UPDATE ON AREAS OF CONCERN IN NEW YORK CITY

October 5, 2020 – The Health Department continues to track concerning clusters of COVID-19 cases in New York City.

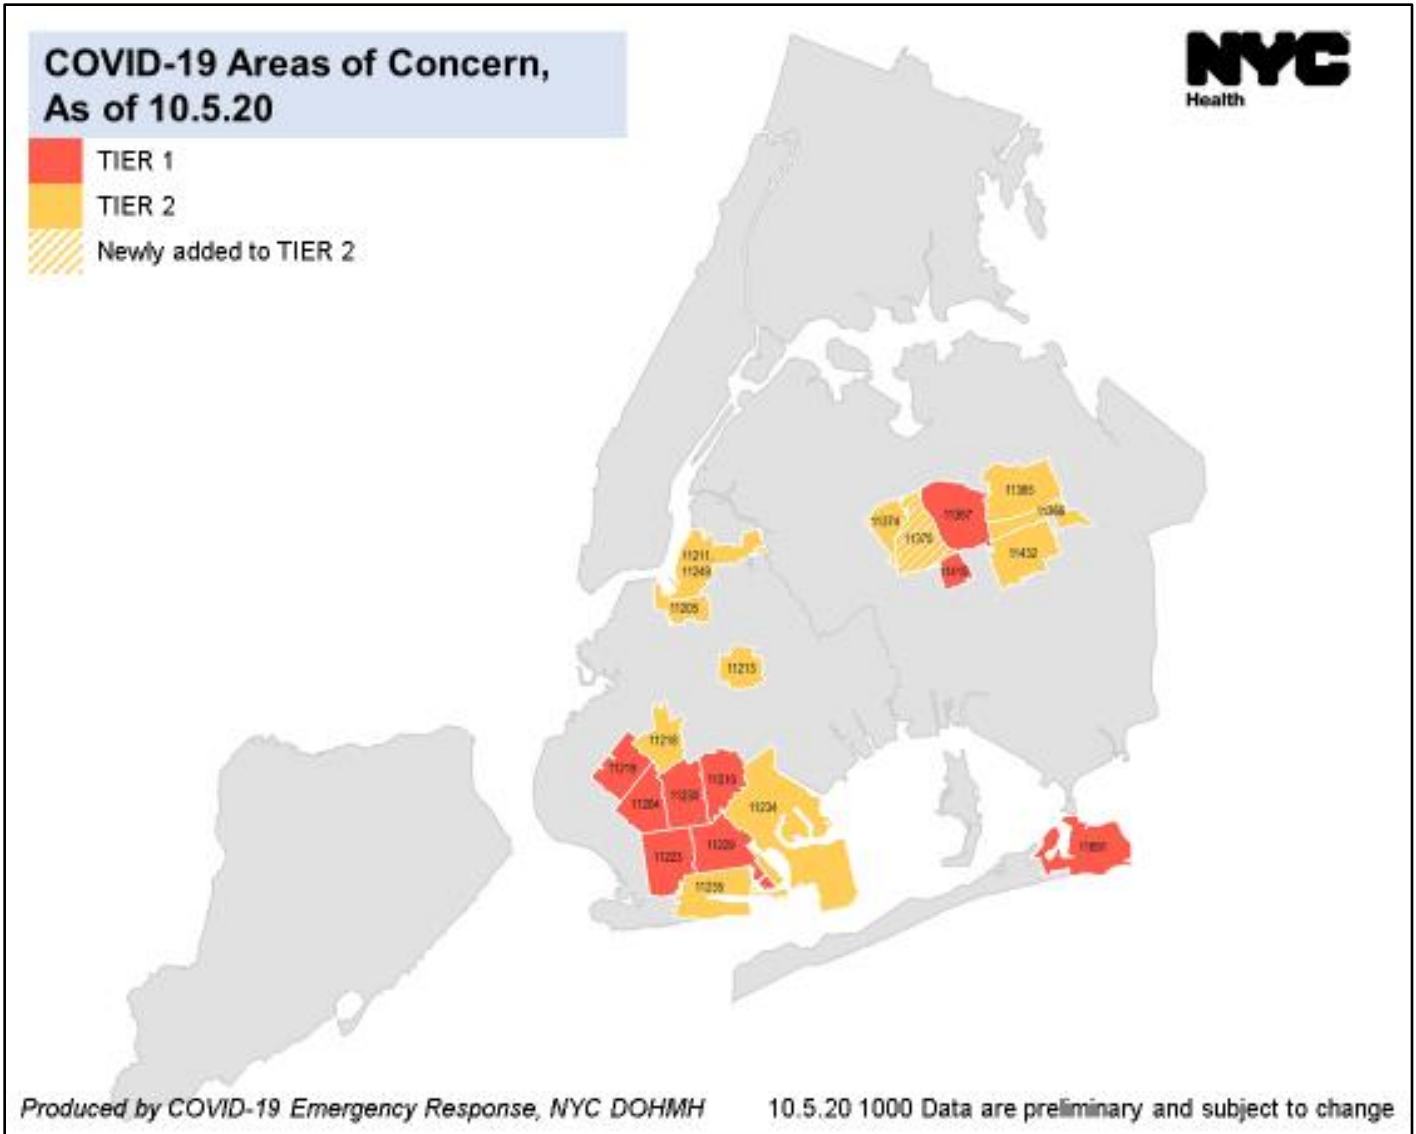

Yesterday, Mayor Bill de Blasio sent a proposal to New York State government to close non-essential businesses, close public and private schools, and limit non-essential gatherings in 9 New York City ZIP codes where COVID-19 rates have remained over 3% for at least 7 consecutive days. These 9 ZIP codes are denoted as Tier 1 in the table below. The proposed plan also includes closing down high-risk activities in additional New York City ZIP codes of concern, labeled below as Tier 2, which now includes ZIP code 11375, bringing the total of Tier 2 ZIP codes to 12. Additionally, ZIP codes 11235 and 11374, which are currently in Tier 2, have been over 3% positivity for 5 consecutive days, approaching the threshold to enter Tier 1.

Today’s citywide percent positivity is 1.83%. The 9 ZIP codes in Tier 1 account for over 25% of new cases citywide over the past 2 weeks, despite representing 7.4% of the city’s overall population. The Health Department has observed a slight increase citywide in visits to emergency departments for COVID-like illness over the last week.

The data below are based on today’s update of 14-day cumulative percent positivity.

Guidance for Residents

- All New Yorkers should continue to follow the **Core 4**: [wear a face covering](#), practice proper hand hygiene, maintain safe physical distance from others, and stay home if you are sick.
- **Get tested!** All New Yorkers should get tested whether or not they have symptoms. Tests are free. [Find a testing site near you.](#)
- **Worship safely:** Avoid large gatherings, especially indoors. If your house of worship has reopened, wear a face covering, don't share chalices or utensils and avoid close contact with others including hand shaking and hugging — wave instead. If you're singing, you must stay at least 12 feet apart from others.
- As we begin a return to activities like [dining out](#) and [shopping](#), it is essential that we continue to take steps to prevent transmission of COVID-19.

The City continues to deploy additional testing resources to these areas as well as mask distribution, calls, canvassing, face-covering enforcement and inspections or visits to schools and commercial establishments to ensure that guidelines are being followed. Thousands of visits to affected businesses have been carried out in recent days along with inspections that have occurred through the summer.
