RE: Qualtrax Document Effective Dates

On July 6, 2021 the Qualtrax application, which is used to store controlled documents within the Department of Forensic Biology, was moved to a different internal web-address. As such, all links within the documents also needed to be updated. This was done on July 16, 2021.

Since there were no substantive or technical changes made to the documents, any documents dated July 16, 2021 will **not** be uploaded to the nyc.gov/ocme website. All documents on the nyc.gov/ocme site dated before July 16, 2021 or after July 16, 2021 will reflect the Department of Forensic Biology testing policies in place at that time.
