2016 Regional Economic Development Council Awards Announced. Learn More.

Welcome to the New New York

The Regional Economic Development Council initiative (REDC) is a key component of Governor Andrew M. Cuomo's transformative approach to State investment and economic development. In 2011, Governor Cuomo established 10 Regional Councils to develop long-term strategic plans for economic growth for their regions. The Councils are public-private partnerships made up of local experts and stakeholders from business, academia, local government, and non-governmental organizations.

The Regional Councils have redefined the way New York invests in jobs and economic growth by putting in place a community-based, bottom up approach and establishing a competitive process for State resources.

Explore the map above and learn more about how these plans will create jobs in the communities in your region and help to revitalize our state from the ground up.
