"The City of New York is committed to achieving excellence in the design and construction of its capital program, and building on the tradition of innovation in architecture and engineering that has contributed to the City's prestige as a global destination. The contracting opportunities for construction/construction services and construction-related services that appear in the individual agency listings below reflect that commitment to excellence."

HHS ACCELERATOR

To respond to human services Requests for Proposals (RFPs), in accordance with Section 3-16 of the Procurement Policy Board Rules of the City of New York ("PPB Rules"), vendors must first complete and submit an electronic prequalification application using the City's Health and Human Services (HHS) Accelerator System. The HHS Accelerator System is a web-based system maintained by the City of New York for use by its human services Agencies to manage procurement. The process removes redundancy by capturing information about boards, filings, policies, and general service experience centrally. As a result, specific proposals for funding are more focused on program design, scope, and budget.

Important information about the new method

- Prequalification applications are required every three years.
- Documents related to annual corporate filings must be submitted on an annual basis to remain eligible to compete.
- Prequalification applications will be reviewed to validate compliance with corporate filings, organizational capacity, and relevant service experience.
- Approved organizations will be eligible to compete and would submit electronic proposals through the system.

The Client and Community Service Catalog, which lists all Prequalification service categories and the NYC Procurement Roadmap, which lists all RFPs to be managed by HHS Accelerator may be viewed at http://www.nyc.gov/html/hhsaccelerator/html/roadmap/roadmap.shtml. All current and prospective vendors should frequently review information listed on roadmap to take full advantage of upcoming opportunities for funding.

Participating NYC Agencies

HHS Accelerator, led by the Office of the Mayor, is governed by an Executive Steering Committee of Agency Heads who represent the following NYC Agencies:

Administration for Children's Services (ACS)

Department for the Aging (DFTA)

A few days after the hearing, a transcript of the Hearing and copies of the written comments will be available to the public at OER's offices.

What authorizes DEP and OER to make this rule? Section 1403(e) of the City Charter authorizes DEP, and Sections 15(e)(15) and (17), and Section 1043 of the City Charter authorize OER, to make this proposed rule. This proposed rule was not included in the regulatory agendas of DEP and OER for this Fiscal Year because the need for it was not contemplated when DEP and OER published their agendas.

Where can I find DEP and OER's rules? DEP's rules are in Title 15, and OER's rules are in Title 43, of the Rules of the City of New York.

What laws govern the rulemaking process? DEP and OER must meet the requirements of Section 1043 of the City Charter when creating or changing rules. This notice is made according to the requirements of Section 1043(b) of the City Charter.

STATEMENT OF BASIS AND PURPOSE

The Office of Environmental Remediation ("Office" or "OER") was established by Local Law No. 27 of 2009. Charter \S 15(e)(14) authorizes the Director to take such actions as may be necessary to facilitate the remediation of brownfields, and \S 15(e)(15) authorizes OER to administer the E-Designation program. Charter \S 15(e)(17) authorizes the Director to establish fees for the administration of the Office's programs, while \S 15(e)(18) authorizes the Director to promulgate rules to implement the programs. Section 1403(e) of the City Charter authorizes DEP to review environmental consequences of an activity requiring city agency approval where such activity may have a significant impact on the physical aspects of the environment of the City.

OER administers compliance with the E-Designation Program. After E-designations are assigned to properties during rezoning actions (Zoning Resolution, § 11-15), OER works with developers of E-designated sites to ensure that the environmental requirements for hazardous materials and/or noise and/or air quality are met during construction and redevelopment. At times, development plans are delayed and changed after OER has already approved remedial plans, prompting a developer to request that OER conduct a second analysis of their property.

DEP and OER now propose new E-designation fees for OER to review and approve. First, the Office seeks to increase certain fees that developers pay for OER review of their projects to account for increased OER costs in administering the program. Second, the Office seeks to assign fees to time-consuming E-designation reviews not accounted for by existing fees.

DEP and OER therefore propose to amend the City's environmental remediation rules as follows:

- 1. Section 24-09 of Chapter 24 of Title 15 of the Rules of the City of New York would be amended as follows:
 - The fee for issuance of a Notice of No Objection by OER would be increased from \$375 to \$475 (§ 24-09(b)). This increase reflects OER's increased costs in project reviews necessary to deliver these notices.
 - The fee for seeking a phased review and sign-off procedure by OER resulting in a Notice To Proceed or a Notice of Satisfaction would be increased from \$1,050 to \$1,325 (§ 24-09(c)). This increase reflects OER's increased costs in conducting project reviews to issue these notices.
- 2. Projects requiring additional OER review after issuance of a Notice To Proceed would be subject to a fee of \$475 (\$ 24-09(d)). Developments which are delayed or modified may require the re-issuance of a Notice To Proceed, requiring further review by OER staff to determine how the approved remedial action plan needs to be modified.
- 3. Projects requiring OER review of a request to convert an active sub-slab depressurization system to a passive sub-slab depressurization system would pay a fee of \$475 (\S 24-09(e)). This fee accounts for the time spent by OER staff reviewing results from soil vapor tests and determining whether a change to the site management plan is appropriate.

4. Projects with active sub-slab depressurization systems would be charged a fee of \$275 for review of periodic reports required by their site management plans (§ 24-09(f)). This fee accounts for OER staff review of periodic reports of properties with active remedial systems.
