

NEGATIVE DECLARATION (Use of this form is optional)

Statement of No Significant Effect

Pursuant to Executive Order 91 of 1977, as amended, and the Rules of Procedure for City Environmental Quality Review, found at Title 62, Chapter 5 of the Rules of the City of New York and 6 NYCRR, Part 617, State Environmental Quality Review, the Department of City Planning, acting on behalf of the City Planning Commission assumed the role of lead agency for the environmental review of the proposed project. Based on a review of information about the project contained in this environmental assessment statement and any attachments hereto, which are incorporated by reference herein, the lead agency has determined that the proposed project would not have a significant adverse impact on the environment.

Reasons Supporting this Determination

The above determination is based on information contained in this EAS, which finds that the proposed project: and related actions sought before the City Planning Commission would have no significant effect on the quality of the environment. Reasons supporting this Determination are noted below.

Land Use, Zoning and Public Policy

1. This EAS includes a detailed Land Use, Zoning and Public Policy section, which analyzes the potential significance of the Proposed Action on land use, zoning and public policy in the study area. The Proposed Actions would facilitate the completion of a partially built 23,765 gsf, three-story building containing offices and storage space, a loading berth, and 72 unenclosed accessory off-street parking spaces. The project area is predominantly characterized by a diverse mix of uses including commercial, industrial/manufacturing, and residential. The Proposed Action affects an area within the boundaries of the City's Waterfront Revitalization Program. An analysis was conducted (WRP Number: 17-043) that determined that the Proposed Action complies with New York State's approved Coastal Management Program as expressed in New York City's approved Local Waterfront Revitalization Program. The analysis concludes that no significant adverse impacts related to Land Use, Zoning and Public Policy would result from the Proposed Actions.

No other significant effects upon the environment that would require the preparation of a Draft Environmental Impact Statement are foreseeable. This Negative Declaration has been prepared in accordance with Article 8 of the New York State Environmental Conservation Law (SEQRA).
