BOROUGH PRESIDENT - BROOKLYN

PUBLIC HEARINGS

NOTICE IS HEREBY GIVEN that, pursuant to Section 201 of the New York City Charter, the Brooklyn borough president will hold a public hearing on the following matters in the Courtroom of Brooklyn Borough Hall, 209 Joralemon Street, Brooklyn, NY 11201, commencing at 6:00 P.M., on April 30, 2018.

Calendar Item 1 - 80 Flatbush Avenue Rezoning (180216 ZMK, 180217 ZRK, 180218 ZSK)

Applications submitted by the New York City Educational Construction Fund (ECF) and 80 Flatbush Avenue, LLC, pursuant to Sections 197-c and 201 of the New York City Charter, for a zoning map and text amendments intended to facilitate the redevelopment of a block in Downtown Brooklyn. The zoning map amendment would change a property, bounded by Flatbush Avenue, Schermerhorn Street, State Street, and Third Avenue, and located within the Special Downtown Brooklyn District (SDBD), from a C6-2 to a C6-9 district. The zoning text amendments would designate the project a Mandatory Inclusionary Housing (MIH) area, amend SDBD regulations to set the maximum permitted floor area for a C6-9 district to a Floor Area Ratio (FAR) of 18.0 for commercial and community facility use, and 12.0 FAR for residential use, make the C6-9 district subject to Tower Regulations in New York City Zoning Resolution (ZR) Section 101-223, and establish a new special permit modifying ZR Section 74-752. Pursuant to this permit, the City Planning Commission (CPC) would allow modifications of certain regulations as necessary, to facilitate an ECF project within a C6-9 district within the SDBD, in order to achieve the massing of the development site, as proposed in the application documents.

The requested special permit, pursuant to ZR Section 74-752, would permit modifications for the applicants' project per the following:

- Ground-Floor use regulations in order to permit the proposed a. configuration of the residential and school lobbies on Flatbush Avenue and State Street, which will contain significant retail frontage
- b. MIH requirements so as to allow Phase I construction of the proposed school without affordable housing, which would be constructed in Phase II of the development
- Minimum street wall height regulations along Flatbush Avenue to c. allow the configuration of building volumes on the development site, and provide larger floorplates, as well as an outdoor terrace for the proposed schools
- Tower lot coverage requirements in order to permit a maximum lot d. coverage of 56.7 percent in a tower taller than 150 feet

- Off-Street accessory parking regulations in order to waive the e. requirement to provide an off-street parking facility, due to the project's location in a Transit Zone
- Loading berth requirements, to reduce the number of loading f. berths required in Phase I of the project

Such actions are intended to facilitate the creation of a new, mixed commercial, community facility, and residential development that will replace the existing Khalil Gibran International Academy (KGIA) public high school building with a new facility in a larger space, as well as a new elementary school that would share an auditorium and gymnasium with KGIA. In addition to school uses, the proposed development would provide residential space comprising of approximately 700 units of market-rate housing and 200 units of affordable housing; 201,000 sq. ft. of commercial office space, 42,200 sq. ft. of retail space, and 10,300 sq. ft. of non-school cultural space (within the existing KGIA building). The project is proposed to proceed in two phases in order to permit continued occupancy by KGIA until its new facility is complete. The first phase will result in the completion of the two schools and a mixed-use building fronting Flatbush Avenue and State Street; the second phase will be developed along Third Avenue, with segments of the existing KGIA building to remain at the corner of Schermerhorn and State Streets.

MAYOR'S OFFICE OF ENVIRONMENTAL COORDINATION

■ PUBLIC HEARINGS

DRAFT ENVIRONMENTAL IMPACT STATEMENT AND TECHNICAL MEMORANDUM 001

The Office of the Deputy Mayor for Housing and Economic Development

Inwood Rezoning Proposal

NOTICE IS HEREBY GIVEN that a public hearing, will be held as detailed below for the Inwood Rezoning Proposal. The purpose of the public hearing, is to provide the public with the opportunity to comment on the Draft Environmental Impact Statement (DEIS), which received a Notice of Completion on January 12, 2018, and a Technical Memorandum, which was made available for public review on April 17, 2018.

The public hearing has been scheduled for Wednesday, May 9, 2018, at 10:00 A.M., and will be held at the City Planning Commission Hearing Room, Lower Concourse, 120 Broadway, New York, NY 10271, in conjunction with the City Planning Commission's Citywide public hearing, pursuant to ULURP.

Comments on the DEIS and the Technical Memorandum will be accepted until 5:00 P.M., on Monday, May 21, 2018, and may be submitted at the public hearing, or to the contact person below.

The New York City Economic Development Corporation (NYCEDC), together with the Department of Housing Preservation and Development (NYCHPD), the Department of Citywide Administrative Services (NYCDCAS), the New York City Department of Parks and Recreation (NYC Parks), and the New York City Department of Small Business Services (NYCSBS), is proposing a series of land use actions neighborhood in Manhattan Community District (CD) 12. The proposed neighborhood in Manhattan Community District (CD) 12. The proposed land use actions include zoning map amendments, zoning text amendments, City Map changes, site acquisition and/or site disposition by the City, and an Urban Development Action Area (UDAA) designation and Urban Development Action Area Project (UDAAP) approval (collectively, "Proposed Actions"). The Proposed Actions would work in unison with other components of the Inwood NYC Action Plan

F

to preserve existing affordable housing and protect tenants, support small businesses and entrepreneurs, and provide targeted public realm investments and increased programming and services to enhance overall quality of life for residents. As analyzed in the DEIS, by 2032, the Proposed Actions are expected to result in a net increase of approximately 4,348 dwelling units (DUs), including up to 1,563 affordable units, 472,685 square feet (sf) of community facility space, and 1,135,032 sf of commercial space, a net decrease of 50,614 sf of light industrial space, as well as the creation of new waterfront open space along the Harlem River.

The DEIS and Technical Memorandum analyzed the potential environmental impacts of the Proposed Actions and disclosed the potential for significant adverse impacts with regard to open space; shadows; historic and cultural resources; transportation (traffic, transit, and pedestrian); and construction. The DEIS identified measures and/ or potential measures that would fully or partially mitigate most significant adverse impacts; some impacts would remain unmitigated. Between DEIS and Final Environmental Impact Statement (FEIS), potential mitigation measures are being studied further to determine whether they are feasible and whether any significant adverse impacts would remain unmitigated. The DEIS considered alternatives to the Proposed Actions that included a No-Action Alternative, a No Unmitigated Significant Adverse Impacts Alternative, and a Lower Density Alternative.

Since the issuance of the Notice of Completion for the DEIS, the City of New York has proposed modifications to the zoning map amendments [180204 [A] ZMM] and the zoning text amendments [N180205 [A] ZRM]. With these modifications, the Proposed Actions by 2032 are expected to result in a net increase of 4,340 dwelling units (DUs), including up to 1,560 affordable units, 451,902 square feet (sf) of community facility space, and 1,216,645 sf of commercial space, and a net decrease of 50,614 sf of light industrial space.

An assessment to determine whether these modifications would alter the conclusions of the DEIS is presented in the Technical Memorandum. The assessment concludes that the proposed modifications would not result in any new or different significant adverse impacts that were not already identified in the DEIS. The assessment presented in the Technical Memorandum will be incorporated into the FEIS.

Copies of the Notice of Completion, the DEIS, the Final Scope Work, and the Technical Memorandum may be obtained by any member of the public from:

The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence."

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic prequalification application using the City's Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at http://www.nyc.gov/html/hhsaccelerator/html/ roadmap/roadmap.shtml. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

Administration for Children's Services (ACS) Department for the Aging (DFTA) Department of Consumer Affairs (DCA) Department of Corrections (DOC)

Automating patient communication is vital at NYC Health plus Hospitals patient care operations. With approximately 5 million appointments scheduled at NYC Health plus Hospitals each year, appointment reminders are an integral part of the communication tools our operational staff require to effectively communicate with patients. The goals of this initiative are to reduce patient no shows, reduce late arrivals and reduce patients that arrive for appointments at the wrong time. These aforementioned situations result in longer patient wait times, delays in patient care, improper resource scheduling and reduced revenue across the corporation.

AGENCY RULES

FIRE DEPARTMENT

■ NOTICE

Notice of Adoption of New Rule entitled "Issuance of Proof of Compliance to Company Certificate Holders" and Amendments to Fire Department Rule 3 RCNY §115-01, entitled "Company Certificates'

NOTICE IS HEREBY GIVEN, PURSUANT TO THE

AUTHORITY VESTED IN THE Fire Commissioner of the City of New York, pursuant to Sections FC102.6.3 and FC901.6 of the New York City Fire Code (Title 29 of Administrative Code of the City of New York), and in accordance with the requirements of Section 1043 of the New York City Charter, that the New York City Fire Department has adopted the above final rule.

The public hearing was held on February 27, 2018. The rule shall take effect on June 1, 2018.

The Notice of Adoption, final rule and the Statement of Basis and Purpose of Final Rule, will be available on the Fire Department's website (www.nyc.gov/fdny) and NYCRULES (www.nyc.gov/NYCRULES).

Statement of Basis and Purpose of Final Rule

Existing Regulation of Commercial Cooking Exhaust Systems

The New York City Fire Code requires the periodic inspection and cleaning of exhaust systems for restaurant and other commercial cooking equipment that generate grease-laden vapors. Grease accumulations in exhaust systems are the source of numerous fires, which the exhaust ducts can spread throughout the building. The residue generated by wood-burning cooking equipment compounds the risk of a fire.

Restaurant owners and others have been targeted over the years by unscrupulous businesses that charge for cleaning the commercial cooking exhaust system but fail to perform a proper cleaning. To help prevent this, companies that clean commercial cooking exhaust systems must be licensed by the Fire Department, which requires businesses performing the cleaning to obtain a company certificate and their cleaning technicians a certificate of fitness

The cleaning companies are required to attach a decal to the commercial cooking equipment to document that the exhaust system has been cleaned, as well as by what company and technician, and when the cleaning was performed. Currently, cleaning companies print their own decals as proof of compliance with Fire Code requirements. Recent investigations by the New York City Department of Investigation revealed that unlicensed businesses unlawfully conducting such cleanings fraudulently placed decals identifying other, licensed companies as having done the work.

Existing Regulation of Portable Fire Extinguishers

The New York City Fire Code requires the periodic inspection and servicing of portable fire extinguishers where such extinguishers are required. An annual inspection must be conducted by a licensed portable fire extinguisher servicing company to ensure that the portable fire extinguishers are functional and to repair or recharge them if necessary. A tag must be attached to the portable fire extinguisher to document the inspection and/or servicing

It is difficult for business owners to assess whether the companies they have hired to service portable fire extinguishers are properly servicing them. The Fire Department itself may not be able to evaluate the adequacy of the services provided when it inspects the premises weeks or months later. There is a history of unscrupulous companies charging businesses inflated fees for these services, and then failing to perform necessary servicing. Most recently, the New York City Department of Investigation discovered several such companies attaching an inspection tag bearing the name of another company, jeopardizing the other company's business reputation.

As a result, companies that sell or service portable fire extinguishers are required to be licensed by the Fire Department. The companies must obtain a company certificate and their technicians must obtain a Fire Department certificate of fitness.

New Regulation of Proof of Compliance

The Fire Department adopts this rule to regulate the decals and tags that serve as proof of compliance with Fire Code requirements.

Section 115-02 requires commercial cooking exhaust system cleaning companies to use Fire Department-Issued, numbered decals as proof of compliance with Fire Code inspection and cleaning requirements. It also requires portable fire extinguisher sales and servicing companies to use Fire Department-Issued, numbered tags as proof of compliance with Fire Code inspection, testing and servicing requirements. Only licensed companies are eligible to purchase the Fire Department-Issued decals and tags, and only the Fire Department-Issued decals and tags will be acceptable proof of the inspection, cleaning and/or servicing. The decals and tags will be designed with various security measures to prevent counterfeiting.

This will help ensure that only licensed businesses perform the required fire safety inspections, cleaning and servicing; promote proper performance by preventing misidentification of the company that performed the work; and make it more difficult for unqualified and unlicensed businesses to engage in fraudulent practices.

Unauthorized use of Fire Department-Issued proof of compliance by an unlicensed company or individual, or misuse by a licensed company or one of its technicians, constitutes a violation of the applicable Fire Code requirements for commercial cooking exhaust systems or portable fire extinguishers and will subject the violator to a civil or criminal penalty. It can also result in denial, suspension, revocation or nonrenewal of a Fire Department certificate.

In accordance with existing Fire Code requirements (as set forth in Section FC107.7), records of all inspections, cleaning and/or servicing of equipment, and the names and Certificate of Fitness numbers of all company personnel who performed the work, must be maintained for a period not less than three (3) years.

Proof of Compliance Issuance Process

The Fire Department will coordinate the purchase of the proof of compliance from an approved City vendor. The Fire Department will retain the services of a vendor and order blank proof of compliance, which will be completed with the name of the company certificate holder at time of purchase. The price of the proof of compliance for company certificate holders will reflect the cost of its preparation and printing, as well as administrative processing costs. Minimum order sizes may apply. Price, order and payment arrangements will be published on the Fire Department's website and are subject to change. When possible, the Fire Department will offer company certificate holders the benefit of bulk discounts that are available for large print orders. The Fire Department anticipates publishing a bulk reorder schedule.

Related Amendments

The Fire Department also amends 3 RCNY §115-01, the rule addressing company certificates, to reference company certificates for commercial cooking system cleaning (currently set forth in Fire Code Section FC901.6.3.3), and incorporate the existing qualifications for the certificate (currently set forth on the Fire Department application form), including five years' experience. Section 115-01(d) also incorporates existing minimum company staffing requirements and indicates the types of tools, materials and equipment required to conduct commercial cooking exhaust system cleaning.

Public Comment and Fire Department Response

Public comment received at the public hearing, including the statement of an industry association, the New York Association of Fire Equipment Distributors, was generally favorable to the proposed rule. Various speakers acknowledged that there are unlicensed persons or companies that engage in deceptive practices, including use of misleading or stolen decals and tags.

Various speakers expressed concern about the cost of the decals and tags, but also urged that they be able to incorporate company logos, license numbers from other jurisdictions, and other identifying information. The Fire Department will endeavor to design decals and tags that can accommodate as many of the requested features as possible, consistent with the goal of keeping the cost low.

Public comment urged the use of multi-year decals and tags. The proof of compliance will address this concern.

Public comment was received expressing skepticism about the ability to prevent counterfeiting. The Fire Department is incorporating various security measures into the decals and tags.

Several comments were received expressing concern about additional recordkeeping requirements. Use of Fire Department-Issued proof of compliance will require somewhat more careful recordkeeping, but this will be facilitated with the use of bar codes. One printing company expressed opposition to the rule on the impact it would have on competing printing companies, claiming that it restrains competition. Requiring government-issued decals or tags as proof of compliance with public safety regulations (like the registration and inspection decals affixed to motor vehicles) is not a restraint of trade. The City vendor that will be used to print the required decals and tags was retained by the New York City Department of Citywide Administrative Services in accordance with City procurement processes.

A public comment was received suggesting that the term "precipitator" be clarified to include any pollution control device. This suggested change has been accepted and incorporated.

New material is underlined. Material to be deleted is in [brackets].

Guidance with respect to the interpretation of the Fire Code and Fire Department rules may be obtained using the Public Inquiry Form on the Fire Department's website, http://www1.nyc.gov/site/fdny/about/resources/code-and-rules/nyc-fire-code.page.
