

# Gowanus Study

## Tonight's Meeting Format and Goals

Welcome! Thank you for coming to the Gowanus Neighborhood Planning Study Framework Open House.

- **Purpose**

To share information and get your ideas and thoughts on the Gowanus Framework along with providing updates on the study to date and in-progress projects and programs.

- **Format**

Tonight is an open house format with stations dedicated to general study updates and background information and community priorities covered in the Framework including *Sustainability and Resiliency, Environmental Remediation, Community and Cultural Resources, Housing, Economic and Job Development, Transportation, and Land Use and Urban Form*. Agency staff will be at each station to interact with directly, answer questions you may have, and take notes and feedback to help inform the neighborhood study.

Here are some sample questions to help get the conversation started:

- What is the Framework's role in the Gowanus Neighborhood Study?
- Why is the Framework important to the community and how can we use it? (Tell us your thoughts on the specific topics areas and if it addresses the priorities of the community.)
- How can the Framework inform how projects and initiatives get implemented?
- What ideas or suggestions do you have for making Gowanus an inclusive and thriving neighborhood?
- Did we miss anything? Tell us!

### **Stay Involved!**

Your involvement and engagement is critical to the success of this ongoing process. Implementation of these bold ideas will require collective action and ingenuity.

Sign up to our mailing list on our website ([www.nyc.gov/gowanus](http://www.nyc.gov/gowanus)) to receive news and updates. Go to [www.PlanGowanus.com](http://www.PlanGowanus.com) to share your input, whenever and wherever in new, interactive ways. As always, feel free to email the team at [gowanus@planning.gov](mailto:gowanus@planning.gov).
