

Regardless of how the project work is portioned out, administration of the work remains the responsibility of the Registered Design Professional (RDP). Although some specific projects do not involve architectural or structural work, which may be completed by licensed NYS Professional Engineers, it is important that as the project RDP, the Applicant of Record (Applicant), you understand when Department of Buildings and New York State regulations apply to your application.

## Pre-Permit

### Required Documents at Filing

Based on scope of work, supporting documents must be completed in order to obtain a permit. The following may be required:

- TR1 Forms – Special Inspections

### Required Documents at Filing

Based on scope of work, supporting documents or deferred submittals from other agencies may be required in order to obtain a permit, including but not limited to the following:

- DEP – Authorization
