"The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence."

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic prequalification application using the City's Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at http://www.nyc.gov/html/hhsaccelerator/html/ roadmap/roadmap.shtml. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

Administration for Children's Services (ACS) Department for the Aging (DFTA) Department of Consumer Affairs (DCA) Department of Corrections (DOC) Department of Health and Mental Hygiene (DOHMH) Department of Homeless Services (DHS) Department of Probation (DOP) Department of Small Business Services (SBS) Department of Youth and Community Development (DYCD) Housing and Preservation Department (HPD) Human Resources Administration (HRA) Office of the Criminal Justice Coordinator (CJC) To sign up for training on the new system, and for additional information about HHS Accelerator, including background materials, user guides and video tutorials, please visit www.nyc.gov/hhsaccelerator.

■ NOTICE

Project Name: Residential Tower Mechanical Void Text Amendment CEQR No. 19DCP110Y SEQRA Classification: Type I

REVISED NEGATIVE DECLARATION

supersedes the Negative Declaration issued January 28, 2019

Statement of No Significant Effect

Pursuant to Executive Order 91 of 1977, as amended, and the Rules of Procedure for City Environmental Quality Review, found at Title 62, Chapter 5 of the Rules of the City of New York and 6 NYCRR, Part 617, State Environmental Quality Review, the Department of City Planning, acting on behalf of the City Planning Commission assumed the role of lead agency for the environmental review of the proposed project. Based on a review of information about the project contained in this environmental assessment statement and any attachments hereto, which are incorporated by reference herein, the lead agency has determined that the proposed project would not have a significant adverse impact on the environment.

Reasons Supporting this Determination

The above determination is based on information contained in the EAS, which finds the proposed actions sought before the City Planning Commission would have no significant effect on the quality of the environment. Reasons supporting this determination are noted below.

Land Use, Zoning and Public Policy

The EAS includes a Land Use, Zoning and Public Policy assessment which analyzes the potential significance of the proposed text amendment on land use, zoning and public policy in the study area. The Proposed Zoning Text Amendment would limit the use of zoning floor area deductions for excessive structural voids in high-density tower districts. The Proposed Action is intended to discourage the use of excessive mechanical or structural floors to increase building height by limiting the height and frequency of such spaces incorporated into a building's design. The Proposed Action would not otherwise affect land use, zoning or public policy in the affected area. This EAS includes a consistency assessment with the Waterfront Revitalization Program (WRP). The analysis concludes that the proposed actions would not result in significant adverse impacts on land use, zoning or public policy.

Urban Design and Visual Resources

This EAS includes an Urban Design and Visual Resources assessment which analyzes the potential significance of the Proposed Action on urban design. The Proposed Action would not alter the permitted height, bulk, setback or arrangement of the existing zoning districts. Rather, the proposed text amendment would limit the use of excessively tall mechanical floors to elevate upper-story residential units above the surrounding context. Thus, the Proposed Action is intended to reinforce and improve existing neighborhood character and urban design. Therefore, there would be no significant adverse impacts on urban design and visual resources.

No other significant effects upon the environment that would require the preparation of a Draft Environmental Impact Statement are foreseeable. This Negative Declaration has been prepared in accordance with Article 8 of the New York State Environmental Conservation Law (SEQRA).
