CITY PLANNING

■ NOTICE

**PUBLIC NOTICE OF A SCOPING MEETING
DRAFT ENVIRONMENTAL IMPACT STATEMENT
(CEQR No. 18DCP084M)**

NOTICE IS HEREBY GIVEN that pursuant to Section 5-07 of the Rules of Procedure for Environmental Review (CEQR) AND 6 NYCRR 617.8 (State Environmental Quality Review) that the New York City Department of City Planning, acting on behalf of the City Planning Commission as CEQR lead agency, has determined that a draft environmental impact statement is to be prepared for the proposed actions related to the **Lenox Terrace** application, CEQR Number 18DCP084M. The SEQRA classification for this proposal is Type I.

A public scoping meeting has been scheduled for Thursday, February 8, 2018, and will be held in Spector Hall, 22 Reade Street, New York, NY 10007. The meeting will begin at 6:00 P.M. Written comments will be accepted by the lead agency through Tuesday, February 20, 2018.

The applicant, Lenox Terrace Development Associates, an affiliate of the Olmick Organization, Inc., is seeking a series of land use actions, in connection with the proposed redevelopment of Lenox Terrace, an existing six-building residential development complex. The land use actions consist of a zoning map amendment from R7-2 and C1-4 commercial overlay to a C6-2 zoning district, two large-scale general development special permits, and a zoning text amendment to establish a Mandatory Inclusionary Housing (MIH) area coterminous with the rezoning area (the "Proposed Actions"). The rezoning area comprises an entire block (Block 1730, Lots 1, 7, 9, 16, 19, 25, 33, 36, 40, 45, 50, 52, 55, 64, 65, 68, and 75), in the Central Harlem neighborhood of Manhattan, Community District 10, and is bounded by West 135th Street to the North, Fifth Avenue to the East, West 132nd Street to the South, and Lenox Avenue to the West.

The Proposed Actions would facilitate a proposal by the applicant to construct an infill development of five new mixed-use buildings within the Lenox Terrace development (the "Proposed Development Site") located at 484 Lenox Avenue (Block 1730, Lots 1, 7, 9, 25, 33, 36, 40, 45, 50, 52, 64, 68 and 75). The new buildings would replace existing retail structures and at-grade parking spaces, resulting in an increase of approximately 1,642 new residential units (up to 493 of which would be affordable pursuant to MIH); 39,845 gross square feet (gsf) of commercial space; and 15,055 gsf of community facility space. In addition, two sites not owned by the applicant have been identified as likely to be developed as a result of the Proposed Actions: Block 1730, Lots 16 and 19 ("Projected Development Site 1") and Block 1730, Lot 65 ("Projected Development Site 2"). The remaining parcel on the

block (Block 1730, Lot 55) would be rezoned, but is not expected to be redeveloped as a result of the Proposed Actions. In total, the Proposed Actions could result in an incremental increase of approximately 1.7 million gsf of residential use, consisting of 1,969 dwelling units, 39,845 gsf of commercial use, 15,055 gsf of community facility space, and up to 242 additional accessory parking spaces.

The Proposed Actions consist of:

1. A Zoning Map Amendment to rezone the affected area, currently zoned R7-2 with a C1-4 commercial overlay along Lenox Avenue, Fifth Avenue and West 135th Street, to a C6-2 commercial zoning district (an R8 residential equivalent).
2. A Special Permit pursuant to Zoning Resolution (ZR) Section 74-743 (Large-scale General Development) to modify applicable height, setback and minimum distance between buildings regulations on the Proposed Development Site (ZR Sections 35-61, 35-63, 23-952, 23-641, and 23-711).
3. A Special Permit pursuant to ZR Section 74-533 (Reduction of parking spaces to facilitate affordable housing) to reduce the number of required parking spaces provided on the Proposed Development Site (ZR Sections 36-33 and 25-23).
4. A Zoning Text Amendment to Appendix F (Inclusionary Housing) of the ZR to establish an MIH area, coterminous with the rezoning area, mapping Option 1 and Option 2. Option 1 requires providing at least 25% of residential units for households with incomes averaging 60% Area Median Income (AMI), including 10% of residential units intended for households with incomes averaging 40% AMI; and Option 2 requires at least 30% of residential units for households with incomes averaging 80% AMI.

In addition, the project approvals would include a Restrictive Declaration (RD) to require development on the Proposed Development Site in substantial accordance with the approved special permit plans. The RD would restrict the uses within buildings on the Proposed Development Site to what is shown on the site plan; establish the envelop within which the buildings must be constructed, including limitations on height, bulk and floor area; and establish the required setbacks and distance between buildings. A minimum amount of open space as defined in the ZR would be required as part of the RD.

Collectively, the Proposed Actions would facilitate a proposal by the applicant to demolish five one-story commercial structures and construct infill development of five new mixed-use buildings on the Proposed Development Site. The proposed development would consist of an incremental increase of approximately 1.5 million gross square feet (gsf), comprised of 1,642 dwelling units (up to 493 of which would be affordable pursuant to the MIH program), 39,845 gsf of local retail, 15,055 gsf of community facility and up to 203 additional accessory parking spaces. Each of the five buildings in the proposed development would reach a maximum height of 284 feet. The new buildings would be developed under the basic height and setback regulations applicable within R8 districts, with requested special permit modifications to sky exposure planes.

The affected area is currently zoned R7-2 with a C1-4 commercial overlay along Lenox Avenue, Fifth Avenue and West 135th Street. The R7-2 zoning district permits both height factor and Quality Housing bulk regulations. Height factor regulations allow a range of FAR from 0.87 to 3.44, related to the Open Space Ratio, and building heights are governed by the sky exposure plane. Optional Quality Housing regulations allow residential uses up to a maximum Floor Area Ratio (FAR) of 3.44 on a narrow street or 4.0 on a wide street, and establish a maximum building height of 75 feet on a narrow street at 80 feet on a wide street. Parking is required for 50 percent of the dwelling units. The C1-4 commercial overlay permits 2.0 FAR of commercial use when mapped in an R7 district. Permitted commercial uses include Use Groups 5-9 and 14, which allow local retail uses, grocery stores and local repair services. The proposed C6-2 district (R8 residential equivalent district) would permit residential uses up to 7.2 FAR and community facility uses up to 6.5 FAR, with a maximum height of 145 feet. Parking is not required for inclusionary housing units, and is required for 50% percent of unregulated units. The C6-2 zoning district permits a wider range of commercial uses than the existing commercial overlay, including destination retail.

The Proposed Development Site, Lenox Terrace, currently contains six, 16-story (144 foot) residential towers with 1,716 dwelling units (approximately 1,447,500 gsf); five one-story buildings with approximately 95,655 gsf of local retail use, of which approximately 17,820 gsf is currently vacant; and approximately 457 at-grade accessory parking spaces. According to the applicant, approximately 80 percent of the existing dwelling units (1,370 units) are currently subject to rent stabilization. The remaining affected lots are currently developed with community facility uses, including a recreation center and a house of worship.

Absent the Proposed Actions, it is expected that the proposed rezoning area would remain in the existing condition.

For the purposes of a conservative analysis, the With-Action Scenario

considers the potential future development of Projected Development Site 1 and Projected Development Site 2 with mixed-use buildings (maintaining existing community facility use with residential above), built to 7.2 FAR, the maximum allowable under the proposed rezoning. In total, these two sites could be developed with approximately 340 new dwelling units and 41,584 gsf replacement community facility use. It is assumed that up to 30 percent of the residential units (103 units) would be designated as affordable pursuant to MIH. Development of each of the two Projected Development Sites would reach a maximum height of 145 feet, the maximum allowable for inclusionary housing buildings with qualifying ground floors. The existing community facility use on Lot 55 is assumed to remain in the future with the Proposed Actions.

In total, the incremental development projected to occur in the future with the Proposed Actions would consist of: 1,708,470 gsf of residential use, or approximately 1,969 units (up to 596 of which would be permanently affordable pursuant to MIH); 39,845 gsf of retail use; 15,055 gsf of community facility space; and up to 242 additional accessory parking spaces.

The analysis year for the Proposed Actions is 2027. The proposed development is expected to occur in two phases. Two of the five proposed buildings on the Proposed Development Site (Proposed Buildings 1 and 2) would be constructed by 2022, requiring the demolition of two commercial buildings. These proposed buildings comprise approximately 790,205 gsf of new development, including approximately 762 residential units. The remaining five buildings on the Proposed Development Site are expected to be constructed by 2027. While there are no known plans for the redevelopment of Projected Development Sites 1 and 2, given market trends it is reasonable to assume that development of these sites could occur by 2027.

Copies of the Draft Scope of Work and the Environmental Assessment Statement may be obtained from the Environmental Assessment and Review Division, New York City Department of City Planning, 120 Broadway, 31st Floor, New York, NY 10271, Robert Dobruskin, Director (212) 720-3423; or from the Mayor's Office of Sustainability, 253 Broadway, 14th Floor, New York, NY 10007, Hillary Semel, (212) 676-3290. If the Commission determines that all pertinent information has been supplied in accordance with the criteria of § 2-02(a)(5) below, it shall certify the application as complete. If the Commission determines that pertinent information has not been supplied, such information shall be listed by the Department of City Planning and the environmental review staff and sent by the Commission to the applicant within thirty (30) days of receipt of the appeal. When the applicant has responded, either by supplying all the information so requested, or by explaining why such information should not be required in order to certify the application, the Commission shall consider the evaluation and the applicant's response and either certify the application as complete in accordance with § 2-02(a)(5) or deny the appeal. A denial by the Commission shall state the information that must still be supplied or clearly state the reason for denial. Such determination shall be made not later than sixty (60) days from the date the appeal is received. If the appeal is one which has been made by the affected Borough President, and the land use proposed in the application is consistent with the land use policy or strategic policy statement of the affected Borough President, then a vote of five members shall be sufficient to certify the application as complete in accordance with § 2-02(a)(5) below. In all other instances, a majority vote of the Commission is necessary to certify an application. A denial of the appeal shall mean that the application remains incomplete, and the Department of City Planning and the environmental review staff shall continue with timely review of the application until all the information required for completeness has been provided at which time certification shall take place. If such review continues for an additional one hundred and eighty (180) days or more beyond the denial, the applicant may again appeal to the Commission under the procedure outlined above to certify the application.

(5) *Certification of Completeness.* The Department or the Commission shall certify the application as complete when compliance has been achieved with all of the following:

(iv) All reviews by necessary and related agencies of the State and City have been completed and any required reports, certifications, sign-offs or other such agency actions required by law or regulation prior to ULURP have been secured, or a written waiver of the agency presented. If any such agency does not respond within sixty (60) days, it will be deemed to have waived its review and action as applicable law permits.

(v) A determination has been made whether the action is subject to City or State Environmental Quality Review, and if so subject, the lead agency has issued either:

(A) a Negative or Conditional Negative Declaration; or

(B) a Notice of Acceptance of a Draft Environmental Impact Statement.

Applications for special permits pursuant to § 201 may be filed by any person or agency. Such requests shall be subject to the application and certification procedure of § 2-02(a) hereof and shall be referred pursuant to § 2-02(b) hereof.

(d) *Withdrawals.* An applicant may at any time file with the Commission a statement that its application is withdrawn. If withdrawal occurs after filings have occurred pursuant to § 2-06(h)(4) of this chapter, the applicant shall also file a statement of withdrawal with the City Council. Upon the filing of such a statement, the application in question shall be void and no further processing of such application under this uniform land use review procedure shall be undertaken by a community board, Borough President, borough board or the Commission. The request to which the application relates may thereafter be advanced only in connection with a new application certified as complete pursuant to § 2-02(a) herein and processed according to this uniform land use review procedure.

[In the event] If the lead agency is other than the Commission, no such application [for an amendment to the Zoning Map] shall be certified as complete pursuant to § 2-02(a)(5) hereof until such other lead agency shall have submitted any notification of a proposed (E) designation, in the form and addressed to the parties required by this Section to the Department of City Planning, who shall send such notification [in the manner] as provided by this Section.

(2) Such notification shall be by first-class mail and shall be made

(2) *Franchises.* In the case of Request for Proposal or other solicitation for a franchise which in the judgment of the community board does not involve a substantial land use interest, such community board may submit a written waiver to the Commission of the right to hold a public hearing and the preparation of a written recommendation.

Such community board or borough board may request to review such applications, which [The] request must be made in writing to the Calendar Office of the Commission or through the Department's website, and it shall state the basis for the board's judgment that the application may significantly affect the welfare of the district or borough served by such board. [If such request is made, the Department of City Planning shall forward the information described above to said board.] Thereafter, the community board or borough board may schedule a public hearing on the application, such hearing and notice thereof to be in conformance with §§ 2-03(c), 2-03(d), 2-05(c) and 2-05(d) of this chapter and may submit a written recommendation to the Commission. The Commission may receive such recommendation at any time prior to its final action on the application; however, it shall have no authority to extend the review period defined in Charter § 197-c, nor shall a review by a second community board pursuant to this subparagraph (g) require that the application be reviewed by the borough board. Prior to making the report, the staff shall inform the sponsor of all deficiencies with respect to form and content and any changes, additions or deletions which, in the opinion of the staff, may correct such deficiencies. The sponsor may, thereupon, indicate its willingness to make such changes, additions or deletions in which case the Department will defer its report to the Commission until the changes have been made. The sponsor may, instead, request that the plan be presented without change to the Commission for its threshold findings of form and content and sound planning policy. At the time of any Department report on a proposed plan, the Commission may receive a similar report from representatives of the sponsor.

(b) *City Planning Commission Determination.* Within 30 days after its presentation by the Department staff, the Commission shall determine, when required by the Charter and in accordance with the standards set forth in § 6-04 of these rules, whether the proposed plan is of appropriate form and sufficient content, and whether it is in accordance with sound planning policy. If the plan has been sponsored by an agency other than a community board the Commission shall determine whether a Type II declaration, a negative declaration, or a notice of completion of a draft EIS has been issued, and if so, it shall direct the Department to distribute the plan in accordance with § 6-06 of these rules.

(c) *Coordination of Plan Review.* The Commission may determine that, despite its finding of appropriate form and content and sound planning policy, a proposed plan should not immediately proceed because there are other planning efforts, ULURP reviews or environmental studies underway which should be coordinated with the plan. In such a case, the Commission may direct the Department to work with the sponsor and any other interested agencies in developing an appropriate timetable and strategy for the plan, and to report back to the Commission.

(d) *Progress Report.* When 180 days has elapsed following a threshold determination pursuant to Subdivision (b), if a proposed plan has not been distributed for review either because the environmental review remains incomplete, or because the plan has been delayed pursuant to Subdivision (c), the sponsoring agency may make a written request to the Commission to expedite the plan's distribution. The Commission shall direct the Department to report in writing within a fixed period of time the progress of the plan, including any outstanding aspects of the environmental review, or any continuing problems of coordination delaying its review. Upon receipt of the report, the Commission may direct the Department to complete the review within a reasonable period of time.

NOTICE

On Wednesday, January 17, 2018, at 10:00 A.M., in Spector Hall, at 22 Reade Street, in Lower Manhattan, a public hearing is being held by the City Planning Commission to receive comments related to a Draft Environmental Impact Statement (DEIS), concerning an application by the New York City Department of Environmental Protection (DEP), for approval of several discretionary actions, including site selection and acquisition, for sites in Brooklyn, Community District 6.

The Proposed Actions would facilitate the construction of new combined sewer overflow (CSO) facilities as part of the Gowanus Canal Combined Sewer Overflow (CSO) Facilities Project. The Project is mandated by the United States Environmental Protection Agency (USEPA), to satisfy

remediation objectives under the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA, or Superfund). The first of the two CSO facilities, the "Head End Facility," would include an 8-million-gallon (MG) underground tank that would increase CSO capture for overflows that would otherwise be discharged at the "head end," or northernmost portion of the Gowanus Canal. The second facility, the "Owls Head Facility," would include a 4-MG tank that would additionally increase capture for overflows. The Owls Head Facility would be located at the middle of the Gowanus Canal, approximately 0.5 miles south of the northernmost portion of the Canal.

Written comments on the DEIS are requested, and will be received and considered by the New York City Department of Environmental Protection, the Lead Agency, until Monday, January 29, 2018, at 5:00 P.M.

"The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence."

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic prequalification application using the City's Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

- Administration for Children's Services (ACS)
- Department for the Aging (DFTA)
- Department of Consumer Affairs (DCA)
- Department of Corrections (DOC)

Department of Health and Mental Hygiene (DOHMH)
 Department of Homeless Services (DHS)
 Department of Probation (DOP)
 Department of Small Business Services (SBS)
 Department of Youth and Community Development (DYCD)
 Housing and Preservation Department (HPD)
 Human Resources Administration (HRA)

Name, Description and Location of Proposal:

Lenox Terrace

The applicant, Lenox Terrace Development Associates, an affiliate of the Olnick Organization, Inc., is seeking a series of land use actions, in connection with the proposed redevelopment of Lenox Terrace, an existing six-building residential development complex. The land use actions consist of a zoning map amendment from R7-2 and C1-4 commercial overlay to a C6-2 zoning district, two large-scale general development special permits, and a zoning text amendment to establish a Mandatory Inclusionary Housing (MIH) area coterminous with the rezoning area (the "Proposed Actions"). The rezoning area comprises an entire block (Block 1730, Lots 1, 7, 9, 16, 19, 25, 33, 36, 40, 45, 50, 52, 55, 64, 65, 68, and 75), in the Central Harlem neighborhood of Manhattan, Community District 10, and is bounded by West 135th Street to the North, Fifth Avenue to the East, West 132nd Street to the South, and Lenox Avenue to the West.

The Proposed Actions would facilitate a proposal by the applicant to construct an infill development of five new mixed-use buildings within the Lenox Terrace development (the "Proposed Development Site") located at 484 Lenox Avenue (Block 1730, Lots 1, 7, 9, 25, 33, 36, 40, 45, 50, 52, 64, 68 and 75). The new buildings would replace existing retail structures and at-grade parking spaces, resulting in an increase of approximately 1,642 new residential units (up to 493 of which would be affordable pursuant to MIH); 39,845 gross square feet (gsf) of commercial space; and 15,055 gsf of community facility space. In addition, two sites not owned by the applicant have been identified as likely to be developed as a result of the Proposed Actions: Block 1730, Lots 16 and 19 ("Projected Development Site 1") and Block 1730, Lot 65 ("Projected Development Site 2"). The remaining parcel on the block (Block 1730, Lot 55) would be rezoned, but is not expected to be redeveloped as a result of the Proposed Actions. In total, the Proposed Actions could result in an incremental increase of approximately 1.7 million gsf of residential use, consisting of 1,969 dwelling units, 39,845 gsf of commercial use, 15,055 gsf of community facility space, and up to 242 additional accessory parking spaces.

The Proposed Actions consist of:

1. A Zoning Map Amendment to rezone the affected area, currently zoned R7-2 with a C1-4 commercial overlay along Lenox Avenue, Fifth Avenue and West 135th Street, to a C6-2 commercial zoning district (an R8 residential equivalent).
2. A Special Permit pursuant to Zoning Resolution (ZR) Section 74-743 (Large-scale General Development) to modify applicable height, setback and minimum distance between buildings regulations on the Proposed Development Site (ZR Sections 35-61, 35-63, 23-952, 23-641, and 23-711).
3. A Special Permit pursuant to ZR Section 74-533 (Reduction of parking spaces to facilitate affordable housing) to reduce the number of required parking spaces provided on the Proposed Development Site (ZR Sections 36-33 and 25-23).
4. A Zoning Text Amendment to Appendix F (Inclusionary Housing) of the ZR to establish an MIH area, coterminous with the rezoning area, mapping Option 1 and Option 2. Option 1 requires providing at least 25% of residential units for households with incomes averaging 60% Area Median Income (AMI), including 10% of

residential units intended for households with incomes averaging 40% AMI; and Option 2 requires at least 30% of residential units for households with incomes averaging 80% AMI.

In addition, the project approvals would include a Restrictive Declaration (RD) to require development on the Proposed Development Site in substantial accordance with the approved special permit plans. The RD would restrict the uses within buildings on the Proposed Development Site to what is shown on the site plan; establish the envelop within which the buildings must be constructed, including limitations on height, bulk and floor area; and establish the required setbacks and distance between buildings. A minimum amount of open space as defined in the ZR would be required as part of the RD.

Collectively, the Proposed Actions would facilitate a proposal by the applicant to demolish five one-story commercial structures and construct infill development of five new mixed-use buildings on the Proposed Development Site. The proposed development would consist of an incremental increase of approximately 1.5 million gross square feet (gsf), comprised of 1,642 dwelling units (up to 493 of which would be affordable pursuant to the MIH program), 39,845 gsf of local retail, 15,055 gsf of community facility and up to 203 additional accessory parking spaces. Each of the five buildings in the proposed development would reach a maximum height of 284 feet. The new buildings would be developed under the basic height and setback regulations applicable within R8 districts, with requested special permit modifications to sky exposure planes.

The affected area is currently zoned R7-2 with a C1-4 commercial overlay along Lenox Avenue, Fifth Avenue and West 135th Street. The R7-2 zoning district permits both height factor and Quality Housing bulk regulations. Height factor regulations allow a range of FAR from 0.87 to 3.44, related to the Open Space Ratio, and building heights are governed by the sky exposure plane. Optional Quality Housing regulations allow residential uses up to a maximum Floor Area Ratio (FAR) of 3.44 on a narrow street or 4.0 on a wide street, and establish a maximum building height of 75 feet on a narrow street at 80 feet on a wide street. Parking is required for 50 percent of the dwelling units. The C1-4 commercial overlay permits 2.0 FAR of commercial use when mapped in an R7 district. Permitted commercial uses include Use Groups 5-9 and 14, which allow local retail uses, grocery stores and local repair services. The proposed C6-2 district (R8 residential equivalent district) would permit residential uses up to 7.2 FAR and community facility uses up to 6.5 FAR, with a maximum height of 145 feet. Parking is not required for inclusionary housing units, and is required for 50% percent of unregulated units. The C6-2 zoning district permits a wider range of commercial uses than the existing commercial overlay, including destination retail.

The Proposed Development Site, Lenox Terrace, currently contains six, 16-story (144 foot) residential towers with 1,716 dwelling units (approximately 1,447,500 gsf); five one-story buildings with approximately 95,655 gsf of local retail use, of which approximately 17,820 gsf is currently vacant; and approximately 457 at-grade accessory parking spaces. According to the applicant, approximately 80 percent of the existing dwelling units (1,370 units) are currently subject to rent stabilization. The remaining affected lots are currently developed with community facility uses, including a recreation center and a house of worship.

Absent the Proposed Actions, it is expected that the proposed rezoning area would remain in the existing condition.

For the purposes of a conservative analysis, the With-Action Scenario considers the potential future development of Projected Development Site 1 and Projected Development Site 2 with mixed-use buildings (maintaining existing community facility use with residential above), built to 7.2 FAR, the maximum allowable under the proposed rezoning. In total, these two sites could be developed with approximately 340 new dwelling units and 41,584 gsf replacement community facility use. It is assumed that up to 30 percent of the residential units (103 units) would be designated as affordable pursuant to MIH. Development of each of the two Projected Development Sites would reach a maximum height of 145 feet, the maximum allowable for inclusionary housing buildings with qualifying ground floors. The existing community facility use on Lot 55 is assumed to remain in the future with the Proposed Actions.

In total, the incremental development projected to occur in the future with the Proposed Actions would consist of: 1,708,470 gsf of residential use, or approximately 1,969 units (up to 596 of which would be permanently affordable pursuant to MIH); 39,845 gsf of retail use; 15,055 gsf of community facility space; and up to 242 additional accessory parking spaces.

The analysis year for the Proposed Actions is 2027. The proposed development is expected to occur in two phases. Two of the five proposed buildings on the Proposed Development Site (Proposed Buildings 1 and 2) would be constructed by 2022, requiring the demolition of two commercial buildings. These proposed buildings comprise approximately 790,205 gsf of new development, including approximately 762 residential units. The remaining five buildings on the Proposed Development Site are expected to be constructed by 2027.

While there are no known plans for the redevelopment of Projected Development Sites 1 and 2, given market trends it is reasonable to assume that development of these sites could occur by 2027.
