NEW YORK CITY DEPARTMENT OF BUILDINGS

NOTICE OF ADOPTION

K. Chung
4/19/24

NOTICE IS HEREBY GIVEN, pursuant to the authority vested in the Commissioner of Buildings by Section 643 of the New York City Charter and in accordance with Section 1043 of the Charter that the Department of Buildings hereby adopts the amendments to its rules regarding licensing. This rule was first published on January 3, 2024, and a public hearing thereon was held on February 5, 2024.

Statement of Basis and Purpose of Rule

Local Law 126 of 2021 became effective on November 7, 2022. Among other changes, Local Law 126 amended Chapter 4 of Title 28 of the Administrative Code regarding various licensing provisions.

Various rules are being amended to reflect these changes. Specifically, the amendments:

- Repeal Section 19-01 regarding examination, license, and conduct of the business of master plumbers and master fire suppression piping contractors as the provisions have either been superseded or now appear in Article 408 or 410 of Title 28 of the Administrative Code or in Sections 104-01 and 104-06 of Title 1 of the Rules of the City of New York.
- Increase the fees for licensing written and practical examinations and add fees for limited Hoist Machine Operator licenses.
- Amend the title of section 104-01 to reflect its contents more accurately.
- Remove the reference to Class A and B oil-burning equipment installer as those classifications were deleted from Section 28-412.2 of the Administrative Code.
- Remove the reference to portable high pressure boiler operating engineer as that term was deleted from Section 28-413.4 of the Administrative Code.
- Add language that used to be in Section 28-401.7 of the Administrative Code regarding commencing the license application process within one year of passing the examination. In response to comments received at the public hearing, language is added to clarify what constitutes commencing the license application process.
- Delete subdivision (l) of section 104-01 regarding obsolete Zoning Resolution references to place of business and add a new subdivision (l) stating that licensees with a New York City location must comply with all applicable Zoning provisions.
- Add a list of license holders who are not required to have a New York City location by either Chapter 4 of Title 28 of the Administrative Code or the Department's rules. The following license holders have not been included in that list for the reasons below:
 - Elevator Agency Inspector, Technician and Helper. These licensees work for an Elevator Agency Director who is required to maintain a place of business in the city, which should cover these other licenses. Also, Technicians need a state elevator mechanic's license as well as the city's, so presumably they may be located elsewhere in the state.
 - Concrete testing laboratories. §28-406.2 of the Administrative Code requires the concrete testing lab to be within 50 miles of the city, which exempts them from the requirement to maintain a place of business within the city. However, if they choose to locate within the city, they have to comply with zoning in accordance with the language added by this rule.

- Journeyman plumber and journeyman fire suppression pipe installer. Sections 28-409.4 and 28-411.4 of the Administrative Code specifically state that journeyman registrations are not licenses and are, therefore, exempt from the place of business requirements.
- Add language from rule 19-01 requiring licensed master plumbers and licensed master fire suppression piping contractors to have a sign outside their place of business that includes their license number.
- Repeal Section 104-03 – term of license – since it was intended to address those licenses for which an examination was not required, as was specified in Section 28-401.11 of the Administrative Code. The reference to examinations has been removed by Local Law 126; therefore, the provisions of section 104-03 are now covered by the language of section 28-401.11.
- Remove all references to reinstatement of licenses from various sections and repeal Section 104-05 – reinstatement of license – since the term “reinstatement” was deleted from Section 28-401.13 and the rest of Chapter 4 of Title 28 of the Administrative Code.
- Remove requirements from Section 104-08 regarding alternate experience pathways for Site Safety Manager and Site Safety Coordinator applicants as these pathways have been incorporated into Sections 28-402.2 and 28-403.2, respectively, of the Administrative Code.
- Revise references to the Administrative Code and Building Code in Section 104-08 to reflect section renumbering made by Local Law 126.
- Delete the 30-hour course requirement for site safety managers and site safety coordinators from Section 104-08 as this requirement is satisfied by the new requirement in Administrative Code Sections 28-402.2, item 2 and 28-403.2, item 2, that the site safety manager or coordinator possess a valid Site Safety Training Supervisor Card.
- Add language to Section 104-08 clarifying that the term of the site safety coordinator certificate is one year, to distinguish it from the other license terms covered by section 28-401.11 of the Administrative Code.
- Delete course requirements for licensed riggers from Section 104-10 as these course requirements have been incorporated and modified into Section 28-404.3 of the Administrative Code.
- Repeal Section 104-25 regarding requirement of a seal for use by licensed oil-burning equipment installers as that language is now in Section 28-412.6 of the Administrative Code and the fees are in Section 28-401.15.

The Department of Buildings’ authority for this rule is found in sections 643 and 1043 of the New York City Charter, and section 28-112.7.2 and Chapter 4 of Title 28 of the New York City Administrative Code.

- (v) Oil Burning Equipment Installer [(Classes A and B)]
- [(vi) Portable High Pressure Boiler Operating Engineer]

§5. Subparagraph (viii) of paragraph (1) of subdivision (c) of section 104-01 of subchapter D of chapter 100 of Title 1 of the Rules of the City of New York, as renumbered by section 4 of this rule, is amended to read as follows:

(viii) Rigger (Master/Special/[Climber or] Tower Crane)

§6. Paragraph (2) of subdivision (c) of section 104-01 of subchapter D of chapter 100 of Title 1 of the Rules of the City of New York is amended by adding a new subparagraph (x) to read as follows:

(x) An applicant who passes a required examination must commence the license application process by submitting an application as defined in subdivision (e) with the department within one year of passing the examination for licensure. Where both written and practical tests are required, the license application process must be commenced within one year of passing the practical test.

§7. Paragraph (3) of subdivision (e) of section 104-01 of subchapter D of chapter 100 of Title 1 of the Rules of the City of New York is amended to read as follows:

(3) Where the code requires supervision in the [design and] installation of plumbing [or fire suppression] systems, the planning or design of plumbing systems, or the performance of fire suppression piping work, including the planning or design of fire suppression piping systems, evidence that the supervising licensees performed such work as demonstrated by permits, completed contracts or such other documentation as the Department may require.

§8. Paragraphs (1) and (2) of subdivision (f) of section 104-01 of subchapter D of chapter 100 of Title 1 of the Rules of the City of New York are amended to read as follows:

(1) An applicant for a license issued by the Department, other than a Master, Special[, Climber] or Tower Crane Rigger or Hoisting Machine Operator, must provide evidence of fitness to perform the work authorized by the license.

(2) An applicant for license renewal [or reinstatement], other than a license for Master, Special[, Climber] or Tower [crane rigger] Crane Rigger or Hoisting Machine Operator, must provide evidence of fitness to perform the work authorized to be performed by a holder of the license held or once held by the applicant. A renewal applicant must satisfy these requirements at every subsequent renewal.

§9. Subdivision (l) of section 104-01 of subchapter D of chapter 100 of Title 1 of the Rules of the City of New York, relating to place of business is REPEALED and a new subdivision (l) is added to read as follows:

(l) Place of business.

(2) If the licensee cannot satisfactorily demonstrate active and legal engagement in the relevant trade, in order to prevent the license from expiring, the licensee must reactivate the license for at least one license term. If the license expires, applicants must comply with late renewal [and reinstatement] requirements of Administrative Code section 28-401.13, and any other applicable rules and regulations.

This rule has an effective date of 07-31-14.

NEW YORK CITY DEPARTMENT OF BUILDINGS

Notice of Adoption of Rule Amendment

NOTICE IS HEREBY GIVEN, pursuant to the authority vested in the Commissioner of the Department of Buildings by Section 643 of the New York City Charter and in accordance with Section 1043 of the Charter, that the Department of Buildings hereby adopts an amendment to Section 47-01 of Chapter 47 of Title 1 of the Official Compilation of the Rules of the City of New York, regarding requirement of a seal for use by licensed oil-burning equipment installers.

This rule amendment was first published on March 14, 2014. A public hearing was held on April 16, 2014.

Dated: 6/23/14
New York, New York

Thomas Fariello, R.A.
Acting Commissioner

Statement of Basis and Purpose

Section 28-401.11 of the NYC Administrative Code states that, "All licenses issued by the commissioner for which an examination is required shall expire three years from the date of issuance thereof, and may be renewed every three years thereafter without examination..."

Oil-burning equipment installers are one such license type. For such licensees, 1 RCNY 47-01 currently requires a biennial renewal fee of fifty dollars. However, licensees actually receive a triennial renewal for fifty dollars.

Since renewal applicants are being undercharged twenty-five dollars for each triennial renewal, the Department is hereby amending this rule to require a triennial renewal fee of seventy-five dollars.

In addition, the Department is hereby renumbering this rule section to bring it into conformance with the other rules that implement Chapter 4 of Title 28 of the NYC Administrative Code.

New material is underlined.
[Deleted material is in brackets.]

"Shall" and "must" denote mandatory requirements and may be used interchangeably in the rules of this department, unless otherwise specified or unless the context clearly indicates otherwise.

Section 1. Section 47-01 of Title 1 of the Rules of the City of New York is hereby renumbered Section 104-25 and, as renumbered, is amended to read as follows:

(b) The fee for obtaining a seal shall be one hundred dollars. The [biennial] triennial renewal fee to retain such seal shall be [fifty] seventy-five dollars.
