**07121P0084-HOMELESS MANAGEMENT INFORMATION SYSTEM (HMIS) RFP** - Competitive Sealed Proposals - Other - PIN# 07121P0084 - Due 12-7-21 at 2:00 A.M.

Purpose of the Solicitation: The Request For Proposal(s) (RFP) for the New York City HMIS data environment will allow the New York City Continuum of Care (NYC CoC) and the New York City Department of Social Services (DSS), to meet the minimum requirements of a Homeless Management Information System (HMIS) set forth by the United States Department of Housing and Urban Development (HUD). Furthermore, the New York City data environment will meet the emerging data needs of the NYC CoC and DSS that expand beyond the minimum requirements of HMIS. NYC CoC and DSS have taken this procurement opportunity to transform and modernize the data system that will meet the emerging and evolving needs of NYC CoC, DSS, and various other stakeholders. The

current NYC CoC data system has been in place for more than 15 years and does not meet the current data needs of NYC CoC or DSS. In the past 15 years, the strategic use of HMIS data has increased significantly, but the NYC CoC data system has not been re-envisioned to keep pace with the changing need for data. First the data environment must be compliant with HUD HMIS minimum requirements. The HMIS is designed to capture client-level information over time on the characteristics and service needs of individuals at-risk of and experiencing homelessness. In response to a Congressional directive, HUD has required all Continua of Care across the country to implement an HMIS. The primary goal of the HMIS is to better understand the scope and dimensions of homelessness locally and nationally in order to address homelessness more effectively. Through the implementation of advanced technology, the HMIS also directly benefits service providers and homeless clients by providing more efficient and coordinated services. The HMIS is a valuable resource because of the capacity to integrate and de-duplicate data from all homeless assistance and homelessness prevention programs within the CoC. Aggregate HMIS data can be used to understand the size, characteristics, and needs of the homeless population at the local, state, and national levels. The HMIS enables organizations that operate homeless assistance and homelessness prevention programs to improve case management by collecting information about client needs, goals, and service outcomes. Since inception of HMIS, the data system has matured into a complex data collection and reporting tool utilized by homeless service providers across NYC CoC. HUD published the Homeless Management Information System (HMIS) Data and Technical Standards Final Notice on July 30, 2004. The final notice describes the types of data that HUD funded providers must collect from clients receiving homeless assistance services. The notice also presents privacy and security standards for providers, CoC and all other entities that use or process HMIS data. These data standards were revised in October 2014, September 2015, June 2016, October 2017, October 2019, and June 2020. The FY 2020 HMIS Data Standards Manual can be found at the following link: https://www. hudexchange.info/resources/documents/HMIS-Data-Standards-Manual.pdf.

To provide Homelessness prevention services for Section 8 participants in Brooklyn and Queens, borough wide. This Homelessness Prevention Program, is intended to provide assistance to vulnerable households who may be at risk of losing their housing, their Section 8 subsidy and those who could benefit from limited assistance to achieve stability. This RFP is soliciting organizations that will work with Section 8 participants and applicants to prevent loss of subsidy, eviction, and to improve likelihood of success in permanent housing

HPD has determined this procurement is not practicable or advantageous to the City to use Competitive Sealed Bidding because judgement is required to evaluate which organizations can coordinate and provide the multiple services and resources of their organization to service the target population. Proposal evaluation will include experience of staff committed to the program, the organizations efforts to integrate our participants into their organizational culture, as well as their description of a proactive approach to engaging a fragile population. For these reasons it is not practical or advantageous to solicit competitive sealed bid.

The Department currently anticipates using an industry review process to solicit comments to the RFP prior to its issuance.
