Notes from Frances Pardus-Abbadessa, Executive Deputy Commissioner HRA/OCSE:

OCSE received \$56,504,538 in total collections for the month of February 2016, making year to date collections flat when compared to the same period in 2015. Support Establishment Percentage continues to remain high at 77%, and Paternity Establishment reached a new high of 82% achieving a 12 percentage point increase since 2009. There were 1,683 new orders established this month, an increase of 26% compared to February 2015. On average, cases receiving a payment (charging and arrears only cases) remains stable at 42%.

*= 5 week month

⁽¹⁾ This measure includes actively charging and arrears only cases. However, if we consider only actively charging cases (cases with an ongoing obligation) the Total Cases with a Collection percentage remains stable at 59% this month.

⁽²⁾ We continue to observe the effects of ongoing cleanup projects aiming at closing account level cases that are appropriate for closure. This contributes to the large decrease in Current Support Due and in the percentage of "Current Distributed – Former."

⁽³⁾ The State carried out a one-time clean up project in 2012 with the Department of Health to identify cases that received Medicaid at any time and moved the collection data from Never to Former, leaving the cases in place.
