary hardship would result from strict compliance with the MDL; and

WHEREAS, in support of this assertion, the applicant submitted a comparison between the proposal and the conversion of the Building to a transient hotel with a court that satisfies the minimum requirements of MDL §§ 26(7) and 30; and

WHEREAS, the applicant states that a complying court would require extensive demolition and exterior construction work around the court area to create the complying court and significant modifications to the layout of the hotel rooms, and would result in ten fewer rooms; and

WHEREAS, further, the applicant states that providing a complying court would cost approximately \$5,000,000 more than the proposal and yield \$950,000 less in annual revenue; and

WHEREAS, based on the above, the Board agrees that the applicant has established a sufficient level of practical difficulty and unnecessary hardship in complying with the requirements of the MDL; and

WHEREAS, the applicant states that the requested variance of MDL §§ 26(7) and 30 is consistent with the spirit and intent of the MDL, and will preserve public health, safety and welfare, and substantial justice; and

WHEREAS, specifically, the applicant states the primary intent of MDL §§ 26(7) and 30 is to ensure that

MINUTES

rooms within multiple dwellings have adequate light and ventilation; and

WHEREAS, the applicant states that although the dimensions of the Court are deficient under the MDL, the Court is contiguous with the 550 sq.-ft. inner court of the building located on Block 68, Lot 11; thus, the total area of the combined courts is 1,480 sq. ft., which is 280 sq. ft. more than the maximum required (1,200 sq. ft.) under MDL § 26(7); and

WHEREAS, the applicant states, as noted above, that, currently, the Building is permitted to be occupied for permanent residence purposes under MDL § 277 and the applicant asserts that it would be incongruous with the spirit and intent of the MDL to prevent transient use where permanent use is permitted; and

WHEREAS, likewise, the applicant states that visitors to the 75 proposed hotel rooms enjoy nearly the same amount of light and ventilation (19'-0" to the nearest window or wall) as visitors to hotels constructed with a rear yard depth of 20'-0" (the minimum required depth for a transient hotel under the Zoning Resolution); and

WHEREAS, the applicant also notes that because the Building will be used as a transient hotel, it will be used by visitors to New York City, who are unlikely to spend a substantial portion of daylight hours in their rooms; and

WHEREAS, at hearing, the Board inquired as to whether the hotel rooms would be provided with mechanical ventilation; and

WHEREAS, in response, the applicant confirmed that all 137 rooms would have mechanical ventilation in accordance with the applicable provisions of the relevant construction codes; and

WHEREAS, based on the above, the Board finds that the proposed modifications to the court requirements of MDL §§ 26(7) and 30 will maintain the spirit and intent of the MDL, preserve public health, safety and welfare, and ensure that substantial justice is done; and

WHEREAS, accordingly, the Board finds that the applicant has submitted adequate evidence in support of the findings required to be made under MDL § 310(2)(a) and that the requested modification of the court requirements of MDL §§ 26(7) and 30 is appropriate, with certain conditions set forth below.

Therefore it is Resolved, that the decision of the Department of Buildings, dated May 1, 2014, is modified and that this application is granted, limited to the decision noted above, on condition that construction will substantially conform to the plans filed with the application marked, "Received August 25, 2014"- (12) sheets and "October 3, 2014"- (5) sheets; and on further condition:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB objections related to the MDL;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the

Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 28, 2014.

The resolution has been amended to correct the SUBJECT. Corrected in Bulletin Nos. 45-47, Vol. 99, dated November 27, 2014.

MINUTES

**REGULAR MEETING
TUESDAY MORNING, NOVEMBER 25, 2014
10:00 A.M.**

Present: Chair Perlmutter, Vice-Chair Hinkson,
Commissioner Ottley-Brown and Commissioner Montanez.

SPECIAL ORDER CALENDAR

362-03-BZ

APPLICANT – Sheldon Lobel, P.C., for Reiss Realty Corp., owner.

SUBJECT – Application June 10, 2014 – Extension of Term for the continued operation of an accessory commercial open parking lot and accessory commercial storage shed which expired on May 11, 2014. R8 (*Special Clinton District*).

PREMISES AFFECTED – 428 West 45th Street, south side of West 45th Street between 9th and 10th Avenue, Block 1054, Lot 48, Borough of Manhattan.

COMMUNITY BOARD #4M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez....4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of term for an accessory parking lot to a commercial use, which expired on May 11, 2014; and

WHEREAS, a public hearing was held on this application on October 21, 2014, after due notice by publication in the *City Record*, and then to decision on November 25, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson and Commissioner Ottley-Brown; and

WHEREAS, Community Board 4, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of West 45th Street, between Ninth Avenue and Tenth Avenue, within an R8 zoning district, within the Special Clinton District; and

WHEREAS, the site has 125 feet of frontage along West 45th Street, and 2,500 sq. ft. of lot area; it is occupied by a one-story storage shed, a one-story commercial building, two four-story commercial buildings, a seven-story commercial building, and an open parking area; and

WHEREAS, the site has been subject to the Board's jurisdiction since April 15, 1941, when, under BSA Cal. No. 1071-40-BZ, the Board authorized the parking of more than five motor vehicles contrary to use regulations; and

WHEREAS, this grant was subsequently amended and extended at various times; and

WHEREAS, the grant lapsed in 1996 and, on May 11, 2004, under the subject calendar number, the Board granted an application to re-establish the variance for a ten-year term to expire on May 11, 2014; and

WHEREAS, accordingly, the applicant now seeks to further extend the term of the grant for ten years; and

WHEREAS, at hearing, the Board directed the applicant to: (1) clarify the type of items stored in the storage shed; (2) discuss the minor discrepancies between the approved site plan and the existing conditions, including the width of the curb cut (as approved, 10'-0" in width; as built, 24'-0") and the height of the fence along the eastern boundary of the site (as approved, 6'-0" in height; as built, 4'-0"); and (3) stripe the parking lot; and

WHEREAS, as to the items in the storage shed, the applicant states that dry goods, such as boxes of film reels and cans are stored in the shed; and

WHEREAS, as to the discrepancies between the approved site plan and the existing conditions, the applicant states that the widened curb cut improves the movement of vehicles throughout the site and the shorter fence provides an adequate buffer between the site and the adjacent residential building; and

WHEREAS, as to the striping of the parking lot, the applicant represents that the striping will occur subsequent to the Board's extension of the term; and

WHEREAS, the Board has determined that the evidence in the record supports a grant of the requested amendment to the prior resolution with the conditions listed below.

Therefore it is Resolved, that the Board of Standards and Appeals reopens and amends the resolution, dated May 11, 2004, so that as amended the resolution reads: "to grant an extension of the special permit for a term of ten years from the prior expiration, to expire on May 11, 2024; on condition that any and all work shall substantially conform to drawings as they apply to the objection above noted, filed with this application marked 'Received November 12, 2014'-(1) sheet; and on further condition: *on condition*:

THAT this grant shall be limited to a term of ten years, to expire on May 11, 2024;

THAT the parking shall be striped in accordance with the BSA-approved plans;

THAT all conditions from prior resolutions not specifically waived by the Board shall remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s); and

THAT the DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

(DOB Application No. 103568827)

Adopted by the Board of Standards and Appeals, November 25, 2014.

MINUTES

327-06-BZ

APPLICANT – Eric Palatnik, P.C., for 133 East 58th Street LLC, owner; Manhattan Sports Performance LLC, lessee.

SUBJECT – Application June 13, 2004 – Extension of Term of a previously granted Special Permit (73-36) for the continued operation a physical culture establishment (*Velocity Performance Sports*) which expired September 1, 2014. C5-2 zoning district.

PREMISES AFFECTED –133 East 58th Street, between Lexington And Park Avenues, Block 1313, Lot 14, Borough of Manhattan.

COMMUNITY BOARD #5M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez.....4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of term for a physical culture establishment (“PCE”), which expired on September 1, 2014; and

WHEREAS, a public hearing was held on this application on October 21, after due notice by publication in *The City Record*, and then to decision on November 25, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson and Commissioner Ottley-Brown; and

WHEREAS, Community Board 5, Manhattan, has no objection to this application; and

WHEREAS, the subject site is located on the northwest corner of Lexington Avenue and East 58th Street; within a C5-2 zoning district; and

WHEREAS, the site is occupied by a 14-story commercial building; and

WHEREAS, the PCE occupies approximately 8,790 sq. ft. of floor area on the sixth floor; and

WHEREAS, the PCE is operated as a Velocity Performance Sports; and

WHEREAS, on August 21, 2007, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-36, to permit, the legalization of the PCE, for a term of seven years, to expire on September 1, 2014; and

WHEREAS, accordingly, the applicant now seeks a further extension of term; and

WHEREAS, based upon its review of the record, the Board finds that an extension of term for ten years is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated August 21, 2007, so that as amended the resolution reads: “to grant an extension of the special permit for a term of ten years from the prior expiration; on condition that any and all work shall substantially conform to drawings as they apply to the

objection above noted, filed with this application marked ‘Received November 12, 2014’-(2) sheets; and on further condition: *on condition*:

THAT this grant shall be limited to a term of ten years, to expire on September 1, 2024;

THAT any massages shall be performed only by New York State licensed massage professionals;

THAT there shall be no change in ownership or operating control of the PCE without prior approval from the Board;

THAT the above conditions shall appear on the certificate of occupancy;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, November 25, 2014.

APPEALS CALENDAR

162-14-A

APPLICANT – Rampulla Associates Architects, for Lawrence O’Friel, owner.

SUBJECT – Application July 9, 2014 – Proposed construction of a single family detached home that does not front on a legally mapped street contrary to Article 3, Section 36 of the General City Law. R1-2 zoning district.

PREMISES AFFECTED – 100 Giegerich Avenue, west side Giegerich Avenue 431.10’ to Minerva Avenue, Block 7796, Lot 11(tentative), Borough of Staten Island.

COMMUNITY BOARD #3SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez....4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated June 12, 2014, acting on DOB Application No. 520196458, reads in pertinent part:

The proposed one family dwelling which does not front on a legally mapped street is contrary to Article 3, Section 36 of the General City Law; and

WHEREAS, this is an application to allow the construction of a detached, two-story, single-family home not fronting a mapped street contrary to General City Law (“GCL”) § 36; and

WHEREAS, a public hearing was held on this application on October 21, 2014, after due notice by publication in *The City Record*, to decision on November 25, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the west side

of Giegerich Avenue, approximately 430 feet south of Minerva Avenue, within an R1-2 zoning district, within the Special South Richmond Development District; and

WHEREAS, the site has approximately 125 feet of frontage along Giegerich Avenue and 32,877 sq. ft. of lot area;

WHEREAS, the applicant proposes to construct a detached, two-story, single-family home with 7,625 sq. ft. of floor area; the proposed home will front on Giegerich Avenue, an unmapped street with a width of 50 feet; and

WHEREAS, accordingly, the applicant requests a waiver of GCL § 36, which does not permit the construction of a building not fronting on a mapped street; and

WHEREAS, by letter dated August 25, 2014, the Fire Department states that it has reviewed the project and has no objections, provided the building is fully-sprinklered and a serviceable fire hydrant is located within 250 feet of the main front entrance of the home;

WHEREAS, the applicant notes that the building will be fully-sprinklered and that there is an existing fire hydrant on Giegerich Avenue, which will be 110 feet from the front door of the home; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant approval of the application subject certain conditions.

Therefore it is Resolved, that the decision of the DOB, dated June 12, 2014, acting on DOB Application No. 520196458, is modified by the power vested in the Board by Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked “Received October 31, 2014”-one (1) sheet; that the proposal will comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the home will be fully-sprinklered;

THAT the main entrance to the home will be located 250 feet or less from the nearest fire hydrant;

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals November 25, 2014.

Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated February 20, 2014, acting on DOB Application No. 121662664, reads, in pertinent part:

ZR 32-15 – Proposed Physical Culture

MINUTES

Establishment at zoning C1-8X is not permitted as-of-right; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C1-8X zoning district, the legalization of a physical culture establishment (“PCE”) on the cellar, first and second floor of a five story mixed residential and commercial use building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on September 16, 2014, after due notice by publication in the *City Record*, with a continued hearing on October 28, 2014, and then to decision on November 25, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Ottley-Brown and Vice Chair Hinkson; and

WHEREAS, Community Board 8, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the northeast corner of the intersection of Lexington Avenue and East 61st Street; it is located within a C1-8X zoning district; and

WHEREAS, the site has 80 feet of frontage along East 61st Street and 40.42 feet of frontage along Lexington Avenue, consisting of 3,234 sq. ft. of lot area; and

WHEREAS, the site is occupied by a five-story mixed residential and commercial building; and

WHEREAS, the PCE occupies 3,060 sq. ft. of floor area at the cellar, first floor, and second floor of the building and operates as Lush Cosmetics; and

WHEREAS, the PCE’s hours of operation are Monday through Saturday, from 10:00 a.m. to 9:00 p.m., and on Sunday, from 11:00 a.m. to 8:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE does not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither: 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, at hearing, the Board noted that the application, initially brought as an application to operate a PCE, was for the legalization of an existing PCE, and expressed concern that the signage displayed by the PCE was not in compliance with applicable regulations; and

WHEREAS, in response, the applicant recast the application as a legalization and represented that any signage would be in compliance with applicable regulations;

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE operated without the special permit; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action discussed in the CEQR Checklist No. 14BSA124M, dated March 11, 2014; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site within a C1-8X zoning district, the operation of a PCE on the cellar, first story, and second story of a 5-story mixed residential and commercial building, contrary to ZR § 32-10; *on condition* that all work will substantially conform to drawings filed with this application marked “November 13, 2014”- Five (5) sheets; *on further condition*:

THAT the term of the PCE grant will expire on January 1, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT all signage displayed at the site by the applicant shall conform to applicable regulations;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT accessibility compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by November 25, 2018;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, November 25, 2014.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated July 3, 2014, acting on DOB Application No. 122037474, reads, in pertinent part:

ZR 42-10 – Proposed Physical Culture Establishment at zoning M1-6 is not permitted as-of-right; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within an M1-6 zoning district and also within the Madison Square North Historic District, a physical culture establishment (“PCE”) on the cellar and first floor of an eighteen-story mixed use building, contrary to ZR § 42-10; and

WHEREAS, a public hearing was held on this application on November 25, 2014, after due notice by publication in the *City Record*, and then to decision on

MINUTES

November 25, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Vice Chair Hinkson; and

WHEREAS, Community Board 5, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the south side of West 27th Street, between Avenue of the Americas and Broadway, in an M1-6 zoning district within the Madison Square North Historic District; and

WHEREAS, the site has 50 feet of frontage along West 27th Street and 4,938 sq. ft. of lot area; and

WHEREAS, the site is occupied by an 18-story mixed residential and commercial building; and

WHEREAS, the PCE occupies 3,068 square feet of floor space at the cellar and 3,340 square feet of floor area on the first floor, with a total floor space of 6,408 square feet, and operates as SoulCycle Cosmetics; and

WHEREAS, the PCE's hours of operation are Monday through Saturday, from 5:30 a.m. to 11:00 p.m., and on Sunday, from 7:00 a.m. to 9:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE does not interfere with any pending public improvement project; and

WHEREAS, the Landmarks Preservation Commission has approved the proposed alterations of the building by Certificate of No Effect No. 16-1936, issued on August 27, 2014; and

WHEREAS, accordingly, the Board finds that this action will neither: 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Type II action discussed in the CEQR Checklist No.15BSA026M, dated July 10, 2014; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental

Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site within a M1-6 zoning district, within the Madison Square North Historic District, the operation of a PCE on the cellar and first story of an 18-story mixed residential and commercial building, contrary to ZR § 32-10; *on condition* that all work will substantially conform to drawings filed with this application marked "November 20, 2014"- Four (4) sheets; *on further condition*:

THAT the term of the PCE grant will expire on November 25, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT accessibility compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by November 25, 2018;

THAT this approval is limited to the relief granted by the Board in response to specifically cited objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, November 25, 2014.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter, Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez.....4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Manhattan Borough Commissioner, dated July 1, 2013, acting on Department of Buildings Application No. 121161857, reads in pertinent part:

1. ZR 24-11 - The lot coverage proposed exceeds that permitted.
2. ZR 24-382 - Provide the required minimum rear yard equivalent. The project site is a through lot, with a depth in excess of 180'-0".
3. ZR 24-33 - Only a (1) one story building portion, with a maximum height of 23'-0", is allowed as a permitted obstruction in a rear yard equivalent. The proposed building envelope indicates two stories and a mechanical space in the rear yard equivalent.
4. ZR 24-522 - The building envelope does [not] meet the initial setback requirement.
5. ZR 23-692 - The frontage on 92nd Street is less than 45'-0" in width. The proposed street-wall is higher than the width of the narrow street and higher than the lowest abutting building.
6. ZR 24-35B The proposed side yard, at the new vertical extension, is less than the required 8'-0"; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site within an R7-2 zoning district within the Upper West Side/Central Park West Historic District, the

enlargement of an existing school building, which does not comply with zoning regulations for lot coverage, permitted obstruction, rear yard equivalent, encroachment into the required initial setback distance, width and height of street wall, and side yard, contrary to ZR §§ 24-11, 24-382, 24-33, 24-522, 23-692, and 24-35; and

WHEREAS, a public hearing was held on this application on June 17, 2014, after due notice by publication in the *City Record*, with a continued hearing on August 19, 2014, and then to decision on October 7, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 7, Manhattan, recommends disapproval of the application; and

WHEREAS, certain members of the community testified at the hearing and provided testimony in opposition to the application (collectively, the "Opposition"), citing primary concerns about traffic generated by the school and construction disturbance; other concerns from a shareholder at 36 West 93rd Street include that there are inconsistencies between the subject application and a 2008 variance application for the School, specifically as related to the School's needs; and

WHEREAS, certain members of the community, the West Side Organization for Responsible Development ("WORD"), represented by counsel, cited concerns about traffic associated with the school and construction disturbance and requested the following conditions for any approval: (1) the School continue to work with the community to address traffic concerns and provide a written traffic plan; (2) the School provide a traffic, noise, and pollution baseline report prior to the Board's decision; (3) the School commit to not increasing enrollment by more than 30 students over the next ten years; (4) the School ensure that all construction is performed during the summer, and only on weekdays between the 9:00 a.m. and 5:00 p.m.; (5) the School provide the Board with a site logistics plan and construction calendar prior to a final resolution; (6) the rooftop not be used as a play area; and (7) that the community be consulted prior to installation of the rooftop HVAC systems, which must include sufficient sound mitigation; and

WHEREAS, this application is brought on behalf of Columbia Grammar & Preparatory School (the "School"), a nonprofit educational institution founded in 1764, which serves students from grades pre-kindergarten through 12; and

WHEREAS, the subject site is an interior through lot with frontage on West 93rd Street and West 92nd Street between Central Park West and Columbus Avenue, within an R7-2 zoning district within the Upper West Side/Central Park West Historic District; and

WHEREAS, the site is currently occupied by a five-story building with a sub-cellar and cellar constructed in 1996; the building includes 13 classrooms and ancillary facilities for students in grades 5 and 6, 12 high school classrooms, and several shared spaces, including two dining areas and four art

MINUTES

studios/technology classrooms; and

WHEREAS, the applicant notes that the School also occupies several other buildings in the vicinity: the lower division (pre-kindergarten through grade 4) occupies five interconnected brownstones on West 94th Street and 5 West 93rd Street, directly behind the brownstones; and the upper division (grades 7 through 12) occupies 4 West 93rd Street; and

WHEREAS, the School proposes to (1) build out an existing setback area at the West 92nd Street frontage at existing floors three and four; (2) build out an existing setback area at the West 93rd Street frontage at the existing fifth floor; and (3) add two new floors so that, upon completion, the building will consist of a sub-cellar, cellar and seven floors above grade; and

WHEREAS, the enlarged building will include ten additional middle school classrooms for a total of 23 classrooms, an additional art/technology studio and a library for the middle school, in addition to new space for faculty and administration offices; and

WHEREAS, while certain portions of the enlarged building will still be used by high school students (the cellar/first floor level will be occupied by high school classrooms and dining, half of the second floor will be high school classrooms and the third floor will contain shared art studios and technology classrooms), the number of high school classrooms will be reduced from 12 to eight and upper floors four through seven will be occupied solely by the middle school; and

WHEREAS, the applicant proposes to increase the building height from 68 feet to 95 feet, excluding rooftop bulkheads and mechanical space; increase the floor area from 28,187 sq. ft. (3.37 FAR) to 40,778 sq. ft. (4.88 FAR) (54,301 sq. ft. (6.50 FAR) is the maximum permitted); and

WHEREAS, because the enlargement does not comply with the applicable bulk regulations in the subject zoning district, the applicant seeks the requested variance; and

WHEREAS, the applicant states that the variance is necessary to meet the School's programmatic need to create a self-contained middle school and alleviate overcrowding in the high school building; and

WHEREAS, specifically, the applicant notes that the relocation of the seventh graders to the new building will free up space at the high school building; and

WHEREAS, the School also proposes to increase enrollment by 30 students which is still substantially below the demand for new admissions; and

WHEREAS, the applicant states that the proposed enlargement would result in 151 sq. ft. of space per student compared to the average new middle school in the region which provides 178.3 sq. ft. per student and 216.7 sq. ft. per high school student; and

WHEREAS, the applicant states that the proposed floor area to be added to the existing building is required to fulfill the School's longstanding goal of having a self-contained middle division consisting of grades five through seven; and

WHEREAS, the applicant asserts that the existing

building is too small to accommodate the organization of the school with lower, middle and upper divisions, as it was not designed to accommodate the necessary classrooms and ancillary space needed for a middle division; and

WHEREAS, the applicant asserts that the School is one of the last public or private schools in New York City with grades pre-kindergarten through 12 that does not have a separate middle school; and

WHEREAS, the applicant asserts that in the years since the School's facilities were developed, educators have come to recognize the benefits of grouping grades kindergarten through 12 into lower, middle and upper schools; and

WHEREAS, however, the applicant states that the School's space limitations have required it to maintain grades five and six in the existing building at the subject site as the final two years of its grammar school division and to house grade seven in its high school building; and

WHEREAS, the applicant notes that the proposed floor area is significantly less than the maximum allowed for the underlying zoning district; and

WHEREAS, the applicant asserts that the proposed encroachment into the existing rear yard equivalent (above the 23-ft. height for a permitted obstruction), combined with the build-out of the existing setback on West 93rd Street and the two additional floors above the West 92nd Street portion of the building, allows the school to create a rational design for the additional classrooms and ancillary facilities while minimizing the proposed height of the enlarged building to seven stories; and

WHEREAS, the applicant asserts that practical difficulties arise in complying strictly with the underlying bulk regulations; and

WHEREAS, additionally, the applicant asserts that the unique features affecting the site include (1) the lot's narrowness and odd shape with its varying frontages on West 92nd Street and West 93rd Street and (2) the existing building's unique footprint, configuration and structural support system; and

WHEREAS, as to the lot size and shape, the applicant notes that it has 45 feet of frontage along West 93rd Street and widens by approximately five feet at its eastern property line, then narrows at the midblock, and the property line runs slightly diagonal towards West 92nd Street where it has frontage of 35 feet; and

WHEREAS, further, the applicant states that the footprint of the existing under-built building reflects the inability to use space that would have been available in a more typical square-shaped lot; and

WHEREAS, the applicant states that the existing building's constraints require that the enlargement be constructed within the required setback area along West 93rd Street and within the rear yard equivalent, as well as above the 23-ft. tall portion of the building along West 92nd Street, thereby exceeding the maximum permitted lot coverage; and

WHEREAS, the applicant notes that the required sky exposure plane would be encroached into by 7'-7" along the West 93rd Street façade at the fifth and sixth floors due to the

MINUTES

inclusion of a middle school library at the fifth floor and two new classrooms at the sixth floor; and

WHEREAS, the applicant asserts that if the street wall on West 93rd Street were to set back to comply with the 7'-7" sky exposure plane encroachment, it would effectively eliminate the proposed rooms because their depth would be too narrow (with the presence of the existing elevator and stairwell); and

WHEREAS, the applicant asserts that the proposed location of the majority of the additional proposed floor area along West 93rd Street is driven in part by the existing building's structural support system; the applicant's architect and engineer state that the load capacity for the addition along West 93rd Street is designed to be distributed across both building sections to be supported by the building's existing column and foundation support system; and

WHEREAS, the applicant represents that its development team reviewed the possibility of shifting the proposed floor area from the West 93rd Street portion of the building to the West 92nd Street frontage, and determined that the existing transfer beams in the West 92nd Street portion of the building are already very close to their allowable stress level; and

WHEREAS, further, the applicant states that the relocation of the floor area is programmatically problematic since the building narrows along West 92nd Street, which does not accommodate sufficiently-sized classrooms; and

WHEREAS, finally, the applicant states that a major piece of mechanical equipment must be located in the proposed fourth floor addition, and its required air intake and discharge would be directed toward the "open" area on that floor; and

WHEREAS, accordingly, the applicant states that the propose enlargement most effectively meets the School's programmatic needs; and

WHEREAS, the Board acknowledges that the School, as an educational institution, is entitled to significant deference under the law of the State of New York as to zoning and as to its ability to rely upon programmatic needs in support of the subject variance application; and

WHEREAS, specifically, as held in Cornell Univ. v. Bagnardi, 68 N.Y.2d 583 (1986), an educational institution's application is to be permitted unless it can be shown to have an adverse effect upon the health, safety, or welfare of the community, and general concerns about traffic, and disruption of the residential character of a neighborhood are insufficient grounds for the denial of an application; and

WHEREAS, based upon the above, the Board finds that the programmatic needs of the School along with the existing constraints of the site create unnecessary hardship and practical difficulty in developing the site in compliance with the applicable zoning regulations; and

WHEREAS, since the School is a non-profit institution and the variance is needed to further its non-profit mission, the finding set forth at ZR § 72-21(b) does not have to be made in order to grant the variance requested in this application; and

WHEREAS, the applicant represents that the variance, if granted, will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare; and

WHEREAS, the applicant states that the site is located within the West Side Urban Renewal Area and the existing building was limited, in 1996, by the then-applicable West Side Urban Renewal Plan controls affecting the site, which were more restrictive than the applicable zoning bulk regulations (the West Side Urban Renewal Plan was established in 1962 and expired in 2002); and

WHEREAS, because the site is within the Upper West Side/Central Park West Historic District, the applicant has obtained a Certificate of Appropriateness from the Landmarks Preservation Commission ("LPC"), dated September 18, 2013 and amended January 14, 2014; and

WHEREAS, the applicant cites to LPC's designation report which states that the area's residential buildings range from three-, four-, and five-story row houses, to twelve- to seventeen-story multiple dwellings and also include eight- to twelve-story apartment hotels and studio buildings that are on both the avenues as well as streets; and

WHEREAS, additionally, the applicant cites to LPC's recognition that the Upper West Side is characterized by a variety of institutional buildings intended to meet the social, educational, and religious needs of neighborhood residents; and

WHEREAS, the applicant also cites to the Certificate of Appropriateness which states that "...the proposed additions will not cause damage to [the] historic fabric or any significant historic features of the district; that the construction of rooftop additions on this through-lot building will result in an overall building height that relates to the taller surrounding buildings; that the geometry of the addition, which raises the street wall two floors on West 93rd Street with set-back addition and two floors on West 92nd Street, will be compatible with the massing of other institutional buildings in this historic district..."; and

WHEREAS, the applicant asserts that the height and bulk of the proposed enlarged school building will be in context with the nearby buildings on the north and south sides of both West 92nd Street and West 93rd Street; and

WHEREAS, specifically, the applicant cites to 50 West 93rd Street to the west, which is eight stories, and 70 West 93rd Street, which is 31 stories; to the east of the high school building is 2 West 93rd Street with 16 stories and 325 Central Park West with 16 stories; and on the north side of West 92nd Street there are One West 92nd Street with 15 stories, 7 West 92nd Street with seven stories, 35 West 92nd Street, with 13 stories, and 73 West 92nd Street with 31 stories; on the north side of West 93rd Street to the west there is 37 West 93rd Street with eight stories and 689 Columbus Avenue with 16 stories; and to the east on the north side of West 93rd Street, 333 Central Park West with 12 stories; and

WHEREAS, in response to concerns raised by the Community Board regarding the potential impact on the light

MINUTES

and air to the immediately adjacent buildings along West 92nd Street, the proposed fourth floor (which contains mechanical equipment) has been reduced in depth to be located closer to West 92nd Street, and the proposed third floor roof has been sloped along the sides to allow additional light and air to the adjacent neighbors; and

WHEREAS, in response to the Opposition's concerns, the applicant asserts first that the traffic concerns associated with the School exist now and will not be exacerbated by the proposed enlargement of the building; and

WHEREAS, the applicant represents that its traffic consultant is conducting additional field observations and will develop additional recommendations to address the traffic concerns including whether it would be helpful to install a red light camera and left turn traffic signal at West 93rd Street and Central Park West or closing West 93rd Street to traffic during peak times; and

WHEREAS, the School states that it is committed to developing a comprehensive traffic plan for review and comment from the community and agrees to continue to work with the community to try to resolve existing traffic issues; the School commits to participating in a working group with representatives from WORD to ensure safe traffic and pedestrian conditions; and

WHEREAS, the applicant states that it considered several other suggestions which it concluded were not feasible such as student drop-off on Columbus Avenue, including staggered drop-off and pick-up times, student shuttles from offsite, and drop-off on West 92nd Street; and

WHEREAS, in response to the Opposition's proposed conditions, the School states that (1) it will establish a traffic plan in consultation with WORD, with whom it will meet on an ongoing basis to focus on traffic concerns and that it will coordinate with the Department of Transportation; (2) it has complied fully with CEQR requirements and that noise, traffic, and air quality analyses were not triggered by the proposal; (3) it proposes to add 30 students, but will not agree to cap enrollment; (4) it will strive to complete construction during the summer, only on weekdays and during business hours but notes the possibility of unforeseen delays which may require additional time; (5) it cannot produce a site logistics plan and construction calendar at this point in the process; (6) it does plan to use the sixth-floor rooftop for a play area but will fence and buffer it as well as limit the hours to school hours not to be later than 5:00 p.m.; and (7) the rooftop mechanicals will occupy the fourth-floor roof and will include an acoustical enclosure, all of which is subject to LPC approval; and

WHEREAS, finally, as to the Opposition's concerns about inconsistencies between the subject application and the 2008 variance application, the applicant states that numerous circumstances have changed since the 2008 application, which should be viewed independently from the subject application and that all current and prior claims were credible, based on the respective circumstances; and

WHEREAS, accordingly, the Board finds that this action will not alter the essential character of the

surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the applicant states that the hardship was not self-created, and that no development that would meet the programmatic needs of the School could occur given the existing conditions of the North Building and the South Building; and

WHEREAS, accordingly, the Board finds that the hardship herein was not created by the owner; and

WHEREAS, the applicant represents that the requested waivers are the minimum necessary to accommodate the School's current and projected programmatic needs; and

WHEREAS, as noted, the applicant revised the plans to provide additional setback and slope at the fourth and third floor, respectively; and

WHEREAS, the Board finds that the requested relief is the minimum necessary to allow the School to fulfill its programmatic needs; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Type I action pursuant to 6 NYCRR Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement, 13BSA049M dated October 12, 2012; and

WHEREAS, the EAS documents that the operation of the School would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Hazardous Materials; Waterfront Revitalization Program; Infrastructure; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; Construction Impacts; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved that the Board of Standards and Appeals issues a Type I Negative Declaration prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance to permit, on a site within an R7-2 zoning district within the Upper West Side/Central Park West Historic District, the enlargement of an existing school building, which does not comply with zoning regulations for lot coverage, permitted obstruction, rear

MINUTES

yard equivalent, encroachment into the required initial setback distance, width and height of street wall, and side yard, contrary to ZR §§ 24-11, 24-382, 24-33, 24-522, 23-692, and 24-35, *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this application marked “Received October 3, 2014”– fourteen (14) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a floor area of 40,778 sq. ft. (4.88 FAR) and total height of 95 feet, exclusive of bulkheads, as illustrated on the BSA-approved plans;

THAT the School will establish a traffic plan to improve traffic flow at the site, in a timely manner; measures, in consultation with the community working group, may include a red light camera and left turn traffic signal, among other measures;

THAT fencing and buffering will be installed around the sixth-floor rooftop play area, which will have hours not to exceed school hours and no use after 5:00 p.m.;

THAT the use of the fourth-floor rooftop will be limited to mechanical systems accessible for maintenance/service-related work, will comply with all Noise Code requirements, and will include an acoustical enclosure for the generator;

THAT any change in the use, occupancy, or operator of the School requires review and approval by the Board;

THAT construction will proceed in accordance with ZR § 72-23;

THAT all construction will be in conformance with the LPC Certificate of Appropriateness, dated September 18, 2013 and amended January 14, 2014;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT the Department of Buildings must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, October 7, 2014.

The resolution has been amended to correct part of the SUBJECT which read “rear yard equivalent (§24-332)”...now reads: “rear yard equivalent (§24-382)”. Corrected in Bulletin No. 48, Vol. 99, dated December 3, 2014.

**REGULAR MEETING
TUESDAY MORNING, DECEMBER 9, 2014
10:00 A.M.**

Present: Chair Perlmutter, Vice-Chair Hinkson,
Commissioner Ottley-Brown and Commissioner Montanez

SPECIAL ORDER CALENDAR

698-59-BZ

APPLICANT – Eric Palatnik, P.C., for Bolla EM Realty, LLC, owner.

SUBJECT – Application May 21, 2014 – Amendment of a previously approved variance to permit the conversion of the convenience store to a relocate and re-size curb cuts and to legalize the existing remediation equipment and location of the tanks and permit additional trees on the site. C2-2 zoning district.

PREMISES AFFECTED – 2773 Nostrand Avenue, northeast corner of Kings Highway and Nostrand Avenue, Block 7684, Lot 22, Borough of Brooklyn.

COMMUNITY BOARD #18BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez..4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a re-opening of a variance and an amendment to permit, on a site within an R4 (C2-2) zoning district, the conversion of the building for a gasoline service station (Use Group 16) to an accessory convenience store; and

WHEREAS, a public hearing was held on this application on September 23, 2014, after due notice by publication in *The City Record*, with a continued hearing on November 18, 2014, and then to decision on December 9, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 18, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is a triangular lot located on the northeast corner of the intersection of Nostrand Avenue and Kings Highway, within an R4 (C2-2) zoning district; and

WHEREAS, the site has 170.95 feet of frontage along Nostrand Avenue, 261.44 feet of frontage along Kings Highway, and 16,835 sq. ft. of lot area; and

WHEREAS, the site is occupied by a one-story building with 2,520 sq. ft. of floor area (0.15 FAR); the building is occupied by a gasoline service station (Use Group 16); and

WHEREAS, the Board has exercised jurisdiction over

the site since March 22, 1960, when, under the subject calendar number, it granted an application to permit reconstruction of an existing gasoline service station contrary to the use regulations of the 1916 Zoning Resolution; and

WHEREAS, the grant has been amended twice (in 1983 and 1987) to allow various site changes; and

WHEREAS, the applicant now seeks an amendment to permit the following: (1) the conversion of the one-story building at the site to an accessory convenience store; (2) the installation of a trash enclosure, parking stalls and a walkway in front of the store; (3) the relocation and closure of certain curb cuts; and (4) the planting of eight street trees along the frontages; and

WHEREAS, in addition, the applicant seeks approval for minor site plan modifications to reflect as-built conditions, including changes in the location of the gasoline tanks and remediation equipment; and

WHEREAS, the applicant notes that the proposal complies with DOB Technical Policy and Procedure Notice No. 10/1999, which sets forth the requirements for convenience stores accessory to gasoline and automotive service stations; and

WHEREAS, at hearing, the Board directed the applicant to: (1) clarify the status of remediation under New York State Department of Environmental Conservation (“DEC”) Spill No. 02-07518 (the “spill”); (2) submit an amended plan to reflect all as-built conditions and to clarify the site circulation plan; and (3) clarify the proposed hours of operation for the convenience store; and

WHEREAS, in response, as to the spill, the applicant represents that active remediation at the site has ceased but groundwater monitoring continues; and

WHEREAS, the applicant also submitted an amended site plan that reflects all as-built conditions; and

WHEREAS, as to the hours of operation, the applicant states that the convenience store will operate 24 hours per day, seven days per week; and

WHEREAS, based on its review of the record, the Board finds that the requested amendments are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated March 22, 1960, so that as amended the resolution reads: “to permit the noted modifications; *on condition* that all work shall substantially conform to drawings, filed with this application marked ‘Received November 5, 2014’– (7) sheets; and on further condition:

THAT the building shall have a maximum of 2,520 sq. ft. of floor area (0.15 FAR);

THAT the site shall be maintained free of debris and graffiti;

THAT signage shall be in accordance with C2 regulations;

THAT landscaping and buffering shall be maintained in accordance with the BSA-approved plans;

THAT lighting shall be directed downward and away from adjoining residences;

MINUTES

THAT the above conditions shall be noted in the Certificate of Occupancy;

THAT the remediation of the spill shall be in accordance with DEC requirements;

THAT a certificate of occupancy shall be obtained by December 9, 2015;

THAT all conditions from prior resolutions not specifically waived by the Board shall remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s); and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Application No. 320782159)

Adopted by the Board of Standards and Appeals, December 9, 2014.

822-59-BZ

APPLICANT – Eric Palatnik, P.C., for Bolla EM Realty, LLC., owner.

SUBJECT – Application January 9, 2014 – Amendment (§11-412) to convert existing automotive service bays into an accessory convenience store and enlarge the accessory building at an existing gasoline service station. C2-1/R3-2 zoning district.

PREMISES AFFECTED – 1774 Victory Boulevard, southwest corner of Victory Boulevard and Manor Road, Block 709, Lot 28, Borough of Staten Island.

COMMUNITY BOARD #1SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez..4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a re-opening of a variance and an amendment to permit, on a site within an R3-2 (C2-1) zoning district, the conversion of automotive service bays within a gasoline service station (Use Group 16) to an accessory convenience store, the enlargement of the service station building, the construction of an additional fuel dispenser, and other minor modifications to the site plan; and

WHEREAS, a public hearing was held on this application on October 7, 2014, after due notice by publication in *The City Record*, with a continued hearing on November 18, 2014, and then to decision on December 9, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 1, Staten Island,

recommends approval of this application; and

WHEREAS, the subject site is located on the southwest corner of the intersection of Victory Boulevard and Manor Road, within an R3-2 (C2-1) zoning district; and

WHEREAS, the site has 127.49 feet of frontage along Victory Boulevard, 100 feet of frontage along Manor Road, and 14,068 sq. ft. of lot area; and

WHEREAS, the site is occupied by a one-story building with 1,797 sq. ft. of floor area (0.13 FAR); the building is occupied by a gasoline service station (Use Group 16); and

WHEREAS, the Board has exercised jurisdiction over the site since June 7, 1960, when, under the subject calendar number, it granted an application to permit reconstruction of an existing gasoline service station contrary to the use regulations of the 1916 Zoning Resolution; and

WHEREAS, the grant has been amended at various times to allow modifications to the site and the building; and

WHEREAS, the applicant now seeks an amendment to permit the following: (1) the conversion of automotive service bays to an accessory convenience store; (2) the enlargement of the existing building from 1,797 sq. ft. of floor area (0.13 FAR) to 2,451 sq. ft. of floor area (0.17 FAR); (3) the narrowing and relocation of the curb cut along Manor Road; (4) the narrowing of the curb cut along Victory Boulevard; and (5) the installation of self-service air and vacuum stations; and

WHEREAS, the Board may, pursuant to ZR § 11-412, permit an enlargement to an existing use authorized by a variance under the 1916 Zoning Resolution, provided that such enlargement: (1) is limited to the zoning lot that was granted a variance prior to December 15, 1961; and (2) does not exceed 50 percent of the floor area of the building occupied by the use on December 15, 1961; and

WHEREAS, the applicant represents and the Board acknowledges that the proposal is within the limitations set forth in ZR § 11-412; and

WHEREAS, the applicant also notes that the proposal complies with DOB Technical Policy and Procedure Notice No. 10/1999, which sets forth the requirements for convenience stores accessory to gasoline and automotive service stations; and

WHEREAS, at hearing, the Board directed the applicant: (1) shift the Victory Boulevard curb cut so that it is outside the crosswalk and clarify that it complies with Department of Transportation (“DOT”) requirements; (2) provide details regarding the proposed landscaping and buffering of the site; (3) clarify that the proposed signage complies with the C2 regulations; (4) detail the proposed rear façade and provide a buffer of evergreen trees; (5) relocate the air and vacuum stations to the eastern portion of the site; (6) clarify the site circulation plan; and (7) provide appropriate sound attenuation for the proposed HVAC equipment; and

WHEREAS, in response, the applicant shifted the curb cut and submitted a letter from an engineer certifying that the relocated curb cut complies with DOT regulations; and

WHEREAS, as to the proposed landscaping, buffering, signage, rear façade, vacuum and air stations, and site

MINUTES

circulation plan, and sound attenuation measures for the HVAC equipment, the applicant submitted amended plans responding to the Board's concerns; and

WHEREAS, based on its review of the record, the Board finds that the requested amendments are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated June 7, 1960, so that as amended the resolution reads: "to permit the noted modifications; *on condition* that all work shall substantially conform to drawings, filed with this application marked 'Received November 25, 2014'-(6) sheets; and on further condition:

THAT the building shall have a maximum of 2,451 sq. ft. of floor area (0.17 FAR);

THAT the site shall be maintained free of debris and graffiti;

THAT signage shall be in accordance with C2 regulations;

THAT landscaping and buffering shall be maintained in accordance with the BSA-approved plans;

THAT lighting shall be directed downward and away from adjoining residences;

THAT the above conditions shall be noted in the Certificate of Occupancy;

THAT a certificate of occupancy shall be obtained by December 9, 2015;

THAT all conditions from prior resolutions not specifically waived by the Board shall remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s); and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

(DOB Application No. 520146217)

Adopted by the Board of Standards and Appeals, December 9, 2014.

203-92-BZ

APPLICANT – Jeffrey Chester, Esq., for Mowry Realty Associates LLC., The Fitness Place Forest Hills NY Ink., lessee.

SUBJECT – Application March 28, 2014 – Extension of Term of a previously approved Special Permit (§73-36) for the continued operation of a Physical Culture Establishment (*Lucille Roberts Gym*), which expired on March 1, 2014. C2-3(in R5D) zoning district.

PREMISES AFFECTED – 70-20 Austin Street, south side of Austin Street between 70th Avenue and 70th Road, Block 3234, Lot 173, Borough of Queens.

COMMUNITY BOARD #6Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez..4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of the term for a previously granted special permit for a physical culture establishment ("PCE"), which expired on March 1, 2014; and

WHEREAS, a public hearing was held on this application on October 7, 2014, after due notice by publication in *The City Record*, with a continued hearing on November 18, 2014, and then to decision on December 9, 2014; and

WHEREAS, Community Board 6, Queens, recommends approval of this application; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, the subject site is located on the south side of Austin Street, 333 feet west of 71st Avenue, within an R5D (C2-3) zoning district; and

WHEREAS, the site is occupied by a two-story building with approximately 27,200 sq. ft. of floor area; and

WHEREAS, the PCE is operated as a Lucille Roberts and occupies approximately 7,500 sq. ft. of floor area on the first story and approximately 5,320 sq. ft. of floor space in the cellar; and

WHEREAS, the site has been subject to the Board's jurisdiction since May 3, 1983, when, under BSA Cal. No. 869-82-BZ, the Board granted a special permit pursuant to ZR § 73-36 to permit, on a site within a C8-2 zoning district, the operation of a PCE for a term of five years, to expire on May 3, 1988; the term of this grant expired and was not renewed; and

WHEREAS, subsequently, on March 1, 1994, under the subject calendar number, the Board granted a special permit pursuant to ZR § 73-36, to permit, on a site within a C8-2 zoning district, the re-establishment of a PCE in the subject building for a term of ten years, to expire on March 1, 2004;

WHEREAS, the applicant notes that, in 2009, the site was rezoned from C8-2 to R5D (C2-3); and

WHEREAS, on September 12, 2006, the Board renewed the term of the grant under the subject calendar number for a term of ten years, to expire on March 1, 2014; and

WHEREAS, the applicant now seeks an extension of the term; and

WHEREAS, at hearing, the Board directed the applicant to: (1) revise the plans to include notes regarding the approved fire alarm system; (2) include a fire safety plan; (3) provide a copy of the Place of Assembly certificate of operation application; and (4) demonstrate that the accessory signs for the PCE are non-conforming; and

WHEREAS, in response, the applicant submitted the following: (1) revised plans with notes regarding the fire alarm system; (2) a revised statement describing the fire safety

MINUTES

plan for the PCE; and (3) a copy of the place of assembly certificate of operation application; and

WHEREAS, as to the non-conforming accessory signs, the applicant provided copies of the sign permit application signoffs from 1998, which was prior to the rezoning of the site in 2009 from C8-2 to R5D (C2-3); the applicant asserts that these signoffs demonstrate that the signs are lawful, non-conforming signs; and

WHEREAS, based upon its review of the record, the Board finds that requested extension of term is appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated March 1, 1994, so that as amended the resolution shall read: “to grant an extension of the special permit for a term of ten years from the expiration of the prior grant; *on condition* that the use and operation of the PCE shall substantially conform to BSA-approved plans, *on condition* that all work and site conditions shall comply with drawings marked “Received October 28, 2014”– (6) sheets; and *on further condition*:

THAT this grant shall be limited to a term of ten years, to expire on March 1, 2024;

THAT there shall be no change in ownership or operating control of the PCE without prior approval from the Board;

THAT the above conditions shall appear on the certificate of occupancy;

THAT all required permits, including the place of assembly certificate of operation shall be obtained and all required work shall be performed by December 9, 2015;

THAT a new certificate of occupancy shall be obtained within by December 9, 2016;

THAT all conditions from prior resolutions not specifically waived by the Board shall remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s); and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Application No. 420947827)

Adopted by the Board of Standards and Appeals, December 9, 2014.

APPLICANT – Rothkrug Rothkrug & Spector LLP., for Guido Passarelli, Trustee, owner.

SUBJECT – Application April 18, 2014 – Proposed construction of a two-story two family dwelling located within the bed of unmapped street, contrary to Article 3 Section 36 of the General City law. R3X (SRD) zoning district.

PREMISES AFFECTED – 11 Massachusetts Street South, southeast corner of intersection of Hylan Boulevard and Massachusetts Street, Block 7936, Lot 3(tentative), Borough of Staten Island.

COMMUNITY BOARD #3SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez..4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated March, 21, 2014 acting on DOB Application No. 520147831, reads in pertinent part:

The street giving access to the proposed building is not duly placed the official map of the City of New York, therefore,

- A) No Certificate of Occupancy can be issued pursuant to Article 3, Section 36 of the General City Law;
- B) Proposed construction does not have at least 8% of the total perimeter of building fronting directly upon a legally mapped street or frontage space contrary to section 502.1 of the 2008 Building Code; and

WHEREAS, this is an application to allow the construction of a two-story, two-family building not fronting a mapped street, contrary to General City Law (“GCL”) § 36; and

WHEREAS, a public hearing was held on this application on October 28, 2014, after due notice by publication in *The City Record*, with a continued hearing on December 9, 2014, hearing closed, and then to decision on same date; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 3, Staten Island, recommends disapproval of this application; and

WHEREAS, the subject site is located on the southeast corner of the intersection of Hylan Boulevard and Massachusetts Street South, within an R3X (SRD) zoning district; and

WHEREAS, the applicant proposes to construct a two-story, two-family dwelling on the site; and

WHEREAS, the applicant represents that the site’s only frontage is an unmapped portion of Massachusetts Street South; as such, the applicant seeks a waiver of GCL § 36; and

WHEREAS, initially, the applicant proposed to build the unmapped portion of Massachusetts Street South to match the existing width of its mapped portion (20’-0”) and extend the road north to connect to Hylan Boulevard; however, in response to Fire Department concerns regarding access, the proposal was revised to reflect a width of 30’-0” for the unmapped portion of Massachusetts Street South; and

WHEREAS, by letter dated December 8, 2014, the Fire Department states that it has no objection to the proposal; and

WHEREAS, accordingly, the Board has determined that the applicant has submitted adequate evidence to warrant approval of the application subject certain conditions.

Therefore it is Resolved, that the decision of the DOB, dated March 21, 2014, acting on DOB Application No. 520147831, is modified by the power vested in the Board by Section 36 of the General City Law, and that this appeal is granted, limited to the decision noted above; *on condition* that construction shall substantially conform to the drawing filed with the application marked “Received October 28, 2014”- one (1) sheet; that the proposal will comply with all applicable zoning district requirements; and that all other applicable laws, rules, and regulations shall be complied with; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT building shall be fully-sprinklered;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated November 13, 2013, acting on DOB Application No. 121810139, reads in pertinent part:

ZR 54-31 Proposed enlargement increases degree of existing non-compliance with lot coverage provisions of ZR 23-145 contrary to ZR 54-31; Non-complying lot coverage buildings cannot be enlarged as per ZR; and

WHEREAS, this is an application under ZR §§ 73-621 and 73-03, made in connection with the applicant’s conversion of a mixed residential community facility use building to a single-family home, to permit, within an R8B zoning district, within an LH-1A Limited Heights district, within the Upper East Side Historic district, the enlargement of the proposed single-family home contrary to ZR § 23-141; and

WHEREAS, a public hearing was held on this application on September 23, 2014, after due notice by publication in *The City Record*, with a continued hearing on November 18, 2014, and then to decision on December 9, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice Chair Hinkson and Commissioner Ottley-Brown; and

WHEREAS, the subject site fronts along the north side of East 71st Street, between Lexington Avenue and Park Avenue, within on the southwest corner of the intersection of 78th Road and 138th Street, within an R8B zoning district, within an LH-1A Limited Heights district, within the Upper East Side Historic district; and

WHEREAS, the site has approximately 20 feet of frontage along East 71st Street and approximately 2,043 sq. ft. of lot area; and

WHEREAS, the site is improved with a four-story, mixed residential and community-facility use building with

MINUTES

approximately 6,479.33 sq. ft. of floor area; and

WHEREAS, the applicant proposes to enlarge the building by extending the rear portion of the building, resulting in an increase in floor area from 6,479.33 sq. ft. (3.17 FAR) to 7,516 sq. ft. (3.67 FAR); the maximum permitted floor area is 8,173.32 sq. ft. (4.0 FAR); and

WHEREAS, the applicant states that the enlargement will also increase the lot coverage of the building from 70 percent to 77 percent; the maximum permitted lot coverage is 70 percent; and

WHEREAS, the special permit authorized by ZR § 73-621 is available to enlarge buildings containing residential uses that existed on December 15, 1961, or, in certain districts, on June 20, 1989; therefore, as a threshold matter, the applicant must establish that the subject building existed as of that date; and

WHEREAS, the applicant submitted a copy of the current certificate of occupancy for the building (No. 46435, dated October 22, 1956) to demonstrate that the building existed as a residence before December 15, 1961, which is the operative date within the subject R8B zoning district; and

WHEREAS, accordingly, the Board acknowledges that the special permit under ZR § 73-621 is available to enlarge the building; and

WHEREAS, ZR § 73-621 permits the enlargement of a residential building such as the subject building if the following requirements are met: (1) the proposed open space ratio is at least 90 percent of the required open space; (2) in districts where there are lot coverage limits, the proposed lot coverage does not exceed 110 percent of the maximum permitted; and (3) the proposed FAR does not exceed 110 percent of the maximum permitted; and

WHEREAS, this application seeks only a waiver of lot coverage and the applicant represents that the lot coverage will not exceed 110 percent of the maximum floor area permitted in the zoning district; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed enlargement satisfies all of the relevant requirements of ZR § 73-621; and

WHEREAS, at hearing, the Board directed the applicant to provide (1) a revised Statement of Facts addressing the findings required under ZR 73-03; (2) photographs of the rear extension of the subject building taken from the roof of the subject building; (3) aerial photographs of the subject building depicting the full height of the rear buildings on 71st Street and the relationship of the aforesaid rear buildings to the subject building; (4) building footprints showing the rear yard depth and lot coverage of the subject building and surrounding buildings with frontage on East 71st Street and East 72nd Street; and (5) axonometric drawings illustrating the proposed volume of the subject building and its surrounding buildings, the existing and proposed dimensions of the subject building and its surrounding buildings, the rear wall heights of the buildings on the south side of block 1406, which front on East 71st Street, and the rear wall heights of the buildings on the north

side of block 1406, which front on East 72nd Street; and (6) revised plans indicating that the subject building is a single family home, that the roof deck shall be approved by DOB, depicts the proposed roof plan and elevator bulkhead; and

WHEREAS, in response, the applicant submitted the foregoing documents to the satisfaction of the Board; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

WHEREAS, the Board finds that the proposed project will not interfere with any pending public improvement project; and

WHEREAS, the Landmarks Preservation Commission has approved the proposed alterations of the building by Certificate of Appropriateness, dated November 26, 2014; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR §§ 73-621 and 73-03.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR §§ 73-621 and 73-03, to permit, within an R8B zoning district, the enlargement of a proposed single-family home, which does not comply with the zoning requirements for FAR and open space ratio, contrary to ZR § 23-141; *on condition* that all work shall substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received November 15, 2014"- (17) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area of 2,774 sq. ft. (0.51 FAR) and 77 percent lot coverage, as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objections(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk shall be signed off by DOB and all other relevant agencies by December 9, 2018; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not

MINUTES

related to the relief granted.

Adopted by the Board of Standards and Appeals,
December 9, 2014.

THE RESOLUTION –

WHEREAS, the decision of the New York City Department of Buildings (“DOB”), dated March 12, 2014, acting on DOB Application No. 320771465, reads in pertinent part:

Proposed floor area ratio is contrary to ZR 23-141(A)

Proposed lot coverage is contrary to ZR 23-141(B)

Proposed open space is contrary to SR 23-141(B);
and

WHEREAS, this is an application under ZR § 73-622, to permit, on a site within an R3-1 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for floor area ratio (“FAR”), open space ratio, and lot coverage contrary to ZR § 23-141; and

WHEREAS, a public hearing was held on this application on August 19, 2014, after due notice by publication in *The City Record*, with continued hearings on September 23, 2014 and October 28, 2014, and then to decision on December 9, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson and Commissioner Montanez; and

WHEREAS, Community Board 15, Brooklyn, recommends approval of the application; and

WHEREAS, the subject site is located on the west side of Falmouth Street, between Oriental Boulevard and Hampton Avenue, within an R3-1 zoning district; and

WHEREAS, the site has 60 feet of frontage along Falmouth Street, and approximately 6,240 sq. ft. of lot area; and

WHEREAS, the site is occupied by a single-family home with 1,765 sq. ft. of floor area (0.28 FAR); and

WHEREAS, the site is within the boundaries of a designated area in which the subject special permit is available; and

WHEREAS, the applicant now seeks to enlarge the building, resulting in an increase in the floor area from 1,765 sq. ft. (0.28 FAR) to 6,229 sq. ft. (0.99 FAR); the maximum permitted floor area is 3,120 sq. ft. (0.5 FAR); and

WHEREAS, the applicant seeks to decrease the open space ratio from 83 percent to 63 percent; the minimum required open space ratio is 65 percent; and

WHEREAS, the applicant seeks to increase the lot coverage of the subject building from 17 percent to 37 percent; the maximum lot coverage is 35 percent; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood and will not impair the future use or development of the surrounding area; and

WHEREAS, the applicant submitted a land use study to support its assertion that the proposed 0.99 FAR is consistent with buildings in the surrounding area; in addition, the applicant states that the street wall location and building height are in keeping with the surrounding buildings and submitted a streetscape in support of this assertion; and

WHEREAS, at hearing, the Board directed the applicant to revise its plans to reflect easement lines and lot boundaries and to note that a four-foot easement was not included in the zoning calculations and expressed concern about the size of the proposed balcony, planting at the subject premises and the inclusion of a pool on the drawings; and

WHEREAS, the Board directed the applicant to revise its plans to reflect that the only excavation to be performed at the subject premises is to accommodate the pouring of concrete for newly constructed walls and that the proposed building’s footprint will remain unexcavated beyond those excavations necessary in order to raise the walls of the building; and

WHEREAS, the Board directed the applicant to provide a photographic streetscape diagram of the subject block in order to illustrate the impact of the requested bulk waivers on the character of the subject neighborhood; and

WHEREAS, the Board directed the applicant to amend its drawings to reflect the removal of the balcony from the subject building, to accurately reflect the proposed 6,229 sq. ft. of floor area (0.99 FAR), to accurately reflect that the proposed total height of the building will be 33’-2”, and to accurately reflect the full hip at the front and the rear yard of the proposed building; and

WHEREAS, in response, the applicant submitted amended plans, diagrams and zoning analyses, incorporating the Board’s directions; and

WHEREAS, based upon its review of the record, the Board finds that the proposed enlargement will neither alter the essential character of the surrounding neighborhood, nor impair the future use and development of the surrounding area; and

MINUTES

WHEREAS, therefore, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 73-622.

Therefore it is resolved, that the Board of Standards and Appeals issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review and makes the required findings under ZR § 73-622, to permit, on a site within an R3-1 zoning district, the proposed enlargement of a single-family home, which does not comply with the zoning requirements for FAR, open space ratio, or lot coverage, contrary to ZR § 23-14; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked “Received November 26, 2014”– (13) sheets; and *on further condition*:

THAT the following shall be the bulk parameters of the building: a maximum floor area of 6,229 sq. ft. (0.99 FAR), a minimum open space ratio of 63 percent, and a maximum lot coverage of 37 percent, as illustrated on the BSA-approved plans;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objections(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by December 9, 2018; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 9, 2014.

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson,

Commissioner Ottley-Brown and Commissioner Montanez...4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated April 30, 2014, acting on DOB Application No. 121333217, reads, in pertinent part:

1. Warehouse use (UG 16D) is not permitted in the R7-2 portion of the zoning lot, contrary to ZR 22-10;
2. The vertical clearance of the existing loading berth is less than the 14-foot required height, contrary to ZR 36-681;
3. The expansion of the curb cut access to the existing loading berth is less than 50 feet from the intersection of two street lines, contrary to ZR 36-682; and

WHEREAS, this is an application under ZR § 72-21, to permit, on a site partially within a C8-3 zoning district and partially within an R7-2 zoning district, the operation of a self-storage facility (Use Group 16) within an existing two-story building, contrary to ZR §§ 22-10 (use), 36-681 (height of loading berth), and 36-682 (location of curb cut); and

WHEREAS, a public hearing was held on this application on September 16, 2014, after due notice by publication in *The City Record*, with continued hearings on October 28, 2014, and November 18, 2014, and then to decision on December 9, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Ottley-Brown; and

WHEREAS, Community Board 12, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the southwest corner of the intersection of Dyckman Street and Henshaw Street, partially within a C8-3 zoning district and partially within an R7-2 zoning district; and

WHEREAS, the applicant represents that 58 percent of the lot area is within the C8-3 portion of the site and 42 percent of the lot area is within the R7-2 portion of the site; and

WHEREAS, the site has 100 feet of frontage along Dyckman Street, 169.3 feet of frontage along Henshaw Street, and 17,287 sq. ft. of lot area; and

WHEREAS, the site is occupied by a two-story building that was constructed as a stable approximately 100 years ago; and

WHEREAS, the Board has exercised jurisdiction over the site since 1939, when, under BSA Cal. No. 171-39-A, it granted a building code appeal authorizing the conversion of the entire non-fireproof building to a parking garage; the applicant states that in 1944, the building was converted to a carpet cleaning factory; the building remained a carpet cleaning factory until 1983, when it became a wholesale bakery; and

WHEREAS, the applicant states that an application to legalize the bakery was filed with the Board under BSA Cal.

MINUTES

No. 107-95-BZ and granted on March 7, 2000, for a term of five years, to expire on March 7, 2005; and

WHEREAS, the applicant now seeks to convert the building to a self-storage facility with 34,529 sq. ft. of floor area (3.4 FAR) and approximately 760 storage units of varying sizes; the proposed facility is a permitted use within the C8-3 portion of the lot but not within the R7-2 portion of the lot; thus, a use variance is requested; and

WHEREAS, in addition, the applicant states that the facility is required to provide one off-street loading berth in accordance with ZR § 36-62 and that such berth must comply with the minimum dimensional requirements of ZR § 36-681; and

WHEREAS, the applicant represents that the existing building has a loading berth that meets the minimum length (50'-0") and width (12'-0") for a loading berth for a Use Group 16 facility with 10,000 sq. ft. of floor area or more; however, the height of the berth, which 12'-6", is 1'-6" less than minimum height set forth in ZR § 36-681 (14'-0"); accordingly, the applicant seeks a waiver of ZR § 36-681; and

WHEREAS, finally, the applicant states that access to the building from the street must be modified in order to accommodate the proposed use; currently, the site has three existing curb cuts (two along Dyckman Street and one along Henshaw Street); the proposal reflects the elimination of the Henshaw Street curb cut and one Dyckman Street curb cut, and the expansion of the other Dyckman Street curb cut from its current width of 14'-0" to a width of 25'-0"; and

WHEREAS, the applicant states that the curb cut to be modified is located 13'-0" from the intersection of Henshaw Street and Dyckman Street; as such, the curb cut does not comply ZR § 36-682, which prohibits a curb cut with a loading berth within 50'-0" of the intersection of two streets; therefore, in addition to the use waiver and the waiver regarding the height of the loading berth, the applicant seeks a waiver to maintain and expand its curb cut contrary to ZR § 36-682; and

WHEREAS, the applicant states that, per ZR § 72-21(a), the history of development of the site is a unique physical condition, which creates practical difficulties and unnecessary hardships in developing the site in conformance and compliance with underlying district regulations; and

WHEREAS, the applicant contends that due to the history of development of the site, neither the building nor the site itself is suitable for conforming uses; and

WHEREAS, the applicant states, as noted above, that the building was constructed approximately 100 years ago (when the site was within an "unrestricted" zone under the 1916 Zoning Resolution) and that it has been occupied at various times as a stable, a factory, and a wholesale bakery; and

WHEREAS, the applicant states that in 2000 (BSA Cal. No. 107-95-BZ), the Board recognized the unsuitability of the building for conforming uses when it granted a variance to legalize a wholesale bakery that had been in operation since the mid-1980s; in the resolution, the Board observed that the

building was "not readily convertible to a conforming use"; and

WHEREAS, the applicant states that in order to accommodate a conforming use, at a minimum, the building would require new elevators and egress stairs, upgraded fire and life-safety systems, and the construction of one or more lobbies (depending on whether one or multiple tenants would be occupying the building); and

WHEREAS, the applicant also contends that the conforming use options for the site are further constrained by the limited number of uses that are permitted in both a C8-3 zoning district and an R7-2 zoning district – namely, those within Use Group 4; thus, development of the site would be economically challenging even if the site were not occupied by an existing building; and

WHEREAS, the applicant asserts that the history of development of the site—its existing conditions—also create practical difficulties complying with the loading berth and curb cut provisions applicable to the proposed self-storage facility; and

WHEREAS, as to the loading berth, the applicant states that the building's existing loading berth cannot be enlarged to provide a height in accordance with ZR § 36-681 without significant structural modifications to the floor of the second story, at significant cost; and

WHEREAS, as to the existing (albeit expanded) curb cut contrary to ZR § 36-682, the applicant states that its location is dictated by the location of the loading berth and that it cannot be relocated without a corresponding relocation of the loading berth, at significant cost; further, the applicant contends that while the curb cut is being widened, the curb cut's degree of non-compliance with respect to the intersection—its distance from the intersection of 13'-0", where 50'-0" is required—is unchanged; and

WHEREAS, the Board agrees that the history of development of the site creates practical difficulties and unnecessary hardships in developing the site in conformance and compliance with the applicable zoning regulations; and

WHEREAS, the applicant asserts that, per ZR § 72-21(b), there is no reasonable possibility that the development of the site in conformance and compliance with the Zoning Resolution will realize a reasonable return; and

WHEREAS, the applicant provided a financial analysis for: (1) an as-of-right conversion to community facility (Use Group 4); and (2) the proposal; and

WHEREAS, the study concluded that only the proposal would provide a reasonable return; and

WHEREAS, at hearing, the Board directed the applicant to revise its financial analysis of the self-storage facility to better reflect the valuation of the proposed use; and

WHEREAS, in response, the applicant revised its analysis as directed; and

WHEREAS, based upon its review of the applicant's submissions, the Board has determined that because of the site's unique physical conditions, there is no reasonable possibility that development in strict conformance and

MINUTES

compliance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposed building will not alter the essential character of the neighborhood, will not substantially impair the appropriate use or development of adjacent property, and will not be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, the applicant states that along both Riverside Drive and Henshaw Street, the area is characterized by a predominance of residential buildings, many of which have ground floor retail; in contrast Dyckman Street is mostly occupied by a mix of automotive, industrial, and manufacturing uses; and

WHEREAS, the applicant contends that, in addition to being a conforming use in a portion of the site, the proposed self-storage facility is consistent with nearby uses; self-storage is predominantly used by residents to store household items, furniture, clothing, recreational gear, etc., that are used seasonally or infrequently, or are simply too large to fit into an urban living environment; thus, while the facility is not permitted as-of-right in a portion of the site or in the nearby residence districts, it is a complimentary use that will be an amenity for the community; and

WHEREAS, turning to bulk, the applicant states that no significant changes to the bulk of the building are proposed and that its massing will be the same as it has been for the past 100 years; and

WHEREAS, as to the size of the loading berth and the location of the curb cut, the applicant notes that these non-compliances are historic conditions, which have existed for several decades in connection with manufacturing and commercial uses; and

WHEREAS, turning to traffic, the applicant states that its reconfiguration of the building access—the removal of two curb cuts and expansion of one—will mitigate the impact of the facility on traffic; and

WHEREAS, the applicant states that patrons will access the facility from Dyckman Street, just west of Henshaw Street and that this configuration will orient pedestrian and vehicular traffic away from Henshaw Street and Riverside Drive and reduce the volume of non-residential traffic along those streets; and

WHEREAS, at hearing, the Board questioned whether the proposed loading area would have sufficient capacity to accommodate vehicular loading demand during peak periods; and

WHEREAS, in response, the applicant's traffic consultant analyzed the anticipated use of the facility (based on data from other self-storage facilities) and determined that:

(1) two-thirds of the trips to the facility would be made using modes of transportation (public transportation, walking, taxi) that would not occupy the loading area; (2) even during peak periods it projects no more than four vehicles utilizing the facility per hour; (3) the loading area accommodates up to three cars or vans when a truck or storage taxi is not present and one to two cars or vans when a truck or storage taxi is

present; and (4) street parking along Dyckman Street is available to accommodate additional vehicles during peak periods; and

WHEREAS, based upon the above, the Board finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be detrimental to the public welfare; and

WHEREAS, the Board finds that the hardship herein was not created by the owner or a predecessor in title; and

WHEREAS, the applicant represents that the proposal represents the minimum variance needed to allow for a reasonable and productive use of the site, and notes that no changes to the bulk of the building are proposed; and

WHEREAS, accordingly, the Board finds that this proposal is the minimum necessary to afford relief; and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as a Unlisted action pursuant to 6 NYCRR, Part 617.4; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 14-BSA-148M dated April 30, 2014; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment.

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 and grants a variance, to permit, on a site partially within a C8-3 zoning district and partially within an R7-2 zoning district, the operation of a self-storage facility (Use Group 16) within an existing two-story building, contrary to ZR §§ 22-10 (use), 36-681 (height of loading berth), and 36-682 (location of curb cut), *on condition* that any and all work shall substantially conform to drawings as they apply to the objections above noted, filed with this

MINUTES

application marked "Received May 6, 2014"-(6) sheets; and
on further condition:

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk shall be signed off by DOB and all other relevant agencies by December 9, 2018;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 9, 2014.

115-14-BZ

CEQR No. 14-BSA-159M

APPLICANT – Eric Palatnik, P.C., for Suzanne Bronfman, owner; T. Kang Taekwondo USA, Ink., lessee.

SUBJECT – Application May 30, 2014 – Special Permit (§73-36) to legalize for a physical culture establishment (*T.Kang Tae Kwon Do*) on the cellar and first floor in an existing building. C6-2A zoning district.

PREMISES AFFECTED – 85 Worth Street aka 83 Worth Street, between Church Street and Broadway, Block 173, Lot 2, Borough of Manhattan.

COMMUNITY BOARD #1M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez...4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated March 20, 2014, acting on DOB Application No. 121809445, reads, in pertinent part:

ZR 32-10 – Proposed Physical Culture Establishment is not permitted as-of-right in a C6-2A zoning district per ZR Section 32-10...; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to legalize, on a site within a C6-2A zoning district, within the Tribeca East Historic District, an existing physical culture establishment (the "PCE") on the cellar and first story of a five-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on October 21, 2014 after due notice by publication in the *City Record*, and then to decision on December 9, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson,

Commissioner Montanez and Commissioner Brown; and

WHEREAS, Community Board 1, Manhattan, recommends approval of this application; and

WHEREAS, the subject site fronts on the north side of Worth Street, between Church Street and Broadway, within a C6-2A zoning district, within the Tribeca East Historic District; and

WHEREAS, the site has approximately 47.6 feet of frontage along Worth Street with a lot area of approximately 4,847 sq. ft.; and

WHEREAS, the site is occupied by a five-story commercial building which contains approximately 4,847 sq. ft. of floor area and the PCE is operating as T. Kang Tae Kwon Do; and

WHEREAS, the PCE occupies a portion of the cellar and first floor of the Building; and

WHEREAS, the hours of operation for the PCE will be Monday through Friday, from 12:00 p.m. to 9:00 p.m., and on Saturdays from 10:00 a.m. to 3:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, at hearing, the Board directed the applicant to revise the plans to include the cellar level egress travel path and to indicate those portions of the cellar of the Building which will not be used as part of the PCE; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Landmarks Preservation Commission has approved the proposed alterations of the building by Certificate of No Effect, dated July 22, 2014; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the Board notes that the term of the grant has been reduced to reflect the operation of the PCE without the special permit, which commenced on October 1, 2011; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 14-BSA-159M, dated August 11, 2014; and

MINUTES

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to legalize, on a site within a C6-2A zoning district, within the Tribeca East Historic District, the operation of a PCE on the first story and cellar of a one-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received December 5, 2014"- Three (3) sheets; and *on further condition*:

THAT the term of the PCE grant shall expire on October 1, 2021;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance shall be as reviewed and approved by DOB;

THAT fire safety measures shall be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk shall be signed off by DOB and all other relevant agencies by December 9, 2018;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 9, 2014.

COMMUNITY BOARD #16BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez..4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated June 10, 2014, acting on DOB Application No. 320917184, reads, in pertinent part:

ZR 32-10 – Proposed Physical Culture Establishment is not permitted as-of-right in a C4-3 zoning district per ZR Section 32-10...; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C4-3 zoning district, the operation of a physical culture establishment ("PCE") on the cellar and first story of a one-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on September 23, 2014 after due notice by publication in the *City Record*, with a continued hearing on November 18, 2014, and then to decision on December 9, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson and Commissioner Montanez; and

WHEREAS, Community Board 16, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is a through lot with frontage on Rockaway Avenue and Thatford Avenue, south of Pitkin Avenue, within a C4-3 zoning district; and

WHEREAS, the site has approximately 50 feet of frontage along Rockaway Avenue and 25 feet of frontage along Thatford Avenue, with a lot area of approximately 7,506 sq. ft.; and

WHEREAS, the site is occupied by a one-story commercial building which contains approximately 7,500 sq. ft. of floor area on the first floor and approximately 5,000 sq. ft. of floor space at the cellar level, for a total floor space of approximately 12,500 sq. ft.; and

WHEREAS, the proposed PCE will occupy the entire building and be operated as Planet Fitness; and

WHEREAS, the hours of operation for the PCE will be open seven days per week, 24 hours per day; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE will not interfere with any pending public improvement project; and

WHEREAS, at hearing, the Board directed the applicant to remove graffiti from the exterior of the building and to clarify the parking requirements of the site and

MINUTES

anticipated parking needs of the PCE; and

WHEREAS, as to the graffiti, the applicant submitted photos depicting the removal of the graffiti; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, accordingly, the Board finds that this action will neither 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 14-BSA-174K, dated June 13, 2014; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site within a C4-3 zoning district, the operation of a PCE on the first story and cellar of a one-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked "Received June 13, 2014"- Four (4) sheets; and *on further condition*:

THAT the term of the PCE grant will expire on December 9, 2024;

THAT there shall be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance shall be as reviewed and approved by DOB;

THAT fire safety measures shall be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions shall appear on the Certificate of Occupancy;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk shall be signed off by DOB and all other relevant agencies by December 9, 2018;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s);

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the

applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Ryan Singer, Executive Director

MINUTES

REGULAR MEETING TUESDAY MORNING, DECEMBER 16, 2014 10:00 A.M.

Present: Chair Perlmutter, Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez.

SPECIAL ORDER CALENDAR

245-32-BZ

APPLICANT – Sion Hourizadeh, for Michael Raso, owner.
SUBJECT – Application June 20, 2012 – Extension of Term (§11-411) of a previously approved variance which permitted automotive repair (UG 16B) with a commercial office (UG 6) at the second story. C2-2/R5 zoning district.
PREMISES AFFECTED – 123-05 101st Avenue, Block 9464, Lot 30, Borough of Queens.

COMMUNITY BOARD #9Q

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez...4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a re-opening, and an extension of term for a variance authorizing an automobile repair station (Use Group 16) and an office (Use Group 6), which expired on July 9, 2012; and

WHEREAS, a public hearing was held on this application on June 10, 2014, after due notice by publication in *The City Record*, with continued hearings on July 29, 2014 and November 25, 2014, and then to decision on December 16, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 9, Queens, recommends approval of this application; and

WHEREAS, the subject site is located on the northeast corner of the intersection of 123rd Street and 101st Avenue, within an R6B (C2-3) zoning district; and

WHEREAS, the site has approximately 93 feet of frontage along 123rd Street, approximately 85 feet of frontage along 101st Avenue, and approximately 7,926 sq. ft. of lot area; and

WHEREAS, the site is occupied by a two-story building with 4,775 sq. ft. of floor area (0.6 FAR); the building is occupied by a gasoline service station (Use Group 16) on the first story and an office (Use Group 6) on the second story; in addition, the site has parking for four automobiles; and

WHEREAS, the Board has exercised jurisdiction over the site since September 16, 1932, when, under the subject calendar number, it granted a variance to allow the site to be

occupied as a motor vehicle repair shop contrary to the use regulations of the 1916 Zoning Resolution; the Board granted the variance without a term; and

WHEREAS, on July 9, 2002, the Board authorized and amendment to the grant pursuant to ZR §§ 11-411 and 11-412 to legalize the change of use of the first story from gasoline service station to automobile repair station and the construction of a second story to be occupied as an office (Use Group 6); the Board also amended the grant to include a term of ten years, to expire on July 9, 2012; and

WHEREAS, the applicant now seeks an extension of term; and

WHEREAS, at hearing, the Board directed the applicant to: (1) remove the enclosure from the exterior stairway; (2) repair and replace broken sidewalks and concrete within the site; (3) repair the fence slats adjacent to the residence; and (4) remove non-passenger automobiles from the parking spaces and install a sign limiting the parking to passenger automobiles; and

WHEREAS, in response, the applicant provided photos depicting the removal of the enclosure, the repair of the sidewalks, concrete, and fence slats, the removal of non-passenger automobiles from the site, and the installation of the requested sign; and

WHEREAS, based upon the above, the Board finds that the evidence in the record supports the findings required to be made under ZR § 11-411, and the requested extension of term is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated September 16, 1932, so that as amended the resolution reads: “to extend the term of the grant for ten years from the prior expiration, to expire on July 9, 2022; *on condition* that all work will substantially conform to drawings, filed with this application marked ‘Received March 7, 2014’ – (3) sheets; and on further condition:

THAT this grant shall be limited to a term of ten years, to expire on July 9, 2022;

THAT signage, fencing, and landscaping will be maintained in accordance with the BSA-approved plans;

THAT the hours of operation shall be limited to Monday through Saturday, from 9:00 a.m. to 6:00 p.m. and closed Sunday;

THAT the site shall be maintained free of debris and graffiti;

THAT there shall be no outdoor repairs;

THAT parking shall be limited to four passenger automobiles;

THAT there shall be no truck parking and no parking on the sidewalk;

THAT lighting shall be directed downward and away from adjoining residences;

THAT the above conditions shall be noted in the Certificate of Occupancy;

THAT a certificate of occupancy shall be obtained by December 9, 2015;

MINUTES

THAT all conditions from prior resolutions not specifically waived by the Board shall remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s); and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Application No. 401040850)

Adopted by the Board of Standards and Appeals, December 16, 2014.

833-52-BZ

APPLICANT – Vassalotti Associates Architects, LLP, for Zonar LLC, owner.

SUBJECT – Application March 14, 2014 – ZR (§11-411) Extension of Term for the continued operation of a gasoline service station (*Sunoco*) which expired on January 15, 2012; Amendment to convert the existing service bays to a convenience store; Waiver of the Rules. C1-2/R5 zoning district.

PREMISES AFFECTED – 5916-30 Foster Avenue, Foster Avenue and Southwest corner of Ralph Avenue, Block 7955, Lot 6, Borough of Brooklyn.

COMMUNITY BOARD #18BK

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez...4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a re-opening of a variance and an amendment to permit, on a site within an R5 (C1-2) zoning district, the conversion of the building for a gasoline service station (Use Group 16) to an accessory convenience store, and an extension of the term; and

WHEREAS, a public hearing was held on this application on November 18, 2014, after due notice by publication in *The City Record*, and then to decision on December 16, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, Community Board 18, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the southwest corner of Ralph Avenue and Foster Avenue, within an R5 (C1-2) zoning district; and

WHEREAS, the site has 123 feet of frontage along Foster Avenue, 110 feet of frontage along Ralph Avenue, and 7,439 sq. ft. of lot area; and

WHEREAS, the site is occupied by a one-story building

with 1,189 sq. ft. of floor area (0.16 FAR); the building is occupied by a gasoline service station (Use Group 16); and

WHEREAS, the Board has exercised jurisdiction over the site since May 12, 1953, when, under the subject calendar number, it granted an application to permit the site to be occupied as a gasoline service station contrary to the use regulations of the 1916 Zoning Resolution; and

WHEREAS, the grant has been amended and the term extended at various times; and

WHEREAS, most recently, in 2002, the Board extended the term for an additional ten years to expire on January 15, 2012; and

WHEREAS, accordingly, the applicant now seeks an extension of term; and

WHEREAS, in addition, the applicant seeks an amendment to permit the following: (1) the conversion of the one-story building at the site to an accessory convenience store; and (2) the installation of a garbage enclosure, new planting areas, and an ADA-accessible parking space; and

WHEREAS, the proposed hours of operation are 24 hours a day, seven days a week; and

WHEREAS, in addition, the applicant seeks approval for minor site plan modifications to reflect as-built conditions, including changes in the location of the gasoline tanks and remediation equipment; and

WHEREAS, the applicant confirmed that the existing curb cuts located along the Foster Avenue are wider than those approved and will be restored to a width of 30 feet, as approved; and

WHEREAS, the applicant notes that the proposal complies with DOB Technical Policy and Procedure Notice No. 10/1999, which sets forth the requirements for convenience stores accessory to gasoline and automotive service stations; and

WHEREAS, at hearing, the Board directed the applicant to repair the fence and paint the adjacent wall; and

WHEREAS, in response, the applicant submitted photographs which reflect certain repairs to the fence but also reveal fence slats in disrepair; as such, the Board stated that repair of the slats would be a condition of the grant; and

WHEREAS, based upon the above, the Board finds that the evidence in the record supports the findings required to be made under ZR § 11-411, and the requested extension of term and amendment are appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated May 12, 1953, so that as amended the resolution reads: “to permit the noted modifications and to extend the term of the grant for ten years from the prior expiration, to expire on January 15, 2022; *on condition* that all work will substantially conform to drawings, filed with this application marked ‘Received October 7, 2014–(5) sheets; and on further condition:

THAT this grant shall be limited to a term of ten years, to expire on January 15, 2022;

THAT the building will have a maximum of 1,189 sq. ft.

MINUTES

of floor area (0.16 FAR);

THAT the fence slats will be repaired and maintained;

THAT the site will be maintained free of debris and graffiti;

THAT signage shall be in accordance with C1 regulations;

THAT landscaping and buffering will be maintained in accordance with the BSA-approved plans;

THAT lighting will be directed downward and away from adjoining residences;

THAT the above conditions will be noted in the Certificate of Occupancy;

THAT a certificate of occupancy will be obtained by December 9, 2015;

THAT all conditions from prior resolutions not specifically waived by the Board shall remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s); and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Application No. 320824248)

Adopted by the Board of Standards and Appeals, December 16, 2014.

921-57-BZ

APPLICANT – Eric Palatnik, P.C., for Rafael Mizrachi, owner.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez...4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, a re-opening, an extension of the term of a variance authorizing an automobile repair station (Use Group 16), which expired on May 29, 2013; and

WHEREAS, a public hearing was held on this application on September 16, 2014, after due notice by publication in *The City Record*, with continued hearings on October 28, 2014 and November 25, 2014, and then to decision on December 16, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Commissioner Ottley-Brown; and

WHEREAS, Community Board 11, Brooklyn, recommends approval of this application; and

WHEREAS, the subject site is located on the southwest corner of the intersection of 66th Street and New Utrecht Avenue, within an R5 (C2-2) zoning district; and

WHEREAS, the site has approximately 63 feet of frontage along 66th Street, approximately 89 of frontage along New Utrecht Avenue, and 6,592 sq. ft. of lot area; and

WHEREAS, the site is occupied by a one-story building with 1,727 sq. ft. of floor area (0.26 FAR); the building is occupied by an automobile repair station (Use Group 16); and

WHEREAS, the Board has exercised jurisdiction over the site since May 13, 1958, when, under the subject calendar number, it granted an application to permit the continued operation of a gasoline service station at the site contrary to the use regulations of the 1916 Zoning Resolution, for a term of 15 years; the grant was amended and extended at various times thereafter; and

WHEREAS, most recently, on August 12, 2003, the Board amended the grant to permit the conversion of the site to an automobile repair station; in addition, the Board extended the term of the grant for ten years, to expire on May 29, 2013; and

WHEREAS, the applicant now seeks a further extension of term; the applicant notes that no changes are proposed to the site plan; and

WHEREAS, pursuant to ZR § 11-411, the Board may extend the term of a variance granted pursuant to the 1916 Zoning Resolution; and

WHEREAS, at hearing, the Board directed the applicant to: (1) provide additional photographs depicting the condition of the site; (2) confirm that gasoline storage tanks were removed from the site; (3) revise the site plan to show the trash enclosure, fencing, lighting, and vehicle circulation; (4) describe how the operation of the station is consistent with neighborhood context; (5) clarify the hours of operation; and (6) repaint the subject building and explore painting the wall of the nearby building that is visible from the site; and

WHEREAS, in response, the applicant submitted: (1) the requested photographs; (2) a notarized statement from the owner regarding the removal the tanks; and (3) the requested revised site plan; and

WHEREAS, as to the neighborhood context for the repair station, the applicant submitted an analysis, which that reflects a variety of commercial and automobile-related are located nearby; in addition, the applicant notes that a C8-1 zoning district—where Use Group 16 is permitted as-of-right—is located directly across 66th Street; and

WHEREAS, as to the hours of operation, the applicant confirmed that the repair station operates Monday through Thursday, from 8:00 a.m. to 5:00 p.m., and Friday and Saturday, from 8:00 a.m. to 2:00 p.m.; the station is closed on Sunday; and

WHEREAS, as to the painting, the applicant: (1)

MINUTES

provided photographs depicting the painting of the repair station building; and (2) states that it has attempted to contact the owner of the adjacent building, to no avail, but will continue the outreach; and

WHEREAS, based upon the above, the Board finds that the evidence in the record supports the findings required to be made under ZR §§ 11-411 and the requested extension of term is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens* and *amends* the resolution, dated May 12, 1953, so that as amended the resolution reads: “to permit an extension of term for ten years from the prior expiration, to expire on May 29, 2023; *on condition* that all work will substantially conform to drawings, filed with this application marked ‘Received December 12, 2014’– (4) sheets; and on further condition:

THAT the term of the grant shall expire on May 29, 2023;

THAT the site will be maintained free of debris and graffiti;

THAT signage shall be in accordance with C1 regulations;

THAT landscaping and buffering will be maintained in accordance with the BSA-approved plans;

THAT lighting will be directed downward and away from adjoining residences;

THAT the above conditions will be noted in the Certificate of Occupancy;

THAT a certificate of occupancy will be obtained by December 16, 2015;

THAT all conditions from prior resolutions not specifically waived by the Board shall remain in effect;

THAT this approval is limited to the relief granted by the Board in response to specifically cited DOB/other jurisdiction objection(s); and

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Application No. 301499108)

Adopted by the Board of Standards and Appeals, December 16, 2014.

902-79-BZ

APPLICANT – Goldman Harris LLC, for West 29th Street Owner's Corp., owners.

SUBJECT – Application April 9, 2014 – Amendment of a previously approved Variance (§72-21) the conversion of a three-story and four-story and a twelve-story existing manufacturing buildings to residential use above the ground floor and now to proposed the unused development rights for incorporation into a new as-of-right hotel. M1-6 zoning district.

PREMISES AFFECTED –116-118 West 29th Street, south

side of West 29th Street between Sixth and Seventh Avenue, Block 804, Lot (s) 49, 50, Borough of Manhattan.

COMMUNITY BOARD #5M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez...4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application to reopen and amend four existing variances to facilitate the transfer of unused development rights from Lots 49 and 7502 to Lots 30, 31, and 32; and

WHEREAS, a public hearing was held on this application on September 23, 2014, after due notice by publication in *The City Record*, with a continued hearing on November 18, 2014, and then to decision on December 16, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 5, Manhattan, recommends disapproval of the application, citing the following concerns regarding the proposed amendment to BSA Cal. No. 148-03-BZ to permit the transfer of development rights from Lot 7502 to Lots 30, 31, and 32: (1) that hotel development was entirely possible and foreseeable with unused development rights in 2003; (2) that there was an active hotel market in the neighborhood surrounding the site in 2003; (3) that an assemblage was possible in 2003 but intentionally not pursued by the owner of Lot 7502; (4) that permitting the transfer would set a negative precedent that would allow variance sites to receive a windfall; (5) that such precedent would encourage conversion of commercial/manufacturing space to residential with no affordability requirements; (6) that Lot 7502’s condominium offering plan contemplated the transfer of unused development rights; and (7) that Lots 30, 31, and 32 can be developed without Lot 7502’s development rights but rather with Lot 49’s development rights (through Lot 44), which it endorses; and

WHEREAS, the Hotel Trades Council submitted testimony in opposition to the application, citing the following concerns: (1) that hotel development was entirely possible and foreseeable with unused development rights in 2003; (2) that there was an active hotel market in the neighborhood surrounding the site in 2003; and (3) that allowing the proposed transfer of development rights from Lot 7502 to Lots 30, 31, and 32 undermines the (e) finding that the Board made in BSA Cal. No. 148-03-BZ; and

WHEREAS, the application is brought on behalf of the owners of Lots 30, 31, 32, 49, and 7502 (collectively, “the applicants”); and

WHEREAS, the owner of Lots 30, 31, and 32 (105-109 West 28th Street) (the “Development Parcel”) seeks the

MINUTES

Board's authorization to form a zoning lot with two existing sites under the Board's jurisdiction: Lot 7502 (111-113 West 28th Street) (the "Flower House Condominium") and Lot 49 (114-120 West 29th Street) (the "29th Street Buildings"); collectively, the lots comprise the subject site; and

WHEREAS, the site has 107.17 feet of frontage along West 28th Street, 85 feet of frontage along West 29th Street, and 18,976.46 sq. ft. of lot area; it is partially within a C6-4X zoning district and partially within an M1-6 zoning district; and

WHEREAS, the site is occupied by seven buildings; the 29th Street Buildings include the four-story building located at 114 West 29th Street (which has 7,337 sq. ft. of floor area), the 12-story building located at 116-118 West 29th Street (which has 42,908 sq. ft. of floor area), and the three-story building located at 120 West 29th Street (which has 5,727 sq. ft. of floor area); the Flower House Condominium is a seven-story building (which has 21,305 sq. ft. of floor area); the Development Parcel (Lots 30, 31, and 32) is occupied by three, four-story buildings, which are occupied by various uses, including residences, a florist supply establishment, a wholesale florist, and a retail store; and

WHEREAS, the applicants represent that Lot 49 has approximately 27,364 sq. ft. of unused development rights available for transfer to Lots 30, 31, and 32 and that Lot 7502 has approximately 20,993 sq. ft. of unused development rights available for transfer to Lots 30, 31, and 32; and

WHEREAS, the applicants state that Lot 7502 has been subject to the Board's jurisdiction since October 28, 2003, when, under BSA Cal. No. 148-03-BZ, the Board granted a variance pursuant to ZR § 72-21 authorizing residential use within portions of a building on a site within an M1-6 zoning district, contrary to use regulations; on April 4, 2006, the Board approved an amendment to this grant, which authorized the construction of a mezzanine at the penthouse level; and

WHEREAS, the applicants state that Lot 49 was historically known as Lots 49, 50, and 52; historic Lot 49 has been subject to the Board's jurisdiction since January 29, 1980, when, under BSA Cal. No. 902-79-BZ, the Board granted a variance pursuant to ZR § 72-21 authorizing the conversion of an existing 12-story manufacturing building to a multiple dwelling on a site within an M1-6 zoning district, contrary to use regulations; historic Lot 50 has been subject to the Board's jurisdiction since January 29, 1980, when, under BSA Cal. No. 1097-79-BZ, the Board granted a variance pursuant to ZR § 72-21 authorizing the conversion of an existing three-story manufacturing building to a multiple dwelling on a site within an M1-6 zoning district, contrary to use regulations; historic Lot 52 has been subject to the Board's jurisdiction since January 29, 1980, when, under BSA Cal. No. 1096-79-BZ, the Board granted a variance pursuant to ZR § 72-21 authorizing the conversion of an existing three-story manufacturing building to a multiple dwelling on a site within an M1-6 zoning district, contrary to use regulations; and

WHEREAS, thus, the Board notes that each of the subject variances involved a change of use of an existing

building with little or no impact on bulk; and

WHEREAS, the applicants now seek amendments to the subject variances to reflect the merger of Lots 30, 31, 32, 49, and 7502 in order to facilitate the transfer of unused development rights from Lots 49 and 7502 to Lots 30, 31, and 32; and

WHEREAS, the applicants also propose to modify the site plans of the four variances to reflect the merger of Lots 30, 31, 32, 49, and 7502; and

WHEREAS, the applicants represent that the proposed zoning lot merger and development rights transfer will not have any effect on the existing buildings located on Lots 49 and 7502; and

WHEREAS, in addition, the applicants contend that the proposed transfer of development rights is consistent with the Court's decision in Bella Vista v. Bennett, 89 N.Y. 2d 565 (1997), setting forth the parameters of Board review of requests for the transfer of development rights from sites for which a variance has been granted; and

WHEREAS, the applicants assert that a transfer of the unused development rights from Lots 49 and 7502 is allowed because it is not in conflict with any of the Board's prior actions with respect to those lots; and

WHEREAS, the applicants state that the applications under BSA Cal. Nos. 902-79-BZ, 1097-79-BZ, and 1096-79-BZ reflect that the unused development rights were not considered in the Board's analysis; therefore, the applicants assert that it may be presumed that at the time the rights did not have a value; consequently, allowing Lot 49 to merge with and transfer its development rights to Lots 30, 31, and 32 would not undermine any of the Board's findings in those grants; and

WHEREAS, as for BSA Cal. No. 148-03-BZ, the applicant asserts that the excess development rights of Lot 7502 did not have any value in 2003, because there were no receiving sites available; in support of this assertion, the applicants analyzed whether any parcel adjacent to Lot 7502 was a viable development site as of 2003; the analysis took into account the ownership of the site (whether it was commonly owned with adjacent parcels such that a development assemblage was possible), the lot width and lot area of the site, the permitted uses at the site, and the degree to which the site could be further developed independent of the available development rights; and

WHEREAS, in addition, the applicant states that the proposed transfer will occur more than ten years after the Board's original grant and that there have been substantial and unforeseeable changes in the economic climate of the city and the real estate market since 2003, including a significant increase in the demand for hotels in the neighborhood surrounding the site; and

WHEREAS, at hearing, the Board directed the applicant to provide additional information about the hotel development market in the neighborhood surrounding the site as of 2003; and

WHEREAS, in response, the applicant provided an analysis, which reflects that there were no land use transfers

MINUTES

for hotel use between 2001 and 2004 in the area bound by Sixth Avenue, Seventh Avenue, West 24th Street, and West 31st Street; further, during this period there was a significant downturn in the economy, resulting in little to no hotel development in the area; hence, there was no market for development rights to facilitate hotel development at the time the variance was under consideration by the Board; and

WHEREAS, thus, the applicants state that an approval of the requested development rights transfer from Lots 49 and 7502 do not undermine the integrity of the Board's earlier findings concerning ZR §§ 72-21(b) or 72-21(e) because the facts of the instant application are readily distinguishable from those underlying the Court's holding in Bella Vista; and

WHEREAS, the applicants conclude that the use of the development rights as a result of the proposed zoning lot merger is therefore not inconsistent with the Board's prior approvals; and

WHEREAS, the Board notes that Bella Vista concerned a permit request for a new as-of-right residential building proposed to be built through the transfer of development rights—from a site in which the Board granted a use variance to permit operation of a movie theater in a residential zoning district, to a separate adjacent site under common ownership—for development of a complying residential building; and

WHEREAS, the Court held that review and approval of such transfers by the Board was required, *inter alia*, because the basis for the original grant, particularly with respect to the findings of financial hardship under ZR § 72-21(b) and minimum variance needed to provide relief under ZR § 72-21(e), may be implicated by the proposed transfer; and

WHEREAS, the Board notes that, unlike in Bella Vista, the transferring sites (Lots 49 and 7502) and the receiving site (Lots 30, 31, and 32) have been under separate, unrelated ownership since the Board's grants; therefore, the owners of Lots 49 and 7502 lacked control over the timing and nature of the development of Lots 30, 31, and 32; and

WHEREAS, the Board also notes that a brief period of time elapsed between the date of the Bella Vista variance grant and the date of the subsequent permit application which also distinguishes that case from the proposed development rights transfer under review in the subject application; and

WHEREAS, the Board notes that in Bella Vista, the permit application proposing to use floor area transferred from the variance site was filed only three years after the Board grant, while the variances for the subject site were granted in 1980 (34 years before the filing of the instant application) and in 2003 (10 years before the filing of the instant application); and

WHEREAS, the Board agrees that the differences in timing and in the health of the respective real estate markets distinguish the Bella Vista case from the instant case and supports the conclusion that the use of Lots 49 and 7502's unused development rights was not foreseeable by the owner of Lots 30, 31, and 32 or the Board; and

WHEREAS, the Board finds that, with respect to BSA

Cal. Nos. 902-79-BZ, 1097-79-BZ, 1096-79-BZ, and 148-03-BZ, the proposed transfer of development rights does not implicate or affect the basis for its findings in general, and specifically the (b) and (e) finding, at the time that they were made; and

WHEREAS, the Board observes that this finding is based on both the infeasibility of assemblage at the time of the grants and on the changing real estate market conditions in the neighborhood surrounding the site; and

WHEREAS, turning to the concerns of Community Board 5 and the Hotel Trades Council (the "Opposition"), as noted above, the Board finds that the proposal is not in conflict with the Bella Vista case and is consistent with the Board's precedent applying Bella Vista and disagrees that Lot 7502's development rights' value, such as they were, could be realized in 2003; similarly, the Board disagrees that there was an active market for hotel development in the neighborhood surrounding the site in 2003 and finds that the evidence in the record supports the applicants' assertion that hotel development was not occurring in the neighborhood in 2003; as for the Opposition's concerns regarding precedent, the Board observes that, under Bella Vista, it must determine on a case-by-case basis whether a proposed lot merger undermines a prior variance; and

WHEREAS, the Board has considered the Opposition's remaining contention and finds them without merit and/or irrelevant to the instant application; and

WHEREAS, based upon its review of the record, the Board does not object to the proposed merger of Lots 30, 31, 32, 49, and 7502; and

WHEREAS, additionally, the Board does not object to a transfer of unused development rights from Lots 49 and 7502 to Lots 30, 31, and 32, subsequent to the proposed zoning lot merger, but notes that any further changes to Lots 49 and 7502 that are inconsistent with prior approvals are subject to the Board's review and approval.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolutions, having been adopted on January 29, 1980 and October 28, 2003, so that as amended this portion of the resolutions shall read: "to permit the merger of Lots 49, 7502, 30, 31, and 32 and the associated modifications to the BSA-approved site plan, *on condition* that all site conditions will comply with drawings marked 'Received November 5, 2014'-(5) sheets; and *on further condition*:

THAT the zoning calculations, including any transfer of development rights, shall be subject to DOB's review and approval and shall be in full compliance with underlying bulk regulations;

THAT the site shall remain subject to the Board's jurisdiction, including modifications to the buildings on the site;

THAT all conditions from the prior resolution not specifically waived by the Board shall remain in effect;

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its

MINUTES

jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

Adopted by the Board of Standards and Appeals, December 16, 2014.

WHEREAS, thus, the applicants state that an approval of the requested development rights transfer from Lots 49 and 7502 do not undermine the integrity of the Board's earlier findings concerning ZR §§ 72-21(b) or 72-21(e) because the facts of the instant application are readily distinguishable from those underlying the Court's holding in Bella Vista; and

WHEREAS, the applicants conclude that the use of the development rights as a result of the proposed zoning lot merger is therefore not inconsistent with the Board's prior approvals; and

WHEREAS, the Board notes that Bella Vista concerned a permit request for a new as-of-right residential building proposed to be built through the transfer of development rights—from a site in which the Board granted a use variance to permit operation of a movie theater in a residential zoning district, to a separate adjacent site under common ownership—for development of a complying residential building; and

WHEREAS, the Court held that review and approval of such transfers by the Board was required, inter alia, because the basis for the original grant, particularly with respect to the findings of financial hardship under ZR § 72-21(b) and minimum variance needed to provide relief under ZR § 72-21(e), may be implicated by the proposed transfer; and

WHEREAS, the Board notes that, unlike in Bella Vista, the transferring sites (Lots 49 and 7502) and the receiving site (Lots 30, 31, and 32) have been under separate, unrelated ownership since the Board's grants; therefore, the owners of Lots 49 and 7502 lacked control over the timing and nature of the development of Lots 30, 31, and 32; and

WHEREAS, the Board also notes that a brief period of time elapsed between the date of the Bella Vista variance

MINUTES

grant and the date of the subsequent permit application which also distinguishes that case from the proposed development rights transfer under review in the subject application; and

WHEREAS, the Board notes that in Bella Vista, the permit application proposing to use floor area transferred from the variance site was filed only three years after the Board grant, while the variances for the subject site were granted in 1980 (34 years before the filing of the instant application) and in 2003 (10 years before the filing of the instant application); and

WHEREAS, the Board agrees that the differences in timing and in the health of the respective real estate markets distinguish the Bella Vista case from the instant case and supports the conclusion that the use of Lots 49 and 7502's unused development rights was not foreseeable by the owner of Lots 30, 31, and 32 or the Board; and

WHEREAS, the Board finds that, with respect to BSA Cal. Nos. 902-79-BZ, 1097-79-BZ, 1096-79-BZ, and 148-03-BZ, the proposed transfer of development rights does not implicate or affect the basis for its findings in general, and specifically the (b) and (e) finding, at the time that they were made; and

WHEREAS, the Board observes that this finding is based on both the infeasibility of assemblage at the time of the grants and on the changing real estate market conditions in the neighborhood surrounding the site; and

WHEREAS, turning to the concerns of Community Board 5 and the Hotel Trades Council (the "Opposition"), as noted above, the Board finds that the proposal is not in conflict with the Bella Vista case and is consistent with the Board's precedent applying Bella Vista and disagrees that Lot 7502's development rights' value, such as they were, could be realized in 2003; similarly, the Board disagrees that there was an active market for hotel development in the neighborhood surrounding the site in 2003 and finds that the evidence in the record supports the applicants' assertion that hotel development was not occurring in the neighborhood in 2003; as for the Opposition's concerns regarding precedent, the Board observes that, under Bella Vista, it must determine on a case-by-case basis whether a proposed lot merger undermines a prior variance; and

WHEREAS, the Board has considered the Opposition's remaining contention and finds them without merit and/or irrelevant to the instant application; and

WHEREAS, based upon its review of the record, the Board does not object to the proposed merger of Lots 30, 31, 32, 49, and 7502; and

WHEREAS, additionally, the Board does not object to a transfer of unused development rights from Lots 49 and 7502 to Lots 30, 31, and 32, subsequent to the proposed zoning lot merger, but notes that any further changes to Lots 49 and 7502 that are inconsistent with prior approvals are subject to the Board's review and approval.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolutions, having been adopted on January 29, 1980 and October 28, 2003, so that as

amended this portion of the resolutions shall read: "to permit the merger of Lots 49, 7502, 30, 31, and 32 and the associated modifications to the BSA-approved site plan, *on condition* that all site conditions will comply with drawings marked 'Received November 5, 2014'-(5) sheets; and *on further condition*:

THAT the zoning calculations, including any transfer of development rights, shall be subject to DOB's review and approval and shall be in full compliance with underlying bulk regulations;

THAT the site shall remain subject to the Board's jurisdiction, including modifications to the buildings on the site;

THAT all conditions from the prior resolution not specifically waived by the Board shall remain in effect;

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, December 16, 2014.

142-92-BZ & 289-13-BZ

APPLICANT – Preserve Park Slope, Inc. c/o Albert K. Butzel, for New York Methodist Hospital, owner.

SUBJECT – Application November 3, 2014 – Rehearing: To request a reargument or rehearing of the Board's decision of June 17, 2014 in which the Board granted a variance that allowed NY Methodist Hospital to build a new ambulatory care facility on the property identified above. R6, R6B, R7B zoning districts.

PREMISES AFFECTED – 506 and 473-541 6th Street, Eighth Avenue, 5th Street and Sixth Street, Block 1084, Lot(s) 39, 164, 1001, 1084, Borough of Brooklyn.

COMMUNITY BOARD #6BK

ACTION OF THE BOARD – Request for Rehearing Deny.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez ...4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application pursuant to 2 RCNY § 1-12.4 to reargue BSA Cal. Nos. 289-13-BZ and 142-92-BZ, or, in the alternative, pursuant to 2 RCNY § 1-12.5, to rehear BSA Cal. Nos. 289-13-BZ and 142-92-BZ; and

WHEREAS, a public hearing was held on this application on December 16, 2014, after due notice by publication in *The City Record*, and then to decision on the same date; and

WHEREAS, the subject site comprises the majority of Block 1084; it includes Tax Lots 39, 164, 1001, and 1002, and has frontages along Fifth Street, Sixth Street, Seventh Avenue, and Eighth Avenue; and

WHEREAS, on June 17, 2014, under BSA Cal. No. 289-13-BZ, the Board granted a variance pursuant to ZR §

MINUTES

72-21 to allow the expansion and redevelopment of New York Methodist Hospital (the "Hospital") contrary to the applicable provisions of the Zoning Resolution for FAR, lot coverage, rear setback, rear yard, rear yard equivalent, and signage; and

WHEREAS, in addition, on that same date, under BSA Cal. No. 142-92-BZ, the Board adopted an amendment to an existing special permit to allow certain changes to the parking facility at the site; and

WHEREAS, this application is filed by a coalition of neighbors known as Preserve Park Slope (the "Applicant"), which, through counsel, opposed the Board's June 17, 2014 grants; and

WHEREAS, the Hospital, through counsel, submitted testimony opposing the application; and

WHEREAS, the Applicant seeks a rehearing of BSA Cal. Nos. 289-13-BZ and 142-92-BZ pursuant to Rule 1-12.4, on the ground that the Board misapprehended facts relevant to those applications; and

WHEREAS, the Applicant asserts that the Hospital's programmatic needs, which formed the basis for the Board's June 17, 2014 grants, were misapprehended by the Board; and

WHEREAS, in particular, the Applicant contends that the Hospital's programmatic needs were insufficiently established in the prior grants, as evidenced by certain statements included in reports issued by two credit ratings agencies on August 1, 2014 (the "Reports"); the Reports include information on the potential financing of the Hospital expansion and are issued to disclose to potential purchasers of the Hospital's bonds the extent to which the Hospital will be able to ensure repayment of the bonds; in essence, the Reports are examination of the financial feasibility of the proposed expansion; and

WHEREAS, Rule 1-12.4 provides, in relevant part, that:

The Board will not grant a request to reargue a case which was denied, dismissed, or approved unless the applicant shows that the Board misapprehended the relevant facts or misapplied any controlling principles of law, including the Zoning Resolution ...; and

WHEREAS, the Board observes that the Reports were issued on August 1, 2014, approximately six weeks *after* it granted the variance and the amendment to the special permits on June 17, 2014; and

WHEREAS, accordingly, the Board finds that it could not logically have misapprehended any facts contained within the Reports; the Board cannot have misapprehended that which did not exist; and

WHEREAS, moreover, the Board finds that even if the Reports had been available for review during the hearing process, they would not be "relevant facts" in determining whether the Hospital had sufficiently established its programmatic needs since the Board does not consider an institution's credit rating as a factor in examining the institution's programmatic needs; the Board does not

examine the financial feasibility of an institution's proposal; rather, the Board limits its analysis to whether the proposal satisfies the institution's programmatic needs; and

WHEREAS, thus, the Board finds that the substance and timing of the Reports make them irrelevant to the Board's grants; and

WHEREAS, the Applicant seeks, in lieu of a rehearing pursuant to Rule 1-12.4, a rehearing of BSA Cal. Nos. 289-13-BZ and 142-92-BZ pursuant to Rule 1-12.5; and

WHEREAS, Rule 1-12.5 provides, in relevant part, that:

The Board will not grant a request to rehear a case which was denied, dismissed, or withdrawn with prejudice unless (1): substantial new evidence is submitted that was not available at the time of the initial hearing, (2) there is a material change in plans or circumstances, or (3) an applicant is filed under a different jurisdictional provision of the law...; and

WHEREAS, the Board finds that Rule 1-12.5, by its terms, is inapplicable to the Board's actions under BSA Cal. Nos. 289-13-BZ and 142-92-BZ, because these applications were *granted* and this rule applies only where an application was "denied, dismissed, or withdrawn"; and

WHEREAS, based on the foregoing, the Board finds that the Applicant has not provided a basis to allow reargument or rehearing of BSA Cal. Nos. 289-13-BZ and 142-92-BZ.

Therefore it is Resolved, that the subject application, seeking a reargument or a rehearing of BSA Cal. Nos. 289-13-BZ and 142-92-BZ, is hereby *denied*.

Adopted by the Board of Standards and Appeals, December 16, 2014.

148-03-BZ

APPLICANT – Goldman Harris LLC, for The Flower House Condominium, owners; Northwest Real Estate LLC, lessee.

SUBJECT – Application April 9, 2014 – Amendment of a previously approved Variance (§72-21) the conversion of a three-story and four-story and a twelve-story existing manufacturing buildings to residential use above the ground floor and now to proposed the unused development rights for incorporation into a new as-of-right hotel. M1-6 zoning district.

PREMISES AFFECTED –111/113 West 28th Street, north side of West 28th Street between Sixth and Seventh Avenue, Block 804, Lot(s) 1101-1105, Borough of Manhattan.

COMMUNITY BOARD #5M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez...4

Negative:.....0

THE RESOLUTION –

MINUTES

WHEREAS, this is an application to reopen and amend four existing variances to facilitate the transfer of unused development rights from Lots 49 and 7502 to Lots 30, 31, and 32; and

WHEREAS, a public hearing was held on this application on September 23, 2014, after due notice by publication in *The City Record*, with a continued hearing on November 18, 2014, and then to decision on December 16, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson, Commissioner Montanez, and Commissioner Ottley-Brown; and

WHEREAS, Community Board 5, Manhattan, recommends disapproval of the application, citing the following concerns regarding the proposed amendment to BSA Cal. No. 148-03-BZ to permit the transfer of development rights from Lot 7502 to Lots 30, 31, and 32: (1) that hotel development was entirely possible and foreseeable with unused development rights in 2003; (2) that there was an active hotel market in the neighborhood surrounding the site in 2003; (3) that an assemblage was possible in 2003 but intentionally not pursued by the owner of Lot 7502; (4) that permitting the transfer would set a negative precedent that would allow variance sites to receive a windfall; (5) that such precedent would encourage conversion of commercial/manufacturing space to residential with no affordability requirements; (6) that Lot 7502's condominium offering plan contemplated the transfer of unused development rights; and (7) that Lots 30, 31, and 32 can be developed without Lot 7502's development rights but rather with Lot 49's development rights (through Lot 44), which it endorses; and

WHEREAS, the Hotel Trades Council submitted testimony in opposition to the application, citing the following concerns: (1) that hotel development was entirely possible and foreseeable with unused development rights in 2003; (2) that there was an active hotel market in the neighborhood surrounding the site in 2003; and (3) that allowing the proposed transfer of development rights from Lot 7502 to Lots 30, 31, and 32 undermines the (e) finding that the Board made in BSA Cal. No. 148-03-BZ; and

WHEREAS, the application is brought on behalf of the owners of Lots 30, 31, 32, 49, and 7502 (collectively, "the applicants"); and

WHEREAS, the owner of Lots 30, 31, and 32 (105-109 West 28th Street) (the "Development Parcel") seeks the Board's authorization to form a zoning lot with two existing sites under the Board's jurisdiction: Lot 7502 (111-113 West 28th Street) (the "Flower House Condominium") and Lot 49 (114-120 West 29th Street) (the "29th Street Buildings"); collectively, the lots comprise the subject site; and

WHEREAS, the site has 107.17 feet of frontage along West 28th Street, 85 feet of frontage along West 29th Street, and 18,976.46 sq. ft. of lot area; it is partially within a C6-4X zoning district and partially within an M1-6 zoning district; and

WHEREAS, the site is occupied by seven buildings; the 29th Street Buildings include the four-story building located at 114 West 29th Street (which has 7,337 sq. ft. of floor area), the 12-story building located at 116-118 West 29th Street (which has 42,908 sq. ft. of floor area), and the three-story building located at 120 West 29th Street (which has 5,727 sq. ft. of floor area); the Flower House Condominium is a seven-story building (which has 21,305 sq. ft. of floor area); the Development Parcel (Lots 30, 31, and 32) is occupied by three, four-story buildings, which are occupied by various uses, including residences, a florist supply establishment, a wholesale florist, and a retail store; and

WHEREAS, the applicants represent that Lot 49 has approximately 27,364 sq. ft. of unused development rights available for transfer to Lots 30, 31, and 32 and that Lot 7502 has approximately 20,993 sq. ft. of unused development rights available for transfer to Lots 30, 31, and 32; and

WHEREAS, the applicants state that Lot 7502 has been subject to the Board's jurisdiction since October 28, 2003, when, under BSA Cal. No. 148-03-BZ, the Board granted a variance pursuant to ZR § 72-21 authorizing residential use within portions of a building on a site within an M1-6 zoning district, contrary to use regulations; on April 4, 2006, the Board approved an amendment to this grant, which authorized the construction of a mezzanine at the penthouse level; and

WHEREAS, the applicants state that Lot 49 was historically known as Lots 49, 50, and 52; historic Lot 49 has been subject to the Board's jurisdiction since January 29, 1980, when, under BSA Cal. No. 902-79-BZ, the Board granted a variance pursuant to ZR § 72-21 authorizing the conversion of an existing 12-story manufacturing building to a multiple dwelling on a site within an M1-6 zoning district, contrary to use regulations; historic Lot 50 has been subject to the Board's jurisdiction since January 29, 1980, when, under BSA Cal. No. 1097-79-BZ, the Board granted a variance pursuant to ZR § 72-21 authorizing the conversion of an existing three-story manufacturing building to a multiple dwelling on a site within an M1-6 zoning district, contrary to use regulations; historic Lot 52 has been subject to the Board's jurisdiction since January 29, 1980, when, under BSA Cal. No. 1096-79-BZ, the Board granted a variance pursuant to ZR § 72-21 authorizing the conversion of an existing three-story manufacturing building to a multiple dwelling on a site within an M1-6 zoning district, contrary to use regulations; and

WHEREAS, thus, the Board notes that each of the subject variances involved a change of use of an existing building with little or no impact on bulk; and

WHEREAS, the applicants now seek amendments to the subject variances to reflect the merger of Lots 30, 31, 32, 49, and 7502 in order to facilitate the transfer of unused development rights from Lots 49 and 7502 to Lots 30, 31, and 32; and

WHEREAS, the applicants also propose to modify the site plans of the four variances to reflect the merger of Lots 30, 31, 32, 49, and 7502; and

WHEREAS, the applicants represent that the proposed

MINUTES

zoning lot merger and development rights transfer will not have any effect on the existing buildings located on Lots 49 and 7502; and

WHEREAS, in addition, the applicants contend that the proposed transfer of development rights is consistent with the Court's decision in Bella Vista v. Bennett, 89 N.Y. 2d 565 (1997), setting forth the parameters of Board review of requests for the transfer of development rights from sites for which a variance has been granted; and

WHEREAS, the applicants assert that a transfer of the unused development rights from Lots 49 and 7502 is allowed because it is not in conflict with any of the Board's prior actions with respect to those lots; and

WHEREAS, the applicants state that the applications under BSA Cal. Nos. 902-79-BZ, 1097-79-BZ, and 1096-79-BZ reflect that the unused development rights were not considered in the Board's analysis; therefore, the applicants assert that it may be presumed that at the time the rights did not have a value; consequently, allowing Lot 49 to merge with and transfer its developments rights to Lots 30, 31, and 32 would not undermine any of the Board's findings in those grants; and

WHEREAS, as for BSA Cal. No. 148-03-BZ, the applicant asserts that the excess development rights of Lot 7502 did not have any value in 2003, because there were no receiving sites available; in support of this assertion, the applicants analyzed whether any parcel adjacent to Lot 7502 was a viable development site as of 2003; the analysis took into account the ownership of the site (whether it was commonly owned with adjacent parcels such that a development assemblage was possible), the lot width and lot area of the site, the permitted uses at the site, and the degree to which the site could be further developed independent of the available development rights; and

WHEREAS, in addition, the applicant states that the proposed transfer will occur more than ten years after the Board's original grant and that there have been substantial and unforeseeable changes in the economic climate of the city and the real estate market since 2003, including a significant increase in the demand for hotels in the neighborhood surrounding the site; and

WHEREAS, at hearing, the Board directed the applicant to provide additional information about the hotel development market in the neighborhood surrounding the site as of 2003; and

WHEREAS, in response, the applicant provided an analysis, which reflects that there were no land use transfers for hotel use between 2001 and 2004 in the area bound by Sixth Avenue, Seventh Avenue, West 24th Street, and West 31st Street; further, during this period there was a significant downturn in the economy, resulting in little to no hotel development in the area; hence, there was no market for development rights to facilitate hotel development at the time the variance was under consideration by the Board; and

WHEREAS, thus, the applicants state that an approval of the requested development rights transfer from Lots 49 and 7502 do not undermine the integrity of the Board's earlier

findings concerning ZR §§ 72-21(b) or 72-21(e) because the facts of the instant application are readily distinguishable from those underlying the Court's holding in Bella Vista; and

WHEREAS, the applicants conclude that the use of the development rights as a result of the proposed zoning lot merger is therefore not inconsistent with the Board's prior approvals; and

WHEREAS, the Board notes that Bella Vista concerned a permit request for a new as-of-right residential building proposed to be built through the transfer of development rights—from a site in which the Board granted a use variance to permit operation of a movie theater in a residential zoning district, to a separate adjacent site under common ownership—for development of a complying residential building; and

WHEREAS, the Court held that review and approval of such transfers by the Board was required, inter alia, because the basis for the original grant, particularly with respect to the findings of financial hardship under ZR § 72-21(b) and minimum variance needed to provide relief under ZR § 72-21(e), may be implicated by the proposed transfer; and

WHEREAS, the Board notes that, unlike in Bella Vista, the transferring sites (Lots 49 and 7502) and the receiving site (Lots 30, 31, and 32) have been under separate, unrelated ownership since the Board's grants; therefore, the owners of Lots 49 and 7502 lacked control over the timing and nature of the development of Lots 30, 31, and 32; and

WHEREAS, the Board also notes that a brief period of time elapsed between the date of the Bella Vista variance grant and the date of the subsequent permit application which also distinguishes that case from the proposed development rights transfer under review in the subject application; and

WHEREAS, the Board notes that in Bella Vista, the permit application proposing to use floor area transferred from the variance site was filed only three years after the Board grant, while the variances for the subject site were granted in 1980 (34 years before the filing of the instant application) and in 2003 (10 years before the filing of the instant application); and

WHEREAS, the Board agrees that the differences in timing and in the health of the respective real estate markets distinguish the Bella Vista case from the instant case and supports the conclusion that the use of Lots 49 and 7502's unused development rights was not foreseeable by the owner of Lots 30, 31, and 32 or the Board; and

WHEREAS, the Board finds that, with respect to BSA Cal. Nos. 902-79-BZ, 1097-79-BZ, 1096-79-BZ, and 148-03-BZ, the proposed transfer of development rights does not implicate or affect the basis for its findings in general, and specifically the (b) and (e) finding, at the time that they were made; and

WHEREAS, the Board observes that this finding is based on both the infeasibility of assemblage at the time of the grants and on the changing real estate market conditions in the neighborhood surrounding the site; and

WHEREAS, turning to the concerns of Community

MINUTES

Board 5 and the Hotel Trades Council (the "Opposition"), as noted above, the Board finds that the proposal is not in conflict with the Bella Vista case and is consistent with the Board's precedent applying Bella Vista and disagrees that Lot 7502's development rights' value, such as they were, could be realized in 2003; similarly, the Board disagrees that there was an active market for hotel development in the neighborhood surrounding the site in 2003 and finds that the evidence in the record supports the applicants' assertion that hotel development was not occurring in the neighborhood in 2003; as for the Opposition's concerns regarding precedent, the Board observes that, under Bella Vista, it must determine on a case-by-case basis whether a proposed lot merger undermines a prior variance; and

WHEREAS, the Board has considered the Opposition's remaining contention and finds them without merit and/or irrelevant to the instant application; and

WHEREAS, based upon its review of the record, the Board does not object to the proposed merger of Lots 30, 31, 32, 49, and 7502; and

WHEREAS, additionally, the Board does not object to a transfer of unused development rights from Lots 49 and 7502 to Lots 30, 31, and 32, subsequent to the proposed zoning lot merger, but notes that any further changes to Lots 49 and 7502 that are inconsistent with prior approvals are subject to the Board's review and approval.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolutions, having been adopted on January 29, 1980 and October 28, 2003, so that as amended this portion of the resolutions shall read: "to permit the merger of Lots 49, 7502, 30, 31, and 32 and the associated modifications to the BSA-approved site plan, *on condition* that all site conditions will comply with drawings marked 'Received November 5, 2014'-(5) sheets; and *on further condition*:

THAT the zoning calculations, including any transfer of development rights, shall be subject to DOB's review and approval and shall be in full compliance with underlying bulk regulations;

THAT the site shall remain subject to the Board's jurisdiction, including modifications to the buildings on the site;

THAT all conditions from the prior resolution not specifically waived by the Board shall remain in effect;

THAT DOB shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted."

Adopted by the Board of Standards and Appeals, December 16, 2014.

964-87-BZ

APPLICANT – Eric Palatnik, P.C., for Leemilt Petroleum, Ink., owner; Lotus Management Group II, LLC, lessee.

SUBJECT – Application April 21, 2014 – Amendment to a previously approved Variance for the operation of an Automotive Service Station (UG 16B), with accessory uses.

The Amendment seeks to convert a portion of a service bay to an accessory convenience store; Extension of Time to obtain a Certificate of Occupancy which expired on May 10, 2012; Waiver of the Rules. C1-3/R6 zoning district.

PREMISES AFFECTED – 786 Burke Avenue, aka 780-798 Burke Avenue, Block 4571, Lot 28, Borough of Bronx.

COMMUNITY BOARD #12BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez...4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure, an extension of time to obtain a certificate of occupancy for the continued operation of a gasoline service station (Use Group 16), which expired on May 10, 2012, and an amendment to permit the conversion of a portion of the station to an accessory convenience store; and

WHEREAS, a public hearing was held on this application on October 7, 2014 after due notice by publication in *The City Record*, with a continued hearing on November 18, 2014, and then to decision on December 16, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson and Commissioner Ottley-Brown; and

WHEREAS, Community Board 12, Bronx, recommends approval of this application; and

WHEREAS, the site is located on the southwest corner of the intersection of Burke Avenue and Barnes Avenue, partially within a C1-3 (R6) zoning district and partially within an R6 zoning district; and

WHEREAS, the Board has exercised jurisdiction over the subject site since October 22, 1957 when, under BSA Cal. No. 52-57-BZ, the Board granted a variance to permit the construction of a gasoline service station with accessory uses for a term of 15 years; and

WHEREAS, subsequently, the grant was amended and the term extended by the Board at various times, until its expiration on October 22, 1982; and

WHEREAS, on February 6, 1990, under the subject calendar number, the Board re-established the variance pursuant to ZR § 11-411 to legalize the existing gasoline service station with accessory uses and parking for more than five automobiles, for a term of ten years; and

WHEREAS, on January 15, 2002, the Board granted a ten-year extension of the term of the variance, which expired on February 6, 2010, and on May 10, 2011, the Board

MINUTES

granted a further extension of term, a one-year extension of time to obtain a certificate of occupancy, and an amendment to permit a change in the hours of operation of the service station and to legalize public parking (Use Group 8) at the site; and

WHEREAS, the applicant states that a certificate of occupancy was not obtained by May 10, 2012; as such, the applicant now seeks an extension of time to obtain a certificate of occupancy; and

WHEREAS, in addition, the applicant seeks an amendment to permit the conversion of a portion of the gasoline service station currently used as accessory office and storage space to an accessory convenience store; and

WHEREAS, the applicant notes that the one-story gasoline service station building has approximately 2,580 sq. ft. of floor area (0.15 FAR); and

WHEREAS, the applicant represents that the accessory convenience store will occupy approximately 663 sq. ft. of the existing floor area of the building; the applicant notes that the proposal reflects the preservation of three service bays; and

WHEREAS, the applicant also states that the proposal complies with DOB Technical Policy and Procedure Notice No. 10/1999, which sets forth the requirements for convenience stores accessory to gasoline and automotive service stations; and

WHEREAS, at hearing, the Board directed the applicant to: (1) provide landscaping in accordance with the approved plans, including replacement of evergreen trees, as appropriate; (2) replace fence slats in disrepair; (3) remove excessive signage; and (4) remove all debris from the site, including abandoned gasoline pumps, junked automobiles, and weeds; and

WHEREAS, in response, the applicant provided: (1) a revised site plan indicating that landscaping and fence slats would be replaced and maintained, as necessary; and (2) photographs showing the removal of excessive signage (including banners) and debris from the site; and

WHEREAS, based on its review of the record, the Board finds that the requested extension of term and amendment are appropriate, with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *waives* the Rules of Practice and Procedure, *reopens*, and *amends* the resolution, dated February 6, 1990, so that as amended the resolution shall read: “to grant an extension of time to obtain a certificate of occupancy to December 16, 2016 and to permit the conversion of a portion of the building to an accessory convenience store; *on condition* that the use and operation of the site shall substantially conform to the approved drawings, filed with this application and marked ‘December 12, 2014’ - (7) sheets; and *on further condition*:

THAT the accessory convenience store shall be limited to a maximum of 663 sq. ft. of floor area;

THAT a maximum of ten parking spaces on the site shall be made available for rent, and such parking spaces shall be rented on a monthly basis only;

THAT the hours of operation for gasoline sales on the site shall be 24 hours per day, seven days per week, and the hours of operation for the repair use on the site shall be Monday through Friday, from 8:00 a.m. to 6:00 p.m., Saturday, from 8:00 a.m. to 3:00 p.m., and closed on Sundays;

THAT all signage shall comply with C1 zoning district sign regulations;

THAT all landscaping and fencing shall be maintained;

THAT all lighting shall be directed downward and away from adjacent residential uses;

THAT the site shall be maintained free of debris and graffiti;

THAT the above conditions shall be listed on the certificate of occupancy;

THAT a certificate of occupancy shall be obtained by December 16, 2016;

THAT all conditions from the prior resolutions not specifically waived by the Board remain in effect; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted.”

(DOB Application No. 220077976)

Adopted by the Board of Standards and Appeals, December 16, 2014.

164-04-BZ

APPLICANT – Warsaw Burstein, LLP., for 2241 Westchester Avenue Realty Corp., owner; Castle Hill Fitness Group, LLC., lessee.

SUBJECT – Application April 25, 2014 – Extension of Term of a previously granted Special Permit (§73-36) for the continued operation of a physical culture establishment (*Planet Fitness Center*) occupying the entire second floor of a two story building which expired on July 15, 2014. R6/C2-4 zoning district.

PREMISES AFFECTED – 2241 Westchester Avenue, Northwest corner of Westchester Avenue and Glebe Avenue, Block 3963, Lot 57, Borough of Bronx.

COMMUNITY BOARD #10BX

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez...4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a reopening and an extension of term for a physical culture establishment (“PCE”), which expired on July 15, 2014; and

WHEREAS, a public hearing was held on this application on November 18, 2014, after due notice by publication in *The City Record*, and then to decision on December 16, 2014; and

MINUTES

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson and Commissioner Ottley-Brown; and

WHEREAS, Community Board 10, Bronx, recommends approval of this application; and

WHEREAS, the subject site is located on the northwest corner of the intersection of Westchester Avenue and Glebe Avenue, within a C2-2 (R6) zoning district;

WHEREAS, the site has 22,790 sq. ft. of lot area and is occupied by a two-story commercial building with approximately 25,290 sq. ft. of floor area (1.11 FAR); and

WHEREAS, the PCE occupies approximately 12,695 sq. ft. of floor area (0.56 FAR) on the second story; and

WHEREAS, the PCE is operated as a Planet Fitness; and

WHEREAS, on February 7, 2006, under the subject calendar number, the Board granted a special permit, pursuant to ZR § 73-36, to permit, the legalization of a PCE operated as Gotham City Fitness, for a term of ten years from the date that the PCE began operating, to expire on July 15, 2014; and

WHEREAS, on October 5, 2010, the Board authorized an amendment to the grant to permit certain modifications to the BSA-approved plans, a change in the hours of operation, and a change in operator from Gotham City Fitness to Planet Fitness; and

WHEREAS, the applicant now seeks a further extension of term; and

WHEREAS, at hearing, the Board directed the applicant to: (1) demonstrate that the fire alarm and sprinkler systems have been installed and that the PCE has a Place of Assembly ("PA") certificate of operation; (2) determine whether the open Environmental Control Board violation regarding the air conditioning units on the building's roof are related to the PCE; and (3) remove graffiti from the exterior of the building and implement a graffiti management plan; and

WHEREAS, in response, the applicant: (1) provided copies of all permit applications and signoffs and provided a copy of the PA certificate of operation; and (2) stated that the violation relates to units that service the PCE and that permits will be obtained to legalize the installation; and

WHEREAS, as to the graffiti, the applicant represents that it is working with local elected officials to combat the presence of graffiti at the site; and

WHEREAS, based upon its review of the record, the Board finds that an extension of term for ten years is appropriate with certain conditions as set forth below.

Therefore it is Resolved, that the Board of Standards and Appeals *reopens* and *amends* the resolution, dated February 7, 2006, so that as amended the resolution reads: "to grant an extension of the special permit for a term of ten years from the prior expiration; on condition that any and all work shall substantially conform to drawings as they apply to the objection above noted, filed with this application marked 'Received September 19, 2014'-(4) sheets; and on further condition: *on condition*:

THAT this grant shall be limited to a term of ten years,

to expire on July 15, 2024;

THAT graffiti shall be removed within 48 hours of its appearance at the site;

THAT there shall be no change in ownership or operating control of the PCE without prior approval from the Board;

THAT the above conditions shall appear on the certificate of occupancy;

THAT a certificate of occupancy for the operation of the PCE shall be obtained by December 16, 2015;

THAT all conditions from the prior resolution not specifically waived by the Board remain in effect; and

THAT Department of Buildings shall ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code and any other relevant laws under its jurisdiction irrespective of plan(s) and/or configuration(s) not related to the relief granted." (DOB Application No. 210053378)

Adopted by the Board of Standards and Appeals, December 16, 2014.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated December 6, 2012, acting on DOB Application No. 520026695, reads in pertinent part:
Present application is filed to legalize an enlargement of a non-conforming and non-complying building not permitted as per 52-40 and 54-30 of the NYC Zoning Resolution ...

WHEREAS, this is an application under ZR § 72-21, to legalize, on a site within an R3A zoning district, the enlargement of a non-complying one-story building and the extension of a non-conforming Use Group 6 retail use, which are contrary to ZR §§ 52-40 and 54-30; and

WHEREAS, a public hearing was held on this

MINUTES

application on April 29, 2014, after due notice by publication in the *City Record*, with continued hearings on September 9, 2014, November 18, 2014, and December 9, 2014, and then to decision on December 16, 2014; and

WHEREAS, Commissioners Ottley-Brown and Montanez performed examinations of the subject site and premises, and surrounding area; and

WHEREAS, Community Board 1, Staten Island, recommends approval of this application on the condition that the subject premises not be used as a liquor store or bar; and

WHEREAS, the subject site is an interior triangular lot with approximately 102 feet of frontage on Targee Street, within an R3A zoning district; the site has approximately 2,060 sq. ft. of lot area; and

WHEREAS, the as-of-right development of the subject site is limited to either a residential development with an FAR of 0.5 or a community facility use with an FAR of 1.0; and

WHEREAS, the site is occupied by a non-complying one-story commercial building containing approximately 1,135 sq. ft. of floor area, the non-conforming use of which is as a Use Group 6 food store; and

WHEREAS, prior to 2001, the applicant's predecessor-in-interest enlarged the non-complying building by constructing an addition with approximately 563 sq. ft. of floor area; permits were not obtained for this enlargement; and

WHEREAS, the applicant proposes to legalize the non-complying extension and permit a non-conforming Use Group 6 retail store thereof; and

WHEREAS, in order to legalize the extension of the subject building and permit the extension of the non-conforming use thereof, the applicant seeks a waiver of ZR §§ 52-40 and 54-30, which govern non-complying buildings and non-conforming uses and prohibit the pre-2001 enlargement; and

WHEREAS, the applicant states that, per ZR § 72-21(a), the following are unique physical conditions which create unnecessary hardship in using or developing the site in conformance and compliance with the applicable zoning regulations: (1) the site's irregular triangular shape, and (2) the site's limited floor area; and

WHEREAS, the applicant notes that when the bulk regulations applicable to the site's R3A zoning district are applied to the site, the buildable floor area of the site is limited to either 1,030 sq. ft. for residential use or 2,060 sq. ft. for community facility use and that the unique shape of the subject site increases the impact of the required yards on the footprint of any as-of-right building, reducing the foot print of an as-of-right residential building on the subject site to 639 sq. ft. or of an as-of-right community facility on the subject site to 977 sq. ft.; and

WHEREAS, the applicant further notes that an as-of-right community facility use of the subject site would require the applicant to develop a two-story building on the site, thereby necessitating an elevator and accessibility features which would further decrease the available floor area of the site, rendering the development inefficient and infeasible; and

WHEREAS, the applicant analyzed four similarly shaped triangular lots along Targee Street within the applicable zoning district and demonstrated that such lots are significantly larger in floor area and as such would permit more useable and efficient floor plans if developed in conformance with the applicable zoning regulations; and

WHEREAS, the applicant asserts that, per ZR § 72-21(b), there is no reasonable possibility that the development of the site in conformance with the Zoning Resolution will bring a reasonable return; and

WHEREAS, the applicant considered the as-of-right development of the site for a single-family house as well as the continued non-conforming retail use of the non-complying building; and

WHEREAS, the applicant concludes that neither alternative would realize a reasonable return; and

WHEREAS, the applicant asserts that only the legalization of the already-constructed non-complying extension and an expansion of the non-conforming use would yield a reasonable return; and

WHEREAS, based upon its review of the applicant's economic analysis, the Board has determined that because of the site's unique physical conditions, there is no reasonable possibility that development in strict conformance and compliance with applicable zoning requirements will provide a reasonable return; and

WHEREAS, the applicant represents that the proposal will not alter the essential character of the neighborhood, substantially impair the appropriate use or development of adjacent property, or be detrimental to the public welfare, in accordance with ZR § 72-21(c); and

WHEREAS, the applicant asserts that the surrounding area is characterized by mixed uses including significant retail use with frontage on Targee Street; and

WHEREAS, the applicant represents that (1) the majority of the subject structure has existed for commercial use since 1947 and that the subject enlargement was constructed by the applicant's predecessor over ten years prior to the instant application, (2) that Targee Street contains several non-residential uses and is already burdened by significant traffic, and (3) that the surrounding area is characterized by a mix of uses which includes single-story retail and convenience stores; and

WHEREAS, the applicant further represents that the existing enlargement does not directly impact any of the adjoining properties in that the adjacent property on Roff Street is vacant and the two properties on Metcalfe Street which are contiguous to the subject site are adjacent to the legal, existing, non-conforming food market; and

WHEREAS, the Board finds that the character of the area is mixed-use and that the legalization of the already-existing non-complying structure and expansion of the pre-existing non-conforming use will not impact nearby complying and/or conforming uses and, accordingly, finds that this action will not alter the essential character of the surrounding neighborhood nor impair the use or development of adjacent properties, nor will it be

MINUTES

detrimental to the public welfare; and

WHEREAS, the Board finds that, consistent with ZR § 72-21(d), the hardship herein was not created by the owner or a predecessor in title, but is rather a function of the site's history of development, size and shape, and the limited economic potential of conforming uses on the lot; and

WHEREAS, the Board also finds that this proposal is the minimum necessary to afford the owner relief, in accordance with ZR § 72-21(e); and

WHEREAS, the Board has determined that the evidence in the record supports the findings required to be made under ZR § 72-21; and

WHEREAS, the project is classified as an Unlisted action pursuant to 6 NYCRR, Part 617.2; and

WHEREAS, the Board has conducted an environmental review of the proposed action and has documented relevant information about the project in the Final Environmental Assessment Statement (EAS) CEQR No. 13-BSA-075R, dated October 25, 2012 ; and

WHEREAS, the EAS documents that the project as proposed would not have significant adverse impacts on Land Use, Zoning, and Public Policy; Socioeconomic Conditions; Community Facilities and Services; Open Space; Shadows; Historic Resources; Urban Design and Visual Resources; Neighborhood Character; Natural Resources; Waterfront Revitalization Program; Infrastructure; Hazardous Materials; Solid Waste and Sanitation Services; Energy; Traffic and Parking; Transit and Pedestrians; Air Quality; Noise; and Public Health; and

WHEREAS, no other significant effects upon the environment that would require an Environmental Impact Statement are foreseeable; and

WHEREAS, the Board has determined that the proposed action will not have a significant adverse impact on the environment; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Negative Declaration, with conditions as stipulated below, prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617, the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR § 72-21 to legalize, on a site within an R3A zoning district, the enlargement of a non-complying one-story building and to permit the extension of a non-conforming Use Group 6 retail use thereof, contrary to ZR §§ 52-40 and 54-30; *on condition* that any and all work will substantially conform to drawings as they apply to the objections above noted, filed with this application marked "October 21, 2014"– five (5) sheets; and *on further condition*:

THAT this approval is limited to the relief granted by the Board in response to specifically filed DOB/other jurisdiction objection(s); and

THAT a Certificate of Occupancy for the subject site shall be obtained by December 16, 2018; and

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted; and

THAT all signage at the subject site shall conform to the requirements of a C-1 district for both the existing retail use and the proposed retail use; and

THAT the non-conforming use of the legal non-complying structure and the subject non-complying enlargement shall be limited to a Use Group 6 retail use; and

THAT the hours of operation of for the existing and proposed retail shall be Monday through Saturday, from 7:00 a.m. to 11:00 p.m., and Sunday, from 7:00 a.m. to 10:00 p.m.

Adopted by the Board of Standards and Appeals, December 16, 2014.

119-14-BZ CEQR #14-BSA-163M

APPLICANT – Law Office of Jay Goldstein, PLLC, for 1151 Third Avenue LLC, owner; Flywheel Sport Inc., lessee.

SUBJECT – Application June 2, 2014 – Special Permit (§73-36) to allow the operation of a physical culture establishment (*Flywheel Sports*) of the second and third floor of the existing building. Located within a C1-9 zoning district.

PREMISES AFFECTED – 1151 Third Avenue aka 201 East 67th Street, Block 1422, Lot 1, Borough of Manhattan.

COMMUNITY BOARD #8M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez...4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings ("DOB"), dated May 5, 2014, acting on DOB Application No. 110365453, reads, in pertinent part:

Proposed work of a Physical Culture Establishment at 2nd, 3rd, 4th and 5th floors is not permitted as-of-right in Zoning C1-9 district...; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C1-9 zoning district, the operation of a physical culture establishment ("PCE") operating on the second and third story of a five-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on November 18, 2014, after due notice by publication in the *City Record*, and then to decision on December 16, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Ottley-Brown; and

WHEREAS, Community Board 8, Manhattan,

MINUTES

recommends approval of this application; and

WHEREAS, the subject site is located on the northeast corner of the intersection of Third Avenue and East 67th Street, in Manhattan;

WHEREAS, the site has approximately 25.42 sq. ft. of frontage along Third Avenue and approximately 100 sq. ft. of frontage along East 67th Street, with approximately 2,542 sq. ft. of lot area; and

WHEREAS, the site is occupied by a five-story commercial building with approximately 9,795 sq. ft. of floor area (3.9 FAR); and

WHEREAS, the PCE shall occupy the second and third floor of the building, comprising approximately 3,918 sq. ft. of floor area; and

WHEREAS, the PCE shall be operated under the trade name Flywheel; and

WHEREAS, the hours of operation for the PCE are seven days a week, from 5:30 a.m. to 9:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE does not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither: 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 14-BSA-163M, dated May 5, 2014; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site within a C1-9 zoning district, the operation of a PCE operating on the second and third stories of a five-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed

with this application marked “August 6, 2014”- Three (3) sheets; *on further condition:*

THAT the term of the PCE grant will expire on December 16, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by December 16, 2018;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 16, 2014.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated May 5, 2014, acting on DOB Application No. 110365453, reads, in pertinent part:

Proposed work of a Physical Culture Establishment at 2nd, 3rd, 4th and 5th floors is not permitted as-of-

MINUTES

right in Zoning C1-9 district...; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C1-9 zoning district, the operation of a physical culture establishment (“PCE”) operating on the fifth story of a five-story mixed commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on November 18, 2014, after due notice by publication in the *City Record*, and then to decision on December 16, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Ottley-Brown; and

WHEREAS, Community Board 8, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the northeast corner of the intersection of Third Avenue and East 67th Street, in Manhattan;

WHEREAS, the site has approximately 25.42 sq. ft. of frontage along Third Avenue and approximately 100 sq. ft. of frontage along East 67th Street, with approximately 2,542 sq. ft. of lot area; and

WHEREAS, the site is occupied by a five-story commercial building with approximately 9,795 sq. ft. of floor area (3.9 FAR); and

WHEREAS, the PCE shall occupy the fifth floor of building, comprising approximately 1,959 sq. ft. of floor area; and

WHEREAS, the PCE shall be operated under the trade name Flitting Room; and

WHEREAS, the hours of operation for the PCE are Monday through Friday, from 5:30 a.m. to 10:00 p.m., and on Saturday and Sunday from 6:30 a.m. to 7:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE does not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither: 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board notes that the term of this grant has been reduced to reflect the period of time that the PCE operated without the special permit and to ensure that the continued operation of the PCE does not negatively impact the building; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 14-BSA-164M dated May 30, 2014; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site within a C1-9 zoning district, the operation of a PCE operating on the fifth story of a five-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “August 6, 2014”- Three (3) sheets; *on further condition*:

THAT the term of the PCE grant will expire on December 16, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by December 16, 2018;

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 16, 2014.

CEQR #14-BSA-165M

APPLICANT – Law office of Jay Goldstein, PLLC, for 1151 Third Avenue, owner; Strengthen Lengthen Tone LLC., lessee.

SUBJECT – Application June 2, 2014 – Special Permit (§73-36) to allow for the operation of a physical culture establishment (SLT) on the 4th floor of the existing building, C1-9 zoning district.

PREMISES AFFECTED – 1151 Third Avenue aka 201 East 67th Street, northeast corner of 3rd Avenue and East 67th Street, Block 1422, Lot 1, Borough of Manhattan.

COMMUNITY BOARD #8M

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez...4
Negative:.....0

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated May 5, 2014, acting on DOB Application No. 110365453, reads, in pertinent part:

Proposed work of a Physical Culture Establishment at 2nd, 3rd, 4th and 5th floors is not permitted as-of-right in Zoning C1-9 district...; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to permit, on a site within a C1-9 zoning district, the operation of a physical culture establishment (“PCE”) operating on the fourth story of a five-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on November 18, 2014, after due notice by publication in the *City Record*, and then to decision on December 16, 2014; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Ottley-Brown; and

WHEREAS, Community Board 8, Manhattan, recommends approval of this application; and

WHEREAS, the subject site is located on the northeast corner of the intersection of Third Avenue and East 67th Street, in Manhattan;

WHEREAS, the site has approximately 25.42 sq. ft. of frontage along Third Avenue and approximately 100 sq. ft. of frontage along East 67th Street, with approximately 2,542 sq. ft. of lot area; and

WHEREAS, the site is occupied by five-story commercial building with approximately 9,795 sq. ft. of floor area (3.9 FAR); and

WHEREAS, the PCE shall occupy the fourth floor of the building, comprising approximately 1,959 sq. ft. of floor area; and

WHEREAS, the PCE shall be operated under the trade name SLT; and

WHEREAS, the hours of operation for the PCE are Monday through Friday, from 6:00 a.m. to 9:30 p.m., and on

Saturday and Sunday from 8:00 a.m. to 7:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE does not interfere with any pending public improvement project; and

WHEREAS, accordingly, the Board finds that this action will neither: 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

WHEREAS, the project is classified as a Type II action pursuant to 6 NYCRR Part 617.5; and

WHEREAS, the Board has conducted a review of the proposed Checklist action discussed in the CEQR Checklist No. 14-BSA-165M, dated May 5, 2014; and

Therefore it is Resolved, that the Board of Standards and Appeals issues a Type II determination prepared in accordance with Article 8 of the New York State Environmental Conservation Law and 6 NYCRR Part 617 and § 6-07(b) of the Rules of Procedure for City Environmental Quality Review and Executive Order No. 91 of 1977, as amended, and makes each and every one of the required findings under ZR §§ 73-36 and 73-03, to permit, on a site within a C1-9 zoning district, the operation of a PCE operating on the fourth story of a five-story commercial building, contrary to ZR § 32-10; *on condition* that all work shall substantially conform to drawings filed with this application marked “August 6, 2014”- Three (3) sheets; *on further condition*:

THAT the term of the PCE grant will expire on December 16, 2024;

THAT there will be no change in ownership or operating control of the PCE without prior application to and approval from the Board;

THAT accessibility compliance will be as reviewed and approved by DOB;

THAT fire safety measures will be installed and/or maintained as shown on the Board-approved plans;

THAT the above conditions will appear on the Certificate of Occupancy;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by December 16, 2018;

MINUTES

THAT this approval is limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objection(s);

THAT the approved plans will be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all of the applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 16, 2014.

THE RESOLUTION –

WHEREAS, the decision of the Department of Buildings (“DOB”), dated June 25, 2014, acting on DOB Application No. 121995494, reads, in pertinent part:

ZR 32-10 – Proposed Physical Culture Establishment at zoning C6-4A is not permitted as-of-right...; and

WHEREAS, this is an application under ZR §§ 73-36 and 73-03, to legalize, on a site within a C6-4A zoning district, within the Ladies’ Mile Historic District, a physical culture establishment (“PCE”) on the first floor of a 12-story commercial building, contrary to ZR § 32-10; and

WHEREAS, a public hearing was held on this application on November 18, 2014, after due notice by publication in the *City Record*, and then to decision on December 16, 2014; and

WHEREAS, the premises and surrounding area had a site and neighborhood examination by Commissioner Brown; and

WHEREAS, Community Board 5, Manhattan, elected to waive any comments to the instant application; and

WHEREAS, the subject site is located on the north side of West 21st Street, between 5th Avenue and the Avenue of the

Americas, in a C6-4A zoning district within the Ladies’ Mile Historic District; and

WHEREAS, the site has approximately 105 feet of frontage along West 21st Street and 10,377 sq. ft. of lot area; and

WHEREAS, the site is occupied by a 12-story commercial building; and

WHEREAS, the PCE occupies 2,764 sq. ft. of floor area on the first floor of the subject building; and

WHEREAS, the PCE operates as Exhale Enterprises LLC; and

WHEREAS, the PCE’s hours of operation are Monday through Friday, from 6:00 a.m. to 9:00 p.m., and on Saturday and Sunday from 8:00 a.m. to 8:00 p.m.; and

WHEREAS, the Department of Investigation has performed a background check on the corporate owner and operator of the establishment and the principals thereof, and issued a report which the Board has determined to be satisfactory; and

WHEREAS, the Fire Department states that it has no objection to the proposal; and

WHEREAS, the PCE does not interfere with any pending public improvement project; and

WHEREAS, the Landmarks Preservation Commission has approved the proposed alterations of the building by Certificate of No Effect No. 15-6808, issued on April 21, 2014; and

WHEREAS, accordingly, the Board finds that this action will neither: 1) alter the essential character of the surrounding neighborhood; 2) impair the use or development of adjacent properties; nor 3) be detrimental to the public welfare; and

WHEREAS, the Board finds that, under the conditions and safeguards imposed, any hazard or disadvantage to the community at large due to the proposed special permit use is outweighed by the advantages to be derived by the community; and

WHEREAS, therefore, the Board has determined that the evidence in the record supports the requisite findings pursuant to ZR §§ 73-36 and 73-03; and

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to permit, on a site within an R3X zoning district, the construction of a single-family home, which does not comply with the zoning requirements for front, rear, and side yards, contrary to ZR §§ 23-45, 23-461, 23-47, and 54-313; and

WHEREAS, a public hearing was held on this application on December 16, 2014, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson and Commissioner Montanez; and

WHEREAS, Community Board 2, Staten Island, recommends approval of this application; and

WHEREAS, this application is brought by the Department of Housing Preservation and Development ("HPD") on behalf of the owner and in connection with the Mayor's Office of Housing Recovery Operations and the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in order to accept the application from HPD on behalf of the owner, the Board adopts a waiver of 2 RCNY § 1-09.4 (Owner's Authorization); and

WHEREAS, the subject site is located on the east side of Roma Avenue between Garibaldi Avenue and Ebbets Street, within an R3X zoning district; and

WHEREAS, the site has 20 feet of frontage along Roma Avenue and 2,000 sq. ft. of lot area; and

WHEREAS, the site is occupied by a flood-damaged, one-story, single-family home with a 815 sq. ft. of floor area (0.40 FAR); the existing site has the following yard non-compliances: a front yard depth of 2'-9" (a minimum front yard depth of 18'-0" is required, per ZR § 23-45); a rear yard depth of 18'-9" (a minimum rear yard depth of 30'-0" is required, per ZR § 23-47); and side yards with widths of 4'-2" (eastern side yard) and 1'-3" (western side yard) (the requirement is two side yards with minimum widths of 5'-0", per ZR § 23-461 and 23-48; however, non-complying side yards may be reconstructed, per ZR § 54-41); and

WHEREAS, the applicant represents and the Board accepts that all information regarding the size and location of the existing building at the site and the existing buildings at adjacent sites are based on MapPLUTO and Department of Finance records; as such, the distances between the existing building and the neighboring buildings are estimates; and

WHEREAS, in addition, the applicant represents and the Board accepts that the site was owned separately and individually from all other adjoining tracts of land on December 15, 1961; as such, provided that the site remains in separate and individual ownership on the date of application for a building permit, the site shall be governed by ZR §§ 23-33 and 23-48; and

WHEREAS, the applicant proposes to demolish the existing building and construct a two-story, single-family home with 1,082 sq. ft. of floor area (0.54 FAR); the new building will provide a front yard depth of 14'-6", a rear yard depth of 18'-0", an southern side yard width of 5'-0", and northern side yard width of 6'-3½"; and

WHEREAS, in addition, the applicant represents that the proposed building may be less than 8'-0" from the buildings directly north and south of the site; and

MINUTES

WHEREAS, the applicant notes that pursuant to ZR §§ 54-313 (Single- or Two-family Residences with Non-complying Front Yards or Side Yards), 54-41 (Permitted Reconstruction) and 64-723 (Non-complying Single- and Two-family Residences), the existing non-complying yards may be maintained in a reconstruction and vertically enlarged, provided that, per ZR § 54-313, a minimum distance of 8'-0" is maintained between the non-complying side yards and the building on the adjoining zoning lot; in addition, as noted above, per ZR §§ 23-461 and 23-48, side yards must have a minimum width of 5'-0"; and

WHEREAS, thus, the applicant seeks a special permit to allow construction of the new building with a front yard depth of 14'-6", a rear yard depth of 18'-0", and a minimum distance of less than 8'-0" from the buildings directly north and south of the site; and

WHEREAS, pursuant to ZR § 64-92, in order to allow for alterations, developments, and enlargements in accordance with flood-resistant construction standards, the Board may permit modifications of ZR §§ 64-30 and 64-40 (Special Bulk Regulations for Buildings Existing on October 28, 2012), 64-60 (Design Requirements), 64-70 (Special Regulations for Non-conforming Uses and Non-complying Buildings), as well as all other applicable bulk regulations except floor area ratio; and

WHEREAS, in order to grant a special permit pursuant to ZR § 64-92, the Board must make the following findings: (a) that there would be a practical difficulty in complying with flood-resistant construction standards without such modifications, and that such modifications are the minimum necessary to allow for an appropriate building in compliance with flood-resistant construction standards; (b) that any modification of bulk regulations related to height is limited to no more than ten feet in height or ten percent of the permitted height as measure from the flood-resistant construction elevation, whichever is less; and (c) the proposed modifications will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the Board may also prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant states that there would be a practical difficulty complying with the flood-resistant construction standards without the modification of the front, side and rear yard requirements, in accordance with ZR § 64-92(a); and

WHEREAS, specifically, the applicant states that the proposed building is required to have exterior walls that are 12 inches thick, which diminishes the amount of interior floor space; thus, the proposed side yard waivers allow the construction of a flood-resistant building with a viable building footprint to compensate for the loss of interior space; and

WHEREAS, the Board agrees that there would be a practical difficulty complying with the flood-resistant construction standards without the requested front, rear, and side yard waivers; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the Board finds that the ZR § 64-92(b) finding is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the surrounding neighborhood is characterized by one- and two-story, single- and two-family homes; as such, the applicant states that the proposal is consistent with the existing context; and

WHEREAS, the applicant also contends that the proposal reflects a smaller footprint, an increase in front yard depth from 2'-9" to 14'-6", and increases in the width of both side yards; and

WHEREAS, the Board finds that the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed enlargement satisfies all of the relevant requirements of ZR § 64-92; and

Therefore it is Resolved, that the Board of Standards and Appeals waives the Rules of Practice and Procedure, issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92, to permit, on a site within an R3X zoning district, the construction of a single-family home, which does not comply with the zoning requirements for front, rear, and side yards, contrary to ZR §§ 23-45, 23-461, 23-47, and 54-313; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received December 9, 2014"- four (4) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 1,082 sq. ft. of floor area (0.54 FAR), a minimum front yard depth of 14'-6", a minimum rear yard depth of 18'-0", and side yards with minimum widths of 5'-0" and 6'-3½", as illustrated on the BSA-approved plans;

THAT the building may be less located less than 8'-0" from the buildings directly north and south of the site;

THAT this approval shall be limited to the relief

MINUTES

granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT this approval shall be limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by December 16, 2018;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 16, 2014.

WHEREAS, in order to accept the application from HPD on behalf of the owner, the Board adopts a waiver of 2 RCNY § 1-09.4 (Owner’s Authorization); and

WHEREAS, the subject site is located on the north side of Millbank Road, west of Cedar Grove Avenue, within an R3X zoning district; and

WHEREAS, the site has 40 feet of frontage along Millbank Road and 2,400 sq. ft. of lot area; and

WHEREAS, the site is occupied by a flood-damaged, one-story, single-family home with a 720 sq. ft. of floor area (0.30 FAR); the existing site has the following yard non-compliances: a front yard depth 6’-8” (a minimum front yard depth of 18’-0” is required, per ZR § 23-45); a rear yard depth of 2’-9” (a minimum rear yard depth of 20’-0” is required, per ZR §§ 23-47 and 23-52); side yards with widths of 3’-9” (western side yard) and 2’-6” (eastern side yard) (the requirement is two side yards with minimum widths of 5’-0”, and a minimum distance between adjacent buildings along a side lot line of 8’-0”, per ZR § 23-461); and

WHEREAS, the applicant represents and the Board accepts that all information regarding the size and location of the existing building at the site and the existing buildings at adjacent sites are based on MapPLUTO and Department of Finance records; as such, the distances between the existing building and the neighboring buildings are estimates; and

WHEREAS, in addition, the applicant represents and the Board accepts that the site was owned separately and individually from all other adjoining tracts of land on December 15, 1961; as such, provided that the site remains in separate and individual ownership on the date of application for a building permit, the site shall be governed by ZR §§ 23-33 and 23-52; and

WHEREAS, the applicant proposes to demolish the existing building and construct a two-story, single-family home with 1,272 sq. ft. of floor area (0.53 FAR); the new building will provide a front yard depth of 18’-0”, a rear yard depth of 16’-1”, an eastern side yard width of 10’-5”, and western side yard width of 5’-0”; and

WHEREAS, in addition, the applicant states that the proposed building may be less than 8’-0” from the building directly west of the site; and

WHEREAS, thus, the applicant seeks a special permit to allow construction of the new building with a rear yard depth of 16’-1”, and a minimum distance of less than 8’-0” from the building directly west of the site; and

WHEREAS, pursuant to ZR § 64-92, in order to allow for alterations, developments, and enlargements in accordance with flood-resistant construction standards, the Board may permit modifications of ZR §§ 64-30 and 64-40 (Special Bulk Regulations for Buildings Existing on October 28, 2012), 64-60 (Design Requirements), 64-70 (Special Regulations for Non-conforming Uses and Non-complying

MINUTES

Buildings), as well as all other applicable bulk regulations except floor area ratio; and

WHEREAS, in order to grant a special permit pursuant to ZR § 64-92, the Board must make the following findings:

(a) that there would be a practical difficulty in complying with flood-resistant construction standards without such modifications, and that such modifications are the minimum necessary to allow for an appropriate building in compliance with flood-resistant construction standards; (b) that any modification of bulk regulations related to height is limited to no more than ten feet in height or ten percent of the permitted height as measure from the flood-resistant construction elevation, whichever is less; and (c) the proposed modifications will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the Board may also prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant states that there would be a practical difficulty complying with the flood-resistant construction standards without the modification of the side and rear yard requirements, in accordance with ZR § 64-92(a); and

WHEREAS, specifically, the applicant states that the proposed building is required to have exterior walls that are 12 inches thick, which diminishes the amount of interior floor space; thus, the proposed side yard waivers allow the construction of a flood-resistant building with a viable building footprint to compensate for the loss of interior space; and

WHEREAS, the Board agrees that there would be a practical difficulty complying with the flood-resistant construction standards without the requested side and rear yard waivers; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the Board finds that the ZR § 64-92(b) finding is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the surrounding neighborhood is characterized by one- and two-story, single- and two-family homes; as such, the applicant states that the proposal is consistent with the existing context; and

WHEREAS, the applicant also contends that the proposal reflects a smaller footprint, an increase in front yard depth from a non-complying 6'-8" to a complying 18'-

0", and increase in the widths of both side yards, and increase in the depth of the rear yard from 12'-8" to 16'-1"; and

WHEREAS, the Board finds that the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed enlargement satisfies all of the relevant requirements of ZR § 64-92; and

Therefore it is Resolved, that the Board of Standards and Appeals waives the Rules of Practice and Procedure, issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92, to permit, on a site within an R3X zoning district, the construction of a single-family home, which does not comply with the zoning requirements for rear and side yards, contrary to ZR §§ 23-461 and 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received December 15, 2014"- four (4) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 1,272 sq. ft. of floor area (0.53 FAR) and a minimum rear yard depth of 16'-1", as illustrated on the BSA-approved plans;

THAT the building may be less located less than 8'-0" from the building directly west of the site;

THAT this approval shall be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT this approval shall be limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by December 16, 2018;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 16, 2014.

APPLICANT – Department of Housing Preservation and Development, for Build it Back Program.

SUBJECT – Application November 6, 2014 – Special Permit (ZR 64-92) to waive bulk regulations for the replacement of homes damaged/destroyed by Hurricane Sandy. (GCL 36) waiver for properties located on an unmapped street on properties which are registered in the NYC Build it Back Program.

PREMISES AFFECTED – 19 Milbank Road, Block 0409, Lot 10027, Borough of Staten Island.

COMMUNITY BOARD #2SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez...4
Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application to permit the construction of a single-family home that does not front a mapped street, contrary to General City Law § 36; and

WHEREAS, a public hearing was held on this application on December 16, 2014, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Vice- Chair Hinkson; and

WHEREAS, Community Board 2, Staten Island, recommends approval of this application; and

WHEREAS, this application is applicant is brought by the Department of Housing Preservation and Development (“HPD”) on behalf of the owner and in connection with the Mayor’s Office of Housing Recovery Operations and the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in order to accept the application from HPD on behalf of the owner, the Board adopts a waiver of 2 RCNY § 1-09.4 (Owner’s Authorization); and

WHEREAS, this site is also the subject of a companion application filed under BSA Cal. No. 291-14-BZ, for a special permit, pursuant to ZR § 64-92, to permit, on a site within an R3X zoning district, the construction of a single-family home, which does not comply with the zoning requirements for rear and side yards, contrary to ZR §§ 23-461, 23-47, and 54-313; and

WHEREAS, the subject site is located on the north side of Millbank Road, west of Cedar Grove Avenue, within an R3X zoning district; Millbank Road is an unmapped access road; and

WHEREAS, the site is occupied by a flood-damaged one-story, single-family home with 720 sq. ft. of floor area (0.30 FAR); and

WHEREAS, the applicant proposes to demolish the existing building and construct a two-story, single-family home with 1,272 sq. ft. of floor area (0.53 FAR);

WHEREAS, because the site is located along an unmapped access road, the applicant request a waiver of General City Law § 36; and

WHEREAS, by letter dated December 2, 2014, the Fire Department states that it has reviewed the proposal and has no objections, provided that: (1) the entire building is fully-sprinklered in conformity 2014 Building Code; (2) combination Smoke/Carbon Monoxide detectors as well NFPA 13D fire sprinklers are installed; (3) exterior walls and floors are constructed of eight-inch Autoclaved Aerated Concrete (AAC) panels (or an approved equivalent), which provide a four-hour fire-resistance rating; (4) penetrations through the AAC floor over parking are firestopped per required the occupancy separation; and (5) the height of the highest window does not exceed 30 feet from grade level below such window; and

WHEREAS, based on the record, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved, the appeal is granted by the power vested in the Board by Section 36 of the General City Law and on condition that construction shall substantially conform to the drawing filed with the application marked “December 15, 2014”- one (1) sheet, and on further condition:

THAT the approved plan shall be considered approved only for the portions related to the specific relief granted;

THAT the entire building shall be fully-sprinklered in conformity with provisions of 2014 Building Code;

THAT combination Smoke/Carbon Monoxide detectors and NFPA 13D fire sprinklers shall be installed;

THAT the exterior walls and floors shall be constructed of eight-inch autoclaved AAC panels (or an approved equivalent), which provide a four-hour fire-resistance rating;

THAT the penetrations through the AAC floor over parking shall be firestopped per required the occupancy separation;

THAT the height of the highest window sill shall not exceed 30 feet from grade level below such window;

THAT this approval shall be limited to the Build to Back program; and

THAT the approved plans shall be considered approved only for portions to the specific relief granted; and

THAT changes to the use or occupancy of the building will be subject to Board review and approval; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 16, 2014.

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the

MINUTES

Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to permit, on a site within an R3-2 (C1-1) zoning district, the construction of a single-family home, which does not comply with the zoning requirements for front, rear, and side yards, contrary to ZR §§ 23-45, 23-461, and 23-47; and

WHEREAS, a public hearing was held on this application on December 16, 2014, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson and Commissioner Montanez; and

WHEREAS, Community Board 2, Staten Island, recommends approval of this application; and

WHEREAS, this application is brought by the Department of Housing Preservation and Development (“HPD”) on behalf of the owner and in connection with the Mayor’s Office of Housing Recovery Operations and the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in order to accept the application from HPD on behalf of the owner, the Board adopts a waiver of 2 RCNY § 1-09.4 (Owner’s Authorization); and

WHEREAS, the subject site is located on the south side of Seafoam Street, west of Cedar Grove Avenue, within an R3-2 (C1-1) zoning district; and

WHEREAS, the site comprises Lots 68 and 69; it has 40 feet of frontage along Seafoam Street and 2,400 sq. ft. of lot area; historically, Lot 68 was developed independent of Lot 69, which is vacant; and

WHEREAS, the site is occupied by a one-story, single-family home with 642 sq. ft. of floor area (0.27 FAR); the existing site has the following yard non-compliances: a front yard depth 8’-0” (a minimum front yard depth of 15’-0” is required, per ZR § 23-45); no rear yard (a minimum rear yard depth of 20’-0” is required, per ZR § 23-47); side yards with widths of 2’-0” (western side yard) and 22’-5” (eastern side yard) the requirement is two side yards with minimum widths of 5’-0”, a minimum combined width of 13’-0”, and a minimum distance between adjacent buildings along a side lot line of 8’-0”, per ZR § 23-461); and

WHEREAS, the applicant represents and the Board accepts that all information regarding the size and location of the existing building at the site and the existing buildings at adjacent sites are based on MapPLUTO and Department of Finance records; as such, the distances between the existing building and the neighboring buildings are estimates; and

WHEREAS, the applicant proposes to demolish the existing building and construct a two-story, single-family home with 816 sq. ft. of floor area (0.34 FAR); the new building will provide a front yard depth of 12’-6”, a rear yard depth of 10’-0”, an western side yard width of 11’-8”, and eastern side yard width of 5’-0”; and

WHEREAS, in addition, the applicant states that the proposed building will be less than 8’-0” from the building

directly east of the site; and

WHEREAS, thus, the applicant seeks a special permit to allow construction of the new building with a front yard depth of 12’-6”, a rear yard depth of 10’-0”, and a minimum distance of less than 8’-0” from the building directly east of the site; and

WHEREAS, pursuant to ZR § 64-92, in order to allow for alterations, developments, and enlargements in accordance with flood-resistant construction standards, the Board may permit modifications of ZR §§ 64-30 and 64-40 (Special Bulk Regulations for Buildings Existing on October 28, 2012), 64-60 (Design Requirements), 64-70 (Special Regulations for Non-conforming Uses and Non-complying Buildings), as well as all other applicable bulk regulations except floor area ratio; and

WHEREAS, in order to grant a special permit pursuant to ZR § 64-92, the Board must make the following findings:

(a) that there would be a practical difficulty in complying with flood-resistant construction standards without such modifications, and that such modifications are the minimum necessary to allow for an appropriate building in compliance with flood-resistant construction standards; (b) that any modification of bulk regulations related to height is limited to no more than ten feet in height or ten percent of the permitted height as measure from the flood-resistant construction elevation, whichever is less; and (c) the proposed modifications will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood’s potential development in accordance with flood-resistant construction standards; and

WHEREAS, the Board may also prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant states that there would be a practical difficulty complying with the flood-resistant construction standards without the modification of the front, rear, and side yard requirements, in accordance with ZR § 64-92(a); and

WHEREAS, specifically, the applicant states that the proposed building is required to have exterior walls that are 12 inches thick, which diminishes the amount of interior floor space; thus, the proposed side yard waivers allow the construction of a flood-resistant building with a viable building footprint to compensate for the loss of interior space; and

WHEREAS, the Board agrees that there would be a practical difficulty complying with the flood-resistant construction standards without the requested front, rear, and side yard waivers; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the Board finds that the ZR § 64-92(b) finding is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR §

MINUTES

64-92(c), the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the surrounding neighborhood is characterized by one- and two-story, single- and two-family homes; as such, the applicant states that the proposal is consistent with the existing context; and

WHEREAS, the applicant also contends that the proposal reflects a smaller footprint, an increase in front yard depth from 8'-0" to 12'-6", an increase in rear yard depth from 0'-0" to 10'-0", and increase in the widths of both side yards; and

WHEREAS, the Board finds that the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed enlargement satisfies all of the relevant requirements of ZR § 64-92; and

Therefore it is Resolved, that the Board of Standards and Appeals waives the Rules of Practice and Procedure, issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92, to permit, on a site within an R3-2 (C1-1) zoning district, the construction of a single-family home, which does not comply with the zoning requirements for front, rear, and side yards, contrary to ZR §§ 23-45, 23-461, and 23-47; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received December 15"-four (4) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 816 sq. ft. of floor area (0.34 FAR), a minimum front yard depth of 12'-6", a minimum rear yard depth of 10'-0", as illustrated on the BSA-approved plans;

THAT the building may be less located less than 8'-0" from the building directly east of the site;

THAT this approval shall be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT this approval shall be limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by December 16, 2018;

THAT the approved plans shall be considered approved only for the portions related to the specific relief

granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 16, 2014.

296-14-A

APPLICANT – Department of Housing Preservation and Development, for Build it Back Program.

SUBJECT – Application November 6, 2014 – Special Permit (ZR 64-92) to waive bulk regulations for the replacement of homes damaged/destroyed by Hurricane Sandy. (GCL 36) waiver for properties located on an unmapped street on properties which are registered in the NYC Build it Back Program.

PREMISES AFFECTED – 58 Seafoam Avenue, between Roma Avenue and Cedar Grove Avenue, Block 0408, Lot 10068, Borough of Staten Island.

COMMUNITY BOARD #2SI

ACTION OF THE BOARD – Application granted on condition.

THE VOTE TO GRANT –

Affirmative: Chair Perlmutter; Vice-Chair Hinkson, Commissioner Ottley-Brown and Commissioner Montanez...4

Negative:.....0

THE RESOLUTION –

WHEREAS, this is an application to permit the construction of a single-family home that does not front a mapped street, contrary to General City Law § 36; and

WHEREAS, a public hearing was held on this application on December 16, 2014, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Commissioner Montanez and Vice- Chair Hinkson; and

WHEREAS, Community Board 2, Staten Island, recommends approval of this application; and

WHEREAS, this application is applicant is brought by the Department of Housing Preservation and Development ("HPD") on behalf of the owner and in connection with the Mayor's Office of Housing Recovery Operations and the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in order to accept the application from HPD on behalf of the owner, the Board adopts a waiver of 2 RCNY § 1-09.4 (Owner's Authorization); and

WHEREAS, the site is also the subject of a companion application filed under BSA Cal. No. 295-14-BZ, for a special permit pursuant to ZR § 64-92, to permit, on a site within an R3-2 (C1-1) zoning district, the construction of a single-family home, which does not comply with the zoning requirements for front, rear, and side yards, contrary to ZR

MINUTES

§§ 23-45, 23-461, and 23-47; and

WHEREAS, the subject site is located on the south side of Seafoam Street, west of Cedar Grove Avenue, within an R3-2 (C1-1) zoning district; and

WHEREAS, the site comprises Lots 68 and 69; it has 40 feet of frontage along Seafoam Street and 2,400 sq. ft. of lot area; historically, Lot 68 was developed independent of Lot 69, which is vacant; and

WHEREAS, Seafoam Street is an unmapped access road; and

WHEREAS, the site is occupied by a flood-damaged, single-family home with a 642 sq. ft. of floor area (0.27); and

WHEREAS, the applicant proposes to demolish the existing building and construct a two-story, single-family home with 816 sq. ft. of floor area (0.34 FAR); and

WHEREAS, because the site is located along an unmapped access road, the applicant request a waiver of General City Law § 36; and

WHEREAS, by letter dated December 2, 2014, the Fire Department states that it has reviewed the proposal and has no objections, provided that: (1) the entire building is fully-sprinklered in conformity 2014 Building Code; (2) combination Smoke/Carbon Monoxide detectors as well NFPA 13D fire sprinklers are installed; (3) exterior walls and floors are constructed of eight-inch Autoclaved Aerated Concrete (AAC) panels (or an approved equivalent), which provide a four-hour fire-resistance rating; (4) penetrations through the AAC floor over parking are firestopped per required the occupancy separation; and (5) the height of the highest window does not exceed 30 feet from grade level below such window; and

WHEREAS, based on the record, the Board has determined that the applicant has submitted adequate evidence to warrant this approval under certain conditions.

Therefore it is Resolved, the appeal is granted by the power vested in the Board by Section 36 of the General City Law and on condition that construction shall substantially conform to the drawing filed with the application marked "December 15, 2014"- one (1) sheet, and on further condition:

THAT the approved plan shall be considered approved only for the portions related to the specific relief granted;

THAT the entire building shall be fully-sprinklered in conformity with provisions of 2014 Building Code;

THAT combination Smoke/Carbon Monoxide detectors and NFPA 13D fire sprinklers shall be installed;

THAT the exterior walls and floors shall be constructed of eight-inch autoclaved AAC panels (or an approved equivalent), which provide a four-hour fire-resistance rating;

THAT the penetrations through the AAC floor over parking shall be firestopped per required the occupancy separation;

THAT the height of the highest window sill shall not exceed 30 feet from grade level below such window;

THAT this approval shall be limited to the Build to

Back program; and

THAT the approved plans shall be considered approved only for portions to the specific relief granted; and

THAT changes to the use or occupancy of the building will be subject to Board review and approval; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 16, 2014.

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to permit, on a site within an R3-1 zoning district, the construction of a single-family home, which does not comply with the zoning requirements for rear and side yards, contrary to ZR §§ 23-461, 23-47, and 54-313; and

WHEREAS, a public hearing was held on this application on December 16, 2014, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson and Commissioner Montanez; and

WHEREAS, Community Board 2, Staten Island, recommends approval of this application; and

WHEREAS, this application is brought by the Department of Housing Preservation and Development ("HPD") on behalf of the owner and in connection with the Mayor's Office of Housing Recovery Operations and the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in order to accept the application from HPD on behalf of the owner, the Board adopts a waiver of 2

MINUTES

RCNY § 1-09.4 (Owner's Authorization); and

WHEREAS, the subject site is located on the west side of Olympia Boulevard between Hempstead Avenue and Mapleton Avenue, within an R3-1 zoning district; and

WHEREAS, the site has 20 feet of frontage along Olympia Boulevard and 1,980 sq. ft. of lot area; and

WHEREAS, the site is occupied by a flood-damaged, one-story, single-family home with a 583 sq. ft. of floor area (0.29 FAR); the existing site has the following yard non-compliances: no front yard (a minimum front yard depth of 18'-0" is required, per ZR § 23-45); a rear yard depth of 20'-4" (a minimum rear yard depth of 30'-0" is required, per ZR § 23-47); and side yards with widths of 3'-7" (northern side yard) and 1'-10" (southern side yard) (the requirement is two side yards with minimum widths of 5'-0", per ZR § 23-461 and 23-48; however, non-complying side yards may be reconstructed, per ZR § 54-41); and

WHEREAS, the applicant represents and the Board accepts that all information regarding the size and location of the existing building at the site and the existing buildings at adjacent sites are based on MapPLUTO and Department of Finance records; as such, the distances between the existing building and the neighboring buildings are estimates; and

WHEREAS, in addition, the applicant represents and the Board accepts that the site was owned separately and individually from all other adjoining tracts of land on December 15, 1961; as such, provided that the site remains in separate and individual ownership on the date of application for a building permit, the site shall be governed by ZR §§ 23-33 and 23-48; and

WHEREAS, the applicant proposes to demolish the existing building and construct a two-story, single-family home with 1,082 sq. ft. of floor area (0.55 FAR); the new building will provide a front yard depth of 18'-0", a rear yard depth of 21'-0", a northern side yard width of 3'-5", and southern side yard width of 3'-0"; and

WHEREAS, in addition, the applicant represents that the proposed building will be less than 8'-0" from the building directly south of the site; and

WHEREAS, the applicant notes that pursuant to ZR §§ 54-313 (Single- or Two-family Residences with Non-complying Front Yards or Side Yards), 54-41 (Permitted Reconstruction) and 64-723 (Non-complying Single- and Two-family Residences), the existing non-complying yards may be maintained in a reconstruction and vertically enlarged, provided that, per ZR § 54-313, a minimum distance of 8'-0" is maintained between the non-complying side yards and the building on the adjoining zoning lot; in addition, as noted above, per ZR §§ 23-461 and 23-48, side yards must have a minimum width of 5'-0"; and

WHEREAS, thus, the applicant seeks a special permit to allow construction of the new building with a rear yard depth of 21'-0", a minimum distance of less than 8'-0" from the building directly south of the site, and side yard widths of 3'-5" and 3'-0"; and

WHEREAS, pursuant to ZR § 64-92, in order to allow

for alterations, developments, and enlargements in accordance with flood-resistant construction standards, the Board may permit modifications of ZR §§ 64-30 and 64-40 (Special Bulk Regulations for Buildings Existing on October 28, 2012), 64-60 (Design Requirements), 64-70 (Special Regulations for Non-conforming Uses and Non-complying Buildings), as well as all other applicable bulk regulations except floor area ratio; and

WHEREAS, in order to grant a special permit pursuant to ZR § 64-92, the Board must make the following findings:

(a) that there would be a practical difficulty in complying with flood-resistant construction standards without such modifications, and that such modifications are the minimum necessary to allow for an appropriate building in compliance with flood-resistant construction standards; (b) that any modification of bulk regulations related to height is limited to no more than ten feet in height or ten percent of the permitted height as measure from the flood-resistant construction elevation, whichever is less; and (c) the proposed modifications will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the Board may also prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant states that there would be a practical difficulty complying with the flood-resistant construction standards without the modification of the side and rear yard requirements, in accordance with ZR § 64-92(a); and

WHEREAS, specifically, the applicant states that the proposed building is required to have exterior walls that are 12 inches thick, which diminishes the amount of interior floor space; thus, the proposed side yard waivers allow the construction of a flood-resistant building with a viable building footprint to compensate for the loss of interior space; and

WHEREAS, the Board agrees that there would be a practical difficulty complying with the flood-resistant construction standards without the requested side and rear yard waivers; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the Board finds that the ZR § 64-92(b) finding is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the surrounding

MINUTES

neighborhood is characterized by one- and two-story, single- and two-family homes; as such, the applicant states that the proposal is consistent with the existing context; and

WHEREAS, the applicant also contends that the proposal reflects a smaller footprint, an increase in front yard depth from a non-complying 0'-0" to a complying 18'-0", and an increase in open space ratio from 71 percent to 73 percent; and

WHEREAS, the Board finds that the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed enlargement satisfies all of the relevant requirements of ZR § 64-92; and

Therefore it is Resolved, that the Board of Standards and Appeals waives the Rules of Practice and Procedure, issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92, to permit, on a site within an R3-1 zoning district, the construction of a single-family home, which does not comply with the zoning requirements for rear and side yards, contrary to ZR §§ 23-461, 23-47, and 54-313; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received December 9, 2014"- four (4) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 1,082 sq. ft. of floor area (0.55 FAR), a minimum rear yard depth of 21'-0", and side yards with minimum widths of 3'-0" and 3'-5", as illustrated on the BSA-approved plans;

THAT the building may be less located less than 8'-0" from the building directly south of the site;

THAT this approval shall be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT this approval shall be limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by December 16, 2018;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

THE RESOLUTION –

WHEREAS, this is an application for a waiver of the Rules of Practice and Procedure and a special permit, pursuant to ZR § 64-92, to permit, on a site within an R3-1 zoning district, the construction of a single-family home, which does not comply with the zoning requirements for front, rear, and side yards, contrary to ZR §§ 23-45, 23-461, 23-47, and 54-313; and

WHEREAS, a public hearing was held on this application on December 16, 2014, after due notice by publication in *The City Record*, and then to decision on that same date; and

WHEREAS, the premises and surrounding area had site and neighborhood examinations by Vice-Chair Hinkson and Commissioner Montanez; and

WHEREAS, Community Board 2, Staten Island, recommends approval of this application; and

WHEREAS, this application is brought by the Department of Housing Preservation and Development ("HPD") on behalf of the owner and in connection with the Mayor's Office of Housing Recovery Operations and the Build it Back Program, which was created to assist New York City residents affected by Superstorm Sandy; and

WHEREAS, in order to accept the application from HPD on behalf of the owner, the Board adopts a waiver of 2 RCNY § 1-09.4 (Owner's Authorization); and

WHEREAS, the subject site is located on the south side of Adams Avenue between Boundary Avenue and Haven Avenue, within an R3-1 zoning district; and

WHEREAS, the site has 20 feet of frontage along Adams Avenue and 1,700 sq. ft. of lot area; and

WHEREAS, the site is occupied by a flood-damaged, one-story, single-family home with a 1,059 sq. ft. of floor area (0.62 FAR); the existing site has the following yard non-compliances: floor area (a maximum FAR of 0.60 is permitted); no front yard (a minimum front yard depth of 18'-0" is required, per ZR § 23-45); a rear yard depth of 14'-0" (a minimum rear yard depth of 30'-0" is required, per ZR § 23-47); and side yards with widths of 3'-0" (eastern side yard) and 1'-2" (western side yard) (the requirement is two side yards with minimum widths of 5'-0", per ZR § 23-461 and 23-48; however, non-complying side yards may be reconstructed, per ZR § 54-41); and

WHEREAS, the applicant represents and the Board accepts that all information regarding the size and location of the existing building at the site and the existing buildings at adjacent sites are based on MapPLUTO and Department

MINUTES

of Finance records; as such, the distances between the existing building and the neighboring buildings are estimates; and

WHEREAS, in addition, the applicant represents and the Board accepts that the site was owned separately and individually from all other adjoining tracts of land on December 15, 1961; as such, provided that the site remains in separate and individual ownership on the date of application for a building permit, the site shall be governed by ZR §§ 23-33 and 23-48; and

WHEREAS, the applicant proposes to demolish the existing building and construct a two-story, single-family home with 1,020 sq. ft. of floor area (0.60 FAR); the new building will provide a front yard depth of 15'-0", a rear yard depth of 12'-10", an eastern side yard width of 3'-5", and western side yard width of 3'-0"; and

WHEREAS, in addition, the applicant represents that the proposed building will be less than 8'-0" from the buildings directly east and west of the site; and

WHEREAS, the applicant notes that pursuant to ZR §§ 54-313 (Single- or Two-family Residences with Non-complying Front Yards or Side Yards), 54-41 (Permitted Reconstruction) and 64-723 (Non-complying Single- and Two-family Residences), the existing non-complying yards may be maintained in a reconstruction and vertically enlarged, provided that, per ZR § 54-313, a minimum distance of 8'-0" is maintained between the non-complying side yards and the building on the adjoining zoning lot; in addition, as noted above, per ZR §§ 23-461 and 23-48, side yards must have a minimum width of 5'-0"; and

WHEREAS, thus, the applicant seeks a special permit to allow construction of the new building with a front yard depth of 15'-0", a rear yard depth of 12'-10", a minimum distance of less than 8'-0" from the buildings directly east and west of the site, and side yard widths of 3'-5" and 3'-0"; and

WHEREAS, pursuant to ZR § 64-92, in order to allow for alterations, developments, and enlargements in accordance with flood-resistant construction standards, the Board may permit modifications of ZR §§ 64-30 and 64-40 (Special Bulk Regulations for Buildings Existing on October 28, 2012), 64-60 (Design Requirements), 64-70 (Special Regulations for Non-conforming Uses and Non-complying Buildings), as well as all other applicable bulk regulations except floor area ratio; and

WHEREAS, in order to grant a special permit pursuant to ZR § 64-92, the Board must make the following findings:

(a) that there would be a practical difficulty in complying with flood-resistant construction standards without such modifications, and that such modifications are the minimum necessary to allow for an appropriate building in compliance with flood-resistant construction standards; (b) that any modification of bulk regulations related to height is limited to no more than ten feet in height or ten percent of the permitted height as measure from the flood-resistant construction elevation, whichever is less; and (c) the proposed modifications will not alter the essential character

of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the Board may also prescribe appropriate conditions and safeguards to minimize adverse effects on the character of the surrounding area; and

WHEREAS, the applicant states that there would be a practical difficulty complying with the flood-resistant construction standards without the modification of the front, side and rear yard requirements, in accordance with ZR § 64-92(a); and

WHEREAS, specifically, the applicant states that the proposed building is required to have exterior walls that are 12 inches thick, which diminishes the amount of interior floor space; thus, the proposed side yard waivers allow the construction of a flood-resistant building with a viable building footprint to compensate for the loss of interior space; and

WHEREAS, the Board agrees that there would be a practical difficulty complying with the flood-resistant construction standards without the requested front, rear, and side yard waivers; and

WHEREAS, the applicant notes and the Board finds that the proposal does not include a request to modify the maximum permitted height in the underlying district; thus, the Board finds that the ZR § 64-92(b) finding is inapplicable in this case; and

WHEREAS, the applicant states that, pursuant to ZR § 64-92(c), the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, the applicant states that the surrounding neighborhood is characterized by one- and two-story, single- and two-family homes; as such, the applicant states that the proposal is consistent with the existing context; and

WHEREAS, the applicant also contends that the proposal reflects a reduction in FAR, a smaller footprint, an increase in front yard depth from 0'-0" to 15'-0", increases in the width of both side yards, an increase in open space ratio from 38 percent to 70 percent; and

WHEREAS, the Board finds that the proposed modification will not alter the essential character of the neighborhood in which the building is located, nor impair the future use or development of the surrounding area in consideration of the neighborhood's potential development in accordance with flood-resistant construction standards; and

WHEREAS, accordingly, the Board has reviewed the proposal and determined that the proposed enlargement satisfies all of the relevant requirements of ZR § 64-92; and

Therefore it is Resolved, that the Board of Standards and Appeals waives the Rules of Practice and Procedure,

MINUTES

issues a Type II determination under 6 N.Y.C.R.R. Part 617.5 and 617.3 and §§ 5-02(a), 5-02(b)(2) and 6-15 of the Rules of Procedure for City Environmental Quality Review, and makes the required findings under ZR § 64-92, to permit, on a site within an R3-1 zoning district, the construction of a single-family home, which does not comply with the zoning requirements for front, rear, and side yards, contrary to ZR §§ 23-45, 23-461, 23-47, and 54-313; *on condition* that all work will substantially conform to drawings as they apply to the objections above-noted, filed with this application and marked "Received December 9, 2014"- four (4) sheets; and *on further condition*:

THAT the following will be the bulk parameters of the building: a maximum floor area of 1,020 sq. ft. of floor area (0.60 FAR), a minimum front yard depth of 15'-0", a minimum rear yard depth of 12'-10", and side yards with minimum widths of 3'-0" and 3'-5", as illustrated on the BSA-approved plans;

THAT the building may be less located less than 8'-0" from the buildings directly east and west of the site;

THAT this approval shall be limited to the relief granted by the Board in response to specifically cited and filed DOB/other jurisdiction objections(s);

THAT this approval shall be limited to the Build it Back program;

THAT all DOB and related agency application(s) filed in connection with the authorized use and/or bulk will be signed off by DOB and all other relevant agencies by December 16, 2018;

THAT the approved plans shall be considered approved only for the portions related to the specific relief granted; and

THAT DOB must ensure compliance with all other applicable provisions of the Zoning Resolution, the Administrative Code, and any other relevant laws under its jurisdiction irrespective of the plan(s)/configuration(s) not related to the relief granted.

Adopted by the Board of Standards and Appeals, December 16, 2014.

306-14-BZ

APPLICANT – Department of Housing Preservation and Development, for Build it Back Program.

SUBJECT – Application November 10, 2014 – Special Permit (ZR 64-92) to waive bulk regulations for the replacement of homes damaged/destroyed by Hurricane Sandy, on properties which are registered in the NYC Build it Back Program.

PREMISES AFFECTED – 156 Baden Place, Block 0381, Lot 00018 Borough of Staten Island.
