Good afternoon I also think that the parks in the Bronx especially in Bathgate Avenue, should be fixed because people don't have cars to go far or don't want to take the bus or train and the parks that we have here, yes they are a little bit clean, but the swings and the slide burn in the summer because they get hot. Even the park that is in little Italy Arthur Avenue it's also not getting fixed don't forget about the community which means the people that live around that cannot afford to go far or just feel comfortable where they are and need for the town just to be fixed, also the water fountains that you can't even drink water unless you're gonna put your whole mouth into it and they're not clean. Try to take a ride or a walk around our neighborhoods and then see if you will like for your children to be playing or living in this neighborhood if it is the way it is I'm sure that when you take a look at it you would wanna fix it yourself so your family would feel comfortable in it.
