

GHI-Anthem CBP option consists of two components:

- GHI, an EmblemHealth company, offering benefits for medical/physician services, and
- Anthem Blue Cross and Blue Shield offering benefits for services provided at hospital and out-patient facilities.

GHI Emblem Health (GHI): You have the freedom to choose any provider worldwide. You can select a GHI participating provider and not pay any deductibles or coinsurance, or go out-of-network and still receive coverage, subject to deductibles and coinsurance. GHI’s provider network includes all medical specialties. When you need specialty care, you select the specialist and make the appointment. Payment for services will be made directly to the provider - you will not have to file a claim form when you use a GHI participating provider.

Anthem Blue Cross and Blue Shield (AnthemBCBS): 96% of the nation’s hospitals participate in the Blue Cross and Blue Shield Association BlueCard® PPO Program network, which provides you with access to network care across the country, it should be easy to find a participating facility in a convenient location.

NEW IN 2020

You can now visit Memorial Sloan Kettering Cancer Center (MSK) for cancer treatment and Hospital for Special Surgery (HSS) for orthopedic treatment, and your hospital inpatient copays will be waived when you utilize these two nationally recognized hospitals. You must use a doctor who participates in your GHI-CBP plan and participates with MSK or HSS. If you prefer, you can still go to any hospital of your choice and your benefits and costs will remain the same as they are today.

*Must be dispensed by a Specialty Pharmacy.

OPTIONAL RIDER – ENHANCED SCHEDULE FOR OUT-OF-NETWORK MEDICAL/PHYSICIAN SERVICES PROVIDED THROUGH GHI-EMBLEM HEALTH

Enhanced schedule increases the reimbursement of the basic program's non-participating provider fee schedule, on average, by 75%.

GHI-EMBLEM: NON-PARTICIPATING (OUT-OF-NETWORK) PROVIDER BENEFITS:

Payment for services provided by out-of-network providers is made directly to you under the NYC Non-Participating Provider Schedule of Allowable Charges (Schedule). The reimbursement rates (allowed amounts) in the Schedule are not related to usual and customary rates or to what the provider may charge but are set at a fixed amount based on GHI's 1983 reimbursement rates. Most of the reimbursement rates have not increased since that time and will likely be less (and in many instances substantially less) than the fee charged by the out-of-network provider. You will be responsible for any difference between the provider's fee and the amount of the reimbursement; therefore, you may have a substantial out-of-pocket expense.

Once a member, if you intend to use an out-of-network provider, you can call GHI-Emblem Customer Service with the medical procedure code/s (CPT Code) of the service(s) you anticipate receiving to find out what you would be reimbursed.

Below are some examples of what you would typically pay out of pocket if you were to receive care or services from an out-of-network provider.

Typical Out-of-Pocket Costs for Receiving Care from Out-of-Network Providers:		
Established Patient Office Visit (typically 15 minutes)		CPT Code 99213
Estimated Charge for a Doctor in Manhattan		\$225.00
Reimbursement Under the Schedule		-\$ 33.36
<i>Member Out-of-Pocket Responsibility</i>		<i>\$191.64</i>
Routine Maternity Care and Delivery		CPT Code 59400
Estimated Charge for a Doctor in Manhattan		\$9,040.00
Reimbursement Under the Schedule		-\$1,379.00
<i>Member Out-of-Pocket Responsibility</i>		<i>\$7,661.00</i>
Total Hip Replacement Surgery		CPT Code 27130

Estimated Charge for a Doctor in Manhattan	\$20,099.95
Reimbursement under the Schedule	- \$ 3,011.00
<i>Member Out-of-Pocket Responsibility</i>	<i>\$17,088.95</i>

Please note that deductibles may apply and that you could be eligible for additional reimbursement if your catastrophic coverage kicks in or you have purchased the Enhanced Non-Participating Provider Schedule, an Optional Rider benefit that provides lower out-of-pocket costs for some surgical and in-hospital services from out-of-network doctors.

Effective for services received on or after April 1, 2015, GHI-EmblemHealth has set up new protections to ensure that — in the following circumstances — members won't be responsible for costs other than the in-network cost-sharing (in-network copay, coinsurance and/or deductible) that applies under the plan. These two cases are:

- If you receive **out-of-network emergency services** in a hospital in the State of New York
- If you receive a **non-emergency "surprise bill"** for out-of-network services rendered in the State of New York

You will not be responsible for the costs of "emergency services" you receive in a hospital, other than any in-network cost-sharing (in-network copay, coinsurance and/or deductible) that applies to such services under your plan.

You will not be responsible for the costs of "surprise bills" for out-of-network services, other than any in-network cost-sharing (in-network copay, coinsurance and/or deductible) that applies under your plan. For more information on what is "surprise bill", please call or visit the EmblemHealth website.

Please refer to the GHI-CBP Basic Plan, GHI-CBP with Enhanced Schedule and Prescription Drugs and Anthem Blue Cross and Blue Shield (companion to GHI-CBP medical coverage) for additional information and to see what this plan covers and any cost-sharing responsibilities.

Please refer to the Summary of Benefits and Coverage (SBC) for additional information and to see what this plan covers and any cost-sharing responsibilities.
