"The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed, to the City's prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence."

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic prequalification application using the City's Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed, at http://www.nyc.gov/html/hhsaccelerator/html/ roadmap/roadmap.shtml. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

Administration for Children's Services (ACS) Department for the Aging (DFTA) Department of Consumer Affairs (DCA) Department of Corrections (DOC) Department of Health and Mental Hygiene (DOHMH) Department of Homeless Services (DHS) Department of Probation (DOP) Department of Small Business Services (SBS) Department of Youth and Community Development (DYCD) Housing and Preservation Department (HPD) Human Resources Administration (HRA) Office of the Criminal Justice Coordinator (CJC)

To sign up for training on the new system, and for additional information about HHS Accelerator, including background materials, user guides and video tutorials, please visit www.nyc.gov/hhsaccelerator

- ٠
- Modification of requirements for private roads and driveways (ZR § 119-317) (collectively, the "Proposed Action"). .

The Development Site is located, at 20, 25, 35, and 40 Harborlights Court (Block 615, Tax Lots 34 and 36; proposed Tax Lots 34, 35, 36 and 37) (the "Development Site") in the Grymes Hill section of Staten Island Community District 1. The Development Site is a 75,346-square foot (sf) zoning lot within the SHPD in R1-1 and R-2 zoning districts and within a Lower Density Crowth Management Area and within a Lower Density Growth Management Area.

The requested CPC authorizations would facilitate the Proposed Development of four new detached single-family homes and a private road on a 75,346-sf zoning lot (the "Proposed Development"). The four homes in the Proposed Development would have a combined total of 38,316 gross sf (23,836 zoning sf) of residential floor area with a FAR of 0.32. The Proposed Development would have a lot coverage of 12.22 percent (8,592 sf) and open space ratio of 258 (61,686 sf), exceeding the minimum required open space ratio of 150. The site plan is configured with a minimal distance between the homes, approximately 20 to 22 feet, clustered, at the turnaround of the private road.

On proposed Tax Lot 34 (25 Harborlights Court), a three-story (9,454 gsf) and a height of 46'-10" is proposed. The home would exceed the maximum height by 10'-10" subject, to the requested height authorization.

Currently, the Development Site does not front on a mapped street; it is located approximately 107 feet east of Howard Avenue, at its nearest point. A 30-foot-wide private roadway easement known as Harborlights Court runs through the adjacent property, located, at 269 Howard Avenue (Block 615, Lot 40), to provide access, to the Development Site from Howard Avenue. The Development Site remains unimproved and is wooded.

The land uses in the immediate vicinity consists primarily of detached single-family homes and vacant land. The prevailing built form is generally consistent with the underlying zoning districts. The area, to the west of the Development Site fronting Howard Avenue within the underlying R1-1 zoning district is developed predominantly with underlying R1-1 zoning district is developed predominantly with two-and three-story single-family homes on large lots. Between Howard Avenue and Van Duzer Street, to the north, east and south is unimproved and undeveloped land within the SHPD. The eastern portion of the surrounding area is developed with two- and three-story single-family homes as well as denser three-and four-story townhomes within an underlying C4-1 zoning district mapped on the west side of Van Duzer Street, St. John's University Staten Island Campus is located southwest of the Development Site within an R3-1 zoning district.

The surrounding area is within the SHPD, which is intended to preserve natural terrain and vegetation for aesthetic reasons as well as to reduce erosion and control stormwater runoff and landslides. The SHPD imposes controls on development related, to the average grade of the lot and defines areas of no disturbance where development of staging activities is not permitted. Land use in the surrounding area is consistent with conditions under the previously approved project.

Absent the proposed action, the affected area would remain unchanged. The proposed project is anticipated to be completed by 2023.

Statement of No Significant Effect:

The Environmental Assessment and Review Division of the Department of City Planning, on behalf of the City Planning Commission, has completed its technical review of the Environmental Assessment Statement, dated February 12, 2021 prepared in connection with the ULURP Application (Nos. National Register ("S/NR") eligible resource, at 269 Howard Avenue. In order to mitigate the potential for significant adverse impacts, a Restrictive Declaration, identifying means and measures, to ensure that there is no potential for impacts during construction, to the adjacent S/NR eligible resource is required. The City Planning Commission has determined that the proposed action will have no significant effect on the quality of the environment, once it is modified as follows:

1. The Applicant agrees via a Restrictive Declaration, that prior to commencement of construction on the Property, to develop and implement a Construction Protection Plan ("CPP) to protect known architectural resources identified by the LPC with a lateral distance of 90 feet from construction activities, at the Property. The CPP shall be developed in coordination with and approved by LPC and shall comply with the procedures set forth in the New York City Department of Building's Technical Policy and Procedure Notice ("TPPN") #10/88, "Procedures for the Avoidance of Damage to Historic Structures Resulting from Adjacent Construction." Applicant shall include enforceable contractual requirements with its contractors (and require the contractors to include enforceable contractual requirements with their subcontractors) to implement the provisions of the CPP. The Restrictive Declaration also restricts the Applicant from submitting any permit applications, to the Department of Buildings ("DOB") that would allow for soil disturbance on the subject property until such time that LPC provides the necessary written notice to DOB.

Supporting Statement:

The above determination is based on an environmental assessment which finds that:

By letter dated June 23rd, 2020, LPC determined that 269 Howard Avenue, Staten Island, a property adjacent, to the Proposed Project is a S/NR eligible resource. LPC determined that any future construction on the Development Site must adhere, to the requirements set forth in New York City Building Code Section ("BC") 3309.4.4 (2014), (which requires that historic structures, contiguous to or within a lateral distance of 90-feet from the edge of the lot where an excavation is occurring, be monitored during the course of excavation work) and TPPN #10/88 for avoidance of adverse effects to S/NR eligible 269 Howard Avenue.

1. Additionally, LPC requested that a CPP for the property be prepared according to CEQR Technical Manual guidance (Historic Resources Chapter 9, section 522) and submitted for review and approval prior to start of construction.

The Restrictive Declaration is binding upon the property's successors and assigns. The declaration serves as a mechanism to assure that the application of BC3309.4.4 (2014) and TPPN #10/88 is complied with and a CPP for the property is prepared.

2. No other significant effects on the environment which would require an Environmental Impact Statement are foreseeable.

It is fully agreed and understood that if the foregoing conditions, modification, and alterations are not fully incorporated into the proposed action, this Conditional Negative Declaration shall become null and void. In such event, the Applicant shall be required to prepare a Draft Environmental Impact Statement before proceeding further with said proposal.

This Conditional Negative Declaration has been prepared in accordance with Article 8 of the Environmental Conservation Law 6NYCRR part 617.

DRAFT SCOPE OF WORK RELEASED FOR THE KENSICO – EASTVIEW CONNECTION PROJECT

The New York City Department of Environmental Protection (DEP) proposes, to construct a new tunnel between the Kensico Reservoir and the Catskill/Delaware Ultraviolet Light Disinfection (CDUV) Facility located within the Town of Mount Pleasant in Westchester County, New York. The Kensico – Eastview Connection (KEC) tunnel would provide an additional means of conveying water between the Kensico Reservoir and the CDUV Facility. The Proposed Action would be comprised of the following major components:

- A potential construction drop pipe along the tunnel alignment;

- Subsurface utility easements along the tunnel corridor;
- Construction of a new KEC Screen Chamber;
- Construction of connecting tunnels, to the new screen chamber and modifications to the existing Dike Grade Tunnel;
- Consolidation of the electrical supply to the Kensico Campus and construction of a new electrical building;
- Redevelopment of the Kensico Campus including the relocation of Westlake Drive, regrading of the overall site, a new DEP Police booth, and other security improvements;
- Modifications to the chemical feed system at Delaware Shaft 18;
- Modifications to the existing Catskill Upper Effluent Chamber (UEC) located within and adjacent to the Kensico Reservoir;
