Provider Spotlight: Special NOFO Edition

This month the CoC would like to spotlight **Breaking Ground**, who was recently awarded funding from HUD's [Special NOFO](#) for two projects: Project Welcome MAT (Moving on an Accelerated Timeline) and Project IN-Reach (Integrating harm Reduction and Increasing Care Coordination).

Breaking Ground was founded in 1990, by a small group of people coming together to bring to scale a new model of housing for people who were experiencing or at risk of homelessness - permanent supportive housing. The result was Breaking Ground's Times Square residence. Take a tour of [Breaking Ground's website](#) to learn more!

Project Welcome MAT's central objective is to reduce the amount of time between a Breaking Ground (BG) client's acceptance into BG permanent supportive housing and their actual move-in thereby narrowing the gap between a "paperwork first" approach to housing and a true Housing First approach.

Project IN-Reach's goal is to integrate Harm Reduction (HR) services and robust care coordination practices

into our street homeless outreach services, building on a pilot project seeking to reduce unsheltered deaths in a particular area where the outreach teams had seen large increases in past years. Project IN-Reach builds on this by turning additional attention to the risk that opioid use and other forms of substance use pose to folks who are unsheltered.

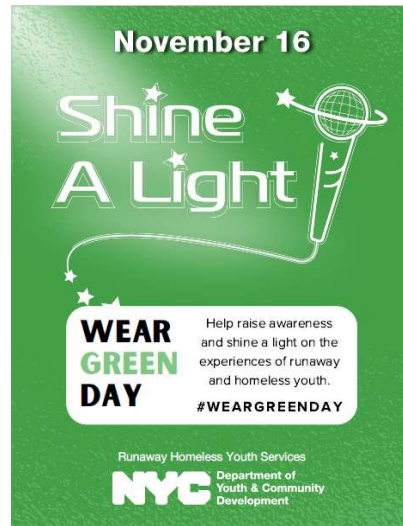

We're Hiring at the Continuum of Care!

The Office of Research and Policy Innovation (ORPI) here at the Human Resources Administration/Department of Social Services is looking for a Continuum of Care Coordinator and ESG Project Manager to join the CoC team.
