

NEW YORK CITY DEPARTMENT OF CITY PLANNING

NOTICE OF ADOPTION OF FINAL RULE RELATING TO THE FACILITATION OF THE PAPERLESS FILING SYSTEM

NOTICE IS HEREBY GIVEN in accordance with the requirements of Sections 1043 of the New York City Charter and pursuant to the authority vested in the Commissioner of the City Planning Commission (CPC) and the Director of the Department of City Planning (DCP) by section 192 and 1043(a) of the New York City Charter that the CPC and the DCP adopts the following rule that facilitates the implementation of the DCP's Paperless Filing System. This rule was not included in CPC/DCP regulatory agenda for this Fiscal Year because it was not contemplated when the CPC/DCP published the agenda. The CPC and DCP published a Notice of Opportunity to Comment on the proposed rule in the City Record on December 15, 2017. On January 17, 2018, the CPC held a public hearing on the proposed rule. On January 17, 2018, Calendar Number 28, the hearing was closed. On February 28, 2018, Calendar Number 20, the CPC voted unanimously in favor of adopting the rule. This rule shall take effect 30 days from the date hereof.

Statement of Basis and Purpose of Rule

Chapter 8 of The New York City Charter and Title 62 of the Rules of the City of New York (the "Rules") provide for the submission, review and approval of land use applications and their related environmental review materials. Historically, such applications were received by the Department of City Planning ("DCP") in hardcopy and, more recently, digitally via email. Review of such applications is conducted by DCP, community boards, borough president's offices and other public entities, and the results of such reviews are transmitted, both to applicants and other stakeholders, via paper copies and email.

To improve the efficiency and reduce the cost of the application process, DCP is developing a paperless filing system (PFS) that will provide an electronic platform for the application process and enable the submission of applications and related communications without the use of paper and, for the most part, email. Facilitating collaboration, the PFS will enable DCP staff, applicants and their representatives, and governmental entities to access the system via a web-based interface, and those entities who make, modify or review applications to more smoothly exchange materials, comments, and ideas. PFS will also allow members of the public to more easily access applications and related materials and understand the timeline for public review.

The Rules currently contain certain terms and phrases which, if construed literally, would either not allow aspects of the PFS to be implemented or require methods of communication in addition to those proposed to be employed by the PFS.

To facilitate the full implementation of the PFS, DCP is making some minor changes to Chapters 1, 2, 3, 5, 6, 8, 9, & 10 of the Rules to ensure that the PFS will operate as intended without violating the Rules. The revisions do not substantively modify the Rules in that they still require forms of notice and document delivery (including applications) between DCP, applicants, and stakeholders but remove references to certain methods and modes of communication that conflict

with the efficiencies enabled by the PFS. The changes are also generic enough to allow for further evolution in communication that may develop in the future.

Specifically, to allow use of the PFS, the rule changes clarify, where necessary, that land use application or environmental review materials may be filed and sent among the stakeholders via media other than paper. Comments on such applications could be submitted to DCP via the PFS from a community board or borough president's office with access to the PFS via DCP's website. As the PFS would allow payment of application fees via methods other than by check, the current land use and CEQR fee rules are being modified to remove the requirement for payment to be attached to the application at the time of an application (although payment would be required for an application to be deemed "filed"). On a more basic level the modifications also remove references to the DCP's and City Planning Commission's former address at 22 Reade Street. With a similar purpose of updating and clarifying, the rule change also makes the relevant ULURP rule for notice of (E) designations consistent with related Section 11-15 of the Zoning Resolution and incorporate reference to DCP's website to reduce paper.

DCP's authority for these rules is found in sections 1043 and 191(b)(2) of the New York City Charter.

New material is underlined.

[Deleted material is in brackets.]

"Shall" and "must" denote mandatory requirements and may be used interchangeably in the rules of this department, unless otherwise specified or unless the context clearly indicates otherwise.

[or applications without the required fee.]

(2) *Initial Review.* The Department of City Planning shall, within five (5) days, review each application to [i]ensure that all required forms, documents and other exhibits supplied have been submitted and prepared [in the manner] as required by the instructions. If any of the documentation is missing or has been improperly prepared, the applicant will be notified that the submitted application has been rejected, along with a listing of its deficiencies [the application will be returned with a listing of its deficiencies.] If the documentation is in order, the Department shall assign a docket number and shall [send] transmit a Notice of Receipt[s] of the application to all the appropriate Department divisions and other agencies which review such application, and to the community board(s), Borough President(s), borough board (when appropriate), the City Council and the applicant in accordance with § 2-02(b). Such Notice of Receipt, when sent to the community board(s), Borough President(s), borough boards and City Council shall include a copy of the application form and all documents [and exhibits attached thereto] included therewith.

(3) *Substantive Review.* The application form, documents and other exhibits shall be subject to review by the appropriate divisions of the Department in order to [i]ensure that the requirements for completeness in § 2-02(a)(5) have been met prior to certification of the application into ULURP. The Department may request any additional documents, maps, plans, drawings or information necessary to complete or organize the submission, or to clarify its substance and the land use issues attendant to it. The Department of City Planning shall refer such additional application documents or amendments within five (5) days to each affected borough president, community board or borough board, and to the City Council. Not later than sixty (60) days after the Notice of Receipt has been sent, the Department of City Planning shall notify the applicant of any deficiencies or errors in the application, documents and other exhibits, and shall make any requests for revised or supplementary documents and exhibits. The applicant is expected to respond within a reasonable time. Upon receipt of the corrected, revised or supplementary material, the Department of City Planning shall review it within [a period of not] no more than sixty (60) days and make any additional request for further corrections or supplements if needed. If the applicant fails to respond within sixty (60) days after the receipt of a request for revisions, corrections or supplement, the Department of City Planning shall give notice to the applicant that the application will be deemed withdrawn.

(4) *Appeal for Certification.* At any time after one hundred and eighty (180) days have elapsed from the date of the Notice of Receipt of any application, the applicant may appeal in writing to the Commission to certify the application as complete. The affected Borough President may also appeal in writing if the Borough President finds that the application is consistent with the land use policy or strategic policy statement of the borough formulated pursuant to § 82, subsection 14 of the Charter. Upon receipt of such an appeal, the Commission shall refer it to the Department of City Planning and the Office of Environmental Coordination or lead agency for an evaluation of the completeness of the application, which shall include an identification of all material requested by the Department of City Planning and the environmental review staff or lead agency but not yet provided by the applicant. If the Commission determines that pertinent information has not been supplied, such information shall be listed by the Department of City Planning and the environmental review staff and sent by the Commission to the applicant within thirty (30) days of receipt of the appeal. When the applicant has responded, either by supplying all the information so requested, or by explaining why such information should not be required in order to certify the application, the Commission shall consider the evaluation and the applicant's response and either certify the application as complete in accordance with § 2-02(a)(5) or deny the appeal. A denial by the Commission shall state the information that must still be supplied or clearly state the reason for denial. Such determination shall be made not later than sixty (60) days from the date the appeal is received. If the appeal is one which has been made by the affected Borough President, and the land use proposed in the application is consistent with the land use policy or strategic policy statement of the affected Borough President, then a vote of five members shall be sufficient to certify the application as complete in accordance with § 2-02(a)(5) below. In all other instances, a majority vote of the Commission is necessary to certify an application. A denial of the appeal shall mean that the application remains incomplete, and the Department of City Planning and the environmental review staff shall continue with timely review of the application until all the information required for completeness has been provided at which time certification shall take place. If such review continues for an additional one hundred and eighty (180) days or more beyond the denial, the applicant may again appeal to the Commission under the procedure outlined above to certify the application.

(5) *Certification of Completeness.* The Department or the Commission shall certify the application as complete when compliance has been achieved with all of the following:

[In the event] If the lead agency is other than the Commission, no such application [for an amendment to the Zoning Map] shall be certified as complete pursuant to § 2-02(a)(5) hereof until such other lead agency shall have submitted any notification of a proposed (E) designation, in the form and addressed to the parties required by this Section to the Department of City Planning, who shall send such notification [in the manner] as provided by this Section.

(2) Such notification shall be by first-class mail and shall be made to the person(s) or entity(ies) identified in the official records of the City of New York as the fee owners of such tax lot or zoning lot and shall be sent to the address or addresses indicated in such records.

For purposes of this paragraph (1), a community board shall be deemed to have received an application nine (9) calendar days after the date of certification. (2) Where the negative vote of the community board was adopted without a public hearing, without a quorum or at a meeting conducted after its 60-day period for review, such non-complying negative vote shall not serve the purpose of Charter § 197-d(b)(2). The Commission may note the noncompliance and any other deficiency in compliance with this chapter in its report.

(b) *Waivers of hearings and recommendations.*

(1) *Leases.* In the case of a proposed lease of property of the City which in the judgment of the community board does not involve a substantial land use interest, such board may waive the

holding of a public hearing and preparation of a written recommendation. In such case the community board shall submit to the Department a written waiver of its right to hold a public hearing and to submit recommendations to the City Planning Commission and affected Borough President. When a written waiver of the community board's right to hold a hearing and submit a recommendation is received by the Department of City Planning the community board's period of review shall be deemed ended and the Borough President's time period begun.

(2) *Franchises.* In the case of Request for Proposal or other solicitation for a franchise which in the judgment of the community board does not involve a substantial land use interest, such community board may submit a written waiver to the Commission of the right to hold a public hearing and the preparation of a written recommendation.

(2) *General character.* Hearings shall be legislative type hearings, without sworn testimony or strict rules of evidence. Only members of a community board and persons expressly authorized by the chairperson may question a speaker. All persons appearing and wishing to speak shall be given the opportunity to speak. A community board hearing shall be conducted in accordance with by-laws adopted by the community board.

The community board may include in its submission the reasons for the vote and any conditions attached to its vote. The community board may state that its conditional approval shall be considered a negative recommendation for purposes of Charter § 197-d(b)(2) if conditions that it considers essential to minimize land use or environmental impacts are not adopted by the Commission. The City Planning Commission shall give consideration only to those conditions which are related to land use and environmental aspects of the application.

(4) *Submission.* A community board shall submit its recommendation or waiver promptly after adoption, to the Commission, to the Borough President, to the applicant and, in the case of an application referred to two or more community boards and a borough board, to such borough board. If a community board fails to act within the time limits for review the application shall be deemed referred to the next level of review at the completion of the community board's time period.

(g) *Requests for review of action not in a community district.* A community board or borough board may [request a copy] obtain [of] the filed application and supporting documents for any action subject to ULURP which is not located within the district boundaries of such [the] community board[,] or [the] borough board [, making the request]. Such community board or borough board may request review of such applications by writing, either to the Calendar Office of the Commission, or requesting through the Department's website, and it shall state the basis for the board's judgment that the application may significantly affect the welfare of the district or borough served by such board. [If such request is made, the Department of City Planning shall forward the information described above to said board.] Thereafter, the community board or borough board may schedule a public hearing on the application, such hearing and notice thereof to be in conformance with §§ 2-03(c), 2-03(d), 2-05(c) and 2-05(d) of this chapter and may submit a written recommendation to the Commission. The Commission may receive such recommendation at any time prior to its final action on the application; however, it shall have no authority to extend the review period defined in Charter § 197-c, nor shall a review by a second community board pursuant to this subparagraph (g) require that the application be reviewed by the borough board. A Borough President may similarly [request] [a copy of] obtain [an] a filed application and supporting documents for and request review of any action subject to ULURP which is not located within the boundaries of the borough.

(10) changes in two or more elements of the environment, no one of which is substantial, but taken together result in a material change to the environment.

(b) *(Reference to § 6-15 Type II list, deemed to be State Type II list of 6 NYCRR Part 617.13. See City Planning Rules § 5-02(b)(2).);* For the purpose of determining whether an action will cause one of the foregoing consequences, the action shall be deemed to include other contemporaneous or subsequent actions which are included in any long-range comprehensive integrated plan of which the action under consideration is a part, which are likely to be undertaken as a result thereof, or which are dependent thereon. The significance of a likely consequence (i.e. where it is material, substantial, large, important, etc.) should be assessed in connection with its setting, its probability of occurring, its duration, its irreversibility, its controllability, its geographic scope and its magnitude (i.e. degree of change or its absolute size). Section 6-15 of this chapter refers to lists of actions which are likely to have a significant effect on the environment and contains lists of actions found not to have a significant effect on the environment.

Coord., City Planning Rules § 5-04(c).*); Environmental impact statements should be clearly written in a brief and concise manner capable of being read and understood by the public. Within the framework presented in subdivision (d) of this section, such statements should deal only with the specific significant environmental impacts which can be reasonably anticipated. They should not contain more detail than is appropriate considering the nature and magnitude of the proposed action and the significance of its potential impacts.

(b) All draft and final EIS's shall [be preceded by] include a cover [sheet] page stating:

(1) whether it is a draft or a final;

The referenced documents shall be made available to the public in the same places where copies of the statement are made available. When a statement uses incorporation by reference, the referenced document shall be briefly described and its date of preparation provided.

§ 6-10 Draft Environmental Impact Statements – Procedures. (a) Notice of Completion.

Upon the satisfactory completion of a draft EIS, the lead agencies shall immediately prepare, file and make available for public inspection a Notice of Completion as provided in paragraphs (1), (2) and (3) of this subdivision. Where a proposed action is simultaneously subject to the Uniform Land Use Review Procedure ("ULURP"), the City Planning Commission shall not certify an application pursuant to ULURP until a Notice of Completion has been filed as provided in paragraph (3) of this subdivision.

(b) When an agency decides to carry out or approve an action which may have a significant effect on the environment, it shall make the following findings in a written decision:

(1) consistent with social, economic and other essential considerations of state and city policy, from among the reasonable alternatives thereto, the action to be carried out or approved is one which minimizes or avoids adverse environmental effects to the maximum extent possible, including the effects disclosed in the relevant environmental impact statement;

(2) consistent with social, economic and other essential considerations of state and city policy, all practicable means will be taken in carrying out or approving the action to minimize or avoid adverse environmental effects.

(c) For public information purposes, [a copy of] the Decision shall be filed in the same manner as the draft EIS pursuant to § 6-11(b) of this chapter.

§ 6-13 Programmatic Environmental Impact Statements. (a) Whenever possible, agencies shall identify programs or categories of actions, particularly projects or plans which are wide in scope or implemented over a long time frame, which would most appropriately serve as the subject of a single EIS. Broad program statements, master or area wide statements, or statements for comprehensive plans are often appropriate to assess the environmental effects of the following:

- (1) a number of separate actions in a given geographic area;
- (2) a chain of contemplated actions;
- (3) separate actions having generic or common impacts;
- (4) programs or plans having wide application or restricting the range of future alternative policies or projects.

§ 6-14 Rules and Regulations. (*Inapplicable, City Planning Rules § 5-02(a).*);

§ 6-15 Lists of Actions. (a) *Type I.* (*See City Planning Rules § 5-02(d).*); Type I actions enumerated in § 617.12 of 6 NYCRR 617 are likely to, but will not necessarily, require the preparation of an EIS because they will in almost every instance significantly affect the environment. However, ministerial actions never require the preparation of an EIS except where such actions may directly affect a critical area or an historic resource enumerated in paragraphs (22) and (23), respectively, of subdivision (a) of § 617.12. In addition, for the purpose of defining paragraph (2) of said subdivision and section, the following thresholds shall apply:

- (2) relating to major office centers: any new office structure which has a minimum of 200,000 sq. ft. of floor area and exceeds permitted floor area under existing zoning by more than 20 percent, or the expansion of an existing facility by more than 50 percent of floor area, where the total size of an expanded facility exceeds 240,000 sq. ft. of floor area.

(b) *Type II.*

(1) (See *City Planning Rules § 5-02(d)*.); Type II actions will never require the preparation of an EIS because they are determined not to have a significant effect on the environment, except where such actions may directly affect a critical area or an historic resource enumerated in paragraphs (22) and (23), respectively, of subdivision (a) of § 617.12 of 6 NYCRR 617.

(2) (*Inapplicable. Replaced by State Type II list 6 NYCRR Part 617.13. See City Planning Rules § 5-02(a) and § 5-02(b)(2)*.);

§ 6-03 Threshold Review and Determination.

(a) *Department Review.* Each proposed plan shall be reviewed by the Department staff who shall report to the Commission not later than 90 days after the plan's submission as to whether the plan appears to meet the standards for form and content and for consistency with sound planning, as set forth in § 6-04 of these rules. Prior to making the report, the staff shall inform the sponsor of all deficiencies with respect to form and content and any changes, additions or deletions which, in the opinion of the staff, may correct such deficiencies. The sponsor may, thereupon, indicate its willingness to make such changes, additions or deletions in which case the Department will defer its report to the Commission until the changes have been made. The sponsor may, instead, request that the plan be presented without change to the Commission for its threshold findings of form and content and sound planning policy. At the time of any Department report on a proposed plan, the Commission may receive a similar report from representatives of the sponsor.

(b) *City Planning Commission Determination.* Within 30 days after its presentation by the Department staff, the Commission shall determine, when required by the Charter and in accordance with the standards set forth in § 6-04 of these rules, whether the proposed plan is of appropriate form and sufficient content, and whether it is in accordance with sound planning policy. If the Commission has determined that a proposed plan does not meet the standards for form or content or for sound planning policy, it shall direct the plan back to the sponsor with a statement explaining its deficiencies. When the Commission has determined that a proposed plan is of appropriate form and content and is in accordance with sound planning policy, it shall direct the Department to undertake the necessary environmental review if the plan has been sponsored by a community board in accordance with Article 5 of these rules. If the plan has been sponsored by an agency other than a community board the Commission shall determine

whether a Type II declaration, a negative declaration, or a notice of completion of a draft EIS has been issued, and if so, it shall direct the Department to distribute the plan in accordance with § 6-06 of these rules.

(c) *Coordination of Plan Review.* The Commission may determine that, despite its finding of appropriate form and content and sound planning policy, a proposed plan should not immediately proceed because there are other planning efforts, ULURP reviews or environmental studies underway which should be coordinated with the plan. In such a case, the Commission may direct the Department to work with the sponsor and any other interested agencies in developing an appropriate timetable and strategy for the plan, and to report back to the Commission.

(d) *Progress Report.* When 180 days has elapsed following a threshold determination pursuant to subdivision (b), if a proposed plan has not been distributed for review either because the environmental review remains incomplete, or because the plan has been delayed pursuant to subdivision (c), the sponsoring agency may make a written request to the Commission to expedite the plan's distribution. The Commission shall direct the Department to report in writing within a fixed period of time the progress of the plan, including any outstanding aspects of the environmental review, or any continuing problems of coordination delaying its review. Upon receipt of the report, the Commission may direct the Department to complete the review within a reasonable period of time.

§ 6-06 Plan Distribution and Review.

(a) *Plan Distribution.* When pursuant to § 6-03(b) of these rules, the Commission directs the Department to distribute a proposed plan, the Department shall transmit [copies of] the plan simultaneously to all affected community boards, Borough Presidents and borough boards, as defined in Charter §§ 196 and 197-a(c). The Commission may also direct its distribution to other agencies whose interests may be affected including neighboring community boards and Borough Presidents, and any city and state agency with jurisdiction over elements of the plan.

(b) *Community Board Review.* Each community board which has received from the Department of City Planning a proposed plan affecting land in its district shall conduct a public hearing on the plan except when a single borough-wide hearing is to be held on a borough plan. Notice of the public hearing shall be given and the hearing conducted in accordance with the ULURP rules for community board public hearings. Subsequent to the public hearing and within a period of sixty (60) days following its receipt of the plan, the community board shall transmit its written recommendation to the City Planning Commission with copies to the Borough President, City Council and the sponsor. The Community board which is the sponsor of a plan and which held a hearing on it prior to filing with the Department, need not hold a second hearing.

(c) *Borough president review.* The Borough President shall have one hundred twenty (120) days following the receipt of a proposed plan in which to review the plan and submit written recommendation to the City Planning Commission with copies to the City Council and sponsor. The Borough President may choose to conduct a public hearing on the plan.

(d) *Borough board review.* Each borough board which has received from the Department of City Planning a proposed plan affecting land in two or more community districts in its borough shall conduct a public hearing on the plan. Such public hearing shall take place and the report of the borough board shall be transmitted within one hundred twenty (120) days following its receipt of the plan. In the case of a plan affecting the entire borough, a single borough-wide public hearing may be held in lieu of separate hearings by the community boards. Notice of the public hearing shall be given and the hearing conducted in accordance with the ULURP rules governing borough board hearings. The borough board shall transmit its written

recommendation to the City Planning Commission with copies to the City Council and the sponsor.

(e) *Request for review.* Any community board or borough board may make a written request to the Department to receive and review [a copy of] a proposed plan which does not involve land within its district or borough. In its request the Community board or borough board shall state the reason why the plan significantly affects the welfare of its district or borough. Upon receipt of the plan, the community board or borough board may conduct a public hearing and may make any recommendation to the City Planning Commission with copies to the City Council and sponsor. When it transmits such a plan, the Department shall notify the community board or borough board of the remaining time period during which it may review and comment on the plan.

(f) *Other requests.* A borough president may make a written request to the Department to receive and review [a copy of] a proposed plan for a district or area outside the borough. Any other interested party may similarly request a copy. Such request may be made to either the Department or the sponsor.

§ 6-09 Filing, Review and Revision.

(a) *Filing.* Upon final adoption of a plan by the City Council, the plan shall be filed and indexed by the Calendar Officer of the Department. The Department shall make [copies of] the plan available for review by the public and shall transmit the plan to all affected agencies for their use.

(b) *Revision of Plans.* A plan may be periodically reviewed and revised by its sponsor or the Commission may initiate such review. Any such revision may be presented for adoption as an amendment to the plan in accordance with the procedures set forth in these rules.

(c) *Summary of Plans.* In each Zoning and Planning Report adopted pursuant to Charter § 192(b), the Commission shall include a summary of all 197-a plans adopted during the preceding four years.

(b) Within ninety (90) days of receiving a RWCDS Memorandum, the Department must review the memorandum and:

(1) notify an Applicant that the draft application includes all such required forms, documents, and exhibits as [in the manner] required by the instructions for submitting a land use application, such that the Applicant may proceed to file a land use application pursuant to § 10-09; or

(2) notify an Applicant that the draft land use application is missing one or more required forms, documents, or exhibits, or is not submitted as [in the manner] required by the instructions for submitting a land use application. The Applicant must submit a revised draft land use application to the Department. Within forty-five (45) days of receiving the revised draft land use application, the Department must review it and notify the Applicant that the Applicant may proceed to file a land use application pursuant to § 10-09, or that additional or revised materials must be submitted. (1) notify an Applicant that the draft CEQR short/full form is substantially complete in form and substance such that the Applicant may proceed to file an application for environmental review pursuant to § 10-10; or

(2) provide comments to an Applicant on the draft CEQR short/full form, which the Applicant must address to the Department's satisfaction before the Applicant may proceed to file an application for environmental review pursuant to § 10-10. Within forty-five (45) days of receiving a revised draft CEQR short/full form, the Department must review the revised draft and notify the Applicant that the revised draft is substantially complete in form and substance such that the Applicant may proceed to file an application for environmental review pursuant to § 10-10, or that the revised draft does not address, in whole or in part, the comments previously provided by the Department to the Applicant, in which case the review process must continue in accordance with the procedures set forth in this paragraph until the Department determines that the draft is substantially complete in form and substance and the Applicant may proceed to file an application for environmental review pursuant to § 10-10.

(c) If the Department fails to notify an Applicant pursuant to subdivision (b) of this section, the Applicant may proceed with filing an application for environmental review as set forth in § 10-10.
