

Metropolitan Hospital Center Learn With Us

Breast Health Update What All Women Should Know

Monday, November 17, 2014
12 Noon—1 PM
6th Floor Auditorium

Anitha Srinivasan, MD, MPH, FACS will discuss breast health issues for women of all ages. Dr. Srinivasan will share her experience in breast cancer care. Learn about routine preventive care, surgical options and new developments.

Dr. Srinivasan is an Attending Surgeon at Metropolitan Hospital Center as well as an Assistant Professor at New York Medical College. She is a frequent lecturer on surgical treatment of breast diseases.

Geralyn Lucas is an author, motivational speaker, and breast cancer survivor. Geralyn will discuss overcoming breast cancer and her newest book, [Then Came Life](#).

Geralyn resides in New York City with her husband, Dr. Tyler Lucas, and two children. She is a member of the Metropolitan Hospital Auxiliary. Geralyn graduated with honors from the Columbia University School of Journalism.

All are welcome. Free Event

Metropolitan Hospital Center hosts informational sessions on important health topics impacting our community. Participants have the opportunity to meet doctors and clinical experts from various areas.
