"The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence."

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic prequalification application using the City's Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.

- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at http://www.nyc.gov/html/hhsaccelerator/html/ roadmap/roadmap.shtml. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

Administration for Children's Services (ACS)

Department for the Aging (DFTA)

Department of Consumer Affairs (DCA)

Department of Corrections (DOC)

Statement of Basis and Purpose of Proposed Rules

The proposed amendments to Chapter 11 of Title 28 of the Rules of the City of New York revise and clarify certain rules promulgated under the New York City Childhood Lead Poisoning Prevention Act of 2003 (Lead Law)

The Lead Law requires owners to retain records of any notices required to be distributed and records of work performed under the law for 10 years. Owners must transfer such records to a new owner, where applicable, and make the records available to HPD upon request.

The proposed rules add criteria, consistent with Local Law 70 of 2019, to clarify that HPD shall audit owners' compliance with the Lead Law by requiring submission of the records required to be kept for a minimum of 200 buildings per fiscal year. The criteria are intended to both target buildings where there appears to be a failure to comply with the requirements of the Lead Law and to determine, based on a random sample, whether property owners in general are complying with the record keeping requirements. The proposed rules set criteria for when such records must be submitted, but do not limit the agency from demanding records under any other circumstances where it deems it necessary to do so. The proposed rules also describe the documentation required to be kept and submitted upon audit demand.

In addition, the proposed rules:

- Clarify definitions for "lead-contaminated dust," "applicable age," and "lead-based paint," and add a definition for the term "resides," consistent with the amendments effected by Local Laws 64 and 66 of 2019;
- Clarify that exemptions from the lead-based paint presumption established under the Lead Law may be submitted for a determination whether a particular multiple dwelling or part thereof is lead safe (lead-based paint may have been removed and is also contained or encapsulated) or lead free (all lead-based paint has been removed so that there is no lead-based paint);
- Clarify who may submit a request for an exemption and under what circumstances exemptions will be revoked; and
- Make other revisions to clarify language.

[Deleted material is bracketed]

Section one. Subdivisions (b), (t), and (u) of Section 11-01 of Chapter 11 of Title 28 of the rules of the City of New York are amended to read as follows:

- (b) Applicable age. "Applicable age" shall mean under [seven] six years of age [for at least one calendar year from August 2, 2004. Upon the expiration of such one year period, in accordance with the procedures by which the health code is amended, the board of health may determine whether or not the provisions of Article 14 of the housing maintenance code should apply to children of age six, and based on this determination, may redefine "applicable age" for the purposes of some or all of the provisions of such Article 14 to mean under six years of age. In the event that the board of health makes such determination, the term "applicable age" shall mean under six years of age].
- (t) Lead-based paint. "Lead-based paint" shall mean paint or other similar surface coating material containing 1.0 milligrams of lead per square centimeter or greater, as determined by laboratory analysis, or by an x-ray fluorescence analyzer. If an x-ray fluorescence analyzer is used, readings shall be corrected for substrate bias when necessary as specified by the performance characteristic sheets released by the United States environmental protection agency and the United States department of housing and urban development for the specific x-ray fluorescence analyzer used. X-ray fluorescence readings shall be classified as positive, negative or inconclusive in accordance with the United States department of housing and urban development "Guidelines for the Evaluation and Control of Lead-Based Paint Hazards in Housing" [(June 1995, revised 1997)] (July 2012) and the

performance characteristic sheets released by the United States environmental protection agency and the United States department of housing and urban development for the specific x-ray fluorescence analyzer used. X-ray fluorescence readings that fall within the inconclusive zone, as determined by the performance characteristic sheets, shall be confirmed by laboratory analysis of paint chips, results shall be reported in milligrams of lead per square centimeter and the measure of such laboratory analysis shall be definitive. If laboratory analysis is used to determine lead content, results shall be reported in milligrams of lead per square centimeter. Where the surface area of a paint chip sample cannot be accurately measured or if an accurately measured paint chip sample cannot be removed, a laboratory analysis may be reported in percent by weight. In such case, lead-based paint shall mean any paint or other similar surface-coating material containing more than 0.5 percent of metallic lead, based on the non-volatile content of the paint or other similar surface-coating material

- (u)(i) Lead-contaminated dust. "Lead-contaminated dust" shall mean dust containing lead at a mass per area concentration of [40] 10 or more micrograms per square foot on a floor, [250] 50 or more micrograms per square foot on window sills, and [400] 100 or more micrograms per square foot on window wells, or such more stringent standards as may be adopted by the department of health and mental hygiene, the board of health, or as otherwise provided by local law.
- (ii) Notwithstanding Paragraph (i) of this subdivision, on and after June 1, 2021, "lead-contaminated dust" shall mean dust containing lead at a mass per area concentration of 5 or more micrograms per square foot on a floor, 40 or more micrograms per square foot on window sills, and 100 or more micrograms per square foot on window wells, or such more stringent standards as may be adopted by the board of health, provided that, if the Federal environmental protection agency or a successor agency, or the Federal department of housing and urban development or a successor agency, adopts lower definitions of lead-contaminated dust, the board of health shall define in the health code such lower levels as required by local law.
- §2. Subdivisions (bb) through (jj) of Section 11-01 of Chapter 11 of Title 28 of the Rules of the City of New York are amended to read as follows:
- (bb) Resides. "Resides" shall mean to routinely spend 10 or more hours per week in a dwelling unit, provided however, that this subdivision shall not take effect until January 1, 2020.
- (\underline{cc}) Rule or rules. "Rule" or "rules" shall mean a rule or rules promulgated, pursuant to \$1043 of the New York City Charter.
- [(cc)] (dd) Stabilization. "Stabilization" [means] shall mean repairing any physical defect in the substrate of a painted surface that is causing paint deterioration, and removing loose paint and other material from the surface to be treated, and includes compliance with all applicable safe work practices.
- [(dd)] (ee) Substrate. "Substrate" shall mean the material directly beneath the painted surface out of which the components are constructed, including wood, drywall, plaster, concrete, brick or metal.
- [(ee)] (ff) Turnover. "Turnover" shall mean the occupancy of a dwelling unit subsequent to the termination of a tenancy and the vacatur by a prior tenant of such dwelling unit. Such term shall not mean temporary relocation of an occupant for purposes of performing work, pursuant to Article 14 of the housing maintenance code.
- [(ff)] (gg) Underlying defect. "Underlying defect" shall mean a physical condition in a dwelling or dwelling unit that is causing or has caused paint to peel or a painted surface to deteriorate or fail, such as a structural or plumbing failure that allows water to intrude into a dwelling or dwelling unit.
- [(gg)] (<u>hh</u>) Wet sanding or wet scraping. "Wet sanding" or "wet scraping" shall mean a process of removing loose paint in which the painted surface to be sanded or scraped is kept wet to minimize the dispersal of paint chips and airborne dust.
- [(hh)] (ii) Window. "Window" shall mean the non-glass parts of a window, including but not limited to any window sash, window well, window jamb, window sill, or window molding.
- [(ii)] (jj) Work. "Work" shall mean any activity performed in accordance with Article 14 of the housing maintenance code that disturbs paint.
- $[(jj)] \ (\underline{k}\underline{k})$ Work area. "Work area" shall mean that part of a building where paint is being disturbed.
- §3. Clause (D) of Subparagraph (ix) of Paragraph (1) of Subdivision (g) of Section 11-06 of Chapter 11 of Title 28 of the Rules of the City of New York is amended to read as follows:
- (D) Clearance for re-occupancy. Lead-contaminated dust levels in excess of the following constitute contamination and require repetition of the clean-up and testing process in all areas where such levels are found. Areas where every lead-contaminated dust sample result is below the following levels may be cleared for re-occupancy:

Floors:

[40] 10 micrograms of lead per square foot.

Window Sills:

[250] 50 micrograms of lead per square foot.

Window Wells:

[400] 100 micrograms of lead per square foot.

Only upon receipt of laboratory test results showing that the above dust lead levels are not exceeded in the dwelling may the work area be cleared for permanent re-occupancy. However, temporary access to work areas may be allowed, provided that clean-up is completed and dust test samples have been collected in compliance with this section. The owner shall provide all lead-contaminated dust clearance test results to the occupants of the dwelling or dwelling unit.

- §4. Subdivision (c) of Section 11-07 of Chapter 11 of Title 28 of the rules of the City of New York is amended to read as follows:
- (c) Where testing or sampling is performed to rebut the presumption established in this section, the performance of such testing shall be in accordance with the definition for lead-based paint established in \$11-01[(s)] (t) of these rules and \$27-2056.2(7) of Article 14 of the housing maintenance code. Laboratory analysis for paint chip samples shall be permitted only where XRF tests fall within the inconclusive zone for the particular XRF machine or where the configuration of the surface or component to be tested is such that an XRF machine cannot accurately measure the lead content of such surface or component. Laboratory tests of paint chip samples, where performed, shall be reported in mg/cm2, unless the surface area of a paint chip sample cannot be accurately measured, or if an accurately measured paint chip sample cannot be removed, in which circumstance the laboratory test may be reported in percent by weight as provided in such lead-based paint definition. Where paint chip sampling has been performed, the sworn written statement by the person who performed the testing shall include a statement that such sampling was done in accordance with 40 CFR \$745.227 or successor provisions.
- §5. Section 11-08 of Chapter 11 of Title 28 of the Rules of the City of New York is amended to read as follows:
- §11-08 Exemption from Presumption—Lead Free and Lead Safe.
- (a) A registered owner or registered officer or director of a corporate owner, [or] a registered managing agent of a multiple dwelling erected prior to January first, nineteen hundred sixty, an authorized representative of a governmental agency as approved by the department, or, where title to such multiple dwelling is held by a cooperative housing corporation or the units in such multiple dwelling are owned as condominium units, a representative of the corporation or the condominium board of managers may apply to the department, in writing, for [an] a lead free or a lead safe exemption of the application of the presumption established under Article 14 of the housing maintenance code and §11-07 of these rules with respect to such multiple dwelling or any part thereof, provided further, that where title to such multiple dwelling is held by a cooperative housing corporation or the units in such multiple dwelling are owned as condominium units, the shareholder of record on the proprietary lease or the owner of record of such condominium unit, as is applicable, may apply to the department for such exemption for his or her individual unit where such presumption is or may become applicable.
- (b)(1) Lead Free Exemption. [Except as otherwise provided in Subdivision (c), such] A lead free exemption [shall] will be granted [only] where such owner or such other person specified in Subdivision (a) of this section submits a written determination made by a lead-based paint inspector or risk assessor certified, pursuant to subparts L and Q of 40 CFR part 745 or successor provisions, and in accordance with 40 CFR \$745.227(b), or Chapter 7 of the department of housing and urban development's Guidelines for Evaluation and Control of Lead-Based Paint Hazards in Housing (2012), that each tested surface and component in each dwelling unit in such multiple dwelling or in the individual dwelling unit, if applying for an exemption of a particular dwelling unit in such multiple dwelling, or in a common area of a multiple dwelling, is free of lead-based paint as defined in \$11-01[(s)] (t) of these rules and \$27-2056.2(7) of Article 14 of the housing maintenance code[, or,]. In applying for a lead free exemption, such owner or other specified person shall confirm in the exemption application that, to the best of his or her knowledge, no surfaces in the dwelling unit, dwelling, or common area for which the exemption is sought that contain paint have been encapsulated or contained.
- (2) Lead Safe Exemption. A lead safe exemption will be granted where the owner or such other person specified in Subdivision (a) of this section submits a written determination made by a lead-based paint inspector or risk assessor certified, pursuant to Subparts L and Q of 40 CFR part 745 or successor provisions, and in accordance with 40 CFR \$745.227(b), or Chapter 7 of the department of housing and urban development's Guidelines for Evaluation and Control of Lead-Based Paint Hazards in Housing (2012), that [as a result of a substantial alteration of each dwelling unit such] lead-based paint on each surface and component in each dwelling unit on which lead-based paint was

not fully removed or replaced, (or in each dwelling unit in a property if the exemption is based upon the appropriate sampling combination of components and surfaces in each unit), or common area, has been contained so that each surface tested is negative for such lead-based paint or has been encapsulated. For purposes of this section, the term "contained" shall mean that every surface containing lead-based paint has been temporarily covered, enclosed and sealed with sheetrock or similar durable construction material to eliminate gaps which may allow access to or dispersion of dust or other matter from the underlying surface.

- (3) For purposes of an application for an exemption, pursuant to Paragraphs (1) or (2) of this subdivision, [Where] where surfaces or components within the dwelling unit can be demonstrated by the owner, to the satisfaction of the department, to have a common construction and painting history, the lead-based paint inspector or risk assessor performing such testing may test a sample of the surfaces and components having such common construction and painting history within the dwelling unit or common area to make such determination, in accordance with 40 CFR §745.227(b), or Chapter 7 of the department of housing and urban development's Guidelines for Evaluation and Control of Lead-Based Paint Hazards in Housing (2012) Lead Based Paint Inspection, V. Inspections in Multi-family Housing, Table 7-3, Number of Units to be tested in Multi-family Building or Developments. In the absence of such documentation by the owner, or visual inspection by the certified individual, the certified individual must test each dwelling unit in order to provide the required certification. In addition, a list of any building components that would reasonably be expected to contain paint that have not been tested, and the reason that such building component has not been tested, must be included in the exemption application submission, along with a sketch or sketches of the rooms tested that is consistent with the XRF report of testing locations. [For purposes of this section, the term "contained" shall mean that every surface containing lead-based paint has been permanently covered, enclosed and sealed with sheetrock or similar durable construction material to eliminate gaps which may allow access to or dispersion of dust or other matter from the underlying surface.]
- (c) For any surface within a dwelling unit or dwelling <u>or common area</u> where encapsulation <u>or containment</u> has been applied to a surface for the purpose of qualifying such dwelling unit or dwelling or common area for [an] a lead safe exemption under this section, in addition to the information required to be provided to the department, pursuant to Subdivision (d) of this section, such application shall include: the location of each surface that has been encapsulated or contained; the name of the encapsulant that has been used, which shall be limited to those approved by the New York state department of health or by another Federal or State agency or jurisdiction which the department has designated as acceptable; and a statement by the person who applied such encapsulant, who shall be certified to perform abatement, pursuant to 40 CFR part 745 or successor provisions, that it has been applied in accordance with the manufacturer's instructions. The surfaces to which such encapsulants are applied or containments used shall be subject to periodic monitoring by the owner <u>for 20 years</u> to ensure that they remain undamaged and intact, provided further, that the owner of such dwelling unit or dwelling shall <u>have and comply</u> with a plan for periodic monitoring of such encapsulated or contained surfaces in accordance with Chapter 13 of the department of housing and urban development's Guidelines for Evaluation and Control of Lead-Based Paint Hazards in Housing (2012), and shall keep records of [any] monitoring of such encapsulated and contained surfaces for a period of at least ten years [and] which shall be produced by the owner upon request by the department.
- (d) In addition to the information required by Subdivision (c) of this section, where applicable, an application for a lead free or lead safe exemption shall include: the address of the multiple dwelling; the number of units; the dates, if known, when substantial alterations, where applicable, were made to the dwelling unit(s) and a description of the work performed; the date of the inspection resulting in the determination that the dwelling unit or multiple dwelling, common area or other part thereof is lead free or lead safe; and a copy of the inspection report. Such inspection report shall contain a description of the surfaces tested and the results of such testing. Such application shall also include a copy of the certificate of training of the person who performed such testing. The department may also require additional information and affidavits to be submitted with the application for exemption as provided in such application form.
- (e)(1) Upon submission of a complete application for exemption to the department, such multiple dwelling or common area or other part thereof, or dwelling unit, [shall be deemed to be exempt] the department shall review such application and notify the applicant whether the multiple dwelling, or common area or other part thereof, or dwelling unit, has been granted a lead safe or lead free exemption from application of the presumption established under Article 14 of the housing maintenance code and §11-07 of these rules.
- $(\underline{2})$ The department may revoke [an] <u>a lead safe</u> exemption granted, pursuant to this section where the department determines, after inspection, that a surface in any dwelling unit for which lead-based

- paint was contained or to which an encapsulant was applied is no longer intact or sealed [or that such exemption was determined to be based upon fraud, mistake or misrepresentation] The department shall revoke a lead safe or lead free exemption upon the (i) issuance of a denial of a rebuttal of a lead-based paint violation based upon the presumption of lead paint for such dwelling unit filed, pursuant to Subdivision a of Section 27-2056.5 where the department finds that lead-based paint was present on a surface that was subject to such exemption, (ii) issuance of a lead-based paint violation based upon testing by the department for such dwelling unit, (iii) issuance of an order to abate lead-based paint hazards or unsafe lead-based paint by the department of health and mental hygiene, (iv) issuance of a denial of an objection to such a commissioner's order to abate filed, pursuant to Section 173.13 of the health code, or (v) based upon a determination that the exemption was based upon fraud, mistake, or misrepresentation. For exemptions that were approved prior to the effective date of the rule promulgated by the department, pursuant to Paragraph (b) of Subdivision (7) of Section 27-2056.2 of the administrative code, the exemption shall be deemed revoked upon the turnover of a dwelling unit on or after such effective date and subject to Subdivision (f) of this section.
- (3) The department shall provide written notification to the owner upon making [such] a determination to revoke a lead safe or lead free exemption, and such multiple dwelling or part thereof, or dwelling unit shall be subject to all applicable provisions of Article 14 of the housing maintenance code.

The exemption from the presumption for such unit which becomes vacant shall be deemed revoked on the date of the vacancy, despite whether an owner has failed to provide the required notification, and such unit shall be subject to all of the requirements of law relating to units that are not exempt from the presumption of lead-based paint. An owner of such unit may apply for a new exemption by submitting an application as provided in this section, and the testing required, pursuant to this section shall be performed using the definition of lead-based paint in effect on and after such date.

[At such other times as the department may deem it necessary, the department may require that an owner submit to it all records required to be kept by such owner, pursuant to Article 14 of the housing maintenance code and these rules.] If such order to abate has been issued, such records shall be submitted to the department within 45 days of written demand for such records by the department. In all other cases, the time period for submission shall be stated in writing to the owner, and shall be in the discretion of the department.
