Report of Materials and Equipment Acceptance Division

Pursuant to Administrative Code Section 27-131, the following equipment or material has been found acceptable for use subject to the terms and conditions contained herein.

MEA 175-08-M

Manufacturer: Cooley Inc.
50 Esten Avenue
Pawtucket, Rhode Island 02862

Trade Name(s): Coolflex® 7oz Frontlit

Product: PVC-coated fabric for flex signs

Pertinent Code Section(s): 27-449, 27-506, 27-507, and TPPN #11-99

Prescribed Test(s): RS 7-3 (NFPA 701, Method 2)

Laboratory: Magill Laboratories

Test Report(s): Report #080224 dated March 17, 2008.

Description: Coolflex® 7oz Frontlit is a PVC-coated fabric for flex sign applications. The material is 7 oz extruded PVC membrane reinforced by a polyester fabric. The intended use is for billboard applications.

Terms and Conditions: The above-described material is accepted with the following conditions:

1. The acceptance of this material is limited to flame resistance.
2. Structures and other requirements shall be in accordance with pertinent New York City Building Code provisions and Technical Policy and Procedure Notice, #11/99.

3. All installations, uses and locations shall be in accordance with the New York City Building Code, specifically with Sections 27-499 and 27-501, and the Zoning Resolution.
4. All shipments and deliveries of such materials shall be provided with a label, suitably placed, certifying that the materials shipped or delivered are equivalent to those tested and accepted for use, as provided in Section 27-131 of the New York City Building Code.

NOTE: In accordance with Section 27-131(d), all materials tested and accepted for use shall be subject to periodic retesting as determined by the Commissioner; and any material which upon retesting is found not to comply with Code requirements or the requirements set forth in the approval of the Commissioner shall cease to be acceptable for the use intended. During the period for such retesting, the Commissioner may require the use of such material to be restricted or discontinued if necessary to secure safety.

Final Acceptance June 12, 2008

Examined By Simon Derflinger
