# New York City Government Building Energy Benchmarking Results 2019

## Overview

The Department of Citywide Administrative Services (DCAS) submitted the revised 2010 - 2019 benchmarking results for City government buildings to the Department of Finance (DOF) for publication on September 1, 2020 in compliance with Local Law 84 of 2009. Since 2009, DCAS has coordinated with City agencies to benchmark nearly 3,000 public buildings including libraries, police stations, firehouses, schools, colleges, courthouses, hospitals, community centers and government offices.

The following report discloses energy performance metrics for each required City government building for calendar year 2019 as well as calendar year 2010 data as published in the original New York City Government Building Energy Benchmarking Results. The performance metrics included in the report are: [Energy Star score, energy use intensity \(EUI\), and greenhouse gas \(GHG\) emissions intensity](#). The U.S. EPA Energy Star Portfolio Manager Tool calculates Energy Star scores for certain common property types. For properties ineligible for an Energy Star score, the report will indicate “Not Available.”

## Summary of Results

In 2019, U.S. EPA updated ENERGY STAR score calculation methodology as well as related performance metrics for U.S. buildings to reflect the most recent market data. This update significantly changed the ENERGY STAR score for many property types presented in the New York City Government building portfolio and made the comparison with the first year of benchmarking unsustainable.

The average ENERGY STAR score for 2019 for eligible City properties is 61.8, average Source EUI is 166.4 kBtu/ft<sup>2</sup>, and average GHG Emissions Intensity is 6.3 kgCO<sub>2</sub>e/ft<sup>2</sup>.

The information in this report is subject to change due to ongoing data quality improvements, energy efficiency and conservation efforts, and changes in building use over time. For additional information on these benchmarking results, contact NYC DCAS Energy Management at [energy@dcas.nyc.gov](mailto:energy@dcas.nyc.gov).

\* Data used to generate this report is collected and reported by City operating agencies. The information in this report is subject to change due to data quality improvements, energy efficiency and conservation efforts, and changes in building use over time.

\* 2010 data as published in 2013 New York City Government Building Energy Benchmarking Results.

\* Score of "Not Available" indicates building use categories for which the Portfolio Manager does not provide an ENERGY STAR score.

\* Source EUI and GHG Emissions Intensity calculations performed by U.S. Environmental Protection Agency (EPA) methodology with EPA greenhouse gas emissions factors.
