Notice of the restrictions upon further #development# or #enlargement# of the granting lot and the receiving lot shall be filed by the owners of the respective lots in the Office of the Register of the City of New York (County of New York). Proof of recordation shall be submitted to the Chairperson.

An application filed with the Chairperson for certification, pursuant to this Section shall be made jointly by the owners of the granting lot and the receiving lot, and shall include site plans and zoning calculations for the granting lot and receiving lot showing the additional #floor area# associated with the transfer, and any such other information as may be required by the Chairperson.

The Chairperson shall certify to the Department of Buildings that a #development# is in compliance with the provisions of this Section only after the transfer instrument and notice of restrictions required by this Section have been executed and recorded with proof of recordation provided to the Chairperson. Such certification shall be a precondition to the filing for or issuing of any building permit allowing more than the basic maximum #floor area ratio# for such #development#.

A separate application shall be filed for each transfer of #floor area# to any #zoning lot#, pursuant to this Section.

Within 45 days of receipt of a complete application, the Chairperson shall either certify that the proposed #development# complies with the requirements of this Section or disapprove such application, citing the nature of any failure to comply. Failure to certify or disapprove such application within the 45 day period will release the Department of Buildings or the Department of Business Services from any obligation to withhold the excavation or building permit and authorize such agency to determine compliance with the provisions of this Section.

In M1 Districts paired with a #Residence District#, the special #use#, #bulk# and parking and loading provisions of Article XII, Chapter 3 (Special Mixed Use District) shall apply, except where modified by the provisions of this Chapter, and shall supplement or supersede the provisions of the designated #Residence# or M1 District, as applicable.

142-05

Modification of Use and Bulk Regulations for Zoning Lots Fronting on Former West 208th Street

Where the #lot line# of a #zoning lot# coincides with the former boundary of West 208th Street, as shown on Map 1 in the Appendix to this Chapter, such #lot line# shall be considered a #street line# for the purpose of applying all #use# and #bulk# regulations of this Resolution.

142-06

Development over a Street in Subarea A1

In Subarea A1, as shown on Map 1 (Special Inwood District – Subdistricts and Subareas) in the Appendix to this Chapter, when a volume above a #street#, or portion thereof, has been eliminated, discontinued or closed, such volume may, at the option of an owner of a #zoning lot# adjoining such volume, be considered part of the adjoining #zoning lot#, and a #development# or #enlargement# may be located within such volume that is part of or connected to a #building# on the adjoining #zoning lot# utilizing #floor area# generated by the adjoining #zoning lot#, provided that the #street# below the volume is provided with lighting in accordance with Department of Transportation standards. In no event shall such volume contribute to the amount of #lot area# of any #zoning lot# for the purposes of generating #floor area#.

142-07

Shoreline boundary

For the purposes of this Chapter, the #shoreline# shall be as shown on a survey available on the Department of City Planning website

142-08

Off-street Relocation of Subway Station Entrances

For all #developments# or #enlargements# involving ground floor level construction on a #zoning lot# that is wholly or partially located within a Transit Easement Zone, as shown on Map 3 (Special Inwood District – Transit Easement Zones) in the Appendix to this Chapter, a transit easement volume may be required on such #zoning lot# for public access between the #street# and the adjacent above- or below-grade subway station.

(a) Transit Easement

Prior to filing any application with the Department of Buildings for an excavation permit, foundation permit, new building permit or alteration permit for a #development# or #enlargement#, the owner of the #zoning lot# shall file an application with the Metropolitan Transportation Authority (MTA) and the Chairperson of the City Planning Commission requesting a certification as to whether or not a transit easement volume is required on the #zoning lot#.

Within 60 days of receipt of such application, the MTA and the Chairperson shall jointly certify whether or not a transit easement volume is required on the #zoning lot#. Failure to certify within the 60-day period will release the owner from any obligation to provide a transit easement volume on such #zoning lot#.

When the MTA and the Chairperson indicate that a transit easement volume is required, the MTA shall, in consultation with the owner of the #zoning lot# and the Chairperson, determine the appropriate type of transit easement and reasonable dimensions for such transit easement volume.

The owner shall submit a site plan showing a proposed location of such transit easement volume that would provide access between the #street# and the adjacent subway station and be compatible with the proposed #development# or #enlargement# on the #zoning lot# for joint approval and final certification by the MTA and the Chairperson. The MTA and the Chairperson shall comment on such site plan within 45 days of its receipt and may, within such 45-day period or following its expiration, permit the granting of an excavation permit while the location and size of the transit easement volume is being finalized. Upon joint approval of a site plan by the MTA and the Chairperson, copies of such certification shall be forwarded by the Chairperson to the Department of Buildings.

Legally enforceable instruments, running with the land, creating a transit easement volume, and setting forth the obligations of either the MTA or the owner and developer, their successors and assigns, to design and construct the improvement, shall be executed and recorded in a form acceptable to the MTA and the Chairperson. The execution and recording of such instruments shall be a precondition to the issuance of any foundation permit, new building permit, or alteration permit by the Department of Buildings allowing such #development# or #enlargement#.

(b) Construction and Maintenance

Where a transit easement volume is required, pursuant to this Section, transit access improvements within such volume shall be constructed and maintained either by the MTA or the owner of the #zoning lot# with the #development# or #enlargement#.

- (1) Where such mass transit improvement is constructed and maintained by the owner of the #development # or #enlargement#: (i) a transit access improvement shall be provided in accordance with standards set forth by the MTA; (ii) such improvement shall be accessible to the public at all times, except as otherwise approved by the MTA; (iii) such improvement shall include #signs# to announce accessibility to the public. Such #signs# shall be exempt from the maximum #surface area# of non-#illuminated signs# permitted by Section 32-642 (Non-illuminated signs); and (iv) no temporary certificate of occupancy shall be granted by the Department of Buildings for the #building# until the Chairperson of the City Planning Commission, acting in consultation with the MTA, has certified that the improvement is substantially complete and usable by the public. (2) Where such mass transit improvement is constructed and maintained by the MTA: (i) Where the construction of the improvement is not contemporaneous with the construction of the #development# or #enlargement#, any underground walls constructed along the #front lot line# adjacent to a below-grade subway station shall include a knockout panel, not less than 12 feet wide, below #curb level# down to the bottom of the easement. The actual location and size of such knockout panel shall be determined through consultation with the MTA. (ii) Temporary construction access shall be granted to the MTA on portions of the #zoning lot# outside of the transit easement volume, as necessary, to enable construction within and connection to the transit easement volume. (iii) In the event that the MTA has approved of obstructions associated with the #development# or #enlargement# within the transit easement volume, such as building columns or footings, such construction and maintenance shall exclude any such obstructions within the transit easement volume.

(c) Additional modifications

Where a transit easement volume is required, pursuant to paragraph (a) of this Section, the Chairperson of the City Planning Commission shall certify the following modifications in conjunction with such transit easement volume certification:

- (1) the edge of the transit easement volume facing the #street# shall be considered a #street wall# for the purposes of applying the #street wall# location provisions set forth in Section 142-40 (SPECIAL HEIGHT AND SETBACK REGULATIONS), inclusive, irrespective of whether such volume is incorporated into a #building#; (2) for #zoning lots# adjacent to a below-grade subway station, the maximum height for the #building# set forth in Section 142-40, inclusive, shall be increased by 10 feet, and the maximum number of #stories#, if applicable, shall be increased by one, except where the provisions of Section 142-48 (Special Regulations for Certain Sites in Subdistrict C) are being utilized; (3) the floor space contained within any transit easement volume required, pursuant to this Section shall be excluded from the definition of #floor area#; and (4) the street frontage of such transit easement volume shall be excluded for the purpose of applying the provisions of Section 142-14 (Ground Floor Level Requirements).

(d) Temporary Use

Any easement volume required on a #zoning lot#, pursuant to paragraph (a) of this Section may be temporarily used for any permitted #commercial# or #community facility uses# until such time as required by the MTA for transit access improvements. The floor space allocated to such temporary #uses# within the transit easement volume shall continue to be exempt from the definition of #floor area# and shall not be included for the purpose of calculating #accessory# off-street parking, bicycle parking, or loading berths.

Improvements or construction of a temporary nature within the easement volume for such temporary #uses# shall be removed by the owner of the #building# or portion of the #zoning lot# within which the easement volume is located prior to the time at which public #use# of the easement area is required, except as otherwise specified by the MTA. A minimum notice of six months in writing shall be given by the MTA to the owner of the #building# or portion of the #zoning lot# in order to vacate the occupants of such temporary #uses#.

(e) Termination of an easement volume

In the event that the MTA and the City Planning Commission jointly notify the Department of Buildings and the owner in writing that a transit easement volume is not required on a #zoning lot# in its final construction plans, the restrictions imposed on such #zoning lot# by the provisions of this Section shall lapse, following receipt of notification thereof by the owner, and the owner shall have the right to record an instrument reciting the consent of the MTA to the extinguishment of the easement volume.

On any #zoning lot# which has been #developed# or #enlarged# in accordance with the provisions of this Section and on which termination of transit easement has been certified, pursuant to this paragraph, any floor space in a previously required transit easement volume shall continue to be exempt from the definition of #floor area# and shall not be included for the purpose of calculating requirements for #accessory# off-street parking, bicycle parking or loading berths. However, where such previously required volume is located within a #building#, the ground floor space shall be subject to the provisions of Section 142-14.

142-10 SPECIAL USE REGULATIONS

The underlying #use# regulations are modified by the provisions of this Section, inclusive. In M1-4/R7A and M1-4/R9A Districts, the #use# regulations of Article XII, Chapter 3 of the #Special Mixed Use District# shall apply, except where modified by the provisions of this Section.

142-11 Permitted Uses

#Physical culture or health establishments# shall be permitted as-of-right in C2-4, C4-4D, C4-5D, C6-2, M1-4 and M1-5 Districts. For the purposes of applying the underlying regulations to such #use#, a #physical culture or health establishment# shall be considered a Use Group 9 #use# and shall be within parking requirement category B.

In Subarea B1, as shown on Map 1 (Special Inwood District – Subdistricts and Subareas) in the Appendix to this Chapter, commercial or public utility vehicle storage, open or enclosed, including #accessory# motor fuel pumps, as listed in Use Group 16C, shall be a permitted #use#.

In Subareas B2 and B3, as shown on Map 1, all #uses# listed in Use Groups 3 and 4 shall be permitted #uses#, and Use Group 6A food stores, including supermarkets, grocery stores, or delicatessen stores, shall not be limited to #floor area# per establishment.

142-112 Special provisions for transient hotels

The #development# or #enlargement# of a #building# containing a #transient hotel#, as listed in Section 32-14 (Use Group 5), or the #conversion# or change of #use# within an existing #building# to a #transient hotel#, shall only be allowed in C2 Districts, subject to the locational criteria set forth in the double-asterisked footnote of Use Group 5 in Section 32-14, and in C4, C6 or M1 Districts:

- (c) upon certification by the Chairperson of the City Planning Commission to the Commissioner of Buildings that the residential development goal, as set forth in this Section, has been met, or (d) where such residential development goal has not been met, by special permit by the City Planning Commission. To permit such a #transient hotel#, the Commission shall find that: (3) sufficient sites are available in the area to meet the residential development goal; or (4) a harmonious mix of #residential# and non-#residential# uses has been established in the area, and the #transient hotel# is consistent with the character of the surrounding area.

The Commission may prescribe additional conditions and safeguards to minimize adverse effects on the character of the surrounding area.

For the purpose of applying the provisions of this Section, the residential development goal shall be met when at least 3,860 #dwelling units# within the #Special Inwood District# have received temporary or final certificates of occupancy subsequent to [date of adoption].

142-113 Regulations for manufacturing uses in Subareas B2 and B3

In Subareas B2 and B3, as shown on Map 1 (Special Inwood District – Subdistricts and Subareas) in the Appendix to this Chapter, the #manufacturing uses# permitted in M1 Districts shall be subject to the modifications set forth in Section 123-22 (Modification of Use Groups 16, 17 and 18), inclusive.

142-12 Location of Uses

In C2 Districts mapped within R7 or R8 Districts, for #buildings# constructed after [date of adoption], the underlying provisions of Section 32-421 (Limitation on floors occupied by commercial uses) shall be modified to permit #commercial uses# listed in Use Groups 6, 7, 8, 9 or 14 on the second #story# of a #building# occupied on one or more of its upper #stories# by #residential uses# or by #community facility uses#, and provided no #commercial uses# are located directly over any #dwelling units#.

Within the portion of the C2-4 District mapped within an R8A District and the portion of the C2-4 District mapped within an R9A District, where located east of Tenth Avenue, south of West 207th Street, west of Ninth Avenue and north of West 206th Street, the underlying provisions of Section 32-421 (Limitation on floors occupied by commercial uses) shall be inapplicable. In lieu thereof, Section 32-422 (Location of floors occupied by commercial uses) shall apply.

In C4 or C6 Districts, the underlying provisions of Section 32-422 (Location of floors occupied by commercial uses) shall be modified for #mixed buildings# to permit #dwelling units# on the same #story# as a #commercial use# provided no access exists between such #uses# at any level containing #dwelling units#, and provided no #commercial uses# are located directly over any #dwelling units#. However, such #commercial uses# may be located over #dwelling units# by authorization of the City Planning Commission upon a finding that sufficient separation of #residential uses# from #commercial uses# exists within the #building#.

In Subareas A1, B2 and B3, as shown on Map 1 (Special Inwood District – Subdistricts and Subareas) in the Appendix to this Chapter, no #uses# listed in Use Group 6A, 6C or 10A shall be permitted above the ground floor level.

142-13 Enclosure Requirements in Subdistrict E

In Subdistrict E, #commercial# and #manufacturing# activities and storage #uses# shall not be subject to the provisions of Section 42-41 (Enclosure of Commercial and Manufacturing Activities) or Section 42-42 (Enclosure or Screening of Storage).

142-14 Ground Floor Level Requirements

For the purposes of applying the special #ground floor level# streetscape provisions set forth in Section 37-30 to this Chapter, any portion of a #ground floor level street# frontage along #streets# designated on Map 2 (Ground Floor Use and Curb Cut Regulations) in the Appendix to this Chapter shall be considered #primary street frontages#, and shall consist of Type 1, Type 2 and Type 3 #primary street frontages#. A #ground floor level street# frontage along any other #street# shall be considered a #secondary street frontage#. For the purposes of this Section, defined terms shall include those in Sections 12-10 and 37-311.

The provisions of this Section shall apply to #developments# or #ground floor level enlargements#.

(d) Along #primary street frontages#

(3) Type 1 #primary street frontages#

For #buildings#, or portions thereof, with Type 1 #primary street frontage#, #uses# on the #ground floor level#, to the minimum depth set forth in Section 37-32 (Ground Floor Depth Requirements for Certain Uses), shall be limited to non-#residential uses#, except for Type 1 lobbies and entrances and exits to #accessory# parking spaces provided in accordance with the applicable provisions of Section 37-33 (Maximum Width of Certain Uses). Group parking facilities located on the #ground floor level# shall be wrapped by #floor area# in accordance with the provisions of paragraph (a) of Section 37-35 (Parking Wrap and Screening Requirements). #Ground floor level street walls# shall be glazed in accordance with the provisions set forth in Section 37-34 (Minimum Transparency Requirements), except that in M1 Districts in Subdistrict B, where the #ground floor level# is occupied by #uses# in Use Groups 16, 17 or 18, up to 50 percent of the #ground floor level street wall# width may be exempt from such regulations.

(4) Type 2 #primary street frontages#

For #buildings#, or portions thereof, with Type 2 #primary

street frontage#, all #uses# permitted by the underlying district shall be permitted on the #ground floor level#. provided that group parking facilities located on the #ground floor level# shall be wrapped by #floor area# in accordance with the provisions of Paragraph (a) of Section 37-35.

In addition, the following regulations shall apply to the #ground floor level# to a depth of 30 feet from the #street line#:

- (i) an aggregate width equal to at least 50 percent of a #building's street wall# shall be occupied by #commercial uses# listed in Use Groups 5, 6A, 6C excluding banks and loan offices, 7B, 8A, 8B, 9A, 10 or 12; and

The level of the finished floor of such ground floor shall be located not higher than five feet above nor lower than five feet below the as-built level of the adjoining #street#.

In C4-5D Districts, and in C2 Districts mapped within R7D Districts, the provisions of Section 32-434 (Ground floor use in C4-5D and C6-3D Districts and in certain C2 Districts) shall not apply. In lieu thereof, the provisions of this Section shall apply.

142-141 Special Streetscape Provisions for Blank Walls

Where visual mitigation elements are required on a blank wall along the #ground floor level street wall#, pursuant to the provisions of Section 142-14 (Ground Floor Level Requirements), at least 75 percent of the linear footage of any such blank wall shall be treated by any of the following visual mitigation elements, or both.

(a) Planting

When planting is provided as a visual mitigation element, any combination of perennials, annuals, decorative grasses or shrubs shall be provided in planting beds, raised planting beds or planter boxes in front of the #street wall#. Each foot in width of a planting bed, raised planting bed or planter box, as measured parallel to the #street wall#, shall satisfy one linear foot of frontage mitigation requirement. Such planting bed shall extend to a depth of at least three feet, inclusive of any structure containing the planted material. Any individual planted area shall have a width of at least five feet, and the height of such planting, inclusive of any structure containing the planted materials, shall be at least three feet.

At least 25 percent of such #street wall# width shall be planted in accordance with the provisions of this paragraph.

(b) Wall treatment

When a wall treatment is provided as a visual mitigation element, permitted signs, graphic or sculptural art, rustication, decorative screening or latticework, or living plant material, shall be provided along the #street wall#. Each linear foot of wall treatment shall constitute one linear foot of frontage mitigation requirement. Such wall treatment shall extend to a height of at least 10 feet, as measured from the level of the adjoining sidewalk or grade, and have a minimum width of 10 feet, as measured parallel to the #street wall#.

142-20 SPECIAL FLOOR AREA REGULATIONS

The underlying #floor area# regulations are modified by the provisions of this Section, inclusive.

142-21

On #waterfront blocks#, the provisions of Section 62-31 (Bulk Computations on Waterfront Zoning Lots) shall be modified so that #lot area# that is seaward of the #shoreline# shall not be included for the purpose of determining allowable #floor area# or to satisfy any other #bulk# regulation.

142-22

Floor Area Regulations in Subareas A2, A3 and B1

In Subareas A2, A3 and B1, as shown on Map 1 (Special Inwood District – Subdistricts and Subareas) in the Appendix to this Chapter, the #floor area# regulations shall be modified as follows:

For #zoning lots# without a #shoreline#, or for #zoning lots# with a #shoreline# length of 100 feet or less, the maximum #residential floor area ratio# shall be 4.6. For #zoning lots# with a #shoreline# length of more than 100 feet, the maximum #residential floor area ratio# shall be as set forth in Paragraph (d) of Section 23-154 (Inclusionary Housing) for the particular district.

For #zoning lots# that are divided by zoning district boundary lines, #floor area# may be distributed within a #zoning lot# without regard to zoning district boundary lines.

#Accessory# parking located below a height of 33 feet shall be exempt from the definition of #floor area#.

142-23

Floor Area Regulations in Subarea B2 and B3

In Subarea B2, as shown on Map 1 (Special Inwood District – Subdistricts and Subareas) in the Appendix to this Chapter, all permitted #uses# shall have a permitted #floor area ratio# of 2.0. In Subarea B3, as shown on Map 1, the base #floor area ratio# shall be 5.0, and may be increased only in accordance with the provisions of this Section.

The Chairperson of the City Planning Commission shall allow, by certification, a transfer of #floor area# from a #zoning lot# located in Subarea B2 to a #zoning lot# located in Subarea B3 provided that the provisions of this Section are met. For the purpose of this Section, a “granting lot” shall mean a #zoning lot# within Subarea B2 that transfers #floor area#, pursuant to this Section, and a “receiving lot” shall mean a #zoning lot# within Subarea B3 that receives additional #floor area#, pursuant to this Section.

Such certification for a transfer of #floor area# shall be subject to the following conditions:

- the maximum amount of #floor area# that may be transferred from a granting lot shall be based on a #floor area ratio# of 2.0, less the total #floor area# of all existing #buildings# on the granting lot and any previously transferred #floor area#;
- each transfer, once completed, shall irrevocably reduce the amount of #floor area# that may be #developed# or #enlarged# on the granting lot by the amount of #floor area# transferred;
- for #developments# or #enlargements#, which in the aggregate for both the granting lot and the receiving lot, involve an increase in the #floor area# of more than 20,000 square feet of the amount existing on [date of adoption], a waterfront certification, pursuant to Section 62-811 (Waterfront public access and visual corridors) has been granted; and
- prior to the issuance of a building permit, as set forth in this Section, the owners of the granting lot and the receiving lot shall submit to the Chairperson a copy of the transfer instrument legally sufficient in both form and content to effect such a transfer. Notice of the restrictions upon further #development# or #enlargement# of the granting lot and the receiving lot shall be filed by the owners of the respective lots in the Office of the Register of the City of New York (County of New York). Proof of recordation shall be submitted to the Chairperson.

Both the transfer instrument and the notices of restrictions shall specify the total amount of #floor area# transferred and shall specify, by #block# and lot numbers, the granting lot and the receiving lot that are a party to such transfer.

An application filed with the Chairperson for certification, pursuant to this Section shall be made jointly by the owners of the granting lot and the receiving lot, and shall include site plans and zoning calculations for the granting lot and receiving lot showing the additional #floor area# associated with the transfer, and any such other information as may be required by the Chairperson.

The Chairperson shall certify to the Department of Buildings that a #development# is in compliance with the provisions of this Section only after the transfer instrument and notice of restrictions required by this Section have been executed and recorded with proof

of recordation provided to the Chairperson. Such certification shall be a precondition to the filing for or issuing of any building permit allowing more than the basic maximum #floor area ratio# for such #development#.

A separate application shall be filed for each transfer of #floor area# to any #zoning lot#, pursuant to this Section.

142-24

Floor Area Regulations in Subdistrict D

For #zoning lots# that are located partially in a #Commercial District# mapped within an R8A District and partially in a #Commercial District# mapped within an R9A District, #residential floor area# may transfer across the zoning district boundary from the #Commercial District# mapped within an R8A District to the #Commercial District# mapped within an R9A District.

142-25

“The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City’s prestige as a global destination. The contracting opportunities for construction/construction services and construction-related

services that appear in the individual agency listings below reflect that commitment to excellence.”

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York (“PPB Rules”), vendors must first complete and submit an electronic prequalification application using the City’s Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at <http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml>. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

- Administration for Children’s Services (ACS)
- Department for the Aging (DFTA)
- Department of Consumer Affairs (DCA)
- Department of Corrections (DOC)
- Department of Health and Mental Hygiene (DOHMH)
- Department of Homeless Services (DHS)

- Department of Small Business Services (SBS)
- Department of Youth and Community Development (DYCD)
- Housing and Preservation Department (HPD)

PREQUALIFIED VENDOR LIST: GENERAL CONSTRUCTION, NON-COMPLEX GENERAL CONSTRUCTION SITE WORK ASSOCIATED WITH NEW YORK CITY DEPARTMENT OF PARKS AND RECREATION ("DPR" AND/OR "PARKS") PARKS AND PLAYGROUNDS CONSTRUCTION AND RECONSTRUCTION PROJECTS.

DPR is seeking to evaluate and pre-qualify a list of general contractors (a "PQL") exclusively to conduct non-complex general construction site work involving the construction and reconstruction of DPR parks and playgrounds projects not exceeding \$3 million per contract ("General Construction").

By establishing contractor's qualification and experience in advance, DPR will have a pool of competent contractors from which it can draw to promptly and effectively reconstruct and construct its parks, playgrounds, beaches, gardens and green-streets. DPR will select contractors from the General Construction PQL for non-complex general construction site work of up to \$3,000,000.00 per contract, through the use of a Competitive Sealed Bid solicited from the PQL generated from this RFQ.

The vendors selected for inclusion in the General Construction PQL will be invited to participate in the NYC Construction Mentorship. NYC Construction Mentorship focuses on increasing the use of small NYC contracts, and winning larger contracts with larger values. Firms participating in NYC Construction Mentorship will have the opportunity to take management classes and receive on-the-job training provided by a construction management firm.

DPR will only consider applications for this General Construction PQL from contractors who meet any one of the following criteria:

- 1) The submitting entity must be a Certified Minority/Woman Business enterprise (M/WBE)*;
- 2) The submitting entity must be a registered joint venture or have a valid legal agreement as a joint venture, with at least one of the entities in the joint venture being a certified M/WBE*;

- 3) The submitting entity must indicate a commitment to sub-contract no less than 50 percent of any awarded job to a certified M/WBE for every work order awarded.

Pursuant to City Environmental Quality Review (CEQR), Mayoral Executive Order No. 91 of 1977, CEQR Rules of Procedure of 1991 and the regulations of Article 8 of the State Environmental Conservation Law, State Environmental Quality Review Act (SEQRA) as found in 6 NYCRR Part 617, a Draft Environmental Impact Statement (DEIS) has been prepared for the action described below. The proposal involve an action by the City Planning Commission and Council of the City of New York that is subject to review under Section 200 of the City Charter and the City Environmental Quality review (CEQR) process. Copies of the DEIS are available for public inspection at the office of the undersigned as well as available online at www.nyc.gov/planning. A public hearing on the DEIS, will be held at a later date to be announced, in conjunction with the City Planning Commission's Citywide public hearing, pursuant to Section 200 of the City Charter. Advance notice will be given of the time and place of the hearing. Written comments on the DEIS are requested and would be received and considered by the Lead Agency until the 10th calendar day following the close of the public hearing.

The Department of City Planning (DCP) is proposing a zoning text amendment to establish a City Planning Commission special permit (the CPC special permit) for new hotel development in M1 districts Citywide. The CPC special permit would be required for transient accommodations including hotels, motels and boatels. By introducing a CPC special permit, DCP proposes a case-by-case, site-specific review process to ensure that hotel development occurs only on appropriate sites, based on reasonable considerations regarding opportunities for the future siting of a permitted use on the site and the achievement of a balanced mix of uses and jobs in the area. This would allow for more balanced neighborhood growth and prevent conflicts with viable

industrial businesses in core industrial areas, while supporting the growth of other kinds of commercial uses and, in limited instances, residential uses in other light manufacturing districts (the proposed action).

The proposed zoning text amendment encompasses a discretionary action that is subject to review under Section 200 of the City Charter and the City Environmental Quality review (CEQR) process.

The zoning text amendment, as proposed by DCP, would require a CPC special permit for new hotels, motels, tourist cabins and boatels in M1 districts Citywide. The proposed CPC special permit would apply to all M1 districts, excluding MX or paired M1/R districts, except for:

- M1 districts that include airport property and areas adjacent to airports that are predominantly non-residential. These M1 districts have a unique economic function in the City and provide essential airport services, and options for accommodations are among those necessary services.
- M1 districts with existing hotel special permit provisions, since appropriate controls for hotel development have already been implemented for these areas.

By introducing a CPC special permit, DCP proposes a case-by-case, site-specific review process to ensure that hotel development occurs only on appropriate sites, based on reasonable considerations regarding opportunities for the future siting of a permitted use on the site and the achievement of a balanced mix of uses and jobs in the area.

The principal effect of the proposed action is to affect the location, but not the amount or type, of future hotel development. Because the proposed zoning text amendment introduces a discretionary approval process via a CPC special permit for new hotels within M1 districts, DCP expects fewer hotels in M1 districts in the foreseeable future. Generally, it is projected that the proposed action would restrain the development of some of the hotel rooms slated for M1 districts that are currently in the pre-construction process, and would result in a shift of hotel development to areas where hotel development could still occur as-of-right, in commercial and mixed-use districts within the same geographic submarket.

DCP cannot predict with certainty where hotels will locate in the future. Hotels and the zoning districts that permit them are relatively dispersed throughout the City, and the siting of hotels is demand-driven. As such, this is a generic, citywide action and the potential impacts of hotel development in the future No-Action and With-Action conditions will be analyzed by means of a prototypical analysis based on existing trends and reasonable projections for the future. This prototypical analysis utilizes an analysis year of 2028.

To establish a Reasonable Worst-Case Development Scenario (RWCDS) for the proposed action's prototypical analysis, DCP completed an analysis to determine the locations where a shift in hotel development from M1 to commercial or mixed-use districts is most likely. The siting analysis took into account the actual reduction in land where hotels could potentially locate as-of-right. Overall, such a shift would amount to approximately 1,150 hotel rooms: these are the number of rooms in the pre-construction pipeline slated for M1 districts that would not be developed in M1 districts due to the proposed action, and is subsequently the number that could be expected to be developed in as-of-right areas instead. Since geographic location plays an important role in driving hotel development, it is expected that any shift in development that would occur from M1 to other zoning districts would occur within the same geographic submarket.

The prototypical sites are assessed to describe the possible effects of this shift in hotel development and disclose the differences between one use (such as a residential or different commercial use) in the No-Action condition and a commercial hotel use in the With-Action condition. Since the proposed action would not change any rules regulating as-of-right development outside of M1 districts, such effects or differences would not be evaluated as or considered to be significant adverse impacts under CEQR.

In addition, as the proposed action would create a new special permit to allow new hotels within M1 districts, a conceptual analysis was conducted to understand how the new special permit could be utilized and to generically assess the potential environmental impacts that could result from a hotel development in a M1 district, pursuant to the special permit.

A socioeconomic conditions assessment was conducted of the proposed action to determine if it would adversely affect the hotel industry within the City. The hotel market is believed to be approaching a saturation point with growth expected to slow as the current hotel development pipeline of projects exceeds projected future demand through 2028. That demand, however, is not spread evenly throughout the City. Certain submarkets are expected to drive more demand for hotels than others.

Absent the proposed action, it is expected that much of the residual hotel demand will be met in M1 districts with strong demand drivers. Since future projects may be discouraged by the time and costs

associated with the public approval process, it is therefore expected that there will be less hotel construction in M1 districts as a result of the proposed action, particularly in sub-markets with strong demand drivers. It is expected that some of this development may shift to nearby commercial or mixed use districts to meet residual demand for hotel rooms. The action could potentially result in less hotel development in certain submarkets or a shift in the production of certain hotel products, potentially affecting the availability and cost of accommodations in certain submarkets. Because large areas of the City will continue to be available for hotel development on an as-of-right basis, it is expected that new hotels will continue to be developed and that the City will be able to accommodate the demand of visitors. Given the robust pipeline for development, the continued opportunities for redevelopment throughout the City, and the substantial increase and diversification of the hotel market in the City in recent years, the proposed action is not expected to significantly and adversely affect business conditions, impair the economic viability, or substantially reduce employment in the hotel industry in the City.

The conceptual analysis identified the potential for significant adverse impact could occur at the conceptual development site for historic resources, hazardous materials, and air quality. Mitigation measures to address the potential historic resources impacts cannot be identified at this time as the measures are dependent on site-specific conditions. Hazardous materials and air quality impacts could be avoided by the adoption of an E-designation at the time the hotel special permit was approved. No significant adverse impacts related to land use, zoning and public policy or urban design and visual resources could be realized as a new hotel development seeking a special permit to operate in an M1 district under the proposed action would need to be to meet the findings of this special permit. Although the conceptual analysis did not identify a potential for a significant adverse impact in the other impact categories, the potential for impacts in those categories cannot be ruled out for a new hotel development at another location within M1 districts. As such, any application for a special permit hotel development would need to assess and, if warranted, disclose significant adverse impacts and possible mitigation measures would be considered, pursuant to a separate environmental review.

The DEIS considered three alternatives — a No Action Alternative, a M1-6 Exemption Alternative, and an Airport Areas Inclusion Alternative. The No Action Alternative examines future conditions, but assumes the proposed action is not adopted. The M1-6 Exemption Alternative considers modifications to the geographic applicability of the proposed action that would continue to allow new hotel developments to be built as-of-right in M1-6 districts. The Airport Areas Inclusion Alternative considers modifications to the geographic applicability of the proposed action that would include the M1 districts immediately surrounding John F. Kennedy (JFK) and LaGuardia Airports.

Copies of the DEIS may be obtained from the Environmental Assessment and Review Division, New York City Department of City Planning, 120 Broadway, 31st Floor, New York, NY 10271, Robert Dobruskin, Director (212) 720-3423; or from the Mayor's Office of Environmental Coordination, 253 Broadway, 14th Floor, New York, NY 10007, Hilary Semel, Director (212) 676-3290; and on the New York City Department of City Planning's website, located at <http://www1.nyc.gov/site/planning/applicants/eis-documents.page>.

PUBLIC NOTICE OF A CONCESSION OPPORTUNITY FOR THE OPERATION, MANAGEMENT AND MAINTENANCE OF A PEDESTRIAN PLAZA, LOCATED AT PARK AVENUE (WEST) AND PERSHING SQUARE EAST BETWEEN EAST 41ST STREET AND EAST 42ND STREET, IN THE BOROUGH OF MANHATTAN

Pursuant to the Concession Rules of the City of New York, the Department of Transportation (“DOT”), intends to enter into a concession for the operation, management, and maintenance of a pedestrian plaza located at Park Avenue (West) and Pershing Square East between East 41st Street and East 42nd Street, in the borough of Manhattan (“Licensed Plaza”), including through DOT-approved events, sponsorships, and subconcessions, including but not limited to providing for the sale of any of the following: prepared food, flowers, locally grown produce or locally manufactured products, merchandise (such as souvenirs or T-shirts) that promotes the neighborhood or the concessionaire, or other similar merchandise within the Licensed Plaza.

Subconcessions would be awarded based on solicitations issued by the concessionaire in the basic form of Request for Proposals or Request for Bids, subject to DOT’s prior written approval of both solicitation and award.

DOT has identified the Grand Central District Management Association, Inc. as a potential concessionaire, but DOT will consider additional expressions of interest from other potential concessionaires for the operation, management, and maintenance of the Licensed Plaza. In order to qualify, interested organizations should be active in the neighborhood of the Licensed Plaza and have demonstrated experience in the management, operation and maintenance of publicly-accessible facilities, including but not limited to programming/ events management and concession or retail operation/management.

Organizations may express interest in the proposed concession by contacting Emily Weidenhof, Director of Public Space by email at plazas@dot.nyc.gov, or in writing at, 55 Water Street, 6th Floor, New York, NY 10041, by May 7, 2018. PUBLIC NOTICE OF A CONCESSION OPPORTUNITY FOR THE OPERATION, MANAGEMENT AND MAINTENANCE OF A PEDESTRIAN PLAZA, LOCATED AT THIRD AVENUE, EAST 149TH STREET, WILLIS AVENUE AND EAST 148TH STREET, IN THE BOROUGH OF THE BRONX

Pursuant to the Concession Rules of the City of New York, the Department of Transportation (“DOT”) intends to enter into a concession for the operation, management, and maintenance of a pedestrian plaza located at Third Avenue, East 149th Street, Willis Avenue and East 148th Street, in the borough of the Bronx (“Licensed Plaza”), including through DOT-approved events, sponsorships, and subconcessions, including but not limited to providing for the sale of any of the following: prepared food, flowers, locally grown produce or locally manufactured products, merchandise (such as souvenirs or T-shirts) that promotes the neighborhood or the concessionaire, or other similar merchandise within the Licensed Plaza.

Subconcessions would be awarded based on solicitations issued by the concessionaire in the basic form of Request for Proposals or Request for Bids, subject to DOT’s prior written approval of both solicitation and award.

It should be noted that the Licensed Plaza previously received FCRC Step 1 approval on September 8, 2010 to enter into negotiations with the South Bronx Overall Economic Development Corporation (“SoBRO”). However, in recent years as this Licensed Plaza has been developed and constructed, SoBRO has indicated to DOT that it is no longer interested nor has the capacity to undertake the overall management of the Licensed Plaza.

DOT has now identified the HUB-Third Avenue Merchants District Management Association, Inc. as a potential concessionaire, but DOT will consider additional expressions of interest from other potential concessionaires for the operation, management, and maintenance of the Licensed Plaza. In order to qualify, interested organizations should be active in the neighborhood of the Licensed Plaza and have demonstrated experience in the management, operation and maintenance of publicly-accessible facilities, including but not limited to programming/events management and concession or retail operation/management.

Organizations may express interest in the proposed concession by contacting Emily Weidenhof, Director of Public Space by email at plazas@dot.nyc.gov, or in writing at, 55 Water Street, 6th Floor, New York, NY 10041 by May 7, 2018. Ms. Weidenhof may also be contacted with any questions relating to the proposed concession by email or by telephone at (212) 839-4325.

Please note that the New York City Comptroller, is charged with the audit of concession agreements in New York City. Any person or entity that believes that there has been unfairness, favoritism or impropriety in the concession process should inform the Comptroller, Office of Contract Administration, 1 Centre Street, New York, NY 10007, telephone number (212) 669-2323.

SANITATION

■ NOTICE

**CITYWIDE ADMINISTRATIVE PROCEDURE ACT
REGULATORY AGENDA FY 2019**

PURSUANT TO SECTION 1042 OF THE NEW YORK CITY CHARTER, THE NEW YORK CITY DEPARTMENT OF SANITATION, SETS FORTH BELOW ITS REGULATORY AGENDA FOR THE CITY'S FISCAL YEAR OF 2019, COMMENCING JULY 1, 2018 THROUGH JUNE 30, 2019:

SUBJECT AREA: REFUSE AND RECYCLING COLLECTION FROM RESIDENTIAL PROPERTIES ON PRIVATELY OWNED STREETS AND ALLEYS.

REASONS FOR RULE:

Pursuant to Section 753 of the New York City Charter, the Commissioner may adopt rules governing the manner in which such refuse shall be arranged or sorted, the time when it will be collected and the place at which it shall be deposited for collection.

SUMMARY OF ANTICIPATED CONTENT:

The Department currently enters privately owned property, such as private streets, alleys and parking lots, in order to provide refuse and recycling collection services from residential properties, provided that the Department has first obtained a signed written agreement that indemnifies the City together with insurance. The agreement only covers the collection and removal of refuse and recyclable materials and does not obligate the Department to provide snow removal services to these privately owned areas. Failure to sign an indemnity agreement and provide the requisite insurance for potential hazardous conditions that can impact worker safety and equipment results in the Department requiring that residents of these private areas set out all their refuse and recyclable materials in an accessible public area for collection.

SUMMARY OF OBJECTIVES: The Department will amend Section 1-02 to Title 16 of the Rules of the City of New York to incorporate this practice regarding the provision of collection service in these areas.

RELEVANT FEDERAL, STATE AND LOCAL LAWS AND RULES APPLICABLE TO PROPOSED RULE:

- (a) Title 16 of the Rules of the City of New York;
- (b) Section 753 of the New York City Charter; and
- (c) City Administrative Procedure Act: Section 1043 of the New York City Charter.

INDIVIDUALS AND ENTITIES LIKELY TO BE AFFECTED BY PROPOSED RULE:

Owners and/or managing agents of residential premises that currently or might request that the Department provide collection service on privately owned property.

SCHEDULE FOR ADOPTION: Fiscal Year 2019.

SUBJECT AREA: RECYCLING – RULES GOVERNING THE DISPOSAL OF REFUSE AND RECYCLABLES GENERATED AT STREET EVENTS.

REASONS FOR RULE:

In 2009 the Mayor signed into law Local Law No. 13 in relation to the collection and removal of solid waste and recyclable materials at street events. The Department will amend Chapter 14 of Title 16 of the Rules of the City of New York to ensure its rules are consistent with Local Law No. 13, together with any other procedural changes to improve sanitation responsibilities before, during, and after any street events as necessary.

SUMMARY OF ANTICIPATED CONTENT:

The Department will amend its rule by clarifying the responsibilities of sponsors, producers and event managers of street events relating to the disposal of refuse and recyclable materials generated at street events, as well as street activities that occupy no more than one block for not more than one day, such as resident block parties, where no licensed vendor participates consistent with Local Law No. 13, in addition to any other procedural changes to improve sanitation responsibilities before, during, and after any street events as necessary.

SUMMARY OF OBJECTIVES:

The Department will amend Chapter 14 of Title 16 of the Rules of the City of New York to ensure its rules are consistent with Local Law No. 13, together with any other procedural changes to improve sanitation responsibilities before, during, and after any street events as necessary.

RELEVANT FEDERAL, STATE AND LOCAL LAWS AND RULES APPLICABLE TO PROPOSED RULE:

- (a) Section 16-326 *et seq.* of the Administrative Code of the City of New York;

- (c) City Administrative Procedure Act: New York City Charter Section 1043.

INDIVIDUALS AND ENTITIES LIKELY TO BE AFFECTED BY PROPOSED RULE: Sponsors, producers and event managers of street events.

SCHEDULE FOR ADOPTION: Fiscal Year 2019.

SUBJECT AREA: ENFORCEMENT — PENALTY SCHEDULE FOR VIOLATIONS RETURNABLE TO THE OFFICE OF ADMINISTRATIVE TRIALS AND HEARINGS, ENVIRONMENTAL CONTROL BOARD.

REASONS FOR RULE:

The Office of Administrative Trials and Hearings, Environmental Control Board (“OATH ECB”), is in the process of repealing all penalty schedules in its rules so they can be relocated to the rules of the enforcement agencies with primary rulemaking and policymaking jurisdiction over the laws that underlie these penalties.

SUMMARY OF ANTICIPATED CONTENT:

The Department will amend its rule to include certain provisions of its existing penalty schedule, which is currently found in Title 48 of the Rules of the City of New York, by moving those provisions into Title 16 of the Rules of the City of New York. In conjunction with this rule, OATH ECB will remove the existing agency penalty schedule from its rule.

SUMMARY OF OBJECTIVES:

Working with the City's rulemaking agencies, the Law Department, OMB, and the Office of Operations conducted a retrospective rules review of the City's existing rules, identifying those rules that will be repealed or modified to reduce regulatory burdens, increase equity, support small businesses, and simplify and update content to help support public understanding and compliance.
